City Council Regional Appointments

Prepared By:

Marc A. Donohue, Government Services Director/City Clerk

Recommended Action(s)

Staff recommends that the City Council:

1. Review the City Council Council Regional Appointments List and make any desired changes;
2. Approve the Regional Appointments List, as revised by the City Council.

Summary

Each December, the City Council traditionally reviews the various designated members on the City Council Regional Appointments List. Historically, the City Council has confirmed the existing memberships through re-appointments or made new appointments. At the same time, the Regional Appointments List itself is reviewed and Board, Commission, Committee, and Agency members are added or deleted as appropriate.

Additionally, the Fair Political Practices, Commission also mandates that the Form 806 be filed to report additional compensation that officials receive when they are appointed to positions on committees, boards, or commissions of a public agency, special district, and joint powers agency or authority. The Form 806 is available on the City's website.

Background

Traditionally, Council Members have been appointed to serve on various outside Committees, Boards, Commissions, and Agencies. Each appointee is responsible for representing the City and voting on behalf of the City Council. At this time, it is appropriate for the City Council to conduct the

review and make appointments as desired. The Council may make appointments to each Committee, Board, Commission, or Agency by nomination.

Following the finalization of the Regional Appointments List, the City is required to post on its website FPPC Form 806, identifying: each appointed position receiving compensation; the salary or stipend for each appointed position; the name of the public official appointed to the position; the name of any public official appointed as an alternate; and, the term of the appointment.

FPPC Form 806 will be finalized, formatted, and posted with the names of the City's appointees, following Council action.

2. Provide direction to staff regarding any necessary changes for appointments on the list; and
3. Approve the City Council Committees Appointments list, as revised by the City Council.

Summary

Committees include: Finance Committee, Eastvale Schools Committee, Eastvale Community Services Ad-Hoc Committee, Eastvale Legislative Ad-Hoc Committee, the Business and Development Success Ad-Hoc Committee, the E-Commerce Online Sales and Use Tax Ad Hoc, and the Police Sub-Station/3rd Fire Station Ad-Hoc Committee.

Background

An ad-hoc, advisory committee composed solely of less than a quorum of a legislative body is exempt from the Brown Act, if the advisory serves a limited or single purpose, and are not perpetual, and are to be dissolved once their specific task is completed. Standing committees are subcommittees with either a continuing subject matter jurisdiction and/or a set meeting schedule, or are committees consisting of members from multiple legislative bodies. Standing sub-committees are subject to the Brown Act.

Staff recommends that the City Council review the current list of the City Council Committees and reappoint/appoint as necessary. The City Council may also decide to dissolve any committee that is no longer needed.

City of Eastvale Crime Statistics – October 2025

Prepared By:
Johnny Terfehr, Community Safety Director

Recommended Action(s)
Staff recommends that the City Council receive and file the Eastvale Crime Statistics for October 2025.

Summary
The City Council requested staff collaborate with the Riverside County Sheriff's Department to develop a crime statistics document that would reflect selected Part I and Part II crime data for the City of Eastvale. Intended to show month-to-month crime statistics, the document will assist in determining appropriate staffing levels for law enforcement services.

Background
In May 2017, City Council directed staff to coordinate with the Riverside County Sheriff's Department to request and obtain monthly crime statistics for the City of Eastvale. The primary intent of the request was to determine appropriate staffing levels during the City's contract negotiations with the Sheriff's Department. Over several weeks, the city manager and staff worked collaboratively with Riverside County Sheriff's Department administration and management to obtain crime statistics that could be shared with the public on a regular basis.

Upon receiving the data, the Riverside County Sheriff's Department advised staff that the data provided would be reflective of the previous month, or thirty days behind the current month; and that the report would need to include a disclaimer identifying the data as preliminary and raw. At the July 26, 2017 meeting, City Council recommended that staff add columns reflective of felony and misdemeanor arrests. During the September 26, 2017 meeting, City Council recommended staff add

traffic violations/citations data and the total calls for service broken down per month. Crime statistics that were released in the time that passed since the last meeting of the City Council are attached.

Environmental

Crime statistics are not a project pursuant to the California Environmental Quality Act (CEQA) and no environmental review is required.

*Restricted, committed, and assigned figures based on estimated fund balances at the end of the fiscal year, 06/30/2026. However cash estimates in this report are based on the current month. As a result, it is typical that a variance exists between projected unassigned cash balance and current unassigned cash balances. The variance will not be resolved until the end of the fiscal year. A negative unassigned cash balance in the current period does not indicate a cash flow issue for the city.

Important Disclosures

Important Disclosures

This statement is for general information purposes only and is not intended to provide specific advice or recommendations. PFM Asset Management ("PFMAM") is a division of U.S. Bancorp Asset Management, Inc. ("USBAM"), a SEC-registered investment adviser. USBAM is direct subsidiary of U.S. Bank National Association ("U.S. Bank") and an indirect subsidiary of U.S. Bancorp. U.S. Bank is not responsible for and does not guarantee the products, services or performance of PFMAM. PFMAM maintains a written disclosure statement of our background and business experience. If you would like to receive a copy of our current disclosure statement, please contact Service Operations at the address below.

Proxy Voting PFMAM does not normally receive proxies to vote on behalf of its clients. However, it does on occasion receive consent requests. In the event a consent request is received the portfolio manager contacts the client and then proceeds according to their instructions. PFMAM's Proxy Voting Policy is available upon request by contacting Service Operations at the address below.

Questions About an Account PFMAM's monthly statement is intended to detail our investment advisory activity as well as the activity of any accounts held by clients in pools that are managed by PFMAM. The custodian bank maintains the control of assets and executes (i.e., settles) all investment transactions. The custodian statement is the official record of security and cash holdings and transactions. PFMAM recognizes that clients may use these reports to facilitate record keeping and that the custodian bank statement and the PFMAM statement should be reconciled and differences resolved. Many custodians use a settlement date basis which may result in the need to reconcile due to a timing difference.

Account Control PFMAM does not have the authority to withdraw funds from or deposit funds to the custodian outside the scope of services provided by PFMAM. Our clients retain responsibility for their internal accounting policies; implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

Market Value Generally, PFMAM's market prices are derived from closing bid prices as of the last business day of the month as supplied by ICE Data Services. There may be differences in the values shown for investments due to accrued but uncollected income and the use of differing valuation sources and methods. Non-negotiable FDIC-insured bank certificates of deposit are priced at par. Although PFMAM believes the prices to be reliable, the values of the securities may not represent the prices at which the securities could have been bought or sold. Explanation of the valuation methods for a registered investment company or local government investment program is contained in the appropriate fund offering documentation or information statement.

Amortized Cost The original cost of the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discount or premium with respect to short term securities (those with less than one year to maturity at time of issuance) is amortized on a straightline basis. Such discount or premium with respect to longer term securities is amortized using the constant yield basis.

Tax Reporting Cost data and realized gains / losses are provided for informational purposes only. Please review for accuracy and consult your tax advisor to determine the tax consequences of your security transactions. PFMAM does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information that may be required to be reported to federal, state or other taxing authorities.

Financial Situation In order to better serve you, PFMAM should be promptly notified of any material change in your investment objective or financial situation.

Callable Securities Securities subject to redemption prior to maturity may be redeemed in whole or in part before maturity, which could affect the yield represented.

Portfolio The securities in this portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by PFMAM, the FDIC (except for certain non-negotiable certificates of deposit) or any government agency. Investment in securities involves risks, including the possible loss of the amount invested. Actual settlement values, accrued interest, and amortized cost amounts may vary for securities subject to an adjustable interest rate or subject to principal paydowns. Any changes to the values shown may be reflected within the next monthly statement's beginning values.

Rating Information provided for ratings is based upon a good faith inquiry of selected sources, but its accuracy and completeness cannot be guaranteed.

Shares of some local government investment programs and TERM funds are distributed by representatives of USBAM's affiliate, U.S. Bancorp Investments, Inc. which is registered with the SEC as a broker/dealer and is a member of the Financial Industry Regulatory Authority ("FINRA") and the Municipal Securities Rulemaking Board ("MSRB"). You may reach the FINRA by calling the FINRA Hotline at 1-800-289-9999 or at the FINRA website address https://www.finra.org/investors/investor-contacts. A brochure describing the FINRA Regulation Public Disclosure Program is also available from FINRA upon request.

Key Terms and Definitions

Dividends on local government investment program funds consist of interest earned, plus any discount ratably amortized to the date of maturity, plus all realized gains and losses on the sale of securities prior to maturity, less ratable amortization of any premium and all accrued expenses to the fund. Dividends are accrued daily and may be paid either monthly or quarterly. The monthly earnings on this statement represent the estimated dividend accrued for the month for any program that distributes earnings on a quarterly basis. There is no guarantee that the estimated amount will be paid on the actual distribution date.

Current Yield is the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical fund account with a balance of one share over the seven-day base period including the statement date, expressed as a percentage of the value of one share (normally $1.00 per share) at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7. The yields quoted should not be considered a representation of the yield of the fund in the future, since the yield is not fixed.

Average maturity represents the average maturity of all securities and investments of a portfolio, determined by multiplying the par or principal value of each security or investment by its maturity (days or years), summing the products, and dividing the sum by the total principal value of the portfolio. The stated maturity date of mortgage backed or callable securities are used in this statement. However the actual maturity of these securities could vary depending on the level or prepayments on the underlying mortgages or whether a callable security has or is still able to be called.

Monthly distribution yield represents the net change in the value of one share (normally $1.00 per share) resulting from all dividends declared during the month by a fund expressed as a percentage of the value of one share at the beginning of the month. This resulting net change is then annualized by multiplying it by 365 and dividing it by the number of calendar days in the month.

YTM at Cost The yield to maturity at cost is the expected rate of return, based on the original cost, the annual interest receipts, maturity value and the time period from purchase date to maturity, stated as a percentage, on an annualized basis.

YTM at Market The yield to maturity at market is the rate of return, based on the current market value, the annual interest receipts, maturity value and the time period remaining until maturity, stated as a percentage, on an annualized basis.

Managed Account A portfolio of investments managed discretely by PFMAM according to the client's specific investment policy and requirements. The investments are directly owned by the client and held by the client's custodian.

Unsettled Trade A trade which has been executed however the final consummation of the security transaction and payment has not yet taken place.

Please review the detail pages of this statement carefully. If you think your statement is wrong, missing account information, or if you need more information about a transaction, please contact PFMAM within 60 days of receipt. If you have other concerns or questions regarding your account, or to request an updated copy of PFMAM's current disclosure statement, please contact a member of your client management team at PFMAM Service Operations at the address below.

AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 12.6
December 10, 2025

Warrant Registers: August and September 2025

Prepared By:
Amanda Wells, Finance Director/City Treasurer

Recommended Action(s)
Staff recommends that the City Council approve the payment of warrants as submitted by the Finance Department under Attachments 1 and 2.

Summary
The Warrant register is a list of demands of payment by the City of Eastvale for services and goods paid in August and September. On November 18, 2025, the Finance Committee reviewed the attached registers of invoices for services performed and goods purchased and have recommended the Warrant Registers for approval. Due to technical issues, the October warrant register was not presented to the Finance Committee, as the register attached to the staff report only included the summary pages. Staff will bring the October 2025 warrant register to the Finance Committee at the next scheduled meeting in February 2026.

Background
The invoices have been reviewed by the Finance Department for completeness, proper approvals, budget, and if applicable, in accordance with underlying contracts. All items were properly supported.

Environmental
Government fiscal activities are not considered a Project as defined by the California Environmental Quality Act (CEQA) and no environmental review is required.

Staff recommends that the City Council receive and file the Interim Financial Report for Fiscal Year 2024-25, Quarter 4 ending June 30, 2025.

Summary

The goal of the Fiscal Year 2024-25 Annual Operating and Capital Improvement Budget served to establish both long-term and short-term financial planning for the City while adhering to regulations set by the Governmental Accounting Standards Board (GASB). The comprehensive budget illustrates City Council's commitment to providing cost effective municipal services. City Council adopts an operating and capital improvement budget every year, which commits resources for the accomplishment of the City's Strategic Plan, policies, and execution of services to the public. The budget report identifies target areas while measuring achievements to ensure departments remain transparent and on track. An abundant amount of time, analysis, and data from various resources helps establish projections to forecast proper revenue and expenditure budgets. The budget is a dynamic document that is amended throughout the year for various reasons, including City Council actions on department requests, actions by third parties which impact the budget plan, or changes in the economy.

The Quarterly Interim Financial Report is intended to serve as an update to City Council on the City's revenue and expenditure performance with respect to budget. This particular Interim Financial Report is for the fourth (4) quarter of fiscal year 2024-25 ending June 30, 2025. The figures in the attached reports represent the unaudited financials for quarter four as of November 4, 2025. It is important to note that the figures contained within the report do not reflect audited financials for

the current fiscal year, and figures may be adjusted in accordance with audit standards, although staff does not anticipate any additional changes. This report does reflect Mid-Year Amendments adopted on January 22, 2025.

REPORT OVERVIEW

On June 26, 2024, the City Council adopted the Fiscal Year 2024-25 budget. This interim financial report is prepared by the Finance Department and contains information related to the fiscal year 2024-25 budget and actual activity for revenues and expenditures for the 12-month period ending June 30, 2025. The figures contained in this report are audited for fiscal years 2022-23, 2023-24, and unaudited for the 2024-25 fiscal year.

QUARTER 4 HIGHLIGHTS: KEY CHANGES IMPACTING THE CITY DURING THE FOURTH QUARTER OF FISCAL YEAR 2024-25

Prior Fiscal Year Notes: The **GENERAL FUND** ended the prior fiscal year with a budget surplus of $39.1 million. The larger than normal surplus was primarily due to a late payment of sales tax due for the fourth quarter of calendar year 2020, which the city expected to receive during the 2021-22 fiscal year; however, the California Department of Tax and Fee Administration was unable to process the correction until Winter 2024. These funds were committed by the City Council during the fiscal year 2024-25 budget process for the City's Civic Center project. Similarly, the **FIRE FUND** completed the year with a $2.7 million budget surplus, and these funds were set aside in the Third Fire Station reserve for fiscal year 2024-25.

Ending the Fiscal Year: The city will likely finish the year with an approximate $33.7 million in budget surplus in the **GENERAL FUND**. The **FIRE FUND** will likely complete the year with a $3.3 million budget surplus; these funds were set aside in the Third Fire Station reserve for fiscal year 2024-25.

Fund Balance: The **GENERAL FUND** is projected to complete the year with $191.7 million in fund balance. Reserves have grown to this level over almost nine years of intensely focused saving priorities set by the City Council for capital improvement projects, particularly the Civic Center project. The city keeps two types of reserves, assigned (within City Manager authority and set by City Council policy) and committed (designated by City Council resolution). ***Assigned Reserves:*** The city is holding $66.1 million in assigned reserves. A little less than $19.6 million is set aside as an assigned operating reserve to cover operations during times when revenues are insufficient to cover expenditures. Additional assigned reserves include $6.5 million to cover capital improvement project grants not yet reimbursed, $177,584 to cover special revenue fund negative fund balances, and $230,000 for the city's Business Incentive Loan program. A large portion of the expected surplus has been set aside as a Civic Center Assigned Reserve, totaling $26.6 million, this will be converted to committed reserves or appropriated for the project in fiscal year 2025-26. ***Committed Reserves:*** A total of $118.6 million has been committed by the City Council for the Civic Center project, other capital projects, and strategic reserves for Civic Center debt service. ***Unassigned Fund Balance:*** The remaining unassigned fund balance totals $7.0 million and was committed to capital improvement projects during the 2025-26 fiscal year budget process; a majority of it was set aside for the Civic Center project. It is important to note that once the Civic Center project is underway, a large bulk of the reserves, totaling $130,000,000 will be spent on construction. The **FIRE FUND** is projected to finish the fiscal year with $19.4 million in fund balance. An assigned operating reserve of $7.3 million is set aside for operations, and an additional $2.0 million is assigned for the future third fire station. An additional $8.0 million was committed by the City Council for the future third fire station, and $400,000 is committed as an equipment replacement reserve. This leaves $1.7 million of unassigned fund balance, which was committed during the 2025-26 fiscal year budget process for the third fire station project.

Appropriations Limit: A summary report, "Appropriations Limit Summary," is included in this report. The city exceeded the state mandated Appropriations Limit for fiscal year 2020-21, 2021-22, 2022-23, 2023-24 and 2024-25. The summary report details the city's limit, revenues subject to appropriations, qualified capital outlay, and provides trend data for the last nine fiscal years. The city will continue to address appropriations limit implications during the budget and mid-year processes. The City Council has consistently committed or appropriated funds that exceed the limit towards capital outlay.

Accounting Methods

The figures presented in this executive summary and the attached reports reflect general ledger balances as of June 30, 2025. Approximately 99% of the year has been reported. The city utilizes an accrual basis of accounting for all governmental funds, as required by Generally Accepted Accounting Standards (GAAP). To comply with GAAP, staff accrues revenues received and expenditures occurring in the months of July and August back to the month of June. This matches the transaction to the period in which revenue was earned or the expenditure occurred. Although June 30, 2025, has passed the City's financials have not yet been audited and finalized. The figures in this report represent audited figures through June 30, 2025, and the Finance Department's best estimate of revenues and expenditures for June 30, 2025, as of the published date of this report.

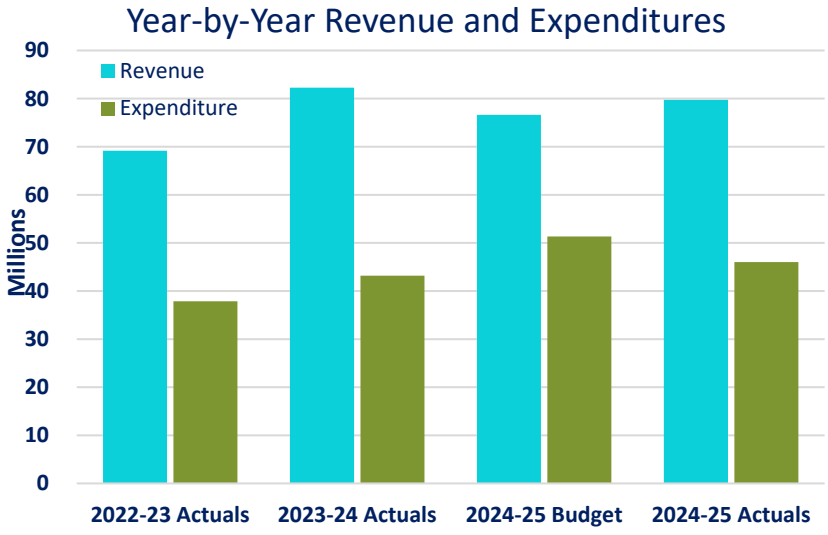

This report does not include projections and only focuses on the City's performance in comparison to budgeted estimates.

GENERAL FUND OBSERVATIONS (Major Fund)

The city's General Fund is the largest and most flexible of the city's funds. It contains all unrestricted revenues and provides the most discretion for expenditures. Major General Fund revenue sources include sales tax, property tax, franchise fees, permit fees, and intergovernmental. The General Fund funds the majority of services provided to the community including police services, community development, and general government. The General Fund Overview table provides budgeted revenues and expenditures in addition to actual revenues and expenditures. The percentage reflects the percentage of budget utilized.

General Fund Overview
12-Months Ended June 30, 2025

General Fund Overview	Amended Budget	Actual Activity	%
Revenues	76,603,016	79,753,233	104%
Expenditures	51,392,513	46,028,201	90%
Surplus (Deficit)	**25,210,503**	**33,725,022**	

Balanced Budgeting – Per the city's adopted Budget Policy, the total expenditure appropriations shall not exceed the total of estimated revenues. In the *adopted* fiscal year 2024-25 budget, total General Fund expenditure appropriations did not exceed revenues and the total budget surplus totaled $25.3 million. Details regarding the city's operating statement can be found on page eight and in the Attachment General Fund Operating Summary.

Net Revenue/Change in Fund Balance - The General Fund will likely complete the fiscal year with $33.7 million in net revenue, also called a budget surplus (revenue minus expenditures), for the fiscal year 2024-25. These funds have been allocated towards capital infrastructure reserves; committed reserves were identified during the 2025-26 budget process and adopted by council via resolution.

It should be noted that the Fire Fund also consists of General Fund revenues, however due to agreements with Riverside County the fund is separated as an other-purpose general fund for budgeting purposes. The Fire Fund is collapsed into the General Fund on the city's financial statements. Fire Fund information is in the section following the General Fund in this report.

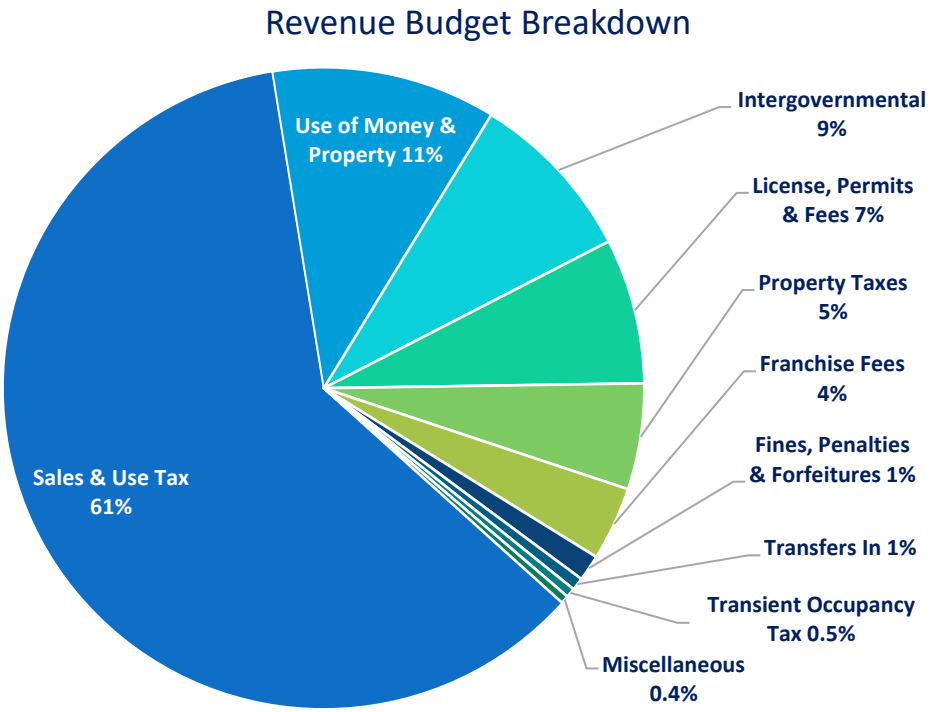

Executive Summary

GENERAL FUND REVENUES

As a general note, not all revenues are received monthly including sales tax, property tax, and franchise fees. The State of California provides monthly estimated sales tax advance installments and issues the city a quarterly true-up after the State receives quarterly tax returns from businesses. A majority of property tax is typically received solely in the second half of the fiscal year. Franchise fees are received quarterly, after the quarter ends.

Overall, General Fund revenues stand at 104% of budget for a total of $79,753,223.

Detail of Specific Revenue Categories

Sales Tax – Sales tax revenues are highly indicative of economic circumstances. The city utilizes HdL Companies for sales tax analysis. Sales tax is the city's largest revenue source and for monitoring purposes staff created an Attachment to this report titled "Sales Tax Summary." Budget stands at $50.1 million. Actual sales tax receipts fell short of budget expectations by 3% or $1.6 million; sales tax revenues total $48,463,297 for the fiscal year. Compared to the prior year, sales tax revenues decreased by $9.9 million, primarily due to a $7.8 million back payment that occurred in fiscal year 2023-24. Sales tax receipts are down overall, as the 2023-24 fiscal year saw the largest first, second, and third quarter receipts. By comparison, sales tax for the 2024-25 fiscal year was down $2,037,102 compared to the prior year, net of the back payment. The decrease in sales tax is due to two factors. Overall spending on goods is down slightly compared to the prior year. Also, staff believes the largest fluctuations are due to one sole business within the city, and will likely continue to lend to inconsistent sales tax revenues well into the future.

Another note for the city's largest category of revenue, 95% of the city's sales tax revenues is generated from the top 25 sales tax producing businesses in the city. This is important because a small number of businesses make up the vast majority of the city's sales tax revenues. If any single business ceases operations within the city's boundaries, the effect on the city's sales tax revenues will be substantial, and may affect the operating budget.

Property Tax – Property tax revenues are based solely on the valuation of property, both secured and unsecured within the city. Secured property is property including land and buildings; unsecured property includes equipment and machinery. Property tax revenues are typically received in the second half of the fiscal year. The city saw an increase in transfer tax, which is assessed when properties sell. Actuals over the last several years have exceeded $400,000, however actuals for the 2023-24 fiscal year only totaled $164,674 and actuals for 2024-25 increased to $312,926. Staff believes this is due to land and industrial building sales declining for the 2023-24 fiscal year and an increase in residential sale transactions during the 2024-25 fiscal year. Total property tax revenues are $4.3 million or 101% of budget. Compared to the prior year 2023-24 actuals, property tax revenues increased by $256,387.

Executive Summary

Franchise Fees – This category is typically comprised of regular recurring revenues from solid waste collection, cable utilities, electric utilities, and natural gas utilities. Franchise fees completed the year higher than expected totaling $2,968,827 or 113% of budget. This was the third year that franchise fees increased for refuse, and the budget estimates were lower than expected in the prior year. Staff carried this trend forward into the new 2024-25 fiscal year, expecting the trend from 2023-24 to slightly increase, however actual refuse franchise fees exceeded the trend and revenues therefore exceeded budget estimates.

Licenses, Fees, and Permits – Unlike tax revenues, this category of revenue is received on a daily basis at the city's front counter and is comprised of planning, engineering, building permits and fees, and business registration. Overall, this category is at $5.8 million or 109% of budget. Contract service rates and employee wages drive the fees charged to private developers for some engineering and planning fees, and building fees are based on fixed rates. Although the category performed well above budget as a whole, within the category, specific divisions and types of fees performed differently during the year. Developer deposit accounts specific to planning, legal, and engineering encroachment fees trended above budget at 102%, 148%, and 171% respectively. Developer deposits for building permits performed below budget at 27%. Finally, fixed permitting fees for building construction performed below budget at 91% and planning exceeded budget at 368%. Both the underperforming and overperforming categories are due to two factors. First, the city adopted a new user fee study in January 2024, which reduced customer permitting costs in a majority of the city's user fees. Several departments also changed from a deposit fee model to a fixed fee model. During budget planning for fiscal year 2024-25, adequate trend data was not available to project 12 months of fee revenues under the new fee schedules, and many legacy developer deposit accounts are still active. Second, phase one and two permit submittals for the New Home Company development at Limonite and Hamner flooded all three departments, Engineering, Planning, and Building Safety. Non permitting revenues, such as passport services exceeded budget projections at 150%; passport service demand was relatively similar to the prior fiscal year actuals. Business registration fees are also higher than expected at 126% of budget; likely a result of an increase to the fee schedule and business registration vendor HdL commencing a business registration communication program to ensure businesses are registered.

Intergovernmental – This category is populated by the Vehicle License in Lieu fees (VLF). As a tax, VLF revenues are typically received in the last six months of the fiscal year, 50% within quarter three and the final 50% in quarter four and are not a source of consistent cash flow for the city. VLF revenues are based on property valuations and as a result usually mirror property tax revenues increase and decrease. Actual revenues came in slightly higher than budget at $6,922,975 or 107% of budget. Compared to the prior fiscal year actuals, VLF revenue increased by $290,406.

Use of Money and Property – This category is populated by investment income. Budget was estimated at $5,800,000 and actuals are at $9,026,433, or 156% of budget. Net of an unrealized gain reversal from the prior year required by the Government Accounting Standards Board, interest stands at $7,540,002, or 130% of budget. Interest rates started the year strong at 4.343% but fumbled in the middle of the fiscal year, dipping to 3.828% in January, and then recovering to 4.117% by June. Large reserve balances paired with fund balance growth spurred by non-operating revenues for the Civic Center project, drove investment returns to exceed budget projections.

Transfers In – This category stands at 100%. The category consists of transfers-in to the General Fund from other funds. Transfers include $511,261 for the city's cost allocation plan (CAP). The CAP is an administrative charge to other funds to help fund the cost of General Fund internal services such as Information Technology, Finance, and Human Resources.

Overall, General Fund revenues are at $79,753,223 or 104% of budget.

Executive Summary

ADDITIONAL INFORMATION ABOUT MAJOR REVENUE SOURCES

Detail Information on General Fund Sales and Property Tax Revenue Categories

Sales Tax: Sales tax is the number one revenue source for the General Fund. For every dollar of sales tax paid, only $0.13 is received by the City of Eastvale. The other $0.87 goes to the State General Fund ($0.51), the State Local Revenue Fund ($0.14), Riverside County Transportation Commission ($0.06), a State Local Revenue Fund specific to local health and social services programs ($0.06), State Local Public Safety Fund ($0.06), and the Riverside County Transportation Fund ($0.03). For more information on what agencies receive sales tax revenue go to: www.cdtfa.ca.gov/taxes-and-fees/sut-rates-description.htm

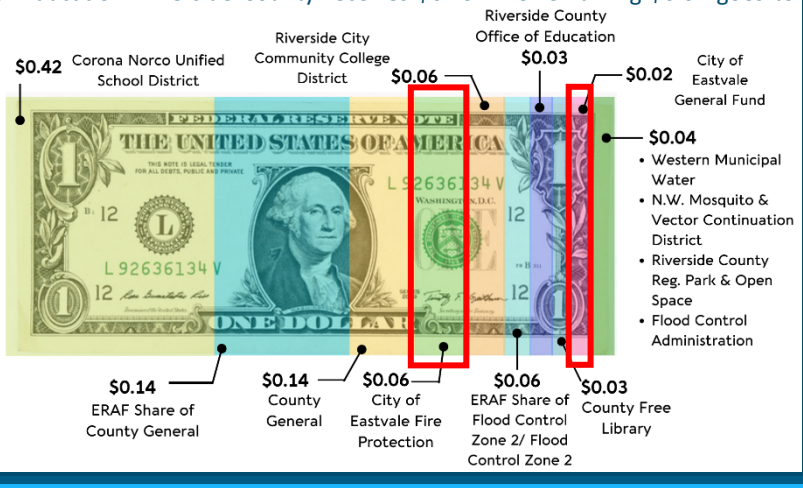

For every $1 of paid SALES TAX, the city only receives 13 cents. The remainder is spread among State and County agencies.

Property Tax: Property tax is the fifth largest revenue source for the city's General Fund and is the number one revenue source for the city's Fire Fund. However, like sales tax every dollar of base property tax that a property owner pays only $0.02 is received by the city's General Fund; another $0.06 is received by the city's Fire Fund. Over $0.51 goes towards education to the Corona Norco Unified School district, Riverside Community College, and Riverside County Office of Education. Riverside County receives $0.29. The remaining $0.04 goes to several special districts and flood control administration. The property tax revenues received by the Fire Fund are restricted to Fire Services expenditures.

This breakdown of costs is only for the base property tax rate. Many Eastvale residents and businesses also pay levies for special assessments, including special financing districts, such as landscape lighting maintenance districts and community facility districts. For more information about special financing districts in Eastvale go to: www.eastvaleca.gov/government/finance-department/special-financing-districts

For every $1 of paid PROPERTY TAX, the city only receives 8 cents. The remainder is spread among State and County agencies.

GENERAL FUND EXPENDITURES

A comparison of the amended budget to actual expenditures provides an overview of how actual expenditures compare to the city's budget. Overall, actual expenditures are at $46,028,201 or 90% of budget.

Detail of Specific Expenditure Categories

Contract Services: Law Enforcement – This category solely consists of the Law Enforcement contract with Riverside County Sheriff; budget for law enforcement totals $14.6 million and actual expenditures totals $14.4 million or 99% of budget. The City Council has consistently and strategically increased law enforcement services over the past several years. As a result, contract costs for law enforcement services have not remained consistent, which causes some difficulties in trending annual costs, which often leads to a budget surplus. However, staff has successfully calculated accurate contract savings for the past two fiscal years, bringing the budget surplus down to $126,379 for law enforcement. Compared to the prior fiscal year, law enforcement actual expenditures increased $1,216,470. For the 2024-25 fiscal year, City Council approved an increase to the School Resource Officer reimbursement to Corona Norco Unified School district by $75,000. Additionally, a dedicated Sergeant was added to the Special Enforcement Team, and the contract rate for patrol services saw a 8.7% increase.

Executive Summary

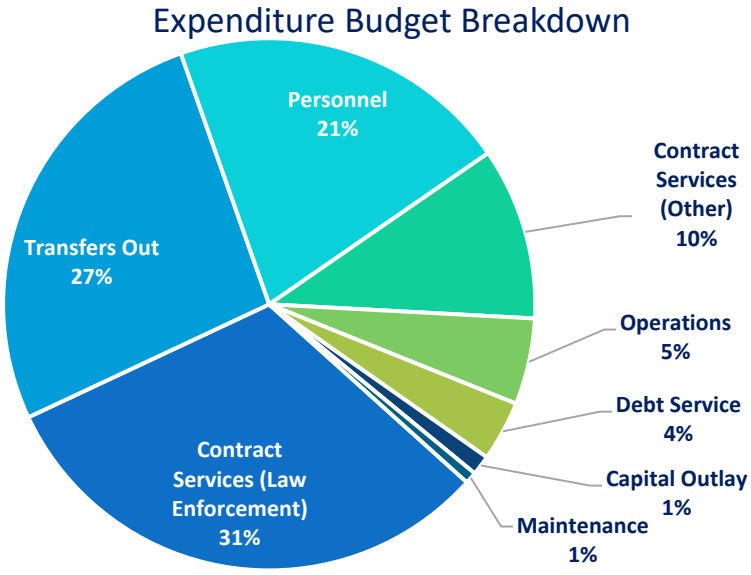

Contract Services: – This category is the largest expenditure category and includes contract services such as plan check and inspections for building and safety, planning, and public works. Major contracts in this category are animal control, crossing guards, legal services, and support services for all departments. Currently, actual expenditures for the total contract category are $4,820,763 or 69% of budget; total budget for this category is $7,017,488. Should this trend continue into the 2025-26 fiscal year, Finance will work with departments during budget planning for the new fiscal year to bring the budget surplus down. As a comparison to the prior year, this category increased $972,743, mainly due to an increase in development consultant work tied to the New Home development project.

Personnel – The personnel category contains the salary and benefit costs for city employees. This category generated actual expenditures at $9,558,111 or 82% of budget. Staff expected to see savings in this category due to new positions remaining vacant during recruitment during the first quarter, two Finance positions, three Public Works positions, one Community Safety position, one Community Development position, and two Community Services & Recreation positions. Several positions remained vacant for the duration of the fiscal year. Much of the savings generated by Finance and Public Works was utilized to offset contract services in those departments due to the need to contract for services while the positions remained vacant. Overall, the category saw over $2.0 million in budget savings for the fiscal year. Staff has adequate trend data to bring the budget savings down for future years and free up the funds to be spent on other City Council priorities.

Operations – Operations is a broad category including supplies, advertising, travel, training, utilities, postage, and janitorial. Actual expenditures in this category are $2,412,159 million or 64% of budget. A majority of the savings is due to a Government Accounting Standards Board (GASB) Statement 87 that requires a year end accounting entry that reclassifies lease payments into the debt service category as a loan payable rather than an actual operational lease expenditure. As a result, the city's expenditures for building leases are shown on the books as loan payables under the debt service category, which in turn throws off the city's budget to actual reporting in the operations category. This category also holds contingency budget for emergencies totaling $250,000 that historically goes unspent.

Capital Outlay – Capital outlay consists of office equipment, computer hardware, software, furniture, fixtures, and leases with a cost greater than $5,000. This category is at $555,919 or 76% of budget. The GASB Statement 96 requires government agencies to book software lease information for software in a particular fashion. As a result, actuals for capital outlay are reflected in the debt service category as a loan payable.

Debt Service – Debt service in the General Fund primarily accounts for the revenue neutrality agreement with Riverside County. The agreement was based on estimated tax revenue losses experienced by Riverside County because of the city's incorporation; the obligation is paid to Riverside County through both the General Fund and the Fire Fund. The County invoices the city towards the end of the fiscal year and the amount owed for 2024-25 was $287,907. This category also houses principal expenditures related to the city's GASB Statement 87 and 96 regarding the city's leases. These expenditures are reclassified from operations (leases) to debt service in accordance with GASB 87 and 96. Because of the GASB entry, actuals for this category stand at $1,685,159 or 204% of budget. Net of the GASB 87 and 96 entries, actuals are $922,526 or 112% of budget.

Executive Summary

Transfers-Out – The transfers-out category in the General Fund accounts for the movement of cash from the General Fund to another fund. Budget includes $11,082,690 million in transfers out to the General Capital Improvement Fund, $1,140,000 for capital maintenance reserves, and $15,456 for General Fund benefit contributions for several Landscape and Lighting Maintenance Districts and one Benefit Assessment District. This benefit contribution and the capital maintenance reserve contributions are the only operating transfers within the category.

Overall, the General Fund is at $46,028,201 in actual expenditures or 90% of expenditure budget. Compared to the prior 2023-24 fiscal year, expenditures increased by $2,846,236.

GENERAL FUND OPERATING STATEMENT

General Fund Operating* Statement - The General Fund generated $55,559,674 in operating revenues and $33,805,511 in operating expenditures. Operating revenues exceed expenditures and as a result, the General Fund has an operating surplus of $21,754,163.

General Fund Operating* Statement as of 06/30/2025		
Operating Revenue Actuals	55,559,674	
Operating Expenditure Actuals	33,805,511	
Operating Surplus		**21,754,163**
Non-Operating Revenue Actuals	24,193,550	
Non-Operating Expenditure Actuals	12,222,690	
Non-Operating Surplus		**11,970,860**
Net Revenue		**33,725,022**

Operating Revenue Assumptions and Future Operating Expenditures - Likely recurring operating revenues have been separated from non-operating and non-recurring revenues that may not continue into the future. There are several caveats to the operating revenue sources. Should any large businesses within the city change business structure, move, or any state legislative changes are made to the distribution of online sales tax receipts, revenues could significantly change or not continue into the future. However, at this time, there is no certainty whether outside legislative forces will change the nature of the city's revenues. As a result, staff has proposed a percentage of likely continuing revenues and prepared the current operating statement above based on those assumptions. Staff attempted to keep a portion of the operating surplus available to cover Civic Center operational costs. Projected costs include $3.8 million in debt service and another $3.8 million to operate the facilities. Future costs beyond phase one of the Civic Center will include operating costs of the city's Civic Center parking facility, third fire station, and likely service expansion for both law enforcement and fire services, however these costs have not yet been estimated.

On the non-operating side, the city completed the fiscal year with $24,193,550 in non-operating revenues and $12,222,690 in non-operating expenditures. Non-operating revenues exceed expenditures and as a result, the General Fund has a non-operating surplus of $11,970,860. Non-operating revenues are composed of four sources of revenue: sales tax, permitting revenue, interest, and unrealized gains on the city's investments. The sales tax revenue represents a local business in the business and industry category that changed business structure and as a result county pool sales tax was redistributed to host cities. At this time, staff considers portions of this sales tax source as one-time and non-operating in nature as the stability of the revenue is unknown. As a result, this revenue will be set aside for future capital improvement projects, such as the third fire station, Civic Center parking facility, and the Citrus property expansion. The interest represents investment income based on non-recurring revenues. Finally, unrealized gains are a positive net gain to the city's investment portfolio on investments that have not yet matured. Due to federal GASB requirements, the city has to book these transactions, but they do not net to cash on the city's books and as a result, we pull these "revenues" out as non-recurring. This entry will be reversed as of July 1, 2025, and have no material impact to the city's cash on hand, however the entry will be reflected on the city's financial statements. Non-operating expenditures are limited to capital replacement reserve contributions totaling $1,140,000 and capital improvement plan contributions totaling $11,082,690. The capital replacement reserves are intended to help fund future maintenance on city infrastructure. Capital improvement plan contributions fund current capital construction and maintenance projects. As of June 30, total net revenue and budget surplus is $33,725,022.

**Operating revenues and expenditures are defined as regular and continuing city revenues and costs to provide services. Non-operating revenues and expenditures are defined as one-time, non-recurring revenues and capital expenditures.*

Executive Summary

FIRE FUND OBSERVATIONS (Major Fund)

The city's Fire Fund contains all revenues and expenditures related to the provision of fire services in the city. The Fire Fund is considered General Fund monies; however, it has been restricted by Riverside County through the city's revenue neutrality agreement and therefore is separated from the city's unrestricted General Fund.

Fire Fund Overview
12-Months Ended June 30, 2025

General Fund Overview	Amended Budget	Actual Activity	%
Revenues	9,590,000	10,540,147	110%
Expenditures	9,711,018	7,195,105	74%

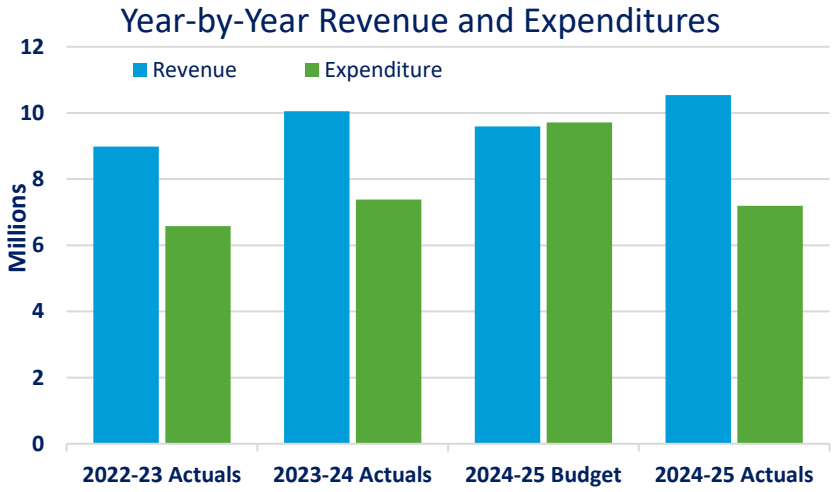

Revenues – Major Fire Fund revenue sources include property tax, licenses, permits, and fees, and use of money and property. Property tax, like the General Fund is primarily received in the second half of the fiscal year and is not a consistent source of cash flow for the fund. Property tax is currently at 103% of budget or $9,376,216 million. Property tax is the largest single source of revenue for the Fire Fund. Compared to the prior year 2023-24 actuals, property tax revenues increased by $180,186.

Licenses, permits, and fees are 102% of budget. Fines, penalties and forfeitures total 141% of budget at $126,624. This category is solely comprised of EMS fines, which is often a difficult revenue to project.

Investment income populates the category of use of money and property. Budget was estimated at $320,000 and actuals are $925,075 or 289% of budget. Interest rates and account balances continued to increase during the fiscal year and as a result, investment returns exceeded budget.

Overall, Fire Fund actual revenues are $10,540,147 or 110% of budget.

Expenditures – Contract services for Riverside County Fire stand at $6,619,948 or 83% of budget. The city realized savings due to CalFIRE's current staffing shortage, which equated to salary savings within the city's service contract. Although Riverside County Fire reported an estimated 10% increase in contract costs for the current year, the annual salary savings offset this increase. The reported increase is due to labor negotiations and a resulting reduction in the hours worked by safety staff. This will cause a need for additional staff and a subsequent increase in contract costs in future years.

Maintenance and operations actuals are 72% and 78% respectively. Maintenance and operations include building maintenance, vehicle maintenance and fuel, and utilities, actual expenditures are $60,950. The budget included emergency building maintenance repairs which was not utilized. Actual expenditures in the operations category are $226,299.

Overall, the Fire Fund is at $7,195,105 or 74% of expenditure budget.

Net Revenue – The Fire Fund completed the fiscal year with $3,345,042 in net revenue, also called a budget surplus, for the fiscal year 2024-25.

OTHER FUND OBSERVATIONS (Non-Major Funds)

The city's other funds consist of governmental special revenue funds and six funds solely consisting of General Fund contributions, the Capital Projects Fund, the Debt Service Fund, and four capital replacement reserve funds. These funds were created in order to track capital projects funded by the General Fund and debt. All of these funds were categorized as non-major funds in the 2023-24 financial statements.

Executive Summary

NEGATIVE FUND BALANCE IN SPECIAL REVENUE FUNDS

Several special revenue funds currently have and are projected to complete the year with negative fund balance. According to GASB requirements the General Fund will be required to cover those negative fund balances at the end of the fiscal year. The Miscellaneous Grants Fund completed the fiscal year with a $5,432,274 negative fund balance, a significant negative amount. This fund holds reimbursable grants, which are reimbursed after the city pays for goods and services. This occurs in two ways, progress payments at certain milestone points during projects or after projects are completed. Currently, the fund has outstanding milestone and completed project reimbursements. Public Works is working toward submitting reimbursement requests for completed projects. The TUMF Reimbursement Fund has a similar situation as the Miscellaneous Grants Fund and the city is waiting to receive reimbursements totaling $2,460,030. The city transferred over 88 lighting maintenance districts and illumination districts from Jurupa Community Services District in the prior fiscal year and several of those districts arrived with negative fund balance. The General Fund will contribute to those funds to cover the negative fund balance. The city has three Community Facility Districts (CFD) that are currently running a negative fund balance totaling $70,387. The Hamner Place CFD will likely continue to operate at a deficit unless services are reduced. The other two CFDs are still under development and not yet collecting the full levy amounts. Once the development is complete, the CFD will receive additional funds via property tax assessments. However, until that time the General Fund will be required to fund the deficit.

A Note Regarding Government Accounting and Budgeting

Most agencies manage governmental funds and budgets using a method called “modified accrual” accounting. Modified accrual means that governmental funds are managed on a cash basis throughout the year. At year-end accruals are processed to ensure revenues and expenditures are recorded in the appropriate fiscal year in which the transactions actually occurred. This method applies to all the city’s funds (General Fund and Special Revenue funds).

As an illustration, revenue is recorded as it is received throughout the fiscal year (cash basis). The majority of General Fund revenues are received sporadically throughout the year, and most is received or accrued in the final nine months of the fiscal year. Meanwhile, expenditures continue each month, regardless of whether revenues have been received. This circumstance highlights the importance of maintaining an adequate operating reserve that allows for cash flow needs throughout the fiscal year, especially during months in which some revenues categories are not received.

**For the purpose of this schedule, budgetary fund balance is estimated. Estimated fund balance in the far right column is defined as revenues minus expenditures. For the city's two major funds, fund balance is further broken down by the five categories of fund balance, nonspendable, restricted, assigned, committed, and unassigned located in the bottom portion of the schedule. Adequate fund balance is available in the General Fund to cover any negative fund balances in the city's reimbursable grant funds and special financing district funds.

Interim Financial Report - Fiscal Year 2025-26, Quarter 1

Prepared By:
Amanda Wells, Finance Director/City Treasurer

Recommended Action(s)
Staff recommends that the City Council receive and file the Interim Financial Report for Fiscal Year 2025-26, Quarter 1 ending September 30, 2025.

Summary
The goal of the Fiscal Year 2025-26 Annual Operating and Capital Improvement Budget served to establish both long-term and short-term financial planning for the City while adhering to regulations set by the Governmental Accounting Standards Board (GASB). The comprehensive budget illustrates City Council's commitment to providing cost effective municipal services. City Council adopts an operating and capital improvement budget every year, which commits resources for the accomplishment of the City's Strategic Plan, policies, and execution of services to the public. The budget identifies target areas via the strategic plan while measuring achievements to ensure departments remain transparent and on track. An abundant amount of time, analysis, and data from various resources helps establish projections to forecast proper revenue and expenditure budgets. The budget is a dynamic document that is amended throughout the year for various reasons, including City Council actions on department requests, actions by third parties which impact the budget plan, or changes in the economy.

The Quarterly Interim Financial Report is intended to serve as an update to City Council on the City's revenue and expenditure performance with respect to budget. This particular Interim Financial Report is for the first (1) quarter of fiscal year 2025-26 ending September 30, 2025. The figures in the attached reports represent the unaudited financials for quarter one as of November 24, 2025. It is important to note that the figures contained within the report do not reflect audited financials for

the prior 2024-25 or current 2025-26 fiscal year, and figures may be adjusted in accordance with audit standards.

Background

Detail regarding the Interim Financial Report can be found in attachment 1, Interim Financial Report.

Environmental

Government fiscal activities and budget appropriations are not considered a Project as defined by the California Environmental Quality Act (CEQA) and no environmental review is required.

Strategic Plan Action - Priority Level: 3 | Target #: C | Goal #: H

Ensure that City revenues align with expenditures.

Fiscal Impact

The interim report for quarter four of fiscal year 2025-26 does not cause a fiscal impact to the city.

Prior City Council/Commission Action

In preparation for the adoption of the Fiscal-Year 2025-26 Annual Operating Budget staff followed the budget timeline as contained within the 2025-26 budget document. City Council conducted a budget workshop on April 23, 2025 and capital improvement plan workshop on May 14, 2025. Since the draft budget workshop, no major program changes have been incorporated into the budget plan. All changes between the workshop and the proposed budget are listed above in the background section. On June 11, the City Council conducted a study session for the proposed fiscal year 2025-26 budget. At that time, City Council made no adjustments to the proposed budget. On June 25, 2025 the City Council unanimously adopted the budget.

**For the purpose of this schedule, budgetary fund balance is estimated. Estimated fund balance in the far right column is defined as revenues minus expenditures. For the city's two major funds, fund balance is further broken down by the five categories of fund balance, nonspendable, restricted, assigned, committed, and unassigned located in the bottom portion of the schedule. Adequate fund balance is available in the General Fund to cover any negative fund balances in the city's reimbursable grant funds and special financing district funds.

C. MAXIMUM ANNUAL SPECIAL TAX RATE

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned below:

1. Maximum Annual Special Tax

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned according to the table below:

Property Land Use	2018/19 Maximum Annual Special Tax
Non-Residential Property	$475.00 per Acre
Undeveloped Property	$0.00 per Acre

2. Assignment of Maximum Annual Special Tax to Newly Created Assessor's Parcel(s)

When an Assessor's Parcel(s) changes or subdivides, the Maximum Annual Special Tax shall be assigned to each newly created Assessor's Parcel(s) so that there is no net loss in the Maximum Annual Special Tax revenue as a result of changes in the planned development. The process for assigning the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) is as follows:

Step 1: Sum the Maximum Annual Special Tax assigned to each Assessor's Parcel(s) that is being changed or subdivided.

Step 2: Identify the newly created Assessor's Parcel(s) created by the change or subdivision and assign the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) according to the table in Section C.1 above. Sum the Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s).

Step 3: Divide the Maximum Annual Special Tax assigned in Step 2 for each newly created Assessor's Parcel(s) by the total Maximum Annual Special Tax in Step 2 to arrive at a fraction.

Step 4: Apportion the total Maximum Annual Special Tax from Step 1 to each newly created Assessor's Parcel(s) by multiplying each newly created Assessor's Parcel(s) fraction, determined in Step 3, by the total Maximum Annual Special Tax from Step 1.

Step 5: The Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s) shall be the greater of the Maximum Annual Special Tax assigned in Step 2 or the Maximum Annual Special Tax calculated in Step 4.

Once created, if a newly created Assessor's Parcel(s) further changes or subdivides, the above steps shall be repeated to determine the Maximum Annual Special Tax for the additional newly created Assessor's Parcel(s) created from the change or subdivision.

On July 1 of each Fiscal Year, commencing on July 1, 2018, the Maximum Annual Special Tax shall be increased by the application of the Tax Escalation Factor.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

Commencing with Fiscal Year 2018/19 and for each subsequent Fiscal Year, the CFD Administrator shall determine the Special Tax Requirement and shall levy the Special Tax until the amount of Special Taxes equals the Special Tax Requirement. The Special Tax shall be levied each Fiscal Year as follows:

First: The Special Tax shall be levied Proportionately on all Non-Residential Property at a rate up to 100% of the applicable Maximum Annual Special Tax.

Second: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, the Special Tax shall be levied Proportionately on all Undeveloped Property at a rate up to 100% of the Maximum Annual Special Tax.

E. EXEMPTIONS

The CFD Administrator shall classify the following as Exempt Property: Public Property, Open Space Property, and Assessor's Parcels with public or utility easements making impractical their utilization for any use other than the purposes set forth in the easement.

If the use of an Assessor's Parcel of Exempt Property changes so that such Assessor's Parcel is no longer classified as one of the uses set forth above that would make such Assessor's Parcel eligible to be classified as Exempt Property, such Assessor's Parcel shall cease to be classified as Exempt Property and shall be deemed to be Taxable Property.

F. REVIEW/APPEAL

Any landowner who feels that the amount of the Special Tax levied on their Assessor's Parcel is in error shall first consult with the CFD Administrator regarding such error. If following such consultation, the CFD Administrator determines that an error has occurred; the CFD Administrator may amend the amount of the Special Tax levied on such Assessor's Parcel. If following such consultation and action (if any by the CFD Administrator), the landowner or resident believes such error still exists, such person may file a written notice with the City appealing the amount of the Special Tax levied on such Assessor's Parcel. The City may establish such procedures, as it deems necessary to undertake the review of any such appeal. The City shall interpret this Rate and Method of Apportionment and make determinations relative to the annual administration of the Special Tax and any landowner or resident appeals, as herein specified. The decision of the City shall be final and binding as to all persons.

G. INTERPRETATIONS

The City may make minor administrative and technical changes to this Rate and Method of Apportionment that do not materially affect the rate and method of apportioning Special Taxes. In addition, the interpretation and application of any section of this Rate and Method of Apportionment

shall be left to the City's discretion. Interpretations may be made by resolution of the City Council for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment.

H. MANNER OF COLLECTION

The annual Special Tax shall be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that CFD No. 2017-1, may directly bill the Special Tax, and may collect Special Taxes at a different time or in a different manner as necessary to meet its financial obligations.

I. PREPAYMENT OF SPECIAL TAX

The Special Tax may not be prepaid.

J. REPEAL OF SPECIAL TAX

If the levy of the Special Tax is repealed by initiative or any other action participated in by the owners of Assessor's Parcels in CFD No. 2017-1, the City shall cease to levy the Special Tax and shall cease to be obligated to provide the authorized services for which the Special Tax was levied. The obligations to provide the authorized services previously funded by the repealed Special Tax shall become the joint obligations of the property owners of Assessor's Parcels within CFD No. 2017-1.

K. TERM OF SPECIAL TAX

The Maximum Special Tax shall be levied commencing in Fiscal Year 2018/19 and shall be levied in perpetuity, unless and until such time the City determines that revenues are no longer needed to pay the Special Tax Requirement.

C. MAXIMUM ANNUAL SPECIAL TAX RATE

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned below:

1. Maximum Annual Special Tax

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned according to the table below:

Property Land Use	2018/19 Maximum Annual Special Tax
Single Family Residential Property	$128.00 per Unit
Undeveloped Property	$0.00 per Acre

On July 1 of each Fiscal Year, commencing on July 1, 2018, the Maximum Annual Special Tax shall be increased by the application of the Tax Escalation Factor.

2. Assignment of Maximum Annual Special Tax to Newly Created Assessor's Parcel(s)

When an Assessor's Parcel(s) changes or subdivides, the Maximum Annual Special Tax shall be assigned to each newly created Assessor's Parcel(s) so that there is no net loss in the Maximum Annual Special Tax revenue as a result of changes in the planned development. The process for assigning the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) is as follows:

Step 1: Sum the Maximum Annual Special Tax assigned to each Assessor's Parcel(s) that is being changed or subdivided.

Step 2: Identify the newly created Assessor's Parcel(s) created by the change or subdivision and assign the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) according to the table in Section C.1 above. Sum the Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s).

Step 3: Divide the Maximum Annual Special Tax assigned in Step 2 for each newly created Assessor's Parcel(s) by the total Maximum Annual Special Tax in Step 2 to arrive at a fraction.

Step 4: Apportion the total Maximum Annual Special Tax from Step 1 to each newly created Assessor's Parcel(s) by multiplying each newly created Assessor's Parcel(s) fraction, determined in Step 3, by the total Maximum Annual Special Tax from Step 1.

Step 5: The Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s) shall be the greater of the Maximum Annual Special Tax assigned in Step 2 or the Maximum Annual Special Tax calculated in Step 4.

Once created, if a newly created Assessor's Parcel(s) further changes or subdivides, the above steps shall be repeated to determine the Maximum Annual Special Tax for the additional newly created Assessor's Parcel(s) created from the change or subdivision.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

Commencing with Fiscal Year 2018/19 and for each subsequent Fiscal Year, the CFD Administrator shall determine the Special Tax Requirement and shall levy the Special Tax until the amount of Special Taxes equals the Special Tax Requirement. The Special Tax shall be levied each Fiscal Year as follows:

First: The Special Tax shall be levied Proportionately on all Residential Property at a rate up to 100% of the applicable Maximum Annual Special Tax.

Second: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, the Special Tax shall be levied Proportionately on all Undeveloped Property at a rate up to 100% of the Maximum Annual Special Tax.

E. EXEMPTIONS

The CFD Administrator shall classify the following as Exempt Property: Public Property, Open Space Property, and Assessor's Parcels with public or utility easements making impractical their utilization for any use other than the purposes set forth in the easement.

If the use of an Assessor's Parcel of Exempt Property changes so that such Assessor's Parcel is no longer classified as one of the uses set forth above that would make such Assessor's Parcel eligible to be classified as Exempt Property, such Assessor's Parcel shall cease to be classified as Exempt Property and shall be deemed to be Taxable Property.

F. REVIEW/APPEAL

Any landowner who feels that the amount of the Special Tax levied on their Assessor's Parcel is in error shall first consult with the CFD Administrator regarding such error. If following such consultation, the CFD Administrator determines that an error has occurred; the CFD Administrator may amend the amount of the Special Tax levied on such Assessor's Parcel. If following such consultation and action (if any by the CFD Administrator), the landowner or resident believes such error still exists, such person may file a written notice with the City appealing the amount of the Special Tax levied on such Assessor's Parcel. The City may establish such procedures, as it deems necessary to undertake the review of any such appeal. The City shall interpret this Rate and Method of Apportionment and make determinations relative to the annual administration of the Special Tax and any landowner or resident appeals, as herein specified. The decision of the City shall be final and binding as to all persons.

G. INTERPRETATIONS

The City may make minor administrative and technical changes to this Rate and Method of Apportionment that do not materially affect the rate and method of apportioning Special Taxes. In addition, the interpretation and application of any section of this Rate and Method of Apportionment shall be left to the City's discretion. Interpretations may be made by resolution of the City Council for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment.

H. MANNER OF COLLECTION

The annual Special Tax shall be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that CFD No. 2017-2, may directly bill the Special Tax, and may collect Special Taxes at a different time or in a different manner as necessary to meet its financial obligations.

I. PREPAYMENT OF SPECIAL TAX

The Special Tax may not be prepaid.

J. REPEAL OF SPECIAL TAX

If the levy of the Special Tax is repealed by initiative or any other action participated in by the owners of Assessor's Parcels in CFD No. 2017-2, the City shall cease to levy the Special Tax and shall cease to be obligated to provide the authorized services for which the Special Tax was levied. The obligations to provide the authorized services previously funded by the repealed Special Tax shall become the joint obligations of the property owners of Assessor's Parcels within CFD No. 2017-2.

K. TERM OF SPECIAL TAX

The Maximum Special Tax shall be levied commencing in Fiscal Year 2018/19 and shall be levied in perpetuity, unless and until such time the City determines that revenues are no longer needed to pay the Special Tax Requirement.

If any Assessor's Parcels are no longer valid from the previous Fiscal Year, the CFD Administrator shall determine the new Assessor's Parcel that are in effect for the current Fiscal Year. To the extent any Assessor's Parcel(s) of Taxable Property are subdivided, consolidated or otherwise reconfigured, the Special Tax rates shall be assigned to the new Assessor's Parcel pursuant to Section D. The CFD Administrator shall also determine: (i) which Assessor's Parcels are Developed Property; (ii) the number of Units each Assesssor's Parcel

contains; (iii) each Assessor's Parcels respective Maximum Annual Special Tax; and (iv) the Special Tax Requirement for the Fiscal Year.

C. MAXIMUM ANNUAL SPECIAL TAX RATE

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned below:

1. Maximum Annual Special Tax

The Maximum Annual Special Tax for each Assessor's Parcel of Taxable Property shall be assigned according to the table below:

Property Land Use	2019/20 Maximum Annual Special Tax
Single Family Residential Property	$123.70 per Unit
Undeveloped Property	$0.00 per Acre

On July 1 of each Fiscal Year, commencing on July 1, 2020, the Maximum Annual Special Tax shall be increased by the application of the Tax Escalation Factor.

2. Assignment of Maximum Annual Special Tax to Newly Created Assessor's Parcel(s)

When an Assessor's Parcel(s) changes or subdivides, the Maximum Annual Special Tax shall be assigned to each newly created Assessor's Parcel(s) so that there is no net loss in the Maximum Annual Special Tax revenue as a result of changes in the planned development. The process for assigning the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) is as follows:

Step 1: Sum the Maximum Annual Special Tax assigned to each Assessor's Parcel(s) that is being changed or subdivided.

Step 2: Identify the newly created Assessor's Parcel(s) created by the change or subdivision and assign the Maximum Annual Special Tax to each newly created Assessor's Parcel(s) according to the table in Section C.1 above. Sum the Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s).

Step 3: Divide the Maximum Annual Special Tax assigned in Step 2 for each newly created Assessor's Parcel(s) by the total Maximum Annual Special Tax in Step 2 to arrive at a fraction.

Step 4: Apportion the total Maximum Annual Special Tax from Step 1 to each newly created Assessor's Parcel(s) by multiplying each newly created Assessor's Parcel(s) fraction, determined in Step 3, by the total Maximum Annual Special Tax from Step 1.

Step 5: The Maximum Annual Special Tax assigned to each newly created Assessor's Parcel(s) shall be the greater of the Maximum Annual Special Tax assigned in Step 2 or the Maximum Annual Special Tax calculated in Step 4.

Once created, if a newly created Assessor's Parcel(s) further changes or subdivides, the above steps shall be repeated to determine the Maximum Annual Special Tax for the additional newly created Assessor's Parcel(s) created from the change or subdivision.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

Commencing with Fiscal Year 2019/20 and for each subsequent Fiscal Year, the CFD Administrator shall determine the Special Tax Requirement and shall levy the Special Tax until the amount of Special Taxes equals the Special Tax Requirement. The Special Tax shall be levied each Fiscal Year as follows:

First: The Special Tax shall be levied Proportionately on all Single Family Residential Property at a rate up to 100% of the applicable Maximum Annual Special Tax.

Second: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, the Special Tax shall be levied Proportionately on all Undeveloped Property at a rate up to 100% of the Maximum Annual Special Tax.

E. EXEMPTIONS

The CFD Administrator shall classify the following as Exempt Property: Public Property, Open Space Property, and Assessor's Parcels with public or utility easements making impractical their utilization for any use other than the purposes set forth in the easement.

If the use of an Assessor's Parcel of Exempt Property changes so that such Assessor's Parcel is no longer classified as one of the uses set forth above that would make such Assessor's Parcel eligible to be classified as Exempt Property, such Assessor's Parcel shall cease to be classified as Exempt Property and shall be deemed to be Taxable Property.

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Taxes shall be levied on Public Property, except as otherwise provided in Sections 53317.3 and 53317.5 of the Act.

F. APPEAL OF SPECIAL TAX LEVY

Any property owner may file a written appeal of the Special Tax with the CFD Administrator claiming that the amount or application of the Special Tax is not correct. The appeal must be filed not later than one calendar year after having paid the Special Taxes that are disputed, and the appellant must be current in all payments of Special Taxes. In addition, during the term of the appeal process, all Special Taxes levied must be paid on or before the payment date established when the levy was made.

The appeal must specify the reasons why the appellant claims the Special Taxes are in error. The CFD Administrator shall review the appeal, meet with the appellant if the CFD Administrator deems necessary, and advise the appellant of its determination.

If the property owner disagrees with the CFD Administrator's decision relative to the appeal, the owner may then file a written appeal with the City Council whose subsequent decision shall be final and binding on all interested parties. If the decision of the CFD Administrator or subsequent decision by the City Council requires the Special Taxes to be modified or changed in favor of the property owner, no cash refund shall be made for prior years' Special Taxes, but an adjustment shall be made to credit future Special Taxes.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

G. INTERPRETATIONS OF RATE AND METHOD OF APPORTIONMENT

The City reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

H. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the City may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD No. 2019-1, and may collect delinquent Special Taxes through foreclosure or other available methods.

A Special Tax shall continue to be levied and collected within CFD No. 2019-1, as needed to fund the Special Tax Requirement, in perpetuity.

I. PREPAYMENT OF SPECIAL TAX

The Special Tax may not be prepaid.

J. REPEAL OF SPECIAL TAX

If the levy of the Special Tax is repealed by initiative or any other action participated in by the owners of Assessor's Parcels in CFD No. 2019-1, the City shall cease to levy the Special Tax and shall cease to be obligated to provide the authorized services for which the Special Tax was levied. The obligations to provide the authorized services previously funded by the repealed Special Tax shall become the joint obligations of the property owners of Assessor's Parcels within CFD No. 2019-1.

"Welfare Exempt Property" means, in any Fiscal Year, all Parcels within the boundaries of CFD No. 2024-02 that (a) have been granted a welfare exemption by the County under subdivision (g) of Section 214 of the Revenue and Taxation Code indicated in the Assessor's Data finalized as of January 1 of the previous Fiscal Year, and (b) are exempt from the Special Tax pursuant to Section 53340(c) of the Act.

B. DETERMINATION OF TAXABLE PARCELS

Each Fiscal Year, the CFD Administrator shall determine the valid Assessor's Parcel Numbers for all Taxable Property within CFD No. 2024-02. If any Assessor's Parcel Numbers are no longer valid, the CFD Administrator shall determine the new Assessor's Parcel Number or Numbers in effect for the then-current Fiscal Year. To the extent a Parcel or Parcels of Taxable Property are subdivided, consolidated, or otherwise reconfigured, the Maximum Special Tax – Maintenance Services and the Maximum Special Tax – Public Services shall be assigned to the new Assessor's Parcels Numbers pursuant to Section C. The CFD Administrator shall also determine: (i) the Tax Zone within which each Parcel is located; (ii) the Property Type for each Parcel; (iii) the number of Units or Acres each Parcel contains; and (iv) the Annual Special Tax Requirement – Maintenance Services and the Annual Special Tax Requirement – Public Services for the Fiscal Year.

C. MAXIMUM ANNUAL SPECIAL TAX RATES

The Maximum Special Taxes for each Assessor's Parcel of Taxable Property within Tax Zone No. 1 shall be assigned below:

1. **Maximum Special Taxes**

The Maximum Special Tax – Maintenance Services and the Maximum Special Tax – Public Services for each Assessor's Parcel of Taxable Property within Tax Zone No. 1 shall be assigned according to Tables 1 and 2, respectively, below:

TABLE 1

Property Type	Maximum Annual Special Tax - Public Services	Per
Single Family Detached Residential Property	$166.46	Unit
Single Family Attached Residential Property	166.46	Unit
Multi-Family Residential Property	166.46	Unit
Commercial Property	0.00	Acre
Industrial Property	0.00	Acre
Undeveloped Property	0.00	Acre

*On July 1 of each Fiscal Year, commencing on July 1, 2025, the Maximum Special Tax rates for Tax Zone No. 1 shall be increased by Tax Escalation Factor.

Different Maximum Special Tax rates and tax escalation factors may be identified in Tax Zones added to CFD No. 2024-02 as a result of future annexations.

Accessory Dwelling Units

The Maximum Annual Special Tax – Maintenance Services and the Maximum Special Tax – Public Services for an Accessory Dwelling Unit shall be calculated as percentages of the Maximum Annual Special Tax – Maintenance Services and the Maximum Special Tax – Public Services for the primary Unit to which the ADU is accessory, based on Building Square Footage. For example, if a primary Unit of Single Family Detached Residential Property with 2,000 Building Square Feet has an ADU of 800 Building Square Feet, the Maximum Annual Special Tax – Maintenance Services and the Maximum Special Tax – Public Services for the ADU in Tax Zone No. 1 shall be calculated by the following steps:

1. 800 Building Square Feet / 2,000 Building Square Feet = 0.40 or 40%
2. $1,034.87 Maximum Annual Special Tax – Maintenance Services per Unit x 40% = $413.95 Maximum Annual Special Tax – Maintenance Services for such ADU
3. $166.46 Maximum Annual Special Tax – Public Services per Unit x 40% = $66.59 Maximum Annual Special Tax – Maintenance Services for such ADU

Mixed-Use Property

In some instances, an Assessor's Parcel of Developed Property may contain more than one Property Type. The Maximum Annual Special Tax – Maintenance Services and the Maximum Special Tax – Public Services assigned to an Assessor's Parcel of Mixed-Use Property shall be the sum of the Maximum Annual Special Tax – Maintenance Services and the Maximum Special Tax – Public Services for each Property Type located on that Assessor's Parcel.

2. Assignment of Property Type to Assessor's Parcel(s)

When an Assessor's Parcel changes from being classified as Undeveloped Property to another Property Type and is considered Developed Property, that assignment shall not change due to future changes in land use.

3. Changes in Planned Development - Assignment of Maximum Special Tax – Maintenance Services to Newly Created Assessor's Parcel(s)

When an Assessor's Parcel changes or subdivides, the Maximum Special Tax – Maintenance Services shall be assigned to each newly created Assessor's Parcel so that there is no net loss in the Maximum Special Tax – Maintenance Services revenue to be generated as a result of changes in the planned development.

For each Tax Zone within CFD No. 2024-02, when an Assessor's Parcel changes or subdivides, and there are changes to the overall planned development, the process for assigning the Maximum Special Tax – Maintenance Services to each newly created Assessor's Parcel is as follows:

Step 1: Sum the expected Maximum Special Tax – Maintenance Services assigned to each Assessor's Parcel that is being changed or subdivided within that Tax Zone.

Step 2: Identify the newly created Assessor's Parcel(s) of Taxable Property created by the change or subdivision and assign the Maximum Special Tax – Maintenance Services to each newly created

Assessor's Parcel of Taxable Property according to the then-current Maximum Special Tax Rates – Maintenance Services within that Tax Zone for each Property Type. Sum the Maximum Special Tax – Maintenance Services assigned to each newly created Assessor's Parcel of Taxable Property within that Tax Zone.

Step 3: Divide the total expected Maximum Special Tax – Maintenance Services in Step 1 by the total Maximum Special Tax – Maintenance Services assigned in Step 2 to arrive at a fraction for that Tax Zone.

Step 4: Apportion the total Maximum Special Tax – Maintenance Services from Step 1 to each newly created Assessor's Parcel of Taxable Property by multiplying each newly created Assessor's Parcel fraction, determined in Step 3, by the then-current Maximum Special Tax Rates – Maintenance Services within that Tax Zone for each Property Type.

Step 5: The Maximum Special Tax – Maintenance Services assigned to each newly created Assessor's Parcel of Taxable Property shall be the greater of the Maximum Special Tax – Maintenance Services assigned in Step 2 or the Maximum Special Tax – Maintenance Services calculated in Step 4 for the Tax Zone.

For each Tax Zone within CFD No. 2024-02, when an Assessor's Parcel changes or subdivides, and there are no changes to the planned development, the Maximum Special Tax – Maintenance Services shall be assigned according to Table 1 for Tax Zone No. 1, or similar table for each successive Tax Zone.

The planned development for Tax Zone No. 1 is provided in the table below:

Property Type	Expected Units/Acres	Expected Special Tax - Maintenance Services Revenue
Single Family Detached Residential Property	94	$97,278.09
Single Family Attached Residential Property	344	320,396.77
Multi-Family Residential Property	320	0.00
Commercial Property	11.713	48,485.88
Industrial Property	0.00	0.00

Once created, if a newly created Assessor's Parcel(s) of Taxable Property further changes or subdivides, the above steps shall be repeated to determine the Maximum Special Tax – Maintenance Services for the additional newly created Assessor's Parcel(s) of Taxable Property created from the change or subdivision.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAXES

All Taxable Property shall be subject to the Special Tax – Maintenance Services defined as follows. The Special Tax – Maintenance Services shall be levied each Fiscal Year by the CFD Administrator.

The Annual Special Tax Requirement – Maintenance Services shall be apportioned to each Parcel within CFD No. 2024-02 by the method shown below.

First: Determine the Annual Special Tax Requirement – Maintenance Services.

Second: Levy the Special Tax on each Parcel of Developed Property, Proportionately, up to the applicable Maximum Special Tax – Maintenance Services.

Third: If additional monies are needed to satisfy the Annual Special Tax Requirement – Maintenance Services after the second step has been completed, the Special Tax shall be levied Proportionately on all Undeveloped Property at a rate up to 100% of the Maximum Special Tax – Maintenance Services.

All Taxable Property shall be subject to the Special Tax – Public Services defined as follows. The Special Tax – Public Services shall be levied each Fiscal Year by the CFD Administrator.

The Annual Special Tax Requirement – Public Services shall be apportioned to each Parcel within CFD No. 2024-02 by the method shown below.

First: Determine the Annual Special Tax Requirement – Public Services.

Second: Levy the Special Tax on each Parcel Developed Property, Proportionately, up to the applicable Maximum Special Tax – Public Services.

E. EXEMPTIONS

For Tax Zone No. 1, no Special Tax shall be levied on up to 10.41 Acres of Undeveloped Property, comprising "Lot 62", as shown on *Tract Map No. 38594*, recorded by the County on the 15th day of March 2024, as document number 2024-0076720. Should additional property be annexed to CFD No. 2024-02, the number of Acres of Undeveloped Property exempt from the Special Tax, if any, shall be identified for each such annexation.

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Open Space Property, Property Owner's Association Property, Assessor's Parcels with public or utility easements making impractical their utilization for any use other than the purposes set forth in the easement, or Public Property, except as otherwise provided in Sections 53317.3, 53317.5 and 533401 of the Act.

No Special Tax shall be levied on any Assessor's Parcel in any Fiscal Year in which such Assessor's Parcel is classified as Welfare Exempt Property.

F. APPEAL OF SPECIAL TAX LEVY

Any property owner may file a written appeal of the Special Tax with the CFD Administrator claiming that the amount or application of the Special Tax is not correct. The appeal must be filed not later than one calendar year after having paid the Special Tax that is disputed, and the appellant must be

current in all payments of the Special Tax. In addition, during the term of the appeal process, all Special Tax levied must be paid on or before the payment date established when the levy was made.

The appeal must specify the reasons why the appellant claims the Special Tax is in error. The CFD Administrator shall review the appeal, meet with the appellant if the CFD Administrator deems necessary, and advise the appellant of its determination.

If the property owner disagrees with the CFD Administrator's decision relative to the appeal, the owner may then file a written appeal with the City Council whose subsequent decision shall be final and binding on all interested parties. If the decision of the CFD Administrator or subsequent decision by the City Council requires the Special Tax to be modified or changed in favor of the property owner, then an adjustment shall be made to credit the Special Tax in future years.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

G. INTERPRETATIONS OF RATE AND METHOD OF APPORTIONMENT

The City reserves the right to make minor administrative and technical changes to this document that do not materially affect the rate and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the City's discretion. Interpretations may be made by the City Council by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

H. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the City may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD No. 2024-02, and may collect delinquent Special Taxes through available methods.

The Special Tax shall be levied commencing in Fiscal Year 2024/25 to the extent necessary to satisfy the Annual Special Tax Requirement – Maintenance Services and the Annual Special Tax Requirement – Public Services and is authorized to be levied each Fiscal Year thereafter in perpetuity.

I. PREPAYMENT OF SPECIAL TAX

The Special Tax may not be prepaid.

First: Determine the Annual Special Tax Requirement.

Second: Levy the Annual Special Tax on each Parcel of Taxable Property, Proportionately, up to the applicable Maximum Annual Special Tax to satisfy the Annual Special Tax

Requirement.

2. Contingent Special Tax

If applicable, as determined by the City, all Taxable Property shall be subject to the Contingent Special Tax. The Contingent Special Tax shall be levied by the CFD Administrator each Fiscal Year in which the City deems it applicable.

The Contingent Special Tax Requirement for each Development Area shall be apportioned to each Parcel within the applicable Development Area by the method shown below.

First: Determine the Contingent Special Tax Requirement for each Development Area.

Second: For each Development Area, levy the Contingent Special Tax on each Parcel of Taxable Property within the applicable Development Area, Proportionately, up to the applicable Maximum Contingent Special Tax to satisfy the Contingent Special Tax Requirement for each Development Area.

E. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on Open Space Property, Property Owner's Association Property, Assessor's Parcels comprising detention basins or roads, or with public or utility easements making impractical their utilization for any use other than the purposes set forth in the easement, or Public Property, except as otherwise provided in Sections 53317.3, 53317.5 and 533401 of the Act.

No Special Tax shall be levied on any Assessor's Parcel in any Fiscal Year in which such Assessor's Parcel is classified as Welfare Exempt Property.

F. APPEAL OF SPECIAL TAX LEVY

Any property owner may file a written appeal of the Special Tax with the CFD Administrator claiming that the amount or application of the Special Tax is not correct. The appeal must be filed not later than one calendar year after having paid the Special Tax that is disputed, and the appellant must be current in all payments of the Special Tax. In addition, during the term of the appeal process, all Special Tax levied must be paid on or before the payment date established when the levy was made.

The appeal must specify the reasons why the appellant claims the Special Tax is in error. The CFD Administrator shall review the appeal, meet with the appellant if the CFD Administrator deems necessary, and advise the appellant of its determination.

If the property owner disagrees with the CFD Administrator's decision relative to the appeal, the owner may then file a written appeal with the City Council whose subsequent decision shall be final and binding on all interested parties. If the decision of the CFD Administrator or subsequent decision by the City Council requires the Special Tax to be modified or changed in favor of the property owner, then an adjustment shall be made to credit the Special Tax in future years.

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

G. INTERPRETATIONS OF RATE AND METHOD OF APPORTIONMENT

The City reserves the right to make minor administrative and technical changes to this document that do not materially affect the rates and method of apportioning the Special Tax. In addition, the interpretation and application of any section of this document shall be at the City's discretion. Interpretations may be made by the City Council by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

H. MANNER AND DURATION OF SPECIAL TAX

The Special Tax shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided that the City may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if needed to meet the financial obligations of CFD No. 2025-01, and may collect delinquent Special Taxes through available methods.

The Special Tax shall be levied commencing in Fiscal Year 2024/25 to the extent necessary to satisfy the Annual Special Tax Requirement and shall be levied each Fiscal Year thereafter for as long as required to satisfy the Annual Special Tax Requirement.

Award of Special Event Equipment Rental Agreement for Miracle at Citrus

Prepared By:

Enswins Cordero, Asst. Director of Community Services & Recreation

Recommended Action(s)

Staff recommends that the City Council:

1. Approve the Special Event Equipment Rental Agreement in the amount of $69,876 with Bringing Home Christmas for equipment rental, and professional snow, lighting, and decoration installation services; and
2. Waive compliance with formal bidding requirements on the basis that formal bidding is not in the best interest of the City pursuant to EMC Section 4.06.080(i); and
3. Authorize the City Manager to execute the Agreement documents.

Summary

The Community Services & Recreation Department is responsible for the planning and implementation of all City community events. The City needs professional and technical services to advance the goals and policies of the City Council that are outlined in the City's Strategic Plan. The plans for the Miracle at Citrus Holiday event (2-day event) includes offering multiple snow play and snow slide areas, snow cannons, and holiday lighting, props, and decorations. Staff is recommending that the City Council approve the special event equipment rental agreement with Bringing Home Christmas in the amount of $69,876. for snow, lighting, and decoration rental and installation services.

Because the total amount of this agreement exceeds $25,000, City staff is requesting approval from

City Council for aforementioned services, which is budgeted for in FY 25-26. In accordance with Eastvale Municipal Code Section 4.06.080 (i), City Council may approve an exemption from bidding if in the City's best interest. The Community Services & Recreation Department plans to issue a formal Request for Proposals for these services by the next fiscal year to establish a formally solicited agreement in the future.

Background

The Miracle at Citrus Holiday Event is an annual two-day community event hosting thousands of guests, over 30 food-retail-info vendors, and which provides unique seasonal event amenities for families to enjoy. This purchase order is for the execution of services to provide multiple snow play/slide areas, snow cannons and decorations for Miracle at Citrus event operations.

Environmental

Approval of the agreements is not a project subject to review under the California Environmental Quality Act.

Strategic Plan Action - Priority Level: 3 | Target #: D | Goal #: A

Approval of ZIP Code Legislation Support Letter for the U.S. Senate Homeland Security and Governmental Affairs Committee

Prepared By:

Alexander Fung, Economic Development Manager

Recommended Action(s)

Staff recommends that the City Council approve a letter expressing support for H.R. 672 (Diaz-Balart) and S. 1455 (Scott) to be sent to the U.S. Senate Homeland Security and Governmental Affairs Committee.

Summary

Throughout the past two years, staff have partnered with federal and state legislators to introduce bills that support the City's independent Zoning Improvement Plan (ZIP) code advocacy efforts. Three bills were introduced in the current congressional cycle that would support the assignment of a new and unique ZIP code for Eastvale. To further encourage the passage of these bills, the City Council previously adopted Resolution 25-28 (Attachment 1) on May 28, 2025 to formally support H.R. 672 (Diaz-Balart), H.R. 1225 (Calvert), and S. 1455 (Scott).

On July 21, 2025, the House of Representatives unanimously passed H.R. 672. This bill, along with S. 1455, was referred to the Senate Homeland Security and Governmental Affairs Committee for review and consideration. To demonstrate support for the legislation, staff recommends that the City Council approve a letter of support that will be sent to the Senate Homeland Security and Governmental Affairs Committee.

Background

Currently, the City shares ZIP Codes 91752 and 92880 with neighboring cities. The City's lack of an independent ZIP code has caused various challenges for the Eastvale community, including issues

related to address mismatches, business attraction, community identity, election confusion, emergency management, insurance premium rates, mail delivery, and sports league participation. Based on information shared by the U.S. Congressional Research Service, there are two ways for a municipality to request its ZIP code boundaries be changed:

Method 1: USPS ZIP Code Boundary Review Process
Any municipality seeking a ZIP code change can submit the request in writing to the USPS. The USPS will evaluate the request based on cost, mail delivery impacts, and issues related to community identity. If the request is granted, the USPS will arrange a meeting with the proponent group to discuss USPS' proposed accommodation. Once an agreement is reached, the USPS will commission a formal survey of customers who would be affected by the proposed ZIP code change. If a simple majority of the impacted residents approve, the USPS will notify the affected customers of the official ZIP code change by mail, then provide the impacted residents with one year to transition their ZIP codes. In the event that a ZIP code boundary request is denied by the USPS, proponent groups have 45 days to submit appeals.

Method 2: Acts of Congress
Congress may introduce legislation that requires the USPS to create a single ZIP code for a specified community. The most recent example of a ZIP code created by statute occurred in 2006 as part of the Postal Accountability and Enhancement Act. This Act granted ZIP code boundary changes to Bradbury, CA, Discovery Bay, CA, Auburn Township, OH, and Hanahan, SC.

Advocacy Progress
Since 2022, the City has actively explored various ways of partnering with the USPS and federal representatives to resolve outstanding issues and challenges. In 2023, the City partnered with Congressmembers Ken Calvert and Norma Torres in the 118th Congress to introduce bills that would address Eastvale's ZIP code challenges, in addition to partnering with the City of Castle Pines in Colorado to launch an informal working group known as the National ZIP Code Advocacy Coalition. The Coalition now provides a platform for jurisdictions that are experiencing similar ZIP code challenges to share best practices and partner with one another. Additional information regarding the Coalition can be found at https://www.eastvaleca.gov/community/national-zip-code-advocacy-coalition.

With the support from Senator Alex Padilla, Former Senator Laphonza Butler, and Congressmembers Ken Calvert and Norma Torres, the City successfully convinced the USPS via its ZIP Code Boundary Review Process to change ZIP Code 92880's designation from "Corona" to "Eastvale." The change was implemented on January 1, 2024, as displayed on the USPS website. While ZIP Code 92880's municipal designation was changed and some of the City's outstanding issues have been resolved, the City continues to experience challenges due to the lack of an independent ZIP code.

Analysis
The 119th Congress began on January 3, 2025 and will end on January 2, 2027. As a result, bills that are introduced in the current congressional cycle have until January 2, 2027 to pass through both chambers of Congress and be signed by the President. Due to the strong partnerships that were previously formed with federal legislators in the 118th Congress, Eastvale has already been included in three ZIP code bills in the first few months of the current congressional cycle.

Congressman Mario Diaz-Balart (R-FL-26) introduced H.R. 672 on January 23, 2025 to direct the USPS to establish new ZIP codes for 8 cities and communities across the nation, including Eastvale. Upon the bill's passage, the USPS must designate new ZIP codes for these cities and communities within 270 days. This bill is co-sponsored by 13 Congressmembers, including Congressman Ken Calvert (R-CA-41) and Congresswoman Norma Torres (D-CA-35). H.R. 672 passed the House of Representatives on July 21, 2025 and has now been referred to the Senate Homeland Security and Governmental Affairs Committee. Additional information regarding H.R. 672 can be found on https://www.congress.gov/bill/119th-congress/house-bill/672.

H.R. 672's Senate companion bill, S. 1455, was introduced by Senator Rick Scott (R-FL) on April 10, 2025. S. 1455's bill language largely mirrors the language of H.R. 672, with the exception of including six additional cities and communities. The bill is co-sponsored by Senator Alex Padilla (D-CA) and Senator Joni Ernst (R-IA). S. 1455 has been read twice and referred to the Senate Committee on Homeland Security and Governmental Affairs. Additional information regarding S. 1455 can be found on https://www.congress.gov/bill/119th-congress/senate-bill/1455.

Additionally, Congressman Ken Calvert introduced H.R. 1225 on February 12, 2025 to direct the USPS to designate a single and unique ZIP code for Eastvale. Upon the bill's passage, the USPS must designate a new and independent ZIP code for Eastvale within 180 days. The bill is co-sponsored by Congresswoman Norma Torres and has been referred to the House Committee on Oversight and Government Reform. Additional information regarding H.R. 1225 can be found on https://www.congress.gov/bill/119th-congress/house-bill/1225.

Recognizing the high level of interest received for H.R. 672 and S. 1455 over the past several months, staff's main strategy is to focus on obtaining the support needed to aid the passage of either one of those two bills. The City continues to leverage resources and connections from other member jurisdictions in the National ZIP Code Advocacy Coalition to efficiently and effectively garner support. As of this month, the Coalition now includes over 80 municipalities across 30 states.

Last month, the City Council and staff, in partnership with 11 other jurisdictions from the National ZIP Code Advocacy Coalition, arranged a lobbying trip in Washington, D.C. to speak with Senators, Congressmembers, and staffers to understand their perspectives and interests in passing either H.R. 672 or S. 1455. During the trip, the City had the opportunity to meet with Senator Rand Paul (R-KY), who chairs the Senate Homeland Security and Governmental Affairs Committee. Senator Paul expressed an interest in advancing S. 1455 in the upcoming committee mark-up, which would allow the Senate Homeland Security and Governmental Affairs Committee to review and vote on the bill. To further demonstrate the City's support, staff recommends that the City Council approve a letter of support that will be sent to the Senate Homeland Security and Governmental Affairs Committee.

Environmental

Pursuant to Section 15378 of the California Environmental Quality Act (CEQA) Guidelines, organizational or administrative activities of governments that do not result in direct or indirect physical changes in the environment are not considered as CEQA projects.

Strategic Plan Action - Priority Level: 2 | Target #: B | Goal #: C

Supporting H.R. 672, H.R. 1225, and S. 1455 can support the City to develop branding and identity for Eastvale by advocating for the City to have an independent ZIP code.

Fiscal Impact

This action does not result in any direct fiscal impacts.

Prior City Council/Commission Action

On March 22, 2023, the City Council voted to support H.R. 696 (Calvert), H.R. 860 (Diaz-Balart), and SJR 3 (Roth) and authorized the City Manager to submit the necessary letters of support to encourage the passage of these bills. H.R. 696 and H.R. 860 were introduced in the previous congressional legislative session to address Eastvale's ZIP code challenges, while SJR 3 was a California state resolution that affirmed the need for Eastvale to obtain an independent ZIP code.

Additionally, the City Council, the Planning Commission, and the Public Safety Commission receive presentations on the City's independent ZIP code advocacy efforts on an as-needed basis. The previous update was provided to the City Council on December 11, 2024.

On May 28, 2025, the City Council adopted Resolution 25-28 to formally support H.R. 672 (Diaz-Balart), H.R. 1225 (Calvert), and S. 1455 (Scott).

RE: SUPPORT FOR ZIP CODE BOUNDARY CORRECTION LEGISLATION (S. 1455)

Dear Senator Paul,

On behalf of the City of Eastvale, we express our sincere appreciation for meeting with our Mayor, Councilmember, and staff on Wednesday, November 5, 2025 to discuss challenges and issues associated with Zoning Improvement Plan (ZIP) code boundaries impacting our community and others nationwide.

Eastvale has been collaborating with its federal legislators to advocate for a new and independent ZIP code since the City's incorporation in 2010. The absence of a distinct ZIP code has created significant challenges for residents and businesses, including delayed emergency response times, inaccurate economic development data for business attraction and retention, higher insurance premiums, voter registration confusion, and diminished community identity.

We sincerely request the timely approval of the ZIP code legislation that is currently presented to the Senate Homeland Security and Governmental Affairs Committee. This legislation would address the longstanding need for the United States Postal Service (USPS) to update ZIP code boundaries and designate revised boundaries for communities facing similar issues across the country.

Despite numerous petitions from affected communities, the USPS consistently declined request for ZIP code boundary adjustments, providing little feedback. It has been nearly two decades since Congress last enacted legislation directing the USPS to correct ZIP code boundaries. Presently, S. 1455 (Scott) is pending before the Senate Homeland Security and Governmental Affairs Committee, while the House of Representatives unanimously passed its companion bill, H.R. 672 (Diaz-Balart), in July 2025.

Beyond improving quality of life, this corrective legislation will enhance mail delivery efficiency in Eastvale and strength USPS service standards. We look forward to collaborating with you and the members of the Committee to advance this critical legislation. Thank you for your consideration and

please do not hesitate to reach out to the City's Economic Development Manager, Alexander Fung, at afung@eastvaleca.gov if you have any questions.

Sincerely,

Mike McMinn

Award of Contract for GIS Services and Support

Prepared By:
Johnny Terfehr, Community Safety and Technology Director

Recommended Action(s)
Staff recommends that the City Council authorize the City Manager to execute a Professional Services Agreement with Compass Rose GIS LLC in the amount not-to-exceed $80,000 per fiscal year to provide unlimited GIS services and support, for an initial three-year contract term, with a provision for two, one-year optional extension periods if needed.

Summary
In an effort to maintain a high level of Geographic Information Systems (GIS) support and ensure the City remains aligned with current industry standards and technological advancements, the City of Eastvale released a Request for Proposals (RFP) for unlimited GIS services.

The RFP was issued on June 10, 2025, seeking qualified firms capable of providing comprehensive GIS support utilizing the ArcGIS platform currently used by the City. At the close of the solicitation period, the City received seventeen proposals. After a thorough responsiveness review, Compass Rose GIS, LLC was determined to be highest quality vendor, offering the best value to the City, and staff recommends award of an agreement to this contractor.

If approved, the City will enter a into three-year agreement with Compass Rose GIS LLC for an amount not to exceed $80,000 per fiscal year. Each agreement will also provide the option to extend the term two times for one additional year each time, resulting in a potential term total of five years.

Background

The City of Eastvale utilizes GIS to support a wide range of operational needs, including asset mapping, planning and development review, infrastructure management, public safety, code enforcement, permitting, and public communications. GIS provides staff with centralized, accurate spatial data and web-based tools that improve decision-making and enhance interdepartmental collaboration. The City maintains its mapping data within the ESRI ArcGIS environment, which serves as the primary platform for Eastvale's current and future GIS applications.

To ensure continued and efficient GIS support, on June 10, 2025, the City issued Request for Proposals (RFP) No. 25-115CS via the City's website and online bidding system, PlanetBids. A total of seventeen proposals were received by the proposal submittal deadline of August 18, 2025. Of the seventeen proposals received, one was deemed to be non-responsive, meaning they did not submit all required documents and certifications to the City by the deadline. The following is a summary of vendor participation and rankings:

Proposer rankings are as follows:

1. Compass Rose GIS LLC	9. Eckersall, LLC
2. HR Green Pacific, Inc.	10. geoConvergence, LLC
3. Spatial Informatics Group, LLC	11. Infinity Technologies
4. CSG Consultants, Inc.	12. MGT Impact Solutions
5. Geovironment Consulting	13. Gartrell Group
6. Cultivate Geospatial Solutions, LLC	14. 360S2G
7. Psomas	15. GCS Holdings, Inc.
8. Arini Geographics	16. CJM Petroleum Consulting Inc.

Staff recommends that the City Council approve an agreement with Compass Rose GIS LLC for the provision of GIS Services and Support. The evaluation committee is confident in this Contractor's ability to deliver, ongoing GIS program support, UAV imagery capture of City-owned facilities for roof inspection and maintenance, system integration, process automation, and field data collection workflow development. The proposal also reflected a thorough capability of providing strategic oversight, project management, and client engagement, and GIS Surveyors delivering specialized technical services. Compass Rose GIS LLC currently or has previously provided GIS services and support to the Cities of La Mesa, Big Bear Lake, El Cajon, and San Clemente.

The selected vendor will be responsible for the following:

- Provide routine GIS support, including data management, user administration, routine updates, and annual UAV imagery of City facilities.
- Deliver GIS support across all departments, including map production, data analysis, system updates, application development, and software/hardware recommendations.
- Develop and maintain GIS applications, including web-based and mobile tools.
- Prepare an annual GIS roadmap summarizing completed work and identifying upcoming projects.
- Administer the City's ArcGIS Online and future ArcGIS Enterprise environments.
- Design and deploy ArcGIS Enterprise in coordination with the City's IT Division and ESRI.
- Maintain and update existing GIS tools, maps, applications, and data layers

- Support system integrations with permitting, asset management, and code enforcement platforms.
- Collect UAV imagery annually and upload it to the City's ArcGIS Online system.
- Provide GIS training for City staff, either virtually or in person.

If approved, the City will enter into a three-year agreement with Compass Rose GIS, LLC for an amount not to exceed $80,000 per fiscal year. The agreement will also include the option to extend the term two additional times for one year each, resulting in a potential total term of five years.

City retains the right, but has no obligation, to represent Contractor or be present at any deposition, hearing or similar proceeding. Contractor agrees to cooperate fully with City and to provide City with the opportunity to review any response to discovery requests provided by Contractor. However, this right to review any such response does not imply or mean the right by City to control, direct, or rewrite said response. Contractor shall not be held criminally or civilly liable under any Federal or State trade secret law for the disclosure of a trade secret that is made in confidence to a Federal, State, or local government official or to an attorney solely for the purpose of reporting or investigating a suspected violation of law or for the disclosure of a trade secret that is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal.

SECTION 16. INDEMNIFICATION.

(a) Indemnification for Professional Liability. Where the law establishes a professional standard of care for Contractor's services, to the fullest extent permitted by law, Contractor shall indemnify, protect, defend and hold harmless City and any and all of its officials, employees and agents ("Indemnified Parties") from and against any and all liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including attorneys' fees and costs, court costs, interest, defense costs, and expert witness fees) arise out of, are a consequence of, or are in any way attributable to, in whole or in part, any negligent or wrongful act, error or omission of Contractor, or by any individual or entity for which Contractor is legally liable, including but not limited to officers, agents, employees or subcontractors of Contractor, in the performance of professional services under this Agreement.

(b) Indemnification for Other than Professional Liability. Other than in the performance of professional services and to the full extent permitted by law, Contractor shall indemnify, protect, defend and hold harmless City, and any and all of its employees, officials and agents from and against any liability (including liability for claims, suits, actions, arbitration proceedings, administrative proceedings, regulatory proceedings, losses, expenses or costs of any kind, whether actual, alleged or threatened, including attorneys' fees and costs, court costs, interest, defense costs, and expert witness fees), where the same arise out of, are a consequence of, or are in any way attributable to, in

whole or in part, the performance of this Agreement by Contractor, or by any individual or entity for which Contractor is legally liable, including but not limited to officers, agents, employees or subcontractors of Contractor.

(c) Indemnification from Subcontractors. Contractor agrees to obtain executed indemnity agreements with provisions identical to those set forth in this section from each and every subcontractor or any other person or entity involved by, for, with or on behalf of Contractor in the performance of this Agreement naming the Indemnified Parties as additional indemnitees. In the event Contractor fails to obtain such indemnity obligations from others as required herein, Contractor agrees to be fully responsible according to the terms of this section. Failure of City to monitor compliance with these requirements imposes no additional obligations on City and will in no way act as a waiver of any rights hereunder. This obligation to indemnify and defend City as set forth herein is binding on the successors, assigns or heirs of Contractor and shall survive the termination of this Agreement or this section.

(d) City's Negligence. The provisions of this section do not apply to claims occurring as a result of City's sole negligence. The provisions of this section shall not release City from liability arising from gross negligence or willful acts or omissions of City or any and all of its officials, employees and agents.

SECTION 17. INSURANCE.

Contractor agrees to obtain and maintain in full force and effect during the term of this Agreement the insurance policies set forth in Exhibit "B" "Insurance" and made a part of this Agreement. All insurance policies shall be subject to approval by City as to form and content. These requirements are subject to amendment or waiver if so approved in writing by the City Manager. Contractor agrees to provide City with copies of required policies upon request.

SECTION 18. ASSIGNMENT.

The expertise and experience of Contractor are material considerations for this Agreement. City has an interest in the qualifications and capability of the persons and entities who will fulfill the duties and obligations imposed upon Contractor under this Agreement. In recognition of that interest, Contractor shall not assign or transfer this Agreement or any portion of this Agreement or the performance of any of Contractor's duties or obligations under this Agreement without the prior written consent of the City. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this Agreement entitling City to any and all remedies at law or in equity, including termination of this Agreement pursuant to Section 20 "Termination of Agreement." City acknowledges, however, that Contractor, in the performance of its duties pursuant to this Agreement, may utilize subcontractors.

SECTION 19. CONTINUITY OF PERSONNEL.

Contractor shall make every reasonable effort to maintain the stability and continuity of Contractor's staff and subcontractors, if any, assigned to perform the Services. Contractor shall notify City of any changes in Contractor's staff and

subcontractors, if any, assigned to perform the Services prior to and during any such performance. If City doe not agree to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause.

SECTION 20. TERMINATION OF AGREEMENT.

(a) City may terminate this Agreement, with or without cause, at any time by giving thirty (30) days written notice of termination to Contractor. In the event such notice is given, Contractor shall cease immediately all work in progress.

(b) If either Contractor or City fail to perform any material obligation under this Agreement, then, in addition to any other remedies, either Contractor, or City may terminate this Agreement immediately upon written notice.

(c) Upon termination of this Agreement by either Contractor or City, all property belonging exclusively to City which is in Contractor's possession shall be returned to City. Contractor shall furnish to City a final invoice for work performed and expenses incurred by Contractor, prepared as set forth in Section 4 "Compensation and Method of Payment" of this Agreement. This final invoice shall be reviewed and paid in the same manner as set forth in Section 4 "Compensation and Method of Payment" of this Agreement.

SECTION 21. DEFAULT.

In the event that Contractor is in default under the terms of this Agreement, the City shall not have any obligation or duty to continue compensating Contractor for any work performed after the date of default. Instead, the City may give notice to Contractor of the default and the reasons for the default. The notice shall include the timeframe in which Contractor may cure the default. This timeframe is presumptively thirty (30) days, but may be extended, though not reduced, if circumstances warrant, in the sole discretion of the City. During the period of time that Contractor is in default, the City shall hold all invoices and shall, when the default is cured, proceed with payment on the invoices. In the alternative, the City may, in its sole discretion, elect to pay some or all of the outstanding invoices during the period of default. If Contractor does not cure the default, the City may take necessary steps to terminate this Agreement under Section 20 "Termination of Agreement." Any failure on the part of the City to give notice of the Contractor's default shall not be deemed to result in a waiver of the City's legal rights or any rights arising out of any provision of this Agreement.

SECTION 22. EXCUSABLE DELAYS.

Contractor shall not be liable for damages, including liquidated damages, if any, caused by delay in performance or failure to perform due to causes beyond the control of Contractor. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state or local governments, acts of City, court orders, fires, floods,

epidemics, strikes, embargoes, and unusually severe weather. The term and price of this Agreement shall be equitably adjusted for any delays due to such causes.

SECTION 23. COOPERATION BY CITY.

All public information, data, reports, records, and maps as are existing and available to City as public records, and which are necessary for carrying out the Services shall be furnished to Contractor in every reasonable way to facilitate, without undue delay, the Services to be performed under this Agreement.

SECTION 29. WAIVER.

Acceptance by City of any work by Contractor shall not constitute a waiver of any of the provisions of this Agreement.

COMPANY EXPERIENCE

The Compass Rose GIS team is an expert at serving small municipalities very similar to the City of Eastvale. We have been providing GIS services to various departments at the City of La Mesa for 15 years! Our knowledge of local data, specific project needs, and introduction of emerging technologies have set us apart in the region.

We have worked alongside public works departments for over 25 years to help prioritize data collection, manage asset layers, and provide map tools for field crews and management alike. We have a deep understanding of GIS needs and datasets for public works such as sewer systems, storm water infrastructure, street maintenance, traffic management, and parks. We build close relationships with engineering and operations staff to provide the best mapping solutions possible.

Asset management systems are integral to a public works department, and most, if not all, have GIS integration opportunities. We helped the City of La Mesa implement Cartegraph, which now has over 25 asset layers integrated. We continue to support customized needs for Cartegraph, including syncing new assets, custom base maps, and markup tools to highlight map errors.

We have successfully completed integration projects with several of our recent customers:

- **Lucity** asset management – City of San Clemente
- **EnerGov** planning & permitting – City of El Cajon

- **Accela** planning & permitting – City of Big Bear Lake
- **Maintstar** planning & permitting – City of La Mesa
- **Granite Net** CCTV inspection software – City of La Mesa
- **Cartegraph** asset management – City of La Mesa

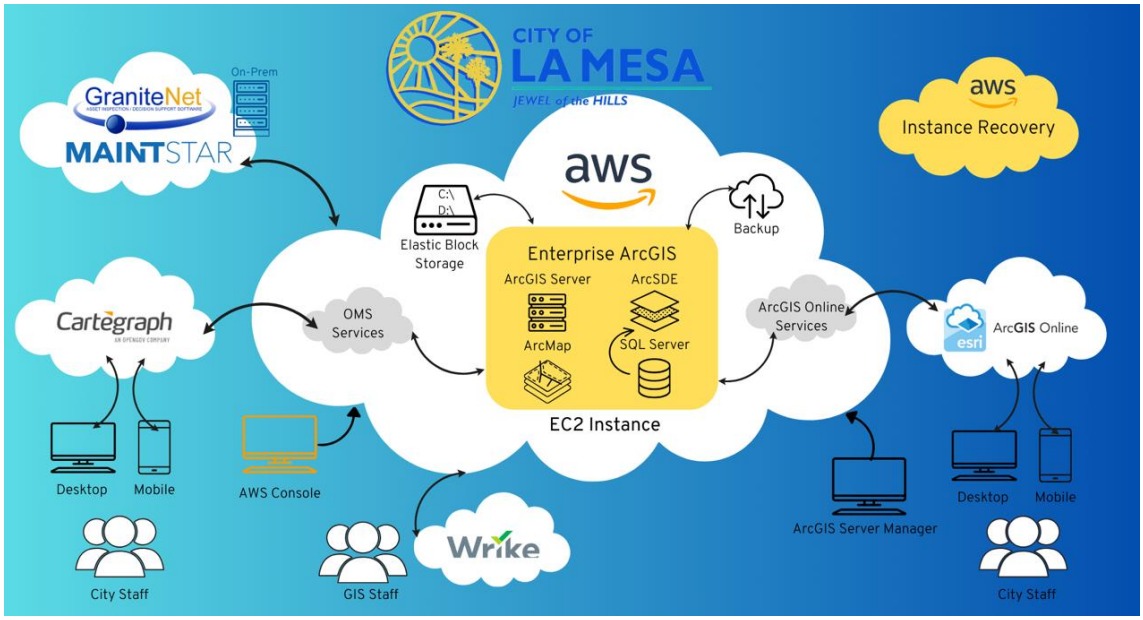

While each system has its own unique set of GIS requirements, our deep knowledge of planning and public works data sets, and ability to format and customize map services for integration will be of tremendous value to the City of Eastvale for Cityworks data migration.

Summary: Compass Rose GIS serves as the GIS program manager and provides staffing support to the City of La Mesa. At the start of our partnership, tasks included data conversion, centralization, procedural documentation, and staff training. The next phase included implementing Enterprise GIS software and database in a cloud environment (AWS). ArcGIS Online is used daily by City staff and all, including maps, apps, hosted feature services, are all managed by our technical team.

A public-facing GIS Hub is hosted on the City's website for residents to view focused maps such as Zoning, Utilities, Parks, and more. On-going responsibilities include server and database administration, data maintenance, custom maps, and apps.

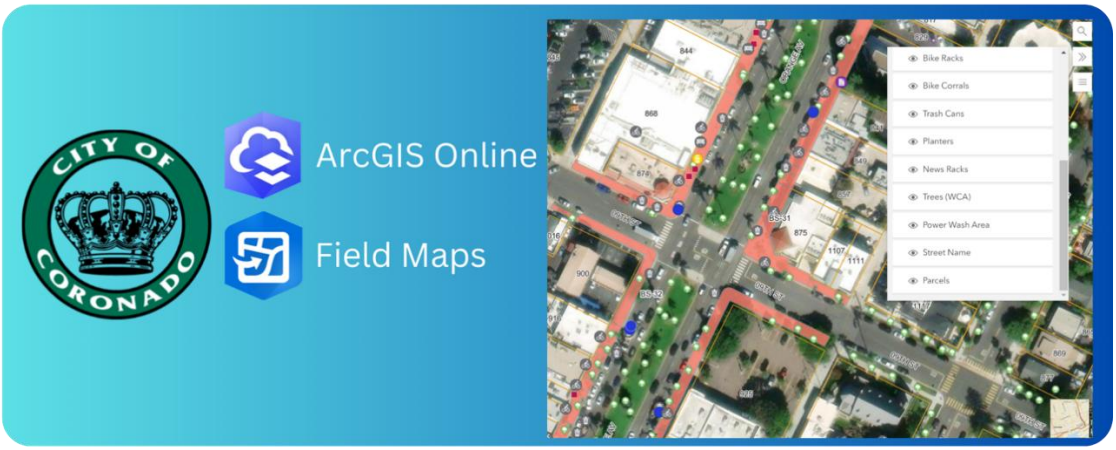

Our team helped implement Cartegraph as the City's asset management program. Over 20 GIS asset layers were prepared to synchronize with the system. Custom workflow, automation, reporting, base maps, and training are still a part of our responsibilities.

E. Project Understanding

We understand and have experience with the GIS needs of small to medium-sized cities. Through our experience with local governments, we know where Eastvale's GIS program is in the growth and development lifecycle. We understand what came before this point, what comes next, the challenges and opportunities that lie ahead, and the engagement with stakeholders that needs to happen and we have both programmatic and technical solutions to ensure Eastvale's next chapter is a success.

Our goal is to build trust with our client by tailoring our solutions to their needs while continuously improving processes through collaborative engagement and automation. Our expertise in Esri products allows us to configure and customize solutions tailored to the City's needs. Our team has helped to manage typical City data, from the Assessor's Office to Public Works, and we can find efficiencies through cross-departmental solutions, such as ArcGIS Online web maps and apps. We can collect spatial data, collate from various sources, transform any hardcopy or non-spatial datasets, and collect from and contribute to other datasets, such as county, regional, or state.

Additionally, recognize that Eastvale has been operating with limited GIS functionality, and this represents the City's first comprehensive GIS services contract. Our approach is specifically designed for municipalities transitioning from basic GIS usage to full enterprise capabilities.

Our approach will establish performance measures to track progress and provide ongoing support, troubleshooting, and guidance. Regular evaluations and feedback will ensure that our services align with the evolving needs of the City and the GIS industry. And we provide complete documentation and training to City staff for all new or updated systems, solutions, workflows, automations, or implementations. Overall, our goal is to provide reliable, efficient, and innovative GIS support services that enhance decision-making, improve data accuracy, and streamline workflows. We coordinate with clients to provide the best information, and clearly define desired outcomes, and design and implement solutions to provide those outcomes.

Project Understanding – Organizational Approach

Compass Rose GIS understands that successful GIS program implementation requires more than technical expertise, it demands structured project management, clear communication protocols, and systematic resource coordination. Our organizational approach for the City of Eastvale contract establishes a framework for managing project resources, maintaining accountability, and ensuring seamless service delivery for the City.

Project Initiation and Setup

Kickoff Meeting, Stakeholder Alignment, and Points of Contact. Within two weeks of contract execution, Compass Rose GIS will conduct a project kickoff meeting with key City stakeholders. This foundational meeting will establish project expectations, clarify roles and responsibilities, and align all parties on deliverables and timelines. The kickoff will include staff from City departments that utilize GIS, ensuring an understanding of departmental needs and priorities. At this time, we will establish key points of contact for the project, enabling us to develop a communication process and catalog for future work. Melisa Caric Lee will serve as the primary coordinator for Compass Rose for project, although as specific technical tasks are underway, wider collaboration will be necessary.

IT Infrastructure and Access Coordination. Working closely with the City's IT representatives, we will establish secure access protocols for our team members. This includes:

- ArcGIS Online organizational access and role assignments
- VPN access configuration for remote team members
- User account setup for City systems as needed
- Establishment of secure file transfer protocols

Ongoing Communication Framework

Regular Meeting Schedule. To ensure consistent communication and progress monitoring, we will implement a structured meeting schedule:

- *Monthly GIS Stakeholder Meetings:* an open-ended meeting to go over the progress of the project, upcoming goals, and any recent deliverables.
- *As-Needed, Inter-Departmental Meetings*: Comprehensive sessions with representatives from City departments to review progress, address cross-departmental needs, and coordinate upcoming initiatives.
- *As-Needed, Focused Departmental Meetings*: meetings with individual departments to address specific technical requirements, training needs, and workflow optimization.

Task and Content Management System

Deliverables Tracking Platform. Compass Rose GIS will recommend a task and content management system to ensure a location where all parties can access project deliverables and track progress throughout the project lifecycle. Our preferred approach utilizes SharePoint, although if the City prefers, other specialized project management tools can be used, depending on the City's existing infrastructure and preferences. The Task and Content system will provide:

- Real-time visibility into project status and deliverable progress
- Task assignment and completion tracking
- Document version control and collaboration
- Milestone achievement monitoring
- Resource allocation visibility

Documentation and Knowledge Management. We also recommend that project documentation, procedures, and deliverables should be centrally managed through the same content management system, ensuring:

- Standardized documentation procedures

- Easy access to current and historical project information with version control
- A knowledge transfer platform (i.e., "How To Guides") for City staff
- A "Point of Contact" list for all stakeholders and contract staff

PROJECT UNDERSTANDING – TECHNICAL APPROACH

The Compass Rose GIS team will work with the City to determine the best methods for GIS organization, data editing, and software processes and policies, as well as requested recommendations for platform or data management. We will prioritize and manage requests for GIS edits, mapping, applications, and more with regular updates, as-needed reviews, or process improvements.

To support this project, we will follow an approach consisting of the following Tasks to complete the various scope elements:

1 – GIS ROADMAP

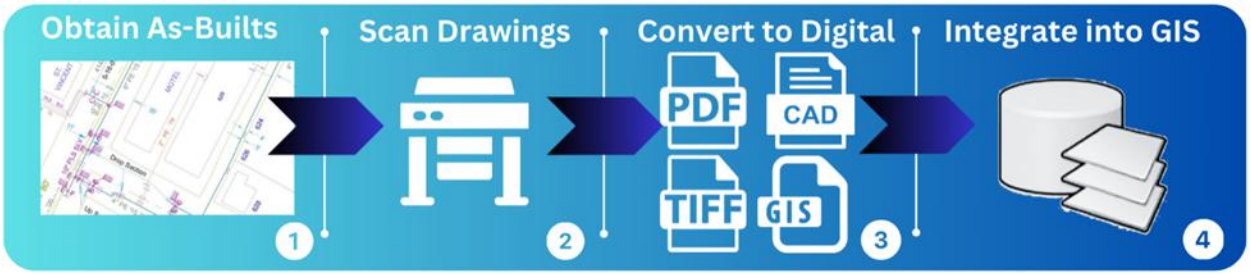

Our approach includes a GIS Roadmap that provides strategic direction, implementation guidance, and prioritization of GIS initiatives over a 3–5 year period. The roadmap will align with organizational goals and improve the effectiveness, sustainability, and integration of GIS technologies and services. Our team will work with City staff to develop the initial GIS Roadmap, then review progress and make recommendations annually.

The Roadmap will include:

- Assessment of current GIS environment (technology, data, staffing, workflows, governance).
- Identification of key business needs and stakeholder priorities through interviews, surveys, and workshops.
- Evaluation of current GIS capabilities and gaps.
- Benchmarking against industry standards and peer agencies.
- Development of a future-state vision for GIS, including architecture, data governance, and service delivery models.
- Creation of a phased roadmap including:
    - Short-term (0–12 months)
    - Mid-term (1–3 years)
    - Long-term (3–5 years)
- Recommendations for technology investments, staffing, training, and data management improvements.
- Identification of high-priority GIS applications and integrations (e.g., asset management, permitting, public engagement).
- Cost estimates and potential funding strategies.

2 - UPDATE AND MAINTAIN GIS DATA AND MAPS

Working together with staff, we will begin to understand which data layers need to be updated, consolidated, or archived. Our team will help with data editing and provide training to staff when necessary. Editing workflows and rules will be established along with formal documentation. Editing can occur in ArcGIS Online or ArcGIS Pro.

We can create apps using **ArcGIS Experience Builder** or **Story Maps** to help share mapping capabilities for departments, stakeholders, and the general public. Existing web maps and apps will be reviewed with department staff to understand if updates are needed. An internal and public-facing GIS Hub will be considered.

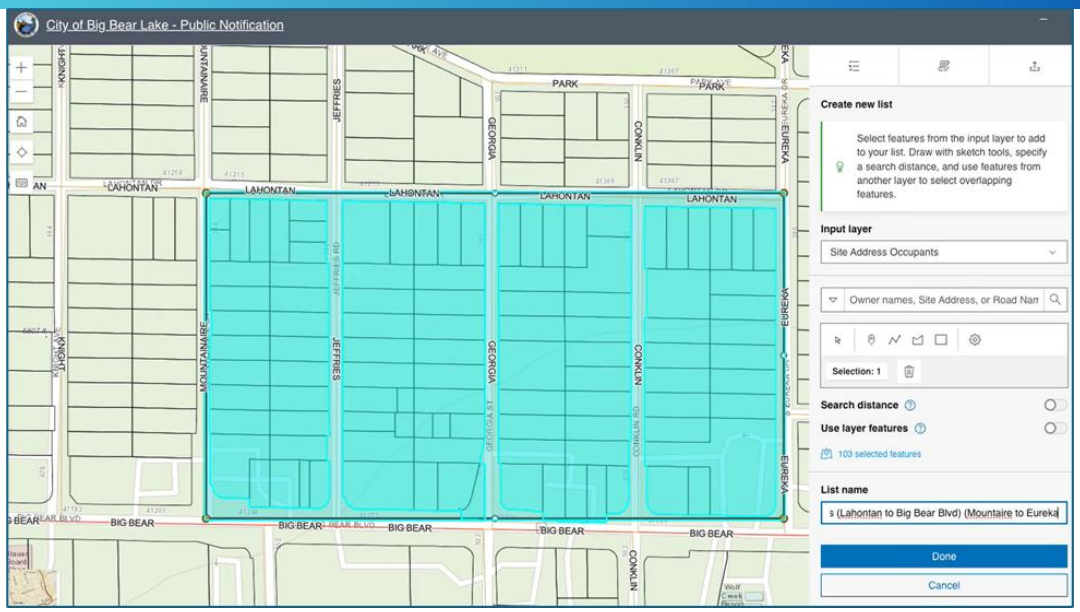

The Compass Rose GIS team will review existing web maps to look for areas of improvement. We will meet with end-users and subject matter experts to define requirements for advanced workflow opportunities. As Esri partners and through our vast local government experience managing ArcGIS Online, we can offer a number of popular web experiences and focused solutions.

The **Public Notification App** is the perfect example of an ArcGIS Online Solution that is easy to deploy. This tool allows internal staff to select a group of parcels, buffer, and export the results to mailing labels to either or both property owners and occupants.

We have recently implemented this tool for the City of Big Bear Lake and the City of La Mesa. In both cases, a brief training video was created and shared with staff to be able to easily understand and use the tool.

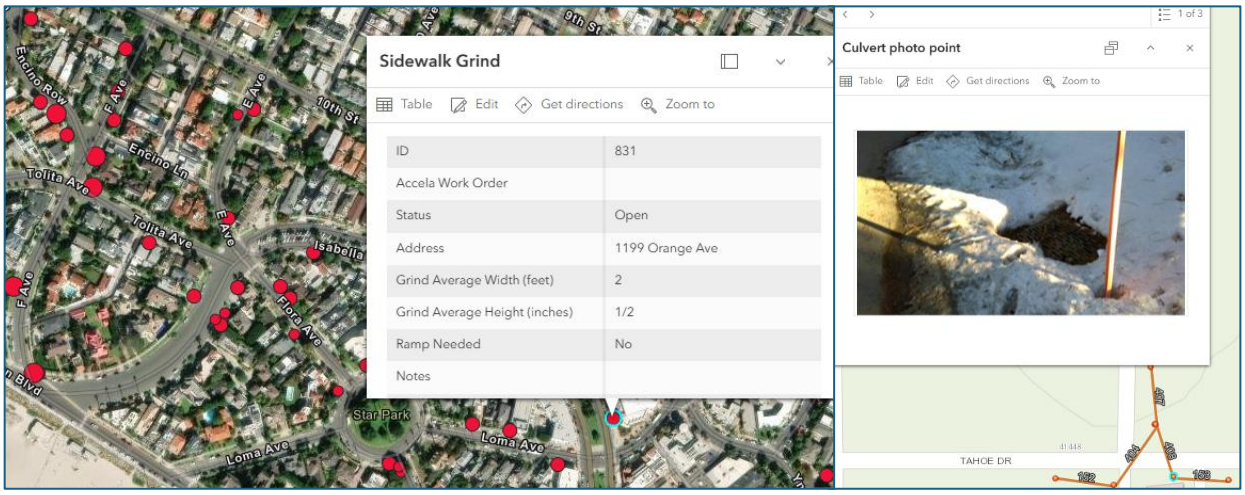

ArcGIS Online contains the tools necessary to create mobile data collection applications using Field Maps. End users can use a tablet or smartphone to access the maps, edit data, and take photos that are all hosted in the City's AGOL account.

We can configure and deploy web apps for data viewing or editing, asset management and inspections, property management, situational awareness in operations, and more, using ArcGIS Dashboard, Survey 123, or Field Maps.

We have very recently deployed successful Field Map projects for:

- City of Coronado – street maintenance activities
- City of Big Bear Lake – storm water culvert inspection
- City of La Mesa – parking study

And successful Survey123 projects for:

- City of Coronado – construction and municipal inspections

We are comfortable working with City and County governments, utilities, and partner organizations to locate and exchange necessary datasets. Our experience proves that our team is multi-disciplinary regarding data types across an organization. We will gather pertinent data from the County of Los Angeles at a regular frequency. We can explore using automated scripts to process information and import it directly into the City's GIS database.

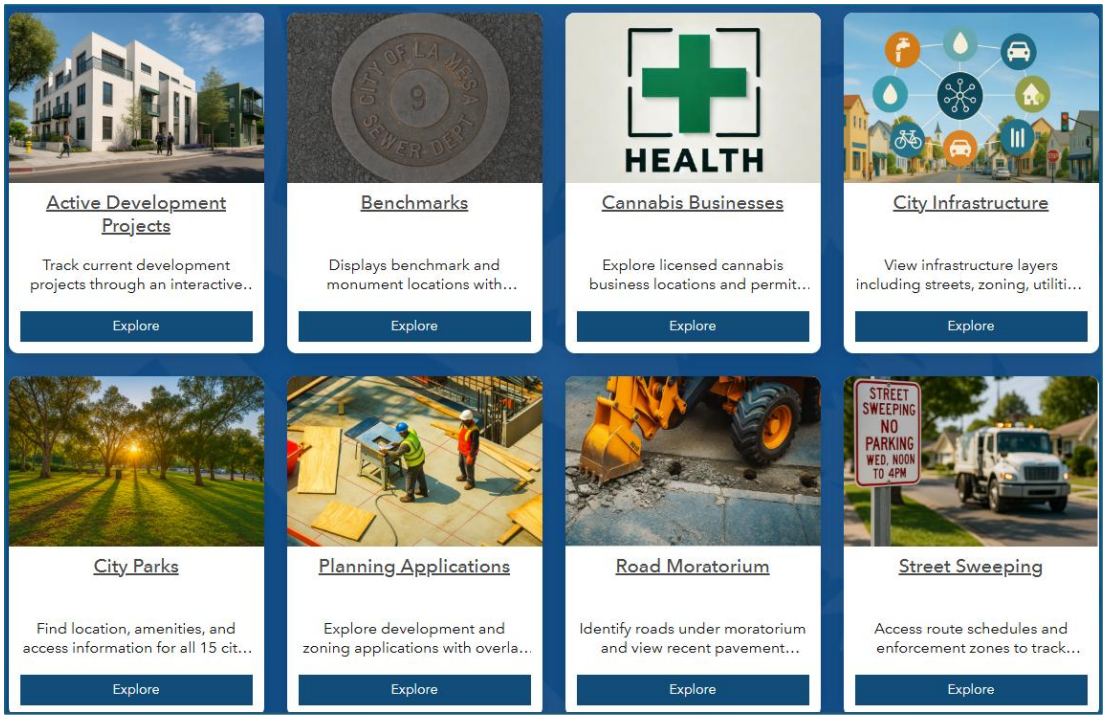

3 – Create a Public-Facing GIS Portal

It is very common for a City to publish public-facing maps and GIS data for download. Esri has simple tools and templates to use and get started. An ArcGIS Online solution is ArcGIS Hub – allowing the city to choose which Web Apps, Dashboards, and Story Maps they want to share, internally and to the public. Examples of maps that are very popular with residents are:

- Zoning
- Street sweeping
- Active development projects
- Council Districts
- Road Moratorium
- Bike Routes
- Parks Story Map
- Parcels (internal with owners, external without)

We have recently created public-facing GIS sites for the following cities, which can be found online on their websites:

- City of La Mesa
- City of El Cajon
- City of Big Bear Lake

These sites include interactive maps, story maps, and the ability to download GIS data layers. For the City of La Mesa, the active development map is updated monthly. After the initial setup, City planning staff members were trained on editing and managing the content for the story map. If automation is possible, We can create scripts to download and update GIS layers from partner organizations (County, neighboring Cities, SCAG, etc.).

4 – ArcGIS Enterprise Deployment

As Esri Business Partners, you can be assured that our team is well-versed in the full ArcGIS Enterprise suite – from ArcGIS Server, Portal for ArcGIS, Web Adaptor, Data Store, and enterprise RDBMS implementations. We will support the installation, configuration, and management of all ArcGIS Enterprise software, deploying either on-premises, in the cloud, or in a combination of both. This will include knowledge transfer, training, and documentation for future system maintenance.

When Eastvale is ready to make that leap into ArcGIS Enterprise and expand on its capabilities, we will work with the City's IT staff and project manager to understand the existing system architecture, plan system procurements, and prepare recommendations for an expanded enterprise system.

Our team of experts has recently completed ArcGIS Enterprise implementations for:

- City of La Mesa (Standalone ArcGIS Server/Microsoft SQL Server on AWS; integration with ArcGIS Online)
- City of El Cajon (ArcGIS Enterprise and ArcGIS Online)
- City of Big Bear Lake (ArcGIS Enterprise/Microsoft SQL Server on premise; integration with ArcGIS Online)
- City of San Clemente (ArcGIS Enterprise and ArcGIS Online)

Please see our project experience section and contact our references for detailed information and results.

5 – GIS System Integration

The Compass Rose GIS team has helped multiple cities with data preparation and integration with 3rd party software. We understand that GIS datasets may need extensive clean up and configuration to be able to synchronize properly. Our technical team would participate in pre-planning meetings with the City and software vendor to get in-depth knowledge on the database schema, published map services, and update routines.

We have successfully completed integration projects with several of our recent customers:

- Lucity asset management – City of San Clemente
- Cartegraph asset management – City of La Mesa
- EnerGov planning & permitting – City of El Cajon
- Accela planning & permitting – City of Big Bear Lake
- Maintstar planning & permitting – City of La Mesa
- Granite Net CCTV inspection software – City of La Mesa

While each system has its own unique set of GIS requirements, our deep knowledge of planning and public works data sets, and ability to format and customize map services for integration will be of tremendous value to the City of Eastvale.

6 – UAV Imagery Capture

GIS Surveyors will collect unmanned aerial vehicle (UAV) imagery of City-owned facilities and properties to support roof inspections, facility maintenance, and asset management. Flights will be conducted using a DJI Inspire 2 equipped with a Zenmuse X5 gimbal-mounted camera, capturing high-resolution imagery that meets the City's accuracy and quality requirements. Scheduling will be coordinated with City staff and timed for favorable weather conditions to maximize efficiency and minimize disruption.

All imagery will be processed, quality-checked, and uploaded to the City's ArcGIS Online account for immediate use across departments. UAV imagery will be collected as time and weather allow, no less than once per year, ensuring an up-to-date visual record of City facilities. While LiDAR or other aerial imaging technologies are not required for this scope, GIS Surveyors can provide these services upon request.

7 – Training and Documentation

We will design and implement online and/or onsite training sessions for City department staff and stakeholders, create and maintain documentation, and can also create training or reference guides for staff as needed. These will be stored in a centralized and accessible location, either on the local network, SharePoint, cloud storage environment, or in ArcGIS Online.

Our team has also used 'How-To' documents and videos as an easy reminder for staff who use maps, apps, and tools less frequently, and also as a training guide.

Formal Standard Operating Procedures (SOPs) will be developed to reinforce the editing process of all City-maintained data layers.

Through our experience with large-scale software implementation projects to simple workflow management, it is imperative to capture decisions made, steps taken, and final results in formal documentation for all members of the technical team to preserve for future reference.

ArcGIS Online organizational members will be reviewed to analyze usage, roles, and permissions. We will identify areas where City staff can collect and edit data in their area of expertise. There will be many opportunities for training for individuals, by department or special focus groups.

G. Project Work Plan and Schedule

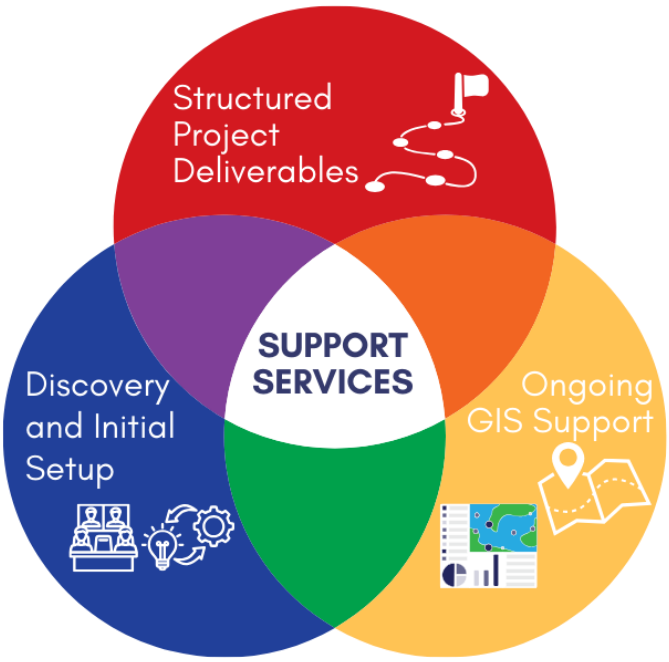

Compass Rose GIS has developed a comprehensive Work Plan and Schedule that balances structured project deliverables with the flexible, on-call nature of ongoing GIS support services. Our approach recognizes that while specific initiatives require formal project management and scheduling, much of the City's GIS needs will be fulfilled through responsive, as-needed support that cannot be predetermined or scheduled in advance. As a result, our proposal identifies those things and responds with approaches for both scenarios.

Project Organization and Management Framework

Our project management approach is built around **three distinct service categories**:

- **Structured Project Deliverables:** These are major initiatives with defined scope, timeline, and measurable outcomes (GIS Roadmap, ArcGIS Enterprise deployment, UAV imagery collection, training programs).
- **Discovery and Initial Setup Activities:** These are foundational tasks that require systematic completion during the project's early phases (data inventory, user account setup, system assessment).
- **Ongoing Support Services:** These represent the responsive, on-call nature of most GIS services (map production, data editing, application development, troubleshooting) that are driven by City needs rather than predetermined schedules.

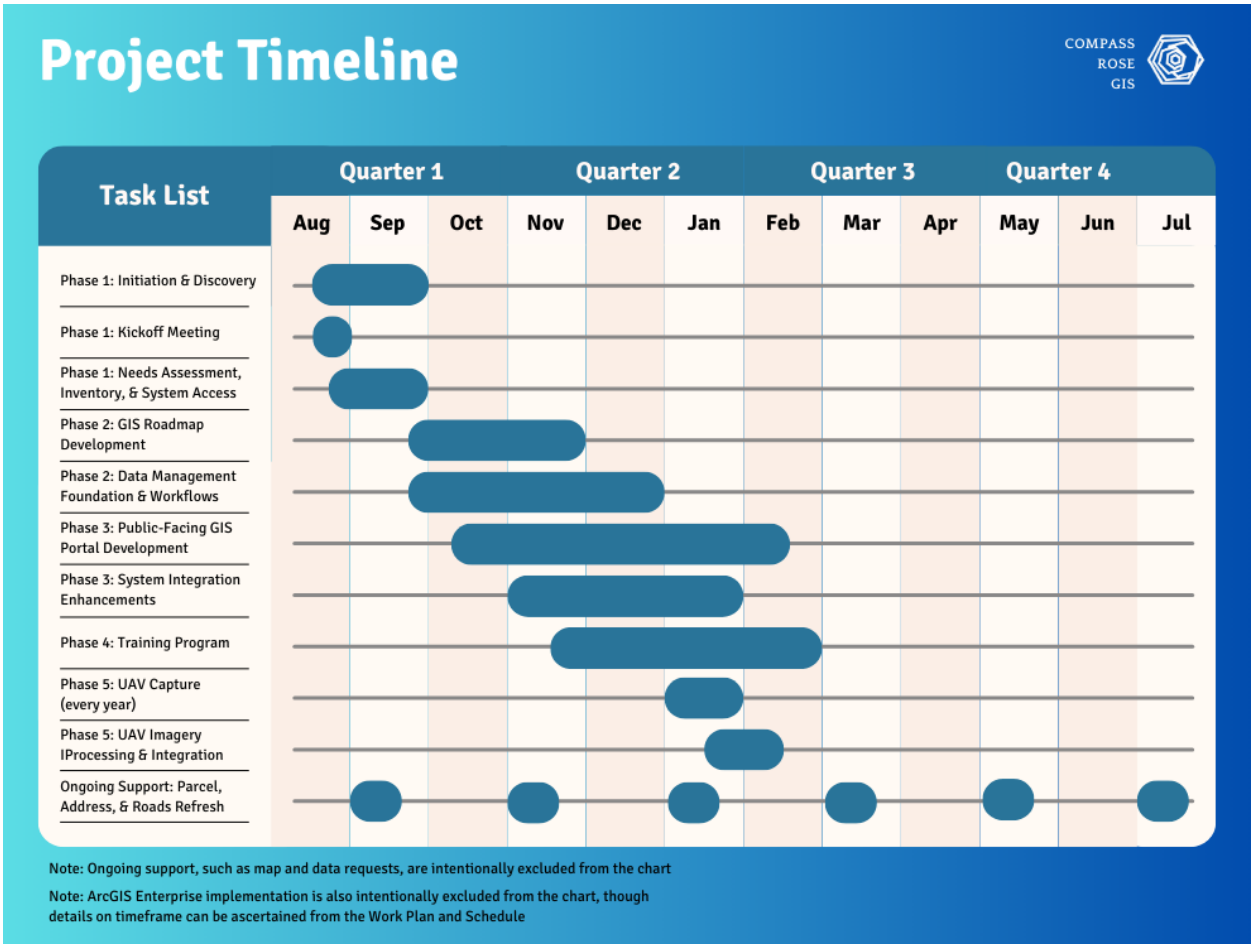

Compass Rose Approach for Eastvale GIS Services

Additionally, our approach also identifies a methodology for handling **after-hours and weekend support**. We anticipate that this is likely only needed for two primary reasons:

- Emergency situations: either GIS support and maps are needed for emergency response reasons, such as natural disasters, or systems are down and require to be addressed immediately for operational access
- System upgrades: once ArcGIS Enterprise is deployed, software versions will need to be updated, patched, SSL certificates will need to be applied, and licenses authorized.

DETAILED WORK PLAN

PHASE 1: PROJECT INITIATION AND DISCOVERY (MONTHS 1-2)

The foundation of any successful GIS implementation lies in thorough discovery and stakeholder alignment. Phase 1 establishes the framework that will guide our partnership while conducting the essential groundwork analysis that informs all subsequent activities.

Project Kickoff and Stakeholder Engagement. Our project initiation process goes far beyond a simple kickoff meeting. We begin with a comprehensive stakeholder engagement strategy designed to understand not just what the City needs, but how different departments work, what their pain points are, and what their vision is for improved GIS capabilities.

- **Kickoff meeting with key stakeholders (Week 1).** We facilitate a structured kickoff session with City leadership, IT staff, and department heads to establish project expectations, review contract deliverables, and confirm communication protocols. This meeting includes the presentation of our project approach, the introduction of key team members, and the establishment of success metrics.
- **Department needs assessment interviews (Weeks 2-3)**. Our team conducts individual interviews with representatives from each GIS-using department (Public Works, Code Enforcement, Planning, Economic Development, Building & Safety). These one-on-one

sessions allow us to understand specific workflow challenges, identify "quick wins", and gather input for the strategic roadmap. Each interview follows a structured format covering current processes, desired capabilities, training needs, and integration requirements.

- **Communication protocol establishment (Week 1).** We implement our proven project communication framework, including developing a timeline for status calls, stakeholder meetings, and milestone reviews. This includes the setup of our project dashboard (such as SharePoint), where City staff can track progress, submit requests, and access documents and deliverables in real-time.
- **Point of contact identification and documentation (Week 2).** We work with each department to identify primary and secondary contacts for different types of requests, document their roles and responsibilities, and create a contact directory that facilitates efficient collaboration throughout the contract term, likely on SharePoint.

System Access and Infrastructure Setup. Establishing efficient access to City systems is critical for seamless service delivery. Our approach ensures we can begin providing value immediately while maintaining, the highest security standards.

- **IT coordination for system access (Weeks 1-2).** We collaborate with City IT staff to establish secure access protocols for data access.
- **ArcGIS Online account review and role assignment (Week 2).** Our team conducts an audit of the City's current ArcGIS Online organization, reviewing user accounts, content structure, credit usage patterns, and sharing permissions. We begin the process to optimize the organizational structure, identify and eventually clean up unused content, and establish access controls that support both security and usability.
- **VPN and security protocol configuration (Week 2).** For team members requiring remote access to City systems, we will coordinate with IT representatives to establish secure VPN connections. This ensures our team can provide responsive support while maintaining the City's security standards.
- **Task and content management system deployment (Week 3).** We highly recommend the use of a central project portal for managing this effort. It's our recommendation to implement our project management platform (preferably SharePoint or a similar City-approved system) that serves as the central hub for project communication, document sharing, and task tracking. This system provides real-time visibility into project status and creates a permanent knowledge base for future reference. During this time, we'll set up and configure this portal.

Current State Assessment and Data Inventory. Understanding the City's current GIS environment is essential for developing realistic implementation plans and identifying immediate improvement opportunities. Our GIS data inventory and systems assessment provide the baseline against which all future progress will be measured.

- **Comprehensive GIS data layer review (Weeks 3-4).** We conduct a thorough analysis of all existing GIS data layers – both in ArcGIS Online and on network drives – documenting data sources, update frequencies, quality issues, and usage patterns. This review identifies data gaps and provides recommendations for improvement. We will create a comprehensive data inventory matrix that serves as the foundation for future data management decisions and will house this in the project portal.

- **ArcGIS Online content audit and organization (Weeks 4-5).** Our team will perform a complete audit of all ArcGIS Online content, including Web Maps, Apps, feature services, and Story Maps. We will evaluate content usage, identify redundancies, assess sharing configurations, and reorganize content to improve discoverability and management. This audit often reveals significant opportunities for efficiency improvements.
- **Existing application functionality assessment (Week 5-6).** We will also test and document all existing GIS applications, evaluating their functionality, user experience, performance, and alignment with current needs. This assessment identifies applications that need updates, replacement, or retirement, and informs our application development priorities.
- **Integration point documentation (Accela, Cartegraph) (Week 6).** We will gain access to Accela and Cartegraph, and document existing system integrations, analyzing data flow, update frequencies, error handling, and user workflows. This documentation is critical for maintaining existing functionality while planning enhancements and troubleshooting issues.
- **Credit usage analysis and monitoring setup (Week 4).** We analyze historical ArcGIS Online credit consumption patterns to understand usage trends and establish monitoring systems that provide early warning of potential credit shortages. This analysis informs budget planning and helps optimize credit utilization.

PHASE 2: STRATEGIC PLANNING AND FOUNDATION BUILDING (MONTHS 2-4)

GIS Roadmap Development. The GIS Roadmap represents the strategic heart of our engagement with the City of Eastvale. Our roadmap development process is specifically designed for municipal environments and incorporates the unique challenges and opportunities facing growing cities like Eastvale.

- **Stakeholder Workshops (Month 2):** We conduct a series of collaborative workshops with City staff at all levels, from department heads to front-line users. These facilitated sessions use proven techniques to identify common needs and build consensus around strategic directions. Our workshop methodology ensures that all voices are heard while maintaining focus on achievable objectives.
- **Gap Analysis (Month 2):** Building on our Phase 1 assessment, we conduct a gap analysis comparing the City's current GIS capabilities with industry solutions. This analysis identifies specific areas where improvements will deliver the most significant operational value and return on investment (ROI). We examine technology gaps, process inefficiencies, training needs, and resource constraints that limit GIS effectiveness.
- **Future State Vision Development (Month 3):** We will work with City staff to develop a vision of what GIS can accomplish for Eastvale over the next 3-5 years. This future state vision balances ambitious goals with realistic resource constraints.
- **Phased Implementation Strategy Developmentn (Month 3):** Our implementation strategy will break down the journey from “current state” to “future vision” into manageable phases. We will carefully sequence steps to maximize early wins while establishing the foundation for longer-term transformation.
- **Roadmap Documentation and Presentation (Month 4):** We deliver a comprehensive Roadmap document that serves as the starting point for the strategic plan for Eastvale's GIS program. This document includes an executive summary, a current state assessment, a

future vision, detailed implementation phases, resource requirements, and success metrics.

Data Management Foundation. We believe that reliable, well-managed data builds the foundation of any effective GIS program. Our data management approach establishes the controls, standards, processes, and workflows that ensure data quality and accessibility for the future achievements.

- **Critical Data Layer Standardization (Months 2-3):** We will work systematically through the City's most important data layers (parcels, addresses, streets, zoning, infrastructure), applying consistent standards for attributes, symbology, metadata, and quality. In some cases, this will require database design and schema changes that impact applications. Therefore, some of this effort will need to be accomplished in a well-communicated and phased process to mitigate interruptions to staff and applications currently using these critical layers.
- **Editing Workflows (Month 3):** We will design and implement efficient workflows for data maintenance. These workflows will include clear procedures for data updates and quality control checkpoints. We will work closely with City staff to ensure that workflows align with existing business processes while introducing best practices that enhance data quality and reduce maintenance burdens.
- **Quality Assurance Protocols (Month 3):** We will establish systematic quality assurance procedures that identify and correct data issues before they impact operations. These protocols include automated validation rules, ArcGIS Data Reviewer, Geodatabase Topology, QC Reports, Python automation and enrichment, and performance metrics.
- **Documentation of Data Maintenance (Month 4):** We will create comprehensive documentation for data maintenance procedures, ensuring that City staff can effectively manage data updates and quality control processes. This documentation includes step-by-step procedures, troubleshooting guides, contact information for support, and regular maintenance schedules.

Phase 3: Core System Implementation (Months 3-8)

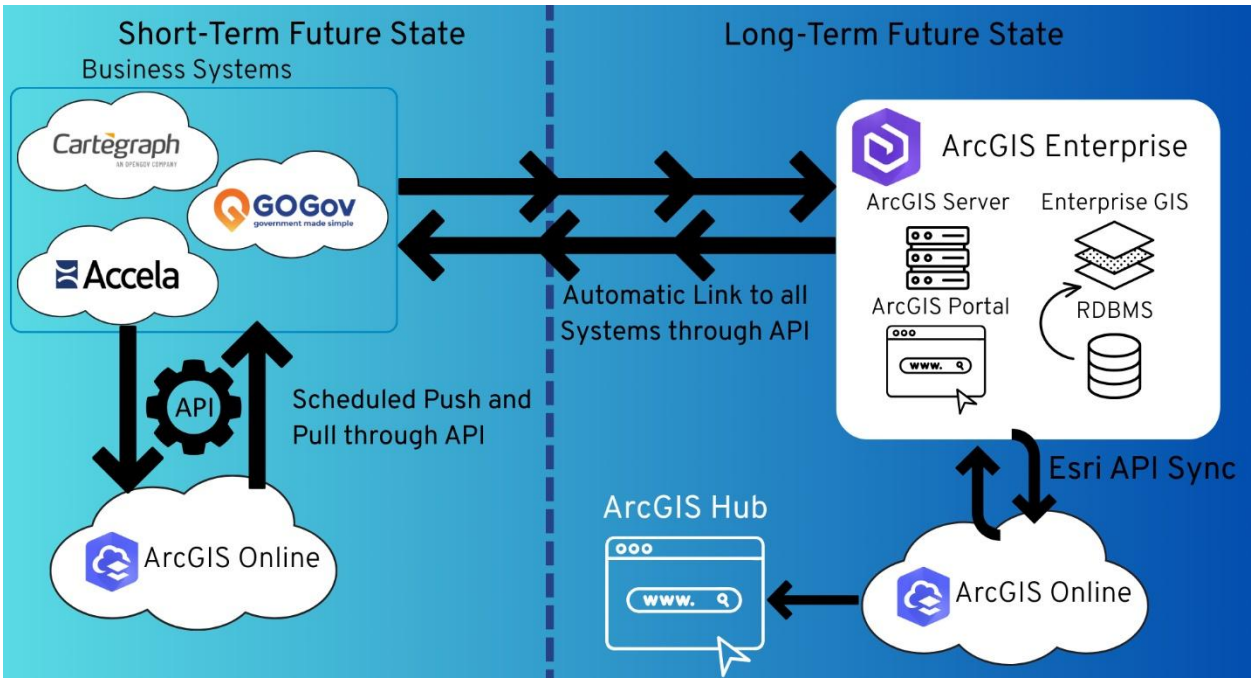

Phase 3 represents the major implementation phase where strategic plans become operational reality. This phase delivers the core GIS capabilities that will serve Eastvale for years to come, focusing on systems that provide immediate operational value while establishing the platform for future enhancements.

Public-Facing GIS Portal Development

The public-facing GIS portal will serve as Eastvale's window to the community, providing residents, businesses, and stakeholders with easy access to important geographic information. Additionally, it will be accessible internally, with added security for internal staff, who can see City-secured data and applications.

- **Requirements Gathering and Design (Month 3):** We will conduct focused requirements gathering sessions with key City staff who interact with the public, including planning, building, and code enforcement personnel. These sessions will identify the most frequently requested information, common citizen questions, and workflows that can be streamlined through self-service access.

- **ArcGIS Hub Configuration (Month 4):** We configure ArcGIS Hub to serve as the foundation for Eastvale's public portal, customizing the interface to reflect City branding and organizing content for intuitive public access. This will provide direct access to data layers, maps, Dashoboards, and streamline public data requests, enabling citizens to download data directly that we enable. Our Hub configuration will include the creation of themed galleries (Development Projects, Zoning Information, Public Services, etc.), implementation of search functionality, and can also include integration with the City website navigation
- **Content Migration and Organization (Month 5):** We will systematically migrate appropriate content from the City's internal GIS systems, such as File Geodatabases, to the public portal, ensuring that sensitive information is filtered adequately while maximizing the value of publicly available data. This process includes the creation of public-appropriate map services, the development of Story Maps, and the configuration of download capabilities for commonly requested data.
- **User Acceptance Testing (Month 6):** For every application that we build, we will conduct comprehensive testing of the portal with both City staff and internally. Our testing process includes accessibility validation, mobile device testing, and performance optimization. We will incorporate feedback to refine the portal before public launch.
- **Launch and Public Rollout (Month 7):** We will coordinate the portal launch with City communications staff, providing training materials, user guides, and promotional content that help maximize community adoption. The launch will include a soft rollout to stakeholders, public announcement through City channels, and monitoring of usage patterns to identify opportunities for improvement.

ArcGIS Enterprise Deployment (When Ready)

ArcGIS Enterprise deployment represents a significant step forward in Eastvale's GIS capabilities, providing a lot of new features, enhanced security, better performance, and functionality for internal

operations. Our deployment approach will ensure a smooth transition with minimal disruption to ongoing operations.

- **Infrastructure Planning and Coordination (Month TBD):** We will work closely with City IT staff to design an Enterprise Architecture that meets operational requirements while fitting within existing infrastructure constraints. This planning will include server sizing, network configuration, security requirements, backup procedures, and integration with existing authentication systems. We will provide detailed technical specifications and coordinate procurement if needed. We will collaborate with the City to determine if Infrastructure-as-a-Service (IaaS) through AWS or Azure, or on-premise implementations work best and meet their budget situation. Regardless of infrastructure, we will recommend a multi-tier server strategy, with:
    - a lightweight ArcGIS Web Adaptor web tier managing web traffic
    - an Application Tier with two-to-three separate servers, for heavy-use applications (ArcGIS Server, for publishing Web Services; ArcGIS Portal, for content management; Data Store, a built-in postgres data feature for use with Portal)
    - a Data Tier, with an RDBMS and an Enterprise Geodatabase
    - a workstation, with GPU, running ArcGIS Pro, for map publishing, data editing, and Python automation. Note: the workstation is only necessary in a cloud deployment.
- **Installation and Configuration (Month TBD + 1):** Our technical team will perform ArcGIS Enterprise installation and configuration, working within City maintenance windows to minimize operational impact. We will configure all Enterprise components, including Portal, Server, Data Store, and Web Adaptor, implementing security settings and optimization parameters appropriate for municipal use. Our installation process will include comprehensive documentation and knowledge transfer to City IT staff.
    - We also will need to collaborate with IT staff, to apply DNS entries for domain changes and obtain SSL certificates.
- **Data Migration and Testing (Month TBD + 2):** We will systematically migrate appropriate content from file geodatabase and ArcGIS Online to ArcGIS Enterprise, maintaining operational continuity while enabling enhanced capabilities, such as versioning, archiving, replication, multi-user editing, and much more. This migration will include updating map services, reconfiguring applications such as Accela and Cartegraph, and testing all integrations. We will conduct thorough testing of all functionalities before transitioning users to the new environment.
- **User Training and Transition (Month TBD + 3):** We will provide comprehensive training to City staff on ArcGIS Enterprise capabilities and differences from ArcGIS Online. Our training approach will include hands-on workshops, documentation of new procedures, and ongoing support during the transition period. We will ensure that users can effectively leverage Enterprise capabilities while maintaining productivity.

System Integration Enhancements

System integration improvements will streamline workflows between GIS and other City systems, reducing data entry redundancy and improving information accuracy across all platforms.

- **Integration Assessment and Planning (Month 4):** We will conduct an assessment of the City's existing integrations with Accela (permitting), Cartegraph (asset management), and GoGov (code enforcement), analyzing current data flow, workflow efficiency, and integration performance. We will develop a strategy that enhances existing integrations while identifying opportunities for improved automation and data synchronization. For example, publishing new map services that leverage richer data, while also pulling integration system data, all while using Python automation, can help users of all environments with better, more current information.
- **Integration Testing (Month 5):** For any changes and efforts to integrate GIS with these business systems, we will test of all system integrations, including data synchronization between GIS and Accela permitting workflows, Cartegraph asset management connections, and GoGov code enforcement processes.
- **Workflow Optimization (Month 6):** Based on testing results and user feedback, we will optimize integration workflows across Accela, Cartegraph, and GoGov to maximize efficiency and minimize user burden. This optimization will include automation of routine data exchanges, streamlining of approval workflows, and implementation of exception handling procedures for each platform.
- **User Training on Integrated Systems (Month 7):** We will provide targeted training on optimized workflows, focusing on how staff can leverage improved integrations with Accela, Cartegraph, and GoGov to work more efficiently. Our training will include hands-on practice with real-world scenarios for each system, documentation of new procedures across all platforms, and ongoing support as users adapt to enhanced workflows.

PHASE 4: TRAINING AND KNOWLEDGE TRANSFER (MONTHS 4-12)

Effective training and knowledge transfer ensure that City staff can fully leverage GIS capabilities and maintain system effectiveness long-term. Our training approach accommodates different learning styles, skill levels, and operational requirements while building internal capacity for ongoing GIS program management.

Comprehensive Training Program

Our training program goes beyond basic software instruction to build genuine GIS competency, enabling staff to solve problems, adapt to changing needs, and contribute to program growth.

- **Training Needs Assessment (Month 4-6):** We will conduct individual assessments with each staff member who will use GIS, evaluating their current skill levels, job responsibilities, learning preferences, and training goals. This assessment enables us to design targeted training that maximizes learning efficiency while addressing specific operational needs.

- **Curriculum Development (Month 5):** We will develop customized training curricula that align with Eastvale's specific workflows, data, and applications rather than generic GIS training. Our curricula will include hands-on exercises using real City data, scenario-based learning that mirrors actual job tasks, and progressive skill building that enables users to grow their capabilities over time. We will create training materials that serve as ongoing reference resources, including quick reference guides, "how to" documents, and videos.
- **Initial Staff Training Sessions (Months 6-8):** We will deliver training sessions using a variety of formats including in-person workshops, virtual sessions, and video modules. Our training approach will emphasize practical application, with participants working through real-world scenarios during training sessions.
- **Documentation and Reference Material (Ongoing):** We will create documentation tailored to Eastvale's specific implementations, including step-by-step procedures, troubleshooting guides, and best practices documentation. Our documentation will be designed to be accessible to users with varying technical backgrounds and serve as a permanent knowledge base that reduces training requirements for new staff. It is our recommendation that all training materials be readily accessible on the project portal for staff.
- **New User Onboarding (Ongoing, as needed):** We will also provide structured onboarding training for new City staff, ensuring that GIS capabilities are readily available to all relevant personnel, regardless of when they join the organization.

PHASE 5: SPECIALIZED SERVICES AND ANNUAL ACTIVITIES (ONGOING)

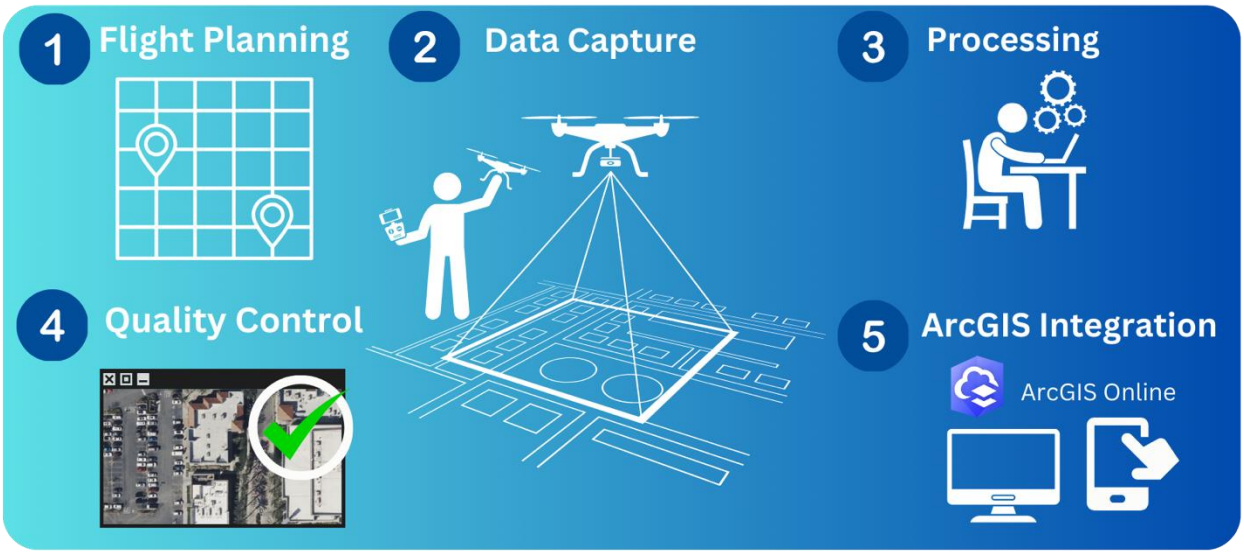

Phase 5 encompasses the **specialized services** and **recurring activities** that maintain and enhance GIS capabilities throughout the contract term. These activities ensure that Eastvale's GIS program remains current, effective, and aligned with evolving operational needs.

UAV Imagery Collection

Our UAV imagery program will provide Eastvale with high-quality aerial imagery for facility management, infrastructure assessment, and planning applications. Our comprehensive approach will ensure consistent, professional results while maintaining full regulatory compliance.

- **Annual Flight Planning and Scheduling (Month 6, 18, 30…):** We will develop detailed flight plans for each City facility, coordinating with facility managers to identify optimal timing that minimizes disruption while maximizing data quality. Our planning process will include weather monitoring, airspace coordination, and scheduling flexibility to accommodate changing conditions. We will work with City staff to prioritize facilities based on maintenance schedules, inspection requirements, and operational needs.
- **Image Capture and Processing (as scheduled):** Our FAA-certified pilots will conduct professional imagery collection using a DJI Inspire 2 equipped with a Zenmuse X5 gimbal-mounted camera, capable of producing high-resolution imagery suitable for detailed facility assessment. Our 2-man survey crew will employ systematic flight patterns that ensure complete coverage with appropriate overlap for processing. Our processing workflow will include orthorectification, color balancing, and quality control procedures that deliver consistent, high-quality, professional results.
- **Data Integration and Delivery (Within 30 days of Capture):** We will integrate processed imagery into the City's ArcGIS Online environment, and eventually the ArcGIS Enterprise,

creating georeferenced image services and image files that enable easy comparison with previous imagery and integration with other spatial data. We will provide imagery in multiple formats suitable for different applications, including high-resolution files for detailed analysis and web-optimized versions for general viewing. Each delivery will include metadata documentation and usage recommendations.

ONGOING SUPPORT SERVICES (CONTINUOUS)

The following services represent the responsive, on-call nature of GIS support that cannot be scheduled in advance but will be managed through our established communication and task management protocols:

Routine Daily/Weekly Support Activities:

- **ArcGIS Online Content Management:** Compass Rose GIS will provide comprehensive administration of the City's ArcGIS Online environment, proactively monitor system usage metrics, manage user permissions and access controls, organize content for maximum discoverability and efficiency, and maintain security protocols that protect sensitive City data. Our content management approach will include regular cleanup of unused or outdated content, optimization of map services, and coordination of content sharing configurations to support both internal workflows and appropriate public access.
- **Map Production Requests:** We will respond to all mapping requests and maintain a comprehensive library of standardized map templates, APRX files, and map documents for common requests, including zoning maps, infrastructure maps, and development status maps that can be quickly customized and updated to meet specific requirements. For custom mapping requests, we will follow a structured process and aim to develop a form in the project portal (i.e., SharePoint) for map request details. This form will include clarifying requirements with the requesting department, specifying layers, and adhering to cartographic standards. Maps will adhere to quality control procedures to verify accuracy before delivery. We will deliver all maps in appropriate formats for their intended use (i.e., PDF, TIFF, etc.), whether for public presentations, field work, or digital distribution.

- **Data Editing and Updates:** Our team will maintain the accuracy and currency of all GIS datasets through editing procedures that prioritize data. We will establish quality control checkpoints that identify errors, using scripting, ArcGIS Data Reviewer, topology, and built-in attribute rules. Our editing workflows will handle everything from simple attribute corrections to complex geometric adjustments.
- **User Account Administration:** We will manage the lifecycle of user accounts in ArcGIS Online and eventually ArcGIS Enterprise, from initial setup through role modifications to account deactivation, ensuring that City staff have appropriate access to GIS tools and data. We will conduct regular audits of user permissions to maintain security compliance and maintain a log of accounts and role assignments. Our administration procedures will include automated monitoring for unused accounts, standardized onboarding processes for new users, and clear escalation procedures for access issues.
- **Technical Troubleshooting:** Compass Rose will provide a rapid response to technical support issues, focusing on both immediate resolution and long-term system stability. We will maintain a knowledge base library documenting common issues and proven solutions (i.e., how to access content in ArcGIS Online, how to reset passwords, etc.) and coordinate with software vendors when complex issues require escalated support. We will approach support issues similar to an ITIL-based framework, with Tier 1 being our analysts, Tier 2 escalated to senior GIS staff, and other tiers including IT, vendors, and external resources.
- **Application Modifications:** Our team will keep all GIS applications current with evolving operational needs and software updates through systematic enhancement procedures. We will review applications for functionality, collect user feedback to identify improvement opportunities, implement modifications using change management protocols, and conduct testing of all changes before deployment to production environments.
- **Custom Analysis Requests:** In addition to map and data requests, GIS analysis projects will likely be needed by the City, such as fire risk analysis, analyzing infrastructure networks (stormwater), transportation projects, and more. We will support City decision-making processes by providing spatial analysis capabilities that extend beyond routine operational needs. Our analysis projects will span from basic spatial queries and measurements to complex modeling and statistical analysis, depending on specific project requirements.
- **Data Layer Updates (Parcels, Addresses, Streets – Quarterly, at minimum):** Our team will maintain currency of the City's core geographic datasets through systematic quarterly update procedures, if not more often. We will coordinate with authoritative data sources, particularly Riverside County for parcel information, to obtain the most current data available. Our update process will include comprehensive quality control procedures and validation protocols that ensure spatial and attribute accuracy, and user notification procedures that keep City staff informed of data changes. Because the County through Riverside County Information Technology (RCIT) releases data more frequently than quarterly, we will aim to automate as much of this process as possible using Python, from downloading Parcels, Address Points, Centerlines, and any other valuable data source, enriching the data through joins, spatial joins, and attribute updates, and refreshing AGOL services, all contained within the Python scripts.

H. Cost Proposal

Compass Rose GIS proposes a fixed monthly fee structure of equal invoices of **$6,620.92** ($79,451 over 12 months), that provides the City of Eastvale with comprehensive GIS services while ensuring predictable budget management and cost control. This pricing model reflects our understanding that the City requires both structured project deliverables and responsive, on-call support services that are difficult to predict and quantify in advance.

Breakdown of Labor and Cost, By Task.

Fixed Monthly Fee Structure. The table below depicts an estimated annual breakdown of tasks and hours per role. These are interchangeable as the City sees fit for alternate tasks, priorities, and timeline; with a **not to exceed amount of $80,000 per year**. Professional Experience

As-Needed GIS Services, City of La Mesa (2010-present). The City of La Mesa's Public Works department utilizes GIS at every level; internal and public-facing mapping applications, integration with asset management systems, and a fully mobilized field crew editing and tracking activities via maps. Ms. Caric Lee acts as the City's GIS Program Manager, with a team working on-site at the City to support day-to-day needs. A fully implemented Enterprise GIS system serves as the heart of the City's data needs. City staff and its citizens have become experts at finding the information they need from the online mapping tools available. Maintenance of the various GIS layers is pertinent to keeping the City's Public Works department running smoothly. The asset inventory includes: the sewer system, stormwater system, traffic layers, road condition, signs, addressing, and more. By utilizing Esri's ArcGIS Online platform, City staff are able not just to view, but edit and manage their own data as the subject matter experts. Integration with 3rd party business systems achieves a cohesive database

structure and trust in data accuracy. The City uses: Cartegraph OMS, GraniteNET, Laserfiche, New World, and MaintStar, which utilize the enterprise GIS data sets.

As-Needed GIS Services, City of El Cajon (2019-2022). Working closely with the City's GIS and IT manager, Compass Rose GIS helped deploy a dedicated GIS Server, enterprise database, and map services to support numerous departmental business systems. Documentation and training were key to allow internal staff to continue to manage the system, maintain data, and develop future applications. Ms. Caric Lee supports overall project direction to help meet the mission and vision of the City's GIS program. Internal and public facing map application support a variety of end users find information and solve problems quickly.

As-needed GIS Services, City of Cypress (2016-present). Compass Rose GIS supported the City with GIS data conversion for use in web map services. City staff were trained for GIS editing, query, and export to report, tables, and maps. We continue to serve the City with data analysis, training, data development, and imagery acquisition support.

GIS Needs Assessment and on-call support, City of Coronado (September 2018- January 2020). Compass Rose GIS was selected to complete a city-wide GIS needs assessment for the City of Coronado. All Departments participated in initial meetings, GIS usage survey, and independent interviews. Alongside the need's assessment, a data inventory project helped to identify and centralize the City's most accurate GIS information. Several enterprise systems are being implemented that require GIS support. Compass Rose GIS acted as the City's GIS representative while working with vendors and City staff in Police Department, Community Development, and Public Services & Engineering.

GIS Needs Assessment and Program Management, City of San Clemente, San Clemente, CA (2013-2017). Ms. Caric Lee acted as the lead for a city-wide GIS needs assessment and implementation plan. The project included six City departments, including: Community Development, Public Works, Beaches Parks & Recreation, and Finance and Administration. Several meetings, presentations, and a technology questionnaire were used to gather data, information, and understand department workflow. A needs assessment report was developed to include a summary of findings, list technology gaps, and provide specific recommendations related to: data maintenance, data standards, GIS staffing, communication methods, system integration, and training. Compass Rose GIS is currently supporting the City in the implementation phase now in its second year. Our staff acts as GIS program manager and provides on-site technical support to the City.

GIS Data Conversion, West Cities Police Communications (2016-2017). Compass Rose GIS supported West-Comm with data development and conversion services to integrate with their new dispatch system. Data was digitized from historic paper maps, converted from CAD, and collected from partnering agencies. Metadata and updated maps were created as part of the deliverable. We continue to serve West-Comm with as-needed GIS support.

JOE SIMONS

GIS Administrator

Joe Simons is an enterprise GIS administrator with over 25 years of experience in GIS. Although his experience ranges from project management to database administration to software development, his primary technical passion has been the management of enterprise GIS systems using Esri software. Starting his career at Esri Redlands, his focus gravitated toward enterprise GIS implementations on Oracle and SQL Server, which eventually led him to managing the GIS operations at a GIS Data Center for the US Marine Corps. Although he moved into upper management, he always stayed close to the technology, remaining active in enterprise implementations and developing skills in Python development along the way.

Professional Experience

City of Big Bear Lake, (2023-Present). With Compass Rose GIS, continue to support the deployment of ArcGIS Enterprise on premise, with Portal and Server implementations on MS SQL Server, and the integration of Accela. Additionally, have built Python scripts for automating the download of data from the County GIS team (spatial) and County Assessor's Office (non-spatial), joining content, enriching and cleaning it, spatially joining with other layers (i.e., zoning, land use), and automatically refreshing content in ArcGIS Online and ArcGIS Enterprise.

City of La Mesa, (2023-Present). With Compass Rose GIS, have supported the migration of ArcGIS Enterprise to Amazon Web Services, with standalone ArcGIS Server and data on MS SQL Server, and the integration of Web Services with Cartegraph. Additionally, have built SQL and Python scripts for database maintenance and backup processes.

Stormwater Data Project, Navy NW Region (2021-2023). Served as the Project Manager and Technical Manager for the Stormwater Data Project in the Navy NW Region, leading a GIS data capture team of five analysts to collect stormwater assets across 16 Naval Installations. I managed daily tasks using an Agile sprint approach and designed the project's technical framework. This included deploying five-node, two-way Geodatabase Replication to synchronize edits weekly across different locations. I also established a PostgreSQL enterprise GIS database accessed via ArcGIS Portal, supporting the Field Capture Phase. The team utilized ArcGIS Field Maps with GNSS-connected tablets, synchronizing edits daily and caching data locally. Rigorous data QC was maintained through ArcGIS Data Reviewer.

Farm and Home Publishers, (2017-present). As a consultant, served as the Project Manager, Enterprise GIS DBA, and Python Developer. I developed Python tools with Esri's arcpy module, streamlining complex editing production workflows and reducing labor for map book creation by over 80%. I also managed the development and operation of a cloud-hosted subscription Web GIS platform publishing nationwide parcel data, and resident data for over 500 counties. The platform runs ArcGIS Enterprise 11x with third-party authentication integrations and includes mobile apps for iOS and Android.

City of Fort Worth (2016-2017). Lead GIS technical resource for the 12th largest city in the country. AGENDA STAFF REPORT

City Council Meeting
CONSENT CALENDAR
Agenda Item No. 12.15
December 10, 2025

Approve the Agreement with Stay Green for Citywide Landscape Maintenance Services

Prepared By:

Jimmy Chung, Public Works Director/City Engineer

Recommended Action(s)

Staff recommends that the City Council:

1. Approve the Agreement for Citywide Landscape Maintenance Services with Stay Green in a not-to-exceed amount of $300,000 per fiscal year, for an initial three-year term, with the option to renew for up to two (2) one-year extensions; and
2. Authorize the City Manager to execute the necessary documents, including the approval of CPI adjustments in the option years, if exercised.

Summary

The Public Works Department is responsible for the ongoing maintenance of the City's key infrastructure and public assets, including landscaped right-of-way (ROW) areas and other City-owned properties. In alignment with the City Council's Strategic Plan, staff recommends entering into an Agreement for Citywide Landscape Maintenance Services with Stay Green. The agreement will consolidate all major landscape maintenance activities under one contract, allowing the City to more efficiently manage its landscaped areas while ensuring that public spaces remain attractive, sustainable, and consistent with Council priorities.

On October 14, 2025, the City advertised Request for Proposals (RFP) No. 25-124LM for comprehensive landscape maintenance services covering several locations throughout Eastvale via the City's online bidding system, PlanetBids. A total of ten (10) proposals were received by the

proposal submittal deadline of October 31, 2025. The following is a summary of vendor participation and rankings:

264 Vendors notified

30 Vendors downloaded the RFP packet

10 Proposals received

Proposer rankings are as follows:

1) Stay Green Inc.
2) Mission Landscape
3) BrightView Landscape Services, Inc.
4) Mariposa Landscapes, Inc.
5) Greentech Landscape Inc.
6) Integrity Arborist and Ecoscape Inc.
7) Colts Landscape, Inc.
8) Inland Empire Landscape, Inc.
9) Master Landscape & Maintenance, Inc
10) Nieves Landscape, LLC

Following a competitive evaluation process, Stay Green was determined to be the most qualified and responsive proposer, offering the best overall value to the City based on experience, technical capability, and cost effectiveness. This contractor brings extensive experience in municipal landscape maintenance, irrigation management, and tree care, supported by a proven record of performance on similar public-sector contracts including cities of Santa Clarita, Rancho Palos Verdes, and Fontana.

The new agreement consolidates the scope of the City's existing landscape maintenance contracts into a single, citywide contract. Services under the new agreement will begin simultaneously across all locations, eliminating the previously planned staggered start.

Background

Most of the City's frontage landscaping is maintained by the Jurupa Community Services District (JCSD) as part of their special assessment districts, which they operate and administer. The City, however, is responsible for maintaining landscaping within City-operated districts as well as at various City facilities.

Historically, the City has contracted with multiple vendors to provide landscape maintenance services across different locations. These separate agreements—covering areas such as the Hamner Place development and the City's portion of the I-15/Limonite Avenue Interchange—resulted in inconsistent maintenance standards and increased administrative oversight. To improve operational efficiency, promote service consistency, and better manage costs, it is in the City's best interest to consolidate these agreements into a single Request for Proposals (RFP) for Landscape Maintenance Services. Under the consolidated Agreement, the contractor will provide comprehensive landscape maintenance services, including turf management; shrub and groundcover care; tree pruning; weed control; irrigation system monitoring and repair; slope stabilization; and debris removal. Additional as-needed services will include pressure washing, dog waste station maintenance, and abatement services. By consolidating multiple agreements into a single contract, the City expects to reduce administrative oversight, establish uniform maintenance standards across all landscaped areas, and streamline responsibilities under one comprehensive maintenance program.

The new Agreement incorporates several key maintenance areas throughout the City, including but not limited to:

- Hamner Place development (CFD 2020-1)
- Parkway, trails, and medians on Limonite Avenue between Hellman Avenue and Archibald Avenue (CFD 2025-01)
- Eastvale Square (CFD)
- Parkway at the intersection of Limonite Avenue and Harrison Parkway (CFD 2017-2)
- The west side of the I-15 freeway at the Limonite Avenue Interchange
- Fire Stations 27 and 31
- The Altfillisch Property
- Landscaped medians on Cantu Galleano Ranch Road, Schleisman Road, Limonite Avenue, Archibald Avenue, and River Road
- Various weed abatement and other miscellaneous locations identified by the City

A preliminary work plan has been prepared to address the specific maintenance needs at each location. Some sites will receive routine weekly or monthly service, while weed abatement will occur on an as-needed basis. Certain areas—such as Eastvale Square and medians on Cantu Galleano Ranch Road, Archibald Avenue, and River Road—remain under developer or contractor responsibility until those projects are formally accepted by the City. Once accepted, the City will issue a separate Notice to Proceed to Stay Green to initiate maintenance services.

AGREEMENT FOR CITYWIDE LANDSCAPE MAINTENANCE SERVICES
BETWEEN
THE CITY OF EASTVALE, CALIFORNIA
AND
STAY GREEN, INC.

This Agreement for Maintenance Services ("**Agreement**") is entered into as of December 17, 2025 ("**Effective Date**") between the City of Eastvale, a municipal corporation ("**City**") and Stay Green, Inc., a California Corporation ("**Contractor**") (collectively the "**Parties**"). In consideration of the mutual promises and covenants made by the parties and contained here and other consideration, the value and adequacy of which are hereby acknowledged, the parties agree as follows:

SECTION 1. SCOPE OF SERVICES

1.1 **Term**. Subject to the provisions of Section 8 [Termination] of this Agreement, the term of this Agreement is for three years commencing on December 17, 2025. The Parties may, by mutual, written consent, extend the term of this Agreement for up to two (2) additional one (1) year periods. Such extensions may include increased compensation for an increase in labor or supply costs, with said increase not to exceed the Bureau of Labor Statistics Consumer Price Index (CPI) data as follow: Riverside-San Bernardino-Ontario, CA; All Urban Consumers; Not Seasonally Adjusted; annualized change comparing the most recent month's reported data to the month of the prior year. Contractor must submit a request for increased compensation at least ninety (90) days prior to the expiration of the then-current term.

1.2 **Contractor Services**. Subject to the terms and conditions of this Agreement and Request for Proposals (RFP) No. 25-124LM, Contractor agrees to perform for City those services specified in the Scope of Services attached hereto and incorporated herein by reference as Exhibit "A" [Scope of Services] ("**Services**"). Contractor agrees to furnish, for the compensation provided for herein, all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately perform and complete the Services. The Services shall be subject to inspection and approval by City. Contractor agrees to work closely with City staff in the performance of the Services and shall be available to City's staff and consultants at all reasonable times.

1.3 **Extra Work**. Contractor shall not be compensated for any work or services rendered in connection with its performance of this Agreement, which are in addition to or outside of the Services ("**Extra Work**"), except as expressly provided for herein. It shall be Contractor's responsibility to ensure that the scope and price of any Extra Work to be performed by Contractor is approved by City in writing in advance of Contractor's commencement of the Extra Work in accordance with Section 9.10 [Amendments] and Section 9.19 [Administration and Implementation]. City shall not be obligated to pay for or otherwise be liable for unauthorized Extra Work performed by Contractor.

1.4 **Schedule of Performance**. Contractor agrees to diligently perform and complete the Services in accordance with the schedule of performance attached hereto and incorporated herein by reference as Exhibit "B" [Schedule of Performance] ("**Schedule of Performance**"). Modifications to the Schedule of Performance must be agreed upon in writing in advance by the City Manager pursuant to Section 9.19 [Administration and Implementation] and Contractor.

1.5 **General Warranty**. Contractor warrants all Services under this Agreement (which for purposes of this Section shall be deemed to include unauthorized Extra Work which has not been removed and any non-conforming materials incorporated into the Services) to be of good quality and free from any defective or faulty material and workmanship. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the Services, whether express or implied, are deemed to be obtained by Contractor for the benefit of City, regardless of whether or not such warranties and guarantees have been transferred or assigned to City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of City.

1.6 **Repair of Defects**. Contractor agrees that for a period of one (1) year from and after final acceptance of the Services, or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the Services, whichever is later, Contractor shall within ten (10) days after being notified in writing by City of any defect in the Services or non-conformance of the Services, commence and prosecute with due diligence all work and services necessary to fulfill the terms of the warranty at its sole cost and expense. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work, facilities, fixtures, or materials damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective Services. For any Services so corrected, Contractor's obligation hereunder to correct defective Services shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected Services. Contractor shall perform such tests as City may require to verify that any corrective actions are adequate to remedy the defective condition. In the event that Contractor fails to perform its obligations under this Section to the reasonable satisfaction of City, then City shall have the right to correct and replace any defective, non-conforming, or damaged Services at Contractor's sole expense. Contractor shall be obligated to fully reimburse City for any expenses incurred hereunder upon demand.

1.7 **Contractor's Representative**. Contractor hereby designates the representative named in Exhibit "D" [Representatives], or his or her designee, to act as its representative for the performance of this Agreement ("**Contractor's Representative**"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. Contractor's Representative shall supervise and direct the Services, using his or her best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

1.8 **Contract Documents**. The following documents shall be referred to collectively as the "Contract Documents," each of which is incorporated into and made part of this Agreement by reference:

Approved and fully executed change orders (if any)
Addenda
This Agreement
All exhibits to this Agreement
Request for Proposals No. 25-124LM
Contractor's Proposal
Cost Proposal
Payment and Performance Bonds

The Contract Documents are intended to be complementary, and a requirement in one document is as effective as if it appeared in all of the Contract Documents. In the event of a conflict between any of the Contract Documents, the documents shall be given effect in the order set forth above (from top to bottom).

SECTION 2. COMPENSATION AND METHOD OF PAYMENT

2.1 **Compensation**. City shall pay to Contractor for non-disputed Services rendered the compensation set forth in Exhibit "C" [Compensation] attached hereto and incorporated herein by reference. Total compensation to Contractor for the Services shall not exceed the total price or "not to exceed" amount of three hundred thousand dollars ($300,000) per fiscal year as set forth in Exhibit "C," without the prior written approval of City in accordance with Section 9.10 [Amendments] and Section 9.19 [Administration and Implementation].

2.2 **Payment of Compensation**. Contractor shall submit periodic (monthly or quarterly as specified in Exhibit "C") invoices together with an itemized statement of Services provided. The statement shall describe the Services provided, the percent of work completed by item, together with such other reasonable detail and supporting documentation as may be required by the City Manager, or his/her designee. City will review the statement and pay, with the exception of any charges for work performed or expenses incurred by Contractor which are disputed by City, within 30 days of receiving such statement, all approved charges thereon. Payment by City shall release City from any further obligation for payment to Contractor, for Services performed or expenses incurred as of the date of the invoice. Payment to Contractor for work performed pursuant to this Agreement shall not be deemed to waive any defect in work performed by Contractor.

SECTION 3. RESPONSIBILITIES OF CONTRACTOR

3.1 **Control and Payment of Subordinates; Independent Contractor**. Contractor agrees that all Services shall be performed by Contractor or under its

supervision. The personnel performing the Services under this Agreement on behalf of Contractor shall at all times be under the Contractor's exclusive direction and control. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. Contractor is and shall at all times remain a wholly independent contractor and not an officer, employee or agent of City. Contractor shall have no authority to bind City in any manner, nor to incur any obligation, debt or liability of any kind on behalf of or against City, whether by contract or otherwise, unless such authority is expressly conferred under this Agreement or is otherwise expressly conferred in writing by City. Neither Contractor, nor any of Contractor's officers, employees or agents, shall obtain any rights to retirement, healthcare or any other benefits which may otherwise accrue to City's employees. Contractor expressly waives any claim Contractor may have to any such rights. Contractor shall make payments promptly, as due, to all persons supplying labor or materials for the Services. Contractor shall not permit any lien or claim to be filed or prosecuted against the City on any account of any labor or material furnished for the Services. If Contractor fails, neglects or refuses to make prompt payment of any claim for labor or services furnished to Contractor or a subcontractor by any person as such claim becomes due, City may pay such claim and charge the amount of the payment against funds due or to become due the Contractor. The payment of the claim in this manner shall not relieve Contractor or their surety from obligation with respect to any unpaid claims.

3.2 **Standard of Care and Licenses**. Contractor agrees that all Services shall be performed in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and warrants that it, its employees and subcontractors shall have sufficient skill and experience to perform the Services and that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained in good standing throughout the term of this Agreement.

3.3 **Required Corrections**. Contractor shall perform, at its own expense and without reimbursement from the City, any work necessary to correct errors or omissions that are caused by the Contractor's failure to comply with the standard of care provided for herein.

3.4 **Law and Regulations**. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services.

3.5 **Safety**. Contractor shall perform the Services, and maintain its work area, so as to avoid injury or damage to any person or property and shall otherwise exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.6 **Labor Code and Prevailing Wage Requirements**.

3.6.1 Apprenticeable Crafts. To the extent applicable, Contractor shall comply with the provisions of Section 1777.5 of the Labor Code with respect to the employment of properly registered apprentices upon public works.

3.6.2 Hours of Work. Contractor shall comply with the legal days work and overtime requirements of Section 1813 of the Labor Code.

3.6.3 Payroll Records. In accordance with the requirements of Labor Code Section 1776, Contractor shall keep accurate payroll records which are either on forms provided by the Division of Labor Standards Enforcement or which contain the same information required by such forms. Contractor shall make all such records available for inspection at all reasonable hours.

3.6.4 Prevailing Wage Laws. Contractor represents and warrants that it is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 1600, et seq., ("**Prevailing Wage Laws**"), which require the payment of prevailing wage rates and the performance of other requirements on "Public Works" and "Maintenance" projects. Contractor acknowledges that the Services are being performed as part of an applicable "Public Works" or "Maintenance" project, as defined by the Prevailing Wage Laws, and Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and any location where the Services are performed.

3.7 **Equal Opportunity Employment**. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant, in any way, in the employment of persons to perform the Services in violation of any federal or state law prohibiting discrimination in employment, including based on the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, of any person, except as provided under California Government Code section 12940.

SECTION 4. INDEMNIFICATION

4.1 **Indemnity**. Except as to the sole negligence or willful misconduct of City, Contractor expressly agrees to, and shall, indemnify, defend, release, and hold City, and its respective officials, officers, employees, agents, and contractors harmless from and

against any Action, liability, loss, damage, entry, judgment, order, lien, and Costs and Expenses which arises out of, or are in any way related to, any act or omission of Contractor, or its officers, directors, employees, agents, or contractors, connected with the performance or failure to perform under this Agreement, notwithstanding that City may have benefited therefrom, or any challenge to this Agreement. This Section shall apply to any acts or omissions, willful misconduct or negligent conduct, whether active or passive, on the part of Contractor's officers, directors, employees, agents and contractors, including but not limited to acts or omissions in any way related to, the release, treatment, use, generation, transportation, storage, or disposal in, on, under, to, or from the location at which work under this Agreement is performed of any Hazardous Substances by Contractor or its officers, directors, employees, agents, and subcontractors. The Parties expressly agree that any payment, or Costs and Expenses City incurs or makes to, or on behalf of, an injured employee under City's workers' compensation or other insurance, is included as a loss or Costs and Expenses for the purpose of this Section. City shall not be responsible for any acts, errors or omissions of any person or entity except City and its officers, agents, servants, employees or contractors. The Parties expressly agree that the obligations of Contractor under this Section shall survive the expiration or early termination of the Agreement.

4.2 **Action**. For purposes of this Agreement, "Action" shall mean any suit (whether legal, equitable, or declaratory in nature), proceeding or hearing (whether administrative or judicial), arbitration or mediation (whether voluntary, court-ordered, binding, or non-binding), or other alternative dispute resolution process, and the filing, recording, or service of any process, notice, claim, demand, lien, or other instrument which is a prerequisite or prelude to commencement of the Action.

4.3 **Costs and Expenses**. For purposes of this Agreement, "Costs and Expenses" shall mean all costs and expenses, to the extent reasonable in amount, actually and necessarily incurred by a Party in good faith in the investigation, prosecution or defense of an Action, including, but not limited to, court costs, filing, recording, and service fees, copying costs, exhibit production costs, special media rental costs, attorney's fees, consultant fees, fees for investigators, witness fees (both lay and expert), travel expenses, deposition and transcript costs, and any other costs or expenses, the award of which a court of competent jurisdiction may determine to be just and reasonable.

4.4 **Hazardous Substances**. For purposes of this Agreement, "Hazardous Substances" shall mean any and all of the following:

a. any substance, product, waste or other material of any nature whatsoever which is or becomes listed, regulated, or for which liability arises for misuse, pursuant to the Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), 42 U.S.C. §9601, *et seq*.; the Hazardous Materials Transportation Act, 49 U.S.C. §1801, *et seq*.; the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. §6901, *et seq*.; the Toxic Substances Control Act, 15 U.S.C.S. §2601, *et seq.*; the Clean Water Act, 33 U.S.C. §1251, *et seq*.; the Insecticide, Fungicide, Rodenticide Act, 7 U.S.C. §136, *et seq*.; the Superfund Amendments and Reauthorization Act, 42 U.S.C. §6901, *et*

SECTION 5. RECORDS AND DOCUMENTS

5.1 **Accounting Records**.

5.1.1 Maintenance and Inspection. Contractor shall maintain complete and accurate records with respect to all expenses incurred under this Agreement. Any and all such documents or records shall be maintained in accordance with generally accepted accounting principles and shall be sufficiently complete and detailed so as to permit an accurate evaluation of the Services provided by Contractor pursuant to this Agreement. All such records shall be clearly identifiable.

5.1.2 Inspection and Copying. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement. At no cost to City, Contractor shall provide copies of such documents or records directly to the City for inspection, audit and copying when it is practical to do so; otherwise, unless an alternative is mutually agreed upon, such documents and records shall be made available at Contractor's address indicated for receipt of notices in this Agreement.

5.2 **Ownership of Documents**. All original maps, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files and other documents prepared, developed or discovered by Contractor in the course of providing the Services shall become the sole property of City and may be used, reused or otherwise disposed of by the City without the permission of the Contractor. Upon completion, expiration or termination of this Agreement, Contractor shall turn over to City all such

original maps, models, designs, drawings, photographs, studies, surveys, reports, data, notes, computer files, files and other documents

SECTION 6. INSURANCE

6.1 **Maintenance of Insurance**. Prior to the beginning of and throughout the term of this Agreement, Contractor will maintain insurance in conformance with requirements established by City for the type of Services being performed. Contractor acknowledges that prior to the Effective Date of this Agreement, City provided to Contractor the applicable insurance requirements, a copy of which are attached hereto as Exhibit "F" [Insurance]. Contractor acknowledges that the insurance coverage and policy limits provided by City constitute the minimum amount of coverage required. Any insurance proceeds in excess of the limits and coverage required in this Agreement and which are applicable to a given loss, will be available to the City.

6.2 **Subcontractors Insurance**. Contractor agrees to ensure that subcontractors, and any other party involved in the performance of the Services by Contractor, provide the same minimum insurance coverage required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with subcontractors and others engaged in the project will be submitted to City for review.

6.3 **Modification of Insurance Provisions**. The City Manager may make reasonable amendments to the insurance requirements of this section, with the written concurrence of the Finance Director or Risk Manager, in accordance with Section 9.19 [Administration and Implementation] after considering the Scope of Services, potential liabilities, and the required level of insurance to adequately protect the City.

SECTION 7. BONDS

7.1 **Performance and Payment Bonds**. If required by law or specifically required by City as set forth in Exhibit "E" [Bonds Required], attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with Contractor's execution of this Agreement, but in no event later than the Effective Date of this Agreement, a Performance Bond and/or a Payment Bond in the amount of the total, not-to-exceed compensation indicated in Exhibit C, and in a form provided or approved by the City.

7.2 **Bond Provisions**. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this section are accepted by the City. To the extent, if any, that the total

compensation is increased in accordance with the Agreement, the Contractor shall, without further notice from City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety.

7.3 **Surety Qualifications**. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

SECTION 8. TERMINATION.

8.1 **Termination by City**. City may, by written notice to Contractor, terminate with or without cause, and without any prior notice of default or right to cure by Contractor, the whole or any part of this Agreement at any time and by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least five (5) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those non-disputed Services that have been adequately rendered to City, and Contractor shall be entitled to no further compensation.

8.2 **Termination by Contractor**. Contractor may, by written notice to City, terminate this Agreement based upon City's failure to timely cure a default under this Agreement as provided herein. At least forty-five (45) days prior to termination, Contractor shall provide City with a written notice specifying City's alleged default and providing City with a forty-five (45) day period to cure the default. Should City timely cure such default, the Agreement shall continue. Should City fail to timely or adequately cure such default, Contractor may terminate this Agreement by issuance of written notice to City.

SECTION 9. GENERAL PROVISIONS

9.1 **Assignment or Transfer**. Contractor shall not assign, hypothecate, or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

9.2 **Loss and Damage**. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

9.3 **Liquidated Damages**. The Parties agree that City has a legitimate interest in ensuring that Contractor provides the Services (including performance of all duties and responsibilities) required under this Agreement in a consistent and reliable manner, and that Contractor's failure to timely provide such Services or to provide them in an inadequate manner will cause City to suffer damages and that it is, and will be, impractical and extremely difficult to ascertain and determine the exact amount of damages or to calculate actual damages. Therefore, in addition to City's right to treat such non-performance as a material breach of, and to terminate, this Agreement, the Parties agree that liquidated damages, as provided herein, represent a reasonable estimate of the monetary damages that reasonably could be anticipated and that proof of actual damages would be costly or impractical. The Parties specifically confirm the accuracy of the statements made above and the fact that each Party has had ample opportunity to consult with legal counsel and obtain an explanation of the liquidated damage provisions at the time that the Agreement was made. Therefore, in lieu of actual damages, Contractor is subject to payment of $500 per failure to perform, per day. City may, at its election, deduct any assessed liquidated damages from payment due, or that will become due, to Contractor from City.

9.4 **Excusable Delays**. Contractor shall not be liable for damages, including liquidated damages, if any, caused by delay in performance of failure to perform due to causes beyond the control of Contractor. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state or local governments, acts of City, court orders, fires, floods, epidemics, strikes, embargoes, and unusually severe weather. The term and price of this Agreement shall be equitably adjusted for any delays due to such causes.

9.5 **Cooperation; Further Acts.** The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of the Agreement.

9.6 **Governing Law.** This Agreement shall be interpreted, construed and governed according to the laws of the State of California. In the event of litigation between the parties, venue in state trial courts shall lie exclusively in the County of Riverside. In the event of litigation in a U.S. District Court, venue shall lie exclusively in the Eastern Division of the Central District of California, located in Riverside, California.

9.7 **Integration**. This Agreement, including the attached Exhibits "A" through "F" and other Contract Documents, is the entire, complete, final and exclusive expression of the parties with respect to the matters addressed therein and supersedes all other agreements or understandings, whether oral or written, or entered into between Contractor and City prior to the execution of this Agreement. No statements, representations or other agreements, whether oral or written, made by any party which are not embodied herein shall be valid and binding.

9.8 **Severability.** If a term, condition or covenant of this Agreement is declared or determined by any court of competent jurisdiction to be invalid, void or unenforceable,

the remaining provisions of this Agreement shall not be affected thereby and the Agreement shall be read and construed without the invalid, void or unenforceable provision(s).

9.9 **Prohibited Interests**. Contractor represents and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement.

9.10 **Amendments**. No amendment to or modification of this Agreement shall be valid unless made in writing and approved by Contractor and City. The City Manager shall have the authority to approve any amendment to this Agreement if the total compensation under this Agreement, as amended, would not exceed the City Manager's contracting authority under the Eastvale Municipal Code. All other amendments shall be approved by the City Council. The Parties agree that the requirement for amendments or modifications to be in writing cannot be waived and that any attempted waiver shall be void.

9.11 **No Third Party Beneficiaries**. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

9.12 **Delivery of Notices**. All notices required or permitted to be given under this Agreement shall be in writing and shall be given to the respective parties at the email addresses or physical addresses listed in Exhibit "D", or at such other address as the respective parties may provide in writing for this purpose. Such notice shall be deemed made when emailed or personally delivered or forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

9.13 **Binding Effect**. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

9.14 **Waiver**. Waiver by any Party to this Agreement of any term, condition, or covenant of this Agreement shall not constitute a waiver of any other term, condition, or covenant. Waiver by any Party or any breach of the provisions of this Agreement shall not constitute a waiver of any other provision, nor a waiver of any subsequent breach or violation of any provision of this Agreement. Acceptance by City of any Services by Contractor shall not constitute a waiver of any of the provisions of this Agreement.

9.15 **Attorney's Fees, Costs and Expenses**. In the event litigation or other proceeding is required to enforce or interpret any provision of this Agreement, the prevailing party in such litigation or other proceeding shall be entitled to an award of

reasonable attorney's fees and Costs and Expenses, in addition to any other relief to which it may be entitled.

9.16 **Subcontracting**. Contractor shall not subcontract any portion of the Services, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions of this Agreement.

9.17 **Counterparts**. This Agreement may be signed in counterparts, each of which shall constitute an original.

9.18 **Authority to Execute.** The person or persons executing this Agreement on behalf of Contractor represents and warrants that he/she/they has/have the authority to so execute this Agreement and to bind Contractor to the performance of its obligations hereunder.

9.19 **Administration and Implementation.** This Agreement shall be administered and executed by the City Manager or his or her designated representative. The City Manager shall have the authority to issue interpretations and to make amendments to this Agreement, including amendments that commit additional funds, consistent with the City Manager's contracting authority under the Eastvale Municipal Code.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed the day and year first above written.

Surplus Land Declaration for Assessor Parcel Number (APN) 152-060-061 within Hamner Place

Prepared By:

Gustavo Gonzalez, Community Development Director

Recommended Action(s)

Staff recommends that the City Council adopt a resolution declaring Assessor Parcel Number (APN) 152-060-061 (Hamner Place) surplus land under the Surplus Land Act as amended by AB 1486.

Summary

The City of Eastvale ("City") owns real property consisting of approximately 8.4 acres, located at the eastern terminus of Schleisman Road in the City of Eastvale (APN 152-060-061) ("Property"). The Property is currently zoned Commercial. The City wishes to pursue the potential sale/lease of the Property; therefore, it must now comply with the Surplus Land Act (as amended by AB 1486) and has hired Kosmont Companies to assist in that process.

Background

The property (APN 152-060-061) was acquired by the City via an Agreement for Exchange of Real Property with Lewis Land Developers LLC (LLD), with the intention for the City to use the property for civic uses and potential ancillary commercial uses; since then, the City has determined that the property is no longer needed for civic uses and is exploring other opportunities for the Property.

The City's process to acquire the property began in 2018 and includes: a recorded Memorandum of Agreement (Repurchase Right) giving LLD the right to repurchase the City Property under certain conditions; a Declaration of Covenant, Conditions, and Restrictions and Grant of Easements that may restrict uses on the property; and a Joint Improvement Agreement for the sharing of expenses between the City and LLD for the construction of public improvements.

On October 9, 2019, Governor Newsom signed Assembly Bill ("AB") 1486. AB 1486, which amended the Surplus Land Act ("SLA"), effective January 1, 2020, changed the existing, long-standing definition of "surplus land"; providing that land no longer necessary for a local agency's use shall be declared either "surplus land" or "exempt surplus land" before taking any action to sell or lease land. To that end, AB 1486 also added a new limitation providing that an "agency's use" "shall not include commercial or industrial uses or activities, including nongovernmental retail, entertainment, or office development," or "property disposed of for the sole purpose of investment or generation or revenue." AB 1486 further prohibits the City from negotiation of any disposition of the Property prior to compliance with the procedural requirements of the SLA.

Discussion
As indicated above, the SLA, Government Code sections 54220 et seq., requires that public agencies first declare land "surplus land" or "exempt surplus land" before it can negotiate any disposition of the land, either for sale or for lease.

Pursuant to the SLA, City staff must send a written notice of availability ("NOA") of the surplus Property by electronic mail or by certified mail to all of the entities identified in Government Code section 54222, which include local public entities, housing sponsors that have notified the California Department of Housing and Community Development ("HCD") of their interest in surplus land for the purpose of developing low- and moderate-income housing, regional park authority and the State Resources Agency for open-space purposes, and local school districts for the purpose of school facilities or use. If the Property is within an infill opportunity zone or covered by a transit village plan, the NOA must also be sent to the City, or housing authority operating within the City.

If one of the entities/agencies receiving the NOA desires to purchase or lease the Property, it must notify the City of its interest to do so in writing within 60 days after the issuance of the NOA. After this 60-day noticing period, the City is required to negotiate price and terms for the disposition with any responding entity(ies)/agency(ies) for a period of 90 days. Finally, in the event that no agreement is reached between the City and any interested entity(ies)/agency(ies) after a good faith negotiation period of 90 days, the land may be disposed of without further regard to the Surplus Land Act subsequent to the receipt of a compliance letter from HCD.

Staff has determined that there is no further city use for the Property and is recommending that the City Council declare the Property as "surplus land" and complete the surplus property disposition process in accordance with the SLA.

Environmental
The sale of surplus land is exempt from review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guideline 15312.

Strategic Plan Action - Priority Level: N/A | Target #: N/A | Goal #: N/A
Not Applicable.

Fiscal Impact
Direct costs for undergoing the sale of the Property involve an appraisal(s) and traditional real estate broker services, which will be offset by any proceeds received from the sale of the Property. The

exact final costs for these services is not known given the complexity and unknown factors that can occur when negotiating under the SLA process. Adequate budget is likely available in the Community Development General Fund budget, if additional budget is needed a mid-year appropriation will be requested.

Prior City Council/Commission Action

On April 11, 2018, the City Council approved a transfer of the parcel located at Hamner Place to the City of Eastvale by way of a Real Property Exchange with Lewis Land Developers. The site was considered as a potential location for a future civic center, library and other ancillary public uses.

On November 10, 2021, the City Council designated the Leal Property as the future Civic Center location including a Public Library, Community Center, City Hall, Police Station, and Fire Station. With this action, the City Parcel located at Hamner Place was no longer a potential site for the City's future Civic Center, however, it continued to be considered for future public uses.

On October 12, 2022 the City Council reaffirmed the City parcel located at Hamner Place (APN 152-060-061) as necessary for future City use and provided preliminary feedback and direction to staff on future use concepts to come back to the City Council at a later date for discussion and decision.

Jurupa Community Services District (JCSD) Proposed Heli-Hydrant at Eastvale Community Park

Prepared By:

Johnny Terfehr, Director of Community Safety and Technology

Recommended Action(s)

Staff recommends that the City Council:

1. Approve and Adopt a Resolution Amending the 2025-26 Fiscal Year Operating Budget to Support JCSD's Heli Hydrant Installation in the amount of $150,000; and
2. Authorize the City Manager to execute an agreement, subject to review and approval of the City Attorney, providing financial support to JCSD for the installation of a Heli Hydrant in an amount not to exceed $150,000 and providing the terms and conditions for said financial support.

Summary

The Jurupa Community Services District (JCSD) is proposing to install a Heli-Hydrant at Eastvale Community Park to improve wildfire response in the surrounding area. The Heli-Hydrant is a pilot-controlled, remotely operated water tank connected to the local water system. The installation of this system will allow wildfires to be effectively managed before they spread by providing a reliable water source for helicopters during large or fast-moving fires.

JCSD is requesting financial assistance from the City to support the project. Therefore, City staff have determined that an investment of $150,000 could help support the project to ensure ready access to water for fire attacks within Eastvale, and the surrounding region, particularly in the Santa Ana River wildland-urban interface areas.

Background

The Heli-Hydrant is an innovative fire fighting water supply system developed by Whaling Fire Line Equipment, Inc. to greatly improve the speed and efficiency of aerial wildfire responses. It is the first pilot-controlled, remotely activated water source specifically designed for helicopter firefighting operations. Each Heli-Hydrant features an open-topped steel tank, approximately 15 feet in diameter and 8 feet deep, that connects directly to a municipal or district water system. The tank is equipped with remotely operated valves that pilots can activate by radio signal, allowing helicopters to refill quickly and efficiently while eliminating the need for ground personnel.

By placing these installations in strategic locations near wildland-urban interface areas, Heli-Hydrants provide fast, reliable access to water during the critical early stages of a wildfire, improving the chances of containment before the fire spreads. A Heli-Hydrant significantly reduces the time needed for water-dropping helicopters to fill their tanks and return to fire lines. Because the tank is connected to a dependable water source, it can refill within minutes and deliver up to 1,000 gallons per minute, depending on the local water pressure and flow rate. A helicopter can fill its entire tank with water within minutes while hovering above the open tank and there is no need to land. This allows pilots to immediately return to the drop zone after filling, dramatically improving operational efficiency. The system's automated, pilot-controlled operation not only speeds up aerial firefighting efforts but also enhances firefighter safety by reducing the need for personnel on the ground.

Recognizing the success and potential of the Heli-Hydrant system, the Jurupa Community Services District (JCSD) is expanding its regional wildfire protection capabilities by developing two CAL FIRE–approved Heli-Hydrant sites—one at Eastvale Community Park (ECP) and another near the Benedict Reservoirs. These new installations are strategically located to strengthen wildfire suppression coverage across the region. Because CAL FIRE pilots are restricted from crossing freeways while carrying water loads, each Heli-Hydrant site provides a localized and reliable refill point, ensuring faster response times and better regional coordination during wildfire emergencies.

At Eastvale Community Park, the proposed Heli-Hydrant site will be located west of the existing playing fields. The installation will include an open-topped, 8,500-gallon steel tank connected to nearby water lines through short, 6-inch-diameter pipelines. The tank will be installed at ground level or slightly recessed into the terrain for stability and minimal visual impact, while avoiding developed or paved areas. Through careful design and engineering integration, JCSD aims to ensure each system functions seamlessly within the existing water infrastructure. By providing a permanent, pilot-operated, and rapidly replenishable water source, the Heli-Hydrant system will enhance local wildfire response, reduce operational costs, and strengthen the overall safety of the Eastvale community.

Environmental

The proposed Heli-Hydrant at Eastvale Community Park is expected to have minimal environmental impact. It consists of an open-topped steel tank and short water lines installed on undeveloped land, with little grading or disturbance to vegetation. The system uses the existing water supply, providing rapid access for firefighting without significantly affecting local water resources. Construction may cause temporary noise and minor soil disturbance, but these impacts would be short-term and localized. Once in operation, the Heli-Hydrant produces no emissions and is used only during wildfire response. Because the project involves only a small new structure with minimal impacts, it

qualifies for a categorical exemption under the California Environmental Quality Act (CEQA) Guidelines Section 15303. Overall, the project would enhance regional wildfire protection while preserving the surrounding environment and is exempt from further environmental review under CEQA.

Strategic Plan Action - Priority Level: N/A | Target #: A | Goal #: E

Enhance Fire Response and Preparedness (Target A, Goal E). Use innovation and technology to enhance public safety with consideration and balance of privacy and public trust (Target A, Goal F).

Fiscal Impact

JCSD is requesting the City contribute $150,000 to support the overall project cost of $505,000 for the installation Heli-Hydrant. The fiscal year 2025-26 budget did not include appropriations for this project. In order to facilitate a contribution to JCSD for the project, a $150,000 appropriation from the Fire Fund in account 110-420-6480 is required. A budget resolution is required to facilitate the budget appropriation. For the 2025-26 fiscal year end the fire fund is projected to have the following reserve balances:

Fire-Fund Fund Balance		
Reserve Category	**Amount**	**Expected Cost**
Assigned Operating Reserve	7,373,231	0
Total Operating Reserve	**7,373,231**	**0**
Facility Construction: Third Fire Station	12,300,000	20,000,000
Squad Replacement Reserve	400,000	400,000
Unassigned	2,747,803	0
Total	**15,447,803**	**20,400,000**

For the 2025-26 fiscal year, the Fire Fund is expected to end the year with $2.7 million in unassigned fund balance, as such there is adequate fund balance to appropriate additional budget for this one-time expenditure. It is important to note that the General Fund will need to contribute funds to the Third Fire Station project, whether or not the appropriation for the Helihydrant occurs. Additionally, the General Fund will be responsible for funding the purchase of a Fire Truck, which will be required when the Third Fire Station becomes operational. Funds for the Fire Truck purchase are already held in a General Fund reserve.

Prior City Council/Commission Action

On October 28, 2025, the Public Safety Commission reviewed the proposed Heli-hydrant and provided feedback. All comments were subsequently addressed by JCSD staff, and the Commission has no additional remarks on the item.

Attention: Mr. Craig Brudin

Subject: Proposal for Geotechnical Design Investigation
JCSD Heli-Hydrant Installations
City of Jurupa Valley, California

Mr. Brudin:

Aragón Geotechnical, Inc. (AGI) is pleased to team with Engineering Resources of Southern California, Inc. (ERSC) in pursuit of the referenced City of Jurupa Valley capital improvement project. This letter identifies our company qualifications, recommended scope, and fee estimate for geotechnical investigation work including soil borings. Infiltration-related work is omitted and does not appear necessary. City of Jurupa Valley solicitation C235113 dated November 25, 2024 constitutes the basis for our proposal.

PROJECT UNDERSTANDING

Two sites are identified for the wildfire protection systems. One is west of playing fields in Eastvale Community Park. The second is a gently sloped hillside site east of Sierra Avenue in the Jurupa Mountains. Both sites appear to accessible to regular truck-mounted drilling tools.

We understand that Heli-Hydrants comprise open-topped steel tanks connected by 6-inch-diameter water lines to local distribution or transmission pipelines. The base of the 8,500-gallon tanks could be at-grade or slightly inset below the surrounding terrain. The water service lines for both tanks would be quite short. Neither the tanks nor the proposed water lines would be installed in developed areas or paved surfaces.

Geotechnical explorations at Eastvale would likely encounter floodplain sediments of the Santa Ana River. Nearby, we have found bedded silt and clean sand alluvium. Groundwater is very shallow in the area and local soils are liquefaction-prone. At the Jurupa Mountains site, clayey sand or sandy clay soils may conceal weathered granitic

bedrock at very shallow depths. Grading for the latter location might involve shallow cuts and fills of two or three feet to manufacture a level pad.

SCOPE OF WORK

Based on the project features, aerial image interpretations, and professional experience in both areas slated for the Heli-Hydrants, AGI's scope of services for this project will include:

1. Geotechnical Design Investigation

We expect to drill two soil borings per site, one for the tank and one for the short water service line. These would be drilled the same day. AGI can provide a proposed soil boring location map if requested by the District. Borings will be terminated at depths of about 15 feet (tanks) or 8 feet (pipelines) below existing grade. A standard truck mounted hollow-stem auger drill rig will be employed. Borings will be located by tape or pace measurements from existing cultural features and aerial photos – surveyed locations are not proposed. All work is proposed for normal daylight hours.

Representative bulk soil samples and ring-lined barrel samples will be recovered from the borings where feasible. Bulk samples will typically be collected from the upper 36 to 48 inches of penetration depth. The soil borings will be continuously logged by an experienced Engineering Geologist or Civil Engineer. The borings will be backfilled with tamped crushed stone and/or soil cuttings. Subsurface soil samples will be transported to our Riverside laboratory for recommended testing.

2. Laboratory Testing

Laboratory tests for recovered samples are preliminarily scheduled to include approximately 10 water content – dry density determinations, 2 maximum density-optimum water content relationships, 2 expansion index tests, 2 direct shear tests, 2 sand equivalent tests, and 2 soil corrosivity suites comprising soluble sulfate, soluble chloride, soil pH, and minimum resistivity tests (the suites performed by the Temecula firm of Project X Corrosion Engineers). The actual laboratory testing will be tailored to the subsoil conditions encountered during the field exploration.

3. Geotechnical Design Report

Upon completion of field geotechnical investigation operations, AGI will prepare a single comprehensive written report addressing both Heli-Hydrants. Narrative discussions will present the investigation findings, conclusions, opinions, and any alternatives from standardized designs needed because of hazards or to help with value engineering approaches. Preliminary recommendations for engineered grading, suitable concrete mix designs, soil type and temporary excavation stability, trench backfills, shoring requirements, and ringwall foundation design (if required) will be presented. Geotechnical findings and conclusions in our report will be accompanied by a brief engineering geologic overview describing the geologic setting, landforms, past land uses, geologic hazard potentials (active faulting, landslides, liquefaction, settlement), and the local groundwater regime at each site. Four bound client copies will include

appendices with graphical boring logs, summaries of laboratory test standards and our obtained results, and a scaled alignment exhibit depicting surface geology and soil boring locations.

We assume that encroachment permits we suspect will be required for work in City-owned or controlled sites will be issued at no cost to AGI. As AGI lacks control over the granting of encroachment permits, rig scheduling, rig availability, or utility interference issues, our pledge would be to issue deliverables within a time frame of 8 weeks after NTP **or** 4 weeks from the date of field exploration, whichever is later. An electronic draft version of the geotechnical design report can be made available for ERSC and JCSD engineer reviews and comments before finalizing hard-copy versions.

KEY PERSONNEL

AGI's investigation will be conducted under supervision of the undersigned licensed professional Geotechnical Engineer and Engineering Geologist. The undersigned will be solely responsible for project QA/QC, including calculations, interpretations, and recommendations. Field work will be performed by registered professionals and not technicians. All laboratory work will be performed in accordance with recognized standards of ASTM and/or other standards organizations on regularly maintained and calibrated equipment. AGI is a certified Caltrans/CCRL/AASHTO geotechnical and materials testing laboratory.

AGI's primary team members who will share responsibilities for project management services are listed below. The firm strongly believes in collaborative interactions between our scientists, engineers and field quality control personnel to optimize solutions and minimize design problems. Our professionals will be supported by geotechnical materials technicians and full-time clerical staff, as required. Key personnel are shown below. Date: April 24, 2025

Subject: Action/Discussion Item No. 1
Heli-Hydrant Fire Protection System (C245113) – Design Engineering Services Award

---

Staff Recommendation:

That the Board of Directors authorizes the General Manager to execute a task order with Engineering Resources of Southern California, Inc. (ERSC) for the Heli-Hydrant Fire Protection System Project, in an amount not to exceed $110,700.

Background:

Whaling Fire Line Equipment, Inc. developed the Heli-Hydrant as the first-ever pilot-controlled, remotely activated snorkeling site, revolutionizing aerial firefighting capabilities. This innovative system features a 15-foot diameter, 8-foot-deep open water tank directly connected to a water distribution system and equipped with remotely operated valves accessible by helicopter pilots. Strategically placing Heli-Hydrants in wildland-urban interface areas significantly strengthens initial attack efforts, increasing the likelihood of suppressing wildfires before they escalate. With its rapid-fill tank system, the Heli-Hydrant serves as a crucial asset in large-scale wildfire incidents (Attachment 1).

A key advantage of the patented Heli-Hydrant is its connection to a reliable water source, allowing the tank to fill within minutes. Once the valve is opened, it delivers up to 1,000 gallons per minute (GPM), depending on the available pressure and flow rate at the primary water source. Upon approach, the pilot initiates a radio frequency sequence to activate water uptake, triggering immediate tank filling. This reliable, rapidly replenishable water source reduces wildfire response times, enhances firefighter safety, and lowers costs for ratepayers.

In the summer of 2024, the Board awarded the design and construction of Riverside County's first Heli-Hydrant at the CFD site on Country Village Road.

Discussion:

To build upon the success of the initial Heli-Hydrant Fire Protection System, the Jurupa Community Services District (District) engaged its on-call engineering consultants

to design the necessary utility connections for two CAL FIRE-approved Heli-Hydrant sites. These new installations are strategically located at Eastvale Community Park (ECP) and the Benedict Reservoirs to enhance the coverage of regional wildfire suppression. CAL FIRE pilots cannot cross freeways while carrying a load of water, so these new installations will serve as valuable new infrastructure for specific areas within the region.

The design phase focuses on integrating the Heli-Hydrant system into the existing water infrastructure to ensure reliable and efficient operation. This includes assessing current water supply lines, designing new connections, optimizing water pressure and flow rates, and implementing measures to protect and maintain the system's integrity. The District's collaboration with engineering consultants will ensure that each site meets CAL FIRE's operational standards, delivering immediate and consistent water availability for helicopters conducting aerial firefighting missions.

Design Award:

On November 25, 2024, staff solicited proposals through the District's on-call engineering consultants and received four proposals from ERSC, WEBB, KRD/N2W, and LEE + RO. The selection of firms was based on several factors:

- Proposed approach and understanding of the project
- Qualifications of the firm
- Qualifications and commitment level of the proposed team and project manager
- Scope of Work
- Schedule, work effort, and budget

Ater reviewing the qualifications, proposals, and budgets, staff recommends selecting ERSC, Inc. for the following reasons (Attachment 2):

- Extensive experience with projects involving water connections
- Comprehensive approach and scope that address all critical elements of the project design
- Project team offering the best value and demonstrating appropriate staff commitment to the project

ERSC's approach also includes an in-depth geotechnical design investigation and laboratory testing, ensuring a thorough assessment of soil conditions.

Strategic Plan Applicability:

The item above pertains to "Community Outreach & Strategic Partnerships – #7 Strategy" in the adopted JCSD Strategic Plan. The Board action ties into Tactic #5.5 - Join with like-minded communities and organizations to create integrated, innovative solutions to regional issues, operations, and the environment.

Budget Impact:

This project is included in the approved Fiscal Year 2024-25 Capital Projects – Heli-Hydrant project with an available budget of $327,894 (C245113). The project costs have been reviewed and verified by the District's Finance Department.

Subject: Proposal for Geotechnical Design Investigation
JCSD Heli-Hydrant Installations
City of Jurupa Valley, California

Mr. Brudin:

Aragón Geotechnical, Inc. (AGI) is pleased to team with Engineering Resources of Southern California, Inc. (ERSC) in pursuit of the referenced City of Jurupa Valley capital improvement project. This letter identifies our company qualifications, recommended scope, and fee estimate for geotechnical investigation work including soil borings. Infiltration-related work is omitted and does not appear necessary. City of Jurupa Valley solicitation C235113 dated November 25, 2024 constitutes the basis for our proposal.

PROJECT UNDERSTANDING

Two sites are identified for the wildfire protection systems. One is west of playing fields in Eastvale Community Park. The second is a gently sloped hillside site east of Sierra Avenue in the Jurupa Mountains. Both sites appear to accessible to regular truck-mounted drilling tools.

We understand that Heli-Hydrants comprise open-topped steel tanks connected by 6-inch-diameter water lines to local distribution or transmission pipelines. The base of the 8,500-gallon tanks could be at-grade or slightly inset below the surrounding terrain. The water service lines for both tanks would be quite short. Neither the tanks nor the proposed water lines would be installed in developed areas or paved surfaces.

Geotechnical explorations at Eastvale would likely encounter floodplain sediments of the Santa Ana River. Nearby, we have found bedded silt and clean sand alluvium. Groundwater is very shallow in the area and local soils are liquefaction-prone. At the Jurupa Mountains site, clayey sand or sandy clay soils may conceal weathered granitic

bedrock at very shallow depths. Grading for the latter location might involve shallow cuts and fills of two or three feet to manufacture a level pad.

SCOPE OF WORK

Based on the project features, aerial image interpretations, and professional experience in both areas slated for the Heli-Hydrants, AGI's scope of services for this project will include:

1. Geotechnical Design Investigation

We expect to drill two soil borings per site, one for the tank and one for the short water service line. These would be drilled the same day. AGI can provide a proposed soil boring location map if requested by the District. Borings will be terminated at depths of about 15 feet (tanks) or 8 feet (pipelines) below existing grade. A standard truck mounted hollow-stem auger drill rig will be employed. Borings will be located by tape or pace measurements from existing cultural features and aerial photos – surveyed locations are not proposed. All work is proposed for normal daylight hours.

Representative bulk soil samples and ring-lined barrel samples will be recovered from the borings where feasible. Bulk samples will typically be collected from the upper 36 to 48 inches of penetration depth. The soil borings will be continuously logged by an experienced Engineering Geologist or Civil Engineer. The borings will be backfilled with tamped crushed stone and/or soil cuttings. Subsurface soil samples will be transported to our Riverside laboratory for recommended testing.

2. Laboratory Testing

Laboratory tests for recovered samples are preliminarily scheduled to include approximately 10 water content – dry density determinations, 2 maximum density-optimum water content relationships, 2 expansion index tests, 2 direct shear tests, 2 sand equivalent tests, and 2 soil corrosivity suites comprising soluble sulfate, soluble chloride, soil pH, and minimum resistivity tests (the suites performed by the Temecula firm of Project X Corrosion Engineers). The actual laboratory testing will be tailored to the subsoil conditions encountered during the field exploration.

3. Geotechnical Design Report

Upon completion of field geotechnical investigation operations, AGI will prepare a single comprehensive written report addressing both Heli-Hydrants. Narrative discussions will present the investigation findings, conclusions, opinions, and any alternatives from standardized designs needed because of hazards or to help with value engineering approaches. Preliminary recommendations for engineered grading, suitable concrete mix designs, soil type and temporary excavation stability, trench backfills, shoring requirements, and ringwall foundation design (if required) will be presented. Geotechnical findings and conclusions in our report will be accompanied by a brief engineering geologic overview describing the geologic setting, landforms, past land uses, geologic hazard potentials (active faulting, landslides, liquefaction, settlement), and the local groundwater regime at each site. Four bound client copies will include

appendices with graphical boring logs, summaries of laboratory test standards and our obtained results, and a scaled alignment exhibit depicting surface geology and soil boring locations.

We assume that encroachment permits we suspect will be required for work in City-owned or controlled sites will be issued at no cost to AGI. As AGI lacks control over the granting of encroachment permits, rig scheduling, rig availability, or utility interference issues, our pledge would be to issue deliverables within a time frame of 8 weeks after NTP **or** 4 weeks from the date of field exploration, whichever is later. An electronic draft version of the geotechnical design report can be made available for ERSC and JCSD engineer reviews and comments before finalizing hard-copy versions.

KEY PERSONNEL

AGI's investigation will be conducted under supervision of the undersigned licensed professional Geotechnical Engineer and Engineering Geologist. The undersigned will be solely responsible for project QA/QC, including calculations, interpretations, and recommendations. Field work will be performed by registered professionals and not technicians. All laboratory work will be performed in accordance with recognized standards of ASTM and/or other standards organizations on regularly maintained and calibrated equipment. AGI is a certified Caltrans/CCRL/AASHTO geotechnical and materials testing laboratory.

AGI's primary team members who will share responsibilities for project management services are listed below. The firm strongly believes in collaborative interactions between our scientists, engineers and field quality control personnel to optimize solutions and minimize design problems. Subject: Letter of Support – City of Eastvale's Proposed Contribution to the River bottom Heli-Hydrant Project

Dear Mark Orme and Honorable City Council Members,

On behalf of the CAL FIRE/Riverside County Fire Department, I would like to extend our strong support for the City of Eastvale's proposed financial contribution toward the construction of a Heli-hydrant in the Eastvale Community Park in collaboration with the Jurupa Community Services District (JCSD).

This proposed project represents a proactive and forward-thinking investment in wildfire mitigation and regional fire suppression capabilities. A Heli-hydrant located near the river bottom would provide a critical, permanent water source for firefighting helicopters, allowing for rapid refilling during emergency operations. This capability will greatly improve response times, enhance firefighter safety, and increase effectiveness during wildland and urban-interface fires impacting Eastvale and surrounding communities.

The City of Eastvale's willingness to participate financially demonstrates strong regional partnership and a clear commitment to protecting both residents and natural resources. This level of collaboration between local government and the fire service exemplifies the cooperative spirit necessary to meet today's growing wildfire challenges.

CAL FIRE/Riverside County Fire Department proudly supports the City's leadership in this initiative and stands ready to assist as planning and development progress. Together, we can continue to strengthen Eastvale's resiliency and readiness for future fire events. Thank you for your consideration and continued partnership in advancing public safety throughout the region.

Sincerely,

Bill Weiser

Purchase of Real Property for Civic Center Parking and Civic Center Project Capital Improvement Plan Budget Amendment

Prepared By:

Gustavo N. Gonzalez, Community Development Director

Recommended Action(s)

Staff recommends that the City Council:

1. Approve the Agreement for the Purchase and Sale of Real Property, including the exhibits thereto, to acquire Lot 36 of Tract No. 38595 located at the northwest corner of Premier Place and Hamner Avenue, for Civic Center parking;
2. Authorize the City Manager to sign the Purchase and Sale Agreement, and all exhibits thereto, and take all necessary actions to complete the purchase of the subject property, including but not limited to executing the certificate of acceptance of the grant deed;
3. Authorize the City Manager to approve minor modifications to the Purchase and Sale Agreement, and the exhibits thereto, prior to execution with the consent of the City Attorney;
4. Adopt and Approve a Resolution of the City Council of the City of Eastvale, California, Amending the 2025-26 Fiscal Year Capital Improvement Plan and Budget for the Civic Center Parking Capital Improvement Project.

Summary

The City of Eastvale negotiated a Purchase and Sale Agreement (PSA) with the New Home Company of Southern California LLC (“seller”) wherein seller will sell certain property located within the Leal Master Plan to the City for the purpose of constructing parking to serve the Civic Center. The subject 1.725-acre property (Lot 36 of Tract No. 38595 located at the northwest corner of Premier Place and Hamner Avenue) was appraised in June 2025 at a Fair Market Value (FMV) of $2,400,000. The seller

accepted the City's offer of $2,400,000 and negotiated the PSA with the City, which includes a Declaration of Special Land Use Restrictions (SLUR) and an Option to Repurchase the property. Staff recommends that the City Council approve the draft PSA to acquire the subject property to serve the parking needs of the Civic Center.

Background

The City of Eastvale entered into a Development Agreement with The New Home Company Southern California LLC (Developer) whereby Developer conveyed certain property located within the Leal Master Plan on February 7, 2025 to the City for the purpose of constructing a civic center (Civic Center Site). The Civic Center Site consists of two parcels of land totaling 6.61 acres, inclusive of APN # 164- 060-043 and164-030-013. The Civic Center is currently under construction and expected to be completed in early 2028.

The City Council authorized the Community Development Director to negotiate an agreement with the property owner, The New Home Company Southern California LLC (seller), to acquire Lot 36 of Tract No. 38595 located at the northwest corner of Premier Place and Hamner Avenue, totaling 1.725 acres (**Attachment 1 - Lot 36 of Tract No. 38595)** to serve the parking needs of the Civic Center.

The subject 1.725-acre property was appraised in June 2025 at a Fair Market Value (FMV) of $2,400,000. In June 2025, the City submitted an offer to the seller for the FMV amount, which expired unaccepted. In August 2025, the City submitted a second offer to the seller for the FMV amount, which was accepted by the seller in September 2025. The City and seller began negotiating the Purchase and Sale Agreement (PSA). The negotiated PSA includes a Declaration of Special Land Use Restrictions (SLUR) and an Option to Repurchase the property on behalf of the seller (**Attachment 2**).

California Government Code Section 65402 requires that prior to the acquisition of real property for street, square, park or other public purposes, the Planning Commission must report as to the conformity of the acquisition with the City's adopted General Plan. On October 15, 2025, the Planning Commission adopted a resolution (**Attachment 4**) finding that the acquisition of the subject 1.725-acre property by the City of Eastvale for public purposes conforms with the Eastvale General Plan 2040.

Analysis

The subject property consists of 1.725 acres of land generally located at the northwest corner of Premier Place and Hamner Avenue (Lot 36 of Tract No. 38595). The property is located within Planning Area 4 of Leal Master Plan Amendment #1 (**Attachment 5**). The property is surrounded by proposed multi-family uses in Planning Area 4 to the north, the Civic Center Site in Planning Areas 5 and J to the west, proposed commercial uses to the south in Planning Area 3, and existing commercial uses across Hamner Avenue to the east.

The property is designated for mixed use under the Leal Master Plan Amendment #1. Parking uses are permitted within this land use designation. The Leal Master Plan Amendment #1 was determined to be consistent with the goals, policies, and general land uses described in the City's General Plan. The acquisition of the subject property will serve the parking needs of the Civic Center and support the City's vision of creating a Downtown destination. The Planning Commission found

that the proposed acquisition of the subject property is consistent with the City's General Plan.

Environmental

On May 11, 2022, the City Council adopted an Addendum to the previously Certified Program Environmental Impact Report (PEIR) for an Amendment tothe Leal Master Plan (SPA001). The Addendum was prepared in accordance with Sections 15162 and 15164 of the California Environmental Quality Act (CEQA) Guidelines, and contemplated the construction of a City Hall, Library, and Police Station (Civic Center) and its required parking within the Mixed-Use Planning Areas of the Leal Master Plan. Pursuant to Section 15162 of the CEQA Guidelines, it is the independent judgement of the City, as the Lead Agency, that the acquisition Lot 36 of Tract No. 38595 and construction of parking to serve the Civic Center will not result in any new or more significant impacts to the environment beyond those already assessed under the Addendum to the previously Certified PEIR.

Strategic Plan Action - Priority Level: 1 | Target #: E | Goal #: A

Develop and Construct Civic Center

Fiscal Impact

Total fiscal impact to the General Fund for fiscal year 2025-26 is $2,400,000. The fiscal year 2025-26 Capital Improvement Budget includes $2,000,000 for land acquisition under the Civic Center Parking project, as a result an additional $400,000 in appropriations is required to fund the acquisition of land. The General Fund holds an assigned fund balance reserve for land acquisitions totaling $12,000,000. A total of $400,000 from this reserve will be utilized to fund the additional expenditure appropriations. The reserve will be reduced to $11,600,000.

A budget resolution (**Attachment 3**) is required to facilitate the land acquisition in fiscal year 2025-26 in the amount of $400,000 in the Capital Projects Fund, expenditure account 600-500-6490, project number 95024-0000. Additionally, as the Capital Projects Fund 600 is solely funded by the General fund, transfer appropriations must also be appropriated. Appropriations in General Fund transfer-out, account 100-290-6960 in the amount of $400,000 and Capital Projects Fund transfer-in, account 600-000-4910 in the amount of $400,000 are required.

THIS AGREEMENT FOR PURCHASE AND SALE OF REAL PROPERTY AND PRELIMINARY ESCROW INSTRUCTIONS (this "**Agreement**") is entered into effective as of December___, 2025 ("**Effective Date**") by and between THE NEW HOME COMPANY SOUTHERN CALIFORNIA LLC, a Delaware limited liability company ("**Seller**") and CITY OF EASTVALE, a municipal corporation ("**Buyer**" or "**City**").

R E C I T A L S

A. Seller is the owner of certain real property containing approximately 1.725 acres of land, more or less, located in the City of Eastvale (the "**City**"), County of Riverside (the "**County**"), State of California, more particularly described in **Exhibit A** attached hereto and incorporated herein by this reference (the "**Subject Parcel**").

B. The Subject Parcel is presently part of a larger land area (collectively, the "**Master Project Site**") for which City has approved development entitlements for a master-planned mixed-use community, which presently is proposed to consist of up to 2,500 dwelling units, 595,000 square feet of general commercial, office and civic center uses, a 12,200 square foot fire station and approximately 14.12 acres of open space and recreational uses (the "**Master Project**"), subject to the rights, conditions, covenants and obligations under the Development Agreement and the other Conditions (each as described below).

C. Buyer proposes to acquire the Subject Parcel and cause the subject parcel to be released from the Development Agreement, after which Buyer intends to develop and improve the Subject Parcel with parking improvements and a localized electrical network (microgrid) to serve the City's civic center development (the "**Proposed Project**").

D. Seller is willing to sell and convey the Subject Parcel to Buyer, provided that Buyer conducts any and all development activities thereon in strict compliance with the covenants, conditions, restrictions and limitations (the "**Restrictions**") set forth in the Declaration of Special Land-Use Restrictions attached hereto as **Exhibit C** (the "**SLUR Declaration**"), which will be recorded at the Close of Escrow, and otherwise subject to the terms, conditions, disclaimers and releases set forth in this Agreement.

NOW THEREFORE, IT IS HEREBY MUTUALLY AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. **Agreement to Sell and Purchase.** Seller agrees to sell to Buyer, and Buyer agrees to purchase from Seller, upon the terms and for the consideration set forth in this Agreement, all of Seller's right, title and interest to the Subject Parcel, together with all improvements, if any, all rights and appurtenances pertaining thereto, all easements, privileges,

entitlements and rights of way specifically benefiting the Subject Parcel, together with all appurtenant air rights, water rights, mineral, oil and gas and other subsurface rights owned by Seller with respect to the Subject Parcel, and all right, title, and interest of Seller in and to adjacent easements, and the Intangible Property (defined hereinbelow) (collectively, the "**Property**"), situated in the City of Eastvale, County of Riverside, State of California, legally described on **Exhibit A** attached hereto. Title to the Property conveyed to Buyer shall be subject to the SLUR Declaration and other Permitted Exceptions as more particularly described in this Agreement. For purposes of the foregoing, the following definitions shall apply:

1.1 **"Intangible Property"** shall mean the rights and interests of Seller, if any, in and to intangible property now, or as of Close of Escrow, appurtenant to or owned in connection with the Subject Parcel (to the extent relating exclusively thereto) including without limitation, the following: (i) development rights and other land use entitlements (provided that the exercise of such rights do not violate the Development Conditions or the SLUR Declaration), licenses, permits, certificates, approvals, and other entitlements and intangible rights relating solely to the Subject Parcel; (ii) all such contracts, permits, and plan approvals issued by a governmental authority and otherwise in effect as of Close of Escrow, if any, and related solely to the Subject Parcel; and (iii) any development, subdivision improvement, and other agreements, and all other intangible rights, entitlements, franchises, utility will-serve letters, development allocations and other records, documents and maps that relate solely to the Subject Parcel; provided, however, that development impact fee credits and reimbursements (if any) under any community facilities district or other assessment or financing districts shall not be included or conveyed to Buyer as part of the Intangible Property, but shall be reserved exclusively to the Seller in accordance with this Agreement and the SLUR Declaration.

1.2 **"Development Conditions"** means and refers to all those certain documents and instruments governing and regulating development of the Master Project Site (including, without limitation, the Subject Parcel), including without limitation, the following: (a) the Development Agreement, as amended or supplemented (including by the DA First Amendment); (b) the Leal Master Plan Amendment No. 1, adopted by the Eastvale City Council on May 25, 2022, as the same may be amended from time to time, (c) the Tentative Tract Map for Tract No. 38290, approved by the City Council on May 11, 2022 and Tentative Tract Map for Tract No. 38595, approved by the City on February 19, 2025; (d) Major Development Review No. PLN22-20020-DR 001, approved by the City Council on May 11, 2022; (e) the Conditions of Approval for the Master Plan Amendment, Tentative Tract Maps and aforementioned Major Development Reviews; (f) the Environmental Impact Report (SCH# 2015031028) certified by the City Council on December 13, 2017, the Addendum to the EIR approved by the City Council on May 11, 2022, and any Mitigation Monitoring and Reporting Program. Buyer acknowledges that the Development Conditions include provisions and measures that affect all phases of the development of the Master Project, including design, construction, and operation; therefore, compliance with the Development Conditions, as they may be amended or supplemented, will be required prior to, during and subsequent to construction of any Proposed Project on the Subject Parcel.

2. **Purchase Price Amount and Payment.**

2.1 **Purchase Price**. The total purchase price for the Property shall be Two Million Four Hundred Thousand Dollars ($2,400,000) (the "**Purchase Price**"). Buyer shall pay the Purchase Price by depositing into Escrow, on or before the date for close of Escrow, immediately available funds in the amount of the Purchase Price.

2.2 **Payment of Purchase Price.** The Purchase Price for the Property shall be payable by Buyer as follows:

(a) Deposit. Upon the Opening of Escrow (as defined in Section 3.1 below) Buyer shall deposit with Escrow Holder (as defined in Section 3.1 below), in cash, by certified or bank cashier's check made payable to Escrow Holder, or a confirmed wire transfer of funds, the sum of Twenty-Four Thousand and no/100 Dollars ($24,000.00) (the "**Deposit**"). The Deposit shall be held by Escrow Holder in an interest-bearing escrow account and all interest thereon shall be deemed part of the Deposit. If the transaction contemplated herein does not close due to Buyer's disapproval or deemed disapproval of any matters pertaining to the Property prior to the expiration of the Due Diligence Period, or due to Seller's failure to satisfy one or more of Buyer's conditions precedent to closing stated in Section 8.2(a)-(c) herein, then the Deposit shall be refunded to Buyer, this Agreement and the Escrow shall terminate and the parties shall have no further obligations to one another with respect to this Agreement, except as otherwise expressly provided for herein.

(b) Purchase Price Balance. Provided all of the other conditions precedent to Buyer's obligation to purchase the Property are timely satisfied, then prior to the Close of Escrow, Buyer shall deposit with Escrow Holder by cash, cashier's check, or other immediately available funds the balance of the Purchase Price (the "**Purchase Price Balance**") together with such closing costs and other amounts as identified by Escrow Holder and described on the Closing Statement allocated to Buyer as described herein.

3. **Conveyance of Title.** Seller agrees to convey the Property by Grant Deed to Buyer the fee simple title to the Subject Parcel and all appurtenant real property rights, free and clear of all liens (recorded or unrecorded), taxes and other assessments (then due and payable), or any other encumbrances that is not a Permitted Exception (as hereinafter described). Within five (5) days after the date of this Agreement, Buyer and Seller shall instruct Fidelity National Title Insurance Company, with an address of _____[*insert title officer name and address*] (the "**Title Company**") to deliver to Buyer an ALTA preliminary title report (the "**Title Report**") with respect to the Property, together with available legible copies of the exceptions set forth in Schedule B of the Title Report. Buyer shall have ten (10) days from its receipt of the Title Report within which to give written notice to Seller of Buyer's approval or disapproval of any of such exceptions (a "**Title Objections Notice**"). Buyer's failure to give written approval or disapproval of the Title Report within such time limit shall be deemed disapproval of the Title Report. No deeds of trust, mortgages or other liens, except for the lien of property taxes and assessments not yet due and payable, shall be approved exceptions or deemed approved exceptions. If Buyer timely notifies Seller of any Title Objections, then Seller shall respond to Buyer in writing (a "**Title Response**") within five (5) business days after receipt of Buyer's Title Objections Notice (the "**Title Response Period**") indicating whether Seller will cause removal

of the same. If Seller indicates in its Title Response that it will cause removal of any of Buyer's Title Objections, then such removal shall constitute a condition precedent to Buyer's obligations to complete the Close of Escrow. If Seller fails to commit to cause all Title Objections to be removed, then Buyer may elect, within five (5) days after receipt of Seller's Title Response (or the expiration of the Seller's Title Response Period if no Seller's Title Response is provided) to either (i) deliver a written notice to terminate this Agreement (a "**Termination Notice**"), in which event each Party shall promptly execute and deliver to Escrow Holder such documents as Escrow Holder may reasonably require to evidence such termination and the respective obligations of Buyer and Seller, and Seller shall promptly instruct Escrow Holder to return the Deposit to Buyer, or (ii) waive any Title Objections that relate to a title exception for which Seller has not committed to remove, in which event such Title Objections shall be deemed acceptable to Buyer and the Close of Escrow shall occur as herein provided. Buyer's delivery of an Approval Notice as provided in Section 6, below, shall be deemed Buyer's election to waive the remaining title objections as described in clause (ii), above. All exceptions to title that are not identified in Buyer's Objection Notice or that are included but for which the objection is thereafter waived (or deemed waived) by Buyer as described hereinabove shall constitute the "**Permitted Exceptions**" for purposes of the satisfaction of the applicable closing conditions and issuance of the Owner's Policy (defined below).

Except as required or anticipated by the Development Conditions or the Development Agreement (a) Seller shall not create any new exceptions or permit any exceptions to be created to title following the date of this Agreement, and (b) Buyer shall have the right to approve or disapprove any exceptions reported by the Title Company after Buyer has approved the condition of title for the Property.

4. **Title Insurance Policy.** Escrow Holder shall, following recording of the Grant Deed, provide Buyer with an ALTA owner's policy of title insurance (the "**Owner's Policy**") with a face coverage in the amount of the Purchase Price, issued by the Title Company, together with any endorsements reasonably requested by the Buyer prior to Buyer's Approval Notice, showing fee simple title to the Property vested in Buyer, subject only to the Permitted Exceptions (as described in Section 3) and the standard printed exceptions and stipulations in the Owner's Policy. Seller shall pay the title policy premium for an ALTA standard coverage Owner's Policy and Buyer shall pay the title policy premium for any ALTA extended coverage Owner's Policy and any Buyer requested endorsements. Any ALTA Land Title Survey required as a condition to Buyer's election for ALTA extended coverage shall be completed by Buyer, at its sole cost and expense, and delivered in form acceptable to Title Company prior to expiration of the Due Diligence Period.

5. **Escrow.**

5.1 **Opening of Escrow.** Within three (3) business days of the mutual execution delivery of this Agreement, the Parties shall open an escrow account (the "**Escrow**") in accordance with this Agreement at Fidelity National Title Insurance Company, with an address of _____ *(Insert address of Escrow Holder and name of senior escrow officer)* (the "**Escrow Holder**"). This Agreement, together with the standard form escrow instructions of Escrow Holder attached hereto as **Exhibit B**, constitutes the preliminary joint escrow instructions of Buyer and Seller, and Escrow Holder to whom these instructions are delivered is hereby

empowered to act under this Agreement. The parties hereto agree to execute such further escrow instructions as may be required by Escrow Holder to the extent consistent with the terms of this Agreement, and shall otherwise do all acts necessary to close the Escrow in the shortest possible time. As between Buyer and Seller, if any conflict exists between the terms and provisions of this Agreement and the terms and provisions of any escrow instructions prepared by Escrow Holder, the terms and provisions of this Agreement shall be controlling.

5.2 **Closing of Escrow.** For purposes of this Agreement, the "**Close of Escrow**" shall be defined as the date that the grant deed (the "**Grant Deed**"), the form of which is attached hereto as **Exhibit D**, conveying the Property to Buyer, is recorded in the Official Records of the Recorder of Riverside County, California (the "**Official Records**"). The date upon which the Close of Escrow actually occurs shall sometimes be referred to herein as the "**Closing Date**". The Closing Date shall occur within thirty (30) days after the expiration of the Due Diligence Period, unless extended by the mutual written consent of the parties hereto.

6. **Due Diligence Period.** Prior hereto, Seller and Buyer executed that certain Entry Permit and Indemnity Agreement dated September __, 2025 (the "**Entry Permit**") pursuant to which Buyer commenced its investigation and review of the Subject Parcel. Buyer shall have the period from the Effective Date until January 15, 2026 (the "**Due Diligence Period**") to complete its investigation of the Property and satisfy itself, in its sole and absolute discretion, with all physical, legal and investment conditions and aspects of the Property, including the condition and suitability of the Property for Buyer (including, without limitation, zoning, the environmental and physical condition of the Property) compliance with any laws, ordinances, codes, statutes, rules, orders, decisions and/or regulations with respect to the Property (collectively the **"Due Diligence**"). If, prior to the expiration of the Due Diligence Period, Buyer notifies Seller and Escrow Holder in writing of Buyer's disapproval of the Property (a "**Disapproval Notice**") or if Buyer fails to notify Seller and Escrow Holder of Buyer's approval of the Property on or before the end of the Due Diligence Period (which shall be deemed to constitute Buyer's disapproval of the Property), Buyer's delivery of such Disapproval Notice shall act to terminate this Agreement and the Escrow created pursuant hereto, in which event Buyer and Seller hereby direct Escrow Holder to pay the Deposit (together with accrued interest thereon but less one-half of any escrow or title fees which shall be retained by Escrow Holder) to Buyer, whereupon this Agreement shall have no further force and effect (except for any provision hereof expressly providing that same is to survive termination hereof), and Buyer and Seller shall have no further obligations or liability hereunder except as otherwise expressly provided for herein. If, prior to the expiration of the Due Diligence Period, Buyer notifies Seller and Escrow Holder in writing of Buyer's unconditional acceptance and approval of the Property (an "**Approval Notice**"), such approval shall satisfy this condition. Following Buyer's delivery of an Approval Notice, Escrow Holder shall immediately release the Deposit (together with accrued interest thereon) directly to Seller and the Deposit shall be nonrefundable to Buyer.

6.1 **Buyer's Investigations.** During regular business hours within the Due Diligence Period, upon at least twenty-four (24) hours prior written notice and subject to Seller's right to accompany Buyer at all times, Buyer, its agents, employees, architects, engineers, consultants and contractors shall have the right to enter the Property to conduct an ALTA survey and any non-intrusive investigations, inspections and tests of the Subject Parcel, at Buyer's sole cost and expense, as Buyer deems reasonably necessary to evaluate the condition and suitability

of the Subject Parcel. Buyer shall use care and consideration in connection with all of its inspections or tests. Buyer shall also have the right to enter upon the Subject Parcel for purposes of conducting any invasive inspections including, but not limited to, a Phase 2 Environmental Site Assessment or other boring or invasive testing of the Subject Parcel; provided that Buyer shall comply with all conditions, restrictions and covenants set forth in the Entry Permit with respect thereto. Buyer shall restore the Subject Parcel as near as reasonably possible to its condition prior to any intrusive or invasive tests and/or inspections. Buyer shall indemnify, defend (with counsel reasonably satisfactory to Seller) and hold Seller harmless from and against any and all loss, expense, claim, damage, liability and injury to person or property resulting from the acts of Buyer, Buyer's employees, agents, consultants, architects, engineers, contractors and/or subcontractors in connection with the performance of any investigation or other activities upon the Subject Parcel as contemplated herein and by the Entry Permit. The foregoing indemnity, defense and hold harmless obligations do not apply to (a) any loss, liability cost, claim, damage, injury or expense to the extent arising from the negligent acts or omissions of Seller, (b) any diminution in value in the Property arising from or relating to matters discovered by Buyer during its investigation of the Subject Parcel, (c) any latent defects in the Subject Parcel discovered by Buyer, and (d) the release or spread of any Hazardous Material (as defined below) that are discovered (but not deposited) on or under the Subject Parcel by Buyer unless caused by the negligence of Buyer or its agents or contractors. The indemnification and defense obligations of Buyer in this Section 6.1 shall survive the Close of Escrow or termination of this Agreement.

The term "Hazardous Material" as used herein shall mean any hazardous or toxic substances, materials, chemicals, or wastes in any form and in any concentration that is or becomes, prior to the Close of Escrow, regulated by the United States or any state or local government authority having jurisdiction over the Property (including any present order or agreement imposing liability or standards concerning any such substances, materials, chemicals, or wastes and any future such order or agreement that becomes effective prior to the Close of Escrow), and includes without limitation: any "hazardous substance," as that term is defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) (42 United States Code sections 9601-9675); any "hazardous waste," as that term is defined in the Resource Conservation and Recovery Act of 1976 (RCRA) (42 United States Code sections 6901-6992k); petroleum products; volatile organic compounds; radioactive materials; asbestos and lead paint, in any form or condition; and substances or compounds containing PCBs. The term "Environmental Law" as used herein shall mean any federal, state, or local law, ordinance or regulation, or any order, demand or guidance document of any governmental agency, relating to Hazardous Material.

6.2 **Property Documents.** Within five (5) days after the Effective Date, Seller shall make available to Buyer true and correct copies of the following documents, to the extent such documents currently exist, and are within Seller's actual or constructive possession (collectively the "**Property Documents**").

a. All title reports, easements, and covenants, conditions and restrictions (CC&Rs) pertaining to the Property;

b. All compliance notices and reports (including notices of violation or any correspondence from any government agency with jurisdiction over the Property), geological and soils reports, inspection reports, environmental reports (including any Phase I and Phase II environmental site assessment reports) and other written agreements and notices that affect the ownership, operation, maintenance, repair, improvement or development of the Property;

c. Any claims, litigation, actions or other legal proceedings affecting the Property; and

The portion of current property taxes which would otherwise be allocable to the period after the close of Escrow

shall not be allocated, as Buyer is exempt from payment of property taxes. Seller shall have the sole right, after Close of Escrow, to apply to the Riverside County Tax Collector for a refund of any excess property taxes which have been paid by Seller with respect to the Property. 10. **Seller Representations and Warranties.** Seller represents and warrants to Buyer that:

10.1 **Authority**. Seller is a limited liability company duly organized and in good standing under the laws of the State of Delaware, is qualified to do business in the State of California and has the power to enter into this Agreement and to execute and deliver this Agreement and to perform all duties and obligations imposed upon it hereunder. Neither Seller nor any of its principals or affiliates is (x) a person or entity with which Buyer is prohibited from dealing or otherwise engaging in any transaction by any Anti-Terrorism Law, or that commits, threatens or conspires to commit or supports "terrorism" as defined in the Executive Orders, or (y) is affiliated or associated with a person or entity listed in the preceding clause (x). To the actual knowledge of Seller, neither Seller nor any of its principals or affiliates, nor any brokers or other agents acting in any capacity in connection with the transactions contemplated herein (I) deals in, or otherwise engages in any transaction relating to, any property or interests in property blocked pursuant to the Executive Orders or (II) engages in or conspires to engage in any transaction that evades or avoids, or has the purpose of evading or avoiding, or attempts to violate, any of the prohibitions set forth in any Anti-Terrorism Law. As used herein, "Anti-Terrorism Law" means the OFAC Laws and Regulations, the Executive Orders and the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, Pub. L. No. 107-56, 115 Stat. 272 (2001), as amended.

Each of the representations and warranties made by Seller in Sections 10.1 through 10.9, above, shall be true and correct in all material respects on the date hereof, and shall be deemed to be made again as of the Close of Escrow, and shall then be true and correct in all material respects. The truth and accuracy of each of the representations and warranties of Seller contained in this Agreement are conditions precedent to the Close of Escrow. Where any of the foregoing are limited to "Seller's knowledge" (or words to the effect) it shall mean and refer to, and shall be

limited to, the current, actual knowledge of Brenda Bischak (Seller's Senior Project Manager), the responsible and most knowledgeable representative(s) of Seller with respect to the Subject Parcel and Property, without having any obligation to conduct any further independent review, inquiry or inspection. The foregoing designation is intended to limit and qualify what constitutes Seller's knowledge for purposes of giving the representations and warranties herein, and under no circumstances shall said individual have any direct, indirect or personal liability whatsoever as a result of being designated as the responsible and knowledgeable party for purposes hereof. Until the close of Escrow, if Seller learns of any fact or condition which would cause any of the warranties and representations in Sections 10.1 through 10.9 not to be true as of the Close of Escrow, then Seller shall immediately give written notice of such fact or condition to Buyer.

Anything to the contrary notwithstanding, the covenants, representations and warranties in Section 6.7 and Sections 10.1 through 10.9 and Seller's representation in Section 13 hereof shall be deemed to survive the Close of Escrow and the delivery of the Grant Deed for a period not to exceed twelve (12) months after the Closing Date ("**Limitation Period**") and no action, proceeding, suit or claim of any kind may be commenced or asserted by virtue of any of the covenants, representations and warranties in Section 6.7 and Sections 10.1 through 10.9 after the Limitation Period has expired. No claim for breach of a representation or warranty by Seller shall be actionable or payable by Seller if the breach in question results from or is based on a condition, state of facts or other matter which was actually known to Buyer prior to the Close of Escrow. If Buyer has actual knowledge of the incorrectness of any representation or warranty by Seller and fails to so notify Seller prior to the Close of Escrow, then such representation or warranty shall be deemed to be stricken from this Agreement and shall be of no further force or effect.

11. **Buyer Representations and Warranties.** Buyer represents and warrants to Seller as follows, all of which shall survive the Close of Escrow:

11.1 **Organization and Authority**. Buyer is a municipal corporation duly organized and in good standing under the laws of the State of California and has the power to enter into this Agreement and to execute and deliver this Agreement and to perform all duties and obligations imposed upon it hereunder. All necessary approvals and authorizations required by applicable governmental authorities of Buyer have been received or obtained in connection with the execution, delivery and performance of this Agreement and has obtained the consent of all persons necessary to bind Buyer to this Agreement. Buyer confirms, represents and warrants that each person executing this Agreement is legally competent and is duly authorized so as to fully and legally bind Buyer.

11.2 **Noncontravention**. Neither the execution nor the delivery of this Agreement, nor the consummation of the purchase and sale contemplated hereby, nor the fulfillment of or compliance with the terms and conditions of this Agreement conflict with laws or regulations governing the acts of Buyer.

11.3 **Legal and Binding**. This Agreement constitutes a legal, valid and binding obligation of Buyer, enforceable in accordance with its terms.

11.4 **Buyer's Experience**. Buyer is experienced in acquisition of real property, understands the purposes of the Restrictions and impact that violation could have on development of the Subject Parcel, understands the processes required for applying for and processing applications for development approvals, and possesses the expertise (or will hire the services of consultants having such expertise) necessary to analyze the Subject Parcel and Property and determine the extent and impact of the Restrictions and any and all development constraints affecting the Subject Parcel relevant to its efforts to complete the Proposed Project.

11.5 **No Bankruptcy**. Buyer is not bankrupt or insolvent under any applicable federal or state standard, has not filed for protection or relief under any applicable bankruptcy or creditor protection statute and has not been threatened by creditors with an involuntary application of any applicable bankruptcy or creditor protection statute. Buyer is not entering into the transactions described in this Agreement intending to defraud any creditor or to prefer the rights of one creditor to any other. Buyer and Seller have negotiated this Agreement at arm's-length and the consideration paid represents fair value for the assets to be transferred. Buyer's representations and warranties shall survive the Close of Escrow.

11.6 **Representations True and Correct at Close of Escrow**. Each of the representations and warranties made by Buyer in this Agreement, shall be true and correct in all material respects on the date hereof, and shall be deemed to be made again as of the Close of Escrow, and shall then be true and correct in all material respects. The truth and accuracy of each of the representations and warranties, and the performance of all covenants of Buyer contained in this Agreement, are conditions precedent to the Close of Escrow.

11.7 **No Breach**. Buyer represents and warrants that the execution and delivery of this Agreement and the consummation of the transactions contemplated hereby will not result in any breach of the terms of, conditions of, or constitute a default under, any instrument or obligation by which Buyer is bound, or violate any order, writ, injunction or decree of any court in any litigation to which Buyer is a party.

11.8 **Change of Situation**. Buyer shall notify Seller immediately of any facts or circumstances that are contrary to the foregoing representations and warranties contained in Sections 11.1 to 11.7.

12. **No Brokers.** Seller and Buyer each warrants and represents that it has not engaged the services of any agent, finder or broker in connection with the transaction which is the subject of this Agreement, and that it is not liable for any real estate commissions, broker's fees or finder's fees which may accrue by means of the sale of the Property. Seller and Buyer agree to and do hereby indemnify and hold the other harmless from and against any and all costs, liabilities, losses, damages, claims, causes of action or proceedings which may result from any broker, agent or finder, licensed or otherwise, which it has employed in connection with the transaction covered by this Agreement.

13. **Condemnation or Casualty**. Seller shall promptly notify Buyer of any casualty to the Property or any condemnation proceeding of which Seller has received written notice or which has commenced or occurred prior to the Close of Escrow. If any such damage or proceeding relates to or may result in the loss of any material portion of the Property then Buyer

shall, at its option, elect in writing to Seller and Escrow Holder not later than two (2) days prior to the scheduled date for the Close of Escrow as determined pursuant to Section 5.2 hereof, either to: (a) terminate this Agreement, in which event all funds deposited by Buyer into and remaining in Escrow together with any interest accrued thereon shall be returned to Buyer and neither party shall have any further rights or obligations hereunder (except those obligations of this Agreement that by their terms survive termination); or (b) continue the Agreement in effect without adjustment to the Purchase Price and Seller shall have no obligation for any repair or restoration to the Property, in which event upon the Close of Escrow, Buyer shall be entitled to any compensation, insurance proceeds, awards or other payments or relief resulting from such casualty or condemnation proceeding relating to the Property and Buyer shall be credited at the Close of Escrow with the amount of any deductible under the applicable insurance policies in the event of any such casualty.

14. **Default**.

14.1 **Buyer Default; Liquidated Damages and Limitation on Buyer Liability.** Each of the terms, conditions, covenants and provisions of Buyer under this Agreement is a material consideration to Seller's entering into this Agreement. Upon any breach thereof by Buyer, Buyer shall be deemed in default hereunder as follows: (a) in the case of Buyer's failure to pay or deliver funds, a default shall be deemed to have occurred if Buyer does not cure such failure within three (3) business days' written notice from Seller or Escrow Holder identifying the failure; and (b) in the case of a breach or violation of any other obligation hereunder, a default by Buyer shall be deemed to have occurred if Buyer fails to cure such breach or violation within ten (10) days of written notice from Seller specifying such breach and the action required to cure such breach. **IF CLOSE OF ESCROW DOES NOT OCCUR DUE TO BUYER'S DEFAULT UNDER THIS AGREEMENT, THEN IN ANY SUCH EVENT, PROVIDED THAT SELLER IS NOT IN DEFAULT OF ITS OBLIGATIONS FOR THE CLOSE OF ESCROW, THE ESCROW HOLDER MAY BE INSTRUCTED BY SELLER, AND SELLER SHALL BE ENTITLED TO SO INSTRUCT ESCROW HOLDER, TO CANCEL THE ESCROW AND SELLER SHALL THEREUPON BE RELEASED FROM ITS OBLIGATIONS HEREUNDER. BUYER AND SELLER AGREE THAT BASED UPON THE CIRCUMSTANCES NOW EXISTING, KNOWN AND UNKNOWN, IT WOULD BE IMPRACTICAL OR EXTREMELY DIFFICULT TO ESTABLISH SELLER'S DAMAGE BY REASON OF BUYER'S DEFAULT. ACCORDINGLY, BUYER AND SELLER AGREE THAT, IN THE EVENT OF DEFAULT BY BUYER UNDER THIS AGREEMENT, SELLER SHALL BE ENTITLED, AS SELLER'S SOLE AND EXCLUSIVE REMEDY AT LAW AND EQUITY, TO RETAIN THE DEPOSIT, TOGETHER WITH ANY INTEREST ACCRUED THEREON, AS LIQUIDATED DAMAGES. THE AMOUNT REPRESENTED BY THE DEPOSIT IS A REASONABLE CONSIDERATION FOR SELLER'S PROVIDING THE PROPERTY DOCUMENTS AND ACCESS TO THE PROPERTY TO BUYER AND FOR TAKING THE PROPERTY OFF THE MARKET. THE PAYMENT TO, AND RETENTION BY, SELLER OF THE DEPOSIT AS LIQUIDATED DAMAGES IS NOT INTENDED AS A FORFEITURE OR PENALTY WITHIN THE MEANING OF CALIFORNIA CIVIL CODE SECTIONS 3275 OR 3369, BUT IS INTENDED TO CONSTITUTE LIQUIDATED DAMAGES TO SELLER PURSUANT TO CALIFORNIA CIVIL CODE SECTIONS 1671, 1676 AND**

SELLER:_____ BUYER:_____

14.2 **Seller Default.** No Seller default shall be deemed to have occurred unless and until Buyer has given Seller written notice thereof, describing the nature and details of the default, and Seller has failed to cure such default within ten (10) business days after receipt of such notice (and the Close of Escrow shall be extended, if necessary, to allow the Seller the full 10-business-day period).

a. Buyer Remedies Prior to the Close of Escrow. In the event the sale of the Property as contemplated hereunder is not consummated due to Seller's default hereunder, including the failure of any condition set forth in Section 8.1, Buyer shall be entitled, as its sole remedy, either (i) to be reimbursed by Seller for legal and other expenses incurred in conducting its Due Diligence up to a maximum amount of $24,000 and to receive the return of the Deposit, which return shall operate to terminate this Agreement and release Seller from any and all liability hereunder, or (ii) to enforce specific performance of Seller's obligation to convey the Property to Buyer in accordance with the terms of this Agreement, provided that Buyer files suit for specific performance as set forth in the last sentence of this Section 14.2 on or before sixty (60) days following the date upon which Close of Escrow was to have occurred, it being understood and agreed that the remedy of specific performance shall not be available to enforce any other obligation of Seller hereunder. Without limiting Buyer's right to recover attorneys' fees pursuant to Section 15 below, and except as set forth in clause (i) above, Buyer expressly waives its rights to seek any other damages or other monetary recovery of any kind or character in the event of Seller's default prior to the Close of Escrow hereunder; except, however, that if Seller takes any action or engages in wrongful conduct that legally prevents Buyer from obtaining the remedy of specific performance following a Seller breach or default, then Buyer shall have the right to pursue a monetary recovery in an amount of up to the limits set forth in subsection b., below.

b. Buyer Remedies Following Close of Escrow; Limitation of Remedies. If, following the Close of Escrow, Buyer asserts that Seller breached any of the terms or provisions of this Agreement or otherwise defaulted with respect to any post-closing covenant, representation, warranty or indemnity herein contained that survived the Close of Escrow, then as Buyer's sole and exclusive remedy for such failure, but without limiting Buyer's right to recover attorneys' fees pursuant to Section 15, below, Buyer may seek recovery of general damages from Seller in an amount not to exceed a maximum amount of One Hundred Twenty Thousand Dollars ($120,000). Buyer expressly waives and releases (i) any and all rights to recover consequential damages for a default by Seller, including, but not limited to, lost profits, lost opportunity, or benefit of the bargain damages, and (ii) any general, special, exemplary or punitive damages in excess of the aforementioned maximum amount.

15. **Attorney's Fees.** Each Party shall be responsible for their respective legal fees in connection with the preparation of this Agreement and the transaction contemplated by the Agreement, whether or not Close of Escrow occurs. In the event any legal or equitable action is instituted between Seller, Buyer and/or Escrow Holder in connection with this Agreement, then

as between Buyer and Seller, the prevailing party shall be entitled to recover from the losing party all of its costs and expenses, including court costs and reasonable attorneys' fees incurred with respect to such action, and all fees, costs and expenses incurred on any appeal or in collection of any judgment.

16. **Notices.** All notices or other communications required or permitted hereunder shall be in writing, and shall be personally delivered, sent by facsimile or email, reputable overnight courier, or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received upon the earlier of: (i) if personally delivered, the date of delivery to the address of the person to receive such notice; (ii) if delivered by Federal Express or other nationally reputable overnight courier for next business day delivery, the next business day; or (iii) if sent by email or other electronic transmission, with the original sent on the same day by overnight courier for next business day delivery, the date on which the notice is sent by email or other electronic transmission is received, provided that the email or facsimile is received after 5:00 P.M. 21. **Waiver**. The waiver or failure to enforce any provision of this Agreement shall not operate as a waiver of any future breach of any such provision or any other provision hereof.

22. **Invalidity of Provision.** If any provision of this Agreement as applied to any party or to any circumstance shall be adjudged by a court of competent jurisdiction to be void or unenforceable for any reason, the same shall in no way affect (to the maximum extent permissible by law) any other provision of this Agreement, the application of any such provision under circumstances different from those adjudicated by the court, or the validity or enforceability of this Agreement as a whole.

23. **Amendments.** No addition to or modification of any provision contained in this Agreement shall be effective unless fully set forth in writing by Buyer and Seller.

29. **Cooperation**. Buyer and Seller agree to execute such instruments and documents and to diligently undertake all actions pursuant to the provisions hereof in order to consummate the purchase and sale herein contemplated and shall use their commercially reasonable efforts to accomplish the Close of Escrow in accordance with the provisions hereof; provided, however, Seller and Buyer shall not be required to execute or deliver any document or instrument that materially increases any of either party's obligations or materially decreases either party's rights under the terms and provisions of this Agreement.

30. **Multiple Counterparts; Electronic Signatures**. This Agreement may be executed in a number of identical counterparts which, taken together, shall constitute collectively one (1) agreement; in making proof of this Agreement, it shall not be necessary to produce or account for more than one such counterpart with each party's signature. Further, any signed or initialed page of this Agreement may be executed and transmitted by email or other electronic transmission, including by DocuSign, in portable document format (.pdf), or any comparable image format, and delivery by such transmission of an executed signature page (or initialed page) of this Agreement shall be deemed effective for all purposes as though this Agreement was executed and delivered as a "blue ink" original, and shall be enforceable in accordance with the Electronic Signatures in Global and National Commerce Act, (15 U.S.C. § 7001 et seq.), the Uniform Electronic Transaction Act and California Uniform Electronic Transactions Act (Cal. GENERAL PROVISIONS

1. DEPOSIT OF FUNDS

The law dealing with the disbursement of funds requires that all funds be available for withdrawal as a matter of right by the title entity's escrow and/or sub escrow account prior to disbursement of any funds. Only cash or wire transferred funds can be given immediate availability upon deposit. Cashier's checks, teller's checks and Certified checks may be available one business day after deposit. All other funds such as personal, corporate or partnership checks and drafts are subject to mandatory holding periods which may cause material delays in disbursement of funds in this escrow. In order to avoid delays, all fundings should be wire transfer. Outgoing wire transfers will not be authorized until confirmation of the respective incoming wire transfer or of availability of deposited checks.

Deposit of funds into general escrow account unless instructed otherwise. You may instruct Escrow Holder to deposit your funds into an interest bearing account by signing and returning the "Escrow Instructions - Interest Bearing Account", which has been provided to you. If you do not so instruct us, then all funds received in this escrow shall be deposited with other escrow funds in one or more general escrow trust accounts, which include both non-interest bearing demand accounts and other depository accounts of Escrow Holder, in any state or national bank or savings and loan association insured by the Federal Deposit Insurance Corporation (the "depository institutions") and may be transferred to other such escrow trust accounts of Escrow Holder or one of its affiliates, either within or outside the State of California. A general escrow trust account is restricted and protected against claims by third parties and creditors of Escrow Holder and its affiliates.

Receipt of benefits by Escrow Holder and affiliates. The parties to this escrow acknowledge that the maintenance of such general escrow trust accounts with some depository institutions may result in Escrow Holder or its affiliates being provided with an array of bank services, accommodations or other benefits by the depository institution. Some or all of these benefits may be considered interest due you under California Insurance Code Section 12413.5. Escrow Holder or its affiliates also may elect to enter into other business transactions with or obtain loans for investment or other purposes from the depository institution. All such services, accommodations, and other benefits shall accrue to Escrow Holder or its affiliates and Escrow Holder shall have no obligation to account to the parties to this escrow for the value of such services, accommodations, interest or other benefits.

Said funds will not earn interest unless the instructions otherwise specifically state that funds shall be deposited in an interest-bearing account. All disbursements shall be made by check of **Fidelity National Title Company**. The principals to this escrow are hereby notified that the funds deposited herein are insured only to the limit provided by the Federal Deposit Insurance Corporation. Any instruction for bank wire will provide reasonable time or notice for Escrow Holder's compliance with such instruction. Escrow Holder's sole duty and responsibility shall be to place said wire transfer instructions with its wiring bank upon confirmation of (1) satisfaction of conditions precedent or (2) document recordation at close of escrow. Escrow Holder will NOT be held responsible for lost interest due to wire delays caused by any bank or the Federal Reserve System, and recommends that all parties make themselves aware of banking regulations with regard to placement of wires.

In the event there is insufficient time to place a wire upon any such confirmation or the wires have closed for the day, the parties agree to provide written instructions for an alternative method of disbursement. WITHOUT AN ALTERNATIVE DISBURSEMENT INSTRUCTION, FUNDS WILL BE HELD IN TRUST IN A NON-INTEREST BEARING ACCOUNT UNTIL THE NEXT OPPORTUNITY FOR WIRE PLACEMENT.

2. PRORATIONS AND ADJUSTMENTS

All prorations and/or adjustments called for in this escrow are to be made on the basis of a thirty (30) day month unless otherwise instructed in writing. You are to use information contained on last available tax statement, rental statement as provided by the Seller, beneficiary's statement and fire insurance policy delivered into escrow for the prorations provided for herein.

3. SUPPLEMENTAL TAXES

The within described property may be subject to supplemental real property taxes due to the change of ownership taking place through this escrow. Any supplemental real property taxes arising as a result of the transfer of the property to Buyer shall be the sole responsibility of Buyer and any supplemental real property taxes arising prior to the closing date shall be the sole responsibility of the Seller. TAX BILLS ISSUED AFTER CLOSE OF ESCROW SHALL BE HANDLED DIRECTLY BETWEEN BUYER AND SELLER.

4. UTILITIES/POSSESSION

Transfer of utilities and possession of the premises are to be settled by the parties directly and outside escrow.

5. PREPARATION AND RECORDATION OF INSTRUMENTS

Escrow Holder is authorized to prepare, obtain, record and deliver the necessary instruments to carry out the terms and conditions of this escrow and to order the policy of title insurance to be issued at close of escrow as called for in these instructions. Close of escrow shall mean the date instruments are recorded.

6. AUTHORIZATION TO FURNISH COPIES

You are authorized to furnish copies of these instructions, supplements, amendments, notices of cancellation and closing statements, to the Real Estate Broker(s) and Lender(s) named in this escrow.

7. RIGHT OF CANCELLATION

Any principal instructing you to cancel this escrow shall file notice of cancellation in your office in writing. You shall, within two (2) working days thereafter, deliver, one copy of such notice to each of the other principals at the addresses stated in this escrow. UNLESS WRITTEN OBJECTION TO CANCELLATION IS FILED IN YOUR OFFICE BY A PRINCIPAL WITHIN TEN (10) DAYS AFTER DATE OF SUCH DELIVERY, YOU ARE AUTHORIZED TO COMPLY WITH SUCH NOTICE AND DEMAND PAYMENT OF YOUR CANCELLATION CHARGES. If written objection is filed, you are authorized to hold all money and instruments in this escrow and take no further action until otherwise directed, either by the principals' mutual written instructions, or by final order of a court of competent jurisdiction.

8. PERSONAL PROPERTY

No examination or insurance as to the amount or payment of personal property taxes is required unless specifically requested. By signing these General Provisions, the parties to the escrow hereby acknowledge that they are indemnifying the Escrow Holder against any and all matters relating to any "Bulk Sales" requirements, and instruct Escrow Agent to proceed with the closing of escrow without any consideration of matter of any nature whatsoever regarding "Bulk Sales" being handled through escrow.

9. RIGHT OF RESIGNATION

Escrow Holder has the right to resign upon ten (10) days written notice delivered to the principals herein. If such right is exercised, all funds and documents shall be returned to the party who deposited them and Escrow Holder shall have no liability hereunder.

10. AUTHORIZATION TO EXECUTE ASSIGNMENT OF HAZARD INSURANCE POLICIES

Either Buyer, Seller and/or Lender may hand you the insurance agent's name and insurance policy information, and you are to execute, on behalf of the principals hereto, form assignments of interest in any insurance policy (other than title insurance) called for in this escrow, forward assignment and policy to the insurance agent, requesting that the insurer consent to such transfer and/or attach a loss payable clause and/or such other endorsements as may be required, and forward such policy(s) to the principals entitled thereto. It is not your responsibility to verify the information handed you or the assignability of said insurance. Your sole duty is to forward said request to insurance agent at close of escrow.

Further, there shall be no responsibility upon the part of Escrow Holder to renew hazard insurance policy(s) upon expiration or otherwise keep it in force either during or subsequent to the close of escrow. Cancellation of any existing hazard insurance policies is to be handled directly by the principals, and outside of escrow.

11. ACTION IN INTERPLEADER

The principals hereto expressly agree that you, as Escrow Holder, have the absolute right at your election to file an action in interpleader requiring the principals to answer and litigate their several claims and rights among themselves and you are authorized to deposit with the clerk of the court all documents and funds held in this escrow. In the event such action is filed, the principals jointly and severally agree to pay your cancellation charges and costs, expenses and reasonable attorney's fees which you are required to expend or incur in such interpleader action, the amount thereof to be fixed and judgment therefor to be rendered by the court. Upon the filing of such action, you shall thereupon be fully released and discharged from all obligations imposed by the terms of this escrow or otherwise.

12. TERMINATION OF AGENCY OBLIGATION

If there is no action taken on this escrow within six (6) months after the "time limit date" as set forth in the escrow instructions or written extension thereof, your agency obligation shall terminate at your option and all documents, monies or other items held by you shall be returned to the parties depositing same. In the event of cancellation of this escrow, whether it be at the request of any of the principals or otherwise, the fees and charges due **Fidelity National Title Company**, including expenditures incurred and/or authorized shall be borne equally by the parties hereto (unless otherwise agreed to specifically).

13. CONFLICTING INSTRUCTIONS

DECLARATION OF SPECIAL LAND USE RESTRICTIONS

(*Lot 36 of Tract No. 38595*)

THIS DECLARATION OF SPECIAL LAND USE RESTRICTIONS (this "***SLUR Declaration***") is made as of _____, 20__, by and between THE NEW HOME COMPANY SOUTHERN CALIFORNIA LLC, a Delaware limited liability company ("***Declarant***"), and CITY OF EASTVALE, a California municipal corporation (in its capacity as grantee of the Subject Parcel, "***Grantee***"), with reference to the following facts:

RECITALS

A. Concurrently herewith and immediately prior hereto, Declarant conveyed to Grantee that certain real property situated in the City of Eastvale, Riverside County, California, more particularly described in **Exhibit A** attached hereto and by this reference incorporated herein (collectively, the "***Subject Parcel***").

B. The Subject Parcel comprises a portion of the land (the "***Project Site***") that is being developed as a master planned community (the "***Project***") as more fully described in that certain Development Agreement No. 003 by and between the City of Eastvale (in its capacity as the municipal authority, the "***City***") and The New Home Company Southern California LLC, a Delaware limited liability company dated as of May 11, 2022 (as amended, the "***Development Agreement***").

C. Declarant and certain of its affiliates are the master developers of the Project. In accordance with the terms of that certain Agreement of Purchase and Sale and Preliminary Escrow Instructions by and between Declarant and City dated December ___, 2025, and as a condition to conveyance of the Subject Parcel to Grantee, Declarant and Grantee are executing and entering into this SLUR Declaration for the benefit of Declarant and the Declarant Parties, and for the benefit and protection of those portions of the Project owned by the Declarant Parties more particularly described in **Exhibit B** attached hereto and by this reference incorporated herein for the period of Declarant's ownership thereof (the "***Benefited Property***").

D. Grantee has agreed that any development of the Subject Parcel shall proceed only in accordance with the covenants, conditions, rights, restrictions and limitations described herein (the "***Restrictions***"), and Declarant is conveying the Subject Parcel to Grantee on the basis of Grantee's agreement with respect to the development of the Subject Parcel and the construction and use of the Grantee Improvements thereon.

E. But for such covenants and representations by Grantee under this SLUR Declaration, Declarant would not have agreed to convey the Subject Parcel to Grantee. Instead, Declarant either would have retained ownership and developed the Subject Parcel itself or would have conveyed the Subject Parcel to another party for development in accordance with Declarant's long-range master planning program for the Project.

F. Grantee has agreed that development of the Subject Parcel and use of any Grantee Improvements developed and constructed thereon shall be limited to traditional public

uses, including without limitation, community centers, senior centers, parks, civic centers, public parking, libraries or comparable facilities and uses, and a localized electrical network (microgrid) serving traditional public uses (collective, the "***Permitted Uses***").

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged by Grantee, the parties hereto agree as follows:

ARTICLE I.
GENERAL PROVISIONS; DEFINITIONS

1.1 Acknowledgement of General Purposes.

(a) Project. Grantee acknowledges that Declarant and the Declarant Parties are, collectively, the master developers of the Project in the City, and are owners of portions thereof, including the Benefited Property. Among the distinguishing characteristics of the Project are the clear delineation of use areas throughout, together with the exercise of architectural and design controls over individual construction projects, so as to (a) ensure harmonious growth and development within the Project, (b) implement Declarant's and the Declarant Parties' intentions and visions for the Project, and (c) maximize the value of Declarant's and the Declarant Parties' remaining landholdings and development rights. Declarant determined to convey the Subject Parcel and transfer of the Property to Grantee (including, without limitation, the right to develop, occupy and use the Subject Parcel) subject to the covenants, duties, restrictions and limitations set forth in this SLUR Declaration.

(b) Allocation of Entitlements by Declarant. Grantee further acknowledges that it is vitally important to Declarant and the Declarant Parties that the density of development and uses of improvements be limited on those parcels of property (including the Subject Parcel) that Declarant and each Declarant Party from time to time may elect to convey to third parties. Should the development limitations imposed by Declarant and the Declarant Parties be exceeded by any owner of real property within the Project, (i) Declarant's and the Declarant Parties' entitlements and rights to develop the balance of the Project could be adversely impacted in a material respect, (ii) roadways, utilities and other infrastructure improvements servicing the Project and its environs could be over-utilized (leading to undesirable traffic congestion and land use imbalances within the Project), (iii) existing entitlements already transferred to third parties could be adversely affected, and (iv) the Development Conditions and other requirements of Governmental Authorities on which development of the Project is conditioned could be violated.

(c) Purpose. It is to promote these purposes and avoid the adverse impacts that this SLUR Declaration is made, and it is the intention of the parties that it will be in furtherance of said purposes that the Restrictions and all other declarations supplemental hereto will be understood and construed.

Grantee acknowledges that the Development Conditions include provisions and measures that affect all phases of the development, including design, construction, and operation; therefore, Grantee's compliance with the Development Conditions, as they may be amended or supplemented, will be required prior to, during and subsequent to construction of the Grantee Improvements on the Subject Parcel.

ARTICLE II.
GENERAL AND SPECIFIC USE RESTRICTIONS

The covenants, restrictions and limitations contained in this Article II shall bind the Subject Parcel through the Expiration Date or until released by the Declarant (or such party to whom the Declarant's rights hereunder have been assigned in accordance herewith), unless otherwise specified herein.

2.1 Use Restrictions. The violation of any of the following shall, at Declarant's option, constitute a default hereunder and a breach of the Restrictions, which shall entitle Declarant to exercise any of the rights and remedies herein described.

(a) Unapproved Development or Use. Unless expressly approved by Declarant, which approval may be withheld by Declarant in its reasonable discretion and which restriction shall continue through the Expiration Date, Grantee shall not permit the following:

(i) The commencement of construction, maintenance, operation or use of any structure or improvements on the Subject Parcel not in compliance with all requirements of law or as contained in these Restrictions and in any other recorded covenants, conditions, rights, restrictions and limitations existing at the time this SLUR Declaration is recorded and covering the Subject Parcel, including without limitation all architectural approval requirements and use restrictions contained in such documents; or

(ii) More specifically, any use of the Subject Parcel that is either a "Prohibited Use" or is not expressly included as a "Permitted Use" as set forth in **Exhibit C** to this SLUR Declaration or that otherwise violates these Restrictions.

(b) Environmental Covenants. Grantee covenants that it will not cause or permit any Hazardous Substances (as defined below) to be stored, transported or otherwise held on, under or about the Subject Parcel, or by any of its tenants, occupants, licensees or invitees in any manner that violates Environmental Laws. Grantee and its tenants shall be permitted to use Hazardous Substances in compliance with Environmental Laws to the extent such Hazardous Substances are used in the ordinary course of operations for building maintenance and general janitorial use or in connection with the use of the Subject Parcel in accordance with the requirements of this SLUR Declaration. Grantee shall at all times observe and satisfy the requirements of and maintain the Subject Parcel in compliance with all federal, state or local laws, statutes, ordinances, consent decrees, orders, rules or regulations pertaining to the use of the applicable portion of the Subject Parcel and concerning occupational health, industrial hygiene, occupational or environmental conditions on, under or about the Subject Parcel, or the regulation or protection of the environment, including ambient air, soil, soil vapor, ground water, surface water, and/or land use. Should Grantee at any time default in or fail to perform or observe any of its obligations under this paragraph and such default materially impacts any other portion of the Project or could result in the imposition of owner/operator liability on Declarant or any or Declarant Parties, then (after the expiration of applicable notice and cure periods) Declarant shall have the right, but not the duty, in addition to the rights set forth below, to perform the same, and Grantee agrees to pay to Declarant or Declarant Parties, on demand, one

hundred percent (100%) of all actual costs and expenses incurred by Declarant (or any Declarant Parties) in connection therewith, including without limitation reasonable attorneys' fees, together with interest from the date of expenditure at the rate of interest equal to the lesser of ten percent (10%) per annum, or the maximum rate of interest permitted by law, until such amount is paid in full. Notwithstanding the foregoing, Declarant and Grantee agree that (a) the presence of Hazardous Substances in the soil, soil gas and groundwater on and beneath the Subject Parcel as of the Recording Date (and/or the remediation thereof, if necessary) is not considered to be stored, transported or otherwise held on the Subject Parcel as those terms are used in this provision, and (b) Grantee shall have no liability to Declarant for any Hazardous Substances existing on or under the Subject Parcel as of the Recording Date.

(c) No Changes to Subdivision or Development Conditions. Grantee shall not process any change or amendment to the Final Map or any other recorded subdivision or parcel map covering the Subject Parcel or record any subdivision or parcel map relating to the Subject Parcel or any portion thereof or facilities thereon, pursuant to California Government Code Sections 66410 *et seq*., or any similar statute hereafter enacted, and any local ordinances adopted pursuant thereto, nor shall Grantee file any applications with any Governmental Authority with respect to any of the foregoing matters, if such change or amendment is made to facilitate a use or development of the Subject Parcel in violation of or inconsistent with the Restrictions, the Development Conditions or other covenants in this SLUR Declaration. Notwithstanding the foregoing, Grantee may effectuate lot line adjustments if (i) such lot line adjustment is with respect to only the Subject Parcel (and not any other portion of the Project), (ii) is consistent with the Restrictions in this SLUR Declaration, and (iii) such lot line adjustment does not result in a change or amendment to, or materially adversely affect, the zoning, entitlements or development of the balance of the Project. Prior to commencing a process for any such lot line adjustment, Grantee shall submit such lot line adjustment to Declarant, and Declarant shall have thirty (30) days thereafter to determine whether such lot line adjustment satisfies the provisions of the immediately preceding sentence. Grantee agrees that it will not oppose, and shall reasonably cooperate with Declarant, in establishing or modifying any supplemental or existing Development Conditions as Declarant may negotiate with the City.

(d) Development Conditions; MMRP and Conditions of Approval. Grantee shall comply with the Development Conditions for the length of time required by each of the agreements, documents or instruments constituting the Development Conditions. The Development Agreement, the Conditions of Approval and the MMRP include provisions and measures that affect all phases of the development and use, including design, construction, and operation; and further, compliance with the Development Conditions will continue to be required by Grantee prior to, during and subsequent to construction of the Grantee Improvements on the Subject Parcel. Grantee shall not seek to process any change or amendment to the Development Conditions, or any element thereof, covering the Subject Parcel or any other portion of the Project without the prior written consent of Declarant, which may be granted or withheld in Declarant's sole and absolute discretion.

(e) Construction Easement. If Declarant notifies Grantee that it requires an easement, from time to time, over, under and/or across certain areas within the Subject Parcel (as such exist from time to time), the exact location of which shall be subject to the approval of Grantee in its reasonable discretion, for construction, installation, use and maintenance of

utilities to serve the Project (including, without limitation, gas, electric, water, telephone, storm drain, sewer, fiber optic cable, sprinklers, reclaimed water, traffic signal infrastructure, and data transport cabling as such may evolve over time), then Grantee shall, within ten (10) Business Days following the giving of written request therefor by Declarant in accordance with the notice provisions under Section 5.9 below, execute, cause to be notarized, and deliver to Declarant an instrument prepared by Declarant and submitted concurrently with its written request, in recordable form, granting to Declarant a non-exclusive easement in an area reasonably acceptable to Grantee and Declarant, which instrument shall be in a form reasonably acceptable to Grantee and Declarant, and to any public utility or Governmental Authority with relevant jurisdiction therefor. Any perpetual easement shall include, without limitation, that (A) the easement shall not unreasonably interfere with (I) ingress and egress to and from the Subject Parcel or the Grantee Improvements thereon, (II) the use of the Subject Parcel by Grantee, its tenants or easement holders, or (III) construction or use of the Grantee Improvements, (B) all utility improvements installed therein by Declarant shall be subterranean and shall be constructed at Declarant's sole cost and expense in a good and workmanlike manner, (C) the grantee of such easement shall indemnify and defend Grantee from and against any loss incurred by or liability imposed on Grantee in connection with use of such easement, except to the extent such loss or liability results from Grantee's negligence or misconduct, (D) the grantee of such easement shall restore any damage resulting from its use of the easement area, (E) Declarant shall ensure that the Subject Parcel is not encumbered by liens from work performed by Declarant in the easement areas, and (F) Declarant shall carry commercial general liability insurance and property insurance with single limit coverage amounts of not less than Two Million Dollars ($2,000,000) per occurrence and general aggregate, and with insurance carriers having an A.M. Best Rating of B:VIII, which insurance policies shall list Grantee as an additional insured.

(f) Site Maintenance and Repair.

(i) Maintenance and Repair Covenant . At all times prior to and during development of the Subject Parcel and construction of the Grantee Improvements, Grantee shall maintain the Subject Parcel, its surroundings, and all staging areas and lay-down yards, in a clean, sanitary, orderly and safe condition, free of weeds, debris and pests, and shall reasonably protect it against suffering deterioration or damage caused by erosion, general exposure to the environment or otherwise. If (a) any portion of the Subject Parcel contains or exhibits a condition requiring maintenance or repair so as to prevent damage to or deterioration of the Subject Parcel or real property located adjacent thereto or improvements constructed thereon, or to prevent general harm or damage (physical, reputational or otherwise) to the Project or to Declarant, or (b) City and all applicable Governmental Authorities shall have given notice of the existence of a condition on the Subject Parcel requiring responsive action, then Grantee shall, promptly on demand by Declarant, but in no event later than ten (10) days thereafter, commence to correct such condition or effect such repair and to diligently and continuously prosecute such correction or repair to completion.

(ii) Declarant Rights to Correct. If Grantee fails to commence to correct such condition or effect such repair within said 10-day period, or if Grantee timely commences but fails to diligently and continuously prosecute such correction or repair to completion, Declarant shall have the right (but not the obligation) to enter upon the Subject Parcel to take such actions as may be necessary to complete such correction or repair. Such

repair or correction shall be at Grantee's sole cost and expense. Any costs incurred by Declarant in performing any corrective work for which Grantee is responsible pursuant to this Section 2.1(g) shall be due and payable by Grantee within ten (10) Business Days of demand therefor by Declarant. This Section shall not be construed to create any duty or obligation on the part of Declarant to undertake inspections of the Subject Parcel. The performance of work by either Declarant or Grantee under this Section shall not be an admission of responsibility therefor by the performing party. The obligation of Grantee pursuant to this Section shall be binding on Grantee until such time as action against Declarant on account of any such condition shall be barred by the applicable statutes of limitations.

(iii) Obligation Cumulative. Grantee's obligations under this Section 2.1(f) are in addition to and not in limitation of Grantee's other obligations to Declarant to correct defects and conditions in the Grantee Improvements.

(g) Security Requirements; Prevention and Repair of Damage .

(i) Security Requirements. Declarant may, at its sole option, require Grantee to temporarily fence (including fence screening) or otherwise reasonably restrict access to any portion of the Subject Parcel, in order to deter members of the public from entering the Subject Parcel during construction, to reduce visual impact of the construction site on neighboring properties, and in order to prevent damage to improvements made by or for the benefit of Declarant or the City (including without limitation, any utility lines, equipment or vaults or any environmental monitoring wells). Grantee acknowledges that Declarant's security requirements are not intended to be exclusive, and that Grantee shall be responsible for implementing such additional security measures as it deems necessary in order to protect the Project and the Subject Parcel from theft, vandalism, casualty, destruction or liabilities.

(ii) Damage by Grantee. Any destruction or other damage or loss (including theft or vandalism) caused by Grantee or any of its agents, employees, licensees, invitees, or contractors to any improvements made by or on behalf of Declarant within the Subject Parcel or any other portion of the Project (or any off-site areas where Grantee was engaged in construction activities or where Grantee's construction vehicles or equipment were staged) must be repaired, and any such affected improvements restored to the condition existing prior to such theft, destruction or damage, by Grantee at its sole cost and expense. Grantee acknowledges that Declarant may be unable to determine with absolute certainty whether any such damage or loss was caused by Grantee, by another builder within the Project, or partially by Grantee and one or more such other builder, or the agents, employees, licensees, invitees, or contractors thereof and if so caused, to exactly allocate the costs between responsible parties. Therefore, in such event, Grantee shall further be responsible for the repair and restoration, at Grantee's sole expense, of any damage to improvements within the Subject Parcel or portions of the Project located adjacent thereto.

(iii) Failure to Repair. If any repair for which Grantee is responsible pursuant to the preceding subparagraph is not completed in a timely manner, Declarant shall have the right, but not the obligation, to complete such repair and to be reimbursed by Grantee in the amount set forth in subsection (iv) below. Without limiting the foregoing, in the event that Declarant is unable to determine whether any damage to a particular improvement was caused by

Grantee or another developer within the Project, Declarant shall have the right to perform repair and restoration of the damage to such improvements and to allocate, in good faith, the cost thereof among Grantee and all such other developers that might reasonably be responsible for such damage, in such shares as Declarant determines are appropriate (in light of the facts known to Declarant), which determination shall be conclusive.

(iv) Reimbursement. The cost of any repair and restoration of improvements made by Declarant which was the responsibility of Grantee or otherwise allocated, in whole or in part, to Grantee and other developers pursuant to subsections (ii) and (iii) above shall be reimbursed by Grantee in an amount equal to one hundred percent (100%) of the actual costs incurred by Declarant (or any Declarant Parties) in performing such repair and restoration, including without limitation reasonable attorneys' fees, together with interest from the date of expenditure at the rate of interest equal to the lesser of ten percent (10%) per annum, or the maximum rate of interest permitted by law, until such amount is paid in full. All such reimbursement payments shall be due and payable not later than ten (10) days after a written request therefor by Declarant. Declarant shall not be liable to Grantee for any misallocation of costs unless such allocation was made without any reasonable justification. Grantee may seek reimbursement from any other builder or developer (other than Declarant) of amounts paid to Declarant hereunder that Grantee reasonably establishes arose as a result of the fault of such other builder or developer, or for which they were partially responsible.

(h) Construction Vehicles and Haul Route Restriction. Declarant may directly manage construction site activities within the Project or may elect to designate, from time to time, a construction site manager to promote orderly development of the Project and to reduce the imposition of construction activity externalities on the Project or its neighbors. Either Declarant or its designated construction site manager shall have the authority to (i) establish procedures for the scheduling of significant hauling, concrete pours, and major construction site events occurring on the Subject Parcel that may impact adjacent Project sites, (ii) oversee Project site logistics (staging, deliveries, laydown yards, etc.) and designate haul routes and rules and regulations for construction labor force parking areas within and adjacent to the Project site, (iii) require Grantee to designate a party available to receive and respond to calls and communications from residents, neighbors and businesses concerning the impacts and complaints related to development of the Subject Parcel, and (iv) coordinate construction issues affecting the Project site. Grantee agrees that it shall abide by any and all construction site management rules and regulations ("***Project Site Rules***") promulgated by Declarant so long as such Project Site Rules do not expressly contradict or unreasonably interfere with Grantee's rights to develop the Subject Parcel for the Permitted Uses. Grantee agrees that violations of the Project Site Rules that are not promptly cured by Grantee within a reasonable time under the circumstances or that are repeated or reoccur may be enforced and enjoined by Declarant through exercise of equitable rights and remedies

2.2 Grantee Improvements Requirements. Grantee is hereby bound by the following covenants and agreements through the Expiration Date (unless otherwise specified herein) with respect to its construction of the Grantee Improvements on the Subject Parcel. The violation of any of the following requirements (after the expiration of applicable notice and cure periods) shall constitute a default hereunder and a breach of the Restrictions, which shall entitle Declarant to exercise any of the rights and remedies set forth below.

(a) Development. Grantee shall cause the Subject Parcel to be developed only with the Grantee Improvements in full accordance with all of the provisions of the Restrictions. No portion of the Subject Parcel, or any improvements thereon, or any portion thereof, shall be developed, used or maintained with any facilities or improvements whatsoever except as set forth above and in **Exhibit C**, which Restriction shall continue through the Expiration Date, subject to the exercise of rights of or waiver by Declarant as set forth in subsection (b), hereinbelow. All construction and structures shall be, at all times, completed in compliance with all requirements of law, these Restrictions and any other recorded covenants, conditions, rights, restrictions and limitations existing from time to time covering the Subject Parcel, including without limitation all architectural approval requirements and use restrictions contained in such documents.

(b) Governmental Approvals. Grantee shall obtain and comply with, at its sole expense, all approvals and permits which may from time to time be required by Governmental Authorities with respect to Grantee's performance contemplated under this SLUR Declaration including, as applicable and without limitation, all approvals required for construction plans and construction of the Grantee Improvements on the Subject Parcel, plot plan approval, building permits and the like (collectively, "***Governmental Approvals***"). Grantee shall be solely responsible for satisfying and complying with all conditions to such Governmental Approvals and satisfying and complying with all Development Conditions except to the extent that the same is expressly made the sole responsibility of Declarant under this SLUR Declaration. Grantee acknowledges that Declarant has completed all curb, gutter and sidewalk improvements, as wells as utility installations, adjacent to or serving the Subject Parcel, and that Declarant shall have no duty or responsibility to relocate, modify or re-install any existing horizontal improvements, utility facilities or other infrastructure in connection with Grantee's proposed improvement of the Subject Parcel.

(i) Declarant Review of Proposed Project Site Plan. On or before the date that is six (6) months following the recordation of this SLUR Declaration in the Official Records of the Riverside County Recorder, Grantee will prepare and deliver to Declarant for its review and approval the proposed project site plan, which will identify the proposed Grantee Improvements to the Subject Parcel, as well as all curb cuts and driveway entry points (the "***Proposed Project Site Plan***"). The Proposed Project Site Plan materials shall include the items described in **Exhibit D**, attached hereto. The Proposed Project Site Plan shall be subject to review and approval by Declarant. Declarant's approval shall not be unreasonably withheld, conditioned or delayed. By its review of any proposed plans and specifications for Grantee Improvements, Declarant makes no representation that the plan or plans, if approved, will satisfy the requirements of the Development Conditions and applicable approvals of relevant Governmental Authorities, and Declarant assumes no liability or responsibility thereof for any defect including, but not limited to, any defect in grading, improvements, construction, or other activities undertaken by or on behalf of Grantee pursuant thereto. Unless expressly waived by

Declarant in writing, Grantee agrees that it shall not submit the Proposed Project Site Plan (or any requests or applications related thereto) for approval by a Governmental Authority without the request or application therefor having first been submitted to and approved by Declarant in accordance herewith. Declarant may withhold its approval of the Proposed Project Site Plan only to the extent Declarant reasonably determines that:

(A) The Proposed Project Site Plan could potentially cause Declarant's Project to be in violation of any of the Development Conditions or negatively impact Declarant's ability to satisfy any Conditions of Approval;

(B) The Proposed Project Site Plan may result in the imposition upon Declarant (or any other real property in the Project Site) of additional development costs, an obligation of Declarant to construct additional or alternative infrastructure improvements, the need for Declarant to satisfy new or revised conditions of approval or implement additional or alternative mitigations;

(C) The Proposed Project Site Plan cannot be fully implemented and developed without re-opening the Development Conditions applicable to any portion of the Project Site other than the Subject Parcel to administrative or judicial appeal or challenge; or

(D) The Proposed Project Site Plan could require Declarant to perform (or agree to perform) any action or satisfy any condition proposed by Grantee or any Governmental Authority that would bind, encumber or materially adversely affect (as reasonably determined by Declarant) the current or prospective use or value of any real property in the Project Site other than the Subject Parcel.

(ii) Declarant Review of Proposed Elevation Designs. At such time as Grantee (or any utility proposing to construct improvements on the Subject Parcel) causes exterior elevation design illustrations (the "***Exterior Elevation Designs***") to be prepared, but in any event prior to Grantee seeking approval of design or construction drawings from any Governmental Authority, Grantee will deliver such Exterior Elevation Designs to Declarant for its review and approval. Where practicable, the Exterior Elevation Designs package shall include the details and elements described in **Exhibit D**, attached hereto. The Exterior Elevation Designs shall be subject to review and approval by Declarant for the purposes of confirming aesthetic appearances and proposed landscaping and other screening of utility installations, for which Declarant's approval shall not be unreasonably withheld, conditioned or delayed. By its approval of Grantee's plans, Declarant makes no representation that such plans satisfy the requirements of the Development Conditions and requirements of relevant Governmental Authorities, and Declarant assumes no liability or responsibility related thereto. Unless expressly waived by Declarant in writing, Grantee shall not submit any plans containing exterior elevation drawings (or any requests or applications related thereto) for approvals from Governmental Authorities without first obtaining Declarant's approval thereof in accordance herewith.

(iii) Declarant Standard of Review of Grantee Alternative Proposals. Without limiting the Restrictions in subsection (i) above, Grantee shall not develop on the

Subject Parcel any improvements that materially vary from the Proposed Project Site Plan without Declarant's consent, which may be withheld, conditioned or delayed in Declarant's good faith and reasonable discretion. If Grantee seeks to develop improvements that vary from the approved Proposed Project Site Plan and Exterior Elevation Designs ("***Grantee Alternative Proposal***"), then Grantee shall first submit Grantee's request or application to Declarant for its review and approval in accordance herewith. Submittals with respect to any Grantee Alternative Proposal shall include a certification from Grantee that none of the detriments described in clauses (A) – (D) of subsection (i) will occur as a result of development or construction of the Grantee Alternative Proposal.

With respect to each request for approval under (i), (ii) and (iii), above, Declarant shall have ten (10) days after Grantee delivers the applicable materials to Declarant to respond with any approval or disapproval, as the case may be, and Declarant's failure to respond within such 10-day period shall constitute a waiver and deemed approval of such request for approval. Any disapproval by Declarant of Grantee's Proposed Project Site Plan, Exterior Elevation Designs, or any Grantee Alternative Proposal shall specify, with reasonable detail, the reasons for such disapproval and the revisions, which if made, would result in Declarant's approval thereof. Following Declarant's approval (or deemed approval) of a Proposed Project Site Plan, Exterior Elevation Designs, or any Grantee Alternative Proposal, as the case may be, any material modification thereto shall require the resubmittal thereof to Declarant for its further approval pursuant to the procedures and standards of Declarant's review set forth in subparagraphs (i), (ii) and (iii), above.

(c) Off-Street Parking . Grantee shall design, develop and construct sufficient off-street parking necessary to satisfy all requirements of the Development Conditions, as well as the reasonably anticipated parking space requirements necessary to satisfy parking demands for use and operation of the Grantee Improvements without use of on-street parking.

(d) Development Impact Fees. Grantee shall be solely responsible for payment of all development impact fees that become due and owing with respect to development of the Subject Parcel and Grantee's Improvements thereon.

(e) Construction Requirements. Grantee shall use commercially reasonable efforts to conduct all construction activities on the Subject Parcel or, if applicable, elsewhere within the Project, in a manner so as to minimize interference with any construction activities being conducted by Declarant or any other developer within the Project. Grantee's construction activities shall comply with applicable provisions of the Development Conditions, including that any noise-producing construction activities (e.g., pile driving) shall at all times comply with all applicable noise ordinances of the City, and Applicable Law. Grantee shall be solely responsible for payment of all assessments and connection charges relating to the connection of utilities to the Subject Parcel. Grantee shall further cause all necessary easements or rights of way for access and for public utility services serving or located within the Subject Parcel to be conveyed to the City, the applicable utility provider or other applicable Governmental Authority.

(f) Site Maintenance Prior to Improvements. If any portion of the Subject Parcel on which no structural improvements have been constructed contain or exhibit conditions requiring repair so as to prevent damage to or deterioration, by erosion or otherwise, of the

parcels or streets and other infrastructures adjacent to the Subject Parcel or improvements constructed thereon, Grantee shall, promptly on demand by Declarant but in no event later than ten (10) Business Days thereafter, commence to correct such condition or effect such repair and to diligently and continuously prosecute such correction or repair to completion (commencing to cure shall include applying for and diligently pursuing any approvals required by law to meet the obligations set forth herein).

(g) Utilities. Grantee shall be fully responsible for the payment of, and Grantee covenants that Grantee shall pay when due, all hook-up, connection and usage fees for gas, electric, telephone, sewer, water, storm drain and all other utilities which are normally associated with the development and operation of improvements similar to the Grantee Improvements which Grantee and Declarant contemplate that Grantee will construct on the Subject Parcel.

(h) SWPPP. Grantee agrees to abide by the Storm Water Pollution Prevention Program (the "***SWPPP***") for the Project and Declarant's inspection protocol for SWPPP-related matters (as such program and protocol may be amended or revised from time to time). Grantee shall be responsible for all erosion control measures and maintenance obligations, and any required best management practices (collectively, the "***Erosion Control Measures***") relating to the Subject Parcel and the development thereof, that are required by the provisions of the Development Conditions, all Applicable Laws or this SLUR Declaration. Each such Erosion Control Measure shall be undertaken and performed in accordance with the requirements of any existing SWPPP or other express erosion control plan that pertains to the Subject Parcel. Among other compliance measures, Grantee shall (i) submit any site-specific SWPPP that may be required to comply with the National Pollutant Discharge Elimination System (NPDES) permits governing construction or development activities on the Subject Parcel, and (ii) submit to the Regional Water Quality Control Board or the State Water Resources Control Board such notices, filings or applications as may be necessary to comply with Applicable Laws. Grantee shall reasonably cooperate with Declarant in the preparation of any period or incident reports, or responses to any notices of relevant Governmental Authorities, required with respect to the SWPPP, implementation of Erosion Control Measures, or any claims of violations of laws or regulations relating thereto. Declarant reserves the right (but not the obligation) to correct any deficiency or any condition causes, or could cause, non-compliance by Declarant with the SWPPP for the Project, which costs shall be at Grantee's cost if Grantee does not correct such deficiency or non-compliant condition within twenty-four (24) hours of being notified of such deficiency or non-compliant condition by Declarant. For any costs incurred by Declarant in performing any corrective work for which Grantee is responsible pursuant to this Section, Grantee agrees to pay to Declarant (or any Declarant Party performing such work) within thirty (30) days of written demand therefor, an amount equal to one hundred percent (100%) of all actual costs and expenses incurred by Declarant (or any Declarant Parties) in connection therewith, including without limitation reasonable attorneys' fees, together with interest from the date of expenditure at the rate of interest equal to the lesser of ten percent (10%) per annum, or the maximum rate of interest permitted by law, until such amount is paid in full. This Section shall not be construed to create any obligation on the part of Declarant to inspect any portion of the Subject Parcel for SWPPP compliance or for defects in Grantee's Erosion Control Measures.

ARTICLE III.
ENFORCEMENT OF RESTRICTIONS

The following shall govern the enforcement of the Restrictions contained in this SLUR Declaration.

3.1 General Purpose and Constructive Notice. The Restrictions shall run and pass with each and every portion of the Subject Parcel and be binding upon Grantee, and each of its successors and assigns, during any period during which Grantee (or each such successor or assign) owns the Subject Parcel. All references to "Declarant" in this Article III shall mean and refer to Declarant, and to its successors and assigns. Except as specifically set forth herein, the Restrictions shall remain in full force and effect (until the stated date or expiry hereunder, if any, as applicable), notwithstanding Declarant's exercise of any right or remedy herein due to a previous or repeated violation of any one or more of the previous Restrictions. Every person or entity who now or hereafter owns or acquires any right, title or interest in or to any portion of the Subject Parcel is and shall be conclusively deemed to have consented and agreed to every Restriction, provision, covenant, condition, right and limitation contained herein, whether or not any reference to this SLUR Declaration is contained in the instrument by which such person acquired an interest in the Subject Parcel. Notwithstanding anything to the contrary contained in this Section, from and after (a) any permitted re-subdivision of the Subject Parcel by Grantee hereunder, and (b) the subsequent conveyance in fee of any individual parcel thereof to any third-party that is not a commonly-controlled affiliate of the fee owner of the remainder of the Subject Parcel, Declarant shall cooperate with Grantee and/or such third parties to enter into an amendment to this SLUR Declaration or new declarations to allocate the responsibilities of Grantee hereunder amongst the owners of such individual parcels; provided, however, that in no event shall such amendment to this SLUR Declaration affect the priority of this SLUR Declaration in any manner. Declarant may at its option as a condition to the execution of each such amendment or new declaration require the reimbursement by Grantee of Declarant's reasonable attorneys' fees in reviewing such materials and preparing such instruments.

3.2 Default and General Remedies. In the event of any breach, violation or failure to perform or satisfy any of the Restrictions which has not been cured within the applicable cure period set forth below, Declarant at its sole option and discretion may enforce any one or more of the following remedies or any other rights or remedies to which Declarant may be entitled by law or equity, whether or not set forth herein and Declarant and Grantee expressly agree that Declarant is entitled to such rights. Unless a cure period is otherwise specifically designated in this SLUR Declaration, such cure period shall commence when written notice is given to Grantee of a violation hereunder and shall end ten (10) Business Days thereafter in the case of a monetary default, and thirty (30) days thereafter in the case of a nonmonetary default; provided that if a nonmonetary default is not reasonably susceptible of cure within such 30-day period, then Grantee shall have a reasonable time to cure same so long as Grantee has promptly commenced such cure within the 30-day period and thereafter diligently prosecutes the cure to completion. To the maximum extent allowable by law, all remedies provided herein or by law or equity shall be cumulative and not exclusive.

(a) Equity. Declarant shall be entitled to bring an action in equity or otherwise for specific performance to enforce compliance with the Restrictions or an injunction

to enjoin the continuance of any such breach or violation thereof, whether or not Declarant exercises any other remedy set forth herein.

(b) Damages. Declarant may bring a suit for damages for any compensable breach of or noncompliance with any of the Restrictions.

(c) Declaratory Relief. Declarant may bring an action for declaratory relief to determine the enforceability of any of the Restrictions.

(d) Abatement. Any breach or violation of these Restrictions or any provision hereof if not timely cured as provided above is hereby declared to be a nuisance.

ARTICLE IV.
INDEMNITY OBLIGATIONS

4.1 Comprehensive Indemnity of Declarant. Grantee and Declarant have agreed and intend that Declarant and each and all of the Declarant Parties shall not be liable for any loss, liability, cost, expense (including attorneys' fees), damage, injury or claim (collectively, "***Claims***") of any kind or character to any person or property brought by any private party or Governmental Authority arising from or caused by (a) Grantee's acquisition of the Subject Parcel, activities within the Subject Parcel and/or the development thereof, or (b) the failure or refusal of Grantee to comply with the Development Conditions or Applicable Laws in connection with the development of the Subject Parcel and the Grantee Improvements thereon (collectively, the "***Indemnified Matters***"). Grantee, to the fullest extent permitted by law, agrees to indemnify, defend and hold harmless Declarant and the Declarant Parties, and their property, and each of their respective shareholders, members, partners, principals, employees, agents and representatives, from all Claims arising from or relating to any such Indemnified Matter whether asserted or made by Grantee or any other person(s) or entities. The foregoing Indemnified Matters shall include, without limitation, any Claim arising from or relating to or caused by or alleged to arise from or be relating to or caused by any of the following, to the extent they pertain to an Indemnified Matter: (a) any use by Grantee or by any third party (other than a Declarant Party) of the Subject Parcel or any part thereof conducted with the express, written permission of Grantee, (b) any entry by Grantee (in its capacity as Grantee, or anyone active for or on its behalf) upon or use of real property owned by Declarant in connection with Grantee's acquisition, development or use of the Subject Parcel, (c) any defect in the design, construction of, or material in, any structure or other improvement upon the Benefited Property constructed by or on behalf of Grantee, (d) any negligent or intentional act or omission of Grantee or any of its agents, employees, licensees, invitees or contractors in connection with Grantee's acquisition, development or use of the Subject Parcel, (e) any accident or casualty on the Subject Parcel to the extent occurring in connection with the activities of Grantee or its employees, agents or contractors thereon, (f) any misrepresentations, omissions or failures to disclose by Grantee or any of its employees, agents or representatives in connection with Grantee's acquisition, development or use of the Subject Parcel, (g) any release of Hazardous Substances or violation of any Hazardous Substances Laws or regulations, including the costs of clean-up, removal and disposal, resulting from Grantee's failure to perform or observe any of its duties and covenants

under Section 2.1(c) of this SLUR Declaration, (h) a violation or alleged violation by Grantee or any of its employees, agents or representatives of any law now or hereafter enacted in connection with Grantee's acquisition, development or use of the Subject Parcel, or (h) any subsurface geologic or groundwater condition with respect to the Subject Parcel or property located in the vicinity thereof.

4.2 Release and Waiver. As a material part of the consideration for Declarant's agreement to convey the Subject Parcel to Grantee, Grantee, for itself and each of its present and future officials, officers, employees, agents, successors and assigns hereby waives all claims and demands against any Declarant Party for any such loss, damage, or injury of Grantee arising from, relating to, based upon, or in any way connected with any of the Indemnified Matters; provided, however, that the release and indemnity obligation under this Section 4.2 shall not apply with respect to any fraud, willful misconduct, or gross negligence by Declarant or any Declarant Party.

Grantee, as to the foregoing release, expressly waives the provisions of Civil Code Section 1542, which provides as follows:

> "A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party."

Grantee hereby specifically waives any and all rights and benefits under said section as they relate to the matters released in this Section 4.2.

INITIALS: GRANTEE: _____ _____

4.3 Limitation. Notwithstanding anything to the contrary above, nothing contained in Article IV shall operate to relieve the responsible Declarant Party from liability for any Claim arising from the gross negligence or willful misconduct of such Declarant Party, nor shall Grantee be required to indemnify the responsible Declarant Party as to Claims arising from the gross negligence or willful misconduct of such Declarant Party or its agents, servants or independent contractors who are responsible to that Declarant Party.

4.4 Survival of Covenants. Grantee's covenants and releases set forth in Sections 4.1 and 4.2, above, shall survive the conveyance by Grantee of all or any portion of the Subject Parcel, or development and construction of the Grantee Improvements thereon, and shall be binding on Grantee until such time as any Claim or action against Declarant relating to construction of the Grantee Improvements and development of the Project shall be barred by the applicable statutes of limitations.

4.5 Development Agreement. The provisions of this Article IV and the obligations of Grantee hereunder do not supersede, limit or modify in any way Developer's indemnification obligations to the City contained in the Development Agreement, including but not limited to Sections 1.4 and 7 thereof.

ARTICLE V.
MISCELLANEOUS PROVISIONS

5.1 Waiver. No waiver by Declarant of a breach of any of the Restrictions by Grantee and no delay or failure to enforce any of the Restrictions shall be construed or held to be a waiver of any succeeding or preceding breach of the same or any other provision of the Restrictions. No waiver of any breach or default of Grantee hereunder shall be implied from any omission by Declarant to take any action on account of such breach or default if such breach or default persists or is repeated, and no express waiver shall be effective unless in writing nor shall it affect a breach or default other than as specified in said written waiver. The consent or approval by Declarant to or of any act by Grantee requiring Declarant's consent or approval shall not be deemed to waive or render unnecessary Declarant's consent or approval to or of any subsequent similar acts by Grantee.

5.2 Advances by Declarant. If Grantee fails to pay any sums required to be paid by Grantee hereunder within ten (10) Business Days following written notice from Declarant, Declarant shall be entitled to advance any sums Declarant in its sole and absolute discretion deems necessary to protect and preserve the security for its rights and interest under this SLUR Declaration (including but not limited to sums for any property taxes or assessments, insurance premiums, or amounts secured or represented by encumbrances or liens or other charges on any portion of the Subject Parcel which appear to be prior to Declarant's rights and interest under this SLUR Declaration), all of which advances (together with interest equal to the lesser of ten percent (10%) per annum or the maximum rate of interest permitted by law) shall be reimbursed by Grantee to Declarant within ten (10) Business Days after demand from Declarant.

5.3 Legal Costs. In the event any action (including any arbitration pursuant to Section 5.17 below) is instituted by a party to enforce this SLUR Declaration or any documents executed pursuant hereto, the prevailing party in such action (as determined by the court, arbitrator, agency or other authority before which such suit or proceeding is commenced) shall be entitled to such reasonable attorneys' fees, arbitrator's fees, costs and expenses as may be fixed by the decision maker. The foregoing includes, but is not limited to, reasonable attorneys' fees, fees incurred by the arbitrator pursuant to an arbitration under Section 5.17 and related arbitration costs and expenses, and costs of investigation incurred in (a) appellate proceedings; (b) any post-judgment proceedings to collect or enforce the judgment; (c) establishing the right to indemnification; and (d) any action or participation in, or in connection with, any case or proceeding under Chapter 7, 11 or 13 of the Bankruptcy Code (11 United States Code Sections 101 et seq.), or any successor statutes.

5.4 Rights of Lenders. No breach or violation of the Restrictions shall defeat or render invalid the lien of any mortgage, deed of trust or similar instrument securing a loan made in good faith and for value with respect to the development or permanent financing of the Subject Parcel or any portion thereof. However, this SLUR Declaration and all provisions hereof shall be binding upon and effective against any subsequent owner or other occupant of the Subject Parcel or portion thereof whose title is acquired by foreclosure, trustee's sale, deed in lieu of foreclosure or otherwise, but such subsequent owner shall have a reasonable period of time after taking title to cure any continuing violation hereunder that is susceptible of being cured provided that such subsequent owner continuously and diligently acts to effect such cure.

5.5 Assignment by Declarant. Any and all of the rights, powers, duties and reservations of Declarant herein contained may be assigned to any person or entity (including without limitation, any homeowners' or owners' association formed in connection with the Project, or any portion thereof) which will assume the duties (if any) of Declarant pertaining to the particular rights, powers and reservations assigned, and upon any such person or entity evidencing its consent in writing to accept such assignment and assume such duties, s/he or it shall, to the extent of such assignment, have the same rights and powers and be subject to the same obligations and duties as are given to and assumed by Declarant herein.

5.6 Termination or Amendment. The Restrictions may be validly terminated, amended, modified or extended, in whole or in part, only by recordation by the Riverside County Recorder of a proper instrument duly executed and acknowledged by Declarant and Grantee to that effect.

5.7 Captions. The captions used herein are for convenience only and are not a part of this SLUR Declaration and do not in any way limit or amplify the scope or intent of the terms and provisions hereof.

5.8 Invalidity of Provision. If any provision of this SLUR Declaration as applied to Declarant or Grantee or to any circumstance shall be adjudged by a court of competent jurisdiction to be void, invalid, illegal or unenforceable for any reason, the same shall in no way affect (to the maximum extent permissible by law) any other provision of this SLUR Declaration, the application of any such provision under circumstances different from those adjudicated by the court, or the validity or enforceability of this SLUR Declaration as a whole.

5.9 Notices. Any notice or other communication required or permitted to be given under this SLUR Declaration shall be in writing and shall be delivered (i) by personal delivery, (ii) by Federal Express or another nationally reputable overnight courier service, or (iii) via email by attachment of a writing in portable document format (.pdf), provided that the party delivering such notice by e-mail receives an electronic return receipt with respect thereto, addressed as follows:

5.10 Application to Declarant. Notwithstanding anything herein contained to the contrary, if Declarant reacquires title to the Subject Parcel or any portion thereof at any time after the date hereof, the Restrictions shall automatically cease and terminate and be of no further force or effect as to Declarant and such acquired property (but shall remain in effect as to any portion of the Subject Parcel not so reacquired), effective as of the date of such reacquisition by Declarant.

5.11 Time of Essence. Time is of the essence of each provision of this SLUR Declaration in which time is an element.

5.12 Other Restrictions. This SLUR Declaration is not the exclusive source of restrictions on the use of the Subject Parcel, and nothing herein contained shall prejudice or diminish in any way Declarant's rights under any other documents of record from time to time affecting all or any portion of the Subject Parcel.

5.13 Covenants Run with the Land. The Subject Parcel shall be held, developed, conveyed, hypothecated, encumbered, leased, rented, used and occupied subject to the covenants, conditions, restrictions and other limitations set forth in this SLUR Declaration. The Restrictions are for the benefit of the Benefited Property and are intended and shall be construed as covenants and conditions running with and binding on the Subject Parcel and equitable servitudes upon the Subject Parcel and every part thereof. Furthermore, all and each of the Restrictions shall be binding upon and burden all persons having or acquiring any right, title or interest in the Subject Parcel, or any part thereof, and their successors and assigns, and shall inure to the benefit of the Benefited Property and the owners of the Benefited Property, their successors and assigns, and shall be enforceable by Declarant and its successors and assigns, all upon the terms, provisions and conditions set forth herein.

5.14 Counterparts. This SLUR Declaration may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute but one and the same instrument.

5.15 Incorporation of Exhibits. All Exhibits and Schedules attached and referred to in this SLUR Declaration are hereby incorporated herein as though fully set forth herein (and shall be deemed to be a part of this SLUR Declaration).

5.16 Dispute Resolution; Arbitration. Any controversy, dispute or claim among or between the parties arising out of or relating to this SLUR Declaration shall be resolved solely and exclusively as provided in this Section 5.16:

(a) Informal Resolution. The party initiating the dispute resolution procedure shall submit to the adverse party a written demand that invokes this provision and identifies the nature of the dispute and all requested relief. The adverse party shall respond to the written demand within five (5) Business Days. If no written resolution is achieved ten (10) days after the demand is submitted (or any later date agreed to by the parties in writing), then the provisions of Section 5.16(b) shall govern.

(b) Formal Resolution.

(i) Any controversy, dispute or claim that has not been resolved pursuant to Section 5.16(a) shall be finally resolved by arbitration. The arbitration shall be governed by this SLUR Declaration and, to the extent that they do not conflict with this SLUR Declaration, Sections 1280 through 1294.2 of the California Code of Civil Procedure (or any amendments or successor statutes).

(ii) The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures, according to which an arbitrator with experience resolving disputes arising from complex real estate transactions shall be appointed to conduct the proceeding. Once the arbitrator has been identified, the party initiating the dispute resolution procedure shall provide both the written demand and any response to the arbitrator.

(iii) Each party shall have the right to conduct discovery, including expert and third-party discovery. Limitations on discovery shall be determined by the arbitrator. No party shall be entitled to "priority" in conducting discovery. Depositions may be taken by

either party upon seven (7) days' written notice. Written discovery requests shall be responded to within ten (10) days after service. Discovery disputes that cannot be resolved by the parties shall be submitted to the arbitrator whose decision on such matters shall be final and binding. All non-expert discovery must be completed no less than twenty (20) days before the first hearing date for the arbitration proceeding. Expert discovery must be completed no less than ten (10) days before the first hearing date of the arbitration proceeding. For good cause, however, the arbitrator may extend the period for discovery or allow additional discovery.

(iv) The parties shall have the right to bring and the arbitrator shall rule on dispositive motions including, but not limited to, demurrers, motions to dismiss, and motions for summary judgment or adjudication. Section 437c of the California Code of Civil Procedure shall govern summary judgment or summary adjudication motions, except for notice periods or briefing schedules, which shall be determined by agreement or by the arbitrator. Hearings on such motions must be held no less than ten (10) days before the first hearing date for the arbitration proceeding. If the parties are unable to agree upon a briefing schedule for such motions, the arbitrator shall set the briefing schedule.

(v) The arbitration shall be held within ninety (90) days after the date the written demand was first sent. Except as expressly set forth in this clause, the arbitrator shall determine the manner in which the arbitration is conducted including the time and place (within the County of Riverside, California) of all hearings, the order of presentation of evidence, and all other questions that arise with respect to the course of arbitration. The arbitrator shall determine all issues in accordance with applicable decisional law. The presentation and admission of evidence shall be governed by the rules governing the presentation and admission of evidence in Riverside County Superior Court, including but not limited to the provisions of the California Evidence Code. All proceedings and hearings conducted before the arbitrator shall be transcribed by a court reporter unless both parties agree that no reporter is necessary. The costs of the court reporter shall be borne equally by the parties, but may be awarded as costs to the prevailing party.

(vi) The arbitrator shall be empowered to enter equitable as well as legal relief, to provide temporary and/or provisional relief and to enter equitable orders that will be binding upon the parties; provided that, the arbitrator shall not have the authority to grant any remedy or relief that is expressly prohibited by, or that exceeds any limitations on remedies set forth in, this SLUR Declaration. If the arbitrator determines that a remedy available to a party pursuant to this SLUR Declaration and sought by a party exceeds the arbitrator's authority, then the party denied such a remedy may initiate an action in the appropriate Federal or California court in the County of Riverside, California seeking exclusively such a remedy or remedies. This clause (vi) shall not be construed to provide any remedy to any party that is prohibited by this SLUR Declaration.

(vii) The arbitrator shall issue a single reasoned award at the close of the arbitration consistent with California Code of Civil Procedure § 1283.4. The arbitrator shall issue the final award within fifteen (15) days after the conclusion of the arbitration proceeding.

C. Recognizing that Assignee, upon acquiring the Property, will constitute the Developer with respect to the Property and will also be the City under the Development Agreement, the parties believe that the Property may no longer be bound by the Development Agreement due to the common identity of obligor and obligee. D. This Partial Assignment shall be effective as of the later of (i) the date that the grant deed conveying the Property to Assignee is recorded in the Official Records and (ii) the date that this Partial Assignment is recorded in the Official Records (the "***Effective Date***").

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor and Assignee agree as follows:

1. Assignment of Rights. Assignor hereby sells, transfers, assigns, conveys and delivers to Assignee all of Assignor's rights, title, interests, and obligations to, in and under the Development Agreement arising from and after the Effective Date solely with respect to the Property. This Partial Assignment is only intended to assign those rights and obligations of Assignor under the Development Agreement which concern the Property and does not assign any rights or obligations under the Development Agreement with regard to any of the other land described in the Development Agreement.

2. Assumption of Responsibilities. Assignee does hereby assume all of Assignor's rights, title and interests to, in and under the Development Agreement as well as all responsibilities, liabilities and obligations under the Development Agreement, in each case solely to the extent arising from and after the Effective Date and solely to the extent relating to the Property. Assignee shall not be responsible for any default by Assignor under the Development Agreement prior to the Effective Date.

3. Successors and Assigns. This Partial Assignment shall be binding upon and inure to the benefit of the heirs, successors, executors, administrators, and assigns of all the parties.

4. Effectivity and Amendments. No provision of this Partial Assignment may be amended or added to except by an agreement in writing signed by the parties hereto or their respective successors-in-interest. This Partial Assignment shall be effective upon the Effective Date.

5. Severability. Any provision of this Partial Assignment which shall prove to be invalid, void, or illegal shall in no way affect, impair, or invalidate any other provision hereof and such other provisions shall remain in full force and effect.

6. Partial Release. Assignor agrees that Assignee shall use reasonable efforts to promptly seek to cause the Property to be released from the land bound by the Development Agreement.

7. Attorneys' Fees. In the event of any action or proceeding brought by either party against the other under this Partial Assignment, the prevailing party shall be entitled to recover all costs and expenses including the actual fees of its attorneys incurred for prosecution, defense, consultation, or advice in such action or proceeding.

RECITALS

A. Company is the master developer of certain real property located in the City of Eastvale, County of Riverside (the "***County***"), State of California. Declarant is developing the site with a master-planned community (the "***Master Project***")

B. Concurrently herewith, Company is conveying to City that certain real property in the Master Project more particularly described on Exhibit "A" attached hereto and incorporated herein by this reference (the ***"Parcel"***) which will be made subject to a Declaration of Special Land-Use Restrictions (the ***"SLUR Declaration"***) recorded concurrently herewith in the Official Records of the County.

C. As a material consideration inducing Company to enter into that certain Agreement for Purchase and Sale of Real Property and Preliminary Escrow Instructions dated December ___, 2025 (the "***Purchase Agreement***") and to convey the Parcel to City, City represented and covenanted to Company that (1) City would improve the Parcel with a parking facility and localized electrical network (microgrid) or other Permitted Uses as defined in the SLUR Declaration and as approved by Company pursuant to the SLUR Declaration (collectively, the ***"Anticipated Improvements"***), and (2) City would not resell the Parcel, or any portion thereof, prior to Substantial Completion of such Anticipated Improvements. Initially

capitalized terms used herein and not otherwise defined shall have the meanings ascribed to said terms in the Purchase Agreement or in the SLUR Declaration.

D. For purposes of this Instrument, the term ***"Substantial Completion"*** of the Anticipated Improvements shall be deemed to have occurred when City shall have obtained a valid final inspection and authorization for occupancy of the Anticipated Improvements.

E. City acknowledges that it has agreed with Company, and that Company is relying on City's covenant, to refrain from selling or otherwise conveying fee title to the Parcel, or any portion thereof, until Substantial Completion of the Anticipated Improvements shall have occurred.

A G R E E M E N T

NOW, THEREFORE, for valuable consideration, the receipt of which is hereby acknowledged, including, without limitation, the conveyance to City of the Parcel, City agrees that the Parcel being conveyed to City concurrently herewith shall be subject to the covenants, conditions and restrictions contained in this Instrument, and the rights and option granted to Company herein.

Section 1. Grant of Option. City hereby grants to Company an exclusive option (the ***"Repurchase Option"***) to repurchase the Parcel, and each part thereof, except for those portions of the Parcel on which any portion of the Anticipated Improvements have been Substantially Completed. If the Repurchase Option is exercised, the repurchase transaction shall be on the terms and conditions set forth herein, and fee title to the Parcel (excepting only that portion thereof described hereinabove) shall be delivered to Company (or its nominee) subject only to the following: (i) then-current taxes and assessments; (ii) matters affecting title existing at the time the Repurchase Option is granted; (iii) matters affecting title that are created, made, consented to in writing or requested in writing by Company, its successors or assigns; (iv) matters shown as printed exceptions in the standard form American Land Title Association owner's policy of title insurance; and (v) easements for public utilities used in connection with any improvements constructed on the Parcel. For purposes of this Instrument, a "Permitted Transfer" shall mean (a) any lease made for financing purposes so long as the City continues to have the right to use and occupy the Parcel and/or cause the construction of the Anticipated Improvements on the Parcel, and (b) any and all transfers, conveyances and sales of the Parcel following Substantial Completion of the Anticipated Improvements.

Section 2. Conditions to Exercise. The Repurchase Option shall become exercisable only if, at any time, City sells or conveys, or otherwise assigns or transfers, its title or beneficial interest in all or any portion of the Parcel prior to Substantial Completion thereon of the Anticipated Improvements. Any party acquiring all or any portion of the Parcel from the City in a transfer that is not a Permitted Transfer (a "***Bound Transferee***") shall be bound by, and their interest shall be encumbered by the rights and option of Company under this Instrument and the SLUR Declaration. Notwithstanding anything to the contrary set forth herein, the Repurchase Option shall not be or become exercisable during any period that all or any portion of the Parcel is owned by the City, but may be exercised against the interest of each and any owner thereafter

(including without limitation, the purchaser of the Parcel from the City) subject to the terms hereof and the rights of the Company described herein.

Section 3. **Term; Release**. The option, terms, covenants, conditions and restrictions set forth herein (a) are declared to be for the benefit of the property described on Exhibit B, attached hereto, for as long as Company continues to own any portion thereof (the "***Company Land***"), (b) shall be binding upon all parties having or acquiring any right or title in the Parcel (or any part thereof) from the City and are imposed upon the Parcel and every part thereof as a servitude in favor of the Company Land and every portion thereof as the dominant tenement or tenements, and (c) shall automatically terminate upon the date on which Substantial Completion has occurred for all Anticipated Improvements or the Expiration Date under the SLUR Declaration, whichever is first to occur. Within ten (10) days of a written request from City, Company shall execute and deliver to City a quitclaim deed relinquishing all rights under this Instrument on or after the Substantial Completion of the Anticipated Improvements shall have occurred, on or after such date as Company no longer owns any portion of the Company Land, or on or after the Expiration Date under the SLUR Declaration so long as, prior thereto, the Parcel has not been sold or conveyed by City and City has not assigned or transferred its interest therein (other than in accordance with a Permitted Transfer) to any third party.

Section 4. **Repurchase Price**. If Company elects to exercise the Repurchase Option, Company shall give written notice of said exercise to the Bound Transferee on or before the date (the ***"Option Exercise Due Date"***) that is ninety (90) days following delivery of written notice from City or such Bound Transferee notifying Company that a conveyance has occurred with respect to the Parcel that was not a Permitted Transfer; provided that the Repurchase Option conditions shall be deemed satisfied, and the Repurchase Option shall be exercisable, in accordance with Section 2 whether or not City or its Bound Transferee delivers such notice to Company if Company independently learns of a non-Permitted Transfer. Regardless of the purchase price or other consideration paid by the Bound Transferee or received by City, the purchase price (the ***"Repurchase Price"***) payable upon exercise of the Repurchase Option shall be the lesser of (X) the final and binding Fair Market Value as determined in accordance with Section 4.3 below for the interest conveyed by City, or (Y) the Purchase Price for which City purchased the Parcel from Company, decreased by Company's original "costs of sale" (which shall mean costs of escrow, sales commissions, title insurance premiums, attorneys' fees and documentary transfer taxes). If less than all of the Parcel was transferred by City to the Bound Transferee, then the Repurchase Price amount calculated in accordance with clause (Y) shall be reduced to a fraction, the numerator of which is the land area of the transferred portion of the Parcel transferred to the Bound Transferee and the denominator shall be the total land area of the Parcel. In the event that the Parcel is encumbered by a mortgage, deed of trust, mechanics' liens, or other liens or monetary encumbrance, Company shall be credited at closing with the unpaid and outstanding amounts thereof that are senior liens and encumbrances to the Repurchase Option and any liens or encumbrances recorded following the recordation of this Instrument shall be invalidated and of no further force or effect. Each of the City and the Bound Transferee shall be obligated to remove all personal property, incomplete improvements, debris and materials from the Parcel upon the closing of the repurchase transaction.

Section 4.1. Non-Compliant Improvements. To the extent that the Anticipated Improvements are not constructed substantially in accordance with the Company-

approved Proposed Project Site Plan and Exterior Elevation Designs, the Anticipated Improvements shall be not be deemed to have achieved Substantial Completion and the Repurchase Option shall remain, and shall become exercisable upon any transfer that is not a Permitted Transfer.

Section 4.2. Fair Market Value. The term "***Fair Market Value***" shall mean the value of the Parcel together with any improvements thereto in their "AS IS" condition, subject to the restrictions and covenants imposed by the SLUR Declaration, as mutually determined in good faith by the parties hereto; or, if the parties are unable to mutually agree, then as determined by the appraisal procedure set forth below.

Section 4.3. Appraisal Procedure. If Company and the subject Bound Transferee fail to agree to the Fair Market Value within ten (10) business days after the date on which Company exercises the Repurchase Option, then the following procedures shall apply:

a. **Company Appraisal**. Within thirty (30) days following Company's exercise of the Repurchase Option, Company, at its cost, shall deliver to Bound Transferee a written appraisal of the Parcel prepared by an independent qualified appraiser (the "***Company Appraisal***"), determining the fair market value of the Parcel in its "AS IS" condition and subject to all applicable development limitations and restrictions under the Development Documents and other encumbrances affecting the Parcel. The term "***independent qualified appraiser***" as used in this Instrument shall mean a professional independent appraiser with a minimum of ten (10) years' experience with reasonably comparable properties located in the County, and who is a Member of the American Institute of Real Estate Appraisers (R.M. or M.A.I.), the Society of Real Estate Appraisers (S.R.A., S.R.P.A., or S.R.E.A.), the American Society of Appraisers, or another recognized association of appraisers, or a similar association of real estate appraisers that has adopted rules and regulations governing the professional conduct and ethics of its members requiring independent appraisals without bias to any party or to any result.

b. **Bound Transferee Appraisal**. If the Bound Transferee does not agree with the Company Appraisal, it shall notify Company in writing of such disagreement within ten (10) days after receipt of the Company Appraisal and, within thirty (30) days of such notice, the subject Bound Transferee, at its cost, shall deliver to Company a written appraisal of the applicable Fair Market Value with which Bound Transferee agrees, prepared by an independent qualified appraiser (the "***Bound Transferee Appraisal***"). If said Bound Transferee fails to deliver the Bound Transferee Appraisal within thirty (30) days or if the Bound Transferee Appraisal is equal to the Company Appraisal, then the Company Appraisal shall constitute the final and binding determination of the applicable Fair Market Value.

c. **Final Appraisal**. If the Bound Transferee Appraisal is delivered to Company within such 30-day period and indicates a market value that is greater than that indicated in the Company Appraisal, and if the Bound Transferee and Company cannot then agree as to the applicable Fair Market Value within ten (10) days after delivery of the Bound Transferee Appraisal to Company, then (i) if the disparity of the market values indicated in each of the appraisals is less than or equal to ten percent (10%), then the Repurchase Price shall be the average of the Company Appraisal and the Bound Transferee Appraisal, and (ii) if the disparity

of the market values indicated in each of the appraisals is greater than ten percent (10%), then Bound Transferee and Company shall, within ten (10) days thereafter, mutually agree on a third independent qualified appraiser acceptable to them to make an independent determination of the applicable Fair Market Value (the "***Final Appraisal***") within thirty (30) days of the selection of the third appraiser, which appraisal amount shall not be greater than the Bound Transferee Appraisal nor less than the Company Appraisal, whereupon the Fair Market Value determined by the Final Appraisal shall constitute the Repurchase Price.

d. **Terms of Procedure**. The procedure set forth above for determining the Fair Market Value shall be the exclusive procedure therefor and shall be final and binding on the parties hereto.

Section 5. AS-IS Condition. Company will acquire the relevant portion of the Parcel, if at all, "AS IS," in its present state and condition, without representations or warranties by City, Bound Transferee, or their representatives as to any matter, whether or not expressly mentioned herein. "AS IS" shall also be deemed to include any Anticipated Improvements described in this Instrument that have been completed prior to the closing. No patent or latent condition affecting the Parcel in any way, whether or not known or discoverable or hereafter discovered, shall affect Company's obligation to repurchase the applicable portion of the Parcel after its exercise of the Repurchase Option or its obligation to perform any other act otherwise contained in this Instrument, nor shall any such condition give rise to any right of damage or rescission against City or Bound Transferee.

Section 6. Escrow.

Section 6.1. Opening of Escrow. Concurrently with the exercise of the Repurchase Option, Company shall deliver a copy of the written notice of exercise of the Repurchase Option, together with a copy of this Instrument, to Fidelity National Title Insurance Company (***"Escrow Holder"***). Upon delivery of such documents to Escrow Holder, an escrow (***"Escrow"***) for the repurchase of the Parcel, or portion thereof, shall be deemed to be opened. Company and Bound Transferee agree to be bound by the standard General Escrow Provisions of Escrow Holder as in effect at such time and to execute and deliver to Escrow Holder the same. In the event of any discrepancy between this Instrument and such further instructions, the provisions of this Instrument shall prevail.

Section 6.2. Close of Escrow. The closing (the ***"Closing"***) for Company's repurchase of the Parcel, or portion thereof, shall take place through Escrow on that date which is not greater than ninety (90) days from the opening of Escrow, or such other date as the parties may mutually agree upon; provided however, that if the Fair Market Value is determined pursuant to the appraisal procedure set forth hereinabove, the Closing shall be extended until the date which is ten (10) business days following the final and binding determination of the Fair Market Value. The Closing shall be subject only to (a) Company's approval of the then-current preliminary title report which shall show title in the manner set forth in Section 1 above (provided, however, that Company may cause Escrow Holder to satisfy any indebtedness secured by any mortgage, deed of trust or other monetary encumbrance affecting the Parcel as more specifically set forth in Section 5.3 below) and (b) Escrow Holder's delivering to Company through Escrow an ALTA Extended Coverage Owner's Policy of Title Insurance (the ***"Title***

Policy") issued by a title company approved by Company in its sole and absolute discretion (the ***"Title Company"***), dated as of the Closing, insuring Company in an amount equal to the Repurchase Price (prior to subtracting any amounts due and payable, or outstanding, under a mortgage, deed of trust or other monetary encumbrance for the benefit of Company), and showing title vested in Company as set forth in Section 1 above. Upon receipt of the Grant Deed (as defined below), the other closing documents described below, and the Repurchase Price and provided Escrow Holder is then ready to deliver the Title Policy to Company and all other conditions contained herein have either been satisfied or waived, Escrow Holder shall cause the Grant Deed to be recorded and shall deliver the Repurchase Price (less appropriate charges) to Bound Transferee. The Repurchase Price shall be cash upon the close of escrow.

Section 6.3. Escrow and Title Fees. Company and Bound Transferee shall each pay one-half (1/2) of the Escrow fees. Bound Transferee shall bear the cost of (a) all documentary transfer taxes, (b) the premium for the Title Policy to be issued by Title Company insuring Company in the amount of the Repurchase Price (provided that Company shall be responsible for the costs of any extended coverage and/or endorsements requested or required by Company), and (c) the cost of recording the grant deed for the Parcel, or portion thereof, and the Improvements thereon (the ***"Grant Deed"***). The Grant Deed shall be in a form adequate for the Title Company to deliver the Title Policy. All real property taxes and assessments shall be prorated as of the close of escrow between Bound Transferee and Company (or Company's nominee) in the same manner as set forth above in the Purchase Agreement. All other costs or expenses not otherwise provided for in this Instrument shall be apportioned or allocated between Company and Bound Transferee in the manner customary in the County. If the Parcel is encumbered by a mortgage, deed of trust or other monetary encumbrance to which the Repurchase Option is subordinate, Company may instruct Escrow Holder to satisfy the indebtedness secured by such mortgage, deed of trust or other monetary encumbrance out of the Repurchase Price payable to Bound Transferee through Escrow.

Section 7. Successors and Assigns. This Instrument shall be binding upon and inure to the benefit of the respective successors in interest to the parties hereto.

Section 8. Waiver, Consent and Remedies. Either party may specifically and expressly waive in writing any portion of this Instrument or any breach hereof, but no such waiver shall constitute a further or continuing waiver of any preceding or succeeding breach of the same or any other provision. A waiving party may at any time thereafter require further compliance by the other party with any breach or provision so waived. The consent by one party to any act by the other for which such consent was required shall not be deemed to imply consent or waiver of the necessity of obtaining such consent for the same or any similar acts in the future. No waiver or consent shall be implied from silence or any failure of a party to act, except as otherwise specified in this Instrument. All rights, remedies, undertakings, obligations, options, covenants, conditions and agreements contained in this Instrument shall be cumulative and no one of them shall be exclusive of any other. Except as otherwise specified herein, Company may pursue any one or more of its rights, options or remedies hereunder or may seek damages or specific performance in the event of City's breach hereunder, or may pursue any other remedy at law or equity, whether or not stated in this Instrument.

Section 9. **Notices**. Any notice or other communication required or permitted to be given under this Instrument shall be in writing and shall be delivered (i) by personal delivery, (ii) by Federal Express or another nationally reputable overnight courier service, or (iii) via email by attachment of a writing in portable document format (.pdf), provided that the party delivering such notice by e-mail receives an electronic return receipt with respect thereto, addressed as follows:

Section 10. **Attorneys' Fees**. In the event of any action or proceeding instituted in connection with this Instrument, then the prevailing party shall be entitled to recover from the losing party all of its costs and expenses, including, without limitation, court costs, all costs of appeals and reasonable attorneys' fees and expenses. Any such attorneys' fees and other expenses incurred by either party in enforcing a judgment in its favor under this Instrument shall be recoverable separately from and in addition to any other amount included in such judgment, and such attorneys' fees obligation is intended to be severable from the other provisions of this Instrument and to survive and not be merged into any such judgment.

Section 11. **Gender and Number**. In this Instrument (unless the context requires otherwise), the masculine, feminine and neuter genders and the singular and the plural shall be deemed to include one another, as appropriate.

Section 12. **Entire Agreement**. Section 13. **Captions**. The captions used herein are for convenience only and are not a part of this Instrument and do not in any way limit or amplify the terms and provisions hereof.

Section 14. **Governing Law**. This Instrument and the exhibits attached hereto have been negotiated and executed in the State of California and shall be governed by and construed under the laws of the State of California.

Section 15. **Severability**. If any provision of this Instrument as applied to either party or to any circumstance shall be adjudged by a court of competent jurisdiction to be void or unenforceable for any reason, the same shall in no way affect (to the maximum extent permissible by law) any other provision of this Instrument, the application of any such provision under circumstances different from those adjudicated by the court, or the validity or enforceability of this Instrument as a whole.

Section 16. **Amendments**. This Instrument may be validly terminated, amended, modified or extended, in whole or in part, only by recordation with the County Recorder of a proper instrument, duly executed and acknowledged by Company, City or their successors.

Section 17. **Construction**. The parties acknowledge that each party and its counsel have reviewed and approved this Instrument and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Instrument or any amendments or exhibits hereto.

Section 18. **Successors and Assigns: Assignment**. This Instrument shall inure to the benefit of Company and its successors in title to any portion of the Company Land to which Company's rights hereunder are, at any time, assigned; provided, that an assignment by Company of its rights hereunder shall be effective only upon delivery of written notice thereof to City together with a written assignment instrument pursuant to which the assignee identified therein assumes all duties and obligations of Company under this Agreement.

Section 19. **Covenants Running With The Land**. The Parcel shall be held, developed, conveyed, hypothecated, encumbered, leased, rented, used and occupied subject to the covenants, conditions, restrictions and other limitations set forth in this Instrument (the ***"Restrictions"***). The Restrictions are made expressly for the benefit of the Company Land and are intended and shall be construed as covenants and conditions running with and binding the Parcel and equitable servitudes upon the Parcel and every part thereof; provided, however, to the extent that a portion of the Company Land is hereafter conveyed by Company, said conveyed portion shall no longer be part of the Company Land constituting the dominant estate.

Section 20. **Conflict**. If there is a conflict between the provisions of this Instrument and the Purchase Agreement, the provisions of the Purchase Agreement shall prevail to the extent of such conflict.

Section 21. **Counterparts**. This Instrument may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

AGENDA STAFF REPORT

CITY COUNCIL BUSINESS
Agenda Item No. 14.4
December 10, 2025

Agreement with the County of Riverside Department of Animal Services for Field and Shelter Services

Prepared By:

Johnny Terfehr, Community Safety and Technology Director

Recommended Action(s)

Staff recommends that the City Council:

1. Approve the Field and Shelter Services Agreement with the County of Riverside Department of Animal Services for either full time or half time Animal Control Officer and;
2. Authorize the City Manager to execute the Agreement and other necessary documents and;
3. Authorize the City Manager to approve and execute future extensions of the Agreement that do not increase the compensation paid by the City for the services.

Summary

The City currently contracts with the Riverside County Department of Animal Services for animal control and shelter services. The contract expired on June 30, 2025. To ensure the City continues its partnership with the County for animal control services, the County has proposed a new agreement which commences retroactively on July 1, 2025 and concludes on June 30, 2028. The new agreement reflects an increase in costs for all services.

Staff is recommending that the City Council approve the proposed agreement and authorize the City Manager to approve future contract extensions is necessary and if there are no increases in compensation paid to the County.

Background

In July 2011, the City of Eastvale entered into a contract with Riverside County Department of Animal Services for field and shelter services. Animal and shelter services provided by the County include, but are not limited to, proper care and treatment, impoundment, investigation of animal bites, quarantine, removal of deceased animals, enforcement actions, animal welfare programs, and licensing services. Subsequent 3-year agreements were entered into in 2014, 2017, and 2020. In 2023 and 2024, City Council approved amendments to extend the termination date of the current agreement to June 30, 2025.

The County has proposed a new agreement which commences on July 1, 2025 and concludes on June 30, 2028. Prominent changes between the current and proposed agreement are below:

Annual Field and Shelter Services Cost Methodology: The current County/City contract rate structure is complex and requires significant administrative effort from County staff each month to prepare, review, and justify billing. Because the model is based on the number of incoming animals and their length of stay, it also does not allow agencies to accurately budget for annual sheltering costs. This unpredictability creates financial challenges for contracting cities and delays in payment collection for the County. Additionally, the current model does not incentivize licensing, spay/neuter compliance, adoptions, or other revenue-generating activities within each jurisdiction.

To address these issues, the County has transitioned away from a per-animal billing model and developed a "Piece of the Pie" methodology, which allocates costs based on each city's proportional impact on the shelter system. This impact is determined by the following three factors:

1. Shelter Costs Distribution: The costs of providing Shelter Services were determined by using three different allocation areas, based on the Riverside County Department Animal Services FY 24/25 fee study. These allocation areas were weighted based on the impact to shelter resources:
    1. Average impound numbers
    2. Average length of stay
    3. City population
2. Field Services Distribution: The costs of providing field services were allocated based on the minimum number of officers required – Officer and Vehicle.
3. Split Services Distribution: These costs consist of administration, facilities, and support, each uniquely supporting either shelter or field operations and were split between Shelter and Field based on the ratio of the budgeted amounts identified as either shelter or field.

The Piece of the Pie methodology allocates costs across three areas and weights them by each city's impact on shelter resources, ensuring each city pays its proportionate share of the County's annual sheltering expenses. Additional considerations include items such as medical costs, billing for legal hold, capital improvements, level of service, cost offsets, and revenues.

Annual Field and Shelter Services Annual Cost and Plans: Per the previous agreement, fiscal year 2023/2024 annual costs totaled approximately $274,649. The proposed cost for services based on the County's new methodology is detailed below. The contracted services include the deployment of County-determined staffing levels to provide field coverage five days per week (Monday through Friday), nine hours per day between 7:30 a.m. and 5:00 p.m., along with 24/7 dispatch and after-hours emergency response.

Within this framework, the City may select either a full-time or part-time service model based on its operational needs.

The annual adjustment will only be applied to the final six months of FY 2025-2026. The first six months of fiscal year 2025-2026 will be based on the current new rates methodology, while the last two years is based on the full charge from the new rates methodology. The City's existing contract provides for 0.5 Animal Control Officer (ACO); however, based on current call-for-service levels, the County recommends this allocation be increased to one full-time ACO beginning in FY 2025-2026. Any overtime worked by ACOs will be billed at 1.5 times the applicable hourly rate.

City staff recommends that Council approve either the full time or half time option.

Collection of License Fees: Per the previous agreement, the County retained $10.00 per canine license. All fees collected for canine licenses were accounted for monthly by the County. The City received a credit of the net amount of license fees collected each month less the sum of $10 per each canine license issued.

The new agreement proposes that the County no longer retain a portion of license fees. The City would authorize the County to issue and collect the fees for canine licenses. All fees collected for

canine licenses will be accounted for by the County and the County will credit the net amount of license fees collected on a quarterly basis and be calculated on the applicable invoice.

Type of License	1 Year	2 Year	3 Year	Late Fee
Altered Dogs	$25	$50	$75	$25
Unaltered Dogs	$120	$240	$360	$25
Altered Dogs, owned by Senior 60+	$12	$24	$36	$15

Vaccination/Microchip/Licensing Clinics: Per the previous agreement, vaccination clinics were optional and upon request at a rate of $3,000 per event. Per the new agreement, the City is required to arrange for a minimum of two vaccination/microchip/licensing clinics per fiscal year within the City's jurisdiction based on the City's population. Per the California Health and Safety Code Section 121690(f) every city and county, "shall provide dog vaccination clinics, or arrange for dog vaccination at clinics."

The following services will be provided by the County at the applicable staff rate:

- Providing or assisting in arranging for low-cost vaccinations and microchips;
- Staffing low-cost vaccination and microchip clinics with medical personnel and necessary support staff, subject to availability;
- Licensing animals vaccinated at the clinic; and
- Assisting jurisdictions in promoting these community-based clinics.

The clinics will cost approximately $3,500.00 per event.

Spay and Neutering Clinics: Per the previous agreement, spay and neuter clinics were optional and upon request at a rate of $3,000 per event. Per the new agreement, the City must provide a minimum of two spay/neuter clinics per fiscal year based on the City's population. The City has two options to comply with this requirement:

1. Elect to participate in the spay/neuter trust to allow residents to access low-cost spay/neuter services. The spay/neuter trust is $5.00 per animal license. Participation in the Spay/Neuter Trust will allow the City to offer low-cost or free spay/neuter programs for residents who wish to have their pets spayed or neutered. County staff will work with shelter and mobile clinics to assist qualified residents in obtaining spay/neuter services. The trust fees will be included in the quarterly billing.
2. Not participate in the spay/neuter fund and acknowledge the requirement to fund two spay/neuter clinics at the City's expense. The cost to fund the clinic through the County is approximately $3,500.00 per event.

The number of animal licenses issued to Eastvale residents totaled 2,043 in 2024 and 1,758 in 2025. Based on this annual license data, contributing $5.00 per license to the spay/neuter trust would exceed the projected $3,500 per event cost for the County to host spay/neuter clinics within the City. Therefore, staff recommends that the City not pay into the spay/neuter trust at this time and instead utilize the County or a comparable vendor to provide spay/neuter clinic services.

Shelter Services Reconciliation: Per the previous agreement, sheltering services were reconciled monthly. Per the new agreement, these services will now be reconciled annually based on the average length of stay, number of impounds, and City population.

Strategic Plan Action - Priority Level: N/A | Target #: G | Goal #: E

Right-size the organization and staffing consistent with City services, needs, expectations, and strategic plan priorities (Target G, Goal E)

Fiscal Impact

For Fiscal Year (FY) 2025/2026, the City Council approved approximately $412,500 in the General Fund (Account 100-430-6480) to support animal control services with a part-time Animal Control Officer (ACO). Under the proposed agreement, the cost for field and shelter services with a part-time ACO is estimated at $316,847 for FY 2025/2026. Estimated costs for subsequent years are $431,600 in FY 2026/2027 and $508,598 in FY 2027/2028. These amounts do not include applicable license fee credits, which are anticipated to be approximately $50,000 per year.

Alternatively, should the City Council choose to increase service levels to a full-time Animal Control Officer, the cost for FY 2025/2026 would be approximately $463,826. This would require an additional $51,326 above the current FY 2025/2026 budget allocation. Estimated costs for subsequent years are $589,683 in FY 2026/2027 and $674,596 in FY 2027/2028. Should the City Council choose to approve a full time ACO, additional budget will be appropriated at Mid-Year. There is available fund balance and operational budget surplus to fund this request in the current fiscal year, however the five year forecast is strained by other public safety and Civic Center operational needs.

THIS AGREEMENT FOR ANIMAL FIELD AND SHELTER SERVICES ("Agreement") is made and entered into as of July 1, 2025, by and between the COUNTY OF RIVERSIDE, a political subdivision of the State of California ("COUNTY"), and the CITY OF EASTVALE, a General Law City ("CITY"), together known as the "parties", and individually as a "party".

RECITALS

WHEREAS, CITY desires to contract with COUNTY to provide animal field and shelter services for the purpose of safeguarding the health and safety of the CITY'S population and the health and safety of its domestic animals pursuant to the provision of field and animal sheltering services, and described in this Agreement;

WHEREAS, CITY desires to promote the humane treatment of animals and remains a committed partner with the COUNTY; and

WHEREAS, COUNTY has the personnel and experience to provide such services and is willing to enter this Agreement with CITY for the provision of such services, subject to the terms and conditions for compensation as set forth herein.

NOW THEREFORE, in consideration of the mutual covenants contained in this Agreement, and for good and valuable consideration, the parties mutually agree as follows:

SECTION I. OBLIGATION OF PARTIES

A. RECITALS:

l. The aforementioned Recitals are true and correct and incorporated herein by this reference.

B. COUNTY Obligations:

1. COUNTY shall provide field and shelter services within the corporate limits of CITY as outlined in **EXHIBITS A** and **B**, attached hereto and incorporated herein by this reference, and more specifically as selected by CITY in **ATTACHMENT A**, attached hereto and incorporated herein by this reference.

C. CITY Obligations:

1. CITY shall reimburse COUNTY for the services performed and the expenses incurred as set forth in **ATTACHMENTS A** and **B**, using the Rates Methodology as set forth in **ATTACHMENT C** of this Agreement.

2. In order to harmonize the terms of this Agreement with the provisions of the CITY's municipal code and for COUNTY to provide the full scope of services to CITY under this Agreement, within six months following the Effective Date of this

Agreement, CITY shall adopt the current verbatim language of the regulations, provisions, and rates found in Riverside County Ordinance Nos. 534, 560, 630, 716, 771, and 878 ("Animal Control Ordinances"), and shall amend its CITY municipal code when COUNTY amends its Animal Control Ordinances, from time to time. COUNTY shall provide the verbatim language to the CITY that shall be adopted into CITY's municipal codes. Notwithstanding the foregoing, CITY retains all legislative authority pertaining to the regulation of animals within its jurisdiction and retains the right to exclude or modify the verbatim language of the County's Animal Control Ordinances.

3. CITY shall agree to providing contract required clinics with COUNTY pursuant to **ATTACHMENT A.**

SECTION II. PERIOD OF PERFORMANCE

The Effective Date of this Agreement shall be from July 1, 2025, and shall terminate on June 30, 2028, unless terminated earlier as provided herein under **SECTION IX** of this agreement.

SECTION III. PERFORMANCE OF CONTRACT

A. In performing services under the Agreement, COUNTY will provide all necessary labor, supervision, equipment, communication facilities, and supplies necessary to maintain the agreed upon level of service.

B. Nothing in the Agreement prohibits CITY from providing, at CITY's expense, additional resources for the COUNTY to utilize in its performance of the services.

C. Any use of special supplies, stationery, notices, or forms, other than standard COUNTY format, must be approved by the Director of the Department, or their designee, and supplied by CITY at its own cost.

D. If requested, the COUNTY will make its best efforts to attend one in-person meeting with CITY, up to three-hour duration per quarter at no charge to the CITY. Additional meetings may be scheduled under unusual or urgent circumstances as agreed upon by the COUNTY. CITY will pay the hourly rate listed in **ATTACHMENT B** for any additional hours of the COUNTY's contract management staff's time at meetings requested by CITY. Due to the lack of availability of meeting space in COUNTY facilities, the CITY will provide a mutually agreed upon meeting space and location, or virtual meeting link, for virtual meetings.

E. If requested, the COUNTY will make its best efforts to coordinate a virtual meeting once per month at no charge to CITY. Additional meetings may be scheduled under unusual or urgent circumstances as agreed upon by the COUNTY. The CITY will pay the hourly rate listed in **ATTACHMENT B** for any additional hours of COUNTY representatives' time at meetings requested by the CITY.

F. If requested, COUNTY will make its best efforts to send representatives to the CITY's Council meetings for proposed ordinance changes, contract revisions, or any related animal issues where input from the COUNTY is needed. The COUNTY will only attend these meetings to the extent that resources and capacity will allow.

G. The COUNTY will make available upon request, at no charge to the CITY, the reports pursuant to **EXHIBIT B**, at the intervals indicated in that attachment. For any additional reports that are not included in **EXHIBIT B**, or those requested at more frequent intervals, the COUNTY will account for the hours of staff time required to produce the reports. The COUNTY will provide, at no charge to the CITY, up to 12 hours of staff time annually for any additional requested reports. The CITY will be responsible for any excess hours at the current billing rate for staff time as listed in **ATTACHMENT B.**

SECTION IV. ADMINISTRATION OF PERSONNEL

A. The COUNTY will control all aspects of the services provided by the COUNTY including, but not limited to, standards of performance, discipline of officers and staff, and all employment-related matters.

B. In the event of a dispute between the parties regarding the duties and services to be provided, or the minimum level or manner of performance of such services, the CITY will be consulted and an agreement between the parties attempted. Each party must employ good-faith and best efforts to reach an agreement. If the COUNTY determination does not resolve the dispute to the satisfaction of both parties, the dispute resolution provision in **SECTION XV** shall apply.

C. All CITY employees who work with the COUNTY under the Agreement will remain employees of the CITY and will not have any claim or right to employment, civil service protection, salary, benefits, or claims of any kind from the COUNTY. No CITY employee will become an employee of the COUNTY unless by specific additional agreement which must be concurrently adopted by the CITY and COUNTY. Except as otherwise specifically set forth in the Agreement or in the attached Service Request in **ATTACHMENT A**, to the extent the COUNTY provides the CITY with animal licensing services, neither the CITY employees nor their agents will perform any function related to the licensing of animals, including the collection of license fees, penalties, or field enforcement fees. Field enforcement fees will only be collected by the COUNTY for services performed by employees of the COUNTY. The CITY shall distribute educational and outreach materials, reviewed and agreed upon by both the COUNTY and the CITY, as requested by the COUNTY.

D. For the purposes of performing services under the Agreement, and only for the purpose of giving authority for COUNTY staff to provide these services, every COUNTY officer and/or employee engaged in performing any service will be deemed to be a contracted officer while performing service for the CITY, provided the service is within the scope of the Agreement.

E. The CITY will not assume any liability for the direct payment of salaries, wages, or other compensation to COUNTY personnel performing services under the Agreement. Except as described under **SECTION VI**, the CITY will not be liable for compensation or indemnity to any COUNTY employee or agent of the COUNTY for injury or sickness arising out of his/her employment while providing services under the Agreement.

SECTION V. DEPLOYMENT OF PERSONNEL

A. The COUNTY will determine the minimum required field personnel required to provide the services requested by the CITY.

B. The CITY agrees to complete **ATTACHMENT A**, specifying the service to be provided, which will be signed and authorized by the CITY and the COUNTY representative and attached to the Agreement. In the event of a dispute between the Parties about the desired or approved content of the Service Level Request ("SLR"), such dispute will be handled in accordance with **SECTION IV(B)** of this Agreement.

C. The COUNTY will issue annual notifications of any change to the billing rate as stated in **SECTION XVIII**. Unless the CITY changes other provisions within the most recently executed SLR, it is not necessary to execute a revised service request to reflect a billing rate change.

D. The CITY may at any time request a change in the level of service by completing a revised service request and submitting the form to the COUNTY. The revised level of service to be provided and the current fiscal year billing rate will be signed and authorized by the CITY and the COUNTY representative and attached to the Agreement as an amendment. Execution of such amendments shall be subject to each Party's applicable internal approval processes, which may include, where required, approval by the City Council or Board of Supervisors. Changes requested at times other than the beginning of the fiscal year will be implemented as soon as practical, as determined in the sole discretion of the COUNTY. The CITY is only required to submit a new service request if it wishes to revise its current services or update information listed on its existing service request. The COUNTY reserves the right to approve or disapprove requests on the service request in accordance with **SECTION IV** of this Agreement.

E. Regarding updates to contact information, the CITY is not required to submit a new service request. Email confirmation from the CITY will suffice, and the COUNTY will update the CITY's existing service request and share the revised copy with the CITY.

F. The CITY is not limited to the services indicated but may also request any other services in the field of public safety, animal welfare, or related fields within the legal power of the Director of the Department to provide. The COUNTY reserves the right to determine, in its sole discretion, whether the COUNTY can provide requested services not otherwise specified in this Agreement.

SECTION VI. HOLD HARMLESS/INDEMNIFICATION

A. CITY shall indemnify and hold harmless the County of Riverside, its Agencies, Districts, Special Districts and Departments, their respective directors, officers, Board of Supervisors, elected and appointed officials, employees, agents and representatives from any liability, claim, damage or action whatsoever, based or asserted upon any actions of CITY, its officers, employees, subcontractors, agents or representatives arising out of or in any way relating to this Agreement, including but not limited to property damage, bodily injury, or death or any other element of any kind or nature whatsoever and resulting from any reason whatsoever arising from the negligent or willful actions by CITY, its officers, agents, employees, subcontractors, agents or representatives of this Agreement. CITY shall defend, at its sole expense, all costs and fees including but not limited to attorney fees, cost of investigation, defense and settlements or awards of all Agencies, Districts, Special Districts and Departments of the County of Riverside, their respective directors, officers, Board of Supervisors, elected and appointed officials, employees, agents and representatives in any such action or claim or action based upon such alleged acts or omissions.

B. With respect to any action or claim subject to indemnification herein by CITY, CITY shall, at its sole cost, have the right to use counsel of its own choice and shall have the right to adjust, settle, or compromise any such action or claim without the prior consent of COUNTY; provided, however, that any such adjustment, settlement or compromise in no manner whatsoever limits or circumscribes CITY's indemnification to COUNTY as set forth herein. The CITY's obligation to defend, indemnify and hold COUNTY harmless shall be subject to COUNTY having given CITY written notice within a reasonable period of the claim or of the commencement of the related action and information and reasonable assistance, at CITY's expense, for the defense or settlement thereof. CITY's obligation hereunder shall be satisfied when CITY has provided to COUNTY with the appropriate form of dismissal relieving COUNTY from any liability for the action or claim involved.

C. COUNTY shall indemnify and hold harmless the CITY, its Agencies, Districts, Special Districts and Departments, their respective directors, officers, CITY Council, elected and appointed officials, employees, agents and representatives from any liability, claim, damage or action whatsoever, based or asserted upon any actions of COUNTY, its officers, employees, subcontractors, agents or representatives arising out of or in any way relating to this Agreement, including but not limited to property damage, bodily injury, or death or any other element of any kind or nature whatsoever and resulting from any reason whatsoever arising from the negligent or willful actions by COUNTY, its officers, agents, employees, subcontractors, agents or representatives of this Agreement. COUNTY shall defend, at its sole expense, all costs and fees including but not limited to attorney fees, cost of investigation, defense and settlements or awards of all Agencies, Districts, Special Districts and Departments of the CITY, their respective directors, officers, CITY Council, elected and appointed officials, employees, agents and representatives in any such action or claim or action based upon such alleged acts or omissions.

D. With respect to any action or claim subject to indemnification herein by COUNTY, COUNTY shall, at its sole cost, have the right to use counsel of its own choice and shall have the right to adjust, settle, or compromise any such action or claim without the prior consent of CITY; provided, however, that any such adjustment, settlement or compromise in no manner whatsoever limits or circumscribes COUNTY's indemnification to CITY as set forth herein. COUNTY'S obligation to defend, indemnify and hold harmless CITY shall be subject to CITY having given COUNTY written notice within a reasonable period of the claim or of the commencement of the related action and information and reasonable assistance, at COUNTY's expense, for the defense or settlement thereof. COUNTY's obligation hereunder shall be satisfied when COUNTY has provided to CITY the appropriate form of dismissal relieving CITY from any liability for the action or claim involved.

E. The specified insurance limits required in this Agreement shall in no way limit the COUNTY's obligations to indemnify and hold harmless CITY herein from third party claims.

F. This **SECTION VI** shall survive the termination of this Agreement.

SECTION VII. INSURANCE

COUNTY agrees to maintain the following insurance coverage during the term of this Agreement:

A. **Workers' Compensation:**
COUNTY shall maintain Workers' Compensation Insurance (Coverage A) as prescribed by the laws of the State of California. The policy shall include Employer Liability (Coverage B) including Occupational Disease with limits of not less than $1,000,000 per person per accident.

B. **Commercial General Liability:**
COUNTY shall maintain Commercial General Liability Insurance coverage for claims which may arise from or out of COUNTY's performance of its obligations hereunder. This coverage shall have a limit of liability not less than $2,000,000 per occurrence combined single limit.

C. **Vehicle Liability:**
If vehicles or mobile equipment is used in the performance of the obligations under this Agreement, then COUNTY agrees to maintain automobile liability insurance for vehicles provided by the COUNTY for use under this Agreement. This coverage shall have a limit of liability of not less than $1,000,000 combined single limit.

SECTION VIII. RESERVED

RESERVED.

SECTION IX. TERMINATION

A. Either party may terminate this Agreement without cause upon no earlier than six (6) months advance written notice served on the other party stating the extent and effective date of termination.

B. If a six (6) month notice of termination is served on the other party, after receiving said notice of termination, COUNTY shall stop work under this Agreement on the termination date specified in the notice of termination; and after termination, CITY shall make payment to COUNTY for performance up to the date of termination in accordance with this Agreement.

C. In the event of termination, both parties shall fulfill all obligations owed to each other that have accrued before the date of termination. Additionally, except for **SECTION VI**, each party will be released from any obligations that would have accrued after the termination date had the Agreement continued. However, the CITY will remain responsible for payment to the COUNTY for any services provided under this Agreement prior to the termination date.

SECTION X. FORCE MAJEURE

If either Party is unable to comply with any provision of this Agreement due to causes beyond its reasonable control, and which could not have been reasonably anticipated, such as acts of God, acts of war, civil disorders, pandemics, or other similar acts, such party shall not be held liable for such failure to comply.

SECTION XI. AMENDMENTS

Any amendments, including but not limited to alterations, variations, or supplements, to the terms of this Agreement shall be in writing and signed by the parties hereto, and shall have the approval of the Board of Supervisors of COUNTY and CITY Council. Any amendments will be presented to CITY's CITY Manager, or designee, prior to CITY's CITY Council approval.

This Agreement, including any attachments, constitutes the entire Agreement of the Parties with respect to its subject matter and supersedes all prior and contemporaneous representations, proposals, discussions and communications, whether oral or in writing.

Except for changes to a CITY's contact information, any changes, modifications, or amendments to the Agreement must be in writing and duly executed by the Director of the Department, or their designee, and an authorized representative of the CITY. The only exception to this requirement applies to updates to the CITY's contact information, which may be made through simple email confirmation from the CITY.

SECTION XII. SEVERABILITY

Each paragraph or provision of this AGREEMENT is severable from each other provision, and if any provision or part thereof is declared invalid, the remaining provisions shall nevertheless remain in full force and effect.

SECTION XIII. NO THIRD-PARTY BENEFICIARIES

This Agreement between the parties is intended for the mutual benefit of the two signing parties only. No rights are created under this Agreement in favor of any third party or any party who is not a direct signatory to this Agreement.

SECTION XIV. NONDISCRIMINATION

COUNTY shall not discriminate in the provision of services, allocation of benefits, accommodation in facilities, or employment of personnel on the basis of race, ethnicity, religious creed, color, national origin, ancestry, age, physical disability, mental disability, medical condition, marital status, sex, sexual orientation, or gender identity in the performance of this Agreement; and, to the extent they shall be found to be applicable hereto, shall comply with the provisions of the California Fair Employment and housing Act (Gov. Code 12900 et. seq.), the Federal Civil Rights Act of 1964 (Pub. L. 88-352) and the Americans with Disability Act of 1990 (42 U.S.C. 12101 et seq.).

SECTION XV. DISPUTE RESOLUTION AND VENUE

A. The parties shall attempt to resolve any disputes amicably at a working level as set forth in **SECTION IV(B)**. If that is not successful, the dispute shall be referred to the senior management of the parties.

B. Prior to filing any legal action related to this Agreement, the parties shall be obligated to attend a mediation session in Riverside County before a neutral third-party mediator. A second mediation session shall be required if the first session is not successful. The parties shall share the cost of the mediations.

C. This Agreement shall be governed by the laws of the State of California. Any legal action related to the performance or interpretation of this Agreement shall be filed only in the Superior Court of the State of California located in Riverside, California, and the parties waive any and all provisions of law providing for a change of venue to another location.

SECTION XVI. ASSIGNMENT

This Agreement shall be binding upon COUNTY and its successors. Neither this Agreement nor any part thereof nor any moneys due or to become due hereunder may be assigned by the parties without the prior written consent of the other Party. CITY and COUNTY hereby agree with the full performance of the covenants contained herein.

SECTION XVII. CONTRACT PERFORMANCE

COUNTY's Director of Department of Animal Services, or designated representative, shall meet as necessary to discuss contract performance with CITY's CITY Manager, or designated representative.

SECTION XVIII. CONTRACT SUM

The CITY will pay for the services provided under the terms of the Agreement at the current fiscal year rate established by the COUNTY and set forth in the current **ATTACHMENT B**.

The rates indicated in the **ATTACHMENT B** form will be readjusted by the COUNTY annually, effective the first day of July each year, to reflect the cost of services in accordance with the policies and procedures for the determination of rates established by the COUNTY.

The CITY will be billed based on the current service level described in the latest **ATTACHMENT A, FISCAL YEAR 25/26-27/28 SERVICE REQUEST FOR THE CITY OF EASTVALE.**

The cost of any additional services requested and provided under the Agreement and not set forth in **ATTACHMENT B** will be determined by the COUNTY in accordance with the policies and procedures established by the COUNTY.

SECTION XIX. PAYMENT PROCEDURES

The COUNTY, through the Department of Animal Services, will submit a summary invoice covering all services performed quarterly to the CITY within ten (10) calendar days after the closing of each quarter. The CITY will pay the COUNTY for all undisputed amounts within thirty (30) calendar days after the date of the invoice.

If payment is not delivered to the COUNTY office described on the invoice within sixty (60) days after the date of the invoice, the COUNTY is entitled to recover interest on the unpaid amount at the rate specified below in this **Section XIX**.

For all disputed amounts, the CITY will provide the COUNTY with written notice of the dispute including the invoice date, amount, and reason(s) for the dispute within twenty-one (21) calendar days after receipt of the invoice. The parties will confirm the resolution of the dispute in writing. For any disputed amounts, interest will accrue if payment is not received within sixty (60) calendar days after the date of the written resolution.

Interest will be calculated at the rate of seven percent (7%) annually or any portion thereof, from the last day of the month for which the services were performed, or in the case of disputed amounts, from the date of the written resolution.

SECTION XX. NOTICES

Each Party shall designate a Primary Contact, as identified in **ATTACHMENT A**, Service Request, to facilitate the services covered by this Agreement. Routine communications necessary for the day-to-day facilitation of services may be conveyed through telephone, email, or in-person interactions. However, all correspondence and notices required or contemplated by this Agreement shall be delivered to the respective parties at the addresses set forth below and in **ATTACHMENT A** and are deemed submitted two (2) days after their deposit in the United States mail, postage prepaid.

SECTION XXI. DEFINITIONS

A. "Altered or Unaltered" An Altered animal has undergone a surgical sterilization procedure, spay (female) or neuter (male) for dogs or cats and is incapable of reproduction. An Unaltered animal has not been sterilized.

B. "Available" means an animal eight (8) weeks of age or older that at the time the animal is impounded or taken into possession, has manifested no sign of disease, injury, or congenital or hereditary condition that adversely affects the health or temperament of the animal, or that is likely to adversely affect the animal's health in the future.

C. "Care" includes, but is not limited, to providing necessary and prompt veterinary care, adequate nutrition and water, shelter, and humane treatment, or transfer of animal to the appropriate agency as defined in Civil Code 1834 and 1846.

D. "Euthanasia" is a non-preferred option and is to be used as a last resort when deemed there is no other outcome for an animal. When the decision has been made to euthanize, it is done with the highest degree of respect, and with an emphasis on making the euthanasia process as painless and distress free as possible. Humane euthanasia services shall be provided as required for impounded animals held at the Shelter for the lawful number of days, if such an animal is not reclaimed by the animal's owner and cannot be placed through adoption or rescue by COUNTY. Animals that are irremediably suffering from a serious illness or severe injury may not be held for owner redemption or adoption. Except as provided in Food and Agricultural Code, subdivision (b), Section 31108 and subdivision (c) of Section 31752, newborn animals that need maternal care and have been impounded without their mothers may be euthanized without being held for owner redemption or adoption. Further:

i. Only euthanasia methods approved by the Association of Shelter Veterinarians shall be used.

ii. Pre-euthanasia sedation or anesthesia shall be provided in the professional judgment of the veterinarian conducting or providing oversight. The interests of the animal will be given equal consideration whether the animal is individually owned or not,

regarding providing pre-euthanasia sedation or anesthesia.

iii. The COUNTY will provide ongoing professional training on the latest methods and material available for euthanasia and effective management of compassion fatigue for all personnel as described within, but not limited to, the American Veterinary Medical Association's Guidelines for the Euthanasia of Animals.

iv. The COUNTY will conduct euthanasia in areas that are isolated from other activities, where possible, to minimize stress on animals and to provide staff with a professional and dedicated work area and incorporate the recommendations for a well-designed euthanasia space as recommended by the American Veterinary Medical Association.

v. Records shall be kept for a period of not less than three (3) years on each euthanized animal shall include the following information: breed; sex; color; weight; other distinguishing characteristics; date, time and location where animal was found, method of euthanasia, and reason for use of method.

E. "Healthy" means and include all dogs and cats eight weeks of age or older that, at or subsequent to the time the animal is taken into possession, have manifested no sign of a behavioral or temperamental characteristic that could pose a health or safety risk or otherwise make the animal unsuitable for placement as a pet, and have manifested no sign of disease, injury, or a congenital or hereditary condition that adversely affects the health of the animal or that is likely to adversely affect the animal's health in the future.

F. "Impounded." Having been received into custody of any animal control center, animal control officer, animal control vehicle, or peace officer duly authorized by the County of Riverside to receive such animal.

G. "Potentially Dangerous" Any animal which has once actively pursued, attacked, bitten, or otherwise caused a less severe injury than a "substantial injury" (as defined in this section), to another person engaged in a lawful activity. Any animal which has once attacked, bitten, or otherwise caused a less severe injury than a "substantial injury" (as defined in this section), to another animal. Any animal which is found actively pursuing livestock, poultry, dogs, cats or animals.

H. "Substantial injury" means a substantial impairment of the physical condition of a person or animal which requires professional medical treatment, including, but not limited to, loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; muscle tears, disfiguring lacerations, punctures, or a wound requiring multiple sutures; or any injury requiring corrective or cosmetic surgery.

I. Through the COUNTY's pet support services staff provides counseling to pet owners or connects them with resources such as free pet food and supplies, medical vouchers, and other critical resources all intended to help keep pets with their families. This human/pet assistance program is funded almost entirely through donations and grants received by the COUNTY.

This program has reduced the number of surrendered animals admitted to the COUNTY's care centers to those who have no other opportunity for rehoming. This is reducing the costs that are associated with sheltering cats and dogs.

A. Components of Pet Support Services:

- Community Engagement is key to successfully employing this program, giving the community an opportunity to foster, network animals, facilitate adoptions, and to develop solutions to keep pets with their owners.

- The COUNTY encourages people who have found stray animals to attempt to reunite the pets with their families. The COUNTY also encourages residents to allow free roaming cats to remain where they live, as these are often pets or community cats.

- To reduce the relinquishment of owned pets, the COUNTY will provide resources such as training, food, and supplies, or other support to help keep pets in their homes.

- Public safety and animal welfare are a priority. Animals that pose a safety threat will immediately and safely be admitted by the COUNTY, as will animals that are sick or injured.

29. **Healthy Pet Zone:** COUNTY aids the public in times of crisis on a case-by-case basis that includes access to veterinary care and temporary boarding. CITY must refer public to COUNTY for program assistance.

30. **Individual Animal Licensing Services:** Adult dogs four months of age and older are required by State law to have individual licenses. The CITY may request that the Department enforce licensing requirements in the CITY as described in **ATTACHMENT A**. The CITY may adopt the COUNTY's fees for individual animal licenses or set its own fees as permitted in **ATTACHMENT A.**

License renewal notices are mailed or transmitted by the Department to the animal owner of record. The renewal and payment are received and processed on a fee-per-license basis. A current license will be required before an animal will be released to a resident of the CITY. Fees from licenses collected will be credited to the CITY monthly in arrears.

The COUNTY's animal licensing services include:

a. Issuing animal licenses for pets as requested by the CITY;

b. Processing license applications, payments, and information changes;

c. Issuing license renewal notices;

d. Assessing and collecting fees, penalties, and other financial remittances;

e. Maintaining a database for animal licensing, records of calls for service, and actions taken; and

f. Maintaining the Rabies Vaccination Certificate tool database which scans rabies vaccination data reported by private veterinary clinics to identify unlicensed pets in our jurisdictions and generate compliance notices to pet owners.

31. **Kennel and Cattery Licensing:** The Department's Kennel and Cattery Licensing program provides staff to perform animal facility inspections and licensing to animal-related businesses or organizations that require a license under COUNTY Ordinance. Animal-related facilities are inspected annually to ensure the safety and well-being of the animals as well as the health and safety of the public.

The COUNTY retains kennel license fees to offset the cost of annual inspections and related

administrative costs. Staff time for licensing and inspections is not billed to the CITY. However, investigations in response to complaints about activities at a licensed location are conducted by Animal Control Officers based in the COUNTY's animal shelters and are billed in accordance with **ATTACHMENT B,** City/County Service Rates**.**

This program includes:

a. Annual inspection of any premise used by an animal-related business or non-profit organization, including grooming shops, pet shops, boarding facilities or breeding facilities, animal menageries, and all other places where animals are maintained for profit or business activities.
b. Follow-up inspections of animal facilities as necessary.
c. Collection of license fees to offset the cost of services; and
d. Documentation and maintenance of records as necessary.

The Department holds periodic low-cost rabies vaccination and microchip clinics at its animal care centers and in the unincorporated areas of the County. Pursuant to this agreement and **ATTACHMENT A**, CITY shall fund two (2) vaccination and microchip clinics, within the CITY's jurisdiction, per FY. Participation in the Spay/Neuter Trust will allow the CITY to offer low-cost or free spay/neuter programs for the CITY's residents who wish to have their pets spayed or neutered. The COUNTY staff will work with the shelter and mobile clinics to assist qualified residents in obtaining spay/neuter services.

F. Records

Upon reasonable notice, the COUNTY will make available to authorized representatives of the

CITY, for examination, audit, excerpt, copy, or transcription, any pertinent transaction, activity, or other record relating to the Agreement. The CITY must ensure such records are handled in a manner consistent with all applicable privacy laws and all laws related to the Public Records Act (Government Code sections 7920.000 et. seq.).

Rates Methodology

Cities are financially responsible for the care of animals impounded within the City's jurisdiction and the County is responsible for the care of animals impounded within the County's jurisdiction. When a city contracts for services, it can save by sharing resources with the County and other contracted cities.

The existing County/City contract rates model is complex, and administrative staff, county and city, are required to invest a significant amount of time preparing, reviewing, discussing and justifying billing for each of the contract cities, monthly. The current methodology also does not allow the agencies to budget for the cost of shelter services provided since they are based on the incoming animals and length of stay. The unpredictability of these shelter costs can cause a burden on contracting cities, making it hard for them to budget and pay timely. This can also cause a burden on the County in collecting these revenues. It also does not incentivize the agencies to promote animal licensing, spay or neutering of the animals, adoptions or other revenue generating activities within their jurisdictions.

The County has gone away from a per animal methodology for shelter services and developed a "Piece of the Pie" billing methodology, where each city's contribution is based on its proportional impact to the County shelter system. The impact is calculated using a variety of factors. By distributing costs based on actual usage and demand, this approach ensures fair allocation of expenses while promoting engagement and efficient resource management. Animal Control and Sheltering costs are generally driven by:

Field Services	**Shelter Services**
a. Calls for service	a. Average Length of Stay
b. Time to complete a service call	b. Number of Impounds
c. Staff	c. Staff
d. Administration	d. Program expenses
e. Support Services	e. Administration
f. Population	f. Support Services
	g. Facilities
	h. Population

To simplify the methodology these drivers were categorized into three (3) cost pools:

a. **Shelter Costs** to house and care for the animals;

b. **Animal Control Field Services Costs** (as applicable); and

c. **Split costs** that were allocated between the two primary categories are based on either the ratio of the shelter category costs to field category costs or based on statistics provided by Animal Services for its call center.

1. SHELTER COSTS DISTRIBUTION

The costs of providing Shelter Services were determined by using three different allocation areas, based on the RCDAS FY 24/25. These allocation areas were weighted based on the impact to shelter resources:

a. Average Impound numbers (number of animals that come into the shelter for each city and the unincorporated areas of the County – Animals/month based on 30 months or the length of the contract if less than 30 months). (30% impact weight)

b. Average Length of stay (LOS) for animals per city and the unincorporated areas of the County – LOS/month based on 30 months or the length of the contract if less than 30 months.
(50% impact weight)

c. On the human population of a city.
(20% impact weight)

Within each of the allocations, spilt costs are included. The cities and the County were assigned a percentage of the cost based on their statistic or number and the ratio to the total.

2. FIELD SERVICES DISTRIBUTION

The costs of providing field services were allocated based on the minimum number of officers required – Officer + Vehicle

a. Total field service costs are divided by the total number of officers to find the annual cost per unit.

b. Overtime, overtime holiday, and vehicle lease are excluded from the total field services costs for cities.

c. Vehicle charges are added per officer vehicle, field leadership vehicle and licensing vehicle.

Only those cities who opt for Animal Control Officer Services will be allocated their piece of the costs. Within each of the allocations, spilt costs are included.

3. SPLIT SERVICES DISTRIBUTION

These costs consist of Administration, Facilities, and Support, each uniquely supporting either shelter or field operations and were split between Shelter and Field based on the ratio of the budgeted amounts identified as either shelter or field.

By using the piece of pie methodology, with the three different allocation areas, and then weighted based on a city's impact to shelter resources, cities will be charged for their proportion of the total County animal shelter costs incurred during the fiscal year as illustrated below.

EXAMPLE:

Hypothetical animal sheltering services budget to distribute: $20,000,000

Total Average Impounds weighted @ 30% of costs = $6,000,000
Total Average Kenneling Days weighted @ 50% of total costs = $10,000,000
Total Population weighted @ 20% of costs = $4,000,000

City A has 2.9% of the average total impounds/yr.
City A has 2.5% of the average of Kenneling days/yr.
City A has a population that is 7% of the total served pop. (County + all contract Cities)

City A: (0.029 * $6,000,000) + (0.025 * $10,000,000) + (0.070 * $4,000,000) = $704,000

City A's future FY cost = $704,000

Payments of $176,000 made quarterly which will be reduced by any licensing revenue

For the contract term. City A's animal shelter budget shall follow the following three (3) year 4% fixed-rate schedule:

$704,000.00	for fiscal year 2025-2026 (contract year 1)
$732,160.00	for fiscal year 2026-2027 (contract year 2)
$761,446.40	for fiscal year 2027-2028 (contract year 3)

4. OTHER CONSIDERATIONS

A. Medical Costs

Medical costs (excluding spay/neuter surgeries) provided by the County's medical staff are included in shelter costs to establish each city and the County's rate for sheltering and are not billed separately or in addition to that rate. The County reserves the right to send any animal to a private veterinary facility for examination,

treatment, and/or hospitalization as the County deems necessary in its sole and absolute discretion. All expenses incurred by the County for outside medical services, for animals from a City, will be billed to the City.

B. Billing for "Legal Hold" and Other Shelter Services:

Because the Piece of the Pie Methodology is based on average intakes, Dogs and cats that are housed for a "legal hold" and other shelter services are not billed separately. The length of stay data (from intake to disposition) for each animal will be collected for future contract negotiation purposes and can be available to a city, upon request. Legal hold animals are held in accordance with applicable statutory guidelines, and/or at the sole and absolute discretion of the County based on pending or anticipated criminal, civil, or administrative action.

C. Capital Improvements

Each year this contract is in effect, the County may submit to the contracted cities during the regular budget process a request for any needed capital improvements to the Shelter. Any such request shall include a description of the requested improvements and an estimate of their cost. Contracted cities shall give good faith consideration to each request; however, it is understood that capital improvements are subject to overall city budgetary priorities and funds availability, and a city shall in no event be obligated to contribute to such capital improvements. If an emergency arises relating to Shelter maintenance during the term of this contract, the County shall advise the contracted cities within forty-eight (48) hours so that the cities may decide whether to take appropriate action.

D. Level of Field Service

a. **Level of Service Specified.** The County shall provide all enforcement services at the minimum level based on an average number of calls to that city.

b. **Variation in Level of Service**. Variations in the level of service shall be made by amendment as provided for in Section XI of this Agreement, and under the following terms.

i. If City requests an increase in the level of service to be provided under this Agreement, County agrees to provide such increased level of Service as soon as practicable.

ii. The level of service, however, may not be reduced to below the minimum level, as determined by County, required to ensure public and officer safety.

E. Cost Offsets

A contracted city will receive credit from the County for all applicable redemption fees collected from or on behalf of the owner of an animal that is claimed from the custody of the Department, up to the maximum amount billed to the city for that animal. The Department reserves the right to waive fees when appropriate in the Department's sole and absolute discretion.

A city will not receive any credit for adoption fees (whether paid by an individual or an organization).

F. Revenues

Revenues are applied to reduce the costs for shelter and field services.

EXECUTIVE SUMMARY

Introduction

The Riverside County Department of Animal Services (County) engaged the services of MGT Consulting Group (MGT) to conduct an in-depth review and analysis of their current contract cities billings vs the full cost of providing field and shelter services. MGT is pleased to present the County with this summary of findings describing the process/methodology used in the analysis and the outcome.

MGT performed the analysis using fiscal year 2023/2024 budgeted figures, staffing, and operational information. MGT worked with the County in the development of a contract agency billing methodology with a strong nexus between the rate charged and the cost of shelter services and field services provided. MGT built an intuitive and powerful model that the County can utilize for future rate adjustments.

Background

The County currently charges their contracting cities based on the following methodology:

Shelter Services

- Kenneling days = Kenneling days in month = $34.10/day
- Large Animals = Daily charge per large animal (Horse/Cattle) = $20/day
- Large Animals = Daily charge per large animal (Swine/Goat) = $12/day
- Stray Dead = Charge per dead @ $70
- Wildlife = $138/per animal
- License Admin Fee = $11.35/per license issued
- Operations & Maintenance = $12.35/per impound = Fee varies per shelter
- Utilities = 30.5% of all utilities = billed every 6 months = City of Riverside instead of Operations and Maintenance.

Field Services

- ACO Fees = Annual Cost per ACO which is $273,125 multiplied by the full-time equivalent (FTE) count assigned. These costs are then billed out monthly in 1/12 increments.
- ACO Overtime is charged $170.15 per hour, generally with a two-hour minimum.

The current methodology does not allow the agencies to budget for the cost of shelter services provided since they are based on the incoming animals and length of stay. The unpredictability of these shelter costs can cause a burden on contracting agencies, making it hard for them to budget and pay timely. This can also cause a burden on the County in collecting these revenues. It also does not incentivize the agencies to promote animal licensing, spay or neutering of the animals, adoptions or other revenue generating activities within their jurisdictions.

This report is the culmination of an extensive study conducted by MGT in collaboration with the County's Animal Services management and staff. MGT would like to take this opportunity to gratefully acknowledge all management and staff who participated in this project for their time and participation.

Primary Objectives

The primary objective was to provide the County's decision makers with a clear picture of what the cost of providing shelter and field services are for each contracted city as well as for the unincorporated (county) areas, to provide more predictability to the charges to each contracting city and to provide a model calculating these costs that can be easily updated in the future.

This report presents the following methodology for County consideration:

- Bill each contract city for the full cost to the County of providing shelter and field services. The methodology MGT used to calculate the full cost to the contract cities and unincorporated area, and how these costs were allocated to the cities, is described below.

METHODOLOGY / PROCESS

Below is a brief discussion of the cost analysis allocation methodology and process utilized by MGT for calculating the full cost to the County for providing animal services to the contract cities.

Identifying the Costs

TOTAL ANIMAL SERVICES COST:

MGT utilized the adopted FY 2023-2024 animal service budget as a basis for this analysis.

The adopted budget of $31,113,167 included the costs to cover the addition of the City of Hemet and the City of San Jacinto for services. The County also added two new administration positions. The adjusted grand total for animal services was $39,478,743.

IDENTIFYING THE COST POOLS:

MGT looked at how the FY2023-2024 adjusted budget was allocated by program areas and assigned cost into three cost pools: shelter, field or split. The split cost pool was then broken down between shelter and field so there were only two cost pools to distribute.

Shelter Cost Pool:

MGT allocated costs from Riverside Shelter, CVAC Shelter, San Jacinto Shelter, Veterinary Services, and Programs – totaling **$21,772,176** – directly to the shelter cost pool. However, only **$15,371,606** of these costs are being included in the shelter cost calculation used for billing contract cities.

- Riverside Shelter: $3,463,236
- CVAC Shelter: $2,001,264
- San Jacinto Shelter $3,473,860

- Veterinary: $6,066,356
- Programs: $366,890
- TOTAL TO BE DISTRIBUTED: 15,371,606

Field Cost Pool

MGT included costs from the field program area as listed in the budget and assigned those costs directly to field.

- Field: $7,135,043

Split Costs

MGT took the costs identified as "split" and then broke them down into shelter and field. These costs consisted of Administration, Facilities, and Support, each uniquely supporting either shelter or field operations. The costs for each are listed below and the specific methodology for how these costs were split are described below:

- Administration: $3,470,341
- Facilities: $2,707,562
- Support: $2,374,689

Percentage Of Cost Pools (Shelter and Field):

To determine the percentage for each of the two cost pools (Shelter and Field), MGT looked at the total costs identified as either shelter or field and divided the costs for each cost pool by the total cost amount. The results can be seen below in exhibit A.

EXHIBIT A – ADMINISTRATION ALLOCATION PERCENTAGES

Percentage of Cost Pools			
	Shelter	**Field**	**Total**
Budgeted Costs	$15,371,606	$7,135,043	$22,506,649
% Split	68.30%	31.70%	

Administration Costs:

Administration costs of $3,470,341 were split between shelter and field based on the ratio of the budgeted amounts identified as either shelter or field.

Once the administration allocation percentages were determined, MGT applied the percentages to the $3,470,341 and allocated the administration costs to the two cost pools as seen below in exhibit B.

EXHIBIT B – ADMINISTRATION COST ALLOCATIONS

Administration Allocation to Cost Pools		
Shelter Administration	68.30%	$2,370,243
Field Administration	31.70%	$1,100,098

Facilities Costs:

Facilities costs of $2,707,562 were split between shelter and field based on the same ratio as the Administration costs. MGT applied the percentages to the $2,707,562 and allocated the facilities costs to the two cost pools as seen below in exhibit C.

EXHIBIT C – FACILITIES COST ALLOCATIONS

Facilities Allocation to Cost Pools		
Shelter Administration	68.30%	$1,849,264
Field Administration	31.70%	$858,298

Support Costs:

Support costs of $2,374,689 were split between shelter and field. There are four areas within support that were considered when allocating these costs: Counter (shelter), Call Center (supports both field and shelter operations), Licensing (shelter) and Rabies control (field).

Out of the four areas of support, only the call center needed to be broken down further between field and shelter. To do this, the number of calls and types of calls were evaluated and assigned to either the shelter or field. This created a percentage split that could be applied to the costs within the call center directly to the appropriate operations center (field or shelter).

MGT applied the percentages to $2,374,689 of costs and allocated the support costs to the two cost pools as seen below in exhibit D.

EXHIBIT D – SUPPORT COST ALLOCATIONS

Support Allocation Information			
	Shelter	Field	Grand Total
Counter	$ 1,264,522		$ 1,264,522
Call Center	$ 344,240	$ 94,840	$ 439,080
Licensing	$ 572,300		$ 572,300
Rabies		$ 98,787	$ 98,787
Total	**$ 2,181,062**	**$ 193,627**	**$ 2,374,689**

Methodology and Distribution of Costs

After the two cost pools were established, MGT applied the following methodology to distribute the costs to the various contracting cities and the unincorporated areas of the County:

SHELTER COSTS DISTRIBUTION:

Shelter Costs are distributed to each contracted agency based on three allocation statistics:

- Average length of stay
- Annual number of impounded animals multiplied by the average length of stay
- Per capita

Each of these allocations are weighted based on how they impact the shelter's resources. The weighted allocation are listed exhibit E below:

EXHIBIT E – SHELTER ALLOCATION BASIS

Shelter Allocations		
1	AVERAGE LENGTH OF STAY	50.00%
3	IMPOUND	30.00%
4	PER CAPITA	20.00%
		100.00%

Based on the statistics in each area, each contracted city was then assigned a percentage. This percentage was then applied against the portion of the shelter cost pool assigned to that allocation. For example, under the average length of stay allocation, a weight of 50% of the shelter's cost pool for a total of $9,470,472 was assigned. The total average length of stay days is 204.83. Out of 204.83 days, the City of Blythe's average length of stay was 8.79 days which equated to 4.29% of the total, therefore the city received an allocation of 4.29% of the cost or a total of $400,288. This same methodology was applied to each of the three allocations.

The statistics used in the allocation basis are based on the prior year's information. In basing the distribution on the prior year, the cost to provide services will become more predictable for the contracted cities so they can budget accordingly. Costs would then be billed out in twelve equal increments, thus providing predictable costs per month for the contracted city.

Please note that out of the shelter costs to distribute, $285,599 does not get distributed to any of the contracting cities and is assigned directly to the unincorporated area (County) costs. This cost is the countywide allocation costs also referred to as COWCAP charges which government code section 51350 does not allow for the distribution of countywide overhead costs to contracting cities.

FIELD SERVICE UNIT DISTRIBUTION:

The field service unit cost is allocated based on the full cost to provide services per Animal Control Officer (ACO) assigned to the contracted agency and then divided by the number of full-time animal control officers. Each field service unit is comprised of the total costs associated with providing services. Some of the costs that were considered include but are not limited to communication equipment, insurance, cleaning and custodial supplies, food and supplies, fuel, GPS, vehicle maintenance, field equipment, personnel services, and county counsel services. A fully burdened annual cost is developed and then applied to each ACO field unit assigned to the contracted city.

Some costs have been excluded from the total cost to distribute. This includes overtime and overtime holiday, which are charged separately, and costs for leased vehicles, which have been pulled out and directly charged through a separate vehicle charge for field leadership vehicles. Additional costs were then added for the ACO's vehicles. The vehicle costs are based on the annual amortized cost of the vehicles which is a separate cost outside of the Animal Service's annual budget.

It is important to note that out of the field costs to distribute, $146,164 does not get distributed to the contracting cities and is assigned directly to the unincorporated area (County) costs. This cost is the countywide cost allocation plan charges also referred to as COWCAP charges. Government code section 51350 does not allow for the distribution of countywide overhead costs to contracting cities.

Total costs for fieldwork and the annual cost per unit of fieldwork are listed in exhibit F.

34.00	Total Field Work Units Available

Additional charges for vehicle costs are then applied for each field service unit.

Offsetting Funding Source

Offsetting revenues were applied to reduce the total costs of services.

REVENUE OFFSETS:

The County identified $2,860,714 in revenues that were offset against the total cost of services. Of this amount, $2,831,305 was attributed to shelter costs and $29,409 toward field services. The revenue offsets identified are listed below as Exhibit H.

Account Code	Account Description	Amount Budgeted
720000	County Animal License	802,000
720020	Kennel Permits	22,000
773200	Adoption-Auction Fees	301,000
773240	Impounds Boards Disposal	353,258
773250	Spay & Neuter Clinic Fees	355,500
775560	Other MH Charges for Services	150
777090	Collections Program	643,200
777520	Reimbursement for Services	300,000
777880	Credit Card Fees	60,000
781480	Program Revenue	23,606
Total non-contract Revenue		**2,860,714**

EXHIBIT H – REVENUE OFFSETS

Offsetting revenues will vary from year to year. As the offsetting revenues increase the cost of services will receive a larger offset. Cities are encouraged to promote the services that result in offsetting revenue so that the offsetting revenues can continue to grow, thus reducing the overall cost to the cities that receive services.
