RESOLUTION - NAMING WINSTON DRIVE - HONORARY STREET - EARL C. WILLIAMS JR. DRIVE

WHEREAS, Earl Craig Williams Jr. was born on July 14, 1948, in Newark, New Jersey, and was raised in East Orange and Montclair, New Jersey, where he excelled as an all-state athlete at Montclair High School; and

WHEREAS, Earl C. Williams Jr. went on to play Major League Baseball as a catcher and first baseman, making his MLB debut on September 13, 1970, with the Atlanta Braves, and in his 1971 rookie season hit 33 home runs and drove in 87 runs, earning him the National League Rookie of the Year Award — only the second catcher in National League history, after Johnny Bench, to receive that honor; and

WHEREAS, Earl C. Williams Jr. went on to a distinguished Major League Baseball career spanning parts of eight seasons with the Atlanta Braves, Baltimore Orioles, Montreal Expos, and Oakland Athletics, amassing 138 career home runs and 457 runs batted in, standing as one of only seven National League players of his era to hit more than 30 home runs in a season; and

WHEREAS, following his professional baseball career, Earl C. Williams Jr. made his home in Somerset, New Jersey, residing on Winston Drive, where he became a beloved member of the Franklin Township community, serving as a mentor and role model to local youth and remaining actively engaged with residents for decades; and

WHEREAS, the Mayor and Council of the Township of Franklin wish to honor the memory and legacy of Earl C. Williams Jr. by designating Winston Drive — the street on which he lived — as Honorary "Earl C. Williams Jr. Drive," as a lasting tribute to a man who brought distinction to our community both on and off the field.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the Township of Franklin, County of Somerset, State of New Jersey, that:

1. Winston Drive, located within the Township of Franklin, County of Somerset, State of New Jersey, is hereby designated as Honorary **"Earl C. Williams Jr. Drive"**, in memory of Earl Craig Williams Jr. (July 14, 1948 – January 28, 2013), the 1971 National League Rookie of the Year, longtime resident of Somerset, New Jersey, and cherished member of the Franklin Township community.
2. This honorary designation does not alter the official name of Winston Drive for addressing, mapping, emergency services, or governmental purposes, but shall serve as a permanent tribute to the memory and legacy of Earl C. Williams Jr.
3. The Township Clerk is hereby directed to cause appropriate honorary signage to be erected on Winston Drive in recognition of this designation, as may be deemed suitable by the Mayor and Council.
4. A certified copy of this Resolution shall be presented to the family of Earl C. Williams Jr. as a token of the Mayor and Council's deep respect and appreciation for his contributions to Franklin Township.
5. This Resolution shall take effect immediately upon passage.

COMMENDATIONS & PROCLAMATIONS

Men's Health Month Proclamation

Deputy Mayor Kharazi read the following proclamation:

WHEREAS, June is nationally recognized as Men's Health Month, dedicated to heightening the awareness of preventable health problems and encouraging men and boys to seek regular medical advice and early treatment for disease and injury;

WHEREAS, men in the United States, on average, die nearly five years earlier than women, largely due to preventable conditions, and are less likely to visit a doctor, obtain health screenings, or engage in preventive care;

WHEREAS, leading causes of death among men — including heart disease, cancer, stroke, and diabetes — are significantly more manageable when detected early through regular health screenings and lifestyle choices;

WHEREAS, Franklin Township is home to a vibrant and diverse population of men and boys whose health and vitality are essential to the strength of our families, neighborhoods, and Township;

WHEREAS, we recognize and appreciate the healthcare providers, community organizations, employers, and advocates who work tirelessly to improve men's health outcomes through education, access, and care; and

WHEREAS, promoting healthy lifestyles and encouraging men to take an active role in their own health contributes directly to stronger families and a more resilient community.

NOW, THEREFORE, BE IT PROCLAIMED that the Mayor and Township Council of Franklin Township, Somerset County, New Jersey, do hereby proclaim June 2026 as MEN'S HEALTH MONTH in Franklin Township, and call upon all residents, healthcare professionals, employers, and community organizations to promote awareness of men's health issues, encourage preventive care, and support the overall well-being of the men and boys who call Franklin Township home.

Men's Mental Health Month Proclamation

Deputy Mayor Kharazi read the following proclamation:

WHEREAS, June is recognized nationally as Men's Mental Health Month, a time dedicated to raising awareness about the mental health challenges faced by men and boys throughout our communities;

WHEREAS, men are significantly less likely than women to seek mental health treatment, and suicide rates among men are alarmingly higher, with men accounting for approximately 80% of all suicide deaths in the United States;

WHEREAS, stigma, cultural norms, and societal pressures often discourage men from discussing emotional struggles, seeking professional help, or acknowledging vulnerability — barriers that cost lives;

WHEREAS, mental health conditions including depression, anxiety, post-traumatic stress disorder, and substance use disorders affect millions of men across New Jersey and the nation, impacting families, workplaces, and communities;

WHEREAS, Franklin Township is committed to fostering an environment where all residents — regardless of gender — feel safe, supported, and encouraged to prioritize their mental well-being; and

WHEREAS, by increasing awareness, eliminating stigma, and expanding access to mental health resources, we can save lives and strengthen the fabric of our community.

NOW, THEREFORE, BE IT PROCLAIMED that the Mayor and Township Council of Franklin Township, Somerset County, New Jersey, do hereby proclaim June 2026 as MEN'S MENTAL HEALTH MONTH in Franklin Township, and urge all residents, organizations, healthcare providers, and community leaders to join in raising awareness, offering compassion, and supporting the men and boys in our lives in seeking the care they deserve.

Immigrant Heritage Month Proclamation

Ms. Uddin read the following proclamation:

WHEREAS, June is recognized nationally as Immigrant Heritage Month, a time to celebrate the countless contributions immigrants have made — and continue to make — to our nation, our state, and our local communities;

WHEREAS, the United States was built by generations of immigrants who arrived seeking freedom, opportunity, and a better life for their families, bringing with them diverse cultures, languages, traditions, skills, and perspectives that have enriched every facet of American life;

WHEREAS, Franklin Township, Somerset County, is itself a testament to the strength of diversity, home to residents with roots spanning the globe whose labor, ingenuity, entrepreneurship, and civic engagement have shaped our Township into the vibrant community it is today;

WHEREAS, immigrants serve as educators, healthcare workers, small business owners, engineers, artists, military veterans, and community leaders who contribute immeasurably to the economic vitality and cultural richness of our Township;

WHEREAS, acknowledging immigrant heritage fosters understanding, combats discrimination, and reaffirms our shared commitment to the values of inclusion, dignity, and equal opportunity for all; and

WHEREAS, Franklin Township is proud to be a welcoming community where residents of all national origins and backgrounds are valued, respected, and celebrated.

NOW, THEREFORE, BE IT PROCLAIMED that the Mayor and Township Council of Franklin Township, Somerset County, New Jersey, do hereby proclaim June 2026 as IMMIGRANT HERITAGE MONTH in Franklin Township, and encourage all residents to learn about and celebrate the immigrant stories and cultures that have shaped our Township, to honor the contributions of our immigrant neighbors, and to recommit ourselves to building a community rooted in welcome, respect, and shared purpose.

Juneteenth National Freedom Day Proclamation

Ms. Francois, along with Mr. Onyejiaka, read the following proclamation:

WHEREAS, June 19, 1865 — known as Juneteenth — marks the day Union soldiers arrived in Galveston, Texas, and announced the end of the Civil War and the emancipation of enslaved African Americans, more than two months after the Confederacy's surrender;

WHEREAS, Juneteenth is the oldest nationally celebrated commemoration of the end of slavery in the United States, and was designated a federal public holiday in 2021, recognizing the profound historical significance of this date to African Americans and to all Americans;

WHEREAS, the freedom proclaimed on Juneteenth did not arrive as promised by the Emancipation Proclamation of 1863, and its delay stands as a reminder that the work of ensuring liberty, justice, and equality for all people remains an ongoing obligation;

WHEREAS, Juneteenth is a day of reflection, celebration, and rededication — honoring the resilience, strength, and enduring contributions of African Americans to the culture, history, economy, and democracy of the United States;

WHEREAS, Franklin Township is enriched by the presence and leadership of its African American residents, whose heritage, culture, and community are an integral part of what makes our Township great; and

WHEREAS, recognizing Juneteenth strengthens our collective resolve to confront the legacy of slavery and systemic racism, and to work together toward a community and nation where freedom, equity, and justice are fully realized for every person.

NOW, THEREFORE, BE IT PROCLAIMED that the Mayor and Township Council of Franklin Township, Somerset County, New Jersey, do hereby proclaim June 19, 2026 as JUNETEENTH NATIONAL FREEDOM DAY in Franklin Township, and call upon all residents to reflect upon the meaning of this historic day, to honor the memory of those who endured slavery and fought for freedom, to celebrate the resilience and achievements of the African American community, and to renew our commitment to justice, equity, and the full promise of freedom for all people.

PUBLIC DISCUSSION

The Public Discussion was opened upon unanimous consent.

Steven Savard, Society Hill III HOA Secretary, requested the immediate installation of speed bumps, crosswalks, and pedestrian signals of Beekman Road due to escalating dangerous conditions and recent accidents. He presented a petition with over 300 signatures from the community.

Debbie Stewart, 2 Farrington Plaza, inquired about resources for collecting trash from roads and noted the absence of "school" signs on Mettler's Road near the charter school.

Deborah Inman, 67 Roberts Road, raised concerns about constant violations of the noise ordinance by a resident renting out their pool and requested that the homeowner be held accountable through summonses.

Alex Clark, 396 Hamilton Street, advocated for ranked choice voting, highlighting its benefits in various elections and requesting the Council to support relevant legislation (S1643 and A1745).

Brenda Harper, 146 Churchill Avenue, asked about the number of CBD businesses in the 4th Ward and the lack of healthy food options and nearby supermarkets. She also thanked the Council for facilitating tree maintenance and inquired why the Juneteenth celebration was scheduled earlier than June 19th.

Skip Richards, 14 Bryant Court, thanked the Council for a recent sign change on Weston Canal Road and requested an additional "No Trucks" sign at the turn by Schoolhouse Road and Weston Canal Road.

Jan Brant, 22 Bryant Court, commended the Public Works Department for their quick response and repair of a streetlight on her street.

The Public Discussion was closed upon unanimous consent.

ADDRESS PUBLIC COMMENTS & QUESTIONS

Responses to Public Discussion:

Mayor Kramer briefly acknowledged the speaker's advocacy, stating, "Rank Choice Voting, where were you this last week? We needed it," but did not commit to specific action.

Mayor Kramer clarified that CBD shops are different from licensed cannabis dispensaries and that the number of licensed dispensaries is around 20-21, not all in the 4th Ward. He noted that the state does not inform them of available licenses.

Regarding the supermarket, Mayor Kramer mentioned that another grocery chain might have purchased or rented the former Stop & Shop area, but he lacked current leasing information and suggested contacting the property owner.

Mr. Vornlocker clarified that speed bumps are not permitted on public roads in New Jersey, but speed humps are, with specific policy available on the Police Department's website. He notes that speed limits cannot be randomly changed and require an engineering study. For crosswalks, ADA compliance with HOA-controlled sidewalks is necessary, and the engineer would reach out to the HOA to explain the requirements. Flashing beacons are a budgetary decision based on engineering studies.

Mr. Vornlocker stated that the Public Works Department conducts Saturday roadside t rash pickups from April to October and encouraged reporting specific locations via the "Report a Road Condition" form on the Township website.

Mr. Vornlocker confirmed he had forwarded the resident's request to the Public Safety Director for follow-up. He also noted that the Township currently has no ordinance prohibiting short-term pool rentals and suggested it be added to a future Admin meeting agenda for consideration.

Regarding school signs on Mettler's Road, Mr. Vornlocker explained that school zones are typically established where there is pedestrian traffic, which is not the case for the Central Jersey College Prep School's frontage, making a school zone unlikely.

Mr. Vornlocker thanked Ms. Brant and used the opportunity to inform the public about how to report streetlight outages via the Township website or the Public Service app, emphasizing that the Township pays a flat rate for streetlights and wants them fixed promptly.

Ms. Francois explained that the Juneteenth celebration was organized by the Somerset County Democratic Black Caucus and was likely scheduled for Saturday, June 13th, to reduce policing costs, as June 19th is a national holiday.

PUBLIC HEARING & ADOPTION OF ORDINANCES ON SECOND READING

Ordinance No. 4507-26 An Ordinance Amending the Code of the Township of Franklin, County of Somerset, State of New Jersey, More Particularly Chapter 112, Development, Intended Primarily to Address Light Industrial Development, Including Warehouses, in the Business and Industry (B-I) Zone and to Make Associated Amendments to the Land Development Ordinance

Mayor Kramer presented the following ordinance to the Township Council for public hearing and final adoption and stated the public hearing has been noticed as required.

AN ORDINANCE AMENDING THE CODE OF THE TOWNSHIP OF FRANKLIN, COUNTY OF SOMERSET, STATE OF NEW JERSEY, MORE PARTICULARLY CHAPTER 112, DEVELOPMENT, INTENDED PRIMARILY TO ADDRESS LIGHT INDUSTRIAL DEVELOPMENT, INCLUDING WAREHOUSES, IN THE BUSINESS AND INDUSTRY (B-I) ZONE AND TO MAKE ASSOCIATED AMENDMENTS TO THE LAND DEVELOPMENT ORDINANCE

A video clip was shown from a Planning Board meeting where Ordinance No. 4507-26 was discussed. The Planning Consultant for the Township presented a report on Ordinance No. 4507-26, highlighting its consistency with the Township's Master Plan and its objectives.

Key points from his report include:

- **Consistency with Master Plan:** The ordinance is consistent, or at least not inconsistent, with the master plan's reexamination report and land development ordinances, particularly those pertaining to the business and industrial (B-I) zone. The master plan update included specific land use goals and modified objectives for commercial and industrial uses.

- **More Restrictive Approach:** The Council's proposed ordinance is more restrictive than the Planning Board's initial recommendations. It limits allowable light industrial or warehouse development to low intensity uses.

- **Specific Restrictions:** The ordinance introduces two key parameters:

    - Warehouses must be located within **one road mile** of an interchange with I-287.
    - Warehouses cannot be any closer than **500 feet** from a residential zone boundary.

- **Achieving Objectives:** While the Council's approach is different and more restrictive than the Board's original suggestion, it is equally responsive to the overall recommendation of minimizing traffic, noise, and air quality impacts to preserve the quality of life in residential zones adjacent to the BI zone.

- **Enhanced Oversight:** The ordinance includes new standards requiring truck routes to be laid out for the Board as part of a site plan application, providing an additional layer of oversight. It also maintains provisions like requiring access on higher-order streets and upholding the Floor Area Ratio (FAR) to prevent circumvention of standards.

- **Overall Conclusion:** The consultant concludes that there is nothing in the proposed ordinance that would be inconsistent with the master plan's goals, recommendations, and amendments to the land use element. He noted that the ordinance actually furthers the objectives of minimizing truck traffic through residential areas and reducing impacts on residential zones, even more so than the master plan's initial recommendation.

The public hearing on Ordinance No. 4507-26 was opened upon unanimous consent.

Dave Robertson, 349 Biltmore Lane, supported the ordinance, highlighting its more restrictive nature compared to previous drafts. He praised its provisions for limiting warehouse size,

preventing proximity to residential areas, and restricting locations to within one mile of Route 287, urging its approval to curb harmful sprawl.

Marlon Quan, 29 Jay's Corner, while applauding the Council's efforts, he argued the ordinance didn't go far enough. He requested amendments to reduce the number of permitted loading docks and to close a loophole allowing 18-wheelers on local streets between commonly owned warehouse properties.

Jan Brant, 22 Bryant Court, asked the Council to table the ordinance for stronger safeguards and a clearer understanding of the total warehouse development it would permit. She questioned "how much is enough" given existing approvals and traffic issues, suggesting adjustments to highway distance restrictions or maximum warehouse size.

John Kaplan, Attorney, objected to the ordinance, asserting it was contrary to proper zoning principles, a de facto warehouse prohibition, and arbitrary. He criticized the 1-mile interchange restriction, the 500-foot residential setback, and the outright ban on data centers, citing ongoing litigation against similar prior ordinances.

Matt Flynn, Professional Planner, focused on the arbitrary nature of the one-road-mile restriction, questioning its planning goals and suggesting it could concentrate traffic at already problematic interchanges. He argued that traditional zoning methods could better achieve intensity limits and noted the data center ban lacked master plan support.

Ken Berkowitz, 7 Mayflower Court, supported the ordinance's intent but suggested a minor revision to its summary. He recommended acknowledging that warehouse development has already created significant impacts, rather than stating it will create them, to reflect current realities.

William Lane, Attorney, opposed the ordinance, calling it a de facto warehouse prohibition that abandoned a prior tiered system of development. He argued it would classify many existing and approved warehouses as non-conforming uses, deeming it arbitrary, capricious, and unreasonable.

Skip Richards, 14 Bryant Court, emphasized the critical need to integrate traffic considerations into the ordinance. He cited statistics on trick traffic generated per square foot of warehouse space, highlighting the potential for thousands of additional trucks daily on I-287 exits.

Dr. David Holland stated that the overwhelming majority of voters at Canal Walk support residents advocating stricter warehouse regulations, underscoring community backing for the proposed controls.

Sudhir Shah, 78 Bryant Court, viewed the ordinance as a good first step but called for more long-term perspective. He requested an analysis of vacant land and potential warehouse build-out in specific wards (Ward 2 and 4) to fully understand the cumulative impact.

The public hearing on Ordinance No. 4507-26 was closed upon unanimous consent.

Mr. Singh thanked the study committee, the Planning Board and Mark Healey for their work on the ordinance. He acknowledged the numerous emails received that supported the ordinance, stating that it represented a balance between the community's needs and the reality that developers would continue to apply for warehouse projects. He commented that while it might not be the ideal solution, it was a step in the right direction to prevent issues seen in the past.

Ms. Uddin stated that "perfect is the enemy of the good," implying that while the ordinance might not be flawless, it was a necessary and positive step. She recognized the significant effort by Council colleagues and staff to add guardrails to limit warehouse development. She expressed ongoing concerns about traffic impacts and public safety, particularly for residents sharing roads with large commercial vehicles, and highlighted the impact on the sense of comfort in the community, especially near senior communities like Schoolhouse Road. She praised the proactive measure of not permitting data centers. She also noted that the master plan remains a work in progress, allowing for continued brainstorming and exploration of solutions that balance responsible development.

Mayor Kramer briefly stated that the consultant's presentation 9which afformed the ordinance's consistency with the master plan and its more restrictive nature) spoke for him.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee[1]
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 52:34-25(b) itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest:" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law.

[1] N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

C. In additional to the actual cost of observation and engineering services, the Township shall have full authority to and may deduct and retain from the payments to the contractor the sum of $500.00 for each day any portion of the work (exclusive of minor punch list items which have no substantial impact upon the usability or performance of the contract) remains uncompleted beyond the time limit noted above. This sum will be retained as liquidated damages due to the extreme difficulty of estimating the actual costs which would be suffered by the Township as a result of late completion and does not represent a penalty for late completion.

D. Extension of time may be granted by the Township by reason of unusual difficulty or for other cause deemed by the Township to be good and sufficient, provided that requests for extension be accompanied by the approval, in writing, the Surety Company appearing as such on the bonds furnished by the contractor in accordance with this contract.

51. DIFFERING SITE CONDITIONS.

In the event that the contractor encounters differing site conditions or changed conditions on the contract site, then the following provisions shall apply:

(1) If the contractor encounters differing site conditions during the progress of the work of the contract, the contractor shall promptly notify the Township in writing of the specific differing site

conditions encountered before the site is further disturbed and before any additional work is performed in the impacted area.

(2) Upon receipt of a differing site conditions notice in accordance with paragraph (1) above, or upon the Township otherwise learning of differing site conditions, the Township shall promptly undertake an investigation to determine whether differing site conditions are present.

(3) If the Township determines differing site conditions that may result in additional costs or delays to exist, the Township shall provide prompt written notice to the contractor containing directions on how to proceed.

(4) The Township agrees that it shall make a equitable adjustment to the contract price and the contract completion date for increased costs and delays resulting from the agreed upon differing site conditions encountered by the contractor.

(5) If both the contractor and the Township agree that the Township's investigation and directions decrease the contractor's costs or time of performance, the Township shall be entitled to a fair and equitable downward adjustment of the contract price or time of performance.

(6) If the Township determines that there are no differing site conditions present that would result in additional costs or delays, the Township shall so advise the contractor, in writing, and the contractor shall resume performance of the contract, and shall be entitled to pursue a differing site conditions claim against the Township for additional compensation or time attributable to the alleged differing site conditions.

(7) The execution of the contract between the Township and the contractor shall constitute a representation that the contractor has visited the site and has become generally familiar with the local conditions under which the work is to be performed.

(8) Differing site conditions shall mean physical conditions at the contract work site that are subsurface or otherwise concealed and which differ materially from those indicated in the contract documents, or are of such an unusual nature that the conditions differ materially from those ordinarily encountered and generally recognized as inherent in the work of the character provided for in the contract.

SUSPENSION OF WORK.

(1) The Township agrees to provide written notice to the contractor in advance of any suspension of work lasting more than ten (10) calendar days of the performance of all or any portion of the work of the contract.

(2) If the performance of all or any portion of the work of the contract is suspended by the Township for more than ten (10) calendar days due to no fault of the contractor or as a consequence of an occurrence beyond the Township's control, the contractor shall be entitled to compensation for any resultant delay to the project completion or additional contractor expenses, and to an extension of time, provided that, to the extent feasible, the contractor, within ten (10) calendar days following the conclusion of the suspension, notifies the Township, in writing, of the nature and extent of the suspension of work. The notice shall include available supporting information,

which information may thereafter be supplemented by the contractor as needed and as may be reasonably requested by the Township. Whenever a work suspension exceeds sixty (60) days, upon seven (7) days' written notice, either party to this agreement shall have the option to terminate the contract for cause and to be fairly and equitably compensated therefor.

(3) Upon receipt of the contractor's suspension of work notice in accordance with paragraph (2) of this section, the Township shall promptly evaluate the contractor's notice and promptly advise the contractor of its determination on how to proceed in writing.

(4) (a) If the Township determines that the contractor is entitled to additional compensation or time, the Township shall make a fair and equitable upward adjustment to the contract price and contract completion date.

(b) If the Township determines that the contractor is not entitled to additional compensation or time, the contractor shall proceed with the performance of the contract work, and shall be entitled to pursue a suspension of work claim against the Township for additional compensation or time attributable to the suspension.

(5) Failure of the contractor to provide timely notice of a suspension of work shall result in a waiver of a claim if the Township can prove by clear and convincing evidence that the lack of notice or delayed notice by the contractor actually prejudiced the Township's ability to adequately investigate and defend against the claim.

CHANGE IN CHARACTER OF WORK PROVISIONS.

(1) If the contractor believes that a change directive by the Township results in a material change to the contract work, the contractor shall so notify the Township in writing. The contractor shall continue to perform all work on the project that is not the subject of the notice.

(2) Upon receipt of the contractor's change in character notice in accordance with paragraph (1) above, the Township shall promptly evaluate the contractor's notice and promptly advise the contractor of its determination on how to proceed in writing.

(3) (a) If the Township determines that a change to the contractor's work caused or directed by the Township materially changes the character of any aspect of the contract work, the Township shall make a fair and equitable upward adjustment to the contract price and contract completion date. The basis for any such price adjustment shall be the difference between the cost of performance of the work as planned at the time of contracting and the actual cost of such wok as a result of its change in character, or as otherwise mutually agreed upon by the contractor and the Township prior to the contractor performing the subject work.

(b) If the Township determines that the contractor is not entitled to additional compensation or time, the contractor shall continue the performance of all contract work, and shall be entitled to pursue a claim against the Township for additional compensation or time attributable to the alleged material change.

(4) As used in this section, "material change" means a character change which increases or decreases the contractor's cost of performing the work, increases or decreases the amount of time by which the contractor completes the work in relation to the contractually required completion date, or both.

(5) (a) The Township may increase or decrease the quantity of work to be performed by the contractor.

(b) (1) If the quantity of a pay item is cumulatively increased or decreased by 20 percent or less from the bid proposal quantity, the quantity change shall be considered a minor change in quantity.

(2) If the quantity of a pay item is increased or decreased by more than 20 percent from the bid proposal quantity, the quantity change shall be considered a major change in quantity.

(3) For any minor change in quantity, the Township shall make payment for the quantity of the pay item performed at the bid price for the pay item.

(4) (a) For a major increase in quantity, the Township or contractor may request to renegotiate the price for the quantity in excess of 120 percent of the bid proposal quantity. If a mutual agreement cannot be reached on a negotiated price for a major quantity decrease, the Township shall pay the actual costs plus an additional 10 percent for overhead and an additional 10 percent for profit unless otherwise specified in the original bid.

(b) For a major decrease in quantity, the Township or contractor may request to renegotiate the price for the quantity of work performed. If a mutual agreement cannot be reached on a negotiated price for a major quantity decrease, the Township shall pay the actual costs plus an additional 10 percent for overhead and an additional 10 percent for profit unless otherwise specified in the original bid; provided, however, that the Township shall not make a payment in an amount that exceeds 80 percent of the value of the bid price multiplied by the bid proposal quantity.

(5) Bid proposal quantity shall mean the quantity indicated in the bid proposal less the quantities designated in the project plans as "if and where directed".

52. FEDERAL NON-DEBARMENT CERTIFICATION N.J.S.A. 52:32-44.1 (P.L. 2019, c.406)

MILLING OF BITUMINOUS CONCRETE:

Description:

Milling of Bituminous Concrete shall consist of the removal of Bituminous Concrete surface and base course to the prescribed depth, profile and cross slope. Full width 3" depth milling or less shall be performed, unless otherwise specified.

Equipment:

The milling machine shall be a self-propelled planning, grinding and cutting machine with variable operating speeds, capable of removing Bituminous Concrete without the use of heat.

The milling machine shall be equipped with automatic grade controls. The reference system may be either stringline or ski type. Use of automatic grade controls will be required except at intersections and other locations where it is not practical.

Teeth in the milling drum that become dislodged, broken or unevenly worn shall be replaced immediately with the teeth of the same length as the remaining teeth in that row.

Construction Requirements:

A test strip of approximately 500 square yards shall be constructed within the proposed limits of milling prior to commencement of the milling operations. The test strip shall be used to determine the machine and drum speed operation which will produce the proper surface texture and when profile milling is called for, to determine the cutting depth required to remove ruts and transverse corrugations.

The milling operation may begin when the above criteria have been established and approved. The machine shall be operated at the speeds and cutting depth determined during test trip milling. Test strips shall be constructed for each milling machine used. If the area to be milled is less than 2500 square yards, a test strip may not be required.

The milling operation, including removal of the milled material, shall be carried out in a manner that will prevent dust and other particulate matter from escaping into the air.

If the milled material is to be recycled, the milling equipment, where practical, shall be operated in such a manner as to produce milled material of which 95 percent will pass a 2-1/2 inch sieve.

If the milled material is to be recycled, the area of the milling shall be cleared of all debris and power broomed to remove fine particles prior to milling. Before brooming, earth berms shall be removed as necessary, within the area to be milled to prevent soil and grass from contaminating the milled material. Disposal of earth and debris shall be in accordance with subsection 202.11 of the NJDOT 2019 Specification manual.

Milling shall start at the low side of the cross section and progress toward the high side. Provisions shall be made for removal of any water that may be trapped due to the milling operation, such as by lateral saw cuts into the shoulder area. In the event that all milled areas which are opened to traffic have not been milled to a flush surface by the end of the workday, the longitudinal edges of the milled area exceeding 1-1/2 inched high, shall be sloped and a smooth transition shall be provided at the transverse edges.

Areas to be milled not accessible to the milling machine shall be removed by other equipment.

Bituminous Concrete below the specified level of milling that becomes dislodged or delaminated shall be removed and replaced with Bituminous Concrete in accordance with Section 404 of the NJDOT 2019 Specification manual, without additional compensation.

The surface of the milled area shall be swept clean prior to being opened to traffic and prior to the following construction of resurfacing stage. Sweepings shall be disposed of in accordance with subsection 202.11.

The milled area that will be opened to traffic before resurfacing shall be free from gouges, continuous grooves, ridges and delaminated areas and shall have a uniformly textured appearance consisting of discontinuous longitudinal striations which shall not deviate more than 1 inch in 200 feet from a line parallel to the center of the traveled way and shall not exceed 3/8 inch depth and which shall provide a skid resistance not less than that of the original surface prior to milling and shall permit passage of traffic at the posted speed limit without vehicle operation experiencing impaired directional control. **Manholes shall be ramped with I-2 bituminous base course or 19M64 Hot Mix Asphalt and shall be protected by cones or barrels immediately to protect vehicular traffic.**

Method of Measurement:

Milling will be measured by the square yard.

The depth of the completed milling when measured from the original surface to the top of the high spots of the textured surface shall be equal to the prescribed depth of cut except for profile milling for which the depth of cut shall be only that necessary to remove the bituminous concrete above the bottom of wheel path ruts and transverse corrugations while producing a smooth profile and cross section.

CONSTRUCTION CONTRACTS

During the performance of this contract, the contractor agrees as follows:
The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The con-tractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bar-gaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program, may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures pre-scribed by the following provisions, A, B, and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2 et.seq.. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or sub-contractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or sub-contractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or

scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:
(l) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;
(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;
(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;
(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;
(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;
(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:
(i) The contactor or subcontractor shall interview the referred minority or women worker.
(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the con-tractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.
(iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.
(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.
(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprentice-ship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted Township employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for

said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its web-site, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program, and to the public agency compliance officer.

The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off the job programs for outreach and training of minorities and women.

(D) The contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be re-quested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq.

AMERICANS WITH DISABILITIES ACT OF 1990
Equal Opportunity for Individuals with Disability

The Contractor and the Owner, do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") *(42 U.S.C. S121 01* et seq.), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the owner's grievance procedure, the contractor agrees to abide by any decision of the owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the owner, or if the owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim, If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.

Form 990 Required: No

Dear Applicant:

Based on information supplied, and assuming your operations will be as stated in your application for recognition of exemption, we have determined you are exempt from federal income tax under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3).

We have further determined that you are not a private foundation within the meaning of section 509(a) of the Code, because you are an organization described in the section(s) above.

If your sources of support, or your purposes, character, or method of operation change, please let your key district know so that office can consider the effect of the change on your exempt status and foundation status. In the case of an amended document or bylaws, please send a copy of the amended document or bylaws to your key district. Also, you should inform your key District Director of all changes in your name or address.

As of January 1, 1984, you are liable for taxes under the Federal Insurance Contributions Act (social security taxes) on remuneration of $100 or more you pay to each of your employees during a calendar year. This does not apply, however, if you make or have made a timely election under section 3121(w) of the Code to be exempt from such tax. You are not liable for the tax imposed under the Federal Unemployment Tax Act (FUTA).

Since you are not a private foundation, you are not subject to the excise taxes under Chapter 42 of the Code. However, you are not automatically exempt from other federal excise taxes. If you have any questions about excise, employment, or other federal taxes, please contact your key District Director.

Shree Swaminarayan
Satsang Mandal, Inc.

Donors may deduct contributions to you as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522.

Donors (including private foundations) may rely on this ruling unless the Internal Revenue Service publishes notice to the contrary. However, if you lose your 509(a) status as shown above, donors (other than private foundations) may not rely on the classification shown above if they were in part responsible for, or were aware of, the act that resulted in your loss of such status, or they acquired knowledge that the Internal Revenue Service had given notice that you would be removed from that classification. Private foundations may rely on the classification as long as you were not directly or indirectly controlled by them or by disqualified persons with respect to them. However, private foundations may not rely on the classification shown above if they acquired knowledge that the Internal Revenue Service had given notice that you would be removed from that classification.

If your organization conducts fund-raising events such as benefit dinners, auctions, membership drives, etc., where something of value is received in return for contributions, you can help your donors avoid difficulties with their income tax returns by assisting them in determining the proper tax treatment of their contributions. To do this you should, in advance of the event, determine the fair market value of the benefit received and state it in your fund-raising materials such as solicitations, tickets, and receipts in such a way that your donors can determine how much is deductible and how much is not. To assist you in this, the Service has issued Publication 1391, Deductibility of Payments Made to Organizations Conducting Fund-Raising Events. You may obtain copies of Publication 1391 from your key district office.

You are not required to file federal income tax returns unless you are subject to the tax on unrelated business income under section 511 of the Code. If you are subject to this tax, you must file an income tax return on Form 990-T, Exempt Organization Business Income Tax Return. In this letter we are not determining whether any of your present or proposed activities are unrelated trade or business as defined in section 513 of the Code.

You need an employer identification number even if you have no employees. Please use that number on all returns you file and in all correspondence with the Internal Revenue Service.

Shree Swaminarayan
Satsang Mandal, Inc.

We are informing your key District Director of this ruling. Because this letter could help resolve any questions about your exempt status and foundation status, you should keep it in your permanent records.

If you have any questions about this ruling, please contact the person whose name and telephone number are shown in the heading of this letter. For other matters, including questions concerning reporting requirements, please contact your key District Director.

Sincerely,

14. The Conservancy's performance under this Agreement or its duty to pay any monies is contingent on Green Acres issuing a Certified Market Value that meets or exceeds the contract amount, and approving and providing the non-profit PI funding.

15. The Conservancy shall be responsible for all post-closing activities associated with Green Acres funding and documentation requirements, provided that Franklin Township will reasonably cooperate with any required documentation.

This Shared Services Agreement is the third edition of the Shared Services Agreement between these parties and replaces the second edition of the Shared Services Agreement dated November 13, 2017.

WITNESSETH

WHEREAS, the Township, through its fire marshals (the "Marshals") employed by its Department of Fire Prevention, presently provides certain fire inspection and related services to the Districts and throughout the Township generally (their "Inspection Duties"); and

WHEREAS, the Fire Districts, pursuant to state statute, are responsible for providing fire protection to their respective districts; and

WHEREAS, the Districts, after consulting with the Township, have agreed to contribute, under the terms and conditions of this Agreement, the necessary funds to the Township to allow the Township to maintain the Department of Fire Prevention staffed at the 2009 staff level; and

WHEREAS, in consideration of the Districts' willingness to contribute the necessary funds to the Township, the Township has agreed, under the terms and conditions of this Agreement, to expand the duties of the Fire Marshals employed by the Township to include firefighting and fire response calls during hours when the Fire Marshals are on duty with the Township (such firefighting and fire response call services hereinafter referred to as "Firefighting Duties", and which shall be as set forth in this Agreement below);

WHEREAS, as a result of the expansion of Fire Marshals' duties to include Firefighting Duties during their regular working hours with the Township, the Parties hereto have agreed to allocate the respective costs and risks attendant to such expansion of duties in accordance with the terms and conditions of this Agreement, all as further detailed below; and

WHEREAS, the Parties mutually desire to enter into this Agreement to memorialize the foregoing, all as set forth herein.

NOW, THEREFORE, in consideration of the mutual covenants, conditions and promises contained herein, it is hereby agreed by and between the Parties as follows:

1. Services to be Rendered. As set forth in the Recitals to this Agreement, the Township shall expand the duties of its Fire Marshals to include not only their Inspection Duties, but also, to include Firefighting Duties, as set forth and defined herein, when the Fire Marshals are on duty during normal working hours in the employment of the Township. The Fire Marshals shall render Firefighting Duties to the Districts as set forth herein, and in accordance with all applicable laws generally applicable to the Firefighting Duties, and to firefighters generally.

(a) Firefighting Duties Generally Applicable to All Districts. Subject to any specific requirement of any individual District as set forth below, the Firefighting Duties of Fire Marshals during normal working hours with the Township shall include, by way of example and not limitation, the following:

(i) Fire Marshals will respond to fire calls. The number of Fire Marshals responding, and the types of calls to which they shall respond, shall be a minimum of three (3) Fire Marshals (utilizing best faith efforts to supply at least three (3) Fire Marshals per call), shall respond to all fire calls. All on-duty Fire Marshals shall respond to all "high hazards incidents", and upon request from the incident commander, for any other incident. Examples of "high hazards incidents" for purposes of this Agreement shall include structure fires, hazardous material spills or leaks, technical rescues and MVC with entrapment. It is further agreed that, for purposes of this Agreement, no Fire Marshal shall work overtime beyond his normal working hours with the Township to respond to a fire call in his or her capacity as a Township employee. Nothing herein shall preclude the Parties from revisiting this issue during any subsequent Term or Extension of this Agreement, and the Parties expressly reserve the right to revisit the issue of Fire Marshal overtime incurred with respect to fire calls, and future payments of overtime with respect thereto.

(ii) Fire Marshals shall generate Pre-plans and enter them into the GIS System.

(iii) Fire Marshals shall perform their Inspection Duties, as is currently required at the time of the execution of this Agreement.

(iv) Fire Marshals shall provide Monthly Activity Reports, amended to include man

hours expended for fire calls, as well as the FAAR Report, to the Districts.

(v) Fire Marshals may assist the Districts with "administrative duties". The Commissioners shall coordinate all requests for these duties with the Director of Fire Prevention. Examples of administrative duties, include but are not limited to, assisting with vehicle and equipment repairs, hose testing, ladder testing and pump testing.

(vi) When Fire Marshals respond to an emergency scene, the ICS system shall be followed. When arriving prior to suppression units, the Fire Marshal shall establish command and provide a size up report. Upon arrival of a fire officer or senior member, the Fire Marshal will transfer command. Nothing herein shall preclude Fire Marshals from consulting with on-air fire officers with respect to suggesting modifications of responses if needed. Below are the appropriate guidelines which Fire Marshals are expected to follow:

(A) Township-wide SOG's: The current Township-wide SOG's are Accountability and Mayday.

(B) Other guidelines, as approved by the Director of Fire Prevention, including any other required SOG's that currently are not Township-wide. Pending the promulgation of any other such guidelines, the Parties agree to utilize District No. 1's SOG' in the interim.

2. Districts' Contribution to Township for firefighting duties

a. By June 30, 2026, the Districts shall contribute the collective sum of $197,001.00 to the Township for salary, salary adjustments and other expenses to compensate the Township for expanding the Fire Marshal's duties to include firefighting duties.

i. This sum includes $114,004 for the salary and expenses for a Fire Marshal under the 2009 and 2017 Agreement; and

ii. This sum includes $18,135 for the salary adjustment to increase the work week from 35 hours to 40 hours for the Director of Fire Prevention effect November 1, 2022; and

iii. This sum includes $40,500 for a 12% salary adjustment for Firefighting duties for fire marshals effective July 1, 2025. The driving stipend in the Addendum is part of the 12% salary adjustment; and

iv. This sum includes $10,000 for overtime expenses to maintain minimum staffing; and

v. This sum includes $5,500 for uniform maintenance; and

vi. This sum includes $6,500 for turn-out gear maintenance.

The Parties expressly agree that this contribution is being made to supplement the expense of assisting the Districts and to avoid a reduction in force for economic reasons. The contribution shall be distributed amongst the Districts based on percentage of tax ratables, currently as follows: District No. 1, 68%; District No. 2, 32%; and, District No. 4, 0.75 %. The Districts shall

be exclusively responsible for this contribution to the Township, and provided the contribution is made no later than June 30th in each year during which this Agreement is in force, the current staffing levels shall not be reduced for economic reasons. Nothing herein shall otherwise limit the Township's rights of managerial prerogative, including with respect to adequate staffing, or otherwise limit the Township's rights to reduce force in the event the contribution required by this Section is not made.

(b) Contributions from the Fire Districts to Franklin Township for Staffing/Insurance/Uniforms & Turn-out gear, required under Section 2, 3(a), 3 (b), 4 (a) and 4 (b). The Fire Districts shall make a contribution to the Township on or before June 30th each year this agreement is in force. The contribution, starting in 2026, shall be distributed amongst the Districts based on percentage of tax ratables, currently as follows: District No. 1 - $133.180 (68%), District No. 2 - $62,702 (32%) and District No. 4 - $1,119 (.75%). If the agreement is canceled during the year, the contribution shall be prorated on a monthly basis. These amounts will be adjusted to reflect the actual costs to the Township. These amounts shall increase annually by 2%.

3. Insurance Generally. With respect to the Fire Marshals' performance of the Firefighting Duties under the terms of this Agreement,:

(a) Workers' Compensation; Errors & Omissions. During the term of this Agreement, Workers' Compensation and Errors & Omissions ("E&O") insurance shall be provided thusly:

(i) Whenever any Fire Marshal shall perform Firefighting Duties during his or her normal working hours with the Township, the Township's Workers' Compensation and E&O insurance shall apply and cover same. The Township will ensure that its Worker's Compensation and E&O policy(ies) are appropriately amended and endorsed to add such coverage to cover the Firefighting Duties of the Fire Marshals during work hours. For each year during which this Agreement remains in force, the Districts shall collectively reimburse the Township for the added, commercially reasonable costs of Workers' Compensation, E&O and any other insurance required to cover the Firefighting Duties as set forth in this Section. The Districts shall allocate the cost thereof in the same manner as they have allocated the annual contribution set forth in Section 3 above; or,

(ii) Whenever any Fire Marshal shall perform Firefighting Duties while a volunteer of any District, or after his or her normal working hours with the Township, the respective Districts' Workers' Compensation and E&O insurance shall apply and cover same. The Districts shall respectively ensure that their Workers' Compensation and E&O policy(ies) are appropriately amended and endorsed to add such coverage to cover the Firefighting Duties of the Fire Marshals during such hours and while performing Firefighting Duties as volunteers of any respective District.

(b) Commercial General Liability Insurance. To the degree not otherwise covered, or not otherwise covered by an E&O policy as provided for under Subsection (a) above, the Township shall maintain appropriate commercial general liability insurance for the Fire Marshals' performance of Firefighting Duties during their normal Township work hours, to afford protection with respect to personal injury, bodily injury, death and property damage. The Districts shall provide analogous coverage to the Fire Marshals performing Firefighting Duties after their normal Township work hours or while volunteers with any respective District, to the extent not otherwise covered, or not otherwise covered by an E&O policy as provided for under Subsection (a) above.

(c) Upon 10 Business Days' Notice, copies of certificates evidencing the insurance required herein, and rating information, shall be furnished to the Party making the request at no cost. Such policies shall be subject to the approval of the other Party for adequacy and form of protection. The Township or the Districts, as the case may be, shall have the right upon 30 days written notice from time to time to cause the other Party to increase liability limits or modify coverage's, provided however, that if the Districts should for any reason request an increase in coverage from the Township for a policy the cost of which they are responsible for under this Agreement, the Districts shall reimburse the Township for the commercially reasonable cost of any such increase or modification.

(d) Not less than 30 days prior to the expiration date or renewal date of any policy provided for hereunder, the Township or the Districts, as the case may be, shall supply the other Party with updated replacement certificates of insurance and amendatory endorsements.

(e) Each Party shall deliver to the other one (1) certificate of insurance evidencing each required insurance coverage upon the execution of this Agreement.

(f) With the exception of Workers' Compensation coverage, each Party shall add the other as an additional insured to its respective policy(ies) of insurance.

(g) In all cases, the Districts agree to bear the value of any added cost to extend the Township's insurance coverage in connection with this Agreement. The Districts shall allocate the cost thereof in the same manner as they have allocated the annual contribution set forth in Section 3 above.

4. Uniform and Turn-Out Gear Costs.

(a) The Parties agree and understand that, as a matter of law, PEOSHA requirements require that all uniforms for the Fire Marshals performing Firefighting Duties must be fire and flame resistant (NFPA 1975-1985). In that regard, the Parties estimate that the annual cost to maintain the uniforms for the staff of Fire Marshals is $10,000. The Department budgets approximately $4,500 annually for uniforms. The Districts shall provide the additional $5,500 funding for these uniforms. The allocation of this payment amongst the Districts shall be as provided in Section 3 above with respect to the contribution required for firefighting duties. Payment of this amount shall be made from the collective

Districts to the Township by June 30th of each year.

b. Turn-out Gear – The parties agree and understand that turn-out gear is required for the firefighting duties that the fire marshals provide the Districts. The parties agree that turn-out gear needs to be serviced and periodically replaced. The districts shall collectively budget $6,500.00 per year to maintain the turn-out gear. The allocation of this payment amongst the Districts shall be as provided in Section 3 above. Payment of this amount shall be made from the collective Districts to the Township by June 30th of each year.

c. Annually, at the July Fire Prevention Board meeting, the Director of Fire Prevention will present to the Districts any requests for additional funds or equipment for the upcoming Fire District budget cycle. This will allow adequate time for the Districts to consider including such requests in their annual budgets.

6. Minimal Training Requirements for Fire Marshals Performing Firefighting Duties. At the time of the full execution of this Agreement, all current Fire Marshals employed with the Township and who will be performing Firefighting Duties hereunder have, on information and belief, either met the minimal training requirements of firefighters as a matter of law or are otherwise volunteer members of a District's department and have therefore satisfied those requirements through District volunteer training. With respect to Fire Marshals who may be hired or who may perform Firefighting Duties subsequent to the full execution of this Agreement, the Township shall ensure that the job description for Fire Marshals is amended to include Firefighting Duties as part of a Fire Marshal's regular duties. Further, the Parties agree that all new hires or Fire Marshals who shall prospectively undertake Firefighting Duties shall meet the following minimal training requirements before undertaking Firefighting Duties, irrespective of which District they may perform Firefighting Duties for:

- NJDFS Firefighter 1 certification
- NJDFS approved Hazardous Materials Awareness course completion
- NJDFS approved Hazardous Materials Operations course completion
- ICS100 Introduction to ICS
- ICS200 ICS for Single Resources and Initial Action Incidents
- NJDFS IMS Level 1 certification
- I-700 National Incident Management System, An Introduction
- I-800 National Response Framework
- NJDFS Hazardous Materials On Scene Incident Commander certification
- Current in CPR/AED training
- Annual District Physical
- Annual District BBP/RTK/Hazmat refresher training
- Annual Live Burn recertification
- No facial hair that touches mask sealing area

(a) It is hereby agreed amongst the Parties that no Fire Marshal shall be entitled to compensated time off from his or her normal Township work hours for the purpose of engaging in the minimal training requirements required hereunder before engaging in Firefighting Duties. All Fire Marshals who require minimal training as directed by this Agreement are encouraged to become volunteer members of a District fire department in order to meet the minimal training requirements required under this Agreement in order to minimize the impact upon the Township in light of its budgetary constraints.

(b) With respect to continuing training or education required on an annual or other regular basis with respect to Fire Marshals performing Firefighting Duties hereunder, such continuing training or education shall be provided through the respective Districts at their own cost and expense, and at no expense to the Township. NJDFS mandatory annual training will be provided by the Districts, and will occur during the Fire Marshal's normal Township working hours. Training above and beyond the mandatory annual mandatory training (i.e., live burn training considered to be annual respirator training) shall be at the discretion of the Districts and the Fire Prevention Director.

(c) To comply with PEOSHA requirements, the Township shall maintain all training, medical and equipment records for Fire Marshals.

7. Minimal Medical Exam Requirements for Fire Marshals. With respect generally to Fire Marshals who shall perform Firefighting Duties pursuant to the terms of this Agreement, the Parties agree that the following minimal medical exam requirements shall apply to all Fire Marshals performing such Duties, irrespective of which District for which such Duties are rendered:

The Parties hereby agree to follow Fire District No. 1 or Fire District No. 2 minimal medical exam requirements for Fire Marshals performing Firefighting Duties under this Agreement. The Fire Districts agree to provide funding for the cost of annual firefighter medical exams for the Department of Fire Prevention.

(a) Failure of Fire Marshals to Meet Minimal Physical Requirements. In the event that any Fire Marshal performing Firefighting Duties hereunder should fail to meet the minimal physical requirements, or otherwise fails a medical exam required under this Section, that Fire Marshal shall not be permitted to perform firefighting duties unless and until cleared for such service by District 1 medical officer (Dr. Jeffrey Kaladas at this time). If any such Fire Marshal is otherwise able to perform Firefighting Duties that do not require responding to fire calls or do not require actual firefighting, then that Fire Marshal shall be permitted to continue to perform such Firefighting Duties as recommended by the District medical doctor.

(b) Notwithstanding the foregoing, in the event any Fire Marshal is permanently incapable or unable to perform Firefighting Duties of any kind in the opinion of a District medical doctor, then in such a case the Fire Marshal shall no longer be deemed fit to perform

such Firefighting Duties as a District medical doctor may direct. Nothing herein shall preclude, however, any Fire Marshal from continuing to work for the Township as a Fire Marshal performing Inspection Duties that do not encompass Firefighting Duties.

8. Minimum Wage Requirements of Fair Labor Standards Act. On information and belief, the Parties do not believe that the minimum wage provisions of the Federal Fair Labor Standards Act ("FLSA") will be violated by having the Fire Marshals perform both their ordinary hours of Inspection Duties for the Township, and the hours of Firefighting Duties contemplated by this Agreement. If, however, a minimum wage or similar violation of the FLSA should occur by virtue of a Fire Marshal's working of excessive hours in rendering Firefighting Duties, then the collective Districts shall be responsible for, in order to mitigate such a violation, compensating an individual Fire Marshal for any excessive hours incurred in performing Firefighting Duties that resulted in the FLSA minimum wage violation. Such compensation to a Fire Marshal shall be apportioned amongst the Districts in accordance with Section 2 of this Agreement applicable to the contribution required there under. There shall be no cost to the Township for such a FLSA minimum wage violation, and the Districts accordingly agree to indemnify, save and hold the Township harmless with respect thereto. For purposes of this Section, a FLSA minimum wage violation shall be deemed to occur when an Fire Marshal's total compensation for undertaking both Inspection Duties and Firefighting Duties for a given pay period, when divided by the total number of hours works in that period with respect to both types of Duties, shall be less than the Federal minimum wage then in effect pursuant to the FLSA or analogous Federal law or regulation.

9. No Impact Upon Inspection Duties performed prior to Agreement. This Agreement shall not be construed to have any adverse impact upon the Inspection Duties performed by Fire Marshals for the Districts and the Township at large prior to the entry of the Parties into this Agreement. Further, this Agreement shall have no adverse impact upon the provision of Inspection Services by Fire Marshals to any District which opts not to participate in this Agreement, or which subsequently opts out of this Agreement. This Agreement shall be construed only as providing the enhanced benefit of Fire Marshal Firefighting Duties as provided herein.

10. Compensation of Fire Marshals Engaged in Firefighting Duties Hereunder. Except as otherwise provided by the terms of this Agreement, Section 2 (a)iii, the compensation and benefits of all Fire Marshals engaging in Firefighting Duties under the terms of this Agreement during their normal working hours with the Township, shall continue to be paid by the Township [in accordance with the terms and conditions of the collective bargaining agreement entered into between the Township and the FMBA].

(a) PFRS (Police and Firefighters Retirement System) – The fire marshals are enrolled in PERS (Public Employees Retirement System). If at any time the fire marshals become eligible for PFRS because of their additional firefighting duties under this agreement, the Fire Districts

shall be solely responsible for all additional pension expenses above PERS expense or the Districts will have the option to terminate the agreement.

11. Reports. Each month, or upon such regular intervals as the Parties may agree, the Township will provide the Districts with a report reflecting the Firefighting Duties rendered by Township Fire Marshals for the preceding month or interval, as the case may be, identifying at a minimum the number of fire calls to which Fire Marshals responded and the man hours expended. Such Reports shall also identify other such statistical and necessary data as may be deemed necessary by the Parties to ascertain the scope of the Firefighting Duties being rendered by Fire Marshals hereunder. The Parties agree that the Monthly Activity Reports, amended to include man hours expended for fire calls, as well as the FAAR Report, both identified in Paragraph 1(iv) of this Agreement, shall suffice with respect to those obligations covered thereby and set forth herein.

12. Responsibility for Personnel Rendering Firefighting Duties. The Township, through its Department of Fire Prevention, shall be primarily responsible for all hiring of Fire Marshals and the management of Fire Marshals required to render Firefighting Duties during Township normal work hours. The Township shall maintain all personnel records and shall process all payroll payments for Township Fire Marshals engaged in such Duties during normal Township work hours.

13. Compliance with Employment Regulations. The Township and the Districts shall be jointly responsible for ensuring that all State and Federal regulations governing the employment of personnel are adhered to, including without limitation the FLSA, and that adequate records are maintained to demonstrate adherence.

14. Access to Records. All Parties agree that they will provide immediate access to any and all records related to the performance of this Agreement immediately upon request.

15. Meetings. All Parties will be subject to all the requirements of this Agreement. The Parties agree that they will meet on a monthly basis, or as needed, to discuss the progress of the Firefighting Duties rendered by Township Fire Marshals hereunder.

16. Term; Renewal and Extensions; Termination. The term of this agreement shall be one year from the date of execution by all parties.
