(a) The several improvements or purposes described in Section 3 of this bond ordinance are not current expenses. They are improvements or purposes the Township may lawfully undertake as general improvements, and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

(b) The average period of usefulness of the improvements or purposes, within the limitations of the Local Bond Law, computed on the basis of respective amounts or obligations for the several purposes and the respective reasonable life thereof within the limitations of the Local Bond Law, is 15 years.

(c) The Supplemental Debt Statement required by the Local Bond Law has been duly prepared and filed in the office of the Clerk, and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey. Such statement shows that the gross debt of the Township as defined in the Local Bond Law is increased by the authorization of the bonds and notes provided in this bond ordinance by $600,000, and the obligations authorized herein will be within all debt limitations prescribed by that Law.

(d) An aggregate amount not exceeding $210,000, including the $100,000 authorized by the Prior Ordinance and an additional amount of 110,000 authorized herein, for items of expense listed in and permitted under N.J.S.A. 40A:2-20 is included in the estimated cost indicated herein for the improvements or purposes.

(e) The Township reasonably expects to commence the acquisition of the several improvements or purposes described in Section 3 hereof, and to advance all or a portion of the costs in respect thereof, prior to the issuance of bonds or notes hereunder. To the extent such costs are advanced, the Township further reasonably expects to reimburse such expenditures from the proceeds of the bonds or notes authorized by this bond ordinance, in an aggregate amount not to exceed the amount of bonds or notes authorized in Section 1 hereof.

Section 7. Any grant moneys to be received for the purposes described in Section 3 hereof shall be applied either to direct payment of the cost of the improvements or to payment of the obligations issued pursuant to this bond ordinance. The amount of obligations authorized hereunder shall be reduced to the extent that such funds are so used.

Section 8. The full faith and credit of the Township is hereby pledged to the punctual payment of the principal of and the interest on the obligations authorized by this bond ordinance. The obligations shall be direct, unlimited obligations of the Township, and the Township shall be obligated to levy ad valorem taxes upon all the taxable real property within the Township for the payment of the obligations and the interest thereon without limitation as to rate or amount.

Section 9. The Township Council hereby covenants on behalf of the Township to take any action necessary or refrain from taking such action in order to preserve the tax-exempt status of the bonds and notes authorized hereunder as is or may be required under the Internal Revenue Code of 1986, as amended, and the regulations promulgated thereunder (the "Code"), including

compliance with the Code with regard to the use, expenditure, investment, timely reporting and rebate of investment earnings as may be required thereunder.

Section 10. This bond ordinance shall take effect twenty (20) days after the first publication thereof after final adoption, as provided by the Local Bond Law.

SUBJECT: Award of Contract – Gentilini Ford, Three (3) New Ford AWD (K8A) Police Four Door Utility Interceptor Vehicles

DATE: June 24, 2026

I would like to recommend that a Resolution be prepared to award the contract for Three (3) New Ford AWD (K8A) Police Four Door Utility Interceptor Vehicles to Gentilini Ford.

There was a mathematical error with the bid submitted by Nielson Ford. The error was addressed with the vendor, resulting in them being the lowest bidder. Notwithstanding the correction, their wiring deviation is not accepted due to the additional cost to bring the car into compliance with the spec.

Therefore, Gentilini is the lowest responsive and responsible bidder with a total purchase price of $143,670.00.

Ref: Award of Contract, Automated Side Loading Refuse Truck, Gran Turk Equipment Company Inc.

The 2026 Capital budget included the replacement of an Automated Side Loading Refuse truck currently in the Public Works fleet. Due to the age and heavy use, the vehicle is experiencing mechanical problems, causing the unit to be unreliable for regular use. It is expected that the issues and concerns will only increase as the unit ages.

Several bid packets were sent out to vendors with the bid opening on July 18, 2026. GranTurk Equipment Co., Inc. was the sole bidder submitting a complete proposal for the unit as specified without deviations to the specifications. Their bid price for the truck is a total of $456,000.00

Based on the bid results, I'm requesting the award to GranTurk Equipment Co., Inc. for a total of $456,000.00 as per their submitted bid proposal. GranTurk is also a known vendor to the Public Works Department who has always provided quality equipment with satisfactory service.

Ref: Kings Grant Drive Additional Lighting, Proprietary Infrastructure, Award of Contact Recommendation

The 2024 Capital Bond budget includes funding for lighting improvements along Kings Grant Drive. In 2023, Remington and Vernick conducted a comprehensive lighting analysis to assess existing conditions and identify locations where additional illumination would enhance pedestrian safety. The evaluation considered factors such as crosswalk locations, pedestrian activity levels, and other high-traffic areas. Based on the findings, additional lighting was recommended in several key pedestrian corridors within the Atlantic City Electric utility area. The proposed improvements include the installation of five new poles, each equipped with two lighting fixtures, to provide enhanced visibility and safety for pedestrians.

Atlantic City Electric Utility infrastructure, including utility poles, lighting fixtures, transformers, overhead and underground facilities, and related equipment, is the proprietary property of the Utility Company. To ensure the safety and reliability of the utility system, only the Utility Company or its authorized representatives may install, modify, repair, maintain, relocate, or perform work on Utility Company infrastructure.

Atlantic City Electric has provided a detailed scope of work for this project in the amount of $76,412.00. The proposed additional poles and lighting fixtures will remain the property of Atlantic City Electric's, which will retain responsibility for all future maintenance, repairs, and operation of the infrastructure. Given that the proposed improvements will be incorporated into and maintained as part of Atlantic City Electric proprietary utility system, obtaining additional competitive quotes is not recommended. Therefore, I recommend approving a contract with Atlantic City Electric for the installation of the additional roadway lighting along Kings Grant Drive. The contract shall be issued with a not-to-exceed amount of $76,412.00

- **Site Plan requirements: (if needed)**

- Show the following details on the site plan or plat (drawing should be to scale).
✓ Building layout and location on the property
✓ Property lines and street locations
✓ Obstructions such as drive way, parking areas, water lines, septic lines or septic tank and drain fields (including septic reserve area), trees, ditches, or other private utilities.

Electrical requirements:

- Discuss your electrical needs with a licensed electrician before submitting your completed service application. The electrician can answer questions on the application form concerning the number and type of electrical loads as well as general service requirements.

Site Preparation:

- **Underground Service**: The cable path on your property must be clear of all obstructions for a width of ten (10) feet and be within six (6) inches +/- of final grade. Water lines, sewer lines, septic systems, and septic reserve areas must be staked and marked along the cable path. Any private underground facilities (sprinkler system, drainage pipes, security systems, landscape lighting, etc.) should **not** be installed until Atlantic City Electric's equipment installation is complete.
- Paving, final grading, and landscaping should not be completed until Atlantic City Electric has installed our facilities. If any paving, grading, seeding, sodding, or landscaping is damaged during installation Atlantic City Electric will not be responsible for any damages or repairs. As an alternative the customer may install conduit under any obstructions. Atlantic City Electric must approve the size and location of the conduit before installation.
- **Overhead Service**: The customer shall provide and maintain a safe substantial support for the service drop wires, of sufficient height to maintain safe ground clearances. **Atlantic City Electric must approve the point of attachment before installation.**
- If tree trimming is required, the customer may choose to provide a cleared path. Please keep in mind that we require a **10' WIDE** path including limb overhang for primary conductors. This clearance includes **5'** on each side of the primary line. If the tree clearing is not up to Atlantic City Electric's standards, your service connection will be delayed until proper clearance is given. Atlantic City Electric can provide the required clearing if requested. There will be an additional charge. Please contact Atlantic City Electric to determine what trimming is necessary.

Scheduling:

- If Atlantic City Electric's facilities are on the opposite side of the road or must be extended along the roadway to your property, it may be necessary for Atlantic City Electric to apply to county or state highway departments for written permission to cross or use the roadway. This permission usually requires a minimum of three (3) weeks for approval.
- Before your service can be installed and power turned on, your electrician must apply for and Atlantic City Electric must receive an Independent Authorized Inspection of the electrical wiring (called a "cut-in-card").
- Once the above requirements are met and the cut-in-card has been received, Atlantic City Electric will schedule construction of your new service to be completed within ten (10) working days.

FOR THE TOWNSHIP OF EVESHAM

WHEREAS, in accordance with the Fair Housing Act and the New Jersey Uniform Housing Affordability Controls (N.J.A.C. 5:80-26-1, et seq.), the Township of Evesham is required to adopt a Rehabilitation Program Manual to ensure that all affordable housing units rehabilitated through the Township's Rehabilitation Program are rehabilitated according to all rules and regulations applicable to rehabilitation programs and participants who meet income requirements, particularly those living and/or working within Housing Region 5, the Affordable Housing Region encompassing the Township; and

WHEREAS, the manual establishes policies, guidelines and procedures which will govern the Township Home Improvement Program (HIP) which was created by Evesham Township to assist properties occupied by very low and low and moderate-income households to correct all existing interior and exterior health, safety and code violations in conformity with the standards of the New Jersey State Housing Code, N.J.A.C. 5:28 and the Rehabilitation Subcode, N.J.A.C. 5:23-6; and

WHEREAS, the manual reflects changes to UHAC that went into effect in December, 2025. These UHAC changes impact every aspect of the Administration of affordable units from income qualification to deed restrictions and the many outstanding questions about the applicability of the rules and how to implement the regulations; and
