LEWIS AND CLARK COUNTY

Public Works Department

Date: August 12, 2025
To: Board of County Commissioners
From: Jessica Makus, Special Districts Program Coordinator
Subject: Resolution 2025-71 to Levy and Assess Benefited Property within Rural Improvement Districts in Lewis and Clark County

Today you will be holding public hearing to hear comments and objections regarding the adoption of a resolution to levy and assess an annual special assessment upon benefited properties within Rural Improvement Districts in Lewis & Clark County.

Each year Special Districts Program staff analyze each RID budget. We review the current assessment and how that assessment revenue compares to projected expenditures for the year. We look at annual items needed and also project cost for chip seal cycles which occur every 7-9 years on hard surface roads. We use that analysis to identify RIDs that need an assessment increase to continue to receive maintenance as intended in the resolutions that created those districts. We also use that analysis to determine how much an increase should be. We meet with residents of those districts during evening public meetings to go over budgets and the reasons we will recommend assessment increases. These districts are presented in individual public hearings with individual resolutions to increase those special assessments. Occasionally through this process, we also identify RIDs that are projected to grow a cash balance once we account for anticipated revenue against projected expenditures. For those districts, we recommend assessment decreases. To be clear, all financial information for all of our RIDs is public information and available upon request at any time.

For all other RIDs, with no change necessary, we address these through one resolution in the same public hearing. That is what we're here to do today. The RIDs before you have no recommended changes and will be assessed at the same rates they've been assessed since last year. However, by statute we are required to hold this public hearing and send legal notice to all benefiting property owners and allow time for public comment or objection.

Legal notice of the assessments and this public hearing date was sent to all property owners within each of the RIDs included in the resolution before you. In addition to the notice of public hearing, district background information, maintenance details, and current financial information were summarized in the mailing. Staff contact information was included as well, and staff fielded calls from property owners inquiring information related to the districts. It is our hope that these notices will continue to generate communication between the County and the residents in these districts and to establish points of contact for residents in the future.

In addition to the mailed notice, legal notice was also published in the Helena Independent Record on July 19, and July 26, 2025.

One letter of protest was received for the Pine Hills RID. With a total of 35 benefiting properties, this protest represents 2.8% of property owners in the Pine Hills district. One letter of protest was received for the Vandenberg Village RID. This district has 81 properties and this protest represents 1.2% of the district. Additionally, one letter of support was received for the Treasure State Acres RID, and one letter with resident comment for additional road grading was received for Big Valley RID.

There are 112 RIDs included in this resolution to levy and assess and they are as follows:

Re: The RID Contract Management Process for Pine Hills Rural Improvement District (1990-12)

Dear L & C County Board of County Commissioners,

We are land owners in the above mentioned RID that is on your August agenda. We recently learned more about the RID contract management process and have several concerns. To be clear, our focus is on the process not the county employees. They were cooperative in providing us information about the process.

Background and what got us here:

Pine Hills has been in the RID for 35 years. The road has only deteriorated over the years due to materials being pushed into the ditches instead of being pulled from the ditch to crown the road properly, as the contract requires. The result is filled in ditches and a widened roadway. This results in improper drainage and continued deterioration.

The problem of underperformance of contractors is not just our opinion; it was also stated as an ongoing problem by the county at our most recent homeowners meeting with them in 2024. The solution proposed by the county was to increase our fees and get a better contractor to do ditch pulling incrementally over a few years. They even recommended the specific contractor that did this work, Larry Chapman.

The plan articulated by the county was that after a few years of additional work, we would get back to an ongoing maintenance only level with grading every two years. To pay for the additional work and account for increased grading costs, we had a 120% increase in fees last year.

We were agreeable to the requested increase to properly reestablish our road. After observing the actual road work done this year and feeling it was no better than past years overall, we asked that day for the County to review the road. The response from the staff who saw the work said they disagreed that it was subpar. Our thought was, what did we pay for this supposed improvement compared to prior years?

We ended up asking many questions that led us to further concerns with how the work done relates back to the stated purpose of the assessment increase, how the charges comply with the contract terms, (as it appears there is an overlap in charges for work performed), and that there is a lack of contract driven follow up review and documentation to ensure standards are met and that our assessments are utilized properly.

Adding to our concerns, through our recent inquiry process, the narrative from the county changed significantly. As presented by the County in 2024; the assessment increase was to *“allow for grading every year over the next three years to work on ditching and then fall back to grading every other year thereafter.”* In July 2025 we are being told that *“Without completely re-graveling the entire district and taking out a road improvement loan paid by RID benefitting properties, grading is unlikely to hold up well for any measurable amount of time.”*

In reviewing the contract for our road work this year, there was nothing done by the county from a contractual standpoint to improve our road.

Bottom line is we paid a lot more and got the same, and as the process concerns added up, we felt the commission and other RID members should be aware of how their money is being managed.

Process Facts, supporting documentation is attached:

1. No accountability for the number of tons of aggregate material in the task order compared to the tons that was ultimately used. The potential for abuse is substantial. In our project this year, the added **charges for material/application amounted to 54% of the base grading contract value!** That is a substantial expense to not verify. This should be revised to require quantity receipts be attached to an invoice so there is no question of how homeowner assessments are being utilized.
2. Overlap in per footage grading costs and the aggregate material, or gravel surfacing, costs. We have been charged for both grading and gravel surfacing as stated on the task order and invoice. Per the SOQ, sections 5, page 2: The crushed aggregate application consists of preparing the existing surface for application, supply, haul, place, water, and compact new material -reflective to cost per ton. Grading consists of watering, grading, and compacting roadways as well as supplementing and applying surfacing material - based on per footage rate.

The rate per ton for materials is heavily padded with overhead for doing what is already required. Per Valley Excavating the current cost/ton of delivered aggregate \$13.50. The county pays \$42/ton. This is a gross margin of \$28.50/ton; to do what is already required in the grading process.

3. No detail in the contracts or task order outlining specific deliverables, as required by the county independent contractor contract. As a fixed price contract, it is prone to underperformance without clear deliverables and critical follow up. If the county and RID members want specific performance improvements such as ditch pulling and crowning, the county needs to put these specifics in the contract and not just have verbal requests, and hold the contractor accountable.
4. There is no documented quality review of the work performed. When asked, the County stated that QA is *“Field observation site visit and sign off on invoice to authorize payment”* as their process. One concern is that signing off on an invoice for payment is not a quality control, it is a financial control not relevant to quality.

This is evident in that the Pine Hills work was invoiced and signed off by the county for payment on 7/11/25, a few days after the work was done. A site review was performed by the county on 7/15/25, only after we complained about quality. Doing QA after a contractor is paid is not effective for obvious reasons. Based on our experience after this work, I doubt any critical QA is done prior to payment, ever.

5. Using prior county employees/coworkers as recommended contractors creates a perception of favoritism. The county specifically recommended a contractor for our project and subsequently defended his work adamantly at the site visit.

As previously mentioned, there is no documentation of QA. We are not accusing anyone of improper influence, but the loose contracting and QA process, combined with the prior L&C County Road Manager being selected looks bad. This prior relationship was never disclosed to us by the county, we stumbled upon it by accident.

6. The contractor made above market margins on Pine Hills based on observation of actual time and materials expended. We personally observed the contractor on site for a total of 3 days. Not all of that time was road work as is normal. Estimates of additional profit are in the table below. Costs per hour are based on Valley Excavating and the rates from the contractors bid. Keep in mind this is using the fully loaded rates provided by the contractor themselves, so the hourly rates already include profit margin. This represents additional profit because of the fixed price contract. While this is an estimate based on observing the work occur, the hours spent cannot be much greater since he was only here 3 days.

Expense	
• Grading 16 hrs @ \$175/hr	\$2800
• Water truck 8 hours @ \$150/hr	\$1200
• Roller/vibrator 16 hrs @ \$125/hr	\$2000
• Equipment Trailer 4 hrs @ \$100/hr	\$400
• Materials \$119/ton @ \$13.50/ton	\$1607
Total Contractor Expense	\$8007
Total Contract Payment	\$14226
Contractor Additional Profit	\$6219

Accounting for the margins already built into the hourly rates, the profit margin on our small job is probably about \$10,000 - or 2/3 the value of the entire contract.

Not bad for a few days work. I am getting an understanding for why Larry left the county to do the RID road work, it is a gravy train with biscuit wheels.

In closing, the county when faced with our questions had two suggestions for us. The first was, if we are not happy dissolve the RID. While possible in the future, our complaint is relevant to this year and the past 35 years so it cannot be dismissed with that suggestion.

The second suggestion is we get a RID loan for a big project to rebuild the road. This also may be a possibility in the future, but under the current process at the county I would not entrust them to manage any project for us.

Our goal is process change to ensure we are getting the value for our money.

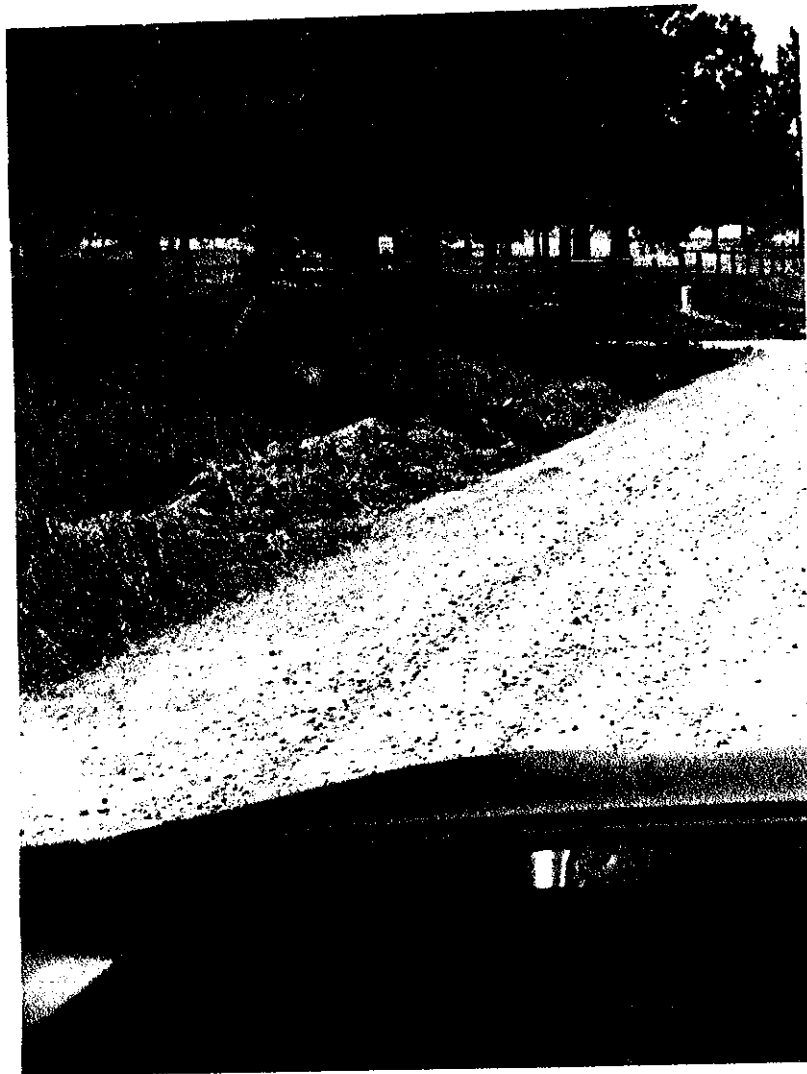

Thank you for your time and review of our concerns.

Respectfully,
Rebecca and Marvin Drake

Dear Lewis and Clark County Board of County Commissioners,

I live in the Treasure State Acres at 1352 Beaverhead Road and I am writing in support of Treasure State Acres RID, 1987-2. I know that no one wants to pay more taxes, but I also know that if we do not keep the infrastructure up that in most cases it will cost more in the end when you go to repair it. I have attended some of the subdivision meetings where this proposal was discussed and I have agreed with raising the assessment to defray the cost of maintenance within the Treasure State Acres RID, 1987-2.

Sincerely yours,

RE: **Abandonment of the rights-of-ways in Blocks 3, 5, 6, 7, and 8, of the Rumping Addition to the Townsite of Marysville
File No. ROAD2025-005.**

APPLICANT:

Rawhide Properties, LLC

Marysville, MT 59602

REPRESENTATIVE:

1229 E. Lyndale Avenue
Helena, MT 59601

County Commission Meeting:

August 12, 2025 @ 9:00 a.m.

I. EXECUTIVE SUMMARY:

Applicants have petitioned to abandon the rights-of-way adjacent to Blocks 3, 5, 6, 7 and 8 of the Rumping Addition to the Townsite of Marysville, created upon the platting of the Addition in 1887. The specific rights-of-way are described as a portion of Grand Avenue, a portion of Park Street, and a portion of Highland Street.

II. REQUEST:

Abandon the County Road rights-of-ways in Blocks 3, 5, 6, 7, and 8, of the Rumping Addition to the Townsite of Marysville, namely a portion of Grand Avenue, a portion of Park Street, and a portion of Highland Street.

III. STAFF RECOMMENDATION:

Conditional approval, to abandon the aforementioned rights-of-way, subject to the Conditions noted in Section VIII., below.

IV. LOCATION:

The Rumping Addition is located directly north of the Marysville Townsite, and is generally located west of Helena, west of Lincoln Road, and the end of Marysville Road.

Then north of Marysville on Highland Street to Trinity Road.

V. HISTORY OF THE RIGHTS-OF-WAY:

The original rights-of-way were platted with Rumping Addition to the Townsite of Marysville in 1887, which created the rights-of-way and the individual blocks. Over the years a number of the street rights-of-way have been abandoned as follows:

1. Resolution 1983-59 abandoned “the east 50 feet of Tennis Place; and Park Street from Tennis Place to Grand Avenue in the Rumping Addition of the City(sic) of Marysville, SE ¼ , NW ¼ , Sec. 36, T12N, R6W;
2. Resolution 1984-11 abandoned “the northern 325 feet of Grand Street from the point of intersection with John Street to the northern end of the street in the Rumping Addition to the Townsite of Marysville;
3. Resolution 2000-40 abandoned “a portion of Grand Avenue” adjacent to lots 1, 2, and 3 of Block 3, and Lot 1 of Block 5 within the Rumping Addition to Marysville. See attached Exhibit A.

Of the originally platted streets, only a portion of Tennis Place was constructed. Streets have not been constructed in the remaining rights-of-way, and access to the parcels is from Trinity Road. For comparison purposes Exhibit A-1 shows the previous abandonments and the proposed abandonments.

VI. DISCUSSION:

The petitioned portions of the Grand Avenue, Park Street, and Highland Street rights-of-way were declared to be County Roads pursuant to Resolution 2025-58, recorded on July 1, 2025, Document Number 3436792. In reviewing proposed abandonment, the Board of County Commissioners (BoCC) are charged with making the determinations set forth in Title 7, Chapter 14, Part 26, Montana Code Annotated, and noted below to determine whether approval of the abandonment would:

1. affect or impair the access of private landowners;
2. affect the public’s access to public lands or waters;
3. affect the right of any public utility to continue to maintain its equipment; and
4. be done without detriment to the public interest.

In making the determination, the BoCC will consider public testimony, Staff’s recommendations and related information including the discussion in Section VI., contained herein, on pages 2 and 3, along with any additional information presented at the hearing.

The petition has been signed by the owners of property abutting those portions of rights-of-way to be abandoned. The reconfigured parcels abutting the rights-of-way to be abandoned will all have direct access to Trinity Road. See the attached proposed Amended Plat attached as Exhibit B.

No other property owners will be affected by the proposed discontinuance. Access to public lands or waters is not affected by the proposed discontinuance of the rights-of-way.

Dedication of an easement for Trinity Road will provide access through the Rumping Addition to Long Gulch Road. The applicants have proposed dedicating the public access easement, 40 feet in width, for Trinity Road.

Comments were requested from all local utility providers. Northwestern Energy has indicated they have overhead power lines and some underground lines in that area and we will work with them to establish those easements.

Comment received from the Lewis and Clark County Sheriff's Office indicates no objection to the road abandonments. Dan Karlin, County Engineer, has no objection to the abandonment of the rights-of-way.

Comments received from Lindsey Babcock, BLM Butte Field Manager, indicated the abandonments will not affect access to BLM property to the north of the Rumping Addition. No additional comments concerning detriment to the public interest have been received, and no specific adverse impacts to the public interest have been identified.

Notice of the proposed discontinuances have been mailed to adjacent property owners and a legal advertisement has been placed in the Independent Record. No written response has been received by the County, from those property owners, or the general public.

VII. OTHER SITE CONSIDERATIONS:

The 1887 plat of the Rumping Addition also depicted a 20 foot "proposed water way", shown as a separate tract, running west to east, parallel to Grand Street . The applicants, for the proposed rights-of-way abandonments, have received an order from the District Court, as a result of a quiet title action, and have been granted title to the tract depicted as the proposed waterway. The new survey rearranging the tracts will also incorporate the 20 foot water way as part of the new lot configuration. See the Findings of Fact, Conclusions of Law, Judgment Extinguishing Proposed Water Way and Decree Quieting Title to Proposed Water Way, attached as Exhibit C. Title to land associated with the water way was thereby given to the abutting property owners to be addressed with the Amended Plat contemplated as a result of the road abandonment process.

VIII. RECOMMENDED CONDITIONS OF APPROVAL:

Staff recommends approval for the abandonment of the unconstructed rights-of-way, County roads, in Blocks 3, 5, 6, 7, and 8 of The Rumping Addition, subject to the following conditions:

1. The Board of County Commissioners shall execute a resolution to abandon and discontinue the County right-of-way for a portion of Grand Avenue between Blocks 3, 5, and 6 of the Rumping Addition.

2. The Board of County Commissioners shall execute a resolution to abandon and discontinue the County right-of-way for a portion of Park Street, on the east side of Block 3 of the Rumping Addition.
3. The Board of County Commissioners shall execute a resolution to abandon and discontinue the County right-of-way for a portion of Highland Street, between Blocks 5, 6, 7, and 8 of the Rumping Addition.
4. The Applicant, their successors and assigns, at no expense to the County, shall cause the recordation of an Amended Plat that shows and includes:
 - a. The abandoned and discontinued County right-of-way for a portion of Grand Avenue between Blocks 3, 5, and 6 of the Rumping Addition.
 - b. The abandoned and discontinued County right-of-way for a portion of Park Street, on the east side of Block 3 of the Rumping Addition.
 - c. The abandoned and discontinued County right-of-way for a portion of Highland Street, between Blocks 5, 6, 7, and 8 of the Rumping Addition.
 - d. The removal of the Proposed Water Way, pursuant to the Court's Findings of Fact, Conclusions of Law, Judgment Extinguishing Proposed Water Way and Decree Quieting Title to Proposed Water Way.
 - e. The newly dedicated Public Access and Utility Easement for the existing Trinity Road, in the Rumping Addition.
 - f. Boundary line relocations and aggregations with all affected parcels abutting the abandoned and discontinued rights-of-way discussed herein, and the Proposed Water Way, with a requirement the resultant lots abut Trinity Road.
 - g. A reference to the book and page, or filing information, of the BoCC approved resolution officially abandoning and discontinuing the rights-of-way described as a portion of Grand Avenue, a portion of Park Street, and a portion of Highland Street.
 - h. Retention of the utility easements required for all existing utilities.
5. The Applicant, successors and assigns, at no expense to the County shall cause to be prepared new deeds and realty transfer certificates to be recorded with the above noted Amended Plat.
6. This approval shall be in full force and affect for three calendar years from this BoCC action. Prior to the expiration of said three (3) year period, and at the request of the Applicant, his successors and assigns, the County Commission

may, extend its approval if that approval period is included as a specific condition of a written agreement between the Applicant and the County Commission.

CONCLUSION:

The rights-of-way, declared County roads, in Blocks 3, 5, 6, 7 and 8 of the Rumping Addition to the Townsite of Marysville were created by the 1887 plat. The platted rights-of-way were not constructed and the abandonment of the rights-of-way will not have negative impacts on traffic, utilities, or the abutting property owners. The dedication of the easement for the existing Trinity Road will allow for legal access to the reconfigured lots, and for the traveling public through the Rumping Addition.
