AIRPORT COMMISSION STAFF REPORT — ITEM NO. 5.3

DATE: January 6, 2025

TO: Chairperson and Members of the Airport Commission

FROM: Benny Stuth, Acting Airport Manager

SUBJECT: Aircraft Incident Report - October 25, 2024

RECOMMENDED ACTION

Staff recommends the Airport Commission receive information on an aircraft incident.

SUMMARY

This report summarizes an incident involving an aircraft landing on Runway 7R/25L that occurred on October 24, 2024.

DISCUSSION

On October 24, 2024, at 5:15 pm, a student pilot in a Citabria 7KCAB performing a "touch-n-go" landed too far to the left on Runway 7R/25L picking up tumble weeds from the field. LVK ATCT contacted airport staff to assist in removal of tumble weeds from aircraft wheels and clear the runway of debris. The aircraft was able to taxi to south hangars, and staff cleared the runway of debris. The runway was closed from 5:15 pm until 6:20 pm. Livermore-Pleasanton Fire department responded. There were no injuries to pilot or instructor and no damage to City property.

AIRPORT COMMISSION STAFF REPORT **ITEM NO. 5.4**

DATE: January 6, 2025

TO: Chairperson and Members of the Airport Commission

FROM: Benny Stuth, Acting Airport Manager

SUBJECT: Discussion and Direction Regarding Noise Reporting

RECOMMENDED ACTION

Staff recommends the Airport Commission discuss noise reporting and provide direction.

SUMMARY

At the request of the Airport Commission, this item is being brought forth to discuss how noise reporting is conducted, and what, if any, changes should be made to noise reporting to better demonstrate overall noise concerns surrounding the Livermore Airport. Based on this discussion and input from the general public, the Airport Commission may advise the City Council on recommended changes pertaining to noise reporting and how it is analyzed and presented.

DISCUSSION

The airport has instituted the Casper noise reporting platform for the Livermore Airport to better capture and respond to noise reports and concerns as they arise. A useful feature of the new platform is that noise reporting has become more data driven and shows more specifically where noise is a concern within the community. A challenge with the Casper platform is that there are no limitations on how many noise complaints may be submitted per occurrence, meaning an individual complainant may submit unlimited complaints per noise incident. The result of this feature is a disproportionately large number of complaints coming from a small number of complainants, which has the potential to misrepresent the actual number of households being impacted by noise at the airport.

New eComment for Airport Commission

James Smith submitted a new eComment.

Meeting: Airport Commission

Item: 5.1) Review of Airport activity, aircraft operations and noise reports for the months of October 2024 and November 2024.

eComment: why arent the noise reports showing the comments from the citizens when they file the report? Isn't this hiding the true impact that people feel when they file there concern? This has been requested to be in what is published in the past?

Discussion and Direction Regarding Noise Reporting

Good Evening Airport Commissioners. Thank you for letting me speak today. My name is David Fiala.

I'm a 31-year Tri-Valley resident who has concerns about the noise created by the jets which regularly fly over my home. The Casper noise reporting platform has been instituted for the Livermore Airport to better capture and respond to noise concerns. Does the Noise Report Sample as presented by staff, include both phone entered concerns as well as Casper entries? Why is the noise report sample so small? The span of time from 11/25/2024 to 12/01/2024, which is when most people were out of town/and or busy for the Thanksgiving holidays, hardly seems representative. Would you get up from your Thanksgiving table and excuse yourself from your guests to report airport noise concerns? Could there not have been a larger sample and during non-holiday periods?

I do have questions of staff on how people are able to report noise concerns. I went to the Livermore Airport website and saw nothing on the front page about reporting noise concerns. I followed the Airport Noise Information link and found the Casper link (3rd link) which for most people is confusing. I was glad to also see the phone number to report noise issues. People at large cannot easily report their concerns which in my mind invalidates the data collected. **Perhaps the first step is to have an accessible way to report concerns so that accurate data can be reviewed. Why is there not a simple link on the front page of the airport website. If you really want to understand the noise issues, why not make the process transparent so people will use it. Place the Airport Noise phone number on the front page of the website.**

I have not used the new system to report jet noise as it is difficult to find and not user friendly. I quit using the old system when I experienced a lack of feedback or response to my complaints. I attended Livermore Airport Commission meetings, the Airport "open house", and Livermore City Council meetings where I voiced concern about the noise from jets pivoting over my backyard as they turn to land at the airport or to turn to their outgoing destinations. I participated in the Airport Land Use Analysis & Development Study. Many people at this meeting voiced their concerns about noise. I would like to know how many times noise was noted as the participants highest concern at these meetings?

At the Airport Open House, my name, address, and e-mail were collected and I was told by staff that they would get back to me with the results of study. To date, no such study results and recommendations have been forthcoming.

Have you, the commission, received the recommendations of the study? I have not been able to find them on any web site. How can I receive the executive summary of the study? If it has not been finished and approved by the City Council, how is it that the FBO, Pete Sandhu of Five Rivers Aviation, is proceeding with deal making for the airport as published in the Independent? It was my understanding that this study and its findings were to be used by the Commission and the Council as a guide for airport development. Is the City Council not the final decision maker on all airport matters?

Thank you for your time and I look forward to receiving the recommendations from the Airport Land Use Analysis & Development Study.
