RE: Purchase Replacement Police Radios and Communication System

RECOMMENDATION

Recommend the Village Council approve the capital project authorizing ordinance to purchase forty-two (42) Motorola Police Radios, two (2) APX dispatch Consolettes, and related services in the amount of \$556,051.92.

DISCUSSION

Purpose: There is a need to replace our entire allotment of police radios and existing dispatch consolettes, as the equipment has reached end of life. Additionally, due to the age of our radio inventory, the communication devices are breaking down more frequently. The department requests the purchase approval to continue our public safety operations and ensure officer safety.

Background: Miami Dade County Sheriff's Office, who is our current 9-11 emergency dispatch center, transitioned to the Motorola Radio platform in 2024. Our current radio provider Harris is supported by the system but will become non-serviceable. Our existing radios, the Harris 7300, were discontinued in 2021. Due to the age of our radio inventory, the communication devices are breaking down more frequently.

Justification: The purchase of the Motorola radio platform will ensure continuity of operations and replace end-of-life legacy radio equipment to modernize the Village of Key Biscayne Police Department.

Operational Benefits:

- Enhanced officer safety and situational awareness for command
- Improved communications and operational efficiency across facilities and transports
- Mitigate liability with existing end-of-life radio equipment
- Our law enforcement partners at the Miami Dade Sheriff's Office and the City of Miami Police Department are currently utilizing the Motorola radios.
- Several agencies in Miami Dade County have transitioned to the Motorola platform.

VILLAGE OF KEY BISCAINE

Warranty and Cost:

The purchase of Motorola radios is the total cost of ownership. It includes seven years of subscription services and warranty. Additionally, the 7-year commitment locks in the 2025 pricing through 2032.

The Village of Key Biscayne will piggy-back the existing Motorola Sourcewell Contract #042021-MOT.

Implementation/Integration Plan: Upon Council approval, the radios will be ordered. Once Motorola receives the order, Motorola will work with the Miami Dade County radio shop to program the purchased equipment for deployment. The time frame provided by Motorola is six-eight weeks. The payment to Motorola will be divided into two payments. A 50% deposit will be applied from the Police FY 2025 budget. Upon approval of the proposed 2026 CIP budget, a final payment will be made to Motorola for the outstanding balance. After the radios are programmed, a roll-call training will be conducted for all department personnel, and the radios will be in-service.

RESOURCE IMPACT

Recurring Funding: No additional funding is requested for the first seven years of the purchase. Upon completion of year seven, the department would assume an annual subscription rate for each radio. (see Motorola attachment)

Equipment: No additional equipment needed. Radios come with all accessories required.

Training: The department is currently testing demo radios in the field. Once the radios are programmed, a roll-call training will be conducted for all department personnel, and the radios will be in-service.

FUNDING SOURCES

Funding in the amount of \$556,051.92 will come from the following sources:

- The FY 2025 Police budget not to exceed \$278,025.00
- Proposed FY 2026 Capital Improvement Plan (CIP) Budget for Motorola Police Radios not to exceed \$278,025.00.
- **GL Code:** 01-21-521.64004 & FY 26 CIP
- **Budget Line-Item:** Police Department Capital Outlay / FY25/26 proposed budget (CIP)
- **Amount:** \$278,025.00 / \$278,025.00

STRATEGIC CONNECTION (GOAL / FOCUS AREA)
