- Parks and Recreation Month

Actions out of Executive Session

Public Wishing to Address Council

On a subject that is posted on this agenda: Please fill out a speaker registration form which can be found on the table at the entrance to the Council Chamber. Clearly print your name and the letter of the item on which you wish to speak and present it to the City Secretary on the dais, prior to the start of the meeting. You will be called forward to speak when the Council considers that item. Only persons who have delivered the speaker form prior to the meeting being called to order may speak. Speakers will be allowed up to three minutes to speak. If you wish to speak for six minutes, it is permissible to use another requestor's granted time to speak. No more than six minutes for a speaker may be granted. The requestor granting time to another speaker must also submit a form and be present at the meeting.

On a subject not posted on the agenda: An individual may address the Council at a regular City Council meeting by contacting the City Secretary no later than noon on the Wednesday prior to the Tuesday meeting, with the individual's name and a brief description of the subject to be addressed. Only those persons who have submitted a timely request will be allowed to speak. Speakers will be given up to three minutes to address the City Council. The City Secretary can be reached at (512) 931-7715 or cs@georgetowntexas.gov.

4.A Public Wishing to Address 07.28.2026
- Upendra Chowlera wishes to speak about his utility bill.
- Michelle Augustine wishes to to give an Update on Neighbors First! programs addressing homelessness.
- Elaine Sebald - ceding time to Michelle Augustine for Update on Neighbors First!

Statutory Consent Agenda

The Statutory Consent Agenda includes non-controversial and routine items which may be acted upon with one single vote. An item may be pulled from the Consent Agenda in order to be discussed and acted upon individually as part of the Regular Agenda.

5.A Council Minutes 07.14.26
Consideration and possible action to approve the minutes of the regular City Council meeting held on July 14, 2026 -- Robyn Densmore, City Secretary

5.B Resolution - ETJ Disannexation - Nova368 LLC - 2.45 Acres
Consideration and possible action to approve a Resolution to confirm the disannexation of approximately 2.45 acres of land from the City of Georgetown's Extraterritorial Jurisdiction (ETJ), identified as a portion of Williamson County Appraisal District Parcel R323695 and owned by Nova368 LLC -- Michael Charles, Real Estate Services Coordinator

5.C Resolution - ETJ Disannexation - Carlton - 129.858 Acres
Consideration and possible action to approve a Resolution to confirm the disannexation of approximately 129.858 acres of land from the City of Georgetown's Extraterritorial Jurisdiction (ETJ), identified as Williamson County Appraisal District Parcels R040585 and R550285 and owned by Kathryn J. Carlton, individually and as Trustee for the Kathryn J. Carlton Revocable Living Trust, and Nathan J. Carlton -- Michael Charles, Real Estate Services Coordinator

5.D Resolution - Advanced Funding Agreement with TxDOT for Stadium Drive and NE Inner Loop
Consideration and possible action to approve a resolution authorizing the City Manager to negotiate and approve an Advanced Funding Agreement with Texas Department of Transportation (TxDOT) for intersection improvements at Stadium Drive and Northeast Inner Loop -- Lua Saluone, P.E., Transportation Manager

5.E Resolution - First Amendment to Austin Avenue Advanced Funding Agreement
Consideration and possible action to approve a resolution amending an Advanced

Funding Agreement with Texas Department of Transportation (TxDOT) to extend the limits on the Austin Avenue and Downtown Square Improvements project -- Lua Saluone, P.E., Transportation Manager

MISSION

WCCHD works collaboratively with community partners to serve as the trusted voice to prevent disease, respond to emergencies, and promote and protect equitable health, safety, and well-being for all who live, work, and play in Williamson County.

VISION

Our vision is for WCCHD to empower communities to achieve optimal well-being through accessible and innovative public health services.

VALUES

Our core values guide everything we do at WCCHD:

- **Accountability:** Taking responsibility for actions and decisions
- **Collaboration:** Working together across sectors and communities
- **Quality:** Ensuring services meet high standards
- **Respect**: Valuing others' perspectives and contributions
- **Responsiveness:** Acting quickly to emerging health issues

TOP 3 PRIORITIES IN OUR **STRATEGIC PLAN**

Our new strategic plan is built around three core focus areas designed to strengthen our organization, serve our community, and drive innovation in public health delivery.

Workforce Capacity and Development

Chief Health Strategist for the Community

Maintain Public Health Service Excellence and Strive for Innovation

Preventing Disease

- **Immunizations across the lifespan**
- **Tuberculosis case management and prevention**

Mobile Food Vending Law Change

Effective July 1, 2026, Texas is implementing a new statewide health licensing framework for mobile food vendors. This legislation transfers the application and health licensing functions to the State level, creating uniform standards across Texas while streamlining the compliance process for vendors operating in multiple jurisdictions.

WCCHD's Role

- Assist DSHS with local inspections, mobile food vendor complaints, and foodborne illness investigations
- All Non-mobile food establishment permitting and inspections remain under WCCHD's jurisdiction

City of Georgetown's Role

- Zoning and Fire Access
- Parking and Property Permission
- Public Safety

SUBJECT:
Woodside In-city MUD Expansion Follow-Up Request

SUGGESTED ACTION:
Presentation and discussion regarding the expansion of an in-city Municipal Utility District (MUD) for the proposed Thompson Tract -- Nick Woolery, Assistant City Manager

ITEM SUMMARY:
MK Madison, LP, MK Woodside Development, Inc. submitted a declaration of intent for a proposed project consisting of 162.50 acres in Georgetown's extraterritorial jurisdiction at the intersection of Ronald Reagan Blvd. and SH 195. The Woodside development has proposed an expansion of the in-city Municipal Utility District for the land known as the Thomson Tract. This presentation is intended solely as an introduction to the project.

FINANCIAL IMPACT:
none.

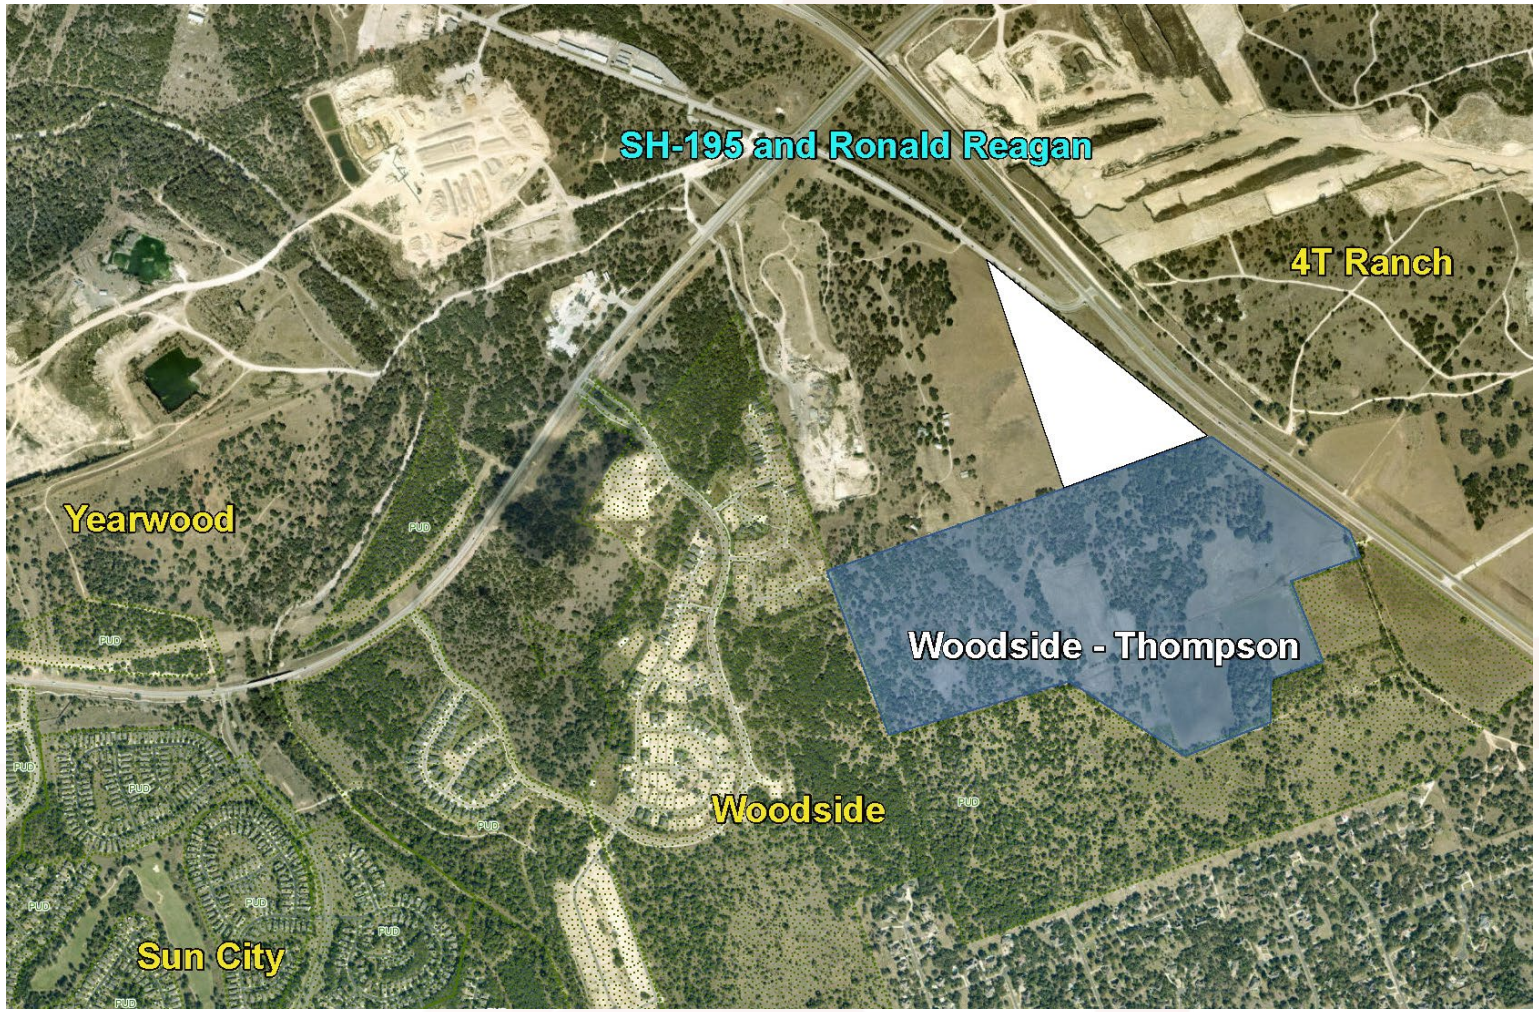
GEORGETOWN TEXAS

MUD Policy

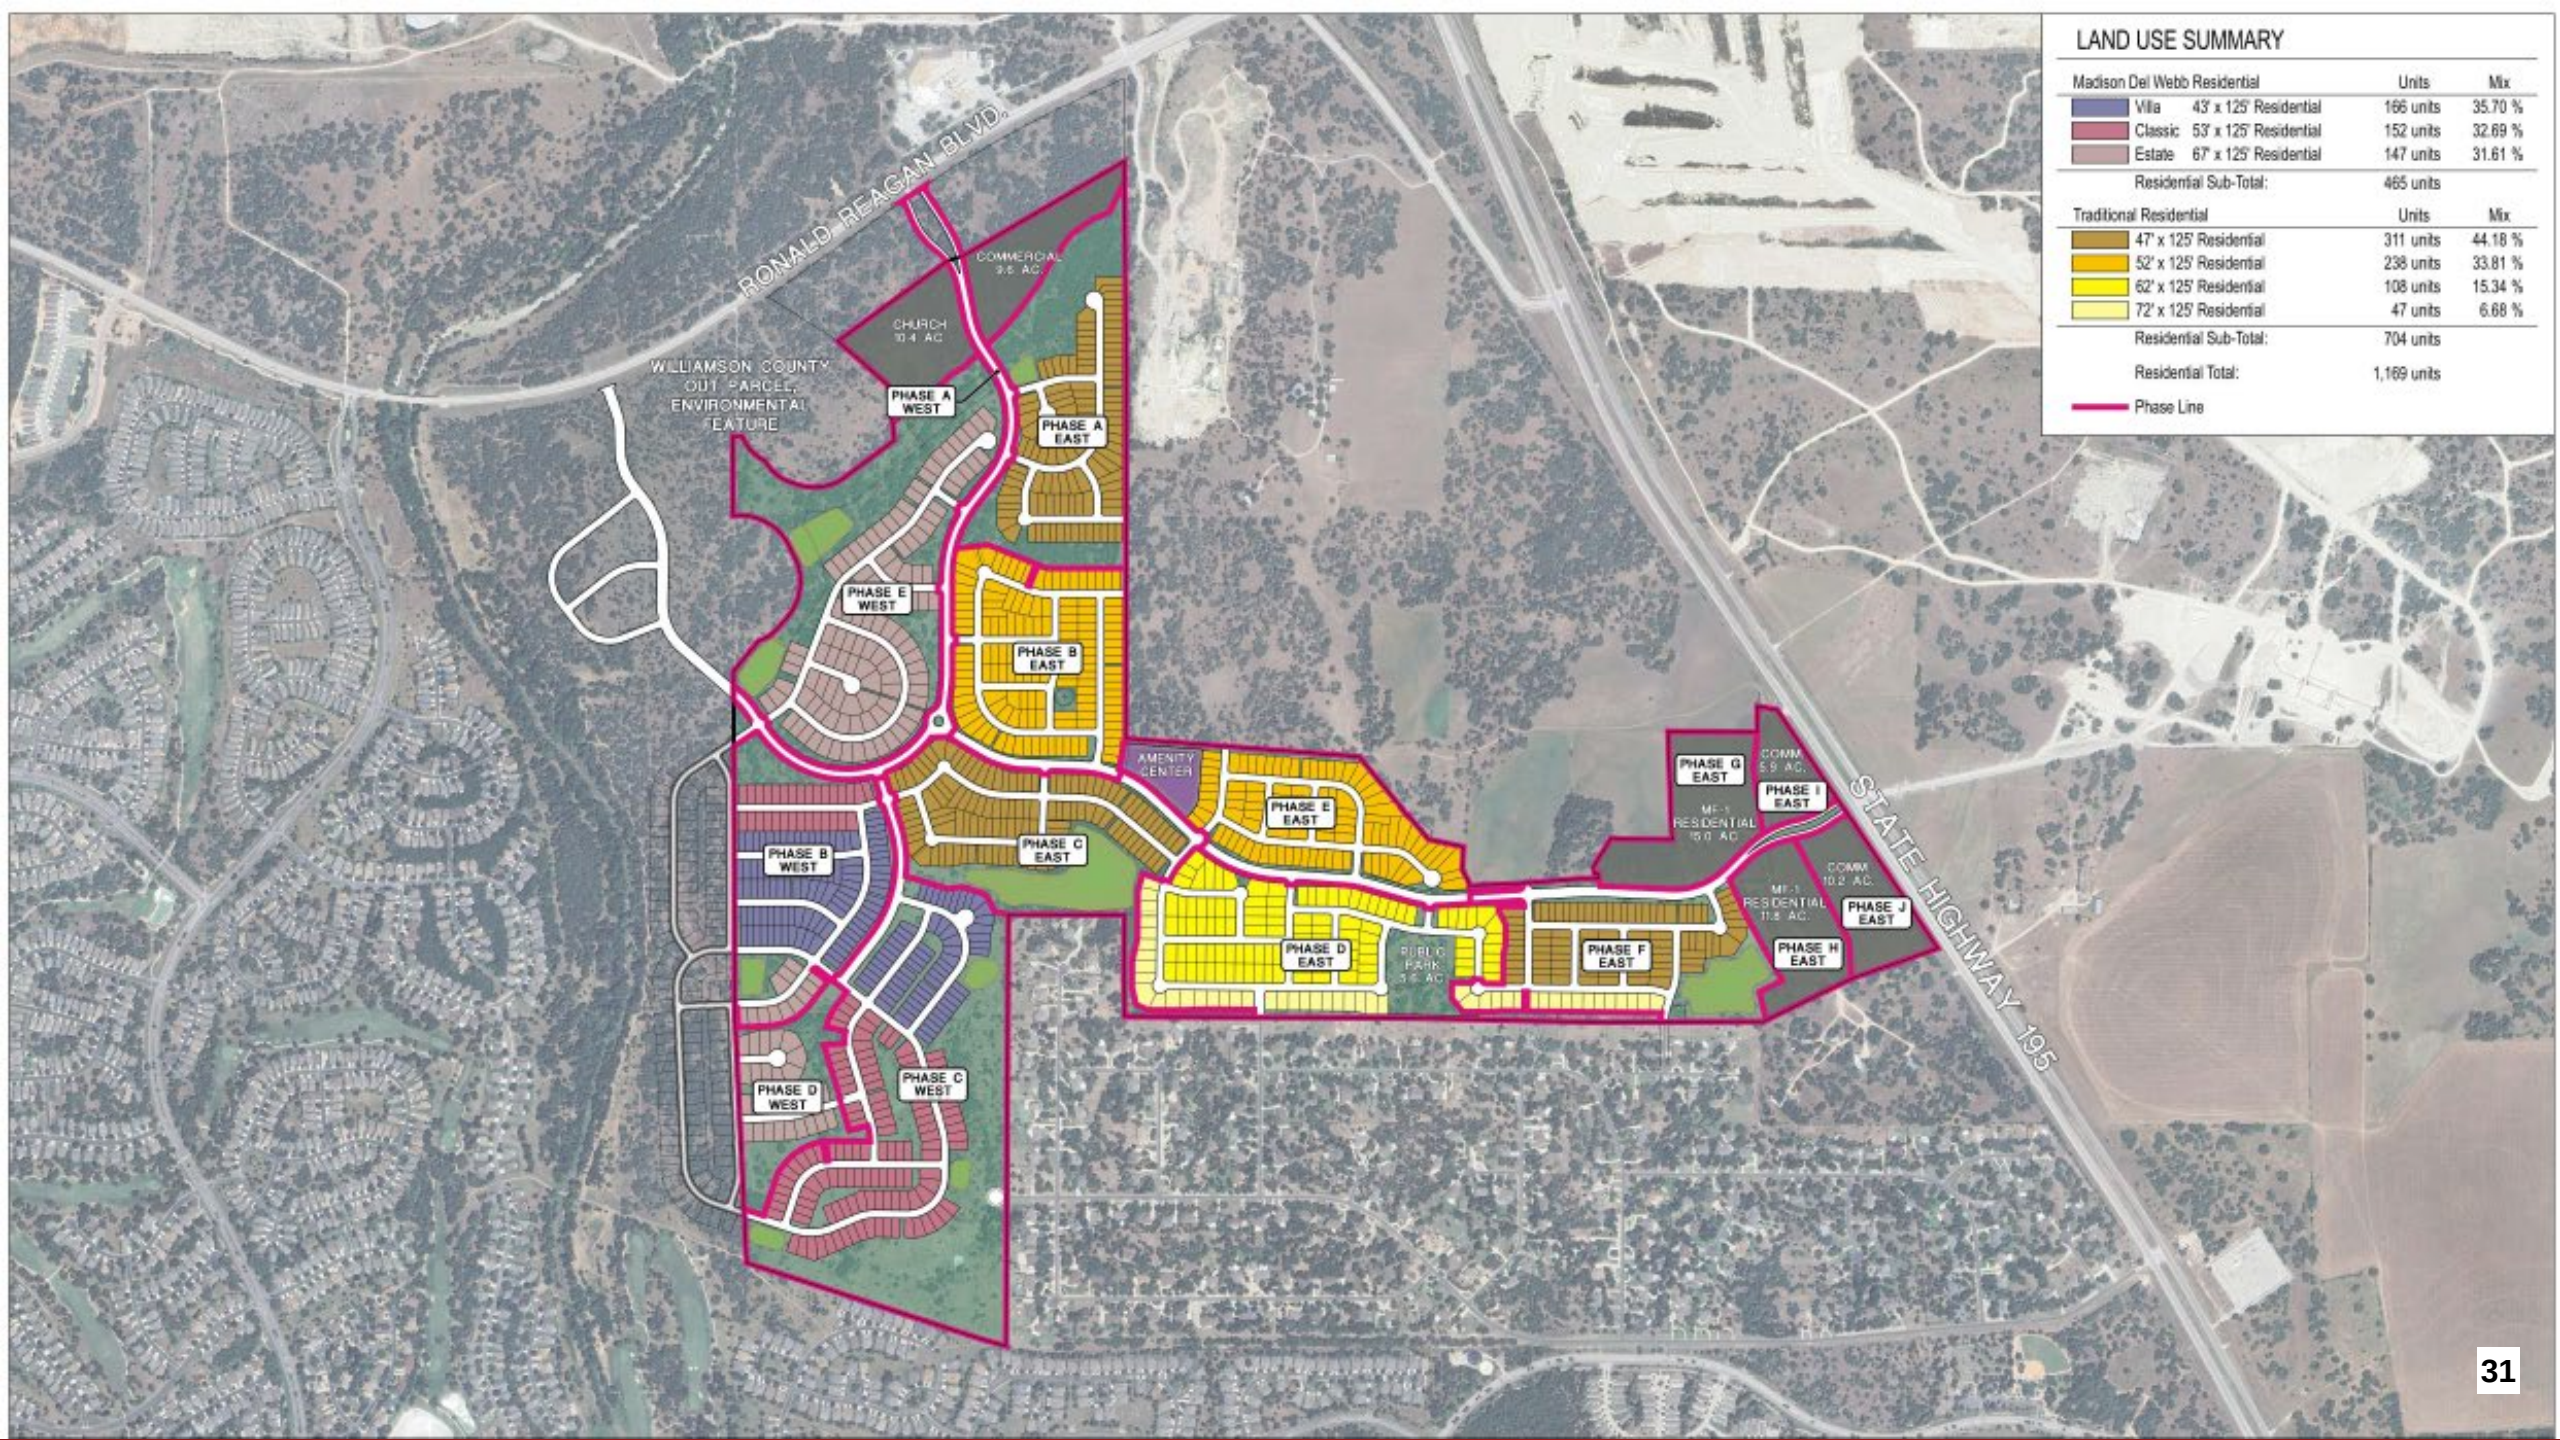
Purpose

The City of Georgetown finds that the purpose of a Municipal Utility District (MUD) is to assist in closing the financial gap when a development is seeking to exceed minimum City standards, provide a robust program of amenities, and/or where substantial off-site infrastructure improvements are required that would serve the MUD and surrounding properties.

Purpose



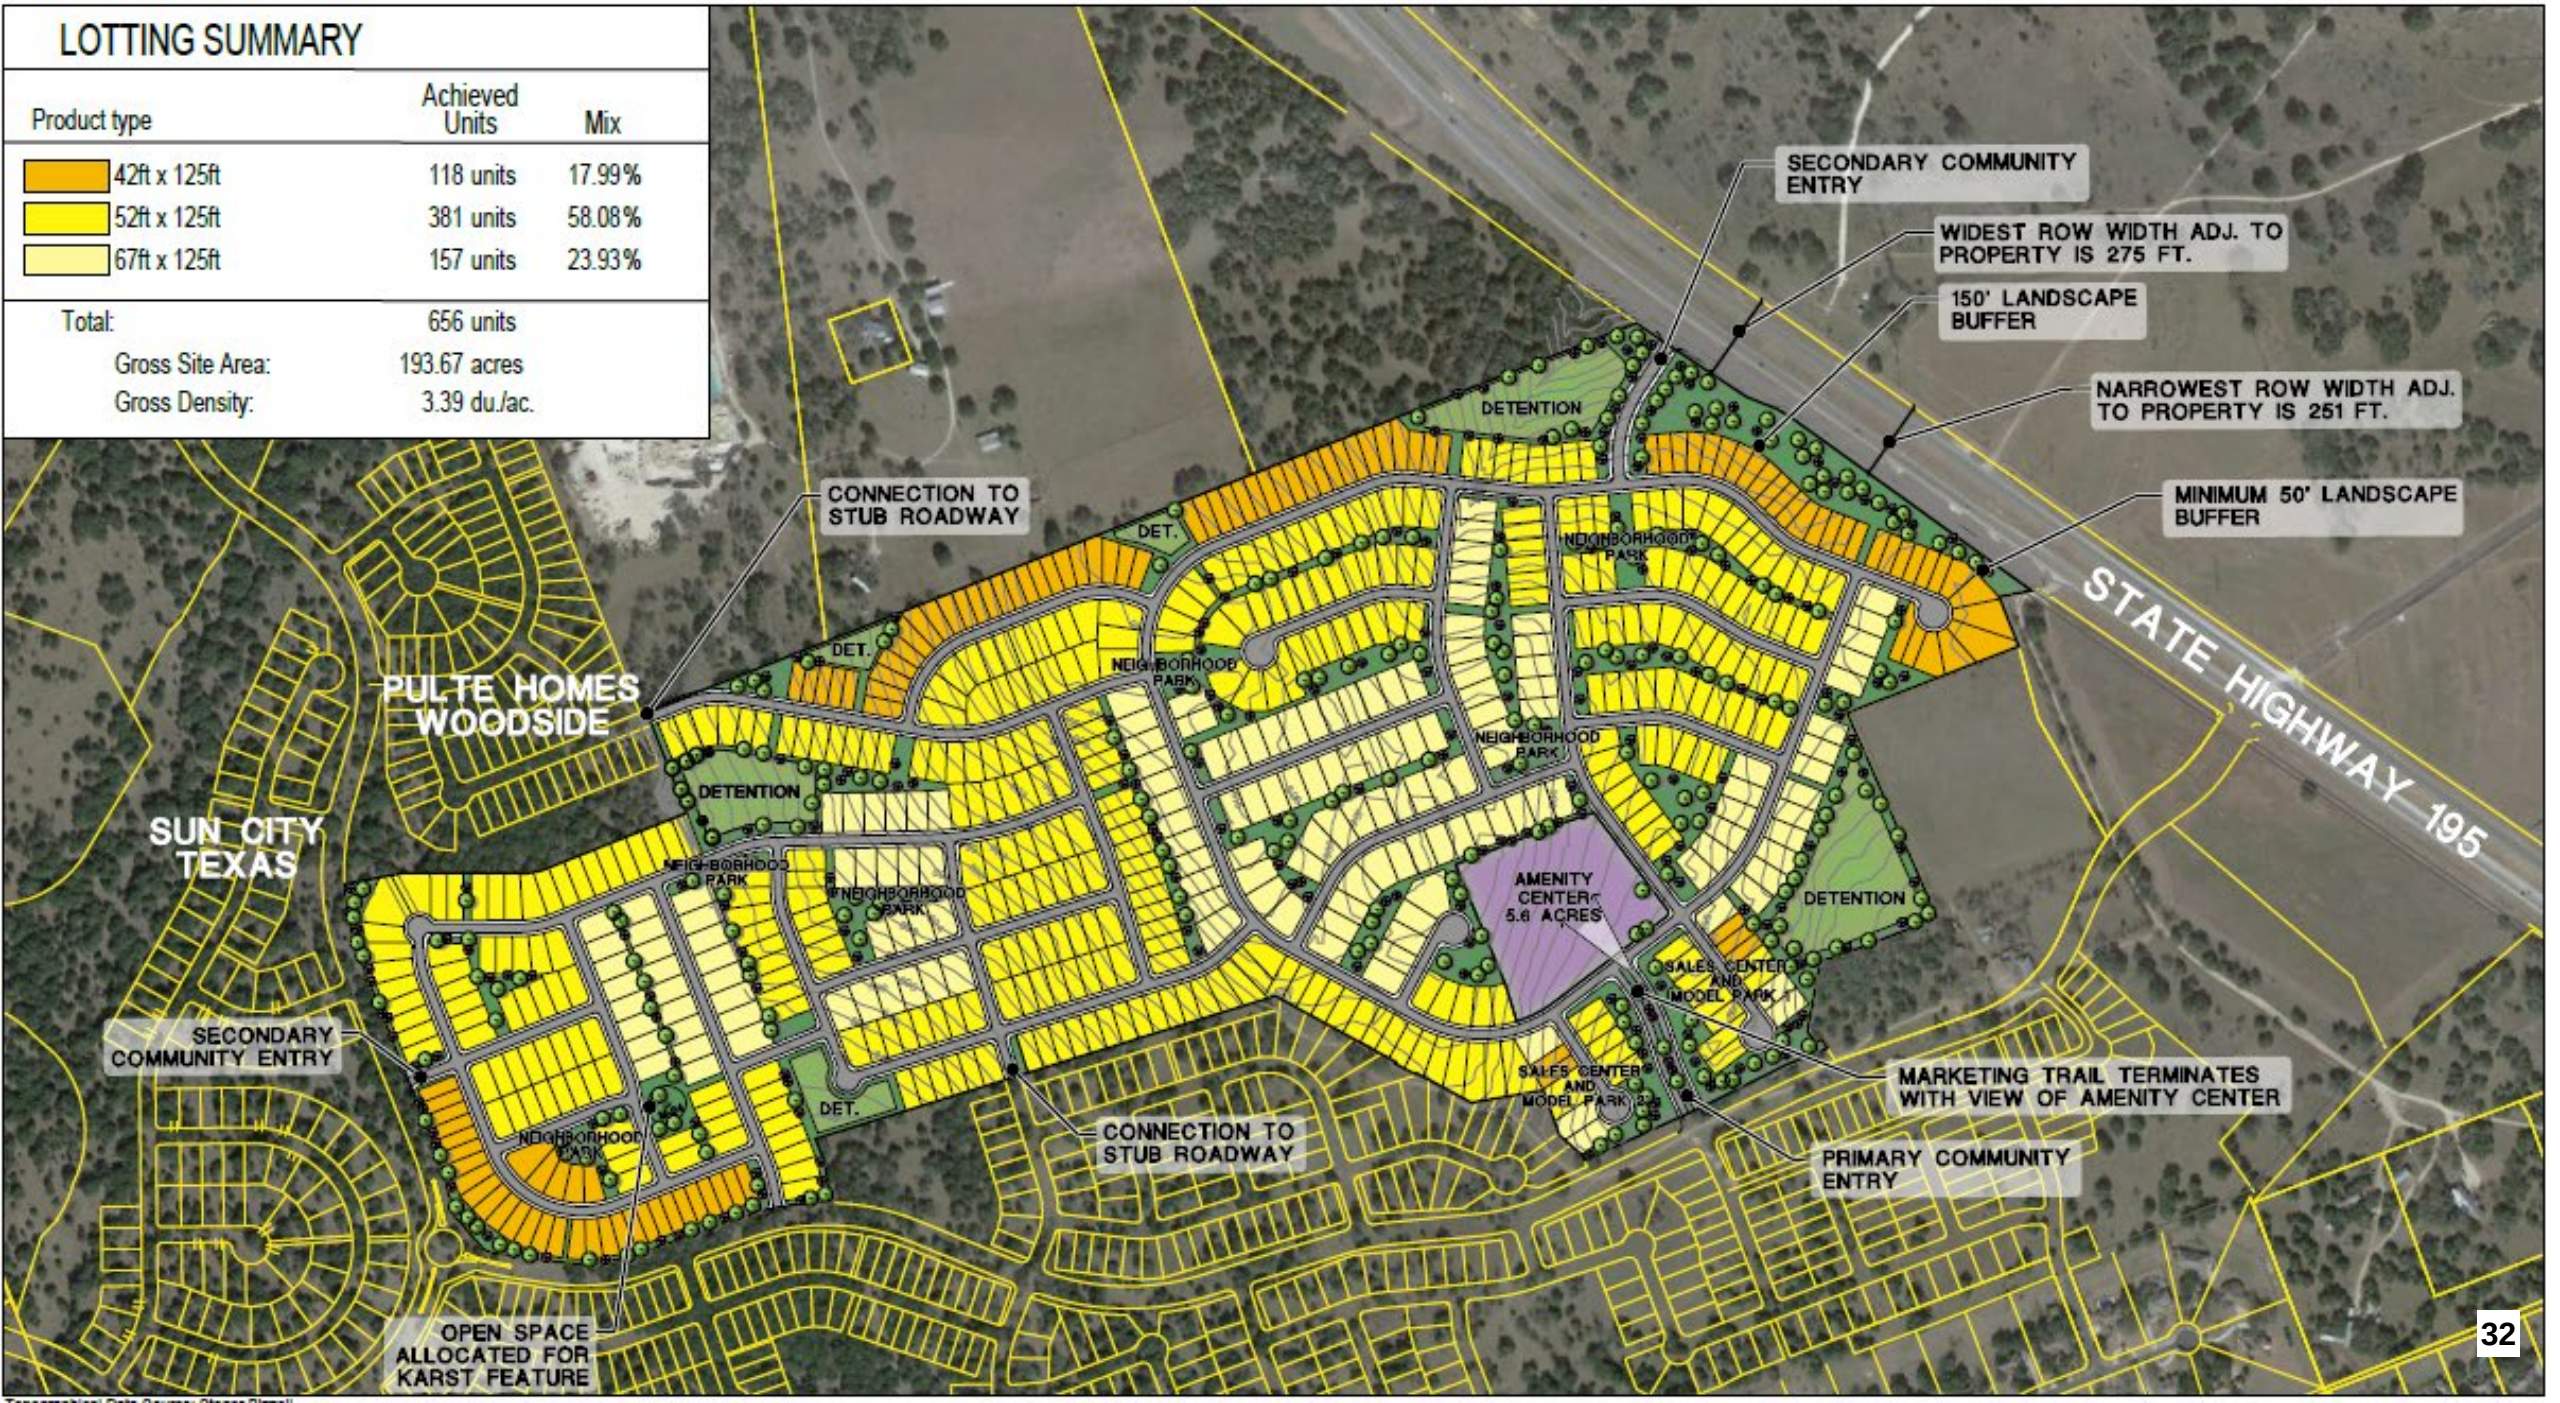
Staff is seeking Council's feedback and direction on whether to proceed with negotiations on a potential In-City MUD expansion for the land known as the Thompson Tract.



Feedback Requested

- Does Council have additional questions or feedback from the follow-up information presented by the developer?
- Based on what Council has seen, do you support staff moving forward with negotiating a MUD expansion?
- If you support the MUD expansion, is there anything else you want to see incorporated into the agreement or the development plan?

Background



- 162.50 acres currently located in the ETJ
- Request is to annex into city limits
- Annex into existing Woodside MUD
- Architectural standards to match current Sun City Del Webb product

Initial Staff / Council Feedback

- **Connectivity –** Provide connections to undeveloped property to the north
- **Entrance (Collector Road) –** Round-a-bout instead of 4-way stop
- **Noise Mitigation –** Minimum 8-foot-tall masonry wall along SH-195 and adjacent commercial site
- **Water –** Developer to extend 18" water line along SH-195
- **Age-Restricted –** Request does not comply with Council's MUD policy; concern over financial implications to the City
- **Commercial –** Desire for commercial along SH-195
- **Tax Rate –** Requested tax rate in compliance with MUD policy, but some questions on why a MUD is needed for this development

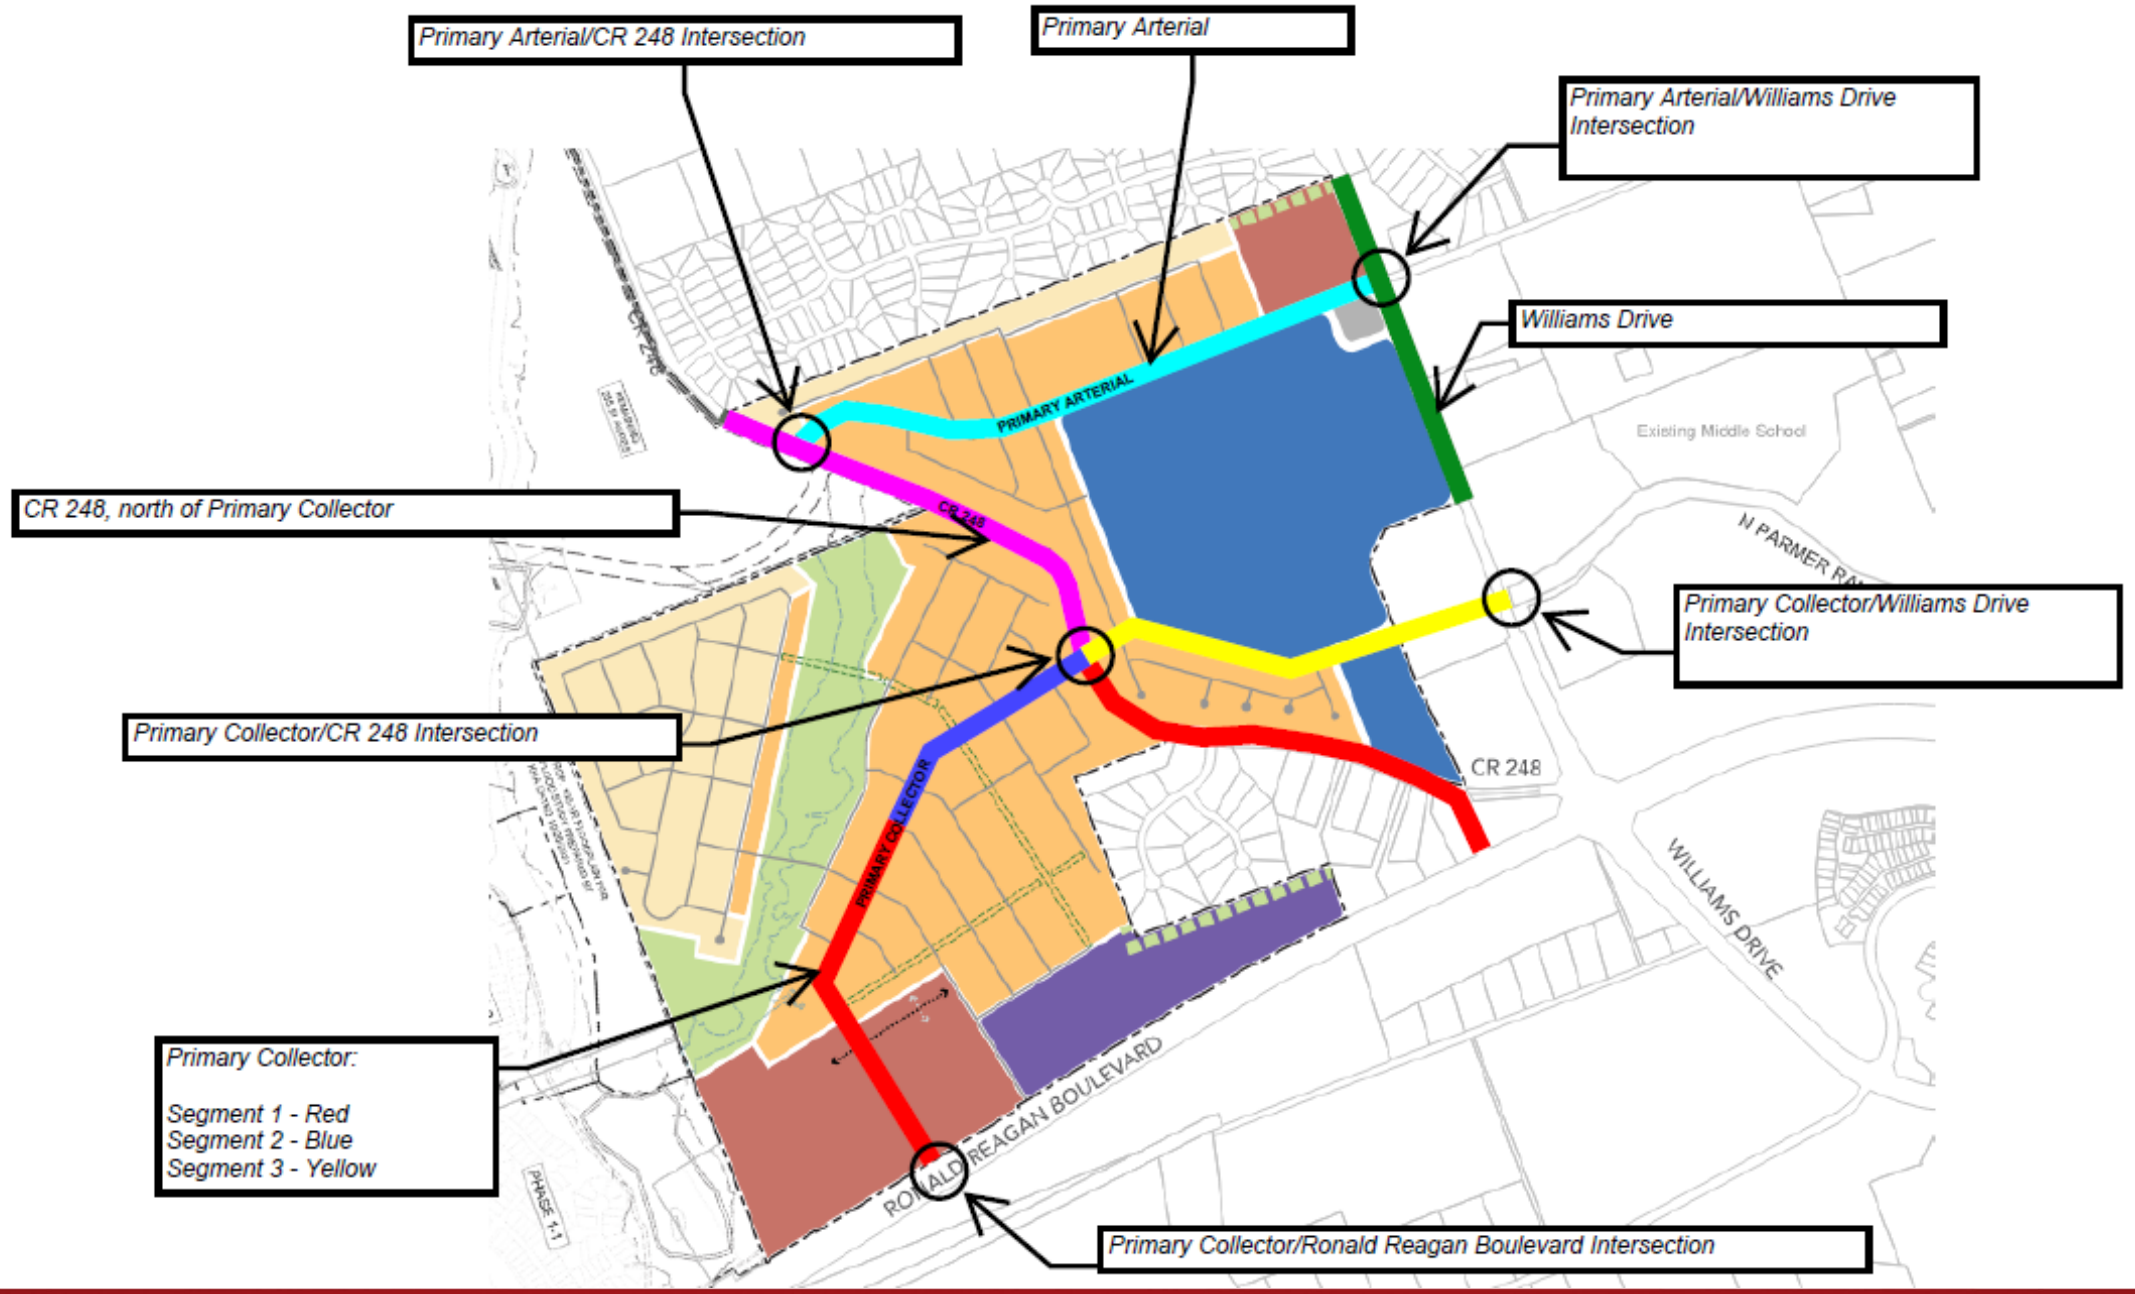
Heirloom Public Improvement District

Requests to Amend the PID Development Agreement

July 28, 2026 | City Council Workshop

GEORGETOWN TEXAS

Purpose



Staff is seeking Council's feedback and direction on a request to amend the Heirloom PID (Public Improvement District) Development Agreement to grant additional variances to the PID Policy and allow water quality ponds to be owned by the City.

Feedback Requested

- Does Council have questions regarding the request that were not addressed during the presentation?
- Does Council support expanding the variance to allow all or some of the costs requested to be added to the PID Construction Bond?
- Does Council support City staff exploring options to allow the water quality ponds to be owned by the City but maintained by the HOA?

Background

- Property was annexed, zoned and had a PID Development Agreement approved in August, 2025.
- PUD covers most land use standards and the PID Development Agreement covers additional land development requirements (including ownership of the water quality ponds) and PID requirements.
- Property is 620 acres and will include up to 3600 residential units, varying sizes and types of commercial development and a large GISD site.
- PID Development Agreement specified an approved variance allowing the developer to issue construction bonds for the cost of the primary collector road and lower the requirement for this bond issuance from 4:1 value-to-lien ratio to 2:1 value-to-lien ratio if they built the entirety of the collector road in their initial phase.

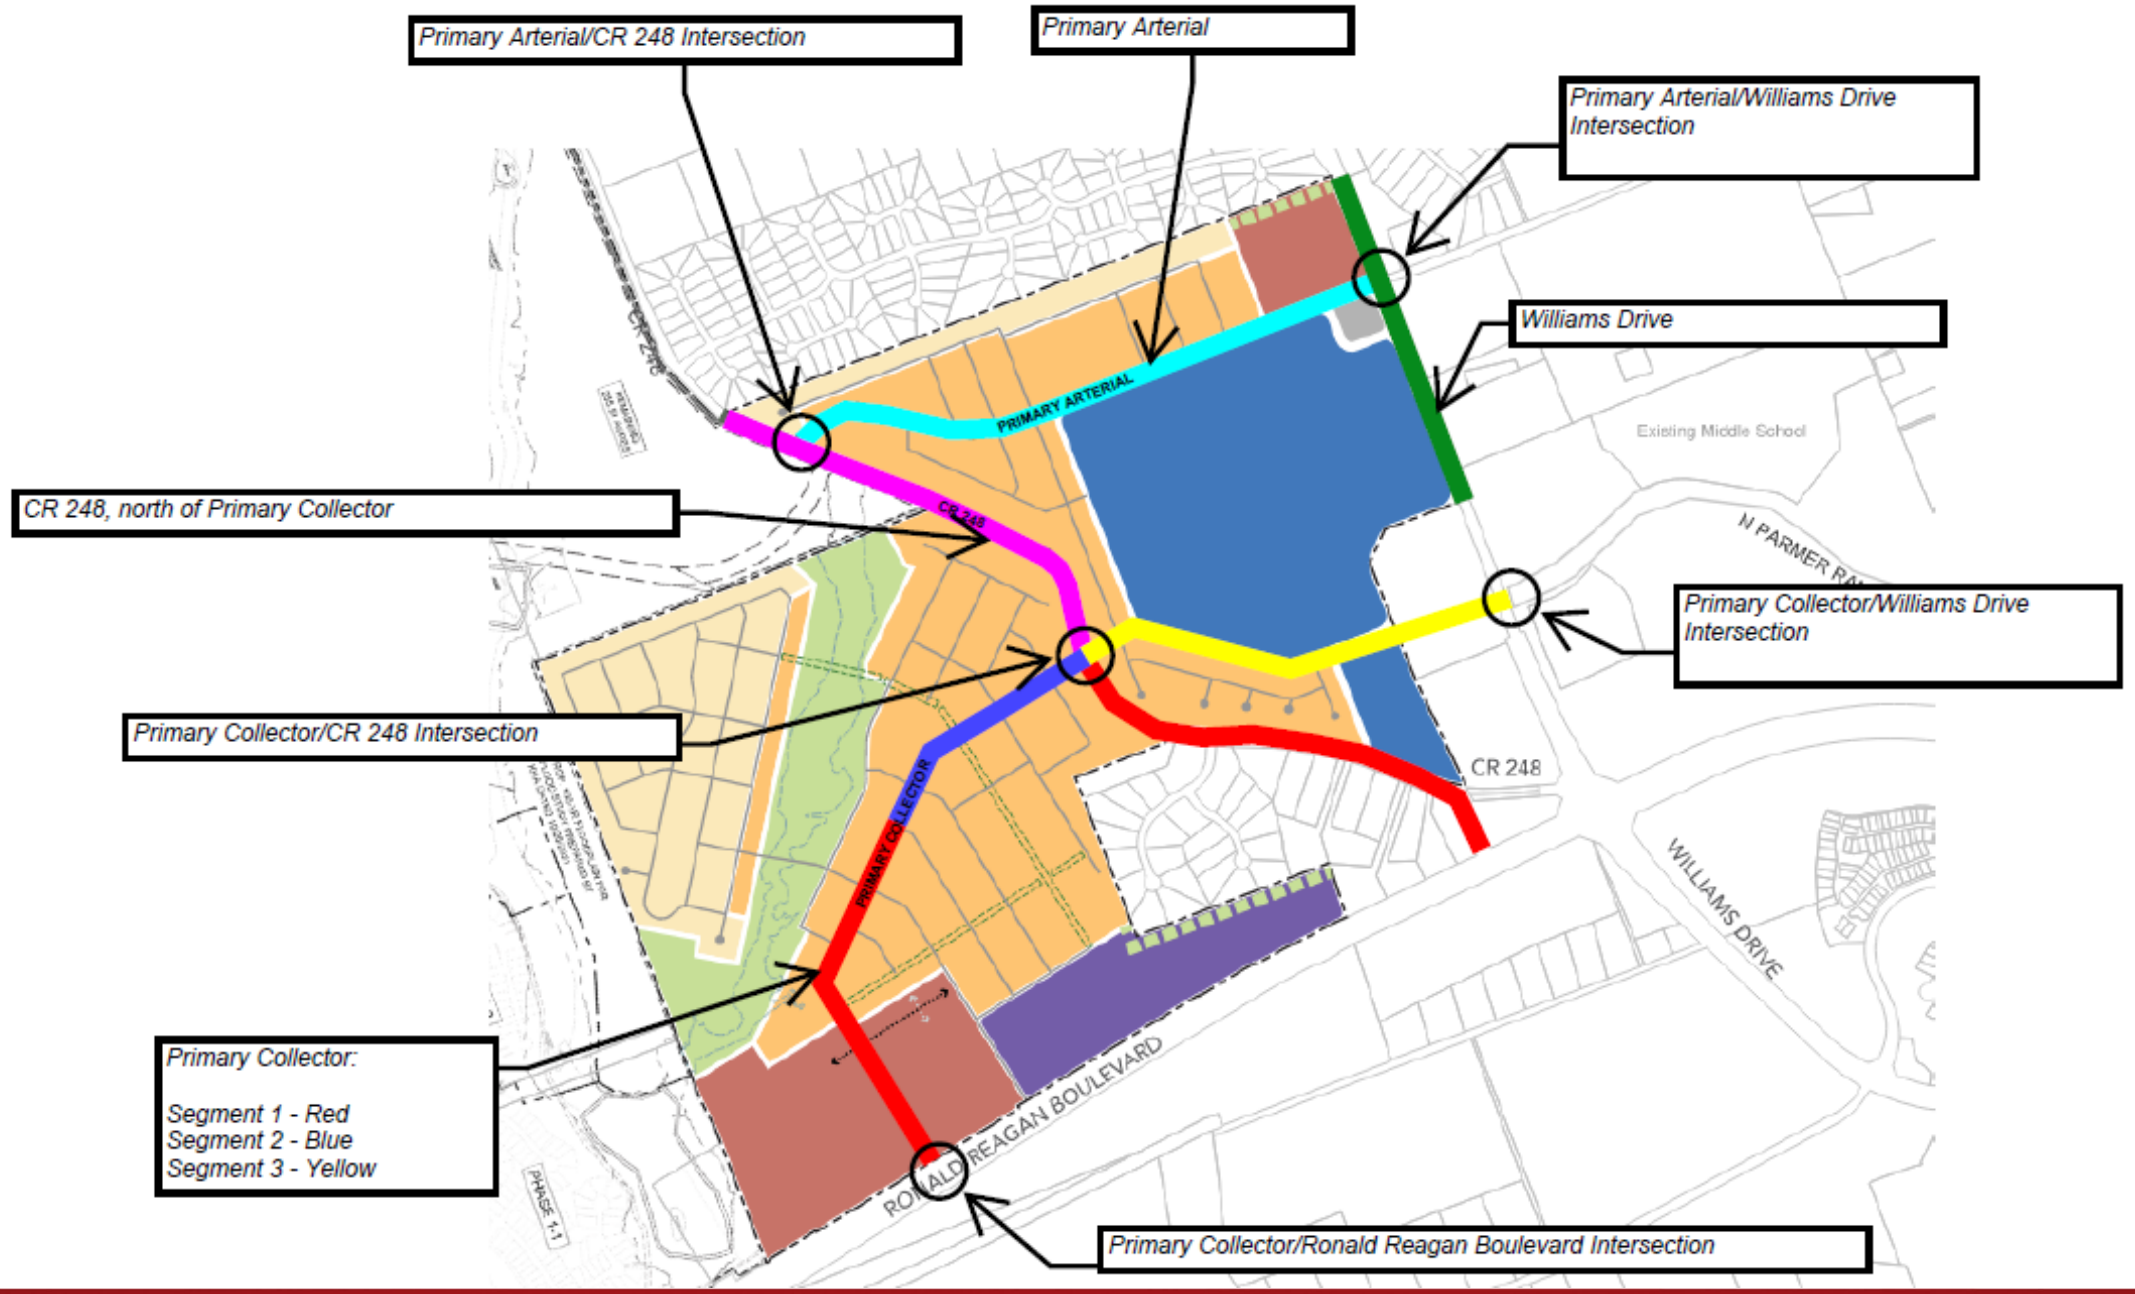
PHASE 1-1

PID Construction Bond



PID Policy Requirement	Heirloom PID
Prior to the issuance of PID Bonds, the City must have (1) confirmed the PID improvements to be reimbursed have been completed in accordance with all applicable design and construction requirements, including City codes and any PID related agreements between the City and the developer (2) accepted such improvements.	Issuance of PID Bonds prior to construction phase.

PID Construction Bond

10.04.03 If Heirloom Owner agrees to construct the entire length of the Primary Collector with the first final plat of the Property (rather than over time in three phased segments and as may be addressed further in the PID Documents) then the City Council will include in the PID Documents provisions granting variances from 2018 PID Policy Article V, Section 1 and Section 10 for the first PID bond issuance to allow the minimum appraised value to lien ratio at the date of said first PID bond issuance to be 2:1 (rather than 4:1 per 2018 PID Policy Article V, Section 1) and to allow disbursement of PID bond proceeds for the construction of the Primary Collector prior to Completion of the Primary Collector (rather than after Completion per 2018 PID Policy Article V, Section 10). Notwithstanding the

PID Construction Bond Request

- Developer has requested to include all of their Major Improvement Area (MIA) costs in the PID Construction Bond, which they are currently preparing to issue
  - PIDs will typically have a Master Improvement Area, which are improvements serving the entirety of the development and Specific Improvement Areas, which are improvements serving specific areas of the development
  - In addition to the collector road, this includes water and wastewater utilities, two water quality ponds and park improvements
- All MIA Improvements will cost an estimated $16.5 million and would bring the value-to-lien ratio in at roughly 2.6:1 (required to be at least 2:1)
- Including only the collector road will cost an estimated $11.6 million and would bring the value-to-lien ratio in at roughly 3.7:1
- Including all improvements except for the water quality ponds will cost an estimated $15.3 million and would bring the value-to-lien ratio in at roughly 2.8:1

PHASE 1-1

Water Quality Pond Requirements

5.07. **Private Drainage Facilities.** Owner shall not dedicate to the City, nor will the City accept ownership of or responsibility for the Private Drainage Facilities, or any other drainage, water quality, or stormwater management pond or other structure located within the Property or elsewhere, other than the Transportation-Related Drainage Improvements that are directly associated with the Transportation Improvements.

Water Quality Pond Request

- Developer has requested for the City to own the water quality ponds and for the HOA to perpetually maintain the ponds
  - All City of Georgetown MUD and PID agreements require the HOA to own and maintain water quality ponds on their site, which are strictly monitored by TCEQ
  - In a MUD development, the MUD will typically own and maintain for a period of time to allow them to get reimbursed for the cost of the pond through their MUD bonds and then transfer to the HOA for ownership and maintenance at a later date
  - Since the ponds are owned by the HOA in a PID development and are therefore consider "private" improvements, they are not eligible to be included in PID bonds
- There are multiple other PIDs in the City, and none have been allowed to transfer ownership to the City
  - If Council would like to explore this, staff would recommend allowing some time to look at how we can limit the long-term risk to the City and come back with recommendations, but not to immediately change this in the agreement

Council Feedback

Staff is seeking Council's feedback and direction on a request to amend the Heirloom PID (Public Improvement District) Development Agreement to grant additional variances to the PID Policy and allow water quality ponds to be owned by the City.

Feedback Requested

- Does Council have questions regarding the request that were not addressed during the presentation?
- Does Council support expanding the variance to allow all or some of the costs requested to be added to the PID Construction Bond?
- Does Council support City staff exploring options to allow the water quality ponds to be owned by the City but maintained by the HOA?

SUBJECT:
Pole Attachment Policy Updates

SUGGESTED ACTION:
Presentation and discussion and possible direction regarding proposed Pole Attachment Policy updates -- Daniel Bethapudi, General Manager of Electric Utilities

ITEM SUMMARY:
Presentation and discussion regarding proposed updates to the Electric Utility Pole Attachment Policy. Staff will provide an overview of the recommended policy revisions intended to modernize the City's requirements for third-party attachments to utility-owned poles within the electric distribution system. The proposed revisions establish updated requirements and procedures governing third-party attachments to utility-owned poles within the electric distribution system. The policy updates are intended to enhance public and worker safety, protect electric utility infrastructure, maintain system reliability, and provide a consistent framework for reviewing, permitting, constructing, maintaining, and removing communications and other authorized attachments. The revisions also clarify application requirements, engineering standards, cost responsibilities, inspection procedures, and compliance obligations for attaching entities. Staff recommends approval of the updated policy to ensure the safe and efficient management of utility assets while accommodating current and future telecommunications and broadband deployment needs.

FINANCIAL IMPACT:
The proposed policy strengthens the City's ability to recover costs associated with engineering reviews, inspections, pole replacements, and other utility services required to accommodate third-party attachments. While the overall fiscal impact is expected to be minimal, the policy is intended to reduce the potential for unrecovered utility costs and protect City-owned electric assets.

Presentation - Pole Attachment Policy Update.pdf

Electric Pole Attachment Standards & Fees

JULY 14, 2026

GEORGETOWN TEXAS

POLE ATTACHMENT STANDARDS

1. Pole attachment standards provide a framework for safely accommodating communications infrastructure on utility poles while protecting the utility's assets, ensuring reliable electric service, and maintaining compliance with industry and regulatory requirements.
2. Pole attachment standards establish the requirements for the installation, maintenance, and operation of third-party facilities on utility-owned poles.
3. These standards are designed to ensure public safety, maintain the reliability of the electric system, preserve required clearances and structural integrity, and provide equitable access for communications providers.
4. Pole attachment standards address permitting, engineering review, construction specifications, safety clearances, make-ready work, inspections, maintenance responsibilities, and compliance with applicable regulations, including the National Electrical Safety Code (NESC) and local utility requirements.

BACKGROUND

1. The City of Georgetown current pole attachment program underwent a significant revamp in 2021 in response to a significant increase in attachment requests.
2. From 2023 to 2025, pole attachment application reviews and make ready design work was contracted out to Schneider Engineering.
3. In 2025, the City of Georgetown Pole Attachment Program was brought in-house, and a fee model was created to ensure cost recovery.
4. The standards and fee model will be updated at least annually.

ANNUAL COST REVIEW

Annual review of all input costs that impact the pole attachment fees include:

1. Labor rates (salaries and benefits of employees)
2. Fleet costs (ex: cost for use of F150 for field visits)
3. Contracted labor (pole inspections)
4. Software costs

FY26 STANDARD CHANGES

1. Revised fee schedule
2. One-touch make-ready
3. New tagging plan
4. Clearly define timelines & expectations
5. New collective actions

FY2026 RECOMMENDED FEE CHANGES

Pole Attachment Fee Changes			
Fee Name	**Current Fee**	**Proposed Fee**	**% change**
Application Fee	$125.00	$134.00	7%
Reinspection Fee	$75.00	$117.00	56%
Make Ready Engineering Design Fee	$350.00	$350.00	-
Make Ready Construction	at cost	at cost	-
Annual Rental Fee	$16.50	$16.50	-

1. Application Fee includes
   a) Application review
   b) PLA review(s)
   c) Field visit
   d) Initial inspection
2. Make Ready Engineering Design Fee includes
   a) Make ready engineering
   b) Cost estimate creation and invoicing
   c) Posting to the engineering model

FY2026 RECOMMENDED

FEES FOR VIOLATIONS

Pole Attachment Fee Changes			
Fee Name	**Current Fee**	**Proposed Fee**	**% change**
Unauthorized Attachment Fee	None	$45.00 per day	-
Failure to Transfer / Remove Facilities	None	$15.00 per day	-
Safety Violation Charge	None	$500.00	-
Tracing Line Ownership Charge	None	$150.00 for 1st hour then $100/hour	

1. These violation charges are designed to provide the City with an approved mechanism for enforcing safety standards.
2. These standards are intended to protect public and worker safety, ensure reliability, and recover costs imposed on utility customers.
3. Historically, coordinating and addressing safety violations with Attached Entities is notoriously difficult. Using these fees and a public third-party notification service (such as NJUNS) we hope to address this issue.

STAFF RECOMMENDATIONS

1. Staff recommends accepting the pole attachment standards and fee change proposal.
2. The recommended changes will enable Georgetown Electric to recover all the costs associated with pole attachments.
3. Reviewed with Electric Board on June 18, 2026.
4. If accepted, the new changes will be effective July 1, 2026.

Council Minutes 7.14.2026.pdf

Minutes of the
City Council
City of Georgetown, Texas
Tuesday, July 14, 2026

The Georgetown City Council met on Tuesday, July 14, 2026 at 2:00 PM at Council and Court Building, 510 W. 9th Street.

The City of Georgetown is committed to compliance with the Americans with Disabilities Act (ADA). If you require assistance in participating at a public meeting due to a disability, as defined under the ADA, reasonable assistance, adaptations, or accommodations will be provided upon request. Please contact the City Secretary's Office, at least three (3) days prior to the scheduled meeting date, at (512) 930-3652 or City Hall at 808 Martin Luther King, Jr Street for additional information; TTY users route through Relay Texas at 711.

The following Members were in attendance:
Present were: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Josh Schroeder, Doug Noble

1. Policy Development and Discussion - Workshop

Mayor called the meeting to order at 2:00 pm.

1.A **Employee Recognition - Years of Service - June 2026**

Presentation and recognition of the Years of Service and the value which the City of Georgetown Employees add to the organization, presented to those who have served at intervals of five years from the anniversary month in which they started -- David Morgan, City Manager, and City Council

Merilee Paige from Human Resources recognized the employee years of service and council had their picture taken with Malcolm Brown with Code Compliance. Fire Services gave comments about Anthony Little- 20 years of service but not able to be present, saying he has a heart of gold and he has four rescue cats, mentoring new firemen and is proud to work for the city.

1.B **Patience Ranch MUD Request**

Presentation, discussion and possible recommendations regarding the creation of a Municipal Utility District (MUD) in the City of Georgetown extraterritorial jurisdiction for the proposed Patience Ranch Development -- Nick Woolery, Assistant City Manager Nick Woolery gave the presentation on Patience Ranch and explained the request. This proposed MUD is 363.85 acres, located east of Garey Park, north of Escalera, west of Parkside on the River and south of the South Fork San Gabriel River. He gave a lot of background and proposals, showing what the developer has previously built and done. Also, what the developer is proposing for the development of this property. Key

considerations for Pataience Ranch are Phase 1, is currently planned for construction start in 2028, will take access exclusively through Parkside on the River development to the east. No connection through Escalera Ranch will be made until Phase 2, which is currently planned to begin in 2031. Phase 3, making the fourth and final connection to adjacent existing roadways, is not scheduled until 2034. The Developer has committed to directing all construction-related traffic through Parkside Parkway in order to reduce load on smaller, local streets.

Current density planned for development is 1.5 units per acre, keeping total number of units sensible for existing adjacent infrastructure and preventing the overcrowding of the land. Lot sizes and target home buyer demographic for the project serve as a transition between the two adjacent neighborhoods, protecting the character and established pattern of desirable development in the area. Staff is asking feedback from the council on the land plan, lot sizes and density along with compatibility with the surrounding development and the MUD tax rate.

Councilman Butler asked what about this MUD justifies the tax rate. Woolery tried to explain that the council can set whatever tax rate that they want, The maximum tax rate allowed is $ 0.95 per $100 AV and can offset infrastructure costs. Mechanisms are also established to provide the city a way to collect payments from residents for any remaining MUD debt when the land is annexed.

Council Pitts asked when the park inside the MUD will become a city park and if the MUD will continue to maintain it through the HOA. Answer was yes, it will be maintained to city standards and maintained by HOA.

The Developer representatives presented some of the amenities and spoke to current developments being built by the developer. Woolery then asked for more comments from council. Butler complained about the high cost of the MUD tax to buyers without homestead or 65+ exemptions, stating it is not obvious to buyers of these properties. The developer rep says these buyers are notified and that people understand they are paying for the adding amenities of living in a MUD. Parr is good with everything, interested in seeing more larger lots. Pitts asked if there are options to the MUD if not approved through council. Woolery explained the developer can then disannex from the ETJ and then not use any of the UDC standards work with TCEQ for wastewater, with double the density, we would still have to serve them with water, and they would have a package plant situation.

Mayor called on public who had signed up to speak:
Gabe Young - spoke about the road inadequacy of Escalera Ranch as a construction access and the inability of it to carry large trucks as indicated in the plan, considering fire apparatus currently get stuck on this road. He suggests they will need a TIA.
Gary Kriegel with time ceded by Deborah Crisci - they understand that this will be developed, and their property backs up to this MUD, but they have concerns. They are worried about the trees and wildlife that will be disturbed, increased traffic on Escalera Parkway which is not built for that, no sidewalks for all the pedestrians, future water and wastewater needs, road connections and fire safety.

Tom Arthur - Chairman of the Escalera Ranch Architectural Committee - has a concern that High Glory is not a road and is not an option so there are not two access points to the neighborhood.
Pitts asked that the developer have a new meeting with the neighborhood to discuss future plans.

Mayor called for a recess at 3:12 pm. Meeting reconvened at 3:28 pm.

1.C **Energy Resource Plan**

Presentation and discussion regarding a proposed process to develop an Energy Resource Plan -- Daniel Bethapudi, General Manager Electric Utility, and Shams Sidiqqi, Crescent Power
Daniel Bethapudi introduced Shams, Siddiqi, PH. D from Crescent Power to review the results and action plan of the Electric Resource Plan. Dr. Siddiqi reviewed the challenges and peak load forecast. He explained how the COG exposure is tied to the ERCOT Market. He reviewed much historical data, and explained by Portfolio 2 is optimal for COG. See the slide presentation for specific details.

1.D **Electric Rate Ordinance Updates**

Presentation and discussion regarding proposed updates to the Electric Rate Ordinance (Chapter 13.04) -- Daniel Bethapudi, Electric Utility General Manager
Daniel Bethapudi, Electric Utility General Manager gave the presentation explaining the change in Code Section 13.04.011, adding a section to define key terms. There will be a creation of a Power Pedestal Rate Class for unmetered power pedestals to serve multiple temporary loads. There is a new disclaimer that the utility does not guarantee uninterrupted service in certain scenarios.

There are explanations for customer liability. There are VLC and I Rate Ordinance changes, including an account set-up fee and a month-to-month rate. There will be a primary voltage discount language and redundant feed provisions, with conditions for capacity guarantees and clawback provisions. All VLC&I customers will be required to use e-bills and will have specific exit fees. Large C&I month-to-month rate changes will become effective August 1, 2026.

1.E **Line Extension Policy Updates**

Presentation, discussion, and possible direction regarding proposed Electric Line Extension Policy updates -- Daniel Bethapudi, General Manager of Electric Utilities Daniel Bethapudi, , Electric Utility General Manager gave the presentation - he reviewed the existing policy and explained that it was to be reviewed and updated annually. The Council approved the policy on 5/26/2026 and staff identified an additional update to better align cost recovery efforts.

He provided recommended fee changes and explained these would be removing the application cost per megawatt discount on load requests over 1 MW and apply $56,400 legal and project management costs for all projects requiring and ESA. These will be proposed at a later council meeting and if approved effective August 1, 2026.

2. Executive Session

In compliance with the Open Meetings Act, Chapter 551, Texas Government Code, Vernon's Codes, Annotated, the items listed below will be discussed in closed session and are subject to action in the regular session.
Council adjourned to Executive Session at 4:47 pm.

2.A **Executive Session 07.14.2026**

Sec. 551.071: Consultation with Attorney

Advice from the attorney about pending or contemplated litigation and other matters on which the attorney has a duty to advise the City Council, including agenda items.

- Litigation Update
- Austin Avenue Bridges
- Reagor TLAP: SOAH Docket No. 582-26-14285 TCEQ Docket No. 2025-1668-MWD

Sec.551.072: Deliberations about Real Property

- 8th and Forrest
- Deliberations regarding the purchase and value of two parcels of real property situated in Williamson County, Texas, such parcels being locally known as 5601 Williams Drive, Georgetown, Texas 78633; and 5631 Williams Drive, Georgetown, Texas 78633.
- Deliberations regarding the purchase and value of certain real property situated in Williamson County, Texas, such real property being locally known as 2200 Church Street, Georgetown, Texas 78626.
- Deliberations regarding the purchase and value of certain real property situated in Williamson County, Texas, such real property being identified by the Williamson County Central Appraisal District as Parcel Number R040501.

Sec. 551.086: Certain Public Power Utilities: Competitive Matters

- Risk Management Policy Update
- Purchase Power Update

Sec. 551.087: Deliberation Regarding Economic Development Negotiations

- Wolf Lakes Village TIRZ
- Project Vista Prism

3. Regular Session - This portion of the meeting will begin no earlier than 6:00 pm.

3.A **Call to Order**
07.14.2026 Pledge of
Allegiance Recognitions
Actions out of Executive Session

Mayor Schroeder called the Regular Meeting to order at 6:17 pm. The pledges were led by Doug Noble. Motions were read out of Executive Session.

Moved by Kevin Pitts; seconded by Joseph (jake) French IV to Approve to authorize the City of Georgetown to purchase an approximately 5.229 -acre tract of land commonly known as 2200 Church Street, Georgetown TX 78626, in accordance with the terms discussed in executive session. I further move to authorize the City Manager to negotiate the terms of acquisition and consideration and execute all necessary

documents related to the aforementioned property acquisition in accordance with the terms discussed in Executive Session.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

Moved by Kevin Pitts; seconded by Joseph (jake) French IV to Approve to authorize the City of Georgetown to purchase an approximately 2.88 acre tract of land and an approximately 3.443 acre tract of land situated in Williamson County, Texas, such tracts being commonly known as 5601 and 5631 Williams Drive, Georgetown, Texas, 78633, in accordance with the terms as discussed in Executive Session. I further move to authorize the City Manager to negotiate the terms of acquisition and consideration and execute all necessary documents related to the aforementioned property acquisition in accordance with the terms discussed in Executive Session. **Motion** Approved: 6- 0

Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

Moved by Kevin Pitts; seconded by Joseph (jake) French IV to Approve to ratify and approve the Settlement Agreement between the City of Georgetown and George Reagor and Laura Reagor dated June 29, 2026 regarding TCEQ/TLAP Permit No. WQ0016685001 on the terms discussed in Executive Session. **Motion** Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

4. Public Wishing to Address Council

On a subject that is posted on this agenda: Please fill out a speaker registration form which can be found on the table at the entrance to the Council Chamber. Clearly print your name and the letter of the item on which you wish to speak and present it to the City Secretary on the dais, prior to the start of the meeting. You will be called forward to speak when the Council considers that item. Only persons who have delivered the speaker form prior to the meeting being called to order may speak. Speakers will be allowed up to three minutes to speak. If you wish to speak for six minutes, it is permissible to use another requestor's granted time to speak. No more than six minutes for a speaker may be granted. The requestor granting time to another speaker must also submit a form and be present at the meeting.

On a subject not posted on the agenda: An individual may address the Council at a regular City Council meeting by contacting the City Secretary no later than noon on the Wednesday prior to the Tuesday meeting, with the individual's name and a brief description of the subject to be addressed. Only those persons who have submitted a timely request will be allowed to speak. Speakers will be given up to three minutes to address the City Council. The City Secretary can be reached at (512) 931-7715 or cs@georgetown.org.

4.A **Public Wishing to Address 07.14.2026**

- At the time of posting no one had signed up to speak.

5. Statutory Consent Agenda

The Statutory Consent Agenda includes non-controversial and routine items which may be acted upon with one single vote. An item may be pulled from the Consent Agenda in order to be discussed and acted upon individually as part of the Regular Agenda.

Items 5N and 5P were pulled for staff review before a vote.
Mayor called on citizen Billy Bennett who asked to speak on Item 5P. Mr. Bennett was concerned about the public bid that was award on the HA5 product which was presented as a public bid but he feels is a sole source product and feels it was restricting competition. He asked for the bid to be pulled and project rebid.

Wesley Wright, Systems Engineering Director spoke to the difference of the two types of paving products and how the city chooses which products to use in which neighborhoods. The city tries to be consistent in the products it uses and the companies that are known to be able to correctly and historically lay that product.

Moved by Kevin Pitts; seconded by Joseph (jake) French IV to Approve Item 5N as presented and explained..
Motion Approved: 6 - 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

Moved by Kevin Pitts; seconded by Joseph (jake) French IV to Approve Item P as presented..
Motion Approved: 6 - 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

Moved by Benjamin H Butler; seconded by Amanda Parr to Approve all other Consent Agenda items.
Motion Approved: 6 - 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

5.A **Council Minutes 06.23.26**

Consideration and possible action to approve the minutes of the regular City Council meeting held on June 23, 2026 -- Robyn Densmore, City Secretary

5.B **Resolution - ETJ Disannexation - Jason Fuller - 1.995 Acres**

Consideration and possible action to approve a Resolution to confirm the disannexation of approximately 1.995 acres of land from the City of Georgetown's Extraterritorial

Jurisdiction (ETJ), identified as Williamson County Appraisal District Parcel R040624 and owned by Jason Fuller -- Michael Charles, Real Estate Services Coordinator

5.C **Resolution - ETJ Disannexation - Robert Ischy - 36.446 Acres**
Consideration and possible action to approve a Resolution to confirm the disannexation of approximately 36.446 acres of land from the City of Georgetown's Extraterritorial Jurisdiction (ETJ), identified as Williamson County Appraisal District Parcel R665597 and owned by Robert Ischy -- Michael Charles, Real Estate Services Coordinator

5.D **Purchase of Property for Future Tank and Pump Station Site**
Consideration and possible action to approve the purchase of a 4.5 acre tract of land located near the intersection of CR 110 and CR 107 using American Rescue Plan Act of 2021 ("ARPA") funds, which tract of land will be jointly owned by the City of Georgetown and the City of Round Rock and will be used for a future tank and pump station site, and to authorize the City Manager to execute all necessary documents to acquire the tract of land, including a deed in the form substantially similar to the deed attached hereto -- Andrew Culpepper, Assistant City Attorney - Real Estate Services

5.E **Language Change Request for Water Line Easement for Berry Creek Development**
Consideration and possible action to approve the form of the water line easement to be conveyed to the City in connection with the Berry Creek development and to authorize the City Manager to execute the water line easement in the form substantially similar to the document attached hereto -- Andrew Culpepper, Assistant City Attorney - Real Estate Services

5.F **Amend the Special District Fee Schedule in the Unified Development Code (UDC) Development Manual**
Consideration and possible action to authorize execution of an amendment to the Special District Fee Schedule in the Unified Development Code (UDC) Development Manual -- Angela McBride, Special Districts Coordinator

5.G **National Endowment for the Arts Grant Application**
Consideration and possible action to approve a grant application to the National Endowment for the Arts for a Grants for Arts Project to provide partial funding for public art in the third phase of the Light and Water Works District and designate authority to Amanda Still to submit the grant application –- Kim Mcauliffe, Downtown and Tourism Director, and Amanda Still, Arts and Culture Program Manager.

5.H **Resolution -- Line Extension Policy Updates**
Consideration and possible action to approve proposed Electric Line Extension Policy updates -- Daniel Bethapudi, General Manager of Electric Utilities

5.I **Resolution - Energy Risk Management Policies**
Consideration and possible action to approve a Resolution amending the Energy Risk Management Policy and accompanying sub-policies -- Daniel Bethapudi, General Manager of Electric Utility

5.J **BRA Contract Revenue Bonds, Series 2026**
Consideration and possible action to approve the BRA Contract Revenue Bonds, Series 2026 -- Chelsea Solomon, PE, Water Utilities Director

5.K **Purchase and Installation of Pedestrian Crossing Beacons in and around San Gabriel Park**
Consideration and possible action to approve Buyboard contract 803-26 with Consolidated Traffic Controls, INC. of Arlington, TX in the amount of $276,380.00 for pedestrian crossing beacons at regional trail road crossings -- Eric Nuner, Interim Parks and Recreation Director

5.L **Valley View Contract Renewal for Investment Advisory Services**
Consideration and possible action to approve a contract with Valley View Consulting LLC for Investment Advisory Services for an annual amount not to exceed $40,000.00 and to authorize City Manager to execute renewals of the agreement for up to four additional one-year terms with the same terms and conditions for a total 5-year contract not to exceed amount of $200,000.00 -- Leigh Wallace, Chief Financial Officer

5.M **Purchase an Underground Cable Puller**
Consideration and possible action to approve the purchase of (1) one Underground Puller Trailer from Global Rental, a subsidiary of Altec Industries, under Sourcewell Contract number 040924-ALT for an amount not to exceed $231,402.00 -- Scott Parker, Fleet Services Manager

5.N **Construction Contract Award with Bennett Paving for the 2026 Street Maintenance High Performance Pavement Seal Package #1**
Consideration and possible action to award a construction contract to Bennett Paving for the 2026 Street Maintenance High Performance Pavement Seal Package #1 project in the amount of $470,655.00 -- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

5.O **Construction Contract Award with Cutler Repaving Inc., of Lawrence Kansas for the 2026 Hot-In-Place-Recycling (HIPR) Street Maintenance Project**
Consideration and possible action to award a contract to Cutler Repaving for the 2026 Hot-In- Place-Recycling (HIPR) Street Maintenance Project with a combined base bid and an add alternate bid in the amount of $3,309,554.55 –- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

5.P **Construction Contract Award with Andale Construction of Wichita, Kansas for the 2026 Street Maintenance High Performance Pavement Seal Package No. 2 (HA5)**
Consideration and possible action to award a contract to Andale Construction of Wichita, Kansas for the 2026 Street Maintenance High Performance Pavement Seal Package No. 2 (HA5) project in the amount of $677,695.50 -- Wesley Wright, P.E., Systems Engineering Director

5.Q **AT&T Connectivity Services for City services hosted at the UT Austin Data Center**

and Microsoft Azure Cloud
Consideration and possible approval of a 3-year contract with AT&T for Connectivity to the University of Texas at Austin and an Express Route connection to our Azure Tenant for $18,206.13 per year for a total of $218,473.56 over 3 years -- Chris Bryce, IT Director, and James Davis, IT Manager-Operations

5.R **LCRA Fiber Connectivity for UT Austin Data Center Redundancy**
Consideration and possible action to approve a five-year agreement with the Lower Colorado River Authority (LCRA) for 10 Gbps fiber connectivity to support the City's connection to the University of Texas at Austin Data Center, in the amount of $19,200.00 per year, plus a one-time equipment fee of $1,500.00, for a total contract amount of $97,500.00 -- Chris Bryce, Director, Information Technology and James Davis, IT Manager - Operations

5.S **IT Hardware Procurement: Network Switches**
Consideration and possible action to approve the purchase of replacement network switches from Southern Computer Warehouse for a total of $127,780.92 -- Chris Bryce, IT Director, and James Davis, IT Operations Manager

5.T **Monday.com Software Renewal**
Consideration and possible action to approve a three-year renewal with monday.com LTD for work tracking and project management software in the amount of $571,536.00, and to authorize the City Manager to negotiate and execute all necessary documents -- Chris Bryce, IT Director, and Greg Berglund, Assistant IT Director

Consideration and possible action to approve Contract #26-0313-CC with RVI Planning & Landscape Architecture for PUD and Special District Application Reviews for an annual amount of $65,000 and to authorize the City Manager to execute renewal of the agreement for one additional year term under the same terms and conditions for a total 2 year contract not to exceed $130,000.00 -- Edgar Garcia, Planning Director

5.V **Second Reading - 2025-8-ANX - 3500 FM 971**
Second Reading of an Ordinance on a request for a Zoning Map Amendment to zone, upon annexation, 46.99 acres of City of Georgetown owned property situated in the Joseph Berry Survey, Abstract No. 63, to be known as the Pecan Branch Water Reclamation Facility, as the Public Facility (PF) zoning district, for the property generally located at generally located at 3500 FM 971, Georgetown, TX 78626 (2025-8-ANX) -- Preston Gunn, Planner

5.W **Second Reading - 2026-8-SUP - 1205 Walnut Street**
Second Reading of an Ordinance on a request for a Special Use Permit (SUP) for the specific use of Group Day Care in the Residential (RS) zoning district on the property located at 1205 Walnut Street, bearing the legal description of 0.15 Acres, Part of Block No. 1 of the Snyder's Addition to the City of Georgetown (2026-8-SUP) -- Ryan Clark, AICP, Planning Manager

6. Legislative Regular Agenda

6.A **First Reading - Water Rate Increase and Associated Fees**

First Reading of an Ordinance amending sections 13.04.120 and 13.04.150 of the Code of Ordinances relating to water service rates and charges and water tap and meter fees -- Chelsea Solomon, PE, Water Utilities Director, and Leigh Wallace, Chief Financial Officer

First Reading - Water Rate Increase and Associated Fees
Chelsea Solomon, Director of Water Utility gave the presentation for Items 6A and 6B simultaneously. She shared the effective date of the rate increases will be October 1, 2026 and explained the reasons for the increase, including an increase of cost in meters and materials and the base cost of services. The assumptions also include the areas that were voted to sell, which won't be effective until FY2028/29. The city rates won't decrease until the sales are final so the prices need to reflect the cost of services.

Moved by Kevin Pitts; seconded by Ben Stewart to Approve First Reading of an Ordinance amending sections 13.04.120 and 13.04.150 of the Code of Ordinances relating to water service rates and charges and water tap and meter fees.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

6.B **First Reading - Wastewater Rate Increase**

First Reading of an Ordinance amending Section 13.04.140 of the Code of Ordinances related to sewer rates and charges -- Chelsea Solomon, PE, Water Utilities Director, and Leigh Wallace, Chief Financial Officer

Moved by Kevin Pitts; seconded by Amanda Parr to Approve First Reading of an Ordinance amending Section 13.04.140 of the Code of Ordinances related to sewer rates and charges.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Benjamin H Butler, Ben Stewart, Joseph (jake) French IV, Doug Noble
Voting Against: None

6.C **First Reading - 2026-5-ANX - 8600 RM 2338**

Public Hearing and First Reading of an Ordinance on a request for a Zoning Map Amendment to zone, upon annexation, 11.59 acres of land out of the Lewis P. Dyches Survey, Abstract No. 171, as the General Commercial (C-3) zoning district, for the property generally located at 8600 RM 2338, Georgetown, Texas (2026-5-ANX) -- Colin Davidson, Senior Planner

First Reading - 2026-5-ANX - 8600 RM 2338
Edgar Garcia, Planning Director presented the annexation and zoning case. He shared the proposed development complies with the criteria for annexation and is partially consistent with the Comprehensive Plan. Staff feels this is a better option than having the applicant leave the ETJ and not have any zoning standards. Sixty-one property owners were notified of this development and twenty-one comments were received in opposition, not meeting the threshold for a supermajority council vote. He read the caption.

Ben Butler asked for the difference between C1 zoning and C-3 zoning. Garcia explained that C3 has many uses by right, whereas many of those uses are only available by Special Use Permit in the C1 zoning district. Mayor Schroeder called on the public speakers.

Devin Hallier: wants growth but wants a buffer between their neighborhoods so they are not staring at large tall buildings or 24/7 hour operational businesses.
Christopher Bessner - opposes 24/7 businesses also, concerned about the schools nearby and wants the city to be proactive, working with GISD and Wilco more in regards to developing the city, he wants to see more restrictions in this area and development that can be used by the nearby residents.
Jarron Warnock - supports growth in a responsible way, C-3 is too dense, C1 is a lower intensity which would better serve the neighborhoods.
Pedram Imoni - moved to this area because of the safety, he doesn't want increased traffic and he wants to see a good buffer between his neighorhood and this development.
Mohnte Elizondo - asking Georgetown to build responsibly, child safety is his main concern, small businese and on a smaller scale is okay with him, large scale businesses in a C3 with late night ervices do not fit and are not appropriate for this area, sixty feet high buildings are too high for this area.
Rachel Heist - currently feels safe and is excited about the growth as long as they are respectful of the existing neighborhoods. She objects to C-3.

Mark Baker with SEC Planning was asked to come forward and speak for the applicant. Mayor asked him to explain what can be built if the property is not annexed into the city. Baker explained that the property could develop without buffers, no height restrictions, nor regulations. He understands their fears and the rationale that the neighbors feel they would be surrounded by this island of C3 and multi-family development, but that is not the case. The city has in place landscape buffers in the UDC, light buffers built in, height restrictions, the city has protections for the neighborhoods that the county will not. He suggested the city could also zone it C3 with some prohibited uses like they did with Highland Village. There are options.

Pitts wanted to note to the participants that approval on first reading does not mean that the project is approved, the Ordinance takes two readings and the Second Reading can change and is the final reading.

> **Moved by** Kevin Pitts; seconded by Amanda Parr to Approve approval of First Reading with direction to staff to look at other options of step down zoning on the property, with possible C3 zoning in the front and C1 in the back, looking at the limitations list as well..
>
> **Motion** Approved with amendment: 5- 1
> **Voting For:** Amanda Parr, Kevin Pitts, Benjamin H Butler, Joseph (jake) French IV, Doug Noble
> **Voting Against:** Ben Stewart

6.D **First Reading - 2026-1-CPA - FLUM Amendment**
Public Hearing and First Reading of an Ordinance for a request to amend the 2030 Comprehensive Plan Future Land Use Map in accordance with Section 1.12.010 and 1.12.060 of the City Code of Ordinances -- Edgar I. Garcia, Director of Planning

First Reading - 2026-1-CPA - FLUM Amendment
This item was pulled by city staff after the posting and prior to the meeting. These items were not discussed.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS ("GEORGETOWN") RELEASING APPROXIMATELY 2.45 ACRE OF LAND FROM THE CITY OF GEORGETOWN'S EXTRATERRITORIAL JURISDICTION ("ETJ"), SAID LAND IDENTIFIED AS A PORTION OF WILLIAMSON COUNTY APPRAISAL DISTRICT PARCEL R323695, RESULTING IN A REDUCTION OF GEORGETOWN'S ETJ; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, on June 18, 2026, the City of Georgetown, Texas, received a petition requesting release from its ETJ of an approximately 2.45 acre tract of land in the William Roberts Survey (the "Petition"), a true and correct copy of such Petition being attached hereto as Exhibit A and incorporated herein by reference; and

WHEREAS, pursuant to Subchapter D of Chapter 42 of Local Government Code, landowners or residents may submit a petition seeking release of an area of land from the City's ETJ; and

WHEREAS, the City Secretary has reviewed the Petition and confirmed that it meets the requirements of Subchapter D of Chapter 42 of the Local Government Code and the petition requirements of Chapter 277 of the Election Code.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

SECTION 1. The City Council of the City of Georgetown, Texas ("**City Council**"), does hereby find that the forgoing recitals are true and correct and adopts the recitals by this reference for all purposes.

SECTION 2. To the extent required by state law, the City Council does hereby adjust the boundaries and limits of the ETJ of the City of Georgetown, Texas, such that the ETJ of the City of Georgetown, Texas, shall be and is hereby adjusted to release and remove the Area subject to the Petition, as such Area is more particularly described and depicted in Exhibit B attached hereto and incorporated herein by reference, from the ETJ of the City of Georgetown, Texas.

SECTION 3. The City Council is not consenting to this reduction of its ETJ except as required by state law.

SECTION 4. This Resolution shall take effect immediately upon its passage.

PASSED AND APPROVED by the City Council of the City of Georgetown, Texas, on the _____ day of _____, 2026.

Petition

PETITION FOR RELEASE OF APPROXIMATELY 2.45 ACRES FROM THE EXTRATERRITORIAL JURISDICTION OF THE CITY OF GEORGETOWN, TEXAS

The undersigned petitioners *("Petitioners,"* whether one or more), acting pursuant to the provisions of Texas Local Government Code, Chapter 42, Subchapter D, as amended, file this petition and request that the City of Georgetown (the *"City")* release the area depicted and described on Exhibit "A" attached hereto and incorporated herein (the "*Land"),* located within the extraterritorial jurisdiction *("ETJ")* of the City, and within Williamson County, Texas, from the City's ETJ. In support of this petition Petitioners represent the following:

Section 1. Pursuant to Local Government Code Section 42.102(b), Petitioners, being the owner or owners of a majority in value of the Land, file this petition for the Land to be released from the City's ETJ.

Section 2. Pursuant to Local Government Code, Section 42.104(a)(2), the signatories to this petition are a majority in value of the holders of title of the Land, as evidenced by (a) by the current tax roll of the Williamson Central Appraisal District and evidenced by the current tax certificate attached as Exhibit "B" hereto addressed to Nova368, LLC, and (b) file-stamped copy of the deed from ADKINS RANCH LTD. to Petitioners dated as of 12/15/2021.

Section 3. Exhibit "A" hereto includes a map of the Land and describes the boundaries of the Land by metes and bounds.

Section 4. The Land is not subject to any of the exceptions to the applicability of Local Government Code, Chapter 42, Subchapter D, as amended, as described in Local Government Code, Section 42.101.

Section 5. All signatories, if more than one, have signed this petition not later than the 180th day after the date the first signature for this petition was obtained.

Section 6. This Petition shall be verified by the City Secretary of the City or other person at the City responsible for verifying signatures.

Section 7. The City shall notify the residents or landowners of the Property of the results of this Petition, which notification requirement may be satisfied by notifying the Petitioners in writing.

Section 8. If the City fails to take action to release the Land by the later of (a) the 45th day after the date the City receives this petition, or (b) the next meeting of the city council of the City that occurs after the 30th day after the date the City receives this petition, the Land shall be released by operation of law.

The Petitioners request that the City immediately release the Land from the City's ETJ and this petition will be filed with the City Secretary in support of such release and recorded in the Official Public Records of Williamson County, Texas.

Cedar Park, Texas 78613

Consideration:

Cash and a note of even date executed by Grantee and payable to the order of BancorpSouth Bank, a division of Cadence Bank ("Lender"), in the principal amount of four million and twenty-five thousand dollars (USD $4,025,000.00). The note is secured by a vendor's lien retained in this deed in favor of Lender and by a first-lien deed of trust of even date from Grantee to Chris Logue, trustee.

Property (including any improvements):

Being that certain tract of land stated to contain 43.13 acres, more or less, out of the William Roberts Survey, Abstract No. 524, Williamson County, Texas, as more particularly described on Exhibit A attached hereto and incorporated herein.

Reservations from Conveyance:

None

Exceptions to Conveyance and Warranty:

None

Grantor Daniel E. Adkins warrants only the 6.94 acres contained within the 43.13 acres deeded herein, for which he is lawfully seized, and warrants that he has good and indefeasible title to the Property subject to any Reservations or Exceptions from Conveyance contained herein.

Grantor Adkins Ranch LTD warrants only the approximate 36.157 acres contained within the 43.13 acres deeded herein, for which it is lawfully seized, and warrants that it has good and indefeasible title to the Property subject to any Reservations or Exceptions from Conveyance contained herein.

Grantor, for the Consideration and subject to the Reservations from Conveyance and the Exceptions to Conveyance and Warranty, grants, sells, and conveys to Grantee the Property, together with all and singular the rights and appurtenances thereto in any way belonging, to have and to hold it to Grantee and Grantee's heirs, successors, and assigns forever. Grantor binds Grantor and Grantor's heirs and successors to warrant and forever defend all and singular the Property to Grantee and Grantee's heirs, successors, and assigns against every person whomsoever lawfully claiming or to claim the same or any part thereof when the claim is by, through, or under Grantor but not otherwise, except as to the Reservations from Conveyance and the Exceptions to Conveyance and Warranty.

The vendor's lien against and superior title to the property are retained until each note described is fully paid according to its terms, at which time this deed shall become absolute.

When the context requires, singular nouns and pronouns include the plural.

Lender, at Grantee's request, has paid in cash to Grantor that portion of the purchase price of the property that is evidenced by the note. The vendor's lien and superior title retained in this deed secure payment of the note, and they are transferred to Lender without recourse on Grantor.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS ("GEORGETOWN") RELEASING APPROXIMATELY 129.858 ACRES OF LAND FROM THE CITY OF GEORGETOWN'S EXTRATERRITORIAL JURISDICTION ("ETJ"), SAID LAND IDENTIFIED BY THE WILLIAMSON COUNTY APPRAISAL DISTRICT AS PARCELS R040585 AND R550285, AND BEING LOCALLY KNOWN AS 1620 COUNTY ROAD 106, GEORGETOWN, WILLIAMSON COUNTY, TEXAS, RESULTING IN A REDUCTION OF GEORGETOWN'S ETJ; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, on July 20, 2026, the City of Georgetown, Texas, received a petition requesting release from its ETJ of an approximately 129.858 acre tract of land in the Woodruff Stubblefield Survey (the "Petition"), a true and correct copy of such Petition being attached hereto as Exhibit A and incorporated herein by reference; and

WHEREAS, pursuant to Subchapter D of Chapter 42 of Local Government Code, landowners or residents may submit a petition seeking release of an area of land from the City's ETJ; and

WHEREAS, the City Secretary has reviewed the Petition and confirmed that it meets the requirements of Subchapter D of Chapter 42 of the Local Government Code and the petition requirements of Chapter 277 of the Election Code.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

SECTION 1. The City Council of the City of Georgetown, Texas ("**City Council**"), does hereby find that the forgoing recitals are true and correct and adopts the recitals by this reference for all purposes.

SECTION 2. To the extent required by state law, the City Council does hereby adjust the boundaries and limits of the ETJ of the City of Georgetown, Texas, such that the ETJ of the City of Georgetown, Texas, shall be and is hereby adjusted to release and remove the Area subject to the Petition, as such Area is more particularly described and depicted in Exhibit B attached hereto and incorporated herein by reference, from the ETJ of the City of Georgetown, Texas.

SECTION 3. The City Council is not consenting to this reduction of its ETJ except as required by state law.

SECTION 4. This Resolution shall take effect immediately upon its passage.

PASSED AND APPROVED by the City Council of the City of Georgetown, Texas, on the _____ day of _____, 2026.

COUNTY OF WILLIAMSON §

TO THE HONORABLE MAYOR AND CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

The undersigned (hereinafter called "Petitioner"), being the owner of a majority in value of lands situated within the area hereinafter described, which represents a total value of more than 50% of the value of all such area as indicated by the tax rolls of the Georgetown Central Appraisal District, acting pursuant to Section 42.102 of the Texas Local Government Code, as amended, hereby respectfully petitions the City of Georgetown, Texas (hereinafter called the "City"), for the removal of the area described in Exhibit A and depicted in Exhibit A-1 herein (the "Property") from the extraterritorial jurisdiction (the "ETJ") of the City.

In support of this Petition, Petitioner would respectfully show:

I.

Petitioner has authority, pursuant to Section 42.102(b), Texas Local Government Code, to file this Petition as the owner of the majority in value of an area of land in the City's ETJ.

II.

This Petition is signed by a majority in value of the holders of title of land in the area described by this Petition, as indicated by the tax rolls of the Williamson Central Appraisal District and evidenced by proof attached as Exhibit B.

III.

This Petition has satisfied the signature requirements described by Sections 42.103 and 42.104(a), Texas Local Government Code, and Chapter 277, Election Code, not later than the 180th day after the date the first signature for the Petition is obtained.

IV.

The signature collected for this Petition is in writing, pursuant to Section 42.104(c), Texas Local Government Code.

V.

The Property is located in Williamson County, Texas, and is comprised of tax parcels R040585 and R550285, and totals approximately 129.858 acres, all of which is located within the extraterritorial jurisdiction of the City and, to the best of the Petitioner's knowledge, is not subject to any of the exceptions from applicability described in Section 42.101, Texas Local Government Code.

VI.

This Petition shall be verified by the City Secretary of the City or other person at the City responsible for verifying signatures.

VII.

The City must notify the residents and landowners of the Property of the results of the Petition, which notification requirement may be satisfied by notifying the Petitioner in writing.

VIII.

Because this Petition contains the number of signatures required by Section 42.104, Texas Local Government Code, to release the Property from the City's ETJ, the City shall immediately release the Property from its ETJ, pursuant to Section 42.105(c), Texas Local Government Code. Should the City fail to take action to release the Property by the later of (i) 45 days after the date the City receives this Petition or (ii) the next meeting of the City's governing body that occurs after the 30th day after the date the City's receives this Petition, the Property shall be released from the ETJ by operation of law, pursuant to Section 42.105(d), Texas Local Government Code.

WHEREFORE, PREMISES CONSIDERED, Petitioner prays that: (a) this Petition be filed with the City Secretary of the City of Georgetown, Texas, and that, thereafter, the Property be removed from the ETJ of the City, in the manner provided by law, including Sections 42.102-105, Texas Local Government Code, as amended; (b) that this Petition be granted, and that it and the City's action thereon be filed of record and be recorded in the Office of the City Secretary of Georgetown, Texas; and (c) that Petitioner have such other order and relief to which they may show themselves entitled.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Resolution - Advanced Funding Agreement with TxDOT for Stadium Drive and NE Inner Loop

SUGGESTED ACTION:
Consideration and possible action to approve a resolution authorizing the City Manager to negotiate and approve an Advanced Funding Agreement with Texas Department of Transportation (TxDOT) for intersection improvements at Stadium Drive and Northeast Inner Loop -- Lua Saluone, P.E., Transportation Manager

ITEM SUMMARY:
At the regular meeting of the City Council on December 10, 2024, City Council authorized the submission of a grant request to TxDOT for the Highway Safety Improvement Program (HSIP).

The Texas Transportation Commission passed Minute Order Number 116752 authorizing the State to undertake and complete a highway improvement or other transportation project generally described as Hazard Elimination and Safety Improvements.

This agreement with TxDOT provides $604,229.91 in Federal funding for the lengthening of the left turn lane along Inner Loop and traffic and pedestrian signal improvements at Stadium Drive. Transportation Development Credits (TDCs) in the amount of $60,423.00 will be used for the Local Government's 10% match contribution. The intersection design is underway with anticipated completion in late 2026. The earliest possible date that construction could begin on Stadium Drive intersection improvements is September 1, 2027.

FINANCIAL IMPACT:
The City will pay TxDOT $73,573.00 for direct State costs associated with design review and construction oversight. The City's payment to TxDOT for direct costs will be provided by the 2015 Mobility Bond, as authorized by City Council on December 10, 2024.

RESOLUTION, ORDINANCE, OR COMMISSIONERS COURT ORDER
RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AUTHORIZING THE CITY MANAGER TO NEGOTIATE AND EXECUTE AN ADVANCE FUNDING AGREEMENT WITH THE TEXAS DEPARTMENT OF TRANSPORTATION RELATED TO A HIGHWAY IMPROVEMENT PROJECT FOR HAZARD ELIMINATION AND SAFETY IMPROVEMENTS AT THE INTERSECTION OF STADIUM DRIVE AND NORTHEAST INNER LOOP.

WHEREAS, the Texas Transportation Commission passed Minute Order Number **116752** authorizing the State to undertake and complete a highway improvement or other transportation project generally described as Hazard Elimination and Safety Improvements; and

WHEREAS, in 2015, City of Georgetown voters approved bond propositions authorizing road intersection improvement projects; and

WHEREAS, the City of Georgetown commits to provide the match. The local match is comprised of funds covered by the use of Transportation Development Credits; and

WHEREAS, the City of Georgetown is responsible for all non-reimbursable costs and 100% of overruns, if any; and

WHEREAS, the City of Georgetown desires to enter into an Advanced Funding Agreement with the Texas Department of Transportation for highway improvements related to hazard eliminations and improvements on Northeast Inner Loop at Stadium Drive.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN TEXAS:

Section 1. The meeting at which this resolution was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this resolution are hereby found and declared to be true and correct, and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council of the City of Georgetown finds it to be in the best interest of the citizens of Georgetown to enter in the Advance Funding Agreement with the Texas Department of Transportation related to a highway improvement or other transportation project generally described as Hazard Elimination and Safety Improvements at the intersection of Northeast Inner Loop at Stadium Drive.

Section 4. The City Manager is hereby authorized to negotiate and execute an Advance Funding Agreement with the Texas Department of Transportation for a highway improvement or other transportation project generally described as Hazard Elimination and Safety Improvements at the intersection of Northeast Inner Loop at Stadium Drive.

SUBJECT:
Resolution - First Amendment to Austin Avenue Advanced Funding Agreement

SUGGESTED ACTION:
Consideration and possible action to approve a resolution amending an Advanced Funding Agreement with Texas Department of Transportation (TxDOT) to extend the limits on the Austin Avenue and Downtown Square Improvements project -- Lua Saluone, P.E., Transportation Manager

ITEM SUMMARY:
In December 2025, the City entered into an Advance Funding Agreement (AFA) with TxDOT related to the Austin Avenue and Downtown Square Improvements project. The agreement outlined the use of Transportation Alternatives Set-Aside Program (TASA) funds for project Plans, Specifications, and Estimates (PS&E) and TxDOT oversight.

Both parties now desire to amend the limits of the AFA, as shown in Exhibit 1 – Amended Project Limits Map. The limits of the AFA are extended from 2nd Street to Leander Road (previously 18th Street) and University Avenue from Elm Street to Forest Street (previously only the intersection of University and Austin), and 7th Street from Rock Street to Church Street and 8th Street from Rock Street to Church Street.

Following execution and approval of city procurement procedures by TxDOT, the city will begin the solicitation process for PS&E.

FINANCIAL IMPACT:
Funding for PS&E provided through a Transportation Alternatives Set Aside grant from CAMPO.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Resolution - Authorizing the filing of the Assessment Roll for Georgetown Village Public Improvement District No.1

SUGGESTED ACTION:
Consideration and possible action to approve a Resolution authorizing the filing of the Assessment Roll for the Georgetown Village Public Improvement District No. 1 -- Nick Woolery, Assistant City Manager, Andrea Barnes, P3Works, LLC - City's PID Administrator

ITEM SUMMARY:
State law requires the Council to annually approve the Service and Assessment Plan ("SAP"), to include the assessment plan, levy of assessment and assessment roll for the Georgetown Village Public Improvement District #1 ("GVPID").

The GVPID was created in 1999 to provide residents of the Georgetown Village Subdivision supplemental services and improvements that were outlined when the GVPID was created. These improvements include pocket parks, landscape areas, sidewalks, trails, alleyways, distinctive lighting and signage, recreational facilities, water quality facilities, additional future recreational facilities, and other related improvements.

The proposed total estimated supplemental services and improvements to be provided for the District for FY2027 is approximately $545,006. The cost to provide and maintain these services will be funded through an assessment of $0.11 per $100 valuation and dollars from the Replacement and Repair Reserve cash on hand. The average property value based on the 2026 Williamson County Appraisal District is approximately $431,090; therefore, the average homeowner pays around $474 this year. Property owners in the GVPID pay this assessment at the same time as they pay the City of Georgetown property tax.

Staff will file the SAP, including the Assessment Roll and method of Assessment, with the City Secretary's Office for public inspection, and notice the City Council's intent to consider the Assessment at a public hearing on August 25, 2026, in the Williamson County Sun and in direct mail to residents. Council will consider adoption of the SAP to include the assessment plan and assessment roll, and levy the assessment at the September 9, 2025, Council Meeting following the public hearing.

FINANCIAL IMPACT:
None at this time.

RESOLUTION NO._____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AUTHORIZING THE FILING OF THE ASSESSMENT ROLL FOR THE GEORGETOWN VILLAGE PUBLIC IMPROVEMENT DISTRICT #1; AND SETTING A PUBLIC HEARING DATE FOR THE ASSESSMENT FOR AUGUST 25, 2026.

WHEREAS, the City is required by State Law to file the proposed assessment roll for the Georgetown Village Public Improvement District #1 ("District") with the City Secretary's Office for public inspection; and

WHEREAS, the City will publish notice in the newspaper of the assessment levy; and will provide notice of the assessment levy to the residents within the District to hold a public hearing on August 25, 2026, to provide a reasonable opportunity for any property owner located within the District to speak for or against the assessment against real property and real property improvements exclusive of right-of-way, to continue funding for the District for the purpose of providing supplemental services and improvements; and

WHEREAS, the Council will subsequently adopt the O&M Annual Service Plan Update ("SAP Update"), including the Service Plan and Assessment Roll, and the levy the assessment on August 25, 2026, following the public hearing.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. Pursuant to the requirements by State Law, the Council, after reviewing the proposed SAP Update for the Georgetown Village Public Improvement District #1 attached hereto as Exhibit "A", will consider approval of the final SAP Update for 2026/2027 subject to the public hearing on August 25, 2026.

SECTION 2. That a public hearing shall be held at 6:00 p.m. on August 25, 2026, in the City Council Chambers, 510 W 9th St., Georgetown, Texas, at which time any interested person may appear and speak for or against the setting of an assessment against real property and real property improvements, exclusive of rights-of-way, to continue funding for the District for the purpose of providing supplemental services and improvements.

SECTION 3. That notice of such public hearing shall be published in the official newspaper of the City of Georgetown and mailed to the property owners in the District before the 10th day before the public hearing.

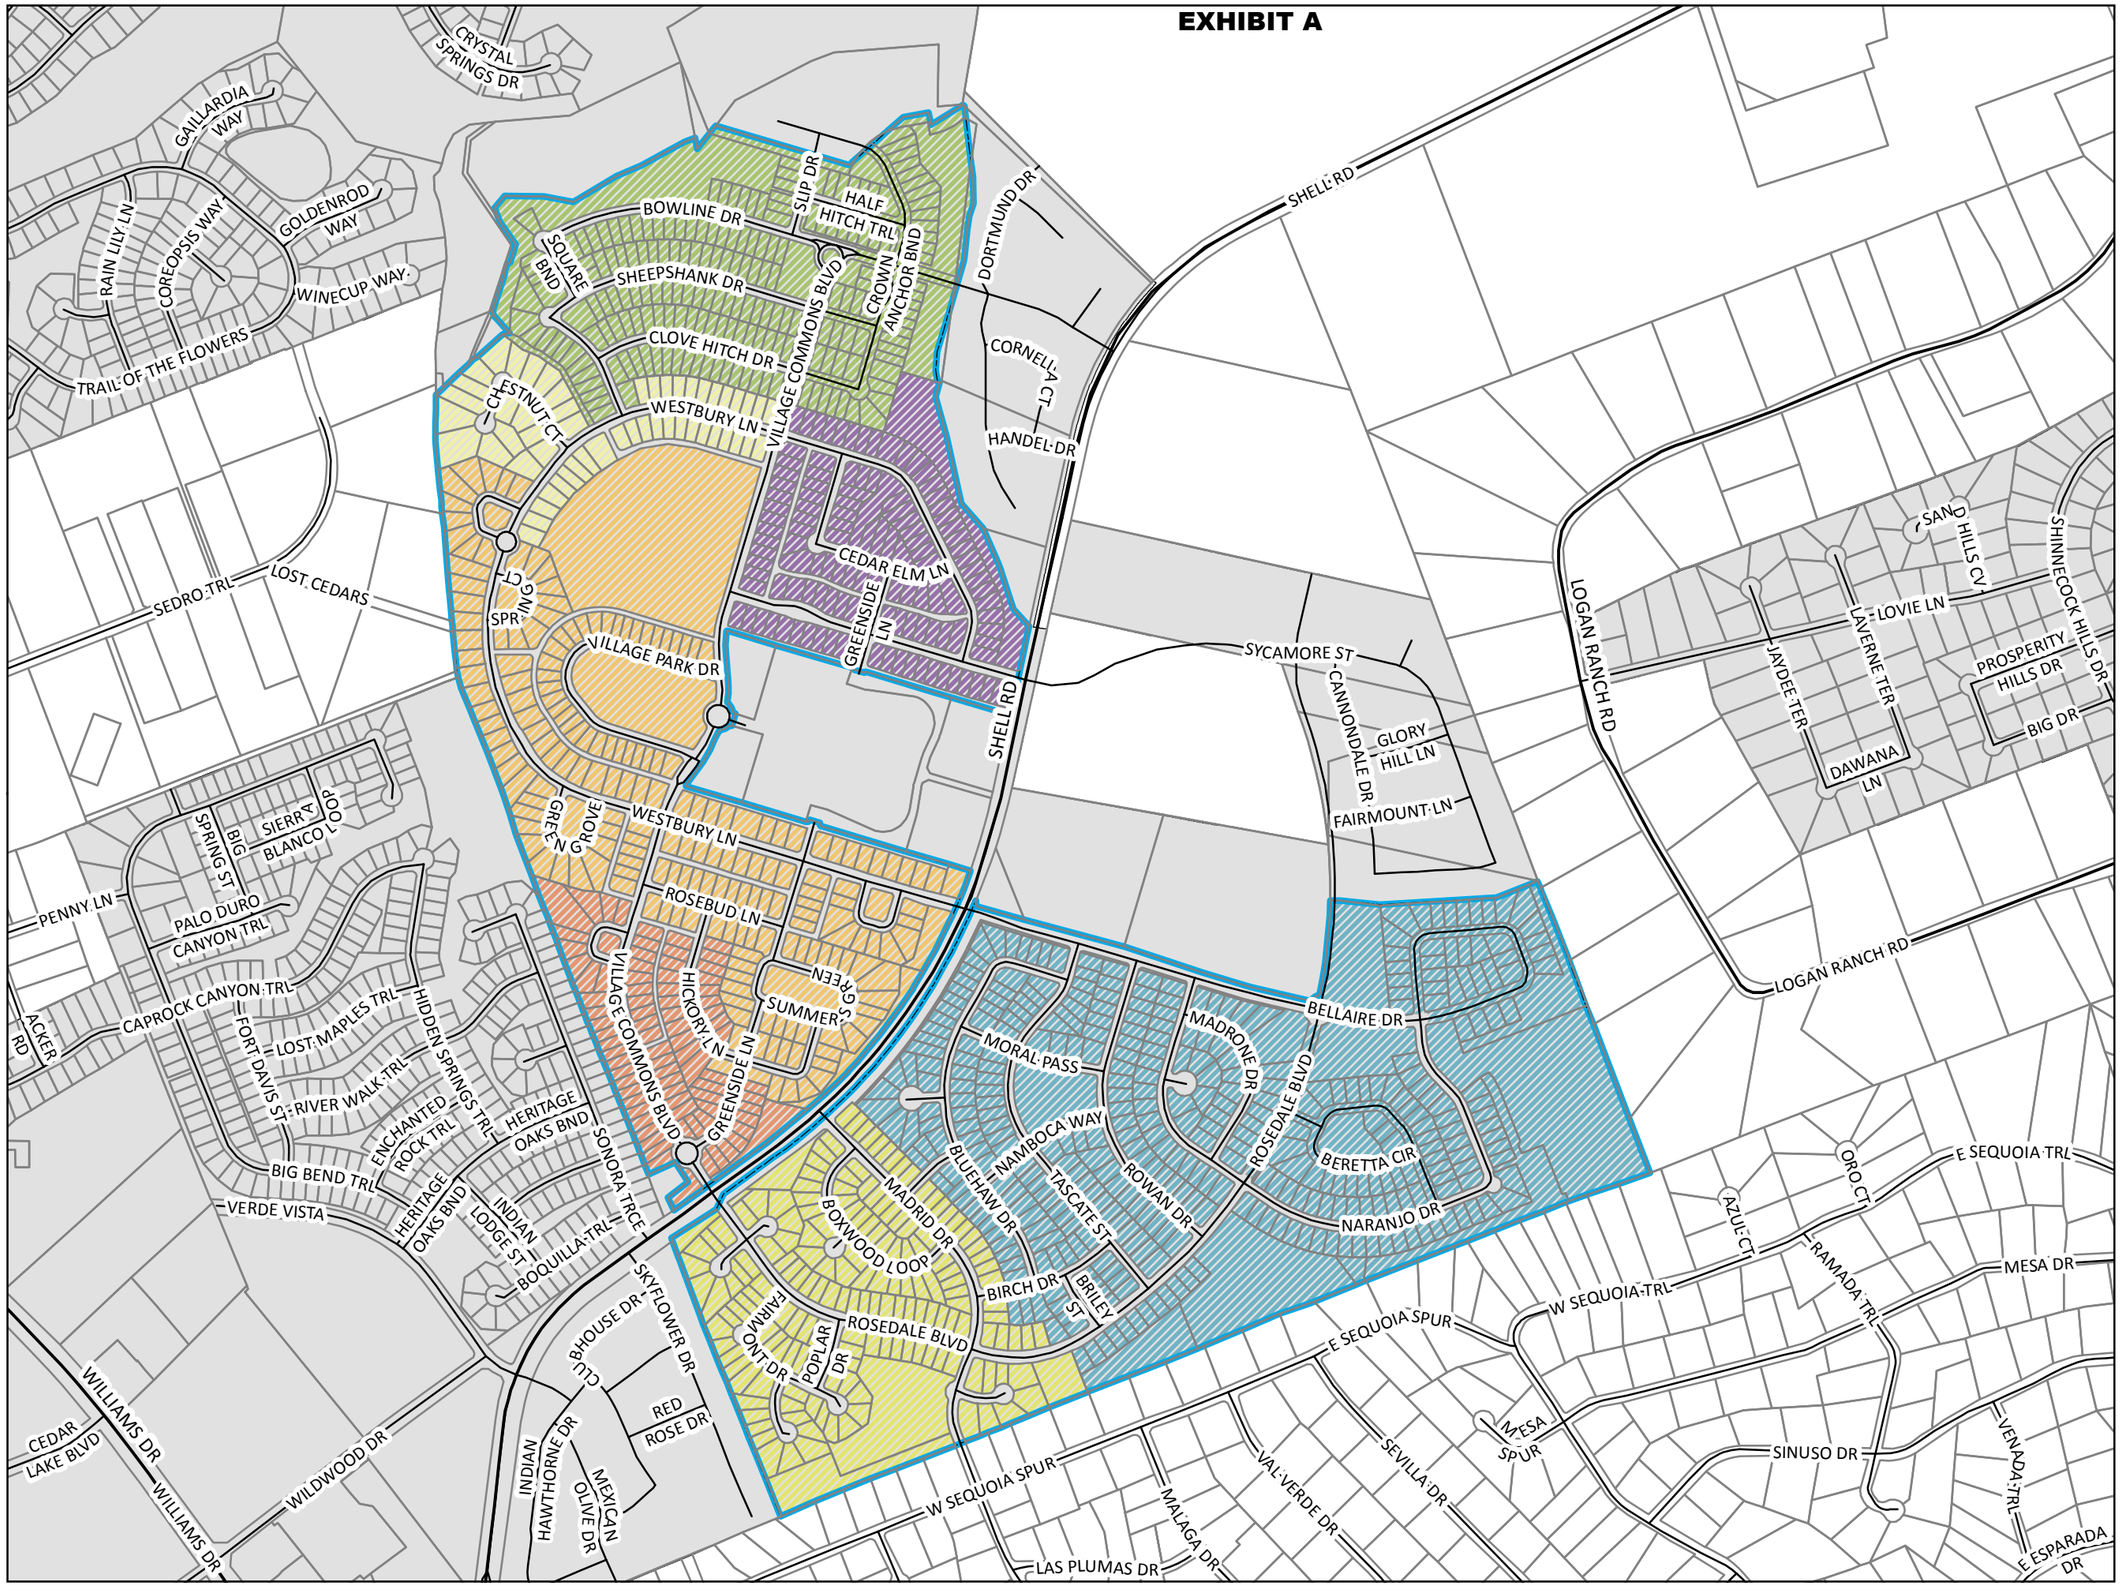
SECTION 4. The Mayor is hereby authorized to execute, and the City Secretary to attest this Resolution.

SECTION 5. This Resolution shall become effective immediately upon adoption.

RESOLVED this __ day of ____, 20__.

ATTEST:

Robyn Densmore
City Secretary



THE CITY OF GEORGETOWN:

City Council
July 28, 2026

SUBJECT:
Transportation Impact Fee (TIF) Semi-Annual Report (2026 - 2nd Quarter)

SUGGESTED ACTION:
Consideration and possible action to provide a recommendation to City Council on the semi-annual performance of the transportation impact fee -- Lua Saluone, P.E., Transportation Manager

ITEM SUMMARY:
The initial Transportation Impact Fee ordinance was adopted by ordinance on March 23, 2021 in accordance with Local Government Code Chapter 395 and was made effective on March 1, 2023. In August 2025, the City Council accepted the 2025 Transportation Impact Fee Study Update ("2025 Report") and established new maximum fees and collection rates.

The Texas Local Government Code, Sec. 395.058. requires a semiannual report on the progress of implementing the capital improvements plan or imposing the impact fee as well as advising the City Council of Georgetown on the need to conduct updates based on land use trends. The Planning and Zoning Commission is the advisory committee for the City of Georgetown.

Sec. 395.058. ADVISORY COMMITTEE.
a) On or before the date on which the order, ordinance, or resolution is adopted under Section 395.042, the political subdivision shall appoint a capital improvements advisory committee.

b) ... If the political subdivision has a planning and zoning commission, the commission may act as the advisory committee if the commission includes at least one representative of the real estate, development, or building industry who is not an employee or official of a political subdivision or governmental entity... If the impact fee is to be applied in the extraterritorial jurisdiction of the political subdivision, the membership must include a representative from that area.

c) The advisory committee serves in an advisory capacity and is established to:
1. advise and assist the political subdivision in adopting land use assumptions;
2. review the capital improvements plan and file written comments;
3. monitor and evaluate implementation of the capital improvements plan;
4. file semiannual reports with respect to the progress of the capital improvements plan and report to the political subdivision any perceived inequities in implementing the plan or imposing the impact fee;

As of June 2, 2026, $1,671,041.00 has been collected in the following zones for both residential and commercial TIF. These funds are to be used for improvements in the Service Area for projects identified in the Transportation Impact Fee Study. At the time of this report, no improvements have been scheduled with the above collected fees. In 2025, $69,290 was expended for the update of the 2025 Report.

As required by The Texas Local Government Code, Sec. 395.058. city staff prepared and presented a

report to The Planning and Zoning Commission on July 7, 2026, with specific questions and findings of the Commission noted below:

1. **Question:** Do you perceive any inequities in implementing the plan or imposing the impact fee?
    - **Answer:** Apparent inequity in not expending collected fees, fund balance should be lower
    - **Answer**: Adopted inflation rate of 3% should be reviewed, realized inflation likely closer to 6%

2. **Question**: Do you see a need to update or revise the land use assumptions, capital improvements plan, and impact fee?
    - **Answer:** Review developments in Zone B and Zone D to ensure we have captured those properties currently developing?
    - **Answer:** With land use changes being consider, appropriate and necessary to update the TIF

FINANCIAL IMPACT:
1,671,041.00 collected since 3/2023.

EXECUTIVE SUMMARY

Introduction

Impact Fees are a mechanism for funding the public infrastructure necessitated by new development. Across the country, they are used to fund police and fire facilities, parks, schools, roads and utilities. In Texas, the legislature has allowed their use for water, wastewater, roadway and drainage facilities. Since 2003, they have been used to fund public water and wastewater improvements in the City of Georgetown. In 2021, the City of Georgetown adopted its first Transportation Impact Fee Study through Ordinance 2021-16. This report serves as an update to that original study. For the purposes of this study, the term "Transportation Impact Fee" is meant to construe applicable requirements for "roadway impact fees" in state law.

In the most basic terms, impact fees are meant to recover the incremental cost of the impact of each new unit of development creating new infrastructure needs. In the case of Transportation Impact Fees, the infrastructure need is the increased capacity on arterial and collector roadways that serve the overall transportation system. The purpose of the 2025 Transportation Impact Fee Study Update is to identify the fee per unit of new development necessary to fund these improvements in accordance with the enabling legislation, Chapter 395 of the Texas Local Government Code.

Impact Fees are a mathematical calculation to determine the maximum dollar amount that new development pays to ensures that new growth pays for the cost of that growth on the roadway infrastructure. The Maximum Transportation Impact Fee per Service Unit for Roadway Facilities is considered an appropriate measure of the impacts generated by a new unit of development on the City's Roadway System. An impact fee program is anticipated to be designed so that it is predictable for both the development community and City. An impact fee program is equitable since similar developments pay a similar fee regardless if they are the first or last to develop. An impact fee program is transparent. This report describes in detail how the fee is calculated and how a Capital Improvement Advisory Committee, referred to as an Impact Fee Advisory Committee (IFAC) in this report and by the City of Georgetown, monitors the Impact Fee program. The IFAC for the City of Georgetown is the Planning and Zoning Commission. An impact fee program is flexible in that funds can be used on priority projects and not just on projects adjacent to a specific development. An impact fee program is consistent with other City goals and objectives for growth. For example, the actual collection rate set by Council may be determined to be less than the

Maximum Transportation Impact Fee to achieve and be in alignment with other City goals and objectives for growth.

Impact Fee Basics

Transportation Impact Fees are determined by several key variables, each described below in greater detail.

Impact Fee Study

The 2025 Transportation Impact Fee Study Update is to determine the maximum impact fee per unit of new development chargeable as allowed by the state law. This study will serve as an update to the 2021 Transportation Impact Fee Study Update dated February 2021. This determination is not a recommendation; the actual fee amount ultimately assessed is at the discretion of the Georgetown City Council, so long as it does not exceed the maximum assessable fee allowed by law. The study looks at a period of 10 years to project new growth and corresponding capacity needs, as required by state law. This study update and corresponding maximum fees update are provided within five years of the previous study, satisfying state law. Senate Bill 1883 dictates that collection rates can only be updated every three years.

Service Areas

A Service Area is a geographic area within which a unique maximum impact fee is determined. All fees collected within the Service Area must be spent on eligible improvements within the same Service Area. For Transportation Impact Fees, the Service Area may not exceed 6 miles. In Georgetown, this restriction necessitated the creation of 10 separate Service Areas. A map of the Service Areas can be found on Page 17. Appendix A contains the standard operating procedure for determining the 6-mile boundary.

In defining the Service Area boundaries, the project team considered the corporate boundary, required size limit, adjacent land uses, highway facilities, and topography. Since each Service Area has a unique maximum impact fee, the per-unit maximum fee for an identical land use will vary from one Service Area to the next. For this reason, the project team avoided drawing a Service Area boundary through uniform land uses where possible.

Land Use Assumptions

The Impact Fee determination is required to be based on the projected growth and corresponding capacity needs in a 10-year window. This study considers the years 2025-2035. Acknowledging that the parameters of the study (the corporate boundaries, Future Mobility Plan, Comprehensive Plan, Capital Area Metropolitan Planning Organization (CAMPO) Travel Demand Model (TDM), zoning maps, platting history, etc.) are changing constantly, this study is based on conditions as they were in July 2025.

One of the key elements in the determination of the impact fee is the amount of new development anticipated over 10 years. The residential and non-residential growth projections were performed using the City of Georgetown's Comprehensive Plan growth projections and the CAMPO TDM.

Transportation Impact Fee Capital Improvements Plan

The Transportation Impact Fee Capital Improvements Plan (TIF CIP) is distinct and separate from the City's traditional Capital Improvements Plan (CIP). The TIF CIP is a list of projects eligible for funding through impact fees. The City's Future Mobility Plan (FMP) is the plan for the infrastructure that is estimated to be necessary to accommodate the expected growth. Only those capacity improvements included in the City's FMP are included in the TIF CIP. Capacity improvements may include the addition of lanes, intersection improvements, or the extension of a new road. Resurfacing or other maintenance activities do not qualify as capacity improvements under impact fee law in Texas and cannot be funded with Transportation Impact Fees.

The cost of the TIF CIP is one of the fundamental factors in the calculation of the per-unit maximum impact fee. In determining project limits, the team identified roadway segments with uniform need. Developing unit costs from recently bid City projects and TxDOT moving average bid prices, uniform costs were determined for the major items of work, additional construction items, and project delivery costs. Costs are provided in 2025 dollars with a 3% inflation rate considered at a service area level. Section III provides a listing of the 10-Year TIF CIP by service area in Tables 3.A – 3.SC and maps of the TIF CIP by service area in Exhibits 4.A – 4.SC. Finally, detailed cost projections by project can be found in Appendix B. It should be noted that these cost projections are based on

conceptual level planning and are subject to refinement upon final design. Offsets should consider the actual project costs upon final design.

Only those projects listed in the TIF CIP are eligible to utilize impact fee funds. In order to optimize future flexibility, all capacity improvements included in the Future Mobility Plan are included in the TIF CIP and will be eligible to utilize impact fee funds, unless the capacity improvement was determined to be completed by others. In some cases, an interim project designation was used due to the ultimate build out not being needed in the 10-year window. An example of this is Southwest Bypass between SH 29 and Leander Road, which is shown as a 6-lane divided road widening in the TIF CIP but ultimately will be built out to a Freeway cross section based on the Future Mobility Plan. Interim project designations were selected by Georgetown staff recommendations and for all identified Freeways in the FMP.

Only the costs associated with providing the additional capacity necessitated by 10 years of growth can be used to calculate the maximum impact fee. To calculate the maximum impact fee, the total cost of the TIF CIP at build-out was reduced to account for (1) the portion of new capacity that will address existing needs, including existing deficiencies, (2) the portion of new capacity that will not be necessitated until beyond the 10-year growth window, and (3) contributions already made by current developments. A ratio that compares 10 years' demand for capacity to the net supply of capacity (total new capacity in the TIF CIP minus existing needs) can be calculated. That ratio, which may not exceed 100%, is then applied to the cost of the net capacity supplied. The result is a determination of the costs attributable to the next 10 years' growth, which is then used to calculate the maximum impact fee in accordance with state law. The result is defined as the recoverable cost of the TIF CIP.

In general, projects that CAN be paid for through an impact fee program are as follows:

- Construction cost of capital improvements on the impact fee CIP
  - Roadway to throughfare standard
  - Upsized water / wastewater line
  - Traffic signals, bridges, sidewalks, etc.
- Survey and engineering fees

- Land acquisition costs, including court awards
- Debt service of impact fee CIP
- Planning studies

Projects that CANNOT be paid for through an impact fee program are as follows:

- Projects not included in the impact fee CIP
- Repair, operation, and maintenance of existing facilities
- Upgrades to serve existing development
- Administrative costs of operating the impact fee program

Service Unit

The "service unit" is a measure of consumption or use of the capital facilities by new development. In other words, it is the unit of measure used in the 2025 Transportation Impact Fee Study Update to quantify the supply and demand for roads in the City. For transportation purposes, the service unit is defined as a vehicle-mile. The definition for vehicle-mile is as follows: a vehicle-mile is the capacity consumed in a single lane in the PM peak hour by a vehicle making a trip one mile in length. The PM Peak is used as the basis for transportation planning and the estimation of trips caused by new development.

Impact Fee Calculation

In simplest terms, the maximum impact fee allowable by law is calculated by dividing the recoverable cost of the TIF CIP by the number of new service units of development. In accordance with state law, both the cost of the TIF CIP and the number of new service units of development used in the equation are based on the growth and corresponding capacity needs projected to occur within a 10-year window. This calculation is performed for each service area individually; each service area has a stand-alone TIF CIP and 10-year growth projection.

In practice, there are many factors that complicate this calculation. The maximum impact fee allowable by law for each service area is calculated in Table 8. A detailed discussion of the calculation precedes Table 8.

Collection and Use of Transportation Impact Fees

Transportation Impact fees are assessed when a preliminary plat is submitted and deemed administratively complete. The assessment defines the impact of each unit at the time of platting, according to land use, and may not exceed the maximum impact fee allowed by law. An existing plat would be assessed at the adoption of the ordinance. Transportation Impact Fees are collected when a building permit is issued. Therefore, funds are not collected until development-impacts are introduced to the transportation system. Funds collected within a service area can be used only within the same service area. Finally, fees must be utilized within 10 years of collection in the designated service area or must be refunded with interest.

Adoption Process

Chapter 395 of the Texas Local Government Code stipulates a specific process for the adoption of Transportation Impact Fees. A Capital Improvements Advisory Committee, called an "Impact Fee Advisory Committee" (IFAC) for this report, is required to review the Update TIF Report, and to provide the Committee's findings for consideration by the City Council. The IFAC for the City of Georgetown TIF is the Planning and Zoning Commission at the time of this study. The composition of the IFAC is required to adequately represent the building and development communities. The City Council then conducts a public hearing on the Land Use Assumptions, TIF CIP, Updated TIF Report, and Impact Fee Ordinance. One public hearing is required for the 2025 Transportation Impact Fee Study Update, for Land Use Assumptions, TIF CIP, the Impact Fee Calculation and Ordinance.

Following policy adoption on September 1st, 2025, the IFAC is tasked with advising the City Council of the need to update the Land Use Assumptions or the TIF CIP at any time within five years of adoption. Finally, the IFAC oversees the proper administration of the Impact Fee, once in place, and advises the Council as necessary. A semi-annual report is required to the IFAC, the Planning and Zoning Commission.

2025 Transportation Impact Fee Study Update Results

Below is the listing of the 2025 Maximum Assessable Impact Fee Per Service Unit (Vehicle-Mile):

Service Area	Maximum Fee Per Service Unit (per Vehicle-Mile)
A	$2,398
B	$3,137
C	$3,240
D	$2,250
Downtown	$457
E	$2,172
F	$3,611
G	$2,885
Lake Georgetown	$3,377
Sun City	$1,599

I. INTRODUCTION

Chapter 395 of the Texas Local Government Code describes the procedure political subdivisions must follow to create and implement impact fees. Chapter 395 defines an Impact Fee as "a charge or assessment imposed by a political subdivision against new development to generate revenue for funding or recouping the costs of capital improvements or facility expansions necessitated by and attributable to the new development."

The City has retained Kimley-Horn and Associates, Inc. to provide professional transportation engineering services for the 2025 Transportation Impact Fee Study Update. This report includes details of the Transportation Impact Fee calculation methodology in accordance with Chapter 395, the applicable Land Use Assumptions, development of the Transportation Impact Fee Capital Improvements Plan (TIF CIP), and the Land Use Vehicle-Mile Equivalency Table.

This report references two of the basic inputs to the Roadway Impact Fee:

1) Land Use Assumptions (Pg. 13)
2) Roadway Impact Fee Capital Improvements Plan (TIF CIP) (Pg. 19)

Information from these Land Use Assumptions and TIF CIP is used extensively throughout the remainder of the report.

There is a detailed discussion of the methodology for the computation of impact fees. This discussion is broken into three components:

1) Methodology for Transportation Impact Fees (Pg. 34)
2) Transportation Impact Fee Calculation (Pg. 54)
3) Plan for Financing and the Ad Valorem Tax Credit (Pg. 57)

The components of the Computation Method for Roadway Impact Fee include development of:

- Service Areas (Pg. 41)
- Service Units (Pg. 41)
- Cost Per Service Unit (Pg. 43)
- TIF CIP Costing Methodology (Pg. 43)
- Summary of TIF CIP Costs (Pg. 47)
- Service Unit Calculation (Pg. 58)

The Transportation Impact Fee is then calculated as:

- Maximum Assessable Impact Fee Per Service Unit (Pg. 64)
- Service Unit Demand Per Unit of Development (Pg. 72)

The report also includes a section concerning the Plan for Financing and the Ad Valorem Tax Credit. This involves the calculation of the applicable credit required by law to offset the City's use of ad valorem taxes to help fund the TIF CIP. This plan, prepared by NewGen Strategies, and upon which we relied, details the maximum assessable impact fee per service unit the City of Georgetown may apply under Chapter 395 of the Texas Local Government Code.

II. LAND USE ASSUMPTIONS

A. Purpose and Overview

In order to assess an impact fee, Land Use Assumptions must be developed to provide the basis for residential and employment growth projections within a municipality. As defined by Chapter 395 of the Texas Local Government Code, these assumptions include a description of changes in land uses, densities, and development in the service area. The land use assumptions are then used in determining the need and timing of transportation improvements to serve future development.

This report documents the process used to develop the Land Use Assumptions for the City of Georgetown's Transportation Impact Fee (TIF) study. In accordance with Chapter 395 of the Texas Local Government Code, roadway (transportation) impact fees must be calculated based on reasonable expectations of residential and employment growth within the next ten years (2025 – 2035).

Information from the following sources was compiled to complete the Land Use Assumptions:

- The 2050 Capital Area Metropolitan Planning Organization (CAMPO) Regional Transportation Demand Management (TDM) Plan (2025)
- Future Mobility Plan (December 2023)
- Georgetown Comprehensive Plan Future Land Use Plan (Updated December 2023)
- City of Georgetown staff

This Land Use Assumptions Summary includes the following components:

- Land Use Assumptions Methodology – An overview of the general methodology used to generate the land use assumptions.
- Transportation Impact Fee Service Areas – Explanation of the division of Georgetown into service areas for roadway and infrastructure facilities.
- Residential and Employment Growth – Data on residential and employment growth within each service area over the next ten years (2025 – 2035).
- Land Use Assumptions Summary Table – A synopsis of the Land Use Assumptions.

The residential and employment estimates and projections were compiled in accordance with the following categories:

Units: Number of dwelling units, both single and multi-family.

Employment: Square feet of building area based on three (3) different classifications. Each classification has unique trip making characteristics.

Retail: Land use activities which provide for the retail sale of goods which primarily serve households and whose location choice is oriented toward the household sector, such as grocery stores and restaurants.

Service: Land use activities which provide personal and professional services, such as government and other professional offices.

Basic: Land use activities that produce goods and services such as those which are exported outside of the local economy, such as manufacturing, construction, transportation, wholesale, trade, warehousing, and other industrial uses.

The above categories in the Land Use Assumptions match those used to develop the travel demand model for the CAMPO 2050 TDM. These broader categories are used in the development of the assumptions for impact fees; however, expanded classifications used in the assessment of impact fees are found in the Land Use / Vehicle-Mile Equivalency Table (Pg. 64).

B. Land Use Assumptions Methodology

The residential and non-residential growth projections formulated in this report were performed using reasonable and generally accepted planning principles. The following factors were considered in developing these projections:

- Character, type, density, and quantity of existing development;
- Emerging Projects;
- Historical growth trends

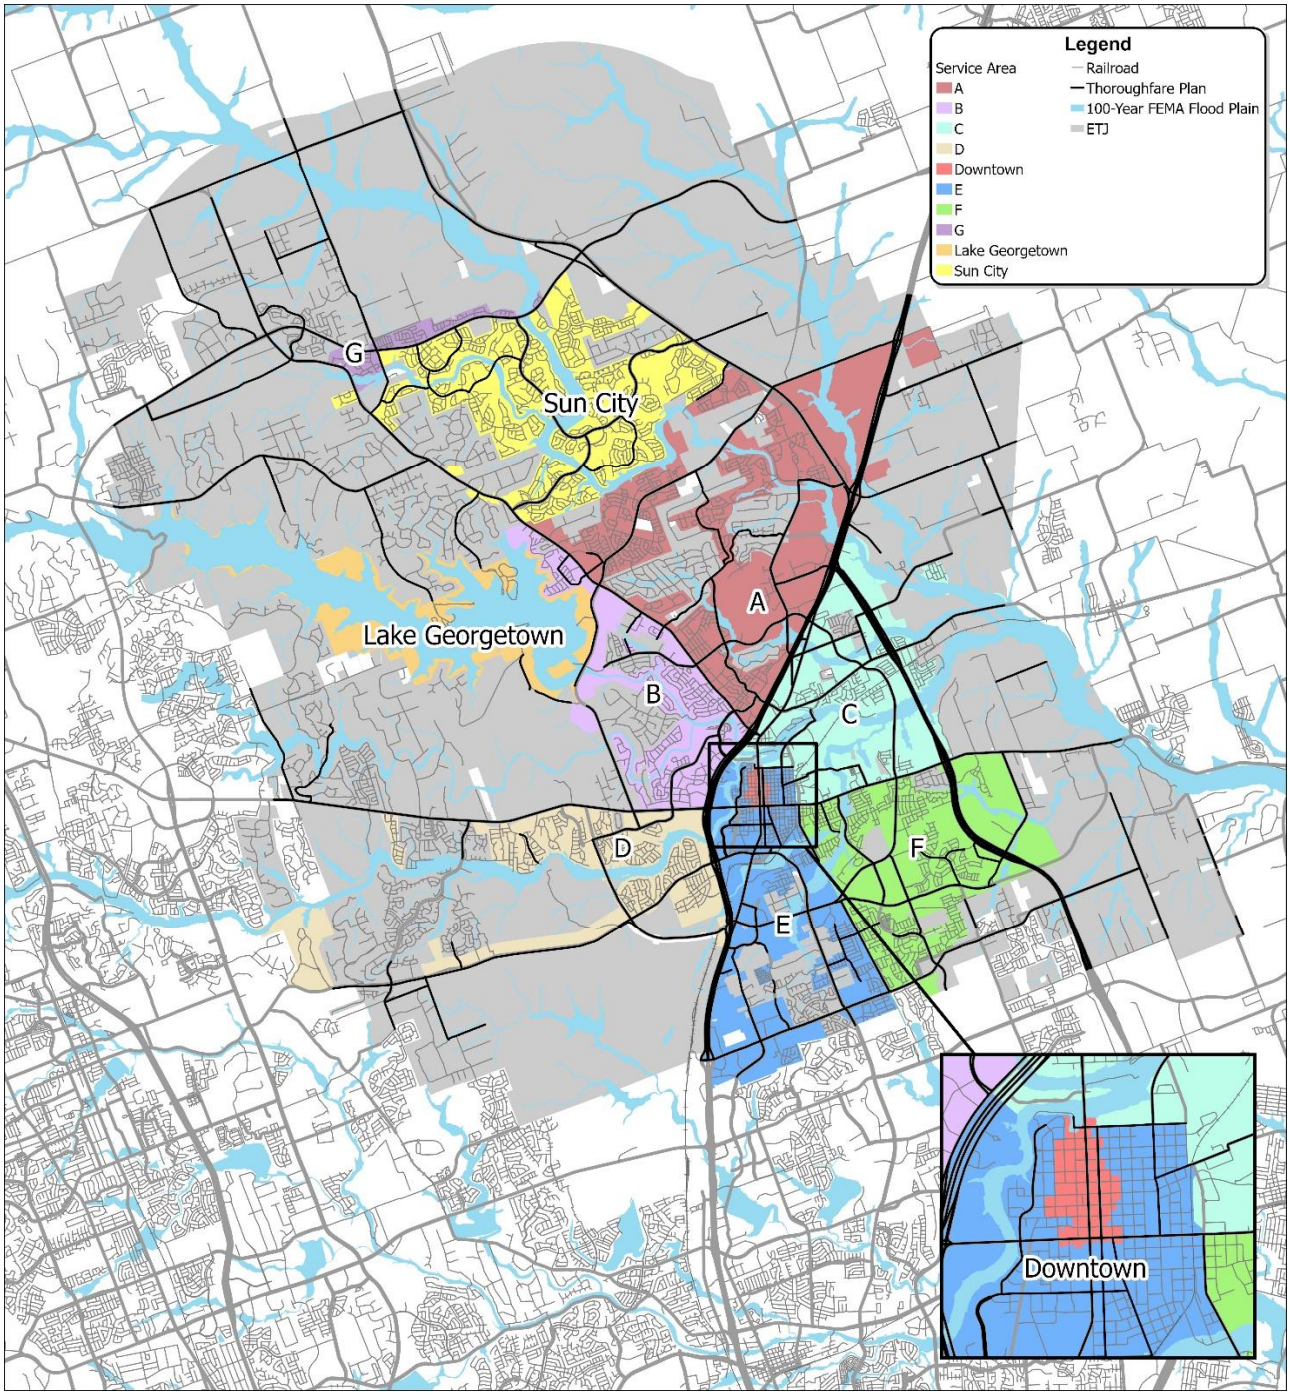
Determination of the ten-year growth within the Transportation Impact Fee Study Update area was accomplished through two general steps:

- Step 1: Determine Base Year (2025)
- Step 2: Determine 10-Year Growth Projections (2025-2035)

Step 1: Determine Base Year (2025)

Data was collected from the CAMPO TDM in 2025, which included parcel data in GIS format, as well as land use information and other property data. The CAMPO TDM parcel data was associated with the corresponding service area based on location. A conversion of square footage per unit was utilized to determine the number of units for multifamily land uses based on average multifamily unit sizes.

Step 2: Determine 10-Year Growth Projections (2025-2035)



The CAMPO TDM was used to determine build-out conditions as well for the City of Georgetown. The CAMPO TDM data also includes future growth projections based on land use information. This CAMPO TDM parcel data was associated with the corresponding service area based on location. The Land Use Assumptions for the City of Georgetown TIF are shown in Table 1.

C. Transportation Impact Fee Service Areas

The geographic boundary of the proposed impact fee service areas for transportation facilities is shown in Exhibit 1. The City of Georgetown is divided into ten (10) service areas, each based upon the six (6) mile limit, as required in Chapter 395. For transportation facilities, the service areas, as required by state law, are limited to areas within the current corporate City limits. In defining the Service Area boundaries, the project team considered the corporate boundary, required six (6) mile size limit, adjacent land uses, highways and topography. Since each Service Area will have a unique maximum impact fee, the per-unit maximum fee for an identical land use will vary from one Service Area to the next. For this reason, the areas of uniform land use were contained within the same Service Area where possible.

It should be noted that at locations where Service Area boundaries align with a City roadway, the proposed boundary is intended to follow the centerline of the roadway, unless otherwise noted. In cases where a Service Area boundary follows the City Limits, only those portions of the transportation facility within the City Limits are included in the Service Area. For example, if a Service Area Boundary follows the city limits, and one side of a transportation facility is in the City limits and the other is not, only 50% of the facility may be included in the TIF CIP. Another example is where the Service Area boundary follows the edge of Right-of-Way for a transportation facility, but the Right-of-Way and other side of the transportation facility is out of the City Limits. In this case, 50% of the transportation facility is included in the TIF CIP. For intersection projects along a Service Area boundary, only the corners of the intersection that fall within a Service Area boundary are considered for inclusion in the respective Service Area. For example, if one corner of an intersection is outside of the City Limits, one corner is in one service area, and the remaining two corners are in another service area, the first service area would include 25% of the intersection project, and the second would include 50% of the intersection project.

Exhibit 1 – Proposed Service Areas

D. Land Use Assumptions Summary

Table 1 summarizes the residential and employment 10-year growth projections.

Table 1. Residential and Employment 10-Year Projections

Service Area	Year	Residential (Units)		Employment (Sq. Ft.)			
		Single Family	Multi-Family	Basic	Service	Retail	Total
A	*2025-2035*	2,192	548	390,000	1,860,000	930,000	3,180,000
B		663	166	40,000	90,000	90,000	220,000
C		1,876	469	250,000	1,020,000	600,000	1,870,000
D		1,002	251	50,000	710,000	530,000	1,290,000
Downtown		5	1	10,000	20,000	20,000	50,000
E		940	235	200,000	460,000	710,000	1,370,000
F		1,471	368	70,000	490,000	210,000	770,000
G		5	1	2,000	5,000	134,000	141,000
Lake Georgetown		90	23	10,000	40,000	40,000	90,000
Sun City		3,102	775	20,000	360,000	280,000	660,000

III. TRANSPORTATION IMPACT FEE CAPITAL IMPROVEMENTS PLAN

The City has identified the transportation projects needed to accommodate the projected growth within the City. The City's Future Mobility Plan (FMP) is the plan for the infrastructure that is estimated to be necessary to accommodate the expected growth. The Transportation Impact Fee Capital Improvements Plan (TIF CIP) consists of 4 categories of projects for roadway facilities as well as intersection projects described on Pg. 20 of this report. They are as follows:

- Funded – Identified corridors that were previously constructed and have excess capacity for future development yet to be utilized.
- Widening – Existing roadways not currently built to the ultimate class in the Future Mobility Plan and must be completely reconstructed.
- Access Management – Existing roadways identified for median construction in the existing center turn lane for access management purposes.
- New - All future roadways needed to complete the Future Mobility Plan.

The TIF CIP includes arterial class roadway facilities, collector facilities as well as major intersection improvements. Roadway facilities identified are included in the Future Mobility Plan except for some roadway alignment modifications due to city direction and some collector widenings identified through discussion with City Staff. Some collector facilities were identified as being built by others through development agreements or other agencies such as Williamson County or TxDOT or being funded through other measures that would preclude inclusion in the TIF CIP and were removed in Exhibit 2.A – 2.SC. Through evaluation of the Future Mobility Plan with City staff, some facilities were identified that were downgraded from their functional classification ultimate number of lanes to reflect capacity lane needs in a 10-year window.

In addition to roadway facilities, major intersection improvements were identified by determining capacity needs through either turn lanes or improved traffic control measures based on Future Mobility Plan functional classifications of intersecting roadways. Intersection Improvements were categorized as follows:

- Signal Modifications/Intersection Improvement – Installation of a new signal or modification of an existing one due to new roadway approaches. Additionally, this may include adding/extending turn lanes as per TxDOT recommendations, or constructing special intersection improvements determined after a separate analysis.
- Roundabout – A new roundabout intersection.

All intersection improvement recommendations are recommended to undergo a design level evaluation before implementation to ensure the most appropriate improvements are made. In the case where a design level evaluation determines improvements contrary to the TIF CIP, such as turn lane improvements in place of a signal, the TIF CIP cost allocated to the intersection may still be applied to the alternate improvements.

The proposed TIF CIP is listed in Tables 2.A – 2.SC and mapped in Exhibits 2.A – 2.SC. The tables show the length of each project as well as the facility's typology. The TIF CIP was developed in conjunction with input from City of Georgetown staff and represents projects that will be needed to accommodate the growth projected in the Land Use Assumptions section of this report.

Georgetown Transportation Impact Fee
Service Area Sun City
July 2025

IV. METHODOLOGY FOR TRANSPORTATION IMPACT FEES

A. Service Areas

The ten (10) service areas used in the 2025 Transportation Impact Fee Study Update are shown in the previously referenced Exhibit 1. These service areas cover the entire corporate area of the City of Georgetown. Chapter 395 of the Texas Local Government Code specifies that "the service area is limited to an area within the corporate boundaries of the political subdivision and shall not exceed six (6) miles." The service areas in the 2025 Transportation Impact Fee Study Update are consistent with the specification of Chapter 395 of the Texas Local Government Code.

B. Service Units

The "service unit" is a measure of consumption or use of the capital facilities by new development. In other words, it is the unit of measure used in the 2025 Transportation Impact Fee Study Update to quantify the supply and demand for roads in the City. For transportation purposes, the service unit is defined as a vehicle-mile. Below is the definition for vehicle-mile.

Vehicle-Mile: The capacity consumed in a single lane in the PM peak hour by a vehicle making a trip one mile in length. The PM Peak is used as the basis for transportation planning and the estimation of trips caused by new development.

Total Vehicle-Miles of Supply: Based on the total length (miles), number of lanes, and capacity (vehicles per hour) provided by the Future Mobility Plan projects listed in the CIP (see Appendix C).

Total Vehicle-Miles of Demand: Based on the 10-year growth projections (Pg. 62). The demand is equal to PM Trip Rate (trips) * Trip Length (miles).

The capacity values used in the 2025 Transportation Impact Fee Study Update are based upon Capacity Criteria published by the Capital Area Metropolitan Planning Organization (CAMPO) and modified to reflect local context within the City of Georgetown corporate limits. Tables 3A and 3B show the service volumes as a function of the facility classification and type for existing and proposed facilities, based on the CAMPO Transportation Demand Management Plan.

Table 3A. Service Volumes for Proposed Facilities
(used in Appendix C – Transportation Impact Fee CIP Service Units of Supply)

Facility Classification	Lanes	Median Configuration	Hourly Vehicle-Mile Capacity per Lane-Mile of Roadway Facility
New/Widen 6 Lane	6	Divided	900
New/Widen 4 Lane	4	Divided	810
Widen 3 Lane	3	Undivided	510
New 2 Lane	2	Undivided	410

Table 3B. Service Volumes for Existing Facilities

Roadway Type	Description	Hourly Vehicle-Mile Capacity per Lane-Mile of Roadway Facility
2U-G	Rural Cross-Section (i.e., gravel, dirt, etc.)	100
2U	Two lane undivided – built-out	410
2U-OP	Two lane undivided with on-street parking	330
2D	Two lane divided	550
3U	Three lane undivided (two-way, left-turn lane)	510
4U	Four lane undivided	680
4U-OP	Four lane undivided with on-street parking	580
4D	Four lane divided	810
5U	Five lane undivided	770
6D	Six lane divided	900

C. Cost Per Service Unit

A fundamental step in the impact fee process is to establish the cost for each service unit. In the case of the Transportation Impact Fee, this is the cost for each vehicle-mile of travel. Thus, it is the cost to construct a roadway (lane-mile) needed to accommodate a vehicle-mile of travel. The cost per service unit is calculated for each service area based on the roadway projects within that service area.

The second component of the cost per service unit is the determination of the number of service units in each service area. This number is the measure of the growth in transportation demand that is projected to occur in the ten-year period.

D. Cost of the TIF CIP

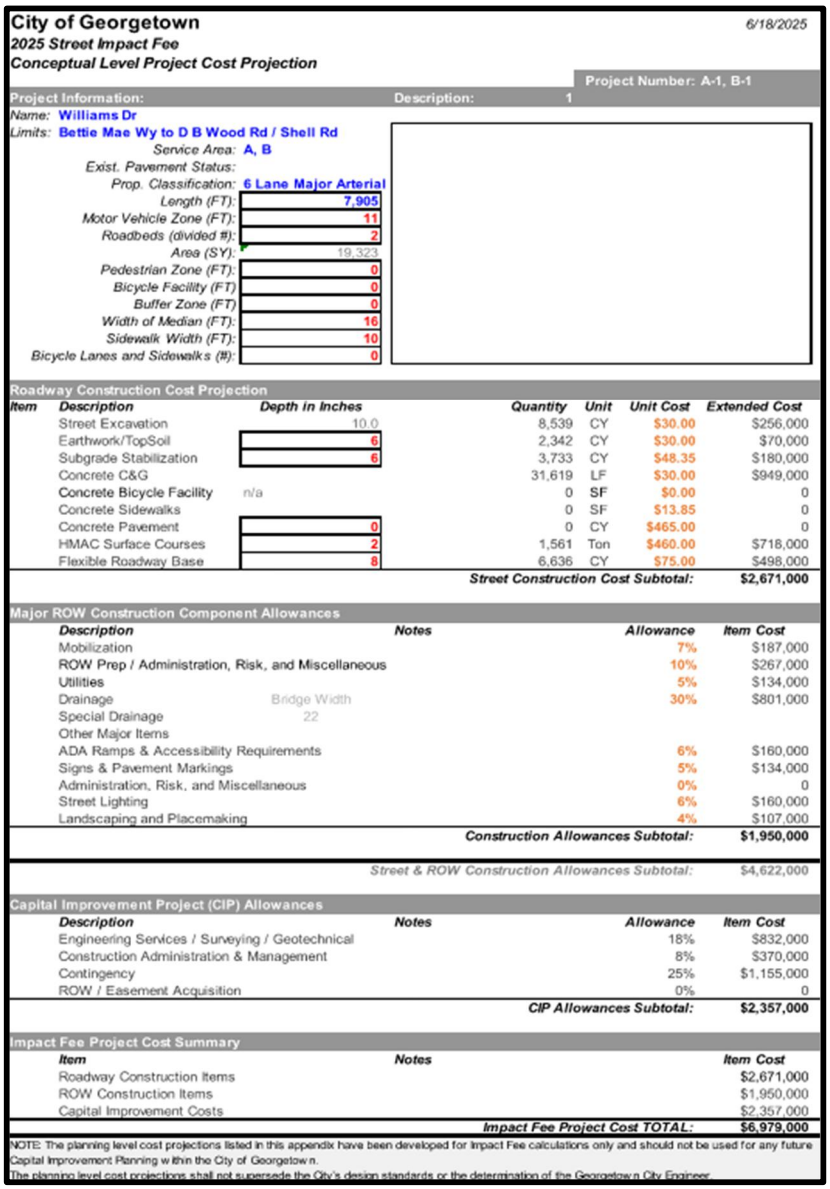
All of the project costs for an arterial or collector facility which serves the overall transportation system are eligible to be included in the Transportation Impact Fee Capital Improvements Plan (TIF CIP). Chapter 395 of the Texas Local Government Code specifies that the allowable costs are "…including and limited to the:

1. Construction contract price;
2. Surveying and engineering fees;
3. Land acquisition costs, including land purchases, court awards and costs, attorney's fees, and expert witness fees; and
4. Fees actually paid or contracted to be paid to an independent qualified engineer or financial consultant preparing or updating the capital improvements plan who is not an employee of the political subdivision."

The engineer's opinion of the probable costs of the projects in the TIF CIP is based, in part, on the calculation of a unit cost of construction. This means that a cost per linear foot of roadway is calculated based on an average price for the various components of roadway construction. This allows the probable cost to be determined by the type of facility being constructed, the number of lanes, and the length of the project. The cost for location specific items such as bridges, highway ramps, drainage structures, and any other special components are added to each project, as appropriate. The following is a detailed description of the costing worksheet/methodology for the TIF CIP.

1. Overview of TIF CIP Costing Worksheets

For each project a specific costing worksheet was developed (see Appendix B). Each worksheet contained the following four (4) main components:



- Project Information,
- Construction Pay Items,
- Construction Component Allowances and
- Summary of Costs and Allowances

					Street Construction Cost Subtotal:	**$2,671,000**

Major ROW Construction Component Allowances

Description	*Notes*	*Allowance*	*Item Cost*
Mobilization		7%	$187,000
ROW Prep / Administration, Risk, and Miscellaneous		10%	$267,000
Utilities		5%	$134,000
Drainage	Bridge Width	30%	$801,000
Special Drainage	22		
Other Major Items			
ADA Ramps & Accessibility Requirements		6%	$160,000
Signs & Pavement Markings		5%	$134,000
Administration, Risk, and Miscellaneous		0%	0
Street Lighting		6%	$160,000
Landscaping and Placemaking		4%	$107,000
	Construction Allowances Subtotal:		**$1,950,000**
	Street & ROW Construction Allowances Subtotal:		$4,622,000

Capital Improvement Project (CIP) Allowances

Description	*Notes*	*Allowance*	*Item Cost*
Engineering Services / Surveying / Geotechnical		18%	$832,000
Construction Administration & Management		8%	$370,000
Contingency		25%	$1,155,000
ROW / Easement Acquisition		0%	0
	CIP Allowances Subtotal:		**$2,357,000**

Impact Fee Project Cost Summary

Item	*Notes*	*Item Cost*
Roadway Construction Items		$2,671,000
ROW Construction Items		$1,950,000
Capital Improvement Costs		$2,357,000
	Impact Fee Project Cost TOTAL:	**$6,979,000**

NOTE: The planning level cost projections listed in this appendix have been developed for Impact Fee calculations only and should not be used for any future Capital Improvement Planning within the City of Georgetown.
The planning level cost projections shall not supersede the City's design standards or the determination of the Georgetown City Engineer.

2. Project Information

In order to correctly estimate the cost of a roadway project, several attributes are first identified:

- Project Number – Identifies which Service Area the project is in with a corresponding number. The corresponding number does not represent any prioritizations and is used only to identify projects. For example, Project F-20 is in Service Area F and is the 20th project on the list.
- Name – A unique identifier for each project. In some cases, abbreviations are used for the project name.
- Limits – Represents the beginning and ending location for each project.
- Impact Fee Class – The costing class to be used in the analysis. The impact fee class provides the width for the various elements in the roadway. The construction costs are variable, based on the Future Mobility Plan classification of the roadway. Modification to roadway element widths are utilized in cases where a portion of the facility currently exists and the road is only to be widened, or where the road is planned to be widened to an interim configuration. Examples of these are access management projects, which are designated in the summary sheets at the beginning of each service area's Conceptual Level Cost Projections in Appendix B. Other specialized cases are noted in the short description box located in this section, such as previously constructed projects with a known cost.
- Ultimate Class – the ultimate classification of the roadway, if different from the Impact Fee Class based on determination of need in the 10-year window.
- Length (ft) – The distance measured in feet that is used to cost out the project.
- Service Area(s) – Represents the service areas where the project is located. Multiple service areas will be listed if the project lies along a service area boundary, or if a different jurisdiction lies along the project, it will be noted.

3. Construction Pay Items

A typical roadway project consists of several costs, including the following: planning, survey, design engineering, permitting, right-of way acquisition, and construction and testing. While the construction cost component of a project may consist of approximately 100 various pay items, a simplified approach was used for developing the conceptual level project costs. The pay items used in the 2025 TIF CIP are as follows:

- Unclassified street excavation;
- Earthwork/TopSoil;
- Subgrade Stabilization;
- Concrete Curb and Gutter;
- Concrete Sidewalks;
- Concrete Pavement;
- HMAC Surface Courses; and
- Flexible Roadway Base;

4. Construction Component Allowances

A percentage of the paving construction cost is allotted for various major construction component allowances, as appropriate. These allowances include mobilization, ROW administration, utilities, drainage, ADA ramps and accessibility requirements, signs and pavement markings, administration and risk, street lighting, and landscaping. These allowance percentages are also based on previously bid projects in the area.

In addition, lump sum dollar allowances are provided for special drainage structures (bridges and culverts) and railroad crossings. The paving and allowance subtotal is given a construction contingency.

5. Summary of Cost and Allowances

To determine the total Impact Fee Project Cost, eighteen percent (18%) of the construction cost total is added for engineering, surveying, and testing. Additionally, eight percent (8%) of the total construction cost is added for construction administration and management. ROW/easement acquisition is not included in the project costs but is a recoverable cost per Chapter 395 of the Local Government Code.

The Impact Fee Project Cost Total is then the Construction Cost Total plus engineering, surveying, and testing, plus construction administration and management, and plus contingency.

E. Summary of Roadway Impact Fee CIP Costs

Tables 4.A – 4.SC are the 10-Year TIF CIP project lists for each service area with planning level project costs. Individual project cost worksheets can be seen in Appendix B, Conceptual Level Project Cost Projections. It should be noted that these tables reflect only conceptual-level opinions or assumptions regarding the portions of future project costs that are recoverable through impact fees. Actual project costs are likely to change with time and are dependent on market and economic conditions that cannot be predicted.

The TIF CIP establishes the list of projects for which Impact Fees may be utilized. Projects not included in the TIF CIP are not eligible to receive impact fee funding. The cost projections utilized in this study should not be utilized for the City's construction CIP.

Table 4.A – 10-Year TIF CIP
with Conceptual Level Cost Projections – Service Area A

Service Area	Project #	Class	Roadway	Limits	Length (MI)	Impact Fee Project Cost	Percent in Service Area	Total Cost in Service Area

							TOTAL SERVICE AREA COST:	$44,725,000

a. These planning level cost projections have been developed for Impact Fee calculations only and should not be used for any future Capital Improvement Projects within the City of Georgetown.
b. These planning level cost projections shall not supersede the City's design standards or the determination of the City Engineer for a specific project.

F. Service Unit Calculation

The basic service unit for the computation of Georgetown's Transportation Impact Fees is the vehicle-mile of travel during the afternoon peak-hour (as explained on Pg. 41). To determine the cost per service unit, it is necessary to project the growth in vehicle-miles of travel for the service area for the 10-year period.

The growth in vehicle-miles from 2025 to 2035 is based upon projected changes in residential units and employment for the period. To determine this growth, estimates of residential units, basic employment, service employment, and retail employment for 2025 were made, along with growth projections for each of these demographic statistics through 2035. The Land Use Assumptions section of this report details the growth estimates used for impact fee determination.

For the purposes of impact fees, all developed and developable land is categorized as either residential or non-residential. For residential land uses, the existing and projected number of dwelling units are estimated. The number of dwelling units in each service area is multiplied by a *transportation demand factor* (discussed in more detail below) to compute the vehicle-miles of travel that occur during the afternoon peak hour. This factor indicates the average amount of demand created by the residential land uses in the service area.

For non-residential land uses, the process is similar. The Land Use Assumptions section of this report provides existing and projected number of building square footages for three (3) categories of employment – basic, service, and retail. These categories correspond to an aggregation of other specific land use categories.

Building square footage is the most common independent variable for the estimation of non-residential trips in the *Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition*. This characteristic is more appropriate than the number of employees, because building square footage is tied more closely to trip generation and is known at the time of application for any development that would require the assessment of an impact fee.

The existing and projected land use assumptions for the dwelling units and the square footage of basic, service, and retail land uses provide the basis for the projected increase in vehicle-miles of travel. Growth estimates for basic, service, and retail land uses was limited to no more than double the 2025 value, except for in SA G, which is not extensively developed in 2025. As noted earlier, a *transportation demand factor* is applied to these values and then summed to calculate the total peak hour vehicle-miles of demand for each service area.

The *transportation demand factors* are aggregate rates derived from two sources – the *ITE Trip Generation Manual, 11th Edition* and the National Household Travel Survey performed by the Federal Highway Administration (FHWA). The *ITE Trip Generation Manual, 11th Edition* provides the number of trips that are produced or attracted to the land use for each dwelling unit, square foot of building, or other corresponding unit. For the retail category of land uses, the rate is adjusted to account for the fact that a percentage of retail trips are made by people who would otherwise be traveling past that particular establishment anyway, such as a trip between work and home. For example, a stop at a nearby supermarket on the way home from work does not create a new trip onto the roadway network. These trips are called pass-by trips, and since the travel demand is accounted for in the land use calculations relative to the primary trip, it is necessary to discount the retail trip generation rates to avoid double counting trips.

The next component of the *transportation demand factor* accounts for the length of each trip. The average trip length for each category is based on the region-wide travel characteristics determined through the Replica online platform. This database serves as an activity-based travel demand model from which several travel parameters can be extracted based on a combination of existing data and projected traffic conditions.

The computation of the *transportation demand factor* is based on the following equation:

Variables:

$$TDF = T * (1 - P_b) * L_{\max}$$

$$\text{where...}\ L_{\max} = \min(L * OD \text{ or } 6)$$

TDF = Transportation Demand Factor,
T = Trip Rate (peak hour trips / unit),
P_b = Pass-By Discount (% of trips),
L_{max} = Maximum Trip Length (miles),
L = Average Trip Length (miles), and
OD = Origin-Destination Reduction (50%)

The maximum trip length was limited to six (6) miles based on the maximum trip length within each service area. Chapter 395 of the Texas Local Government Code allows for a service area of six (6) miles, and the service areas within Georgetown are closely approximated with a six (6) mile distance.

The adjustment made to the average trip length statistic in the computation of the maximum trip length is the origin-destination reduction. This adjustment is made because the Transportation Impact Fee is charged to both the origin and destination end of the trip. For example, impact fee methodology will account for a trip from home to work within Georgetown to both residential and non-residential land uses. To avoid counting these trips twice as both residential and non-residential trips, a 50% origin-destination (OD) reduction factor is applied. Therefore, only half of the trip length is assessed to each land use, and the total trip is only counted once. This methodology is consistent with that used in the National Household Travel Survey. These lengths were developed based on the CAMPO long-range transportation model.

Table 5 shows the derivation of the *Transportation Demand Factor* for the residential land uses and the three (3) non-residential land use categories. The values utilized for all variables shown in the *transportation demand factor* equation are also shown in the table.

Table 5. Transportation Demand Factor Calculations

Variable	Residential, Single Family	Residential, Multifamily	Basic	Service	Retail
T	0.94	0.51	0.65	1.44	2.51
P_b	0%	0%	0%	0%	34%
L	7.02	7.45	8.32	6.75	6.78
L_{max}	3.51	3.73	4.16	3.38	3.39
TDF	3.30	1.90	2.7	4.87	8.51
	* L_{max} is less than 6 miles for residential, service, and retail land uses; therefore this lower trip length is used for calculating the TDF for these land uses.				

Variables:

TDF = Transportation Demand Factor,
T = Post Pass-By Reduction Trip Rate (peak hour trips / unit),
P_b = Pass-By Discount (% of trips),
L_{max} = Maximum Trip Length (miles),
L = Average Trip Length (miles), and
OD = Origin-Destination Reduction (50%)

The application of the demographic projections and the *transportation demand factors* are presented in the 10-Year Growth Projections in Table 6. This table shows the growth in total vehicle-miles by service area between the years 2025 – 2035.

Table 6. 10-Year Growth Projections

V. TRANSPORTATION IMPACT FEE CALCULATION

A. Maximum Assessable Impact Fee Per Service Unit

This section presents the maximum assessable impact fee rate calculated for each service area. The maximum assessable impact fee is the sum of the eligible TIF CIP costs for the service area divided by the growth in travel attributable to new development projected to occur within the 10-year period. A majority of the components of this calculation have been described and presented in previous sections of this report. The purpose of this section is to document the computation for each service area and to demonstrate that the guidelines provided by Chapter 395 of the Texas Local Government Code have been addressed. Table 7 illustrates the computation of the maximum assessable impact fee computed for each service area. Each row in the table is numbered to simplify explanation of the calculation. The calculation of the maximum assessable impact fee is shown in Table 8. The Transportation Impact Fee CIP consists of both roadway segment and intersection improvements. The roadway segment component is referred to as the "Roadway Impact Fee CIP," while the intersection component is referred to as the "Intersection Impact Fee CIP." Combined they are represented as the "Total Transportation Impact Fee CIP".

Table 7. Maximum Assessable Transportation Impact Fee Computation

Line	Title	Description
1	*Total Vehicle-Miles of Capacity Added by the Transportation Impact Fee CIP*	The total number of vehicle-miles added to the service area based on the capacity, length, and number of lanes in each project (from Appendix C – Transportation Impact Fee CIP Units of Supply)

Each project identified in the TIF CIP will add a certain amount of capacity to the City's roadway network based on its length and classification. This line displays the total amount added within each service area.

2	*Total Vehicle-Miles of Existing Demand*	A measure of the amount of traffic currently using the roadway facilities upon which capacity is being added. (from Appendix C – Transportation Impact Fee CIP Units of Supply)

A number of facilities identified in the TIF CIP have traffic currently utilizing a portion of their existing capacity. This line displays the total amount of capacity along these facilities currently being used by existing traffic.

3	*Total Vehicle-Miles of Existing Deficiencies*	Number of vehicle-miles of travel that are not accommodated by the existing roadway system (from Appendix D – Existing Roadway Facilities Inventory)

In order to ensure that existing deficiencies on the City's roadway network are not recoverable through impact fees, this line is based on the entire roadway network within the service area. Any roadway within the service area that is deficient – even those not identified on the Transportation Impact Fee CIP – will have these additional trips removed from the calculation.

4	*Net Amount of Vehicle-Miles of Capacity Added*	A measurement of the amount of vehicle-miles added by the TIF CIP that will not be utilized by existing demand (Line 1 – Line 2 – Line 3)

This calculation identifies the portion of the TIF CIP (in vehicle-miles) that may be recoverable through the collection of impact fees.

5	*Total Cost of the Roadway Impact Fee CIP within the Service Area*	The total cost of the roadway (non-intersection) projects within each service area (from Table 4: 10-Year Transportation Impact Fee CIP with Conceptual Level Cost Projections)

This line simply identifies the total cost of all the roadway projects identified in each service area.

6	*Cost of Net Capacity Supplied*	The total Roadway Impact Fee CIP cost (Line 5) prorated by the ratio of Net Capacity Added (Line 4) to Total Capacity Added (Line 1). [(Line 4 / Line 1) * (Line 5)]

Using the ratio of vehicle-miles added by the Roadway Impact Fee CIP available to serve future growth to the total vehicle-miles added, the total cost of the TIF CIP is reduced to the amount available for future growth (i.e. excluding existing usage and deficiencies).

7	*Cost to Meet Existing Needs and Usage*	The difference between the Total Cost of the Roadway Impact Fee CIP (Line 5) and the Cost of the Net Capacity supplied (Line 6). (Line 5 – Line 6)

This line is provided for information purposes only – it is to present the portion of the total cost of the Roadway Impact Fee CIP that is required to meet existing demand.

8	*Total Vehicle-Miles of New Demand over Ten Years*	Based upon the growth projection provided in the Land Use Assumptions, an estimate of the number of new vehicle-miles within the service area over the next ten years. (from Table 6)

This line presents the amount of growth (in vehicle-miles) projected to occur within each service area over the next ten years.

9	*Percent of Capacity Added Attributable to New Growth*	The result of dividing Total Vehicle-Miles of New Demand (Line 8) by the Net Amount of Capacity Added (Line 4), limited to 100% (Line 10). This calculation is required by Chapter 395 to ensure capacity added is attributable to new growth.
10	*Chapter 395 Check*	

In order to ensure that the vehicle-miles added by the Roadway Impact Fee CIP do not exceed the amount needed to accommodate growth beyond the ten-year window, a comparison of the two values is performed. If the amount of vehicle-miles added by the Roadway Impact Fee CIP exceeds the growth projected to occur in the next ten years, the Roadway Impact Fee CIP cost is reduced accordingly.

11	*Cost of Roadway Impact Fee CIP Attributable to New Growth*	The result of multiplying the Cost of Net Capacity Added (Line 6) by the Percent of Capacity Added Attributable to New Growth, limited to 100% (Line 10).

This value is the total Roadway Impact Fee CIP project costs (excluding financial costs) that may be recovered through impact fees. This line is determined considering the limitations to impact fees required by the Texas legislature.

12	*Total Cost of the Intersection Impact Fee CIP within the Service Area*	The total cost of the intersection projects within each service area (from Table 4: 10-Year Transportation Impact Fee Capacity Improvements Plan with Conceptual Level Cost Projections)

This line simply identifies the total cost of all the intersection projects identified in each service area.

13	*Percent of Intersection Capacity Added Attributable to New Growth*	The result of dividing Total Vehicle-Miles of New Demand (Line 8) by the vehicle-mile carrying capacity in each service area (Table 6).

In order to ensure that the capacity added by the Intersection Impact Fee CIP does not exceed the amount needed to accommodate growth beyond the ten-year window, the anticipated vehicle mile growth in each service area is calculated as a percentage of the vehicle-mile carrying capacity.

14	*Cost of Intersection Impact Fee CIP Attributable to New Growth*	The result of multiplying the Cost of Net Capacity Added (Line 12) by the Percent of Capacity Added Attributable to New Growth (Line 13). (Line 12 * Line 13)

This value is the total Intersection Impact Fee CIP project cost (excluding financial costs) that may be recovered through impact fees. This line is determined considering the limitations to impact fees required by the Texas legislature.

15	*Credit for Previous Contributions*	The total contributions by development toward the building of improvements in the Transportation Impact Fee CIP.

This value is the total of all exactions upon development that resulted in a financial contribution towards future improvements in the Transportation Impact Fee CIP. This line is intended as a credit to development so as not to double charge for previous contributions for roadway capacity improvements.

16	*Cost of Total Transportation Impact Fee CIP Attributable to New Growth*	The result of adding the Cost of the Roadway Impact Fee CIP Attributable to new growth (Line 11) to the Cost of the Intersection Impact Fee CIP Attributable to new growth (Line 14) less credits for previous contributions (Line 11 + Line 14 – Line 15).

This value is the Total Transportation Impact Fee CIP project cost (excluding financial costs) that may be recovered through impact fees. This line is determined considering the limitations to impact fees required by the Texas legislature.

17	*Pre-Finance, Pre-Credit Maximum Fee per Service Unit*	Found by dividing the Cost of Total Transportation Impact Fee CIP Attributable to New Growth less Developer Contributions (Line 16) by the Total Vehicle-Miles of New Demand Over Ten years (Line 8). (Line 16 / Line 8).

This line represents the maximum fee assessable by state law prior to credits given for ad valorem taxes and for additional cost of financing less interest earnings on debt

B. Plan for Financing and the Ad Valorem Tax Credit

Chapter 395 of the Texas Local Government Code requires the Transportation Impact Fee Capital Improvements Plan for Roadway Impact Fees to contain specific enumeration of a plan for awarding the impact fee credit. Section 395.014 of the Code requires:

(A) a credit for the portion of ad valorem tax and utility service revenues generated by new service units during the program period that is used for the payment of improvements, including the payment of debt, that are included in the transportation improvements plan; or

(B) In the alternative, a credit equal to 50 percent of the total projected cost of implementing the transportation improvements plan…"

The plan is summarized, as prepared by NewGen Strategies in Appendix E and Appendix F, Plan for Awarding the Roadway Impact Fee Credit. The following continuation of Table 7 summarizes the portions of Table 8 that utilize this credit calculation.

Table 7 (Continued). Maximum Assessable Transportation Impact Fee Computation

Line	Title	Description
18	*Inflation and Financing Costs*	(from Appendix E – Plan for Awarding the Transportation Impact Fee Credit)
19	*Interest Earnings*	(from Appendix E – Plan for Awarding the Transportation Impact Fee Credit)
20	*Credit for Ad Valorem Taxes*	A credit for the portion of ad valorem taxes projected to be generated by the new service units, as per Section 395.014 of the Local Government Code. (from Appendix F – Plan for Awarding the Transportation Impact Fee Credit)
21	*Recoverable Cost of the Total Transportation Impact Fee CIP and Financing*	The Cost of the CIP Attributable to New Growth (Line 16) plus Financing Costs (Line 18), less Interesting Earnings (Line 19), less the Credit for Ad Valorem Taxes (Line 20). (Line 16 + Line 18 + Line 19 + Line 20)
22	*Maximum Assessable Fee Per Service Unit*	Found by dividing the Recoverable Cost of the CIP and Financing (Line 21) by the Total Vehicle-Miles of New Demand Over Ten Years (Line 8). (Line 21 / Line 8)

A. Maximum Assessable Impact Fee Determination

The impact fee determination method employed by NewGen Strategies and Solutions, LLC is developed through a financial based model, which fully recognizes the requirements of Chapter 395, including the recognition of cash and/or debt financing, interest earnings, fund balances, and applicable credits associated with the use of ad valorem taxes. In developing the components of the financial model several assumptions must be made, including the following:

- Inflation on Capital Projects
- Financing
  - Method of financing (i.e. cash or debt financing)
  - Term and cost of financing
  - Debt repayment structure
- Timing and Level of Expenditures and Revenues
- Interest Earnings
- Annual Service Unit Growth
- Portion of Ad Valorem Tax Revenue Used to Fund Impact Fee Roadway Improvements

The assumptions employed in the maximum assessable impact fee determination provide a reasonable basis for forecasting, however, it must be emphasized that these assumptions may not necessarily reflect actual future conditions. To address this, Chapter 395 requires the monitoring of impact fees through the Impact Fee Advisory Committee every six months and allows for the option to update or revise impact fee studies at any point within five years of the previously adopted study. It should be noted that collection rates of those impact fees can only be updated every three years after the adoption of Senate Bill 1883.

Once the cost of capacity added that is attributable to growth (Table 8 - line 16) is determined, it must then be decided how the cost will be financed: cash and/or debt. For any previously funded projects, whether partially funded or in full, actual costs of capital have been included. Based on discussions with City staff, unless specific funding has already been determined, it is assumed that the City will debt finance 65% of the future project costs. For debt financing, the cost of financing is based on discussions with City staff estimating future

debt costs for bonds issued with 20-year terms at 5.00%, as shown in Appendix E. Debt service payments for each future debt issue are assumed to remain constant over the issue's term.

Currently, the exact timing and annual level of capital expenditures over the 10-year forecast is indeterminate; therefore, it is assumed that capital expenditures will occur in equal amounts over the 10-year program period. To adjust for inflation, 3.00% per year cost escalation was added to each project through approximately half of the 10-year forecast. This rate of inflation is consistent with the City's Water and Wastewater Impact Fee Advisory Committee feedback. It is also assumed that for debt financed capital projects, the City will expend debt proceeds over a 3-year timeframe. For the calculation of the maximum assessable impact fee, debt is assumed to be issued in equal amounts for each year. In order to recognize the full amount of debt to be issued for the cost of capacity added that is attributable to growth during the 10-year period, a portion of years 8, 9, and 10 are assumed to be spent in the final 3 years.

Because debt is issued over 20-year terms and impact fees developed herein are to be charged over a 10-year period, sufficient fund balance must be generated to meet the future debt service obligations. Because of the generation of the fund balance, excess monies will be available for interest earnings. Chapter 395 states that interest earnings are funds of the impact fee account and are to be held to the same restrictions as impact fee revenues. Therefore, in order to recognize that interest earnings are used to fund roadway improvements, interest earnings are credited against the costs recoverable through impact fees. It should be noted that Chapter 395 does not require the upfront recognition of interest earnings in the impact fee determination; however, in an effort to acknowledge the time value of the impact fee payers' monies, interest earnings have been credited. Interest charges and other finance costs may be included in determining the amount of impact fees only if the impact fees are used for the payment of principal and interest on bonds, notes, or other obligations issued by or on behalf of the political subdivision to finance the capital improvements or facility expansions identified in the capital improvements plan and are not

used to reimburse bond funds expended for facilities that are not identified in the capital improvements plan.

As with the timing and level of the capital expenditures over the 10-year forecast, the timing and annual level of service unit growth over the 10-year program period is indeterminate at the present time. As such, it is assumed that service unit growth will be consistent over the 10-year forecast.

Chapter 395 requires a plan for awarding either a credit for the portion of ad valorem tax and/or utility service revenues generated by new service units during the program period that are used for payment of improvements that are included in the TIF CIP. As an alternative, a credit equal to 50% of the total cost of implementing the TIF CIP may be used. The City has elected to pursue the determination of a credit for the portion of ad valorem tax revenues generated by new service units during the program period that are used for payment of improvements that are included in the TIF CIP. It should be noted that the credit is not a determination to recognize the total ad valorem tax revenue generated by new service units but is only a credit for the portion of ad valorem tax revenue that is used for payment of improvements that are included in the TIF CIP. Theoretically, the credit determination could be zero ($0) if the City does not utilize any of the new service unit ad valorem tax revenue to fund improvements that are included in the TIF CIP. However, to be conservative and recognize potential cash flow issues that can occur with the funding of major capital improvement projects, it is assumed that the debt-funded projects (65% of the improvement costs included in the TIF CIP) could potentially be funded by ad valorem tax revenue.

Since payments made through ad valorem tax revenue will consist of not only the revenue generated by new service units in the defined service area, but also existing property owners throughout the City, the portion attributable to the new service units in the defined service area must be isolated, as illustrated in the credit calculation in Appendix E.

Table 8. Maximum Assessable Transportation Impact Fee

D. Service Unit Demand Per Unit of Development

The Transportation Impact Fee is determined by multiplying the impact fee rate by the number of service units projected for the proposed development. For this purpose, the City will utilize the Land Use/Vehicle-Mile Equivalency Table (LUVMET), presented in Table 9. This table lists the predominant land uses that may occur within the City of Georgetown. For each land use, the development unit that defines the development's magnitude with respect to transportation demand is shown. Although every possible use cannot be anticipated, the majority of local uses are found in this table. The descriptions for each land use are presented in Table 10. If the exact use is not listed, one similar in trip-making characteristics can serve as a reasonable proxy. The individual land uses are grouped into categories, such as residential, office, commercial, industrial, and institutional.

The trip rates presented for each land use is a fundamental component of the LUVMET. The trip rate is the average number of trips generated during the afternoon peak hour by each land use per development unit. The next column in Table 9, if applicable to the land use, presents the percentage of trips to and from certain land uses reduced by pass-by trips, as previously discussed.

The definitive source of the trip generation and pass-by statistics is the *ITE Trip Generation Manual, 11th Edition*, the latest edition. This manual utilizes trip generation studies for a variety of land uses throughout the United States, and is the standard used by traffic engineers and transportation planners for traffic impact analysis, site design, and transportation planning. However, for land uses not contained within the 11th Edition of the *ITE Trip Generation Manual,* an alternative service unit demand could be calculated by completing a trip generation study based on the procedure identified in the *ITE Trip Generation Handbook.*

To convert vehicle trips to vehicle-miles, it is necessary to multiply trips by trip length. The trip length values are based on the region-wide travel characteristics determined through the Replica online platform. An adjustment to trip length is made in the form of the 50% origin-destination reduction to avoid double counting of trips. At this stage, another important

aspect of the state law is applied – the limit on transportation service unit demand. If the adjusted trip length is above six (6) miles, the maximum trip length used for calculation is reduced to six (6) miles. This reduction, as discussed previously, limits the maximum trip length to the approximate size of the service areas.

The remaining column in the LUVMET shows the vehicle-miles per development unit. This number is the product of the trip rate and the maximum trip length. This number, previously referred to as the *Transportation Demand Factor*, is used in the impact fee to compute the number of service units attributed to each land use category. The number of service units is multiplied by the impact fee rate (established by City ordinance) in order to determine the impact fee for a development.

GEORGETOWN TEXAS

Table 10. Land Use Descriptions

Land Use Category	ITE Land Use Code	Land Use Description
		MAX ASSESSABLE FEE PER SERVICE UNIT
PARKING AREA		
Park-and-Ride Lot with Bus or Light Rail Service	090	Area used for the transfer of people between private vehicles and buses or light rail
INDUSTRIAL		
General Light Industrial	110	Facility has an emphasis on activities other than manufacturing and typically has minimal office space
Industrial Park	130	A mix of manufacturing, service, and warehouse facilities with a wide variation in the proportion of each type of use from one location to another
Manufacturing	140	Primary activity is conversion of raw materials or parts into finished products
Warehousing	150	Devoted to storage of materials but may included office and maintenance areas
Mini-Warehouse	151	Facilities with a number of units rented to others for the storage of goods
High-Cube Transload and Short-Term Storage Warehouse	154	A transload facility typically has little storage duration, high throughput, and its operations are high efficiency. A short-term HCW is a distribution facility often with custom/special features built into the structure for the movement of large volumes of freight with only short-term storage of products.
High-Cube Fulfillment Center Warehouse	155	Building that typically has at least 200,000 gross square feet of floor area, has a ceiling height of 24 feet or more, and is used primarily for the storage and/or consolidation of manufactured goods (and to a lesser extent, raw materials) prior to their distribution to retail locations or other warehouses
High-Cube Parcel Hub Warehouse	156	Typically serves as a regional and local freight-forwarder facility for time sensitive shipments via airfreight and ground carriers
High-Cube Cold Storage Warehouse	157	Has substantial temperature-controlled environments for frozen food and other perishable products
Data Center	160	A free-standing warehouse type of facility that is primarily used for off-site storage of computer systems and associated components including applications and secure data
Utilities	170	A free-standing building that can house office space, a storage area, and electromechanical or industrial equipment that support a local electrical, communication, water supply or control, or sewage treatment utility
Specialty Trade Contractor	180	A business primarily involved in providing contract repairs and services to meet industrial or residential needs
RESIDENTIAL		
Single-Family Detached Housing	210	Single-family detached homes on individual lots
Single-Family Attached Housing	215	Any single-family housing unit that shares a wall with an adjoining dwelling unit, whether the walls are for living space, a vehicle garage, or storage space
Multifamily Housing (Low-Rise)	220	Includes apartments, townhouses, and condominiums located within the same building with at least three other dwelling units and that have two or three floors
Multifamily Housing (Mid-Rise)	221	Includes apartments and condominiums located in a building that has between four and 10 floors of living space
Multifamily Housing (High-Rise)	222	Includes apartments, townhouses, and condominiums. Each building has more than 10 floors of living space.
Affordable Housing - Income Limits	223a	All multifamily housing that is rented at below market rate to households that include at least one employed member
Off-Campus Student Apartment	225	Student apartment (low-rise) complex houses college or university students in structures with two or three floors of living space
Off-Campus Student Apartment (Mid-Rise)	226	Complex houses college or university students in structures with between four and 10 floors of living space
Off-Campus Student Apartment (High-Rise)	227	Complex houses college or university students in structures with more than 10 floors of living space
Mobile Home Park	240	Generally consists of manufactured homes that are sited and installed on permanent foundations
Senior Adult Housing-Detached	251	Consists of detached independent living developments that include amenities such as golf courses and swimming pools
Senior Adult Housing-Attached	252	Consists of attached independent living developments that include limited social or recreation services
Congregate Care Facility	253	An independent living development that provides centralized amenities such as dining, housekeeping, communal transportation, and organized social/recreational activities
Assisted Living	254	Residential settings that provide either routine general protective oversight or assistance with activities.
Continuing Care Retirement Community	255	Enables a resident to transition in place from independent living to increased care as the medical needs of the resident change. Housing options may include various combinations of senior adult housing (both single-family and multifamily), congregate care, assisted living, and nursing home
Recreational Homes	260	Either (1) a second home used by its owner periodically for recreation or (2) rented on a seasonal basis
Timeshare	265	Development where multiple purchasers buy interests in the same property and each purchaser receives the right to use the facility for a period of time each year
Residential Planned Unit Development	270	Containing any combination of residential land uses. These developments might also contain supporting services such as limited retail and recreational facilities
LODGING		
Hotel	310	Lodging that provides sleeping accommodations and supporting facilities such as a full-service restaurant, cocktail lounge, meeting rooms, banquet room, and convention facilities
All Suites Hotel	311	Lodging that provides sleeping accommodations, a small restaurant and lounge, and small amounts of meeting space. Each suite includes a sitting room and separate bedroom.
Business Hotel	312	Lodging aimed toward the business traveler but also accommodates a growing number of recreational travelers
Motel	320	Lodging facilities that may have small on-site restaurant or buffet area but little or no meeting space
Resort Hotel	330	Provides sleeping accomodations, and caters to the tourist and vacation industry, often providing a wide variety of recreational facilities/programs

Table 10 (Cont'd). Land Use Descriptions

Land Use Category	ITE Land Use Code	Land Use Description
		MAX ASSESSABLE FEE PER SERVICE UNIT
RECREATIONAL		
Public Park	411	Public park is owned and operated by a municipal, county, state, or federal agency. The parks surveyed vary widely as to location, type, and number of facilities, including boating or swimming facilities, beaches, hiking trails, ball fields, soccer fields, campsites, and picnic facilities.
Golf Course	430	May include municipal courses and private country clubs; may have driving ranges, pro shops, and restaurant/banquet facilities
Golf Driving Range	432	Facilities with driving tees for practice; may provide individual or group lessons; may have prop shop and/or refreshment facilities
Batting Cages	433	Area for batting practice that is enclosed by fencing or netting
Multipurpose Recreational Facility	435	Contains two or more of the following land uses combined at one site: miniature golf, batting cages, video arcade, bumper boats, go-carts, and golf driving range. A refreshment area may also be provided
Trampoline Park	436	Recreational facility that houses wall-to-wall trampolines and other facilities such as climbing walls, gymnastics tumble tracks, inflatable basketball, dodge ball facilities, foam pits, and warrior courses
Bowling Alley	437	A recreational facility that includes bowling lanes. A small lounge, restaurant and/or snack bar, video games, and pool tables may also be available.
Movie Theater (Friday)	445a	Place where movies are screened for public entertainment. A theater includes a lobby, refreshment area, and audience seating for each movie screen.
Ice Skating Rink	465	Rinks for ice skating and related sports; may contain spectator areas and refreshment facilities
Casino	473	Facility that exists for the primary purpose of deriving revenue from gaming operations. The games conducted at these facilities include but are not limited to table games, electronic slot machines, video poker and lottery games, and electronic table games.
Soccer Complex	488	Facility that is used for non-professional soccer games. It may consist of multiple fields.
Health/Fitness Club	492	A privately-owned facility that primarily focuses on individual fitness or training
Athletic Club	493	A privately-owned facility that offers comprehensive athletic facilities. An athletic club typically has courts for racquet sport; a basketball court; a sauna or spa; and fitness, exercise, and weightlifting rooms
Recreational Community Center	495	Category includes racquet clubs, health/fitness clubs, can include facilities such as YMCA's
INSTITUTIONAL		
Elementary School	520	A public school that typically serves students attending kindergarten through the fifth or sixth grade
Middle School/Junior High School	522	Serves students who have not yet entered high school
High School	525	A public school that serves students who have completed middle or junior high school
Private School (K-8)	530	A private school (K-8) serves students attending kindergarten through the eighth grade.
Private School (K-12)	532	A private school (K-12) serves students attending kindergarten through the 12th grade
Private High School	534	A private high school serves students who have completed middle school, junior high school, or an elementary school that takes students through 8th grade.
Charter Elementary School (1)	536	An elementary school that is publicly funded and privately managed. The school serves students attending kindergarten through the fifth, sixth, or eighth grade.
Charter School (K-12)	538	A school that is publicly funded and privately managed. The school serves students attending kindergarten through the 12th grade.
Junior / Community College	540	Two-year junior, community, or technical colleges
University / College	550	Four-year universities or colleges that may or may not offer graduate programs
Church	560	Churches and houses of worship
Day Care Center	565	Generally includes facilities for care of pre-school aged children, generally includes classrooms, offices, eating areas, and playgrounds
Cemetry	566	Place for burying the deceased, possibly including buildings used for funeral services, a mausoleum, and a crematorium.
Fire Rescue Station	575	A building that houses emergency services equipment, firefighting apparatus, and the individuals that provide emergency firefighting services
Library	590	A facility that houses shelved books and reading rooms or areas
MEDICAL		
Hospital	610	Medical and surgical facilities with overnight accommodations
Nursing Home	620	Rest and convalescent homes with residents who do little or no driving
Clinic	630	Facilities with limited diagnostic and outpatient care
Animal Hospital/Veterinary Clinic	640	Rest and convalescent homes with residents who do little or no driving
Free-Standing Emergency Room	650	A facility that specializes in personal medical care and treatment of people. They are typically open 24 hours a day, 7 days a week, 365 days per year.
OFFICE		
General Office Building	710	Office buildings which house multiple tenants
Small Office Building	712	Office building with less than or equal to 10,000 square feet of gross floor area
Corporate Headquarters Building	714	Office building housing corporate headquarters of a single company or organization
Single Tenant Office Building	715	Single tenant office buildings other than corporate headquarters
Medical-Dental Office Building	720	Multi-tenant building with offices for physicians and/or dentists
Government Office Building	730	An individual building containing either the entire function or simply one agency of a city, county, state, federal, or other governmental unit
State Motor Vehicles Department	731	an office-type building where driver license testing, vehicle registration, and other related functions are administered
United States Post Office	732	A federal building that contains service windows for mailing packages and letters, post office boxes, offices, sorting and distributing facilities for mail, and vehicle storage areas
Office Park	750	Office buildings (typically low-rise) in a campus setting and served by a common roadway system
Business Park	770	Group of flex-type or incubator one- or two-story buildings served by a common roadway system

Table 10 (Cont'd). Land Use Descriptions

Land Use Category	ITE Land Use Code	Land Use Description
		MAX ASSESSABLE FEE PER SERVICE UNIT
COMMERCIAL		
Automobile Related		
Automobile Sales (New)	840	Sale or leasing of new cars is the primary business at these facilities
Automobile Sales (Used)	841	Sale or leasing of used cars is the primary business at these facilities
Automobile Parts Sales	843	Retail sale of auto parts but no on-site vehicle repair
Tire Store	848	Primary business is sales and installation of tires; usually do not have large storage or warehouse area
Tire Superstore	849	A warehouse-like facility with the primary function of selling and installing tires for automobiles and small trucks
Quick Lubrication Vehicle Shop	941	Primary business is to perform oil changes and fluid/filter changes with other repair services not provided
Automobile Care Center	942	Automobile repair and servicing including stereo installations and upholstering
Automobile Parts and Service Center	943	Sells automobile parts for do-it-yourself maintenance and repair including tires, batteries, oil, and sparks plugs
Gasoline/Service Station	944	Gasoline sales without convenience store or car wash; may include repair
Gasoline/Service Station w/ Conv Market	945	Gasoline sales with convenience store and car washes where the primary business is gasoline sales
Self-Service Car Wash	947	Has stalls for driver to park and wash the vehicle
Truck Stop	950	Facility located adjacent to an interstate highway interchange that provides commercial vehicle fueling, space and supplies for self-service vehicle maintenance
Dining		
Food Cart Pod	926	A group of food carts or food trucks congregated in an established location
Fast Casual Restaurant	930	A sit-down restaurant with no (or very limited) wait staff or table service
Fine Dining Restaurant	931	A full-service eating establishment with a typical duration of stay of at least 1 hour
High Turnover (Sit-Down) Restaurant	932	Restaurants with turnover rates less than one hour; typically includes moderately-priced chain restaurants
Fast Food Restaurant without Drive-Thru Window	933	High-turnover fast food restaurant for carry-out and eat-in customers, but without a drive-thru window
Fast Food Restaurant with Drive-Thru Window	934	High-turnover fast food restaurant for carry-out and eat-in customers with a drive-thru window
Fast-Food Restaurant w/ D.T. No Indoor Seats	935	Any fast-food restaurant that provides drive-through service only
Coffee/Donut Shop w/o D.T.	936	Any coffee and donut restaurant that does not have a drive-through window
Coffee/Donut Shop with Drive-Thru Window	937	Any coffee and donut restaurant that has a drive-through window as well as a walk-in entrance area
Coffee/Donut Shop w/ D.T. No Indoor Seats	938	Any coffee and donut restaurant that has only drive-through window service
Wine Tasting Room	970	Designated area found in conjunction with a winery in which customers can try samples of a winery's products
Drinking Place	975	Contains a bar, where alcoholic beverages and food are sold, and possibly some type of entertainment
Other Retail		
Tractor Supply Store	810	A free-standing facility that specializes in the sale of agricultural and garden equipment
Construction Equipment Rental Store	811	A business that specializes in the rental of construction equipment tools and supplies
Free-Standing Store	815	Category includes free-standing stores with off-street parking; typically offer a variety of products and services with long store hours
Hardware/Paint Store	816	A free-standing building that sells hardware and paint supplies
Nursery (Garden Center)	817	Building with a yard of planting or landscape stock; may have office, storage, shipping or greenhouse facilities
Shopping Center (>150k)	820	Integrated group of commercial establishments; planning, owned, and managed as a unit
Shopping Plaza (40k - 150k) (Supermarket)	821	An integrated group of commercial establishments that is planned, developed, owned, and managed as a unit
Shopping Plaza (40k - 150k) (No Supermarket)	821a	An integrated group of commercial establishments that is planned, developed, owned, and managed as a unit
Strip Retail Plaza (<40k)	822	Integrated group of commercial establishments that is planned, developed, owned, and managed as a unit. Each study site in this land use has less than 40,000 square feet of gross leasable area (GLA)
Factory Outlet Center	823	A shopping center that primarily houses factory outlet stores, attracting customers from a wide geographic area, very often from a larger area than a regional shopping center
Recreational Vehicle Sales	842	Free-standing facility that specializes in the sales of new RVs
Supermarket	850	Primary business is sale of groceries, food, and household cleaning items; may include photo, pharmacy, video rental, and/or ATM
Convienence Market	851	A small retail business that sells grocery and other everyday items that a person may need or want as a matter of convenience
Discount Club	857	A discount store or warehouse where shoppers pay a membership fee in order to take advantage of discounted prices on a wide variety of items
Sporting Goods Superstore	861	Businesses specializing in child-oriented merchandise
Home Improvement Superstore	862	Warehouse-type facilities offering a large variety of products and services including lumber, tool, paint, lighting, and fixtures, among other items.
Electronics Superstore	863	A free-standing facility that specializes in the sale of electronic merchandise
Pet Supply Superstore	866	A free-standing facility that specializes in the sale of pets and pet supplies, food, and accessories
Office Supply Superstore	867	A free-standing facility that specializes in the sale of office equipment and supplies
Discount Home Furnishing Superstore	869	Free-standing facility that sells an extensive variety of home furnishings and accessories
Department Store	875	Free-standing stores that specialize in the sale of apparel, footwear, bedding, home products, jewelry, etc.
Apparel Store	876	An individual store specializing in the sale of clothing
Pharmacy/Drugstore w/o Drive-Thru Window	880	Facilities that primarily sell prescription and non-prescription drugs without a drive-through window
Pharmacy/Drugstore w/ Drive-Thru Window	881	Facilities that primarily sell prescription and non-prescription drugs with a drive-through window
Marijuana Dispensary	882	Stand-alone facility where cannabis is sold to patients or retail consumers in a legal manner
Furniture Store	890	Full-service retail facility that specializes in the sale of furniture and often carpeting
Liquor Store (1)	899	Specializes in the sale of prepackaged alcoholic beverages intended to be consumed off the store's premises
SERVICES		
Walk-In Bank	911	Banks with their own parking lots, no drive-in lanes but contain non-drive-through ATMs
Drive-In Bank	912	Banking facilities to conduct financial transactions from the vehicle; also usually apart of walk-in bank

VI. SAMPLE CALCULATIONS

The following section details two (2) examples of maximum assessable Transportation Impact Fee calculations.

Example 1:
Development Type - One (1) Unit of Single-Family Housing in Service Area A

Roadway Impact Fee Calculation Steps – Example 1	
Step 1	Determine Development Unit and Vehicle-Miles Per Development Unit
	From Table 9 [Land Use – Vehicle-Mile Equivalency Table] Development Type: 1 Dwelling Unit of Single-Family Detached Housing Number of Development Units: 1 Dwelling Unit Veh-Mi Per Development Unit: 3.30
Step 2	Determine Maximum Assessable Impact Fee Per Service Unit (Vehicle-Mile)
	From Table 8, Line 22 [Maximum Assessable Fee Per Service Unit] Service Area A: $2,398
Step 3	Determine Maximum Assessable Impact Fee
	Impact Fee = # of Development Units * Veh-Mi Per Dev Unit * Max. Fee Per Service Unit Impact Fee = 1 * 3.30 * $2,398 Maximum Assessable Impact Fee = $7,913.40

Example 2:
Development Type – 100,000 square foot Home Improvement Superstore in Service Area C

Roadway Impact Fee Calculation Steps – Example 2	
Step 1	Determine Development Unit and Vehicle-Miles Per Development Unit
	From Table 9 [Land Use – Vehicle-Mile Equivalency Table] Development Type: 100,000 square feet of Home Improvement Superstore Development Unit: 1,000 square feet of Gross Floor Area Veh-Mi Per Development Unit: 4.51
Step 2	Determine Maximum Assessable Impact Fee Per Service Unit (Vehicle-Mile)
	From Table 8, Line 22 [Maximum Assessable Fee Per Service Unit] Service Area C: $3,240
Step 3	Determine Maximum Assessable Impact Fee
	Impact Fee = # of Development Units * Veh-Mi Per Dev Unit * Max. Fee Per Service Unit Impact Fee = 100 * 4.51 * $3,240 Maximum Assessable Impact Fee = $1,461,240

VII. ADOPTION AND ADMINISTRATION OF ROADWAY IMPACT FEES

A. Adoption Process

Chapter 395 of the Texas Local Government Code stipulates a specific process for the adoption of Roadway Impact Fees. A Capital Improvements Advisory Committee consisting of the Georgetown Planning and Zoning Commission, referred to as an Impact Fee Advisory Committee (IFAC) in this report and by the City of Georgetown, is required to review the Land Use Assumptions and Transportation Impact Fees CIP used in calculating the maximum fee, and to provide the Committee's findings for consideration by the City Council. This IFAC also reviews the calculation and resulting maximum fees and provides its findings to the City Council. The composition of the IFAC is required to adequately represent the building and development communities. The City Council then conducts a public hearing on the Land Use Assumptions, TIF CIP and Impact Fee Ordinance. One public hearing is required for the 2025 Transportation Impact Fee Study Update, for Land Use Assumptions, TIF CIP, the Impact Fee Calculation and Ordinance.

Following policy adoption, the IFAC is tasked with advising the City Council of the need to update the Land Use Assumptions or the Transportation Impact Fees CIP at any time within five years of adoption. Finally, the IFAC oversees the proper administration of the Impact Fee, once in place, and advises the Council as necessary. The IFAC must review the performance of the Transportation Impact Fee CIP semiannually.

B. Collection and Use of Transportation Impact Fees

Transportation Impact Fees are assessed when a preliminary plat is submitted and deemed administratively complete. The assessment defines the impact of each unit at the time of platting, according to land use, and may not exceed the maximum impact fee allowed by law. Transportation Impact Fees are collected when a building permit is issued regardless if a plat is required. Therefore, funds are not collected until development-impacts are introduced to the transportation system. Funds collected within a service area can be used only within the same service area. Finally, fees must be utilized within 10 years of collection, or must be refunded with interest.

VIII. CONCLUSIONS

The City of Georgetown has established a process to implement the assessment and collection of Transportation Impact Fees through the adoption of an impact fee ordinance that is consistent with Chapter 395 of the Texas Local Government Code.

This report establishes the 2025 maximum allowable Transportation Impact Fee that could be assessed by the City of Georgetown, as shown in the previously referenced Table 8.

This document serves as a guide to the assessment of Transportation Impact Fees pertaining to future development, and the City's need for transportation improvements to accommodate that growth. Following the public hearing process, the City Council may establish an impact fee amount to be collected, up to the calculated maximum and establish the Transportation Impact Fee Ordinance accordingly.

In conclusion, it is our opinion that the data and methodology used in this analysis are appropriate and consistent with Chapter 395 of the Texas Local Government Code. Furthermore, the Land Use Assumptions and the proposed Transportation Impact Fee Capital Improvements Plan are appropriately incorporated into the development of the maximum assessable Transportation Impact Fee.

Below is the listing of the 2025 Transportation Impact Fee Study Update's Maximum Assessable Impact Fee Per Service Unit (Vehicle-Mile):

Service Area	Maximum Fee Per Service Unit (per Vehicle-Mile)
A	$2,398
B	$3,137
C	$3,240
D	$2,250
Downtown	$457
E	$2,172
F	$3,611
G	$2,885
Lake Georgetown	$3,377
Sun City	$1,599

Appendix A - Service Area 6-Mile Rule

Test	Steps
Longest distance N-S and E-W	1. *Use whichever method you would prefer to get accurate N-S and E-W lines for the polygon that can be used as a guide. Such as the subdivide polygon tool.* 2. Use the Measure Offset tool to manually calculate the absolute distances from a central line at various locations in the polygon that visually appear to have the greatest distance between the north and south or east and west points. 3. Collect the longest continuous distances and the longest non-continuous distances for both orientations.
Area of circle with 6mi radius	1. Add a field to the attribute table of the polygons you wish to perform this test on that will contain the area value in square miles. 2. Use the calculate geometry tool to calculate the area of the polygon with the units set to square miles with the result being placed in the field added in step one.
Perimeter of a cube with 6mi sides	1. Create a copy of the polygons in a new layer and delete all the internal parts/holes from the polygons. 2. Add a field to the layers attribute table and use the calculate geometry tool to calculate the perimeter of the polygon with the units set to miles.
Longest thoroughfare less than 6mi	1. Use the existing "TIFRoadways" data to identify the major roadways in each TIF Zone. 2. Dissolve the line features based on name to create continuous segments. 3. Adjust the roadways to match the extent of the new annexed properties if needed. 4. Combine any segments that were missed by the dissolve tool and still need to be combined into continuous segments. 5. Ensure the line segments end where they intersect the boundary of the polygons that they're in. 6. Calculate the length of all of the road segments in miles. 7. Select all of the segments inside of the zone being measured. 8. Verify that none of the selected line segments have a length of more than 6 miles.

Appendix E – Plan for Awarding the Street Impact Fee Credit Summary

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area A

Recoverable Impact Fee CIP Costs	$	76,094,633	Per Kimley-Horn Impact Fee Report
Financing Costs		26,580,056	See Detail Below
Interest Earnings		(18,933,055)	Page 3 of Appendix E - Service Area A
Pre Credit Recoverable Cost for Impact Fee	$	83,741,634	Sum of Above
Credit for Ad Valorem Revenues		(6,637,085)	Page 6 of Appendix E - Service Area A
Maximum Recoverable Cost for Impact Fee	**$**	**77,104,549**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area A column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	76,029,217	(Page 2 of Appendix E - Service Area A)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area A)
Principal Component		(49,449,161)	(Page 1 of Appendix E - Service Area A)
Financing Costs	$	26,580,056	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area A.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area A.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area B

Recoverable Impact Fee CIP Costs	$	14,542,621	Per Kimley-Horn Impact Fee Report
Financing Costs		5,074,406	See Detail Below
Interest Earnings		(3,883,597)	Page 3 of Appendix E - Service Area B
Pre Credit Recoverable Cost for Impact Fee	$	15,733,431	Sum of Above
Credit for Ad Valorem Revenues		(196,618)	Page 6 of Appendix E - Service Area B
Maximum Recoverable Cost for Impact Fee	**$**	**15,536,813**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area B column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	14,514,760	(Page 2 of Appendix E - Service Area B)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area B)
Principal Component		(9,440,354)	(Page 1 of Appendix E - Service Area B)
Financing Costs	$	5,074,406	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area B.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area B.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area C

Recoverable Impact Fee CIP Costs	$	69,319,030	Per Kimley-Horn Impact Fee Report
Financing Costs		24,212,729	See Detail Below
Interest Earnings		(17,718,732)	Page 3 of Appendix E - Service Area C
Pre Credit Recoverable Cost for Impact Fee	$	75,813,027	Sum of Above
Credit for Ad Valorem Revenues		(4,168,504)	Page 6 of Appendix E - Service Area C
Maximum Recoverable Cost for Impact Fee	**$**	**71,644,522**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area C column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	69,257,748	(Page 2 of Appendix E - Service Area C)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area C)
Principal Component		(45,045,019)	(Page 1 of Appendix E - Service Area C)
Financing Costs	$	24,212,729	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area C.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area C.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area D

Recoverable Impact Fee CIP Costs	$	31,078,581	Per Kimley-Horn Impact Fee Report
Financing Costs		10,851,903	See Detail Below

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area F.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area G

Recoverable Impact Fee CIP Costs	$	3,622,732	Per Kimley-Horn Impact Fee Report
Financing Costs		1,259,107	See Detail Below
Interest Earnings		(972,548)	Page 3 of Appendix E - Service Area G
Pre Credit Recoverable Cost for Impact Fee	$	3,909,292	Sum of Above
Credit for Ad Valorem Revenues		(13,322)	Page 6 of Appendix E - Service Area G
Maximum Recoverable Cost for Impact Fee	**$**	**3,895,970**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area G column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	3,601,533	(Page 2 of Appendix E - Service Area G)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area G)
Principal Component		(2,342,426)	(Page 1 of Appendix E - Service Area G)
Financing Costs	$	1,259,107	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area G.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area G.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area DT

Recoverable Impact Fee CIP Costs	$	124,699	Per Kimley-Horn Impact Fee Report
Financing Costs		36,930	See Detail Below
Interest Earnings		(28,597)	Page 3 of Appendix E - Service Area DT
Pre Credit Recoverable Cost for Impact Fee	$	133,032	Sum of Above
Credit for Ad Valorem Revenues		(104)	Page 6 of Appendix E - Service Area DT
Maximum Recoverable Cost for Impact Fee	**$**	**132,928**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area DT column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	105,634	(Page 2 of Appendix E - Service Area DT)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area DT)
Principal Component		(68,704)	(Page 1 of Appendix E - Service Area DT)
Financing Costs	$	36,930	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area DT.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area DT.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area SC

Recoverable Impact Fee CIP Costs	$	31,354,432	Per Kimley-Horn Impact Fee Report
Financing Costs		10,948,283	See Detail Below
Interest Earnings		(8,034,387)	Page 3 of Appendix E - Service Area SC
Pre Credit Recoverable Cost for Impact Fee	$	34,268,327	Sum of Above
Credit for Ad Valorem Revenues		(1,795,369)	Page 6 of Appendix E - Service Area SC
Maximum Recoverable Cost for Impact Fee	**$**	**32,472,958**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area SC column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	31,316,313	(Page 2 of Appendix E - Service Area SC)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area SC)
Principal Component		(20,368,031)	(Page 1 of Appendix E - Service Area SC)
Financing Costs	$	10,948,283	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area SC.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area SC.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

SUMMARY OF TRANSPORTATION IMPACT FEE DETERMINATION

Service Area LG

Recoverable Impact Fee CIP Costs	$	3,479,314	Per Kimley-Horn Impact Fee Report
Financing Costs		1,208,999	See Detail Below
Interest Earnings		(934,419)	Page 3 of Appendix E - Service Area LG
Pre Credit Recoverable Cost for Impact Fee	$	3,753,894	Sum of Above
Credit for Ad Valorem Revenues		(10,500)	Page 6 of Appendix E - Service Area LG
Maximum Recoverable Cost for Impact Fee	**$**	**3,743,394**	

Recoverable Impact Fee CIP Costs:

Represents the portion of capital improvement costs that are eligible for funding through impact fees.
Reference is Service Area LG column, per Kimley-Horn Impact Fee Report.

Financing Costs:

Represents the interest costs associated with debt financing the new impact fee project costs. Interests costs are derived from existing debt issues and forecasted debt issues.

New Annual Debt Service	$	3,458,203	(Page 2 of Appendix E - Service Area LG)
Existing Annual Debt Service		-	(Page 2 of Appendix E - Service Area LG)
Principal Component		(2,249,204)	(Page 1 of Appendix E - Service Area LG)
Financing Costs	$	1,208,999	

Interest Earnings:

Represents the interest earned on cash flows and assumes a 3.00% annual interest rate. The Impact Fee Statute states that interest earnings are funds of the impact fee account and are held to the same restrictions as impact fee revenues. Therefore in order to recognize that interest earnings are used to fund capital improvements, interest earnings are credited against the recoverable costs. Reference is the sum of recoverable costs. Reference is page 1 of Appendix E - Service Area LG.

Pre Credit Recoverable Cost for Impact Fee:

Represents Recoverable Impact Fee CIP Costs plus Financing Costs less Interest Earnings.

Credit for Ad Valorem Revenues:

In 2001, the Impact Fee Statute was amended to include a credit for ad valorem and/or utility revenues generated by new service units during the ten-year timeframe that are used to fund impact fee eligible projects for which the new service units were charged an impact fee. The intent of this amendment is to avoid double-charging the new service units for impact fee capital improvements. The credit recognizes ad valorem revenues used to fund the debt service of debt financed impact fee eligible projects and assumes that all non-debt funded impact fee eligible project costs will be funded solely through impact fee revenues or non-ad valorem revenue sources. Reference is page 6 of Appendix E - Service Area LG.

Maximum Recoverable Cost for Impact Fee:

Represents Pre Credit Recoverable Cost for Impact Fee less Credit for Ad Valorem Revenues.
This is the maximum cost that can be recovered through impact fees.

Appendix F – Plan for Awarding the Street Impact Fee Credit Supporting Exhibits

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area A

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	2,811
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	26,645,472
New Project Cost Funded Through New Debt [6]	49,449,161
Total Recoverable Project Cost [7]	$ 76,094,633

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 4,944,916	4.50%	20
2	4,944,916	4.50%	20
3	4,944,916	4.50%	20
4	4,944,916	4.50%	20
5	4,944,916	4.50%	20
6	4,944,916	4.50%	20
7	4,944,916	4.50%	20
8	4,944,916	4.50%	20
9	4,944,916	4.50%	20
10	4,944,916	4.50%	20
Total	$ 49,449,161		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 2,664,547
2	4,312,853
3	5,961,158
4	7,609,463
5	7,609,463
6	7,609,463
7	7,609,463
8	7,609,463
9	7,609,463
10	7,609,463
11	4,944,916
12	3,296,611
13	1,648,305
Total	$ 76,094,633

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area B

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	436
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	5,102,267
New Project Cost Funded Through New Debt [6]	9,440,354
Total Recoverable Project Cost [7]	$ 14,542,621

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 944,035	4.50%	20
2	944,035	4.50%	20
3	944,035	4.50%	20
4	944,035	4.50%	20
5	944,035	4.50%	20
6	944,035	4.50%	20
7	944,035	4.50%	20
8	944,035	4.50%	20
9	944,035	4.50%	20
10	944,035	4.50%	20
Total	$ 9,440,354		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 510,227
2	824,905
3	1,139,584
4	1,454,262
5	1,454,262
6	1,454,262
7	1,454,262
8	1,454,262
9	1,454,262
10	1,454,262
11	944,035
12	629,357
13	314,678
Total	$ 14,542,621

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area C

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	1,938
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	24,274,010
New Project Cost Funded Through New Debt [6]	45,045,019
Total Recoverable Project Cost [7]	$ 69,319,030

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 4,504,502	4.50%	20
2	4,504,502	4.50%	20
3	4,504,502	4.50%	20
4	4,504,502	4.50%	20
5	4,504,502	4.50%	20
6	4,504,502	4.50%	20
7	4,504,502	4.50%	20
8	4,504,502	4.50%	20
9	4,504,502	4.50%	20
10	4,504,502	4.50%	20
Total	$ 45,045,019		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 2,427,401
2	3,928,902
3	5,430,402
4	6,931,903
5	6,931,903
6	6,931,903
7	6,931,903
8	6,931,903
9	6,931,903
10	6,931,903
11	4,504,502
12	3,003,001
13	1,501,501
Total	$ 69,319,030

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area D

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	1,271
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	10,889,853
New Project Cost Funded Through New Debt [6]	20,188,727
Total Recoverable Project Cost [7]	$ 31,078,581

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 2,018,873	4.50%	20
2	2,018,873	4.50%	20
3	2,018,873	4.50%	20
4	2,018,873	4.50%	20
5	2,018,873	4.50%	20
6	2,018,873	4.50%	20
7	2,018,873	4.50%	20
8	2,018,873	4.50%	20
9	2,018,873	4.50%	20
10	2,018,873	4.50%	20
Total	$ 20,188,727		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 1,088,985
2	1,761,943
3	2,434,900
4	3,107,858
5	3,107,858
6	3,107,858
7	3,107,858
8	3,107,858
9	3,107,858
10	3,107,858
11	2,018,873
12	1,345,915
13	672,958
Total	$ 31,078,581

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area E

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	1,315
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	10,869,652
New Project Cost Funded Through New Debt [6]	20,151,210
Total Recoverable Project Cost [7]	$ 31,020,862

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 2,015,121	4.50%	20
2	2,015,121	4.50%	20
3	2,015,121	4.50%	20
4	2,015,121	4.50%	20
5	2,015,121	4.50%	20
6	2,015,121	4.50%	20
7	2,015,121	4.50%	20
8	2,015,121	4.50%	20
9	2,015,121	4.50%	20
10	2,015,121	4.50%	20
Total	$ 20,151,210		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 1,086,965
2	1,758,672
3	2,430,379
4	3,102,086
5	3,102,086
6	3,102,086
7	3,102,086
8	3,102,086
9	3,102,086
10	3,102,086
11	2,015,121
12	1,343,414
13	671,707
Total	$ 31,020,862

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area F

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	1,113
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	15,217,941
New Project Cost Funded Through New Debt [6]	28,226,605
Total Recoverable Project Cost [7]	$ 43,444,546

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 2,822,661	4.50%	20
2	2,822,661	4.50%	20
3	2,822,661	4.50%	20
4	2,822,661	4.50%	20
5	2,822,661	4.50%	20
6	2,822,661	4.50%	20
7	2,822,661	4.50%	20
8	2,822,661	4.50%	20
9	2,822,661	4.50%	20
10	2,822,661	4.50%	20
Total	$ 28,226,605		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 1,521,794
2	2,462,681
3	3,403,568
4	4,344,455
5	4,344,455
6	4,344,455
7	4,344,455
8	4,344,455
9	4,344,455
10	4,344,455
11	2,822,661
12	1,881,774
13	940,887
Total	$ 43,444,546

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area G

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	119
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	1,280,306
New Project Cost Funded Through New Debt [6]	2,342,426
Total Recoverable Project Cost [7]	$ 3,622,732

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 234,243	4.50%	20
2	234,243	4.50%	20
3	234,243	4.50%	20
4	234,243	4.50%	20
5	234,243	4.50%	20
6	234,243	4.50%	20
7	234,243	4.50%	20
8	234,243	4.50%	20
9	234,243	4.50%	20
10	234,243	4.50%	20
Total	$ 2,342,426		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 128,031
2	206,111
3	284,192
4	362,273
5	362,273
6	362,273
7	362,273
8	362,273
9	362,273
10	362,273
11	234,243
12	156,162
13	78,081
Total	$ 3,622,732

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area DT

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	32
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	52,755
New Project Cost Funded Through New Debt [6]	62,689
Total Recoverable Project Cost [7]	$ 115,444

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 6,269	4.50%	20
2	6,269	4.50%	20
3	6,269	4.50%	20
4	6,269	4.50%	20
5	6,269	4.50%	20
6	6,269	4.50%	20
7	6,269	4.50%	20
8	6,269	4.50%	20
9	6,269	4.50%	20
10	6,269	4.50%	20
Total	$ 62,689		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 5,276
2	7,365
3	9,455
4	11,544
5	11,544
6	11,544
7	11,544
8	11,544
9	11,544
10	11,544
11	6,269
12	4,179
13	2,090
Total	$ 115,444

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area SC

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	1,846
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	10,986,401
New Project Cost Funded Through New Debt [6]	20,368,031
Total Recoverable Project Cost [7]	$ 31,354,432

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 2,036,803	4.50%	20
2	2,036,803	4.50%	20
3	2,036,803	4.50%	20
4	2,036,803	4.50%	20
5	2,036,803	4.50%	20
6	2,036,803	4.50%	20
7	2,036,803	4.50%	20
8	2,036,803	4.50%	20
9	2,036,803	4.50%	20
10	2,036,803	4.50%	20
Total	$ 20,368,031		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 1,098,640
2	1,777,574
3	2,456,509
4	3,135,443
5	3,135,443
6	3,135,443
7	3,135,443
8	3,135,443
9	3,135,443
10	3,135,443
11	2,036,803
12	1,357,869
13	678,934
Total	$ 31,354,432

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

Impact Fee Calculation Assumptions

Appendix E - Impact Fee Calculation Assumptions

Service Area LG

I. General Assumptions

Annual Interest Rate on Deposits [1]	3.00%
Annual Vehicle Mile Growth [2]	98
Existing Fund Balance [3]	$ -
Portion of Projects Funded by Existing Debt [4]	$ -
Non-debt Funded Project Cost [5]	1,230,110
New Project Cost Funded Through New Debt [6]	2,249,204
Total Recoverable Project Cost [7]	$ 3,479,314

II. New Debt Issues Assumptions

Year	Principal [8]	Interest [9]	Term
1	$ 224,920	4.50%	20
2	224,920	4.50%	20
3	224,920	4.50%	20
4	224,920	4.50%	20
5	224,920	4.50%	20
6	224,920	4.50%	20
7	224,920	4.50%	20
8	224,920	4.50%	20
9	224,920	4.50%	20
10	224,920	4.50%	20
Total	$ 2,249,204		

III. Capital Expenditure Assumptions

Year	Annual Capital Expenditures [10]
1	$ 123,011
2	197,984
3	272,958
4	347,931
5	347,931
6	347,931
7	347,931
8	347,931
9	347,931
10	347,931
11	224,920
12	149,947
13	74,973
Total	$ 3,479,314

(1) Per discussions with City Staff
(2) Per Kimley-Horn Impact Fee Report
(3) Assumes all existing fund balances are already encumbered
(4) Per discussions with City Staff and City files
(5) This assumes 35% of new project costs funded through sources other than debt, unless specified otherwise
(6) This assumes 65% of new project costs funded through new debt issues, unless specified otherwise
(7) Per Kimley-Horn Impact Fee Report
(8) Assumes project costs will inflate by 3% per year and new debt will be issued in equal annual amounts
(9) Per discussions with City Staff
(10) Assumes new debt proceeds expended over a 3-year timeframe
Non-debt funded capital expenditures allocated per discussions with City Staff

City of Georgetown - 2025 Transportation Impact Fee Study

City Council Staff Report

Report Date: Tuesday, July 28, 2026
Project Manager: Lua Saluone, P.E., Transportation Manager

Item Details

Project Name: Transportation Impact Fee Semi-Annual Report (Q2 2026)

Background

The initial Transportation Impact Fee ordinance was adopted by ordinance on March 23, 2021 in accordance with Local Government Code Chapter 395 and was made effective on March 1, 2023. In August 2025, the City Council accepted the 2025 Transportation Impact Fee Study Update ("*2025 Report*") and established new maximum fees and collection rates.

The Texas Local Government Code, Sec. 395.058. requires a semiannual report on the progress of implementing the capital improvements plan or imposing the impact fee as well as advising the City Council of Georgetown on the need to conduct updates based on land use trends. The Planning and Zoning Commission is the advisory committee for the City of Georgetown.

Texas Local Government Code, Sec. 395.058.

b) … If the political subdivision has a planning and zoning commission, the commission may act as the advisory committee if the commission includes at least one representative of the real estate, development, or building industry who is not an employee or official of a political subdivision or governmental entity….

c) The advisory committee serves in an advisory capacity and is established to:

1. *advise and assist the political subdivision in adopting land use assumptions;*
2. *review the capital improvements plan and file written comments;*
3. *monitor and evaluate implementation of the capital improvements plan;*
4. *file semiannual reports with respect to the progress of the capital improvements plan and report to the political subdivision any perceived inequities in implementing the plan or imposing the impact fee;*

Land Use Assumptions

In order to assess an impact fee, Land Use Assumptions are developed to provide the basis for residential and employment growth projections within a municipality. As defined by Chapter 395 of the Texas Local Government Code, these assumptions include a description of changes in land uses, densities, and development in the service area. The land use assumptions are then used in determining the need and timing of transportation improvements to serve future development. The 2025 Report documents the process used to develop the Land Use Assumptions for the City of Georgetown's Transportation Impact Fee (TIF) study. In accordance with Chapter 395 of the Texas Local Government Code, roadway (transportation) impact fees must be calculated based on reasonable expectations of residential and employment growth within the next ten years (2025 – 2035). Information from the following sources was compiled to complete the Land Use Assumptions in the 2025 Report:

- The 2050 Capital Area Metropolitan Planning Organization (CAMPO) Regional Transportation Demand Management (TDM) Plan (2025)
- Future Mobility Plan (December 2023)
- Georgetown Comprehensive Plan Future Land Use Plan (Updated December 2023)
- City of Georgetown staff

Additional information on land use methodologies, transportation impact services areas, and assumptions for residential and employment growth are included in the 2025 Report beginning on page 34 (**Exhibit 1**). Since adopting the 2025 Report in August 2025, the City annexed and incorporated 980 additional acres into the following Service Areas:

Annexations Since Last Report (5/25/25)

Ordinance	Ordinance Date	Acres	Service Area

Comprehensive Plan Amendments (CPA) - Future Land Use Map

At their regular meeting on June 16, 2026, the Planning and Zoning Commission reviewed case number 2026-1-CPA (Comprehensive Plan Updates), regarding future land use changes to the following properties: **Area 1 - 1,528.32** acres in J. Hamilton and F. Foy Surveys, generally located north of Ronald W. Reagan Boulevard and west of State Highway 195; **Area 2 - 124.7** acres north of Ronald W. Reagan Boulevard, west of State Highway 195, and intersecting with Rattlesnake Road; **Area 3 - 2,623.51** acres in L.S. Walter and B. Eaves Surveys, generally located east of State Highway 195, south of County Road 239, and north of Sun City Boulevard; **Area 4 - 308.41** acres in W.M. Addison Survey, generally located north of Westinghouse Drive, east of Maple Street, south of Sam Houston Avenue, and west of Rockride Lane; **Area 5 - 106.56** acres in I. Donagan and A.H. Porter Surveys, generally located north of West State Highway 29 and east of Indigo Lane. In a 5-1 motion, P&Z approved the following recommendation to City Council, "*approval of the proposed amendments for Area 1, Area 2 and Area 3 of the Future Land Use Map and Disapprove the proposed amendments for Area 4 and Area 5 the of the Future Land Use Map*."

At the time of this report, City Council has not taken action on the recommendation of case number 2026-1-CPA (Comprehensive Plan Updates).

Transportation Impact Fee Service Areas

The geographic boundary of the impact fee service areas for transportation facilities is shown in Figure 1. The City of Georgetown is divided into ten (10) service areas, each based upon the six (6) mile limit, as required in Chapter 395. For transportation facilities, the service areas, as required by state law, are limited to areas within the current corporate City limits. The service areas are defined by the corporate boundary, required six (6) mile size limit, adjacent land uses, highways and topography. Each Service Area has a unique maximum impact fee (*the per-unit maximum fee for identical land use will vary from one Service Area to the next*). For this reason, the areas of uniform land use are within the same Service Area where possible.

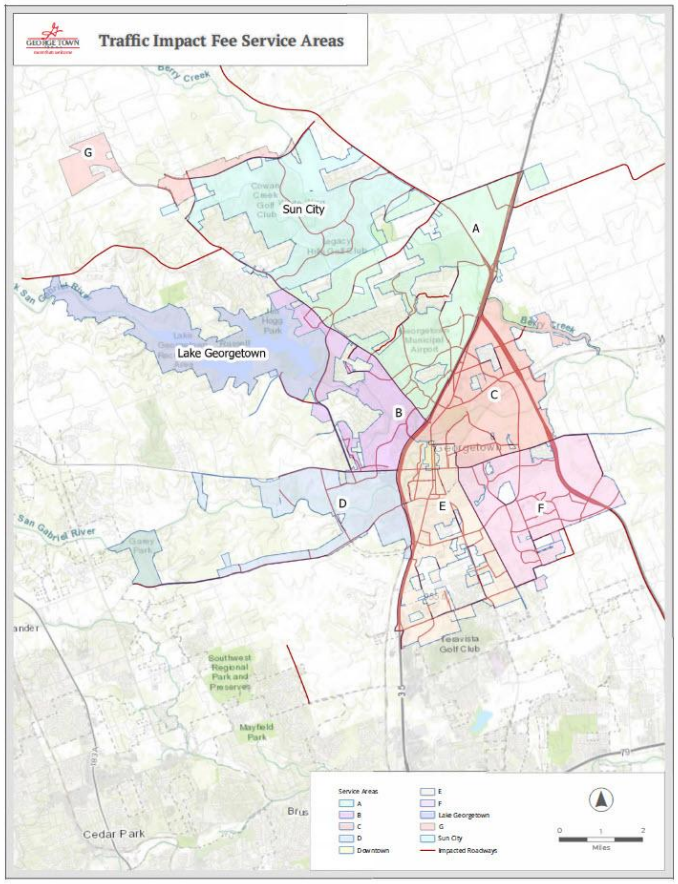

Figure 1 - Transportation Service Areas as of May 2026

Capital Improvements Plan

As of June 2, 2026, $1,671,041 has been collected in the following zones for both residential and commercial TIF.

TIF Balances	Zone A	Zone B	Zone C	Zone D	Zone E	Zone F	Zone G	Lake Georgetown	Sun City	Downtown	Total
Revenue	950,329	38,256	130,118	11,832	418,555	15,906	0	0	106,045	0	1,671,041
Expense	11,548	11,548	11,548	11,548	11,548	11,548	0	0	0	0	69,290
Balance	**938,780**	**26,708**	**118,569**	**284**	**407,007**	**4,357**	0	0	**106,045**	0	**1,601,751**

These funds are to be used for improvements in the service area for projects identified in the Transportation Impact Fee Study. At the time of this report, no improvements have been scheduled with the above collected fees. In 2025, $69,290 was expended for the update of the 2025 Report.

Next Steps

In January 2026, the City Council directed staff to prepare a municipal road bond program for voter consideration in May 2027. Staff is currently developing a prioritized list of road bond projects and will

evaluate feasibility of using the available TIF revenues as criteria for project selection and readiness. Given the changes in land use since 2023, staff is preparing an update to the Future Mobility Plan to address changes to land use and resulting roadway capacity. The update to the Future Mobility Plan is included in the FY27 budget.

Additionally, staff is preparing an update to the 2025 Report in order to incorporate the trip generation rates in the newly adopted 12th Edition of the ITE Manual. Staff will provide the Planning and Zoning Commission and the City Council an update when complete.

Planning and Zoning Commission Report

As required by The Texas Local Government Code, Sec. 395.058. city staff prepared and presented a report to The Planning and Zoning Commission on July 7, 2026, with specific questions and findings of the Commission noted below:

1. **Question:** Do you perceive any inequities in implementing the plan or imposing the impact fee?
    - **Answer:** *Apparent inequity in not expending collected fees, fund balance should be lower*
    - **Answer:** *Adopted inflation rate of 3% should be reviewed, realized inflation likely closer to 6%*
2. **Question:** Do you see a need to update or revise the land use assumptions, capital improvements plan, and impact fee?
    - **Answer:** *Review developments in Zone B and Zone D to ensure we have captured those properties currently developing?*
    - **Answer:** *With land use changes being consider, appropriate and necessary to update the TIF*

Transportation Impact Fee (TIF) Semi-Annual Report

July 28, 2026| City Council

Agenda

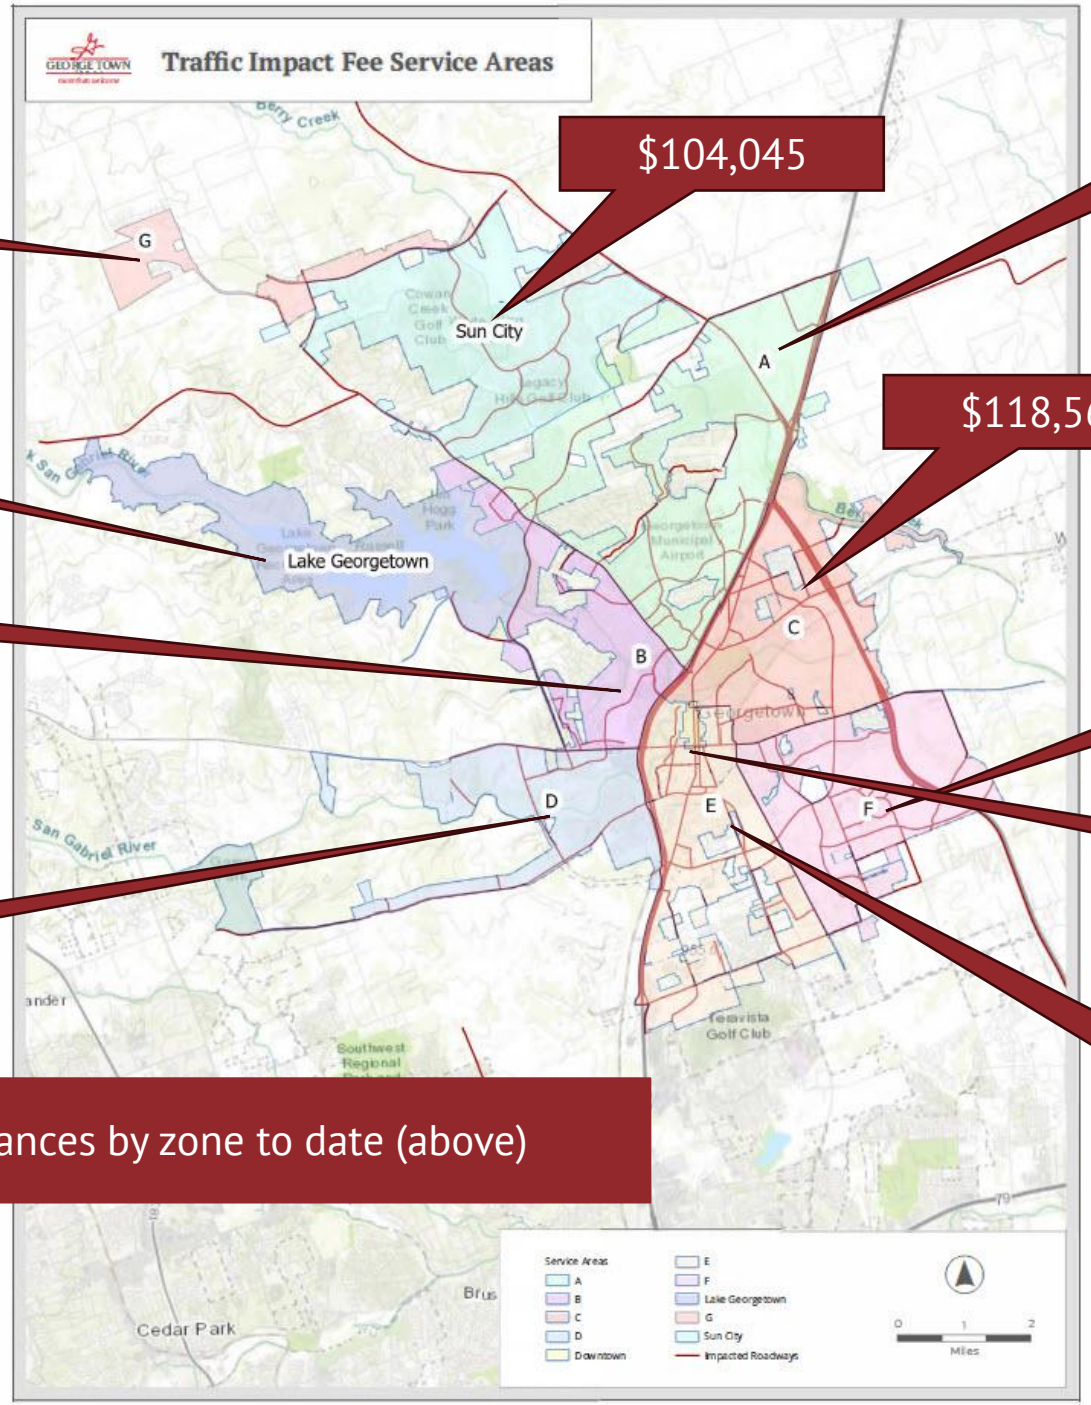
- Semi-annual requirement, Texas Local Government Code
- TIF Background
- Fees Collected to Date
- P&Z Feedback and Staff Recommendation to City Council
- Next Steps

TxLGC Section - Title 12, Subtitle C. Chapter 395.058

The advisory committee serves in an advisory capacity and is established to:

(1) advise and assist the political subdivision in adopting land use assumptions;

(2) review the capital improvements plan and file written comments;



(3) monitor and evaluate implementation of the capital improvements plan;

(4) file semiannual reports with respect to the progress of the capital improvements plan and report to the political subdivision any perceived inequities in implementing the plan or imposing the impact fee; and

(5) advise the political subdivision of the need to update or revise the land use assumptions, capital improvements plan, and impact fee.

TIF Background

- Adopted March 23, 2021, updated August 12, 2025, effective 3/2023
- Purpose : "*…intended to assure the provision of adequate transportation facilities to serve New Development in the City by requiring each development to pay a share of the costs of such improvements necessitated by and attributable to such New Development.*"
- Contains land use assumptions
- TIF Capital improvement plan (CIP)
  - TIF CIP is mandated by the state to be limited to anticipated future projects within a 10 year max window.
- Establishes service areas
- Establishes a maximum assessable fee per service unit
- Provides for exemptions, credits, refunds, rebates and appeals

P&Z Feedback from 7/7/26

1. **Question:** Do you perceive any inequities in implementing the plan or imposing the impact fee?
   - **Answer:** *Apparent inequity in not expending collected fees, TIF fund balance should be lower*
   - **Answer:** *Adopted inflation rate of 3% should be reviewed, realized (actual) inflation is likely closer to 6%*

2. **Question:** Do you see a need to update or revise the land use assumptions, capital improvements plan, and impact fee?
   - **Answer:** *Review developments in Zone B and Zone D to ensure we have captured those properties currently developing*?
   - **Answer:** *With land use changes being consider, appropriate and necessary to update the TIF*

Next Steps

✓Staff (***on behalf of P&Z***) will file this semiannual report with respect to the progress of the capital improvements plan and report to the political subdivision any perceived inequities in implementing the plan or imposing the impact fee; and

❑Staff will update the 2025 TIF Report

❑Staff is seeking funds in the FY27 budget to complete an update to the Future Mobility Plan

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Memorandum of Understanding for Statewide Emergency Management Assistance Teams (TEMAT) Program Agreement

SUGGESTED ACTION:
Consideration and possible action to enter into a Memorandum of Understanding (MOU) with Texas Division of Emergency Management (TDEM) to consolidate mutual aid processes and agreements between the State of Texas and the City for all special response teams under the State of Texas Emergency Management Assistance Teams (TEMAT) program -- Christy Rogers, Emergency Management Coordinator

ITEM SUMMARY:
TDEM is rolling out a new, streamlined process for MOUs (Memorandums of Understanding) that makes state mutual aid easier for both local jurisdictions and the state. This MOU provides for a single-source agreement between the State of Texas and participating jurisdictions for all special response teams under the State of Texas Emergency Management Assistance Teams (TEMAT) program.

The City currently has personnel serving on TIFMAS – Texas Intrastate Fire Mutual Aid System – and this updated MOU will cover any current or future employees participating in TIFMAS, or any TEMAT team. The new process replaces the previous requirement for separate, individual MOUs for each applicant and team, consolidating everything into one jurisdiction-wide agreement renewed every 5 years.

This update does not auto-enroll employees, change existing operations, or alter policy. It simply streamlines administrative requirements while supporting statewide emergency coordination, training, and deployment opportunities.

Staff recommends entering into an MOU to support a more efficient and integrated statewide emergency response network.

FINANCIAL IMPACT:
There is no financial impact. Reimbursements for mutual aid will still follow the same rules as outlined in the state mutual aid reimbursement guide (https://tdem.texas.gov/reimbursement).

TDEM
THE TEXAS A&M UNIVERSITY SYSTEM

Kharley Smith
TDEM – Division Chief
TEMAT - Incident Support Task Force
512.574.9657 kharley.smith@tdem.texas.gov

Subject: Implementation of the Statewide Emergency Management Assistance Teams (TEMAT) Program Agreement

Dear County Judges and Mayors,

I am writing to inform you of an essential development in Texas's statewide emergency response capability. The **State of Texas Emergency Management Assistance Teams (TEMAT)** program has formally launched a streamlined and modernized framework for interjurisdictional support during disasters and critical incidents through a jurisdictional wide Memorandum of Understanding (MOU).

This MOU provides for a single-source agreement between the State of Texas and participating jurisdictions for all special response teams under the TEMAT program. The agreement enables local agencies to nominate and authorize personnel to be rostered and deployed as part of coordinated emergency response teams. These individuals may be called upon to assist in statewide or regional operations during times of crisis.

Key Benefits of the New Agreement:

- **Single Contract, Statewide Coverage:** One standardized agreement replaces the need for separate contracts with each team, agency, or discipline. This new model applies to Texas-based response teams, simplifying participation for local governments.
- **Maintains Local Control:** Jurisdictions retain full authority to nominate personnel and approve deployments, while benefitting from centralized coordination and streamlined support.
- **Complete Administrative Protection:** The agreement includes comprehensive provisions for workers' compensation, liability coverage, asset usage, and expense reimbursement in accordance with applicable local, state and federal reimbursement policies.
- **Flexible Deployment Options:** The program supports deployment of individual personnel, specialty resources, or complete units, based on mission needs and operational readiness.

Transition from Current Agreements:

This new agreement supersedes existing individual contracts currently in place. However, to ensure continuity and flexibility, all existing agreements will remain in effect until each local jurisdiction has had the opportunity to review and opt into the new TEMAT framework. There will be no disruption to ongoing mutual aid capabilities during the transition.

Participation in the TEMAT program ensures that your community remains both a contributor to and a beneficiary of a more efficient and well-coordinated statewide emergency management system. It also creates new opportunities for your personnel to receive training, deploy during real-world operations, and return with valuable experience and insights.

Enclosed is the TEMAT program overview and the process to access the new agreement for your review. Our office is available to assist with any administrative or operational questions as you consider enrollment.

Thank you for your continued leadership in protecting your communities and strengthening Texas's emergency response network.

Respectfully,

Kharley Smith

Memorandum of Understanding
Between
Texas Division of Emergency Management
and Texas Emergency Management Assistance Teams Participating Jurisdiction/Employer

This memorandum of understanding ("TEMAT MOU") becomes effective as of the date of final signature, by and between the Texas Division of Emergency Management ("TDEM"), a member of The Texas A&M University System ("A&M System") and an agency of the State of Texas, and the Texas Emergency Management Assistance Teams ("TEMAT") participating jurisdiction/employer _____ ("Jurisdiction").

I. PURPOSE

In accordance with Texas Government Code Chapter 418, Subchapter E-1 Texas Statewide Mutual Aid System, and the State of Texas Emergency Management Plan, this TEMAT MOU delineates responsibilities and procedures for TEMAT activities. TDEM's authority is provided through the State of Texas to activate state resources for the purposes of TEMAT Programs.

TEMAT Programs include and are administered by the state agencies listed below:

TEMAT Program	State Agency Program Administrator	Program Summary
Incident Support Task Force (ISTF)	Texas Division of Emergency Management (TDEM)	Provides support through multiple areas of expertise throughout response and recovery initiatives
Public Works Response Team (PWRT)	Texas A&M Engineering Extension Service (TEEX)	Provides support for critical infrastructure systems
Texas A&M Task Force 1 (TX-TF1)	Texas A&M Engineering Extension Service (TEEX)	Provides search and rescue support through Texas A&M Task Force 1, Texas Task Force 2, and Texas A&M Task Force 3
State of Texas Incident Management Team (IMT)	Texas Division of Emergency Management (TDEM)	Provides position specific personnel to assist in emergency operations
Texas Intrastate Fire Mutual Aid System (TIFMAS)	Texas A&M Forest Service (TFS)	Provides wildland and fire department support

II. SCOPE

The provisions of this memorandum of understanding apply to TEMAT activities performed at the request of TDEM at the option of the participating Jurisdiction. These activities may be in conjunction with, or in preparation of, a local, state or federal declaration of disaster. The scope of this TEMAT MOU also includes training activities sponsored by the state, TDEM, the Jurisdiction, and the Program Administrators to maintain TEMAT operational readiness.

III. PERIOD OF PERFORMANCE

This TEMAT MOU commences on the date of the last signature and continues for a period of five (5) years unless terminated earlier in accordance with the terms of this TEMAT MOU.

IV. DEFINITIONS

A. Affiliated Member: A TEMAT Member that is associated with a Jurisdiction or participating agency for purposes of this agreement.

B. Backfill: The assignment of personnel by a participating Jurisdiction to meet their minimum level of staffing to replace a deployed TEMAT Member.

C. Incident Support Task Force: The division of TDEM is responsible for maintaining all TEMAT program information to include but not limited to this TEMAT MOU and the ISTF Program Guide.

D. Jurisdiction: A TEMAT Member's employer, which, by the execution of this TEMAT MOU, has provided official approval of their employee's membership involvement with TEMAT.

E. Member: An employee of a Jurisdiction who has been formally accepted into a TEMAT Program and is in compliance with all program requirements (for both TEMAT overall and specific requirements for the program(s) for which they are a Member). For clarification, the lower-case use of "member" within this agreement, refers to a A&M System member.

F. PIV-I: Personal Identification Verification Interoperability card should be issued to all first responders.

G. Program: One of the TEMAT Programs listed in the above table and administered by a Texas state agency to provide assistance during an emergency event or disaster.

H. Program Administrator: Designated State agency representative participating in the program or administering the program on behalf of the state.

I. Red Card: A National Wildfire Coordinating Group (NWCG) "Red Card" is a credential issued to wildland firefighters that verifies their qualifications and training for specific wildland fire positions.

J. State Mutual Aid Reimbursement Guide: A living document explaining how TDEM will reimburse local responding entities, state agencies, and other entities for accepting and responding to state-assigned mutual aid missions.

K. TEMAT: Any response team administered by a state Jurisdiction of Texas to provide response assistance to local Jurisdictions or the state of Texas.

L. TEMAT Training and Exercises – Jurisdiction Sponsored: Training and/or exercises performed at the direction, control, expense, and funding of a participating Jurisdiction in order to develop and maintain capabilities of the Member and TEMAT.

M. TEMAT Training and Exercises – State or Administrator Sponsored: Training and/or exercises performed at the direction, control, expense, and funding of the state or Program Administrator.

N. Unaffiliated Member: An approved Member of the Incident Support Task Force that is not currently employed by a government entity.

V. RESPONSIBILITIES

A. TDEM shall be responsible for the following:

1. Provide and maintain administrative and personnel management guidelines and procedures related to TEMAT and this TEMAT MOU.

2. Maintain, in coordination with Program Administrators, programmatic guidance to provide standard operating procedures that are current and readily available to Program Administrators, Jurisdictions, and Members.

3. Provide training to Members. Training shall be consistent with the objectives of the TEMAT Program overall to include but not limited to State Operations Center functions, financial reimbursement, and other training.

4. Work with Program Administrators to ensure all administrative, fiscal, and personnel management guidelines are consistent across all TEMAT Programs.

5. Provide coordination between Program Administrators, other relevant governmental and private entities, Jurisdiction, and Member.

6. Maintain overall TEMAT contact list for all Jurisdictions and Members.

B. The TDEM shall ensure that the Program Administrator(s) will do the following:

1. Recruit and manage Members for their specific program according to guidelines outlined in the program-specific guidance manual.

2. Produce related portion of the program-specific guidance manual to provide standard operating procedures that are current and readily available to Members.

3. Provide and maintain qualifications, training, and operational guidelines and procedures related to the TEMAT Program they administer.

4. Provide upon approval of membership and then collect upon separation from the program equipment, uniforms, and identification issued on behalf of TEMAT.

5. Provide training for Members. Training must be consistent with the objectives of developing, increasing, and maintaining individual skills necessary to maintain operational readiness related to emergency management response.

6. Develop, implement, and exercise an internal notification and call-out system for Members.

7. Provide coordination between the state, other governmental and private entities, participating agency/employer, and Member, notify Jurisdictions or program Members of the need for activation.

8. Maintain and submit, annually, a primary contact list for their respective program, for all Jurisdictions and Members, to the state.

9. Maintain personnel files on all Members of administered programs for the purpose of documenting training records, qualifications, emergency notification, and other documentation as required by the state and Program Administrators.

10. Ensure the issuance of PIV-I to each Member through coordination with TDEM. If removed from team, then the PIV-I should be retrieved and revoked immediately. Program Administrator(s) should retrieve the PIV-I and notify TDEM for immediate revocation.

11. Program Administrator, TEEX, will reimburse Jurisdiction for Urban Search and Rescue (US&R), Public Works Response and sponsored training activities related to this TEMAT MOU under the authority of the State of Texas Emergency Management Plan, the Robert T. Stafford Disaster Relief and Emergency Act, Public law 93-288, as amended 42 U.S.C. 5121, et seq., and Title 44 CFR Part 208 – National Urban Search and Rescue Response System.

12. All reimbursement requests pursuant to this section shall follow program specific guidelines included in the TEEX Deployment Reimbursement Manual and the State Mutual Aid Reimbursement Guide.

C. The Jurisdiction shall:

1. Determine which TEMAT Programs the Jurisdiction will support by providing Members and being able to respond as requested by TDEM and Program Administrators.

2. Upon signature, the Jurisdiction will submit a roster within fourteen (14) calendar days of final signature to TDEM and Program Administrators. Maintain a roster of all its personnel participating in TEMAT activities and submit an update annually. The roster shall include all current Red Card qualifications for each Member when applicable.

3. Provide a primary point of contact to TDEM and Program Administrators for the purpose of notification of TEMAT activities and for administrative activities.

4. Provide administrative support to employee Members of TEMAT, e.g., time off when fiscally reasonable to do so for TEMAT activities such as training, meetings, and actual deployments.

5. Ensure all reimbursement claims meet the requirements of the State Mutual Aid Reimbursement Guide.

6. Upon notification by TDEM, the Jurisdiction will determine which Members within Jurisdiction are qualified and available for deployment. Jurisdiction determines which qualified Members deploy.

D. The Jurisdiction shall ensure the Member(s):

1. Perform duties, as required by their membership in a TEMAT program, when requested and deployed by TEMAT.

2. Maintain knowledge, skills, and abilities necessary to operate safely and effectively in the assigned position and conduct themselves in accordance with the program-specific guidance manual.

3. Advise the Program Administrator of any change in the notification process, i.e., address, change of employment, or phone number changes.

4. Update their membership profile through their Program Administrator or their online portal with any updated qualifications, rate of pay change, or position change as they occur and verify accuracy annually.

5. Maintain, for deployment, all equipment issued by the TEMAT program and advise Program Administrator of any lost, stolen, or damaged items assigned to Member.

6. Keep the Jurisdiction advised of TEMAT activities that may require time off from work.

7. Be prepared to operate in a disaster environment, which may include living and working in austere conditions.

8. During any period in which TEMAT is activated by TDEM or during any TEMAT sponsored or sanctioned training, Member shall be acting as a representative of the State of Texas.

9. Ensure that staff approved for membership by Jurisdiction meet the program requirements and experience level with his/her position on each TEMAT program in accordance with the program-specific guidance manual.

VI. QUALIFICATIONS, TRAINING, AND EXERCISES

A. TEMAT Training and Exercises – Jurisdiction Sponsored:

Periodically, Members will be requested and/or invited to attend local TEMAT-sponsored training or exercises. Local Jurisdiction-sponsored training or exercises shall be performed at the direction, control, expense, and funding of the local Jurisdiction in order to develop the technical skills of Members.

TEMAT Training and Exercises – State or Program Administrator Sponsored:

Periodically, Members will be invited to attend state TEMAT training and/or exercises, and when these training and/or exercises are required, Jurisdiction shall ensure Member attends such. These trainings and exercises shall be performed at the direction, control, expense, and funding of the state which may include being administered through a Program Administrator in order to develop and maintain the incident support capabilities of the TEMAT. For state or Program Administrator sponsored training or exercises, the Jurisdiction shall coordinate with TDEM and/or Program Administrators, prior to the event, to receive written authorization prior to such an event.

B. Minimum Qualification and Training Requirements

Jurisdiction should allow Members appropriate time to maintain the qualifications required for each position Member fills in the TEMAT Program.

Jurisdiction should ensure Members can attend available TEMAT training and exercise opportunities provided for the assigned TEMAT position to ensure the maintenance of position qualifications. Jurisdiction understands that failure for

Jurisdiction to ensure Members attend or maintain qualifications may result in dismissal from the TEMAT Program when qualifications are no longer valid.

VII. ADMINISTRATIVE, FINANCIAL, AND PERSONNEL MANAGEMENT

A. Reimbursement of Administrators/Jurisdiction

1. All guidelines and procedures for requesting reimbursement shall be pursuant to the State Mutual Aid Reimbursement Guide.

2. All financial commitments herein are made subject to the availability of funds from the State of Texas.

VIII. Liability and Workers' Compensation for State Activation/And Training

A. During any period in which a program under TEMAT is activated by the State of Texas, or during any TEMAT sanctioned training, Members who are not employees of A&M System or another agency of the State of Texas will be considered to be in the course and scope of the Member's (employee's) regular employment with the Jurisdiction (employer) and the Member shall be entitled to full benefits, including workers' compensation and liability coverage, as an employee of their employer.

B. For a Member who becomes injured during any period in which a program under TEMAT is activated by the State of Texas, or during any TEMAT sanctioned training, the Jurisdiction shall immediately notify the Program Administrator and TDEM of the injury in writing, and TDEM shall reimburse the Jurisdiction the costs and expenses paid by the Jurisdiction to Member, including but not limited to, all related medical expenses, compensation, wages, pension contributions, and any benefits provided by the Jurisdiction. Pursuant to Texas Government Code Section 418.118(b), the Jurisdiction may seek reimbursement for all eligible costs and expenses as provided in this section by providing TDEM or the Program Administrator, whichever is applicable, adequate supporting documentation for the costs/expenses claimed, to include proof of pay provided by the Jurisdiction to the Member. Said reimbursement shall continue, in accordance with Texas Labor Code Section 408, until such time that the injured Member is medically cleared for return to work or in the event of permanent disability or death, until all obligations for payment to the Member or Member's beneficiaries are satisfied.

IX. CONDITIONS, AMENDMENTS, AND TERMINATION

A. This TEMAT MOU may be modified or amended only by the written agreement of all the parties.

B. This TEMAT MOU may be terminated by any signing party, upon thirty (30) days written notice to the other party.

C. The state complies with the provisions of the Department of Labor Executive Order 11246 of September 24, 1965, as amended and with the rules, regulations, and relevant orders of the Secretary of Labor. To that end, the state shall not discriminate against any Member on the grounds of race, color, religion, sex, or national origin. In addition, the use of state or federal facilities, services, and supplies will be in compliance with regulations prohibiting duplication of benefits and guaranteeing nondiscrimination. Distribution of supplies, processing of applications, provisions of technical assistance, and other relief assistance activities shall be accomplished in an equitable and impartial manner, without discrimination on the grounds of race, color, religion, nationality, sex, age, or economic status.

D. This TEMAT MOU is governed by the laws of the State of Texas (but not its conflict of laws statutes and principles). Pursuant to Section 85.18 (b), Texas Education Code, venue for a state court suit filed against any member of A&M System, or any officer or employee of A&M System is in the county in which the primary office of the chief executive officer of the system or member, as applicable, is located.

E. The parties expressly acknowledge that the Program Administrators are agencies of the State of Texas and nothing in this TEMAT MOU will be construed as a waiver or relinquishment by any state agency administrator of its right to claim such exemptions, privileges, and immunities as may be provided by law.

F. By executing this TEMAT MOU, all parties and each person signing on behalf of each party certifies, and in the case of a sole proprietorship, partnership or corporation, each party thereto certifies as to its own organization, that to the best of their knowledge and belief, no member of A&M System or A&M System Board of Regents, nor any employee, or person, whose salary is payable in whole or in part by A&M System, has direct or indirect financial interest in the award of this TEMAT MOU, or in the services to which this TEMAT MOU relates, or in any of the profits, real or potential, thereof.

G. Each party is responsible to ensure that employees participating in work for any member of A&M System have not been designated by a member of A&M System as Not Eligible for Rehire (NEFR) as defined in System policy 32.02, Section 4. Non-conformance to this requirement may be grounds for termination of this agreement. In event a system member becomes aware that a contracting party has any employees that are designated as NEFR under this TEMAT MOU, the nonconforming employee is immediately required to be removed from all performance duties upon demand by a system member.

X. JURISDICTION DECLARATION OF PARTICIPATION IN TEMAT

Jurisdiction agrees to abide by the terms and conditions of this TEMAT MOU and the program-specific guidance manual. Jurisdiction agrees to allow employees to serve as TEMAT Members for the approved TEMAT Programs checked below:

TEMAT Program	Check for Participation	Jurisdiction Point of Contact Initials
Incident Support Task Force (ISTF)	☑	CR
Public Works Response Team (PWRT)	☑	CR
Texas A&M Task Force 1	☑	CR
State of Texas Incident Management Team (IMT)	☑	CR

XII. GENERAL PROVISIONS

A. This TEMAT MOU, with the rights and privileges it creates, is assignable only with the written consent of the parties.

B. Pursuant to Texas Government Code Section 321.013, acceptance of funds under this TEMAT MOU constitutes acceptance of the authority of the State of Texas, the Texas State Auditor's Office, or any successor agency (collectively, "Auditor"), to conduct an audit or investigation in connection with those funds under Texas Education Code Section 51.9335(c). Jurisdiction shall cooperate with the Auditor in the conduct of the audit or investigation, including without limitation, providing all records requested.

C. Pursuant to Texas Government Code Sections 2107.008 and 2252.903, any payments owing to Jurisdiction under this TEMAT MOU may be applied directly toward certain debts or delinquencies that Jurisdiction owes the State of Texas or any agency of the State of Texas regardless of when they arise until such debts or delinquencies are paid in full.

D. To the extent applicable, Jurisdiction shall use the dispute resolution process provided in Chapter 2260, Texas Government Code, and the related rules adopted by the Texas Attorney General to attempt to resolve any claim for breach of contract made by Jurisdiction that cannot be resolved in the ordinary course of business. Jurisdiction shall submit written notice of a claim of breach of contract under this Chapter to TDEM's designated official, who will examine the claim and any counterclaim and negotiate in an effort to resolve the claim.

XIII. ENTIRE AGREEMENT

This TEMAT MOU terminates and supersedes any prior TEMAT MOU amongst TDEM, TEMAT Program Administrators, a TEMAT Employee Member, and Participating Jurisdiction. This TEMAT MOU, in addition to the related program-specific guidance manuals and State Mutual Aid Reimbursement Guidelines, reflects the entire agreement between the parties.

TDEM and Jurisdiction hereby acknowledge that they have read and understand this entire TEMAT MOU. All oral or written agreements between the parties hereto relating to the subject matter of this TEMAT MOU that was made prior to the execution of this TEMAT MOU have been reduced to writing and are contained herein. TDEM and Jurisdiction agree to abide by all terms and conditions specified herein and certify that the information provided to the state is true and correct in all respects to the best of their knowledge and belief.

This TEMAT MOU is entered into by and between the following parties:

SUBJECT:
Ratification for US 183 & CR 3405 Emergency Water Main Repair

SUGGESTED ACTION:
Consideration and possible action to ratify the expenditure of $272,888.00 with Royal Vista, Inc. for the emergency repair of a 16" water main at US 183 and CR 3405 -- Tim Walker, Water Utility Assistant Director

ITEM SUMMARY:
On June 8, 2026, the Water Utility experienced a catastrophic failure of an encased 16-inch water transmission main at the US 183 and FM 3405 crossing. The water main split within approximately 820 feet of the steel casing, emergency repair efforts were focused on restoring the integrity of the 16-inch transmission main. Due to the location and extent of the failure within the casing, approximately 820 feet of the encased pipeline was removed and replaced to ensure the long-term reliability of the transmission main. Upon completion of the repairs, the line was pressure tested, bacteriological sampled, and returned to service.

FINANCIAL IMPACT:
Funds will be pulled from CC0528 - Water Distribution and reserve funds.

Purchasing Department Exemption Form

Department Name:

Water

Requisition Number:

Vendor name, description of item or service to be procured, and estimated amount or fiscal year amount(s) as applicable:

Vendor: Royal Vista, Inc.
Service: Emergency Repair for 16" Water Main Break
Amount: $272,888.00

Attach vendor proposals and any other documentation that supports this exemption.

This exemption form is executed and filed with the Purchasing Department in the Finance Division.

The undersigned agrees that the following general exemption (per Texas Local Government Code, Section 252.022) is applicable to this purchase.

Please check the appropriate exemption:

- ○ **1. Public Calamity: Procurement made because of a public calamity that required the immediate appropriation of money to relieve the necessity of the municipality's residents or to preserve the property of the municipality.**
- ◉ **2. Public Health or Safety: Procurement necessary to preserve or protect the public health or safety of the municipality's residents.**
- ○ **3. Unforeseen Damage: Procurement necessary because of unforeseen damage to public machinery, equipment, or other property.**
- ○ **4. Procurement for Personal, Professional, or Planning Services: Professional services are those rendered by an architect, attorney, certified public accountant, engineer, physician, real estate appraiser, land surveyor or other profession approved under the law.**

Describe the type of professional services and what mainly mental or intellectual rather than physical or manual and/or disciplines requiring special knowledge or attainment and a high order of learning, skill, and intelligence are needed.

5. Sole Source. Item or service available from only one source because of: (check one below)

- ◯ Patents, copyrights, secret processes, or natural monopolies
- ◯ Films, manuscripts, or books,
- ◯ Gas, water and other utility services
- ◯ Captive replacement parts or components for equipment
- ◯ Books, papers, and other library materials for a public library that are available only from the persons holding exclusive distribution rights to the materials
- ◯ Management services provided by a nonprofit organization to a municipal museum, park, zoo, or other facility to which the organization has provided significant financial or other benefits

Attach manufacturer's sole source statement and other supporting documentation.

- ◯ 6. Purchase of rare books, papers, and other library materials for a public library
- ◯ 7. Services performed by blind or severely disabled persons
- ◯ 8. Goods purchased by a municipality for subsequent retail sale by the municipality
- ◯ 9. Advertising, other than legal notices

Provide additional details and justification on exemption selected above. Provide evaluation conducted including efforts taken to ensure vendor is responsible and will provide the best value to the City. If applicable, explain if another exemption applies not listed above that is allowed under law.

On 6/8/26, a 16-inch water main break occurred at US 183 & CR3405 requiring immediate repair to restore water service, protect public health and safety, and prevent further damage to public infrastructure. Due to the urgent nature of the incident, Royal Vista, Inc. was notified to secure specialized repair services and materials and expedite restoration efforts.

(Sign & Date)

7/16/2026

Exemption Authorized: (Purchasing Manager or Designee) (Sign & Date)

Donna Cantwell 7/16/26

All purchases over $50,000 are subject to City Council approval.

NOTE: This form is not required for purchases under $3,000.

Purchasing Department comments:

The Water department needs a fully executed exemption form for the water line that broke last month.

Legal and CMO are aware of this purchase. This was the second phase, the first part was the asphalt repair that was completed by Texas Patriot Contracting last month. The water department just received the invoice from Royal Vista, but Legal was looped in before this point. Skye wanted them to ratify both purchases at the same city council meeting. Thank you,
Brandy Jones-Martinez Buyer City of Georgetown, Texas

Royal Vista, Inc.

City Council
July 28, 2026

SUBJECT:
Ratification for US 183 & CR 3405 Emergency Road Repairs

SUGGESTED ACTION:
Consideration and possible action to ratify the expenditure of $211,021.20 with Texas Patriot Contracting for the emergency road repairs due to a water main break at US 183 and CR 3405 -- Tim Walker, Water Utility Assistant Director

ITEM SUMMARY:
On June 8, 2026, the Water Utility experienced a catastrophic water main failure at the intersection of US 183 and FM 3405, resulting in a roadway collapse. The failure caused significant soil erosion beneath the roadway, compromising its structural integrity and creating an immediate public safety hazard. As a precaution, the affected section of the roadway was closed to traffic while the extent of the damage was assessed. Following the investigation, it was determined that the water main failure had undermined the supporting soil beneath the roadway. To restore safe traffic operations, the Water Utility coordinated emergency repairs, including replacement and compaction of the eroded soil, and restoration of the roadway. Upon completion of the repairs and verification of roadway stability, the roadway was reopened to normal traffic.

FINANCIAL IMPACT:
Funds will be pulled from CC0528 - Water Distribution and reserve funds.

If applicable, explain if another exemption applies not listed above that is allowed under law.

On 6/8/26, a water line break at Highway 183 & FM 3405 caused significant damage to the roadway and created an immediate public safety hazard. Due to the unsafe conditions, TxDOT initiated a road closure. Immediate asphalt repairs are currently being performed to restore safe travel conditions and reopen the roadway. Texas Patriot was engaged on an emergency basis due to its ability to mobilize quickly and begin the necessary repairs without delay.

SUBJ: Emergency Order Asphalt Road Repair

Dear Mrs. Sesma,

Texas Patriot Contracting is pleased to present our proposal to perform emergency asphalt road repair per our assumptions, clarifications, and exclusions for the lump sum price of $**211,021.20**

We trust the above is acceptable and await your favorable reply.

Sincerely,
Texas Patriot Contracting, LLC

Nicholas Lesko
Owner/General Manager

Clarifications:

1. We were authorized to move forward on a time and material basis by email from Isaac Conde on 6/8/2026 at 7:10PM.
2. We will demo and dispose of 6,000 SF of existing asphalt road.
3. We will compact existing sub-base prior to paving asphalt with steel drum vibratory roller.
4. Prior to paving, a tack coat will be applied to promote proper bonding between asphalt lifts and adjacent pavement surfaces.
5. Approximately 4,000 square feet shall receive an 8-inch asphalt section consisting of 6 inches of Type B asphalt base and 2 inches of Type C surface course.
6. Approximately 2,000 square feet shall receive a 12-inch asphalt section consisting of 10 inches of Type B asphalt base and 2 inches of Type C surface course.
7. Asphalt placement and compaction will be performed utilizing industry-standard paving and rolling practices to achieve proper density and surface finish.
8. We will furnish and install 260 LF of 100 mil double yellow thermoplastics striping.
9. We will furnish and install 260 LF of 100 mil white thermoplastics striping.
10. We will furnish and install 24 white and 24 yellow road markers.
11. The project location:
    a. Intersection of US 183 & CR 3405
12. Cost Breakdown:
    a. Demo and haul off existing asphalt: $17,500
    b. Furnish and installation of new asphalt: $156,243.00
    c. Furnish and installation of new lane striping: $6,617.00
    d. Overhead & Profit: $30,661.20

Included:

13. We will remove forms and clean up work area.
14. We will notify Texas 811 prior to the start of work.
15. We include one mobilization to the site.
16. We will work 8AM to 4:30PM M-F, holidays, and weekends excepted.
17. We include all General Liability, Auto, and Workers Compensation insurance.
18. Our price is good for 30 days.
19. We include 1-year limited workmanship warranty on our installation in addition to any manufacturer's standard warranty.

Exclusions:

20. We exclude all permits.
21. We exclude the identification, temporary support, relocation, or replacement of any and all utilities.
22. We exclude all sales tax.
23. We exclude all handling and disposal of contaminated or hazardous waste.
24. We exclude all MEP work.

Clarification, Assumptions, Exclusions:

25. We exclude all engineered designs, drawings, and third-party inspections for QA & QC.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Construction Change Order #1 with Texas Road LLC, on the Shell Road Widening Project

SUGGESTED ACTION:
Consideration and possible action to approve Change Order No. 1 to Texas Road, LLC (Austin Underground) for Shell Road improvements in the amount of $317,000.00 --Wesley Wright, PE, Systems Engineering Director and David Herzog, CIP Manager

ITEM SUMMARY:
In June 2025, Council awarded a roadway construction contract to Texas Road (Austin Underground) for the widening of Shell Road (Williams to Sycamore). During the Texas Commission on Environmental Quality's (TCEQ) Water Pollution Abatement Plan (WPAP) review, it was determined that additional stormwater quality improvements were necessary in order to continue to meet minimum standards.

The proposed improvements of Shell Road demolish some turf that was not originally believed to be providing a water quality/stormwater treatment function. Due to the limited ROW width and storm sewer system in place of roadside ditch conveyance systems, the existing turf/vegetated filter strips must be replaced with additional and upsized stormwater treatment facilities (aka Jellyfish inlets).

These additional inlets typically take an additional 8 weeks to manufacture and deliver, but progress on the project will not slow or be delayed. Utility conflicts and drainage improvements, along with subgrade work are well underway for the first half of the roadway. Completion is still on schedule for late 2027.

Staff recommends approval of Change Order No. 1 in the amount of $317,000.00 to Texas Road for the additional Jellyfish inlets and the revision of 2 Jellyfish treatment facilities on Shell Road.

FINANCIAL IMPACT:
Bids for Shell Road originally came in approximately $2.5million under budget, so adequate funds remain for this expenditure are available in the current FY 2026 CIP Transportation Budget.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Construction contract for D B Wood Phase II Part A

SUGGESTED ACTION:
Consideration and possible action to award a contract to Jordan Foster Construction, LLC of Pflugerville, Texas for the Construction of the D B Wood Road Phase II Part A Improvements project in the amount of $5,800,000.00 -- Wesley Wright, P.E., Systems Engineering Director / David Herzog, CIP Manager

ITEM SUMMARY:
The D B Wood Road Phase II Part A project consists of improvements to approximately 0.75 miles of existing two-lane collector roadway from Oak Ridge Road to north of Cedar Breaks Road. The project includes reconstruction and widening of the existing roadway from two lanes to a four-lane divided roadway, along with construction of sidewalks, grading, paving, culverts, storm drainage infrastructure, roadway illumination, signing, and pavement markings.

Additionally, three left turn lanes and traffic signal conduit to facilitate transportation improvements necessary to serve the Georgetown Independent School District (GISD) High School No. 4 are included in this project. Through the development process, GISD has agreed to fund the costs associated with those improvements incorporated into the roadway project. A separate Interlocal Agreement will be brought forward to formalize this reimbursement commitment. High School No. 4 is tentatively scheduled to open for the Fall 2028 semester.

This project was advertised in the Williamson County Sun on Sunday June 14th, 2026 & Sunday June 21st, 2026. Bids were opened at 2:00 p.m. on July 8th, 2026. We received ten (10) competitive bids. Jordan Foster Construction, LLC of Pflugerville, Texas submitted the lowest responsive and responsible bid.

Jordan Foster Construction has successfully completed similar roadway projects for the City of Georgetown and other Central Texas Municipalities, including the Southwest Bypass from Leander Road to Wolf Ranch Pkwy, and D B Wood Phase I (SH29 to Oak Ridge). City staff reviewed the current workload, references, and construction history and determined that Jordan Foster Construction has the qualifications and experience necessary to successfully complete this project.

Construction is anticipated to begin as early as August 2026 and is expected to be completed by July 2027.

We will be bringing an additional phase to D B Wood Phase II in the future. This phase will continue the roadway improvements from the northern terminus of Part A near Cedar Breaks Road to the Georgetown Public Safety Operations and Training Center near Williams Drive. This phase will complete the remaining corridor improvements by extending the four-lane divided roadway, a new bridge, sidewalks, storm drainage, illumination, and associated infrastructure to provide a continuous transportation corridor. The project is currently under review by the U.S. Army Corps of

Engineers as part of the federal permitting process and is expected to bid in early 2027.

STAFF RECOMMENDATIONS:
Staff and the design engineer recommend that a contract be awarded to Jordan Foster Construction, LLC of Pflugerville, Texas for the construction of the D B Wood Road Phase II Part A project in the amount of $5,800,000.00.

FINANCIAL IMPACT:
Funding for this project is generated from the 2021 Voter Approved Road Bond Program and is available in the FY26 Transportation CIP Fund – PRJ000258

Georgetown, TX 78627

RE: ***D B Wood Road Phase 2A***
Bid No. 202654
Contract No. 26-0294-CIP
Bid Award Recommendation

Dear Mr. Herzog,

Kimley-Horn has reviewed the bid documents submitted by the following contractors:

- AWP Safety
- Capital Excavation Company
- Chasco Construction Ltd LLP
- Dan Williams Company
- JL Gray Construction
- Joe Bland Construction
- Jordan Foster Construction
- Liberty Civil Construction
- Patin Construction
- Smith Contracting
- Texas Materials Group, Inc.

Based on the bids received, all contractors other than AWP Safety acknowledged all addendums, have the appropriate bid bonds and appear to have appropriate experience.

Attached bid tabulation summarizes the bids submitted by the contractors. We have also included a table on the next sheet that shows variance from the Engineer's Estimate.

Kimley-Horn recommends that the City of Georgetown accept the bids and award the contract to Jordan Foster Construction LLC for $5,800,000.

Contractor	Total Bid	Variance From Engineer's Estimate	
AWP Safety	Response Incomplete		
Capital Excavation Company	$ 6,100,204.45	$ (1,289,974.50)	-17%
Chasco Construction Ltd LLP	$ 6,420,477.00	$ (969,701.95)	-13%
Dan Williams Company	$ 5,834,808.85	$ (1,555,370.10)	-21%
JL Gray Construction	$ 6,006,672.60	$ (1,383,506.35)	-19%
Joe Bland Construction	$ 6,035,459.00	$ (1,354,719.95)	-18%
Jordan Foster Construction	$ 5,800,000.00	$ (1,590,178.95)	-22%
Liberty Civil Construction	$ 6,019,796.00	$ (1,370,382.95)	-19%
Patin Construction	$ 6,349,670.50	$ (1,040,508.45)	-14%
Smith Contracting	$ 5,820,584.70	$ (1,569,594.25)	-21%
Texas Materials Group, Inc.	$ 6,928,167.59	$ (462,011.36)	-6%

Please contact me at (512) 418-4538 or austin.helton@kimley-horn.com should you have any questions.

Sincerely,

Austin Helton P.E.
Kimley-Horn

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Construction Contract with Bell Contractors for Saddle Creek Lift Station Phase II Contract #26-0246-CIP

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to approve a contract to Bell Contractors Inc, of Belton, TX for the construction of the Saddle Creek Lift Station Phase Two Improvements in the amount of $606,635.21 -- Wesley Wright P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
The Saddle Creek Lift Station, located at 3922 SH 130, serves a growing wastewater service area south of East State Highway 29 along the SH 130 corridor. As development continues within the service area, additional pumping capacity is needed to accommodate increasing wastewater flows.

This project includes upsizing the impellers on the two existing pumps, installing a third pump, and making associated improvements to piping, valves, variable frequency drives (VFDs), electrical systems, instrumentation, and flow metering. A wastewater flow analysis completed during design confirmed that the existing pumps can be retained with larger impellers and VFDs to meet projected demands, while the existing dual force main has sufficient capacity to convey the increased flows.

The addition of a third pump will provide the capacity needed for future peak flow conditions while improving system reliability and redundancy. These improvements will support continued growth along the SH 130 corridor and ensure reliable wastewater service for existing and future customers.

The Saddle Creek Lift Station Phase Two project advertised public bids on May 24th and May 31st, in the Williamson County Sun. On June 16th we received (8) competitive bids. The lowest qualified bidder for this project was Bell Contractors Inc, of Belton, TX in the amount of $606,635.21, after reviewing the required qualifications and experience needed for the project, we recommend awarding the contract to Bell Contractors, Inc.

Staff Recommendation:
City staff recommend the approval of the construction contract to Bell Contractors, Inc of Belton, TX in the amount of $606,635.21.

Board Recommendation:
This item was unanimously approved at the July 9, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds for this expenditure are available in the FY26 wastewater CIP budget – PRJ000753.

Re: Recommendation of Award
Saddle Creek Lift Station Improvements – Phase II

Dear Mr. Herzog,

On Tuesday, June 16, 2026, bids were received for the above-referenced project. Eight (8) contractors submitted bids ranging from a total bid of $606,635.21 to a total bid of $875,691.00. A copy of the bid summary has been included for your reference.

The as-read results indicated that the apparent low bidder was Bell Contractors Inc., with a Bid Total of $606,653.21. As part of the Engineer's due diligence, reference checks were performed for prior similar work listed in the bidder's project history. Feedback received for listed reference projects identified no project performance concerns.

We also requested information regarding the subcontractors selected for the electrical work, a major component of the project. The electrical subcontractor is MultiVolt Electric, Inc. Feedback from the references provided indicated the subcontractor has experience completing similar types of projects.

Based on the information reviewed, Pape-Dawson recommends the City of Georgetown, award the above-referenced construction contract to Bell Contractors Inc., in the amount of $606,635.21, which includes the total bid, subject to Owner review and concurrence.

Should you have any questions, please feel free to contact me.

Respectfully,

Chris Nennig, P.E.
Project Engineer
Pape-Dawson Consulting Engineers, LLC

NOTES:

1. CONTRACTOR SHALL NOTIFY CITY STAFF PRIOR TO LIFT STATION START UP.
2. CITY STAFF SHALL ENSURE VALVES ARE OPEN ON BOTH FORCE MAINS. ALL VALVE OPENING AND CLOSING BY CITY STAFF.
3. ANY WORK THAT WILL REQUIRE A SHUT DOWN OR BYPASS PUMPING SHALL BE REQUIRED TO FOLLOW CITY OF GEORGETOWN CHECKLISTS. CONTRACTOR TO COORDINATE WITH THE CITY PRIOR TO ANY SHUT DOWN OR BYPASS PUMPING OPERATIONS.
4. CONTRACTOR TO PROVIDE 4'X5' PRE-CAST CONCRETE METER VAULT. SUBMITTAL SHALL INCLUDE STRUCTURAL DESIGN SIGNED AND SEALED BY A REGISTERED PROFESSIONAL ENGINEER LICENSED IN THE STATE OF TEXAS.
5. FLOW METER SHALL BE KATFLOW 150 ADVANCED CLAMP-ON ULTRASONIC FLOW METER BY KATRONIC TECHNOLOGIES, LTD. OR ENGINEER APPROVED EQUAL.
6. FLOW METER SHALL MEET MINIMUM STRAIGHT PIPE RUN AS DETERMINED BY THE MANUFACTURER.
7. FLOW METER SHALL BE INSTALLED BASED ON MANUFACTURERS RECOMMENDATIONS.
8. ELECTRICAL DESIGN FOR METER INSTALLATION SHALL BE PROVIDED BY ENGINEER PRIOR TO CONSTRUCTION.
9. EXACT DIMENSIONS FOR METER VAULT TO BE CONFIRMED PRIOR TO CONSTRUCTION. VAULT SHALL BE INSTALLED IN SECTIONS TO PROVIDE 1' MINIMUM VERTICAL SEPARATION FROM THE FLOOR OF THE VAULT TO THE BOTTOM OF THE EXISTING FORCE MAIN.

SEQUENCE OF PUMP REPLACEMENT:

1. INSTALL ALL ELECTRICAL POWER, CONTROLS, AND INSTRUMENTATION REQUIRED FOR PROP. PHASE 2 PUMP (PUMP #3), INCLUDING THE VARIABLE FREQUENCY DRIVE (VFD).
2. INSTALL PUMP #3. ACTIVATE AND VERIFY PROPER OPERATION.
3. REMOVE PUMP #2 FROM SERVICE. MAINTAIN OPERATION OF PUMP #1 & #3.
4. REPLACE THE IMPELLER ON PUMP #2.
5. INSTALL THE VFD AND ASSOCIATED CONTROLS.
6. REINSTALL PUMP #2, PLACE INTO SERVICE, AND VERIFY PROPER OPERATION.
7. REMOVE PUMP #1 FROM SERVICE.
8. REPLACE THE IMPELLER ON PUMP #1.
9. INSTALL THE VFD AND ASSOCIATED CONTROLS.
10. REINSTALL PUMP #1, ACTIVATE, AND VERIFY PROPER OPERATION.
11. CONFIRM ALL THREE PUMPS OPERATE CORRECTLY. VERIFY VFD SEQUENCING, ALARMS, AND LEVEL CONTROLS.
12. INSTALL METER VAULT AND METER.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Halff Engineering Task Order HAI-26-002 for Stormwater Small Projects FY26

SUGGESTED ACTION:
Consideration and possible action to approve a task order with Halff Engineering of Austin, Texas for professional design services associated with the Pine Street, Myrtle Street, and Hogg Street Stormwater Drainage Improvement Projects in the amount of $295,070.00 – Wesley Wright, PE, Systems Engineering Director and David Herzog CIP Manager

ITEM SUMMARY:
This item requests approval of a Professional Services Agreement with Halff Associates, Inc. for engineering design services related to stormwater drainage improvements at the following locations:

- 907 N. Myrtle Street – curb and storm drain improvements
- 1401 Pine Street – inlet, curb, and drainage flume improvements
- South Pine Street and Hogg Street – drainage flume improvements

These projects were identified in the City's Stormwater Strategy Plan and Drainage Capital Improvement Program as priority drainage improvements intended to address localized drainage concerns, improve stormwater conveyance, and enhance public infrastructure resiliency.

The scope of services includes project management, surveying, environmental and permitting services, preparation of a Water Pollution Abatement Plan (WPAP), geologic and cultural resource assessments, easement preparation, engineering design, bidding assistance, and construction phase support. Design deliverables will include plans, specifications, and the engineers' opinions of probable construction cost (OPCC) for each project location.

The consultant will develop design plans through 60%, 90%, and final design milestones and provide bid-ready construction documents. Services also include support during bidding and construction, preparation of drainage easements where required, and coordination with regulatory agencies for permitting activities associated with the Edwards Aquifer Recharge Zone.

The total agreement amount is $295,070.00, consisting of $222,750.00 in lump-sum design services and $72,320 in hourly not-to-exceed services for construction support, easement preparation, and owner contingency. Design for these projects is anticipated to take seven (7) months from the notice to proceed with the engineer. Once construction begins, it's anticipated to take six (6) months from notice to proceed with the contractor.

Staff Recommendation:

City staff recommend the approval of the task order with Halff Engineering of Austin, Texas in the amount of $295,070.00

FINANCIAL IMPACT:
Financial Impact:

Funds for this expenditure are available in the FY26 Stormwater CIP budget

Pine/Hogg St - PRJ000994

1401 Pine St - PRJ000995

907 N. Myrtle - PRJ000996

TASK ORDER

Task Order No. HAI-26-002, consisting of _____ pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and Halff Associates, Inc. ("Engineer") for Professional Services – Task Order Edition, dated January 24, 2023 ("Agreement"), Owner and Engineer agree as follows:

1. **Specific Project Data**

   A. Title: Small Drainage Projects – Pine St./Myrtle St./Hogg St

   B. Description: The project includes development of a design package associated with Stormwater Projects identified in the recent Stormwater Strategic Plan/Drainage CIP Plan (July 2024). Design packages will be prepared for 907 N Myrtle St – curb and storm drain improvements, 1401 Pine St – inlet, curb, and drainage flume improvements, and S Pine & Hogg St – drainage flume improvements

   C. City of Georgetown Project Number: PRJ000994, PRJ000995, PRJ000996

   D. City of Georgetown General Ledger Account No.: _____

   E. City of Georgetown Purchase Order No.: _____

   F. Master Services Agreement, Contract Number: 23-0078-MSA

2. **Services of Engineer**

   Perform field surveys, water quality-related analyses, preliminary and final designs, quality control, bidding services, construction phase services and legal description/easement preparation

3. **Owner's Responsibilities**

   Owner shall have those responsibilities set forth in the Agreement subject to the following: *Provide Halff with any as-built/record drawing data or GIS-related data that is pertinent to the project locations. Assist with license agreements in lieu of Temporary Construction Easements.*

4. **Times for Rendering Services**

Phase	Completion Date
Design	May 2027
Construction	October 2027

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition
Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Category of Services		***Compensation Method***	***Lump Sum or Not to Exceed Amount of Compensation for Services***
Basic Services (Project Management, Field Surveys, Water Quality and WPAP Services, Design Phase Services, Quality Control for Design, Bid Phase Services)	*A.*	*Lump Sum*	*$222,750.00*
Construction Phase Services, Legal Descriptions/Easement Preparation, Additional Services	*A.*	*Standard Hourly Rates*	*$72,320.00*

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

6. **Consultants:**

7. **Other Modifications to Agreement:**

[Not applicable]

8. **Attachments:** Exhibit A - Schedule of Engineer's Services

9. **Documents Incorporated By Reference:** The Agreement effective January 24, 2023.

TASK ORDER

Terms and Conditions: Execution of this Task Order by Owner and Engineer shall make it subject to the terms and conditions of the Agreement (as modified above), which Agreement is incorporated by this reference. Engineer is authorized to begin performance upon its receipt of a copy of this Task Order signed by Owner.

The Effective Date of this Task Order is _____, 20_____.

Exhibit A, Schedule of Engineer's Services

CITY OF GEORGETOWN
Stormwater Design Projects – Pine St./Myrtle St./Hogg St.
June 26, 2026

SCOPE OF WORK

The scope of work includes development of a design package associated with Stormwater Drainage projects identified in the recent Stormwater Strategy Plan/Drainage CIP Plan (July 2024). Goals for this project include:

- Design Packages for the following locations:
  - 907 N Myrtle St. – Curb and storm drain improvements
  - 1401 Pine St. – Inlet, curb, and drainage flume improvements
  - S Pine & Hogg St. – Drainage flume improvements

TASK 1: PROJECT MANAGEMENT AND COORDINATION

Task 1 efforts anticipated to be conducted for 11 months, through Bid Phase Services. Halff project management activities shall include task leadership and direction, telephone and written communication, project status reports, project progress meetings (in-person and virtual), project invoicing, and personnel and data management among other general project management activities. Specific meetings beyond staff management coordination and regular communication include the following:

a. **Project Meetings**

   a. Organize and attend one (1) project kickoff meeting with City staff. The meeting will be coordinated by the Halff Project Manager and is intended to discuss key items such as project schedule, budget, and any specific directives. Halff will provide a preliminary schedule of tasks.

   b. Organize and attend up to six (6) progress and/or project review meetings over the course of the project. Draft meeting minutes shall be submitted to City staff within three (3) working days after each meeting and finalized within five (5) working days.

b. **Administration**

   i. General project administration and management of internal staff. Monthly project status reports shall be provided to the City with the monthly invoice. Progress may include notes regarding work completed in the preceding billing cycle, work expected to be completed in the next cycle, and any outstanding questions or issues for discussion.

TASK 2: FIELD SURVEY SERVICES

a. Partial Boundary Verification Survey

Halff Associates will perform a partial boundary verification survey of the subject tract(s), which will be utilized in preparation of surveying and engineering deliverables for the project, including but not limited to alignment of record tracts with respect to collected topographic data and easement and exhibit preparation.

The survey will be performed in substantial accordance with TSPS Category 1-B, Condition II requirements. This does not include the preparation of a separate survey map suitable for title insurance purposes or for addressing Schedule B items.

- The property corners of the subject tract will be recovered and flagged.
- Halff Associates will procure a title commitment for the following parcels (estimated 3-4 parcels, this number is subject to change based on location of easements and whether they are on private property or not):
  Site 1- R319954- City of Georgetown
  Site 2- None estimated. Located within City ROW.
  Site 3- None estimated. Located within City ROW.
  Site 4- R404215- Andres & Mary Calixtro
  R372028- Hong Xiang
- Partial boundary verifications shall be performed on Sites 1-4.
- Locate sufficient monumentation to orient records boundary lines on the subject sites.
- Include property ownership and boundary information.

b. Topographic and Tree Survey

Halff Associates will perform a topographic and visible improvement survey of the subject areas. The following specific services will be provided:

- Conventional survey methods may be used for data collection.
- Establish a minimum of two control points at each site.
- Obtain break lines and spot elevations sufficient for 1-foot contour intervals.
- Obtain line and grade on handicap ramps, crosswalks, and sidewalks.
- Locate above ground visible improvements for inlet structures and drainage.
- Provide spot elevations at center point of manhole covers and access vaults
- Locate visible above-ground utility locations, either found by our surveyors or located for us by utility companies and/or other agencies.
- Only trees, measured at breast height, shall be located within the site area in accordance with City of Georgetown Unified Development Code (all trees 12 inches and above).

- Sag line elevation shall be collected for the purpose of this scope.
- Process field collected data for field survey.
- Perform quality control for survey requirements.
- Prepare base map illustrating data collected above.
- Extract spot elevations and break lines into DTM.
- Extract and prepare triangulated irregular network into DTM.
- Load 1-foot contour information.
- Provide a Civil 3D CAD file.

c. Assumptions and Conclusions

Services performed outside the above scope of services will be provided on an hourly basis in accordance with our standard hourly rates. In order to furnish a lump sum fee, the following assumptions were made:

- Boundary resolution of each site shall not be performed. Limited boundary monuments shall be located as needed to align record descriptions and/or plats to the subject site.
- Sufficient boundary monumentation needed to control the survey is recoverable, and in good condition.
- There are no encroachments, overlaps, gores or other issues affecting the boundary lines.
- There are no complex issues involving the survey contained in the title commitments, which have not been provided to us as of this date.
- Halff will perform research of adequate thoroughness to support the determination of the location of intended boundaries of the land parcel surveyed and will obtain deeds of record for adjoining properties based upon current tax maps.
- Chainsaw use may be necessary for site-line clearing, and the client authorizes cutting of underbrush and small trees for this purpose.
- Halff Associates shall obtain right(s)-of-entry (ROE) (if necessary) for access on subject and adjoining properties to gather topographic and/or boundary information required for this project.
- This proposal does not include research efforts normally performed by a title company
- Research outside the original scope of this proposal; using a different surveyor's certificate; or changes made to the survey after completion (if so required), will be charged as Additional Services at our standard hourly rates.
- Return trips to reset damaged control points or property corners.
- Establishing new easements, rights of way, etc. after the initial completion of survey work performed as described herein.
- ALTA/NSPS survey or any other type of survey aside from the one mentioned above.

TASK 3: WATER QUALITY AND WPAP SERVICES

a. Water Quality Evaluation

i. Halff will document the approach as to the permitting requirements for improvements located within the Edwards Aquifer Recharge Zone. A Water Pollution Abatement Plan (WPAP) for permitting would be anticipated to be submitted between the 60% and 90% design submittals.
ii. Provide recommendations on permanent water quality features to incorporate with project design components. These features may include vegetative filter strips to account for the full treatment percentage required for the Edwards Aquifer Recharge Zone.
iii. Provide a list of needed information to complete a WPAP for TCEQ permitting
iv. Upon completion of design plans and easement acquisition, if needed, submit WPAP to TCEQ for review and permitting. Address any comments from TCEQ to finalize the WPAP and associated permitting.
v. An application fee of up to $3,000 (Non-Residential, less than 1 acre) is included with this scope of work.

b. TCEQ Geologic Assessment (GA)

i. The project areas are located within the Recharge Zone of the Edwards Aquifer; therefore, Zara will conduct a Geologic Assessment (GA) in accordance with Texas Commission on Environmental Quality (TCEQ) guidance and 30 Texas Administrative Code (TAC) § 213.5 regulations. Initial work for the GA will include review of existing background data from available geological reports and maps to identify known sensitive geologic features in the area. Fieldwork for the GA will include reconnaissance and walking ground surveys, as defined by Veni and Reddell (2002), Barrett (1999) and TCEQ (2004). Field surveys will be overseen by a State of Texas Licensed Professional Geoscientist during a single deployment. Surveyors will walk in a formation not more than 15 meters (50 feet) apart searching for depressions (both karstic and non-karstic) and other geologic features using handheld GPS receivers, and checked with field maps based on digital imagery. All identified features will be documented and evaluated for hydrologic sensitivity during the field survey.

The deliverable for this task will be a technical report that includes all required components of a GA per 30 TAC § 213.5 for the three project areas. The report shall include geologic map(s) at site-plan scale illustrating the outcrop of surface geologic units; locations and descriptions of all geologic and manmade features found during the survey, specifically identifying karst features and manmade features in bedrock; a stratigraphic column of regional geology; a narrative description of soil units and a soil profile; and a narrative assessment of site-specific geology. The draft GA report will be electronically submitted to the Client. One round of Client revisions will be addressed in the final report, as applicable.

The final report will be provided to the Client electronically for submission to the TCEQ as part of the Water Pollution Abatement Plan (WPAP) application.

c. Karst Feature Survey Report

i. 907 N Myrtle Street is located within either Karst Zone 1 or the 500-foot verification zone of Karst Zone 1; therefore, Zara will prepare a Karst Habitat Technical Report (KHTR) for this project area. All karst features identified during the GA will be assessed for the potential to provide suitable karst invertebrate habitat in accordance with the USFWS Section 10(a)(1)(A) Scientific Permit Requirements for Conducting Presence/Absence Surveys for Endangered Karst Invertebrate Species (Protocols; USFWS 2024). Review of available background data and fieldwork for the KHTR will be conducted concurrently with the GA, using the same methodology and personnel, except for habitat assessments, which will be completed in accordance with the Protocols.

The deliverable for this task will be a technical report that includes a summary of data obtained during the desktop review, description of the methods, and the results of the field survey. All identified karst features will be documented and described with sketches and photographs and initial habitat determinations will be provided. The draft KHTR will be electronically submitted to the Client and one round of Client revisions will be addressed in the final report, as applicable. The final report will be provided to the Client electronically. In accordance with Zara's 10(a)(1)(A) permit requirements, the final report will also be provided to USFWS for review during annual reporting and following submission to the Client if karst feature habitat evaluations result in "non-habitat" determinations so that USFWS has an opportunity to dispute the determination if they do not concur (USFWS 2024).

d. Cultural Resources Assessment

i. Because the project is being developed by the City of Georgetown (City), a political sub-entity of the State of Texas, it falls under purview of the Antiquities Code of Texas (Title 9, Chapter 191 of the Texas Natural Resources Code), which requires that the Texas Historical Commission (THC) review actions that have the potential to impact archeological historic properties within the public domain. In addition, the project may require authorization pursuant to Section 404 of the Clean Water Act, which is considered a federal action requiring compliance with Section 106 of the National Historic Preservation Act (Section 106). To enable the City to comply with Section 106 and the Antiquities Code of Texas (ACT), Halff will perform the services described below:

Halff will consult the Texas Archeological Sites Atlas, historic maps, and other pertinent background information to determine whether any archeological historic properties listed on or eligible for listing on the National Register of Historic Places

(NRHP) or State Antiquities Landmarks (SALs) are documented within the project area or adjacent properties, and the extent to which the project area has undergone prior cultural resources investigations. The results of the background review, including potential effects to cultural resources and recommendations for additional survey efforts, if warranted, will be incorporated in a Cultural Resources Background Review report (CBR). If applicable for the proposed project areas, Halff will submit the CBR to the THC for agreement that no further work (i.e., surveys) is warranted.

ii. Assumptions and Exclusions

- This scope excludes a historical resources survey and architectural assessment.
- This scope excludes formal NRHP/SAL eligibility evaluations of archeological historic properties documented in the project area.
- This scope excludes preparation of an Antiquities Permit Application and archeological survey scope of work, an archeological survey, including shovel testing and mechanical trenching, and an archeological survey report.
- This scope excludes the documentation or removal of human burials encountered during inadvertent discovery during construction.
- This scope does not include presence/absence surveys for threatened and endangered species, formal/informal consultation with the U.S. Fish and Wildlife Service, or coordination with the Texas Parks and Wildlife Department.
- This scope assumes that the proposed project would avoid temporary and/or permanent impacts below the ordinary high water mark of known water features (e.g., West Fork Smith Branch).
- This scope does not include delineation efforts to determine the existence of water features that may be regulated as waters of the U.S., including wetlands by the U.S. Army Corps of Engineers (USACE) under Section 404 of the Clean Water Act.
- This scope does not include USACE Section 404 permitting efforts or coordination with USACE.
- The Engineer will provide a project description and respond to any requests for additional information or materials within three business days of receiving such a request. This includes the official Regulated Entity Name that will be used for TCEQ submittal as well as the engineering site plan scale for each project area. Requested modifications to such information following completion of deliverables may necessitate a supplemental agreement for additional services.
- The Client will provide all pertinent and accurate information to complete all services, as required by relevant regulations, within one week of NTP.
- The Client will provide accurate and functional Google Earth or ArcGIS compatible files depicting Project area boundaries and provide all available survey information indicating the location of wells, subsurface utilities, septic systems, property boundaries, easements, and/or other pertinent information to complete fieldwork and reporting.
- The Engineer will negotiate right-of-entry and access to each Project area and make sure that Project area boundaries are clearly marked.

- No additional training or certification will be required by the Client prior to completion of fieldwork or other components of the described work.
- This scope of work assumes minor excavation of potential features (i.e., using hand tools). Additional effort beyond 30 minutes of hand excavation, if required or recommended, may necessitate a supplemental agreement for additional services.
- Hydrological sensitivity and habitat suitability determinations will be provided for all fully evaluated features; however, recommendations for additional work may be provided for features that could not be fully accessed during the initial survey. Such work may require a supplemental agreement for additional services.
- This scope of work does not include compliance with City of Georgetown United Development Code Section 11.07. - Water Quality Regulations for Property Located Over the Edwards Aquifer Recharge Zone [Ord. No. 2015-14, § 3 (Exh. A), 2-24-2015] as part of the GA. A supplemental agreement for additional services to complete compliance documentation related to spring identification and protection under Section 11.07 may be required, should springs be identified within the project areas.
- Habitat determinations provided within the KHTR prepared by Zara will be based on available data, observations, and professional judgment; however, Zara makes no guarantee that the USFWS will concur with or accept these determinations. If the USFWS requests additional information, re-evaluation, or other coordination, such work may be subject to a supplemental agreement for additional services.
- No additional agency coordination or permitting services are included, other than those already described.

TASK 4: DESIGN PHASE SERVICES

Halff will prepare preliminary and final plans, details, specifications and cost estimates for the Stormwater Design Projects package, ready for bidding and construction.

The sub-tasks to be conducted include the following:

a. Design Plans and Details
   i. Prepare cover sheet, sheet index, general notes, overall project layout sheet, individual sign location sheets, and appropriate City and standard details
   ii. The overall project layout sheet and individual project sheets will be supplemented using the latest aerial imagery as the background for the sheet.
   iii. Design plan sheets will be 22x34 (scalable to 11x17), unless otherwise noted by the City
   iv. Design Plans shall be prepared for 60%, 90% and Final submittals, including, as applicable:
      - Cover Sheet, Index, Project Layout, City Details and General Notes
      - Demolition Plan Sheets
      - Grading and Drainage Plan Sheets

- Stormwater Drainage Pipe Plan and Profile sheets
- Low wall layout and details (non-structural design)
- Traffic Control Plans
- Erosion and Sedimentation Control Plans
- Typical Sections
- Additional plan sheets needed to convey project design to contractor

b. Bid Manual and Project Specifications
   i. Halff will prepare the bid manual (with front end documents provided by the city), bid for, and technical specifications needed for the Small Design Projects design package at 90% and Final submittals
c. Opinion of Probable Construction Costs (OPCC)
   i. Quantify items of work and prepare cost estimate at 60%, 90% and Final submittals

Deliverables for Small Project Design Package

a. 60%, 90% and 100% Final plans on 11x17 sheets, bid manual with technical specification, and updated OPCC
b. Final bid ready plans and bid manual with comments addressed, CAD files, and updated OPCC Preliminary and Final Sign Package – Plans, specifications, and any other related documentation.

TASK 5: QUALITY ASSURANCE/QUALITY CONTROL FOR DESIGN

Each task will be subjected to internal QA/QC by an independent senior professional at Halff (typically by another office or team). Associated QC documentation will be provided upon request. Specific tasks relating to the QA/QC process include the following:

QA/QC Reviews

a. The QA/QC program will include a multi-level approach to ensure that senior professionals review, comment, and approve the completed work. Quality control checklists shall be created and will include milestone reviews that describe the items to be reviewed and include documentation of the comments by the reviewer and responses from the design engineer.
b. Halff shall retain all work products generated and information gathered and used during the project including, but not limited to, base data and intermediate work products.

Deliverables

a. Deliverables to the City will be accompanied by a certification that they have been reviewed for in accordance with Halff's Quality Assurance and Quality Control Program.

TASK 6: BID PHASE SERVICES

Halff will provide support for project bidding. The scope assumes the city purchasing department will advertise the invitation to bid (ITB) and host bid documents for bidders to view and download.

a. **Bid Phase**

i. Prepare advertisement notice for city purchasing to use in local paper or other bid notices, including the development of a bid schedule for use by city purchasing.
ii. Prepare and lead a pre-bid meeting to go over the scope of the project and services anticipated to be provided by the contractor and log questions received.
iii. Respond to bidder questions and issue addendum, as needed during the advertisement.
iv. Attend bid opening, confirm bid bonds are included and any addenda are acknowledged.
v. Prepare bid tabulation, analyze bids for errors, prepare an exhibit summarizing the bid results, and provide a letter of recommendation for award to the lowest responsive bidder. The letter of recommendation will include recommendations on materials testing needs for the project.
vi. Prepare conformed documents (plans and specifications) for use in construction

Deliverables

a. Bid tabulation and recommendation for award
b. Responses to bidder question and contractor RFIs
c. Conformed plans and specifications for use in construction

TASK 7: CONSTRUCTION PHASE SERVICES

Halff will provide support for construction administration. The scope excludes full-time on-site inspection (to be done by city staff/inspectors) and Construction Materials Testing, to be provided by a third-party hired directly by the city, if needed. Task 7 is anticipated to last six (6) months.

a. **Construction Administration Phase**

i. Prepare and assist in leading pre-construction meeting.
ii. Prepare and lead up to six (6) monthly progress meetings during construction with the contractor, City, and engineer representatives.
iii. Review and respond to contractor requests for additional information (RFI) during construction and keep a log of RFIs and submittals.
iv. Review the Contractor's submittals such as Shop Drawings, Product Data and samples and take appropriate action (review, take exceptions, reject), for conformance with the design concept of the Project and compliance with the

information given in the Contract Documents. Assume a total of six (6) submittal reviews. Reviews and approvals will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs which remain the responsibility of the contractor.

v. Review monthly pay applications from contractor and visit site monthly to observe progress.
vi. Conduct a walk-through at substantial completion with inspector and contractor to document any deficiencies, provide a punch list of items to complete prior to release of final payment. Halff environmental personnel will also attend this walk-through to document any compliance issues or deficiencies related to any environmental permits. Punch list items may also include identification of areas in need of restoration with any issued environmental permits.
vii. Provide record drawings with any documented field changes or redlines provided by the contractor or city inspector.

Deliverables

a. Reviews of contractor material submittals
b. Punchlist from walk through
c. Record drawings in PDF and CAD formats

TASK 8: LEGAL DESCRIPTIONS/EASEMENT PREPARATION

Halff will prepare metes and bounds descriptions and accompanying parcel exhibits for:

- **Site 1 – N Myrtle St and N Austin Ave:** two (2) Permanent Drainage Easement
- **Site 2 – Pine St and 14th St:** one (1) Permanent Drainage Easement
- **Site 3 – Hogg St and 20th St:** No easement expected for this location
- **Site 4 – Pine St and Coffee St:** three (3) Permanent Drainage Easement

The descriptions will be prepared in a manner acceptable for easement conveyance. Setting corner monuments for the parcels is not included in this proposal. Individual easement exhibit sets shall be in pdf format, and shall be sealed, signed and dated by a Registered Professional Land Surveyor.

Additional easements can be created on an as needed basis and shall be subject to Halff's 2026 rate schedule.

Individual easement exhibit sets shall be in pdf format, and shall be sealed, signed and dated by a Registered Professional Land Surveyor.

Halff shall obtain right(s)-of-entry (ROE) necessary for access on subject and adjoining properties for Gabriel View and Haven Lane projects to gather boundary information required for this project.

For Temporary Construction Easements, it is anticipated that the City of Georgetown will utilize a license agreement. Additional easements can be created on an as needed basis and shall be subject to the rate schedule included in Attachment A.

EXCLUSIONS for Small Project Design Package

a. Geotechnical investigations
b. Utility locating
c. Sub-surface utility engineering
d. Environmental or Cultural Resources Permitting
e. Traffic Analysis
f. Temporary Construction Easements

FEE SUMMARY

The fees for Task 1 through 6, established above, shall be considered **Lump Sum** fees unless otherwise noted. Tasks 7 and 8 shall be considered **hourly, not-to-exceed**, based on the hourly billing rate schedule included in Attachment A.

Our services will be invoiced monthly based on the percentage of work completed. Costs incurred will be carefully monitored during the progress of this project and the fees will not be exceeded without prior approval from the City.

For any additional services that are required, the billing hourly billing rate schedule in Attachment A will be utilized.

Stormwater Quick Wins – Small Project Design

Task 1: Project Management and Coordination	$ 28,292
Task 2: Field Survey Services	$ 45,300
Task 3: Water Quality and WPAP Services	$ 35,652
Task 4: Design Phase Services	$ 85,374
Task 5: Quality Assurance / Quality Control for Design	$ 10,236
Task 6: Bid Phase Services	$ 17,896
Subtotal Lump Sum Fee	$222,750
Task 7: Construction Phase Services	$ 39,320
Task 8: Legal Descriptions/Easement Preparation	$ 18,000
OWNERS ALLOWANCE	$ 15,000
Subtotal Hourly NTE Fee	$72,320
FEE SUMMARY TOTAL	**$ 295,070**

halff

PROJECT SCHEDULE

Notice to Proceed & Project Kickoff

Task 1: Project Management and Coordination ..... 11 months from NTP

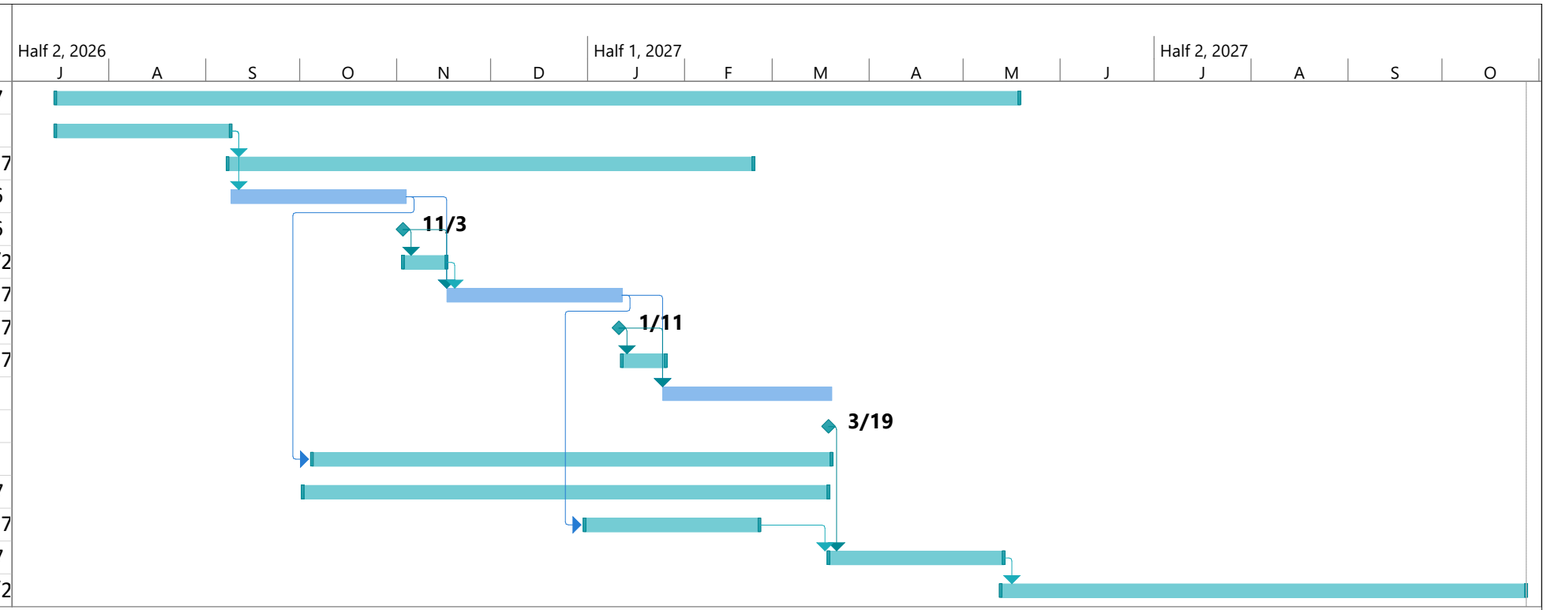
Task 2: Survey Services ..... 2 months from NTP

Task 3: Water Quality and WPAP Services ..... Perform During Task 4

Task 4: Design Phase Services..... 7 months from NTP

Task 5: Quality Assurance / Quality Control for Design ..... Perform During Task 4

Task 6: Bid Phase Services ..... After completion of Task 4



Task 7: Construction Phase Services..... After completion of Task 6 and NTP

Task 8: Legal Descriptions/Easement Preparation ..... As Needed, Prior to Task 6

907 N MYRTLE STREET

PROJECT DESCRIPTION:

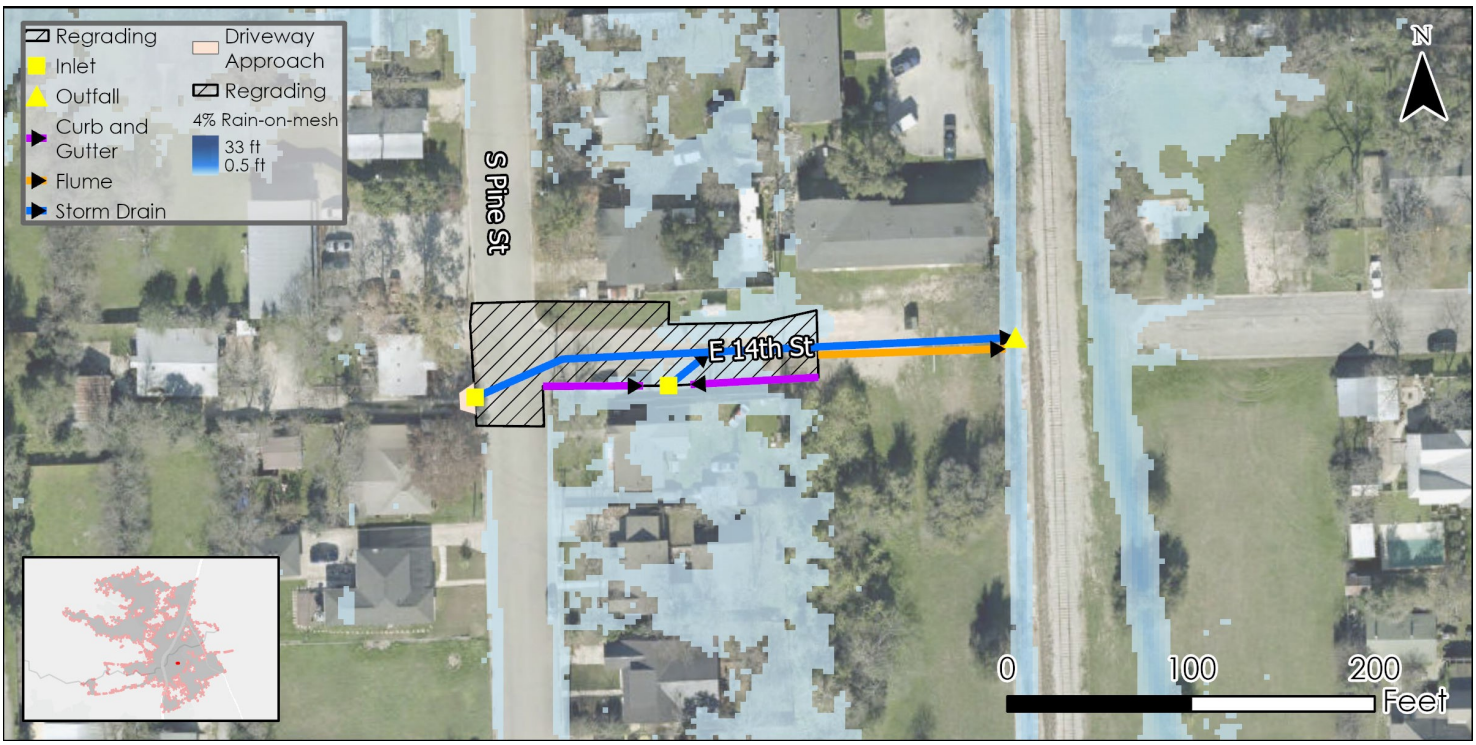
907 N Myrtle St experiences significant stormwater runoff issues, particularly at the street corner affecting the parking lot adjacent to the Georgetown Chamber of Commerce and the residence at 907 N Myrtle Street. The proposed drainage solution involves street regrading to improve surface runoff, the installation of trench drains at the parking lot entrance and within the parking lot, the addition of curb & gutter along the north side of N Myrtle Street, new cross drainage and headwalls, re-design of the parking lot to adequately convey stormwater, and downstream ditch and swale improvements to address erosive conditions.

BENEFITS

- Improved Drainage Efficiency
- Reduces Residential Flooding
- Improved parking lot drainage
- Improved erosion protection along downstream swale

CHALLENGES

- Construction disruptions to local traffic
- Public Coordination
- Inability to use parking lot during construction
- Reduced off-street parking capacity at N Myrtle near N Austin Ave



QUICK FACTS:

- Residents Benefited from improved drainage infrastructure
- Georgetown Chamber of Commerce parking lot improvements
- 190 Linear feet of storm drain

PROJECT COST ESTIMATE (2024):

Storm Improvements:	$ 115 K
Road Improvements:	$ 160 K
Design Costs:	$ 55 K
Other Costs:	$ 200 K
Project Total:	$ 530 K

1401 PINE STREET

PROJECT DESCRIPTION:

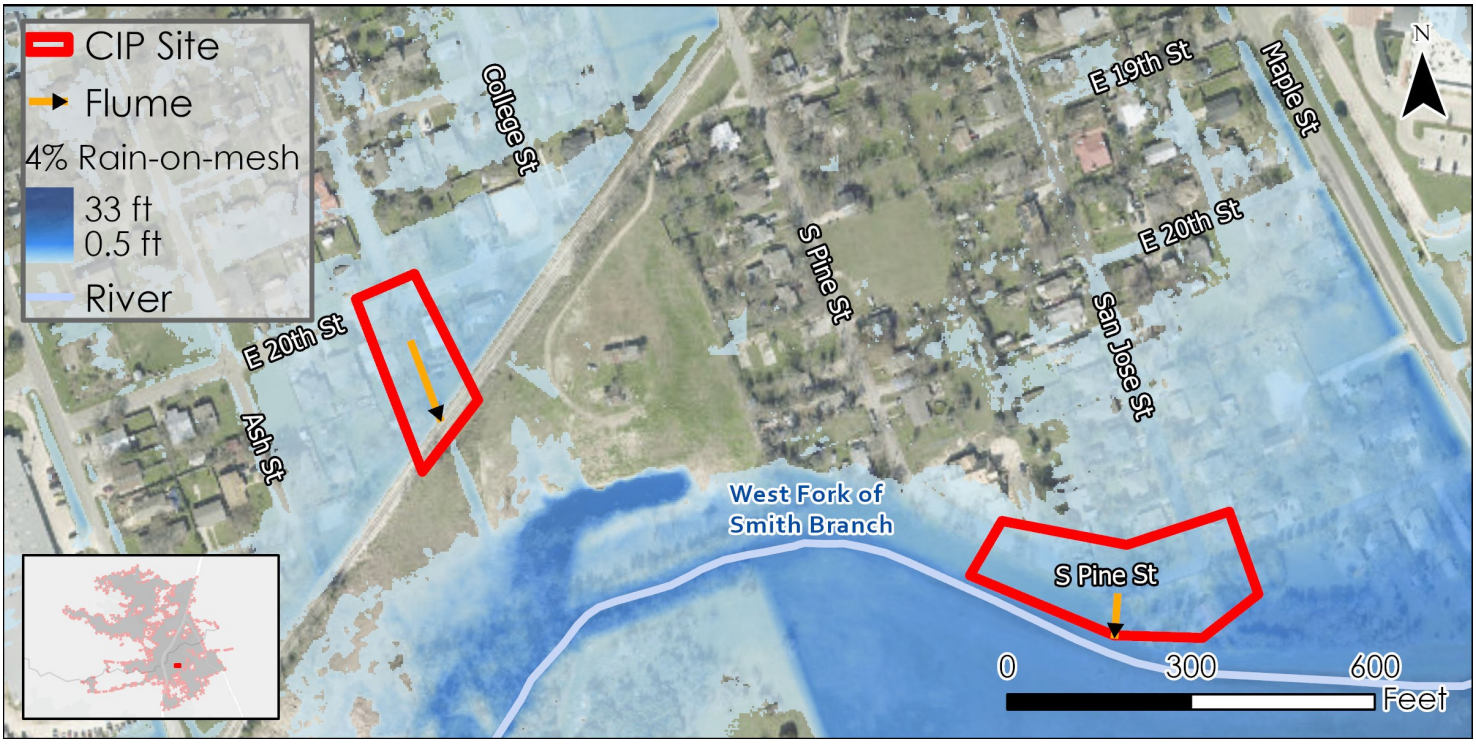
1401 Pine Street faces persistent flooding challenges, even during minor storm events. To address these drainage issues, the proposed drainage improvements in this area include regrading along NW 14th Street, installing a curb & gutter along the south side of NW 14th Street, installing an inlet and storm drainage pipe to the concrete-lined channel adjacent to the railroad tracks, and a flume behind the curb to adequately direct flows towards the inlet. Across Pine Street, an existing gravel driveway approach will be replaced with a concrete driveway approach and a trench drain to capture stormwater on the west side of Pine Street, to be conveyed back to the east to connect to the new storm drainage line.

BENEFITS

- Reduced Residential Flooding
- Improved drainage efficiency
- Addresses standing water along roadways in area
- Safer road conditions

CHALLENGES

- Property owner coordination
- Traffic disruption during construction
- Connection of storm drainage system to existing concrete-lined channel



QUICK FACTS:

- Properties and roadway benefited
- 330 Feet of Storm Drain
- 8400 Square Feet of Street Regrading

PROJECT COST ESTIMATE (2024):

Storm Improvements:	$ 75 K
Road Improvements:	$ 55 K
Design Costs:	$ 25 K
Other Costs:	$ 95 K
Project Total:	$ 250 K

PINE STREET & HOGG STREET

PROJECT DESCRIPTION:

(1) Hogg Street experiences flooding due to stormwater accumulation at the street's southern end, as the drainage is disconnected from the downstream culvert at the railroad tracks. Recommendations for drainage improvements include minor street regrading, defining a drainage path to the railroad culvert, and installing a concrete flume that extends from the end of the street to the culvert. (2) Pine Street frequently floods during minor storm events, along the West Fork of Smith Branch resulting in build-up of stormwater within the street between Coffee St and San Jose St. The standing water condition is attributed to lack of adequate grades to drain the street. Recommendations for drainage improvements include regrading the street in the affected area, inclusion of a sawtooth curb and flume along the south curb line of Pine Street, and a flume that would remove stormwater from the street and convey it to the West Fork of Smith Branch channel.

BENEFITS

- Reduced Street Flooding
- Improved traffic safety
- Addresses standing water along roadways in area
- Safer road conditions

CHALLENGES

- Traffic disruption during construction
- Maintenance of sawtooth curb/flume area of Pine Street

QUICK FACTS:

- New flume at Hogg Street
- Street re-grading on Pine Street
- New sawtooth curb and flumes at Pine Street

PROJECT COST ESTIMATE (2024):

Pine Street:	$ 100 K
Hogg Street:	$ 100 K
Project Total:	$ 200 K

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Task Order KPA-26-010 with Kasberg, Patrick and Associates, LP (KPA) for Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning project

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to approve Task Order KPA-26-010 with Kasberg, Patrick and Associates, LP (KPA) for professional engineering services for Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning project in the amount of $1,060,800.00 -- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
The Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning Project was identified in the 2022 Wastewater Master Plan. The project includes the evaluation and design of approximately 6,500 linear feet of 12-inch gravity wastewater line to facilitate the decommissioning and abandonment of the existing Midway Lift Station, located near the Don Hewlett Auto Dealerships south of Page Whitney Parkway, and the Westinghouse Lift Station, located north of Westinghouse Road near the Subaru of Georgetown dealership. The Westinghouse Regional Lift Station just east of Mays Street was originally designed and built to eventually accept this flow and facilitate this effort.

The scope includes evaluating alternative alignments for the proposed gravity wastewater line and preparation of final design for the selected preferred route. By replacing the lift stations with gravity sewer mains, the City will reduce long-term maintenance requirements, improve system reliability, and eliminate future cost associated with aging lift station infrastructure.

In addition, the project includes the decommissioning of the Blue Hole Lift Station, located near Blue Hole Park along the San Gabriel River. Decommissioning activities will include identifying, removing, and delivering salvageable equipment and materials from the existing lift stations to the City, including electrical components, pumps, motors, piping, and other reusable assets.

Professional engineering services include project coordination, data collection, preliminary design for route evaluation, final design, easement documents, TCEQ permitting, bidding services, and construction administration. These services will advance the project from planning through construction while supporting the City's long-term wastewater infrastructure goals. This design is expected to take 12 months, from design kickoff to start of construction.

Staff Recommendation:
Staff recommends approval of Task Order KPA-26-010 with Kasberg, Patrick and Associates, LP (KPA) for professional engineering services for Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning project in the amount of $1,060,800.00.

Board Recommendation:

This item was unanimously approved at the July 9, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds are included in FY26 Wastewater budget - PRJ001034.

TASK ORDER

Task Order No. KPA-26-010, consisting of 12 pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and Kasberg, Patrick and Associates, LP ("Engineer") for Professional Services – Task Order Edition, dated August 23, 2022 ("Agreement"), Owner and Engineer agree as follows:

1. **Specific Project Data**

   A. Title: Westinghouse Gravity Line-Midway & Westinghouse Decommissioning

   B. Description: The Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning project will include evaluating and design approximately 6,500 linear feet of a 12-inch gravity wastewater line that will allow the City to decommission and abandon the existing Midway Lift Station located near the Don Hewlett Auto Dealerships just south of Page Whitney Parkway and the Westinghouse Lift Station located north of Westinghouse Road near the Subaru of Georgetown Dealership. This scope will include evaluation of alternate routes for the proposed wastewater gravity line and final design of the selected preferred route. The scope also includes the decommissioning of the Blue Hole Lift Station located near Blue Hole Park along the San Gabriel River. The lift stations' decommissioning and abandonment portion of the project will identify salvageable elements of the existing lift stations, such as electrical components, pumps and motors, piping, etc....for removal and delivery to the City.

   C. City of Georgetown Project Number: _____

   D. City of Georgetown General Ledger Account No.: _____

   E. City of Georgetown Purchase Order No.: _____

   F. Master Services Agreement, Contract Number: 22-0112-MSA

2. **Services of Engineer**

   See the attached Exhibit A – Scope of Services

3. **Owner's Responsibilities**

   Owner shall have those responsibilities set forth in the Agreement subject to the following: ***City to provide asbuilt/record drawing of City owned facilities located in the proposed project areas.***

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

4. **Times for Rendering Services**

Phase	Completion Date
Final Design	March 1, 2027
Bidding Phase	May 1, 2027
Construction Admin Phase	February 15, 2028

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	*Compensation Method*	*Lump Sum Amount of Compensation for Services*
Basic Services Preliminary Design, Final Design, Bidding, Construction Phase	***Lump Sum***	***$1,060,800.00***

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

6. **Consultants:**

KPA Engineers – Georgetown, Texas
All County Surveying – Temple, Texas
Terracon – Austin, Texas

7. **Other Modifications to Agreement:**

None

8. **Attachments:**

Exhibit A – Scope of Services
Exhibit B – Fee Schedule

9. **Documents Incorporated By Reference:** The Agreement effective August 23, 2023

EXHIBIT A – DETAILED PROJECT SCOPE

WESTINGHOUSE GRAVITY WASTEWATER IMPROVEMENTS &

LIFT STATIONS DECOMMISISONING PROJECT

SERVICES PROVIDED BY ENGINEER

KASBERG, PATRICK & ASSOCIATES, LP

GEORGETOWN, TEXAS

Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning Scope:

The Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning project will include evaluating and design approximately 6,500 linear feet of a 12-inch gravity wastewater line that will allow the City to decommission and abandon the existing Midway Lift Station located near the Don Hewlett Auto Dealerships just south of Page Whitney Parkway and the Westinghouse Lift Station located north of Westinghouse Road near the Subaru of Georgetown Dealership. This scope will include evaluation of alternate routes for the proposed wastewater gravity line and final design of the selected preferred route. The scope also includes the decommissioning of the Blue Hole Lift Station located near Blue Hole Park along the San Gabriel River. The lift stations' decommissioning and abandonment portion of the project will identify salvageable elements of the existing lift stations, such as electrical components, pumps and motors, piping, etc....for removal and delivery to the City.

The professional engineering services include project coordination and data collection, preliminary design for route evaluation, final design, easement documents, TCEQ permitting, bidding services, and construction administration services.

Scope of Services:

The scope of services associated with the Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning Project includes:

I. Project Management/ Coordination

A. Project Management

i. The ENGINEER shall coordinate, conduct and document a Project Kickoff Meeting with City Staff. Meeting will include delivery of

project design schedule for the full scope of the professional services.

ii. The ENGINEER shall attend 30%, 60%, 90% and 100% Project Submittal Meetings with City Staff. The submittal package shall include plans, project schedules, and OPCs for each phase (30%, 60%, 90% and 100%) and specifications and contract book at 90% and 100% submittals. The ENGINEER shall review the submittal package with City Staff and provide written questions and or comments that may arise during the design process and review those with City Staff and provide recommendations, if required.

iii. These ENGINEER shall attend meetings City Staff and Property Owners to review the proposed project alignment. Assume eight (8) meetings shall be required.

iv. The ENGINEER shall provide Contract Management and Coordination. This shall include developing monthly invoices and progress reports, subconsultant coordination, design coordination with the City and design coordination with dry utilities.

v. The ENGINEER shall obtain and review the existing data provided from the City and that have a direct impact of the proposed project.

B. Site Surveys & As-Built Existing Lift Station Site

i. The ENGINEER will coordinate survey of the project limits. Survey will include topographic surveys and lidar surveys. This will include a RPLS stamped tree survey of the project route.

ii. The ENGINEER will utilize existing city provided as-builts and site survey to provide a current as-built of the existing site.

II. Utility Coordination/Easement Support

A. The ENGINEER will research the current property ownership along the proposed route and provide a property ownership map and list of impacted property owners to the City for use in obtaining right of entry.

B. The ENGINEER will provide project support in the form of project data, exhibits and information to the City's assigned right-of-way agent. The ENGINEER will be available to attend meetings with impacted property owners to address questions and comments, if requested.

C. The ENGINEER will coordinate and prepare right-of-entry (ROE) letters that will be based on the property ownership map and shall be placed on City of Georgetown letter head.

D. The ENGINEER will provide project data, exhibits and information to the surveyor in support of preparation of a right-of-way map, metes and

bounds documents and field sketches. The ENGINEER will coordinate with the surveyor to perform title commitments searches for the preparation of the metes and bounds documents. The ENGINEER will review the field sketches and metes and bounds documents to verify document accuracy. For this project it is anticipated that up twenty-four (12 permanent easements and 12 temporary construction easements) metes and bounds documents will be needed.

E. The ENGINEER shall develop a Utility Conflict Map detailing the approximate locations of the existing dry utilities and identify potential conflicts with impacted existing dry utilities.

F. The ENGINEER shall coordinate, attend and document a Utility Coordination Meeting with the existing utilities located within the proposed corridor to discuss impacts this project on the existing utilities. The ENGINEER shall document the highlights of this meeting. Assume two (2) meetings shall be required.

III. **Environmental Clearance**

A. The ENGINEER shall prepare a Phase 1 Environmental Site Assessment for the project limits.

IV. Preliminary Design

A. Develop Proposed Alignments
   i. The ENGINEER will utilize the existing asbuilt drawings, LIDAR survey, site investigations, and property map data to develop the up to three (3) alternate alignments for the proposed wastewater improvements.
   ii. The ENGINEER will prepare OPC's for each alternative along with an evaluation of each proposed alternative route identifying any constructability issues, easements, potential environmental impacts, and other identified elements that would be a potential obstacle for the installation of the gravity line.

B. Review Alignment with City Staff
   i. The ENGINEER will coordinate and meet with City Staff to review the proposed alignment. All information discovered concerning existing dry utilities, obstacles, rights-of-way, easements and private property will be discussed.
   ii. The ENGINEER will develop a consensus with City Staff on the proposed alignment and adjust as agreed upon.

C. Finalize the Alignment

i. The ENGINEER will utilize the Schematic Design, coordination meetings and consensus to finalize the utility locations for the project.
ii. The ENGINEER will generate a revised map illustrating rights-of-way, dry utilities and the proposed utility infrastructure.

D. Coordinate with Dry Utilities
i. The ENGINEER will coordinate a meeting with all affected dry utilities and City Staff to discuss the proposed alignment and relocations, if any, of dry utilities.

V. Final Design

A. Develop Plan and Profiles for the Wastewater Line
i. The ENGINEER will utilize the surface model and the finalized alignment to develop plan and profile for the water utility.
ii. The ENGINEER will produce 11"x17" sheets illustrating the location of the proposed wastewater line improvements both horizontally and vertically.
iii. The ENGINEER will illustrate all depth to existing ground over the centerline of the proposed wastewater line.
iv. The ENGINEER will illustrate all obstacles, dry utilities, rights-of-way, existing easements, proposed easements and private property.
v. The ENGINEER will illustrate all proposed slopes, elevations, locations and fittings for the wastewater line utility.
vi. The ENGINEER will design connections for the service connections to any existing customers along the route.

B. Develop Plan Sheets for Lift Stations' Decommissioning Projects:
i. The ENGINEER will develop from the field survey data, plan sheets detailing the:
ii. Lift Stations' Decommissioning Plan Sheets shall include the following:
1. Identification of existing salvageable material/components.
2. Identification of existing non-salvageable material/components to be removed and disposed of.
3. Minor wastewater piping and manhole installation.
4. Demolition of existing lift station wet well.
5. Cutting and capping force mains and gravity lines to be abandoned.

6. Fencing removal.
7. Site clean-up/restoration

C. Develop Project Layout with Connections
   i. The ENGINEER will develop connection details for connection to the existing City of Georgetown wastewater system.

D. Develop Erosion Control & Traffic Control Plan
   i. The ENGINEER will develop erosion control for the construction of the project.
   ii. The ENGINEER will prepare plan sheets illustrating locations and types of Temporary Best Management Practices for erosion control. These sheets will be available for use by the contractor in obtaining permits from the TCEQ for construction of the project.
   iii. The ENGINEER will develop a traffic control plan to be utilized for this project.

E. Develop Project Details
   i. The ENGINEER will develop details for the project to include:
      1. Wastewater Line Details
      2. Trench and Bedding Details
      3. Demolition Details
      4. Erosion Control Details
      5. Concrete Details
      6. Traffic Control Details
      7. Misc. Details.

F. Project Permitting
   i. The ENGINEER will prepare necessary TxDOT ROW permit based off the project alignment. This will include preparing the project drawings, TxDOT traffic control plan, and project details.
   ii. The ENGINEER will submit the TxDOT ROW permit through the TxDOT RULIS System and address any questions from TxDOT.

G. Complete Plans and Specifications
   i. The ENGINEER will develop specifications for the project.
   ii. The ENGINEER will develop project quantities for all proposed bid items for the project.

iii. The ENGINEER will review the plans and specifications that have been developed for quality assurance and quality control.
iv. The ENGINEER will coordinate the plans and specifications.
v. The ENGINEER will develop General Notes for the Project and index sheet for the plans.
vi. The ENGINEER will print all specifications and plans to be bound for submittal.

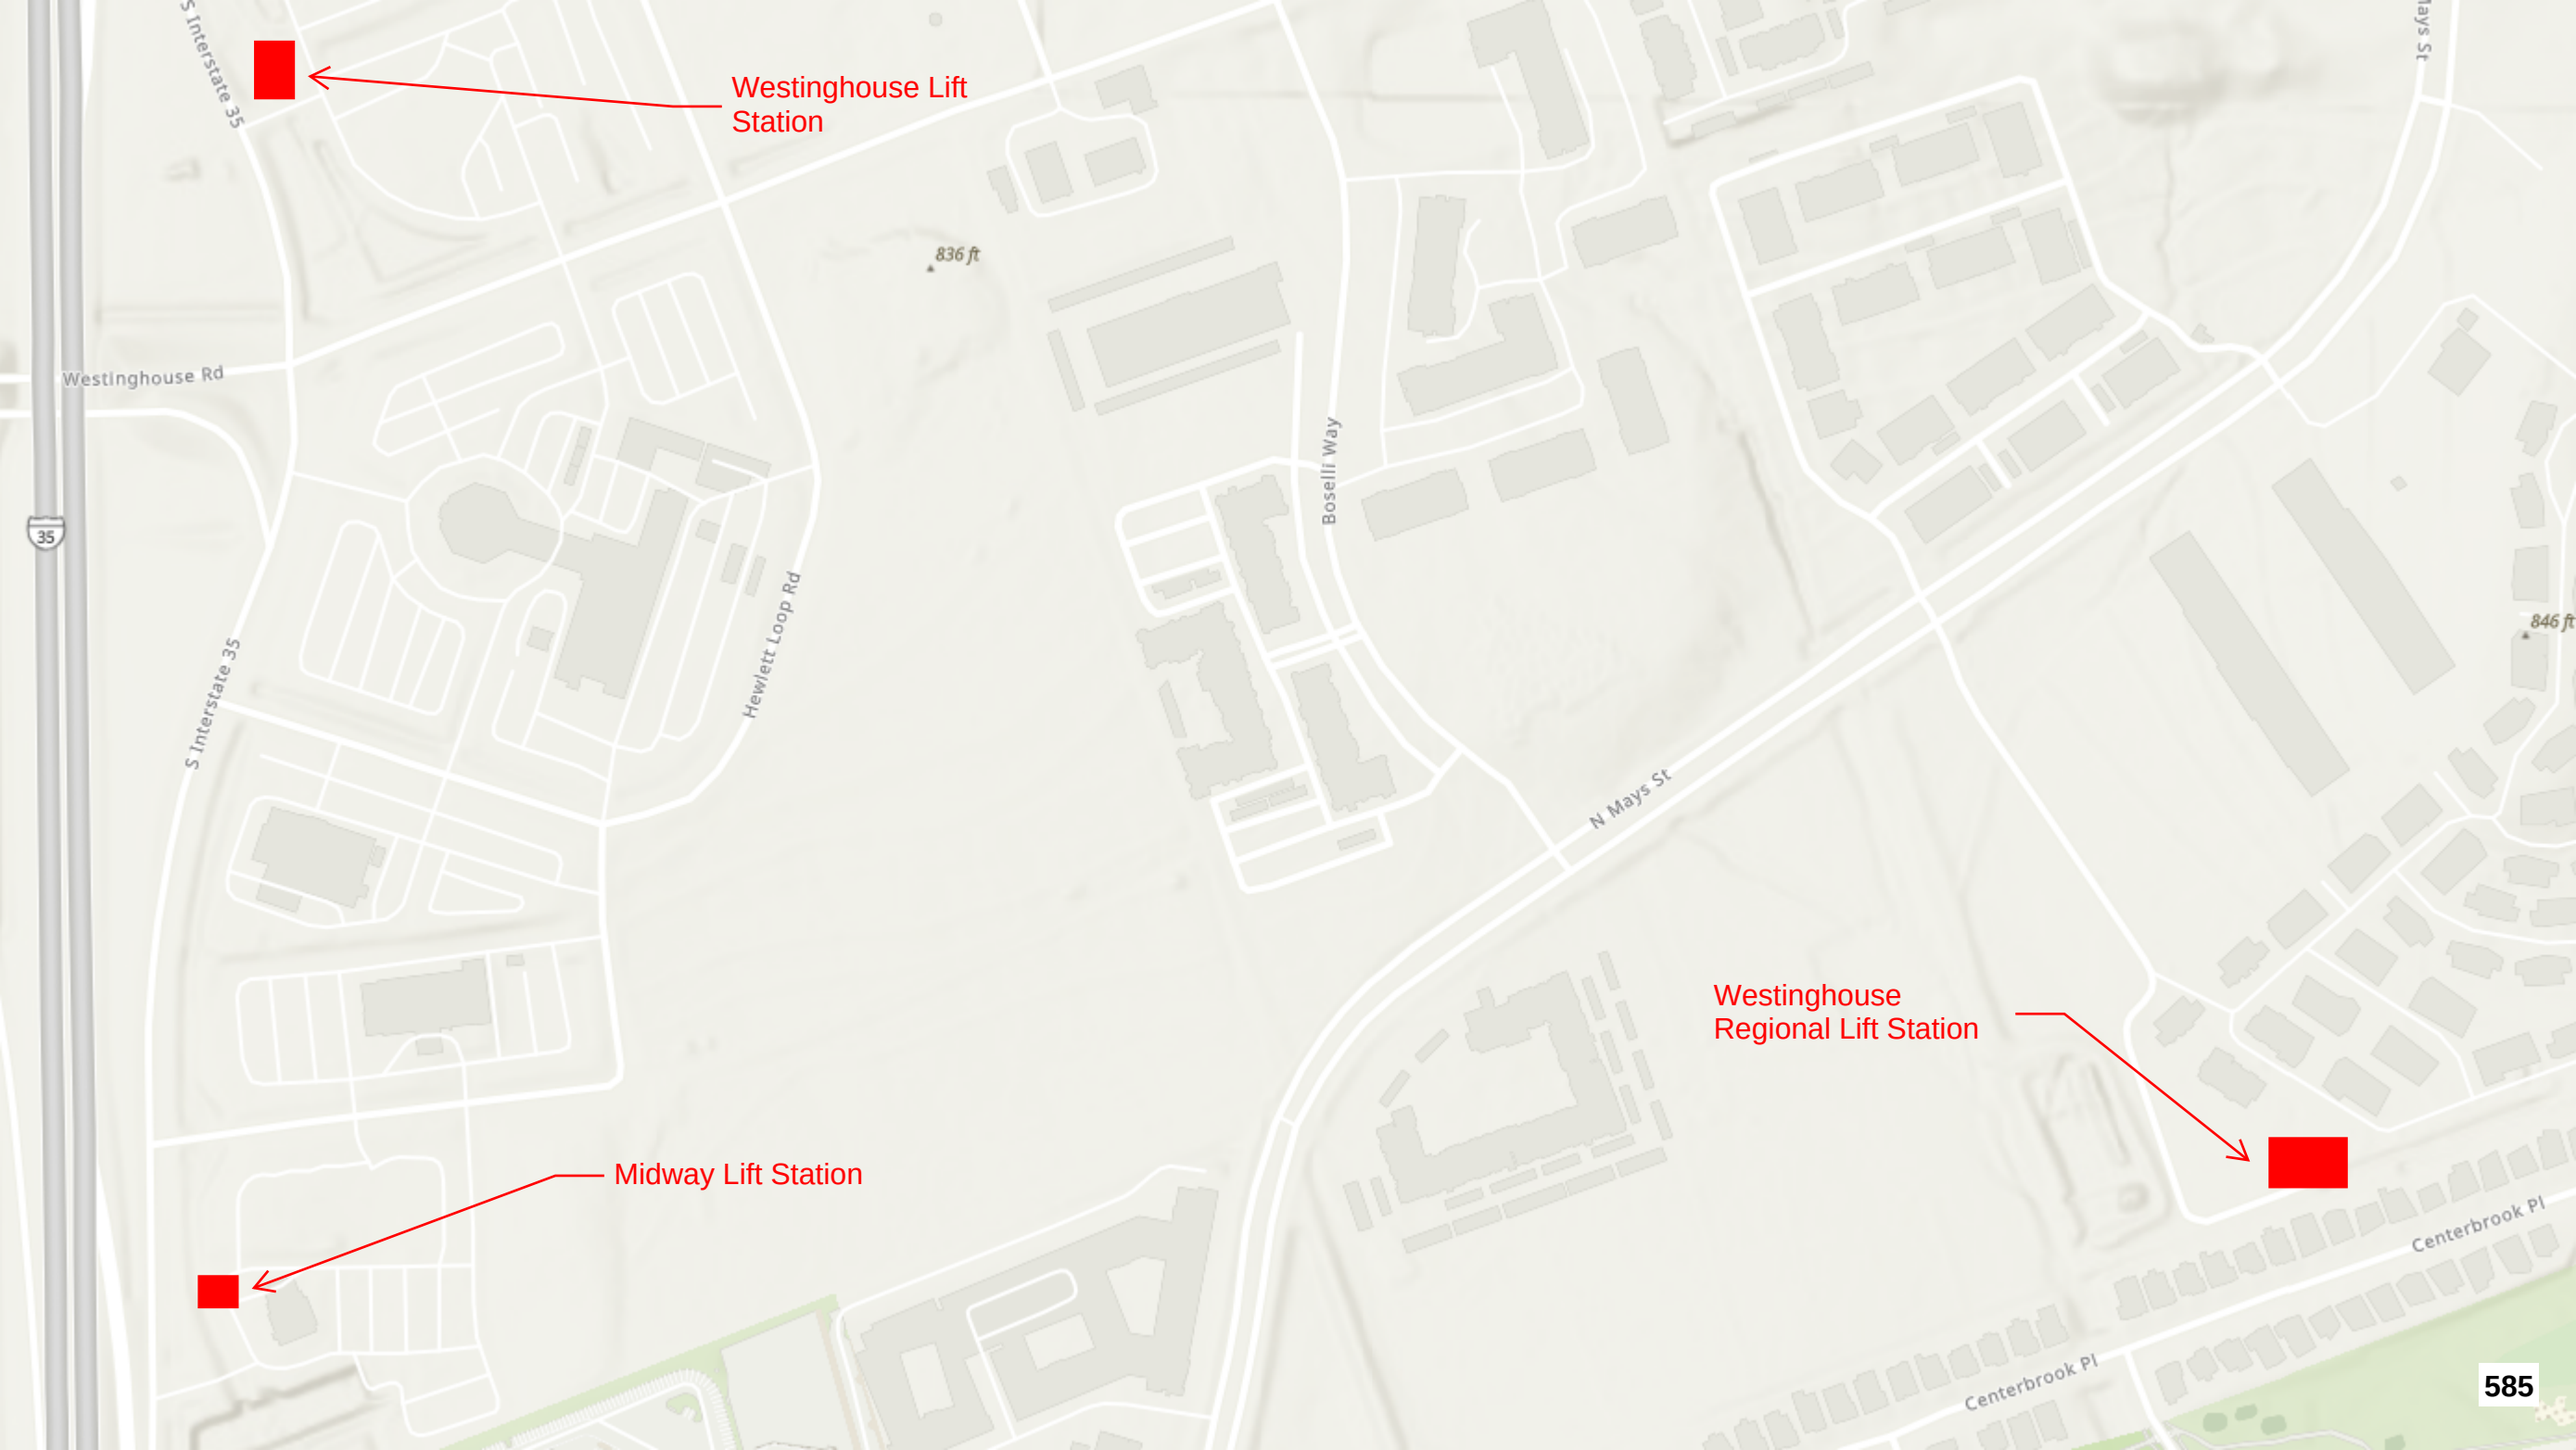
H. Prepare and Submit SCS Application
   i. The ENGINEER will prepare a SCS plan/report and submit to TECQ for review and approval.
   ii. This item will include the TCEQ SCS permit fee and required Geological Report fee.

I. Review Plans with City Staff, Incorporate Comments and Prepare for Bidding
   i. The ENGINEER will schedule a meeting with City Staff to review the plans and specifications.
   ii. The ENGINEER will receive all City Staff comments and incorporate into the plans. Once comments have been incorporated the ENGINEER will schedule a second meeting with City Staff to review the revised plans.
   iii. The ENGINEER will submit bidding documents to purchasing for comments. All comments will be addressed.
   iv. The ENGINEER will prepare documents for bidding and assist the City Staff in advertising the project.
   v. The ENGINEER will prepare a final Opinion of Probable Construction Cost.

VI. Bidding

A. The ENGINEER will develop the invitation to bid and deliver to City Staff for advertising the project for public bidding. The ENGINEER will also solicit bids from past contractors to acquire as competitive a bidding process as possible.
B. The ENGINEER will manage and distribute bidding documents.
C. The ENGINEER will prepare for the Pre-Bid Conference, develop an agenda and sign in sheet, conduct the Pre-Bid Conference, take notes at the conference, prepare minutes and incorporate into the addenda.
D. The ENGINEER will receive all questions from bidders, log the questions and answer in the form of an addenda.

E. The ENGINEER will conduct the bid letting, receive all bids, tabulate the bids and certify them.
F. The ENGINEER will research the low bidder(s) qualifications and recommend award to the City of Georgetown.



VII. Construction Administration

A. The ENGINEER will prepare contract documents; forward those to the contractor awarded the project by the Georgetown City Council.
B. The ENGINEER will schedule and conduct the Pre-Construction Conference. Minutes from the conference will be taken and distributed.
C. The ENGINEER will receive and review all submittals and material samples for the project. Documentation for the submittals will be generated and distributed to the City of Georgetown and the contractor.
D. The ENGINEER will hold regularly scheduled construction progress meetings. These meetings will include meeting agendas covering project specifics and schedules. Notes will be taken by the ENGINEER at the meetings. Minutes will then be developed and distributed to the City of Georgetown Staff and the contractor.
E. The ENGINEER will make periodic visits the project site. These site visits are utilized to perform a general overview of the project and answer any questions the contractor may have. The City of Georgetown will provide daily on-site representation for the project.
F. The ENGINEER will develop pay estimate forms for the project. These will be distributed to City Staff and the contractor. The ENGINEER will review the pay requests with City Staff.
G. The ENGINEER will conduct a final walk through of the project. Punch list items will be generated during this review. A letter addressed to City Staff will be generated discussing the findings of the walk through. The contractor will be copied on this letter as well.
H. The ENGINEER will develop final record drawings for the City of Georgetown Staff. The record drawings will be presented in the form of a DVD with pdf of each plan sheet and a full 11x17 hard copy. The electronic file shall be in a shapefile or geodatabase file (ESRI GIS format) in the NAD 1983 State Plane Central FIPS 4203 Feet coordinate system.
I. The ENGINEER will prepare a project closeout package that will include final record drawings, final pay estimate, final closeout change order and any other project closeout documentation.

EXHIBIT B: FEE SCHEDULE

Westinghouse Gravity Wastewater Improvements & Lift Station Decommissioning Project
Summary of Professional Services Fee Estimate by Consultant
June 2, 2026

SUBJECT:
ImageTrend Fire and EMS Records Management Software Renewal

SUGGESTED ACTION:
Consideration and possible action to approve an amendment and renewal of the annual software subscription with ImageTrend, LLC for Fire and EMS records management, reporting, integrations, and related services, in the amount not to exceed $106,008.11 for a 12-month subscription term -- Chris Bryce, IT Director; Greg Berglund, Assistant IT Director

ITEM SUMMARY:
This item is to request approval of the annual software subscription renewal with ImageTrend for Fire and EMS records management and reporting services used by the Georgetown Fire Department.

ImageTrend supports Fire and EMS incident documentation, inspections, permitting, investigations, data reporting, and integrations with other public safety systems.

The renewal includes the City's existing ImageTrend services and adds Critical Care - Ground and Performance Insights to support expanded Fire and EMS reporting, analysis, and data management needs.

The agreement has a contract effective date of July 28, 2026, and a 12-month subscription term. Total recurring fees are $106,008.11, with no one-time fees.

FINANCIAL IMPACT:
This item was partially budgeted during the FY 2026 budget process. Information Technology budgeted $65,000.00 for the ImageTrend renewal.

The newly restructured contract, including additional modules requested by Fire, totals $106,008.11.
Fire will cover the remaining $41,008.11 for FY 2026. This same funding approach will also be used in FY 2027.

IT Budgeted Amount: $65,000.00
Fire Department Amount: $41,008.11
Total Amount: $106,008.11

SUBJECT:
SCBA Purchase from HEAT Safety, LLC

SUGGESTED ACTION:
Consideration and possible action to approve the purchase of Self-Contained Breathing Apparatus (SCBA) Bottles, Masks, and Accessories through HEAT Safety LLC utilizing TXShare Cooperative Agreement #2025-124 in an amount not to exceed $175,000.00 -- John Sullivan, Fire Chief

ITEM SUMMARY:
Approval of this item will allow for the purchase of upgraded SCBA regulators and masks, as well as additional air bottles. The upgraded mask kits provide an improved face seal compared to our current equipment, enhancing firefighter safety and respiratory protection. This purchase will also include additional air packs and bottles to support front-line apparatus and training needs. Purchase not to exceed $175,000.00.

FINANCIAL IMPACT:
PRJ000134-SCBA Replacement

Addendum_Master Service Agreement 2025-124 [vendor signed].pdf
Quote_Q26-01582.pdf

HEAT SAFETY EQUIPMENT, LLC AND
CITY OF GEORGETOWN, TEXAS
ADDENDUM TO
QUOTE NO. Q26-01582

1. **Effect of Addendum.** The City of Georgetown (the "City") and the Heat Safety Equipment, LLC (the "Vendor") (collectively, the "Parties") agree the terms and conditions of this Addendum supplement, or where there is a conflict, supersede terms and conditions in the Quote No. Q26-01582 and its governing terms found in TXShare Master Services Agreement #2025-124 (the "Agreement").

2. **Payment.** Notwithstanding anything to the contrary in the Agreement, all payments shall be processed in accordance with the Texas Prompt Payment Act, Texas Government Code, Subtitle F, Chapter 2251. Vendor may charge a late fee (fee shall not be greater than that permitted under the Texas Prompt Payment Act) for payments not made in accordance with this prompt payment policy; however, the policy does not apply to payments made by the City in the event there is a bona fide dispute between the City and Vendor concerning the goods, supplies, materials, equipment delivered, or the services performed, that causes the payment to be late.

3. **Non-Appropriation.** This Agreement is a commitment of City's current revenues only. The City shall have the right to terminate this Agreement at the end of any City fiscal year if the governing body of the city does not appropriate funds sufficient to purchase the services. The City may terminate for non-appropriation by giving the Vendor a written notice of termination at the end of its then current fiscal year.

4. **Indemnification.** NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THE AGREEMENT, THE CITY, AS A TEXAS HOME-RULE MUNICIPAL CORPORATION, SHALL ONLY INDEMNIFY THE CONTRACTOR TO THE EXTENT PERMITTED BY LAW.

5. **Shipping.** All shipments to be prepaid. Where specific purchase is negotiated F.O.B. shipping point, the vendor is to prepay shipping charges and add to invoice. In shipments made direct by vendor's supplier, vendor is required to notify his supplier to prepay shipments.

6. **Risk of Loss.** Risk of loss, damage or destruction of the materials covered by this order shall be borne by the Vendor until delivery in good condition of conforming products at the F.O.B. point designated on this order. Any rejected goods shall be at the Vendor's risk until

returned to Vendor, at Vendor's expense, or otherwise disposed of as Vendor shall reasonably request.

7. **Deliveries.** All deliveries to be made to the City's Central Receiving location at 300-1 Industrial Ave, Georgetown, Texas 78626 unless otherwise specified on the face of this order. Deliveries will be accepted only during normal working hours on normal working days (8 a.m.-4 p.m., Monday through Friday). Unless otherwise indicated, items received must be new and in first class condition and if type of materials normally packaged for protection and convenience in storage, shall be in proper container. All services performed shall conform to the quality and workmanship of the accepted standards in the industry.

8. **Vendor Certification Regarding Business with Certain Countries and Organizations.** Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Vendor certifies Vendor is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Vendor acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

9. **Governing Law and Jurisdiction.** Governing law shall be the laws of the State of Texas. Venue shall be the applicable courts of Williamson County, Texas.

10. **Entire Agreement.** This Agreement, with all addenda, exhibits, attachments, and appendices attached, represents the entire and integrated agreement between the City and Vendor and supersedes all prior negotiations, representations, or agreements, whether written or oral, relating to the subject of this Agreement.

SUBJECT:
Purchase and installation of Georgetown Tennis Center Court lighting from Musco Sports Lighting, LLC

SUGGESTED ACTION:
Consideration and possible action to approve the purchase and installation of court lighting from Musco Sports Lighting, LLC of Oskaloosa, IA using Buyboard contract, 779-25 in the amount of $227,000.00 for the Georgetown Tennis Center courts. -- Eric Nuner, Interim Parks and Recreation Director

ITEM SUMMARY:
The proposed project includes the purchase and replacement of the existing lighting system at the Georgetown Tennis Center. The project will replace failing fixtures that may otherwise have a significant impact on programming, ensuring proper illumination for all 11 courts and supporting league play, tournaments, and recreational use.

The project includes new LED lighting, upgraded lighting controls for each court, and a complete renovation of the Tennis Center's electrical panel. Replacing the aging electrical infrastructure will improve system reliability, enhance energy efficiency, and provide a safer operating environment for staff and facility users.

Project pricing is based on the BuyBoard cooperative purchasing contract, which utilizes competitively solicited pricing to ensure the City receives the best overall value while streamlining the procurement process.

FINANCIAL IMPACT:
Funds are budgeted in the FY26 Parks CIP Fund.

- See scope of work

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

Responsibilities of Buyer

- Confirm pole or luminaire locations, supply voltage and phase required for lighting system prior to production
- Provide electrical design and materials for electrical distribution system
- Buyer is responsible for getting electrical power to the site, coordination with the utility, and any power company fees
- The owner of the field is responsible for the structural integrity of the existing poles and/or structures

Payment Terms

Payment of 95% due 30 days after invoice. Remaining 5% after commissioning and testing. Final payment shall not be withheld by Buyer on account of delays beyond the control of Musco.

Email a copy of the Purchase Order to Musco Sports Lighting, LLC:

Musco Sports Lighting, LLC
Attn: Musco Contracts
Email: musco.contracts@musco.com

All Purchase orders should note the following:
BuyBoard Purchase – Contract Number: 779-25

Delivery Timing

8 - 10 weeks for delivery of materials to the job site from the time of order, submittal approval, and confirmation of order details including voltage, phase, and pole/luminaire locations.

Notes

Quote is based on following conditions:

- Shipment of entire project together to one location.
- 208 Volt, 3 phase electrical system requirement.
- No additional discount included in this Texas Buyboard quote.
- Due to the built-in custom light control per luminaire, pole or luminaire locations need to be confirmed prior to production. Changes to pole or luminaire locations after the product is sent to production could result in additional charges.
- Product assurance and warranty program is contingent upon final inspection of existing equipment and site review, along with compatibility of Musco's lighting system.

Thank you for considering Musco for your lighting needs. Please contact me with any questions or if you need additional details.

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

Georgetown Tennis Center – Retrofit Scope of Work

Customer Responsibilities:

1. Complete access to the site for construction using standard 2-wheel drive rubber tire equipment.
2. Locate existing underground utilities not covered by your local utilities (i.e. water lines, electrical lines, irrigation systems, and sprinkler heads). Musco or Subcontractor will not be responsible for repairs to unmarked utilities.
3. Locate and mark field reference points per Musco supplied layout (i.e. home plate, center of FB field).
4. Ensure existing poles are structurally adequate to handle new fixture loading.
5. Ensure usability of existing underground wiring.
6. Pay any necessary power company fees and requirements.
7. Pay all permitting fees.
8. Provide any existing as-built documents or drawings.
9. Provide sealed Electrical Plans (if required).

Musco Responsibilities:

1. Provide required fixtures, electrical enclosures, mounts, hardware, wire harnesses, and control cabinets.
2. Provide SportsCluster® poletop luminaire assembly on 44 poles
3. Provide fixture layout and aiming diagram.
4. Provide Contract Management as required.
5. Assist our installing subcontractor and ensure our responsibilities are satisfied.

Subcontractor Responsibilities

General:

1. Obtain any required permitting.
2. Contact 811 for locating underground public utilities and confirm they have been clearly marked.
3. Contact the facility owner/manager to confirm the existing private underground utilities and irrigation systems have been located and are clearly marked to avoid damage from construction equipment. Notify owner and repair damage to marked utilities. Notify owner and Musco regarding damage which occurred to unmarked utilities.
4. Provide labor, equipment, and materials to offload equipment at jobsite per scheduled delivery.
5. Provide storage containers for material (including electrical components enclosures), as needed.
6. Provide necessary waste disposal and daily cleanup.
7. Provide adequate security to protect Musco delivered products from theft, vandalism, or damage during the installation.
8. Keep all heavy equipment off playing fields when possible. Repair damage to grounds which exceeds that which would be expected. Indentations caused by heavy equipment traveling over dry ground would be an example of expected damage. Ruts and sod damage caused by equipment traveling over wet grounds would be an example of damage requiring repair.
9. Provide startup and aiming as required to provide complete and operating sports lighting system.
10. Installation to commence upon delivery and proceed without interruption until complete. Musco to be immediately notified of any breaks in schedule or delays.
11. Complete and submit Musco provided closeout checklist including required pictures.

Demolition:

1. Remove and dispose of the existing fixtures, and electrical enclosures. This will include the recycling of lamps, aluminum reflectors, ballast, and steel, as necessary.
2. Leave existing ground wires and power feed in place for connection to new lighting equipment.

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

Retrofit Musco Equipment to Existing Poles:

1. Provide labor, materials, and equipment to assemble and install Musco TLC for LED® equipment on existing poles and terminate grounding and power feed. Power feed may need to be reworked to adapt to the new Musco equipment.
2. Ensure grounding components meet minimum standards required by NEC and NFPA780.
3. For concrete poles, provide new lightning down conductor(aluminum) and $^{5}/_{8}$ in copper ground rod. For poles 75 ft (22 m) or less use 1/0 AWG, poles over 75 ft (22 m) use 4/0 AWG conductor. Bond internal pole ground to new down conductor.
4. For steel poles, provide new ground rod and pole bonding conductor per NFPA Annex A.1.6.
5. Down conductor shall be converted to copper wire for any underground runs and bonded to ground rod(s).
6. Ensure all Musco components are bonded to both equipment and lightning grounds. No upward sweeps allowed for lightning down conductor or bonding jumper(s). See installation instructions for further information.
7. Test ground resistance with 3-point ground resistance test, using instructions provided. Confirm 25 ohms or less for each pole. Install additional ground rods or create grounding grid until resistance of 25 ohms or less is achieved. Record all results on form provided and submit readings to Musco.

Electrical:

1. Provide materials and equipment to install new electrical service panels as required.
2. Provide materials and equipment to install all underground conduit, wiring, pull boxes, etc. and terminate wiring as required.
3. Complete electrical installation per Musco Control System Summary and Musco Best Practices: Supply Wiring Installation document. If there are any discrepancies between Musco documents and electrical plans (if present), notify your Musco contact.
4. Complete required insulation resistance tests on all current-carrying conductors per ANSI/NETA ATS-2021. Use the instructions and forms provided by Musco to provide test results to your Musco contact. Ensure conduits are full of water prior to testing. Any new conductors with resistance values less than (<) 100 MOhms - phase to ground - must be repaired or replaced to meet the standard. Any existing conductors with resistance values less than (<) 100 MOhms - phase to ground - must be reported to your Project Manager or Sales Coordinator.
5. Underground splices are strongly discouraged. Disconnects in light poles are rated for multiple conductors to allow for daisy-chains - if required by electrical plans. If underground splicing cannot be avoided, use only listed connector systems, rated for wet locations.
6. Provide as built drawings upon completion of installation. (if required)

Controls:

1. Provide labor, equipment, and materials to install Control cabinet(s) and terminate all necessary wiring.
2. Provide a dedicated 120 V 20 A controls circuit or a step-down transformer for 120 V control circuit if not available.
3. Check all zones to make sure they work in both auto and manual mode.
4. Commission Control-Link by contacting Control-Link Central™ at 877-347-3319.

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

CODE OF CONDUCT

To maintain a high-quality jobsite and installation, Subcontractor represents to Musco that it has the supervision necessary to, and shall train, manage, supervise, monitor, and inspect the activities of its employees for the purpose of enforcing compliance with these safety requirements. Subcontractor acknowledges that Musco does not undertake any duty toward Subcontractor's employees to train, manage, supervise, monitor, and inspect their work activities for the purpose of enforcing compliance with these safety requirements, but Subcontractor agrees to abide by any reasonable recommendations made by Musco or Musco representatives with respect to safety.

Subcontractor agrees that it is or will be familiar with and shall abide by the safety rules and regulations of Musco and the Owner, including, but not limited to the Occupational Safety and Health Act of 1970 (OSHA), all rules and regulations established pursuant thereto, and all amendments and supplements thereto.

Subcontractor further agrees to require all its employees, subcontractors, and suppliers to comply with these requirements. Subcontractor shall also observe and comply with all laws with respect to environmental protection applicable to the Project.

Subcontractor shall require all its subcontractors, employees, visitors, suppliers, and agents under its direction to comply with the following:

1. GENERAL JOBSITE SAFETY AND CLEANLINESS.
   a. Subcontractor's employees and agents shall be required to wear appropriate personal protective equipment including, but not limited to, safety glasses with side shields, work shoes, fall protection devices, and hard hats.
   b. Where a walking or working surface has an unprotected side or edge which is six feet or more above a lower level, Subcontractor shall use guardrail systems, safety net systems, or personal fall arrest systems.
   c. Jobsite shall be kept free of debris including, but not limited to, cardboard and packing materials which can become windborne.
   d. Construction equipment shall be parked during non-use in an orderly fashion so as not to create inconvenience to others using the jobsite.
   e. Subcontractor shall provide for and ensure the use of safety equipment for the Project in accordance with Musco's and Owner's safety requirements, to the extent these may be stricter than federal, state, or local standards, or generally recognized industry applicable standards.
   f. Subcontractor shall provide the Musco project manager with an "Emergency List" showing Subcontractor's designated medical doctor, hospital, insurance company, and any other health service providers, such list to be updated within 24 hours of any change in the information provided.
   g. Within eight (8) hours from the time of an accident (or such shorter period as laws may require), Subcontractor shall advise Musco of any accident resulting in injury to any person or damage to any equipment or facility. Upon request, Subcontractor shall promptly furnish Musco with a written report of any such accident as well as a copy of all insurance and worker's compensation claims involving the Project.
   h. Subcontractor shall maintain and inspect all construction equipment, including cranes and other lifting equipment, prior to each use. Subcontractor warrants that all equipment operators shall be qualified for each piece of construction equipment they intend to operate. Documentation of specific training is the responsibility of the Subcontractor.
   i. Jobsite shall be policed daily for compliance to the above conditions.
   j. Subcontractor's employees and agents are prohibited from using drugs and alcohol on the Project property or being under the influence of alcohol or drugs while performing work on the Project. Anyone observed participating in or observed under the influence will be removed from the Project immediately and prohibited from returning, with no exceptions.

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

2. CONFORMANCE TO STANDARD MUSCO INSTALLATION GUIDELINES.
   a. Review and understand installation instructions are provided with every product installation.
   b. Education of installation personnel to allow for highest efficiency and lowest possibility of failure.
   c. Verify that components have been assembled per Musco installation instructions.
   d. Verify plumb of concrete foundations prior to standing of poles.

3. PROVIDING A QUALITY INSTALLATION TEAM.
   a. Subcontractor's work directly reflects the quality of the installation and may indirectly relate to the quality of the product upon which Musco's reputation is built.
   b. Provide and maintain quality installation equipment. Records of maintenance and/or calibration shall be provided upon request.
   c. Personnel shall be knowledgeable in operation of equipment as well as installation of Musco product.
   d. All personnel provided by Subcontractor shall understand the relationship developed by and between Subcontractor and Musco, also by and between Musco and the customer, and act accordingly.

BUYBOARD PROCUREMENT AND CONSTRUCTION-RELATED GOODS AND SERVICES ADVISORY FOR TEXAS MEMBERS

Why make purchases using BuyBoard?

Purchasing through a cooperative or "interlocal contract" satisfies the Texas law requirement of local governments to seek competitive procurement for the purchase of goods or services.[1] Therefore, you may purchase goods and services from a vendor under Texas law through BuyBoard without having to conduct your own competitive procurement. If, however, you are procuring construction-related services through a BuyBoard contract, such as a Job Order Contract (JOC) or contract for the installation of equipment or materials (e.g., athletic fields and surfaces, kitchen equipment, HVAC, playground equipment, or modular buildings), you may, as explained in this Advisory, need to procure certain aspects of these services using a separate procurement process outside of the BuyBoard and should consult your procurement officer and/or legal advisor for specific advice.

What is BuyBoard's Procurement Process?

The BuyBoard uses a competitive procurement process to award contracts to vendors for goods and services that the BuyBoard determines, based on an evaluation of multiple criteria, represents the best value for its members.

How does BuyBoard award a contract to a vendor?

As a condition of being awarded a BuyBoard contract, a vendor is bound by and must agree to comply with all the terms of the BuyBoard's proposal invitation (or specifications), the vendor's proposal response, and any additional contract terms negotiated with the BuyBoard member. Among other things, the vendor must honor the pricing submitted in the vendor's proposal. THE PRICE YOU PAY FOR THE GOODS AND SERVICES COVERED BY THE BUYBOARD CONTRACT MAY BE LESS THAN THE AWARDED PRICING, BUT CANNOT BE MORE. Additionally, the vendor must comply with the BuyBoard contract's general terms and conditions, and any additional terms and conditions that apply to the specific BuyBoard contract, as set out in the proposal invitation.

How does a BuyBoard member make purchases through the BuyBoard contract?

You utilize the awarded BuyBoard contract by issuing a signed purchase order through the BuyBoard online application to procure the selected goods or services. Although BuyBoard must receive a copy of the signed purchase order, BuyBoard does not review or approve the purchase order or other supplemental agreement that you obtain – this is a matter between you and the vendor. If construction-related services are procured through the BuyBoard, additional contracts with professionals and the contractor may be required, depending on the nature and scope of the services. As stated above, you should consult your procurement officer and/or legal advisor for specific advice.

How do I know that my entity has made a purchase through the BuyBoard?

BuyBoard must have a copy of the purchase order in order for the purchase to be considered a BuyBoard procurement. To ensure that your entity has satisfied state law requirements for competitive procurement, make sure that the BuyBoard has your purchase order. Do not rely on the vendor to submit the purchase order on your behalf; it is your responsibility to make sure that the BuyBoard has the signed purchase order. You may log in to buyboard.com using your member I.D. and password to view the Purchase Order Status Report to confirm that the purchase order is in the BuyBoard system.

What should BuyBoard members consider when using BuyBoard for construction-related purchases?

While purchasing goods and services through BuyBoard satisfies your legal requirement to competitively procure a good or service, as a general matter you must keep in mind other legal requirements that may relate to the purchase, especially when using BuyBoard for construction-related procurement.

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

P.O. Box 400, Austin, Texas 78767
800.695.2919 • info@buyboard.com • buyboard.com

When making construction-related purchases through a BuyBoard contract, BuyBoard members must consider the following:

- **Best value determination.** In compliance with Texas law and any local policy, your entity must first determine that purchasing through an interlocal contract or purchasing cooperative is the procurement method that will provide best value.[ii] This is done by the governing body (e.g., board of trustees, council, commissioners' court, etc.) or may be delegated by the governing body to an individual or committee, with written notice.

- **Products or services not covered by the BuyBoard contract.** The BuyBoard contract covers only the specific goods and services awarded by the BuyBoard. If you want to purchase from a BuyBoard vendor goods or services from a BuyBoard vendor that are not covered by the vendor's BuyBoard contract, such as architectural, design, or engineering services, you must procure them separately in accordance with state law and local policy.

- **Architectural or Engineering and Independent Testing services.** If your procurement includes a construction component that requires architectural or engineering services, you must procure those services separately. YOU MAY NOT PROCURE ARCHITECTURAL OR ENGINEERING SERVICES THROUGH A BUYBOARD CONTRACT. Texas law requires architectural and engineering services to be obtained in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and prohibits them from being procured through a purchasing cooperative.[iii]

  - **Architecture.** A new building owned by a political subdivision having construction costs exceeding $100,000 or an alteration or addition to an existing building having construction costs exceeding $50,000 must have architectural plans and specifications prepared by an architect.[iv] (An "alteration" or "addition" for purposes of this requirement requires the removal, relocation, or addition of a wall or partition or the alteration or addition of an exit.)

  - **Engineering.** If the goods or services procured through the BuyBoard will involve engineering in which the public health, welfare, or safety is involved, the plans for structural, mechanical, electrical, electronic, fire suppression, geotechnical systems, foundation design, surface water drainage, plumbing and certain roof modifications and associated estimates must be prepared by an engineer, and the engineering construction must be performed under the direct supervision of an engineer.[v] The Engineering Practice Act provides two exceptions to this rule – no engineer is required if (1) the project involves mechanical or electrical engineering and will cost $8,000 or less, or (2) the project does not require mechanical or electrical engineering and will cost $20,000 or less.[vi]

  - **Independent Testing.** If acceptance of a facility by a public entity involves independent testing of construction materials engineering and/or verification testing services, the testing services should be procured under the Professional Services Procurement Act, and may not be procured under a BuyBoard contract.

  - **Written Certification.** A local governmental entity purchasing construction-related goods and services through a cooperative in an amount that exceeds $50,000 must designate a person to certify in writing that the project does not require the preparation of plans or specifications by an architect or engineer OR that an architect or engineer has prepared the plans or specifications.[vii]

2016, 2025 Musco Sports Lighting, LLC • M-2169-enUS-24

BuyBoard®
P.O. Box 400, Austin, Texas 78767
800.695.2919 • info@buyboard.com • buyboard.com

- **Bonds.** You must also consider whether the vendor is required to provide a payment or performance bond. A payment bond is required for contracts that exceed $25,000 to protect subcontractors who supply labor or materials for the project. A performance bond is required for a contract that exceeds $100,000, to protect the local government if a contractor fails to complete the project. [vii] Without payment and performance bonds, if the contractor fails to pay its subcontractors or to complete the project, the public entity that entered the contract can be held responsible for payment claims or costs to complete.

- **Construction Contract.** Even though the procurement of construction or construction-related services may be through the BuyBoard, your construction contract is between your entity and the contractor. The BuyBoard contract's general terms and conditions, standing alone, are not sufficient to document your entity's specific transaction. THEREFORE, YOU SHOULD USE AN APPROPRIATE FORM OF CONSTRUCTION CONTRACT JUST AS YOU WOULD DO IF YOU PROCURED CONSTRUCTION SERVICES INDEPENDENTLY, USING COMPETITIVE SEALED PROPOSALS. The contract must contain provisions required by state law including: performance and payment bonds, requirements for payment of prevailing wages to all construction workers, workers' compensation coverage for all workers and, on projects where contractor employees may have direct contact with students, criminal history record checks. Other provisions which should be considered in the construction contract are retainage, contingency, liquidated damages and dispute resolution, among others. If federal funds are involved, additional requirements may apply. (See the Purchasing with Federal Funds BuyBoard Advisory available on the BuyBoard® website for additional information on purchases with federal funds.) By supplementing the BuyBoard contract with an appropriate form of construction contract, you ensure that your entity's unique interests are addressed and that your entity can enforce the contract directly.

- **Legal advice.** Because of the variety of laws that relate to construction-related purchasing and the potential risk of high exposure, you are well-advised to consult with your entity's legal counsel before procuring construction-related goods and services under any procurement method, including a purchasing cooperative.

This Advisory is provided for educational purposes only to facilitate a general understanding of the law. This Advisory is neither an exhaustive treatment on the subject nor is it intended to substitute for the advice of an attorney.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Abandonment of a Portion of a Public Utility Easement at the Request of Ewing Development Company, LLC

SUGGESTED ACTION:
Consideration and possible action to approve a resolution abandoning a portion of a public utility easement that was dedicated to the City under a plat recorded under Cabinet L, Slide 224 of the Official Plat Records of Williamson County, Texas, upon the acceptance by the City of a replacement public utility easement to be in a location to be specified by the City across Lot 16, Block C, Preliminary Plat of Rivery Crossing Phase 2, a Preliminary Plat approved by the City of Georgetown on June 2, 2026 under application number 2026-2-PP -- Andrew Culpepper, Assistant City Attorney - Real Estate Services

ITEM SUMMARY:
Ewing Development Company, LLC, desires to develop a 4.02 tract of land as more particularly described in the plat recorded under Cabinet L, Slide 224 of the Official Plat Records of Williamson County, Texas, but a portion of a public utility easement is impeding the development of the property. Accordingly, Ewing Development Company, LLC has requested that the City abandon the portion of the public utility easement that is impeding the development. This Resolution would approve the abandonment of the portion of the public utility easement that is impeding the development of the property, upon the acceptance by the City of a replacement public utility easement to be in a location to be specified by the City across Lot 16, Block C, Preliminary Plat of Rivery Crossing Phase 2, a Preliminary Plat approved by the City of Georgetown on June 2, 2026 under application number 2026-2-PP.

RESOLUTION NO. _____

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN CONDITIONALLY AUTHORIZING THE RELEASE AND ABANDONMENT OF A PORTION OF A PUBLIC UTILITY EASEMENT GRANTED TO THE CITY OF GEORGETOWN PURSUANT TO THE PLAT RECORDED UNDER CABINET L, SLIDE 224 OF THE OFFICIAL PLAT RECORDS OF WILLIAMSON COUNTY, TEXAS.

WHEREAS, in 1994, First Texas Bank of Georgetown., a predecessor-in-title to, Ewing Development Company L.L.C., a Texas limited liability company ("Owner"), granted to the City of Georgetown a public utility easement across a 4.02 tract of land as more particularly described in the plat recorded under Cabinet L, Slide 224 of the Official Plat Records of Williamson County, Texas (the "Property"), for the purpose of facilitating the extension of utilities to service the Property; said easement having been dedicated pursuant to such plat that is recorded under Cabinet L, Slide 224 of the Official Plat Records of Williamson County, Texas (the "Easement"); and,

WHEREAS, Owner wishes to develop the Property, but a portion of the Easement is impeding the development of the Property; and,

WHEREAS, the abandonment of a portion of the Easement, such portion of the Easement being more particularly described by metes and bounds in **Exhibit A** and depicted in the diagram contained in **Exhibit B**, each being attached hereto and incorporated herein by reference (the "Portion to be Abandoned"), would facilitate the development of the Property; and,

WHEREAS, Owner will grant the City a replacement public utility easement to meet the City's requirements (the "Future Public Utility Easement") which will cover the City's replacement utility facilities, such Future Public Utility Easement to be in a location to be specified by the City across Lot 16, Block C, Preliminary Plat of Rivery Crossing Phase 2 , a Preliminary Plat approved by the City of Georgetown on June 2, 2026 under application number 2026-2-PP; and,

WHEREAS, upon considering the request for the release and abandonment of the Portion to be Abandoned, and additional information pertaining to the request, the City Council now finds that upon the City's acceptance of the replacement utility facilities that are to be installed in the Future Public Utility Easement, a public need for the Portion to be Abandoned will no longer exist, and therefore the Portion to be Abandoned may be abandoned and released to Owner or a successor-in-interest to Owner upon satisfaction of these conditions; and

WHEREAS, nothing herein shall operate to release the remainder portion of the Easement or any other easement.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The meeting at which this resolution was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

SECTION 2. The facts and recitations contained in the preamble of this resolution are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 3. Upon the acceptance by the City of the replacement utility facilities to be installed in the Future Public Utility Easement, the Mayor is hereby authorized to execute a Quitclaim in substantially the same form attached hereto as **Exhibit C** and any other conveyance document(s) necessary to complete the release and abandonment of the Portion to be Abandoned, and the City Secretary is hereby authorized to attest thereto on behalf of the City of Georgetown.

SECTION 4. All resolutions that conflict with the provisions of this resolution are hereby repealed, and all other resolutions of the City not in conflict with the provisions of this resolution shall remain in full force and effect.

SECTION 5. If any provision of this resolution, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this resolution, which can be given effect without the invalid provision or application, and to this end the provisions of this resolution are hereby declared to be severable.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

SECTION 6. The Mayor is hereby authorized to sign this resolution and the City Secretary to attest. This Resolution shall be effective immediately in accordance with the provisions of the City Charter of the City of Georgetown.

METES AND BOUNDS DESCRIPTION

BEING 3,577 SQ. FT. OF LAND OUT OF THE NICHOLAS PORTER SURVEY, ABSTRACT NO. 497, WILLIAMSON COUNTY, TEXAS, AND BEING A PORTION OF A CALLED 0.295 ACRE TRACT CONVEYED TO EWING DEVELOPMENT COMPANY, L.L.C. AS TRACT 2 IN DOCUMENT NO. 2020010587 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS, (O.P.R.W.C.), AND DESCRIBED IN DOCUMENT NO. 2016070988 OF THE O.P.R.W.C.; SAID 3,577 SQ. FT. OF LAND BEING MORE PARTICULARLY LOCATED AND DESCRIBED AS FOLLOWS; (BEARINGS OF LINES REFER TO GRID NORTH OF THE TEXAS COORDINATE SYSTEM OF 1983 (CENTRAL ZONE) AS COMPUTED FROM GPS VECTORS):

COMMENCING at a 1/2 inch iron rod with aluminum cap stamped "4933" found at an exterior ell corner in the Southeasterly right-of-way line of Rivery Blvd., (ROW Varies), at the North corner of Lot 11, Block 6 of "Gabriel Heights", a subdivision recorded in Cabinet B, Slide 5 of the Plat Records of Williamson County, Texas, (P.R.W.C.), being in the Southwesterly line of "Rivery Business Park, LLC", a called 3.3 acre tract recorded in Document No. 2022055965 and Document No. 2021093983, O.P.R.W.C.;

THENCE, N36°11'35"W", with the Northeast line of said Block 6 of "Gabriel Heights" subdivision and across said Rivery Blvd. right-of-way, a distance of 119.27, feet to a mag nail found in the Northwest right-of-way line of said Rivery Blvd., at the most Westerly corner of a called 0.421 acre tract, Parcel 12, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation, in Document No. 2017059975 of the O.P.R.W.C., and being the most Southerly corner and **POINT OF BEGINNING** of this tract;

THENCE, N36°11'35"W, along the Northeast boundary line of said Block 6 of "Gabriel Heights" subdivision, a distance of 161.86 feet to a calculated point in the Northeast line of Lot 8 of said Block 6 of "Gabriel Heights" subdivision, and being the Southwest corner of said Ewing Development Company, L.L.C. known as Tract 1, conveyed in Document No. 2020010587 and Document No. 2016070988, O.P.R.W.C. for the most Westerly corner of this tract;

THENCE, S80°58'16"E, along the North line of said 0.295 acre Tract 2, also being the South line of said Tract 1, a distance of 224.55 feet to a calculated point in a curve to the right on the Northwest right-of-way line of said Rivery Blvd., being the West corner of a called 0.022 acre tract, Parcel 13, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation in Document No. 2017025485, O.P.R.W.C., also being a South corner of a called 0.024 acre utility & drainage easement tract, Parcel 13-E, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation in Document No. 2017079563, O.P.R.W.C. for the most Easterly corner of this tract;

THENCE, (C2), along said curve to the right having a radius of 454.01 feet, an arc length of 13.40 feet, a central angle of 001°41'28" and a chord bearing and distance of S50°45'47"W, 13.40 feet to a calculated point on the Northwest right-of-way line of said Rivery Blvd;

THENCE, over and across said 0.295 acre Tract 2, the following two (2) courses and distances:

1. N80°58'16"W, a distance of 191.35 feet to a calculated point at an interior angle point of this tract;
2. S36°11'35"E, a distance of 137.48 feet to a calculated point on the Northwest right-of-way line of said Rivery Blvd for an ell corner of this tract;

EXHIBIT A

THENCE, S53°10'47"W, along the Northwest right-of-way line of said Rivery Blvd., a distance of 10.00 feet to the **POINT OF BEGINNING,** and containing a calculated area of 3,577 sq. ft. of land.

This description is accompanied by and made part of a survey sketch issued by Haynie Consulting, Inc.

I Timothy E. Haynie, a Registered Professional Land Surveyor, do hereby certify that the property described herein was determined by a survey made on the ground under my supervision and that all corners are marked as described.

AS TRACT 2 IN DOCUMENT NO. 2020010587 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS, (O.P.R.W.C.), AND DESCRIBED IN DOCUMENT NO. 2016070988 OF THE O.P.R.W.C.; SAID 3,577 SQ. FT. OF LAND BEING MORE PARTICULARLY LOCATED AND DESCRIBED AS FOLLOWS; (BEARINGS OF LINES REFER TO GRID NORTH OF THE TEXAS COORDINATE SYSTEM OF 1983 (CENTRAL ZONE) AS COMPUTED FROM GPS VECTORS):

COMMENCING at a 1/2 inch iron rod with aluminum cap stamped "4933" found at an exterior ell corner in the Southeasterly right-of-way line of Rivery Blvd., (ROW Varies), at the North corner of Lot 11, Block 6 of "Gabriel Heights", a subdivision recorded in Cabinet B, Slide 5 of the Plat Records of Williamson County, Texas, (P.R.W.C.), being in the Southwesterly line of "Rivery Business Park, LLC", a called 3.3 acre tract recorded in Document No. 2022055965 and Document No. 2021093983, O.P.R.W.C.;

THENCE, N36°11'35"W", with the Northeast line of said Block 6 of "Gabriel Heights" subdivision and across said Rivery Blvd. right-of-way, a distance of 119.27, feet to a mag nail found in the Northwest right-of-way line of said Rivery Blvd., at the most Westerly corner of a called 0.421 acre tract, Parcel 12, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation, in Document No. 2017059975 of the O.P.R.W.C., and being the most Southerly corner and **POINT OF BEGINNING** of this tract;

THENCE, N36°11'35"W, along the Northeast boundary line of said Block 6 of "Gabriel Heights" subdivision, a distance of 161.86 feet to a calculated point in the Northeast line of Lot 8 of said Block 6 of "Gabriel Heights" subdivision, and being the Southwest corner of said Ewing Development Company, L.L.C. known as Tract 1, conveyed in Document No. 2020010587 and Document No. 2016070988, O.P.R.W.C. for the most Westerly corner of this tract;

THENCE, S80°58'16"E, along the North line of said 0.295 acre Tract 2, also being the South line of said Tract 1, a distance of 224.55 feet to a calculated point in a curve to the right on the Northwest right-of-way line of said Rivery Blvd., being the West corner of a called 0.022 acre tract, Parcel 13, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation in Document No. 2017025485, O.P.R.W.C., also being a South corner of a called 0.024 acre utility & drainage easement tract, Parcel 13-E, conveyed to the City of Georgetown, a Texas Home-Rule Municipal Corporation in Document No. 2017079563, O.P.R.W.C. for the most Easterly corner of this tract;

THENCE, (C2), along said curve to the right having a radius of 454.01 feet, an arc length of 13.40 feet, a central angle of 001°41'28" and a chord bearing and distance of S50°45'47"W, 13.40 feet to a calculated point on the Northwest right-of-way line of said Rivery Blvd;

THENCE, over and across said 0.295 acre Tract 2, the following two (2) courses and distances:

1. N80°58'16"W, a distance of 191.35 feet to a calculated point at an interior angle point of this tract;
2. S36°11'35"E, a distance of 137.48 feet to a calculated point on the Northwest right-of-way line of said Rivery Blvd for an ell corner of this tract;

EXHIBIT A

THENCE, S53°10'47"W, along the Northwest right-of-way line of said Rivery Blvd., a distance of 10.00 feet to the **POINT OF BEGINNING,** and containing a calculated area of 3,577 sq. ft. of land.

This description is accompanied by and made part of a survey sketch issued by Haynie Consulting, Inc.

I Timothy E. Haynie, a Registered Professional Land Surveyor, do hereby certify that the property described herein was determined by a survey made on the ground under my supervision and that all corners are marked as described.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Second Reading - Water Rate Increase and Associated Fees

SUGGESTED ACTION:
Second Reading of an Ordinance amending sections 13.04.120 and 13.04.150 of the Code of Ordinances relating to water service rates and charges and water tap and meter fees -- Chelsea Solomon, PE, Water Utilities Director, and Leigh Wallace, Chief Financial Officer

ITEM SUMMARY:
The City continues to engage NewGen Strategies for water and wastewater utility cost of service and rate modeling for Fiscal Year 2027, with increases to be effective October 1, 2026. Model results and rates were last presented during the spring of 2026 for Fiscal Year 2027, with increases effective October 1, 2026.

Staff and NewGen have continued to update the model to: update known changes in water resource negotiations, update the timing of capital projects from the master plan, update customer growth assumptions, update inflation assumptions, update debt structuring, and update new programming for the FY2027 budget. These results were reviewed with the Water Advisory Board at their May 14th, 2026 meeting. The Board supported the proposed rate changes. The FY2027 updated model was reviewed with Council at the May 26, 2026 workshop. The proposed residential and commercial rate increases are 4% to the Water Base Rate and 14% to the Water Volumetric Rate. In the previous Rate Study, an estimated 9% increase was proposed for both Water Base Rates and Water Volumetric Rates. This change places a greater increase in volumetric consumption while reducing the base rate increase by 5%, shifting more cost recovery to volumetric rates and giving customers greater control over their bill. This reflects the recent policy change on fixed-cost recovery. For a typical residential household using 6,000 gallons per month, this represents a $2.00 increase to base rate charges and a $2.35 increase to volumetric charges per month. This rate is still comparable with other regional water utility providers.

In addition, the City has evaluated the water meter tap rates to ensure they cover current costs. The large (4” and greater) meter connection fee schedule has been updated to a labor/equipment + meter price calculation to cover the variable cost of different meter types and applications at these sizes.

FINANCIAL IMPACT:
Rate increases are proposed to be effective October 1, 2026 and reflected in the fiscal year 2027 Operating Budget. Additional rate increases are forecasted for the next 5 years.

GEORGETOWN TEXAS

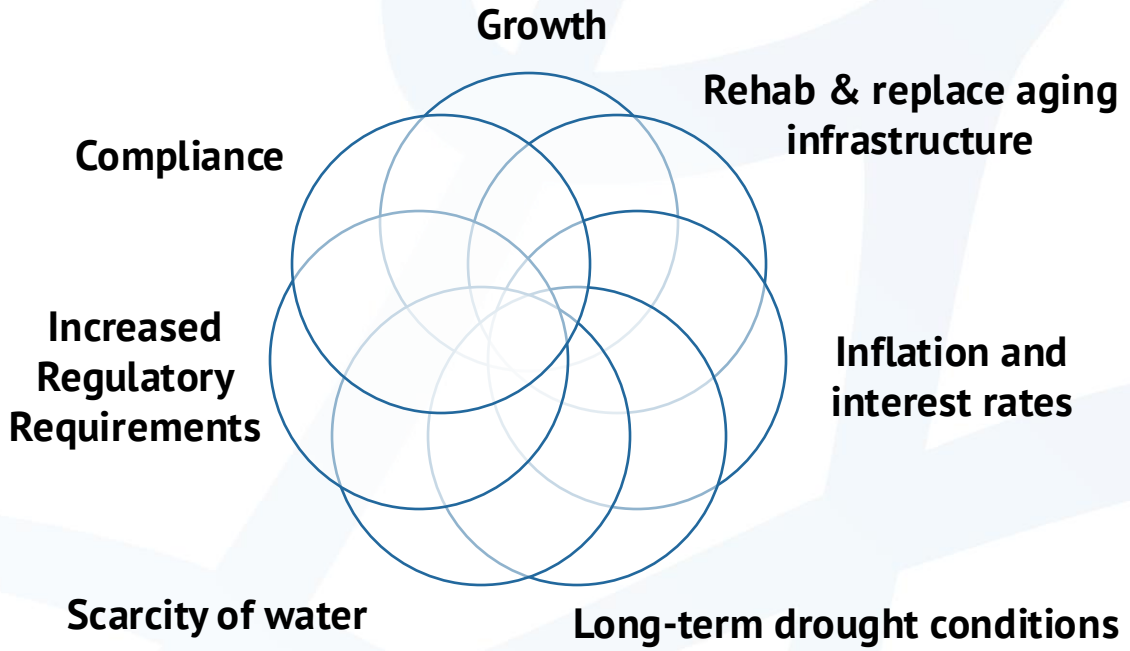
Rate Design Milestones

DATE	ACTION
May 14, 2026	Water Utility Advisory Board review of cost of service and rates
May 26, 2026	Council Workshop to review cost of service and rate design
July 14, 2026	First Reading of Ordinance Revisions
July 28, 2026	Second Reading of Ordinance Revisions
October 1, 2026	Effective Date of FY2027 Rates

Rate Goals

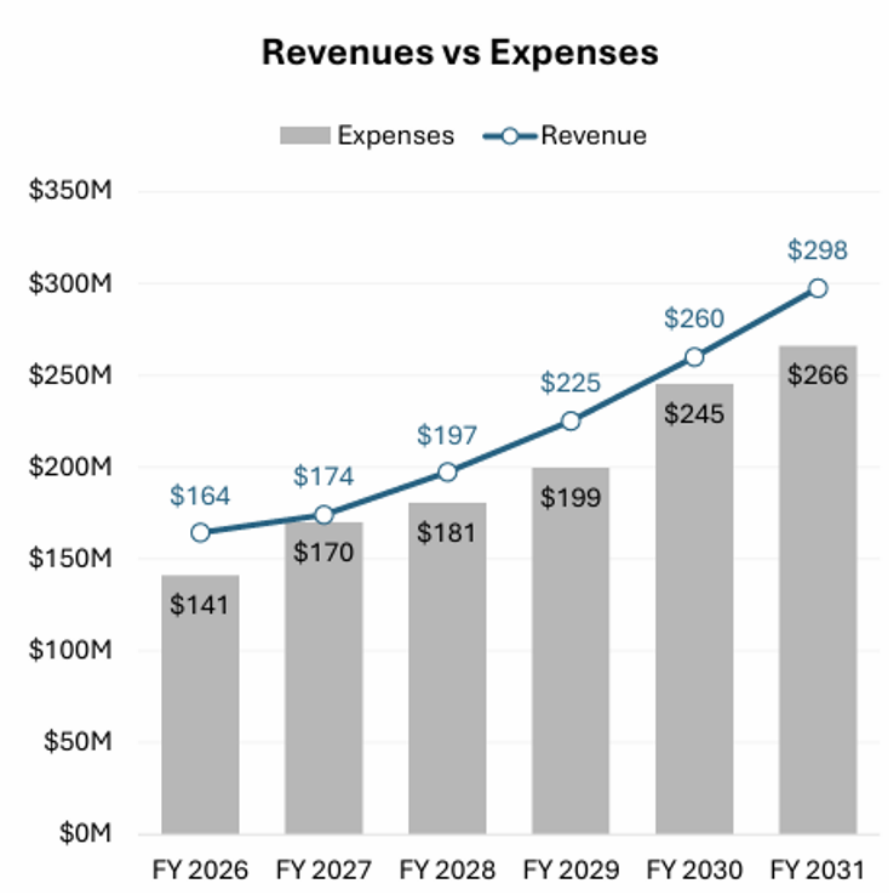
Our goal is to provide safe, reliable and affordable water and wastewater services

Rate studies are an industry best practice that ensure:



- Revenues are sufficient to recover operating costs
- Ability to proactively maintain and invest in infrastructure
- Based on the equitable allocation of costs to each customer class
- A reflection of the values of our customers and community

MAJOR FACTORS BEHIND MULTI-YEAR RISING WATER RATES

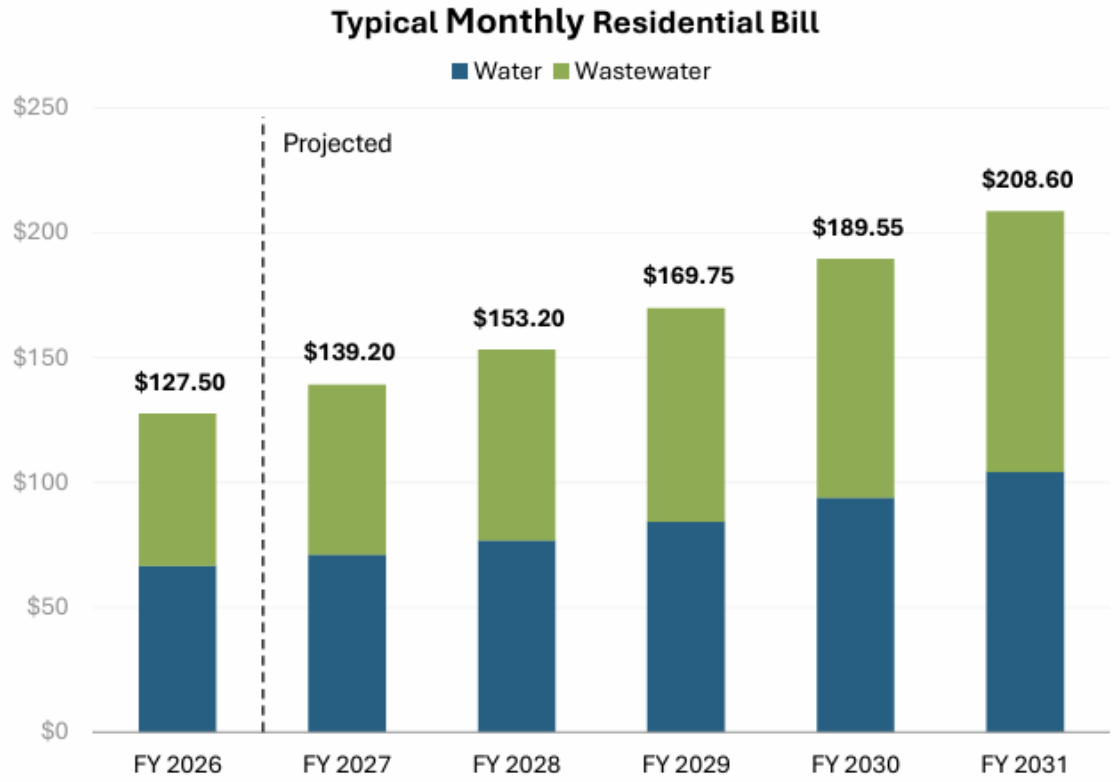


Multitude of pressures influencing our cost of service

Water rates are rising across the state and nation for a variety of reasons, and Georgetown is not immune to those impacts.

Our strategic investments in supply reliability, coupled with work to maintain our system, mean that residents and businesses will pay more for water in future years.

Projected Rate Performance



- Projected annual increases range from 4% - 14% per year for various components of water and wastewater rates.
- Larger increases applied to water volumetric charges to provide stronger price incentives to conserve water.
- Larger increases applied to wastewater minimum charges to address cost recovery requirements.

Projected Rate Increases

Water	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031
Minimum / Fixed	4.0%	6.0%	8.0%	10.0%	10.0%
Volumetric	14.0%	14.0%	14.0%	14.0%	14.0%
Wastewater	**FY 2027**	**FY 2028**	**FY 2029**	**FY 2030**	**FY 2031**
Minimum / Fixed	12.0%	12.0%	12.0%	12.0%	9.0%
Volumetric	12.0%	12.0%	12.0%	12.0%	9.0%

Rate Effect on Monthly Bills

- Impact of projected rate increases on typical residential customer
- ¾” Meter
- 6,000 Gallons Water Consumption

Customer Engagement & Assistance

- Disseminate messaging on all City communication channels as part of the FY2027 budget process. Examples include:
  - News release
  - City website
  - Social media
  - Utility bill inserts
- Continue focus on conservation, rebates, and customer assistance programs

Water Tap Fees

- Tap Fees updated for costs of meters, staff time, and vehicle costs, and equipment costs.
  - Large (> 3”) tap fees modified to formula-based fee to allow for appropriate cost recovery based on meter type.
    - EX: a standard 6” meter currently costs $5,267.00, while a 6” high/low flow meter costs over $20,000.
      - Under existing fee schedule, non-standard meter types are issued at a deficit to the utility.
      - New fee schedule charges fixed labor and equipment costs plus the current price we are paying for the meter.
        - In-City = $726.95 + current meter price
        - Outside City = $799.65 + current meter price

Water Tap Fees – Inside City

- Fee includes meter, radio, labor, truck roll, administrative fee, franchise fee and PILOT.
- Larger meters include more than one staff person and crane truck.

Size – Inside City Limits	FY 2026	Proposed
WATER METER CONNECTIONS-3/4"	$640.00	$698.50
WATER METER CONNECTIONS-1"	$730.00	$770.95
WATER METER CONNECTIONS-1 1/2"	$860.00	$1,044.85
WATER METER CONNECTIONS-2"	$1,250.00	$1,315.30
WATER METER CONNECTIONS-3"	$2,840.00	$2,976.85
WATER METER CONNECTIONS-4”	$3,830.00	$726.95 + Meter Price
WATER METER CONNECTIONS-6"	$6,250.00	$726.95 + Meter Price
WATER METER CONNECTIONS-8"	$7,370.00	$726.95 + Meter Price
WATER METER CONNECTIONS-10"	$12,870.00	$726.95 + Meter Price
WATER METER CONNECTIONS-12"	$16,070.00	$726.95 + Meter Price

Water Tap Fees – Outside City

- Fee includes meter, radio, labor, truck roll, administrative fee, franchise fee and PILOT.
- Larger meters include more than one staff person and crane truck.

Size – Outside City Limits	FY 2026	Proposed
WATER METER CONNECTIONS-3/4"	$670.00	$768.40
WATER METER CONNECTIONS-1"	$750.00	$848.05
WATER METER CONNECTIONS-1 1/2"	$880.00	$1,149.30
WATER METER CONNECTIONS-2"	$1,270.00	$1,446.85
WATER METER CONNECTIONS-3"	$2,900.00	$3,274.50
WATER METER CONNECTIONS-4"	$3,900.00	$799.65 + Meter Price
WATER METER CONNECTIONS-6"	$6,380.00	$799.65 + Meter Price
WATER METER CONNECTIONS-8"	$7,490.00	$799.65 + Meter Price
WATER METER CONNECTIONS-10"	$13,020.00	$799.65 + Meter Price
WATER METER CONNECTIONS-12"	$16,220.00	$799.65 + Meter Price

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTIONS 13.04.120 AND 13.04.150 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS RELATING TO WATER SERVICE RATES AND CHARGES AND WATER TAP AND METER FEES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

Ordinance Caption Sewer

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 13.04.140 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS TITLED "RATES AND CHARGES--SEWERS—SCHEDULE"; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PUBLICATION; AND SETTING AN EFFECTIVE DATE.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTIONS 13.04.120 AND 13.04.150 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS RELATING TO WATER SERVICE RATES AND CHARGES AND WATER TAP AND METER FEES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown periodically reviews and adjusts its water rates; and

WHEREAS, the City of Georgetown (the "City") last modified its water rates in October 2025; and

WHEREAS, the City has completed a cost of service study for the water utility service territory; and

WHEREAS, the City has conducted a review of its water tap, and engineering and inspection fees;

WHEREAS, the City wishes to implement water rates that recover the cost of water service for all customer classes; and

WHEREAS, the City wishes to implement a water rate structure that promotes water conservation, equity in billing, and the reduction of peak water demand; and

WHEREAS, the City Council of the City of Georgetown wishes to amend the current water rates and adopt proposed rates, effective for all utility services provided on and after October 1, 2026.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS THAT:

SECTION 1. The meeting at which this ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

SECTION 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 3. Section 13.04.120 of the Code of Ordinances of the City of Georgetown, Texas is hereby amended to read as set forth in **Exhibit A**, attached hereto and incorporated herein.

SECTION 4. Section 13.04.150 of the Code of Ordinances of the City of Georgetown,

Texas are hereby amended to read as set forth in **Exhibit B**, attached hereto and incorporated herein.

SECTION 5. All ordinances and resolutions, or parts of ordinances and resolutions, in conflict with this Ordinance are hereby repealed, and are no longer of any force and effect.

SECTION 6. If any provision of this ordinance or application thereof to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

SECTION 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This ordinance shall become effective and be in full force and effect on October 1, 2026, in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the _____of _____, 2026.

PASSED AND APPROVED on Second Reading on the _____ of _____, 2026.

Exhibit A

Sec. 13.04.120. Rates and charges—Water—Schedule.

Rates and charges for water service are as follows:

A. Single-Family Residential Service:

1. Availability. This schedule applies to Residential Customers in single-family residences, or to residential locations with a water meter for each Dwelling Unit.

2. Customer Base Charge per month.

Meter Size	Inside City Limits	Outside City Limits
⅝-inch meter	$34.60	$41.60
¾-inch meter	$51.85	$62.40
1-inch meter	$86.50	$104.05
1½-inch meter	$172.85	$208.00
2-inch meter	$345.75	$416.05

3. Monthly Customer Volumetric Charge, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.80
Over 15,001 gallons, up to and including 25,000 gallons	$8.40
Over 25,001 gallons, up to and including 50,000 gallons	$16.75
Over 50,001 gallons	$21.00

4. Residential Customers may request a low-income water discount that is 30 percent (30%) below the current base rate for the meter size that is applicable.

   a) Request for a low-income discount must be made in writing.

   b) To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program and provide verifiable proof of that participation, such as an award letter or other official documentation.

   c) Requests for the low-income discount must be renewed annually.

   d) Customers qualifying for the sewer low-income discount will automatically receive the water discount.

B. Multi-family Residential Service:

1. Availability. This schedule applies to Multi-Family Residential Customers with domestic use only and more than one individual Dwelling Unit per water meter.

2. Multi-Family Residential Base Charge per month.

   a) Inside City Limits - $34.60 multiplied by the number of Dwelling Units

   b) Outside City Limits - $41.60 multiplied by the number of Dwelling Units

3. Multi-Family Residential Volume per Dwelling Unit will be calculated using the following formula:

$$\textbf{Volume per Unit} = \left(\frac{\textbf{total billable volume in gallons, per the meter}}{\textbf{\# of dwelling units served by the meter}}\right)$$

a) Monthly Multi-Family Residential Volumetric Charge applied per Dwelling Unit, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.80
Over 15,001 gallons, up to and including 25,000 gallons	$8.40
Over 25,001 gallons, up to and including 50,000 gallons	$16.80
Over 50,001 gallons	$21.00

b) Example: Shows calculation method for monthly Multi-family Residential Volumetric charges only

Total billable Multi-family Volume, per the Meter = 500,000 gallons Total

Number of Dwelling Units served by the Meter = 14

Volume per Unit = $\frac{500{,}000}{14}$ = **35,714 gallons per dwelling unit**

Volumetric Tiered Structure	Unit Usage (kgals)	Dwelling Units Served	Total Usage, per the Meter (kgals)	Rate	Charge per 1,000 gallons
Up to and including 7,000 gallons	7	14	98	$3.20	$313.60
Over 7,001 gallons, up to and including 15,000 gallons	8	14	112	$4.80	$537.60
Over 15,001 gallons, up to and including 25,000 gallons	10	14	140	$8.40	$1176.00
Over 25,001 gallons, up to and including 50,000 gallons	10.714	14	150	$16.80	$2520.00
Over 50,001 gallons				$21.00	$0.00
Total Multi-family Residential Volumetric Charges	35.714		500		$4547.20

C. RV Park Service:

1. Availability. This schedule applies to RV Parks whose meter is sized to provide residential service from a master meter Eight (8) Recreational Vehicle sites at an RV Park, whether occupied or not, are equivalent to one (1) Dwelling Unit.
2. RV Park Base Charge per month.
   a) Inside City Limits - $51.85 multiplied by 1/8th the number of Dwelling Units
   b) Outside City Limits - $62.40 multiplied by 1/8th the number of Dwelling Units
3. RV Park Volume per Dwelling Unit equivalent will be calculated using the following formula:

$$\textbf{Volume per Unit} = \left(\frac{\textbf{total billable volume in gallons, per the meter}}{\textbf{\# of dwelling units served by the meter}}\right)$$

a) Monthly RV Park Residential Volumetric Charge applied per Dwelling Unit equivalent, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.80
Over 15,001 gallons, up to and including 25,000 gallons	$8.40
Over 25,001 gallons, up to and including 50,000 gallons	$16.75
Over 50,001 gallons	$21.00

b) Example: Shows calculation method for monthly RV Park Volumetric charges only

Total billable RV Park Volume, per the Meter = 500,000 gallons

Total Number of dwelling units served by the Meter = 112 slots = 112/8 = 14 Dwelling Units

Volume per Unit = $\frac{500{,}000}{14}$ = **35,714 gallons per dwelling unit**

Volumetric Tiered Structure	Unit Usage (kgals)	Dwelling Units Served	Total Usage, per the Meter (kgals)	Rate	Charge per 1,000 gallons
Up to and including 7,000 gallons	7	14	98	$3.20	$313.60
Over 7,001 gallons, up to and including 15,000 gallons	8	14	112	$4.80	$537.60
Over 15,001 gallons, up to and including 25,000 gallons	10	14	140	$8.40	$1176.00
Over 25,001 gallons, up to and including 50,000 gallons	10.714	14	150	$16.75	$2512.50
Over 50,001 gallons				$21.00	$0.00
Total RV park residential volumetric charges	35.714		500		$4539.70

D. Non-Residential Service:

1. Availability. This schedule applies to Non-Residential Customers who meet one of the following criteria:

a) Water usage is primarily due to manufacturing of a product and irrigation usage is metered separately;

b) Municipal facilities that agree to curtail water usage at the Utility's discretion based on drought measures and conservation practices;

c) Customers that operate a restaurant with a meter size of less than two inches;

d) Customers with installed and qualifying on-site evaporative cooling equipment;

e) Customers utilizing reclaimed water;

f) Irrigation-only meters; or

g) Customers whose use is not covered by a specific rate schedule.

2. Non-Residential Customer Base Charge per month.

Meter Size	Inside City Limits	Outside City Limits
¾-inch meter	$51.85	$62.40
1-inch meter	$86.50	$104.05
1½-inch meter	$172.85	$208.00
2-inch meter	$345.75	$416.05
3-inch meter	$829.80	$998.45
4-inch meter	$1452.15	$1747.35
6-inch meter	$3180.85	$3827.45
8-inch meter	$5531.95	$6656.50
Fire hydrant meter	$829.80	$998.45

3. Monthly Non-Residential Volumetric Charge, per 1,000 gallons for inside and outside City limits:

Customer Type	Meter Size	Tier 1 Rate	Tier 2 Rate	Tier 2 Threshold
Small commercial	<2"	$4.20	$11.35	300,001 gallons
Large commercial	2"	$4.20	$11.35	600,001 gallons
Large commercial	3"	$4.20	$11.35	900,001 gallons
Large commercial	4"	$4.20	$11.35	4,000,001 gallons
Large commercial	6"	$4.20	$11.35	6,000,001 gallons
Large commercial	8"	$4.20	$11.35	8,000,001 gallons
Manufacturing	<8"	$4.20		
Municipal interruptible		$4.20		
Restaurant		$4.20		
Evaporative Cooling		$4.20		
Fire flow		$4.20		
Irrigation only		$12.60		
Fire hydrant meter		$14.95		
Reclaimed water		$2.20		

E. Fire Hydrant Meter/Bulk Water:

1. Applicability. This section applies to bulk water customers authorized by the City to take water from a pre-determined fire hydrant having a fixed bulk meter.

a) A $1,500 deposit is required prior to use unless water is prepaid (bulk water).

b) Usage is read and billed monthly.

c) Monthly base rate is established in Section 13.04.120.C.2 “Fire Hydrant Meter.”

d) Monthly volumetric charge is established in Section 13.04.120.C.3 “Fire Hydrant Meter.”

e) Additional requirements pertaining to fire hydrants used for bulk water delivery are in Chapter 13.35 (*Fire Hydrant Use*) and Chapter 13.36 (*Cross Connection Control*).

F. A customer may request an exemption to the rates provided in this Section for leaks that occur on the customer side of the meter. The request shall be in writing and addressed to the City Manager or his or her designee, who, after a review of the circumstances of the request, may approve or disapprove the exemption request in his or her sole discretion.

G. All other provisions for City utility service shall apply, except as provided in this Chapter.

Exhibit B

Sec. 13.04.150. Water tap rates.

Water tap rates are as follows:

A. Inside city.

WATER METER CONNECTIONS-3/4"	$698.50
WATER METER CONNECTIONS-1"	$770.95
WATER METER CONNECTIONS-1 1/2"	$1,044.85
WATER METER CONNECTIONS-2"	$1,315.30
WATER METER CONNECTIONS-3"	$2,976.85
WATER METER CONNECTIONS-4"	$726.95 + meter price
WATER METER CONNECTIONS-6"	$726.95 + meter price
WATER METER CONNECTIONS-8"	$726.95 + meter price
WATER METER CONNECTIONS-10"	$726.95 + meter price
WATER METER CONNECTIONS-12"	$726.95 + meter price

B. Outside city.

WATER METER CONNECTIONS-3/4"	$768.40
WATER METER CONNECTIONS-1"	$848.05
WATER METER CONNECTIONS-1 1/2"	$1,149.30
WATER METER CONNECTIONS-2"	$1,446.85
WATER METER CONNECTIONS-3"	$3,274.50
WATER METER CONNECTIONS-4"	$799.65 + meter price
WATER METER CONNECTIONS-6"	$799.65 + meter price
WATER METER CONNECTIONS-8"	$799.65 + meter price
WATER METER CONNECTIONS-10"	$799.65 + meter price
WATER METER CONNECTIONS-12"	$799.65 + meter price

C. Large Meter Connection Fees

1. For meters 4” and larger, meter connection fees will be calculated using the meter price at the time of the meter request for the selected meter size plus the following labor and equipment charges:
    a. Inside City
        i. $726.95
    b. Outside City
        i. $799.65

Plus:

Engineering and Inspection Fee	In City	Out of City
Residential:		
Single-family	$625 per dwelling unit	$625 per dwelling unit
Multi-family (4 or more units)	$400 per dwelling unit	$420 per dwelling unit
RV's Per Spot	$80.00 per spot	$80.00 per spot
Non-residential	$.25 per sq. ft. area	$.25 per sq. ft. area

Sec. 13.04.120. Rates and charges—Water—Schedule.

Rates and charges for water service are as follows:

A. Single-Family Residential Service:

1. Availability. This schedule applies to residential customers Residential Customers in single-family residences, or to residential locations with a water meter for each dwelling unit. Dwelling Unit.

2. Customer Base Charge Per Month. per month.

Meter Size	Inside City Limits	Outside City Limits
⅝-inch meter	$33.25 34.60	$40.00 41.60
¾-inch meter	$49 51.85	$60.00 62.40
1-inch meter	$83.15 86.50	$100 104.05
1½-inch meter	$166.20 172.85	$200 208.00
2-inch meter	$332.45 345.75	$400 416.05

3. Monthly customer volumetric charge Customer Volumetric Charge, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$2.80 3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.20 80
Over 15,001 gallons, up to and including 25,000 gallons	$7.35 8.40
Over 25,001 gallons, up to and including 50,000 gallons	$14.70 16.75
Over 50,001 gallons	$18.40 21.00

4. Residential customers Customers may request a low-income water discount that is 30 percent (30%) below the current base rate for the meter size that is applicable.

a) Request for a low-income discount must be made in writing.

b) To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program and provide verifiable proof of that participation, such as an award letter or other official documentation.

c) Requests for the low-income discount must be renewed annually.

d) Customers qualifying for the sewer low-income discount will automatically receive the water discount.

B. Multi-Family family Residential Service:

1. Availability. This schedule applies to Multi-family Family Residential customers Customers with domestic use only and more than one individual dwelling unit Dwelling Unit per water meter.

2. Multi-Family Residential Base Charge Per Month. per month.

a) Inside City Limits: $33.25 - $34.60 multiplied by the number of dwelling units. Dwelling Units

b) Outside City Limits: $40.00 - $41.60 multiplied by the number of dwelling units. Dwelling Units

3.

3. Multi-~~family residential volume per dwelling unit~~Family Residential Volume per Dwelling Unit will be calculated using the following formula:

~~$$Volume\ per\ Unit = \left(\frac{total\ billable\ volume\ in\ gallons, per\ the\ meter}{\#\ of\ dwelling\ units\ served\ by\ the\ meter}\right)$$~~

$$Volume\ per\ Unit = \left(\frac{total\ billable\ volume\ in\ gallons, per\ the\ meter}{\#\ of\ dwelling\ units\ served\ by\ the\ meter}\right)$$

~~a.~~

a) Monthly ~~multi-family residential volumetric charge~~Multi-Family Residential Volumetric Charge applied per ~~dwelling unit~~Dwelling Unit, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$~~2.80~~ 3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.~~20~~ 80
Over 15,001 gallons, up to and including 25,000 gallons	$~~7.35~~ 8.40
Over 25,001 gallons, up to and including 50,000 gallons	$~~14.70~~ 16.80
Over 50,001 gallons	$~~18.40~~ 21.00

b) Example: Shows calculation method for monthly ~~multi~~Multi-family ~~residential volumetric~~Residential Volumetric charges only~~.~~

Total billable ~~multi~~Multi-family ~~volume~~Volume, per the ~~meter~~Meter = 500,000 gallons

Total ~~number~~Number of ~~dwelling units~~Dwelling Units served by the ~~meter~~Meter = 14

Volume per Unit = $\frac{500{,}000}{14}$ = **35,714 gallons per dwelling unit**

~~Volume per Unit = $\frac{500{,}000}{14}$ = 35,714 gallons per dwelling unit~~

Volumetric Tiered Structure	Unit Usage (kgals)	Dwelling Units Served	Total Usage, per the Meter (kgals)	Rate	Charge per 1,000 gallons
Up to and including 7,000 gallons	7	14	98	$~~2.80~~ 3.20	$~~274.40~~ 313.60
Over 7,001 gallons, up to and including 15,000 gallons	8	14	112	$4.~~20~~ 80	$~~470.40~~ 537.60
Over 15,001 gallons, up to and including 25,000 gallons	10	14	140	$~~7.35~~ 8.40	$~~1,029~~1176.00
Over 25,001 gallons, up to and including 50,000 gallons	10.714	14	150	$~~14.70~~ 16.80	$~~2,204.94~~ 2520.00
Over 50,001 gallons				$~~18.40~~ 21.00	$0.00
Total ~~multi~~Multi-family ~~residential volumetric charges~~ Residential Volumetric Charges	35.714		500		$~~3,978.74~~ 4547.20

C. RV Park ~~service.~~ Service:

1. Availability. This schedule applies to RV Parks whose meter is sized to provide residential service from a master meter~~.~~ Eight ~~recreational vehicle~~(8) Recreational Vehicle sites at an RV Park, whether occupied or not, are equivalent to one ~~dwelling unit.~~ (1) Dwelling Unit.

2. RV Park Base Charge ~~Per Month.~~ per month.

a) Inside City Limits~~: $49~~ - $51.85 multiplied by 1/8th the number of ~~dwelling units.~~ Dwelling Units

b) Outside City Limits~~: $60.00~~ - $62.40 multiplied by 1/8th the number of ~~dwelling units.~~ Dwelling Units

3. RV Park ~~volume~~Volume per ~~dwelling unit~~Dwelling Unit equivalent will be calculated using the following formula:

~~$$Volume\ per\ Unit = \left(\frac{total\ billable\ volume\ in\ gallons, per\ the\ meter}{\#\ of\ dwelling\ units\ served\ by\ the\ meter}\right)$$~~

~~a.~~

$$\textit{Volume per Unit} = \left(\frac{\textit{total billable volume in gallons, per the meter}}{\textit{\# of dwelling units served by the meter}}\right)$$

a) Monthly RV ~~park residential volumetric charge~~Park Residential Volumetric Charge applied per ~~dwelling unit~~Dwelling Unit equivalent, per 1,000 gallons for inside and outside City limits:

Up to and including 7,000 gallons	$~~2.80~~ 3.20
Over 7,001 gallons, up to and including 15,000 gallons	$4.~~20~~ 80
Over 15,001 gallons, up to and including 25,000 gallons	$~~7.35~~ 8.40
Over 25,001 gallons, up to and including 50,000 gallons	$~~14.70~~ 16.75
Over 50,001 gallons	$~~18.40~~ 21.00

b) Example: Shows calculation method for monthly RV Park ~~volumetric~~Volumetric charges only~~.~~

Total billable RV ~~park volume~~Park Volume, per the ~~meter~~Meter = 500,000 gallons

Total ~~number~~Number of dwelling units served by the ~~meter~~Meter = 112 slots = 112/8 = 14 ~~dwelling units~~ Dwelling Units

~~Volume per Unit = $\frac{500{,}000}{14}$ = 35,714 gallons per dwelling unit~~

Volume per Unit = $\frac{500{,}000}{14}$ = **35,714 gallons per dwelling unit**

Volumetric Tiered Structure	Unit Usage (kgals)	Dwelling Units Served	Total Usage, per the Meter (kgals)	Rate	Charge per 1,000 gallons
Up to and including 7,000 gallons	7	14	98	$~~2.80~~ 3.20	$~~274.40~~ 313.60
Over 7,001 gallons, up to and including 15,000 gallons	8	14	112	$4.~~20~~ 80	$~~470.40~~ 537.60
Over 15,001 gallons, up to and including 25,000 gallons	10	14	140	$~~7.35~~ 8.40	$~~1,029~~1176.00
Over 25,001 gallons, up to and including 50,000 gallons	10.714	14	150	$~~14.70~~ 16.75	$~~2,204.94~~ 2512.50
Over 50,001 gallons				$~~18.40~~ 21.00	$0.00
Total RV park residential volumetric charges	35.714		500		$~~3,978.74~~ 4539.70

D. Non-Residential Service~~.~~:

1. ~~1.~~ Availability. This schedule applies to ~~nonresidential customers~~Non-Residential Customers who meet one of the following criteria:

a) Water usage is primarily due to manufacturing of a product and irrigation usage is metered separately;

b) Municipal facilities that agree to curtail water usage at the Utility's discretion based on drought measures and conservation practices;

c) Customers that operate a restaurant with a meter size of less than two inches;

d) Customers with installed and qualifying on-site evaporative cooling

equipment;

e) Customers utilizing reclaimed water;

f) Irrigation-only meters; or

g) Customers whose use is not covered by a specific rate schedule.

2. ~~2. Nonresidential~~Non-Residential Customer Base Charge ~~Per Month.~~ per month.

Meter Size	Inside City Limits	Outside City Limits
¾-inch meter	$~~49~~51.85	$~~60.00~~ 62.40
1-inch meter	$~~83.15~~ 86.50	$~~100~~104.05
1½-inch meter	$~~166.20~~ 172.85	$~~200~~208.00
2-inch meter	$~~332.45~~ 345.75	$~~400~~416.05
3-inch meter	$~~797.90~~ 829.80	$~~960.05~~ 998.45
4-inch meter	$~~1,396.30~~ 1452.15	$~~1,680.15~~ 1747.35
6-inch meter	$~~3,058.50~~ 3180.85	$~~3,680.25~~ 3827.45
8-inch meter	$~~5,319.20~~ 5531.95	$~~6,400~~6656.50
Fire hydrant meter	$~~797.90~~ 829.80	$~~960.05~~ 998.45

3. Monthly ~~Nonresidential~~Non-Residential Volumetric Charge, ~~Per~~per 1,000 ~~Gallons~~gallons for ~~Inside~~inside and ~~Outside~~outside City ~~Limits:~~ limits:

Customer Type	Meter Size	Tier 1 Rate	Tier 2 Rate	Tier 2 Threshold
Small commercial	<2"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	300,001 gallons
Large commercial	2"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	600,001 gallons
Large commercial	3"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	900,001 gallons
Large commercial	4"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	4,000,001 gallons
Large commercial	6"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	6,000,001 gallons
Large commercial	8"	$~~3.70~~ 4.20	$~~9.96~~ 11.35	8,000,001 gallons
Manufacturing	<8"	$~~3.70~~ 4.20		
Municipal interruptible		$~~3.70~~ 4.20		
Restaurant		$~~3.70~~ 4.20		
Evaporative Cooling		$~~3.70~~ 4.20		
Fire flow		$~~3.70~~ 4.20		
Irrigation only		$~~11.05~~ 12.60		
Fire hydrant meter		$~~13.10~~ 14.95		
Reclaimed water		$~~1.95~~ 2.20		

E. Fire Hydrant Meter/Bulk Water~~.~~:

1. Applicability. This section applies to bulk water customers authorized by the City to take water from a pre-determined fire hydrant having a fixed bulk meter.

a) A $1,500~~.00~~ deposit is required prior to use unless water is prepaid (bulk water).

b) Usage is read and billed monthly.

c) Monthly base rate is established in Section 13.04.120.C.2 "“Fire ~~hydrant meter."~~ Hydrant Meter.”

d) Monthly volumetric charge is established in Section 13.04.120.C.3 "“Fire ~~hydrant meter."~~ Hydrant Meter.”

~~e.~~de) Additional requirements pertaining to fire hydrants used for bulk water delivery are in Chapter 13.35 (*Fire* ~~hydrant use~~*Hydrant Use*) and Chapter 13.36 (*Cross* ~~connection control).~~ *Connection Control*).

F. A customer may request an exemption to the rates provided in this Section for leaks that occur on the customer side of the meter. The request shall be in writing and addressed to the City Manager or his or her designee, who, after a review of the circumstances of the request, may approve or disapprove the exemption request in his or her sole discretion.

G. All other provisions for City utility service shall apply, except as provided in this Chapter.

Sec. 13.04.150. Water tap rates.

Water tap rates are as follows:

A. Inside ~~City.~~ city.

WATER METER CONNECTIONS-3/4"	$698.50
~~Water meter connections 1"~~ WATER METER CONNECTIONS-1"	$~~730.00~~ 770.95
~~Water meter connections 1½"~~ WATER METER CONNECTIONS-1 1/2"	$~~860.00~~ 1,044.85
~~Water meter connections 2"~~ WATER METER CONNECTIONS-2"	$1,~~250.00~~ 315.30
~~Water meter connections 3"~~ WATER METER CONNECTIONS-3"	$2,~~840.00~~ 976.85
~~Water meter connections 4"~~ WATER METER CONNECTIONS-4"	~~$3,830.00~~ $726.95 + meter price
~~Water meter connections 6"~~ WATER METER CONNECTIONS-6"	~~$6,250.00~~ $726.95 + meter price
~~Water meter connections 8"~~ WATER METER CONNECTIONS-8"	~~$7,370.00~~ $726.95 + meter price
~~Water meter connections 10"~~ WATER METER CONNECTIONS-10"	~~$12,870.00~~ $726.95 + meter price
~~Water meter connections 12"~~ WATER METER CONNECTIONS-12"	~~$16,070.00~~ $726.95 + meter price

B. Outside ~~City.~~ city.

~~Water meter connections ¾"~~ WATER METER CONNECTIONS-3/4"	$~~670.00~~ 768.40
~~Water meter connections 1"~~ WATER METER CONNECTIONS-1"	$~~750.00~~ 848.05
~~Water meter connections 1½"~~ WATER METER CONNECTIONS-1 1/2"	$~~880.00~~ 1,149.30
~~Water meter connections 2"~~ WATER METER CONNECTIONS-2"	$1,~~270.00~~ 446.85
~~Water meter connections 3"~~ WATER METER CONNECTIONS-3"	$~~2,900.00~~ 3,274.50
~~Water meter connections 4"~~ WATER METER CONNECTIONS-4"	~~$3,900.00~~ $799.65 + meter price
~~Water meter connections 6"~~ WATER METER CONNECTIONS-6"	~~$6,380.00~~ $799.65 + meter price
~~Water meter connections 8"~~ WATER METER CONNECTIONS-8"	~~$7,490.00~~ $799.65 + meter price

~~Water meter connections 12"~~ WATER	~~$16,220.00~~ $799.65 + meter price

METER CONNECTIONS-12"	

C. Large Meter Connection Fees

1. For meters 4” and larger, meter connection fees will be calculated using the meter price at the time of the meter request for the selected meter size plus the following labor and equipment charges:

a. Inside City

i. $726.95

b. Outside City

i. $799.65

Plus:

Engineering and Inspection Fee	~~-~~In City	Out of City
Residential:		
~~–~~Single-family	$625~~.00~~ per dwelling unit	$625~~.00~~ per dwelling unit
~~–~~Multi-family (4 or more units)	$400~~.00~~ per dwelling unit	$420~~.00~~ per dwelling unit
~~RV's per stop~~ RV's Per Spot	$80.00 per spot	$80.00 per spot
~~Nonresidential~~ Non-residential	~~$0.~~$.25 per sq. ft. area	~~$0.~~$.25 per sq. ft. area

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
Second Reading - Wastewater Rate Increase

SUGGESTED ACTION:
Second Reading of an Ordinance amending Section 13.04.140 of the Code of Ordinances related to sewer rates and charges -- Chelsea Solomon, PE, Water Utilities Director, and Leigh Wallace, Chief Financial Officer

ITEM SUMMARY:
The City continues to engage NewGen Strategies for water and wastewater utility cost of service and rate modeling for Fiscal Year 2027, with increases to be effective October 2026. Model results and rates were last presented during the spring of 2026 for Fiscal Year 2027, with increases effective October 1, 2026.

Staff and NewGen have continued to update the model to: update known changes in capital projects from the master plan, update customer growth assumptions, update inflation assumptions, update debt structuring, and update new programming for the FY2027 budget. These results were reviewed with the Water Advisory Board at their May 14th, 2026 meeting. The Board supported the proposed rate changes. The FY2027 updated model was reviewed with Council at the May 26, 2026 workshop. The proposed residential and commercial rate increases are 12% to the Wastewater (Sewer) Base Rate and 12% to the Wastewater Volumetric Rate. The wastewater base and volumetric rates in the previous Rate Study estimated a 13% increase for wastewater rates for fiscal year 2027. The impact on a residential customer is a $7.30 increase per month. This rate is still comparable with other regional water utility providers.

FINANCIAL IMPACT:
Rate increases are proposed to be effective October 1, 2026 and reflected in the fiscal year 2027 Operating Budget. Additional rate increases are forecasted for the next 5 years.

WATER AND SEWER RATES & ASSOCIATED FEES

July 28, 2026 | CITY COUNCIL

GEORGETOWN TEXAS

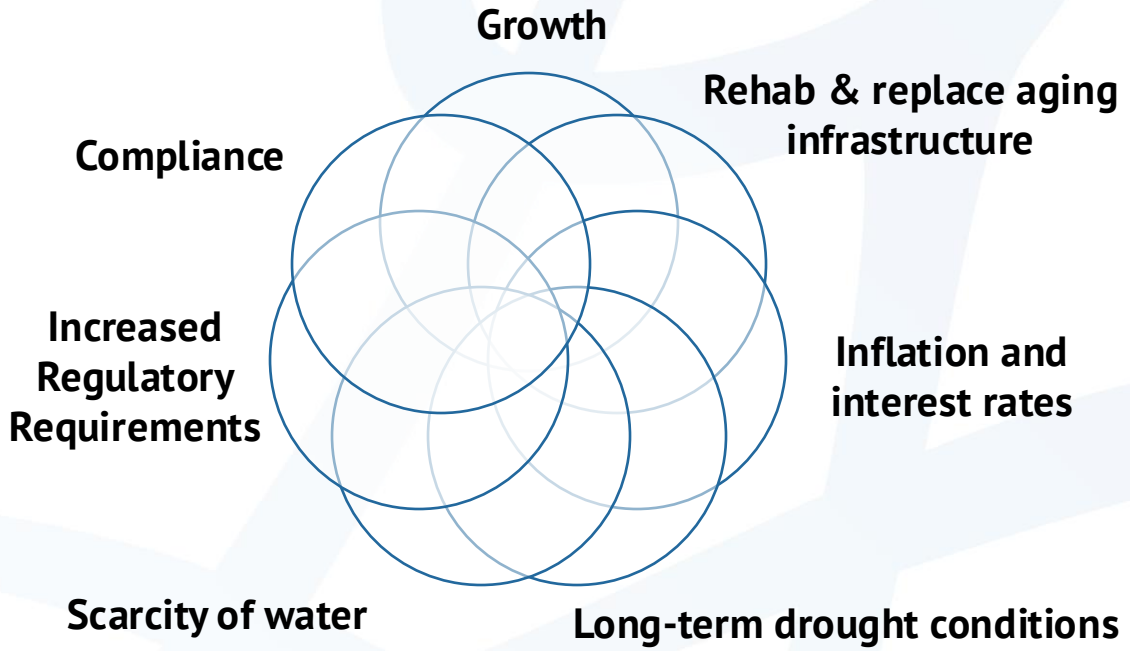
Rate Design Milestones

DATE	ACTION
May 14, 2026	Water Utility Advisory Board review of cost of service and rates
May 26, 2026	Council Workshop to review cost of service and rate design
July 14, 2026	First Reading of Ordinance Revisions
July 28, 2026	Second Reading of Ordinance Revisions
October 1, 2026	Effective Date of FY2027 Rates

Rate Goals

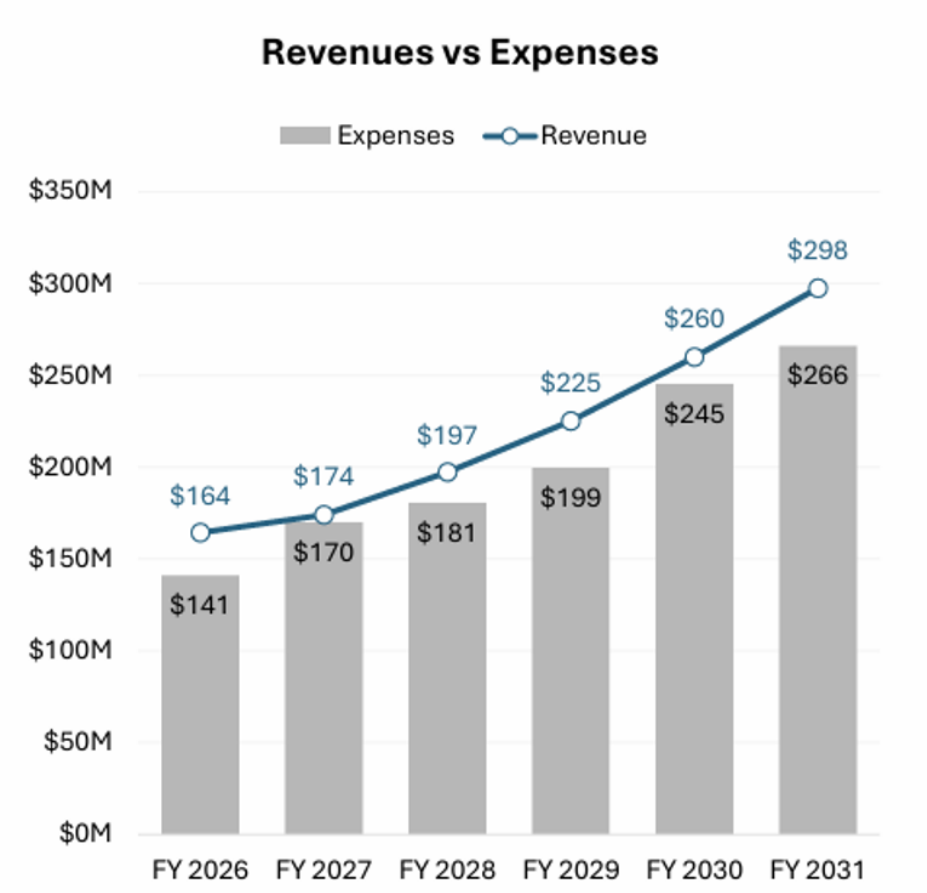
Our goal is to provide safe, reliable and affordable water and wastewater services

Rate studies are an industry best practice that ensure:



- Revenues are sufficient to recover operating costs
- Ability to proactively maintain and invest in infrastructure
- Based on the equitable allocation of costs to each customer class
- A reflection of the values of our customers and community

MAJOR FACTORS BEHIND MULTI-YEAR RISING WATER RATES

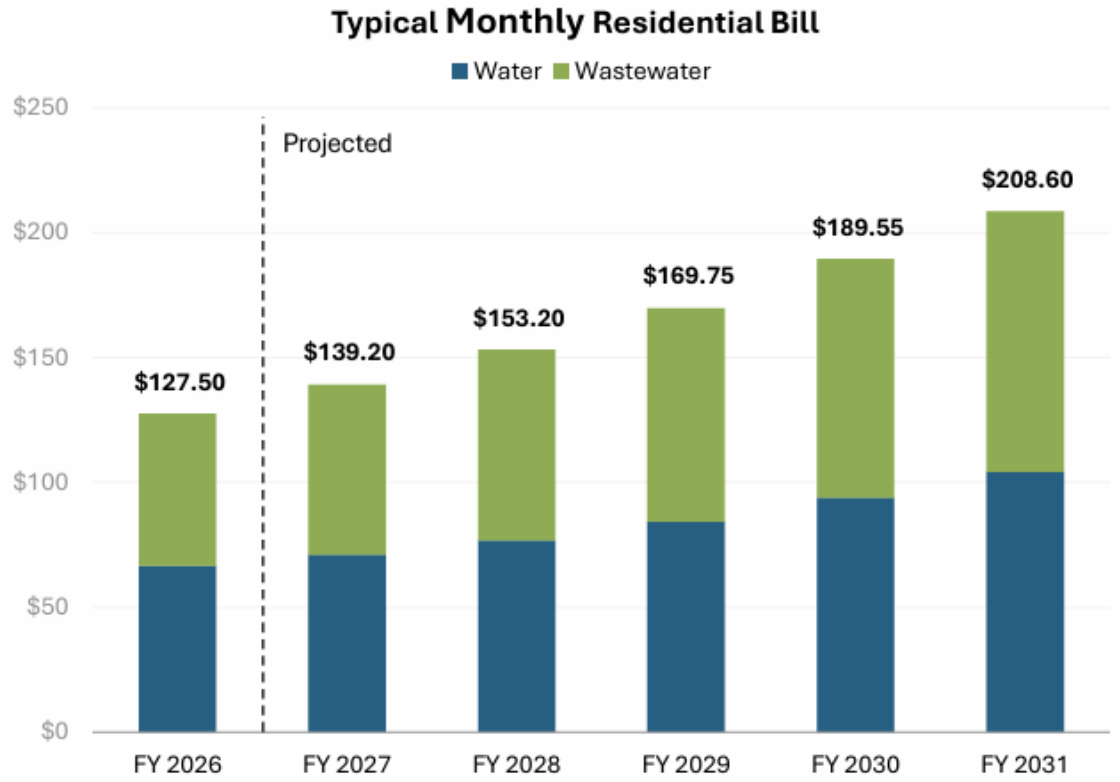


Multitude of pressures influencing our cost of service

Water rates are rising across the state and nation for a variety of reasons, and Georgetown is not immune to those impacts.

Our strategic investments in supply reliability, coupled with work to maintain our system, mean that residents and businesses will pay more for water in future years.

Projected Rate Performance



- Projected annual increases range from 4% - 14% per year for various components of water and wastewater rates.
- Larger increases applied to water volumetric charges to provide stronger price incentives to conserve water.
- Larger increases applied to wastewater minimum charges to address cost recovery requirements.

Projected Rate Increases

Water	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031
Minimum / Fixed	4.0%	6.0%	8.0%	10.0%	10.0%
Volumetric	14.0%	14.0%	14.0%	14.0%	14.0%
Wastewater	**FY 2027**	**FY 2028**	**FY 2029**	**FY 2030**	**FY 2031**
Minimum / Fixed	12.0%	12.0%	12.0%	12.0%	9.0%
Volumetric	12.0%	12.0%	12.0%	12.0%	9.0%

Rate Effect on Monthly Bills

- Impact of projected rate increases on typical residential customer
- ¾” Meter
- 6,000 Gallons Water Consumption

Customer Engagement & Assistance

- Disseminate messaging on all City communication channels as part of the FY2027 budget process. Examples include:
  - News release
  - City website
  - Social media
  - Utility bill inserts
- Continue focus on conservation, rebates, and customer assistance programs

Water Tap Fees

- Tap Fees updated for costs of meters, staff time, and vehicle costs, and equipment costs.
  - Large (> 3”) tap fees modified to formula-based fee to allow for appropriate cost recovery based on meter type.
    - EX: a standard 6” meter currently costs $5,267.00, while a 6” high/low flow meter costs over $20,000.
      - Under existing fee schedule, non-standard meter types are issued at a deficit to the utility.
      - New fee schedule charges fixed labor and equipment costs plus the current price we are paying for the meter.
        - In-City = $726.95 + current meter price
        - Outside City = $799.65 + current meter price

Water Tap Fees – Inside City

- Fee includes meter, radio, labor, truck roll, administrative fee, franchise fee and PILOT.
- Larger meters include more than one staff person and crane truck.

Size – Inside City Limits	FY 2026	Proposed
WATER METER CONNECTIONS-3/4"	$640.00	$698.50

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTIONS 13.04.120 AND 13.04.150 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS RELATING TO WATER SERVICE RATES AND CHARGES AND WATER TAP AND METER FEES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

Ordinance Caption Sewer

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 13.04.140 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS TITLED "RATES AND CHARGES--SEWERS—SCHEDULE"; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PUBLICATION; AND SETTING AN EFFECTIVE DATE.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 13.04.140 OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN TEXAS TITLED "RATES AND CHARGES--SEWERS—SCHEDULE"; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PUBLICATION; AND SETTING AN EFFECTIVE DATE.

WHEREAS, the City periodically reviews and adjusts its wastewater rates; and

WHEREAS, the City last modified its wastewater rates in October 2025, and

WHEREAS, the City has completed a cost-of-service study for the wastewater utility service; and

WHEREAS, the City wishes to modify its wastewater rates and sewer tap rates to recover the cost of wastewater service; and

WHEREAS, the City Council of the City of Georgetown wishes to adopt new wastewater rates, effective for all utility services provided on and after October 1, 2026.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The meeting at which this ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

SECTION 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 3. Section 13.04.140 of the City of Georgetown Code of Ordinances is hereby amended to read as set forth in **Exhibit A** attached hereto and incorporated herein.

.

SECTION 5. All ordinances and resolutions, or parts of ordinances and resolutions, in conflict with this Ordinance are hereby repealed, and are no longer of any force and effect.

SECTION 6. If any provision of this ordinance or application thereof to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

SECTION 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This ordinance shall become effective and be in full force and effect on October 1, 2026 in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the ____ of _____, 2026.

EXHIBIT A

Sec. 13.04.140. Rates and charges—Sewers—Schedule.

Residential Service:

A. Availability. This schedule applies to residential customers in single-family residences, or to residential locations that have domestic use only and one individual dwelling unit per water meter. This schedule is not available to multi-family dwellings of more than one dwelling unit per water meter.

B. Net Monthly Rates.

1. Flat Rate Inside City Limits: $68.15 per month
2. Flat Rate Outside City Limits: $78.40 per month

C. Residential customers may request a low-income sewer discount that is 20 percent below the current Flat Rate for the Residential Service that is applicable.

1. Request for low-income discount must be made in writing.
2. To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program and provide verifiable proof of that participation, such as a Medicaid card or official documentation.
3. Requests for the low-income discount must be renewed annually.

D. Any customer connected to the City sewer must pay the sewer charges in this Section.

Small Commercial:

A. Availability. This schedule is available, by written request only, to non-residential consumers that have a single water line to their location that is no larger than ¾-inch and serves only one unit; a single sewer line, no larger than four inches; no more than ten plumbing fixtures; and whose function, processes or product does not utilize or require water.

B. Net Monthly Rate.

1. Flat Rate Inside City Limits: $68.15 per month
2. Flat Rate Outside City Limits: $78.40 per month

Commercial:

A. Availability. This schedule applies to non-residential customers at commercial or general service locations with a wastewater service line six inches or smaller.

B. Net Monthly Rate.

1. Inside City Limits.

a) Customer Charge: $103.05 per month

b) Volumetric Charge: $5.95 per 1,000 gallons

2. Outside City Limits.

a) Customer Charge: $118.50 per month

b) Volumetric Charge: $6.85 per 1,000 gallons

C. The volumetric charges in this Section are calculated using the actual water consumption billed per month.

Large Commercial:

A. Availability. This schedule applies to non-residential customers at commercial or general service locations with a wastewater service line eight inches or larger. Multifamily locations do not qualify.

B. Net Monthly Rate.

1. Inside City Limits.

a) Customer Charge: $183.00 per month

b) Volumetric Charge: $5.95 per 1,000 gallons

2. Outside City Limits.

a) Customer Charge: $210.60 per month

b) Volumetric Charge: $6.85 per 1,000 gallons

C. The volumetric charges in this Section are calculated using the actual water consumption billed per month.

Multifamily:

A. Availability. This schedule applies to multi-family residential customers with domestic use only and more than one individual dwelling unit per water meter.

B. Net Monthly Rate. Multifamily Dwellings served by one master meter will be billed on a per unit basis. The minimum charge will be an amount equal to the applicable Residential Service rate multiplied by the number of dwelling units, multiplied by two-thirds (2/3).

C. Any non-residential portion of a multifamily location with a separate meter shall be considered a small commercial, commercial, or large commercial consumer, depending upon the size of the line to said meter.

Industrial:

A. Availability. This schedule applies to any non-residential customer with a wastewater service line six inches or small and whose Standard Industrial Classification (SIC) Code has the potential for discharges that exceed the limits of Domestic Sewage as defined in section

13.20.040 and is considered an Industrial User and is subject to industrial waste permitting and wastewater strength sampling.

B. An annual wastewater sample and pretreatment permit renewal by the City is used to determine the Industrial Users wastewater strength factor. The wastewater strength factor remains in effect for a 12-month period following the sample results, or until replaced by a wastewater strength factor calculated as a result of a more recent sample.

C. If a customer believes that the calculated wastewater strength factor is incorrect, the customer may request a follow-up sample whose strength factor will be averaged with results of the normally scheduled sample and the averaged results will remain in effect for the original 12-month period from the prior sample. The customer will be charged a resample fee of $250.

D. Net Monthly Rate.

1. Inside City Limits.

a) Customer Charge: $142.60 per month

b) Volumetric Charge: $5.95 per 1,000 gallons multiplied by the customer's wastewater strength factor.

2. Outside City Limits.

a) Customer Charge: $164.00 per month

b) Volumetric Charge: $6.85 per 1,000 gallons multiplied by the customer's wastewater strength factor.

E. The volumetric charges in this Section are calculated using the actual water consumption billed per month.

Large Industrial:

A. Availability. This surcharge applies to any non-residential customer with a wastewater service line eight inches or larger and whose Standard Industrial Classification (SIC) Code has the potential for discharges that exceed the limits of Domestic Sewage as defined in section 13.20.040 and is considered an Industrial User and is subject to industrial waste permitting and wastewater strength sampling.

B. An annual wastewater sample and pretreatment permit renewal by the City is used to determine the Industrial Users wastewater strength factor. The wastewater strength factor remains in effect for a 12-month period following the sample results, or until replaced by a wastewater strength factor calculated as a result of a more recent sample.

C. If a customer believes that the calculated wastewater strength factor is incorrect, the customer may request a follow-up sample whose strength factor will be averaged with results of the normally scheduled sample and the averaged results will remain in effect for the original 12-month period from the prior sample. The customer will be charged a resample fee of $250.

D. Net Monthly Rate.

1. Inside City Limits.

a) Customer Charge: $222.15 per month

b) Volumetric Charge: $5.95 per 1,000 gallons multiplied by the customer's wastewater strength factor.

2. Outside City Limits.

a) Customer Charge: $249.65 per month

b) Volumetric Charge: $6.85 per 1,000 gallons multiplied by the customer's wastewater strength factor.

F. The volumetric charges in this Section are calculated using the actual water consumption billed per month.

Evaporative Cooling or Wastewater Diversion Credit:

A. Availability. This schedule is available to non-residential locations, with the exception of those qualifying for a flat small commercial sewer rate, which have installed qualifying evaporative cooling equipment or whose product or process diverts water from the wastewater collection system.

B. An evaporative cooling system or other qualifying water diversion is eligible for a reduced volumetric rate.

1. The rate reduction is equal to the average system evaporation or diversion, documented by a calculation signed and sealed by a licensed professional engineer, less an amount equal to two percent for error.

C. Volumetric Evaporative Cooling or Product Diversion Credit.

1. With Documented Engineering Calculation Standard Rate x (100% - (diversion % - 2%)

D. Customer may request that the City adjust their diversion percent by providing documentation of an updated engineering calculation, no more than once annually.

E. City may require customer to provide documentation of an updated engineering calculation to maintain the existing credit if there have been changes to the equipment or location that may alter the evaporative cooling equipment or other water diversion process. City may also request documentation verifying compliance with industrial waste discharge regulations.

Sec. 13.04.140. Rates and charges—Sewers—Schedule.

Residential Service:

A. Availability. This schedule applies to residential customers in single-family residences, or to residential locations that have domestic use only and one individual dwelling unit per water meter. This schedule is not available to multi-family dwellings of more than one dwelling unit per water meter.

B. Net Monthly Rates.

1. Flat Rate Inside City Limits: $60.8568.15 per month.
2. Flat Rate Outside City Limits: $70.0078.40 per month.

C. Residential customers may request a low-income sewer discount that is 20 percent below the current flat rateFlat Rate for the residential serviceResidential Service that is applicable.

1. Request for low-income discount must be made in writing.
2. To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program and provide verifiable proof of that participation, such as a Medicaid card or official documentation.
3. Requests for the low-income discount must be renewed annually.

D. Any customer connected to the City sewer must pay the sewer charges in this Section.

Small Commercial:

A. Availability. This schedule is available, by written request only, to nonresidentialnon-residential consumers that have a single water line to their location that is no larger than three-fourths ¾-inch and serves only one unit; a single sewer line, no larger than four inches; no more than ten plumbing fixtures; and whose function, processes or product does not utilize or require water.

B. Net Monthly Rate.

1. Flat Rate Inside City Limits: $60.8568.15 per month.
2. Flat Rate Outside City Limits: $70.0078.40 per month.

SUBJECT:
Second Reading - 2026-5-ANX - 8600 RM 2338

SUGGESTED ACTION:
Second Reading of an Ordinance on a request for a Zoning Map Amendment to zone, upon annexation, 11.59 acres of land out of the Lewis P. Dyches Survey, Abstract No. 171, as the General Commercial (C-3) zoning district, for the property generally located at 8600 RM 2338, Georgetown, Texas (2026-5-ANX) -- Edgar Garcia, Planning Director

ITEM SUMMARY:
Applicant is requesting to annex into city limits with an initial zoning district of General Commercial (C-3).

FINANCIAL IMPACT:
None. The applicant has paid the required application fees.

SUBMITTED BY:
Anish Dsouza, Planning Department

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, PROVIDING FOR THE EXTENSION OF CERTAIN BOUNDARY LIMITS AND THE ANNEXATION AND INITIAL ZONING DESIGNATION OF GENERAL COMMERCIAL (C-3) OF CERTAIN TERRITORY CONSISTING OF 11.59 ACRES, MORE OR LESS, IN THE LEWIS P. DYCHES SURVEY ABSTRACT NO. 171, AS DESCRIBED HEREIN; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the owners of the area proposed for annexation requested annexation of the area by the City of Georgetown ("City") pursuant to Local Government Code Section 43.0671; and

WHEREAS, all of the herein-described property lies within the extraterritorial jurisdiction of the City; and

WHEREAS, the City Council approved a Municipal Services Agreement with 8600 Williams, LLC for 11.59 acres on June 9th, 2026; and

WHEREAS, Section 4.03.010 of the City's Unified Development Code ("UDC") creates procedures for initial zoning of newly annexed territory; and

WHEREAS, Section 12.46.160 of the City's Code of Ordinances provides that (i) for all annexations wherein the annexed property is ten acres or greater, the City shall update its land use assumptions and transportation impact fees based thereon in accordance with the procedures set forth in Chapter 395 of the Texas Local Government Code, to be completed in conjunction with the annexation process and prior to final acceptance of the annexed property into the corporate City limits; and (ii) for all annexations wherein the annexed property is less than ten acres, the City's Official Transportation Service Area Map shall be updated in conjunction with the annexation, but that such update will be for mapping purposes only and no updates to the transportation impact fee capital improvements plans or land use assumptions will be required; and

WHEREAS, all prerequisites of state law and the City Charter have been complied with.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council of the City of Georgetown hereby annexes into the City limits 11.59 acres in the Lewis P. Dyches Survey, Abstract No. 171, as shown in Exhibit A and as described in Exhibit B of this ordinance (the "Property"). The Property is hereby included in City Council District 3, as it is adjacent to Council District 3 and no other City Council Districts. The City's official boundary map and City Council Districts map shall be amended accordingly.

Section 4. The Property is hereby included in the transportation service area known as "Sun City." In accordance with Section 12.46.160 of the City's Code of Ordinances, and in view of the fact that the Property is less than ten acres, the City's Official Transportation Service Area Map shall be updated to reflect that the Property is in such transportation service area, provided that such update will be for mapping purposes only and no updates to the transportation impact fee capital improvements plans or land use assumptions will be required.

Section 5. In accordance with the procedures for initial zoning of newly annexed territory described in Section 4.03.010 of the UDC, and for the reasons set forth by City Staff, the City Council hereby finds that a zoning classification of General Commercial (C-3) is appropriate for the Property and consistent with the City's Comprehensive Plan, and upon annexation, the Property shall have a zoning of General Commercial (C-3). The City's Official Zoning Map shall be amended accordingly.

Section 6. Upon annexation of the Property, the City shall provide to the Property the municipal services set forth in the Municipal Services Agreement attached to this ordinance as Exhibit C and by this reference incorporated within it (the "Agreement"), pursuant to the schedule set forth therein. The City shall have no obligation to provide services to the Property not listed in the Agreement.

Section 7. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 8. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 9. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect immediately in accordance with the provisions of the City Charter of the City of Georgetown.

MUNICIPAL SERVICES AGREEMENT

BETWEEN THE CITY OF GEORGETOWN, TEXAS

AND 8600 WILLIAMS, LLC

This Municipal Services Agreement ("Agreement") is entered into on the 1st day of June, 2026 by and between the City of Georgetown, Texas, a home-rule municipality of the State of Texas ("City") and 8600 Williams, LLC ("Owner").

RECITALS

The parties agree that the following recitals are true and correct and form the basis upon which the parties have entered into this Agreement

WHEREAS, Section 43.0671 of the Local Government Code permits the City to annex an area if each owner of land in an area requests the annexation;

WHEREAS, where the City elects to annex such an area, the City is required to enter into a written agreement with the property owner(s) that sets forth the City services to be provided for the Property on or after the effective date of annexation (the "Effective Date");

WHEREAS, Owner owns certain parcels of land located at 8600 RM 2338, Georgetown, Texas 78633, which consists of approximately 11.59 acres of land in the City's extraterritorial jurisdiction, such property being more particularly described and set forth in Exhibit "A" attached and incorporated herein by reference ("Property");

WHEREAS, Owner has filed a written request with the City for annexation of the Property, identified as Annexation Case No. 2026-5-ANX ("Annexation Case");

WHEREAS, City and Owner desire to set out the City services to be provided for the Property on or after the effective date of annexation;

WHEREAS, the Annexation Case and execution of this Agreement are subject to approval by the Georgetown City Council; and

NOW THEREFORE, in exchange for the mutual covenants, conditions and promises contained herein, City and Owner agree as follows:

1. **PROPERTY.** This Agreement is only applicable to the Property, which is the subject of the Annexation Case.

2. **INTENT.** It is the intent of the City that this Agreement provide for the delivery of full, available municipal services to the Property in accordance with state law, which may be accomplished through any means permitted by law.

3. MUNICIPAL SERVICES.

a. Commencing on the Effective Date, the City will provide the municipal services set forth below. As used in this Agreement, "providing services" includes having services provided by any method or means by which the City may extend municipal services to any other area of the City, including the City's infrastructure extension policies and developer or property owner participation in accordance with applicable city ordinances, rules, regulations, and policies.

i. Fire Protection and Emergency Medical Services – The City of Georgetown Fire Department will provide response services in the annexed area consisting of: fire suppression and rescue; emergency response to 9-1-1 calls; fire prevention education efforts, and other duties and services provided by the Georgetown Fire Department.

ii. Police – The City's Police Department will provide protection and law enforcement services.

iii. Planning and Development, Building Permits, and Inspections Services - Upon annexation, the City will provide site plan review; zoning approvals; Building Code and other standard Code inspection services; City Code enforcement; sign regulations and permits; and Stormwater Permit services in the annexed.

iv. Parks and Recreational Facilities. Residents of the Property will be permitted to utilize all existing publicly-owned parks and recreational facilities and all such facilities acquired or constructed after the Effective Date (including community service facilities, libraries, swimming pools, etc.), throughout the City. Any private parks, facilities, and buildings will be unaffected by the annexation; provided, however, that the City will provide for maintenance and operation of the same upon acceptance of legal title thereto by the City and appropriations therefor. In the event the City acquires any other parks, facilities, or buildings necessary for City services within the Property, the appropriate City department will provide maintenance and operations of the same.

v. Other Publicly Owned Buildings. Residents of the Property will be permitted to use all other publicly owned buildings and facilities where the public is granted access.

vi. Library – Upon annexation, library privileges will be available to anyone residing in the annexed area

vii. Stormwater Utility Services – The Property will be included in the City's Stormwater Utility service area and will be assessed a monthly fee based on the amount of impervious surface. The fees

will cover the direct and indirect costs of stormwater management services.

viii. Streets, Roads, and Street Lighting – The City will provide preventative maintenance of the existing public streets and roads in the annexed area over which it has jurisdiction through maintenance and preventative maintenance services such as emergency pavement repair; ice and snow monitoring; crack seal, sealcoat, slurry seal, and PM overlay; and other routine repair. The City shall not maintain private roads in the annexed area. Preventative maintenance projects are prioritized on a City-wide basis and scheduled based on a variety of factors, including surface condition, rideability, age, traffic volume, functional classification, and available funding. As new streets are dedicated and accepted for maintenance they will be included in the City's preventative maintenance program.

ix. Water and Wastewater Facilities in the Annexed Area that Are Not Within the Area of Another Water or Wastewater Utility –City-owned water and wastewater facilities that exist in the annexed area will be maintained in accordance with City ordinances, standards, policies and procedures.

x. Solid Waste Services – The City will provide solid waste collection services in accordance with existing City ordinances and policies, except where prohibited by law.

xi. Code Compliance – The City's Code Department will provide education, enforcement, and abatement relating to code violations within the Property.

xii. Animal Control Services – Upon annexation, the City shall provide animal control services in the annexed area.

xiii. Business Licenses and Regulations – Upon annexation, the City shall provide business licensing services (Carnivals Circuses and Other Exhibitions; Electrician's Licenses; Gross Receipts Charge or Street Rental; Peddlers and Solicitors; Taxicabs, Buses and Other Vehicles for Hire; Horse Drawn Carriages and other Non-Motorized Vehicles for Hire; Sexually Oriented Businesses; and Alcoholic Beverages) in the annexed area

b. The City will provide water service and wastewater treatment service to developments established after the Effective Date in accordance with, and on the schedule determined by, the City's extension policies, capital improvements schedule, and applicable law and at rates established by City ordinances for such services.

c. The City may impose a fee for any municipal service in the area annexed if

the same type of fee is imposed within the corporate boundaries of the City. All City fees are subject to revision from time to time by the City in its sole discretion.

d. It is understood and agreed that the City is not required to provide a service that is not included in this Agreement.

e. Owner understands and acknowledges that the City departments listed above may change names or be re-organized by the City Manager. Any reference to a specific department also includes any subsequent City department that will provide the same or similar services.

4. **SERVICE LEVEL.** The City will provide the Property with a level of services, infrastructure, and infrastructure maintenance that is comparable to the level of services, infrastructure, and infrastructure maintenance available in other parts of the City with topography, land use, and population density similar to those reasonably contemplated or projected for the Property.

5. **AUTHORITY.** City and Owner represent that they have full power, authority and legal right to execute, deliver and perform their obligations pursuant to this Agreement. Owner acknowledges that approval of the Annexation Case is within the sole jurisdiction of the City Council. Nothing in this Agreement guarantees favorable decisions by the City Council.

6. **SEVERABILITY.** If any part, term, or provision of this Agreement is held by the courts to be illegal, invalid, or otherwise unenforceable, such illegality, invalidity, or unenforceability will not affect the validity of any other part, term or provision, and the rights of the parties will be construed as if the part, term, or provision was never part of the Agreement.

7. **INTERPRETATION.** The parties to this Agreement covenant and agree that in any litigation relating to this Agreement, the terms and conditions of the Agreement will be interpreted according to the laws of the State of Texas. The parties acknowledge that they are of equal bargaining power and that each of them was represented by legal counsel in the negotiation and drafting of this Agreement.

8. **GOVERNING LAW AND VENUE.** Venue shall be in the state courts located in Williamson County, Texas or the United States District Court for the Western District of Texas, Austin Division and construed in conformity with the provisions of Texas Local Government Code Chapter 43.

9. **NO WAIVER.** The failure of either party to insist upon the performance of any term or provision of this Agreement or to exercise any right granted hereunder shall not constitute a waiver of that party's right to insist upon appropriate performance or to assert any such right on any future occasion.

10. **GOVERNMENTAL POWERS.** It is understood that by execution of this Agreement, the City does not waive or surrender any of its governmental powers

or immunities.

11. **COUNTERPARTS**. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original and constitute one and the same instrument.

12. **CAPTIONS**. The captions to the various clauses of this Agreement are for informational purposes only and shall not alter the substance of the terms and conditions of this Agreement.

13. **AGREEMENT BINDS AND BENEFITS SUCCESSORS AND RUNS WITH THE LAND**. This Agreement is binding on and inures to the benefit of the parties, their successors, and assigns. The term of this Agreement constitutes covenants running with the land comprising the Property, is binding on the Owner and the City, and is enforceable by any current or future owner of any portion of the Property.

14. **ENTIRE AGREEMENT.** This Agreement constitutes the entire agreement between the parties and supersedes all prior oral and written agreements between said parties. This Agreement shall not be amended unless executed in writing by both parties.

Executed as of the day and year first above written to be effective on the effective date of annexation of the Property.

Planning Department Staff Report

Report Date: June 20th, 2026
Case Number: 2026-5-ANX

AGENDA ITEM DESCRIPTION

Public Hearing and possible action on a request for a Zoning Map Amendment to zone, upon annexation, 11.59 acres of land out of the Lewis P. Dyches Survey, Abstract No. 171, as the General Commercial (C-3) zoning district, for the property generally located at 8600 RM 2338, Georgetown, Texas (2026-5-ANX) - Colin Davidson, Senior Planner

AGENDA ITEM DETAILS

Project Name:	***Nations Tract Annexation***
Applicant:	***Mark Baker c/o SEC Planning***
Property Owner:	***8600 Williams LLC c/o Mike Nations***
Property Address:	***8600 RM 2338, Georgetown, Texas, 78633***
Legal Description:	***11.59 acres of land out of the Lewis P. Dyches Survey, Abstract No. 171***
Current Zoning:	***ETJ***
Current Use:	***Undeveloped***

APPLICANT'S REQUEST

The applicant is requesting annexation with a base zoning district of **General Commercial (C-3)** for this property. This is the first public hearing of this request.

RECOMMENDATION

Staff recommend approval of the request.

PROPERTY CONTEXT

Neighborhood Character:

The subject property is located along the north side of RM 2338, a major arterial also referred to as Williams Drive, just west of the existing Highland Village neighborhood. The property also abuts Phase 3 of the Parmer Ranch neighborhood to the north. Currently, the area is largely residential but there are some portions of Highland Village entitled to commercial and multi-family uses.

Zoning Trends:

In terms of zoning, the properties immediately to the east of the subject site are part of the Highland Village Planned Unit Development (PUD) and have a base zoning district of General Commercial (C-3) on the southern portion abutting RM 2338 and High-Density Multi-family (MF-2) on the northern portion. Parmer Ranch to the north is residential in nature but is located in the City's Extra Territorial Jurisdiction (ETJ) and does not have a zoning district. The area to the south of the subject site is also located within the ETJ and does not carry a zoning district.

Present Property Description:
The property is largely undeveloped aside from the foundations of two buildings that no longer exist. The property contains a significant number of trees scattered across the property. The subject site appears to be relatively flat in elevation.

STAFF ANALYSIS

Technical Review:
The subject property has an existing Future Land Use designation of Mixed-Density Neighborhood (MDN). MDNs are intended to provide a space for medium density housing types, small scale non-residential uses that serve the neighborhood, and civic uses. While the General Commercial zoning district can be seen as too intense for MDNs, the site's adjacency to RM 2338 and the additional regulations placed on the property as a result of annexation help mitigate potential compatibility concerns and support a development pattern that is appropriate for the surrounding area.

The proposed rezoning request was reviewed by all applicable City Departments to determine its appropriateness on the subject property. No comments were made regarding the zoning request.

Staff reviewed the proposed rezoning request and found it complies with four of the criteria and partially complies with one of the criteria established in UDC Section 3.06.030 for a Zoning Map Amendment, as outlined in Exhibit 6.

PUBLIC NOTIFICATION

As required by the Unified Development Code, all property owners and registered neighborhood associations within a 300-foot radius of the subject property were notified of the annexation and initial zoning request (62 notices), a legal notice advertising the public hearing was placed in the Sun Newspaper (May 31, 2026) and signs were posted on-site. To date, staff has received 0 written comment in favor, and 3 in opposition to the request.

CITY COUNCIL 1ST READING

At its July 14 meeting, City Council voted to approve the annexation and zoning 5-1. Direction was given to staff to look at other zoning options on the property and to provide the prohibited uses found in the Highland Village PUD adjacent to the subject property; these have been attached as Exhibit 8.

In discussions with the applicant's representative, they have proposed a 100 ft. strip be zoned C-1 instead of C-3 immediately adjacent to the Parmer Ranch Subdivision in order to assuage concerns over intense uses directly adjacent to single-family residential.

City of Georgetown Planning Department
406 W. 8th Street
Georgetown, TX 78626

Re: Nations Tract
Annexation with Initial Zoning Submittal
Letter of Intent

SEC Planning is submitting this Letter of Intent for the annexation of 11.6 acres known as the Nations Tract (project site). The Nations Tract is located near the intersection of RM 2338 and Dragon Tree Lane at 8600 RM 2338, and is directly adjacent to the current City limits. The current use of the property is Agriculture. No existing structures on the property are planned to be utilized for the development of the tract.

Upon annexation, the applicant requests a base zoning category of General Commercial (C-3).

The proposed application for annexation meets the approval criteria outlined in UDC Section 3.25.030 as described below:

The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action.

Response: The application has been completed and all items required for annexation submittal have been provided for review.

The annexation promotes the health, safety or general welfare of the City and the safe, orderly, and healthful development of the City.

Response: The annexation of the Nations Tract will promote the healthy growth of the City through development of a vacant site with commercial uses that will aid in serving the community's needs. The site is situated adjacent to the current Georgetown City Limits. The site would provide for nonresidential uses along an existing major arterial and would include appropriate landscape buffering. All development will be regulated through Georgetown UDC.

Consistency with the City's adopted long range plans and annexation policies.

Response: The site will be developed in accordance with the Georgetown 2030 Comprehensive Plan by providing orderly and balanced growth along primary corridors and along edges of development. The current future land use for the property is Mixed-Density Neighborhood, which encourages the incorporation of Commercial services along arterial corridors, specifically RM 2338 (Williams Drive).

The proposed zoning district requested to be designated on the property meets the approval for a Zoning Map Amendment outlined in UDC Section 3.06.030 as described below:

The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action.

Response: The application has been completed with acknowledgement of all items required for rezoning submittal.

The zoning change is consistent with the Comprehensive Plan.

Response: The requested zoning change for Commercial (C-3) is consistent with the Georgetown 2030 Comprehensive Plan's corridor development pattern and future land use designation of Mixed-Density Neighborhood. Policies set forth in the Georgetown 2030 Comprehensive Plan are as follows:

1) *Policy LU. 1: Encourage a balanced mix of residential, commercial, and employment uses at varying densities and intensities to reflect a gradual transition from urban to suburban to rural development.*

   The requested zoning is consistent with the surrounding land use designation Mixed-Density Neighborhood. The site is located in proximity to single-family, multi-family, and commercial uses, creating an environment where a balanced mix of uses can be realized within the greater context of the Mixed-Density Neighborhood designation. Due to the property's frontage along RM 2338 (major arterial), commercial zoning is appropriate and serves as a transition between the arterial and existing single-family and multi-family uses.

2) *Policy LU. 3: Promote development of complete neighborhoods across Georgetown.*

   The proposed use of the site as commercial would add to this objective by providing retail services and employment opportunities in close proximity to established neighborhoods. By ensuring convenient access to these services, an overall improvement in the quality of life can be created for the surrounding neighborhoods.

3) *Policy LU.10: Support the City's growth and development using a decision framework that promotes fiscal health, safety, and quality of life for our current and future residents.*

   Development of the property with commercial uses would support the City by expanding the local sales tax base and providing needed retail services in close proximity to existing residents in a rapidly growing sector of the City.

The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.

Response: As previously stated, the commercial zoning would front along RM 2338 (Williams Drive) and serve as a transition zone between residential and a major arterial, creating an expanded sales tax base for the City. This conforms to the Comprehensive Plan's recommended corridor development pattern.

The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.

Response: The property is situated directly adjacent to land within the Highland Village community that is also designated as C-3. Due to the adjacent commercial land use and location along a major arterial, the applicant believes that the proposed zoning category is suitable for the site and compatible with adjacent uses.

The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.

Response: As stated above, the applicant believes the property is suitable for uses permitted by the proposed commercial district. Access to an existing arterial (RM 2338) and adjacent utility infrastructure also enhance the suitability for a new commercial development.

The subject property is located within the City's service area for water and wastewater. Water is available to the site via a 12" waterline located at the northern boundary of the tract and adjacent to the eastern boundary of the tract. Wastewater is available via an 18" and 21" wastewater line located at the southwestern corner of the tract. The applicant shall submit a utility evaluation request form consistent with the City of Georgetown's policies to evaluate the proposed development against exiting utility capabilities and for consistency with the City's current water and wastewater master plans. The owners of the subject tract shall seek to construct the necessary improvements for utilizing the City's wastewater system for the development of their tract only. The applicant understands that construction of capital improvements may be necessary for the development of their tract, but the responsibility shall be proportional to the need.

The applicant reserves the right to pull this annexation application from consideration at any time during the proceedings. With this signed petition for voluntary annexation, the landowner understands that construction of any capital improvements necessary for development on the property will not be the responsibility of the City of Georgetown if approved for annexation; rather, such improvements will occur through non-City financial assistance through the subdivision and construction process.

Mike Nations, Owner

The State of Texas
County of Gillespie

Before me, Gwendalyn Caruso (insert the name and character of the officer), on this day personally appeared Mike Nations, known to me (or proved to me on the oath of Texas Drivers or through _____ (description of identity card or other document) to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he/she executed the same for the purposes and consideration therein expressed.
Given under my hand and seal of office this 12 day of March 2026

GWENDALYN CARUSO
Notary Public, State of Texas
Comm. Expires (Seal) 2029
Notary ID 135531192

(Notary's Signature)
Notary Public, State of Texas

Thank you for your consideration of this request. Should you have any questions or need additional information, please do not hesitate to contact me at mbaker@secplanning.com, or 512.246.7003.

Sincerely,

Mark Baker, ASLA
Principal

Exhibit 6
UDC Approval Criteria Review

ZONING MAP AMENDMENT (REZONING) APPROVAL CRITERIA	
1. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action.	**Complies**
This application was reviewed by staff and deemed to be complete.	
2. The zoning change is consistent with the Comprehensive Plan.	**Partially Complies**
The property has a future land use designation of Mixed-Density Neighborhood (MDN). MDNs are intended to provide an area for medium density housing types, neighborhood serving retail, and civic uses. While the proposed General Commercial (C-3) zoning district could be seen as too intense for the MDN future land use designation, the site's adjacency to RM 2338, a major arterial, lends itself to higher intensity uses and is the reason staff finds partial compliance with this criteria. The General Commercial zoning district is described as intended to provide for commercial and retail activities that serve the larger community and its visitors. The allowed uses within this zoning district can be large in scale and generate substantial traffic, thus making them only appropriate along major roadways. In a vacuum, the C-3 zoning district is generally seen as too intense of a non-residential use to be located within an MDN. In this case, however, the property is located along a major roadway that has begun to develop as a commercial corridor with a similar intensity. The areas east of this site, along RM 2338, are part of the Highland Village Planned Unit Development (PUD) and have a base zoning district of General Commercial. If non-residential uses are going to develop in MDNs, the Comprehensive Plan states they should be located along the periphery of the neighborhood and along arterial level roadways, which this request complies with. Additionally, this request aligns itself with Land Use Policy #3 which seeks to promote development of complete neighborhoods across Georgetown. The surrounding area is largely residential, and the introduction of additional commercial space could provide additional services and retail opportunities to the surrounding residents.	

3. The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.	**Complies**
Annexing the property with a base zoning district of General Commercial will subject the property to additional regulations in the UDC that the site is not currently regulated under today. These additional regulations will promote the health, safety, and general welfare of the city as well as the safe, orderly and healthful development of this area. Today, the property is located in Georgetown's Extra Territorial Jurisdiction (ETJ) and is not subject to the zoning standards of the Unified Development Code. This means that without	

annexation, the property could still develop and operate any of the uses allowed within the C-3 zoning district, except there would be no development standards to mitigate any potential negative impact to the residential area to the north of the subject site. Annexation into the city limits ensures regulations such as setbacks, building height, and buffer yards are provided and compatible with other development in the area.

With the development of this property, the UDC will require Garret Oaks Lane to be extended as it currently stubs into the subject site. If the extension of this street connects to RM 2338, it could increase traffic into what is now a solely residential area. While there is concern regarding a potential increase in traffic, this extension would be required regardless of the property's annexation into the city. If the property chose to remain in the ETJ, the road would still be extended at the time of development.

4. The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.	**Complies**

The property is currently surrounded by a mix of existing residential in the ETJ and land entitled for multifamily and commercial uses as part of the Highland Village PUD. The General Commercial zoning district is largely compatible with the present zoning and the character of the surrounding area. As mentioned previously, the annexation of this property will subject the site to additional development regulations, making it more compatible with the surrounding properties.

5. The property to be rezoned is suitable for uses permitted by the District that would be applied by the proposed amendment.	**Complies**

The subject property does not have any natural features or site constraints that will inhibit the uses allowed within the proposed zoning district. The site has adequate access and will be served with necessary utilities. There are both water and wastewater lines within close proximity to the site.

Dear Mayor and Council,

I live at 2300 Sawdust Drive adjacent to the 11.59 acre tract at 8600 RM 2338 in Case 2026 5 ANX. I am not opposed to development, but C 3 zoning permits hotels, motels, and other 24 hour uses directly against our family neighborhood, with no future review. Please either zone this tract C 1 Local Commercial or hold it at first reading for a Planned Unit Development that includes a tree buffer, shielded lighting, and no 24 hour uses along the residential boundary. Please enter this into the record for Case 2026 5 ANX.

Respectfully,

Miles Garcia

2300 Sawdust Drive

Georgetown, Texas

78633

Dear Mayor Schroeder, Members of the City Council, and Mr. Davidson,

My name is Mohnte Elizondo, and my family and I live at 2344 Sawdust Dr, Georgetown, TX 78633, directly behind the 11.59 acre tract at 8600 RM 2338 in Case 2026-5-ANX, which is on your July 14 agenda. Thank you for taking the time to read this, and thank you for the work you do for our community.

Our neighborhood is a family neighborhood in the fullest sense. These streets are full of young children, backyard birthday parties, kids on bikes, and neighbors who know each other by name. My own children play in the backyard that borders this tract. I share that not to be sentimental, but because it is the context this Council is zoning next to.

One quick housekeeping note: Some of my neighbors and I have no record of receiving the mailed notice for the June 16 Planning and Zoning Commission hearing, and I only recently learned about this case. **Mr. Davidson, when you have a moment, could you let me know whether 2344 Sawdust Dr was included in the 200 foot notification list, and to what address any notice was sent?** Since I missed the chance to participate at the Commission stage, I would be grateful if this letter could be given full consideration now. One of my neighbors stopped by to inform me of the situation.

I want to be clear that I am not opposed to this property developing. Growth along this corridor is coming, and businesses that serve local families would be welcome neighbors. My concern is with how broad the requested zoning is. C-3 General Commercial permits hotels, motels, automotive uses, bars, and other 24 hour operations, and once granted, no future use within that district comes back to the neighbors or to this Council for review. Whatever the current applicant has in mind, the zoning runs with the land, so any protections for the families behind it need to live in the zoning too.

I have attached a photos of my backyard showing the boundary we share with this tract, so you can see the yards and homes that sit just beyond it.

My hope is that any approval could include, as written conditions or through a Conditional Overlay:

1. A tree buffer along the residential boundary, preserving the existing mature trees and adding evergreen plantings for year round screening
2. Shielded, downcast lighting near the residential edge, so it does not shine into bedrooms and backyards at night

3. Keeping 24 hour and high-intensity uses, such as hotels, motels, and automotive service, away from the portion of the tract that touches the homes where children live and play

If conditions are not workable, I would gently ask the Council to consider Local Commercial (C-1) for the strip nearest the homes, since that is the district the code intends for commercial uses that serve and border neighborhoods like ours.

With reasonable protections at the boundary, I would genuinely be happy to support this project and say so publicly. Please enter this letter and the attached photo into the official record for Case 2026-5-ANX and share it with each Council member before the hearing. I plan to attend on the 14th, and I know several of my neighbors intend to as well.

With appreciation,
Mohnte Elizondo
2344 Sawdust Dr, Georgetown, TX 78633

Dear Mayor & Council,

I am a local Realtor and have helped many clients move into Parmer Ranch. I am not opposed to development in this area. However I am against Zoning C3 zoning which allows for 24 hour a day use which would be a hindrance to the families living here. Please either zone this tract to C1 Local Commercial or hold it at first reading for PUD that includes a treed buffer and no 24 hour uses against the residential homes. Please enter this into the record for Case 2026 5 ANX

To: Georgetown Planning <planning@georgetowntexas.gov>
Subject: [EXTERNAL] Opposition to Zoning Map Amendment Case #2026-5-ANX (8600 RM 2338)

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Dear Planning and Zoning Commission Members,

I am writing to express my opposition to the proposed Zoning Map Amendment and annexation request for 8600 RM 2338 (Case #2026-5-ANX).

I OBJECT to this annexation request.

My family and I are homeowners on Garrett Oaks Lane, within the residential neighborhood directly adjacent to the proposed commercial zoning area. While I understand that growth and development are occurring throughout Georgetown, I am concerned about the impacts this proposal could have on our neighborhood.

Of particular concern is the possibility that future development of this tract could create a roadway connection between the proposed commercial property and our existing residential street network, including Garrett Oaks Lane and Sawdust Drive. Such a connection would likely encourage cut-through traffic from motorists seeking a shortcut to RM 2338.

Our neighborhood streets were designed to serve local residential traffic, not commercial traffic or through traffic. Increased vehicle volumes would create safety concerns for residents and our children, who regularly use these streets. It would also increase noise, congestion, and diminish the quiet residential character that attracted many families to this area.

I am also concerned that the proposed commercial zoning may negatively impact nearby homeowners through increased traffic, lighting, noise, and other commercial activities that are incompatible with adjacent residential uses.

At a minimum, I request that the City require a comprehensive traffic impact analysis and prohibit any future vehicular connection between the proposed commercial development and the Garrett Oaks/Sawdust neighborhood street system. Without such protections, the burden of this development will be unfairly placed on existing residents.

For these reasons, I respectfully request that the Planning and Zoning Commission deny the proposed zoning amendment or impose conditions that fully protect the surrounding residential neighborhood.

Thank you for your consideration.

Sincerely,

Charles Matar

Please tally me as a no or opposed to the zoning request for this evenings meeting.

What forms or documents would I need to provide to represent group of residents on Sawdust Dr. and in Parmer Ranch?

What is the 10 acre park at the front of the neighborhood zoned as that borders this new 11 acre request?

If comments were to be included, I would like to see more stringent requirements before re-zoning is considered. Something conducive to civic or that would compliment a new elementary school in the neighborhood as originally planned.

Thanks,
Christopher Bessner

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Dear Members of the Georgetown Planning & Zoning Commission and City Council,

My name is Devin Hallier, I am a resident at 2336 Sawdust Drive, Georgetown, Texas — a property directly adjacent to the land at 8600 RM 2338 that is the subject of the proposed General Commercial (C-3) zoning amendment (Case 2026-5-ANX).

I am writing to respectfully express my opposition to the proposed C-3 zoning designation for the 11.59 acres behind our home. While I understand the City's interest in expanding its commercial tax base, I have significant concerns about the impact this rezoning would have on our neighborhood:

1. Noise and Light Pollution – General Commercial (C-3) uses can generate substantial noise, traffic, and artificial lighting around the clock. As an adjacent residential property owner, my family would be directly and negatively affected by these impacts, particularly at night.

2. Traffic Increase – RM 2338 already carries considerable traffic. Introducing a major commercial development in this location could further strain the surrounding road network and create safety concerns for nearby residents.

3. Property Values – Commercial development directly behind residential properties can negatively affect home values and the overall character of the neighborhood.

4. Incompatibility with Surrounding Land Use – The existing residential character of our street and surrounding area is not compatible with C-3 zoning, which permits high-intensity commercial uses. A less intensive zoning classification, or a transition buffer zone, would be far more appropriate.

5. Uncertainty Over Future Business Types – One of my greatest concerns is that once this land is zoned C-3, my family and our neighbors would have no input or control over what type of business ultimately moves in. General Commercial zoning opens the door to a wide range of uses-including gas stations,

auto repair shops, bars, drive-throughs, storage facilities, and other high-traffic or late-night operations — any of which could be established directly behind our home without further community review. We were never given a say in the annexation of this property, and approving a broad commercial designation now would permanently remove any meaningful recourse we have as adjacent homeowners. The lack of restrictions on what can be built or operated there is deeply troubling to us.

I respectfully ask the Commission and Council to carefully consider the impact on neighboring homeowners before approving this amendment, and to explore alternative zoning designations that would be more compatible with the existing residential community. At minimum, I would urge the City to require a buffer zone and impose use restrictions that protect adjacent residents from the most disruptive commercial operations.

I plan to attend the public hearing on Tuesday, June 16, 2026, and would welcome the opportunity to share these concerns in person. In the meantime, please feel free to contact me at the address above.

Thank you sincerely for your time and for your service to our community.

Respectfully,
Devin Hallier

Subject: [EXTERNAL] Formal Response of PR South, Inc. (Parmer Ranch) — Annexation & Initial Zoning Request (Nations Tract) 2026-5-ANX (8600 Williams Drive)

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Colin,

Please accept this as the formal, official response of PR South, Inc. d/b/a Parmer Ranch to the pending annexation and initial-zoning request on the adjacent Nations tract. We request modifications and limitations to the proposed General Commercial (C-3) designation and, absent a workable compromise, denial of the C-3 component as submitted.

To be clear at the outset: we do not oppose the annexation itself, and we are not trying to block Mr. Nations from developing his property. Our concern is narrow and specific — the unrestricted C-3 use classification directly abutting established single-family homes, and the required street connection to Garrett Oaks Drive. I've spoken with Mark Baker at SEC Planning and with Mike Nations directly, and both seemed to understand these concerns and be open to working through them. Both are friends, and I've copied them here so they're aware this formal request is on the table and so we can find a solution together.

I'd ask the City to evaluate our request through the lens of the Future Land Use Map, which designates this property as Mixed Density Neighborhood. That designation contemplates a residential-primary area served by small-scale, neighborhood-serving commercial — not arterial-scale general commercial. Because a Zoning Map Amendment must be consistent with the Comprehensive Plan to be approved, we believe the FLUM designation points toward Neighborhood Commercial (CN), or at most Local Commercial (C-1) with limitations, rather than C-3.

Our specific concerns and proposed compromise:

1. **Street connectivity / Garrett Oaks Drive:** Garrett Oaks was designed, engineered, and built as a residential street. Requiring a commercial connection would route commercial traffic including customers, the adjacent Highland Village commercial land, and delivery and truck traffic through a residential neighborhood on a street never intended or built to carry it. The Code anticipates precisely this situation and provides a mechanism to address it. Section 12.05.040.B.2 makes a local street that would connect a commercial or industrial development to a residential development eligible for a Subdivision Variance under Section 3.22, with the only substantive condition being that removal of the connection not cause detrimental effects to the streets in the adjacent subdivision. Removing the Garrett Oaks connection plainly causes no such detriment. It protects our streets rather than harming them, so the B.2 standard is readily satisfied. We therefore ask that the site not be required to connect to Garrett Oaks Drive, that access be oriented to the arterial/commercial frontage, and that the City require or support a Subdivision Variance under 12.05.040.B.2 to remove the connection. Separately, Section

12.05.040.B.3 provides an independent basis for a variance where a connection would push an existing local street past its Average Daily Trip projection or drop its Level of Service to "D" or worse under a Traffic Impact Analysis. Given that Garrett Oaks was built to residential volumes, we believe a TIA would confirm that a commercial connection triggers this standard as well, and we ask that a TIA be required before any connection is imposed.

2. **Adjacency to residential is the controlling fact:** Staff's report notes that Parmer Ranch sits in the ETJ without City zoning. That is true, but the adjacent land is governed by use categories under our Development Agreement with the City, is described as Single Family, and has developed as single-family. There are existing homes and residents living there today. For compatibility purposes those use categories function like a residential zoning designation. The City's own framework treats C-1 as the appropriate transitional buffer between residential and heavier commercial uses. Placing unrestricted C-3 immediately against homes runs against how the Code is designed to manage compatibility.

3. **CN is the appropriate designation:** C-1 with limitations is a reasonable compromise. Given the Mixed Density Neighborhood FLUM designation, CN is the best fit and is our preferred outcome. We could support C-1 with limitations as a compromise. If a genuine C-3-scale use is proposed in the future, the applicant retains the ability to seek it through the appropriate process at that time. Rather than allowing C-3 zoning across the entire site, the more logical long-term home is for arterial commercial to be along Williams Drive.

4. **Enhanced buffering, setbacks, and screening:** To the extent any commercial designation is approved, we ask for enhanced side and rear setbacks along the shared residential boundary, together with masonry screening and a landscape buffer, so the transition to the homes is meaningful rather than nominal.

5. **Use limitations and building height:** Several uses allowed by right in C-3: hotels, restaurants and pubs, car washes, automotive repair, and similar are not compatible immediately adjacent to homes, and the City has historically used zoning precisely to manage that relationship. We ask that, if any commercial zoning is approved, the higher-intensity C-3 uses be excluded by condition or restricted to those consistent with a neighborhood-serving character. We'd also ask that building height along the residential edge be held to the lower-district standard rather than the taller height C-3 otherwise permits; a substantially taller building set close to single-family homes is not a compatible transition.

To reiterate, we support the annexation. We support a CN designation and could support C-1 with conditions on use, height, setbacks, and screening. We fully ask that the site not connect to Garrett Oaks Drive, with removal of that connection handled through the Subdivision Variance the Code expressly provides at Section 12.05.040.B.2 (and, if needed, B.3). We believe this gives Mr. Nations a clear, approvable path to commercial development consistent with the FLUM while protecting the residents who already live here.

We'd genuinely welcome the chance to sit down with you before this goes to Council to work through a compromise, and I welcome a call from Mike or Mark as well. Additionally, please make this a part of the council package under public comments, if possible.

Thank you,

Joe Owen

Subject: Re: [EXTERNAL] 2026-5-ANX

Why C3 vs C1 on this. Staff report says comparable with the neighboring properties, yet the largest boundary is residential. I'd ask for height limitations and setbacks greater than standard next to residential properties.

Also, why would it be required to connect a street into a residential neighborhood from a commercial property. The street is designed for a certain load, goes straight into a neighborhood and it's just odd that the City would require this. The comments about needing to tie into this (Garrett Oaks) is odd. Where is consideration for street design during planning and construction approvals for a project never intending to carry commercial traffic.

The neighbors in Parmer Ranch will become an issue on the zoning and will probably show up at Council. Word is just getting out.

Thank you,

Joe Owen

Hello,

The property owner for this annexation request is 8600 Williams LLC. State law requires us to notify every property owner within 200' of the subject property, but we have notified all property owners within 300'. "Parmer Ranch Master Community Inc", the POA was notified as they own a piece of property within the 300' buffer.

Here is a link to the agenda for tomorrow's meeting: https://granicus_production_attachments.s3.amazonaws.com/georgetown/0fb320bb92e80057de5ea784e59031200.pdf. If you click on the specific item, you can find information related this request in the "Attachments" section.

The property owner is requesting to annex into city limits with a base zoning district of General Commercial (C-3). The property is not currently within city limits and does not carry a zoning designation (meaning there are no zoning controls).

If you have any additional questions, please let me know.

Thanks,

Colin Davidson

Hi Colin -

Who is the property owner of the 11.59 acres Lewis P. Dyches Survey, Abstract No. 171? Was the Property Owner's Association notified?

There is no information on the proposal on the website listed in the letters.

What is the sunmary of planning/city action request? To change it from mixed residential to commercial?

Thanks

Colin Davidson

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Mayor and Council

My wife and I are among the original residents of Parmer Ranch, and we chose this community because of its unique character. We are both active and involved with Williamson County, the City of Georgetown and our neighborhood. Unlike much larger developments such as Santa Rita, Parmer Ranch is a much smaller neighborhood—especially the south side of Ronald Reagan Blvd—that only has 225 homes with a diverse mix of families, young professionals, and many retirees. That sense of community is one of its greatest strengths.

We live at 2225 Nates Pl, Georgetown TX 78633 near the 11.59 acre tract at 8600 RM 2338 in Case 2026 5 ANX. We are not opposed to development, but C3 zoning permits hotels, motels, and other 24-hour uses directly against our family neighborhood, with no future review. We do not believe C-3 zoning is appropriate for this location. Before moving forward, we respectfully ask that additional review, public input, and thoughtful discussion take place to ensure any future development is compatible with the surrounding neighborhoods. Please either zone this tract C1 Local Commercial or hold it at first reading for a Planned Unit Development that includes a tree buffer, shielded lighting, and no 24-hour uses along the residential boundary.

Georgetown has earned a reputation for thoughtful planning and preserving community character. We hope the City will continue to set a higher standard for zoning decisions rather than allowing development patterns that feel inconsistent with long-term planning. Growth is important, and right-sizing development is important, this should be carefully planned and appropriately scaled to fit the neighborhoods it serves.

Please help ensure this proposal receives the careful consideration it deserves and that any future development is right-sized for the Parmer Ranch community.

Thank you for your time and your service to our community.

Sincerely,
Russ and Brandi Cooley
2225 Nates Pl, Georgetown, TX 78633

Subject: [EXTERNAL] Concerns Regarding Annexation and Zoning Case 2026-5 ANX

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Colin Davidson,

My wife and I are among the original residents of Parmer Ranch, and we chose this community because of its unique character. We are both active and involved with Williamson County and our neighborhood. Unlike much larger developments such as Santa Rita, Parmer Ranch is a smaller neighborhood with a diverse mix of families, young professionals, and retirees. That sense of community is one of its greatest strengths.

We are opposed to the proposed annexation and the current zoning request for Case 2026-5 ANX. We do not believe C-3 zoning is appropriate for this location. Before moving forward, we respectfully ask that additional review, public input, and thoughtful discussion take place to ensure any future development is compatible with the surrounding neighborhoods.

Georgetown has earned a reputation for thoughtful planning and preserving community character. We hope the City will continue to set a higher standard for zoning decisions rather than allowing development patterns that feel inconsistent with long-term planning. Growth is important, but it should be carefully planned and appropriately scaled to fit the neighborhoods it serves.

Please help ensure this proposal receives the careful consideration it deserves and that any future development is right-sized for the Parmer Ranch community.

Thank you for your time and your service to our community.

Sincerely,
Russ and Brandi Cooley

Colin Davidson

Subject: [EXTERNAL] Objection Regarding Case #2026-5-ANX (8600 RM 2338)

[EXTERNAL EMAIL] This email originated from outside of City of Georgetown. DO NOT click links or open attachments unless you recognize and/or trust the sender.

Dear Planning and Zoning Commission Members,

I am a homeowner in the neighborhood adjacent to the property involved in Case #2026-5-ANX, and I would like to formally express my concerns regarding the proposed annexation and General Commercial (C-3) zoning request at 8600 RM 2338.

I OBJECT to this proposed annexation.

My primary concern is the potential impact on our residential Parmer Ranch neighborhood, particularly the possibility of a future roadway connection between the proposed commercial tract and streets such as Sawdust Drive and Garrett Oaks Lane.

If such a connection is established, our neighborhood could become a convenient route for drivers attempting to access RM 2338. Increased cut-through traffic would reduce safety for families, children (a growing number in this neighborhood), walkers, and cyclists while increasing congestion, speeding, and noise within a neighborhood that was developed and purchased as a quiet residential area.

I am also concerned about the broader impacts that commercial zoning immediately adjacent to homes can create, including increased lighting, noise, delivery traffic, and other activities that may affect residents' quality of life.

As the City evaluates this request, I urge decision-makers to carefully consider the effect on existing homeowners and require protections that preserve the integrity and safety of our neighborhood. Specifically, I ask that any approval include a permanent restriction preventing vehicular access between the commercial property and the surrounding residential streets.

I respectfully request that these concerns be included in the public record and considered during the review of this application. Thank you for your time and service to our community.

Respectfully,

Valeria Tobey

Modifications of the Concept Plan pertaining to (a) roadway and trail alignments; (b) changes in the density of specific sections or phases shown on the Concept Plan that do not increase the overall density of development on the Land, and (c) changes of less than twenty percent (20%) in the size of any section or phase shown on the Concept Plan, shall be considered "Minor Modifications" over which the City's Planning Director has final review and decision-making authority. In addition, the City may request modifications to the Concept Plan relating to roadway and trail alignments if necessary due to topography, terrain, floodplains and floodways, alignment with connections to adjoining portions of roadways, trails, or utilities on adjacent properties, and similar situations, all of which shall be considered Minor Modifications over which the City's Planning Director has final review and decision-making authority.

All other changes to the Concept Plan that are not Minor Modifications shall be considered "Major Modifications." Major Modifications to the Concept Plan must be approved as an amendment to this Development Plan and PUD Ordinance by the City Council. After approval by the City in accordance with these requirements, all Minor Modifications and Major Modifications to the Concept Plan shall be recorded by the City at the Property owner's expense in the Official Records of Williamson County, and thereafter, all references in this Development Plan to the Concept Plan shall mean and refer to the then most current approved and recorded Concept Plan.

Minor Modifications to the Concept Plan allowed by this Development Plan shall not be deemed to be changes to the Project under Chapter 245 of the Texas Local Government Code. All Major Modifications to the Concept Plan shall be deemed to be changes to the Project under Chapter 245 of the Texas Local Government Code, and the provisions of the UDC and all other applicable laws and regulations in effect at the time of such Major Modifications shall apply unless the City agrees otherwise.

Approval of this Development Plan does not constitute plat or site plan approval, and all development related approvals required by the UDC are still required.

D. Allowable / Prohibited Uses

The residential component of uses on the Property will include a mix of various single family and multi-family products, together with a cohesive network of open spaces, parks, greenbelts, water quality areas and trails. The residential uses within the Property shall comply with the list of allowed and prohibited uses for RS (Residential Single Family), TF (Two Family), TH (Townhouse), MF-1 (Low Density Multi Family) and MF-2 (High Density Multi Family) defined in the Georgetown UDC, Chapter 5 Zoning Use Regulations.

The non-residential list of allowed and prohibited uses on the property shall comply with the uses defined for C-3 (General Commercial) in the Georgetown UDC, Chapter 5 Zoning with the following exceptions:
Prohibited Uses in C-3:

- Correctional Facility
- Transient Service Facility
- Substance Abuse Treatment Facility
- Cemetery
- Athletic Facility, Indoor or Outdoor
- Driving Range
- Firing Range, Indoor
- Flea Market
- Small Engine Repair
- Kennel
- Event Catering and Equipment Rental Services
- Pest Control or Janitorial Services
- Manufactured Housing Sales
- Automotive Sales, Rental or Leasing
- Automotive Parts and Accessory Sales, Outdoor
- Automobile Repair and Service, Limited
- Automobile Repair and Service, General
- Recreational Vehicle Sales, Rental or Service
- Bus Barn
- Parking lot, Off-site
- Parking lot, Commercial
- Park n Ride Facility
- Private Transport Service Dispatch Facility

E. Development Standards

The development areas on the Property shall be developed according to the following standards as well as the standards listed in Table E.1 below.

The following unit count parameters and design standards have been established:

1. Maximum Number of Residential Units:
The residential unit count on the Property shall not exceed 800 units.

Lot Width:
The minimum lot width for single family detached residential shall be 45 feet.

In order to ensure product diversity, the following single family detached residential percentages shall apply to the Property:

- A maximum of 35% of the total single family detached lots may have lot widths less than 50 feet
- A minimum of 10% of the total single family detached lots shall have lot widths of 60 feet or wider

2. Minimum Non Residential:
The Project shall contain a minimum of 30 acres of non-residential development.

City of Georgetown, Texas
City Council

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, GRANTING A SPECIAL USE PERMIT FOR THE SPECIFIC USES OF A CAR WASH WITHIN THE GENERAL COMMERCIAL (C-3) ZONING DISTRICT, FOR THE PROPERTY LOCATED AT 2815 NORTH AUSTIN AVENUE, BEARING THE LEGAL DESCRIPTION OF 1.951 ACRES OUT OF THE ANTONIO FLORES SURVEY, ABSTRACT NO. 235; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, an application has been made to the City for the purpose of allowing a special use of the following described real property ("the Property"):

1.951 acres out of the Antonio Flores Survey, Abstract No. 235, generally located at 2815 North Austin Avenue, as recorded in Document Number 2024056858 of the Official Public Records of Williamson County, Texas, hereinafter referred to as "the Property"; and

WHEREAS, the Planning and Zoning Commission, at a meeting on August 4, 2026, held the required public hearing and submitted a recommendation of approval to the City Council for the requested rezoning of the Property; and

WHEREAS, public notice of such hearing was accomplished in accordance with State Law and the City's Unified Development Code through newspaper publication, signs posted on the Property, and mailed notice to nearby property owners; and

WHEREAS, the City Council, at a meeting on August 25, 2026, held an additional public hearing prior to taking action on the requested special use of the Property.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council hereby finds that this Ordinance implements the vision, goals, and policies of the Georgetown 2030 Comprehensive Plan and further finds that the enactment of this Ordinance is not inconsistent or in conflict with any other policies or provisions of the 2030 Comprehensive Plan and the City's Unified Development Code.

Section 4. The Zoning District for the Property shall remain General Commercial (C-3) and the Ordinance allowing for the special use of a Car Wash on the property is hereby adopted, in accordance with the attached ***Exhibit A*** (Conceptual Site Plan).

Section 5. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 6. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect immediately in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the _____of _____, 2026.

PASSED AND APPROVED on Second Reading on the _____ of _____, 2026.

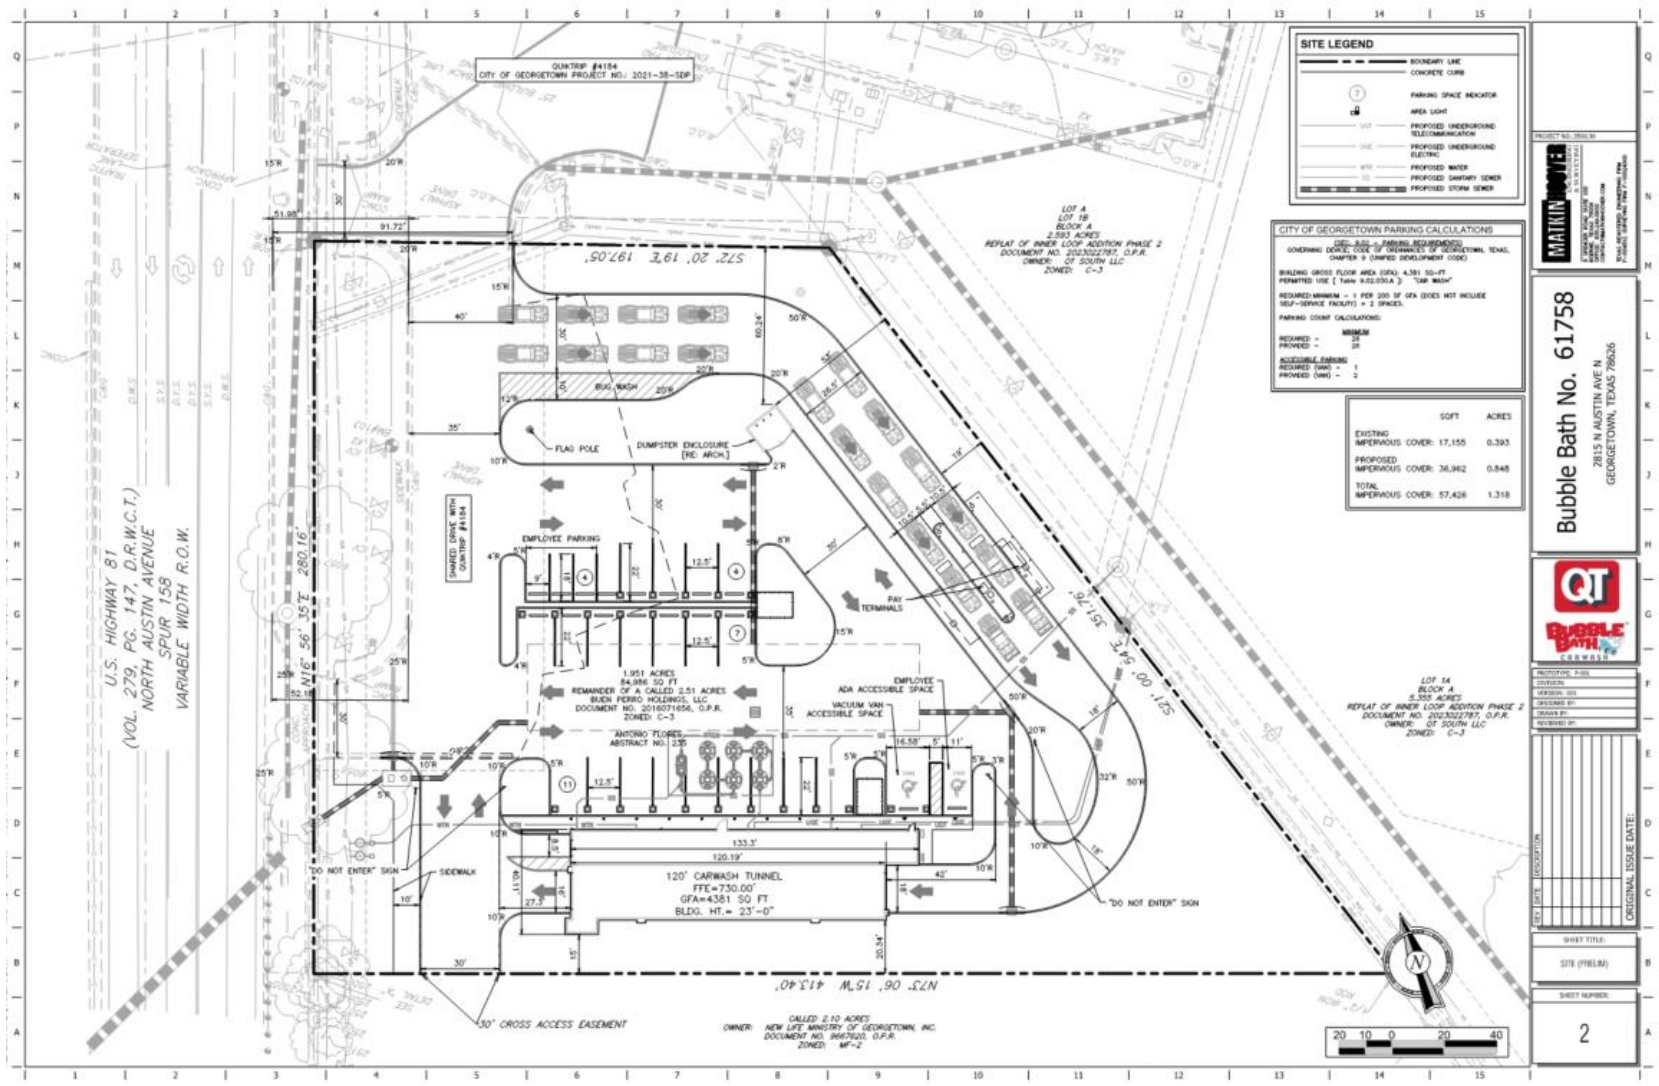
Regional Center (RC)

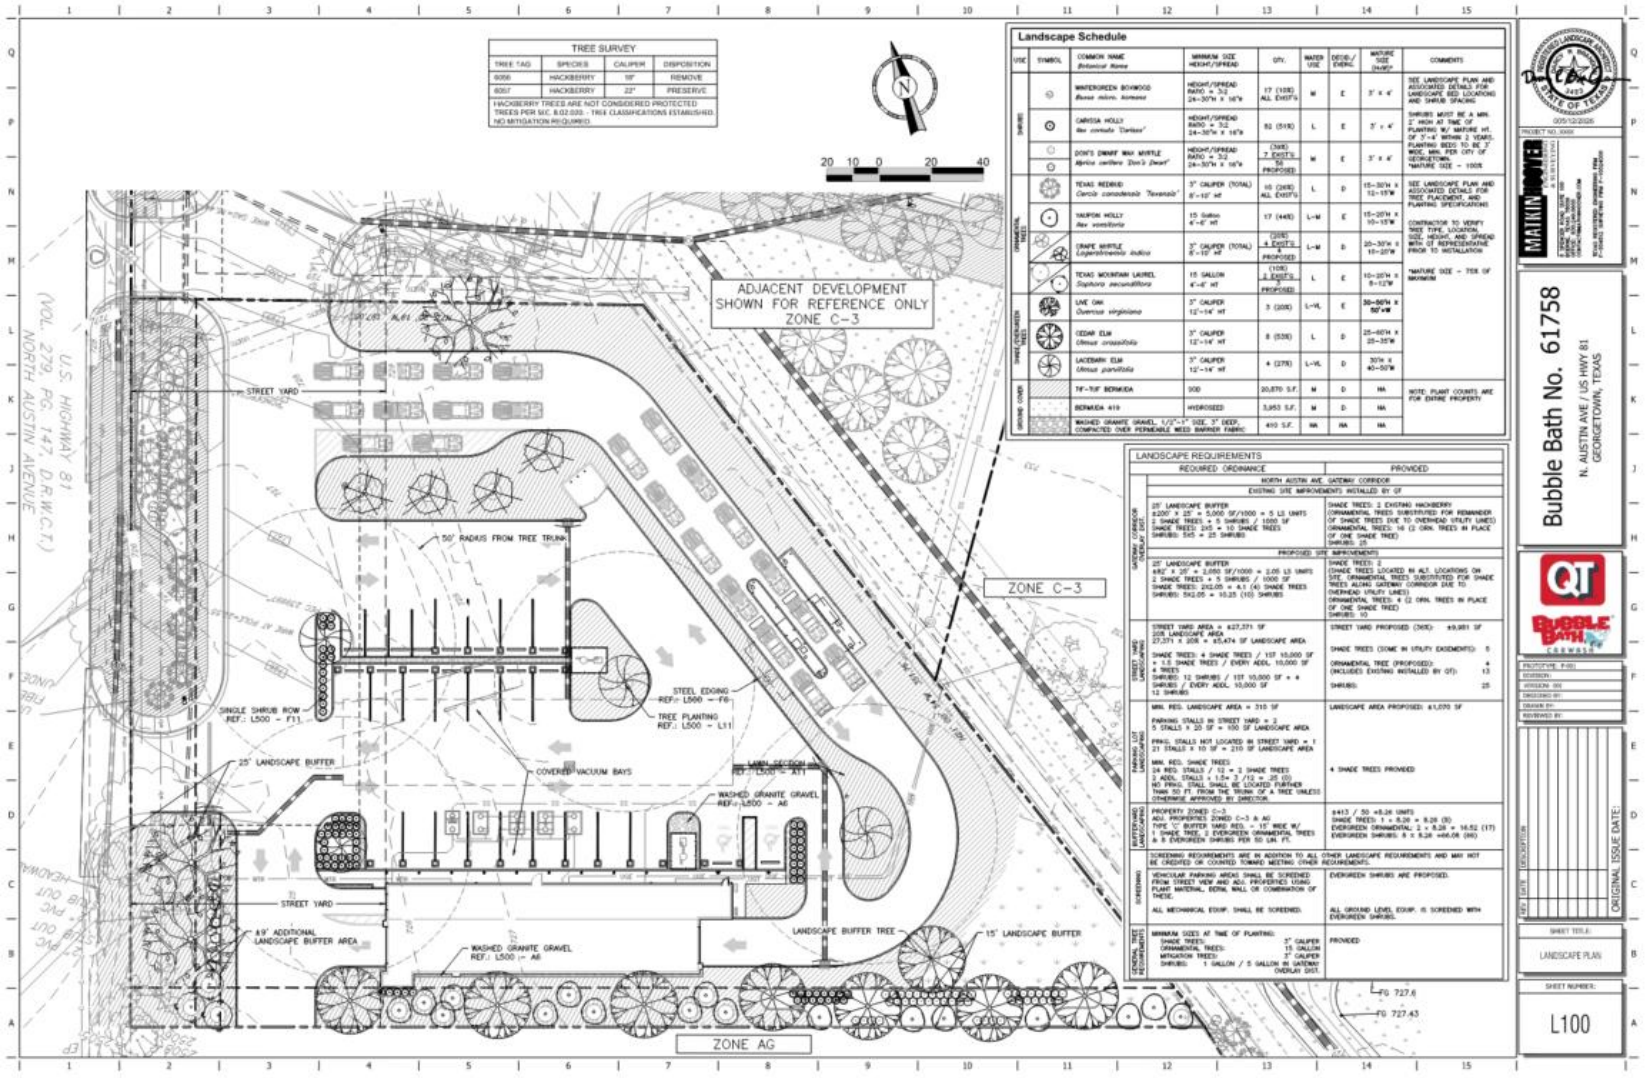
- Located around high-volume intersections and arterial/highway roads
- Major shopping centers, large scale mixed-use developments, and supporting flex office and warehouse space
- Context sensitive & quality site design and pedestrian access are encouraged to ensure compatibility with adjacent land uses
- Residential uses should be well integrated with non-residential uses, and standalone multifamily is not a supported use

- **DUA:** ≥ 18
- **Target Ratio:**
  - 75% nonresidential
  - 25% vertical mixed-use multifamily
- **Primary Use:** Large retailers, urban residential, hotels, corporate office, restaurants, multi-tenant commercial, big box commercial, live/work/shop units
- **Secondary Uses:** Mixed use, high density residential, specialty retailers, professional office, civic & institutional uses

Summary of Request



- Applicant is seeking a Special Use Permit for the “Carwash” use
- UDC 5.02.020.U does not allow a fuel sales site to contain a carwash, however the subject site in this request is its own lot.



Special Use Permit (SUP)

- The SUP allows for Planning & Zoning Commission and City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in the UDC.
- The SUP also allows for additional restrictions to be placed on the use by the Planning & Zoning Commission and the City Council.

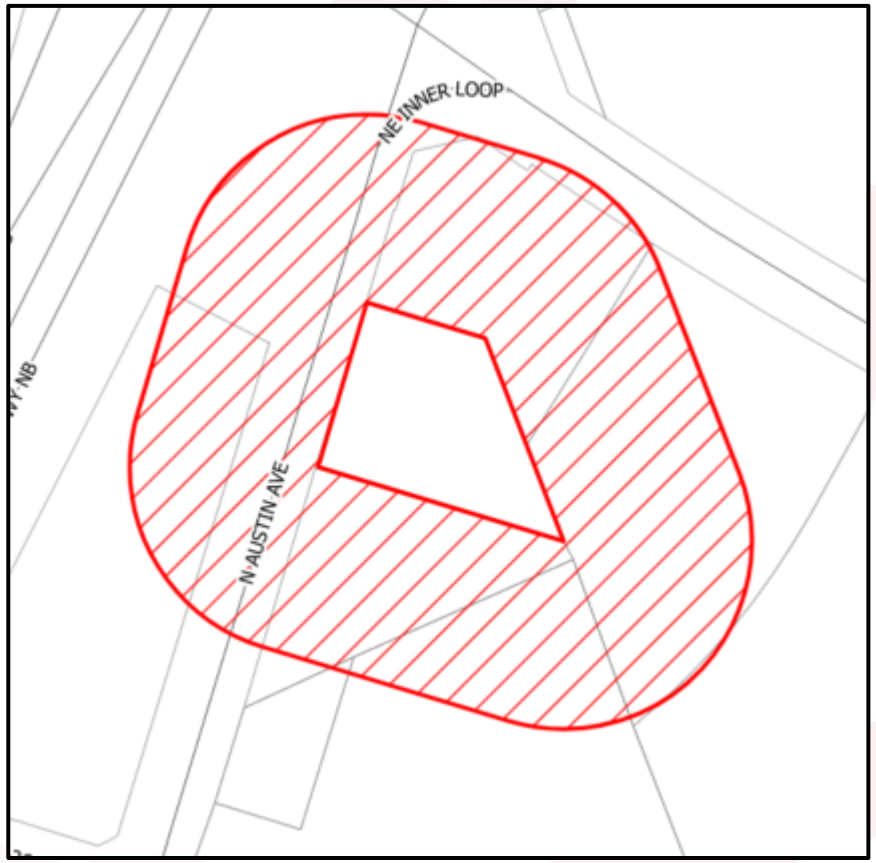
Concept Plan

Concept Plan (Landscape)

Approval Criteria – UDC Section 3.07.030

Criteria for SUP	Complies	Partially Complies	Does Not Comply
The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.			X
The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard or other injurious or noxious impact.			X
The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.	x		
The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area.		X	

Approval Criteria – UDC Section 3.06.030



Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	X		
The zoning change is consistent with the Comprehensive Plan;		X	
The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City;			X

Approval Criteria – UDC Section 3.06.030

Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood; and			X
The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	X		

Public Notifications

- 7 property owners within the 300’ buffer
- Notice in Sun News on 6.21.2025
- Signs posted on the property
- To date, staff has received:
  - 0 written comments IN FAVOR
  - 0 written comments OPPOSED

Summary

- Public Hearing and possible action on a request for a Special Use Permit (SUP) for the specific use of "Car Wash" in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP). -- Colin Davidson, Senior Planner
- Per UDC Section 3.07.030, the Planning & Zoning Commission shall hold a Public Hearing… and make a recommendation to the City Council.
- The SUP also allows for additional restrictions to be placed on the use by the Planning & Zoning Commission and the City Council.

Planning Department Staff Report

Report Date: June 30th, 2026
Case Number: 2025-8-SUP

AGENDA ITEM DESCRIPTION

Public Hearing and possible action on a request for a Special Use Permit (SUP) for the specific use of "Car Wash" in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP). -- Colin Davidson, Senior Planner

AGENDA ITEM DETAILS

Project Name:	**QT Bubble Bath #61758**
Applicant:	**Robert Costello**
Property Owner:	**QT South, LLC**
Property Address:	**2815 North Austin Avenue, Georgetown, Texas**
Legal Description:	**1.951 acres out of the Antonio Flores Survey, Abstract No. 235**
Current Zoning:	**General Commercial (C-3)**
Current Use:	**Vacant**

APPLICANT'S REQUEST

The applicant is requesting a special use permit for the use of 'Carwash'. The property is currently zoned General Commercial (C-3).

RECOMMENDATION

Staff recommend denial of the request.

PROPERTY CONTEXT

Neighborhood Character:

The subject property is located along North Austin Avenue just south of the existing QT gas station and convenience store. South of the subject site is a triangular piece of property that is largely undeveloped aside from two single-family residential structures. To the southeast sits a large multi-family development. The multi-family property comes close to bordering the subject property where the vacant triangular property tapers down to a point. The closest multi-family building is roughly 70 ft. from the subject property at its closest point. The property to the east of the subject site is currently undeveloped, with a portion being used for detention; it is zoned General Commercial (C-3).

Zoning Trends:
The subject property, along with a portion of the property to the north, was rezoned from the Agriculture (AG) zoning district to General Commercial (C-3) in 2012. The property south of the subject site was annexed into city limits in 2005 with an initial zoning of AG and has never been rezoned. The first portion of multifamily in the area rezoned to High Density Multifamily (MF-2) in 2016 and then another portion rezoned in 2020. There have been no zoning changes in the area since 2020.

Present Property Description:
Currently, the property is undeveloped aside from a portion of driveway that was constructed when the gas station north of the subject site was developed. There is a foundation remaining from the building that once occupied the site. Trees line the eastern and southern property boundaries.

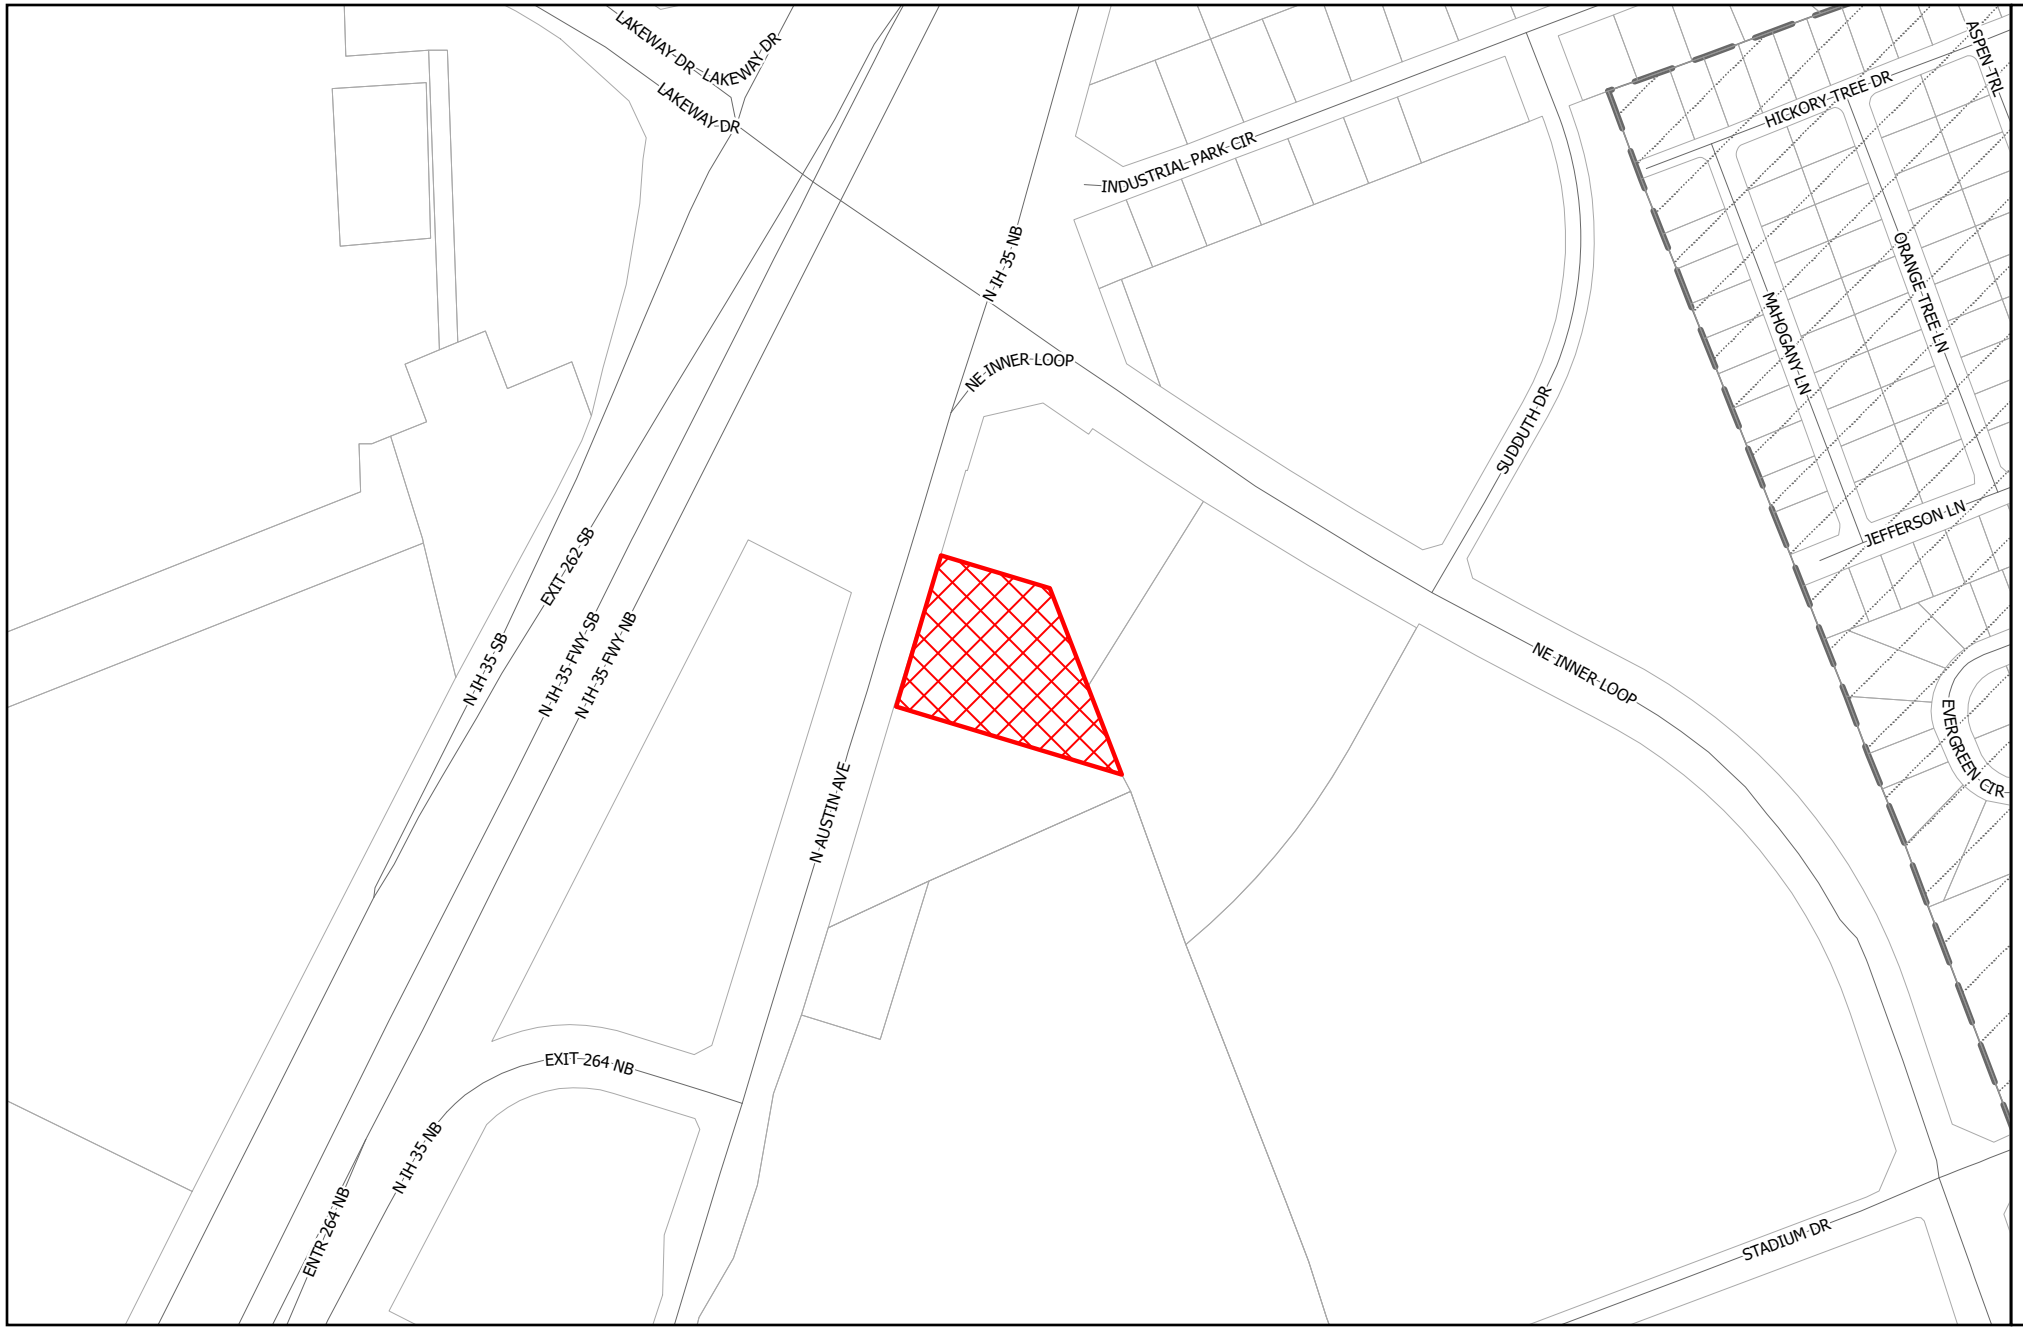
STAFF ANALYSIS

Staff reviewed the proposed Special Use Permit for a carwash against the applicable approval criteria and found that the request does not fully comply with all of the criteria for a Special Use Permit. While the proposed site layout and circulation are generally acceptable, concerns remain regarding the proximity of the carwash to existing residential development southeast of the site. Although the concept plan includes a 15-foot landscape buffer along the southern property boundary, no wall or other noise mitigation measures are proposed. As a result, staff cannot make the required findings that the use will not negatively impact nearby residential properties through noise and vibration or that it is not detrimental to the health, welfare, and safety of the surrounding neighborhood.

The proposed rezoning request was reviewed by all applicable City Departments to determine the appropriateness of the requested zoning on the subject property. No comments were made regarding the zoning request.

Staff Reviewed the request against the approval criteria for Special Use Permits found in UDC Section 3.07.030 and found that it complies with one of the criteria, partially complies with one of the criteria and does not comply with two of the criteria in UDC 3.07.030, as outlined in Exhibit 6.

PUBLIC NOTIFICATION



As required by the Unified Development Code, all property owners and registered neighborhood associations within a 300-foot radius of the subject property were notified of the annexation and initial zoning request (7 notices), a legal notice advertising the public hearing was placed in the Sun Newspaper (June 21, 2026) and signs were posted on-site. To date, staff has received 0 written comment in favor, and 0 in opposition to the request.

Re: **QuikTrip Bubble Bath Car Wash 61758 Special Use Permit Application**
2815 N Austin Ave
Georgetown, Texas 78626

To Whom It May Concern:

This letter serves as a formal Letter of Intent and a request for a Special Use Permit (SUP) to develop a state-of-the-art automated tunnel car wash facility located at 2815 N Austin Ave, within a designated Regional Center as defined by the City of Georgetown's 2030 Comprehensive Plan. This project is being pursued with a commitment to aligning with and actively contributing to the city's long-term vision for balanced, sustainable, and fiscally responsible growth.

This development is designed to be in complete compliance with the spirit and specific policies of the 2030 Comprehensive Plan. Our proposed tunnel car wash is a modern, high-quality commercial service that will enhance the economic vitality and quality of life for Georgetown residents.
The project aligns with the following goals and policies of the 2030 Comprehensive Plan:

Goal 1: Balanced Land Use

- **Policy LU.1:** This development will contribute to the balanced mix of commercial and service uses in the Regional Center. A well-integrated car wash facility provides a necessary amenity for the surrounding residential and commercial areas, reducing the need for residents to travel to other parts of the city for this service. This supports the policy of having a balanced mix of uses in the community.
- **Policy LU.2:** The development is designed to be a compact, higher-density use within an appropriate infill location. It will not contribute to urban sprawl but will instead make productive use of an existing commercial area, promoting efficiency in land use.
- **Policy LU.3:** As a commercial use, this car wash will serve as a neighborhood-supporting amenity, contributing to the creation of a "complete neighborhood" by providing a local service that complements existing residential and commercial developments.

Goal 3: Development Framework and Economic Growth

- **Policy LU.8:** This project directly supports Georgetown's economic development goals by providing a new, high-quality commercial service that contributes to the city's tax base. We will create new jobs and provide a valuable service to the community.
- **Regional Center Land Use Category:** The proposed development is entirely consistent with the

definition and intent of a Regional Center as outlined in the Comprehensive Plan. Conveniently located immediately adjacent to an auto-oriented service (QuikTrip), this tunnel car wash is an appropriate use for a Regional Center, which is defined as accommodating "major shopping centers, standalone big-box retailers, or large-scale mixed-use developments, as well as supporting flex office space and office/warehouse development." The complimentary uses will create a synergistic harmony within the area. The project is strategically located with convenient access from major transportation routes, serving the broader community.

Goal 7: High-Quality Infrastructure

- **Policy LU.9:** This development will demonstrate a commitment to environmental stewardship through the use of low-impact development (LID) practices. The facility will be designed with advanced water reclamation and recycling technology, significantly reducing its demand for municipal water supplies. This aligns with the city's goal of maintaining high-quality, sustainable infrastructure.
- **Policy LU.10:** The project will incorporate a comprehensive water management plan, including state-of-the-art systems for capturing and treating all runoff, preventing contaminants from entering the city’s stormwater system.

Goal 10: Transportation Network

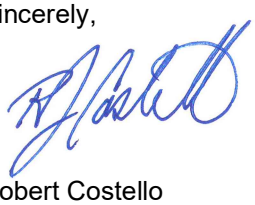
- **Policy T.1:** The site plan is meticulously designed to ensure efficient and safe vehicular circulation, minimizing impact on the adjacent street network. The driveways and queuing lanes will be configured to prevent queuing onto the public roadway, thereby improving the flow of traffic in the area and supporting the city's overall transportation goals.

Compliance with UDC Section 3.07.030: Criteria for Approval

Our proposed development has been designed to meet and exceed the criteria for approval for a Special Use Permit as outlined in **UDC Section 3.07.030**.

- **No Significant Negative Impact:** The project's design and operation will not create a significant negative impact on surrounding property or the general public. As an enclosed tunnel wash, the majority of the operations are contained within the building, mitigating noise and spray. The site plan incorporates a comprehensive buffering and landscaping plan to provide a visual and sound buffer to adjacent properties.
- **Compatibility with Character:** The design of the building and the overall site plan will be harmonious with the character of the surrounding Regional Center. The building will utilize modern architectural elements and high-quality materials, while the landscaping will ensure a seamless and attractive transition to the existing commercial landscape.
- **No Negative Impact on Infrastructure:** The development is designed to be fiscally and infrastructurally responsible. Water and sewer connections have been planned to integrate with existing city infrastructure without creating undue burden. Traffic will be managed with dedicated stacking lanes, preventing negative impacts on public roads and ensuring smooth circulation.
- **No Injurious or Noxious Impact:** The facility's closed-loop water reclamation system and waste management plan are specifically designed to prevent the creation of harmful fumes, dust, or runoff. All chemicals are stored indoors, and the wash process is contained, ensuring no injurious or noxious impacts on the surrounding environment or neighborhood.

Project and Site Details



To provide a complete overview of the proposed development and address the requirements of the Special Use Permit application, the following information is included:

- **Legal Description:** The legal description is attached as a separate exhibit to the application.
- **Site Acreage:** The development will be situated on a site of approximately 1.951 acres.
- **Proposed Building:** The single-story building will have a gross floor area of approximately 4,381 square feet and a maximum height of 23 feet.
- **Hours of Operation:** The proposed hours of operation are 8ma-8pm daily.
- **Employees:** The facility will have an average of three employees on-site.
- **Parking:** The site plan includes a total of [Number of Parking Spaces] parking spaces for customer and employee use, in excess of the minimum requirements.
- **Vehicle Trips:** The estimated number of vehicle trips generated by the development is approximately 70 trips during peak hour, with the site plan designed to efficiently manage this traffic flow without impacting public streets.
- **Lighting and Signage:** A detailed plan for all lighting and signage will be included in the formal site plan to ensure compliance with the Unified Development Code (UDC) for brightness, design, and placement, minimizing glare and light pollution to surrounding properties.
- **Buffering and Screening:** The site plan includes a comprehensive landscaping and buffering plan, utilizing a combination shade trees, ornamental trees and shrubbery, to provide a visual screen from adjacent uses and ensure the development is aesthetically harmonious with the surrounding area. All outdoor refuse containers will be fully enclosed and screened from view.

We believe this proposed tunnel car wash is not only a viable commercial project but also a model development that is fully consistent with the City of Georgetown's vision for its future. We are prepared to meet with staff and the Planning and Zoning Commission to discuss this project in greater detail and provide any additional information required.

Thank you for your time and consideration.

Sincerely,

Robert Costello
Real Estate Project Manager

Case Number: 2025-8-SUP

UDC Section 3.07.030 – Approval Criteria for Special Use Permits

Special Use Permits allow for City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in this Code. Special Use Permits may be issued only for uses that are generally compatible with other uses permitted in a zoning district, but that require individual review of their location, design, intensity, etc. These uses may be in districts as indicated with conditions described in a Special Use Permit recommended by the Planning and Zoning Commission and approved by the City Council.

In addition to the criteria for zoning changes in Section 3.06.030, the City Council may approve an application for a Special Use Permit where it reasonably determines that there will be no significant negative impact upon residents of surrounding property or upon the public.

Staff Reviewed the request against the approval criteria for Special Use Permits found in UDC Section 3.07.030 and found that it complies with one of the criteria, partially complies with one of the criteria and does not comply with two of the criteria as detailed below.

1. The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.	**Does Not Comply**
With the proposed use being in close proximity to existing residential buildings to the southeast, and the location of the carwash building being situated on the southern portion of the lot, the special use permit is detrimental to the welfare of the surrounding neighborhood and its occupants. Carwashes and associated facilities, such as vacuum stations, can produce excessive noise and vibration. The proposed carwash building is located approximately 15 feet from the southern property line and roughly 220 feet from the nearest residential building. While the concept plan provides a 15-foot landscape buffer along the southern property boundary, it does not include a wall, acoustic barrier, or other site features designed to mitigate noise impacts on adjacent properties. *Continued on next page ->*	

Given the proximity of the proposed use to existing residential development and the lack of noise mitigation measures, staff found that the request has the potential to adversely affect the surrounding neighborhood and its occupants and so does not satisfy this criterion.

2. The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area.	**Partially Complies**

The proposed concept plan shows a single lane carwash tunnel on the southern boundary of the site with a queuing lane running along the eastern and northern perimeters. Self-serve vacuum stations and additional parking are located internal to the site, buffered by the carwash tunnel and queuing lanes. The site takes access from North Austin Avenue via a driveway on the southern portion of the site. The concept plan also proposes inter-parcel connectivity between this site and the existing QT gas station to the north by way of the existing driveway constructed by QT during the development of the gas station.

The proposed site layout does not cause concern in terms of circulation. The design is generally harmonious with the other development we see along North Austin Avenue, which is classified as a Minor Arterial in the City's Overall Transportation Plan. As previously stated, the concern with the proposed Car Wash and its site plan is the location of the carwash tunnel in proximity to the existing residential buildings to the southeast. Without a wall or some other site feature to mitigate sound produced by the site, the concept plan cannot achieve full compliance with this criterion.

3. The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.	**Complies**

The proposed use does not negatively impact existing uses in terms of public infrastructure or public services. Both the city's engineering and fire departments have reviewed the request and all comments concerning infrastructure and fire protection have been addressed. The proposed request is not anticipated to impact the ability of existing infrastructure and services to adequately provide service.

Continued on next page ->

4. The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard or other injurious or noxious impact.	**Does Not Comply**
As mentioned in previous criteria, it cannot be stated that the proposed use and operation of the site will not negatively impact existing uses in the area in terms of noise and vibration. Carwashes and associated site features produce sound and vibration which could impact properties surrounding the subject site.	

Additionally, staff reviewed the request against the approval criteria for a Zoning Map Amendment found in UDC Section 3.06.030 and found that it complied with four and partially complied with one of the five approval criteria as detailed below.

A. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	**Complies**
This application was reviewed by staff and deemed to be complete.	
B. The zoning change is consistent with the Comprehensive Plan.	**Partially Complies**
The property is located within the Regional Center Future Land Use Designation which calls for high intensity commercial intended for users across the community, according to the Comprehensive Plan. Developments in this Future Land Use Designation are typically auto oriented and along major transportation routes or highway interchanges to maximize visibility and access to the site. With the site's location along North Austin Avenue, the proposed use of a carwash does not substantially conflict with the provisions of the Future Land Use Map. However, Land Use Policy #1 states that there should be a gradual transition in use when examining zoning changes. Without mitigating site features, It cannot be stated that this use will serve as a gradual transition into the residential area to the east, hence staff's finding of partial compliance.	
C. The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.	**Does Not Comply**
The proposed special use will not alter the zoning map, but it cannot be stated that the proposed request with *promote* the health, safety or general welfare of the city. As mentioned in previous criteria, the proposed use could create negative impacts on the surrounding residential uses in terms of sound and vibration. Therefore, the request does not comply with this criteria.	

D. The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.	**Does Not Comply**
The character of the area along North Austin Avenue is largely commercial with some of the uses being auto oriented. Adjacent to the subject site are two large apartment complexes with a substantial number of residential units. As mentioned in previous criteria, the proposed use of a carwash in does not conform with the use or character of the surrounding residential buildings.	
E. The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	**Complies**
The subject site is of adequate size and shape to accommodate the proposed use of a carwash. The site is served with adequate utilities and does not cause concern in terms of circulation or fire access.	

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
First Reading - 2026-2-SUP - 750 S IH 35

SUGGESTED ACTION:
Public Hearing and First Reading of an Ordinance on a request for a Special Use Permit (SUP) for the specific use of Permanent Mobile Food Vendor in the C-1 Local Commercial zoning district on the property located at 750 South Interstate Highway 35, Georgetown, TX 78628, bearing the legal description of Lot 5B, Block B, of the Rivery Phase 1 Lot 5 Block B Replat (2026-2-SUP) -- Preston Gunn, Planner

ITEM SUMMARY:
The applicant is requesting the Special Use Permit (SUP) to create a permanent food truck park. In their Letter of intent (see attached) they note that they expect to have 100 daily patrons between the hours of 11am and 10pm. They believe that they provide a low impact commercial use that supports community gathering and local food vendors.

FINANCIAL IMPACT:
None. The applicant has paid the required application fees.

Planning Department Staff Report

Report Date: July 1st, 2026

Case Number: 2026-2-SUP

AGENDA ITEM DESCRIPTION

Public Hearing and possible action on a request for a Special Use Permit (SUP) for the specific use of Permanent Mobile Food Vendor in the Local Commercial (C-1) and General Commercial (C-3) Zoning District on the property located at 750 South Interstate Highway 35, Georgetown, TX 78628, bearing the legal description of Lot 5B, Block B, of the Rivery Phase 1 Lot 5 Block B Replat (2026-2-SUP)

AGENDA ITEM DETAILS

Project Name: Georgetown Food Truck Park

Applicant: ATX kitchens, c/o Qing Chen

Property Owner: ATX kitchens, c/o Qing Chen

Property Address: 708 N IH 35

Legal Description: of Lot 5B, Block B, of the Rivery Phase 1 Lot 5 Block B Replat

Current Zoning: Local Commercial (C-1) and General Commercial (C-3).

Current Use: Vacant

APPLICANT'S REQUEST

The applicant is requesting the Special Use Permit (SUP) to create a permanent food truck park. In their Letter of intent (see attached) they note that they expect to have 100 daily patrons between the hours of 11am and 10pm. They believe that they provide a low impact commercial use that supports community gathering and local food vendors.

RECOMMENDATION

Staff recommend conditional approval of the request.

- **The permanent food vendors service windows must not face the drive aisle of the parking lot**

PROPERTY CONTEXT

Neighborhood Character:

The subject property is located off the I-35 frontage road and the Rivery Driveway Private Road in front of Wal-Mart. The majority of the area surrounding the subject site are local commercial uses such as banking, retail, and offices.

Zoning Trends:

The area was platted on April 24, 2003. It was rezoned from RS, Residential Single-Family District to C-2A, Commercial First Heigh Restricted on October 22nd, 1996. On November 28th, 2000, a portion of the property was rezoned to C-1 Local Commercial. In 2003 the Unified Development Code was adopted

and removed the C-2A, Commercial First Heigh Restricted zoning district, and was replaced with the C-3 General Commercial zoning district.

Present Property Description:
The property has an existing unoccupied commercial building at the center of the lot. It was formerly used for the George's on the Town Restaurant. The property derives vehicular access from the private Rivery Drive which connects directly to South I-35 frontage road. On the western portion of the property is a connection to an existing Wells Fargo bank.

STAFF ANALYSIS

Technical Review:
The subject property has an existing Future Land Use designation of Regional Center (RC). RC is configured as major shopping centers, standalone big-box retailers, or large-scale mixed-use developments, as well as supporting flex office space and office/warehouse development. They are typically located at high- volume intersections and sometimes along both sides of a highway or arterial. These developments are typically automobile-oriented with convenient access from major transportation routes.

With the intended pedestrian connectivity of RC, it would meet the intent of the Land Use Policy No. 3. A food truck court would provide additional commercial services that contribute to complete neighborhoods. Complete neighborhoods include a range of housing types or may be exclusively single-family housing types; however, a critical component is the provision of appropriately-scaled amenities and commercial services.

The SUP for a food truck park would be providing additional food options to the area within a short distance to multifamily and single family housing as well as adjacent office, retail, and commercial uses. The SUP would also be helping to utilize a property that has been vacant for at least 5 years. This utilization would be an improvement in the quality of life for the community.

The proposed Special Use Permit (SUP) request was reviewed by all applicable City Departments to determine the appropriateness of the requested zoning on the subject property. No comments were made regarding the zoning request. The request will still need to receive a Site Development Plan, Temporary Use Permits for each food vendor, and any other required permit prior to commencing operations following approval of the Special Use Permit.

Staff reviewed the proposed rezoning request and found it complies with the criteria established in UDC Section 3.06.030 for a Zoning Map Amendment and UDC Section 3.07.030 for a Special Use Permit, as outlined in Exhibit 6.

PUBLIC NOTIFICATION

As required by the Unified Development Code, all property owners and registered neighborhood associations within a 300-foot radius of the subject property were notified of the Special Use Permit (6 notices), a legal notice advertising the public hearing was placed in the Sun Newspaper (June 21, 2026) and signs were posted on-site. To date, staff has received 0 written comment in favor, and 0 in opposition to the request.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, GRANTING A SPECIAL USE PERMIT FOR THE SPECIFIC USES OF A PERMANENT MOBILE FOOD VENDOR IN THE LOCAL COMMERCIAL (C-1) AND GENRAL COMMERCIAL (C-3) ZONING DISTRICT ON THE PROPERTY LOCATED AT 750 SOUTH INTERSTATE HIGHWAY 35, GEORGETOWN, TX, 7828, BEARING THE LEGAL DESCRIPTION OF LOT 5B, BLOXK B, OF THE RIVERY PHASE 1 LOT 5 BLOCK B; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, an application has been made to the City for the purpose of allowing a special use of the following described real property ("the Property"):

Lot 5B, Block B, of the Rivery Phase 1 Lot 5 Block B Replat, generally located at address/general location, as recorded in Document Number 2022118901 of the Official Public Records of Williamson County, Texas, hereinafter referred to as "the Property"; and

WHEREAS, the Planning and Zoning Commission, at a meeting on July 7, 2026, held the required public hearing and submitted a recommendation of conditional approval to the City Council for the requested rezoning of the Property; and

WHEREAS, public notice of such hearing was accomplished in accordance with State Law and the City's Unified Development Code through newspaper publication, signs posted on the Property, and mailed notice to nearby property owners; and

WHEREAS, the City Council, at a meeting on July 28th 2026 held an additional public hearing prior to taking action on the requested special use of the Property.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council hereby finds that this Ordinance implements the vision, goals, and policies of the Georgetown 2030 Comprehensive Plan and further finds that the enactment of

this Ordinance is not inconsistent or in conflict with any other policies or provisions of the 2030 Comprehensive Plan and the City's Unified Development Code.

Section 4. The Zoning District for the Property shall remain Residential Single-Family (RS) and the Ordinance allowing for the specific use of Permanent Mobile Food Vendor on the property is hereby adopted, in accordance with the attached ***Exhibit A*** (Conceptual Site Plan).

Section 5. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 6. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect immediately in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the _____of _____, 2026.

PASSED AND APPROVED on Second Reading on the _____ of _____, 2026.

Future Land Use Designation

Highway Overlay

- Highway corridors are located along the City's major roadways with the highest traffic volumes and traffic speeds. Highway corridors include primarily auto-oriented, nonresidential development such as commercial, retail, office, and mixed-use to capitalize on highway visibility and access

Local Commercial (C-1)

- Commercial and retail serving residential areas
- Pedestrian access to adjacent residential areas
- Not appropriate along residential streets or residential collectors

Dimensional Standards

- Min. lot width = 50’
- Max building height = 35’
- Front setback = 25’
- Side setback = 10’
- Rear setback = 0’
- Side setback to residential = 15’
- Rear setback to residential = 25’
- 15’ bufferyard adjacent to RS
- FAR = 0.5

General Commercial (C-3)

- Commercial and retail serving entire community
- May be large in scale and generate substantial traffic
- Appropriate along Arterials and Freeways

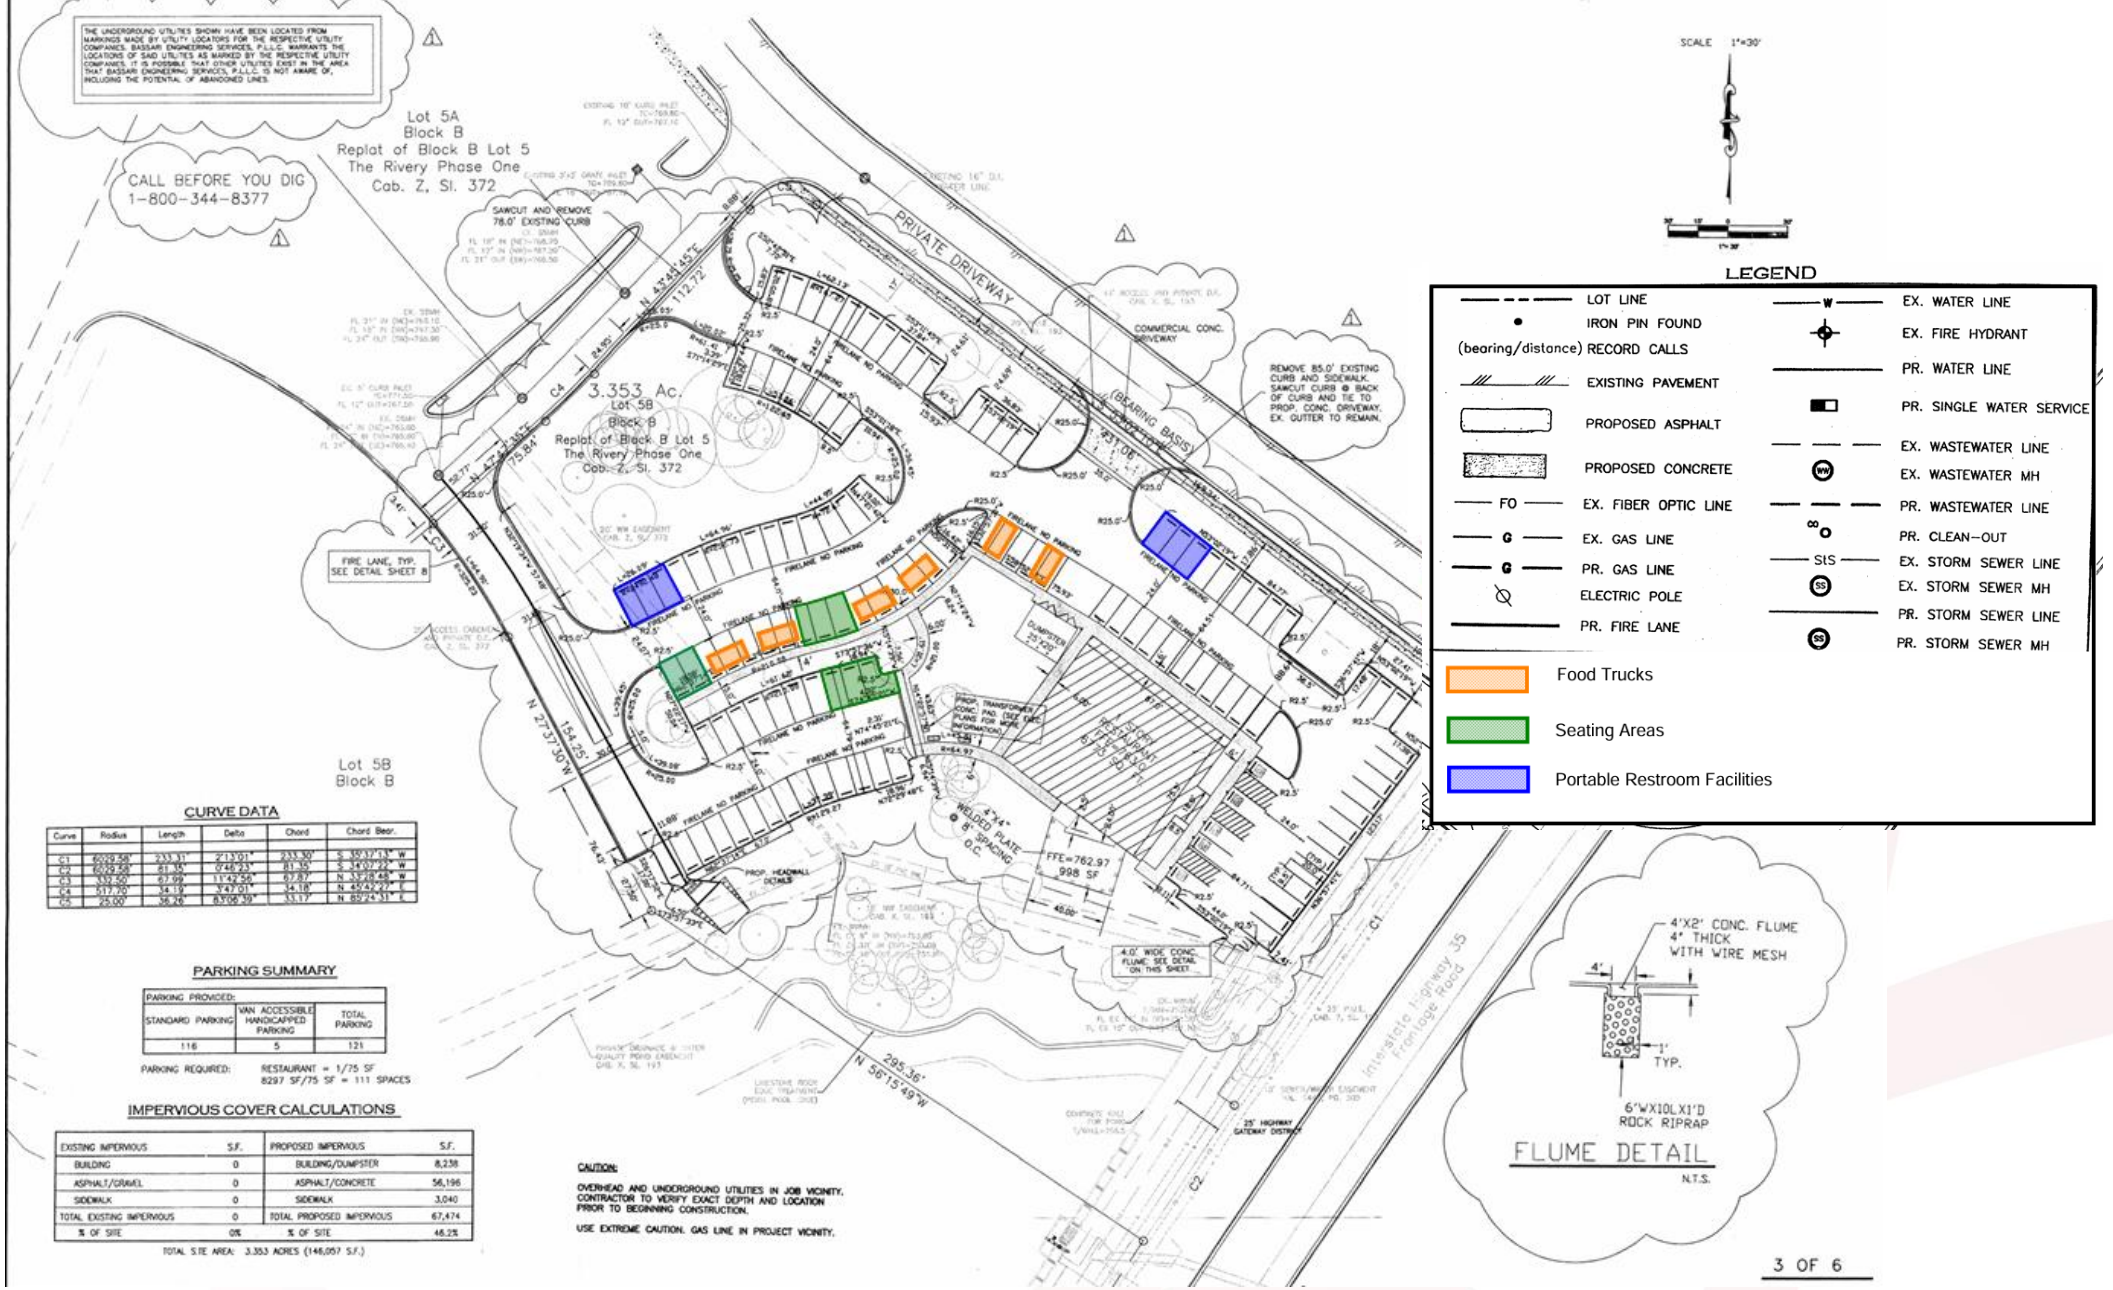
Dimensional Standards

- Max building height = 60’
- Front setback = 25’
- Side setback = 10’
- Rear setback = 10’
- Side setback to residential = 15’
- Rear setback to residential = 25’
- 15’ bufferyard adjacent to RS

Special Use Permit (SUP)

- The SUP allows for Planning & Zoning Commission and City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in the UDC.
- The SUP also allows for additional restrictions to be placed on the use by the Planning & Zoning Commission and the City Council.

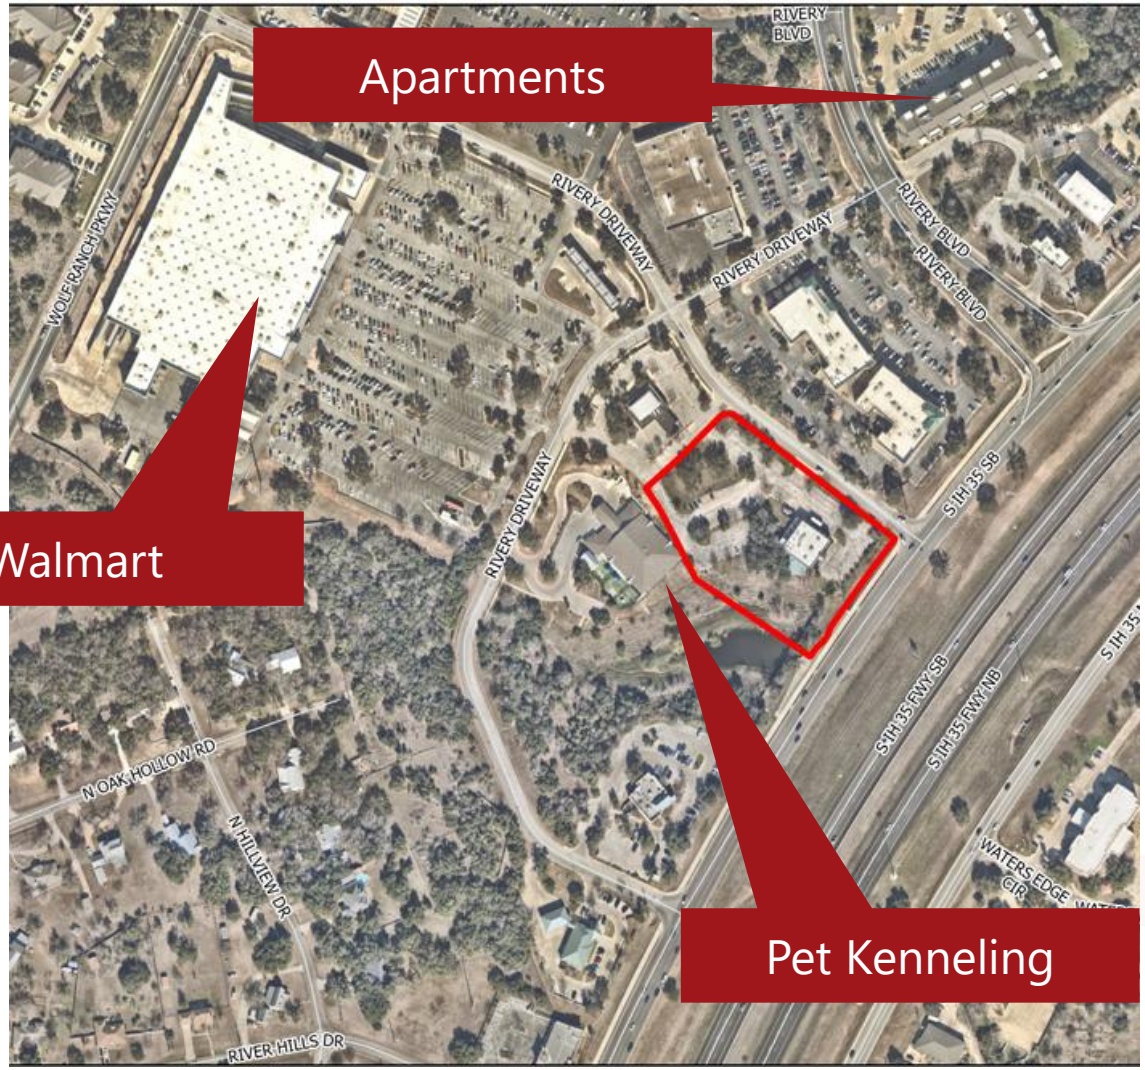
Use Limitations – UDC Sec. 5.04.020.Y



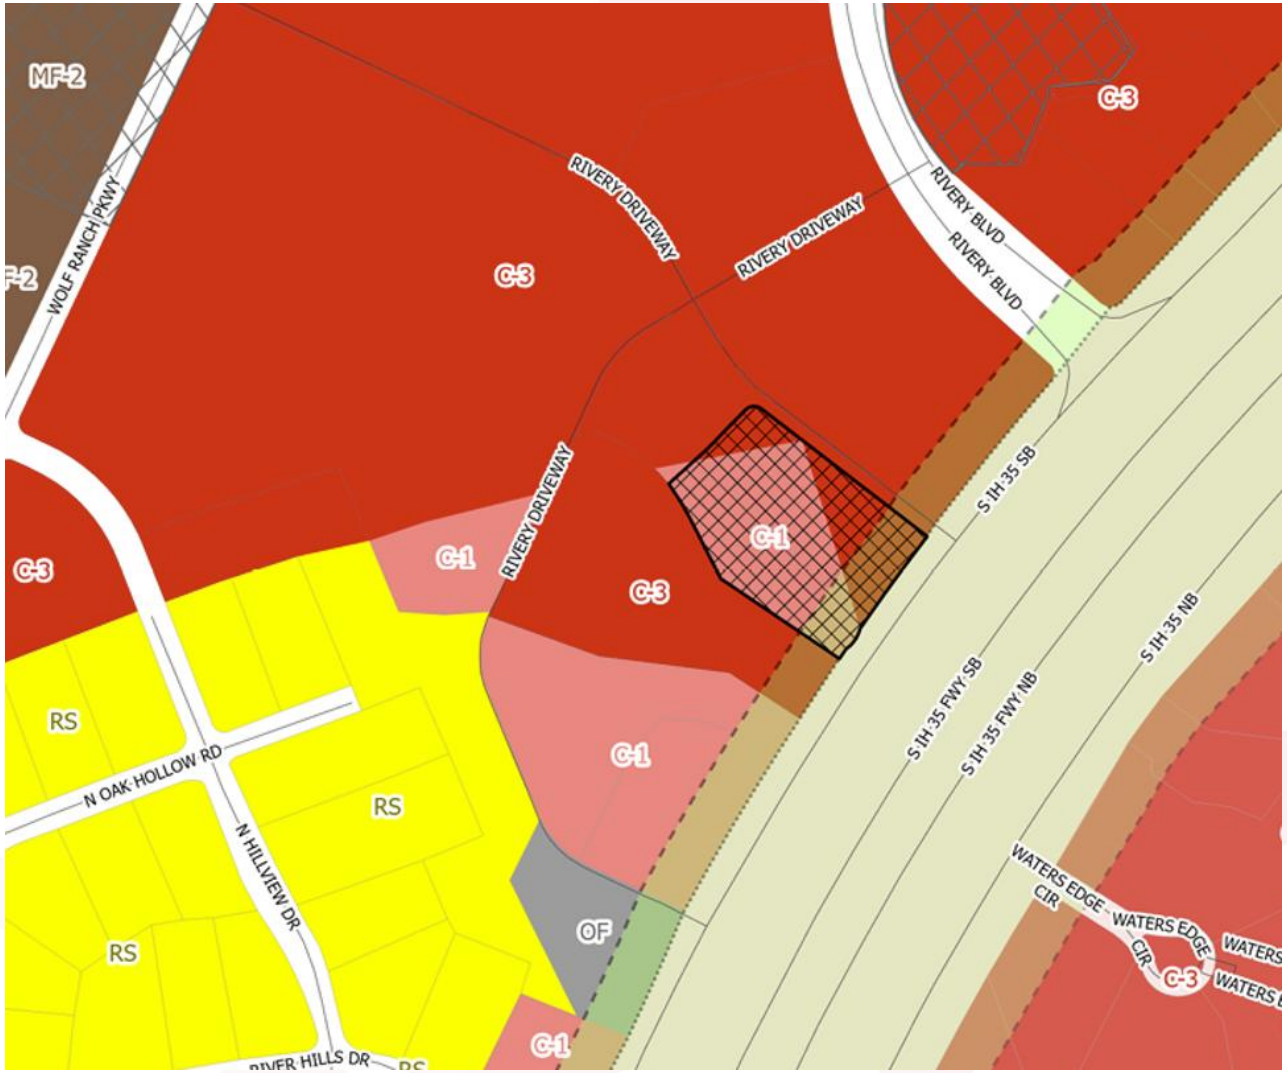
1. The Mobile or Outdoor Food Vendor(s) shall be a primary use on the property.
2. Each Mobile or Outdoor Food Vendor shall have a City approved connection to City approved electric, water and wastewater services.

Use Limitations – UDC Sec. 5.04.020.Y

3. A Mobile Food Park Manager shall be designated for the property.
   a) The Mobile Food Park Manager shall be available by phone while the vendor(s) is open for business. A telephone number and email address for the Mobile Food Park Manager shall be posted on a sign no larger than one square foot. The sign shall be posted on a location visible to the patrons.
   b) The Mobile Food Park Manager shall be responsible for the general management of the park, including but not limited to addressing inquiries, questions, and concerns, ensuring property maintenance, enforcing hours of operation, and other operational matters.



Use Limitations – UDC Sec. 5.04.020.Y



4. Parking shall be provided in accordance with Chapter 9 of this Code.
5. Toilet facilities and trash receptacles shall be provided on the property in compliance with all applicable City regulations.
6. Amenities including but not limited to tables, chairs and shade structures may be permitted on the property subject to compliance with this Code.
7. All vendors, amenities and other site improvements shall be identified on the Special Use Permit Concept Plan and Site Development Plan in accordance with this Code.

Letter of Intent

Proposed Food Truck Park / Special Use Permit
City of Georgetown, Texas

Applicant: Qing Chen
Project: Georgetown Food Truck Park
Date: [2/09/2026]

To Whom It May Concern,

This Letter of Intent is submitted in support of the proposed food truck park project in the City of Georgetown, Texas, as part of our Special Use Permit application. The intent of this letter is to provide justification for the proposed use, demonstrate compliance with the City of Georgetown 2030 Comprehensive Plan, and address the approval criteria outlined in Section 3.07.030 of the Unified Development Code (UDC).

---

1. Statement of Justification & Project Description

The proposed project consists of a professionally managed food truck park designed to provide a curated, family-friendly dining environment featuring multiple mobile food vendors. The operation will focus on high-quality, locally operated food trucks, with an emphasis on orderly site management, cleanliness, and compatibility with surrounding commercial uses.

Type of Operation:
• Multiple permitted food trucks operating from designated parking stalls
• Centralized seating areas and pedestrian circulation
• No permanent enclosed structures for food preparation

Proposed Hours of Operation:
• Sunday–Thursday: 11:00 AM – 9:00 PM
• Friday–Saturday: 11:00 AM – 10:00 PM

Estimated Employment & Attendance:
• Approximately 2–4 employees per food truck
• Estimated daily attendance of 100 patrons depending on day and season

The food truck park is intended to serve nearby residents, employees of surrounding commercial developments, and visitors, offering a convenient dining option that complements existing businesses.

---

2. Consistency with the Georgetown 2030 Comprehensive Plan

The proposed use is consistent with the goals and policies of the **City of Georgetown 2030 Comprehensive Plan**, particularly those that promote:

• **Economic Vitality and Local Business Support** – The project supports small, locally owned businesses and entrepreneurial opportunities, aligning with the Plan's emphasis on fostering diverse commercial activity.
• **Efficient Use of Land** – The proposal activates underutilized commercial land without requiring permanent vertical construction, supporting flexible and adaptive land use strategies.
• **Community Gathering Spaces** – The food truck park provides an informal social space that encourages community interaction while remaining compatible with surrounding commercial development.
• **Transportation and Accessibility Goals** – The site design accommodates vehicular and pedestrian access without overburdening adjacent roadways or parking infrastructure.

Overall, the proposal advances the Comprehensive Plan's vision of thoughtful, well-managed growth that enhances quality of life while supporting local commerce.

---

3. Compliance with UDC Section 3.07.030 – Special Use Permit Criteria

a. Health, Welfare, and Safety
The proposed use will not be detrimental to the health, welfare, or safety of the surrounding neighborhood. All food trucks will operate under valid permits and health department approvals. The site will include designated trash and grease disposal, regular cleaning protocols, and clear circulation paths for both vehicles and pedestrians.

b. Compatibility with Surrounding Area
The conceptual site layout, circulation, and design are harmonious with the surrounding commercial character. The project is designed as a low-profile, open-air use that does not introduce incompatible building massing or visual impacts.

c. Public Infrastructure & Services
The proposed use will not negatively impact public infrastructure or services. Traffic generation is anticipated to be comparable to other commercial food service uses. Adequate parking, circulation, and access will be provided on site, and existing police, fire, and solid waste services are sufficient to serve the development.

d. Environmental & Nuisance Impacts
The project will not create excessive noise, glare, fumes, vibration, or other noxious impacts. Food trucks will comply with applicable noise and operational regulations, and no amplified music or late-night activity beyond the proposed hours is planned.

Conclusion

The proposed food truck park represents a well-managed, low-impact commercial use that aligns with the City of Georgetown's long-term planning goals, supports local economic development, and meets all

applicable Special Use Permit criteria. We respectfully request consideration and approval of this application.

Please do not hesitate to contact me should additional information be required.

Sincerely,

Qing Chen

Report Date: July 7, 2026
Case Number: 2026-2-SUP

UDC Section 3.07.030 – Approval Criteria for Special Use Permits

Special Use Permits allow for City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in this Code. Special Use Permits may be issued only for uses that are generally compatible with other uses permitted in a zoning district, but that require individual review of their location, design, intensity, etc. These uses may be in districts as indicated with conditions described in a Special Use Permit recommended by the Planning and Zoning Commission and approved by the City Council.

In addition to the criteria for zoning changes in Section 3.06.030, the City Council may approve an application for a Special Use Permit where it reasonably determines that there will be no significant negative impact upon residents of surrounding property or upon the public.

Staff Reviewed the request against the approval criteria for Special Use Permits found in UDC Section 3.07.030 and found that it complied with all four of the criteria as detailed below.

1. The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.	**Partially Complies**
Staff did not find the request to be detrimental to the health, welfare, or safety of the surrounding neighborhood. The food truck park does not encroach onto or prevent access to existing adjacent business. It will also provide ample parking and enough restrooms to serve its patrons and prevent them from using adjacent business facilities. Impact to adjacent business is also mitigated as the City will require a utility evaluation in the site development plan as each food vendor must have an individual connection to utilities. A standard requirement would also be Mobile Food Park Manager who would be available by phone while the vendors are open for business. The SUP would also be helping to utilize a property that has been vacant for at least 5 years. This utilization would be an improvement in the quality of life for the community. Staff found that the request may undermine the safety of the occupants if the food trucks are positioned a certain way. The applicant does not indicate the direction that the food trucks face which could cause conflicts with pedestrians	

and cars. The danger could be mitigated by requiring the applicant not to face the food vendor service window toward the drive aisle which would prevent queuing in the drive aisle and reduce foot traffic in the parking lot.	
2. The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area.	**Complies**
The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area. The site is not proposing any change to current circulation of the lot and maintains means of ingress and egress for emergency services.	
3. The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.	**Complies**
It is not anticipated that the food truck park will have any negative impacts on public infrastructure. The property was previously used as a restaurant which provided ample space for parking when compared to what would have been required by the UDC. Due to the subject property derives access from a Local Road with immediate access to a Major Arterial Road, the food truck park is not anticipated to increase traffic beyond current capacity. Utilities will also be evaluated during the site development plan to ensure constant service to adjacent properties.	
4. The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard or other injurious or noxious impact.	**Complies**
The food truck park is a commercial use and is not anticipated that it will have any greater impact on the surrounding area than any other Food and Beverage Establishments allowed by right in the General Commercial (C-3) zoning district.	

Additionally, staff reviewed the request against the approval criteria for a Zoning Map Amendment found in UDC Section 3.06.030 and found that it complied with four and partially complied with one of the five approval criteria as detailed below.

A. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	**Complies**

This application was reviewed by staff and deemed to be complete.

B. The zoning change is consistent with the Comprehensive Plan.	**Complies**

The request is consistent with the comprehensive plan. Regional Centers (RC) are intended to be shopping centers, standalone big-box retailers, or large-scale mixed-use developments, as well as supporting flex office space and office/warehouse development. RC is typically located at high- volume intersections and sometimes along both sides of a highway or arterial. These developments are typically automobile-oriented with convenient access from major transportation routes and highway interchanges; however, internal pedestrian connectivity is maximized and includes opportunities for pedestrian activity.

A food truck court would provide additional commercial services to create complete neighborhoods. The food truck park would be providing additional food options to the area within a walkable distance to adjacent office, retail, and commercial uses. It would also be within a reasonable distance to adjacent residential and multi-family

C. The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.	**Partially Complies**

Staff found that this criteria has the same merits and concerns as the first approval criteria for Special Use Permits. See page 1.

D. The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.	**Complies**

The proposed use of a Special Use Permit is compatible with the present zoning and conforming uses of the nearby properties. It offers ample parking and restrooms to prevent any disturbances to adjacent uses. The food truck park would occupy an unused site and improve the vibrancy of this Commercial area.

E. The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	**Complies**

The subject property does not have any natural features or site constraints that will inhibit the uses allowed within the proposed zoning district. The site has adequate access and will be served with necessary utilities.

City of Georgetown, Texas
City Council
July 28, 2026

SUBJECT:
First Reading - Renaming of Capella Parkway to Clear Skies Way

SUGGESTED ACTION:
First Reading of an Ordinance to approve the renaming of Capella Parkway to Clear Skies Way from Lakeway Boulevard to the terminus of the street -- Lua Saluone, P.E., Transportation Manager

ITEM SUMMARY:
Pursuant to Texas State Law and the City Charter of the City of Georgetown, the City has exclusive dominion, jurisdiction and control over public streets within the city limits of the City. As such, the City desires to rename Capella Parkway to Clear Skies Way from Lakeway Boulevard to the terminus of the street as shown in Exhibit A of this Ordinance.

FINANCIAL IMPACT:

SUBMITTED BY:
Shawn Gunnin, Systems Engineering

ATTACHMENTS:

Exhibit A- Capella to Clear Skies Way (7.28.26).pdf

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, RENAMING CAPELLA PARKWAY TO CLEAR SKIES WAY FROM LAKEWAY BOULEVARD TO THE TERMINUS OF THE STREET; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, pursuant to Texas State Law and the City Charter of the City of Georgetown, the City has exclusive dominion, jurisdiction and control over public streets within the city limits of the City; and

WHEREAS, the City Council has further adopted Chapter 15.36 of the Code of Ordinance establishing uniform street and site addressing requirements; and

WHEREAS, the City Council of the City of Georgetown finds that pursuant to Texas State Law, the City Charter, and Chapter 15.36 of the Code of Ordinances it is the best interest of the public to rename Capella Parkway to Clear Skies Way from Lakeway Boulevard to the terminus of the street.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. "Capella Parkway" is hereby renamed to "Clear Skies Way" from Lakeway Boulevard to the terminus of the street as show in Exhibit A of this Ordinance.

Section 4. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 5. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 6. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the _____ of _____,2026.

PASSED AND APPROVED on Second Reading on the _____ of _____, 2026.

City Council
July 28, 2026

SUBJECT:
First Reading - UDC Adoption

SUGGESTED ACTION:
Public Hearing and First Reading of an Ordinance for a proposed adoption of a new Unified Development Code to replace existing Development Code and repealing of conflicting ordinances- Edgar I. Garcia, AICP - Director of Planning

ITEM SUMMARY:
On March 11, 2003 the City of Georgetown adopted its first set of comprehensive development regulations known as a Unified Development Code. This document codified various zoning and subdivision standards in one cohesive place.

On October 25, 2022 the City engaged with Freese & Nichols to evaluate the City's existing Unified Development Code and provide recommendations on the best approach for making improvements and develop and updated Unified Development Code.

Since April 2023 the City's Planning & Zoning Commission, Unified Development Code Steering Committee, Unified Development Code Advisory Committee, and City Council have reviewed different proposed chapters of the Unified Development Code and provided feedback. In total, over 25 Steering Committee meetings were held including various City Council and Joint Workshop presentations.

The first comprehensive draft of the Unified Development Code was received in September 2025. Staff as well as internal and external testers have continued to refine the code. In total, four separate drafts were posted on the Planning Department's web page. The current draft was posted and has been available since June 5th.

The Unified Development Code adoption is scheduled for presentation at Planning and Zoning Commission on July 21st, First Reading of City Council on July 28th, and Second Reading and Adoption on August 11th.

FINANCIAL IMPACT:
None.

Planning Department Staff Report

Report Date: July 22, 2026

Item Details

Project & Applicant: Unified Development Code Update

Request: Public Hearing and possible action on a proposed adoption of an updated Unified Development Code to replace existing Development Code and repealing of conflicting ordinances

Overview and Analysis

The City's current Unified Development Code (UDC) was adopted on March 11, 2003, consolidating previously separate subdivision and zoning regulations that had been adopted in 1988 and 1968, respectively. Since that time, Georgetown has experienced unprecedented growth, creating the need for a modernized development code that not only keeps pace with continued development activity but also promotes the high-quality growth envisioned by the City.

Recognizing this need, the City Council authorized a contract with Freese and Nichols, Inc. in October 2022 to prepare a comprehensive Diagnostic Report evaluating the effectiveness of the existing UDC. The report assessed the code's ability to implement the City's adopted policies and development objectives while identifying opportunities to improve usability, modernize regulations, align with the City's Comprehensive Plan and Small Area Plans, respond to changes in state law, and address evolving development practices.

The Diagnostic Report established six guiding principles that served as the foundation for the UDC Update:

1. Balance certainty and flexibility within the City's zoning framework.
2. Ensure development standards are clear, adaptable, and capable of accommodating continued growth while promoting high-quality development.
3. Align the UDC with the Comprehensive Plan, the 2030 Plan, and adopted Small Area Plans.
4. Prioritize modernization of the UDC while maintaining an efficient project timeline.
5. Conduct a transparent code development process supported by robust stakeholder engagement and code testing.
6. Recognize that predictable development processes and clearly defined decision-making criteria are as important as the development standards themselves.

To guide the update effort, the City Council appointed a Unified Development Code Steering Committee (UDCSC) to work alongside the standing Unified Development Code Advisory Committee (UDCAC), which consists of representatives from the development community and other external code users. Throughout the project, the Steering Committee convened 25 public meetings to review and provide direction on individual sections of the draft UDC prepared by Freese and Nichols. Concurrently, City staff met regularly with the consultant team—initially on a biweekly basis and later monthly—to review draft language, discuss proposed revisions, and implement direction received from the City Council, the UDCSC, and the UDCAC.

The first complete draft of the rewritten UDC was delivered to City staff on September 25, 2025. Following an initial staff review, the draft was released for public testing in November. Since that time, four successive drafts have been published on the Planning Department's website, with each version incorporating comments and recommendations from City staff, external stakeholders, public code testers, the UDCSC, the UDCAC, and the City Council. This iterative review process ensured that the final document reflects extensive public input, practical testing, and continuous refinement.

In addition to incorporating updates required by changes in state law and accepted industry practices, the proposed UDC has been reorganized to provide a more intuitive and user-friendly framework. The revised structure places related regulations into dedicated chapters, improving navigation and usability for applicants, property owners, and staff. Notable organizational enhancements include the creation of standalone chapters for Downtown and Old Town Development Standards (Chapter 5) and Tree Preservation (Chapter 10), reinforcing the significance of these topics while making the code easier to navigate and administer.

Reorganized and Revised Zoning Districts

Zoning Districts, as shown below, were restructured and reorganized to provide better options for development within each district. Notably, the inclusion of a Residential Mix zone allows for different housing options to address missing middle housing and provide more housing options for Georgetown's current and future residents. The Neighborhood Commercial (CN) and Office (OF) zoning districts were merged and their allowed uses reorganized. Likewise, Business Park (BP) and Industrial (I) were merged into a Flex Industrial (I-1) zone with the more intense industrial use slotted into a new Intensive Industrial (I-2) zone. Overall, the allowed, limited, and prohibited uses in each district were reviewed by the Steering Committees to determine adequacy.

Reorganized Zoning Districts

Previous UDC	Current UDC
Residential Zoning Districts	
AG Agriculture	AG Agriculture
RE Residential Estate	RE Residential Estate
RL Residential Low Density	RT Residential Traditional
RS Residential Single-family	RS Residential Suburban
TF Two-family	RM Residential Mix
TH Townhouse	
MF-1 Low Density Multifamily	MF-1 Medium Density Multifamily Residential
MF-2 High Density Multifamily	MF-2 High Density Multifamily Residential
MH Manufactured Housing	MH Manufactured Housing
Non-Residential Zoning Districts	
CN Neighborhood Commercial	CN Neighborhood Commercial
OF Office	
C-1 Local Commercial	C-1 Local Commercial
C-3 General Commercial	C-2 Regional Commercial
PF Public Facilities	PF Public Facilities
BP Business Park	I-1 Flex Industrial
IN Industrial	
-	I-2 Intensive Industrial
Special Purpose Zoning Districts	
PUD Planned Unit Development	PUD Planned Unit Development
Mixed-Use Zoning Districts	
MU-DT Mixed-Use Downtown	MU-DT Mixed-Use Downtown
Overlay Zoning Districts	
SP Special Area Plan Overlay	SP Special Area Plan Overlay

Consistent with the guiding principle of aligning the UDC with the City's adopted plans and policies, the revised UDC introduces a Neighborhood Conservation Overlay District to provide enhanced protection for neighborhoods with adopted Small Area Plans. As part of the initial UDC adoption, Neighborhood Conservation Overlay Districts will be established for the Track-Ridge-Grasshopper (TRG) and San Jose neighborhoods. These overlay districts implement the vision and recommendations of the respective Small Area Plans, which were adopted by the City Council on March 22, 2022, following an extensive public engagement process that included nearly two years of community meetings, stakeholder collaboration, and public input.

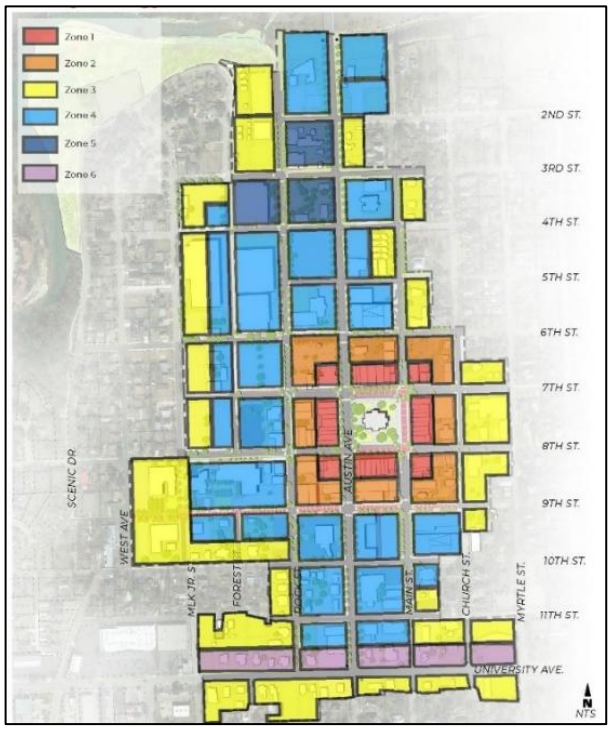
Stand Alone Downtown & Old Town Chapter

The preservation of Georgetown's historic character, particularly within its downtown core, has remained a community priority since the adoption of the Downtown and Old Town Overlay Districts in 2015. Under the previous UDC, these standards were incorporated within the broader Zoning Districts chapter. The proposed UDC establishes a dedicated chapter for Downtown and Old Town development standards, increasing their visibility and ensuring these regulations are more accessible to applicants, property owners, and staff. Creating a standalone chapter also reinforces the community's longstanding commitment to preserving the unique character and identity of these historic areas. Additionally, the revised UDC clarifies that the Mixed-Use Downtown (MU-DT) zoning district is eligible for inclusion within both the Downtown and Old Town Overlay Districts. This clarification resolves a recurring procedural ambiguity that previously required separate Overlay District amendments to be processed concurrently with MU-DT rezoning requests.

Stand Alone Tree Chapter

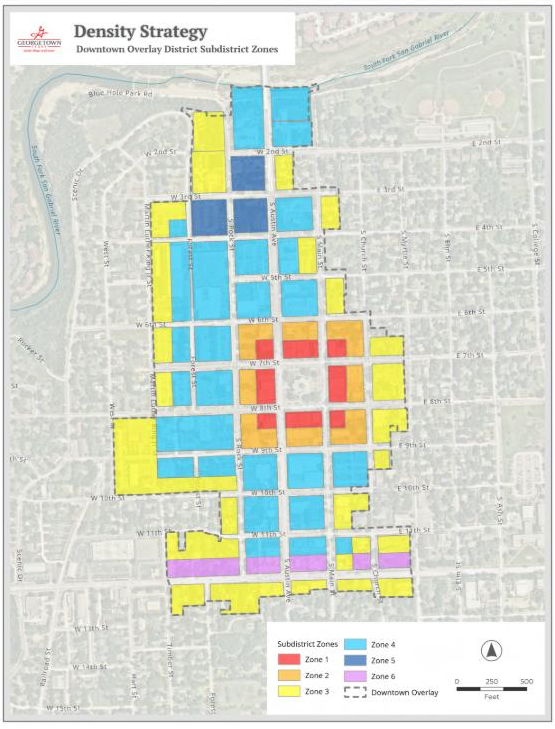
Tree preservation has long been a defining element of Georgetown's community character and remains a priority for both the City and its residents. While tree preservation regulations were previously combined with landscaping and fencing standards, the proposed UDC establishes a dedicated chapter focused exclusively on tree preservation. This reorganization enhances the usability of the code while emphasizing the City's continued commitment to protecting its urban forest. The chapter also incorporates the text amendments adopted in July 2025 (effective October 1, 2025), including refined definitions, expanded tree preservation incentives, and additional mitigation options that provide greater flexibility while maintaining the City's tree preservation objectives.

Overarching Improvements



In addition to the improvements highlighted above, revisions were made to the overall organization and structure of the UDC, resulting in updates across all chapters. Process flowcharts were incorporated throughout the document to illustrate the progression of applications from submittal through final action. These visual tools are intended to enhance clarity, providing applicants with a more intuitive understanding of how applications advance through each stage of the review and decision-making process.

Figure 3.07.010-3.07.01-1. Rezoning Summary



While the UDC always incorporated the use of maps and graphics, there was no standardization of these. Maps were sometimes directly copied from other adopted plans that had various graphic styles. Part of making the UDC a cohesive, unified document was ensuring all maps found within it had a consistent format, base layer, and legend.

Previous Map Example

Revised Map Example

Consistency in definitions and terminology was identified as a key concern in the initial Diagnostic Report. A central objective of the UDC update was to establish clear, consistent language throughout the document, ensuring that both staff and users began with a shared understanding of its requirements and intent. Significant effort was devoted to developing precise definitions in Chapter 18 and then applying those standardized terms consistently across the remaining 17 chapters. Ambiguous or inconsistently defined terminology was eliminated in favor of a single, clearly defined vocabulary that promotes clarity, consistency, and uniform interpretation throughout the document.

Clarification of Roles & Review Authorities

A primary objective of the UDC update was to clearly define the responsibilities and decision-making authority of key administrative roles, including the Planning Director, Development Engineer, Building Official, and other designated officials. Throughout the document, each application type and regulatory process was carefully aligned with the appropriate reviewing authority, eliminating ambiguity regarding administrative responsibilities. These revisions provide greater transparency for applicants while improving internal consistency and ensuring staff have clear guidance regarding their respective roles in the development review process.

Similarly, Chapter 1 was revised to clearly identify the adopted manuals, technical specifications, and design standards that applicants are required to follow in order to comply with the City's development regulations. The revised chapter specifically references these documents and identifies the City department or official responsible for their administration. Incorporating these standards by reference, rather than reproducing their contents within the UDC, results in a more streamlined and user-friendly code while allowing technical manuals and engineering standards to be updated as needed without requiring a formal UDC text amendment. This approach provides the flexibility necessary to keep technical requirements current while preserving the stability of the City's regulatory framework.

External & Internal Testing

Following receipt of the first complete draft of the proposed UDC, the document was released for both internal and external testing to evaluate its functionality, usability, and overall consistency. Staff, members of the development community, and other stakeholders were encouraged to identify broken references, inconsistencies, unclear language, and other areas requiring refinement. This collaborative review process allowed staff to continuously improve the document prior to adoption.

In total, four draft versions of the UDC were published on the Planning Department's website, with each successive draft incorporating feedback received throughout the testing process. To further enhance transparency, a comprehensive redlined version comparing the initial full draft to the final proposed draft was published on July 7, allowing stakeholders to clearly identify revisions made during the review period. In addition, staff facilitated two joint work sessions involving the City Council, Planning and Zoning Commission, Unified Development Code Advisory Committee (UDCAC), and Unified Development Code Steering Committee (UDCSC) to receive additional feedback, discuss policy considerations, and obtain direction on the proposed revisions.

Next Steps

While adoption of the Unified Development Code represents the culmination of several years of planning, collaboration, and public engagement, it also marks the beginning of the next phase of implementation. One of the City's immediate priorities will be the review and update of the Development Manual to ensure consistency with the adopted UDC. This effort is already underway and is anticipated to be completed prior to the UDC's proposed effective date of November 1, 2026.

Following adoption, staff will also undertake a comprehensive implementation and outreach effort to familiarize both City staff and the development community with the new regulations, organizational structure, and development procedures. This transition period will provide an opportunity to address questions, clarify interpretations, and ensure that all users are prepared for the Code's effective date.

As with any modern development code, the UDC should be viewed as a living document that will continue to evolve over time in response to changes in federal and state law, emerging development practices, and ongoing refinement based on implementation experience. Several topics have already been identified for future evaluation, and staff anticipates conducting workshops during 2027 to consider additional amendments. Furthermore, as the City begins preparing a new Comprehensive Plan to succeed the Georgetown 2030 Plan, additional updates to the UDC will likely be necessary to ensure the City's development regulations remain aligned with its long-term vision and policy objectives.

Planning & Zoning Commission

At its July 21st, 2026 meeting the Planning & Zoning Commission recommended Approval with a 7-0 vote.

The Planning & Zoning Commission provided the following comments:

- Following the implementation of the updated UDC, staff should track any requests seeking to vary from the updated development standards; and
- Staff should prioritize further updating and refining the code based on those requests.

Public Meeting Dates

July 21, 2026 – Planning and Zoning Commission
July 28, 2026 – City Council First Reading of the Ordinance
August 11, 2026 – City Council Second Reading of the Ordinance

Public Notification

As required by state law, a legal notice complying with Texas Local Government Code 211.006 was mailed out to each owner of real or business property and any occupants of those properties within the City's adopted tax rolls in May 2026; in total, 99,997 legal notices were mailed out.

Comments received throughout the testing periods and from the legal noticing are included in Exhibit 2.

Meeting Purpose

1. Provide overview of UDC process
2. Highlight notable changes
3. Provide an opportunity for public comments

Purpose and Background

Why Update the UDC?

- Regulates how land is developed and used across Georgetown
- Governs zoning, subdivisions, building form, mobility, and environmental standards
- The last full update occurred over two decades ago
- Ensures the code reflects current plans, laws, and community priorities

UDC Update Process

Oct. 2022 — Apr. 2023 — Sept. 2025 — Summer

Phase 1: Diagnostic Evaluation

- Review of existing plans and codes
- Interviews with ~25 internal code users and ~40 external code users
- Community events: State of the City, quarterly neighborhood update, Gather Round Georgetown
- 2 Steering Committee meetings
- City Council workshop
- Diagnostic Report to identify issues and propose solutions

Phase 2: Code Drafting

- Drafting individual chapters of the updated UDC
- 25 Steering Committee meetings
- Various City Council and Joint Workshop updates
- Monthly or biweekly status calls and monthly status reports to City (throughout project)

Phase 3: Code Refinement and Adoption

- Code testing and revisions
- Draft UDC on City website
- Community events: State of Our City, and others as available
- Joint workshops
- Public hearings
- City Council 1st and 2nd readings for adoption

UDC Update Process

Guiding Principles

The following Guiding Principles were developed by the Joint Planning & Zoning Commission and City Council to guide this code update process.

1. Zoning categories should **balance certainty and flexibility**.
2. Development standards should be **clear and nimble** enough to **adapt to rapid growth** and new development trends, as well as create **high-quality development**.
3. Ensure **alignment** between the UDC, 2030 Plan, and Small Area Plans.
4. Updating the **outdated UDC is a high priority** and keeping **on timeline is essential**.
5. The code writing process should be **transparent** and involve a **thorough code testing** process to ensure appropriately-scaled development regulations.
6. The development **process and criteria** used for decision making is as important as **development standards**.

UDC Update Highlights

Notable Updates

- Reorganization of Zoning Districts
  - Introduction of Residential Mix District
  - Restructured Industrial Districts
- Dedicated Downtown & Old Town Chapter
- Creation of separate Tree Preservation Section (Chapter 10)
- Introduction of Neighborhood Conservation Overlay Districts
- Clearer path to redevelopment with Administrative & Special Exceptions

Major Outcomes of UDC Update

- **Clarity** – Easier to navigate and interpret
- **Housing Diversity** – More tools for infill and missing-middle housing
- **Environmental Stewardship** – Measurable protection for trees & water quality
- **Predictability** – Transparent, consistent review processes
- **Uniformity** – Appropriate referencing of technical manuals & consistent graphics throughout

Postcard Comments

Summary of Postcard Comments

- Prep with CAPE
- Mailed out in May
- askGTX routed comments
- Most were questions on impacts on single-family homes
- Comments centered on:
  - Environmental standards
  - Expanded parkland dedication
  - Road network

Next Steps

City Council

- 1st Reading of UDC Adoption Ordinance — July 28, 2026
- 2nd Reading of UDC Adoption Ordinance — August 11, 2026
- Updating of Development Manual — Jul-Oct 2026
- UDC becomes effective — November 1, 2026

Planning & Zoning Commission

- At its July 21st meeting, the Planning and Zoning Commission recommended Approval with a 7-0 vote
- The Planning and Zoning Commission provided the following comments:
  - Following the implementation of the updated UDC, staff should track any requests seeking to vary from the updated development standards; and
  - Staff should prioritize further updating and refining the code based on those requests

Ordinance Caption

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, ADOPTING AN UPDATED UNIFIED DEVELOPMENT CODE AND CODIFYING IT AS TITLE 17 OF THE CODE OF ORDINANCES; REPEALING THE EXISTING UNIFIED DEVELOPMENT AND ALL CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

Thank You!

Chapter 1. General Provisions (Chapter 1)

Section 1.01. Short Title

This Ordinance is hereby officially known and cited as the Unified Development Code of the City of Georgetown, Texas. References to "this Code," or "this UDC" shall be interpreted as references to this Unified Development Code. In the interpretation of provisions in this Code, certain terms and words are defined in Chapter 16Chapter 18 or, if not, resort to their customary usage and meaning.

1.01.010. 1.01.01.Usage of Terms

A. For the purposes of using this Code, words used or defined in one tense or form shall include other tenses and derivative forms, words in the singular number shall include the plural number and words in the plural number shall include the singular number.

B. The following terms contained in this Code shall be defined as follows:

1. The words “must,” “will,” "shall,” and “may not” are mandatory.
2. The words "may" isand “should” are permissive, not mandatory or required.
3. The word “City” means the City of Georgetown, Texas.

C. In the case of any difference of meaning or implication between the text of this Code and any caption, number, illustration or table, the text shall control, unless otherwise specifically noted herein.

1.01.020. 1.01.02.How to Use This Code

A. If you need to subdivide or plat your land:

Whether you live inside or outside the city limits, you may not develop or disturb your land (see Section 16.02Section 18.02 for definition of "land disturbance") until you have properlyunless your land has legal lot status. If it is not, you will need to subdivided or plattted your parcel. The procedures that you will need to follow are described in Section 3.15Section 3.15.

B. If you want to build or establish a particular use on your property:

1. **Step One:** You should first determine what kind of use you desire to establish. You can usually determine the use by referencing the use categories and specific uses found in Chapter 5Chapter 6. Refer to the definitions of the specific uses in Chapter 5Chapter 18 to help you determine the use that best describes what you want to establish.
2. **Step Two:** You should next determine the zZoning dDistrict (and any oOverlay dDistricts) that appliesy to your property. The oOfficial zZoning mMap, available at the Planning and Development OfficeDepartment, depicts the zoning designation for every parcel of land in the Ccity limits of Georgetown. If your property is not inwithin the Ccity limits, no zoning designations or zoning requirements apply, but some development standards and requirements do apply. Read **Section** 3.01.0203.01.020 to identify which applications or permits you must acquire before you build.
3. **Step Three:** For properties in the Ccity limits, locate the use tables in Chapter 5Chapter 6. Find the row that lists the specific use you are interested in. Match this row to your zZoning dDistrict designation (across the top of the table) to determine whether the use you want to establish is permitted in the dDistrict.

4. **Step Four:** If your use is permitted, you must get the appropriate applications approved (see Chapter 3Chapter 3) and comply with the applicable development standards of this Code before building the structure or establishing the use.

These requirements are intended to help you and the City ensure that your project is legally established and that it matches the development vision that the City of Georgetown, as a community, desires.

C. If you own or lease property and want to know what rules apply:

Follow sSteps tTwo through fFour above, to identify your zZoning dDistrict and the permitted uses. You can find the specific details for the uses in your zZoning dDistrict in Chapter 5Chapter 6 and the definitions found in Chapter 16in Chapter 18. You can also find the various development standards that apply to your property in Chapters 6Chapter 7 through 12Chapter 14.

D. If you want to change your Zoning District:

Only the City Council may rezone property, following public notice and hearings at meetings of the Planning and Zoning Commission and the City Council. See Section 3.03Section 3.03 for public notice requirements and Section 3.06Section 3.07 for Rrezoning requirements.

1.01.030. 1.01.03.Purpose and Intent

This Unified Development Code is adopted for the purpose of promoting the public health, safety, and general welfare of the present and future citizens of the City of Georgetown and promoting the safe, orderly, and healthful development of the City of Georgetown. The City of Georgetown's Comprehensive Plan is the fundamental guide to all decisions made under this Code. In order to implement the broad goals of the plan, this Code regulates land development in order to achieve objectives of the plan that include, but are not limited to, the following:

A. Lessen congestion in the streets;
B. Secure safety from fire, panic, and other dangers;
C. Promote health and general welfare;
D. Provide adequate light and air;
E. Prevent the overcrowding of land;
F. Avoid concentration of population;
G. Promote the beneficial and appropriate development of all land and the most desirable use of land in accordance with a well-considered plan;
H. Protect the character and the established pattern of desirable development in each area;
I. Prevent or minimize land use incompatibilities and conflicts among different land uses;
J. Facilitate adequate provision of transportation, water, sewerage, parks, and other public requirements;
K. Facilitate erosion protection and water pollution management by reducing stormwater runoff;
L. Maintain property values by stabilizing expectations and ensuring predictability in development; and
M. Establish a process that effectively and fairly applies the regulations and standards of this Code and respects the rights of property owners and the interests of citizens.

Section 1.02. Authority

This Unified Development Code is adopted under authority of the constitution and laws of the State of Texas, including particularly Texas Local Government Code cChapters 211, 212, 216, and 242, and pursuant to the provisions of the Charter of the City of Georgetown, Texas.

Section 1.03. Applicability

A. So long as land or structures or any portion thereof~~,~~ continue to be used for the purpose and in the manner authorized by a permit or approval, no person, including a successor or assign of the person who obtained the permit or approval, may use the land or structure except in accordance with all the terms, conditions, and requirements of the permit or approval.

B. If a new project is begun, the requirements of this Unified Development Code shall apply. The City shall determine whether a new project has begun using the principles set forth in Texas Local Government Code ~~c~~Chapter 245.

C. Any plat that has development standards (to include, but not limited to, impervious cover or setbacks), that are in conflict with the standards of this Code, shall be subject to the development standards noted on the plat and none other shall apply.

~~D. All RP, Residential Planned Zoning Districts approved prior to the effective date of this Code that have not submitted a complete application for a Preliminary Plat or a Site Plan are obsolete and are hereby repealed on the effective date of this Code. However, the RP, Residential Planned Zoning Districts listed below may continue as a legal conforming use provided however, the zoning designation shall be renamed from RP, Residential Planned to PUD, Planned Unit Development. In addition, any of the projects listed below which have approved preliminary plans or Site Plans shall be allowed to continue to seek development permits under the ordinances, rules, and regulations existing prior to the effective date of this Code, including, but not limited to (i) development standards, and (ii) variances duly approved for each of said Residential Planned Zoning Districts.~~

~~1. Katy Crossing.~~

~~2. Sun City Georgetown.~~

~~3. Georgetown Village.~~

~~4. Village of River Bend.~~

~~5. Parkview Place Apartments.~~

~~6. University Park.~~

~~7. Morrow Addition.~~

~~8. College Place Condominiums.~~

~~9. Dalrymple Addition.~~

~~10. Cody Addition.~~

~~11. Southwestern University.~~

~~12. 401 West University Avenue (S.H. 29).~~

~~13. Wesley Subdivision.~~

~~14. Snyder Addition.~~

~~15. Dimmitt Addition.~~

~~16. Lost Addition.~~

~~17. Georgetown Municipal Airport~~

~~E. The requirements of this section do not constitute the waiving of any rights the City may have pursuant to Texas Local Government Code chapter 245.~~

Section 1.04. Transitional Provisions

1.04.010. 1.04.01.Applications Submitted Before the Effective Date

A. Complete applications that are pending approval before the effective date of this Unified Development Code may be reviewed and approved in accordance with the regulations in effect before this Code was adopted.

B. An applicant may elect at any time to use this Code in place of previously applicable regulations, provided this Code shall then be applied in its entirety to such a project.to request a determination on a project's or permit's vested rights under **Section 1.04.040** to formalize the regulations that will apply to the project or permit.

1.04.020. 1.04.02.Violations Continue

Any violation of the previous zoning, sign, or subdivision regulations of the City shall continue to be a violation under this Code and shall be subject to penalties and enforcement under Chapter 15, EnforcementChapter 17. Enforcement, unless the use, development, construction, or other activity is consistent with the express terms of this Code, in which case enforcement action shall cease, except to the extent of collecting penalties for violations that occurred before the effective date of this Code.

1.04.030. 1.04.03.Dormant Projects

Any permit (as defined by Texas Local Government Code § 245.001) that is dormant according to the provisions of Texas Local Government Code § 245.005 shall expire May 11, 2004.

1.04.04. Legal Nonconforming Uses Under the Zoning OrdinanceUnless otherwise provided in the UDC, an individual permit (as that term is defined in the Texas Local Government Code Sec. 245.001) shall expire two years after the date the permit was issued if no progress has been made toward completion of the project, as defterminedbyunder Texas Local Government Code §Sec. 245.0015(c). Any project (as defined in the Texas Local Government Code §Sec. 245.0051) shall expire five years after the date the first permit application was filed for the project if no progress has been made toward completion of the project, as determined under Texas Local Government Code Sec. 245.005(c).

1.04.040. Vested Rights Petition

Any legal nonconformity under the previous zoning regulations shall also be a legal nonconformity under this UDC, as long as the situation that resulted in the nonconforming status under the previous zoning regulations continues to exist. If a nonconformity under the previous ordinances and regulations becomes conforming because of the adoption of this Code, then the situation shall no longer be treated as a nonconformity. See Chapter 14 for specific regulations for nonconformities.

A property owner, or the owner's duly authorized agent, who believes that a project is entitled to vested rights under Chapter 245 of the Texas Local Government Code may submit a written petition for a vested rights determination to the Director. The petition shall identify the property and the project, describe the permit application or plan for development that gives the City fair notice of the project, and specify each current regulation from which the petitioner seeks relief. The Director shall review the petition to determine whether approval of the permit is required to initiate, continue, or complete a project for which an original application was filed before the effective date of the regulation from which relief is sought. The Director shall issue a written determination granting the petition in whole or in part, or denying it, and stating the regulation that apply to the project. A determination under this section may not waive or modify a requirement except as authorized by Chapter 245 and is binding on the City and the petitioner for the direction of the project.

Section 1.05. Section 1.01.Jurisdiction

1.05.010. 1.01.01.Within City Limits

All provisions of this Unified Development Code shall apply to all land within the Ccity limits.

1.05.020. 1.01.02.Within the City's Extraterritorial Jurisdiction

As authorized by Texas Local Government Code cChapters 212 and 216, the City shall apply the applicable subdivision and sign provisions of this Code to the City's extraterritorial jurisdiction (ETJ).

Section 1.06. Section 1.02.Definitions

All definitions located in CHAPTER 16Chapter 18 of this Unified Development Code shall govern the interpretation of this Code. Any terms not defined shall be interpreted using RANDOM HOUSE Merriam-Webster's Unabridged Dictionary, subject to approval of interpretation by the Director of Planning AND DEVELOPMENT.

Section 1.07. Section 1.03.Minimum Requirements

A. In the interpretation and application, the provisions of this Code shall be held to be minimum requirements adopted for the promotion of public health, safety, and general welfare.

B. Whenever the requirements of this Code are in conflict with the requirements of any other lawfully adopted rules, regulations, or ordinances, the requirement that is most restrictive or that imposes higher standards, as determined by the Director of Planning and Development shall govern.

C. The issuance of any permit, certificate or approval in accordance with the standards and requirements of this Code shall not relieve the recipient of such permit, certificate, or approval from the responsibility of complying with all other applicable requirements of any other City, state, or federal agency having jurisdiction over the structures or land uses for which the permit, certificate, or approval was issued.

Section 1.08. Section 1.04.Comprehensive Plan

It is intended that this Unified Development Code implements the City's planning policies as adopted as part of the City's Comprehensive Plan, as amended and periodically updated.

Section 1.09. Section 1.05.Effective Date

This Code shall become effective [Date to be inserted]November 1, 2026, and be in full force and effect in accordance with the City Charter.

Section 1.10. Section 1.06.Severability

Should any section or provision of this Unified Development Code be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Code as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

Section 1.11. ~~Section 1.07.~~UDC Development Manual

The UDC Development Manual contains technical and procedural requirements for the submittal of development applications, as well as application forms, checklists, calendars, and other materials to aid applicants in the preparation and submittal of applications. The UDC Development Manual may be amended from time to time by the Director, following posting of the proposed changes on the City's website and a 15-day public comment period.

~~(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2019-54 , § 3, 9-10-2019)~~

Section 1.12. ~~Section 1.08.~~City Construction Specifications and Standards Manual

The City Construction Specifications and Standards Manual contain~~s~~ specifications, standards, and requirements for the construction of public improvements. The City Construction Specifications and Standards Manual may be amended from time to time by the City's Development Engineer, following public notice and a 30-day public comment period.

~~(Ord. No. 2019-54 , § 3, 9-10-2019)~~

Section 1.13. ~~Section 1.09.~~Drainage Criteria Manual

The Drainage Criteria Manual establishes drainage design procedures and standards for stormwater management systems within the jurisdiction of the City of Georgetown. The Drainage Criteria Manual may be amended from time to time by the City's Development Engineer, following public notice and a 30-day public comment period.

~~(Ord. No. 2019-54 , § 3, 9-10-2019)~~

Section 1.14. ~~Section 1.10.~~Historic District Design Guidelines

The Historic District Design Guidelines adopted on July 27, 2021, and on file with the City Secretary, are hereby incorporated into this Code by reference, as if set forth in full. The Historic District Design Guidelines establish policies to guide improvements to properties and work within the Downtown Overlay District and Old Town Overlay District, as well as improvements to Historic Landmarks anywhere within the city limits.

~~(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2021-53 , § 4(Exh. C), 7-27-2021)~~

~~Editor's note(s)—Ord. No. 2021-53 , § 4(Exh. C), adopted July 27, 2021, changed the title of Section 1.14 from "Downtown and Old Town design guidelines" to "Historic district design guidelines". The historical notation has been preserved for reference purposes.~~

Section 1.15. ~~Section 1.11.~~Traffic Calming Standards

The Traffic Calming Standards prepared by the Development Engineer ~~is~~are hereby adopted by reference as if set forth in full. The Traffic Calming Standards shall establish traffic calming requirements for new development applications, both within proposed development and any affected existing development within the City and ETJ. The Traffic Calming Standards may be amended from time to time by the Development Engineer, following public notice and a 30-day public comment period.

Section 1.16. ~~Section 1.12.~~Utility Improvement and Extension Policy

The Utility Improvement and Extension Policy contains specifications, standards, and requirements for projects that desire to connect to Georgetown ~~Utility Systems~~ infrastructure. The Utility Improvement and Extension Policy may be amended from time to time by ordinance.

~~*(Ord. No. 2019-54 , § 3, 9-10-2019)*~~

Section 1.17. ~~Section 1.13.~~Access Management Policy

The Access Management Policy contains specifications, standards, and requirements for properties that desire to connect to public streets, roadways, or rights-of-way in the city limits or the ETJ. The Access Management Policy may be amended from time to time by the City's Development Engineer, following public notice and a 30-day public comment period.

~~*(Ord. No. 2019-54 , § 3, 9-10-2019)*~~

Section 1.18. ~~Section 1.14.~~Municipal Utility District Policy

The Municipal Utility District Policy contains guidelines and requirements for properties that seek the City's consent to establish a municipal utility district within the city limits or the ETJ. The Municipal Utility District Policy may be amended from time to time by the City Manager, following public notice and a 30-day public comment period.

~~*(Ord. No. 2019-54 , § 3, 9-10-2019)*~~

Section 1.19. ~~Section 1.15.~~Parks Development Manual

The Parks Development Manual establishes design standards for the parks system within the jurisdiction of the City of Georgetown. The Parks Development Manual may be amended from time to time by the City's Parks and Recreation Director.

Section 1.20. ~~Section 1.16.~~Real Estate Policies

A. The City of Georgetown Real Estate Services group (“Real Estate”) is responsible for managing the City’s real estate activities, including:

1. ~~A.~~The acquisition of real property rights for City infrastructure, such as roadways, utility lines, drainage improvements, trails, and sidewalks;
2. ~~B.~~The acquisition of real property for parks and City facilities;
3. ~~C.~~The abandonment, vacation, and sale of City rights-of-way and easements;
4. ~~D.~~The sale of City property; and
5. ~~E.~~The use of City property by others, including the City’s license to encroach program.

B. The Real Estate Policies dated November 18, 2022, and on file with the City Secretary (the "Policies"), are hereby adopted. The Policies may be amended from time to time by resolution, or by the City Manager with written notice to the City Council.

Section 1.21. Water and Wastewater Master Plan

The Water and Wastewater Master Plan establishes best practices for public education and outreach, hazardous waste education, construction-site stormwater runoff control, and pollution prevention in Georgetown through its Water and Wastewater Design Criteria contained therein. The Water Quality Management Plan may be amended from time to time by the City Council.

Section 1.22. ~~Section 1.17.~~Other Manuals or Regulations Adopted by the City

The City may adopt other technical manuals or policies in the future that are not listed in this Unified Development Code and are applicable to development within the ~~C~~city limits and ETJ.

Chapter 2. Review Authority ~~(Chapter 2)~~

Section 2.01. General

2.01.010. ~~2.01.01.~~Purpose

This chapter establishes review authority under this Unified Development Code. Specific requirements for each type of application or permit are described in ~~Chapter 3~~Chapter 3. The submittal contents of each application are set forth in the UDC Development Manual.

2.01.020. ~~2.01.02.~~Summary of Review Authority

The following table summarizes the decision-making authority of each review body for the City. Each body or official responsible for final action on an item shall be considered the final action authority for the purposes of this ~~c~~Code.

Table ~~2.01.02~~2.01.020-1. Summary of Review Authority

* Administrative Exceptions related to ~~Chapter 8~~**Chapter 9** and **Chapter 10** items are sent to the City Council, all others are appealed to ZBA.

** Licenses to Encroach that involve encroachments into a public street, roadway, sidewalk, or right-of-way require final approval by the City Council; all other requests are approved by the Development Engineer.

2.01.030. ~~2.01.03.~~Conformity with Development Regulations

Every official and employee with the City vested with the duty or authority to issue a permit, certificate, or license under this Code may not issue a permit or license for any use, building, or purpose that conflicts with any provision of this Unified Development Code. Any permit, certificate, or license issued in conflict with the provisions of this Code is null and void.

Section 2.02. Administrative Officials

2.02.010. ~~2.02.01.~~Director of Planning

A. Appointment

The City Manager shall appoint a Director of Planning (Director) to be the administrator of this Unified Development Code.

B. Powers and Duties

The Director has the following powers and duties:

1. Final Action

The Director is responsible for taking final action on the applications and procedures as noted in the table in **Section 2.01.020**, subject to the specific criteria for each procedure as described in the Code.

2. Review and Report

The Director shall review and make either a report or recommendation to the Zoning Board of Adjustment, Planning and Zoning Commission, or City Council on the applications as noted in the table in **Section 2.01.020** of this Code, subject to the terms and conditions set forth for such procedures in this Code.

3. Additional Duties

The Director shall have the following additional duties:

a. To comply with any other duty or responsibility clearly assigned to the Director elsewhere in this Code;

b. To ensure conformance with all provisions of this Code;

c. To meet with potential applicants ~~in Pre-Application Conferences as described in this Code~~; and

d. To act and serve as staff for each review body appointed by this Code.

4. Delegation

The Director may delegate any duties to members of the Planning ~~and Development~~ Department staff. Such designation authorizes the staff member to act on the Director's behalf~~,~~ but does not relieve the Director of overall responsibility for any final action, report, recommendation, or additional duty described in this Code.

C. Compliance with Rules and Procedures

1. The Director shall comply with any specific procedures described in this Code.

2. The Director may develop a manual consisting of administrative rules, submittal requirements for all case types, or additional procedures to clarify implementation of this Code, providing that additional rules, requirements, or procedures do not violate any other provisions of this Code. The Director may include in the manual a submittal calendar specifying the dates on which the City will accept applications.

2.02.020. ~~2.02.02.~~Development Engineer

A. Designation

The City Manager shall appoint a Development Engineer to function as described in this Code. The Development Engineer must be an engineer licensed by the State of Texas. For the purposes of this Code, the Development Engineer is also designated as the Drainage Engineer.

B. Powers and Duties

The Development Engineer shall review and make reports to the Director or other final action authorities on all Site Plans and plats, and shall have final authority for approving applications as noted in **Section 2.01.020** of this Code, and as may otherwise be authorized by this Code.

C. Compliance with Rules and Procedures

1. The Development Engineer shall comply with any specific procedures or technical criteria described in this Code.
2. The Development Engineer shall develop additional procedures or technical criteria to clarify implementation of this Code, providing that additional procedures do not violate any other provisions of this Code.

2.02.030. ~~2.02.03.~~Building Official

A. Designation

In addition to the powers granted to the Building Official in Chapter 2.32 of the City Code of Ordinances, the City Manager shall designate the Building Official for the City of Georgetown to review and approve sign permits, certificates of occupancy, conditional certificates of occupancy, temporary certificates of occupancy, Temporary Use Permits, sign permits, and Master Sign Plans. This section does not restrict the powers and duties of the Building Official granted or assigned by other sections of the City's Code of Ordinances.

B. Powers and Duties

The Building Official shall be responsible for taking final action on certificates of occupancy, conditional certificates of occupancy, temporary certificates of occupancy, sign permits, Temporary Use Permits, and Master Sign Plans. See **Chapter 5** for additional regulations that apply to certain approvals in historic Districts.

C. Inspectors

The City's Building Inspectors are authorized designees of the Building Official.

D. Code Enforcement Officers

The City's Code Enforcement Officers are authorized designees of the Building Official.

~~*(Ord. No. 2023-44 , § 3(Exh. A), 8-22-2023)*~~

2.02.040. ~~2.02.04.~~Landscape Planner

A. Designation

The Director shall appoint a Landscape Planner to function as described in this Code. The Landscape Planner must be a ~~c~~Certified ~~a~~Arborist as recognized by the International Society of Arboriculture (ISA)~~.~~ or able to work toward the certification. ~~This designation~~Throughout this Code, any reference to an "Urban Forester" shall mean the Landscape Planner, and the powers and duties ~~herein,~~assigned to the Urban Forester shall apply to ~~all references to "Urban Forester" within this Code~~the Landscape Planner.

B. Powers and Duties

The duties of the Landscape Planner shall include, but are not limited to, the review and recommendation on ~~p~~Plats, Site Development Plans, and other development permits requiring compliance with applicable sections of ~~Chapter 9 , Tree Preservation~~**Chapter 9. Landscaping and Fencing** and **Chapter 10. Tree Preservation**, governing the placement, replacement, maintenance, and/or preservation of trees~~:~~, and~~,~~ providing recommendations on such to the relevant Final Action Authority in accordance with **Section 2.01.020** of this Code.

2.02.050. ~~2.02.05.~~Historic Preservation Officer

A. Designation

The Director may designate a Historic Preservation Officer to function as described in this Code.

B. Powers and Duties

The duties of the Historic Preservation Officer shall include, but are not limited to:

1. Providing review, report, and recommendation to the Historic and Architectural Review Commission (HARC) regarding Certificates of Appropriateness and any other provisions of this Code requiring action by HARC;
2. Reviewing and taking final action on Administrative Certificates of Appropriateness;
3. Reviewing and taking final action on Alternative Parking Plans in a Historic Overlay District; and
4. Coordinating local historic preservation efforts with the State Historic Preservation Office (SHPO), the National Park Service (NPS), and the Advisory Council on Historic Preservation (ACHP) in compliance with the National Historic Preservation Act of 1966, as amended, TAC Chapter 15.6, as amended, and any additional federal and state enabling legislation.

Section 2.03. Historic and Architectural Review Commission ~~(HARC)~~

2.03.010. ~~2.03.01.~~Powers and Duties

The Historic and Architectural Review Commission (HARC) has the following powers and duties as described in this Code:

A. Final Action

The HARC shall be responsible for hearing and taking final action on the following procedures described in this Code:

1. Certificate of Appropriateness;
2. HARC Exceptions on building height ~~and~~, setback, and floor-to-area-ratio (FAR) variations pursuant to ~~Section 4.08~~Chapter 5 of this Code; and
3. ~~Hear and take final action on an a~~Appeal of an administrative Certificate of Appropriateness.

B. Review and Recommendation

The HARC shall review and make recommendations to the City Council on the designation of Historic Overlay Districts, ~~U~~updating of the Historic Resource Survey, ~~U~~updating of the Historic District Design Guidelines and Historic Landmarks, subject to the terms and conditions set forth for the procedure in this Code.

C. Additional Duties

The HARC has the following additional duties:

1. To act and assist the City Council in formulating design guidelines and other supplemental materials relevant to historic preservation or design review; and
2. To render advice and guidance, upon request of the property owner or occupant, on new construction or the restoration, alteration, or maintenance of any building or structure within a Historic Overlay District or designated as a Historic Landmark.

2.03.020. 2.03.02.Membership

The HARC shall be constituted and conduct all activities in accordance with Texas Local Government Code cChapter 214, the City Charter, and Chapter 2 of the City's Code of Ordinances.

Section 2.04. Zoning Board of Adjustment (ZBA)

2.04.010. 2.04.01.Powers and Duties

Pursuant to Texas Local Government Code § 211.009, the Zoning Board of Adjustment (ZBA) may:

A. Hear and decide an appeal that alleges error in an order, requirement, decision or determination made by an Administrative Official (see **Section 2.02**) in the enforcement of this Code;

B. Hear and decide Special Exceptions when this Code requires the Board to do so; and

C. Authorize in specific cases a Vvariance from the zoning requirements of this Code if the Vvariance is not contrary to the public interest and, due to special conditions, a literal enforcement of this ordinance would result in unnecessary hardship, and so that the spirit of the ordinance is observed and substantial justice is done.

2.04.020. 2.04.02.Membership

The Zoning Board of Adjustment shall be constituted and conduct all activities in accordance with the City Charter, and Chapter 2 of the City's Code of Ordinances.

2.04.030. 2.04.03.General Rules for Zoning Board of Adjustment Matters

In exercising its authority under **Subsection 2.04.010.A**, the Board may reverse or affirm, in whole or in part or modify the Administrative Official's order, requirement, decision or determination from which an appeal is taken and make the correct order, requirement, decision or determination, as provided for by Texas Local Government Code Chapter 211.

(Ord. No. 2023-44 , § 3(Exh. A), 8-22-2023)

Section 2.05. Planning and Zoning Commission (Commission or P&Z)

2.05.010. 2.05.01.Powers and Duties

The Planning and Zoning Commission (P&Z or Commission) has the following powers and duties as described in this Code:

A. Final Action

The Planning and Zoning Commission shall be responsible for considering and taking final action on the applications and procedures as noted in the table in **Section 2.01.020**.

B. Review and Recommendation

The Commission shall review and make recommendations to the City Council on the following, subject to the terms and conditions set forth for the procedure in this Code:

1. Comprehensive Plan Amendment;
2. Development Agreement;

3. Rezoning (Zoning Map Amendment);
4. Special Use Permit; and
5. UDC Text Amendment.

C. Additional Duties

The Commission has the following additional duties:

1. Authorize a heritage tree protection priority determination pursuant to **Subsection** 8.02.050.B 10.02.020; and
2. Hear and decide an appeal of an administrative decision on the applications and procedures as noted in the table in **Section 2.01.020**.
3. Hear and decide an appeal that alleges error in an order, requirement, decision or determination made by an Administrative Official in the enforcement of Section 11.07 of this Code**Section 13.06. Water Quality Regulations for Property Located Over the Edwards Aquifer Recharge Zone**.

2.05.020. 2.05.02.Membership

The Planning and Zoning Commission shall be constituted, have the powers and duties, and conduct all activities in accordance with State law, the City Charter, and the City's Code of Ordinances.

Section 2.06. City Council

The City Council shall be constituted, have the powers and duties, and conduct all activities in accordance with Texas Local Government Code Chapters 42, 43, 211, 212, and 216, the City Charter, and the City's Code of Ordinances. The City Council shall hear and decide appeals pursuant to Table 2.01.020**Table 2.01.020-1. Summary of Review Authority** and this Code.

Section 2.07. Parks and Recreation Advisory Board

2.07.010. 2.07.01.Powers and Duties

The Parks and Recreation Advisory Board has the following powers and duties:

A. Review and Recommendation

1. The Parks and Recreation Advisory Board shall provide review and recommendation for projects requesting approval for alternative site and development standards, private parkland credit, and certain conditions set forth in Section 13.08.040.8**15.08.040.A.6.** The Parks and Recreation Director shall provide review and recommendation for projects which meet the code requirements. The Parks and Recreation Director may defer these projects to the Parks and Recreation Advisory Board for review and recommendation for any reason.

Section 2.08. Unified Development Code (UDC) Advisory Committee

2.08.010. 2.08.01.Powers and Duties

The Unified Development Code (UDC) Advisory Committee has the following powers and duties:

A. Review and Recommendation

The UDC Advisory Committee ~~shall~~may be directed by City Council to review and make recommendations to the Planning and Zoning Commission and the City Council on the following~~,~~ subject to the terms and conditions set forth for the procedure in this Code:

1. Make recommendations and advise the Planning and Zoning Commission and the City Council on the proposed amendments to the UDC when requested by City Council~~.~~;
2. Provide an additional forum for public participation and input regarding proposed amendments to the UDC; and
3. Assist the general public in understanding the proposed amendments to the UDC.

2.08.020. ~~2.08.02.~~Membership

The UDC Advisory Committee shall be constituted and conduct all activities in accordance with the City Charter, and Chapter 2 of the City's Code of Ordinances.

Chapter 3. Applications and Permits (Chapter 3)

Section 3.01. General

3.01.010. 3.01.01.Purpose

The purpose of this chapter is to establish application procedures, internal review procedures, public notice and hearing procedures, and review criteria for the processing of applications and actions that affect the development and use of property subject to the jurisdiction of the City.

3.01.020. 3.01.02.Applicability of Case Types and Permits

Note: Reordered sections in table, and reordered sections in this chapter to

The following table shows which review Ccase Ttypes and permits apply in the City and its extraterritorial jurisdiction.

~~*Editor's note(s)—Ord. No. 2023-44 , § 4(Exh. B), adopted August 22, 2023, changed the title of Section 3.01.020 from "Applicability of Procedures" to "Applicability of Case Types and Permits." The historical notation has been preserved for reference purposes.*~~

3.01.030. ~~3.01.03.~~Simultaneous Submission of Related Applications

A. Submission of different applications related to the same development may be made simultaneously within each application group listed below. Approval consideration of the different applications, however, shall occur in the sequence as listed.

1. Policy Applications
    a. Annexation (Voluntary)
    b. Development Agreement
    c. Comprehensive Plan Amendment
    d. Rezoning (Zoning Map Amendment)
    e. Special Use Permit
    f. ~~e.~~Preliminary Plat
        (i) Exception:

A Preliminary Plat shall not be submitted until final approval of a Planned Unit Development (PUD) zoning request.

2. Development Applications
   a. Construction Plans
      (i) Exception: Construction Plans for master planned infrastructure improvements may be submitted at any time for review.
   b. Final Plat
   c. Certificate of Appropriateness
   d. Site Development Plan
3. Building Permits

   An application for a Building Permit shall not be submitted to the City until review of the first submittal of the corresponding Site Development Plan has been completed by staff, and the comments have been forwarded to the applicant.

B. Any application submitted simultaneously is subject to approval of all other related applications. Denial, disapproval, or reconsideration of any concurrently submitted application shall stop consideration of any related applications.

~~*(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017)*~~

Section 3.02. Common Review Elements

3.02.010. ~~3.02.01.~~ Application Forms and Fees

The following regulations shall apply to all applications under this chapter:

A. Forms

   Application forms, submittal requirements, instructions, and fee schedule are set forth in the UDC Development Manual.

B. Fees
   1. Application fees shall be established and revised from time to time by the City Council.
   2. All required fees shall be made payable to "The City of Georgetown."
   3. An applicant who has paid the appropriate fee with an application, but who chooses to withdraw such application prior to any notification of completeness, may be entitled to a refund of all or a portion of the amount paid at the discretion of the Director. The application fee required for UDC Text or Zoning Map Amendments shall not be refundable.
   4. An application shall only be accepted for review if the applicant, agent, or property owner has no outstanding, undisputed fees owed to the City for the same property or other property under their control.

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.02.020. ~~3.02.02.~~ Application Deadline

All applications shall be completed and submitted to the Director in accordance with a schedule established annually by the Director. An application shall not be considered as officially submitted, accepted, or filed until it has been determined to be complete as specified in **Subsection 3.02.040. Determination of Application Completeness**.

3.02.030. 3.02.03.Accurate Information Required

A. All required information and materials must contain accurate information. A finding of inaccurate information (e.g., incorrect easement locations, incorrect owner information) is grounds for application denial. Typos or grammatical errors alone do not constitute inaccurate information.

B. Each submission or resubmission of an application or plan set must contain accurate information within the entire application or plan set. If one element of the application or plan set is revised, all elements of the application or plan set must be updated to include the same information throughout the entire application or plan set and resubmitted.

C. If an approved application or an application currently under review is found to contain conflicting information, the applicant may be required to submit a revised application or an amendment to the original application to resolve the discrepancy.

3.02.040. 3.02.04.Determination of Application Completeness

A. The Director or their designee, shall review each submitted application to determine if the minimum items needed for proper review of such application are present.

B. A determination of whether an application is complete shall be made by the Director no more than five working days after submittal of the application.

C. If the application is determined not to be complete, the Director shall notify the applicant in writing. The notification shall attempt to list all missing or incomplete items and provide a specific period of time (not greater than five working days) for the applicant to resubmit the material. The applicant may request an additional meeting for explanation of the missing or incomplete items. If the application is not resubmitted within the period specified by the Director, the application shall be deemed rejected and shall not be accepted for filing. After an application has been rejected, the applicant shall resubmit within the time period prescribed by the Director, or the application will expire and a new application and fee shall be required.

D. The determination of completeness shall take into account the following:

1. Consistency with the Comprehensive Plan (for zoning applications, only);
2. Any required previous approvals; and
3. Required submission materials and compliance with the UDC Development Manual and the City's Construction Specifications and Standards Manual.

E. For the purposes of Texas Local Government Code § 212.009, an application for subdivision is considered filed once it is determined by the Director to be accepted for consideration per **Section 3.15.0500. Submission Requirements**.

F. Determination that an application is complete does not preclude any negative final action and does not include any implied determination that the application successfully meets any review criteria.

G. If the Director determines that any request for a Zoning Map Amendment (Rezoning) is not consistent with the Comprehensive Plan, the application shall be determined to be incomplete and shall not be filed unless it is submitted in conjunction with a comprehensive plan amendment. No action on the rezoning may occur until it is consistent with the Comprehensive Plan; however, both actions may occur during the same meeting. The City Council may approve amendments to the Comprehensive Plan in accordance with the procedure in **Section 3.04. Comprehensive Plan Amendment**.

1. An appeal of the Director's determination can be made in accordance with the procedures in **Section 3.12. Appeal of an Administrative Decision–Zoning Regulations**.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.02.050. ~~3.02.05.~~Limit on Reapplication

If any petition for a rezoning (zoning map amendment), plan amendment (such as to a future mobility plan, comprehensive plan, water master plan, etc.), or any petition for an amendment to this Unified Development Code is disapproved by the Final Action Authority, another application or petition for the same permit, approval or amendment for the same property or any portion thereof may not be filed within a period of 30 calendar days (or 12 months for zoning change applications) from the date of final disapproval, except with permission of the Planning and Zoning Commission or City Council. Such reapplication must demonstrate:

A. There is a substantial change in circumstances relevant to the issues and/or facts considered during review of the application that might reasonably affect the decision-making body's application of the relevant review standards to the development proposed in the application;

B. New or additional information is available that was not available at the time of the review that might reasonably affect the decision-making body's application of the relevant review standards to the development proposed;

C. A new application is proposed to be submitted that is materially different (e.g., proposes new uses or a substantial decrease in proposed densities and intensities) from the prior application; or

D. The final decision on the application was based on a material mistake of fact.

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.02.060. ~~3.02.06.~~Expiration of Application

An accepted application for which there has been no action taken by an applicant for a period of 180 days or more from the date of the last action shall be determined dormant and processed as withdrawn by the applicant, causing the file to be closed. The Director shall notify the applicant in writing 30 days in advance of the pending closure. The Director may consider extending the application if the applicant can show just cause for the delays or there is evidence of continued communication with staff.

Section 3.03. Public Hearing and Notice

3.03.010. ~~3.03.01.~~Provision of Public Notice

A. Compliance with Texas Local Government Code

Public hearings and public notice shall be provided in accordance with Texas Local Government Code **Chapter 211 Municipal Zoning Authority** and **Chapter 212 Municipal Regulation of Subdivisions and Property Development**.

B. Summary of Notice Required

Notice shall be required for application review as shown in the following ~~T~~table.

Table ~~3.03.01:~~3.03.010-1. Summary of Notice Requirements

Procedure	Published	Mailed	Posted
Annexation (Voluntary)	X		
Appeal of Administrative Decision	X

X = Notice ~~R~~required.

* = Notice to be determined by Development Agreement Committee per **Section 3.18. Development Agreement.**

‡ = Only applicable to Certificate of Appropriateness applications that require consideration by the Historic and Architectural Review Commission.

1 = ~~m~~Mailed notice to be provided in compliance with Local Government Code 211.007

C. Published Notice

1. A public notice shall be published at least once in a local newspaper of general circulation, as designated by the City Council, within the City prior to the meeting. The notice shall contain the time and place of such public meeting or hearing and a brief description of the agenda items that may be considered or reviewed.
2. A published notice shall be published at least 15 days in advance of the public meeting or hearing.

D. Mailed Notice

1. Generally
   a. A notice of ~~P~~public ~~H~~hearing shall be sent to owners of record of real property within 300 feet of the boundary of the property under consideration, as determined by the most recent municipal tax roll and central appraisal district tax roll information.
   b. A notice of ~~P~~public ~~H~~hearing shall be sent to homeowners' associations and other similar associations registered with the City and located within 300 feet of the boundary of property under consideration.
   c. A notice of ~~P~~public ~~H~~hearing shall be provided to each party ~~required provided~~ in compliance with Local Government Code 211.007.
   d. Notice of ~~P~~public ~~H~~hearing shall be sent by United States mail. The notice may be served by its deposit in the municipality, properly addressed with postage paid, in United States mail at least 15 days prior to the date set for the ~~P~~public ~~H~~hearing or as otherwise required by the Texas Local Government Code, as amended.
2. Special Mailed Notice Required for Certain Replats

Replats containing any area or lot that, during the preceding five years, was limited by an interim or permanent zoning classification to residential use for not more than two residential units per lot or in the preceding plat was limited by deed restrictions to residential use for not more than two residential units per lot, require mailed notice to all owners of lots that are part of the original subdivision and located within 200 feet of the boundary of the property to be replatted, in the same manner as prescribed in **Subsection 3.03.010** above and in accordance with Texas Local Government Code § 212.015, as amended.

3. Special Mailed Notice Required for PUD Modification
   a. For purposes of mailed notice, the boundary of a PUD modification shall be the boundary of any tract of land for which PUD standards or requirements are proposed to change due to the modification.
   b. A notice of Pubicpublic Hhearing shall be provided to each party required provided in compliance with Local Government Code 211.007.
   c. In addition to the requirements of **Subsection 3.03.010** above, mailed notice shall also be provided to all owners of property within the entire PUD boundary, not otherwise notified.

E. Posted Notice
   1. Notice shall be posted in a format approved by the Director on the subject property, along rights-of-way contiguous to the proposed development according to the following standards:
      a. One sign for tracts of less than 300 feet of right-of-way frontage;
      b. One sign at each interval of 1,000 feet; and
      c. The total number of signs shall not be required to exceed a total of four signs per right-of-way.
   2. Notice of application shall be posted at the project site such that it is visible from the public right-of-way.
   3. The City will provide the required sign; however, the applicant shall be responsible for posting and maintaining the sign in a format approved by the Director, and for removing the sign within five days following the Ppublic Hhearing on the application.
   4. Posted notice shall be posted not less than 15 days prior to the scheduled Ppublic Hhearing by the Review Authority and must remain posted until the City Council or other Final Action Authority has acted on the application.
   5. The notice is considered served upon receipt by the developer of the posted notice(s) in a format approved by the Director.

F. Content of Notice
   1. Published or mailed notices shall contain at least the following specific information:
      a. The general location of land that is the subject of the application, including a location map with the mailed notice only;
      b. The legal description or street address;
      c. The substance of the application, including the type of proposed development and the current zZoning dDistrict;
      d. The time, date, and location of the Ppublic Hhearing;
      e. A phone number to contact the City; and
      f. A statement that interested parties may appear at the Ppublic Hhearing.

2. Posted notices shall contain at least the following specific information:
   a. The type of request (i.e., rezoning, variance, etc.);
   b. The application number;
   c. A phone number to contact the City; and
   d. The time, date, and location of the Ppublic Hhearing.

G. Constructive Notice

Minor defects in notice shall not impair the notice or invalidate proceedings pursuant to the notice if a bona fide attempt has been made to comply with applicable notice requirements.

H. Special Hearing Notice Required for Certain Replats

A Replat without vacation of the preceding plat must conform to the requirements of Texas Local Government Code §§ 212.014 and 212.015.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019; Ord. No. 2019-37 , § 2(Exh. A), 6-11-2019; Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.03.020. 3.03.02.Required Public Hearing

The following table identifies the types of applications requiring a Ppublic Hhearing and the review body responsible for conducting the hearing.

Table 3.03.02:3.03.020-1. Summary of Required Public Hearing

X = Public Hhearing Rrequired.

* = Public Hhearing to be determined by Development Agreement Committee per **Section 3.18. Development Agreement**.

‡ = Only applicable to certificate of appropriateness applications that require consideration by the Historic and Architectural Review Commission

1 = Only on cases when applicant is seeking initial zoning in lieu of the initial default zoning of AG.

2 = See **Section 3.06.020. Annexation Review Process** for specific requirements.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019; Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.03.030. 3.03.03.Conduct of Public Hearings

A. Modification of Application at Public Hearing

1. The applicant may agree to modify the application, including the plans and specifications submitted, in response to questions or comments by persons appearing at the Ppublic Hhearing or to suggestions or recommendations by the recommending or decision-making body holding the Ppublic Hhearing.
2. Unless such modifications are so substantial that the recommending or decision-making body cannot reasonably be expected to perceive the nature and impact of the proposed changes without revised application materials before it, the recommending or decision-making body may approve or recommend approval of the application with the condition that the approval or recommendation of approval will not be applicable until materials reflecting the agreed upon changes are submitted to the Director. No application may proceed until the revisions have been made.
3. Where deemed appropriate by the decision-making body, modifications to an application may be referred back to the recommending body for reconsideration prior to further action by the decision-making body.
4. Modification of an application that causes the consideration of that application to be substantially different than that which was provided in the public notice shall require a new Ppublic Hhearing by the recommending and decision-making bodies with new notice in accordance with **Section 3.03.010. Provision of Public Notice**. Such modifications shall include, but are not be limited to, a change to a zZoning dDistrict that was not otherwise included in the public notice or andy increase ing the acreage of the area under consideration. Decreasing the acreage of the area under consideration shall not cause the application to require a new Ppublic Hhearing.

B. Evidence

All findings and conclusions necessary to the permit or decision shall be based upon reliable evidence. Competent evidence (evidence admissible in a court of law) shall be preferred whenever reasonably available, but in no case may findings be based solely upon incompetent evidence unless competent evidence is not reasonably available, the evidence in question appears to be particularly reliable, and the matter at issue is not seriously disputed.

C. Record

1. An audio tape recording and/or written minutes shall be made of all required Ppublic Hhearings, and such audio recordings shall be kept for two years.

2. All documentary evidence presented at a hearing as well as all other types of physical evidence shall be made a part of the record and shall be kept by the City for two years.

3.03.040. 3.03.04.Postponement of Application

A. Postponement of Public Hearing after Public Notice

The applicant shall be required to pay for all re-notice fees for a scheduled and noticed Ppublic Hhearing that is postponed at the request of the applicant.

B. Postponement of Application after Recommendation

For applications where a recommendation is required by the Planning and Zoning Commission, an applicant may request the City Council Public Hearing to be postponed to the next regular meeting following the date of the scheduled City Council Public Hearing. The Director may approve, for good cause shown, a postponement of up to 30 days from the date of the scheduled City Council Public Hearing. Public notice of the new Ppublic Hhearing shall be required in accordance with **Section 3.03.010. Provision of Public Notice**.

3.03.050. 3.03.05.Administrative Review Process

Administrative reviews occur when the Director or another City employee is responsible for final action on any application.

A. Applicability

An administrative review shall be required for any permit or application that requires final action from an aAdministrative oOfficial, as described in Table 2.01.020Table 2.01.020-1. Summary of Review Authority.

B. Review Process

Administrative reviews shall occur within the standard review periods established by the Director. The Director or other authority responsible for final action may establish procedures necessary to ensure compliance with this Code and State statute.

1. Initiation

Initiation of an administrative review may be made upon:

a. Recommendation of the Director;

b. Recommendation of other aAdministrative oOfficial responsible for final action on the permit being initiated; or

c. Submission of a complete application by the property owner or their authorized agent.

2. Application

Application must be made in a format consistent with **Section 3.02.010. Application Forms and Fees**.

3. Completeness Determination

Upon submission of an application for any administrative review, the Director shall determine whether the application is complete, as described in this Code.

4. Staff Review

Once an application is determined complete, the Director or Final Action Authority shall review the application, considering any applicable criteria for approval. The Director or Final Action Authority may assign staff to review the application and make a report to the Director or Final Action Authority.

C. Administrative Final Action

Upon completion of the administrative review, the Director or other responsible Final Action Authority shall make a final determination and notify the applicant in writing. The Director or other Final Action Authority may take one of the following final actions:

1. Approve the application.
2. Approve the application with conditions.
3. Disapprove the application. Such disapproval must include specific reasons for disapproval.

D. Criteria for Approval—Generally

1. An application shall be approved administratively when all of the following criteria are met:
   a. A complete application and fee have been submitted.
   b. The application and content of the application are consistent with the provisions of this Unified Development Code, the Comprehensive Plan, and any other applicable City regulations.
   c. The application and content of the application are consistent with any administrative rules established by the Director, and any prior written interpretations of this Code.
2. Additional criteria for approval that apply to specific administrative procedures may be provided in the specific descriptions of those procedures in this **Chapter 3. Applications and Permits**. An administrative procedure that does not have specific criteria for approval shall be considered using the general criteria provided above. All such criteria shall be published as part of the Development Manual pursuant to UDC Section 1.11Section 1.11**.**

E. Appeals

1. If an applicant is appealing a final action of disapproval, only the basis for disapproval may be appealed to the Appeal Authority as identified in the UDC Table 2.01.020Table 2.01.020-1. Summary of Review Authority.
2. The Appeal Authority shall be the decisive body for any appeal request; no appeal of the Appeal Authority shall be considered, except where required by State Law.
3. A person may not appeal a denial for the purpose of continuance, an extension agreed to by the applicant and the Director, or a determination that an application is not complete.
4. An Aappeal of a denial of an application by a Final Action Authority shall be limited to one appeal per instance of denial of the relevant application.
5. All appeal requests of decisions on plat type applications shall be processed in accordance with Local Government Code 212.0093.
6. The Director shall identify and publish in the Development Manual requirements for submitting requests pursuant to this Ssection.
7. The Director or Development Engineer may, at their discretion, forward any application for which they are the Final Action Authority to the Appeal Authority for Final Action.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

Section 3.04. Comprehensive Plan Amendment

3.04.010. 3.04.01.Applicability

A. For the purpose of establishing and maintaining sound, stable, and desirable development consistent with the goals and policies of the Comprehensive Plan, amendments to the Plan may be considered. Plan Aamendments

are periodic, substantive changes that are necessary to accommodate changed or unforeseen circumstances in a manner consistent with the public interest and in accordance with the procedures established in the Plan and in this section. The provisions of the section are adopted pursuant to Texas Local Government Code cChapter 213 and the City Charter.

B. Plan Aamendments will not be made more than once per calendar year, except for the rare circumstance where the City Council feels it necessary to make a change with a super- may be considered by City Council upon Director recommendation. Where the Plan Amendments shall commence upon a simple majority vote by City Council. Applications may be made at any time of year.

C. Amendments initiated by a property owner or their authorized agent may be considered at any time for amendments to the Future Land Use Plan Map or Overall TransportationFuture Mobility Plan Map.

3.04.020. 3.04.02.Review Process

A. Initiation

Initiation of an Aamendment may be made upon:

1. Application of a property owner or their authorized agent;
2. Recommendation of the City Council;
3. Recommendation of the Planning and Zoning Commission; or
4. Recommendation of the Director.

B. Application and Completeness Determination

The Director is responsible for checking that a complete application has been submitted with all material necessary for the City Council to render an informed decision.

C. Staff Review

1. The Director shall review the application, considering any applicable criteria for approval, and prepare a report to the Planning and Zoning Commission and City Council.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and State statutes.
3. The Director may assign staff to review the application and make a report to the Director.
4. The Director's report may include a recommendation for final action.

D. Planning and Zoning Commission Review

Following notice in accordance with **Section 3.03. Public Hearing and Notice**, the Commission shall hold a Ppublic Hhearing in accordance with its rules and Sstate law and make a recommendation to the City Council.

E. City Council Final Action

1. The City Council shall hold a Ppublic Hhearing and may take final action on the proposed amendment.
2. The amendment shall become effective when approved by a super-majority vote of the City Council and in accordance with the City Charter.

3.04.030. 3.04.03.Approval Criteria (Comprehensive Plan Amendment)

A. The City Council shall consider the following approval criteria in an analysis of immediate needs and consideration of the long-term effects.

1. The Aamendment promotes the health, safety or general welfare of the City and the safe, orderly, and healthful development of the City.

B. In considering Aamendments to the Plan, the City should be guided by the following:

1. The need for the proposed change;
2. The effect of the proposed change on the need for City services and facilities;
3. The compatibility of the proposed change with the existing uses and development patterns of nearby property and with the character of the neighborhood; and
4. The implications, if any, that the amendment may have for other parts of the Plan.

Section 3.05. Unified Development Code Text Amendment

3.05.010. 3.05.01.General

3.05.02. Amendments to this Unified Development Code (UDC) may be made in order to establish and maintain sound, stable, and desirable development within the jurisdiction of the City, to correct errors in the text, or because of changed or changing conditions in the City. All Ttext Aamendments shall be consistent with the Comprehensive Plan.

3.05.020. Review Process

A. Initiation

Initiation of an amendment may be made upon resolution of the City Council upon the recommendation of the:

1. City Council;
2. Planning and Zoning Commission; or
3. Director.

At the request of the City Council the amendment to be considered may be directed to the UDC Advisory Committee for review and recommendation in advance of the Planning and Zoning Commission review. The resolution from City Council shall specify the following: intent of the changes, whether a recommendation from UDC Advisory Committee or other city boards/commissions are desired in advance of Planning and Zoning Commission action, and any notice in addition to UDC requirements and state law is desired.

B. Staff Review

The dDirector shall prepare a report for the Planning and Zoning Commission review on the proposed amendment and consistency with the approval criteria outlined in the cCode.

C. Planning and Zoning Commission Review

Following notice in accordance with Chapter 211 of the Texas Local Government Code, the Commission shall hold a Ppublic Hhearing in accordance with state law and make a recommendation to the City Council.

D. City Council Final Action

The City Council shall hold a public hearing and take final action on the proposed amendment.

3.05.030. 3.05.03.Approval Criteria

The following lists of criteria are not all-inclusive. Review and recommendations on text amendments to this Unified Development Code should consider the following:

A. The proposed text amendment corrects an error or meets the challenge of some changing condition, trend or fact;

B. The proposed text amendment is in response to changes in state law;

C. The proposed text amendment is generally consistent with the Comprehensive Plan and other adopted plans and does not conflict with any specific policy or action item outlined in the comprehensive plan;

D. The proposed text amendment is generally consistent with the stated purpose and intent of the section it is amending;

E. The proposed text amendment constitutes a benefit to the City as a whole and is not solely for the good or benefit of a particular landowner or owners at a particular point in time;

F. The proposed text amendment will maintain or advance the public health, safety, or general welfare, including but not limited to facilitating the adequate provision of transportation, water, sewers, schools, and parks.

Section 3.06. Annexation

3.06.010. 3.06.01.Applicability

A. For the purpose of establishing and maintaining sound, stable, and desirable development consistent with the goals and policies of the Comprehensive Plan, the City may consider annexations of territory to the corporate limits or extraterritorial jurisdiction (ETJ). The provisions of the Ssection are adopted pursuant to Texas Local Government Code cChapter 43 and the City Charter.

B. Annexation and disannexation of territory may be requested by landowners or their representatives through this process for real property within the City's corporate limits and the ETJ.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.06.020. 3.06.02.Annexation Review Process

A. Initiation

Initiation

Initiation of an annexation or disannexation of territory may be made upon application of a property owner or their authorized agent. Another governmental authority may also request modification of ETJ or corporate limit boundaries through this process, or through the cooperative effort of the Georgetown City Council to initiate such proceedings.

B. Application and Completeness Determination

The Director is responsible for checking that a complete application has been submitted with all material necessary for the City Council to render an informed decision.

C. Staff Review

1. The Director shall review the application, consider~~ing~~ any applicable criteria for approval and prepare a report to the City Council.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and ~~s~~State statutes.
3. The Director may assign staff to review the application and make a report to the Director.
4. The Director's report may include a recommendation for final action.

Figure 3.06.020-3.06.02-1. Annexation Summary

D. Written Agreement Regarding Services

If required pursuant to Section 43.0672 of the Texas Local Government Code, the City Council shall approve a written agreement regarding services with the property owner prior to initiation of annexation.

E. City Council Public Hearings

City Council shall hold public hearings as required by applicable sections of Texas Local Government Code Chapter 43.

F. City Council Final Action

1. The City Council shall take final action on the proposed annexation or disannexation.
2. The annexation or disannexation shall become effective when approved by the City Council and in accordance with the City Charter.

3.06.030. ~~3.06.03.~~Zoning ~~U~~upon Annexation

~~Note: Recommend moving referenced Sec. 4.04 (current Sec. 4.03 Newly Annexed Territory) here to improve~~

A. As indicated in ~~Sec.4.04.01~~Subsection 4.04.010. Initial Default Zoning, the City must take action to assign zoning to the newly annexed area.

B. While Planning and Zoning Commission approval is not required for an annexation, the Commission's recommendation is needed to assign zoning to the annexed area.

~~*(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.06.040. ~~3.06.04.~~Approval Criteria (Annexation)

The City Council shall consider the following approval criteria in an analysis of immediate needs and consideration of the long-term effects.

A. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action; and

B. The annexation promotes fiscally responsible, safe, orderly, and healthful development of the City; and

C. The City has the capacity and ability to serve the area with City utilities and services; and

D. The annexation is consistent with the City's adopted long-range plans and annexation policies.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

Section 3.07. Zoning Map Amendment— (Rezoning)

3.07.010. 3.07.01.Applicability

Applicability

For the purpose of establishing and maintaining sound, stable, and desirable development within the territorial limits of the City, the Official Zoning Map may be amended based upon changed or changing conditions in a particular area, or in the City generally, or to rezone an area or extend the boundary of an existing Zoning District or Overlay District. All amendments must be consistent with the Comprehensive Plan. The provisions of the section related to Rrezoning are adopted pursuant to Texas Local Government Code cChapter 211 and the City Charter.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

Figure 3.07.010-3.07.01-1. Rezoning Summary

3.07.020. 3.07.02.Review Process

A. Initiation

Initiation of a map amendment may be made upon:

1. Application of a property owner or their designated agent;
2. Recommendation of the City Council;
3. Recommendation of the Planning and Zoning Commission;
4. For a hHistoric lLandmark or hHistoric oOverlay dDistrict designation, recommendation of the Historic and Architectural Review Commission; or
5. Recommendation of the Director.

B. Application and Completeness Determination

The Director is responsible for checking that a complete application has been submitted with all material necessary for the City Council to render an informed decision.

C. Staff Review

1. The Director shall review the application, considering any applicable criteria for approval, and prepare a report to the Planning and Zoning Commission, the Historic and Architectural Review Commission (where applicable), and City Council.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and State statutes.

3. The Director may assign staff to review the application and make a report to the Director.
4. The Director's report may include a recommendation for final action.

D. Historic and Architectural Review Commission

When a request is made for hHistoric lLandmark or hHistoric oOverlay dDistrict designation, the Commission shall hold a Ppublic Hhearing in accordance with its rules and state law, and make a recommendation to the City Council following notice in accordance with **Section 3.03. Public Hearing and Notice**.

E. Planning and Zoning Commission Review

Following notice in accordance with **Section 3.03. Public Hearing and Notice**, the Commission shall hold a Ppublic Hhearing in in accordance with its rules and state law and make a recommendation to the City Council. Designation of a Historic Landmark shall not require review and recommendation by the Planning and Zoning Commission.

F. City Council Final Action

1. The City Council shall hold a Ppublic Hhearing and may take final action on the proposed amendment.
2. The amendment shall become effective when approved by the City Council and in accordance with the City Charter. If a proposed amendment has been recommended for disapproval by the Planning and Zoning Commission and the Historic and Architectural Review Commission (where applicable), the amendment may not become effective except by a three-fourths vote of all members of the City Council.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

3.07.030. 3.07.03.Approval Criteria (All Rezonings)

The City Council shall consider the following approval criteria for zoning changes:

A. The zoning change is consistent with the density, primary and secondary -uses, and target ratios outlined for Future Land Use Plan dDistrict;

B. -The zoning change implements the policies of the Comprehensive Plan and any applicable Small Area Plans;

C. The zoning change will maintain or advance the public health, safety, orderly growth, or general welfare, such as facilitating the adequate provision of transportation, water, sewers, schools, and parks;

D. The zoning change is compatible with the present zoning and conforming uses and with the character of the surrounding properties;

E. The subject property is adequatehas sufficient size, shape, and topography to accommodate for uses and development standards permitted by the proposed amendment.; and

F. Whether tThe proposed amendment maintains or advances the goals of the Economic Development Strategic Plan.

3.07.040. 3.07.04.Approval Criteria (Historic Overlay Districts)

In addition to the approval criteria for zoning changes in **Section 3.07.030. Approval Criteria (All Rezonings)**, the City Council shall make the findingsfind that one or more of the following criteria for approving a Historic Overlay District is met:

A. Character, interest, or value of the structures, sites, or area is significant because of their unique role in the development, heritage, or cultural characteristics of the City, Ccounty, Sstate, or Nnation;

B. Occurrence of a notable historical event at the structures, sites, or area;

C. Identification of the structures, sites, or area with a person or persons who contributed notably to the culture and development of the City, ~~C~~county, ~~S~~state, or ~~N~~nation;

D. Embodiment in multiple buildings in a site or area under consideration of distinctive elements of architectural design, detail material, or craftsmanship related to a uniqueness to the area, or the related distinctiveness of a craftsman, master builder or architect, or a style or innovation, including but not limited to:

1. Scale of buildings and structures typical of the area;
2. Architectural style of the buildings and structures;
3. Architectural period of the buildings and structures;
4. Building materials typical of the area;
5. Colors and textures used in the buildings and structures typical of the area;
6. Typical relationships of buildings in the area to the street;
7. Setbacks and other physical patterns of buildings in the area;
8. Typical patterns of rooflines of buildings in the area; or
9. Typical patterns of porch and entrance treatments of buildings in the area; and

E. Archaeological value in the sense that the structures, sites, or area have produced or can be expected to yield, based on physical evidence, information affecting knowledge of history or prehistory.

~~*(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)*~~

~~*Note(s)—See editor's note at Section 3.06.050.*~~

3.07.050. ~~3.07.05.~~Approval Criteria (Historic Landmark Designation)

The City Council shall ~~make the findings~~find that one or more of the following criteria ~~is~~are met for designating a building, structure, or site within the ~~C~~city limits as a local Historic Landmark:

A. Character, interest, or value of the building, structure, or site is significant because of its unique role in the development, heritage, or cultural characteristics of the City, County, State, or Nation;

B. Occurrence of a notable historical event at the building, structure, or site;

C. Identification of the building, structure, or site with a person or persons who contributed notably to the culture and development of the City, ~~C~~county, ~~S~~state, ~~N~~nation, or society;

D. Distinctive elements of architectural design, detail material, or craftsmanship that make it an established or familiar visual feature, or the related distinctiveness of a craftsman, master builder, or architect, or a style or innovation, including but not limited to:

1. Architectural style of the building or structure;
2. Architectural period of the building or structure;
3. Textures and colors of materials used in the building or structure;
4. Shape of the building or structure;
5. Roofline of the building or structure;
6. Porch and entrance treatments of the building or structure;
7. Height and mass of the building or structure; or
8. Relative proportions of the building or structure (width to height, width to depth); and

E. Archaeological value in the sense that the building, structure or site can be expected to yield, based on physical evidence, information affecting knowledge of history or prehistory.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

3.07.060. 3.07.06.Interim Control Dduring Historic Landmark or Historic Overlay District Consideration

A. Upon deeming an application for a hHistoric lLandmark or hHistoric oOverlay dDistrict designation complete, no Building Permit may be issued by the City for alteration, construction, demolition, or removal of any building or structure located within the area proposed for such designation.

B. This Building Permit hold period shall commence on the date the application for hHistoric lLandmark or hHistoric oOverlay dDistrict designation is deemed complete until its final disposition by the City Council. For City initiated requests, this Building Permit hold period shall commence on the date the resolution to initiate the request is adopted until final disposition by the City Council.

C. The Building Permit hold period shall not apply to alterations, removal, or demolition authorized by formal action of the Building Standards Board as necessary for preservation of the public health, welfare or safety as provided for dangerous buildings in Chapter 15 of the City Code of Ordinances.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

Section 3.08. Zoning Verification Letter

3.08.010. 3.08.01.Applicability

A Zoning Verification Letter, as defined in **Section 3.08.020** below, may be obtained upon written request as outlined in the Development Manual.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.08.020. 3.08.02.Zoning Verification Letter Defined

A Zoning Verification Letter is a letter that indicates to a property owner that a specified use, clearly identified in the application, is permitted within the Zzoning District. A Zoning Verification Letter does not authorize the property owner to proceed with a development; does not specify requirements that must be met for future development; and does not include a determination that a tract of land may be developed.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.08.030. Nonconforming Status Determination

A. Applicability

A request for a determination of legal nonconforming status, as defined in **Section 14.01.04**16.01.040, may be made to the Director to determine that a use, lot, structure, site, or sign is exempt from the requirements as provided in this Code.

B. Review Process

Review of a determination of legal nonconforming status shall follow the administrative review procedures set forth in **Section 3.03.050**. **Administrative Review Process**, subject to the criteria for approval set forth below.

C. Approval Criteria

A determination of legal nonconforming status may be made if the Director finds that the structure, lot, site, sign, or use was lawfully in existence, constructed, and located on the effective date or applicability of this Code or any amendment thereto or was legally constructed to meet previous requirements of this Code and has been in regular and continuous use, but which does not conform to the current requirements of this Unified Development Code, shall be granted legal nonconforming status, except as specifically exempted or prohibited by other sections of this chapter. A legal nonconforming structure, lot, site, sign, or use may remain or continue, subsequent to the effective date of this Code and any amendments thereto, provided that such continuance is in accordance with the provisions of this chapter and all other applicable codes of the City.

D. Responsibility for Final Action

The Director is responsible for final action on the determination of the final legal nonconforming status.

Section 3.09. Temporary Use Permit

3.09.010. ~~3.09.01.~~Applicability

The following temporary uses may not be commenced until the applicant obtains a Temporary Use Permit from the Building Official. The permit specifies the specific use, the period of time for which it is approved, and any special conditions attached to the approval. The provisions of this section relating to Temporary Use Permits are adopted in accordance with Texas Local Government Code chapter 211 and the City Charter.

The following uses may be permitted, subject to the issuance of a Temporary Use Permit:

A. Pumpkins, Christmas trees, and other seasonal product sales. No permit shall be required for such uses operated as part of a school or place of worship.

B. Sales offices and model homes, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

C. Temporary parking lots, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070 and subject to **Section 3.09.020. Review Process**.

D. Business offices or sales facilities where construction of a permanent facility is being diligently completed, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

E. Construction field offices, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

F. Private farmer's markets, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

G. Temporary manufacturing of concrete products, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

H. Temporary ~~M~~mobile or outdoor food vendor, pursuant to City Code Section 8.12.

I. Offsite construction staging, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

J. Portable classrooms, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

K. Temporary storage facility located on a property affected by a natural disaster, pursuant to the standards set forth in **Section** ~~5.08.020~~6.02.070.

L. Noise permits, pursuant to City Code Section 8.16.050.

M. Similar temporary uses which, in the opinion of the Director, are compatible with the district and surrounding land uses.

~~(Ord. No. 2018-61, § 2(Exh. A), 10-9-2018; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)~~

3.09.020. ~~3.09.02.~~Review Process

A. Review of a Temporary Use application shall follow the procedure set forth in **Section 3.03.050. Administrative Review Process**.

B. The Director may determine if a Site Development Plan companion application is necessary for applications pursuant to **Subsection** ~~3.11.010.E~~3.09.010.E above; and~~,~~ is authorized to waive the requirement for such a companion application.

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.09.030. ~~3.09.03.~~Approval Criteria

In addition to the general criteria for consideration of administrative procedures in **Subsection 3.03.050.D. Criteria for Approval—Generally**, the Director shall consider whether the application complies with the following standards:

A. Land Use Compatibility

The ~~T~~temporary ~~U~~use must be compatible with the purpose and intent of this Unified Development Code and the zoning ~~d~~District in which it will be located. The ~~T~~temporary ~~U~~use shall not impair the normal, safe, and effective operation of a permanent use on the same site. The temporary use shall not endanger or be materially detrimental to the public health, safety, or welfare or injurious to property or improvements in the immediate vicinity of the temporary use, given the nature of the activity, its location on the site, and its relationship to parking and access points.

B. Compliance with Other Regulations

A Building Permit or Temporary Certificate of Occupancy may be required, as determined by the Building Official, before any structure used in conjunction with the ~~T~~temporary ~~U~~use is constructed or modified. All structures and the site as a whole shall meet applicable Building and Fire Code standards as well as any provisions of this Code for such ~~T~~temporary ~~U~~use. Upon cessation of the ~~T~~temporary ~~E~~event or ~~U~~use, any structures associated with the temporary use shall be promptly removed and the site shall be returned to its previous condition (including the removal of all trash, debris, signage, or other evidence of the temporary use).

C. Duration

The duration of the ~~T~~temporary ~~U~~use shall be established by the Building Official at the time of approval of the Temporary Use Permit, pursuant to any provisions of ~~Chapter 5~~Chapter 6 applicable to the ~~T~~temporary ~~U~~use. In the event no time limit is established, the duration shall be a period not to exceed 90 days.

D. Traffic Circulation.

The ~~T~~temporary ~~U~~use shall not cause undue traffic congestion or accident potential, as determined by the Development Engineer, given anticipated attendance and the design of adjacent streets, intersections, and traffic controls.

E. Off-Street Parking

Off-street parking shall be provided in accordance with ~~Table 9.02.030.A~~Table 11.02.040-1. Off-Street Parking Requirements* for the ~~T~~temporary ~~U~~use, and it shall not create a parking shortage for any of the other existing uses on the site.

F. Public Conveniences and Litter Control

Adequate on-site rest-room facilities may be required. Adequate on-site solid waste containers may also be required. The applicant shall provide a written guarantee that all litter generated by the event or use shall be removed at no expense to the City.

G. Appearance and Nuisances

The Ttemporary Uuse shall be compatible in intensity, appearance, and operation with surrounding land uses in the area, and it shall not unduly impair the usefulness, enjoyment, or value of adjacent property due to the generation of excessive noise, dust, smoke, glare, spillover lighting or other forms of environmental or visual pollution.

H. Signs

The Building Official shall review all signage in conjunction with the issuance of the permit. Such signage shall be in accordance with the requirements of this Code.

I. Other Conditions

The Building Official may establish any additional conditions deemed necessary to ensure land use compatibility and to minimize potential adverse impacts on nearby uses, including, but not limited to, restrictions on hours of operation, temporary arrangements for parking and traffic circulation, requirements for screening/buffering, and guarantees for site restoration and cleanup following the Ttemporary Uuse.

J. Revocation

The Building Official may revoke a Temporary Use Permit if it is determined that:

1. The applicant has misrepresented any material fact on his or her application or supporting materials.
2. The temporary use fails or ceases to comply with applicable standards or criteria for issuance of a permit.
3. The operation of the temporary use violates any statute, law, ordinance, or regulation.
4. The operation of the temporary use constitutes a nuisance or poses a real or potential threat to the health, safety, or welfare of the public.

3.09.040. 3.09.04.Responsibility for Final Action

The Building Official is responsible for final action on all Temporary Use Permits.

Section 3.10. Special Use Permit

3.10.010. 3.10.01.Applicability

Applicability

Special Use Permits allow for City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in this Code. Special Use Permits may be issued only for uses that are generally compatible with other uses permitted in a zoning dDistrict, but that require individual review of their location, design, intensity, etc. These uses and the dDistricts where they may be located are listed in Chapter 5Chapter 6. Zoning Use Regulations. These uses may be located in dDistricts as indicated with conditions described in a Special Use Permit recommended by the Planning and Zoning Commission and approved by the City Council. No such use shall commence without prior approval of a Special Use Permit. A Special Use Permit includes a conceptual site layout that, after approval, serves as the conceptual site layout necessary for the basis of the final Site Development Plan, which, if necessary, shall be required prior to obtaining any additional permits. An approved Special Use Permit is maintained with the property, and not the property owner, renter, or lessee, and shall be valid per the terms of Section **3.10.050. Expiration**. The provisions of this section related to Special Use Permits are adopted pursuant to Texas Local Government Code cChapter 211 and the City Charter.

Figure 3.10.010-3.10.01-1. Special Use Permit Summary

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.10.020. 3.10.02.Review Process

A. Initiation

Initiation of a Special Use Permit may be made upon application of a property owner or their designated agent, following the established application processes and requirements in this **Chapter 3. Applications and Permits**.

B. Application and Completeness Determination

The Director is responsible for checking that a complete application has been submitted, with all material necessary for the City Council to render an informed decision.

C. Staff Review

1. The Director shall review the application, considering any applicable criteria for approval, and prepare a report to the Planning and Zoning Commission and City Council.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and State statutes.
3. The Director may assign staff to review the application and make a report to the Director.
4. The Director's report may include a recommendation for final action.

D. Planning and Zoning Commission Review

Following notice in accordance with **Section 3.03. Public Hearing and Notice**, the Commission shall hold a Ppublic Hhearing in accordance with its rules and State law and make a recommendation to the City Council.

E. City Council Final Action

1. The City Council shall hold a Ppublic Hhearing, in accordance with its rules and Sstate law, and may take final action on the proposed Special Use Permit.
2. The Special Use Permit and any subject conditions shall become effective upon approval by the City Council and in accordance with the City Charter.

3.10.030. 3.10.03.Approval Criteria

A. AThe City Council must approve the conceptual site layout for thebefore a Special Use Permit mustmay be approved by the City Council in order to approve issuance of a Special Use Permitissued.

B. The conceptual site layout must be submitted with all material necessary for the City Council to render an informed decision and reviewed by the Director for compliance with this Code.

C. The City Council may approve an application for a Special Use Permit where it reasonably determines that there will be no significant negative impact on residents of surrounding property or upon the general public. The City Council shall consider the following criteria in its review:

1. The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.
2. The proposed conceptual site layout, circulation plan, and design are compatible in terms of scale (building massing, form, orientation, and location), intensity, and operating characteristics with uses and structures on adjacent properties and properties in the vicinity of the proposed site.
3. The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.
4. The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard, or other injurious or noxious impact.
5. Whether there are any other special circumstances that may be unique to the subject property.

3.10.040. 3.10.04.Changes to Submitted Conceptual Site Layout

An application submitted to modify an approved conceptual site layout that was filed as part of a Special Use Permit shall cause the Special Use Permit to be reviewed under Subsections **A** and **B** below. Modified conceptual site layouts must be resubmitted to the Director for consideration.

A. The Director may determine that the modification to the conceptual site layout does not change the basis for Special Use Permit approval and issue an approval of the modified Special Use Permit.

B. If the Director determines that the modifications to the conceptual site layout change the basis for the initial Special Use Permit approval, the modified permit shall follow the normal review process for a Special Use Permit.

3.10.050. 3.10.05.Expiration

A. A Special Use Permit shall expire 24 months from the date of City Council approval, unless:

1. A Site Development Plan application, if necessary, has been submitted in accordance with **Section 3.17. Site Development Plan**.

2. A Building Permit application has been approved or, if no Building Permit is required, a Certificate of Occupancy has been issued.
3. In the case of projects where more than one building or phase is to be built, the applicant may submit a series of Building Permit applications. The first application must be approved within 24 months from the date conceptual site layout approval is granted. Each subsequent application must be submitted within 24 months from the date of issuance of a Certificate of Occupancy, or equivalent, by the Building Official for the previous phase of the development.
4. A lapse of a period greater than the periods set forth above causes the related approvals or permits to expire and be of no further force and effect. The Director has the authority to consider a six-month extension of the above deadlines based on extenuating circumstances. Any further action shall require a new application and approval.
5. The Council's approval of the Special Use Permit specified an alternative expiration date.

B. A Zoning Map Amendment (Rezoning), in accordance with **Section 3.07. Zoning Map Amendment— (Rezoning)**, is required to remove an approved but expired Special Use Permit.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.10.060. 3.10.06.Discontinuation

A Special Use Permit shall expire 12 months following the discontinuation of the use for which the Special Use Permit was approved.

Section 3.11. Planned Unit Development

3.11.010. 3.11.01.Applicability

Planned Unit Developments (PUDs) may be used to permit a unique development that does not meet the use and/or development standards included within this UDC. PUDs are intended to promote innovative, unique development that is consistent with the ecComprehensive pPlan.

Figure 3.11.010-3.11.01-1. Planned Unit Development Summary

3.11.020. 3.11.02.Review Process

A. General

A PUD is a zoning dDistrict change and requires a rezoning in accordance with **Section 3.07. Zoning Map Amendment— (Rezoning)**.

B. PUD Concept Plan

1. PUD Concept Plan Purpose

The PUD Concept Plan is intended to serve as a tool that can assist in identifying the appropriateness of a proposed development within the context of its surroundings. The PUD Concept Plan forms the basis for approval of the PUD.

2. PUD Concept Plan Application Submittal

a. Application for a PUD Concept Plan must comply with the UDC Development Manual. Applications must include all materials determined necessary by the Director of Planning and Development.

b. The PUD Concept Plan and supplemental application material shall be submitted to the Director of Planning and Development no later than 60 calendar days prior to the date of the regular meeting of the Planning & Zoning Commission.

c. The PUD Concept Plan must indicate whether a base zoning dDistrict will be used, or whether a customized PUD will be submitted that addresses all elements of this UDC (i.e., landscaping, parking, connectivity, etc.).

3. Director of Planning and Development Recommendation

The Director shall review the submittal and prepare a written staff report with recommendations, which shall be provided to the Planning & Zoning Commission along with the PUD Concept Plan. The report shall recommend that the PUD Concept Plan be approved, conditionally approved, disapproved, or postponed.

4. PUD Concept Plan Public Hearings and Approval

The Planning & Zoning Commission and City Council shall act on the PUD Concept Plan application in accordance with **Section 3.07. Zoning Map Amendment— (Rezoning)**. The decision-makers may impose additional conditions as part of the terms of approval.

5. PUD Shown on Zoning Map at PUD Concept Plan Approval

If the PUD Concept Plan is approved or conditionally approved by the City Council, the PUD shall be shown on the Zoning Map as a PUD replacing the existing zoning dDistricts.

C. Platting

If platting is required by **Section 3.15. Subdivision of Land**, all plats and plans must be submitted and approved following PUD Concept Plan approval and prior to Site Development Plan submittal.

D. Site Development Plan

Upon approval of the PUD Concept Plan and completion of any required platting process, the applicant may submit a Site Development Plan in accordance with **Section 3.17. Site Development Plan** for part or all of the land area covered by a PUD Concept Plan for Director of Planning and Development consideration. The Director may defer the Site Development Plan to the Planning & Zoning Commission and City Council action for any reason.

3.11.030. 3.11.03.Approval Criteria

In addition to the zoning change criteria in **Section 3.07. Zoning Map Amendment— (Rezoning)**, the City Council shall consider the following specific objectives and criteria for approving the PUD:

A. The proposed PUD provides a greater level of public benefits than would otherwise be achieved if the property were developed under a standard zoning dDistrict;.

B. Specific Objectives

Rezoning to, and development under the PUD District, will be permitted only in accordance with the following specific objectives:

1. A variety of housing types, employment opportunities, or commercial services to achieve a balanced City;
2. An orderly and creative arrangement of all land uses with respect to each other and to the entire City;
3. A planned and integrated comprehensive transportation system providing for a separation of pedestrian and vehicular traffic, to include facilities such as roadways, bicycle ways, and pedestrian walkways;

4. The location of general building envelopes to take maximum advantage of the natural and built environment; and
5. The staging of development in a manner that can be accommodated by the timely provision of public utilities, facilities, and services.

3.11.040. ~~3.11.04.~~Changes to a Submitted PUD Concept Plan

Any substantial change proposed on a Site Development Plan that would affect the approved PUD Concept Plan shall require re-submittal of the PUD Concept Plan in its entirety. Minor changes are those changes that are not substantial and do not affect the overall intent of the PUD Concept Plan, which may be approved by the Director ~~of Planning and Development~~; however, the Director may determine that any proposed change should be heard at a public hearing before the Planning & Zoning Commission and City Council. Substantial changes to the PUD Concept Plan are subject to the same requirements as the original application. Substantial changes shall include but are not limited to:

A. ~~a.~~Any change that would increase the intensity of the land uses;
B. ~~b.~~A 15 ~~percent~~% cumulative increase or decrease in residential density;
C. ~~c.~~A 15 ~~percent~~% cumulative increase or decrease in nonresidential square footage;
D. ~~d.~~Any change in private incentives and public benefits;
E. ~~e.~~Increase in size of property;
F. ~~f.~~Any reduction in screening, screening buffers, and setbacks at the PUD property line;
G. ~~g.~~A 15 ~~percent~~% cumulative increase in the buildable area for structures, including signs; and
H. ~~h.~~A 15 ~~percent~~% cumulative reduction in open space.

3.11.050. ~~3.11.05.~~Expiration

A. ~~1.~~PUD Concept Plan Effective Period
   1. ~~a.~~The approved PUD Concept Plan shall be effective for a period of five years. If a Site Development Plan for all or part of the area has not been approved by the ~~expiration~~end of the five-year period, the Concept Plan shall expire, and a new Concept Plan will be required. If the property owner desires to revert the property to its previous zoning (or any other zoning designation besides the approved PUD), a rezoning in accordance with **Section 3.07. Zoning Map Amendment~~—~~ (Rezoning)** is required.
   2. ~~b.~~Prior to the expiration date, the Director ~~of Planning and Development~~ may approve a request for an extension of time of up to two years. After the first extension, the Planning & Zoning Commission shall consider any other time extension requests. When at least one Site Development Plan has been approved, the PUD Concept Plan shall remain effective until amended.
B. ~~2.~~Site Development Plan Effective Period

   See **Section 3.17. Site Development Plan.** If the property owner desires to revert the property to its previous zoning (or any other zoning designation besides the approved PUD), a rezoning in accordance with **Section 3.07. Zoning Map Amendment~~—~~ (Rezoning)** is required.

Section 3.12. Appeal of an Administrative Decision–Zoning Regulations

3.12.010. ~~3.12.01.~~Effect of Appeal

Pursuant to the authority granted to the City by Texas Local Government ~~Code c~~Chapter 211, the City Charter, the City Council and this Code, the Zoning Board of Adjustment may hear and decide an ~~a~~Appeal that alleges error in an order, requirement, decision, or determination made by an ~~a~~Administrative ~~o~~Official in the enforcement of zoning regulations contained in this Code.

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.12.020. ~~3.12.02.~~Appeal Procedures

A. Initiation

Within 30 days after the date of the administrative decision, any person specified by state law may appeal an administrative decision to the Zoning Board of Adjustment.

B. Content of Notice of Appeal

The notice of appeal must specifically set forth all grounds for appeal.

C. Effect of Appeal

An ~~A~~appeal stays all proceedings in furtherance of the action that is appealed unless the official from whom the ~~A~~appeal is taken certifies in writing to the Board the facts supporting the official's opinion that a stay would cause imminent peril to life or property. In that case, the proceedings may be stayed only by a restraining order granted by the Board or a court of record, after notice to the official and if due cause is shown.

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.12.030. ~~3.12.03.~~Review Criteria

The Zoning Board of Adjustment shall consider whether the Director of Planning ~~and Development~~ or other ~~a~~Administrative ~~o~~Official's action was appropriate considering the details of the case and the requirements contained in this Unified Development Code. The Board or Commission will make its decision based on this Unified Development Code and the information presented to the Board or Commission by the applicant and the Director or other Administrative Official~~.~~'s action

A. Appeal Hearing

The Zoning Board of Adjustment shall set a reasonable time for hearing the ~~A~~appeal and shall give notice to the parties and to the public. Each ~~A~~appeal must be heard by at least 75 ~~percent (75~~%~~)~~ of the members of the Board.

B. Burden of Proof in Appeals

When an ~~A~~appeal is taken to the Zoning Board of Adjustment, the Director's or other Administrative Official's action is presumed to be valid. The applicant shall present sufficient evidence and have the burden to justify a reversal of the action being appealed. The Director may present evidence and argument to the contrary.

C. Findings and Conclusions

All findings and conclusions necessary to the permit or ~~A~~appeal decision shall be based upon reliable evidence. Competent evidence (evidence admissible in a court of law) will be preferred whenever reasonably available, but in no case may findings be based solely upon incompetent evidence unless competent evidence is not reasonably

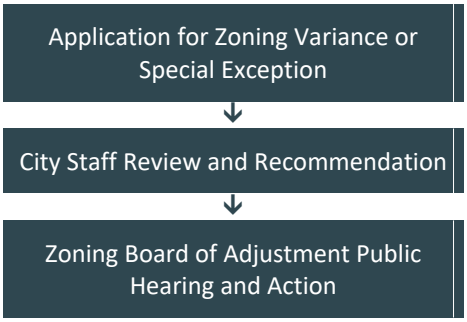
available, the evidence in question appears to be particularly reliable, and the matter at issue is not seriously disputed. In exercising its authority, the Board may reverse or affirm, in whole or in part, or modify the Aadministrative Oofficial's order, requirement, decision, or determination from which an appeal is taken and make the correct order, requirement, decision, or determination, and, for that purpose, the Board has the same authority as the Administrative Official.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.12.040. 3.12.04.Decision on Appeal

The Board shall review the application, the Director's report, conduct a Hhearing in accordance with the Board's established procedures and Sstate law, and take final action on the application. It shall require a concurring vote of three-fourths vote of all members of the Zoning Board of Adjustment to overturn an administrative decision.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)



Section 3.13. Zoning Variance and Special Exception

3.13.010. 3.13.01.Applicability

A. Zoning Variance

1. In accordance with the provisions of the Texas Local Government Code cChapters 211 and 216, the Zoning Board of Adjustment (Board) shall have the authority to hear and grant requests for a Vvariance from the zoning provisions and sign regulations of this Unified Development Code. A Zoning Variance to the development standards of this Code shall be considered an exception to the regulations, rather than a right.
2. A Zoning Variance differs from a Subdivision Waiver, which applies to certain regulations pertaining to subdivision of land and must be requested from the Planning & Zoning Commission during the subdivision review process.

Figure 3.13.010-3.13.01-1. Zoning Variance and Special Exception Summary

B. Special Exceptions

In accordance with the provisions of Texas Local Government Code cChapter 211, the Zoning Board of Adjustment shall also have the authority to hear and decide Special Exceptions to the terms of this Code when the Code requires the Board to do so.

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-08 , § 2(Exh. A), 1-28-2020)

3.13.020. 3.13.02.Zoning Variance and Special Exception Process

A. Initiation

Initiation of a request for a Zoning Variance or Special Exception may be made upon application by the property owner of the affected property or their authorized agent.

B. Application

Application for a Zoning Variance or Special Exception must comply with the UDC Development Manual. Applications must include all materials determined necessary by the Director.

C. Completeness Determination

Upon submission of an application, the Director shall determine whether the application is complete, as described in **Section 3.02.040. Determination of Application Completeness**.

D. Staff Review

1. Once an application for a Zoning Variance or Special Exception request has been received and the application deemed complete, the Director shall review the application, consider any applicable criteria for approval, and prepare a report to the Zoning Board of Adjustment.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and Sstate statutes.
3. The Director may assign staff to review the application and make a preliminary report to the Director.
4. The Director's report may include a recommendation for final action.

E. Notice and Hearing

1. The Zoning Board of Adjustment shall hold a public hearing for consideration of the Zoning Variance or Special Exception request on the next available regular scheduled meeting after the date of the application is filed.
2. Written notice of the public hearing for a Zoning Variance or Special Exception shall be provided as set forth in **Section 3.03. Public Hearing and Notice**.
3. The applicant may appear at the hearing in person or by agent or attorney.

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-08 , § 2(Exh. A), 1-28-2020)

3.13.030. 3.13.03.Criteria for Zoning Variance Review

A. Required Findings

The Zoning Board of Adjustment (ZBA) may authorize a Zoning Variance from the requirements of the zoning provisions and sign regulations of this Unified Development Code if the Vvariance from the terms of the zoning provisions is not contrary to the public interest and, due to special conditions, a literal enforcement of the requirements would result in unnecessary hardship, so the spirit of this Code is preserved, and substantial justice done. No Zoning Variance shall be granted unless the ZBA finds all of the following:

1. Extraordinary Conditions

That there are extraordinary or special conditions affecting the land involved such that strict application of the provisions of this Unified Development Code will deprive the applicant of the reasonable use of their land. For example, a Zoning Variance might be justified because of topographic or other special conditions unique to the property and development involved, while it would not be justified due to inconvenience or financial disadvantage.

2. No Substantial Detriment

That the granting of the Zoning Variance will not be detrimental to the public health, safety, or welfare or injurious to other property in the area or to the City in administering this Code.

3. Other Property

That the conditions that create the need for the Zoning Variance do not generally apply to other property in the vicinity.

4. Applicant's Actions

   That the conditions that create the need for the Zoning Variance are not the result of the applicant's own actions.

5. Comprehensive Plan

   That the granting of the Zoning Variance would not substantially conflict with the Comprehensive Plan and the purposes of this Code.

6. Utilization

   That because of the conditions that create the need for the Zoning Variance, the application of this Code to the particular piece of property would effectively prohibit or unreasonably restrict the utilization of the property.

7. Insufficient Findings

   The following types of possible findings do not constitute sufficient grounds for granting a Zoning Variance:

   a. That the property cannot be used for its highest and best use.

   b. That there is a financial or economic hardship, except as authorized in Local Government Code 211.009(b-1).

   c. That there is a self-created hardship by the property owner or their agent.

   d. That the development objectives of the property owner are or will be frustrated.

B. Limitations

   The Zoning Board of Adjustment may not grant a Zoning Variance when the effect of which would be any of the following:

   1. To allow the establishment of a use not otherwise permitted in the applicable zoning ddDistrict.
   2. To increase the density of a use above that permitted by the applicable ddDistrict.
   3. To extend physically a nonconforming use of land.
   4. To change the zoning ddDistrict boundaries shown on the Official Zoning Map.

C. Profitability Not to Be Considered

   The fact that property may be utilized more profitably should a Zoning Variance be granted may not be considered grounds for a Zoning Variance.

D. Limitation on Variances for Signs

   No VvariAnce application(s) shall be accepted for prohibited signs listed in Section 10.04 ("Signs Prohibited Under this Code"). Section 12.04. Prohibited Sign Types.

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-08 , § 2(Exh. A), 1-28-2020; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023).

3.13.040. 3.13.04.Criteria for Special Exception Review

If authorized by this Code, the Zoning Board of Adjustment may grant a Special Exception from the requirements of the certain provisions of this Unified Development Code, if the Special Exception is not contrary to the public interest and the spirit of this Code is preserved and substantial justice done. No Special Exception shall be granted unless the ZBA finds the specific criteria identified in this Code are met. The only Special Exceptions that may be granted by the Board are for the following:

A. Time extension for an abandoned nonconforming use, pursuant to Subsection 14.01.060.B.7.16.01.060.C.6.

B. Expansion of nonconforming use, pursuant to Section 14.02.050. 16.02.050.

C. Right to continue nonconforming use after destruction or damage, pursuant to Subsection 14.02.060.A.

C. D.Reduce or modify standards of nonconforming lot, pursuant to Section 14.03.0216.03.020.

D. E.Abandonment of a nonconforming structure determination, pursuant to Section 14.04.050.16.04.050.

E. F.Expansion of a nonconforming structure, pursuant to Subsections 14.04.080.B. and C.16.04.080.

F. G.Abandonment of a nonconforming site, pursuant to Section 14.05.050.16.05.050.

G. H.A setback exception, pursuant to Subsection 14.05.050.D.16.05.050.

H. I.Expansion of a nonconforming site, pursuant to Subsections 14.05.080.B. and C. 16.05.080.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015).

3.13.050. 3.13.05.Expiration of Zoning Variance or Special Exception

A. Zoning Variance

Zoning Variance approval shall expire 24 months from the date of ZBA approval unless a Building Permit has been issued and construction commenced or, if no Building Permit is required, a Certificate of Occupancy has been issued.

B. Special Exception

A Special Exception shall expire 24 months from the date of Board approval, unless:

1. A Building Permit application has been issued and construction commenced, or, if no Building Permit is required, a Certificate of Occupancy has been issued.
2. The Board approval extended the 24-month expiration date and provided for an alternative expiration; however, in no case shall the expiration date exceed 36 months.

(Ord. No. 2017-15, § 2, 2-28-2017)

Section 3.14. Administrative Exception

3.14.010. 3.14.01.Applicability

A. In order to provide an alternative method, to correct human error, allow for minor numerical adjustments, or consider alternative design schemes for particular development standards of this Code, Administrative Exceptions may be permitted. Administrative Exceptions are specified deviations from otherwise applicable development standards where development is proposed that would be:

1. Compatible with surrounding land uses;
2. Harmonious with the public interest; and
3. Consistent with the purposes of this Code.

B. Administrative Exceptions shall comply with all other provisions of this Code not specifically relieved by the Administrative Exception. Administrative Exceptions expressly permitted in this section may be approved only if meeting the criteria provided in **Section 3.14.030. Approval Criteria**.

C. The Director or the Building Official is responsible for final action on Administrative Exceptions.

D. An appeal of an Administrative Exception may be made to the Zoning Board of Adjustment in accordance with the rules and authority granted thereto.

3.14.020. ~~3.14.02.~~Authority

A. The Director or Building Official shall have the authority to determine ~~that~~whether the language or a particular development standard in this Code is incorrect, unclear, or otherwise in error and authorize an adjustment or interpretation to correct such error as necessary.

B. The Director or Building Official shall have the authority to consider and authorize an adjustment up to ~~ten percent (~~10%~~)~~ of any numerical standard set forth in this Code, with the following exceptions:

1. A request for an increase in the number of units permitted on a lot or parcel does not qualify for an Administrative Exception.
2. Any numerical standard set forth in this Code that has been previously adjusted by way of a City board or commission, Special Exception, Special Use Permit, or other similar process may not be eligible for an Administrative Exception. Accordingly, any adjustment made in conformance with this section may not be allowed further adjustment by any other process allowed in this Code.
3. Any consideration of a numerical adjustment greater than ~~ten percent (~~10%~~)~~ shall require a request for a ~~V~~variance, per the terms of **Section 3.13. Zoning Variance and Special Exception**.

C. The Director or Building Official shall have authority to consider alternative design plan(s) or other uses or requirements for the following situations:

1. Courthouse view overlay height exception (per ~~Section 4.12.040~~Section 3.27).
2. Alternative residential boundary wall (per **Section** ~~8.07.060~~9.06.060).
3. Alternative building design plan (per **Section** ~~7.04.070~~8.04.070).
4. Alternative landscape standards (per **Section** ~~8.05.050~~9.04.040).
5. Alternative parking plan (per **Section** ~~9.02.050~~11.04.010).
6. Alternative sign plan (per **Section** ~~10.01.090~~12.01.080).
7. Alternative fences (per **Section** ~~8.07.080~~9.06.080).
8. Change of use (per **Section** ~~14.02.030~~16.02.030).
9. Expansion of nonconforming uses (per **Section** ~~14.02.050~~16.02.050).
10. Postponement of required improvements (per **Section** ~~14.05.070~~16.05.070).
11. Heritage Tree or Protected Tree Preservation Priority (per Section ~~8.02.050).~~10.02.020).

~~*(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)*~~

3.14.030. ~~3.14.03.~~Approval Criteria

To approve an application for an Administrative Exception, the Director or Building Official must determine that the following criteria are met:

A. That granting the Administrative Exception serves an obvious and needed purpose.

B. That granting the Administrative Exception will ensure an equal or better level of design or land use compatibility than the otherwise applicable standards.

C. That granting the Administrative Exception will not materially and adversely affect adjacent land uses and the physical character of uses in the immediate vicinity of the proposed development.

D. That granting the Administrative Exception will be consistent with the purposes and intent of this Unified Development Code.

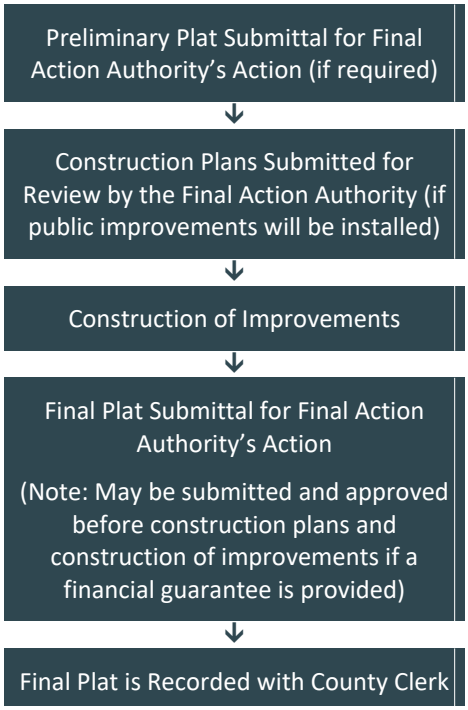
3.14.040. ~~3.14.04.~~Expiration of Administrative Exception

The Administrative Exception shall expire if the companion application expires, according to the specified expiration in this chapter. If the Administrative Exception is a stand-alone application, the approval will expire in 24 months if the exception is not utilized in a manner consistent with the approval.

Section 3.15. Subdivision of Land

3.15.010. 3.15.01.Plat Required

A. Pursuant to the authority granted in Texas Local Government Code cChapter 212 and the City Charter, prior to the subdivision, resubdivision, assembly, or development of any land within the City or its extraterritorial jurisdiction, a subdivision plat and, where public improvements are proposed, construction plans must be approved in accordance with this Chapter. Exemptions to these situations are found in **Section 3.15.020. Exemptions from Required Plat**.



B. The owner of a tract of land located within the Ccity limits or the extraterritorial jurisdiction who divides the tract into two or more parts to lay out a subdivision of the tract or to lay out streets, parks, or other parts of the tract intended by the Oowner to be dedicated to public use shall submit a plat of the subdivision in accordance with this cchapter.

C. A division of a tract under this section includes a division regardless of whether it is made by using a metes and bounds description in a deed of conveyance, by using a condominium plat and declaration of condominium, or in a contract for a deed, by using a contract for sale or other executory contract to convey or by using any other method.

D. No Site Development Plan, Stormwater Permit, Building Permit, Certificate of Occupancy, or utility services may be approved or issued for the construction or development of any parcel or tract of land unless such property is in conformity with the provisions of this Code.

E. The division of any lot or any parcel of land by the use of metes and bounds description for the purpose of development is prohibited.

Figure 3.15.010-3.143.15.01-1. Subdivision Summary

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.15.020. 3.15.02.Exemptions from Required Plat

The following situations shall not require review by the City under the subdivision provisions, but may require a Certification Regarding Compliance with Plat Requirements per **Section 3.15.030. Certification Rregarding Compliance with Plat Requirements**. Williamson County may still require subdivision approval under its regulations for subdivisions located in the City's ETJ.

A. Previously Established or Large Tracts

1. A.Land constituting a single tract, lot, site, or parcel for which a legal deed of record describing the boundary of said tract, lot, site, or parcel was filed of record in the deed records of Williamson County, Texas, on or before May 10, 1977, provided that such parcel or tract of land has not thereafter been subdivided into two or more parcels or tracts of land.

2. B.A division of land into parts greater than five5 acres, where each part has at least 25 feet of frontage on a public street and no public improvement, including right-of-way, easement, or physical improvement of any kind intended for public use, is proposed.

B. Specific Situations Not Requiring a Plat

1. C.A division of land created by order of a court of competent jurisdiction, including the probate of an estate provided, however, that prior to construction of improvements, a plat may be required in accordance with this Cchapter.
2. D.Construction of additions or alterations to an existing building where no public utility extension or public improvement is required to meet the standards of this Code for such building addition or alterations.
3. E.Operation of existing cemeteries complying with all state and local laws and regulations.
4. F.Acquisition of land by the City, Ccounty, or Sstate for public improvements, as defined in this Code, by dedication, condemnation, or easement.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.15.030. 3.15.03.Certification Rregarding Compliance with Plat Requirements

An application for certification of compliance with the platting requirements of this Cchapter may be submitted for an existing tract of land or proposed division of land within the City's jurisdiction, but shall be required for tracts of land created via the exemptions outlined in SubsectionsSection **3.15.020.A** above—**B**. In compliance with Local Government Code § 212.0115, the Director, or their designee, shall provide written determination of the following:

A. Whether a plat is required under this Cchapter for the tract of land or the proposed division of land or whether an exemption to platting under **Section 3.15.020. Exemptions from Required Plat** applies; and

B. If a plat is required, whether a plat has been reviewed and approved by the applicable approving body.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.15.040. 3.15.04.Plat Types

The following table summarizes the types of plats required by this Code as well as their corresponding process. Also see the Summary of Review Authority table in **Section** 2.01.0202.01.020 of this Code for the decision-making authority for each plat type. When a proposed division is subject to more than one description within a plat type, the more restrictive process is applicable.

Table 3.08.030:3.15.040-1. Plat Summary

Plat Type	Description	Public Hearing	Expiration
Preliminary Plat	Required when the extension of public infrastructure, including public utilities and roadways, is required or proposed	No	24 months from approval date unless Final Plat recorded within that time. Phased Preliminary Plats expire 24 months from date last Final Plat recorded.
	Preliminary Plat that includes existing platted property	See Replat	
	Amendment to approved Preliminary Plat	No	Maintains expiration date of original Preliminary Plat being amended

Plat Type		Description	Public Hearing	Expiration
Recording Plats	Final Plat	Final Plat of approved Preliminary Plat	No	Must be recorded within 24 months from approval date
		Plat with more than 4 lots, but with no required or proposed public infrastructure	No	
		Combined Preliminary and Final Plat is available when plat that could qualify as Minor Plat requires land or utility dedication	No	
		Final Plat that proposes qualified Minor Deviations from the approved Preliminary Plat	No	
		Final Plat that proposes qualified Major Deviations from the approved Preliminary Plat	No	
		Final Plat processed concurrently with Subdivision Waiver	No	
	Minor Plat	Plat involving 4 or fewer lots that does not require or propose public infrastructure or land or utility dedication	No	Must be recorded within 24 months from approval date
		Minor Plat processed concurrently with Subdivision ~~Variance~~Waiver	No	
	Replat	A resubdivision of all or part of an existing plat, involving more than 4 lots	Yes	Must be recorded within 24 months from approval date
		A resubdivision of all or part of an existing plat, involving 4 lots or less (non-residential)	No	
		A Replat involving property that is or has been subject to single or two-family restrictions or zoning within last 5 years	Yes	
		A Replat that is processed concurrently with a Subdivision Waiver	No	

Plat Type		Description	Public Hearing	Expiration
	Amending Plat	Plat meeting the standard qualifications of Amending Plat (i.e. corrections to previous plat, moving lot line, etc.)	No	Must be recorded within 24 months from approval date

~~(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)~~

3.15.050. ~~3.15.05.~~Submission Requirements

The applicant shall submit the information required in the UDC Development Manual as specified in the corresponding plat application checklist. A plat application is considered filed for the purposes of Texas Local Government Code § 212.004(f) on the date the applicant submits the plat, along with a completed plat application and the application fees and all required documentation prescribed by or under this ~~Code~~UDC and Texas Local Government Code Chapter 212, subject to **Section 3.02.040. Determination of Application Completeness** within this ~~c~~Code. The final copy of Preliminary and Recording Plats shall be prepared and submitted by the applicant in conformance with the UDC Development Manual.

~~(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)~~

3.15.060. ~~3.15.06.~~ Staff Review

A. The Director may establish procedures for administrative review of plat applications necessary to ensure compliance with this Code and ~~S~~state law.

B. The Director may assign staff to review the plat application and make a report to the Director.

C. Once the Director determines the application has been filed, the Director shall either approve, conditionally approve, or disapprove the application.

D. If an application is disapproved or conditionally approved, the Director shall provide the applicant with a written statement of the conditions for the conditional approval or reasons for disapproval that clearly articulates each specific condition for the conditional approval or reason for disapproval.

~~(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)~~

3.15.070. ~~3.15.07.~~Preliminary Plats

A. Applicability

1. Approval of a Preliminary Plat, showing the proposed layout of the subdivision, shall be required before approval of any division of land or platting activity that requires or proposes the extension of public infrastructure, including, but not limited to, public utilities and roadways.

2. Any Preliminary Plat that includes the further subdivision of all or part of a recorded plat that has not otherwise been vacated, must also follow the procedures set forth for Replats as outlined in **Subsection 3.15.070.D** below.

B. Unlawful to Record Preliminary Plat

It shall be unlawful to cause any Preliminary Plat of land within the ~~C~~city limits or extraterritorial jurisdiction of Georgetown to be recorded with the County Clerk except as otherwise established for a combined Preliminary and Final Plat.

C. Approval Criteria

1. No Preliminary Plat shall be approved without a determination that the plat conforms to the following:
   a. The Plat meets or exceeds the requirements of this Unified Development Code and any applicable local or State laws.
   b. The Plat is consistent with the City's Comprehensive Plan and any other adopted plans as they relate to:
      (i) The City's streets, sidewalks, alleys, parks, playgrounds, and public utility facilities; and
      (ii) The extension of the City or the extension, improvement, or widening of its roads, taking into account access to and extension of sewer and water mains and the instrumentalities of public utilities.
   c. Any subdivision design and improvement standards adopted by the City pursuant to Texas Local Government Code § 212.002 or § 212.044, governing plats and subdivision of land within the City's jurisdiction to promote the health, safety, morals, or general welfare of the City and the safe orderly, and healthful development of the City.
   d. The tract of land subject to the application is adequately served by public improvements and infrastructure or will be adequately served upon completion by the applicant of required improvements.
2. Phasing Plan

   In lieu of recording the entirety of a proposed division of a property at one time, and therefore constructing all public improvements required by the division at once, an applicant may propose a plan for phasing the subdivision as follows:
   a. The Phasing Plan shall indicate the boundaries and order of final platting and construction of associated improvements.
   b. Phasing Plans shall not propose more than ten10 phases. The Director may approve phasing in excess of this number if the applicant can provide justification for such. The number of phases herein is exclusive of any increase in phases due to the splitting of phases as allowed per **Subsection 3.15.080.B.1.c** below.
   c. Each proposed phase of a Phasing Plan for a single-family residential development shall include at least four lots, except that lots shown on a Phasing Plan for nonresidential uses, such as lots for parkland, neighborhood amenity centers, or commercial out lots, or any similar uses as determined by the Director, may be shown as a single lot phase.
   d. The proposed order of phasing shall follow a logical progression and, in the event subsequent phases are not built, meet the minimum requirements of this Code, including, but not limited to, public infrastructure, parkland dedication, connectivity, and dedication of adjacent street rights-of-way.
   e. Changes to a Phasing Plan shall meet the requirements of this section and follow the procedures for such as permitted in **Subsection 3.15.070.F** and **Subsection 3.15.080.B.1.c** below.

D. Responsibility for Final Action

1. Final Action Authority, according to UDC 2.01.020**Table 2.01.020-1. Summary of Review Authority**, shall consider the Preliminary Plat application, the Director's report, State law, and compliance with this Unified Development Code, and take final action.
2. The Final Action Authority shall either:
   a. Approvale of the Preliminary Plat;
   b. Conditionally approvale of the Preliminary Plat; or

c. Disapprove the Preliminary Plat.

E. Expiration of Preliminary Plat

1. A Preliminary Plat that is proposed to be developed in a single phase shall become null and void 24 months after its approval unless a Final Plat is recorded for the entire area included in the Preliminary Plat within that time.

2. A Preliminary Plat that includes an approved Phasing Plan shall become null and void 24 months after its approval unless a Final Plat for the first phase is recorded within that time. The recording of a Final Plat for the first phase of the project shall extend the expiration date for the remaining portion of the original Preliminary Plat for a period of 24 months after the date of recordation of the Final Plat. Recordation of each subsequent Final Plat within 24 months of the date of recordation of the preceding Final Plat shall extend the expiration date for the portion of the original Preliminary Plat for which no Final Plats have been approved for an additional 24 months from the date of recordation of such Final Plat.

   a. Each 24-month extension period for the expiration of the original Preliminary Plat runs from the date of the latest Final Plat recordation. Extension periods are not cumulative.

   b. If a Final Plat is not recorded during the 24-month extension period, the approval of the original portion of the Preliminary Plat that has not been recorded, together with any unrecorded Final Plat applications or Construction Plans, lapses.

F. Changes to Approved Preliminary Plats

Changes to an approved Preliminary Plat that do not otherwise qualify as a deviation to the approved Preliminary Plat as defined in **Subsection 3.15.080.B.1.c** below, shall be processed as either an amendment to the original Preliminary Plat or as a new Preliminary Plat application as follows:

1. Changes to a Preliminary Plat may be processed as an amendment to the original Preliminary Plat if:

   a. The proposed amendment does not alter the purpose and intent of the original Preliminary Plat (i.e., commercial subdivision, single-family residential large lot subdivision);

   b. The general design and layout of the original Preliminary Plat is maintained;

   c. The proposed development density does not substantially increase or decrease; and

   d. The amendment does not propose the removal or addition of an arterial-level roadway.

2. The Director shall review the proposed changes, including any changes to the Phasing Plan, in the same manner prescribed for the original Preliminary Plat approval.

3. The Final Action Authority shall consider and take final action on an amendment to a Preliminary Plat in the same manner prescribed for the original Preliminary Plat approval.

4. Approval of a Preliminary Plat amendment shall not cause the expiration date established with the original Preliminary Plat approval to be extended.

5. The development regulations in effect for the original Preliminary Plat approval shall be applicable to the Preliminary Plat amendments.

6. All other changes to an approved Preliminary Plat that do not meet the provisions of this section, as determined by the Director, shall require submittal and approval of a new Preliminary Plat application (including new fees, new review process, new approval dates, etc.).

~~*(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

3.15.080. 3.15.08.Recording Plats

Recording Plats are those Subdivision Plats that are to be a document of legal record and include Final Plats, Minor Plats, Replats, and Amending Plats.

A. Approval of Recording Plats

Recording plats shall be processed in accordance with **3.03.050.C. Administrative Final Action**. Final Action Authority shall be as noted in 2.01.020 of this CodeTable 2.01.020-1. Summary of Review Authority.

B. Final Plats

1. Applicability

Final Plats are technically complete, recordable versions of an already approved Preliminary Plat. Except as otherwise noted within this section, no Final Plat may be considered or approved unless the Preliminary Plat for the same land has been approved and has not expired and the Final Plat is consistent with such Preliminary Plat or revision thereof. The Final Plat must incorporate all changes from the Preliminary Plat that were considered and approved by the Planning and Zoning Commission or the Director. Final Plat review is used to ensure that a final recorded plat application includes final engineering diagrams and descriptions that conform to the Preliminary Plat and the "as-built" infrastructure on the site. Exceptions to these requirements are allowed as follows:

a. No Public Infrastructure Proposed. A Final Plat may be approved without approval of a Preliminary Plat for the same project if the division of land would otherwise qualify as a Minor Plat, but proposes more than four lots. A Final Plat under this provision may not include the dedication of land or require or propose the extension of any public infrastructure, including, but not limited to, public utilities or roadways.

b. Combined Preliminary and Final Plat Option.

(i) Any division of land or platting activity that requires any of the following, but would otherwise meet the definition of a Minor Plat, may be processed as a combined Preliminary and Final Plat, subject to the criteria of this section and **Section 3.15.070. Preliminary Plats**.

(a) Any utility dedication; or

(b) Any dedication of land.

(ii) The Director shall have the authority to determine if a plat meets the criteria to be processed as a combined Preliminary and Final Plat.

c. Deviations from the Approved Preliminary Plat.

(i) Minor Deviations. During review of the Final Plat, the Director may consider and approve minor deviations from what was proposed on the approved Preliminary Plat. Deviations that affect another proposed phase of the Preliminary Plat or that affect property off-site of the Preliminary Plat or any deviations that increase the density of development shall not be considered minor. The deviations shall meet any approval criteria applicable to the approved Preliminary Plat. A draft of the proposed changes to the Preliminary Plat shall be provided to the Planning Department as part of the application submission for the Final Plat. Approval by the Director of such Final Plat shall be considered approval of the amendments to the Preliminary Plat and shall cause an updated final copy of the Preliminary Plat to be provided to the Planning Department prior to recordation of the Final Plat. The Director may, at their discretion, choose to send proposed deviations to the Planning and Zoning Commission for their consideration and final action.

The following deviations from the Preliminary Plat may be considered minor:

(a) Adjustments in alley, local, or collector street alignments or widths that do not affect another proposed phase of the Preliminary Plat or adjacent property;

(b) Changes to the lot lines, sizes, or configuration provided that the total number of lots does not increase and the changes do not affect approved infrastructure;

(c) Decreases in the number of lots by up to ten percent (10%) or one lot, whichever is greater, provided any minimum density requirements continue to be met, if applicable;

(d) The splitting of a proposed phase of the Preliminary Plat into two phases if the separation does not affect access or utilities to a later phase;

(e) The combining of adjacent proposed phases of the Preliminary Plat;

(f) A change in the order of adjacent phases of the Preliminary Plat, provided adequate public infrastructure is available and is maintained for subsequent phases; and

(g) Other similar changes as determined by the Director.

(ii) Major Deviations from the Aapproved Preliminary Plat. The deviations shall meet any approval criteria applicable to the approved Preliminary Plat. A draft of the proposed changes to the Preliminary Plat shall be provided to the Planning Department as part of the application submission for the Final Plat. Approval of such Final Plat shall be considered approval of the amendments to the Preliminary Plat and shall cause an updated final copy of the Preliminary Plat to be provided to the Planning Department prior to recordation of the Final Plat.

The following deviations from the Preliminary Plat are considered major:

(a) Adjustments in arterial roadway alignments or widths that do not affect another proposed phase of the Preliminary Plat or property off-site;

(b) Adjustments to lot lines, sizes, or configurations that do not increase or decrease the total number of lots by more than ten percent (10%) or one lot, whichever is greater;

(c) Modification to proposed parkland;

(d) Changes in the location of the boundary line of a phase of the Preliminary Plat to include part of another phase, provided no change in the layout of the streets and lots of adjacent phases is required;

(e) Reordering of proposed phases of the preliminary plan, provided adequate public infrastructure is maintained and the reordering does not affect planned infrastructure off-site; and

(f) Other similar changes as determined by the Director.

(iii) All Other Changes. All other changes that affect property off-site of the Preliminary Plat, or otherwise do not fall within the limitations herein, shall not be processed as deviations and shall follow the procedures of **Subsection 3.15.070.F. Changes to Approved Preliminary Plats**.

(iv) Determination. The Director shall make a determinatione of whether proposed deviations are deemed to be minor or major.

2. Approval Criteria

A Final Plat shall not be considered for final action until the Director has determined the following:

a. The Final Plat is acceptable for consideration, meaning the application is complete and the information contained within the application is correct and sufficient to allow adequate consideration and final action.

b. The Final Plat is consistent with an approved Preliminary Plat, except as provided for in **Subsection 3.15.080.B.1. Applicability**.

c. The Final Plat is consistent with any City-approved Construction Plans for any required or agreed improvements.

d. The Final Plat meets any subdivision design and improvement standards adopted by the City pursuant to Texas Local Government Code § 212.002, governing plats and subdivision of land within the City's jurisdiction to promote the health, safety, morals, or general welfare of the City and the safe, orderly, and healthful development of the City.

e. The tract of land subject to the application is adequately served by public improvements and infrastructure, including water and wastewater, or will be adequately served upon completion by the applicant of required improvements.

C. Minor Plats

1. Applicability

a. A Minor Plat is a plat for four or fewer lots fronting on an existing street and not requiring the creation of any new street or the extension of municipal facilities and not otherwise considered a Replat or Amending Plat.

b. Any plat that requires public improvements per this Unified Development Code, any utility dedication or any dedication of land shall not be processed as a Minor Plat and shall be processed in accordance with **Section 3.15.070** or **3.15.080.B.1.b**, as applicable.

2. Approval Criteria

A Minor Plat shall not be considered for final action until the Director has determined the following:

a. The Minor Plat is acceptable for consideration, meaning the application is complete and the information contained within the application is correct and sufficient to allow adequate consideration and final action.

b. The plat meets or exceeds the requirements of this Unified Development Code and any applicable State or local laws.

c. The plat is consistent with the City's Comprehensive Plan and any other adopted plans as they relate to:

(i) The City's streets, sidewalks, alleys, parks, playgrounds, and public utility facilities; and

(ii) The extension, improvement, or widening of City roads, taking into account access to and extension of sewer and water mains and the instrumentality of public utilities.

d. The plat meets any subdivision design and improvement standards adopted by the City pursuant to Texas Local Government Code § 212.002, governing plats and subdivision of land within the City's jurisdiction to promote the health, safety, morals, or general welfare of the City and the safe, orderly and healthful development of the City.

e. The tract of land subject to the application is adequately served by public improvements and infrastructure.

f. A Subdivision ~~Variance~~Waiver may be requested as a companion application to the consideration of a Minor Plat, according to the provisions detailed in **Section 3.16. Subdivision Waiver** of this Code. The Subdivision ~~Variance and the Minor Plat~~ Waiver shall be required to be approved by P&Z.

D. Replats

1. Applicability

A property owner who proposes to further subdivide all or part of a recorded plat, without first vacating that plat, must obtain approval for a Replat as outlined in the procedures prescribed for the resubdivision of land under these regulations and Texas Local Government Code cChapter 212.

2. Approval Criteria

-A Replat shall not be considered for final action until the Director has determined the following:

a. The Replat is acceptable for consideration, meaning the application is complete and the information contained within the application is correct and sufficient to allow adequate consideration and final action.

b. The plat meets or exceeds the requirements of this Unified Development Code and any applicable Sstate or local laws.

c. The plat is consistent with the City's Comprehensive Plan and any other adopted plans as they relate to:

(i) The City's current and future streets, sidewalks, alleys, parks, playgrounds, and public utility facilities; and

(ii) The extension, improvement, or widening of City roads, taking into account access to and extension of sewer and water mains and the instrumentality of public utilities.

d. The plat meets any subdivision design and improvement standards adopted by the City pursuant to Texas Local Government Code § 212.002 or § 212.044, governing plats and subdivision of land within the City's jurisdiction to promote the health, safety, morals, or general welfare of the City and the safe, orderly, and healthful development of the City.

e. The tract of land subject to the application is adequately served by public improvements and infrastructure.

f. A Subdivision Waiver may be requested as a companion application to the consideration of a Replat, according to the provisions detailed in **Section 3.16. Subdivision Waiver**. The Subdivision Waiver and the Replat shall be required to be approved by P&Z.

g. A Replat may not amend or remove any covenants or restrictions and is controlling over the preceding plat.

3. Responsibility for Final Action

-Final Action Authority shall be as noted in 2.01.020**Table 2.01.020-1. Summary of Review Authority**.

4. Additional Requirements for Certain Replats

Replats containing any area or lot that, during the preceding five (5) years, was limited by an interim or permanent zoning classification to residential use for not more than two (2) residential units per lot or in the preceding plat was limited by deed restrictions to residential use for not more than two residential units per lot, require compliance with Texas Local Government Code § 212.015 and shall meet the additional requirements outlined below.

a. Where a variance or exception is required, Wwritten notice of the Public Hearing required in Subsection **3.15.080.D.3** above shall be mailed, in accordance with Subsection **3.03.010.D. Mailed Notice**, no less than 15 days prior to the Ppublic Hhearing, to all owners of lots that are part of the original subdivision and located within 200 feet of the boundary of the property to be replatted.

b. Where a variance or exception is not required, a public meeting is not required and written notice shall be provided no less than 15 days after the date the replat is approved, to all owners of lots that are part of the original subdivision and located within 200 feet of the boundary of the property to be replatted. Such notice must include the zoning designation of the property after the replat, and a telephone number and e-mail address an owner of a lot may use to contact the municipality about the replat.

c. b. If the Replat application is accompanied by a Subdivision Waiver application, per **Section 3.16. Subdivision Waiver**, and is legally protested in accordance with this section, approval of the Replat shall require the affirmative vote of at least three-fourths of the voting members of the Planning and Zoning Commission present at the meeting. For purposes of this section, a protest is legal if it is made in writing and signed by the owners of at least 20 percent (20%) of the area of the lots or land (including streets and alleys) that was subject to the written notification required above and filed with the Commission prior to the close of the Public Hhearing on the Replat.

E. Amending Plats

1. Applicability

An Amending Plat is any plat meeting the definition in Texas Local Government Code § 212.016.

2. Approval Criteria

An Amending Plat shall not be considered for final action until the Director has determined the following:

a. The Amending Plat is acceptable for consideration, meaning the application is complete and the information contained within the application is correct and sufficient to allow adequate consideration and final action.

b. The plat meets the requirements of Texas Local Government Code § 212.016.

c. The plat meets or exceeds the requirements of this Unified Development Code and any applicable State law.

d. The plat is consistent with the recorded subdivision it is amending.

F. Recordation Requirements for Recording Plats

1. The Recording Plat is the instrument to be recorded in the Office of the County Clerk when all requirements have been met. The plat is ready for recordation only after the following has occurred:

a. The Director or the Planning and Zoning Commission has approved the plat;

b. For Final Plats, the Development Engineer has approved the Construction Plans;

c. For Final Plats, the subdivider has either filed a "financial guarantee of performance" or completed required construction of infrastructure and public improvements;

d. The Director or the Chair and Secretary of the Planning and Zoning Commission have signed the plat; and

e. Support documentation, as required by the County Clerk's office for plat recordation, has been provided to the Planning Department, including the filing fees.

2. The subdivider shall be responsible for paying all record filing fees

G. Expiration of Recording Plats

An approved Recording Plat that has not been filed in the appropriate records of Williamson County within 24 months of its approval shall expire and be considered null and void.

H. Vacation of Recorded Plat

In accordance with Texas Local Government Code § 212.013, after a plat has been recorded with the Ccounty, the plat or any portion of the plat may be vacated by application of all the owners of property within the original

plat in the same manner as would be currently prescribed under this Code for approval of the original plat (i.e., Administrative, Public Hearing required, etc.).

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.15.090. 3.15.09.Extension of Approved Subdivision Plats

A. Prior to expiration of an approved Subdivision Plat, including Preliminary Plats and RecordingFinal Plats, an applicant may request a one-time extension of the Subdivision Plat approval for a period of six months if the Director determines such extension will have no negative impacts on the surrounding area and would not be contrary to the public interest. Approval of an extension for a Final Plat that is subject to the requirement for a Preliminary Plat may only be granted if the approval of the Preliminary Plat for such is also extended, if applicable.

B. The Director shall have the authority to determine if a Subdivision Plat Eextension meets the criteria for processing and approval.

(Ord. No. 2017-15, § 2, 2-28-2017)

Editor's note(s)—Ord. No. 2017-15, § 2, adopted February 28, 2017, changed the title of Section 3.08.090 from "Extension and Reinstatement of Approved Subdivision Plats" to "Extension of Approved Subdivision Plats.".

3.15.100. 3.15.10.Construction Plans

A. Applicability

Construction Plans conforming to the City's Construction Specifications and Standards Manual and this Code must be submitted to the Development Engineer for all existing or proposed streets, sidewalks, drainage, and utility improvements, and any other infrastructure or public improvements that are required or proposed to be constructed, reconstructed, improved or modified to serve the development. Where the Final Plat is for property being developed in phases, the required Construction Plans must include the improvements specified in the Preliminary Plat to serve the phase being platted. The Construction Plans are intended to provide detailed engineering drawings for all improvements required to serve the development. The Construction Plans shall be kept as a permanent record of the City.

B. Construction or Financing of Public Improvements

1. After approval of a Preliminary Plat or a Combined Preliminary and Final Plat Option, the subdivider shall notify the Development Engineer as to the construction procedure the subdivider proposes to follow. One of the following procedures shall be used:

   a. The subdivider may file Construction Plans, and, upon approval of the Construction Plans by the Development Engineer, proceed with construction of streets, alleys, sidewalks, and utilities that the subdivider is required to install.

   b. The subdivider may elect to file a "financial guarantee of performance" as provided in Section 13.08Section 15.09, in which case the guarantee of performance shall be filed with the City.

2. Upon completion of construction the subdivider shall deliver to the City a two-year Maintenance Bond for guarantee of workmanship and materials as provided in **Section** 13.09.15.02.040.

   3. A conditional construction permit for a model home may be issued once the streets to the subdivision have been constructed to sub-grade and water service and a fire hydrant are located

~~within 500 feet of the lot on which the model home is located. The Building Official shall note on the permit that the property owner accepts all responsibility for commencing construction prior to completion of the public improvements and City acceptance of the subdivision. The Certificate of Occupancy for the model home will not be issued until the subdivision and all public improvements have been accepted by the City, a Final Plat has been filed with the County, and all utilities are connected to the home.~~

3. ~~4.~~The construction documents, when duly signed by the Development Engineer, are authority to proceed with the construction of streets and utilities.

C. Responsibility of Subdivider's Engineer

The professional engineer representing the subdivider is responsible for the accuracy, completeness, and conformance to the City's Construction Specifications and Standards Manual, this Code, and~~,~~ all applicable City standards. The City has no project design or engineering responsibility.

D. Approval Criteria

The purpose of the Development Engineer's review is to ensure conformance to City policies and standards. However, the Development Engineer's review is limited to facts as presented on submitted plans.

1. The Development Engineer shall approve Construction Plans that are submitted and sufficiently show compliance with any City-approved or adopted design or construction criteria manuals or, in the absence of City-approved or adopted design requirements, standard engineering practices.
2. The City reserves the right to require corrections to actual conditions in the field that are found to be contrary to or omitted from submitted plans.
3. The Development Engineer shall not approve Construction Plans that do not adequately represent construction of the approved infrastructure and public improvements included in the approved Preliminary Plat or ~~Preliminary~~ Final Plat.
4. Construction Plans shall not be approved until an Electric Utility Services Availability Letter, as defined in this Code, has been submitted to the City.

E. Responsibility for Final Action

Final Action Authority shall be as noted in **Section** ~~2.01.020.~~ 2.01.020.

~~*(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-40 , § 2(Exh. A), 5-12-2020; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

Section 3.16. Subdivision Waiver

3.16.010. ~~3.16.01.~~Applicability

A waiver of certain subdivision standards of this Code, as provided for within this Code, may be considered concurrently with a Preliminary Plat, Final Plat, Minor Plat, or Replat to address unforeseen circumstances or other difficulties in developing a property under the specific provisions of this Code. A Subdivision Waiver application may be filed without a companion plat application in very limited circumstances if the granting of the waiver would eliminate the requirement of the plat, as determined by the Director.

~~*(Ord. No. 2017-15, § 2, 2-28-2017)*~~

3.16.020. ~~3.16.02.~~Initiation

Initiation of the Subdivision Waiver may be made upon submittal of a complete application by a property owner or their designated agent.

~~(Ord. No. 2017-15, § 2, 2-28-2017)~~

3.16.030. ~~3.16.03.~~Application and Completeness Determination

The applicant shall submit all the information required in the UDC Development Manual. The Director is responsible for determining the completeness of an application submitted, pursuant to **Section 3.02.040. Determination of Application Completeness**.

~~(Ord. No. 2017-15, § 2, 2-28-2017)~~

3.16.040. ~~3.16.04.~~Staff Review

A. The Director shall review the application, consider applicable criteria for approval, and prepare a report to the Planning and Zoning Commission.

B. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and state statute.

C. The Director may assign staff to review the application and make a report to the Director.

D. The Director's report may include a recommendation for final action.

~~(Ord. No. 2017-15, § 2, 2-28-2017)~~

3.16.050. ~~3.16.05.~~Planning and Zoning Final Action

Following notice in accordance with **Section 3.03. Public Hearing and Notice**, the Commission shall hold a public hearing in accordance with its rules and state law and consider the Subdivision Waiver, Director's report, state law, and compliance with this Code, and take final action. Approval of a Subdivision Waiver shall require a super-majority vote of the members present. Any approved Subdivision Waiver shall be noted on all corresponding plats, if applicable.

~~(Ord. No. 2017-15, § 2, 2-28-2017)~~

3.16.060. ~~3.16.06.~~Approval Criteria

A Subdivision Waiver may be approved, conditionally approved, or disapproved. At least four of the following factors are required for approval:

A. That the granting of the waiver will not be detrimental to the public health, safety, or welfare or injurious to other property in the area or to the City in administering this Code.

B. That the granting of the waiver would not substantially conflict with the Comprehensive Plan and the purposes of this Code.

C. That the conditions that create the need for the waiver do not generally apply to other property in the vicinity.

D. That application of a provision of this Code will render subdivision of the land impossible.

E. Where the literal enforcement of these regulations would result in an unnecessary hardship.

~~(Ord. No. 2017-15, § 2, 2-28-2017)~~

3.16.070. ~~3.16.07.~~Expiration of Subdivision Waiver

The Subdivision Waiver shall expire if the corresponding plat expires, according to the timing specified in **Section 3.15. Subdivision of Land**.

~~*(Ord. No. 2017-15, § 2, 2-28-2017)*~~

Section 3.17. Site Development Plan

3.17.010. ~~3.17.01.~~Applicability

A. An approved, valid Site Development Plan is required prior to the construction, expansion, or removal of any improvements to a property, as defined in ~~Section 16.2~~**Section 18.02** of this Code and including driveways, sidewalks, drainage structures, and utility improvements, within the City's limits, except as follows:

1. Single-family and Two-family structures, including related accessory structures~~,~~ and fences on individually platted lots; and
2. Agricultural buildings for the purposes of farming, ranching, or sheltering of animals.
3. Improvements covered by a Temporary Use Permit that do not add impervious cover.

B. All improvements reflected on approved Site Development Plans must be constructed at the time of development. All terms and conditions of Site Development Plan approval must be met at the time of development.

C. The Site Development Plan may not be approved unless the lot on which the improvements are proposed is legally platted or the subject tract is determined to be exempt from the platting requirements of **Section 3.15. Subdivision of Land**.

D. Where Site Development Plan approval is required, no Building Permit approval shall be issued and no site construction shall be allowed until such property has received final Site Development Plan approval and is in conformity with the provision of this Code except through a ~~Grading~~Stormwater Permit. A ~~Grading~~Stormwater Permit, processed and reviewed with the Site Development Plan, may be considered by the Development Engineer for vegetation clearing and site grading. Such a permit may be issued at the discretion of the Development Engineer for specific activities such as understory removal and rough grading, and shall not include removal of protected trees, utility work, paving, or foundation. The Development Engineer may revoke the permit and issue a stop-work order if non-compliant.

E. The provisions of this ~~S~~section relating to Site Development Plans are adopted in accordance with the Texas Local Government Code ~~c~~Chapter 211 and the City Charter.

~~*(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017)*~~

3.17.020. ~~3.17.02.~~Review Process

Review of a Site Development Plan shall follow the procedures set forth in **Section 3.03.050. Administrative Review Process** for administrative review and shall be processed as follows:

A. Application Completeness

1. The applicant shall submit all of the information required in the UDC Development Manual as specified on the Site Development Plan application checklist.
2. The Director shall determine that a complete application has been submitted with all material necessary to review the Site Development Plan's conformance with applicable criteria for approval.

B. Staff Review

1. The Director shall review the application, consider~~ing~~ any applicable criteria for approval, and notify the applicant of any necessary corrections.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and state statutes.
3. The Director may assign staff to review the application.

C. Responsibility for Final Action

Final Action Authority shall be as noted in **Section** ~~2.01.020~~2.01.020 of this Code.

~~(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)~~

3.17.030. ~~3.17.03.~~Criteria for Approval

A Site Development Plan shall be approved if it is in compliance with the following criteria:

A. A complete application and fee have been submitted.

B. The application and content of the application are consistent with the provisions of this Unified Development Code, the Comprehensive Plan, and any other applicable City regulations.

C. The application and content of the application are consistent with the UDC Development Manual, City's Construction Specifications and Standards Manual, this Code, and any written interpretations of this Code.

D. Site Development Plans may not be approved on any parcel of land not otherwise in conformance with ~~Section 3.08~~Section 3.15 of this ~~C~~chapter.

E. Compliance with any approved plat, Development Agreement, or other agreement or ordinance governing the parcel of land to which the Site Development Plan is related.

F. Compliance with any additional Site Development Plan approval criteria required for Overlay Districts or any Site Development Plan approval criteria adopted as part of a special area plan.

G. Prior to final approval of any plan within the ~~C~~city ~~L~~limits, the applicant must certify to the Drainage Engineer that all City Drainage Manual requirements for a Stormwater Permit are met by the Site Development Plan. Approval of the Site Development Plan constitutes approval of the Stormwater Permit.

H. The Site Development Plan shall conform to standard engineering practices and must be sealed by a ~~P~~professional ~~E~~engineer licensed in the State of Texas, except as otherwise provided for in this ~~S~~section.

I. The materials, embedment, and testing of all private main utility lines ~~six~~6 inches and above in diameter shall meet the requirements of the City's Construction Specifications and Standards Manual and/or the approved City Building Codes.

J. An Electric Utility Services Availability Letter, as defined in this Code, has been submitted to the City.

~~(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-40 , § 2(Exh. A), 5-12-2020)~~

3.17.040. ~~3.17.04.~~Components of a Site Development Plan

All Site Development Plans shall include the following components demonstrating compliance with the provisions of this Code and the UDC Development Manual, unless otherwise provided for within this ~~S~~section:

A. Cover Sheet;

B. Dimensional Site Plan;

C. Architectural Plan;

D. Lighting Plan;

E. Landscape Plan;

F. Tree Preservation Plan;

G. Utility Plan;

H. Grading Plan; and

I. Drainage Plan.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.17.050. 3.17.05.Site Development Plan Area of Development

A Site Development Plan shall include the entire area within the legal boundaries of the tract for which it is proposed; however, the area included in a Site Development Plan may be reduced to reflect the actual area of development in the situations listed below.(i.e., The "actual area of development" refers to the portion of the tract that is planned to experience construction, expansion, or removal of any improvements to a property) in the situations listed below. The new artificial boundary shall be the same used for all components of the Site Development Plan and shall be scaled such that all requirements applicable to the Site Development Plan can be met within that boundary.

A. The area of development is part of a much larger tract whereby the area encompasses less than fifty percent (50%) of the total tract;

B. The proposed improvements are part of a larger campus where the areas are designed to function relatively independent of each other;

C. The excluded area is to remain undeveloped and in its natural state;

D. The improvements are proposed to be added to an existing site, provided:

1. No improvements are proposed to the excluded area;

2. Review of the excluded area is not necessary for review of the area of development;

3. The improvements proposed within the area of development are not dependent on improvements located within the excluded area; and

4. No retrofitting of existing site improvements is required pursuant to the provisions applicable to the expansion of a nonconforming structure or site in Chapter 14Chapter 16; and

E. Other similar circumstances, as determined by the Director.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.17.060. 3.17.06.Site Development Plan Phasing

When development is proposed for a larger site with multiple buildings, an applicant may choose to partition the site and construct the improvements in a series of phases as follows:

A. The Site Development Plan submittal shall include a Phasing Plan indicating the boundaries of each phase and the order of construction of associated site improvements.

B. No Phasing Plan shall propose more than five phases or exceed a period of ten10 years. The Director may approve phasing in excess of this number if the applicant can provide justification for such.

C. The proposed order of phasing shall follow a logical progression and, in the event subsequent phases are not built, must meet the minimum requirements of this Code, including, but not limited to, parking, landscaping, tree mitigation, fire access, and stormwater management.

D. Changes to a Phasing Plan shall meet the requirements of this Ssection and follow the procedures established for revisions of Site Development Plans.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.17.070. 3.17.07.Minor Site Development Plan

Where the scope of required or proposed site improvements is limited, as herein defined, a Minor Site Development Plan review process may be utilized subject to the provisions below.

A. Determination of Minor Site Development Plan Review

1. A Minor Site Development Plan submittal may be considered when the extent, type, or size of the site improvements is such that review of all standard Site Development Plan components, as identified in **Section 3.17.040. Components of a Site Development Plan**, is not necessary, as determined by the Director. Typical situations qualifying for Minor Site Development Plan review may include, but not be limited to, improvements required by Chapter 14Chapter 16 due to a change in use, a small addition to a building over existing impervious coverage, installing parking lot striping on an existing parking lot, replacement of a site's landscaping, or where only one component of a Site Development Plan, as outlined in **Section 3.17.040. Components of a Site Development Plan**, is required.
2. A Minor Site Development Plan review shall not be utilized when:
    a. Site improvements are proposed to a property where no development has otherwise occurred, except in unique situations as determined by the Director;
    b. The proposed project requires preparation of a Traffic Impact Analysis (TIA);
    c. The proposed project requires preparation of a stormwater drainage study, although some drainage information may be reviewed as part of a Minor Site Plan;
    d. A new building(s) in excess of 1,000 square feet is proposed;
    e. A building addition that increases impervious coverage is proposed in excess of 1,000 square feet or twenty percent (20%) of the existing building's square footage, whichever is less;
    f. The intended project requires or proposes more than six parking spaces; or
    g. Similar situations are proposed as determined by the Director.

B. Components of a Minor Site Development Plan

The components required with a Minor Site Development Plan application shall be those determined by the Director to be applicable to the particular situation and necessary to verify the conformance of the proposed site improvements with the provisions of this Code. The Director may determine an engineer is not required to prepare the plans under the Minor Site Development Plan provisions if the proposed improvements do not warrant such.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.17.080. 3.17.08.Revisions to Approved Site Development Plans

Any modifications to an approved Site Development Plan must be resubmitted to the Director for consideration as follows:

A. Modifications to an approved Site Development Plan that do not substantially change the design or nature of the original Site Development Plan and have no significant adverse impact upon neighboring properties, the public, or persons who will occupy or use the proposed development may be processed as one of the following based upon the scope and impact of the change:

1. A Record Change/Record Drawing; or,

2. A Minor Revision to a Site Development Plan; or,
3. A Site Development Plan Amendment.

An application for modification of a Site Development Plan following the requirements of the UDC Development Manual shall be submitted to the Planning Department identifying the requested revisions and/or modifications.

B. The Director shall publish requirements within the Development Manual for all modifications to approved plans.

C. All other revisions or modifications to an existing Site Development Plan that do not meet the provisions of Subsections **A** or **B** above shall be processed as a new Site Development Plan application.

D. Approval of a new Site Development Plan or Site Development Plan Amendment application shall void the previously approved Site Development Plan. A Minor Revision to a Site Development Plan, or a Record Change/Record Drawing shall directly update and be applied to the original Site Development Plan.

~~*(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)*~~

3.17.090. ~~3.17.09.~~ Expiration

A. A Site Development Plan shall expire 24 months after the date that the Site Development Plan was approved, unless:

1. A Building Permit application has been approved or, if no Building Permit is required, a Certificate of Occupancy has been issued.
2. In case of projects where more than one building or phase is to be built, the applicant may submit a series of Building Permit applications. The first application must be approved within 24 months from the date Site Development Plan approval is granted. Each subsequent application must be approved within 24 months from the date of issuance of a Certificate of Occupancy, conditional or otherwise, by the Building Official for the previous phase of the development.
3. Except as provided for within this ~~S~~section, a lapse of a period greater than those set forth above causes the related approvals or permits to expire and be of no further force and effect. Any further action shall require a new application and approval.

B. Site Development Plan Extension

Prior to expiration of an approved Site Development Plan, an applicant may request a one-time extension of the Site Development Plan approval for a period of 24 months if the Director determines such extension will have no negative impacts on the surrounding area and would not be contrary to the public interest. A request for Site Development Plan extension shall follow the procedures set forth for such in the UDC Development Manual.

C. Site Development Plan Reinstatement

In the event a Site Development Plan approval expires, an applicant may seek a one-time reinstatement of the approved Site Development Plan, without modification, subject to the provisions below. Such reinstatement may be granted by the Director for a period not to exceed 24 months. A request for Site Development Plan reinstatement shall follow the procedures set forth for such in the UDC Development Manual.

1. The reinstatement must be requested within 24 months of the expiration date of the approved Site Development Plan.
2. The regulations applicable to the project per the Code currently in effect may not be determined to be significantly different from those applied to the original approval of the Site Development Plan, such that a new application for the same plan would be substantially the same.
3. The circumstances of the adjacent properties, roadways, and subject property shall have remained the same, so as to not change the requirements applicable to the property. Such circumstances could include,

but not be limited to, a change of zoning in the subject or adjacent properties, a change in the boundary of the subject property, a change in classification of the adjacent roadway, or neighboring construction affecting landscape buffers.

D. The Director shall have the authority to determine if a Site Development Plan Extension or Reinstatement meets the criteria for processing and approval.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

Section 3.18. Development Agreement

3.18.010. 3.18.01.Applicability

A. An application for a Development Agreement pursuant to Section 212.172 of the Texas Local Government Code seeking to modify or delay certain requirements of this Code (including any manuals adopted by reference by this Code) and/or any other provisions of the City Code of Ordinances in order to present an alternative plan for development that could not otherwise be accomplished under this Code or the Code of Ordinances may be filed in accordance with the terms and conditions of this section.

B. This section shall apply to any new agreement and any amendments thereto, as well as to any amendments to an existing Development Agreement.

(Ord. No. 2019-01 , § 2(Exh. A), 1-8-2019; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.18.020. 3.18.02.Review Process

A. Initiation

Initiation of a Development Agreement or an amendment may be made upon:

1. Application of a property owner or their authorized agent;
2. Recommendation of the City Council;
3. Recommendation of the Planning and Zoning Commission or appropriate board or commission; or
4. Recommendation of the Director.

B. Application and Completeness Determination

1. Applications shall be reviewed by a Development Agreement Committee ("Committee") which shall be designated by tThe Director at the time of who will route the application to determine the necessary staff for the particular application.City staff as needed to determine completeness. The Committee will be established based on the functional areas needed in order to appropriately respond to the request being considered. The Committee may consist of the City's Development Engineer, City Attorney, Finance Director, Community Development Director, Planning Director, Planner(s), Systems Engineering Director, Georgetown Utility Systems representative(s), their designees, or any other staff assigned to the Committee.
2. The Committee City staff shall determine completeness of the application no more than 15 working days following submittal of the application. At that time, the CommitteeCity staff shall also assign staff hourly rates, a payment schedule, and determine if the application is consistent with City policies and advances a legitimate City interest; otherwise, the Committee may reject the application may be rejected based on such criteria.

C. Staff Review

1. The CommitteeDirector shall review the application, consider the approval criteria, and assign a project manager to lead the review and prepare a report to the Planning and Zoning Commission and/or appropriate board or commission and City Council.
2. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and State statute.
3. The project manager's report may include a recommendation for final action.

D. Public Notice

Public notice, in the form of mailed, published, and posted notice, shall be required per the notice provisions of this Code, unless the agreement or amendment thereto is determined by the CommitteeDirector to be minor, inconsequential, or otherwise unnecessary for public notice and Public Hearings. If notice is required, the CommitteeDirector shall determine the location and the extent of the notice based on the type and effect of the proposed amendment.

E. Board or Commission Review

The Planning and Zoning Commission or other appropriate board or commission, shall hold a Public Hearing, unless determined unnecessary by the CommitteeDirector, and make a recommendation to the City Council.

F. City Council Final Action

1. The City Council shall hold a Public Hearing, unless determined unnecessary by the CommitteeDirector, and may take final action on the proposed Development Agreement or amendment.
2. The Development Agreement or amendment shall become effective in the manner provided by the City Charter or State law.
3. All outstanding application, staff, and legal fees must be paid in full to the City prior to the adoption of the agreement or amendment.

3.18.030. 3.18.03.Approval Criteria

In determining whether to approve, approve with modifications, or disapprove a proposed Development Agreement or amendment, the City Council shall consider the following matters:

A. The proposed agreement promotes the health, safety, or general welfare of the City and the safe, orderly, and healthful development of the City.

B. The proposed agreement is consistent with the Comprehensive Plan.

Section 3.19. Master Sign Plan

3.19.010. 3.19.01.Applicability

A Master Sign Plan shall be required for all multiple-tenant buildings, Planned Unit Developments, and all multi-building or multi-occupant commercial developments before any signs for such development may be erected on the property. All owners, tenants, subtenants, and purchasers of individual units within the development shall comply with the approved Master Sign Plan.

3.19.020. 3.19.02.Review Process

A. Review of a Master Sign Plan shall follow the procedure set forth in **Section 3.03.050. Administrative Review Process**, save and except a Master Sign Plan for property located in a Historic Overlay District.

B. Review of a Master Sign Plan for property in a hHistoric oOverlay dDistrict shall follow the procedure set forth in **Section 3.265.11. Certificate of Appropriateness**.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

3.19.030. 3.19.03.Criteria for Approval

In addition to the general review criteria in **Section 3.03.050.D. Criteria for Approval—Generally** or **Section 3.265.11. Certificate of Appropriateness** for property in a hHistoric oOverlay dDistrict, , the Building Official or Historic Preservation Officer, as applicable, shall determine the following in order to approve the Master Sign Plan:

A. The plan provides that signs of a similar type and function within the development will have a consistent building material;

B. The plan provides for signs that meet the size limitations, location requirements, and other applicable requirements of this Unified Development Code; and

C. Plans for property located in a hHistoric oOverlay dDistrict shall be in keeping with the adopted Historic District Design Guidelines.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019; Ord. No. 2021-53 , § 5(Exh. D), 7-27-2021)

3.19.040. 3.19.04.Responsibility for Final Action

A. The Building Official is responsible for final action on Master Sign Plans, save and except Master Sign Plans for property located in a hHistoric oOverlay dDistrict.

B. The Historic Preservation Officer is responsible for final action on Master Sign Plans for property located in a hHistoric oOverlay dDistrict.

C. A sSign pPermit for all signs in the Master Sign Plan shall also be required in accordance with **Section 3.20. Sign Permit**.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

3.19.050. 3.19.05.Expiration

A Master Sign Plan shall expire 24 months after the date that the Master Sign Plan was approved unless:

A. A Building Permit application has been approved or, if no Building Permit is required, a Certificate of Occupancy or equivalent has been issued.

B. In case of projects where more than one building or phase is to be built, the applicant may submit a series of Building Permit applications. The first application must be approved within 12 months from the date Site Development Plan approval is granted. Each subsequent application must be submitted within 24 months from the date of issuance of a Certificate of Occupancy by the Building Official for the previous phase of the development.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

Section 3.20. Sign Permit

3.20.010. 3.20.01.Applicability

No sign may hereafter be erected, moved, added to, or structurally altered within the City or the extraterritorial jurisdiction without a permit issued by the Building Official in conformity with the provisions of this section. No Building Permit issued under the provisions of this Code for signs shall be considered valid unless signed by the Building Official. The provisions of this section relating to sSign pPermits are adopted pursuant to Texas Local Government Code cChapters 211, 214, 216, and the City Charter.

3.20.020. 3.20.02.Review Process

Review of a sSign pPermit shall follow the procedures set forth in **Section 3.03.050. Administrative Review Process**.

3.20.030. 3.20.03.Criteria for Approval

In addition to the general criteria for approval of administrative procedures in **Subsection 3.03.050.D. Criteria for Approval—Generally**, the Building Official shall base the final action on the following criteria:

A. Whether the intended sign conforms in all respects with all applicable regulations and standards of this Unified Development Code and any applicable construction or safety standards of the City's adopted bBuilding Code.

B. If the subject property has a Master Sign Plan, Development Agreement, or ordinance governing it, whether the plans, specifications, and intended use of such building or structures or part thereof conform in all respects to the Development Agreement or ordinance.

3.20.040. 3.20.04.Responsibility for Final Action

A. Final Action Authority shall be as noted in Section 2.01.020 of this CodeTable 2.01.020-1. Summary of Review Authority.

B. Appeals of Building Official actions regarding sign-related Building Permits are considered by the Zoning Board of Adjustment and must follow the standard appeal of an administrative decision procedure described in **Section 3.12. Appeal of an Administrative Decision–Zoning Regulations**.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.20.050. 3.20.05.Expiration

A Sign Permit shall expire six months after issuance if the sign is not constructed in a manner consistent with the permit.

Section 3.21. Stormwater Permit

3.21.010. 3.21.01.Applicability

To ensure conformance to the stormwater management provisions of this Code, a Stormwater Permit is required prior to any land disturbance, as defined in Section 16.02Section 18.02, except for a single or two-family structure on a legal lot one1 acre or greater in the City's extraterritorial jurisdiction (ETJ). Approval of a Site Development Plan or Subdivision Construction Plans constitutes approval of a Stormwater Permit. The provisions of this Ssection related to Stormwater Permitting are adopted pursuant to the authority conferred by the U.S. Environmental Protection

Agency, the Texas Commission on Environmental Quality, the Texas Local Government Code cChapters 211 and 212, and the City Charter.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015; Ord. No. 2017-15, § 2, 2-28-2017)

3.21.020. 3.21.02.Review Process

Review of a Stormwater Permit shall follow the procedure set forth in **Section 3.03.050. Administrative Review Process**.

3.21.030. 3.21.03.Criteria for Approval

A. The applicant must ensure that the application for a Stormwater Permit waswas prepared or reviewed, approved, and sealed by a professional engineer licensed in the State of Texas prior to submission to the City, and that the application meets the requirements of the UDC Development Manual.

B. Stormwater Permit will be issued after the Development Engineer has determined that the development meets the stormwater and pollution management requirements of Chapter 11Chapter 13.

C. A Stormwater Permit is conditional upon all applicable related permits required from the Texas Commission on Environmental Quality, the U.S. Environmental Protection Agency, or any other Sstate or federal agency being issued by that agency.

D. A Ggrading Ppermit, processed and reviewed as a Stormwater Permit, may be considered by the Development Engineer for vegetation clearing, and site grading. Such a permit may be issued at the discretion of the Development Engineer for specific activities such as understory removal and rough grading, and shall not include removal of protected trees, utility work, paving, or foundation. The Development Engineer may revoke the permit and issue a stop-work order if non-compliant.

E. A Stormwater Permit shall not be issued until an Electric Utility Services Availability Letter, as defined in this Code, has been submitted to the City.

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2020-40 , § 2(Exh. A), 5-12-2020)

3.21.040. 3.21.04.Responsibility for Final Action

Final Action Authority shall be as noted in **Section** 2.01.0202.01.020 of this Code.

(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.21.050. 3.21.05.Expiration

A Stormwater Permit shall expire 24 months after the date that the permit was issued if the improvements identified in the permit are not constructed.

(Ord. No. 2017-15, § 2, 2-28-2017)

Section 3.22. Driveway Access Permit

3.22.010. 3.22.01.Purpose

The purpose of a Driveway Access Permit is to determine the safety, mobility, and operational impacts that a proposed access connection will have on the roadway system.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.22.020. 3.22.02.Applicability

Driveway Permits are required for the following:

A. New driveway locations on roadways within the jurisdictional limits of the City;.

B. Existing driveways on roadways within the jurisdictional limits of the City for those developments that represent a change in property usage or zoning.

C. For the purposes of this section, the jurisdictional limits of the City shall include properties within the municipal limits of the City as well as the extraterritorial jurisdiction (ETJ).

D. The alteration of a public street curb or drainage facility, if not associated with an approved Construction Plan or Building Permit. Such request shall comply with Chapter 12.08, Street Excavations, of the Georgetown Municipal Code.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.22.030. 3.22.03.Review Process

Review of a Driveway Access Permit shall follow the administrative review procedures set forth in **Section 3.03.050. Administrative Review Process**, subject to the criteria for approval set forth below.

(Ord. No. 2017-15, § 2, 2-28-2017)

Editor's note(s)—Ord. No. 2017-15, § 2, adopted February 28, 2017, repealed the former Section 3.19.030 in its entirety, which pertained to the Pre-Application Conference, and derived from original codification. Subsequently, Sections 3.19.040—3.19.080 have been redesignated as Sections 3.19.030—3.19.070.

3.22.040. 3.22.04.Criteria for Approval

No Driveway Access Permit will be denied unless it is determined by tThe Development Engineer will make a determination to approve the permit or that the proposed location of the driveway will have an adverse effect on public safety. In making this determination, the following will be evaluated:

A. Existing driveways;

B. Land use (including but not limited to the intensity of development and trip attraction/generation potential, mix of vehicles, and turning movements);

C. Function of public street (including, but not limited to, the number of lanes, medians, median openings, vertical and horizontal curvature, sight distance, operating speeds, traffic volumes, entrance/exit ramps, and frontage roads);

D. The location of nearby streets and driveways;

E. The Site Plan (including but not limited to on-site circulation, delineation of the intended paths, parking stalls, location of buildings, location of loading areas);

F. Actual or anticipated excessive increase in vehicular traffic being routed onto streets occurring as a result of any such permit;

G. Physical constraints on the site, including topography and site distance(s);

H. Unusual lot configurations;

I. Potential traffic movements which are unsafe or have an adverse effect on traffic operations;

J. Joint access at the time of subdivision or Site Plan approval for abutting lots that have insufficient frontage to allow a driveway approach for each lot; and

K. That strict enforcement of the criteria for approval would result in a denial of access to the site.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.22.050. 3.22.05.Submission Requirements

The Development Engineer will determine during the Pre-Application Meeting if further studies will be required. Such studies may include, but shall not be limited to, the following:

A. Engineering Study

1. An Engineering Study may be required based on the determination of the Development Engineer. In all cases, the City will require only those elements of an Engineering Study that are necessary to answer the specific questions that arise during the review process. The Engineering Study shall conform to standard engineering practices and must be sealed by a Pprofessional Eengineer licensed in the State of Texas. The Development Engineer will review the following information in the determination to require an Engineering Study:
    a. Compliance with the minimum spacing requirements of this Code;
    b. Deceleration or acceleration lane required;
    c. Traffic volumes and classification of the intersecting street at the proposed driveway location;
    d. Sight distance or physical obstructions and/or constraints that will result in a safety problem;
    e. Environmental or hydraulic issues associated with the proposed driveway(s); and
    f. Lot configuration.
2. An Engineering Study shall contain the following information:
    a. Trip generation based on the latest edition of the ITE Trip Generation Manual unless there is acceptable data that supports the use of another trip generation source, as approved by the Development Engineer.
    b. Trip distribution, to be performed with input from the City.
    c. Traffic assignment to determine the forecasted turning movements attributable to the proposed development.
    d. Traffic volumes, if determined necessary by the Development Engineer and subject to the following criteria:
        (i) The existing traffic counts will be grown using an annual growth rate as agreed to by the City to the build-out year of the proposed development;
        (ii) The resulting traffic volumes will be used as background traffic volumes, and the assigned forecasted turning movements will be added to the background traffic volumes, resulting in the total traffic volumes; and
        (iii) The total traffic volumes will be used to determine the need for left-turn and right-turn lanes.

B. Traffic Impact Analysis (TIA)

1. A TIA may be required based on the determination of the Development Engineer. In all cases, the City will require only those elements of a TIA that are necessary to answer the specific questions that arise during the permitting process.
2. A TIA shall contain the following information:

a. All of the information outlined in **Subsection 3.22.050.A.2** above.

b. Operational analysis (level of service, capacity, etc.) for the determined study intersections.

c. Recommendations for mitigation measures should the impact of the proposed access point(s) result in unacceptable levels of service.

~~*(Ord. No. 2017-15, § 2, 2-28-2017)*~~

3.22.060. ~~3.22.06.~~Responsibility for Final Action

Final Action Authority shall be as noted in **Section** ~~2.01.020.~~2.01.020.

~~*(Ord. No. 2017-15, § 2, 2-28-2017; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)*~~

~~*Note(s)—See editor's note at Section 3.19.030.*~~

3.22.070. ~~3.22.07.~~Expiration

A Driveway Access Permit will expire 18 months after issuance if the driveway is not constructed in a manner consistent with the permit. An application for a Driveway Access Permit will expire if it remains inactive for six months.

~~*(Ord. No. 2017-15, § 2, 2-28-2017)*~~

~~*Note(s)—See editor's note at Section 3.19.030.*~~

Section 3.23. License ~~T~~to Encroach

3.23.010. ~~3.23.01.~~Purpose

The purpose of a License to Encroach is to determine the potential impacts of proposed improvements, structures, facilities, and encroachments into a public street, roadway, sidewalk, right-of-way, or easement in order to maintain their safety, mobility, and operational functionality.

3.23.020. ~~3.23.02.~~Applicability

A. A License to Encroach, in the procedures provided for in this section, is required for the following:

1. New improvements, structures, facilities, and encroachments into a public street, roadway, sidewalk, or right-of-way within the ~~C~~city limits and easements located within the ~~C~~city limits or the extraterritorial jurisdiction.

2. Existing improvements, structures, facilities, and encroachments into a public street, roadway, sidewalk, or right-of-way within the ~~C~~city limits and easements located within the ~~C~~city limits or the extraterritorial jurisdiction.

B. Those improvements, as defined in Subsection **A** above, that encroach into a public street, roadway, or sidewalk shall obtain approval from the City Council, in addition to this license.

3.23.030. ~~3.23.03.~~Review Process

Review of a License to Encroach shall follow the administrative review procedures set forth in **Section 3.03.050. Administrative Review Process**, subject to the criteria for approval set forth below.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.23.040. 3.23.04.Criteria for Approval

No License to Encroach will be denied unless it is determined by the Development Engineer that the proposed location or type of improvement will negatively impact the function of the public street, roadway, sidewalk, right-of-way, or utility easement or other easement or have an adverse effect upon the health, safety, or welfare of the general public. In making this determination, the following will be evaluated:

A. The proposed encroachment into a public street, roadway, sidewalk, right-of-way, or easement by any person shall not interfere with the lawful use thereof.

B. Any proposed construction within a public street, roadway, sidewalk, right-of-way, or easement shall be in accordance with this Code, the City's adopted construction standards, and any other applicable ordinances and regulations.

C. At any time during the construction of any structure within a public street, roadway, sidewalk right-of-way, or easement:

1. The applicable public street, roadway, or sidewalk shall be kept open for vehicular and pedestrian traffic in a reasonable manner, and sidewalks shall not be obstructed to prevent the use thereof by pedestrians;

2. Dirt and other material removed from the construction of any structure within a public street, roadway, sidewalk, right-of-way, or easement shall not be allowed to remain on the street or sidewalk and shall be removed immediately at the sole cost, risk, liability, and expense of the licensee;

3. All excavations and obstructions of any kind that take place during the period of the licensee's construction shall be properly barricaded and well-illuminated during the night, subject to the approval of the Building Official.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.23.050. 3.23.05.Submission Requirements

Staff may determine further studies will be required. Such studies may include, but are not limited to, an Engineering Study, which may be required at the determination of the Development Engineer. Only the elements of an engineering study that are necessary to answer specific questions that arise during the review process will be required for submittal.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.23.060. 3.23.06.Responsibility for Final Action

The Development Engineer is responsible for final action on Licenses to Encroach into a public easement. For those requests that encroach into a public street, roadway, sidewalk, or right-of-way, final approval shall be obtained from the City Council.

(Ord. No. 2017-15, § 2, 2-28-2017)

3.23.070. 3.23.07.Expiration

The City shall provide written notice at least 180 days in advance to the licensee, its representatives, successors, or assigns to take possession of and use all or any part of the licensed area in the event that such use be reasonably desired or needed by the City for street, sewer, transportation, or any other public or municipal use or purpose. During such time, it is the responsibility of the licensee, its representatives, successors, or assigns to remove the

encroachment(s). In such an event, the City shall have the right to cancel the revocable license as to that portion of the licensed area so designated and required by the City.

(Ord. No. 2017-15, § 2, 2-28-2017)

Note(s)—See editor's note at Section 3.21.030.

Section 3.24. Tree Removal Permit

3.24.010. 3.24.01.Purpose

The purpose of a Tree Removal Permit is to determine whether such a tree should be removed based on its species, size, location, health, viability, and impact on the overall site design. Protected and Hheritage trees shall not be removed without first securing approval from the City.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)

3.24.020. 3.24.02.Applicability

A. The provisions of this section shall apply to all property located within the corporate limits and in the extraterritorial jurisdiction (ETJ) of the City.

B. The provisions of this section apply to all development subject to this Code, except as noted below, whether or not there is an active permit for the project.

C. Single-family or two-family residential lots approved and platted prior to February 13, 2007, are exempt from the requirement of a tTree rRemoval pPermit. However, single-family and two-family lots platted after February 13, 2007, are subject to the heritage tree protection provisions in Section 8.02Chapter 10, which shall apply to the developer, home builder, and homeowner. Notwithstanding the preceding exemption, if a future change of use from a single-family or two-family home to any other use triggers a permit under this Code, then the provisions of the Tree Removal Permit will be required.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)

3.24.030. 3.24.03.Review Process

Review of a Tree Removal Permit shall follow the administrative review procedures set forth in **Section 3.03.050. Administrative Review Process**, subject to the criteria for approval set forth below.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)

3.24.040. 3.24.04.Criteria for Approval

No Tree Removal Permit shall be approved unless it is determined by the Landscape Planner or their designee, that the proposed removal is justified, based on the tree species and site conditions of the tree. In making this determination, the following will be evaluated:

A. Tree species;

B. Tree size/number of trunks;

C. Tree health and viability;

D. Tree location;

E. Protected and heritage trees to remain on site; and

F. Whether the project can be developed without tree removal.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)

3.24.050. 3.24.05.Submission Requirements

A. Statement of justification for tree removal.

B. Copy of companion plat, Site Development Plan or concept plan for the permit or authorization that required compliance with this section.

C. Copy of tree survey, if applicable. If no tree survey exists, location of tree identified, tree type, size, condition, etc.

D. A photo of the tree's canopy and trunk, labeled with the corresponding tree number on the companion tree survey, shall be submitted with the application for a heritage tree removal permit.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.24.060. 3.24.06.Responsibility for Final Action

A. Final Action Authority shall be as noted in 2.01.020 of this CodeTable 2.01.020-1. Summary of Review Authority.

B. Upon receipt of the application, the Landscape Planner shall inspect the subject tree and approve or deny the application in accordance with the provisions of this section within tenten working days of the date of the application. Upon written request from the owner or the owner(s)'s representative, said date for the Landscape Planner's final decision may be extended for a period of up to 15 additional days.

C. An applicant may appeal a denial of a Tree Removal Permit to the City Council. Such appeal must be made in writing and received by the Director within 30 days of the date of the decision on the application by the Landscape Planner. The Director shall set the matter for Ppublic Hhearing before the City Council at the earliest possible regularly scheduled meeting of the City Council. The City Council shall review the request and render a decision affirming, affirming in part, conditionally affirming, or reversing the determination of the Landscape Planner. If a Tree Removal Permit is issued after appeal, pursuant to the provisions of this Code, the applicant must comply with all applicable provisions of this Code, including mitigation.

D. The applicant shall, prior to approval of the application, submit a mitigation or payment of fees-in-lieu calculation and a mitigation plan, pursuant to Section 8.05Section 10.02, showing the proposed species, location, and irrigation plan for the proposed mitigation trees.

E. The Director is authorized to identify and require such documents as are necessary to process this request. Said requirements and/or documents shall be published in the City's Development Manual.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021; Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.24.070. 3.24.07.Expiration

A Tree Removal Permit shall remain valid for the longer of:

A. The period of validity of the permit or authorization that required compliance with this section; or

B. One hundred eighty (180) days from the issuance of the tTree rRemoval pPermit.

(Ord. No. 2021-62 , § 2(Exh. A), 9-14-2021)

Section 3.25. Heritage Tree Pruning Permit

3.25.010. 3.25.01.Purpose

The purpose of a Heritage Tree Pruning Permit is to determine whether such a tree should be pruned and how the pruning shall be performed. Heritage trees shall not be pruned without first securing approval from the City.

3.25.020. 3.25.02. Applicability

A. The provisions of this section shall apply to all property located within the corporate limits and in the extraterritorial jurisdiction (ETJ) of the City.

B. A Heritage Tree Pruning Permit shall be required for any pruning of a heritage tree located on all properties, including single-family and two-family lots platted after February 13, 2007; however, a Heritage tTree pPruning pPermit shall only be required during the original home construction. Notwithstanding the preceding exemption, if a future change of use from a single-family or two-family home to any other use triggers a permit under this Code then the provisions of the Heritage Tree Pruning Permit will be required.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.25.030. 3.25.03. Review Process

Review of a Heritage Tree Pruning Permit shall follow the administrative review procedures set forth in **Section 3.03.050. Administrative Review Process**, subject to the criteria for approval set forth below.

3.25.040. 3.25.04. Criteria for Approval

No Heritage Tree Pruning Permit will be approved unless it is determined by the Landscape Planner or their designee, that the proposed pruning is justified based on the health or viability of the tree and that the proposed pruning will not negatively impact the health and appearance of the tree. In making this determination the following will be evaluated:

A. Reason for pruning request;

B. Tree location;

C. Percent of canopy to be removed;

D. Tree health; and

E. Whether an ISA Certified Arborist is going to perform the pruning.

3.25.050. 3.25.05.Submission Requirements

A. Statement of justification for tree pruning.

B. Copy of companion plat, Site Development Plan or concept plan for the permit or authorization that required compliance with this section.

C. A photo (digital or hardcopy) of the tree, labeled with the tree number on the tree survey, DBH, species, and contractor's ISA certification number, shall be submitted with the application for a Heritage Tree Pruning Permit.

(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)

3.25.060. 3.25.06.Responsibility for Final Action

A. Final Action Authority shall be as noted in **Section** 2.01.0202.01.020 of this Code.

B. An applicant may appeal the denial of a Heritage Tree Pruning Permit to the Director. Such appeal must be made in writing and received by the Director within 30 days of the date of the decision on the application by the Landscape Planner. The request for appeal shall set forth the specific reasons for the appeal and state the specific reasons for disagreement with the decision of the Landscape Planner, including the basis for the applicant's position that the application should have been granted. Appeals shall be processed in accordance with **Section** 2.01.0202.01.020 and **Section 3.12. Appeal of an Administrative Decision–Zoning Regulations**.

(Ord. No. 2023-44 , § 4(Exh. B), 8-22-2023)

3.25.070. 3.25.07.Expiration

A. The Heritage Tree Pruning Permit shall remain valid for 180 days from date of issuance.

Section 3.26. Certificate of Appropriateness

3.26.01. Applicability

A. Pursuant to the authority granted to the City by Texas Local Government Code chapter 211 and the City Charter, a Certificate of Appropriateness is required in accordance with Table 3.13.010 below. Activities that include more than one project (scope of work) shall be subject to the review process and criteria for approval for each specific project as identified in Table 3.13.01.

Table 3.13.01: Certificate of Appropriateness Required

Project (Scope of Work)	Historic Significance	Decision Making
HARC = Historic and Architectural Review Commission * HPO = Historic Preservation Officer * NR = Not Required		
New Construction (Infill Development)		
New building construction	All Historic Overlay Districts	HARC
Additions		
Addition that creates a new, or adds to an existing, street-facing facade	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)	HARC
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)	HPO
	Non-Contributing Historic Structure	HPO
Addition of a non-street-facing facades	Historic Landmark	HARC
	Contributing Historic Structure	HPO
	Non-Contributing Historic Structure	NR
New addition does not comply with the zoning standards of the historic overlay district	Historic Landmark	HARC
	Contributing Historic Structure	
	Non-Contributing Historic Structure	
Awning or canopy	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified	HARC

Project (Scope of Work)	Historic Significance	Decision Making
HARC = Historic and Architectural Review Commission * HPO = Historic Preservation Officer * NR = Not Required		
	on the most recently adopted historic resource survey)*	
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure*	HPO
Porch, patio, deck, pergola, or sail sunshade	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures)*	
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure*	HPO
Reconstruction, Alterations, Changes		
Restoring historic architectural features	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Replacing a historic architectural feature with a non-historic architectural feature±	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)*	
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure	NR
Replacing roof materials with different roof materials±	Historic Landmark	HARC
	Contributing Historic Structure	HPO
	Non-Contributing Historic Structure	NR
Modifications to exterior steps, stairways, and ramps using in-kind material	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Modifications to exterior steps, stairways, and ramps	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)*	HARC
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure*	HPO
	Historic Landmark	HPO

Project (Scope of Work)	Historic Significance	Decision Making
HARC = Historic and Architectural Review Commission * HPO = Historic Preservation Officer * NR = Not Required		
Paint removal from historic and significant architectural features (back to original condition; does not include repainting)	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Changes to paint color on previously painted surfaces (includes repainting or new paint on previously painted surface)	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure*	
New paint on unpainted historic and other significant architectural features	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Changes in color to awning fabric	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure*	
Exterior lighting that is attached to the building or structure	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure*	
Rooftop HVAC, mechanical, or communication equipment that result in no modifications to the building facade	Historic Landmark*	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure*	
Rooftop HVAC, mechanical, or communication equipment that result in modifications to the building facade	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)*	
	Contributing Historic Structure (Low Priority Structure as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure*	HPO
Removal, Demolition, or Relocation		
Awnings or canopies	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)*	HARC
	Contributing Historic Structure (Low Priority Structure as identified on the most recently adopted historic resource survey)*	HPO
	Non-Contributing Historic Structure	NR
Exterior non-historic architectural features	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Exterior siding to unencapsulate historic siding materials	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR

Project (Scope of Work)	Historic Significance	Decision Making
HARC = Historic and Architectural Review Commission * HPO = Historic Preservation Officer * NR = Not Required		
Removal, stripping, concealing, or destruction of any historic and architectural feature that is integral to the historic character of the building or structure, or historic overlay district	Historic Landmark	HARC
	Contributing Historic Structure (High and Medium Priority Structures as identified on the most recently adopted historic resource survey)*	
	Contributing Historic Structure (Low Priority Structures as identified on the most recently adopted historic resource survey)	HPO
	Non-Contributing Historic Structure*	HPO
Non-historic additions that are made of non-historic materials	Historic Landmark	HPO
	Contributing Historic Structure	
	Non-Contributing Historic Structure	NR
Attached carport, porch, patio, or deck	Historic Landmark	HARC‡
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Attached carport, porch, patio, or deck made of non-historic materials	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Reopen enclosed porch, patio, or deck to original condition	Historic Landmark	HPO
	Contributing Historic Structure*	
	Non-Contributing Historic Structure	NR
Street facing facade	Historic Landmark	HARC‡
	Contributing Historic Structure	
	Non-Contributing Historic Structure	NR
Demolition that results in the reduction or loss in the total square footage of the existing structure	Historic Landmark	HARC
	Contributing Historic Structure	
	High Priority resources identified in the Historic Resource Survey located outside a Historic Overlay District	HARC
	Medium Priority resources identified in the Historic Resource Survey located outside a Historic Overlay District	HPO
Relocation of a building or structure on the same lot	Historic Landmark	HPO
	Contributing Historic Structure	
	Non-Contributing Historic Structure	
Relocation of a building or structure to a historic overlay district (includes relocation of buildings or structures within the same historic overlay districts)	Historic Landmark	HARC
	Contributing Historic Structure	
	Non-Contributing Historic Structure	
Relocation of a building or structure outside of the historic overlay district	Historic Landmark	HARC
	Contributing Historic Structure	
	Non-Contributing Historic Structure	NR
Signage		
Master Sign Plan	All Historic Overlay Districts	HPO

Project (Scope of Work)	Historic Significance	Decision Making
HARC = Historic and Architectural Review Commission * HPO = Historic Preservation Officer * NR = Not Required		
New signage, to include new signage that is consistent with an approved Master Sign Plan		HPO
New signage that is inconsistent with an approved Master Sign Plan or applicable guidelines		HARC
Changes in content or configuration (re-facing) that do not involve changes in sign location, dimensions, lighting, or total sign area		HPO
Amending an approved Master Sign Plan		HPO
Fences		
New fence, railing, or wall that is inconsistent with the overlay district's characteristics and applicable guidelines	All Historic Overlay Districts†	HARC
Miscellaneous		
Exceptions on building height, setback, and FAR alternative standards pursuant to Section 4.08 of this Code	All Historic Overlay District	HARC
Renewal of an expired Certificate of Appropriateness	All Historic Overlay Districts Historic Landmark	HPO

** Only applicable to a street-facing facade*

† Only applicable to fences along a street lot line or located in a street yard

‡ CLG demo delay period and Demolition Subcommittee review not applicable

± Material that is intended to replace a historic material or feature that is either the same or a similar material, and the result will match all visual aspects, including form, color, and workmanship in order to retain the original design of the structure, may be permitted by the identified decision maker for medium and low priority resources.

B. Exemptions

A Certificate of Appropriateness shall not be required for the following:

1. Ordinary maintenance and repair, as this term is defined in Chapter 16 of this Code.
2. Interior construction or alterations provided the alterations do not alter the exterior wall of the building.
3. New additions to existing single-family and two-family structures provided the addition does not create or add to a street-facing facade, and the addition, in combination with the existing building, is in compliance with the zoning standards of the historic overlay district.
4. New, modifications to, or removal of existing awnings (to include changes in color), canopies, exterior paint color, or exterior lighting attached to a single-family or two-family residential structure, provided the alterations do not alter the exterior wall of a building designated as a historic landmark.
5. Demolition of a building or structure that the Building Official has declared a dangerous structure in accordance with Chapter 15.40 of the City Code, as amended, or determined that demolition is necessary for the preservation of the public health, safety, and welfare.

a. Should the Building Official declare a building a dangerous structure or determine that demolition is necessary for the preservation of public health, safety, and welfare, the Building Official shall coordinate with the Historic Preservation Officer and property owner to identify historic and significant architectural features that are unique to the building or structure, era or district and that may be salvaged.

b. The Historic Preservation Officer shall create a record of the building or structure to be demolished through archival-quality photo-documentation, drawings, and other information similar to those required by the Historic American Buildings Survey. The list of identified historic and significant architectural features to be salvaged shall also be made part of this record.

6. New fence, railing or wall that is consistent with the overlay district's characteristics and applicable guidelines.

7. Site alterations and other hardscape features provided that these do not alter a building or structure designated as a Historic Landmark or that is a contributing historic structure to the Historic Overlay District.

C. No Building Permit shall be issued by the Building Official for any building or structure designated as a Historic Landmark or that is located in a Historic Overlay District until the application for such permit has been reviewed and approved by the Historic and Architectural Review Commission or the Historic Preservation Officer, as applicable, and the project, as proposed, is in compliance with all other applicable regulations of this Code.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

3.26.02. Certificate of Appropriateness—Administrative Approval

A. Review Process

1. Initiation

Initiation of a certificate of appropriateness to the Historic Preservation Officer may be made upon application by the property owner of the affected property or their authorized agent following the established application processes and requirements of this Chapter.

2. Application Completeness

a. The applicant shall submit all of the information and materials required in the UDC Development Manual as specified on the applicable certificate of appropriateness checklist.

b. The Historic Preservation Officer shall determine that a complete application has been submitted with all material necessary to review conformance with applicable criteria for approval in accordance with this Code.

3. Staff Review

Once a Certificate of Appropriateness has been initiated and the application deemed complete, the Historic Preservation Officer shall review the application for consistency with any applicable criteria for approval.

4. Responsibility for Final Action

a. The Historic Preservation Officer is responsible for final action on a Certificate of Appropriateness for certain projects as specified in Section **3.26.01. Applicability**.

b. Should the Historic Preservation Officer be unable to approve the request, the Historic Preservation Officer may forward the request to the Historic and Architectural Review Commission for review and final action at the next available meeting following public notification in accordance with **Section 3.03. Public Hearing and Notice** .

B. Criteria for Approval

The Historic Preservation Officer shall determine whether to grant a Certificate of Appropriateness based on the following criteria:

1. The application is complete and the information contained within the application is correct and sufficient enough to allow adequate review and final action;
2. Compliance with applicable design and development standards of this Code;
3. Compliance with the Secretary of the Interior's Standards for the Treatment of Historic Properties to the most extent practicable;
4. Compliance with the adopted Historic District Design Guidelines, as may be amended from time to time, specific to the applicable Historic Overlay District; and
5. The overall character of the applicable Historic Overlay District and the building or structure is preserved, and the design is compatible with the Historic Overlay District.
6. The sign is in keeping with the adopted Historic District Design Guidelines and character of the Historic Overlay District.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019; Ord. No. 2021-53 , § 6(Exh. E), 7-27-2021)

3.26.03. Certificate of Appropriateness—HARC Approval

A. Review Process

1. Initiation

Initiation of a Certificate of Appropriateness to the Historic and Architectural Review Commission may be made upon application by the property owner of the affected property or their authorized agent following the established application processes and requirements of this Chapter.

2. Application Completeness

a. The applicant shall submit all of the information and materials required in the UDC Development Manual as specified on the applicable Certificate of Appropriateness checklist.

b. The Historic Preservation Officer shall determine that a complete application has been submitted with all material necessary to review conformance with applicable criteria for approval in accordance with this Code.

3. Staff Review

a. Once a Certificate of Appropriateness has been initiated and the application deemed complete, the Historic Preservation Officer shall review the application for consistency with any applicable criteria for approval.

b. The Historic Preservation Officer shall prepare a report to the Historic and Architectural Review Commission.

c. The Historic Preservation Officer's report shall include a recommendation for final action.

4. Responsibility for Final Action

a. The Historic and Architectural Review Commission shall review the application, the Historic Preservation Officer's report, conduct a hearing in accordance with the Historic and Architectural Review Commission's established procedures and State law, and take final action on the application within 35 days of the application hearing unless the applicant agrees to extend the time.

b. An application before the Historic and Architectural Review Commission shall be considered approved by a majority vote of all members of the Historic and Architectural Review Commission.

B. Criteria for Approval

The Historic and Architectural Review Commission shall determine whether to grant a Certificate of Appropriateness based on the following criteria:

1. The application is complete and the information contained within the application is correct and sufficient enough to allow adequate review and final action;
2. Compliance with applicable design standards of this Code;
3. Compliance with the Secretary of the Interior's Standards for the Treatment of Historic Properties to the most extent practicable;
4. Compliance with the adopted Historic District Design Guidelines, as may be amended from time to time, specific to the applicable Historic Overlay District;
5. The general historic, cultural, and architectural integrity of the building, structure, or site is preserved;
6. New buildings or additions are designed to be compatible with surrounding properties in the applicable historic overlay district;
7. The overall character of the applicable historic overlay district is protected; and
8. The Master Sign Plan is in keeping with the adopted Historic District Design Guidelines and character of the historic overlay district.

C. Additional Criteria for Approval for Building Height Modification

1. Applicants requesting exceptions to the building height standards set forth in Section 4.08.020.A must submit documentation to HARC that the following standards will be met if the requested exception to the height standards is approved:

a. The proposed building or addition shall not obscure views to and from the Courthouse or overwhelm or detract from views of the Town Square Historic District;

b. The proposed building or addition shall be compatible with the height, scale, massing, and volume reflected in the Downtown Overlay District, and the historic character of the District; and

c. The proposed building shall be an extraordinary contribution to the aesthetic and economic goals of the Downtown Master Plan.

2. The documentation required by Section **3.26.03.C.1** must include, at a minimum, the following information:

a. A visual analysis that identifies:

(i) The extent to which the building would impact views to and from the Courthouse, and to what extent the building will be visible from four directions; and

(ii) How the building will relate to the context of the surrounding structures and the character of the district.

b. A summary of the conclusions of the visual analysis as to how the proposed building will impact the District, specifically the immediate surroundings.

3. HARC may grant a request for a variation in height from the standards set forth in Section 4.08.020.A only if it determines that the following goals or purposes will still be achieved:

a. Views to and from the Courthouse and to and from the Town Square Historic District will be protected; and

b. The character of the Downtown Overlay District and the Town Square Historic District will be defined, reinforced, and preserved; and

c. The relationship of the proposed project to the existing structures in the immediate vicinity remains consistent; and

d. The proposed project allows for the best utilization of redevelopment in the Downtown Overlay District and the Town Square Historic District; and

e. The proposed project protects the historic buildings in the Downtown Overlay District.

D. Additional Criteria for Approval of a Setback Modification

1. The Historic and Architectural Review Commission may grant a Certificate of Appropriateness, per Section 4.08.080.D of this Code, to modify the setback standards of the underlying base zoning district for residential properties located within the Old Town Overlay District.

2. HARC may consider the following in determining whether to approve a Certificate of Appropriateness for a setback exception:

a. Whether the proposed setback encroachment is solely a matter of convenience;

b. Whether there is adequate room on the site to allow the proposed addition or new structure without encroaching into the setback;

c. Whether the proposed setback is compatible and in context within the block in which the subject property is located;

d. Whether the proposed addition or new structure will be set closer to the street than other units within the block;

e. Whether the proposed structure is replacing a structure removed within the past year;

f. Whether the proposed structure will replace a structure that previously existed with relatively the same footprint and encroachment as proposed;

g. If the proposed encroachment is for a structure that is replacing another structure, whether the proposed structure is significantly larger than the original;

h. If the proposed encroachment is for an addition, the scale of the addition compared to the original house;

i. The size of the proposed structure compared to similar structures within the same block;

j. Whether the proposed addition or new structure will negatively impact adjoining properties, including limiting their ability to maintain existing buildings;

k. Whether there is adequate space for maintenance of the proposed addition or new structure and/or any adjacent structures; and/or

l. Whether the encroachment would enable existing large trees or significant features of the lot to be preserved.

E. Additional Requirements for Relocation, Removal, or Demolition of a Historic Landmark or Contributing Historic Structure.

In addition to the staff review process established in Section **3.26.03.A. Review Process**, applications for a Certificate of Appropriateness for the relocation, removal, or demolition of a building or structure designated as a Historic Landmark or contributing historic structure shall be subject to the following additional review:

1. Demolition Delay Period Certified Local Government (CLG) Program

a. Upon deeming the application complete, requests for a Certificate of Appropriateness for demolition of a Historic Landmark or contributing historic structure shall be subject to a 60-day demolition delay period. The Historic and Architectural Review Commission shall not take action on a request for demolition until the 60-day demolition delay period is complete.

b. During this 60-day delay period, the applicant shall coordinate with the Historic Preservation Officer to reach a satisfactory resolution that preserves the building or structure, or that preserves historic and significant architectural features unique to the building or structure, era, or district.

c. The Historic Preservation Officer shall coordinate with local, county, and other historical organizations to explore possibilities for preserving, to include the possible relocation of the structure.

d. The Historic Preservation Officer shall present the findings and resolution, if applicable, to the Historic and Architectural Review Commission with the request.

2. Demolition Subcommittee Review

a. No later than the 30th day from deeming the application complete, the Historic and Architectural Review Commission's Demolition Subcommittee shall complete a walk-through of the building or structure proposed to be demolished or relocated with the Historic Preservation Officer and the applicant.

b. The Demolition Subcommittee shall review the application and analyze the building or structure to determine possibility of preservation and restoration, and appropriateness for demolition or relocation. In the event of demolition, the Demolition Subcommittee shall also create a list of historic salvageable materials identified during the walk-through.

c. The Demolition Subcommittee's report shall include a recommendation for final action.

3. Responsibility of Final Action

a. In addition to the application, and the Historic Preservation Officer's report, the Historic and Architectural Review Commission shall review the recommendation by the Demolition Subcommittee, conduct a hearing in accordance with the HARC's established procedures and state law, and take final action on the application within 35 days of the application hearing unless the applicant agrees to extend the time.

b. As conditions of approval, the Historic and Architectural Review Commission may require historical materials to be salvaged, archival-quality photo-documentation, and/or architectural drawings of the building or structure proposed to be demolished or relocated similar to those

required by the Historic American Buildings Survey to be submitted to the Historic Preservation Officer.

F. Criteria for Approval for Relocation, Removal, or Demolition of a Historic Landmark or Contributing Historic Structure.

1. The Historic and Architectural Review Commission shall use circumstances or items unique to the building or structure proposed to be relocated, removed, or demolished when reviewing the application.

2. The Historic and Architectural Review Commission shall make the following findings when considering a request for demolition or relocation of a structure:

a. Loss of Significance

(i) The applicant has provided information that the building or structure is no longer historically, culturally, or architecturally significant, or is no longer contributing to the historic overlay district; and

(ii) The applicant has established that the building or structure has undergone significant and irreversible changes, which have caused the building or structure to lose the historical, cultural, or architectural significance, qualities, or features that qualified the building or structure for such designation; and

(iii) The applicant has demonstrated that any changes to the building or structure were not caused either directly or indirectly by the owner, and were not due to intentional or negligent destruction, or lack of maintenance rising to the level of a demolition by neglect; and

(iv) Demolition or relocation of the building or structure will not cause significant adverse effects on the historic overlay district or the City's historic resources; or

b. Unreasonable Economic Hardship

(i) The applicant has demonstrated that the property owner cannot take reasonable, practical or viable measures to adaptively use, rehabilitate or restore the building or structure, or make reasonable beneficial use of, or realize a reasonable rate of return on a building or structure unless the building or structure may be demolished or relocated; and

(ii) The applicant must prove that the structure cannot be reasonably adapted for any other feasible use, which would result in a reasonable rate of return; or

c. There is a compelling public interest that justifies relocation, removal, or demolition of the structure.

3. Relocation of a Structure to a Historic Overlay District

In the event the building or structure is proposed to be relocated to a property in a Historic Overlay District, in addition to the above, the applicant must demonstrate the following with the application:

a. The architectural compatibility of the relocated building or structure with adjacent buildings according to the applicable Historic District Design Guidelines and UDC standards for new construction; and

b. The proposed siting, setback, and other applicable site-specific treatments according to pertinent Historic District Design Guidelines and UDC standards of the applicable historic overlay district; and

c. Relocation will not damage existing contributing historical buildings or structures, or the character of the Historic Overlay District.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019; Ord. No. 2021-53 , § 6(Exh. E), 7-27-2021)

3.26.04. Relocation, Removal or Demolition Prior To Approval of a Certificate of Appropriateness

A. Demolition, including demolition by neglect, of a building or structure prior to approval of a Certificate of Appropriateness by the Historic and Architectural Review Commission, when required, shall be subject to an automatic hold on all permits. No permit may be granted until this period is complete and the Historic and Architectural Review Commission has granted a Certificate of Appropriateness for the demolition of the remaining building or structure, if applicable.

B. The permit delay period shall be determined by the Historic and Architectural Review Commission, but in no case shall it exceed 365 days.

C. The Certificate of Appropriateness for the demolition of the remaining building or structure, if applicable, shall be reviewed and final action taken by the Historic and Architectural Review Commission concurrently with the determination of the longevity of the permit hold period.

D. During this delay period, the applicant shall provide the following information to the Historic Preservation Officer:

1. Documentation regarding the original and existing condition of the building or structure, to include structural integrity and the extent of work necessary to stabilize the building or structure.
2. Site development plan (or plot plan) identifying proposed development on-site following demolition of the building or structure.
3. List of any salvageable materials, and a plan offering donation or sale of the remaining building or structure and any salvageable materials identified.

E. In the event of demolition by neglect, the applicant shall complete any work required to stabilize and arrest further deterioration of the building or structure.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

3.26.05. Certificate and Compliance Inspections

A. It shall be the responsibility of the Historic Preservation Officer to issue the actual Certificate of Appropriateness following approval by the Historic Preservation Officer or the HARC, with any designated conditions, and to maintain a copy of the Certificate of Appropriateness, together with the proposed plans. The certificate shall be forwarded to the Building Official. These shall be public documents for all purposes.

B. Work performed pursuant to the issuance of a certificate of appropriateness shall conform to the requirements of the certificate. In the event that work is not in compliance, the Building Official shall issue a stop work order and/or citation as prescribed by ordinance.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

3.26.06. Limits on Resubmission

No application for the same project shall be considered within 180 days of the rejection or disapproval by the Historic and Architectural Review Commission or Historic Preservation Officer, as applicable, of an application. The applicant may submit a design for an entirely new project or a revised design that substantially responds to the reasons for denial as set forth by the Historic and Architectural Review Commission or Historic Preservation Officer, as applicable, at any time.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

3.26.07. Expiration

A. A Certificate of Appropriateness, except as noted below, expires if the work authorized by the Certificate of Appropriateness is not commenced within 24 months from the date of the final action to approve the request. In the case of a phased project, after the initial phase is complete or a Certificate of Occupancy has been issued, each subsequent phase shall commence within 24 months of the completion or Certificate of Occupancy of the prior phase. The Historic Preservation Officer may extend the time commencement of work upon written request by the applicant.

B. A Certificate of Appropriateness for relocation, removal, or demolition expires if a permit for relocation or demolition has not been issued within 180 days or, if a permit is not required, the work authorized by the Certificate of Appropriateness is not commenced within 180 days from the date of the final decision to approve the request. The Historic Preservation Officer may extend the time for commencement of work upon written request of the applicant.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015)

3.26.08. Appeals

A person aggrieved by a final action of the Historic and Architectural Review Commission on a Certificate of Appropriateness may appeal to the City Council, pursuant to the procedures set forth below. Such appeal shall be submitted to the Historic Preservation Officer within 30 days of the final action.

Appeals from an administratively issued Certificate of Appropriateness will be processed through the Historic and Architectural Review Commission, subject to the procedures established for new applications and set forth below. Such appeal shall be submitted to the Historic Preservation Officer within 30 days of the administrative action.

A. Appeal Hearing

The hearing shall be set for the next available City Council or HARC meeting, subject to the provision of public notification. Notification shall be provided in the same manner as the initial certificate of appropriateness.

B. Burden of Proof in Appeals

When an appeal is considered by the City Council or HARC, the final action by the original reviewing authority is presumed to be valid. The person filing the appeal shall present sufficient evidence and have the burden to justify a reversal of the action being appealed.

C. Findings and Conclusions

All findings and conclusions necessary to the appeal decision shall be based upon reliable evidence. Competent evidence (evidence admissible in a court of law) will be preferred whenever reasonably available, but in no case may findings be based solely upon incompetent evidence unless competent evidence is not reasonably available, the evidence in question appears to be particularly reliable, and the matter at issue is not seriously disputed. In

exercising its authority, as an appellate body, the City Council or HARC may reverse or affirm, in whole or in part, the original order, requirement, decision, or determination from which an appeal is taken and make the correct order, requirement, decision, or determination, and for that purpose the City Council or HARC, as an appellate body, has the same authority as the original reviewing authority.

D. Decision on Appeal

As an appellate body, the City Council or HARC shall review the application, the staff report, and meeting minutes, conduct a hearing in accordance with established procedures and state law, and take final action on the appeal by a majority vote of City Councilmembers or members of HARC. In the event of a tie among the City Councilmembers, the Mayor shall vote as permitted in the City Charter.

(Ord. No. 2015-34, § 2(Exh. A), 5-12-2015; Ord. No. 2019-21 , § 2(Exh. A), 4-9-2019)

Section 3.26. Section 3.27.Request for Creation of Certain Special Purpose Districts

3.26.010. 3.27.01. Applicability

The review process in this section establishes the process and procedures for requesting a Municipal Utility District ("MUD"), Water Control and Improvement District ("WCID"), Fresh Water Supply District ("FWSD"), or similar political subdivision ("District") in accordance with **Section** 13.10.0103.26.010 of this Code.

(Ord. No. 2019-01 , § 2(Exh. A), 1-8-2019)

3.26.020. 3.27.02. Review Process

A. Initiation

Initiation of a request for the creation of a District may be made upon application of a property owner or their authorized agent.

B. Application for Completeness Determination

The applicant shall provide a complete application with the material and supporting information outlined in the Development Manual. The Planning Director, or designee, is responsible for checking that a complete application has been submitted with all material necessary for the City Council to render an informed decision.

C. Staff Review

1. Upon receipt of a complete application, the cross-departmental "Special Purpose District Petition Review Team" shall analyze the proposed development and its potential impact on facilities and services. The Special Purpose District Petition Review Team shall be comprised, at a minimum, of members of the Planning, Utility, Finance, Parks and Recreation, and Public Safety departments, and the City Attorney's Office.
2. The Special Purpose District Petition Review Team shall review the application, consider the approval criteria, and assign a Case Manager to lead the review and prepare a report to the Planning and Zoning Commission and/or appropriate board or commission, and City Council.
3. Review of a request for a District within the city limits shall be reviewed in conjunction with a zoning request for a Planned Unit Development District demonstrating enhanced development standards, and consistent with applicable City codes and policies adopted by the City Council.

4. Review of a request for a District within the extraterritorial jurisdiction (ETJ) shall be reviewed in conjunction with terms for enhanced development standards and consistency with applicable City policies adopted by the City Council.

D. Board or Commission Review

The Planning and Zoning Commission or other appropriate board or commission~~,~~ shall hold a ~~P~~public ~~H~~hearing and make a recommendation to the City Council.

E. City Council Final Action

1. The City Council shall hold a ~~P~~public ~~H~~hearing and render a final decision on the request for a District.
2. All outstanding application, staff, and legal fees shall be paid in full to the City prior to the approval of a District.

~~*(Ord. No. 2019-01 , § 2(Exh. A), 1-8-2019)*~~

3.26.030. ~~3.27.03.~~Approval Criteria

The City Council shall consider the following approval criteria when reviewing a request for the creation of a District:

A. The request is consistent with **Section** ~~13.10.010, Municipal Utility District (MUD), Water Control and Improvement District (WCID) or Fresh Water Supply District (FWSD)~~3.26.010, of this Code;

B. The request is consistent with all applicable City policies as adopted by the City Council; and

C. The request supports the following objectives:

1. Quality Development

The development meets or exceeds the intent of the development and design standards of City codes;

2. Extraordinary Benefits

The development provides extraordinary public benefits that advance the vision and goals of the Comprehensive Plan, such as, but not limited to, extension, financial contribution, or enhancement of master planned infrastructure, diversity of housing, and enhanced parks and open space that are available to the public;

3. Enhance Public Service and Safety

The development enhances public services and optimizes service delivery through its design, dedication of sites, connectivity, and other features;

4. City Exclusive Provider

The development further promotes the City as the exclusive provider of water, wastewater, solid waste, and electric utilities;

5. Fiscally Responsible

The development is financially feasible and does not impair the City's ability to provide municipal services;

6. Finance Plan

The developer(s) contribute financially to cover a portion of infrastructure expenses without reimbursement by the Districts or the City; and

7. Annexation

When applicable, the development will not impair the City's future annexation of the Districts or adjacent property, or impose costs not mutually agreed upon.

(Ord. No. 2019-01 , § 2(Exh. A), 1-8-2019)

Section 3.27. Section 3.28.Courthouse View Waiver

3.27.010. 3.28.01. Applicability

A request for a waiver from the requirements of the Courthouse View Protection Overlay standards of this Code, as provided for within this Code, may be considered when a request does not meet the criteria for a Courthouse View Exception.

(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)

3.27.020. 3.28.02.Initiation

Initiation of the Courthouse Waiver request may be made upon submittal of a complete application by a property owner or their designated agent.

(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)

3.27.030. 3.28.03.Application and Completeness Determination

The applicant shall submit all of the information required in the UDC Development Manual. The Director is responsible for determining the completeness of an application submitted, pursuant to **Section 3.02.040. Determination of Application Completeness**.

(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)

3.27.040. 3.28.04.Staff Review

A. The Director shall review the application, consider applicable criteria for approval, and prepare a report to the City Council.

B. The Director may establish procedures for administrative review necessary to ensure compliance with this Code and state statute.

C. The Director's report may include a recommendation for final action.

(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)

3.27.050. 3.28.05.Final Action

Following notice in accordance with **Section 3.03. Public Hearing and Notice**, the City Council shall hold a public hearing in accordance with its rules and state law, and consider the Courthouse View Waiver, Director's report, and compliance with this Code, and take final action.

A. Approval of a Courthouse View Waiver for property located within the Downtown Overlay District shall require a simple majority vote plus one additional vote of approval of the members present.

B. Approval of a Courthouse View Waiver for all other property located outside of the Downtown Overlay District shall require a simple majority vote of the members present.

(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)

3.27.060. ~~3.28.06.~~Approval Criteria

A Courthouse View Waiver may be approved, conditionally approved, or disapproved. All of the following factors are required for approval:

A. The existence of specific site opportunities or constraints.

B. The proposed waiver furthers goals of the comprehensive plan, and any applicable ~~s~~Small ~~a~~Area ~~p~~Plans, specific to the location of the property and furthers a specific implementation step(s) of the ~~c~~Comprehensive ~~p~~Plan.

C. The waiver is not contrary to the public interest.

D. The request for a waiver creates a building height that is in scale with conforming uses of nearby property and with the character of the neighborhood. When properties are located in a Historic Overlay District the development has undergone a conceptual review by the Historic and Architectural Review Committee (HARC) with general support for the building massing and form.

~~*(Ord. No. 2022-89 , § 2(Exh. A), 11-22-2022)*~~

Section 3.28. ~~Section 3.29.Nonconforming Status~~Historic Design Guidelines Procedures

3.28.010. ~~3.29.01. Applicability~~Request to Create or Amend Guidelines

~~A request for a determination of legal nonconforming status, as defined in **Section 14.01.04**, may be made to the Director to determine that a use, lot, structure, site, or sign is exempt from the requirements as provided in this Code.~~

A. City Council or HARC may request amendments or updates to any adopted design guidelines or create new guidelines if none were adopted at the time of Historic Overlay designation by directing the HPO to submit recommendations to HARC for consideration.

B. The HPO may initiate the process of amending any adopted design guidelines, or for creating new guidelines if none were adopted at the time of the Historic Overlay designation.

3.28.020. ~~3.29.02.Review Process~~Consideration by HARC

~~Review of a determination of legal nonconforming status shall follow the administrative review procedures set forth in Section **3.03.05. Administrative Review Process**, subject to the criteria for approval set forth below.~~

A. Scheduling the Hearing

Once the HPO has sent notice and prepared the proposed design guidelines, a hearing must be scheduled before the HARC for consideration. Notice of the hearing must be sent to all affected property owners.

B. HARC Recommendation

After the hearing, the HARC shall recommend approval, approval with revisions, denial or continuation of the request to a future date. Recommendations are forwarded to the City Council for final consideration.

3.28.030. ~~3.29.03.Approval Criteria~~City Council Hearing & Action

~~A determination of legal nonconforming status may be made if the Director finds that the structure, lot, site, sign, or use was lawfully in existence, constructed, and located on the effective date or applicability of this Code or any amendment thereto or was legally constructed to meet previous requirements of this Code and has been in regular~~

and continuous use, but which does not conform to the current requirements of this Unified Development Code, shall be granted legal nonconforming status, except as specifically exempted or prohibited by other sections of this chapter. A legal nonconforming structure, lot, site, sign, or use may remain or continue, subsequent to the effective date of this Code and any amendments thereto, provided that such continuance is in accordance with the provisions of this chapter and all other applicable codes of the City

3.29.04. Responsibility for Final Action

The Director is responsible for final action on the determination of the final legal nonconforming status.

A. Submission to City Council

Following HARC's recommendation on the proposed amendments or creation of design guidelines, the request shall be submitted to City Council for review and consideration.

B. City Council Action

The City Council shall give notice and conduct a public hearing for the request.

C. Adopted Guidelines

Adopted design guidelines must be used by City staff in implementing the intent and purpose of the Historic Preservation Ordinance. Invalidation of any portion of the guidelines does not affect the validity of other provisions. Any existing design guidelines remain in effect until the City Council approved amendments or revisions.

3.28.040. Supplemental Policy Guides

A. Purpose

HARC may adopt supplemental policy guides that provide additional clarification, best practices, or detailed expectations for specific types of requests frequently reviewed by the Commission. These policy guides are intended to support consistent interpretation and application of the adopted design guidelines.

B. Consistency with Adopted Guidelines

Supplemental policy guides must be consistent with and subordinate to the City Council–adopted design guidelines and may not create new standards, modify existing standards, or conflict with adopted guidelines.

C. Review and Approval Process

The HPO may prepare draft supplemental policy guides or accept requests from HARC to develop them. Draft policy guides must be placed on a HARC agenda for review and may be adopted by majority vote following discussion in a public meeting.

D. Effect of Adoption

Upon adoption, supplemental policy guides may be used by staff and HARC to provide additional clarity and expectations for applicants but may not replace or supersede City Council-adopted design guidelines.

Section 3.29. Historic Resource Survey Procedures

3.29.010. Request to Create or Update a Historic Resource Survey

A. Initiation by City Council or HARC

City Council or HARC may request preparation of an updated or new Historic Resource Survey by directing the HPO to initiate the process and prepare recommendations for HARC consideration.

B. Initiation by the Historic Preservation Officer (HPO)

The HPO may initiate the creation of a new survey or updates to an existing survey based on newly identified resources, preservation priorities, updated research, or the need for improved documentation.

3.29.020. Preparation of Survey Materials

A. The HPO shall coordinate preparation of the survey, which must include:

1. Survey boundaries;
2. Photographic documentation;
3. Classification of resources (e.g., contributing, noncontributing, eligible, ineligible);
4. Statements of significance and period(s) of significance;
5. Historical context(s);
6. Maps and inventory forms; and
7. Summary findings and recommendations.

B. The HPO may conduct the survey directly or manage consultants undertaking the work.

C. Once completed in draft, the survey shall be posted for public review consistent with City notification procedures.

3.29.030. Consideration by HARC

A. Scheduling the Hearing

The draft Historic Resource Survey must be scheduled for a public meeting of HARC after the required notice has been provided.

B. HARC Recommendation

After receiving public input and reviewing the draft survey, HARC shall make a recommendation that is forwarded to City Council for final review.

3.29.040. City Council Review & Action

A. Submission to City Council

Following HARC's recommendation, the draft survey shall be submitted to City Council for review and consideration.

B. Adoption

Upon Council adoption, the Historic Resource Survey becomes an official planning document used by the City in evaluating historic significance, determining contributing status, guiding preservation priorities, and supporting designation of Historic Landmarks or Historic Overlay Districts.

3.29.050. Use and Maintenance of Historic Resource Surveys

A. The HPO shall maintain the adopted survey and update it periodically to reflect changes in conditions, new research, newly eligible resources, or resources lost to demolition or alteration.

B. Updates may be minor (administrative corrections or new photos) or major (reclassification of significance, boundary changes, new historic contexts).

C. Major updates require the full process outlined above. Minor updates may be approved administratively by the HPO and reported to HARC.

Chapter 4. Zoning Districts ~~(Chapter 4)~~

Section 4.01. Establishment of Zoning Districts

The following zoning districts may be established for the City as authorized by the City Charter and Texas Local Government Code Chapter 211.

4.01.010. Zoning Districts

Table ~~4.01.010:~~4.01.010-1. Zoning Districts

Residential Zoning Districts	
AG	Agriculture
RE	Residential Estate
RT	Residential Traditional
RS	Residential Suburban
RM	Residential Mix
MF-1	Medium Density Multif~~-f~~amily Residential
MF-2	High Density Multif~~-f~~amily Residential
MH	Manufactured Housing
Non-Residential Zoning Districts	
CN	CN Neighborhood Commercial
C-1	Local Commercial
C-2	Regional Commercial
PF	Public Facilities
I-1	Flex Industrial
I-2	Intensive Industrial
Special Purpose Zoning Districts	
PUD	Planned Unit Development
Mixed-Use Zoning District	
MU-DT	Mixed-Use Downtown
~~MU~~	~~Mixed Use~~
Overlay Zoning Districts	
NC	Neighborhood Conservation Overlay District
D	Downtown Overlay
OT	Old Town Overlay
H	Historic Overlay
HL	Historic Landmark
CVP	Courthouse View Protection Overlay

G	Gateway Overlay

A. (Ord. No. 2014-30, § 2(Exh. A), 5-27-2014; Ord. No. 2015-49, § 2(Exh. A), 9-22-2015)Zoning Districts

B. The Two-Family, Townhouse, Office, Business Park, and Industrial districts are declared legacy zoning districts upon adoption of this UDC as set forth on the Official Zoning Map.

C. No additional property will be rezoned to a legacy zoning district after the effective date of the UDC. Property located in a legacy zoning district shall continue to be subject to zoning regulations applicable at the time the property was rezoned to a legacy zoning district. All other provisions of this UDC shall apply to legacy zoning districts.

Section 4.02. Zoning District Equivalency Table

Note for Staff: New Section added for equivalency table.

The following table identifies zZoning dDistricts, other than Legacy Zoning Districts, adopted in previous ordinances and the zZoning dDistrict regulations that now apply in this UDC to those dDistricts.

Table 4.02.010:4.01.020-1. Zoning District Equivalency Table

Previous UDC	Current UDC
Residential Zoning Districts	
AG Agriculture	AG Agriculture
RE Residential Estate	RE Residential Estate
RL Residential Low Density	RT Residential Traditional
RS Residential Single-family	RS Residential Suburban
TF Two-ffamily	RM Residential Mix
TH Townhouse	
MF-1 Low Density Multifamily	MF-1 Medium Density Multif-family Residential
MF-2 High Density Multifamily	MF-2 High Density Multif-family Residential
MH Manufactured Housing	MH Manufactured Housing
Non-Residential Zoning Districts	
CN Neighborhood Commercial	CN Neighborhood Commercial
OF Office	
C-1 Local Commercial	C-1 Local Commercial
C-3 General Commercial	C-2 Regional Commercial
PF Public Facilities	PF Public Facilities
BP Business Park	I-1 Flex Industrial
IN Industrial	
-	I-2 Intensive Industrial
Special Purpose Zoning Districts	
PUD Planned Unit Development	PUD Planned Unit Development
Mixed-Use Zoning Districts	
MU-DT Mixed-Use Downtown	MU-DT Mixed-Use Downtown
MU Mixed Use	MU Mixed Use

Overlay Zoning Districts	
SP Special Area Plan Overlay	SP Special Area Plan Overlay
-	NC Neighborhood Conservation Overlay District
D Downtown Overlay	D Downtown Overlay
OT Old Town Overlay	OT Old Town Overlay
H Historic Overlay	H Historic Overlay
HL Historic Landmark	HL Historic Landmark
CVP Courthouse View Protection Overlay	CVP Courthouse View Protection Overlay
G Gateway Overlay	G Gateway Overlay

Section 4.03. Official Zoning Map

4.03.010. ~~4.03.01.~~Official Zoning Map

A. The City is hereby divided into the above ~~z~~Zoning ~~d~~Districts, as shown on the Official Zoning Map, which, together with all explanatory matter thereon, is hereby adopted by reference and declared to be a part of this Unified Development Code (Code). The Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Secretary, and bearing the Seal of the City of Georgetown under the following words:

"This is to certify that this is the Official Zoning Map referred to in Section _____ Ordinance No. _____ of the City of Georgetown, Texas."

B. If, in accordance with the provisions of this Code and Texas Local Government Code § 211.006, as amended, changes are made in the ~~d~~District boundaries or other matter portrayed on the Official Zoning Map, such changes shall be entered on the Official Zoning Map within five business days after the amendment has been approved by the City Council and signed by the Mayor.

C. Approved zoning changes shall be entered on the Official Zoning Map by the appropriate City department and the City shall maintain records identifying the ordinance number making such changes.

D. No change of any nature shall be made on the Official Zoning Map or matter shown thereon except in conformity with procedures set forth in this Unified Development Code. Any unauthorized change shall be null and void and have no force or effect.

E. Regardless of the existence of purported copies of the Official Zoning Map, which may from time to time be made or published, the Official Zoning Map, which shall be located in the office of the Planning ~~and Development~~ Department, shall be the final authority as to the current zoning status of land and water areas, buildings, and other structures in the City.

4.03.020. ~~4.03.02.~~Digital Mapping

Digital maps, created through the use of geographical information system technology, containing registration points recorded on the Texas State Plane Coordinate System, as amended, may be used in the administration and enforcement of this Unified Development Code. Digital mapping will not replace the paper originals of official maps~~,~~ but may represent the most accurate and up-to-date information in between printings.

4.03.030. ~~4.03.03.~~Replacement of Official Zoning Map

A. In the event that the Official Zoning Map becomes damaged, destroyed, lost, or difficult to interpret because of the nature and/or number of changes and additions, the City Council shall, by ordinance, adopt a new Official Zoning Map, which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Official Zoning Map or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the Mayor, attested by the City Secretary, and bearing the Seal of the City and date under the following words:

"This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted (date of adoption of map being replaced) as part of Ordinance No. _____ of the City of Georgetown, Texas."

B. Unless the prior Official Zoning Map has been lost or has been totally destroyed, the prior map or any significant parts thereof remaining, shall be preserved, together with all available records pertaining to its adoption or amendment.

C. The City shall initiate the creation of a revised Official Zoning Map consistent with the provisions of this Code.

4.03.040. 4.03.04.Rules for Interpretation of District Boundaries

Where uncertainty exists as to the boundaries of dDistricts as shown on the Official Zoning Map, the following rules shall apply:

A. Boundaries indicated as approximately following the center lines of streets, highways, or alleys shall be construed to follow such center lines.

B. Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines.

C. Boundaries indicated as approximately following Ccity limits shall be construed as following such Ccity limits.

D. Boundaries indicated as following railroad lines shall be construed to be midway between the rails of the main line.

E. Boundaries indicated as following shorelines shall be construed to follow such shorelines and, in the event of a change in the shoreline, shall be construed as moving with the actual shoreline. Boundaries indicated as approximately following the center-lines of streams, rivers, canals, lakes, or other bodies of water shall be construed to follow such center-lines.

F. Boundaries indicated as parallel to, or extensions of, features indicated above shall be so construed. Distances not specifically indicated in a classification amendment shall be determined by the scale of the map.

G. Where physical features, such as streets, railroad lines, rivers, streams, and such, existing on the ground are at variance with those shown on the Official Zoning Map or in other circumstances not covered above, the Director shall make a written interpretation of the dDistrict boundaries.

4.03.050. 4.03.05.Uniform Application of District Regulations

No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all the zoning regulations herein specified for the dDistrict in which it is located.

Section 4.04. Newly Annexed Territory

4.04.010. 4.04.01.Action to AssignInitial Default Zoning Required

A. The Planning & Zoning Commission and City Council shall take action to assign zoning to newly annexed territory in accordance with the procedures of Chapter 3.06. If no other zoning districts are deemed appropriate, then action shall be taken to assign the Agriculture (AG) district to the annexed area.

B. Proceedings to establish zoning may be undertaken concurrently with annexation procedures (i.e., notified at the same time, included on the same agenda, public hearings scheduled at the same time as annexation, etc.).

C. Zoning approval must occur after approval of the annexation ordinance has occurred, and as a separate and distinct action by the City Council.

All new territory hereinafter annexed to the City shall have the initial zoning of Agriculture (AG) Zoning District classification unless another zoning classification that is consistent with the Future Land Use Plan is proposed by the property owner(s) or the Director. For a zoning to AG, there shall be no special action or hearing required to zone the property after or during the annexation process. For any zoning classification other than AG, the procedures of Chapter 3.06 shall be followed (i.e., notice of zoning, hearing ordinance adoption). Newly annexed property may

begin rezoning procedures to any Zoning District during or upon completion of annexation process but may not be approved until annexation is completed.

Section 4.05. Zoning Districts and Special Districts

This ~~S~~section describes the Zoning Districts established in **Section 4.01**. Each ~~d~~District is divided into unofficial categories intended to distinguish similar ~~d~~Districts. ~~Special development types that may be applied to more than one district are described in **Section 4.06**.~~

~~**Note for Staff:**~~

~~Removed~~ ~~purpose~~ ~~to reduce~~ ~~Removing~~ ~~this chap~~ ~~they are.~~

~~Note for Staff: Updated Section 4.04 to reflect separate action is taken to zone property upon annexation.~~

4.05.010. ~~4.05.01.~~Residential Districts

A. The purpose statements and development standards for the Residential Districts established in **Section 4.01** are located in ~~Chapter 6~~Chapter 7 of this UDC.

1. For uses allowed in each ~~z~~Zoning ~~d~~District, see ~~Section 5.02~~Section 6.02.
2. For purpose statements and lot and development standards, see ~~Section 6.03~~Section 7.02.

4.05.020. ~~4.05.02.~~Non-Residential Districts

A. The purpose statements and development standards for the Non-Residential Districts established in **Section 4.01** are located in ~~Chapter 7~~Chapter 8 of this UDC.

1. For uses allowed in each ~~z~~Zoning ~~d~~District, see ~~Section 5.02~~Section 6.02.
2. For purpose statements and lot and development standards, see ~~Section 7.02~~Section 8.02.
3. For building design standards, see ~~Section 7.04~~Section 8.04.

4.05.030. ~~4.05.03.~~Special Purpose Zoning Districts

A. Planned Unit Development (PUD) District

The Planned Unit Development (PUD) District is intended to allow flexibility in planning and designing for unique or environmentally sensitive properties and that are to be developed in accordance with a common development scheme. PUD zoning is designed to accommodate various types of development, including multiple housing types, neighborhood and community retail, professional and administrative areas, industrial and business parks, and other uses or a combination thereof. A PUD may be used to permit new or innovative concepts in land use and standards not permitted by zoning or the standards of this Code. Although greater flexibility is given to allow development in a PUD that would not otherwise be allowed, procedures and standards are established in this Code that are intended to ensure against misuse.

1. For special requirements of a PUD District, see **Section 4.07**6.

~~*(Ord. No. 2015-48, § 2(Exh. A), 9-22-2015)*~~

4.05.040. 4.05.04.Mixed-Use Downtown (MU-DT) Zoning Districts.

A. Mixed Use Downtown (MU-DT) District

The Mixed--Use Downtown (MU-DT) District is intended to provide a location for a mix of land uses, including general commercial and retail activities, office, as well as single-family and multi-family in the downtown area. Developments in the MU-DT District are typically smaller in size and scope, although there may be occasionally heavy traffic. The MU-DT District is only appropriate in the traditional downtown area of Georgetown.MU-DT District Pproperties in MU-DT shall meet the design requirements of the Downtownshall fall within the Historic Overlay District and the Historic District Design Guidelinesor Old Town Overlay.

1. For uses allowed in the MU-DT District, see Section 5.02 **Section 6.02**.
2. For dimensional interpretations and exceptions, see Section 7.03**Section 8.03**.
3. For building design standards, see Section 7.04.**Section 8.04**.

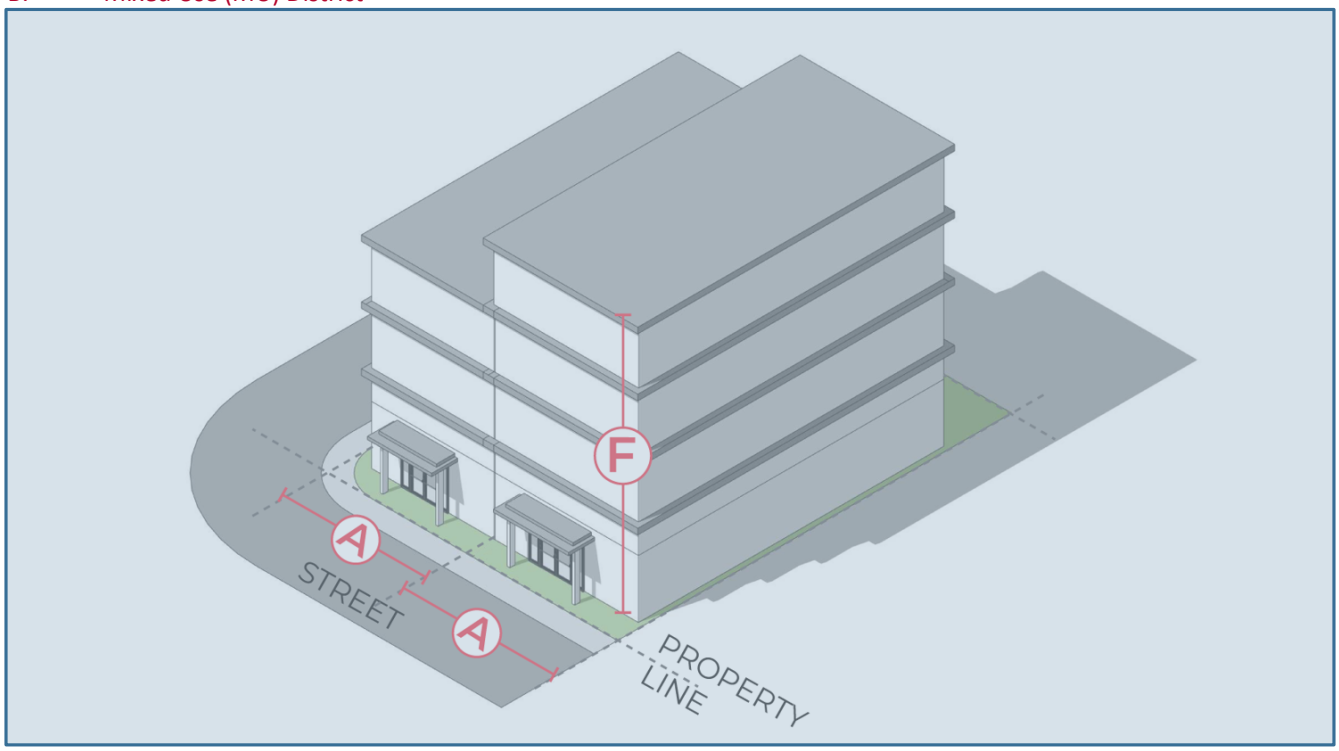
4. For Downtown and Old Town code requirements, see **Chapter 5**

B. 5.For Downtown Overlay District design standards, see **Section 4.09**. Lot and Dimensional Standards

Mixed-Use Downtown (MU-DT) District		
	District size, minimum square feet	N/A
	Lot size, minimum square feet	N/A
A	Lot width, minimum feet[1]	25
B	Front/primary street setback, minimum feet	0
C	Front setback, build-to option	See **8.03.030.A**
	Front setback, Downtown Gateway Overlay	See **4.10.040.B**
D	Side setback, minimum feet[2]	0
E	Rear setback, minimum feet[2]	0
F	Building height, maximum feet[3]	40
	Maximum impervious cover[4]	See **Section 13.02**

[1] Lot width shall be sufficient to allow for minimum driveway spacing required for the classification of street from which the lot is accessed, consistent with the driveway spacing requirements in **Section 14.08**.

[2] Increased setbacks may be required to promote compatibility adjacent to residential areas in **Section 9.03.070**.



[3] Structures, lighting, scoreboards, and other elements of a stadium are exempted, but shall be set back a minimum of 120 feet.

[4] Non-residential development over the Edwards Aquifer is subject to the impervious cover requirements in **Chapter 13**.

6. See also the Downtown Master Plan.

7. See also the Historic District Design Guidelines, referenced in Section 1.14.

B. Mixed Use (MU) District

The Mixed Use (MU) District is intended to provide development standards to promote a dense and active mixed use urban environment that incorporates residential and non-residential uses. The MU District shall be used only in conjunction with the procedures in **Section 4.10** and is not intended to accommodate a mix of uses in traditional zoning districts. The district is appropriate in, but not limited to, areas designated as Specialty Mixed Use, Mixed-Use Neighborhood Center, and Mixed-Use Community in the 2030 Future Land Use Plan. The MU District contains a series of sub-districts that differ in size, scale, design, and allowed uses, to be established as part of a regulating plan prior to zoning approval. The development standards for the MU District also apply to Transit Oriented Development (TOD), which is a specific type of development allowed in the MU District.

Note for Staff:

Please confirm whether changes are needed to the categories based on recent plan amendments.

The Mixed Use (MU) District also allows for a mixed-use development of limited size and scope that requires only one sub-district. Typically, these are projects that have a distinct development plan that does not fit a base zoning district or is limited in developable area. The Urban Village and Urban Neighborhood sub-districts, as defined in **Section 4.10**, are the only allowable sub-districts for this type of proposal. All requirements of the sub-district and other applicable standards of the MU District apply.
