CITY OF EASTVALE

REGULAR CITY COUNCIL MEETING AGENDA

Eastvale City Hall Council Chambers
12363 Limonite Avenue, Suite 900, Eastvale, CA 91752
Closed Session Meeting: 5:30 PM
Regular City Council Meeting: 6:30 PM
Wednesday, September 10, 2025

City Councilmembers
Michael McMinn, Mayor
Jocelyn Yow, Mayor Pro Tem
Christian Dinco, Councilmember
Clint Lorimore, Councilmember
Todd Rigby, Councilmember

Mark Orme, City Manager
Erica Vega, City Attorney
Marc Donohue, Government Services Director/City Clerk

This Agenda contains a brief general description of each item to be considered. Except as otherwise provided by law, no action or direction shall be taken on any item not appearing on the following Agenda. Unless legally privileged, all supporting documents, including staff reports, and any writings or documents provided to a majority of the City Council after the posting of this agenda are available for review at Eastvale City Hall, 12363 Limonite Avenue, Eastvale, CA 91752 or you may contact the City Clerk's Office, at (951) 361-0900 Monday through Thursday from 7:30 a.m. to 5:30 p.m. and available online at www.eastvaleca.gov.

Members of the public can observe the meeting by viewing the live-stream at www.eastvaleca.gov and may provide public comment by sending comments to the City Clerk's Office by email at cityclerk@eastvaleca.gov. Staff will monitor emails to the extent possible during the meeting and provide comments as possible. All comments will be made part of the record. Comments will then be read into the record, with a maximum allowance of 3 minutes per individual comment, subject to the Mayor's discretion to reduce time on public comment. All comments should be a maximum of 500 words, which corresponds to approximately 3 minutes of speaking time. If a comment is received before the agenda item is heard but before the close of the meeting, the comment will all be included as a part of the record of the meeting but will not be read into the record.

If you are a person with a disability and need an accommodation to participate in the City of Eastvale programs, services, activities, and meetings, contact Maricela Mejia at mmejia@eastvaleca.gov or (951)703-4433 at least 72 business hours in advance to request an auxiliary aid or accommodation.

Regular meetings are recorded and made available on the City's website at www.eastvaleca.gov. Meeting recordings are uploaded to the City's website within 24 hours (unless otherwise noted) after the completion of the meeting.

1. **CALL TO ORDER**

2. **ROLL CALL**

3. **CLOSED SESSION PUBLIC COMMENT**
   Any member of the public may address the Council on items within the Council's subject matter jurisdiction, but which are not listed on this agenda during PUBLIC COMMENTS. However, no action may be taken on matters that are not part of the posted agenda. We request comments made on the agenda be made at the time the item is considered and that comments be limited to three minutes per person with a maximum of six minutes (time may be donated by one person). Please address your comments to the Council and do not engaged in dialogue with individual Council Members, City staff, or members of the audience. Blue speaker forms are available at the front table to the entrance of Council Chambers.

4. **CLOSED SESSION ITEM(S)**

   4.1. CONFERENCE WITH LEGAL COUNSEL—EXISTING LITIGATION. Name of case: Yakubovsky v. City of Eastvale, Riverside Superior Court Case No CVRI2401725.

5. **INVOCATION**

6. **PLEDGE OF ALLEGIANCE**

7. **ADDITIONS/REVISIONS**
   The City Council may only add an item to the Agenda after making a finding that there is a need to take immediate action on the item and that the item came to the attention of the agency subsequent to the posting of the agenda. An action adding an item to the agenda requires 2/3 vote of the Council. If there is less than 2/3 of the Council members present, adding an item to the agenda requires a unanimous vote. Added items will be placed for discussion at the end of each section unless otherwise noted.

8. **PRESENTATIONS/ANNOUNCEMENTS**

   8.1. Certificate of Recognition - Eastvale Boy Scout Eagle Scout Recognitions
   8.2. Childhood Cancer Awareness Month Proclamation
   8.3. National Preparedness Month Proclamation
   8.4. Introduction of CalFire Chief Tim Voight

9. **AGENCY PARTNER UPDATES**

   9.1. Mail Theft Presentation - United States Postal Service

10. PUBLIC COMMENT

Any member of the public may address the Council on items within the Council's subject matter jurisdiction, but which are not listed on this agenda during PUBLIC COMMENTS. However, no action may be taken on matters that are not part of the posted agenda. We request comments made on the agenda be made at the time the item is considered and that comments be limited to three minutes per person with a maximum of six minutes (time may be donated by one person). Please address your comments to the Council and do not engaged in dialogue with individual Councilmembers, City staff, or members of the audience. Blue speaker forms are available at the front table to the entrance of Council Chambers.

11. CONSENT CALENDAR

Consent Calendar items are normally enacted in one motion. The Mayor or City Council may remove a Consent Calendar item for separate action. If a member of the public would like to speak on a Consent Calendar item, please complete a blue "Public Comment Form" and submit to the City Clerk prior to the item.

11.1. City Council Meeting Minutes

Submitted by: Marc A. Donohue, Government Services Director/City Clerk

RECOMMENDED ACTION(S):

Staff recommends that the City Council approve the second reading and adopt the Ordinance, entitled: AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, AMENDING IN ITS ENTIRETY CHAPTER 10.02 OF TITLE 10 OF THE EASTVALE MUNICIPAL CODE ESTABLISHING SPEED LIMITS ON CERTAIN STREETS

11.12. Purchase of a Material Blower for Compost and Mulch
Submitted by: Simone Blackwell, Environmental Compliance Analyst

RECOMMENDED ACTION(S):
Staff recommends that the City Council authorize the issuance of a purchase order to Clairemont Equipment Company an authorized Finn dealership utilizing cooperative purchase contract #070821-FNN in an amount not to exceed $110,000 for the purchase of a mulch and compost material blower.

11.13. Purchase of One (1) Cargo Van for the Community Services & Recreation Department
Submitted by: Enswins Cordero, Assistant Director of Community Services and Recreation

RECOMMENDED ACTION(S):

Staff recommends that the City Council authorize a purchase order to Jeep Chrysler Dodge Ram of Ontario in the amount of $44,546 for the acquisition of one (1) 2024 Dodge Ram Promaster 2500 Cargo Van, to be utilized by the Community Services & Recreation Department for transportation of equipment and mobile recreation programming. Staff further recommends City Council authorize the City Manager to execute the necessary agreements and purchase orders.

12. PUBLIC HEARINGS

The public is encouraged to express your views on any matter set for public hearing. It is our procedure to first receive the staff report, then to ask for public testimony, first from those in favor of the project followed by testimony from those in opposition to it, and if there is opposition, to allow those in favor, rebuttal testimony only as to the points brought up in opposition. To testify on the matter, you need to simply come forward to the speaker's podium at the appropriate time, give your name and address and make your statement. After a hearing is closed, you may not further speak on the matter unless requested to do so or are asked questions by the Mayor or a Councilmember. Public comment is limited to three (3) minutes each with a maximum of six (6) minutes (time may be donated by one speaker.)

13. CITY COUNCIL BUSINESS

14. CITY MANAGER/CITY STAFF REPORT

15. CITY COUNCIL COMMUNICATIONS/COMMITTEE REPORTS

16. ADJOURNMENT

10. PUBLIC COMMENT

The following individuals provided public comment:

- Christina Gao
- Tori Herrera

11. CONSENT CALENDAR

On motion of Councilmember Lorimore second by Mayor McMinn, the City Council/Eastvale Public Financing Authority voted unanimously to approve the Consent Calendar.

11.1 City Council/Eastvale Public Financing Authority Meeting Minutes

The City Council/Eastvale Public Financing Authority approved the meeting minutes from the meeting June 25, 2025.

11.2 Treasurer's Report: June 2025

The City Council received and filed the City Treasurer's Report.

11.3 Planning Division Update

The City Council received and filed the Planning Division Update.

11.4 Public Works Department Update

The City Council received and filed the Public Works Department Update.

11.5 Eastvale Crime Statistics – May 2025

The City Council received and filed the Eastvale Crime Statistics for May 2025.

11.6 Eastvale Crime Statistics – June 2025

The City Council received and filed the Eastvale Crime Statistics for June 2025.

11.7 Interim Financial Report – Fiscal Year 2024-25, Quarter 3

The City Council received and filed the Interim Financial Report for Fiscal Year 2024-25, Quarter 3 ending March 31, 2025.

11.8 Agreements for the Traffic Signal Synchronization Project along Hamner and Archibald Avenues

The City Council:

1. Approved the TUMF Reimbursement Agreement with WRCOG for the Planning, Engineering, Environmental, Project Management, and Construction for the Intelligent Transportation System (ITS) project along Archibald and Hamner Avenues in an amount of $4,482,000;
2. Approved a Professional Services Agreement with STC Traffic for the preparation of traffic signal synchronization plans, construction support, and signal timing services for the Traffic Signal Synchronization Project along Hamner and Archibald Avenues in a not-to-exceed amount of $347,160; and
3. Authorized the City Manager to execute all necessary documents including the agreements substantially in the forms attached hereto, provided that the Agreement with STC shall not be executed by the City Manager unless and until WRCOG approves and executes the TUMF Reimbursement Agreement.

11.9 Approval of Agreements for Road Striping & Related Maintenance, Repair and Installation Services

The City Council:

1. Approved agreements Road Striping & Related Maintenance, Repair and Installation Services with Superior Pavement Markings Inc. and WGJ Enterprises Inc., dba PCI, with each agreement having an individual not to exceed amount of $200,000 per fiscal year, and authorized the City Manager to execute the Agreements; and

2. Found that awarding the two lowest responsive, responsible bidders rather than only the one lowest responsive, responsible bidder is in the best interests of the City.

11.10 Approval of Agreements for Concrete Maintenance Repair and Installation Services

The City Council:

1. Approved agreements for Concrete Maintenance Repair and Installation Services with Towo Enterprise Inc. and CT&T Concrete Paving, Inc., with each agreement having an individual not to exceed amount of $500,000 per fiscal year, and authorized the City Manager to execute the agreements; and
2. Found it is the best interests of the City to award the two lowest responsive, responsible bidders.

11.11 Approval of Professional Services Agreements with Various Consultants for the Eastvale Civic Center Project

The City Council:

1. Approved the Professional Services Agreement with Smith-Emery Laboratories in the total not-to-exceed amount of $473,112.21 for the special inspection and material services;
2. Approved the Professional Services Agreement with Walker Consultants in the total not-to-exceed amount of $99,000.00 for the accessibility and building envelop consulting services;
3. Approved the Professional Services Agreement with Incompli, Inc. in the total not-to-exceed amount of $33,900.00 for the QSD/QSP inspection services;
4. Approved the Third Amendment to the Professional Services Agreement with Griffin structures for providing additional support for the program and construction management services, increasing the total contract amount by $2,278,352 and
5. Authorized the City Manager to execute all necessary documents.

11.12 Second Reading and Adoption of an Ordinance Amending the Development Impact Fee Program and Park and Recreation Fees and Dedications

The City Council adopted Ordinance 25-07 entitled: AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, AMENDING CHAPTER 110.28 (DEVELOPMENT IMPACT FEE PROGRAM) AND SECTION 130.20.020 (PARK AND RECREATION FEES AND DEDICATIONS) OF THE EASTVALE MUNICIPAL CODE.

11.13 Approval of Assignment, Assumption, Consent and Release Agreement for Boy Scouts of America Troops 251B and 251G

The following individual provided public comment:

- Nick Cannis

The City Council:

1. Approved the Assignment, Assumption, Consent and Release Agreement transferring sponsorship of Boy Scouts of America Troops 251B and 251G from Eastvale Kiwanis to St. Oscar Romero Catholic Church; and
2. Approved the release of Eastvale Kiwanis from the existing Sublicense Agreement with the City; and
3. Authorized the City Manager to execute the Agreement and take all necessary actions to complete the assignment of the Sublicense.

11.14 Fiscal Year 2025/2026 Annual Computer Refresh

The City Council authorized a purchase order for Dell Marketing L.P. in an amount not to exceed $35,000 to purchase Dell computers and equipment, to replace aging and out of warranty personnel workstations.

11.15 Adoption of a Resolution Authorizing the Submission of CALFIRE Wildfire Prevention Grant Application

The City Council adopted Resolution 25-46, authorizing the submission of an application seeking $950,000 in grant funds from the CAL FIRE Wildfire Prevention Program for the Eastvale Hazardous fuels Reduction Project.

11.16 Approval of Professional Services Agreement with STC Traffic for the Traffic Signal Improvement project at Sumner Avenue and 68th Street

The City Council:

1. Approved a Professional Services Agreement with STC Traffic in the amount of $60,000 for the design of Traffic Signal Improvement project at Sumner Avenue and 68th Street; and
2. Approved and adopted Resolution 25-47, amending the 2025-26 Fiscal Year Capital Improvement Plan and Budget for project 92021 Traffic Signal Improvement project at Sumner Avenue and 68th Street; and
3. Authorized the City Manager to execute all necessary documents.

11.17 Fourth Amendment to Agreement for Law Enforcement Services Between the City of Eastvale and the County of Riverside on Behalf of the Riverside County Sheriff's Department adding an Additional Dedicated Sergeant Position and increased patrol hours.

The City Council authorized the Mayor to approve the fourth amendment to the Agreement with the County of Riverside through the Sheriff's Department to

provide Law Enforcement Services to the City of Eastvale, which includes an additional sergeant position and increased patrol hours.

11.18 Fourth Contract Amendment with Griffin Structures for the Eastvale Civic Center

The City Council:

1. Approved the Fourth Amendment to the Professional Services Agreement with Griffin Structures for providing the Owner's Representative/Program Manager and Bridging Architect services for the Civic Center Parking Structure, increasing the total contract amount by $344,960 and amending the total compensation not-to-exceed amount to $4,468,665; and
2. Authorized the City Manager to execute all necessary documents.

11.19 Vacancy Status Update

The City Council received and filed the August 2025 Vacancy Status Update.

11.20 Second Reading and Adoption of an Ordinance Authorizing the Levy of Special Taxes for Community Facilities District No. 2025-01 (Limonite)

The City Council adopted Ordinance 25-08, entitled: AN ORDINANCE OF THE CITY COUNCIL FO THE CITY OF EASTVALE, CALIFORNIA, AUTHORIZING THE LEVY OF SPECIAL TAXES IN A COMMUNITY FACILITIES DISTRICT (CITY OF EASTVALE COMMUNITY FACILITIES DISTRICT NO. 2025-01 (LIMONITE))"

11.21 Purchase of One (1) 2025 Ford F-150 Lightning for the Community Safety and Technology Department

The City Council authorized a purchase order to National Auto Fleet Group in an amount not to exceed $55,000 for the acquisition of one (1) 2025 Ford F-150 Lightning vehicle, to be utilized by the Community Safety and Technology Department for code enforcement operations and by the volunteer program for special events and sign removal.

11.22 Approval of Agreements for On-Call Professional Consulting Services for Public Works Department

The City Council:

1. Approved the list of consultants to provide on-call professional consulting services to the City on an as-needed basis;
2. Approved the form agreements for on-call professional consulting services to be used in contracting with the approved consultants in the amounts not to exceed those specified below for each agreement, resulting in a total aggregate not-to-exceed amount of $23,450,000 per fiscal year; and

3. Authorized the City Manager to execute all necessary documents, including agreements based on the form of the approved form on-call agreement, and to approve task orders, including those that may exceed standard approval limits, as necessary for project implementation. The City Manager may revise the agreements prior to execution, in consultation with the City Attorney, as requested by the consultant or recommended by the City Attorney, provided such revisions do not substantially modify the terms of the agreements.

12. PUBLIC HEARINGS

12.1 PLN25-20033 City-Initiated Municipal Code Amendment for Drive-Through and Drive-In Restaurants, Carwashes, Gasoline Service Stations, Alternative Fueling Stations, Electric Vehicle Charging Stations, Mini-Storage Facilities, and Truck and Trailer Rental and Storage Facilities

CITY OF EASTVALE

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 11.2
September 10, 2025

Warrant Registers: May, June, and July 2025

Prepared By:
Amanda Wells, Finance Director/City Treasurer

Recommended Action(s)
Staff recommends that the City Council approve the payment of warrants as submitted by the Finance Department under Attachments 1, 2, and 3.

Summary
The Warrant register is a list of demands of payment by the City of Eastvale for services and goods paid in May, June, and July. On August 19, 2025, the Finance Committee reviewed the attached list of invoices for services performed and goods purchased and have recommended the Warrant Registers for approval.

Background
The invoices have been reviewed by the Finance Department for completeness, proper approvals, budget, and if applicable, in accordance with underlying contracts. All items were properly supported.

Environmental
Government fiscal activities are not considered a Project as defined by the California Environmental Quality Act (CEQA) and no environmental review is required.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A
The Warrant Register is an activity required by the city's municipal code.

Fiscal Impact

Funds are available for the payment of warrants for three months: check numbers 24190 to 24660 and wires 2986 to 3071 for a total of $15,837,967.57. Included for approval are three months of payroll warrants and direct deposits in the amount of $1,535,684.12 (paid 05/08/2025, 05/22/2025, 06/05/2025, 06/19/2025, 07/03/2025, 07/17/2025, and 07/31/2025).

Prior City Council/Commission Action

The Finance Committee recommended the payment of warrants listed on the register on May 20, 2025.

CITY OF EASTVALE

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 11.3
September 10, 2025

Treasurer's Report: July 2025

Prepared By:
Amanda Wells, Finance Director/City Treasurer

Recommended Action(s)
Staff recommends that the City Council receive and file the City Treasurer's Report.

Summary
In accordance with the City of Eastvale's Investment Policy, adopted July 24, 2024, the City Treasurer is required to submit a quarterly treasurer's report to the City Council. The report shall include types of investments, credit ratings, institutions involved, dates of purchases, dates of maturity, amount of deposits or cost of the security, current market value of the securities, interest rates, investment fund balances, and a statement as to whether investments are in compliance with the Investment Policy and whether there are sufficient funds to meet the City's cash obligations for the next six months.

Background
The Schedule of Investments includes a breakdown of the City's investments by "Active" or "Inactive" Deposits. "Active Deposits" are those accounts which receive revenues, whereas "Inactive Deposits" are available for use but are not earning revenues. Detail reports for the PFM Managed Investment Portfolio, with all supplemental information required by the City's investment policy, are included in the report.

The Dash Board Report Card, consists of two sections:

I. Portfolio Diversification – This section reflects the diversification of the City of Eastvale's portfolio by both type of instrument and length of maturity.

II. Portfolio Performance Measures – This section compares budget to actuals in for interest earnings. Also included is a cash breakdown report per the City's fund balance reserve policy showing funds restricted, committed, designated, and unassigned in addition to investment income received as of July 31, 2025, broken down by investment type. The City of Eastvale's Schedule of Investments complies with the City's Investment Policy. The City has sufficient funds to meet its expenditure requirements for the next six months. Total cash and investments as of the end of July are $332,796,582 (book value). Active deposits total $267,263,935; inactive deposits total $8,003,111. The remaining amount of $57,529,535 accounts for cash with fiscal agent, which comprises bond proceeds for the Civic Center Project. Net investment income received for fiscal year 2025-26 through the end of July (one month of the fiscal year) is $1,428,385. The net annualized yield on investments is 5.147%.

Environmental

Government investment reports are not considered a Project as defined by the California Environmental Quality Act (CEQA) and no environmental review is required.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

The Treasurer's Report is an activity required by the city's investment policy.

Fiscal Impact

Not applicable.

Prior City Council/Commission Action

Not applicable.

Attachment(s)

Attachment 2 - PFM Statement: July 2025

CITY OF EASTVALE
Treasurer's Report
Fiscal Year 2025-26 as of July 31, 2025

Introduction

In accordance with the City Investment Policy, a quarterly investment report shall be filed with the City Council which provides a clear picture of the status of the current investments. The report for the month ending July 31, 2025 has been prepared by City Staff. We hereby certify that this report accurately reflects all pooled investments and is in compliance with the City's Investment Policy. Combined with anticipated revenues, the portfolio contains sufficient investment liquidity to meet budgeted expenditures for the next six months.

This report is based on the city's fiscal year, July through June.

12 MONTH BALANCES

Month Ending	Active Deposits Ending Book Value	Inactive Deposits Ending Book Value	Cash With Fiscal Agent	Interest*	Realized Gain/(Loss)	Yield at Cost
August 31, 2024	$ 224,269,130	$ 12,000,700	$ -	$ 578,085	$ (6,426)	4.343%

*Restricted, committed, and assigned figures based on estimated fund balances at the end of the fiscal year, 06/30/2026. However cash estimates in this report are based on the current month. As a result, it is typical that a variance exists between projected unassigned cash balance and current unassigned cash balances. The variance will not be resolved until the end of the fiscal year. A negative unassigned cash balance in the current period does not indicate a cash flow issue for the city.

Important Disclosures

Important Disclosures

This statement is for general information purposes only and is not intended to provide specific advice or recommendations. PFM Asset Management ("PFMAM") is a division of U.S. Bancorp Asset Management, Inc. ("USBAM"), a SEC-registered investment adviser. USBAM is direct subsidiary of U.S. Bank National Association ("U.S. Bank") and an indirect subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, services or performance of PFMAM. PFMAM maintains a written disclosure statement of our background and business experience. If you would like to receive a copy of our current disclosure statement, please contact Service Operations at the address below.

Proxy Voting PFMAM does not normally receive proxies to vote on behalf of its clients. However, it does on occasion receive consent requests. In the event a consent request is received the portfolio manager contacts the client and then proceeds according to their instructions. PFMAM's Proxy Voting Policy is available upon request by contacting Service Operations at the address below.

Questions About an Account PFMAM's monthly statement is intended to detail our investment advisory activity as well as the activity of any accounts held by clients in pools that are managed by PFMAM. The custodian bank maintains the control of assets and executes (i.e., settles) all investment transactions. The custodian statement is the official record of security and cash holdings and transactions. PFMAM recognizes that clients may use these reports to facilitate record keeping and that the custodian bank statement and the PFMAM statement should be reconciled and differences resolved. Many custodians use a settlement date basis which may result in the need to reconcile due to a timing difference.

Account Control PFMAM does not have the authority to withdraw funds from or deposit funds to the custodian outside the scope of services provided by PFMAM. Our clients retain responsibility for their internal accounting policies; implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

Market Value Generally, PFMAM's market prices are derived from closing bid prices as of the last business day of the month as supplied by ICE Data Services. There may be differences in the values shown for investments due to accrued but uncollected income and the use of differing valuation sources and methods. Non-negotiable FDIC-insured bank certificates of deposit are priced at par. Although PFMAM believes the prices to be reliable, the values of the securities may not represent the prices at which the securities could have been bought or sold. Explanation of the valuation methods for a registered investment company or local government investment program is contained in the appropriate fund offering documentation or information statement.

Amortized Cost The original cost of the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discount or premium with respect to short term securities (those with less than one year to maturity at time of issuance) is amortized on a straightline basis. Such discount or premium with respect to longer term securities is amortized using the constant yield basis.

Tax Reporting Cost data and realized gains / losses are provided for informational purposes only. Please review for accuracy and consult your tax advisor to determine the tax consequences of your security transactions. PFMAM does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information that may be required to be reported to federal, state or other taxing authorities.

Financial Situation In order to better serve you, PFMAM should be promptly notified of any material change in your investment objective or financial situation.

Callable Securities Securities subject to redemption prior to maturity may be redeemed in whole or in part before maturity, which could affect the yield represented.

Portfolio The securities in this portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by PFMAM, the FDIC (except for certain non-negotiable certificates of deposit) or any government agency. Investment in securities involves risks, including the possible loss of the amount invested. Actual settlement values, accrued interest, and amortized cost amounts may vary for securities subject to an adjustable interest rate or subject to principal paydowns. Any changes to the values shown may be reflected within the next monthly statement's beginning values.

Rating Information provided for ratings is based upon a good faith inquiry of selected sources, but its accuracy and completeness cannot be guaranteed.

Shares of some local government investment programs and TERM funds are distributed by representatives of USBAM's affiliate, U.S. Bancorp Investments, Inc. which is registered with the SEC as a broker/dealer and is a member of the Financial Industry Regulatory Authority ("FINRA") and the Municipal Securities Rulemaking Board ("MSRB"). You may reach the FINRA by calling the FINRA Hotline at 1-800-289-9999 or at the FINRA website address https://www.finra.org/investors/investor-contacts. A brochure describing the FINRA Regulation Public Disclosure Program is also available from FINRA upon request.

Key Terms and Definitions

Dividends on local government investment program funds consist of interest earned, plus any discount ratably amortized to the date of maturity, plus all realized gains and losses on the sale of securities prior to maturity, less ratable amortization of any premium and all accrued expenses to the fund. Dividends are accrued daily and may be paid either monthly or quarterly. The monthly earnings on this statement represent the estimated dividend accrued for the month for any program that distributes earnings on a quarterly basis. There is no guarantee that the estimated amount will be paid on the actual distribution date.

Current Yield is the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical fund account with a balance of one share over the seven-day base period including the statement date, expressed as a percentage of the value of one share (normally $1.00 per share) at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7. The yields quoted should not be considered a representation of the yield of the fund in the future, since the yield is not fixed.

Average maturity represents the average maturity of all securities and investments of a portfolio, determined by multiplying the par or principal value of each security or investment by its maturity (days or years), summing the products, and dividing the sum by the total principal value of the portfolio. The stated maturity date of mortgage backed or callable securities are used in this statement. However the actual maturity of these securities could vary depending on the level or prepayments on the underlying mortgages or whether a callable security has or is still able to be called.

Monthly distribution yield represents the net change in the value of one share (normally $1.00 per share) resulting from all dividends declared during the month by a fund expressed as a percentage of the value of one share at the beginning of the month. This resulting net change is then annualized by multiplying it by 365 and dividing it by the number of calendar days in the month.

YTM at Cost The yield to maturity at cost is the expected rate of return, based on the original cost, the annual interest receipts, maturity value and the time period from purchase date to maturity, stated as a percentage, on an annualized basis.

YTM at Market The yield to maturity at market is the rate of return, based on the current market value, the annual interest receipts, maturity value and the time period remaining until maturity, stated as a percentage, on an annualized basis.

Managed Account A portfolio of investments managed discretely by PFMAM according to the client's specific investment policy and requirements. The investments are directly owned by the client and held by the client's custodian.

Unsettled Trade A trade which has been executed however the final consummation of the security transaction and payment has not yet taken place.

Please review the detail pages of this statement carefully. If you think your statement is wrong, missing account information, or if you need more information about a transaction, please contact PFMAM within 60 days of receipt. If you have other concerns or questions regarding your account, or to request an updated copy of PFMAM's current disclosure statement, please contact a member of your client management team at PFMAM Service Operations at the address below.

Agenda Item No. 11.4
September 10, 2025

City of Eastvale Crime Statistics – July 2025

Prepared By:
Johnny Terfehr, Community Safety Director

Recommended Action(s)
Staff recommends that the City Council receive and file the Eastvale Crime Statistics for July 2025.

Summary
The City Council requested staff collaborate with the Riverside County Sheriff's Department to develop a crime statistics document that would reflect selected Part I and Part II crime data for the City of Eastvale. Intended to show month-to-month crime statistics, the document will assist in determining appropriate staffing levels for law enforcement services.

Background
In May 2017, City Council directed staff to coordinate with the Riverside County Sheriff's Department to request and obtain monthly crime statistics for the City of Eastvale. The primary intent of the request was to determine appropriate staffing levels during the City's contract negotiations with the Sheriff's Department. Over several weeks, the city manager and staff worked collaboratively with Riverside County Sheriff's Department administration and management to obtain crime statistics that could be shared with the public on a regular basis.

Upon receiving the data, the Riverside County Sheriff's Department advised staff that the data provided would be reflective of the previous month, or thirty days behind the current month; and that the report would need to include a disclaimer identifying the data as preliminary and raw. At the July 26, 2017 meeting, City Council recommended that staff add columns reflective of felony and misdemeanor arrests. During the September 26, 2017 meeting, City Council recommended staff add traffic violations/citations data and the total calls for service broken down per month. Crime

statistics that were released in the time that passed since the last meeting of the City Council are attached.

Environmental

Crime statistics are not a project pursuant to the California Environmental Quality Act (CEQA) and no environmental review is required.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not applicable

Fiscal Impact

Not applicable.

Prior City Council/Commission Action

On July 25, 2017, the Public Safety Commission approved the receival of a monthly crime statistics report.

On July 26, 2017, the City Council approved the receival of a monthly crime statistics report and requested columns reflective of felony and misdemeanor arrests.

On September 26, 2017, the City Council recommended that the report include traffic violations and citations data.

CITY OF EASTVALE

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 11.5
September 10, 2025

Annual Statement of Investment Policy

Prepared By:
Amanda Wells, Finance Director/City Treasurer

Recommended Action(s)
Staff recommends the City Council approve and adopt the annual statement of investment policy for fiscal year 2025-26.

Summary
The City's Investment Policy (Policy) is an administrative policy adopted by City Council on an annual and as-needed basis. The purpose of the Policy is to provide guidelines for the investment of the City's funds based upon State law and prudent money management specific to the City of Eastvale.

The Investment Policy (the Policy) applies to all funds and investment activities of the City except for the investment of bond proceeds, which are governed by the appropriate bond documents, and any pension or other post employment benefits held in a trust that has a separate investment policy.

The City is required by the California Government Code to submit annually an Investment Policy for the current fiscal year. Attached is the Investment Policy for Fiscal Year 2025-26. This is in accordance with the State Treasurer Investment Policy Guidelines for 2025.

Background
The City's contracts with PFM Asset Management LLC (PFM) for investment management and advising. Staff reviews the policy annually and reaches out to PFM for comments to ensure that the Policy is up to date with current California Government Code statutes. At this time, staff and PFM do not recommend any updates to the Policy. Although no changes are required at this time, PFM identified one Code change effective January 1, 2025, that extended the amount permitted in

Placement Service Deposits under Section 53601(o) from 30% to 50% until 2031. Staff and PFM do not recommend incorporating the 50% limit into the Policy and recommend keeping the current policy limit of 30% allowable investment onto Placement Service Deposits.

Staff recommends the City Council reaffirm and adopt the current Investment Policy with no updates for the new 2025-26 fiscal year.

Environmental

Government investment policies are not considered a Project as defined by the California Environmental Quality Act (CEQA) and no environmental review is required.

Strategic Plan Action - Priority Level: N/A | Target #: C | Goal #: D

Develop ongoing strategies for investing

Fiscal Impact

The approval of the investment policy is not material in nature and will not affect the investment returns the city currently receives.

Prior City Council/Commission Action

The most recent update to the investment policy was adopted by City Council on July 28, 2021.

Attachment(s)

Attachment 1 - Investment Policy

The City of Eastvale has adopted the following policy for the investment of City funds.

I. Legal Authority

The authority governing investments for the City of Eastvale is set forth in the California Government Code, sections 53601 et. Seq.

The City Treasurer is granted authority to make investments on behalf of the City. Government Code Section 53607 states ".....the authority of the legislative body to invest or to reinvest funds of a local agency, or to sell or exchange securities so purchased, may be delegated for a one-year period by the legislative body to the treasurer of the local agency, who shall thereafter assume full responsibility for such transactions until such time as the delegation of authority is revoked, and shall make a monthly report of such transaction to the legislative body. Subject to review, the legislative body may renew the delegation of authority pursuant to this section each year"

As permitted by Government Code 53601, the City Treasurer may delegate day-to-day investment decision making and execution authority to an investment advisor. Eligible investment advisors must be registered with the Securities and Exchange Commission (SEC) under the Investment Advisors Act of 1940. The advisor will follow the Policy and such other written instructions as are provided.

Government Code Section 53649 states "...the treasurer is responsible for the safekeeping of money in his custody and shall enter into any contract with a depository relating to any inactive deposits which in his judgment is to the public advantage."

II. Purpose

The purpose of this policy is to provide guidelines for the investment of the City's funds based upon State law and prudent money management. This policy is designed according to the specific needs of the City of Eastvale. The ultimate goal is to enhance the economic status of the City while ensuring the safety of funds.

III. Scope

The Investment Policy applies to all funds and investment activities of the City except for the investment of bond proceeds, which are governed by the appropriate bond documents, and any pension or other post-employment benefit funds held in a trust that has a separate investment policy.

IV. Investment Objectives

The investment of the funds of the City of Eastvale shall be guided by the goals of safety, liquidity, diversification and return on investments in that order of priority.

1. Safety: Safety of principal is the foremost objective of the City of Eastvale. Each investment transaction shall seek to ensure that capital losses are minimized, whether from securities default, broker-dealer default, or erosion of market value. The City shall

seek to preserve principal by mitigating the two types of risk: credit risk and interest rate risk.

1. *Credit Risk* - Credit Risk; defined as the risk of loss due to failure of the issuer of a security, shall be mitigated by investing only with issuers whose financial strength and reputation can be verified to be highly rated by nationally recognized statistical rating organizations (NRSROs) and by diversifying the investment portfolio so that the failure of any one issuer would not unduly harm the City's cash flow.

2. *Interest Rate Risk* – Interest rate risk, the risk of the market value fluctuations due to overall changes in the general level of interest rates, shall be mitigated by (a) structuring the portfolio so that securities mature earlier than or concurrent with the timing of major cash outflows, thus eliminating the need to sell securities prior to their maturity; (b) prohibiting the use of leverage or margin accounts; (c) prohibiting the taking of short positions, that is, selling securities which the City does not own; (d) prohibiting the use of reverse repurchase agreements; and (e) prohibiting the use of "inverse floaters". It is explicitly recognized herein, however, that in a diversified portfolio, occasional measured loses are inevitable, and must be considered within the context of the overall investment return.

2. Liquidity: The investment portfolio will remain sufficiently liquid to enable the City to meet its cash flow requirements.

3. Return on Investments: The investment portfolio shall be designed with the overall objective of obtaining a total rate of return throughout economic cycles, commensurate with investment risk constraints and cash flow needs.

V. Standard of Prudence

The City Council, City Manager, and Treasurer adhere to the guidance provided by the "prudent investor standard," California Government Code (Section 53600.3), which obligates a fiduciary to insure that "When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency. Within the limitations of this section and considering individual investments as part of an overall strategy, investments may be acquired as authorized by law."

VI. Ethics and Conflict of Interest

Officers and employees involved in the investment process will refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial decisions. Employees and investment officials will disclose to the City Manager any material financial interests in financial institutions that conduct business within their jurisdiction, and they will further disclose any large personal financial/investment positions that could be related to the performance of the City's portfolio.

VII. Authorized Financial Dealers and Institutions

If the City executes its own investment transactions, other than those investments purchased directly from the issuer, the City Treasurer will maintain a list of financial dealers and institutions qualified and authorized to transact business with the City.

The purchase by the City of any investment other than those purchased directly from the issuer, will be purchased either from an institution licensed by the State as a broker-dealer, as defined in Section 25004 of the Corporations Code, who is a member of Financial Industry Regulatory Authority (FINRA), or a member of a Federally regulated securities exchange, a National or State Chartered Bank a Federal or State Association (as defined by Section 5102 of the Financial Code), or a brokerage firm designated as a Primary Government Dealer by the Federal Reserve Bank.

The City Treasurer will investigate all institutions that wish to do business with the City, in order to determine if they are adequately capitalized, make markets in securities appropriate to the City's needs, and agree to abide by the conditions set forth in the City's Investment Policy and any other guidelines that may be provided. This will be done annually by having the financial institutions submit in writing that they have read and will abide by the City's Investment Policy and submit its most recent audited Financial Statement within 120 days of the institution's fiscal year end.

If the City has an investment advisor, the investment advisor may use its own list of authorized broker/dealers to conduct transactions on behalf of the City.

Purchase and sale of securities will be made on the basis of competitive bids and offers with a minimum of three quotes being obtained, whenever possible.

VIII. Deposits/Authorized Investments

A. Deposits

Money deposited in State or national banks, State or Federal savings associations, or State or Federal Credit unions within the State must be collateralized in accordance with Government Code 53630 et seq.. The City Treasurer, at his/her discretion, may waive the collateralization requirements for any portion that is covered by federal deposit insurance. The City shall have a signed agreement with any depository accepting City funds per Government Code Section 53649.

B. Authorized Investments

General guidelines that the City should follow in managing its investments are as follows:

- For those investment types where this Policy does not state an explicit maturity limit, no investment will be purchased which matures more than five years from the date of purchase without the prior approval of the City Council at least 90 days in advance.
- For purposes of compliance with this Policy, an investment's term or remaining

maturity shall be measured from its settlement date to final maturity. A security purchased in accordance with this Policy shall not have a forward settlement date exceeding 45 days from the time of investment.

- Maturities of individual investments shall be diversified, attempting to match, where possible, cyclical cash flow requirements.
- The use of callable securities is permitted.

To reduce overall portfolio risk while attempting to attain market value rates of return consistent with the primary objectives of safety and availability of funds, investments shall be diversified cross types of investments, maturities of those investments, and institutions in which those investments are made.

The City specifically prohibits investments in reverse repurchase agreements and derivatives (interest rate floaters, range notes, interest-only strips).

Permitted Investments Per City Policy:

Investments shall be made only in those instruments specifically authorized by California State laws (section 53600-53609), and to no greater an extent than those authorized by those laws.

Limitations on Investments:

The City will limit investments in any one issuer to no more than 5%, regardless of security type. The following are exceptions to the 5% limit: U.S. Treasuries, Federal Agencies, supranationals, and pooled funds (i.e., money market funds, local government investment pools, CAMP, CalTRUST, CalCLASS, and LAIF). Where this section specifies a percentage limitation for a particular security type, that percentage is applicable only at the date of purchase.

Credit Criteria:

Credit criteria listed in this section refers to the credit rating category (inclusive of modifiers) at the time the security is purchased. If an investment's credit rating falls below the minimum rating required at the time of purchase, the City Treasurer will perform a timely review and decide whether to sell or hold the investment.

The City's specific permitted investment guidelines are listed below.

1. **U.S. Treasuries.** United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the full faith and credit of the United States are pledged for the payment of principal and interest.

2. **U.S. Agency Obligations.** Federal agency or United States government-sponsored enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises.

3. **California State and Local Agency Obligations.** Obligations of the State of California or

any local agency within the state, including bonds payable solely out of revenues from a revenue producing property owned, controlled or operated by the state or any local agency or by a department, board, agency or authority of the state or any local agency. Obligations eligible for investment under this subdivision with maturities in excess of one year must be rated in a rating category of "A," its equivalent, or better by a NRSRO. Obligations eligible for investment under this subdivision with maturities under one year must be rated in a rating category of at least "A-1," its equivalent, or better by a NRSRO.

No more than 30% of the City's portfolio may be invested in California State and Local Agency obligations (includes 4. Other State Obligations).

4. **Other State Obligations.** Registered treasury notes or bonds of any of the other 49 United States in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state or by a department, board, agency, or authority of any of the other 49 United States, in addition to California. Obligations eligible for investment under this subdivision with maturities in excess of one year must be rated in a rating category of "A," its equivalent, or better by a NRSRO. Obligations eligible for investment under this subdivision with maturities under one year must be rated in a rating category of at least "A-1," its equivalent, or better by a NRSRO.

   No more than 30% of the City's portfolio may be invested in Other State obligations (includes 3. California State and Local Agency Obligations).

5. **Bankers' Acceptances.** Purchases of bankers' acceptances will have a maximum maturity of 180 days. Eligible bankers' acceptances must be rated in a rating category of at least "A-1," its equivalent, or better by a NRSRO.

   No more than 40% of the City's portfolio may be invested in bankers' acceptances.

6. **Commercial Paper.** Commercial paper of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a NRSRO. The entity that issues the commercial paper will meet all of the following conditions in either paragraph (a) or paragraph (b):

   a. The entity meets the following criteria: (i) Is organized and operating in the United States as a general corporation. (ii) Has total assets in excess of five hundred million dollars ($500,000,000). (iii) Has debt other than commercial paper, if any, that is rated in a rating category of "A," its equivalent or higher by a NRSRO.

   b. The entity meets the following criteria: (i) Is organized within the United States as a special purpose corporation, trust, or limited liability company. (ii) Has program wide credit enhancements including, but not limited to, over collateralization, letters of credit, or surety bond. (iii) Has commercial paper that is rated in a rating category of "A-1" or higher, or the equivalent, by a NRSRO.

   Eligible commercial paper will have a maximum maturity of 270 days or less.

   No more than 25% of the City's portfolio may be invested in commercial paper.

7. **Medium-Term Notes.** Medium-term notes, defined as all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state, and operating within the U.S. Medium-term notes must be rated in a rating category of "A," its equivalent, or better by a NRSRO.

   No more than 30% of the City's portfolio may be invested in medium-term notes.

8. **Negotiable Certificates of Deposit.** Negotiable certificates of deposit issued by a nationally or state-chartered bank, a savings association or a federal association (as defined by Section 5102 of the Financial Code), a state or federal credit union, or by a federally- or state-licensed branch of a foreign bank. Eligible negotiable CDs with maturities in excess of one year must be rated in a rating category of "A," its equivalent, or better by a NRSRO. Eligible negotiable CDs with maturities under one year must be rated in a rating category of at least "A-1," its equivalent, or better by a NRSRO.

   No more than 30% of the City's investment portfolio may be invested in negotiable CDs.

9. **State of California's Local Agency Investment Fund (LAIF).** The State Treasurer established LAIF for the benefit of local agencies. The City can invest up to the maximum amount permitted by the State Treasurer.

10. **Money Market Funds.** Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1, et seq.). To be eligible for investment pursuant to this subdivision these companies will either:

    a. Attain the highest ranking letter or numerical rating provided by not less than two of the three largest NRSRO or

    b. Have an investment advisor registered or exempt from registration with the Securities and Exchange Commission with not less than five years' experience managing money market mutual funds and with assets under management in excess of $500,000,000.

    No more than 20% of the City's portfolio may be invested in money market funds.

11. **Local Government Investment Pools (LGIPs).** Shares of beneficial interest issued by a joint powers authority organized pursuant to Government Code Section 6509.7 that invests in the securities and obligations authorized in subdivisions (a) to (q) of Government Code Section 53601, inclusive. Each share will represent an equal proportional interest in the underlying pool of securities owned by the joint powers authority. To be eligible under this section, the joint powers authority issuing the shares will have retained an investment adviser that meets all of the following criteria:
    a. The adviser is registered or exempt from registration with the Securities and Exchange Commission.
    b. The adviser has not less than five years of experience investing in the securities and obligations authorized in subdivisions (a) to (q) California Government Code Section 53601, inclusive.

c. The adviser has assets under management in excess of five hundred million dollars ($500,000,000).

12. **Supranationals.** United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), or Inter-American Development Bank (IADB), with a maximum remaining maturity of five years or less, and eligible for purchase and sale within the United States. Investments under this subdivision must be rated in a rating category of "AA," its equivalent or better by a NRSRO.

    No more than 30% of the City's portfolio may be invested in supranationals.

13. **Asset-Backed Securities (ABS).** Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-back certificate, consumer receivable pass-through certificate, or consumer receivable-backed bond. For securities eligible for investment under this subdivision not issued or guaranteed by an agency or issuer identified in subdivisions (1) or (2) above, the following limitations apply:
    a. The security shall have a maximum remaining maturity of five years or less and must be rated in a rating category of "AA," its' equivalent or higher by an NRSRO.
    b. No more than 20% of the City's portfolio may be invested in ABS authorized by this subdivision.

14. **Placement Service Bank Deposits (PSD).** Funds may be placed with a commercial bank, savings bank, savings and loan association, or credit union that uses a private sector entity that assists in the placement of deposit with eligible financial institutions located in the United States. The full amount of the principal and the interest that may be accrued during the maximum term of each PSD shall at all times be insured by federal deposit insurance. The maximum investment maturity will be restricted to five years.

    No more than 30% of the City's portfolio may be invested in PSDs.

Prohibited Investments

Any security type or structure not specifically approved by this policy is hereby specifically prohibited. Security types which are thereby prohibited include, but are not limited to, inverse floaters, derivatives, range notes, interest only strips that are derived from a pool of mortgages, or in any investment that could result in zero interest accrual if held to maturity, except as authorized by Government Code Section 53601.6.

IX. Investment Program Internal Controls

A. Responsibility. The City Treasurer is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the entity are protected from fraud, loss, theft, or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met.

B. Audit. Periodically, as deemed appropriate by the city or the city's external auditing firm,

an review of processes shall be conducted to ensure compliance with internal controls.

C. Separation of Reconciliation. A separation of responsibilities of reconciling bank statements and conducting investment transactions provides an internal control of checks and balances. Only individuals authorized by the Treasurer may conduct investment transactions. Consequently, individuals responsible for reconciling bank statements may not conduct investment transactions.

D. Third Party Safekeeping Agreements. A contractual agreement between the City and third party custodian is used to secure City invested funds.

E. Delivery versus Payment. All trades of marketable securities will be executed (cleared and settled) on a delivery vs. payment (DVP) basis to ensure that securities are deposited in the City's safekeeping/custody bank prior to the release of funds.

F. Reporting. The City Treasurer shall submit an investment report on a quarterly basis to the City Council in accordance with California Government Code, Section 53646. Per the code, the report shall be submitted within 45 days of the end of the quarter; should the reporting requirements within the California Code change prior to the adoption of an updated investment policy, the reporting requirements within the current code shall supersede this policy. The City Treasurer may elect to provide the report monthly. This report shall include

- Types of investment
- List transactions as required by California Government Code 53607 when City Council has delegated authority
- Credit ratings
- Institutions involved
- Dates of purchases
- Dates of maturity
- Amount of deposits or cost of the security
- Current market value of securities
- Interest rates
- Investment fund balances
- Statement as to whether investments are in compliance with the Investment Policy, and if not, why
- Statement as to whether there are sufficient funds to meet the City's cash obligations for the next 6 months, and if not, why.

G. Annual Policy Review. The Treasurer shall review the City's investment policy annually for conformance with California state codes, general market conditions, or to clarify internal processes and as needed make recommendations for improvements to the City Council.

ATTACHMENT A:
GLOSSARY

ACTIVE DEPOSITS: Demand or checking accounts, which receive revenues and pay disbursements.

AGENCIES: Federal agency securities.

ANNUAL COMPREHENSIVE FINANCIAL REPORT (ACFR): The official annual report for the City of Eastvale. It includes five combined statements and basic financial statements for each individual fund and account group prepared in conformity with GAAP. It also includes supporting schedules necessary to demonstrate compliance with finance-related, legal and contractual provisions, extensive introductory material, and a detailed Statistical Section.

ASKED: The price at which securities are offered.

ASSET-BACKED SECURITIES (ABS): Securities whose income payments and hence value is derived from and collateralized (or "backed") by a specified pool of underlying assets which are receivables. Pooling the assets into financial instruments allows them to be sold to general investors, a process called securitization, and allows the risk of investing in the underlying assets to be diversified because each security will represent a fraction of the total value of the diverse pool of underlying assets. The pools of underlying assets can comprise common payments credit cards, auto loans, mortgage loans, and other types of assets. Interest and principal is paid to investors from borrowers who are paying down their debt.

BANKERS' ACCEPTANCE (BA): short-term credit arrangements to enable businesses to obtain funds to finance commercial transactions. They are time drafts drawn on a bank by an exporter or importer to obtain funds to pay for specific merchandise. By its acceptance, the bank becomes primarily liable for the payment of the draft at its maturity. An acceptance is a high grade negotiable instrument. Acceptances are purchased in various denominations for 30, 60, or 90 days, but no longer than 180 days. The interest is calculated on a 360-day discount basis similar to treasury bills. Local agencies may not invest more than 40% of their surplus money in banker’s acceptance.

BASIS POINT: A basis point equals one one-hundredth of 1% (.01%).

BID: The price offered for securities.

BOOK-ENTRY SECURITIES: All U.S. Treasury and Federal Agencies are maintained on computerized records at the Federal Reserve now known as "wireable" securities.

BROKER: A broker brings buyers and sellers together for a commission paid by the initiator of the transaction or by both sides. In the money market, brokers are active in markets in which banks buy and sell money and in inter-dealer markets.

CERTIFICATES OF DEPOSIT (CD): Time deposits of a bank or savings and loan. They are purchased in various denominations with maturities ranging from 30 to 360 days. The interest is calculated on a 360-day, actual day month basis and is payable monthly.

NEGOTIABLE CERTIFICATES OF DEPOSIT: Unsecured obligations of the financial institution, bank or savings and loan, bought at par value with the promise to pay face value plus accrued interest at maturity. They are high-grade negotiable instruments, paying a higher interest rate than regular certificates of deposit. The primary market issuance is in multiples of $1,000,000, the secondary market usually trades in denominations of $500,000, although smaller lots are occasionally available. As a matter of practice, only the ten largest U.S. banks, where there is a secondary market established for continued liquidity are considered for investment.

COLLATERAL: Securities, evidence of deposit or other property which a borrower pledges to secure repayment of a loan. Also refers to securities pledged by a bank to secure deposits of public monies.

COMMERCIAL PAPER: Short-term unsecured promissory note issued by a corporation to raise working capital. These negotiable instruments are purchased at a discount to par value or at par value with interest bearing. Local agencies are permitted by State law to invest in commercial paper of "prime" quality of the highest ranking or of the highest letter and numerical ratings as provided by Moody's Investor's Service, Inc., or Standard and Poor's Corporation. Purchases of eligible commercial paper may not exceed 270 days maturity nor exceed 30% of the local agency's surplus funds.

COUPON: (a) The annual rate of interest that a bond's issuer promises to pay the bondholder on the bond's face value. (b) A certificate attached to a bond evidencing interest due on a payment date.

DEALER: A dealer, as opposed to a broker, acts as a principal in all transactions, buying and selling for his own account.

DELIVERY VERSUS PAYMENT (DVP): There are two methods of delivery of securities: delivery versus payment and delivery versus receipt (also called free). Delivery versus payment is delivery of securities with an exchange of money for the securities. Delivery versus receipts is delivery of securities with an exchange of a signed receipt for the securities.

DEBENTURE: A bond secured only by the general credit of the issuer.

DISCOUNT: The difference between the cost price of a security and its value at maturity when quoted at lower than face value. A security selling below original offering price shortly after sale also is considered to be at a discount.

DISCOUNT SECURITIES: Non-interest bearing money market instruments that are issued at a discount and redeemed at maturity for full face value (e.g., U.S. Treasury bills).

DIVERSIFICATION: Dividing investment funds among a variety of securities and issuers offering

independent returns.

DERIVATIVE: An asset that derives its value from another asset. For example, a call option on the stock of Coca-Cola is a derivative security that obtains value from the shares of Coca-Cola that can be purchased with the call option. Call options, put options, convertible bonds, futures contracts, and convertible preferred stock are examples of derivatives. A derivative can be either a risky or low-risk investment, depending upon the type of derivative and how it is used.

FEDERAL CREDIT AGENCIES: Guaranteed directly or indirectly by the United States Government. All agency obligations qualify as legal investments and are acceptable as security for public deposits. They usually provide higher yields than regular Treasury issues with all of the same advantages. Examples include Federal Home Loan Bank, Federal Farm Credit Bank, FNMA (Fannie Mae) and Federal Home Loan Mortgage Corp. (Freddie Mac).

FEDERAL FUNDS: Non-interest bearing deposits held by member banks at the Federal Reserve. Also used to denote "immediately available" funds in the clearing sense. "Fed Funds" also used to refer to these funds.

FEDERAL FUNDS RATE: The rate of interest at which Fed funds are traded. This rate is currently pegged by the Federal Reserve through open-market operations.

FEDERAL OPEN MARKET COMMITTEE (FOMC): Consists of seven members of the Federal Reserve Board and five of the twelve Federal Reserve Bank Presidents. The President of the New York Federal Reserve Bank is a permanent member while the other Presidents serve on a rotating basis. The Committee periodically meets to set Federal Reserve guidelines regarding purchases and sales of Government Securities in the open market as a means of influencing the volume of bank credit and money.

FEDERAL RESERVE SYSTEM: The central bank of the United States created by Congress and consisting of a seven-member Board of Governors in Washington, D.C., 12 Regional Banks and about 5,700 commercial banks that are members of the system.

INTEREST-BEARING ACTIVE DEPOSITS: Money-market accounts at a financial institution, (e.g., bank, savings and loan, credit union). These accounts are demand accounts (i.e., checking accounts) with restricted transaction activity.

LIQUIDITY: A liquid asset is one that can be converted easily and rapidly into cash without a substantial loss of value. In the money market, a security is said to be liquid if the spread between bid and asked prices is narrow and reasonable size can be done at those quotes.

LAIF (Local Agency Investment Fund): A special fund in the State Treasury which local agencies may use to deposit funds for investment.

MARKET VALUE: The price at which a security is trading and could presumably be purchased or sold.

MASTER REPURCHASE AGREEMENT: A written contract covering all future transactions between the parties to repurchase--reverse agreements that establish each party's rights in the transactions. A master agreement will often specify, among other things, the right of the buyer-lender to liquidate the underlying securities in the event of default by the seller-borrower.

MATURITY: The date upon which the principal or stated value of an investment becomes due and payable.

MEDIUM-TERM CORPORATE NOTES: Unsecured promissory notes issued by a corporation organized and operating in the United States. These are negotiable instruments and are traded in the secondary market. Medium-term corporate notes can be defined as extended-maturity commercial paper.

MONEY MARKET FUNDS: Open-ended mutual fund that invests in highly liquid and safe securities (bills, commercial paper, bankers' acceptances, CD's, etc.) and pays money market rates of interest. The fund's net asset value remains a constant $1 a share.

OPEN MARKET OPERATIONS: Purchases and sales of government and certain other securities in the open market by the New York Federal Reserve Bank, as directed by the FOMC, in order to influence the volume of money and credit in the economy. Purchases inject reserves into the bank system and stimulate growth of money and credit; sales have the opposite effect. Open market operations are the Federal Reserve's most important and most flexible monetary policy tool.

PASSBOOK SAVINGS ACCOUNTS: Similar to an inactive deposit except that the period of time is not fixed. The interest rate is much lower than for a certificate of deposit, but the savings account is more flexible. Funds can be deposited and withdrawn according to daily needs.

PLACEMENT SERVICE DEPOSITS. Deposits that are placed with a bank that uses private sector entity/network to allocate the funds across multiple banks such that the funds on deposit with each of the banks accepting deposits are under the federal deposit limit.

PORTFOLIO: Collection of securities held by an investor.

PRIMARY DEALER: A group of government securities dealers that submit daily reports of market activity and positions and monthly financial statements to the Federal Reserve Bank of New York and are subject to its informal oversight. Primary dealers include Securities and Exchange Commission (SEC) registered securities broker-dealers, banks, and a few unregulated firms.

RATE OF RETURN: The yield obtainable on a security based on its purchase price or its current market price. This may be the amortized yield to maturity on a bond or the current income return.

QUALIFIED PUBLIC DEPOSITORIES: A financial institution which does not claim exemption from the payment of any sales or compensating use or ad valorem taxes under the laws of this state, which has segregated for the benefit of the commission eligible collateral having a value of not less than its maximum liability and which has been approved by the Public
Deposit Protection Commission to hold public deposits.

REPURCHASE AGREEMENTS (RP OR REPO): A repo or reverse-repo is a short-term investment transaction. Banks buy temporarily idle funds from a customer by selling U.S. Government or other securities with a contractual agreement to repurchase the same securities on a future date. Repurchase agreements are typically for one to ten days in maturity. The customer receives interest from the bank. The interest rate reflects both the prevailing demand for Federal funds and the maturity of the repo. Some banks will execute repurchase agreements for a minimum of $100,000 to $500,000, but most banks have a minimum of $1,000,000. A reverse-repo is exactly what the name implies.

SAFEKEEPING: A service to customers rendered by banks for a fee whereby securities and valuables of all types and descriptions are held in the bank's vaults for protection.

SECONDARY MARKET: A market made for the purchase and sale of outstanding issues following the initial distribution.

SECURITIES & EXCHANGE COMMISSION (SEC): Agency created by Congress to protect investors in securities transactions by administering securities legislation.

SETTLEMENT DATE: The date on which a trade is cleared by delivery of securities against funds. This date may be the same as the trade date or later.

TRADE DATE: The date on which a transaction is initiated or entered into by the buyer and seller.

TREASURY BILLS: Issued weekly with maturity dates up to one year. They are issued and traded on a discount basis with interest figured on 1 360-day basis, actual number of days. They are issued in amounts of $10,000 and up, in multiples of $5,000. They are a highly liquid security.

TREASURY NOTES: Initially issued with two- to ten-year maturities. They are actively traded in a large secondary market and are very liquid. The Treasury may issue note issues with a minimum of $1,000; however, the average minimum is $5,000.

TREASURY BOND: Long-term U.S. Treasury securities having initial maturities of more than ten years.

UNIFORM NET CAPITAL RULE (SEC RULE 15C3-1): Securities and Exchange Commission requirement that member firms as well as nonmember broker-dealers in securities maintain a

maximum ratio of indebtedness to liquid capital of 15 to 1; also called net capital rule and net capital ratio. Indebtedness covers all money owed to a firm, including margin loans and commitments to purchase securities, one reason new public issues are spread among members of underwriting syndicates. Liquid capital includes cash and assets easily converted into cash.

WHEN-ISSUED TRADES: Typically, there is a lag between the time a new bond is announced and sold, and the time when it is actually issued. During this interval, the security trades "when, as, and if issued."

YIELD: The rate of annual income return on an investment, expressed as a percentage. (a) INCOME YIELD is obtained by dividing the current dollar income by the current market price for the security. (b) NET YIELD or YIELD TO MATURITY is the current income yield minus any premium above par or plus any discount from par in purchase price with the adjustment spread over the period from the date of purchase to the date of maturity of the bond.

YIELD TO MATURITY: The rate of return yielded by a debt security held to maturity when both interest payments and the investor’s capital gain or loss on the security are taken into account.

Agenda Item No. 11.6
September 10, 2025

Approval of Agreement with Mariposa Tree Management Inc. for Tree Trimming and Maintenance Services

Prepared By:

Jimmy Chung, Director of Public Works/City Engineer

Recommended Action(s)

Staff recommends that the City Council:

1. Approve an Agreement with Mariposa Tree Management Inc. for Tree Trimming and Maintenance Services in a not-to-exceed amount of $125,000 per fiscal year; and
2. Authorize the City Manager to execute the necessary documents.

Summary

The Public Works Department's Maintenance Division is responsible for the care and maintenance of more than 1,800 public trees located across four City-owned facilities. The locations and estimated number of trees at each site are listed below:

Location Name	Address	Estimated No. of Trees
Fire Station 31	14491 Chandler Street	34
Hamner Place	12548 Schleisman Road	896
Fire Station 27	7067 Hamner Avenue	26
Altfilisch Property ("Citrus House")	13200 Citrus Street	895

These trees are maintained to meet both community expectations and industry standards. Given the specialized expertise and equipment required for large-scale tree maintenance, such work is completed through professional service contracts, while City staff address smaller or immediate tree

care needs in-house.

On May 12, 2025, the City issued Invitation for Bids (IFB) No. 25-103LM via the City's website and online bidding system, PlanetBids. The opportunity was also advertised in a local newspaper on May 13 and May 19, 2025. A total of ten (10) bids were received by the bid closing date of June 3, 2025. After a comprehensive review, only two (2) proposals were deemed responsive. The other eight (8) were disqualified for not meeting the IFB requirements, including missing bid bond documentations or lacking a valid California Class C-49 contractor's license at the time of bid submission, which is required by the Contractors State License Board. All bidders were made aware of this requirement within the bid documents and reminded during the mandatory pre-bid meeting and job walk held on May 21, 2025. The following is a summary of vendor participation and results:

176 Vendors notified
31 Vendors downloaded the bid packet
10 Bids received

Bid results are as follows:

Name of Bidder	City	Base Bid Amount
Mariposa Tree Management Inc.	Irwindale	$ 112,404*
West Coast Arborists, Inc.	Anaheim	$ 210,555

*Mariposa Tree Management Inc. (Mariposa) was determined to be the lowest responsive and responsible bidder. Following the issuance of the Notice of Intent (NOI), and in consideration of budgetary constraints, the City entered into negotiations with Mariposa with the support of Purchasing staff, and successfully established a revised pricing structure that better aligns with the City's fiscal priorities. As a result, a revised base bid amount of $75,857 was agreed upon. Mariposa Tree Management Inc. has demonstrated the qualifications, experience, and responsiveness necessary to meet the City's needs and will provide professional and cost-effective tree care services. The company currently provides similar services to Cities of Burbank, San Marino and Santa Barbara.

Staff recommends that the City Council approve an agreement with Mariposa Tree Management Inc. for tree trimming and maintenance services. Approval of this contract will support the City's ongoing efforts to provide safe, sustainable, and well-maintained public spaces.

Background

The Public Works Department's Maintenance Division is responsible for maintaining the City's public trees, which are critical to public safety, aesthetics, and environmental health. The City manages over 1,800 trees across various facilities, requiring specialized services such as tree trimming, removal, planting, and arborist expertise to ensure safety and compliance with industry standards. In-house staff handle smaller, immediate tree care tasks, while large-scale maintenance requires professional contractors due to the need for certified arborists and specialized equipment.

As part of the contract, Mariposa Tree Management Inc. (Mariposa) will update the City's tree inventory and develop a comprehensive Five-Year Tree Maintenance Plan. This plan will include a

proposed annual trimming schedule, outlining how all City-owned trees will be maintained over a five-year cycle. It will also identify trees in poor condition that require removal. The Tree Maintenance Plan will support the City's efforts to assess tree conditions, prioritize services, and plan both routine and as-needed maintenance efforts based on real-time data and available resources. This plan must be submitted to the City within six (6) months of contract award. Until the plan is finalized and adopted, all tree maintenance work will be issued on as-needed basis.

The scope of services includes, but are not limited to:

- Routine and as-needed tree trimming to maintain tree health.
- Tree removal and planting to address aging trees.
- Cleanup, disposal, or recycling of greenwaste to maintain clean public spaces.
- Root pruning and root barrier installation.
- Milling of lumber from removed trees when directed.
- Tree inventory updates and management to support maintenance planning.
- Professional arborist services to ensure compliance with industry standards.

The proposed contract will be for an initial three (3)-year term, with the option to renew for two (2) additional one-year periods, subject to satisfactory performance and mutual agreement. The not-to-exceed amount is $125,000 per fiscal year. Expenditures will be controlled via budget and individual purchase order(s). The execution of this agreement will continue to support the City's commitment to maintaining safe and sustainable public spaces through landscape maintenance.

Environmental

Per the California Environmental Quality Act (CEQA) Guidelines Section 15378, the award of this Professional Services Agreement does not qualify as a "project" under CEQA, as it involves routine maintenance activities with no significant environmental impact.

Strategic Plan Action - Priority Level: N/A | Target #: E | Goal #: C

This initiative supports the City's commitment to maintaining safe, aesthetically pleasing, and sustainable public spaces through landscape, roads, and street maintenance.

Fiscal Impact

The total cost of the contract shall not exceed $125,000 per fiscal year for the initial three-year term, with pricing remaining firm during that period. Expenditures will be managed through the City's budget process and purchase order(s). Fire Station-related charges will be allocated to Budget Account No. 110-296-6436. Hamner Place charges will be allocated to CFD Account No. 402-600-6485. Only Citrus-related charges will be allocated to the General Fund Budget Account No. 100-296-6436. Execution of the contract and any potential renewals will be contingent upon the availability of funds and future budget approvals.

Prior City Council/Commission Action

None.

Attachment(s)

Attachment 1 - Agreement for Tree Trimming Services IFB No 25-103LM - Signed

AGREEMENT FOR TREE TRIMMING & MAINTENANCE
BETWEEN
THE CITY OF EASTVALE, CALIFORNIA
AND
MARIPOSA TREE MANAGEMENT INC.

This Agreement for Tree Trimming & Maintenance Services ("**Agreement**") is entered into as of August 13, 2025 ("**Effective Date**") between the City of Eastvale, a municipal corporation ("**City**") and Mariposa Tree Management Inc., a California Corporation ("**Contractor**") (collectively the "**Parties**"). In consideration of the mutual promises and covenants made by the parties and contained here and other consideration, the value and adequacy of which are hereby acknowledged, the parties agree as follows:

SECTION 1. SCOPE OF SERVICES

1.1 **Term**. Subject to the provisions of Section 8 [Termination] of this Agreement, the term of this Agreement shall commence on August 13, 2025, and terminate on June 30, 2028. The Parties may, by mutual, written consent, extend the term of this Agreement for up to two (2) additional one (1) year periods. Such extensions may include increases to the labor or supply charges listed in Exhibit "B", with said increase not to exceed the Bureau of Labor Statistics Consumer Price Index (CPI) data as follows: Riverside-San Bernardino-Ontario, CA; All Urban Consumers; Not Seasonally Adjusted; annualized change comparing the most recent month's reported data to the same month of the prior year.

1.2 **Contractor Services**. Subject to the terms and conditions of this Agreement and in accordance with Invitation for Bids (IFB) No. 25-103LM, Contractor agrees to perform for City those services specified in the Scope of Services attached hereto and incorporated herein by reference as Exhibit "A" [Scope of Services] ("**Services**"). Contractor agrees to furnish, for the compensation provided for herein, all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately perform and complete the Services. The Services shall be subject to inspection and approval by City. Contractor agrees to work closely with City staff in the performance of the Services and shall be available to City's staff and consultants at all reasonable times.

1.3 **Extra Work**. Contractor shall not be compensated for any work or services rendered in connection with its performance of this Agreement, which are in addition to or outside of the Services ("**Extra Work**"), except as expressly provided for herein. It shall be Contractor's responsibility to ensure that the scope and price of any Extra Work to be performed by Contractor is approved by City in writing in advance of Contractor's commencement of the Extra Work in accordance with Section 9.10 [Amendments] and Section 9.19 [Administration and Implementation]. City shall not be obligated to pay for or otherwise be liable for unauthorized Extra Work performed by Contractor.

1.4 **Schedule of Performance**. Contractor agrees to diligently perform and complete the Services in accordance with the schedule of performance attached hereto and incorporated herein by reference as Exhibit "B" [Schedule of Performance] ("**Schedule of Performance**"). Modifications to the Schedule of Performance must be agreed upon in writing in advance by the City Manager pursuant to Section 9.19 [Administration and Implementation] and Contractor.

1.5 **General Warranty**. Contractor warrants all Services under this Agreement (which for purposes of this Section shall be deemed to include unauthorized Extra Work which has not been removed and any non-conforming materials incorporated into the Services) to be of good quality and free from any defective or faulty material and workmanship. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the Services, whether express or implied, are deemed to be obtained by Contractor for the benefit of City, regardless of whether or not such warranties and guarantees have been transferred or assigned to City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of City.

1.6 **Repair of Defects**. Contractor agrees that for a period of one (1) year from and after final acceptance of the Services, or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the Services, whichever is later, Contractor shall within ten (10) days after being notified in writing by City of any defect in the Services or non-conformance of the Services, commence and prosecute with due diligence all work and services necessary to fulfill the terms of the warranty at its sole cost and expense. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work, facilities, fixtures, or materials damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective Services. For any Services so corrected, Contractor's obligation hereunder to correct defective Services shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected Services. Contractor shall perform such tests as City may require to verify that any corrective actions are adequate to remedy the defective condition. In the event that Contractor fails to perform its obligations under this Section to the reasonable satisfaction of City, then City shall have the right to correct and replace any defective, non-conforming, or damaged Services at Contractor's sole expense. Contractor shall be obligated to fully reimburse City for any expenses incurred hereunder upon demand.

1.7 **Contractor's Representative**. Contractor hereby designates the representative named in Exhibit "D" [Representatives], or his or her designee, to act as its representative for the performance of this Agreement ("**Contractor's Representative**"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. Contractor's Representative shall supervise and direct the Services, using his or her best skill and attention, and shall be responsible for all means, methods, techniques, sequences and

procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

1.8 **Contract Documents**. The following documents shall be referred to collectively as the "Contract Documents," each of which is incorporated into and made part of this Agreement by reference:

Approved and fully executed change orders (if any)
Addenda (if any)
This Agreement
All exhibits to this Agreement
Notice Inviting Bids (if any)
Instructions to Bidders, and any documents referenced therein (if any)
Bid Forms (including Contractor's Bid Schedule) (if any)
Payment and Performance Bonds, if required

The Contract Documents are intended to be complementary, and a requirement in one document is as effective as if it appeared in all of the Contract Documents. In the event of a conflict between any of the Contract Documents, the documents shall be given effect in the order set forth above (from top to bottom).

SECTION 2. COMPENSATION AND METHOD OF PAYMENT

2.1 **Compensation**. City shall pay to Contractor for non-disputed Services rendered the compensation set forth in Exhibit "C" [Compensation] attached hereto and incorporated herein by reference. Total compensation to Contractor for the Services shall not exceed the total price or "not to exceed" amount set forth in Exhibit "C," without the prior written approval of City in accordance with Section 9.10 [Amendments] and Section 9.19 [Administration and Implementation].

2.2 **Payment of Compensation**. Contractor shall submit periodic (monthly or quarterly as specified in Exhibit "C") invoices together with an itemized statement of Services provided. The statement shall describe the Services provided, the percent of work completed by item, together with such other reasonable detail and supporting documentation as may be required by the City Manager, or his/her designee. City will review the statement and pay, with the exception of any charges for work performed or expenses incurred by Contractor which are disputed by City, within 30 days of receiving such statement, all approved charges thereon. Payment by City shall release City from any further obligation for payment to Contractor, for Services performed or expenses incurred as of the date of the invoice. Payment to Contractor for work performed pursuant to this Agreement shall not be deemed to waive any defect in work performed by Contractor.

SECTION 3. RESPONSIBILITIES OF CONTRACTOR

3.1 **Control and Payment of Subordinates; Independent Contractor**. Contractor agrees that all Services shall be performed by Contractor or under its supervision. The personnel performing the Services under this Agreement on behalf of Contractor shall at all times be under the Contractor's exclusive direction and control. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. Contractor is and shall at all times remain a wholly independent contractor and not an officer, employee or agent of City. Contractor shall have no authority to bind City in any manner, nor to incur any obligation, debt or liability of any kind on behalf of or against City, whether by contract or otherwise, unless such authority is expressly conferred under this Agreement or is otherwise expressly conferred in writing by City. Neither Contractor, nor any of Contractor's officers, employees or agents, shall obtain any rights to retirement, healthcare or any other benefits which may otherwise accrue to City's employees. Contractor expressly waives any claim Contractor may have to any such rights. Contractor shall make payments promptly, as due, to all persons supplying labor or materials for the Services. Contractor shall not permit any lien or claim to be filed or prosecuted against the City on any account of any labor or material furnished for the Services. If Contractor fails, neglects or refuses to make prompt payment of any claim for labor or services furnished to Contractor or a subcontractor by any person as such claim becomes due, City may pay such claim and charge the amount of the payment against funds due or to become due the Contractor. The payment of the claim in this manner shall not relieve Contractor or their surety from obligation with respect to any unpaid claims.

3.2 **Standard of Care and Licenses**. Contractor agrees that all Services shall be performed in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and warrants that it, its employees and subcontractors shall have sufficient skill and experience to perform the Services and that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained in good standing throughout the term of this Agreement.

3.3 **Required Corrections**. Contractor shall perform, at its own expense and without reimbursement from the City, any work necessary to correct errors or omissions that are caused by the Contractor's failure to comply with the standard of care provided for herein.

3.4 **Law and Regulations**. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services.

3.5 **Safety**. Contractor shall perform the Services, and maintain its work area, so as to avoid injury or damage to any person or property and shall otherwise exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.6 **Labor Code and Prevailing Wage Requirements**.

3.6.1 Apprenticeable Crafts. To the extent applicable, Contractor shall comply with the provisions of Section 1777.5 of the Labor Code with respect to the employment of properly registered apprentices upon public works.

3.6.2 Hours of Work. Contractor shall comply with the legal days work and overtime requirements of Section 1813 of the Labor Code.

3.6.3 Payroll Records. In accordance with the requirements of Labor Code Section 1776, Contractor shall keep accurate payroll records which are either on forms provided by the Division of Labor Standards Enforcement or which contain the same information required by such forms. Contractor shall make all such records available for inspection at all reasonable hours.

3.6.4 Prevailing Wage Laws. Contractor represents and warrants that it is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 1600, et seq., ("**Prevailing Wage Laws**"), which require the payment of prevailing wage rates and the performance of other requirements on "Public Works" and "Maintenance" projects. Contractor acknowledges that the Services are being performed as part of an applicable "Public Works" or "Maintenance" project, as defined by the Prevailing Wage Laws, and Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and any location where the Services are performed.

3.7 **Equal Opportunity Employment**. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant, in any way, in the employment of persons to perform the Services in violation of any federal or state law prohibiting discrimination in employment, including based on the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, of any person, except as provided under California Government Code section 12940.

SECTION 4. INDEMNIFICATION

4.1 **Indemnity**. Except as to the sole negligence or willful misconduct of City, Contractor expressly agrees to, and shall, indemnify, defend, release, and hold City, and its respective officials, officers, employees, agents, and contractors harmless from and against any Action, liability, loss, damage, entry, judgment, order, lien, and Costs and Expenses which arises out of, or are in any way related to, any act or omission of Contractor, or its officers, directors, employees, agents, or contractors, connected with the performance or failure to perform under this Agreement, notwithstanding that City may have benefited therefrom, or any challenge to this Agreement. This Section shall apply to any acts or omissions, willful misconduct or negligent conduct, whether active or passive, on the part of Contractor's officers, directors, employees, agents and contractors, including but not limited to acts or omissions in any way related to, the release, treatment, use, generation, transportation, storage, or disposal in, on, under, to, or from the location at which work under this Agreement is performed of any Hazardous Substances by Contractor or its officers, directors, employees, agents, and subcontractors. The Parties expressly agree that any payment, or Costs and Expenses City incurs or makes to, or on behalf of, an injured employee under City's workers' compensation or other insurance, is included as a loss or Costs and Expenses for the purpose of this Section. City shall not be responsible for any acts, errors or omissions of any person or entity except City and its officers, agents, servants, employees or contractors. The Parties expressly agree that the obligations of Contractor under this Section shall survive the expiration or early termination of the Agreement.

4.2 **Action**. For purposes of this Agreement, "Action" shall mean any suit (whether legal, equitable, or declaratory in nature), proceeding or hearing (whether administrative or judicial), arbitration or mediation (whether voluntary, court-ordered, binding, or non-binding), or other alternative dispute resolution process, and the filing, recording, or service of any process, notice, claim, demand, lien, or other instrument which is a prerequisite or prelude to commencement of the Action.

4.3 **Costs and Expenses**. For purposes of this Agreement, "Costs and Expenses" shall mean all costs and expenses, to the extent reasonable in amount, actually and necessarily incurred by a Party in good faith in the investigation, prosecution or defense of an Action, including, but not limited to, court costs, filing, recording, and service fees, copying costs, exhibit production costs, special media rental costs, attorney's fees, consultant fees, fees for investigators, witness fees (both lay and expert), travel expenses, deposition and transcript costs, and any other costs or expenses, the award of which a court of competent jurisdiction may determine to be just and reasonable.

4.4 **Hazardous Substances**. For purposes of this Agreement, "Hazardous Substances" shall mean any and all of the following:

a. any substance, product, waste or other material of any nature whatsoever which is or becomes listed, regulated, or for which liability arises for misuse,

pursuant to the Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), 42 U.S.C. §9601, *et seq.*; the Hazardous Materials Transportation Act, 49 U.S.C. §1801, *et seq.*; the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. §6901, *et seq.*; the Toxic Substances Control Act, 15 U.S.C.S. §2601, *et seq.*; the Clean Water Act, 33 U.S.C. §1251, *et seq.*; the Insecticide, Fungicide, Rodenticide Act, 7 U.S.C. §136, *et seq.*; the Superfund Amendments and Reauthorization Act, 42 U.S.C. §6901, *et seq.*; the Clean Air Act, 42 U.S.C. §7401, *et seq.*; the Safe Drinking Water Act, 42 U.S.C. §300f, *et seq.*; the Solid Waste Disposal Act, 42 U.S.C. §6901, *et seq.*; the Surface Mining Control and Reclamation Act, 30 U.S.C. §1201, *et seq.*; the Emergency Planning and Community Right to Know Act, 42 U.S.C. §11001, *et seq.*; the Occupational Safety and Health Act, 29 U.S.C. §§655 and 657; the Hazardous Waste Control Act, California Health and Safety Code ("H.&S.C.") §25100, *et seq.*; the Hazardous Substance Account Act, H.&S.C.§25330, *et seq.*; the California Safe Drinking Water and Toxic Enforcement Act, H.&S.C. §25249.5, *et seq.*; the Underground Storage of Hazardous Substances, H.&S.C. §25280, *et seq.*; the Carpenter-Presley-Tanner Hazardous Substance Account Act, H.&S.C. §25300, *et seq.*; the Hazardous Waste Management Act, H.&S.C. §25170.1, *et seq.*; the Hazardous Materials Response Plans and Inventory, H.&S.C. §25001, *et seq.*; the Porter-Cologne Water Quality Control Act, Water Code §13000, *et seq.*, all as they may from time to time be amended; and

b. any substance, product, waste or other material of any nature whatsoever which is or becomes listed, regulated, or for which liability for misuse arises pursuant to any other federal, state or local statute, law, ordinance, resolution, code, rule, regulation, order or decree due to its hazardous, toxic or dangerous nature.

SECTION 5. RECORDS AND DOCUMENTS

5.1 **Accounting Records**.

5.1.1 Maintenance and Inspection. Contractor shall maintain complete and accurate records with respect to all expenses incurred under this Agreement. Any and all such documents or records shall be maintained in accordance with generally accepted accounting principles and shall be sufficiently complete and detailed so as to permit an accurate evaluation of the Services provided by Contractor pursuant to this Agreement. All such records shall be clearly identifiable.

5.1.2 Inspection and Copying. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement. At no cost to City, Contractor shall provide copies of such documents or records directly to the City for inspection, audit and copying when it is practical to do so; otherwise, unless an alternative is mutually agreed upon, such documents and records

shall be made available at Contractor's address indicated for receipt of notices in this Agreement.

5.2 **Ownership of Documents**. All original maps, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files and other documents prepared, developed or discovered by Contractor in the course of providing the Services shall become the sole property of City and may be used, reused or otherwise disposed of by the City without the permission of the Contractor. Upon completion, expiration or termination of this Agreement, Contractor shall turn over to City all such original maps, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files and other documents

SECTION 6. INSURANCE

6.1 **Maintenance of Insurance**. Prior to the beginning of and throughout the term of this Agreement, Contractor will maintain insurance in conformance with requirements established by City for the type of Services being performed. Contractor acknowledges that prior to the Effective Date of this Agreement, City provided to Contractor the applicable insurance requirements, a copy of which are attached hereto as Exhibit "F" [Insurance]. Contractor acknowledges that the insurance coverage and policy limits provided by City constitute the minimum amount of coverage required. Any insurance proceeds in excess of the limits and coverage required in this Agreement and which are applicable to a given loss, will be available to the City.

6.2 **Subcontractors Insurance**. Contractor agrees to ensure that subcontractors, and any other party involved in the performance of the Services by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the project will be submitted to City for review.

6.3 **Modification of Insurance Provisions**. The City Manager may make reasonable amendments to the insurance requirements of this section, with the written concurrence of the Finance Director or Risk Manager, in accordance with Section 9.19 [Administration and Implementation] after considering the Scope of Services, potential liabilities, and the required level of insurance to adequately protect the City.

SECTION 7. BONDS

7.1 **Performance and Payment Bonds**. If required by law or specifically required by City as set forth in Exhibit "E" [Bonds Required], attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with Contractor's execution of this Agreement, but in no event later than the Effective Date of this Agreement, a Performance Bond and/or a Payment Bond in the

amount of the total, not-to-exceed compensation indicated in Exhibit C, and in a form provided or approved by the City.

7.2 **Bond Provisions**. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, without further notice from City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety.

7.3 **Surety Qualifications**. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

SECTION 8. TERMINATION.

8.1 **Termination by City**. City may, by written notice to Contractor, terminate with or without cause, and without any prior notice of default or right to cure by Contractor, the whole or any part of this Agreement at any time and by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least five (5) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those non-disputed Services that have been adequately rendered to City, and Contractor shall be entitled to no further compensation.

8.2 **Termination by Contractor**. Contractor may, by written notice to City, terminate this Agreement based upon City's failure to timely cure a default under this Agreement as provided herein. At least forty-five (45) days prior to termination, Contractor shall provide City with a written notice specifying City's alleged default and providing City with a forty-five (45) day period to cure the default. Should City timely cure such default, the Agreement shall continue. Should City fail to timely or adequately cure such default, Contractor may terminate this Agreement by issuance of written notice to City.

SECTION 9. GENERAL PROVISIONS

9.1 **Assignment or Transfer**. Contractor shall not assign, hypothecate, or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

9.2 **Loss and Damage**. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

9.3 **Liquidated Damages**. The Parties agree that City has a legitimate interest in ensuring that Contractor provides the Services (including performance of all duties and responsibilities) required under this Agreement in a consistent and reliable manner, and that Contractor's failure to timely provide such Services or to provide them in an inadequate manner will cause City to suffer damages and that it is, and will be, impractical and extremely difficult to ascertain and determine the exact amount of damages or to calculate actual damages. Therefore, in addition to City's right to treat such non-performance as a material breach of, and to terminate, this Agreement, the Parties agree that liquidated damages, as provided herein, represent a reasonable estimate of the monetary damages that reasonably could be anticipated and that proof of actual damages would be costly or impractical. The Parties specifically confirm the accuracy of the statements made above and the fact that each Party has had ample opportunity to consult with legal counsel and obtain an explanation of the liquidated damage provisions at the time that the Agreement was made. Therefore, in lieu of actual damages, Contractor is subject to payment of $500 per failure to perform, per day. City may, at its election, deduct any assessed liquidated damages from payment due, or that will become due, to Contractor from City.

9.4 **Excusable Delays**. Contractor shall not be liable for damages, including liquidated damages, if any, caused by delay in performance of failure to perform due to causes beyond the control of Contractor. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state or local governments, acts of City, court orders, fires, floods, epidemics, strikes, embargoes, and unusually severe weather. The term and price of this Agreement shall be equitably adjusted for any delays due to such causes.

9.5 **Cooperation; Further Acts.** The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of the Agreement.

9.6 **Governing Law.** This Agreement shall be interpreted, construed and governed according to the laws of the State of California. In the event of litigation between the parties, venue in state trial courts shall lie exclusively in the County of

Riverside. In the event of litigation in a U.S. District Court, venue shall lie exclusively in the Eastern Division of the Central District of California, located in Riverside, California.

9.7 **Integration.** This Agreement, including the attached Exhibits "A" through "F" and other Contract Documents, is the entire, complete, final and exclusive expression of the parties with respect to the matters addressed therein and supersedes all other agreements or understandings, whether oral or written, or entered into between Contractor and City prior to the execution of this Agreement. No statements, representations or other agreements, whether oral or written, made by any party which are not embodied herein shall be valid and binding.

9.8 **Severability.** If a term, condition or covenant of this Agreement is declared or determined by any court of competent jurisdiction to be invalid, void or unenforceable, the remaining provisions of this Agreement shall not be affected thereby and the Agreement shall be read and construed without the invalid, void or unenforceable provision(s).

9.9 **Prohibited Interests**. Contractor represents and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement.

9.10 **Amendments**. No amendment to or modification of this Agreement shall be valid unless made in writing and approved by Contractor and City. The City Manager shall have the authority to approve any amendment to this Agreement if the total compensation under this Agreement, as amended, would not exceed the City Manager's contracting authority under the Eastvale Municipal Code. All other amendments shall be approved by the City Council. The Parties agree that the requirement for amendments or modifications to be in writing cannot be waived and that any attempted waiver shall be void.

9.11 **No Third Party Beneficiaries**. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

9.12 **Delivery of Notices**. All notices required or permitted to be given under this Agreement shall be in writing and shall be given to the respective parties at the email addresses or physical addresses listed in Exhibit "D", or at such other address as the respective parties may provide in writing for this purpose. Such notice shall be deemed made when emailed or personally delivered or forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

9.13 **Binding Effect**. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

9.14 **Waiver**. Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. Waiver by any Party or any breach of the provisions of this Agreement shall not constitute a waiver of any other provision, nor a waiver of any subsequent breach or violation of any provision of this Agreement. Acceptance by City of any Services by Contractor shall not constitute a waiver of any of the provisions of this Agreement.

9.15 **Attorney's Fees, Costs and Expenses**. In the event litigation or other proceeding is required to enforce or interpret any provision of this Agreement, the prevailing party in such litigation or other proceeding shall be entitled to an award of reasonable attorney's fees and Costs and Expenses, in addition to any other relief to which it may be entitled.

9.16 **Subcontracting**. Contractor shall not subcontract any portion of the Services, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions of this Agreement.

9.17 **Counterparts**. This Agreement may be signed in counterparts, each of which shall constitute an original.

9.18 **Authority to Execute.** The person or persons executing this Agreement on behalf of Contractor represents and warrants that he/she/they has/have the authority to so execute this Agreement and to bind Contractor to the performance of its obligations hereunder.

9.19 **Administration and Implementation.** This Agreement shall be administered and executed by the City Manager or his or her designated representative. The City Manager shall have the authority to issue interpretations and to make amendments to this Agreement, including amendments that commit additional funds, consistent with the City Manager's contracting authority under the Eastvale Municipal Code.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed the day and year first above written.

EXHIBIT "A"

SCOPE OF SERVICES

General Services:
Contractor shall provide tree maintenance services, which refers to trimming, pruning, clean up and disposal, root barrier installation, and small tree care for various tree types at different locations as detailed below.

This includes the regular care and upkeep of trees to maintain their health and appearance. The contractor is responsible for furnishing all necessary equipment, materials, personnel, and supervision for these services.

Within six (6) months of contract award, the Contractor shall review the citywide tree inventory and provide the City with a five-year tree maintenance plan.

Locations:
Tree trimming and maintenance services will be provided at various locations citywide, including:

- Altfilisch Property ("Citrus House"): 13200 Citrus Street, Eastvale, CA 91752
- Fire Station 27: 7067 Hamner Ave., Eastvale, CA 92880
- Fire Station 31: 14491 Chandler St., Eastvale, CA 92880
- Hamner Place: 12548 Schleisman Rd., Eastvale, CA 92880

Tree Trimming and Pruning:
The contractor is required to perform tree trimming and pruning, adhering to specific guidelines to maintain tree health, strength, and attractiveness.

General Requirements for Pruning Work:

- Dispose of all generated tree debris.
- Utilize good traffic control measures at all times.
- Minimize disruption to the public.
- Ensure adequate safety measures for employees and the public.
- Contact the City Project Manager (CPM) before starting any tree work.
- Responsibility for beehive removal coinciding with services.

Specific Tree-Pruning Specifications:

- All persons performing tree work must be trained according to International Society of Arboriculture (ISA) standards.
- Persons working near primary electrical lines must be trained per "Electrical Safety Orders" of California.
- Pruning cuts to side limbs must maintain a basal thickness of at least one-third the diameter of the wound.
- Final pruning cuts shall favor early callus growth; flush cuts are prohibited.
- Remove limbs to cause no damage to the tree or property.

- Disinfect tools used on diseased trees immediately before and after work and report major diseases/pest problems to CPM.
- Keep cutting tools sharp; use hand tools only for trees two inches or less in diameter.
- For large limbs, cut off 1-2 feet beyond the final cut first.
- Remove no more than 25% of live wood from the crown (10% for live oaks).
- Remove extraneous metal, wire, rubber, or other material interfering with tree growth.
- Report defective or weakened trees in writing to CPM.
- Prohibit the use of climbing spurs unless authorized by CPM.
- Preserve beneficial animal and bird nests when feasible.
- Follow all Federal and State regulations concerning wildlife, including the Migratory Bird Treaty Act.

Complete Pruning Specifications:

- Prevent branch and foliage interference with safe public passage, maintaining minimum clearances.
- Remove all dead, dying, broken, or loose branches and branch stubs one-half inch diameter or larger.
- Remove live branches that interfere with structural strength and healthful development, such as rubbing branches, weak structures, or multiple leaders.
- Selectively remove undesirable sucker and sprout growth.
- Selectively remove developing leaders where multiple branch growth exists near the end of broken or stubbed limbs.
- Selectively remove limbs obstructing buildings, structures, or traffic signs.
- Remove branches projecting too far outward beyond a symmetrical form.
- Cut back branch ends and reduce weight where excessive overburden is likely to cause breakage.
- Clear sprout growth to a minimum height of eight feet above ground level (exceptions for young trees).
- Obtain a balanced appearance when viewed from the street, unless authorized by CPM.
- Remove all vines entwined in trees and on tree trunks without injury.
- Clear all branches and foliage within ten feet of primary electrical lines and three to five feet of secondary electrical lines.
- Clear all branches that interfere with telephone, cable, and other utility lines within one foot.

Safety Tree-Pruning Specifications:

- Prevent branch and foliage interference with safe public passage, maintaining minimum clearances.
- Remove dead and dying branches and branch stubs two inches in diameter or more.
- Remove all broken or loose branches.

- Remove any live branches that interfere with the tree's structural strength and healthful development, including weak or hazardous limbs, or those obstructing structures or signs.
- Clear sprout or sucker growth to a minimum height of eight feet above ground level (exceptions for young trees).

Power Line Clearance (PLC) Pruning Specifications:

- Clear all branches and foliage within ten feet of primary electrical lines.
- Clear all branches that interfere with secondary electric lines within three to five feet.
- Protect current tree health, condition, and symmetry using Dr. Alex Shigo's book, *"Pruning Trees near Electric Utility Lines"* as a guide.
- Observe all safe minimum working distances for energized conductors.
- Coordinate access to backyards with property owners.
- Spikes may be used for PLC pruning on palms or other trees only when needed for safety.

Palm Pruning:

- Includes specific types of palms (e.g., King Palm, Mediterranean Fan Palm, Canary Island Date Palm, Date Palm, Senegal Date Palm, Queen Palm, California Fan Palm, Mexican Fan Palm, Windmill Palm).
    - Sterile tools and techniques must be used before and after pruning palms.
    - Remove all dead fronds and other dead plant parts from the trunk; all loose frond sheaths shall be removed along the entire length of the palm trunk.
    - Remove all flower and fruit parts, whether dead or alive.
    - Prohibit the use of climbing spurs or spike shoes in pruning palms unless authorized by CPM.
    - Remove all volunteer palm seedlings growing within certain areas unless authorized by CPM.
    - Remove green fronds, leaving only full green fronds remaining at the crown within a specified arc (30 degrees for most, 45 degrees for Washingtonia palms).
    - Clean Canary Island date palm trunks of weed species, leaving a clean appearance.
    - Prune Canary Island date palms using a sterilized handsaw.
    - Inspect the entire length of trunk on *Phoenix canariensis* and *Phoenix dactylifera* Palm Trees annually by tapping with a mallet (sounding) and report any damage, decay, or deterioration.
    - Prohibit the use of chainsaws on *Phoenix canariensis*, *Phoenix dactylifera*, or *Phoenix reclinata* palm trees unless authorized by CPM.

Tool Sanitation:

- For diseased trees, disinfect pruning tools and cut surfaces with a 10% chlorine bleach solution after each cut and between trees. Fresh solutions must be mixed daily and disposed of properly.

Certified Arborist:

- All pruning work must be performed by or under the direct supervision of an ISA Certified Tree Worker.
- An ISA Certified Arborist must oversee all tree work and furnish their ISA license to the CPM before work commences.

Warranty:

- A minimum one-year warranty is provided for new trees and a six-month warranty for other plants installed by the contractor.

Public Noticing of Tree Trimming Operations:

- Residents and/or businesses must be notified five calendar days prior to work via door hangers.
- City-approved "No Parking" signs must be posted on individual trees 24 hours prior to work.

General Requirements:

Clean up and Disposal/Recycling of Generated Greenwaste:

- All cuttings, branches, wood chips, and other debris must be cleared from the site and disposed of.
- Cleanup of debris must be promptly and properly accomplished daily before the work crew leaves the site.

Tree Inventory Update and Management:

- Upon contract award, the contractor shall update the City's tree inventory.

Small Tree Care:

- The contractor shall perform basic maintenance for young and newly planted trees, including tree well adjustments and watering for up to one year from initial planting.

Five-Year Tree Maintenance Plan:

- Within six months of contract award, the contractor shall review the citywide tree inventory and provide the City with a five-year tree maintenance plan, including a proposed annual grid trimming schedule and identification of trees needing removal.

Public Safety and Cooperation:

- All tree work should cause the least interference or annoyance, allowing pedestrian and vehicular traffic to pass safely.
- Normal hours of operation are 7:00 a.m. to 6:00 p.m. Monday through Friday, with exceptions for emergencies.
- No work shall be performed on private property without consent of the property owner.

Ordinances and Regulations:

- Compliance with all local, municipal, and state laws, rules, and regulations governing the work is required.

Noise Control:

- Compliance with all local sound control and noise level rules, regulations, and ordinances is required.

Safety:

- Precautions for public protection and safety must be taken, and safety equipment for personnel, property, and the public must be supplied and used.

Permits and Fees:

- The contractor must apply for and obtain a no-fee permit for the work, and obtain and pay for any permits required by outside agencies.

Unacceptable Pruning:

- Procedures that result in tree decline are not allowed (storm damage and extenuating circumstances excepted).
- These include severe cutting back of all growing tips (topping, pollarding, hat racking), flush cutting, stub cutting, removal of a healthy main leader for reasons other than power line clearance, and excessive cutting or lifting that exceeds ISA or these specifications.
- The contractor must replace any trees that decline due to improper pruning at their sole expense with trees of like size.

Additional Services - Hourly Rates:

Hourly labor rates are provided for additional work requested by the City beyond routine tree maintenance. These services include, but are not limited to, specific tasks like tree removal, stump grinding, and emergency response, with rates fully loaded to cover labor, tools, equipment, consumables, and dumping.

- Labor: Tree Trimmer
  - Regular Time – Repairs & Maintenance
- Labor: Maintenance Laborer
  - Regular Time – Maintenance
- Labor: Emergency Response Tree Work
  - Removal and/or Pruning
- Labor: Stump Grinding
- Labor: Traffic Control (crew of three)

Extended Warranties:

Extended warranty options are available for newly installed trees and plants, beyond the minimum required warranty periods.

- Warranty for newly installed trees (beyond minimum 1-year requirement)
- Warranty for newly installed plants (beyond minimum 6-month requirement)

EXHIBIT "B"

SCHEDULE OF PERFORMANCE

Contractor shall perform tree maintenance services on an as-needed basis, in accordance with the services detailed in Exhibit "A" of this Agreement.

Any services requested by the City that fall outside the tree maintenance services described in Exhibit "A" shall be considered "Additional Services" and must be authorized in writing by the City in advance.

Such work shall follow the procedures and rates set forth under the "Additional Services – Hourly Rates" section of Exhibit "A."

EXHIBIT "C"

COMPENSATION

Total compensation to Contractor for the Services shall not exceed $125,000 per fiscal year (July 1 through June 30).

INSURANCE REQUIREMENTS FOR CITY OF EASTVALE

The City requires a certificate of insurance, including an underwriter's endorsement, prior to commencement of the Services.

The insurance policies are to include additional endorsements that contain the following provisions:

1. That the City of Eastvale and its respective elected officials, officers, employees, agents and representatives are additional insureds under the policy;

2. The policies are primary and non-contributory to any insurance that may be carried by City;

3. The City is entitled to thirty (30) days' prior written notice of cancellation, material reduction, or non-renewal of the policy or policies.

4. The insurance shall be carried only by responsible insurance companies that have rated "A-" and "V" or better by the A.M. Best Key Rating Guide, that are licensed to do business in the State of California. City will accept insurance provided by non-admitted "surplus lines" carriers only if the carrier is authorized to do business in the State of California.

Only the following "marked" requirements are applicable:

__X__ **Commercial General Liability (CGL):** Insurance written on an occurrence basis to protect Contractor and City against liability or claims of liability which may arise out of this Agreement in the amount of two million dollars ($2,000,000) per occurrence and subject to an annual aggregate of four million dollars ($4,000,000). There shall be no endorsement or modification of the CGL limiting the scope of coverage for either insured vs. additional insured claims or contractual liability. All defense costs shall be outside the limits of the policy.

__X__ **Vehicle Liability Insurance:** Contractor shall also procure and shall maintain during the term of this Agreement vehicle liability insurance in an amount not less than $1,000,000 for injuries, including accidental death, to any one person, and subject to the same minimum for each person, in an amount not less than one million dollars ($1,000,000) for each accident, and property damage insurance in an amount of not less than one million dollars ($1,000,000).

__X__ **Workers' Compensation Insurance:** For all of Contractor's employees who will provide Services under this Agreement and to the extent required by applicable state or federal law, Contractor shall keep in full force and effect a Workers' Compensation policy with statutory limits that includes a minimum of one million dollars ($1,000,000) of employers' liability coverage. Contractor shall provide an endorsement that the insurer waives the right of

subrogation against the City and its respective elected officials, officers, employees, agents and representatives. In the event a claim under the provisions of the California Workers' Compensation Act is filed against City by a bona fide employee of Contractor participating under this Agreement, Contractor is to defend and indemnify the City from such claim.

September 10, 2025

PLN25-20033 City-Initiated Municipal Code Amendment for Drive-Through and Drive-In Restaurants, Carwashes, Gasoline Service Stations, Alternative Fueling Stations, Electric Vehicle Charging Stations, Mini-Storage Facilities, and Truck and Trailer Rental and Storage Facilities (Second Reading)

Prepared By:

Allen Lim, Senior Planner

Recommended Action(s)

Staff recommends that the City Council adopt the proposed ordinance entitled: AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA TO AMEND OF SECTIONS 120.03 120.03.030, 120.05.060, 120.06.010, AND THE ESTABLISHMENT OF SECTION 120.04.170 OF TH EASTVALE MUNICIPAL CODE MAKING CHANGES TO LAND USES SUCH AS DRIVE-IN AND DI THROUGH RESTAURANTS, CARWASHES, ELECTRIC VEHILCE CHARGING STATIONS, GASOLINE SEI STATIONS, ALTERNATIVE FUELING STATIONS, TRUCK AND TRAILER RENTAL AND STORA FACILITIES, AND MINI-STORAGE FACILITIES

Summary

With the increasingly limited availability of developable land within the City, the City Council and the Planning Commission have expressed the importance of considering the highest and best use for the remaining vacant land within the City. Additionally, there has been a growing number of requests to establish and operate mini-storage facilities and auto-oriented uses such as carwashes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental, and storage throughout the City. As a result of the growing interest in development that may not be the highest and best uses, staff initiated discussions with the Planning

Commission and City Council to obtain feedback on how these land use types should be regulated and what municipal code changes would be appropriate.

The proposed amendments developed through the workshop discussions are intended to consider the highest and best use for the limited remaining developable parcels in the City and address the increased interest in developing mini-storage facilities and auto-oriented uses such as carwashes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental and storage facilities. On August 13, 2025, the Eastvale City Council introduced the ordinance related to the proposed amendments.

Background

On January 18, 2023, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-through businesses. The Commission recommended that staff further pursue an approach to modify Conditional Use Permit findings to ensure land use compatibility with existing shopping centers and/or their surrounding area of the proposed drive-through.

On September 18, 2024, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-throughs, carwashes, gasoline stations, alternative fueling stations, mini-storage facilities, and truck and trailer rental and storage facilities. The Commission advised staff to conduct a more in-depth analysis, taking into account the available vacant developable land within the City, the suitability of the proposed land uses within current zoning designations, and the potential for implementing alternative regulations through enhanced design and development standards.

On October 16, 2024, staff brought forward a land use discussion to the Planning Commission with updated information, exhibits, and various redline changes to the Zoning Code based on the input received by the Planning Commission from the September 18, 2024 discussion. The Commission was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On February 26, 2025, staff brought forward a land use discussion to the City Council with the updated information, exhibits, and various redline changes to the Zoning Code based on the input received from the Planning Commission from the September 18, 2024, and October 16, 2024 discussions with the Planning Commission. The Council was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On June 18, 2025, the Planning Commission recommended that the City Council adopt an ordinance to establish Municipal Code Section 120.04.170 creating development standards for drive-through and drive-in uses and amend the Municipal Code Sections 120.03.020, 120.03.030, 120.05.060, and 120.06.010 to update the zoning designations of car washes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones.

On August 13, 2025, the Eastvale City Council introduced the ordinance related to the proposed amendments.

A summary of the proposed amendments are provided as **Attachment 1** to this report and include the description and purpose of each amendment.

Analysis

Planning Commission and City Council Workshop Feedback

On September 18, 2024 the Planning Commission provided the following comments with regard to each of the uses:

Carwashes:

- Limit new carwashes to industrial and manufacturing zones.
- Look at existing specific plans to determine appropriateness.

Drive-throughs:

- Maintain development standards and permitted locations with a CUP.
- Explore distance/separation requirements for discussion.
- Identify locations of existing drive-throughs and illustrate possible distance radius scenarios.
- Explore enhanced design and development standards/requirements for new drive-throughs.

Mini-Storage Facilities:

- Limit new mini-storage facilities to industrial and manufacturing zones.
- Share results of market analysis prepared for The Ranch area.

Gasoline Service Stations:

- Explore prohibiting new gasoline service stations in commercial zones and limit to industrial and manufacturing zones.
- There is a decreasing need in gasoline service stations with the growth of electric vehicle ownership and mandates.

Alternative Fuel Stations/EV Charging Stations:

- Distinguish between light duty vehicle charging and heavy duty (truck) charging facilities and regulate differently in the code.
- Require a CUP for new alternative fuel and EV charging stations.
- Consider and address safety concerns due to the extended time necessary for electric vehicle charging.

Truck and Trailer Rental and Storage:

- Limit new truck and trailer rental and storage facilities to industrial and manufacturing zones.
- Require a CUP for new facilities.
- Consider and address safety concerns due to the long-term parking and lack of people at facilities.

On October 16, 2024 the Planning Commission provided the following comments with regard to each of the uses:

Drive-throughs:

- Continue exploring other agencies' development standards for drive-through screening, outdoor dining, and pedestrian circulation.

Alternative Fuel Stations/EV Charging Stations:

- Create new land uses which distinguishes light duty, medium duty, and heavy-duty electric vehicle charging facilities or as consistent with state requirements.
- Light duty charging facilities shall be permitted in every zone or as required by state requirements.
- Have staff explore the feasibility of requiring DC fast charging for light duty vehicles in non-residential zones. Consider the requirement of allowing Level 2 charging and DC Fast charging for light duty facilities in park space and public facilities.

In general, the Planning Commission provided guidance to begin the process of amending the Zoning Code with regard to all of the uses discussed. Although the Commission expressed support for continuing to allow all of the uses and continuing to require Conditional Use Permits, there was a general consensus to limit new carwashes, mini-storage facilities, truck and trailer rental/storage facilities, and gasoline service stations to be located strictly within industrial and manufacturing zones.

The Commission was generally supportive of continuing to allow drive-throughs in the commercial, industrial, and manufacturing zones and also suggested adding electric vehicle charging stations for light duty passenger vehicles within the commercial and industrial zones or as required by state regulations.

The Commission also recognized the limited availability of vacant, developable land and expressed a desire to gain a better understanding of market demand to support the highest and best use for remaining developable parcels.

The Commission was receptive to exploring enhanced design standards to address aesthetic concerns with vehicle-oriented businesses, particularly drive-throughs. Staff has explored best practices from other jurisdictions to identify enhancements to the development standards for these types of uses which include, but are not limited to, site orientation, outdoor dining, structural screening, and dense landscape screening.

Finally, the Commission emphasized the importance of addressing safety and security for uses such as long-term electric vehicle charging and truck and trailer rental/storage uses. Staff will work closely with the Riverside County Sheriff's Office to develop strategies to address safety and security within the development standards for these uses.

On February 26, 2025, the City Council was generally in agreement with the recommendations and feedback provided by the Planning Commission expressing similar concerns with aesthetics, overconcentration of specific uses, and recognizing the limited availability of vacant and developable land in the city.

On June 18, 2025, the Planning Commission was supportive of the proposed changes and recommended that the City Council adopt an ordinance to establish Municipal Code Section 120.04.170 creating development standards for drive-through and drive-in uses and amend the Municipal Code Sections 120.03.020, 120.03.030, 120.05.060, and 120.06.010 to update the zoning designations of car washes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones.

Additional Amendments

In addition to the proposed changes as discussed as part of the prior land use workshops, a technical change has also been proposed for "Dwelling, Multiple Family" as required state housing law (Government Code Section 65583.2(h)).

Public Hearing Notification and Comment

The proposed ordinance requires a minimum 10-day public hearing notification period. The public hearing notice was published in the Press Enterprise newspaper on August 3, 2025, for the City Council meeting on August 13, 2025. As of this writing, staff has not received any correspondence supporting or objecting to the proposed ordinance.

Environmental

The proposed ordinance is not subject to the California Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2) and 15060(c)(3) of the State of California Guidelines for Implementation of CEQA (commencing with Section 15000 of Title 14 of the California Code of Regulations; herein referred to as the "State CEQA Guidelines") because it will not result in a direct or reasonably foreseeable indirect physical change in the environment and is not a "project," as defined in Section 15378 of the CEQA Guidelines.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not applicable.

Fiscal Impact

The processing of the proposed Municipal Code Amendment is covered under the Planning Division's Fiscal Year (FY) 24/25 budget.

Prior City Council/Commission Action

On January 18, 2023, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-through businesses. The Commission recommended that staff further pursue an approach to modify conditional use permit findings to ensure land use compatibility with existing shopping centers and/or their surrounding area of the proposed drive-through.

On September 18, 2024, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-throughs, carwashes, gasoline stations, alternative fueling stations, mini-storage facilities, and truck and trailer rental and storage facilities. The Commission advised staff to conduct a more in-depth analysis, taking into account the available vacant developable land within the City, the suitability of the proposed land uses within current zoning designations, and the potential for implementing alternative regulations through enhanced design and development standards.

On October 16, 2024, staff brought forward a land use discussion to the Planning Commission with updated information, exhibits, and various redline changes to the Zoning Code based on the input received by the Planning Commission from the September 18, 2024 discussion. The Commission was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On February 26, 2025, staff brought forward a land use discussion to the City Council with the

updated information, exhibits, and various redline changes to the Zoning Code based on the input received from the Planning Commission from the September 18 and October 16, 2024 discussions with the Planning Commission. The Council was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On June 18, 2025, the Eastvale Planning Commission recommended that the City Council adopt an ordinance to establish Municipal Code Section 120.04.170 creating development standards for drive-through and drive-in uses and amend the Municipal Code Sections 120.03.020, 120.03.030, 120.05.060, and 120.06.010 to update the zoning designations of car washes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones.

On August 13, 2025, the Eastvale City Council introduced the ordinance related to the proposed amendments.

Recreation, education, and public assembly uses									
Art gallery, library, reading room, museum	P	P	P						
Indoor amusement/entertainment facility: establishments providing indoor amusement and entertainment services as primary uses for a fee or admission charge, including dance halls and ballrooms	P	P							

and electronic game arcades. Establishments with four or more electronic games or coin-operated amusements, or where 50 percent or more of the floor area is occupied by amusement devices, are considered an electronic game arcade as described in this category; three or fewer machines are not considered a land use separate from the primary use of the site									
Indoor fitness and sports facility: predominantly participant sports and health activities conducted entirely within an enclosed building. Typical uses include bowling alleys, billiard parlors, ice/roller skating rinks, indoor racquetball courts, indoor climbing facilities, soccer areas, athletic clubs and health clubs	C	C	C	P	P	P	P		
Outdoor commercial recreation: facility for various outdoor participant sports and types of recreation where a fee is charged for use (e.g., amphitheaters, amusement and theme parks, golf driving ranges, health and athletic clubs with outdoor facilities, miniature golf courses, skateboard parks, stadiums and coliseums, swim and tennis clubs, water slides, zoos)	C	C						C	
Public or private recreation, including parks								C	
Recreational vehicle parks								C	
Hunting clubs, skeet, trap, rifle and pistol ranges								C	
Industrial, manufacturing and processing uses									
Abattoirs						C	C		
Acid and abrasives manufacturing					C	C	C		
Auto wrecking and junkyards						C	C		
Blast furnaces							C		
Breweries, distilleries and wineries					C	P	P		
Casting metals							C		
Cold storage plant					P	P	P		
Communications and microwave installations				P	P	P	P		Section 120.04.140
Concrete batch plants and asphalt plants					C	C	C		
Contractor storage yards					P	P	P		

Disposal service operations						C	C		
Disposal service operations, not including transfer stations					C				
Fertilizer production and processing organic or inorganic					C	C	C		Section 120.04.060
Field, tree and bush crops; flower and herb gardening								P	
Hauling, freighting and trucking operations					C	P	P		
Industrial and manufacturing uses				P	P	P	P		
Manufacturing, limited: limited manufacturing, fabricating, processing, packaging, treating, and incidental storage related thereto, provided any such activity shall be in the same line of merchandise or service as the trade or service business conducted on the premises				P	P	P	P		
Manufacturing, minor: manufacturing, fabrication, processing and assembly of materials from parts that are already in processed form and that, in their maintenance, assembly, manufacture or plant operation, do not create excessive amounts of smoke, gas, odor, dust, sound or other objectionable influences that might be obnoxious to persons conducting business on-site or on an adjacent site. Uses include but are not limited to furniture manufacturing and cabinet shops, laundry and dry cleaning plants, metal products fabrication, and food and beverage manufacturing				C	P	P	P		
Manufacturing, major: manufacturing, fabrication, processing and assembly of materials in a raw form. Uses in this category typically create greater than usual amounts of smoke, gas, odor, dust, sound or other objectionable influences that might be obnoxious to persons conducting business on-site or on an adjacent site. Uses include but are not limited to batch plants, rendering plants, aggregate processing facilities, plastics and rubber products manufacturing					C	P	P		

Meat and poultry products, not including meat packing or slaughtering					P	P	P		
Meat packing plants					C				
Paints and varnishes							P		
Paints and varnishes manufacturing and incidental storage					C	C

Mobilehomes	P	P		P	P	P	P		Section 120.04.020
Single-room occupancy units	C								

[G] Denotes a specific definition. Please see section 120.06.010, glossary.

(d) *Development standards.* The following development standards are applicable to the commercial and industrial zones. These standards, along with other development standards (e.g., landscaping requirements, signs, parking standards) are intended to assist property owners and project designers in understanding the city's minimum requirements and expectations for high-quality development.

(Ord. of 7-2012, § 3.3; Ord. No. 2013-09, § 3, 5-22-2013; Ord. No. 2018-01, § 3(Exh. A), 2-14-2018; Ord. No. 23-26, § 2, 1-10-2024)

CHAPTER 120.04. STANDARDS RELATED TO SPECIFIC USES

Sec. 120.04.170. Drive-in and drive-through uses.

(a) *Intent*. The intent of this section is to do each of the following:

(1) Regulate drive-through businesses to ensure compatibility of such uses with surrounding uses and properties.

(2) Ensure that an adequate amount of space is allocated for on-site maneuvering and circulation.

(3) Ensure vehicles in a queue for service do not impede traffic on abutting streets and parking areas.

(4) Ensure that vehicle stacking lanes will not have nuisance impacts on neighboring properties and nearby residential uses.

(5) Establish development standards to mitigate the impacts of traffic, congestion, excessive pavement, litter, and noise while ensuring pedestrian connectivity is uninterrupted by vehicles.

(6) Ensure outdoor spaces are provided and preserved.

(b) *Permitted zoning.* Drive-in and drive-through facilities shall be allowed per chapter 120.03, zoning district regulations.

(c) *Design and development standards.*

(1) Required studies. The design of all drive-through lanes for any facility shall be subject to review and approval of a drive-through queuing analysis (or such other study as requested by the City Engineer or their designee) prepared by an independent traffic engineer licensed by the State of California, and provided to the City by the developer, at such developer's sole expense, at the time of application for such use.

(2) Building placement and orientation.

a. The minimum net land area for uses with drive-through facilities is one (1) acre. This minimum land area may be modified by the reviewing authority through the design review process when the drive-through facility is within a specific plan or an integrated shopping center.

b. Buildings shall be placed on the front yard or street side yard setback line and oriented so that the primary public entrance faces the street and so that any mechanical equipment or other supporting equipment are screened from the public view at grade and from higher buildings.

c. Outdoor dining and seating areas shall be located near the main pedestrian entrance.

d. Walk-up windows, if used, shall be located near outdoor dining areas or other pedestrian areas, to encourage accessibility and limit vehicle and pedestrian conflicts.

e. Buildings may be clustered to create a plaza or outdoor dining area between buildings.

f. Pedestrian pathways and sidewalks must provide safe and convenient access to the building, shall connect directly to the public right-of-way, and shall not cross driveways or stacking lanes to get to the building entrance.

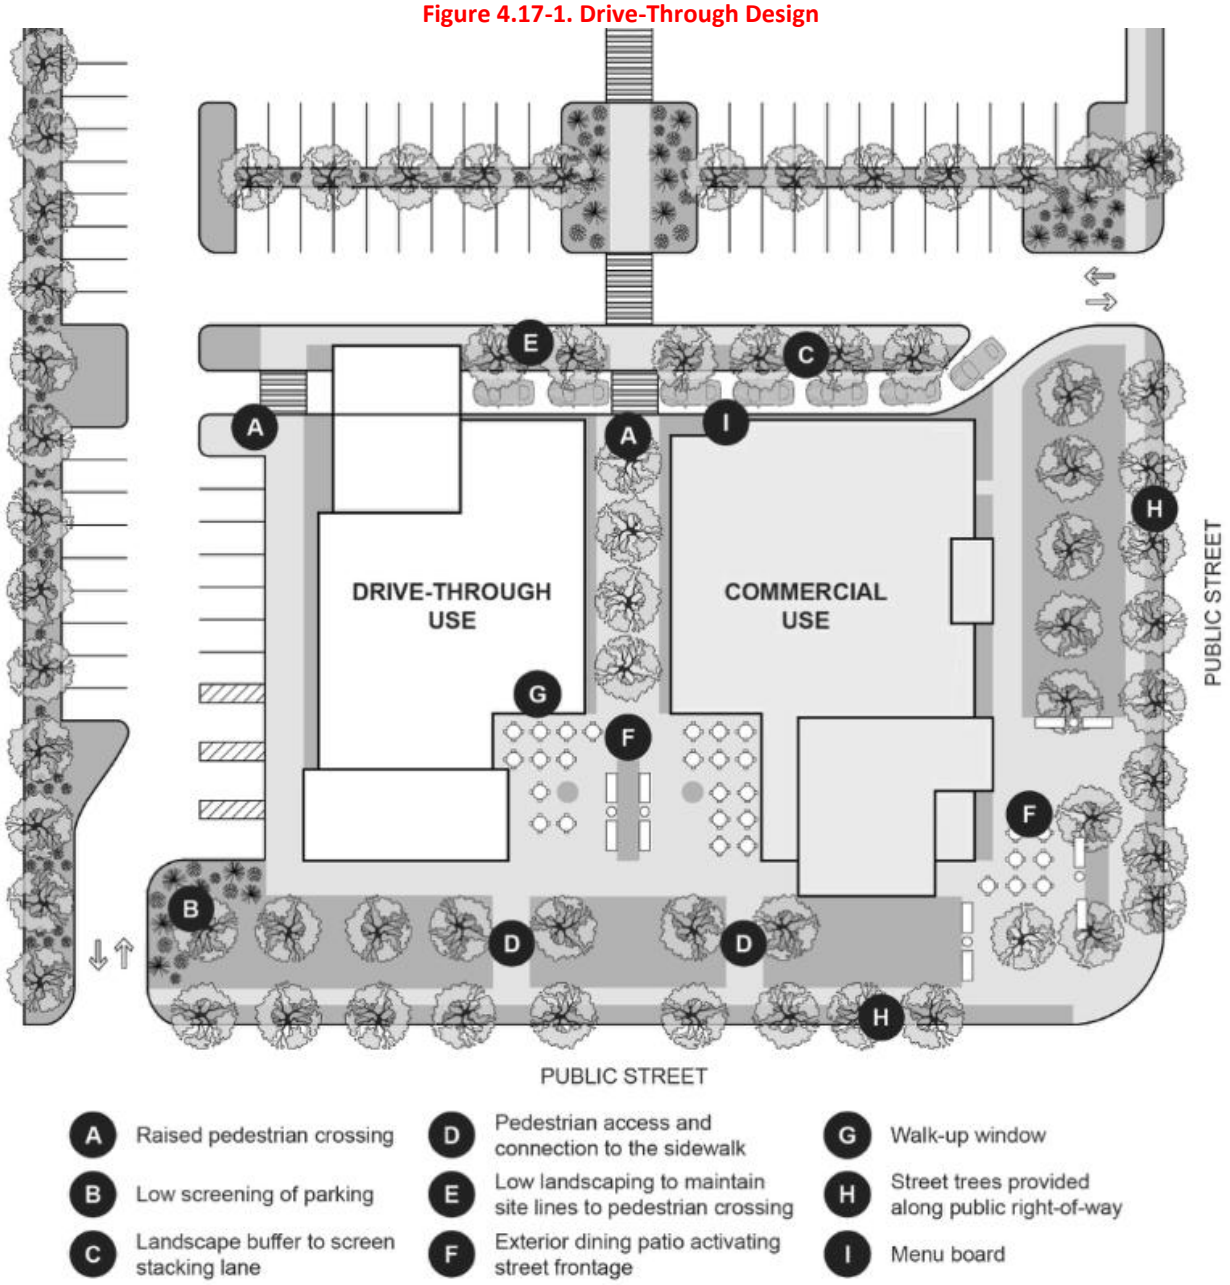

g. The drive-through lanes shall not be located between the property line and the front of the building.

h. Drive-through lanes shall be located to the side or rear of the building and shall be screened with a combination of decorative and split face low screen walls with capping and dense landscaping. The drive-through lanes may be designed to pass through an enclosed building element that is architecturally consistent and integrated into the building's design so that the lanes are enclosed.

i. Loading and service areas must be located on the site to minimize potential noise incompatibility with surrounding properties and so that, to the maximum extent feasible, they are not visible from the rights -of-way.

j. Future drive-through facilities proposed in a master plan or shopping center shall be identified early in the review process to avoid retrofitting the site at a later date.

Figure 4.17-1. Drive-Through Design

(3) Building entrances.

a. Primary building entrances and entry features shall be clearly defined through variation of architectural planes on the building and pavement surfaces, and must be accessible from a courtyard or plaza.

b. The primary building entries shall be accessed directly from the sidewalk in the public right-of-way or from within the development site. Pedestrian circulation paths may only intersect or cross a drive-through lane(s) if the applicant can demonstrate that there are no other feasible or practical options available, in which case the pedestrian crossing shall be raised to create a hump to enhance pedestrian safety.

(4) Building architecture and articulation.

a. Prominent architectural features shall be located near corners, intersections, or where visible to the public right-of-way to promote and enhance the primary building entrance.

b. Drive-through facilities within an integrated shopping center or master plan must have an architectural style consistent with the theme established in the center.

c. The architecture of drive-through facilities must be compatible and consistent with surrounding uses in form, materials, colors, scale, etc.

d. Building planes shall have variation in depth and angle to create variety and interest in the basic form and silhouette of the building.

e. Articulation of building surfaces shall be encouraged through the use of openings and recesses which create texture and shadow patterns.

f. For the purposes of screening, mechanical and/or electrical equipment, when feasible shall be integrated into the architecture and design of the proposed building.

(5) Outdoor dining areas for restaurants.

a. Outdoor dining areas are required for all new drive-in and drive-through restaurant facilities.

b. Outdoor dining areas shall be designed as an integral part of the drive-through facility, and can include plazas, arcades, colonnades, or courtyards.

c. Outdoor dining areas and other publicly accessible outdoor spaces shall include tables and seating, trash cans, and structures that provide shade and protection from the weather.

d. To the maximum extent feasible, outdoor dining areas shall be oriented for maximum benefit of sunlight and views and to the extent possible, outdoor dining areas shall be oriented away from drive-through stacking lanes.

e. The minimum dimension of an outdoor dining area shall be 20 feet measured in any direction with a minimum area of 450 square feet.

(6) Parking and Circulation

a. Parking. The parking for drive-through facilities shall be determined according to Sec. 120.05.060. - Off-street vehicle parking.

b. Setbacks. Parking and the drive-through lane(s) shall be set back a minimum of 45 feet from the curb face of a public street. Greater setbacks may be required as mentioned in an applicable specific plan or as deemed necessary during the design review process.

(7) Stacking requirements.

a. Drive-through lanes shall be designed to accommodate adequate vehicle stacking as determined by a drive-through queuing analysis, reviewed by the City Engineer or their designee, that shall be based on the number of vehicles in the drive-through lanes for seven (7) consecutive days during peak lunch hours between 11:00 a.m. to 2:00 p.m. and peak dinner hours between 5:00 p.m. to 8:00 p.m. at three (3) different locations in cities with a similar population as Eastvale and in a similar location as the proposed site. At the request of the City Engineer or their designee, additional information may be requested to ensure a complete and accurate evaluation of the drive-through design.

b. All stacking must be designed to be accommodated on the site of the drive-through use without impacting or causing obstructions to adjacent tenants, drive-aisles, parking spaces, or public or private streets.

c. In the event that the number of vehicles waiting at the service window or kiosk exceeds the length of the stacking lane(s), personnel from the drive-through establishment shall manage the queue to ensure that all vehicles do not block or interfere with on-site vehicular and pedestrian circulation and parking areas.

d. Drive-Through Lane Design

i. The entrance and exit of a drive-through lane must be at least 50 feet from an intersection of public rights-of-way when measured at the closest intersecting curbs.

ii. The drive-through lane must be at least 10 feet wide with a minimum 10-foot interior radius at curves.

iii. At a minimum, food and beverage drive-through businesses shall provide stacking space for at least six (6) vehicles before the order menu board, and other service-oriented drive-through businesses shall provide stacking space for at least six (6) vehicles before the drive-up window or kiosk.

iv. The drive-through lanes shall be separate from the circulation route necessary for ingress and egress from the property or access to any parking spaces within the site using concrete curbing or paint striping on at least one side of the lane. These requirements do not apply to the reuse of existing properties.

v. All stacking lanes must be clearly identified with pavement markings and signage to indicate the entrance, direction of traffic flow and exit.

vi. At the discretion of the approving authority, the driveway-through lane design may be required to provide for a minimum nine (9) feet wide escape/emergency lane allowing motorists to exit the stacking lane before reaching the drive-through window.

(8) Performance Standards

a. The use shall be operated in a manner that does not interfere with the normal use of adjoining properties. If, in the opinion of the Community Development Director or their designee, the provisions of this paragraph are being violated, the violations shall be grounds for reopening conditional use permit hearings and adding conditions to control the violation. Performance standards include, but are not limited to, the following considerations, which, where appropriate, shall be incorporated as conditions of approval in all use permits as determined by the approving body:

i. All graffiti shall be removed within 72 hours.

ii. No undesirable odors shall be generated on the site.

iii. Noise levels measured at the property line shall not exceed the level of background noise normally found in the area or as required per Chapter 8.52. – Noise regulation.

iv. All exterior lighting shall be contained to the subject property and shall not encroach onto neighboring properties as consistent with Sec. 120.05.050. – Outdoor lighting.

v. A traffic management plan shall be submitted, reviewed, and approved by the Community Development Director and the City Engineer. This plan shall include detailed information and mitigation measures (such as traffic control measures, tablets, online orders, temporary drive-through closures, and/or use of off-duty officers for traffic control) to ensure visitor vehicles shall remain completely on-site and shall not impede any public rights-of-way (streets, drives, walks, etc.), drive aisles, parking spaces, etc. This plan shall be kept onsite and made available to the store manager from implementation as required.

(9) Additional permit findings.

a. In addition to the findings required for the granting of the applicable discretionary application, the following additional findings are required to be made by the approving body in approving a discretionary permit for a drive-through business:

i. That the proposed amount of parking, circulation plan, and traffic management plan will provide adequate area for safe stacking and maneuvering of vehicles, and the site design will provide adequate buffering for the use from adjoining land uses:

ii. The proposed location of the drive-through facility will not result in adverse impacts upon the vicinity after giving consideration to a litter clean-up plan, the hours of operation, and the site plan;

iii. The proposed location of the drive-through facility will not block existing drive aisles in shared parking areas;

iv. The proposed location of the drive-through facility will not interfere with and or impact on-site pedestrian access and circulation.

v. The use will not substantially less the usability of adjacent or nearby commercially zoned property or commercial use by interfering with pedestrian traffic;

vi. That the use will not create increased traffic hazards to pedestrians;

vii. That the site will be adequate in size and shape to accommodate said use and to accommodate all yards, walls, parking, landscaping, and other required improvements; and

viii. That the use will not substantially lessen the usability and suitability of adjacent or nearby residentially zoned property for residential use.

CHAPTER 120.05. DEVELOPMENT STANDARDS

Sec. 120.05.060. Off-street vehicle parking.

The purpose of this section is to provide sufficient off-street parking and loading spaces for all land uses in the city and to ensure the provision and maintenance of safe, adequate and well-designed off-street parking facilities. It is the intent of this section that the number of required parking and loading spaces will meet the needs created by the particular uses. The standards for parking facilities are also intended to reduce street congestion and traffic hazards and promote vehicular and pedestrian safety and efficient land use. Off-street vehicle parking shall be provided in accordance with this section when the associated building or structure is constructed or the use is established. Additional off-street parking shall be provided in accordance with this section when an existing building is altered or dwelling units, apartments or guestrooms are added, or a use is intensified by the addition of floor space or seating capacity, or there is a change of use.

(1) *Parking design standards.*

a. *Approval of off-street parking plan.*

b. *Number of required parking spaces.*

c. *Location and design of parking spaces.*

(…)

Use Type	Per Square Foot or Unit	Per Employee or Student	Other Criteria
General commercial/retail uses			
Auditoriums, exhibition halls, theaters, movie theaters and similar places with fixed seats	1 space per 3 seats		
Auditoriums, exhibition halls, theaters, movie theaters, and similar places without fixed seats	1 space per 30 sq. ft. of net assembly area		
Automobile repair and service shops	1 space per 150 sq. ft. gross floor area		
Automobile service stations	4 spaces		4 spaces per service bay
Automobile washing and cleaning establishments, except self-serve		1 space per 3 employees of largest shift	2 spaces per stall
Automobile washing and cleaning establishments, self-serve			2 spaces per stall

Banks, savings and loans and other financial institutions*	1 space per 250 sq. ft. gross floor area		Vehicle stacking for 6 vehicles prior to the drive-up window or as required by the queueing analysis.
Barbershops and beauty shops and similar uses	1 space per 150 sq. ft. gross floor area		
Clubs, discos, ballrooms, cabarets, cocktail lounges, dance halls, lodges and incidental dancing areas, and similar facilities where dancing is the principal use	1 space per 30 sq. ft. of dance floor area		
General retail including but not limited to freestanding convenience markets, liquor stores and supermarkets	1 space per 200 sq. ft. of gross floor area		
General retail including but not limited to neighborhood, community and regional shopping centers, including those with restaurants	5½ spaces per 1,000 sq ft. of net leasable floor area		
Furniture, drapery, plumbing, floor covering and appliance stores	1 space per 750 sq. ft. of sale or display area		
Laundries, self-serve	1 space per 250 sq. ft. of gross floor area		
Mini-warehouses, self-storage		2 spaces per 3 employees	
Professional business office	1 space per 200 sq. ft. of net leasable floor area		
Restaurants, drive-throughs, walk-ups, cafes, lounges, bars and other establishments for the sale and consumption on the premises of food and beverages	1 space per 45 sq. ft. of serving area	1 space per 2 employees	Stacking for 6 vehicles prior to the menu board or as required by the queueing analysis.
Uncovered sales area, including areas for new or used automobiles, boat or trailer sales, lumber or building materials yards, plant nurseries or similar uses	1 space per 1,000 sq. ft. of uncovered sales area to a maximum of 20 spaces	1 space per employee	
Video arcades	1 space per 250 sq. ft. of gross floor area		
Recreational uses			
Billiard and pool rooms			1 space per 250 sq. ft. of gross floor area
Bowling alleys			4 spaces per lane

Driving ranges			1 space per tee
Game courts, tennis courts, racquetball clubs			1 space per court
Golf courses			6 spaces per hole
Golf course, miniature			3 spaces per hole
Gymnasiums, spas and health studios	1 space per 200 sq. ft. of gross floor area		
Parks and recreational uses	1 space per 8,000 sq. ft. of active recreational area within a park		1 space per acre of passive recreational area within a park
Skating rinks, ice and roller	1 space per 20 sq. ft. of seating area, and 1 space per 250 sq. ft. of skating area		
Stadiums and sports arenas	1 space per 30 sq. ft. of net assembly area		
Swimming pools, commercial	1 space per 250 sq. ft. of pool area		
Industrial uses			
Industrial uses	If number of workers cannot be determined: 1 space per 250 sq. ft. of office area, plus 1 space per 500 sq. ft. of fabrication area, plus 1 space per 1,000 sq. ft. of storage area, and 1 space per 500 sq. ft. of floor plan which is uncommitted to any type of use	If number of workers can be determined: 1 space per 2 employees of largest shift, and 1 space per vehicle kept in connection with the use	
Manufacturing or repair plants maintaining more than one shift of workers		2 spaces per 3 employees on each of the two largest shifts	1 space per company operated vehicle
Salvage yards and junkyards, including but not limited to automobile dismantling, auto-wrecking yards, storage yards, scrap metal processing and similar uses	1 space per 5,000 sq. ft. of lot area		
Warehouses and wholesaling	1 space per 2,000 sq. ft. of gross floor area		
Residential uses			
Single-family	2 spaces per dwelling unit		
Multiple-family:			
Single-bedroom or studio dwelling unit	1.25 spaces per unit		

	Two bedrooms per dwelling unit	2.25 spaces per unit	1 space per employee
Three or more bedrooms per dwelling unit	2.75 spaces per unit		
Planned residential development (see section 120.04.050):			
Single-bedroom dwelling unit	1.5 spaces per unit		
Two or more bedroom dwelling unit	2.5 spaces per unit		
Senior citizen (parking spaces shall be located no more than 150 feet from the unit they serve)	Refer to single-family and multiple-family residential requirements stated under residential uses		
Mobilehome parks	2 spaces per travel trailer or mobilehome space, spaces may be tandem		1 guest space per 8 mobilehome spaces
Lodging uses (all parking must be within 150 feet of the use served)			
Boardinghouses, lodginghouses or roominghouses, dormitories, fraternity and sorority houses			1 space per 2 beds
Hotels and motels			1 space per room, and 2 spaces per resident manager
Recreational vehicle parks	1 space per recreation vehicle site		1 visitor space per 5 recreational vehicle sites
Medical uses			
Sanitariums, convalescent homes, children's homes, asylums, and nursing homes or similar institutions		1 space per 3 employees	1 space per 3 beds, and 1 space per vehicle owned and operated by the institution
Hospitals and clinics (a hospital may have a parking area more than 150 feet from the building to be served as long as an automatic parking gate or similar method of vehicular control is installed)		1 space per staff member of largest shift	1 space per 2 patient's beds, and 1 space per vehicle owned and operated by hospital or clinic
Medical and dental offices, clinics, and medical business offices	1 space per 200 sq. ft. of net leasable floor area		
Veterinary hospitals and clinics	1 space per 300 sq. ft. of gross floor area		
Civic/religious institutions			
Auditoriums with fixed seats	1 space per 3 seats		

Auditoriums without fixed seats	1 space per 30 sq. ft. of net assembly area in the assembly hall		
Cemeteries and crematories, mausoleums, columbariums and funeral establishments when incidental to a cemetery	1 space per 30 sq. ft of net assembly room area	1 space per employee	1 space per vehicle operated on the grounds by the proprietary institution
Churches, chapels and other places of worship	1 space per 35 sq. ft. of net assembly area used simultaneously for assembly purposes		When a school bus is kept, there can be a reduction of 2 spaces for bus
Libraries, museums, art galleries or similar uses	1 space per 300 sq. ft. of gross floor area	1 space per 2 employees	
Mortuary and funeral homes	1 space per 35 sq. ft. of net assembly area	1 space per employee	
Public utilities/telecommunications			
Public utility facilities, including but not limited to electric, gas, telephone, and telecommunication facilities not having business offices on the premises; includes cell towers and well sites.		1 space per 2 employees	1 space per vehicle kept in connection with the use

Educational Institutions*	Per Square Foot or Unit	Per Employee or Student	Other Criteria	For Vehicle Stacking
Day care centers, including nurseries and preschools	1 space per 500 sq. ft. of gross floor area		When a school bus is kept, there can be a reduction of 2 spaces for bus	
Private elementary and intermediate	Whichever is greater: 1 space per classroom, or 1 space per 3 seats in the auditorium or multipurpose room	1 space per employee	When a school bus is kept, there can be a reduction of 2 spaces for bus	Loading/unloading space for at least 2 school buses
Private high schools	Whichever is greater: 1 space per classroom, or 1 space per 3 seats in the auditorium or multipurpose room	1 space per employee, and 1 space per 8 students	When a school bus is kept, there can be a	Loading/unloading space for at least 2 school buses

			reduction of 2 spaces for bus	
Private colleges and universities	1 space per 30 sq. ft. of net assembly area of main auditorium or stadium	1 space per employee, plus 1 space per faculty member, and 1 space per 2 students		
Trade schools, business colleges and commercial schools	1 space per 30 sq. ft. of net assembly area of main auditorium or stadium	1 space per employee, plus 1 space per faculty member, and 1 space per 2 students		

*The city does not regulate public schools.

d. *Parking requirements for uses not specified.* When parking requirements for a use are not specifically stated, the parking requirement for such use shall be determined by the community development director, based on the requirement for the most comparable listed use in this title.

e. *Request for modifications from parking standards.* The community development director may, without notice or hearing, permit modifications to the circulation and parking layout requirements where topographic or other physical conditions make it impractical to require strict compliance with these requirements.

(Ord. of 7-2012, § 5.6; Ord. No. 2013-09, § 3, 5-22-2013; Ord. No. 23-22, § 1, 2-8-2023)

CHAPTER 120.06. GLOSSARY

Sec. 120.06.010. Glossary of terms.

(a) For the purpose of this zoning title, certain words and terms used in this title are defined as follows:

Abandoned sign means any sign which is located on a premises that has been vacated for a period of more than 90 days as regulated in section 120.05.070(e), nonconforming and abandoned signs.

Accessory building.

(1) The term "accessory building" means a subordinate building on the same lot or building site, the use of which is incidental to that of the main building. A mobilehome shall constitute a main building where installed.

(2) The term "accessory building" does not means a second unit, as defined by state law and this Code.

Accessory structures means buildings or structures separate from the main dwelling unit, such as carports, storage sheds, and pool houses.

Accessory use means a use customarily incidental and accessory to the principal use of a lot or a building which is located upon the same lot or building site.

Agricultural uses of the soils for crops includes the grazing of not more than two mature farm animals per acre and their immature offspring.

Agricultural workers' housing means any on-site employee housing for agricultural workers, subject to special provisions included within this title.

Agricultural zone means zones A-1 and A-2.

Alley means a public or private thoroughfare or way, permanently reserved and having a width of not more than 20 feet, which affords only a secondary means of access to abutting property.

Alternative access means a public road or driveway constructed pursuant to appropriate city standards with no restrictions.

Apartment means a room or suite of two or more rooms in a multiple dwelling, occupied or suitable for occupancy as a residence for one family.

Assembly area, net, means the area of a structure which does not include foyers, corridors, restrooms, kitchens, storage and other areas not used for the assembly of people.

Attractive nuisances means any condition that is dangerous or likely to shelter vagrants or criminal activities, including but not limited to:

(1) Any abandoned or substandard structure, building or fence;

(2) Abandoned, broken or neglected equipment, appliances or machinery; and

(3) Hazardous swimming pools, ponds or other excavations including abandoned shafts or basements.

Auction means the sale of new and used merchandise offered to bidders by an auctioneer for money or other consideration.

Automatic control timer means a mechanical or solid state timer, capable of operating valve stations to set the days and length of time of a water application.

Automobile storage space means a permanently maintained space on the same lot or building site as the use it is designed to serve.

Automobile wrecking means the dismantling or wrecking of motor vehicles or trailers, or the storage, sale or dumping of dismantled, partially dismantled, obsolete or wrecked vehicles or their parts, outside of an enclosed building, but not including the incidental storage of vehicles in connection with the operation of a repair garage.

Basement means a story partly underground and having at least one-half its height measured from its floor to its finished ceiling, below the average adjoining grade. A basement shall be counted as a story if the vertical distance from the average adjoining grade to its finished ceiling is over five feet.

Beauty shop means beauty shops, including beauty shops operated from a home by its inhabitants where no assistants are employed and the on-site sign is unlighted and does not exceed two square feet in area.

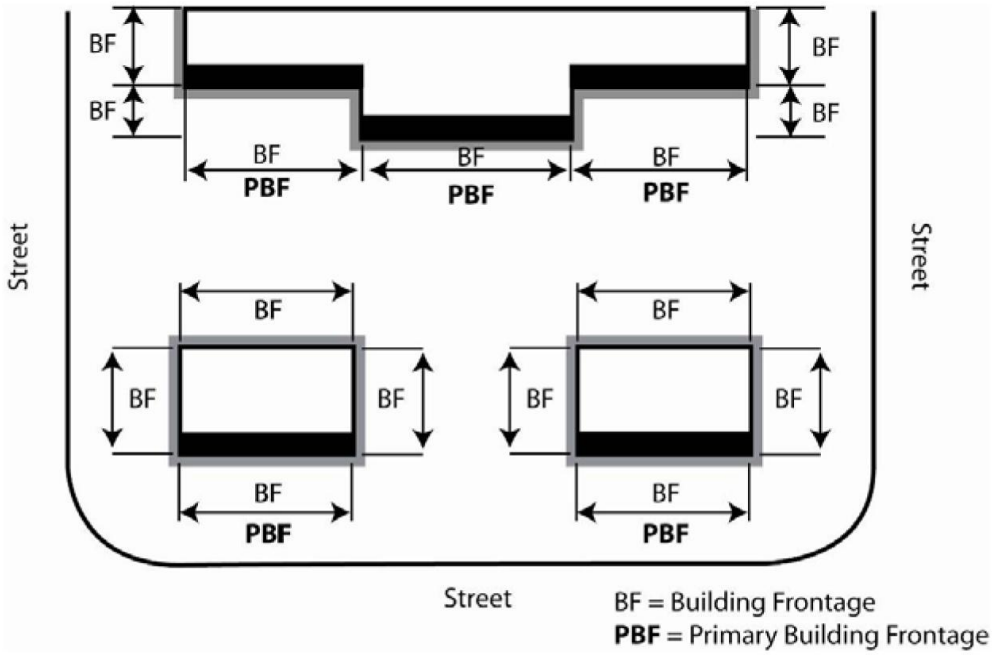

Billboard means a sign which advertises or identifies a use, good or service not located on the same lot or premises as the sign.

Boardinghouse, roominghouse or *lodginghouse* means a building where lodging and meals are provided for compensation for six but not more than 15 persons, not including rest homes.

Building means a structure having a roof supported by columns or walls. See *Structure.*

Building frontage, primary, means the building frontage that faces the street (i.e., immediately adjacent or behind a parking area). In cases where a building has more than one street frontage, the longest of the street frontages shall be considered the primary building frontage. In cases where a business has no building frontage facing a street, the building frontage with the primary business entrance shall be considered the primary building frontage. (See figure 6-1, building frontage and primary building frontage). For multitenant buildings, ground floor tenants may have their primary frontage determined independently of the rest of the building based upon the aforementioned rules.

Figure 6-1. Building Frontage and Primary Building Frontage

Building height. See section 120.05.010(c), height measurement.

Building, main, means a building in which is conducted the principal use of the lot on which it is situated. In any residential district, any dwelling shall be deemed to be the main building on the lot on which the same is situated.

Building setback line means the distance between the highway line or permanent access easement located on the same lot and the minimum setback distance required by the underlying zone.

Building site means the ground area of a building or buildings together with all open spaces adjacent thereto, as required by this title.

Bungalow court means two or more dwelling units detached or connected.

Business sign means any structure, sign, banner, flag, device, figure, painting, display, message placard or other contrivance, or any part thereof, which has been designated to advertise a business, or to provide data or information regarding services that are provided by that business.

Camps means any parcel or parcels of land used wholly or in part for recreational, educational, or religious purposes, accommodating five or more children or adults, that is operated as a day camp and/or a resident camp.

Car pool means two or more people traveling together on a continuing and prearranged basis in a motor vehicle over routes tailored to accommodate rider needs.

Caretaker's unit means one-family dwellings on the same parcel as the industrial or commercial use provided such dwellings are occupied exclusively by the proprietor or caretaker of the use and their immediate families.

Catteries means any building, structure, enclosure or premises whereupon or within which ten or more cats, four months of age or older, are kept or maintained. (See section 120.04.070, kennels and catteries.)

Catteries, commercial, means any building, structure, enclosure or premises whereupon or within which five or more cats are kept or maintained primarily for financial profit for the purpose of boarding, breeding, training, marketing, hire, or any other similar purpose.

Catteries, noncommercial, means any building, structure, enclosure, or premises whereupon or within which five or more cats are kept or maintained, but not primarily for financial profit.

Ceramic sales and manufacturing for on-site sales means the sale and manufacturing of ceramics for on-site sales.

Certified recycling facility means a facility approved by the state to collect and redeem recyclable materials for a value not less than that which has been established by the state.

City means the City of Eastvale.

Clinic means a place used for the care, diagnosis, and treatment of sick, ailing, infirm and injured persons and those who are in need of medical or surgical attention, but who are not provided with board or room, nor kept overnight on the premises.

Club.

(1) The term "club" means a nonprofit association of persons who are bona fide members, paying regular dues, and are organized for some common purpose.

(2) The term "club" does not include a group organized solely or primarily to render a service customarily carried on as a commercial enterprise.

Commercial poultry operation means the raising for profit of chickens, turkeys, ducks, geese or other fowls, but not including flocks of less than 200 birds, pigeons or smaller fowls, pets or hatcheries.

Commercial vehicle means any motor vehicle, truck or trailer used for the transportation of passengers, goods, wares or merchandise having a manufacturer's gross vehicle unladen weight rating greater than 10,000 pounds.

Commission means the city planning commission.

Compensation means anything of value.

Conditional use permit allows for consideration of special uses which may be essential or desirable to a particular community, but which are not allowed as a matter of right within a zoning district, through a public hearing process. A conditional use permit can provide flexibility within a zoning code. Another traditional purpose of the conditional use permit is to enable a municipality to control certain uses which could have detrimental effects on the community.

Congregate care facility means a housing arrangement developed pursuant to section 120.04.030, where nonmedical care and supervision are provided, including meals and social, recreational, homemaking and security services.

Convenience zone means a geographical area designated by the state department of conservation which comprises a one-half-mile radius around an established supermarket or grocery store with gross annual sales of $2,000,000.00 or more in underserved areas with no supermarket.

Cool season turf grass means turf grass which withstands winter cold and grows best during the cooler months of the year. Most types languish in hot, dry summers and are best adapted to cool regions or regions where marine influence tempers summer heat. Examples are bluegrasses, bents, fescues, and ryegrasses.

Cottage, commercial, means a dwelling wherein limited commercial uses are allowed provided that:

(1) The commercial use is conducted entirely within the dwelling;

(2) The use is secondary to the principal use of the dwelling as a residence;

(3) The commercial use does not require substantial parking and circulation facilities;

(4) The residential character of the exterior and interior of the dwelling is not changed; and

(5) The combination of residential and commercial uses in one dwelling does not violate state, city and county sanitation requirements.

The commercial use cottage must be compatible with the established neighborhood, and must be subject to development review or conditional use permit approval. No more than two persons may be employed on the premises in addition to the family residing in the dwelling.

County means the County of Riverside.

Covenants, conditions and restrictions (CC&Rs) means a document used to describe restrictive limitations placed on real property and its uses, and which usually are made a condition of holding legal title to, or leasehold interest in, the real property in question.

Crop coefficiency means a correction factor, expressed as a decimal fraction, comparing the water consumption by a given plant species to the reference evapotranspiration (ETo). The term "reference Eto" means a standard of measurement of environmental parameters which affect the water use of plants. Reference ETo is given in inches per day, month or year and is an estimate of the ETo of a large field of four- to seven-inch-tall, cool season grass that is well watered. Reference ETo is used as the basis of determining the maximum water allowances so that regional differences in climate can be accommodated.

Crop production means the drying, packing, processing, canning, freezing and other accepted methods of processing the produce, nuts and other horticultural products, resulting from such permitted uses, and when such processing is primarily in conjunction with a farming operation and further provided that the permanent buildings and structures used in conjunction with such drying, packing and processing operations are not nearer than 20 feet from the boundaries of the premises.

Crowing fowl, as used in this title, includes chickens, peafowl and guinea fowl.

Dairy farm means a parcel or contiguous parcels of land used primarily to maintain cattle for the production of milk, including a building or buildings for milking, processing of milk produced on the premises, retail or wholesale sales and deliveries of such milk, and other buildings and structures incidental to the operation.

Day care center means a day care facility other than a family day care home, including infant centers, preschools, and extended day care facilities. Such a facility must provide care to children or adults in need of personal services, supervision or assistance essential for sustaining the activities of daily living or for the protection of the individual on less than a 24-hour basis.

Decorative fence means a fence installed for decorative purposes, such as split rail, picket, wrought iron, or low brick or stucco walls, constructed alternately of brick or masonry, and sections of wrought iron, aluminum or material similar in appearance.

Display face.

(1) The term "display face" means the surface area of a sign available for the purpose of displaying an advertising message.

(2) The term "display face" does not include the structural supports or lighting.

Disposal service operations means areas for the storage and maintenance of vehicles and equipment used in the collection, transportation and removal of garbage and rubbish not including storage or dumping of garbage or rubbish.

Draying, freighting and truck operations means a business whose sole purpose is to move goods by truck as opposed to businesses which produce, store and then distribute goods such as manufacturers with warehouses and distribution centers. See *Warehousing and distribution.*

Drive-in and drive-through operations or facilities, means a business which includes dining services (such as but not limited to restaurants, coffee shops, or online food/beverage order pick-up) or other services (such as but not limited to banks, carwashes, pharmacies, or other pick-up operations) that are designed so that customers can be served while remaining in their vehicles in a dedicated queue lane.

Dwelling means a building or portion thereof designed for or occupied exclusively for residential purposes including one-family and multiple-family dwellings but not including hotels, auto courts, boardinghouses or lodginghouses.

Dwelling, guest, means a building that contains no cooking facilities and is used exclusively for housing members of a single-family and their nonpaying guests. A guest dwelling shall be subject to the provisions of section 120.04.010.

Dwelling, multiple-family, means a building or portion thereof used to house two or more families, including domestic employees or each such family, living independently of each other, and doing their own cooking.

Dwelling, one-family, means a building or structure, including a mobilehome or manufactured home, containing one kitchen and used to house not more than one family, including domestic employees.

Dwelling, resort, means a building used exclusively for residential purposes, containing not more than two kitchens, with permanent interior means of access between all parts of the building, and located on a lot in a recorded subdivision with an average lot area of 10,000 square feet or more. No such dwelling shall be erected unless, as a part of the purchase price of the property, the purchaser receives the privilege of use of recreational facilities such as golf courses or polo fields, which facilities are adjacent to and a part of the residential development. No reduction of yard setbacks shall be permitted despite any other provisions of this title.

Dwelling, second-unit, means an attached or detached dwelling unit which provides complete independent living facilities for one or more persons, with permanent provisions for living, sleeping, eating, cooking and sanitation sited on the same parcel as the primary dwelling unit. The term "second-unit dwelling" includes granny flats.

Dwelling, two-family.

(1) The term "two-family dwelling" means an attached building (e.g., duplex) designed for occupancy by two families living independently of each other, where both dwellings are located on a single lot. For the purposes of this title, this definition also includes halfplexes (two attached units, each with a separate lot). More than one two-family dwelling may be located on a single lot consistent with the density provisions of the general plan.

(2) The term "two-family dwelling" does not include second dwelling units. See *Dwelling, second-unit.*

Dwelling unit means a building or portion thereof used by one family and containing one kitchen.

Dwelling unit, factory-built.

(1) The term "factory-built dwelling unit" means a dwelling unit constructed in accordance with the Uniform Building Code and manufactured in such a manner that all concealed parts or processes of manufacture cannot be inspected before installation at the building site without disassembly, damage or destruction of the part.

(2) The term "factory-built dwelling unit" does not include a mobilehome, a mobile accessory building or structure, a recreational vehicle, or a commercial coach.

Dwelling unit, manufactured.

(1) The term "manufactured dwelling unit" means a residential structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities.

(2) The term "manufactured dwelling unit" does not include a factory-built dwelling unit, a mobile accessory building or structure, a recreational vehicle or a commercial coach.

Edge of a right-of-way means a measurement from the edge of a right-of-way horizontally along a line normal or perpendicular to the centerline of the freeway or highway.

Educational institutions means schools, colleges or universities, supported wholly or in part by public funds, and other schools, colleges and universities giving general instruction as determined by the state board of education.

Electronic sign means a sign with a fixed or changing display/message that can be changed through electronic means.

Electric vehicle charging station, small means a station that is designed and operated as a use ancillary to the primary permitted use on the site (such as a single family residence, condominium, apartment, office building, commercial retail, parking lot, garage or structure) in order to deliver electricity to personal or commercial passenger vehicles and trucks owned or operated by individuals who either reside or work on the site or are guests on the site where the charging station is located.

Electric vehicle charging station, large means a station that is designed to charge personal passenger vehicles and trucks and/or commercial passenger vehicles and trucks which is open to the public, whether with or without the payment of fees, subscriptions or monetary charges for the service. A “large electric vehicle charging station” includes the electrical and mechanical equipment as defined in Article 625 of the California Electrical Code, and any subsequent amendments, that is necessary to delivery electricity from a source outside an electric vehicle into a plug-in electric vehicle. It does not include ancillary equipment and facilities that are not directly necessary for the charging of plug-in electric vehicles, including but not limited to, canopies (with or without solar panels), patronage resting facilities, commercial sales kiosks or buildings, public restrooms, family amenities or pet amenities. Such ancillary equipment and facilities are not subject to the expedited application and permitting requirements as referenced in Chapter 110.96, electric vehicle charging systems, but shall be subject to the applicable development review process as referenced in Section 120.02.010, development review.

Emergency access means a private drive or roadway providing access to one or more buildings. The access may be gated and locked at one or both ends restricting traffic to emergency vehicles only.

Emergency shelter means housing with minimal supportive services for homeless persons that is limited to occupancy of six months or less by a homeless person.

Equipment rental services means equipment rental services, including rototillers, power mowers, sanders, power saws, cement and plaster mixers not exceeding ten cubic feet in capacity and other similar equipment.

Erected means built, built upon, added to, altered, constructed, reconstructed, moved upon, or any physical operations on the land required for a building.

Established facility means an existing, legally permitted facility that is designed and constructed to accommodate 2,000 or more people.

Evapotranspiration means the quantity of water evaporated from adjacent soil surfaces, transpired by plants, and retained in plant tissue during a specific time.

Event, major. See definition in section 120.01.050(7), temporary event permits.

Event, minor. See definition in section 120.01.050(7), temporary event permits.

Event, temporary. See definition in section 120.01.050(7), temporary event permits.

Family means one or more persons living together in a dwelling unit, with common access to and common use of all living, kitchen and eating areas within the dwelling unit.

Family day care home, large, means state-licensed facilities that provide nonmedical care and supervision of minor children for periods of less than 24 hours within a single-family residence. The occupant of the residence provides care and supervision generally for seven to 14 children. As described in the California Health and Safety Code, large day care homes may provide services for up to 16 children when specific conditions are met.

Family day care home, small, means state-licensed facilities that provide nonmedical care and supervision of minor children for periods of less than 24 hours within a single-family residence. The occupant of the residence provides care and supervision generally to six or fewer children. As described in the California Health and Safety Code, small day care homes for children may provide services for up to eight children when specific conditions are met.

Farm means a parcel of land devoted to agricultural uses where the principal use is the propagation, care, and maintenance of viable plant and animal products for commercial purposes.

Farmworker housing means consistent with Health and Safety Code §§ 17021.5 and 17021.6, any employee housing consisting of no more than 36 beds in group quarters, or 12 units or spaces designed for use by a single-family or household, shall be deemed an agricultural land use designation. For the purpose of all local ordinances, employee housing shall not be deemed a use that implies that the employee housing is an activity that differs in any other way from an agricultural use. No conditional use permit, zoning variance or other zoning clearance shall be required of this employee housing that is not required of any other agricultural activity in the same zone. The permitted occupancy in employee housing in an agricultural zone shall include agricultural employees who do not work on the property where the employee housing is located.

Fence means a manmade continuous barrier of any material, or combination of materials, erected to prohibit entry to real property.

Freestanding sign means any sign not attached to any building or structure.

Freeway means a divided arterial highway for through traffic with full control of access and with grade separations at intersections.

Garage, private, means an accessory building or a main building or portion thereof, used for the shelter or storage of self-propelled vehicles, owned or operated by the occupants of a main building and wherein there is no service or storage for compensation.

Grazing means the grazing of cattle, horses, sheep, goats or other farm stock or animals, not including hogs, including the supplementary feeding thereof, not to exceed five animals per acre of all the land available; provided, however, the systematic rotation of animals with more than five animals per acre is permitted so long as the total number of permitted animals is not exceeded. For the grazing of sheep or goats, the permissible number of animals per acre may be multiplied by three, except that there shall be no limit to the permissible number of sheep which may be grazed per acre when the grazing is for the purpose of cleaning up unharvested crops, provided that such grazing is not conducted for more than four weeks in any six-month period. The provisions of this definition apply to mature breeding stock, maintenance stock and similar farm stock, and shall not apply to the

offspring thereof, if such offspring are being kept, fed or maintained solely for sale, marketing, or slaughtering at the earliest practical age of maturity. In all cases the permissible number of animals per acre shall be computed upon the basis of the nearest equivalent ratio.

Group home means shared living quarters without separate kitchen and/or bathroom facilities for each room or unit. This classification includes residential hotels, dormitories, fraternities, sororities, convents, rectories and private residential clubs but does not include living quarters shared exclusively by a family. This category includes boardinghouses, which are defined as a building other than a hotel or restaurant where meals or lodging or both meals and lodging are provided for compensation for four or more persons.

Halfway house means a rehabilitation center for the treatment, counseling, rooming and boarding of persons released from jail, prisons, hospitals and sanitariums.

Hardware and home improvement centers means a hardware and home improvement center, including not more than 1,000 square feet of outside storage lumber.

Hazardous waste facility means a hazardous waste facility provided a hazardous waste facility siting permit.

Height, building. See section 120.05.010(c), height measurement.

Highway means roads, streets, boulevards, lanes, courts, places, commons, trails, ways or other rights-of-way or easements used for or laid out and intended for the public passage of vehicles or persons.

Holiday display.

(1) The term "holiday display" means any display that is commonly associated with any local or religious holiday and erected on a temporary basis, including but not limited to: Christmas lights and other decorations, Halloween decorations, or similar items, etc.

(2) The term "holiday display" does not include any patriotic display such as a flag or ribbon.

Home occupation means an accessory, nonresidential business activity that is conducted within a dwelling by its inhabitants, incidental to the residential use of the dwelling, which does not change the character of the surrounding area by generating more traffic, noise, or storage of material than would be normally associated with a residential zone.

Hotel means a building designed for or occupied as the more or less temporary abiding place of individuals who are lodged with or without meals, in which there are six or more guest rooms, and in which no provision is made for cooking in any individual room or suite. Jails, hospitals, asylums, sanitariums, orphanages, prisons, detention homes or similar buildings where human beings are housed and detained under legal restraint are specifically not included.

Hotel, resort, means a hotel, including all accessory buildings defined as "hotel" in this title and having a building site or hotel grounds of not less than 50,000 square feet. Such hotel may have accessory commercial uses operated primarily for the convenience of the guests thereof, provided there is no street entrance directly to such commercial uses, and further provided such commercial uses shall not occupy more than 20 percent of the ground floor area of such hotel building.

Illegal sign means any of the following:

(1) A sign and related structures erected without first complying with all applicable city ordinances and regulations in effect at the time of its construction, erection or use;

(2) A sign and related structures which do not comply with this title;

(3) A sign and related structures which are a danger to the public or are unsafe.

Indoor amusement/entertainment facility means establishments providing indoor amusement and entertainment services as primary uses for a fee or admission charge, including dance halls, ballrooms and

electronic game arcades. Any establishment with four or more electronic games or coin-operated amusements, or premises where 50 percent or more of the floor area is occupied by amusement devices, are considered an electronic game arcade as described in this definition; three or fewer machines are not considered a land use separate from the primary use of the site.

Indoor fitness and sports facility means predominantly participant sports and health activities conducted entirely within an enclosed building. Typical uses include bowling alleys, billiard parlors, ice/roller skating rinks, indoor racquetball courts, indoor climbing facilities, soccer areas, athletic clubs and health clubs.

Junkyards, wrecking, dismantling and salvage yards means the use of any lot or parcel of land for outside storage, wrecking, dismantling or salvage of any used or secondhand materials, including but not limited to lumber, auto parts, household appliances, pipe, drums, machinery or furniture. A proposed or intended use by the owner of the used or secondhand materials does not constitute an exception to this definition.

Kennel means any building, structure, enclosure or premises whereupon or within which five or more dogs, four months of age or older, are kept or maintained. (See section 120.04.070, kennels and catteries.)

(1) *Class I kennel* means any building, structure, enclosure, or premises whereupon or within which five to ten dogs, four months or older of age, are kept or maintained. A class I kennel shall not include a sentry dog kennel or an animal rescue operation that meets the definition and requirements set forth in section 120.04.070.

(2) *Class II kennel* means any building, structure, enclosure, or premise, whereupon or within which eleven to 25 dogs, four months of age or older, or cattery (10 to 25 cats) are kept or maintained. A class II kennel shall not include a sentry dog kennel.

(3) *Class III kennel* means 26 to 40 dogs or a cattery (26 to 40 cats).

(4) *Class IV kennel* means 41 or more dogs, or a sentry dog kennel or a cattery (41 or more cats).

(5) *Sentry dog kennel* means any building, structure, enclosure, or premises whereupon or within which five or more guard or sentry dogs are kept or maintained. A sentry dog is any dog trained to work without supervision in a fenced facility and to deter or detain unauthorized persons found within the facility. The term "guard dog" also means a sentry dog.

Kitchen means any room in a building or dwelling unit which is used for cooking or preparation of food.

Labor camp means any building or group of buildings where five or more farm employees are housed.

Lake, recreational, means a confined body of standing fresh water containing more than 500,000 gallons of water and covering more than one acre of surface area, not including reservoirs, duck clubs, bodies of water contained within golf courses, and water storage used only for agricultural or domestic purposes.

Leasable floor area, net, means the area including sales areas and integral stock areas, but excluding corridors, enclosed malls, lobbies, stairwells, elevators, equipment rooms and restrooms.

Liquid petroleum service stations means stations with or without the concurrent sale of beer and wine for off-premises consumption, provided that if storage tanks are above ground, the total capacity of all tanks shall not exceed 10,000 gallons. Storage tanks shall be painted a neutral color and shall not have any advertising painted or placed on their surface.

Lot means parcel of real property:

(1) Shown as a delineated parcel of land with a separate and distinct number or other designation of a plot recorded in the office of the county recorder;

(2) Not so delineated and containing not less than 7,200 square feet and abutting on a street or alley and held under separate ownership from adjacent property prior to the effective date of the ordinance from which this title is derived; or

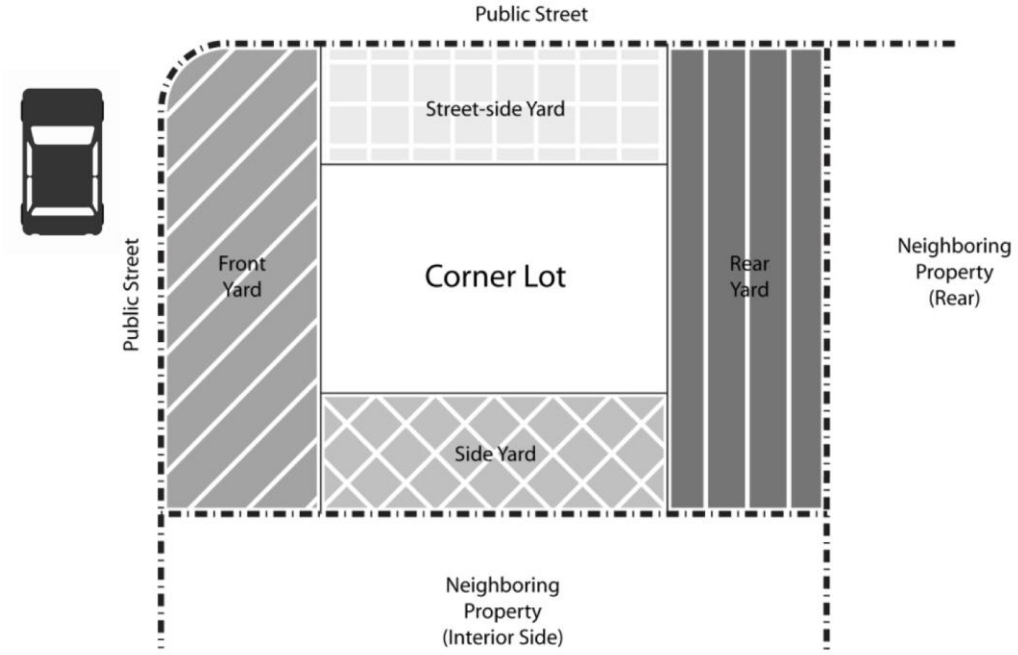

(3) Not so delineated containing not less than 7,200 square feet abutting on a street or alley, if the same was a portion of a larger piece of real property held under the same ownership prior to the effective date of the ordinance from which this title is derived.

A lot shall not come into existence solely because it is described as a parcel of real property securing, or in part securing, a promise to pay money or other thing of value whether its title is held by a trustee for such purpose or not.

Lot area means the total horizontal area within the lot lines of a lot.

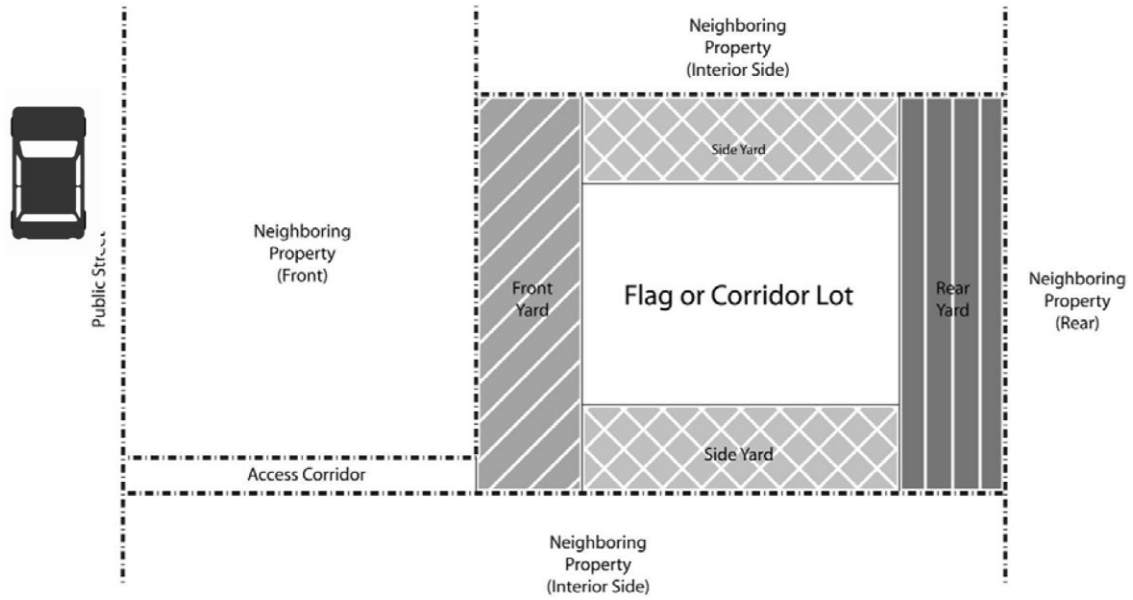

Lot, corner, means a lot located at the junction of two or more intersecting streets having an angle of intersection of not more than 135 degrees, with a boundary line thereof bordering on two of the streets.

Figure 6-2. Corner Lot

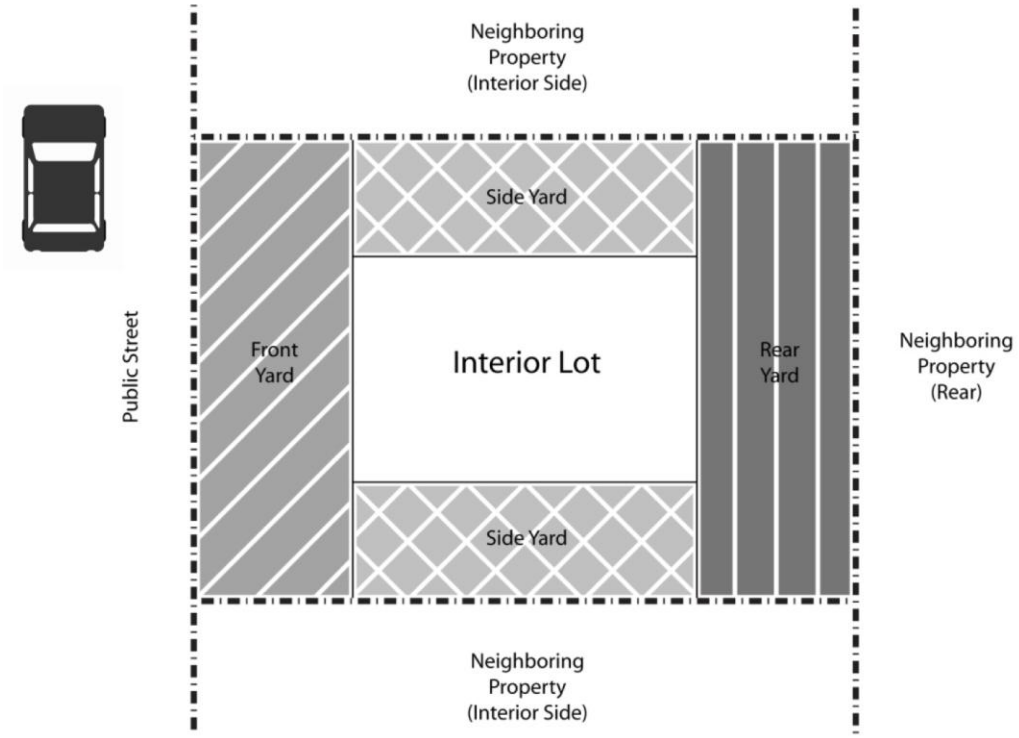

Lot, flag, means a parcel of land shaped like a flag. The staff (access corridor) is a narrow strip of land providing vehicular and pedestrian access to the street with the bulk of the property lying to the rear of other lots.

Figure 6-3. Flag Lot

Lot, interior, means a lot other than a corner lot.

Figure 6-4. Interior Lot

Lot lines means the boundary lines of lots and as follows:

(1) *Front lot line.* The line dividing a lot from the street, or from a permanent access easement located on the same lot.

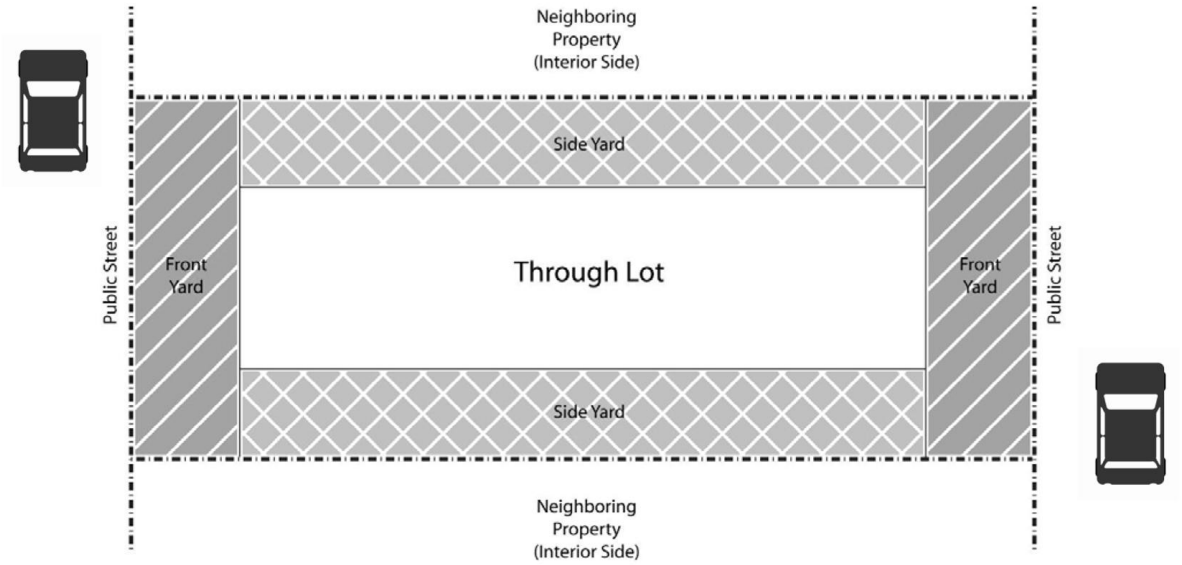

(2) *Corner lot.* Only one street line shall be considered as a front lot line, and such front lot line shall be determined by the commission.

(3) *Rear lot line.* The line opposite the front lot line.

(4) *Side lot lines.* Any lot lines other than the front lot line or the rear lot line.

Lot, through, means an interior lot having frontage of two parallel or approximately parallel streets.

Figure 6-5. Through Lot

Manufacturing, limited, means limited manufacturing, fabricating, processing, packaging, treating and incidental storage related thereto, provided any such activity shall be in the same line of merchandise or service as the trade or service business conducted on the premises.

Manufacturing, major, means manufacturing, fabrication, processing, and assembly of materials in a raw form. Uses in this category typically create greater than usual amounts of smoke, gas, odor, dust, sound or other objectionable influences that might be obnoxious to persons conducting business on site or on an adjacent site. Uses include but are not limited to batch plants, rendering plants, aggregate processing facilities, plastics and rubber products manufacturing.

Manufacturing, minor, means manufacturing, fabrication, processing and assembly of materials from parts that are already in processed form and that, in their maintenance, assembly, manufacture, or plant operation, do not create excessive amounts of smoke, gas, odor, dust, sound or other objectionable influences that might be obnoxious to persons conducting business on site or on an adjacent site. Uses include, but are not limited to furniture manufacturing and cabinet shops, laundry and dry cleaning plants, metal products fabrication and food and beverage manufacturing.

Mass transit means publicly provided transportation, usually either by bus or rail, to users at a fixed cost per ride.

Maximum height means the highest point of the structure or sign measured from the average natural ground level at the base of the supporting structure.

Menagerie means:

(1) Any lot or premises on which one or more wild animals of the following types are kept:

a. Venomous reptiles;

b. Nonvenomous reptiles that weigh more than ten pounds, not including turtles or tortoises;

c. Birds or members of the Aves class that weigh more than 20 pounds, not including poultry;

d. Mammals that weigh more than 20 pounds.

(2) Any lot or premises on which wild animals of the following types are kept, regardless of weight, unless such animals are listed in a zone classification as a permitted use:

a. Ten or more nonvenomous reptiles;

b. 25 or more mammals.

(3) A wild animal that has been tamed or trained shall be considered a wild animal. As used in this chapter, the term "wild animal" means any animal of the class Aves (birds), class Mammalia (mammals), class Amphibia (frogs, toads, salamanders), class Osteichtyes (bony fishes), class Crustacea (crayfish) or class Gastropoda (slugs, snails) which are not normally domesticated in this state as determined by the state fish and game commission.

Migrant agricultural worker means an itinerant agricultural worker that travels from place to place for employment in the planting, growing and harvesting of seasonal crops.

Mining operation means any process by which one or more substances classified geologically as minerals are extracted from the earth or stockpiled, including the reworking of mineral dumps which have been artificially created by mining operations.

Mobile recycling unit means a licensed vehicle used for the collection of recyclable materials. The term "mobile recycling unit" may also include trailers, bins, boxes or other storage containers which are transported by vehicles, and does not occupy more than five parking spaces or 500 square feet of floor area.

Mobilehome park means any area or tract of land where one or more mobilehome lots are rented or leased or held out for rent or lease to accommodate mobilehomes used for human habitation.

Mulch means a material such as leaves, bark or straw left loose and applied to the soils surface to prevent evaporation of water.

Noise attenuation barrier means a soundwall or other structure built by the state department of transportation to reduce noise impacts.

Noncommercial structure or sign means any sign that does not do any of the following:

(1) Advertise a product or service for profit or for a business purpose;

(2) Propose a commercial transaction; or

(3) Relate solely to economic interests.

Nonconforming building means a building that was legal when established, but because of the adoption or amendment of the ordinance from which this title is derived conflicts with the provisions of this title applicable to the district in which such a building is situated.

Nonconforming use means the use of a building or land that was legal when established, but because of the adoption or amendment of this code conflicts with the provisions of this code applicable to the district in which such use is located.

Nonprofit clubs means nonprofit community centers, social halls, churches, parks, and community recreation facilities, including but not limited to swimming pools, and golf courses and the normal accessory uses thereto.

Occupancy, change of means a discontinuance of an existing use, and substitution thereof, of a use of a different kind or class.

Occupied means used, arranged, converted to, rented, leased, or intended to be occupied.

Outdoor commercial recreation means facility for various outdoor participant sports and types of recreation where a fee is charged for use (e.g., amphitheaters, amusement and theme parks, golf driving ranges, health and athletic clubs with outdoor facilities, miniature golf courses, skateboard parks, stadiums and coliseums, swim and tennis clubs, water slides, and zoos).

Outdoor film studios means a facility utilizing on-site indoor and outdoor locations for the filming of motion pictures, television programs, and music videos. Outdoor film studios may provide limited housing for temporary use during such filming operations. This definition does not include permanent production facilities such as would be used for film processing or editing, although sound recording or dubbing shall be allowed.

Outdoor lighting means outside illuminating devices that are electrically powered and used to light yards, building façades, patios, balconies, building overhangs, open canopies, parking sheds, landscaping, walkways, and driveways.

Outdoor storage means any outside storage of material including but not limited to: lumber, auto parts, appliances, pipe, drums, machinery, furniture, building materials, work tools, or other items or substances. Items stored under a carport, awning, or patio shall be considered outside storage.

Overlay zone means a set of zoning requirements that are superimposed upon an underlying zone. Overlay zones are generally used when a particular area requires special protection or has a special neighborhood concern. Development of land subject to overlay zoning requires compliance with the regulations of both the underlying zone and overlay zone.

Parking area means any area for the parking of a motor vehicle, plus those additional areas required to provide ingress to and egress from the parking area.

Patio cover means a structure attached to the main building and fully unenclosed on all sides except the side which is the main building or detached from the main building and fully unenclosed on all sides. The roof of the patio cover may be fully or partially enclosed. The unenclosed sides of the patio cover structure must remain unenclosed and shall not be covered with any permanent or semi-permanent material including, but not limited to, insect screening, transparent plastic, or lattice.

Pen-fed beef cattle operations means six or more beef cattle per acre being fed or fattened for marketing purposes whether the owner or operator performs the feeding service for himself or others. (Dairy herd replacements are not considered beef cattle.)

Person includes association, company, firm, corporation, partnership, co-partnership or joint venture.

Place of public assembly means any place designed or used for congregation or gather of 20 or more persons in one room where such gathering is of a public nature. Assembly hall, church, auditorium, recreational hall, pavilion, place of amusement, dance hall, opera house, motion picture theater, outdoor theater or theater are included within this term.

Planned commercial development means a development that may be permitted to have reduced width, depth, and building setback requirements, and have common access and common parking, provided a planned development land division is approved pursuant to the provisions of title 130, subdivisions.

Planned industrial development means a development that may be permitted to have reduced lot area, width, depth, and building setback requirements, and have common access and common parking, provided a planned development land division is approved pursuant to the provisions of title 130, subdivisions.

Planned residential development means a residential development including, but not limited to, statutory and nonstatutory condominiums, cluster housing, townhouses, community apartment projects and mobilehome

developments; that is permitted to have reduced lot area, width and depth requirements, and building setback requirements by integrating into the overall development open space and outdoor recreational facilities; and may include recreational and public buildings intended primarily for the use of the residents of the project within the development.

Poultry means domestic birds including turkeys, ducks, geese, pheasants, and other fowl specialized for meat projects, egg laying or ornamental show, but not including crowing fowl as defined in this title.

Professional offices means administrative and professional offices including medical, dental, chiropractic, law offices, architectural, engineering, community planning, and real estate, provided there is no outdoor storage of materials, equipment, or vehicles, other than passenger cars.

Property, private, means land or belongings owned by a person or group and kept for their exclusive use.

Property, public, means property owned by a government agency.

Public recreation means public parks and public playgrounds, golf courses with standard length fairways and city clubs.

Public schools means public educational institutions such as community colleges, universities, elementary, middle/junior high and high schools, and military academies.

Rain shutoff device means a device that senses rainfall and automatically shuts off the irrigation system.

Ranch, guest, means any property containing five acres or more operated as a ranch which offers guestrooms for rent and has outdoor recreational activities such as horseback riding, swimming or hiking.

Recreational equipment means any equipment used for sports, exercise, leisure, and recreation including but not limited to basketball hoops, slides, swings, jungle gyms, volleyball nets, grills, portable barbeques, fire pits and outdoor heaters.

Recreational trailer means a motor home, travel trailer, truck camper or camping trailer, with or without motive power, designed for human habitation for recreational, emergency, or other occupancy. The term "dependent recreational vehicle" means a recreational vehicle not equipped with a toilet for sewage disposal. The term "independent recreational vehicle" means a recreational vehicle equipped with a toilet for sewage disposal.

Recreational vehicle park means any area or tract of land, or a separately designated section within a mobilehome park, where one or more spaces are rented or leased or held out for rent or lease to owners or users of recreational vehicles. A recreational vehicle park may have a membership organization that provides for the use of spaces within a park:

(1) Vacation recreational vehicle parks means a park designed for transient use, such as overnight or short-term occupancy. Generally, only limited services and amenities are provided.

(2) Extended occupancy parks means a recreational vehicle park designed for extended occupancy.

(3) Permanent occupancy parks means a recreational vehicle park designed for permanent occupancy. Full urban services and recreational amenities are provided.

Recreational vehicles means vehicles with or without motive power, designed for human habitation or recreation, including but not limited to: boats, snowmobiles, watercraft, racing vehicles, off-road vehicles, utility trailers, motor homes, travel trailers, truck campers or camping trailers.

Recyclable materials.

(1) The term "recyclable materials" means any reusable material acceptable for reprocessing and redemption including, but not limited to, glass, metal, paper, and plastic.

(2) The term "recyclable materials" does not include hazardous waste or other refuse.

Recycling collection facility means a facility that accepts recyclable material by donation, redemption, or purchase; and where the use of power-driven machinery is limited to that which is necessary for the temporary storage, efficient transfer and securing of materials, as set forth in section 120.04.110.

Recycling facility means a facility equipped to accept and/or process recyclable materials. The term "recycling facility" includes, but is not limited to, reverse vending machines, collection facilities and processing facilities.

Recycling processing facility means a facility that collects and processes acceptable recyclable materials by donation, redemption or purchase. The term "processing" means the preparation or transformation of recyclable materials for efficient shipment to an end user by, but not limited to, such means as baling, compacting, crushing, shredding and sorting.

Religious institution means churches, temples and other places of religious worship.

Retail sales and service, small scale, means establishments providing nonmedical services as a primary use, including, but not limited to, clothing rental, dry cleaning pick-up stores with limited equipment, home electronics and small appliance repair, laundromats (self-service laundries), shoe repair shops, and tailors. These uses may also include accessory retail sales of products related to the services provided, spas and hot tubs for rent, and tanning salons.

Reverse vending machine means an automated and mechanical recycling facility, not more than 50 square feet in floor area, which accepts one or more types of beverage containers made typically of glass, metal or plastic, and issues in return a cash refund or redeemable credit receipt with a value not less than the redemption worth of the container as determined by the state.

Scenic highway means any officially designated state or city scenic highway.

Sex-oriented business. See chapter 6.44, sex-oriented businesses.

Shopping center means a parcel of land not less than three acres in size, on which there exists four or more separate business uses that have mutual parking facilities.

Sidewalk means any right-of-way designed for the use by pedestrians and not intended for use by motor vehicles of any kind. A sidewalk may be located within or without a street right-of-way, at grade or at a grade separated from vehicular traffic.

Sign means a sign used for outdoor advertising purposes as defined and directional as provided in this Code.

Sign structure means any structure defined as follows:

(1) For a freestanding sign or a sign that projects from another structure, the sign structure shall be a physical structure upon which letters or symbols are placed;

(2) For a sign placed parallel to the surface or a building, the sign structure shall consist of all elements placed directly upon the building, including individually mounted letters.

Significant resources means any city, county, state or federal site which has significant or potentially significant social, cultural, historical, archaeological, recreational, or scenic resources, or which plays or potentially could play a significant role in promoting tourism. For the purposes of this Code, the term "significant" includes, but is not limited to, the following:

(1) Scenic highways;

(2) A corridor 500 feet in width adjacent to both sides of all highways within three-tenths of a mile of any regional, state or federal park or recreation area.

Single-room occupancy (SRO) unit means multiunit housing for very low income persons that typically consists of a single room and shared bath and also may include a shared common kitchen and common activity area. SROs may be restricted to seniors or be available to persons of all ages.

Soil moisture-sensing device means a device that measures the amount of water in the soil.

Stable, commercial, means a stable for horses which are let, hired, used or boarded on a commercial basis and for compensation.

Story means the portion of a building included between the surface of any floor and the finished ceiling next above it or the finished undersurface of the roof directly over that particular floor.

Street means a public or an approved private thoroughfare or road easement which affords the principal means of legal vehicular access to abutting property.

Street line means the boundary line between a street and abutting property.

Structural alteration means any change in the supporting members of a building or structure, such as bearing walls, columns, beams, girders, floor joists or roof joists.

Structure means anything constructed or erected and the use of which requires more or less permanent location on the ground or attachment to something having a permanent location on the ground, such as awnings and patio covers, but not including walls and fences six feet or less in height.

Supportive housing means housing with no limit on length of stay, occupied by the target population and linked to on-site or off-site services that assist the supportive housing resident in retaining the housing, improving his health status, and maximizing his ability to live and, when possible, work in the community.

Swap meets means the use, rental, or lease of stalls or areas outside of an enclosed building by vendors offering goods or materials for sale or exchange, not including public fairs or art exhibits.

Temporary exterior display means any display commonly associated with any significant event for the household, and erected on a temporary basis, including but not limited to birthday, wedding, or any other party decoration.

Temporary real estate offices means temporary real estate offices located within a subdivision, to be used only for and during the original sale of the subdivision, but not to exceed a period of two years in any event.

Trail bike park means an open area used by trail bikes or motorcycles, for purposes including but not limited to hill climbing, trail riding, scrambling, racing, and riding exhibitions.

Transitional housing and *transitional housing development* mean rental housing operated under program requirements that call for the termination of assistance and recirculation of the assisted unit to another eligible program recipient at some predetermined future point in time, which shall be no less than six months.

Use means the purpose for which land or a building is arranged, designed, or intended, or for which either is or may be occupied or maintained.

Used includes occupied, arranged, designed for, or intended to be used.

Van pool means seven or more people traveling together on a continuing and prearranged basis in a motor vehicle designed for the transportation of persons over routes tailored to accommodate rider needs.

Variance allows the city to grant exceptions to the development standards of this Code under unique and limited circumstances.

Warehousing and distribution means businesses whose sole purpose is to store and then distribute goods for sale as opposed to businesses whose sole purpose is to move goods by truck.

Wind energy conservation system (WECS) means a machine that converts the kinetic energy of the wind into a usable form of electrical or mechanical energy. The WECS include all parts of the system except the tower and electrical transmission equipment.

(1) Accessory wind energy conservation system (accessory WECS) means a WECS with a rated output of 20 kilowatts or less and is an accessory use to the principal use of a lot in that at least 50 percent of the average annual power production is used on the lot.

(2) Commercial wind energy conservation system (commercial WECS) means any WECS which is not an accessory WECS as defined herein.

Yard means an open and unoccupied space that is unobstructed from the ground to the sky, on a lot upon which a building is situated.

Yard, front, means a yard extending across the full width of the lot between the side lot lines, and between the front lot line and either the nearest line of the main building or the nearest line of any enclosed or covered porch.

Yard, rear, means a yard extending across the full width of the lot between the side lot lines and measured between the rear lot line and the nearest rear line of the main building or the nearest line of any enclosed or covered porch. Where a rear yard abuts a street it shall meet front yard requirements of the district.

Yard, side, means a yard extending from the front yard to the rear yard between the side lot line and the nearest line of the main building, or of any accessory building attached thereto.

Zoning code means title 120 (this title), planning and zoning, of the Eastvale Municipal Code.

(b) When not inconsistent with the context, words used in the present tense include the future tense; words in the singular number include the plural number and words in the plural number include the singular number. The masculine gender includes the feminine and neuter gender. The term "shall" is always mandatory and not merely directory. The term "may" is permissive.

(Ord. of 7-2012, § 6.1; Ord. No. 2013-09, § 3, 5-22-2013; Ord. No. 23-21, § 1, 2-8-2023; Ord. No. 23-26, § 4, 1-10-2024)

Exhibit 'A'

ORDINANCE NO. 2025-__

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA TO AMEND OF SECTIONS 120.03.020, 120.03.030, 120.05.060, 120.06.010, AND THE ESTABLISHMENT OF SECTION 120.04.170 OF THE EASTVALE MUNICIPAL CODE MAKING CHANGES TO LAND USES SUCH AS DRIVE-IN AND DRIVE-THROUGH RESTAURANTS, CARWASHES, ELECTRIC VEHILCE CHARGING STATIONS, GASOLINE SERVICE STATIONS, ALTERNATIVE FUELING STATIONS, TRUCK AND TRAILER RENTAL AND STORAGE FACILITIES, AND MINI-STORAGE FACILITIES

WHEREAS, the purpose of this ordinance is to amend the city's regulations to establish development standards for drive-through and drive-in restaurant uses and establish updated zoning designations for carwashes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to be located within the industrial and manufacturing zones. Additionally, the municipal code amendment includes updates to the zoning designations and glossary in relation to regulating electric vehicle charging stations; and

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EASTVALE DOES ORDAIN AS FOLLOWS:

SECTION 1. Findings. As required by Section 120.01.070(e) of the Eastvale Municipal Code, the City Council finds that the changes contained in this ordinance are consistent with the General Plan goals, policies, and implementation programs. Specifically, the purpose of this ordinance is to redesignate land uses such as carwashes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones. The ordinance establishes development standards and glossary terms for drive-through and drive-in uses, and establishes updates to the zoning designations and glossary terms pertaining to the regulation of electric vehicle charging stations. Additionally, technical changes were made to clarify the applicability of multi-family dwellings to be consistent with state requirements.

SECTION 2. Amendment of Section 120.03.020 (Residential and agricultural permitted uses and development standards). Table 3.2-1 in Section 120.03.020 (Use matrix for residential and agricultural zones) of the Eastvale Municipal Code is amended to add "Electric Vehicle Charging Station, Small" and add footnote "2" to "Dwelling, Multiple Family" with the footnote description to read as:

Land Use	A-1	A-2	R-A	R-R	R-1	R-2	R-3	PRD	R-5	R-6	R-T	Special Provisions
Electric Vehicle Charging Station, Small	P	P	P	P	P	P	P	P	P	P	P	Chapter 110.96
Dwelling, Multiple Family [2]						P	P	P		P		

[1] Public schools are not regulated by this code.

[2] Notwithstanding any provision of this code or any specific plan to the contrary, as required by Government Code Section 65583.2(h) multiple family dwellings shall be permitted by right on any site listed in the City's Housing Element as available for the development of lower income housing if at least twenty percent of the proposed units are affordable to lower income households during the housing element planning period.

[G] Denotes a specific definition. Please see section 120.06, glossary.

SECTION 3. Amendment of Section 120.03.030 (Commercial and industrial permitted uses and development standards). Table 3.3-1 in Section 120.03.020 (Use matrix for commercial, business park, industrial, and special purpose zones) of the Eastvale Municipal Code is amended to modify the rows for "Car and truck washes (with or without drive-through operation)", "Gasoline service stations, not including the concurrent sale of beer and wine for off-premises consumption", "Gasoline service stations, with concurrent sale of beer and wine for off-premises consumption", "Mini-storage", "Truck and Trailer Sales, Rental, and Storage", addition of "Alternative Fueling Station such as but not limited to hydrogen, propane, biodiesel, etc. (with or without retail, rest stop facility, or office)", "Electric Vehicle Charging Station, Small", "Electric Vehicle Charging Station, Large", and removal of "Car washes" to read as:

Land Use	C-1/C-P	C-P-S	C-O	I-P	M-SC	M-M	M-H	W-1	Special Provisions
Alternative Fueling Station such as but not limited to hydrogen, propane, biodiesel, etc. (with or without retail, rest stop facility, or office)				C	C	C	C		
~~Car washes~~				~~C~~					
Car and truck washes (with or without drive-through operation)	~~P~~	~~C~~		C	C ~~P~~	C ~~P~~	C		
Electric Vehicle Charging Station, Small	P	P	P	P	P	P	P		Chapter 110.96
Electric Vehicle Charging Station, Large	P	P	P	P	P	P	P		Chapter 110.96

Gasoline service stations, not including the concurrent sale of beer and wine for off-premises consumption	~~P~~	~~P~~		C	C	C ~~P~~	C ~~P~~		
Gasoline service stations, with concurrent sale of beer and wine for off-premises consumption	~~C~~	~~C~~		C	C	C	C		
Mini-storage	~~C~~			C	C ~~P~~	C ~~P~~	C ~~P~~		Section 120.04.020
Truck and Trailer Sales, ~~and~~ Rental, and Storage				C	C ~~P~~	C ~~P~~	C ~~P~~		

SECTION 4. Establishment of Section 120.04.170 (Drive-in and drive-through uses). The Eastvale Municipal code is amended to establish Section 120.04.170 (Drive-in and drive-through uses) for the development standards and requirements for "Drive-in and drive-through uses" to read as:

Sec. 120.04.170. Drive-in and drive-through uses.

(a) *Intent*. The intent of this section is to do each of the following:

(1) Regulate drive-through businesses to ensure compatibility of such uses with surrounding uses and properties.

(2) Ensure that an adequate amount of space is allocated for on-site maneuvering and circulation.

(3) Ensure vehicles in a queue for service do not impede traffic on abutting streets and parking areas.

(4) Ensure that vehicle stacking lanes will not have nuisance impacts on neighboring properties and nearby residential uses.

(5) Establish development standards to mitigate the impacts of traffic, congestion, excessive pavement, litter, and noise while ensuring pedestrian connectivity is uninterrupted by vehicles.

(6) Ensure outdoor spaces are provided and preserved.

(b) *Permitted zoning.* Drive-in and drive-through facilities shall be allowed per chapter 120.03, zoning district regulations.

(c) *Design and development standards.*

(1) Required studies. The design of all drive-through lanes for any facility shall be subject to review and approval of a drive-through queuing analysis (or such other study as requested by the City Engineer or their designee) prepared by an independent traffic

engineer licensed by the State of California, and provided to the City by the developer, at such developer's sole expense, at the time of application for such use.

(2) Building placement and orientation.

a. The minimum net land area for uses with drive-through facilities is one (1) acre. This minimum land area may be modified by the reviewing authority through the design review process when the drive-through facility is within a specific plan or an integrated shopping center.

b. Buildings shall be placed on the front yard or street side yard setback line and oriented so that the primary public entrance faces the street and so that any mechanical equipment or other supporting equipment are screened from the public view at grade and from higher buildings.

c. Outdoor dining and seating areas shall be located near the main pedestrian entrance.

d. Walk-up windows, if used, shall be located near outdoor dining areas or other pedestrian areas, to encourage accessibility and limit vehicle and pedestrian conflicts.

e. Buildings may be clustered to create a plaza or outdoor dining area between buildings.

f. Pedestrian pathways and sidewalks must provide safe and convenient access to the building, shall connect directly to the public right-of-way, and shall not cross driveways or stacking lanes to get to the building entrance.

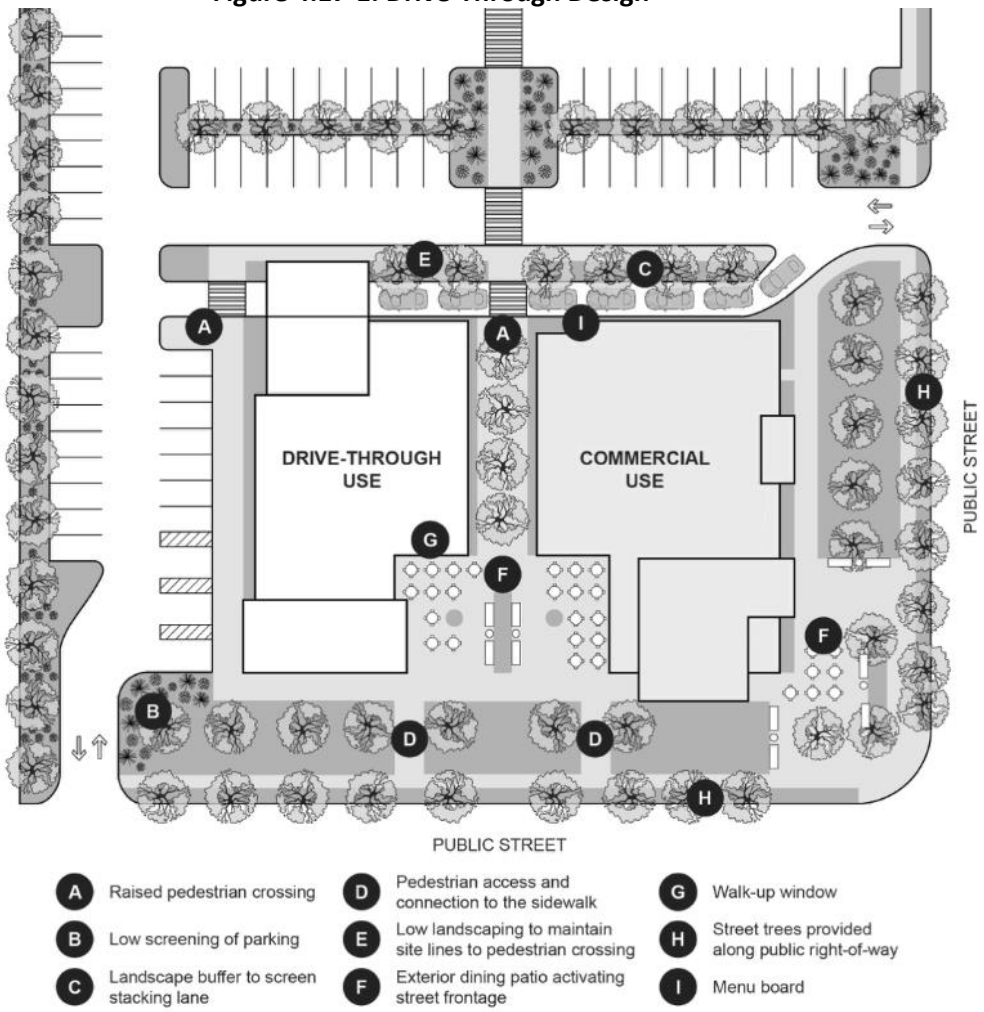

g. The drive-through lanes shall not be located between the property line and the front of the building.

h. Drive-through lanes shall be located to the side or rear of the building and shall be screened with a combination of decorative and split face low screen walls with capping and dense landscaping. The drive-through lanes may be designed to pass through an enclosed building element that is architecturally consistent and integrated into the building's design so that the lanes are enclosed.

i. Loading and service areas must be located on the site to minimize potential noise incompatibility with surrounding properties and so that, to the maximum extent feasible, they are not visible from the rights -of-way.

j. Future drive-through facilities proposed in a master plan or shopping center shall be identified early in the review process to avoid retrofitting the site at a later date.

Figure 4.17-1. Drive-Through Design

(3) Building entrances.

a. Primary building entrances and entry features shall be clearly defined through variation of architectural planes on the building and pavement surfaces, and must be accessible from a courtyard or plaza.

b. The primary building entries shall be accessed directly from the sidewalk in the public right-of-way or from within the development site. Pedestrian circulation paths may only intersect or cross a drive-through lane(s) if the applicant can demonstrate that there are no other feasible or practical options available, in which case the pedestrian crossing shall be raised to create a hump to enhance pedestrian safety.

(4) Building architecture and articulation.

a. Prominent architectural features shall be located near corners, intersections, or where visible to the public right-of-way to promote and enhance the primary building entrance.

b. Drive-through facilities within an integrated shopping center or master plan must have an architectural style consistent with the theme established in the center.

c. The architecture of drive-through facilities must be compatible and consistent with surrounding uses in form, materials, colors, scale, etc.

d. Building planes shall have variation in depth and angle to create variety and interest in the basic form and silhouette of the building.

e. Articulation of building surfaces shall be encouraged through the use of openings and recesses which create texture and shadow patterns.

f. For the purposes of screening, mechanical and/or electrical equipment, when feasible shall be integrated into the architecture and design of the proposed building.

(5) Outdoor dining areas for restaurants.

a. Outdoor dining areas are required for all new drive-in and drive-through restaurant facilities.

b. Outdoor dining areas shall be designed as an integral part of the drive-through facility, and can include plazas, arcades, colonnades, or courtyards.

c. Outdoor dining areas and other publicly accessible outdoor spaces shall include tables and seating, trash cans, and structures that provide shade and protection from the weather.

d. To the maximum extent feasible, outdoor dining areas shall be oriented for maximum benefit of sunlight and views and to the extent possible, outdoor dining areas shall be oriented away from drive-through stacking lanes.

e. The minimum dimension of an outdoor dining area shall be 20 feet measured in any direction with a minimum area of 450 square feet.

(6) Parking and Circulation

a. Parking. The parking for drive-through facilities shall be determined according to Sec. 120.05.060. - Off-street vehicle parking.

b. Setbacks. Parking and the drive-through lane(s) shall be set back a minimum of 45 feet from the curb face of a public street. Greater setbacks may be required as mentioned in an applicable specific plan or as deemed necessary during the design review process.

(7) Stacking requirements.

a. Drive-through lanes shall be designed to accommodate adequate vehicle stacking as determined by a drive-through queuing analysis, reviewed by the City Engineer or their designee, that shall be based on the number of vehicles in the drive-through lanes for seven (7) consecutive days during peak lunch hours

between 11:00 a.m. to 2:00 p.m. and peak dinner hours between 5:00 p.m. to 8:00 p.m. at three (3) different locations in cities with a similar population as Eastvale and in a similar location as the proposed site. At the request of the City Engineer or their designee, additional information may be requested to ensure a complete and accurate evaluation of the drive-through design.

b. All stacking must be designed to be accommodated on the site of the drive-through use without impacting or causing obstructions to adjacent tenants, drive-aisles, parking spaces, or public or private streets.

c. In the event that the number of vehicles waiting at the service window or kiosk exceeds the length of the stacking lane(s), personnel from the drive-through establishment shall manage the queue to ensure that all vehicles do not block or interfere with on-site vehicular and pedestrian circulation and parking areas.

d. Drive-Through Lane Design

    i. The entrance and exit of a drive-through lane must be at least 50 feet from an intersection of public rights-of-way when measured at the closest intersecting curbs.

    ii. The drive-through lane must be at least 10 feet wide with a minimum 10-foot interior radius at curves.

    iii. At a minimum, food and beverage drive-through businesses shall provide stacking space for at least six (6) vehicles before the order menu board, and other service-oriented drive-through businesses shall provide stacking space for at least six (6) vehicles before the drive-up window or kiosk.

    iv. The drive-through lanes shall be separate from the circulation route necessary for ingress and egress from the property or access to any parking spaces within the site using concrete curbing or paint striping on at least one side of the lane. These requirements do not apply to the reuse of existing properties.

    v. All stacking lanes must be clearly identified with pavement markings and signage to indicate the entrance, direction of traffic flow and exit.

    vi. At the discretion of the approving authority, the driveway-through lane design may be required to provide for a minimum nine (9) feet wide escape/emergency lane allowing motorists to exit the stacking lane before reaching the drive-through window.

(8) Performance Standards

a. The use shall be operated in a manner that does not interfere with the normal use of adjoining properties. If, in the opinion of the Community Development Director or their designee, the provisions of this paragraph are being violated, the violations shall be grounds for reopening conditional use permit hearings and adding conditions to control the violation. Performance standards include, but are not limited to, the following considerations, which, where appropriate, shall be incorporated as conditions of approval in all use permits as determined by the approving body:

    i. All graffiti shall be removed within 72 hours.

ii. No undesirable odors shall be generated on the site.

iii. Noise levels measured at the property line shall not exceed the level of background noise normally found in the area or as required per Chapter 8.52. – Noise regulation.

iv. All exterior lighting shall be contained to the subject property and shall not encroach onto neighboring properties as consistent with Sec. 120.05.050. – Outdoor lighting.

v. A traffic management plan shall be submitted, reviewed, and approved by the Community Development Director and the City Engineer. This plan shall include detailed information and mitigation measures (such as traffic control measures, tablets, online orders, temporary drive-through closures, and/or use of off-duty officers for traffic control) to ensure visitor vehicles shall remain completely on-site and shall not impede any public rights-of-way (streets, drives, walks, etc.), drive aisles, parking spaces, etc. This plan shall be kept onsite and made available to the store manager from implementation as required.

(9) Additional permit findings.

a. In addition to the findings required for the granting of the applicable discretionary application, the following additional findings are required to be made by the approving body in approving a discretionary permit for a drive-through business:

i. That the proposed amount of parking, circulation plan, and traffic management plan will provide adequate area for safe stacking and maneuvering of vehicles, and the site design will provide adequate buffering for the use from adjoining land uses:

ii. The proposed location of the drive-through facility will not result in adverse impacts upon the vicinity after giving consideration to a litter clean-up plan, the hours of operation, and the site plan;

iii. The proposed location of the drive-through facility will not block existing drive aisles in shared parking areas;

iv. The proposed location of the drive-through facility will not interfere with and or impact on-site pedestrian access and circulation.

v. The use will not substantially less the usability of adjacent or nearby commercially zoned property or commercial use by interfering with pedestrian traffic;

vi. That the use will not create increased traffic hazards to pedestrians;

vii. That the site will be adequate in size and shape to accommodate said use and to accommodate all yards, walls, parking, landscaping, and other required improvements; and

viii. That the use will not substantially lessen the usability and suitability of adjacent or nearby residentially zoned property for residential use.

SECTION 5. Amendment of Section 120.05.060. Section 120.05.060 (Off-street vehicle

parking) of the Eastvale Municipal Code is amended to make clarifying changes to the stacking criteria of drive-throughs to read as follows:

Use Type	Per Square Foot or Unit	Per Employee or Student	Other Criteria
Banks, savings and loans and other financial institutions*	1 space per 250 sq. ft. gross floor area		Vehicle stacking for 6 vehicles prior to the drive-up window or as required by the queueing analysis.
Restaurants, drive-throughs, walk-ups, cafes, lounges, bars and other establishments for the sale and consumption on the premises of food and beverages	1 space per 45 sq. ft. of serving area	1 space per 2 employees	Stacking for 6 vehicles prior to the menu board or as required by the queueing analysis.

SECTION 6. Amendment of Section 120.06.010. Section 120.06.010 (Glossary of terms) of the Eastvale Municipal Code is amended to add the definition for "Drive-in and drive-through operations or facilities", "Electric vehicle charging station, small", and "Electric vehicle charging station, large" to read as follows:

Drive-in and drive-through operations or facilities, means a business which includes dining services (such as but not limited to restaurants, coffee shops, or online food/beverage order pick-up) or other services (such as but not limited to banks, carwashes, pharmacies, or other pick-up operations) that are designed so that customers can be served while remaining in their vehicles in a dedicated queue lane.

Electric vehicle charging station, small means a station that is designed and operated as a use ancillary to the primary permitted use on the site (such as a single family residence, condominium, apartment, office building, commercial retail, parking lot, garage or structure) in order to deliver electricity to personal or commercial passenger vehicles and trucks owned or operated by individuals who either reside or work on the site or are guests on the site where the charging station is located.

Electric vehicle charging station, large means a station that is designed to charge personal passenger vehicles and trucks and/or commercial passenger vehicles and trucks which is open to the public, whether with or without the payment of fees, subscriptions or monetary charges for the service. A "large electric vehicle charging station" includes the electrical and mechanical equipment as defined in Article 625 of the California Electrical Code, and any subsequent amendments, that is necessary to delivery electricity from a source outside an electric vehicle into a plug-in electric vehicle. It does not include ancillary equipment and facilities that are not directly necessary for the charging of plug-in electric vehicles, including but not limited to, canopies (with or without solar panels), patronage resting facilities, commercial sales kiosks or buildings, public restrooms, family amenities or pet amenities. Such ancillary equipment and facilities are not subject to the expedited application and permitting requirements as referenced in Chapter 110.96, electric vehicle charging systems, but shall be subject to the applicable development review process as

referenced in Section 120.02.010, development review.

SECTION 5. Severability. If any chapter, subsection, subdivision, sentence, clause, phrase, or portion of this ordinance, is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision will not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have adopted this ordinance, and each Chapter, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more Sections, subsections, subdivisions, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

SECTION 6. Effective Date. This ordinance shall take effect thirty (30) days after its passage by the City Council.

SECTION 7. City Clerk Action. The City Clerk is authorized and directed to cause this Ordinance to be published within fifteen (15) days after its passage in a newspaper of general circulation and circulated within the City in accordance with Government Code Chapter 36933(a) or, to cause this Ordinance to be published in the manner required by law using the alternative summary and pasting procedure authorized under Government Code Chapter 39633(c).

Agenda Item No. 13.1
February 26, 2025

Workshop on Land Use Types: Drive-Throughs, Car Washes, Fueling Station, Storage Facilities, and Truck/Trailer Rental and Storage

Prepared By:
Allen Lim, Senior Planner

Recommended Action(s)
Staff recommends that the City Council receive a presentation and provide staff with direction on potential future regulation of specific land use types.

Summary
In response to increasing developer interest in constructing new mini-storage facilities and auto-oriented uses such as car washes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental, and storage, the workshop aims to facilitate a discussion and receive input from the City Council to inform and guide a potential amendment to Title 120 (Planning and Zoning) of the Eastvale Municipal Code. These potential amendments will provide greater clarity to staff and the development community for future development throughout the City.

Background
Over the last several years as the City has continued to be built out, the Planning Commission and City Council have expressed the importance of carefully considering the highest and best use for the limited remaining vacant land within the City. Concurrently, there has been a growing number of requests to establish and operate mini-storage facilities and auto-oriented uses such as car washes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations,

and truck and trailer sales, rental, and storage throughout the City. Due to the growing interest in these uses, staff is initiating a discussion to obtain feedback on how these land use types should be regulated.

On January 18 2023, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-through businesses. The Commission recommended that staff further pursue an approach to modify conditional use permit findings to ensure land use compatibility with existing shopping centers and/or their surrounding area of the proposed drive-through.

On September 18, 2024, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-throughs, carwashes, gasoline stations, alternative fueling stations, mini-storage facilities, and truck and trailer rental and storage facilities. The Commission advised staff to conduct a more in-depth analysis, taking into account the available vacant developable land within the City, the suitability of the proposed land uses within current zoning designations, and the potential for implementing alternative regulations through enhanced design and development standards.

On October 16, 2024, staff brought forward a land use discussion to the Planning Commission with updated information, exhibits, and various redline changes to the Zoning Code based on the input received by the Planning Commission from the September 18, 2024 discussion. The Commission was generally supportive of the changes and provided further direction to update the code based on the examples presented.

As an implementation item of the recently adopted Eastvale 2040 General Plan, staff is working on a comprehensive Zoning Code update for consideration by the Planning Commission. Input received from the workshop will be used to inform the Zoning Code update. If warranted, staff may bring a focused Zoning Code Amendment to address the more critical uses prior to the comprehensive update.

Staff has included details on the number of existing locations of each use within the City to aid in the discussion.

Analysis

Analysis – Car Washes

Pursuant to *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones of the Eastvale Zoning Code*, Car and Truck washes are permitted by right within the C-1/C-P (General Commercial), M-SC (Manufacturing- Service Commercial), and M-M (Manufacturing-Medium) Zones, conditionally permitted within the C-P-S (Scenic Highway Commercial) Zone and prohibited in all remaining zones. Additionally, *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones* allows drive-in or drive-through operations or facilities (any use) as a conditionally permitted use in the following zones: C-1/C-P (General Commercial), C-P-S (Scenic Highway Commercial), and I-P (Industrial Park). As a result of drive-in and drive-through uses being conditionally permitted, staff has historically processed a Conditional Use Permit along with a Development Review application for each proposed car wash project despite the fact that the use itself is permitted within select zones.

Each of the sites that staff has received inquiries about in recent months has been located in the C-1/C-P (General Commercial) Zone and has been either an infill pad within an existing or proposed shopping center.

To determine the existing conditions, staff examined the supply of existing and/or approved carwash locations within the City of Eastvale and found the following as shown in **Table 1 - Existing Conditions for Carwashes**.

Table 1 - Existing Conditions for Car Washes			
Name	**Location**	**Type**	**Status**
Chevron	12515 Riverside Dr.	Gasoline Service Station	Operational
Chevron	12464 Limonite Ave.	Gasoline Service Station	Operational
7-Eleven	6291 Archibald Ave.	Gasoline Service Station	Operational
Quick Quack	5116 Hamner Ave.	Express	Operational
Beyond Mart	14997 Limonite Ave.	Gasoline Service Station	Approved
All American Express	7075 Hamner Ave.	Express	Approved
Quick Quack	7779 Archibald Ave.	Express	Approved
Mister Car Wash	6280 Archibald Ave.	Express	Approved

Analysis – Drive-Throughs

Pursuant to *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones of the Eastvale Zoning Code*, Drive-in or drive-through operations or facilities (any use) are conditionally permitted within the C-1/C-P (General Commercial), C-P-S (Scenic Highway Commercial), and I-P (Industrial Park) Zones. As a result of drive-in and drive-through uses being conditionally permitted, staff has historically processed a Conditional Use Permit along with a Development Review application for each proposed project. To ensure a drive through will not operate in a manner that would be detrimental to the health, safety, peace, morals, comfort, or general welfare of the City, staff evaluates the anticipated vehicle queueing at peak demand hours, driveway lengths, screening, as well as the location of menu boards related to vehicle stacking and the surrounding uses.

To determine the existing conditions, staff examined the supply of existing and/or approved drive-throughs within the City of Eastvale and included the findings in **Attachment 1 and 2**. In summary, at the time of preparing this report, there are a total of forty-four (44) drive-through facilities throughout the City. Of the forty-four (44) drive-through facilities, a total of thirty-three (33) are operational, seven (7) are approved by the Planning Commission or City Council but not yet constructed, and four (4) are actively under construction. A further breakdown of drive-throughs by type can be found below in **Table 2 – Existing Conditions for Drive-Throughs**.

Table 2 - Existing Conditions for Drive-Throughs	
Type of Drive-Through	**Quantity**
Food	17
Carwash	8
Coffee	7
Bank/ATM	7

Pharmacy	3
To Be Determined*	2
Total Existing:	**44**

*Planning Entitlement PLN12-0051 Eastvale Crossings (Walmart) approved by City Council on April 12, 2017, pre-approved two (2) drive-through conditional use permits. At this time the type of drive-throughs proposed that are currently under staff review are a 4,375 sf McDonald's (Restaurant) and a 1,770 sf Better Buzz (Coffee Shop).

Analysis – Mini-Storage Facilities

Pursuant to *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones* of the Eastvale Zoning Code, Mini-storage facilities are permitted by right within the M-SC (Manufacturing – Service Commercial), M-M (Manufacturing – Medium), and M-H (Manufacturing-Heavy) Zones, conditionally permitted within the C-1/C-P (General Commercial) and I-P (Industrial Park) Zones, and prohibited in all remaining zones.

To determine the existing conditions, staff examined the supply of existing and/or approved mini-storage facilities within the City of Eastvale and included the findings in **Attachment 3**. In summary, at the time of preparing this report, there are a total of two (2) operational facilities. A further breakdown of the mini-storage facilities can be found below in **Table 3 – Existing Conditions for Mini-Storage Facilities**.

Table 3 - Existing Conditions for Mini-Storage Facilities

Name	Location	Type	Status
Public Storage	6301 Archibald Ave.	Mini-Storage	Operational
Eastvale Storage	14555 Chandler St.	Mini-Storage	Operational

Analysis – Gasoline Service Stations

Pursuant to *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones* of the Eastvale Zoning Code, Gasoline service stations, not including the concurrent sale of beer and wine for off-premises consumption are permitted by right within the C-1/C-P (General Commercial), C-P-S (Scenic Highway Commercial), M-M (Manufacturing –Medium) and M-H (Manufacturing – Heavy) Zones, conditionally permitted within the I-P (Industrial Park) Zone, and prohibited in all remaining zones.

Further, pursuant to *Table 3.3-1, Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones*, Gasoline service stations, with concurrent sale of beer and wine are only conditionally permitted in the C-1/C-P (General Commercial), C-P-S (Scenic Highway Commercial), I-P (Industrial Park), and M-SC (Manufacturing – Service Commercial) Zones, while prohibited in remaining zones.

To determine the existing conditions, staff examined the supply of existing and/or approved gasoline service stations within the City of Eastvale and included the findings in **Attachment 4.** In summary, at the time of preparing this report, there are a total of nine (9) gasoline service stations in operation and two (2) approved but not constructed. A further breakdown of the gasoline service stations can be found below in **Table 4 – Existing Conditions for Gasoline Service Facilities** .

Table 4 - Existing Conditions for Gasoline Service Stations

Name	Location	Type	Status
Chevron Extra Mile	12515 Riverside Dr.	Gasoline Service Station	Operational
Costco Gas	5030 Hamner Ave.	Gasoline Service Station	Operational
Vons	6110 Hamner Ave.	Gasoline Service Station	Operational
Chevron Extra Mile	12464 Limonite Ave.	Gasoline Service Station	Operational
Ralph's	12618 Limonite Ave.	Gasoline Service Station	Operational
Chevron Extra Mile	6078 Archibald Ave.	Gasoline Service Station	Operational
7-Eleven	6291 Archibald Ave.	Gasoline Service Station	Operational
7-Eleven	7014 Archibald Ave.	Gasoline Service Station	Operational
Chevron 7-Eleven	12578 Schleisman Rd.	Gasoline Service Station	Operational
Walmart Gas	13980 Limonite Ave.	Gasoline Service Station	Approved
Beyond Mart	14997 Limonite Ave.	Gasoline Service Station	Approved

Analysis - Alternative Fueling Stations

As for alternative fueling stations such as electric truck charging stations and hydrogen fuel stations, the Eastvale Zoning Code does not specify these uses within *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones*. Although there has been an increased interest in alternative fueling stations, there are currently no reportable locations within the City, with the exception of electric vehicle charging parking spaces within shopping centers throughout the City.

Analysis - Truck and Trailer Sales, Rental and Storage

Pursuant to *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones of the Eastvale Zoning Code*, Truck and Trailer Sales and Rental, are permitted by right within the M-SC (Manufacturing – Service Commercial), M-M (Manufacturing – Medium), and M-H (Manufacturing -Heavy) Zones and prohibited in all remaining zones.

Further *Table 3.3-1 Use Matrix for Commercial, Business Park, Industrial, and Special Purpose Zones of the Eastvale Zoning Code*, as currently adopted, does not specifically identify truck storage as a permitted or conditionally permitted use. Pursuant to *Table 3.3-1*, a similar use that may be considered truck storage, for the purpose of an interpretation, although unclear, would be a *contractor storage yard* which is permitted by right in the M-SC (Manufacturing – Service Commercial), M-M (Manufacturing – Medium), and M-H (Manufacturing Heavy) Zones and prohibited in all remaining zones. Although there has been an increased interest in truck and trailer sales, rental, and storage, there are currently no reportable standalone locations within the City.

Location Discussion

Currently, there are thirteen (13) designated commercial centers throughout the City. **Attachment 5** identifies the existing shopping centers within the City and their associated acreage, type, and intended walkability. Of the thirteen commercial centers, there are five large shopping centers, five neighborhood centers, and two local centers in addition to the proposed downtown lifestyle center. Three of the centers are intended to be pedestrian-oriented centers that offer a variety of retail and dining options and feature enhanced landscaping, attractive walkways, and other outdoor amenities. These centers include Hamner Place, The Merge, and the future Downtown area. As part of the consideration of the above described uses, the City Council may consider the appropriateness of some of the uses in the City's commercial centers, and in particular the appropriateness of auto-related uses within the centers designed with a pedestrian focus.

Planning Commission Feedback

On September 18, 2024 the Planning Commission provided the following comments with regard to each of the uses:

Carwashes:

- Limit new carwashes to industrial and manufacturing zones.
- Look at existing specific plans to determine appropriateness.

Drive-throughs:

- Maintain development standards and permitted locations with a CUP.
- Explore distance/separation requirements for discussion.
- Identify locations of existing drive-throughs and illustrate possible distance radius scenarios.
- Explore enhanced design and development standards/requirements for new drive-throughs.

Mini-Storage Facilities:

- Limit new mini-storage facilities to industrial and manufacturing zones.
- Share results of market analysis prepared for The Ranch area.

Gasoline Service Stations:

- Explore prohibiting new gasoline service stations in commercial zones and limit to industrial and manufacturing zones.
- There is a decreasing need in gasoline service stations with the growth of electric vehicle ownership and mandates.

Alternative Fuel Stations/EV Charging Stations :

- Distinguish between light duty vehicle charging and heavy duty (truck) charging facilities and regulate differently in the code.
- Require a CUP for new alternative fuel and EV charging stations.
- Consider and address safety concerns due to the extended time necessary for electric vehicle charging.

Truck and Trailer Rental and Storage:

- Limit new truck and trailer rental and storage facilities to industrial and manufacturing zones.
- Require a CUP for new facilities.
- Consider and address safety concerns due to the long-term parking and lack of people at facilities.

On October 16, 2024 the Planning Commission provided the following additional comments with regard to each of the uses:

Drive-throughs:

- Continue exploring other agencies' development standards for drive-through screening, outdoor dining, and pedestrian circulation.

Alternative Fuel Stations/EV Charging Stations:

- Create new land uses which distinguishes light duty, medium duty, and heavy-duty electric vehicle charging facilities as consistent with state requirements.
- Light duty charging facilities shall be permitted in every zone or as required by state requirements.
- Have staff explore the feasibility of requiring DC fast charging for light duty vehicles in non-residential zones.
- Consider the requirement of allowing Level 2 charging and DC Fast charging for light duty facilities in park space and public facilities.

In general, the Planning Commission provided guidance to begin the process of amending the Zoning Code with regard to all of the uses discussed. Although the Commission expressed support for continuing to allow all of the uses and continuing to require conditional use permits, there was a general consensus to limit new carwashes, mini-storage facilities, truck and trailer rental/storage facilities, and possibly gasoline service stations to be located strictly within industrial and manufacturing zones. The Commission was generally supportive of continuing to allow drive-throughs in the commercial, industrial, and manufacturing zones and also suggested adding electric vehicle charging stations for light duty passenger vehicles within the commercial and industrial zones. **Attachment 9** includes the General Plan Land Use map and **Attachment 10** includes the Zoning map as reference to aid in identifying where these zones are. Staff will also be reviewing some of the specific plans to identify what changes may need to be made for these uses. **Attachment 11** illustrates the location of the specific plans throughout the City.

The Commission also recognized the limited availability of vacant, developable land and expressed a desire to gain a better understanding of market demand to support the highest and best use for remaining developable parcels. **Attachment 8** includes an inventory of the remaining vacant lands as of the publishing of this report.

There was a general concern about the proliferation and overconcentration of vehicle-oriented businesses such as carwashes, drive-throughs, and gasoline service stations. One strategy discussed to address over-concentration of specific uses is to include a minimum separation requirement for like uses within the code. As such, staff has prepared **Attachments 6 and 7** which illustrate potential separation distances from existing drive-throughs and gasoline service stations, respectfully. The maps illustrate 1/4 mile, 1/2 mile, 3/4 mile and 1 mile radiuses from the existing facilities to aid in visualizing possible scenarios, should the Commission wish to recommend a minimum separation requirement for future carwashes and gasoline service stations.

In addition to location-related standards, the Commission was receptive to exploring enhanced design standards to address aesthetic concerns with vehicle-oriented businesses, particularly drive-throughs. Staff is currently exploring best practices from other jurisdictions to identify possible enhancements to the development standards for these types of uses which may include, but are not limited to, site orientation, landscaped berms, structural screening, and dense landscape screening.

Finally, the Commission emphasized the importance of addressing safety and security for uses such as long-term electric vehicle charging and truck and trailer rental/storage uses. Staff will work

closely with the Riverside County Sheriff's Office to develop strategies to address safety and security within the development standards for these uses.

Environmental

This public workshop is provided for discussion purposes, and no approval or determination will be made by the City at this time. Therefore, no environmental review has been considered because the California Environmental Quality Act (CEQA) only applies to projects that are subject to discretionary approval.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not applicable.

Fiscal Impact

This workshop and the processing of a potential City-initiated Municipal Code Amendment is covered under the Planning Division's Fiscal Year (FY) 2024/25 budget.

Prior City Council/Commission Action

There is no prior City Council or Planning Commission action. However, the Planning Commission has provided informal feedback as described within the Analysis section above.

Agenda Item No. 8.1
June 18, 2025

PLN25-20033 City-Initiated Municipal Code Amendment for Drive-Through and Drive-In Restaurants, Carwashes, Gasoline Service Stations, Alternative Fueling Stations, Electric Vehicle Charging Stations, Mini-Storage Facilities, and Truck and Trailer Rental and Storage Facilities

---

Prepared By:

Allen Lim, Senior Planner

Recommended Action(s)

Staff recommends that the Planning Commission take the following actions:

1. Recommend the City Council determine that the proposed ordinances are not subject to the California Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2) and 15060(c)(3) of the State of California Guidelines for Implementation of CEQA; and
2. Recommend the City Council approve the Municipal Code Amendments.

Summary

The Planning Commission has expressed the importance of considering the highest and best use for the limited remaining vacant land within the City. Subsequently, there has been a growing number of requests to establish and operate mini-storage facilities and auto-oriented uses such as carwashes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental, and storage throughout the City. As a result of the growing interest in these uses, a discussion was initiated to obtain feedback on how these land use types should be regulated and gain an understanding of what municipal code changes would be

appropriate.

The amendments are intended to consider the highest and best use for the limited remaining developable parcels in the city and to address the increased interest in developing mini-storage facilities and auto-oriented uses such as carwashes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental and storage facilities

Background

In past meetings, the Planning Commission expressed the importance of considering the highest and best use for the limited remaining vacant land within the City. Subsequently, there has been a growing number of requests to establish and operate mini-storage facilities and auto-oriented uses such as carwashes, drive-through food and drink establishments, gasoline service stations, alternative fueling stations, and truck and trailer sales, rental, and storage throughout the City. As a result of the growing interest in these uses, a discussion was initiated to obtain feedback on how these land use types should be regulated and gain an understanding of what municipal code changes would be appropriate.

On January 18, 2023, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-through businesses. The Commission recommended that staff further pursue an approach to modify conditional use permit findings to ensure land use compatibility with existing shopping centers and/or their surrounding area of the proposed drive-through.

On September 18, 2024, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-throughs, carwashes, gasoline stations, alternative fueling stations, mini-storage facilities, and truck and trailer rental and storage facilities. The Commission advised staff to conduct a more in-depth analysis, taking into account the available vacant developable land within the City, the suitability of the proposed land uses within current zoning designations, and the potential for implementing alternative regulations through enhanced design and development standards.

On October 16, 2024, staff brought forward a land use discussion to the Planning Commission with updated information, exhibits, and various redline changes to the Zoning Code based on the input received by the Planning Commission from the September 18, 2024 discussion. The Commission was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On February 26, 2025, staff brought forward a land use discussion to the City Council with the updated information, exhibits, and various redline changes to the Zoning Code based on the input received from the Planning Commission from the September 18, 2024, and October 16, 2024 discussions with the Planning Commission. The Council was generally supportive of the changes and provided further direction to update the code based on the examples presented.

A summary of the proposed amendments are provided as **Attachment 1** to this report and include the description and purpose of each amendment.

Analysis

Planning Commission and City Council Feedback

On September 18, 2024 the Planning Commission provided the following comments with regard to each of the uses:

Carwashes:

- Limit new carwashes to industrial and manufacturing zones.
- Look at existing specific plans to determine appropriateness.

Drive-throughs:

- Maintain development standards and permitted locations with a CUP.
- Explore distance/separation requirements for discussion.
- Identify locations of existing drive-throughs and illustrate possible distance radius scenarios.
- Explore enhanced design and development standards/requirements for new drive-throughs.

Mini-Storage Facilities:

- Limit new mini-storage facilities to industrial and manufacturing zones.
- Share results of market analysis prepared for The Ranch area.

Gasoline Service Stations:

- Explore prohibiting new gasoline service stations in commercial zones and limit to industrial and manufacturing zones.
- There is a decreasing need in gasoline service stations with the growth of electric vehicle ownership and mandates.

Alternative Fuel Stations/EV Charging Stations:

- Distinguish between light duty vehicle charging and heavy duty (truck) charging facilities and regulate differently in the code.
- Require a CUP for new alternative fuel and EV charging stations.
- Consider and address safety concerns due to the extended time necessary for electric vehicle charging.

Truck and Trailer Rental and Storage:

- Limit new truck and trailer rental and storage facilities to industrial and manufacturing zones.
- Require a CUP for new facilities.
- Consider and address safety concerns due to the long-term parking and lack of people at facilities.

On October 16, 2024 the Planning Commission provided the following comments with regard to each of the uses:

- Drive-throughs:
  Continue exploring other agencies' development standards for drive-through screening, outdoor dining, and pedestrian circulation.

- Alternative Fuel Stations/EV Charging Stations:
  Create new land uses which distinguishes light duty, medium duty, and heavy-duty electric vehicle charging facilities or as consistent with state requirements.
- Light duty charging facilities shall be permitted in every zone or as required by state

requirements.
- Have staff explore the feasibility of requiring DC fast charging for light duty vehicles in non-residential zones. Consider the requirement of allowing Level 2 charging and DC Fast charging for light duty facilities in park space and public facilities.

In general, the Planning Commission provided guidance to begin the process of amending the Zoning Code with regard to all of the uses discussed. Although the Commission expressed support for continuing to allow all of the uses and continuing to require conditional use permits, there was a general consensus to limit new carwashes, mini-storage facilities, truck and trailer rental/storage facilities, and gasoline service stations to be located strictly within industrial and manufacturing zones.

The Commission was generally supportive of continuing to allow drive-throughs in the commercial, industrial, and manufacturing zones and also suggested adding electric vehicle charging stations for light duty passenger vehicles within the commercial and industrial zones or as required by state regulations.

The Commission also recognized the limited availability of vacant, developable land and expressed a desire to gain a better understanding of market demand to support the highest and best use for remaining developable parcels.

The Commission was receptive to exploring enhanced design standards to address aesthetic concerns with vehicle-oriented businesses, particularly drive-throughs. Staff has explored best practices from other jurisdictions to identify enhancements to the development standards for these types of uses which include, but are not limited to, site orientation, outdoor dining, structural screening, and dense landscape screening.

Finally, the Commission emphasized the importance of addressing safety and security for uses such as long-term electric vehicle charging and truck and trailer rental/storage uses. Staff will work closely with the Riverside County Sheriff's Office to develop strategies to address safety and security within the development standards for these uses.

On February 26, 2025, the City Council was generally in agreement with the recommendations and feedback provided by the Planning Commission expressing similar concerns with aesthetics, overconcentration of specific uses, and recognizing the limited availability of vacant and developable land in the city.

Additional Amendments

In addition to the proposed changes as discussed as part of the prior land use workshops, a technical change has also been proposed for "Dwelling, Multiple Family" as required by Government Code Section 65583.2(h).

Environmental

The proposed ordinance is not subject to the California Environmental Quality Act (“CEQA”) pursuant to Sections 15060(c)(2) and 15060(c)(3) of the State of California Guidelines for Implementation of CEQA (commencing with Section 15000 of Title 14 of the California Code of Regulations; herein referred to as the “State CEQA Guidelines”) because it will not result in a direct

or reasonably foreseeable indirect physical change in the environment and is not a "project," as defined in Section 15378 of the CEQA Guidelines.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not applicable.

Fiscal Impact

The processing of the proposed Municipal Code Amendment is covered under the Planning Division's Fiscal Year (FY) 24/25 budget.

Prior City Council/Commission Action

On January 18, 2023, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-through businesses. The Commission recommended that staff further pursue an approach to modify conditional use permit findings to ensure land use compatibility with existing shopping centers and/or their surrounding area of the proposed drive-through.

On September 18, 2024, staff brought forward a land use discussion to the Planning Commission to gain further direction on how to proceed with drive-throughs, carwashes, gasoline stations, alternative fueling stations, mini-storage facilities, and truck and trailer rental and storage facilities. The Commission advised staff to conduct a more in-depth analysis, taking into account the available vacant developable land within the City, the suitability of the proposed land uses within current zoning designations, and the potential for implementing alternative regulations through enhanced design and development standards.

On October 16, 2024, staff brought forward a land use discussion to the Planning Commission with updated information, exhibits, and various redline changes to the Zoning Code based on the input received by the Planning Commission from the September 18, 2024 discussion. The Commission was generally supportive of the changes and provided further direction to update the code based on the examples presented.

On February 26, 2025, staff brought forward a land use discussion to the City Council with the updated information, exhibits, and various redline changes to the Zoning Code based on the input received from the Planning Commission from the September 18 and October 16, 2024 discussions with the Planning Commission. The Council was generally supportive of the changes and provided further direction to update the code based on the examples presented.

Attachment(s)

Attachment 1: Summary of Amendments
Attachment 2: Draft Resolution and Ordinance
Attachment 3: Public Hearing Notice
Attachment 4: February 26, 2025 - City Council - Staff Report for Land Use Workshop

RESOLUTION NO. 25-12

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF EASTVALE, CALIFORNIA, RECOMMENDING THAT THE CITY COUNCIL APPROVE PLN25-20033, ADOPTING AN ORDINANCE TO AMEND SECTIONS 120.03.020, 120.03.030, 120.05.060, 120.06.010, AND THE ESTABLISHMENT OF SECTION 120.04.170 OF THE EASTVALE MUNICIPAL CODE MAKING CHANGES TO LAND USES SUCH AS DRIVE-IN AND DRIVE-THROUGH RESTAURANTS, CARWASHES, ELECTRIC VEHILCE CHARGING STATIONS, GASOLINE SERVICE STATIONS, ALTERNATIVE FUELING STATIONS, TRUCK AND TRAILER RENTAL AND STORAGE FACILITIES, AND MINI-STORAGE FACILITIES

WHEREAS, the City of Eastvale has initiated a Municipal Code Amendment (PLN25-20033), in order to establish and make changes to land uses such as drive-in and drive-through restaurants, carwashes, electric vehicle charging stations, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities, as described in the title of this resolution and the attached Draft Ordinance (Exhibit A); and

WHEREAS, the purpose of this ordinance is to consider the highest and best use of land by establishing changes to the City's regulations to provide clear, objective design standards and findings for drive-through and drive-in restaurants. It also modifies the zoning designations of car washes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones. Additionally, the municipal code amendment includes updates to the zoning designations and glossary in relation to electric vehicle charging stations; and

WHEREAS, the proposed Municipal Code Amendment has been fully evaluated and considered with respect to the City's General Plan; and

WHEREAS, the proposed ordinances is not subject to the California Environmental Quality Act ("CEQA") pursuant to Sections 15060(c)(2) and 15060(c)(3) of the State of California Guidelines for Implementation of CEQA (commencing with Section 15000 of Title 14 of the California Code of Regulations; herein referred to as the "State CEQA Guidelines") because it will not result in a direct or reasonably foreseeable indirect physical change in the environment and is not a "project," as defined in Section 15378 of the CEQA Guidelines.

WHEREAS, the Planning Commission conducted a duly noticed public hearing on June 18, 2025, at which public testimony was received concerning the drive-throughs, car washes, gasoline service stations, alternative fueling stations, electric charging stations, truck and trailer rental and storage facilities, and mini-storage facilities municipal code amendment; and

WHEREAS, on May 29, 2025, the City of Eastvale City Clerk published a legal notice concerning the drive-through and drive-in restaurants, car washes, gasoline service stations, alternative fueling stations, electric charging stations, truck and trailer rental and storage facilities, and mini-storage facilities municipal code amendment in the Press Enterprise, a local newspaper of general circulation, regarding the Planning Commission meeting on June 18, 2025, and the proposed ordinance.

NOW, THEREFORE, THE PLANNING COMMISSION OF THE CITY OF EASTVALE DOES HEREBY RESOLVE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. FINDINGS

As required by Section 120.01.070(e) of the Eastvale Municipal Code, the changes contained in this ordinance are consistent with the General Plan goals, policies, and implementation programs.

SECTION 2. RECORD OF PROCEEDING

The documents and other materials that constitute the record of the proceedings upon which the Planning Commission's decision is based, which include but are not limited to, the staff reports as well as all materials that support the staff reports for the proposed project, are located in the Community Development Department of the City of Eastvale at 12363 Limonite Avenue, Suite 910, Eastvale, CA 91752. The custodian of these documents is the City Clerk's Office of the City of Eastvale.

SECTION 3. DETERMINATION

Based upon the findings outlined in Sections 1, the Planning Commission of the City of Eastvale hereby recommends that the City Council approve PLN25-20033, to adopt an ordinance to establish Section 120.04.170 creating development standards for drive-through and drive-in uses and amend sections 120.03.020, 120.03.030, 120.05.060, and 120.06.010 of the Eastvale Municipal Code to update the zoning designations of car washes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones. Additionally, the municipal code amendment includes updates to the zoning designation and glossary in relation to electric vehicle charging stations.

PASSED, APPROVED AND ADOPTED this 18th day of June 2025.

April Rodriguez-Plott
Vice Chair

APPROVED AS TO FORM:

Chad Herrington
Assistant City Attorney

ATTEST:

Jessica Cooper, MMC
Senior Management Analyst

STATE OF CALIFORNIA)
COUNTY OF RIVERSIDE) §
CITY OF EASTVALE)

I, Jessica Cooper, Senior Management Analyst of the City of Eastvale, California, do hereby certify that the foregoing Planning Commission Resolution No. 25-12, was duly adopted by the Planning Commission of the City of Eastvale, California, at a meeting held on the 18th day of June 2025, by the following vote:

AYES: Commissioner Hove, Lomeli, and Vice Chair Rodriguez-Plott

NOES:

ABSENT: Commissioner Rochelle and Chair Lee

ABSTAIN:

Jessica Cooper, MMC
Senior Management Analyst

Exhibit 'A'

ORDINANCE NO. 2025-__

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA TO AMEND OF SECTIONS 120.03.020, 120.03.030, 120.05.060, 120.06.010, AND THE ESTABLISHMENT OF SECTION 120.04.170 OF THE EASTVALE MUNICIPAL CODE MAKING CHANGES TO LAND USES SUCH AS DRIVE-IN AND DRIVE-THROUGH RESTAURANTS, CARWASHES, ELECTRIC VEHILCE CHARGING STATIONS, GASOLINE SERVICE STATIONS, ALTERNATIVE FUELING STATIONS, TRUCK AND TRAILER RENTAL AND STORAGE FACILITIES, AND MINI-STORAGE FACILITIES

WHEREAS, the purpose of this ordinance is to amend the city's regulations to establish development standards for drive-through and drive-in restaurant uses and establish updated zoning designations for carwashes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to be located within the industrial and manufacturing zones. Additionally, the municipal code amendment includes updates to the zoning designations and glossary in relation to regulating electric vehicle charging stations; and

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EASTVALE DOES ORDAIN AS FOLLOWS:

SECTION 1. Findings. As required by Section 120.01.070(e) of the Eastvale Municipal Code, the City Council finds that the changes contained in this ordinance are consistent with the General Plan goals, policies, and implementation programs. Specifically, the purpose of this ordinance is to redesignate land uses such as carwashes, gasoline service stations, alternative fueling stations, truck and trailer rental and storage facilities, and mini-storage facilities to the industrial and manufacturing zones. The ordinance establishes development standards and glossary terms for drive-through and drive-in uses, and establishes updates to the zoning designations and glossary terms pertaining to the regulation of electric vehicle charging stations. Additionally, technical changes were made to clarify the applicability of multi-family dwellings to be consistent with state requirements.

SECTION 2. Amendment of Section 120.03.020 (Residential and agricultural permitted uses and development standards). Table 3.2-1 in Section 120.03.020 (Use matrix for residential and agricultural zones) of the Eastvale Municipal Code is amended to add "Electric Vehicle Charging Station, Small" and add footnote "2" to "Dwelling, Multiple Family" with the footnote description to read as:

Land Use	A-1	A-2	R-A	R-R	R-1	R-2	R-3	PRD	R-5	R-6	R-T	Special Provisions
Electric Vehicle Charging Station, Small	P	P	P	P	P	P	P	P	P	P	P	Chapter 110.96
Dwelling, Multiple Family [2]						P	P	P		P		

[1] Public schools are not regulated by this code.

[2] Notwithstanding any provision of this code or any specific plan to the contrary, as required by Government Code Section 65583.2(h) multiple family dwellings shall be permitted by right on any site listed in the City's Housing Element as available for the development of lower income housing if at least twenty percent of the proposed units are affordable to lower income households during the housing element planning period.

[G] Denotes a specific definition. Please see section 120.06, glossary.

SECTION 3. Amendment of Section 120.03.030 (Commercial and industrial permitted uses and development standards). Table 3.3-1 in Section 120.03.020 (Use matrix for commercial, business park, industrial, and special purpose zones) of the Eastvale Municipal Code is amended to modify the rows for "Car and truck washes (with or without drive-through operation)", "Gasoline service stations, not including the concurrent sale of beer and wine for off-premises consumption", "Gasoline service stations, with concurrent sale of beer and wine for off-premises consumption", "Mini-storage", "Truck and Trailer Sales, Rental, and Storage", addition of "Alternative Fueling Station such as but not limited to hydrogen, propane, biodiesel, etc. (with or without retail, rest stop facility, or office)", "Electric Vehicle Charging Station, Small", "Electric Vehicle Charging Station, Large", and removal of "Car washes" to read as:

Land Use	C-1/C-P	C-P-S	C-O	I-P	M-SC	M-M	M-H	W-1	Special Provisions
Alternative Fueling Station such as but not limited to hydrogen, propane, biodiesel, etc. (with or without retail, rest stop facility, or office)				C	C	C	C		
~~Car washes~~				~~C~~					
Car and truck washes (with or without drive-through operation)	~~P~~	~~C~~		C	C ~~P~~	C ~~P~~	C		
Electric Vehicle Charging Station, Small	P	P	P	P	P	P	P		Chapter 110.96
Electric Vehicle Charging Station, Large	P	P	P	P	P	P	P		Chapter 110.96

Gasoline service stations, not including the concurrent sale of beer and wine for off-premises consumption	~~P~~	~~P~~		C	C	C ~~P~~	C ~~P~~		
Gasoline service stations, with concurrent sale of beer and wine for off-premises consumption	~~C~~	~~C~~		C	C	C	C		
Mini-storage	~~C~~			C	C ~~P~~	C ~~P~~	C ~~P~~		Section 120.04.020
Truck and Trailer Sales, ~~and~~ Rental, and Storage				C	C ~~P~~	C ~~P~~	C ~~P~~		

SECTION 4. Establishment of Section 120.04.170 (Drive-in and drive-through uses). The Eastvale Municipal code is amended to establish Section 120.04.170 (Drive-in and drive-through uses) for the development standards and requirements for "Drive-in and drive-through uses" to read as:

Sec. 120.04.170. Drive-in and drive-through uses.

(a) *Intent*. The intent of this section is to do each of the following:

(1) Regulate drive-through businesses to ensure compatibility of such uses with surrounding uses and properties.

(2) Ensure that an adequate amount of space is allocated for on-site maneuvering and circulation.

(3) Ensure vehicles in a queue for service do not impede traffic on abutting streets and parking areas.

(4) Ensure that vehicle stacking lanes will not have nuisance impacts on neighboring properties and nearby residential uses.

(5) Establish development standards to mitigate the impacts of traffic, congestion, excessive pavement, litter, and noise while ensuring pedestrian connectivity is uninterrupted by vehicles.

(6) Ensure outdoor spaces are provided and preserved.

(b) *Permitted zoning.* Drive-in and drive-through facilities shall be allowed per chapter 120.03, zoning district regulations.

(c) *Design and development standards.*

(1) Required studies. The design of all drive-through lanes for any facility shall be subject to review and approval of a drive-through queuing analysis (or such other study as requested by the City Engineer or their designee) prepared by an independent traffic

engineer licensed by the State of California, and provided to the City by the developer, at such developer's sole expense, at the time of application for such use.

(2) Building placement and orientation.

a. The minimum net land area for uses with drive-through facilities is one (1) acre. This minimum land area may be modified by the reviewing authority through the design review process when the drive-through facility is within a specific plan or an integrated shopping center.

b. Buildings shall be placed on the front yard or street side yard setback line and oriented so that the primary public entrance faces the street and so that any mechanical equipment or other supporting equipment are screened from the public view at grade and from higher buildings.

c. Outdoor dining and seating areas shall be located near the main pedestrian entrance.

d. Walk-up windows, if used, shall be located near outdoor dining areas or other pedestrian areas, to encourage accessibility and limit vehicle and pedestrian conflicts.

e. Buildings may be clustered to create a plaza or outdoor dining area between buildings.

f. Pedestrian pathways and sidewalks must provide safe and convenient access to the building, shall connect directly to the public right-of-way, and shall not cross driveways or stacking lanes to get to the building entrance.

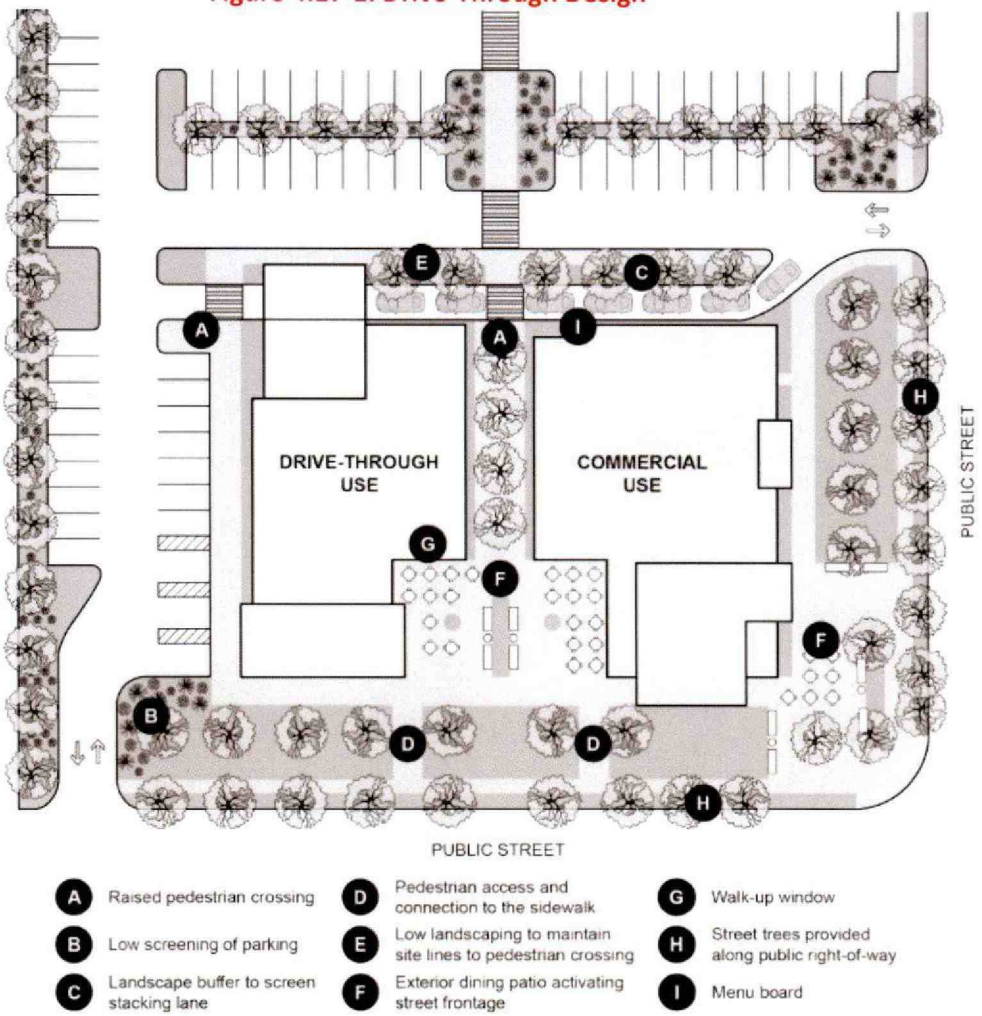

g. The drive-through lanes shall not be located between the property line and the front of the building.

h. Drive-through lanes shall be located to the side or rear of the building and shall be screened with a combination of decorative and split face low screen walls with capping and dense landscaping. The drive-through lanes may be designed to pass through an enclosed building element that is architecturally consistent and integrated into the building's design so that the lanes are enclosed.

i. Loading and service areas must be located on the site to minimize potential noise incompatibility with surrounding properties and so that, to the maximum extent feasible, they are not visible from the rights -of-way.

j. Future drive-through facilities proposed in a master plan or shopping center shall be identified early in the review process to avoid retrofitting the site at a later date.

Figure 4.17-1. Drive-Through Design

(3) Building entrances.

a. Primary building entrances and entry features shall be clearly defined through variation of architectural planes on the building and pavement surfaces, and must be accessible from a courtyard or plaza.

b. The primary building entries shall be accessed directly from the sidewalk in the public right-of-way or from within the development site. Pedestrian circulation paths may only intersect or cross a drive-through lane(s) if the applicant can demonstrate that there are no other feasible or practical options available, in which case the pedestrian crossing shall be raised to create a hump to enhance pedestrian safety.

(4) Building architecture and articulation.

a. Prominent architectural features shall be located near corners, intersections, or where visible to the public right-of-way to promote and enhance the primary building entrance.

b. Drive-through facilities within an integrated shopping center or master plan must have an architectural style consistent with the theme established in the center.

c. The architecture of drive-through facilities must be compatible and consistent with surrounding uses in form, materials, colors, scale, etc.

d. Building planes shall have variation in depth and angle to create variety and interest in the basic form and silhouette of the building.

e. Articulation of building surfaces shall be encouraged through the use of openings and recesses which create texture and shadow patterns.

f. For the purposes of screening, mechanical and/or electrical equipment, when feasible shall be integrated into the architecture and design of the proposed building.

(5) Outdoor dining areas for restaurants.

a. Outdoor dining areas are required for all new drive-in and drive-through restaurant facilities.

b. Outdoor dining areas shall be designed as an integral part of the drive-through facility, and can include plazas, arcades, colonnades, or courtyards.

c. Outdoor dining areas and other publicly accessible outdoor spaces shall include tables and seating, trash cans, and structures that provide shade and protection from the weather.

d. To the maximum extent feasible, outdoor dining areas shall be oriented for maximum benefit of sunlight and views and to the extent possible, outdoor dining areas shall be oriented away from drive-through stacking lanes.

e. The minimum dimension of an outdoor dining area shall be 20 feet measured in any direction with a minimum area of 450 square feet.

(6) Parking and Circulation

a. Parking. The parking for drive-through facilities shall be determined according to Sec. 120.05.060. - Off-street vehicle parking.

b. Setbacks. Parking and the drive-through lane(s) shall be set back a minimum of 45 feet from the curb face of a public street. Greater setbacks may be required as mentioned in an applicable specific plan or as deemed necessary during the design review process.

(7) Stacking requirements.

a. Drive-through lanes shall be designed to accommodate adequate vehicle stacking as determined by a drive-through queuing analysis, reviewed by the City Engineer or their designee, that shall be based on the number of vehicles in the drive-through lanes for seven (7) consecutive days during peak lunch hours

between 11:00 a.m. to 2:00 p.m. and peak dinner hours between 5:00 p.m. to 8:00 p.m. at three (3) different locations in cities with a similar population as Eastvale and in a similar location as the proposed site. At the request of the City Engineer or their designee, additional information may be requested to ensure a complete and accurate evaluation of the drive-through design.

b. All stacking must be designed to be accommodated on the site of the drive-through use without impacting or causing obstructions to adjacent tenants, drive-aisles, parking spaces, or public or private streets.

c. In the event that the number of vehicles waiting at the service window or kiosk exceeds the length of the stacking lane(s), personnel from the drive-through establishment shall manage the queue to ensure that all vehicles do not block or interfere with on-site vehicular and pedestrian circulation and parking areas.

d. Drive-Through Lane Design

    i. The entrance and exit of a drive-through lane must be at least 50 feet from an intersection of public rights-of-way when measured at the closest intersecting curbs.

    ii. The drive-through lane must be at least 10 feet wide with a minimum 10-foot interior radius at curves.

    iii. At a minimum, food and beverage drive-through businesses shall provide stacking space for at least six (6) vehicles before the order menu board, and other service-oriented drive-through businesses shall provide stacking space for at least six (6) vehicles before the drive-up window or kiosk.

    iv. The drive-through lanes shall be separate from the circulation route necessary for ingress and egress from the property or access to any parking spaces within the site using concrete curbing or paint striping on at least one side of the lane. These requirements do not apply to the reuse of existing properties.

    v. All stacking lanes must be clearly identified with pavement markings and signage to indicate the entrance, direction of traffic flow and exit.

    vi. At the discretion of the approving authority, the driveway-through lane design may be required to provide for a minimum nine (9) feet wide escape/emergency lane allowing motorists to exit the stacking lane before reaching the drive-through window.

(8) Performance Standards

a. The use shall be operated in a manner that does not interfere with the normal use of adjoining properties. If, in the opinion of the Community Development Director or their designee, the provisions of this paragraph are being violated, the violations shall be grounds for reopening conditional use permit hearings and adding conditions to control the violation. Performance standards include, but are not limited to, the following considerations, which, where appropriate, shall be incorporated as conditions of approval in all use permits as determined by the approving body:

    i. All graffiti shall be removed within 72 hours.

ii. No undesirable odors shall be generated on the site.

iii. Noise levels measured at the property line shall not exceed the level of background noise normally found in the area or as required per Chapter 8.52. – Noise regulation.

iv. All exterior lighting shall be contained to the subject property and shall not encroach onto neighboring properties as consistent with Sec. 120.05.050. – Outdoor lighting.

v. A traffic management plan shall be submitted, reviewed, and approved by the Community Development Director and the City Engineer. This plan shall include detailed information and mitigation measures (such as traffic control measures, tablets, online orders, temporary drive-through closures, and/or use of off-duty officers for traffic control) to ensure visitor vehicles shall remain completely on-site and shall not impede any public rights-of-way (streets, drives, walks, etc.), drive aisles, parking spaces, etc. This plan shall be kept onsite and made available to the store manager from implementation as required.

(9) Additional permit findings.

a. In addition to the findings required for the granting of the applicable discretionary application, the following additional findings are required to be made by the approving body in approving a discretionary permit for a drive-through business:

i. That the proposed amount of parking, circulation plan, and traffic management plan will provide adequate area for safe stacking and maneuvering of vehicles, and the site design will provide adequate buffering for the use from adjoining land uses:

ii. The proposed location of the drive-through facility will not result in adverse impacts upon the vicinity after giving consideration to a litter clean-up plan, the hours of operation, and the site plan;

iii. The proposed location of the drive-through facility will not block existing drive aisles in shared parking areas;

iv. The proposed location of the drive-through facility will not interfere with and or impact on-site pedestrian access and circulation.

v. The use will not substantially less the usability of adjacent or nearby commercially zoned property or commercial use by interfering with pedestrian traffic;

vi. That the use will not create increased traffic hazards to pedestrians;

vii. That the site will be adequate in size and shape to accommodate said use and to accommodate all yards, walls, parking, landscaping, and other required improvements; and

viii. That the use will not substantially lessen the usability and suitability of adjacent or nearby residentially zoned property for residential use.

SECTION 5. Amendment of Section 120.05.060. Section 120.05.060 (Off-street vehicle

parking) of the Eastvale Municipal Code is amended to make clarifying changes to the stacking criteria of drive-throughs to read as follows:

Use Type	Per Square Foot or Unit	Per Employee or Student	Other Criteria
Banks, savings and loans and other financial institutions*	1 space per 250 sq. ft. gross floor area		Vehicle stacking for 6 vehicles prior to the drive-up window or as required by the queueing analysis.
Restaurants, drive-throughs, walk-ups, cafes, lounges, bars and other establishments for the sale and consumption on the premises of food and beverages	1 space per 45 sq. ft. of serving area	1 space per 2 employees	Stacking for 6 vehicles prior to the menu board or as required by the queueing analysis.

SECTION 6. Amendment of Section 120.06.010. Section 120.06.010 (Glossary of terms) of the Eastvale Municipal Code is amended to add the definition for "Drive-in and drive-through operations or facilities", "Electric vehicle charging station, small", and "Electric vehicle charging station, large" to read as follows:

Drive-in and drive-through operations or facilities, means a business which includes dining services (such as but not limited to restaurants, coffee shops, or online food/beverage order pick-up) or other services (such as but not limited to banks, carwashes, pharmacies, or other pick-up operations) that are designed so that customers can be served while remaining in their vehicles in a dedicated queue lane.

Electric vehicle charging station, small means a station that is designed and operated as a use ancillary to the primary permitted use on the site (such as a single family residence, condominium, apartment, office building, commercial retail, parking lot, garage or structure) in order to deliver electricity to personal or commercial passenger vehicles and trucks owned or operated by individuals who either reside or work on the site or are guests on the site where the charging station is located.

Electric vehicle charging station, large means a station that is designed to charge personal passenger vehicles and trucks and/or commercial passenger vehicles and trucks which is open to the public, whether with or without the payment of fees, subscriptions or monetary charges for the service. A "large electric vehicle charging station" includes the electrical and mechanical equipment as defined in Article 625 of the California Electrical Code, and any subsequent amendments, that is necessary to delivery electricity from a source outside an electric vehicle into a plug-in electric vehicle. It does not include ancillary equipment and facilities that are not directly necessary for the charging of plug-in electric vehicles, including but not limited to, canopies (with or without solar panels), patronage resting facilities, commercial sales kiosks or buildings, public restrooms, family amenities or pet amenities. Such ancillary equipment and facilities are not subject to the expedited application and permitting requirements as referenced in Chapter 110.96, electric vehicle charging systems, but shall be subject to the applicable development review process as

referenced in Section 120.02.010, development review.

SECTION 5. Severability. If any chapter, subsection, subdivision, sentence, clause, phrase, or portion of this ordinance, is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision will not affect the validity of the remaining portions of this ordinance. The City Council hereby declares that it would have adopted this ordinance, and each Chapter, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more Sections, subsections, subdivisions, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

SECTION 6. Effective Date. This ordinance shall take effect thirty (30) days after its passage by the City Council.

SECTION 7. City Clerk Action. The City Clerk is authorized and directed to cause this Ordinance to be published within fifteen (15) days after its passage in a newspaper of general circulation and circulated within the City in accordance with Government Code Chapter 36933(a) or, to cause this Ordinance to be published in the manner required by law using the alternative summary and pasting procedure authorized under Government Code Chapter 39633(c).

Construction Contract Award to All American Asphalt for the 2025 Residential Slurry Seal Project (CIP #94001)

Prepared By:

Jimmy Chung, Public Works Director/ City Engineer

Recommended Action(s)

Staff recommends that the City Council approve the following actions for the 2025 Residential Slurry Seal Project (CIP #94001):

1. Award a Construction Contract to All American Asphalt in an amount of $1,377,901.78 plus a 10% contingency of $137,790.18, for a total not-to-exceed amount of $1,515,691.96; and,
2. Authorize the City Manager to execute all necessary documents including the Notice of Completion.
3. Authorize City Staff to file a Notice of Exemption from the California Environmental Quality Act.

Summary

The Residential Slurry Seal Project is an annual preventative maintenance program designed to treat pavement on various residential streets throughout the City. Treatments such as crack sealing, slurry sealing, and cape sealing are applied to structurally sound pavements as a cost-effective strategy to preserve their condition, extend service life, and minimize future deterioration and repair costs.

The 2025 Residential Slurry Seal Project includes both Cape Seal and Slurry Seal treatments across select neighborhoods. Project locations were identified based on the City's Pavement Management Plan, field inspections by City staff, and coordination with inter-jurisdictional construction efforts. A detailed project location map is provided in Attachment 1.

The project scope of work includes, but not limited to:

- Cleaning and sealing and/or filling pavement cracks
- Removal and replacement of existing asphalt concrete pavement (dig-outs and cul-de-sacs), as needed
- Resurfacing streets using Asphalt Rubber Aggregate Membrane (ARAM) and/or Rubberized Emulsion Aggregate Slurry (REAS) Type II Slurry
- Reconstruction or retrofit of existing curb ramps
- Installation or re-establishment of traffic striping, pavement markers, and markings as necessary

Staff recommends awarding the construction contract for 2025 Residential Slurry Seal Project to All American Asphalt, the lowest responsive and responsible bidder, in accordance with unit bid prices in the amount of $1,377,901.78 plus a 10% contingency of $137,790.18 for a total not-to-exceed amount of $1,515,691.96.

Background

The Engineering Department oversees the maintenance of the City's street system and assembles a capital project for the placement of Slurry Seal each year. The application of slurry seal and crack seal are both considered preventative measures that are intended to prolong the life of the roadway by providing a wearing surface and sealing the existing surface cracks from water. Slurry seal and crack seal are typically applied to, but not limited to, residential streets.

The 2025 Residential Slurry Seal project will apply approximately 1.2 million square feet of rubberized slurry seal and cape seal (906,037 SF and 306,648 SF, respectively) on designated streets throughout the City. In contrast to conventional slurry seal, rubberized slurry seal is a more durable, polymer-modified (rubber) material which offers enhanced flexibility, adhesion, and crack-resistance making it more durable and provides better performance especially in high-traffic areas when compared to the conventional slurry seal treatment option. Cape seal is a two-step process which is applied in streets showing more wear conditions. The first step in the cape seal treatment option is the application of chip seal in which crews apply the first layer of asphalt binder and gravel. Then, the sweeper sweeps up any loose gravel within a few days. Next, a final coating of rubberized slurry seal is applied over the surface. Finally, streets are inspected to ensure cleanliness and quality finish so they can be reopened for public use. The replacement of existing asphalt concrete pavement (dig outs and cul-de-sacs) as well as reconstructing and retrofitting existing curb ramps adjacent to certain project location areas will also be completed. Curb ramps will be reconstructed and/or retrofitted to be compliant with current Americans with Disabilities Act (ADA) requirements.

The project location was developed from the Pavement Management System (PMS), which is a tool that assists the City in making cost-effective decisions related to the maintenance and rehabilitation of roadway pavements. A PMS allows the City to maximizes the use of the limited funding by taking a comprehensive approach to managing the City's pavements instead of a worst-first pavement plan. The City took a unique approach in that the benefit to cost ratio was considered in a zone-basis instead of an individual street segment. This allows maximizing the efficiency by reducing the mobilization cost.

The Notice Inviting Bids was posted on the City’s website and City of Eastvale Vendor Portal through

'PlanetBids' on August 7, 2025. It was also published in a local newspaper twice on August 17,2025 and August 22,2025 following the Public Contract Code. In addition to the Base Bid schedule, the construction bid included a separate schedule for additive alternate items related to concrete and asphalt work. These additive alternate bid items may be included or excluded at the City's discretion, without affecting the Base Bid. Bidders were instructed that the construction contract award would be based solely on the Base Bid amount. The City received three (3) electronic bids by the August 25, 2025 deadline, and the results are as follows:

Name of Bidder	Base Bid Amount	Additive Alternate Bid Amount
All American Asphalt	$1,377,901.78	$1,028,723.10
Union Pavement Services, Inc.	$1,519,556.72	$1,130,485.86
Pavement Coatings Co.	$1,460,787.95	$6,027,074.55

After review of the bids received, staff has determined that All American Asphalt is the lowest responsive and responsible bidder with a total base bid amount of $1,377,901.78. All American Asphalt holds a valid Class A Contractor's license in the State of California. All American Asphalt is a Southern California based commercial contractor in the road construction industry and has been in business since 1969 for over 56 years. All American Asphalt has delivered successful projects to other agencies such as Cities of Aliso Viejo, Costa Mesa, Villa Park and more. As specified in the bid documents, the contractor must execute and return the contract, along with other specified required, within ten calendar days following receipt of the Notice to Award.
Construction is anticipated to commence late September 2025 assuming no complications with the contract execution process. The contract allows for a total of 29 working days to complete the required work. The work is expected to be completed in late October 2025. The staff will work with Communications Division to send out construction notices for the closures associated with the construction. The contractor will also be required to notify all affected residents and/or businesses at least three days prior to slurry seal operations.

Environmental

In accordance with the California Environmental Quality Act, the proposed project is exempt from future review under the categorical exemption for existing facilities (CEQA Guideline 15301). A Notice of Exemption (NOE) will be filed. Refer to Attachment 2.

Strategic Plan Action - Priority Level: 2 | Target #: E | Goal #: F

Create a walkable community.

Fiscal Impact

Total fiscal impact for this project is $1,582,276.96. Budget totaling $1,952,114.65 was appropriated in the fiscal year 2025-26 budget within the Road Maintenance and Rehabilitation Fund (RMRA), Measure A Fund, Gas Tax and a Cal Recycle Grant within the Miscellaneous Grants Fund.

The proposed budget for this project is as shown below:

Funding Source	Available Roll Budget 2024-25*	Adopted Budget 2025-26	Total Available Budget 2025-26*	Account Number	
Gas Tax	$228,583.65	$1,000,000.00	$1,228,583.65	200-510-6660-94001	
RMRA	27,849.00	250,000.00	277,849.00	205-510-6660-94001	
Cal Recycle - Miscellaneous Grants	73,797.00	0.00	73,797.00	240-510-6660-94001	
Measure A		371,885.00	371,885.00	210-510-6690-91010	
Total	**$330,229.65**	**$1,621,885.00**	**$1,952,114.65**		
**Budget availability calculation as of 09/03/2025*

NOTICE OF EXEMPTION

TO BE SENT TO:

☑ County of Riverside County Clerk
P.O. Box 12004
Riverside, CA 92502

☑ Office of Planning and Research
P.O. Box 3044
1400 Tenth Street, Room 113
Sacramento, CA 95812-3044

LEAD AGENCY:

CITY OF EASTVALE
12363 Limonite Avenue, Suite 910
Eastvale, CA 91752

PROJECT CASE NO: CIP-94001

PROJECT TITLE: 2025 Residential Slurry Seal

PROJECT APPLICANT: Public Works Department, City of Eastvale

PROJECT LOCATION: Existing public roadways within the City of Eastvale. **CITY:** Eastvale
COUNTY: Riverside

APN(s): N/A (Public Right-of-way)

PROJECT DESCRIPTION: Placement of Type II Slurry Seal on various residential streets within the City. General work includes pavement preparation, crack sealing, slurry seal placement, base repair and traffic striping.

AGENCY APPROVING PROJECT: City of Eastvale, City Council

NAME OF PERSON OR AGENCY CARRYING OUT PROJECT: Guadalupe Cortes, Associate Engineer

The project or activity identified above is determined to be exempt from further environmental review requirements contained in the California Environmental Quality Act (CEQA).

EXEMPT STATUS:

☐ Ministerial (Sec. 21080(b)(1); 15268);

☐ Declared Emergency (Sec. 21080(b)(3);15269(a));

☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

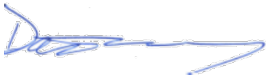

☒ Categorical Exemption. State type and section no: Class 1: Existing Facilities. (Section 15301)

☐ Statutory Exemptions. State code number: _____

REASONS TO SUPPORT EXEMPTION FINDING (attach if needed):

Pursuant to the provisions of the California Environmental Quality Act (CEQA Public Resources Code, Section 21083 et. Seq.), this project meets the criteria for a Categorical Exemption under Section 15301 (Class 1 – Existing Facilities) of the CEQA Guidelines in that the proposed project involves negligible or no expansion of use consistent with the criteria set forth in Section 15301. Pavement preparation, crack sealing, slurry seal placement, base repair and traffic does not alter existing public streets; additionally, the project does not add additional vehicular travel lanes; therefore qualifies for a Class 1 (Existing Facilities) exemption and no further environmental review is required pursuant to the California Environmental Quality Act (CEQA) Guidelines Section 15301.

CONTRACT AGREEMENT

BETWEEN
THE CITY OF EASTVALE
AND
ALL AMERICAN ASPHALT

This Agreement for Construction Services ("Agreement"), is made and entered into this ___ day of _____, 2025, by and between the City of Eastvale, a California general municipal corporation organized under the laws of the State of California with its principal place of business at 12363 Limonite Ave., Suite 910, Eastvale, California ("City") and All American Asphalt, a California (corporation) ("Contractor").

SECTION 1. RECITALS

A. City is a municipal corporation organized under the laws of the State of California, with power to contract for services necessary to achieve its purpose. City has sought, by request for proposals, Bid Number# 25-122EG, 2025 Residential Slurry Seal Project, CIP #94001, the performance of the services defined and described particularly in Section 3 of this Agreement.

B. Contractor is a professional contractor, experienced in providing removal and replacement of existing asphalt concrete pavement (dig outs and cul-de-sacs), resurfacing of various residential streets with applications of Asphalt Rubber Aggregate Membrane (ARAM) and/or Rubberized Emulsion Aggregate Slurry (REAS) Type II Slurry, reconstructing and retrofitting existing curb ramps, and new and/or reestablishing disturbed traffic striping, pavement markers, and markings, and is familiar with the plans of the City.

C. City desires to engage Contractor to construct public improvements associated with the **Project #94001-2025 Residential Slurry Seal Project** as set forth herein.

D. Contractor has obtained, and delivers concurrently herewith **PERFORMANCE BOND, PAYMENT BOND, INSURANCE DOCUMENTS AND OTHER CERTIFICATIONS** as required by the Contract.

SECTION 2. INCORPORATION OF DOCUMENTS

This Contract includes and hereby incorporates in full by reference the following documents, including all exhibits, drawings, specifications and documents therein, and attachments and addenda thereto: **Project Specifications for the 2025 Residential Slurry Seal Project (Project #94001-2025).**

SECTION 3. SCOPE OF WORK

A. Contractor's Basic Obligation; Scope of Work. Contractor promises and agrees, at its own cost and expense, to furnish to the Owner all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately complete the **Project #94001-2025 Residential Slurry Seal Project**, including all structures and facilities necessary for the Project or described in the Contract (hereinafter the "Work" or "Project"), for a Total Contract Price as specified pursuant to this Contract. All Work shall be subject to, and performed in

accordance with the above referenced documents, as well as the exhibits attached hereto and incorporated herein by reference. The plans and specifications for the Work are further described in the Exhibits attached hereto and incorporated herein by this reference. Special conditions, if any, relating to the Work are described in the Exhibits attached hereto and incorporated herein by this reference.

B. Change in Scope of Work Any change in the scope of the Work, method of performance, nature of materials or price thereof, or any other matter materially affecting the performance or nature of the Work shall not be paid for or accepted unless such change, addition or deletion is approved in advance and in writing by a valid change order executed by the City.

SECTION 4. PERIOD OF PERFORMANCE AND LIQUIDATED DAMAGES

Contractor shall perform and complete all Work under this Contract within **29 working days**, beginning the effective date of the Notice to Proceed ("Contract Time"). Contractor shall perform its Work in strict accordance with any completion schedule, construction schedule or project milestones developed by the City. Contractor agrees that if such Work is not completed within the aforementioned Contract Time and/or pursuant to any such completion schedule, construction schedule or project milestones developed pursuant to provisions of the Contract, it is understood, acknowledged and agreed that the City will suffer damage. Since it is impractical and infeasible to determine the amount of actual damage, it is agreed that the Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Fifteen Hundred Dollars ($1,500) per day** for each and every calendar day of delay beyond the Contract Time or beyond any completion schedule, construction schedule or Project milestones established pursuant to the Contract.

SECTION 5. STANDARD OF PERFORMANCE

Contractor shall perform all Work under this Contract in a skillful and workmanlike manner, and consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Work. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Work assigned to them. Finally, Contractor represents that it, its employees and its subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Work, and that such licenses and approvals shall be maintained throughout the term of this Contract. Any employee who is determined by the City to be uncooperative, incompetent, a threat to the safety of persons or the Work, or any employee who fails or refuses to perform the Work in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed on the Work.

SECTION 6. CONTROL AND PAYMENT OF SUBORDINATES; CONTRACTUAL RELATIONSHIP

City retains Contractor on an independent contractor basis and Contractor is not an employee of City. Any additional personnel performing the work governed by this Contract on behalf of Contractor shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance under this Contract and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, and workers' compensation insurance.

SECTION 7. CITY'S BASIC OBLIGATION

City agrees to engage and does hereby engage Contractor as an independent contractor to furnish all materials and to perform all Work according to the terms and conditions herein contained for the sum set forth above. Except as otherwise provided in the Contract, the City shall pay to Contractor, as full consideration for the satisfactory performance by the Contractor of the services and obligations required by this Contract, the above referenced compensation in accordance with compensation provisions set forth in the Contract.

SECTION 8. COMPENSATION AND PAYMENT

A. Amount of Compensation. As consideration for performance of the Work required herein, City agrees to pay Contractor One Million Three Hundred Seventy-Seven Thousand, Nine Hundred One Dollars and Seventy-Eight Cents ($1,377,901.78) plus a 10% contingency for change orders signed and approved in advance by City of One Hundred Thirty-Seven Thousand, Seven Hundred Ninety Dollars and Eighteen Cents ($137,790.18) for a total not-to-exceed amount of One Million Five Hundred Fifteen Thousand Six Hundred Nineteen Dollars and Ninety-Six Cents ($1,515,619.96) ("Total Contract Price").

B. Payment of Compensation. If the Work is scheduled for completion in twenty-nine (29) or less calendar days, City will arrange for payment of the Total Contract Price upon completion and approval by City of the Work. If the Work is scheduled for completion in more than twenty-nine (29) calendar days, City will pay Contractor on a monthly basis as provided for herein. On or before the fifth (5th) day of each month, Contractor shall submit to the City an itemized application for payment in the format supplied by the City indicating the amount of Work completed since commencement of the Work or since the last progress payment. These applications shall be supported by evidence which is required by this Contract and such other documentation as the City may require. The Contractor shall certify that the Work for which payment is requested has been done and that the materials listed are stored where indicated. Contractor may be required to furnish a detailed schedule of values upon request of the City and in such detail and form as the City shall request, showing the quantities, unit prices, overhead, profit, and all other expenses involved in order to provide a basis for determining the amount of progress payments.

City shall review and pay all progress payment requests in accordance with the provisions set forth in Section 20104.50 of the California Public Contract Code. No progress payments will be made for Work not completed in accordance with this Contract.

SECTION 9. CONTRACT RETENTIONS

From each approved progress estimate, five percent (5%) will be deducted and retained by the City, and the remainder will be paid to Contractor. All Contract retainage shall be released and paid to the Contractor and subcontractors pursuant to California Public Contract Code Section 7107.

SECTION 10. OTHER RETENTIONS

In addition to Contract retentions, the City may deduct from each progress payment an amount necessary to protect City from loss because of: (1) liquidated damages which have accrued as of the date of the application for payment; (2) any sums expended by the City in performing any of Contractor's obligations under the Contract which Contractor has failed to perform or has

performed inadequately; (3) defective Work not remedied; (4) stop notices as allowed by state law; (5) reasonable doubt that the Work can be completed for the unpaid balance of the Total Contract Price or within the scheduled completion date; (6) unsatisfactory prosecution of the Work by Contractor; (7) unauthorized deviations from the Contract; (8) failure of the Contractor to maintain or submit on a timely basis, proper and sufficient documentation as required by the Contract or by City during the prosecution of the Work; (9) erroneous or false estimates by the Contractor of the value of the Work performed; (10) any sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Contract; and (11) any other sums which the City is entitled to recover from Contractor under the terms of the Contract or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

SECTION 11. SUBSTITUTIONS FOR CONTRACT RETENTIONS

In accordance with California Public Contract Code Section 22300, the City will permit the substitution of securities for any monies withheld by the City to ensure performance under the Contract. At the request and expense of the Contractor, securities equivalent to the amount withheld shall be deposited with the City, or with a state or federally chartered bank in California as the escrow agent, and thereafter the City shall then pay such monies to the Contractor as they come due. Upon satisfactory completion of the Contract, the securities shall be returned to the Contractor. For purposes of this Section and Section 22300 of the Public Contract Code, the term "satisfactory completion of the contract" shall mean the time the City has issued written final acceptance of the Work and filed a Notice of Completion as required by law and provisions of this Contract. The Contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. The escrow agreement used for the purposes of this Section shall be in the form provided by the City.

SECTION 12. PAYMENT TO SUBCONTRACTORS

Contractor shall pay all subcontractors for and on account of work performed by such subcontractors in accordance with the terms of their respective subcontracts and as provided for in Section 10262 of the California Public Contract Code. Such payments to subcontractors shall be based on the measurements and estimates made and progress payments provided to Contractor pursuant to this Contract.

SECTION 13. TITLE TO WORK

As security for partial, progress, or other payments, title to Work for which such payments are made shall pass to the City at the time of payment. To the extent that title has not previously been vested in the City by reason of payments, full title shall pass to the City at delivery of the Work at the destination and time specified in this Contract. Such transferred title shall in each case be good, and free and clear from any and all security interests, liens, or other encumbrances. Contractor promises and agrees that it will not pledge, hypothecate, or otherwise encumber the items in any manner that would result in any lien, security interest, charge, or claim upon or against said items. Such transfer of title shall not imply acceptance by the City, nor relieve Contractor from the responsibility to strictly comply with the Contract, and shall not relieve Contractor of responsibility for any loss of or damage to items.

SECTION 14. DISPUTE RESOLUTION

Any separate demand by Contractor for the payment of money or damages shall be resolved in

accordance with Public Contract Code Sections 20104 et seq., if applicable.

SECTION 15. TERMINATION

This Contract may be terminated by City at any time by giving Contractor three (3) days advance written notice. In the event of termination by City for any reason other than the fault of Contractor, City shall pay Contractor for all Work performed up to that time as provided herein. In the event of breach of the Contract by Contractor, City may terminate the Contract immediately without notice, may reduce payment to the Contractor in the amount necessary to offset City's resulting damages, and may pursue any other available recourse against Contractor. Contractor may not terminate this Contract except for cause.

In the event this Contract is terminated in whole or in part as provided, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated. Further, if this Contract is terminated as provided, City may require Contractor to provide all finished or unfinished documents, data, diagrams, drawings, materials or other matter prepared or built by Contractor in connection with its performance of this Contract.

SECTION 16. COMPLETION OF WORK

When the Contractor determines that it has completed the Work required herein, Contractor shall so notify City in writing and shall furnish all labor and material releases required by this Contract. City shall thereupon inspect the Work. If the Work is not acceptable to the City, the City shall indicate to Contractor in writing the specific portions or items of Work which are unsatisfactory or incomplete. Once Contractor determines that it has completed the incomplete or unsatisfactory Work, Contractor may request a re-inspection by the City. Once the Work is acceptable to City, City shall pay to Contractor the Total Contract Price remaining to be paid, less any amount which City may be authorized or directed by law to retain. Payment of retention proceeds due to Contractor shall be made in accordance with Section 7107 of the California Public Contract Code.

SECTION 17. CITY'S REPRESENTATIVE

The City hereby designates the **City Engineer**, or his or her designee, to act as its representative for the performance of this Contract ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Contract. Contractor shall not accept direction or orders from any person other than the City's Representative or his or here designee.

SECTION 18. CONTRACTOR'S REPRESENTATIVE

Before starting the Work, Contractor shall submit in writing the name, qualifications and experience of its proposed representative who shall be subject to the review and approval of the City ("Contractor's Representative"). Following approval by the City, the Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Contract. The Contractor's Representative shall supervise and direct the Work, using his best skill and attention, and shall be responsible for all construction means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Work under this Contract. Contractor's Representative shall devote full time to the Project and either he or his designee, who shall be acceptable to the City, shall be present at the Work site at all times that any Work is in progress and at any time that any employee or subcontractor of Contractor is present at the Work site. Arrangements for responsible supervision, acceptable to the City, shall be made for emergency Work which may be required. Should Contractor desire to

change its Contractor's Representative, Contractor shall provide the information specified above and obtain the City's written approval.

SECTION 19. CONTRACT INTERPRETATION

Should any question arise regarding the meaning or import of any of the provisions of this Contract or written or oral instructions from City, the matter shall be referred to City's Representative, whose decision shall be binding upon Contractor.

SECTION 20. LOSS AND DAMAGE

Contractor shall be responsible for all loss and damage which may arise out of the nature of the Work agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Work until the same is fully completed and accepted by City. However, Contractor shall be responsible for damage proximately caused by Acts of God, within the meaning of Section 4150 of the Government Code, only to the extent of five percent (5%) of the Total Contract Price as specified herein. In the event of damage proximately caused by "Acts of God," the City may terminate this Contract upon three (3) days advanced written notice.

SECTION 21. INDEMNIFICATION

A. Indemnification. Contractor shall defend, indemnify and hold the City, its officials, officers, employees, volunteers and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury, in law or equity, to property or persons, including wrongful death, in any manner arising out of or incident to any alleged acts, omissions or willful misconduct of Contractor, its officials, officers, employees, agents, consultants and contractors arising out of or in connection with the performance of the Services, the Project or this Agreement, including without limitation the payment of all consequential damages and attorneys fees and other related costs and expenses. Contractor shall defend, at Contractor's own cost, expense and risk, any and all such aforesaid suits, actions or other legal proceedings of every kind that may be brought or instituted against City, its directors, officials, officers, employees, agents or volunteers. Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its directors, officials, officers, employees, agents or volunteers, in any such suit, action or other legal proceeding. Contractor shall reimburse City and its directors, officials, officers, employees, agents and/or volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall not be restricted to insurance proceeds, if any, received by the City, its directors, officials officers, employees, agents or volunteers.

B. General Indemnification. Contractor agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Contractor in the performance of this Agreement. In the event Contractor fails to obtain such indemnity obligations from others are required here, Contractor agrees to be fully responsible according to the terms of this section. Failure of City to monitor compliance with these requirements imposes no additional obligations on City and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend City as set forth here is binding on the successors, assigns or heirs of Contractor and shall survive the termination of this Agreement or this section.

SECTION 22. INSURANCE

Prior to the beginning of and throughout the duration of the Work, Contractor will maintain insurance in conformance with the requirements set forth below. Contractor will use existing coverage to comply with these requirements. If that existing coverage does not meet the requirements set forth here, Contractor agrees to amend, supplement or endorse the existing coverage to do so. Contractor acknowledges that the insurance coverage and policy limits set forth in this section constitute the minimum amount of coverage required. Any insurance proceeds in excess of the limits and coverage required in this Agreement and which are applicable to a given loss, will be available to the City. Contractor shall provide the following types and amounts of insurance:

A. Commercial General Liability Insurance using Insurance Services Office "Commercial General Liability" policy form CG 00 01 or the exact equivalent. Defense costs must be paid in addition to limits. There shall be no cross liability exclusion for claims or suits by one insured against another. Limits are subject to review but in no event less than $1,000,000 per occurrence for all covered losses and no less than $2,000,000 general aggregate.

B. Business Auto Coverage on ISO Business Auto Coverage form CA 00 01 including symbol 1 (Any Auto) or the exact equivalent. Limits are subject to review, but in no event to be less than $1,000,000 per accident. If Contractor owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the general liability policy described above. If Contractor or Contractor's employees will use personal autos in any way on this project, Contractor shall provide evidence of personal auto liability coverage for each such person.

C. Workers Compensation on a state-approved policy form providing statutory benefits as required by law with employer's liability limits no less than $1,000,000 per accident or disease.

D. Excess or Umbrella Liability Insurance (Over Primary) if used to meet limit requirements, shall provide coverage at least as broad as specified for the underlying coverages. Any such coverage provided under an umbrella liability policy shall include a drop down provision providing primary coverage above a maximum $25,000 self-insured retention for liability not covered by primary but covered by the umbrella. Coverage shall be provided on a "pay on behalf" basis, with defense costs payable in addition to policy limits. Policy shall contain a provision obligating insurer at the time insured's liability is determined, not requiring actual payment by the insured first. There shall be no cross liability exclusion precluding coverage for claims or suits by one insured against another. Coverage shall be applicable to City for injury to employees of Contractor, subcontractors or others involved in the Work. The scope of coverage provided is subject to approval of City following receipt of proof of insurance as required herein. Insurance procured pursuant to these requirements shall be written by insurers that are admitted carriers in the State of California and with an A.M. Best rating of A or better and a minimum financial size VII.

E. General conditions pertaining to provision of insurance coverage by Contractor. Contractor and City agree to the following with respect to insurance provided by Contractor:

(1) Contractor agrees to have its insurer endorse the third party general liability coverage required herein to include as additional insureds City, its officials, employees and agents,

using standard ISO endorsement No. CG 2010 with an edition prior to 1992. Contractor also agrees to require all contractors, and subcontractors to do so likewise.

(2) No liability insurance coverage provided to comply with this Agreement shall prohibit Contractor, or Consultant's employees, or agents, from waiving the right of subrogation prior to a loss. Contractor agrees to waive subrogation rights against City regardless of the applicability of any insurance proceeds, and to require all contractors and subcontractors to do likewise.

(3) All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to the full extent of the policies. Nothing contained in this Agreement or any other agreement relating to the City or its operations limits the application of such insurance coverage.

(4) None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to City and approved in writing.

(5) No liability policy shall contain any provision or definition that would serve to eliminate so-called "third party action over" claims, including any exclusion for bodily injury to an employee of the insured or any contractor or subcontractor.

(6) All coverage types and limits required are subject to approval, modification and additional requirements by the City, as the need arises. Contractor shall not make any reductions in scope of coverage (e.g. elimination of contractual liability or reduction of discovery period) that may affect City's protection without City's prior written consent.

(7) Proof of compliance with these insurance requirements, consisting of certificates of insurance evidencing all of the coverages required and an additional insured endorsement to Contractor's general liability policy, shall be delivered to City at or prior to the execution of this Agreement. In the event such proof of any insurance is not delivered as required, or in the event such insurance is canceled at any time and no replacement coverage is provided, City has the right, but not the duty, to obtain any insurance it deems necessary to protect its interests under this or any other agreement and to pay the premium. Any premium so paid by City shall be charged to and promptly paid by Contractor or deducted from sums due Contractor, at City option.

(8) Certificate(s) are to reflect that the insurer will provide 30 days notice to City of any cancellation of coverage. Contractor agrees to require its insurer to modify such certificates to delete any exculpatory wording stating that failure of the insurer to mail written notice of cancellation imposes no obligation, or that any party will "endeavor" (as opposed to being required) to comply with the requirements of the certificate.

(9) It is acknowledged by the parties of this Agreement that all insurance coverage required to be provided by Contractor or any subcontractor, is intended to apply first and on a primary, non-contributing basis in relation to any other insurance or self insurance available to City.

(10) Contractor agrees to ensure that subcontractors, and any other party involved with the project that is brought onto or involved in the project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and

review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the project will be submitted to City for review.

(11) Contractor agrees not to self-insure or to use any self-insured retention's or deductibles on any portion of the insurance required herein except as disclosed to and approved by the City and further agrees that it will not allow any contractor, subcontractor, Architect, Engineer or other entity or person in any way involved in the performance of work on the project contemplated by this Agreement to self-insure its obligations to City. City expressly approves maintenance by the Contractor of a $100,000 deductible on its current Professional Liability insurance policy.

(12) The City reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Contractor ninety (90) days advance written notice of such change. If such change results in substantial additional cost to the Contractor, the City will negotiate additional compensation proportional to the increased benefit to City.

(13) For purposes of applying insurance coverage only, this Agreement will be deemed to have been executed immediately upon any party hereto taking any steps that can be deemed to be in furtherance of or towards performance of this Agreement.

(14) Contractor acknowledges and agrees that any actual or alleged failure on the part of City to inform Contractor of non-compliance with any insurance requirement in no way imposes any additional obligations on City nor does it waive any rights hereunder in this or any other regard.

(15) Contractor will renew the required coverage annually as long as City, or its employees or agents face an exposure from operations of any type pursuant to this Agreement. This obligation applies whether or not the Agreement is canceled or terminated for any reason. Termination of this obligation is not effective until City executes a written statement to that effect.

(16) Contractor shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Proof that such coverage has been ordered shall be submitted prior to expiration. A coverage binder or letter from Contractor's insurance agent to this effect is acceptable. A certificate of insurance and/or additional insured endorsement as required in these specifications applicable to the renewing or new coverage must be provided to City within five days of the expiration of the coverages.

(17). The provisions of any workers' compensation or similar act will not limit the obligations of Contractor under this Agreement. Contractor expressly agrees not to use any statutory immunity defenses under such laws with respect to City, its employees, officials and agents.

(18) Requirements of specific coverage features or limits contained in this section are not intended as limitations on coverage, limits or other requirements nor as a waiver of any coverage normally provided by any given policy. Specific reference to a given coverage

feature is for purposes of clarification only as it pertains to a given issue, and is not intended by any party or insured to be limiting or all-inclusive.

(19) These insurance requirements are intended to be separate and distinct from any other provision in this Agreement and are intended by the parties here to be interpreted as such.

(20). The requirements in this Section supersede all other sections and provisions of this Agreement, except Exhibit "E" "Modifications to Contract Documents", to the extent that any other section or provision conflicts with or impairs the provisions of this Section.

(21) Contractor agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Contractor for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

(22) Contractor agrees to provide immediate notice to City of any claim or loss against Contractor arising out of the work performed under this Agreement. City assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims if they are likely to involve City.

SECTION 23. BONDS

A. Performance Bond. If specifically requested by City in the Bidding Documents, attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

B. Payment Bond. If required by law or otherwise specifically requested by City in the Bidding Documents, attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

C. Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above),

extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

D. Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

SECTION 24. SAFETY

Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. Contractor shall comply with the requirements of the specifications relating to safety measures applicable in particular operations or kinds of work. In carrying out its Work, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the Work and the conditions under which the Work is to be performed. Safety precautions as applicable shall include, but shall not be limited to, adequate life protection and life saving equipment; adequate illumination for underground and night operations; instructions in accident prevention for all employees, such as machinery guards, safe walkways, scaffolds, ladders, bridges, gang planks, confined space procedures, trenching and shoring, fall protection and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and adequate facilities for the proper inspection and maintenance of all safety measures. Furthermore, Contractor shall prominently display the names and telephone numbers of at least two medical doctors practicing in the vicinity of the Project, as well as the telephone number of the local ambulance service, adjacent to all telephones at the Project site.

SECTION 25. WARRANTY

Contractor warrants all Work under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the Work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the Work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) Days after being notified in writing by the City of any defect in the Work or non-conformance of the Work to the Contract, commence and prosecute with due diligence all Work necessary to fulfill the terms of the warranty at his sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the Work (or work of other contractors) damaged by its defective Work or which becomes damaged in the course of repairing or replacing defective Work. For any Work so corrected, Contractor's obligation hereunder to correct defective Work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected Work. Contractor shall perform such tests as the City may require verifying that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility

of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the Work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming Work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

SECTION 26. LAWS AND REGULATIONS

Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Contract or the Work, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Work. If the Contractor observes that the drawings or specifications are at variance with any law, rule or regulation, it shall promptly notify the City in writing. Any necessary changes shall be made by written change order. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, the Contractor shall be solely responsible for all costs arising there from. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Contract, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

SECTION 27. PERMITS AND LICENSES

Contractor shall be responsible for securing, at its own expense, and paying for all permits and licenses necessary to perform the Work described herein.

SECTION 28. TRENCHING WORK

If the Total Contract Price exceeds $25,000 and if the Work governed by this Contract entails excavation of any trench or trenches five (5) feet or more in depth, Contractor shall comply with all applicable provisions of the Labor Code, including Section 6705. To this end, Contractor shall submit for City's review and approval a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

SECTION 29. HAZARDOUS MATERIALS AND DIFFERING CONDITIONS

As required by Public Contract Code Section 7104, if this Contract involves digging trenches or other excavations that extend deeper than four (4) feet below the surface, Contractor shall promptly, and prior to disturbance of any conditions, notify City of: (1) any material discovered in excavation that Contractor believes to be a hazardous waste that is required to be removed to a Class I, Class II or Class III disposal site; (2) subsurface or latent physical conditions at the site differing from those indicated by City; and (3) unknown physical conditions of an unusual nature at the site, significantly different from those ordinarily encountered in such contract work. Upon notification, City shall promptly investigate the conditions to determine whether a change order is appropriate. In the event of a dispute, Contractor shall not be excused from any scheduled

completion date and shall proceed with all Work to be performed under the Contract, but shall retain all rights provided by the Contract or by law for making protests and resolving the dispute.

SECTION 30. UNDERGROUND UTILITY FACILTIES

To the extent required by Section 4215 of the Government Code, City shall compensate Contractor for the costs of: (1) locating and repairing damage to underground utility facilities not caused by the failure of Contractor to exercise reasonable care; (2) removing or relocating underground utility facilities not indicated in the construction drawings; and (3) equipment necessarily idled during such work. Contractor shall not be assessed liquidated damages for delay caused by failure of City to provide for removal or relocation of such utility facilities.

SECTION 31. PREVAILING WAGES

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 1600, et seq., ("Prevailing Wage Laws"), the Davis-Bacon Act of 1931 and 23 USC 113, which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. Contractor agrees to fully comply with such Prevailing Wage Laws.

SECTION 32. APPRENTICEABLE CRAFTS

When Contractor employs workmen in an apprenticed craft or trade, Contractor shall comply with the provisions of Section 1777.5 of the Labor Code with respect to the employment of properly registered apprentices upon public works. The primary responsibility for compliance with said section for all apprenticed occupations shall be with Contractor.

SECTION 33. HOURS OF WORK

Contractor is advised that eight (8) hours labor constitutes a legal day's work. Pursuant to Section 1813 of the Labor Code, Contractor shall forfeit a penalty of $25.00 per worker for each day that each worker is permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week, except when payment for overtime is made at not less than one and one-half (1-1/2) times the basic rate for that worker.

SECTION 34. PAYROLL RECORDS

In accordance with the requirements of Labor Code Section 1776, Contractor shall keep accurate payroll records which are either on forms provided by the Division of Labor Standards Enforcement or which contain the same information required by such forms. Responsibility for compliance with Labor Code Section 1776 shall rest solely with Contractor, and Contractor shall make all such records available for inspection at all reasonable hours.

SECTION 35. CONTRACTOR'S LABOR CERTIFICATION

By its signature hereunder, Contractor certifies that he is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Work. A certification form for this purpose, which is attached to this Contract as Exhibit "D" and incorporated herein by reference, shall be executed simultaneously with this Contract.

SECTION 36. LABOR AND MATERIAL RELEASES

Contractor shall furnish City with labor and material releases from all subcontractors performing

work on, or furnishing materials for, the work governed by this Contract prior to final payment by City.

SECTION 37. EQUAL OPPORTUNITY EMPLOYMENT

Contractor represents that it is an equal opportunity employer and that it shall not discriminate against any employee or applicant for employment because of race, religion, color, national origin, ancestry, sex, age or other interests protected by the state or Federal Constitutions. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination.

SECTION 38. ANTI-TRUST CLAIMS

This provision shall be operative if this Contract is applicable to California Public Contract Code Section 7103.5. In entering into this Contract to supply goods, services or materials, the Contractor hereby offers and agrees to assign to the City all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Section 15) or under the Cartwright Act (Chapter 2, commencing with Section 16700, of Part 2 of Division 7 of the Business and Professions Code) arising from purchases of goods, services, or materials pursuant to the Contract. This assignment shall be made and become effective at the time the City tender final payment to the Contractor, without further acknowledgment by the parties.

SECTION 39. NOTICES

All notices hereunder and communications regarding interpretation of the terms of the Contract or changes thereto shall be provided by the mailing thereof by registered or certified mail, return receipt requested, postage prepaid and addressed as follows:

CITY	CONTRACTOR
City of Eastvale 12363 Limonite Ave., Suite 910 Eastvale, CA 91752 Attn: Jimmy Chung, City Engineer	All American Asphalt 400 E. Sixth St. Corona, CA 92879 Attn: Edward J. Carlson - VP

Any notice so given shall be considered received by the other party three (3) days after deposit in the U.S. Mail as stated above and addressed to the party at the above address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

SECTION 40. ENTIRE CONTRACT; MODIFICATION

This Agreement, including the attached Exhibits "A" through "F", the advertised bid documents, associated addendas, is the entire, complete, final and exclusive expression of the parties with respect to the matters addressed therein and supersedes all other agreement or understandings, whether oral or written, or entered into between Contractor and City prior to the execution of the agreement. No prior statements, representations or other agreements, whether oral or written, made by any parties which are not embodied herein shall be valid and binding. No amendment to this Agreement shall be valid and binding unless in writing duly executed by the parties or their authorized representatives.

SECTION 41. TIME IS OF THE ESSENCE

Time is of the essence in the performance of this Contract.

SECTION 42. ASSIGNMENT FORBIDDEN

Contractor shall not, either voluntarily or by action of law, assign or transfer this Contract or any obligation, right, title or interest assumed by Contractor herein without the prior written consent of City. If Contractor attempts an assignment or transfer of this Contract or any obligation, right, title or interest herein, City may, at its option, terminate and revoke the Contract and shall thereupon be relieved from any and all obligations to Contractor or its assignee or transferee.

SECTION 43. GOVERNING LAW

This Contract shall be governed by the laws of the State of California.

SECTION 44. COUNTERPARTS

This Contract may be executed in counterparts, each of which shall constitute an original.

SECTION 45. SUCCESSORS

The parties do for themselves, their heirs, executors, administrators, successors, and assigns agree to the full performance of all of the provisions contained in this Contract.

SECTION 46. ATTORNEYS' FEES

If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Contract, the prevailing party in such action shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

SECTION 47. CLAIMS OF $375,000 OR LESS

Notwithstanding any other provision herein, claims of $375,000 or less shall be resolved pursuant to the alternative dispute resolution procedures set forth in Public Contracts Code 20104, et seq.

SECTION 48. PROHIBITED INTERESTS

A. Solicitation. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Contract. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Contract. For breach or violation of this warranty, City shall have the right to terminate this Contract without liability.

B. Conflict of Interest. For the term of this Contract, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Contract, or obtain any present or anticipated material benefit arising there from.

SECTION 49. CERTIFICATION OF LICENSE

Contractor certifies that as of the date of execution of this Contract, Contractor has a current contractor's license of the classification indicated below under Contractor's signature.

IN WITNESS WHEREOF, each of the parties has caused this Contract to be executed on the day and year first above written.

EXHIBIT "A" PLANS AND SPECIFICATIONS

The following plans and specifications are incorporated into this Contract herein by this reference:

The work for which this proposal is submitted is for construction in conformance with these bid documents, including any addenda thereto, the contract annexed hereto, and also in conformance with the 2018 Edition of the Standard Specifications for Public Works Construction (Standard Specifications), Riverside County Transportation Department Improvement Standards and Specifications, latest edition, County Ordinance No. 461 and subsequent amendments, the California Department of Transportation Standard Plans and Specifications, 2018 Edition (State Standard) and the Labor Surcharge and Equipment Rental Rates in effect on the date the work is accomplished.

The Plans and Specifications for the work are as follows:

- **Advertised bid documents and associated Addendas for: 2025 Residential Slurry Seal Project (Project #94001-2025)**

EXHIBIT "B" BID PROPOSAL

The Bid Proposal from Contractor is attached hereto and incorporated into this Contract.

EXHIBIT "C" SPECIAL CONDITIONS

Standard Erosion and Sediment Control Plan Notes:

1. Dust control shall conform to Section 10, "Dust Control", Section 7-1.01F, "Air Pollution Control", Section 17, "Watering", and Section 18 "Dust Palliative" of the State Standard Specifications, Rules no. 401, 402, 403 and 403.1 of the South Coast Air Quality Management District (AQMD), Riverside County Code, Chapter 8.52, "Fugitive Dust Reduction Program For Coachella Valley", all other applicable Federal and State laws, and the requirements set forth herein.
2. The Contractor is cautioned that failure to control fugitive dust may result in fines being levied by the South Coast Air Quality Management District to both the Contractor and the City of Eastvale, as owner. The Contractor shall be fully responsible for payment of all fines pertaining to air pollution control violations, resulting from Contractor's operations related to the construction contract, which may be levied against both the Contractor and the City of Eastvale by the AQMD or other regulatory agencies. The Contractor's attention is directed to Section 7-1.01, "Laws to be Observed" of the State Standard Specifications. The cost of all fines levied against the City of Eastvale will be deducted from any moneys due or which may become due to the Contractor, unless other payment arrangements are made by the Contractor.
3. Dust control of all of the contractor's operations is required 24 hours per day, 7 days a week for the duration of the contract, and until the disturbed soil is permanently stabilized. The Contractor shall take every precaution to prevent emissions of fugitive dust from the project site, from locations of stockpiled materials, from unpaved driving surfaces, from haul vehicles, from inactive construction areas, and from all other operations of the Contractor. The Contractor shall plan for and carry out proper and efficient measures to prevent his operations from producing dust in amounts damaging to property or which constitute a public nuisance, or which cause harm to person living or working in the vicinity of the work. Of particular concern are emissions of PM10 particles, which are fine particulate matter of 10 microns or less and which are associated with sickness and death from respiratory disease.
4. The Contractor shall respond to complaints by mobilizing equipment and personnel at the construction site within 2 hours of each complaint to control fugitive dust.
5. Attention is directed to AQMD Rule 403.1, which applies to all contracts within the City of Eastvale. That AQMD Rule requires the Contractor to take specified dust control actions when prevailing wind speeds exceed 25 miles per hour. Wind forecasts, AQMD Rules and other related information are provided by AQMD at 1-800-CUT-SMOG and at www.aqmd.gov.
6. The Contractor shall utilize the "Best Available Control Measures" of controlling fugitive dust, as prepared by the AQMD. However, if fugitive dust crosses the project boundary, more effective control measures, including the "Best Available Control Measures" shall be implemented.
7. A site specific fugitive dust control plan shall be submitted to the City Engineer for review and approval at least 10 days prior to the start of construction.
8. The fugitive dust control plan shall include the "Reasonably Available Control Measures" and "Best Available Control Measures" of controlling fugitive dust, as may be appropriate and necessary, including by not limited to watering, application of chemical dust

suppressants, wind fencing, covering of haul vehicles, haul vehicle bed-liners, grading, planting of vegetation, the use of a 24 hour environmental observer, and track-out controls at locations where unpaved construction accesses intersect with paved roads. The use of chemical stabilizers, which are approved by all environmental regulatory agencies, and the use of reclaimed water is encouraged. If water is intended as a primary dust control tool, the dust control plan shall provide for at least one 2,000 gallon water truck for every 4 acres of disturbed soil, unless otherwise approved by the City Engineer.

9. If the Project Inspector determines that the project scope and the forecasted weather conditions are such that the Contractor's work is unlikely to be a source of dust emissions, the Construction Engineer has the authority to waive the requirements for submittal of a dust control plan and for placement of the dust control signs described herein. However, the Contractors responsibilities for the control of fugitive dust and the other requirements of this section may not be waived.
10. A completion notice will not be filled, and the final payment will not be made to the Contractor until the areas of disturbed soil on the construction site, including roadway shoulders, are suitable stabilized for long term control of fugitive dust.
11. This signature of the Contractor on the Proposal constitutes acknowledgement by the Contractor of the dust control enforceability of those requirements.
12. Full compensation for conformance with these dust abatement requirements, including lab equipment and materials, developing water supply and incidentals, shall be considered as included in items of work, and no additional compensation will be allowed therefore.
13. The successful Contractor shall attend an AQMD PM10 Dust Control Program training session, and furnish evidence of attendance to the City Engineer. Attendance at AQMD training seminars can be scheduled the AQMD at 1-866-861-DUST or by email to dustcontrol@agmd.gov. Current AQMD certification of previous attendance will be accepted. At that training session, the successful Contractor will be furnished with the AQMD prepared Rule 403 and Rule 403.1 implementation handbooks, which include the Best Available Control Measures" and "Reasonably Available Control Measures", and other associated information, including a listing of suggested dust control related to devices, material and chemicals.
14. Any days on which the Contractor is prevented from working, due to the requirements of AQMD Rules, will be considered as non-working days, in accordance with Section 8-1.06, "Time of Completion" of the State Standard Specification.

EXHIBIT "D" CERTIFICATION LABOR CODE-SECTION 1861

I, the undersigned Contractor, am aware of the provisions of Section 3700 et seq. of the Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of the Code, and I, the undersigned Contractor, agree to and will comply with such provisions before commencing the performance of the Work on this Contract.

SECTION C. BIDDER'S PROPOSAL

BIDDER SHALL SUBMIT ALL FORMS UNDER SECTION C. BIDDER'S PROPOSAL AS PART OF THE BID. FAILURE TO DO SO WILL RESULT IN A NON-RESPONSIVE BID.

For the: **2025 Residential Slurry Seal Project, Project# 94001**

From:

NAME OF BIDDER All American Asphalt

BUSINESS P.O. BOX PO Box 2229

CITY, STATE, ZIP Corona, CA 92878

BUSINESS STREET ADDRESS 400 East Sixth Street
(Please include even if P.O. Box used)

CITY, STATE, ZIP Corona, CA 92879

TELEPHONE NO: **AREA CODE** (951) 736-7600

DEPARTMENT OF INDUSTRIAL RELATIONS (DIR) No. 1000001051

Proposal To: The Honorable Mayor and City Council

City of Eastvale

Eastvale, California

The undersigned, as bidder, declares that he has carefully examined the location of the proposed work as described, examined the Plans, Specifications, Special Provisions, and other contract documents, together with all Addenda issued by the City of Eastvale, read the Instructions to Bidders, and is familiar with all proposal requirements, and hereby proposed and agrees, if the proposal is accepted, to complete the said construction in accordance with the Contract Documents, in the time stated herein, for the unit price or lump sum given on the following pages of this proposal, amounting to a base bid total of:

One Million, Three Hundred Seventy-Seven Thousand, Nine Hundred and One Dollars and Seventy-Eight Cents — $ 1,377,901.78

Words — Figures

Said amount to include and cover all taxes, the furnishing of all materials, the performing of all the labor requisite or proper and the providing of all necessary machinery, tools, apparatus, and

other means of construction; also, the performance and completion of all the work in the manner set forth, described and shown in the Specifications or the drawings for the work.

If the contract is awarded, the undersigned agrees to enter into a contract with the City of Eastvale and to commence work within ten (10) calendar days from the date of issuance of the Notice to Proceed and to diligently prosecute the work to completion before the expiration of **Twenty–Nine (29) Working Days.**

All bids are to be computed on the basis of the given Estimated Quantities of Work, as indicated in this proposal, times the unit prices as submitted by the bidders. In case of discrepancy between words and figures, the words shall prevail. In case of discrepancy between unit prices and the extension thereof, the unit price shall prevail and bids will be computed as indicated above and compared on the basis of corrected totals, given solely as a basis for comparison of bids. It is understood that the City does not expressly, nor by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any item or portion of the work or to omit portions of the work as may be deemed expedient by the Engineer.

It is also understood by Bidder that the City of Eastvale has the right to reject this proposal or to award a contract to the undersigned at the prices stipulated. If the proposal is rejected, then any check or cashier's check shall be returned to the undersigned within thirty (30) days. No bid bonds will be returned. If the proposal is accepted and the undersigned fails to enter into a contract within fifteen (15) days after the agreement is delivered to him for signature, or within such further time as may be granted by the Members of the City Council, then said check shall be cashed or said bond declared forfeit and an amount equal to the difference between the lowest bid and the next lowest bid who will execute a contract shall be paid into the treasury of the City of City of Eastvale as liquidated damages for the failure of the undersigned to comply with the terms of this proposal.

Accompanying this proposal is 10 % Bidders Bond *(Insert "$_____ cash," cashier's check, certified check or bidder's bond forms included in these Contract Documents, as the case may be),* in an amount equal to at least ten percent (10%) of the total bid.

The following is the name and place of business of the surety company which will furnish the required bonds as surety if the work is awarded to the undersigned:

Fidelity and Deposit Company of Maryland 777 S Figueroa St #3900, Los Angeles, CA 90017

NOTICE - If bidder or other interested person is a corporation, state legal name of corporation, also names of the president, secretary, treasurer, and manager thereof; if a copartnership, state

true name of firm, also names of all individual copartners composing firm; if bidder or other interested person is an individual, state first and last names in full.

All American Asphalt, Mark Luer - President, Edward J. Carlson - Vice President, Michael Farkas - Secretary

Licensed in accordance with an act providing for the registration of contractors:

License No. 267073 Classification(s) A, C-12.

ADDENDA - This Proposal is submitted with respect to the changes to the contract included in addenda number/s: 1

(*Fill in addenda numbers if addenda have been received and insert, in this Proposal, any Engineer's Estimate sheets that were received as part of the addenda.*)

By my signature on this proposal I certify, under penalty of perjury under the laws of the State of California, that the foregoing questionnaire and statements of Public Contract Code Sections 10162, 10232 and 10285.1 are true and correct and that the bidder has complied with the requirements of Section 8103 of the Fair Employment and Housing Commission Regulations (Chapter 5, Title 2 of the California Administrative Code). By my signature on this proposal I further certify, under penalty of perjury under the laws of the State of California and the United States of America, that the Noncollusion Affidavit required by Title 23 United States Code, Section 112 and Public Contract Code Section 7106; are true and correct.

Alternate bid items are for bidding purposes only. Those items and quantities may or may not be used, at the discretion of the City Engineer. The City Engineer shall determine the exact locations and quantities, if any, where the above quantities will be needed. Items shown in the Alternate bid will not be used in the determination of the lowest base bid for the project and shall not be used to determine the lowest responsible bidder. **The award of contract shall be made to the lowest, responsible bidder submitting the lowest, responsive bid for the total of base bid items.**

One Million, Three Hundred Seventy-Seven Thousand, Nine Hundred and One Dollars and Seventy-Eight Cents $ $1,377,901.78

BASE BID TOTAL (Words) **(Figures).....**

BID BOND

We, All American Asphalt as Principal, and Fidelity and Deposit Company of Maryland as Surety are bound unto the City/County of Eastvale, State of California, hereafter referred to as "Obligee", in the penal sum of ten percent (10%) of the total amount of the bid of the Principal submitted to the Obligee for the work described below, for the payment of which sum we bind ourselves, jointly and severally,

THE CONDITION OF THIS OBLIGATION IS SUCH, THAT:

WHEREAS, the Principal is submitted to the Obligee, for 2025 RESIDENTIAL SLURRY SEAL PROJECT CIP NO. 94001

(Copy here the exact description of work, including location as it appears on the proposal)

for which bids are to be opened at Electronically on August 25, 2025

(Insert place where bids will be opened) *(Insert date of bid opening)*

NOW, THEREFORE, if the Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him for signature, enters into a written contract, in the prescribed form, in conformance with the bid, and files two bonds with the Obligee, one to guarantee faithful performance of the contract and the other to guarantee payment for labor and materials as provided by law, then this obligation shall be null and void; otherwise, it shall remain in full force.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including a reasonable attorney's fee to be fixed by the court.

Dated: August 12, 2025

EXTRACT FROM BY-LAWS OF THE COMPANIES

"Article V, Section 8, Attorneys-in-Fact. The Chief Executive Officer, the President, or any Executive Vice President or Vice President may, by written instrument under the attested corporate seal, appoint attorneys-in-fact with authority to execute bonds, policies, recognizances, stipulations, undertakings, or other like instruments on behalf of the Company, and may authorize any officer or any such attorney-in-fact to affix the corporate seal thereto; and may with or without cause modify of revoke any such appointment or authority at any time."

CERTIFICATE

I, the undersigned, Vice President of the ZURICH AMERICAN INSURANCE COMPANY, the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY, and the FIDELITY AND DEPOSIT COMPANY OF MARYLAND, do hereby certify that the foregoing Power of Attorney is still in full force and effect on the date of this certificate; and I do further certify that Article V, Section 8, of the By-Laws of the Companies is still in force.

This Power of Attorney and Certificate may be signed by facsimile under and by authority of the following resolution of the Board of Directors of the ZURICH AMERICAN INSURANCE COMPANY at a meeting duly called and held on the 15th day of December 1998.

RESOLVED: "That the signature of the President or a Vice President and the attesting signature of a Secretary or an Assistant Secretary and the Seal of the Company may be affixed by facsimile on any Power of Attorney...Any such Power or any certificate thereof bearing such facsimile signature and seal shall be valid and binding on the Company."

This Power of Attorney and Certificate may be signed by facsimile under and by authority of the following resolution of the Board of Directors of the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY at a meeting duly called and held on the 5th day of May, 1994, and the following resolution of the Board of Directors of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND at a meeting duly called and held on the 10th day of May, 1990.

RESOLVED: "That the facsimile or mechanically reproduced seal of the company and facsimile or mechanically reproduced signature of any Vice-President, Secretary, or Assistant Secretary of the Company, whether made heretofore or hereafter, wherever appearing upon a certified copy of any power of attorney issued by the Company, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

IN TESTIMONY WHEREOF, I have hereunto subscribed my name and affixed the corporate seals of the said Companies, this 12th day of August, 2025.

Mary Jean Pethick
Vice President

ZURICH AMERICAN INSURANCE COMPANY
COLONIAL AMERICAN CASUALTY AND SURETY COMPANY
FIDELITY AND DEPOSIT COMPANY OF MARYLAND
POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That the ZURICH AMERICAN INSURANCE COMPANY, a corporation of the State of New York, the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY, a corporation of the State of Illinois, and the FIDELITY AND DEPOSIT COMPANY OF MARYLAND a corporation of the State of Illinois (herein collectively called the "Companies"), by Christopher Nolan, Vice President, in pursuance of authority granted by Article V, Section 8, of the By-Laws of said Companies, which are set forth on the reverse side hereof and are hereby certified to be in full force and effect on the date hereof, do hereby nominate, constitute, and appoint **William SYRKIN, Richard ADAIR, Rebecca HAAS-BATES of Irvine, California,,** its true and lawful agent and Attorney-in-Fact, to make, execute, seal and deliver, for, and on its behalf as surety, and as its act and deed: **any and all bonds and undertakings,** and the execution of such bonds or undertakings in pursuance of these presents, shall be as binding upon said Companies, as fully and amply, to all intents and purposes, as if they had been duly executed and acknowledged by the regularly elected officers of the ZURICH AMERICAN INSURANCE COMPANY at its office in New York, New York., the regularly elected officers of the COLONIAL AMERICAN CASUALTY AND SURETY COMPANY at its office in Owings Mills, Maryland., and the regularly elected officers of the FIDELITY AND DEPOSIT COMPANY OF MARYLAND at its office in Owings Mills, Maryland., in their own proper persons.

The said Vice President does hereby certify that the extract set forth on the reverse side hereof is a true copy of Article V, Section 8, of the By-Laws of said Companies, and is now in force.

IN WITNESS WHEREOF, the said Vice-President has hereunto subscribed his/her names and affixed the Corporate Seals of the said **ZURICH AMERICAN INSURANCE COMPANY, COLONIAL AMERICAN CASUALTY AND SURETY COMPANY, and FIDELITY AND DEPOSIT COMPANY OF MARYLAND,** this 7th day of January A.D. 2025.

ATTEST:
ZURICH AMERICAN INSURANCE COMPANY
COLONIAL AMERICAN CASUALTY AND SURETY COMPANY
FIDELITY AND DEPOSIT COMPANY OF MARYLAND

By: Christopher Nolan
Vice President

By: Dawn E. Brown
Secretary

State of Maryland
County of Baltimore

On this 7th day of January A.D. 2025, before the subscriber, a Notary Public of the State of Maryland, duly commissioned and qualified, **Christopher Nolan, Vice President and Dawn E. Brown, Secretary** of the Companies, to me personally known to be the individuals and officers described in and who executed the preceding instrument, and acknowledged the execution of same, and being by me duly sworn, deposeth and saith, that he/she is the said officer of the Company aforesaid, and that the seals affixed to the preceding instrument are the Corporate Seals of said Companies, and that the said Corporate Seals and the signature as such officer were duly affixed and subscribed to the said instrument by the authority and direction of the said Corporations.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal the day and year first above written.

Genevieve M. Maison
Notary Public
My Commission Expire January 27, 2029

NON-COLLUSION AFFIDAVIT
To the CITY OF EASTVALE

In conformance with Title 23 United States Code Section 112 and Public Contract Code 7106 the bidder declares that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham; that the bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Note: The above Noncollusion Affidavit is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Noncollusion Affidavit.

Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

EXPERIENCE/QUALIFICATIONS STATEMENT

The bidder has been engaged in the contracting business, under the present business name for 56 years. Experience in work of a nature similar to that covered in the proposal extends over a period of 56 years.

The bidder, as a Contractor, has never failed to satisfactorily complete a Contract awarded to him, except as follows:

The following contracts have been satisfactorily completed in the last three (3) years for the persons, firm or authority indicated, and to whom reference is made:

Year	Type of Work	Contract Amount	Owner/Agency for Whom Work was Performed
2023	Slurry Seal	$1,595,650.00	City of Aliso Viejo
2023	Slurry Seal	$2,828,001.50	City of Costa Mesa
2022	Slurry Seal	$128,497.60	City of Villa Park
	SEE ATTACHED PAST WORK REFERENCES		

The following is a list of plant and equipment owned by the bidder, which is definitely available for use on the proposed work as required.

PUBLIC CONTRACT CODE

PUBLIC CONTRACT CODE SECTION 10285.1 STATEMENT

In conformance with Public Contract Code Section 10285.1 (Chapter 376, Stats. 1985), the bidder hereby declares under penalty of perjury under the laws of the State of California that the bidder has ___ , has not X been convicted within the preceding three years of any offenses referred to in that section, including any charge of fraud, bribery, collusion, conspiracy, or any other act in violation of any state or Federal antitrust law in connection with the bidding upon, award of, or performance of, any public works contract, as defined in Public Contract Code Section 1101, with any public entity, as defined in Public Contract Code Section 1100, including the Regents of the University of California or the Trustees of the California State University. The term "bidder" is understood to include any partner, member, officer, director, responsible managing officer, or responsible managing employee thereof, as referred to in Section 10285.1.

Note: The bidder must place a checkmark after "has" or "has not" in one of the blank spaces provided. The above Statement is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Statement. Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

PUBLIC CONTRACT CODE SECTION 10162 QUESTIONNAIRE

In conformance with Public Contract Code Section 10162, the Bidder shall complete, under penalty of perjury, the following questionnaire:

Has the bidder, any officer of the bidder, or any employee of the bidder who has a proprietary interest in the bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

Yes ____ No X

If the answer is yes, explain the circumstances in the following space.

PUBLIC CONTRACT CODE 10232 STATEMENT

In conformance with Public Contract Code Section 10232, the Contractor, hereby states under penalty of perjury, that no more than one final unappealable finding of contempt of court by a federal court has been issued against the Contractor within the immediately preceding two-year period because of the Contractor's failure to comply with an order of a federal court which orders the Contractor to comply with an order of the National Labor Relations Board.

Note: The above Statement and Questionnaire are part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Statement and Questionnaire.
Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

State of California
RELIABLE CONTRACTOR DECLARATION
CalRecycle 168 (REV. 04/2024)

Department of Resources Recycling and Recovery
FiRM Branch

This form must be completed and submitted to the Department of Resources Recycling and Recovery (CalRecycle) prior to authorizing a contractor(s) to commence work. Failure to provide this documentation in a timely manner may result in nonpayment of funds to the contractor(s).

This form is intended to help the CalRecycle's Grantees comply with the Reliable Contractor Declaration (formerly Unreliable List) requirement of their Terms and Conditions.

The Reliable Contractor Declaration (formerly Unreliable List) provision requires the following: Prior to authorizing a contractor(s) to commence work under the Grant, the Grantee shall submit to CalRecycle a declaration signed under penalty of perjury by the contractor(s) stating that within the preceding three (3) years, none of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the contractor(s). Please see the end of this page or refer to the California Code of Regulations (https://oal.ca.gov/publications/ccr/).

If any of the events listed in Section 17050 have occurred, disclosure is required but will not necessarily result in CalRecycle refusing to approve the contractor. A signed statement explaining the facts and circumstances of the events must be attached to and submitted with this form.

Contractor: Complete the form and send original to the Grantee.
Grantee: Scan the form and upload it to the grant in CalRecycle's Grant Management System. For further instruction about logging into the Grant Management System and uploading this form, reference the Procedures and Requirements. Retain the original form in your grant file.

Grantee Information
Grantee Name:
Grant Number:
Primary Contact Name:

Contractor Information
Contractor Name: All American Asphalt
Authorized Contractor Representative Name: Edward J. Carlson, Vice President
Mailing Address: PO Box 2229, Corona, CA 92878

As the authorized representative of the above identified contractor, I declare under penalty of perjury under the laws of the State of California that within the preceding three (3) years, none

of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the above identified contractor.

Alternatively, as the authorized representative of the above identified contractor, I declare under penalty of perjury under the laws of the State of California that within the preceding three (3) years, if any of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the above identified contractor, I have disclosed all such occurrences in an attached signed statement that explains the facts and circumstances of the listed events.

SECTION A. NOTICE INVITING SEALED BIDS

NOTICE IS HEREBY GIVEN that the City of Eastvale will receive electronic bids only, via the online bidding service PlanetBids, until **2:00 PM** local time on **Monday, August 25, 2025**, for the:

2025 Residential Slurry Seal Project
Project# 94001

Immediately after 2:00 PM on said **August 25, 2025,** the bids results will automatically be made public in the bid management system upon bid closing. Bids shall be prepared in strict conformance with Section B. Instructions to Bidders.

A-1. Description of Work

The proposed work shall be performed in accordance with the plans, specifications and other contract documents and shall consist of the following:

Furnishing all labor, materials, necessary tools and machinery, supervision and support, and all utility and transportation services required for the construction of street improvements that include, but are not limited to, cleaning up and sealing and/or filling pavement cracks, removing and replacing existing asphalt concrete pavement (dig outs and cul-de-sac) where required, resurfacing of various residential streets with applications of Asphalt Rubber Aggregate Membrane (ARAM) and/or Rubberized Emulsion Aggregate Slurry (REAS) Type II Slurry, reconstructing or retrofitting existing curb ramps, and new and/or re-establishing disturbed traffic striping, pavement markers and markings, as needed.

A-2. Obtaining Contract Documents

Electronic copies of plans, specifications and other contract documents can be viewed on PlanetBids (www.planetbids.com). Interested bidders must register with PlanetBids to be placed on the Planholder list and to receive addenda notifications.

A-3. Submission of Bids

Bids must be submitted on the online bidding service PlanetBids (www.planetbids.com).

Electronic modifications to or withdrawal of bids may be made by the bidder prior to the bid closing deadline. All bids must be submitted no later than the time prescribed. The bidder is wholly responsible to submit their electronic bid on time. The City will only consider bids that have been transmitted successfully and have been issued an e-bid confirmation number with a time stamp from the Bid Management System indicating that bid was submitted successfully.

Each bid must conform and be responsive to this notice and shall be made on the official proposal forms furnished with the contract documents.

Attention is directed to the provisions of Business and Professions Code section 7028.15, which makes it a misdemeanor for any person without a valid contractor's license (with specific exceptions) to submit a bid to act as a Contractor to a public agency.

A-4. Bid Guarantee

Each bid must be accompanied by cash, a cashier's check, certified check or bid bond, executed on the prescribed form, in an amount not less than ten (10) percent of the total bid price payable to the City of Eastvale.

The cash, cashier's check, certified check or bid bond shall be given as a guarantee that the successful bidder will enter into a written contract within ten (10) days after being requested to do so and will be considered as the stipulated amount of liquidated damages in the event the bidder is unable to or refuses to execute a contract for the work. Upon an award to the successful bidder, the security of unsuccessful bidders shall be returned in a reasonable period of time.

Bidders are hereby notified that in accordance with the provisions of Public Contracts Code section 22300, securities may be substituted for any monies, which the City may withhold pursuant to the terms of this Contract to ensure performance.

If the bidder elects to provide a bid bond, the bond shall be furnished by a company that is authorized and licensed by the Insurance Commissioner as an "admitted surety insurer." Bid Security shall be submitted as follows

- Paper Hard Copy Bid Bond. If the Bidder's Bid Security is in the form of a hard copy of the Bid Bond, the original copy Bid Bond, along with the Attorney-In-Fact Certificate and Surety Resolutions attesting to the appointment and authority of the Attorney-In-Fact must be mailed and received by the City of Eastvale before the latest date/time for submitting Bid Proposals. If the hard copy Bid Bond is received by the City after the latest date/time for submitting Bid Proposals will result in rejection of the Bidder's Bid Proposal for non-responsiveness. The submitted hard copy Bid Bond must include original signatures of the Bidder/Principal, Surety Attorney-In-Fact and Notary Public. Bid Security in the form of a hard copy Bid Bond must be mailed by the Bidder to the Public Works Department in a sealed envelope with the exterior prominently marked with the Bidder's name, Project Name and Bid Number. The City of Eastvale Public Works Department address is:

  12363 Limonite Ave Suite 910
  Eastvale, CA 91752

- Electronic Bid Bond. Bid Security may be submitted in the form of a verified electronic Bid Bond. If an electronic Bid Bond is submitted as the Bid Security, the electronic Bid Bond will be accepted only if the electronically issued Bid Bond is in the form and content included with the Contract Documents and issuance of the electronic Bid Bond is verified through Surety2000 (http://www.surety2000.com/). Bidder submitting an electronic Bid Bond are solely responsible for completing Surety2000 registration requirements and payment of Surety2000 fees and charges. The City will accept electronic Bid Bonds in satisfaction of Bid Security requirements as an accommodation to Bidders. The City is not

responsible to Bidders for: (i) Surety2000 acts or omissions; (ii) the complete/timely verification of electronically issued Bid Bonds; or (iii) any other errors in the electronically issued Bid Bond.

A-5. Construction License

The successful bidder must possess a current Class A Contractor's License issued by the State of California to cover all of the work to be performed under this project.

Effective April 1, 2015, Contractors and subcontractors bidding and performing work on public works project must register on an annual basis with Department of Industrial Relations (DIR).

A-6. Award

The award shall be made to the lowest responsible bidder submitting the lowest responsive bid. The award of Contract will be made by the City Council. The Contractor shall execute the Contract within ten (10) days after he has received the Contract from the City.

The City reserves the right to waive any minor irregularity in the proposals. No bid may be withdrawn for a period of ninety (90) days after the opening of bids.

A-7. Rejection of Bids

The City reserves the right to reject any and all bids. Any bid not conforming to the intent and purpose of the Contract documents may be rejected. The City reserves the right to make all awards in the best interest of the City.

A-8. Disqualification of Bidder

If there is a reason to believe that collusion exists among any bidders, none of the bids of the participants in such collusion will be considered and the City may likewise elect to reject all bids received.

A-9. Relief of Bidder

Attention is directed to the provisions of Public Contracts Code section 5101 and following, concerning relief of bidders and in particular to the requirements therein that if the bidder claims a mistake was made in his bid, the bidder shall give the City written notice, within five (5) calendar days after the opening of bids of the alleged mistake, specifying in the notice, in detail, how the mistake occurred.

A-10. Bonds

The successful bidder will be required to furnish, prior to the performance of any work hereunder, a payment bond in an amount equal to one hundred percent (100.0%) of the Contract price, and a faithful performance bond in an amount equal to one hundred percent (100.0%) of the Contract price. The bonds must be approved by the City. Each bond must be furnished by a company,

acceptable to the City, that is authorized and licensed by the Insurance Commissioner as an "admitted surety insurer" and which maintains at least one officer in California for conducting business. Prior to such approval, the Surety shall provide the City with at least one of the following: (1) a print-out of information from the web-site of the Department of Insurance confirming the Surety is an admitted surety insurer and attaching it to the bond; or (2) a certificate from the Riverside County Clerk that the certificate of authority of the Surety has not been surrendered, revoked, cancelled, annulled or suspended and confirming that the Surety is an admitted surety and attaching the certificate to the bond. (See Cal. Code Civ. Proc. Code § 995.311).

A-11. Questions

Project-specific questions must be made in writing and sent to Larissa Lopez at llopez@eastvaleca.gov. Interpretations or clarifications considered necessary by the City in response to such questions will be issued by written Addenda posted on PlanetBids. Cutoff date for submittal of questions is August 18, 2025 by 2 PM, Pacific Standard Time. The City may not answer questions received after this date.

CITY OF EASTVALE, CALIFORNIA

Date: 08/07/2025

By: _____

Jimmy Chung, P.E., City Engineer
12363 Limonite Ave., Suite 910
Eastvale, California, 91752

SECTION B. INSTRUCTION TO BIDDERS

B-1. Introduction

Each bid shall be in accordance with the Contract Documents. The Invitation to Bid will specify whether Contract Documents are available on a purchase or deposit basis. Where payment for such sets is specified, no refund will be made.

B-2. Local Conditions

The quantities of work or material stated in the unit price items of the Bidding Schedule are given only as a basis for the comparison of Bids, and the City does not represent or warrant that the actual amount of work or material will correspond therewith, but reserves the right to increase or decrease the quantity of any unit price item of the work as may be deemed necessary or expedient by the City Engineer or designated representative.

The Bidder shall examine carefully the site of the work contemplated and the Contract Documents. The submission of a proposal shall be conclusive evidence that the Bidder has investigated and is satisfied as to the conditions to be encountered, as to the character, quality and quantities of work to be performed and the materials to be furnished, and as to the requirements of the Contract Documents.

Where the City Engineer has made investigations of surface and subsurface conditions in areas where work is to be performed under the Agreement, or in other areas, some of which may constitute possible local material sources, such investigations were made only for the purpose of study and design. Where such investigations have been made, bidders or Contractor may, upon written request, inspect the records of the City Engineer as to such investigations subject to and upon the conditions hereinafter set forth. Such inspection of records may be made at the office of the City Engineer.

The records of such investigations are not a part of the Agreement and are made available for inspection solely for the convenience of the bidder or Contractor. It is expressly understood and agreed by bidder or Contractor that neither the City nor the City Engineer assumes any responsibility whatsoever with respect to the sufficiency or accuracy of the investigations thus made, the records thereof, or of the interpretation set forth therein or made by the City Engineer in its use thereof and there is no representation, warranty or guarantee, either express or implied, that the conditions indicated by such investigations or records thereof are correct or representative of those existing throughout such areas or any part thereof, or that unanticipated developments may not occur or that materials other than, or in proportions different from, those indicated may not be encountered.

When a log of test borings showing a record of the data obtained by the City Engineer's investigation of the subsurface conditions is included with the drawings, it is expressly understood and agreed by bidder that the log of test borings does not constitute a part of the Agreement, represents only the opinion of the City Engineer as to the character of the materials encountered in the test borings, is included with the plans only for the convenience of bidders and its use is subject to all of the conditions and limitations set forth in this Section. Water levels that may be

shown on a log of test borings are valid only for the stated date of observation. The water level may change from season to season and from year to year.

The availability or use of information described in this Section or the special conditions (Exhibit "C") is not to be construed in any way as a waiver of the provisions of this Section and a bidder or Contractor is cautioned to make such an investigation and examination as it deems necessary to satisfy itself as to conditions to be encountered in the performance of the work and, with respect to possible local material sources, the quality and quantity of material available from such property and the type and extent of processing that may be required in order to produce material conforming to the requirements of the Specifications.

No information derived from such inspection of records of investigations or compilations thereof made by the City Engineer or its assistants will in any way relieve the bidder or Contractor from any risk or from properly fulfilling the terms of the Agreement.

Information derived from inspection of topographic maps, or from Plans showing location of utilities and structures will not in any way relieve the Contractor from any risk, or from properly examining the site and making such additional investigations as it may elect, or from properly fulfilling all the terms of the Agreement.

Each bidder shall inform itself of, and the bidder awarded an Agreement, shall comply with, Federal, State and Local laws, relative to the execution of the work. This requirement includes, but is not limited to, applicable laws and regulations concerning employment of labor, protection of public and employee safety and health, environmental protection, the protection of natural resources, fire protection, burning and non burning requirements, permits, fees, and similar subjects.

B-3. Form of Bid and Signature

Bids shall be submitted only on the forms attached hereto and shall be submitted as instructed in Section A. Notice Inviting Bids. The Bidder shall state in figures the unit prices or the specific sums as the case may be, for which it proposes to supply the labor, materials, supplies or machinery, and perform the work required by the Specifications. If the Bid is made by an individual, it shall be signed by the individual and the individual's full name and address shall be given; if it is made by a partnership, it shall be signed with the co-partnership name by a member of the partnership, who shall also sign the member's own name, and the name and address of each member of such partnership shall be given; and, if it is made by a corporation, the name of the corporation shall be given and it shall be signed by its duly authorized officer or officers attested by the corporate seal, the name and titles of all officers of the corporation shall be given, and the address of the corporation and the state in which incorporated shall be stated.

Bids will be considered only from persons licensed as required under applicable provisions of the Contractors License Law (California Business and Professions Code section 7000, et seq.) and regulations adopted pursuant thereto; and each bidder shall insert his type of contractor's license, license number, and other requested information in the place provided in the bid. No oral, telephonic or telegraphic Bid or modification of a Bid will be considered.

B-4. Submission of Bids

All Bids must be submitted no later than the time prescribed, at the place and in the manner set forth in the Invitation to Bid. Bids must be made on the prescribed Bid forms. A complete Bid requires submission of fully completed contract documents. The bidder is wholly responsible to see that its Bid is submitted at the time and place named for the opening of bids.

Bids shall include all addenda or clarifications issued during the bidding period acknowledged by the bidder's signature thereon. Failure to so include or acknowledge an addendum or clarification will result in the Bid being rejected as not responsive.

Bids shall be opened at the time and place specified in the Invitation to Bid, unless changed by addendum.

B-5. Preparation of Bid

Blank spaces in the Bid shall be properly completed. The phraseology of the Bid must not be changed and no additions shall be made to the items mentioned therein. Unauthorized conditions, limitations or provisions attached to a Bid will render it unresponsive and will cause its rejection. If erasures, interlineations or other changes appear on the form, each erasure, interlineation or change must be initialed by the person signing the Bid. Alternative bids will not be considered unless specifically provided for in the Bidding Schedule. No Bid received after the time fixed, or received at any place other than the place stated in the Invitation to Bid will be considered. All bids will be opened and read publicly. Bidders, their representatives and other interested parties are invited to be present at the opening. Where bonds are required, the bidder shall name in its Bid the surety or sureties who have agreed to furnish said bonds.

B-6. Bid Security

All Bids shall be accompanied by a Bid Security. Such Bid Security shall include cash, cashier's or certified check made payable to the City or a Bid Bond executed by an admitted surety insurer. The Bid Security must be enclosed in the same envelope with the Bid. The amount of the Bid Security shall be not less than ten percent (10%) of the total amount of the Bid.

The Attorney-in-Fact (resident agent) who executes the Bid Bond on behalf of the surety company must attach a copy of his Power of Attorney as evidence of his authority. A notary shall acknowledge the power as of the date of execution of the surety bond which it covers.

Bid Bonds must be provided on the Bid Bond form set forth in Section C. The Bid Bond must be furnished by a company, acceptable to the City, that is authorized and licensed by the Insurance Commissioner as an "admitted surety insurer" and that maintains at least one office in California for conducting business. Bid Security shall be submitted as follows:

- Paper Hard Copy Bid Bond. If the Bidder's Bid Security is in the form of a hard copy of the Bid Bond, the original copy Bid Bond, along with the Attorney-In-Fact Certificate and Surety Resolutions attesting to the appointment and authority of the Attorney-In-Fact must be mailed and received by the City of Eastvale before the latest date/time for submitting Bid Proposals. If the hard copy Bid Bond is received by the City after the latest date/time

for submitting Bid Proposals will result in rejection of the Bidder's Bid Proposal for non-responsiveness. The submitted hard copy Bid Bond must include original signatures of the Bidder/Principal, Surety Attorney-In-Fact and Notary Public. Bid Security in the form of a hard copy Bid Bond must be mailed by the Bidder to the Public Works Department in a sealed envelope wit the exterior prominently marked with the Bidder's name, Project Name and Bid Number. The City of Eastvale Public Works Department address is:

12363 Limonite Ave Suite 910
Eastvale, CA 91752

- Electronic Bid Bond. Bid Security may be submitted in the form of a verified electronic Bid Bond. If an electronic Bid Bond is submitted as the Bid Security, the electronic Bid Bond will be accepted only if the electronically issued Bid Bond is in the form and content included with the Contract Documents and issuance of the electronic Bid Bond is verified through Surety2000 (http://www.surety2000.com/). Bidder submitting an electronic Bid Bond are solely responsible for completing Surety2000 registration requirements and payment of Surety2000 fees and charges. The City will accept electronic Bid Bonds in satisfaction of Bid Security requirements as an accommodation to Bidders. The City is not responsible to Bidders for: (i) Surety2000 acts or omissions; (ii) the complete/timely verification of electronically issued Bid Bonds; or (iii) any other errors in the electronically issued Bid Bond.

B-7. List of Subcontractors

(a) Each bidder shall set forth in his Bid on the form provided the following information in accordance with the provisions of Public Contract Code sections 4100-4113:

(1) The name, location of the place of business, and contract license number of each Subcontractor who will perform work or labor or render service to the prime Contractor in or about the construction of the work or improvement, or a Subcontractor licensed by the State of California who, under subcontract to the prime Contractor, specifically fabricates and installs a portion of the work or improvement according to the Contract Documents, in any amount in excess of one-half of one percent (0.5%) of the prime Contractor's total Bid, or, in the case of bids or offers for the construction of streets or highways, including bridges, in excess of one-half of one percent (0.5%) of the Contractor's total bid or ten thousand dollars ($10,000), whichever is greater.

(2) The portion of the work which will be done by each such Subcontractor, only one Subcontractor shall be listed for each such portion of the work as defined in the Bid.

(3) The bidder is considered the prime contractor and shall perform at least fifty-one percent (51.0%) of the work, as determined by a percentage of the value of the work.

(b) If the bidder fails to specify a Subcontractor for any portion of the work to be performed under the Contract pursuant to Section B-7(a) above, the bidder agrees to perform that portion of the work itself.

B-8. Interpretation of Contract Documents

Any explanation desired by the bidders regarding the meaning or interpretation of any of the Contract Documents must be requested in writing, with sufficient allowance of time for receipt of reply before the time set for opening of Bids. Any such explanations or interpretations will be issued by written Addenda as described in Section A-11. Questions. Neither the City Engineer nor any representative of the City is authorized to give oral explanations or interpretations of Contract Documents, and a submission of a Bid constitutes agreement by the bidder that it has placed no reliance on any such oral explanation or interpretation. However, the City Engineer may, upon inquiry by bidder, orally direct the bidder's attention to specific provisions of the Contract Documents which cover the subject of the inquiry.

B-9. Modification of Bids

Electronic modifications to bids may be made by the bidder prior to the bid closing deadline.

B-10. Withdrawals of Bids

Bids may be withdrawn without prejudice by the bidder prior to the bid closing deadline. No bid may be withdrawn after the hour affixed for opening Bids without rendering the accompanying Bid Security subject to retention as liquidated damages in like manner as in the case of failure to execute the Agreement after award, as in the Contract Documents herein provided. Negligence on the part of the bidder preparing his bid shall not constitute a right to withdraw the Bid subsequent to the opening of Bids. The bonds must be approved by the City. Prior to such approval, the Surety shall provide the documentation required by California Code of Civil Procedure section 995.660.

B-11. Discrepancies

In the case of discrepancy between unit prices and totals, unit prices will prevail. In case of discrepancy between words and figures, words will prevail.

B-12. Servicing and Maintenance

Each bidder must, if requested, furnish evidence that there is an efficient service organization which regularly carries a stock of repair parts for the proposed equipment to be furnished and installed in the work and that the organization is conveniently located for prompt service.

B-13. Disqualification of Bidders

More than one Bid from an individual, firm, partnership or corporation under the same or different names will not be considered. Reasonable grounds for believing that any individual, firm, partnership or corporation is interested in more than one Bid for the work contemplated may cause the rejection of all Bids in which the individual, firm, partnership or corporation is interested. If there is reason for believing that collusion exists among the bidders, any or all Bids may be rejected. Bids in which the price is obviously unbalanced may be rejected.

All bidders are put on notice that any collusive agreement fixing the prices to be bid so as to control or affect the awarding of this Contract is in violation of the competitive bidding requirements of the Public Contract Code and may render void any Contract let under such circumstances.

B-14. Bid Protest

Any Bid protest in connection with the construction contract or work must be submitted in writing to the City's Public Works Director/City Engineer, 12363 Limonite Ave., Suite #910, Eastvale, California, 91752, before 3:00 p.m. of the seventh day following opening of Bids.

(a) The protest must contain a complete statement of the basis for the protest, and all supporting documentation. The protest must state the facts and refer to the specific portion of the bid document or statute which forms the basis for the protest.

(b) The Bidder filing the protest must have submitted a Bid for the Work. A subcontractor or supplier may not submit a Bid Protest. A party may not rely on the Bid protest submitted by another Bidder but must timely pursue its own protest.

(c) The protest must include the name, address and telephone number of the person representing the protesting party.

(d) Only Bidders who the city otherwise determines are responsive and responsible are eligible to protest a Bid; protests from any other Bidder will not be considered. In order to determine whether a protesting Bidder is responsive and responsible, City may evaluate all information contained in any protesting Bidder's Bid and conduct the same investigation and evaluation as Cit is entitled to take regarding an apparent low bidder.

(e) The party filing the protest must concurrently transmit a copy of the protest and any attached documentation to all other parties with a direct financial interest which may be adversely affected by the outcome of the protest. Such parties shall include all other Bidders who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.

(f) The procedure and time limits set forth in this Section are mandatory and are the Bidder's sole and exclusive remedy in the event of Bid protest. The Bidder's failure to comply with these procedures shall constitute a waiver of any right to further pursue a Bid protest, including filing a Government Code Claim or legal proceedings. A Bidder may not rely on a protest submitted by another Bidder, but must timely pursue its own protest.

(g) If the City determines that a protest is frivolous, the protesting bidder may be determined to be non-responsible and that bidder may be determined to be ineligible for future contract awards.

B-15. Award of Contract (Agreement)

The City reserves the right to accept or reject any and all Bids for a period of ninety (90) days after the date of opening, and to waive any informality or irregularity in any Bid. No Bid can be withdrawn during that period.

The City reserves the right to reject any or all Bids, including, without limitation, the right to reject any non-conforming, non-responsive, unbalanced, or conditional bids.

Before a Bid is considered for award, the City may, in addition to the Experience Qualifications form set forth in Section C, require a bidder to submit a statement of facts and detail as to his business, technical organization and financial resources and equipment available and to be used in performing the work. Additionally, the City may require evidence that the bidder has performed other work of comparable magnitude and type. The City expressly reserves the right to reject any Bid if it determines that the business and technical organization, equipment, financial and other resources or other experience of the bidder (including the bidder's Subcontractors) is not sufficiently qualified for the work bid upon and, therefore, justifies such rejection.

The award of the Contract, if it is awarded, will be to the responsible bidder submitting the lowest responsive bid. Within seven (7) days after the date of bid opening, the responsible bidder with the lowest, responsive bid shall deliver to the City, in a form acceptable to the City, a complete cost breakdown for the project herein bid.

B-16. Contract Bonds

The successful bidder shall furnish both a Performance Bond and a Payment Bond in the amounts specified in the forms attached hereto.

These Bonds shall be furnished in the forms enclosed following the Contract and shall be satisfactory to the City and shall be obtained from a responsible corporate surety (or sureties) acceptable to the City, which is licensed by the State of California to act as surety upon bonds and undertakings and which maintains in this State at least one office for the conduct of its business. The surety (or sureties) shall furnish reports as to its financial condition from time to time as requested by the City. The premiums for said Bonds shall be paid by the successful bidder.

These Bonds shall be furnished by companies who are authorized and licensed by the Insurance Commissioner as an "admitted surety insurer." The surety shall provide the City with the documentation required by Section 995.660 of the California Code of Civil Procedure.

If any surety becomes unacceptable to the City or fails to furnish reports as to its financial condition as requested by the City, the Contractor shall promptly furnish such additional security as may be required from time to time to protect the interests of the City and of persons supplying labor or materials in the prosecution of the work contemplated by this Contract.

In the event of any conflict between the terms of the Contract and the terms of the Bonds, the terms of the Contract shall control and the Bonds shall be deemed to be amended thereby. Without limiting the foregoing, the City shall be entitled to exercise all rights granted to it by the Contract in the event of default, without control thereof by the surety, provided that the City gives the surety notice of such default at the time or before the exercise of any such right by the City, and, regardless of the terms of said Bonds, the exercise of any such right by the City shall in no manner affect the liability of the surety under said Bonds.

B-17. Substitution of Securities for Monies Withheld

Bidders are hereby notified that in accordance with the provisions of Public Contract Code section 22300, securities may be substituted for any monies which the City may withhold pursuant to the terms of the Contract to insure performance.

B-18. Execution of Contract

The successful bidder will be notified in writing by the City of the award of the Contract within ninety (90) days after opening of Bids. Accompanying the City's Notice of Award will be the Contract, in triplicate, which the successful bidder will be required to execute and return, together with the Performance and Payment Bonds, and the required certificates and policies of insurance together with the required endorsements thereto (or equivalent) for the Contractor and the workers' compensation certificate (see Section 22-C of the Agreement or Exhibit "D"), to the City within ten (10) days following receipt of such Notice of Award. Failure to do so shall be just cause for annulment of the award and for forfeiture of the Bid Bond which shall be retained as liquidated damages, and it is agreed that the bond sum is a fair estimate of the amount of damages that the City will sustain by reason of such failure. The City will promptly determine whether such Contract, Bonds and insurance are as required by the Contract Documents, and upon such determination will forward a fully executed copy of the Contract and a Notice to Proceed with the work to the successful bidder. Signature by both parties constitutes execution of the Contract. In the event of failure of the lowest responsible bidder to sign and return the Contract with acceptable Bonds and insurance as prescribed herein, the City may award the Contract to the next lowest responsible bidder, and, in the event that bidder fails to sign and return the Contract with acceptable Bonds and insurance, the City may award the Contract to the then next lowest responsible bidder, etc.

B-19. Return of Bid Securities

All Bid Securities will be held until the Contract has been finally executed, after which all Bid Securities, other than any Securities which have been forfeited, will be returned to the respective bidders.

B-20. Power of Attorney

The Attorney-in-Fact (resident agent) who executes the Performance Bond and Payment Bond on behalf of the surety company must attach a copy of his Power of Attorney as evidence of his authority. A notary shall acknowledge the power as of the date of the execution of the surety bond which it covers.

B-21. Time of Completion and Liquidated Damages

The Contractor shall begin work after the contract has been approved by the City Attorney and only after written notice to proceed with work has been issued by the City. The Contractor shall then have ten (10) calendar days after receipt of written notice to proceed to begin work. The counting of contract days will begin ten (10) calendar days from the time the Contractor receives the Notice to Proceed or when Contractor starts work, whichever comes first.

The time of completion of the work to be performed hereunder is the essence of this Contract. Delays and extensions of time may be allowed in accordance with the provisions of the Agreement for Construction Services.

This work shall be diligently prosecuted before the expiration of **Twenty-Nine (29) working days. All work shall be completed at least one day before Halloween, if not sooner (all pavement work must be completed by October 30th).**

The Contractor shall pay to the City of Eastvale the sum of $**1,500 per day**, for each and every calendar day's delay in finishing the work in excess of the number of working days prescribed above.

B-22. Licensing Requirements for Contractors

All bidders, including general contractors and specialty contractors, shall hold such licenses as may be required by the laws of the State of California for the performance of the work specified in the Contract Documents.

Effective April 1, 2015, Contractors and subcontractors bidding and performing work on public works project must register on an annual basis with Department of Industrial Relations (DIR). A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, unless currently registered and qualified to perform public work pursuant to Section 1725.5. It is not a violation of this section for an unregistered contractor to submit a bid that is authorized by Section 7029.1 of the Business and Professions Code or by Section 10164 or 20103.5 of the Public Contract Code, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded.

B-23. Escrow of Bid Documents

Upon award of the job to the successful bidder, and at the time of execution of this Contract, Contractor shall present all documentation used by the successful bidder in arriving at the bid upon which the Contract was awarded ("Bid Documentation") to the City Engineer's office. Such documentation shall be presented in a sealed envelope or box. Notice to Proceed will not be granted until City receives notice that such documentation has been received. This Bid Documentation shall include, but not be limited to any documents, pictures, or writings which relate to, arise out of, or constitute in any way notes, memoranda, phone logs, subcontractor and materialmen estimates, computations, or the like used by, complied by, or drafted by the successful bidder or its agents in arriving at its bid for the Project.

B-24. Preconstruction Conference

A preconstruction conference will be convened after the Contractor has delivered the necessary bonds, insurance certificates and signed agreement in proper form as required in the invitation to bid, bid proposal and general conditions of these specifications. Prior to any work, the Contractor shall provide the City Engineer with a list of key personnel assigned to the project and the

telephone numbers where they may be reached at any time. The list shall be made available in sufficient copies and presented at the preconstruction conference.

SECTION C. BIDDER'S PROPOSAL

BIDDER SHALL SUBMIT ALL FORMS UNDER SECTION C. BIDDER'S PROPOSAL AS PART OF THE BID. FAILURE TO DO SO WILL RESULT IN A NON-RESPONSIVE BID.

For the: **2025 Residential Slurry Seal Project, Project# 94001**

From:

NAME OF BIDDER _____

BUSINESS P.O. BOX _____

CITY, STATE, ZIP _____

BUSINESS STREET ADDRESS _____
(Please include even if P.O. Box used)

CITY, STATE, ZIP _____

TELEPHONE NO: AREA CODE ( ) _____

DEPARTMENT OF INDUSTRIAL RELATIONS (DIR) No. _____

Proposal To: The Honorable Mayor and City Council

City of Eastvale

Eastvale, California

The undersigned, as bidder, declares that he has carefully examined the location of the proposed work as described, examined the Plans, Specifications, Special Provisions, and other contract documents, together with all Addenda issued by the City of Eastvale, read the Instructions to Bidders, and is familiar with all proposal requirements, and hereby proposed and agrees, if the proposal is accepted, to complete the said construction in accordance with the Contract Documents, in the time stated herein, for the unit price or lump sum given on the following pages of this proposal, amounting to a base bid total of:

_____ $_____
Words Figures

Said amount to include and cover all taxes, the furnishing of all materials, the performing of all the labor requisite or proper and the providing of all necessary machinery, tools, apparatus, and

other means of construction; also, the performance and completion of all the work in the manner set forth, described and shown in the Specifications or the drawings for the work.

If the contract is awarded, the undersigned agrees to enter into a contract with the City of Eastvale and to commence work within ten (10) calendar days from the date of issuance of the Notice to Proceed and to diligently prosecute the work to completion before the expiration of **Twenty–Nine (29) Working Days.**

All bids are to be computed on the basis of the given Estimated Quantities of Work, as indicated in this proposal, times the unit prices as submitted by the bidders. In case of discrepancy between words and figures, the words shall prevail. In case of discrepancy between unit prices and the extension thereof, the unit price shall prevail and bids will be computed as indicated above and compared on the basis of corrected totals, given solely as a basis for comparison of bids. It is understood that the City does not expressly, nor by implication, agree that the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any item or portion of the work or to omit portions of the work as may be deemed expedient by the Engineer.

It is also understood by Bidder that the City of Eastvale has the right to reject this proposal or to award a contract to the undersigned at the prices stipulated. If the proposal is rejected, then any check or cashier's check shall be returned to the undersigned within thirty (30) days. No bid bonds will be returned. If the proposal is accepted and the undersigned fails to enter into a contract within fifteen (15) days after the agreement is delivered to him for signature, or within such further time as may be granted by the Members of the City Council, then said check shall be cashed or said bond declared forfeit and an amount equal to the difference between the lowest bid and the next lowest bid who will execute a contract shall be paid into the treasury of the City of City of Eastvale as liquidated damages for the failure of the undersigned to comply with the terms of this proposal.

Accompanying this proposal is _____ *(Insert "$_____ cash," cashier's check, certified check or bidder's bond forms included in these Contract Documents, as the case may be),* in an amount equal to at least ten percent (10%) of the total bid.

The following is the name and place of business of the surety company which will furnish the required bonds as surety if the work is awarded to the undersigned:

_____ .....

NOTICE - If bidder or other interested person is a corporation, state legal name of corporation, also names of the president, secretary, treasurer, and manager thereof; if a copartnership, state

true name of firm, also names of all individual copartners composing firm; if bidder or other interested person is an individual, state first and last names in full.

Licensed in accordance with an act providing for the registration of contractors:

License No. _____ Classification(s) _____.

ADDENDA - This Proposal is submitted with respect to the changes to the contract included in addenda number/s:

(*Fill in addenda numbers if addenda have been received and insert, in this Proposal, any Engineer's Estimate sheets that were received as part of the addenda*.)

By my signature on this proposal I certify, under penalty of perjury under the laws of the State of California, that the foregoing questionnaire and statements of Public Contract Code Sections 10162, 10232 and 10285.1 are true and correct and that the bidder has complied with the requirements of Section 8103 of the Fair Employment and Housing Commission Regulations (Chapter 5, Title 2 of the California Administrative Code). By my signature on this proposal I further certify, under penalty of perjury under the laws of the State of California and the United States of America, that the Noncollusion Affidavit required by Title 23 United States Code, Section 112 and Public Contract Code Section 7106; are true and correct.

BID BOND

We, _____ as Principal, and _____ as Surety are bound unto the City/County of _____, State of California, hereafter referred to as "Obligee", in the penal sum of ten percent (10%) of the total amount of the bid of the Principal submitted to the Obligee for the work described below, for the payment of which sum we bind ourselves, jointly and severally,

THE CONDITION OF THIS OBLIGATION IS SUCH, THAT:

WHEREAS, the Principal is submitted to the Obligee, for _____

_____

(Copy here the exact description of work, including location as it appears on the proposal)

_____

for which bids are to be opened at _____ on _____
(Insert place where bids will be opened) *(Insert date of bid opening)*

NOW, THEREFORE, if the Principal is awarded the contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him for signature, enters into a written contract, in the prescribed form, in conformance with the bid, and files two bonds with the Obligee, one to guarantee faithful performance of the contract and the other to guarantee payment for labor and materials as provided by law, then this obligation shall be null and void; otherwise, it shall remain in full force.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including a reasonable attorney's fee to be fixed by the court.

NON-COLLUSION AFFIDAVIT
To the CITY OF EASTVALE

In conformance with Title 23 United States Code Section 112 and Public Contract Code 7106 the bidder declares that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham; that the bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Note: The above Noncollusion Affidavit is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Noncollusion Affidavit.

Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

EXPERIENCE/QUALIFICATIONS STATEMENT

The bidder has been engaged in the contracting business, under the present business name for _____ years. Experience in work of a nature similar to that covered in the proposal extends over a period of _____ years.

The bidder, as a Contractor, has never failed to satisfactorily complete a Contract awarded to him, except as follows:

The following contracts have been satisfactorily completed in the last three (3) years for the persons, firm or authority indicated, and to whom reference is made:

Year	Type of Work	Contract Amount	Owner/Agency for Whom Work was Performed

The following is a list of plant and equipment owned by the bidder, which is definitely available for use on the proposed work as required.

Quantity	Name, Type and Capacity	Condition	Location

DESIGNATION OF SUBCONTRACTORS

The Bidder shall list the name, address and license number of each subcontractor to whom the Bidder proposes to subcontract portions of the work. It is understood and agreed that all those portions of the work called for in the contract documents for which a sub-contractor is not listed will be performed by the undersigned through his forces. If no sub-contractors are listed, all bonds and insurance will be written in the name of the general contractor only.

PUBLIC CONTRACT CODE

PUBLIC CONTRACT CODE SECTION 10285.1 STATEMENT

In conformance with Public Contract Code Section 10285.1 (Chapter 376, Stats. 1985), the bidder hereby declares under penalty of perjury under the laws of the State of California that the bidder has ___ , has not ___been convicted within the preceding three years of any offenses referred to in that section, including any charge of fraud, bribery, collusion, conspiracy, or any other act in violation of any state or Federal antitrust law in connection with the bidding upon, award of, or performance of, any public works contract, as defined in Public Contract Code Section 1101, with any public entity, as defined in Public Contract Code Section 1100, including the Regents of the University of California or the Trustees of the California State University. The term "bidder" is understood to include any partner, member, officer, director, responsible managing officer, or responsible managing employee thereof, as referred to in Section 10285.1.

Note: The bidder must place a checkmark after "has" or "has not" in one of the blank spaces provided. The above Statement is part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Statement. Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

PUBLIC CONTRACT CODE SECTION 10162 QUESTIONNAIRE

In conformance with Public Contract Code Section 10162, the Bidder shall complete, under penalty of perjury, the following questionnaire:

Has the bidder, any officer of the bidder, or any employee of the bidder who has a proprietary interest in the bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

Yes _____ No _____

If the answer is yes, explain the circumstances in the following space.

PUBLIC CONTRACT CODE 10232 STATEMENT

In conformance with Public Contract Code Section 10232, the Contractor, hereby states under penalty of perjury, that no more than one final unappealable finding of contempt of court by a federal court has been issued against the Contractor within the immediately preceding two-year period because of the Contractor's failure to comply with an order of a federal court which orders the Contractor to comply with an order of the National Labor Relations Board.

Note: The above Statement and Questionnaire are part of the Proposal. Signing this Proposal on the signature portion thereof shall also constitute signature of this Statement and Questionnaire.
Bidders are cautioned that making a false certification may subject the certifier to criminal prosecution.

SECTION D. TECHNICAL SPECIFICATIONS

The work for which this proposal is submitted is for construction in conformance Technical Specifications described below, including any addenda thereto, the contract annexed hereto, and also in conformance with the "Standard Specifications for Public Works Construction, 2018 Edition" (Standard Specifications), any referenced Special Provisions, Riverside County Transportation Department Improvement Standards and Specifications, latest edition, and subsequent amendments, and the California Department of Transportation Standard Plans and Specifications, 2018 Edition (State Standard).

1. EXISTING FACILITIES

Where excavations are performed in the vicinity of underground utility services, the Contractor shall, as necessary, perform initial exploratory excavations to determine their exact location. Extreme care shall be exercised by the Contractor to avoid damage to utility services and to coordinate the work with utility agencies. It shall be the Contractor's responsibility to have repairs made to existing facilities in the event of damage. The costs of all such repairs are the Contractor's responsibility.

The Contractor shall notify Dig Alert at 811 forty-eight (48) hours prior to the start of any work.

This project may include work on streets with mature trees adjacent to the roadway. In some locations, the tree canopy may extend over the roadway. It is the responsibility of the Contractor to conduct construction operations around said tree canopy such that the work is accomplished without damaging or injuring tree or tree limbs in any way.

Measurement and Payment
Full compensation for **EXISTING FACILITIES**, as specified herein, shall be considered as included in the prices paid for the various items of work involved and no additional compensation will be made therefore.

2. MOBILIZATION

Mobilization shall be accomplished in accordance with the provisions set forth in Section 2-4, "Contract Bonds", and Section 9-3.4, "Mobilization" of the Standard Specifications, except as modified and supplemented below:

The Scope of Work under this Item shall include all the incidental work items and costs necessary for mobilizing and demobilizing the contract work effort, personnel, equipment, etc.; obtaining all necessary Bonds and Certificates of Insurance; miscellaneous management and overhead costs; miscellaneous site preparation, and cleanup as necessary; and any other miscellaneous work costs not classifiable under the other Bid Item numbers.

The cost of bonds, insurance, move in and move out costs, preparation and submission of submittals, obtaining encroachment permits, and miscellaneous incidental costs, shall be included in the Bid Item. No work shall be started without prior approval of the submittals. Failure to comply with the preceding requirement will be sufficient ground for the City Inspector to stop all

work on the project until the requirements are met.

Sanitary facilities shall be supplied and maintained by the Contractor for the duration of the contract work.

Measurement and Payment
Payment for **Mobilization** shall be at the price bid per **Lump Sum (LS)** and shall be considered full compensation for doing all work as specified herein and no additional compensation will be allowed therefore. Seventy five percent (75%) of the lump sum amount will be eligible for inclusion in the first progress payment, with the remaining twenty five percent (25%) not eligible for inclusion until one hundred percent (100%) of the work has been completed and if progress of the work is satisfactory.

3. WATER POLLUTION CONTROL PROGRAM

As part of the Contractor's Water Pollution Control Program, the Contractor shall submit a Stormwater Pollution Prevention Plan (SWPPP), conforming to "The Construction Site Best Management Practices (BMPs) Manual" and the "Stormwater Pollution Prevention Plan (SWPPP) and Water Pollution Control Program (WPCP) Preparation Manual" for the State of California, for review and acceptance at least five (5) working days prior to the pre-construction conference. The Contractor shall revise the SWPPP as indicated by the City.

In the event that the project is not completed due to the weather, the City Engineer will notify the Contractor to cease operations. After notification, the Contractor shall cease operations as indicated in the notification and winterize the project as specified in the Contractor's SWPPP and to the satisfaction of the City Engineer. When weather permits, the City Engineer will notify the Contractor to resume operations. After notification, the Contractor shall resume operations within ten (10) calendar days and diligently complete the Contract. The Contractor shall not make any claim nor receive compensation for anticipated profits, loss of profits, damages, or any extra payment due to the work stoppage ordered by the City Engineer due to inclement weather.

Measurement and Payment
The contract **Lump Sum (LS)** price paid for **Water Pollution Control Program Plan** shall include full compensation for ceasing operations, mobilization, performing all work items as contained in the SWPPP and conforming to the requirements of this section and no additional compensation will be allowed therefore.

4. CONTROL OF MATERIALS

The Contractor shall comply with the requirements as set forth in Section 4, "Control of Materials" of the Standard Specifications.

All materials required to complete the work under this contract shall be produced or furnished, delivered, and installed by the Contractor unless otherwise specified in these specifications. The Contractor shall be responsible for controlling the quality of materials entering the work and of the work performed.

The Contractor is responsible for the costs and making all the arrangements to stockpile and store materials and/or equipment as work is performed. The City Engineer shall approve the duration

and location of all temporary stockpiles and storage location for the Contractor's material and/or equipment within the right of way. The Contractor shall immediately comply with the City Engineer's instructions regarding any stockpile or storage locations to the satisfaction of the City Engineer.

Measurement and Payment
Full compensation for Control of Materials for conforming to the requirements of this section shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation will be allowed therefore.

5. PROGRESS SCHEDULE

Progress schedules shall conform to Section 6 "Prosecution, Progress, And Acceptance of the Work" of the Standard Specifications.

During the duration of the contract, on or before the first calendar day of each month, the Contractor shall submit a complete, updated progress schedule to the Engineer. Updated progress schedules shall incorporate all current schedule information, actual progress, approved adjustments of time, and proposed changes in sequence and logic.

The Contractor shall also submit, on a weekly basis, a three-week rolling schedule. The three-week rolling schedule shall be submitted on the first day of the work week or as indicated by the Engineer at the Pre-construction Conference. The weekly schedule shall include location of work areas proposed and work activity included that week and other pertinent information as requested by the Engineer.

When preparing the progress schedule, the Contractor shall accommodate school sites, businesses and the public within the work areas. See Traffic Control section for more details.

Measurement and Payment
Full compensation for **Progress Schedules**, as specified herein, shall be considered as included in the prices paid for the various items of and no additional compensation shall be made.

6. INCLEMENT WEATHER PROTECTION

Contractor is directed to the "Water Pollution Control Program" section found elsewhere in these specifications.

In the event that the Contractor's work is suspended due to inclement weather for a period exceeding seven (7) calendar days, all sections of asphalt concrete for any dig outs or similar work where asphalt concrete has been removed, shall be backfilled with aggregate base or asphalt concrete to match the existing conditions grade. Compaction shall be a minimum of ninety percent (90%), and shall be placed in such a manner as to minimize the amount of standing water in the removed gutter sections and thereby reducing water infiltration into the road base. Driveway areas shall also be covered with trench plating. Areas that have been backfilled with aggregate base or asphalt concrete shall be protected as specified in the Contractor's WPCP. Upon resumption of work, the excess compacted aggregate base or asphalt concrete shall be removed with the remaining aggregate base recompacted and tested prior to curb and gutter installation.

Measurement and Payment
Full compensation for ceasing operations (demobilization), providing and maintaining drainage inlet protection, performing various items within the Contractor's Water Pollution Control Program or as specified herein, and resuming operations (mobilization) after inclement weather shall be considered as included in the prices paid for the various items of work, no additional compensation shall be made.

Compensation for furnishing, placing, and removing aggregate base for inclement weather protection shall be considered as included in the prices paid for the various items of work and no additional compensation shall be made.

7. UNIT PRICE CONTRACT

Payment for all work bid at a price per unit of measurement will be based upon the actual quantities of work as measured upon completion. The Estimated Quantities provided in the Bid Documents are for comparative bidding only. The City does not express or imply that the actual amount of work or materials will correspond to the Estimated Quantities. The City reserves the right to increase or decrease the amount of any class or portion of the Work, or to omit portions of the Work, as may be deemed necessary or advisable in the sole discretion of the City.

8. EXISTING HIGHWAY FACILITIES AND PRESERVATION OF PROPERTY

The Contractor's attention is directed to Section 15, "Existing Facilities," of the State Standard. It shall be the responsibility of the Contractor to protect existing curb, gutter, culverts, signs, traffic signal detectors, and other roadway appurtenances not scheduled for removal under this contract while performing work under the Contract. Facilities damaged due to the Contractor's operations shall be repaired or replaced as directed by the City Engineer by the Contractor at his sole expense. Facilities damaged due to the Contractor’s operations shall be repaired or replaced as directed by the Engineer at the Contractor’s sole expense.

In the event that a sign is knocked down, the Contractor shall immediately notify the Engineer and replace the sign within 48 hours or as determined by the Engineer. Regulatory Signs (Black on White Signs) shall be immediately replaced. Interruptions to the Traffic Signal shall be notified immediately, within one (1) hour, to the Engineer or contact (951) 232-7293 after business hours and on weekends. Costs incurred due to Contractor’s negligence shall be paid for at Contractors sole expense.

Existing Trees - This project may include work on streets with mature trees adjacent to the roadway. In cases where the tree canopy extends over the roadway, it is the responsibility of the Contractor to conduct construction operations around said tree canopy such that the work is accomplished without damaging or injuring tree or tree limbs in any way. The Contractor may trim the trees in order to better facilitate construction operations. Any tree trimming must be approved by the Engineer at least four (4) working days prior to the planned work operation. Advanced notices to adjacent property owners may be required as directed by the Engineer.

When permitted by the Engineer, tree pruning shall be performed by a Certified Arborist and in accordance with “Pruning Standards,” published by the Western Chapter of the International Society of Arboriculture. The Arborist may be a person in the employment of the Contractor so long as the person has been certified by the Western Chapter of the International Society of

Arboriculture. The Certified Arborist shall be approved in advance by the Engineer, and all pruning shall be done in the presence of the Engineer.

Overhead Utilities - This project includes work on streets with overhead utility and service lines. There may be locations where utility and service lines may have minimal vertical clear distance or clearance above the existing elevations within the limits of work. It is the Contractor's responsibility to conduct operations around the facilities such that the work is accomplished without damage to these facilities.

Manhole and Utility Covers, Survey Monuments - Before paving operations, the Contractor shall submit to the Engineer an inventory of all survey monuments/spikes, manhole and utility covers and any other miscellaneous covers and lids located within the project limits. Construction shall not begin until the inventory list is submitted to the Engineer. All survey monuments/spikes shall be protected during construction and exposed after construction.

Existing Traffic Striping, Markings, and Markers – Existing traffic stripes and pavement markers that are outside the areas of the project limits that are to remain in place shall be protected from wheel marks and other damage by the Contractor. Damaged traffic stripes and pavement markers shall be cleaned or replaced as approved by the Engineer. The restoration of such objects will be at the Contractor's expense and in conformance with "Traffic Striping and Pavement Marking" found elsewhere in these specifications.

The Contractor shall be responsible for limiting the "tracking" of material off of the project site. The Contractor shall sweep the street and/or sidewalk to remove the material. The Contractor shall submit to the City Engineer the proposed haul route to each job site two (2) working days prior to starting work.

Measurement and Payment
Full compensation for **Existing Highway Facilities and Preservation of Property**, as specified herein, shall be considered as included in the prices paid for the various items of work and no additional compensation shall be made.

9. AESTHETIC CLEAN UP

The Contractor is responsible for the timely removal of asphalt, concrete, dirt, and oil on gutters, sidewalks, driveways, roadways within and adjacent to the project limits, and haul route roadways that was tracked, sprayed, or deposited by his equipment or personnel under his control.

Upon completion of all construction operations, all roadways within the project limits shall be cleaned by sweeping, flushing, power brooms, power blowers, or other means approved by the Engineer, to remove all dirt, foreign material including any paint markings. Haul routes shall be cleaned of materials tracked or deposited by the Contractor's equipment or personnel. All sanitary sewer and drainage facilities and their appurtenant structures constructed or modified under the contract shall be cleaned out. All materials and equipment in stockpile and storage locations shall be removed and the areas cleaned to the satisfaction of the Engineer.

Measurement and Payment
Full compensation for **Aesthetic Clean-Up**, as specified herein, shall be considered as included in the prices paid for by the various items of work and no additional compensation shall be made.

10. ORDER OF WORK

The Contractor shall prepare a written schedule denoting locations and times of planned activities, and other impacts. The schedule for planned activities shall be submitted to the Engineer before or at the time of the pre-construction meeting. Contractor shall note that work shall not start unless a schedule has been submitted and accepted by the Engineer.

The Contractor must field verify all existing utilities, survey monument and shall submit the report to the Engineer prior to beginning work at each site.

All pavement preparation including base repair to grade, shall be completed and in place prior to placing crack seal within the same street.

There is no waiting time for crack sealing to be performed prior to the placement of slurry seal, per the manufacturer's recommendation.

Measurement and Payment
Full compensation for **Order of Work**, as specified herein, shall be considered as included in the prices paid for by the various items of work and no additional compensation shall be made.

11. TRAFFIC CONTROL SYSTEM

Attention is directed to Section 7-1.03, "Public Convenience," of the State Specifications. The Contractor shall be responsible for the safety vehicular and pedestrian traffic within the project limits and on the approaches to the project.

Traffic Control Plan - The Contractor shall submit Traffic Control Plans (TCP) conforming to Section 601, "Work Area Traffic Control," of the Standard Specifications and these provisions developed for the Project to assure that adequate consideration is given to the safety and convenience of motorists, bicyclists, pedestrians, and workers during construction. The TCP shall include all work within the City rights-of-way. Work shall not be allowed until the TCP has been reviewed and accepted by the Engineer. It is the Contractor's responsibility to provide a qualified person to prepare the TCP. Contractor shall note that TCP may be required for individual work activity.

The TCP shall be submitted to the Engineer seven (7) calendar days prior to any work activity. Under no circumstances shall any construction work affecting traffic be performed prior to the Engineer's acceptance of the TCP and the installation of the required advisory signs.

The Contractor shall cooperate and allow City work crews to use the traffic control system when set up for the Contractor's work as requested by the Engineer.

Hours of Work and Lane Closures - The Contractor shall notify and coordinate with the fire department, highway patrol, police, schools, Transit, Solid Waste, post office, and other agencies as required as to the road closure and the expected duration.

Special considerations shall be taken to implement the traffic control plan. The hours of work and traffic lane closures shall be as follows unless approved by the Engineer. Lane closure shall not be

allowed without proper advances warning devices, signing, and flagmen control in conformance with the State Specifications and these specifications.

For all streets, unless noted elsewhere, the hours of work and lane closures shall be as follows unless approved by the Engineer:

- No work shall be performed on Saturday, Sundays, or legal holidays.
- Hours of construction are between 8:00 am – 5:00 pm.
- No lane of traffic shall be closed to the public prior to 8:30 a.m. and all lanes shall be open to traffic by 3:30 p.m.
- Generally, one of the traffic lanes in each direction of an existing four lane road, and one of the lanes of an existing two lane road can be closed to perform the required work.
- Lanes of traffic shall have a minimum width of 10 feet.
- Where roads will have complete closures for the slurry seal work, Contractor shall prepare maps indicating where, dates and receive approval from the City prior to complete closures. The preparation of Street closures shall consider minimizing long distance for residents to park or walk to their homes.

At the completion of the work shift, all existing lanes of traffic shall be maintained and opened to traffic. In order for lanes to be open for traffic by the time designated, Engineer may direct work activity to stop two to three (2-3) hours in advance or earlier to accommodate hour restrictions. **The Contractor shall pay liquidated damages of $500.00 per ½ hour or portion of ½ hour that a traveled lane remains closed after the time designated in these specifications due to the Contractor's operations.**

The Engineer reserves the right to modify Contractor's scheduled locations for construction operations to accommodate access for businesses/residents.

The Contractor shall provide for the uninterrupted passage of emergency vehicles through the Work zone at all times regardless of the controlled traffic conditions in place at the time. The Contractor shall be responsible for maintaining local property access and access to existing public cross-streets within the limits of this contract. Where applicable, Contractor shall sand driveways and other areas as needed for traffic access. Wash sand shall be used for sanding and shall be mechanically and evenly spread or broadcast.

Contractor shall place Type II barricade with "Road Closed" signs at the end of each street in the process of being resurfaced. Signs shall remain in place until the resurfaced pavement has cured sufficiently and when the road or lane is open for through traffic.

On-Street Parking - Contractor will provide, install, maintain and remove "No Parking" signs in areas ONLY where the Contractor's work will require restricted parking. The Contractor shall place notification for the elimination of on-street parking, if required, at least forty-eight (48) hours, but not more than seventy-two (72) hours prior to the start of work. The signs shall clearly show the date(s) and hours of the parking prohibition. Writing shall be legible and visible for drivers of vehicles. The notification shall include the Contractor's name and phone number where questions can be directed by the public. This notice shall be affixed to a Type II barricade that is placed in the lane of the road, near lip of gutter, (max. 200 ft. spacing) used for on-street parking. No other location or method of placement is acceptable. The notification shall be in a form approved by the Engineer.

When originally scheduled paving dates change due to weather or other, Contractor shall remove and replace NO PARKING signs with corrected dates. CROSS OUT DATES IS NOT ALLOWED. Removal and/or replacement of corrected signs and barricades shall be performed within 24 hours of approved changed or as directed by the Engineer.

All construction signs, including barricades used for NO PARKING restrictions, shall be furnished, installed, and removed when no longer required in accordance with the provisions in Section 12, "Temporary Traffic Control," of the State Standard Specifications and these specifications. Non-compliance with any stipulation of this section will be justification for the City to stop work.

Towing - In the event that towing is required after proper notifications have been delivered and posted, and reasonable attempt have been made to the property owner or resident, the Contractor shall be responsible for towing vehicles. Contractor shall notify the Engineer prior to towing. The City shall not be responsible for any claims made as a result of towing from the Contractor.

Measurement and Payment
The contract **Lump Sum (LS)** price paid for **TRAFFIC CONTROL SYSTEM** shall include full compensation for furnishing all labor, materials, tools, equipment, incidentals, and for doing all work involved in placing, removing, storing, maintaining, moving to new locations, and disposing of the components of the traffic control system.

12. PUBLIC NOTIFICATION

The Contractor shall be required to notify and cooperate with the public, transit companies, local law enforcement agencies, local fire districts, local utility companies, refuse collectors, schools, and any other persons or agencies who may be affected by this project at least one (1) week prior to construction. Any changes in schedule will be coordinated with affected local agencies as needed and as requested by the Engineer. Other notifications may be required during project construction as outlined below.

Notifications will be provided by the Contractor relating to, but not limited to, the following items:

- General information
- Traffic delays and alternate routes
- Tree removals and/or trimming
- Driveway closures
- Water service interruptions
- Temporary relocation of bus stops
- Adjustment of utilities
- Waste pick up
- Transit disruptions

7-Day General Notifications - Before Contractor begins any work, all residents and businesses on each street affected by the work shall be notified in writing, at least seven (7) calendar days in advance. This notification will provide general information about the project, approximate range of dates on when construction will take place, time of work, Contractor's name and phone number and any other pertinent information for residents.

The Contractor shall provide the Engineer a copy of all written notifications for review seventy-two (72) hours prior to delivery.

72-Hour Notifications - The Contractor is responsible for delivering Notifications/door hangers ***PRIOR*** to the slurry seal operations. Notification will require dates, times and other pertinent information regarding the project and shall be approved by the Engineer prior to distribution. The Contractor is responsible for providing a phone number on the notice that can be reached after hours and on weekends by resident and businesses to answer their concerns.

72-Hour Notifications to affected residents and businesses shall be delivered a minimum of 72-hours prior to resurfacing operations.

For areas that have been notified and have parking areas restricted, should the Contractor's operation, be postponed or cancelled with no work in the proposed area for more than seven (7) calendar days, the Contractor shall re-notify the affected residents and businesses with similar notifications, as listed above, a minimum of two (2) working days prior to the start of the work. See also "Traffic Control System" section regarding sign changes.

Failure to comply with the notification requirement will result in a stop work order. The Contractor shall maintain an updated and chronological record at the job site of all written notifications along with a list of recipients. Such records shall be made available upon request by the Engineer.

Measurement and Payment
The contract **Lump Sum (LS)** price for **Public Notification** shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved.

13. CLEARING AND GRUBBING

Clearing and grubbing shall conform these specifications.

Contractor shall remove all objectionable material from within the area required for resurfacing. Objectionable material shall include, but not limited to roots, brush, grass, weeds, pavement material and debris and other related materials. Objectionable material shall be removed from the right-of-way and shall be transported and properly disposed of off-site. All cost charges and fees shall be the responsibility of the Contractor.

Measurement and Payment
Full compensation for **Clearing and Grubbing**, as specified herein, shall be considered as included in the prices paid for by the various items of work and no additional compensation shall be made.

14. MONUMENT PRESERVATION

Prior to any construction activities, all monuments, centerline ties, and any other survey markers within the project limits shall be located and recorded by a State of California Licensed Land Surveyor. No work with be authorized until the Contractor submits the required documentation to the City. Upon completion of construction, conflicting monuments, centerline ties, and other survey markers obliterated during construction shall be replaced in-kind per Section 309 of the SSPWC and per the California Professional Land Surveyor's Act, latest edition. Corner records

for all applicable intersections shall be filed with the County of Riverside prior to and after construction activities with copies of recordings provided to the City. All work involved shall conform to the California Professional Land Surveyor's Act, latest edition.

Measurement and Payment

Measurement & Payment for **Monument Preservation** shall be on a **Lump Sum (LS)** basis for all work involved with impacted monuments, centerline ties and survey markers due to all construction activity and shall include furnishing all materials, labor, and equipment necessary to perform all operations involved with resetting obliterated monuments, centerline ties, and other survey markers. Work shall also include all work involved with filing corner records prior to and after construction in conformance with the California Professional Land Surveyor's Act, latest edition and County of Riverside requirements, and providing documentation of same to the City.

15. DUST CONTROL

The Contractor's attention is directed to Section 7-1.04, "Public Safety," of the Standard Specifications. The Contractor shall be responsible for dust control within the project limits. The Contractor shall diligently control dust resulting from his operations and from public traffic passing through the work area by the application of water and/or dust palliative.

The Contractor shall provide dust control at all times including Saturdays, Sundays, and holidays as ordered by the Engineer. The Contractor shall immediately alleviate any dust hazard as directed by the Engineer.

Measurement and Payment

Full compensation for **Dust Control**, as specified herein, shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation shall be made.

16. SURPLUS MATERIAL DISPOSAL

All excess excavated material, broken concrete, and any other excess material resulting from excavation or construction shall become the property of the Contractor and shall be removed by end of the working day unless approved by the Engineer.

The Contractor shall comply with all disposal and grading code requirements of the City when disposing of surplus material.

Measurement and Payment

Full compensation for **Surplus Material Disposal**, as specified herein, shall be considered as included in the prices paid for by the various items of and no additional compensation shall be made.

17. IRRIGATION SYSTEMS

The Contractor shall be responsible for protecting any existing irrigation system that is encountered within the project site. Cost for damage to irrigation systems as a result of the

Contractor's operations shall be included in the bid items the Contractor deems appropriate. Any damage caused by the Contractor will be repaired by the Contractor to at least its original condition and that it performs to the same level or better as its original condition. Repairs to sprinklers will be completed within 48 hours from the time the damage occurred. **If the City is required to perform the repair after the 48 hour time requirement and has given notice to the Contractor, the cost to perform the repair by the City shall be deducted from any future payments due to the Contractor.**

Measurement and Payment
Full compensation for **Irrigation Systems**, as specified herein, shall be considered as included in the prices paid for by the various items of and no additional compensation shall be made.

18. LANDSCAPING

The Contractor shall be responsible for protecting and replacing any landscaped areas disturbed or damaged as a result of the construction improvements. Landscaped areas shall be removed and replaced as directed by the Engineer. Materials replaced shall be of the same type or better.

Measurement and Payment
Full compensation for **Landscaping**, as specified herein, shall be considered as included in the prices paid for by the various items of work and no additional compensation shall be made.

19. CRACK SEAL

Areas receiving crack seal work consists of the preparation of cracks and placement of hot asphalt-rubber sealant material. **Crack Sealing shall be completed a minimum of 3 (three) calendar days prior to placing slurry seal on that street or as directed by the City.**

Cracks in the existing asphalt concrete surfacing and shoulders that are greater than 1/8" in width shall be prepared and sealed. No crack less than an eighth of an inch (1/8") shall be sealed on any areas that are deemed unnecessary. Small cracks may be sealed as directed by the City. The Contractor will be required to thoroughly complete preparation of all cracks at least 1/8" in width no matter the number of or how widespread the existing cracks extend across the asphalt pavement, to the satisfaction of the Engineer, prior to scheduling installation of slurry seal or asphalt concrete overlay

Materials
The emulsified crack sealant shall be furnished in accordance with the requirements specified for asphaltic emulsion in Section 94, "Asphaltic Emulsions," of the State Specifications, can be readily handled at ambient temperature, and shall contain no volatile organic compounds which may contribute to air pollution. Material shall meet the CRAFCO Polyflex Type 4 or approved equal.

The Contractor shall provide the Engineer with a Certificate of Compliance conforming to the provisions in Section 6, "Control of Materials," of the State Specifications with each shipment of crack sealant. Said certificate shall also certify that the sealant complies with the specifications and shall be accompanied with storage and heating instructions and cautions for the material.

Preparation and Application
Cracks to be filled and adjacent asphalt concrete surfacing shall be cleaned and shall be free of

dirt, vegetation, debris and loose sealant. Preparation and application of sealant shall meet the manufacturer's directions and specifications and as directed by the City. Joints and cracks shall be sealed from the bottom up and sealant material shall be applied so it is flush with the existing pavement surface. Care shall be taken to avoid spillage and runover onto the surface of the pavement. The surface of pavement shall be immediately squeezed smoothly after the cracks have been filled. Traffic shall not be allowed on the material until it has been sanded to prevent tracking.

The Contractor shall fix or refill areas to the proper elevation when directed by the City. Within 5 days after application of sealant, sealed cracks that reopen or in which the sealant material sags below the surrounding asphalt concrete surfacing, cracks shall be cleaned and resealed.

Sealant shall bond to the crack with no separation, cracks or other opening in the sealant.

Measurement and Payment
The contract **Lump Sum (LS)** price for **Crack Seal** shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in preparing the pavement and placement of crack seal as specified in these specifications, and as directed by the Engineer and no additional compensation shall be made.

The payment of crack seal is based on performing the work as listed under Exhibit A found in the Appendix and as specified in this Section and is NOT based on the amount of crack seal applied**.**

Contractor will be responsible for visiting and quantifying the work that is needed on the streets proposed and shall perform all work based on the lump sum price and no additional compensation shall be allowed. It should be noted that not all streets need crack sealing, and some require more than others, therefore, a visit to the site is highly recommended.

20. BASE REPAIR – REMOVE EXISTING PAVEMENT AND CONSTRUCT FULL DEPTH AC, B2-PG 64-10, (5" DEPTH)

Base repair areas designated for removal and replacement are listed under Exhibit B found in the Appendix. All asphalt dig out and replacement areas Full Depth (patching), shall occur after the full width pavement grind and before the full width roadway paving operations. The inspector and Engineer are to field verify each asphalt dig out location. All asphalt dig out areas are to be field marked by the inspector and approved by the engineer.

The contractor shall be responsible for grinding or full depth saw cutting and excavating the existing pavement/base to the depths noted. Pavement to be removed shall be jack hammered or by any other methods, as approved by the Engineer, to the full depth of the pavement at the removal boundary. The pavement edge shall be kept reasonably straight and vertical, and shall be performed in such a manner that the remaining pavement is undisturbed and undamaged. Edges shall be constructed parallel and/or right angles to the direction of traffic flow. Where determined by the Engineer, saw cutting may be required if pavement edges are not determined to be reasonably straight and vertical.

Where unsuitable material is found after 5" of excavation, the Contractor shall notify the Engineer regarding directions to proceed with base repair.

Upon exposing the subgrade/underlying pavement, the subgrade shall be probed to verify adequacy of the existing base/subgrade. If unstable soils are encountered, additional removals will be directed by the engineer. Additional quantities of export and asphalt concrete observed from the removals shall be paid for at the contract unit price and no additional compensation will be allowed.

The contractor shall not be allowed to excavate more patches than can be paved back in a single day's operation. All patches shall be paved back by the end of each day, and all lanes shall be open to traffic.

All asphalt concrete for patching locations shall be **B2-PG 64-10.** Sides and base at all patching locations shall be tack-coated immediately prior to placement of asphalt concrete. Tack coat shall be furnished and applied in accordance with section "Asphalt Emulsion Binder" found elsewhere in these specifications.

Certified quantity tickets for the asphalt concrete shall be submitted to the City Inspector on the job site as the material is delivered and signed, so as to certify delivery and acceptance. Any material for which quantity tickets are not submitted as the material is delivered, will not be accepted.

Finish Roadway
Areas of base repair pavement shall be brought up to the existing surface grade. Asphalt concrete shall be placed to the previous existing roadway surface plane without indentations, swales or ponds. The HMA pavement top layer must not vary from the lower edge of a 12-foot long straightedge:

1. More than 0.01 foot when the straight edge is laid parallel with the centerline
2. More than 0.02 foot when the straightedge is laid perpendicular to the centerline and extends from edge to edge of a traffic lane
3. More than 0.02 foot when the straightedge is laid within 24 feet of a pavement conform

Finish Roadway Correction
If the top layer of the Asphalt Concrete pavement does not comply with the above specifications, the pavement correction may include grinding the pavement to within tolerances, remove and replace it, or place a layer of hot mix asphalt. The corrective work shall be determined and accepted by the Engineer prior to any corrective work beginning.

Corrected pavement areas must be uniform rectangles with edges:
1. Parallel to the nearest asphalt pavement edge or lane line
2. Perpendicular to the pavement centerline

Quantities of material wasted or disposed of in a manner not called for under the contract, or rejected loads of material, including material rejected after it has been placed by reason of the failure of the Contractor to conform to the specifications of the contract, or materials placed outside the lines indicated from the transporting vehicle, or material remaining on hand after completion of the work, will not be paid for and such quantities will be deducted from the final total quantities. No compensation shall be allowed for hauling rejected material.

Pavement delineation removal shall be coordinated with temporary delineation so that lane lines are provided at all times on traveled ways open to public traffic. Temporary reflective pavement markers shall be placed at intervals of not more than 25 feet. Temporary reflective raised pavement markers shall be the same color as the existing lane line or centerline.

Measurement and Payment
The contract unit price paid **per Square Foot (SF)** of **Base Repair – Remove Existing Pavement and Construct Full Depth AC, B2-PG 64-10 (5" DEPTH)** shall include full compensation for furnishing all labor, equipment, saw-cutting, tools and materials necessary for the excavation or cold milling of the existing asphalt concrete pavement, aggregate base and sub-base to depths shown on the plans. The price of this item shall include excavating the asphalt concrete pavement, aggregate base and subgrade to be removed, the disposal and hauling of material removed as described herein, removal of fabric/rubberized asphalt/petro-mat if it exists in the field at no additional cost, all debris, traffic controls as described herein, scarification and re-compaction of exposed base/sub-grade in areas where entire pavement section is removed, removal of unsuitable subgrade material as directed by the Engineer, native-material, and grindings from cold milling on the job site, and incidentals for doing the work involved in cold milling asphalt concrete surfaces as defined in Section 302-1, and no further compensation will be allowed therefore.

21. ASPHALT EMULSION BINDER (TACK COAT)

Asphalt emulsion binder shall comply with Section 203, "Bituminous Materials" of the Standard Specifications, these specifications, and as directed by the Engineer.

Asphalt emulsion shall be Type SS-1 or RS-1. When asphalt concrete is placed in contact with existing asphalt concrete, the surface shall be completely dry of water, clean of dirt and debris, and a tack coat of asphaltic emulsion shall be applied to insure proper bond. Asphaltic emulsion shall be applied to all vertical surfaces of existing pavement, curbs, and gutters, and construction joints against which asphalt concrete material is to be placed, to pavement to be surfaced and to other surfaces designated in the specifications or as directed by the Engineer.

The overlay shall not be placed until the binder has cured to the point where it is tacky to the touch and as directed by the Engineer. Asphalt emulsion binder shall be applied so far in advance of placing the surfacing as permitted by the Engineer. Immediately in advance of placing the overlay, additional asphalt emulsion binder shall be applied as directed by the Engineer to areas where the asphalt emulsion binder has been damaged, and loose or extraneous material shall be removed, and additional compensation shall not be allowed.

The area to which asphalt emulsion binder has been applied shall be closed to public traffic. Care shall be taken to avoid tracking binder material onto existing pavement surfaces beyond the limits of the construction.

Measurement and Payment
Full compensation for **Asphaltic Emulsion Binder (Tack coat)**, as specified herein, shall be considered as included in the prices paid for the various contract items of work involved and no additional compensation shall be allowed.

22. RUBBERIZED EMULSION AGGREGATE SLURRY (REAS) TYPE II

This work shall consist of furnishing and placing Rubberized Emulsion Aggregate Slurry (REAS) Type II to the existing asphalt surfaces as shown under "Location of Areas to Receive Crack Seal and Slurry Seal" found in the Appendix.

The slurry seal shall comply with Section 203 "Bituminous Materials" of the Standard Specifications and the following changes:

A. GENERAL

REAS shall be a stable mixture of Rubberized Polymer Modified Emulsion (RPME), aggregate, water, and portland cement. REAS shall be specified by combined aggregate gradation, i.e. Type II-REAS. REAS must conform to the Standard Specification unless specified in this Specification.

B. MATERIALS

Crumb rubber certifications and total binder characteristics results are required. The rubberized binder as specified herein shall be used for producing rubberized hot-mix asphalt. The rubberized binder must contain a minimum of 300 pounds (equivalent to 15% by weight) of one hundred percent (100%) California waste tire crumb rubber per ton of rubberized binder.

1. Rubberized Polymer Modified Emulsion (RPME)

a. General

RPME shall consist of a mixture of emulsified asphalt, crumb rubber, and latex. RPME shall contain between 0.55 pounds per gallon (66 grams per liter) and 0.65 pounds per gallon (78 grams per liter) of crumb rubber. Latex shall constitute a minimum of 2 percent by weight of RPME.

Crumb rubber shall:
- Be granulated scrap tire rubber free from fabric, wires, and other contaminants.
- Be dry and free flowing.
- Have a specific gravity between 1.15 and 1.20.
- Have a gradation of 100 percent passing the No. 16 (1.18 mm) sieve, 95 percent passing the No. 20 (900 µm) sieve, and a maximum of 1 percent passing the No. 200 (75 µm) sieve.

Calcium carbonate or talc may be added to a maximum of 4 percent by dry weight of crumb rubber to prevent the rubber particles from sticking together.

Emulsified asphalt may be reheated, but at no time after loading shall the temperature be raised above 160°F (70°C). During reheating, emulsified asphalt shall be agitated to prevent localized overheating. Emulsified asphalt shall not be permitted to cool to a temperature less than 40°F (5°C). RPME shall be mixed and applied within 60°F – 140°F (15 – 60°C).

b. Quality Tests

The emulsified asphalt, and emulsified asphalt residue, shall meet the requirements of AASHTO M 208 or ASTM D 2397 for CQS-1h, with the following exceptions:

TEST	TEST METHOD	SPECIFICATION	
	ASTM	MIN	MAX
Viscosity, 77°F (25°C), Brookfield, Model RVT #6 Spindle @ 10 RPM (Centipoise) @ 60 seconds	D 2196	4,000	12,000
Residue by Evaporation % (including fillers)	D 6934	50	55
Sieve Test (% retained on No. 20 (850 µm) sieve	D 6933	-	[1] 2.0
Penetration of Residue, 77°F (25°C), 0.1 mm	D 5	15	30
Solubility of Residue	D 2042	75	-
Weight lbs/gallon (g/L) 77°F ± 1°F (25°C ± 5°C)	D 1475	8.33 lbs/gal (1000 g/L)	8.75 bs/gal (1050 g/L)
Asphalt Content[2]	-	40	-

[1] Sieve test of original emulsion is 0.10 max.
[2] Asphalt Content shall be determined by multiplying Residue by Evaporation by Solubility of Residue.

TESTS	TEST METHOD	TYPE II
RPME % by weight of dry Aggreate[1]	ASTM D6302[2] or CT 382[2]	33-40
Residual RPME Solids[3]		17-22

[1] Must meet Residual RPME Solids.
[2] Sample size shall be 500 g minimum.
[3] Residual RPME Solids shall be determined by multiplying RPME % (ASTM D 6307 or CT 382) by Residue by Evaporation of RPME % (ASTM D 6934)

2. Aggregate

a. General

The aggregate shall be Type II 100 percent crushed rock. Rock products are defined as crushed rock, rock dust, gravel, sand, stone for rip rap, or any combination thereof. All rock products shall be clean, hard, sound, durable, uniform in quality, and free of any detrimental quantity of soft, friable, thin elongated or laminated pieces, disintegrated material, organic matter, oil, alkali, or other deleterious substance. Crushed rock and rock dust shall be the product of crushing rock or gravel.

b. Quality Tests

The aggregate should meet agency specified polishing values and these minimum requirements:

TEST	TEST METHOD ASTM	SPECIFICATION
Percentage Wear at 500 Revolutions[1]	C 131	40% Maximum
Sand Equivalent	D 2419	55 Minimum
Soundness (5 Cycles)[1]	C 88	15% Maximum

[1] To be run on the material retained on the No. 4 (4.75 mm) sieve graded from the source.

c. Gradation

When tested in accordance with ASTM C136, the mix design aggregate gradation shall be as specified below:

SIEVE SIZE	TYPE II PERCENT PASSING
3/8 (9.5 mm)	100
# 4 (4.75 mm)	90-100
# 8 (2.36 mm)	65-90
# 16 (1.18 mm)	45-70
# 30 (600 um)	30-50
# 50 (330 um)	18-36
#100 (150 mm)	10-24
#200 (75 mm)	5-15

3. Water

The water shall be potable water, free from harmful soluble salts and compatible with the other components.

4. Portland Cement

Portland cement may be added to modify the viscosity and curing characteristics accordance with the approved mix design. Portland cement shall be Type I/II or II/V and shall not exceed 1.5 percent of the dry weight of the aggregate.

All cement to be used or furnished shall be:

a. Type II portland cement, or Type V portland cement conforming to ASTM C150. Additionally, Type II and Type V portland cements shall meet the optional requirements of ASTM C150, Table 2 for maximum equivalent alkalis (Na2O + 0.658K2O) of 0.60 percent, or Type IP (MS) portland- pozzolan cement conforming to ASTM C595, unless otherwise specified. Type IP (MS) cement shall meet the optional mortar expansion requirements of ASTM C595, Table 2 and contain no more than 20 percent pozzolan, which shall be inter-ground with clinker.

b. Rapid-hardening hydraulic cement may be used when approved by the Engineer. When used, the concrete mix shall conform to the requirements of ASTM C928 and admixtures may be used when approved by the Engineer.

The Contractor shall furnish a Certificate of Compliance signed by the manufacturer identifying the cement and confirming compliance. Supporting test data will be furnished upon request by the Engineer. Whenever suitable facilities are available for handling and weighing bulk cement, they shall be used. Otherwise, cement shall be delivered in original unopened sacks marked with brand, type, and weight. Cement shall be stored in such a manner as to permit ready access for inspection and sampling and suitably protected against contamination and moisture. Should any cement show evidence of contamination or be otherwise unsuitable, the Engineer may reject it and require that it be removed from the site. All portland cement used in concrete shall be of the same brand and type unless otherwise approved by the Engineer.

5. Central Plant Mix

REAS shall be mixed at a central mixing plant. The mix shall conform to the following requirements:

a. Aggregate shall neither be stored nor transported in such a way that may cause segregation, degradation, or intermingling of different size aggregates.

b. Materials shall be proportioned by weight into the mixing tank. Volumetric proportioning will not be permitted.

c. The mixing tank shall be equipped with scales. The zero tolerance for the tank scales shall be 0.5 percent based on the total batch weight. The scales shall be calibrated and certified on a yearly basis or after every modification or repair.

d. The mixing tank shall be equipped with a full sweep mixer/agitator with blades or paddles of a sufficient size and number and operated at a speed sufficient to product a homogeneous mix. Should the blades, paddles, or other parts of the mixer/agitator become worn to such an extent to adversely affect the quality of the mix they shall be promptly replaced. Insufficient mixing or agitation within the mixing tank shall be corrected by either a reduction in the volume of component materials or other adjustments.

e. Each batch shall be continuously mixed for 3 minutes or until all of the component materials are thoroughly blended, whichever is longer. The mixing time shall begin upon the introduction of the last component material. If the Engineer determines that the mixture is not thoroughly blended, the mixing time shall be increased.

f. Mixed REAS shall be stored at the central mixing plant site in storage tanks equipped with an agitator of a similar configuration to the agitator in the mixing tank. The agitator shall be capable of continuous operation.

The application rate of REAS mixed at a central mixing plant shall conform to the requirements shown in the table below unless otherwise specified in the Special Provisions or shown on the Plans.

TYPE	APPLICATION RATE
Type II REAS	11.3 – 15.0 lbs/yd^2 (6.1 – 8.1 kg/m^2)

C. EQUIPMENT

1. All equipment, tools, and machines used in the application of REAS shall be maintained in satisfactory working condition at all times. The machine shall be specifically designed and manufactured to apply REAS.

2. The spreader box shall be equipped with flexible material in continuous contact with the existing pavement and shall be capable of controlling the rate of application. The spreader box shall have adjustable width and strikeoff height, and be capable of controlling and providing uniform spreading.

3. Each mixing unit to be used in the performance of the work shall be calibrated in the presence of the Engineer prior to the start of the project. Any component replacement affecting material proportioning requires that the machine be recalibrated. No machine will be allowed to work on the project until the calibration has been completed and/or accepted.

D. CONSTRUCTION

1. Timing and Traffic Control

Streets where slurry seal is scheduled to be applied shall be closed from the time the CONTRACTOR begins to clean the street surface until the Engineer determines the slurry seal has achieved sufficient set to be opened to traffic.
Rock dust or sand shall be spread, as directed by the Engineer, to eliminate tracking or damage and to provide vehicular or pedestrian crossings.

2. Weather Limitations

REAS shall not be applied if either the pavement or the ambient temperature is less than 55°F (13°C) and falling, but may be applied when the pavement and ambient temperatures are above 50°F (10°C) and rising.
3. Surface Preparation

Prior to spreading, the CONTRACTOR shall clean the existing pavement unless otherwise specified in the Special Provisions. Immediately ahead of the spread truck, the existing pavement shall be pre-wetted by a pressurized water distribution system equipped with a fog-type spray bar capable of completely covering the surface of the pavement.

4. Application

a. General

A test strip shall be constructed at a location approved by the Engineer at least one day prior to the actual REAS placement.

REAS shall be spread by a spreader box attached to an agitator truck. REAS shall be transported from the central mixing plant to the Work site in trucks specifically designed for this purpose equipped with an agitator. REAS shall be continuously agitated during transport and spreading.

The maximum speed of the spreader truck shall not exceed 270 feet per minute (80 meters per minute). Hand squeegees and other equipment shall be provided for spreading and spillage removal in areas inaccessible to the spreader box.

Slurry seal shall be applied in such a manner that no ridges remain. Areas in which there is evidence of solidification of the emulsified asphalt, balling or lumping of the aggregates, or uncoated aggregates shall be removed and replaced to the satisfaction of the Engineer.

The CONTRACTOR shall prevent slurry seal from being deposited on other than asphalt concrete surfaces and shall remove it from surfaces not designated to be sealed. The method of removal shall be approved by the Engineer.

When the completed slurry seal surfacing is not uniform in color, the street shall be treated by a method approved by the Engineer to eliminate the color variation.

b. Quality Test

During the performance of the Work, the CONTRACTOR shall provide the Engineer with at least 2 field samples, from separate loads, of mixed slurry seal per mixer per day. Wet Track Abrasion Test (WTAT) specimens shall be cast and struck off within 60 seconds of obtaining the sample. WTAT specimens shall not be transported until the slurry seal has set as defined by ASTM D3910.

Field samples shall conform to the requirements shown below:

TESTS	ASTM TEST METHOD	REQUIREMENTS
Wet Track Abrasion Test, Weight loss, Type II Aggregate	D3910[1]	0 – 60 gm/ft^2 (0 - 650 gm/m^2)
Consistency Test	D3910[1]	20 – 40 mm
Extraction Test (Calculated Emulsion Content, %)	D6307[2]	± 3% of mix design
Water Content (% of Dry Slurry)	See Note 3	< 40

[1] Modified ASTM D3910 to include No. 4 (4.75 mm) aggregate or greater and to be performed using field samples. Subsection 6.4.4.7, ASTM D3910 may be modified to use a microwave oven for drying the specimen after the abrasion cycle is complete and the debris washed off.

[2] Modified ASTM D6307 to allow a minimum of 500 ± 50 gram sample.

[3] Weigh a minimum of 500 grams of homogenized mixed slurry into a previously tared quart can with a friction lid. The lid shall be placed on the can to prevent loss of material during transportation. Place the can with the lid off in an oven and dry to constant mass at 230°F ± 9°F (110°C ± 5°C).

If the test results fail to meet the Specifications, the CONTRACTOR shall ease spreading slurry seal produced by the nonconforming mixer until the CONTRACTOR demonstrates the mixer is producing slurry seal which conforms to the Specifications.

Measurement & Payment
Measurement & Payment for Furnish and Place **Rubberized Emulsion Aggregate Slurry (REAS) Type II** shall be on a **Square Foot (SF)** basis as measured in the field and shall include full compensation for all labor, materials, tools, equipment, and incidentals; for doing all the work involved in scheduling, obtaining approvals, providing notifications, no parking signs, site preparation, weed abatement, crack sealing, crack filling, surface preparations, covering and protecting all utility appurtenances, application of slurry seal, protection and barricading of the work, and for completing the work in place, as noted on the plans and approved by the City Engineer, and no additional compensation will be allowed therefore.

23. ARAM CAPE SEAL PRESERVATION SYSTEM

A. GENERAL

The Contractor shall furnish all labor, equipment, material, supplies, environmental protection, no parks, raised markers, signage, traffic control, secondary sweeping, and other incidentals necessary to provide an application of polymerized emulsified asphalt, cover coat aggregate, followed by a polymerized Slurry Seal to an existing roadway surface. This two-step process is called Cape Seal.

A minimum of two vacuum designed sweepers having only negative air pressure at the road surface capable of removing excess aggregate and debris material shall be used on this project. Any and all areas within or adjacent to the project where a vacuum broom cannot access, shall be removed by the use of a blow pack.

The Contractor shall inform himself of the city trash pick up days schedule for the project area. There shall be at least four (4) calendar day period prior to trash pick up day for each street receiving Cape Seal.

This project is funded in part by the California Department of Resources Recycling and Recovery (CalRecycle) grant. The following is required with the Contractor's submittals and work specifications:

The Contractor is required to complete the following forms for the Rubberized Emulsion Aggregate Slurry (REAS) Type II and Tire Rubber Recycling.

1. Form CalRecycle 168—Reliable Contractor Declaration (Submit with Bid Proposal)
2. Rubberized Pavement Certification (Submit with all progress payment invoices) – See Exhibit F found in the Contract Agreement

These forms are available for download at: http://www.calrecycle.ca.gov/Grants/Forms/, and also in Appendix D. It is the Contractor's responsibility to determine the eligibility and other requirements described in the forms, especially Form CalRecycle 168. Failure to meet the eligibility criteria would render the bid non-responsive.

B. DESCRIPTION

This project shall consist of a bituminous surface Asphalt Rubber Aggregate Membrane (ARAM) composed of a single application of Asphalt-Rubber material and hot pre-coated 3/8”aggregate. 46 This specification requires the application of a specified blend of asphalt-rubber binder material (i.e. a field blend product). This specification expressly determines that the asphalt-rubber binder material specified herein (i.e. a field blend product) and modified binder, rubber modified asphalt or PG 76-22TR (i.e. terminal blend products) are sufficiently different such that they are not functionally equivalent. Therefore, any substitutions for the asphalt-rubber binder material specified herein, such as but not limited to any rubber modified asphalt binder (i.e. a terminal blend product) will not be accepted.

C. MATERIAL COMPONENTS

1. ASPHALT CEMENT

The type and grade of PG asphalt cement utilized to manufacture the Asphalt Rubber binder shall be PG 58-22, PG 64-16, or PG 70-10 which shall comply with requirements in Table #1.

Table #1 – PG Asphalt Cement Grading Requirements

Climate	**PG Grading**
Cold	PG 58-22
Moderate	PG 64-16
Hot	PG 70-10

• The exact grade of PG asphalt cement, if different than PG 64-16, shall be determined by the Asphalt Rubber supplier dependant on the specific project requirements.

2. GRANULATED RECLAIMED TIRE RUBBER

The CRM shall be produced primarily from the processing of whole automobile and truck tires. The rubber shall be produced by ambient temperature grinding processes only. The gradation of the CRM when tested in accordance with ASTM C-136 (dry sieve only) and using a 100 gram sample, shall meet the requirements in Table #2.

Table #2 - CRM Grading Requirements

Sieve Size	Scrap Tire Crumb Rubber	High Natural Crumb Rubber
#8	100	---
#10	95 - 100	100
#16	35-85	92-100
#30	2 - 25	25-95
#50	0 - 10	6-35
#100	0-5	0-7
#200	0-2	0-3

The use of CRM from multiple sources is acceptable provided that the overall blend of rubber meets the gradation requirements.

The individual CRM particles, irrespective of diameter, shall not be greater in length than 3/16 of an inch (5mm).

The CRM shall have a specific gravity of 1.15 ± 0.05 as determined by, and shall be free of loose fabric, wire and other contaminants except that up to 4 percent (by weight of rubber) calcium carbonate or talc may be added to prevent the rubber particles from sticking together. The rubber shall be sufficiently dry so as to be free flowing and not produce a foaming problem when blended with the hot asphalt cement. The CRM shall be accepted by certification from the approved supplier. The Reclaimed Tire CRM material shall conform to the chemical analysis in Table # 3.

Table #3 - Reclaimed Tire CRM Chemical Requirements

Test	ASTM Test Method	Minimum	Maximum
Acetone Extract	D 297	6.0 %	16.0 %
Ash Content	D 297	----	8.0 %
Carbon Black Content	D 297	28.0 %	38.0 %
Rubber Hydrocarbon	D 297	42.0 %	65.0 %
Natural Rubber Content	D 297	22.0 %	39.0 %

Note: All reclaimed tire rubber CRM shall be certified to have originated in California, and the CRM material will also be certified to have been processed in California, through invoice and bill of lading.

3. ASPHALT MODIFIER

Table #4 - Asphalt Modifier

Quality characteristic	ASTM Test Method	Requirement
Viscosity at 100 °C (m2/s x 10-6)	ASTM D445	X ± 3a
Flash point (min, CL.O.C., °C)	ASTM D92	207
Molecular analysis:		
Asphaltenes by mass (max, %)	ASTM D2007	0.1
Aromatics by mass (min, %)	ASTM D2007	55

4. ASPHALT RUBBER BINDER

The temperature of the blended PG asphalt cement shall not be less that 375° F nor more than 450° F when the CRM is homogenously blended, in the field. The combined materials shall be reacted for a minimum of 120 minutes after the incorporation of all the CRM. The Asphalt Rubber binder shall meet the requirements in Table #5, when the reaction/interaction is complete.

Table #5 - Specification Limits for (Asphalt Rubber Binder)

		Hot Climate	Moderate Climate	Cold Climate
Apparent viscosity, 347° F Spindle 3 @ 12 RPM: cps (ASTM D2669)	 Min Max	 1500 2500	 1500 2500	 1500 2500
Cone Penetration, 77° F (25° C), 150g, 5 sec; 1/10 dm (ASTM D217)	Min Max	15 40	20 70	25 100
Softening Point, °F (° C) (ASTM D36)	Min	170° F (77° C)	160° F (71° C)	150° F (66° C)
Resilience, 77° F (25° C), % (ASTM D3407)	 Min	 45	 35	 25

The viscosity shall be conducted by using a hand held HAAKE VISCOMETER, with rotor 1, 24mm in depth x 53mm in height, or equivalent. When applying Asphalt Rubber, the reacted Asphalt Rubber binder shall be maintained at a temperature of not less than 375° F and no more than 425° F. If material in a batch of Asphalt Rubber binder is not used within six hours after the reaction period is complete, heating of the material shall be discontinued. When applying Asphalt Rubber, if the Asphalt Rubber binder temperature cools below 300° F and is then reheated, it shall be considered a reheat cycle. The total number of reheat cycles shall not exceed two (2). The binder materials shall be uniformly reheated to a temperature of not less than 375° F for application. Additional scrap tire CRM may be added to the reheated Asphalt Rubber binder and reacted for a minimum of 45 minutes and shall not exceed 10 percent of the total binder weight. Reheated Asphalt Rubber binder shall conform to the requirements for blended Asphalt Rubber binder.

5. ASPHALT RUBBER BINDER FORMULATION

The Asphalt Rubber binder supplier, shall furnish to the Engineer within 15 days of the notice to proceed, the Asphalt Rubber binder formulations which shall contain the following information:

PG Asphalt Cement
- Source of PG Asphalt
- Grade of PG Asphalt
- Percentage of PG Asphalt by total weight of the Asphalt Rubber mixture
- Percentage of Asphalt Modifier by total weight of the Asphalt Rubber mixture

Reclaimed Tire Rubber (CRM)
- Source of CRM
- Grade of CRM
- Percentage of CRM and High Natural CRM by total weight of the Asphalt Rubber mixture

6. AGGREGATE COVER MATERIAL

Aggregate shall be composed of clean and durable crushed rock or crushed gravel conforming to the following requirements:

If the aggregate is to be crushed stone, it shall be manufactured from sound, hard, durable material of accepted quality and crushed to specification size. All strata, streaks and pockets of clay, dirt, sandstone, soft rock or other unsuitable material accompanying the sound rock shall be discarded and not allowed to enter the crusher.

If the aggregate material is to be crushed gravel, it shall consist of hard, durable fragments of stone or gravel of accepted quality and crushed to specification size. All strata, streaks, pockets of sand, excessively fine gravel, clay or other unsuitable material including all stones, rocks and boulders of inferior quality shall be discarded and not allowed to enter the crusher. The crushing of the gravel shall separate the #4, 3/8 and 1/2 inch sieves and shall have a minimum 95% of the particles with a minimum of one mechanically fractured face and 90% of the particles shall have a minimum of two mechanically fractured faces.

The crushed aggregate or crushed gravel shall not contain more that 8% by weight of flat or elongated pieces and shall be free from wood, roots and vegetable or other organic extraneous matter. The 3/8 inch crushed aggregate or crushed gravel shall have a minimum Cleanness Value (CV) of 80 and shall have a percentage of wear not more than 7 percent at 100 revolutions and not more than 30 percent at 500 revolutions, as determined by ASTM C131 or California Test Method 211.

The crushed aggregate for Asphalt Rubber binder applications shall meet the requirements for gradation given in Table #6.

Table #6 - Aggregate Gradation Requirements –Asphalt Rubber

3/8 inch Asphalt Rubber Aggregate Gradation

Sieve Size	Percent Passing
1/2 inch (12 mm)	95-100
3/8 inch (9 mm)	70 – 85
1/4 inch (4.75 mm)	0 – 15
#8 (2.36 mm)	0 – 5
#200 (75 µm)	0 – 1
---	---

The aggregate to be utilized shall be hot pre-coated with 0.5 to 1.0 percent PG asphalt cement. The Engineer shall determine the appropriate amount of pre-coat. At no time shall the bag house fines be allowed to be reintroduced back into the hot coated aggregate. The pre-coated aggregate shall be supplied to the project site at 225° F to 325° F.

D. EQUIPMENT

1. GENERAL

The equipment used by the contractor for pavement cleaning and excess aggregate removal shall include operational top dumping pick-up brooms.

2. ASPHALT RUBBER EQUIPMENT

All equipment utilized in the production and application of AR binder material shall be described as follows:

a) A PG asphalt cement heating tank with a hot oil heat transfer system or a retort heating system capable of heating the PG asphalt cement to the proper temperature for blending with the CRM may be used for additional storage at the contractors option.

b) An Asphalt Rubber mechanical blender shall have a two stage continuous mixing process capable of producing a homogenous blend of PG asphalt cement and CRM, at the mix design specified ratios, as directed by the engineer. The mechanical blender shall be equipped with a granulated rubber feed system capable of supplying the PG asphalt cement feed system, as not to interrupt the continuity of the blending process. The maximum capacity of the primary blending vessel shall be 500 gallons. Both the primary and secondary blenders shall be equipped with an agitation device orientated horizontally or vertically in the blending vessel. The mechanical blender shall be capable of fully blending the individual modifier particles (CRM) with the PG asphalt cement. A separate PG asphalt cement feed pump and finished product pump are required. This unit shall have a PG asphalt cement coriolis meter to determine the exact flow rate in gallons per minute.

c) A distributor truck equipped with a heating unit, and an internal mixing device capable of maintaining a uniform mixture of PG asphalt cement and CRM. It shall be equipped with a full

circulating spray bar and pumping system capable of applying the Asphalt Rubber binder material within a 5% tolerance of the specified application rate, and must achieve a uniform covering of the surface to be treated. The distributor shall have a boot board on the rear of the vehicle and a bootman shall accompany the distributor. The bootman shall ride in a position so that all the spray bar tips are in full view and readily assessable for unplugging, if a plugged tip should occur. The distributor truck shall also require a thermometer and a computer rate control (CRC). In addition, the distributor truck shall be equipped with a gear pump metering device separate from the actual binder pump. The pump and meter must have individual sensors to ensure the most accurate application rates in the event screens become plugged with crumb rubber debris. Spreader trucks shall be equipped with a maximum width 12 foot spray bar to ensure proper coverage across the entire spray bar. Spray bars in excess of 12 feet will not be allowed to apply Asphalt Rubber.

3. AGGREGATE COVER MATERIAL SPREADER

The cover material (chip) spreader shall be a self-propelled machine with an aggregate receiving hopper in the rear, belt conveyors to carry the pre-coated aggregate to the front, and a full width spreading hopper. The spreader shall be in good mechanical condition and shall be capable of applying the cover aggregate uniformly across the spread width and at the specified application rate.

4. ROLLING EQUIPMENT

Sufficient rollers shall be used to cover the width of the aggregate spread with one pass. The first pass shall be made immediately behind the aggregate spreader as the aggregate is being placed. Three (3) complete passes with the pneumatic tire rollers shall be made. The pneumatic-tired rollers' shall carry a minimum loading of 3,000 pounds on each wheel and a minimum pressure of 90 pounds per square inch in each tire. Foam filled tires can be utilized.

5. HAULING EQUIPMENT

Trucks for hauling the pre-coated cover aggregate shall be tailgate discharge and shall be equipped with a device to lock onto the hitch of the cover material spreader. Haul trucks shall also be compatible with the cover aggregate spreader so that the dump bed will not push down on the spreader when fully raised, or have too short of a bed which results in aggregate spillage while dumping into the receiving hopper.

E. CONSTRUCTION METHODS

1. GENERAL

Immediately prior to the application of the Asphalt Rubber binder chip seal application, the surface shall be clean in order to insure adequate adhesion of the Asphalt Rubber to the existing pavement surface.

A minimum of two vacuum designed sweepers having only negative air pressure at the road surface capable of removing excess aggregate and debris material shall be used on this project. The body hoppers of the vacuum sweepers shall be a minimum capacity of ten cubic yards, and the negative air pressure at the intake shall be rated at 46 inches of negative water pressure. Sweepers shall meet applicable U.S. Environmental Protection Agency Standards.

Mechanical pick-up brooms may be allowed on the project. The Contractor will be responsible to ensure that the work is done properly. Any areas adjacent to the project where a vacuum broom cannot access, shall be removed by the use of a blow pack.

2. ASPHALT RUBBER BINDER - MIXING AND REACTION

The blending equipment must allow the determination of weight percentages of each asphalt rubber binder ingredient.

An asphalt rubber binder must be 79 ± 1 percent by weight asphalt binder and 21 ± 1 percent by weight of CRM. The minimum percentage of CRM must be 20.0 percent and lower values must not be rounded up. The CRM must be 75 ± 2 percent by weight scrap tire crumb rubber and 25 ± 2 percent by weight high natural scrap tire crumb rubber.

An asphalt modifier and asphalt binder must be blended at the production site. An asphalt modifier must be from 0 to 6.0 percent by weight of the asphalt binder in the asphalt rubber binder. The asphalt rubber binder supplier determines the exact percentage.

If blended before adding CRM, the asphalt binder must be from 375 to 440 degrees F when an asphalt modifier is added and the mixture must circulate for at least 20 minutes. An asphalt binder, asphalt modifier, and CRM may be proportioned and combined simultaneously.

The blend of an asphalt binder and an asphalt modifier must be combined with the CRM at the asphalt rubber binder production site. The asphalt binder and asphalt modifier blend must be from 375 to 440 degrees F when the CRM is added. Combined ingredients must be allowed to react at least 45 minutes at temperatures from 375 to 425 degrees F except the temperature must be at least 10 degrees F below the flash point of the asphalt rubber binder.

3. APPLICATION OF ASPHALT RUBBER BINDER

Placement of the Asphalt Rubber shall proceed only under the following conditions:

a) The pavement surface temperature shall be 60° F and rising.
b) The pavement surface is clean and dry.
c) The wind conditions do not exceed 20 mph.
d) All of the construction equipment such as the Asphalt-Rubber distributor, aggregate spreader, haul trucks loaded with cover material, rollers and brooms are in position and ready to commence placement operations.
e) Chance of rain does not exceed 75%.

Asphalt Rubber binder shall be applied to the roadway following the mixing, reacting and blending of Asphalt Rubber binder at a rate of 0.55 to 0.65 gallons per square yard. At no time will the application width exceed twelve (12) feet on the spray bar.

Distributor bar height, tip size, distribution, speed and shielding materials shall be utilized to reduce the effects of excess wind upon the spray distribution (fan), of each binder. The Engineer shall delay or reschedule work when high gusting or dusty winds in excess of 20 mph prevent or adversely affect binder or aggregate application.

The application of Asphalt Rubber binder to areas not accessible with the distributor bar on the distributor truck shall be accomplished by using a squeegee or other means approved by the Engineer.

The contractor shall comply with all Federal, State and Local environmental laws, regulations and ordinances.

4. APPLICATION OF AGGREGATE COVER MATERIAL

The 3/8 inch cover material shall be applied immediately onto the Asphalt Rubber membrane at a rate of 30 to 32 pounds per square yard. The actual rate selected within this range will be determined in the field based on the appearance of the Asphalt Rubber chip seal after initial rolling.

At the time of application the temperature of the aggregate shall range from 225° F to 325° F.

A minimum of two vacuum designed sweepers having only negative air pressure at the road surface capable of removing excess aggregate and debris material shall be used on this project. The body hoppers of the vacuum sweepers shall be a minimum capacity of ten cubic yards, and the negative air pressure at the intake shall be rated at 46 inches of negative water pressure. Sweepers shall meet applicable U.S. Environmental Protection Agency Standards. No mechanical pick-up brooms will be allowed on the project. Any areas adjacent to the project where a vacuum broom cannot access, shall be removed by the use of a blow pack. No mechanical pick-up brooms will be allowed on the project.

Sweepers shall be used CONTINUALLY during the operation and all areas shall be cleaned a minimum of twice a day throughout the process to remove any and all excess rock from the roadway and sidewalks.

5. ROLLING

Sufficient rollers shall be used for the initial rolling to cover the width of the aggregate spread with one pass. The pneumatic tire rollers shall be operated in front of the steel wheel roller.

Sufficient rollers shall be used for the initial rolling to cover the width of the aggregate spread with one pass. The first pass shall be made immediately behind the cover material spreader (chip-box) as the aggregate is being placed. If the spreading is stopped for more than two minutes, the cover material spreader (chip-box) and aggregate trucks shall be moved ahead or off the chip seal surface so that all cover material may be immediately rolled. Three complete passes shall be made with the pneumatic rollers.

Measurement & Payment
Measurement & Payment for **Asphalt Rubber Aggregate Member (ARAM)** shall be on a **Square Foot (SF)** basis as measured in the field and shall include full compensation for all labor, materials, tools, equipment, and incidentals; for doing all the work involved in scheduling, obtaining approvals, providing notifications, no parking signs, site preparation, weed abatement, crack sealing, crack filling, surface preparations, covering and protecting all utility appurtenances, application of slurry seal, protection and barricading of the work, and for completing the work in place, as noted on the plans and approved by the City Engineer, and no additional compensation will be allowed therefore.

24. TRAFFIC STRIPING AND PAVEMENT MARKING

All references to traffic striping and markings shall be "Thermoplastic".

Traffic Signs, Striping, Markers, and Markings, shall conform to the latest State Standard Specifications and the current CA MUTCD and these technical specifications.

The Contractor shall field verify all existing striping marking, widths, types, and alignments in advance of the resurfacing. Traffic striping and Markings shall be recorded by type, size, color and location and accurately and neatly detailed so that striping and, markings may be identically replaced, unless otherwise noted in the drawings. This record shall be submitted for review and acceptance by the Engineer prior to any removal activity. The record shall also include the limits or changes in striping pattern, including one- and two-way barrier lines, limit lines, crosswalks and other pavement markings.

Removal of Existing Pavement Striping and Markings

Removal of traffic striping and pavement markings shall comply with the requirements of Section 84-9.03B of the State Specifications.

All existing striping and markings within the areas to be resurfaced and as directed by the Engineer shall be removed prior to placing any resurfacing. This does not apply to areas proposed for base repair.

Striping removal shall occur no sooner than two (2) calendar days prior to the pavement resurfacing. If the stripe removal is performed on a day other than the day of pavement resurfacing, the Contractor shall supply and install temporary pavement markings as detailed in these specifications. The Contractor shall be responsible for the removal of the temporary pavement markings prior to placement of the resurfacing.

All limit lines, crosswalks and legends within the project limit shall be scarified prior to resurfacing. Scarification shall be performed by grinding such that at least 75% of the underlying pavement is exposed.

Grinding material shall be removed immediately as the work progresses. Accumulation of grinding material which may constitute a hazard to traffic shall not be permitted.

Placement of Traffic Stripes and Pavement Markings

The existing striping shall be replaced with thermoplastic, as specified in these specifications and as directed by the Engineer. Unless noted elsewhere in these specifications and Plans, Traffic striping and pavement markings shall be replaced at all locations where existing traffic stripes and pavement markings are obliterated or covered as a result of asphalt resurfacing operations.

The thermoplastic material shall be applied by extrusion method in a single uniform layer. Unless otherwise noted on the plans or in these specifications, the Contractor shall replace all pavement delineation on the same alignment and location.

Reflective Pavement Markers shall conform to Section 84-2, "Traffic Stripes and Pavement Markings," of the State Standard and these specifications. All pavement markers shall be removed prior to pavement resurfacing. Pavement markers shall be applied at all locations where existing pavement markers are obliterated or removed as a result of resurfacing operations.

Unless otherwise noted on the plans or in these specifications, the Contractor shall replace all pavement markers on the same alignment and location.

Fire Hydrant Markers - Blue reflective pavement markers shall be placed in the street at 6" off of centerline and perpendicular to all fire hydrants. Markers shall be blue with two reflective faces. Contractor shall be responsible for locating all fire hydrants and layout work required for installation of blue reflective pavement markers. **Blue markers shall be referenced and installed at all fire hydrant locations within the project limits whether a reflective pavement marker was existing or not. This item shall be paid separately under Pavement Marker = Blue in the Bid Schedule.**

Traffic Striping

Contractor shall furnish and replace traffic stripes and markings in the original pattern on all roadways. Traffic Striping shall be Thermoplastic Traffic Stripe and applied in conformance with the provisions in Section 84-2, "Traffic Stripes and Pavement Markings," of the State Standard and these special provisions.

Where striping joins existing striping, the Contractor shall begin and end the transition from the existing striping pattern into or from the new striping pattern a sufficient distance to ensure continuity of the striping pattern. All existing striping within the project limits and any conflicting striping shall be removed by sand blasting or as directed by the Engineer. Contractor shall replace all striping which is obliterated or damaged during the Project.

The Contractor shall physically tie down the location of the beginning and ending of each existing stripe and marking adjacent to the work area. The Contractor shall accurately replace the existing stripes and markings by cat tracking with painted marks. Temporary tab markers shall not be placed more than twelve feet apart on curves nor more than twenty-four feet apart on straight segments. Temporary tab markers shall be the same color as the stripe they are replacing, shall measure two inches tall by 3-1/2 inches wide, and have a reflective lens across the marker width.

Upon notification by the Contractor, the City Engineer shall review and approve the equipment tracking prior to applying the permanent stripes and markings. The Contractor shall allow a minimum of three working days for City review of the equipment tracking, and permanent stripes and markings shall not be applied prior to City approval. The City may make changes to the layout after equipment tracking.
Thermoplastic material shall be free of lead and chromium, and shall conform to the requirements in California Department of Transportation,

Retroreflectivity of the thermoplastic traffic stripes and pavement markings shall conform to the requirements in ASTM Designation: D 6359-99. White thermoplastic traffic stripes and pavement markings shall have a minimum initial retroreflectivity of 250 mcd m^{-2} lx^{-1}. Yellow thermoplastic traffic stripes and pavement markings shall have a minimum initial retroreflectivity of 150 mcd m^{-2} lx^{-1}.

Thermoplastic traffic stripes shall be applied at the minimum thickness and application rate as specified below. The minimum application rate is based on a solid stripe of 4 inches in width.

Minimum Stripe Thickness (inch)	Minimum Application Rate (lb/ft)
0.079	0.27

Thermoplastic traffic stripes and pavement markings shall be free of runs, bubbles, craters, drag marks, stretch marks, and debris.

Time Limitations

Temporary Lane Delineation

The Contractor shall, upon completing slurry work, which covers or obliterates existing pavement striping, immediately place temporary striping or other delineation as approved by the Engineer along the lines of the existing striping to direct traffic until permanent striping or markers can be placed.

Final striping and pavement markings shall be complete no later than ten days after placement of slurry seal. Scheduling of raised pavement marker installation shall comply with State Standard Specifications Section Nos. 85-103B and 85-103C.

The Contractor shall place the striping and markings between seven (7) and fourteen (14) calendar days from the placement of slurry seal. The Contractor shall pay liquidated damages of $500.00 per calendar day for each street that is not completed beyond the fourteen (14) calendar days.

Measurement and Payment

The contract unit price paid per **Lump Sum (LS)** of **Traffic Striping and Pavement Marking** for the various street segments included in the Project Plan shall include full compensation for furnishing all labor, equipment and materials necessary for striping, including but not limited to the removal of existing thermoplastic and/or striping and pavement markers by approved methods as required, installation of thermoplastic and raised pavement markers as required, thermoplastic legends and striping, painting new curb to match existing, re-painting all existing curb paint markings, delineators, signs and signposts in the public right of way and private property. This work shall conform to the SSPWC, Sections 210 and 310 and no further compensation will be allowed therefore

The contract price paid per **Lump Sum (LS)** for **Pavement Marker - Blue** shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals and for doing all the work involved in removing, supplying and applying Pavement Markers, complete in place, including lead compliance, establishing alignment, and layout work, as shown on the plans, as specified in the Standard Specifications and these special provisions, and as directed by the City Engineer.

25. COLD MILL AC PAVEMENT

All Cold Milling operations shall conform to section 302-1 of the Standard Specification, the plans and these technical specifications.

Existing asphalt concrete pavement shall be cold milled (cold planed) at the locations and to the dimensions and depth shown on the Project Plans.

The outside lines of the planed area shall be neat and uniform. Planing asphalt concrete pavement operations shall be performed without damage to the pavement that is to remain in place.

Following planing operations, a drop-off of more than 0.15-foot will not be allowed at any time between adjacent lanes open to public traffic. Where transverse joints are planed in the pavement at conform lines, no drop-off shall remain between the existing pavement and the planed area when the pavement is opened to public traffic.

If asphalt concrete has not been placed to the level of existing pavement before the pavement is to be opened to public traffic a temporary asphalt concrete taper shall be constructed.

The Contractor shall place and maintain all temporary paving tapers and shall provide additional material as directed by the Engineer to maintain public safety. If it becomes necessary to remove temporary asphalt concrete tapers at some point in advance of placing permanent surfacing, the Contractor shall replace such tapers, at his expense, prior to opening the roadway to traffic.

Asphalt concrete for temporary paving tapers (cutback) shall be commercial quality and may be spread and compacted by any method that will produce a smooth riding surface. Asphalt concrete for temporary paving tapers shall be placed to the level of the existing pavement and tapered on a slope of 30:1 or flatter to the level of the planed area. All temporary paving tapers shall be completely removed and disposed of by the Contractor, including the removal of all loose material from the underlying surface, before placing the permanent surfacing.

Cold planing machines shall be equipped with a cutter head not less than 30 inches in width and shall be operated so as not to produce fumes or smoke. The cold planing machine shall be capable of planing the pavement without requiring the use of a heating device to soften the pavement during or prior to the planing operation.

Removal operations of planed material shall be concurrent with cold plane operations.

Loosened material shall be removed so that no aggregate remains on the project, and on parkway and side streets, at the end of each workday.

In the event of inclement weather where rain has been forecasted within 24 hours, the CONTRACTOR will ensure that all loosened material has been removed from the street surface, parkway, and side streets and that no debris will be discharged with storm run-off into the storm drain system.

Loaders and trucks of approved sized, type and number suitable for hauling materials shall be provided.

Wedge grinding shall be a triangular wedge of the width specified in the plans or as directed by the Engineer. Any sections of asphalt that becomes loose after wedge grinding shall be removed and disposed of by the Contractor at the Contractor’s expense.

No additional compensation shall be made for pavement grinding in excess of the width specified in these Technical Specifications and shown on the Plans unless so directed by the Engineer.

The City has made every reasonable effort to locate and mark on the plans all known metal roadway improvements such as sewer manhole covers, water valve covers, and catch basin covers, which if struck, could damage the cold milling cutting drum and/or carbide tipped cutting teeth. The City makes no guarantee that it has successfully located all said items therefore; the contractor shall thoroughly inspect the work site in advance of the cold milling operation to minimize the risk of striking any of these items.

Care shall be exercised not to damage adjacent concrete curbs or gutters. Curb or gutter damaged due to cold milling work shall be replaced as approved by the City at the Contractor's expense.

Under no circumstances shall the period of time between cold milling of existing improvements (which create an obstruction or hazard to the public) and the permanent surfacing is placed exceed **five (5) calendar days** at any one location unless approved otherwise by the Engineer or necessary to facilitate or protect work. **Planed pavement exposed for more than the time period allowed, liquidated damages of $1,000.00 per calendar day will be assessed to the Contractor for each calendar day the street is not completed as defined above. No area of pavement that has been cold milled or removed for reconstruction shall be left exposed over a weekend or holiday. Any cold milled area shall be swept prior to opening to traffic**

Measurement and Payment
Measurement & Payment for **Cold Mill AC Pavement** shall be paid on a **TON** basis, and shall include full compensation for doing all the work and shall include cold milling, haul-off and disposal of millings, and all other necessary work as directed by the Engineer, and no additional compensation will be allowed thereof.

26. PCC IMPROVEMENTS – MISCELLANEOUS CONCRETE

PCC Improvements - Miscellaneous Concrete shall conform to the provisions in Subsections 302-6 and 303-5 of the Standard Specifications, County of Riverside, and Standard Plans for Public Works Construction (SPPWC).

Miscellaneous Concrete shall include PCC sidewalks, curbs, cross gutters, *and curb ramps.*

Concrete shall be class 520-C-2500. CMB work shall conform to Sections 200-2 and 301 of the Standard Specifications. CMB shall be installed for concrete sidewalk, curb, and gutter.

PCC improvements shall include the following:

All concrete curb ramps shall be installed over a 6” thick 95% compacted CMB over 90% compacted native subgrade.

All existing concrete curb ramps shall be removed, and new concrete curb ramps shall be installed as specified in the Plans and in these Specifications. New curb ramps shall include cast-in-place detectable warning surfaces in accordance with Caltrans Standard Specifications Section 73-1.02B, Caltrans Standard Plan A88A, and the Americans with Disabilities Act (ADA). Detectable warning surfaces shall be factory-molded tiles set directly into the fresh concrete during curb ramp construction, aligned per plan, and installed to be flush with the surrounding concrete surface.

Detectable warning surfaces shall be Federal Yellow unless otherwise specified by the Engineer and shall meet the following minimum performance criteria:

- UV Resistance per ASTM G155
- Compressive Strength ≥ 28,000 psi (ASTM D695)
- Flexural Strength ≥ 30,000 psi (ASTM D790)
- Slip Resistance ≥ 0.65 wet (ANSI A137.1 DCOF)
- Water Absorption < 0.05% (ASTM D570)

Concrete flatwork, including base and/or subgrade material under the concrete flatwork, shall be removed to accommodate the new improvements. Concrete removal shall be completed in such a manner so that the surfacing which is to remain in place is not damaged. Where no joint exists between concrete to be removed and concrete to remain in place, the concrete shall be removed to the nearest deep joint or score line as approved by the Engineer. Where concrete to be removed is adjacent to concrete to remain, concrete shall be cut in a neat line with a power-driven saw before concrete is removed.

Whenever a part of a square or slab of existing concrete curb, gutter, or sidewalk that is to remain in place is broken or damaged during removal of adjacent concrete, the entire section or slab shall be removed to the nearest score or deep joint and replaced at the Contractor's expense.

Roots that are damaging adjacent concrete improvements will need to be pruned. The depth of root cutting shall be 12" along the sidewalk and driveway. A rotary pruner is required for this work. Prior to any root pruning, the City Inspector shall be notified a minimum of 24 hours in advance. Coordination with the City's Arborist may be required for roots near the tree trunk or greater than 1 inch in diameter.

The Contractor shall submit a cut sheet of the detectable warning surface, installation details, and warranty information to the City Engineer for approval, prior to the start of construction. All concrete work shall be completed prior to cold milling and overlay operations.

Measurement and Payment

Payment for PCC Improvements – Miscellaneous Concrete shall be at the various unit bid prices as listed in the Bid Schedule and shall include, but not be limited to: Type A-6 Curb and Gutter, 4" Sidewalk, Median Curb Type D-1, Cross Gutter, Commercial Driveway, *and Curb Ramp.*

The contract unit price shall include full compensation for conforming to the requirements of PCC Improvements and associated CMB thickness for each item and shall include furnishing all labor, materials, tools, equipment, and incidentals, including excavation, backfilling, compacting, removal of materials off-site, and for doing all work involved for installing PCC, CMB, slot patch, and other associated items as shown on the project plans and in these Technical Specifications, complete in place, and no additional compensation will be allowed therefor.

Measurement for PCC Curb Ramp shall be for EACH ramp installation and shall include the following: grading, compaction of subgrade, slot patch, construction of curb ramp including cast-in-place detectable warning surface, and construction of sidewalk adjacent to ramp and curb and gutter from beginning of curb return to end of curb return.

Payment for root pruning adjacent to proposed concrete improvements shall be considered as included in the prices paid for REMOVE AND REPLACE 4" THICK CONCRETE SIDEWALK and no additional compensation will be made therefor.

27. REMOVE AND REPLACE CURB OR CURB & GUTTER

This bid item includes removal and disposal of existing material and the installation and compaction of CAB underneath all segments of new curb or curb and gutter and adjacent pavement to match structural section of street.

Prior to removal, contractor shall field verify the join limits to ensure there will be positive fall between the removal limits and bring to the City's attention any locations that will not drain properly. Limits shall be adjusted per field conditions to ensure positive drainage is achieved on all new curb & gutter.

Curb or Curb and Gutter Removal and Replacements shall match the existing curb height and gutter width for the adjoining segments. This item also includes forming and pouring any portion of depressed curbs at driveways that fall within the removal and replacement limits.

Prior to placement of these improvements, contractor shall grind or prune all obstructing roots if present and per the root pruning specifications.

Prior to acceptance of any curb and gutter, the Contractor shall water flow test each segment of curb and gutter to ensure that ponding of water does not occur within the limits of new construction.

A sidewalk ½-inch radius edging tool is be used to finish the edges of all curbs.

Curb and gutter constructed in conjunction with or as a result of new curb ramp, alley approach or cross gutter construction limits shall not be included as part of this bid item. All such curb and gutter shall be included in the unit price for the respective bid items and no further compensation will be allowed.

Measurement and Payment

Measurement & Payment **for Remove and Replace Curb or Curb & Gutter** shall be on a **Linear Foot (LF)** basis and shall include furnishing all labor, equipment, tools and materials necessary for the removal of existing and construction of new curb/curb & gutter including coordinating with the City Inspector to verify locations and limits, removals, preparation of subgrade, installation of base, construction of work item, finishing and protection of the work item and no further compensation will be allowed therefore.

28. REMOVE AND REPLACE SIDEWALK

Concrete sidewalk shall be constructed to the line, grades and designs shown on the plans or as ordered by the Engineer. Existing surfaces to be joined shall be sawcut on a neat, straight line at the join location. Any and all gas or water meter boxes falling within the limits of sidewalk

construction shall be adjusted to the finished grade of the new sidewalk as part of this work item unless specifically called out as a separate work item on the plans.

Sidewalk score lines shall have a minimum finished depth of ½-inch. Walkway replacement needed to join new sidewalk shall be in-kind (surface texture, aggregate, finish, etc.) to the walkway removed or as directed by the Engineer's representative.

A sidewalk ½-inch radius edging tool is be used to finish the edges of all curbs.

Limited infill and compaction of suitable base material will be required under certain portions of sidewalk. Contractor shall include the cost of material, labor and compaction of such material in the unit price per bid.

The contractor shall verify existing grades in order to ensure full ADA compliance

Any appurtenant PCC Improvement constructed as part of this project and not included with a unit price bid quote or otherwise covered for payment herein shall be paid at the unit price for Sidewalk per square foot prorated to reflect the true amount of PCC material being constructed, as approved by the Engineer's Representative. The prorated unit price bid for the appurtenant PCC improvement shall include all costs of subgrade preparation, and the excavation, furnishing and compacting of backfill material and no additional compensation will be allowed therefore.

Measurement and Payment
Measurement & Payment for **Remove & Replace Sidewalk, Construct Sidewalk** shall be on a **Square Foot (SF)** basis and shall include furnishing all labor, equipment, tools and materials necessary for the item of work including removal and disposal of existing improvements and materials, construction of new sidewalk including coordinating with the City Inspector to verify locations and limits, removals, preparation of subgrade, construction of work item, adjustment of miscellaneous parkway items found within the limits of construction, finishing and protection of the work item and no further compensation will be allowed therefore. Measurement of this bid item shall not include the area of any planter areas, and shall only include the actual PCC surface area as measured in the plan view.

29. REMOVE AND REPLACE CROSS GUTTER

It shall be the contractor’s responsibility to verify the limits of construction with the City inspector for each of the cross gutters. Construction of the cross gutter shall be per the project plans and the referenced Riverside County Standard Plans and any applicable details.

Construction of the cross gutter shall include the monolithic curb and gutter. Where a new curb ramp is proposed adjacent to the cross gutter, the curb and gutter shall be paid for as part of the curb ramp bid item, and the appropriate square footage shall be deducted from the total area of the cross gutter.

All removal and replacement cross gutters locations shall be constructed to existing join elevations. The contractor shall document the existing relative elevations and grades at the join locations as well as key elevation points. The Contractor shall ensure that positive drainage is achieved between

the join locations of construction.

All concrete for cross gutters shall be high-early strength concrete as defined in the General portion of the concrete improvements specification. High-early strength concrete shall achieve a compressive strength of 2,500 psi within 48 hours of pouring and at least 5,000 psi after 28 days.

All intersections with cross gutters shall be opened to traffic at the close of each day. Adequate ramping or plating of the cross gutter location during the removal and grading phase shall be required based on the Engineers direction. Plating of the cross gutter during curing phase shall be required in order to maintain traffic through the intersection at all times.

2' minimum width sawcut, removal and full depth slot paving with CAB shall be required adjacent to all sides of the cross gutter.

The contractor shall verify existing grades in order to ensure full ADA compliance.

Measurement and Payment
Measurement & Payment **for Remove & Replace Cross Gutter** shall be on a **Square Foot (SF)** basis and shall include furnishing all labor, equipment, tools and materials necessary for the item of work including removal of existing improvements and materials, construction of new cross gutter including coordinating with the City Inspector to verify locations, configuration and limits, surveying and staking, removals, preparation of subgrade, temporary ramping, slot paving, construction of work item, high early strength concrete, adjustment of miscellaneous utility items found within the limits of construction, finishing, plating, and protection of the work item and no further compensation will be allowed therefore. Measurement of this bid item shall not include the area of any adjacent slot paving and only includes the area bound by new PCC surface as measured in the plan view.

30. REMOVE AND RECONSTRUCT CURB RAMPS

Concrete Curb Ramps shall be per SPPWC Standard Plan 111-5 and County of Riverside's Standard No. 403, refer to Exhibit E, case and type per plans. Concrete shall be Class 560-C-3250.

The geometry shown on the plans is representational. The final limits and geometry of the required curb ramp shall be verified and placed in the field by the contractor in order to ensure the required grades and clearances are obtained.

Curb and Gutter Shall be included in the limits of the Curb Ramp which includes the sawcutting and full AC reconstruction of a 3' wide (slot pavement with 2-sack PCC slurry) portion of AC pavement adjacent to the curb and gutter or as required to achieve the required 5% maximum grade for 4' adjacent to the curb face. A minimum of a 3' saw cut and pavement replacement will be required in all areas of curb return replacements adjacent to existing pavement. In locations for a 3' slot pave with 2-sack PCC slurry is inadequate at achieving the required 5% maximum grade and would create adverse driving conditions for the 1' transition, each location shall be individually documented in the construction project files justifying the reason for non-compliance.

The proposed pavement section shall be full depth asphalt paving to match the existing pavement section thickness.

Construction of any necessary retaining curbs at the back of ramp or wings of the ramp are included as part of this bid item. The contractor shall install retaining curbs within the ramps to ensure that the constructed ramp is fully ADA compliant while joining existing grades at the back of walk/ramp.

When curb ramp removal and installation is adjacent to PCC cross gutters that are not abandoned/buried then the concrete shall be sawcut 4" off the existing curb face, and the new concrete shall be doweled and epoxied into the existing cross gutter spandrel at 12" on center using 18" #4 bars.

All work within the 1' rumble strip at grade breaks of the sidewalk shall be considered as part of the curb ramp. All work past the 1' rumble strip, which has been approved by the engineer, shall be considered as extra sidewalk or curb and gutter items and will be paid for per the respective unit price.

Existing surfaces to be joined shall be sawcut on a neat, straight line at the join location. All sawcut locations along existing cross gutters shall be cut in a curve conforming to the existing curb return and shall be cut at a set offset from the flow line as approved by the City Engineer. The flow line shall be maintained, ensuring that ponding does not occur in the existing cross gutter.

Any and all Traffic Signals, or pedestrian push button poles, traffic signal poles and other surface mounted appurtenances shall be protected in place and/or re-attached as part of this bid item.

All pull boxes within curb ramp limits shall also be adjusted to the finished grade of the new curb ramp and shall be paid for per the unit price for each respective bid item. All water or gas valve can and lids within curb ramp limits shall also be adjusted to the finished grade of the new curb ramp and shall be paid for per the unit price for each respective bid item.

The City Engineer shall have final say regarding the case and type of curb ramp to be installed and shall retain the right to revise the ramp designation at any point prior to construction. The contractor shall verify existing grades in order to ensure full ADA compliance.

Curb ramps shall be constructed with cast-in-place detectable warning surfacing in accordance with Caltrans Standard Specifications Section 73-1.02B, Caltrans Standard Plan A88A, and the Americans with Disabilities Act (ADA). Detectable warning surfaces shall be factory-molded tiles set directly into the fresh concrete during curb ramp construction, aligned per plan, and installed to be flush with the surrounding concrete surface.

Detectable warning surfaces shall be Federal Yellow unless otherwise specified by the Engineer and shall meet the following minimum performance criteria:

• UV Resistance per ASTM G155

• Compressive Strength ≥ 28,000 psi (ASTM D695)

• Flexural Strength ≥ 30,000 psi (ASTM D790)

• Slip Resistance ≥ 0.65 wet (ANSI A137.1 DCOF)

• Water Absorption < 0.05% (ASTM D570)

The Contractor shall submit a cut sheet of the detectable warning surface, installation details, and warranty information to the City Engineer for approval, prior to the start of construction.

The Contractor shall install panels in accordance with manufacturer's recommendations. The cost of installing detectable warning surfaces on new ramps shall be included in the cost of the curb ramp.

Retrofitting detectable warning surfaces on existing ramp or walkway surfaces shall be paid for as part of their respective bid items as outlined in "RETROFIT TRUNCATED DOMES ON EXISTING SURFACES" of these Special Provisions.

Measurement and Payment

Measurement & Payment for **Remove & Reconstruct Curb Ramp** shall be on an **Each Item (EA)** basis and shall include furnishing all labor, equipment, tools and materials necessary for the item of work including removal of existing improvements and materials, construction of new curb ramp, including coordinating with the City Inspector to verify case & type, configuration and limits, removals, preparation of subgrade, temporary ramping, construction of work item, slot paving, construction of monolithic retaining curbs, adjustment of miscellaneous utility items found within the limits of construction, installation of detectable warning surfaces, finishing, and protection of the work item and no further compensation will be allowed therefore.

31. RETROFIT TRUNCATED DOMES ON EXISTING SURFACES

Detectable warning surfaces shall be installed on existing curb ramp surfaces at the locations indicated on the plans or as directed by the Engineer. Detectable warning surfaces shall conform to the provisions of the State Standard Construction Specifications, Section 73-1.02B "Detectable Warning Surface."

The detectable warning surface shall be surface-applied and replaceable, using Access® Tile Surface Applied - Replaceable (SA) or approved equal. The panels shall be constructed of a vitrified polymer composite (VPC) and designed for surface application using both adhesive and mechanical fasteners in accordance with the manufacturer's recommendations.

The detectable warning surface panels shall be 4 feet wide by 3 feet deep, and Federal Yellow in color (unless otherwise directed by the Engineer). Panels shall feature factory-molded truncated domes and beveled perimeter edges, and shall conform to all applicable accessibility standards including the Americans with Disabilities Act (ADA), California Title 24, and Caltrans Standard Plans A88A.

Detectable Warning Surface panels shall meet or exceed the following performance criteria:
• Compressive Strength: ASTM D695 ≥ 28,000 psi
• Flexural Strength: ASTM D790 ≥ 30,000 psi
• Slip Resistance: ASTM C1028 or ANSI A137.1 DCOF ≥ 0.65 wet
• Water Absorption: ASTM D570 < 0.05%
• UV Resistance: ASTM G155 – no significant degradation or color fading
• Dome geometry and spacing shall comply with Caltrans Standard Plan A88A

The detectable warning surface shall be installed on clean, dry, structurally sound existing concrete surfaces. The Contractor shall apply manufacturer-specified adhesive and install the panels using stainless-steel mechanical fasteners at the designated locations. Panels shall be installed flush with surrounding surfaces and properly aligned per plan and Caltrans standards.

On all ramps to be retrofitted with a truncated dome, if an existing lip exists as the bottom of the ramp adjacent to the flowline, the Contractor shall grind the existing curb ramp lip to achieve a 0" curb face. The grind shall be tapered at the edge of the ramp surface, as appropriate, to avoid creating a sharp elevation drop-off and shall be 0" to ½" deep and shall be at least 6" wide in a straight-line-grade. Grades within the grind area shall also be limited to 8.33%. The price of grinding the lip shall be included in the unit price for retrofitting the existing curb ramp.

The detectable warning surface shall be installed in accordance with the manufacturer's recommendations and instructions; and the manufacturer shall provide a minimum 5-year warranty. The warranty period shall commence on the date of acceptance.

The Contractor shall submit a cut sheet of the detectable warning surface, installation details, and warranty information to the City Engineer for approval, prior to the start of construction.

Measurement and Payment
The contract unit price paid for **Each (EA)** for **Retrofit Truncated Domes on Existing Surfaces** shall include full compensation for furnishing all labor, equipment, tools and materials necessary for the item of work including surface preparations, coordinating with the City Inspector to verify limits of grinding, grinding the existing lip, removal and disposal of debris, dust control, cutting and configuration of the truncated domes (as required), installation of the truncated domes per manufacturers recommendations, protection of the work item and no further compensation will be allowed therefore.

32. ASPHALT CONCRETE (AC) CONSTRUCTION

All asphalt concrete pavement shall conform to Subsection 203-6, "Asphalt Concrete" of the Standard Specifications and all asphalt concrete pavement shall be constructed in accordance with Subsection 302-5, "Asphalt Concrete Pavement" of the Standard Specifications as modified herein, and to the lines and grades indicated in the project plans.

A minimum of five (5) working days prior to the paving operation, as outlined on the Contractor's approved construction schedule, the CONTRACTOR shall furnish to the City reports from the supplier certifying that the asphalt pavement materials and proportions comply with the designated classifications for asphalt concrete pavement as required herein, or as directed by the Engineer.

Prime Coat will not be required on this project. Tack Coat shall be required and uniformly

applied to existing hard-surfaced pavement including the vertical portions of all A.C. and P.C.C. surfaces to be joined. Tack coat shall be Grade SS-1h emulsified asphalt applied at 0.10 gal/yd^2.

Three-inch and greater thickness pavement shall be laid in two courses. The asphalt concrete pavement shall conform to the following specifications:

Applicability	Asphalt Type
6" Base AC Pavement:	B2-PG 64-10
1" to 5" Wedge AC Pavement	C2-PG 64-10
1" to 3" Leveling AC Pavement	C2-PG 64-10
1.5" Finish AC Pavement	C2-PG 64-10
0.75" Leveling AC Pavement	D2-PG 64-10

The provisions of Section 301-1, "Subgrade Preparation", Section 302-5, "Asphalt Concrete Pavement", and Section 203-6, "Asphalt Concrete", of the Standard Specifications, shall apply to asphalt pavement except as modified and supplemented below:

COMPACTION TEST - The Contractor, at his expense, shall perform compaction tests on the subgrade for the roadway pavement areas.

Compaction tests of the subgrade which do not meet the specified requirements shall be reworked at the Contractor's expense and re-tested. All re-tests shall be at the Contractor's expense.

The Contractor's attention is directed to the possible existence of underground improvements which may not be shown on the plans. All reasonable precautions shall be taken to preserve and protect any such improvements whether shown on the plans or not. Where it is necessary to remove and replace or to relocate such improvements in order to execute the work, they shall be removed, maintained, and permanently replaced at no expense to the City.

Subsection 302-5.6, "Rolling": The following is hereby added to the first paragraph:

Rolling along a joint shall be such that the widest part of the roller is on the hot side of the joint. Rubber tire roller shall be used on any leveling course.

Subsection 302-5.7, "Joints": The following is hereby added to the first paragraph: Joint lines between successive runs shall be on lane lines.
Subsection 302-5.5, "Distribution and Spreading", of the Standard Specifications is supplemented and amended by the following:

Unless approved by the City Engineer, the CONTRACTOR will not be allowed to deposit the A.C. material from bottom dump trucks into a windrow then pick up said material and convey it into the paving machine by an elevating device. All areas shall be paved by depositing the A.C. material from delivery trucks directly into the paving machine hopper.

In addition to the requirements in Subsection 302-5.5 of the Standard Specifications, asphalt concrete shall be placed with spreading equipment equipped with fully automated screed and grade sensing controls, which shall control the longitudinal grade of the screed.

The AC Pavement shall not be placed when the atmospheric temperature is below 60 degrees Fahrenheit, or during unsuitable weather.

Unless otherwise approved by the City Engineer, all AC pavement shall be placed with a self-propelled paving machine equipped with devices for use in obtaining the most constant longitudinal grade, cross-slope grade, and maximum joint quality.

Prior to placement of the AC pavement, the Contractor shall set reference points as necessary in order that all utility valves, manholes, and vaults may be located after pavement placement. The Contractor shall cover the utilities prior to pavement placement to keep the lids clean. Care shall be taken during rolling operations not to damage the utilities. After the final pavement rolling, the Contractor shall remove any loose asphalt that may have entered the utilities during the paving operations. The Contractor shall provide all labor, materials, and equipment necessary for adjusting all utilities (unless otherwise noted) to finished grade.

Where existing AC pavement is being removed and replaced, or initially constructed, adjacent to improvements (i.e., asphalt concrete pavement, P.C.C. flatwork, AC dikes, etc.), the existing improvements shall be neatly sawcut prior to any removal, unless otherwise approved by the City Engineer. The new improvements shall then be neatly constructed and secured in place, to the satisfaction of the City Engineer, prior to acceptance of the Item of Work.

Bituminous pavement to be removed shall be removed to neatly sawed edges conforming to the limits as shown on the Plans, unless otherwise approved by the Engineer. These edges shall be preserved during intermediate operations so as to present a straight, firm and unyielding edge against which paving asphalt may be subsequently jointed and compacted. Should the Contractor fail to maintain said edge, corrections shall be made by additional cutting, as directed by the Engineer.

Certified quantity tickets for the asphalt concrete shall be submitted to the City Inspector on the job site as the material is delivered and signed, so as to certify delivery and acceptance. Any material for which quantity tickets are not submitted as the material is delivered, will not be accepted.

Measurement and Payment
Measurement & Payment for **Asphalt Concrete (AC) Construction**, complete in place, shall be on a **TON** basis. Certified weigh tickets shall be submitted to the Engineer for all asphalt concrete pavement incorporated into the work. The unit price for asphalt concrete pavement shall include full compensation for furnishing all materials, labor, tools, equipment, transportation and incidentals required to construct the pavement in accordance with the plans, these Special Provisions and the Standard Specifications and no additional compensation will be allowed thereof.

33. ADJUST WATER VALVE FRAME AND COVER TO GRADE

The Contractor shall adjust the existing water valve frame and cover to grade at the locations shown on the plans. Valve box and cover shall be adjusted after finish grade has been established. The

Contractor shall make sure that the valve cans are free from debris and lift cans are properly in place.

The Contractor shall notify at least two working days prior and coordinate the water valve frame and cover adjustment work with and to the satisfaction of Jurupa Community Service District's Water Division. Valve box and cover shall be adjusted after finish grade has been established. The Contractor shall make sure that the valve cans are free from debris and lift cans are properly in place.

Measurement and Payment
Payment for **ADJUST WATER VALVE FRAME AND COVER TO GRADE** shall be at the unit price bid per **EACH (EA)**. The contract unit price shall include full compensation for furnishing labor, tools, equipment, and materials necessary for doing the work, complete in place, and no additional compensation will be allowed.

34. TRAFFIC LOOP DETECTORS

Traffic Loop Detectors shall conform to Types E per Caltrans Standard Plans and as noted in the project plans.

Loops shall be installed after the paving operations are complete. Loop wire shall be installed on the same day in which the loop slots are cut. This shall include placement of the loop conductors and all associated runs and sealant.

The Contractor shall provide 48 hours notification to the City when cold milling operations will remove existing loops. The Contractor shall provide a schedule to the Engineer detailing the number of working days the loops will not be operational.

Measurement and Payment
Measurement and payment for **Traffic Loop Detector** shall be at the unit price bid per **Each (EA)** and shall include full compensation for furnishing labor, tools, equipment, and materials necessary for doing the work, complete in place, as shown on the plans, as specified in the Standard Specifications and these Technical Specifications, and as directed by the Engineer, and no additional compensation will be allowed.

35. SIDEWALK GRINDING

Sidewalk joints and cracks with vertical offsets between 3/8 inch and 1-1/2 inches shall be ground until level with the surrounding sidewalk. The maximum taper of ground areas shall conform to the Americans with Disabilities Act (ADA) requirements and not exceed 8.33% in the direction of travel. The minimum width of grind shall be 6". Grinding work shall include defects running perpendicular to the direction of pedestrian travel; parallel to the direction of travel (primarily at driveways); and those areas at the sidewalk return where the sidewalk is raised above the curb. At locations where the sidewalk is sunken in relation to the top of the curb, between 3/8 inch and 3/4 inch, the top of the curb shall be ground. Where the sidewalk is raised 3/8 inch to 1-1/2 inches in relation to the curb return, the sidewalk shall be ground. The city will mark limits of grinding work in advance of the actual repairs. Offsets shall be ground to produce a smooth nonskid surface closely resembling the appearance of the adjacent concrete. The finish shall approximate a transverse broomed surface texture. The ground taper shall have a "squared off" geometric shape with straight borders. Sharp edges left by the grinding operations shall be smoothed. Grinding shall be performed so that the sidewalk surface has essentially the same or slightly rougher texture adjacent to either side of the joint or crack. Ground surfaces shall not be smooth. Grinding shall be performed so that the finish grind

has a rectangular appearance consisting of straight back line with no stray grinding marks. The adjacent concrete shall remain untouched by the grinding process without scar or damage.

The Contractor shall demonstrate the sidewalk grinding operation and resulting finish and appearance at three test sites chosen by the Engineer. Should the Engineer deem the quality of the taper to be unacceptable, the Contractor shall modify his methods and/or equipment and proceed to an additional two test sites. This sequence shall be repeated until the acceptable quality is achieved. Approval of the test results shall be obtained prior to the commencement of the full-scale grinding operation. Only the methods and equipment that produce acceptable results shall be employed on the project. Areas inaccessible to the grinding machine shall be ground with a handheld grinder. The contractor shall use best management practices to prevent dust from leaving the project site.

Measurement and Payment
Payment for **Sidewalk Grinding** shall be at the price bid per **Linear Foot (LF)** and shall be considered full compensation for furnishing all materials, labor, incidentals, and equipment for all work involved, as described herein. No changes to payment will be made in regard to of the height of the grind.

36. UNTREATED BASE

Untreated Base shall conform to the requirements of Subsection 200-2.2, "Crushed Aggregate Base," or Subsection 200-2.4, "Crushed Miscellaneous Base," and be constructed in accordance with Subsection 301-2, "Untreated Base" of the Standard Specifications and these Technical Provisions.

Add to Subsection 200-2.4.1, "General" of the Standard Specifications the following:

Brick shall not be used in crushed miscellaneous base. If any detrimental material or deleterious substance is found; it shall be cause for rejection and be removed from the site.

Add to Subsection 200-2.4.2, "Grading" of the Standard Specifications the following:

Grading or blending of the material shall be done through a screening process.

Add to Subsection 301-2.1, "General," of the Standard Specifications the following: Untreated base material shall be either crushed aggregate base as specified in Subsection 200-2.2 or crushed miscellaneous base as specified in Subsection 200-2.4.

Measurement and Payment
The contract unit price paid per **TON of Untreated Base** (CAB OR CMB per Bid Schedule) shall include full compensation for placement Untreated Base including furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved as specified on the Plans and in the Standard Specifications, these Technical Specifications, and as directed by the City Engineer.

SECTION E. SAMPLE CONTRACT AGREEMENT

BETWEEN
THE CITY OF EASTVALE
AND

_____

This Agreement for Construction Services ("Agreement"), is made and entered into this ___ day of _____, 20 __, by and between the City of Eastvale, a California general municipal corporation organized under the laws of the State of California with its principal place of business at 12363 Limonite Ave., Suite 910, Eastvale, California ("City") and _____, a California (partnership, limited partnership, corporation, etc.) ("Contractor").

SECTION 1. RECITALS

A. City is a municipal corporation organized under the laws of the State of California, with power to contract for services necessary to achieve its purpose.

B. Contractor is a professional contractor, experienced in providing pavement rehabilitation and overlay services and is familiar with the plans of the City.

C. City desires to engage Contractor to construct public improvements associated with the **Project #94001-2025 Residential Slurry Seal Project** as set forth herein

D. Contractor has obtained, and delivers concurrently herewith, **[INSERT APPLICABLE PERFORMANCE BOND, PAYMENT BOND, INSURANCE DOCUMENTS AND OTHER CERTIFICATIONS**] as required by the Contract.

SECTION 2. INCORPORATION OF DOCUMENTS

This Contract includes and hereby incorporates in full by reference the following documents, including all exhibits, drawings, specifications and documents therein, and attachments and addenda thereto: **[INSERT APPLICABLE DOCUMENTS].**

SECTION 3. SCOPE OF WORK

A. Contractor's Basic Obligation; Scope of Work. Contractor promises and agrees, at its own cost and expense, to furnish to the Owner all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately complete the **Project #94001-2025 Residential Slurry Seal Project**, including all structures and facilities necessary for the Project or described in the Contract (hereinafter the "Work" or "Project"), for a Total Contract Price as specified pursuant to this Contract. All Work shall be subject to, and performed in accordance with the above referenced documents, as well as the exhibits attached hereto and incorporated herein by reference. The plans and specifications for the Work are further described in the Exhibits attached hereto and incorporated herein by this reference. Special conditions, if any, relating to the Work are described in the Exhibits attached hereto and incorporated herein by this reference.

B. Change in Scope of Work Any change in the scope of the Work, method of performance, nature of materials or price thereof, or any other matter materially affecting the performance or nature of the Work shall not be paid for or accepted unless such change, addition or deletion is approved in advance and in writing by a valid change order executed by the City.

SECTION 4. PERIOD OF PERFORMANCE AND LIQUIDATED DAMAGES

Contractor shall perform and complete all Work under this Contract within XX **working days**, beginning the effective date of the Notice to Proceed ("Contract Time"). Contractor shall perform its Work in strict accordance with any completion schedule, construction schedule or project milestones developed by the City. Contractor agrees that if such Work is not completed within the aforementioned Contract Time and/or pursuant to any such completion schedule, construction schedule or project milestones developed pursuant to provisions of the Contract, it is understood, acknowledged and agreed that the City will suffer damage. Since it is impractical and infeasible to determine the amount of actual damage, it is agreed that the Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **XXXXX Dollars ($XXX) per day** for each and every calendar day of delay beyond the Contract Time or beyond any completion schedule, construction schedule or Project milestones established pursuant to the Contract.

SECTION 5. STANDARD OF PERFORMANCE

Contractor shall perform all Work under this Contract in a skillful and workmanlike manner, and consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Work. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Work assigned to them. Finally, Contractor represents that it, its employees and its subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Work, and that such licenses and approvals shall be maintained throughout the term of this Contract. Any employee who is determined by the City to be uncooperative, incompetent, a threat to the safety of persons or the Work, or any employee who fails or refuses to perform the Work in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed on the Work.

SECTION 6. CONTROL AND PAYMENT OF SUBORDINATES; CONTRACTUAL RELATIONSHIP

City retains Contractor on an independent contractor basis and Contractor is not an employee of City. Any additional personnel performing the work governed by this Contract on behalf of Contractor shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance under this Contract and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, and workers' compensation insurance.

SECTION 7. CITY'S BASIC OBLIGATION

City agrees to engage and does hereby engage Contractor as an independent contractor to furnish all materials and to perform all Work according to the terms and conditions herein contained for the sum set forth above. Except as otherwise provided in the Contract, the City shall pay to Contractor, as full consideration for the satisfactory performance by the Contractor of the services and obligations required by this Contract, the above referenced compensation in accordance with

compensation provisions set forth in the Contract.

SECTION 8. COMPENSATION AND PAYMENT

A. Amount of Compensation. As consideration for performance of the Work required herein, City agrees to pay Contractor the Total Contract Price of **[INSERT DOLLARS]** Dollars and **[INSERT CENTS]** Cents ($_____) ("Total Contract Price") provided that such amount shall be subject to adjustment pursuant to the applicable terms of this Contract or written change orders approved and signed in advance by the City.

B. Payment of Compensation. If the Work is scheduled for completion in thirty (30) or less calendar days, City will arrange for payment of the Total Contract Price upon completion and approval by City of the Work. If the Work is scheduled for completion in more than thirty (30) calendar days, City will pay Contractor on a monthly basis as provided for herein. On or before the fifth (5th) day of each month, Contractor shall submit to the City an itemized application for payment in the format supplied by the City indicating the amount of Work completed since commencement of the Work or since the last progress payment. These applications shall be supported by evidence which is required by this Contract and such other documentation as the City may require. The Contractor shall certify that the Work for which payment is requested has been done and that the materials listed are stored where indicated. Contractor may be required to furnish a detailed schedule of values upon request of the City and in such detail and form as the City shall request, showing the quantities, unit prices, overhead, profit, and all other expenses involved in order to provide a basis for determining the amount of progress payments.

City shall review and pay all progress payment requests in accordance with the provisions set forth in Section 20104.50 of the California Public Contract Code. No progress payments will be made for Work not completed in accordance with this Contract.

SECTION 9. CONTRACT RETENTIONS

From each approved progress estimate, five percent (5%) will be deducted and retained by the City, and the remainder will be paid to Contractor. All Contract retainage shall be released and paid to the Contractor and subcontractors pursuant to California Public Contract Code Section 7107.

SECTION 10. OTHER RETENTIONS

In addition to Contract retentions, the City may deduct from each progress payment an amount necessary to protect City from loss because of: (1) liquidated damages which have accrued as of the date of the application for payment; (2) any sums expended by the City in performing any of Contractor's obligations under the Contract which Contractor has failed to perform or has performed inadequately; (3) defective Work not remedied; (4) stop notices as allowed by state law; (5) reasonable doubt that the Work can be completed for the unpaid balance of the Total Contract Price or within the scheduled completion date; (6) unsatisfactory prosecution of the Work by Contractor; (7) unauthorized deviations from the Contract; (8) failure of the Contractor to maintain or submit on a timely basis, proper and sufficient documentation as required by the Contract or by City during the prosecution of the Work; (9) erroneous or false estimates by the Contractor of the value of the Work performed; (10) any sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Contract; and (11) any other sums which the City is entitled to recover from Contractor under the terms of the Contract or pursuant to state law, including Section 1727 of the California Labor Code. The failure

by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

SECTION 11. SUBSTITUTIONS FOR CONTRACT RETENTIONS

In accordance with California Public Contract Code Section 22300, the City will permit the substitution of securities for any monies withheld by the City to ensure performance under the Contract. At the request and expense of the Contractor, securities equivalent to the amount withheld shall be deposited with the City, or with a state or federally chartered bank in California as the escrow agent, and thereafter the City shall then pay such monies to the Contractor as they come due. Upon satisfactory completion of the Contract, the securities shall be returned to the Contractor. For purposes of this Section and Section 22300 of the Public Contract Code, the term "satisfactory completion of the contract" shall mean the time the City has issued written final acceptance of the Work and filed a Notice of Completion as required by law and provisions of this Contract. The Contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. The escrow agreement used for the purposes of this Section shall be in the form provided by the City.

SECTION 12. PAYMENT TO SUBCONTRACTORS

Contractor shall pay all subcontractors for and on account of work performed by such subcontractors in accordance with the terms of their respective subcontracts and as provided for in Section 10262 of the California Public Contract Code. Such payments to subcontractors shall be based on the measurements and estimates made and progress payments provided to Contractor pursuant to this Contract.

SECTION 13. TITLE TO WORK

As security for partial, progress, or other payments, title to Work for which such payments are made shall pass to the City at the time of payment. To the extent that title has not previously been vested in the City by reason of payments, full title shall pass to the City at delivery of the Work at the destination and time specified in this Contract. Such transferred title shall in each case be good, and free and clear from any and all security interests, liens, or other encumbrances. Contractor promises and agrees that it will not pledge, hypothecate, or otherwise encumber the items in any manner that would result in any lien, security interest, charge, or claim upon or against said items. Such transfer of title shall not imply acceptance by the City, nor relieve Contractor from the responsibility to strictly comply with the Contract, and shall not relieve Contractor of responsibility for any loss of or damage to items.

SECTION 14. DISPUTE RESOLUTION

Any separate demand by Contractor for the payment of money or damages shall be resolved in accordance with Public Contract Code Sections 20104 et seq., if applicable.

SECTION 15. TERMINATION

This Contract may be terminated by City at any time by giving Contractor three (3) days advance written notice. In the event of termination by City for any reason other than the fault of Contractor, City shall pay Contractor for all Work performed up to that time as provided herein. In the event of breach of the Contract by Contractor, City may terminate the Contract immediately without notice, may reduce payment to the Contractor in the amount necessary to offset City's resulting damages, and may pursue any other available recourse against Contractor. Contractor may not terminate this Contract except for cause.

In the event this Contract is terminated in whole or in part as provided, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated. Further, if this Contract is terminated as provided, City may require Contractor to provide all finished or unfinished documents, data, diagrams, drawings, materials or other matter prepared or built by Contractor in connection with its performance of this Contract.

SECTION 16. COMPLETION OF WORK

When the Contractor determines that it has completed the Work required herein, Contractor shall so notify City in writing and shall furnish all labor and material releases required by this Contract. City shall thereupon inspect the Work. If the Work is not acceptable to the City, the City shall indicate to Contractor in writing the specific portions or items of Work which are unsatisfactory or incomplete. Once Contractor determines that it has completed the incomplete or unsatisfactory Work, Contractor may request a re-inspection by the City. Once the Work is acceptable to City, City shall pay to Contractor the Total Contract Price remaining to be paid, less any amount which City may be authorized or directed by law to retain. Payment of retention proceeds due to Contractor shall be made in accordance with Section 7107 of the California Public Contract Code.

SECTION 17. CITY'S REPRESENTATIVE

The City hereby designates the **City Engineer**, or his or her designee, to act as its representative for the performance of this Contract ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Contract. Contractor shall not accept direction or orders from any person other than the City's Representative or his or here designee.

SECTION 18. CONTRACTOR'S REPRESENTATIVE

Before starting the Work, Contractor shall submit in writing the name, qualifications and experience of its proposed representative who shall be subject to the review and approval of the City ("Contractor's Representative"). Following approval by the City, the Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Contract. The Contractor's Representative shall supervise and direct the Work, using his best skill and attention, and shall be responsible for all construction means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Work under this Contract. Contractor's Representative shall devote full time to the Project and either he or his designee, who shall be acceptable to the City, shall be present at the Work site at all times that any Work is in progress and at any time that any employee or subcontractor of Contractor is present at the Work site. Arrangements for responsible supervision, acceptable to the City, shall be made for emergency Work which may be required. Should Contractor desire to change its Contractor's Representative, Contractor shall provide the information specified above and obtain the City's written approval.

SECTION 19. CONTRACT INTERPRETATION

Should any question arise regarding the meaning or import of any of the provisions of this Contract or written or oral instructions from City, the matter shall be referred to City's Representative, whose decision shall be binding upon Contractor.

SECTION 20. LOSS AND DAMAGE

Contractor shall be responsible for all loss and damage which may arise out of the nature of the

Work agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Work until the same is fully completed and accepted by City. However, Contractor shall be responsible for damage proximately caused by Acts of God, within the meaning of Section 4150 of the Government Code, only to the extent of five percent (5%) of the Total Contract Price as specified herein. In the event of damage proximately caused by "Acts of God," the City may terminate this Contract upon three (3) days advanced written notice.

SECTION 21. INDEMNIFICATION

A. Indemnification. Contractor shall defend, indemnify and hold the City, its officials, officers, employees, volunteers and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury, in law or equity, to property or persons, including wrongful death, in any manner arising out of or incident to any alleged acts, omissions or willful misconduct of Contractor, its officials, officers, employees, agents, consultants and contractors arising out of or in connection with the performance of the Services, the Project or this Agreement, including without limitation the payment of all consequential damages and attorneys fees and other related costs and expenses. Contractor shall defend, at Contractor's own cost, expense and risk, any and all such aforesaid suits, actions or other legal proceedings of every kind that may be brought or instituted against City, its directors, officials, officers, employees, agents or volunteers. Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its directors, officials, officers, employees, agents or volunteers, in any such suit, action or other legal proceeding. Contractor shall reimburse City and its directors, officials, officers, employees, agents and/or volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall not be restricted to insurance proceeds, if any, received by the City, its directors, officials officers, employees, agents or volunteers.

B. General Indemnification. Contractor agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Contractor in the performance of this Agreement. In the event Contractor fails to obtain such indemnity obligations from others are required here, Contractor agrees to be fully responsible according to the terms of this section. Failure of City to monitor compliance with these requirements imposes no additional obligations on City and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend City as set forth here is binding on the successors, assigns or heirs of Contractor and shall survive the termination of this Agreement or this section.

SECTION 22. INSURANCE

Prior to the beginning of and throughout the duration of the Work, Contractor will maintain insurance in conformance with the requirements set forth below. Contractor will use existing coverage to comply with these requirements. If that existing coverage does not meet the requirements set forth here, Contractor agrees to amend, supplement or endorse the existing coverage to do so. Contractor acknowledges that the insurance coverage and policy limits set forth in this section constitute the minimum amount of coverage required. Any insurance proceeds in excess of the limits and coverage required in this Agreement and which are applicable to a given loss, will be available to the City. Contractor shall provide the following types and amounts of insurance:

A. Commercial General Liability Insurance using Insurance Services Office "Commercial General Liability" policy form CG 00 01 or the exact equivalent. Defense costs must be paid in addition to limits. There shall be no cross liability exclusion for claims or suits by one insured against another. Limits are subject to review but in no event less than $1,000,000 per occurrence for all covered losses and no less than $2,000,000 general aggregate.

B. Business Auto Coverage on ISO Business Auto Coverage form CA 00 01 including symbol 1 (Any Auto) or the exact equivalent. Limits are subject to review, but in no event to be less than $1,000,000 per accident. If Contractor owns no vehicles, this requirement may be satisfied by a non-owned auto endorsement to the general liability policy described above. If Contractor or Contractor's employees will use personal autos in any way on this project, Contractor shall provide evidence of personal auto liability coverage for each such person.

C. Workers Compensation on a state-approved policy form providing statutory benefits as required by law with employer's liability limits no less than $1,000,000 per accident or disease.

D. Excess or Umbrella Liability Insurance (Over Primary) if used to meet limit requirements, shall provide coverage at least as broad as specified for the underlying coverages. Any such coverage provided under an umbrella liability policy shall include a drop down provision providing primary coverage above a maximum $25,000 self-insured retention for liability not covered by primary but covered by the umbrella. Coverage shall be provided on a "pay on behalf" basis, with defense costs payable in addition to policy limits. Policy shall contain a provision obligating insurer at the time insured's liability is determined, not requiring actual payment by the insured first. There shall be no cross liability exclusion precluding coverage for claims or suits by one insured against another. Coverage shall be applicable to City for injury to employees of Contractor, subcontractors or others involved in the Work. The scope of coverage provided is subject to approval of City following receipt of proof of insurance as required herein. Insurance procured pursuant to these requirements shall be written by insurers that are admitted carriers in the State of California and with an A.M. Best rating of A or better and a minimum financial size VII.

E. General conditions pertaining to provision of insurance coverage by Contractor. Contractor and City agree to the following with respect to insurance provided by Contractor:

(1) Contractor agrees to have its insurer endorse the third party general liability coverage required herein to include as additional insureds City, its officials, employees and agents, using standard ISO endorsement No. CG 2010 with an edition prior to 1992. Contractor also agrees to require all contractors, and subcontractors to do so likewise.

(2) No liability insurance coverage provided to comply with this Agreement shall prohibit Contractor, or Consultant's employees, or agents, from waiving the right of subrogation prior to a loss. Contractor agrees to waive subrogation rights against City regardless of the applicability of any insurance proceeds, and to require all contractors and subcontractors to do likewise.

(3) All insurance coverage and limits provided by Contractor and available or applicable to this Agreement are intended to apply to the full extent of the policies. Nothing

contained in this Agreement or any other agreement relating to the City or its operations limits the application of such insurance coverage.

(4) None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to City and approved in writing.

(5) No liability policy shall contain any provision or definition that would serve to eliminate so-called "third party action over" claims, including any exclusion for bodily injury to an employee of the insured or any contractor or subcontractor.

(6) All coverage types and limits required are subject to approval, modification and additional requirements by the City, as the need arises. Contractor shall not make any reductions in scope of coverage (e.g. elimination of contractual liability or reduction of discovery period) that may affect City's protection without City's prior written consent.

(7) Proof of compliance with these insurance requirements, consisting of certificates of insurance evidencing all of the coverages required and an additional insured endorsement to Contractor's general liability policy, shall be delivered to City at or prior to the execution of this Agreement. In the event such proof of any insurance is not delivered as required, or in the event such insurance is canceled at any time and no replacement coverage is provided, City has the right, but not the duty, to obtain any insurance it deems necessary to protect its interests under this or any other agreement and to pay the premium. Any premium so paid by City shall be charged to and promptly paid by Contractor or deducted from sums due Contractor, at City option.

(8) Certificate(s) are to reflect that the insurer will provide 30 days notice to City of any cancellation of coverage. Contractor agrees to require its insurer to modify such certificates to delete any exculpatory wording stating that failure of the insurer to mail written notice of cancellation imposes no obligation, or that any party will "endeavor" (as opposed to being required) to comply with the requirements of the certificate.

(9) It is acknowledged by the parties of this Agreement that all insurance coverage required to be provided by Contractor or any subcontractor, is intended to apply first and on a primary, non-contributing basis in relation to any other insurance or self insurance available to City.

(10) Contractor agrees to ensure that subcontractors, and any other party involved with the project that is brought onto or involved in the project by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the project will be submitted to City for review.

(11) Contractor agrees not to self-insure or to use any self-insured retention's or deductibles on any portion of the insurance required herein except as disclosed to and approved by the City and further agrees that it will not allow any contractor, subcontractor, Architect, Engineer or other entity or person in any way involved in the performance of work on the project contemplated by this Agreement to self-insure its obligations to City. City expressly approves

maintenance by the Contractor of a $100,000 deductible on its current Professional Liability insurance policy.

(12) The City reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Contractor ninety (90) days advance written notice of such change. If such change results in substantial additional cost to the Contractor, the City will negotiate additional compensation proportional to the increased benefit to City.

(13) For purposes of applying insurance coverage only, this Agreement will be deemed to have been executed immediately upon any party hereto taking any steps that can be deemed to be in furtherance of or towards performance of this Agreement.

(14) Contractor acknowledges and agrees that any actual or alleged failure on the part of City to inform Contractor of non-compliance with any insurance requirement in no way imposes any additional obligations on City nor does it waive any rights hereunder in this or any other regard.

(15) Contractor will renew the required coverage annually as long as City, or its employees or agents face an exposure from operations of any type pursuant to this Agreement. This obligation applies whether or not the Agreement is canceled or terminated for any reason. Termination of this obligation is not effective until City executes a written statement to that effect.

(16) Contractor shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Proof that such coverage has been ordered shall be submitted prior to expiration. A coverage binder or letter from Contractor's insurance agent to this effect is acceptable. A certificate of insurance and/or additional insured endorsement as required in these specifications applicable to the renewing or new coverage must be provided to City within five days of the expiration of the coverages.

(17). The provisions of any workers' compensation or similar act will not limit the obligations of Contractor under this Agreement. Contractor expressly agrees not to use any statutory immunity defenses under such laws with respect to City, its employees, officials and agents.

(18) Requirements of specific coverage features or limits contained in this section are not intended as limitations on coverage, limits or other requirements nor as a waiver of any coverage normally provided by any given policy. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue, and is not intended by any party or insured to be limiting or all-inclusive.

(19) These insurance requirements are intended to be separate and distinct from any other provision in this Agreement and are intended by the parties here to be interpreted as such.

(20). The requirements in this Section supersede all other sections and provisions of this Agreement, except Exhibit "D" "Modifications to Contract Documents", to the extent that any other section or provision conflicts with or impairs the provisions of this Section.

(21) Contractor agrees to be responsible for ensuring that no contract used by any party involved in any way with the project reserves the right to charge City or Contractor for the cost of additional insurance coverage required by this Agreement. Any such provisions are to be deleted with reference to City. It is not the intent of City to reimburse any third party for the cost of complying with these requirements. There shall be no recourse against City for payment of premiums or other amounts with respect thereto.

(22) Contractor agrees to provide immediate notice to City of any claim or loss against Contractor arising out of the work performed under this Agreement. City assumes no obligation or liability by such notice, but has the right (but not the duty) to monitor the handling of any such claim or claims if they are likely to involve City.

SECTION 23. BONDS

A. Performance Bond. If specifically requested by City in the Bidding Documents, attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

B. Payment Bond. If required by law or otherwise specifically requested by City in the Bidding Documents, attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

C. Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

D. Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

SECTION 24. SAFETY

Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. Contractor shall comply with the requirements of the specifications relating to safety measures applicable in particular operations or kinds of work. In carrying out its Work, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the Work and the conditions under which the Work is to be performed. Safety precautions as applicable shall include, but shall not be limited to, adequate life protection and life saving equipment; adequate illumination for underground and night operations; instructions in accident prevention for all employees, such as machinery guards, safe walkways, scaffolds, ladders, bridges, gang planks, confined space procedures, trenching and shoring, fall protection and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and adequate facilities for the proper inspection and maintenance of all safety measures. Furthermore, Contractor shall prominently display the names and telephone numbers of at least two medical doctors practicing in the vicinity of the Project, as well as the telephone number of the local ambulance service, adjacent to all telephones at the Project site.

SECTION 25. WARRANTY

Contractor warrants all Work under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the Work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the Work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) Days after being notified in writing by the City of any defect in the Work or non-conformance of the Work to the Contract, commence and prosecute with due diligence all Work necessary to fulfill the terms of the warranty at his sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the Work (or work of other contractors) damaged by its defective Work or which becomes damaged in the course of repairing or replacing defective Work. For any Work so corrected, Contractor's obligation hereunder to correct defective Work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected Work. Contractor shall perform such tests as the City may require verifying that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the Work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming Work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

SECTION 26. LAWS AND REGULATIONS

Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Contract or the Work, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Work. If the Contractor observes that the drawings or specifications are at variance with any law, rule or regulation, it shall promptly notify the City in writing. Any necessary changes shall be made by written change order. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, the Contractor shall be solely responsible for all costs arising there from. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Contract, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

SECTION 27. PERMITS AND LICENSES

Contractor shall be responsible for securing, at its own expense, and paying for all permits and licenses necessary to perform the Work described herein.

SECTION 28. TRENCHING WORK

If the Total Contract Price exceeds $25,000 and if the Work governed by this Contract entails excavation of any trench or trenches five (5) feet or more in depth, Contractor shall comply with all applicable provisions of the Labor Code, including Section 6705. To this end, Contractor shall submit for City's review and approval a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

SECTION 29. HAZARDOUS MATERIALS AND DIFFERING CONDITIONS

As required by Public Contract Code Section 7104, if this Contract involves digging trenches or other excavations that extend deeper than four (4) feet below the surface, Contractor shall promptly, and prior to disturbance of any conditions, notify City of: (1) any material discovered in excavation that Contractor believes to be a hazardous waste that is required to be removed to a Class I, Class II or Class III disposal site; (2) subsurface or latent physical conditions at the site differing from those indicated by City; and (3) unknown physical conditions of an unusual nature at the site, significantly different from those ordinarily encountered in such contract work. Upon notification, City shall promptly investigate the conditions to determine whether a change order is appropriate. In the event of a dispute, Contractor shall not be excused from any scheduled completion date and shall proceed with all Work to be performed under the Contract, but shall retain all rights provided by the Contract or by law for making protests and resolving the dispute.

SECTION 30. UNDERGROUND UTILITY FACILTIES

To the extent required by Section 4215 of the Government Code, City shall compensate Contractor for the costs of: (1) locating and repairing damage to underground utility facilities not caused by the failure of Contractor to exercise reasonable care; (2) removing or relocating underground utility facilities not indicated in the construction drawings; and (3) equipment necessarily idled during such work. Contractor shall not be assessed liquidated damages for delay caused by failure of City to provide for removal or relocation of such utility facilities.

SECTION 31. PREVAILING WAGES

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 1600, et seq., ("Prevailing Wage Laws"), the Davis-Bacon Act of 1931 and 23 USC 113, which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. Contractor agrees to fully comply with such Prevailing Wage Laws.

SECTION 32. APPRENTICEABLE CRAFTS

When Contractor employs workmen in an apprenticed craft or trade, Contractor shall comply with the provisions of Section 1777.5 of the Labor Code with respect to the employment of properly registered apprentices upon public works. The primary responsibility for compliance with said section for all apprenticed occupations shall be with Contractor.

SECTION 33. HOURS OF WORK

Contractor is advised that eight (8) hours labor constitutes a legal day's work. Pursuant to Section 1813 of the Labor Code, Contractor shall forfeit a penalty of $25.00 per worker for each day that each worker is permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week, except when payment for overtime is made at not less than one and one-half (1-1/2) times the basic rate for that worker.

SECTION 34. PAYROLL RECORDS

In accordance with the requirements of Labor Code Section 1776, Contractor shall keep accurate payroll records which are either on forms provided by the Division of Labor Standards Enforcement or which contain the same information required by such forms. Responsibility for compliance with Labor Code Section 1776 shall rest solely with Contractor, and Contractor shall make all such records available for inspection at all reasonable hours.

SECTION 35. CONTRACTOR'S LABOR CERTIFICATION

By its signature hereunder, Contractor certifies that he is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Work. A certification form for this purpose, which is attached to this Contract as Exhibit "C" and incorporated herein by reference, shall be executed simultaneously with this Contract.

SECTION 36. LABOR AND MATERIAL RELEASES

Contractor shall furnish City with labor and material releases from all subcontractors performing work on, or furnishing materials for, the work governed by this Contract prior to final payment by City.

SECTION 37. EQUAL OPPORTUNITY EMPLOYMENT

Contractor represents that it is an equal opportunity employer and that it shall not discriminate against any employee or applicant for employment because of race, religion, color, national origin, ancestry, sex, age or other interests protected by the state or Federal Constitutions. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination.

SECTION 38. ANTI-TRUST CLAIMS

This provision shall be operative if this Contract is applicable to California Public Contract Code Section 7103.5. In entering into this Contract to supply goods, services or materials, the Contractor hereby offers and agrees to assign to the City all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Section 15) or under the Cartwright Act (Chapter 2, commencing with Section 16700, of Part 2 of Division 7 of the Business and Professions Code) arising from purchases of goods, services, or materials pursuant to the Contract. This assignment shall be made and become effective at the time the City tender final payment to the Contractor, without further acknowledgment by the parties.

SECTION 39. NOTICES

All notices hereunder and communications regarding interpretation of the terms of the Contract or changes thereto shall be provided by the mailing thereof by registered or certified mail, return receipt requested, postage prepaid and addressed as follows:

CITY	**CONTRACTOR**
City of Eastvale	[INSERT NAME]
12363 Limonite Ave., Suite910	[INSERT ADDRESS]
Eastvale, CA 91752	Attn: [INSERT NAME]
Attn: Name	

Any notice so given shall be considered received by the other party three (3) days after deposit in the U.S. Mail as stated above and addressed to the party at the above address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

SECTION 40. ENTIRE CONTRACT; MODIFICATION

This Agreement, including the attached Exhibits "A" through "F", the advertised bid documents, associated addendas, is the entire, complete, final and exclusive expression of the parties with respect to the matters addressed therein and supersedes all other agreement or understandings, whether oral or written, or entered into between Contractor and City prior to the execution of the agreement. No prior statements, representations or other agreements, whether oral or written, made by any parties which are not embodied herein shall be valid and binding. No amendment to this Agreement shall be valid and binding unless in writing duly executed by the parties or their authorized representatives.

SECTION 41. TIME IS OF THE ESSENCE

Time is of the essence in the performance of this Contract.

SECTION 42. ASSIGNMENT FORBIDDEN

Contractor shall not, either voluntarily or by action of law, assign or transfer this Contract or any obligation, right, title or interest assumed by Contractor herein without the prior written consent of City. If Contractor attempts an assignment or transfer of this Contract or any obligation, right, title or interest herein, City may, at its option, terminate and revoke the Contract and shall thereupon be relieved from any and all obligations to Contractor or its assignee or transferee.

SECTION 43. GOVERNING LAW

This Contract shall be governed by the laws of the State of California.

SECTION 44. COUNTERPARTS

This Contract may be executed in counterparts, each of which shall constitute an original.

SECTION 45. SUCCESSORS

The parties do for themselves, their heirs, executors, administrators, successors, and assigns agree to the full performance of all of the provisions contained in this Contract.

SECTION 46. ATTORNEYS' FEES

If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Contract, the prevailing party in such action shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

SECTION 47. CLAIMS OF $375,000 OR LESS

Notwithstanding any other provision herein, claims of $375,000 or less shall be resolved pursuant to the alternative dispute resolution procedures set forth in Public Contracts Code 20104, et seq.

SECTION 48. PROHIBITED INTERESTS

A. Solicitation. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Contract. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Contract. For breach or violation of this warranty, City shall have the right to terminate this Contract without liability.

B. Conflict of Interest. For the term of this Contract, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Contract, or obtain any present or anticipated material benefit arising there from.

SECTION 49. CERTIFICATION OF LICENSE

Contractor certifies that as of the date of execution of this Contract, Contractor has a current contractor's license of the classification indicated below under Contractor's signature.

IN WITNESS WHEREOF, each of the parties has caused this Contract to be executed on the day and year first above written.

EXHIBIT "A" PLANS AND SPECIFICATIONS

The following plans and specifications are incorporated into this Contract herein by this reference:

The work for which this proposal is submitted is for construction in conformance with these bid documents, including any addenda thereto, the contract annexed hereto, and also in conformance with the 2018 Edition of the Standard Specifications for Public Works Construction (Standard Specifications), Riverside County Transportation Department Improvement Standards and Specifications, latest edition, County Ordinance No. 461 and subsequent amendments, the California Department of Transportation Standard Plans and Specifications, 2018 Edition (State Standard) and the Labor Surcharge and Equipment Rental Rates in effect on the date the work is accomplished.

The Plans and Specifications for the work are as follows:

- **Advertised bid documents and associated Addendas for: 2025 Residential Slurry Seal Project**

EXHIBIT "B" BID PROPOSAL

The following Bid Proposal from (Contractor's name) are incorporated into this Contract.

[INSERT BID PROPOSAL]

EXHIBIT "C" SPECIAL CONDITIONS

Standard Erosion and Sediment Control Plan Notes:

1. Dust control shall conform to Section 10, "Dust Control", Section 7-1.01F, "Air Pollution Control", Section 17, "Watering", and Section 18 "Dust Palliative" of the State Standard Specifications, Rules no. 401, 402, 403 and 403.1 of the South Coast Air Quality Management District (AQMD), Riverside County Code, Chapter 8.52, "Fugitive Dust Reduction Program For Coachella Valley", all other applicable Federal and State laws, and the requirements set forth herein.
2. The Contractor is cautioned that failure to control fugitive dust may result in fines being levied by the South Coast Air Quality Management District to both the Contractor and the City of Eastvale, as owner. The Contractor shall be fully responsible for payment of all fines pertaining to air pollution control violations, resulting from Contractor's operations related to the construction contract, which may be levied against both the Contractor and the City of Eastvale by the AQMD or other regulatory agencies. The Contractor's attention is directed to Section 7-1.01, "Laws to be Observed" of the State Standard Specifications. The cost of all fines levied against the City of Eastvale will be deducted from any moneys due or which may become due to the Contractor, unless other payment arrangements are made by the Contractor.
3. Dust control of all of the contractor's operations is required 24 hours per day, 7 days a week for the duration of the contract, and until the disturbed soil is permanently stabilized. The Contractor shall take every precaution to prevent emissions of fugitive dust from the project site, from locations of stockpiled materials, from unpaved driving surfaces, from haul vehicles, from inactive construction areas, and from all other operations of the Contractor. The Contractor shall plan for and carry out proper and efficient measures to prevent his operations from producing dust in amounts damaging to property or which constitute a public nuisance, or which cause harm to person living or working in the vicinity of the work. Of particular concern are emissions of PM10 particles, which are fine particulate matter of 10 microns or less and which are associated with sickness and death from respiratory disease.
4. The Contractor shall respond to complaints by mobilizing equipment and personnel at the construction site within 2 hours of each complaint to control fugitive dust.
5. Attention is directed to AQMD Rule 403.1, which applies to all contracts within the City of Eastvale. That AQMD Rule requires the Contractor to take specified dust control actions when prevailing wind speeds exceed 25 miles per hour. Wind forecasts, AQMD Rules and other related information are provided by AQMD at 1-800-CUT-SMOG and at www.aqmd.gov.
6. The Contractor shall utilize the "Best Available Control Measures" of controlling fugitive dust, as prepared by the AQMD. However, if fugitive dust crosses the project boundary, more effective control measures, including the "Best Available Control Measures" shall be implemented.
7. A site specific fugitive dust control plan shall be submitted to the City Engineer for review and approval at least 10 days prior to the start of construction.
8. The fugitive dust control plan shall include the "Reasonably Available Control Measures" and "Best Available Control Measures" of controlling fugitive dust, as may be appropriate and necessary, including by not limited to watering, application of chemical dust

suppressants, wind fencing, covering of haul vehicles, haul vehicle bed-liners, grading, planting of vegetation, the use of a 24 hour environmental observer, and track-out controls at locations where unpaved construction accesses intersect with paved roads. The use of chemical stabilizers, which are approved by all environmental regulatory agencies, and the use of reclaimed water is encouraged. If water is intended as a primary dust control tool, the dust control plan shall provide for at least one 2,000 gallon water truck for every 4 acres of disturbed soil, unless otherwise approved by the City Engineer.

9. If the Project Inspector determines that the project scope and the forecasted weather conditions are such that the Contractor's work is unlikely to be a source of dust emissions, the Construction Engineer has the authority to waive the requirements for submittal of a dust control plan and for placement of the dust control signs described herein. However, the Contractors responsibilities for the control of fugitive dust and the other requirements of this section may not be waived.
10. A completion notice will not be filled, and the final payment will not be made to the Contractor until the areas of disturbed soil on the construction site, including roadway shoulders, are suitable stabilized for long term control of fugitive dust.
11. This signature of the Contractor on the Proposal constitutes acknowledgement by the Contractor of the dust control enforceability of those requirements.
12. Full compensation for conformance with these dust abatement requirements, including lab equipment and materials, developing water supply and incidentals, shall be considered as included in items of work, and no additional compensation will be allowed therefore.
13. The successful Contractor shall attend an AQMD PM10 Dust Control Program training session, and furnish evidence of attendance to the City Engineer. Attendance at AQMD training seminars can be scheduled the AQMD at 1-866-861-DUST or by email to dustcontrol@agmd.gov. Current AQMD certification of previous attendance will be accepted. At that training session, the successful Contractor will be furnished with the AQMD prepared Rule 403 and Rule 403.1 implementation handbooks, which include the Best Available Control Measures" and "Reasonably Available Control Measures", and other associated information, including a listing of suggested dust control related to devices, material and chemicals.
14. Any days on which the Contractor is prevented from working, due to the requirements of AQMD Rules, will be considered as non-working days, in accordance with Section 8-1.06, "Time of Completion" of the State Standard Specification.

EXHIBIT "D" CERTIFICATION LABOR CODE-SECTION 1861

I, the undersigned Contractor, am aware of the provisions of Section 3700 et seq. of the Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of the Code, and I, the undersigned Contractor, agree to and will comply with such provisions before commencing the performance of the Work on this Contract.

FAITHFUL PERFORMANCE BOND

KNOW ALL MEN BY THESE PRESENTS:

THAT, WHEREAS, THE CITY OF EASTVALE, hereinafter designated as the "City", entered into a Contract dated _____, 20__, with _____ hereinafter designated as the "Contractor" for the work described as follows:

_____ Project

WHEREAS, the said Contractor is required under terms of said Contract to furnish a bond for the faithful performance of said Contract;

WHEREAS, the Contract is by reference made a part hereof;

NOW, THEREFORE, we, _____ the undersigned Contractor, as Principal, and _____ (corporate surety), a corporation organized and existing under the laws of the State of _____, and duly authorized to transact business under the laws of the State of California, as Surety, are held and firmly bound unto the City in the penal sum of _____ dollars ($_____), lawful money of the United States, said sum being not less than one hundred (100) percent of the total Contract amount, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, THAT, if the above bounded Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions, and agreements in the said Contract and any alterations thereof made as therein provided, on his or their part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless the City, its officers and agents, as therein stipulated, then this obligation shall become null and void; otherwise it shall be and remain in full force and virtue.

As a condition precedent to the satisfactory completion of the said Contract, the above obligation in said amount shall hold good for a period of one (1) year after the completion and acceptance of the said work, during which time if the above bounded Contractor, his or its heirs, executors, administrators, successors or assigns shall fail to make full, complete, and satisfactory repair and replacements or totally protect the City from loss or damage made evident during said period of one year from the date of acceptance of said work, and resulting from or caused by defective materials or faulty workmanship in the prosecution of the work done, the above obligation in the said sum shall remain in full force and effect. However, anything in this paragraph to the contrary notwithstanding, the obligation of the Surety hereunder shall continue so long as any obligation of the Contractor remains.

And the Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or to the work to be performed thereunder

or the specifications accompanying the same shall, in any way, affect its obligations on this bond and it does hereby waive notice of any such change, extension of time, alteration, or addition to the terms of the Contract or to the work or the specifications. Said Surety hereby waives the provisions of Sections 2819 and 2845 of the Civil Code of the State of California.

In the event suit is brought upon this bond by the City and judgment is recovered, the Surety shall pay all costs incurred by the City in such suit, including reasonable attorney's fees to be fixed by the Court.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this _____ day of _____, 20__.

NOTE: If Contractor is Partnership, all parties must execute Bond.

IMPORTANT: Surety companies executing Bonds must appear on the Treasury Department's most current list (Circular 570 as amended) and be authorized to transact business in California.

NOTICE: The signature of the Surety on this bond must be acknowledged before a notary public, and this bond must be accompanied by evidence of the signatory's appointment as attorney in fact and authority to bind the Surety.

MANDATORY: The Surety shall be authorized and licensed by the California Insurance Commissioner as an "admitted surety insurer." (See Cal. Code Civ. Proc. § § § 995.310, 995.311, 995.320)

APPROVAL: Bonds must be approved by the City. In order to verify the status of the Surety as an admitted surety, the Surety shall provide the City with at least one of the following: (1) a print-out of information from the web-site of the Department of Insurance confirming the Surety is an admitted surety insurer and attaching it to the bond; or (2) a certificate from the Riverside County Clerk that the certificate of authority of the Surety has not been surrendered, revoked, cancelled, annulled or suspended and confirming that the Surety is an admitted surety and attaching the certificate to the bond. (See Cal. Code Civ. Proc. Code § 995.311).

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS:

THAT, WHEREAS, THE CITY OF EASTVALE, hereinafter designated as the "City", has awarded to _____, hereinafter designated as the "Contractor" a Contract for the work described as follows:

_____ Project

WHEREAS, the Contractor is required by the Contract and by the provisions of Division Third, Part 4, Title 15, Chapter 7 of the Civil Code to furnish a bond in connection with the Contract, as hereinafter set forth.

NOW, THEREFORE, we, _____, the undersigned Contractor, as Principal, and _____, a corporation organized and existing under the laws of the State of _____ duly authorized to transact business under the laws of the State of California, as Surety, are held and firmly bound unto the _____ in the sum of _____ dollars ($_____) said sum being not less than one hundred (100) percent of the total Contract amount payable by the city, under the terms of the Contract, for which payment well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, THAT, if the Contractor, his or its heirs, executors, administrators, successors and assigns or subcontractors shall fail to pay for any materials, provisions, provender or other supplies or teams, implements or machinery used in, upon, for or about the performance of the work contracted to be done, or shall fail to pay for any work or labor thereon of any kind, or shall fail to pay any persons named in Civil Code section 3181, or shall fail to pay for amounts due under the Unemployment Insurance Code with respect to such work or labor as required by the provisions of Division Third, Part 4, Title 15, Chapter 7 of the Civil Code, or shall fail to pay for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of the Contractor and subcontractors pursuant to Section 13020 of the Unemployment Insurance Code with respect to such work or labor, and provided that the claimant shall have complied with the provisions of that Code, the Surety or Sureties hereon will pay for the same in amount not exceeding the sum specified in the Contract, otherwise the above obligation shall be void. In case suit is brought upon this bond, the Surety will pay all court costs, expenses and reasonable attorney's fee to the prevailing party to be fixed by the court.

This bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Section 3181 of the Civil Code, so as to give a right of action to them or to their assigns in any suit brought upon this bond.

And the Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or to the work to be performed thereunder or the specifications accompanying the same shall in any way affect its obligation on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contractor to the work or to the specifications.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this _____ day of _____, 20__.

STATE OF CALIFORNIA
Department of Resources Recycling and Recovery (CalRecycle)
CALRECYCLE 739-TRP (08/2013)

Grantee Name	
Grant Number:	

Rubberized Pavement Certification

The Rubberized Pavement Certification form must be submitted with the payment request form(s). By signing this form, the signator certifies, under penalty of perjury, that the information provided below by the rubberized pavement (RP) manufacturer, binder supplier or contractor is true and accurate.

Grantee: Request completion of this form by each RP manufacturer, binder supplier or contractor. Review form for completeness and submit form to CalRecycle with payment request form(s). Retain supporting documentation that only California-generated waste tires were used for this grant project.

RP manufacturer, binder supplier or contractor: See instructions on the next page, complete and submit form to Grantee.

RP MANUFACTURER, BINDER SUPPLIER OR CONTRACTOR NAME:	EMAIL:	
CONTACT NAME:	PHONE:	FAX:
ADDRESS:	WEBSITE:	

SUPPORTING DOCUMENTATION REQUIREMENT

☐ **CERTIFICATE OF ORIGIN OR ACCEPTABLE SUPPORTING DOCUMENTATION ATTACHED (SEE FOOTNOTES ON NEXT PAGE)**

Product Description Choose either Crumb Rubber or Crumb Rubber Modifier	**Manufacturer Name**	**Quantity (lbs.)**	**/ (divided)**	**Passenger Tire Equivalent (PTE)**	**=**	**Number of PTE's Diverted**

The Product Provider agrees to be bound by the Audit/Records Access requirements of the above-referenced Grant. See next page for additional detail.

I certify under penalty of perjury that the material provided to the above-named grantee was manufactured from only California-generated waste tires. I understand that if it cannot be verified that the source of the material is from only California-generated waste tires, or an audit discloses the use of non-California tire rubber, that the CalRecycle may deny reimbursement or require the grantee to return all grant funds previously paid under this grant, and that the grantee may seek reimbursement from the above-named RP manufacturer, binder supplier or contractor.

Signature of Authorized Signer for RP manufacturer, binder supplier or contractor	*Print Name*	*Title*	*Date*

INSTRUCTIONS:

Grantee to provide:

1. Grantee Name: Complete full legal name as it appears on the Rubberized Pavement Grant Program Grant Agreement Cover Sheet.

2. Grant Number: Enter assigned grant number.

RAC manufacturer, binder supplier or contractor to provide:

1. Contact information: Provide your business' contact information in this section.

2. Supporting documentation requirement: Provide the Grantee with copies of supporting documentation that validates only California-generated waste tires were used for this grant project and that the waste tires were processed in California. Acceptable forms of supporting documentation include: Certificate of Origin (if completed by a California Processor) or a Bill of Lading and Manifest documentation for non-California processors.

3. Number of tires diverted: Provide the total number of tires diverted in Passenger Tire Equivalents for this project. Include both the number of pounds of crumb rubber and the calculated number of Passenger Tire Equivalent (PTEs): Use **12** pounds of crumb rubber per PTE.

4. Signature of RAC manufacturer, binder supplier or contractor: This form must be signed by an authorized signer from the RAC manufacturer, binder supplier, or contractor. Provide the completed form, with supporting documentation, to the Grantee.

AUDIT/RECORDS ACCESS:

The Product Provider agrees that CalRecycle, the Department of Finance, the Bureau of State Audits, or their designated representative(s) shall have the right to review and to copy any records and supporting documentation pertaining to this Certification or the products certified herein. The Product Provider agrees to maintain such records for possible audit for a minimum of three (3) years after final payment date or grant term end date, whichever is later, unless a longer period of records retention is stipulated, or until completion of any action and resolution of all issues which may arise as a result of any litigation, dispute, or audit, whichever is later. The Product Provider agrees to allow the designated representative(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, the Product Provider agrees to include a similar right of the State to audit records and interview staff in any contract or subcontract related to this Certification or the products certified herein.

State of California
RELIABLE CONTRACTOR DECLARATION
CalRecycle 168 (REV. 04/2024)

Department of Resources Recycling and Recovery
FiRM Branch

This form must be completed and submitted to the Department of Resources Recycling and Recovery (CalRecycle) prior to authorizing a contractor(s) to commence work. Failure to provide this documentation in a timely manner may result in nonpayment of funds to the contractor(s).

This form is intended to help the CalRecycle's Grantees comply with the Reliable Contractor Declaration (formerly Unreliable List) requirement of their Terms and Conditions.

The Reliable Contractor Declaration (formerly Unreliable List) provision requires the following: Prior to authorizing a contractor(s) to commence work under the Grant, the Grantee shall submit to CalRecycle a declaration signed under penalty of perjury by the contractor(s) stating that within the preceding three (3) years, none of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the contractor(s). Please see the end of this page or refer to the California Code of Regulations (https://oal.ca.gov/publications/ccr/).

If any of the events listed in Section 17050 have occurred, disclosure is required but will not necessarily result in CalRecycle refusing to approve the contractor. A signed statement explaining the facts and circumstances of the events must be attached to and submitted with this form.

Contractor: Complete the form and send original to the Grantee.
Grantee: Scan the form and upload it to the grant in CalRecycle's Grant Management System. For further instruction about logging into the Grant Management System and uploading this form, reference the Procedures and Requirements. Retain the original form in your grant file.

Grantee Information

As the authorized representative of the above identified contractor, I declare under penalty of perjury under the laws of the State of California that within the preceding three (3) years, none

of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the above identified contractor.

Alternatively, as the authorized representative of the above identified contractor, I declare under penalty of perjury under the laws of the State of California that within the preceding three (3) years, if any of the events listed in Section 17050 of Title 14, California Code of Regulations, Natural Resources, Division 7, has occurred with respect to the above identified contractor, I have disclosed all such occurrences in an attached signed statement that explains the facts and circumstances of the listed events.

Signature	Date

Title 14 CCR, Division 7, Chapter 1
Article 5. Unreliable Contractors, Subcontractors, Borrowers and Grantees
Section 17050. Grounds for Placement on Unreliable List

The following are grounds for a finding that a contractor, any subcontractor that provides services for a board agreement, grantee or borrower is unreliable and should be placed on the board's Unreliable Contractor, Subcontractor, Grantee or Borrower List ("Unreliable List"). The presence of one of these grounds shall not automatically result in placement on the Unreliable List. A finding must be made by the Executive Director in accordance with section 17054, and there must be a final decision on any appeal that may be filed in accordance with section 17055 et seq.

a) Disallowance of any and/or all claim(s) to the board due to fraudulent claims or reporting; or
b) The filing of a civil action by the Attorney General for a violation of the False Claims Act, Government Code section 12650 et. seq; or
c) Default on a board loan, as evidenced by written notice from board staff provided to the borrower of the default; or
d) Foreclosure upon real property loan collateral or repossession of personal property loan collateral by the board; or
e) (e) Filing voluntary or involuntary bankruptcy, where there is a finding based on substantial evidence, that the bankruptcy interfered with the board contract, subcontract, grant or loan; or
f) Breach of the terms and conditions of a previous board contract, any subcontract for a board agreement, grant, or loan, resulting in termination of the board contract, subcontract, grant or loan by the board or prime contractor; or
g) Placement on the board's chronic violator inventory established pursuant to Public Resources Code section 44104 for any owner or operator of a solid waste facility; or
h) The person, or any partner, member, officer, director, responsible managing officer, or responsible managing employee of an entity has been convicted by a court of competent jurisdiction of any charge of fraud, bribery, collusion, conspiracy, or any act in violation of any state or federal antitrust law in connection with the bidding upon, award of, or performance under any board contract, subcontract, grant or loan; or
i) The person or entity is on the list of unreliable persons or entities, or similar list, of any other federal or California state agency; or
j) The person or entity has violated an Order issued in accordance with section 18304; or,
k) The person or entity has directed or transported to, has or accepted waste tires at, a site where the operator is required to have but does not have a waste tire facility permit; or
l) The person or entity has transported waste tires without a waste tire hauler registration; or,
m) The person or entity has had a solid waste facility or waste tire permit or a waste tire hauler registration denied, suspended or revoked; or,
n) The person or entity has abandoned a site or taken a similar action which resulted in corrective action or the expenditure of funds by the Board to remediate, clean, or abate a nuisance at the site; or
o) The following are additional grounds for a finding that, a person or entity described below should be placed on the Unreliable List:

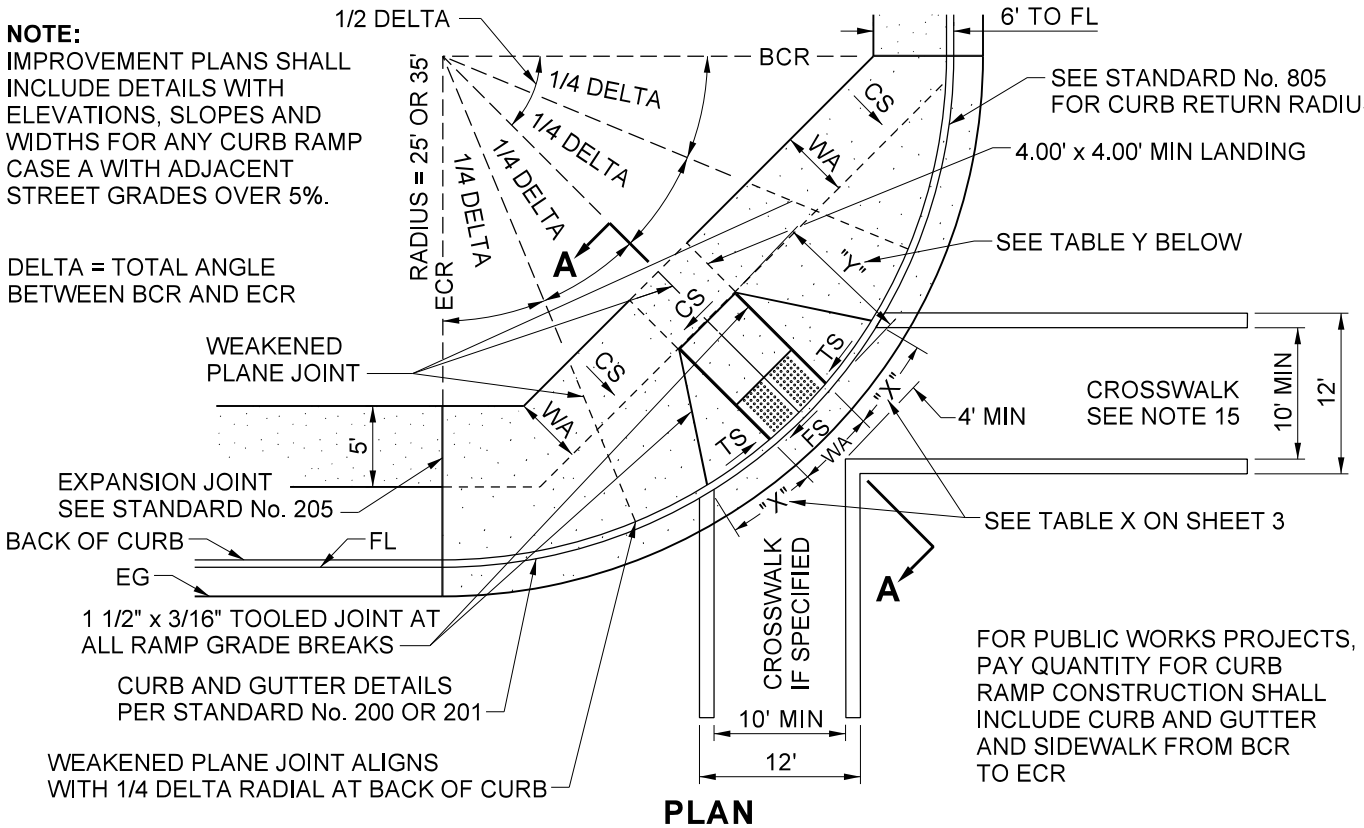

1) The person or entity owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;
2) The person held the position of officer director, manager, partner, trustee, or any other management position with significant control (Principal Manager) in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;
3) The entity includes a Principal Manager who:
    1. Was a Principal Manager in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List; or,
    2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List;
4) The entity has a person who owns 20% or more of the entity, if that person:
    1. Was a Principal Manager in an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List; or,
    2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List.
5) The entity has another entity which owns 20% or more of the entity, if that other entity:
    1. Is on the Unreliable List; or,
    2. Owned 20% or more of an entity on the Unreliable List at the time of the activity that resulted in its placement on the Unreliable List.
6) Subsection (o) is not intended to apply to a person or entity that purchases or otherwise obtains an entity on the Unreliable List subsequent to its placement on the Unreliable List.

CURB RAMP PROFILE

STANDARD No. 403 (3 OF 7)

NOTES:

1. TO MEET AMERICAN WITH DISABILITIES ACT STANDARDS, MAXIMUM STATED SLOPES AND MINIMUM STATED DISTANCES ARE ABSOLUTE AND NO CONSTRUCTION TOLERANCES WILL BE PERMITTED.
2. IF THE DISTANCE FROM CENTER OF CURB RETURN TO EXISTING RIGHT-OF-WAY LINE IS INSUFFICIENT TO ACCOMMODATE THE CASE A CURB RAMP AND TOP LANDING, THEN USE THE CASE B CURB RAMP.
3. THE MINIMUM SIDEWALK WIDTH IS 5.00' WHERE A VERTICAL OBJECT (SUCH AS A CURB OR WALL) IS ADJACENT TO THE PEDESTRIAN ACCESS ROUTE.
4. TRANSITIONS FROM CURB RAMPS TO SIDEWALKS, GUTTERS, AND STREETS SHALL BE FLUSH AND FREE FROM ABRUPT LEVEL CHANGES. NO LIPS ARE PERMITED AT THE GUTTER FLOWLINE OR EDGE OF PAVEMENT.
5. THE TOP OF CURB WIDTH IS NOT INCLUDED IN THE MEASUREMENT OF MINIMUM SIDEWALK WIDTH.
6. THE TRANSITION SLOPE OF THE FLARED WINGS OF THE CASE A CURB RAMP IS MEASURED ALONG THE BACK OF CURB.
7. FOR CASE B CURB RAMPS, CONSTRUCT WEAKENED PLANE JOINTS AT 1/4 DELTAS WHEN THE RADIUS EQUALS 35' AND AT TOPS OF RAMPS WHEN THE RADIUS EQUALS 25'.
8. WHEN ABUTTING SOIL HAS A HIGH SULFATE CONTENT, USE A MODIFIED CONCRETE MIX AND PLACE 6" MIN CLASS 2 AGGREGATE BASE AND 6 MIL PLASTIC SHEETING UNDER AND AROUND ALL SIDES OF CONCRETE IMPROVEMENTS. FOR EXPANSIVE SOIL, PLACE 6" MIN CLASS 2 AGGREGATE BASE UNDER CONCRETE IMPROVEMENTS AS DIRECTED BY THE ENGINEER. SEE SPECIFICATIONS SECTIONS 16.03 & 16.04 AND STANDARD No. 401 FOR REFERENCE.
9. CONCRETE SHALL HAVE MINIMUM CEMENTITIOUS MATERIAL CONTENT = 505 LB / CU YD.
10. THE ROAD SURFACE AND GUTTER SURFACE SHALL NOT EXCEED 5.00% WITHIN 4' OF THE CURB RAMP EDGE (FLOW LINE).
11. DETECTABLE WARNING SURFACES ARE REQUIRED WHEREVER AT-GRADE PEDESTRIAN SURFACES ENTER INTO A VEHICULAR TRAVEL WAY (EXCEPT NOT REQUIRED AT DRIVEWAY APPROACHES).
12. CURB RAMPS SHALL INCLUDE A YELLOW DETECTABLE WARNING SURFACE THAT EXTENDS THE FULL CURB OPEN WIDTH AND 3'-0" DEPTH OF THE RAMP. DETECTABLE WARNING SURFACES SHALL CONSIST OF A PANEL SET INTO WET CONCRETE AND CONFORM TO THE DETAILS ON SHEET 2 OF THIS STANDARD. NO BOLT DOWN OR GLUE DOWN PANELS WILL BE ALLOWED FOR NEW RAMP CONSTRUCTION.
13. THE EDGE OF THE DETECTABLE WARNING SURFACE NEAREST THE STREET SHALL BE BETWEEN 6" AND 8" FROM THE GUTTER FLOWLINE.
14. UTILITY PULL BOXES, MANHOLES, VAULTS AND ALL OTHER UTILITY FACILITIES ARE NOT TO BE LOCATED WITHIN THE BOUNDARIES OF THE CURB RAMP. EXISTING STRUCTURES WILL BE RELOCATED OR ADJUSTED TO GRADE BY THE OWNER PRIOR TO, OR IN CONJUNCTION WITH, CURB RAMP CONSTRUCTION.
15. CROSSWALK STRIPING IS ONLY APPLIED IF SHOWN ON IMPROVEMENT PLANS. CROSSWALK STRIPING, WHEN CALLED FOR, SHALL BE PER STANDARD No. 1211.
16. FOR NEW CASE B, CASE C, AND CASE D CURB RAMPS THE LEVEL LANDING AT THE BOTTOM OF THE RAMPS SHALL BE A MINIMUM OF 5.00' WIDE. FOR INVENTORYING EXISTING CASE B AND CASE C RAMPS, A CURB OPENING WIDTH OF 4.00' MIN IS ACCEPTABLE.
17. FOR PUBLIC WORKS PROJECTS, THE CONTRACT UNIT PRICE FOR CURB RAMP SHALL INCLUDE RAMP, SIDEWALK, CURB AND GUTTER (OR SPANDREL) FROM BCR TO ECR.

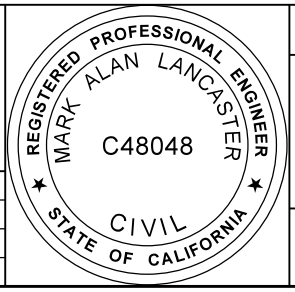

NOT TO SCALE

THE STATE OF CALIFORNIA OR ITS OFFICERS OR AGENTS SHALL NOT BE RESPONSIBLE FOR THE ACCURACY OR COMPLETENESS OF SCANNED COPIES OF THIS PLAN SHEET.

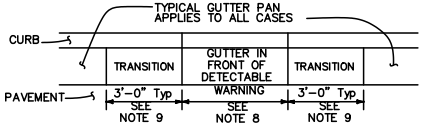

NOTES: See Note 10

1. As site conditions dictate, Case A through Case G curb ramps may be used for corner installations similar to those shown in Detail A and Detail B. The case of curb ramps used in Detail A do not have to be the same. Case A through Case G curb ramps also may be used at mid block locations, as site conditions dictate. For specific site condition configuration, including the conform to existing sidewalk, see Project Plans.
2. If distance from curb to back of sidewalk is too short to accommodate ramp and 4'-2" platform (landing) as shown in Case A, the sidewalk may be depressed longitudinally as in Case B or C or may be widened as in Case D.
3. When ramp is located in center of curb return, crosswalk configuration must be similar to that shown for Detail B.
4. As site conditions dictate, the retaining curb side and the flared side of the Case G ramp shall be constructed in reversed position.
5. The ramp portion of the curb ramp is a typical rectangle, unless modified in the Project Plans.
6. Side slope of ramp flares vary uniformly from a maximum of 9.0% at curb to conform with longitudinal sidewalk slope adjacent to top of the ramp, except in Case C and Case F.
7. The adjacent surfaces at transitions at curb ramps to walks, gutters, and streets shall be at the same level.
8. Counter slopes of adjoining gutters and road surfaces immediately adjacent to and within 24 inches of the curb ramp shall not be steeper than 1V:20H (5.0%). Gutter pan slope shall not exceed 1" of depth for each 2'-0" of width.
9. Transition gutter pan slope from 1" of depth for each 2'-0" of width to match typical gutter pan slope per Standard Plan A87A.
10. The detectable warning surface will be a rectangle as shown at back of curb, unless modified in the Project Plans. Curb ramps shall have a detectable warning surface that extends the full width and 3'-0" depth of the ramp. Detectable warning surfaces shall extend the full width of the ramp except a maximum gap of 1 inch is allowed on each side of the ramp. Detectable warning surfaces shall conform to the requirements in the Standard Specifications.
11. Sidewalk and ramp thickness, "T", shall be 31/2" minimum.
12. Utility pull boxes, manholes, vaults and all other utility facilities within the boundaries of the curb ramp will be relocated or adjusted to grade by the owner prior to, or in conjunction with, curb ramp construction.
13. Detectable warning surface may have to be cut to allow removal of utility covers while maintaining detectable warning width and depth.

Purchase of Two (2) 2026 BMW R 1300 RT-P Police Motorcycles and Budget Appropriation

Prepared By:
Johnny Terfehr, Director of Community Safety and Technology

Recommended Action(s)
Staff recommends that the City Council:

1. Approve a purchase order for Seavco Inc. (Irv Seaver BMW) in the amount of $80,787.72 for two (2) 2026 BMW R 1300 RT-P motorcycle for the Police Department; and
2. Approve and Adopt a Resolution Amending the Fiscal Year 2025-26 Operating Budget by $5,000 for the purchase of two police motorcycles; and
3. Authorize the City Manager to execute any agreements and purchase orders.

Summary
The City currently has two 2022 BMW R1250 RT-P police motorcycles in use that have exceeded the 3-year warranty. The Riverside County Sheriff's Department generally recommends replacing motorcycles once they are no longer under warranty due to reliability and safety reasons. Staff is requesting City Council approve a purchase order with Seavco Inc. in the amount of $80,787.72 for the purchase of two 2026 BMW R1300 RT-P police motorcycles which will replace the existing BMW motorcycles that were purchased in 2022.

Background
Since its incorporation in 2010, the City has had an agreement with the Riverside County Sheriff's Department to provide law enforcement services to Eastvale's residents, visitors, and businesses. Pursuant to the agreement, the City is responsible for managing all aspects of motorcycles

operations, including maintenance, fuel, licensing, and associated expenses.

Two of the City's 2022 BMW R1250 RT-P motorcycles have exceeded their 3-year warranty period. It is the general practice of the Riverside County Sheriff's Department to replace motorcycles once they are no longer under warranty to ensure reliability and safety. In accordance with the City's competitive formal bidding procedures (Sec. 4.06.070), the City issued an Invitation-to-Bid (IFB) on July 28, 2025 and received three bids. The bid details are below:

Bidder	Bid Amount Per Motorcycle
Seavco Inc. (Irv Seaver BMW)	$40,393.86
Ride on Powersports, Inc. (BMW Motorcycles of Riverside)	$40,957.75
RCA Investments (Long Beach BMW Motorcycles)	$42,562.96

Staff recommends approval of a purchase order with Seavco Inc. (Irv Seaver BMW), the lowest responsive bidder. The quote includes the purchase and installation of the required upfitting. Delivery of the new motorcycle is anticipated within approximately 60 to 120 days following issuance of the purchase order. The existing 2022 BMW R1250 RT-P motorcycles will be reassigned as backup units, to be used when other motorcycles are out of service for maintenance, and will also serve as training motorcycles.

Environmental

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not applicable.

Fiscal Impact

Total fiscal impact for this item is $80,787.72. The fiscal year 2025-26 budget included adequate appropriations for the motorcycle purchase in the Capital Project Fund under account 600-400-6610 in the amount of $76,000. However, the budget estimate was based on quotes received in early Spring 2025 since that time market volatility, including tariffs, has occurred. As a result, the competitive bids received exceeded the city’s budget estimate by $5,000. A budget resolution is required to facilitate this professional services contract in fiscal year 2025-26 in the amount of $5,000 in the Capital Projects Fund, expenditure account 600-400-6610. Additionally, as the Capital Projects Fund 600 is solely funded by the General fund, transfer appropriations must also be appropriated. Appropriations in General Fund transfer-out, account 100-290-6960 in the amount of $5,000 and Capital Projects Fund transfer-in, account 600-000-4910 in the amount of $5,000 are required. As of the publish date of this report the General Fund is projected to complete the fiscal year with a $2.2 million overall surplus; as such there is adequate fund balance to appropriate additional budget for this one-time expenditure. Ongoing vehicle maintenance costs are currently budgeted in the General Fund, and maintenance budget was appropriated during the fiscal year 2025-26 budget process

RESOLUTION NO. 25-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, AMENDING ITS 2025-26 FISCAL YEAR CAPITAL IMPROVEMENT BUDGET FOR THE PURCHASE OF TWO POLICE MOTORCYCLES.

WHEREAS the budget for fiscal year 2025-26 of the City of Eastvale has been adopted by this Council in its original form, and said budget will need to be amended at times to fulfill the goals of the City; and

WHEREAS, the City departments may not exceed their appropriations by character of expense, with character of expense being defined as personnel services, services and supplies, capital outlay, debt service and transfers, without the consent of the City Council; and

WHEREAS, the Budget Plan includes two replacement BMW R-1300 RT-P motorcycles and the motorcycles were advertised via competitive bid, however due to economic strains the bids came in higher than the original quotes received earlier in the calendar year; and

WHEREAS, staff desires to adjust the 2025-26 Capital Improvement Budget and appropriate additional General Fund resources to cover the full cost of the replacement motorcycles; and

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EASTVALE DOES HEREBY FIND, DETERMINE, AND RESOLVE AS FOLLOWS:

SECTION 1. AUTHORIZE AN APPROPRIATION IN THE GENERAL FUND, TRANSFER OUT EXPENDITURE ACCOUNT NO. 100-290-6960 IN THE AMOUNT OF $5,000 AND AUTHORIZE AN APPROPRIATION IN THE CAPITAL PROJECTS FUND, TRANSFER IN REVENUE ACCOUNT NO. 600-000-4910 IN THE AMOUNT OF $5,000 TO PROVIDE ADEQUATE FUND BALANCE IN THE CAPITAL PROJECTS FUND FOR THE PURCHASE OF TWO BMW POLICE MOTORCYCLES.

SECTION 2. AUTHORIZE AN APPROPRIATION IN THE CAPITAL PROJECTS FUND, POLICE VEHICLES EXPENDITURE ACCOUNT NO. 600-400-6610 IN THE AMOUNT OF $5,000 FOR THE PURCHASE OF TWO BMW POLICE MOTORCYCLES.

PASSED, APPROVED AND ADOPTED this 10th day of September 2025.

Second Reading of Ordinance Approving the Use of Electronic Filing of Campaign Statements

Prepared By:

Marc A. Donohue, City Clerk/Communications Director

Recommended Action(s)

Staff recommends that the City Council approve the second reading and adopt the proposed Ordinance entitled: AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFOR REQUIRING ELECTRONIC FILING OF POLITICAL PRACTICES COMMISSION (FPPC) CAMP DISCLOSURE STATEMENTS

Summary

The City of Eastvale is a general law city formed under the laws of the State of California. With respect to adoption of ordinances and resolutions, the City adheres to the requirements set forth in the Government Code. With the exception of urgency ordinances, Government Code Section 36934 requires two readings of standard ordinances more than five days apart. Ordinances must be read in full at the time of introduction or passage unless a motion waiving the reading is adopted by a majority of the City Council present. This Ordinance was first introduced at the duly noticed City Council regular meeting on August 13, 2025.

Background

Government Code Sec on 84615, within the Political Reform Act, authorizes local government agencies to require online or electronic filing of campaign statements, reports, or other documents for elected officials, candidates, committees, and other persons required to file under the Act, provided they receive contributions or make expenditures totaling $2,000 or more in a calendar year. Since the passage of this legislation, many local agencies throughout California have adopted electronic filing systems to enhance transparency, improve efficiency, and reduce paper use. The

Fair Political Practices Commission (FPPC) strongly supports and encourages the transition to electronic filing systems.

To implement mandatory electronic filing of campaign statements, Government Code Section 84615 requires the City Council to adopt an ordinance approving the use of an online filing system and finding that the system operates securely, effectively, and does not place an undue burden on filers. The approved system must ensure data integrity, use standardized formats compatible with the Secretary of State, be free of charge to filers, and provide public access to filings.

The NetFile system meets all legal requirements and is specifically designed for agencies administering campaign finance and economic interest filings. It supports electronic filing of several FPPC forms, including Forms 460, 470, 496, and 497, which are the most commonly used forms in local campaigns. The system is highly secure, employing industry best practices such as bank-level data encryption, multi-location data storage, and regular data backups to ensure data integrity and disaster recovery. The City currently utilizes NetFile for the annual Form 700 filings for the City Council, Commissions, and staff.

Adoption of this ordinance will enable the City to fully implement the NetFile system for campaign finance disclosure, ensuring compliance with state requirements while providing a more efficient and transparent filing process.

Environmental

Not applicable.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A

Not Applicable.

Fiscal Impact

The annual subscription cost for the NetFile electronic filing system is $5,450 and is incorporated into the City Clerk's existing General Fund budget. The system also provides cost savings through reduced staff time for processing and managing filings.

Prior City Council/Commission Action

A Public Hearing was held on August 13, 2025, where the City Council introduced the Ordinance.

Attachment(s)

Attachment - Ordinance

ORDINANCE NO. 25-10

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, REQUIRING ELECTRONIC FILING OF FAIR POLITICAL PRACTICES COMMISSION (FPPC) CAMPAIGN DISCLOSURE STATEMENTS

WHEREAS, Government Code Section 84615 provides that a local agency may adopt an Ordinance to require an elected officer, candidate, committee, or other person required to file statements, reports, or other documents required by Chapter 4 of the Political Reform Act (commencing with Section 84100 of the Government Code), except an elected officer, candidate, committee, or other person who receives contributions totaling less than $2,000 and who makes independent expenditures totaling less than $2,000 in a calendar year, to file those statements, reports, or other documents online or electronically with the local filing officer; and

WHEREAS, the City of Eastvale has entered into an agreement with NetFile, Inc., a vendor approved by the California Secretary of State, to provide an online electronic filing system ("System") for campaign disclosure statements and statements of economic interest forms; and

WHEREAS. the System meets all legal requirements, is highly secure, employs industry best practices for operational security and efficiency, will not unduly burden filers and is specifically designed for agencies administering campaign finance and economic interest filings supporting electronic filing of a variety of Fair Political Practices Committee (FPPC) forms; and

WHEREAS. the City of Eastvale desires to allow for electronic and paperless filing of Fair Political Practices Commission (FPPC) campaign disclosure statements.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EASTVALE DOES ORDAIN AS FOLLOWS:

SECTION 1. Findings. The City Council finds that the foregoing recitals are true and correct and that the System will operate securely and effectively and will not unduly burden filers. Specifically, the System will:

- Ensure the integrity of the data and includes safeguards against efforts to tamper with, manipulate, alter, or subvert the data;
- Only accept a filing in the standardized record format developed by the Secretary of State and compatible with the Secretary of State's system for receiving an online or electronic filing; and
- Be available free of charge to filers and to the public for viewing filings. These findings are based upon the vendor's approval by the California Secretary of State to provide these services and the representations of the vendor that the System meets the requirements of Government Code Section 84615.

SECTION 2. Mandatory Electronic Filing. Any elected officer, candidate, committee or other person required to file campaign statements, reports, or other documents required by Chapter 4 (commencing with Section 84100) of the California Government Code, except an elected officer, candidate, committee, or other person who receives contributions totaling less than one thousand dollars ($1,000), and makes expenditures totaling less than two thousand dollars ($2,000), in a calendar year, shall file those statements, reports, or other documents using the City's electronic filing system in accordance with any applicable administrative policies and procedures established by the City Clerk.

SECTION 3. CEQA. The City Council finds, pursuant to Title 14 of the California Code of Regulations, Section 15378(b)(5), that this ordinance is exempt from the requirements of the California Environmental Quality Act (CEQA) in that it is a governmental, organizational or administrative activity that will not result in direct or indirect changes in the environment.

SECTION 4. Severability. If any part of this Ordinance or its application is deemed invalid by a court of competent jurisdiction, the City Council intends that such invalidity will not affect the effectiveness of the remaining provisions or applications and, to this end, the provisions of this Ordinance are severable.

SECTION 5. Notice. The City Clerk is directed to certify the passage and adoption of this Ordinance, cause it to be entered into the City of Eastvale's book of original ordinances, make a note of the passage and adoption in the records of this meeting and within fifteen (15) days after the passage and adoption of this Ordinance, cause it to be published or posted in accordance with California law.

SECTION 6. Effective Date. This ordinance will take effect on the 30th day following its final passage and adoption.

PASSED, APPROVED AND ORDAINED this 10th day of September, 2025.

Amend Chapter 10.02 of Title 10 to the Eastvale Municipal Code Establishing the Speed Limits on Certain Streets

Prepared By:

Jimmy Chung, Public Works Director/City Engineer

Recommended Action(s)

Staff recommends that the City Council approve the second reading and adopt the Ordinance, entitled: AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, AMEN IN ITS ENTIRETY CHAPTER 10.02 OF TITLE 10 OF THE EASTVALE MUNICIPAL CODE ESTABLISI SPEED LIMITS ON CERTAIN STREETS

Summary

On July 24, 2013, City Council approved the establishment and update of speed limits on street segments in Eastvale, followed by amendments approved on February 12, 2014; June 24, 2015; July 11, 2018; January 26, 2022; January 11, 2023 and June 25, 2025. Since the June 25, 2025 approval of the speed surveys, the following five (5) street segments have been studied:

- Segment 14: Cantu-Galleano Ranch Rd between Hamner Ave and I-15 Freeway
- Segment 19: Goodman Way between Cantu Galleano Ranch Rd and Hamner Ave
- Segment 24: Hamner Avenue between Cantu Galleano Ranch Rd and Riverside Dr
- Segment 34: Limonite Avenue between Sumner Ave and Eastern City Limit
- Segment 41: Riverside Dr between Hamner Ave and Eastern City Limit

Background

Posted speed limits are established to inform drivers of appropriate and safe travel speeds, and to protect the general public from the risks posed by reckless or unpredictable driving behavior. Research has shown that most drivers travel at speeds that are safe and reasonable, therefore,

speed limits are established primarily on the consensus of the majority of those who use the roads. Speed limits are not based on the actions of few.

In California, the California Vehicle Code (CVC) requires that speed limits be set using an Engineering and Traffic Survey (E&TS), rather than through arbitrary methods. This approach ensures that speed limits are defensible and appropriate for the roadway conditions. The CVC also includes the Basic Speed Law (Section 22350), which states:

"No person shall drive a vehicle on a highway at a speed greater than is reasonable or prudent having due regard for weather, visibility, the traffic on, and the surface and width of the highway, and in no event at a speed which endangers the safety of persons or property."

Properly posted speed limits assist law enforcement in citing drivers who violate the Basic Speed Law and give drivers a clear warning of the maximum speed that is reasonable and prudent under typical driving conditions.

The engineering and traffic survey study involves the three major elements of data collection and analysis, as required by California Vehicle Code (CVC) Section 627 and as outlined in the California Manual on Uniform Traffic Control Devices (CA MUTCD), 2014 Edition, rev 9. The three elements of an Engineering and Traffic Survey, as described in the CVC, are:

1. Prevailing speed as determined by a spot speed survey
2. Collision records
3. Highway, traffic, and roadside conditions not readily apparent to the driver

Other factors that may also be considered include:

- Residential Density (as defined in CVC Section 627)
- Safety of bicyclists and pedestrians, with increased consideration for vulnerable pedestrian groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused.

The City Council last adopted an Engineering and Traffic Survey on July 24, 2013, followed by amendments approved on February 12, 2014, June 24, 2015, July 11, 2018, January 26, 2022, January 11, 2023, June 25, 2025. Since the June 25, 2025 approval of the speed surveys, the following five (5) street segments have been studied:

- Segment 14: Cantu-Galleano Ranch Rd between Hamner Ave and I-15 Freeway
- Segment 19: Goodman Way between Cantu Galleano Ranch Rd and Hamner Ave
- Segment 24: Hamner Avenue between Cantu Galleano Ranch Rd and Riverside Dr
- Segment 34: Limonite Avenue between Sumner Ave and Eastern City Limit
- Segment 41: Riverside Dr between Hamner Ave and Eastern City Limit

These segments were studied for the following reasons:

1. Reevaluation due to change in road characteristics:

- Segment 14: Cantu-Galleano Ranch Rd between Hamner Ave and I-15 Freeway

- Segment 34: Limonite Avenue between Sumner Ave and Eastern City Limit

2. Required a resurvey in order to ensure speed limits are appropriate and enforceable by radar/lidar:

- Segment 19: Goodman Way between Cantu Galleano Ranch Rd and Hamner Ave
- Segment 24: Hamner Avenue between Cantu Galleano Ranch Rd and Riverside Dr
- Segment 41: Riverside Dr between Hamner Ave and Eastern City Limit

Based on the E&TS results, the recommended speed limit to be established at these five (5) segments is shown below:

Segment No.	Street	Between	Current Speed Limit (mph)	Recommended Speed Limit (mph)
14	Cantu-Galleano Ranch Rd	Hamner Ave to I-15 Freeway	50	50
19	Goodman Way	Cantu-Galleano Ranch Rd to Hamner Ave	35	35
24	Hamner Ave	Cantu-Galleano Ranch Rd to Riverside Dr	50	45
34	Limonite Ave	Sumner Ave to Eastern City Limit	45	45
41	Riverside Dr	Hamner Ave to Eastern City Limit	45	45

The recommended speed limits were reviewed and found acceptable by the Riverside County Sheriff's Office, which provides contract law enforcement services to the City of Eastvale.

To ensure enforceability, each speed limit recommendation must be supported by an E&TS that can withstand legal scrutiny. This survey includes all required documentation under State law. Once the ordinance is adopted, updates to posted speed limits will be implemented accordingly.

Environmental

Approval of the agreement is categorically exempt from California Environment Quality Act (CEQA) review under CEQA Guidelines Section 15301 - Existing Facilities.

Strategic Plan Action - Priority Level: 2 | Target #: 5 | Goal #: 7

Improve traffic mobility and management

Fiscal Impact

Several additional speed limit signs need to be installed at various locations throughout the City. The total cost to install these speed limit signs is estimated to be $3,000. Funds are available in the Measure A fund, Capital Improvement Project number 92001, Account Number 210-510-6695-92001-0000.

Prior City Council/Commission Action

On July 24, 2013, City Council approved the establishment of speed limits on street segments in Eastvale. Subsequent amendments were approved on February 12, 2014, June 24, 2015, July 11, 2018, January 26, 2022, January 11, 2023 and June 25, 2025.

Attachment 1 - Ordinance
Attachment 2 - 2025 Speed Survey Amendment Phase 2

ORDINANCE NO. 25-__

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF EASTVALE, CALIFORNIA, AMENDING IN ITS ENTIRETY CHAPTER 10.02 OF TITLE 10 OF THE EASTVALE MUNICIPAL CODE ESTABLISHING SPEED LIMITS ON CERTAIN STREETS

WHEREAS, California Vehicle Code Sections 22357 and 22358 provide that local entities may declare prima facie speed limits greater than 25 miles per hour on City streets on the basis of an engineering and traffic survey; and

WHEREAS, California Vehicle Code Section 40802 provides for the enforcement of the posted speed limit by the use of radar or other electronic devices which measures the speed of moving vehicles; and

WHEREAS, California Vehicle Code Section 627(b) defines an engineering and traffic survey to include consideration of all of the following:

1) Prevailing speeds as determined by traffic engineering measurements;
2) Collision Records;
3) Highway, traffic, and roadside conditions not readily apparent to the driver; and

WHEREAS, the City of Eastvale has completed a new engineering and traffic survey required under California Vehicle Code Sections 22357 and 22358.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EASTVALE, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. Chapter 10.02 of Title10 to the Eastvale Municipal Code is amended in its entirety to read as follows:

"Sec. 10.02.010. - Findings.

(a) The City Council of the City of Eastvale finds that an engineering and traffic survey has been completed in full compliance with the requirements of the California Vehicle Code and the recommendations in the survey should be implemented. Based upon the review of the survey and related information, the City Council finds the prevailing or 85th percentile speeds of the vehicles are:

No.	Street	Between	85th %ile Speed (mph)
1	58th Street	Scholar Way and Hamner Avenue	40
2	65th Street	Archibald Avenue and Sumner Avenue	40
3		Sumner Avenue and Hamner Avenue	47
4		Hamner Avenue and Wells Spring Street / East City Limit	42
5	68th Street	Sumner Avenue and Hamner Avenue	49
6		Hamner Avenue and East City Limit	47

No.	Street	Between	85th %ile Speed (mph)
7	Archibald Avenue	Bluff Street and Wind River/Grapewin Street	57
8		Wind River/Grapewin Street and Schleisman Road	57
9		Schleisman Road and Bellegrave Avenue / North City Limit	55
10	Baron Road	Archibald Avenue and Northernly Terminus	40
11	Bellegrave Avenue	Sumner Avenue and Hamner Avenue	53
12		Hamner Avenue and East City Limit	48
13	Blossom Way	Harrison Avenue and Sumner Avenue	37
14	Cantu-Galleano Ranch Road	Hamner Avenue and I-15 Freeway	48
15	Chandler Street	Hellman Avenue and Harrison Avenue	52
16	Citrus Street	Harrison Avenue and Scholar Way	47
17		Scholar Way and Hamner Avenue	47
18	Fieldmaster Street	Hall Road and Archibald Avenue	43
19	Goodman Way	Cantu-Galleano Ranch Road and Hamner Avenue	45
20	Hamner Avenue	South City Limit and Schleisman Road	52
21		Schleisman Road and Limonite Avenue	51
22		Limonite Avenue and Bellegrave Avenue	51
23		Bellegrave Avenue and Cantu-Galleano Ranch Road	48
24		Cantu-Galleano Ranch Road and Riverside Drive	54
25		Riverside Drive & Philadelphia Street	55
26	Harrison Avenue	Chandler Street and Schleisman Road	50
27		Schleisman Road and Limonite Avenue	47
28		Limonite Avenue and Blossom Way	40
29	Hellman Avenue	River Road and Chandler Street	56
30		Chandler Street and Limonite Avenue	55
31		Limonite Avenue to North City Limit	42
32	Limonite Avenue	Hellman Avenue to Cucamonga Creek Channel	52
33		Cucamonga Creek Channel to Archibald Avenue	52
34		Archibald Avenue and Sumner Avenue	53
35		Sumner Avenue and East City Limit	49
36	Mission Boulevard	S. Milliken Avenue and Ontario Freeway (I-15)	59
37	Orange Street	Sumner Avenue and Scholar Way	45
38	Prairie Smoke Road	Hellman Avenue and Whitewell Road	42
39	River Road	Hellman Avenue and Archibald Avenue	49
40	Riverboat Drive	Massy Harris Way and Wells Springs Street	44
41	Riverside Drive	Hamner Avenue & East City Limit	48
42	Schleisman Road	Hellman Avenue and Archibald Avenue	57
43		Archibald Avenue and Sumner Avenue	49
44		Sumner Avenue and Scholar Way	48
45		Scholar Way and Hamner Avenue	51
46	Scholar Way	Citrus Street and Schleisman Road	43
47		Schleisman Road and Limonite Avenue	43
48		Limonite Avenue and Bellegrave Avenue	43
49	Sumner Avenue	Citrus Street and 65th Street	51
50		65th Street and Bellegrave Avenue	51

No.	Street	Between	85th %ile Speed (mph)
51	Whitewell Road	Schleisman Road and Prairie Smoke Road	40

(b) Based on the review of the Survey, the City Council finds that the most appropriate speed limits to facilitate the orderly movement of traffic that is reasonable and safe for the above-listed streets are set forth herein.

Sec. 10.02.020. - Established.

The following speed limits are as established:

No.	Street	Between	Speed Limit (mph)
1	58th Street	Scholar Way and Hamner Avenue	35
2	65th Street	Archibald Avenue and Sumner Avenue	40
3		Sumner Avenue and Hamner Avenue	40
4		Hamner Avenue and Wells Spring Street / East City Limit	35
5	68th Street	Sumner Avenue and Hamner Avenue	45
6		Hamner Avenue and East City Limit	45
7	Archibald Avenue	Bluff Street and Wind River/Grapewin Street	55
8		Wind River/Grapewin Street and Schleisman Road	50
9		Schleisman Road and Bellegrave Avenue / North City Limit	50
10	Baron Road	Archibald Avenue and Northernly Terminus	35
11	Bellegrave Avenue	Sumner Avenue and Hamner Avenue	50
12		Hamner Avenue and East City Limit	50
13	Blossom Way	Harrison Avenue and Sumner Avenue	30
14	Cantu-Galleano Ranch Road	Hamner Avenue and I-15 Freeway	50
15	Chandler Street	Hellman Avenue and Harrison Avenue	45
16	Citrus Street	Harrison Avenue and Scholar Way	45
17		Scholar Way and Hamner Avenue	45
18	Fieldmaster Street	Hall Road and Archibald Avenue	40
19	Goodman Way	Cantu-Galleano Ranch Road and Hamner Avenue	35
20	Hamner Avenue	South City Limit and Schleisman Road	45
21		Schleisman Road and Limonite Avenue	45
22		Limonite Avenue and Bellegrave Avenue	45
23		Bellegrave Avenue and Cantu-Galleano Ranch Road	45
24		Cantu-Galleano Ranch Road and Riverside Drive	45
25		Riverside Drive & Philadelphia Street	50
26	Harrison Avenue	Chandler Street and Schleisman Road	45
27		Schleisman Road and Limonite Avenue	45
28		Limonite Avenue and Blossom Way	35
29	Hellman Avenue	River Road and Chandler Street	50

No.	Street	Between	Speed Limit (mph)
30		Chandler Street and Limonite Avenue	50
31		Limonite Avenue to North City Limit	35
32	Limonite Avenue	Hellman Avenue to Cucamonga Creek Channel	45
33		Cucamonga Creek Channel to Archibald Avenue	45
34		Archibald Avenue and Sumner Avenue	50
35		Sumner Avenue and East City Limit	45
36	Mission Boulevard	S. Milliken Avenue and Ontario Freeway (I-15)	55
37	Orange Street	Sumner Avenue and Scholar Way	30
38	Prairie Smoke Road	Hellman Avenue and Whitewell Road	35
39	River Road	Hellman Avenue and Archibald Avenue	40
40	Riverboat Drive	Massy Harris Way and Wells Springs Street	40
41	Riverside Drive	Hamner Avenue & East City Limit	45
42	Schleisman Road	Hellman Avenue and Archibald Avenue	50
43		Archibald Avenue and Sumner Avenue	45
44		Sumner Avenue and Scholar Way	45
45		Scholar Way and Hamner Avenue	45
46	Scholar Way	Citrus Street and Schleisman Road	35
47		Schleisman Road and Limonite Avenue	40
48		Limonite Avenue and Bellegrave Avenue	40
49	Sumner Avenue	Citrus Street and 65th Street	45
50		65th Street and Bellegrave Avenue	45
51	Whitewell Road	Schleisman Road and Prairie Smoke Road	35

Sec. 10.02.030 - Direction to City Engineer. On or after the effective date of the Ordinance of which this Chapter is derived, the City Engineer is directed to clearly post speed limit signs effectuating Section 10.02.020 above, to give notice that this Chapter is in effect."

SECTION 2. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases or portions thereof be declared invalid or unconstitutional.

SECTION 3. The City Clerk shall certify to the adoption of this ordinance and shall cause the same to be published in accordance with the law.

PASSED, APPROVED AND ORDAINED this __ day of ____, 2025.

SECTION 1.0

INTRODUCTION

The purpose of this report is to document the results of an engineering and traffic survey conducted to update and to establish the speed limits for five (5) segments of the City of Eastvale arterial street network. The overall study was conducted to comply with existing State regulations concerning the increasing or decreasing of speed limits within City boundaries.

Posted speed limits are established to inform drivers of the safe speed limit and to protect the general public from reckless and unpredictable behavior of irresponsible drivers. Research has shown that most drivers travel at speeds that are safe and reasonable, therefore, speed limits are established primarily on the consensus of the majority of those who use the roads. Speed limits are not based on the actions of few. The California Vehicle Code requires the limits to be established on the basis of an engineering and traffic survey rather than by arbitrary methods.

Posted speed limits also provide law enforcement with a clearly understood method of identifying and apprehending violators of the Basic Speed Law (CVC Section 22350), which states: No person shall drive a vehicle on a highway at a speed greater than is reasonable or prudent having due regard for weather, visibility, the traffic on, and the surface and width of the highway, and in no event at a speed which endangers the safety of persons or property. The posted speed limit gives drivers a clear warning of the maximum speed that is reasonable and prudent under typical driving conditions.

It is generally accepted that speed limits cannot be successfully enforced without voluntary compliance by a majority of drivers. Consequently, only the driver whose behavior is clearly out of line with the normal flow of traffic is usually targeted for enforcement.

This report contains sufficient information to document that the conditions of the latest edition of the California Vehicle Code (CVC) Section 627 have been satisfied, that other conditions not readily apparent to a motorist are properly identified, and that the provisions of AB 43 have been incorporated in the analysis. To legally use radar for speed enforcement, Section 40802(b)of the CVC requires that limits be established per Sections 22357 and 22358 of the CVC, the limits mustbe justified by an Engineering and Traffic Survey conducted within five years prior to the date of the alleged violation. Section 40802(c) of the CVC allows cities to extend the survey period up to seven or 14years depending on specific criteria. California Assembly Bill (AB) 43, related to traffic safety, was signed into law on October 8, 2021. AB 43 modifies certain sections and adds new sections to the CVC pertaining to speed limits. Certain sections of AB 43 took effect on January 1, 2022, while other sections went into effect on January 1, 2023. All sections are currently in effect. Details of these CVC criteria and modifications are provided in Appendix A. CVC Section 627 also requires that the Engineering and Traffic Survey be conducted in accordance with thelatest edition of the California *Manual on Uniform Traffic Control Devices* (CA MUTCD). Details of these CA MUTCD criteria are provided in Appendix B. AB 43 also modified sections of the CA MUTCD, which took effect on January 1, 2023, when Revision 8 of the CA MUTCD was approved, and on April 1, 2025, when Revision 9 of the CA MUTCD was approved.

On July 24, 2013, City Council approved the establishment and update of speed limits on street segments in Eastvale, followed by amendments approved on February 12, 2014, June 24, 2015, July 11, 2018 January 26, 2022, January 11, 2023 and June 25, 2025. Since the June 25, 2025 City Council approval of the speed surveys, the following five (5) street segments have been studied:

14 Cantu Galleano Ranch Road between Hamner Avenue and I-15 Freeway
19 Goodman Way between Cantu Galleano Ranch Road and Hamner Avenue
24 Hamner Avenue between Cantu Galleano Ranch Road and Riverside Drive
35 Limonite Avenue between Sumner Avenue and East City Limit
41 Riverside Drive between Hamner Avenue and East City Limit

The segments below were studied for the following reasons:

1. Roadway segment that has additional lanes due to restriping:
    - Cantu Galleano Ranch Road between Hamner Avenue and I-15 Freeway – Segment 14
2. Segments that required a resurvey in order to ensure speed limits are appropriate and enforceable by radar/lidar:
    - Goodman Way between Cantu Galleano Ranch Road and Hamner Avenue – Segment 19
    - Hamner Avenue between Cantu Galleano Ranch Road and Riverside Drive – Segment 24
    - Limonite Avenue between Sumner Avenue and East City Limit – Segment 35
    - Riverside Drive between Hamner Avenue and East City Limit – Segment 41

This survey will either verify, increase, or decrease the existing speed limits for the five (5) selected roadway segments within the City of Eastvale, based on the data and results obtained.

At five (5) locations on the City's network, spot speed surveys were taken in conformance with the State law for conducting engineering and traffic surveys for the purpose of establishing/updating prima facie speed limits. The data was collected in accordance with the latest edition of the CA MUTCD: CA MUTCD 2014, rev 9 (2025). Sections of the CA MUTCD that contain the regulations for conducting the required "Engineering and Traffic Survey" are presented in Appendix B. Also in Appendix B are definitions of terms used in speed zone surveys. As previously noted, excerpts from the CVC regarding regulations governing speed limits are presented in Appendix A. The speed zone radar surveys were conducted by Counts Unlimited, Inc. Certifications for their staff and equipment are provided in Appendix G.

SECTION 2.0

STUDY METHODOLOGY

The basic fundamentals for establishing speed limits recognize that the majority of drivers behave in a safe and reasonable manner, and, therefore, the normally careful and competent actions of a reasonable driver should be considered legal. Speed limits established on the fundamentals conform to the consensus that those who drive the highway determine what speed is reasonable and safe, not on the judgement of one or a few individuals. A radar spot speed survey is usually used to record the prevailing speed of reasonable drivers.

Speed zones are established to inform drivers of the safe speed limit and to protect the general public from unreasonable and reckless drivers. Research has shown that most drivers travel at speeds that are safe and reasonable, therefore, speed limits are established primarily on the consensus of the majority of those who use the roads. Speed limits are not based on the actions of few. The California Vehicle Code requires the limits to be established on the basis of an engineering and traffic survey rather than by arbitrary methods.

Speed limits are also established to advise drivers of conditions which may not be readily apparent to a reasonable driver. For this reason, collision history, roadway conditions, traffic characteristics and land use must also be analyzed before determining speed limits.

The engineering and traffic survey study involved the three major elements of data collection and analysis, as required by California Vehicle Code (CVC) Section 627 and as outlined in the California *Manual on Uniform Traffic Control Devices* (CA MUTCD), 2014 Edition, rev 9. The three elements of an Engineering and Traffic Survey, as described in the CVC, are:

1. Prevailing speed as determined by a spot speed survey
2. Collision records
3. Highway, traffic, and roadside conditions not readily apparent to the driver

Other factors that may also be considered include:

- Residential Density (as defined in CVC Section 627)
- Safety of bicyclists and pedestrians, with increased consideration for vulnerable pedestrian groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused.

California Assembly Bill (AB) 43, passed in 2021, introduced concepts from Vision Zero into the determination of speed limits. AB 1938, passed in 2022, made further modifications. The goal of Vision Zero is to reduce traffic-related deaths and serious injuries to zero, based on the Safe System Approach. The basic tenet of Vision Zero is that human beings are vulnerable to traffic collisions, the severity of injuries and death are directly affected by speed, and roadway speeds should be reduced wherever possible, using the Safe System Approach, to achieve Vision Zero. AB 43 maintains the use of the 85th percentile speed as the base for setting speed limits, but makes it easier to reduce speed limits. The effects of AB 43 are discussed below, under Analysis.

Spot Speed Survey. Spot speed surveys, performed by a certified radar technician utilizing a calibrated radar gun, were conducted for five (5) roadway segments to determine existing vehicular travel speeds. A minimum of 100 observations were recorded, 50 for each direction of travel, on all the surveyed street segments. This data was used to calculate statistical information such as the 85th percentile speed, 10 mile per hour pace speed, percent of vehicles within the 10 mile per hour pace, median speed and other pertinent data for analysis. The 85th percentile speed is the speed at or below which 85 percent of the traffic is traveling. This threshold represents what is historically found to be a safe and reasonable speed for most drivers based on common roadway conditions.

Collision Rate. Mid-block traffic collision data for the five (5) roadway segments was tabulated from the City's and County's collision records as reported to the California Crash Reporting System (CCRS) for the period from January 1, 2023 through December 31, 2024 (two years). The collision rate was calculated and considered in recommending the speed limit.

Field Review. The streets were field reviewed to determine/confirm the existing roadway characteristics, condition and placement of signs and markings, adjacent land uses, pedestrian and bicycle activity (with increased consideration of vulnerable pedestrian groups),and to identify roadway characteristics that are not readily apparent to vehicle drivers.

Analysis. The three elements and two other factors described above were used to determine the recommended speed limit. The analysis began with the 85th percentile speed from the spot speed survey and was modified, as appropriate, by the collision rate, pedestrian and bicycle activity, and existing conditions not readily apparent to the driver.

The speed limit is initially established at the nearest 5 mph increment to the 85th percentile speed. It can then be reduced by 5 mph if it meets one of the following two options:

Option 1. CVC Sections 627 and 22358.5 allow the speed limit to be reduced by 5 mph from the nearest 5 mph increment of the 85th percentile speed under certain circumstances.

Option 2. For cases where the nearest 5 mph increment would require rounding up, CVC Section 21400(b) allows the speed limit to be rounded down to the nearest 5 mph increment below the 85th percentile speed, however, no further reduction is allowed.

The following examples explain the use of these speed limit criteria:

A. Using Option 1, when the 85th percentile speed is rounded down (i.e. the 85th percentile speed is 37 mph, so the speed limit would be established at 35 mph), the speed limit could be reduced another 5 mph, to 30 mph, if the special conditions are met and justification for using the lower speed limit are documented in the engineering and traffic survey.

B. Using Option 1, when the 85th percentile speed is rounded up (i.e. the 85th percentile speedis 38 mph, so the speed limit would be established at 40 mph), the speed limit could be reducedby 5 mph, to 35 mph, if the special conditions are met and justification for using the lower speed limit are documented in the engineering and traffic survey.

C. Using Option 2, when the 85th percentile speed is rounded up (i.e. the 85th percentile speed is 38 mph and would normally be rounded up to 40 mph), instead of rounding up, the speed limit can be reduced by 5 mph (established at 35 mph), but no further reduction can be applied.

AB 43 also allows the speed limits as determined above, to be reduced an additional 5 mph or the existing speed limits to be maintained under certain conditions. If a local authority, after

completing an engineering and traffic survey, finds that the speed limit is still more than is reasonable or safe, the local authority may, by ordinance:

- Reduce the speed limit by an additional five miles per hour on a section of highway designated as a Safety Corridor or if the highway is adjacent to any land or facility that generates high concentrations of bicyclists or pedestrians, especially those from vulnerable groups such as children, seniors, persons with disabilities, and the unhoused.
- Retain the currently adopted speed limit or restore the immediately prior speed limit if that speed limit was established with an engineering and traffic survey and if a registered engineer has evaluated the section of highway and determined that no additional general purpose lanes have been added to the roadway since the completion of the traffic survey that established that speed limit.
- Determine and declare a 25 or 20 miles per hour prima facie speed limit on a highway contiguous to a business activity district when posted with a sign that indicates a speed limit of 25 or 20 miles per hour.

A greater-than-expected collision rate is one of the special conditions under Option 1, allowing the speed limit to be established 5 mph lower than the rounded speed limit. The collision rate is based on mid-block collisions only. It is determined using the equation shown below and is then compared to the statewide average collision rate for similar roadways, found in *Crash Data on California State Highways (Road Miles, Travel, Crashes, Crash Rates)* published by Caltrans. The latest edition, 2023, was used for this 2025 analysis.

The collision rates are calculated using the following equation:

$$\text{Collision Rate} = \frac{\text{Number of Midblock collisions} \times 10^6}{\text{24-hour volume} \times 365 \times \text{segment length} \times \text{number of years}}$$

Where: Number of midblock collisions based on 2 years (January 1, 2023 through December 31, 2024), 24-hour traffic volume (both directions) in the survey segment and segment length in miles. Rates are shown in Collisions per Million Vehicle Miles (per year) or Col/MVM.

SECTION 3.0

SURVEY RESULTS

3.1 Spot Speed Radar Survey

Spot speed radar surveys were conducted at each street segment to establish a reasonable and effective speed limit based on the premise that the speed limit thus established conforms to the actual behavior of the majority of motorists. The speed limit should normally be established at the five mile per hour increment nearest the 85th percentile speed, as recorded for the surveyed segment. However, engineering judgment and other factors such as collision rates (Section 3.2) and Roadway Segment Field Review (Section 3.3) may indicate the need for further reduction in establishing reasonable and effective speed limits. Table 1 shows the existing speed limit and the 85th percentile speed for each studied segment.

The criteria used to conduct the radar survey are listed in Appendices A and B.

Appendix C contains the Engineering and Speed Survey Summary sheets for each of the five (5) segments surveyed as well as those for segments previously studied. The data collected and information calculated for the radar speed survey are as follows:

- Posted speed limit
- Direction of survey
- Date and time of speed survey
- Weather conditions
- Number of vehicles observed in each direction
- Speed of each surveyed vehicle
- 15th percentile speed
- 50th Percentile speed
- 85th Percentile speed
- 10 mph pace speed
- Percent over pace speed
- Percent in pace speed
- Percent under pace speed
- Average speed

The summary contains information about vehicular speed data observed, collision data, street classification, and any unusual conditions at the location.

Table 1: Segment Spot Speed Summary[1]

(Amended August 2025)

No	Street	Between	Dir	Existing Speed Limit[3] (mph)	85th%ile Speed (mph)	Recommended Speed Limit (mph)	Comments
1	58th Street	Scholar Way and Hamner Avenue	E/W	35	40	35	No Change - 85th%ile, Option 2
2	65th Street	Archibald Avenue and Sumner Avenue	E/W	40	46	40	No Change - 85th%ile, Option 1 & CVC 22358.6(c)
3		Sumner Avenue and Hamner Avenue	E/W	40	47	40	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
4		Hamner Avenue and Wells Spring Street / East City Limit	E/W	35	42	35	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
5	68th Street	Sumner Avenue and Hamner Avenue	E/W	45	49	45	No Change - 85th%ile, Option 2
6		Hamner Avenue and East City Limit	E/W	45	47	45	No Change - 85th%ile
7	Archibald Avenue	Bluff Street and Wind River/Grapewin Street	N/S	55	57	55	No Change - 85th%ile
8		Wind River/Grapewin Street and Schleisman Road	N/S	50	57	50	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
9		Schleisman Road and Bellegrave Avenue / North City Limit	N/S	50	55	50	No Change - 85th%ile, Option 1
10	Baron Road	Archibald Avenue and Northernly Terminus	E/W	35	40	35	No Change - 85th%ile, Option 1
11	Bellegrave Avenue	Sumner Avenue and Hamner Avenue	E/W	50	53	50	No Change - 85th%ile, Option 2
12		Hamner Avenue and East City Limit	E/W	50	48	50	No Change - 85th%ile
13	Blossom Way	Harrison Avenue and Sumner Avenue	E/W	30	37	30	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
14	Cantu-Galleano Ranch Road	Hamner Ave and I-15 Freeway	E/W	50	48	50	No Change – 85th%ile
15	Chandler Street	Hellman Avenue and Harrison Avenue	E/W	45	52	45	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
16	Citrus Street	Harrison Avenue and Scholar Way	E/W	45	47	45	No Change - 85th%ile
17		Scholar Way to Hamner Avenue	E/W	45	47	45	No Change - 85th%ile
18	Fieldmaster Street	Hall Road and Archibald Avenue	E/W	40	43	40	No Change - 85th%ile, Option 2
19	Goodman Way	Cantu-Galleano Ranch Road and Hamner Avenue	N/S & E/W	35	45	35	No Change – 85%ile, Option 2 & CVC 22358.7(a)(2)
20	Hamner Avenue	South City Limit and Schleisman Road	N/S	50	52	45	Decreased - 85th%ile, Option 1
21		Schleisman Road and Limonite Avenue	N/S	45	51	45	No Change, - 85th%ile, Option 1 - Reduction of speed due to crash history
22		Limonite Avenue and Bellegrave Avenue	N/S	45	51	45	No Change - 85th%ile, Option 1
23		Bellegrave Avenue and Cantu-Galleano Ranch Road	N/S	50	48	45	Decrease – 85th%ile, Option 2. Matches segments to the south.
24		Cantu-Galleano Ranch Road and Riverside Drive	N/S	50	54	45	Reduced - 85th%ile, Option 2 & CVC 22358.7(a)(2). Continuity with speed limits to the south.
25		Riverside Drive & Philadelphia Street	N/S	None	55	50	Established Speed Limit - 85th%ile, Option 2
26	Harrison Avenue	Chandler Street and Schleisman Road	N/S	45	50	45	No Change - 85th%ile, Option 1
27		Schleisman Road and Limonite Avenue[2]	N/S	45	47	45	No Change - 85th%ile, Option 1 – Pedestrian & bicyclist safety, particularly for vulnerable pedestrian groups
28		Limonite Avenue and Blossom Way[2]	N/S	45	40	35	Decrease - 85th%ile, Option 1 & CVC 22358.7(a)(2)
29	Hellman Avenue	River Road and Chandler Street	N/S	50	56	50	No Change - 85th%ile, Option 1
30		Chandler Street and Limonite Avenue	N/S	50	55	50	No Change - 85th%ile, Option 1
31		Limonite Avenue to North City Limit	N/S	None	42	35	Established Speed Limit – 85th%ile, Option 1 – Pedestrian & bicyclist safety; very heavy truck traffic
32	Limonite Avenue	Hellman Avenue to Cucamonga Creek Ch.	NE/SW	None[3]	52	45	Establishing speed limit - 85th%ile, Option 1 – Pedestrian & bicyclist safety
33		Cucamonga Creek Ch to Archibald Avenue	NE/SW	None[3]	52	45	Establishing speed limit - 85th%ile, Option 1 – Pedestrian & bicyclist safety
34		Archibald Avenue and Sumner Avenue	E/W	45	53	50	Increased - 85th%ile, Option 2
35		Sumner Avenue and East City Limit	E/W	45	49	45	No Change - 85th%ile, Option 2

(Continued on Next Page)

No	Street	Between	Dir	Existing Speed Limit[3] (mph)	85th%ile Speed (mph)	Recommended Speed Limit (mph)	Comments
36	Mission Boulevard	S. Milliken Avenue and Ontario Freeway (I-15)	E/W	None	59	55	Established Speed Limit - 85th%ile, Option 2
37	Orange Street	Sumner Avenue and Scholar Way	E/W	30	45	30	No Change – AB 43 - New CVC Section 22358.8
38	Prairie Smoke Road	Hellman Avenue and Whitewell Road	E/W	35	42	35	No Change - 85th%ile, Option 1
39	River Road	Hellman Avenue and Archibald Avenue	E/W	40	49	40	No Change – AB 43 – New CVC Section 22358.8

44		Sumner Avenue and Scholar Way	E/W	45	48	45	No Change - 85th%ile, Option 2
45		Scholar Way and Hamner Avenue	E/W	45	51	45	No Change - 85th%ile, Option 1
46	Scholar Way	Citrus Street and Schleisman Road	N/S	35	43	35	No Change - 85th%ile, Option 2 & CVC 22358.7
47		Schleisman Road and Limonite Avenue	N/S	35	43	40	Increased - 85th%ile, Option 2
48		Limonite Avenue and Bellegrave Avenue	N/S	None	43	40	Established Speed Limit - 85th%ile, Option 2
49	Sumner Avenue	Citrus Street and 65th Street	N/S	45	51	45	No Change - 85th%ile, Option 1
50		65th Street and Bellegrave Avenue	N/S	45	51	45	No Change - 85th%ile, Option 1
51	Whitewell Road	Schleisman Road and Prairie Smoke Road	N/S	35	40	35	No Change - 85th%ile, Option 1 - Reduction of speed due to crash history

[1]Roadway segments studied for 2025 E&TS are highlighted in gray.

[2] Segment of Harrison Avenue between Schleisman Rd & Blossom Way was split into two segments at Limonite Ave since the character of the road north of Limonite Ave is different from south of Limonite Ave.

[3]Two segments, currently studied (Nos. 32 & 33), did not previously have a speed limit set by an Engineering and Traffic Survey.

[4]See Appendix A for modifications to CVC by new CA laws, AB 43 & AB 1938. See Appendix B, Line 12a, for explanations of Option 1 and Option 2.

3.2 Collision Rate Analysis

The mid-block collision rate for each roadway segment was determined by using the most recent collision records as required by CVC Section 627. Traffic collision data for the five (5) roadway segments being studied was collected from the Statewide Integrated Traffic Records System (SWITRS) collision records for the City of Eastvale from January 1, 2023 to December 31, 2024. Based on this data, the mid-blockcollision rates were calculated for each roadway segment in terms of "collisions per 1,000,000 vehiclemiles of travel."

It was then determined if any of the collision rates warranted a 5 mph reduction in the rounded 85th percentile speed per Option 1. The collision rates were compared to the statewide average collision rates for similar roadways. If the collision rate is greater than the statewide rate, a 5 mph reduction may be considered. Both of the calculated roadway segment collision rates were less than the statewide average, so neither roadway segment qualified for the 5 mph reduction based on the collision rate.

The results of the collision rate calculations are shown in Table 2 and in the Engineering and Traffic Survey Summary sheets (Appendix C). A sample collision rate calculation is shown below.

Example:

$$\text{Collision Rate} = \frac{\text{Number of Collisions} \times 10^6}{\text{Vehicles/Day} \times 365 \text{ Days/Year} \times \text{Miles} \times \text{Years of Collision Data}}$$

Collision rate on: Hamner Avenue between Cantu-Galleano Ranch Road and Riverside Drive:

$$\text{Collision Rate} = \frac{1 \times 10^6}{17{,}865 \times 365 \times 1.23 \times 2}$$

$$= \textbf{0.06 collisions per million vehicle miles (Col/MVM)}$$

The comparison collision rates vary from year to year. The 2023 Statewide average rates, which are the most recent rates available, were used for the five (5) segments studied in the August 2025 analysis, and are shown in the table below.

No.	Street	Between	Lane Type	Statewide Collision Rate[1]
14	Cantu Galleano Ranch Road	Hamner Avenue & I-15 Freeway	6 lanes, Divided	1.06
19	Goodman Way	Cantu-Galleano Ranch Road & Hamner Avenue	3 lanes, Undivided	1.11
24	Hamner Avenue	Cantu-Galleano Ranch Road & Riverside Drive	4 lanes, Undivided	1.33
35	Limonite Avenue	Sumner Avenue & East City Limit	6 lanes, Divided	1.06
41	Riverside Drive	Hamner Avenue & East City Limit	4 lanes, Undivided	1.33

[1] *Statewide Collision Rates listed are averages for Suburban (Rural Inside City + Urban Outside City) roads.*

Table 2: Collision Analysis

(Amended August 2025)

No.	Street	Between	Segment Length (miles)	Segment Length (feet)	Average Daily Traffic (ADT) (vehs/day)	Midblock Collisions[2]	Colli Ra (Col/M
1	58th Street	Scholar Way and Hamner Avenue	0.49	2,568	1,522	0	0.
2	65th Street	Archibald Avenue and Sumner Avenue	1.00	5,300	6,155	0	0.

49	Sumner Avenue	Citrus Street and 65th Street	1.12	5,935	4,028	0	0.00	0.93	No
50		65th Street and Bellegrave Avenue	1.03	5,422	7,857	2	0.23	0.93	No
51	Whitewell Road	Schleisman Road and Prairie Smoke Road	0.29	1,542	2,056	2	3.06	1.60	Yes

[1] Newly-surveyed roadway segments are highlighted in gray.
[2] Number of speed-related mid-block traffic collisions during most recently available 2-year period for newly surveyed segments and 3-year period for prior segments.
[3] Col/MVM = Collisions per Million Vehicle Miles per year; An actual rate greater than state average rate indicates condition that may allow a lower speed limit.
[4] The previous survey on Harrison Avenue (Segment 27) included the segment of Harrison Avenue between Schleisman Road and Blossom Way was split into two segments at Limonite Avenue. The latest surveyed segment (Segment 28) includes Harrison Avenue between Limonite Avenue and Blossom Way since, the portion of the road north of Limonite Ave is different from south of Limonite Ave, the previously-surveyed segment, in width and traffic volume..

3.3 Roadway Segment Field Review

Section 2B.13 of the CA MUTCD 2014, "Speed Limit Signs" states that the speed limit should be established at the nearest five mile per hour increment to the 85th percentile speed recorded during the spot speed survey. However, in matching existing conditions with the traffic safety needs of the community, engineering judgment may indicate the need for a further reduction in speed, as allowed under Option 1. Whenever such factors are considered to establish the speed limit, they should be documented on the speed survey or in the accompanying engineering report.

The roadway segments were driven and videorecorded by Mr. Alan Perkins, Senior Engineering Technician, and reviewed by Ruth Smith, Senior Traffic Engineer (contracted through Ardurra Group). The roadway characteristics, location of speed limit signs, conditions not readily apparent to the driver (lack ofsidewalks/bike lanes, driveways with limited sight distance, clustered driveways, heavy truck activity,etc.), type of land use adjoining the street (commercial, residential, school zone, parks, etc.) and type of roadway (divided, undivided, number of lanes, on-street parking etc.) were noted in the study on the Strip Maps, found in Appendix D. The roadway characteristics recorded were used to determine if any physical conditions warranted consideration of an *additional* five mile per hour reduction of the recommended speed in accordance with CVC Section 627 and Section 22358.6(b).

The results of the roadway segment field review for each segment are indicated on the Engineering and Speed Survey Summary sheets in Appendix C.

- Collision History
- Collision Rate
- Average Daily Traffic Volume
- Road Description, including on-street parking and unusual lane configurations
- Factors Indicating Land or Facility that generates high concentrations of bicyclists or pedestrians, including the presence of sidewalks, bikeways, crosswalks, schools, parks, employment centers, retail, senior centers, cultural areas, religious facilities, health/medical facilities and transit stops
- Pedestrian, Bicycle and Truck activity
- Driveways with limited sight distance or clustered driveways
- Adjacent Land Uses

SECTION 4.0

SURVEY FINDINGS AND RECOMMENDATIONS

4.1 Factors That May Be Considered

In accordance with the State-imposed speed limit establishment regulation, as defined by CVC Section 627 described in Appendix A, there are several factors that may be considered to justify setting the prima facie speed limit five mph below the rounded 85th percentile speed under Option 1.

The factors to be considered are highway, traffic, and roadside conditions, specifically including those listed below, however, factors that are readily apparent to motorists are not to be considered.

- Most recent collision record (mid-block)
- Roadway characteristics
- Shoulder condition
- Grade
- Alignment
- Sight Distance
- Roadside development and environment
- Parking practices and pedestrian activity
- Commercial driveway characteristics (land use)
- Pedestrian traffic with and without sidewalks
- Safety of bicyclists and pedestrians, with increased consideration for vulnerable pedestrian groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused.
- Residential density

The above factors for each roadway segment surveyed are listed in the Engineering and Traffic Survey Summary sheets in Appendix C.

4.2 Recommended Speed Limits

The 85th percentile speed and the above factors were considered in verifying existing speed limits and recommending speed limit changes (increase or decrease). Additionally, discussions were held with City staff in making decisions with respect to changing existing speed limits. This allowed for consideration of any special knowledge of the segment. Table 1 shows the surveyed road segments with posted and recommended speed limits. Table 2, the amended Collision Survey Analysis, lists the street traffic volumes, total number of collisions and calculated collision rate.

4.3 Speed Limit Signing

All California motorists are required to know the basic 15, 25, and 55 MPH speed laws and are tested on the subject when applying for a driver's license. Consequently, speed limit signs covering these conditions need not be posted on City streets. However, although not required by law, speed limit signs for these situations may be posted on streets that have significant daily vehicular traffic volumes, a by-pass traffic situation, the continued violation of a residential 25 MPH speed zone, or with other applicable warrants.

It is normal policy to recommend the posting of speed limit signs only of streets that have been covered by the City speed limit ordinance or by warranted situations covered above.

Speed limit signs should be installed at about one-half mile intervals on the City streets which have been speed zoned. Signs are normally installed on the exit side of traffic signal controlled intersections and the more important intersections where there is high side-street vehicle entry. It is important that motorists be given adequate information while not over-signing, which tends to confuse the motorist.

Enforcement issues can occur when, (a) the highway is posted with inappropriate speed limit signs, (b)the highway is improperly or inadequately posted; or, (c) the highway is not posted nor covered by ordinance and therefore falls under the basic speed law. In any of these events, the result is a debatable validity that may be questioned in court cases where citations are issued and contested.

SECTION 5.0

SUMMARY AND CONCLUSIONS

5.1 Summary and Conclusions

1. The radar survey and the raw data collection were conducted per CVC Section 627 and California Manual on Uniform Traffic Control Devices, 2014, rev 9, Section 2B.13.
2. Radar speed surveys and daily traffic counts for five (5) of the selected roadway segments on the City's arterial roadway network were collected in 2025 on March 25.
3. Bicycle and Pedestrian mid-block collision frequency was low.
4. A summary of recommended speed limits is provided in Table 1.
5. It was concluded that the existing speed limits on one (1) of the five (5) studied roadway segments in the City of Eastvale should be changed, as listed below.

Roadway Segments with Recommended Changes to Speed Limit

No.	Street	Between	Existing Speed Limit (mph)	Recommended Speed Limit (mph)	Comments
24	Hamner Avenue	Cantu-Galleano Ranch Road & Riverside Drive	50	45	Reducing speed limit by 5 mph – 85th percentile, Option 2 & CVC 22358.7(A)(2)

5.2 Speed Limit Ordinance

Based on the recommended speed zone changes, the revised "Speed Zone Ordinances" are as provided on the following pages.

APPENDIX A

Regulations Governing Speed Limits
(Excerpts from the California Vehicle Code)
(Updated August 2025)

RADAR SPEED ZONE SURVEYS

INTRODUCTION

This report presents the results of an Engineering and Traffic Survey for establishment of speed limits on city streets as required by Sections 22357 and 22358 of the California Vehicle Code. The review included radar surveys of prevailing vehicle speeds for each roadway segment, recent traffic counts, an analysis of reported traffic collisions recorded during the specific two-year interval of January 1, 2023 through December 31, 2024, and a field review of each roadway segment regarding roadway characteristics.

In order to enforce speed limits by radar or other electronic devices, a study must be conducted every five years. Section 40802 of the California Vehicle Code defines a speed limit enforced by radar and "….which speed limit is not justified by an engineering and traffic survey conducted within five years prior to the date of the alleged violation…" constitutes a speed trap, unless the following criteria are met:

> If officers have completed specialized training courses that are approved by the Commission on Peace Officer Standards Training, the time span between studies can be extended to seven years.
>
> If after seven years, " …a registered engineer evaluates the section of the highway and determines that no significant changes in roadway or traffic conditions have occurred, including, but not limited to, changes in adjoining property or land use, roadway width, or traffic volume…" the time span between studies can be extended to 14 years.

Since speed traps are illegal, the lack of an adequate study effectively precludes the police from using radar enforcement. Through adoption of this Engineering and Traffic Survey, the police department will be able to enforce posted speed limits with radar equipment.

REGULATIONS GOVERNING SPEED LIMITS

Under California law, the maximum speed limit for any passenger vehicle is 65 miles per hour (mph). All other speed limits are called prima facie limits which "on the face of it", are safe and prudent under normal conditions. Certain prima facie limits are established by law and include the 25 mph limit in business and residential districts; the 15 mph limit in alleys, at blindintersections and blind railroad grade crossings; and a part-time 25 mph limit in school zones whenchildren are going to and from school.

Intermediate speed limits between 25 and 65 mph may be established by local authorities based on engineering and traffic surveys. Such surveys include the analysis of roadway conditions, collisionrecords, and the prevailing speed of prudent drivers using the highway under study. If speed limitsare established below what the majority of drivers consider reasonable, they are often not obeyedand consequently, are difficult to enforce. Those drivers who do not comply with postedreasonable speed limits are, conversely, subject to equitable enforcement action.

The California Vehicle Code provides that the use of radar to enforce speed limits, which have not been based on an engineering and traffic survey within the preceding five years, constitutes a "speed trap". Since speed traps are also prohibited by the code, lack of the required study effectively prohibits local agencies from using radar or lidar enforcement.

APPLICABLE CALIFORNIA VEHICLE CODE SECTIONS

Increase of Local Limits

22357. Whenever a local authority determines upon the basis of an engineering and traffic survey that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street other than a state highway otherwise subject to a prima facie limit of 25 miles per hour, the local authority may by ordinance determine and declare a prima facie limit of 25 miles per hours, the local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 40, 45, 50, 55, 60 miles per hour or a maximum speed limit of 65 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe. The declared prima facie or maximum speed limit shall be effective when appropriate signs giving notice thereof are erected upon the street and shall not thereafter be revised except upon the basis of an engineering and traffic survey. The provisions of this section shall not apply in respect to any 25-mile-per-hour prima facie limit, which is applicable when passing a school building or the grounds thereof.

Decrease of Local Limits

22358. Whenever a local authority determines upon the basis of an engineering and traffic survey that the limit of 65 miles per hour is more than is reasonable or safe upon any portion of any street other than a state highway where the limit of 65 miles per hour is applicable, the local authority may by ordinance determine and declare a prima facie speed limit of 60, 55, 50, 45,

40, 35, 30, 25, 20 or 15 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie limit shall be effective when appropriate signs giving notice thereof are erected upon the street. *(This section was modified by Assembly Bill 43 to include "20 or 15" and became effective on January 1, 2022.)*

Downward Speed Zoning Exceptions

22358.5 It is the intent of the Legislature that physical conditions such as width, curvature, grade and surface conditions or any other condition readily apparent to a driver, in the absence of other factors, would not require special downward speed zoning, as the basic rule of Section 22350 is sufficient regulation as to such conditions.

Initial Rounding to Nearest Five MPH

22358.6 (a) The Department of Transportation shall, in the next scheduled revision, revise and thereafter maintain the California Manual on Uniform Traffic Control Devices to require the Department of Transportation or a local authority to round speed limits to the nearest five miles per hour of the 85th percentile of the free-flowing traffic.

(b) In cases in which the speed limit needs to be rounded down to the nearest five miles per hour increment of the 85th-percentile speed, the Department of Transportation or a local authority may lower the speed limit by five miles per hour from the nearest five mile per hour increment of the 85th-percentile speed, in compliance with Sections 627 and 22358.5 and the California Manual on Uniform Traffic Control Devices, as it read on March 30, 2021, if the reasons for the lower speed limit are documented in an engineering and traffic survey. The Department of Transportation or a local authority may also take into consideration Sections 22353, 22353.2, 22353.3, 22353.4, and 22353.5, if applicable.

(c) In cases in which the speed limit needs to be rounded up to the nearest five miles per hour increment of the 85th-percentile speed, the Department of Transportation or a local authority may decide to instead round down the speed limit to the lower five miles per hour increment. If the speed limit is rounded down pursuant to this subdivision, the speed limit shall not be reduced any further pursuant to subdivision (b).

(d) In addition to subdivisions (b) and (c), a local authority may additionally lower the speed limit as provided in Section 22358.7.

(e) The total reduction in the speed limit pursuant to subdivisions (a) to (d), inclusive, shall not exceed 12.4 miles per hour from the 85th percentile speed.

(f) Notwithstanding subdivisions (a) to (e), inclusive, a local authority may retain the currently adopted speed limit as provided in Section 22358.8 without further reduction, or restore the immediately prior adopted speed limit as provided in Section 22358.8 without further reduction.

Note: Section 22358.6 was modified by Assembly Bill 1938, and the modifications became effective on January 1, 2023.

Additional Five MPH Reduction

22358.7 (a) If a local authority, after completing an engineering and traffic survey, finds that the speed limit is still more than is reasonable or safe, the local authority may, by ordinance, determine

and declare a prima facie speed limit that has been reduced an additional five miles per hour for either of the following reasons:

(1) The portion of highway has been designated as a safety corridor. A local authority shall not deem more than one-fifth of their streets as safety corridors.

(2) The portion of highway is adjacent to any land or facility that generates high concentrations of bicyclists or pedestrians, especially those from vulnerable groups such as children, seniors, persons with disabilities, and the unhoused.

(b) (1) As used in this section, "safety corridor" shall be defined by the Department of Transportation in the next revision of the California Manual on Uniform Traffic Control Devices. In making this determination, the department shall consider highways that have the highest number of serious injuries and fatalities based on collision data that may be derived from, but not limited to, the Statewide Integrated Traffic Records System.

(2) The Department of Transportation shall, in the next revision of the California Manual on Uniform Traffic Control Devices, determine what constitutes land or facilities that generate high concentrations of bicyclists and pedestrians, as used in paragraph (2) of subdivision (a). In making this determination, the department shall consider density, road use type, and bicycle and pedestrian infrastructure present on a section of highway.

(c) A local authority may not lower a speed limit as authorized by this section until June 30, 2024, or until the Judicial Council has developed an online tool for adjudicating infraction violations statewide as specified in Article 7 (commencing with Section 68645) of Chapter 2 of Title 8 of the Government Code, whichever is sooner. *Note: Revision 8 of the California Manual on Uniform Traffic Control Devices 2014 Edition, effective on January 26, 2023, includes the provisions of this section, making them currently effective.*

(d) A local authority shall issue only warning citations for violations of exceeding the speed limit by 10 miles per hour or less for the first 30 days that a lower speed limit is in effect as authorized by this section.

Note: Section 22358.7 was added to the CVC by Assembly Bill 43, and became effective on January 1, 2022.

Maintaining Existing Speed Limit

22358.8. (a) If a local authority, after completing an engineering and traffic survey, finds that the speed limit is still more than is reasonable or safe, the local authority may, by ordinance, retain the currently adopted speed limit or restore the immediately prior speed limit if that speed limit was established with an engineering and traffic survey and if a registered engineer has evaluated the section of highway and determined that no additional general purpose lanes have been added to the roadway since the completion of the traffic survey that established that speed limit.

(b) This section does not authorize a speed limit to be reduced by any more than 5 mph from the currently adopted speed limit nor below the immediately prior speed limit.

(c) A local authority shall issue only warning citations for violations of exceeding the speed limit by 10 miles per hour or less for the first 30 days that a lower speed limit is in effect as authorized by this section.

Note: Section 22358.8 was added to the CVC by Assembly Bill 43 and became effective on January

1, 2022, then was amended by Assembly Bill 1938, which became effective on January 1, 2023.

Business Activity District Prima Facie Speed Limit

22358.9. (a) (1) Notwithstanding any other law, a local authority may, by ordinance, determine and declare a 25 or 20 miles per hour prima facie speed limit on a highway contiguous to a business activity district when posted with a sign that indicates a speed limit of 25 or 20 miles per hour.

(2) The prima facie limits established under paragraph (1) apply only to highways that meet all of the following conditions:
  (A) A maximum of four traffic lanes.
  (B) A maximum posted 30 miles per hour prima facie speed limit immediately prior to and after the business activity district, if establishing a 25 miles per hour speed limit.
  (C) A maximum posted 25 miles per hour prima facie speed limit immediately prior to and after the business activity district, if establishing a 20 miles per hour speed limit.

(b) As used in this section, a "business activity district" is that portion of a highway and the property contiguous thereto that includes central or neighborhood downtowns, urban villages, or zoning designations that prioritize commercial land uses at the downtown or neighborhood scale and meets at least three of the following requirements in paragraphs (1) to (4), inclusive:

(1) No less than 50 percent of the contiguous property fronting the highway consists of retail or dining commercial uses, including outdoor dining, that open directly onto sidewalks adjacent to the highway.

(2) Parking, including parallel, diagonal, or perpendicular spaces alongside the highway.

(3) Traffic control signals or stop signs regulating traffic flow on the highway, located at intervals of no more than 600 feet.

(4) Marked crosswalks not controlled by a traffic control device.

(c) A local authority shall not declare a prima facie speed limit under this section on a portion of highway where the local authority has already lowered the speed limit as permitted under Section 22358.7, has retained the currently adopted speed limit under Section 22358.8, or has restored the immediately prior adopted speed limit under Section 22358.8.

(d) A local authority shall issue only warning citations for violations of exceeding the speed limit by 10 miles per hour or less for the first 30 days that a lower speed limit is in effect as authorized by this section.

Note: Section 22358.9 was added to the CVC by Assembly Bill 43 and became effective on January 1, 2022, and was then amended by Assembly Bill 1938, which became effective on January 1, 2023.

Speed Trap 40801. No peace officer or other person shall use a speed trap in arresting, or participating or assisting in the arrest of, any person for any alleged violation of this code nor shall any speed trapbe used in securing evidence as to the speed of any vehicle for the purpose of an arrest or prosecution under this code.

40802. (a) A "speed trap" is either of the following:

(1) A particular section of a highway measured as to distance and with boundaries marked, designated, or otherwise determined in order that the speed of a vehicle may be calculated by securing the time it takes the vehicle to travel the known distance.

(2) A particular section of a highway with a prima facie speed limit provided by this code or by local ordinance under paragraph (1) of subdivision (b) of Section 22352, or established under Section 22354, 22357, 22358, or 22358.3, if that prima facie speed limit is not justified by an engineering and traffic survey conducted within five years prior to the date of the alleged violation, and enforcement of the speed limit involves the use of radar or any other electronic device that measures the speed of moving objects. This paragraph does not apply to a local street, road, school zone, senior zone, or business activity district, or speed limit adopted under Section 22358.7 or 22358.8. *(This section was modified by Assembly Bill 43 to add "senior zone, or business activity district" and became effective on January 1, 2022, and was then amended by Assembly Bill 1938, which became effective on January 1, 2023.)*

(b) (1) For purposes of this section, a local street or road is one that is functionally classified as "local" on the "California Road System Maps," that are approved by the Federal Highway Administration and maintained by the Department of Transportation. It may also be defined as a "local street or road" if it primarily provides access to abutting residential property and meets the following three conditions *(This section was modified by Assembly Bill 43 regarding "local street or road" with no change to the meaning and became effective on January 1, 2022.)*:

(D) Roadway width of not more than 40 feet.

(E) Not more than one-half mile of uninterrupted length. Interruptions shall include officialtraffic control devices as defined in Section 445.

(F) Not more than one traffic lane in each direction.

(2) For purposes of this section, "school zone" means that area approaching or passing a school building or the grounds thereof that is contiguous to a highway and on which is posted a standard "SCHOOL" warning sign, while children are going to or leaving the school either during school hours or during the noon recess period. "School zone" also includes the area approaching or passing any schoolgrounds that are not separated from the highway by a fence, gate, or other physical barrier while the grounds are in used by children if that highway is posted with a standard "SCHOOL" warning sign.

(3) For purposes of this section, "senior zone" means that area approaching or passing a senior center building or other facility primarily used by senior citizens, or the grounds thereof that is contiguous to a highway and on which is posted a standard "SENIOR" warning sign, pursuant to Section 22352. *(This section was added by CA AB 43 and became effective on January 1, 2022.)*

(4) For purposes of this section, "business activity center" means a section of highway described in subdivision (b) of Section 22358.9 in which a standard 25 miles per hour or 20 miles per hour speed limit has been posted pursuant to paragraph (1) of subdivision (a) of that section. *(This section was added by CA AB 43 and became effective on January 1, 2022.)*

(c) (1) When all of the following criteria are met, paragraph (2) of this subdivision shall be applicable and subdivision (a) shall not be applicable:

(A) When radar is used, the arresting officer has successfully completed a radar operator course of not less than 24 hours on the use of police traffic radar, and the course was approved and certified by the Commission on Peace Officer Standards and Training.

(B) When laser or any other electronic device is used to measure the speed of moving objects, the arresting officer has successfully completed the training required in subparagraph (A) and an additional training course of not less than two hours approved and certified by the Commission on Peace Officer Standards and Training.

(C) (i) The prosecution proved that the arresting officer complied with subparagraphs (A) and (B) and that an engineering and traffic survey has been conducted in accordance with subparagraph (B) of paragraph (2). The prosecution proved that, prior to issuing the notice to appear, the arresting officer established that the radar, laser, or other electronic device conformed to the requirements of subparagraph (D).

(ii) The prosecution proved the speed of the accused was unsafe for the conditions present at the time of alleged violation unless the citation was for a violation of Section 22349, 22356 or 22406.

(D) The radar, laser, or other electronic device used to measure the speed of the accused meets or exceeds the minimal operational standards of the National Highway Traffic Safety Administration, and has been calibrated within the three years prior to the date of the alleged violation by an independent certified laser or radar repair and testing or calibration facility.

(2) A "speed trap" is either of the following:

(A) A particular section of a highway measured as to distance and with boundaries marked, designated, or otherwise determined in order that the speed of a vehicle may be calculated by securing the time it takes the vehicle to travel the known distance.

(B) (i) A particular section of highway or state highway with a prima facie speed limit that is provided by this code or by local ordinance under paragraph (1) of subdivision (b) of Section 22352, or established under Section 22354, 22357, or 22358.3, if that prima facie speed limit is not justified by an engineering and traffic survey conducted within one of the following time periods, prior to the date of the alleged violation, and enforcement of the speed limit involves the use of radar or any other electronic device that measures the speed of moving objects:

(I) Except as specified in subclause (II), seven years.

(II) If an engineering and traffic survey was conducted more than seven years prior to the date of the alleged violation, and a registered engineer evaluates the section of the highway and determines that no significant changes in roadway or traffic conditions have occurred, including, but not limited to, changes in adjoining property or land use, roadway width, or traffic volume, 14 years.

(ii) This subparagraph does not apply to local street, road or school zone, senior zone, business activity district or speed limit adopted under Section 22358.7 or 22358.8. *(This section was modified by Assembly Bill 43 to add "senior zone, or business*

activity district" and became effective on January 1, 2022, and was then modified by Assembly Bill 1938, which became effective on January 1, 2023.)

Speed Trap Evidence

40803. (a) No evidence as to the speed of a vehicle upon a highway shall be admitted in any court upon the trial of any person in any prosecution under this code upon a charge involvingthe speed of a vehicle when the evidence is based upon or obtained from or by the maintenance or use of a speed trap

(b) In any prosecution under this code of a charge involving the speed of a vehicle, where enforcement involves the use of radar or other electronic devices which measure the speed of moving objects, the prosecution shall establish, as part of its prima facie case, that the evidence or testimony presented is not based upon a speed trap as defined in subdivision (b) of Section 40802.

(c)When a traffic and engineering survey is required pursuant to subdivision (b) of Section 40802, evidence that a traffic and engineering survey has been conducted within five years of the date of the alleged violation or evidence that the offense was committed on a local street or road as defined in subdivision (b) of Section 40802 shall constitute a prima facie case that the evidence or testimony is not based upon a speed trap as defined in subdivision (b) 40802.

Engineering and Traffic Survey

627. (a) "Engineering and traffic survey" as used in this Code, means a survey of highway and traffic conditions in accordance with methods determined by the Department of Transportation for use by the state and local authorities.

(b) An engineering and traffic survey shall include, among other requirements deemed necessary by the department, consideration of all the following

(1) Prevailing speeds as determined by traffic engineering measurements.

(2) Collision records.

(3) Highway, traffic, and roadside conditions not readily apparent to the driver.

(c) When conducting an engineering and traffic survey, local authorities, in addition to the factors set forth in paragraphs (1) to (3), inclusive, of subdivision (b) may consider all of the following:

(1) Residential density, if any of the following conditions exist on the particular portionof highway and the property contiguous thereto, other than a business district:

(A) Upon one side of the highway, within a distance of a quarter of a mile, the contiguous property fronting thereon is occupied by 13 or more separate dwelling houses or business structures.

(B) Upon both sides of the highway, collectively, within a distance of a quarter of a mile, the contiguous property fronting thereon is occupied by 16 or more separate dwelling houses or business structures.

(C) The portion of highway is longer than one-quarter of a mile but has the ratio of

separate dwelling houses or business structures to the length of the highway described in either subparagraph (A) or (B).

(2) Safety of bicyclists and pedestrians, with increased consideration for vulnerable pedestrian groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused. *(This section was modified by Assembly Bill 43 to add the increased consideration for vulnerable pedestrian groups, and became effective on January 1, 2022.)*

Business District

235. A "business district: is that portion of a highway and the property contiguous thereto (a) upon one side of which highway, for a distance of 600 feet, 50 percent of more of the contiguous property fronting thereon is occupied by buildings in use for business, or (b) upon both sided of which highway, collectively, for a distance of 300 feet, 50 percent or more of the contiguous property fronting thereon is so occupied. A business district may be longer than the distance specified in this section if the above ratio of buildings in use for business to the length of the highway exists.

Residence District

515. A "residence district" is that portion of a highway and the property contiguous thereto, other than a business district, (a) upon one side of which highway, within a distance of a quarter of a mile, the contiguous property fronting thereon is occupied by 13 or more separate dwelling houses or business structures, or (b) upon both sided of which highway, collectively, within a distance of a quarter of a mile, the contiguous property fronting thereonis occupied by 16 or more separate dwelling housed or business structures. A residence district may be longer than one quarter of a mile if the above ratio of separate dwelling houses or business structures to the length of the highway exists.

Business and Residence District: Determination

240. In determining whether a highway is within a business or residence district, the following limitations shall apply and shall qualify the definitions Section 235 and 515:

(a) No building shall be counted unless its entrance faces the highway and the front of the building is within 75 feet of the roadway.

(b) Where a highway is physically divided into two or more roadways, only those buildingsfacing each roadway separately shall be counted for the purpose of determining whetherthe roadway is within a district.

(c) All churches, apartments, hotels, multiple dwelling houses, clubs and public buildings, other than schools, shall be deemed to be business structures.

(d) A highway or portion of a highway shall not be deemed to be within a district regardlessof the number of buildings upon the contiguous property if there is no right of access tothe highway by vehicles from the contiguous property.

Maximum Speed Limit

22349. Except as provided in Section 22356, no person shall drive a vehicle upon a highway at a speed greater than 65 miles per hour.

Basic Speed Law

22350. No person shall drive a vehicle upon a highway at a speed greater than is reasonable or prudent having due regard for weather, visibility, the traffic on, and surface and width of, the highway, and in no event at a speed which endangers the safety of persons or property.

Speed Law Violations

22351. (a) The speed of any vehicle upon a highway not in excess of the limits specified in Section 22352 or established as authorized in this code is lawful unless clearly proved to be in violation of the basic speed law.

(b) The speed of any vehicle upon a highway in excess of the prima facie speed limits in Section 22352 or established as authorized in this code is prima facie unlawful unless the defendant establishes by competent evidence that the speed in excess of said limits did not constitute a violation of the basic speed law at the time, place and under the conditions then existing.

Prima Facie Speed Limits

22352. The prima facie limits are as follows and shall be applicable unless changed asauthorized in this code and, if so changed, only when signs have been erected giving notice thereof:

(a) Fifteen miles per hour:

1) When traversing a railway grade crossing, if during the last 100 feet of the approach to the crossing the driver does not have a clear and unobstructed view of the crossing and of any traffic on the railway for a distance of 400 feet in both directions along such railway. This subdivision does not apply in the case of any railway grade crossing where a human flagperson is on duty or a clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

2) When traversing any intersection of highways if during the last 100 feet of the driver's approach to the intersection the driver does not have a clear and unobstructed viewof the intersection and of any traffic upon all of the highways entering the intersection for a distance of 100 feet along all those highways, except at an intersection protected by stop signs or yield right-of-way signs or controlled by official traffic control signals.

3) On any alley.

(b) Twenty-five miles per hour:

1) On any highway, in any business or residence district unless a different speed is determined by local authority or the Department of Transportation under procedures set forthin this code.

2) When approaching or passing a school building or the grounds thereof, contiguous to a highway and posted with a standard "SCHOOL" warning sign, while children are going to or leaving the school either during school hours or during the noon recess period. The prima facie limit shall also apply when approaching or passing any school grounds which arenot separated from the highway by a fence, gate, or other physical barrier while thegrounds are in use by children and the highway is posted with a standard "SCHOOL" warning sign. For the purposes of this subparagraph, standard "SCHOOL" warning signs may be placed at any distance up to 500 feet away from school grounds.

3) When passing a senior center or other facility primarily used by senior citizens, contiguous to a street other than a state highway and posted with a standard "SENIOR" warning sign. A local authority may erect a sign pursuant to this paragraph when the local agency makes a determination that the proposed signing should be implemented. A local authority may request grant funding from the Active Transporatation Program pursuant to Chapter 8 (commencing with Section 2380) of Division 3 of the Streets and Highways Code, or any other grant funding available to it, and use that grant funding to pay for the erection of those signs, or may utilize any other funds available to it to pay for the erection of those signs, including, but not limited to, donations from private sources.

(This section was modified by Assembly Bill 43 to add the grant funding, and became effective on January 1, 2022.)

State Highways within Local Jurisdictions

22354. (a) Whenever the Department of Transportation determines upon the basis of an engineering and traffic survey that the limit of 65 miles per hour is more than is reasonable or safe upon any portion of a state highway where the limit of 65 miles is applicable, the department may determine and declare a prima facie speed limit of 60, 55, 50, 45, 40, 35, 30, 25, 20, or 15 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe, which declared prima facie speed limit shall be effective when appropriate signs giving notice thereof are erected upon the highway.

(b) This section shall become operative on the date specified in subdivision (c) of Section 22366.

(This section was modified by Assembly Bill 43 and became effective on January 1, 2022.)

22354.5 (a) Whenever the Department of Transportation determines, upon the basis of an engineering and traffic survey, to increase or decrease the existing speed limit on a particular

portion of a state highway pursuant to Section 22354, it shall, prior to increasing or decreasing that speed limit, consult with, and take into consideration the recommendations of, the Department of the California Highway Patrol.

(b) The city council or board of supervisors of a city or county through which any portion of a state highway subject to subdivision (a) extends may conduct a public hearing on the proposed increase or decrease at a convenient location as near as possible to that portion of state highway. The Department of Transportation shall take into consideration the results of the public hearing in determining whether to increase or decrease the speed limit.

Boundary Line Streets

22359. With respect to boundary line streets and highways where portions thereof are within different jurisdictions, no ordinance adopted under Sections 22357 and 22358 shall be effective as to any such portion until all authorities having jurisdiction of the portions of the street concerned have approved the same. This section shall not apply in the case of boundary line streets consisting of separate roadways within different jurisdictions.

Multiple-Lane Highways

22361. On multiple-lane highways with two or more separate roadways, different prima facie speed limits may be established for different roadways under any of the procedures specified in Sections 22354 to 22359, inclusive.

APPENDIX B

Speed Zoning Regulations from
Caltrans California *Manual on Uniform Traffic Control Devices*
And Definitions of Terms
(Updated August 2025)

California Manual on Uniform Traffic Control Devices[1]
(Regarding Speed Limits)
(Updated April 2025)

Section 2B.13 Speed Limit Sign (R2-1)

Support:

00 The setting of speed limits can be controversial and requires a rational and defensible determination to maintain public confidence. Speed limits are normally set near the 85th-percentile speed that statistically represents one standard deviation above the average speed and establishes the upper limit of what is considered reasonable and prudent. As with most laws, speed limits need to depend on the voluntary compliance of the greater majority of motorists. Speed limits cannot be set arbitrarily low, as this would create violators of the majority of drivers and would not command the respect of the public. Artificially low speed limits can lead to poor compliance as well as large variations in speed within the traffic stream. Increased speed variance can also create more conflicts and passing maneuvers.

00a The most effective way to reduce speeds is through a combination of strategies using traffic control devices related to speed management, roadway design and engineering solutions, traffic calming techniques and measures, public education, and enforcement efforts. Effectively managing road user speed relies on numerous factors, which include enforcement, roadway characteristics, surrounding environment, adjacent land use, and traffic control devices. Many studies find that engineering changes, such as change a road's infrastructure, are one of the most important factors in reducing vehicle operating speeds. Engineering changes are also one of the most effective interventions at reducing pedestrian injury and fatality rates. Potential street engineering changes, such as curb extensions, median islands, raised crosswalks, roundabouts, and speed bumps or speed humps, naturally result in lower speeds. It is realized that these engineering changes can be costly and time-consuming to implement.

Standard:

01 Speed zones (other than statutory speed limits) shall only be established on the basis of an engineering and traffic survey (E&TS) ~~study~~ that has been performed in accordance with traffic engineering practices. The engineering study shall include an analysis of the current speed distribution of free-flowing vehicles.

02 The Speed Limit (R2-1) sign (see Figure 2B-3) shall display the limit established by law, ordinance, regulation, or as adopted by the authorized agency based on the engineering study. The speed limits displayed shall be in multiples of 5 mph.

03 Speed Limit (R2-1) signs, indicating speed limits for which posting is required by law, shall be located at the points of change from one speed limit to another.

04 At the downstream end of the section to which a speed limit applies, a Speed Limit sign showing the next speed limit shall be installed. Additional Speed Limit signs shall be installed beyond major intersections and at other locations where it is necessary to remind road users of the speed limit that is applicable.

05 Speed Limit signs indicating the statutory speed limits shall be installed at entrances to the State and, where appropriate, at jurisdictional boundaries in urban areas.

Support:

06 In general, the maximum speed limits applicable to rural and urban roads are established:

A. Statutorily – a maximum speed limit applicable to a particular class of road, such as freeways or city streets, that is established by State law; or

B. As altered speed zones – based on engineering studies.

07 State statutory limits might restrict the maximum speed limit that can be established on a

particular road, notwithstanding what an engineering study might indicate.

Option:

08 ~~If a jurisdiction has a policy of installing Speed Limit signs in accordance with statutory requirements only on the streets that enter a city, neighborhood, or residential area to indicate the speed limit that is applicable to the entire city, neighborhood, or residential area unless otherwise posted, a CITYWIDE (R2-5aP), NEIGHBORHOOD (R2-5bP), or RESIDENTIAL (R2-5cP) plaque may be mounted above the Speed Limit sign and an UNLESS OTHERWISE POSTED (R2-5P) plaque may be mounted below the Speed Limit sign (see Figure 2B-3).~~

Guidance:

09 A Reduced Speed Limit Ahead (W3-5 or W3-5a) sign (see Section 2C.38) should be used to inform road users of a reduced speed zone where the speed limit is being reduced by more than 10 mph, or where engineering judgment indicates the need for advance notice to comply with the posted speed limit ahead.

10 States and local agencies should conduct engineering studies at least once every 5, 7 or 14 years, in compliance with CVC Section 40802 to reevaluate non-statutory speed limits on segments of their roadways that have undergone significant changes since the last review, such as the addition or elimination of parking or driveways, changes in the number of travel lanes, changes in the configuration of bicycle lanes, changes in traffic control signal coordination, or significant changes in traffic volumes.

11 No more than three speed limits should be displayed on any one Speed Limit sign or assembly.

~~*12 When a speed limit within a speed zone is posted, it should be within 5 mph of the 85th- percentile speed of free-flowing traffic.*~~

CVC Section 22358.6 – 85th-Percentile, Rounding, 5 mph Increment, 5 mph speed reduction and Maximum Speed Reduction

Standard:

12a **When a speed limit is to be posted, it shall be established at the nearest 5 mph increment of the 85th-percentile speed of free-flowing traffic, except as shown in the two Options below for rounding down and using 5 mph speed reduction (CVC Section 22358.6(b)), or rounding up (CVC Section 22358.6(c)), or if using additional 5 mph speed reduction on local agency roadways for safety corridor designation (CVC Section 22358.7(a)(1)) or adjacent to land or facility generating high concentrations of bicyclists and pedestrians (CVC Section 22358.7(a)(2)).**

Option:

1. For cases in which the nearest 5 mph increment of the 85th-percentile speed would require a rounding down, the posted speed may be reduced by 5 mph from the nearest 5 mph increment of the 85th-percentile speed, in compliance with CVC Sections 627 and 22358.5. CVC Sections 22353, 22353.2, 22353.3, 22353.4, and 22353.5, may also be considered, if applicable. See Standard below for documentation requirements. Refer to CVC Section 22358.6(b).
2. For cases in which the nearest 5 mph increment of the 85th-percentile speed would require a rounding up, then the speed limit may be rounded down to the nearest 5 mph increment below the 85th percentile speed, if no further reduction is used. Refer to CVC Section 21400(f). Refer to CVC Section 22358.6(c).
3.

Standard:

12b **If the speed limit to be posted has had the 5 mph reduction applied, then an E&TS shall document in writing the conditions and justification for the lower speed limit and be approved by a registered Civil or Traffic Engineer. The reasons for the lower speed limit shall be in compliance with CVC Sections 627 and 22358.5. Refer to Section 22358.6(b).**

12c **The total reduction in the speed limit using the nearest 5 mph increment (CVC Section 22358.6(a)), rounding up (CVC Section 22358.6(c)), rounding down and using 5 mph speed reduction (CVC**

Section22358.6(b)), additional 5 mph speed reduction for safety corridor designation (CVC Section 22358.7(a)(1)) or adjacent to land or facility generating high concentrations of bicyclists and pedestrians (CVC Section 22358.7(a)(2)), this speed reduction shall not exceed 12.4 mph from the 85th-percentile speed. Refer to CVC Section 22358.6(e).

Support:

12d Refer to Tables 2B-103(CA) and 2B-104(CA), which provides examples of 85th-percentile speed values and the application of the speed limit policies and criteria applicable per CVC 22358.6 and 22358.7.

~~12c The following examples are provided to explain the application of these speed limit criteria:~~

~~Example 1. Using Option 1 above and first step is to round down: If the 85th percentile speed in a speed survey for a location was 37 mph, then the speed limit would be established at 35 mph since it is the closest 5 mph increment to the 37 mph speed. As indicated by the option, this 35 mph established speed limit could be reduced by 5 mph to 30 mph if the conditions and justification for using this lower speed limit are documented in the E&TS and approved by a registered Civil or Traffic Engineer.~~

~~Example 2. Using Option 1 above and first step is to round up: If the 85th percentile speed in a speed survey for a location was 33 mph, then the speed limit would be established at 35 mph since it is the closest 5 mph increment to the 33 mph speed. As indicated by the option, this 35 mph speed limit could be reduced by 5 mph to 30 mph if the conditions and justification for using this lower speed limit are documented in the E&TS and approved by a registered Civil or Traffic Engineer.~~

~~Example 3. Using Option 2 above and first step is to round up: If the 85th percentile speed in a speed survey for a location was 33 mph, instead of rounding up to 35mph, the speed limit can be established at 30mph, but no further reductions can be applied (which is allowed in the two examples above).~~

~~**Standard:**~~

~~12d **Examples 1 and 2 for establishing posted speed limits shall apply to engineering and traffic surveys (E&TS) performed on or after July 1, 2009 in accordance with the Department's Traffic Operations Policy Directive Number 09-04 dated June 29, 2009.**~~

~~Option:~~

~~12e After January 1, 2012, Example 3 may be used to establish speed limits. Refer to CVC 21400(f).~~

~~Support:~~

12e Any existing E&TS that was performed before January 1, 2022 in accordance with previous traffic control device standards is not required to be updated until it is due for reevaluation per the 5, 7 or 14 year criteria.

CVC Sections 22358.7, 22358.8 and 22358.9 – Applicability on State Highway System & Local Agency Roadways

Standard:

12f CVC Sections 22358.7, 22358.8 and 22358.9 and their related policies shall not be applicable to roadways on the State Highway System.

Support:

12g CVC Sections 22358.7, 22358.8 and 22358.9 and their related policies are applicable on local agency roadways.

12h CVC Sections 22358.7, 22358.8 and 22358.9 and their related policies are also applicable on any privately owned and maintained roads or commercial establishments, if the private road or private property has been subjected to the CVC application by the private property owner or a particular city or county enacts an ordinance or resolution to this effect. Refer to CVC Sections 21100, 21100.1, 21107, 21107.5, 21107.6, and 21107.7.

Standard:

12i **The additional 5 mph speed reduction allowed by CVC Section 22358.7 on designated safety corridors or on portions of highway adjacent to any land or facility that generates high concentrations of bicyclists or pedestrians, shall not be applicable on any roadway segment that is on the State**

Highway System

12j **The option allowed by CVC Section 22358.8 to retain the currently adopted speed limit or restore the immediately prior adopted speed limit, shall not be applicable on any roadway segment that is on the State Highway System.**

12k **Declaring prima facie speed limits of 25 mph or 20 mph on a highway contiguous to a business activity district allowed by CVC Section 22358.9 shall not be applicable on any roadway segment that is on the State Highway System.**

CVC Section 22358.7 – Safety corridor and Land or Facilities Generating High Concentrations of Bicyclists and Pedestrians

Standard:

12l **Additional lowering of the speed limits from those calculated using rounding (up or down) per CVC Section 22358.6(b) and 22358.6(c) and 5 mph speed reduction using CVC Section 22358.6(b), as included in paragraph 12a, and Options #1 and #2 processes, is prohibited, except for the local agency roadway segments designated as "safety corridor" or "land or facilities that generate high concentrations of bicyclists and pedestrians" in compliance with CVC Sections 22358.6(d) and 22358.7.**

Option:

12m Local agencies may additionally lower the speed limits by 5 mph from those calculated using rounding (up or down) per CVC Section 22358.6(b) and 22358.6(c) and 5 mph speed reduction using CVC Section 22358.6(b) if, after completing an E&TS, find that the speed limit is still more than is reasonable or safe, for either of the following reasons:

1. The portion of a highway has been designated as a safety corridor.
2. The portion of highway is adjacent to any land or facility that generates high concentrations of bicyclists or pedestrians, especially those from vulnerable groups such as children, seniors, persons with disabilities, and the unhoused.

CVC Section 22358.7(a)(1) – "Safety Corridor" Definition

Standard:

12n A safety corridor shall be defined as a roadway segment within an overall roadway network where the highest number of serious injury and fatality crashes occur.

12o One or more of the required crash weighting factors listed in the Table 2B-105(CA) shall be used to prioritize the locations of fatal and serious injury crashes in developing the "Safety Corridor".

Option:

12p Data used to determine a safety corridor may be from the most recent Engineering and Traffic Survey (E&TS) performed. The crash data source may include, but is not limited to, California Highway Patrol's (CHP) Statewide Integrated Traffic Records System (SWITRS).

Standard:

12q **The prioritized subset of safety corridors shall:**

1. **Identify specific locations with high crash occurrences.**
2. **Identify corridor-level segments with a pattern of crash reoccurrence.**
3. **Be able to be stratified by mode.**

12r **Safety corridors shall represent a prioritized subset of the overall roadway network within an authority's responsibilities and shall not exceed one-fifth of the overall roadway network.**

Guidance:

12s *A jurisdiction should use three to five years of the most recent crash data to determine a safety corridor based on Fatal and Serious Injury data.*

Option:

12t For crash coverage, safety corridors may identify the subset of the overall roadway network where a minimum of 25% of the Fatal + Serious Injury (F+SI) crashes occur. 12u To identify logical termini, the geographic extent of a safety corridor may be determined by non-engineering staff.

Standard:

12v **A licensed professional engineer shall sign off on logical termini identified for a safety corridor using existing E&TS.**

Option:

12w Crash/Volume rate may be used to provide additional locations to be included in the safety corridor. Local agencies may use proactive measures as indicators.

CVC Section 22358.7(a)(2) – "Land or facility that generates high concentrations of bicyclists or pedestrians" definition Standard:

12x **Except for the Option in first paragraph below, a land or facility that generates high concentrations of bicyclists or pedestrians shall be defined as the portion of the highway where one or more of any of the generators listed in Table 2B-106(CA) are present within a distance of 1320 feet.**

Option:

12y Crash data that demonstrates a highway segment is within the top twenty percent of pedestrian and/or bicyclist fatalities or serious injuries over a three-to-five-year period may be used in lieu of one of the generators listed in Table 2B-106(CA).

Option:

12z Crash data that demonstrates a highway segment is within the top twenty percent of pedestrian and/or bicyclist fatalities or serious injuries over a three-to-five-year period may be used in lieu of one of the generators listed in Table 2B-106(CA).

Standard:

12aa A highway segment shall be defined as the portion of the highway where a location that meets the aforementioned criteria is present within a distance of 1320 feet. Option:

12ab A highway segment may be longer than 1320 feet provided that a minimum of one location within the top twenty percent of fatal and serious injury pedestrian and/or bicyclist crashes within a three-to-five-year period is present for every 1320 feet. Standard:

12ac The top twenty percent of pedestrian and/or bicyclist fatalities or serious injury crashes within a three to five year period shall be based on the geographic area within the jurisdiction of the Engineer performing the E&TS.

Option:

12ad A high concentration of pedestrians and bicyclists may be longer than 1320 feet provided that a minimum of one generator is present for every 1320 feet.

12ae Data used to determine high concentration locations may be obtained from the most recently performed Engineering and Traffic Survey (E&TS). Standard:

12af The provisions of CVC Section 22358.7 to additionally lower the speed limit (by designating safety corridor or on portion of highway is adjacent to any land or facility that generates high concentrations of bicyclists or pedestrians), shall not be applicable until actions required per CVC Section 22358.7 by Department of Transportation and Judicial Council are completed or June 30, 2024, whichever is sooner.

CVC Section 22358.8 (Retain currently adopted or restore immediately prior speed limit)

Option:

12ag Local agency may retain the currently adopted speed limit without further reduction or restore the immediately prior adopted speed limit without further reduction as provided in CVC Section 22358.8.

Standard:

12ah Currently adopted speed limit or immediately prior adopted speed limit shall only be retained, by ordinance, if after completing an E&TS, local agency finds that the speed limit is still more than reasonable or safe, and that speed limit was established with an E&TS and if a registered engineer has evaluated the section of highway and determined that no additional general purpose lanes have been added to the roadway since completion of the traffic survey that established the prior speed limit.

12ai If local agency decides to use lower speed limit based on CVC Section 22358.8, after completing an E&TS and finding that the speed limit is still more than is reasonable or safe, it shall not be reduced by any more than 5 mph from the currently adopted speed limit nor below the immediately prior speed limit. Refer to CVC Section 22358.8(b).

CVC Section 22358.9 – Business Activity District

Option:

12aj A local authority may, by ordinance, determine and declare a 25 or 20 mph prima facie speed limit on a highway contiguous to a business activity district when posted with a sign that indicates a speed limit of 25 or 20 mph if the highway segment meets all of the following conditions:

1. A maximum of four traffic lanes.
2. A maximum posted 30 mph prima facie speed limit immediately prior to and after the business activity district, if establishing a 25 mph speed limit.
3. A maximum posted 25 mph prima facie speed limit immediately prior to and after the business activity district, if establishing a 20 mph speed limit.

12ak A "business activity district" is that portion of a highway and the property contiguous thereto that includes central or neighborhood downtowns, urban villages, or zoning designations that prioritize commercial land uses at the downtown or neighborhood scale and meets a least three of the following four requirements:

4. No less than 50 percent of the contiguous property fronting the highway consists of retail or dining commercial uses, including outdoor dining, that open directly onto sidewalks adjacent to the highway.
5. Parking, including parallel, diagonal, or perpendicular spaces located alongside the highway.
6. Traffic control signals or stop signs regulating traffic flow on the highway, located at intervals of no more than 600 feet. 7. Marked crosswalks not controlled by a traffic control device.

Standard:

12al A local authority shall not declare a prima facie speed limit on a portion of a highway where the local authority has already lowered the speed limit as permitted for designated safety corridors (CV Section 22358.7) or using the land or facility adjacent to high concentration of pedestrians and bicyclists (CVC Section 22358.7) or retained the currently adopted speed limit (CVC Section 22358.8) or have restored the immediately prior adopted speed limit (CVC Section 22358.8). Refer to CVC Section 22358.9(c).

13 Speed studies for signalized intersection approaches should be taken outside the influence areaof the traffic control signal, which is generally considered to be approximately 1/2 mile, to avoid obtaining skewed results for the 85th-percentile speed.

Support:

14 Advance warning signs and other traffic control devices to attract the motorist's attention to asignalized intersection are usually more effective than a reduced speed limit zone.

Guidance:

15 An advisory speed plaque (see Section 2C.08) mounted below a warning sign should be used to warn road users of an advisory speed for a roadway condition. A Speed Limit sign should not be used for this situation.

Option:

16 Other factors that may be considered when establishing or reevaluating speed limits are the following:

A. Road characteristics, shoulder condition, grade, alignment, and sight distance;
B. The pace;
C. Roadside development and environment;
D. Parking practices and pedestrian activity; and
E. Reported crash experience for at least a 12-month period.

17 Two types of Speed Limit signs may be used: one to designate passenger car speeds, including any nighttime information or minimum speed limit that might apply; and the other to show any special speed limits for trucks and other vehicles.

18 A changeable message sign that changes the speed limit for traffic and ambient conditions may be installed provided that the appropriate speed limit is displayed at the proper times.

19 A changeable message sign that displays to approaching drivers the speed at which they are

traveling may be installed in conjunction with a Speed Limit sign.

Guidance:

20 If a changeable message sign displaying approach speeds is installed, the legend YOUR SPEED XX MPH or such similar legend should be displayed. The color of the changeable message legend should be a yellow legend on a black background or the reverse of these colors.

Support:

21 Advisory Speed signs and plaques are discussed in Sections 2C.08 and 2C.14. Temporary TrafficControl Zone Speed signs are discussed in Part 6. The WORK ZONE (G20-5aP) plaque intended for installation above a Speed Limit sign is discussed in Section 6F.12. School Speed Limit signs are discussed in Section 7B.15.

22 Speed limits in California are governed by the California Vehicle Code (CVC), Sections 22348 through 22413; also, pertinent sections are found in Sections 627 and 40802 and others referenced in this section. See Section 1A.11 for information regarding this publication.

23 Refer to Part 6, Section 6C.01 for speed limit signs in temporary traffic control zones. Refer to Part 7 for speed limit signs in school areas.

Engineering and Traffic Survey (E&TS)

Support:

24 CVC Section 627 defines the term "Engineering and traffic survey" and lists its requirements.

Standard:

25 An engineering and traffic survey (E&TS) shall include, among other requirements deemed necessary by the department, consideration of all of the following:

A. Prevailing speeds as determined by traffic engineering measurements.

B. Collision records.

C. Highway, traffic, and roadside conditions not readily apparent to the driver.

Guidance:

26 The E&TS should contain sufficient information to document that the required three items of CVC Section 627 are provided and that other conditions not readily apparent to a driver are properly identified.

27 Prevailing speeds are determined by a speed zone survey. A speed zone survey should include:

A. The intent of the speed measurements is to determine the actual speed of unimpeded traffic. The speed of traffic should not be altered by concentrated law enforcement, or other means, just prior to, or while taking the speed measurements.

B. Only one person is required for the field work. Speeds should be read directly from a radar or other electronic speed measuring devices; or,

C. Devices, other than radar, capable of accurately distinguishing and measuring the unimpeded speed of free flowing vehicles may be used.

D. A location should be selected where prevailing speeds are representative of the entire speed zone section. If speeds vary on a given route, more than one speed zone section may be required, with separate measurements for each section. Locations for measurements should be chosen so as to minimize the effects of traffic signals or stop signs.

E. Speed measurements should be taken during off-peak hours between peak traffic periods on weekdays. If there is difficulty in obtaining the desired quantity, speed measurements may be taken during any period with free flowing traffic.

F. The weather should be fair (dry pavement) with no unusual conditions prevailing.

G. The surveyor and equipment should not affect the traffic speeds. For this reason, an unmarked car is recommended, and the radar speed meter located as inconspicuously as possible.

H. In order for the sample to be representative of the actual traffic flow, the minimum sample should be 100

vehicles in each survey. In no case should the sample contain less than 50 vehicles.

I. Short speed zones of less than 0.5 mile should be avoided, except in transition areas.

J. Speed zone changes should be coordinated with changes in roadway conditions or roadside development.

K. Speed zoning should be in 10 mph increments except in urban areas where 5 mph increments are preferable.

L. Speed zoning should be coordinated with adjacent jurisdictions.

Support:

28 Physical conditions such as width, curvature, grade and surface conditions, or any other condition readily apparent to the driver, in the absence of other factors, would not require special downward speed zoning. Refer to CVC 22358.5.

Option:

29 When qualifying an appropriate speed limit, local authorities may also consider all of the following findings:

A. Residential density, if any of the following conditions exist on the particular portion of highway and the property contiguous thereto, other than a business district:

1. Upon one side of the highway, within 0.25 mile, the contiguous property fronting thereon is occupied by 13 or more separate dwelling houses or business structures.
2. Upon both sides of the highway, collectively, within a distance of 0.25 mile the contiguous property fronting thereon is occupied by 16 or more separate dwelling houses or business structures.
3. The portion of highway is larger than 0.25 mile but has the ratio of separate dwelling houses or business structures to the length of the highway described in either subparagraph a or b.

B. Safety of bicyclists and pedestrians, with increased consideration for vulnerable pedestrian groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused.

30 The following two methods of conducting E&TS may be used to establish speed limits:

1. State Highways - The E&TS for State highways is made under the direction of the Department of Transportation's District Traffic Engineer. The data includes:
   a. One copy of the Example of Speed Zone Survey Sheet (See Figure 2B-101(CA)) showing:
      - A north arrow
      - Engineer's station or post mileage
      - Limits of the proposed zones
      - Appropriate notations showing type of roadside development, such as "scattered business," "solid residential," etc. Schools adjacent to the highway are shown, but other buildings need not be plotted unless they are a factor in the speed recommendation or the point of termination of a speed zone.
      - Collision rates for the zones involved
      - Average daily traffic volume
      - Location of traffic signals, signs and markings
      - If the highway is divided, the limits of zones for each direction of travel
      - Plotted 85th percentile and pace speeds at location taken showing speed profile
   b. A report to the District Director that includes:
      - The reason for the initiation of speed zone survey.
      - Recommendations and supporting reasons.
      - The enforcement jurisdictions involved and the recommendations and opinions of those officials.
      - The stationing or reference post in mileage at the beginning and ending of each proposed zone and any intermediate equations. Location ties must be given to readily identifiable physical features.
2. City and County Through Highways, Arterials, Collector Roads and Local Streets.
   a. The short method of speed zoning is based on the premise that a reasonable speed limit is one that

conforms to the actual behavior of the majority of motorists, and that by measuring motorists' speeds, one will be able to select a speed limit that is both reasonable and effective. Other factors that need to be considered include but are not limited to: the most recent two-year collision record, roadway design speed, safe stopping sight distance, superelevation, shoulder conditions, profile conditions, intersection spacing and offsets, commercial driveway characteristics, and pedestrian traffic in the roadway without sidewalks.

b. Determination of Existing Speed Limits - Figures 2B-103(CA) & 2B-104(CA) show examples of data sheets which may be used to record speed observations. Specific types of vehicles may be tallied by use of letter symbols in appropriate squares.

31 In most situations, the short form for local streets and roads will be adequate; however, the procedure used on State highways may be used at the option of the local agency.

32 Any agency may lower the speed limit below the prima facie speed limit after performing, and based on the results of an E&TS.

Guidance:

33 The establishment of a speed limit of more than 5 mph below the 85th percentile speed should be done with great care as studies have shown that establishing a speed limit at less than the 85th percentile generally results in an increase in collision rates; in addition, this may make violators of a disproportionate number of the reasonable majority of drivers.

Support:

34 Generally, the most decisive evidence of conditions not readily apparent to the driver surface in collision histories.

35 Speed limits are established at or near the 85th percentile speed, which is defined as that speed at or below which 85th percent of the traffic is moving. The 85th percentile speed is often referred to as the critical speed. Pace speed is defined as the 10 mph increment of speed containing the largest number of vehicles (See Figure 2B-102(CA)). The lower limit of the pace is plotted on the Speed Zone Survey Sheets as an aid in determining the proper zone limits. Speed limits higher than the 85th percentile are not generally considered reasonable and prudent. Speed limits below the 85th percentile do not ordinarily facilitate the orderly movement of traffic and require constant enforcement to maintain compliance. Speed limits established on the basis of the 85th percentile conform to the consensus of those who drive highways as to what speed is reasonable and prudent, and are not dependent on the judgment of one or a few individuals.

36 The majority of drivers comply with the basic speed law. Speed limits set at or near the 85th percentile speed provide law enforcement officers with a limit to cite drivers who will not conform to what the majority considers reasonable and prudent.

Further studies show that establishing a speed limit at less than the 85th percentile (Critical Speed) generally results in an increase in collision rates.

Option:

37 When roadside development results in traffic conflicts and unusual conditions which are not readily apparent to drivers, as indicated in collision records, speed limits somewhat below the 85th percentile may be justified. Concurrence and support of enforcement officials are necessary for the successful operation of a restricted speed zone.

Guidance:

38 Speed zones of less than 0.5 mile and short transition zones should be avoided.

Signs

Standard:

39 The Speed Limit (R2-1) sign shall be used to give notice of a prima facie or maximum speed limit except as provided under Prima Facie Speed Limits in CVC 22352.

40 When used, the TRUCKS, 3 AXLES OR MORE 55 MAXIMUM (R6-3(CA)) sign shall be installed

approximately 750 feet following each R2-1 sign.

41 **The ALL VEHICLES WHEN TOWING 55 MAXIMUM (R6-4(CA)) sign shall be installed approximately 750 feet following the R6-3(CA) sign.**

Guidance:

42 *The R6-3(CA) and R6-4(CA) signs should be placed on highway segments where speeds in excess of 55 mph are permitted.*

Option:

43 The existing AUTOS WITH TRAILERS, TRUCKS 55 MAXIMUM (R6-1(CA)) sign may remain in place until it is knocked down, damaged, stolen, vandalized, or otherwise reaches the end of its useful life.

44 The local California Highway Patrol office may be consulted to identify highway segments where enforcement is an issue.

On these segments early replacement of existing R6-1(CA) signs may be necessary.

Support:

45 Refer to CVC Section 22406 for types of vehicles subject to the 55 mph maximum speed limit.

Option:

46 The Speed Zone Ahead (R2-4(CA)) sign (see Figure 2B-3(CA)) may be used to inform the motorist of a reduced speed zone.

47 **The R2-4(CA) sign shall always be followed by a Speed Limit (R2-1) sign installed at the beginning of the zone where the reduced speed limit applies.**

48 **The End Speed Limit (R3(CA)) sign shall only be used to mark the end of a speed zone.**

49 **The R3(CA) sign shall not be used at a transition into a change in speed limits within a reduced zone.**

Option:

50 The R3(CA) sign (see Figure 2B-3(CA)) may be used with the TRUCK (M4-4) plaque to mark the end of truck speed zones on descending grades.

Standard:

51 **Speed limit signs shall be placed at the beginning of all restricted speed zones.**

Option:

52 Where speed zones are longer than 1 mile, intermediate signs may be placed at approximate 1 mile intervals. For three or more lanes in each direction, dual installation may be used.

Standard:

53 **The Speed Limit (R2-1) and End Speed Limit (R3(CA)) signs, as appropriate shall be placed at the end of all restricted speed zones**.

54 **Freeways with 65 mph and those segments where a speed limit of 70 mph has been approved by the Department of Transportation, with approval by the California Highway Patrol, shall be posted as follows:**

- **At the segment entrance, R2-1 signs shall be installed right of traffic off of the right shoulder.**
- **R2-1 signs shall also be installed off of the right shoulder only, throughout the segment, at a maximum of 25 mile intervals.**

Option:

- The 25 mile interval may be modified to include locations following entrance ramps.

Standard:

- **The R6-3(CA) sign (see Figure 2B-3(CA)) shall be installed approximately 750 feet following each R2-1 sign, both at the beginning and throughout each 60, 65 or 70 mph segment.**
- **The R6-4(CA) sign (see Figure 2B-3(CA)) shall be installed approximately 750 feet following each R6-3(CA) sign.**

Option:

- The SLOWER TRAFFIC KEEP RIGHT (R4-3) signs may be installed at locations where there is a tendency of the motorists to drive in the left-hand lane(s) below the normal speed of traffic.

Standard:

- **Signs shall be placed in protected locations.**
- **At the end of the 70/65 mph segment, R2-1 signs shall be installed off of the right shoulder.**

55 **Freeway segments where a 55 mph speed limit has been approved by the Department of Transportation, with the approval of the California Highway Patrol, shall be posted as follows:**

- **The beginning of the segment shall be posted with an R2-1 sign installed on the right shoulder and left shoulder where the median is of sufficient width to permit sign maintenance without lane closures.**

Guidance:

- *Subsequent signs should then be posted on the right shoulder, on approximate 3 mile intervals, with no more than 3 interchanges between signs.*
- *At the end of the segment, an R2-1 sign with the appropriate number for the next speed limit should be posted on the right shoulder.*

56 Conventional highways with 55 mph speed limits should be posted as follows:

- The beginning of the segment shall be posted with an R2-1 sign installed on the right shoulder.

Guidance:

- *Subsequent signs should then be posted on approximate 5 to 10 mile intervals and immediately after locations where significant volumes of traffic enter the segment.*
- *At the end of the segment, an R2-1 sign with the appropriate number for the next speed limit should be posted on the right shoulder.*

Conventional highways with 65 mph speed limits should be posted as follows:

- *The beginning of the segment should be posted with an R2-1 sign installed on the right shoulder.*
- *Subsequent signs should then be posted at 5 to 10 mile intervals and after locations where significant volumes of traffic enter the segment.*
- *At the end of the segment, an R2-1 sign with the appropriate number for the next speed limit should be posted on the right shoulder.*

Option:

57 Pavement markings with appropriate numerals (see Section 3B.21) may be used to supplement speed limit signs.

Standard:

58 **The R2-1 and R6-3(CA) and R6-4(CA) signs giving maximum statewide speed limits for various types of vehicles shall be installed on all State highways near the points of entrance into California.**

Guidance:

59 *The R2-1 and R6-3(CA) and R6-4(CA) signs should be placed in a location to be most effectively viewed by the approaching motorists.*

Standard:

60 **Speed Limit (R2-1) signs shall be installed throughout segments of freeway with posted speed limits of 65 mph or 70 mph at a maximum of 25 mile intervals.**

Option:

61 The 25 mile interval may be modified to include locations following entrance ramps.

Standard:

62 **Speed Limit (R2-1) signs shall be installed throughout segments of conventional highways with a posted speed limit of 65 mph at 5 mile to 10 mile intervals.**

63 **Speed Limit (R2-1) signs shall be installed throughout segments of freeway with a posted speed**

limit of 55 mph at approximately 3 mile intervals with no more than 3 interchanges between signs.

64 **Speed Limit (R2-1) signs shall be installed throughout segments of conventional highways with a posted speed limit of 55 mph at 5 mile to 10 mile intervals.**

Speed Enforced Signs

Option:

65 The SPEED ENFORCED BY RADAR (R48(CA)) sign (see Figure 2B-3(CA)) may be used where the California Highway Patrol has received authority to use radar and requests such signs.

Guidance:

66 *One sign should be used in each direction at the beginning of the segment of roadway, and at intervening major route intersections, where radar enforcement is in effect.*

Support:

67 The R48(CA) sign is a stand-alone sign intended to alert motorists that speed is enforced by radar on a particular segment of roadway.

Option:

68 The RADAR ENFORCED (R48-1(CA)) sign (see Figure 2B-3(CA)) may be used in combination with the Speed Limit (R2-1) sign on any roadway where law enforcement has the authority to use radar.

Guidance:

69 *When used, the R48-1(CA) sign should be placed below the R2-1 sign, at the beginning of the segment of roadway and at intervening major intersections, where radar enforcement is in effect.*

Option:

70 The SPEED ENFORCED BY AIRCRAFT (R48-2(CA)) sign (see Figure 2B-3(CA)) may be placed, when requested by the California Highway Patrol, on sections of highway regularly patrolled by aircraft.

Standard:

71 **The R48-2(CA) sign shall be used for both directions of travel.**

Guidance:

72 *The R48-2(CA) sign should be placed at the beginning of the section and spaced at 25 mile intervals. See Figure 3B-105(CA).*

Vehicle Speed Feedback Signs

Option:

73 A Vehicle Speed Feedback sign that displays to approaching drivers the speed at which they are traveling may be installed in conjunction with a Speed Limit (R2-1) sign.

Standard:

74 **If a Vehicle Speed Feedback sign displaying approach speeds is installed, the legend shall be YOUR SPEED XX. The numerals displaying the speed shall be white, yellow, yellow-green or amber color on black background. When activated, lights shall be steady-burn conforming to the provisions of CVC Sections 21466 and 21466.5. Vehicle Speed Feedback signs shall not alternatively be operated as variable speed limit signs.**

Guidance:

75 *To the degree practical, numerals for displaying approach speeds should be similar font and size as numerals on the corresponding Speed Limit (R2-1) sign.*

Option:

76 When used, the Vehicle Speed Feedback sign may be mounted on either a separate support or on the same support as the Speed Limit (R2-1) sign.

77 In lieu of lights, legend may be retroreflective film for flip-disk systems.

78 The legend YOUR SPEED may be white on black plaque located above the changeable speed display.

Support:

79 Driver comprehension may improve when the Vehicle Speed Feedback Sign is mounted on the same support below the Speed Limit (R2-1) sign.

80 Vehicle Speed Feedback Signs are appropriate for use with advisory speed signs and with temporary signs in temporary traffic control zones.

Basic Speed Law and Prima Facie Speed Limits – See CVC 22350 & 22352

Support:

81 The basic speed law states "No person shall drive a vehicle upon a highway at a speed greater than is reasonable or prudent having due regard for weather, visibility, the traffic on, and the surface and width of, the highway, and in no event at a speed which endangers the safety of persons or property."

Standard:

82 Prima facie speed limits are specific limits and shall apply unless changed based upon an engineering and traffic survey (E&TS) and signs are posted that display the new speed limit.

Option:

83 Prima facie speed limits may be preempted by the basic speed law, when roadway, traffic or weather conditions warrant a lower speed.

Use of Metric System Designations – See CVC 21351.3

Option:

84 Dual units for speed limits on signs may be placed on local streets and roads in both Metric and English units.

Guidance:

85 If used, dual unit speed limits should be rounded to the nearest 10 km/h for Metric and 5 mph for English units for posting on signs on local streets and roads.

Support:

86 Refer to AASHTO's Traffic Engineering Metric Conversion Factors. See Section 1A.11 for information regarding this publication.

Standard:

87 Metric speed limits shall not be placed on State highways. For use in this California MUTCD, 70 mph shall be shown as a metric equivalent of 110 km/h, neither of which shall be used on any local street or road.

Legal Authority for Establishing Speed Limits

Support:

88 Delegation of legal authority to set speed limits on State highways is given to Department of Transportation's District Directors. The District Director of each transportation district is authorized to issue orders regulating the speed of traffic, up to 65 mph on State highways. The Director of the Department of Transportation retains the authority to approve variable, minimum, and maximum speeds up to 70 mph on State freeways.

Standard:

89 The speed limits shown in Table 2B-101(CA) shall apply, unless changed upon the basis of an engineering and traffic survey (E&TS).

Option:

90 The speed limits shown in Table 2B-102(CA) may apply, unless changed upon E&TS.

Variable Speed Limits on Freeways - See CVC 22355

Option:

91 The following speed limits may apply:

a. Whenever the Department of Transportation determines based upon an engineering and traffic survey (E&TS) that the safe and orderly movement of traffic upon any freeway segment will be facilitated by the establishment of variable speed limits.

b. The Department may erect, regulate, and control signs upon the state highway which is a freeway, or any portion thereof, which, if used, signs shall be designed to permit display of different speeds at various times of the day or night.

c. Such signs need not conform to the standards & specifications per CVC 21400, but if used, shall be of sufficient size and clarity to give adequate notice of the applicable speed limit.

Minimum Speed Limits on State Highways - See CVC 22400

Option:

92 The following speed limits may apply:

a. Whenever the Department of Transportation determines based upon an engineering and traffic survey (E&TS) that slow speeds on any part of a state highway consistently impede the normal and reasonable movement of traffic, the Department may determine and declare a minimum speed limit. Appropriate signs giving notice shall then be installed on that segment.

b. A motorist can be cited for stopping or impeding the normal and reasonable movement of traffic unless the stop is necessary for safe operation and in compliance with the law.

Speed Traps

Support:

93 Refer to CVC 40802 for Speed Traps.

Standard:

94 A speed trap shall not apply to a local street, road, or school zone.

Support:

95 Senior zone is an area approaching or passing a senior center building or other facility primarily used by senior citizens, or the grounds thereof that is contiguous to a highway and on which is posted a standard "SENIOR" warning sign pursuant to CVC Section 22352.

96 Business activity district is a section of highway described in CVC Section 22358.9(b) in which a standard 25 mph or 20 mph speed limit sign has been posted pursuant to CVC Section 22358.9(a)(1).

Standard:

97 A section of highway shall be defined as a speed trap if the prima facie speed limit is not justified by an engineering and traffic survey (E&TS) within five years, and the enforcement of the speed limit involves the use of radar or any other electronic device that measures the speed of moving objects.

98 This time provision shall be extended to seven years when using radar and all of the following criteria are met:

- **The arresting officer has successfully completed a minimum of 24 hours of certified radar operator course training.**
- **The radar used to measure the speed meets or exceeds the minimal operational standards of the National Traffic Highway Safety Administration, and has been calibrated within three years of thealleged violation.**

99 This time provision shall be extended to seven years when using laser or other electronic device (other than radar) and all of the following criteria are met:

- **The arresting officer has successfully completed a minimum of 24 hours of certified radar operator course training.**
- **The arresting officer has successfully completed a minimum of 2 hours of additional approvedcertified training.**
- **The radar used to measure the speed meets or exceeds the minimal operational standards of theNational Traffic Highway Safety Administration, and has been calibrated within three years of thealleged violation.**

Option:

100 This time provision for an E&TS may be extended to ten years when all of the above conditions are

met and no significant changes in roadway or traffic conditions have occurred, including changes in adjoining property or land use, roadway width, or traffic volume as determined by a registered engineer.

Truck Speed Zone on Descending Grades

Guidance:

101 Highway descending grades, if used for posting TRUCK Speed Limit signs (R2-1 and M4-4) for trucks travelling downhill, should have recorded incident history of runaway commercial vehicles. Descending grades shorter than 1 mile should be avoided for posting signs because deceleration of vehicles due to braking actioncan generally provide sufficient control on descending grades of less than 1 mile.

Support:

102 To establish a downhill truck speed limit, a physical profile showing length and gradient and a downhill speed profile for three or more axle commercial vehicles with a gross rating of 10,000 lbs. or more will be provided.

Standard:

103 Speed profiles for truck speed limits shall be prepared on the same form as other speed surveys. An analysis of collisions involving trucks shall be prepared.

Guidance:

104 Posted speeds should be on the low side of the scale, generally within the pace of loaded commercial vehicles.

Standard:

105 If warranted, the Department of Transportation's District Director shall issue a standard speed zone order.

Support:

106 Posting of the regulation will be by placement of a standard 36 x 45 inch Speed Limit (R2-1) sign with a TRUCK (M4-4) plate above.

Standard:

107 A standard End Speed Limit (R3(CA)) sign with TRUCK (M4-4) plate shall be posted at the end of the truck zone when appropriate.

Speed Zones in Temporary Traffic Control Areas

Support:

108 For signing and establishing speed zones in temporary traffic control areas, refer to Section 6C.01 in Part

Speed Zones and Traffic Signals

Standard:

109 An agency changing the speed limits within its jurisdiction shall report the speed limit change to the agency operating and maintaining traffic signals within the speed zone no later than 30 days before changing the posted speed limit.

Support:

110 Changing the signal timing and adjusting the advance detector loops based on the revised speed limits can enhance the operations of the traffic signal.

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Table 2B-101(CA). Standard Application of Speed Limits per California Vehicle Code

Speed	Determined by	Roadway Facility	CVC Section
15 mph	State or local authority	▪ Railroad grade crossing with obstructed view ▪ Uncontrolled highway intersection with obstructed view ▪ An alley	22352.a.1
15 & 20 mph	State or local authority	Where the prima facie speed of 25 mph is more than is reasonable or safe ▪ Narrow street not exceeding 25 feet other than a State Highway in a business or residential area or in a public park ▪ Road near a school or senior center facility	22358.3 & 22358.4
25 mph	State or local authority	▪ Any highway in any business or residential district ▪ A street contiguous to senior citizen facility other than a State highway ▪ Adjacent to a children's playground in a public park, but only during particular hours or days when children are expected to use facilities	22352.b & 22357.1

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Table 2B-102(CA). Standard Application of Speed Limits per California Vehicle Code

Speed	Determined by	Roadway Facility	CVC Section
15 to 60 mph	Caltrans	State highway, based on an E&TS where ethe limit of 65 mph is more than reasonable or safe	22354
15 to 60 mph	Local city council or county board of supervisors for Caltrans	State highway, local entities may conduct a public hearing on proposed increases or decreases and the State Department of Transportation shall take into consideration the results of the public hearing	22354.5
30 to 65 mph	Local authority	Any street other than a State highway, by ordinance, may post a prima facie speed limit based on an E&TS where a speed > 25 mph would facilitate the orderly movement of vehicular traffic and would be reasonable and safe	22357
15 to 60 mph	Local authority	Any street other than a State highway, by ordinance, may post a prima facie speed limit based on an E&TS where the limit of 65 mph is more than is reasonable and safe	22358.8(a)
20 to 50 mph for Trucks	State or local authority	Highways under their respective jurisdiction where 55 mph is more than is reasonable or safe for vehicles mentioned in CVC 22406 (Trucks and other large vehicles)	22407
Maximum Speed 55 mph	State or local authority	▪ Two-lane, undivided highway ▪ Any highway if driving any of the following vehicles: a. Motortruck or truck tractor with > 3 axles b. Passenger vehicle or bus towing any other vehicle c. School bus transporting any school pupil d. A farm labor vehicle when transporting passengers e. A vehicle transporting explosives f. A trailer bus	22349.b & .c and 22406
Maximum Speed Limit of 65 mph	State or local authority	Any highway, posted at 65 mph based upon an E&TS, for vehicles not subject to CVC 22406	22349(a) & 22349
Maximum Freeway Speed Limit 70 mph	Caltrans	Freeways, after consultation with the California Highway Patrol, based upon an E&TS, or upon the basis of appropriate designs standards and projected traffic volumes in the case of newly constructed freeway segments, for vehicles not subject to CVC 22406	22356

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Table 2B-103(CA). Examples showing applicability of rounding and additional speed reduction on State Highway System

85th-Percentile Speed (mph)	Rounding to nearest 5 mph increment (CVC 22358.6(a))	If rounding to nearest is up, may round down (CVC 22358.6(c))	If rounding to nearest is down, may additionally lower by 5 mph (CVC 22358.6(b))
47.5-50.0	50	45	N/A
45.1-47.4	45	N/A	40
42.5-45.0	45	40	N/A
40.1-42.4	40	N/A	35

Note – CVC Sections 22358.7, 22358.8 & 22358.9 are applicable to local agency roadways and public properties subjected to CVC, they are not applicable to the State Highway System. Refer to Section 2B.13 for more details.

Table 2B-104(CA). Examples showing applicability of rounding and additional speed reduction on Local Agency's Roadways & Private Property Subjected to CVC

85th-Percentile Speed (mph)	Rounding to nearest 5 mph increment (CVC 22358.6(a))	If rounding to nearest is up, may round down (CVC 22358.6(c))	If rounding to nearest is down, may additionally lower by 5 mph (CVC 22358.6(b))	If safety corridor or adjacent to high concentration of bicyclists & pedestrians, may additionally lower by 5 mph (CVC 22358.7)*
47.5-50.0	50	45	N/A	40
45.1-47.4	45	N/A	40	35
42.5-45.0	45	40	N/A	35
40.1-42.4	40	N/A	35	30

* Note – CVC Sections 22358.7, 22358.8 & 22358.9 are applicable to local agency roadways and private properties subjected to CVC, they are not applicable to the State Highway System. Refer to Section 2B.13 for more details.

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Table 2B-105(CA). Safety Corridor Factors

Category	Factors
Crash Weighting Factors to Develop One Serious/Fatal Injury Safety Corridor	▪ Crash severity: Fatal Crashes, Serious Injury Crashes ▪ Mode: Pedestrian-bicycle related crashes, vehicle/other ▪ Disadvantaged Community Status: MPO/RTPA or locally defined disadvantaged community status based on most current version of CalEnviroScreen ▪ Vulnerable Populations: Seniors (age 65 and older) and Youth (under age 15) based on the American Community Survey ▪ School proximity (within 0.25 miles) based on the California School Campus Database ▪ Systemic or Predicted Crashes
Crash Density	Each roadway segment block may be converted into ~ 0.25 mile overlapping or contiguous "corridor" segments to create a consistent unit of measurement and assess the concentration of linear patterns of crashes within a defined distance. The highest scoring (i.e. most fatal and serious injury crashes per mile) "corridor" segments within a street needs to be identified and an appropriate threshold set to determine safety corridor eligibility.
Maintenance	The jurisdiction may establish a review and re-evaluation frequency for safety corridors. However, such frequency need not exceed seven years.

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Table 2B-106(CA). Requirements to determine Land or Facility that Generates High Concentrations of Bicyclists or Pedestrians

Category	Generator
Land Use	Employment centers
	Presence of retail
	Parks, multi-use trails, and recreational destinations
	Schools/universities
	Senior Centers
	Cultural areas, entertainment space areas, or areas of community significance
	Religious facilities
	Health/medical facilities
Transit Factors	Transit stops
	Transit Oriented Developments/Transit Priority Areas
Presence of Pedestrian/Bicyclist Infrastructure	Sidewalk presence
	Crosswalk presence
	Bikeway presence
	Nearby signalized intersections on four-way intersections
	Presence of micromobility devices such as bicycles or scooters
Demographic Factors	Presence of vulnerable groups including children, seniors, persons with disabilities, users of personal assistive mobility devices, and the unhoused
	MPO/RTPA or locally defined disadvantaged community status
	Presence of students (all levels)
Local Data	Need identified in a safety analysis such as a road safety audit or formalized planning document such as a local road safety plan

[1] *Black text is consistent with the federal MUTCD, blue text is where the CA MUTCD differs from the federal MUTCD, green text was added to the CA MUTCD in compliance with AB 43 & AB 1938.*

Definitions of Selected Terms Used in the CA MUTCD

Text Headings

Standard—a statement of required, mandatory, or specifically prohibitive practice regarding a traffic control device. All Standard statements are labeled, and the text appears in bold type. The verb “shall” is typically used. The verbs “should” and “may” are not used in Standard statements. Standard statements are sometimes modified by Options.

Guidance—a statement of recommended, but not mandatory, practice in typical situations, with deviations allowed if engineering judgment or engineering study indicates the deviation tobe appropriate. All Guidance statements are labeled, and the text appears in non-bolded type.The verb “should” is typically used. The verbs “shall” and “may” are not used in Guidance statements. Guidance statements are sometimes modified by Options.

Option—a statement of practice that is a permissive condition and carries no requirement or recommendation. Option statements sometime contain allowable modifications to a Standard or Guidance statement. All Option statements are labeled, and the text appears in non-bolded type. The verb “may” is typically used. The verbs “shall” and “should” are not used in Option statements.

Support—an informational statement that does not convey any degree of mandate, recommendation, authorization, prohibition, or enforceable condition. Support statements are labeled, and the text appears in non-bolded type. The verbs “shall,” “should,” and “may” are not used in Support statements.

Words and Phrases

Speed—speed is defined based on the following classifications:

(a) ***Average Speed***—the summation of the instantaneous or spot-measured speeds at a specific location of vehicles divided by the number of vehicles observed.

(b) ***Design Speed***—a selected speed used to determine the various geometric designfeatures of a roadway.

(c) ***85th-Percentile Speed***—the speed at or below which 85 percent of the motor vehicles travel.

(d) ***Operating Speed***—a speed at which a typical vehicle or the overall traffic operates. Operating speed might be defined with speed values such as the average, pace, or 85th-percentile speeds.

(e) ***Pace***—the 10 mph speed range representing the speeds of the largest percentage of vehicles in the traffic stream.

Speed Limit—the maximum (or minimum) speed applicable to a section of highway as established by law or regulation.

Posted Speed Limit—a speed limit determined by law or regulation and displayed on SpeedLimit signs.

Speed Zone—a section of highway with a speed limit that is established by law or regulation,but which might be different from a legislatively specified statutory speed limit.

Statutory Speed Limit—a speed limit established by legislative action that typically is applicable for a particular class of highways with specified design, functional, jurisdictionaland/or location characteristics and that is not necessarily displayed on Speed Limit signs.

Average Daily Traffic (ADT)—the average 24 hour volume, being the total volume during a stated period divided by the number of days in that period. Normally, this would be periodic daily traffic volumes over several days, not adjusted for days of the week or seasons of the year.

Bicycle Lane—a portion of a roadway that has been designated for preferential or exclusiveuse by bicyclists by pavement markings and, if used, signs. See Class II Bikeway.

Business District - A "business district" is that portion of a highway and the property contiguous thereto (a) upon one side of which highway, for a distance of 600 feet, 50 percent or more of the contiguous property fronting thereon is occupied by buildings in use for business, or (b) upon both sides of which highway, collectively, for a distance of 300 feet, 50 percent or more of the contiguous property fronting thereon is so occupied. A business districtmay be longer than the distances specified in this section if the above ratio of buildings in usefor business to the length of the highway exists. Refer to CVC 235.
CVC – California Vehicle Code.

Class II Bikeway (such as a Bike Lane) – Provides a restricted right-of-way designated forthe exclusive or semi-exclusive use of bicycles with through travel by motor vehicles or pedestrians prohibited, but with vehicle parking and crossflows by pedestrians and motoristspermitted. Refer to California Streets and Highways Code Section 890.4. Refer to Caltrans' Highway Design Manual Index 1003.2 for design criteria.

Divided Highway – A highway with separated roadbeds for traffic in opposing directions.

Engineer – a person registered under California Professional Engineers Act as a professional engineer, including any of the branches thereof. Refer to California Business and Professions Code Section 6706. 63b. Engineering and Traffic Survey – Refer to CVC 627.

Engineering Judgment—the evaluation of available pertinent information, and the applicationof appropriate principles, experience, education, discretion, provisions, and practices as contained in this Manual and other sources, for the purpose of deciding upon the applicability, design, operation, or installation of a traffic control device. Engineering judgment shall be

exercised by an engineer, or by an individual working under the supervision of an engineer, through the application of procedures and criteria established by the engineer. Documentationof engineering judgment is not required.

Engineering Study—the comprehensive analysis and evaluation of available pertinent information, and the application of appropriate principles, engineering judgment, experience, education, discretion, provisions, and practices as contained in this Manual and other sources, for the purpose of deciding upon the applicability, design, operation, or installation of a traffic control device. An engineering study shall be performed by an engineer, or by an individual working under the supervision of an engineer, through the application of procedures and criteria established by the engineer. An engineering study shall be documented.

Median—the area between two roadways of a divided highway measured from edge of traveled way to edge of traveled way. The median excludes turn lanes. The median widthmight be different between intersections, interchanges, and at opposite approaches of the same intersection.

Multi-Lane—more than one lane moving in the same direction. A multi-lane street, highway, or roadway has a basic cross-section comprised of two or more through lanes in one or both directions. A multi-lane approach has two or more lanes moving toward the intersection, including turning lanes.

Pedestrian—a person on foot, in a wheelchair, on skates, or on a skateboard. As per CVC 467, (a) A "pedestrian" is a person who is afoot or who is using any of the following: (1) A means of conveyance propelled by human power other than a bicycle. (2) An electric personal assistive mobility device. (b) "Pedestrian" includes a person who is operating a self-propelled wheelchair, motorized tricycle, or motorized quadricycle and, by reason of physical disability, isotherwise unable to move about as a pedestrian, as specified in subdivision(a).

Pedestrian Facilities—a general term denoting improvements and provisions made to accommodate or encourage walking.

Roadway—that portion of a highway improved, designed, or ordinarily used for vehicular travel and parking lanes, but exclusive of the sidewalk, berm, or shoulder even though such sidewalk, berm, or shoulder is used by persons riding bicycles or other human-powered vehicles. In the event a highway includes two or more separate roadways, the term roadway as used in this Manual shall refer to any such roadway separately, but not to all such roadwayscollectively. Refer to CVC 527.

Shared-Use Path (Class I Bikeway) —a bikeway outside the traveled way and physically separated from motorized vehicular traffic by an open space or barrier and either within the highway right-of-way or within an independent alignment. Shared-use paths are also used by pedestrians (including skaters, users of manual and motorized wheelchairs, and joggers) and other authorized motorized and non-motorized users. Refer to the Caltrans' Highway Design Manual Index 1003.1 for design criteria.

Shoulder – The portion of the highway contiguous with the roadway for accommodations of pedestrians, bicyclists, stopped vehicles, for emergency use, and for lateral support of baseand surface courses.

Sidewalk—that portion of a street between the curb line, or the lateral line of a roadway, andthe adjacent property line or on easements of private property that is paved or improved andintended for use by pedestrians. As per CVC 555, "Sidewalk" is that portion of a highway, other than the roadway, set apart by curbs, barriers, markings or other delineation for pedestrian travel.

Traffic Control Device—a sign, signal, marking, or other device used to regulate, warn, or guide traffic, placed on, over, or adjacent to a street, highway, private road open to public travel (see definition of private road open to public travel), pedestrian facility, or shared-use path by authority of a public agency or official having jurisdiction, or, in the case of a private road open to public travel (see definition of private road open to public travel), by authority ofthe private owner or private official having jurisdiction.

APPENDIX C

Engineering and Traffic Survey Summary Sheets

(Updated August 2025)

City of Eastvale

Engineering & Traffic Survey Summary

Location:	58th Street	Survey Date:	July 29, 2021
Between:	Scholar Way & Hamner Avenue	Segment No.:	1
Direction of Travel:	East/West		

Traffic Data	
Average Daily Traffic:	1,522
Length of Segment (feet):	2,586
Length of Segment (miles):	0.49
Lane Configuration:	Single Lane Each Direction
Street Classification:	Collector
Speed Survey Data	
85th Percentile:	40 mph
10 mph Pace:	31-40 mph
Posted Speed Limit:	35 mph
Collision History	
Date Range:	July 1, 2018 - June 30, 2021
Total Collisions:	0
Collision Rate (Accidents/MVM):	0.00, less than statewide collision rate
Statewide Collision Rate:	1.60
Conditions Not Readily Apparent	
Conditions: Sidewalk on north side only at Scholar Way.	
Roadway Geometrics:	
Comments: Ped/bike safety	
Adjacent Land Use:	Residential
Recommendation	
Recommended Speed:	35 mph
Speed Limit Change:	No
Recommendation based on:	85th percentile speed, Option 2 (rounded to 40 mph, then reduced 5mph)

Approved and Authorized for release by City Traffic Engineer*:

Ruth Smith, TE, PTP TE 1650

12/20/2021
Date

REGISTERED PROFESSIONAL ENGINEER RUTH MATTHEWS SMITH 1650 TRAFFIC STATE OF CALIFORNIA

* Contract services provided by Interwest Consulting Group

CITY OF EASTVALE

Engineering and Traffic Survey Summary

Location:	**65th Street**	Survey Date:	3/19/2025
Between:	**Archibald Avenue & Sumner Avenue**	Segment No.:	2
Direction of Travel:	East/West		

Traffic Data	
Average Daily Traffic:	6,155
Length of Segment (feet):	5,300
Length of Segment (miles):	1.00
Lane Configuration:	2 Lanes Each Direction w/ painted median
Street Classification:	Secondary Collector
Speed Survey Data	
85th Percentile Speed (mph):	46
10 mph Pace:	38 - 47 mph
Posted Speed Limit (mph):	40
Collision History	
Date Range:	January 1, 2023 - December 31, 2024
Total Collisions:	0
Collision Rate (crashes / MVM):	0.00
Statewide Collision Rate:	1.24

Conditions Not Readily Apparent

Conditions:
Heavy pedestrian & vehicular traffic during school. Sidewalk located next to curb, so vehicular traffic is in close proximity to pedestrians and bike traffic.

Roadway Geometrics:
4-Lane, Divided. Straight alignment. Bike lanes, but substandard.

Comments:
Near Cedar Creek Park at Cedar Creek Rd. Rosa Parks Elementary at Harrison Ave.
Residences do not front on 65th St. - no direct access.

Adjacent Land Use: Residential

Speed Limit Recommendation

Recommended Speed Limit:	**40 mph**
Speed Limit Change:	No Change, same as existing
Recommendation Based On:	85th percentile speed, Option 1 & CVC 22358.6(c)

CITY OF EASTVALE

Engineering and Traffic Survey Summary

Location:	**Goodman Avenue**	Survey Date:	5/23/2025
Between:	**Cantu-Galleano Ranch Rd & Hamner Ave**	Segment No.:	19
Direction of Travel:	North/South & East/West		

Traffic Data	
Average Daily Traffic:	6,365
Length of Segment (feet):	3,600
Length of Segment (miles):	0.68
Lane Configuration:	3-Lane Undivided
Street Classification:	Local Road
Speed Survey Data	
85th Percentile Speed (mph):	45
10mph Pace:	35-44 mph
Posted Speed Limit (mph):	35
Collision History	
Date Range:	January 1, 2023 - December 31, 2024
Total Collisions:	9
Collision Rate (crashes / MVM):	2.85
Statewide Collision Rate:	1.11

Conditions Not Readily Apparent

Conditions:
Very heavy truck traffic making mid-block turns. No bike lanes, but mixed-use path on south & east sides. Parking not allowed. Many peds crosing during shift change.

Roadway Geometrics:
1 lane NB & 2 lanes SB for N/S, 2 lanes in each direction for E/W. 2-way left turn lane on both segments. Roadway is generally N/S, but makes a 90 degree turn to west at the south end & proceeds E/W to Hamner Ave. Straight alignment with S-curve at north end. 2-way left turn lane both N/S & E/W. Raised median on approach to Cantu-Galleano Ranch Rd.

Comments:
The segment collision rate is 2.57 times the statewide rate, allowing the collision rate to be used to reduce the speed limit by 5 mph with Option 1, however, not relevant in this case. Large trucks present. Ped/bike safety.

Adjacent Land Use:	Mix of Retail/Big Box/Warehouse Uses

Speed Limit Recommendation

Recommended Speed Limit:	**35**
Speed Limit Change:	No
Recommendation Based On:	85th percentile speed, Option 2 & CVC 22358.7(a)(2).

Approved and Authorized for release by City Traffic Engineer*:

Engineering and Traffic Survey Summary

Location:	**Hamner Avenue**	Survey Date:	5/23/2025
Between:	**Cantu-Galleano Ranch Rd & Riverside Dr**	Segment No.:	24
Direction of Travel:	North/South		

Traffic Data	
Average Daily Traffic:	17,865
Length of Segment (feet):	6,500
Length of Segment (miles):	1.23
Lane Configuration:	4-Lane Undivided
Street Classification:	Urban Arterial
Speed Survey Data	
85th Percentile Speed (mph):	54
10mph Pace:	43-52 mph
Posted Speed Limit (mph):	50
Collision History	
Date Range:	January 1, 2023 - December 31, 2024
Total Collisions:	1
Collision Rate (crashes / MVM):	0.06
Statewide Collision Rate:	1.33

Conditions Not Readily Apparent

Conditions:
No parking, Class 2 bike lane NB, heavy truck traffic at times.

Roadway Geometrics:
2 Lanes NB. SB (in Ontario) varies due to different stages of adjacent land use development, from 2 lanes at north end to 1 lane to 2 lanes to 3 lanes to 4 lanes & back to 2 lanes at the south end. Primarily 2-way left turn lane with a section of painted median. For purposes of the E&TS, assume 4-Lane Undivided. Straight alignment.

Comments:
Large trucks present. Ped/bike safety.

Adjacent Land Use:	Light Industrial & Commercial

Speed Limit Recommendation

Recommended Speed Limit:	**45**
Speed Limit Change:	Yes, reduced by 5 mph
Recommendation Based On:	85th percentile speed, Option 2 & CVC 22358.7(a)(2). Provides continuity with segments to the south.

APPENDIX G

Radar/Lidar Gun and Operator(s) Certifications

(Updated August 2025)

SOUTHERN CALIFORNIA RADAR/LASER CERTIFICATION LABORATORY

P.O. Box 2397
Borrego Springs, CA 92004

I certify that the Stalker Dual Radar, Serial Number 041547 + antenna 034081 was tested on February 01, 2024, and was calibrated to be within the Manufacturers specifications for accuracy and stability.

- Unit meets or exceeds the NHTSA standards for accuracy.
- Unit is listed on the IACP Conforming Product List.
- Unit tests meet or exceed the standards set forth in cvc 40802().

Test Results

Test	Min	Max	Read	Pass
Visual/Function	-	-	-	Yes
Tuning Fork Frequency	-.5%	+.5%	+.00	Yes
Radar Device Tuning Fork FF010828	-1MPH	+1MPH	0	Yes
Microwave Frequency –Ka Band	-100MHz	+100MHz	34.748 GHz	Yes
Radiated Output Power Variation	-1.5dB	+1.5dB	+.013	Yes
Antenna Horizontal Bandwidth Ka-Band	-	15°	11°	Yes
Low Voltage Supply	-	10.8V	10.2	Yes
Accuracy-Stationary Mode	-2MPH	+1MPH	0	Yes
Accuracy-Moving Mode	-2MPH	+2MPH	0	Yes
Target Channel Sensitivity	<10dB (35-90 MPH)		2.2dB	Yes
Antenna Near Field Maximum Power Density		0dBm/cm²	-21.20dBm/cm² -22.15dBm/cm²	Yes
25 MPH	-2MPH	+1MPH	25 MPH	Yes
50 MPH	-2MPH	+1MPH	50 MPH	Yes
65 MPH	-2MPH	+1MPH	65 MPH	Yes

This unit was thoroughly tested for accuracy using NHTSA and Manufacturers test methods with equipment specifically designed and built to ensure precision measurements under controlled conditions. This unit passed all applicable tests and is hereby certified to operate within the manufacturer's specifications and to conform to NHTSA standards to be accurate in the measurement of the speed of any vehicle.

The original of this document has an embossed seal over the signature.

I certify (or declare) under the penalty of perjury under the laws of the state of California that the foregoing is true and correct.

CITY OF EASTVALE

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 11.12
September 10, 2025

Purchase of a Material Blower for Compost and Mulch

Prepared By:
Simone Blackwell, Environmental Compliance Analyst

Recommended Action(s)
Staff recommends that the City Council authorize the issuance of a purchase order to Clairemont Equipment Company an authorized Finn dealership utilizing cooperative purchase contract #070821-FNN in an amount not to exceed $110,000 for the purchase of a mulch and compost material blower.

Summary
Request to purchase one (1) new Finn Material Blower at a cost not to exceed $110,000 for compost and mulch activities. Senate Bill (SB) 1383 Local Assistance Grant funds would be used to purchase the equipment.

Background
Senate Bill (SB) 1383 (Chapter 395, Statutes of 2016) establishes statewide targets to reduce methane emissions by diverting organic waste from landfills. To support these goals, jurisdictions are required to annually procure recovered organic waste products such as compost, mulch, biofuel, or biomass conversion electricity. The SB 1383 Local Assistance Grant Program provides funding to help cities meet procurement and implementation requirements.

The City regularly utilizes compost and mulch to maintain city-owned frontage areas, city properties, and at give-away events for the community. The Public Works Department recommends purchasing a compost and mulch material blower, which is specifically engineered to evenly spread large volumes of material over wide areas with precision. This capability reduces manual labor, improves coverage quality, and ensures consistent application for landscaping, soil health, and erosion

control. A preliminary cost estimate of the recommended vehicle is attached with additional detail. The equipment will be funded through the SB 1383 Local Assistance Grant Program.

If approved, the procurement of this vehicle will be conducted through a Sourcewell cooperative purchasing agreement which is compliant with Eastvale Municipal Code Section 4.06.080(d). Cooperative purchasing is "procurement conducted by, or on behalf of, one or more Public Procurement Units" defined by the American Bar Association Model Procurement Code for State and Local Governments. Sourcewell's analysts streamline the procurement process by developing RFPs and IFBs for national, competitive solicitations that meet or exceed local requirements.

Environmental

Not applicable.

Strategic Plan Action - Priority Level: N/A | Target #: E | Goal #: C

The purchase of a material blower supports the goal of supporting infrastructure by planning for landscape, roads, and street maintenance (Target E, Goal C).

Fiscal Impact

Total fiscal impact for this item is $110,000. The equipment purchase is fully funded by the SB 1383 Local Assistance Grant Program and requires no contribution from the General Fund. The fiscal year 2025-26 budget includes adequate appropriations for the equipment purchase in the Miscellaneous Grants Fund, Vehicle Expenditure Account 240-311-6610-73002-0000. The General Fund will be required to contribute to ongoing equipment maintenance. Public Works will manage the equipment and adequate budget is available in the Public Works General Fund vehicle maintenance account 100-500-6330; staff estimates the annual cost is approximately $1,000 annually. Additionally, fuel costs are budgeted in the Public Works General Fund vehicle maintenance account 100-500-6330 are estimated at approximately $500 annually.

Prior City Council/Commission Action

Not applicable.

Sourcewell

Solicitation Number: RFP #070821

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and FINN Corporation, 9281 LeSaint Drive, Fairfield, OH 45014 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Road Right-of-Way Maintenance Equipment from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires August 9, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

All Equipment and Products provided under this Contract must be new andthe current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entitles may require the use of a Participating Addendum; the terms of which will be negotiateddirectly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;
- Timely response to all Sourcewell and Participating Entity inquiries; and

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

mailed to the address above “Attn: Accounts Receivable” or remitted electronically to Sourcewell’s banking institution per Sourcewell’s Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract’s expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier’s Authorized Representative is the person named in the Supplier’s Proposal. If Supplier’s Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Agreement are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party.For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, stored, used, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:
   a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use thetrademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.
   b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.
2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. As applicable, Supplier agrees to indemnify and hold harmless Sourcewell and its Participating Entities against any and all suits, claims, judgments, and costs instituted or recovered against Sourcewell or Participating Entities by any person on account of the use of any Equipment or Products by Sourcewell or its Participating Entities supplied by Supplier in violation of applicable patent or copyright laws.

5. Termination. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.
Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for Products-Completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.

Minimum Limits:
$1,000,000 each accident, combined single limit

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier not use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by an Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

DocuSign Envelope ID: 2B19AD8A-084F-43DB-87B8-3E826C184A45

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	
9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	FINN Corporation provides innovative solutions for ground and soil management to the landscape and erosion control industries. We pride ourselves on manufacturing products that give our customers the ability to work more profitably by completing more jobs for less cost. Innovation, productivity, and efficiency are the design foundations of FINN equipment. We began in 1935 with the invention of the Straw Blower by Charles Finn, for blowing straw over bare soil, specifically for seed protection. Today, we offer three models of Straw Blowers that range from 4 tons of straw and hour to over 20 tons an hour. Following the Straw Blower, in 1953 Charles Finn invented the HydroSeeder to efficiently shoot seed, fertilizers, and other soil amendments over broad areas. Today, we offer the widest range of HydroSeeder sizes in the industry and have sold more than 25,000 units. With fifteen models ranging from the T30 at 335 gallons to the HT400 at 3,975 gallons, we have the right size machine to fit any landscape/grounds maintenance or erosion control needs. Also, 25 years ago FINN developed and began manufacturing the Material Blower product line. These small to mid-size Material Blowers pneumatically apply mulches, soil blends, compost, and wood chips. They are often used to spread bark or mulch for flower and garden beds, tree rings, "fill-in-place" sediment control filter sock, and the application of erosion control blankets. Most recently, Finn has added a line of Ground Preparation Attachments to its equipment offering. Soil bed preparation is key to successful re-vegetation, and this new line of tractor, skid-steer, and mini-skid steer attachments are the ideal tools for preparing the ground before seeding.	*
10	What are your company's expectations in the event of an award?	FINN Corporation looks forward to continuing to work with Sourcewell members to provide them with the best in class products and services. Our goal is to continue to nurture these relationships that we have made with Sourcewell members and provide long-term business opportunities.	*
11	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	FINN Corporation will provide financial data to support our financial strength. The company has been in business for 86 years and has the financial stability to support future business operations.	*
12	What is your US market share for the solutions that you are proposing?	We estimate that our HydroSeeder market share for the US is 70%, based on EDA data and other industry markers. FINN remains the only manufacturer of the small to mid-size Material Blowers, and represents 100% of the market share. We maintain a 75% market share in Straw Blowers. Our Ground Preparation Attachments have only been out in the market for 12 months, so it is too early for us to give a market share estimate.	*
13	What is your Canadian market share for the solutions that you are proposing?	We estimate that our HydroSeeder market share is Canada is 80%, based on EDA data and other industry markers. FINN remains the only manufacturer of the small to mid-size Material Blowers, and represents 100% of the market share. The straw blowing market in Canada is much smaller than the US, and we maintain a 70% market share in this category. Our Ground Preparation Attachments have only been out in the market for 12 months, so it is too early for us to give a market share estimate.	*
14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No.	*
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	We are a manufacturer with a dealer network. We currently have 28 separate dealers throughout the United States and Canada. Currently, this provides our customers with 137 sales and service locations. To support our dealer network, we have our own FINN Regional Sales Managers, Inside Sales Coordinators, and Customer Service Representatives. These people are employed by FINN and work in teams with their assigned dealers to ensure the best FINN support- both before and after the sale of the equipment. In order to cultivate our positive, beneficial manufacturer/dealer relationship, we hold an annual dealer conference with approximately 120 people in attendance, and offer in-person and virtual trainings throughout the year. We also offer technical service trainings both on-site, and at our manufacturing facility. Our dealers are not employed by FINN.	*
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	No licenses or certifications are required. FINN dealers will provide the training necessary to properly operate our equipment when it is sold to Sourcewell members.	*
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	FINN Corporation has not faced any "Suspension or Disbarment" issues during the past 10 years.	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
18	Describe any relevant industry awards or recognition that your company has received in the past five years	We have not received any awards within the past 5 years, but have been long-term members and financial supporters of the following: International Erosion Control Association (IECA), American Rental Association (ARA), International Association of Hydroseeding Professionals (IAHP), and the Professional Grounds Management Society (PGMS).	*
19	What percentage of your sales are to the governmental sector in the past three years	Three percent of our sales are to the government sector and are made through our dealer network.	*
20	What percentage of your sales are to the education sector in the past three years	0	*
21	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	FINN Corporation does not hold any additional cooperative purchasing contracts. Our dealer network handles all local, county, and state purchasing contracts.	*
22	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	We do not currently have any GSA contracts. We are SAM/CAGE registered for parts sales. We provided the Marine Corps with equipment over 10 years ago. Contract valued at $2 million.	*

Table 4: References/Testimonials

Line Item 23. Supply reference information from three customers who are eligible to be Sourcewell participating entities.

Entity Name *	Contact Name *	Phone Number *	
Saginaw County Road Commission	Dan Medina	(989) 399-3773	*
City of Holdrege	Kim Parson	(308) 991-4855	*
Southeastern Public Service Authority	Henry Strickland	(757) 374-4548	*

Table 5: Top Five Government or Education Customers

Line Item 24. Provide a list of your top five government, education, or non-profit customers (entity name is optional), including entity type, the state or province the entity is located in, scope of the project(s), size of transaction(s), and dollar volumes from the past three years.

Entity Name	Entity Type *	State / Province *	Scope of Work *	Size of Transactions *	Dollar Volume Past Three Years *	
N/A	Government	Michigan - MI	3,000 gallon hydroseeder purchased for landfill solutions	$140,690	$140,690	*
N/A	Government	New Jersey - NJ	6 cu. Yard Material Blower purchased for landscaping county properties	$100,253	$100,253	*
N/A	Government	Washington - WA	5 cu. Yard Material Blower purchased for landscaping city properties	$87,052	$87,052	*
N/A	Government	Nebraska - NE	1,200 gallon hydroseeder purchased for landfill solutions	$77,895	$77,895	*
N/A	Government	Ohio - OH	5 cu. Yard Material Blower purchased for landscaping campus properties	$75,490	$75,490	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
25	Sales force.	FINN is structured with a Director of Sales and Marketing, Marketing Communications Manager, Product and Technical Support Manager, 5 Regional Sales Managers, an Inside Sales Coordinator, Sales Support Manager, and 4 Customer Service Representatives, who are each assigned to a group of dealers to assist in their sales, marketing, and aftermarket support. In addition, we have a complete support staff including a warranty administrator, engineering team with certified engineers, logistics manager, plus IT and accounting professionals. These are all direct FINN employees.	*
26	Dealer network or other distribution methods.	The FINN Director of Sales and Marketing is responsible for ensuring that there is sufficient and effective coverage to service our customers throughout North America. Our network currently has 28 separately owned dealerships in North America that encompass a total of 137 sales and service locations. Attached you will find a table with our dealer network, locations, approximate number of employees, and years in business.	*
27	Service force.	Our dealers have 137 sales and service locations throughout North America. We estimate the number of dealer and direct personnel providing sales and service support is 350+ individuals in North America. Also, FINN has five Field Service Technicians that travel anywhere in North America, to provide service support and training to our dealers and customers. The five Field Service Technicians are employees of FINN Corporation.	*
28	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	FINN Corporation has a full-time customer service team that operates out of our corporate/manufacturing facility and supports all dealer order entry, parts order entry, and technical service support. Dealers receive support to manage the sales, parts, and service operations in their exclusive territories. Dealers stock both parts and equipment, and FINN supports them with on-hand inventory.	*
29	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	With 25 dealers and 134 sales and service locations conveniently located throughout the United States, we are capable and willing to meet the needs of any Sourcewell members in the United States.	*
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	We currently have three equipment dealers located in Canada, that provide sales, service, and stock equipment and parts, and are willing and able to meet the needs of any Sourcewell members in Canada.	*
31	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	We do not have a dealer or other sales/service presence in Hawaii. However, we do ship parts and equipment to Hawaii. We offer technical assistance, ongoing training, and warranty administration through video conferencing and email..	*
32	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	We know of no Sourcewell member sectors that we could not serve	*
33	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	None.	*

Table 7: Marketing Plan

Line Item	Question	Response *	
34	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	We will continue to promote and educate our dealers on the benefits our contract, and increase awareness of the importance of the Sourcewell contract and what it means to our businesses. We will continue to meet with sales personnel and dealer partners to explain all aspects of the Sourcewell program and how it affects dealer business relationships. Also, we will continue to recognize outstanding dealer performance with Sourcewell, and continue our Government Dealer of the Year Award that is presented at our annual meeting with over 120 people in attendance. At the annual meeting, as well as virtually through webinars throughout the year, we will continue to train and create awareness on the benefits of the contract to all dealer personnel. We will continue to promote our contract through our typical advertising media including our recently re-designed corporate website that includes a page detailing our Sourcewell contract, company literature, special mailers, and trade shows, where both FINN Corporation and dealers have Sourcewell Awarded Contract flags to prominently display. We also will continue to promote through our Search Engine Optimization/Search Engine Marketing online program. A representative sample of current and past marketing materials is included.	*
35	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We maintain a strong online presence, with an aggressive social media program. We publish three times per week on average and have been able to significantly grow our Social Media interactions. We currently have over 2,300 followers on LinkedIn, nearly 1,700 followers on Facebook, over 1,000 on Instagram, over 300 on Twitter, and maintain a YouTube channel that we promote on a regular basis through PPC advertising with nearly 300 subscribers. We also have a vigorous Search Engine Optimization/Marketing program, including Retargeting Advertisements. We also dedicate some of our pay-per-click budget to promoting the contract. In addition to our newly re-designed website that is optimized for search, we have a FINN Mobile Application available to our dealer network. This app has been downloaded, on both Apple and Android devices, by over 150 dealer personnel. The mobile app gives dealers instant access to updated specification sheets, FINN contact information, product images, bid specifications, links to social media, and other information to help them in their sales and customer service efforts while in the field.	*
36	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We would expect Sourcewell to provide pertinent marketing information that we will uses in our marketing programs, such as keywords for SEO purposes. If possible, we would also like additional Sourcewell videos and samples of other successful promotions that other companies have deployed. We will continue to showcase our Sourcewell Awarded Contract status with our dealers and with direct campaigns to end users.	*
37	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Currently, our products are not available through e-procurement, but we have already had initial conversations on how FINN Corporation can participate, and to what level, in the soon to be named Sourcewell Marketplace.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
38	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	FINN dealers would continue to provide all support and training to Sourcewell members. This includes start-up, operator training, equipment maintenance training, and parts support training. All trainings are standard procedure for purchases through FINN and our dealer network. There are no costs associated with any of these trainings.	*
39	Describe any technological advances that your proposed products or services offer.	FINN equipment is manufactured to provide the most current and cost effective features that are available. Our equipment meets governmental safety and EPA standards. We continually strive to improve our products with the latest technologies to meet the needs of the customers using our equipment. The latest technological advancement in our product offering is a FINN telematics package for our HydroSeeders, Straw Blowers, and Material Blowers. This project is in development with a scheduled launch of Q4 2021. Our telematics offering will allow for operators, maintenance personnel, fleet managers, and department supervisors to have remote visibility of their FINN equipment. Machine usage, engine hours, location, and diagnostic information will all be available to help ensure maximum productivity, as well as identify potential service needs. We will be the only manufacturer of HydroSeeders, Straw Blowers, and Material Blowers in the industry that offers this capability.	*
40	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Our equipment meets all EPA compliance initiatives, including Tier IV Final/Euro State IIIA/B diesel engine emissions standards as required. Our equipment is also used extensively in the construction and erosion control markets that meet local, state, and federal environmental standards. We also have several new projects and products in development that would fall into FINN Corporation's ongoing green initiatives. Over the last several years, we have been researching and developing technology to limit emissions and minimize our products environmental impact. This fall, we will debut our first, and industry first, all electric HydroSeeder, with other projects in development to carry this technology across our other product lines. FINN Corporation has also implemented many new green initiatives within the facility, with a goal of Zero Waste. We have instituted a recycling program, with over 36 recycling stations, strategically placed in every break room, conference room, common office space, and on the manufacturing floor. As part of our recycling efforts, we have also installed a 6 cubic yard recycling receptacle in our yard. We have eliminated company provided styrofoam cups, and encouraged employees to bring cups/mugs from home to help reduce waste, and are recycling the styrofoam from any new IT related/electronics purchased within the building. We also have a pallet recycling program, have started a cardboard recycling program and will be installing a cardboard compactor to aid in those efforts. In 2019, we converted every incandescent light bulb throughout the facility, both office and manufacturing floor, to LED bulbs. In 2020, FINN installed a new high efficiency fiber optic laser, which adds to our production capabilities at a very low energy consumption rate. FINN continually reviews all aspects of our business to minimize or eliminate waste, with our ultimate goal of becoming a Zero Waste facility.	*
41	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	N/A	*
42	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	N/A. FINN Corporation does not meet WMBE, SBE, or veteran owned business certifications.	*
43	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	We are a U.S. manufacturing company that has been in business for over eighty-five years. We focus on strategic niche markets that provide support to ground and turf maintenance, road and highway construction, sports complexes, facility maintenance, erosion control, water quality maintenance, landfill maintenance, park maintenance, and a variety of environmental activities. Our equipment is designed to provide cost effective solutions that help Sourcewell members control their costs and meet their budget needs.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
44	Do your warranties cover all products, parts, and labor?	Yes, except for specific wear related items. These items are covered in the individual equipment model warranty information.	*
45	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Yes. Wear related items will not be covered under standard warranty protocol.	*
46	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes, they do.	*
47	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	No. There are no areas where we cannot provide warranty repairs. We do not have a dealer located in Hawaii, but we have outside service providers that will provide warranty repair work.	*
48	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	As applicable, engine and chassis warranties plus trailer tire warranties are covered by the original equipment manufacturers.	*
49	What are your proposed exchange and return programs and policies?	We do not offer exchanges or returns on equipment unless the unit is covered under state lemon laws.	*
50	Describe any service contract options for the items included in your proposal.	Our local FINN dealers may offer promotional service contract options on certain equipment models.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
51	Describe your payment terms and accepted payment methods?	Our payment terms are Net 30 Days. Our accepted payment methods are check, or bank wire transfer.	*
52	Describe any leasing or financing options available for use by educational or governmental entities.	Our dealers provide leasing and equipment rental programs. Financing can be established through our dealers. Our dealers work with local finance institutions, Wells Fargo, Oakmont Capitol, and Bank of Oklahoma.	*
53	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	Purchase orders will be submitted to the local dealer serving the customer. The dealer will turn the order into FINN and FINN will track all sales information. This information will be provided to Sourcewell on a quarterly basis.	*
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Attached is our standard Sourcewell Member Quotation form, to help streamline and simplify the Sourcewell ordering process through our Dealer Network.	*
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	We do not currently accept the P-card procurement and payment process, but are willing to review the process.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	We provide an MSRP based price list to our dealer base. This covers the equipment and equipment option pricing. I have attached our current Price List that covers SKU and pricing for each model and available options.	*
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The Sourcewell discount will be 5 percent (5%) off from MSRP on all equipment and options.	*
58	Describe any quantity or volume discounts or rebate programs that you offer.	All quantity, volume discount, or special product orders will be handled on a one-off quotation submission.	*
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	All special requests will be handled on a one-off quotation basis.	*
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	None.	*
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Equipment delivery costs will be in addition to the quoted MSRP Price List that is included. Freight is calculated from the factory FOB Point (Fairfield, OH) to the final dealer location. This delivery cost will be added to the invoice.	*
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipments to Alaska and Hawaii will be quoted FOB: Finn Corporation - Fairfield, OH. Shipments to Canada will be quoted FOB: Finn Corporation - Fairfield, OH. Shipments to offshore facilities will be quoted FOB: Finn Corporation - Fairfield, OH.	*
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	None.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
64	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	FINN Corporation will be monitoring all order and payment transactions to ensure compliance with our Sourcewell agreement. We will report all quarterly sales to Sourcewell and submit all agreed upon administrative fees to Sourcewell.	*
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We will continue to evaluate the success of the contract based on the overall sales, quotes, and order volumes, as well as track sales and quotes for government agencies choosing not to participate in the Sourcewell Cooperative Purchase program.	*
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	FINN Corporation will provide an administrative fee of one percent (1%) to Sourcewell for facilitating, managing, and promoting the Sourcewell contract. We would prefer to pay this fee on a quarterly basis to limit paperwork and handling costs.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	FINN HydroSeeders: Ranging from 300-4,000 gallon capacities, the FINN HydroSeeders are used for large and small seeding jobs, for new turf installation and repair, for temporary and permanent erosion control, for soil restoration projects, for dust control, as a Landfill Alternative Daily Cover (ADC) applicator, for remote watering, and for fire suppression. FINN HydroSeeders have an exclusive pump system to handle the thickest slurries in the most difficult conditions. These units are designed to be operator friendly with variable speed reverse mechanical agitation to safely speed up the loading and mixing process, plus they have ergonomically balanced booms and OSHA compliant railings. A new product innovation scheduled for release in Q4 of 2021 is a telematics package, that will provide the equipment owner remote visibility of their machines. Fleet managers will be able to remotely monitor machine use, view diagnostic information, and receive service interval reminders based on machine hours. Optional equipment, such as stainless steel tank systems, hydraulic or electric hose reels, remote controls, ground level controls, and high flotation tires are readily available. Skid, trailer, and gooseneck configurations are available depending on the model. FINN Straw Blowers: Available in three sizes that process 4 tons to 20 tons per hour, the FINN Straw Blowers provide maximum shredding and straw discharge, making quick work of straw mulching regardless of the conditions or size of the project. Blown on straw application ensures soil moisture retention and protects freshly seeded areas against erosion damage. The balanced discharge head allows for one-handed operation and reduces operator fatigue. Available in self-contained skid or trailer mounts, all FINN Straw Blowers are portable and self-powered. Optional equipment includes an extension hose and adapter to reach difficult areas at greater distance, plus we also offer the FINN Krimper for anchoring the straw into the soil. FINN Material Blowers: Offering a range of sizes, the FINN Material Blowers provide for the quick and efficient blown-on application of a variety of mulches, bark, soil blends, and compost for the landscape, erosion control, construction, playground, and green-roof industries. The Material Blower saves labor, time, and materials. We offer smaller tow-behind machines starting at 1.5 cubic yard hopper capacity up to the FINN MBX22, a 22 cubic yard capacity machine on its own chassis or trailer configuration. These machines are capable of efficiently applying material up to 300'+ away from the machine. FINN Ground Preparation Attachments: Available for tractors, skid-steers, and mini-skid steers, our Ground Preparation Attachments are the ideal tool for preparing the ground for seeding. These attachments are used on projects where clearing the terrain, de-compacting soil, and leveling the site is needed.	*
69	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Lawn, field and turf care Parking area maintenance Beach and waterfront maintenance Golf course maintenance Landscape maintenance Sidewalk and walking path maintenance	*

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments	
70	Flail, boom, rotary, wing, sickle, and slope mowers	○ Yes ◉ No	N/A	*
71	Seeders, tillers, mulchers, and sprayers	◉ Yes ○ No	FINN Corporation's HydroSeeders could be classified under "seeders", due to their primary use in the re-vegetation process.	*
72	Erosion control equipment	◉ Yes ○ No	Each of our product lines are used in erosion control applications. HydroSeeders are used for turf installation/repair, re-vegetation, and erosion control. Material Blowers are used for landscape beautification, but also are used for blown-in-place installation of sediment control filter sock. Straw Blowers are used for moisture retention of newly seeded areas as well as providing temporary erosion control measures.	*
73	Ditch maintenance equipment	○ Yes ◉ No	N/A	
74	Signage, signals, and message boards	○ Yes ◉ No	N/A	*
75	Radar equipment, traffic cameras or traffic sensors	○ Yes ◉ No	N/A	*
76	Other road right-of-way maintenance equipment	◉ Yes ○ No	FINN Corporation's HydroSeeders and Straw Blowers could be classified under "other road right-of-way maintenance equipment", due to their use in re-vegetation projects.	*

Table 16: Exceptions to Terms, Conditions, or Specifications Form

Line Item 77. NOTICE: To identify any exception, or to request any modification, to the Sourcewell template Contract terms, conditions, or specifications, a Proposer must submit the exception or requested modification on the **Exceptions to Terms, Conditions, or Specifications Form** immediately below. The contract section, the specific text addressed by the exception or requested modification, and the proposed modification must be identified in detail. Proposer's exceptions and proposed modifications are subject to review and approval of Sourcewell and will not automatically be included in the contract.

Contract Section	Term, Condition, or Specification	Exception or Proposed Modification

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as “Marketing Plan.”

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:

    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. CITY OF EASTVALE

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 11.13
September 10, 2025

Purchase of One (1) Cargo Van for the Community Services & Recreation Department

Prepared By:

Enswins Cordero, Assistant Director of Community Services and Recreation

Recommended Action(s)

Staff recommends that the City Council authorize a purchase order to Jeep Chrysler Dodge Ram of Ontario in the amount of $44,546 for the acquisition of one (1) 2024 Dodge Ram Promaster 2500 Cargo Van, to be utilized by the Community Services & Recreation Department for transportation of equipment and mobile recreation programming. Staff further recommends City Council authorize the City Manager to execute the necessary agreements and purchase orders.

Summary

The FY 2025-26 budget appropriation included funding for the addition of a cargo van for Community Services and Recreation staff to facilitate the execution of their roles. Staff initiated the formal competitive bidding process and now requests approval to purchase one (1) new 2024 RAM Promaster 2500 Cargo Van at a cost of $ 44,5460 to support the Community Services and Recreation Department.

Background

The Community Services and Recreation Department is currently expanding its operational levels to meet the growing recreational needs of the Eastvale community. To effectively perform these duties, the department requires a dedicated vehicle to allow to efficiently and safely transport necessary equipment. The vehicle will also support the City's multiple community outreach efforts and allow for potential mobile recreational programs independently of community events. To meet these operational needs, staff recommends the purchase of a new 2024 Dodge Ram Promaster 2500 Cargo Van.

If approved, the vehicle will be purchased utilizing funds approved by City Council in the FY 2025-26 Operating Budget. A preliminary cost estimate of the recommended vehicle is attached with additional detail.
Staff researched available procurement options, and by utilizing the formal bidding process (as provided in Eastvale Municipal Code Section 4.06.070) for procuring this vehicle, the City of Eastvale obtained competitive pricing. The competitive bidding information is described below.

Invitation for Bids (IFB) No. 25-123EV was issued on July 31, 2025, on the City's online bid management and publication system, PlanetBids. A summary of vendor participation and results is as follows:

45 Vendors notified

17 Vendors downloaded the bid packet

6 Bids received

Six bids were submitted by the IFB deadline, and all bids were determined to be responsive to the specifications and met the City's requirements. The bid submitted by Jeep Chrysler Dodge Ram of Ontario was determined to be the lowest, responsible bid, was responsive to the specifications, meets the City's requirements, and is in accordance with the City's Purchasing guidelines. Bid results are as follows:

Name of Bidder/Dealer	**Location**	**Base Bid Amount**
Jeep Chrysler Dodge Ram of Ontario	Ontario, CA	$42,395.38
Surf City Auto Group, Inc.	Huntington Beach, CA	$57,240.76
PFVT Motors, LLC	Peoria, AZ	$59,487.72
Knight Sacramento	Elk Grove, CA	$59,901.59
McPeek's Chrysler Dodge Jeep Ram of Anaheim	Anaheim, CA	$64,782.69
Trans-West Truck Center LLC	Fontana, CA	$75,739.38

Environmental

The purchase of a new 2024 Dodge Ram 2500 Promaster Cargo Van is not defined as a project under the California Environmental Quality Act (CEQA). No environmental review pursuant to CEQA is required.

Strategic Plan Action - Priority Level: 3 | Target #: D | Goal #: A

The purchase of the cargo van supports the strategic plan goal to collaborate and provide cultural and diverse events and celebrations (Target D, Goal A).

Fiscal Impact

The total fiscal impact for the vehicle purchase is $55,000 in one-time acquisition and upfitting costs and $1,500 in annual maintenance costs. The fiscal year 2025-2026 budget includes adequate appropriations for the vehicle purchase in the General Capital Projects Fund vehicle account number 600-720-6610. Ongoing vehicle maintenance and fuel costs are budgeted in the General Fund Community Services and Recreation vehicle operations account number 100-720-6330 and are projected to be approximately $1,500 annually.

Prior City Council/Commission Action

Not applicable.
