

PUBLIC HEALTH TRUST BOARD OF TRUSTEES TELEVISED MEETING AGENDA

**WEDNESDAY, APRIL 24, 2024
12:30 PM**

**IRA C. CLARK DIAGNOSTIC TREATMENT CENTER (DTC)
SECOND FLOOR, CONFERENCE ROOM 259
1080 N. W. 19TH STREET
MIAMI, FL 33136**

Public Health Trust Board Rules

Any person making impertinent or slanderous remarks or who becomes boisterous while addressing the committee, shall be barred from further audience before the committee, unless permission to continue or again address the committee be granted by the Chairperson. No clapping, applauding, heckling or verbal outbursts in support or opposition to a speaker or his or her remarks shall be permitted. No signs or placards shall be allowed in the Board Room. Persons exiting the Board Room shall do so quietly.

The use of cell phones in the Board Room is not permitted. Ringers must be set to silent mode to avoid disruption of proceedings. Individuals, including those seated around the board table, must exit the Board Room to answer incoming cell phone calls.

12:30 p.m.**

**Ira C. Clark Diagnostic Treatment Center
Second Floor, Conference Room 259
1080 N. W. 19th Street
Miami, FL 33136**

Public Health Trust Board of Trustees

Walter T. Richardson, Chairman
Carmen M. Sabater, Vice Chairwoman
Antonio L. Argiz, Treasurer
Laurie Weiss Nuell, Secretary
Matthew J. Allen
Amadeo Lopez-Castro, III
Senator Alexis Calatayud

Members Present: Walter T. Richardson, Laurie Weiss Nuell, Amadeo Lopez-Castro, III, and Senator Alexis Calatayud

Member(s) Excused: Mathew J. Allan, Carmen M. Sabater and Antonio L. Argiz

In addition to the Board of Trustees, the following staff members, legislative guest and Assistant Miami-Dade County Attorneys were present: Carlos Migoya, David Zambrana, Rev. Jacqueline D. Kelley; Ashlee Pouncy, and Laura Llorente, Assistant Miami-Dade County Attorneys

1. CALL TO ORDER

Walter T. Richardson, Chairman, Public Health Trust Board of Trustees at 12:32 p.m.

2. INVOCATION

Rev. Jacqueline D. Kelley, Director of Pastoral Care, Jackson Health System led everyone in the invocation.

3. PLEDGE OF ALLEGIANCE

Dr. Richardson led everyone in the pledge of allegiance.

4. SPECIAL ANNOUNCEMENT(S)

Adriana Pascal, Secretary to the Public Health Trust Board of Trustees, read into the record the following memo from Trustee Mathew J. Allen pursuant to Florida Statute:

Resolution PHT No. 007 January 31, 2024.

As a result of the above item revolving around the potential redevelopment of property located at 1500 N.W. 12th Avenue, and the fact that I am the COO at Related, a Real Estate developer, a potential conflict exists. Therefore, I am recusing myself from any agenda items revolving around this property, any future RFP's, or and votes pertaining to such. Mathew J. Allen, PHT Board Member.

5. REASONABLE OPPORTUNITY FOR THE PUBLIC TO BE HEARD AS REQUIRED BY SECTION 286.0114.FLA.STAT. (CHAPTER 2013-227, LAWS OF FLORIDA)

There were no requests from the public to be heard.

6. MOTION TO SET THE AGENDA

Amadeo Lopez-Castro, III moved to set the agenda as presented; seconded by Laurie Weiss Nuell, and carried without dissent.

7. APPROVAL OF PREVIOUS MEETING MINUTES FOR FEBRUARY 28, 2024

Senator Alexis Calatayud moved approval; seconded by Laurie Weiss Nuell, and carried without dissent.

8. CHAIRMAN'S REPORT

No report.

9. PRESIDENT AND CHIEF EXECUTIVE OFFICER REPORT

Carlos A. Migoya, Chief Executive Officer, Jackson Health Systems (JHS) spoke about the actions that are ongoing to re-align and refine Jackson Health System budget and preserve JHS transformation. Post-pandemic inflation across industries has affected all of us in our personal lives, and it certainly has impacted Jackson bottom line. JHS is also experiencing lower-than-anticipated volumes in a few high revenue-generating service lines. JHS recently implemented an efficiency and cost savings plan to help course correct. Now, halfway through this fiscal year, senior leadership team is confident that JHS made the needed changes to ensure continue delivery of best patient care while able to meet institutional goals. On March 13, 2024 JHS hosted a virtual Town Hall meeting on Zoom where Mr. Migoya and executive leadership team spoke candidly about the issues JHS is facing. These challenges are stressful however, JHS is not in a crisis mode, and the Jackson of today is stable, strong and resilient. JHS caregivers and patients can rest assured that this is just a blip that JHS will get through.

Mr. Migoya shared positive news about JHS teams. Rosa Costanzo, Senior Vice President Strategic Sourcing, Supply Chain Management Division and Chief Procurement Officer and Team were recently awarded the GHX Supply Chain of Distinction Award for 2023. This award recognizes GHX Exchange-connected provider organizations that are driving best-in-class efficiencies by executing perfect order metrics during a calendar year. Winner represents the top 25 performers in three organizational segments, Jackson Team was awarded "Large Organization". Ms. Costanzo and her team are role models in their field, Jackson Congratulates them for this well- deserved recognition. In conclusion Mr. Migoya reminded everyone of Thursday, April 4th One Day for Jackson Event. This is a countywide initiative by Jackson Health Foundation exclusively to raise funds and awareness for Jackson Health System. Details on all partnerships and activations are available on **OneDayforJackson.org** and also visit the website to make a donation or by texting the word Jackson to 41444.

10. COMMITTEE REPORTS

10.a Joint Conference and Efficiencies Committee, Laurie Weiss Nuell, Chairwoman

The Committee met on March 27, 2024. Ms. Weiss Nuell provided an overview of the Committee Meeting. Received an outstanding quality report from Andres Gonzalez, Chief Nursing Officer at Jackson South Medical Center. All trends going on the right direction. Resolution for credentialing report presented for approval.

10.b Fiscal Committee, Amadeo Lopez-Castro, III, Vice Chairman

The Committee met on March 27, 2024. Committee received report from Mark Knight. Jackson System has seen improvement in values, however, continue to work with salaries and supply expense reduction. Productivity is strong, there is a reduction in premium pay less than \$8 million; goal is to go to pre-COVID date of \$5 million. Challenges with cash collection, March should be a better month. The outlook for the rest of the year seems to be better, there is a \$1 million profit for the month. Mr. Knight provided an update on the Cyber incident but no significant impact to Jackson. Fiscal team began process for FY25 budget.

10.c Strategy and Growth Committee, Walter T. Richardson, Chairman

The Committee met on March 27, 2024. Esther Caravia reported on the last Legislative Session. It was a great Session based on great strategic meetings and partnerships established in Tallahassee.

11. RESOLUTIONS RECOMMENDED TO BE APPROVED AS PRESENTED 11.a-11.b

Llaura Llorente, Assistant Miami-Dade County Attorney read into the record the following resolutions recommended be approved:

11.a

RESOLUTION NO. PHT 04/2024 – 016

RESOLUTION AUTHORIZING AND APPROVING AWARD OF BIDS AND PROPOSALS, WAIVER OF BIDS, AND OTHER PURCHASING ACTIONS FOR APRIL 2024, IN ACCORDANCE WITH THE PUBLIC HEALTH TRUST'S PROCUREMENT POLICY, RESOLUTION NO. PHT 11/2023-064

Rosa Costanzo, Senior Vice President Strategic Sourcing, Supply Chain Management Division and Chief Procurement Officer, Jackson Health System

WHEREAS, bids and proposals were solicited, received and reviewed by staff; and

WHEREAS, the Purchasing and Facilities Subcommittee met April 24, 2024 and reviewed staff's recommendations as submitted under the PHT's Procurement Policy, Resolution No. PHT 11/2023-064; and

WHEREAS, the Purchasing and Facilities Subcommittee forwarded the Purchasing Report to the Fiscal Committee with a recommendation for approval for each item under the report, which is attached hereto and hereby incorporated by reference; and

WHEREAS, upon his written recommendation, the Chief Executive Officer (CEO) recommends that the Public Health Trust Board of Trustees (Board of Trustees) waive competitive bidding for items under the heading of "Bid Waiver" and "Waiver of Full and Competitive Bidding" in the respective Purchasing Report, finding such action to be in the best interests of the Public Health Trust; and

WHEREAS, the CEO and Fiscal Committee recommend various other purchasing actions, as indicated in the attached Purchasing Report.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE PUBLIC HEALTH TRUST OF MIAMI-DADE COUNTY, FLORIDA, that this Board hereby authorizes and approves the award of bids and proposals and all the purchasing actions as set forth in the attached Purchasing Report, under the Public Health Trust's Procurement Policy, Resolution No. PHT 11/2023-064; and finds it in the best interest of the Public Health Trust to waive competitive bidding for those items listed under the heading "Bid Waiver" and "Waiver of Full and competitive Bidding" in the respective report; and to take such action as is necessary and authorized to implement these awards and actions.

TO: Walter T. Richardson, Chairman
and Members, Public Health Trust Board of Trustees

FROM: Rosa Costanzo
Senior Vice President Strategic Sourcing, Supply Chain Management Division and
Chief Procurement Officer

DATE: April 24, 2024

RE: Purchasing Report

Recommendation

The following recommendations are made in accordance with the Trust's Procurement Regulation.

These items fully support our business operations and help the organization in its efforts to provide an excellent world class patient experience.

Scope

This report includes competitively solicited contract awards over \$5,000,000, waivers of formal competition over \$250,000 and other categories for Board approval as prescribed by the Procurement Regulation.

Fiscal Impact/Funding Source

The items included are part of the Trust's budget.

Track Record/Monitor

The Procurement Management Department along with the user departments and leadership support will track and monitor the responsibilities and obligations set forth in the contracts.

Background

The entire report has been vetted and assembled by the Procurement Management Department with the direct participation of the Director and staff, all subject to review by the Chief Procurement Officer, consultation with the Executive Staff and the President, and reviewed for legal sufficiency by the County Attorney's Office. Request is made for approval of the Purchasing Report, consisting of the following:

<u>Vendor</u>	<u>Amount</u>	<u>Chargeable</u>
1. Medtronic USA, Inc.:	\$3,112,593	For Three years Yes
2. Boston Scientific Corporation:	\$1,072,125	For One year Yes
3. Axogen Corporation:	\$669,120	For Two Years Yes
4. Mitaka USA:	\$358,944	Capital Purchase No
5. Medline Industries, Inc.:	\$3,381,645	For Three Years Yes
6. Intuitive Surgical, Inc.:	\$12,279,387	For Seven Years No
7. Nym Health Inc.:	\$980,000	For Three Years No
8. INO Therapeutics, LLC, d/b/a Mallinckrodt Pharmaceuticals:	\$7,625,000	For Five Years Yes

9.	Better Living Investments, LLC d/b/a Normandy Estates:	\$1,300,000	For One Year	Yes
10.	Vizient, Inc.:	\$3,171,375	For Three Years	No

Procurement completed an orderly administrative process with each item to bring the best value (cost, quality and outcome) with each project.

PURCHASING REPORT

April 24, 2024

TO: PUBLIC HEALTH TRUST BOARD OF TRUSTEES

FROM: PROCUREMENT MANAGEMENT DEPARTMENT

The following recommendations are made in accordance with the Trust's "Procurement Policy" and its implementing "Procurement Regulation." This report includes competitively solicited contract awards over \$5,000,000, waivers of formal competition over \$250,000 and other categories for Board approval as prescribed by the Procurement Regulation. The entire report has been screened and assembled by the Procurement Management Department with the direct participation of the Directors and staff, all subject to review by the Chief Procurement Officer, consultation with the Executive Staff and the Chief Executive Officer, and reviewed for legal sufficiency by the County Attorney's Office.

SECTION I. AWARDS UNDER INVITATIONS TO BID (ITB's)

This section consists of awards under competitively solicited Invitations to Bid (ITB's) over \$5,000,000.

No items to report.

SECTION II. AWARDS UNDER REQUESTS FOR PROPOSALS (RFP's)

This section consists of awards under competitively solicited Requests for Proposals (RFP's) over \$5,000,000.

No items to report.

SECTION III. AWARDS UNDER THE COMPETITIVELY SOLICITED CONTRACTS OF OTHER PUBLIC PROCUREMENT ENTITIES

This section consists of awards over \$5,000,000 under competitively solicited ("ITB," "RFP" or equivalent) contracts of other public and nonprofit entities.

No items to report.

SECTION IV. AWARDS UNDER GROUP PURCHASING ORGANIZATION ("GPO") CONTRACTS

This section consists of awards over \$5,000,000 under Group Purchasing Organization ("GPO") contracts. GPOs are organizations that aggregate the purchasing volume of their members consisting of hospitals and other health care providers to leverage discounts with manufacturers, distributors and other vendors to realize administrative savings and efficiencies. The Trust's GPO is Vizient.

No items to report.

SECTION V. AWARDS UNDER A WAIVER OF FORMAL COMPETITION

This section consists of awards over \$250,000 without the formal solicitation of competitive bids or proposals. All award recommendations in this section have the approval of the President, are based on a finding that the waiver of competitive bidding is in the best interests of the Public Health Trust, and require a two-thirds affirmative vote of the Trustees present for approval.

CURRENT WORKING DRAFT

A. Sole Source

Staff requests a waiver of formal competition for the contract items listed in this category because only one supplier exists for the required product/service.

1. (2505665-JR) The Perioperative Services Department, Jackson Memorial Hospital, is requesting an agreement with Medtronic USA, Inc. for a period of three (3) years for the provision of transcatheter aortic valve replacement products and related accessories (ongoing purchase).

Medtronic USA, Inc.:

This Request for Funding:

**\$3,112,593
(For Three Years)**

Background

Medtronic USA will provide the Trust/Jackson Memorial Hospital, with transcatheter aortic valve replacement products and related accessories. The Evolut™ FX transcatheter aortic valve system sets new expectations for precision, control, and predictability in Transcatheter aortic valve replacement (TAVR) procedures. Transcatheter aortic valve replacement (TAVR) is a minimally invasive procedure to replace the aortic valve in patients with severe aortic stenosis. This condition occurs when the aortic valve narrows and blood cannot flow normally. TAVR is less invasive than open-heart surgery, and the procedure typically takes less than one hour. The Medtronic TAVR heart valve is designed to work the same as the patient's own heart valve. The metal frame is a blend of nickel and titanium. This material allows the frame to shape itself to the patient's anatomy. The Evolut™ FX valve frame also has gold markers beneath the outer wrap, allowing the surgeon to better see the valve during the procedure. The Medtronic TAVR heart valve comes in four different sizes.

The Evolut™ PRO+ system offers the lowest delivery profile for 23–29 mm valves (allows access down to 5.0 mm vessels with 23–29 mm valves), excellent hemodynamics (dynamics of blood flow), the broadest annulus range (indicated to treat annulus ranges up to 30 mm in diameter and has the ability to treat the broadest annulus range of any commercially available TAVR system). It also includes advanced sealing with an external tissue wrap on all valve sizes (more surface contact is provided between the valve and the native (unaltered) aortic annulus, with the external tissue wrap, for all valve sizes). The annulus refers to the ring-shaped base of a heart valve that supports the valve's leaflets (or flaps). The Evolut™ R transcatheter aortic heart valve was built on the proven design of Medtronic's CoreValve™ platform and features a supra-annular, self-expanding nickel titanium alloy (nitinol) frame with a low profile delivery, which has led to significant benefits for the patient – safer and shorter procedure, faster recovery, and decreased pain. The Evolut™ R valve can also be recaptured and repositioned. Its self-expanding nitinol frame enhances the ability to conform and seal to the native annulus. The supra-annular leaflet position keeps the working portion of the valve above and unconstrained by the native annulus. Specifically designed for TAVR procedures, the Confida™ Brecker guidewire (CBG) features a continuous, tapered core and pre-shaped curve for secure deployment. It is designed to minimize the risk of ventricular perforation.

In providing a statement in line with the Trust's Environmentally Responsible initiatives, Medtronic has offered that it is committed to set near-term science based emissions reduction targets and long-term net-zero targets for validation by the science based targets initiative. Medtronic mitigates potential disruptions and strengthens the resilience of their operations by assessing business risks from climate change. They also acknowledge that their business impacts the environment, so they target to reduce emissions and promote renewable energy adoption and waste reduction within Medtronic and throughout the healthcare sector.

Recommendation

In light of the forgoing, the Perioperative Department has determined that it would be in the Trust's best interest to award this contract to Medtronic USA, Inc. Through negotiation, vendor will provide a \$77,814.83 rebate (7.5%) based on an annual spend of \$1,037,531, providing the Trust with total savings of \$233,444.49 over the three-year term. **ECRI has reported that pricing for the vast majority of the Medtronic's line items fall below the Supply Guide Low Price; as such, Medtronic has provided a competitive offer to the Trust.**

Terms and Conditions are pursuant to the Master Agreement between the parties, which was approved by Risk Management as to insurance and liability, and by the Perioperative Dept. as to business terms.

The contract can be terminated for convenience with a thirty (30) calendar day-notice and includes UAP and OIG fees. The UAP and OIG fees are taken as deductions on the invoices.

This procurement has been reviewed for SBE participation. The specialized coronary products purchased under this agreement are provided from the original equipment manufacturer, Medtronic. The products are shipped directly to

Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Medtronic is aware of Jackson’s SBE program and the expectation of vendor partners to advance that commitment.

In accordance with JHS’ Contractor Due Diligence review, Medtronic USA, Inc. has provided a Sworn/Notarized Statement to the Trust’s Procurement Management Department that: (1) no Lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the Firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Josen Thomas, Director Cath Lab; Alejandro Cid, Director Business Operations, Venus Oro, Associate Nurse Manager, Sunitha Abraham, Senior Director Perioperative Services; Rudy Pesant, Senior Financial Analyst Perioperative Svcs.; Tiago Machuca, MD, Director of the Lung Center; Efren Buitrago, MD, Cardiovascular Thoracic General Surgery, and Sarah Freeman, Senior Contract Analyst, Medtronic USA, Inc. with no reported disclosures. **(H. Clark)**

B. Physician’s Preference

Staff requests a waiver of formal competition for the contract items listed in this category because a physician and a clinician have requested the particular item, without which the physician and clinician cannot successfully and safely render patient care.

2. (2422336, 2420549-JR) The Surgery Departments, Jackson West Medical Center and Jackson North Medical Center, are requesting an agreement with Boston Scientific, for a period of one (1) year for the provision of prosthetic urology products (ongoing purchase).

Boston Scientific Corporation:

This Request for Funding:	\$1,072,125 (For One Year)
----------------------------------	---

Background

Boston Scientific will provide the Trust with Prosthetic Urology products. The American Medical Systems (AMS) 700® Series is the market-leading inflatable penile prosthesis (IPP) line that urologists have chosen for more than half a million patients as a clinically-provided, durable, and permanent erectile dysfunction treatment. The AMS 700® IPP is designed to offer patients a natural appearance and provide maximum rigidity. The unique, sophisticated cylinder construction is meticulously layered with silicone and fabric that work together to reinforce and maintain a symmetrical shape regardless of patient anatomy. The result is a phallus that looks natural in both the flaccid and erect state. In addition, the cylinder design minimizes the risk of cosmetic deformities, such as dog ears, that can cause men discomfort and impact their confidence.

The innovative AMS 700® Inflatable Penile Prosthesis is the only IPP line impregnated with Inhibizone Antibiotic Treatment, provided to reduce implant-related infections in even the most challenging patients.

- 56% reduced risk of infection in first-time implant
- 32% reduced risk of infection in revision procedures
- 65% reduced risk of infection in high-risk patients with diabetes

In providing a statement in line with the Trust’s Environmentally Sustainable initiatives, Boston Scientific has offered the following: “We focus on minimizing the environmental impacts of our products and materials. Our product stewardship initiatives focus on reducing the environmental footprint of our devices at every life cycle stage. Our longstanding commitment to protecting the environment is rooted in the belief that we have a responsibility to improve the lives of patients. When we take action to protect the planet and confront climate change, we reduce our environmental impact, improve the sustainability of our supply chain, and help to mitigate climate risks to the business.

In providing a statement on the benefit, to the Trust, of this procurement, the Surgery Departments have offered that The AMS 700® line has three design options – the most variations of any penile implant on the US market. All are available with Inhibizone, clinically proven to reduce revision surgery due to infection, and also offer the same innovative

silicone construction to fit ED patients’ needs. The AMS penile prosthesis and the rifampin/gentamicin coating has the lowest infection rate.

Recommendation

In light of the forgoing, the Surgery Departments have determined that it would be in the Trust’s best interest to award the contract to Boston Scientific Corporation for the provision of its Prosthetic Urology products. Through negotiation, a \$205,116,83 cost savings was achieved against the supply cost for this transaction.

Vendor made changes to the Trust’s standard terms and conditions, which were approved by Risk Management as to insurance and liability, and by the Surgery Dept. as to business terms.

The Contract can be terminated for convenience with a thirty (30) calendar-day notice and includes UAP and OIG fees. The UAP and OIG fees are taken as deductions on the invoices.

This procurement has been reviewed for SBE participation. The implant products purchased under this agreement are provided from the original equipment manufacturer, Boston Scientific. The products are shipped directly to Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Boston Scientific is aware of Jackson’s SBE program and the expectation of vendor partners to advance that commitment.

In accordance with JHS’ Contractor Due Diligence review, Boston Scientific provided a Sworn/Notarized Statement to the Trust’s Procurement Management Department that: (1) lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Sherly Thomas, Surgery Director, JNMC; Diana Peterson, Administrator, JNMC; Susan Chediak, Director, JWMC; Dayron Rodriguez, MD, Urologist, JWMC; Ariel Kaufman, Urologist, JWMC; Lisa Scheber, Sr. Contract Strategy Analyst, and Christopher Ortega, Men’s Health Field Sales Associate, Boston Scientific Corp, with no reported disclosures. **(E. Borrego, S. Severe)**

3. (2425750,2421048,2460620-JR) The Perioperative Services Department requests a contract award to Axogen Inc. (“Axogen”), for the continued purchase, by Jackson Memorial Hospital, Jackson South Medical Center and Jackson West Medical Center, of Axogen’s Consumables and Restorative Therapy Biologics based on physician preference (ongoing purchase).

Axogen Corporation:

This Request for Funding:

**\$669,120
(For Two Years)**

Background

Axogen will continue to provide to the Trust consumables and restorative therapy biologics, generally used for nerve and valve reconstruction surgical procedures. The physicians have found several advantages to using Axogen’s products as illustrated by the examples below:

Axogen’s *avance* is an off-the-shelf processed human nerve allograft (obtained from a donor) intended for the surgical repair of peripheral nerve discontinuities. Nerve graft implants are intended for use in nerve reconstruction and consist of nerve autografts or allografts usually taken from cadaver donors. Nerve graft implants are typically used in the management of nerve gaps or discontinuities (when the ends of the damaged nerves are too far apart for stitching together), and are intended to provide a scaffold on which nerve regeneration can occur.

Axogen’s *axoguard* is a xenograft biological nerve connector (obtained from porcine-like small intestine submucosa) designed for tensionless repair of transected or severed peripheral nerves. This nerve connector aligns and connects severed nerve ends with less than a 5 mm gap while allowing for the close approximation of severed nerves. Xenograft based implants allow the body’s natural healing process to repair the nerve by isolating and protecting it during the healing process. The patient’s own cells incorporate into the extracellular matrix to remodel and form a tissue similar to the nerve epineurium.

Recommendation

In light of the forgoing, Axogen's consumables and Restorative Therapy Biologics have been designated physician preference items. Through negotiations, a cost avoidance of \$60,000 was achieved, which provides an overall 33% savings vs list pricing. Furthermore, a 5% of savings is offered based on usage, thus providing the Trust with a total savings of \$93,456 for the duration of the contract term. **ECRI has reported that pricing for the vast majority of the Axogen's line items fall below the Supply Guide Median Price, as such, Axogen has provided a competitive offer to the Trust.**

Vendor made changes to the Trust's standard terms and conditions, which were approved by Risk Management as to insurance and liability, and by the Surgery Dept. as to business terms.

The contract can be terminated for convenience with a thirty (30) calendar day-notice and includes UAP and OIG fees. The UAP and OIG fees are taken as deductions on the invoices.

This procurement has been reviewed for SBE participation. The nerve grafts products purchased under this agreement are provided from the original equipment manufacturer, Axogen. The products are shipped directly to Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Axogen is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

In accordance with JHS' Contractor Due Diligence review, Axogen provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Susan Chediak, Surgery Director, JWMC; Morad Askari, MD, Surgery of the Hand, JWMC; Maria Orbay Aran, MD, Orthopaedic Surgery, JWMC; Esteban Humeniuk, CNO, JSMC; Milaydi Hernandez, Nurse OR Admin, JSMC; Alejandro Cid, Director Business Operations Perioperative Svcs, JMH; Sunitha Abraham, Senior Director, JMH; Jorge Areces, Business Manager, JMH; Sally John, Nurse Manager, JMH; Natalia Fullerton, MD, Hand Surgeon, JHS; Stephen Shelby Burks Jr, MD, Neurosurgery, JHS, and Marc Began, EVP & Regional Counsel, Axogen, Inc., with no reported disclosures. **(H. Clark, E. Borrego)**

4. (2485791-SS) The Operating Room Department at Jackson Memorial Hospital requests approval for funding to purchase one (1) MM90N neuro surgical microscope, designed for micro neurovascular surgery, with a 2-year warranty from Mitaka USA (new purchase).

Mitaka USA:

This Request for Funding:

\$358,944

(Capital Purchase)

Background

The Mitaka MM90 Neuro microscope is a surgical microscope designed for micro neurovascular surgery. It has a high-resolution optical design with an 8:1 zoom ratio (the only one available for surgery), and a maximum magnification of 21.6x, providing brilliant clarity and resolution. It also features a unique rotating binocular, a wide-range multi-focus, a laser focus guide, and a high-speed zoom that goes from minimum to maximum magnification in 1.4 seconds. It is integrated with the SOH stand, with shock absorbing system installed. This provides smooth and precise handling and balance, eliminating vibrations caused by external forces and those caused by maneuvering. The MM90 can also perform fluorescence visualization of Indocyanine Green (ICG), fluorescein and 5-Aminolevulinic Acid Hydrochloride (5ALA) with the tri-fluoro option.

Dr. Ablu is the new neurosurgeon for JMH. He conducted a trial of the Mitaka microscope with surgeons in his specialty. All surgeons are on-board with bringing in the microscope due to its high-quality resolution and noticeable smooth and precise handling and balance in operating the microscope.

TOP FEATURES

- Horizontal optics make the MM90 the smallest microscope on the market
- Exceptional mouth-switch movement taking less than half the force of any other microscope on the market
- One-handed movement is precise and incredibly easy
- 37% more resolution than any non-Mitaka microscope
- Mitaka's famous ease of use and high reliability design

SPECIFICATIONS

- 8:1 Zoom Ratio
- Maximum magnification of 22x
- 400-watt twin xenon light source
- 4K camera with deep-diode ICG color overlay
- Fastest auto balance stands ever made
- 360-degree assistant tube
- Super HD 5ALA Fluorescence
- Super HD Fluorescein Fluorescence
- High resolution recording
- Redesigned shorter ergonomic hand grips
- Foot pedal
- Optional touch-screen monitor
- High Speed Zoom goes from minimum to maximum magnification in 1.4 seconds
- Next-generation vibration absorption

In providing a statement in line with the Trust's environmentally responsible initiatives, Mitaka has offered that it is committed to sustainability and developing technologies for the production of renewable energy. Over the past ten years Mitaka has developed solar thermal energy arrays to help bolster the efficiency of solar farms. More recently Mitaka has developed a proprietary wind turbine system that avoids many of the pitfalls of current turbines. Mitaka microscopes, like all surgical microscopes, are supported by single use disposable sterile covers. Mitaka states they are the only microscope manufacturer directly investing in the development of solar and wind energy technologies that offset the carbon footprint of single-use plastics.

In explaining the benefits, to the Trust, of this procurement, JMH Operating Room Department has stated that the acquisition of the Mitaka microscope represents a significant enhancement to the department's neurosurgical capabilities and patient-care standards. This state-of-the-art microscope offers unparalleled quality, particularly for bypass surgery, with exceptional visualization and zoom capabilities. Following recent experiences with the Arvello microscope, it is evident that the Mitaka microscope is better suited for complex cases, which are commonplace in the OR's Cranial group. Dr. Abba has specifically requested the Mitaka microscope, and all surgeons are in agreement due to its superior resolution, smooth handling, and precise balance during surgical procedures. This investment will undoubtedly elevate our neurosurgical outcomes and ultimately improve patient care.

In providing an explanation for the assessed \$70,000 trade in value, the vendor states that they use a broker (Prescott's Inc.) and pass on their offer 1:1 to the customer. To validate, the Trust requested an estimate from Centurion Service Group who are not able to meet the \$70,000 offer.

Negotiations resulted in \$31,616.85 savings. Vendor concessions include the removal of freight charges (\$3,700), one (1) year extended warranty (\$14,560), as well as an additional 2.98% to 3.25% discount per line item.

The factory warranty will begin upon installation of the equipment and run for a period of one-year. At the expiration of the one-year warranty, the extended warranty provided at no additional cost will begin and continue for a period of one year. The extended warranty includes two annual PMs (preventative maintenance), service calls (recommended to occur every six months), and the replacement of up to two lamps and one fiber cable, if the microscope fails a lux level test. PM includes a general inspection of the microscope system and a general analysis of the functionality of optical systems. The

PM also includes an inspection of illumination output (lux level check), fluorescence functionality, camera and video recording functionality, and balancing and mechanical systems.

Recommendation

The Operating Room Department at Jackson Memorial Hospital has determined that it is in the Trust's best interest to procure the MM90 neuro surgical microscope from Mitaka USA. This purchase will be done through a physician/clinical preference bid waiver.

The purchase includes the OIG and UAP fees. The OIG and UAP fees are provided as deductions on the invoices.

This procurement has been reviewed for SBE participation. The surgical microscope products purchased under this agreement are provided from the original equipment manufacturer, Mitaka. The products are shipped directly to Jackson and the vendor does not subcontract services related to this purchase. The opportunity to include an SBE partner is not available for this product purchase. Mitaka is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

In accordance with JHS' Contractor Due Diligence review, the equipment manufacturer, Mitaka USA, has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

A Bid Waiver Justification was provided and Conflict of Interests declarations have been signed by Dr. Abid Ablu, Physician; Katuiska Pallares, Perioperative Admin; Jorge Areces, Business Manager, Perioperative Admin.; Sunitha Abraham, Senior Director, Perioperative Services; Oscar Betancourt, COO; Patricia Plair, CFO, Timothy O'Malley, Sales Manager, Mitaka USA, and Eric Sturgis, Vice President, Mitaka USA. **(O. Betancourt)**

5. (2422462-242812-LM) JSMC and JWMC Preoperative Services Departments request a three-year contract award to Medline Industries, Inc. for the continued provision of Orthopedic Unite Foot and Ankle Implant System, and related consumables, used for orthopedic surgery procedures in accordance with physician preference (ongoing purchase).

Medline Industries, Inc.:

This Request for Funding:	\$3,381,645
	(For Three Years)

Background

Medline provides strong implants to withstand the rigors of foot reconstruction surgery. The exceptional anatomical design matches the unique contours of the foot to optimize patient outcomes and comfort.

The Medline Orthopedic Unite Foot and Ankle Implant System with consumables is a comprehensive indication-specific orthopedic foot and ankle Recon Plating and screw system. It provides the surgeons with a wide array of anatomical, indications-specific titanium alloy plates, screws, and associated orthobiologic solutions, designed to improve surgical speed, efficiency and patient outcomes. This ultimately helps with operating room turnover times, and eliminates the common implant-related delays.

The Medline Orthopedic United Foot and Ankle System's unique low-profile anatomically contoured titanium implants are stronger than stainless steel and fit the patient's anatomy better. In addition, the unique instrumentation helps with procedural efficiency, optimized tray layout and color-coding, which matches the implants with the instruments. Instruments organized in order of procedure flow helps promote simplicity, reduce errors and increase O.R. efficiency. The single tray design makes the tray easier and more efficient to navigate for surgeons and staff, providing everything the team needs at their fingertips. All of this helps decrease surgery time and cost for the health system. Medline's Orthopedic Unite Foot and Ankle System is the only system on the market that provides continuity across the entire line (system), in terms of using the same driving mechanism, polyaxial locking mechanism, and instrumentation, which provides intraoperative flexibility; and strategically located compression slots maximize joint compression. The molecular hook plates are specially designed with longer, sharper hooks for enhanced fixation of small bone fragments.

Recommendation

The Perioperative Services Department has determined that it would be in the Trust's best interest to award a three (3) year contract with two (2) options to renew of one (1) year each for the provision of the Medline Orthopedic Unite Foot and Ankle Implant System and related Consumables. Pricing will be fixed for the initial three-year term.

In providing a statement in line with the Trust's environmentally responsible initiatives, Medline Industries, Inc. has offered that it focuses on responsible carbon reduction strategy, among other environmentally responsible practices. The vendor has stated the following: "We intend reporting in line with the Task Force on Climate-related Financial Disclosures (TCFD) Risk Management framework and are currently evaluating the development of, and commitment to, science-based targets and a carbon reduction strategy."

In providing a statement on the benefit, to the Trust, of this procurement, the Preoperative Services Departments have offered that Medline Unite Foot and Ankle System is a specialized, indication-specific system that includes unique low-profile anatomically contoured titanium implants which are stronger than stainless steel and fit the patient's anatomy better. The system provides unique instrumentation that helps with procedural efficiency, optimized tray layout and color coding, and single-tray design, all of which help decrease OR time to decrease costs for the facility.

Through negotiations, a \$9,573 price reduction and an annual 1.6% rebate plus 5% Medline Brand growth rebate is offered based on usage of \$1,905,880 per year providing the Trust a total savings of \$57,436 during the contract term. ECRI has reported that pricing for the vast majority of the Medline's line items fall below the potential savings median.

Vendor made changes to the Trust's standard terms and conditions, which were approved by Risk Management as to Insurance and Termination and by Contract Management as to Force Majeure.

The contract can be terminated for convenience with a thirty (30) calendar day-notice and includes the UAP and OIG fees. These fees are provided as deductions on the invoices.

In providing an evaluation of the vendor's performance, The Perioperative Services Department has reported the following:

- The vendor's average turnaround time of goods/services delivery meets standard
- The vendor's competencies of contracted staff meet the standard
- The vendor's deliverables meet contract requirements.
- The vendor provides preventive maintenance on equipment and maintain logs meet the standard
- The vendor's effectiveness of on-site management, including management of subcontractors meet the standard
- The vendor's ability to successfully respond to emergency situations meet the standard
- The vendor's responsiveness to safety issues and safety standards is above standard

This procurement has been thoroughly reviewed for potential SBE participation. Contractor has agreed to engage Miami-Dade County SBE firms in the fulfillment of services during this contract period, as the opportunity presents.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed from Jackson West Medical Center by Susan Chediak, Director PCS; Vivian Barreto, VP, CNO; Alberto Aboud, Dept. CFO & COO; Jennifer Cerami, Executive Account Director, Medline Industries and Patrick Christian, Medline Director Sales Contract Administrator, with no reported disclosures.

In accordance with our Contractor Due Diligence review, Medline Industries, Inc. has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; (3) the Company has not been debarred nor has the firm received formal notices of non-compliance or non-performance in the five (5) years prior to proposal submittals to the Trust. (S. Chediak)

C. Standardization

Items in this category have been established as the Trust standard.

6. (2434082, 2433273-SS) Jackson North Medical Center and Jackson South Medical Center are requesting approval to enter into a placement agreement for two (2) da Vinci Xi surgical robots from Intuitive Surgical, Inc. under an accelerated minimally invasive surgery program (AMP), inclusive of estimated supplies over a seven-year term (new purchase).

Intuitive Surgical, Inc.:

Equipment Placement Costs: \$6,084,000

Estimated Supply Costs: \$6,195,387

**This Request for Funding: \$12,279,387
(For Seven Years)**

Background

Jackson North and Jackson South Medical Centers are requesting a new agreement with Intuitive Surgical, Inc. for the placement of two (2) da Vinci Xi surgical robots under an AMP, in addition this request includes estimated funding needed for the supplies to utilize the robots. Funding requested is presented as a cost not-to-exceed based on targeted utilization of equipment and supplies.

The Intuitive AMP program provides a great opportunity with low financial risk to JHS. There is an additional capacity for the robotic systems at both JSMC and JNMC and having two robotic systems at each location will enhance the ability to target and recruit other surgeons. The AMP Robotic Program from Intuitive will help reducing the wait times for surgeons while improving the OR efficiency. For most patients, robotic surgery offers numerous benefits, including reduced post-surgery pain, less blood loss, fewer and smaller scars. It also promotes faster patient recovery, which in turn reduces the length of stay for the system's patients.

Xi® System Utilization. During the first two (2) years of each Placed System's Use Period, the target number of procedures will be two hundred (200) per Placed System for the first year and two hundred fifty (250) per Placed System for the second year. During years three (3) through seven (7) of the Use Period, the target number of procedures for each Placed System will be three hundred (300) per year. In the event a Placed System completes a total of two thousand one hundred forty-five (2,145) procedures during the 7-year Use Period, the Use Fee will no longer be charged for the remainder of that Placed System's Use Period. After the 7-year Use Period, the price for Service will be mutually agreed upon between Customer and Intuitive.

Recommendation

JNMC and JSMC have determined that it is in the Trust's best interest to enter into a new Agreement with Intuitive Surgical for two da Vinci Xi surgical robots and related supplies.

The agreement includes a Use Fee by System as outlined below over the seven-year term. After twelve (12) months from a Placed System's installation date, and during the term of the Agreement, JHS has the option to a Placed System for the purpose of utilizing the latest technology.

System Type	Use Fee*	Negotiated Use Fee
da Vinci Xi® Single Console System	\$ 1,688.54	\$1,560
da Vinci Xi® Dual Console System	\$ 2,042.32	\$1,886
da Vinci 5® Single Console System	\$ 2,153.06	\$2,153
da Vinci 5® Dual Console System	\$ 2,598.96	\$2,599

Negotiations resulted in a reduction of the use fee representing a savings of \$490,000 over the term of the Agreement. In addition, Intuitive is providing value added savings in the form of training and annual conference attendance at no charge. They will provide sixteen training and proctoring sessions at no cost representing a cost avoidance of \$48,000.

The contract will be submitted for approval to Risk Management as to Insurance and Liability and the terms have been previously approved by the County Attorney’s Office for Legal Sufficiency.

This contract includes UAP and OIG fees. The UAP fee is provided as an upfront discount while the OIG fee is provided as a rebate.

This procurement has been thoroughly reviewed for potential SBE participation. The services provided under this agreement will be performed by Intuitive Surgical employees. The vendor does not subcontract any of its services. The opportunity to include an SBE partner is not available for this service activity. Intuitive Surgical is aware of Jackson’s SBE program and the expectation of vendor partners to advance that commitment.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations have been signed by Milaydi Hernandez Fernandez, Clinical Staff Nurse, Operating Room Labor & Delivery, JSMC; Katherine Gonzales, JSMC Director, PCS Level 2; Victor M Gomez, JSMC CFO; Edward Borrego, JSMC/JWMC CEO & CXO; Diana Peterson, JNMC Administrator; Sherly Thomas, JNMC Director, PCS Level 2, Surgery Separate; Julie Dircks, JNMC CFO; Loyman Marin, JNMC, COO; with no reported disclosures. **(E. Borrego, M. S. Severe)**

D. Non-Competitive Cooperative Purchasing

This subsection consists of awards under the contracts of other public entities that were not competitively solicited.

No items to report.

E. Miscellaneous Bid Waiver

This subsection consists of awards not falling in the other categories of waiver of formal competition but where waiver is deemed to be in the best interests of the Trust.

7. (2503260-LG) The Jackson Health System (“JHS”) Revenue Cycle Management Department (“Revenue Cycle”) is requesting approval to enter into a new three-year Agreement with Nym Health, Inc. (“Nym”) for an advanced autonomous medical coding model (new purchase).

Nym Health Inc.:

This Request for Funding:	\$980,000 (For Three Years)
----------------------------------	--

Background

Nym is a medical-coding software provider revolutionizing healthcare processes through its flagship product, the Clinical Language Understanding (“CLU”) autonomous coding solution, which processes clinical charts autonomously, efficiently, and accurately, ushering in a new era of transparent and breakthrough medical coding technology. Nym’s technology equips computers to recognize the logical relations between various medical records linguistic elements.

The Revenue Cycle Management Department requests approval to engage Nym to automate coding for Outpatient-ED-Unfunded Portfolio, and reduce operational costs. The Department has plans to scale to other service lines, as Nym provides a range of specialized services. However, to ensure a focused and controlled initial approach, Revenue Cycle will have Nym start with Outpatient-ED-Unfunded Encounters.

Nym Health will provide the following to Revenue Cycle:

1. CLU (Clinical Language Understanding) Technology
 - An autonomous coding solution that allows clinical charts to be processed autonomously, efficiently, and accurately. The Nym engine interprets clinical language in patient charts with the utmost accuracy, assigning medical codes in seconds, without human involvement
 - This technology integrates with Electronic Medical Record technology
2. Audit Trail
 - Provides audit summary with a summary of all assigned codes

- Includes ICD 10 Codes assigned with the ICD 10 applied guidelines
- Includes history of present illness, procedures, medications, and final diagnosis

3. Analytic Dashboards

- Analytics of encounters coded through the engine
- Revenue optimization opportunities by trending; code capture, charge capture, E&M leveling, etc.
- Identified opportunities for clinical documentation improvement

The project cost savings associated with this procurement are as follows:

- Reduction in operational Costs (FTEs, QA, Audits, Education, etc.) by 35%
- Reduction in A/R time by 5 Days, thus reducing backlogs
- Claims Denial Rate on Coded Charts is reduced to under 0.15%

The following fees will be applied:

Item	Fee
Implementation and configuration	\$35,000
ED Facility Only	\$1.92 per successfully coded chart
Partial Coding and Coding Guidance	90% of list price
Minimum Commitment Fee	\$8,000

Recommendation

Revenue Cycle has determined that it would be in the best interest of the Trust to enter into the new Agreement, with Nym, for an advanced autonomous medical coding model, which will streamline and enhance Jackson Health System's coding processes to ensure accuracy and efficiency. Nym will transform the Revenue Cycle management by fully automating the medical coding process. The vendor's engine will maintain over 95% coding accuracy, produce fully transparent audit trails for each code assigned, and will automatically update once new coding guidelines are released.

This procurement has been thoroughly reviewed for potential SBE participation. The coding consulting services provided under this agreement will be performed by Nym Health, Inc. employees. The vendor does not subcontract any of its services. The opportunity to include an SBE partner is not available for this service activity. Nym Health, Inc. is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

The agreement can be terminated by the Trust for convenience upon 60 calendar days' prior notice and includes OIG and UAP fees. These fees will be provided as deductions on invoices.

A Bid Waiver Justification has been provided and Conflict of Interest Declarations signed by Myriam Torres, VP Revenue Cycle; Ashwin Kumar, AVP Revenue Cycle, and by Mila Litrovnik, CFO of Nym Health, with no reported disclosures. (M. Torres)

SECTION VI. OPTIONS-TO-RENEW AND CONTRACT MODIFICATIONS FOR CONTRACTS THAT WERE COMPETITIVELY SOLICITED

This section refers to existing contracts that were competitively bid ("ITB", "RFP", "GPO" or "Piggyback") at their origin and consists of either (a) the exercise of established options to renew or (b) the execution of contract modifications for which the Procurement Policy requires prior Board approval.

No items to report.

SECTION VII. OPTIONS-TO-RENEW AND CONTRACT MODIFICATIONS FOR CONTRACTS THAT WERE AWARDED UNDER A WAIVER OF FORMAL COMPETITION

This section refers to existing contracts that were not competitively bid at their origin and consists of either (a) the exercise of established options-to renew or (b) the execution of contract modifications for which the Procurement Policy requires prior Board approval. All contracts in this section are renewals not previously authorized by the Board have the written approval of the President, are based on a finding that the waiver of full and competitive bidding is in the best interest of the Public Health Trust, and require a two-thirds affirmative vote of the Trustees present for approval.

8. (2509098-JM) The Holtz Children’s Hospital, Pediatric Respiratory Therapy Department, requests approval to enter into a five (5)-year Agreement, with INO Therapeutics, LLC d/b/a Mallinckrodt Pharmaceuticals, for the provision of Nitric Oxide Inhalation Gas Therapy Services (ongoing purchase).

INO Therapeutics, LLC, d/b/a Mallinckrodt Pharmaceuticals:

This Request for Funding:	\$7,625,000 (For Five Years)
----------------------------------	---

Background

In April 2021, via Resolution 04/2021-014, the PHT renewed a sole-source contract with Mallinckrodt Pharmaceuticals to secure the Nitric Oxide Inhalation Therapy Gas services, for a period of three (3) years, in the amount of \$7,200,000 (\$2,400,000/year), from May 1, 2021 through April 30, 2024. This request for funding of a new agreement, in the amount of \$7,625,000, is for a five-year term, from May 1, 2024 through April 30, 2029, and is based on utilization.

From April 2023 through April 2024, nitric oxide usage within Holtz was projected to be 38,736 hours. The prior 12 months (April 2022 through April 2023), nitric oxide usage was 45,481 hours, which represents a decrease of consumption of -15%. This agreement will be for a fixed annual fee of \$1,525,000 for unlimited amount of hours.

The Holtz Children’s Hospital Pediatric Respiratory Therapy Department, in collaboration with the Procurement Management Department, conducted market research, and it was determined that this product and service were no longer a sole source and that there are other companies in the industry that also provide this service. As a result, negotiations were conducted with the incumbent vendor (Mallinckrodt Pharmaceuticals), Vero Biotech and Linde Gas/PraxAir Healthcare Services. During deliberations, Linde Gas/PraxAir proposed an annual increment cost agreement starting at \$1,300,000 for a total contract value of \$7,041,219 with no cap. However, their equipment presented several patient safety concerns such as, the PB980 current ventilators are not validated by Lin Gas/Praxair, settings would require adjustment supply consumption (O2 cells); system is not user friendly and will require more extensive training of the RRT’s; alarms are very loud and volume cannot be adjusted; when using a bag valve mask, the set dose is difficult to determine. Also, settings must be tweaked for the High Frequency Ventilators (HFOV), to deliver the correct dosage. Vero Biotech proposed an annual fixed contract amount of \$2,000,000 with no cap, for a total contract value of \$10,000,000. Mallinckrodt Pharmaceuticals proposed fixed pricing of \$1,550,000 per year with no cap, from its present cost of \$2,400,000 per year, on a three-year contract.

After further negotiations, Mallinckrodt reduced their offer to \$1,525,000 per year for a total of \$7,625,000 for the five-year Contract. This represents a cost reduction to the Trust in the amount of \$125,000 during the contract term. In addition, Mallinckrodt’s fees went from its current pricing of \$2,400,000 per year to \$1,525,000 per year, thus providing a cost reduction to the Trust of \$875,000 per year or \$4,375,000 over the five-year contract period Holtz Children’s chose to go with the offer from Mallinckrodt, in spite of final pricing still being a little higher than Linde Gas/PraxAir, but also because the nitric gas delivery system proposed by Linde Gas/PraxAir is not as conducive to the Hospital’s needs nor as dependable as Mallinckrodt system’s, as explained above. The proposal from Vero-Biotech was the highest.

Inhaled nitric oxide is a selective pulmonary vasodilator (treatment for pulmonary arterial hypertension) that improves ventilation-perfusion matching (the coordination of blood flow and gas flow into a lung unit) at low doses in patients with acute respiratory failure, potentially improving oxygenation and lowering pulmonary vascular resistance. In Neonates, it is used for the treatment of Persistent Pulmonary Hypertension of the Newborn (PPHN). Nitric Oxide Inhalation Therapy Gas is used for pulmonary hypertension treatments of cardio thoracic and transplant patients, post-surgery. The therapy gas is used for heart and lung patients requiring pulmonary vasodilatation (widening of blood vessels), for post pump chorea (a serious cardiopulmonary bypass complication that occurs unexpectedly), and it has the least side effects. This product is primarily utilized in the Neonatal Intensive Care Unit (NICU).

This project was reviewed for SBE measures. The product purchased under this agreement is shipped directly by Mallinckrodt Pharmaceuticals to Jackson facilities via ground shipping. Jackson staff receive and utilize the product without vendor assistance. The vendor does not subcontract services related to this purchase. As such, the project is approved to move forward with no applicable SBE participation

In providing a statement on the benefits to the Trust, of this procurement, Holtz Children's Hospital has offered that inhaled nitric oxide (INO) is a pulmonary vasodilator. It has a major role in the regulation of the vascular muscle tone. It is indicated as the treatment for hypoxemic respiratory failure (insufficient oxygen in the blood although carbon dioxide levels are close to normal) in newborn infants. This is associated with persistent high pulmonary vascular pressure and resultant right-to-left shunting of blood (persistent pulmonary hypertension of the newborn). Nitric Oxide improves oxygenation and decreases outcomes of death or the frequent need for extracorporeal membrane oxygenation (ECMO) in infants ≥ 35 weeks' gestational age. The use of nitric gas is the standard of care for complex neonates and other patients with severe respiratory disorders (including Covid-19). Jackson treats a disproportionate number of tertiary cases and nitric oxide is part of the clinical therapies available to treat these patients. Jackson's inability to treat patients with this therapy, would mean that a large number of pediatric and adult patients would have to be transferred to other healthcare systems. This would have a negative impact on some of our stellar programs such as Transplant, Neonatology, and other major service lines. In addition, the cost of using Nitric Oxide is significantly lower than costs associated with a patient's response to a 3-5-day alternative therapy.

Recommendation

Based on past utilization, Holtz Children's Hospital, Pediatric Respiratory Therapy Department, has determined that it is in the Trust's best interest to establish a five-year contract with Mallinckrodt Pharmaceuticals for the provision of its Nitric Oxide Inhalation Gas Therapy Services.

INO Therapeutics, LLC, d/b/a Mallinckrodt Pharmaceuticals is an FDA approved vendor for this particular drug and its delivery system.

This contract may be terminated by the Trust for convenience (without cause) after thirty (30) months upon prior ninety (90) calendar day's written notice of termination and includes the UAP and OIG fees. The UAP and OIG fees are provided as deductions on the invoices.

The contract has been reviewed and approved by the County Attorney's Office for legal sufficiency and by Risk Management as to Insurance and Liability.

In accordance with our Contractor Due Diligence review, INO Therapeutics, LLC has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

In providing an evaluation of the vendor's performance during the current contract year, Holtz Children's Hospital Pediatric Respiratory Therapy Department has reported the following:

- The average turnaround time of products and services meets standard.
- The deliverables meet contract requirements.
- The ability to provide preventive maintenance on equipment meets standard.
- The ability to successfully respond to emergency situations meets standard.
- The responsiveness to safety issues and safety standards also meets standard.

For this five-year contract, the following performance and quality measures will be used to monitor vendor's performance under the Agreement.

1. Average turnaround time of goods/services delivery to be received no later than 24 hours from date promised for routine orders.

2. Deliverables must meet contract requirements at a minimum of 95% of the time.
3. Ability to successfully respond to emergency situations should be within 15 minutes and emergency deliveries provided within 8 hours.

A Bid Waiver Justification has been provided and Conflict of Interest declarations were signed by William Tanelus, Director Respiratory Therapy; Craig Goldfarb, Associate COO; Joanne Ruggiero, SVP & CEO; Pedro Alfaro, CFO and by Lori Donohue, Contract Manager at Mallinckrodt Pharmaceuticals, with no reported disclosures. **(P. Alfaro)**

9. (2418361-LM) The Nursing Home Placement Department at Jackson Memorial Hospital (JMH) requests approval for a one-year extension and additional funds to the Contract with Better Living Investments, LLC, d/b/a Normandy Estates for Specialized Assisted Living Facility (ALF) Services (ongoing purchase).

Better Living Investments, LLC, d/b/a Normandy Estates:

Previously Approved Funding: \$1,179,200

**This Request for Funding: \$1,300,000
(For One Year)**

Total Approved Funding: \$2,479,200

Background

On October 1, 2020, the JMH Nursing Home Placement Department entered into an Agreement with Better Living Investments, LLC, d/b/a Normandy Estates, for a period of one (1) year in the amount of \$39,000. Initially, there were three (3) patients residing at the Normandy Estates Assisted Living facility; however, there was a subsequent need to place additional patients at the facility. As a result, the initial funding of \$39,000 was exhausted and the Contract had to be modified under CPO's delegated authority to add \$200,000 under modification No.1 on October 1, 2020. Modification No. 2 was issued on October 1, 2021 to extend the contract with no impact to the contract total value; Modification No. 3 under CPO delegated authority was issued on April 1, 2022 to add funds in the amount of \$138,000 and extend the contract for 180 days; Modification No. 4 was issued under CPO delegated authority on October 1, 2022 to extend the contract for six months with no impact to the total contract value; Modification No. 5 was issued under CPO delegated authority and extended the contract for two additional months with no impact to the contract; Modification No. 6 was approved under PHT 05/2023-023 for a one-year extension from June 1, 2023 to May 31, 2024 in the amount of \$502,200; Modification No. 7 issued under CPO delegated authority was issued in the amount of \$300,000 to support services through May 31, 2024 due to increase utilization. From January 2023 to August 2023 the number of patients housed at the facility increased to 7, and, since September 2023 there has been an increase to 17 patients. The JMH Care Transition team predicts that the patient count will remain at 17 or will increase by the end of the current term on May 31, 2024. This request in the amount of \$1,300,000 will extend the contract term for an additional year from June 1, 2024 through May 31, 2025.

The continuation of services with this provider will assure that patients with this level of acuity are treated regardless of their ability to pay. Per JMH's Nursing Home Placement Department, it is of utmost importance that these patients are placed in facilities where they are provided the appropriate level of care.

The provisions of the Agreement dictate that the vendor must provide the patients with 24-hour supervision, must assist with daily activities such as bathing and grooming, meal preparation, laundry, getting these patients to doctor's appointments, ensuring they have the required medication and are taking them, as well as supporting them with any additionally-required appropriate care.

The Procurement Management Department negotiated with the vendor to retain the current Per Bed/Per Day rate of \$135.00.

Recommendation

The Nursing Home Placement Department has determined that it would be in the Trust's best interest to extend the contract with Better Living Investments, LLC, d/b/a Normandy Estates, for a period of one year, from June 1, 2024 to May 31, 2025, to facilitate the continuation of specialized assisted-living facility services for this specific patient population. The

Nursing Home Placement Department will also continue to conduct market research to determine the availability of other suitable ALFs, with the appropriate level of care that will accept these unfunded and special-needs patients.

In accordance with the Contractor Due Diligence review, Better Living Investments, d/b/a Normandy Estates, has provided a Sworn/Notarized Statement to the Trust's Procurement Management Department that: (1) no lawsuits have been filed against the Company within the five (5) years prior to submittal of a bid or proposal to the Trust; (2) the Company has not defaulted in the five (5) years prior to bid or proposal submittal to the Trust; and, (3) the Company has not been debarred nor has the firm received a formal notice of non-compliance or non-performance in the five (5) years prior to proposal submittal to the Trust.

In providing an evaluation of the vendor's performance during the current contract year, the Nursing Home Placement Department has reported the following:

- The competencies of contracted staff meet the required standard.
- The deliverables meet the required standard.
- The effectiveness of on-site management meets the required standard.

The underlying Contract was approved by Risk as to Insurance and Liability and by the County Attorney's Office for Legal sufficiency.

The underlying Contract can be terminated for convenience with a thirty (30) calendar day notice and includes OIG and UAP fees. The UAP and OIG fees are provided as deductions on the invoices.

A Bid Waiver Justification has been provided and Conflict of Interest declarations have been signed by Jenise Romeo, Senior Financial Analyst, NH Support Services; Loretta Aguila, Associate Director, Care Transition Team; Tony Gomez, Dept. Vice President; Sybil Thomas, Dept. CFO/Finance Manager, NH Support Services and Gary Alvarez, owner of Better Living Facilities, d/b/a Normandy Estates with no reported disclosures. **(T. Gomez)**

10. (2516274-MRL) Jackson Health System Administration is requesting a new engagement with Vizient, Inc. for National Quality Scorecard Optimization, High Reliability Organization, and Clinical Documentation Improvement & Physician Utilization Review Services (new purchase).

Vizient, Inc.:

This Request for Funding:	\$3,171,375 (For Three Years)
----------------------------------	--

Background

Jackson Health System (JHS) is looking to achieve improvement in Vizient Quality and Accountability rankings, U.S. News and CMS Stars. Health systems face unprecedented challenges requiring fundamental changes to operating models and organizational culture. Quality performance is an area where solid, incremental improvements fail to net significant strides in rank performance, align with staffing models and keep pace with competition.

JHS has a clear measure of performance by which to measure progress – Vizient's Quality and Accountability Ranking (Q&A). Due in part to careful risk-adjustment methodology and category weighting, the Q&A has earned a reputation as an accurate quality performance indicator. All healthcare systems must improve financial and quality performance while simultaneously grappling with increasingly competitive local markets.

Under this new engagement, and with the metrics that are in place, Vizient will work with JHS on an assessment and implement the following:

- **High Reliability Organization (HRO):** This will evaluate the cultural, clinical, and operational proficiencies to achieve and sustain performance excellence across the system. Develop the leadership commitment framework, safety culture and continuous learning and improvement infrastructure.

- **National Quality Scorecard Optimization (NQSO):** This will evaluate the opportunity to rapidly improve metrics that impact the clinical and quality outcomes, which is essential to competitive success.
- **Clinical Documentation Improvement (CDI) and Physician Utilization (PU) Review Services:** This will evaluate that the appropriate risk-adjustment drivers are reported to accurately portray patient acuity and improve Jackson's maximum compliant revenue capture along with expected clinical outcomes through clinical documentation and coding accuracy.

Vizient's approach will focus on a thorough assessment across organizational culture, processes, and technology to identify opportunities for improvement in both the observed outcomes and expected outcomes to ultimately achieve top performance in the Vizient Q&A rankings and other quality rankings including U.S. News and CMS Stars.

The assessment will identify the clinical improvements, operational improvements, documentation and coding improvements, and programmatic improvements to achieve and sustain high-quality performance and top-tier designation.

The implementation phase of each statement of work will focus on the following:

National Quality Scorecard Optimization: Vizient will focus implementation efforts in various areas identified in the assessment to include but not be limited to surgical quality improvement, readmission reduction, mortality reduction, and many other possible metrics. The Vizient team will rank order and prioritize initiatives and work with JHS executives to determine the top initiatives to implement. Based on the selected initiatives, Vizient will deploy the respective subject matter experts to include physicians, nurses, coders, and process engineers to complete the work.

High Reliability Organization: Vizient will characterize, through evaluation and analysis, the current state at Jackson Memorial Hospital against an ideal high reliability framework, and map out and establish a streamlined path towards high reliability. Vizient will help build on current state activities to enhance leadership knowledge through academy sessions, leadership effectiveness through targeted rounding activities and Unit level excellence through a proof-of-concept establishment of learning systems in 18 sites jointly chosen by Vizient and JMH. Vizient will also facilitate the establishment of leadership structures to support Jackson's internal capacity for ongoing growth of Unit Learning Systems capable of addressing more effectively future strategic goals.

Clinical Documentation Improvement (CDI) and Physician Utilization (PU) Review Services: Vizient will provide a UR and CDI educational series. The series will include educational content on high yield UR and CDI concepts, as well as question and answer sessions. The sessions will be broadcast live and JMH staff will have access to them remotely. Vizient will develop a calendar of events with educational topics and publish such prior to the sessions.

Recommendation

JHS Administration recommends moving forward with the new engagement with Vizient, Inc. over a three-year period.

The cost of each statement of work will be as follows:

- | | |
|-----------------------|-------------------------------|
| • CDI and UR Services | \$300,000 (18 Month Period) |
| • HRO Services | \$640,000 (10 Month Period) |
| • NQSO Services | \$1,879,000 (36 Month Period) |

Estimated expenses are capped at 12.5% of the engagement (\$352,375) and shall be paid pursuant to the prior approval of the Trust and in accordance with Florida Statute. Negotiations resulted in a savings of \$164,788 from the original proposal. Vizient will commence services upon contract execution and has offset payment terms to commence on October 1, 2024.

This procurement has been thoroughly reviewed for potential SBE participation. The consulting services provided under this agreement will be performed by Vizient Inc. employees. The vendor does not subcontract any of its services. The opportunity to include an SBE partner is not available for this service activity. Vizient Inc. is aware of Jackson's SBE program and the expectation of vendor partners to advance that commitment.

This contract includes UAP and OIG provisions. The UAP fee is provided as a deduction on the invoices.

This Master Agreement was reviewed and approved by Risk Management as to insurance and liability and by the County Attorney's Office for legal sufficiency.

A Bid Waiver Justification has been provided and Conflict of Interest forms have been executed by Mark Knight, Executive VP and Chief Financial Officer and Paula Kessler, SVP, Member Value & Performance, Vizient, with no reported disclosures. **(M. Knight, Dr. C. Ghaemmaghami)**

SECTION VIII. MISCELLANEOUS

This section consists of procurement actions that may require Board approval not included under any other section of the Purchasing Report.

No Items to Report.

RESOLUTION NO. PHT 04/2024 - 017

**RESOLUTION AUTHORIZING THE CHIEF EXECUTIVE OFFICER OR HIS
DESIGNEE TO SEEK BOARD OF COUNTY COMMISSIONER APPROVAL
PURSUANT TO CHAPTER 25A-4(D) OF THE CODE OF MIAMI-DADE
COUNTY FOR THE DEMOLITION OF THE BUILDING LOCATED AT 801 NW
17TH STREET, MIAMI, FL AND TO TAKE ALL ACTION NECESSARY TO
EFFECTUATE THE SAME**

Isa M. Núñez, Vice President, Facilities Design & Construction, Jackson Health System

WHEREAS, this Board desires to accomplish the purposes outlined in the accompany memorandum, a copy of which is incorporated herein by reference,

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE PUBLIC
HEALTH TRUST OF MIAMI-DADE COUNTY, FLORIDA**, that this Board hereby authorizes the Chief Executive Officer or his designee to seek approval of the Board of County Commissioners pursuant to Chapter 25A-4(D) of the Code of Miami-Dade County for the demolition of the building located at 801 NW 17th Street, Miami, FL and to take all action necessary to effectuate the same.

TO: Walter T. Richardson, Chairman
and Members, Public Health Trust Board of Trustees

FROM: Isa M. Núñez,
Vice President, Facilities Design & Construction

DATE: April 24, 2024

RE: Demolition of 801 N.W. 17th Street Building

Recommendation

In accordance with Chapter 25A-4(d) of the Code of Miami-Dade County, staff recommends that the Board of Trustees authorize the Chief Executive Officer or his designee to seek the approval of the Board of County Commissioners to demolish the building located on the Jackson Memorial Medical Center campus at 801 N.W. 17th Street, Miami, FL, Folio 01-3135-054-0020 ("Building").

Scope

The scope of this resolution is limited to the environmental assessment, environmental remediation, and demolition of the building.

Fiscal Impact

The total project budget to demolish the Building is approximately \$100,000 and is expected to be funded from Jackson's operating budget.

Track Record/Monitor

Demolition of the Building will be overseen by Isa Núñez, vice president for construction and design.

Background

The Building was constructed in 1975 and historically occupied by the Miami-Dade County Community Action and Human Services Department. The building occupancy was terminated, and subsequently returned to the Trust in 2023. The building is functionally obsolete and is an open case with the Miami-Dade unsafe structures board for an overdue 30-year building certification, which necessitate repairs or demolition.

Demolition of the building is recommended to allow the Trust to use the property for overflow parking, materials lay down, and storage for the Jackson Memorial Hospital Emergency Department Expansion project, which is currently underway. Pursuant to Section 25A-4(d) of the Code of Miami-Dade County, approval by the Board of County Commissioners is required to demolish any designated facility of the Trust.

Accordingly, the board's approval of this resolution is recommended to authorize the Chief Executive Officer or his designee to seek approval of the Board of County Commissioners to demolish the building and to take all actions necessary to effectuate the same.
