The instructions will concern price and terms of payment.

2. CALL TO ORDER

ROLL CALL

Council Member Ben Barrientos
Council Member Evan Branning
Council Member Brittni Kiick
Vice Mayor Robert W. Carling
Mayor John Marchand

PLEDGE OF ALLEGIANCE

REPORT OF ACTION TAKEN IN CLOSED SESSION

3. PROCLAMATIONS AND PRESENTATIONS

3.1 Livermore Housing Authority annual update presented by Sarah Ramler, Executive Director, Livermore Housing Authority.

Recommendation:
Staff recommends City Council accept the Livermore Housing Authority annual update.

Staff Report

4. OPEN FORUM

- In conformance with the Brown Act, no City Council action can occur on items presented during Open Forum.
- To provide public comment in person, please submit a speaker card. When your name is called, walk to the lectern to address City Council.
- Comments are limited to a maximum of 3 minutes per person, per item. The Mayor may reduce the amount of time based on the number of persons wishing to speak.
- Comments are limited to one comment per person per item regardless of format or time submitted (this includes email and e-comment submissions prior to the meeting as well as live comments during the meeting).
- Open Forum will conclude after 30 minutes; however, if there are additional speakers, Open Forum will reconvene before the meeting adjourns.

5. CONSENT CALENDAR

Consent Calendar items are considered routine and are acted upon by the City Council with a single action. Members of the audience wishing to provide public input must submit a speaker

card found at the entrance of the Council Chambers. A speaker is limited to a single comment with a maximum of three minutes for the entire Consent Calendar. If Consent Calendar items are pulled for discussion by the City Council, a speaker will be allowed one comment per item, on the items pulled for discussion and a separate comment for the remaining Consent Calendar. The one comment limit applies regardless of format or time submitted (this includes email and e-comment submissions prior to the meeting as well as live comments during the meeting).

5.1 Approval of draft minutes - June 24, 2024 Regular Meeting

Recommendation:
Staff recommends the City Council approve the draft minutes.

Staff Report
Attachments:
1. DRAFT 2024-06-24

5.2 Approval of draft minutes - July 8, 2024 Regular Meeting.

Recommendation:
Staff recommends the City Council approve the draft minutes.

Staff Report
Attachments:
1. DRAFT 2024-07-08

5.3 Resolution dedicating a Public Utility Easement (PUE) to the public over a portion of City owned land within a portion of Stockmen's Park and authorizing the City Manager to execute the PUE to serve the designated Commercial Use Areas adjacent to Stockmen's Park.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to dedicate a Public Utility Easement (PUE) over City property within a portion of Stockmen's Park.

Staff Report
Attachments:
1. Site Location Plan
2. Resolution
3. Exhibit A - Public Utility Easement

5.4 Resolution to summarily vacate a portion of public right-of-way along South Livermore Avenue and authorizing execution of quitclaim deeds to accommodate the approved Blacksmith Square Expansion project.

Recommendation:
Staff recommends the City Council adopt a resolution summarily vacating a portion of right-of-way for public highway purposes along South Livermore Avenue approximately 0.4 feet in width, for a total of 67.461 square feet of right-of-way and authorize the City Manager to

quitclaim the right-of-way to Maroon Bear, a California Limited Partnership and Blacksmith Square LLC, a California Limited Liability Company (Property Owners).

Staff Report
Attachments:
1. Vicinity Map
2. Resolution
3. Exhibit A - Plat and Legal Description
4. Exhibit B - Quitclaim Deed, Blacksmith Square LLC
5. Exhibit C - Quitclaim Deed - Maroon Bear

5.5 Resolution authorizing the City Manager to execute the first amendment to the Amended and Restated Disposition, Development, and Loan Agreement between the City of Livermore and 2205 Railroad Avenue LLC for a downtown hotel.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute the first amendment to the Amended and Restated Disposition, Development, and Loan Agreement between the City of Livermore and 2205 Railroad Avenue LLC for a downtown hotel.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - First Amendment

5.6 Resolution authorizing the execution of an agreement with Michael Baker International, Inc. for services to support the administration of the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program in a not-to-exceed amount of $400,000, a term ending June 30, 2029, and appropriating $400,000 over five years from the Housing Trust Fund.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the execution of an agreement with Michael Baker International, Inc. for services to support the administration of the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program in a not-to-exceed amount of $400,000, a term ending June 30, 2029, and appropriate $400,000 over five years from the Housing Trust Fund.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Agreement

5.7 Resolution authorizing the change of the General Partner for 2891 Carmen, L.P., owner of the Carmen Avenue Apartments from Satellite AHA Development, Inc. to ABODEHD 2891 CARMEN LLC, to streamline property management and service delivery.

Recommendation:

Staff recommends that the City Council adopt a resolution authorizing the City Manager to approve ABODEHD 2891 CARMEN LLC as the new General Partner in the 2891 Carmen, L.P., California limited partnership for the Carmen Avenue Apartments to streamline property management and service delivery once Abode oversees all aspects of the partnership.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Approval for General Partner Change
3. Exhibit B - Agreement to Withdraw and Transfer Partnership Interest

5.8 Resolution authorizing the execution of a second amendment to the Memorandum of Understanding between the City of Livermore, Alameda County, and Livermore Sanitation, Inc. to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1 and to determine no further action under CEQA is required.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute a second amendment to the Memorandum of Understanding between the City of Livermore, Alameda County, and Livermore Sanitation, Inc. to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1 and to determine that no further action under CEQA is required.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Second Amendment

5.9 Resolution authorizing the execution of agreements with GSW Construction, Inc. and Platinum Pipeline, Inc. for on-call construction services for City water, sewer, and storm drain systems for a three-year term in an amount not-to-exceed $2,400,000.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute agreements with Platinum Pipeline, Inc. and GSW Construction, Inc. for on-call construction services for City water, sewer, and storm drain systems for a three-year term in an amount not-to-exceed $2,400,000.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Agreement - GSW
3. Exhibit B - Agreement - Platinum Pipeline

5.10 Resolution awarding and authorizing the execution of an agreement with Environmental Logistics, Inc. for services to remove, clean, and dispose of hazardous and non-hazardous materials for a three-year term in an amount not-to-exceed $775,000.

Recommendation:
Staff recommends the City Council adopt a resolution awarding and authorizing the execution of an agreement with Environmental Logistics, Inc. for services to remove, clean, and dispose of hazardous and non-hazardous materials for a three-year term in an amount not-to-exceed $775,000.

Staff Report
Attachments:

2. Exhibit A - Agreement

5.11 Resolution appropriating $4,300,000 in Wastewater Enterprise Funds in FY 2024-25 for the repair and relocation of the Livermore Sole-Use Treated Wastewater Pipeline

Recommendation:
Staff recommends that the City Council adopt a resolution appropriating $4,300,000 in wastewater enterprise funds in FY 2024-25 for the repair and relocation of the Livermore sole-use treated wastewater pipeline.

Staff Report
Attachments:
1. Resolution

5.12 Resolution authorizing the issuance of a purchase order to Petersen Cat for a Weiler P65 Paver in an amount not-to-exceed $143,554 and an appropriating $143,554 from the Fleet Internal Service Fund to purchase the Paver.

Recommendation:
Staff recommends that the City Council adopt a resolution authorizing the execution of a purchase order with Peterson Cat for a replacement asphalt paver in a not-to-exceed amount of $143,554 and appropriating $143,554 from the Fleet Internal Service Fund.

Staff Report
Attachments:
1. Sourcewell Contract #060122-WLR
2. Peterson Caterpillar Quotation
3. Resolution

5.13 Resolution authorizing execution of an agreement with NFP Retirement, Inc. for consultant services pertaining to the City's Deferred Compensation Plans in an amount not-to-exceed $208,000, and a term ending June 30, 2029.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute the agreement with NFP Retirement, Inc. for consultant services pertaining to the City's Deferred Compensation Plans in an amount not-to-exceed $208,000, and a term ending June 30, 2029.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Agreement

5.14 Resolution authorizing the execution of an agreement with Eide Bailly, LLP for auditing services in an amount not-to-exceed $360,000 for fiscal years 2023-24 and 2024-25.

Recommendation:
Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute an agreement with Eide Bailly, LLP for auditing services in an amount not-to-exceed $360,000 for fiscal years 2023-24 and 2024-25.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Agreement

5.15 Resolution authorizing the execution of Project and Program Grant Agreements with Livermore Pride, Livermore Valley Opera (LVO) and Thomasin Dewhurst Fine Art consistent with the City's Public Art Policy.

Recommendation:
The Commission for the Arts and staff recommend the City Council adopt a resolution approving the applications and authorizing the execution of the following Project and Program Grant Agreements:

1. Livermore Pride, in the amount of $10,000 for Art Programming at the 5th Annual Livermore Pride Fest.
2. Livermore Valley Opera (LVO), in the amount of $10,000 for LVO's Education and Community Engagement Program.
3. Thomasin Dewhurst Fine Art, in the amount of $10,000 for a visual arts collaboration between Arts and Science in the form of a mural project and event.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Livermore Pride Agreement
3. Exhibit B - Livermore Valley Opera Agreement
4. Exhibit C - Thomasin Dewhurst Fine Art Agreement

5.16 Resolution authorizing the execution of an agreement with All City Management Services, Inc. to provide crossing guard services for a five-year term, in an amount not-to-exceed $1,516,644.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute an agreement with All City Management Services, Inc. to provide crossing guard services in

an amount not-to-exceed $1,516,644 for a five-year term for the period July 1, 2024, through June 20, 2029.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Agreement

5.17 Resolution authorizing acceptance of funds in the amount of $64,074, for a State of California Department of Alcoholic Beverage Control grant in Fiscal Year 2024-25 and authorizing the City Manager to execute the grant agreement.

Recommendation:
Staff recommends the City Council adopt a resolution:
1. Authorizing acceptance of funds, in the amount of $64,074, for a State of California Department of Alcoholic Beverage Control grant in Fiscal Year 2024-25;
2. Authorizing the City Manager to execute the grant agreement; and
3. Approving a supplemental appropriation of $64,074 in the Police Department's budget to support the execution of the grant.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Grant Agreement

5.18 Resolution establishing fees for a concealed carry weapons (CCW) permit and appropriating $15,000 of the fee revenue to cover the costs to implement the CCW permit program.

Recommendation:
Staff recommends the City Council adopt a resolution approving the listed rates for obtaining a concealed carry weapon (CCW) permit and appropriating $15,000 of the fee revenue to cover the costs to implement the CCW permit program.

Staff Report
Attachments:
1. Resolution

5.19 Resolution authorizing the City Manager to execute all documents and forms for the City to participate in settlement agreements for the National Prescription Opiate Litigation.

Recommendation:
Staff recommends the City Council adopt a resolution authorizing the City Manager to execute all documents and forms necessary for the City of Livermore to participate in settlement agreements for the National Prescription Opiate Litigation.

Staff Report
Attachments:
1. Resolution

5.20 Rescind Resolution 170-82 designating Tri-Valley Community Television Corporation as the official body to receive cable television funds.

Recommendation:
Staff recommends that the City Council rescind Resolution 170-82 as it does not conform with current practices and is unnecessary to the management of Public, Education, and Government (PEG) funds.

Staff Report
Attachments:
1. Resolution
2. Exhibit A - Resolution 170-82

5.21 Resolution of continued local emergency in response to impacts from a series of severe storm events last year.

Recommendation:
Staff recommends the City Council adopt a resolution of continued local emergency in response to impacts from a series of severe storm events last year.

Staff Report
Attachments:
1. Resolution

5.22 THIS ITEM WAS CONTINUED FROM THE JULY 8, 2024 CITY COUNCIL MEETING.
Resolution accepting the recommendation of the Altamont Landfill Open Space Committee to authorize the City's grant request, finding the acquisition of the Hartford Hills Property is categorically exempt from CEQA, authorizing the City Manager to enter into a Purchase and Sale Agreements for open space land, and appropriating funds from the Dougherty Valley Settlement Agreement account. Location: Hartford Hills Property (82 acres – APNs: 902-9-3-1, 902-9-3-2).

Recommendation:
Staff recommends the City Council adopt separate resolutions to:

1. Accept the recommendation of the Altamont Landfill Open Space Committee to authorize the City of Livermore's grant requests for the Hartford Hills Property (in the amount of $980,000); and determine that the Altamont Landfill Open Space Committee’s recommended expenditure of Open Space Account funds is not a project under California Environmental Quality Act (CEQA) Guidelines section 15378.
2. Determine the acquisition is categorically exempt from CEQA in accordance with CEQA Guidelines Section 15313, which exempts acquisitions of lands to preserve the land in its natural condition.
3. Authorize the City Manager to enter into a Purchase and Sale Agreement and execute all documents necessary to acquire the Hartford Hills Property (82 acres – APNs: 902-9-3-1, 902-9-3-2); and
4. Appropriate funds from the Dougherty Valley Settlement Agreement (Fund 925) for the amount of $980,000 to acquire the Hartford Hills Property (82 acres – APNs: 902-9-3-1,

902-9-3-2).

6. PUBLIC HEARINGS

Comments are limited to one comment per person per item regardless of format or time submitted (this includes email and e-comment submissions prior to the meeting as well as live comments during the meeting).

6.1 Public Hearing to consider protests related to the non-payment of solid waste, recycling, and organics handling services provided by Livermore Sanitation for collection on the County Assessor tax roll.

Recommendation:

Staff recommends the City Council hold a Public Hearing to:

1. Consider protests related to the non-payment of solid waste, recycling, and organics services;
2. Adopt a resolution overruling protests and confirm the 2022 and 2023 assessments if applicable; and,
3. Direct staff to forward a finalized copy of the assessment report to the County Tax Assessor.

Staff Report

Attachments:

1. Resolution
2. Exhibit A - Assessment List

6.2 Hearing to consider a request for a Vesting Tentative Tract Map, Site Plan Design Review, Development Agreement, Consistency Determination, Conditional Use Permit, Master Sign Program Amendment, and Development Code amendment to develop vacant land located southwest of the Portola Avenue and Isabel Avenue intersection with for-sale residential townhome and condominium units and for-rent apartments with mixed commercial and office uses and a public park and public plazas, known as Isabel Crossing.

Recommendation:

The Planning Commission and staff recommend the City Council take the following actions:

1. Adopt a resolution adopting an Addendum to the Isabel Neighborhood Specific Plan Supplemental Environmental Impact Report, in accordance with the California Environmental Quality Act.
2. **Introduce an ordinance** and waive the first reading approving Development Code Amendment (DCA) 24-001;
3. Adopt a resolution approving Specific Plan Amendment (SPPA) 24-001;
4. **Introduce an ordinance** and waive the first reading approving Development Agreement (DA) 22-001;
5. Adopt a resolution approving Subdivision (SUB) 22-008, Conditional Use Permit (CUP) 24-002, Site Plan Design Review (SPDR) 24-003, Master Sign Plan Amendment (MSP) 24-001; the proposed Master Plan; the Alternative Affordable Plan; the requested Density Bonus Waivers and Incentive/Concessions; and the No Net Loss findings;
6. Direct the Planning Manager to file a Notice of Determination, in accordance with the provisions of the California Environmental Quality Act, subject to Project approval; and
7. Direct the City Clerk to record the Development Agreement, in accordance with the provisions of the California Government Code, subject to Project approval.

11. HOW TO PARTICIPATE IN YOUR CITY COUNCIL MEETING

You can participate in the meeting in a number of ways:

Open Forum is an opportunity for the public to speak regarding items not listed on the agenda. Speakers are limited to a maximum of 3 minutes per person. To address the City Council in person, you must submit a speaker card to the City Clerk prior to the start of that item. Please note that the City Council is prohibited by State law from taking action on any items that are not listed on the agenda. However, if your item requires action, the City Council may place it on a future agenda or direct staff to work with you and/or report to the City Council on the issue.

Public Hearings - The topic of the hearing is typically summarized by staff, followed by a presentation by the applicant, and questions from the City Council. The Mayor will then open the hearing to the public and offer an opportunity for public comments. Speakers are limited to a maximum of 3 minutes per person. To address the City Council in person, you must submit a speaker card to the City Clerk prior to the start of the presentation of the item.

Other Agenda Items are also open for public input including Consent Calendar or Matters for Consideration items. These comments are also subject to the 3-minute limit.

Special Meetings, Workshops - The public will have the opportunity to address the City Council regarding the item that is the subject of the special meeting or workshop. Public comments are limited to a maximum of 3 minutes per person.

Platforms to Participate in Meetings:

Submission of Comments Prior to the Meeting:

Email Comments may be submitted by the public to the City Clerk's Office (cityclerk@LivermoreCA.gov). Items received no later than 12:00 pm on the day of the meeting will be provided to the City Council and available on the City website prior to the meeting. These items will NOT be read into the record.

eComments may be submitted by the public using the eComment link here. Comments may be up to 1000 characters in length and will be accepted up until 4:00 pm the day of the meeting. These items will NOT be read into the record and are viewable by the City Council and the public upon submittal.

Submission of Comments During the Meeting:

Speakers are limited to a maximum of 3 minutes per person. To submit a comment you must complete a speaker card for each item. Speaker cards are available in the Civic Center Meeting Hall lobby. Indicate on the card the item number you wish to comment on and submit the card directly to the City Clerk prior to the start of the item. Please note that the City Council is prohibited by State law from taking action on any items that are not listed on the agenda. However, if your item requires action, the City Council may place it on a future agenda or direct staff to work with you and/or report to the City Council on the issue.

The City will be using YouTube and TV29 as two tools to provide the public access to view City Council meetings. No public comment will be accepted via YouTube.

TV29: tv29live.org Comcast Cable 29

YouTube: http://youtube.com/c/CityofLivermoreCalifornia

If you would like to deliver written materials to the City Council as part of your public comment, please provide 10 copies to the City Clerk with your speaker card.

The **City Council Agenda and Agenda Reports** are prepared by City staff and are available for public review on Tuesday evening, six days prior to the City Council meeting in the Civic Center Library, 1188 South Livermore Avenue, Livermore, and at the City Clerk's Office, 1052 South Livermore Avenue, Livermore. The Agenda is also available on the City's website, http://LivermoreCA.gov/agenda.

Under Government Code §54957.5, any **supplemental material** distributed to the members of the City Council after the posting of this agenda will be available for public review in the City Clerk's Office, 1052 South Livermore Avenue, Livermore, and included in the agenda packet available on the City's web site at http://LivermoreCA.gov/agenda.

PURSUANT TO TITLE II OF THE AMERICANS WITH DISABILITIES ACT (CODIFIED AT 42 UNITED STATES CODE SECTION 12101 AND 28 CODE OF FEDERAL REGULATIONS PART 35), AND SECTION 504 OF THE REHABILITATION ACT OF 1973, THE CITY OF LIVERMORE DOES NOT DISCRIMINATE ON THE BASIS OF RACE, COLOR, RELIGION, NATIONAL ORIGIN, ANCESTRY, SEX, DISABILITY, AGE OR SEXUAL ORIENTATION IN THE PROVISION OF ANY SERVICES, PROGRAMS, OR ACTIVITIES. TO ARRANGE AN ACCOMMODATION IN ORDER TO PARTICIPATE IN THIS PUBLIC MEETING, PLEASE CONTACT THE ADA COORDINATOR AT ADACOORDINATOR@LIVERMORECA.GOV OR CALL (925) 960-4170 (VOICE) OR (925) 960- 4104 (TDD) AT LEAST THREE (3) BUSINESS DAYS IN ADVANCE OF THE MEETING.

CITY COUNCIL
JUNE 24, 2024

REGULAR MEETING

1. NONE

2. CALL TO ORDER – The meeting of the City Council was called to order by Mayor John Marchand at 7:00 pm, held in person at 1016 S. Livermore Avenue and YouTube.

ROLL CALL – Present: Mayor John Marchand, Vice Mayor Robert W. Carling, and Council Members, Ben Barrientos, Evan Branning and, Brittni Kiick.

PLEDGE OF ALLEGIANCE

3. PROCLAMATIONS AND PRESENTATIONS

3.1 Proclamation declaring July 28 through August 4, 2024, as Play Ball Week presented to Kathleen Minser, Little League World Series Marketing & Media Director.

Mayor Marchand presented a proclamation to Kathleen Minser, Little League World Series marketing & Media Director declaring July 28 through August 4, 2024, as Play Ball Week.

4. OPEN FORUM

The Mayor reordered the agenda moving Open Forum after item 7.2

5. CONSENT CALENDAR

Mayor Marchand opened the public comment period.

There were no speakers, and the public comment period was closed.

ON THE MOTION OF COUNCIL MEMBER BRANNING, SECONDED BY COUNCIL MEMBER KIICK AND CARRIED ON A 5-0 VOTE, THE CITY COUNCIL APPROVED THE CONSENT CALENDAR.

5.1 Introduce an ordinance and waive the first reading revising Municipal Code Chapter 2.68, Contracts and Purchasing, to change contract approval authorities, add department head contract and purchasing responsibilities, add solicitation

procedures for professional services contracts, and other miscellaneous revisions.

5.2 Resolution 2024-093 authorizing execution of a first amendment to the agreement with Precision Emprise, LLC, dba Precision Concrete Cutting for on-call concrete cutting services increasing the not-to-exceed contract amount from $500,000 to $1,000,000 and extending the term of the agreement to December 30, 2027.

5.3 Resolution 2024-094 authorizing execution of a fourth amendment to the agreement with Watry Buehler Collaborative, LLP increasing the not-to-exceed amount from $1,792,800 to $2,091,800 for additional engineering services during construction associated with the Livermore Village Parking Garage Construction Project 586003.

5.4 Resolution 2024-095 authorizing the following actions for the Resurfacing and Sidewalk Improvements Project composed of the Street Resurfacing 2022 Project 2022-01, Sidewalk Repair 2023 Project 2023-02, and ADA Access Ramps 2021 Project 2021-07: Reject the Bid Proposal from apparent lowest bidder, Mountain Cascade Inc., finding the bid to be incomplete and nonresponsive, authorize supplemental appropriations in FY 2024-25, and award a construction agreement to A. Teichert & Son, Inc., dba Teichert Construction in an amount of $4,178,975.

5.5 Resolution 2024-096 authorizing approving Final Tract Map 8657; authorizing execution of a Subdivision Improvement Agreement for the Triad Drive East Development (Amarone); and accepting on behalf of the public all real property offered for dedication within the Final Tract Map 8657 except for the certain easements which City Council reserves the right to accept at a future date.

5.6 Resolution 2024-097 authorizing execution of an agreement with Holloway Environmental Solutions, LLC for Biosolids Hauling and Disposal Services in an amount not-to-exceed $2,288,790, a term ending June 30, 2027, and an appropriation increase of $103,430 to the Sewer Fund Operating Budget for FY 2024-25.

5.7 Resolution 2024-098 authorizing execution of an agreement for services with Kemira Water Solutions, Inc. for the supply and delivery of ferric chloride for use at the Water Reclamation Plant in an amount not-to-exceed $200,000.

5.8 Resolution 2024-099 authorizing execution of an agreement with Gigantic Idea Studio, Inc. to assist with recycling and organics diversion outreach campaign services for the term of July 1, 2024, to June 30, 2026, in the amount not-to-exceed $215,000.

5.9 Resolution 2024-100 authorizing execution a purchase order to Baker & Taylor Books for purchases of library books and related materials in FY 2024-25, in an amount not-to-exceed $240,000.

5.10 Resolution 2024-101 authorizing execution a purchase order to OverDrive

for the licensing of e-books, audiobooks, and electronic periodicals, in an amount not-to-exceed $140,000.

5.11 Resolution 2024-102 adopting the Police Tow Service Franchise Fee Schedule.

5.12 Resolution 2024-103 authorizing execution of an agreement with NBS Government Finance Group to provide services in administering the City's Assessment Districts, Community Facilities Districts, and Continuing Disclosures in an amount not-to-exceed $350,000 for a five-year term.

5.13 Resolution 2024-104 amending the City of Livermore Salary Plan dated July 2024 to reflect salary increases for the Livermore Management Group, Livermore Police Management Association, Police Chief, Management Confidential, and Confidential Employees in accordance with California Code of Regulations, Title 2, Section 570.5.

6. PUBLIC HEARINGS

6.1 Hearing to receive and consider all evidence and reports regarding the adoption of a Master Fee Schedule. The Master Fee Schedule establishes fees for City services. The fee resolution and accompanying justification includes new, increased, and decreased fees into one document.

Recommendation: Staff recommended the City Council adopt a resolution adopting the City's Master Fee Schedule, incorporating certain fee changes and superseding resolution 2023-128.

Finance Manager Eric Petersen presented the staff report.

Mayor Marchand opened the public hearing.

There were no speakers, and the hearing was closed.

ON THE MOTION OF COUNCIL MEMBER BRANNING, SECONDED BY COUNCIL MEMBER KIICK AND CARRIED ON A 5-0 VOTE, THE CITY COUNCIL ADOPTED THE FOLLOWING RESOLUTION:

Resolution 2024-105 adopting the Master Fee Schedule incorporating certain fee changes for services provided and superseding Resolution 2023-128.

6.2 Hearing to on Police Department Tow Franchise Proposals for RFP & Q No. 4262 to grant a non-exclusive tow franchise agreement, for a five-year term, from July 1, 2024 - June 30, 2029

Recommendation: Staff recommended the City Council authorize the City Manager to grant a non-exclusive tow franchise agreement, for a five-year term, commencing July 1, 2024, and ending June 30, 2029, in substantial conformance to Exhibit A to the resolution to the following companies: 1. Action Road Solutions

DBA Jack James Tow Service, 2.Central Towing & Transport, LLC,3. ITN Holdings, LLC DBA First Street Tow, 4. Golden State Fleet Services, and 5. Norm's Tow Service.

Police Captain John Reynolds presented the staff report.

Mayor Marchand opened the public hearing.

Jeff Ruckteschler provided a comment.

Jeff Pawloski provided a comment.

Suzy Pawloski provided a comment.

Alan Cerro provided a comment.

There were no more speakers, and the hearing was closed.

ON THE MOTION OF COUNCIL MEMBER KIICK, SECONDED BY COUNCIL MEMBER BARRIENTOS CARRIED ON A 4-1 VOTE, WITH COUNCIL MEMBER BRANNING VOTING AGAINST, THE CITY COUNCIL ADOPTED THE FOLLOWING RESOLUTION AND DIRECTED STAFF TO MEET WITH THOSE BUSINESSES THAT WANT TO PROCURE THE REQUIRED EQUIPMENT AND PARTICIPATE IN A FUTRE RFP. IN ADDITION, STAFF WAS DIRECTED TO REVIEW THE ORDINANCE SECTION REGARDING SUBCONTRACTING AND PROVIDE AN UPDATE AT A FUTRE MEETING.

Resolution 2024-106 granting non-exclusive tow franchises.

7. MATTERS FOR CONSIDERATION

7.1 Appointment of Council Members to the City Council Subcommittee on Advisory Bodies for the period of July 1, 2024 - December 31, 2024.

Recommendation: Staff recommended the Mayor appoint two Council Members to serve on the City Council Subcommittee on Advisory Bodies for the period of July 1, 2024 - December 31, 2024, with the City Council's approval.

Mayor Marchand opened the public comment period.

There were no speakers, and the public comment period was closed.

ON THE MOTION OF MAYOR MARCHAND, SECONDED BY VICE MAYOR CARLING AND CARRIED ON A 5-0 VOTE, THE CITY COUNCIL APPOINTED MAYOR MARCHAND AND COUNCIL MEMBER KIICK TO THE SUBCOMMITTEE ON ADVISORY BODIES

7.2 Certification of referendum petition against Resolution No. 2022-085, action to either repeal the resolution, or call for an election for the voters to

approve or set aside the legislative acts in the resolution for the construction of and improvements to Veterans Park, and consideration of a companion resolution ratifying the Amended and Restated Disposition, Development and Loan Agreement with Eden Housing, Inc.

Recommendation: Staff recommended the City Council:
1. Adopt a resolution accepting the Alameda County Registrar of Voter's certification of sufficiency of the signatures on the referendum petition against Resolution No. 2022-085; and,
2. Take one of the following actions as provided by the Elections Code:
Livermore City Council Agenda June 24, 2024
Option 1: Adopt a resolution repealing Resolution No. 2022-085; or,
Option 2: Adopt a resolution calling for an election to place Resolution No. 2022-085 on the ballot for the voters to approve or set aside the legislative acts in the resolution for the construction of and improvements to Veterans Park; requesting that the Alameda County Registrar of Voters conduct the election; and establishing dates for ballot measure arguments.
3. Staff further recommends the City Council adopt a companion resolution to ratify, reaffirm, and readopt the terms and conditions in the Amended and Restated Disposition, Development and Loan Agreement with Eden Housing, Inc., other than for construction of and improvements to Veterans Park, and to acknowledge that the agreement remains in effect as of the date it was signed.

City Attorney Jason Alcala presented the staff report.

Mayor Marchand opened the public comment period.

Michelle Cornell-Davis provided a comment.

Linda Mandolini provided a comment.

Chris Scarborough provided a comment.

Greg Rogowski provided a comment.

Sherri Souza provided a comment.

Resolution 2024-115 finding that the acquisition of the Greenville Road property (125.5 ACRES – APN 99B-5685-12) is exempt from the provisions of the California Environmental Quality Act.

Resolution 2024-116 authorizing the City Manager to execute Purchase and Sale Agreement for the acquisition of the Greenville Road property (125.5

ACRES – APN 99B-5685-12).

Resolution 2024-117 appropriating funds from the Open Space and Acquisition and Management Account (Fund 642) for the amount of $856,000 to acquire the Greenville Road property (125.5 ACRES – APN:99B-5685-12).

6. PUBLIC HEARINGS

6.1 Hearing to consider a request for Vesting Tentative Tract Map and Site Plan Design Review to develop vacant land located southwest of the Portola Avenue and Tranquility Circle intersection with a for-sale residential condominium project, known as Shea Aura.

Recommendation: The Planning Commission and staff recommended the City Council:

1. Adopt a resolution finding that the project is exempt under the California Environmental Quality Act, in accordance with California Government Code Section 65457 and CEQA Guidelines Section 15182 (c), Projects Pursuant to a Specific Plan, and California Public Resources Code Section 21083.3 and CEQA Guidelines Section 15183, Projects Consistent with a Community Plan, General Plan, or Zoning; and
2. Adopt a resolution approving Vesting Tentative Tract Map (VTTM) 8612 – Subdivision (SUB) 21-007 and Site Plan Design Review (SPDR) 21-006, together with the requested Density Bonus waivers and incentive/concession, subject to the attached Conditions of Approval; and
3. Direct the Planning Manager to file a Notice of Exemption, in accordance with the provisions of the California Environmental Quality Act, subject to project approval.

Assistant Planner Shannon Pagan presented the staff report.

Project Applicant Dave Best provided comments.

Mayor Marchand opened the public hearing.

Jean King provided a comment.

There were no more speakers, and the hearing was closed.

ON THE MOTION OF COUNCIL MEMBER BARRIENTOS, SECONDED BY COUNCIL MEMBER BRANNING AND CARRIED ON A 3-0 VOTE, THE CITY COUNCIL ADOPTED THE FOLLOWING RESOLUTIONS:

Resolution 2024-118 finding that the Shea Aura development is exempt from the provisions of the California Environmental Quality Act.

Resolution 2024-119 approving Vesting Tentative Trat Map (VTTM) 8612 – Subdivision (SUB) 21-007 and Site Plan Design Review (SPDR) 21-006 subject to conditions of approval for the Shea Aura Development.

6.2 Public hearing for the confirmation of the levy of assessments for the City's Landscape Maintenance Districts for FY 2024-25.

Recommendation: Staff recommended the City Council:

1. Conduct a public hearing for the confirmation of the annual levy of assessments for the City's Landscape Maintenance Districts for FY 2024-25.
2. Upon closure of the public hearing, staff recommended the City Council adopt a resolution confirming the annual levy of assessments for the City's Landscape Maintenance Districts and directing actions with respect thereto for FY 2024-25.

Acting Public Works Manager Marisa Gan presented the staff report.

Mayor Marchand opened the public hearing.

There were no speakers, and the hearing was closed.

ON THE MOTION OF COUNCIL MEMBER BRANNING, SECONDED BY COUNCIL MEMBER BARRIENTOS AND CARRIED ON A 3-0 VOTE, THE CITY COUNCIL ADOPTED THE FOLLOWING RESOLUTION:

Resolution 2024-120 confirming the annual levy of assessments for Landscape Maintenance District for Fiscal Year 2024-2025 and directing actions with respect thereto.

7. MATTERS FOR CONSIDERATION

7.1 Approval of the City Council 2025 Meeting Calendar.

Recommendation: Staff recommended the City Council approve the 2025 Meeting Calendar. Staff is prepared to make adjustments if a Council Member identifies a scheduling or holiday conflict to ensure all members of the Council can participate in meetings.

Acting City Clerk Debbie Elam presented the staff report.

Mayor Marchand opened the public comment period.

There were no speakers, and the public comment period was closed.

ON THE MOTION OF COUNCIL MEMBER BARRIENTOS, SECONDED BY COUNCIL MEMBER BRANNING AND CARRIED ON A 3-0 VOTE, THE CITY COUNCIL APPROVED THE CITY COUNCIL 2025 MEETING CALENDAR.

8. COUNCIL COMMITTEE REPORTS AND MATTERS INITIATED BY CITY MANAGER, CITY ATTORNEY, STAFF AND COUNCIL MEMBERS

THE MAYOR AND CITY COUNCIL MEMBERS PROVIDED A SUMMARY OF RECENTLY ATTENDED EVENTS AND MEETINGS IN ADDITION TO THE INFORMATION PROVIDED IN THE SUPPLEMENTAL PACKET. COUNCIL MEMBERS WHO DID NOT PROVIDE A SUMMARY IN THE SUPPLEMENTAL PACKET ARE INCLUDED BELOW.

City Council directed staff to direct the General Plan Advisory Committee to provide feedback on including planting additional trees, edible crops, pollinator crops, and water conservation in their future Design Guidelines.

9. ADJOURNMENT – at 8:36 pm to a Regular City Council Meeting on Monday, July 22, 2024 at 7:00 pm, Civic Center Meeting Hall, City Council Chambers, 1016 S. Livermore Avenue.

APPROVED: _____
JOHN P. MARCHAND, MAYOR

CITY COUNCIL STAFF REPORT **ITEM NO. 5.3**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: Resolution dedicating a Public Utility Easement (PUE) to the public over a portion of City owned land within a portion of Stockmen's Park and authorizing the City Manager to execute the PUE to serve the designated Commercial Use Areas adjacent to Stockmen's Park.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to dedicate a Public Utility Easement (PUE) over City property within a portion of Stockmen's Park.

SUMMARY

The Downtown Plan includes cultural and commercial uses adjacent to Stockmen's Park. The placement of these uses is intended to activate and complement the space, but not overshadow Stockmen's Park.

City of Livermore (City) staff has been working with Blacksmith Square LLC (Developer) and reviewing their building permit applications for their Blacksmith Square Expansion project located within the commercial use parcels adjacent to Stockmen's Park. As part of the City's review of the permit plans it was determined that the Developer needs to route power and communication utilities just outside their western boundary on City Property in order to serve their development. To have these public utilities routed on city property, the utility companies require an easement for access to install and maintain their services. Staff proposes dedicating a PUE over City Property within a portion of Stockmen's Park adjacent to the western boundary of the designated Commercial Use areas in order to accommodate this requirement. The location of the proposed PUE is shown in Attachment 1. The ultimate use of this area in the approved Downtown Development Plan is a pedestrian pathway with decorative pavement between the new Blacksmith Square building and the future science center. The proposed PUE does not impact this future use.

Therefore, staff recommends the City Council adopt a resolution to dedicate a Public Utility Easement (PUE) over City Property within a portion of Stockmen's Park and authorize the City Manager to execute the PUE as depicted in the exhibits to the resolution. The City Clerk is authorized to accept the easement

per Resolution 1-65.

DISCUSSION

In 1962 the City and the Livermore Stockmen's Rodeo Association (Stockmen's Association) entered into an agreement for the Development of the Rodeo Grounds and Sunken Garden Area as a Civic Center and Parks and Recreation Area (Agreement), which authorized the City's acquisition of an approximately 33-acre property located south of Pacific Avenue and to the north and east of Livermore Avenue known as the Civic Center property. The Agreement required the completion and dedication of a public park commemorating the contributions of the Stockmen and those who served in the armed forces of the United States.

The City and the Stockmen's Association have since amended the Agreement. In 2018 the agreement was amended to include a public park called Stockmen's Park, a park easement designating certain portions as a "Cultural Facility Area" and other portions as "Commercial Use Areas" for the development of facilities such as a black box theater, a science and society center, open space support, and development of commercial uses such as the expansion of Blacksmith Square. Minor adjustments were made in 2022 to the Stockmen's Park easement boundaries in conformance with slight parcel boundary modifications needed to facilitate the development of the Downtown Plan and its commercial use area for the Blacksmith Square expansion project and the cultural uses area for the Black Box Theater project.

On December 22, 2022, Blacksmith Square LLC (Developer) acquired the City owned property located within the Commercial Use Areas of the easement.

On October 26, 2023, the Developer applied for and the City approved entitlements for a proposed expansion of Blacksmith Square development within the Commercial Use Area.

On November 6, 2023, the Developer applied for building permits for their expansion project. As part of the City's review of the permit plans it was determined that the Developer needs to route power and communication utilities just outside their western boundary on City property in order to serve their development.

Staff proposes to dedicate a PUE over City Property within a portion of Stockmen's Park adjacent to the western boundary of the designated Commercial Use areas. The PUE is needed to allow for required public utilities to serve the approved expanded Blacksmith Square Development within the designated Commercial Use Area.

FISCAL AND ADMINISTRATIVE IMPACTS

The PUE would not result in additional fiscal or administrative impacts and would help facilitate implementation of developing the Commercial Use Area within the Downtown Plan.

SITE LOCATION PLAN

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION DEDICATING A PUBLIC UTILITY EASEMENT (PUE) TO THE PUBLIC OVER A PORTION OF CITY OWNED LAND WITHIN A PORTION OF STOCKMEN'S PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE PUE TO SERVE THE DESIGNATED COMMERCIAL USE AREAS ADJACENT TO STOCKMEN'S PARK

In 1962 the City of Livermore ("City") and the Livermore Stockmen's Rodeo Association ("Stockmen's Association") entered into an agreement for the Development of the Rodeo Grounds and Sunken Garden Area as a Civic Center and Parks and Recreation Area ("Agreement"), which authorized the City's acquisition of an approximately 33-acre property located south of Pacific Avenue and to the north and east of Livermore Avenue known as the Civic Center property. The Agreement required the completion and dedication of a public park commemorating the contributions of the Stockmen and those who served in the armed forces of the United States.

The City and the Stockmen's Association have since amended the Agreement. In 2018 the agreement was amended to include a public park called Stockmen's Park, a park easement designating certain portions as a "Cultural Facility Area" and other portions as "Commercial Use Areas" for the development of facilities such as a black box theater, a science and society center, open space support, and development of commercial uses such as the expansion of Blacksmith Square. Minor adjustments were made in 2022 to the Stockmen's Park easement boundaries in conformance with slight parcel boundary modifications needed to facilitate the development of the Downtown Plan and its commercial use area for the Blacksmith Square expansion project and cultural uses area for the Black Box Theater project.

On December 22, 2022, Blacksmith Square LLC (Developer) acquired the City owned property located within the Commercial Use Areas of the easement.

On October 26, 2023, the Developer applied for and the City approved entitlements for a proposed expansion of Blacksmith Square development within the Commercial Use Area.

On November 6, 2023, the Developer applied for building permits for their expansion project. As part of the City's review of the permit plans it was determined that the Developer needs to route power and communication utilities just outside their western boundary on City property in order to serve their development. To have these public utilities routed on City property, the utility companies require an easement for access to install and maintain their services. The location of the proposed PUE does not impact the ultimate use of this area in the approved Downtown Development Plan, which is decorative pavement between the new Blacksmith Square building and the future science center.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Authorizes the City Manager to Dedicate a Public Utility Easement (PUE) over City Property within a portion of Stockmen's Park, attached hereto as Exhibit A; and

2. Authorizes the City Manager to take all necessary steps to execute all necessary documents to execute the Public Utility Easement.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

CITY COUNCIL STAFF REPORT **ITEM NO. 5.4**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: Resolution to summarily vacate a portion of public right-of-way along South Livermore Avenue and authorizing execution of quitclaim deeds to accommodate the approved Blacksmith Square Expansion project.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution summarily vacating a portion of right-of-way for public highway purposes along South Livermore Avenue approximately 0.4 feet in width, for a total of 67.461 square feet of right-of-way and authorize the City Manager to quitclaim the right-of-way to Maroon Bear, a California Limited Partnership and Blacksmith Square LLC, a California Limited Liability Company (Property Owners).

SUMMARY

Staff proposes to vacate a portion of right-of-way located along South Livermore Avenue as described in the Plat and Legal Descriptions in Exhibit A to the resolution. This vacation is required to eliminate the existing building encroachments caused by architectural elements and allow for the future new building expansions in accordance with the approved Blacksmith Square Expansion project. The Blacksmith Square Expansion project includes approximately 13,000 square feet of new commercial space, which will help to create the pedestrian-friendly shopping environment approved in the Downtown Core Concept Plan. This portion of right-of-way is no longer needed because the existing walkway created outside the existing building envelopes and the proposed new buildings meet the city's downtown pedestrian pathway standards and requirements. Therefore, the City can summarily vacate the right-of-way along South Livermore Avenue and authorize execution of the quitclaim deeds releasing the right-of-way to the Property Owners, as depicted in the Exhibits B and C to the resolution.

DISCUSSION

On October 24, 2022, the City Council adopted Resolution 2022-177 authorizing an Amended and Restated Disposition and Development Agreement (DDA) with Red Bear Property Management, Inc. for development of downtown commercial uses. Under the amended and adopted DDA, Red Bear Property Management, Inc. will develop approximately 13,000 square feet of new commercial retail space

consistent with the City Council's approved Downtown Core Concept Plan. This development is known as the Blacksmith Square Expansion project.

On October 4, 2023, the City initiated an application for Consistency Determination (CD) 23-005 to vacate a small portion of public right-of-way located within South Livermore Avenue to accommodate the existing and proposed buildings in Blacksmith Square. The existing buildings in Blacksmith Square, as well as an area of proposed new building expansions, encroach beyond their respective parcel boundaries and extend into the right-of-way along South Livermore Avenue. Expanding Blacksmith Square as envisioned in the approved Downtown Core Concept Plan requires vacation of the right-of-way and a quitclaim of the area of encroachment to the property owners.

Government Code Section 65402(a) requires that if a General Plan has been adopted, no real property or easements used for public purposes shall be acquired or disposed of until the location, purpose, and extent of such acquisition or disposition has been reported upon by the planning agency (e.g. Planning Commission) as to conformity with its adopted General Plan. This includes vacation of public right-of-way needed for public purposes in whole or in part.

On December 5, 2023, the Planning Commission adopted a resolution approving Consistency Determination (CD) 23-005, finding the City's vacation of a portion of public right-of-way located on South Livermore Avenue is no longer needed for public highway purposes and that the vacation of this portion of right-of-way is consistent with the General Plan.

FISCAL AND ADMINISTRATIVE IMPACTS

The financial burden to maintain this unused public right-of-way in a safe condition is greater than its public value. By vacating the property, the City eliminates the need to maintain the property and reduces associated liability resulting in a minor financial benefit to the City.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION TO SUMMARILY VACATE A PORTION OF PUBLIC RIGHT-OF-WAY ALONG SOUTH LIVERMORE AVENUE AND AUTHORIZING EXECUTION OF QUITCLAIM DEEDS TO ACCOMMODATE THE APPROVED BLACKSMITH SQUARE EXPANSION PROJECT

On October 24, 2022, the City Council adopted Resolution 2022-177 authorizing an Amended and Restated Disposition and Development Agreement ("DDA") with Red Bear Property Management, Inc. for development of downtown commercial uses. Under the amended and adopted DDA, Red Bear Property Management Inc. will develop approximately 13,000 square feet of new commercial retail space consistent with the City Council's approved Downtown Core Concept Plan, known as the Blacksmith Square Expansion project.

On October 4, 2023, the City of Livermore ("City") initiated an application for Consistency Determination (CD) 23-005 to vacate a small portion of public right-of-way located within South Livermore Avenue to accommodate the existing and proposed buildings in Blacksmith Square. The existing buildings in Blacksmith Square, as well as an area of proposed building expansion, encroach beyond their respective parcel boundaries and extend into the public right-of-way along South Livermore Avenue. Expanding Blacksmith Square as envisioned in the approved Downtown Core Concept Plan requires vacation of the right-of-way and a quitclaim of the area of encroachment to the property owner.

The vacation of a small portion of public right-of-way is necessary to implement the Blacksmith Square Expansion project consistent with the City Council's approved Downtown Core Concept Plan. Portions of the existing historic and non-historic buildings in Blacksmith Square, and an area of planned new building expansion, encroach beyond their respective parcel boundaries and extend into the public right-of-way along South Livermore Avenue by approximately 0.4 feet for a total of 67.461 square feet. Expanding Blacksmith Square as envisioned in the approved Downtown Core Concept Plan requires vacation of the right-of-way and a quitclaim of the area of encroachment to the Maroon Bear, a California Limited Partnership and Blacksmith Square LLC, a California Limited Liability Company.

Streets and Highways Code section 8334, et seq., allow the legislative body of a local agency to summarily vacate excess right-of-way of a street or highway not required for street or highway purposes.

Staff recommended and the Planning Commission made a General Plan consistency finding on December 5, 2023, affirming that the vacation of a portion of right-of-way along South Livermore Avenue would be consistent with the General Plan and adopted a resolution approving Consistency Determination (CD) 23-005.,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that to the extent the quitclaim of the easement to be vacated constitutes a project pursuant to the California Environmental Quality Act ("CEQA"), this action is exempt from CEQA pursuant to 14 California Code of Regulations, section 15061 because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment and the area to be vacated is being substituted for in a manner that adequately maintains the function of the right-of-way and consistency with City Standards.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby:

1. Vacates a portion of public right-of-way located along South Livermore Avenue, as shown and described in Exhibit A, attached hereto, and described below.

   The public right-of-way vacated includes a small portion of the existing sidewalk (approximately 67 square feet). This portion of right-of-way is not useable or accessible as it is situated underneath the brick facades of the existing buildings in Blacksmith Square and under the new building as part of the Blacksmith Square Expansion Project and is no longer needed at its current location (Streets and Highways Code section 8334).

2. Directs the City Clerk to file a certified copy of this resolution of vacation with associated legal description with the Alameda County Recorder's Office.

3. Authorizes that from and after the date this resolution is recorded, the small portion of public right-of-way is vacated and no longer constitutes public right-of-way for street or highway purposes.

4. Authorizes the City Manager to sign on behalf of the City of Livermore, the Quitclaim Deed, attached hereto as Exhibit B, to convey to Blacksmith Square LLC, a California Limited Liability Company, and the Quitclaim Deed, attached hereto as Exhibit C, to convey to Maroon Bear, a California Limited Partnership.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

SUBJECT: Resolution authorizing the City Manager to execute the first amendment to the Amended and Restated Disposition, Development, and Loan Agreement between the City of Livermore and 2205 Railroad Avenue LLC for a downtown hotel.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute the first amendment to the Amended and Restated Disposition, Development, and Loan Agreement between the City of Livermore and 2205 Railroad Avenue LLC for a downtown hotel.

SUMMARY

The proposed amendment to the Amended and Restated Disposition, Development, and Loan Agreement (DDLA) between the City of Livermore (City) and 2205 Railroad Avenue LLC (Developer) for a downtown hotel modifies the performance schedule to allow the Developer more time to deliver the hotel, as well as modifies several sections of the Definitions and payment terms to be internally consistent with the modified schedule. The amendment further modifies the DDLA to identify a series of steps to be taken if the Developer fails to meet the deadlines set forth in the new performance schedule.

The original Disposition and Development Agreement approved by the City Council in 2018 called for commencement of construction in June 2020 and opening of the hotel in December 2021. However, a series of referenda and initiative challenges caused significant delays to the hotel project and led to cost increases that necessitated the removal of underground parking as identified in the amended and restated DDLA approved by Council in January 2022.

Additionally, the COVID-19 pandemic had a damaging effect on tourism and business travel, which has resulted in reduced demand for new hotel development. Following the pandemic, a prolonged period of economic inflation has resulted in increased costs for materials, labor, and capital, which has further challenged the Developer's ability to deliver the hotel, and the related payments, in accordance with the original Schedule of Performance.

DISCUSSION

Background

On July 27, 2016, the City entered into an Exclusive Negotiating Rights Agreement (ENRA) with Presidio to establish procedures and standards for the negotiation of a Purchase and Sale Agreement for disposition and development of a downtown hotel. The City Council extended the ENRA with Presidio throughout the public engagement and plan development process for the new Downtown Core plan. On February 26, 2018, the City Council adopted Resolution 2018-024 authorizing the execution of a Hotel Term Sheet with Presidio for the preparation of a Disposition and Development agreement for a downtown hotel.

On September 10, 2018, the City Council adopted Resolution 2018-154 approving Specific Plan Amendment 18-001 (the "September 2018 Amendments") to facilitate the phased implementation of the approved Downtown Plan and provisions to allow up to a four-story hotel. At this same meeting, the City Council adopted Resolution 2018-155 approving Downtown Design Review for a four-story, 133-room hotel on the southeast corner of Railroad and South Livermore Avenue.

On October 11, 2018, the City received a referendum petition entitled "Referendum Against Portions of a Resolution Passed by the City Council Resolution No. 2018-154" (hereinafter "Referendum"). The Referendum challenged three portions of the September 2018 Amendments, specifically the amendments to Chapter 5 (Development Standards –Core), Chapter 7 (Circulation and Transportation), and Chapter 8 (Parking Standards).

On November 26, 2018, the City Council adopted Resolution 2018-200 accepting certification by the City Clerk as to the sufficiency of signatures on the Referendum. The Council's successive adoption of Resolution 2018-201 repealed the Specific Plan Amendments listed in the referendum petition (Chapters 5, 7 and 8) and confirmed that the remaining amendments to the Downtown Specific Plan approved by Resolution No. 2018-154 remain in effect.

The repeal of the September 2018 Amendments to Chapters 5, 7, and 8 necessitated several adjustments to the Downtown Plan. The adjustments included reduced building heights for the hotel and the L Street parking structure, requiring two-story buildings adjacent to Blacksmith Square, and an adjustment to the land use standards to accommodate additional surface parking. The remaining components of the Downtown Plan were consistent with the Specific Plan that existed before the September 2018 Amendments.

California Elections Code section 9241 provided that, until November 27, 2019 (one year from the actions taken to repeal), the City could not readopt the same amendments to Chapters 5, 7, and 8 that were challenged by the Referendum. However, the City could consider amendments to the same chapters within the one year repeal period, provided the amendments were different from the previous amendments and avoid the objections made to the previous amendments. On May 13, 2019, within the one-year time frame, the City Council readopted amendments to Specific Plan Chapters 5, 7, and 8, that were outside the Referendum's issues of concern, including provision of additional parking and the removal of the regional theater from the Downtown Specific Plan. Due to rising construction costs during the delay caused by the 2018 Referendum, the provision of between 70 to 150 parking spaces in a new public or private parking facility accessed from K Street was included in the project at that time as an alternative to an underground parking garage. Removal of the regional theater language was also included in the amendments to the Specific Plan that were not challenged.

On July 29, 2019, the City Council adopted Resolution 2019-137 accepting the City Clerk's certification that the petition entitled "Citizen's Initiative Changing Development Regulations in Downtown Livermore and Amending Regulations to Allow Housing at the Civic Center" contained the sufficient number of signatures required to qualify it for the ballot. On August 26, 2019, the City Council adopted Resolution 2019-142 calling for and giving notice of the holding of a general election for the submittal of an initiative petition entitled: "Citizen's Initiative Changing Development Regulations in Downtown Livermore and amending regulations to allow housing at the Civic Center" to the voters of the City of Livermore and consolidating that election with the general municipal election to be held Tuesday, November 3, 2020.

On July 22, 2019, the City Council introduced an ordinance approving a development agreement with 2205 Railroad Avenue LLC for the Wine Country Hotel at the Bankhead project (Development Agreement 19-001). The ordinance was adopted as Ordinance No. 2089 on second reading by the City Council on July 29, 2019.

On August 28, 2019, a referendum petition entitled "Referendum Against Ordinance No. 2089 Passed by the City Council (Development Agreement 19-001)" was filed with the City Clerk, seeking to repeal the ordinance.

On September 20, 2019, the Alameda County Registrar of Voters certified the sufficiency of the signatures for that referendum.

On October 14, 2019, the City Council adopted Resolution No. 2019-162, calling for and giving notice of holding a special municipal election to be held on March 3, 2020, for the purpose of submitting Ordinance No. 2089, approving a development agreement for the Wine Country Hotel at the Bankhead project (Development Agreement 19-001), to the voters for approval. That ballot measure was designated Measure P on the ballot for the March 3, 2020 election.

On March 3, 2020, Livermore voters passed Measure P by over a 2/3 majority vote in favor - approving the development agreement between the City and Presidio to build the downtown hotel. On May 11, 2020, the City Council readopted the Specific Plan Amendments to Chapters 5, 7, and 8 that were challenged by the Referendum, with the exception of the amendments related to the boutique hotel site at the southeast corner of Railroad Avenue and South Livermore Avenue. At the same meeting, City Council directed staff to return with another Specific Plan Amendment to reintroduce the hotel amendments.

On October 26, 2020, the City Council adopted Resolution 2020-179 approving another Downtown Specific Plan Amendment to reestablish the four-story height limit for the hotel and enable implementation of the approved boutique hotel consistent with the approved Downtown Plan.

On January 10, 2022, the City Council adopted Resolution number 2022-008 authorizing execution of an Amended and Restated Disposition, Development and Loan Agreement with the Developer, which included a site acquisition loan in the amount of $1,923,750 for the acquisition of 2080 Railroad Avenue to serve as parking. The resolution also authorized a supplemental appropriation in the amount of $1,923,750 from the General Fund to be directed to the site acquisition loan described in the DDLA. The Amended and Restated DDLA also established a new timeline for the hotel project, with construction expected to commence no later than May of 2024.

Amendment to the Amended and Restated DDLA

The proposed first amendment to the Amended and Restated DDLA would make two significant changes to the agreement. The first change would modify the performance schedule to allow the Developer more time to deliver the hotel project; several additional sections of the DDLA would also be modified to maintain internal consistency with the new dates in the revised performance schedule. The second change to the DDLA identifies a new set of actions to be taken if the Developer falls out of compliance with the revised performance schedule. Those actions are described as follows.

In the event the Developer fails to achieve any milestone in the revised performance schedule, under the proposed amendment the Developer would be required to fund a market feasibility study performed by a consultant that is selected by the City. The intent of the study would be to determine if the hotel project is feasible under market conditions at the time of the study. If, based upon the market feasibility study, the City Manager determines the project is not feasible under current market conditions, each remaining deadline in the performance schedule shall be extended exactly one year.

If the Developer does not meet one or more of the extended deadlines of the performance schedule after the one-year extension, the City Manager shall have the sole discretion to require the Developer to conduct, at the Developer's sole expense, a second market feasibility study to determine whether the hotel project is feasible under market conditions at that time.

If, based upon the second market feasibility study, the City Manager determines the project is not feasible under current market conditions, the City shall have sole discretion to (1) require the Developer to meet and confer with the City to identify an alternative path forward for the Project, and (2) terminate this Agreement and all related agreements.

If, based upon either the first or second market feasibility study, the City Manager determines the project is feasible under current market conditions, the Developer must, within six months of the completion of the relevant market feasibility study, either (1) complete any and all actions that are at that time past due, (2) identify a new development partner, subject to the City's approval, to assist the Developer with coming into compliance with the performance schedule, or (3) sell the project to another developer subject to the City's approval. After the end of the six-month period, the City Manager, in her sole discretion, may grant one six-month extension to complete the action chosen under this subsection.

In the event the Developer does not fulfill its obligation under this section after the required time period, the City shall have the sole discretion to terminate this agreement and all related agreements. The City shall also retain the rights to use the Project plans and designs for future use, including with another developer, in exchange for a payment to Developer in an amount not to exceed the actual cost to the Developer of preparing the Project plans and designs, as shown by the Developer's business records.

FISCAL AND ADMINISTRATIVE IMPACTS

The proposed first amendment to the Amended and Restated DDLA would delay the repayment of the $1,923,750 loaned to the Developer for the purpose of acquiring additional parking, as well as the completion of payment for the $71,521 purchase price of the land.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF THE FIRST AMENDMENT TO THE AMENDED AND RESTATED DISPOSITION AND DEVELOPMENT AGREEMENT WITH 2205 RAILROAD AVENUE LLC FOR A DOWNTOWN HOTEL

On October 1, 2018, the City of Livermore ("City") and 2205 Railroad Avenue LLC, a Delaware limited liability company (the "Developer"), entered into a Disposition, Development and Loan Agreement ("DDLA") for the purchase of the City-owned parcels located on the southeast corner of South Livermore Avenue and Railroad Avenue in downtown Livermore and development of the parcels for a hotel project.

On August 22, 2022, the City and Developer entered into an Amended and Restated Disposition, Development and Loan Agreement ("Amended and Restated DDLA"), which replaced the original DDLA.

The COVID-19 pandemic had a damaging effect on tourism and business travel, which has resulted in reduced demand for new hotel development. Following the pandemic, a prolonged period of economic inflation has resulted in increased costs for materials, labor, and capital, which has further challenged the Developer's ability to deliver the hotel, and the related payments, in accordance with the Schedule of Performance of the Amended and Restated DDLA.

To account for these challenges, the City and Developer desire to enter into a First Amendment to the Amended and Restated Disposition, Development and Loan Agreement to modify the Schedule of Performance of the Amended and Restated DDLA and the associated sections and exhibit documents in the Amended and Restated DDLA affected by the modified Schedule of Performance.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore, that it hereby authorizes the City Manager, or her designee, to execute the First Amendment to the Amended and Restated Disposition, Development and Loan Agreement between the City and 2205 Railroad Avenue LLC, attached hereto as Exhibit A.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

EXHIBIT A

FIRST AMENDMENT TO THE
AMENDED AND RESTATED DISPOSITION, DEVELOPMENT AND LOAN AGREEMENT
by and between
CITY OF LIVERMORE
and
2205 RAILROAD AVENUE LLC

THIS FIRST AMENDMENT TO THE AMENDED AND RESTATED DISPOSITION, DEVELOPMENT AND LOAN AGREEMENT is made as of this ____ day of _____, 2024, by and between the City of Livermore, a municipal corporation (the "City"), and 2205 Railroad Avenue LLC, a Delaware limited liability company (the "Developer"), with reference to the following facts, purposes, and understandings.

RECITALS

A. On October 1, 2018, the City and Developer entered into a Disposition, Development and Loan Agreement ("DDLA"). The DDLA contains terms and conditions for the purchase and development of the City-owned parcels located on the southeast corner of South Livermore Avenue and Railroad Avenue in downtown Livermore (APNs: 098-0407-031-00; 098-0407-033-00) (hereinafter "Hotel Parcel")).

B. On August 22, 2022, the City and Developer entered into an Amended and Restated Disposition, Development and Loan Agreement ("Amended and Restated DDLA"), which replaced the original DDLA.

C. Under the Amended and Restated DDLA, Developer purchased the Hotel Parcel from the City on October 21, 2022, for the construction on the Hotel Parcel of a four-story approximately 65,000-75,000 square foot Hotel, to be constructed to a standard comparable to one of the Brands identified in the Hotel Standards and containing between 125-135 hotel rooms, approximately 1,400-2,000 square feet of economically viable meeting space, a roof-top deck, and related hotel amenities and improvements. Under the requirements of the purchase agreement, the Developer is required to make a final payment in the amount of $64,368.90 by December 31, 2025.

D. The Amended and Restated DDLA additionally provided for the City to provide a short-term Site Acquisition Loan to the Developer to assist in financing the Developer's acquisition of the parcel located on the northwest corner of Railroad Avenue and North K Street in downtown Livermore, commonly known as 2080 Railroad Avenue (APN 098-0282-009-00) (hereinafter "Parking Parcel"), to be used as a valet parking lot to meet the City's parking requirements for the Hotel. Under the requirements of the site acquisition loan, the Developer is required to make a final payment in the amount of $1,923,750 plus interest at a rate of 3.5% by December 31, 2025.

E. The COVID-19 pandemic had a damaging effect on tourism and business travel, which has resulted in reduced demand for new hotel development. Following the pandemic, a prolonged period of economic inflation has resulted in increased costs for materials, labor, and capital, which has further challenged the Developer's ability to deliver the Hotel, and the related payments, in accordance with the Schedule of Performance.

F. The City and Developer desire to enter into this First Amendment to the Amended and Restated Disposition, Development and Loan Agreement ("Agreement") to modify the Schedule of Performance of the Amended and Restated DDLA and the associated sections and exhibit documents in the Amended and Restated DDLA affected by the modified Schedule of Performance. The Developer and the City have completed items 1 through 12 of the attached modified Schedule of Performance on time per the original schedule of performance and this completion is reflected in the attached Schedule of Performance. All terms of the Amended and Restated DDLA remain in full force and effect unless explicitly amended by this agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the City and Developer hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Article 1, Section 1.1(b) under Definitions is hereby amended to read as follows: "Agreement" shall mean this Amended and Restated Disposition Development and Loan Agreement and this First Amendment to the Amended and Restated Disposition Development and Loan Agreement, collectively."

2. Article 1, Section 1.1(tt) under Definitions is hereby amended to read as follows: "Promissory Note" shall mean the amended Promissory Note executed by the Developer to satisfy the Site Acquisition Loan for the Parking Parcel under the terms set forth in this Agreement. A form of the amended Promissory Note is attached to this Agreement as Exhibit K-1."

3. Article 1, Section 1.1(yy) under Definitions is hereby amended to read as follows: "Schedule of Performance" shall mean the amended schedule of actions to be taken by the Parties pursuant to this Agreement to achieve the disposition of the Property to the Developer and the construction of the Project, as the same components of the same may be extended pursuant to this Agreement. The amended Schedule of Performance is attached to this Agreement as Exhibit N-1."

4. Article 1, Section 1.2 Exhibits is hereby amended as follows:

   Exhibit A-1. Amended Legal Description and Plat of Hotel Parcel shall replace

   Exhibit A.

   Exhibit K-1. Amended Promissory Note shall replace Exhibit K.

Exhibit N-1. Amended Schedule of Performance shall replace Exhibit N.

The following additional Exhibits are documents that have been executed or recorded since the original DDLA and are hereby added to the Agreement for recordkeeping purposes:

Exhibit R. Recorded Grant Deed
Exhibit S. Executed Lease and Operating Agreement for the Parking Parcel
Exhibit T. Recorded Memorandum of DDLA
Exhibit U. Recorded Parcel Map 10969
Exhibit V. Executed Temporary Parking Lease for Hotel Parcel

All Exhibits amended or added under this section are attached to and incorporated into this Agreement. All Exhibits not explicitly amended by this Agreement remain in full force and effect.

5. Article 3, Section 3.2 Purchase Price is hereby amended to read as follows: "The purchase price for the Property shall be $71,521. The Developer shall pay a ten (10) percent deposit at the Close of Escrow and the remainder shall be paid no later than December 31, 2027.

6. Article 10, Section 10.3 Fault of Developer is amended to add subsection (c), which reads as follows:

"(c) Notice and Cure Option Specific to Developer Failure to Comply with Performance Schedule.

Upon the happening of an event of default described above in section 10.3(a)(2), the City shall have the sole discretion to require the Developer to conduct, at the Developer's sole expense, a Market Feasibility Study, the scope of which shall be determined by the City Manager. The City shall have the sole discretion to determine the individual(s) or firm(s) used to complete the Market Feasibility Study. The City Manager will use the Market Feasibility Study to determine whether, at the time of the Market Feasibility Study, the Project is feasible under current market conditions.

(1) If, based upon the Market Feasibility Study, the City Manager determines the project is not feasible under current market conditions, each remaining deadline in the Performance Schedule shall be extended exactly one year. If the Developer does not meet one or more of the extended deadlines of the Performance Schedule after the one-year extension, the City Manager shall have the sole discretion to require the Developer to conduct, at the Developer's sole expense, a second Market Feasibility Study to determine whether, at the time of the second Market Feasibility Study, the Project is feasible under current market conditions. The City shall have the sole discretion to determine the individual(s) or firm(s) to complete the second

Market Feasibility Study. If, based upon the second Market Feasibility Study, the City Manager determines the project is not feasible under current market conditions, the City shall have sole discretion to (1) require the Developer to meet and confer with the City to identify an alternative path forward for the Project, and (2) terminate this Agreement and all related agreements.

(2) If, based upon either the first or second Market Feasibility Study, the City Manager determines the project is feasible under current market conditions, the Developer must, within six months of the completion of the relevant Market Feasibility Study, either (1) complete any and all actions that are at that time past due, pursuant to the Performance Schedule, taking into account any applicable extensions, (2) identify a new development partner, subject to the City's approval, to assist the Developer with coming into compliance with the Performance Schedule, or (3) sell the Project to another developer subject to the City's approval. After the end of the six-month period, the City Manager, in her sole discretion, may grant one six-month extension to complete the action chosen under this subsection.

In the event the Developer does not fulfill its obligation under this section after the required time period, the City shall have the sole discretion to terminate this agreement and all related agreements. The City shall also retain the rights to use the Project plans and designs for future use, including with another developer, in exchange for a payment to Developer in an amount not to exceed the actual cost to the Developer of preparing the Project plans and designs, as shown by the Developer's business records.

Nothing in this section shall limit the City's right to pursue any other remedies available to it, by this Agreement, at law or in equity, upon the happening of any event described in section 10.3(a)."

7. Article 12, Section 12.3 Loan term is hereby amended to read as follows:
"The term of the loan shall start on the date of loan dispersal and terminate no later than December 31, 2027."

8. Article 12, Section 12.6 Loan conditions to Disbursement is hereby amended to read as follows:
"Developer agrees to lease the Parking Parcel to the City at no cost for use as a temporary overflow public parking lot for a period of up to six years from the execution of the Lease and Operating Agreement for the Parking Parcel, or until construction of the Hotel is at least 40 percent complete, whichever is earlier. However, at a minimum, the City shall be permitted to use the Parking Parcel until September 30, 2026. The City may relinquish its use of the Parking Parcel prior to this time if it is no longer needed for temporary overflow parking. Once the City's right to use the property has lapsed, Developer may at any time submit a written

notice to the City that the lease will be terminated within 30 days to allow Developer to begin construction of permanent parking improvements.

9. Continuing Effect. Except as amended above, the Agreement remains in full force and effect.

WHEREFORE, the Parties have executed this First Amendment to the Amended and Restated DDLA as of the date first written above.

NOTICE TO BORROWER:

THIS DOCUMENT CONTAINS PROVISIONS
RESTRICTING RESALE AND ASSUMPTIONS

AMENDED PROMISSORY NOTE

First Amendment to the Amended and Restated Disposition,
Development and Loan Agreement Hotel Parcel Loan

Principal Amount: $64,368.90 _____, 2024

APN 098-00407-031 & 033

FOR VALUE RECEIVED, the undersigned 2205 Railroad Avenue LLC, a Delaware Limited Liability Company ("Borrower") whose address is 262 Glorietta Boulevard, Orinda, California 94563, hereby promise(s) to pay to the order of the City of Livermore, a municipal corporation ("City"), at 1052 South Livermore Avenue, Livermore, California 94550, the principal amount of SIXTY-FOUR THOUSAND THREE HUNDRED SIXTY-EIGHT and 90/100 DOLLARS ($64,368.90), without any interest accrued thereon, as set forth in this Promissory Note ("Note").

Pursuant to that certain First Amendment to the Amended and Restated Disposition, Development and Loan Agreement ("DDLA") dated July 22, 2024, by and between City and Borrower (the "Developer"), the Developer agreed to construct a four-story approximately 65,000-75,000 square foot hotel containing between 125-135 rooms, approximately 1,400-2,000 square feet of economically viable meeting space, a roof-top deck and related hotel amenities and improvements (the "Project") on the Property (defined below) and agreed to satisfy a portion of the parking requirements identified in the conditions for approval for the Project on the Parking Parcel, as more particularly described in the DDLA.

In accordance with the DDLA, the property consists of the parcel located on the southeast corner of South Livermore Avenue and Railroad Avenue in downtown Livermore in the City of Livermore, Alameda County, California (APNs: 098-0407-031-00 and 098-0407-033-00) as more particularly described and depicted as Parcel 1 on Parcel Map 10969 and in Exhibit A attached hereto (the "Property" or "Hotel Parcel").

In accordance with the DDLA, the Borrower intends to purchase, develop, own, and operate the Project on the Hotel Parcel. Pursuant to the DDLA and its terms and conditions for the loan, the City has made a loan to Borrower in the original principal amount of SIXTY-FOUR

THOUSAND THREE HUNDRED SIXTY-EIGHT AND 90/100 DOLLARS ($64,368.90) to fund the acquisition of the Hotel Parcel (the "Hotel Parcel Loan").

This Note is made and delivered pursuant to and in conjunction with the DDLA entered into by and between the City and Borrower dated as of even date herewith. All capitalized terms not otherwise defined in this Note shall have the meanings set forth in the DDLA.

1. Borrower's Obligation. This Note evidences the Borrower's obligation to pay the City the Principal Amount, as that term is subsequently defined, loaned to the Borrower by the City to finance the Hotel Parcel for the Project, as set forth in the DDLA. As a condition of receiving the Principal Amount, the Borrower promises and agrees to comply with all terms and conditions of this Note.

2. Principal. The principal amount of this Note, $64,368.90 ("Principal Amount"), loaned to the Borrower by the City to finance the purchase of the Hotel Parcel for the Project, as set forth in the DDLA.

3. Interest. There shall be no interest due on the Note.

4. Term. The entire indebtedness evidenced by this Note shall be repaid to the City no later than December 31, 2026; unless otherwise terminated for infeasibility in accordance with the DDLA.

5. No Assumption. Except as may be otherwise set forth in this Agreement and the DDLA, this Note shall not be assumable by the successors and assigns of Borrower without the City's prior written consent.

6. Security. This Note is secured by that certain Deed of Trust and Assignment of Rents executed concurrent with this Note and recorded against the Hotel Parcel in the Official Records of Alameda County, wherein the Borrower is the Trustor, and the City is the Beneficiary (the "Security Instrument"). City shall be entitled to the benefits of the Security Instrument and shall have the right to enforce the covenants and agreements contained herein, in the Security Instrument, and in the DDLA executed by and between the Borrower and the City as a condition of the DDLA. Any restrictive covenants executed by and between City and Borrower as a condition of the DDLA shall remain effective for the full duration of those restrictions and shall survive repayment of this Note as set forth in the DDLA.

7. Repayment. The Borrower shall not be required to make any payments under this Note until such time as this Note becomes due and payable in full pursuant to the following sentence. This Note becomes due and payable in full on the earlier of: (a) the date of any Transfer, as defined in the DDLA not authorized by the City; (b) an Event of Default by Borrower which has not been cured as provided for in the DDLA; but in any event (c) no later than December 31, 2025. Any payments made by Borrower pursuant to this section shall

be applied to reduce the Principal Amount of the Hotel Parcel Loan. All payments by the Borrower shall be paid to the City in currency of the United States of America, which at the time of the payment is lawful for the payment of public and private debts.

All payments on this Note shall be made payable to the City of Livermore and shall be delivered to the City at 1052 South Livermore Avenue, Livermore, California, 94550, or to such other place as the City may from time-to-time designate.

All payments on this Note shall be without expense to the City, and the Borrower agrees to pay all costs and expenses incurred in connection with the payment.

8. Prepayment. At its option and without any premium or penalty, Borrower may pay all or a portion of the outstanding Principal Amount prior to the amount becoming due. The Borrower may make such prepayments at any time. All prepayments shall be applied by the City to reduce the amount of the outstanding Principal Amount owed under this Note.

9. Encumbrances. The Borrower shall not encumber either or both the Hotel Parcel or Parking Parcel, permit the covenancy, transfer, or encumbrance of either or both the Hotel Parcel or Parking Parcel, allow the placement of any liens, notes, or deeds on either or both the Hotel Parcel or Parking Parcel, or use either or both the Hotel Parcel or the Parking Parcel as security for any note or loan, without the City's prior written approval; provided, however, that the approval of encumbrances consistent with the approved financing plan included in the DDLA shall not be unreasonably withheld. Any written approval by the City shall be consistent with the requirements of Section 15 below.

10. Payment Acceleration. The Principal Amount of this Note, together with all accrued interest and other outstanding payments and penalties, shall become immediately due and payable upon the occurrence of any of the following events, each subject to any applicable notice and cure periods:

A. The Borrower fails to use the Hotel Parcel or Parking Parcel, or both, in accordance with the DDLA;
B. The Borrower fails to cure a default consistent with the requirements of Section 11 below;
C. The transfer of the Hotel Parcel, Parking Parcel, or this Note in violation of Section 13, and without the City's written approval consistent with the requirements of Sections 14 and 15 below;
D. The encumbrance of the Hotel Parcel or Parking Parcel, or both, in violation of Section 9, without the City's written approval consistent with the requirements of Sections 9 and 15; and
E. Borrower is found to be in Default of the DDLA.

11. Default – Notice & Opportunity to Cure. If in the City's sole discretion, the Borrower fails to observe or perform any condition contained herein, or take diligent action towards the cure or remedy of such event, for a period of thirty (30) days after written notice from the City specifying such failure and requesting that it be cured, such event shall be deemed a default and the City shall be entitled, and in addition to all other remedies provided by law or in equity, to compel specific performance by the Borrower of its obligations under this Note. Any investor, limited partner of Borrower or Borrower's assignee shall have the same notice and cure rights granted to Borrower, and any cure tendered by such investor shall be accepted or rejected on the same basis as if tendered by Borrower.

12. Default Rate. Upon the occurrence of an Event of Default, interest shall automatically be increased without notice to the rate of the lesser of ten percent (10%) per annum or the maximum rate permitted by law (the "Default Rate"); provided, however, if any payment due hereunder is not paid when due, the Default Rate shall apply to commence upon the due date for such payment. When Borrower is no longer in default, the Default Rate shall no longer apply. Notwithstanding the foregoing provisions, if the interest rate charged exceeds the maximum legal rate of interest, the rate shall be the maximum rate permitted by law. The imposition or acceptance of the Default Rate shall in no event constitute a waiver of a default under this Note or prevent City from exercising any of its other rights or remedies.

13. Prohibited Transfers. Except as otherwise permitted by the terms of this Note or the DDLA, the Borrower is prohibited from transferring by sale, lease, trade, exchange, rental, gift, assignment, conveyance, the Hotel Parcel or Parking Parcel, or any parts thereof, or any trust or power, or any transfer in any other mode or form, of the Hotel Parcel or Parking Parcel, or any parts thereof or any interests therein; provided, however, that the Borrower may transfer any or all of its interest in the Hotel Parcel or Parking Parcel, or both, to a subsidiary or affiliate controlled by Borrower. Notwithstanding anything to the contrary contained herein, this Note shall be assignable and transferable in whole or in part to one or more limited partnerships affiliated with Borrower, so long as any such assignment or other document evidencing such assignment is acceptable to the City.

14. Permitted Transfers. Under the following limited circumstances, the City may give its prior written approval for the transfer of the Hotel Parcel, the Parking Parcel, or both: The Hotel Parcel and Parking Parcel are to be transferred to another qualified developer, as pre-determined by the City, who will assume the Borrower's rights and obligations under the Deed of Trust, this Note, and the DDLA.

15. Prior Written Approval. The City shall not unreasonably withhold its written approval of permitted transfers, encumbrances, and refinancing by the Borrower. However, the City may only give written approval of those transfers, encumbrances, and refinancing authorized by this Note and the DDLA. The Borrower must request the City's written approval prior to pursuing any transfer, encumbrance, or refinancing. If not approved, or in violation of this Note, any unapproved transfer, encumbrance, or refinancing shall be null and void and the

Borrower must deliver to the City any profits or benefit received from the transaction consistent with the requirements of Section 24.

16. Audit and Inspection. To the extent permissible under laws and regulations protecting individual confidentiality, the City shall have access to and is hereby authorized by the Borrower to inspect, make copies or photographs of, the Hotel Parcel, the Parking Parcel, books, utility accounts, and records of the Borrower pertaining to this Note and the Borrower's use of the Hotel Parcel and the Parking Parcel.

17. Notices. Any demand or notice which either party desires to deliver to the other shall be in writing and shall be delivered by hand, sent by a recognized overnight courier, deposited in the United States mail with first-class prepaid postage and a return receipt requested, to ensure timely and complete delivery to the other party at the addresses noted in the DDLA.

18. Attorney Fees and Costs. Borrower agrees that if any amounts due under this Note are not paid when due, to pay all costs and expenses of collection and reasonable attorney fees paid or incurred in connection with the collection or enforcement of this Note, whether or not suit is filed.

19. Severability. Every provision of this Note is intended to be severable. If any provision is held by a court of competent jurisdiction to be invalid, illegal, and unenforceable, the validity, legality, and enforceability, of the remaining provisions shall not in any way be affected or impaired.

20. Interpretation. The provisions of this Note have been arrived at through negotiation and each party had a full and fair opportunity to revise the provisions and have them reviewed by legal counsel. The parties agree that any ambiguities in construing or interpreting this Note shall not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language of this Note and the DDLA, the language of the DDLA shall control.

21. Joint and Several Obligations. This Note is the joint and several obligations of all makers, sureties, guarantors, and endorsers, and shall be binding upon them and their successors and assigns.

22. Negotiability. Except as otherwise provided herein, this Note is non-negotiable and not transferable by the Borrower. The City, in its sole discretion, may, in the event of an Event of Default by the Borrower that is not cured as provided for in the DDLA, negotiate a transfer, assignment, or assumption of this Note to any person and upon a minimum ninety (90) day written notice to the Borrower by the City.

23. Binding Upon Successors. All provisions of this Note shall be binding upon and inure to the benefit of the successors-in-interest, transferees, and assigns of the Borrower and the City, respectively.

24. Nonrecourse. Except as provided in this subsection, neither the Borrower, nor any director or indirect member or interest holder of or in the Borrower, shall have any direct or indirect personal liability for payment of the principal of, and interest on, this Note or the Hotel Parcel Loan. Following recordation of the Deed of Trust, the sole recourse of the City with respect to the principal of, and interest on, this Note and defaults by the Borrower for the use of the Hotel Parcel shall be to the Hotel Parcel; provided, however, that nothing contained in the foregoing limitation of liability shall (i) limit or impair the enforcement against all such security for this Note of all the rights and remedies of the City against Borrower hereunder, or (ii) be deemed in any way to impair the right of the City to assert the unpaid principal amount of this Note as demand for money against Borrower within the meaning and intendment of Section 431.70 of the California Code of Civil Procedure or any successor provision thereto. The foregoing limitation of liability is intended to apply only to the obligation for the repayment of the principal of, and payment of interest on this Note and the performance of the Borrower obligations under the Deed of Trust for the Hotel Parcel, except as hereafter set forth; nothing contained herein is intended to relieve the Borrower of its obligation to indemnify the City under any article or section of the DDLA, or liability for (i) fraud or willful misrepresentation; (ii) the failure to pay taxes, assessments or other charges which may create liens on the Hotel Parcel that are payable or applicable prior to any foreclosure under the Deed of Trust (to the full extent of such taxes, assessments or other charges); (iii) the fair market value of any personal property or fixtures removed or disposed of by the Borrower other than in accordance with the Deed of Trust; and (iv) the misappropriation of any proceeds under any insurance policies or awards resulting from condemnation or the exercise of the power of eminent domain or by reason of damage, loss or destruction to any portion of the Hotel Parcel.

25. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

LEASE AND OPERATING AGREEMENT
2080 RAILROAD AVENUE

(The Parking Parcel)

THIS LEASE AND OPERATING AGREEMENT ("Lease Agreement") dated as of this 3rd day of May, 2022, is made and entered into by and between 2080 Railroad Avenue LLC, a Delaware Limited Liability Company ("Lessor") and the City of Livermore, a municipal corporation ("City" or "Lessee").

RECITALS

A. 2205 Railroad Avenue, LLC ("Developer") desires to construct a four story approximately 65,000-75,000 square foot hotel, containing between 125-135 hotel rooms on City-owned parcels located on the southeast corner of South Livermore Avenue and Railroad Avenue in downtown Livermore (hereinafter "Hotel"). As part of the conditions of approval for the Hotel, Developer is required to comply with the City's parking requirements for the Downtown Specific Plan.

B. Lessor, an affiliate of Developer and Developer's parent company, owns that particular piece of real property located on the northwest corner of Railroad Avenue and North K Street in downtown Livermore commonly known as 2080 Railroad Avenue (APN 098-0282-009-00) as more particularly described in Exhibit A, attached hereto and incorporated herein. At the time construction of the Hotel is complete, Developer, through a use agreement with Lessor, intends to use the property as a valet parking lot to satisfy a portion of the City's parking requirements for the Hotel (hereinafter "Parking Parcel").

C. On January 14, 2022, the City and Developer entered into a Disposition, Development and Loan Agreement (the "DDLA") wherein the City made a Site Acquisition Loan to Developer to fund the acquisition of the Parking Parcel. On February 2, 2022, Developer assigned and conveyed to Lessor all of its rights and obligations under the DDLA related to the Site Acquisition Loan, the acquisition of the Parking Parcel, and the Lease and Operating Agreement for the Parking Parcel, and Lessor accepted and assumed all such rights and obligations.

D. Lessor has agreed to lease the Parking Parcel to City at no cost for use as a temporary surface public parking lot or public valet parking lot for a period of three years from the effective date of this Lease Agreement or the date when construction of the Hotel is at least 40 percent complete, whichever is earlier. However, at a minimum, the City shall be permitted to use the Parking Parcel until September 30, 2024. Upon satisfaction of these requirements, Lessor may terminate this Lease Agreement to allow Lessor to begin the construction of permanent parking improvements on the Parking Parcel.

E. Prior to the construction of permanent parking improvements on the Parking Parcel for the Hotel, City desires to lease from Lessor and Lessor desires to lease to City the Parking Parcel (hereinafter "Parking Parcel" or "Leased Premises") as more particularly described in Exhibit A. The Leased Premises is approximately 33,695 square feet of vacant and undeveloped land.

F. The Lessor desires to lease the Leased Premises to City and City desires to lease the Leased Premises from Lessor on the terms and conditions contained in this Lease Agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties hereby agree as follows:

1. **Leased Premises.** Lessor leases to City and City leases from Lessor, the Leased Premises which consists of approximately 33,695 square feet of vacant and undeveloped land, as more particularly described in Exhibit A.

2. **Possession; Delay in Delivery of Possession.**

(a) Except as otherwise provided in this Lease, City agrees to accept possession of the Leased Premises in its existing "as is" condition, including, but not limited to, all patent and latent defects and subject to all applicable laws, ordinances, and regulations governing and regulating the use of the Parking Parcel and/or the Leased Premises and any recorded covenants, conditions, restrictions, easements, licenses, or right of ways.

(b) If Lessor, for any reason whatsoever, cannot deliver possession of the Leased Premises to City on or before the commencement date, this Lease Agreement shall not be void or voidable and no obligation of City shall be affected thereby, and neither Lessor nor Lessor's agents shall be liable to City for any loss or damage resulting therefrom.

3. **Rent.** As a condition of the loan from City to Lessor to purchase the Parking Parcel, Lessor agrees to lease the Leased Premises to the City at no cost for use as a temporary surface public parking lot and/or public valet parking lot. The no cost lease is a condition of the loan the City has provided to Lessor for the purchase of the Parking Parcel through the DDLA. City shall be responsible for all costs associated with the City's use of the Leased Premises.

4. **Term.** This Lease Agreement shall commence on February 14, 2022 ("Commencement Date") and terminate three years from the effective date of this Lease Agreement or the date when construction of the Hotel is at least 40% complete, whichever is earlier ("Term"). However, at a minimum, the City shall be permitted to use the Parking Parcel until September 30, 2024. Upon satisfaction of these requirements, Lessor may terminate this Lease Agreement to allow Lessor to begin construction of permanent parking improvements on the Leased Premises. This Lease Agreement shall supersede and replace any other lease between said parties, or their predecessors in interest, concerning the use of the Leased Premises, or any other space or area of the Leased Premises.

5. **City's Use of Leased Premises.**

(a) **Use of Leased Premises.** City shall only use the Leased Premises for the

purpose of a temporary surface public parking lot, a public valet parking lot, or both.

(b) **Rules Regarding Use**. City shall observe and comply with the rules and regulations annexed to this Lease Agreement and, City's use of the Leased Premises shall be subject to the following rules:

(i) City shall not allow, authorize, or permit the Leased Premises, or any part thereof, to be used for any use or any illegal activity or purpose in violation of federal or state laws and/or ordinances, regulations and requirements of County, City, or any other enforcement authority.

(ii) City shall not commit, allow, or permit to be used for any offensive or improper use or nuisance, the Leased Premises which may unreasonably or unlawfully disturb or damage the Parking Parcel or Leased Premises.

(iii) City shall not leave or store any trash, garbage, or refuse of any kind in, on, or about the Leased Premises and shall cause any refuse, trash, or other waste deposited on the Leased Premises by any of its employees, agents, or representatives to be picked up and disposed of in the appropriate manner so as to keep the Leased Premises in a neat and clean condition.

(iv) City shall not use, commit, allow, or permit to be used or committed, any waste upon the Leased Premises.

(c) **Hazardous Materials**. City shall not cause or permit any Hazardous Materials to be permanently stored, used or disposed of in the Parking Parcel or Leased Premises, by City's agents, employees, contractors or invitees, without having obtained Lessor's prior, written consent. For purposes of this Lease Agreement, the following terms shall have the meanings set forth below:

"Hazardous Materials" shall mean any toxic or hazardous wastes, pollutants, materials or substances, including, without limitation, asbestos, PCB's, petroleum products, radioactive substances or their by-products, other substances defined or listed as "hazardous substances," "hazardous materials," "hazardous wastes" or "toxic substances in or pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. §§ 9601 et seq. ("CERCLA"); the Hazardous Materials Transportation Act, 49 U.S.C §§ 5101 et seq.; the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 et seq.; the Toxic Substance Control Act of 1976, 15 U.S.C. §§ 2601 et seq.; any "toxic pollutant" under the Clean Water Act, 33 U.S.C. §§ 1251 et seq.; any hazardous air pollutant under the Clean Air Act, 42 U.S.C. §§ 7401 et seq.; the California Hazardous Substance Account Act, California Health & Safety Code ("HSC") §§ 25300 et seq., the Hazardous Waste Disposal Land Use Act, HSC §§ 25100 et seq.; in or pursuant to or identified as causing cancer or reproductive toxicity in the California Safe Drinking Water & Toxic Enforcement Act of 1986, HSC §§ 25249.5 et seq.; and HSC §§ 25117, 25316; all as such laws may be amended; any hazardous or toxic substance, material, chemical, waste, or pollutant now or hereafter

regulated under any other applicable Federal, State, or local environmental laws, without limitation; and any other matter in the nature thereof arising pursuant to the jurisdiction of any public agency.

"Hazardous Discharge" and "Contamination" shall mean the happening of any event involving an emission, spill, release, or discharge ("Release") into or upon (i) the air, (ii) soils or any improvements located thereon, (iii) surface or ground water, (iv) the sewer, septic system, or waste treatment, storage, or disposal system servicing the Premises, of any Hazardous Material, or (v) any other matter in the nature thereof arising pursuant to the jurisdiction of any public agency.

"Environmental Laws" shall mean all applicable Federal, State, and local laws, ordinances, regulations, orders, procedures, policies, and directives of every kind and nature whatsoever pertaining to Hazardous Materials in, at, on, under, or from the Leased Premises or any portion thereof.

6. **Minor Improvements.** Subject to Lessor's approval, City may, construct, install, maintain, repair and replace, if necessary, minor improvements on the Leased Premises which include, but are not limited to, minor grading, installation of gravel or other suitable parking surface, driveway improvements, signage, lighting and other necessary improvements in order to provide a temporary surface public parking lot and/or public valet parking lot ("Minor Improvements"). Lessor shall notify the City within 10 calendar days of any request by the City for minor improvements on the Leased Premises. Failure of Lessor to respond to the City's request within 10 calendars days shall be deemed an approval.

7. **City Obligations.**

(a) Services and Utilities. City shall provide basic electricity and power for the Leased Premises.

(b) Maintenance. Except as otherwise provided herein, City shall at its own cost and expense, maintain the Leased Premises and every part thereof, in good and sanitary order, condition, and repair. City shall be responsible for the cost of any and all repairs or maintenance to the Leased Premises, caused by negligent, careless, or willful acts of City, its employees, agents, equipment, or invitees.

8. **Condition of Leased Premises.** City represents and warrants that it has made a thorough and complete inspection of the Leased Premises using qualified consultants and experts of its own choosing, and the Leased Premises is suitable for a temporary surface public parking lot and/or public valet parking lot and is in good and sanitary order, repair, and condition. City hereby accepts the Leased Premises in its present condition and, except as otherwise may be set forth herein, without representation or warranty by Lessor as to the condition of such Leased Premises or as to the use of the Leased Premises.

9. Construction and Repair.

(a) Mechanic's Lien. City shall pay, or cause to be paid, all costs and expenses for work done by City, or caused to be done by City, on the Leased Premises of a character which could result in any lien on the Parking Parcel, and City will keep the Parking Parcel free and clear of any mechanic's lien and/or other lien on account of work done for City or at its request.

Should any claims of lien be filed and/or recorded against the Parking Parcel, or any action affecting the title thereto commenced, City shall give Lessor written notice thereof as soon as it has knowledge of the action.

(b) Construction. City shall not build or construct any improvement, except for those set forth in Sections 6 and 7 above, or make any structural change, addition, or remodeling to the Leased Premises without the Lessor's prior written consent. In the event that Lessor provides City with written consent, City shall at its own cost comply with any and all Federal, State, or local laws and/or regulations applicable to any such construction, alteration, or remodeling to or within the Leased Premises to upgrade them to satisfy current standards.

10. Destruction. If the Leased Premises is totally destroyed during the term of this Lease Agreement by fire, flood, earthquake, or other casualty, whether or not covered by insurance, this Lease Agreement shall terminate.

11. Condemnation. If all or part of the Leased Premises is taken by condemnation such that the Leased Premises is no longer usable for a temporary, surface public parking lot and/or public valet parking lot, this Lease Agreement shall terminate. City shall be entitled only to that portion of the proceeds of condemnation which is directly attributable to the value of City's interest in this Lease Agreement.

12. Compliance with Laws. City agrees to comply with all applicable zoning, municipal, county and state laws, ordinances and regulations governing the use of the Leased Premises. City agrees to secure and maintain throughout the Term and any Extended Term any federal, state or local licenses or permits required in order to use the Leased Premises for a temporary surface public parking lot and/or public valet parking lot. City's failure to do so shall be considered a material breach of this Lease Agreement.

13. Assignment.

(a) Prohibition Against Assignment and Encumbrance. This Lease Agreement and any rights or obligations of City hereunder shall not be sold, assigned, transferred, leased, assigned, sublet, conveyed, hypothecated either in whole or in part, or in any manner, without Lessor's prior written consent. The City shall not allow any other person or entity to occupy or use all or any part of the Property or Leased Premises without first obtaining Lessor's written consent. Consent to any assignment shall not constitute a further waiver of the provisions of this section.

(b) Involuntary Assignment. No interest of City in this Lease Agreement shall be assignable by operation of law, including, without limitation, the transfer of this Lease Agreement by testacy or intestacy. Each of the following acts shall be considered an involuntary assignment:

(i) If City is or becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or institutes a proceeding under the Bankruptcy Act in which City is the bankrupt party; or, if the City is a partnership or consists of more than one person or entity, if any partner of the partnership or other person or entity is or becomes bankrupt or insolvent, or makes an assignment for the benefit of creditors;

(ii) If a writ of attachment or execution is levied on this Lease Agreement;

(iii) If, in any proceeding or action to which City is a party, a receiver is appointed with authority to take possession of the Leased Premises.

(iv) An involuntary assignment shall constitute a default by City and Lessor shall have the right to elect to terminate this Lease Agreement, in which case this Lease Agreement shall not be treated as an asset of City.

(v) If a writ of attachment or execution is levied on this Lease Agreement, City shall have ten (10) days in which to cause the attachment or execution to be removed. If any involuntary proceeding in bankruptcy is brought against City, or if a receiver is appointed, City shall have sixty (60) days in which to have the involuntary proceeding dismissed or the receiver removed.

14. Taxes. Lessor shall pay during the term of this Lease Agreement, without abatement, deduction, or offset, any and all real and personal property taxes, general and special assessments, and other charges (including any increase caused by a change in the tax rate or by a change in assessed valuation) of any description levied or assessed during the term of this Lease Agreement by any governmental agency or entity on or against the Parking Parcel, the Minor Improvements located on the Parking Parcel, personal property located on or in the Parking Parcel or Minor Improvements, and the leasehold interest created by this Lease Agreement.

15. Lessor Refinancing. City is aware that Lessor is leasing its interest in the Leased Premises to City and that Lessor's leasehold interest in the Leased Premises is related to an outstanding lease financing. City agrees that it will use best efforts to cooperate with Lessor in connection with a refinancing of the outstanding lease financing, including executing any estoppel, consent, and other similar documents requested by the Lessor.

16. Indemnity. City agrees to and shall defend, indemnify, protect and hold harmless Lessor, its officers, directors, employees and agents harmless from and against any and all loss, damage, injury, accident, casualty, liability, claim, cost or expense (including, but not limited to, reasonable attorneys' fees) of any kind or character to any person or

property arising from or related to any act or omission of City, its employees, agents or contractors, the City's use of the Leased Premises, the City's installation and maintenance of Minor Improvements on the Leased Premises, or as a result of this Lease Agreement. To the greatest extent by law, City waives all claims or demands against Lessor for any loss, damage, or injury to Lessor or Lessor's' property in connection with this Lease Agreement or the operation or use of the Lessors property by City or its agents, servants or contractors or employees and agrees to so indemnify and hold Lessor harmless.

17. Insurance. The City is self-insured and a member of excess pools for General, Auto, and Professional Liability and Workers' Compensation. Specific documentation will be provided upon request from Lessor.

18. Termination.

(a) Termination for Cause. In the event City engages in, or permits any other person to engage in, any illegal activities in, on, or about the Parking Parcel, or the Leased Premises, whether with or without a criminal conviction, Lessor shall have the right to immediately terminate this Lease Agreement and demand City surrender the Leased Premises.

Except for immediate termination as provided for in this Lease Agreement, should City at any time during the term of this Lease Agreement be in default in the performance of any of the terms, conditions, rules, covenants, or requirements herein contained or otherwise agreed to by the parties, including the rules and regulations established by Lessor regarding the use of, or access to, the Parking Parcel and Leased Premises, and should such default continue for thirty (30) days after written notice thereof from Lessor to City specifying the particulars of such default, or should City vacate or abandon the Leased Premises, then in any such event it shall be at the option of the Lessor, the Lessor's right to declare this Lease Agreement terminated and re-enter the Leased Premises and take possession thereof and remove City's fixtures and furnishings, and City shall have no further claim thereon or hereunder.

(b) Lessor's remedies in this section shall be in addition and supplemental to any and all other rights or remedies which Lessor may have pursuant to this Lease Agreement and/or under the law.

19. Default. Any of the following events or occurrences shall constitute a material breach of this Lease Agreement by City and, after the expiration of any applicable grace period, shall constitute an event of default (each an "Event of Default"):

(a) The failure by City to perform any obligation under this Lease Agreement, which by its nature City has no capacity to cure;

(b) The failure by City to perform any other obligation under this Lease Agreement, if the failure has continued for a period of ten (10) days after Lessor demands

in writing that City cure the failure. If, however, by its nature the failure cannot be cured within ten (10) days, City may have a longer period as is necessary to cure the failure, but this is conditioned on City's promptly commencing to cure within the ten (10) day period and thereafter completing the cure within thirty (30) days after Lessor demands in writing that City cure the failure. City shall indemnify and defend Lessor against any liability, claim, damage, loss, or penalty that may be threatened or may in fact arise from that failure during the period the failure is uncured;

(c) Any of the following: a general assignment by City for the benefit of City's creditors; any voluntary filing, petition, or application by City under any law relating to insolvency or bankruptcy, whether for a declaration of bankruptcy, a reorganization, an arrangement, or otherwise; the abandonment, vacation, or surrender of the Leased Premises by City without Lessor's prior written consent; or the dispossession of City from the Leased Premises (other than by Lessor) by process of law or otherwise;

(d) The abandonment of the Leased Premises by City.

20. Remedies. Upon the occurrence of an Event of Default, Lessor may pursue all rights or remedies available to Lessor at law or in equity.

21. Waiver. Any express or implied waiver of a breach of any term of this Lease Agreement shall not constitute a waiver of any further breach of the same or other term of this Lease Agreement; and the acceptance of rent shall not constitute a waiver of any breach of any term of this Lease Agreement, except as to the payment of rent accepted.

22. Surrender of Leased Premises. Upon the expiration of this Lease Agreement, or no later than ten (10) days after its termination, City shall surrender the Leased Premises to Lessor, and all improvements and alterations thereto, in good condition except for ordinary wear and tear occurring after the last necessary maintenance made by City and/or destruction to the Leased Premises covered by Section 10 of this Lease Agreement.

Lessor may elect to retain or dispose of in any manner any alterations, improvements, fixtures, or furnishings that City does not remove from the Leased Premises on expiration or termination of the Lease Agreement by giving at least ten (10) days' notice to City. Title to any such improvements, alterations, fixtures, or furnishings that Lessor elects to retain or dispose of on expiration of the ten (10) day period shall vest in Lessor. City waives all claims against Lessor for any damage to City resulting from Lessor's retention or disposition of any such improvements, alterations, fixtures, or furnishings. City shall be liable to Lessor for Lessor's costs for storing, removing, and disposing of any improvements, alterations, fixtures, or furnishings.

23. Entry by Lessor. City shall permit Lessor, its officers, employees, and agents to enter into and upon the Leased Premises upon reasonable notice for the purpose of inspecting the Leased Premises, enforcing the rules and regulations under this Lease

Agreement, and the posting of such legal notices as Lessor may deem necessary or convenient.

(a) Lessor and its agents may enter the Leased Premises at any reasonable time upon reasonable notice to City, or immediately in the case of an emergency, for the purpose of: (i) inspecting the Leased Premises; (ii) posting notices of nonresponsibility; (iii) supplying any service to be provided by Lessor to City; (iv) showing the Leased Premises to prospective purchasers, mortgagees, or tenants; (v) making necessary alterations, additions, or repairs as required by this Lease Agreement or to otherwise perform Lessor's duties under this Lease Agreement; (vi) determining whether City is complying with the terms of this Lease Agreement; (vii) performing City's obligations when City has failed to do so after written notice from Lessor, if required by the terms of this Lease Agreement; (viii) placing on the Leased Premises ordinary for lease signs or for sale signs; (ix) doing of other lawful acts that may be necessary to protect Lessor's interest in the Leased Premises under this Lease Agreement; and (x) responding to an emergency.

(b) Lessor shall have the right to use any means Lessor deems necessary and proper to enter the Leased Premises in an emergency. Any entry into the Leased Premises obtained by Lessor in accordance with this section shall not be a forcible or unlawful entry into, or a detainer of, the Leased Premises, or an eviction, actual or constructive, of City from the Leased Premises, nor shall such entry give rise to a claim for rent abatement.

24. Notices. Wherever in this Lease Agreement it shall be required or permitted that notice or demand be given or served by either party to this Lease Agreement to or on the other, such notice or demand shall be given or served in writing and forwarded by registered mail, addressed as follows, though any party may change such address or contact person by written notice by registered mail to the other:

City: Community Development Director
City of Livermore
1052 South Livermore Avenue
Livermore, California 94550

Lessor: 2080 Railroad Avenue LLC
A Delaware limited liability company
Attn: Rikesh Patel, Manager
262 Glorietta Boulevard
Orinda, California, 9456

25. Holding Over. Any holding over without the Lessor's prior written consent shall be prohibited.

26. Modification. This Lease Agreement may only be modified or amended by written agreement signed by both parties hereto.

27. **General Provisions**.

(a) Time of Essence. Time is of the essence for each provision of this Lease Agreement.

(b) Relationship of the Parties. Nothing contained in this Lease Agreement shall be deemed or construed by the parties or by a third party to create the relationship of principal and agent, and/or of partnership, and/or of joint venture, and/or of any association between the parties, other than the relationship of Lessor and the City.

(c) Entire Agreement. This instrument, including any attachments hereto, constitutes the entire agreement of the parties relating to the subject matter of this Lease Agreement and correctly sets forth the rights, duties, and obligations of each party to the other, but this Lease Agreement does not supersede any provision in the DDLA.

(d) Partial Invalidity. If any provision or portion of this Lease Agreement shall be deemed invalid, it is agreed that such invalidity shall affect only such provision or portion thereof, and the remainder of this Lease Agreement shall remain in force and effect.

(e) California Law. This Lease Agreement shall be governed by and construed in accordance with the laws of the State of California.

(f) Review of Lease. Each party to this Lease Agreement declares that prior to the execution of this Lease Agreement, each party had the opportunity to seek the independent advice of counsel and that they apprised themselves of sufficient relevant information in order that they might intelligently exercise their own judgment in deciding whether to execute this Lease Agreement. Each party agrees that they have completely read and understood the Lease Agreement, know the contents thereof, and have signed the Lease Agreement of their own free will and free of any duress. No single party has drafted this Lease Agreement and it shall not be interpreted against any party as the drafting party.

(g) Performance Excused. The parties shall be excused from performance, as hereunder agreed to, if such performance is rendered impossible, impractical, or unreasonably difficult by, but not limited to, any strike, lockout, labor disturbance of any kind, civil commotion, war, acts of terrorism, shortage of any supply or labor, shortage of water, weather, act of government authority, enactment or change in laws or regulations, breakdown of facilities or any cause outside of the parties' control.

(h) Mutual Termination. This Lease Agreement may be terminated at any time concerning the rights and responsibilities of the parties who, between them, agree to such a termination.

(i) Headings. The headings used in this Lease Agreement are intended for reference only and do not define or limit the scope or meaning of any provision of this Lease Agreement.

(j) Waiver. A term or condition of this Lease Agreement may be waived at any time by the party entitled to the benefit thereof, but no such waiver shall affect the right of the waiving party to require observance, performance or satisfaction either of that term or condition as it applies on a subsequent occasion or of any other term or condition. City shall not be excused from complying with any of the terms and conditions of this Lease Agreement by any failure of the City upon any one or more occasions to insist upon or to seek compliance with any such terms and conditions.

(k) Attachments. All attachments referred to in and attached to this Lease Agreement are incorporated by reference as though set forth in full.

(l) Attorney's Fees and Costs. If either party commences an action against the other party to enforce this Lease Agreement, the prevailing party is entitled to reasonable attorney's fees, costs of suit, investigation costs and discovery costs, including costs of appeal.

MEMORANDUM OF DISPOSITION, DEVELOPMENT AND LOAN AGREEMENT

THIS MEMORANDUM OF DISPOSITION, DEVELOPMENT AND LOAN AGREEMENT ("Memorandum") is made as of February 2, 2022, by and between the 2205 Railroad Avenue LLC, a Delaware limited liability company (the "Developer"), and the City of Livermore (the "City"), to confirm that the City and Developer are parties to that certain Amended and Restated Disposition, Development and Loan Agreement between the City and the Developer dated as of January 14, 2022, as may be amended from time-to-time (the "DDLA"). The DDLA concerns the sale of real property in Livermore, California, and a site acquisition loan for the purchase of property in Livermore, California, which properties are described in the attached Exhibits A and J and the development of a four-story approximately 65,000-75,000 square foot hotel containing between 125-135 rooms, approximately 1,400-2,000 square feet of economically viable meeting space, a roof-top public open space and related hotel amenities and improvements (the "Project") on the Property identified in Exhibit A and the use of the Parking Parcel identified in Exhibit J to satisfy a portion of the parking requirements identified in the conditions for approval for the Project. (The Exhibits to this Memorandum have been marked to be consistent with the Exhibits to the DDLA.)

The DDLA is a public document and may be reviewed at and in the office of the City Clerk for the City of Livermore.

This Memorandum is solely for recording purposes and shall not be construed to alter, modify, amend, or supplement the DDLA, of which this is a memorandum. In the event, and to the extent that, that any of the terms or provisions of this Memorandum are inconsistent with the terms or provisions of the DDLA, the provisions of the DDLA shall govern and prevail.

IN WITNESS WHEREOF, the City and Developer have executed this Memorandum and the DDLA by duly authorized representatives, all on the date first written above.

TEMPORARY PARKING LEASE AGREEMENT
(Hotel Parcel)

THIS LEASE AGREEMENT ("Lease") dated as of this 27th day of April, 2023, is made and entered into by and between 2205 Railroad Avenue LLC, a Delaware Limited Liability Company ("Lessor") and the City of Livermore, a municipal corporation ("City" or "Lessee").

RECITALS

A. Lessor desires to construct a four story approximately 65,000-75,000 square foot hotel, containing between 125-135 hotel rooms on two City-owned parcels (APNs: 098-0407-031-00 and 098-0407-033-00) located on the southeast corner of South Livermore Avenue and Railroad Avenue in downtown Livermore (hereinafter "Hotel Parcel").

B. On January 14, 2022, the City and Lessor entered into a Disposition, Development and Loan Agreement (the "DDLA") wherein the City agreed to sell the Hotel Parcel to Lessor for $71,521. Prior to the close of escrow, the City was using a portion of the Hotel Parcel as a temporary paved surface public parking lot. Upon sale of the Hotel Parcel to Lessor, Lessor has agreed to lease a portion of the Hotel Parcel to City at no cost for use as a temporary paved surface public parking lot until the commencement of construction on the Hotel Parcel.

C. As part of the Disposition, Development and Loan Agreement, the City made a loan to Developer to fund the acquisition of a piece of real property located at 2080 Railroad Avenue in Livermore in order to use the property as a valet parking lot to satisfy a portion of the City's parking requirements for the Hotel ("Parking Parcel").

D. Prior to commencement of construction of the Hotel, City desires to lease from Lessor and Lessor desires to lease the Hotel Parcel (hereinafter "Hotel Parcel" or "Leased Premises") as more particularly shown on Exhibit A, attached hereto and incorporated herein. The Leased Premises is approximately 41,500 square feet of a paved surface public parking lot.

E. The Lessor desires to lease the Leased Premises to City and City desires to lease from Lessor the Leased Premises on the terms and conditions contained in this Lease Agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises contained herein, the parties hereby agree as follows:

1. **Leased Premises.** Lessor leases to City and City leases from Lessor, the Leased Premises which consists of approximately 41,500 square feet of a paved surface public parking lot, as indicated on Exhibit A, attached hereto.

2. **Possession; Delay in Delivery of Possession.**

(a) Except as otherwise provided in this Lease Agreement, City agrees to accept possession of the Leased Premises in its existing "as is" condition, including, but not limited to, all patent and latent defects and subject to all applicable laws, ordinances, and regulations governing and regulating the use of the Hotel Parcel and/or the Leased Premises and any recorded covenants, conditions, restrictions, easements, licenses, or right of ways.

(b) If Lessor, for any reason whatsoever, cannot deliver possession of the Leased Premises to City on or before the commencement date, this Lease Agreement shall not be void or voidable and no obligation of City shall be affected thereby, and neither Lessor nor Lessor's agents shall be liable to City for any loss or damage resulting therefrom.

3. **Rent.** As a condition of the sale of the Hotel Parcel from City to Lessor, Lessor agrees to lease the Leased Premises to the City at no cost for use as a temporary paved surface public parking lot. This no cost lease was incorporated into the sale price for the Hotel Parcel through the DDLA. City shall be responsible for all costs associated with the maintenance of the Leased Premises as set forth in Section 7 of this Lease Agreement.

4. **Term.** This Lease Agreement shall commence on April 27, 2023 ("Commencement Date"), and terminate on the date when Lessor commences construction of the Hotel. Lessor shall provide City with 30 days written notice prior to the date that construction of the Hotel will commence. This Lease Agreement shall supersede and replace any other lease agreement between said parties, or their predecessors in interest, concerning the use of the Leased Premises, or any other space or area of the Hotel Parcel.

5. **Solid Waste Disposal and Collection.** In accordance with the DDLA, Lessor is required to design, construct, and own a Joint Solid Waste Facility that will provide garbage, organics, and recyclable services for the Hotel, Bankhead Theater, First Street Mixed Use Commercial Projects (East and West), Livermore Valley Center Plaza, and the Livermore Cinema. The Joint Solid Waste Facility shall replace the temporary solid waste facility located south of the Hotel Parcel and north of the First Street Mixed-Use Commercial Project (West). Pursuant to the terms of the DDLA, Lessor is required to maintain sufficient truck access on the Leased Premises to allow solid waste collection at the existing temporary solid waste facility until such time when the Joint Solid Waste Facility is constructed and operational. For the duration of this Lease, Lessee shall maintain sufficient truck access on the Leased Premises to allow solid waste collection at the existing temporary solid waste facility until such time when the Joint Solid Waste Facility is constructed and operational. At the time Lessor provides City written notice of the date construction of the Hotel will commence, Lessor shall identify how solid waste collection access will be maintained if the Joint Solid Waste Facility is not yet operational.

6. **City's Use of Leased Premises.**

(a) Use of Leased Premises. City shall use the Leased Premises for the purpose of a temporary paved surface public parking lot and for trash collection at the temporary solid waste facility located south of the Hotel Parcel.

(b) Rules Regarding Use. City's use of the Leased Premises shall be subject to the following rules:

(i) City shall not allow, authorize, or permit the Leased Premises, or any part thereof, to be used for any use or any illegal activity or purpose in violation of federal or state laws and/or ordinances, regulations and requirements of County, City, or any other enforcement authority.

(ii) City shall not commit, allow, or permit to be used for any offensive or improper use or nuisance, the Leased Premises, which may unreasonably or unlawfully disturb or damage the Hotel Parcel or Leased Premises.

(iii) City shall not leave or store any trash, garbage, or refuse of any kind in, on, or about the Leased Premises and shall cause any refuse, trash, or other waste deposited on the Leased Premises by any of its employees, agents, or representatives to be picked up and disposed of in the appropriate manner so as to keep the Leased Premises in a neat and clean condition.

(iv) City shall not use, commit, allow, or permit to be used or committed, any waste upon the Leased Premises.

(c) Hazardous Materials. City shall not cause or permit any Hazardous Materials to be permanently stored, used or disposed of in the Hotel Parcel or Leased Premises, by City's agents, employees, contractors or invitees, without having obtained Lessor's prior, written consent. For purposes of this Lease Agreement, the following terms shall have the meanings set forth below:

"Hazardous Materials" shall mean any toxic or hazardous wastes, pollutants, materials or substances, including, without limitation, asbestos, PCB's, petroleum products, radioactive substances or their by-products, other substances defined or listed as "hazardous substances," "hazardous materials," "hazardous wastes" or "toxic substances in or pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. §§ 9601 et seq. ("CERCLA"); the Hazardous Materials Transportation Act, 49 U.S.C §§ 5101 et seq.; the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 et seq.; the Toxic Substance Control Act of 1976, 15 U.S.C. §§ 2601 et seq.; any "toxic pollutant" under the Clean Water Act, 33 U.S.C. §§ 1251 et seq.; any hazardous air pollutant under the Clean Air Act, 42 U.S.C. §§ 7401 et seq.; the California Hazardous Substance Account Act, California Health & Safety Code ("HSC") §§ 25300 et seq., the Hazardous Waste Disposal Land Use Act, HSC §§ 25100 et seq.; in or pursuant to or identified as causing cancer or reproductive toxicity in the California Safe Drinking Water & Toxic Enforcement Act of 1986, HSC §§ 25249.5 et seq.; and HSC §§ 25117, 25316; all as such laws may be amended; any hazardous or toxic substance,

material, chemical, waste, or pollutant now or hereafter regulated under any other applicable Federal, State, or local environmental laws, without limitation; and any other matter in the nature thereof arising pursuant to the jurisdiction of any public agency.

"Hazardous Discharge" and "Contamination" shall mean the happening of any event involving an emission, spill, release, or discharge ("Release") into or upon (i) the air, (ii) soils or any improvements located thereon, (iii) surface or ground water, (iv) the sewer, septic system, or waste treatment, storage, or disposal system servicing the Leased Premises, of any Hazardous Material, or (v) any other matter in the nature thereof arising pursuant to the jurisdiction of any public agency.

"Environmental Laws" shall mean all applicable Federal, State, and local laws, ordinances, regulations, orders, procedures, policies, and directives of every kind and nature whatsoever pertaining to Hazardous Materials in, at, on, under, or from the Leased Premises or any portion thereof.

7. City Obligations.

(a) Services and Utilities. City shall provide basic electricity and power for the Leased Premises.

(b) Maintenance. Except as otherwise provided herein, City shall at its own cost and expense, maintain the Leased Premises, and every part thereof, in good and sanitary order, condition, and repair. City shall be responsible for the cost of any and all repairs or maintenance to the Leased Premises, caused by negligent, careless, or willful acts of City, its employees, agents, equipment, or invitees.

8. Condition of Leased Premises. City represents and warrants that it has made a thorough and complete inspection of the Leased Premises using qualified consultants and experts of its own choosing, and the Leased Premises is suitable for a temporary, surface public parking lot and in good and sanitary order, repair, and condition. City hereby accepts the Leased Premises in its present condition and, except as otherwise may be set forth herein, without representation or warranty by Lessor as to the condition of such Leased Premises or as to the use of the Leased Premises.

9. Construction and Repair.

(a) Mechanic's Lien. City shall pay, or cause to be paid, all costs and expenses for work done by City, or caused to be done by City, on the Leased Premises of a character which could result in any lien on the Hotel Parcel, and City will keep the Leased Premises free and clear of any mechanic's lien and/or other lien on account of work done for City or at its request.

Should any claims of lien be filed and/or recorded against the Leased Premises, or any action affecting the title thereto commenced, City shall give Lessor written notice thereof as soon as it has knowledge of the action.

(b) Construction. City shall not build or construct any improvement, or make any structural change, addition, or remodeling to the Leased Premises without the Lessor's prior written consent. In the event that Lessor provides City with the required written consent, City shall at its own cost comply with any and all Federal, State, or local laws and/or regulations applicable to any such construction, alteration, or remodeling to or within the Leased Premises to upgrade them to satisfy current standards.

10. Destruction. If the Leased Premises is totally destroyed during the term of this Lease Agreement by fire, flood, earthquake, or other casualty, whether or not covered by insurance, this Lease Agreement shall terminate.

11. Condemnation. If all or part of the Leased Premises is taken by condemnation such that the Leased Premises is no longer usable for a temporary, paved surface public parking lot, this Lease Agreement shall terminate. City shall be entitled only to that portion of the proceeds of condemnation which is directly attributable to the value of City's interest in this Lease Agreement.

12. Compliance with Laws. City agrees to comply with all applicable zoning, municipal, county and state laws, ordinances and regulations governing the use of the Leased Premises. City agrees to secure and maintain throughout the Term and any Extended Term any federal, state or local licenses or permits required in order to use the Leased Premises for a temporary surface public parking lot . City's failure to do so shall be considered a material breach of this Lease Agreement. City is responsible for compliance with all Federal requirements for improvements, construction and/or repair work outside of the Lessor's obligations.

13. Assignment.

(a) Prohibition Against Assignment and Encumbrance. This Lease Agreement and any rights or obligations of City hereunder shall not be sold, assigned, transferred, leased, assigned, sublet, conveyed, hypothecated either in whole or in part, or in any manner, without Lessor's prior written consent. The City shall not allow any other person or entity to occupy or use all or any part of the Hotel Parcel or Leased Premises without first obtaining Lessor's written consent. Consent to any assignment shall not constitute a further waiver of the provisions of this section.

(b) Involuntary Assignment. No interest of Lessee in this Lease Agreement shall be assignable by operation of law, including, without limitation, the transfer of this Lease Agreement by testacy or intestacy. Each of the following acts shall be considered an involuntary assignment:

(i) If City is or becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or institutes a proceeding under the Bankruptcy Act in which City is the bankrupt party; or, if the City is a partnership or consists of more than one person or entity, if any partner of the partnership or other person or entity is or becomes bankrupt or insolvent, or makes an assignment for the benefit of creditors;

(ii) If a writ of attachment or execution is levied on this Lease Agreement;

(iii) If, in any proceeding or action to which Lessee is a party, a receiver is appointed with authority to take possession of the Leased Premises.

(iv) An involuntary assignment shall constitute a default by City and Lessor shall have the right to elect to terminate this Lease Agreement, in which case this Lease Agreement shall not be treated as an asset of City.

(v) If a writ of attachment or execution is levied on this Lease Agreement, City shall have ten (10) days in which to cause the attachment or execution to be removed. If any involuntary proceeding in bankruptcy is brought against Lessee, or if a receiver is appointed, Lessee shall have sixty (60) days in which to have the involuntary proceeding dismissed or the receiver removed.

14. Taxes. Lessor shall pay during the term of this Lease Agreement, without abatement, deduction, or offset, any and all real and personal property taxes, general and special assessments, and other charges (including any increase caused by a change in the tax rate or by a change in assessed valuation) of any description levied or assessed during the term of this Lease Agreement by any governmental agency or entity on or against the Hotel Parcel, improvements located on the Hotel Parcel, personal property located on or in the Hotel Parcel or improvements, and the leasehold interest created by this Lease Agreement.

15. Lessor Refinancing. City is aware that Lessor is leasing its interest in the Leased Premises to City and that Lessor's leasehold interest in the Leased Premises is related to an outstanding lease financing. City agrees that it will use best efforts to cooperate with Lessor in connection with a refinancing of the outstanding lease financing, including executing any estoppel, consent, and other similar documents requested by the Lessor.

16. Indemnity. City agrees to and shall defend, indemnify, protect and hold harmless Lessor, its officers, directors, employees and agents harmless from and against any and all loss, damage, injury, accident, casualty, liability, claim, cost or expense (including, but not limited to, reasonable attorneys' fees) of any kind or character to any person or property arising from or related to any act or omission of City, its employees, agents or contractors, the City's use of the Leased Premises, or as a result of this Lease Agreement. To the greatest extent by law, City waives all claims or demands against Lessor for any loss, damage, or injury to City or City's property in connection with this Lease Agreement or the operation or use of the City's property by City or its agents, servants or contractors or employees and agrees to so indemnify and hold Lessor harmless.

17. Insurance. For the duration of this Lease Agreement, City shall procure and maintain, at its own cost, insurance in the amounts and under the terms set forth in Exhibit B, attached hereto, against claims for injuries to persons or damages to property which may arise from or in connection with this Lease Agreement.

DocuSign Envelope ID: B5E9EF54-EE45-4FA5-B041-5DE3BAF0019A

18. Termination.

(a) Termination for Cause. In the event City engages in, or permits any other person to engage in, any illegal activities in, on, or about the Hotel Parcel or the Leased Premises, whether with or without a criminal conviction, Lessor shall have the right to immediately terminate this Lease Agreement and demand City surrender the Leased Premises.

Except for immediate termination as provided for in this Lease Agreement, should City at any time during the term of this Lease Agreement be in default in the performance of any of the terms, conditions, rules, covenants, or requirements herein contained or otherwise agreed to by the parties, including the rules and regulations established by Lessor regarding the use of, or access to, the Hotel Parcel and Leased Premises, and should such default continue for thirty (30) days after written notice thereof from Lessor to City specifying the particulars of such default, or should City vacate or abandon the Leased Premises, then in any such event it shall be at the option of the Lessor, the Lessor's right to declare this Lease Agreement terminated and re-enter the Leased Premises and take possession thereof and remove City's fixtures and furnishings, and City shall have no further claim thereon or hereunder.

(b) Lessor's remedies in this section shall be in addition and supplemental to any and all other rights or remedies which Lessor may have pursuant to this Lease Agreement and/or under the law.

19. Default. Any of the following events or occurrences shall constitute a material breach of this Lease Agreement by City and, after the expiration of any applicable grace period, shall constitute an event of default (each an "Event of Default"):

(a) The failure by City to perform any obligation under this Lease Agreement, which by its nature City has no capacity to cure;

(b) The failure by City to perform any other obligation under this Lease Agreement, if the failure has continued for a period of ten (10) days after Lessor demands in writing that City cure the failure. If, however, by its nature the failure cannot be cured within ten (10) days, City may have a longer period as is necessary to cure the failure, but this is conditioned on City's promptly commencing to cure within the ten (10) day period and thereafter completing the cure within thirty (30) days after Lessor demands in writing that City cure the failure. City shall indemnify and defend Lessor against any liability, claim, damage, loss, or penalty that may be threatened or may in fact arise from that failure during the period the failure is uncured;

(c) Any of the following: a general assignment by City for the benefit of City's creditors; any voluntary filing, petition, or application by City under any law relating to insolvency or bankruptcy, whether for a declaration of bankruptcy, a reorganization, an arrangement, or otherwise; the abandonment, vacation, or surrender of the Leased Premises by Lessee without Lessor's prior written consent; or the dispossession of City from the Leased Premises (other than by Lessor) by process of law or otherwise;

(d) The abandonment of the Leased Premises by City.

20. Remedies. Upon the occurrence of an Event of Default, Lessor may pursue all rights or remedies available to Lessor at law or in equity.

21. Waiver. Any express or implied waiver of a breach of any term of this Lease Agreement shall not constitute a waiver of any further breach of the same or other term of this Lease Agreement.

22. Surrender of Leased Premises. Upon the expiration of this Lease Agreement, or no later than ten (10) days after its termination, City shall surrender the Leased Premises to Lessor, and all improvements and alterations thereto, in good condition except for ordinary wear and tear occurring after the last necessary maintenance made by City and/or destruction to the Leased Premises covered by Section 10 of this Lease Agreement.

Lessor may elect to retain or dispose of in any manner any alterations, improvements, fixtures, or furnishings that City does not remove from the Leased Premises on expiration or termination of the Lease Agreement by giving at least ten (10) days' notice to City. Title to any such improvements, alterations, fixtures, or furnishings that Lessor elects to retain or dispose of on expiration of the ten (10) day period shall vest in Lessor. City waives all claims against Lessor for any damage to City resulting from Lessor's retention or disposition of any such improvements, alterations, fixtures, or furnishings. City shall be liable to Lessor for Lessor's costs for storing, removing, and disposing of any improvements, alterations, fixtures, or furnishings.

23. Entry by Lessor. City shall permit Lessor, its officers, employees, and agents to enter into and upon the Leased Premises upon reasonable notice for the purpose of inspecting the Leased Premises, enforcing the rules and regulations under this Lease Agreement, and the posting of such legal notices as Lessor may deem necessary or convenient.

(a) Lessor and its agents may enter the Leased Premises at any reasonable time upon reasonable notice to City, or immediately in the case of an emergency, for the purpose of: (i) inspecting the Leased Premises; (ii) posting notices of nonresponsibility; (iii) supplying any service to be provided by Lessor to City; (iv) showing the Leased Premises to prospective purchasers, mortgagees, or tenants (v) making necessary alterations, additions, or repairs as required by this Lease Agreement or to otherwise perform Lessor's duties under this Lease Agreement; (vi) determining whether City is complying with the terms of this Lease Agreement; (vii) performing City's obligations when City has failed to do so after written notice from Lessor, if required by the terms of this Lease Agreement; (viii) placing on the Leased Premises ordinary for lease signs or for sale signs; (ix) doing of other lawful acts that may be necessary to protect Lessor's interest in the Leased Premises under this Lease Agreement; and (x) responding to an emergency.

(b) Lessor shall have the right to use any means Lessor deems necessary and proper to enter the Leased Premises in an emergency. Any entry into the Leased Premises obtained by Lessor in accordance with this section shall not be a forcible or unlawful entry

DocuSign Envelope ID: B5E9EF54-EE45-4FA5-B041-5DE3BAF0019A

into, or a detainer of, the Leased Premises, or an eviction, actual or constructive, of City from the Leased Premises, nor shall such entry give rise to a claim for rent abatement.

24. Notices. Wherever in this Lease Agreement it shall be required or permitted that notice or demand be given or served by either party to this Lease Agreement to or on the other, such notice or demand shall be given or served in writing and forwarded by registered mail, addressed as follows, though any party may change such address or contact person by written notice by registered mail to the other:

City: Community Development Director
City of Livermore
1052 South Livermore Avenue
Livermore, California 94550

Lessor: 2205 Railroad Avenue LLC, a Delaware limited liability company
Attn: Rikesh Patel
262 Glorietta Blvd.
Orinda, CA 94563

25. Holding Over. Any holding over without the Lessor's prior written consent shall be prohibited.

26. Modification. This Lease Agreement may only be modified or amended by written agreement signed by both parties hereto.

27. General Provisions.

(a) Time of Essence. Time is of the essence for each provision of this Lease Agreement.

(b) Relationship of the Parties. Nothing contained in this Lease Agreement shall be deemed or construed by the parties or by a third party to create the relationship of principal and agent, and/or of partnership, and/or of joint venture, and/or of any association between the parties, other than the relationship of Lessor and Lessee.

(c) Entire Agreement. This instrument, including any attachments hereto, constitutes the entire agreement of the parties relating to the subject matter of this Lease Agreement and correctly sets forth the rights, duties, and obligations of each party to the other, but this Lease Agreement does not supersede any provision in the DDLA.

(d) Partial Invalidity. If any provision or portion of this Lease Agreement shall be deemed invalid, it is agreed that such invalidity shall affect only such provision or portion thereof, and the remainder of this Lease Agreement shall remain in force and effect.

(e) California Law. This Lease Agreement shall be governed by and construed in accordance with the laws of the State of California.

DocuSign Envelope ID: B5E9EF54-EE45-4FA5-B041-5DE3BAF0019A

(f) Review of Lease. Each party to this Lease Agreement declares that prior to the execution of this Lease Agreement, each party had the opportunity to seek the independent advice of counsel and that they apprised themselves of sufficient relevant information in order that they might intelligently exercise their own judgment in deciding whether to execute this Lease Agreement. Each party agrees that they have completely read and understood the Lease Agreement, know the contents thereof, and have signed the Lease Agreement of their own free will and free of any duress. No single party has drafted this Lease Agreement and it shall not be interpreted against any party as the drafting party.

(g) Performance Excused. The parties shall be excused from performance, as hereunder agreed to, if such performance is rendered impossible, impractical, or unreasonably difficult by, but not limited to, any strike, lockout, labor disturbance of any kind, civil commotion, war, acts of terrorism, shortage of any supply or labor, shortage of water, weather, act of government authority, enactment or change in laws or regulations, breakdown of facilities or any cause outside of the parties' control.

(h) Mutual Termination. This Lease Agreement may be terminated at any time concerning the rights and responsibilities of the parties who, between them, agree to such a termination.

(i) Headings. The headings used in this Lease Agreement are intended for reference only and do not define or limit the scope or meaning of any provision of this Lease Agreement.

(j) Waiver. A term or condition of this Lease Agreement may be waived at any time by the party entitled to the benefit thereof, but no such waiver shall affect the right of the waiving party to require observance, performance or satisfaction either of that term or condition as it applies on a subsequent occasion or of any other term or condition. City shall not be excused from complying with any of the terms and conditions of this Lease Agreement by any failure of the City upon any one or more occasions to insist upon or to seek compliance with any such terms and conditions.

(k) Attachments. All attachments referred to in and attached to this Lease Agreement are incorporated by reference as though set forth in full.

(l) Attorney's Fees and Costs. If either party commences an action against the other party to enforce this Lease Agreement, the prevailing party is entitled to reasonable attorney's fees, costs of suit, investigation costs and discovery costs, including costs of appeal.

CITY COUNCIL STAFF REPORT **ITEM NO. 5.6**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: Resolution authorizing the execution of an agreement with Michael Baker International, Inc. for services to support the administration of the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program in a not-to-exceed amount of $400,000, a term ending June 30, 2029, and appropriating $400,000 over five years from the Housing Trust Fund.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the execution of an agreement with Michael Baker International, Inc. for services to support the administration of the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program in a not-to-exceed amount of $400,000, a term ending June 30, 2029, and appropriate $400,000 over five years from the Housing Trust Fund.

SUMMARY

In March 2024, the City issued a Request for Qualifications to identify agencies that could support the administration of the City's Affordable First-Time Homebuyer Programs (Below Market Rate ["BMR"] Homebuyer Program) and Mortgage Assistance Program ["MAP"]). Michael Baker International, Inc. was selected as the agency most qualified to provide the range of services the City needs. The proposed five-year Professional Services Agreement includes services to be the primary contact for all inquiries and correspondence on the Program, assist with developing program market information, establish and maintain a waitlist, conduct workshops and selection process, and manage the transaction through closing, and manage refinances and resales of existing BMRs. Staff recommends approval of the Agreement with Michael Baker International, Inc. and an appropriation of $400,000 over five (5) years from the City's Housing Trust Fund for the services. The City is able to recover and defray the cost of these services through fees paid by developers selling BMR inclusionary units and other transaction fees.

DISCUSSION

The City of Livermore generates affordable homeownership opportunities (BMR for-sale units) through its Inclusionary Housing Ordinance. Additionally, the City provides a Mortgage Assistance Program,

which provides down payment and closing cost assistance loans, using local and State CalHome funding, for first-time homebuyers who have incomes between 80% and 120% of Area Median Income (AMI).

The City's Inclusionary Housing Ordinance was first adopted in 2000. The ordinance requires developers of new for-sale residential projects to provide between 10% and 20% of units (depending on location within the City) to be made available for purchase to low-, median-, and moderate-income households, at or below 80%, 100%, and 120% of Area Median Income, respectively. The BMR units are subject to silent mortgages, second mortgages, and resale restrictions with the purchasers to secure the City's affordable housing interest in the units.

The pipeline of ownership BMR units is secured through City Council-approved affordable housing agreements with developers. The City currently has 155 BMR ownership units and mortgage assistance loans in its portfolio which require annual monitoring and coordination with homeowners. Currently, the City also has five affordable housing agreements with developers of projects that are expected to start construction within the next five years and will generate an additional 140 affordable, for-sale units. To prepare for the high volume of units, in March 2024, the City issued a Request for Qualifications (RFQ) to identify agencies that could provide administration support and homebuyer counseling services for the City's BMR Homebuyer Program and Mortgage Assistance Program which were previously provided by ZASM Consulting, LLC. These services include acting as the primary contact for all inquiries and correspondence on the Program, assisting with developing program market information, establishing and maintaining a waitlist, conducting workshops and selection process, managing the transaction through closing, and managing refinances and resales of existing BMRs. Two firms submitted proposals: Michael Baker International, Inc. and Rise Housing.

During the selection process, staff considered each firm's pricing, ability to scale operations, experience, and marketing capabilities in reaching low-, median-, and moderate-income households. Based on the above criteria, Michael Baker International, Inc. was selected as the firm most qualified to provide the BMR administration services requested in the RFQ. The key enhancements in contracting for Michael Baker International, Inc.'s services include their service cost efficiency, capacity to expand staffing during increased influxes of available BMRs, and ability to translate and create brochures to reach Spanish-speaking residents. Additionally, the City of Livermore currently contracts with Michael Baker International, Inc. to monitor annual BMR compliance.

The proposed FY 2025-29 Professional Services Agreement includes fees for services to be provided as needed for the sale of BMR units and other mortgage assistant services. The estimated budget for new Below Market Unit sales, including administration of the City's Applicant Selection Process ("Lottery") is based on the number of units anticipated to be sold through existing Low Income Housing Agreements each fiscal year. BMR administration services include screening and qualifying prospective applicants according to the City's criteria and interfacing with the City's buyers and mortgage lenders through the close of escrow. Other first-time homebuyer services, including mortgage assistance program administration, have been included in the agreement on a variable, as-needed basis.

Professional Services Scope/Cost Summary:

Services	Description	Year 1
General Administration Services	Payoffs, four (4) workshops & general services items	$12,500

BMR Program Services	New sales, resales & refinances	19,500
Mortgage Assistance Program (MAP) Services	New MAP loans and other MAP services	17,500
	Subtotal	49,500
	Additional Services Contingency*	25,500
	Total for Year 1	**$75,000**

Average Annual +/- 3% Cost Escalator Summary for Five (5) Years:

Annual Escalator	Year 1 Total	Year 2 Total	Year 3 Total	Year 4 Total	Year 5 Total
3%	$75,000	$78,000	$80,000	$82,000	$85,000

Approx. 5 Years Subtotal & Not to Exceed Total	**$400,000**

*The “Additional Services Contingency” cost of $25,500 each year covers periods when a higher number of BMRs become available due to the completion of new construction.

Staff recommends City Council approve a five-year contract with the consultant so that the City secures consistent services for new development projects expected to deliver affordable units during that period. As indicated in the contract, the City may terminate any portion or all of the services by giving Consultant at least 30 calendar days written notice.

FISCAL AND ADMINISTRATIVE IMPACTS

Funds to support the administration of the City’s Affordable First-Time Homebuyer Program and Mortgage Assistance Program are appropriated from the City's Housing Trust Fund (F611). The City collects an administrative fee equal to 1.5 percent of the affordable sales price from developers upon close of escrow and sale to the eligible buyers to pay for marketing costs, BMR applicant selection, and to defray ongoing monitoring costs. The administrative fee for resale BMR units would be collected from the seller by the City upon close of escrow to a new eligible purchaser. The fees are updated annually in the City's master fee schedule. The estimated administrative cost recovery per unit for the FY 2025-29 contract period averages $6,400 per affordable unit and would be deposited into Fund 611.

COMMUNITY PILLAR

1: A Safe Community that Thrives

GOAL

7: Expand and preserve the supply of affordable housing opportunities.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF AN AGREEMENT WITH MICHAEL BAKER INTERNATIONAL, INC. FOR ADMINISTRATION OF THE AFFORDABLE FIRST-TIME HOMEBUYER AND MORTGAGE ASSISTANCE PROGRAMS IN A NOT-TO-EXCEED AMOUNT OF $400,000 FOR A FIVE-YEAR TERM, AND APPROPRIATION OF $400,000 IN HOUSING TRUST FUNDS (F611)

In March 2024, the City of Livermore ("City") issued a Request for Qualifications (RFQ) to identify agencies that could provide administration support and homebuyer counseling services for the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program. Michael Baker International, Inc. was selected as the agency most qualified to provide the administration services requested in the RFQ. The proposed five-year Professional Services Agreement includes services to assist with qualifying applicants for new units sold through the Inclusionary Housing Program and other first-time homebuyer programs.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager, or her designee, to sign a Professional Services Agreement, attached hereto as Exhibit A, with Michael Baker International, Inc., in an amount not-to-exceed $400,000, for the administration of the City's Affordable First-Time Homebuyer Program and Mortgage Assistance Program.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby authorizes the appropriation of $400,000 in Housing Trust Funds (Fund 611) for five (5) years.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT is made and entered into this ___ day of _____, 2024, by and between the City of Livermore ("City"), a municipal corporation, and Michael Baker International, Inc. ("Consultant"), a Pennsylvania Corporation.

RECITALS

City requires professional services to administer the City's Affordable First-Time Homebuyer Program (Below Market Rate) and the Mortgage Assistance Program.

Consultant warrants it possesses the distinct professional skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Consultant acknowledges City has relied upon these warranties to retain Consultant.

AGREEMENT

NOW, THEREFORE, City and Consultant hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Consultant. City hereby retains Consultant, and Consultant hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Consultant and its employees are not City officers or employees. Consultant is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Consultant shall provide the following professional services as more particularly set forth in Exhibit "A" (collectively "the Services"):

Administer the City's Affordable First-Time Homebuyer Program (Below Market Rate) and the Mortgage Assistance Program as submitted in the Consultant's proposal dated April 19, 2024.

4. Consultant's Responsibilities. Consultant shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Consultant to practice its profession and to provide the Services;

(e) Comply with all laws in effect that are related to Consultant and the Services;

(f) Coordinate the Services with Frances Reisner ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Consultant by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Consultant's invoice shall be in writing and describe the Services performed for the payment requested. Consultant shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Consultant and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Consultant shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Consultant shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Consultant and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Consultant shall correct, at its own expense, all errors in the Services. Should Consultant fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Consultant;

(l) If applicable, Consultant shall ensure that all work for compensation is provided in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Consultant shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Consultant shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

laborer, worker, or mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Consultant's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as all applicable regulations and guidelines issued pursuant to the ADA.

5. Compensation and Payment.

(a) The total compensation payable by City to Consultant for the Services **SHALL NOT EXCEED** the sum of $400,000 ("not-to-exceed amount"). City shall compensate Consultant for the Services rendered at the hourly rates, task amounts or travel expenses set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates, task amounts or travel expenses are intended to be Consultant's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Consultant, its agents, and employees to provide the Services.

(b) City shall pay Consultant no later than 30 days after City receives a written invoice from Consultant and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 1, 2024, and terminates upon the completion of the Services or June 30, 2029, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Consultant at least 30 calendar-days written notice. Upon receipt of a termination notice, Consultant shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and then assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Consultant in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Consultant in the performance of the Services are City's property and Consultant shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Consultant for City under this Agreement are works made for hire, and Consultant shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Consultant agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Consultant to City and Consultant obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

10. Confidentiality. Consultant shall not disclose any confidential or proprietary information received from City to anyone except Consultant's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Consultant shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Consultant's performance of the services contemplated by this Agreement, or in connection with Consultant's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Consultant's obligations to hold harmless, indemnify, and defend shall not be excused because of Consultant's inability to evaluate Liability or because Consultant evaluates Liability and determines that Consultant is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Consultant must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Consultant's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Consultant's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Consultant shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Consultant shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Consultant's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Consultant for, the Services does not release Consultant from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

assumption of Consultant's responsibility or liability by City for any defect or error in the Services.

15. Conflict of Interest. Consultant represents that no City employee or official has a financial interest in Consultant. Consultant shall not offer, encourage, or accept any financial interest in any part of Consultant's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private party, Consultant represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Consultant shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Consultants' financial interest. While it is Consultant's sole responsibility to evaluate its conflicts of interest, the Consultant nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other consultants to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Consultant shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty-percent or more in the ownership or control of Consultant constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Consultant must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Frances Reisner,
Housing and Human Services Manager
City of Livermore
1052 S Livermore Avenue
Livermore, California 94550

TO CONSULTANT: Attention: William Hoose, Vice President
Michael Baker International, Inc.
3760 Kilroy Airport Way, Suite 270
Long Beach, CA 90806

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

Michael Baker
INTERNATIONAL

EXHIBIT A

Michael Baker International, Inc. will perform the following tasks in addition to providing example documents:

A. GENERAL ADMINISTRATION SERVICES:

- Be the primary contact for questions from the public about the BMR and MAP programs, and will handle inquiries and correspondence from applicants, real estate agents, lenders, escrow and loan servicing agents, and current BMR homeowners and/or MAP borrowers.
- Utilize the City's procedures, ordinance(s), resolution(s), and guidelines in the implementation of the BMR and MAP Programs.
- Develop a report form in conjunction with the City representative and submit quarterly activity reports.
- Provide suggestions to the City for potential modifications to the City's application process, procedures, and/or guidelines to ensure effective operation of the Program.
- (If applicable) Maintain marketing content for the Program, including information on Consultant's website, and other material as needed.
- Maintain a list of local lenders interested in providing loans to qualified Program applicants.
- When requested by the City, advise and assist City staff on matters related to the Program.
- As necessary, and/or requested by the City, provide access to translation in other languages.
- Conduct quarterly in-person workshops to educate the public on the City's affordable homeownership programs.
- Utilize the City's HomeKeeper database to manage the BMR and DPA portfolios, and will keep all data in HomeKeeper accurate and current.

B. BMR PROGRAM SERVICES:

- **New BMR Units**
  - **Advertising:** Assist with the development of program marketing information and project-specific collaterals for prospective BMR buyers on the new developments where the new BMR units will be located. Consultant will assist City with marketing new BMR opportunities via website, flyer or posters, e-blasts, social media, etc. using imagery, language and design consistent with City standards.
  - **Waitlist Creation and Management:** Use the City's Homekeeper software and associated forms and applications to prepare an online pre-application to conduct an annual solicitation for applications to the Program to solicit buyers for available units and to establish and maintain a waiting list in accordance with the City's Program guidelines. Establishing a waitlist

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

Michael Baker INTERNATIONAL

includes, but is not limited to, distributing and receiving applications through electronic methods, sorting all applicants into the appropriate City priority point system, conducting an annual "lottery-style" selection process for new applicants, and communicating results with the applicants.

- Develop a report form in conjunction with the City representative and submit quarterly activity reports.
- Provide suggestions to the City for potential modifications to the City's application process, procedures, and/or guidelines to ensure effective operation of the Program.
- (If applicable) Maintain marketing content for the Program, including information on Consultant's website, and other material as needed.
- Maintain a list of local lenders interested in providing loans to qualified Program applicants.

- **Selection Process Administration**: Conduct workshop detailing instructions on the application process; use the City's Homekeeper system to collect full applications and required documents to determine eligibility based on unit availability, sales prices, and unit size; and obtain conditional approval or disqualification letter from the City as applicable.
- **Manage Transaction Through Closing**: Manage the entire sale process through close of escrow, including but not limited to the following tasks:
  - Prepare the sales schedule in coordination with the projects' developers for City approval.
  - Adhere to appropriate deadlines to ensure the timely delivery of qualified applicants to the developer.
  - Coordinate with or arrange for homebuyer education consistent with U.S. Department of Housing and Urban Development (HUD) standards.
  - Be available to answer any questions regarding the BMR Program and facilitate escrow closing.
  - Create the "City Loan Documents" (Deed of Trust, Promissory Note, Resale Restriction Agreement, Requests for Notice of Default and any other applicable documents). Review documents with the buyers and coordinate signing of documents.
  - Provide Escrow Instructions and facilitate recordation of the City's documents with the title company prior to close of escrow. Once complete, ensure City receives copies of all closing documents.

- **Existing BMR Units**
  - **Refinances:** Provide information on City subordination requirements for lenders and owners and answer phone and email inquiries. Consultant will review and process requests for refinancing in accordance with Program guidelines.
  - **Resale of Existing BMR Homes:** Administer the resale process for units sold back through the Program and will follow the City's established "Steps to Reselling your BMR Home" procedures including: marketing the unit through the City's program waitlist (as applicable); coordinating with the seller and listing agent to ensure necessary inspections are completed; holding at least one "open house" for prospective buyers; screening and identifying eligible buyers; acting as City's liaison on buyers eligibility and loan approval through close of escrow; and processing City Loan Documents to ensure close of escrow meets program deadlines (90 days in most cases).

D. MORTGAGE ASSISTANCE PROGRAM SERVICES

Administer, process, and screen applications for the City's Mortgage Assistance Program ("MAP"). Similar to the aforementioned BMR Program Services, Consultant will market the program, collect and screen applications and process the transaction through the close of escrow.

Michael Baker
INTERNATIONAL

Michael Baker International, Inc. will provide all necessary services for the successful administration of the City's BMR Program as outlined in the Implementation Plan section at a not-to-exceed amount of $49,500 per year.

Here is the cost estimate for each task:

Task Description	Project Director $185	Project Manager $150	Housing & Grants Specialist $135	Technical Specialist $125	Totals
Task A – General Administration Services: Estimated number of payoffs – 2: $1,500 ($750 each) Estimated number of workshops – 4: $4,000 ($1,000 each) Other General Administration Services: $7,000					
					Subtotal: $12,500
Task B - BMR Program Services: Estimated number of resales – 2: $6,000 ($3,000 each) Estimated number of new sales – 6: $12,000 ($2,000 each) Estimated number of refinances – 1: $1,500 each					
					Subtotal: $19,500
Task C – Mortgage Assistance Program Services: Estimated number of new MAP loans – 2: $8,000 ($4,000 each) Other Mortgage Assistance Program Services - $9,500					
					Subtotal: $17,500

Additional tasks performed under the contract shall be billed at the rate noted above. An additional contingency of $25,500 each year shall be allocated for additional BMRs or other services requested by the City.

An annual escalator of no more than 3% shall be applied annually.

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $1,000,000 per occurrence/**$2,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $1,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability".
4. Professional Liability/Errors and Omissions:
   $1,000,000 per claim. Consultant/Contractor warrants that any retroactive date under this policy shall precede the effective date of this contract and, either continuous coverage will be maintained, or an extended discovery period will be exercised for a period of two years beginning at the time work under this contract is completed.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated

DocuSign Envelope ID: 7235AFB1-2F0E-4B45-8188-8CA4AD94564E

volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.7**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: Resolution authorizing the change of the General Partner for 2891 Carmen, L.P., owner of the Carmen Avenue Apartments from Satellite AHA Development, Inc. to ABODEHD 2891 CARMEN LLC, to streamline property management and service delivery.

RECOMMENDED ACTION

Staff recommends that the City Council adopt a resolution authorizing the City Manager to approve ABODEHD 2891 CARMEN LLC as the new General Partner in the 2891 Carmen, L.P., California limited partnership for the Carmen Avenue Apartments to streamline property management and service delivery once Abode oversees all aspects of the partnership.

SUMMARY

Carmen Avenue Apartments is owned by the 2891 Carmen, L.P., a limited partnership between Satellite AHA Development, Inc. (SAHA) as the Managing General Partner, and Abode Housing Development (AHD) as the Co-General Partner. SAHA has agreed to transfer the full role of Managing General Partner to Abode Housing under a new affiliate, ABODEHD 2891 CARMEN LLC and transition the property management responsibilities to Abode Property Management (APM). APM works in alliance with Abode Housing Development and partners with Abode Services to support the needs of the residents. The changes are intended to streamline property management and service delivery under one provider for the residents and provide consistency. In accordance with the City's loan and regulatory agreements with the 2891 Carmen L.P., any changes to the general partnership must be approved by the City.

DISCUSSION

In October 2006, the City executed loan and regulatory agreements for the Carmen Avenue Apartments project with 2891 Carmen L.P., for $2,665,000 In-Lieu and Housing Trust Funds. At that time, the Carmen limited partnership included Affordable Housing Associates as the General Partner, and Allied Housing as the Co-General Partner. The City's loan agreement reserved the right to approve any changes to the General Partner within the 2891 Carmen limited partnership.

In January 2013, the City approved a Change of Name Amendment reflecting the merger of Affordable Housing Associates and Satellite Housing, Inc., with the corporate name changed to Satellite AHA Development, Inc. (SAHA). SAHA is the current Managing General Partner of 2891 Carmen, L.P. On July 7, 2023, the Co-General Partner, Allied Housing, changed to Abode Housing Development (AHD).

Now, SAHA has agreed to transfer the Managing General Partner role to Abode Services under a new affiliate, ABODEHD 2891 CARMEN LLC. Additionally, they have agreed to transition the property management responsibilities from SAHA to Abode Property Management (APM).

APM has provided property management services for affordable housing, serving low-income, homeless disabled, and other special needs households for over 42 years. APM is a $39 million organization that currently provides property and asset management to more than 52 affordable/supportive housing properties with over 900 units serving seniors, families, veterans, special needs, vulnerable populations, or low-income individuals financed with Federal, State, tax credit, and local funding across Alameda, San Francisco, Santa Clara, and Santa Cruz counties.

APM's leadership team has experience managing a wide array of affordable housing properties and funding types, including permanent supportive housing, low-income housing tax credits (LIHTC), HOME funded units, properties with project-based Section 8 vouchers, and the State's Multi-Family Housing Program (MHP), all of which are applicable to Carmen Avenue.

This change in Managing General Partner will allow AHD to assume 100% interest in the partnership and provide direct oversight. AHD is a member of the Abode strategic alliance which includes Abode Housing Development (AHD), Abode Services (AS), and Abode Property Management (APM). Abode Services has been the resident services provider since the project first opened and intends to continue to deliver services with more efficiency and effectiveness once Abode oversees all aspects of the partnership. This change in Managing General Partner will allow AHD to work closer with AS, as well as APM as the property management agent for service delivery at Carmen. APM specializes in working with permanent supportive housing households.

FISCAL AND ADMINISTRATIVE IMPACTS

Changes to the agreement do not increase the City's financial commitment to the project and will have no impact on the City's General Fund.

COMMUNITY PILLAR

1: A Safe Community that Thrives

GOAL

7: Expand and preserve the supply of affordable housing opportunities.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING THE APPROVAL OF ABODEHD 2891 CARMEN LLC AS THE NEW GENERAL PARTNER IN THE 2891 CARMEN, L.P. FOR THE CARMEN AVENUE APARTMENTS TO STREAMLINE PROPERTY MANAGEMENT AND SERVICE DELIVERY FOR THE RESIDENTS OF THE PROJECT

On October 23, 2006, the City of Livermore ("City") and 2891 Carmen, L.P., a California Limited Partnership ("Partnership") entered into a First Amended and Restated Loan Agreement for the Use of In-Lieu and Housing Trust Funds in the principal amount of $2,665,000 (Instrument No. 2006405749) ("Loan Agreement") for the Carmen Avenue Apartments project.

The Loan Agreement requires the City's approval before the Partnership may replace its General Partner.

The Partnership desires to replace its current managing General Partner, Satellite AHA Development, Inc., a California nonprofit public benefit corporation, and its Co-General Partner, Abode Housing Development, a California nonprofit public benefit corporation, with a new General Partner, ABODEHD 2891 CARMEN LLC, a California limited liability company. Satellite AHA Development Inc., Abode Housing Development, and ABODEHD 2891 CARMEN LLC have entered into an agreement documenting this change, attached hereto as Exhibit B.

This change in partnership interest will allow for streamlined property management and service delivery for the residents of the project once Abode oversees all aspects of the partnership.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby approves the change in 2891 Carmen L.P.'s managing General Partner from Satellite AHA Development, Inc. to ABODEHD 2891 CARMEN LLC., and authorizes the City Manager to sign on behalf of the City of Livermore the approval of the General Partner change, attached hereto as Exhibit A, and any other documents that may be necessary to document the approval.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

CITY OF LIVERMORE APPROVAL

FOR GENERAL PARTNER CHANGE

First Amended and Restated Loan Agreement for the Use of In-Lieu and Housing Trust Funds ($2,665,000)

RECITALS

On October 23, 2006, the City of Livermore ("City") and 2891 Carmen L.P., a California Limited Partnership ("'Partnership"), entered into a First Amended and Restated Loan Agreement for the Use of In-Lieu and Housing Trust Funds in the principal amount of $2,665,000 (Instrument No. 2006405749) ("Loan Agreement").

The Loan Agreement requires the City's approval before the Partnership may replace its General Partner.

The Partnership's General Partner is Satellite AHA Development, Inc., a California nonprofit public benefit corporation, and its Co-General Partner is Abode Housing Development, also a California nonprofit public benefit corporation. The Partnership wants to replace its current General Partner and Co-General Partner with a new General Partner, an affiliate of Abode Housing, ABODEHD 2891 CARMEN LLC, a California limited liability company.

APPROVAL

The City of Livermore hereby approves 2891 Carmen LP.'s replacement of its General Partner with ABODEHD 2891 CARMEN LLC pursuant to the Managing General Partnership and Co-General Partner Agreement to Withdraw and to Transfer Partnership Interest dated June 30, 2024.

MANAGING GENERAL PARTNER AND CO-GENERAL PARTNER AGREEMENT TO WITHDRAW AND TO TRANSFER PARTNERSHIP INTEREST

This Managing General Partner and Co-General Partner Agreement to Withdraw and to Transfer Partnership Interest (this "**Agreement**") is made as of June 30, 2024, by and among Satellite AHA Development, Inc., a California nonprofit public benefit corporation ("**SAHA**"), Abode Housing Development (f/k/a Allied Housing, Inc.), a California nonprofit public benefit corporation ("**AHD**"), Allied 2095 Evans LLC, a California limited liability company ("**2095 LLC**"), AbodeHD 2891 Carmen LLC, a California limited liability company ("**Carmen LLC**"), and 2891 Carmen, L.P., a California limited partnership (the "**Partnership**"). SAHA, AHD, 2095 LLC, Carmen LLC and the Partnership shall collectively be referred to as the "**Parties**" and each individually as a "**Party**" in this Agreement.

RECITALS

A. The Partnership was formed as a limited partnership under the Revised Limited Partnership Act of California pursuant to a Certificate of Limited Partnership dated June 23, 2006.

B. The Partnership is currently operating pursuant to the First Amended and Restated Agreement of Limited Partnership dated March 28, 2007, as heretofore amended by a Transfer Agreement dated March 28, 2007, a First Amendment dated September 30, 2010; a Second Amendment dated September 20, 2010; a Third Amendment dated May 29, 2012; the IRS Amendment dated August 28, 2018; and a Fifth Amendment dated December 31, 2023 (collectively, the "**Partnership Agreement**"). All capitalized terms not defined in this Agreement shall have the meanings ascribed to them in the Partnership Agreement.

C. SAHA is the managing general partner of the Partnership, AHD is the co-general partner of the Partnership, and 2095 LLC is the sole limited partner of the Partnership.

D. The Parties intend that (i) Carmen LLC will purchase the managing general partner interest of SAHA in the Partnership (the "**MGP Interest**") and that SAHA will withdraw as a partner in the Partnership, and (i) Carmen LLC will purchase the co-general partner interest of AHD in the Partnership (the "**CGP Interest**") and AHD will withdraw as a partner in the Partnership.

E. The Parties desire to enter into this Agreement to set forth the terms of (i) SAHA's withdrawal from the Partnership and assignment of the MGP Interest to Carmen LLC, and (ii) AHD's withdrawal from the Partnership and assignment of the CGP Interest to Carmen LLC.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Withdrawal. The Parties will cause the following (the "**Closing**") to occur by

June 30, 2024, which date may be extended as mutually agreed by the Parties (the "**Closing Date**"):

(a) AHD will request and use due diligence to obtain the California Tax Credit Allocation Committee approval and any necessary lender(s)' consents to the transfer of the MGP Interest and the CGP Interest and the withdrawal of SAHA and AHD from the Partnership as soon as practicable following the execution of this Agreement.

(b) SAHA will assign its MGP Interest and Carmen LLC will assume that MGP Interest pursuant to the Assignment, Assumption, Withdrawal and Amendment of Agreement of Limited Partnership in substantially the form attached as Exhibit A to this Agreement (the "**Assignment and Amendment**").

(c) AHD will assign its CGP Interest and Carmen LLC will assume that CGP Interest pursuant to the Assignment and Amendment.

(d) Any unpaid Partnership Administration Fee, Incentive Management Fee and Property Management Fee payable by the Partnership to SAHA pursuant to the Partnership Agreement or the Fee Agreements that has accrued as of the Closing Date shall be paid in full.

2. Purchase Price. The purchase price for the MGP Interest shall be $1.00 and the purchase price for the CGP Interest shall be $1.00.

3. Property Management. The Property Management Agreement between the Partnership and SAHA will be terminated effective as of the Closing Date.

4. Taxes and Legal Fees. All transfer taxes imposed and legal fees incurred in connection with the transfer of the MGP Interest and the CGP Interest to Carmen LLC and the withdrawal of SAHA and AHD from the Partnership shall be paid by the Partnership.

5. Indemnity. From and after the Closing Date, AHD, 2095 LLC, Carmen LLC, and the Partnership (collectively, the "**Indemnifying Parties**") shall, jointly and severally, indemnify and hold SAHA and its respective officers, agents and employees harmless against from any and all claims, suits, liabilities, actions, proceedings, obligations, debts, damages, losses, expenses, fines, penalties, charges, fees, judgments, awards, and amounts paid in settlement (including reasonable attorney fees but excluding consequential, special or punitive damages) (the "**Claims**"), imposed on, incurred by, or asserted against SAHA, directly or indirectly, related to the Partnership or the Project, including all claims related to SAHA's guaranty to the limited partners of the Partnership that arise after the Closing Date.

6. Release. As of the Closing Date, the Indemnifying Parties shall remise, release and discharge SAHA from any claims of any kind whatsoever which have been or could have been asserted in connection with the Partnership or the Project, whether known or unknown, asserted or unasserted, accrued or unaccrued; provided, however, that nothing in this Section 6 shall in any way amend, modify, alter, reduce or compromise the obligations and liabilities of SAHA under this Agreement, or affect any other rights of the Indemnifying Parties herein. Each

of the Indemnifying Parties knowingly waives California Civil Code Section 1542, which provides that a general release does not extend to claims which the creditor does not know or suspect to exist in its favor at the time of executing the release, which if known to it must have materially affected its settlement with the debtor.

7. Survival. The provisions of this Agreement shall survive the Closing.

8. Representations and Warranties.

(a) SAHA represents and warrants that it has not previously assigned any portion of its MGP Interest to any other Person.

(b) AHD represents and warrants that it has not previously assigned any portion of its CGP Interest to any other Person.

9. Counterparts. This Assignment may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, when taken together, shall constitute one and the same instrument. The facsimile signature or signature sent electronically by pdf or otherwise of any Party to any counterpart shall constitute the signature of such Party for all purposes.

10. Notices, Demands, Communications. All notices, demands, requests or other communications to be sent by one party to another hereunder or required by law shall be in writing and shall be deemed to have been validly given or served by delivery of the same in person to the intended addressee, or by depositing the same with Federal Express or another reputable private courier service for next business day delivery, or by depositing the same in the United States mail, postage prepaid, registered or certified mail, return receipt requested, in any event addressed to the intended addressee and by electronic mail to the intended addressee at the e-mail address set forth below, as follows:

Such written notices, demands, and communications may be sent in the same manner to such other addresses as the affected Party may from time to time designate as provided in this Section. All notices, demands and requests shall be effective upon such personal delivery, or one (1) business day after being deposited with the private courier or three (3) business days after being deposited in the United States mail as required above. Rejection or other refusal to accept or the inability to deliver because of changed address of which no notice was given as herein required shall be deemed to be receipt of the notice, demand or request sent.

11. Section Titles. Any titles of the sections or subsections of this Agreement are inserted for convenience of reference only and shall be disregarded in interpreting any part of the Agreement's provisions.

12. Governing Law. This Agreement shall be interpreted under and pursuant to the laws of the State of California.

13. Severability. If any term of this Agreement is held in a final disposition by a court of competent jurisdiction to be invalid, then the remaining terms shall continue in full force unless the rights and obligations of the Parties have been materially altered by such holding of invalidity.

14. Attorneys' Fees. If any legal action is commenced to interpret or to enforce the terms of this Agreement or to collect damages as a result of any breach of this Agreement, then the Party or Parties prevailing in any such action shall be entitled to recover against the non-prevailing Party or Parties all reasonable attorneys' fees and costs incurred in such action.

15. Amendment; Modification. This Agreement shall not be modified or amended except by written instrument executed by and among the Parties.

FORM OF ASSIGNMENT AGREEMENT

ASSIGNMENT, ASSUMPTION, WITHDRAWAL AND AMENDMENT OF AGREEMENT OF LIMITED PARTNERSHIP (2891 CARMEN, L.P.)

This ASSIGNMENT, ASSUMPTION, WITHDRAWAL AND AMENDMENT OF AGREEMENT OF LIMITED PARTNERSHIP (the "**Agreement**") is made as of June 30, 2024 (the "**Effective Date**") by and between Satellite AHA Development Inc., a California nonprofit public benefit corporation (the "**MGP Assignor**"), Abode Housing Development (f/k/a Allied Housing, Inc.), a California nonprofit public benefit corporation (the "**CGP Assignor**"), AbodeHD 2891 Carmen, LLC, a California limited liability company (the "**Assignee**"), and Allied 2095 Evans LLC, a California limited liability company (the "**Limited Partner**"). Assignor and Assignee may be referred to collectively as the "**Parties**" and individually each as a "**Party.**"

RECITALS

A. 2891 Carmen, L.P. (the "**Partnership**") is governed by that certain First Amended and Restated Agreement of Limited Partnership dated March 28, 2007, as heretofore amended by a Transfer Agreement dated March 28, 2007, a First Amendment dated September 30, 2010; a Second Amendment dated September 20, 2010; a Third Amendment dated May 29, 2012; the IRS Amendment dated August 28, 2018; and a Fifth Amendment dated December 31, 2023 (the "**Partnership Agreement**").

B. The MGP Assignor is the managing general partner of the Partnership, the CGP Assignor is the co-general partner of the Partnership, and the Limited Partner is the sole limited partner of the Partnership.

C. MGP Assignor desires to assign all of MGP Assignor's rights, title and interest, together with all duties, obligations and responsibilities, as the managing general partner of the Partnership (the "**MGP Interest**") to Assignee, and to withdraw fully as a partner of the Partnership.

D. CGP Assignor desires to assign all of CGP Assignor's rights, title and interest, together with all duties, obligations and responsibilities, as the co-general partner of the Partnership (the "**CGP Interest**") to Assignee, and to withdraw fully as a partner of the Partnership.

E. Assignee desires to accept the assignment of the rights, title and interest and assume the duties, obligations and responsibilities of the MGP Interest and the CGP Interest and to continue as the sole general partner of the Partnership.

F. Upon the Effective Date, this Agreement constitutes an amendment to the Partnership Agreement to provide that the Assignee has been admitted as a Partner to the Partnership is the sole general partner of the Partnership.

G. Capitalized terms not defined herein shall have the meanings set forth in the Partnership Agreement, unless stated otherwise.

NOW, THEREFORE, in consideration of mutual covenants contained herein and for other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Parties hereby agree as follows:

AGREEMENT

1. Assignment. MGP Assignor hereby conveys, transfers, assigns and delivers to Assignee, AS-IS, all of its right, title and interest in and to the MGP Interest, and any other interest in the Partnership (if any) to Assignee. CGP Assignor hereby coveys, transfers, assigns and delivers to Assignee, AS-IS, all of its right, title and interest in and to the CGP Interest, and any other interest in the Partnership (if any) to the Assignee.

2. Assumption. Assignee hereby assumes, AS IS, (i) all of MGP Assignor's right, title and interest in and to the MGP Interest, and any other interest MGP Assignor may have in the Partnership, and (ii) all of CGP Assignor's right, title and interest in and to the CGP Interest, and any other interest CGP Assignor may have in the Partnership.

3. Withdrawal. MGP Assignor and CGP Assignor hereby fully withdraw from the Partnership.

4. Amendment of Partnership Agreement. This Agreement constitutes an amendment to the Partnership Agreement such that, as of the Effective Date, Assignee has been admitted as a Partner to the Partnership and is the sole general partner of the Partnership.

5. [Assignee] Representation. [Assignee] hereby represents that it has obtained the California Tax Credit Allocation Committee approval and any and all necessary lender(s)' consents to the transfers of the MGP Interest and the CGP Interest and to each of MGP Assignor's and CGP Assignor's withdrawal from the Partnership.

6. Successors and Assigns. This Assignment shall be binding upon MGP Assignor and CGP Assignor and each of their respective successors and assigns, and shall be binding upon and inure to the benefit of Assignee and its successors and assigns.

7. Governing Law. This Agreement shall be governed by the laws of the State of California.

8. Counterparts. This Assignment may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, when taken together, shall constitute one and the same instrument. The facsimile signature or signature sent electronically by pdf or otherwise of any Party to any counterpart shall constitute the signature of such Party for all purposes.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.8**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution authorizing the execution of a second amendment to the Memorandum of Understanding between the City of Livermore, Alameda County, and Livermore Sanitation, Inc. to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1 and to determine no further action under CEQA is required.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute a second amendment to the Memorandum of Understanding between the City of Livermore, Alameda County, and Livermore Sanitation, Inc. to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1 and to determine that no further action under CEQA is required.

SUMMARY

The Memorandum of Understanding (MOU) between the City of Livermore, Alameda County and Livermore Sanitation, Inc. (LSI) defines responsibilities related to the provision of solid waste, recycling, and organics services in areas of Alameda County, and allows LSI to use City of Livermore rate payer-funded assets in exchange for an annual credit to the rates charged by LSI.

In September of 2023, after the assignment of LSI to Waste Connections was approved by Alameda County, the City Council adopted a resolution authorizing the City Manager to execute the first amendment to the Memorandum of Understanding (MOU) between the City of Livermore, Alameda County and Livermore Sanitation, Inc. to recognize the assignment and redefine some County services to comply with Senate Bill (SB) 1383.

The City of Livermore has made the determination that the Second Amendment to the Memorandum of Understanding with Alameda County and Livermore Sanitation, Inc. does not constitute a project under CEQA pursuant to Section 15378(b)(5) of the State CEQA Guidelines which provides that organizational and administrative activities of governments that will not result in physical changes in the environment are not considered projects for CEQA purposes. With this determination, no further action under CEQA

is required.

The City of Livermore, Alameda County, and LSI now desire to identify the collection services more specifically within the County Collection Zone No. 1 to meet compliance with SB 1383 and modify the MOU to clarify the provision of such services. Therefore, Staff is recommending that the City Council adopt a resolution authorizing the City Manager to execute the second amendment to the MOU.

DISCUSSION

On July 1, 2010, Livermore Sanitation, Inc. (LSI) began services in the City of Livermore and shortly thereafter began services in nearby unincorporated areas of Alameda County. On November 26, 2012, the City Council approved a Memorandum of Understanding (MOU) between the City of Livermore, Alameda County and LSI to define responsibilities related to the provision of solid waste, recycling, and organics services in areas of Alameda County, and allow LSI to use City of Livermore rate payer-funded assets in exchange for an annual credit to the rates charged by LSI. This MOU is included as Exhibit P in the Third Amended and Restated Agreement (Franchise Agreement) approved by the City Council in April 2020.

In September 2016, Governor Brown signed into law the Short-lived Climate Pollutants Organic Waste Reductions law, known as Senate Bill (SB) 1383, which established aggressive targets to achieve a 50 percent reduction in the statewide disposal of organic waste. In November 2020, CalRecycle finalized the SB 1383 Regulations which established the regulatory requirements for jurisdictions and are contained in Title 14 of the California Code of Regulations. The Franchise Agreement includes programs to comply with SB 1383 regulatory changes and outlines LSI staff responsibilities and funding for required organics monitoring, reporting, and contamination reduction to demonstrate compliance.

In the fall of 2021, Livermore Sanitation, Inc. (LSI) staff notified the City that they planned to sell LSI to another company, Waste Connections, along with their holdings in San Jose and Milpitas, and parts of eastern Alameda County served by LSI. On November 28, 2022, the Livermore City Council approved the assignment of Livermore Sanitation, Inc. to Waste Connections.

On November 22, 2022, the Alameda County Board of Supervisors authorized the Interim Director of the Community Development Agency to negotiate and execute an agreement to assign the obligations of the MOU to Waste Connections.

In September of 2023, the City Council adopted a resolution authorizing the City Manager to execute the First Amendment to the Memorandum of Understanding (MOU) between the City of Livermore, Alameda County and Livermore Sanitation, Inc. to include services to eastern Alameda County to ensure County compliance with SB 1383, adding programs similar to those provided to the Livermore community as stated in Exhibit D1 of the Franchise Agreement.

City of Livermore, Alameda County, and Livermore Sanitation, Inc. now desire to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1. The proposed Second Amendment updates the MOU to include additional definitions to clarify terms related to SB 1383 compliance, specifies the implementation plan for SB 1383 compliant services, and detailing the collection services and rates for Mandatory and Optional Service Areas in the County.

The City of Livermore has made the determination that the second amendment to the Memorandum of

Understanding with Alameda County and Livermore Sanitation, Inc. does not constitute a project under CEQA pursuant to Section 15378(b)(5) of the State CEQA Guidelines, which provides that organizational and administrative activities of governments that will not result in physical changes in the environment are not considered projects for CEQA purposes. With this determination, no further action under CEQA is required.

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute the attached amendment to the MOU.

FISCAL AND ADMINISTRATIVE IMPACTS

LSI secured City approval to use assets (e.g., trucks) paid for by the ratepayers of Livermore to provide the County collection service in exchange for a credit for the use of assets. The scheduled reimbursement for Rate Year 15 (FY 2024-25) is $85,444. The credit calculation is based on the number of container "lifts" in the commercial sector and the number of accounts in the residential sector in the County area, as it relates to the number of lifts and accounts in the total service area between the City and the County. This calculation is further described by Section 6.4 of Exhibit P to the City's Franchise Agreement.

Tina Olson
Administrative Services Director

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF A SECOND AMENDMENT TO THE MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, ALAMEDA COUNTY, AND LIVERMORE SANITATION, INC. TO MODIFY PROVISIONS OF COLLECTION SERVICES FOR SOLID WASTE AND RECYCLING SERVICES

The City of Livermore ("City") and Livermore Sanitation, Inc. ("LSI") are parties to the Amended and Restated Agreement for Solid Waste, Recyclable Materials, and Compostable Materials Services dated May 9, 2011 (the "LSI Agreement") that provided services within the corporate limits of the City.

The LSI Agreement was then amended by the Third Amended and Restated Agreement for Solid Waste, Recyclable Materials, and Compostable Materials Services dated April 27, 2020, and which was further amended by a First Amendment and then on November 28, 2022, by a Second Amendment to Third Amended and Restated Franchise Agreement (collectively the "Amended LSI Agreement").

On November 26, 2012, the City Council approved a Memorandum of Understanding (MOU) to define responsibilities related to the provision of solid waste, recycling, and organics services in areas of Alameda County, and allow LSI to use City of Livermore rate payer-funded assets in exchange for an annual credit to the rates charged by LSI. This MOU is included as Exhibit P in the Amended LSI Agreement approved by the City Council in April 2020.

In the fall of 2021, LSI staff notified the City that they planned to sell LSI to another company, Waste Connections, along with their holdings in San Jose and Milpitas, and parts of eastern Alameda County served by LSI

On Nov 22, 2022, the Alameda County Board of Supervisors authorized the Interim Director of the Community Development Agency to negotiate and execute an agreement to assign the obligations of the MOU to Waste Connections.

On November 28, 2022, the Livermore City Council approved the Assignment of Livermore Sanitation, Inc. to Waste Connections.

On September 11, 2023, the Livermore City Council adopted a resolution authorizing the City Manager to execute the First Amendment to the MOU to include services to eastern Alameda County to ensure County compliance with SB 1383, adding programs similar to those provided to the Livermore community as stated in Exhibit D1 of the Franchise Agreement.

City of Livermore, Alameda County, and Livermore Sanitation, Inc. now desire to modify provisions of collection services to meet compliance with Senate Bill 1383 in the County Collection Zone 1. The proposed Second Amendment updates the MOU to include additional definitions to clarify terms related to SB 1383 compliance, specifies the implementation plan for SB 1383 compliant services, and detailing the collection services and rates for Mandatory and Optional Service Areas in the County.

The County has filed a Notice of Determination/Notice of Exemption in compliance with Section 21108 or 21152 of the Public Resources Code so that the County will prepare findings pertaining to that agency that the MOU is exempt from the California Environmental Quality Act

(CEQA) and on a separate and independent basis, the County determined this project is exempt from CEQA pursuant to Section 15308, Class 8 of the CEQA Guidelines, as it is an action that involves procedures for protecting the environment; therefore, it will not have a significant impact on the environment.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Authorizes the City Manager to execute the Second Amendment to the Memorandum of Understanding with Alameda County and Livermore Sanitation, Inc., a copy of which is attached as Exhibit A and incorporated by this reference.

   The Second Amendment to the Memorandum of Understanding with Alameda County and Livermore Sanitation, Inc. is not subject to the requirements of CEQA as it is not a "project" within the meaning of Section 15378(b)(5) of Title 14 of the California Code of Regulations ("State CEQA Guidelines") because it has no potential for resulting in direct or indirect physical change in the environment. With this determination, no further action pursuant to CEQA is required. The documents and materials that constitute the record of proceedings on which these findings have been based are located at the City Clerk's Office. The custodian for these records is the City Clerk.

2. Authorizes the City Manager to take whatever actions are necessary and appropriate to carry out the purpose and intent of this resolution, including approving minor changes to the proposed Memorandum of Understanding.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024 by the following vote:

Exhibit A – Second Amendment to the Memorandum of Understanding with Alameda County and Livermore Sanitation, Inc.

SECOND AMENDMENT TO MEMORANDUM OF UNDERSTANDING BETWEEN ALAMEDA COUNTY, LIVERMORE SANITATION, INC. AND CITY OF LIVERMORE REGARDING SOLID WASTE AND RECYCLING SERVICES

THIS SECOND AMENDMENT ("**2nd Amendment**"), is entered into by and between COUNTY OF ALAMEDA, a political subdivision of the State of California ("**County**"), LIVERMORE SANITATION, INC., a California corporation ("**LSI**"), and the CITY OF LIVERMORE, a municipal corporation (the "**City**"), (each from time to time hereafter referred to individually as a "**Party**" and collectively as the "**Parties**"), with respect to that *Memorandum Of Understanding Between The City Of Livermore, Alameda County And Livermore Sanitation, Inc. Regarding Solid Waste And Recycling Service*s dated for reference purposes as of November 6, 2012 ("**2012 MOU**"), the *1st Amendment,* dated for refence purposes September 27, 2023*,* and collectively with this 2nd Amendment ("the **MOU**").

RECITALS

This Amendment is entered into by the Parties based on the following facts, findings, and determinations:

A. Whereas, the City and LSI are parties to the *Amended and Restated Agreement for Solid Waste, Recyclable Materials, and Compostable Materials Services* dated May 9, 2011 (the "**LSI Agreement"**) that provided services within the corporate limits of the City, which was then amended by the *Third Amended and Restated Agreement For Solid Waste, Recyclable Materials, and Compostable Materials Services* (Exhibit C) dated April 27, 2020, and which was further amended by a *First Amendment* and then on November 28, 2022 by a *Second Amendment To Third Amended And Restated Franchise Agreement* (collectively the "**Amended LSI Agreement**"); and

B. Whereas, on November 6, 2012, the County granted authority to LSI to provide services for the collection of solid waste, recyclable materials, and compostable materials in County Collection Zone No. 1 and thereafter the City, LSI and the County entered into the 2012 MOU (Exhibit A) in which LSI provides services in the County Collection Zone 1 as set forth in the LSI Agreement as modified by the 2012 MOU and 2023 1st Amendment (Exhibit B); and

C. Whereas, the County Collection Zone 1 is being revised; and

D. Whereas, the County, LSI and the City desires to more specifically identify the collection services within the County Collection Zone No. 1 to meet compliance with SB 1383 and modify the MOU to clarify the provision of such services.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and obligations set forth in this Amendment, the Parties hereby agree as follows:

1. Additional Definitions.

The following additional definitions shall apply to this MOU. For purposes of this Agreement, unless a different meaning is clearly required, the following terms shall have the following meanings and be capitalized throughout this Agreement:

1.1 **Alternative Diversion Method** - means an approved Organic Material diversion activity other than weekly Curbside Collection. It can include self-haul or on-site management.

1.2 **Automatic Roll-out Period** - means the delivery of a 3-container collection system to all subscribed CCZ1 accounts in the Mandatory Service Area that lack any of the services required under SB 1383. The Automatic Roll-out period commences September 1, 2024.

1.3 **Collection Service** - means waste collection service provided by Contractor using from 1 to 3 containers and may include Trash, Recycling and Organics.

1.4 **CCZ1 Customers** - means those Customers located within County Collection Zone 1, previously referred to as County Customers (Exhibit D).

1.5 **County Fee** - means the fee paid by Contractor to County for the privilege to hold the exclusive rights granted by this Agreement.

1.6 **De Minimis Waiver** - is a Jurisdiction granted waiver for a Generator that can demonstrate that they dispose of less than the maximum weekly Organics as defined in the SLCP Regulations.

1.7 **Mandatory Service Area** - means an area where Three Container Service is required unless the generator is approved for a De Minimis Waiver or Alternate Diversion Method.

1.8 **Optional Service Area** - means an area in which Service is not mandated, however the Approved Hauler may provide service if requested by a Generator.

1.9 **Outreach** – means printed and electronic public education.

1.10 **Roll-Off Container** - means a large, metal container that is delivered and serviced with a special vehicle.

1.11 **Solid Waste Collection and Organics Waste Reduction Ordinance** - means the County SB 1383 Enforcement Ordinance 2021-48 approved by the County Board of Supervisors.

1.12 **Specialty Services –** refers to services outside of normal trash, recycling and organics services provided at the curbside, including E-Waste/U-Waste collection, Holiday Tree collection, On-Call Clean-Up Services, Bulky Item collection, and Handy Hauler Service.

1.13 **Subscribed Generator** - is any resident or business entity in County Collection Zone 1, who has subscribed for collection services from Contractor and has an active waste collection account.

1.14 **Three-Container Collection System or Service** - means SB 1383 compliant service that includes Trash, Recycling and Organics.

1.15 **Trash** - means the same as "Garbage" and is the portion of discarded Solid Waste that does not require diversion under SB 1383.

2. Scope of Services

2.1 Amendments to 2012 County/LSI/City MOU

The Memorandum of Understanding Between The City Of Livermore, Alameda County And Livermore Sanitation, Inc. Regarding Solid Waste And Recycling Services dated November 6, 2012 ("**2012 MOU**") is amended as follows:

Section 4.2 Collection Services

a) Required Services and Standards

This section is amended to clarify that only CNG vehicles will be used for County Collection.

b) Single Family Collection Services

Replace *i) Densely Populated Area* with:

Mandatory Service Area - Contractor shall provide a Three-Container Collection System (Trash, Recycling and Organics) during the Automatic Rollout Period to all Subscribed Generators within the Mandatory Service Area. In situations where the generator is approved for a De Minimis Waiver or Alternate Diversion Method, Organics service will not be required. Contractor agrees to provide weekly Collection Service to generators in the Mandatory Service Area, which is identified on the attached County Service Area Map – 2024 (Exhibit E).

Replace *ii) Rural Area* with:

Optional Service Area - Contractor may, at their option, provide Trash, Recycling, or Organics Collection Services to generators within the Optional Service Area identified on the attached County Service Area Map – 2024 (Exhibit E), if requested by a generator. Although not required, Contractor shall use reasonable efforts to provide all Specialty Services in the Optional Service Area. If Contractor declines to provide requested Collection Services to an Optional Service Area generator, then the generator may arrange or contract with another collector/hauler to provide such services and the Exclusive Rights of Contractor shall not apply.

Insert iii) Service Area Changes:

The County, in consultation with LSI, may change the designation of a parcel or parcels within CCZ1 without additional approval by the Board of Supervisors.

Section 5 Other Services

Replace *5.2 Public Education* with:

a) General

The County agrees to utilize the outreach and education materials Contractor has prepared for the City, with any modifications necessary to make them specific to the County service area(s). Most commonly, these are bill inserts and information on the Contractor's website. Residential and Commercial outreach shall include the following topics at least once annually: Organics and Recyclable material separation requirements; organic waste diversion options; impacts of organics disposal; methane reduction benefits of organics diversion; the benefit of source reduction; Recycling, and Composting; proper handling of E-Waste, U-Waste, and Hazardous Waste; Specialty Services offered by the Contractor; compliance with the County Solid Waste Collection and Organics Reduction Ordinance and SB 1383, as applicable.

b) Public Education Plan

In advance of each Rate Period, Contractor shall submit an annual Public Education Plan to the County Waste Program Manager outlining its planned public education efforts for CCZ1. The plan shall list each type of public education piece to be prepared, the purpose of the piece, the key

subject(s) to be covered, and the anticipated date of issuance. The County Contract Manager shall review and approve the plan within 2 weeks of submission.

c) County Outreach Review

LSI shall allow the County a reasonable opportunity to review, comment, request modification to, and approve all public education materials prior to printing and distribution within County Collection Service Zone No. 1, such as, but not be limited to, newsletters, flyers, door hangers, notification tags.

Section 7 Records and Reports

Replace section *7.1* with:

a) Contractor shall maintain all service records required for monitoring generator compliance in CCZ1. These service records include Service address, customer name, account type and service level data for all materials, including regularly serviced debris boxes, for each generator in CCZ1. Contractor agrees to add Parcel Numbers (APNs) to CCZ1 account data so that APNs will be included in all service record submissions.

b) Contractor shall submit service record and Route Review reports to the County Waste Program bi-annually by email, or by mail, at the following address:

By email: Waste.Program@acgov.org

By mail:

Alameda County
224 West Winton Ave, Room 111
Hayward, CA 94544
Attn: Waste Program Manager

2.3 Summary of Services to Alameda County

Contractor shall continue to provide all Collection Services, Outreach, Processing and Route Reviews to County customers as set forth in the Third Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. For Solid Waste, Recyclable Materials and Compostable Materials Services, dated April 27, 2020, except as follows:

a) Delete Section *5.5 City Facilities and Events Collection* – Not applicable to County Collection Zone 1.

b) Delete Section *5.6 Provision of Service to Schools* – Replace with:

If a public or private school in CCZ1 requests Trash, Recycling, or Organics Collection services, Contractor shall provide such services in accordance with the Collection requirements of the Mandatory Service Area. Contractor shall charge the school at Rates that do not exceed the County Customer Rates for Commercial Customers. (Exhibit F).

c) Delete Section *5.8 Abandoned Solid Waste Collection* – Not applicable to County Collection Zone 1.

d) Delete Section *5.9 Community Garage Sale Event* - Not applicable to County Collection Zone 1.

3. Contractor Compensation

3.1 General

As established in the original 2012 MOU, the Contractor's compensation for performance of all its obligations under this agreement shall be Gross Revenue. Contractor's compensation provided for in this Article shall be the full, entire and complete compensation due to Contractor pursuant to this agreement for all labor, equipment, materials and supplies, processing and disposal fees, fees due to County, Reimbursement due to the City, taxes, insurance, bonds, overhead, operations, profit and all other things necessary to perform all the services required by this agreement in the manner and at the times prescribed. If Contractor's actual costs, including fees due to County, are more than Gross Revenue, Contractor shall not be compensated for the difference in actual costs and actual Gross Revenue. If Contractor's actual costs are less than the actual Gross Revenue, Contractor shall retain the difference provided that Contractor has paid County fees pursuant to Section 8 of the 2012 MOU. Under this agreement, Contractor shall have the right and obligation to charge and collect from Customers, rates in Exhibit F for provision of services to Customers.

3.2 County Customer Rates

The initial rates charged by Contractor to County Customers in CCZ1 shall be the same rates as Contractor currently charges its customers in the City for all Collection and Specialty Services, with the exception of County Roll-off service rates, which are calculated independently. (Exhibit F). Such rates charged to County Customers shall be adjusted at the same times and in the same amounts as any adjustments in rates are approved by the City in accordance with Article 8 of the LSI Agreement so that the County rates continue to be the same as the City rates despite the differences in County service levels under this MOU.

3.4 Rate Adjustments

Upon written notice to Contractor and the City that the County wishes to adjust the rates charged to County Customers, Contractor and the County agree to meet and confer to discuss amendments to this MOU setting forth the process for the County's adjusting rates for County Customers.

4. Billing

4.1 General

Contractor shall bill County Customers in accordance with the procedures specified in the LSI Agreement with the exception that the bad debt procedures do not apply to County Customers.

4.2 Bad Debt Collection

Contractor shall be responsible for collection of payment from County Customers. When attempting to collect past-due amounts, Contractor may charge Customers with past-due amounts a late payment assessment equal to ten percent (10%) of the amount of the past due statement as part of the next billing cycle. The amount of the late payment assessment may accumulate with completion of each payment cycle if the amount is still past due. For example, after the completion of the second payment cycle for a delinquent account, the late payment amount shall equal the sum of: (1) amount of the first bill past due multiplied by ten percent (10%), (2) the product of that calculated in item 1 multiplied by ten percent (10%), and (3) the amount of the then-current bill. If payment is not received within 120 days of the billing date, Contractor will report delinquent account information to the County via email so that the County can pursue a property lien process.

4.3 Billing Inserts

Contractor shall include public education billing inserts, specific to County programs and accounts, as part of their quarterly Billing process. The billing inserts should match the content and schedule of the inserts used for City accounts.

5. County Fee and Other Fees

5.1 General

In consideration for the exclusive rights provided to Contractor by the County, and in lieu of the fees payable to the City in accordance with Article 7 of the LSI Agreement, Contractor shall pay to the County ten (10%) of the County Gross Rate Revenues collected by Contractor for services provided in CCZ1 pursuant to this MOU. The County shall use the County Fee to offset expenses including staffing costs related to County waste programs, pilot studies, education and outreach campaigns, technical assistance to Customers, reporting, compliance, enforcement, or other activities involved in compliance with SB 1383.

5.2 County Fee Remittance Dates

On or before the twentieth (20^{th}) day of each month during the term of this MOU, Contractor shall remit to the County the fees due pursuant to Section 8 of the 2012 MOU. If the fees are not paid before the twentieth (20^{th}) day any month, Contractor shall pay in addition to the amount owed to County a late payment penalty in an amount equal to two percent (2%) of the amount owing for that month. Contractor shall pay an additional two percent (2%) penalty owing on any unpaid balance for each following thirty (30) calendar days period the fees remain unpaid. Late payment penalty amounts shall not be reimbursed to Contractor. The late payment penalty amounts are not intended as interest on debt, but rather are intended as a predetermined penalty for failure to meet an obligation under this MOU.

5.3 County Fee Statements

Each monthly remittance to the County shall be accompanied by a statement detailing County Gross Rate Revenues for the period covered from all operations conducted or permitted pursuant to this MOU. This monthly statement shall identify billed revenues and actual County Gross Rate Revenues received listed separately for Single-Family, Multi-Family, Commercial, and Drop Box/Compactor County Customers. In addition, Contractor shall maintain copies of all Billing

and collection records for five (5) years, following the expiration or earlier termination of this MOU, for inspection and verification by County at any reasonable time upon request.

5.4 County Fee Increases

Any increase in this County fee shall be reflected on a dollar-for-dollar basis through an increase in Contractor rates hereunder effective as of the date of such increase.

5.5 Reimbursement Due to City

In exchange for the right to use assets financed by City ratepayers and necessary for the implementation of this MOU, including, without limitation, vehicles, Containers, personnel and administrative support, Contractor shall pay the City an annual Reimbursement for each Rate Period that Contractor provides services in County Collection Zone 1 under this MOU, pro-rated for any partial Rate Period of such service; provided, however, that the Reimbursement will be adjusted annually, by mutual agreement of the City and Contractor based upon then current County Customer data. The projected Reimbursement for Rate Year 15 (FY 2025) is $85,443.98. The Reimbursement will be paid by means of a credit against the rates charged by Contractor in the City under the LSI Agreement for such Rate Period.

6. Miscellaneous

6.1 Consistent Services. Except as expressly modified by this 2nd Amendment, all of the terms and conditions of the 2012 MOU and 1st Amendment are and remain in full force and effect. It is the intent of this 2024 Amendment that LSI provide services to County in accordance and consistent with the Amended LSI Agreement.

6.2 Authority. The City and the County agree that each has taken the appropriate steps necessary to authorize and approve this Amendment. LSI agrees that it has the authority to enter into and perform its obligations under this collective MOU.

6.3 Entire Agreement. This 2nd Amendment, the 2023 First Amendment, and the 2012 MOU, incorporating the **Amended LSI Agreement** and collectively the MOU, including all recitals, exhibits and schedules hereto, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes any and all prior or contemporaneous understandings, negotiations, representations, promises, memoranda and agreements, oral or written, by or between the Parties. No representations, inducements, promises, or agreements have been made in connection with this MOU by any Party, or anyone acting on behalf of any Party, other than those expressly set forth in this MOU.

6.4 Severability. If any term or provision of this MOU is ever determined to be invalid or unenforceable for any reason, such term or provision shall be severed from this MOU without affecting the validity or enforceability of the remainder of this MOU.

IN WITNESS WHEREOF, this SECOND AMENDMENT TO MOU has been approved by the Parties and is effective upon Execution of all Parties.

MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, ALAMEDA COUNTY AND LIVERMORE SANITATION, INC. REGARDING SOLID WASTE AND RECYCLING SERVICES

THIS MEMORANDUM OF UNDERSTANDING ("MOU"), dated for reference purposes as of November 6, 2012, is entered into by and between the CITY OF LIVERMORE, a municipal corporation (the "City"), the COUNTY OF ALAMEDA, a political subdivision of the State of California ("County"), and LIVERMORE SANITATION, INC., a California corporation ("LSI") (each from time to time hereafter referred to individually as a "Party" and collectively as the "Parties").

RECITALS

This MOU is entered into by the Parties based on the following facts, findings and determinations:

A. The City and LSI are parties to that certain Amended and Restated Agreement For Solid Waste, Recyclable Materials, and Compostable Materials Services within the corporate limits of the City dated May 9, 2011 (the "LSI Agreement").

B. County desires to have similar collection services provided within the unincorporated areas surrounding the City, and the City desires to assist the County by modifying the LSI Agreement in accordance with the terms of this MOU to allow LSI to provide such services within certain designated portions of the unincorporated area of the County.

C. Pursuant to Section 6.40.280 of the County General Ordinance Code, the County Board of Supervisors may establish County Collection Service Zones for the Collection of Solid Waste, Compostable Materials, and Recyclable Materials. On November 6, 2012, the County Board of Supervisors established County Collection Service Zone 1, which is shown on the map attached as Exhibit A.

D. Section 6.40.290 of the County General Ordinance Code authorizes the Board of Supervisors to enter into franchise agreements, grant permits, or otherwise give authorization for the Collection of Solid Waste, Compostable Materials, and Recyclable Materials within a County Collection Service Zone. On November 6, 2012, the County Board of Supervisors granted authority to LSI to provide services for the Collection of Solid Waste, Compostable Materials, and Recyclable Materials within County Collection Service Zone No. 1, and provided that the specific scope, nature, and requirements of such services to be provided by LSI shall be as set forth in the LSI Agreement, as modified by this MOU.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and obligations set forth in this MOU, the Parties hereby agree as follows:

1. Definitions. For purposes of this MOU, unless a different meaning is clearly required, the following terms have the following meanings and shall be capitalized throughout this MOU. Capitalized terms not defined in this section shall the meanings set forth in the LSI Agreement.

1.1 "County Collection Zone No. 1" means that certain area within the unincorporated area of the County, shown on the map attached as Exhibit A, established by the County Board of Supervisors pursuant to Section 6.40.290 of the County General Ordinance Code, which requires authorization from the County for the Collection of Solid Waste, Compostable Materials, and Recyclable Materials.

1.2 "County Customers" means those Customers located within County Collection Zone No. 1.

1.3 "County Gross Rate Revenues" means actual monies remitted to LSI by County Customers, which shall be determined in accordance with Generally Accepted Accounting Principles.

1.4 "Densely Populated Area" means that certain area within County Collection Zone No. 1 that is located close to the City's incorporated area, as shown and set forth in Exhibit A.

1.5 "Rural Area" means that certain area within County Collection Zone No. 1 that is located farther from the City limits, as set shown and set forth in Exhibit A.

2. Term.

2.1 Effective Date. The Effective Date of this MOU shall be the date that the City, the County and LSI sign this MOU, following approval of the City Council and the Board of Supervisors.

2.2 Term. The term of this MOU shall be the from the Effective Date until the date that is the earlier of (a) the end of the Term of the LSI Agreement; (b) the date that the LSI Agreement is terminated in accordance with Section 11.3 of the LSI Agreement; (c) the date this MOU is terminated pursuant to Section 2.3 below; or (d) the date that this MOU is terminated pursuant to Section 10 below.

2.3 Termination by Livermore. City may terminate this MOU in the event the City determines, in its sole discretion, that it cannot continue to authorize LSI to utilize assets financed by City ratepayers and necessary for the implementation of this MOU in accordance with Section 6.4(b) below. City agrees to provide a minimum of 90 days' notice of such termination to the County and LSI.

3. Amendment of LSI Agreement. Concurrently with the execution of this MOU, and in accordance with Section 6.18 of the LSI Agreement, the City hereby consents to LSI's providing services to County Customers in County Collection Service Zone 1, on the terms and conditions as set forth in this MOU irrespective of the terms of service in such Section 6.18, and waives any time periods set forth in such Section 6.18. The City further agrees to formally incorporate the provisions of this MOU in the LSI Agreement when the LSI Agreement is next amended or restated.

4. Scope of Services.

4.1 Exclusive Rights. Pursuant to County General Ordinance Code Section 6.40.290, and County Board of Supervisors Resolution No. _____, the County Board of Supervisors has granted to LSI the exclusive right to provide Solid Waste, Recyclable Materials, and Compostable Materials Collection services to Single-Family, Multi-Family, and Commercial Customers that voluntarily subscribe to Collection service in the County Collection Service Zone No. 1 commencing on January 8, 2013 (the "Commencement Date"). LSI's scope of services shall include the Collection, transfer, Transportation, Processing, Recycling, Composting, and/or Disposal of Solid Waste, Recyclable Materials, and Compostable Materials, as described in Section 4.2. The rights granted by the County extend only to provision of service in the County Service Area No. 1, described in Exhibit A, as its boundaries are now constituted or as may hereafter be amended by the Board of Supervisors and Section 11.1 of this MOU. LSI's exclusive rights shall extend to Solid Waste, Recyclable Materials, and Compostable Materials that have been placed in Containers provided by LSI. LSI's rights are exclusive as set forth above, except as to the following persons, who are not required to obtain authorization from the County for collection of Solid Waste or Recyclable Materials within a County Collection Service Zone pursuant to Article IV of Chapter 6.40 of Title 6 of the County Ordinance Code:

(a) The County;

(b) A commercial business owner or resident removing solid waste, recyclable materials, or compostable materials generated from his or her premises and transported personally by the owner or occupant of such premises, or by his or her employees or contractor whose removal of the solid waste, recyclable materials or compostable materials is incidental to the service being performed and provided such materials are processed, or disposed of at a facility permitted to accept such materials;

(c) Youth, civic, or charitable organizations which collect or accept donated recyclable materials and compostable materials;

(d) Persons that collect or accept donated Recyclable Materials, or pay the generator for the collection of Recyclable Materials and Compostable Materials;

(e) Persons delivering Recyclable Materials for recycling under the California Beverage Containers Recycling Litter Reduction Act (California Public Resources Code Section 14500 et seq.);

(f) A gardening, landscaping or tree-trimming contractor removing Compostable Materials from a premises as an incidental part of total service offered by that contractor for no additional or separate fee;

(g) Persons that have contracted for the collection of Solid Waste, Compostable Materials, or Recyclable Materials generated by a public school or County facilities;

(h) Persons collecting Solid Waste, Recyclable Materials, or Compostable Materials where such materials are removed as part of the abatement of a public nuisance or dangerous condition at the direction of the County;

(i) Persons collecting Construction and Demolition Debris resulting from a construction or demolition project; provided, however, that, subject to the County's amendment of its relevant Ordinance, which the County undertakes to use its best efforts to accomplish prior to the Commencement Date, this exception to LSI's exclusive rights shall be limited as of the Commencement Date to licensed construction or demolition contractors removing Construction and Demolition Debris from any Premises using their own employees and equipment as an incidental part of a comprehensive service offered by such contractors, rather than as a hauling service, and provided that such Debris is processed, or disposed of, at a facility permitted to accept such Debris;

(j) Persons collecting, removing or disposing the following:

(i) Animal waste and remains from slaughterhouse or butcher shops, grease, or used cooking oil;

(ii) By-products of sewage treatment, including , sludge ash, grit and screenings;

(iii) Hazardous or dangerous materials; liquid and dry caustics; acids; bio-hazardous, flammable and explosive materials; insecticides; and similar substances;

(iv) Infectious medical waste (as defined in California Health and Safety Code Section 25117.5).

4.2 Collection Services.

(a) Required Services and Standards. Starting on the Commencement Date, LSI shall offer Solid Waste, Compostable Materials and Single-Stream Recyclable Materials Collection services to County Customers in County Collection Service Zone No. 1 in accordance with the LSI Agreement as modified by this MOU and as more specifically set forth below in this Section 4.2, and shall provide service to those County Customers that voluntarily subscribe to and pay for LSI's Collection services. In providing such services, LSI shall comply with the provisions stated in the LSI Agreement for the following:

(i) Collection standards,

(ii) Vehicles,

(iii) Containers,

(iv) Personnel, and

(v) Corporation yard, transfer operations, and compressed natural gas station.

(b) Single Family Collection Services. LSI shall have different obligations for Single Family Collection Services in the Densely Populated Area and in the Rural Area, as set forth below.

(i) Densely Populated Area. For Single-Family Customers located in the Densely-Populated Area that subscribe to LSI's Collection service, LSI shall provide each Customer weekly Solid Waste, Single-Stream Recyclables Materials, and Compostable Materials Cart Collection services. LSI's services shall also include: on-call Curbside clean-up services, on-call Bulky Item collection, weekly motor oil and filter Collection, quarterly textile Collection, provision of kitchen pails, Compostable Materials overages program, Curbside Christmas tree Collection, on-call E-Waste Collection, and weekly cell phone and household battery Collection. LSI may, but is not obligated to offer, the community re-use network and other services specified in the LSI Agreement that are not listed here as requirements for the Customers in the Densely-Populated Area. All of these services shall be provided by the LSI in accordance with the provisions specified for the Single-Family Customers in the LSI Agreement. These Single-Family Customers need not subscribe to all of these Collection services, but all are included in their rates.

(ii) Rural Area.

(A) Solid Waste Collection Services. For Single-Family Customers located in the Rural Area that subscribe to LSI's Collection service, LSI shall provide each Customer weekly Solid Waste Cart Collection services.

(B) Single-Stream Recyclables Collection Services. LSI shall also Collect Single-Stream Recyclable Materials on a weekly basis from Single-Family Customers located in the Rural Area that subscribe to Solid Waste Cart Collection service. The Single-Stream Recyclable Materials Collection service may be performed in a manner different than that used to service Customers in the Densely-Populated Area. LSI shall instruct Customers to place Single-Stream Recyclable Materials in a bag and to place the bag to the side of the Solid Waste cart for collection. LSI shall ensure that the Solid Waste and bagged Recyclable Materials are kept separate and shall ensure that the Solid Waste is disposed of at a designated landfill. Pursuant to the terms of Site Plan Approval

Amendment (SPAA) 09-006, LSI shall first dispose of any Solid Waste collected in County Service Area No. 1 at the Disposal Site and shall then transport the Recyclable Materials to LSI's facility for further handling and transfer.

(C) Other Services Not Required. For the Rural Area Single-Family Customers, LSI is not obligated to provide the following services: on-call Curbside clean-up services, on-call Bulky Item collection, motor oil and filter Collection, quarterly textile Collection, provision of kitchen pails, Collection of Compostable Materials, and Curbside Christmas tree Collection, e-waste collection, weekly cell phone and battery collection.

(iii) Single-Family Bin Service. LSI shall offer Single-Family Customers Bin Collection service for Solid Waste at Customer's option. In such case, the Customer shall be treated as a Commercial Customer in accordance with Section 4.2(c) below.

(c) Multi Family and Commercial Collection Services. LSI shall offer Solid Waste and Single-Stream Recyclables Collection services to all Multi-Family and Commercial Premises in the County Collection Service Zone No. 1, and Compostable Materials Collection services to Commercial Customers. LSI shall offer Multi-Family and Commercial Premises a variety of service options including the use of Carts, Bins, Drop Boxes, or Compactors for Solid Waste and Single-Stream Recyclable Materials Collection. LSI shall provide these Collection services in accordance with the provisions specified for the Multi-Family and Commercial Customers in the LSI Agreement with the exception that LSI may, but is not obligated to, provide the following services: "Universal Recycling," internal recycling bins for Commercial Customers, Compostable Materials Collection service to Multi-Family Customers, and/or technical assistance.

4.3 Transportation of Collected Materials. LSI shall Transport all Solid Waste, Recyclable Materials, and Compostable Materials Collected under this MOU to the Disposal, Processing, or Composting Sites approved by the City pursuant to the LSI Agreement.

4.4 Disposal and Processing of Collected Materials.

(a) Processing. LSI shall provide Recyclable Materials and Compostable Materials Processing Services and Solid Waste Disposal Services in accordance with the provisions specified for the City in the LSI Agreement. LSI shall guarantee Processing and Disposal capacity over the Term of the MOU for all Recyclable Materials, Compostable Materials, and Solid Waste Collected in County Collection Service Zone No. 1. The capacity guarantee shall be made by LSI and/or by its affiliates or its Subcontractors if LSI does not own and operate the Processing and Disposal Sites.

(b) Disposal. With regard to Disposal Services, either LSI shall enter into an agreement, or the City shall amend its existing disposal agreement, with Republic Services Vasco Road, LLC, a wholly-owned subsidiary of Republic Services, Inc., to arrange for Disposal of the Solid Waste Collected in County Collection Service Zone No. 1 at the Vasco Road Sanitary Landfill, located at 4001 North Vasco Road in unincorporated Alameda County, California. The terms of the new LSI Disposal agreement or of the amended City Disposal agreement shall be similar in nature to the City's current Disposal Agreement with Republic Services Vasco Road, LLC, and shall specify that the Disposal cost for Solid Waste from County Collection Service Zone No. 1 will be the same Disposal cost as that for Solid Waste from the City. In addition, the new or amended Disposal agreement between LSI or the City and Republic Services Vasco Road, LLC shall specify that the County is indemnified in the same manner as the City. Upon request, LSI or the City shall provide the County with a copy of the new or amended Disposal agreement for review.

5. Other Services

5.1 Customer Service and Complaints. LSI shall provide customer service to County Customers and respond to service complaints in accordance with the procedures specified in the LSI Agreement. To the extent that LSI is unable to resolve a complaint from a County Customer, such complaints shall be elevated to staff within the County's Community Development Agency, and the City shall have no responsibility or obligation to provide customer service or resolve complaints of County Customers.

5.2 Public Education

(a) At a minimum, LSI shall prepare and distribute a service information brochure to new Customers describing how to prepare Solid Waste, Recyclable Materials, and Compostable Materials for Collection. The brochure shall inform Customers as to the acceptable materials that can be included for Collection and any unacceptable materials to be excluded from Collection.

(b) On an annual basis on or before July 1 of each year, LSI shall notify Multi-Family and Commercial County Customers that are not in compliance with State or local recycling requirements including the State's mandatory commercial recycling requirements (Chapter 476, Statutes of 2011 [Chesbro, AB 341]) and the Alameda County Waste Management Authority Ordinance 2012-1, "An Ordinance requiring actions to Reduce Landfilling of Recyclable and Organic Solid Wastes from Businesses, Multi-Family Residences, and Self Haulers." Such notification shall describe the recycling requirements and how the Customer can comply with such requirements.

(c) LSI shall allow the County a reasonable opportunity to review, comment, request modification to, and approve public education materials before printing, publication, distribution, and/or release, including public education materials required by Sections 5.2(a) and (b), and any other materials LSI chooses to prepare and distribute within County Collection Service Zone No. 1, such as, but not be limited to, newsletters, flyers, door hangers, notification tags, and direct contact.

6. Billing and Rates.

6.1 General. Contractor shall bill County Customers in accordance with the procedures specified in the LSI Agreement with the exception that the bad debt procedures do not apply to County Customers.

6.2 Bad Debt Collection. LSI shall be responsible for collection of payment from County Customers with past due accounts ("bad debt"). If payment is not received within 30 days of the billing date, LSI may discontinue service. When LSI is attempting to collect past-due amounts, LSI may charge Customers with past-due amounts a late payment assessment equal to ten percent (10%) of the amount of the past due statement as part of the next billing cycle. The amount of the late payment assessment may accumulate with completion of each payment cycle if the amount is still past due. For example, after the completion of the second payment cycle for a delinquent account, the late payment amount shall equal the sum of: (1) amount of the first bill past due multiplied by ten percent (10%), (2) the product of that calculated in item 1 multiplied by ten percent (10%), and (3) the amount of the then-current bill.

6.3 Billing Inserts. LSI shall include County-prepared public education materials as inserts in LSI's quarterly Billings, which LSI mails to Customers provided County pays for and delivers to LSI copies of all printed materials to be inserted into the bills. County shall allow LSI a reasonable opportunity to review public education materials and request modifications to materials to clarify

operational practices before printing, publication, and distribution in LSI's billing statements. County's inserts shall state that the information contained therein is the position of County and not necessarily that of LSI.

6.4 Rates; City Credit.

(a) The initial rates charged by LSI to County Customers shall be as set forth in the attached Exhibit B, which, except as to Single-Family Customers located in the Rural Area, contains the same rates as LSI currently charges its customers in the City for the Collection of Solid Waste despite the differences in County service levels set forth in this MOU. Such rates charged to County Customers shall be adjusted at the same times and in the same amounts as any adjustments in rates are approved by the City in accordance with Article 8 of the LSI Agreement so that the County rates continue to be the same as the City rates despite the differences in County service levels under this MOU; provided, however, that each of such rates charged to Single-Family Customers located in the Rural Area shall be adjusted at the same times and by the same percentage amounts as the most comparable corresponding rate by service level approved by the City in accordance with Article 8 of the LSI Agreement.

(b) In exchange for the right to use assets financed by City ratepayers and necessary for the implementation of this MOU, including, without limitation, vehicles, Containers, personnel and administrative support, LSI shall pay the City an annual amount of $46,191.67 for each Rate Period that LSI provides services in County Collection Service Zone No. 1 under this MOU, pro rated for any partial Rate Period of such service (the "Reimbursement"); provided, however, that the Reimbursement will be adjusted annually, commencing July 1, 2013, by mutual agreement of the City and LSI based upon then current County Customer data and Exhibit D attached hereto. The Reimbursement will be paid by means of a credit against the rates charged by LSI in the City under the LSI Agreement for such Rate Period

(c) Upon written notice to LSI and the City that the County wishes to adjust the rates charged to County Customers, LSI and the County agree to meet and confer to discuss amendments to this MOU setting forth the process for the County's adjusting rates for County Customers. Unless and until this MOU is amended to provide for such separate rate setting for County Customers, LSI shall continue to charge rates as set forth in Section 6.4(a).

7. Records and Reports.

7.1 LSI shall maintain all records and prepare all reports as required pursuant to the LSI Agreement. All such records and reports shall separately track information related to County Collection Service Zone No. 1. All reports LSI is required to submit to the City pursuant to the LSI Agreement shall also be submitted to the County at the following address:

Alameda County Community Development Agency
224 West Winton Ave, Room 110
Hayward, CA 94544
Attn: Community Development Director

7.2 To the same extent that the City may inspect the records of LSI pursuant to the LSI Agreement, the County may inspect LSI's records that relate to the services provided by LSI for County Collection Service Zone No. 1.

8. County Fees.

8.1 In consideration for the exclusive rights provided to LSI by the County, and in lieu of the fees payable to the City in accordance with Article 7 of the LSI Agreement, LSI shall pay to the County ten percent (10%) of the County Gross Rate Revenues collected by LSI for services provided pursuant to this MOU. Any increase in this County fee shall be reflected on a dollar-for-dollar basis through an increase in LSI's rates hereunder effective as of the date of such increase.

8.2 On or before the twentieth (20^{th}) day of the each month during the term of this MOU, LSI shall remit to the County the fees due pursuant to Section 8.1. If the fees are not paid before the twentieth (20^{th}) day any month, LSI shall pay in addition to the amount owed to County a late payment penalty in an amount equal to two percent (2%) of the amount owing for that month. LSI shall pay an additional two percent (2%) penalty owing on any unpaid balance for each following thirty (30) calendar days period the fees remain unpaid. Late payment penalty amounts shall not be reimbursed to LSI. The late payment penalty amounts are not intended as interest on debt, but rather are intended as a predetermined penalty for failure to meet an obligation under this MOU.

Each monthly remittance to the County shall be accompanied by a statement detailing County Gross Rate Revenues for the period covered from all operations conducted or permitted pursuant to this MOU. This monthly statement shall identify billed revenues and actual County Gross Rate Revenues received listed separately for Single-Family, Multi-Family, Commercial, and Drop Box/Compactor County Customers. In addition, LSI shall maintain copies of all Billing and collection records for five (5) years, following the expiration or earlier termination of this MOU, for inspection and verification by County at any reasonable time upon request.

9. Indemnity and Insurance.

9.1 LSI shall indemnify, defend, protect and hold harmless the County, its officers, employees, volunteers, and agents with respect to LSI's services under this MOU to the same extent that LSI indemnifies the City, its officers, employees, volunteers and agents pursuant to Article 9 of the LSI Agreement.

9.2 The County, its officials, employees and volunteers are to be covered as additional insureds with respect to LSI's services under this MOU to the same extent as the City, its officers, employees, volunteers and agents pursuant to Article 9 of the LSI Agreement.

10. Default and Remedies. The provisions in this Section 10 shall apply to LSI's services under this MOU in lieu of the provisions in Article 11 of the LSI Agreement.

10.1 LSI Events of Default. Each of the following shall constitute an event of default by LSI under this MOU:

(a) Any representation, warranty, or disclosure made to County by LSI in connection with or as an inducement to entering into this MOU or any future amendment to this MOU, which proves to be false or misleading in any material respect as of the time such representation or disclosure is made, whether or not any such representation, warranty, or disclosure appears as part of this MOU;

(b) There is a seizure or attachment (other than a pre-judgment attachment) of, or levy affecting possession on, the operating equipment of LSI, including without limit its vehicles, maintenance or office facilities, or any part thereof of such proportion as to substantially impair LSI

ability to perform under this MOU and which cannot be released, bonded, or otherwise lifted within forty-eight (48) hours excluding weekends and Holidays;

(c) LSI files a voluntary petition for debt relief under any applicable bankruptcy, insolvency or other similar law;

(d) An involuntary petition is brought against LSI under any bankruptcy, insolvency, or similar law, which remains undismissed or unstayed for ninety (90) days;

(e) LSI fails to provide reasonable assurances of performance as required under Section 10.8 below;

(f) LSI fails to perform any other obligation established under this MOU;

(g) LSI fails to perform any obligation established under the LSI Agreement which impacts the services or relates to the services LSI is providing to County Customers.

10.2 LSI's Rights to Remedy Default.

LSI shall be given ten (10) calendar days from written notification by County to cure any event of default which, in the County's sole opinion, creates a potential public health and safety threat.

LSI shall be given ten (10) calendar days from written notification by County to cure any event of default arising under section 10.2(c)(d) or (e); provided, however, that the County shall not be obligated to provide LSI with a notice and cure opportunity if LSI has committed the same or similar default within a twenty-four (24) month period

LSI shall be given thirty (30) calendar days from written notification by County to cure any other event of default (which is not required to be cured within tem (10) calendar days); provided, however, that the County shall not be obligated to provide LSI with a notice and cure opportunity if LSI has committed the same or similar default within a twenty-four (24) month period.

10.3 County's Remedies in the Event of Default. The County has the following remedies in the event of LSI's default:

(a) Waiver of Default. The County may waive any event of default or may waive LSI's requirement to cure a default event if the County determines that such waiver would be in the best interest of the County. The County's waiver of an event of default is not a waiver of future events of default that may have the same or similar conditions.

(b) Suspension of LSI's Obligation. The County may suspend LSI's performance of its obligations if LSI fails to cure default in the time frame specified in Sections 10.2 and 10.3(d) until such time the LSI can provide assurance of performance in accordance with Section 10.8.

(c) Liquidated Damages. The County may assess Liquidated Damages for LSI's failure to meet specific performance standards pursuant to Section 10.6 and Exhibit C. Each of the County and the City will promptly notify the other of any Liquidated Damages assessed by that Party under this MOU or the LSI Agreement, as the case may be.

(d) Termination. In the event that LSI should default and subject to the right of LSI to cure, in the performance of any provisions of this MOU, and the default is not cured within ten (10) calendar days if the default creates a potential public health and safety threat or arises under Section

10.1(c)(d) or (e), or otherwise thirty (30) calendar days after receipt of written notice of default from the County, then the County may, at its option, terminate this MOU and/or hold a hearing at its Board of Supervisors meeting to determine whether this MOU should be terminated. In the event the County decides to terminate this MOU, the County shall serve twenty (20) calendar days' written notice of its intention to terminate upon LSI. In the event the County exercises its right to terminate this MOU, the County may, at its option, upon such termination, either directly undertake performance of the services or arrange with other Persons to perform the services with or without a written agreement. This right of termination is in addition to any other rights of the County upon a failure of LSI to perform its obligations under this MOU.

LSI shall not be entitled to any further revenues from Collection operations authorized hereunder and conducted from and after the date of termination.

10.4 Possession of Records Upon Termination. In the event of termination for an event of default, the LSI shall furnish the County with a list of LSI's Customers and billing of accounts for Collection services subject to this MOU.

10.5 County's Remedies Cumulative; Specific Performance. The County's rights to terminate the MOU under Section 10.3 and to take possession of the LSI's records under Section 10.4 are not exclusive, and the County's termination of the MOU and/or the imposition of Liquidated Damages shall not constitute an election of remedies. Instead, these rights shall be in addition to any and all other legal and equitable rights and remedies which the County may have.

By virtue of the nature of this MOU, the urgency of timely, continuous and high quality service, the lead time required to effect alternative service, and the rights granted by County to LSI, the remedy of damages for a breach hereof by LSI is inadequate and County shall be entitled to injunctive relief (including but not limited to specific performance).

10.6 Liquidated Damages.

(a) General. The County and LSI find that as of the time of the execution of this MOU, it is impractical, if not impossible, to reasonably ascertain the extent of damages which shall be incurred by County as a result of a breach by LSI of its obligations under this MOU. The factors relating to the impracticability of ascertaining damages include, but are not limited to, the fact that: (i) damage results to members of the public who are denied services or denied quality or reliable service; (ii) such breaches cause inconvenience, anxiety, frustration, and deprivation of the benefits of the MOU to individual members of the general public for whose benefit this MOU exists, in subjective ways and in varying degrees of intensity which are incapable of measurement in precise monetary terms; and (iii) the termination of this MOU for such breaches, and other remedies are, at best, a means of future correction and not remedies which make the public whole for past breaches.

(b) Service Performance Standards; Liquidated Damages for Failure to Meet Standards. The County and LSI further acknowledge that consistent, reliable Collection services are of utmost importance to County and that County has considered and relied on LSI's representations as to its quality of service commitment in awarding the exclusive rights under this MOU. The County and LSI recognize that some quantified standards of performance are necessary and appropriate to ensure consistent and reliable service and performance. The County and LSI further recognize that if LSI fails to achieve the performance standards, or fails to submit required documents in a timely manner, County and its residents and businesses may suffer damages, and that it is, and will be, impractical and extremely difficult to ascertain and determine the exact amount of damages which County will suffer. Therefore, without prejudice to County's right to treat such non-performance as an event of default under this Section, the Parties agree that the Liquidated Damages amounts established in Exhibit C of this MOU and

the following liquidated damage amounts represent a reasonable estimate of the amount of such damages considering all of the circumstances existing on the Effective Date of this MOU, including the relationship of the sums to the range of harm to County that reasonably could be anticipated and the anticipation that proof of actual damages would be costly or impractical.

LSI agrees to pay the amounts set forth in the Schedule of Liquidated Damages, Exhibit C.

Before assessing Liquidated Damages, County shall give LSI notice of its intention to do so. Liquidated Damages will only be assessed after LSI has been given the opportunity but failed to rectify the damages as described in this MOU. The notice will include a brief description of the incident(s) and non-performance. The County may review (and make copies at its own expense) information in the possession of LSI relating to incident(s) and/or non-performance. County may, within ten (10) calendar days after issuing the notice, request a meeting with LSI. County may present evidence of non-performance in writing and through testimony of its employees and others relevant to the incident(s) and non-performance. County will provide LSI with a written explanation of his or her determination on each incident(s) and non-performance prior to authorizing the assessment of Liquidated Damages under this Section 10.6. The decision of County shall be final and LSI shall not be subject to, or required to exhaust, any further administrative remedies.

(c) Amount. County may assess Liquidated Damages for each calendar day or event, as appropriate, that LSI is determined to be liable in accordance with this MOU in the amounts specified in Exhibit C.

(d) Timing of Payment. LSI shall pay any Liquidated Damages assessed by County within ten (10) calendar days of the date the Liquidated Damages are assessed.

10.7 Excuse from Performance.

Each Party shall be excused from performing its respective obligations hereunder and from any obligation to pay Liquidated Damages if it is prevented from so performing by reason of floods, earthquakes, other acts of nature, war, civil insurrection, riots, labor unrest, acts of any government (including judicial action), and other similar catastrophic events which are beyond the control of and not the fault of the Party claiming excuse from performance hereunder. Labor unrest, including but not limited to strike, work stoppage or slowdown, sick-out, picketing, or other concerted job action conducted by LSI's employees or directed at LSI is not an excuse from performance. In the event of such labor unrest, LSI shall submit a written plan to the County within forty-eight (48) hours of the labor unrest describing LSI's plan to be obligated to continue to provide service notwithstanding the occurrence of any or all of such events explaining how Collection services shall be modified or adjusted in terms of Collection hours, Collection days, staffing, etc.

In the case of labor unrest or job action directed at a third party over whom LSI has no control, the inability of LSI to provide services in accordance with this MOU due to the unwillingness or failure of the third party to (i) provide reasonable assurance of the safety of LSI's employees while providing such services, or (ii) make reasonable accommodations with respect to Container placement and point of Delivery, time of Collection, or other operating circumstances to minimize any confrontation with pickets or the number of persons necessary to make Collections shall, to that limited extent, excuse performance. The foregoing excuse shall be conditioned on LSI's cooperation in performing Collection services at different times and in different locations.

The Party claiming excuse from performance shall, within five (5) calendar days after such Party has notice of such cause, give the other Party notice of the facts constituting such cause and asserting its claim to excuse under this Section.

If either Party validly exercises its rights under this Section, the Parties hereby waive any claim against each other for any damages sustained thereby.

The partial or complete interruption or discontinuance of LSI's services caused by one (1) or more of the events described in this Section shall not constitute an event of default by LSI under this MOU. Notwithstanding the foregoing, however, if LSI is excused from performing its obligations for any of the causes listed in this Section for a period of thirty (30) calendar days or more, the County shall nevertheless have the right, in its sole discretion, to terminate this MOU by giving ten (10) calendar days' written notice to LSI, in which case the provisions of Section 10.3 shall apply.

10.8 Right to Demand Assurances of Performance.

The Parties acknowledge that it is of the utmost importance to the County and the health and safety of all those members of the public residing or doing business within the County who will be adversely affected by interrupted waste management service, that there be no material interruption in LSI's waste management services it provides to the County and its residents and businesses. If LSI (i) is the subject of any labor unrest including work stoppage or slowdown, sick-out, picketing or other concerted job action; (ii) appears in the reasonable judgment of County to be unable to regularly pay its bills as they become due; or (iii) is the subject of a civil or criminal judgment or order entered by a Federal, State, regional or local agency for violation of an Applicable Law, and the County believes in good faith that LSI's ability to perform under this MOU has thereby been placed in substantial jeopardy, the County may, at its option and in addition to all other remedies it may have, demand from LSI reasonable assurances of timely and proper performance of this MOU, in such form and substance as the County believes in good faith is reasonably necessary in the circumstances to evidence continued ability to perform under this MOU. If LSI fails or refuses to provide satisfactory assurances of timely and proper performance in the form and by the date required by County, such failure or refusal shall be an event of default for purposes of Section 10.1.

11. Amendments

11.1 This MOU may be amended, modified or supplemented only by a writing signed by the City, the County, and LSI. If the County Board of Supervisors changes the boundaries of County Collection Service Zone No. 1, the Parties agree to meet to discuss whether this MOU shall be amended to reflect the new boundaries.

11.2 If the City and LSI amend the LSI Agreement in any manner that may impact the services provided by LSI in County Collection Service Zone No. 1, then the Parties agree to meet and confer for the purpose of amending this MOU consistent with the amendment to the LSI Agreement.

12. Miscellaneous

12.1 Authority. The City and the County agree that each has taken the appropriate steps necessary to authorize and approve this MOU. The City Council took action at its meeting on _____, and approved the terms and conditions of this MOU, and authorized execution of this final MOU. The County Board of Supervisors took action at its meeting on November 6, 2012, and approved the terms and conditions of this MOU and authorized execution of the final MOU. LSI agrees that it has the authority to enter into and perform it obligations under this MOU.

12.2 Assignment.

No Party shall assign its rights nor delegate or otherwise transfer its obligations under this MOU to any other Person without the prior written consent of the other Parties, which permission shall not be

unreasonably withheld. Any such assignment made without the consent of the other Parties shall be void and the attempted assignment shall constitute a material breach of this MOU.

For purposes of this Section, "assignment" shall include, but not be limited to: (i) a sale, exchange or other transfer of substantially all of LSI's assets dedicated to service under this MOU to a third party; (ii) a sale, exchange or other transfer of ten (10) percent or more of the outstanding common stock of LSI; (iii) any reorganization, consolidation, merger, recapitalization, stock issuance or re-issuance, voting trust, pooling agreement, escrow arrangement, liquidation or other transaction to which LSI or any of its shareholders is a party which results in a change of ownership or control of thirty (30) percent or more of the value or voting rights in the stock of LSI; and, (iv) any combination of the foregoing (whether or not in related, contemporaneous or sequential transactions) which has the effect of any such transfer or change of ownership and/or control of LSI. For purposes of this Section, the term "proposed assignee" shall refer to the proposed transferee(s) or other successor(s) in interest pursuant to the assignment. Assignment may exclude a change in ownership of LSI's assets or stocks which occurs for interfamilial planning purposes only and does not involve a change in the management of the Agreement or services performed hereunder. Reorganizations, mergers, consolidations, sales of equity or assets or similar transactions between or among entities owned by the same ultimate parent, including but not limited to LSI and regardless of which entity is the survivor, do not constitute an assignment; however, LSI shall provide the County with thirty (30) days written notification of its plans and provide an explanation of any potential impacts related to the provision of services under this Agreement.

If LSI requests the County's consideration of and consent to an assignment, the County may deny or approve such request in its sole discretion, the standard for the County's consent to any assignment shall be whether LSI (or, if applicable, a new entity succeeding to the rights, duties and obligations of LSI under this MOU), after the assignment, has sufficient financial and operational capability to adequately and faithfully render the services called for in this MOU for the remaining Term of this MOU. In no event shall the County's consent be unreasonably withheld, conditioned or delayed. LSI shall undertake to pay the County its reasonable expenses for attorneys' fees and investigation costs necessary to investigate the suitability of any proposed assignee, and to review and finalize any documentation required as a condition for approving any such assignment.

12.3 Notices. All notices and other communications under this MOU shall be in writing and shall either be personally delivered to a representative of the Parties at the address below or deposited in the United States mail, first class postage prepaid, addressed as follows. Any Party may change its address for notices by giving written notice to the other Parties in the manner set forth above.

If to County:	Alameda County Community Development Agency 224 West Winton Ave, Room 110 Hayward, CA 94544 Attn: Community Development Director
With Copy to:	Office of the County Counsel County of Alameda 1221 Oak Street, Suite 450 Oakland, CA 94612
If to City:	City of Livermore City Clerk 1052 S. Livermore Ave. Livermore, CA 94550

With a Copy to:	City of Livermore Public Works Department 3500 Robertson Park Road Livermore, CA 94550 Attn: Judy Erlandson
If to LSI:	Livermore Sanitation, Inc. 7000 National Drive Livermore, CA 94550 Attn: Louis Pellegrini, President
With Copy to:	Cohen & Ostler, APC 455 N. Whisman Road, Suite 100 Mountain View, CA 94043 Attn: David Cohen

12.4 Entire Agreement. This MOU, including all recitals, exhibits and schedules hereto and the LSI Agreement as modified hereby, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes any and all prior or contemporaneous understandings, negotiations, representations, promises, memoranda and agreements, oral or written, by or between the Parties, with respect to the subject matter hereof. No representations, inducements, promises, or agreements have been made in connection with this MOU by any Party, or anyone acting on behalf of any Party, other than those expressly set forth in this MOU.

12.5 Binding on Successors. The provisions of this MOU shall inure to the benefit to and be binding on the successors and permitted assigns of the Parties.

12.6 Waiver. No waiver of any provision of this MOU shall be binding unless executed in writing by the Party making the waiver. No waiver of any provision of this MOU shall be deemed to constitute a waiver of any other provision, whether or not similar, nor shall any waiver constitute a continuing waiver unless the written waiver so specifies.

12.7 Governing Law. This MOU is entered into in and shall be governed by and construed in accordance with the internal laws of the State of California.

12.8 Severability. If any term or provision of this MOU is ever determined to be invalid or unenforceable for any reason, such term or provision shall be severed from this MOU without affecting the validity or enforceability of the remainder of this MOU.

13. LSI Agreement Provisions That Do Not Apply. Notwithstanding any other provision in this MOU: (a) the City shall have no jurisdiction over LSI's services provided to County Customers; (b) the County shall have no jurisdiction over LSI's services provided to City Customers; (c) the County shall not have the right to direct changes in LSI's services to County Customers pursuant to Section 4.3 of the LSI Agreement (except with the consent of LSI and the City and in accordance with such Section 4.3); (d) LSI shall not be obligated to post a performance bond in favor of the County pursuant to Section 9.6 of the LSI Agreement; and (e) the County shall have no right to acquire, take possession of or use any equipment or other property used or useful in the Collection, Transporting, Processing and Disposing of Solid Waste, Recyclable Materials or Compostable Materials pursuant to Article 10 or Article 11 of the LSI Agreement.

IN WITNESS WHEREOF, this MOU has been approved by the Parties and is effective as of the Effective Date.

SCHEDULE FOR PERFORMANCE ADJUSTMENTS
LIQUIDATED DAMAGES FOR FAILURE TO MEET STANDARDS

LSI may be assessed Liquidated Damages in the event LSI fails to fulfill its obligations with regards to the events listed in this Exhibit in accordance with the terms and conditions of the MOU with regards to the time frame for accomplishing each event and nature of the responsibility associated with the event unless otherwise stated in this Exhibit. Refer to Section 10.6 of the MOU for procedures for assessing Liquidated Damages.

Collection Reliability		
1.	For failure to maintain the collection schedule for a portion of a route or entire route on the scheduled day (unless non-collection was warranted pursuant to this MOU.)	$25.00/ container
2.	For each failure over fifteen (15) annually to collect Solid Waste, which has been properly set out for collection from an established service recipient account on the scheduled collection day.	$150.00
3.	For each failure to collect missed collections within 24 hours of receipt of the Complaint:	$300.00
4.	For each failure to collect Solid Waste, Recyclable Materials or Compostable Materials which has been properly set out for collection, from the same service recipient on two (2) consecutive scheduled pick ups.	$150.00
5.	For each failure to notify the appropriate authorities of reportable quantities of Hazardous Waste per Section 5.11 of the LSI Agreement.	$500.00
6.	For each failure over five (5) annually to commence service to a new County Customer within seven (7) calendar days after order received and account number established or failure to deliver a different Container size to a County Customer within seven (7) Business Days of request or failure to deliver kitchen pail, Multi-family personal Recycling bins, Commercial Recycling or Compostable bins for internal use within the timeframe required by Article 5 of the LSI Agreement, as may be applicable per this MOU.	$150.00
7.	For each failure over five (5) annually to deliver kitchen pails, Multi-family reusable Recycling bags for tenants, Commercial Recycling or Compostable bins for internal use within the timeframe required by Article 5, as may be applicable per this MOU.	$150.00
Collection Quality		
8.	For each occurrence over five (5) annually of unreasonable leaking or Unacceptable Spillage of Solid Waste, Recyclable Materials, or Compostable Materials and failure to pick up or clean up such material immediately:	$300.00
9.	For each occurrence over twelve (12) annually of failure to replace containers in original position, upright, with lids attached to or on Carts or Bins:	$150.00

10.	For each failure over twenty-four (24) annually of not closing gate, crossing planted areas or other damage to private property	$300.00
11.	For each occurrence over five (5) annually of collecting Solid Waste, Recyclable Materials, and Compostable Materials during unauthorized hours.	$300.00
12.	For each occurrence over twelve (12) of excessive noise.	$300.00
13.	For each failure over twelve (12) annually of not tagging containers which are left:	$150.00
14.	For each occurrence over five (5) annually of damage to property that is not repaired in 30 days.	$250.00
15.	For each occurrence of mixing Recyclable Materials, Solid Waste, and Compostable Materials during Collection.	$150.00
16.	Failure to deliver materials to Approved Disposal Site, Approved Recyclables Processing Site, or Approved Composting Site (depending on the type of material)	$150.00/ton
Customer Responsiveness		
17.	For each occurrence of unreasonably discourteous behavior	$500.00
18.	For each failure to respond to and initiate a remedy to a complaint from a County Customer within eight (8) working hours after notification by the County.	$300
19.	For each failure to answer the telephone or answering machine from a County Customer during the hours specified in Section 6.9.4 of the LSI Agreement	$300
20.	For each failure to respond to service requests/calls from a County Customer within 24 hours as specified in Section 6.9.4 of the LSI Agreement	$300
21.	For each failure to return calls from County Customers received during non-business hours no later than 5:00 p.m. of the following Business Day	$300
22.	For each occurrence over five (5) annually for complaints from County Customers regarding waiting on hold for more than two (2) minutes as specified in Section 6.9 of the LSI Agreement.	$150
Reporting and Performance Adjustments*		
23.	For each day that a Monthly Report to the County is late.	$100.00/day
24.	For each day that a Quarterly Report to the County is late.	$200.00/day
25.	For each day a Semi-Annual Report to the County is late.	$300.00/day
26.	For each day an Annual Report to the County is late:	$300.00/day

Public Education		
27.	Failure to prepare and distribute the service information brochure to County Customers as required by Section 5.2(a) of this MOU	$150.00/day
28.	Failure to provide annual notification to County Multi-Family and Commercial Customers as required by Section 5.2(b) of this MOU	$300.00/day.
29.	Failure to provide the County a reasonable opportunity to review and comment on public education materials, as required by Section 5.2(c) of this MOU.	$150.00/day
Miscellaneous		
30.	Failure to perform any of the obligations set forth in this MOU not specifically stated above and not corrected or proceeding in good faith to correct within twenty-four (24) hours upon twenty-four (24) hour Notification by County.	$150.00/day

* Any report shall be considered late until such time as a correct and complete report is received by City. For each calendar day a report is late, the daily Performance Adjustment shall be as indicated in the Reporting and Performance Adjustment section above.

In placing Designee's initials at the places provided, LSI and the County each specifically confirm the accuracy of the statements made above and the fact that both LSI and the County have had ample opportunity to consult with legal counsel and obtain an explanation of the Liquidated Damage provisions at the time that the MOU was made.

THE BOARD OF SUPERVISORS OF THE COUNTY OF ALAMEDA, STATE OF CALIFORNIA

RESOLUTION NO. R- 2012- 367

RESOLUTION GRANTING LIVERMORE SANITATION, INC. EXCLUSIVE RIGHTS TO PROVIDE SOLID WASTE AND RECYCLING SERVICES WITHIN COUNTY COLLECTION SERVICE ZONE NO. 1 AND APPROVING THE MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, LIVERMORE SANITATION, INC., AND THE COUNTY

WHEREAS, the County of Alameda desires to improve solid waste and recycling service to unincorporated residents and businesses in the vicinity of the City of Livermore to respond to numerous complaints from unincorporated residents about the inconsistency of collection services provided and fees charged in the unincorporated area; and

WHEREAS, the County of Alameda is in support of the county-wide 75% solid waste diversion goal contained in the Waste Reduction and Recycling Initiative Charter Amendment (Measure D), adopted by the voters in November 1990; and

WHEREAS, improving solid waste and recycling service to the unincorporated area would benefit County residents and further the County's efforts to reach the diversion goal in Measure D; and

WHEREAS, Livermore Sanitation, Inc. (LSI) provides exclusive solid waste and recycling services to the City of Livermore pursuant to a Franchise Agreement with the City; and

WHEREAS, in order to facilitate improved solid waste and recycling services, the County desires to have LSI provide exclusive collection services to the unincorporated Livermore area similar to those services provided within the corporate limits of the City of Livermore; and

WHEREAS, Chapter 6.40 of Title 6 of the County General Ordinance Code gives the Board of Supervisors the authority to establish County Collection Service Zones and to grant exclusive rights to solid waste haulers for the collection of solid waste, compostable materials and recyclable materials within such zones; and

WHEREAS, County Collection Service Zone No. 1 was established by Resolution No. 2012 - ___, approved by the Board of Supervisors on November 6, 2012; and

WHEREAS, the County desires to grant exclusive rights to LSI to provide collection services within County Collection Service Zone No, 1, and desires to have the specific scope, nature and requirements of the provision of such services to be as set forth in a Memorandum of Understanding entered into by and between the County, LSI, and the City of Livermore.

NOW, THEREFORE, BE IT RESOLVED that pursuant to Section 6.40.290 of the County General Ordinance Code, and subject to the exception provided in Section 6.40.300, the Board of Supervisors does hereby grant Livermore Sanitation, Inc. exclusive rights to provide services for the collection of solid waste, compostable materials, and recyclable materials within County Collection Service Zone No. 1; and

BE IT FURTHER RESOLVED that the specific scope, nature, and requirements of the provision of such services shall be as provided in the Memorandum of Understanding between the City of Livermore, Livermore Sanitation, Inc., and the County of Alameda, which is hereby approved by the Board of Supervisors, and which is attached hereto as Exhibit A.

THE FOREGOING was **PASSED** and **ADOPTED** by a majority vote of the Alameda County Board of Supervisors this **6** day of **November , 2012**, to wit:

AYES: Supervisors: Carson, Chan, Haggerty, Valle & President Miley – **5**

THE BOARD OF SUPERVISORS OF THE COUNTY OF ALAMEDA, STATE OF CALIFORNIA

RESOLUTION NO. R- 2012- 382

RESOLUTION ESTABLISHING COUNTY COLLECTION SERVICE ZONE NO. 1 IN ACCORDANCE WITH CHAPTER 6.40 OF TITLE 6 OF THE COUNTY GENERAL ORDINANCE CODE

WHEREAS, the County of Alameda desires to improve solid waste and recycling service to unincorporated residents and businesses in the vicinity of the City of Livermore to respond to numerous complaints from unincorporated residents about the inconsistency of collection services provided and fees charged in the unincorporated area; and

WHEREAS, Chapter 6.40 of Title 6 of the County General Ordinance Code gives the Board of Supervisors the authority to establish County Collection Service Zones and to grant exclusive rights to solid waste haulers for the collection of solid waste, compostable materials and recyclable materials within such zones; and

WHEREAS, granting exclusive rights for the collection of solid waste, compostable materials and recyclable materials to Livermore Sanitation, Inc. would facilitate improved solid waste and recycling service to the unincorporated Livermore area; and

WHEREAS, the establishment of a County Collection Service Zone in the unincorporated area around the City of Livermore is necessary to facilitate the granting of exclusive rights to Livermore Sanitation, Inc; and

WHEREAS, the boundaries of the territory proposed to be included in County Collection Zone No. 1 are as set forth in Exhibit A; and

WHEREAS, County Collection Service Zone No. 1 will be comprised of two geographic areas: the Densely-Populated Area adjacent to the city boundary and the Rural Area further away from the city boundary; and

WHEREAS, the street addresses of the properties included in the designated Densely Populated Area are listed in Exhibit B;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors does hereby establish County Collection Service Zone No. 1, as set forth and described in Exhibit A, attached hereto and by this reference incorporated herein.

THE FOREGOING was **PASSED** and **ADOPTED** by a majority vote of the Alameda County Board of Supervisors this **6** day of **November , 2012**, to wit:

AYES: Supervisors: Carson, Chan, Haggerty, Valle & President Miley – **5**

NOES: None

EXCUSED: None

PRESIDENT, BOARD OF SUPERVISORS

File No: **28538**
Agenda No: **24**
Document No: **C-2012-155**
Resolution No: **R-2012-382**

I certify that the foregoing is a correct copy of a Resolution adopted by the Board of Supervisors, Alameda County, State of California

FIRST AMENDMENT TO MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, ALAMEDA COUNTY AND LIVERMORE SANITATION, INC. REGARDING SOLID WASTE AND RECYCLING SERVICES AND CONFIRMATION OF CONSENT TO ASSIGNMENT

THIS FIRST AMENDMENT ("**2023 Amendment**"), dated for reference purposes as of January 1, 2023, is entered into by and between the CITY OF LIVERMORE, a municipal corporation (the "**City**"), the COUNTY OF ALAMEDA, a political subdivision of the State of California ("**County**"), and LIVERMORE SANITATION, INC., a California corporation ("**LSI**") and WASTE CONNECTIONS US, INC., a Delaware corporation ("**Waste Connections**") (each from time to time hereafter referred to individually as a "**Party**" and collectively as the "**Parties**"), with respect to that *Memorandum Of Understanding Between The City Of Livermore, Alameda County And Livermore Sanitation, Inc. Regarding Solid Waste And Recycling Service*s dated for reference purposes as of November 6, 2012 ("**2012 MOU**" and collectively with this 2023 Amendment the "**MOU**").

RECITALS

This Amendment is entered into by the Parties based on the following facts, findings, and determinations:

A. The City and LSI are parties to the *Amended and Restated Agreement for Solid Waste, Recyclable Materials, and Compostable Materials Services* dated May 9, 2011 (the "**LSI Agreement"**) that provided services within the corporate limits of the City, which was then amended by the *Third Amended and Restated Agreement For Solid Waste, Recyclable Materials, and Compostable Materials Services* dated April 27, 2020, and which was further amended by a *First Amendment* and then on November 28, 2022 by a *Second Amendment To Third Amended And Restated Franchise Agreement* (collectively the "**Amended LSI Agreement**"); and

B. On November 6, 2012 the County granted authority to LSI to provide services for the collection of solid waste, recyclable materials, and compostable materials in County Collection Zone No. 1 and thereafter the City, LSI and the County entered into the 2012 MOU in which LSI provided services in the County Collection Zone as set forth in the LSI Agreement as modified by the 2012 MOU; and

C. LSI, Waste Connections and other parties have entered a Stock Purchase Agreement, dated as of April 27, 2022 (the "**Purchase Agreement**"); and

D. On or about December 1, 2022, at a closing (the "**Closing**") in accordance with the Purchase Agreement, the current shareholders of LSI sold all the common stock in LSI (the "**LSI Shares**") to Waste Connections, which resulted in a change in majority control of LSI from the current owners; and

E. The County has reviewed the documents prepared and considered by the City related to the Purchase Agreement including the Staff Report, Waste Connection Letter of Commitment, and the HFH Assignment Review Report on the November 28, 2022 City Council Agenda, agenda item 5.8, in which the City documented the terms and conditions upon which it relied to consent to the sale and assignment of LSI Shares to Waste Connections (the "**Assignment**") as set forth in the Purchase Agreement and the Amended LSI Agreement. The County relies on these same representations and documents to consent to the Assignment in accordance with Section 12.2 of the 2012 MOU and notified the Parties of its intent to enter into this 2023 Amendment for documenting that consent; and

F. Whereas, California Senate Bill 1383 of 2016, the Short-lived Climate Pollutant Reduction Act of 2016 ("**SB 1383**") (which added Sections 39730.5, 39730.6, and 39730.8 to the California Health and Safety Code, and added Chapter 13.1 (commencing with Section 42652) to Part 3 of Division 30 of the Public Resources Code), took effect on January 1, 2017, setting Statewide Organic Waste disposal reduction

targets of 50 percent by 2020 and 75 percent by 2025, and requiring the California Department of Resources Recycling and Recovery ("**CalRecycle**") to develop regulations to reduce organics in landfills as a source of methane; and

G. Whereas, in November 2020, CalRecycle finalized the Short-lived Climate Pollutants Organic Waste Reductions Regulations (the "**SLCP**" or "**SB 1383 Regulations"**) which establish the regulatory requirements for jurisdictions, generators, haulers, solid waste facilities, and other entities, which are contained in Title 14 of the California Code of Regulations; and

H. The County desires to have similar collection services within the unincorporated areas surrounding the City to those provided to the City under the Amended LSI Agreement, to meet compliance with SB 1383, and the City desired to assist the County by modifying the 2012 MOU to provide such services.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and obligations set forth in this Amendment, the Parties hereby agree as follows:

1. Assignment.

1.1 Consent. County consents to the Assignment and LSI shall continue to possess all of its rights, titles and interests in the MOU. LSI hereby agrees to keep, perform, fulfill, and be bound by all of the terms, covenants and conditions required to be kept, performed, and/or fulfilled under the MOU.

1.2 Guaranty. Waste Connections shall execute and deliver a guaranty in the form set forth in Exhibit A, subject to any edits as to form as approved by the County Counsel, guarantying Contractor's performance of the MOU, as it may be amended. Such executed guaranty shall be provided within 10 days of execution of this Amendment.

1.3 Condition to Consent. As material consideration for the County's consent to the Assignment, the Parties agree to amend the 2012 MOU as set forth in this Amendment, collectively the MOU.

2. Section 2, Term of the 2012 MOU, is amended as follows:

Section 2.1 is renumbered 2.1 (a) and the following is added:

> **2.1.(b) Amendment Effective Date**. The Effective Date of this 2023 Amendment shall be the date that the City, the County and LSI sign this MOU, following approval of the City Council and the Board of Supervisors.

Section 2.2 is deleted in its entirety and replaced with the following:

> **2.2 Term**. The term of this MOU shall be from the MOU Effective Date until the date that is the earlier of: (a) the end of the Term of the Amended LSI Agreement including any extensions; (b) the date that the Amended LSI Agreement is terminated by the City or LSI in accordance with the Amended LSI Agreement; (c) the date this MOU is terminated in accordance with its terms.

3. Section 3, Amendment of LSI Agreement, is amended by adding the following:

> The City hereby consents to LSI's continuing to provide services to County Customers on the terms and conditions as set forth in the 2012 MOU as revised in the Amendment,

collectively the MOU. The City further agrees to formally incorporate the provisions of the MOU in the Amended LSI Agreement when it is next amended or restated.

4. Section 4, Scope of Services, Subsection 4.2, Collection Services, is deleted in its entirety and replaced with the following:

> **4.2 Collection Service Required Services and Standards**. LSI shall provide Solid Waste, Compostable Materials and Single-Stream Recyclable Materials Collection services to County Customers that subscribe to and pay for LSI's Collection services in County Collection Service Zone No. 1 in accordance with the Amended LSI Agreement to County Customers. LSI shall provide those services in compliance with SB 1383 and the SB1383 Regulations, and as set forth in Article 5, Collections Services, of the Amended LSI Agreement, with the exception that LSI shall not provide the services under Sections 5.5, City Facilities and Events Collection and 5.6 Provision of Services to Schools.

5. Section 5, Other Services, Subsection 5.2, Public Education, (a), is deleted in its entirety and replaced with the following:

> **5.2(a) Education and Technical Assistance**. LSI shall provide the same services to County and County Customers as it provides to City and City Customers pursuant to Article 5.17, Public Education and Technical Assistance, of the Amended LSI Agreement. This specifically includes education for compliance with the SB 1383 Regulations.

6. Record Keeping and Reporting Required by SB 1383. LSI shall provide service level account data and other data necessary to assist County in monitoring generator compliance and preparing annual reports relative to compliance with SB 1383.

7. Exhibit C. Section 10, Default and Remedies, Subsection 10.6 Liquidated Damages is amended by deleting Exhibit C, Schedule of Liquidated Damages, and replacing it with the attached Exhibit C, Schedule of Liquidated Damages.

8. Notices. **Section 12.3, Notices**, is amended by updating the addresses as follows:

If to County:	Alameda County Community Development Agency 224 West Winton Ave., Room 111 Hayward, CA 94544 Attn: Community Development Director
With Copy to:	Office of the County Counsel County of Alameda 1221 Oak Street, Suite 450 Oakland, CA 94612

If to City:	City of Livermore Public Works Department 1052 S. Livermore Ave. Livermore, CA 94550 Attn: Judy Erlandson, City of Livermore
With copy to:	City Clerk 1052 S. Livermore Ave. Livermore, CA 94550
If to LSI:	Livermore Sanitation, Inc. 7000 National Drive Livermore, CA 94550 Attn: Adam Gooderham, Division Vice President
With Copy to:	Waste Connections US, Inc. 3 Waterway Square Place, Suite 110 The Woodlands, TX 77380 Attn: Senior Vice President, Deputy General Counsel
If to Waste Connections:	Waste Connections US, Inc. 4359 Town Center Blvd, Suite 215 El Dorado Hills, CA 95762 Attn: Ronald J. Mittelstaedt, President and Chief Executive Officer
With Copy to:	Waste Connections US, Inc. 3 Waterway Square Place, Suite 110 The Woodlands, TX 77380 Attn: Senior Vice President, Deputy General Counsel

9. Miscellaneous

9.1 Consistent Services. Except as expressly modified by this First Amendment, all the terms and conditions of the 2012 MOU are and remain in full force and effect. It is the intent of this 2023 Amendment that LSI provide services to County in accordance and consistent with the Amended LSI Agreement.

9.2 Authority. The City and the County agree that each has taken the appropriate steps necessary to authorize and approve this Amendment. LSI agrees that it has the authority to enter into and perform its obligations under this Amendment and the 2012 MOU.

9.3 Entire Agreement. This 2023 Amendment and the 2012 MOU, collectively the MOU, including all recitals, exhibits and schedules hereto, constitutes the entire agreement between the Parties with respect to the subject matter hereof and supersedes any and all prior or contemporaneous understandings, negotiations, representations, promises, memoranda and agreements, oral or written, by or between the Parties. No representations, inducements, promises, or agreements have been made in connection with this MOU by any Party, or anyone acting on behalf of any Party, other than those expressly set forth in this MOU.

9.4 Severability. If any term or provision of this MOU is ever determined to be invalid or unenforceable for any reason, such term or provision shall be severed from this MOU without affecting the validity or enforceability of the remainder of this MOU.

IN WITNESS WHEREOF, this FIRST AMENDMENT TO MOU has been approved by the Parties and is effective upon Execution of all Parties.

EXHIBIT A

THIS GUARANTY (the "Guaranty") is given as of the ____ day of _____, 2023, by Waste Connections US, Inc., a Delaware corporation, ("GUARANTOR"), to the County of Alameda("COUNTY").

THIS GUARANTY is made with reference to the following facts and circumstances:

A. Livermore Sanitation, Inc., a California corporation (the "CONTRACTOR") and COUNTY have executed that *MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, ALAMEDA COUNTY AND LIVERMORE SANITATION, INC. REGARDING SOLID WASTE AND RECYCLING SERVICES* for purposes of reference November 6, 2012, and are entering into that FIRST AMENDMENT TO MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF LIVERMORE, ALAMEDA COUNTY AND LIVERMORE SANITATION, INC. REGARDING SOLID WASTE AND RECYCLING SERVICES AND CONFIRMATION OF CONSENT TO ASSIGNMENT (collectively the “Agreement”) which is incorporated herein by this reference.

B. Guarantor has proposed acquiring the common stock of CONTRACTOR as acknowledged that certain First Amendment to the Agreement, which constitutes an assignment under the Agreement.

C. COUNTY is willing to consent to the assignment of the Agreement as set forth in the the Agreement provided that GUARANTOR executes this Guaranty.

D. GUARANTOR is providing this Guaranty to induce COUNTY to approve the assignment of the Agreement.

NOW, THEREFORE, in consideration of the foregoing, GUARANTOR agrees as follows:

1. Guaranty of the Agreement. GUARANTOR hereby irrevocably and unconditionally guarantees to the COUNTY the complete and timely performance, satisfaction and observation by CONTRACTOR of each and every term and condition of the Agreement which CONTRACTOR is required to perform, satisfy or observe. In the event that CONTRACTOR fails to perform, satisfy or observe any of the terms or conditions of the Agreement, GUARANTOR will promptly and fully perform, satisfy or observe them in the place of the CONTRACTOR. GUARANTOR hereby guarantees prompt payment to COUNTY of each and every sum due from CONTRACTOR to COUNTY under the Agreement, as and when due from time to time, and the prompt performance of every other task and duty required to be performed by the CONTRACTOR under the Agreement.

2. GUARANTOR’s Obligations Are Absolute. The obligations of the GUARANTOR hereunder are direct, immediate, absolute, continuing, unconditional and unlimited and, with respect to any payment obligation of CONTRACTOR under the Agreement, shall constitute a guarantee of payment and not of collection, and are not conditioned upon the genuineness, validity, regularity or enforceability of the Agreement.

3. Waivers and Subordination. The GUARANTOR shall have no right to terminate this Guaranty or to be released, relieved, exonerated or discharged from its obligations under Section 1 hereof for any reason whatsoever, including, without limitation: (1) the insolvency, bankruptcy, reorganization or cessation of existence of the CONTRACTOR; (2) any amendment, modification or waiver of any provision of the Agreement or the extension of its Term (as defined in the Agreement); (3) the actual or purported rejection of the Agreement by a trustee in

bankruptcy, or any limitation on any claim in bankruptcy resulting from the actual or purported termination of the Agreement; (4) any waiver, extension, release or modification with respect to any of the obligations of the Agreement guaranteed hereunder or the impairment or suspension of any of COUNTY's rights or remedies against CONTRACTOR; or (5) any merger or consolidation of the CONTRACTOR with any other organization, or any sale, lease or transfer of any or all the assets of the CONTRACTOR.

The GUARANTOR hereby waives any and all rights, benefits and defenses under California Civil Code Sections 2809, 2815, 2819, 2845, 2849, 2850, 2899 and 3433 and under or based upon, directly or directly, California Code of Civil Procedure Sections 580a, 580b, 580d and 726, if applicable, and all other rights permitted to be waived by California Civil Code Section 2856(a) including, without limitation, the right to require COUNTY to (a) proceed against CONTRACTOR, (b) proceed against or exhaust any security or collateral COUNTY may hold now or hereafter hold, or (c) pursue any other right or remedy for GUARANTOR's benefit, and agree that COUNTY may proceed against GUARANTOR for the obligations guaranteed herein without taking any action against CONTRACTOR or any other guarantor or pledgor and without proceeding against or exhausting any security or collateral COUNTY may hold now or hereafter hold. COUNTY may unqualifiedly exercise in its sole discretion any or all rights and remedies available to it against CONTRACTOR or any other guarantor or pledgor without impairing COUNTY's rights and remedies in enforcing this Guarantee. The GUARANTOR hereby waives and agrees to waive at any future time at the request of COUNTY, to the extent now or then permitted by applicable law, any and all rights which the GUARANTOR may have or which at any time hereafter may be conferred upon it, by statute, regulation or otherwise, to avoid any of its obligations under, or to terminate, cancel, quit or surrender this Guaranty. Without limiting the generality of the foregoing, it is agreed that the occurrence of any one or more of the following shall not affect the liability of the GUARANTOR hereunder: (a) at any time or from time to time, without notice to the GUARANTOR, the time for CONTRACTOR's performance of or compliance with any of its obligations under the Agreement is extended, or such performance or compliance is waived; (b) the Agreement is modified or amended in any respect; (c) any other indemnification with respect to CONTRACTOR's obligations under the Agreement or any security therefor is released or exchanged in whole or in part or otherwise dealt with; (d) any assignment of the Agreement is effected which does not require COUNTY's approval; or (e) any termination or suspension of the Agreement arising by reason of a default by CONTRACTOR.

The GUARANTOR hereby expressly waives diligence, presentment, demand for payment or performance, protest and all notices whatsoever, including, but not limited to, notices of non-payment or non-performance, notices of protest, notices of any breach or default, and notices of acceptance of this Guaranty. If all or any portion of the obligations guaranteed hereunder are paid or performed, GUARANTOR's obligations hereunder shall continue and remain in full force and effect in the event that all or any part of such payment or performance is avoided or recovered directly or indirectly from COUNTY as a preference, fraudulent transfer or otherwise, irrespective of (a) any notice of revocation given by GUARANTOR or CONTRACTOR prior to such avoidance or recovery, or (b) payment in full of any obligations then outstanding.

The GUARANTOR expressly subordinates and waives its rights to subrogation, reimbursement, contribution or indemnity with respect to performance by GUARANTOR of the obligations of CONTRACTOR guaranteed hereby, until such time as COUNTY receives payment or performance in full of all such obligations.

4. **Term**. This Guaranty is not limited to any period of time, but shall continue in full force and effect until all of the terms and conditions of the Agreement have been fully performed by CONTRACTOR, and GUARANTOR shall remain fully responsible under this Guaranty without regard to the acceptance by COUNTY of any performance bond or other collateral to assure the performance of CONTRACTOR's obligations under the Agreement. GUARANTOR shall not be released of its obligations hereunder so long as there is any claim by COUNTY against

CONTRACTOR arising out of the Agreement based on CONTRACTOR's failure to perform which has not been settled or discharged.

5. **No Waivers by COUNTY**. No delay on the part of COUNTY in exercising any rights under this Guaranty or failure to exercise such rights shall operate as a waiver of such rights. No notice to or demand on GUARANTOR shall be a waiver of any obligation of GUARANTOR or right of COUNTY to take other or further action without notice or demand. No modification or waiver by COUNTY of any of the provisions of this Guaranty shall be effective unless it is in writing and signed by COUNTY and by GUARANTOR, nor shall any waiver by COUNTY be effective except in the specific instance or matter for which it is given.

6. **Attorney's Fees**. In addition to the amounts guaranteed under this Guaranty, GUARANTOR agrees to pay reasonable attorney's fees and all other reasonable costs and expenses incurred by COUNTY in enforcing this Guaranty, or in any action or proceeding arising out of or relating to this Guaranty, including any action instituted to determine the respective rights and obligations of the parties hereunder.

7. **Governing Law; Jurisdiction**. This Guaranty is and shall be deemed to be a contract entered into in and pursuant to the laws of the State of California and shall be governed and construed in accordance with the laws of California without regard to its conflicts of laws rules for all purposes, including, but not limited to, matters of construction, validity and performance. As the Agreement is made and performed in Alameda County, GUARANTOR agrees that any action brought by COUNTY to enforce this Guaranty may be brought in Alameda Superior Court or the Northern District of California as applicable. GUARANTOR appoints the following person as its agent for service of process in California:

Corporation Service Company
DBA CSC – Lawyer Incorporating Service
2710 Gateway Oaks Dr., Ste. 150N
Sacramento, California 95833

8. **Severability**. If any portion of this Guaranty is held to be invalid or unenforceable, such invalidity shall have no effect upon the remaining portions of this Guaranty, which shall be severable and continue in full force and effect.

9. **Binding on Successors**. This Guaranty shall inure to the benefit of COUNTY and its successors and shall be binding upon GUARANTOR and its successors, including a successor entity formed by a merger or consolidation, a transferee of substantially all of its assets, and its shareholders in the event of its dissolution or insolvency.

10. **Authority**. GUARANTOR represents and warrants that it has the corporate power to give this guaranty, that its execution of this Guaranty has been authorized by all necessary action under its Articles of Incorporation and by-laws, and that the person signing this Guaranty on its behalf has authority to do so.

11. **Notices.** Notice shall be given in writing, deposited in the U.S. mail, registered *or* certified, first class postage prepaid, addressed as follows:

If to County: Alameda County Community Development Agency
224 West Winton Ave., Room 111
Hayward, CA 94544
Attn: Community Development Director

With Copy to: Office of the County Counsel

EXHIBIT C
SCHEDULE FOR PERFORMANCE ADJUSTMENTS
LIQUIDATED DAMAGES FOR FAILURE TO MEET STANDARDS

LSI may be assessed Liquidated Damages in the event LSI fails to fulfill its obligations with regards to the events listed in this Exhibit in accordance with the terms and conditions of the MOU with regards to the time frame for accomplishing each event and nature of the responsibility associated with the event unless otherwise stated in this Exhibit. Refer to Section 10.6 of the MOU for procedures for assessing Liquidated Damages. References to MOU means the Memorandum of Understanding (2012) as amended by the First Amendment (2023).

Collection Reliability		
1.	For failure to maintain the collection schedule for a portion of a route or entire route on the scheduled day (unless non-collection was warranted pursuant to this MOU).	$25.00/container
2.	For each failure over fifteen (15) annually to collect Solid Waste, which has been properly set out for collection from an established service recipient account on the scheduled collection day.	$150.00
3.	For each failure to collect missed collections within 24 hours of receipt of the Complaint.	$300.00
4.	For each failure to collect Solid Waste, Recyclable Materials or Compostable Materials which has been properly set out for collection from the same service recipient on two (2) consecutive scheduled pickups.	$150.00
5.	For each failure to notify the appropriate authorities of reportable quantities of Hazardous Waste per Section 5.11 of the LSI Agreement.	$500.00
6.	For each failure over five (5) annually to commence service to a new County Customer within seven (7) calendar days after order received and account number established or failure to deliver a different Container size to a County Customer within seven (7) Business Days of request or failure to deliver kitchen pail, Multi-family Personal Recycling Bins, Commercial Recycling or Compostable Bins for internal use within the timeframe required by Article 5 of the LSI Agreement, as may be applicable per this MOU.	$150.00
7.	For each failure over five (5) annually to deliver kitchen pails, Multi-family Reusable Recycling Bags for tenants, Commercial Recycling or Compostable Bins for internal use within the timeframe required by Article 5, as may be applicable per this MOU.	$150.00
Collection Quality		
8.	For each occurrence over five (5) annually of unreasonable leaking or Unacceptable Spillage of Solid Waste, Recyclable Materials, or Compostable Materials, and failure to pick up or clean up such material immediately.	$300.00

9.	For each occurrence over twelve (12) annually of failure to replace containers in original position, upright, with lids attached to or on Carts or Bins.	$150.00
10.	For each failure over twenty-four (24) annually of not closing gate, crossing planted areas, or other damage to private property.	$300.00
11.	For each occurrence over five (5) annually of collecting Solid Waste, Recyclable Materials, and Compostable Materials during unauthorized hours.	$300.00
12.	For each occurrence over twelve (12) of excessive noise.	$300.00
13.	For each failure over twelve (12) annually of not tagging containers which are left.	$150.00
14.	For each occurrence over five (5) annually of damage to property that is not repaired in 30 days.	$250.00
15.	For each occurrence of mixing Recyclable Materials, Solid Waste, and Compostable Materials during Collection.	$150.00
16.	Failure to deliver materials to Approved Disposal Site, Approved Recyclables Processing Site, or Approved Composting Site (depending on the type of material).	$150.00/ton
Customer Responsiveness		
17.	For each occurrence of unreasonably discourteous behavior.	$500.00
18.	For each failure to respond to and initiate a remedy to a complaint from a County Customer within eight (8) working hours after notification by the County.	$300.00
19.	For each failure to answer the telephone or answering machine from a County Customer during the hours specified in Section 6.9.4 of the LSI Agreement.	$300.00
20.	For each failure to respond to service requests/calls from a County Customer within 24 hours as specified in Section 6.9.4 of the LSI Agreement.	$300.00
21.	For each failure to return calls from County Customers received during non-business hours no later than 5:00 p.m. of the following Business Day.	$300.00
22.	For each occurrence over five (5) annually for complaints from County Customers regarding waiting on hold for more than two (2) minutes as specified in Section 6.9 of the LSI Agreement.	$150.00
Reporting and Performance Adjustments*		
23.	For each day that a Monthly Report to the County is late.	$100.00/day
24.	For each day that a Quarterly Report to the County is late.	$200.00/day

25.	For each day a Semi-Annual Report to the County is late.	$300.00/day
26.	For each day an Annual Report to the County is late.	$300.00/day
* Any Report shall be considered late until such time as a correct and complete Report is received by County. For each calendar day a Report is late, the daily Performance Adjustment shall be as indicated in the Reporting and Performance Adjustment section above.		
Public Education		
27.	Failure to prepare and distribute the service information brochure to County Customers as required by Section 5.2 of the MOU.	$150.00/day
28.	Failure to provide annual notification to County Multi-Family and Commercial Customers as required by Section 5.2 of the MOU.	$300.00/day
29.	Failure to provide the County a reasonable opportunity to review and comment on public education materials, as required by Section 5.2(c) of the MOU.	$150.00/day
30.	For failure to employ personnel for County education as specified in Section 5.17 of the Amended LSI Agreement.	$150.00/day
31.	Failure to meet with County contact in accordance with the MOU and Amended LSI Agreement.	$150.00/day
32.	Failure to send initial mailing to residents.	$300.00/day
33.	Failure to prepare and distribute "how-to" brochure/calendar to residents.	$150.00/day
34.	Failure to prepare and distribute to residents door hanger, flyer, or mailer regarding specific collection day, holiday, Christmas tree, and cleanup event schedules.	$150.00/day
35.	Failure to conduct community presentations targeted at residents.	$150.00/day
36.	Failure to prepare and mail quarterly newsletter to all residents.	$150.00/day
37.	Failure to send initial mailing to businesses.	$300.00/day
38.	Failure to prepare and distribute "how-to" brochures for each of the five business types.	$150.00/day
39.	Failure to conduct training meetings for businesses.	$150.00/day
40.	Failure to meet with business associations.	$150.00/day
41.	Failure to conduct commercial waste audits.	$150.00/audit
42.	Failure to conduct multi-family waste audits.	$150.00/audit

43.	Failure to provide comprehensive report of findings and suggestions to each company for which an audit was performed.	$150.00/day
44	Failure to perform other public education and outreach efforts required by the MOU including Exhibits C and C-1 of the Amended LSI Agreement.	$150.00/day
45	Failure to prepare and annually update a recycling resource guide.	$150.00/day
47	Failure to maintain accurate and complete information on LSI's dedicated webpage for the County.	$150.00/day
Miscellaneous		
48.	Failure to perform any of the obligations set forth in this MOU not specifically stated above and not corrected, or proceeding in good faith to correct, within twenty-four (24) hours upon twenty-four (24) hour notification by County.	$150.00/day

In placing Designee's initials at the places provided, LSI and the County each specifically confirm the accuracy of the statements made above and the fact that both LSI and the County have had ample opportunity to consult with legal counsel and obtain an explanation of the Liquidated Damage provisions at the time that the 2023 Amendment was made.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF THE THIRD AMENDED AND RESTATED AGREEMENT, INCLUDING RATE METHODOLOGY AND RATE ADJUSTMENTS, WITH LIVERMORE SANITATION, INC., AND EXPRESSLY APPROVING THE RATE ADJUSTMENTS FOR RATE PERIOD ELEVEN EFFECTIVE JANUARY 1, 2021 THROUGH JUNE 30, 2021, AND RATE PERIOD TWELVE EFFECTIVE JULY 1, 2021 THROUGH JUNE 30, 2022

On September 28, 2009, the Livermore City Council entered into a franchise agreement for solid waste collection services: *Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services* (City Council Resolution No. 2009-189).

On May 9, 2011, the City Council adopted the *Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services* (City Council Resolution No. 2011-069).

On September 8, 2014, the City Council adopted Resolution No. 2014-141 approving the *Second Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services* (the "Franchise Agreement").

On June 8, 2015, the City Council adopted Resolution No. 2015-075 approving the Special Rate Review Amendment to the Franchise Agreement.

On November 9, 2015, the City Council adopted Resolution No. 2015-157 approving the Second Amendment to the Franchise Agreement.

On December 11, 2017, the City Council directed staff to negotiate additional benefits and services for the community in exchange for an extension of the Franchise Agreement.

On October 14, 2019, City staff presented options for term extensions and programmatic enhancements for the Franchise Agreement. At that meeting, the City Council directed staff to negotiate a franchise agreement extension for a ten year term with the option to extend the agreement for up to an additional five years at the City's sole discretion.

On November 25, 2019, the City Council adopted Resolution No. 2019-190 to extend the expiration date of the Franchise Agreement for one year to allow City staff and Livermore Sanitation, Inc. time to complete negotiations for a third amended and restated agreement for solid waste, recyclable materials, and compostable materials services.

Staff negotiated and recommended for approval changes to update the current Franchise Agreement with Livermore Sanitation, Inc. ("LSI") to:

- Extend the term by ten years, until June 30, 2030, with the option for up to a five-year extension at the City's sole discretion;
- Allow the purchase of new equipment, including vehicles and upgrades to LSI's

Compressed Natural Gas fueling station;
- Modify the recyclable materials costs methodology;
- Prepare for new state legislation (e.g. SB 1383);
- Approve rates for Fiscal Year 2020/2021 (Rate Year 11) and Fiscal Year 2021/2022 (Rate Year 12), which delays the rate increase in Rate Year 11 due to the community impacts from the COVID-19 pandemic; and
- Describe infrastructure, programmatic enhancements, and other minor administrative changes.

On April 27, 2020, the City Council considered staff's recommendations together with the proposed amendments to the Franchise Agreement, and testimony at a noticed City Council meeting.

Following the review, the City Council agreed to the recommended amendments to the Franchise Agreement.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that the City Manager is authorized to sign, on behalf of the City of Livermore, the *Third Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services*, attached hereto as Exhibit A. A copy of the original agreement, and all subsequent amendments thereto, are on file in the Office of the City Clerk.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that rate adjustments requested by Livermore Sanitation Inc. for Rate Period 11, effective January 1, 2021 through June 30, 2021, and for Rate Period 12, effective July 1, 2021 through June 30, 2022, as recommended by staff and consistent with the methodology in the agreement and in response to the COVID-19 pandemic, are hereby approved.

On motion of Vice Mayor Woerner, seconded by Council Member Carling, the foregoing resolution was passed and adopted on April 27, 2020, by the following vote:

AYES:	Council Members Carling, Coomber, Munro, Vice Mayor Woerner, Mayor Marchand

P Memorandum of Understanding Between The City of Livermore, Alameda County, And Livermore Sanitation, Inc. Regarding Solid Waste and Recycling Services

Q Contract Between The Livermore Valley Joint Unified School District and Livermore Sanitation, Inc.

Third Amended and Restated Agreement between the City of Livermore and Livermore Sanitation, Inc.

For Solid Waste, Recyclable Materials and Compostable Materials Services

THIS THIRD AMENDED AND RESTATED AGREEMENT is made and entered into as of the 28th day of April, 2020, by and between the City of Livermore (hereinafter "the City") and Livermore Sanitation, Inc. (hereinafter referred to as the "Contractor").

RECITALS

This Agreement is entered into with reference to the following facts and circumstances:

WHEREAS; the Legislature of the State of California, by enactment of the California Integrated Waste Management Act of 1989, AB 939, (California Public Resources Code Section 40000 et seq.), has declared that it is in the public interest to authorize and require local agencies to make adequate provisions for Solid Waste Collection within their jurisdiction;

WHEREAS; the State of California has found and declared that the amount of refuse generated in California, coupled with diminishing Disposal Site space and potential adverse environmental impacts from landfilling and the need to conserve natural resources, have created an urgent need for State and local agencies to enact and implement an aggressive integrated waste management program. The State has, through enactment of the AB 939 and subsequent related legislation including, but not limited to: the Jobs and Recycling Act of 2011 (AB 341), the Event and Venue Recycling Act of 2004 (AB 2176), SB 1016 (Chapter 343, Statutes of 2008), the Compostable Organics Management Act of 2014 (AB 1594), the Mandatory Commercial Organics Recycling Act of 2014 (AB 1826), and the Short-Lived Climate Pollutants Bill of 2016 (SB 1383), directed the responsible State agency, and all local agencies, to promote Disposal Site Diversion and to maximize the use of feasible waste reduction, re-use, Recycling and Composting options in order to reduce the amount of refuse that must be Disposed of in Disposal Sites;

WHEREAS; SB 1383 establishes regulatory requirements for jurisdictions, Generators, haulers, Solid Waste facilities, and other entities to achieve the Organic Waste Disposal reduction targets; and,

WHEREAS; SB 1383 requires jurisdictions to implement Collection programs, meet Processing facility requirements, conduct contamination monitoring, provide education, maintain records, submit reports, monitor compliance, and fulfill other requirements; and the City of Livermore has chosen to delegate some of its responsibilities to Contractor through this Agreement; and,

WHEREAS; in 1990 the Alameda County Waste Reduction and Recycling Initiative Charter Amendment established a County-wide Solid Waste Diversion rate goal of seventy-five percent (75%) by 2010;

WHEREAS; on November 26, 2007, the City of Livermore adopted a resolution establishing a Solid Waste Diversion goal of seventy-five percent (75%) by 2015 to support the County-wide Diversion goal of seventy-five percent (75%);

WHEREAS; in 2010, the Alameda County Source Reduction and Recycling Board ("StopWaste") adopted a Strategic Plan including a new waste Diversion goal: by 2020, less than 10 percent of what winds up in Alameda County's landfills will be readily Recyclable or Compostable;

WHEREAS; through its recent membership in the Alameda County Climate Protection Project, the City of Livermore has committed to reducing its greenhouse gas emissions; and the United States Environmental Protection Agency has found that greenhouse gas emissions could be significantly reduced through Recycling, especially the Recycling of paper;

WHEREAS; the City Council authorized participation in the Alameda County Waste Management Authority's Mandatory Recycling Ordinance Phase 1 on February 13, 2012 effective July 1, 2012; and Phase 2 on October 14, 2013 effective July 1, 2014; to require that all Commercial and Multi-Family Customers Divert Recyclable Materials and Organics such as Food Scraps, yard waste, and food-contaminated paper;

WHEREAS; under Title 8, Section 8.08, Solid Waste Management of the City of Livermore Municipal Code, the City has the authority to provide for the Collection, Transport, Processing, marketing, and Disposal of Solid Waste, Recyclable Materials and Compostable Materials through a franchise agreement;

WHEREAS; pursuant to California Public Resources Code Section 40059(a)(2), the City has determined that the public health, safety, and well-being require that an exclusive right be awarded to a qualified contractor to provide for the Collection of Solid Waste, Recyclable Materials, and Compostable Materials, and other services related to meeting the City's seventy-five percent (75%) Diversion goal;

WHEREAS; the City Council further declares its intent to approve and maintain reasonable Rates for the Collection, Transportation and Recycling, Processing, Composting and/or Disposal of Solid Waste, Recyclable Materials, and Compostable Materials;

WHEREAS; the City Council desires, having determined through a competitive procurement for services that Contractor, by demonstrated experience, reputation and capacity is qualified to provide for both the Collection of Solid Waste, Recyclables Materials, and Compostable Materials within the corporate limits of the City and the Transportation of such material to appropriate places of Processing, Recycling, Composting and/or Disposal, that Contractor be engaged to perform such services on the basis set forth in this Agreement;

WHEREAS; The Agreement Between The City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials, and Compostable Materials Services was approved by the City Council of the City of Livermore on September 28, 2009.

WHEREAS; On May 9, 2011, the City Council adopted Resolution No. 2011-069 approving the Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services.

WHEREAS; On September 8, 2014, the City Council adopted Resolution No. 2014-141 approving the Second Amended and Restated Agreement Between the City of Livermore and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials Services (the "Prior Agreement").

WHEREAS; On June 8, 2015, the City Council adopted Resolution No. 2015-075 approving the Special Rate Review Amendment to the Prior Agreement.

WHEREAS; On November 9, 2015, the City Council adopted Resolution No. 2015-157 approving the Second Amendment to the Prior Agreement regarding Processing costs at the Alameda County Industries, LLC, Materials Recovery Facility (SRRA) which have been incorporated into the Rates approved by the City Council; and

WHEREAS; the Parties now desire to update the Prior Agreement to: extend the term of the Prior Agreement, ensure the City's ongoing regulatory compliance, and to provide for expanded services.

NOW, THEREFORE, in consideration of the mutual promises, covenants, and conditions contained in this Agreement and for other good and valuable consideration, the Parties agree as follows:

ARTICLE 1.
DEFINITIONS

For purposes of this Agreement, unless a different meaning is clearly required, the following terms shall have the following meanings and be capitalized throughout this Agreement:

1.1 AB 341

"AB 341" means the California Jobs and Recycling Act of 2011 (Chapter 476, Statutes of 2011 [Chesbro, AB 341]), also commonly referred to as "AB 341", as amended, supplemented, superseded, and replaced from time to time.

1.2 AB 1594

"AB 1594" means California Public Resources Code Section 41781.3 et seq., pursuant to which, commencing January 1, 2020, the use of green material as landfill alternative daily cover does not constitute Diversion through Recycling and shall be considered Disposal.

1.3 AB 1826

"AB 1826" means the Organic Waste Recycling Act of 2014 (Chapter 727, Statutes of 2014 modifying Division 30 of the California Public Resources Code), also commonly referred to as "AB 1826," as amended, supplemented, superseded, and replaced from time to time.

1.4 Act

"Act" means the California Integrated Waste Management Act of 1989 (California Public Resources Code Section 40000 et seq.), as amended, supplemented, superseded and replaced from time to time.

1.5 Affiliate

"Affiliate" means all businesses (including corporations, limited and general partnerships and sole proprietorships) which provide services or products related to services under this Agreement and which are directly or indirectly related to Contractor by virtue of direct or indirect Ownership interest or common management. They shall be deemed to be "Affiliated with" Contractor and included within the term

"Affiliates" as used herein. An Affiliate shall include: (i) a business in which Contractor has a direct or indirect Ownership interest, (ii) a business, which has a direct or indirect Ownership interest in Contractor and/or (iii) a business, which is also Owned, controlled or managed by any business or individual which has a direct or indirect Ownership interest in Contractor. For the purposes of this definition, "Ownership" means ownership as defined in the constructive ownership provisions of Section 318(a) of the Internal Revenue Code of 1986, as in effect on the date here, provided that ten percent (10%) shall be substituted for fifty percent (50%) in Section 318(a)(2)(C) and in Section 318(a)(3)(C) thereof; and Section 318(a)(5)(C) shall be disregarded. For purposes of determining ownership under this paragraph and constructive or indirect ownership under Section 318(a), ownership interest of less than ten percent (10%) shall be disregarded and percentage interests shall be determined on the basis of the percentage of voting interest or value which the ownership interest represents.

1.6 Agreement

"Agreement" means this Third Amended and Restated Agreement, including all exhibits, and any future amendments hereto between the City and Livermore Sanitation, Inc. for Solid Waste, Recyclable Materials and Compostable Materials services described herein.

1.7 Agreement Fee

"Agreement Fee" means the fee paid by Contractor to City for the privilege to hold the exclusive rights granted by this Agreement.

1.8 Alameda County Mandatory Recycling Ordinance

"Alameda County Mandatory Recycling Ordinance" means Alameda County Waste Management Authority Ordinance No 2012-1 adopted on January 25, 2012, as amended, supplemented, superseded, and replaced from time to time.

1.9 Alameda County Plant Debris Ban

"Alameda County Plant Debris Ban" means Alameda County Waste Management Authority Ordinance No 2008-1 adopted on January 28, 2009, as amended, supplemented, superseded, and replaced from time to time.

1.10 Alternative Landfill Cover

"Alternative Landfill Cover" means cover material used at a Disposal Site, other than earthen materials, placed on the surface of the refuse fill area as daily cover, intermediate cover, or final cover to control blowing Litter, fires, odor, scavenging and vectors; or, means materials used as soil amendments for erosion control and landscaping. Food Scraps, Yard Trimmings, and Other Targeted Compostables shall not be used as Alternative Landfill Cover."

1.11 Appliance

"Appliance" means any domestic or Commercial device, including, but not limited to, a washing machine, clothes dryer, hot water heater, dehumidifier, conventional oven, microwave oven, stove, refrigerator, freezer, air conditioner, trash compactor, and Residential furnace.

1.12 Applicable Law

"Applicable Law" means all federal, State, and local laws, regulations, rules, orders, judgments, degrees, permits, approvals, or other requirement of any governmental agency having jurisdiction over the Collection, Transportation, Processing, and Disposal of Solid Waste, Recyclable Materials, and Compostable Materials that are in force on the Effective Date and as they may be enacted, issued or amended during the Term of this Agreement.

1.13 Approved Composting Site

"Approved Composting Site" means the Blossom Valley Organics North Composting Site operated by Grover Landscape Services, Inc. at 3909 Gaffery Road in Vernalis, California, which was selected by Contractor, and approved by the City Contract Manager.

1.14 Approved Construction and Demolition Debris (C&D) Processing Site

"Approved C&D Processing Site" means the Republic Services Vasco Road, LLC facility at 4001 N. Vasco Road in Livermore, California, which was selected by Contractor, and approved by the City Contract Manager.

1.15 Approved Disposal Site

"Approved Disposal Site" means the landfill commonly known as Vasco Road Sanitary Landfill, which is owned and operated by Republic Services Vasco Road, LLC, a wholly-owned subsidiary of Republic Services, Inc., and located at 4001 North Vasco Road in unincorporated Alameda County, California. This Disposal Site was selected by the City and approved for Disposal of Solid Waste Collected by the Contractor.

1.16 Approved Facility(ies)

"Approved Facility(ies)" means the Approved C&D Processing Site, Approved Composting Site, Approved Disposal Site, and/or the Approved Recyclables Processing Site, individually or collectively.

1.17 Approved Recyclables Processing Site

"Approved Recyclables Processing Site" means the Alameda County Industries, LLC Processing Site at 610 Aladdin Avenue in San Leandro, California, which was selected by Contractor, and approved by the City Contract Manager.

1.18 Billings

"Billings" means any and all statements of charges for services rendered, howsoever made, described or designated by Contractor, or made by another for City or Contractor, presented to Customers that are serviced by Contractor for the Collection of Solid Waste, Recyclable Materials, and Compostable Materials under this Agreement.

1.19 Bin(s)

"Bin(s)" means a detachable metal Container with a capacity of one to seven (1 to 7) cubic yards and hinged lid(s), which may have wheels, and that is serviced by a front-end loading or rear-end loading Collection truck.

1.20 Bin Service

"Bin Service" means service provided to Customers for Solid Waste Collection using Bins as defined in Section 1.19. Bin Service may be used by Commercial Premises, Multi-Family Premises, or Single-Family Premises generating large volumes of Solid Waste.

1.21 Bulky Item

"Bulky Item" means discarded Appliances, furniture, tires, carpets, mattresses, and similar large items which require special Collection due to their size or nature, but can be Collected without the assistance of special loading equipment (such as forklifts or cranes) and without violating vehicle load limits. It does not include abandoned automobiles, large auto parts, or trees.

1.22 Business Days

"Business Days" mean days during which City offices are open to do business with the public.

1.23 Cart(s)

"Cart(s)" means a wheeled plastic Container with varying capacities of twenty (20), thirty-two (32), sixty-four (64), and ninety-six (96) gallons that is equipped with a hinged lid designed for mechanical pickup by an automated or semi-automated Collection vehicle. The 32-gallon Cart is a Cart with 32 gallons of capacity in the Cart body and 3 gallons in the domed lid for a total capacity of 35 gallons.

1.24 Cart Service

"Cart Service" means Collection services provided to Customers using Carts as defined in Section 1.23. Cart Service may be used by Single-Family Premises, Multi-Family Premises, or Small Commercial Generators.

1.25 Change in Law

"Change in Law" means any of the following events or conditions which has a material and adverse effect on the performance by the Parties of their respective obligations under this Agreement (except for payment obligations):

A. The enactment, adoption, promulgation, issuance, modification, or written change in administrative or judicial interpretation on or after the Effective Date of any Applicable Law; or

B. The order or judgment of any governmental body, on or after the Effective Date, to the extent such order or judgment is not the result of willful or negligent action, error or omission or lack of reasonable diligence of the City or of the Contractor, whichever is asserting the occurrence of a Change in Law; provided, however, that the contesting in good faith or the failure in good faith to contest any such order or judgment shall not constitute or be construed as such a willful or negligent action, error or omission or lack of reasonable diligence.

1.26 City

"City" means the City of Livermore, a municipal corporation, and all the territory lying within the municipal boundaries of the City as presently existing or as such boundaries may be modified during the Term.

1.27 City Contract Manager

"City Contract Manager" means the Public Works Director or his or her designee.

1.28 Collection (or variation thereof)

"Collection" means the removal and Transportation of Solid Waste from the place where it was generated to a Disposal Site and/or the removal and Transportation of Recyclable Materials, Compostable Materials, and other Salvageable Materials from the place where such materials were generated to a Processing Site.

1.29 Commencement Date

"Commencement Date" means the date specified in Section 3.1 when Collection, Transportation, Processing, and Disposal services required by this Agreement shall be provided.

1.30 Commercial

"Commercial" means of, from or pertaining to non-Residential Premises where business activity is conducted, including, but not limited to, retail sales, services, wholesale operations, manufacturing and industrial operations, but excluding businesses conducted upon Residential property which are permitted under applicable zoning regulations and are not the primary use of the property.

1.31 Compactor

"Compactor" means a mechanical apparatus that compresses materials. Compactors include two (2) to four (4) cubic yard Bin Compactors serviced by front-end loader Collection trucks and six (6) to forty (40) cubic yard Drop Boxes serviced by roll-off Collection trucks.

1.32 Complaint

"Complaint" means written or orally communicated statements made by members of the public, Owners or Occupants of properties served by Contractor, or officers, employees or agents of City alleging non-performance or deficiencies in performance of Contractor's duties and obligations under this Agreement, or otherwise alleging a violation by Contractor of the provisions of this Agreement.

1.33 Compost (or Composting)

"Compost (or Composting)" "Compost" has the same meaning as in 14 CCR § 17896.2(a)(4).

1.34 Compost Product

"Compost Product" means the product resulting from the controlled biological decomposition of Compostable Materials that are Source Separated from the municipal Solid Waste stream, or which are separated at a centralized facility.

1.35 Compostable Materials (or Compostables)

"Compostable Materials" or "Compostables" means those Discarded Materials that the City's Code permits, directs, and/or requires Generators to include for Collection in a Container, which is specifically designated for Compostable Materials. No Discarded Material shall be considered to be Compostable Materials, however, unless it is separated from Solid Waste and Recyclable Material. Compostable

Materials include Yard Trimmings, Food Scraps, Food-Contaminated Paper, and Other Targeted Compostables.

1.36 Compostable Plastics

"Compostable Plastics" means plastic materials that meet the ASTM D6400 standard for Compostability.

1.37 Composting Site

"Composting Site" means any plant, facility, or site used for the Processing and Composting of Compostable Materials for the purpose of making Compost, mulch, or other marketable material.

1.38 Construction and Demolition Debris

"Construction and Demolition Debris" also abbreviated "C&D Debris" in this Agreement, means used or discarded construction materials (not including Solid Waste) removed from Premises during the construction or renovation of a structure resulting from construction, remodeling, repair or demolition operations on any pavement, house, Commercial building, or other structure.

1.39 Container

"Container" means a receptacle for temporary storage of Solid Waste, Compostable Materials, or Recyclable Materials to be Collected by Contractor. Container includes a Cart, Bin, Drop Box, or Compactors.

1.40 Contractor

"Contractor" means Livermore Sanitation, Inc., a corporation organized and operating under the laws of the State of California and its officers, directors, employees, agents, companies and Subcontractors.

1.41 Contractor's Compensation

"Contractor's Compensation" means the monetary compensation received by Contractor from Customers in return for services provided by Contractor in accordance with this Agreement, and pursuant to Article 8.

1.42 Contractor's Proposal

"Contractor's Proposal" means the proposal submitted by Contractor on April 13, 2009 for provision of Solid Waste, Recyclables, and Compostable Materials services in the City and certain supplemental written materials, which are included as Exhibit M to this Agreement and are incorporated by reference; and the proposal submitted by Contractor on December 6, 2019 for provision of Solid Waste, Recyclables, and Compostable Materials services in the City and certain supplemental written materials, which are included as Exhibit G1 to this Agreement and are incorporated by reference. If there is a conflict between Exhibit M and Exhibit G1, Exhibit G1 shall prevail.

1.43 County

"County" means the County of Alameda, located within the State of California.

1.44 Curb or Curbside

"Curb or Curbside" means the location for placement of a Cart for pick-up by Single-Family Customers, which shall be on the street against the face of the curb, or where no street curb exists, the Container shall be placed on the Customer's property at a location that is not more than five (5) feet from the outside edge of the street. In the case of condominiums and townhomes receiving Single-Family service, placement of Carts shall be adjacent to each Residential unit at a location agreed upon by both Contractor and Customer.

1.45 Customer

"Customer" means the Person to whom Contractor submits Billing invoices and from whom collects payment for Collection services provided to a Premises. The Customer may be the Occupant or Owner of the Premises provided that the Owner of the Premises shall be responsible for payment of Collection services if an Occupant of a Premises, which is identified as the Customer of Owner's Premises, fails to make such payment.

1.46 Delivery

"Delivery" means placement of Solid Waste, Recyclable Materials, or Compostable Materials by a Generator in a receptacle or at a location that is designated for Collection pursuant to the City's Municipal Code.

1.47 Designated Waste

"Designated Waste" means non-Hazardous Waste which may pose special Disposal problems because of its potential to contaminate the environment and which may be Disposed of only in Class II Disposal Sites or Class III Disposal Sites pursuant to a variance issued by the California Department of Health Services. Designated Waste consists of those substances classified as Designated Waste by the State of California, in California Water Code Section 13173.

1.48 Discarded Material

"Discarded Material" means Solid Waste, Recyclable Materials, Organic Materials, Bulky Items or Construction and Demolition Debris placed by a Generator in a Container, receptacle or at a location that is designated for Collection pursuant to the City's Municipal Code.

1.49 Disposal (or Disposed, or any variation thereof)

"Disposal" or "Disposed," or any variation thereof, means the final disposition of Solid Waste Collected by the Contractor at a Disposal Site approved by the City. Disposal does not include Alternative Landfill Cover so long as City and State regulations consider Alternative Landfill Cover as Diversion under the Act.

1.50 Disposal Site(s)

"Disposal Site(s)" means a facility for ultimate Disposal of Solid Waste.

1.51 Diversion

"Diversion" means activities that reduce or eliminate the amount of Solid Waste from Solid Waste Disposal including, but not limited to, Recycling and Composting.

1.52 Diversion Level

"Diversion Level" means the percentage equal to the Tonnage Diverted by Contractor divided by the Tonnage Collected by Contractor multiplied by 100, which reflects the accomplishments of the Contractor's Diversion programs.

1.53 Drop Box

"Drop Box," sometimes known as a "roll-off" or "debris box," means a wheeled or sledded Container or Compactor, generally with a capacity of six (6) to forty (40) cubic yards, suitable for storage of Solid Waste, Recyclable Materials or Compostable Materials that is separately serviced by a truck, which Transports the Drop Box and the materials contained within to a Disposal Site, Processing Site, Transfer Station, or Composting Site.

1.54 Drop Box/Compactor Service

"Drop Box/Compactor Service" means the service requested by any Generator requiring Drop Boxes or roll-off Compactors for Collection of Solid Waste, Recyclable Materials or Compostable Materials.

1.55 Edible Food

"Edible Food" means food that is fit to be consumed. Edible Food is not Solid Waste if it is recovered and not discarded. Nothing in this Agreement requires or authorizes the recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code.

1.56 Effective Date

"Effective Date" means the date on which the latter of the Parties signs the Agreement and the date on which Contractor may begin to take actions and incur costs in preparation to provide Collection, Transportation, and Processing Services required by this Agreement.

1.57 E-Waste

"E-Waste" means discarded electronic equipment including, but not limited to, televisions, computer monitors, central processing units (CPUs), laptop computers, computer peripherals (including external hard drives, keyboards, scanners, and mice), printers, copiers, facsimile machines, radios, stereos, stereo speakers, VCRs, DVDs, camcorders, microwaves, telephones, cellular telephones, and other electronic devices. Some E-Waste or components thereof may be Hazardous Waste or include Hazardous Substances and thus require special handling, Processing, or Disposal.

1.58 Excluded Waste

"Excluded Waste" means Hazardous Substance, Hazardous Waste, Infectious Waste, Designated Waste, volatile, corrosive, biomedical, infectious, biohazardous, and toxic substances or material, waste that Contractor reasonably believes would, as a result of or upon Disposal, be a violation of local, State or Federal law, regulation or ordinance, including land use restrictions or conditions, waste that cannot be Disposed of in Class III landfills, waste that in Contractor's reasonable opinion would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose Contractor or City to potential liability; but not including de minimis volumes or concentrations of waste of a type and amount normally found in Residential Solid Waste after implementation of programs for the safe Collection, Recycling, treatment, and Disposal of batteries and paint in compliance with Sections 41500

and 41802 of the California Public Resources Code. Excluded Waste does not include Used Motor Oil and Filters, or household batteries when properly placed for Collection by Contractor as set forth in this Agreement.

1.59 Food Recovery Organization

"Food Recovery Organization" means an entity that primarily engages in the collection or receipt of Edible Food from Commercial Edible Food Generators and distributes that Edible Food to the public for consumption directly or through entities, including, but not limited to:

A. A food bank as defined in Section 113783 of the Health and Safety Code;

B. A nonprofit charitable organization as defined in Section 113841 of the Health and Safety Code; and,

C. A nonprofit charitable temporary food facility as defined in Section 113842 of the Health and Safety Code.

1.60 Food Recovery Service

"Food Recovery Service" means a Person or entity that collects and transports Edible Food from an Edible Food Generator to a Food Recovery Organization or other entities for Food Recovery.

1.61 Food Scraps

"Food Scraps" means those Discarded Materials that will decompose and/or putrefy including (i) all kitchen and table food waste, (ii) animal or vegetable waste that is generated during or results from the storage, preparation, cooking or handling of food stuffs, (iii) discarded paper that is contaminated with Food Scraps; (iv) fruit waste, grain waste, dairy waste, meat and fish waste; and, (v) non-Recyclable paper or contaminated paper. Food Scraps are a subset of Compostable Materials.

1.62 Franchise Monitoring and Enforcement Fee

"Franchise Monitoring and Enforcement Fee" means the fee paid by Contractor to the City to offset expenses associated with the City's franchise monitoring and enforcement costs.

1.63 Generator

"Generator" means any Person as defined by Section 40170 of the Public Resources Code, whose act or process produces Solid Waste, Recyclable Materials, or Compostable Materials as defined in the Public Resources Code, or whose act first causes Solid Waste to become subject to regulation.

1.64 Government Customer

"Government Customer" means any Federal, State or local district or agency (including school districts and other Special Districts) located within the City limits of the City of Livermore.

1.65 Gross Rate Revenue

"Gross Rate Revenue" means the actual monies remitted to Contractor by Customers, which shall be determined in accordance with Generally Accepted Accounting Principles.

1.66 Gross Revenue

"Gross Revenue" means the revenue realized at the time of Contractor service delivery, which shall be determined in accordance with Generally Accepted Accounting Principles.

1.66 Hazardous Substance

"Hazardous Substance" means any of the following: (a) any substances defined, regulated or listed (directly or by reference) as "Hazardous Substances", "hazardous materials", "Hazardous Wastes", "toxic waste", "pollutant" or "toxic substances" or similarly identified as hazardous to human health or the environment, in or pursuant to (i) the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980, 42 USC §9601 et seq. (CERCLA); (ii) the Hazardous Materials Transportation Act, 49 USC §1802, et seq.; (iii) the Resource Conservation and Recovery Act, 42 USC §6901 et seq.; (iv) the Clean Water Act, 33 USC §1251 et seq.; (v) California Health and Safety Code §§25115-25117, 25249.8, 25281, and 25316; (vi) the Clean Air Act, 42 USC §7901 et seq.; and (vii) California Water Code §13050; (b) any amendments, rules or regulations promulgated thereunder to such enumerated statutes or acts currently existing or hereafter enacted; and (c) any other hazardous or toxic substance, material, chemical, waste or pollutant identified as hazardous or toxic or regulated under any other applicable federal, State or local environmental laws currently existing or hereinafter enacted, including, without limitation, friable asbestos, polychlorinated biphenyl's ("PCBs"), petroleum, natural gas and synthetic fuel products, and by-products.

1.67 Hazardous Waste

"Hazardous Waste" means all substances defined as Hazardous Waste, acutely Hazardous Waste, or extremely Hazardous Waste by the State of California in Health and Safety Code Sections 25117, 25110.02, and 25115, or in the future amendments to or recodifications of such statutes, or identified and listed as Hazardous Waste by the U.S. Environmental Protection Agency, pursuant to the Federal Resource Conservation and Recovery Act (42 USC Section 6901, et seq.), all future amendments thereto and all rules and regulations promulgated thereunder. Hazardous Waste includes hazardous wood waste.

1.68 Holidays

"Holidays" are defined as New Year's Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day for the purposes of planning the Collection schedule.

1.69 Household Hazardous Waste

"Household Hazardous Waste" means Hazardous Waste generated at Residential Premises within the City.

1.70 Infectious Waste

"Infectious Waste" means medical or biomedical waste generated at hospitals, public or private medical clinics, dental offices, research laboratories, pharmaceutical industries, blood banks, mortuaries, veterinary facilities and other similar establishments that are identified in Health and Safety Code Section 25117.5.

1.71 Large Event

"Large Event" means an event, including, but not limited to, a sporting event or a flea market, that charges an admission price, or is operated by a local agency, and serves an average of more than 2,000 individuals

per day of operation of the event, at a location that includes, but not limited to, a public, nonprofit, or privately owned park, parking lot, golf course, street system, or other open space when being used for an event.

1.71 Large Venue

"Large Venue" means a permanent venue facility that annually seats or serves an average of more than 2,000 individuals within the grounds of the facility per day of operation of the venue facility. For purposes of this Agreement, a venue facility includes, but is not limited to, a public, nonprofit, or privately owned or operated stadium, amphitheater, arena, hall, amusement park, conference or civic center, zoo, aquarium, airport, racetrack, horse track, performing arts center, fairground, museum, theater, or other public attraction facility. For purposes of this Agreement, a site under common Ownership or control that includes more than one Large Venue that is contiguous with other Large Venues in the site, is a single Large Venue.

1.72 Liquidated Damages

"Liquidated Damages" means the amounts owed by Contractor to City for failure to meet specific quantifiable standards of performance as described in Section 11.6 and Exhibit F.

1.73 Litter

"Litter" means any quantity of Solid Waste, Recyclable Materials, or Compostable Materials, which is not placed in a Container.

1.74 Livermore Valley Joint Unified School District

"Livermore Valley Joint Unified School District" means the public school district located in Livermore, California.

1.75 Mandatory Recycling Ordinance

"Mandatory Recycling Ordinance" means the Alameda County Waste Management Authority's Ordinance 2012-01. The City of Livermore City Council consented to participate in Phase 1 of the Mandatory Recycling Ordinance on February 13, 2012, and the City of Livermore City Council consented to participate in Phase 2 of the Mandatory Recycling Ordinance on October 14, 2013.

1.76 Multi-Family

"Multi-Family" means any Residential complex, other than a Single- Family Premises, used for Residential purposes, which has centralized Solid Waste, Recyclable Materials, and Compostable Materials Collection service for all Residential units in the building and may be billed as one address.

1.77 Neighborhood Preservation Fee

"Neighborhood Preservation Fee" means the fee paid by Contractor to City to aid the City's Community Development Department which assists in resolving health, safety, and public nuisance problems that may adversely affect the quality of life for citizens of the City pursuant to Section 7.6.

1.78 Nonputrescible Waste

"Nonputrescible Waste" means Solid Waste which is not subject to decomposition by microorganisms.

1.79 Occupant

"Occupant" means and includes every tenant or Person who is in possession of, is the inhabitant of, or has the care and control of, an inhabited Single-Family Premises, Multi-Family Premises, or Commercial Premises.

1.80 On-Call Multi-Family Clean-Up Service

"On-Call Multi-Family Clean-Up Service" means the program described in Section 5.2.2.B.

1.81 On-Call Single-Family Clean-Up Service

"On-Call Single-Family Clean-Up Service" means the program described in Section 5.2.2.A.

1.82 Organic Waste

"Organic Waste" means Solid Wastes containing material originated from living organisms and their metabolic waste products including, but not limited to food, Yard Trimmings, organic textiles and carpets, lumber, wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges, or as otherwise defined by SB 1383. Paper products, printing and writing paper, biosolids, and digestate are defined by SB 1383.

1.83 Organics or Organic Materials

See "Compostables" or "Compostable Materials"

1.84 Other Targeted Compostables

"Other Targeted Compostables" means those Discarded Materials that will decompose and/or putrefy including waxed cardboard, wooden packaging such as crates, and untreated and unpainted wallboard. Other Targeted Compostables exclude Yard Trimmings and Food Scraps. Other Targeted Compostables are a subset of Compostable Materials.

1.85 Owner

"Owner" means the Person holding legal title to the land or building.

1.86 Party or Parties

"Party or Parties" refers to the City and Contractor, individually or together.

1.87 Person

"Person" includes an individual, firm, limited liability company, association, partnership, political subdivision, government agency, municipality, industry, public or private corporation, or any other entity whatsoever.

1.88 Premises

"Premises" means any land or building in the City where Solid Waste, Recyclable Materials, or Compostable Materials are generated or accumulated.

1.89 Processing

"Processing" means to prepare, treat, or convert through some special method, including, but not limited to, baling, crushing, shredding, chipping, grinding, extracting, mechanical or hand classification and any other method of handling Recyclable Materials, Organic Materials, and Construction and Demolition Debris by the Contractor at the Approved Facility(ies).

1.90 Processing Site

"Processing Site" means any plant or site used for the purpose of sorting, cleansing, treating or reconstituting Salvageable Material for the purpose of making such material available for reuse. Activities that may be undertaken at a Processing Facility include, but are not limited to, Processing Compostable Materials and Recyclable Materials.

1.91 Property Manager

"Property Manager" means an individual or company that is hired to oversee the day-to-day operations of a unit of real estate.

1.92 Putrescible Waste

"Putrescible Waste" means Solid Wastes originated from living organisms and their metabolic waste products and from petroleum, which contains naturally produced organic compounds and which are biologically decomposable by microbial and fungal action into the constituent compounds of water, carbon dioxide and other simpler organic compounds.

1.93 Rate

"Rate" means the dollar unit to be charged a Customer by Contractor for providing Solid Waste Collection, Transportation, and Disposal, Recyclable Materials Collection, Transportation, and Processing services, Compostable Materials Collection, Transportation, and Processing services, and other extra services.

1.94 Rate Period

"Rate Period" means a twelve (12) month period, commencing July 1 and concluding June 30.

1.95 Rate Review and Performance Review Fee

"Rate Review and Performance Review Fee" means the fee paid by Contractor to City to offset costs of contracting with a consultant in order to review the Contractor Rate adjustment application pursuant to Section 7.4 and conduct a review of Contractor's performance pursuant to Section 6.17.

1.96 Recyclable Materials or Recyclables

"Recyclable Materials or Recyclables" means those non-hazardous Residential or Commercial materials or by-products which are set aside, handled, packaged, or offered for Collection in a manner different from Solid Waste, for the purpose of being reused or Processed and then returned to the economic mainstream in the form of commodities. For the purposes of this Agreement, Recyclable Materials shall be those Discarded Materials that the City Municipal Code permits, directs and/or requires Generators to set out in a Container, which is specifically designated for Recyclable Materials, for Collection for the purpose of

Recycling. No Discarded Material shall be considered to be Recyclable Material unless it is separated from Solid Waste and Compostable Material. Recyclable Materials may include, but are not limited to:

- Paper Materials: Newspaper, corrugated cardboard, mixed paper, cereal boxes, office paper, junk mail, phone books, magazines, and colored paper including incidental paper scraps and envelopes.
- Containers: Glass bottles and jars, aluminum cans, metal cans, milk containers, all #1 to #7 plastic containers, aseptic packaging, milk cartons, film plastic, and empty aerosol cans.
- Motor oil and filters: Used motor oil and oil filters (for Single-Family Customers and Multi-Family with Carts).
- Construction and Demolition Debris in Drop Boxes, as Construction and Demolition Debris is not accepted in Carts, Bins, or Compactors.
- Other: Plastic bags, E-Waste peripherals, rigid plastics, hard cover books, and scrap metal/aluminum under 40 pounds.

1.97 Recycling

"Recycling" means the process of sorting, cleansing, treating and reconstituting Recyclable Materials at a Processing Site and returning such materials to the economic mainstream in the form of raw materials for new, reused or reconstituted products. Recycling does not include transformation as defined in the Public Resources Code Section 40201.

1.98 Related Party Entity

"Related Party Entity" means any Affiliate which has financial transactions with Contractor pertaining to this Agreement that has been approved by the City. For the purposes of this Agreement, Related Party Entities shall include Alameda County Industries, LLC, the Owner and operator of the Approved Recyclables Processing Site.

1.99 Residential

"Residential" shall mean of, from, or pertaining to a Single-Family Premises or Multi-Family Premises, including Single-Family homes, apartments, condominiums, townhouse complexes, mobile home parks, and cooperative apartments. Residential Customers may be charged per Commercial Rates as described in Exhibit H for Bin Service, Drop Box/Compactor Service, or for additional Cart Service beyond one time per week Collection.

1.100 Residential Premises

"Residential Premises" means a site occupied by a building zoned for Residential occupation where Solid Waste, Recyclable Materials, or Compostable Materials are generated or accumulated. No place used primarily for business purposes shall be considered a Residential unit.

1.101 Residue or Residual (or any variation thereof)

"Residue or Residual (or any variation thereof)" means those materials which, after Processing, are Disposed rather than Recycled due to either the lack of markets for materials or the inability of the Processing Site to capture and recover the materials.

1.102 Re-Use Vendor

"Re-Use Vendor" means a vendor (e.g., St. Vincent DePaul, Goodwill Industries, or other non-profit or for-profit organizations) that will collect used furniture and other re-usable items for purposes of reuse rather than Disposal.

1.103 Route Review(s)

"Route Review(s)" mean a visual inspection of Containers along a hauler route for the purpose of determining contamination, and may include mechanical methods such as the use of cameras with a view of the hopper and using video object recognition technology.

1.104 Salvageable Material

"Salvageable Material" means those Discarded Materials that may be reused in their existing form or may be reused after some form of Processing including, but not limited to, Compostable Materials and Recyclable Materials.

1.105 SB 1383

"SB 1383" means the Short-Lived Climate Pollutants Act of 2016 (an act to add Sections 39730.5, 39730.6, 39730.7, and 39730.8 to the Health and Safety Code, and to add Chapter 13.1 [commencing with Section 42652] to Part 3 of Division 30 of the Public Resources Code, relating to methane emissions), also commonly referred to as "SB 1383," as amended, supplemented, superseded, and replaced from time to time.

1.106 Service Level

"Service Level" means and refers to the number and size of a Customer's Container(s) and the frequency of Collection service.

1.107 Service Type

"Service Type" refers separately to the following types of Solid Waste, Recyclable Materials, Compostable Materials and Food Scraps Collection services for each of the following types of services: Single-Family, Multi-Family Cart Service, Multi-Family Bin Service, Commercial Cart Service, Commercial Bin Service, Drop Box/Compactor Service, and City facilities service.

1.108 Single-Family

"Single-Family" means each unit used for or designated as a Single-Family Premises, including each unit of a duplex, triplex, townhouse or condominium which receives individual Solid Waste, Recyclable Materials, and/or Compostable Materials Collection services.

1.109 Single-Stream Recyclable Material

"Single-Stream Recyclable Material" means Recyclable Materials Collected in one stream that includes both paper and mixed container materials placed in one Container. For the purposes of this Agreement, Single-Stream Recyclable Materials include those Recyclable Materials specified in Section 1.96 except for Construction and Demolition Debris.

1.110 Small Commercial Generator

"Small Commercial Generator" means any Commercial Generator which generates less than ninety-six (96) gallons of Solid Waste per week and which subscribes to Cart Service for all Collection services.

1.111 Solid Waste

"Solid Waste" means all Putrescible and Nonputrescible solid, semisolid, and associated liquid waste, including garbage, trash, refuse, rubbish, ashes, industrial wastes, dewatered, treated or chemically fixed sewage sludge which is not a Hazardous Waste, special waste, and other discarded solid and semi-Solid Wastes, which the City Municipal Code requires Generators within the City to set out for Collection. Solid Waste does not include the following:

- Salvageable Materials set out for Collection in a Container, which is specifically designated for Recyclable Materials or Compostable Materials, or any other City-approved Container;
- Hazardous Waste;
- Low-level radioactive waste;
- Infectious Waste provided that Infectious Waste, whether treated or untreated, is not Disposed of at a Solid Waste facility. Infectious Waste which has been treated and which is deemed to be Solid Waste shall be considered Solid Waste under this definition;
- Abandoned automobiles;
- Compostables; and,
- Construction and Demolition Debris.

Solid Waste includes Salvageable Materials only when such materials are included for Collection in a Solid Waste Container.

1.112 Source Separated

"Source Separated" means the segregation from Solid Waste, by the Generator, of materials designated for separate Collection for some form of materials recovery or special handling.

1.113 Special District

"Special District" means a local agency formed to provide specialized services within defined geographic boundaries.

1.114 State

"State" means the State of California.

1.115 StopWaste.Org

"StopWaste" means the Alameda County Waste Management Authority, the Alameda County Source Reduction and Recycling Board and the Energy Council operating as one public agency.

1.116 Storage Capacity

"Storage Capacity" means the capacity of the Contractor to store Recyclable Materials under the terms of its facility permits

1.117 Street Sweeping Services Fee

"Street Sweeping Services Fee" means the fee paid by Contractor to City to offset costs of street sweeping services as pursuant to Section 7.3.

1.118 Subcontractor

"Subcontractor" means a party who has entered into a contract, express or implied, with the Contractor for the performance of an act that is necessary for the Contractor's fulfillment of its obligations under this Agreement and approved by the City in accordance with Section 12.6 of this Agreement for services such as, but not limited to, Collection, Transportation, Processing, Diversion, sales or marketing of Recyclable Materials or Compostable Materials, staffing, public education, Customer service, and Billing, or other service whose cost is a substantial portion of the Contractor's total annual cost. Notwithstanding any other provision in this Agreement, vendors providing materials, supplies, or professional business services to Contractor, and Approved Facilities that are not Affiliates of Contractor, shall not be considered Subcontractors for any purpose under this Agreement.

1.119 Supermarket

"Supermarket" means a full-line, self-service retail store with gross annual sales of two million dollars ($2,000,000), or more, and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items.

1.120 Temporary Homeless Encampment

"Temporary Homeless Encampment" means a transient or interim gathering or community residing out of doors on a site with services provided and supervised by a sponsor or managing agency comprised of temporary enclosures (tents and other forms of portable shelter that are not permanently attached to the ground), which may include common areas designed to provide food, living and sanitary services to occupants of the encampment.

1.121 Term

"Term" means the duration of this Agreement, as provided for in Article 3.

1.122 Third Party Fee(s)

"Third Party Fee(s)" means a defined fee or surcharge that is levied or assessed on each Solid Waste, Recycling, or Compostables account by a third party other than the City or Contractor, either identified in this Agreement or which may be levied or imposed by a third party during the Term of this Agreement, including, by way of example, fees levied by the Alameda County Waste Management Authority.

1.123 Tier One Commercial Edible Food Generators

"Tier One Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- Supermarket.
- Grocery Store with a total facility size equal to or greater than 10,000 square feet.
- Food Service Provider.
- Food Distributor.

- Wholesale Food Vendor.

1.124 Tier Two Commercial Edible Food Generators

"Tier Two Commercial Edible Food Generator" means a Commercial Edible Food Generator that is one of the following:

- Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 square feet.
- Hotel with an on-site food facility and 200 or more rooms.
- Health Facility with an on-site food facility and 100 or more beds.
- Large Venue.
- Large Event.
- A State agency with a cafeteria with 250 or more seats or total cafeteria facility size equal to or greater than 5,000 square feet.
- A Local Education Agency facility with an on-site food facility.

1.125 Ton (or Tonnage)

"Ton (or Tonnage)" means a unit of measure for weight equivalent to two thousand (2,000) standard pounds where each pound contains sixteen (16) ounces.

1.126 Transfer

"Transfer" means the act of moving the materials Collected by Contractor in their route vehicles into larger vehicles for Transport to other facilities for the purpose of Processing or Disposing of such materials.

1.127 Transfer Station

"Transfer Station" includes those facilities utilized to receive Solid Waste, Recyclable Materials, or Compostable Materials, temporarily store, and Transfer the materials from smaller to larger vehicles for transport.

1.128 Transformed

"Transformed" means incinerated, pyrolysised, distilled, gasified or biologically converted in a way other than Composted.

1.129 Transportation

"Transportation" means the act of conveyance from one place to another or state of being transported.

1.130 Unacceptable Spillage

"Unacceptable Spillage" means any Solid Waste, Recyclable Materials or Compostable Materials spilled or left at an established Collection site by Contractor after Collection, with the exception that small particles of grass clippings, leaves, and other small Yard Trimmings will not be considered Unacceptable Spillage.

1.131 Used Motor Oil and Filter

"Used Motor Oil and Filter" means motor oil and oil filter that has been used in a motor vehicle, and subsequently removed from such vehicle.

1.132 Used Oil Recovery Kit

"Used Oil Recovery Kit" means a kit containing: one (1) reusable plastic jug of at least one (1) gallon capacity with a watertight screw-on top to contain used motor oil; one (1) plastic disposable resealable bag of sufficient capacity to accommodate one (1) used motor oil filter; and, a flyer, brochure, or other informational media approved by the City Contract Manager intended to educate Customers about the Used Motor Oil and Filter Collection program and the benefits resulting from the proper handling of Used Motor Oil and Filters. The Used Oil Recovery Kit is to be provided to Customers by Contractor to recover Used Motor Oil and Filters from Single-Family and Multi-Family residents.

1.133 U-Waste

"U-Waste" means all wastes as defined by Title 22, Subsections 66273.1 through 66273.9 of the California Code of Regulations. These include, but are not limited to, batteries, fluorescent light bulbs, mercury switches, and E-Waste.

1.134 Vehicle Impact Fee

"Vehicle Impact Fee" means the fee paid by Contractor to reimburse the City for street maintenance costs incurred as a result of Collection Vehicles traveling on City streets pursuant to Section 7.5.

1.135 Yard Trimmings

"Yard Trimmings" means those Discarded Materials that will decompose and/or putrefy, including, but not limited to, green trimmings, grass, weeds, leaves, prunings, branches, dead plants, brush, tree trimmings, dead trees, small pieces of unpainted and untreated wood, and other types of Organic Waste. Yard Trimmings are a subset of Compostable Materials. Yard Trimmings placed for Collection may not exceed six (6) inches in diameter and five (5) feet in length.

ARTICLE 2. REPRESENTATIONS AND WARRANTIES OF THE CONTRACTOR

2.1 Corporate Status

Contractor is a corporation duly organized, validly existing and in good standing under the laws of the State of California. It is qualified to transact businesses in the State of California and has the power to own its properties and to carry on its business as now owned and operated and as required by this Agreement.

2.2 Corporate Authorization

Contractor has the authority to enter into and perform its obligations under this Agreement. The Board of Directors of Contractor (or the shareholders, if necessary) has taken all actions required by law, its articles of incorporation, its bylaws, or otherwise, to authorize the execution of this Agreement. The Person signing this Agreement on behalf of Contractor has authority to do so, and the Corporate Secretary's Certificate in Exhibit K confirms this. This Agreement constitutes the legal, valid, and binding obligation of the Contractor.

2.3 Agreement Will Not Cause Breach

To the best of Contractor's knowledge, after reasonable investigation, the execution or delivery of this Agreement or the performance of this Agreement by Contractor of its obligations hereunder does not conflict with, violate, or result in breach of: (i) any Applicable Law; or (ii) any term or condition of any judgment, order or decree of any court, administrative agency or other governmental authority, or any Agreement or instrument to which Contractor is a party or by which Contractor or any of its properties or assets are bound, or constitutes a default thereunder.

2.4 No Litigation

To the best of Contractor's knowledge, after reasonable investigation, there is no action, suit, proceeding or investigation, at law or in equity, before or by any court or governmental authority, commission, board, agency or instrumentality decided, pending or threatened against Contractor wherein an unfavorable decision, ruling or finding, in any single case or in the aggregate, would:

A. Materially adversely affect the performance by Contractor of its obligations hereunder;

B. Adversely affect the validity or enforceability of this Agreement; or,

C. Have a material adverse effect on the financial condition of Contractor, or any surety or entity guaranteeing Contractor's performance under this Agreement.

2.5 No Adverse Judicial Decisions

To the best of Contractor's knowledge, after reasonable investigation, there is no judicial decision that affects the validity of this Agreement and may subject this Agreement to legal challenge.

2.6 No Legal Prohibition

To the best of Contractor's knowledge after reasonable investigation, there is no Applicable Law in effect on the date Contractor signed this Agreement that would prohibit the Contractor's performance of its obligations under this Agreement and the transactions contemplated hereby.

2.7 Contractor's Statements

The Contractor's Proposal and any other supplementary information submitted to the City, which the City has relied on in awarding and entering this Agreement, do not: (i) contain any untrue statement of a material fact, or (ii) omit to state a material fact that is necessary in order to make the statements made, in light of the circumstances in which they were made, not misleading.

2.8 Contractor's Investigation

Contractor has made an independent investigation (satisfactory to it) of the conditions and circumstances surrounding the Agreement and the work to be performed hereunder. Contractor has taken such matters into consideration in entering this Agreement to provide services in exchange for the compensation provided for under the terms of this Agreement.

2.9 Ability to Perform

Contractor possesses the business, professional, and technical expertise to: (i) manage, Collect, Transport, and Dispose of Solid Waste; (ii) manage, Collect, Transport, and Process Recyclable Materials, Organic Materials, and Construction and Demolition Debris; and, (iii) record, report, and maintain information as required by this Agreement. Contractor possesses directly or contractually the equipment, facility capacity, information systems, reporting capabilities, and employee resources required to perform this Agreement throughout its Term.

2.10 Voluntary Use of Approved Disposal Site

The Contractor, without constraint and as a free-market business decision in accepting this Agreement, agrees to use the Approved Disposal Site for the purposes of Disposing of all Solid Waste Collected in the City. Such decision by Contractor in no way constitutes a restraint of trade notwithstanding any Change in Law regarding flow control limitations or any definition thereof.

ARTICLE 3.
TERM OF AGREEMENT

3.1 Effective Date and Commencement Date

The Effective Date of this Agreement shall be the date the latter of the two Parties signs the Agreement provided that City Council has taken action approving this Agreement and no restraining order of any kind has been issued.

The Commencement Date of this Agreement shall be July 1, 2010, and shall be the date Contractor commences to provide Collection, Transportation, and Processing services and all other obligations described by this Agreement. During the time between the Effective Date and Commencement Date, Contractor shall perform any and all activities necessary to prepare itself to start Collection, Transportation, and Processing services required by this Agreement on the Commencement Date.

3.2 Conditions to Effectiveness of Agreement

The obligation of City to permit this Agreement to become effective and to perform its undertakings provided for in this Agreement is subject to the satisfaction of each and all of the conditions set out below, each of which may be waived in whole or in part by City.

3.2.1 Accuracy of Representations

The representations and warranties made in Article 2 of this Agreement are true and correct on and as of the Effective Date.

3.2.2 Absence of Litigation

There is no litigation pending on the Effective Date in any court challenging the award or execution of this Agreement or seeking to restrain or enjoin its performance.

3.2.3 Furnishings of Insurance and Bond

Contractor has furnished evidence of the insurance required by Section 9.5 that is satisfactory to the City; provided evidence of its ability to secure the performance bond required by Section 9.6 that will be effective on the Commencement Date of the Agreement.

3.2.4 Secretary's Certification

Exhibit K of this Agreement shall have been signed by the secretary of the Contractor and identifies the name of the Contractor's representative that is authorized to execute this Agreement.

3.3 Term

The Term of this Agreement shall be twenty (20) years from 12:01 a.m. on July 1, 2010 (Commencement Date) to midnight June 30, 2030, unless extended by City pursuant to Section 3.4 or terminated in accordance with Section 11.3.

3.4 Option to Extend Term

At the City's sole discretion, the Term of this Agreement may be extended, for up to sixty (60) months after June 30, 2030, i.e., until June 30, 2035, in one or more periods of at least twelve (12) months each pursuant to the terms and conditions of this Agreement. If the City elects to exercise this option, it shall give written notice of its election, specifying the number of months by which it wishes to extend the Term, to the Contractor, one hundred eighty (180) calendar days prior to the initial expiration date or extended termination date of this Agreement. At the end of the Term, the City may renegotiate the terms and

conditions of the Agreement with the Contractor (subject to agreement by the Parties), or the City may select another means to procure or provide Collection services.

If the City chooses to exercise its right to extend the Agreement and the Contractor demonstrates to the City's satisfaction that Contractor is in default of its loan covenants related to loans secured for equipment, property, or operations for the purposes of performing its obligations of this Agreement, the Parties shall initiate a cost-based rate adjustment process (as described in Article 8 and Exhibit J) to review Contractor's actual costs that will result in Rates being set at a level that should allow Contractor to fulfill its loan covenants, provided that such loan covenants are common in the industry for similar types of loans.

If the Parties agree to extend the Agreement, the Parties shall meet and confer to discuss Collection vehicle and Container acquisition needs and related costs, if any. The equipment replacement plans presented on Contractor's depreciation schedule (on Form 8 in Exhibit G) in Contractor's proposed costs shall serve as the basis for negotiations. The extension to the Agreement may be approved if the Parties agree on how depreciation and interest expenses shall be treated during the extension period. Other terms and conditions of the Agreement may also be renegotiated by the Parties.

The City has no obligation to renegotiate, renew, or extend the rights granted to Contractor beyond the initial twenty-year (20-year) Term of the Agreement.

ARTICLE 4.
SCOPE OF AGREEMENT

4.1 Scope of Agreement

Subject to Section 4.2, the Agreement granted to Contractor shall be exclusive for Collection, Transportation, Processing, and/or Disposal of Solid Waste, Recyclable Materials, Construction and Demolition Debris and Compostable Materials generated in the City, except where otherwise precluded by federal, State and local laws and regulations or where other current programs provide for Collection of Household Hazardous Waste.

The Contractor, or its Subcontractor(s), shall be responsible for the following, as responsibilities may be limited by Section 4.2 or precluded by Applicable Law:

A. Collecting all Solid Waste, Recyclable Materials, Construction and Demolition Debris and Compostable Materials generated in the City and placed by Single-Family, Multi-Family, and Commercial Generators in Containers.

B. Collecting Solid Waste, Recyclable Materials, Construction and Demolition Debris and Compostable Materials from City facilities (as defined in Exhibit A of this Agreement) and at special events (as defined in Exhibit B of this Agreement) and Collecting Solid Waste and Recyclable Materials from public litter and Recycling Containers (as defined and identified in Exhibit A of this Agreement).

C. Transporting Collected materials to the Approved Disposal Site, Approved Composting Site, Approved C&D Processing Site or Approved Recyclables Processing Site.

D. Processing and marketing, or arranging for Processing and marketing of Recyclable Materials, Construction and Demolition Debris and Compostable Materials Collected in the City by Contractor.

E. Providing public education to residents and businesses located in the City as defined in Exhibits C and C1.

F. Providing Customer service and Billing service as necessary to fulfill its obligations under this Agreement.

G. Implementing all services in accordance with the implementation plan in Exhibit D.

H. Furnishing all labor, supervision, vehicles, Containers, other equipment, materials, supplies, and all other items and services necessary to perform its obligations under this Agreement.

I. Paying all expenses related to provision of services required by this Agreement including, but not limited to, taxes, regulatory fees, City fees, utilities, etc.

J. Performing or providing all other services necessary to fulfill its obligations under this Agreement.

K. Providing all services required by this Agreement in a thorough and professional manner so that residents, businesses, and the City are provided timely, reliable, courteous and high-quality service at all times.

L. Performing all services in substantial accordance with the Contractor's Proposal and in full accordance with this Agreement at all times using best industry practice for comparable operations. If the Contractor's Proposal and Agreement conflict, the terms and provisions of the Agreement shall prevail.

M. Complying with Applicable Law.

N. Providing reports in a timely manner with details as requested by the City pursuant to Sections 6.3, 6.4, and 6.5.

The enumeration and specification of particular aspects of service, labor, or equipment requirements shall not relieve Contractor of the duty of accomplishing all other aspects necessary to fulfill its obligations under this Agreement whether such requirements are enumerated elsewhere in the Agreement or not, unless excused in accordance with Section 11.7.

This Agreement grants to Contractor and Customers a permit to encroach on the public right of way, including, if necessary, bike lanes, for that period during which Containers are permitted to be placed in such right of way for Curbside Collection from a Residential or Commercial Customer.

4.2 Limitations to Scope

This Agreement shall be exclusive except as to the following materials listed in this Section. The award of this Agreement shall not preclude the categories of Solid Waste, Recyclable Materials, Construction and Demolition Debris and Compostable Materials listed below from being delivered to and Collected and Transported by others provided that nothing in this Agreement is intended to or shall be construed to excuse any Person from obtaining any authorization from City which is otherwise required by law:

A. **Self-Hauled Materials**. A Commercial business Owner or Resident may Dispose of Solid Waste, Recyclable Materials, Construction and Demolition Debris, and Compostable Materials generated in or on their own Premises with their own vehicle, or their employee's vehicle, consistent with Chapter 8.08 of the City of Livermore Municipal Code.

B. **Donated Materials**. Recyclable Materials and Compostable Materials which are Source Separated at any Premises by the Generator and donated to youth, civic, or charitable organizations;

C. **Donated or Purchased Recyclable or Compostable Materials.** Recyclable Materials and Compostable Materials which are Source Separated at any Premises by the Generator and donated by, or purchased from, the service recipient in a manner consistent with provisions Title 8, Health and Safety, Chapter 8.08, Solid Waste Management of the City's Municipal Code;

D. **Beverage Containers**. Containers delivered for Recycling under the California Beverage Container Recycling and Litter Reduction Act, Section 14500, et seq. California Public Resources Code;

E. **Materials Removed by Customer's Contractor as Incidental Part of Services**. Solid Waste, Recyclable Materials, Compostable Materials and/or Construction and Demolition Debris removed from a Premises by a contractor (e.g., gardener, landscaper, tree-trimming service, or construction contractor) as an incidental part of the service being performed and such contractor removes materials with its own employees and its own vehicles at no additional or separate fee. The determination of whether removal of material is incidental to the services being performed may, for example, be based on whether fees are charged on a volume or hourly basis, and the reasonableness of those fees relative to those charged by third parties for comparable services;

F. **Animal, Grease Waste, and Used Cooking Oil**. Animal waste and remains from slaughterhouse or butcher shops, grease, or used cooking oil;

G. **Sewage Treatment By-Product**. By-products of sewage treatment, including sludge, sludge ash, grit and screenings;

H. **Hazardous Waste and Designated Waste**. Hazardous Waste and Designated Waste regardless of its source; and,

I. **Materials Generated by Government Customers**. Materials generated by Government Customers located in the City, with the exception of federal facilities which are subject to the terms and conditions of this Agreement, provided that the Governmental Customer has arranged services with other Persons or has arranged services with the Contractor through a separate agreement.

Contractor acknowledges and agrees that the City may permit other Persons besides the Contractor to Collect any and all types of materials excluded from the scope of this Franchise, as set forth above, without seeking or obtaining approval of Contractor. If Contractor can produce evidence that other Persons are servicing Collection Containers or are Collecting and Transporting Solid Waste, Recyclable Materials, Compostable Materials and/or Construction and Demolition Debris in a manner that is not consistent with the City's Municipal Code, it shall report the location, the name and phone number of the Person or company to the City along with Contractor's evidence of the violation of the exclusiveness of this Franchise.

The City shall not be responsible for any lost profits or losses claimed by Contractor to arise out of limitations of the scope of the Agreement set forth herein. In such an event, it shall be the responsibility of Contractor to minimize the financial impact to other services being provided as much as possible.

4.3 City-Directed Changes

A. **Types of Changes.** City may, by written notice, direct Contractor to perform additional services or modify existing services. For example, and without limitation, the City may request the following:

1. Collection of certain materials, which were originally Solid Waste, but during the Term can, in the reasonable opinion of the City, be economically Diverted from Disposal;
2. Inclusion of new Diversion programs;
3. Expansion of public education activities;
4. Elimination of programs;
5. Modification of the manner in which Contractor performs existing services;
6. Performance of pilot programs;
7. Implementation of innovative services, which may entail new Collection methods, targeted routing, different kinds of services, different types of Collection vehicles or Collection Containers, and/or new requirements for Generators, but nothing herein shall be construed so as to materially impair the exclusive rights of Contractor granted hereunder;
8. Transportation of materials to an Approved Facility(ies) other than that specified on the Effective Date;
9. Purchase of new Collection vehicles, Containers, or other equipment if the Agreement is extended pursuant to Section 3.4 of this Agreement; and,
10. Implementation of other program or service adjustments as may be determined by the City.

B. **Procedure for Making Changes in Scope.** Contractor shall present, within thirty (30) calendar days of the City Contract Manager's written request, a written proposal to perform additional or modified services. Contractor shall not be compensated for the proposal preparation costs or costs incurred during the negotiation of its proposal for the change in scope of services. At a minimum, the proposal shall contain a complete description of the following:

1. Collection methodology to be employed (equipment, staffing requirements, etc.).
2. Equipment to be used (vehicle number, types, capacity, age, etc.).

3. Labor requirements (number of employees by classification; estimated hours per year per employee).

4. Estimated Customer participation level.

5. Type of materials to be Collected and Containers to be used and estimated volumes per week and per year.

6. Provision for program publicity/education/marketing.

7. Five-year projection of the financial results of the program's operations in a balance sheet and operating statement format including documentation of the key assumptions underlying the projections and the support for those assumptions, giving full effect to the savings or additional costs to existing services.

8. Plans and schedule for implementing the service change.

The City Contract Manager shall review the Contractor's Proposal for the change in scope of services. The City Contract Manager may negotiate with the Contractor to recommend that the City Council amend the Agreement to reflect the change in scope or the City Contract Manager may choose not to negotiate with the Contractor and not recommend that the City Council amend the Agreement.

If the City Contract Manager chooses to negotiate with the Contractor and the Contractor and City cannot agree on terms and conditions of such services within one hundred twenty (120) calendar days from the date when City Contract Manager first requests a proposal from Contractor to perform such services, Contractor acknowledges and agrees that City may permit other Persons besides Contractor to provide additional Solid Waste, Recyclable Materials, and Compostable Materials Collection and Diversion services not otherwise contemplated by this Agreement.

C. **Adjustment to Contractor's Compensation.** If the City directs a change in one or more Approved Facilities, Contractor may be entitled to an adjustment in its compensation in accordance with Section 8.5.

D. **Implementation of New Services.** The Contractor's implementation of the new services, modification to existing service, or change in the Approved Facilities shall occur in a timely, smooth, and seamless manner such that Customers and/or Generators do not experience disruption in Collection services. Contractor shall be responsible for managing the implementation of new or modified Collection services or change in the Approved Facilities and other related services and shall do so in accordance with an implementation plan that has been approved by the City.

E. **Monitoring and Evaluation of Changes in Scope.** At the City Contract Manager's request, the Contractor shall meet with the City Contract Manager to describe the progress of implementing the change in scope. If applicable, and requested by the City Contract Manager, the Contractor shall document the results of the new or modified services on a monthly basis, including, at a minimum, the Tonnage Diverted by material type, the end use or processor of the Diverted materials, the cost per Ton for Transporting and Processing each type of material, and other such information requested by the City Contract Manager that is necessary to evaluate the performance of each program change.

At each status meeting, the City Contract Manager and Contractor shall have the opportunity to revise the program or services based on mutually agreed upon terms, consistent with City Council direction, in accordance with provisions of this Section. The City shall have the right to terminate a program if, in its sole discretion, the Contractor is not achieving the program goals and objectives in a cost-

effective manner. Before such termination, the City Contract Manager shall meet and confer with the Contractor for a period not to exceed ninety (90) calendar days to resolve the City's concerns ("meet and confer period"). Thereafter, the City may utilize a third party to perform these services if the City reasonably believes the third party can improve Contractor's performance and/or cost. Notwithstanding these changes, Contractor shall continue the program during the "meet and confer period" and, thereafter, until the third party takes over the program.

4.4 Transition to Next Contractor at End of Agreement

If applicable, before expiration or earlier termination of this Agreement, Contractor will take direction from the City Contract Manager and subsequent contractor to assist in a timely and orderly transition of services from Contractor to subsequent contractor. In response to the City Contract Manager's direction, Contractor shall provide then-current route lists, which identify each Customer on the route, its Service Level (number of Containers, Container sizes, frequency of Collection, scheduled Collection day), and any special Collection notes, and detailed then-current Customer account and Billing information. Contractor may, but shall not be obliged to, sell Collection vehicles, equipment, or facilities to the next contractor.

4.5 City Free to Negotiate with Third Parties

The City may investigate all options for Collection, Transportation, Processing, and Disposal services that will be scheduled to commence after the expiration of the Term or earlier termination of this Agreement, including disaster debris hauling and monitoring services. Without limiting the generality of the foregoing, the City may solicit proposals from Contractor and from third parties for the provision of Collection, Transportation, Processing, or Disposal of Solid Waste, Recyclable Materials, Construction and Demolition Debris and Compostable Materials services, and any combination thereof. The City may negotiate and execute agreements for such services that will take effect upon the expiration or earlier termination of this Agreement.

ARTICLE 5. COLLECTION SERVICES

5.1 General

The work to be done by Contractor pursuant to this Agreement shall include the furnishing of all labor, supervision, equipment, materials, supplies, and all other items necessary to perform the services required by this Agreement. The enumeration and specification of requirements for particular items of labor or equipment shall not relieve Contractor of the duty to furnish all others, whether enumerated elsewhere in the Agreement or not.

The work to be done by Contractor pursuant to this Agreement shall be accomplished in a thorough and professional manner so that the residents and businesses within the City are provided reliable, courteous, and high-quality service at all times. The enumeration and specification of requirements for particular

aspects of service quality shall not relieve Contractor of the duty of accomplishing all other aspects, whether they are enumerated elsewhere in the Agreement or not.

Contractor acknowledges that the City is committed to Diverting materials from Disposal through the implementation of source reduction, reuse, Recycling and Composting programs and that the City may at some time in the future implement, in accordance with Section 4.3, new programs that may impact the overall quantity or composition of Solid Waste, Recyclable Materials, and Compostable Materials to be Collected by Contractor.

5.2 Solid Waste Services

5.2.1 Single-Family Solid Waste Collection Service

Contractor shall Collect Solid Waste in Contractor-provided Carts once per week from Single-Family Premises and Transport all Solid Waste to the Approved Disposal Site for Disposal.

Contractor shall provide each Customer with a 20-, 32-, 64-, or 96-gallon Cart (or similar sizes approved by the City Contract Manager) as requested by the Customer. For Single-Family Premises, Contractor shall Collect Carts from the Curbside (or at other designated locations for townhomes, condominiums, or attached Single-Family Premises) unless the Occupant is physically unable to place the Container Curbside and such Person has applied for and been approved for a Curbside service exemption due to a disability defined by the Americans with Disabilities Act pursuant to Section 6.16. In such case, Contractor shall Collect Carts from an alternative service location (such as the side yard or back yard) at no additional fee. Customers that are physically capable of moving Carts Curbside may choose to subscribe to side yard or back yard service and Contractor shall Collect Carts from the alternative service location and may charge the Customer for the extra service in accordance with the City-approved Rate on the Rate Schedule in Exhibit H.

Contractor shall replace Solid Waste Carts that have been stolen or damaged at no cost to the Customer not more than once per year. Additional Cart replacements shall be charged to the Customer at a Rate approved by the City as shown on the Rate Schedule in Exhibit H.

5.2.2 On-Call Clean-Up Service

A. **Single Family On-Call Clean-Up Service**

1. **General Requirements.** Contractor shall provide each Single-Family Customer with three (3) On-Call Single-Family Clean-Up Services at the Curb (or at other designated location for townhomes, condominiums, or attached Single-Family Premises) per year at the Customer's request at no charge. The Contractor shall promote, manage, staff, and operate the On-Call Single-Family Clean-Up Service.

   Contractor shall promote the service annually by preparing billing inserts to be included in each Customer's bill and by advertising in a minimum of two (2) local newspapers as approved by the City Contract Manager. The City Contract Manager shall approve all advertisements or public announcements related to On-Call Single-Family Clean-Up Service.

2 **Scheduling.** Contractor shall provide clean-up services Monday through Friday except on Holidays. The Contractor shall provide the service to the Customer within five (5) Business Days

of the Customer's request on a day agreed to by the Customer and Contractor. Contractor may provide additional on-call clean-up services for a Customer beyond three (3) per year, and in such case shall be entitled to charge the Customer for such service at the City-approved Rate on the Rate Schedule in Exhibit H.

3 **Accepted Materials.** During each On-Call Single-Family Clean-Up Service, the Single-Family Customer may deliver Curbside, and Contractor shall accept for Collection, the materials listed below:

a. Up to three (3) cubic yards of Solid Waste, Source Separated Recyclables and Yard Trimmings, including clean, unfinished wood as described in Section 5.2.2.A.5 Collection, Recycling and Reuse Methods.

b. One (1) Appliance or one (1) E-Waste item.

c. Additional Appliances, Bulky Items, and E-Waste items if the Generator or Customer pays an additional fee at the City-approved Rate on the Rate Schedule in Exhibit H.

d. One (1) item of furniture (e.g., sofa, table, bedframe, mattresses, box spring, etc.) weighing no more than one hundred fifty (150) pounds.

Contractor may reject: E-Waste (with the exception that one E-Waste item is allowed if an Appliance is not Collected); liquids or sludges; materials which exceed five (5) feet in length and are not bundled items of furniture that exceed one hundred fifty (150) pounds per item; painted or stained wood; automotive batteries; Used Motor Oil and Filters; pesticides; not Source Separated Construction and Demolition Debris; Plant Debris (in order to comply with the Alameda County Waste Management Authority Ordinance 2008-01); Hazardous Waste; or Infectious Waste. Contractor may reject a single item that weights more than one hundred fifty (150) pounds (excluding Bulky Items) unless Customer has paid an additional fee for service at the City-approved Rate on the Rate Schedule in Exhibit H. Contractor may also reject un-containerized materials, materials that are not bundled, or other items that exceed the Collection abilities as determined by the Contractor and approved by the City Contract Manager.

If the Contractor determines that the Single-Family Customer has set out more than three (3) cubic yards of materials for the Curbside Collection, Contractor agrees to Collect the additional materials that same day. At the Customer's option, the Contractor shall allow the Customer to use their second and/or third On-Call Single-Family Clean-Up Services that same day, if available, or charge the Customer an additional fee to Collect the materials in excess of the three (3) cubic yards, according to the City-approved Rate Schedule in Exhibit H.

Each Customer shall be instructed to place all items to be Collected by Contractor Curbside by 6:00 a.m. on pick-up day to ensure Collection.

4. **Processing and Disposal**. Contractor shall Collect materials and Transport the materials to Approved Facilities with the exception of Appliances and E-Waste that may be delivered to a recycler or dismantling company and furniture and other reusable items that may be delivered to a third party for reuse or Recycling. The site or site(s) and/or Subcontractor(s) that Contractor selects to handle, Process, and/or Dispose of Appliances and E-Waste shall be approved by the City Contract Manager.

5. **Collection, Recycling, and Reuse Methods.** Contractor shall instruct its customer service agents to query each Customer about the amounts and types of materials the Customer plans to set out. The customer service agents shall instruct Customers to separate their materials in order to facilitate Recycling and Composting and shall inform Customers of how exactly to prepare the materials they set out at the Curb. For each On-Call Single-Family Clean-Up Service, the Contractor will dispatch regular route Collection vehicle drivers to the Premises to separately Collect Solid Waste, Recyclable Materials, and/or Compostable Materials. Drivers will document the estimated amount of material removed. Contractor shall Transport materials Collected to the Approved Facilities. All other material (such as Appliances, E-Waste, furniture) that were not Collected by the regular Solid Waste, Recyclable Materials, or Compostable Materials route vehicles will be Collected by a specially-dispatched flat-bed truck. Through Contractor's Collection approach, the following materials, at a minimum, shall be Collected separately and Diverted through Recycling, Composting, or other Diversion efforts: clean, untreated wood and Yard Trimmings, cardboard, and Appliances.

   Contractor shall deliver Appliances to a local recycler, and all other items will be stored at a staging area at the Contractor's Livermore yard. Contractor shall encourage and facilitate the participation of Re-Use Vendor(s) to select and sort out Recyclable and reusable items at the point of Collection or at Contractor's Livermore yard. Marketing of reusable materials that are designated for reuse by the Re-Use Vendor(s) may include clothing, toys, house wares, linens, wood furniture, tables, chairs, working computers, undamaged monitors, cell phones, books, working small Appliances, working VCRs and DVDs, and working stereos.

6. **Handling Bulky Items and E-Waste**. Note that pursuant to Section 5.2.2.A.3, Contractor shall Collect one Appliance or one E-Waste item at no cost per On-Call Single-Family Clean-Up Service. This Section addresses all other Appliances, Bulky Items, and E-Waste items. If the Customer has not paid for removal of Bulky Items or E-Waste, Contractor is not required to Collect the Bulky Item or E-Waste during the On-Call Single-Family Clean-Up Services. In such case, Contractor shall be required to attach a tag to the Bulky Item or E-Waste informing the Generator that the Generator must contact Contractor to arrange for and pay for separate Collection of the Bulky Item and E-Waste. Alternatively, the Generator may contact a Re-Use Vendor for Collection of the Bulky Item.

7. **Handling Major Appliances.** Major Appliances shall be reused, Recycled, or Disposed by Contractor in accordance with requirements of Applicable Law.

B. **Multi-Family On-Call Clean-Up Service**

1. Multi-Family properties will receive a free 20-Yard Drop Box once every 12 months for an On-Call Multi-Family Clean-Up Service.

2. The Multi-Family properties will be allowed to keep the Drop Box for seven consecutive days; and the Box will be removed, emptied, and returned as often as necessary, to a maximum of one time per day Monday through Friday.

3. Contractor will coordinate with the Property Manager and the Property Manager will inform their residents when the On-Call Multi-Family Clean-Up Service will occur.

4. Contractor will create outreach documents to assist the Property Managers with program requirements consistent with Section 5.17 below.

5. Contractor shall provide, on its website, the ability for Customers to electronically request On Call Multifamily Clean-Up Service.

5.2.3 On-Call Bulky Item Collection

Residential and Commercial Customers may make special arrangements with the Contractor for the Collection and Recycling or Disposal of Bulky Items and Contractor shall charge such Customers for Collection of such items in accordance with City-approved Rates on the Rate Schedule in Exhibit H. Contractor shall arrange for repair, refurbishing, or upgrading electronic equipment for donation or resale to the greatest extent practical. Additional requirements related to Bulky Item services include the following:

A. Contractor shall prioritize the re-use and Recycling of Bulky Items. When possible, Contractor shall contact Re-Use Vendors to pick up Appliances, furniture, and other operational or functional items.

B. Appliances and other materials that cannot be re-used should be Recycled by Contractor when possible.

C. Contractor shall Dispose of Bulky Items as a last resort.

5.2.4 Multi-Family Solid Waste Collection Service

Contractor shall Collect Solid Waste from Multi-Family Premises as frequently as scheduled by the Customer, up to six (6) times per week but not less than once per week. Contractor shall offer Multi-Family Premises the option of subscribing to Cart, Bin, Drop Box, or Compactor Service. Contractor shall provide one or more Containers to such Premises as requested by Customer provided that no less than ninety-six (96) gallons of Container capacity is provided for every four (4) dwelling units in the Premises. Contractor shall Collect Solid Waste from Containers at a location selected by the Customer and approved by the City Contract Manager.

Contractor shall open and close gates, push and/or pull Containers, lock and unlock Containers, or perform other services as reasonably necessary to access and empty the Containers and shall not charge Customers any additional fees for such services.

5.2.5 Intentionally Deleted

5.2.6 Commercial and Government Cart Customers Solid Waste Collection Service

Contractor shall Collect Solid Waste from Commercial Premises, and from Government Customers that subscribe to service from Contractor, as frequently as scheduled by the Customer, up to six (6) times per week but not less than once per week with the exception that Nonputrescible Waste segregated for Collection in Drop Boxes or Compactors (serviced by roll-off Collection trucks) may be Collected less than once per week. Contractor shall offer Commercial Premises, and Government Customers that subscribe to service from Contractor, the option of subscribing to Cart, Bin, Drop Box, or Compactor Service. Contractor shall Collect Solid Waste from Containers at a location selected by the Customer and approved by the City Contract Manager.

Commercial and Government Customer Solid Waste Collection shall be performed at a time mutually agreed upon by Contractor and the Customer and which is consistent with allowable Collection hours specified in Section 5.14.3. Contractor shall allow each Commercial Customer or Government Customer to select a Collection service methodology that best suits the needs of its Premises. Specifically, the

Contractor shall offer the following Collection service methodologies to Commercial Customers and to Government Customers:

A. **Individual Cart or Bin Service.** Contractor shall allow each Commercial Premises or Government Customer to use Carts or Bins for Solid Waste Collection. Contractor shall provide each Customer with a choice of one or more Carts with capacities of 32, 64, or 96 gallons (or similar sizes approved by the City Contract Manager) or Bins with capacities ranging from 1 to 7 cubic yards (or similar sizes approved by the City Contract Manager).

B. **Centralized Bin or Cart Service.** Contractor shall allow each Commercial Premises or Government Customer to use Carts or Bins for Solid Waste Collection that are shared by the Occupants of two (2) or more adjacent Commercial Premises or Government Customers. In such case, Contractor shall provide one (1) or more Carts or Bins as requested by Customer(s) provided that no less than 96 gallons (or similar volume) of Container capacity is provided for every four (4) Commercial Premises or Government Customers. Contractor shall provide each Customer with a choice of one or more Carts with capacities ranging from 32 to 96 gallons (or similar sizes approved by the City Contract Manager) or Bins with capacities ranging from 1 to 7 cubic yards (or similar sizes approved by the City Contract Manager).

C. **Drop Boxes and Large Compactors.** Contractor shall allow a Customer to use a Drop Box or Compactor with a roll-off Compactor Container for Solid Waste Collection to meet the Customer's Solid Waste Collection needs. In such case, Contractor shall provide Customer with a choice of Container capacities ranging from 6 to 40 cubic yards (or similar sizes approved by the City Contract Manager). Contractor shall offer Customers the option to purchase or lease Compactors through either the Contractor or an outside vendor.

Contractor shall open and close gates, push and/or pull Containers, lock and unlock Containers, or perform other services as reasonably necessary to access and empty the Containers and shall not charge Customers any additional fees for such services.

Unless otherwise agreed to by the Parties, commencing January 1, 2022, Contractor shall meet the requirement of SB 1383 related to the conduct of annual compliance reviews of Commercial Solid Waste accounts producing over two (2) cubic yards of Solid Waste per week and that produce Organic Waste.

5.2.7 Handy Hauler Service

Contractor shall offer rentals of four-cubic-yard Bins to all Customers for Solid Waste Collection on a temporary basis when Customers are remodeling, cleaning their property, or performing other projects. Contractor shall charge Customers for this service in accordance with City-approved Rates on the Rate Schedule in Exhibit H.

5.3 Recycling Services

5.3.1 General

Contractor shall Collect Single-Stream Recyclable Materials that are commingled in the Customer's Recyclable Materials Collection Container provided that the Customer has Source Separated the Recyclable Materials from Solid Waste. The types of Single-Stream Recyclable Materials to be Collected

by Contractor are specified in Section 1.109. Contractor shall Transport all Recyclable Materials Collected to the Approved Recyclables Processing Site for Processing.

In accordance with Section 4.3, the City may request Contractor to modify its scope of services to include Collection of additional types of Recyclable Materials beyond those materials defined in Section 1.96. If the City requests Collection of additional Recyclable Materials, the Contractor shall not receive additional compensation for Collection service if the Recyclable Materials are placed by Generator in the Recyclable Materials Container unless Contractor can demonstrate that Collection of the additional material(s) requires modifications to Collection routes to accommodate the additional volume of the material(s). An adjustment to Contractor's Rates may be made for changes in Processing costs in accordance with Sections 4.3 and 8.5.

Contractor shall actively work with the Approved Recyclables Processing Site operator throughout the Term of this Agreement to ensure that contamination of the Recyclable Materials Collected under this Agreement and delivered to the Approved Recyclables Processing Facility remains below any limits established by Applicable Law, including, without limitation, SB 1383.

5.3.2 Single-Family Service

A. **General**. Contractor shall Collect all Single-Stream Recyclable Materials from Single-Family Premises once each week on the regularly scheduled Solid Waste Collection day. Contractor shall supply each Single-Family Customer with one (1) Cart for storage and Collection of Single-Stream Recyclable Materials. The Contractor shall provide each Customer a 96-gallon Cart (or similar size approved by the City Contract Manager) unless the Customer requests a smaller Cart size, in which case, the Contractor shall provide a 20-, 32-, or 64-gallon Cart (or similar sizes approved by the City Contract Manager).

B. **Additional Cart**. If a Customer requests a second Recyclables Cart, Contractor shall provide the Cart to the Customer for regular weekly Collection service. The Contractor shall charge the Customer for the extra Recyclables Cart at the Rate approved by the City on the Rate Schedule in Exhibit H.

C. **Collection Location including Disabled Customer Service**. For Single-Family Premises, Contractor shall Collect Carts from the Curb (or at other designated location for townhomes, condos, or attached Single-Family Premises) unless the Occupant is physically unable to place the Container Curbside and such Person has applied for and been approved for a Curbside service exemption due to a disability defined by the Americans with Disabilities Act pursuant to Section 6.16. In such case, Contractor shall Collect Carts from an alternative service location (such as the side yard or back yard) at no additional fee. Customers that are physically capable of moving Carts Curbside may choose to subscribe to side yard or back yard service. In such cases, Contractor shall Collect Carts from the alternative service location and charge the Customer for the extra service in accordance with the City-approved Rate on the Rate Schedule in Exhibit H.

D. **Cart Replacement**. Contractor shall replace Containers, which were specifically designated for Recyclable Materials that have been stolen or damaged at no cost to the Customer not more than once per year. Additional Cart replacements shall be charged to the Customer at a City-approved Rate on the Rate Schedule in Exhibit H.

E. **Setout Instructions and Notices**. Contractor shall instruct Single-Family Customers as to any necessary preparation of materials; the proper placement of Recycling Carts Curbside; and shall notify

Single-Family Generators who fail to follow these instructions. In cases of extreme or repeated failure to comply with the instructions, Contractor may decline to pick up the Recyclable Materials but must notify the Customer of the reason and what steps must be taken by Customer to recommence service.

F. **Used Motor Oil and Filter Collection**. Contractor shall Collect Used Motor Oil and Filters from Contractor-provided Used Oil Recovery Kits placed adjacent to the Carts. Contractor shall Collect Used Motor Oil and Filters once per week from Single-Family Customers who request it if the Customers place the Used Motor Oil and Filters in a Used Oil Recovery Kit provided by the Contractor. Contractor shall provide the Used Oil Recovery Kit to a Residential Customer within two (2) Business Days of such request by Customer at no additional cost to Customer. Contractor shall instruct Customers how to properly use and place Used Oil Recovery Kits for Collection. Upon Collection of a Used Oil Recovery Kit from a Generator, Contractor shall leave a clean, empty, Used Oil Recovery Kit adjacent to the Recyclables Cart. Contractor shall not be required to Collect more than one gallon of used motor oil per individual dwelling unit per week from Single-Family Customers who request it.

G. **Quarterly Textile Collection**. Contractor shall work together with the City Contract Manager to create a program for Curbside Collection of textiles that will occur for five consecutive days (Monday through Friday) once during each quarter. The City Contract Manager and Contractor shall mutually agree to the week that the textile Collection will be performed. Contractor shall notify Customers through a variety of outreach tools including their newsletter and website that, on a specific Collection day, Single-Family Customers have an opportunity to donate used clothing to those in need. Contractor shall instruct Customers to place the dry, clean clothing into a clear plastic trash bag and place it at the Curb with their regular set-out.

Contractor anticipates utilizing its flat-bed truck and Bulky Item pick-up crew and any other employees needed on those five days a quarter to Collect and bring back the bags to Contractor's Livermore yard for consolidation. As a contingency, Contractor may use vehicles from its reserve fleet for the quarterly bagged clothing Collection service. Contractor shall work with several charities to accept the materials on a rotating basis.

H. **Route Reviews**. Unless otherwise agreed to by the Parties, as described in Section 5.17.8 commencing April 1, 2022 Contractor shall conduct Route Reviews of randomly selected Containers for contaminants such that all routes are inspected annually. If contamination is found during Route Reviews, Contractor shall notify the Generator of the Recycling requirements.

5.3.3 Multi-Family, Commercial, and Government Customer Recycling Service

A. **General**. Commercial Customers, and Government Customers that subscribe to Solid Waste Collection service from Contractor (including federal Governmental Customers which are required to utilize the services of Contractor), shall have the option of subscribing to Recyclable Materials Collection services and shall pay Contractor an additional fee for such service in accordance with City-approved Rates on the Rate Schedule in Exhibit H with the exception that Collection of one 96-gallon Recyclables Cart once per week shall be provided at no cost as of the Commencement Date. Contractor shall Collect all Single-Stream Recyclable Materials placed in Containers for Collection from Multi-Family, Commercial Premises, and Government Customers at least once each week and up to six (6) times per week as scheduled by the Customer. Contractor shall provide and shall place Containers in locations determined by the Customer or Property Manager.

Multi-Family, Commercial, and Government Customers' Recyclable Materials Collection shall be performed at a time mutually agreed upon by Contractor and the Customer and which is consistent with allowable Collection hours specified in Section 5.14.3. The City reserves the right per Section 4.3 to direct Contractor to perform additional Commercial Recycling services such as the use of selective routing to Collect clean loads of Recyclable Materials in the event that Contractor is not making adequate progress toward the City's Diversion/Recycling goals.

B. **Expanding Customer Participation and the Alameda County Waste Management Authority's Mandatory Recycling Ordinance**. To expand the participation of Multi-Family, Commercial, and Government Customers in the Recyclables Collection program and to be consistent with the Alameda County Waste Management Authority's Mandatory Recycling Ordinance, Contractor shall provide Recyclables Collection service to all Multi-Family, Commercial, and Government Customers. The Contractor shall supply each Multi-Family Premises with twenty-four (24) gallons of Recycling capacity per week per Residential unit and each Commercial Premises and each Government Customer that subscribes to Solid Waste Collection service from Contractor with one ninety-six (96) gallon Recyclables Cart. Contractor will provide assistance to the Customer to ensure that the Customer has adequate Recyclables Collection capacity to comply with the Alameda County Waste Management Authority's Mandatory Recycling Ordinance.

At least two (2) weeks prior to the scheduled Container delivery, Contractor shall provide written notification to each Customer of the Contractor's obligation to provide each Multi-Family, Commercial, and Government Customer with an adequate level of Recycling service and shall identify the number, size, and quantity of Recycling Containers to be delivered to the Premises and scheduled delivery date. If the Customer objects to this Recycling service prior to or following delivery of the Containers, Contractor shall meet with the Customer at the Customer's Premises and conduct an on-site assessment of the Solid Waste and Recycling services. The Contractor's goal during the assessment shall be to provide assistance to the Customer so that the Customer complies with the Alameda County Waste Management Authority's Mandatory Recycling Ordinance. If the Customer refuses service, the Contractor shall send written notification to the City Contract Manager of such refusal of service with documentation of the refusal including date of notification, date of on-site assessment, name of Customer or Property Manager and contact information. Contractor agrees to cooperate with City Code Enforcement Staff and the Alameda County Waste Management Authority's Mandatory Recycling Ordinance Enforcement Staff as needed in accordance with the terms of the County's Mandatory Recycling Ordinance.

C. **Commercial and Government Customer Service Options**. Contractor shall allow Commercial or Government Customers to select a Collection service method that best suits the needs of its Premises. Specifically, the Contractor shall offer the following choices to Commercial or Government Customers:

1. **Individual Cart or Bin Service**. Contractor shall allow Commercial or Government Customers to use Cart(s) or Bin(s) for Recyclable Materials Collection. Contractor shall provide each Customer with a choice of one (1) or more Carts with capacity of 32, 64, and 96 gallons and with one or more Bins with capacities ranging from 1 to 7 cubic yards (or similar sizes approved by the City Contract Manager).

2. **Centralized Cart or Bin Service**. Contractor shall allow Commercial or Government Customers to use Cart(s) or Bin(s) for Recyclable Materials Collection that are shared by the Occupants of two (2) or more Commercial Premises. In such case, Contractor shall provide one (1) or more Carts or Bins to such Premises as requested by Customer(s).

3. **Drop Boxes and Compactors**. Contractor shall allow Commercial or Government Customers to use a Drop Box or Compactor for Recyclable Materials. In such case, Contractor shall provide Customers with a choice of Container capacities ranging from 10 to 40 cubic yards. Contractor shall offer Customers the option to purchase or lease Compactors through Contractor or an outside vendor.

D. **Container Replacement**. Contractor shall replace Recyclable Materials Containers that have been stolen or damaged, at no cost to the Multi-Family, Commercial, or Government Customer Premises, not more than once per year. Additional replacements shall be charged to the Customer at the City-approved Rate on the Rate Schedule in Exhibit H.

E. **Posters, Signage, and Other Education Materials**. Pursuant to the public education plan in Exhibit C, Contractor shall instruct (as part of the education program) Multi-Family, Commercial Premises, and Government Customers and/or their Property Managers as to any necessary preparation, separation, and placement of Recyclable Materials and shall provide the Property Manager with the following materials to facilitate Customer and tenant education:

1. Educational Recycling posters for strategic placement on the Premises. For Multi-Family Premises, Contractor shall make the posters available for use in areas frequented by tenants (such as in mail rooms, laundry rooms, offices, etc.). For Commercial or Government Customer Premises, the Contractor shall make the posters available for use in areas frequented by employees.

2. Recycling signs at the Recycling Container locations that clearly indicate the types of Recyclables that are accepted and those that are not.

3. Move-In Kits for tenants of Multi-Family units as described in Exhibit C.

4. "How To" Brochures as described in Exhibit C.

Pursuant to Section 6.3.3.F, Contractor shall report its public education efforts to the City Contract Manager on a quarterly basis.

F. **Setout Instructions and Notices**. Contractor shall instruct Multi-Family Customers as to any necessary preparation of materials; the proper placement of Recycling Containers; and shall notify Property Manager who fail to follow these instructions. In cases of extreme or repeated failure to comply with the instructions, Contractor may decline to pick up the Recyclable Materials but must notify the Property Manager of the reason and what steps must be taken by the Property Manager to recommence service.

G. **Notification of Improper Setout**. Contractor shall notify Customers and their Property Managers (if applicable) who fail, or whose residents or employees fail, to follow Recycling instructions provided by Contractor. In cases of extreme or repeated failure to comply with the instructions, Contractor shall notify the City Contract Manager of the Customer's violation of the City's Municipal Code.

H. **Reusable Recyclables Tote Bags for Multi-Family Tenants**. Upon the Customer's request, Contractor shall offer Multi-Family Customers reusable Recyclables tote bags for storage of Recyclables that shall be provided to each tenant unit at no cost to the Customer. Contractor shall promote the availability of the Recyclables tote bags during the site visits with the Owner or Property Manager, and through other Multi-Family public education efforts required by Exhibit C. Contractor shall purchase a sufficient number of Recyclable tote bags to maintain an inventory of bags so that upon a Multi-Family

Customer's request, Contractor can deliver the Recyclables tote bags to the Multi-Family Premises, and distribute the bags (if requested) to each tenant unit at Multi-Family Premises within three (3) weeks of request. Each Recyclables tote bag shall be accompanied by a flyer describing the Recycling program requirements.

The specifications of the Recyclables tote bags for Multi-Family Tenants shall be submitted to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

I. **Internal Recycling Bins for Commercial and Government Customers**. Upon the Customer's request, Contractor shall offer Commercial and Government Customers a variety of Recycling storage bins for use by the Customer inside their Premises to store Recyclables prior to placement of the materials in the outdoor Containers to be serviced by Contractor. Up to three (3) internal Recycling storage bins shall be provided at no cost to the Customer. Contractor shall promote the availability of the internal Recycling storage bins during the site visits with the Owner or Property Manager, and through other Commercial public education efforts required by Exhibit C. Contractor shall purchase a sufficient number of Recycling storage bins to maintain an inventory of bins so that upon a Customer's request, Contractor can deliver the Recycling storage bin(s) to the Commercial Premises or Government within two (2) weeks of request. Each Recycling storage bin shall be accompanied by a flyer describing the Recycling program requirements.

Contractor must submit the Recycling storage bin order (including material and design specifications, colors, and identification marks) to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

J. **Used Motor Oil and Filter Collection**. Contractor shall Collect Used Motor Oil and Filters once per week from Multi-Family Customers, if they receive Solid Waste Service from individual Carts. Contractor shall Collect Used Motor Oil and Filters from Contractor-provided Used Oil Recovery Kits placed adjacent to the Carts, if the Customers place the Used Motor Oil and Filters in a Used Oil Recovery Kit provided by the Contractor. Contractor shall provide the Used Oil Recovery Kit to a Multi-Family Customer within two (2) Business Days of such request by Customer at no additional cost to Customer. Contractor shall instruct Customers how to properly use and place Used Oil Recovery Kits for Collection. Upon Collection of a Used Oil Recovery Kit from a Generator, Contractor shall leave a clean, empty, Used Oil Recovery Kit adjacent to the Recyclables Cart. Contractor shall not be required to Collect more than one gallon of used motor oil per individual dwelling Customer per week from Multi-Family Customers who request it.

K. **Route Reviews**. Unless otherwise agreed to by the Parties, commencing April 1, 2022 Contractor shall conduct Route Reviews of randomly selected Containers for contaminants such that all routes are inspected annually, as described in Section 5.17.8. If contamination is found during Route Reviews, Contractor shall notify the Generator of Recycling requirements.

5.4 Compostable Materials Program

In furtherance of the City's established Diversion goal of seventy-five percent (75%), and to promote compliance with the Alameda County Waste Management Authority Ordinance (2008-01) banning plant debris in unincorporated Alameda County landfills, it is the responsibility of the Contractor to secure

sufficient Compostable Material Composting capacity and ensure that all Compostable Material, excepting Compostable Residue (i.e. "overs") which are not suitable for re-grind and re-introduction into the Compost process, is Diverted from landfilling.

5.4.1 Single-Family Compostables Service

A. **General**. Contractor shall Collect Compostable Materials (including Food Scraps and Other Targeted Compostables) from each Single-Family Customer Curbside once each week on the regularly scheduled Solid Waste Collection day. Compostable Materials shall be Collected and Transported to the Approved Composting Site for the purposes of Composting. Contractor shall instruct Customers as to the types of Compostable Materials accepted for Collection (and those prohibited); any necessary preparation of Yard Trimmings (such as the cutting of large items), Food Scraps, and Other Targeted Compostables; and the appropriate use and placement of Carts designated for Compostable Materials Collection. Subject to the requirements of the Approved Composting Site operator, Contractor shall allow Customer's use of clear and or Compostable bags for the accumulation of Food Scraps and placement in the Compostable Materials Cart. Annually, Contractor shall notify City Contract Manager if the Approved Composting Site operator will accept clear and/or Compostable bags. Contractor shall notify Customers who fail to follow these instructions. In cases of extreme or repeated failure to comply with the instructions, Contractor shall notify the City Contract Manager of the Customer's violation of the City's Municipal Code.

B. **Carts**. Contractor shall supply each Single-Family Customer with one Cart for storage and Collection of Compostable Materials. The Contractor shall provide each Customer a 96-gallon Cart (or similar size approved by the City Contract Manager) unless the Customer requests a smaller Cart size, in which case, the Contractor shall provide a 32- or 64-gallon Cart (or similar sizes approved by the City Contract Manager). If a Customer requests a second Compostables Cart, Contractor shall provide the Cart to the Customer and Collect Compostables on a weekly basis. The Contractor shall charge the Customer for the extra Compostables Cart at the City-approved Rate on the Rate Schedule in Exhibit H.

Contractor shall replace Compostables Carts that have been stolen or damaged at no cost to the Generator not more than once per year. Additional Cart replacements shall be charged to the Generator at a Rate approved by the City as shown on the Rate schedule in Exhibit H.

C. **Kitchen Pails**. Upon Customer request and at no cost to the Customer, or with a new subscription to Residential service, Contractor shall provide Single-Family Customers kitchen pails suitable for the collection and storage of Food Scraps. Contractor shall promote the availability of the kitchen pails through public education efforts required by Exhibit C. Contractor shall purchase a sufficient number of kitchen pails to maintain an inventory of pails so that upon a Single-Family Customer's request, Contractor can assemble (if needed) and deliver the pail to the Single-Family Customer within one (1) week of request. Each kitchen pail shall be accompanied by flyer describing the Compostable Materials program requirements

The kitchen pail shall be made of rigid plastic, and have a capacity of 1.5 to 2.5 gallons, a wire or plastic handle, and a lid. Contractor must submit kitchen pail order (including material and design specifications, colors and identification marks) to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

D. **Overages Program**. From time to time, particularly during the autumn, Generators produce more Compostable Materials than that can be placed in their Compostables Cart. Contractor shall establish an overages program that allows Single-Family Generators to place additional Compostable Materials Curbside (in bags adjacent to the Compostable Carts) for Collection on its regularly scheduled Collection day. For this overages program, Contractor shall make available 35-gallon unbleached natural kraft paper bags (or similar size approved by the City Contract Manager) for purchase at the Contractor's local office, at other locations in the City (to be identified by the Contractor and approved by the City Contract Manager) and via mail by ordering from Contractor. Alternatively, Customers may provide their own kraft bags. Contractor shall Collect overages with other Compostable Materials and Transport the materials to the Approved Composting Site. Contractor shall charge Customers for the overages Collection at City-approved Rates on the Rate Schedule in Exhibit H.

E. **Home Composting**. Pursuant to the requirements of the public education requirements in Exhibit C, Contractor shall promote home Composting activities to Single-Family Customers.

F. **Collection Location including Disabled Customer Service**. For Single-Family Premises, Contractor shall Collect Carts from the Curb (or at other designated location for townhomes, condos, or attached Single-Family Premises) unless the Occupant is physically unable to place the Container Curbside and such Person has applied and been approved for a Curbside service exemption due to a disability defined by the Americans with Disabilities Act pursuant to Section 6.16. In such case, Contractor shall Collect Carts from an alternative service location (such as the side yard or back yard) at no additional fee. Customers that are physically capable of moving Carts Curbside may choose to subscribe to side yard or back yard service. In such cases, Contractor shall Collect Carts from the alternative service location and charge the Customer for the extra service in accordance with the City-approved Rate on the Rate Schedule in Exhibit H.

G. **Route Reviews**. Unless otherwise agreed to by the Parties, as described in Section 5.17.8 commencing April 1, 2022 Contractor shall conduct Route Reviews of randomly selected Containers for contaminants such that all routes are inspected annually. If contamination is found during Route Reviews, Contractor shall notify the Generator of Recycling requirements.

5.4.2 Multi-Family Compostables Service

A. **General**. Multi-Family Customers shall be provided adequate Compostable Materials Collection services in the same manner as that provided to Commercial Customers and Government Customers pursuant to Section 5.4.3, including all provisions of each subsection therein.

Contractor shall observe and comply with all regulations in effect at the Approved Composting Site and cooperate with and take direction from the operator thereof with respect to delivery of Organic Materials. Contractor shall actively work with the Approved Composting Site operator throughout the Term of this Agreement to ensure that contamination of the Organic Materials Collected under this Agreement and delivered to the Approved Composting Site remains below any limits established by Applicable Law including, without limitation, SB 1383.

B. **Kitchen Pails**. Upon Customer request and at no cost to the Customer, or with a new subscription to Residential service, Contractor shall provide Multi-Family Customers kitchen pails for use in the kitchen suitable for the collection and storage of Food Scraps. Contractor shall promote the availability of the kitchen pails through public education efforts required by Exhibit C. Contractor shall purchase a sufficient number of kitchen pails to maintain an inventory of pails so that upon a Multi-Family

Customer's request, Contractor can assemble (if needed) and deliver the pail to the Multi-Family Customer within one (1) week of request. Each kitchen pail shall be accompanied by flyer describing the Compostable Materials program requirements

The kitchen pail shall be made of rigid plastic, and have a capacity of 1.5 to 2.5 gallons, a wire or plastic handle, and a lid. Contractor must submit kitchen pail order (including material and design specifications, colors and identification marks) to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

5.4.3 Commercial and Government Customer Compostables Service

A. **General.** Commercial Customers, and Government Customers that subscribe to service from Contractor, shall subscribe to Compostable Materials Collection services and shall pay Contractor an additional fee for such service in accordance with City-approved Rates on the Rate Schedule in Exhibit H with the exception that Collection of one 96-gallon Compostables Cart once per week shall be provided at no cost as of the· Commencement Date. Contractor shall Collect Compostable Materials from Commercial Premises or Government Customers that have subscribed to Compostable Materials Collection service as frequently as scheduled by Customer up to six (6) days per week, but not less than one (1) day per week. Contractor shall provide Carts, Bins, Drop Boxes, and Compactors for Compostables storage and Collection and shall place Containers in locations determined by the Customer or Property Manager.

Commercial or Government Customer Compostable Materials Collection shall be performed at a time mutually agreed upon by Contractor and the Customer and which is consistent with allowable Collection hours specified in Section 5.14.3.

Contractor shall make best efforts to Divert as much Commercial and Government Customer Food Scraps and Other Targeted Compostables from Disposal as possible. Contractor shall allow Customers to place clear plastic bags that contain Food Scraps in Containers for Collection. Contractor shall continually look for more efficient and effective ways of implementing the Commercial and Government Customer Food Scraps Program including, but not limited to, investigating closer, less expensive.

Composting facilities and more efficient routing and pick-up procedures. Additionally, Contractor shall pursue and apply for any applicable grant or other cost saving opportunities that shall be used to reduce Customer Rates in accordance with Section 3.F of Exhibit I and Section 3.F of Exhibit J.

Contractor will work with and support the City and any consultants contracted by the City or StopWaste to conduct Commercial and Government Customer Food Scraps audits.

Any revenue other than Rate revenue that the Contractor receives specifically for the Commercial and Government Customer Food Scraps Program, including, but not limited to, revenue from StopWaste and Incentive payment programs, shall be deducted from the Contractor's total calculated costs, and the actual, reasonable and necessary costs associated therewith shall be added to the Contractor's calculated costs, to reduce Customer Rates in accordance with Section 3.F of Exhibit I and Section 3.F of Exhibit J.

Contractor shall observe and comply with all regulations in effect at the Approved Composting Site and cooperate with and take direction from the operator thereof with respect to delivery of Organic

Materials. Contractor shall actively work with the Approved Composting Site operator throughout the Term of this Agreement to ensure that contamination of the Organic Materials Collected under this Agreement and delivered to the Approved Composting Site remains below any limits established by Applicable Law, including, without limitation, SB 1383.

B. **Expanding Customer Participation and the Alameda County Waste Management Authority's Mandatory Recycling Ordinance**. To expand the participation of Commercial and Government Customers in the Food Scraps Collection program and to be consistent with the Alameda County Waste Management Authority's Mandatory Recycling Ordinance, Contractor shall provide adequate Compostables Collection service to Commercial and Government Customers. The City and Contractor agree that, at a minimum, Targeted Food Scraps Customers shall include the Customers regulated by the Alameda County Waste Management Authority's Mandatory Recycling Ordinance. At a minimum, the Contractor shall contact each Targeted Food Scraps Customer individually, supply each such Customer with at least one ninety-six (96) gallon Compostables Cart, provide education materials, and provide training. If the Customer has historically subscribed to a higher level of service or requests a higher level of service (e.g., more than one ninety-six (96) gallon of service once per week), then the Contractor shall provide and service Container(s) in number and size to match the Customer's current or requested level of service.

Contractor shall provide written notification to each Customer explaining Contractor's obligation to provide each Targeted Food Scraps Customer with an adequate level of Compostables service and shall identify the number, size, and quantity of Compostable Containers to be delivered to the Premises and scheduled delivery date. If the Customer objects to this Compostables service prior to or after delivery of the Containers, Contractor shall meet with the Customer at the Customer's Premises and conduct an on-site assessment of the Solid Waste, Recycling, and Compostables services. The Contractor's goal shall be to provide assistance to the Customer so that the Customer complies with the Alameda County Waste Management Authority's Mandatory Recycling Ordinance. If the Customer continues to refuse service, the Contractor shall send written notification to the City Contract Manager of such refusal of service with documentation of the refusal including date of notification, date of on-site assessment, name of contact Person and contact information. Contractor agrees to cooperate with City Code Enforcement Staff and the Alameda County Waste Management Authority's Mandatory Recycling Ordinance Enforcement Staff as needed in accordance with the terms of the County's Mandatory Recycling Ordinance.

C. **Collection Service Options**. Contractor shall provide Commercial and Government Customer Compostables Customers, at the Customer's option, with a Container appropriate for the needs of the business and the available space in the enclosure for outside storage and Collection of Compostable Materials in order to ensure that the Customer has adequate Collection capacity. Contractor shall allow Commercial Customers to select a Collection service method that best suits the needs of its Premises in the same manner as that described in Section 5.3.3.C.

D. **Container Replacement**. Contractor shall replace Containers, which are specifically designated for Compostable Materials Collection that have been stolen or damaged at no cost to the Commercial or Government Customer Premises, not more than once per year. Additional replacements shall be charged to the Customer at City-approved Rates on the Rate Schedule in Exhibit H.

E. **Posters, Signage, and Other Education Materials**. Pursuant to the public education plan described in Exhibit C, Contractor shall instruct Commercial Customers and/or their Property Managers as to any

necessary preparation, separation, and placement of Compostable Materials and shall provide posters, signs, and other public education materials. Contractor shall maintain a special telephone hotline for Commercial Compostables information that will ring directly to a customer service representative that has special training and expertise in this particular program.

Commencing January 1, 2022, Contractor shall annually provide Tier One and Tier Two Edible Food Generators with information about food recovery program, Generator requirements, Food Recovery Organizations, and Edible Food source–reduction information.

F. **Route Reviews.** Unless otherwise agreed to by the Parties, as described in Section 5.17.8, commencing April 1, 2022 Contractor shall conduct Route Reviews of randomly selected Containers for contaminants such that all routes are inspected annually. If contamination is found during Route Reviews, Contractor shall notify the Generator of Recycling requirements.

G. **Notification of Improper Setout**. Contractor shall notify Customers and their Property Managers (if applicable) who fail, or whose residents or employees fail, to follow the posted instructions. In cases of extreme or repeated failure to comply with the instructions, Contractor shall notify the City Contract Manager of Customers that are repeat offenders.

H. **Reporting**. Pursuant to Sections 6.3.2 and 6.3.3, Contractor shall provide reports to the City Contract Manager documenting its efforts to promote Compostable Collection services to Commercial Customers, site visits performed, number of Customers participating, etc.

I. **Internal Compostable Bins**. Upon the Customer's request, Contractor shall offer Commercial Customers "slim jim" style Compostables storage bins for use by the Customer inside their Premises to store Compostables prior to placement of the materials in the outdoor Containers to be serviced by Contractor. Up to three (3) internal Compostable storage bins shall be provided at no cost to the Customer. Contractor shall promote the availability of the internal Compostable storage bins during the site visits with the Owner or Property Manager, and through other Commercial public education efforts required by Exhibit C. Contractor shall purchase a sufficient number of Compostable storage bins to maintain an inventory of bins so that upon a Customer's request, Contractor can deliver the Compostables storage bin(s) to the Commercial Premises within two (2) weeks of request. Each Compostables storage bin shall be accompanied by a flyer describing the Compostables program requirements.

The Compostable storage bins shall have approximately 23 gallons of capacity and be constructed of durable plastic with a minimum recycled content of 30 percent. Contractor must submit the Compostables storage bin order (including material and design specifications, colors, and identification marks) to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

J. **Edible Food Recovery Program.** Contractor shall, upon request by the City Contract Manager, participate in a regional food recovery working group in cooperation with jurisdictions, Food Recovery Organizations, and haulers within the Tri-Valley (i.e., the cities of Livermore, Pleasanton, and Dublin) and/or Alameda County. Contractor shall support the City and working group through participation in coordination meetings and dissemination of information about food recovery opportunities to Customers.

5.4.4 Christmas Tree Pickup

A. **Single-Family Customers.** Contractor shall offer to each Single-Family Customer Curbside Collection of Christmas trees during the first and second weeks of the year beginning on the Monday following New Year's Day. In the event New Year's Day is a Monday, Christmas tree Collection shall commence on Tuesday following New Year's Day and continue for two (2) weeks. Christmas trees shall be Collected on the Customer's regular Collection day during the designated week. Customer notification requirements are specified in the public education plan, Exhibit C.

B. **Multi-Family Customers**

1. Multi-Family properties will receive a free Collection of Christmas trees during the first and second weeks of the year beginning on the Monday following New Year's Day as scheduled by Contractor and the Property Manager or resident. In the event New Year's Day is a Monday, Christmas tree Collection shall commence on Tuesday following New Year's Day and continue for five (5) Business Days.

2. Contractor will coordinate with the Property Manager and the Property Manager will inform their residents when the Christmas tree pick up will occur.

3. Contractor will create outreach documents to assist the Property Managers with program requirements consistent with Section 5.17 of the Agreement. The Contractor shall provide signage for the drop off location that assists Person in readily identifying the site as the Christmas tree drop off locations and signage with instructions for placing the trees and the types of items that are prohibited (e.g., flocked trees, trees with decorations, etc.).

C. **Cooperation with Boy Scouts of America.** Contractor shall work cooperatively with the Boy Scouts of America organization or other organizations identified by the City Contract Manager to Collect and Process Christmas trees dropped off at a location selected by these organizations in the City.

D. **Diversion Requirement.** Christmas trees shall be Recycled, Composted or used as mulch or a slope stabilization material, in a manner to count as Diversion in accordance with the Act with the exception of trees that are flocked, contain tinsel, or other decorations, which shall be Collected and Disposed by Contractor.

5.5 City Facilities and Events Collection

5.5.1 City Facilities, Park District, City-Sponsored Events, and Temporary Homeless Encampments

Contractor shall provide Solid Waste, Recyclable Materials, and Compostable Materials Collection, Processing and Disposal services for City Facilities, Livermore Area Recreation and Park District locations, City Sponsored Events, and Temporary Homeless Encampments as described in Exhibits A and B. Contractor shall provide and maintain Collection Containers with the exception of public litter and public Recycling cans, which shall be provided and maintained by the City. Material Collected from the public litter and public Recycling cans listed in Exhibit A shall be sorted after Collection to Divert Recyclable and Compostable Materials, except for materials Collected from Temporary Homeless Encampments. Contractor may integrate Collection of City facilities with other Collection services provided that Contractor estimates Tonnage Collected from City facilities separately from other

Customers. Contractor will separately track materials Collected from Temporary Homeless Encampments and report tons Collected as part of the Monthly Report requirements described in Section 6.3.2.

At the direction of the City Contract Manager, Contractor shall place Containers for the purposes of Collecting Solid Waste and Bulky Items generated from Temporary Homeless Encampments around the City. Contractor will place Containers is a location that is accessible to Collection vehicles and residents of Temporary Homeless Encampments. Containers will be placed for a minimum of 24 hours at the Temporary Homeless Encampments Collection locations, but may be left for a period not to exceed seven (7) days at the discretion of the City Contract Manager. All Solid Waste and Bulky Items Collected by Contractor will be transported to the Approved Disposal Site, with the exception of Excluded Waste or Hazardous Waste.

Contractor shall work cooperatively with the City Contract Manager to annually survey City Facilities to determine appropriateness of service and shall adjust Container size, frequency of service and type of service if appropriate. In addition, Contractor shall assist the City Contract Manager in developing a strategy for increasing Recycling activities and Recycling participation levels of visitors and Commercial Customers in the City's downtown area.

The services provided to Temporary Homeless Encampments may be billed to the City at the current Government Rates listed in Exhibit H, not-to-exceed $9,000 in Rate Period 11 (FY 20-21), and the cost of providing any additional City approved services to Homeless Encampments greater than this amount in any Rate Period, shall be an allowable expense that shall be recovered through Contractor's Compensation. The City Contract Manager will determine whether the cost of services will either be billed to the City or treated as an allowable expense that may be recovered through Contractor's Compensation. The other services required by this Section shall be provided at no charge to the City, but the cost of providing them shall be an allowable expense that may be recovered through Contractor's Compensation.

5.5.2 Large Events and Venues

Contractor shall offer Solid Waste, Recyclable Materials, and Compostable Materials Collection services for all events (e.g., fairs, festivals, etc.) and venues in the City. In addition, Contractor shall offer Food Scraps Collection to the events and venues and provide the service to Customers at City-approved Rates on the Rate Schedule in Exhibit H.

Contractor shall provide the Solid Waste and Recyclable Collection services to all events (listed in Exhibit B) each calendar year for no additional compensation. Contractor shall provide Collection to additional special events at City-approved Rates on the Rate Schedule in Exhibit H.

Large venues requiring regularly scheduled Collection services shall be serviced as Commercial Customers and offered the full range of Commercial Collection services described in this Agreement at City-approved Rates on the Rate Schedule in Exhibit H.

For Large Events and venues with periodic Collection needs, Contractor shall provide Solid Waste, Recyclable Materials, and Compostable Materials as requested by the event or venue organizer. Services provided by Contractor shall include delivery of Collection Containers prior to the Commencement of the event and removal of Collection Containers at the end of the event. Contractor shall provide staff during events to: (i) maintain and empty Collection Containers, (ii) provide outreach, (iii) coordinate with event organizers and other event participants and volunteers, and (iv) collect data for reporting purposes.

Contractor shall develop a Large Event and venue recycling protocol and guidelines within six months of Commencement.

Contractor shall make available Carts, Bins and Drop Boxes and cardboard event boxes. The number and size of Containers shall be sufficient to allow convenient Collection of Solid Waste, Compostables, and Recyclable Materials for event participants. If the event coordinator determines that additional Containers are necessary, Contractor shall promptly deliver the requested number of additional Containers. Carts provided shall be equipped with special lids with drop in slots that minimize contamination of Recyclable and Compostable Materials. Contractor shall arrange the Container delivery and pick-up schedule with the event organizer.

All Solid Waste, Recyclable Materials, and Compostable Materials Collected from events and venues shall be delivered to the Approved Facilities as appropriate.

Contractor shall work cooperatively with events and venues that are classified as Large Events and Large Venues by AB 2176 to assist such events and venues in complying with requirements of AB 2176. As of the Effective Date of this Agreement, the City estimates that one event, the Livermore Downtown Street Fest, may qualify as a Large Event and one or two venues may qualify as Large Venues. Contractor shall assist Large Events and Venues organizers in meeting AB 2176 requirements by offering Recyclables Collection and Compostables Collection services at no cost to the Customer.

5.6 Provision of Service to Schools

If a public or private school (other than schools that are part of the Livermore Valley Joint Unified School District as described in Section 6.21) requests Solid Waste, Recyclable Materials, or Compostable Collection services, Contractor shall provide such services in accordance with the Collection requirements pursuant to Sections 5.2.6, 5.3.3, and 5.4.3. Contractor shall charge the school at Rates that do not exceed the City-approved Rates for Commercial Customers on the Rate Schedule in Exhibit H.

5.7 Construction and Demolition Debris Collection

Contractor shall offer and provide Construction and Demolition Debris (C&D) Collection services to any Customer requesting such service. C&D Collection service shall be a temporary service, provided only at sites where construction, alteration, remodeling, repair, or demolition operations are being performed. Contractor shall Collect C&D from Customers that have requested C&D Collection service as frequently as scheduled by Customer up to six (6) days per week, but not less than one (1) day per week. Contractor shall provide Drop Boxes for C&D Collection and shall place Drop Boxes in locations determined by the Customer or construction site manager. Contractor shall require that all Customers receiving C&D Collection service under this Agreement are provided a Container for non-C&D Solid Waste.

Contractor shall work with the Customer to provide Collection services that result in a minimum of seventy-five percent (75%) of the Collected C&D being Diverted to comply with C&D Diversion requirements established by Applicable Law. C&D Diversion may occur with the use of Source Separated Containers for Recyclable Materials and/or Compostable Materials or through sorting at the Approved C&D Facility. Contractor Billings to C&D Customers shall include two components: a "per-pull" charge to Transport the Drop Box to an Approved Facility, and a charge for the cost of Disposal or Processing

calculated on a per-Ton basis for actual Tons delivered to the Approved Facility. Such Billing shall be at the City-approved Rates for such service.

Contractor shall Transport all C&D Collected under this Agreement to the Approved C&D Processing Site for Processing. Contractor shall pay all tipping fees and other costs associated with Transporting, Processing, and/or Disposal of C&D.

Contractor shall observe and comply with all regulations in effect at the Approved C&D Processing Site and cooperate with and take direction from the operator thereof with respect to delivery of C&D.

5.8 Abandoned Solid Waste Collection

5.8.1 General

Contractor shall Collect Solid Waste and Bulky Items abandoned by Generators in the City. Contractor shall dispatch a truck to Collect abandoned materials at locations in the City identified by Contractor or at locations identified by the City Contract Manager. In instances when the Contractor has received a verbal or written request from the City Contract Manager to Collect abandoned waste at a specific location, Contractor shall Collect abandoned waste from such location within forty-eight (48) hours of receiving the verbal or written request unless special circumstances warrant a longer period, in which case Contractor shall notify the City Contract Manager of such circumstances and the need for additional time to Collect materials within twenty-four (24) hours of the City Contract Manager's verbal or written notice to Collect abandoned waste. Contractor shall be responsible for Collection, Transportation, and Disposal of such material and City shall pay for actual, documented Disposal Costs. Contractor shall record the date, time, location, and description of material Collected including estimated volume of such material; location where such material was Disposed; and cost of Disposal. Copies of receipts from the Approved Disposal Site for Disposal of abandoned Solid Waste shall be made available by Contractor upon request by the City Contract Manager. Tonnage of material Collected shall be separately recorded and reported to the City Contract Manager on a quarterly basis in accordance with reporting requirements stated in Section 6.3.3.

5.8.2 Shopping Carts

Unless otherwise prohibited by law, the Contractor's obligations under this Section shall include the Collection and Recycling or Disposal of all unmarked shopping carts from City limits. Such requirement shall specifically exclude removal of shopping carts that (i) have a sign or other form of marking permanently affixed to it if that identifies the Owner of the cart or the retailer, or lists a valid telephone number or address for returning the shopping carts to the Owner or retailer of such shopping cart; or (ii) are otherwise covered by Section 22435.7 of the California Business and Professional Code or Section 8.18 of the City's Municipal Code.

5.9 Community Garage Sale Event

Contractor shall work with the City Contract Manager to plan an annual community garage sale event to encourage residents to sell their unused or unwanted items for reuse by others. Contractor shall advertise and promote the community garage sale event in the local newspaper as well as develop and make

available garage sale "kits" that shall be distributed along with advertisement(s) in the local newspaper. Contractor shall also post information on its website in the form of a banner with a link connecting to the City's site, and will coach customer service representatives in the correct response to frequently asked questions. The date of the community garage sale event and all advertisements or public announcements related to such event shall be approved by the City Contract Manager. Contractor shall be responsible to provide a minimum of seven (7) days advance notification of the date of the community garage sale to Re-Use Vendors in the City so they may be prepared for an influx of donations of unsold or unwanted items immediately following the community garage sale event. Contractor shall not be required to Collect or Dispose of any unsold or unwanted items for the community garage sale event. During the week following the community garage sale event, Contractor shall remove and Recycle garage sale signs posted by Residents in public right-of-ways (e.g., on sign posts, in roadway medians, etc.).

In accordance with Section 6.3.2.l, Contractor shall provide a report to the City Contract Manager following the garage sale event summarizing their outreach efforts, number of garage sale kits distributed, and estimated number of garage sales held (including location of households, if possible).

5.10 E-Waste and U-Waste Collection

5.10.1 On-Call E-Waste Collection

In addition to Collection of E-Waste during on-call clean-up services, Contractor shall offer Single-Family, Multi-Family, and Commercial Customers on-call E-Waste Collection upon Customer request at City-approved Rates on the Rate Schedule in Exhibit H.

5.10.2 Single-Family Cell Phone and Household Battery Collection

Contractor shall provide weekly Collection of cell phones and household batteries from Single-Family Customers on the same day as Solid Waste, Recyclables, and Compostable Materials are Collected from the Customers. The Collection shall be performed Curbside or at designated location for townhomes, condominiums, or attached Single-Family Premises and disabled and paying back yard/side yard Customers.

Contractor shall instruct Customers to place cell phones and household batteries in plastic disposable resealable zipper bags on top of the Recycling Cart. When the driver of a Recycling Collection vehicle sees a cell phone/battery set-out, the driver will dismount the vehicle at that stop and retrieve the item(s), placing them in a dedicated container in a rack mounted on the truck body. Drivers will further utilize the opportunity this creates to perform a visual check of the Recycling Cart contents. Should contamination be observed, the driver will complete a Corrective Action Notice. If contamination is minor, the driver will Collect the materials and the notice will be left as a courtesy to help educate the resident. If contamination is unacceptably high, the notice will be used to communicate the reasons for non-Collection and steps to take to properly prepare the set-out. Contractor shall arrange for Recycling of cell phones and batteries.

5.11 Hazardous Waste

If Contractor determines that material placed in any Container for Collection is Hazardous Waste, Designated Waste, or other material that may not legally be Disposed of at a Disposal Site or

handled at a Processing Site or presents a hazard to Contractor's employees, the Contractor shall have the right to refuse to accept such material. However, Contractor shall accept: Used Motor Oil and Filters placed by Generator for Collection as a Recyclable Material; E-Waste accepted from an on-call E-Waste Collection or through an On-Call Single-Family Clean-Up Service. The Generator will be contacted by the Contractor and requested to arrange proper Disposal. If the Generator cannot be reached immediately, the Contractor shall, prior to leaving the Premises, leave a tag at least 2 inches by 6 inches which lists the phone number for the Alameda County Household Hazardous Waste program, indicating the reason for refusing to Collect the material. If the material could possibly result in imminent danger to people or property, the Contractor shall notify the Livermore/Pleasanton Fire Department using the 911 emergency number as soon as possible.

The Contractor shall notify the City Contract Manager within 24 hours of the Contractor's discovery of any Hazardous Waste left at any Premises.

If Hazardous Waste is delivered to an Approved Facility by Contractor before its presence is detected and the Generator cannot be identified or fails to remove the material after being requested to do so, the Contractor shall arrange for its proper Disposal. The Contractor shall make a good faith effort to recover the cost of Disposal from the Generator, and the cost of this effort, as well as the cost of Disposal shall be chargeable to the Generator. The Contractor shall be entitled to include the costs incurred under this Section as an operating expense for purposes of compensation under Article 8 and shall include all sums recovered by it from Generators as "Other Income."

5.12 Transportation of Collected Materials

Contractor shall Transport all Solid Waste, Recyclable Materials, and Compostable Materials Collected under this Agreement to the Approved Facilities. Contractor shall maintain accurate records of the quantities of Solid Waste, Recyclable Materials and Compostable Materials Transported to the Approved Facilities and will cooperate with City Contract Manager in any audits or investigations of such quantities.

Contractor has established and shall maintain for the term of the Agreement, a Transfer operation where Recyclable Materials and Compostable Materials are unloaded from Collection vehicles and loaded into large-capacity vehicles. After loading the materials into large-capacity vehicles, Contractor shall Transport materials to the Approved Recyclables Processing Site and Approved Composting Site. Contractor shall be responsible for all site acquisition or leasing costs, site permitting and development costs, construction costs, and other costs related to the development and operation of the Transfer operations as further described in Section 5.21. If the Contractor is unable to use said facility then the Contractor shall be responsible for making other Transportation arrangements. In such event, Contractor shall not be compensated for any additional costs. If the Contractor plans to change its Transfer method, Contractor shall obtain written approval from the City prior to making the change.

Any and all Transfer, Processing, and other material handling activities performed in the City shall occur in an enclosed facility and areas used for parking, vehicle access, and operations shall be paved. A site in

the City used for material handling activities of any kind will be subject to the City's strict development permit review process.

5.13 Disposal and Processing of Collected Materials

5.13.1 Solid Waste Disposal

Contractor shall Transport to and Dispose of all Solid Waste Collected under this Agreement at the Approved Disposal Site, which is selected and approved by City. Unless and until City otherwise approves, the Approved Disposal Site shall be the Vasco Road Landfill in unincorporated Alameda County, California. All costs associated with Transporting and Disposing Solid Waste shall be paid by Contractor and may be recovered through Contractor's Compensation in accordance with Article 8.

If the Contractor expects, during the Term of this Agreement, to be prevented from delivering Solid Waste to the Approved Disposal Site, it shall notify the City Contract Manager immediately. Contractor shall then identify alternative Disposal Sites and evaluate each. Such evaluation shall include the Disposal fee, Transportation cost, permit status, any known permit enforcement proceedings and any other criteria used by the Contractor in recommending alternative Disposal Sites. Contractor shall then present its recommendation and evaluation of alternatives described above to City Contract Manager. City shall either approve the Contractor's recommended Disposal Site or identify an alternative Disposal Site. Contractor will thereafter Dispose of Solid Waste at the alternative Disposal Site approved by the City.

Contractor shall cooperate with the operator of the Approved Disposal Site and comply with the operator's requirements such as how and where to unload Collection vehicles, respecting operations and construction of new facilities, cooperating with the operator's Hazardous Waste Exclusion Program, following scale house weighing and recording keeping processes, and other guidelines established for facility users. Contractor shall plan its Collection routes to be compatible with the Approved Disposal Site's operating hours, which shall be, at a minimum, Monday through Friday from 6:00 a.m. to 5:00 p.m. and Saturday from 6:00 a.m. to 4:30 p.m.

5.13.2 Recyclables Processing

A. **General.** Contractor agrees to Transport and deliver all Source Separated Recyclable Materials it Collects in the City to the Approved Recyclables Processing Site. Contractor shall pay all costs associated with Transfer (if applicable), Transporting, Processing, Composting and marketing Recyclable Materials. Residue from the Recyclable Materials shall be Disposed of by Contractor or the Processing Site Subcontractor at a Disposal Site selected by Contractor or the Processing Site Subcontractor. Any and all Transfer, Processing, and other material handling activities performed in the City shall occur in an enclosed facility and areas used for parking, vehicle access, and operations shall be paved. A site in the City used for material handling activities of any kind will be subject to the City's strict development permit review process.

B. **Processing Arrangements**. Contractor shall secure sufficient capacity to Process Recyclable Materials Collected under this Agreement and cause the Approved Recyclables Processing Site to Process and market the Recyclable Materials. Contractor shall provide the City Contract Manager, upon request, with:

1. Documentation demonstrating the availability of such capacity; and,

2. Name, address and Owner/operator of any Transfer Station used to deliver materials to such site.

Contractor shall guarantee a Residue level of twenty percent (20%) or less, where the Residue level shall be calculated as 100 multiplied by the monthly Tonnage of Processing Residue requiring Disposal divided by the total monthly Tonnage of Recyclable Materials Collected (e.g., the incoming Tons received by the Approved Recyclables Processing Site). Should the Contractor find that the Residue level exceeds this amount, it shall not constitute a breach or default by Contractor but Contractor shall notify City Contract Manager, and Contractor and City Contract Manager shall meet and confer regarding the appropriate measures to obtain compliance in the future.

Contractor shall keep all existing permits and approvals necessary for use of the Recyclable Materials Processing Site(s) in full regulatory compliance or confirm that the Owner or operator of such facility does so. Contractor shall, upon request, provide copies of permits and/or notices of violation of permits to the City Contract Manager.

Contractor may change its selection of the Approved Recyclables Processing Site following City's written approval, but Contractor shall not be compensated for any increased Transportation and Processing costs. Contractor will bear any increased Transportation and Processing costs associated with a Contractor-initiated change in the Approved Recyclables Processing Site. In such case, Contractor shall guarantee the same net Processing Cost specified in Exhibit I1 or shall increase the net Processing Costs (if the amount is a net revenue) associated with the use of Processing site(s) different from the Approved Recyclables Processing Site. If Contractor elects to use a Recyclables Processing Site(s) that is different than the Approved Recyclables Processing Site, it shall request written approval from the City Contract Manager sixty (60) calendar days prior to use of the site and obtain the City's written approval no later than ten (10) calendar days prior to use of the site.

Below is information about the Approved Recyclables Processing Site selected by the Contractor:

Facility Name: Aladdin Materials Recovery Facility
Owner: Alameda County Industries, LLC
Operator: Alameda County Industries, LLC
Address: 610 Aladdin Avenue, San Leandro, California 94577
Contact Person and telephone number: Operations Manager, 510/357-7282

Method of allocating Recyclable Materials Diverted by materials type and Processing Residue to Contractor and the City: The allocation method, for purposes of reporting to the State of California, shall be the method described in AB 901, and shall be certified by an authorized personnel or officer of that Approved Recyclable Processing Site Owner or operator. The allocation method, for purposes of determining Recycling Residue to the City shall be as described herein, and shall be certified by an authorized personnel or officer of that Approved Recyclables Processing Site Owner or operator.

Contractor shall Collect Recyclable Materials generated in the City in Collection Vehicles separately from other Recyclable Materials generated outside the City, except as provided in Sections 6.20 and 6.21, and shall weigh each vehicle so that the Tonnage of Recyclable Materials can be documented on a per-load basis with supporting documentation (such as a certified weight ticket or tag). Periodically, the Contractor shall review its marketing records to calculate the volume of Recyclable Materials received at the Approved Recyclable Materials Processing Site and marketed to determine the percentage of various Recyclable Materials (e.g., glass, newspaper, cardboard, PET, HDPE,

aluminum, etc.) and the City's Residue level. The percentages determined from the review of marketing records shall be used to allocate the total Tonnage Collected in the City into various categories of Recyclable Materials and Residue. Contractor shall report Tonnage and Residue level in accordance with monthly and quarterly reporting requirements in Sections 6.3.2.B and 6.3.3.B.

If Contractor is unable to use the Approved Recyclables Processing Site due to an emergency or sudden unforeseen closure of the Approved Recyclables Processing Site, Contractor may use an alternative Processing Site provided that the Contractor provides verbal and written notice to the City Contract Manager and receives written approval from the City Contract Manager at least twenty-four (24) hours prior to the use of an alternative Processing Site. The Contractor's written notice shall include a description of the reasons the Approved Recyclables Processing Site is not feasible and the period of time Contractor proposes to use the alternative Processing Site. Contractor shall not be compensated for any increased Transportation and Processing costs and shall guarantee the net Processing Cost specified in Exhibit G or shall increase the net Processing Costs (if net revenues) associated with the use of Processing site(s) different from the Approved Recyclables Processing Site, with the exception that if the ability to use the Approved Recyclables Processing Site occurs due to one or more conditions defined in Section 8.4.A as an eligible item for special rate review such as a Change in Law, flood, earthquake, other acts of nature, war, civil insurrection, riots, acts of any government agency (including judicial action), or other similar catastrophic events that are beyond the control of and not the fault of the Contractor. In such case, the special rate review process may be initiated to assess the need to use an alternative Processing Site and/or cost impacts. If the alternative Processing Site is located in the City, the material handling and Processing operations shall occur in an enclosed facility and areas used for parking, vehicle access, and operations shall be paved.

C. Transport. The Contractor is responsible for Transporting Collected Recyclable Materials to the Approved Recyclables Processing Site. Contractor plans to Transfer materials (at the Contractor's Livermore yard) from Collection vehicles into large-capacity Transfer vehicles and then haul the materials to the Approved Recyclables Processing Site. The Contractor plans to back-haul the materials in Transfer vehicles that will also haul Solid Waste generated in San Leandro from the Approved Recyclables Processing Site's related Transfer operations to the Vasco Road Landfill. If the Contractor plans to change its Transport method, Contractor shall obtain written approval from the City prior to making the change; pay all costs; and shall not be reimbursed for any additional costs. The City shall approve the Transport method, and the duration the Transport method is expected to remain in use.

D. Marketing. The Contractor shall be responsible for marketing Recyclable Materials that Contractor Collects in the City, including materials Collected during On-Call Single-Family Clean-Up Services, On-Call Multi-Family Clean-Up Service, and on-call Bulky Item/E-Waste Collection. Contractor shall be compensated by the end users/marketplace for such Recyclable Materials at no less than fair market value.

Contractor shall obtain from the Approved Recyclable Materials Processing Facility operator a marketing plan demonstrating that Recyclable Materials will not be Disposed. The plan, which shall be approved by City Contract Manager or his/her designee, shall be in place on or before the Commencement Date of this Agreement. The marketing plan shall fully describe the Contractor's marketing methods and approach, targeted primary and contingent markets, pricing policy and assumed salvage value for each Collected type of Recyclable Material products, and contingency plans when market conditions are severe.

Upon request, Contractor shall provide proof to the City Contract Manager that all Recyclable Materials Contractor Collects in the City are marketed for Recycling or reuse in such a manner that materials shall be considered as Diverted in accordance with the State regulations established by the Act. All Residual material from the Processing activities that is not marketed for use shall be accounted for as Disposal Tonnage at a permitted Disposal Site. No Recyclable Materials shall be transported to a domestic or foreign location if Solid Waste Disposal of such material is its intended use.

Annually, the Contractor shall update its marketing plan and submit it to the City Contract Manager for approval pursuant to Section 6.4.9. Contractor shall provide City Contract Manager with a list of broker/buyers it has used during the preceding twelve (12) months, if requested by City Contract Manager. If Contractor becomes aware that a broker or buyer has illegally handled or Disposed of material generated by the City or elsewhere, Contractor shall immediately inform the City Contract Manager and terminate its contract or working relationship with such party.

E. Reporting. Contractor shall provide reports on Recyclables Processing as required by Sections 6.3.2, 6.3.3, and 6.4.

F. Residue Disposal. Residue from the Processing of Source Separated Recyclable Materials Collected under this Agreement at the Approved Recyclables Processing Site, which cannot be marketed, shall be Disposed of by Contractor, or the Approved Recyclables Processing Site. Residue delivered for Disposal shall not include any Excluded Waste.

G. Marketability of Recovered Materials. Contractor acknowledges that City places great importance on Contractor's ability to recover resources, including but not limited to Recyclable Materials from the Solid Waste stream through the programs and services performed under this Agreement. City acknowledges that doing so requires Contractor to engage in marketing such recovered resources on the open market, which involves complex global commodities that Contractor has little influence over, and to store such recovered resources prior to marketing in accordance with its facility permits and to assure public health and safety. Under most market conditions, including periods of severely depressed and even negative value, Contractor shall market such resources to ensure that they are recycled into the productive economy.

In the event that Contractor encounters market challenges including, but not limited to, significant changes in pricing, market availability, or quality standards for Recyclable Materials marketed under this Agreement, Contractor shall notify City Contract Manager in writing within five (5) Business Days of the nature of the market challenge and the Contractor's plans for addressing the challenge. Contractor shall provide City Contract Manager with updates on the market challenges at least every twenty (20) Business Days thereafter until Contractor determines that the concern has been resolved.

In the event that the market challenge results in a lack of market demand for Recyclable Materials marketed under this Agreement, Contractor may request relief from the City as set forth below. A lack of market demand shall mean that Contractor cannot reasonably find a market for the productive use of the subject material at any value, positive or negative. Within one (1) Business Day of Contractor's first knowledge of the lack of markets, Contractor shall notify the City Contract Manager via telephone and email with a written notice to follow, such notice to include Contractor's best estimate of the time when its remaining capacity to store such materials under the terms of its facility permits (the "Storage Capacity") will expire. Contractor and City Contract Manager shall meet and confer at the

earliest mutually convenient opportunity to discuss the market conditions. In such case Contractor shall have the burden of proving its good faith efforts to identify markets for the subject material and shall present to City Contract Manager any information available to Contractor about the status of primary and alternative markets for the material, pricing histories, and any other information which may be helpful to the City in making a finding about the Contractor's need for relief. Contractor shall also provide the City Contract Manager with written notice when the Storage Capacity for the materials in question has declined to thirty percent (30%) of normal Storage Capacity, setting forth the estimated number of days when no Storage Capacity will remain. The City Contract Manager shall make a reasonable finding that a market demand either does or does not exist, based on the information presented and any other information available, within twenty (20) days after the Parties meet and confer or, if sooner, before the date when no Storage Capacity remains. If the City reasonably determines that a market demand does exist, Contractor shall be required to continue to market all materials as required under this Agreement. If the City reasonably determines that a market demand does not exist, City may simultaneously identify a productive, non-Disposal outlet for the subject material. If the City is able to so identify such an outlet and such outlet does not exceed the pricing limitation described in this section, Contractor shall deliver the subject material to that outlet. If the City is unable to so identify an outlet, City shall authorize Contractor to temporarily Dispose of the subject material. In such case, Contractor and City Contract Manager shall review the status of the markets at a frequency established by the City Contract Manager until such time as the market demand returns or City reasonably determines that the review process may be discontinued. Additionally, in the event that the City reasonably determines that a market demand does not exist, the City shall have the opportunity to take physical possession of some or all of the subject material from Contractor's facility, in order to market or otherwise Dispose of such materials through other channels or processes.

In the event that the market challenge results in a significant change in pricing for any materials Processed under this Agreement, Contractor may request relief from the City as set forth below. A significant change in pricing shall mean a reduction in market value such that the market cost, on a per ton basis, of sending the subject material to a non-Disposal market, including Transportation costs, exceeds two hundred percent (200%) of the then-current Disposal tipping fee under this Agreement. Processing costs which are described in and subject to the adjustment provisions of Section 2 and 3 of Exhibit I1 shall be excluded from this calculation (except for Transportation costs as set forth in the preceding sentence). For example, if the Processing cost was $135 per ton and Disposal cost was $50 per ton, then a reduction in market cost of sending the material to a non-Disposal market would be @$100 per ton plus the incursion of the $135 per ton Processing cost to the Contractor for a total of $235. Within five (5) Business Days of Contractor's first knowledge of the significant change in pricing, Contractor shall notify the City Contract Manager via telephone and email with a written notice to follow. Contractor shall also provide the City with written notice when the Storage Capacity for the materials in question has declined to thirty percent (30%) of normal, setting forth the estimated number of days when no Storage Capacity will remain. Contractor and City Contract Manager shall meet and confer at the earliest mutually convenient opportunity to discuss the market conditions. In such case Contractor shall have the burden of proving its good faith efforts to identify higher value markets for the subject material and shall present to City Contract Manager any information available to Contractor about the status of primary and alternative markets for the material, pricing histories, and any other information which may be helpful to the City in making a finding about the Contractor's need for relief. The City shall make a reasonable finding that a significant change in pricing has or has not occurred, based on the information presented and any other information available, within twenty (20) days after the parties meet and confer or, if sooner,

before the date when no Storage Capacity remains. If the City reasonably determines that a significant change in pricing has not occurred, Contractor shall be required to continue to market all materials as required under this Agreement. If the City reasonably determines that a significant change in pricing has occurred, City shall simultaneously either: 1) authorize the Contractor to send the materials to market at the significantly reduced value and agree to compensate the Contractor for any amount, including Transportation costs, that exceeds two hundred percent (200%) of the Disposal tipping fee plus the cost of Processing; or 2) identify an alternate, productive, non-Disposal outlet for the subject material at a value, including Transportation costs, less than two hundred percent (200%) of the Disposal tipping fee plus the cost of Processing. Contractor shall follow City's direction if either of those options is elected. If the City is unable to identify an outlet and unwilling to compensate Contractor for the significant change in price, including Transportation costs, beyond two hundred (200%) of the Disposal tipping fee plus the cost of Processing, City shall authorize Contractor to temporarily Dispose of the subject material. In such case, Contractor and City Contract Manager shall review the status of the markets at a frequency established by the City Contract Manager until such time as the market demand returns or City reasonably determines that the review process may be discontinued.

Notwithstanding any other provision of this Section, Contractor shall not Dispose of any material prior to receiving written City authorization to do so and, as necessary and appropriate under the circumstances, Contractor may also be required by the City to secure authorization from StopWaste and/or CalRecycle and/or other relevant regulatory entities.

In the event that City authorizes Disposal of materials under this Agreement related to the provisions of this section, Contractor may only Dispose of materials originating from the City in the same proportion as it Disposes of materials from other jurisdictions using the same facility. For example, if the City's materials represent 33% of the materials processed at the facility, Contractor may only Dispose of one ton of City materials for every two tons of other users' materials that are Disposed. This provision is intended to ensure that the City is treated equally in this regard with all other users of the facility.

5.13.3 Compostable Materials Processing

A. General. Contractor shall Transport all Compostable Materials Collected in the City to the Approved Composting Site. Contractor shall pay all costs associated with Transfer (if applicable), Transporting, Processing, Composting and marketing Compostable Materials. All Compostable Materials shall be processed for use as Compost, mulch, or soil amendment and none shall be Disposed or used as Alternative Landfill Cover. Residue from the Compostable Materials Processing and Composting activities shall be Disposed of by Contractor or the Composting Site at a Disposal Site selected by the Contractor or the Composting Site.

Any and all Transfer, Processing, Composting, and other material handling activities performed in the City shall occur in an enclosed facility and areas used for parking, vehicle access, and operations shall be paved. A site in the City used for material handling activities of any kind will be subject to the City's strict development permit review process.

B. Processing Arrangements. Contractor shall secure sufficient capacity to Process and Compost Compostable Materials Collected under this Agreement and cause the Approved Composting Site to Process, Compost, and market Compostable Materials. Promptly upon direction from City Contract Manager, Contractor shall provide City Contract Manager with documentation satisfactory to City

Contract Manager demonstrating availability of Compostable Materials Processing and Composting capacity at the Approved Composting Site and any Transfer Station used to deliver materials to such site.

Contractor shall keep all existing permits and approvals necessary for use of the Approved Composting Site in full regulatory compliance or confirm that the Owner or operator of such facility does so. Contractor shall, upon request, provide copies of permits and/or notices of violation of permits to the City Contract Manager.

Contractor may change its selection of the Approved Composting Site following City's written approval, but the Contractor's Compensation and Rates will not be adjusted, and Contractor will bear any increased Transportation and Processing costs associated with a Contractor-initiated change in the Approved Composting Site. In such case, Contractor shall guarantee the same net Composting Cost specified in Exhibit G or shall reduce the net Composting Costs associated with the use of a Composting Site(s) different from the Approved Composting Site. If Contractor elects to use a Composting Site(s) that is different than the Approved Composting Site, it shall request written approval from the City Contract Manager or his/her designee sixty (60) calendar days prior to use of the site and obtain the City's written approval no later than ten (10) calendar days prior to use of the site.

City may require Contractor to preprocess Compostable Materials in accordance with Section 4.3 City Directed Changes of this Agreement.

Below is information about the Approved Composting Site selected by the Contractor:

Facility Name: Blossom Valley North
Owner: Recology
Operator: Recology.
Address: 3909 Gaffery Road, Vernalis, California 95385
Contact Person and telephone number: Operations Manager, 209/545-4401

Method of allocating Processing and Composting Residue to Contractor and the City: The allocation method, for purposes of reporting to the State of California, shall be the method described in AB 901, and shall be certified by an authorized personnel or officer of that Approved Composting Processing Site Owner or operator. The allocation method, for purposes of determining Recycling Residue to the City shall be as described herein.

Contractor shall Collect Compostable Materials generated in the City in Collection Vehicles separately from other Compostable Materials generated outside the City, except as provided in Sections 6.20 and 6.21, and shall weigh each vehicle so that the Tonnage of Compostable Materials can be documented on a per-load basis with supporting documentation (such as a certified weight ticket or tag). Periodically, the Contractor shall review Tonnage records and marketing records to determine the City's Residue level and the average percentage of products marketed from the Compost Product (e.g., Compost, mulch, soil amendment, etc.). The percentages determined from the review of Tonnage and marketing records shall be used to allocate the total Tonnage Collected in the City into various categories of Compostable Materials and Residue. Contractor shall report Tonnage and Residue level in accordance with monthly and quarterly reporting requirements in Sections 6.3.2.C and 6.3.3.C.

If Contractor is unable to use the Approved Composting Site due to an emergency or sudden unforeseen closure of the Approved Composting Site, Contractor may use an alternative Processing Site provided that the Contractor provides verbal and written notice to the City Contract Manager and receives written approval from the City Contract Manager at least twenty-four (24) hours prior to the use of said alternative Processing Site. The Contractor's written notice shall include a description of the reasons the Approved Composting Site is not feasible and the period of time Contractor proposes to use the alternative Composting Site. Contractor shall not be compensated for any increased Transportation and Processing costs associated with the use of Composting Site(s) different from the Approved Composting Site, with the exception that if the inability to use the Approved Composting Site occurs due to one or more conditions defined in Section 8.4.A as an eligible item for special rate review such as a Change in Law, flood, earthquake, other acts of nature, war, civil insurrection, riots, acts of any government agency (including judicial action), or other similar catastrophic events that are beyond the control of and not the fault of the Contractor. In such case, the special rate review process may be initiated to assess the need to use an alternative Composting Site and/or cost impacts.

C. **Processing Standards.** The following Processing standards shall be met by the Approved Composting Site:

1. Pre-Processing activities shall include, at a minimum, the inspection for and removal of Hazardous Waste and removal of plastic bags which Commercial Customers used to store Compostables.

2. Composting shall be accomplished by the use of recognized Composting methods, which have been demonstrated to be able to consistently produce stable, mature Compost Product that is suitable for general purpose use, similar to the U.S. Composting Council's Class 1 rating.

3. Post-Composting Processing activities shall include screening to remove plastics and other contaminants from the Compost Product.

4. The Approved Composting Site Owner and/or operator shall cooperate with the City or its agent(s), including StopWaste, if the City Contract Manager wants to collect data, perform field work, and/or evaluate and monitor program results related to Compostable Materials Collected in the City by the Contractor.

5. The Compostable Materials Processing and Composting activities shall maintain an average monthly Residue level less than five percent (5%) where the Residue level shall be calculated as 100 multiplied by the monthly Tonnage of Processing or Composting Residue requiring Disposal divided by the total monthly Tonnage of Compostable Materials Collected.

D. **Transport.** The Contractor is responsible for Transporting Collected Compostable Materials to the Approved Composting Site. Contractor plans to Transfer materials (at the Contractor's Livermore yard) from Collection vehicles into large-capacity Transfer vehicles and then haul the materials to the Approved Composting Site. If the Contractor plans to change its Transport method, Contractor shall obtain written approval from the City prior to making the change; pay all costs; and shall not be reimbursed for any additional costs. The City shall approve the Transport method and the duration the Transport method is expected to be in use.

E. **Marketing.** Contractor shall market the resulting Compost Product to agricultural growers or other interested parties. Materials shall be used for Compost, mulch, or soil amendment and none shall be deposited for Disposal or used as Alternative Landfill Cover.

Contractor shall cause the Approved Composting Site to prepare and maintain a City-approved marketing plan for all Compostable Materials Collected in the City. The plan, which shall be approved by the City Contract Manager or his/her designee, shall be in place on or before the Commencement Date of this Agreement. The marketing plan shall fully describe the Contractor's marketing methods and approach, targeted primary and contingent markets, pricing policy and assumed value for each type of Compost Product, and contingency plans when market conditions are severe.

Upon request, Contractor shall provide proof to the City Contract Manager that all Compost Materials Contractor Collects in the City are marketed for use as Compost Products in such a manner that materials shall be considered as Diverted in accordance with the State regulations established by the Act. All Residual material from the Processing activities that is not marketed for use shall be accounted for as Disposal Tonnage at a permitted Disposal Site. No Compostable Materials shall be Transported to a domestic or foreign location if Solid Waste Disposal of such material is its intended use.

Annually, the Contractor shall obtain from the Approved Composting Site operator a marketing plan demonstrating that Compostable Materials will not be Disposed and submit it to the City Contract Manager. Contractor shall request that the Approved Composting Site operator provide City with a list of broker/buyers it has used during the preceding twelve (12) months, if requested by City Contract Manager. If Contractor becomes aware that a broker or buyer has illegally handled or Disposed of material generated by the City or elsewhere, Contractor shall immediately inform the City Contract Manager and terminate its contract or working relationship with such party.

F. **Product Use by City**. Contractor shall offer Compost Products to the City at a price that is limited to the cost incurred by the Contractor to purchase and Transport of such material to the City. If the City Contract Manager elects to purchase and back-haul finished Compost Products, the Contractor will collaborate with the City to organize and schedule up to two (2) neighborhood Compost "giveaways" (such as spring garden festivals) during the year.

G. **Reporting.** Contractor shall provide reports on Compostable Materials Processing as required by Sections 6.3.2, 6.3.3, and 6.4.

H. **Residue Disposal.** Residue from the Processing of Compostable Materials Collected under this Agreement at the Approved Composting Site, which cannot be marketed, shall be Disposed of by Contractor, or the Approved Composting Site. Residue delivered for Disposal shall not include any Excluded Waste.

5.13.4 Construction and Demolition Debris Processing

A. **General.** Contractor shall Transport all Construction and Demolition Debris Collected in the City to the Approved C&D Processing Site. Contractor shall pay all costs associated with Transfer (if applicable), Transporting, Processing and marketing Construction and Demolition Debris. Construction and Demolition Debris shall be processed for reuse and none shall be used as Alternative Landfill Cover. Residue from the Construction and Demolition Debris Processing activities shall be Disposed of by Contractor or the Approved C&D Processing Site at a Disposal Site selected by the Contractor or the Approved C&D Processing Site.

Any and all Transfer, Processing and other material handling activities performed in the City shall occur in an enclosed facility and areas used for parking, vehicle access, and operations shall be paved.

A site in the City used for material handling activities of any kind will be subject to the City's strict development permit review process.

B. **Processing Arrangements.** Contractor shall secure sufficient capacity to Process Construction and Demolition Debris Collected under this Agreement and to cause the Approved C&D Processing Site to Process and market Construction and Demolition Debris. Promptly upon direction from City Contract Manager, Contractor shall provide City Contract Manager with documentation satisfactory to City Contract Manager demonstrating availability of Construction and Demolition Debris Processing capacity at the Approved C&D Processing Site and any Transfer Station used to deliver materials to such site.

Contractor shall keep all existing permits and approvals necessary for use of the Approved C&D Processing Site in full regulatory compliance or confirm that the Owner or operator of such facility does so. Contractor shall, upon request, provide copies of permits and/or notices of violation of permits to the City Contract Manager.

Contractor may change its selection of the Approved C&D Processing Site following City's written approval, but the Contractor's Compensation and Rates will not be adjusted, and Contractor will bear any increased Transportation and Processing costs associated with a Contractor-initiated change in the Approved C&D Processing Site. In such case, Contractor shall guarantee the same net Processing Cost specified in Exhibit G or shall reduce the net Processing Costs associated with the use of a C&D Processing Site(s) different from the Approved C&D Processing Site. If Contractor elects to use a C&D Processing Site(s) that is different than the Approved C&D Processing Site, it shall request written approval from the City Contract Manager or his/her designee sixty (60) calendar days prior to use of the site and obtain the City's written approval no later than ten (10) calendar days prior to use of the site.

City may require Contractor to preprocess Construction and Demolition Debris in accordance with Section 4.3 City Directed Changes of this Agreement.

Below is information about the Approved C&D Processing Site selected by the Contractor:

Facility Name: Republic Services Vasco Road
Owner: Republic Services Vasco Road, LLC
Operator: Republic Services Vasco Road, LLC
Address: 4001 N. Vasco Road, Livermore, California
Contact Person and telephone number: Operations Manager, _____

Method of allocating Processing and Disposing Residue to Contractor and the City: The allocation method, for purposes of reporting to the State of California, shall be the method described in AB 901, and shall be certified by an authorized personnel or officer of that Approved C&D Processing Site Owner or operator. The allocation method, for purposes of determining Recycling Residue to the City shall be as described herein.

Contractor shall Collect Construction and Demolition Debris Materials generated in the City in Collection Vehicles separately from other Construction and Demolition Debris generated outside the City, except as provided in Sections 6.20 and 6.21, and shall weigh each vehicle so that the Tonnage of Construction and Demolition Debris can be documented on a per-load basis with supporting documentation (such as a certified weight ticket or tag). Periodically, the Contractor shall review

Tonnage records and marketing records to determine the City's Residue level and the average percentage of products marketed from the Construction and Demolition Debris. The percentages determined from the review of Tonnage and marketing records shall be used to allocate the total Tonnage Collected in the City into various categories of Construction and Demolition Debris and Residue. Contractor shall report Tonnage and Residue level in accordance with monthly and quarterly reporting requirements in Sections 6.3.2.C and 6.3.3.C.

If Contractor is unable to use the Approved C&D Processing Site due to an emergency or sudden unforeseen closure of the Approved C&D Processing Site, Contractor may use an alternative Processing Site provided that the Contractor provides verbal and written notice to the City Contract Manager and receives written approval from the City Contract Manager at least twenty-four (24) hours prior to the use of said alternative Processing Site. The Contractor's written notice shall include a description of the reasons the Approved C&D Processing Site is not feasible and the period of time Contractor proposes to use the alternative Processing Site. Contractor shall not be compensated for any increased Transportation and Processing costs associated with the use of Processing Site(s) different from the Approved C&D Processing Site, with the exception that if the inability to use the Approved C&D Processing Site occurs due to one or more conditions defined in Section 8.4.A as an eligible item for special rate review such as a Change in Law, flood, earthquake, other acts of nature, war, civil insurrection, riots, acts of any government agency (including judicial action), or other similar catastrophic events that are beyond the control of and not the fault of the Contractor. In such case, the special rate review process may be initiated to assess the need to use an alternative Composting Site and/or cost impacts.

C. **Processing Standards.** The following Processing standards shall be met by the Approved C&D Processing Site:

The Approved C&D Processing Site Owner and/or operator shall cooperate with the City or its agent(s), including StopWaste, if the City Contract Manager wants to collect data, perform field work, and/or evaluate and monitor program results related to Construction and Demolition Debris Collected in the City by the Contractor.

Contractor shall guarantee a Residue level of twenty-five percent (25%) or less, where the Residue level shall be calculated as 100 multiplied by the monthly Tonnage of Processing Residue requiring Disposal divided by the total monthly Tonnage of Construction and Demolition Debris Collected (e.g., the incoming Tons received by the Approved C&D Processing Site). Should the Contractor find that the Residue level exceeds this amount, it shall not constitute a breach or default, but Contractor shall notify City Contract Manager, and Contractor and City Contract Manager shall meet and confer regarding the appropriate measures to obtain compliance in the future.

D. **Transport.** The Contractor is responsible for Transporting Collected Construction and Demolition Debris to the Approved C&D Processing Site. Contractor plans to direct haul the materials from the point of Collection to the Approved C&D Processing Site. If the Contractor plans to change its Transport method, Contractor shall obtain written approval from the City prior to making the change; pay all costs; and shall not be reimbursed for any additional costs. The City shall approve the Transport method and the duration the Transport method is expected to be in use.

E. **Marketing Plan.** The Contractor shall be responsible for marketing Construction and Demolition Debris that Contractor Collects in the City. Contractor shall be compensated by the end users/marketplace for such Construction and Demolition Debris at no less than fair market value.

Contractor shall cause the Approved Construction and Demolition Debris Site to prepare and maintain a City Contract Manager-approved marketing plan for all Construction and Demolition Debris Collected in the City. The plan, which shall be approved by City Contract Manager or his/her designee, shall be in place on or before the Commencement Date of this Agreement. The marketing plan shall fully describe the Contractor's marketing methods and approach, targeted primary and contingent markets, pricing policy and assumed salvage value for each Collected type of Construction and Demolition Debris products, and contingency plans when market conditions are severe.

Upon request, Contractor shall provide proof to the City Contract Manager that all Construction and Demolition Debris Contractor Collects in the City are marketed for Recycling or reuse in such a manner that materials shall be considered as Diverted in accordance with the State regulations established by the Act. All Residual material from the Processing activities that is not marketed for use shall be accounted for as Disposal Tonnage at a permitted Disposal Site. No Construction and Demolition Debris shall be transported to a domestic or foreign location if Solid Waste Disposal of such material is its intended use.

Annually, the Contractor shall update its marketing plan and submit it to the City Contract Manager for approval pursuant to Section 6.4.9. Contractor shall provide City Contract Manager with a list of broker/buyers it has used during the preceding twelve (12) months, if requested by City Contract Manager. If Contractor becomes aware that a broker or buyer has illegally handled or Disposed of material generated by the City or elsewhere, Contractor shall immediately inform the City Contract Manager and terminate its contract or working relationship with such party.

F. **Reporting.** Contractor shall provide reports on Construction and Demolition Debris Processing as required by Sections 6.3.2, 6.3.3, and 6.4.

G. **Residue Disposal.** Residue from the Processing of Construction and Demolition Debris Collected under this Agreement at the Approved C&D Processing Site, which cannot be marketed, shall be Disposed of by Contractor, or the Approved C&D Processing Site. Residue delivered for Disposal shall not include any Excluded Waste.

5.13.5 Insurance, Indemnifications and Performance Standards

If Contractor uses a Recyclables Processing Site Subcontractor, C&D Processing Site Subcontractor, or Composting Subcontractor, or enters into any contract, agreement or understanding with a Subcontractor for services related to Recyclable Materials Processing and marketing, Construction and Demolition Debris Processing and marketing, Organic Materials Processing, Composting, and marketing, or Transfer Station services, Contractor shall provide that terms and conditions (such as insurance requirements, indemnifications, and Processing, Composting, marketing performance, and Residue guarantees) of any contract, agreement, or other understanding Contractor has with such Subcontractor can be enforced by the City as an additional insured or third party beneficiary thereof in the same manner provided in Article 9 and in a manner reasonably satisfactory to City Contract Manager. Should Contractor not be able to secure such terms and conditions, it shall notify City Contract Manager and Contractor and City Contract Manager shall agree on reasonable response.

If Contractor or an Affiliate owns or operates the Approved Recyclable Materials Processing Site, Approved C&D Processing Site or Approved Composting Site, Contractor shall include City as an additional insured on liability policies and defend and indemnify City in a manner satisfactory to the City's Risk Manager, and provide that any materials recovery and marketing performance standards or guarantees made to any other facility customers are made to City as well, including obligations such as recovered product and Compost Product quality guarantees and limits on the Residue level.

Contractor shall demonstrate compliance with the requirements of this paragraph on or before the Commencement Date of this Agreement.

5.13.6 Compliance with Applicable Law

Contractor (or its Subcontractor(s)) warrants throughout the Term that the Approved Recyclables Processing Site, Approved C&D Processing Site, and Approved Composting Site selected by Contractor are respectively authorized and permitted to accept Recyclable Materials, Construction and Demolition Debris, and Compostable Materials in accordance with Applicable Law and is in full compliance with Applicable Law. Contractor shall: (1) verify compliance for the Approved Recyclables Processing Site, Approved C&D Processing Site, and Approved Composting Site (that neither it nor its Affiliates own) by contacting the local enforcement agency and other regulatory agencies having jurisdiction over that Approved Recyclables Processing Site, C&D Processing Site, and Approved Composting Site at least quarterly; and (2) upon City Contract Manager direction, shall promptly provide City Contract Manager with copies of the Approved Recyclables Processing Site, Approved C&D Processing Site, and Approved Composting Site's permits or notice of violations to City Contract Manager.

5.13.7 Compliance with Facility Rules

Contractor (or its Subcontractor(s)) shall observe and comply with all regulations in effect at the Approved Recyclables Processing Site, Approved C&D Processing Site, and Approved Composting Site and cooperate with the operators thereof with respect to delivery of Recyclable Materials, Construction and Demolition Debris, and Compostable Materials, including directions to unload Collection vehicles in designated areas, accommodating operations and maintenance activities, and complying with Hazardous Waste exclusion programs.

5.13.8 Transportation and Processing Costs

All costs associated with Transporting to and Processing Recyclable Materials and Compostable Materials at the Approved Recyclables Processing Site, Approved C&D Processing Site, and Approved Composting Site shall be paid by Contractor.

5.13.9 Weighing and Record Requirements

Contractor shall ensure that all Solid Waste, Recyclable Materials, Construction and Demolition Debris, and Compostable Materials are weighed upon delivery to the Approved Facility(ies), and all weight and related delivery information (including date, time, material type, route and truck number) ("Delivery Data") is recorded. Contractor shall provide City Contract Manager the name of any driver of any identified delivery promptly upon request by City Contract Manager. If vehicle receiving and unloading operations are recorded on video cameras at any Approved Facility(ies), Contractor shall make, or shall use its best efforts to arrange with the facility operator if other than Contractor to make, those videos available for City Contract Manager review during the facility's operating hours, upon request of the City Contract Manager.

5.13.10 Disposal of Recyclable, Construction and Demolition Debris, and Compostable Materials Prohibited

With the exception of Processing and Composting Residue which shall not exceed five percent (5%) of the Compostable Materials and twenty percent (20%) for Recyclable Materials (based on a monthly average) and twenty-five percent (25%) for Construction and Demolition Debris (based on each construction and demolition project), Recyclable and Compostable Materials and Construction and Demolition Debris may not be Disposed of in lieu of Recycling or Composting the material, without the express written approval of the City. If for reasons beyond its reasonable control, Contractor (or its Subcontractor(s)) believes that it cannot Divert the Recyclable or Construction and Demolition Debris or Compostable Materials from Disposal, then it shall notify City Contractor Manager in accordance with Section 5.13.2.G Marketability of Recovered Materials above. Should the Contractor find that the Residue level exceeds the amounts described above, it shall not constitute a breach or default, but Contractor shall notify City Contract Manager, and Contractor and City Contract Manager shall meet and confer regarding the appropriate measures to obtain compliance in the future.

In the event the accumulation of such non-Diverted Recyclable or Compostable Material is causing, or is likely to cause, a nuisance or health hazard, in the sole discretion of the City Contract Manager, he or she may authorize, in writing, the Disposal of such material on an interim basis pending City Council's final approval (or disapproval) of such Disposal.

5.13.11 Alternative Facility Designation by City

The City reserves the right to direct Contractor to transport and deliver: (i) all Compostable Materials Collected pursuant to this Agreement to a Composting Site other than the Approved Composting Site selected by the Contractor, (ii) all Recyclable Materials Collected pursuant to this Agreement to an alternative Processing Site other than the Approved Processing Site selected by the Contractor, or (iii) all C&D Debris Collected pursuant to this Agreement to a C&D Processing Site other than the Approved C&D Processing Site selected by the Contractor. If the City exercises its right under this provision and specifies use of a Recyclables, C&D, or Composting Processing Site that is different from the Contractor-selected Approved Facility(ies), the City shall provide written notice to Contractor one (1) year before the date the Contractor shall commence use of the City-designated site. Furthermore, the Contractor's Compensation and Rates will be adjusted for increases or decreases in Transportation, Processing, and/or Composting costs, if any, in accordance with Sections 4.3 and 8.5.

5.14 Collection Standards

5.14.1 Care of Private Property

Contractor shall use due care when handling Solid Waste, Recyclable Materials and Compostable Materials Containers. Containers shall not be thrown from trucks, roughly handled, damaged or broken. Containers shall be returned to the Collection point upright, with lids properly secured. The City may levy Liquidated Damages for repeat occurrences in accordance with Section 11.6 of this Agreement.

Contractor shall ensure that its employees close all gates opened in making Collections, unless otherwise directed by the Generator, and avoid crossing landscaped areas and climbing or jumping over hedges and fences for Collection service provided to the elderly and/or disabled receiving backyard/side yard services and any Customers paying for backyard/side yard services.

City shall refer Complaints about damage to private property to Contractor. Contractor shall repair all damage to private property caused by its employees or their vehicles.

5.14.2 Litter Abatement

A. **Minimization of Spills**. Contractor shall use due care to prevent Solid Waste, Recyclable Materials, and Compostable Materials from being spilled, scattered, windblown during the Collection, Transportation, Processing, or other material handling activity. If any Solid Waste, Recyclable Materials, or Compostable Materials are spilled during Collection, Transportation, Processing, or other material handling activity, the Contractor shall promptly clean up all Unacceptable Spillage. This clean-up requirement shall apply to cleaning up drift (e.g., windblown materials) along roads near the facilities used by the Contractor resulting from Contractor's Transport, Transfer, or other material handling activities.

Contractor shall not Transfer loads from one vehicle to another on any public street, unless it is necessary to do so because of mechanical failure; hot load (combustion of material in the truck); accidental damage to a vehicle or unless approved by the City.

B. **Cleanup**. During Collection, the Contractor shall clean up Litter (whether or not Contractor has caused the Litter) and Unacceptable Spills in the immediate vicinity of any Solid Waste, Recyclable Materials or Compostable Materials storage area (including the areas where Collection Bins and Drop Boxes are and Compactors are delivered for Collection). Each Collection vehicle shall carry a broom and shovel at all times for the purpose of cleanup of Litter and Unacceptable Spills. Cat litter or similar absorbent material shall be used for liquid spill cleanups. The Contractor shall discuss instances of repeated spillage not caused by it directly with the Generator responsible and will report such instances to City. In situations where the Contractor has already attempted to do so without success, the City will attempt to rectify such situations with the Generator.

C. **Covering of Loads**. Contractor shall cover all open Drop Boxes at pick-up location prior to Transport to the Disposal Site or Processing Site.

5.14.3 Hours of Collection

If the Collection point of a Commercial Premises is one hundred (100) feet or less from Single-Family and Multi-Family structures, Contractor may only Collect Solid Waste, Recyclable Materials and Compostable Materials from the Commercial Premises between the hours of 6:00 a.m. and 6:00 p.m., except as provided for in LMC 8.19.020 (A) (14). If the Collection point of a Commercial Premises is more than one hundred (100) feet from Single-Family and Multi-Family structures, Contractor may only Collect Solid Waste, Recyclable Materials and Compostable Materials from the Commercial Premises between the hours of 4:00 a.m. and 6:00 p.m. The distance from the Collection point to the Residential structure shall be measured from the location of the Collection Container on the Commercial Premises to the adjacent Residential structure. Contractor will promptly resolve any Complaints of noise during the morning or evening hours of the day to the satisfaction of the City Contract Manager. For the purposes of this Section, schools shall be considered Commercial Premises.

5.14.4 Noise

All Collection operations shall be conducted as quietly as possible and shall conform to applicable Federal, State, County and City noise level regulations. Additional requirements are specified in Section 5.15.2.

5.14.5 Holiday Collection Schedule

During the week of a Holiday, Collection may not occur on the Holiday but shall occur on the day following the Holiday, except when the Holiday falls on a Saturday or Sunday Collection shall occur on the first Monday following the Holiday. The Contractor shall provide at least a two (2) week advance notice to all Customers regarding the Holiday week schedule changes.

5.14.6 Permanent Changes in Service Days

The regularly scheduled day for Single-Family Collection may be changed with prior written approval from the City. Once approved, Single-Family Customers shall be notified four (4) weeks prior to any schedule changes to Solid Waste, Recyclable Materials, and Compostable Materials services. Contractor shall not permit any Customer to go more than seven (7) calendar days without service during a Collection schedule change.

5.14.7 Load Inspection Program

Contractor shall develop and implement a program to detect and discover Hazardous Waste and shall not knowingly accept such material at the time of Collection. The load inspection program shall include the following steps: Collection vehicle drivers shall receive regular training (at least four (4) times annually) to identify Hazardous Wastes and methods for handling these materials once spotted. All Contractor facilities shall have waste exclusion programs in place to screen for and eliminate Hazardous Waste from the materials received. Random inspections of loads Collected and visual screening shall be periodically conducted by the Contractor at its facilities or at the Approved Facilities when materials are unloaded from the Collection vehicle. Records of load checks and copies of the employee training records shall be maintained at Contractor's facilities. When Hazardous Waste is found, it shall be returned to the Generator if possible. If the Hazardous Waste cannot be returned to the Generator, Contractor shall place Hazardous Waste in an authorized storage location and arrange for proper Disposal of such material at its own costs. (See also Sections 5.11 and 5.18.3.)

5.14.8 Overages (Excess Materials)

Contractor shall direct its employees not to Collect Solid Waste, Recyclable Materials, or Compostable Materials beyond each Customer's subscription level of service unless the business office of Contractor has granted prior authorization to make such Collection or the overages of Compostable Materials are placed in a kraft bag as described in Section 5.4.1.D and Customer is billed at the City-approved Rate on the Rate Schedule in Exhibit H.

5.14.9 Non-Collection Notices

Contractor shall instruct all Customers and Generators as to any necessary preparation of materials and the proper placement of Containers for Collection; and shall notify Customers who fail to follow these instructions by attaching a thirteen (13) inch by six (6) inch tag to the Container with a description of how Customer has violated such instructions. In the event of non-Collection as a result of such violation, Contractor shall clearly indicate on the tag the reason for non-Collection and what steps must be taken by Customer to recommence service. In cases of extreme or repeated failure to comply with the instructions, Contractor shall notify the City Contract Manager of the Customer's repeated failures, in accordance with Sections 5.3.3.F and 5.4.3.G.

5.15 Vehicles

5.15.1 General

Beginning in Rate Period Twelve (which commences on July 1, 2021), Contractor shall provide a fleet of new Collection vehicles sufficient in number and capacity to efficiently perform the work required by the Agreement in strict accordance with its terms. Should the Contractor anticipate a delay in the delivery of such new Collection vehicles, resulting from matters beyond its control, it shall notify the City Contract Manager of the conditions resulting in the delay and request approval of an extended commencement date. The Parties shall meet and confer on a reasonable extension to the July, 1 2021 commencement date. The Collection vehicles shall operate on compressed natural gas (CNG). Contractor shall have available sufficient back-up vehicles for each type of Collection vehicle used (e.g., side loader, front loader, roll-off, etc.) to respond to Complaints and emergencies. The new vehicles shall be used to exclusively provide services under this Agreement including services to the County (Section 6.20) and Livermore Valley Joint Community School District (Section 6.21) for a minimum of ten (10) years commencing in Rate Period Twelve (which commences on July 1, 2021) of this Agreement; and, Contractor shall depreciate the vehicles over a ten-year (10-year) period. Contractor shall operate no vehicles, except spares that otherwise meet the requirements of this Section 5.15, within the City over fifteen years (15-years) in age during the initial or extended Term of this Agreement.

Contractor shall service Single-Family Customers with automated side-loading Collection vehicle operated by a one-Person crew (e.g., driver only). Contractor's fleet of Collection vehicles shall include one or more vehicles capable of Collecting from "hard-to-service" Customers. Hard-to-service Customers are Customers whose Carts may not be accessible by traditional, large-capacity Collection vehicles for a variety of reasons, such as, but not limited to: newer Residential streets that are narrower than standard Residential streets; limited space available for Customers to place Carts three feet apart; mature trees (or trees that mature during the future) that limit vehicle clearances; and many large Multi-Family Premises are built at the end of cul-de-sacs with cars parked along both sides of the street forcing the Collection vehicle driver to exit the vehicle and wheel Carts to the Collection vehicle. Contractor shall anticipate that future Residential development in the City may result in more areas with narrow streets that may be difficult to serve. Additionally, future development could be denser and could increase mixed use (e.g., apartments or condominiums above or adjacent to businesses) and/or multi-story buildings (e.g., up to four (4) or five (5) stories).

In addition to hard-to-service Residential Customers, some Commercial Customers in the downtown area are difficult to service. As more development occurs in the downtown area, more Collection difficulties may arise. The Contractor shall be responsible for providing and operating the appropriate types of Collection vehicles to effectively service any and all hard-to-service Customers as of the Commencement Date and over the Term of the Agreement.

Contractor shall be solely responsible for identifying hard-to-service Customers and selecting Collection vehicle(s) or other Collection means that are capable of efficiently servicing them. Contractor plans to service "hard-to-service" Customers with rear-loading Collection vehicle(s) operated by two-Person crews (e.g., driver and helper) with the exception of Customers that can be safely served with Contractor's side-loading or front-loading Collection vehicles. Contractor may also use split-body vehicles to Collect more than one type of material concurrently.

Contractor shall Collect Solid Waste, Recyclable Materials, and Compostable Materials generated in the City in Collection Vehicles separately from each other and from other materials generated outside the City, except as provided in Sections 6.20 and 6.21. Contractor shall weigh each vehicle at the Transfer Station, Processing Site, Composting Site, or Disposal Site so that the Tonnage of materials can be documented on a per-load basis by material type with supporting documentation (such as a certified weight ticket or tag).

5.15.2 Specifications

All vehicles used by Contractor in providing Collection services shall be registered with the California Department of Motor Vehicles. All such vehicles shall have watertight bodies designed to prevent leakage, spillage or overflow. All such vehicles shall comply with U.S. Environmental Protection Agency (EPA) noise emission regulations and other applicable noise control regulations. Any vehicle that does not comply with noise level requirements stated in Section 5.14.4 shall be prohibited from performing services under this Agreement.

As required by law, Contractor shall comply with State and federal regulations including, but not limited to: (i) the California Air Resources Board Heavy Duty Engine Standards, contained in CCR Title 13, Section 2020 et seq; and, (ii) the Federal Environmental Protection Agency's Highway Diesel Fuel Sulfur regulations (Section 209(b) of the Clean Air Act, as amended, 42 U.S.C. 7543(b)). In addition, Contractor shall plan to comply with all State and federal regulations related to emissions control using engines, vehicles, and/or control technologies that meet or exceed the 2019 or later model year vehicle and engine requirements. Contractor shall comply with these requirements by using new Collection vehicles on or before the first date of Rate Period Twelve (which commences on July 1, 2021) that meet or exceed the requirements. If Contractor needs to convert, retrofit, or replace its Collection vehicles to be in full compliance with local, State and federal clean air requirements (including compliance with requirements for 2010 or later model year vehicles) in effect on the Commencement Date of the Agreement, the costs for such changes shall be the sole responsibility of the Contractor and shall not be reimbursed through a change in Contractor's Compensation or Rates. To the extent that clean air requirements become more or less stringent after the Commencement Date of the Agreement, Contractor Compensation or Rates shall be adjusted upward or downward to reflect reasonable and actual costs of modification subject to prior approval from the City.

5.15.3 Vehicle Identification

Contractor's name, local telephone number, and a unique vehicle identification number for each vehicle shall be prominently displayed on all vehicles, in letters and numbers no less than six (6) inches high. Contractor shall not place the City's logo on its vehicles. Contractor shall not use vehicles identified for use in Livermore in any other jurisdiction without prior approval from the City Contract Manager.

5.15.4 Inventory

Contractor shall furnish sufficient equipment to provide all service required under this Agreement. Contractor shall furnish the City Contract Manager a written inventory of all vehicles, including Collection vehicles, used in providing service, and shall update the inventory report annually. The inventory shall list all vehicles by manufacturer, ID number, date of acquisition, type, capacity and decibel rating.

5.15.5 Cleaning and Maintenance

A. **General.** Contractor shall maintain all of its properties, facilities, and equipment used in providing service under this Agreement in a safe, neat, clean, and operable condition at all times.

B. **Cleaning.** Vehicles used in the Collection of Solid Waste, Recyclable Materials, and Compostable Materials shall be thoroughly washed and thoroughly steam cleaned on a minimum of one (1) time per week or more frequently if necessary so as to present a clean appearance of the exterior and interior compartment of the vehicle. City Contract Manager may inspect vehicles at any time to determine compliance with sanitation requirements. Contractor shall make vehicles available to the Alameda County Health Department for inspection at any frequency it requests.

C. **Maintenance.** Contractor shall inspect each vehicle daily to ensure that all equipment is operating properly. Vehicles that are not operating properly shall be taken out of service until they are repaired and operate properly. Contractor shall perform all scheduled maintenance functions in accordance with the manufacturer's specifications and schedule. Contractor shall keep accurate records of all vehicle maintenance, recorded according to date and mileage, and shall make such records available to the City Contract Manager upon request to the extent necessary to perform the inspections described in Sections 6.8 and 6.9.

D **Painting.** All vehicles shall be painted on a regular schedule to maintain a clean, professional, new-like appearance. At any time during the Term, the City Contract Manager may require painting of any vehicle which does not present a satisfactory appearance and such vehicle shall be painted within thirty (30) calendar days of the City Contract Manager's written request. All graffiti shall be removed within forty-eight (48) hours if such graffiti includes any written or pictorial obscenities and otherwise shall be removed within five (5) Business Days.

E. **Repairs.** Contractor shall repair, or arrange for the repair of, all of its vehicles and equipment for which repairs are needed because of accident, breakdown or any other cause so as to maintain all equipment in a neat, clean, safe and operable condition. If an item of repair is covered by a warranty, Contractor shall obtain warranty performance. Contractor shall maintain accurate records of repair, which shall include the date/mileage, nature of repair and the signature of a maintenance supervisor that the repair has been properly performed. Repairs shall include repair of cosmetic dents and damage to vehicles so as to maintain a neat appearance of the equipment.

F. **Storage.** Contractor shall arrange to store all vehicles and other equipment in safe and secure location(s) in accordance with City's applicable zoning regulations.

5.15.6 Operation

Vehicles shall be operated in compliance with the California Vehicle Code, and all applicable safety and local ordinances. Contractor shall not load vehicles in excess of the manufacturer's recommendations or limitations imposed by State or local weight restrictions on vehicles. The City Contract Manager shall be notified no later than seventy-two (72) hours after an inspection is performed by the California Highway Patrol under the California Motor Vehicle Code Section 34501.12 (Maintenance Facility or Terminal Inspection). All records of periodic inspections of vehicles to comply with California Motor Vehicle Code Section 34505.5 shall be available for inspection by City Contract Manager.

To the extent practical, Contractor shall use re-refined motor oil for on-going operations of its Collection vehicles.

5.15.7 GPS Equipment and Monitoring

Contractor shall equip each Collection vehicle with Global Positioning System (GPS) equipment that allows for tracking the vehicle's activities. The City requires the GPS tracking system to provide vehicle position

and history and the location of each Collection. Data updates shall be real time or updated every fifteen (15) minutes. Contractor shall provide the City Contract Manager access to GPS data through a minimum of two (2) City computers.

The backbone of the Contractor's solution to Collection performance management and Customer service systems is one developed and supported by PC Scale Tower™ (Tower). Tower employs Microsoft Certified Systems Engineers, Microsoft Certified Database Administrators, Microsoft Certified Application Developers, Microsoft Certified Professionals + Internet, Microsoft Certified Professionals, and Citrix Certified Professionals. The software is designed by waste industry professionals. A Tower demonstration CD was included with Contractor's Proposal as Exhibit 2.1. It is important to note that Tower software can be customized based on Contractor specifications and City Contract Manager preferences.

All daily operations functions at Contractor and its Affiliates are managed through Tower. Primary Tower functions include maintenance of Customer records and Billing information; route management (including generation of driver route sheets); Customer, route data, and route mapping system (using a geocoding software in conjunction with Tower), each of which are described in Contractor's Proposal (Exhibit M, Section 2M). One copy of Contractor's internal Tower resource manual was included with Contractor's Proposal under separate cover. These directives will be refined for use by Contractor for its operations in the City. The resource manual includes information on how most Customer service functions are completed in the system, such as missed Collections, Container exchanges, supervisor notification, reminders, and so forth. One excellent and unique feature that is not documented in the manual, as of the date of this printing, is the ability to attach any sort of file to a Customer's account, such a photo or letter from the Customer.

5.15.8 Compressed Natural Gas

The Collection vehicles shall operate on compressed natural gas (CNG). As of the Effective Date of this Agreement, the Contractor was awarded $789,365.87 in grant monies from the Bay Area Air Quality Management Board to cover some of the capital costs of the CNG vehicle engines used during Rate Periods 1-10.

5.16 Containers

5.16.1 General

Contractor shall provide Customers with Collection Containers as requested by the Customer to meet its desired Service Level. All Collection Containers provided shall be new Containers as of the Commencement Date. Contractor shall purchase Containers with a useful life of ten (10) years or more and shall depreciate the Containers over a ten-year (10-year) period. New Container purchases shall comply with the requirements of Section 5.16.5.

Commencing January 1, 2022, Contractor shall provide new Containers to Generators that have lids, or shall replace lids on Containers that otherwise meet the requirements of this Agreement with lids, that comply with the color and labeling requirements of SB 1383 or, when replacing Containers, by January 1, 2036.

If a Customer requests a different Container size, Contractor shall provide Customer with Container(s) in the requested size within seven (7) Business Days or pay Liquidated Damages pursuant to Section 11.6.

Contractor shall make Compactors available to Customers for purchase or lease and shall allow Customers to purchase or lease Compactors through an outside vendor.

5.16.2 Intentionally Deleted

5.16.3 Replacement of Containers

Contractor shall be responsible for replacing Containers when Contractor determines the Container is no longer suitable for service; or when the City Contract Manager or Customer requests replacement of Customer's Container that does not properly function, leaks, is damaged, or is otherwise not fit for service. Contractor shall be responsible for acquiring the replacement Containers as well as maintaining an inventory of Containers at a level that allows for the Contractor to provide Customers with different size Containers within seven (7) calendar days of request. Contractor Compensation for the cost of such replacements and inventory maintenance is described in Exhibits I Index-Based Rate Adjustment Method and J Cost-Based Rate Adjustment Method

5.16.4 City Ownership of Containers at end of Term

Upon expiration or early termination of Agreement, all Carts, Bins, Drop Boxes, and Compactors (for permanent Customers) purchased and put into service at Customers' Premises during the Term of the Agreement shall become property of the City at no cost to the City if such Containers are fully depreciated. All Carts, Bins, Drop Boxes, and Compactors (for permanent Customers) purchased and put into service at Customers' Premises during the Term of the Agreement that have not been fully depreciated shall be available to the City, at the City's option, at a cost reflecting the net book value.

At its sole discretion, the City may elect not to exercise its rights with regards to this Section and, in such case; the Containers shall remain the property of the Contractor upon the expiration date of this Agreement or date of its earlier termination of this Agreement. In such case, Contractor shall be responsible for outstanding depreciation and for removing all Containers in service from Premises within fourteen (14) Business Days of the expiration date or early termination date of this Agreement.

5.16.5 Container Standards

Contractor shall provide Containers for storage and Collection of Solid Waste, Recyclable Materials, and Compostable Materials which shall be designed and constructed to be watertight and prevent the leakage of liquids.

Contractor shall purchase Carts and kitchen pails that contain a minimum of 30% post-consumer recycled plastic content. All Carts and kitchen pails shall be 100% Recyclable.

All new Carts shall be manufactured by injection or rotational molding methods and shall meet the Cart design, color, and performance requirements provided in Exhibit E. Contractor shall obtain the City Contract Manager's written approval of Cart specifications before acquisition. Carts provided to Customers shall have a useful life of ten (10) or more years or more as evidenced by a manufacturer's warranty or other documentation acceptable to the City Contract Manager.

All Containers with a capacity of one (1) cubic yard or more shall meet applicable federal regulations for Bin safety and be covered with attached lids. All Bins, Drop Boxes, and Compactors shall be painted the Contractor's standard color and shall prominently display the name and telephone number of the Contractor.

Contractor shall ensure that all Containers comply with color-coding and labeling requirements of SB 1383 and the Alameda County Mandatory Recycling Ordinance by the implementation dates included in those laws, at no additional cost to the City or Customers.

As described in Section 5.4.1.C, and 5.4.2.B, the kitchen pail shall be made of rigid plastic, and have a capacity of 1.5 to 2.5 gallons, a wire or plastic handle, and a lid. Contractor must submit kitchen pail order (including material and design specifications, colors and identification marks) to City Contract Manager for City Contract Manager's written approval prior to submitting the order to the manufacturer.

As described in Section 5.4.3.I, the "slim jim" style Compostables storage bins for use by the Customer inside their Premises shall have approximately 23 gallons of capacity and be constructed of rigid plastic. Contractor must submit the Compostables storage bin order (including material and design specifications, colors and identification marks) to City for City's written approval prior to submitting the order to the manufacturer.

5.16.6 Container Sizes

Following is a table that summarizes the Container size specifications. In the event of conflicts between descriptions in this Section 5.16.6 and Sections 5.2, 5.3, 5.4, and 5.5, the requirements in Sections 5.2, 5.3, 5.4, and 5.5 shall govern.

Service Type	Single-Family Customers	Multi-Family Customers	Commercial Customers
Solid Waste	• 20-, 32-, 64-, or 96-gallon Carts (or similar sizes approved by the City Contract Manager) • 1 to 7 cubic yard Bins • 10 to 40 cubic yard Drop Boxes and Compactors	• 32-, 64- or 96-gallon Carts (or similar sizes approved by the City Contract Manager) • 1 to 7 cubic yard Bins • 10 to 40 cubic yard Drop Boxes and Compactors	• 32-, 64-, or 96-gallon Carts (or similar sizes approved by the City Contract Manager) • 1 to 7 cubic yard Bins • 10 to 40 cubic yard Drop Boxes and Compactors
Recyclable Materials	• 96-gallon Carts (or similar size approved by the City Contract Manager) shall be the standard service • 32- and 64-gallon Carts (or similar sizes approved by the City Contract Manager) to be provided upon request as an alternative to the standard 96-gallon Cart • Additional Cart to be provide upon Customer request at City-approved Rate	• Same as Single-Family Customers • Default 96-gallon Cart pursuant to Section 5.3.3.B • Tote bags in accordance with Section 5.3.3.H	• Same as above • Minimum 96-gallon Cart for universal Recycling service pursuant to Section 5.3.3.B • Containers for indoor use pursuant to Section 5.3.3.I

Service Type	Single-Family Customers	Multi-Family Customers	Commercial Customers
Compostable Materials	• 96-gallon Carts (or similar size approved by the City Contract Manager) shall be the standard service • 32- and 64-gallon Carts (or similar sizes approved by the City Contract Manager) to be provided upon request as an alternative to the standard 96-gallon Cart • Additional Cart to be provide upon Customer request at City-approved Rate • 1.5- to 2.5-gallon kitchen pail upon Customer request	Same as Single-Family Customers	• Same as Solid Waste Containers • Minimum 96-gallon Cart for universal Compostables service pursuant to Section 5.4.3.B • Containers for indoor use pursuant to Section 5.4.3.I
Large Events	Not applicable	Not applicable	Same as listed above for Commercial Customers

* 32-gallon Carts are Carts with 32 gallons of capacity in the Cart body and 3 gallons in the domed lid for a total capacity of 35 gallons.

5.16.7 Container Labeling

On each Container, Contractor shall label with paint, adhesive label, or white, hot-stamped lettering, the type of materials (e.g., Solid Waste, Recyclable Materials, cardboard, mixed paper, Yard Trimmings, Food Scraps and Other Targeted Compostables, mixed Construction and Demolition Debris, wood waste, metal, etc.) to be placed in the Container for Collection. The labeling shall be positioned on each Container so it is visible to the Customer at all times, and shall comply with SB 1383 and Alameda County Mandatory Recycling Ordinance requirements.

All Containers shall prominently display the Contractor's name and phone number in paint or on an adhesive label.

5.16.8 Cleaning, Painting, Maintenance

Contractor shall steam clean and repaint all Containers as needed (other than Carts) so as to present a clean appearance. Contractor shall offer steam cleaning service (or clean Container exchange) to Customers requesting such service, and shall charge Customers for such cleaning (or Container exchange) in accordance with City-approved Rates on the Rate Schedule in Exhibit H.

Contractor shall remove graffiti from Containers within forty-eight (48) hours of identification by Contractor or notice by City Contract Manager or Customer if such graffiti includes any written or pictorial obscenities and otherwise within five (5) Business Days.

All Containers shall be maintained in a functional condition. At the City Contract Manager's request, Contractor shall provide City Contract Manager with a list of Containers and the date each Container was painted and maintained.

5.16.9 Repair and Replacement

Contractor shall repair or replace all Containers which have broken wheels, hinges, or other nonfunctioning parts or cracks or holes. Contractor shall repair or replace all Containers damaged by Collection operations within a one (1) week period. If the repair or replacement cannot be completed within in a week, the Customer shall be notified by Contractor and a larger Container shall be made available until the proper Container can be replaced.

5.17 Public Education and Technical Assistance

5.17.1 General

Contractor or a Consultant shall educate Residential and Commercial Customers on the following: (i) the benefit of source reduction, reuse, Recycling, and Composting and related program opportunities; (ii) proper handling of E-Waste, U-Waste, and Hazardous Waste; (iii) specific programs offered by the Contractor; (iv) Rates for Collection services, and (v) compliance with the Mandatory Recycling Ordinance and SB 1383, as applicable. Starting February 1, 2022, and annually thereafter, the Contractor shall also provide Generators with information on properly separating materials, Organic Waste prevention, on-site recycling, community Composting, methane reduction benefits, how to recycle Organic Waste, a list of approved haulers and information related to food recovery. The public education program shall include distribution of public education materials at the commencement of the Agreement, when Collection services are changed during the Term of the Agreement, and when new Collection services are implemented during the Term of the Agreement. In addition, the public education program shall include on-going education activities throughout the Term of the Agreement. Educational media shall include, but not be limited to, newsletters, bill inserts, flyers, door hangers, notification tags, newspaper advertisements, direct contact with Customers or Owners and Occupants of Premises, and website information including how-to-videos.

Detailed requirements of the public education program as specified by the City are described in Exhibit C. The Contractor's public education and outreach plan presented in Contractor's Proposal is presented in Exhibit C1.

During the two (2) months prior to and two (2) months following the Commencement Date, the Contractor shall employ three full-time personnel to properly educate Customers about all service changes. During the Term of the Agreement, the Contractor shall employ one full-time public education manager and one full-time recycling coordinator/public education coordinator dedicated to implementing its public education program. These positions may be filled by Contractor's personnel or personnel of a subcontractor.

In the event Contractor fails to perform some or all of the requirements of the public education plan described in this Section and in Exhibits C and C1, the Contractor shall pay the City Liquidated Damages as described in Section 11.6.

5.17.2 Annual Public Education Plan

As part of the Contractor's third quarterly report (required by Section 6.3.3 of this Agreement) for each Rate Period, Contractor shall submit an annual update to Contractor's public education plan outlining its specific planned public education efforts for the coming Rate Period. The plan shall list each public education piece (e.g., newsletters, bill inserts, flyers, newspaper advertisements, etc.) to be prepared, the

purpose of the piece, the key subject(s) to be covered, and the anticipated date of issuance. In addition, the plan shall list all events the Contractor plans to attend and the public education it intends to provide at such event (e.g., exhibit at Earth Day event, presentation at Chamber of Commerce meetings, etc.). The City Contract Manager shall review and approve the plan.

5.17.3 Public Education Content and Production Requirements

Prior to preparing public education materials, Contractor shall discuss with the City Contract Manager its general approach to preparing the materials and shall determine if the City Contract Manager has any City-specific guidelines to be followed and if the City Contract Manager wants the Contractor to work with templates prepared by StopWaste or others.

The public education materials shall emphasize use of visual/graphic images as much as is practical. Furthermore, the materials shall include a clear listing of program "Dos" and "Don'ts" using visual images as much as is practical. For example, the "Dos" shall list the types of materials the Customer may place in its Recyclable Materials or Compostable Materials Containers and the "Don'ts" should list prohibited types of materials and Hazardous Waste.

All public education materials shall be printed on paper containing the highest levels of recycled content material reasonably practical with a minimum requirement of thirty percent (30%) post-consumer content based on federal standards. Contractor shall provide Customers the option of requesting paperless communications with the Contractor including electronic delivery of public education and outreach materials.

To address the multi-lingual diversity of the City, public education materials shall use visual images and English descriptions supplemented with text on the bottom of the public education document in different languages directing the non-English speaking Customers to telephone a Contractor-provided hotline for help in their native language. Commencing January 1, 2022, outreach must be in a language or languages that assure information is understood by the community and is or are required by SB 1383 in either electronic or written form. Upon City Contract Manager request, Contractor shall prepare up to four (4) public education documents annually in one or more languages and distribute the materials to Single-Family, Multi-Family, and Commercial Customers as specified by the City. Contractor shall arrange for review of the multi-lingual materials by a third party to verify the accuracy and appropriateness of the translations.

Prior to distribution of any public education materials, Contractor shall provide the City Contract Manager with a copy of the public education materials for the City Contract Manager's review and approval.

5.17.4 Signage

Contractor shall be responsible for preparing, distributing, and posting signage at Commercial and Multi-Family Premises that promote Recyclable Materials and Compostable Materials Collection services, describe the Mandatory Recycling Ordinance program requirements and requirements of SB 1383, and identify allowable and non-allowable types of materials for Collection. At a minimum, these signs shall be posted in the Container areas. Upon request of the Customer, Contractor shall provide signage and Container labeling in Spanish. Within fourteen (14) calendar days of a Customer's request, Contractor shall provide extra signage for use in areas such as laundry and mail rooms at Multi-Family Premises and in employee training areas, break rooms, kitchens, and janitorial areas at Commercial Premises.

5.17.5 SB 1383 Public Education to Non-Compliant Generators

From January 1, 2022 through December 31, 2023, Contractor shall provide educational materials to regulated entities not in compliance with SB 1383, as determined by the Compliance Review of Commercial accounts.

5.17.6 Multi-Family Technical Assistance Program

Contractor shall provide Recycling technical assistance to Multi-Family Customers to help each Customer determine how best to provide Recycling service to its tenants and comply with the requirements of the Mandatory Recycling Ordinance and SB 1383. This technical assistance shall include meetings with Property Managers at the Premises and on-site assessments of the Multi-Family Premises to identify appropriate locations for Containers and the number, type, and size of Containers that would be most suitable. Contractor shall offer the Property Manager Recycling posters and signage as required by Section 5.3.3.E. At a minimum, the Contractor's Recycling coordinator shall meet with every Property Manager twice annually to work with the Property Manager to improve Recycling participation levels in terms of the quantity and quality of Recyclables Materials Collected.

Contractor shall document each site visit using a form approved by the City Contract Manager identifying the name and address of the Premises, number of tenant units, date of the visit, name of Property Manager and contact information, current Recycling, Compostables, and Solid Waste Service Levels and calculated weekly Recycling and Compostables capacity per tenant unit, Property Manager concerns and requests, and actions items. Audit forms shall be provided to the City Contract Manager in accordance with Section 6.3.3.H.

During the two annual site visits or upon request, Contractor shall restock posters, "How To Guides," Recyclables tote bags, and any other appropriate materials (required by Section 5.3.3.E) and provide new Container signage if necessary.

Other public education requirements for Multi-Family Customers are described in Exhibits C and C1.

5.17.7 Commercial Technical Assistance

Contractor shall perform Diversion audits for Commercial Customers. At a minimum, Contractor shall perform audits for all Customers that request an audit, for all new Commercial Customers, and for twenty percent (20%) of all Commercial Customers in the City each year. The goal of each audit shall be to provide assistance to the Customer or its Property Manager in the development of source reduction, reuse, Recycling, and Compostables Diversion programs, and compliance with the Mandatory Recycling Ordinance and SB 1383. During the first Rate Period, the twenty percent (20%) of the Customers targeted by the Contractor shall be the Commercial Customers that generate the largest volumes of Solid Waste (as measured by the total weekly volume of Solid Waste serviced). After Contractor performs site visits for these large-volume Customers, Contractor shall continue to provide support to each Customer as requested and shall periodically contact the Customer to offer technical assistance and answer questions.

Contractor shall, by July 15 of each year, submit to the City Contract Manager a list of the Commercial Customers it proposes to audit during the Rate Period to comply with the twenty percent (20%) audit requirement and include justification for selection of the Commercial Customers. Commercial Customers shall be selected so that one hundred percent (100%) of the Commercial Customers are audited during a five (5) year period so that each Business is audited once every five (5) years. City Contract Manager shall review the list and provide comments to the Contractor within ten (10) Business Days of receipt. In the

event the City Contract Manager does not provide a response to the Contractor, the proposed list of Commercial Customers shall be considered acceptable to the City Contract Manager.

Audits shall include, but are not limited to, waste, Recycling, Food Scraps, Diversion, and source reduction analysis; research of markets for specialized materials generated by the Customer; and assistance in internal Collection and training efforts.

During site visits and through quarterly newsletters and other public outreach efforts, Contractor shall offer employee training sessions to Commercial Customers at the Customer's Premises to educate employees about the Recycling and Food Scraps Collection programs, the Mandatory Recycling Ordinance, SB 1383, and answer employee questions. Contractor shall provide the employee training sessions upon Customer request.

Contractor shall document each site visit using a form approved by the City Contract Manager identifying the name and address of the Premises, type of Commercial business, estimated square footage of the Premises, date of the visit, name of Property Manager and contact information, current Recycling and Solid Waste Service Levels, Property Manager concerns and requests, training (if any) provided to Customer and/or employees, and actions items. Audit forms shall be provided to the City Contract Manager in accordance with Section 6.3.3.G.

Contractor will maintain a Customer recognition program. Contractor will identify and promote other program or recognition opportunities such as potential Green Business certification, toxics reduction, green building, green purchasing, energy efficiency, water conservation, local and regional awards, and other programs if applicable and requested.

5.17.8 Compliance with SB 1383

The City and Contractor acknowledge that, as of the date of this Agreement, legislation (including, but not limited to, SB 1383) has been enacted into law but has not been fully implemented. Contractor has assumed the provisions of the October 2, 2019 Draft of SB 1383 regulations apply and that Contractor's Proposal (Exhibit M) assumes compliance with the following requirements in such regulations: education and outreach campaigns, technical assistance to Customers, Collection and Processing of materials, material characterization at facilities requirements under Title 14, reporting, compliance, (other than the testing element of the contamination monitoring activity described in the next sentence), provision of special Containers, enforcement, or other activities involved in compliance with SB 1383.

Because Contractor and City have neither agreed on the specific approach and procedures to perform the testing element of the contamination monitoring activity nor who will perform them (whether the Contractor, City or a third party), the Contractor has included in its proposed annual costs one hundred thousand dollars ($100,000.00) for purposes of complying with this requirement of SB 1383. During the first two years of this Agreement, this $100,000 shall be placed in the Rate Reserve Fund, and by mutual agreement of the parties may be used for pilot approaches to the testing element. Once the final approach and procedures to perform the testing element and the related costs are agreed on by the Parties, a line item will be included in the Rate Application form to reflect these costs.

The City and Contractor agree that, not later than within one hundred and eighty (180) days of the final rules and regulations implementing such legislation becoming effective, the City and Contractor will meet and confer to discuss how such rules and regulations may impact the services provided under this Agreement, including the contamination monitoring activity described above. Specifically with regard to

such contamination monitoring, the City may direct the Contractor to provide such services, provide such services itself, or contract with a third party for such services. Should the final amount needed to provide the contamination monitoring services be less than the costs included in Contractor's proposed costs for such purpose, then the Contractor shall utilize the remainder for education, outreach or contamination management as directed by the City Contract Manager. Prior to such meet and confer period, Contractor agrees to minimize actions (such as replacement of Collection vehicles) that may be affected by such rules and regulations.

Notwithstanding the foregoing, the City and Contractor agree that changes to this Agreement, or to the services to be provided under this Agreement and/or to the cost of providing such services, which result from final rules and regulations implementing existing legislation that are promulgated after the date of this Agreement shall be considered changes resulting from a Change in Law once such final rules and regulations are promulgated.

5.17.9 Commercial and Multi-Family Program Performance Report

To facilitate complete accountability in Contractor's efforts to increase Diversion, an independent subcontractor selected by the Contractor shall conduct an annual performance evaluation of Contractor's Diversion performance. Performance indicators will be established by the subcontractor, the City Contract Manager and Contractor, and will be measurable. On an annual basis, the subcontractor shall assess performance using the agreed-upon indicators and compare actual performance to the annual objectives set between the City Contract Manager, subcontractor, and Contractor. This assessment shall occur on an annual basis (at the same time each year) for at least the first ten years of the Agreement. Annually, the subcontractor shall conduct the performance review and provide a report to the City Contract Manager documenting actual results compared to annual objectives, explaining differences between actuals and the objectives, and providing recommendations for improvement. The report shall be submitted in accordance with annual reporting requirements in Section 6.4.

5.18 Personnel including Prevailing Wages

5.18.1 General

Contractor shall furnish such qualified drivers, mechanical, supervisory, customer service, clerical and other personnel as may be necessary to provide the services required by this Agreement in a safe and efficient manner. (See also Section 5.1.)

Contractor recognizes the importance of establishing a successful relationship between its general manager and City staff. Therefore, the Contractor will allow the City the right to approve the selection of the Contractor's general manager provided that the City's approval is not unreasonably withheld. The City shall have the right to request that the Contractor replace its general manager for any of the following reasons:

A. In the event Liquidated Damages levied for events listed in Exhibit F, with the exception of damages levied for Collection reliability and Collection quality events items 1, 2, and 12 of Exhibit F, in any three month period exceed $2,000; or,

B. In the event Liquidated Damages levied for Collection reliability and Collection quality events items 1, 2, and 12 of Exhibit F, in any three (3) month period exceed $45,000; or,

C. In the event the City determines, through a review of Billings required by Section 6.1.4, that Contractor has under billed or overcharged Single-Family Generators by a rate of three (3) percent or more of total Single-Family billed revenues or Multi-Family, Commercial and Drop Box/Compactors Generators by a rate of one and a half percent (1.5%) of total Multi-Family, Commercial and Drop Box/Compactor billed revenues, and Contractor is unable to correct such Billing errors to a rate of one and a half percent (1.5%) of total Billings of Single-Family Generators and half a percent (0.5%) of total Billings of Multi-Family Generators, and half a percent (0.5%) of total Billings of Commercial and Drop Box/Compactor Generators as demonstrated by a subsequent audit of incorrectly billed accounts conducted in the quarter immediately following the bi-annual report in which the Billing error rate was identified, or that Contractor fails to submit the bi-annual report required by Section 6.1.4 within fifteen (15) days of the due date; or,

D. In the event financial and operational records maintained by the Contractor pursuant to Sections 6.2.1 and 6.2.2 and requested by the City Contract Manager for retrieval by the Contractor are not provided to City Contract Manager within two (2) weeks of the request.

5.18.2 Driver Qualifications

All drivers shall be trained and qualified in the operation of Collection vehicles and must have in effect a valid license, of the appropriate class, issued by the California Department of Motor Vehicles. Contractor shall ensure full compliance with the California Department of Motor Vehicles "Employer Pull Notice Program" (CVC 1808.1).

5.18.3 Safety Training

Contractor shall provide suitable operational and safety training for all of its employees who utilize or operate vehicles or equipment for Collection of Solid Waste, Recyclable Materials, or Compostable Materials or who are otherwise directly involved in such Collection. Contractor shall train its employees involved in Collection to identify, and not to Collect, Hazardous Waste or Infectious Waste. Training records shall be available for review by the City Contract Manager upon request. (See also Sections 5.11 and 5.14.7.)

5.18.4 No Gratuities

Contractor shall not permit its employees to accept, demand, or solicit, directly or indirectly, any additional compensation or gratuity from members of the public for the Collection of Solid Waste, Recyclable Materials, and Compostable Materials under this Agreement.

5.18.5 Employee Conduct and Courtesy

Contractor shall use its best efforts to assure that all employees present a neat appearance and conduct themselves in a courteous manner. Contractor shall regularly train its employees in customer courtesy, shall prohibit the use of loud or profane language or music, and shall instruct Collection employees to perform the work as quietly as possible. If any employee is found not to be courteous or not to be performing services in the manner required by this Agreement, Contractor shall take all appropriate corrective measures.

5.18.6 Uniforms

All employees of the Contractor performing field service under this Agreement shall be dressed in clean uniforms with employee's name or numbered badge, which also shows Contractor's name, thereon at all times while engaged in the work; no portion of this uniform may be removed while working.

5.18.7 Provision of Field Supervision

Contractor shall designate at least two qualified employee as supervisors of field operations. Each field supervisor will devote at least seventy percent (70%) of his or her time in the field checking on Collection operations, including responding to Complaints.

5.18.8 Customer Service Representatives

At a minimum, Contractor shall employ one full-time customer service manager and three full-time customer service representatives dedicated to serving the City and its Customers. The customer service representatives shall be trained on specific City service requirements, a minimum of once per quarter in accordance with Section 6.3.3.D. The customer service manager and representatives will work in offices at the Contractor's Livermore corporation yard.

5.18.9 Employment Conditions

Contractor shall comply with the following employment conditions:

A. **Offer Employment to Existing Employees**. Contractor shall offer employment to employees working under the City's Agreement in effect through June 30, 2010 ("existing employees") who become unemployed by reason of the change in contractors. However, Contractor shall not be obligated to offer employment to more existing employees than the Contractor needs to perform the services required under the Agreement and Contractor shall not be obligated to offer employment to existing employees that are not working prior to the Commencement Date due to a leave of absence related to disability or workers' compensation claim. Additionally, Contractor shall not be obligated to displace any of its current employees or modify its current job performance requirements or employee selection standards. Additional employees, if needed, shall be obtained pursuant to procedures in effect under the collective bargaining agreement with the collection contractor that provides Collection services through June 30, 2010. This requirement, however, shall not be applicable to management or supervisory personnel.

B. **Wages and Benefits**. Wages and benefits applicable to employees performing work under the Agreement shall not be less than those prevailing in Alameda County for comparable work. Either the City or the Contractor may apply to the Director of the California Department of Industrial Relations for a determination of such prevailing wages and benefits, if the Parties do not reach agreement on the amounts involved.

C. **Subcontractor Compliance**. The Contractor may enter into agreement(s) with Subcontractors to provide services covered in the Agreement subject to the prior written consent of the City Contract Manager as stated in Section 12.6. Subcontractors shall be required to comply with the obligations stated in paragraphs (A) and (B), above.

5.19 Contingency Plan

Contractor shall submit to City Contract Manager on or before the Commencement Date, a written contingency plan demonstrating Contractor's arrangements to provide vehicles and personnel and to maintain uninterrupted service during mechanical breakdowns, and in case of natural disaster, other emergencies, or labor disputes. This contingency plan shall be specific to the needs of the City and its Customers and be updated at least once every five years.

5.20 Implementation of New Services

The Contractor acknowledges that the Contractor's implementation of the services required under this Agreement shall occur in a smooth and seamless manner such that Customers do not experience disruption in Collection services. Contractor shall be responsible for managing implementation of Collection services and other related services required under this Agreement and shall do so in accordance with the implementation plan provided in Exhibit D.

5.21 Corporation Yard, Transfer Operations, CNG Station

Contractor shall provide a site to be used for staging Collection equipment and personnel, performing equipment maintenance, housing administrative and customer service offices and staff, and Transferring Recyclable Materials and Compostable Materials. The Contractor plans to establish this operation in the City of Livermore and may own or lease the site for such purposes.

As the Contractor's Livermore site, Contractor plans to conduct Transfer operations indoors. Collection vehicles will be equipped with a walking floor behind the packing mechanism that will walk or move the materials out of the Collection vehicle body and directly into a Transfer trailer. This "direct" Transfer method reduces the clear height needed in the building for materials offloading, and does not require a full Solid Waste Facility Permit from the State.

Contractor plans included development of a compressed natural gas (CNG) fueling station at its Livermore yard to fuel its Collection vehicles. Contractor will retain the services of a subcontractor, Clean Energy, a large provider of CNG. Clean Energy will be responsible for designing, permitting, building, and operating the CNG station. The City can request that the CNG station be designed to provide additional capacity for City vehicles and/or public access. In such case, the terms of the fueling arrangements will be negotiated by the Parties.

Facilities in the City limits shall conform to development permit requirements including the City's Green Building Ordinance for Commercial uses and are required to obtain all necessary land use entitlements, which could be administrative, or require public meetings depending on the scope of work. Development regulations contain requirements for screening and/or enclosing unsightly storage and operations. The City is particularly concerned about impacts related to dust and Litter and wants any material handling activities to be performed in an enclosed facility and for areas used for parking, vehicle access, and operations to be paved. The Community Development Department will review site planning and screening alternatives proposed to meet such requirements.

5.22 Community Reuse E-Network

To promote the reuse of Bulky Items, Contractor shall create and manage an on-line community networking site exclusively for Livermore residents and non-profit organizations to facilitate identification of end users for Bulky Items in good, working condition. Users may not ask for monetary reimbursement for any item. After registering, Livermore residents may post Bulky Items they wish to give away. Users will also be required to include a photo of their item. Other Livermore residents and non-profit organizations may claim the item, and, by completing a delivery request form, Contractor will Collect the item from the donor and deliver it to the recipient, free of charge. Contractor will strategically schedule Collections and deliveries by geographical area in such a way as to minimize environmental impacts. This unique system accomplishes several things: it enables residents to find a guaranteed local end use for their item; it allows residents to discard items over the limit granted through the Customer's three (3) On-Call Single-Family Clean-Up Services; it relieves Customers of the inconvenience of moving the item themselves; and, through Contractor's work order system, it provides a means of tracking Diversion for the City.

ARTICLE 6.
OTHER RELATED SERVICES AND STANDARDS

6.1 Billing

6.1.1 General

The City shall approve Rates by City Council resolution that Contractor shall charge Customers for the types of service provided under this Agreement. Contractor shall bill all Customers and collect Billings in accordance with City-approved policies and Rates on the Rate Schedule in Exhibit H. City Contract Manager shall have the right to review and revise the Billing format to itemize certain charges.

On each bill, Contractor shall include a brief message to Customers providing service-related announcements such as messages about new services, the On-Call Single-Family Clean-Up Services, E-Waste Collection, and Bulky Item Collection, proper handling of Household Hazardous Waste and Christmas tree Collection, etc.

The Contractor shall prepare, mail and collect bills (or shall issue written receipts for cash payments) for Collection services provided by Contractor under this Agreement. Bills for Residential service shall be mailed to Customers quarterly in advance of the provision of service. Bills for Commercial service shall be mailed to Customers monthly in arrears after the provision of service. If Commercial Customers have centralized service (in which Containers are shared by more than one Commercial Premises), Contractor shall bill one Customer for centralized services or, at the request of the Commercial Customers sharing the Containers, Contractor shall treat each Commercial Premises as a separate Customer and shall bill each Customer for service costs equal to the Rate divided by the number of Commercial Premises sharing the service. Contractor shall provide Customers the option of receiving bills electronically.

Contractor shall make arrangements to allow its Customers to pay bills through the following means: check, cash, credit card, Internet payment service, or automatic withdrawal from banking account.

Contractor shall provide at least one drop-off location in the City where Customers may deposit their payments.

The Contractor will comply with applicable provisions of the Public Records Act and the City's Record Retention Policy. Generally, the Contractor shall maintain copies of said Billings and receipts, each in chronological order, for a period of three (3) years after the Billing date for inspection by City Contract Manager. The Contractor may, at its option, maintain those records in electronic form, or in any other manner acceptable to the Contract Manager, provided that the records can be preserved and retrieved for inspection and verification in a timely manner.

6.1.2 Bad Debt Collection

If there is no payment of a bill within sixty (60) calendar days from the invoice date, the Contractor shall undertake collection of the amount owed (including penalties and expenses of collection). Contractor shall make reasonable efforts to obtain payment through issuance of late payment notices, telephone requests for payment, and assistance from collection agencies (who shall make at least two attempts to collect). If a Single-Family or Multi-Family Customer does not pay its bill within sixty (60) days from the invoice date, Contractor may reduce Customer's Solid Waste Collection service to the minimum service offered under this Agreement in accordance with Sections 5.2.1 and 5.2.4 and discontinue Recyclables, Compostables Materials, On-Call Single-Family Clean-Up Services, and On-Call Multi-Family Clean-Up Services. If a Commercial Customer does not pay its bill within sixty (60) days from the invoice date, Contractor may discontinue Recyclables and Compostables Materials Collection service and reduce the Solid Waste Service Level to one 32-gallon Cart serviced once per week. If the Contractor plans to reduce a Commercial Customer's Service Level, Contractor shall provide the City Contract Manager with written notice of its intention a minimum of ten (10) Business Days prior to reduction in the Commercial Customer's Service Level reduction. On a monthly basis, Contractor shall provide a list of Customers that are sixty (60) days past due and have thus had their level of Collection services reduced in accordance with reporting requirements in Section 6.3.2.F.

Contractor shall be responsible for collection of payment from Customers with past due accounts ("bad debt") for a period of one (1) year from the invoice date, including Third Party Fees as described in Section 7.7, as required. Contractor shall make reasonable efforts to obtain payment from delinquent accounts through issuance of late payment notices, telephone requests for payments, reduction in Customer's Service Level, and, at the Contractor's option, assistance from internal Contractor collection staff or outside collection agencies. In the event Contractor's efforts for a one (1) year period to collect monies due from a Customer fail and Contractor can demonstrates to the City Contract Manager that Contractor attempted on at least four (4) documented occasions to solicit monies due from each delinquent account and reduce Customer's Service Level to encourage Customer's payment, then Contractor shall provide the City Contract Manager with the name and address of each delinquent account and amount due and assign its rights to collection to the City. The City, in its discretion, may then initiate any collection procedures authorized by law, including those special assessment procedures authorized by City of Livermore Municipal Code Section 8.08.160. Contractor shall pay for reasonable costs incurred by the City in conducting collection procedures but may recover such costs through a fee established by the City and assessed on each delinquent Customer account. Within thirty (30) calendar days of the City's receipt of payment for past due accounts, the City shall pay those sums to Contractor less any monies Contractor would be obliged to pay to City hereunder had those sums been received by Contractor in the first instance.

6.1.3 Billing Inserts

City Contract Manager may direct Contractor to insert up to ten (10) mailers per year into bills relating to service with the Billings including inserts prepared by StopWaste. The mailers must fit in standard envelopes. Contractor also agrees to insert with the Billings, mailers describing activities of the City government. City Contract Manager will provide not less than thirty (30) calendar days' notice to Contractor prior to the mailing date of any proposed mailing to permit Contractor to make appropriate arrangements for inclusion of the City's materials. City Contract Manager will provide Contractor the mailers at least fifteen (15) calendar days prior to the mailing date. The cost of printing such inserts and any additional postage shall either be paid for by the City or included in the costs upon which Rates are based.

Contract Manager may direct Contractor to provide electronic mailers to Customers that have signed up for electronic communication with Contractor, such mailers to include or provide an electronic link to all information provided in billing inserts. In such event, Contractor shall comply with such request during its next Billing cycle for the targeted Customer group or groups. Contractor shall perform this service with no additional requirement for compensation. In the event that, during the Term of this Agreement, it becomes reasonably possible to attach such electronic notices to Customer invoices, Contractor shall notify the City, and upon City request, shall replace and or supplement electronic mailers with electronic invoice attachments.

6.1.4 Review of Billings

A. **General.** Contractor shall review its Billings to Generators. The purpose of the review is to determine that the amount which the Contractor is Billing each Generator is consistent with the City-approved Rate schedule in Exhibit H for the level of service (i.e., frequency of Collection, size of Container(s), number of Containers, and location of Container(s)) provided to such Generator by Contractor.

B. **Procedures**. Contractor shall review each Cart Service account at least once per year in such a manner that all accounts on a particular route are audited on the same day. The audits shall be scheduled so that Contractor completes audits of twenty-five percent (25%) of the Cart Service routes each quarter. Contractor shall review each Bin Service account and Drop Box/Compactor Service account at least once every other year. Audits shall be scheduled in a manner that all accounts on a particular route are audited on the same day and twelve and one half percent (12.5%) of the Bin Service and Drop Box/Compactor Service routes are audited each quarter.

The review shall be performed by the Contractor's route supervisor(s) or other agent approved by the City Contract Manager. The Person conducting the review shall compare a route report for the route under review and verify, through visual inspection of each Customer's Premises on the Customer's scheduled day of Collection, the level of service actually provided to each Customer listed on the route report review and note the actual Service Level in writing on the route report. In addition, the Contractor's route supervisor or appropriate agent shall list any Customers receiving service (and the level of such service) that do not appear on the routing report. The Contractor shall reconcile the route report to the Billing report, noting all discrepancies. Any discrepancies should be marked clearly on the Billing report. Contractor shall verify if the discrepancies result from Customer's request for special services on the day of the route audit and shall provide documentation in such cases. Contractor shall issue correction notices to the Customers correcting any Billing inaccuracies within five (5) Business Days of the day the route audit was performed and shall provide such notices to City Contract Manager along with the annotated Billing report.

C. **Route Audit Schedule**. Thirty (30) calendar days prior to the Commencement Date, Contractor shall submit a two-year schedule for performing route audits, listing each route and calendar quarter that each route will be audited. If the Contractor proposes to modify the two-year schedule during the Term, the Contractor shall submit a revised route audit schedule to the City Contract Manager for approval.

D. **Reporting Requirements.** Two (2) weeks after the end of each calendar quarter, Contractor shall submit a written report to the City Contract Manager that identifies the Cart Service, Bin Service and Drop Box/Compactor Service routes audited, the number of accounts on each route, the number of Billing inaccuracies per route, the percentage of Billing inaccuracies (where Billing inaccuracies are instances when service observed by route auditor differs from service listed on the route and/or Billing reports) per route (equal to the number of Billing inaccuracies divided by the number of accounts per route), and the estimated annual revenue impact associated with the Billing inaccuracies (which shall be calculated as the difference between the Billing amount shown on the Billing report on the date of the audit and the corrected Billing amount multiplied by 12). The written report shall also include copies of the route audits (i.e., Billing reports with handwritten notes identifying actual level of service provided to each Customer and notes the Billing discrepancies), copies of the corrective notices sent to Customers, and any supporting calculations. The City reserves the right to perform this review itself or through use of an agent at its expense.

6.2 Records

6.2.1 General

Contractor shall maintain such accounting, statistical, and other records related to its performance under this Agreement as shall be necessary to develop the financial statements and other reports required by this Agreement. Also, Contractor agrees to conduct data collection, information and record keeping, and reporting activities needed to comply with and to meet the reporting and Solid Waste program management needs of Contractor and the Act and other Federal and State and local laws and regulations and the requirements of this Agreement. To the extent such requirements are set out in this and other Articles of this Agreement, they shall not be considered limiting or necessarily complete. In particular, this Article is intended to only highlight the general nature of records and reports and their minimum content and is not meant to comprehensively define what the records and reports are to be and their content. Further, with the written direction from the City Contract Manager, the records and reports to be maintained and provided by Contractor in accordance with this and other Articles of the Agreement shall be adjusted in number, format, or frequency. Records and reporting may be revised to reflect current record keeping and reporting.

Contractor shall maintain records required to conduct its operations, to support requests it may make to City Contract Manager, and to respond to requests from City Contract Manager. Adequate record security shall be maintained to preserve records from events that can be reasonably anticipated such as a fire, theft and earthquake. Electronically-maintained data/records shall be protected and a second copy of data/records shall be saved to a protected source such as an external hard-drive.

Contractor agrees to provide or make available records of any and all companies conducting operations addressed in the Agreement to City Contract Manager and its agents and/or representatives during normal business hours.

6.2.2 Maintenance of Financial and Operational Records

A. General. In order to effectuate the periodic financial review to determine Rates pursuant to Article 8, it is necessary for Contractor to maintain accurate, detailed financial and operational information in a consistent format and to make such information available to the City Contract Manager in a timely fashion.

B. Contractor's Accounting Records. Contractor shall maintain accurate and complete accounting records containing the underlying financial and operating data relating to and showing the basis for computation of all costs associated with providing services under this Agreement. The accounting records shall be prepared in accordance with Generally Accepted Accounting Principles (GAAP) consistently applied.

C. Inspection of Records. The City, its auditors and other agents, shall have the right, during regular business hours, to conduct unannounced on-site inspections of the records and accounting systems of Contractor and to make copies of any documents it deems relevant to this Agreement. In the event the Person responsible for such records and systems is not on the Premises at the time the City, its auditors or other agents visit Contractor's facilities, Contractor shall not be in breach of this Agreement and the City shall give notice requesting access to the records and Contractor shall make arrangements for City, its auditors, or other agents to conduct the on-site inspection within twenty-four (24) hours of such notice. The City's right to inspection of records under this paragraph shall continue for at least five (5) years after the expiration or earlier termination of this Agreement; however, after expiration or termination of this Agreement, the City Contract Manager shall provide Contractor with written request to inspect records and Contractor shall make records available for inspection within two (2) weeks of such request.

D. Retention of Records. Unless otherwise herein required, Contractor shall retain all records and data required to be maintained by this Agreement for at least five (5) years after the expiration or earlier termination of this Agreement.

Records and data required to be maintained that are specifically directed to be retained shall be retrieved by Contractor and made available to the City Contract Manager.

Records and data required to be maintained that are not specifically directed to be retained that are, in the sole opinion of the City, material to the financial review to determine Rates or to determine Contractor's performance under this Agreement, shall be retrieved by Contractor and made available to the City Contract Manager.

Records and data required to be maintained that are not specifically directed to be retained and that are not material to a financial review to determine Rates and/or not required for the determination of the Contractor's performance do not need to be retrieved by Contractor. In such a case, however, the City Contract Manager may make reasonable assumptions regarding what information is contained in such records and data, and such assumption(s) shall be conclusive in whatever action the City takes.

6.2.3 Collection Records

Records shall be maintained by Contractor for City relating to:

A. Customer services and Billing;

B. Weight and volume of each material type Collected separately (e.g., Solid Waste, Recyclable Materials, Compostable Materials, Food Scraps, Bulky Items, E-Waste, Used Motor Oil and Filters, etc.). Where possible, information is to be separated among Cart Service, Bin Service and Drop Box/Compactor Service and/or Customer type (e.g., Single-Family, Multi-Family, Commercial, Drop Box, and Compactor);

C. Routes;

D. Facilities, equipment and personnel used;

E. Facilities and equipment operations, maintenance and repair;

F. Disposal and Processing of Solid Waste, Recyclable Materials, Compostable Materials, Food Scraps, and any other materials separately Collected;

G. Daily record of the quantities of Solid Waste, Recyclable Materials, Compostable Materials, and Food Scraps Collected; and,

H. Records of Customers that received On-Call Single-Family Clean-Up Services and On-Call Multi-Family Clean-Up Services. Such records shall include the date of such Collection and shall demonstrate that Contractor did not provide more than three (3) clean-up Collections at no charge to any one Customer per year.

Contractor shall maintain records of all Solid Waste, Recyclable Materials and Compostable Materials Collected in the City for the period of this Agreement plus ten (10) years after its expiration or earlier termination. Records shall be in chronological and organized form and readily and easily interpreted. In the event City Contract Manager requests, Contractor shall provide all records of all Solid Waste, Recyclable Materials, and Compostable Materials requested to City Contract Manager within thirty (30) calendar days of discontinuing service.

6.2.4 Recyclable Materials and Compostable Materials Collection and Processing Service Records

Records shall be maintained for Contractor that relate to:

A. Recyclable Materials and Compostable Materials Collection participation especially as related to determining participation and set-out rates and implementing programs to increase existing participation and to expand Diversion (names, addresses, email addresses contacts made, etc.);

B. Recyclable Materials and Compostable Materials sales value;

C. Weight of material recovered by type and weight of Residue Disposed; and,

D. End use and markets for recovered materials.

6.2.5 Transfer and Disposal Records

Contractor shall maintain records of Transfer, Disposal and Processing of all Solid Waste, Recyclable Materials, and Compostable Materials Collected by Contractor for the period of this Agreement plus five (5) years after its expiration or earlier termination. Records shall be in chronological and organized form

and readily and easily interpreted. In the event City Contract Manager requests, Contractor shall provide all records of Transfer and Disposal or Processing of all Solid Waste, Recyclable Materials, and Compostable Materials Collected by Contractor in the City within thirty (30) calendar days of discontinuing service.

6.2.6 Other Program Records

Records for other programs shall be tailored to specific needs. In general, they shall include:

A. Plans, tasks, and milestones; and,

B. Accomplishments in terms of activities conducted; date of activity; Tonnages of materials Collected; quantities of products used: produced or distributed; and numbers of participants and responses.

6.2.7 CERCLA Defense Records

City views the ability to defend against Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and related litigation as a matter of great importance. For this reason, the City regards the ability to prove where Solid Waste Collected in the City was taken for Transfer or Disposal, as well as where it was not taken, to be matters of concern. Contractor shall maintain, retain and preserve records which can establish where Solid Waste Collected in the City was Disposed (and therefore establish where it was not). This provision shall survive the expiration or earlier termination of this Agreement. Contractor shall maintain these records for a minimum of ten (10) years beyond expiration or earlier termination of the Agreement. Contractor shall provide these records to City Contract Manager in an organized and indexed manner rather than destroying or Disposing of them.

6.2.8 Customer Service Records

Customer service records shall be maintained by Contractor for City related to:

A. Number and nature of calls;

B. Categories (missed pickups, Complaints, damage, inquiries, etc.) of calls;

C. Training Records;

D. Individual call and resolution log (including initial call date and resolution date); and,

E. New Customer account log.

6.3 Reports

6.3.1 Report Formats and Submittal Schedule

Records shall be maintained in forms and by methods that facilitate flexible use of data contained in them to structure reports, as needed. Reports are intended to compile recorded data into useful forms of information that can be used to, among other things:

A. Determine and set Rates and evaluate the financial efficacy of operations;

B. Evaluate past and expected progress towards achieving the Contractor's Diversion goals and objectives; and,

C. Determine needs for adjustment to programs; and evaluate Customer service and Complaints.

Contractor may propose report formats that are responsive to the objectives and audiences for each report. The format of each report shall be approved by City Contract Manager, in his or her sole discretion. The City Contract Manager may, from time to time during the Term, review and request changes to Contractor's report formats and content, including without limitation to comply with City's regulatory reporting requirements, and Contractor shall not unreasonably deny such requests. The City reserves the right to require Contractor to provide additional reports or documents as City Contract Manager reasonably determines to be required for the administration of this Agreement or compliance with Applicable Law. Contractor agrees to e-mail all reports to the City Contract Manager (or submit reports on an electronic file storage device in the event e-mail communications are unsuccessful) in a format compatible with City's software/computers at no additional charge. Contractor will provide a certification statement, under penalty of perjury, by the responsible Contractor official, that the report being submitted is true and correct to the best knowledge of the responsible official after their reasonable inquiry.

Monthly reports shall be submitted within thirty (30) calendar days after the end of the reporting month. Quarterly reports shall be submitted within forty-five (45) calendar days after the end of the reporting quarter. Annual reports shall be submitted no later than April 30 for the calendar year ending December 31.

All reports shall be submitted to:

City of Livermore
solidwaste_recycling@cityoflivermore.net; and,
jaerlandson@cityoflivermore.net

6.3.2 Monthly Report Content

Monthly reports shall be presented to show the following information.

A. **Solid Waste Services**. Provide Tonnage Collected by Service Type.

B. **Recyclable Materials Services**. Provide Tonnage Collected by Service Type. Provide Tonnage marketed and Residue Disposed (which should total the Tonnage Collected). If more than one Processing Site is used, present information separately for each site.

C. **Compostable Materials Service**. Provide Tonnage Collected by Service Type. Provide Tonnage marketed and Residue Disposed (which should total the Tonnage Collected). If more than one Processing Site is used, present information separately for each site. Report the number of Commercial Food Scraps Customers for each level of service.

D. **Construction and Demolition Debris Services**. Provide Tonnage Collected by Service Type. Provide Tonnage marketed and Residue Disposed (which should total the Tonnage Collected). If more than one Processing Site is used, present information separately for each site.

E. **Customer Service.**

1. Provide number of Customer calls listed separately by Complaints and inquiries (where inquiries include requests for Recycling information, Rate information, etc.). For Complaints, list the number of calls separately by category (e.g., missed pickups, on-call clean-up services, Billing concerns, damage claims, etc.).

2. Provide number of new Multi-Family and Commercial Recyclable Materials and Organic Materials accounts for Cart, Bin and Drop Box/Compactor Services.

3. Provide number of Carts, Bins, Drop Boxes, and Compactors tagged for non-Collection and the reason for tagging (e.g., inclusion of non-Recyclable or non-Compostable Materials, improper setout, Hazardous Waste, etc.).

4. Provide the number of hits to the Contractor's website.

F. **Revenue and Customer Account Reports**. Provide a statement detailing Gross Revenue from all operations conducted or permitted pursuant to this Agreement as required by Section 7.10. This statement shall identify billed revenues and actual Gross Rate Revenues received listed separately for Single-Family, Multi-Family, Commercial, and Drop Box/Compactor Customers. Include a list of the number of Customers by Service Type and Rate category.

Submit a list of Customers that are sixty (60) days past due including the following information for each delinquent account: name, service address; contact information; number of days the account is delinquent; method(s) the Contractor has used to attempt collection of the bad debt including date of such attempt(s), and identification, if, and when the Contractor reduced the Customer's level of Collection services as a result of the account delinquency.

G. **Multi-Family Technical Assistance**. Submit a list of all complexes in the City with addresses, contact names and telephone numbers, number of units, and the Solid Waste and Recyclable Materials Service Level for each complex. Identify the complexes visited during the reporting period and the results of such visits.

H. **Commercial Technical Assistance**. Submit a list of all Commercial Customers visited during the reporting period and the results of such visits. Include addresses, contact names and telephone numbers of Persons contacted.

I. **Community Garage Sale Event.** If the garage sale event occurred during the most-recently completed month, report on the community garage sale event pursuant to Section 5.9.

J. **Tons Collected from Temporary Homeless Encampments.** Provide Tons Collected from Temporary Homeless Encampments, Date and Time of Collection, and Photos, if applicable.

6.3.3 Quarterly Report Content

Quarterly reports shall be presented to show the following information by each month's data in the reported quarter and include a quarterly average. In addition, each quarterly report shall show the past four (4) quarters average for data comparison (the first three quarters of the Agreement shall only include the available quarterly information).

A. **Solid Waste Services.**

1. Quarterly summary of monthly reports required in Section 6.3.2.A;

2. Accounts Collected by Service Type. Include number of accounts, as well as number of total cubic yards for Bin Service; and number of pulls, deliveries, and pickups for Drop Box / Compactor Service;

3. Solid Waste Tonnage Disposed;

4. Tonnage of Abandoned Solid Waste Collected during the quarter as required by Section 5.8.1.

B. **Recyclable Materials Services**.

1. Quarterly summary of monthly reports required in Section 6.3.2.B;

2. Accounts Collected by Service Type. Include number of accounts, as well as number of total cubic yards for Bin Service; and number of pulls, deliveries, and pickups for Drop Box and Compactor Service;

3. Participation percentage by Service Type (number of accounts actually serviced divided by the number of accounts scheduled for service); and,

4. Tonnage by Recyclable Material commodities and Service Type. Report on marketing activities. Report the average monthly Residue level.

C. **Compostable Materials Service**.

1. Quarterly summary of monthly reports required in Section 6.3.2.C;

2. Accounts Collected by Service Type. Include number of accounts, as well as number of total cubic yards for Bin Service; and number of pulls, deliveries, and pickups for Drop Box and Compactor Service;

3. Participation percentage by Service Type (number of accounts actually serviced divided by the number of accounts scheduled for service);

4. Tonnage Composted, separately quantifying Food Scraps;

5. Tonnage by Compostable Materials commodities and Service Type. Report on marketing activities. Report the average monthly Residue level; and,

6. Customer list identifying the name, address, Container size, and frequency of Collection for each Commercial Customer participating in the Food Scraps Collection program.

D. **Customer Service**.

1. Quarterly summary of monthly reports required in Section 6.3.2.E;

2. Customer Service overview sheet, training agenda, and other training supplements provided at the quarterly customer service meeting pursuant to Section 6.11.7; and,

3. Date and time of the customer service training session scheduled for Customer service representatives for the following quarter as the City Contract Manager may exercise its right to attend the meeting pursuant to Section 6.11.7.

E. **Clean-Up / Bulky Item / E-Waste / Christmas Tree Services**.

Provide Tonnage by service (Clean-Up, Bulky Item, E-Waste, and Christmas tree Collection Services) for all sectors. Include the following information:

1. Disposal Tonnage;
2. Diversion Tonnage, listed by vendor or Processing Site;
3. Number of stops serviced by a third party Re-Use Vendor;
4. List of Re-Use Vendors collecting reusable items; and,
5. Number of individual on-call clean-up services provided, on-call Bulky Item services provided and E-Waste Collections services provided during each quarter.

F. **Education Quarterly Activities.**

Include the following:

1. List of all public education efforts including but not limited to: mailers, newsletters, bill inserts, announcements on bills, etc. For each item listed, identify the date and method of distribution, the Customers or parties that received the materials, and the total number distributed and provide a copy of the material distributed; and,
2. Dates, times, and group names of meetings attended.

G. **Commercial Recycling and Food Scraps Report.**

1. Summarize the technical assistance provided to Customers by identifying the number of site visits conducted each month in the most-recently completed quarter, and submitting copies of the Commercial Recycling and Food Scraps auditing forms (Recycling Opportunity Assessment forms) as required in Section 5.17.7.
2. Dates, times, addresses, and names of Commercial Customers that received technical assistance/audits.
3. Report the percentage of Commercial Customers that have Recycling service and Food Scraps service (e.g., 82% of the Commercial Customers have Recycling service and 50% have Food Scraps service).
4. Report the percentage of total Commercial service volume that is Recyclables volume and Compostables volume (e.g., the percentage of Commercial service volume that is Recycling volume equals the number of cubic yards of Commercial Recycling service per week divided by the sum of the weekly Commercial Solid Waste, Recyclables, and Compostables cubic yards service per week).

H. **Multi-Family Recycling and Food Scraps Report.**

1. Summarize the technical assistance provided to Customers by identifying the number of site visits conducted each month in the most-recently completed quarter, and submitting copies of the Multi-Family Recycling and Food Scraps auditing forms (Recycling Opportunity Assessment forms) as required in Section 5.17.6.
2. Dates, times, addresses, and names of Multi-Family Customers that received technical assistance/audits.
3. Report the percentage of Multi-Family complexes that have Recycling service and that have Compostables service.

4. Report the average volume of Recyclables Collected per tenant unit per week (e.g., the number of cubic yards of Multi-Family Recycling service per week divided by the total number of Multi-Family units in the City).

I. **Pilot and New Programs.** For each pilot and/or new program, provide activity related and narrative reports on goals, milestones, and accomplishments. Describe problems encountered, actions taken and any recommendations to facilitate progress. Describe vehicles, personnel, and equipment utilized for each program.

J. **Summary Assessment.** Provide a summary assessment of the overall Solid Waste, Recyclable Materials, and Compostable Materials program from Contractor's perspective relative to the financial and physical status of the program. The physical status assessment shall reflect how well the program is operating in terms of efficiency, economy, and effectiveness in meeting all the goals and objectives of this Agreement, particularly the Contractor's Diversion goals. Provide recommendations and plans to improve. Highlight significant accomplishments and problems.

K. **Revenue and Customer Account Report**. On a semi-annual basis, the quarterly reports shall include a revenue report that summarizes monthly revenue reports and Customer account information required under Section 6.3.2.F and compares the revenues with contract and compensation and Gross Rate Revenue expectations. The semi-annual reports shall be due on or before February 28 and August 30.

L. **Customer Accounts.** Provide a detailed report of all Customers served in the City, indicating the Service Level by material type of each. Such report shall include a summary of the number of Customers at each Service Level. Include a list of Customers with invoices that are sixty (60) days past due including the following information for each delinquent account: name, service address, contact information, number of days the account is delinquent, method(s) the Contactor has used to attempt collection of the bad debt including date of such attempt(s), and identification, if, and when the Contractor reduced the Customer's level of Collection services as a result of the account delinquency.

M. **Vehicle Inventory.** Provide a report of all vehicles used for services under this Agreement, identifying vehicle type (e.g. rear-load, automated side-load, roll-off, flat-bed, pick-up, etc.), make, model, and year.

N. **SB 1383.** After the promulgation of the SB 1383 regulations and before the conclusion of calendar year 2020, the Parties shall meet and confer in order to develop reporting procedures to ensure data is provided in a manner consistent with the requirements of SB 1383. Once agreed upon between the Parties, such reports shall be included in the reports submitted by Contractor.

O. **Education Plan for Coming Rate Period**. The quarterly report that reports on third quarter results shall include a plan for public education activities for the coming Rate Period in accordance with Section 5.17.2.

6.4 Annual Reports

6.4.1 Annual Report Requirements

The annual report shall be in the form of the quarterly reports and shall provide the same type of information as required pursuant to Section 6.3.3 of this Agreement, summarized for the preceding four quarters. In addition, Contractor's and Related Party Entities' annual financial reports/statements shall be included. The annual report shall also include a complete inventory of equipment used to provide all services, and a list of Contractor's officers and members of its board of directors.

6.4.2 Financial Information

Within one hundred twenty (120) calendar days after the close of Contractor's fiscal year, Contractor shall deliver to the City Contract Manager an electronic copy of the audited consolidated financial statements and profit and loss statements of Contractor for the preceding fiscal year. Financial statements shall include a supplemental combining schedule showing Contractor's results of operations, including the specific revenues and expenses in connection with the operations provided for in this Agreement from others included in such financial statements. The financial statements and footnotes shall be prepared in accordance with Generally Accepted Accounting Principles (GAAP) consistently applied and fairly reflecting the results of operation and Contractor's financial condition. Annual financial statements shall be audited, in accordance with Generally Accepted Auditing Standards (GAAS) by a Certified Public Accountant (CPA) licensed (in good standing) to practice public accounting in the State of California as determined by the State of California Department of Consumer Affairs Board of Accountancy, and that the CPA opinion on Contractor's annual financial statements shall be unqualified, and shall contain the CPA's conclusions regarding the Contractor's accounting policies and procedures, internal controls, and operating policies. The CPA shall perform an evaluation and, if necessary, shall cite recommendations for improvement.

6.4.3 Related Party Entities

As part of the annual reporting requirement, Contractor shall provide the City with a copy of each Related Party Entity's (whose cost of services are not pre-determined in this Agreement on a unit price basis or by a governmental contractor) audited annual financial statements and management letter for that fiscal year, or within ninety (90) calendar days of each Related Party Entity's fiscal year-end, if timing does not coincide with the annual report date. Financial statements shall be prepared in accordance with GAAP and audited, in accordance with GAAS, by a CPA licensed in the State, and that the CPA's opinion on each Related Party Entity's annual financial statements shall be unqualified, and that the CPA make available to the City (or the City's designated representative) such CPA's working papers related to the audit.

Contractor agrees that all financial transactions with all Related Party Entities shall be approved in advance in writing and disclosed annually (coinciding with Contractor's annual audited financial statements referred to in Section 6.4.2) to the City in a separate disclosure letter to the City. This letter shall include, but not be limited to, the following information:

A. A general description of the nature of each Related Party Entity transaction, or type of transaction (if many similar transactions exist) shall be provided, as applicable. Such description shall include for each (or similar) transaction, amounts, specific Related Party Entity, basis of amount (how amount was determined), description of the allocation methodology used to allocate any common costs, and profit amount. Amounts shall be reconciled to the Related Party Entity disclosures made in Contractor's annual audited financial statements referred to in this Section.

B. At the City Contract Manager's request, Contractor shall provide the City Contract Manager with copies of working papers or other documentation deemed relevant by the Contractor relating to information shown in the annual disclosure letter. The annual disclosure letter shall be provided to the City within one hundred twenty (120) calendar days after the end of the Contractor's fiscal year.

6.4.4 Operational Information

In addition to requirements stated elsewhere in this Agreement, the annual report shall include the following information:

A. **Routes by Service Type**

1. Number of routes per day;
2. Types of vehicles;
3. Crew size per route;
4. Number of full time equivalent (FTE) routes;
5. Number of accounts per route;
6. Total hours route per Service Type per year; and,
7. Average cost per route.

B. **Personnel**

1. Organizational chart;
2. Job classifications and number of employees (e.g. administrative, customer service representatives, drivers, supervisors, educational staff);
3. Wages by job classification;
4. Number of full time equivalents (FTE) positions for each job classification; and,
5. Number of hours per job classification per year.

C. **Productivity Statistics**

1. Number of accounts per Service Type;
2. Average number of setouts per Service Type; and,
3. Tons per route per day.

D. **Maintenance -** Average cost per Service Type.

E. **Operational Changes**

1. Number of routes;
2. Staffing;
3. Supervision; and,
4. Collection services.

6.4.5 Historical Data (to be completed if Rates are to be determined using a cost-based adjustment pursuant to Section 8.2)

Provide the following annual historical data for each Service Type:

A. Customer levels and subscription levels;

B. Solid Waste Tonnage;

C. Diversion Tonnage;

D. Gross Revenue; and,

E. Material revenues for Recyclable Materials by program type.

6.4.6 Variance Analysis (to be completed if Rates are to be determined using a cost-based adjustment pursuant to Section 8.2)

Provide the following variance analysis for each Service Type. For any variances greater than five percent (5%) annually, Contractor shall provide sufficient rationale to support variance.

A. Variance analysis comparing current Rate Period to each of the prior Rate Periods of Agreement; and,

B. Variance analysis comparing current Rate Period to each of the future projected Rate Periods.

6.4.7 Allocations (to be completed if Rates are to be determined using a cost-based adjustment pursuant to Section 8.2)

A. Provide a concise general explanation of the various allocation methodologies used for each Rate application line item;

B. Provide specific examples of each type of allocation used showing how an entry is reported in the general ledger (GL) and ties to the Rate application; and,

C. Provide a statement indicating whether there have been any changes in allocation methods used since the last Rate application. If any allocation methods have changed clearly identify those changes.

6.4.8 Projections (to be completed if Rates are to be determined using a cost-based adjustment pursuant to Section 8.2)

A. Provide support for the basis for projected Gross Revenue and line item expenses, clearly indicate the supporting calculations and assumptions; and,

B. Provide support for the most recent twelve (12) months of Tonnage data for period ending October; clearly indicate the supporting calculations and assumptions.

6.4.9 Marketing Plan

Contractor shall include an updated Recyclable Materials and Compostable Materials marketing plan in its annual report for City Contract Manager approval as required by Sections 5.13.2.D and 5.13.3.E.

6.4.10 Commercial and Multi-Family Program Performance Report

As part of its annual reporting requirements, Contractor shall include a Commercial and Multi-Family program performance report as required by Section 5.17.9.

6.4.11 Income-Based Program Subscription Report

Contractor will track and report the number of households participating in the Income-Based Program as described by Section 8.8. Contractor will include subscription information related to Service Level (before and after application of the Program), and any revenue adjustments resulting from new subscriptions to the Income-Based Program.

6.5 Annual Report Required by the Act

Contractor shall assist the City in preparing the Annual Report required by the Act as specified in Title 14, California Code of Regulations, Section 18794. Contractor shall submit supporting documentation and calculations, for review by the City Contract Manager no later than forty-five (45) calendar days prior to the State's annual reporting deadline. The City Contract Manager shall review the information submitted and may direct Contractor to investigate any opportunities to correct possible inaccuracies in the Tonnage reflected in the Department of Resources Recycling and Recovery's (CalRecycle) Disposal Reporting System, and request other changes as appropriate. The City Contract Manager shall be responsible for submitting the revised Annual Report to the State in accordance with the State's annual reporting deadline. In the event the Contractor does not submit the requested information in accordance with the timeline described in this Section, the Contractor shall pay the City Liquidated Damages as described in Section 11.6.

6.6 Record Keeping and Reporting Required by SB 1383

Contractor shall assist the City in preparing an initial compliance report and annual reports relative to compliance with SB 1383.

6.7 Meet and Confer with City

If the City Contract Manager requests, the Contractor shall meet with the City Contract Manager to describe the progress of each active Diversion program and discuss other service issues. Contractor shall document the results of the programs on a monthly basis, including at a minimum the Tonnage Diverted by material type, the end use or processor of the Diverted materials and the cost per Ton for Transporting and Processing each type of material and other such information requested by the Contractor and/or City Contract Manager necessary to evaluate the performance of each program.

At each meeting, the City Contract Manager and Contractor shall have the opportunity to revise the program based on mutually agreed upon terms in accordance with provisions of Section 8.5. The City shall have the right to terminate a program if, in its sole discretion, the Contractor is not cost effectively achieving the program's goals and objectives. Prior to such termination, the City Contract Manager shall meet and confer with the Contractor for a period of up to ninety (90) calendar days to resolve the City's

concerns ("meet and confer period"). Thereafter, the City may utilize a third party to perform these services if the City reasonably believes the third party can improve on Contractor's performance and/or cost. Notwithstanding these changes, Contractor shall continue the program during the "meet and confer period" and, thereafter, until the third party takes over the program.

6.8 City Contract Manager

The City has designated the City Contract Manager to be responsible for the monitoring and administration of this Agreement. Contractor shall meet and confer with the City Contract Manager to resolve differences of interpretation and implement and execute the requirements of this Agreement in an efficient and effective manner that is consistent with the stated objectives of this Agreement.

From time to time, the City Contract Manager may designate other agents at the City to work with Contractor on specific matters. In such cases, those individuals shall be considered designees of the City Contract Manager for those matters to which they have been engaged. Such designees shall be afforded all of the rights and access granted thereto. In the event of a dispute between the City Contract Manager's designee and Contractor, the City Contract Manager's determination shall be conclusive.

In the event of dispute between the City Contract Manager and the Contractor regarding the interpretation of, or the performance of services under, this Agreement, the City Contract Manager's determination shall be conclusive except where each such determination results in a material impact to the Contractor's revenue and/or cost of operations. In the event of a dispute between the City Contract Manager and the Contractor that results in such material impact to the Contractor, Contractor may appeal the determination of the City Contract Manager to the City Council, whose determination shall be conclusive. For the purposes of this definition, "material impact" is an amount equal to or greater than Seventy Thousand Dollars ($70,000) per disputed matter per year. For example, if three matters are disputed and matter one (1) has a value of $35,000 per year, matter two (2) has a value of $75,000 per year, and matter three (3) has a value of $65,000 per year; only the City Manager's determination regarding matter two (2) may be appealed by the Contractor to the City Council.

6.9 Right to Inspect Records

The City Contractor Manager, or their designee, shall have the right to inspect or review SEC 10Q filings, payroll tax reports, specific documents or records required pursuant to this Agreement, or any other similar records or reports of the Contractor that it shall deem, at its sole discretion, necessary to evaluate annual reports, Rate adjustment applications provided for in this Agreement, and the Contractor's performance provided for in this Agreement.

6.10 Inspection by City

The City Contract Manager or their designee shall have the right to observe and review Contractor operations and Approved Facilities and enter the Premises for the purposes of such observation and review, during reasonable hours with reasonable notice. In no event shall Contractor prevent access to such Approved Facility Premises for a period of more than three (3) days after receiving such a request.

6.11 Customer Service Program

6.11.1 Office Location

Contractor shall maintain a business office in the City, or such other location as the City approves, for purposes of carrying out its obligations under this Agreement, such approval not being unreasonably withheld. If the office is located outside of the City, Contractor must ensure that telephone calls to its office from locations within the City are toll free calls or are billed to Customers as "local calls" by all telephone companies.

6.11.2 Office Hours

Contractor's office shall be open to the public from 7 a.m. to 5 p.m. Monday through Friday. The office may be closed on Saturdays, Sundays, and Holidays (as defined in Article 1) plus Martin Luther King Day and Presidents' Day.

6.11.3 Availability of Representatives

The office shall be staffed with a sufficient number of Persons capable of accepting payments from Customers, answering service questions, changing Customer Service Levels, and resolving other Customer service issues in a timely manner and in accordance with the performance measure described in Exhibit F. At a minimum, Contractor shall employ one full-time customer service manager and three full-time customer service representatives dedicated to serving the City and its Customers. A representative of the Contractor shall be available from 7 a.m. to 5 p.m. Monday through Friday to communicate with the public in Person and by telephone.

A voice mail service or program shall be available for Persons to leave a message during non-business hours. Contractor shall return calls received during non-business hours no later than 5:00 p.m. of the following Business Day. If Contractor fails to meet the requirements described in this Section, the Contractor shall pay the City Liquidated Damages in accordance with Section 11.6.

Contractor shall provide City Contract Manager with the names and telephone numbers of contact Persons available during office hours and of emergency contact Persons who will be available during hours when the office is closed.

Customer service personnel shall maintain a log documenting each Complaint or inquiry received and listing for each entry the following: date, time, Customer name and address, description of Complaint or inquiry, and resolution of the Complaints. Copies of this log shall be made available upon City Contract Manager request.

6.11.4 Telephone

Contractor shall maintain a telephone system in operation at its office from 7 a.m. to 5 p.m. and shall have staff available to answer calls. Contractor shall install telephone equipment sufficient to handle the volume of calls typically experienced on the busiest days and such telephone equipment shall be capable of recording a variety of call statistics (e.g., average hold time, average talk time, dropped calls, etc.). Contractor's phone system shall be TDD compatible for the hearing impaired. Customer service representatives shall be available to speak to non-English speaking Customers (Spanish and Mandarin at a minimum.) If Persons are unable with reasonable effort to reach Contractor's office by phone, or are subject to waiting time "on hold" of more than two (2) minutes prior to reaching a customer service

representative, City Contract Manager may require that Contractor install additional telephone lines or hire additional customer service representatives. Liquidated damages may be levied for repetitive Complaints regarding waiting time longer than two (2) minutes in accordance with Section 11.6.

Contractor shall maintain a special telephone hotline for Commercial Compostables Customers that will ring directly to a customer service representative that has special training and expertise in this particular program.

6.11.5 Website

Contractor shall develop and maintain a publicly-accessible website describing services provided in the City. The site shall include: (1) a description of all Collection services and details related to their implementation, (2) answers to frequently asked questions; (3) Rates for Single-Family, Multi-Family, Commercial, and Drop Box/Compactor Service; (4) Recyclable Materials and Compostable Materials Customer set-out specifications; (5) Collection service schedule and map: (6) Holidays that impact Collection service schedule and related set-out instructions, (7) ability to view and pay bills on line; (8) ability to schedule On-Call Single-Family Clean-Up Services and On-Call Multi-Family Clean-Up Services, Bulky Item and E-Waste Collections, and extra/overage Collections; (9) ability to request Service Level/type changes, Drop Box/Compactor Service, and service terminations; (10) ability to request paperless public education and outreach communications, bills, and other materials via electronic delivery; (11) the ability to opt- out of electronic information from the Contractor and/or the City; and (12) other related topics. The website shall also allow a Customer to e-mail a question, compliment, or Complaint to the Contractor and Contractor shall provide a response to e-mail inquiries or Complaints within twenty-four (24) hours of receipt. Contractor shall arrange for the City's website to include an e-mail link to Contractor and a link to the Contractor's website. Contractor's website shall track web visits. Additional website requirements are specified in Exhibits C and C1.

6.11.6 Customer Satisfaction Survey

The City Contract Manager may conduct a Customer satisfaction survey every year.

6.11.7 Training

Customer service representatives shall receive training during each quarter of the calendar year on City-specific Collection programs and service requirements. During the training, a City-specific Collection service and Rate information sheet, training agenda, and associated documentation shall be provided to and discussed with employees. Information sheet, training agenda, and associated documentation shall be forwarded by Contractor to the City Contract Manager each quarter after the training in accordance with quarterly reporting requirements of Section 6.3.3.D. The City Contract Manager may review the training materials and request changes.

The Contractor shall notify the City Contract Manager of the date and time of the scheduled Customer service training sessions (pursuant to quarterly reporting requirements of Section 6.3.3.D) and the City Contract Manager may, at its option, attend the meetings.

Contractor shall also train its customer service representatives regarding the Commercial Food Scrap Program, and will conduct periodic, but at Contractor's discretion not more than once per quarter, telephone survey programs to determine Customer knowledge and satisfaction with the Program. Contractor shall provide the City Contract Manager with a report of any such surveys.

Contractor will use customer service and outreach efforts and materials to minimize contaminants (e.g., glass and plastics).

6.11.8 Access to Customer Service and Billing Systems

Contractor shall provide access and any necessary training to one (1) or more City employee(s) (as designated by the City Contract Manager) regarding the use of Contractor information systems. Contractor shall designate one (1) member of Contractor staff to work directly with such City employee. Contractor shall provide such City employee with read-only access to Customer service, call center, and operations information systems in order to validate Contractor performance standards, and recommend changes to Customer Service Levels to resolve service issues or otherwise address Customer needs. In the event that recommended Service Level changes are made, the designated City staff will work with Contractor's route manager to make such changes. Contractor shall also provide access to Customer contact information (including email addresses) for purposes of City-provided public education and outreach activities. In addition, Contractor shall ensure that the City Contract Manager and any other City staff, as requested by the City, have read-only access to all service order, Billing, and Customer service records in Contractor's internal information systems. Such read-only access is intended to provide the City the ability to review notes related to Customer service and/or Billing issues.

6.12 Service Complaints

Contractor shall receive verbal Complaints through its Customer service center and shall have e-mail capabilities (accessible through the Contractor's website) to enable Persons to communicate Complaints to Contractor via e-mail. Contractor shall be responsible for the prompt and courteous attention to, and prompt and reasonable resolution of, all Complaints. Contractor shall record in a separate log all Complaints, noting the name and address of complainant, date and time of Complaint, nature of Complaint, and nature and date of resolution. This Complaint log shall be retained by the Contractor for the Term and shall be made available for review upon City Contract Manager request. In addition, Contractor shall compile a summary statistical table of the Complaint log, satisfactory to the City Contract Manager, and submit the table to City Contract Manager each quarter.

Contractor shall respond to all Complaints from Generators or Customers by phone or email within twenty-four (24) hours, weekends and Holidays excluded, by informing the Customer of the action Contractor will take to remedy the Complaint or respond to the service request. In particular, if a Complaint involves a failure to Collect Solid Waste, Recyclable Materials, or Compostable Materials from a Premises (missed pick-up), required by this Agreement, Contractor shall Collect the material in question within twenty-four (24) hours of receipt of the Complaint, provided it has been delivered for Collection in accordance with the Livermore Municipal Code, Title 8, Chapter 8.08, Solid Waste Management. If Contractor fails to meet the requirements described in this Section, the Contractor shall pay the City Liquidated Damages in accordance with Section 11.6.

Commencing January 1, 2022, Contractor shall notify City of Complaints regarding non-compliance with SB 1383, received within 90 days of receiving Complaint.

6.13 Title to Solid Waste

Once Solid Waste, Recyclable Materials, Construction and Demolition Debris, and/or Compostable Materials are placed in Containers and properly placed at the Collection location, ownership and the right to possession shall transfer directly from the Generator to Contractor by operation of this Agreement. Subject to Contractor's objective to meet the Act and Measure D Diversion goals, City goals, and City's right to direct Contractor to Process and/or Dispose of Solid Waste at a particular licensed Site or to Dispose of Solid Waste at a permitted Disposal Site, Contractor is hereby granted the right to retain, Recycle, Process, Dispose of, and otherwise use such Solid Waste, Recyclable Materials or Compostable Materials or any part thereof, in any lawful fashion or for any lawful purpose desired by Contractor. Subject to the provisions of this Agreement, Contractor shall have the right to retain any benefit resulting from its right to retain, Recycle, Process, Dispose of, or reuse the Solid Waste, Recyclable Materials, Construction and Demolition Debris, or Compostable Materials which it Collects. Solid Waste, Recyclable Materials, Construction and Demolition Debris, or Compostable Materials or any part thereof, which is deposited at a Disposal Site, Transfer Station, Composting Site or Processing Site shall become the property of the Owner or operator of the facility, once deposited there by Contractor.

On a short-term basis not to exceed more than five (5) calendar days per year, City may obtain ownership or possession of Solid Waste, Construction and Demolition Debris, Recyclable Materials, or Compostable Materials placed for Collection upon written notice of its intent to do so, however, nothing in this Agreement shall be construed as giving rise to any inference that City has such ownership or possession unless such written notice has been given to Contractor.

6.14 Non-Discrimination

Contractor shall not discriminate in the provision of service or the employment of Persons engaged in performance of this Agreement on account of race, color, religion, sex, age, marital status, sexual orientation, physical handicap or medical condition in violation of any applicable federal or State law.

6.15 Report of Accumulation of Solid Waste; Unauthorized Dumping

Contractor shall direct its drivers to note: (1) the addresses of any Premises at which they observe that Solid Waste, Recyclable Materials or Compostable Materials is accumulating and is not being delivered for Collection; and (2) the address, or other location description, at which Solid Waste, Recyclable Materials or Compostable Materials has been dumped in an apparently unauthorized manner. Contractor shall deliver the address or description to City Contract Manager within five (5) working days of such observation.

6.16 Administration of Service Exemption Programs

Contractor shall allow for Persons that have a disability as defined by the Americans with Disabilities Act (which means Public Law 101-336, 104 Stat. 327, 42 U.S.C. 12101-12213 and 27 U.S.C. 225 and 611, and all Federal rules and regulations relating thereto) that are Occupants of Single-Family Premises and Multi-

Family Premises to receive Collection services at a location other than Curbside at no extra charge to the Customer. Contractor shall review all applications (which shall include statements from physicians) made by Customers to determine conformance with this exemption provision and shall grant exemptions if applicable. With regard to all requirements of this Section, the Contractor shall make reasonable accommodations with regard to provision of and servicing of Containers (e.g., Container size and type, placement of Containers for Collection, etc.) at no additional cost to the Customer.

6.17 Performance Review and Audits

6.17.1 Performance Review

In addition to any and all reports the Contractor must provide, or the City may request, in this Agreement, the City shall have the right to conduct two (2) reviews of Contractor's performance during the Term to verify that Contractor has fulfilled its obligations under the Agreement, in addition to the Commercial and Multi-Family Program Performance Report described in Section 5.17.9. City Contract Manager may conduct such performance reviews at any point during the Term. Upon notice from City that a performance review will be conducted, Contractor shall provide all information requested by City Contract Manager and cooperate with the review. Performance review may focus on, but is not necessarily limited to: call center performance, total Complaints, missed pick-ups Complaints, noise Complaints, contract compliance, Diversion results, Customer participation levels in Diversion programs, vehicle maintenance, compliance with the implementation plan, and public education and outreach efforts. The City Contract Manager will supervise the evaluation and may provide a formal report to City Council. At City Contract Manager's request, Contractor shall make a presentation to City Council reporting the Contractor's perspective on the results. Contractor shall be responsible for reimbursing the City for the cost of each such review, in an amount up to sixty thousand dollars ($60,000) per review for each performance review in 2020 dollars. The sixty thousand dollar ($60,000) amount of the performance review reimbursement shall be adjusted in accordance with the adjustment method described in Section 3 of Exhibit I or Section 3 of Exhibit J.

6.17.2 Payment and Billings Audit

The City shall have the right to conduct three (3) audits of Contractor's Billings and payment of monies due to the City during the Term to verify that Contractor has accurately billed Customers, and has calculated and transmitted all fees and payments as required by this Agreement. Upon notice from City that a payment and Billings audit will be conducted, Contractor shall provide all information requested by the City and cooperate with the audit. Contractor shall be responsible for reimbursing the City for the cost of each such audit, in an amount up to thirty-five thousand dollars ($35,000) per audit in 2020 dollars, adjusted annually in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J.

6.18 Provision of Emergency Services

Contractor shall provide emergency services at the City's request in the event of major accidents, disruptions, or natural calamities in a manner consistent with the services and procedures identified in its contingency plan required in accordance with Section 5.19. Contractor agrees to take direction from the City Contract Manager related to services performed by any disaster debris hauler and disaster debris

monitor contracted by the City. Emergency services may include, but are not limited to, assistance handling salvaged materials, Processing, Composting, or Recycling materials, or Disposing of Solid Waste following a major accident, disruption, or natural calamity. Contractor shall be capable of providing emergency services within twenty-four (24) hours of notification by the City or as soon thereafter as is reasonably practical in light of the circumstances. Emergency services, which exceed the Contractor's obligations, shall be compensated in accordance with Section 8.4. If Contractor cannot provide the requested emergency services, the City shall have the right to take possession of the Contractor's equipment for the purposes of providing emergency services in accordance with Article 10.

6.19 Assistance to City with Code and Plan Reviews

Contractor shall provide staff and time to assist the City in evaluating and revising its Municipal Code and Planning and Zoning Code requirements related to Collection of Solid Waste, Recyclable Materials, and Compostable Materials; space allocation and enclosure requirements for Containers, etc. In addition, Contractor shall provide staff with the expertise to review building plans for new Residential and Commercial development projects during the City's permit review process to verify the reasonableness of the space allocation and enclosure design for Solid Waste, Recyclable Materials, and Compostable Materials Containers and the accessibility of such areas. For these plan reviews, the Contractor may be requested to visit the site and submit written recommendations for improvements to the design. Plan reviews shall be completed within two (2) weeks of the City's request for such review. The City anticipates approximately five (5) to ten (10) reviews may be requested annually.

6.20 Unincorporated Alameda County Services

Contractor is authorized to Collect Solid Waste, Recyclable Materials, and Compostable Materials from Residential and Commercial Premises within unincorporated portions of Alameda County in accordance with the terms described in the Memorandum of Understanding Between the City of Livermore, Alameda County and Livermore Sanitation, Inc. Regarding Solid Waste and Recycling Services dated November 26, 2012 attached hereto as Exhibit P. Any subsequent amendments to the Memorandum of Understanding Between the City of Livermore, Alameda County and Livermore Sanitation, Inc. Regarding Solid Waste and Recycling Services dated November 26, 2012 agreed to by the parties in writing shall be reflected in a revised Exhibit P and shall be binding upon the parties.

6.21 Services to the Livermore Valley Joint Unified School District

This Section establishes parameters for the Contractor's Collection of Solid Waste, Recyclable Materials, and Compostable Materials from the Livermore Valley Joint Unified School District, and identifies the methodology used to fully compensate the City for the use of assets paid for by Livermore rate payers.

Contractor is authorized to provide Collection Service to the Livermore Valley Joint Unified School District during the term of this Agreement provided the Contractor adheres to the terms of this Section and the terms identified in the Solid Waste and Recycling Services Agreement between the Livermore Valley Joint Unified School District and Livermore Sanitation, Inc. dated August 1, 2013, and any subsequent amendments or extensions, attached hereto as Exhibit Q.

On an annual basis, Contractor will apply a credit to the Total Calculated Costs for the coming Rate Period as part of the required rate application described in Section 8.3 and in Schedule D to Exhibits I and J. Contractor also agrees to provide cost allocation estimates and any other information deemed necessary by the City Contract Manager.

The Contractor is permitted to commingle Solid Waste Materials Collected under this Agreement with Solid Waste Materials Collected from the Livermore Valley Joint Unified School District. Likewise, the Contractor is permitted to commingle Recyclable Materials Collected under this Agreement with Recyclable Materials Collected from the Livermore Valley Joint Unified School District and the Contractor is permitted to commingle Compostable Materials Collected under this Agreement with Compostable Materials Collected from the Livermore Valley Joint Unified School District.

Contractor agrees to estimate the amount of Solid Waste, Recyclable, and Organic Materials Collected from the Livermore Valley Joint Unified School District and report the estimated Tonnage to the City Contract Manager at least once per year.

The Contractor is exempt from the payment of the Agreement Fee and other City fees specified in Article 7 on revenues received from schools that are part of the Livermore Valley Joint Unified School District.

ARTICLE 7.
AGREEMENT FEE AND OTHER CITY FEES

7.1 Agreement Fee

In consideration of the exclusive rights provided Contractor herein, Contractor shall pay to City eleven percent (11%) of its Gross Rate Revenues. On a monthly basis, the Agreement Fee amount shall equal eleven percent (11%) of the Gross Rate Revenues collected by Contractor during the previous month for services provided under this Agreement. The Agreement Fee shall be paid monthly to the City in accordance with procedures and terms and conditions described in Section 7.10. This fee may be adjusted by City Council resolution.

7.2 Franchise Monitoring and Enforcement Fee

The Contractor shall pay the City a Franchise Monitoring and Enforcement Fee, which the City shall use to offset expenses related to contract management, compliance, and monitoring, and to enforce the franchise with respect to any violations by third parties, including initiating and/or assisting in prosecuting enforcement actions. The City shall retain the sole right to set priorities for its contract monitoring and enforcement among City personnel. This fee shall be a pass-through cost. The amount of the Franchise Monitoring and Enforcement Fee shall be $228,931 in Rate Period Ten. The amount of the Franchise Monitoring and Enforcement Fee for subsequent Rate Periods shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J, or shall be the amount specified by the City.

Except as expressly provided below, during the Term of this Agreement and any extension of it, Contractor shall remit one-twelfth (1/12) of the total annual Franchise Monitoring and Enforcement Fee to the City each month in accordance with procedures and terms and conditions described in Section 7.10.

7.3 Street Sweeping Services Fee

The City considers street sweeping a necessary component of Solid Waste management, necessary for the public health, safety, and welfare, to prevent Litter from entering the City's storm drainage facilities, as well as for aesthetic purposes. Pursuant to Chapter 8.08, Article IX of the Solid Waste Management Section of the Livermore Municipal Code, the City is authorized to establish a fee for street sweeping purposes. For Rate Period Ten, Contractor shall pay a Street Sweeping Services Fee to the City each month equal to $53,333, which totals $640,000 annually. The amount of the Street Sweeping Services Fee for subsequent Rate Periods shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J, or shall be the amount specified by the City. Contractor shall send the collected fee to the City on a monthly basis in accordance with procedures and terms and conditions described in Section 7.10.

7.4 Rate Review and Performance Review Fee

The City considers the Rate review and performance review process to be extremely complex requiring a contract with a consultant in order to provide the best review possible of the Contractor Rate adjustment application resulting in adjustment of Rates consistent with the terms of this Agreement. Two types of Rate reviews will be conducted (an indexed-based adjustment and a cost-based adjustment as described in Article 8), depending on the Rate Period. The City Contract Manager may conduct performance reviews and plans to request assistance from a consultant to assess the Contractor's performance including, but not limited to, the Contractor's performance with regard to Customer service, Complaints, contract compliance, Diversion results, Customer participation levels in Diversion programs, and public education and outreach efforts.

For Rate Period Ten the Rate Review and Performance Review Fee shall be $0. The amount of the Rate Review and Performance Review Fee for subsequent Rate Periods shall be specified by the City Contract Manager and upon City direction the fee shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J. If the City Contract Manager specifies a Rate Review and Performance Review Fee, Contractor shall send the collected fee to the City on a monthly basis in accordance with procedures and terms and conditions described in Section 7.10.

7.5 Vehicle Impact Fee

Contractor has paid the City a Vehicle Impact Fee for Rate Periods 1 through 9. For Rate Period 10, Contractor shall pay a Vehicle Impact Fee to the City each month equal to $88,743, which equals $1,064,924 annually. This fee is to reimburse the City for street maintenance costs incurred because of Collection Vehicles traveling on City streets.

The Vehicle Impact Fee shall be adjusted annually using the annual percentage change in the Consumer Price Index (All Urban Consumers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described for Vehicle-Related Costs in Section 3.A.2 of the Exhibit I or Section 3.A.3.b of Exhibit J, or shall be the amount specified by the City. Contractor shall send the collected fee to the City on a monthly basis in accordance with procedures and terms and conditions described in Section 7.10.

7.6 Neighborhood Preservation Fee

The Neighborhood Preservation section of the City's Community Development Department assists to enforce the City's Municipal Code as it applies to property maintenance, property nuisances and other issues in Residential and Commercial zoning districts. The Neighborhood Preservation staff works closely with all City departments in order to resolve health, safety, and public nuisance problems that may adversely affect the quality of life for citizens of the City.

Contractor has paid the City a Neighborhood Preservation Fee for Rate Periods 1 through 9. For Rate Period Ten, Contractor shall pay a Neighborhood Preservation Fee to the City each month equal to $14,838, which totals $178,058 annually. The amount of the Rate Neighborhood Preservation Fee for subsequent Rate Periods shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J, or shall be the amount specified by the City Contract Manger. Contractor shall send the collected fee to the City on a monthly basis in accordance with procedures and terms and conditions described in Section 7.10.

7.7 Third Party Fees

Should another governmental agency require the collection of a fee or fees from Customers, Contractor shall add such fee to its Customer Billing without modification or mark up, collect the fee, and Transfer the resulting funds to the other governmental agency or, at the option of the City, to the City for payment to the other governmental agency. Such Third Party Fees are not a Change in Law and are not included in the calculation of the maximum 9% rate increase in Section 8.2.C. Should Contractor incur actual demonstrable additional costs in administering these fees, Contractor may submit a request to be compensated to the City Contract Manager who in their sole discretion may grant such request. To the extent that such fees become a component of bad debt, then they shall be governed by the Bad Debt Collection Process described in Section 6.1.2 of this Agreement.

7.8 SB 1383 Fee

The Contractor shall pay an SB 1383 Fee to City each month. The amount of the SB 1383 Fee shall be eight thousand three hundred and thirty four dollars ($8,334) per month beginning in Rate Period 11 (July 1, 2020). City shall use the SB 1383 Fee to offset expenses including staffing costs related to City programs, pilot studies, education and outreach campaigns, technical assistance to Customers, reporting, compliance, provision of special Containers, enforcement, or other activities involved in compliance with SB 1383. The City Contract Manager shall retain the sole right to set priorities for the use of its SB 1383 Fee. The amount of the SB 1383 Fee for subsequent Rate Periods shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J, or shall be the amount specified by the City Contract Manager.

7.9 Other Fees

The City shall reserve the right to set other fees as it deems necessary, subject to City Council approval. The amount of the Fee shall be adjusted annually using the annual percentage change in the Consumer Price Index (Urban Wage Earners and Clerical Workers) for the San Francisco-Oakland-Hayward, CA geographic area, or for such area as may be subsequently designated by the U.S. Bureau of Labor Statistics in accordance with the adjustment method described in Section 3 of the Exhibit I or Section 3 of Exhibit J, or shall be the amount specified by the City Contract Manager. Contractor shall send the collected fee to the City on a monthly basis, or as specified by the City Contract Manager, in accordance with procedures and terms and conditions described in Section 7.10.

7.10 Procedures for Monthly Submittal of Fees

On or before the twentieth (20th) day of each month during the Term of this Agreement, Contractor shall remit to City the fees due in accordance with this Section. If the fees are not paid on or before the twentieth (20th) day of any month, Contractor shall pay in addition to the amount owed to City a late payment penalty in an amount equal to two percent (2%) of the amount owing for that month. Contractor shall pay an additional two percent (2%) owing on any unpaid balance for each following thirty (30) calendar day period the fee remains unpaid. Late payment penalty amounts shall not be reimbursed to Contractor. The late payment penalty amounts are not intended as interest on debt, but rather are intended as a predetermined penalty for failure to meet an obligation under this Agreement.

Each monthly remittance to City shall be accompanied by a statement detailing Gross Rate Revenues for the period covered from all operations conducted or permitted pursuant to this Agreement. This monthly statement shall identify billed revenues and actual Gross Rate Revenues received listed separately for Single-Family, Multi-Family, Commercial, and Drop Box/Compactor Customers. In addition, Contractor shall maintain copies of all Billing and collection records for five (5) years, following the expiration or earlier termination of this Agreement, for inspection and verification by City Contract Manager at any reasonable time upon request.

Contractor is obligated to pay all City fees (identified on the Commencement Date in this Article 7 and any new City fees established in accordance with Section 7.9) to the City in accordance with procedures described in Section 7.10. Such payments shall be due to City regardless of the actual Contractor Compensation and regardless of the amount of the actual Gross Rate Revenues received by the Contractor.

7.11 Adjustment to Fees

City may adjust the amount of the fees at any time. Such adjustment shall warrant an adjustment in the City-approved Rates to reflect the changes in the amount of the fees. In the event Contractor is requested to pay increased City fees before the Rates are adjusted, Contractor would receive retroactive compensation for payment of any increased fees before the corresponding Rate increase takes effect.

ARTICLE 8.
CONTRACTOR'S COMPENSATION

8.1 Overview

The Contractor's Compensation for performance of all its obligations under this Agreement shall be Gross Revenue. Contractor's Compensation provided for in this Article shall be the full, entire and complete compensation due to Contractor pursuant to this Agreement for all labor, equipment, materials and supplies, Processing and Disposal fees, fees due to City, taxes, insurance, bonds, overhead, operations, profit and all other things necessary to perform all the services required by this Agreement in the manner and at the times prescribed.

If Contractor's actual costs, including fees due to City, are more than Gross Revenue, Contractor shall not be compensated for the difference in actual costs and actual Gross Revenue (excepting the provisions included in Section 8.4). If Contractor's actual costs are less than the actual Gross Revenue, Contractor shall retain the difference provided that Contractor has paid City fees pursuant to Article 7.

Under this Agreement, Contractor shall have the right and obligation to charge and collect from Customers, Rates in Exhibit H that are approved by the City for provision of services to Customers.

The Rates for Rate Period Eleven are based on the Contractor's Proposal for the Extension Period (Exhibit G1). Contractor's proposed costs and operating assumptions for Rate Period Eleven are presented in Exhibit G.1. Rates for Rate Period Thirteen and subsequent Rate Periods shall be adjusted annually in accordance with Section 8.2 using an index-based adjustment method that involves adjustments using various cost indices and adjustments to Disposal and Processing costs to reflect actual Tonnage. Rate Period Sixteen shall be adjusted in accordance with Section 8.2 using a cost-based adjustment methodology that involves a review of Contractor's actual costs and projection of costs for the coming Rate Period. The cost-based adjustment process is intended to provide the City and the Contractor with the opportunity to adjust Rates to more accurately reflect actual costs of operations if the cost indices are not tracking with actual changes in costs. In the event that the Agreement is extended beyond Rate Period

Twenty One, either Party may request that Rates for Rate Period Twenty Two be adjusted using the cost-based methodology.

8.2 Rate Review Process

A. **General.** The City shall be responsible for approving Rates as described in this Article. If at any time during the Term of the Agreement, the Contractor determines the need for a Rate that does not appear on the City-approved Rate schedule in Exhibit H, Contractor shall immediately notify the City and request establishment of such Rate. For example, if a Customer requires Collection of a fifteen (15) cubic yard Compactor five (5) times per week and the City-approved Rate schedule does not include this level of service, the Contractor must request that the City approve a Rate for this level of service.

B. **Rates for Rate Period Eleven and Twelve.** Rates for Rate Periods Eleven and Twelve were determined by Contractor and City Contract Manager and were approved by City Council resolution at the time of the execution of this Agreement and are reflected in Exhibit H. The Rates for Rate Period Eleven are effective January 1, 2021 through June 30, 2021. The Rates for Rate Period Twelve are effective July 1, 2021 through June 30, 2022. Rates for Rate Periods Eleven and Twelve shall not be adjusted to reflect either increases or decreases in costs from those anticipated by Contractor; provided, however, that if any adjustments for Rate Period Eleven or Rate Period Twelve are warranted under Section 8.4 or 8.5, such adjustments will be made retroactively in Rate Period Thirteen. Rates for Rate Periods 13 and beyond shall be determined in accordance with Section 8.3 and, to the extent applicable, Sections 8.4 and 8.5.

As an inducement to enter this Agreement, Contractor offered City to have no rate adjustment from Rate Period Ten to Rate Periods Eleven and Twelve. Rather than have no increase and then a disproportionately high increase to rates in Rate Period Thirteen, the City and Contractor agreed to a rate increase in Rate Periods Eleven and Twelve with the difference between the approved increase and the no increase alternative offered by Contractor contributed to a rate reserve fund retained by the Contractor (the "rate reserve"), until such funds were earned by the Contractor through a lesser increase to rates calculated in accordance with this Agreement or through the Contractor's incurring costs for services and programs not contemplated in this Agreement and not otherwise provided for in this Agreement.

In order to determine the difference between the approved increase and the no increase alternative offered by Contractor, at the time rates are determined, Contractor will provide a projection, with supporting information, of Gross Rate Revenues (with and without the approved rate increase). For example, if the Gross Rate Revenues in Rate Period 11 without a rate increase were projected to be $28,000,000, and the approved rate increase were 2.0%, then the projected Gross Rate Revenues would be $28,560,000 and the anticipated deposit to the rate reserve would be $560,000 which equals 1.96% ($560,000/28,560,000).

At the end of Rate Periods 11 and 12, Contractor shall provide a report of Actual Gross Rate Revenues. For example, if at the end of Rate Period 11 the Gross Rate Revenues were $28,750,000, then the Gross Rate Revenue would be multiplied by the 1.96% resulting in $563,500 being contributed to the rate reserve. Alternatively, should the Rate Period 11 Gross Rate Revenues be $28,250,000, then this amount would be multiplied by the 1.96% resulting in $553,700 being contributed to the rate reserve.

Starting in Rate Period 13 at the City's discretion, the Contractor may be compensated from the rate reserve for any rate adjustment less than that calculated in accordance with the annual adjustment process or under Sections 8.4 or 8.5. For example, if the rate reserve is used to offset a rate increase in Rate Period 13 the rate adjustment process resulted in a revenue requirement of $29,000,000 corresponding to a rate increase of 3.5% ($1,015,000), and the approved rate increase were 2.0% (corresponding to $580,000), then the difference of $435,000 1.50% ($435,000/$29,000,000) would be contributed from the rate reserve. If at the end of Rate Period 13 the Gross Rate Revenues were $29,500,000, it would be multiplied by the 1.50% resulting in $442,500 being earned by the Contractor and subtracted from the rate reserve. Alternatively, should the Rate Period 13 Gross Rate Revenues be $28,540,000, then this amount would be multiplied by the 1.5% resulting in $428,100 being subtracted from the rate reserve. The Parties agree that the rate reserve funds will be used by the end of the initial term of the Agreement, before the end of Rate Period 20 on June 30, 2030.

C. **Annual Adjustment Process.** The Rates shall be adjusted annually, with City Council approval, commencing July 1, 2022 through the remaining Term of this Agreement including any extension periods. The adjustments to Rates shall be determined using one of two methodologies: (1) an index-based adjustment, or (2) cost-based adjustment. The index-based adjustment, which is described in Exhibit I, involves use of various cost adjustment factors (such as the percentage change in the consumer price index and percentage change in the Approved Disposal Site tipping fee) to calculate adjusted Rates. The cost-based adjustment, which is described in Exhibit J, involves a detailed review of the Contractor's actual costs of service and determination of adjusted Rates to reflect Contractor's projected costs. The Rate Period 16 overall increase is capped at no more than 3%; if the increase warranted is greater than 3% in Rate Period 16, the adjustment will be spread over the remaining Term of this Agreement ending on June 30, 2030 at the end of Rate Period 20. In all other years, the cost-based adjustment shall not exceed a nine percent (9%) increase in Rates. The following table specifies when the two Rate adjustment methods shall be used.

Rate Period	Commencement Date of Rate Period	Adjustment Method Used to Determine Rates for the Rate Period	Rate Adjustment Application Submittal Date
1	July 1, 2010	Not Applicable;	Not Applicable
2	July 1, 2011	Index-Based	January 1, 2011
3	July 1, 2012	Index-Based	January 1, 2012
4	**July 1, 2013**	**Index-Based unless the City requests Cost-Based**	**For Cost-Based: Notice by September 1, 2012; Application by** December 1, 2012**; For Index-Based: Application by January 1, 2013**
5	July 1, 2014	Index-Based	January 1, 2014
6	July 1, 2015	Index-Based	January 1, 2015
7	July 1, 2016	Index-Based	January 1, 2016

Rate Period	Commencement Date of Rate Period	Adjustment Method Used to Determine Rates for the Rate Period	Rate Adjustment Application Submittal Date
8	**July 1, 2017**	**Index-Based unless one Party requests Cost-Based**	**For Cost-Based: Notice by September 1, 2016; Application by December 1, 2016; For Index-Based: Application by January 1, 2017**
9	July 1, 2018	Index-Based	January 1, 2018
10	July 1, 2019	Index-Based	January 1, 2019
11	July 1, 2020	Not Applicable; Rates specified in Exhibit H to be effective January 1, 2021	N/A
12	July 1, 2021	Not Applicable; Rates specified in Exhibit H to be effective July 1, 2021	N/A
13	July 1, 2022	Index-Based	January 1, 2022
14	July 1, 2023	Index-Based	January 1, 2023
15	July 1, 2024	Index-Based	January 1, 2024
16	July 1, 2025	Cost-Based	January 1, 2025
17	July 1, 2026	Index-Based	December 1, 2025
18	July 1, 2027	Index-Based	January 1, 2027
19	July 1, 2028	Index-Based	January 1, 2028
20	July 1, 2029	Cost-Based	January 1, 2029
21*	July 1, 2030	Index-Based	January 1, 2030
22*	July 1, 2031	**Index-Based unless one Party requests Cost-Based**	**For Cost-Based: Notice by September 1, 2030; Application by December 1, 2030; For Index-Based: Application by January 1, 2031**
23*	July 1, 2032	Index-Based	January 1, 2032
24*	July 1, 2033	Index-Based	January 1, 2033
25*	July 1, 2034	Index-Based	January 1, 2034

*Applicable only if the Term is extended pursuant to Section 3.4.

D. **Rate Structure.** The Contractor shall have the sole and exclusive right to change the relationship of individual Rates in comparison with other Rates as the Contractor deems appropriate. Any such changes would occur in conjunction with the annual Rate adjustment process described in Section

8.2.C or in conjunction with a Rate adjustment resulting from a Special Rate Review in accordance with Section 8.4.

8.3 Rate Application Process

A. **Application Date and Content**

1. **Index-Based Rate Adjustment Methodology.** On January 1, prior to the commencement of the Rate Period for which Rates are to be determined using the index-based Rate adjustment method (coming Rate Period), Contractor shall submit its application via email to the addresses listed in Section 6.3 to the City Contract Manager requesting the Rate adjustment for the coming Rate Period. Contractor shall request and receive a written response confirming receipt of its application by the City Contract Manager in order that its submission has been submitted in a timely manner. For example, on January 1, 2022, the Contractor shall submit an electronic copy of its application for the Rate Adjustment to be effective for Rate Period Thirteen and shall receive a response from City Contract Manager confirming receipt. The application shall present the calculations of the annual percentage change in various cost indices, total calculated annual costs for the Rate Period, the Rate Adjustment Factor, annual revenues and per-Ton revenues from the sale of Recyclables Materials, annual average Residue level at the Approved Recyclables Processing Site, and all supporting documentation for the calculations including a copy of the Collective Bargaining Agreement(s) currently in effect and reports on revenues from the sale of Recyclable Materials.

   The application shall also present the Rates for the then-current Rate Period (e.g., Rate Period Thirteen) and the proposed Rates for the coming Rate Period (e.g., Rate Period Fourteen).

2. **Cost-Based Rate Adjustment Methodology**. On December 1, prior to the commencement of the Rate Period for which Rates are to be determined using the cost-based Rate adjustment method, Contractor shall submit of its application via email to the addresses listed in Section 6.3 to the City Contract Manager requesting the Rate adjustment for the coming Rate Period. For example, on December 1, 2024, the Contractor shall submit its application for the Rate Adjustment to be effective for Rate Period Sixteen.

The application shall present the Contractor's actual total annual cost of operations, revenues from the sale of Recyclable Materials, average annual Residue level of the Approved Recyclables Processing Site, profit, pass-through costs, City fees, the actual total annual costs for the most-recently completed Rate Period and forecast of the same cost items for the coming Rate Period in accordance with the procedures described in Exhibit J. Contractor shall assemble, provide, and submit such information that is necessary to support the actual costs presented and the calculation of the assumptions made by Contractor with regard to forecasting the total annual cost of operations, profit, pass-through costs, City fees, and the total annual costs for the coming Rate Period. Such documentation shall include, but not be limited to: calculations of the annual percentage change in various cost indices, annual revenues and per-Ton revenues from the sale of Recyclables Materials, monthly Residue Tonnage reports for the Approved Recyclables Processing Site, and a copy of the Collective Bargaining Agreement(s) currently in effect. The actual costs shall be based on the financial statements for the Contractor's previous fiscal year, which shall be submitted in accordance with requirements of Section 6.4.2. In addition, the application shall present the Contractor's calculation of the Rate Adjustment factor, present each Rate for the then-current Rate Period, and each proposed

Rate for the coming Rate Period. Lastly, the application shall include operational data listed in Section 6.4.4.

If the City Contract Manager requests additional information beyond that provided by the Contractor in its application, the Contractor shall provide all information requested by the City Contract Manager during its review of the application, including, but not limited to, all information from Related-Party Entities requested by the City Contract Manager regarding any transactions between Contractor and any Related-Party Entity pertaining to Contractor's performance under this Agreement.

B. **City Review of Application.** The Contractor's Rate application shall be reviewed by the City Contract Manager. The City Council shall approve Rates to reflect the adjustments made in accordance with Exhibits I or J depending on the method used to adjust the Rates that are being approved. The City Council shall act in good faith to approve such Rate adjustments by July 1 of the Rate Period. The adjusted Rates shall not take effect until the City Council has approved such Rates.

C. **Failure to Adjust Rates by July 1.** If the Contractor submits its Rate application on or before the Rate application date identified in Sections 8.3.A or 8.3.B, and the City does not approve adjusted Rates to be effective on or before July 1 of a Rate Period, a surcharge shall be included on the Rates that shall be effective for the remainder of the Rate Period to recover Gross Rate Revenues lost by the Contractor, if any. To determine the amount of lost revenues, if any, the City Contract Manager and Contractor shall meet and confer to determine the effect the delay in adopting Rates has on the Contractor's Gross Rate Revenue. The assessment of the revenue impact shall consider the Contractor's Billing cycle (e.g., impact to Customers billed in advance and to Customers billed in arrears), the ability of Contractor to delay issuance of bills, the payment cycle of Customers, and other variables.

If the Contractor does not submit the application on or before the Rate application date identified in Sections 8.3.A or 8.3.B, adjusted Rates may not be approved by July 1. In such case, all Rates shall be adjusted as soon as practical following approval by the City Council. If the Contractor does not submit the application by the Rate application date identified in Sections 8.3.A or 8.3.B, no retroactive adjustment will be made to allow the Contractor to recover Gross Rate Revenues that it would have collected, had the Rate adjustment been implemented in accordance with the prescribed schedule.

With regard to review of records of Related Party Entities, City Contract Manager review shall be related to transactions between Contractor and any Related-Party Entity pertaining to Contractor's performance under this Agreement.

8.4 Special Rate Review

A. **Eligible Items.** The Contractor is entitled to apply to the City for consideration of a special Rate review, or the City may initiate such a review, should one or more of the following events occur and should such occurrence(s) have a material effect totaling two percent (2%) or more annually on the total calculated annual costs for the then-current Rate Period. If one or more of the following events occur and should such occurrence(s) have a material effect less than two percent (2%) annually of the total calculated annual costs for the then-current Rate Period, such cost impact shall be considered at the time the annual Rate adjustment process is performed in accordance with Section 8.2, and Contractor may be compensated retroactively for such cost subject to City approval.

1. Documented significant changes in the cost to provide services required in this Agreement as a result of an agreed-upon, City-directed change in scope, as provided for under Section 4.3.

2. Provision of emergency services pursuant to Section 6.18.

3. Flood, earthquake, other acts of nature, war, civil insurrection, riots, acts of any government agency (including judicial action), or other similar catastrophic events that are beyond the control of and not the fault of the Contractor.

4. Change in Law, including, but not limited to, Changes in Law that result in regulatory, governmental, or other surcharge fees, after the Effective Date that: (1) were not reasonably known to the Contractor before the Effective Date, and (2) the Contractor substantiates. This shall include costs associated with SB 1383 under Section 5.17.8 above.

5. Per-Ton Disposal cost increases at the Approved Disposal Site above those reflected in the Disposal cost determined during the annual Rate adjustment process performed in accordance with Section 8.2.

6. Change in the value of Recyclable commodities.

B. **Ineligible Items.** A special Rate review may not be initiated for the following items and Contractor shall not be compensated for such items over the Term of the Agreement unless the City and Contractor agree to an adjustment during a cost-based adjustment process when determining Rates for Rate Periods Four and Eight.

1. Increases in the cost of Discarded Materials Collection, Transportation, Processing, or Disposal costs in excess of the increases provided through the annual adjustment mechanism described in Exhibits I and J unless cost increases are related to eligible items listed in Section 8.4.A above.

2. Increases in the cost of Discarded Materials Collection, Transportation, Processing, or Disposal costs that may be impacted by change in Approved Facilities operating conditions, unless such change is initiated by or at the direction of the City.

3. Decreases in Revenues from the sale of Recyclable Materials or Compostable Materials except as provided in Exhibits I and J.

4. Growth or decline in the number of Customers or their subscription levels; however, the Contractor shall be entitled to bill all Customers at the City-approved Rates and retain all Gross Rate Revenues (net fees due to City) collected from its Customers for Collection services provided under this Agreement.

5. Changes in the number of accounts related to Container sizes or frequency of Collection; however, the Contractor shall be entitled to bill all Customers at the City-approved Rates and retain all Gross Rate Revenues (net fees due to City) collected from Contractor's Customers for Collection services provided under this Agreement.

6. Change in the Tonnage or composition of Solid Waste, Recyclable Materials, or Compostable Materials with the exception that changes in Tonnage shall be reflected in calculated Disposal and Processing Costs in accordance with procedures in Exhibits I and J.

C. **Review of Costs.** If the Contractor or the City requests a special Rate review, the City Contract Manager shall have the right to review any or all financial and operating records of Contractor and Related-Party Entities.

D. **Submittal of Request.** If the Contractor is requesting a special Rate review, the Contractor must submit its request for a special review of Rates, and cost and operational data, in a form and manner specified by the City Contract Manager, at least six (6) months before the proposed effective date of any Rate adjustment. The City Contract Manager may waive the six-month submittal requirement if the reason for the special Rate review is a Change in Law that will become effective in less than a six (6) month period.

If City is requesting a special Rate review, the City Contract Manager shall notify the Contractor at least seven (7) months before the proposed effective date of any Rate adjustment. Upon such notification, Contractor shall, within thirty (30) calendar days, submit reasonable cost and operational data as requested by the City Contract Manager, in a form and manner specified by the City Contract Manager.

A request for special Rate review shall include a proposal on whether the Rate adjustment resulting from the special Rate review shall be an adjustment in addition to or in lieu of the annual Rate adjustment to be performed in accordance with Section 8.2.C above.

E. **Burden of Justification.** Contractor shall bear the burden of justifying to the City by substantial evidence any entitlement to current, as well as increased, Rates under this Section 8.4. If the City determines that the Contractor has not met its burden, the Contractor may request a meeting with City Contract Manager to produce additional evidence. Upon such request, the City Contract Manager shall permit said additional hearing. In the event the City denies Contractor's request, Contractor shall have the right to present its claim in a court of competent jurisdiction.

F. **Grant of Request.** Based on evidence the Contractor submits, the City Council may grant some, all, or none of the requested increase and approve adjusted Rates.

G. **Compensation.** If Contractor requests the special Rate review, Contractor shall bear all reasonable costs of both Parties for participating in such review up to a maximum of forty thousand dollars ($40,000) per Party and such costs shall not be reimbursed through Rates charged Customers. If a special Rate review occurs in response to a City-directed change in scope (pursuant to Section 8.4.A.1), or City-initiated changes in the amount of the Agreement Fee or other fees (pursuant to Article 7), the City shall be considered the Party requesting the special Rate review costs of the review may be reimbursed through the Rates.

8.5 Rates for Changes in Scope

In the event either the City or Contractor requests a change in scope in accordance with Section 4.3 of this Agreement, the Contractor shall furnish the City with projected operational and cost data for the change in scope to support any adjustment to Rates. For the purposes of analyzing cost impacts of changes in scope, the Contractor's profit shall be calculated using an operating ratio of 0.90 of actual reasonable and necessary costs net of Disposal expenses and City fees specified in Article 7. The City reserves the right to require that the Contractor supply any additional cost data or other information it may reasonably need to ascertain the appropriate Rate adjustment, if any, for the change in scope. The City shall review this operational and cost data, and the City Council shall approve Rates for the change in scope, if warranted.

The granting of any change in scope shall be contingent upon City's written approval and establishment of new Rates. The City shall approve Rate adjustments, in good faith, coincident with any adjustment made pursuant to this Section so that the change in scope and the corresponding Rates become effective on the same date.

8.6 Notice of Rate Adjustments

In adjusting Rates, the Contractor shall comply with the procedural requirements of Proposition 218, as may be requested by the City. Contractor will provide effected Customers with advance written notice of approved Rate changes, in the form of a bill insert, postcard, or other written notice approved by the City at least thirty (30) calendar days before the effective date of such changes unless the City provides written approval to waive this requirement.

8.7 Rates for Drop Box and Compactor Compostable Materials Services

In furtherance of the City's established Diversion goal of seventy-five percent (75%), and to promote compliance with the Alameda County Waste Management Authority Ordinance (2008-01) banning plant debris in unincorporated Alameda County landfills, the Contractor will set the Compostables Processing per ton rate charged to Drop Box and Compactor Customers equal to the Solid Waste Disposal rate charged to Drop Box and Compactor Customers as identified in Exhibit H.

In the event that Contractor's Gross Rate Revenue is decreased as a result of equalizing the per ton rate for Compostables Processing and Solid Waste Disposal, Contractor's Total Calculated Costs will be adjusted to fully compensate Contractor. This adjustment will be incorporated into the rate adjustment for the upcoming rate period. Contractor will be required to submit documentation, acceptable to the City, supporting the decrease in revenue, provided the total annual adjustment will not exceed $45,000.

8.8 Income-Based Program

At the Contractor's discretion, an Income-Based Program may be made available to qualifying households that participate in Pacific Gas and Electric Company's California Alternate Rates for Energy (CARE) program. It is the Contractor's responsibility to verify a household's participation in the CARE program at least every two (2) years.

This Program may be structured so that any size Residential Solid Waste Cart (except a 96-gallon Solid Waste Cart) could be chosen by the qualifying Single-Family Residential household, and offered for a price set equivalent to the least expensive, 20-gallon Container price.

Any cost increases or revenue reductions incurred as a result of implementing this Program are the responsibility of the Contractor, and will not be considered as part of the Annual Adjustment Process described in Section 8 and Exhibit I and J. Contractor will track participating households before and after subscription data, and any revenue adjustments resulting from subscriptions to the Program. Contractor

will provide this information to the City Contract Manager as part of the Annual Reports submission described in Section 6.4.

ARTICLE 9.
INDEMNITY, INSURANCE, BOND

9.1 Hazardous Substance Indemnification

Contractor shall indemnify, defend with counsel acceptable to the City (provided that such acceptance by City shall not be unreasonably withheld), protect and hold harmless the City, its officers, employees, volunteers, and agents (collectively, indemnitees) from and against all claims, damages (including but not limited to special, consequential, natural resources and punitive damages), injuries, costs, (including without limit any and all response, remediation and removal costs), losses, demands, debts, liens, liabilities, causes of action, suits, legal or administrative proceedings, interest, fines, charges, penalties, and expenses (including without limit attorneys' expert witness fees and costs incurred in connection with defending against any of the foregoing or in enforcing this indemnity), (collectively, "Damages") of any kind whatsoever paid, incurred or suffered by, or asserted against, indemnitees arising from or attributable to the acts or omissions of Contractor whether or not negligent or otherwise culpable, in connection with or related to the performance of this Agreement, including without limit damages arising from or attributable to any operations, repair, cleanup or detoxification, or other plan (regardless of whether undertaken due to governmental action) concerning any Hazardous Substance or Hazardous Waste, Collected under this Agreement. Notwithstanding the foregoing, however, Contractor shall not be required to indemnify the City for the costs for any claims arising from the Disposal of Solid Waste at the Approved Disposal Site, including, but not limited to, claims arising under the Comprehensive Environmental Response, Comprehensive and Liability Act (CERCLA) unless such Approved Disposal Site is at a facility owned and operated by Contractor or such claim is a direct result of Contractor's negligent actions. This indemnity afforded indemnitees, shall only be limited to exclude coverage for intentional wrongful acts and negligence of indemnitees, and as provided below. In the event Disposal occurs at a Disposal Site owned by the Contractor, Contractor shall be required to indemnify the City for the costs for any claims arising from the Disposal of Solid Waste at the Disposal Site, including, but not limited to, claims arising under the Comprehensive Environmental Response, Comprehensive and Liability Act (CERCLA). The forgoing indemnity, as it relates to the Collection of Solid Waste and/or the Disposal of Solid Waste at Contractor's Disposal Site, is intended to operate as an Agreement pursuant to §107(e) of the Comprehensive Environmental Response, Compensation and Liability Act, CERCLA, 42 USC. §9607(e) and California Health and Safety Code §25364, to defend, protect, hold harmless, and indemnify City from liability.

This provision is in addition to all other provisions in this Agreement and is intended to survive the expiration or earlier termination of this Agreement. Nothing in this paragraph shall prevent City from seeking indemnification or contribution from Persons or entities other than indemnitees, for any liabilities incurred by City, or the indemnitees.

9.2 AB 939 Indemnification

In addition to all other relief provided Contractor and City under this Agreement, and except as provided under Public Resources Code Section 40059.1, Contractor agrees to defend, indemnify, and hold harmless, the City, its officers, employees, volunteers, and agents from and against all fines and/or penalties imposed by the Department of Resources Recycling and Recovery (CalRecycle) for operations during the Term of this Agreement in the event the source reduction and Recycling goals or any other requirement of the Act are not met by the Contractor with respect to the waste stream Collected by Contractor under this Agreement and such failure is due to the failure of Contractor to meet its obligations under this Agreement.

9.3 Propositions 218 and 26

Should there be a Change in Law or a new judicial interpretation of Applicable Law, including, but not limited to, Article XIII A, C and D of the California Constitution (Commonly Propositions 26 and 218), which impacts the City's ability to approve Rates for the Collection services provided under this Agreement, Contractor agrees to meet and confer with City Attorney to discuss the impact of such Change in Law on either Party's ability to perform under this Agreement.

The City shall not be in default of this Agreement, if it is determined by a court of competent jurisdiction, that it lacks the authority to approve Rates and/or increase Rates for charges related to providing service, pursuant to this Agreement. Should a court of competent jurisdiction determine that the City lacks authority to set and/ approve Rates for charges related to Agreement Fee, other City fees, governmental fees and charges then Contractor shall reduce the Rates it charges Customers a corresponding amount, providing said fees, Rates and/or charges disallowed by the court are not related to the cost of providing service hereunder and had been incorporated in the Rates charged by Contractor to its Customers.

Nothing herein is intended to imply that California Constitution, Articles XIIIA, XIIIC or XIIID, apply to the setting of Rates for the services provided under this Agreement; rather this Section is provided merely to allocate risk of loss as between the Parties.

The Proposition 26 and 218 indemnifications shall not extend to indemnification related to City fees described in Article 7 of the Agreement or any City fees established in accordance with Section 7.9.

9.4 Measure D Indemnification

Contractor shall indemnify, defend and hold harmless City, its officers, employees, agents and volunteers, from and against any revenues withheld by the Alameda County Source Reduction and Recycling Board in the event the source reduction and Recycling goals or any other requirement of the Measure are not met by the Contractor with respect to the Recycling/source reduction programs under this Agreement and such failure is due to the failure of Contractor to meet its obligations under this Agreement unless Contractor can demonstrate to the satisfaction of the City that such failure is beyond Contractor's ability to control or effect, or due to Contractor delays in providing information that prevents Contractor or City from submitting reports required by Measure D in a timely manner.

9.5 Insurance

9.5.1 Minimum Scope of Insurance

Coverage shall be at least as broad as:

A. Insurance Services Office form number GL 0002 covering Comprehensive General Liability and Insurance Services Office form number GL 0404 covering Broad Form Comprehensive General Liability; or Insurance Services Office Commercial General Liability coverage ("occurrence" form CG 0001).

B. Insurance Services Office form number CA 0001 covering Automobile Liability, code 1 "any auto" and endorsement CA 0025.

C. Workers' Compensation insurance as required by the Labor Code of the State of California and Employers Liability insurance.

D. Employee Blanket Fidelity Bond.

9.5.2 Minimum Limits of Insurance

Contractor shall maintain limits no less than:

A. Comprehensive General Liability: $10,000,000 combined single limit per occurrence for bodily injury, personal injury and property damage.

B. Automobile Liability: $10,000,000 combined single limit per accident for bodily injury and property damage.

C. Workers' Compensation and Employers Liability: Workers' compensation limits as required by the Labor Code of the State of California and Employers Liability limits of $1,000,000 per accident.

D. Employee Blanket Fidelity Bond in the amount of $500,000 per employee, covering dishonesty, forgery, alteration, theft, disappearance, destruction (inside or outside).

E. Environmental Impairment Liability: Ten Million Dollars ($10,000,000) covering liability arising from the release of pollution at the Approved Disposal Facility. The Environmental Impairment Liability policy shall contain the same endorsements as required for Comprehensive General Liability.

9.5.3 Deductibles and Self-Insured Retentions

Any deductibles or self-insured retentions must be declared to and approved by the City. At the option of the City Attorney, either: the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its officials and employees; or the Contractor shall procure a bond guaranteeing payment of losses and related investigations, claim administration and defense expenses.

9.5.4 Other Insurance Provisions

The policies are to contain, or be endorsed to contain, the following provisions:

A. **General Liability and Automobile Liability Coverages**

1. The City, its officials, employees and volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Contractor; products and completed operations of the Contractor; premises owned, leased or used by the Contractor; or automobiles owned, leased, hired or borrowed by the Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the City, its officials, employees or volunteers. The automobile liability is endorsed to contain MCA-90 coverage.

2. The Contractor's insurance coverage shall be primary insurance as respects the City, its officials, employees and volunteers. Any insurance or self-insurance maintained by the City, its officials, employees or volunteers shall be in excess of the Contractor's insurance and shall not contribute with it.

3. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the City, its officials, employees or volunteers.

4. Coverage shall state that the Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

B. **Workers' Compensation and Employers Liability Coverage**. The insurer shall agree to waive all rights of subrogation against the City, its officers, employees and volunteers for losses arising from work performed by the Contractor for the City.

C. **All Coverages**. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) calendar days prior written notice by certified mail, return receipt requested, has been given to the City's Risk Manager with a copy to both the City Contract Manager and the City Attorney.

9.5.5 Acceptability of Insurers

The insurance policies required by this Section shall be issued by an insurance company or companies authorized to do business in the State of California and with a rating in the most recent edition of Best's Insurance Reports of size category VII or larger and a rating classification of A or better.

9.5.6 Verification of Coverage

Contractor shall furnish Contractor's insurance agent a copy of these specifications, and direct the agent to provide the City's Risk Manager with a copy to both the City Contract Manager and City Attorney with certificates of insurance and with original endorsements affecting coverage required by this clause. Issuance of documentation indicates the Contractor's insurance complies with these provisions. The certificates and endorsements for each insurance policy are to be signed by a Person authorized by that insurer to bind coverage on its behalf. The certificates and endorsements are to be received and approved by the City Attorney before work commences. The City Attorney reserves the right to require complete, certified copies of all required insurance policies, at any time.

9.5.7 Required Endorsements

A. The Workers' Compensation policy shall contain an endorsement in substantially the following form:

"Thirty (30) calendar days' prior written notice shall be given to the City of Livermore in the event of cancellation, reduction in coverage, or non-renewal of this policy. Such notice shall be sent to:

Risk Manager

City of Livermore
Administration Building
1052 South Livermore Avenue
Livermore, CA 94550

B. The Commercial General Liability Business and Automobile Liability policies shall contain endorsements in substantially the following form:

1. "Thirty (30) calendar days' prior written notice shall be given to the City of Livermore in the event of cancellation, reduction in coverage, or non-renewal of this policy. Such notice shall be sent to:

Risk Manager
City of Livermore
Administration Building
1052 South Livermore Avenue
Livermore, CA 94550"

2. "The City of Livermore, its officers, employees, and agents are additional insureds on this policy." The City requires form CG2010 1185.

3. "This policy shall be considered primary insurance as respects any other valid and collectible insurance maintained by the City of Livermore, including any self-insured retention or program of self-insurance, and any other such insurance shall be considered excess insurance only."

4. "Inclusion of the City of Livermore as an insured shall not affect the City's rights as respects any claim, demand, suit or judgment brought or recovered against the Contractor. This policy shall protect Contractor and the City in the same manner as though a separate policy had been issued to each, but this shall not operate to increase the Contractor's liability as set forth in the policy beyond the amount shown or to which the Contractor would have been liable if only one party had been named as an insured."

9.5.8 Delivery of Proof of Coverage

Simultaneously with the execution of this Agreement, Contractor shall furnish the City's Risk Manager, with a copy to both the City Contract Manager and the City Attorney, certificates of each policy of insurance required hereunder, in form and substance satisfactory to City. Such certificates shall show the type and amount of coverage, effective dates and dates of expiration of policies and shall have all required endorsements. If the City's Risk Manager requests copies of each policy, together with all endorsements, shall also be promptly delivered to City's Risk Manager, with a copy to both the City Contract Manager and the City Attorney.

Renewal certificates will be furnished periodically to the City's Risk Manager with a copy to both the City Contract Manager and the City Attorney to demonstrate maintenance of the required coverages throughout the Term. Renewal certificates will be provided by using the following website: https://www.pinsadvantage.com/ or such other system that the City may use during the term of this Agreement.

9.5.9 Other Insurance Requirements

A. In the event any services are delegated to a Subcontractor, the Contractor shall require such Subcontractor to provide statutory workers' compensation insurance and employer's liability insurance for all of the Subcontractor's employees engaged in the work in accordance with Sections 9.5.2.C and 9.5.4.B. The liability insurance required by Section 9.5.2.A shall cover all Subcontractors or the Subcontractor must furnish evidence of insurance provided by it meeting all of the requirements of this Section 9.5.

B. The Contractor shall comply with all requirements of the insurers issuing policies. The carrying of insurance shall not relieve Contractor from any obligation under this Agreement. If any claim exceeding the amount of any deductibles or self-insured reserves is made by any third Person against the Contractor or any Subcontractor on account of any occurrence related to this Agreement, the Contractor shall promptly report the facts in writing to the insurance carrier and to the City's Risk Manager, with a copy to both the City Contract Manager and the City Attorney.

C. If Contractor fails to procure and maintain any insurance required by this Agreement, the City may take out and maintain, at the Contractor's expense, such insurance as it may deem proper and deduct the cost thereof from any monies due to the Contractor.

D. The Commercial General and Automobile Liability insurance required by Sections 9.5.2 and 9.5.4.A shall be written on an "occurrence", rather than a "claims made" basis, if such coverage is obtainable. If it is not obtainable, Contractor must arrange for a thirty-six (36) month "tail coverage" to protect the City from claims filed after the expiration or termination of this Agreement relating to incidents which occurred prior to such expiration or termination.

9.6 Performance Bond

Within five (5) Business Days of the City's notification to Contractor that the City has executed this Agreement, Contractor shall file with the City a bond, payable to the City, securing the Contractor's performance of its obligations under this Agreement and such bond shall be renewed annually if necessary so that the performance bond is maintained at all times during the Term. The principal sum of the bond shall be Three Million Dollars ($3,000,000) and shall be adjusted every three (3) years, commencing with Rate Period Three, to equal three (3) months of the annual Gross Revenue. The bond shall be executed as surety by a corporation authorized to issue surety bonds in the State of California that has a rating of A or better in the most recent edition of Best's Key Rating Guide, and that has a record of service and financial condition satisfactory to the City. The bond shall be in the form attached as Exhibit L.

ARTICLE 10.
CITY'S RIGHT TO PERFORM SERVICE

10.1 General

In the event that the Contractor, for any reason whatsoever, fails, refuses or is unable to Collect, Transport or Dispose of any or all Solid Waste and/or Collect, Transport and Process Recyclable Materials or Compostable Materials which it is required by this Agreement to Collect and Transport, at the time and in the manner provided in this Agreement, for a period of more than forty-eight (48) hours, and if, as a result thereof, Solid Waste, Recyclable Materials and/or Compostable Materials should accumulate in the City to such an extent, in such a manner, or for such a time that the City Contract Manager should find that such accumulation endangers or menaces the public health, safety or welfare, then the City shall have the right, but not the obligation, upon twenty-four (24) hour prior written notice to Contractor during the period of such emergency as determined by City Contract Manager, (1) to perform, or cause to be performed, such services itself with its own or other personnel without liability to Contractor; and/or (2) to take possession of any or all of Contractor's equipment and other property used or useful in the Collection, Transporting, Processing and Disposing of Solid Waste, Recyclable Materials or Compostable Materials, and to use such property to Collect, Transport, Process, and Dispose of any Solid Waste, Recyclable Materials, or Compostable Materials generated within the City which Contractor would otherwise be obligated to Collect, Transport, Process, and Dispose of pursuant to this Agreement.

Notice of the Contractor's failure, refusal, or neglect to Collect, Transport, Process, and Dispose of Solid Waste, Recyclable Materials, or Compostable Materials may be given verbally by telephone to the Contractor at its principal office and shall be effective immediately. Written confirmation of such verbal notification shall be sent to Contractor within twenty-four (24) hours of the verbal notification.

Contractor further agrees that in such event:

A. It will fully cooperate with City to affect the transfer of possession of property to the City for City's use.

B. It will, if City Contract Manager so requests, keep in good repair and condition all property that the City has taken possession, provide all motor vehicles with fuel, oil and other service, and provide such other services as may be necessary to maintain said property in operational condition.

C. Subject to provisions of any labor agreements then in effect, City may immediately engage all or any personnel necessary or useful for the Collecting, Transporting, Processing, and Disposing of Solid Waste, Recyclable Materials, or Compostable Materials including, if City so desires, employees previously or then employed by Contractor, Contractor further agrees, if City so requests, to furnish City the services of any or all management or office personnel employed by Contractor whose services are necessary or useful for Solid Waste, Recyclable Materials, or Compostable Materials Collection, Transportation, Processing, and Disposal operations and for the Billing and collection of fees for these services.

The City agrees that it assumes complete responsibility for the proper and normal use of such equipment and facilities while in its possession.

If the interruption or discontinuance in service is caused by any of the reasons listed in Section 11.7, the City shall pay to Contractor the reasonable rental value of the equipment and facilities, possession of which is taken by the City, for the period of the City's possession, if any, which extends beyond the period of time for which Contractor has rendered bills in advance of service, for the class of service involved.

Except as otherwise expressly provided in the previous paragraph, the City's exercise of its rights under this Article: (1) does not constitute a taking of private property for which compensation must be paid; (2) will not create any liability on the part of City to Contractor; and (3) does not exempt Contractor from the indemnity provisions of Article 9, which are meant to extend to circumstances arising under this Section, provided that Contractor is not required to indemnify City against claims and damages arising from the sole negligence of City officers, employees and agents in the operation of Collection vehicles during the time the City has taken possession of such vehicles.

10.2 Duration of City's Possession

City has no obligation to maintain possession of Contractor's property and/or continue its use in Collecting, Transporting, Processing, and Disposing Solid Waste, Recyclable Materials, or Compostable Materials for any period of time and may, at any time, in its sole discretion, relinquish possession to the Contractor.

The City's right to retain temporary possession of Contractor's property, and to provide Solid Waste, Recyclable Materials, or Compostable Materials Collection services, shall continue until Contractor can demonstrate to the City's satisfaction that it is ready, willing and able to resume such services or for one hundred eighty (180) calendar days, whichever occurs first.

10.3 Condemnation

The City fully reserves the rights to acquire the Contractor's property utilized in the performance of this Agreement, by purchase or through the exercise of the right of eminent domain.

ARTICLE 11.
DEFAULT AND REMEDIES

11.1 Events of Default

All provisions of the Agreement are considered material. Each of the following shall constitute an event of default.

A. **Fraud or Deceit**. Contractor practices, or attempts to practice, any fraud or deceit upon the City.

B. **Insolvency or Bankruptcy**. Contractor becomes insolvent, unable, or unwilling to pay its debts, or upon listing of an order for relief in favor of Contractor in a bankruptcy proceeding.

C. **Failure to Maintain Coverage**. Contractor fails to provide or maintain in full force and effect the Workers' Compensation, liability, or indemnification coverage as required by this Agreement.

D. **Violations of Regulation**. Contractor violates any orders or filings of any regulatory body having authority over Contractor relative to this Agreement, provided that Contractor may contest any such orders or filings by appropriate proceedings conducted in good faith, in which case no breach or default of this Agreement shall be deemed to have occurred.

E. **Violations of Applicable Law**. Contractor violates Applicable Law relative to this Agreement.

F. **Failure to Perform Collection, Transportation, Processing, or Composting Services**. Contractor ceases to provide Collection, Transportation, Processing, or Composting services as required under this Agreement for a period of two (2) consecutive calendar days or more, for any reason within the control of Contractor.

G. **Failure to Pay or Report**. Contractor fails to make any payments to City required under this Agreement including payment of City fees or Liquidated Damages and/or refuses to provide City Contract Manager with required information, reports, and/or records in a timely manner as provided for in the Agreement.

H. **Acts or Omissions**. Any other act or omission by Contractor which violates the terms, conditions, or requirements of this Agreement, the Act, as it may be amended from time to time, or any law, statute, ordinance, order, directive, rule, or regulation issued there under and which is not corrected or remedied within the time set in the written notice of the violation or, if Contractor cannot reasonably correct or remedy the breach within the time set forth in such notice, if Contractor should fail to commence to correct or remedy such violation within the time set forth in such notice and diligently effect such correction or remedy thereafter.

I. **False, Misleading, or Inaccurate Statements**. Any representation or disclosure made to the City by Contractor in connection with or as an inducement to entering into this Agreement, or any future amendment to this Agreement, which proves to be false or misleading in any material respect as of the time such representation or disclosure is made, whether or not any such representation or disclosure appears as part of this Agreement; and, any Contractor-provided report containing a misstatement, misrepresentation, data manipulation, or an omission of fact or content explicitly defined by the Agreement, excepting non-numerical typographical and grammatical errors.

J. **Seizure or Attachment**. There is a seizure of, attachment of, or levy on, some or all of Contractor's operating equipment, including without limits its equipment, maintenance or office facilities, or any part thereof.

K. **Suspension or Termination of Service**. There is any termination or suspension of the transaction of business by Contractor related to this Agreement, including without limit, due to labor unrest including strike, work stoppage or slowdown, sick-out, picketing, or other concerted job action lasting more than two (2) calendar days.

L. **Criminal Activity**. Contractor, its officers, managers, or employees are found guilty of criminal activity of a type described in Section 12.16 below related directly or indirectly to performance of this Agreement or any other Agreement held with the City.

M. **Assignment without Approval**. Contractor transfers or assigns this Agreement without the express written approval of the City unless the assignment is permitted without City approval pursuant to Section 12.5.

N. **Failure to Provide Proposal or Implement Change in Service**. Contractor fails to provide a proposal for new services or changes to services or fails to implement a change in service as requested by the City as specified in Section 4.3.

O. **Failure to Perform Any Obligation**. Contractor fails to perform any obligation established under this Agreement.

City shall provide Contractor written notice of default within twenty-four (24) hours of the occurrence of default or within twenty-four (24) hours of the City's first knowledge of the Contractor's default, whichever occurs first.

11.2 Contractor Rights to Remedy Default

Contractor shall be given ten (10) calendar days from written notification by City to cure any default which, in the City's sole opinion, creates a potential public health and safety threat.

Contractor shall be given ten (10) calendar days from written notification by City Contract Manager to cure any default arising under subsections C, E, F, I, J and K in Section 11.1 provided, however, that the City shall not be obligated to provide Contractor with a notice and cure opportunity if the Contractor has committed the same or similar breach/default within a twenty-four (24) month period.

Contractor shall be given thirty (30) calendar days from written notification by City Contract Manager to cure any other default (which is not required to be cured within ten (10) calendar days); however, that the City shall not be obligated to provide Contractor with a notice and cure opportunity if the Contractor has committed the same or similar breach/default within a twenty-four (24) month period.

11.3 City's Remedies in the Event of Default

Upon Contractor's default, City has the following remedies in the event of Contractor default:

A. **Termination.** In the event that Contractor should default and subject to the right of the Contractor to cure, in the performance of any provisions of this contract, and the default is not cured for any default within in ten (10) calendar days if the default creates a potential public health and safety threat or arises under Section 11.1 C, E, F, I, J, or K, or otherwise thirty (30) calendar days after receipt of written notice of default from the City, then the City may, at its option, terminate this Agreement and/or hold a hearing at its next City Council meeting to determine whether this Agreement should be terminated. In the event City decides to terminate this Agreement, the City Contract Manager shall serve twenty (20) calendar days' written notice of its intention to terminate upon Contractor. In the event City exercises its right to terminate this Agreement, the City may, at its option, upon such termination, either directly undertake performance of the services or arrange with other Persons to perform the services with or without a written agreement. This right of termination is in addition to any other rights of City upon a failure of Contractor to perform its obligations under this Agreement.

Upon termination, the City shall have the right to use equipment and Facilities pursuant to Section 11.4.

Contractor shall not be entitled to any further revenues from Collection operations authorized hereunder from and after the effective date of termination.

B. **Suspension of Contractor's Obligation**. City may suspend Contractor's performance of its obligations if Contractor fails to cure default in the time frame specified in Section 11.2 until such time the Contractor can provide assurance of performance in accordance with Section 11.8. During the period of suspension, City shall have the right to use equipment and Facilities pursuant to Section 11.4.

C. **Waiver of Default**. City may waive any event of default or may waive Contractor's requirement to cure a default event if City determines that such waiver would be in the best interest of the City. City's waive of an event of default is not a waiver of future events of default that may have the same or similar conditions.

D. **Liquidated Damages**. City Contract Manager may assess Liquidated Damages for Contractor's failure to meet specific performance standards pursuant to Section 11.6 and Exhibit F.

E. **Other Available Remedies**. City's election of one or remedies described herein shall not limit the City from any and all other remedies at law and in equity including injunctive relief, etc.

11.4 Possession of Property upon Termination or Suspension

In the event of termination or suspension for default, the City shall have the right to take possession of any and all of Contractor's equipment and other property used or useful in the Collection, Transportation, Processing, and Disposal of Solid Waste, Recyclable Materials or Compostable Materials and the Billing and collection of fees for these services and to use such property. The City shall have the right to retain the possession of such property in accordance with Article 10. If the City retains possession thereof after the period of time for which Contractor has already been paid by means of bills issued in advance of providing service for the class of service involved, the Contractor shall be entitled to the reasonable rental value of such property (which shall be offset against any damages due the City for the Contractor's default).

Contractor shall furnish the City with immediate access to all of its business records related to its Customers and Billing of accounts for Collection services.

11.5 City's Remedies Cumulative; Specific Performance

The City's right to terminate the Agreement under Section 11.3 and to take possession of the Contractor's properties under Section 11.4 are not exclusive, and the City's termination of the Agreement shall not constitute an election of remedies. Instead, they shall be in addition to any and all other legal and equitable rights and remedies which the City may have.

By virtue of the nature of this Agreement, the urgency of timely, continuous and high quality service, the lead time required to effect alternative service, and the rights granted by City to the Contractor, the

remedy of damages for a breach hereof by Contractor is inadequate and City shall be entitled to injunctive relief.

11.6 Liquidated Damages

11.6.1 General

The Parties agree that as of the time of the execution of this Agreement, it is impractical, if not impossible, to reasonably ascertain the extent of damages which shall be incurred by City as a result of a breach by Contractor of its obligations under this Agreement. The factors relating to the impracticability of ascertaining damages include, but are not limited to, the fact that: (i) substantial damage results to members of the public who are denied services or denied quality or reliable service; (ii) such breaches cause inconvenience, anxiety, frustration, and deprivation of the benefits of the Agreement to individual members of the general public for whose benefit this Agreement exists, in subjective ways and in varying degrees of intensity which are incapable of measurement in precise monetary terms; (iii) that exclusive services might be available at substantially lower costs than alternative services and the monetary loss resulting from denial of services or denial of quality or reliable services is impossible to calculate in precise monetary terms; and, (iv) the termination of this Agreement for such breaches, and other remedies are, at best, a means of future correction and not remedies which make the public whole for past breaches.

11.6.2 Service Performance Standards; Liquidated Damages for Failure to Meet Standards

The Parties further acknowledge that consistent, reliable Solid Waste, Recyclable Materials, and Compostable Materials Collection service is of utmost importance to City and that City has considered and relied on Contractor's representations as to its quality of service commitment in awarding the Agreement to it. The Parties further recognize that some quantified standards of performance are necessary and appropriate to ensure consistent and reliable service and performance. The Parties further recognize that if Contractor fails to achieve the performance standards, or fails to submit required documents in a timely manner, City and its residents and businesses will suffer damages and that it is and will be impractical and extremely difficult to ascertain and determine the exact amount of damages which City will suffer. Therefore, without prejudice to City's right to treat such non-performance as an event of default under this Section 11.6.2, the Parties agree that the following Liquidated Damage amounts represent a reasonable estimate of the amount of such damages considering all of the circumstances existing on the date of this Agreement, including the relationship of the sums to the range of harm to City that reasonably could be anticipated and the anticipation that proof of actual damages would be costly or impractical.

Contractor agrees to pay (as Liquidated Damages and not as a penalty) the amounts set forth in the Schedule of Performance Adjustments, Exhibit F.

City may determine the occurrence of events giving rise to Liquidated Damages through the observation of its own employees or representative or investigation of Customer Complaints.

Liquidated Damages will only be assessed after Contractor has been given the opportunity but failed to rectify the damages as described in this Agreement. Prior to assessing Liquidated Damages, City Contract Manager shall give Contractor notice of its intention to do so. The notice will include a brief description of the incident(s)/non-performance. City Contract Manager may review (and make copies at its own expense) all information in the possession of Contractor relating to incident(s)/non-performance. City

Contract Manager may, within ten (10) calendar days after issuing the notice, request a meeting with Contractor. City Contract Manager may present evidence of non-performance in writing and through testimony of its employees and others relevant to the incident(s)/non-performance. City Contract Manager will provide Contractor with a written explanation of its determination on each incident(s)/non-performance prior to authorizing the assessment of Liquidated Damages. Within ten (10) calendar days of receipt of such notice of intention to assess Liquidated Damages, or within twenty (20) calendar days if the intended assessment totals over fifty thousand dollars ($50,000), Contractor may notify City Contract Manager of its objection to the imposition of Liquidated Damages and its desire to present potentially exculpatory information. Upon such notice, the City Contract Manager and the Contractor's representative shall each be afforded an opportunity to present information to the City Manager. The City Manager shall consider the information presented and notify Contractor in writing of their finding regarding the alleged performance deficiency. The City Manager's decision shall be final, and Contractor shall not have any further administrative remedies.

11.6.3 Amount

City Contract Manager may assess Liquidated Damages for each calendar day or event, as appropriate, that Contractor is determined to be liable in accordance with this Agreement in the amounts specified in Exhibit F. In the event the amount of Liquidated Damages for any three (3) month period exceeds the thresholds established in Section 5.18.1, the City shall have the right to request replacement of the Contractor's general manager as described in Section 5.18.1.

11.6.4 Timing of Payment

Contractor shall pay any Liquidated Damages assessed by City within ten (10) calendar days after they are assessed. If they are not paid within the ten (10) day period, City may proceed against the performance bond required by the Agreement, request replacement of Contractor's general manager, order the termination of the rights or "franchise" granted by this Agreement, or all of the above.

11.7 Excuse from Performance

The Parties shall be excused from performing their respective obligations hereunder in the event they are prevented from so performing by reason of floods, earthquakes, other "acts of nature", war, civil insurrection, riots, acts of any government (including judicial action), and other similar catastrophic events which are beyond the control of and not the fault of the Party claiming excuse from performance hereunder. Labor unrest, including but not limited to strike, work stoppage or slowdown, sick-out, picketing, or other concerted job action conducted by Contractor's employees or directed at Contractor is not an excuse from performance and Contractor shall be obligated to continue to provide service notwithstanding the occurrence of any or all of such events. In the case of labor unrest or job action directed at a third party over whom Contractor has no control, the inability of Contractor to provide Solid Waste, Recyclable Materials, or Compostable Materials Collection services due to the unwillingness or failure of the third party to provide reasonable assurance of the safety of Contractor's employees while providing Solid Waste, Recyclable Materials, or Compostable Materials Collection services or to make reasonable accommodations with respect to Container placement and point of Delivery, time of Collection or other operating circumstances to minimize any confrontation with pickets or the number of Persons necessary to make Collections shall, to that limited extent, excuse performance and provided further that the foregoing excuse shall be conditioned on Contractor's cooperation in making Collection at different times and in different locations.

The Party claiming excuse from performance shall, within two (2) calendar days after such Party has notice of such cause, give the other Party notice of the facts constituting such cause and asserting its claim to excuse under this Section.

In the event that either Party validly exercises its rights under this Section, the Parties hereby waive any claim against each other for any damages sustained thereby.

The partial or complete interruption or discontinuance of Contractor's services caused by one or more of the events described in this Article shall not constitute a default by Contractor under this Agreement. Notwithstanding the foregoing, however, (1) the existence of an excuse from performance will not affect the City's rights under Article 10; and (2) if Contractor is excused from performing its obligations hereunder for any of the causes listed in this Section for a period of thirty (30) calendar days or more, other than as the result of third party labor disputes where service cannot be provided for reasons described earlier in this Section, the City shall nevertheless have the right, in its sole discretion, to terminate this Agreement by giving ten (10) calendar days' notice, in which case the provisions of Section 11.3 shall apply.

11.8 Right to Demand Assurances of Performance

If Contractor (1) is the subject of any labor unrest including work stoppage or slowdown, sick-out, picketing or other concerted job action; (2) appears in the reasonable judgment of City to be unable to regularly pay its bills as they become due; or (3) is the subject of a civil or criminal judgment or order entered by a federal, State, regional or local agency for violation of an environmental law, and the City Contract Manager believes in good faith that Contractor's ability to perform under the Agreement has thereby been placed in substantial jeopardy, the City may, at its option and in addition to all other remedies it may have, demand from Contractor reasonable assurances of timely and proper performance of this Agreement, in such form and substance as the City Contract Manager believes in good faith is reasonably necessary in the circumstances to evidence continued ability to perform under the Agreement. If Contractor fails or refuses to provide satisfactory assurances of timely and proper performance in the form and by the date required by City, such failure or refusal shall be an event of default for purposes of Section 11.1.

ARTICLE 12.
OTHER AGREEMENTS OF THE PARTIES

12.1 Relationship of Parties

The Parties intend that Contractor shall perform the services required by this Agreement as an independent Contractor engaged by City and not as an officer or employee of the City nor as a partner of or joint venture with the City. No employee or agent of Contractor shall be or shall be deemed to be an employee or agent of the City. Except as expressly provided herein, Contractor shall have the exclusive control over the manner and means of conducting the Solid Waste, Recyclable Materials, and Compostable Materials Collection, Transportation, Processing and Disposal services performed under this Agreement, and all Persons performing such services. Contractor shall be solely responsible for the acts

and omissions of its officers, employees, Subcontractors and agents. Neither Contractor nor its officers, employees, Subcontractors and agents shall obtain any rights to retirement benefits, workers' compensation benefits, or any other benefits which accrue to City employees by virtue of their employment with the City.

12.2 Compliance with Law

In providing the services required under this Agreement, Contractor shall at all times, at its sole cost, comply with all Applicable Laws, permits and licenses of the United States, the State of California and the City and with all applicable regulations promulgated by federal, State, regional or local administrative and regulatory agencies, now in force and as they may be enacted, issued or amended during the Term.

12.3 Governing Law

This Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of California.

12.4 Jurisdiction

Any lawsuits between the Parties arising out of this Agreement shall be brought and concluded in the courts of Alameda County in the State of California, which shall have exclusive jurisdiction over such lawsuits.

With respect to venue, the Parties agree that this Agreement is made in and will be performed in Alameda County.

12.5 Assignment

Neither Party shall assign its rights nor delegate or otherwise transfer its obligations under this Agreement to any other Person without the prior written consent of the other Party. Any such assignment made without the consent of the other Party shall be void and the attempted assignment shall constitute a material breach of this Agreement.

For purposes of this Section, the term "assignment" shall be given the broadest possible interpretation, and shall include, but not be limited to: (i) a sale, exchange or other transfer of substantially all of Contractor's local, regional, and/or corporate assets dedicated to service under this Agreement to a third party; (ii) a sale, exchange or other transfer of outstanding common stock of Contractor to a third party provided said sale, exchange or the transfer of outstanding common stock of Contractor (defined as a change in ownership of more than ten (10) percent of the outstanding common stock from the ownership at the time the Agreement was entered); (iii) any dissolution, reorganization, consolidation, merger, re-capitalization, stock issuance or re-issuance, voting trust, pooling agreement, escrow arrangement, liquidation or other transaction which results in a Change of Control; (iv) divestiture of an Affiliate (e.g., trucking company, materials recovery facility, Transfer Station, etc.,) used by Contractor to fulfill its

obligations under this Agreement, unless Contractor provides City a contract with such Affiliate for such services on the same terms and conditions the City received prior to the divestiture, and otherwise acceptable to the City, with the new ownership of such an Affiliate; (v) any assignment by operation of law, including those resulting from mergers or acquisitions by or of Contractor, insolvency or bankruptcy, making assignment for the benefit of creditors, writ of attachment for an execution being levied against this Agreement, appointment of a receiver taking possession of Contractor's property, or transfer occurring in the event of a probate proceeding; and (v) any combination of the foregoing (whether or not in related or contemporaneous transactions) which results in a Change of Control.

Notwithstanding the foregoing, transfers of outstanding shares of Contractor's common stock to existing shareholders, family members or family trusts will not be counted in determining a Change of Control and will not constitute an assignment for purposes of this Section 12.5, unless such transfer results in a change in the existing concentration of ownership between the Arata Group (20%), the Pellegrini Group (40%), and the Scavenger Group (40%).

Contractor acknowledges that this Agreement involves rendering a vital service to City's residents and businesses, and that City has selected Contractor to perform the services specified herein based on: (i) Contractor's experience, skill, and reputation for conducting its Recyclable Materials, Organic Materials, and Solid Waste management operations in a safe, effective, and responsible fashion, at all times in keeping with Applicable Law, , regulations, and best Solid Waste and Diversion management and business practices; and, (ii) Contractor's financial resources on a local, regional, and/or corporate level to maintain the required equipment and to support its indemnity obligations to City under this Agreement. City has relied on each of these factors, among others, in choosing Contractor to perform the services to be rendered by Contractor under this Agreement.

12.5.1 Requirements of the Contractor

Contractor shall not enter into negotiations to assign its rights, or delegate, subcontract or otherwise transfer any of Contractor's obligations under this Agreement (collectively referred to as an "assignment") to any other Person for a period of three (3) years from the Commencement Date of this Agreement.

After such three (3) year period Contractor shall not assign its rights, nor delegate, subcontract or otherwise transfer any of Contractor's obligations under this Agreement to any other Person without the prior written consent of the City Council. Any such assignment made without the consent of the City Council shall be void and the attempted assignment shall constitute a material breach of this Agreement.

If Contractor requests City Council's consideration of and consent to an assignment, City Council may deny or approve such request in its sole discretion. Any request for an assignment shall be made in a manner to be prescribed by the City Contract Manager or their designee, and no request by Contractor for consent to an assignment need be considered by City unless and until Contractor has met (or with respect to matters that would only occur upon completion of the assignment if approved, made reasonable assurances that it will meet) the following requirements. The City may, in its sole discretion waive one (1) or more of these requirements.

A. Contractor shall pay City its reasonable expenses for attorney's fees and investigation costs necessary to investigate the suitability of any proposed assignee, and to review and finalize any documentation required as a condition for approving any such assignment. An advance payment of one hundred thousand dollars ($100,000) towards expenses shall be paid to City prior to City consideration of any assignment request and Contractor shall be responsible for paying all costs incurred by City in

considering a request for assignment, including those in excess of the aforesaid deposit amount, regardless of whether City consents to the assignment.

B. Contractor shall pay the City a transfer assignment right fee equal to 1% of Gross Revenues for the most recently completed fiscal year. This payment shall be upon final closing of the assignment but if paid and the assignment shall not be completed, it shall be refunded to the Contractor. If there shall be an escrow-type arrangement with an escrow agent, financial institution or other third party in connection with the assignment and the documentation thereof and payment of the purchase price to Contractor in consideration of the assignment by the assignee, then a payment of this amount by Contractor to the escrow agent or institution who is instructed to pay it over to the City upon closing of the assignment, then such payment shall be considered as compliant with this subsection.

C. Contractor shall furnish City with audited financial statements of the proposed assignee's operations for the immediately preceding three (3) operating years.

D. Contractor shall furnish City with proof satisfactory to City: (i) that the proposed assignee has at least ten (10) years of Solid Waste, Recyclable Materials, and Organic Materials management experience on a scale equal to or exceeding the scale of operations conducted by Contractor under this Agreement; (ii) that in the last five (5) years, the proposed assignee has not suffered any significant citations or other censure from any federal, State or local agency having jurisdiction over its Solid Waste, Recyclable Materials, and Organic Materials management operations due to any significant failure to comply with State, federal or local Applicable Law and that the assignee has provided City with a complete list of all citations and censures; (iii) that the proposed assignee has at all times conducted its operations in an environmentally safe and conscientious fashion; (iv) that the proposed assignee conducts its Solid Waste, Recyclable Materials, and Organic Materials management practices in accordance with sound management practices in full compliance with all federal, State and local laws regulating the handling of Solid Waste, Recyclable Materials, and Organic Materials including Hazardous Substances, and (v) that the proposed assignee's financial resources are sufficient to ensure its ability to meet all of Contractor's obligations under this Agreement in a timely and effective manner.

E. Contractor shall provide the City with any and all additional information, records, and/or documentation which, in the City Contract Manager's sole determination, would facilitate the review of the proposed assignment.

Under no circumstances shall City be obliged to consider any proposed assignment if Contractor is in default at any time during the period of consideration. If, in the City Contract Manager 's sole discretion, there is any doubt regarding the compliance of the Contractor with the Agreement, City may require an audit of the Contractor's compliance and the costs of such audit shall be paid by Contractor , in advance of the performance of said audit.

Should City consent to any assignment request, such assignment shall not take effect until all conditions relating to City's approval have been met.

12.5.2 Requirements of the Proposed Assignee

In approving an assignment, City may require that the proposed assignee agree to one or more of the following:

A. Reasonable increases in the insurance limits, or modifications in the insurance requirements contained in Section 9.5.

B. In the event of a City approved assignment of this Agreement to any corporation, limited liability company, and every similar corporate entity that is controlled by another such corporate entity through ownership of a majority of the equity interests in the assignee, then that controlling entity of the assignee shall provide a guarantee that unconditionally and absolutely guarantees the performance of the Contractor's obligations hereunder and shall be in a form reasonably acceptable to the City Attorney.

The form of guaranty shall be provided concurrently with the request for City approval of the assignment of the Agreement and no assignment to the proposed assignee shall be effective until the controlling entity executes the guaranty. This paragraph shall not be construed so as to require a guaranty from human Persons controlling an assignee or controlling entity thereof.

C. Posting of a performance bond in an amount similar to such required by other Cities for similar facilities and/or provision of financial assurance in a form other than a performance bond, such as a letter of credit or certificate of deposit.

D. Application of Liquidated Damages as set forth in Section 11.6 and Exhibit E including the provision of the initials as required in Exhibit E.

12.6 Subcontracting

Contractor shall not engage any third parties for Collection, Transportation, Processing or Disposal of Solid Waste, Recyclable Materials, or Compostable Materials without the prior written consent of the City. As of the Effective Date of this Agreement, the City has approved Contractor's use of the following third parties: (1) Grover Landscape Services, Inc. for Composting; and (2) Alameda County Industries, LLC for Recyclables Processing; (3) a subcontractor for Recycling and Composting technical assistance; and (4) Clean Energy for compressed natural gas (CNG) fueling station development and fuel services.

12.7 Binding on Successors

The provisions of this Agreement shall inure to the benefit to and be binding on the successors and permitted assigns of the Parties.

12.8 Transition to Next Contractor

Prior to expiration or earlier termination of this Agreement, Contractor will take direction from City Contract Manager and subsequent Contractor(s) to assist in an orderly transition of services from Contractor to subsequent contractor. Such cooperation will include, but not be limited to, Contractor providing route lists and detailed Customer account and Billing information. Contractor will not be obliged to sell Collection vehicles, equipment or facilities to the next Contractor; however, the City has rights to ownership of Containers pursuant to Section 5.16.4. Depending on Contractor's circumstances at the

point of transition, the Contractor at its option may enter into negotiations with the next Contractor to sell (in part or all) Collection vehicles, and other equipment or facilities.

In connection therewith, Contractor acknowledges that the provisions of Public Resources Code Sections 49520-49523 have no application to this Agreement and agrees, to the extent such sections may have application, to waive whatever rights they may afford.

12.9 Parties in Interest

Nothing in this Agreement, whether express or implied, is intended to confer any rights on any Persons other than the Parties to it and their representatives, successors and permitted assigns.

12.10 Waiver

The waiver by either Party of any breach or violation of any provisions of this Agreement shall not be deemed to be a waiver of any breach or violation of any other provision nor of any subsequent breach of violation of the same or any other provision. The subsequent acceptance by either Party of any monies which become due hereunder shall not be deemed to be a waiver of any pre-existing or concurrent breach or violation by the other Party of any provision of this Agreement.

12.11 Contractor's Investigation

The Contractor has made an independent investigation (satisfactory to it) of the conditions and circumstances surrounding the Agreement and the work to be performed by it.

12.12 Notice

All notices, demands, requests, proposals, approvals, consents and other communications which this Agreement requires, authorizes or contemplates, except as provided in Section 10.1, shall be in writing and shall either be personally delivered to a representative of the Parties at the address below or deposited in the United States mail, first class postage prepaid, addressed as follows:

If to City:

City Manager
City of Livermore
Administration Building
1052 South Livermore Avenue
Livermore, CA 94550

With copies to:

City Attorney
City of Livermore
Administration Building

1052 South Livermore Avenue
Livermore, CA 94550

and,

Public Works Manager
City of Livermore
3500 Robertson Park Road
Livermore, CA 94550

If to Contractor:

Livermore Sanitation, Inc.
7000 National Drive
Livermore, CA 94550
Attn: Louis Pellegrini, President

The address to which communications may be delivered may be changed from time to time by a notice given in accordance with this Section.

Notice shall be deemed given on the day it is personally delivered or, if mailed, three (3) calendar days from the date it is deposited in the mail.

To expedite communication, notices less than ten (10) megabytes may be sent by email with receipt confirmation provided followed in writing delivered to a representative of the Parties at the address above or deposited in the United States mail, first class postage prepaid.

12.13 Representatives of the Parties

References in this Agreement to the "City" shall mean the City of Livermore as defined in Section 1.26 in cases where no action is required. In cases were action is required related to adjustment of Contractor's Compensation, amendment, extension or termination of the Agreement, and approving Rates, "City" shall mean the City Council. In all other cases where action is required, "City" shall mean "City Contract Manager" as defined in Section 1.27 and further described in Section 6.8. The Contractor may rely upon actions taken by such delegates if they are within the scope of the authority properly delegated to them.

The Contractor shall, by the Effective Date, designate in writing a responsible officer who shall serve as the representative of the Contractor in all matters related to the Agreement and shall inform the City in writing of such designation and of any limitations upon his or her authority to bind the Contractor. The City may rely upon action taken by such designated representative as actions of the Contractor unless they are outside the scope of the authority delegated to him/her by the Contractor as communicated to City.

12.14 City Free to Negotiate with Third Parties

The City may investigate all options for the Collection, Transportation, Processing and Disposal of Solid Waste, Recyclable Materials and Compostable Materials after the expiration of the Term or earlier termination of this Agreement. Without limiting the generality of the foregoing, the City may solicit proposals from Contractor and from third parties for the provision of Collection services, Disposal services, Recycling services, Compostable Materials Collection and Composting, and any combination thereof, and may negotiate and execute agreements for such services which will take effect upon the expiration or earlier termination under Section 11.3 of this Agreement.

12.15 Statements and Supplemental Information

The Contractor's Proposal (Exhibits M and G1) and any other information submitted to the City supplementary thereto, on which the City has relied in awarding this Agreement to Contractor and entering into this Agreement, does not contain any untrue statement of a material fact nor omit to state a material fact necessary in order to make the statements made, in light of the circumstances in which they were made, not misleading.

12.16 Criminal Activity of Contractor

12.16.1 Definitions

A. **Contractor Party.** For the purposes of this Section, Contractor Party(ies) shall mean Contractor, its officers, directors, or management or fiscal employees where "management employee" means any employee with direct or indirect responsibility for direction and control over the Contractor's activities and "fiscal" employee means an employee with direct or indirect responsibility and control duties relating to financial matters.

B. **Criminal Activity.** For purpose of this Section, Criminal Activity shall mean any of the following events or circumstances:

1. **Convictions.** The entry against any Contractor Party of a criminal conviction or a permanent mandatory or prohibitory injunction from a court, municipality or regulatory agency of competent jurisdiction based on acts taken in his, her or its official capacity on behalf of Contractor with respect to:

   a. Fraud or criminal offense in connection with obtaining, attempting to obtain, procuring or performing a public or private agreement related to municipal Solid Waste services of any kind (including Collection, hauling, Transfer, Processing, Composting or Disposal), including this Agreement or any amendment thereto; or
   b. Bribery or attempting to bribe a public officer or employee of a local, State, or federal agency; or
   c. Embezzlement, extortion, racketeering, false claims, false statements, forgery, falsification or destruction of records, obstruction of justice, knowingly receiving stolen property, theft, or misprision (failure to disclose) of a felony; or

d. Unlawful Disposal of Hazardous Waste or Designated Waste the occurrence of which any of Contractor Party knew or should have known; or

e. Violation of antitrust laws, including laws relating to price-fixing, bid-rigging and sales and market allocation, and of unfair and anti-competitive trade practices laws, including with respect to inflation of Solid Waste Collection, Transportation, Processing fees, or Disposal Fees; or

f. Criminal violation of securities laws; or

g. Felonies.

2. **Pleas.** Entry of a plea of "guilty," "nolo contendere" or "no contest" by a Contracting Party based on acts taken in his, her or its official capacity on behalf of Contractor with respect to the conduct described in preceding subdivision (1) of this Section.

12.16.2 Notice

Contractor shall notify City Contract Manager in writing within five (5) calendar days of occurrence of any Criminal Activity.

12.16.3 Contractor's Cure

Upon occurrence of any Criminal Activity, Contractor shall immediately do or cause to be done all of the following:

A. Terminate from employment or remove from office any offending individual Contractor Party, unless otherwise directed or ordered by a court or regulatory agency of competent jurisdiction or authority, and unless that termination would constitute a breach of any labor agreement entered into by Contractor; and,

B. Eliminate participation by any individual offending Contractor Party in any management, supervision, or decision activity that affects or could affect, directly or indirectly, the performance of the Contractor under this Agreement.

12.16.4 Transfer and Hiring

Contractor shall not allow or cause to be allowed the hire or transfer of any individual Contractor Party from any parent or subsidiary company or business entity of Contractor who has committed Criminal Activity for a position as a Contractor representative, field supervisor, officer or director who is directly or indirectly responsible for performance of this Agreement without obtaining prior written consent of City, following full disclosure to City of the facts and circumstances surrounding such Criminal Activity.

12.16.5 City's Remedy

In the event of Criminal Activity, City, in its sole discretion, may terminate the Agreement upon thirty (30) calendar days written notice to Contractor, or may impose other sanctions (which may include financial sanctions, temporary suspensions or any other condition deemed appropriate short of termination) as it will deem proper, in the following events:

A. Contractor fails to comply with material obligation set forth in Articles 5, 6, 7, 9 or 12 of this Agreement, subject to any cure provisions stated herein, or

B. The Criminal Activity concerns or relates directly or indirectly to this Agreement.

Contractor shall be given the opportunity to present evidence in mitigation during the thirty (30) day notice period.

12.17 Material Change Notification Process

Contractor recognizes that material changes in the number and type of Customers, the amount of Gross Rate Revenue collected from Customers, Change in Law, and other factors may impact financial results and expectations of or related to the Agreement. Therefore, the Contractor recognizes that it has an obligation to provide timely notices to the City Contract Manager of such changes and agrees to exercise diligence in monitoring conditions and to notify the City Contract Manager of any such changes or potential changes as soon as Contractor is aware of such.

In addition, Contractor shall provide to City Contract Manager monthly reports tracking revenue billed and actual Gross Rate Revenue received as required by monthly reporting requirements in Section 6.3.2.F and semi-annual reports as required by Section 6.3.3.K so that any material changes to revenues may be detected as quickly as possible. Contractor and City Contract Manager shall, at an agreed to time, meet to discuss the results of such analysis. In the event that there is a material difference between actual financial results and expectations, the City Contract Manager shall be entitled to request from Contractor or Contractor on its own, may initiate a Special Rate Review pursuant to Section 8.4.

12.18 Ownership of Environmental Benefits

The City retains the right, to be exercised at its sole discretion with regard to each instance and unless expressly waived, to the ownership of any environmental benefits derived from, but not limited to, emissions or elimination of emissions of climate change or greenhouse gasses, or emissions or elimination of other emissions to air, water and/or soil as identified now or during the Term of the Agreement. This provision applies to all:

A. Material steams that are generated within the City and that are Collected, Transferred, Processed, Recycled, Composted, and/or Disposed by the Contractor under the terms of this Agreement;

B. Programs, practices and procedures of the City, or directly or indirectly of the Contractor acting under the terms of this Agreement; and/or,

C. Equipment or allocated portion of equipment used by Contractor in fulfillment of the terms of the Agreement, including vehicles and buildings and environmental improvements made to each, whether owned by jurisdiction, Contractor, or Related Party Entity, or Subcontractor.

This provision applies to, but is not limited to, any use of this value in reallocating and/or reducing emissions of climate change or greenhouse gasses.

This provision applies regardless of whether the environmental benefit is:

1. Determined through regulatory action, market activity, negotiation between two or more parties, intra-company transfer, and/or other means.

2. Monetized in terms of a currency, or is non-monetized as in a barter or trade in which value is attributed indirectly in non-monetary terms.

Contractor shall inform the City Contract Manager at least thirty (30) calendar days in advance of any lawful action that directly or indirectly might materially affect any environmental benefit. The City shall then determine whether it wishes to retain ownership of, and be compensated for, the affected benefit.

ARTICLE 13. MISCELLANEOUS AGREEMENTS

13.1 Entire Agreement

This Agreement, including the Exhibits, represents the full and entire Agreement between the Parties with respect to the matters covered herein, and shall replace and supersede all previous agreements or understandings whether written or otherwise between the Parties with respect to the matters covered herein, including, without limitation, the Prior Agreement.

13.2 Section Headings

The article headings and section headings in this Agreement are for convenience of reference only and are not intended to be used in the construction of this Agreement nor to alter or affect any of its provisions.

13.3 References to Laws

All references in this Agreement to laws shall be understood to include such laws as they may be subsequently amended or recodified, unless otherwise specifically provided.

13.4 Interpretation

This Agreement shall be interpreted and construed reasonably and neither for nor against either Party, regardless of the degree to which either Party participated in its drafting.

13.5 Amendment

This Agreement may not be modified or amended in any respect except in writing, signed by the Parties.

IN WITNESS WHEREOF, City and Contractor have executed this Agreement as of the day and year first above written.

Steam Cleaning Bin	Charge per visit	$171.88
Steam Cleaning Cart	Charge per visit	$97.95

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.9**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution authorizing the execution of agreements with GSW Construction, Inc. and Platinum Pipeline, Inc. for on-call construction services for City water, sewer, and storm drain systems for a three-year term in an amount not-to-exceed $2,400,000.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute agreements with Platinum Pipeline, Inc. and GSW Construction, Inc. for on-call construction services for City water, sewer, and storm drain systems for a three-year term in an amount not-to-exceed $2,400,000.

SUMMARY

City staff requires contracted services to provide on-call and urgent repairs to City water, sewer, and storm drain systems that are too extensive for City staff to complete. To ensure the best chance of repair work being handled in a timely manner, staff recommends awarding an on-call contract to two vendors rather than just one.

DISCUSSION

From time to time, City staff require the services of a contractor to provide planned and urgent repairs to the City's water, sewer, and storm drain systems. City staff routinely use these services where City staff cannot be tied up for long periods of time or where staff require additional support to complete larger repair jobs.

City staff initiated a competitive bid process on April 8, 2024 to select service providers for on-call construction services. Eight sealed bids were submitted on April 29, 2024. One of the bids was disqualified for incompleteness. The ordered ranking is as follows:

1. Platinum Pipeline, Inc.
2. GSW Construction, Inc.
3. DPI, Inc.

4. GradeTech
5. West Valley Construction
6. Kerex
7. McGuire and Hester

Platinum Pipeline, Inc., and GSW Construction, Inc. were the first and second ranked best value bids. Staff recommends accepting the top two ranked bids and initiate new agreements for a three-year term beginning July 22, 2024 through June 30, 2027, with a combined not-to exceed amount of $2,400,000 over the three-year period.

FISCAL AND ADMINISTRATIVE IMPACTS

$800,000 for the first year of each agreement has been included in the FY 2024-25 operating budget, which will be split between the Wastewater Fund (620) and the Water Fund (640). The next two-year budget planning cycle will include funding for subsequent years. Staff does not anticipate any administrative impacts or impact on other City Funds due to the approval of these agreements.

COMMUNITY PILLAR

1: A Safe Community That Thrives

GOAL

11: Operate and maintain municipal water systems that provide safe, efficient delivery of potable and recycled water, collect and treat wastewater, and comply with all federal, state, and local regulations.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING THE EXECUTION OF AGREEMENTS WITH GSW CONSTRUCTION, INC. AND PLATINUM PIPELINE, INC. FOR ON-CALL CONSTRUCTION SERVICES FOR WATER, SEWER, AND STORM DRAIN SYSTEMS IN A COMBINED AMOUNT NOT-TO-EXCEED $2,400,000 FOR THREE-YEAR TERMS

The City of Livermore ("City") requires services to provide on-call services for repair or replacement of potable water, recycled water, wastewater, and storm water facilities.

In April 2024, the City completed a competitive bidding process and selected Platinum Pipeline, Inc., and GSW Construction, Inc. as the best value bidders to provide on-call construction services for the City of Livermore Water Resources Division.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore, that it hereby:

1. Authorizes the City Manager to execute two General Services agreements, attached hereto as Exhibit A (Platinum Pipeline, Inc.) and Exhibit B (GSW Construction, Inc.) for three-year terms, in a combined amount not-to-exceed $2,400,000 to provide on-call services for the repair or replacement of potable water, recycled water, wastewater, and stormwater facilities.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

AGREEMENT FOR SERVICES

THIS AGREEMENT is made and entered into this day of , 2024, by and between the City of Livermore ("City"), a municipal corporation, and GSW Construction, Inc. ("Contractor"), a California corporation.

RECITALS

City requires on-call services for the repair and/or replacement of potable water, recycled water, wastewater, and storm water facilities.

Contractor warrants it possesses the distinct skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Contractor acknowledges City has relied upon these warranties to retain Contractor.

AGREEMENT

NOW, THEREFORE, City and Contractor hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Contractor. City hereby retains Contractor, and Contractor hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Contractor and its employees are not City officers or employees. Contractor is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Contractor shall provide services to repair and/or replace potable water. recycled water, wastewater, and stormwater facilities on an on-call basis as more particularly set forth in Exhibit "A" (collectively "the Services").

4. Contractor's Responsibilities. Contractor shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Contractor to practice its profession and to provide the Services;

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

(e) Comply with all laws in effect that are related to Contractor and the Services;

(f) Coordinate the Services with Michael Wells, Public Works Supervisor or David Lennier, Water Distribution Operations Manager ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Contractor by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Contractor's invoice shall be in writing and describe the Services performed for the payment requested. Contractor shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Contractor and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Contractor shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Contractor shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Contractor and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Contractor shall correct, at its own expense, all errors in the Services. Should Contractor fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Contractor;

(l) If applicable, Contractor shall ensure that all work for compensation is taken in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Contractor shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Contractor shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each laborer, worker, or mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Contractor's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as applicable regulations and guidelines issued pursuant to the ADA.

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

5. Compensation and Payment.

(a) The total compensation payable by City to Contractor for the Services **SHALL NOT EXCEED** the sum of $2,400,000.00 ("not-to-exceed amount"). City shall compensate Contractor for the Services rendered at the hourly rates or task amounts set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates or task amounts are intended to be Contractor's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, travel expenses, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Contractor, its agents, and employees to provide the Services.

(b) City shall pay Contractor no later than 30 days after City receives a written invoice from Contractor and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 8, 2024, and terminates upon the completion of the Services or June 30, 2027, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Contractor at least 30 calendar-days written notice. Upon receipt of a termination notice, Contractor shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Contractor in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Contractor in the performance of the Services are City's property and Contractor shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Contractor for City under this Agreement are works made for hire, and Contractor shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Contractor agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Contractor to City and Contractor obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

10. Confidentiality. Contractor shall not disclose any confidential or proprietary information received from City to anyone except Contractor's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Contractor's performance of the services contemplated by this Agreement, or in connection with Contractor's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Contractor's obligations to hold harmless, indemnify, and defend shall not be excused because of Contractor's inability to evaluate Liability or because Contractor evaluates Liability and determines that Contractor is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Contractor must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Contractor's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Contractor's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Contractor shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Contractor shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Contractor's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Contractor for, the Services does not release Contractor from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Contractor's responsibility or liability by City for any defect or error in the Services.

15. Conflict of Interest. Contractor represents that no City employee or official has a financial interest in Contractor. Contractor shall not offer, encourage, or accept any financial interest in any part of Contractor's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

party, Contractor represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Contractor shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Contractors' financial interest. While it is Contractor's sole responsibility to evaluate its conflicts of interest, the Contractor nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other Contractors to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Contractor shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty percent or more in the ownership or control of Contractor constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Contractor must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Water Resources Division Manager
City of Livermore
101 W. Jack London Blvd.
Livermore, California 94551

TO CONTRACTOR: Attention: Cody Gunning
GSW Construction, Inc.
101 Embarcadero
San Francisco, CA 94105

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

EXHIBIT A
SCOPE OF WORK

SCOPE

1. Work
   a) Contractor must provide all labor, materials, equipment and services necessary to perform and timely complete the following services in an economical and efficient manner in the best interests of City:
      i. On-call repairs and/or replacement of potable water, recycled water, wastewater, and stormwater conveyance, treatment and distribution infrastructure. The work shall also include any asphalt or concrete repairs related to the above.
      ii. The work shall include traffic control, material procurement, material handling, material disposal, and any repairs or replacement of asphalt, concrete, traffic signage, and/or traffic striping made necessary by the items above.

2. Safety
   a) Contractor shall follow all applicable safety rules and regulations.
   b) Contractor shall provide all necessary safety equipment.
   c) City staff may be present during and monitor all aspects of the work.
   d) City reserves the right to halt work at any time for noncompliance with this agreement, or unsafe work conditions or practices.
   e) Contractor shall keep worksites reasonably clear of debris and protect the safety of the public and City employees at all times. Contractor shall promptly remove all materials and spoils from each job site upon completion of the work.
   f) Contractor shall notify Underground Service Alert prior to any machine digging and comply with all applicable laws and regulations.
   g) Contractor shall protect all existing utilities and restore any existing utilities damaged.
   h) Contractor shall provide all necessary traffic control measures.
   i) Contractor shall provide all necessary sheeting, shoring, or bracing equipment for trenching and excavations.

3. Debris Management
   a) All debris or spoils generated by the work of Contractor shall be properly disposed of by Contractor.

4. Quality of Work
   a) Contractor must provide sufficient and competent administration, staff, and skilled workforce necessary to perform and timely complete the services. Before starting, Contractor must designate in writing and provide complete contact information, including phone numbers and email address, for the officer or employee in Contractor's organization who is to serve as Contractor's primary representative for this agreement, and who has authority

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

to act on Contractor's behalf. A Subcontractor may not serve as Contractor's primary representative.

b) Contractor must, at all times during performance of the Work, provide a qualified, full-time superintendent with effective communication skills, acceptable to Project Manager or his/her designee, who must be physically present at the Project site while any aspect of the Work is being performed. Failure to comply may result in temporary suspension of the Work, at Contractor's sole expense and with no extension of time under the Contract until the superintendent is physically present to supervise the Work.

c) Contractor shall warranty all work for a minimum of one year after the completion of the work. Any work required to remedy problems with installation or materials shall be at the sole cost of the Contractor within this period.

d) All work completed under this agreement shall conform to the City of Livermore Standard Specifications and Standard Details unless authorized in writing by the Project Manager.

5. Response Time
   a) Contractor is expected to promptly acknowledge the City's notification of an urgent situation by phone within two hours. Contractor's response should inform the City if they will be able to mobilize a repair crew to address the urgent situation within eight hours from the time of notification

COMPENSATION

1. CITY shall compensate CONTRACTOR in the following manner:

a) Labor, equipment, and vehicles shall be compensated at the rates below.

RATE SCHEDULE	UNIT OF MEASURE	REGULAR TIME UNIT PRICE	OVERTIME UNIT PRICE
LABOR			
Project Manager	HOUR	$169.65	$169.65
Foreman/Superintendent		$143.88	$196.37
Equipment Operator		$139.14	$189.23
Carpenter		$151.09	$207.32
Cement Mason		$102.44	$135.54
Laborer		$98.71	$131.81

b) Materials, supplies and parts shall be compensated at documented at cost plus markup as referenced in the rate schedule. Contractor shall make reasonable efforts to obtain the desired materials, supplies, and parts at the lowest readily available cost. Contractor must supply receipts or invoices and weight tags

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

EXHIBIT A
SCOPE OF WORK

d) provide invoices or receipts in order to be compensated for the work of subcontractors.

2. Hourly rates for labor and equipment must include all wages, fringe benefits, and markup/overhead. Hourly rates shall be the only rates used for cost estimate and billing.
3. Hourly rate for Equipment includes use of any and all tools and equipment not separately listed.

4. Only one mobilization charge shall be included per written project assignment order. The charge shall be determined based on the applicable Lump Sum above.

5. Equipment not on the list shall be compensated at the hourly rates contained in the applicable version of the California Department of Transportation Division of Construction “Labor Surcharge and Equipment Rental Rates.”

6. Each year on July 1, beginning in 2025, unit prices will be adjusted by up to the percentage listed in the Consumer Price Index for All Urban Consumers for the San Francisco-Oakland-Hayward region (CPI-U) using the 12-month change in April. This adjustment will be documented each year through a signed letter from the City to the Contractor.

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $5,000,000 per occurrence/**$10,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $2,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$2,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability".
4. Professional Liability/Errors and Omissions:
   $1,000,000 per occurrence.
5. Pollution Liability:
   $2,000,000 per occurrence.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special

DocuSign Envelope ID: 93E2CB98-67A2-4FD3-ABE3-55D02F09C6DE

limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

AGREEMENT FOR SERVICES

THIS AGREEMENT is made and entered into this day of , 2024, by and between the City of Livermore ("City"), a municipal corporation, and Platinum Pipeline, Inc. ("Contractor"), a California corporation.

RECITALS

City requires on-call services for the repair and/or replacement of potable water, recycled water, wastewater, and storm water facilities.

Contractor warrants it possesses the distinct skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Contractor acknowledges City has relied upon these warranties to retain Contractor.

AGREEMENT

NOW, THEREFORE, City and Contractor hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Contractor. City hereby retains Contractor, and Contractor hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Contractor and its employees are not City officers or employees. Contractor is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Contractor shall provide services to repair and/or replace potable water. recycled water, wastewater, and stormwater facilities on an on-call basis as more particularly set forth in Exhibit "A" (collectively "the Services").

4. Contractor's Responsibilities. Contractor shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Contractor to practice its profession and to provide the Services;

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

(e) Comply with all laws in effect that are related to Contractor and the Services;

(f) Coordinate the Services with Michael Wells, Public Works Supervisor or David Lennier, Water Distribution Operations Manager ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Contractor by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Contractor's invoice shall be in writing and describe the Services performed for the payment requested. Contractor shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Contractor and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Contractor shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Contractor shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Contractor and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Contractor shall correct, at its own expense, all errors in the Services. Should Contractor fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Contractor;

(l) If applicable, Contractor shall ensure that all work for compensation is taken in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Contractor shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Contractor shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each laborer, worker, or mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Contractor's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as applicable regulations and guidelines issued pursuant to the ADA.

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

5. Compensation and Payment.

(a) The total compensation payable by City to Contractor for the Services **SHALL NOT EXCEED** the sum of $2,400,000.00 ("not-to-exceed amount"). City shall compensate Contractor for the Services rendered at the hourly rates or task amounts set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates or task amounts are intended to be Contractor's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, travel expenses, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Contractor, its agents, and employees to provide the Services.

(b) City shall pay Contractor no later than 30 days after City receives a written invoice from Contractor and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 8, 2024, and terminates upon the completion of the Services or June 30, 2027, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Contractor at least 30 calendar-days written notice. Upon receipt of a termination notice, Contractor shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Contractor in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Contractor in the performance of the Services are City's property and Contractor shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Contractor for City under this Agreement are works made for hire, and Contractor shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Contractor agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Contractor to City and Contractor obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

10. Confidentiality. Contractor shall not disclose any confidential or proprietary information received from City to anyone except Contractor's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Contractor's performance of the services contemplated by this Agreement, or in connection with Contractor's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Contractor's obligations to hold harmless, indemnify, and defend shall not be excused because of Contractor's inability to evaluate Liability or because Contractor evaluates Liability and determines that Contractor is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Contractor must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Contractor's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Contractor's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Contractor shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Contractor shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Contractor's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Contractor for, the Services does not release Contractor from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Contractor's responsibility or liability by City for any defect or error in the Services.

15. Conflict of Interest. Contractor represents that no City employee or official has a financial interest in Contractor. Contractor shall not offer, encourage, or accept any financial interest in any part of Contractor's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

party, Contractor represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Contractor shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Contractors' financial interest. While it is Contractor's sole responsibility to evaluate its conflicts of interest, the Contractor nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other Contractors to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Contractor shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty percent or more in the ownership or control of Contractor constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Contractor must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Water Resources Division Manager
City of Livermore
101 W. Jack London Blvd.
Livermore, California 94551

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

TO CONTRACTOR: Attention: Scott Smith
Platinum Pipeline, Inc.
PO Box 1170
Livermore, CA 94551

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

****

Signatures and Attachment List on the Next Page

In concurrence and witness whereof, and in recognition of the mutual consideration provided therefore, the parties have executed this Agreement, effective on the date first written above.

EXHIBIT A
SCOPE OF WORK

SCOPE

1. Work
   a) Contractor must provide all labor, materials, equipment and services necessary to perform and timely complete the following services in an economical and efficient manner in the best interests of City:
      i. On-call repairs and/or replacement of potable water, recycled water, wastewater, and stormwater conveyance, treatment and distribution infrastructure. The work shall also include any asphalt or concrete repairs related to the above.
      ii. The work shall include traffic control, material procurement, material handling, material disposal, and any repairs or replacement of asphalt, concrete, traffic signage, and/or traffic striping made necessary by the items above.

2. Safety
   a) Contractor shall follow all applicable safety rules and regulations.
   b) Contractor shall provide all necessary safety equipment.
   c) City staff may be present during and monitor all aspects of the work.
   d) City reserves the right to halt work at any time for noncompliance with this agreement, or unsafe work conditions or practices.
   e) Contractor shall keep worksites reasonably clear of debris and protect the safety of the public and City employees at all times. Contractor shall promptly remove all materials and spoils from each job site upon completion of the work.
   f) Contractor shall notify Underground Service Alert prior to any machine digging and comply with all applicable laws and regulations.
   g) Contractor shall protect all existing utilities and restore any existing utilities damaged.
   h) Contractor shall provide all necessary traffic control measures.
   i) Contractor shall provide all necessary sheeting, shoring, or bracing equipment for trenching and excavations.

3. Debris Management
   a) All debris or spoils generated by the work of Contractor shall be properly disposed of by Contractor.

4. Quality of Work
   a) Contractor must provide sufficient and competent administration, staff, and skilled workforce necessary to perform and timely complete the services. Before starting, Contractor must designate in writing and provide complete contact information, including phone numbers and email address, for the officer or employee in Contractor's organization who is to serve as Contractor's primary representative for this agreement, and who has authority

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

to act on Contractor's behalf. A Subcontractor may not serve as Contractor's primary representative.

b) Contractor must, at all times during performance of the Work, provide a qualified, full-time superintendent with effective communication skills, acceptable to Project Manager or his/her designee, who must be physically present at the Project site while any aspect of the Work is being performed. Failure to comply may result in temporary suspension of the Work, at Contractor's sole expense and with no extension of time under the Contract until the superintendent is physically present to supervise the Work.

c) Contractor shall warranty all work for a minimum of one year after the completion of the work. Any work required to remedy problems with installation or materials shall be at the sole cost of the Contractor within this period.

d) All work completed under this agreement shall conform to the City of Livermore Standard Specifications and Standard Details unless authorized in writing by the Project Manager.

5. Response Time
   a) Contractor is expected to promptly acknowledge the City's notification of an urgent situation by phone within two hours. Contractor's response should inform the City if they will be able to mobilize a repair crew to address the urgent situation within eight hours from the time of notification

COMPENSATION

1. CITY shall compensate CONTRACTOR in the following manner:

a) Labor, equipment, and vehicles shall be compensated at the rates below.

RATE SCHEDULE	UNIT OF MEASURE	REGULAR TIME UNIT PRICE	OVERTIME UNIT PRICE
LABOR			
Project Manager	HOUR	$172.80	$259.20

EXHIBIT A
SCOPE OF WORK

d) provide invoices or receipts in order to be compensated for the work of subcontractors.

2. Hourly rates for labor and equipment must include all wages, fringe benefits, and markup/overhead. Hourly rates shall be the only rates used for cost estimate and billing.
3. Hourly rate for Equipment includes use of any and all tools and equipment not separately listed.
4. Only one mobilization charge shall be included per written project assignment order. The charge shall be determined based on the applicable Lump Sum above.
5. Equipment not on the list shall be compensated at the hourly rates contained in the applicable version of the California Department of Transportation Division of Construction “Labor Surcharge and Equipment Rental Rates.”

6. Each year on July 1, beginning in 2025, unit prices will be adjusted by up to the percentage listed in the Consumer Price Index for All Urban Consumers for the San Francisco-Oakland-Hayward region (CPI-U) using the 12-month change in April. This adjustment will be documented each year through a signed letter from the City to the Contractor.

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $5,000,000 per occurrence/**$10,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $2,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$2,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability".
4. Professional Liability/Errors and Omissions:
   $1,000,000 per occurrence.
5. Pollution Liability:
   $2,000,000 per occurrence.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special

DocuSign Envelope ID: BBB07713-E3D0-4AE8-952B-9FB23F6B3F07

limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.10**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution awarding and authorizing the execution of an agreement with Environmental Logistics, Inc. for services to remove, clean, and dispose of hazardous and non-hazardous materials for a three-year term in an amount not-to-exceed $775,000.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution awarding and authorizing the execution of an agreement with Environmental Logistics, Inc. for services to remove, clean, and dispose of hazardous and non-hazardous materials for a three-year term in an amount not-to-exceed $775,000.

SUMMARY

The Public Works Department regularly utilizes an outside contractor to perform special materials management services including the identification, classification, hauling, shipping, and disposal of hazardous and non-hazardous waste. In addition to these services, the Water Resources Division also requires a contractor who can respond to emergencies to mitigate sewer spills and illicit discharges.

DISCUSSION

The Public Works Department operates various infrastructure and facilities that require the removal and disposal of specialized waste streams. This includes waste oil from fleet and equipment maintenance, the maintenance of oil/water separators, the removal of waste from the Water Reclamation Plant laboratory, and emergency services to abate sewer spills and illicit discharges into the City's storm drain system.

Staff completed a formal bid process in March 2024 to select a provider for these services. Two submissions were received, but one was disqualified for being incomplete. Environmental Logistics, Inc. represents the best value bid and is able to meet the needs of the Public Works Department.

FISCAL AND ADMINISTRATIVE IMPACTS

The FY 2024-25 operating budget includes the expected annual expenditures of approximately $258,000

in the Wastewater Enterprise Fund (620) and the Fleet and Equipment Services Internal Service Fund (730). Funding for FY 2025-26 and FY 2026-27 will be included in future budget proposals. Staff does not anticipate any administrative impacts or impacts to any other City Fund due to approval of this agreement.

COMMUNITY PILLARS

1: A Safe Community That Thrives

GOALS

11: Operate and maintain municipal water systems that provide safe, efficient delivery of potable and recycled water, collect and treat wastewater, and comply with all federal, state, and local regulations.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AWARDING AND AUTHORIZING THE EXECUTION OF A GENERAL SERVICES AGREEMENT TO/WITH ENVIRONMENTAL LOGISTICS, INC. FOR SERVICES TO REMOVE, CLEAN, AND DISPOSE OF HAZARDOUS AND NON-HAZARDOUS MATERIALS FOR A THREE-YEAR TERMIN AN AMOUNT NOT-TO-EXCEED $775,000

The City of Livermore ("City") Public Works Department operates certain infrastructure and facilities that require the removal and disposal of specialized waste streams. The Public Works Department requires an outside contractor to perform special materials management services for the City, including removal and disposal of hazardous and non-hazardous materials from the Water Reclamation Plant, Maintenance Service Center, and City fuel stations.

The City advertised and received two bids for services to remove, clean, and dispose of hazardous and non-hazardous materials, Request for Bid No. 4261. Pursuant to Livermore Municipal Code sections 2.68.370 and 2.68.040, City staff reviewed the bids and determined that Environmental Logistics, Inc. is the best value bidder based on the cost and the ability, capacity, and skill of the contractor to provide the services requested.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Awards to Environmental Logistics, Inc. the general services agreement, attached hereto as Exhibit A, for services to remove, clean, and dispose hazardous and non-hazardous materials, in an amount not-to-exceed $775,000 for a three-year term.

2. Authorizes the City Manager, or her designee, to execute the general services agreement with Environmental Logistics, Inc., attached hereto as Exhibit A, for services to remove, clean, and dispose of hazardous and non-hazardous materials, in an amount not-to-exceed $775,000 for a three-year term.

3. Authorizes the City Manager, or her designee, to take whatever actions are necessary and appropriate to carry out the purpose and intent of this resolution, including approving minor changes to the proposed agreement.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

Exhibit A – General Services Agreement with Environmental Logistics, Inc.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

AGREEMENT FOR SERVICES

THIS AGREEMENT is made and entered into this day of , 2024, by and between the City of Livermore ("City"), a municipal corporation, and Environmental Logistics, Inc. ("Contractor"), a California corporation with California Secretary of State File No. 2857306.

RECITALS

City requires services to remove, clean, and dispose of hazardous and non-hazardous materials.

Contractor warrants it possesses the distinct skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Contractor acknowledges City has relied upon these warranties to retain Contractor.

AGREEMENT

NOW, THEREFORE, City and Contractor hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Contractor. City hereby retains Contractor, and Contractor hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Contractor and its employees are not City officers or employees. Contractor is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Contractor shall provide services to remove, clean, and dispose of hazardous and non-hazardous materials on a scheduled or as-needed basis as more particularly set forth in Exhibit "A" (collectively "the Services").

4. Contractor's Responsibilities. Contractor shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Contractor to practice its profession and to provide the Services;

(e) Comply with all laws in effect that are related to Contractor and the Services;

(f) Coordinate the Services with Jason Calkins, Public Works Maintenance Supervisor; Kevin Kolte, Water Resources Maintenance Supervisor; Michael Wells, Collections System Supervisor; Kumudini Dharmawardana, Laboratory Supervisor; and Steven Aguiar, Environmental Compliance Supervisor ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Contractor by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Contractor's invoice shall be in writing and describe the Services performed for the payment requested. Contractor shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Contractor and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Contractor shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Contractor shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Contractor and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Contractor shall correct, at its own expense, all errors in the Services. Should Contractor fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Contractor;

(l) If applicable, Contractor shall ensure that all work for compensation is taken in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Contractor shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Contractor shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each laborer, worker, or

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Contractor's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as applicable regulations and guidelines issued pursuant to the ADA.

5. Compensation and Payment.

(a) The total compensation payable by City to Contractor for the Services **SHALL NOT EXCEED** the sum of $775,000 ("not-to-exceed amount"). City shall compensate Contractor for the Services rendered at the hourly rates or task amounts set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates or task amounts are intended to be Contractor's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, travel expenses, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Contractor, its agents, and employees to provide the Services.

(b) City shall pay Contractor no later than 30 days after City receives a written invoice from Contractor and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 1, 2024, and terminates upon the completion of the Services or June 30, 2027, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Contractor at least 30 calendar-days written notice. Upon receipt of a termination notice, Contractor shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Contractor in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Contractor in the performance of the Services are City's property and Contractor shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Contractor for City under this Agreement are works made for hire, and Contractor shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Contractor agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Contractor to City and Contractor obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

10. Confidentiality. Contractor shall not disclose any confidential or proprietary information received from City to anyone except Contractor's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Contractor's performance of the services contemplated by this Agreement, or in connection with Contractor's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Contractor's obligations to hold harmless, indemnify, and defend shall not be excused because of Contractor's inability to evaluate Liability or because Contractor evaluates Liability and determines that Contractor is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Contractor must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Contractor's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Contractor's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Contractor shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Contractor shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Contractor's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Contractor for, the Services does not release Contractor from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Contractor's responsibility or liability by City for any defect or error in the Services.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

15. Conflict of Interest. Contractor represents that no City employee or official has a financial interest in Contractor. Contractor shall not offer, encourage, or accept any financial interest in any part of Contractor's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private party, Contractor represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Contractor shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Contractors' financial interest. While it is Contractor's sole responsibility to evaluate its conflicts of interest, the Contractor nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other Contractors to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Contractor shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty percent or more in the ownership or control of Contractor constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Contractor must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Water Resources Division Manager
City of Livermore
101 W. Jack London Blvd.
Livermore, California 94551

TO CONTRACTOR: Attention: Marcial Barragan
P.O. Box 806
Colton, CA 92324

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

EXHIBIT A
SCOPE OF WORK

Contractor shall provide all necessary labor, materials, equipment, and supplies to perform the following services as scheduled or as needed:

Public Works Maintenance and Fleet Services

1. Dispose of used motor oil, crushed oil filters, and used engine coolant.
2. Dispose of 55-gallon drums of waste emulsion oil/diesel a minimum frequency of every six-months.
3. Pump out approximately seven oil and sand separators annually in accordance with the City's Stormwater Pollution Prevention Plan ("SWPPP"), with one separator to be pumped out twice per year.

Water Resources Division

1. Hazardous waste handling, transportation, and disposals from the plant.
2. Pump out and disposal of UST (industrial waste oil) at the plant.
3. Collection system oil/water separator inspection and cleaning.
4. Spill mitigation from sewer spills or illicit discharge.
5. Emergency spill response and mitigation from streets and storm drains.
6. Disposal of laboratory hazardous waste (5-gallon containers of acids, bases, volatiles, flammables, solid chemicals).
7. Disposal of laboratory E-waste.

Work Locations

- City fuel stations (various locations)
- City Water Reclamation Plant
- Anywhere within the city limits of the City of Livermore

CONTRACTOR RESPONSIBILITIES

1. All employees of Contractor shall wear uniforms or badges clearly identifying them as employees of Contractor all times while completing work.
2. Contractor shall follow all applicable safety rules and regulations, and comply with all laws, rules, and regulations.
3. Contractor shall allow City staff to be present during and monitor all aspects of the work.
4. City reserves the right to halt work at any time for noncompliance with this agreement, or unsafe work conditions or practices.
5. Contractor shall keep worksites reasonably clear of debris and protect the safety and health of the public and City employees at all times.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

EXHIBIT A
SCOPE OF WORK

6. Contractor shall properly transport and dispose of all materials collected and debris or spoils generated by the work of Contractor in compliance with all laws, rules, and regulations.
7. Contractor shall provide any necessary traffic control measures to ensure the safety of the public.
8. Contractor shall properly classify the materials collected and complete any necessary hazardous material manifest or related paperwork as required and in compliance with all laws, rules, and regulations.
9. Regular Time (RT) is defined as the first 8 hours of work in a given workday.
10. Over Time (OT) is defined as work in excess of an eight-hour workday (up to twelve hours) or the first eight hours worked on Saturday.
11. Premium Time (PT) is defined as work in excess of twelve hours in a workday, work in excess of eight hours on a Saturday or any work performed on Sunday or the following holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day.

COMPENSATION

1. Personnel rates will be charged portal to portal from the Contractor's Hayward office location.

2. A minimum of four hours per person or piece of equipment shall be charged for all callouts.

3. City shall compensate Contractor for items, personnel, equipment, materials, and drum disposal in this scope of work at the stated rates listed above.

4. Contractor must provide receipts or invoices for all subcontractors (should the City provide written consent for Contractor to utilize subcontractors pursuant to Section 18 of the Agreement), equipment, and materials not listed in the rate sheets which are used in order to be eligible for payment on those items.

5. Surcharges of 9.7% for energy and 2.9% for insurance shall be applied to all labor and materials costs.

6. Equipment listed at a day rate that is operated for more than 12 consecutive hours will be charged at twice the day rate.

7. City shall compensate Contractor for cleaning and/or decontamination of equipment used in the performance of duties under this agreement. Cleaning and decontamination of equipment shall be done in compliance with all laws, rules, and regulations.

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

EXHIBIT A
SCOPE OF WORK

8. Drum disposal rates above do not include transportation to the disposal facility, which shall be billed in accordance to the hourly personnel and vehicle rates listed above.

9. Drum disposal rates apply to general waste descriptions. Any waste streams not listed will be billed at documented cost plus 20%.

10. Each year on July 1, beginning in 2025, unit prices will be adjusted by the percentage listed in the Consumer Price Index for All Urban Consumers for the Francisco-Oakland-Hayward region (CPI-U) using the prior year's CPI-U rate in April. This adjustment will be documented each year through a signed letter from the City to the Contractor.

11. City shall compensate Contractor according to the following rates:

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $5,000,000 per occurrence/**$10,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $2,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$2,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability".
4. Professional Liability/Errors and Omissions:
   $1,000,000 per occurrence.
5. Pollution Liability:
   $2,000,000 per occurrence.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special

Docusign Envelope ID: F091A882-D8E6-48CD-9155-C858CBADCCF7

limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.11**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution appropriating $4,300,000 in Wastewater Enterprise Funds in FY 2024-25 for the repair and relocation of the Livermore Sole-Use Treated Wastewater Pipeline

RECOMMENDED ACTION

Staff recommends that the City Council adopt a resolution appropriating $4,300,000 in wastewater enterprise funds in FY 2024-25 for the repair and relocation of the Livermore sole-use treated wastewater pipeline.

SUMMARY

In early 2023, the pipeline used by the City to transport treated wastewater to the Livermore Amador Valley Water Management Agency (LAVWMA) pump station was damaged by heavy flows in the Arroyo Mocho. LAVWMA has completed repairs and has requested reimbursement. A budget appropriation of $4,300,000 from the wastewater enterprise fund is needed in order to process this reimbursement.

DISCUSSION

The City of Livermore treats approximately 5.5 million gallons of wastewater each day. After some of that treated water has been recycled and used for irrigation and fire protection purposes, the remainder is transported through a gravity pipe to a LAVWMA pump station in Pleasanton where it is pumped over the Dublin grade for disposal in the San Francisco Bay. During the heavy storms of early 2023, a portion of this pipe was damaged by swollen streams. An undercrossing of the Arroyo Mocho near its confluence with the Arroyo Las Positas was exposed and the protective concrete cap over the pipe was destroyed. While the pipe itself was not damaged, leaving it as it was would have increased the potential for a catastrophic failure during future heavy storms.

The LAVWMA Joint Powers Agreement requires that the City of Livermore pay for all expenses related to the maintenance of this pipe which is solely-used by Livermore. LAVWMA has completed a realignment of this pipe away from the arroyo's bank and underneath an existing fish ladder thereby protecting the pipe from future stream-related damage.

FISCAL AND ADMINISTRATIVE IMPACTS

The total cost of this project is approximately $5,800,000. LAVWMA fronted the funds for this project and is requesting reimbursement from the City of Livermore. City staff have requested the use of $1,500,000 of existing repair and replacement reserves for this sole-use pipeline, which are held by LAVWMA, to lower the amount of funds that need to be transferred at this time. The remainder would be funded through the appropriation of $4,300,000 in Wastewater Enterprise Funds in FY 2024-25 for the repair and relocation of the Livermore Sole-Use Treated Wastewater Pipeline. City staff proposes rebuilding the reserve balance that LAVWMA holds in the future by first working with LAVWMA to determine an appropriate asset management fund balance and then programming fund transfers in future City budget proposals. The Wastewater Enterprise Fund currently has sufficient reserves to fund this project.

LAVWMA staff and consultants are actively pursuing Federal Emergency Management Agency reimbursement, but at this stage it is unclear exactly how much reimbursement may be received. Any reimbursement received by LAVWMA will either be returned to Livermore or used to replenish the replacement reserve held by LAVWMA.

Staff does not anticipate any administrative impacts from the approval of this resolution.

COMMUNITY PILLAR

1: A Safe Community That Thrives

GOAL

11: Operate and maintain municipal water systems that provide safe, efficient delivery of potable and recycled water, collect and treat wastewater, and comply with all federal, state, and local regulations.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION APPROPRIATING $4,300,000 IN WASTEWATER ENTERPRISE FUNDS FOR THE REPAIR AND RELOCATION OF THE LIVERMORE SOLE-USE TREATED WASTER PIPELINE

In early 2023, a wastewater pipeline owned by the Livermore Amador Valley Water Management Agency (LAVWMA) that solely serves the City of Livermore was damaged by heavy rains. LAVWMA has completed a repair and relocation project to protect the pipeline from potential future damage. LAVWMA has requested reimbursement from the City of Livermore for the project's costs which are fully allocated to Livermore per paragraph 12 of the Amended and Restated Joint Exercise of Powers Agreement for the Livermore-Amador Valley Water Management Agency dated June 30, 1997.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Appropriates $4,300,000 in Wastewater Enterprise Funds from Fund 620 in Fiscal Year 2024-25.

2. Authorizes the City Manager to take whatever actions are necessary and appropriate to carry out the purpose and intent of this resolution.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

CITY COUNCIL STAFF REPORT **ITEM NO. 5.12**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution authorizing the issuance of a purchase order to Petersen Cat for a Weiler P65 Paver in an amount not-to-exceed $143,554 and an appropriating $143,554 from the Fleet Internal Service Fund to purchase the Paver.

RECOMMENDED ACTION

Staff recommends that the City Council adopt a resolution authorizing the execution of a purchase order with Peterson Cat for a replacement asphalt paver in a not-to-exceed amount of $143,554 and appropriating $143,554 from the Fleet Internal Service Fund.

SUMMARY

Based on the City of Livermore's Fleet Policy and the 25-year Fleet Replacement Plan, it is time to replace an existing Maintenance Division Asphalt paver. Staff has determined that the unit that best meets the needs of the Maintenance Division Streets Section is the 2024 Weiler P65 Paver, which can be purchased under a Sourcewell contract from Peterson CAT in San Leandro California.

DISCUSSION

The Peterson Caterpillar Weiler P65 asphalt paver is critical in performing repairs to City streets and parking lots. The use of this asphalt paver will allow the Street Department to repair and maintain large sections of roadway more efficiently, resulting in shorter lane closure time and less traffic interruptions. Packaged together with the street grinding equipment the City already owns there will be less crack sealing required to prevent potholes and broken-down sections of asphalt. This newer style asphalt paver is self-propelled and will allow continuous paving, allowing staff to maintain the asphalt supply without any down time between loads. Being able to pave larger and wider sections of roadway will reduce the use of outside contracts to make emergency repairs.

The City of Livermore's Fleet Policy recommends replacement of miscellaneous equipment at 10-20 years. This 2024 Weiler P65 asphalt paver will be replacing STR300 a 2003 Layton 505 Trailer Paver. This newly designed unit now incorporates a single engine setup with electric heating which reduces overall engine emissions over the previous designs thus reducing the City's Fleet vehicles overall carbon

footprint.

Staff recommends purchasing this replacement asphalt paver utilizing Sourcewell Acceptance and Award contract #060122-WLR. The Sourcewell bid procedure for the replacement asphalt paver meets the Livermore Municipal Code (LMC) Section 2.68.370 requirements, and therefore, a purchase order can be awarded to Peterson Cat in San Leandro California. Peterson Cat is the local dealer in Northern California, and will facilitate delivery, training, and any needed service or warranty work.

FISCAL AND ADMINISTRATIVE IMPACTS

The proposed purchase of the 2024 Weiler P65 asphalt paver was budgeted in the FY 2023-24 Fleet Internal Service Fund but not purchased in FY 2023-24. As such, the $143,554 needs to be appropriated from the Fleet Internal Service Fund to complete the purchase. The asphalt paver is identified in the Fleet Master 25-year Replacement Plan.

COMMUNITY PILLAR

5: A City That Works

GOAL

Sourcewell

Solicitation Number: RFP #060122

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Weiler Inc., 815 Weiler Drive, Knoxville, IA 50138 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Roadway Paving Equipment from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires August 1, 2026, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

All Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

7. CUSTOMER SERVICE

A. PRIMARY ACCOUNT REPRESENTATIVE. Supplier will assign an Account Representative to Sourcewell for this Contract and must provide prompt notice to Sourcewell if that person is changed. The Account Representative will be responsible for:

- Maintenance and management of this Contract;

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

- Timely response to all Sourcewell and Participating Entity inquiries; and
- Business reviews to Sourcewell and Participating Entities, if applicable.

B. BUSINESS REVIEWS. Supplier must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, sales data reports, performance issues, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Supplier must submit a report indicating no sales were made).

The Report must contain the following fields:

- Participating Entity Name (e.g., City of Staples Highway Department);
- Participating Entity Physical Street Address;
- Participating Entity City;
- Participating Entity State/Province;
- Participating Entity Zip/Postal Code;
- Participating Entity Contact Name;
- Participating Entity Contact Email Address;
- Participating Entity Contact Telephone Number;
- Sourcewell Assigned Entity/Participating Entity Number;
- Item Purchased Description;
- Item Purchased Price;
- Sourcewell Administrative Fee Applied; and
- Date Purchase was invoiced/sale was recognized as revenue by Supplier.

B. ADMINISTRATIVE FEE. In consideration for the support and services provided by Sourcewell, the Supplier will pay an administrative fee to Sourcewell on all Equipment, Products, and Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

9. AUTHORIZED REPRESENTATIVE

Sourcewell's Authorized Representative is its Chief Procurement Officer.

Supplier's Authorized Representative is the person named in the Supplier's Proposal. If Supplier's Authorized Representative changes at any time during this Contract, Supplier must promptly notify Sourcewell in writing.

10. AUDIT, ASSIGNMENT, AMENDMENTS, WAIVER, AND CONTRACT COMPLETE

A. AUDIT. Pursuant to Minnesota Statutes Section 16C.05, subdivision 5, the books, records, documents, and accounting procedures and practices relevant to this Contract are subject to examination by Sourcewell or the Minnesota State Auditor for a minimum of six years from the end of this Contract. This clause extends to Participating Entities as it relates to business conducted by that Participating Entity under this Contract.

B. ASSIGNMENT. Neither party may assign or otherwise transfer its rights or obligations under this Contract without the prior written consent of the other party and a fully executed assignment agreement. Such consent will not be unreasonably withheld. Any prohibited assignment will be invalid.

C. AMENDMENTS. Any amendment to this Contract must be in writing and will not be effective until it has been duly executed by the parties.

D. WAIVER. Failure by either party to take action or assert any right under this Contract will not be deemed a waiver of such right in the event of the continuation or repetition of the circumstances giving rise to such right. Any such waiver must be in writing and signed by the parties.

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

E. CONTRACT COMPLETE. This Contract represents the complete agreement between the parties. No other understanding regarding this Contract, whether written or oral, may be used to bind either party. For any conflict between the attached Proposal and the terms set out in Articles 1-22 of this Contract, the terms of Articles 1-22 will govern.

F. RELATIONSHIP OF THE PARTIES. The relationship of the parties is one of independent contractors, each free to exercise judgment and discretion with regard to the conduct of their respective businesses. This Contract does not create a partnership, joint venture, or any other relationship such as master-servant, or principal-agent.

11. INDEMNITY AND HOLD HARMLESS

Supplier must indemnify, defend, save, and hold Sourcewell and its Participating Entities, including their agents and employees, harmless from any claims or causes of action, including attorneys' fees incurred by Sourcewell or its Participating Entities, arising out of any act or omission in the performance of this Contract by the Supplier or its agents or employees; this indemnification includes injury or death to person(s) or property alleged to have been caused by some defect in the Equipment, Products, or Services under this Contract to the extent the Equipment, Product, or Service has been used according to its specifications. Sourcewell's responsibility will be governed by the State of Minnesota's Tort Liability Act (Minnesota Statutes Chapter 466) and other applicable law.

12. GOVERNMENT DATA PRACTICES

Supplier and Sourcewell must comply with the Minnesota Government Data Practices Act, Minnesota Statutes Chapter 13, as it applies to all data provided by or provided to Sourcewell under this Contract and as it applies to all data created, collected, received, maintained, or disseminated by the Supplier under this Contract.

13. INTELLECTUAL PROPERTY, PUBLICITY, MARKETING, AND ENDORSEMENT

A. INTELLECTUAL PROPERTY

1. *Grant of License.* During the term of this Contract:
    a. Sourcewell grants to Supplier a royalty-free, worldwide, non-exclusive right and license to use the trademark(s) provided to Supplier by Sourcewell in advertising and promotional materials for the purpose of marketing Sourcewell's relationship with Supplier.
    b. Supplier grants to Sourcewell a royalty-free, worldwide, non-exclusive right and license to use Supplier's trademarks in advertising and promotional materials for the purpose of marketing Supplier's relationship with Sourcewell.
2. *Limited Right of Sublicense*. The right and license granted herein includes a limited right of each party to grant sublicenses to their respective subsidiaries, distributors, dealers, resellers, marketing representatives, and agents (collectively "Permitted Sublicensees") in

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

advertising and promotional materials for the purpose of marketing the Parties' relationship to Participating Entities. Any sublicense granted will be subject to the terms and conditions of this Article. Each party will be responsible for any breach of this Article by any of their respective sublicensees.

3. *Use; Quality Control.*

a. Neither party may alter the other party's trademarks from the form provided and must comply with removal requests as to specific uses of its trademarks or logos.

b. Each party agrees to use, and to cause its Permitted Sublicensees to use, the other party's trademarks only in good faith and in a dignified manner consistent with such party's use of the trademarks. Upon written notice to the breaching party, the breaching party has 30 days of the date of the written notice to cure the breach or the license will be terminated.

4. *Termination*. Upon the termination of this Contract for any reason, each party, including Permitted Sublicensees, will have 30 days to remove all Trademarks from signage, websites, and the like bearing the other party's name or logo (excepting Sourcewell's pre-printed catalog of suppliers which may be used until the next printing). Supplier must return all marketing and promotional materials, including signage, provided by Sourcewell, or dispose of it according to Sourcewell's written directions.

B. PUBLICITY. Any publicity regarding the subject matter of this Contract must not be released without prior written approval from the Authorized Representatives. Publicity includes notices, informational pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Supplier individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

C. MARKETING. Any direct advertising, marketing, or offers with Participating Entities must be approved by Sourcewell. Send all approval requests to the Sourcewell Supplier Development Administrator assigned to this Contract.

D. ENDORSEMENT. The Supplier must not claim that Sourcewell endorses its Equipment, Products, or Services.

14. GOVERNING LAW, JURISDICTION, AND VENUE

The substantive and procedural laws of the State of Minnesota will govern this Contract. Venue for all legal proceedings arising out of this Contract, or its breach, must be in the appropriate state court in Todd County, Minnesota or federal court in Fergus Falls, Minnesota.

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

15. FORCE MAJEURE

Neither party to this Contract will be held responsible for delay or default caused by acts of God or other conditions that are beyond that party's reasonable control. A party defaulting under this provision must provide the other party prompt written notice of the default.

16. SEVERABILITY

If any provision of this Contract is found by a court of competent jurisdiction to be illegal, unenforceable, or void then both parties will be relieved from all obligations arising from that provision. If the remainder of this Contract is capable of being performed, it will not be affected by such determination or finding and must be fully performed.

17. PERFORMANCE, DEFAULT, AND REMEDIES

A. PERFORMANCE. During the term of this Contract, the parties will monitor performance and address unresolved contract issues as follows:

1. *Notification.* The parties must promptly notify each other of any known dispute and work in good faith to resolve such dispute within a reasonable period of time. If necessary, Sourcewell and the Supplier will jointly develop a short briefing document that describes the issue(s), relevant impact, and positions of both parties.
2. *Escalation.* If parties are unable to resolve the issue in a timely manner, as specified above, either Sourcewell or Supplier may escalate the resolution of the issue to a higher level of management. The Supplier will have 30 calendar days to cure an outstanding issue.
3. *Performance while Dispute is Pending*. Notwithstanding the existence of a dispute, the Supplier must continue without delay to carry out all of its responsibilities under the Contract that are not affected by the dispute. If the Supplier fails to continue without delay to perform its responsibilities under the Contract, in the accomplishment of all undisputed work, the Supplier will bear any additional costs incurred by Sourcewell and/or its Participating Entities as a result of such failure to proceed.

B. DEFAULT AND REMEDIES. Either of the following constitutes cause to declare this Contract, or any Participating Entity order under this Contract, in default:

1. Nonperformance of contractual requirements, or
2. A material breach of any term or condition of this Contract.

The party claiming default must provide written notice of the default, with 30 calendar days to cure the default. Time allowed for cure will not diminish or eliminate any liability for liquidated or other damages. If the default remains after the opportunity for cure, the non-defaulting party may:

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

- Exercise any remedy provided by law or equity, or
- Terminate the Contract or any portion thereof, including any orders issued against the Contract.

18. INSURANCE

A. REQUIREMENTS. At its own expense, Supplier must maintain insurance policy(ies) in effect at all times during the performance of this Contract with insurance company(ies) licensed or authorized to do business in the State of Minnesota having an "AM BEST" rating of A- or better, with coverage and limits of insurance not less than the following:

1. *Workers' Compensation and Employer's Liability.*
Workers' Compensation: As required by any applicable law or regulation.
Employer's Liability Insurance: must be provided in amounts not less than listed below:
Minimum limits:
$500,000 each accident for bodily injury by accident
$500,000 policy limit for bodily injury by disease
$500,000 each employee for bodily injury by disease

2. *Commercial General Liability Insurance.* Supplier will maintain insurance covering its operations, with coverage on an occurrence basis, and must be subject to terms no less broad than the Insurance Services Office ("ISO") Commercial General Liability Form CG0001 (2001 or newer edition), or equivalent. At a minimum, coverage must include liability arising from premises, operations, bodily injury and property damage, independent contractors, products-completed operations including construction defect, contractual liability, blanket contractual liability, and personal injury and advertising injury. All required limits, terms and conditions of coverage must be maintained during the term of this Contract.
Minimum Limits:
$1,000,000 each occurrence Bodily Injury and Property Damage
$1,000,000 Personal and Advertising Injury
$2,000,000 aggregate for products liability-completed operations
$2,000,000 general aggregate

3. *Commercial Automobile Liability Insurance.* During the term of this Contract, Supplier will maintain insurance covering all owned, hired, and non-owned automobiles in limits of liability not less than indicated below. The coverage must be subject to terms no less broad than ISO Business Auto Coverage Form CA 0001 (2010 edition or newer), or equivalent.
Minimum Limits:
$1,000,000 each accident, combined single limit

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

4. *Umbrella Insurance*. During the term of this Contract, Supplier will maintain umbrella coverage over Employer's Liability, Commercial General Liability, and Commercial Automobile.

Minimum Limits:
$2,000,000

5. *Network Security and Privacy Liability Insurance*. During the term of this Contract, Supplier will maintain coverage for network security and privacy liability. The coverage may be endorsed on another form of liability coverage or written on a standalone policy. The insurance must cover claims which may arise from failure of Supplier's security resulting in, but not limited to, computer attacks, unauthorized access, disclosure of not public data – including but not limited to, confidential or private information, transmission of a computer virus, or denial of service.

Minimum limits:
$2,000,000 per occurrence
$2,000,000 annual aggregate

Failure of Supplier to maintain the required insurance will constitute a material breach entitling Sourcewell to immediately terminate this Contract for default.

B. CERTIFICATES OF INSURANCE. Prior to commencing under this Contract, Supplier must furnish to Sourcewell a certificate of insurance, as evidence of the insurance required under this Contract. Prior to expiration of the policy(ies), renewal certificates must be mailed to Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 or sent to the Sourcewell Supplier Development Administrator assigned to this Contract. The certificates must be signed by a person authorized by the insurer(s) to bind coverage on their behalf.

Failure to request certificates of insurance by Sourcewell, or failure of Supplier to provide certificates of insurance, in no way limits or relieves Supplier of its duties and responsibilities in this Contract.

C. ADDITIONAL INSURED ENDORSEMENT AND PRIMARY AND NON-CONTRIBUTORY INSURANCE CLAUSE. Supplier agrees to list Sourcewell and its Participating Entities, including their officers, agents, and employees, as an additional insured under the Supplier's commercial general liability insurance policy with respect to liability arising out of activities, "operations," or "work" performed by or on behalf of Supplier, and products and completed operations of Supplier. The policy provision(s) or endorsement(s) must further provide that coverage is primary and not excess over or contributory with any other valid, applicable, and collectible insurance or self-insurance in force for the additional insureds.

D. WAIVER OF SUBROGATION. Supplier waives and must require (by endorsement or otherwise) all its insurers to waive subrogation rights against Sourcewell and other additional insureds for losses paid under the insurance policies required by this Contract or other

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

insurance applicable to the Supplier or its subcontractors. The waiver must apply to all deductibles and/or self-insured retentions applicable to the required or any other insurance maintained by the Supplier or its subcontractors. Where permitted by law, Supplier must require similar written express waivers of subrogation and insurance clauses from each of its subcontractors.

E. UMBRELLA/EXCESS LIABILITY/SELF-INSURED RETENTION. The limits required by this Contract can be met by either providing a primary policy or in combination with umbrella/excess liability policy(ies), or self-insured retention.

19. COMPLIANCE

A. LAWS AND REGULATIONS. All Equipment, Products, or Services provided under this Contract must comply fully with applicable federal laws and regulations, and with the laws in the states and provinces in which the Equipment, Products, or Services are sold.

B. LICENSES. Supplier must maintain a valid and current status on all required federal, state/provincial, and local licenses, bonds, and permits required for the operation of the business that the Supplier conducts with Sourcewell and Participating Entities.

20. BANKRUPTCY, DEBARMENT, OR SUSPENSION CERTIFICATION

Supplier certifies and warrants that it is not in bankruptcy or that it has previously disclosed in writing certain information to Sourcewell related to bankruptcy actions. If at any time during this Contract Supplier declares bankruptcy, Supplier must immediately notify Sourcewell in writing.

Supplier certifies and warrants that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Supplier certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this Contract. Supplier further warrants that it will provide immediate written notice to Sourcewell if this certification changes at any time.

21. PROVISIONS FOR NON-UNITED STATES FEDERAL ENTITY PROCUREMENTS UNDER UNITED STATES FEDERAL AWARDS OR OTHER AWARDS

Participating Entities that use United States federal grant or FEMA funds to purchase goods or services from this Contract may be subject to additional requirements including the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 C.F.R. § 200. Participating Entities may have additional requirements based on specific funding source terms or conditions. Within this Article, all

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

references to "federal" should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier's Equipment, Products, or Services with United States federal funds.

A. EQUAL EMPLOYMENT OPPORTUNITY. Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-federal entity must report all suspected or reported violations to the federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 C.F.R. § 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-federal entity must report all suspected or reported violations to the federal awarding agency. Supplier must be in compliance with all applicable Davis-Bacon Act provisions.

C. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C. § 3701-3708). Where applicable, all contracts awarded by the non-federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations (29 C.F.R. § 5). Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. This provision is hereby incorporated by reference into this Contract. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

D. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT. If the federal award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. § 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Supplier certifies that during the term of an award for all contracts by Sourcewell resulting from this procurement process, Supplier must comply with applicable requirements as referenced above.

E. CLEAN AIR ACT (42 U.S.C. § 7401-7671Q.) AND THE FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. § 1251-1387). Contracts and subgrants of amounts in excess of $150,000 require the non-federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. § 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. § 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Supplier certifies that during the term of this Contract will comply with applicable requirements as referenced above.

F. DEBARMENT AND SUSPENSION (EXECUTIVE ORDERS 12549 AND 12689). A contract award (see 2 C.F.R. § 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. §180 that implement Executive Orders 12549 (3 C.F.R. § 1986 Comp., p. 189) and 12689 (3 C.F.R. § 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Supplier certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency.

G. BYRD ANTI-LOBBYING AMENDMENT, AS AMENDED (31 U.S.C. § 1352). Suppliers must file any required certifications. Suppliers must not have used federal appropriated funds to pay any

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Suppliers must disclose any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures are forwarded from tier to tier up to the non-federal award. Suppliers must file all certifications and disclosures required by, and otherwise comply with, the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352).

H. RECORD RETENTION REQUIREMENTS. To the extent applicable, Supplier must comply with the record retention requirements detailed in 2 C.F.R. § 200.333. The Supplier further certifies that it will retain all records as required by 2 C.F.R. § 200.333 for a period of 3 years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

I. ENERGY POLICY AND CONSERVATION ACT COMPLIANCE. To the extent applicable, Supplier must comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.

J. BUY AMERICAN PROVISIONS COMPLIANCE. To the extent applicable, Supplier must comply with all applicable provisions of the Buy American Act. Purchases made in accordance with the Buy American Act must follow the applicable procurement rules calling for free and open competition.

K. ACCESS TO RECORDS (2 C.F.R. § 200.336). Supplier agrees that duly authorized representatives of a federal agency must have access to any books, documents, papers, and records of Supplier that are directly pertinent to Supplier's discharge of its obligations under this Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to Supplier's personnel for the purpose of interview and discussion relating to such documents.

L. PROCUREMENT OF RECOVERED MATERIALS (2 C.F.R. § 200.322). A non-federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. § 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

M. FEDERAL SEAL(S), LOGOS, AND FLAGS. The Supplier cannot use the seal(s), logos, crests, or reproductions of flags or likenesses of Federal agency officials without specific pre-approval.

N. NO OBLIGATION BY FEDERAL GOVERNMENT. The U.S. federal government is not a party to this Contract or any purchase by an Participating Entity and is not subject to any obligations or liabilities to the Participating Entity, Supplier, or any other party pertaining to any matter resulting from the Contract or any purchase by an authorized user.

O. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS. The Contractor acknowledges that 31 U.S.C. 38 (Administrative Remedies for False Claims and Statements) applies to the Supplier's actions pertaining to this Contract or any purchase by a Participating Entity.

P. FEDERAL DEBT. The Supplier certifies that it is non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowance, and benefit overpayments.

Q. CONFLICTS OF INTEREST. The Supplier must notify the U.S. Office of General Services, Sourcewell, and Participating Entity as soon as possible if this Contract or any aspect related to the anticipated work under this Contract raises an actual or potential conflict of interest (as described in 2 C.F.R. Part 200). The Supplier must explain the actual or potential conflict in writing in sufficient detail so that the U.S. Office of General Services, Sourcewell, and Participating Entity are able to assess the actual or potential conflict; and provide any additional information as necessary or requested.

R. U.S. EXECUTIVE ORDER 13224. The Supplier, and its subcontractors, must comply with U.S. Executive Order 13224 and U.S. Laws that prohibit transactions with and provision of resources and support to individuals and organizations associated with terrorism.

S. PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT. To the extent applicable, Supplier certifies that during the term of this Contract it will comply with applicable requirements of 2 C.F.R. § 200.216.

T. DOMESTIC PREFERENCES FOR PROCUREMENTS. To the extent applicable, Supplier certifies that during the term of this Contract will comply with applicable requirements of 2 C.F.R. § 200.322.

22. CANCELLATION

Sourcewell or Supplier may cancel this Contract at any time, with or without cause, upon 60 days' written notice to the other party. However, Sourcewell may cancel this Contract immediately upon discovery of a material defect in any certification made in Supplier's

DocuSign Envelope ID: C279AE06-C79C-404C-90A9-BF5B88395528

Proposal. Cancellation of this Contract does not relieve either party of financial, product, or service obligations incurred or accrued prior to cancellation.

9	Proposer's other contacts for this proposal, if any (name, title, address, email address & phone):	Greg Haglin President, Government Solutions Team 523 Carver Lane Lebanon, TN 37087 weiler@govsolutionsteam.com (218) 894-6815	

Table 2: Company Information and Financial Strength

Line Item	Question	Response *	

10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Weiler is an engineering based manufacturer of equipment for the asphalt paving market. The company was founded in 2000 by Pat Weiler. Weiler was an executive with Vermeer prior to starting a contract manufacturing company. The company began by building machines on a contract basis with the intent to have it's own product line. The company purchased the intellectual property of the BG730 road widener and BG650 windrow elevator from Caterpillar in 2005, updated the product and sold and serviced the product through the Caterpillar dealer network. With the input of dealers and end users, the company has introduced more than 25 products to the asphalt paving market since 2005. Weiler continued its relationship with Caterpillar by signing every North America Cat dealers as Weiler dealers. The company has grown from its original 40,000 square foot facility to more than 400,000 square feet and 550 employees. Weiler is vertically integrated and strives to control as much of the manufacturing process as possible with in-house state-of-the-art machining centers, welding, wet and powder coating and assembly operations. As an engineering based manufacturer, products are the focus. Product development comes from listening to the contractor and designing products that meet their needs. We support the product through the Cat dealer network of paving specialists and service technicians along with Weiler product and service support specialists. Weiler has been manufacturing roadway paving equipment since 2005.	*
11	What are your company's expectations in the event of an award?	Weiler's expectations in the event of an award would begin with continued growth in sales of our products to governmental agencies through our Sourcewell contract. This contract will continue to be our go-to-market strategy in the governmental market, and we will position this solution as the top priority for the governmental business of our sales network. Cat equipment is offered on various Sourcewell contracts, therefore, our sales network is familiar with Sourcewell and selling through contracts. Many of the agencies that would have interest in our products are currently purchasing Cat equipment through Sourcewell and have a strong relationship with the sales, service and support team from their local Cat dealer. This is the same group that will be selling, servicing and supporting Weiler products. As a testament to our commitment to contract success in the event of another award, we will continue to engage the proven support and abilities of GST - Government Solutions Team of Lebanon, TN to utilize the Sourcewell contract to its fullest potential. Greg and his team are currently working with Cat dealers and will continue to be a great asset to integrate Weiler products into the Cat dealer governmental sales strategies.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	Weiler is a privately held company and does not release financial statements. The company is financially strong with continued growth for the past 15 years. The business started in a 40,000 square foot facility in 2000. Six major expansions to the facility have taken place since 2008 to the current 400,000 square feet of manufacturing and office space. Employment has grown exponentially as well to more than 550 employees. Sales have grown annually, including during the challenging 2020 fiscal year. Throughout this growth, the company continues to operate debt free. For a financial reference, please contact Brian Hannah at (515) 245-3037 or brian.hannah@wellsfargo.com.	*
13	What is your US market share for the solutions that you are proposing?	By subcategory of equipment: Commercial Pavers - 47% full product offering. The P385B is the highest selling commercial paver in the U.S., 2-to-1 over the closest competitive machine. Road Wideners - 80% Windrow Elevators - 90% Material Transfer Vehicles - 75% Static, Split Drum Compactors - 80% Front Mount Screeds - 50% Tack Distributors - 25% Soil Stabilizer - 50% Force Feed Loader - 25%	*
14	What is your Canadian market share for the solutions that you are proposing?	By subcategory of equipment: Commercial Pavers - 35% Road Wideners - 70% Windrow Elevators - 80% Material Transfer Vehicles - 70% Front Mount Screeds - 40% Tack Distributors - 20%	*
15	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No.	*

ATTACHMENT 1

16	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	Weiler is best described as a manufacturer. Weiler has a very close working relationship with Caterpillar, although no formal partnership connection. All Weiler products are sold and serviced exclusively at Caterpillar dealers across North America. All Cat dealers in North America are also Weiler dealers. Weiler employs 7 territory sales managers in addition to a sales manager. Weiler territory managers work directly with, and support the Cat dealer sales reps and municipal customers through and after the sales process of Weiler machines. Weiler employs 5 product specialists who work with customers for operational training, machine startup support and post sale operation and maintenance support. Weiler employs 5 service support specialists and a service support manager. Weiler service support works directly with Cat dealer service managers and technicians for service related items. In addition, Weiler hosts annual service training at the factory for Cat technicians. To date, more than 500 Cat technicians have been to Weiler service training. Weiler territory managers, product specialists and service specialists are Weiler employees. Dealer sales reps and service technicians are employees of Cat dealers.	*
17	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	N/A. Licenses and certifications are not required.	*
18	Provide all “Suspension or Debarment” information that has applied to your organization during the past ten years.	NA – No suspension or disbarment information has been applied to Weiler.	*

Table 3: Industry Recognition & Marketplace Success

Line Item	Question	Response *	
19	Describe any relevant industry awards or recognition that your company has received in the past five years	Weiler equipment has been widely recognized by industry publications as product leaders in the asphalt paving field. Weiler and our products have been recognized with the following awards: Asphalt Contractor Top 30 Product (E1650) 2018. Asphalt Contractor Top 30 Product (P385B) 2019. Equipment Today Top 50 Product (P265) 2019. Association of Equipment Manufacturers Pillar of the Industry Award 2019. Asphalt Contractor Top 30 Product (P395) 2020. Association of Equipment Manufacturers Advocates Gold Award 2020. Asphalt Contractor Top 30 Product (E1650A) 2021. Equipment Today Top 50 Product (P395) 2021. Asphalt Contractor Top 30 Product (E2850C) 2022. Asphalt Contractor Top 30 Product (P285) 2022.	*
20	What percentage of your sales are to the governmental sector in the past three years	7% of our sales are to governmental agencies. The paving process is quite often outsourced by government agencies, thus our equipment is more typically sold to private contractors. But as we stated in our answers to questions 12 and 13, we are the market share leader in the paving equipment industry. Municipal agencies who perform their own paving prefer Weiler equipment.	*
21	What percentage of your sales are to the education sector in the past three years	0%. Our product is not applicable to the education sector.	*
22	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	Our current Sourcewell contract, and continuing with our future contract if awarded through this RFP, is our go-to-market strategy in the governmental market. As the manufacturer, Weiler does not hold any other cooperative contracts besides Sourcewell.	*
23	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	N/A. Weiler currently does not hold any GSA contracts.	*

ATTACHMENT 1

Table 4: References/Testimonials

Line Item 24. Supply reference information from three customers who are eligible to be Sourcewell participating entities.

Entity Name *	Contact Name *	Phone Number *	
City of Atchison, KS	Seth Howard	(913) 367-5515	*
Franklin County, Alabama	David Palmer	(256) 332-8434	*
Livingston County (NY) Highway Department	Bryan Gall	(585) 243-6700	*

Table 5: Top Five Government or Education Customers

Line Item 25. Provide a list of your top five government, education, or non-profit customers (entity name is optional), including entity type, the state or province the entity is located in, scope of the project(s), size of transaction(s), and dollar volumes from the past three years.

Entity Name	Entity Type *	State / Province *	Scope of Work *	Size of Transactions *	Dollar Volume Past Three Years *	
South Dakota DOT	Government	South Dakota - SD	Highway Paving	$200,000 $200,000 $200,000 $200,000 $200,000	$1,000,000	*
Livingston Co. Highway Department	Government	New York - NY	Road Widening	$300,000 $300,000	$600,000	*
South Carolina DOT	Government	South Carolina - SC	Highway Paving	$200,000 $200,000 $200,000	$600,000	*
Indiana DOT - Indianapolis	Government	Indiana - IN	Highway Paving	$200,000 $200,000 $200,000	$600,000	*
Tennessee DOT	Government	Tennessee - TN	Highway Paving Road Widening	$300,000 $100,000	$400,000	*

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	Weiler dealer network is exclusively the Caterpillar dealer network. The vast number of sales reps in our CAT/Weiler dual dealerships are the "feet on the street" in our US and Canadian sales force at Weiler. Weiler also employs 7 territory sales manager, in addition to a sales manager. Territory sales managers work directly with Cat dealer sales reps across the US and Canada, including governmental sales reps, to determine the appropriate machine to fit the needs of the agency purchasing, pricing and machine specs. Weiler reps will work with dealer reps to ensure machine is ordered with proper options and establish delivery date to meet the needs of the purchasing agency.	*
27	Dealer network or other distribution methods.	Weiler products are sold exclusively through Cat dealers in North America. Every Cat dealer in North America is also a Weiler dealer. Weiler has contracts with each dealer outlining the dealer's primary responsibility for developing and promoting Weiler sales, rentals, parts and servicing of Weiler products within the service territory established by Caterpillar. The Cat dealer network has coverage of every county in the U.S. and province in Canada.	*

28	Service force.	Weiler products are supported and serviced through our dealers' (common with Caterpillar) expert service departments, which are second to none. To further support our customers, Weiler employs 5 service support specialists, in addition to a service manager. Service support specialists work directly with our (and Cat) dealer service teams to quickly diagnose and repair Weiler machines. Weiler conducts annual service training for our (and Cat) dealer technicians with more than 500 Cat dealer technicians having attended in the last five years.	*
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	Our smooth ordering process will take place at the local level, done with and through our experienced dealers. When a Sourcewell member decides to purchase a Weiler product through our Sourcewell contract: 1. The Sourcewell member will include their contract number and Sourcewell member number on the Purchase order they issue to our (the Cat) dealer. 2. Our (and Cat) dealer will issue a PO to Weiler to order machine, if not in inventory at dealer. 3. Our (and Cat) dealer will issue an invoice, accept payment and deliver the machine to the member agency. 4. After the machine has been delivered, the dealer will include the member number when filing their sales claim with Weiler. 5. Weiler will create the quarterly report and send sales information to Sourcewell along with the corresponding administrative fees. Important to note: if additional terms or conditions are requested by a customer, such agreement should be executed with the local dealer.	*
30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	Our front-line customer service team with whom the Sourcewell members will interact is the sales and service teams within our (and CAT's) dealer network. Weiler strategically placed territory managers, product specialists and service specialists work very closely with dealer sales, parts and service personnel to ensure prompt response and resolution to customer service issues. With our relationship with Caterpillar, all Weiler equipment uses Cat engines providing familiarity for field technicians as well as common parts for best-in-class parts availability. Weiler service specialists are available 24 hours a day, 7 days a week for dealer support. Weiler service specialists and design engineers will travel to the customer when needed to address a service and/or machine performance concern. Weiler provides suggested stocking lists for dealers for all Weiler equipment. Weiler has parts readily available to ship in the event the dealer does not have in stock. Parts orders have priority over production parts in the factory, meaning all parts orders will be processed through the factory before production parts, if the part is not in stock. 95% of parts are available to customers within 24 hours.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	Weiler is able and willing to provide our products and services to Sourcewell members throughout the United States. Our current and pending Sourcewell contract is Weiler's go-to-market strategy in the governmental market. Weiler has sold and serviced equipment in all 50 states. The Weiler dealer network has strategic, geographical coverage for every county in the U.S.	*
32	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	Weiler is able and willing to provide our products and services to Sourcewell members throughout Canada. Our current and pending Canoe contract is Weiler's go-to-market strategy in the Canadian governmental market. Weiler has sold and serviced equipment in 8 provinces. The Weiler (and CAT) dealer network has strategic, geographical coverage for every province in Canada.	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	There is NO geographical area of the United States or Canada which Weiler does not serve.	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	Weiler is capable of servicing all Sourcewell participating entity sectors. We are not limited by any existing contracts. Sourcewell is our go-to-market strategy.	*
35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	Weiler has NO unique requirements for members in Hawaii, Alaska or the US Territories.	*

Table 7: Marketing Plan

ATTACHMENT 1

Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	If awarded a new Sourcewell contract, this will continue to be our go-to-market strategy for the governmental market. Weiler is very committed to cooperate with Sourcewell to further train our sales management team and our dealer sales representatives to ensure maximum awareness and embracement of our Sourcewell contract. To show our commitment to our Sourcewell contract, we have engaged to deploy the proven ability of GST - Government Solutions Team of Lebanon, TN to build maximum embracement throughout our dealer network. GST will be available in-territory to assist our dealers to increase awareness and comfort for members' in the Sourcewell process. If awarded a contract, Weiler will send out a Pavecast (a Weiler video podcast distributed to our dealer network) announcing the award and providing information on the new contract number. See attachment Weiler Govt Purchasing Brochure. We will update our Governmental Purchasing Guide literature to include the new contract information. This guide is available on our public (weilerproducts.com) and dealer (weilerdealer.com) website. We will update our Government Solutions website page (weilerproducts.com/support/government-solutions) with the new contract new and link to Sourcewell website. At every opportunity Weiler territory managers have to present at dealer sales meetings, we provide a slide with information about our Sourcewell contract. We will continue to promote the contract at internal and external sales meetings. Weiler participates in the annual Cat dealer GIDEX event as a sponsor and presenter, and will continue to do so and promote our Sourcewell contract, if awarded.	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Our dealer focused Pavecasts, video podcasts, are sent directly to our dealer sales force via email and accessible on our dealer website. These Pavecasts cover a variety of topics related to Weiler sales initiatives and will include one dedicated to the new Sourcewell contract if awarded. We are active on various social media platforms and will include a post across all platforms announcing the new contract, if awarded.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	Sourcewell is a well-respected contracting agency within the public procurement industry. It is important, in the event of an award, that our products and logos be included in Sourcewell marketing and website. We believe that the most important role that Sourcewell can play in marketing our contract and products, is to market themselves and promote contract purchasing across the industry. Weiler will promote the Sourcewell contract during all sales meetings with governmental agencies. Our territory managers remind dealer sales reps that Weiler has a Sourcewell contract anytime we learn of an opportunity to sell to a governmental entity and ask the question if they have presented the Sourcewell contract as a purchase option.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	With limited application. Our products are very technical in nature and require significant interaction with our product experts to ensure the machine is configured to meet the needs of the agency. Our dealers will work with their local agencies to become registered vendors in their e-procurement system.	*

Table 8: Value-Added Attributes

ATTACHMENT 1

Line Item	Question	Response *	
40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Weiler provides operation and maintenance training at the startup of each machine. A Weiler factory representative will coordinate with the servicing dealer as to when the machine will startup and be onsite throughout the first day of operation. In addition to Weiler factory reps, our dealers have a Paving Specialist who is also available to the member for training and follow up support. Many dealers, along with Weiler reps, offer off-season training classes for operation and maintenance. Dealers will communicate with members if and when those trainings are available. Jobsite starting training with Weiler factory representation is provided at no charge.	*
41	Describe any technological advances that your proposed products or services offer.	Weiler holds seven patents, with additional patents pending, for features on our products. Weiler innovations have become the standard throughout the industry. Weiler engineers are continually advancing the products to provide extended wear life and lower operating costs for the customer. We feel we are the value leader in the industry with lowest cost of ownership and highest resale values.	*
42	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Our machines use the latest Cat engines with lowest fuel consumption in the paving industry. Asphalt is a recyclable product. Much of the new asphalt produced today consists of up to 50% recycled materials, including old asphalt and recycled roof shingles.	*
43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Weiler strives for energy efficiency throughout the factory. LED lights were installed for significantly reduced energy usage. Steel is recycled and sent back to steel mills for zero waste.	*
44	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	N/A.	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Weiler products are industry leading and have changed the standard for commercial size paver and material transfer vehicle customers. Competitors have introduced new products in an attempt to offer similar features and benefits found in our products. Weiler’s relationship with Caterpillar provides us with the most extensive dealer network in the paving industry. Our dealers hold the largest parts inventory and largest number of service technicians available in the industry.	*

ATTACHMENT 1

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
46	Do your warranties cover all products, parts, and labor?	Yes. Our warranty covers all products, part and labor. Details are included in the Attached Weiler Limited Warranty document.	*
47	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	We do not impose usage restrictions. Our warranty covers defects in workmanship and material throughout the specified warranty timeframe, as long as the machine is used as designed.	*
48	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	No, Our warranty does not cover travel time and mileage, as standard in our industry.	*
49	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	We have no geographical region which we are unable to provide a certified technician to perform warranty repair. Our dealer network provides unmatched coverage throughout North America.	*
50	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Warranty repair for Weiler machines is typically performed by our dealer service technicians. Certain components, such as tires, batteries, etc., are warranted by their manufacturers and may have different warranty than that of Weiler.	*
51	What are your proposed exchange and return programs and policies?	We warrant that each Weiler machine will be free of defects in workmanship and material and operate as intended at time of delivery. If not, Weiler will make any necessary corrections.	*
52	Describe any service contract options for the items included in your proposal.	Through this proposed contract, Weiler is offering extended warranty options with various term length and coverage options including: 1) Powertrain 2) Powertrain + Hydraulics 3) Powertrain + Hydraulics + Electric Details of these extended warranty options are included in the attached Weiler Extended Warranty documents. Our dealers offer members the option to enter into a Customer Service Agreement (CSA) to perform routine maintenance and/or repairs. Each CSA contract is customizable to the member needs. Members can work with their local Weiler dealer for additional details on available CSA options.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
53	Describe any performance standards or guarantees that apply to your services	Weiler stands behind our product 100%. If the product does not perform to expectations, we will buy back the product or replace with a mutually agreed upon substitute.	*
54	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	Weiler strives for minimal downtime for customers through dealer inventoried parts and trained technicians. Our parts analyst works closely with our dealers to ensure they have the appropriate amount of Suggested Stocking List parts on-hand, based on the number of similar machines within their servicing territory. In the instance, the dealer does not have the part on-hand, Weiler will strive to have the part delivered as soon as possible to minimize machine downtime for the member. Weiler standard policy is for dealer technicians to contact Weiler service specialists with any questions as soon as needed. In the instance, the issue cannot be resolved over the phone, Weiler service specialists will travel to the machine to diagnose and repair with as minimal downtime as possible.	*

ATTACHMENT 1

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
55	Describe your payment terms and accepted payment methods.	Our dealers accept payment from members and their terms and accepted methods may vary. Net 30 is the most common term.	*
56	Describe any leasing or financing options available for use by educational or governmental entities.	Our dealers offer many leasing and financing options. Weiler equipment has special financing rates available through Cat Finance and Wells Fargo. In addition, our dealers may have additional financing programs established within their service territory available to Sourcewell members.	*
57	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Dealers are required to provide Weiler with a copy of the sales agreement with the member to: 1) Ensure proper pricing has been applied 2) Ensure the proper administrative fee is submitted to Sourcewell	*
58	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Since our dealers will be receiving payments direct from Sourcewell members, accepting P-card procurement will be at their discretion. Many dealers accept this method without additional fees. Some have limitations on the amount that can be processed.	*

ATTACHMENT 1

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
59	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our proposed contract pricing is simple. We offer to all Sourcewell members, a substantial discount off current list price at the date of their order. Current machine list price is in the attached Sourcewell Price List document, For execution of the agreement, we will ask dealers and members to use the price list that is current at the time of the quote. Dealers will work with the member to configure the machine with desired specs and apply the minimum Sourcewell discount.	*
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Weiler will offer a discount of 10% off list price for the entire Weiler product offering.	*
61	Describe any quantity or volume discounts or rebate programs that you offer.	Our dealers are empowered to consider purchase order volume, repeat customer relationships, etc., and may provide additional volume discounts at their discretion.	*
62	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Sourced goods/open market items are available to members from our dealers. These goods and services will be priced at fair market value and will be determined between the member and the selling dealer.	*
63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Dealers will include a PDI price in the initial quote to the member. The PDI (Pre- Delivery Inspection) price varies by dealer and machine being quoted. Any additional dealer costs will be itemized and included in the quote to the member.	*
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Machine pricing is F.O.B. from Weiler’s facility in Knoxville, IA. Sourcewell members will be charged for freight to their local dealer, which will vary by dealer location. Delivery from the dealer location to the Sourcewell member's location will also be charged to the member if delivery is requested.	*
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Machine pricing is F.O.B. from Weiler’s facility in Knoxville, IA. No unique conditions apply to these regions.	*
66	Describe any unique distribution and/or delivery methods or options offered in your proposal.	If there are any unique member requirements our dealers will work with the members on a case by base basis.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
67	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	This proposed contract will be our go-to-market strategy across the US and Canada and is priced accordingly.

Table 13: Audit and Administrative Fee

ATTACHMENT 1

Line Item	Question	Response *	
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	For each Sourcewell sale, we require the dealer to submit to Weiler a copy of the sales order to the purchasing entity to confirm: 1) that proper pricing has been applied, 2) the proper contract and member numbers were included on the sales offer to the customer, and 3) to provide the proper administrative fee to Sourcewell. We internally track sales of all our products to end users. Each quarter we review all sales to governmental agencies and verify if that sale was through the Sourcewell contract. Two Weiler employees review sales quarterly to ensure all Contract sales are reported. Once Sourcewell sales are verified, the quarterly report is prepared by our marketing coordinator, approved by the marketing manager and submitted for payment to our accounting department.	*
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Weiler will review governmental sales quarterly and compare Sourcewell versus overall sales. Our goal with the contract is to increase the percentage of Sourcewell sales in relation to overall governmental sales.	*
70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Weiler proposes a 1% administrative fee to Sourcewell for the sale of new machines made through the Sourcewell contract.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

ATTACHMENT 1

Line Item	Question	Response *	
71	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	Weiler manufactures an extensive range of paving related equipment, sold and serviced through our dealers' highly qualified personnel. We will be offering new and used asphalt pavers, road wideners, windrow elevators, material transfer vehicles, compactors, soil stabilizer, force feed loader and tack distributors. Our dealers will provide parts, service and CSA options to meet the needs of the agencies. Asphalt Pavers Weiler offers 6 models of pavers with various paving ranges. Our path/utility paver has a paving range of 3'10" - 9', and utilized for utility patch work and path paving throughout communities. Our line of 8' pavers provide options for new road construction, road overlays and commercial work including parking lots and patch work. A variety of governmental agencies, from state DOTs to counties and cities, are currently utilizing Weiler pavers for roadway maintenance throughout North America. Road Wideners Weiler road wideners are used for widening roads, maintaining shoulders and trench filling. Weiler offers four wideners. The wideners are capable of widening from 1’ to 14’ with depths 12” below and 12” above grade. Wideners are typically utilized by county and state road departments to maintain and build shoulders alongside two and four lane highways. Windrow Elevators Windrow elevators are used in the paving process to pick up asphalt material laid by bellow-dump trucks and place in the paver hopper. Windrow paving is utilized in the western half of North America. Windrow elevators are typically used in highway paving new construction and resurfacing applications. Material Transfer Vehicles Weiler remixing transfer vehicles are used in the paving process to provide non-contact, non-stop paving with reduced particulate and thermal segregation. Typically used in highway paving new construction and resurfacing applications, but can be used in applications where the transfer vehicle is feeding material to the paver in an area where trucking is challenging. Compactors Weiler offers 3 static compactors and 1 pneumatic compactor used in a variety of road maintenance operations. The compactor’s split front drum reduces tearing in the new asphalt mat, especially in curved sections of roads. Soil Stabilizer The Weiler S200 soil stabilizer is offered with either a soil or combination rotor and is utilized in base stabilization and is currently being used by a number counties to condition gravel roads by mixing an additive into the roads that improves and extends the life of the rock on the road. Force Feed Loader The Weiler E1050 force feed loader is engineered to perform in a variety of applications year-round. The loader picks up soil, asphalt millings, snow, debris and other windrowed materials for high production material transfer. MotorGrader The G65 motor grader is built from a lineage of market leaders for more than 70 years and is the industry leading compact motor grader. The G65 incorporated big grader features in a compact package with canopy or cab option along with versatile optional equipment including moldboard extensions, bank slope, scarifier, dozer blade and ripper. Tack Distributors Weiler offers 8 different trailer and skid mounted tack distributors ranging from 150 gallon to 600 gallon capacity. Tack distributors are used to spray tack prior to placing asphalt on the new or existing surface. Lower capacity tack distributors are ideal for patch work common with city, county and state road departments.	*
72	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Road Construction Equipment Road Widening Equipment Asphalt Paving	*

ATTACHMENT 1

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Indicate below if the listed types or classes of equipment, products, and services are offered within your proposal. Provide additional comments in the text box provided, as necessary.

Line Item	Category or Type	Offered *	Comments
73	Asphalt pavers, screeds, distributors, and loaders	(•) Yes ( ) No	6 asphalt paver models. 3 screed models. 4 material transfer vehicle models. 2 windrow elevator models. 1 force feed loader model.
74	Steel-wheeled and pneumatic tire rollers	(•) Yes ( ) No	3 steel-drum compactor models. 1 pneumatic tire compactor model.
75	Wideners, tack distributors, cold planers, and compactors	(•) Yes ( ) No	4 road widener modes. 8 tack distributor models. 1 soil stabilizer model.
76	Concrete mixers, and gunite or shotcrete delivery equipment	( ) Yes (•) No	N/A
77	Other	( ) Yes (•) No	N/A

Table 15: Exceptions to Terms, Conditions, or Specifications Form

Line Item 78. **NOTICE**: To identify any exception, or to request any modification, to the Sourcewell template Contract terms, conditions, or specifications, a Proposer must submit the exception or requested modification on the **Exceptions to Terms, Conditions, or Specifications Form** immediately below. The contract section, the specific text addressed by the exception or requested modification, and the proposed modification must be identified in detail. Proposer's exceptions and proposed modifications are subject to review and approval of Sourcewell and will not automatically be included in the contract.

Contract Section	Term, Condition, or Specification	Exception or Proposed Modification

Documents

Ensure your submission document(s) conforms to the following:

1. Documents in PDF format are preferred. Documents in Word, Excel, or compatible formats may also be provided.

2. Documents should NOT have a security password, as Sourcewell may not be able to open the file. It is your sole responsibility to ensure that the uploaded document(s) are not either defective, corrupted or blank and that the documents can be opened and viewed by Sourcewell.

3. Sourcewell may reject any response where any document(s) cannot be opened and viewed by Sourcewell.

4. If you need to upload more than one (1) document for a single item, you should combine the documents into one zipped file. If the zipped file contains more than one (1) document, ensure each document is named, in relation to the submission format item responding to. For example, if responding to the Marketing Plan category save the document as “Marketing Plan.”

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:
    1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    2. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://sam.gov/SAM/; or

    3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable, or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Andy Adamcik, Marketing Manager, Weiler Inc.

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

AMENDMENT #1
TO
CONTRACT # 060122-WLR

THIS AMENDMENT is effective upon the date of the last signature below by and between **Sourcewell** and **Weiler Inc.** (Supplier).

Sourcewell awarded a contract to Supplier to provide Roadway Paving Equipment to Sourcewell and its Participating Entities, effective August 9, 2022, through August 1, 2026 (Contract).

NOW, THEREFORE, the parties wish to amend the Contract as follows:

> Section 18. Insurance–Subsection A. Requirements– Item 5. Network Security and Privacy Liability Insurance of the Contract is deleted in its entirety.

Except as amended by this Amendment, the Contract remains in full force and effect.

This quote is made in accordance with SOURCEWELL CONTRACT 060122-WLR.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING ISSUANCE OF A PURCHASE ORDER TO PETERSEN CAT FOR A WEILER P65 PAVER IN AN AMOUNT NOT-TO-EXCEED $143,554 AND APPROPRIATING $143,554 FROM THE FLEET INTERNAL SERVICE FUND TO PURCHASE THE PAVER

The City of Livermore ("City") Maintenance Division utilizes various equipment, including an asphalt paver, to repair asphalt surfaces throughout the City. The City's Fleet Policy currently recommends the replacement of the City's asphalt paver.

Livermore Municipal Code section 2.68.370 allows for the purchase of equipment with a value higher than $50,000 through a cooperative purchasing arrangement. Livermore Municipal Code section 2.68.390 identifies specific cooperative purchasing agencies and counties that are pre-approved.

Weiler Inc. ("Supplier") holds the Sourcewell (formerly National Joint Powers Alliance) competitively bid cooperative purchasing contract for roadway paving equipment. Livermore Municipal Code section 2.68.390 identifies the National Joint Powers Alliance as an approved cooperative purchasing arrangement.

On June 12, 2024, the City received a quote from Peterson Tractor Co. d/b/a Peterson Cat ("Dealer"), an authorized dealer of paving equipment manufactured by Supplier, for one 2024 Weiler P65 Paver in the amount of $143,554. Dealer agreed that the quoted price would remain valid until December 9, 2024.

The funding for the replacement asphalt paver was included in the Fleet Internal Services Fund FY 2023-24 budget. Since FY 2023-24 ended on June 30, 2024, the unused replacement asphalt paver budget reverted to fund balance. As such, an appropriation of $143,554 from the Fleet Internal Services Fund is required to purchase the 2024 Weiler P65 Paver.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Authorizes the City Manager, or her designee, to execute a purchase order, on behalf of the City of Livermore, with Peterson Tractor Co. d/b/a Peterson Cat in an amount not-to-exceed $143,554 for the purchase and delivery of one 2024 Weiler P65 Paver in accordance with the terms, specifications and general provisions specified in Sourcewell Contract #060122-WLR and sections 2.68.370 and 2.68.390 of the Livermore Municipal Code.

2. Appropriates $143,554 from the Fleet Internal Service Fund for the purchase of one 2024 Weiler P65 Paver.

3. Authorizes the City Manager, or her designee, to take whatever actions are necessary and appropriate to carry out the purpose and intent of this resolution.

CITY COUNCIL STAFF REPORT **ITEM NO. 5.13**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Tina Olson, Administrative Services Director

SUBJECT: Resolution authorizing execution of an agreement with NFP Retirement, Inc. for consultant services pertaining to the City's Deferred Compensation Plans in an amount not-to-exceed $208,000, and a term ending June 30, 2029.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute the agreement with NFP Retirement, Inc. for consultant services pertaining to the City's Deferred Compensation Plans in an amount not-to-exceed $208,000, and a term ending June 30, 2029.

SUMMARY

The City requires professional services to assist in the administration of deferred compensation plans, including, but not limited to, investment options, investment performance evaluation, record keeping, requests for proposals from third party plan providers, and other matters related to the plans.

NFP Retirement, Inc. possesses the distinct professional skills, qualifications, experience, and resources necessary to timely perform the services described in the agreement.

DISCUSSION

The City sponsors a 457(b) plan for the benefit of its eligible employees. The City's Deferred Compensation Committee will use the consultant services of NFP Retirement Inc. to serve as an advisor to the City on matters relating to Deferred Compensation Plan administration and compliance; provide technical and professional support to the City regarding the Plans, including working with Human Resources to update/complete Plan documents. NFP Retirement Inc. will meet quarterly with the City's Deferred Compensation Committee to review the Annual Investment Policy Statement, report on legislative updates and ongoing educational sessions, provide periodic investment performance review analysis, periodic vendor performance review analysis, periodic compliance reviews, provider renegotiation, and additional services. Staff recommends City Council approve a five-year contract with the consultant so that the City can continue to provide professional services to assist in the administration of deferred compensation plans.

FISCAL AND ADMINISTRATIVE IMPACTS

The Deferred Compensation Plan provides funding for this agreement therefore no additional appropriations are necessary.

COMMUNITY PILLAR

5: A City That Works

GOAL

8: Attract, develop, engage, and retain a diverse and highly skilled workforce across the organization.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF AN AGREEMENT WITH NFP RETIREMENT, INC. FOR CONSULTING SERVICES PERTAINING TO DEFERRED COMPENSATION PLANS IN AN AMOUNT NOT-TO-EXCEED $208,000, AND A TERM ENDING JUNE 20, 2029

The City of Livermore ("City") requires professional services to assist in the administration of deferred compensation plans, including, but not limited to, investment options, investment performance evaluation, record keeping, requests for proposals from third party plan providers, and other matters related to the plans.

The City's Deferred Compensation Committee ("Committee") selected NFP Retirement, Inc. based on overall experience, familiarity with Livermore processes, quality of personnel, and ability to respond to the City's needs on a timely basis. Based on the unanimous vote of the Committee, NFP Retirement, Inc. was selected to serve as the advisor to the City on matters relating to the deferred compensation plan's administration and compliance; and provide technical and professional support to the City regarding the plans, including working with Human Resources to update/complete plan documents.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager to execute an agreement with NFP Retirement, Inc., attached hereto as Exhibit A, to perform professional, technical, and specialized benefits services related to Deferred Compensation Plan administration as specified by City of Livermore in support of its Human Resources business activities, in an amount not-to-exceed $208,000 and a term ending June 30, 2029.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT is made and entered into this ___ day of _____, 2024, by and between the City of Livermore ("City"), a municipal corporation, and NFP Retirement, Inc., ("Consultant"),a California corporation.

RECITALS

City requires professional services to assist the City in the administration of deferred compensation plans, including, but not limited to, investment options, investment performance evaluation, record keeping, requests for proposals from third party plan providers, and other matters related to the plans.

Consultant warrants it possesses the distinct professional skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Consultant acknowledges City has relied upon these warranties to retain Consultant.

AGREEMENT

NOW, THEREFORE, City and Consultant hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Consultant. City hereby retains Consultant, and Consultant hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Consultant and its employees are not City officers or employees. Consultant is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Consultant shall provide the following professional services as more particularly set forth in Exhibit "A" (collectively "the Services"):

Consultant shall serve as the advisor of the City on matters relating to Deferred Compensation Plan administration and compliance; and provide technical and professional support to the City regarding the Plans, including working with Human Resources to update/complete Plan documents. Consultant shall provide services including, but not limited to, investment options, investment performance evaluation, record keeping, request for proposals from third-party plan providers, renegotiation services with third-party plan providers, assuming specified fiduciary obligations, and other matters related to the Plan. It is understood that the City may choose which individual component services it desires from Consultant on an as needed basis, and may determine when those services are to be provided. The City is not obligated to select any specific services as more particularly set forth in Exhibit "A".

DocuSign Envelope ID: 46DA1E59-1C42-41AB-871D-29D0CB7B4500

Fiduciary Role under ERISA (Disclosed pursuant to and in accordance with the 408(b)(2) regulation): The Advisor acknowledges that it is a fiduciary with respect to the Plan under Section 3(21)(A)(ii) of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and, as such, is a co-fiduciary with the plan sponsor fiduciary(ies) of the Client's Plan solely with respect to (a) the provision of investment education of the employer and/or plan participants (depending on the specific advisory services provided; (b) the periodic reporting on, and analysis of, the investment options available under the Plan, excluding company stock and investments made available through a brokerage account/window or similar such investment vehicle; and (c) the provision of advice to the plan sponsor fiduciary(ies) regarding the elimination or addition of investment options available under the Plan; provided, however, that the plan sponsor fiduciary(ies) acknowledge and agree that the plan sponsor fiduciary(ies) have the final and conclusive responsibility for the investment options selected to be available under the Plan. The Adviser will not be responsible for investment decisions made by the Plan participants with respect to the investment of their individual accounts.

4. **Consultant's Responsibilities.** Consultant shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Consultant to practice its profession and to provide the Services;

(e) Comply with all laws in effect that are related to Consultant and the Services;

(f) Coordinate the Services with Eddie Jimenez, Human Resources ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Consultant by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Consultant's invoice shall be in writing and describe the Services performed for the payment requested. Consultant shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Consultant and must include time sheets, work progress reports,

DocuSign Envelope ID: 46DA1E59-1C42-41AB-871D-29D0CB7B4500

and other documentation to adequately explain all the Services invoiced for payment. Consultant shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Consultant shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Consultant and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Consultant shall correct, at its own expense, all errors in the Services. Should Consultant fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Consultant;

(l) If applicable, Consultant shall ensure that all work for compensation is provided in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Consultant shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Consultant shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each laborer, worker, or mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Consultant's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as all applicable regulations and guidelines issued pursuant to the ADA.

5. Compensation and Payment.

(a) The total compensation payable by City to Consultant for the Services **SHALL NOT EXCEED** the sum of $208,000 ("not-to-exceed amount"). City shall compensate Consultant for the Services rendered at the hourly rates, task amounts or travel expenses set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates, task amounts or travel expenses are intended to be Consultant's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Consultant, its agents, and employees to provide the Services.

(b) City shall pay Consultant no later than 30 days after City receives a written invoice from Consultant and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 1, 2024, and terminates upon the completion of the Services or June 30, 2029, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Consultant at least 30 calendar-days written notice. Upon receipt of a termination notice, Consultant shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and then assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Consultant in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Consultant in the performance of the Services are City's property and Consultant shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Consultant for City under this Agreement are works made for hire, and Consultant shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Consultant agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Consultant to City and Consultant obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

10. Confidentiality. Consultant shall not disclose any confidential or proprietary information received from City to anyone except Consultant's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Consultant shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Consultant's performance of the services contemplated by this Agreement, or in connection with Consultant's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Consultant's obligations to hold harmless, indemnify, and defend shall not be excused because of Consultant's inability to evaluate Liability or because Consultant evaluates Liability and determines that Consultant is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Consultant must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Consultant's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Consultant's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Consultant shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Consultant shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Consultant's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Consultant for, the Services does not release Consultant from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Consultant's responsibility or liability by City for any defect or error in the Services.

15. Conflict of Interest. Consultant represents that no City employee or official has a financial interest in Consultant. Consultant shall not offer, encourage, or accept any financial interest in any part of Consultant's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private party, Consultant represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Consultant shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Consultants' financial interest. While it is Consultant's sole responsibility to evaluate its conflicts of interest, the Consultant nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other consultants to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Consultant shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty-percent or more in the ownership or control of Consultant constitutes an assignment. Notwithstanding anything to the contrary in the foregoing, no assignment, as interpreted under the Investment Advisers Act of 1940, as amended ("Advisers Act") and Securities and Exchange Commission guidance, of the Agreement shall be made by the Consultant without City consent. In the event of a change-in-control of the Consultant, such consent may be obtained through a "negative consent" process by which the Consultant notifies City in writing of the planned transaction and gives it an opportunity to object in writing (i.e., at least thirty (30) days) to a continuation of the Agreement after the change-in-control.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Consultant must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Eddie Jimenez, HR Analyst I
City of Livermore
1052 S Livermore Avenue

Aliso Viejo, CA 92656

DocuSign Envelope ID: 46DA1E59-1C42-41AB-871D-29D0CB7B4500

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

EXHIBIT A

Exhibit A – Scope of Services

Perform professional, technical, and specialized Benefits services related to Deferred Compensation Plan administration as specified by City of Livermore in support of its Human Resources business activities. The City shall select the services to be provided from time to time from the list of services below. The cost of the selected services shall not exceed the amount(s) indicated for the term of this agreement:

FIDUCIARY RESPONSIBILITIES	
• Annual Investment Policy Statement **(per review)** • Committee meetings to include legislative updates and ongoing educational sessions **(per meeting)**	**$2,000** **$4,000**
PERIODIC INVESTMENT PERFORMANCE REVIEW ANALYSIS (per review)	**$6,000**
• Market Overview • Executive Summary specific to the City's combined plans • Performance to peer group and index benchmarking • Watch list recommendations • Assist with investment fund additions/deletions	
PERIODIC VENDOR PERFORMANCE REVIEW ANALYSIS (per review)	**$ 5,500**
• Development of performance standards and financial guarantees • Review of provider performance standards • Determination of financial guarantees • Addressing performance issues	
PERIODIC COMPLIANCE REVIEWS	**INCLUDED**
☐ Review and analysis of existing compliance and administrative procedures including the Plan Document and Investment Policy Statement	
COMPREHENSIVE COMPLIANCE AUDIT	**$20,000**
☐ Comprehensive audit of additional areas likely to be examined in an IRS audit including, but not limited to, eligibility requirements, adherence to annual maximums, catch up provisions, hardship withdrawal, loan requirements and domestic relations orders	
PROVIDER RENEGOTIATION	**$24,500**
We will solicit plan enhancements from the existing provider to improve previously targeted areas. This component includes: • Meet with the City and Committee to establish goals and objectives to attain through renegotiation • Develop a timeline for the renegotiation process • Negotiate with current provider based upon desired goals and objectives • Lead the transition from current plan to negotiated plan • Assist with participant communications throughout the process • Assist with the preparation of the recommendation to City Council • Contract review based upon negotiated agreements	
For additional Services Requested Outside of Scope at Hourly Rate	
• Professional Staff • Administrative Staff	**$325** **$165**

All Consultant payment(s) shall be made from funds paid to the City by its Deferred Compensation provider. Such payment(s) shall not exceed the amounts listed above in this scope of services.

DocuSign Envelope ID: 46DA1E59-1C42-41AB-871D-29D0CB7B4500

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $2,000,000 per occurrence/**$4,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $1,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability."
4. Professional Liability/Errors and Omissions:
   $2,000,000 per claim. Consultant/Contractor warrants that any retroactive date under this policy shall precede the effective date of this contract and, either continuous coverage will be maintained, or an extended discovery period will be exercised for a period of two years beginning at the time work under this contract is completed.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated

DocuSign Envelope ID: 46DA1E59-1C42-41AB-871D-29D0CB7B4500

volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.14**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Tina Olson, Administrative Services Director

SUBJECT: Resolution authorizing the execution of an agreement with Eide Bailly, LLP for auditing services in an amount not-to-exceed $360,000 for fiscal years 2023-24 and 2024-25.

RECOMMENDED ACTION

Staff recommends that the City Council adopt a resolution authorizing the City Manager to execute an agreement with Eide Bailly, LLP for auditing services in an amount not-to-exceed $360,000 for fiscal years 2023-24 and 2024-25.

SUMMARY

All local government entities are required to have an independent audit of their annual financial statements.

The City has been in contract with Eide Bailly for the last three years to provide auditing services. At the start of that contract, the City had the option of entering a contract with Eide Bailly for an additional two years. City staff would like to continue with Eide Bailly through the next two years.

DISCUSSION

The City is required to undergo an audit of its year-end financial reporting and the supporting accounting records by independent auditors. The independent auditors play an important and reassuring role in testing and evaluating the City's system of internal controls and overall financial management for signs of strengths and weaknesses and reporting the results. The auditors also perform compliance testing and assist in the preparation of reports required by the State and Federal governments.

The City's current three-year agreement has ended with the completion of the annual financial audit for the fiscal year ended June 30, 2023. The City had the option to extend the contract for an additional two years. The City recently completed the transition to the new Enterprise Resource Planning (ERP) financial system. Staff believes it would be beneficial to execute the option of a two-year contract with Eide Bailly to complete the two audits that includes the first year of the transition to the ERP financial system. Eide Bailly is familiar with the chart of accounts in the prior financial system which will make it

easier for Eide Bailly to understand the crosswalk of the chart of accounts to the new ERP financial system. In addition, staff has had a positive working relationship with Eide Bailly. Therefore, staff recommends that City Council award a professional services agreement for auditing services to Eide Bailly. The proposed agreement would provide audit services for fiscal years 2023-24 through 2024-25.

FISCAL AND ADMINISTRATIVE IMPACTS

The total amount of the two-year agreement is not to exceed $360,000, with the base audit fee of $300,228 and a contingency of $59,772 for testing of second major program for the federal awards audit and other reports if required.

This fee is shared amongst the General Fund, Measure B funds, and certain other funds, which require compliance reporting. The amount for fiscal years 2023-24 and 2024-25 audit has already been incorporated into the approved budget, therefore no additional appropriation is required at this time.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING THE EXECUTION OF AN AGREEMENT WITH EIDE BAILLY, LLP FOR AUDITING SERVICES IN AN AMOUNT NOT-TO-EXCEED $360,000 FOR FISCAL YEARS 2023-24 AND 2024-25

The City of Livermore ("City") is required to undergo an audit of its year-end financial reporting and the supporting accounting records by independent auditors. The independent auditors play an integral role in testing and evaluating the City's internal controls and overall financial management for strengths and weaknesses and for reporting these results.

The City has been in contract with Eide Bailly, LLP for the last three years to provide auditing services. City staff would like to continue with Eide Bailly, LLP through the next two fiscal years.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager to execute a professional services agreement with Eide Bailly LLP for auditing services for fiscal years 2023-24 and 2024-25, attached hereto as Exhibit A, in an amount not to exceed $360,000.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

PROFESSIONAL SERVICES AGREEMENT

THIS AGREEMENT is made and entered into this ___ day of _____, 2024, by and between the City of Livermore ("City"), a municipal corporation, and Eide Bailly Advisors, LLC("Consultant"),a limited liability company.

RECITALS

City requires professional services to provide independent auditing services and preparation of financial reports.

Consultant warrants it possesses the distinct professional skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Consultant acknowledges City has relied upon these warranties to retain Consultant.

AGREEMENT

NOW, THEREFORE, City and Consultant hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Consultant. City hereby retains Consultant, and Consultant hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Consultant and its employees are not City officers or employees. Consultant is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Consultant shall provide the following professional services as more particularly set forth in Exhibit "A" (collectively "the Services"):

To provide independent auditing services and preparation of financial reports

4. Consultant's Responsibilities. Consultant shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Consultant to practice its profession and to provide the Services;

(e) Comply with all laws in effect that are related to Consultant and the Services;

(f) Coordinate the Services with Erik Peterson, Finance Manager ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Consultant by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Consultant's invoice shall be in writing and describe the Services performed for the payment requested. Consultant shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Consultant and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Consultant shall make the invoices and records promptly available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. If City requests the invoices and records prior to their destruction, Consultant and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Consultant shall correct, at its own expense, all errors in the Services. Should Consultant fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Consultant;

(l) If applicable, Consultant shall ensure that all work for compensation is provided in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Consultant shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law.

(m) Consultant's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as all applicable regulations and guidelines issued pursuant to the ADA.

5. <u>Compensation and Payment</u>.

(a) The total compensation payable by City to Consultant for the Services

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

SHALL NOT EXCEED the sum of $360,000 (base fee of $155,341 for fiscal year 2023-24; $157,748 for fiscal year 2024-25 and contingency of $10,000 for testing of second major program for federal award audits each year) ("not-to-exceed amount"). City shall compensate Consultant for the Services rendered at the hourly rates, task amounts or travel expenses set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates, task amounts or travel expenses are intended to be Consultant's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Consultant, its agents, and employees to provide the Services.

(b) City shall pay Consultant no later than 30 days after City receives a written invoice from Consultant and verifies the Services were performed for the payment requested.

6. Term. The term of this Agreement commences on July 22, 2024, and terminates upon the completion of the Services or March 31, 2026, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Consultant at least 30 calendar-days written notice. Upon receipt of a termination notice, Consultant shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and then assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Consultant in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items specifically prepared or obtained by Consultant for and required to be delivered to City under this Agreement ("Deliverables") are City's property and Consultant shall deliver them to City upon payment.

9. Copyright and Right of Use. All Deliverables created by Consultant for City under this Agreement are works made for hire, and Consultant shall give City the copyright and all intellectual property rights to Deliverables. Consultant agrees that all Deliverables will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Consultant to City and Consultant obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

10. Confidentiality. Consultant shall not disclose any confidential or proprietary information received from City to anyone except Consultant's employees who require access to the information to perform the Services, unless required by law or applicable professional standards. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

11. Defense, Indemnity, and Hold Harmless. Consultant is not required to indemnify City for the City's acts as provided by AICPA standard 1.228.020.01. However, to the fullest extent permitted by law, Consultant shall hold harmless, indemnify, and defend the City and its elected and appointed officials, officers, directors, employees, agents and

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including without limitation, attorney's fees and costs and fees of litigation) (collectively, "Liability") , except for such Liability caused by the City, and that no defense shall be required where such Liability arises out of the actual or alleged acts or omissions in Consultant's performance of professional services. Consultant's obligations to hold harmless and indemnify shall not be excused because of Consultant's inability to evaluate Liability or because Consultant evaluates Liability and determines that Consultant is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Consultant must respond within 30 days to the tender of any claim for indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Consultant's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Consultant's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Consultant shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Consultant shall endeavor to comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager, or Consultant may terminate this Agreement.

13. Acceptance of Final Payment. Consultant's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Consultant for, the Services does not release Consultant from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Consultant's responsibility or liability by City for any defect or error in the Services.

15. Conflict of Interest. Consultant represents that no City employee or official has a financial interest in Consultant. Consultant shall not offer, encourage, or accept any financial interest in any part of Consultant's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private party, Consultant represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

16. Economic Disclosure. Consultant shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Consultants' financial interest. While it is Consultant's sole responsibility to evaluate its conflicts of interest, the Consultant nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other consultants to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Consultant shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty-percent or more in the ownership or control of Consultant constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Consultant must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Erik Peterson, Finance Manager
City of Livermore
1052 S Livermore Avenue
Livermore, California 94550

TO CONSULTANT: Attention: Ahmad Gharaibeh, CPA, Partner
Eide Bailly LLP
1900 S Norfolk St., Ste. 225
San Mateo, CA 94403

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $3,000,000 per occurrence/**$6,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $1,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability".
4. Professional Liability/Errors and Omissions:
   $3,000,000 per claim. Consultant/Contractor warrants that any retroactive date under this policy shall precede the effective date of this contract and, either continuous coverage will be maintained, or an extended discovery period will be exercised for a period of two years beginning at the time work under this contract is completed.

Deductibles and Self-Insured Retention

Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A-: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special

Docusign Envelope ID: 160DCF32-9DA2-437F-B819-56F74E464CE4

limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.15**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brandon Cardwell, Innovation and Economic Development Director

SUBJECT: Resolution authorizing the execution of Project and Program Grant Agreements with Livermore Pride, Livermore Valley Opera (LVO) and Thomasin Dewhurst Fine Art consistent with the City's Public Art Policy.

RECOMMENDED ACTION

The Commission for the Arts and staff recommend the City Council adopt a resolution approving the applications and authorizing the execution of the following Project and Program Grant Agreements:

1. Livermore Pride, in the amount of $10,000 for Art Programming at the 5th Annual Livermore Pride Fest.
2. Livermore Valley Opera (LVO), in the amount of $10,000 for LVO's Education and Community Engagement Program.
3. Thomasin Dewhurst Fine Art, in the amount of $10,000 for a visual arts collaboration between Arts and Science in the form of a mural project and event.

SUMMARY

The Commission for the Arts administers the Project and Program Grant Program, including reviewing funding applications twice per year in March and September and providing funding recommendations to the City Council for final approval.

In March 2024, a total of five (5) applications were received for Project and Program funds. The Commission for the Arts and staff recommend the City Council adopt a resolution approving the execution of a Project and Program Grant Agreement with each of the following three (3) applicants: Livermore Pride, Livermore Valley Opera (LVO), and Thomasin Dewhurst Fine Art.

DISCUSSION

In 2004, the City Council created the Public Art Fund for the purpose of funding art and cultural programming. In 2008, the City Council created the Project and Program Grant Program to provide funding from the Public Art Fund for local organizations and artists providing cultural enrichment

experiences in Livermore.

The Commission for the Arts administers the Project and Program Grant Program, including reviewing funding applications twice per year in March and September and providing funding recommendations to the City Council for final approval. Opportunities for funding were posted on the City website and social media.

On March 1, 2024, staff received a total of five (5) applications, which were reviewed by a subcommittee of the Commission for the Arts. The subcommittee reviewed the applications and presented its funding recommendations to the full Commission at its regular meeting on March 26, 2024. The following three applications were recommended for funding: Livermore Pride, Livermore Valley Opera, and Thomasin Dewhurst Fine Art.

Agency	Project	Funds Requested	Grant Recommendation
Livermore Pride	A Variety of Art Programming at the 5th Annual Livermore Pride Fest	$10,000	$10,000
Livermore Valley Opera (LVO)	Education and Community Engagement Program	$10,000	$10,000
Thomasin Dewhurst Fine Art	Visual Arts Collaboration Between Arts and Science Mural Project and Event	$10,000	$10,000

Livermore Pride's Art Programming at the 5th Annual Pride Fest includes live music, spoken word, DJ music, dance, drag, physical arts, and new media. LVO's Education and Community Engagement program includes an opera reduction performance for elementary schools, master classes at middle schools, high schools, and the community college, as well as opera recitals scheduled at a senior community center and library. Thomasin Dewhurst Fine Arts' project engages adult and youth artists to create a mural and event celebrating Livermore's innovations in clean air transportation.

FISCAL AND ADMINISTRATIVE IMPACTS

The Project and Program Grants are funded with Public Art Fee funds (F608). Funds have been included in the FY 2024-25 budget. No further appropriation is needed at this time.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING THE EXECUTION OF PUBLIC ART FUND PROJECT AND PROGRAM GRANT AGREEMENTS WITH LIVERMORE PRIDE IN THE AMOUNT OF $10,000, LIVERMORE VALLEY OPERA IN THE AMOUNT OF $10,000, AND THOMASIN DEWHURST FINE ART IN THE AMOUNT OF $10,000

The City Council created the Public Art Fund for the purpose of funding public art and cultural programming consistent with the public art policy administered by the Commission for the Arts. The Project and Program Grant program was created by the City Council for use of the Public Art Fund for the purpose of encouraging programs for the cultural enrichment of the residents of, and visitors to, Livermore.

The Commission for the Arts reviews applications for the Project and Program Grant program twice per year, in March and September. The Commission for the Arts received a total of five applications for March 2024. Following a review of those five applications, the Commission for the Arts recommends funding three of the five Project and Program applications.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager, or her designee, to execute the following Project and Program Grant Agreements:

1. Livermore Pride, in the amount of $10,000 for a variety of Arts Programming at the 5th Annual Pride Fest, attached hereto as Exhibit A;
2. Livermore Valley Opera, in the amount of $10,000 for Education and Community Engagement Program, attached hereto as Exhibit B; and
3. Thomasin Dewhurst Fine Art, in the amount of $10,000 for a visual arts collaboration between Arts and Science in the form of a mural project and event, attached hereto as Exhibit C.

AGREEMENT BETWEEN CITY OF LIVERMORE AND LIVERMORE PRIDE FOR FISCAL YEAR 2024-25 PROJECT AND PROGRAM GRANT AGREEMENT

This AGREEMENT, entered into this ____ day of _____, 2024, between the City of Livermore, a municipal corporation ("City"), and Livermore Pride, a California non-profit Corporation ("Grantee").

RECITALS

A. City created Project and Program Grants for the purpose of encouraging programs for the cultural enrichment in the City of Livermore.

B. The primary goal of the Project and Program Grant Program is to serve one or more of the main strands found in the Cultural Arts Master Plan, artsALIVE!, adopted by City Council Resolution number 2007-109 on June 11, 2007.

C. The Commission for the Arts reviews all Project and Program Grant applications and provides City Council with recommendations for funding. Funding is not authorized until City Council approves the Commission for the Arts' funding recommendations evidenced by City's signature on this agreement.

D. Grantee has applied to City for funding for a project or program to support art programming for the 5th Annual Livermore Pride Fest ("Project").

E. City wishes to engage Grantee to assist City in utilizing Public Art Fee fund money to provide art projects and programs to Livermore residents.

F. City and Grantee understand that the Project and Program Grant shall be administered consistent with the procedures, standards, regulations, and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

AGREEMENT

NOW THEREFORE, City and Grantee hereby agree that the aforementioned recitals are true and correct, and in recognition of the mutual consideration provided herein, further agree as follows:

I. SCOPE OF SERVICE

A. Activities

Grantee is responsible for administering the Project and Program Grant in a manner satisfactory to City, and consistent with the standards, terms and conditions imposed by the 2008 Art in Public Places Program Policy and Procedures Manual,

Cultural Arts Master Plan, and herein. The Project will include the following activities eligible under the Project and Program Grant Program: The 5th Annual Pride Fest to be held on October 19, 2024.

1. *Project and Program Delivery*: Grantee agrees to the goals and performance standards as defined below and outlined in the Grantee's Project and Program Grant application attached as Exhibit "A".

2. *Service Objective:* provide funds for performers of live music, spoken word, DJ music, dance, drag, physical arts and new media across two, logistics and infrastructure. ("Activities").

3. *General Administration:* The Funds for the Activities are to be administered under the direction of the Grantee's Executive Director and shall comply with the procedures, standards, regulations and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

B. Budget

City will grant, and Grantee will use, funds in the amount of $10,000 ("Funds") to perform the Activities consistent with the terms and conditions of this Agreement, the 2008 Art in Public Places Program Policy and Procedures Manual, and the Cultural Arts Master Plan.

C. Performance Monitoring

City will monitor Grantee's performance against the project or program description outlined in the Grantee's Project and Program Grant application attached as Exhibit "A". Substandard performance as determined by City will constitute non-compliance with this Agreement.

II. TIME OF PERFORMANCE

Grantee shall complete its Activities within one year of the date of execution of this Agreement. If Grantee requires an extension of time for full performance, it may request an extension from the Commission for the Arts. The decision of the Commission for the Arts shall be final.

III. PAYMENT

It is expressly agreed and understood that the total amount of the Funds available from City to Grantee for the Activities under this Agreement shall not exceed $10,000.

The City shall disburse the Project & Program Grant in three installments: 30 percent in advance, 40 percent once material progress can be shown and evidence of the matching grant cash requirement has been submitted, and the final 30 percent after a satisfactory Final Report has been filed. The Project & Program subcommittee of the Commission for the Arts has sole discretion to decide whether each of these milestones has been reached.

IV. NOTICES

Any notice required or permitted under the terms of this Agreement shall be effective upon receipt in writing either by personal service upon the authorized agent for the party, or by mailing the notice via U.S. Mail to the party as follows:

City: City of Livermore
Attn: Theresa De La Vega, Commission for the Arts Staff Liaison
1052 S. Livermore Avenue
Livermore, California 94550

Grantee: Livermore Pride
Attn: Amy Rose
[redacted]

V. GENERAL CONDITIONS

A. General Compliance

Grantee agrees to comply with the requirements of state and local laws and regulations governing the Funds available under this Agreement. Grantee also agrees to comply with all additional regulations and policies issued pursuant to these regulations. Grantee further agrees to utilize the Funds available under this Agreement to supplement, rather than supplant, funds otherwise available. Furthermore, with respect to the performance of Activities under this Agreement, Grantee agrees to comply with all federal, state, and local laws, statutes, rules, and regulations pertaining to the performance of those Activities.

B. Independent Contractor

Nothing contained in this Agreement is intended to, nor shall be construed in any manner to, create or establish the relationship of employer/employee between the parties. Grantee shall at all times remain an Independent Contractor with respect to the services to be performed under this Agreement. City shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance, and Workers' Compensation Insurance as Grantee is an Independent Contractor.

C. Hold Harmless

Grantee agrees to defend, indemnify, and hold City, its elected officials, officers, directors, employees, agents, and designated volunteers harmless from and against any and all loss, liability, damage, including reasonable attorney's and expert fees and/or court costs, arising out of the performance of the Activities under this Agreement, except for the gross negligence and willful misconduct of City, its elected officials, officers, directors, employees, agents, and designated volunteers.

D. Insurance

Grantee shall procure and maintain insurance for the duration of the contract in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Project. Upon reasonable written notice, Grantee shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by the City of Livermore Risk Manager.

E. City Recognition

Grantee shall acknowledge City's financial support in all appropriate materials and media. The acknowledgment shall read, "Supported in part by a grant from the City of Livermore" or similar language, unless the City of Livermore is a part of a list of supporters. In the latter case, the acknowledgement may say only "City of Livermore." Grantee shall display the City of Livermore's logo whenever other sponsor logos are displayed, and in accordance with the City of Livermore's logo use guidelines.

F. Amendments

City or Grantee may amend this Agreement at any time provided such amendments make specific reference to this Agreement, and are executed in writing, signed by a duly authorized representative of both organizations. Such amendments shall not invalidate this Agreement, nor relieve or release City or Grantee from its obligations under this Agreement.

City may, in its discretion, amend this Agreement to conform with state or local laws, regulations, guidelines, or policies related to the use of the Funds for the Activities. However, if such amendments result in a change in the funding, the scope of services, or the Activities, such modifications shall be incorporated only by written amendment signed by both City and Grantee.

G. Suspension, Termination, Return of Funds

1. *Termination for Cause.* City may suspend or terminate this Agreement if Grantee materially fails to comply with any term or condition of this Agreement, including but not limited to, the following:

a. Failure to comply with any of the rules, regulations or provisions referred to herein, or such statues, regulations, policies, or directives as may become applicable at any time;
b. Failure, for any reason, of Grantee to fulfill in a timely and proper manner its obligation under this Agreement;
c. Ineffective or improper use of Funds provided under this Agreement; or
d. Submission by Grantee to City reports that are incorrect or incomplete in any material respect.

City shall give Grantee written notice of any failure to comply with the Agreement. If Grantee does not remedy the deficiency or non-compliance within fifteen (15) calendar days after the date the notice is sent, City may exercise any of the remedies available under law and equity, including but not limited to the termination of this Agreement.

Pending correction of any compliance, City shall withhold fifteen percent (15%) of the remaining Agreement Funds until Grantee corrects the deficiency, Grantee is otherwise found to be in compliance by City, or Grantee is otherwise adjudicated to be in compliance with the Agreement.

2. *Termination for Convenience:* This Agreement may also be terminated for convenience by either City or Grantee, in whole or in part, by giving notice of such termination, the effective date of the termination, and in the case of partial termination, the portion to be terminated. However, if in the case of a partial termination, if City determines that the remaining portion of the Funds or Activities will not accomplish the purpose for which the award was made, City may terminate the Agreement in its entirety.

Written notice of termination must be provided at least thirty (30) calendar days before the effective date of such termination.

3. *Effect of Termination:* In the event of termination, all finished or unfinished documents, data, studies, photographs, reports, or other materials prepared by Grantee under this Agreement shall, at City r's option, become the property of City, and Grantee shall only be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to the termination. Any remaining Funds shall be returned to the City's Public Art Fund for reallocation.

Termination for failure to comply with any term or condition of this Agreement may result in Grantee becoming ineligible to participate in future Commission for the Arts grant programs.

Termination for any reason shall immediately suspend the Funds available under this Agreement, terminate any claim Grantee has to such Funds, and result in Funds being immediately refunded to City for use and reallocation by City.

VI. **ADMINISTRATIVE REQUIREMENTS**

A. Documentation and Recordkeeping

1. *Records to be Maintained*: Grantee shall maintain the following records including, but not limited to:

   a. Records providing a full description of each activity undertaken and the date(s) on which the activity occurred;

   b. Records demonstrating that each activity undertaken meets one of the objectives of the Program & Program Grant; and

c. Quarterly and annual revenue and expense reports for Activities funded by this Agreement.

2. *Retention*: Grantee shall retain all records pertinent to expenditures incurred in the performance of the Activities under this Agreement for a period of two (2) years after the termination of all activities funded under this Agreement.

3. *Objectives*: Grantee agrees to maintain documentation that demonstrates that the Activities meet one or more of the objectives of the strands identified in the Cultural Arts Master Plan.

4. *Audits and Inspections*: All Grantee records with respect to any matters covered by this Agreement shall be made available to City at any time during normal business hours, as often as City deems necessary, to audit, examine, and make excerpts or transcripts of all relevant data.

Any deficiencies noted in audit reports must be corrected by Grantee within thirty (30) calendar days after receipt of notice of deficiency by Grantee. Failure of Grantee to comply with the above audit requirements will constitute a violation of this Agreement and constitute cause for termination pursuant to Paragraph V.

B. Reporting and Payment Procedures

1. *Payment Procedures*: City will pay to Grantee Funds available under this Agreement based upon information submitted by Grantee, and consistent with the 2008 Art in Public Places Program Policy and Procedures Manual. City reserves the right to liquidate Funds available under this Agreement for costs incurred by City on behalf of Grantee.

2. *Progress Reports*: Grantee shall submit a Material Progress Report to the Commission for the Arts when it feels the Project has made material progress. Grantee shall also submit a Final Report when its Project Activities are complete. These reports are prerequisites to receiving the second and third grant installment payments, in accordance with Section III. The Grantee shall determine the form and content of the Progress Reports.

3. *Quarterly Revenue and Expense Reports*: Grantee shall submit Quarterly Revenue and Expense Reports for grant activities to the Community Development Director.

VII. PERSONNEL AND PARTICIPANT CONDITIONS

A. Assignability

Grantee shall not assign or transfer any interest in this Agreement without the prior written consent of City. However, claims for money due or to become due to Grantee from City under this Agreement may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to Grantee.

B. Conflict of Interest

Grantee agrees to abide by the provisions of the California Political Reform Act (Gov. Code §§ 81000 *et seq.*) and related regulations (2 Cal. Code Regs. §§ 18109 *et seq.*) with respect to conflicts of interest, and covenants that it presently has no financial interest, and shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the Activities under this Agreement.

Grantee further covenants that in the performance of this Agreement, no persons who exercise or have exercised any functions or responsibilities with respect to the Activities, or who are in a position to participate in a decision-making process or gain inside information with regard to such Activities, have a financial interest in any contract, subcontract or agreement with respect to the Activities or with respect to the proceeds from the Activities, either for themselves or those with whom they have a business or immediate family ties, during their tenure or for a period of one (1) year thereafter.

These conflict of interest provisions apply to any person who is an employee, agent, Grantee, officer, or elected or appointed official of Grantee.

C. Subcontracts

1. *Approvals*: Grantee shall not enter into any subcontracts with an agency or individual in the performance of this Agreement without the prior written consent of City.

2. *Monitoring*: Grantee will monitor all subcontracted services to assure Agreement compliance. Results of monitoring efforts must be summarized in written reports, and supported with documented evidence, of follow-up actions taken to correct areas of noncompliance.

3. *Content*: Grantee shall cause all of the provisions of this Agreement in its entirety to be included in, and made a part of, any subcontract executed in the performance of this Agreement.

D. Copyright

If this Agreement results in any copyrightable material, City reserves the right to royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use and to authorize others to use, the work for government purposes.

E. Religious Organization

Grantee agrees that funds provided under this Agreement will not be utilized for religious activities, to promote religious interests, or for the benefit of a religious organization.

VIII. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

IX. WAIVER

City's failure to act with respect to a breach by Grantee does not waive its right to act with respect to subsequent or similar breaches. The failure of City to exercise or enforce any right or provision shall not constitute a waiver of such right or provision.

X. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between City and Grantee for the use of Funds received under this Agreement and it supersedes all prior or contemporaneous communications and proposals, whether electronic, oral, or written between City and Grantee with respect to this Agreement.

XI. BINDING EFFECT

All the terms, covenants, and conditions of this Agreement shall inure to the benefits of and be binding upon successors and assigns of the parties to this Agreement.

XII. COUNTERPARTS

This Agreement may be executed in counterparts by delivering a facsimile or secure electronic copy of the signed agreement to the other party, followed by delivery of the original documents bearing the original signatures. However, failure to deliver the original documents does not affect the enforceability of this Agreement.

APPLICATION CHECKLIST - This Checklist is required and must be submitted as part of the completed Application. All Project & Program Grant applicants are required to submit the following:

One original set of the Application, collated in the following order:

- ☒ 1. Application Checklist (this page).
- ☒ 2. Start date: Do(es) the event(s) related to this project begin at least two (2) months after the application deadline? Yes - October 19, 2024
- ☒ 3. Organizational Summary, signed by the organization's executive director, managing director, president, board chair, or other authorized officer of the organization, or by the applying artist.
- ☒ 4. If you are an organization, submit a list of current officers and Board members with their term of office.
- ☒ 5. If you are a 501(c)(3), submit a copy of your 501(c)(3) determination letter from IRS.
- ☒ 6. Application Form, beginning on page 1, continuing through the Project Budget Summary.
- ☒ 7. Notes to the Project Budget, and a detailed list of In-Kind contributions.
- ☒ 8. List of key project individuals, including principal artists and project managers, with a very brief job description (e.g., a self-explanatory job title) for each.
- ☒ 9. Resumes/biographies of key project individuals, generally one page each.
- ☒ 10. Up to four items in any combination of brochures, catalogues, performance programs, or similar organizational publications/materials; if available.
- ☒ 11. Up to four recent press reviews or articles, or similar independently generated published materials, if available. (*Note*: Calendar listings are not suitable.)
- ☐ 12. NOTE: During the review process you may be requested to submit samples of other work you have produced (work samples). See Chapter 3 – Grants for more information about work samples.

Standards for Preparing Applications

Please read the following carefully. Applicants are responsible for completing and submitting a full application package with all required attachments by the deadline. Incomplete applications will not be accepted for Commission evaluation.

1. Applicants must not modify the format of the application form or exceed the maximum length of any section of the form, except where otherwise noted.
2. All required attachments (except pre-printed ones) must be typed or computer-prepared in a type size that is no smaller than 12 pt. Times/Times New Roman, or 10 pt. Arial/Helvetica.
3. Complete all pages of the application form and all required attachments. (Use "N.A." if a section does not apply to your organization.) Provide information that is current as of the application deadline. Budget pages and budget notes must be complete.

Application Form - Project & Program Grants

Deadline: Hand delivered or received via US Mail by 5:00 pm on March 1 or September 1

Submission Date: March 1, 2024

Amount of Grant Request: $ 10,000 Total Project Budget: $ 75,000

Applicant/Organization: Livermore Pride

Applicant/Organization's Address: Livermore Pride

[redacted]

Applicant/Organization's Web site: www.livermorepride.org

Preparer's Name and Title: Amy Rose, Co-Founder & Board Member

Preparer's Phone: [redacted] Preparer's E-mail: amy@livermorepride.org

Address (for formal notification): Amy Rose

[redacted]

Describe the art form of the project or program for which support is requested (i.e., Dance, Theater, Visual Arts, Heritage, Infrastructure, Media/Film/New Media, etc.):

Performances of Live Music, Spoken word, DJ'd Music, Dance, Drag, Physical Arts / New Media

Briefly describe the project or program for which support is requested:

The 5th Annual Livermore Pride Fest will host 30,000+ people in Downtown Livermore on October 19th, 2024. There will be arts programming for a multitude of audiences in our community, including youth, families, young adults, and adults+.

Number of people intended to reach: Audience: 30,000+ Participants: 100-200 Performers, Volunteers, & booth staff

For the purpose of this application, "audience" means the people who will attend the project or program; "participant" means someone who attends a workshop or class, or else has hands-on involvement in the project or program. If the project or program will have both audiences and participants as defined here, please enter both goals.

Date project or program is scheduled to begin: October 19, 2024
Note: Project events may begin no earlier than two (2) months after the application deadline.

Date project or program is scheduled to end: October 19, 2024

EXHIBIT A

Application Form - Project & Program Grants

If needed, please use additional paper for this section.

1. State/describe your organization's mission or provide an artist's statement. Include the kind of arts work the organization or artist has done previously and does now. How does this work relate to the proposed project/program? If yours is not an arts organization, state briefly how the arts relate to its mission. (250 words or less)

Livermore Pride's mission is to end isolation and celebrate the LGBTQ+ community in Livermore. With a welcoming, family-focused celebration, we honor the diversity of our community, highlighting the intersectionality of sexual orientation, gender identity, gender expression, race, religion, political ideology, and economic status. We strive to have all LGBTQ+ people feel seen and heard as valued members of our community. Events have been a major part of our mission to end isolation, and bringing Queer artists to queer and ally audiences for our community is a major way we bridge divides and celebrate our similarities *and diversity.*

2. Describe the project or program for which you are seeking the grant. Discuss the project's origins. Describe the venue/location, the implementation process, and the timeframe. Discuss the resources — people, money, etc. — you will need to implement the project, whether you already have those resources within your organization or, if not, how you plan to obtain them.

Livermore Pride Fest will be at the Bankhead Plaza + 1st Street (between Livermore Ave. & Maple St.), McLeod St., and Livermorium Plaza. We are completely volunteer run, and are partnering with the Bankhead. This is the 5th annual event and has been held prior at The Bankhead Plaza and Carnegie Park.

3. How will the requested grant be used in the planning and implementation of the project or program? (500 words or less.)

The grant will go directly to the costs of: paying performers for a day of programming across 2 stages and some event logistic / infrastructure expenses.

4. Describe how the program or project specifically addresses one or more of the main strands found in the Cultural Arts Master Plan, artsAlive! (Refer to the Cultural Arts Master Plan Executive Summary in the Public Art Policy Guideline manual.) (250 words or less.)

According to the Cultural Arts Master Plan, this is both A) Exhibitions, events, performances, temporary exhibits, and/or art work installations located in a public space and B) Art works produced through involvement of the community

5. List the individual(s) or organization(s) you will be partnering with on this project. Be specific regarding the support, both financial and in-kind, they will be providing.

1. The Bankhead - Some light logistics partnership, and TBD on fiscal support (but no more than $5k most likely)
2. The City of Livermore - Event grant support TBD up to $2,000

Application Form - Project & Program Grants

Project/Program Budget Worksheet *(enter N/A if item does not apply. Attach Budget Notes if necessary.)*

PROJECT SUPPORT *(Do not include in-kind support)*

Earned Revenue	Amount	Notes
Ticket Sales/Admissions	$ 5,000	Free Event, All Individual Donations
Tuition/Workshop fees	$ 0	
Other:	$ 10,000	Donations Fund Drives
Subtotal: Earned Revenue	$ 15,000	

Contributed Income	Amount	In-hand	Pending
Contributions (Individuals/Businesses)	$ 10,000	$ 0	$ 0
Grants *(Foundations/Government other than City)*	$ 0	$ 0	$ 0
City of Livermore *(other than this grant request)*	$ 2,000	$ 0	$ 0
Other:	$	$	$
Subtotal: Contributed Income	$ 12,000	$	$

Project & Program Grant Amount Requested	$ 10,000
Total Project Support (Revenue + Income + Grant)	$ 37,000

PROJECT EXPENSE *(Do not include in-kind expense)*

Personnel	**Amount**	**Notes**
Artistic	$ 20,000	
Production	$ 0	In-Kind/Pro Bono + volunteers
Administrative	$ 0	
Other: *(describe in Notes)*	$ TBD	Security
Subtotal: Personnel	$ 20,000	

General	**Amount**	**Notes**
Venue Rental	$ 0	Free use through Bankhead & City
Materials and Supplies	$ 20,000	Decor, Stages, AV, Tents, City Signage
Marketing and Promotion	$ 1,000	
Transportation	$ 0	
Insurance	$ 2,500	
Other: *(describe in Notes)*	$ 10,500	Merchandise, Bathrooms, Trash, Hydration Stations, etc.
Subtotal: General	$ 34,000	

Total Project Expenses (Personnel + General)	$ 54,000
Project Surplus (Loss) *(Total Support minus Total Expense)*	$ 17,000

Livermore Pride Budget

If Project Net is a negative value, explain in the Budget Notes how it will be covered.

The goal is to break even via donations, sponsorships, and merchandise donation in-kind, but should we not we do have budget to cover the additional expense up to $17,000.

EXHIBIT A

Matching Funds

All Project and Program Grant applicants must provide at least a dollar-for-dollar (one-to-one) match for the grant award, no less than 50 percent of which must be a cash match. The cash match must be from sources other than the City of Livermore.

In-kind contributions are allowed as part of the match only on the following limited basis:

1. In-kind contributions cannot be used for more than half of the required match, in other words, they cannot represent more than 50 percent of the value of the grant award; and,
2. The value of in-kind contributions, i.e., goods and services, must offset line item expenditures in the project budget and their value must be documentable with invoices or billing statements.

In-kind contributions must be listed below or on a separate sheet attached to the Budget Notes.

Source	Description	Fair Market Value
Three Little Birds Agency, LLC	ProBono Festival Event Production (In-Kind)	$ 15,000
Community Fundraising	Special Events, Fund Drives, Donation "Tickets"	$15,000
Sponsor Fundraising	Sponsors receive benefits in exchange for their tax deductible donation	$ 10,000
Livermore Pride	Operating Budget	$ 17,000
		$
		$

Requested Grant Amount: $ 10,000

Cash Match Amount: $ 42,000

In-kind Match Amount: $ 15,000

Docusign Envelope ID: F90BAEC1-F0A9-4545-BD5C-C1B6A60D2110

Organizational Summary:

Livermore Pride is a 501(c)(3) nonprofit organization, founded in Livermore, CA, by a group of local residents in 2019. Our Mission is to reduce isolation amongst our entire community, and celebrate the LGBTQ+ community in Livermore. With a welcoming, family-focused celebration, we will honor the diversity of our community, highlighting the intersectionality of sexual orientation, gender identity, gender expression, race, religion, political ideology, and economic status. We strive to have all LGBTQ+ people feel seen and heard as valued members of our community.

Case Unit: 35350769783967143
In reply refer to: 760:WRM:F120

Regarding	: Tax-Exempt Status
Organization's Name	: LIVERMORE PRIDE
CCN	: 4656504
Purpose	: Charitable
R&TC Section	: 23701d
Form of Organization	: Incorporated
Accounting Period Ending	: 12/31
Tax-Exempt Status Effective	: 10/21/2020

Exempt Determination Letter

We have determined the organization is tax-exempt from California franchise or income tax as stated in the above Revenue and Taxation Code (R&TC) section.

To retain tax-exempt status, the organization must be organized and operating for nonprofit purposes within the provisions of the above R&TC section. An inactive organization is not entitled to tax-exempt status.

We have based our decision on the information submitted and the assumption that the organization's present operations will continue unchanged or conform to those proposed in the organization's application. In order for us to determine any effect on the tax-exempt status, the organization must immediately report to us any change in:

- Operation
- Character
- Purpose
- Name
- Address

Our determination may no longer be applicable, if these changes occur:

- Material facts or circumstances relating to the organization application.
- Relevant statutory, administrative, or judicial case law.
- Federal interpretation of federal law in cases where our decision was based on such interpretation.

Docusign Envelope ID: F90BAEC1-F0A9-4545-BD5C-C1B6A60D2110

EXHIBIT A

It is the organization's responsibility to be aware of these changes should they occur. This paragraph constitutes written advice, other than a chief counsel ruling, within the meaning of R&TC Section 21012(a)(2).

For filing requirements, get Pub. 1068, *Exempt Organizations - Filing Requirements and Filing Fees*. Go to **ftb.ca.gov** and search for **1068**.

All California public benefit corporations must register with the California Attorney General's Office Registry of Charitable Trusts within 30 days of first receiving any assets.

The Attorney General regulates charities and the professional fundraisers who solicit on their behalf. The purpose of this oversight is to protect charitable assets for their intended use and ensure that the charitable donations contributed by Californians are not misapplied and squandered through fraud or other means.

Please refer to **oag.ca.gov/Charities** for further information on registration requirements and contact information. Also see the publication Attorney General's Guide for Charities.

This exemption is for state franchise or income tax purposes only. For information regarding sales tax exemption, contact the California Department of Tax and Fee Administration at 800.400.7115, or go to their website at **cdtfa.ca.gov**.

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance
Grantee shall maintain limits no less than:

Commercial General Liability, including operations, products and completed operations, as applicable: **$1,000,000/$2,000,000** aggregate per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.

Deductibles and Self-Insured Retention
All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers
Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions
The general liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Grantee. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.
2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy,

including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.

4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550.

Verification of Coverage

Grantee shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

EXHIBIT B

AGREEMENT BETWEEN CITY OF LIVERMORE AND LIVERMORE VALLEY OPERA FOR FISCAL YEAR 2024-25 PROJECT AND PROGRAM GRANT AGREEMENT

This AGREEMENT, entered into this ____ day of _____, 2024, between the City of Livermore, a municipal corporation ("City"), and Livermore Valley Opera, a California non-profit Corporation ("Grantee").

RECITALS

A. City created Project and Program Grants for the purpose of encouraging programs for the cultural enrichment in the City of Livermore.

B. The primary goal of the Project and Program Grant Program is to serve one or more of the main strands found in the Cultural Arts Master Plan, artsALIVE!, adopted by City Council Resolution number 2007-109 on June 11, 2007.

C. The Commission for the Arts reviews all Project and Program Grant applications and provides City Council with recommendations for funding. Funding is not authorized until City Council approves the Commission for the Arts' funding recommendations evidenced by City's signature on this agreement.

D. Grantee has applied to City for funding for a project or program to support the Livermore Valley Opera's (LVO) Education and Community Engagement Program ("Project").

E. City wishes to engage Grantee to assist City in utilizing Public Art Fee fund money to provide art projects and programs to Livermore residents.

F. City and Grantee understand that the Project and Program Grant shall be administered consistent with the procedures, standards, regulations, and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

AGREEMENT

NOW THEREFORE, City and Grantee hereby agree that the aforementioned recitals are true and correct, and in recognition of the mutual consideration provided herein, further agree as follows:

I. SCOPE OF SERVICE

A. Activities

Grantee is responsible for administering the Project and Program Grant in a manner satisfactory to City, and consistent with the standards, terms and conditions imposed by the 2008 Art in Public Places Program Policy and Procedures Manual, Cultural Arts Master Plan, and herein. The Project will include the following activities

eligible under the Project and Program Grant Program: to support LVO's Education and Community Engagement Program, a continuation and expansion of the ongoing education and community engagment program.

1. *Project and Program Delivery*: Grantee agrees to the goals and performance standards as defined below and outlined in the Grantee's Project and Program Grant application attached as Exhibit "A".

2. *Service Objective:* Grant funds will be used to provide a reduction of a full opera presented at elementary schools with four singers and piano accompanist, master classes at middle and high school choruses twice a year with one singer and piano accompanist, opera recital at a senior community twice a year with two singers and one piano accompanist, and an opera recital at the library twice a year with two singers and a piano accompanist. ("Activities").

3. *General Administration:* The Funds for the Activities are to be administered under the direction of the Grantee's Executive Director and shall comply with the procedures, standards, regulations and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

B. Budget

City will grant, and Grantee will use, funds in the amount of $10,000 ("Funds") to perform the Activities consistent with the terms and conditions of this Agreement, the 2008 Art in Public Places Program Policy and Procedures Manual, and the Cultural Arts Master Plan.

C. Performance Monitoring

City will monitor Grantee's performance against the project or program description outlined in the Grantee's Project and Program Grant application attached as Exhibit "A". Substandard performance as determined by City will constitute non-compliance with this Agreement.

II. TIME OF PERFORMANCE

Grantee shall complete its Activities within one year of the date of execution of this Agreement. If Grantee requires an extension of time for full performance, it may request an extension from the Commission for the Arts. The decision of the Commission for the Arts shall be final.

III. PAYMENT

It is expressly agreed and understood that the total amount of the Funds available from City to Grantee for the Activities under this Agreement shall not exceed $10,000.

The City shall disburse the Project & Program Grant in three installments: 30 percent in

advance, 40 percent once material progress can be shown and evidence of the matching grant cash requirement has been submitted, and the final 30 percent after a satisfactory Final Report has been filed. The Project & Program subcommittee of the Commission for the Arts has sole discretion to decide whether each of these milestones has been reached.

IV. **NOTICES**

Any notice required or permitted under the terms of this Agreement shall be effective upon receipt in writing either by personal service upon the authorized agent for the party, or by mailing the notice via U.S. Mail to the party as follows:

City: City of Livermore
Attn: Theresa De La Vega, Commission for the Arts Staff Liaison
1052 S. Livermore Avenue
Livermore, California 94550

Grantee: Livermore Valley Opera
Attn: Keith Sawyer
[redacted]

V. **GENERAL CONDITIONS**

A. General Compliance

Grantee agrees to comply with the requirements of state and local laws and regulations governing the Funds available under this Agreement. Grantee also agrees to comply with all additional regulations and policies issued pursuant to these regulations. Grantee further agrees to utilize the Funds available under this Agreement to supplement, rather than supplant, funds otherwise available. Furthermore, with respect to the performance of Activities under this Agreement, Grantee agrees to comply with all federal, state, and local laws, statutes, rules, and regulations pertaining to the performance of those Activities.

B. Independent Contractor

Nothing contained in this Agreement is intended to, nor shall be construed in any manner to, create or establish the relationship of employer/employee between the parties. Grantee shall at all times remain an Independent Contractor with respect to the services to be performed under this Agreement. City shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance, and Workers' Compensation Insurance as Grantee is an Independent Contractor.

C. Hold Harmless

Grantee agrees to defend, indemnify, and hold City, its elected officials, officers, directors, employees, agents, and designated volunteers harmless from and against any and all loss, liability, damage, including reasonable attorney's and expert fees and/or court costs, arising out of the performance of the Activities under this Agreement, except for the gross

negligence and willful misconduct of City, its elected officials, officers, directors, employees, agents, and designated volunteers.

D. Insurance

Grantee shall procure and maintain insurance for the duration of the contract in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Project. Upon reasonable written notice, Grantee shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by the City of Livermore Risk Manager.

E. City Recognition

Grantee shall acknowledge City's financial support in all appropriate materials and media. The acknowledgment shall read, "Supported in part by a grant from the City of Livermore" or similar language, unless the City of Livermore is a part of a list of supporters. In the latter case, the acknowledgement may say only "City of Livermore." Grantee shall display the City of Livermore's logo whenever other sponsor logos are displayed, and in accordance with the City of Livermore's logo use guidelines.

F. Amendments

City or Grantee may amend this Agreement at any time provided such amendments make specific reference to this Agreement, and are executed in writing, signed by a duly authorized representative of both organizations. Such amendments shall not invalidate this Agreement, nor relieve or release City or Grantee from its obligations under this Agreement.

City may, in its discretion, amend this Agreement to conform with state or local laws, regulations, guidelines, or policies related to the use of the Funds for the Activities. However, if such amendments result in a change in the funding, the scope of services, or the Activities, such modifications shall be incorporated only by written amendment signed by both City and Grantee.

G. Suspension, Termination, Return of Funds

1. *Termination for Cause.* City may suspend or terminate this Agreement if Grantee materially fails to comply with any term or condition of this Agreement, including but not limited to, the following:

a. Failure to comply with any of the rules, regulations or provisions referred to herein, or such statues, regulations, policies, or directives as may become applicable at any time;
b. Failure, for any reason, of Grantee to fulfill in a timely and proper manner its obligation under this Agreement;
c. Ineffective or improper use of Funds provided under this Agreement; or
d. Submission by Grantee to City reports that are incorrect or incomplete in any material respect.

City shall give Grantee written notice of any failure to comply with the Agreement. If Grantee does not remedy the deficiency or non-compliance within fifteen (15) calendar days after the date the notice is sent, City may exercise any of the remedies available under law and equity, including but not limited to the termination of this Agreement.

Pending correction of any compliance, City shall withhold fifteen percent (15%) of the remaining Agreement Funds until Grantee corrects the deficiency, Grantee is otherwise found to be in compliance by City, or Grantee is otherwise adjudicated to be in compliance with the Agreement.

2. *Termination for Convenience:* This Agreement may also be terminated for convenience by either City or Grantee, in whole or in part, by giving notice of such termination, the effective date of the termination, and in the case of partial termination, the portion to be terminated. However, if in the case of a partial termination, if City determines that the remaining portion of the Funds or Activities will not accomplish the purpose for which the award was made, City may terminate the Agreement in its entirety.

Written notice of termination must be provided at least thirty (30) calendar days before the effective date of such termination.

3. *Effect of Termination:* In the event of termination, all finished or unfinished documents, data, studies, photographs, reports, or other materials prepared by Grantee under this Agreement shall, at City r's option, become the property of City, and Grantee shall only be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to the termination. Any remaining Funds shall be returned to the City's Public Art Fund for reallocation.

Termination for failure to comply with any term or condition of this Agreement may result in Grantee becoming ineligible to participate in future Commission for the Arts grant programs.

Termination for any reason shall immediately suspend the Funds available under this Agreement, terminate any claim Grantee has to such Funds, and result in Funds being immediately refunded to City for use and reallocation by City.

VI. **ADMINISTRATIVE REQUIREMENTS**

A. Documentation and Recordkeeping

1. *Records to be Maintained*: Grantee shall maintain the following records including, but not limited to:

a. Records providing a full description of each activity undertaken and the date(s) on which the activity occurred;

b. Records demonstrating that each activity undertaken meets one of the objectives of the Program & Program Grant; and

c. Quarterly and annual revenue and expense reports for Activities

funded by this Agreement.

2. *Retention*: Grantee shall retain all records pertinent to expenditures incurred in the performance of the Activities under this Agreement for a period of two (2) years after the termination of all activities funded under this Agreement.

3. *Objectives*: Grantee agrees to maintain documentation that demonstrates that the Activities meet one or more of the objectives of the strands identified in the Cultural Arts Master Plan.

4. *Audits and Inspections*: All Grantee records with respect to any matters covered by this Agreement shall be made available to City at any time during normal business hours, as often as City deems necessary, to audit, examine, and make excerpts or transcripts of all relevant data.

Any deficiencies noted in audit reports must be corrected by Grantee within thirty (30) calendar days after receipt of notice of deficiency by Grantee. Failure of Grantee to comply with the above audit requirements will constitute a violation of this Agreement and constitute cause for termination pursuant to Paragraph V.

B. Reporting and Payment Procedures

1. *Payment Procedures*: City will pay to Grantee Funds available under this Agreement based upon information submitted by Grantee, and consistent with the 2008 Art in Public Places Program Policy and Procedures Manual. City reserves the right to liquidate Funds available under this Agreement for costs incurred by City on behalf of Grantee.

2. *Progress Reports*: Grantee shall submit a Material Progress Report to the Commission for the Arts when it feels the Project has made material progress. Grantee shall also submit a Final Report when its Project Activities are complete. These reports are prerequisites to receiving the second and third grant installment payments, in accordance with Section III. The Grantee shall determine the form and content of the Progress Reports.

3. *Quarterly Revenue and Expense Reports*: Grantee shall submit Quarterly Revenue and Expense Reports for grant activities to the Community Development Director.

VII. PERSONNEL AND PARTICIPANT CONDITIONS

A. Assignability

Grantee shall not assign or transfer any interest in this Agreement without the prior written consent of City. However, claims for money due or to become due to Grantee from City under this Agreement may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to Grantee.

B. Conflict of Interest

Grantee agrees to abide by the provisions of the California Political Reform Act (Gov. Code §§ 81000 *et seq.*) and related regulations (2 Cal. Code Regs. §§ 18109 *et seq.*) with respect to conflicts of interest, and covenants that it presently has no financial interest, and shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the Activities under this Agreement.

Grantee further covenants that in the performance of this Agreement, no persons who exercise or have exercised any functions or responsibilities with respect to the Activities, or who are in a position to participate in a decision-making process or gain inside information with regard to such Activities, have a financial interest in any contract, subcontract or agreement with respect to the Activities or with respect to the proceeds from the Activities, either for themselves or those with whom they have a business or immediate family ties, during their tenure or for a period of one (1) year thereafter.

These conflict of interest provisions apply to any person who is an employee, agent, Grantee, officer, or elected or appointed official of Grantee.

C. Subcontracts

1. *Approvals*: Grantee shall not enter into any subcontracts with an agency or individual in the performance of this Agreement without the prior written consent of City.

2. *Monitoring*: Grantee will monitor all subcontracted services to assure Agreement compliance. Results of monitoring efforts must be summarized in written reports, and supported with documented evidence, of follow-up actions taken to correct areas of noncompliance.

3. *Content*: Grantee shall cause all of the provisions of this Agreement in its entirety to be included in, and made a part of, any subcontract executed in the performance of this Agreement.

D. Copyright

If this Agreement results in any copyrightable material, City reserves the right to royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use and to authorize others to use, the work for government purposes.

E. Religious Organization

Grantee agrees that funds provided under this Agreement will not be utilized for religious activities, to promote religious interests, or for the benefit of a religious organization.

VIII. **SEVERABILITY**

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

IX. **WAIVER**

City's failure to act with respect to a breach by Grantee does not waive its right to act with respect to subsequent or similar breaches. The failure of City to exercise or enforce any right or provision shall not constitute a waiver of such right or provision.

X. **ENTIRE AGREEMENT**

This Agreement constitutes the entire agreement between City and Grantee for the use of Funds received under this Agreement and it supersedes all prior or contemporaneous communications and proposals, whether electronic, oral, or written between City and Grantee with respect to this Agreement.

XI. **BINDING EFFECT**

All the terms, covenants, and conditions of this Agreement shall inure to the benefits of and be binding upon successors and assigns of the parties to this Agreement.

XII. **COUNTERPARTS**

This Agreement may be executed in counterparts by delivering a facsimile or secure electronic copy of the signed agreement to the other party, followed by delivery of the original documents bearing the original signatures. However, failure to deliver the original documents does not affect the enforceability of this Agreement.

APPLICATION CHECKLIST - This Checklist is required and must be submitted as part of the completed Application. All Project & Program Grant applicants are required to submit the following:

One original set of the Application, collated in the following order:

- ☒ 1. Application Checklist (this page).
- ☒ 2. Start date: Do(es) the event(s) related to this project begin at least two (2) months after the application deadline?
- ☒ 3. Organizational Summary, signed by the organization's executive director, managing director, president, board chair, or other authorized officer of the organization, or by the applying artist.
- ☒ 4. If you are an organization, submit a list of current officers and Board members with their term of office.
- ☒ 5. If you are a 501(c)(3), submit a copy of your 501(c)(3) determination letter from IRS.
- ☒ 6. Application Form, beginning on page 1, continuing through the Project Budget Summary.
- ☒ 7. Notes to the Project Budget, and a detailed list of In-Kind contributions.
- ☒ 8. List of key project individuals, including principal artists and project managers, with a very brief job description (e.g., a self-explanatory job title) for each.
- ☒ 9. Resumes/biographies of key project individuals, generally one page each.
- ☒ 10. Up to four items in any combination of brochures, catalogues, performance programs, or similar organizational publications/materials; if available.
- ☒ 11. Up to four recent press reviews or articles, or similar independently generated published materials, if available. (*Note*: Calendar listings are not suitable.)
- ☒ 12. NOTE: During the review process you may be requested to submit samples of other work you have produced (work samples). See Chapter 3 – Grants for more information about work samples.

Standards for Preparing Applications

Please read the following carefully. Applicants are responsible for completing and submitting a full application package with all required attachments by the deadline. Incomplete applications will not be accepted for Commission evaluation.

1. Applicants must not modify the format of the application form or exceed the maximum length of any section of the form, except where otherwise noted.
2. All required attachments (except pre-printed ones) must be typed or computer-prepared in a type size that is no smaller than 12 pt. Times/Times New Roman, or 10 pt. Arial/Helvetica.
3. Complete all pages of the application form and all required attachments. (Use "N.A." if a section does not apply to your organization.) Provide information that is current as of the application deadline. Budget pages and budget notes must be complete.

INTERNAL REVENUE SERVICE
P. O. BOX 2508
CINCINNATI, OH 45201

DEPARTMENT OF THE TREASURY

Date: JUL 17 2001

LIVERMORE VALLEY OPERA
[redacted]

Employer Identification Number:
94-3168895
DLN:
17053174741041
Contact Person:
DAVID V SCIAN ID# 31369
Contact Telephone Number:
(877) 829-5500
Our Letter Dated:
March 1994
Addendum Applies:
No

Dear Applicant:

This modifies our letter of the above date in which we stated that you would be treated as an organization that is not a private foundation until the expiration of your advance ruling period.

Your exempt status under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3) is still in effect. Based on the information you submitted, we have determined that you are not a private foundation within the meaning of section 509(a) of the Code because you are an organization of the type described in section 509(a)(2).

Grantors and contributors may rely on this determination unless the Internal Revenue Service publishes notice to the contrary. However, if you lose your section 509(a)(2) status, a grantor or contributor may not rely on this determination if he or she was in part responsible for, or was aware of, the act or failure to act, or the substantial or material change on the part of the organization that resulted in your loss of such status, or if he or she acquired knowledge that the Internal Revenue Service had given notice that you would no longer be classified as a section 509(a)(2) organization.

You are required to make your annual information return, Form 990 or Form 990-EZ, available for public inspection for three years after the later of the due date of the return or the date the return is filed. You are also required to make available for public inspection your exemption application, any supporting documents, and your exemption letter. Copies of these documents are also required to be provided to any individual upon written or in person request without charge other than reasonable fees for copying and postage. You may fulfill this requirement by placing these documents on the Internet. Penalties may be imposed for failure to comply with these requirements. Additional information is available in Publication 557, Tax-Exempt Status for Your Organization, or you may call our toll free number shown above.

If we have indicated in the heading of this letter that an addendum applies, the addendum enclosed is an integral part of this letter.

Application Form - Project & Program Grants

If needed, please use additional paper for this section.

1. State/describe your organization's mission or provide an artist's statement. Include the kind of arts work the organization or artist has done previously and does now. How does this work relate to the proposed project/program? If yours is not an arts organization, state briefly how the arts relate to its mission. (250 words or less)

   As stated in the Livermore Valley Opera By-Laws:
   "The mission of Livermore Valley Opera (LVO) is to enrich our community by producing world class operas and fostering the careers of professional opera singers. LVO encourage a wider appreciation of opera and the associated arts through community outreach and educational programs for youth in schools."

   Continued - See Attachment 1.

2. Describe the project or program for which you are seeking the grant. Discuss the project's origins. Describe the venue/location, the implementation process, and the timeframe. Discuss the resources — people, money, etc. — you will need to implement the project, whether you already have those resources within your organization or, if not, how you plan to obtain them.

   Livermore Valley Opera's *Education and Community Engagement Program* has served the City of Livermore since the opera company's formation in1992 with in-school opera performances and opera/singing master classes, and library and senior community opera recital engagements. The proposed project is both a continuation and an expansion of our ongoing education and community engagement program for free.

   Continued - See Attachment 2.

3. How will the requested grant be used in the planning and implementation of the project or program? (500 words or less.)

   The requested grant will be used in the implementation of the project with the payment to the performers: opera reduction performance at elementary schools and rehearsal time ($15,000 + $2,250), master classes at middle and high schools ($750), master class at community college ($150.), senior residential facility ($1,200), and library ($750). Performer expenses represent 93% of budget. The remaining $1400. Is for studio rehearsal studio, costumes, props, and printed materials & mailing for teachers.

   See Attachment 2 for financial details.

4. Describe how the program or project specifically addresses one or more of the main strands found in the Cultural Arts Master Plan, arts Alive! (Refer to the Cultural Arts Master Plan Executive Summary in the Public Art Policy Guideline manual.) (250 words or less.)
   See Attachment 4.

5. List the individual(s) or organization(s) you will be partnering with on this project. Be specific regarding the support, both financial and in-kind, they will be providing.
   Organization partners are providing the venues free of charge (elementary school, middle and high school, community college, senior residential, and library.
   See Attachment 5.

Application Form - Project & Program Grants

Project/Program Budget Worksheet *(enter N/A if item does not apply. Attach Budget Notes if necessary.)*

PROJECT SUPPORT *(Do not include in-kind support)*

Earned Revenue	Amount	Notes
Ticket Sales/Admissions	$ 0	
Tuition/Workshop fees	$ 0

Matching Funds

All Project and Program Grant applicants must provide at least a dollar-for-dollar (one-to-one) match for the grant award, no less than 50 percent of which must be a cash match. The cash match must be from sources other than the City of Livermore.

In-kind contributions are allowed as part of the match only on the following limited basis:

1. In-kind contributions cannot be used for more than half of the required match, in other words, they cannot represent more than 50 percent of the value of the grant award; and,
2. The value of in-kind contributions, i.e., goods and services, must offset line item expenditures in the project budget and their value must be documentable with invoices or billing statements.

In-kind contributions must be listed below or on a separate sheet attached to the Budget Notes.

Cash Match Amount: **$11,350**

In-kind Match Amount: **$ 0**

EXHIBIT B
EXHIBIT A

1.
As stated in the Livermore Valley Opera By-Laws:
The mission of Livermore Valley Opera (LVO) is to enrich our community by producing world class operas and fostering the careers of professional opera singers. LVO encourage a wider appreciation of opera and the associated arts through community outreach and educational programs for youth in schools.

Livermore Valley Opera produces two operas with four performances each, during the opera season October through March,at its current residence at the Bankhead Theater. *Opera in the Vineyard* are concerts with four (4) opera singers and piano accompanist singing arias, duets, and quartets of popular opera and musical theater pieces, presented at local wineries once in June and August.

The proposed program, *Education and Community Engagement Program,* extends the main stage opera at the Bankhead Theater to existing community institutions: elementary, middle and high schools, community college, senior resident community, and library.

The Program includes a reduction of a full opera presented at elementary schools once a year with four singers and piano accompanist; master classes for middle and high school choruses once a year with one singer, opera recital at a senior community residence twice a year with three singers and piano accompanist, and an opera recital at the library once a year with four singers and piano accompanist.

6.

2.

Livermore Valley Opera's *Education and Community Engagement Program* has served the City of Livermore since the opera company's formation in1992 with in-school opera performances and opera/singing master classes, and library and senior community opera recital engagements. The proposed project is both a continuation and an expansion of our ongoing education and community engagement **free** program.

1. a reduction of a full opera presented at elementary schools once a year with four singers* and piano accompanist, 5 artists
2. master classes at middle and high school choruses twice a year with one singer and piano accompanist, 2 artists
3. opera recital at a senior community twice a year with two singers and piano accompanist., 3 artists
4. opera recital at the library twice a year with two singers and piano accompanist. 3 artists

*This expansion from 2 singers to 4 singers for elementary school performances allows for major opera productions (though reduced in length) in which major singing roles are performed by the four singers.

Venues:

A.Elementary Schools – 20 performances – Total $18,650

The requested grant will be used in the implementation of the project with the payment to the performers: opera reduction performance at elementary schools and rehearsal time ($15,000 + $2,250), master classes at middle and high schools ($750), master class at community college ($150.), senior residential facility ($1,200), and library ($750). Performer expenses represent 93% of budget. The remaining $1400. Is for studio rehearsal studio, costumes, props, and printed materials & mailing for teachers.
No administration costs are reflected in the Program budget. The Director of Education and Community Engagement is a volunteer position.
See Attachment 2 for financial details.

4.

Cultural Arts Master Plan **Strand 1** The Livermore Valley Opera performs two operas each season, one in October and one in March with four performances of each opera on Saturday evenings and Sunday afternoons at the beautiful Bankhead Theater in the Livermore Cultural District, for which funding is **not** sought in this grant proposal. ***Cultural Arts Master Plan*** **Strand 1 is met through Bankhead performances.**

Cultural Arts Master Plan **Strand 2.** The Livermore Valley Opera performances at the Bankhead Theater rarely reaches 60% which is generally typical and being addressed by Livermore Commission for the Arts. Opera as a performing arts form reaches into the community and into the schools to make opera more accessible, and engaging the Livermore community. Livermore Valley Opera, in its mission statement, and in its *Education and Community Engagement Program*, insures the visibility and vitality of opera for students in the Livermore elementary, middle and high schools, in senior residents facility, and at the Civic Center Library for all residents, and for which funding is being applied.
Cultural Arts Master Plan **Strand 2 is met through school and community performances and recitals venues located in the community.**

Cultural Arts Master Plan **Strand 3.** The Livermore Valley Opera recitals at the Main Library at Civic Center reaches into the community. Elementary school opera performances make opera more accessible to the youth of the Livermore elementary public schools. Livermore Valley Opera, in its mission statement, and in its *Education and Community Engagement Program*, insures the visibility and vitality of opera for students in the Livermore elementary, middle and high schools, and residents in senior residents facility, and at the Civic Center Library for all residents. LVO creates a sense of community and life-long learning with publicly accessible opportunities for all Livermore residents to attend.
Cultural Arts Master Plan **Strand 3 is met through school and community opera performances and recitals creating a sense of community and life-long learning.**

Cultural Arts Master Plan **Strand 4:** Livermore Valley Opera has provided this education and community engagement program, entirely free, for a decade. As such LVO provides a long-term, sustainable opera performing arts resource that support the City's arts and culture community for all residents.
Cultural Arts Master Plan **Strand 4 is met through school and community opera performances and recitals providing a long-term, sustainable opera experience for students and residents.**

5.

Partnership with community organizations, but with no financial support because the performances and recitals are free, are listed in #1:

Elementary Schools –
Altamont Creek Elementary School
Arroyo Seco Elementary School
Emma C. Smith Elementary School
Jackson Avenue Elementary School
Joe Michell Elementary School
Junction Avenue Elementary School
Lawrence Elementary School
Leo R. Croce Elementary School
Marylin Avenue Elementary School

ANDREW THOMAS PARDINI

BARITONE

Extolled by The Baltimore Sun for his "robust work" and DC Metro Theater Arts for "a heart-stopping, high voltage bass-baritone voice," Andrew Thomas Pardini continues to win audiences with his vibrant tone and thrilling character portrayals. Pardini is a Tenured Member of the Regular Chorus with San Francisco Opera, where he made his company debut as part of its 2022-2023 Centennial Season. Past roles at San Francisco Opera include Flora's Servant/La traviata, The Imperial Commissioner/Madame Butterfly and Reporter/The (R)evolution of Steve Jobs.

Upcoming engagements include company debuts with Livermore Valley Opera as Papageno/The Magic Flute Outreach, a special appearance with Opera Modesto as Baritone Soloist/The Good, The Bad & The Loverly: A Valentine Concert, and company and role debuts with Lakeside Concert Series SF as Bass Soloist/Mozart Requiem, as well as a return to San Francisco Opera for its 2024-2025 Season. Earlier this season, Pardini made his company and role debuts with Livermore Valley Opera as Sciarrone/Tosca, a homecoming appearance with Opera Modesto as Baritone Soloist/40th Anniversary Gala, and company debut with San Francisco Opera Guild's Opera Together as Marcello/La bohème

Pardini made his company and European debuts at Berkeley Community Chorus & Orchestra as part of its 2018-2019 Season, where he performed the Baritone Soloist/Ein deutsches Requiem at such venues as Hertz Hall (Berkeley, USA), Alexela Kontserdimaja (Tallinn, Estonia), Rīgas Doms (Riga, Latvia), and Konserthuset Stockholm (Stockholm, Sweden). Other recent engagements include company debuts as Schaunard/La bohème at Opera North, company and role debuts as Dr. Falke/Die Fledermaus and Dancaïre & Escamillo (Cover)/Carmen at Opera Orlando, company debuts as Schaunard/La bohème at Gulfshore Opera, company and role debuts as Nils Krogstad at Voice Afire Opera-Cabaret in the World Premiere of Raymond Luedeke's A Doll's House, role debut as Edmund Bertram/Mansfield Park at Opera Modesto, role debut as The Pirate King/The Pirates of Penzance at Winter Opera Saint Louis, role debut as Silvio/Pagliacci at Salt Marsh Opera, company debuts as Schaunard/La bohème at The Festival of the Atlantic and Salt Marsh Opera, company and role debuts as Tobia Mill/La cambiale di matrimonio and Der dritte Edle & Telramund (Cover)/Lohengrin at Opera Southwest, company debut as Peter/Hänsel und Gretel at Bar Harbor Music Festival, role debut as Emperor Overall/The Emperor of Atlantis at IN Series, role debuts as Marco/Gianni Schicchi and Buoso's Ghost at OperaDelaware, company and role debuts as Zurga/Les pêcheurs de perles at Winter Opera Saint Louis, company debut as Bass Soloist/Messiah at Bach In Baltimore, company and role debuts as Baritone Soloist/Ein deutsches Requiem at Crescent Choral Society, as well as company and role debuts as Albert/Werther at Baltimore Concert Opera and OperaDelaware.

Priding himself as a champion of contemporary works, Pardini relishes the opportunity to be a part of the creative and developmental process, garnering acclaim for his striking interpretations. Pardini joined good friend and composer, Joshua Rush Barnett, as the Baritone Soloist for the premiere of his epic Civil War masterwork, Valley Echoes. He originated the role of Andreas Baader in The Last Act of Revolution, the inaugural operatic undertaking of composer, Evan Meier, and librettist, Lucas Richmond, and also created the role of Navarro in the Los Angeles debut of David Conte and Oliver Mayer's racially-charged opera, America Tropical. The realm of vocal competition has propelled Pardini's burgeoning career, helping him to capture a loyal following of supporters. Foremost among his many successes, Pardini won Second Place in the 2015 Michael Ballam Concorso Lirico International Vocal Competition, as well as being a Finalist in both the 2017 Gerda Lissner Foundation Lieder/Song Vocal Competition and 2014 Partners for the Arts Vocal Awards Competition, and the recipient of an Encouragement Award in the 2012 Metropolitan Opera National Council Auditions – Pittsburgh District.

Pardini has honed his craft at a number of Young Artist Programs and training institutes throughout the United States, the most notable being Opera North Resident Artist Program, Opera Orlando Studio Artist Program, Opera Southwest Apprentice Artist Program, Opera Maine Studio Artist Program, The Atlanta Opera Studio Artist Program, The Crested Butte Music Festival Opera Studio, Dayton Opera Artists-In-Residence Program, Bay Area Summer Opera Theater Institute, and OperaWorks.

Pardini holds a Master of Music degree in Opera Performance from the University of Maryland – Maryland Opera Studio, under the tutelage of Dominic Cossa and François Loup, and a Bachelor of Music degree in Vocal Performance from the University of Southern California – Thornton School of Music, studying with Gary Glaze. Prior to university, Pardini spent his earliest years as the student of Erik "Buck" Townsend, who reared him from boy soprano to "baby baritone," imbuing him with a passion and reverence for singing and performing. Pardini dedicates his every artistic pursuit, with love and admiration, to his voice teacher and mentor.

A native of Modesto, California, Pardini is based in the San Francisco Bay Area. For more information, please visit www.andrewthomaspardini.com.

Synopsis for the Reduced Elementary Student Performance:

Prince Tamino has been sent by this father, the King, to the kingdom of the Queen of the Night. Tamino is chased by a serpent/dragon and collapses in exhaustion. Three Ladies kill the serpent/dragon. They leave to tell the Queen of the Night of Tamino's arrival.

Papageno, the bird catcher, enters as Tamino revives. Prince Tamino assumes that Papageno has saved him from the serpent/dragon, and Papageno agrees! Papageno explains that he is the Queen's bird catcher and trades his birds daily with The Three Ladies who deliver the birds to the Queen. In exchange for the birds Papageno receives food and drink from The Three Ladies.

The Three Ladies return and trade Papageno's birds for water and for a stone as a warning not to lie. They scold Papageno for lying that he has saved Tamino when in truth The Three Ladies saved Tamino! They padlock Papageno's mouth as a reminder not to lie!

The Three Ladies give Tamino a portrait of the Princess Pamina, daughter of the Queen of the Night. Tamino immediate falls in love with Pamina.

The Queen of the Night arrives and tells Tamino of the kidnaping of her daughter, Pamina. Tamino must rescue and return her daughter, and then he can marry her.

The Queen leaves and The Three Ladies release Papageno from the padlock on his mouth, however, do not lie! The Three Ladies give Tamino a golden magic flute to use as defense from danger, to soften the heart of others to be kind, and to remove the pain within each heart. Papageno is given silver bells to play at any time to bring happiness to others.

EXHIBIT B
EXHIBIT A

There are three tests for Tamino. The first test is "Silence." When Tamino falls silent, Pamina who knows nothing of the test of silence, feels sorrowful. Pamina thinks Tamino no longer loves her. Nonetheless, Pamina is faithful in her heart to Tamino. Tamino passes the first test.

The second test is "Fire," and the third test is "Water." Pamina and Tamino overcome these tests together, and through the power of the magic flute.

Meanwhile, Papageno finds his Papagena, and they are joined together in their commitment to each other.

The Magic Flute celebrates the power of music to bring happiness and joy to the world. People endure trials in life, but an enduring commitment to one another can support us through life's trials of "fire" and "water". At the end we are together, and achieve truth, beauty and wisdom together.

The Magic Flute

Synopsis

ACT I

Prince Tamino has been sent by this father, the King, to the kingdom of the Queen of the Night. Tamino is chased by a serpent/dragon and collapses in exhaustion. The Three Ladies kill the serpent/dragon. They leave to tell the Queen of the Night of Tamino's arrival.

Papageno, the bird catcher, enters as Tamino regains consciousness. Prince Tamino assumes that Papageno has saved him from the serpent/dragon, and Papageno agrees! Papageno explains that he is the Queen's bird catcher and trades his birds daily with The Three Ladies who deliver the birds to the Queen. In exchange for the birds Papageno receives food and drink from The Three Ladies.

The Three Ladies return and trade Papageno's birds for water and for a stone. They scold Papageno for lying to Tamino about saving him from the serpent/dragon. They padlock his mouth as a reminder not to lie! The Three Ladies give Tamino a portrait of the Princess Pamina, daughter of the Queen of the Night. Tamino immediate falls in love with Pamina.

The Queen of the Night arrives and tells Tamino of the kidnaping of her daughter, Pamina. Tamino must rescue and return her daughter, and then he can marry Pamina.

The Queen leaves and the Three Ladies release Papageno from the padlock on his mouth, however, do not lie! They give Tamino a golden magic flute to use as defense from danger: to soften the heart of others to be kind, and to remove the pain within each heart. Papageno is given silver bells to play at any time to bring happiness to others.

Note: Opera reduction deletes the Monostratos' parts and most of Sarastros" parts.

EXHIBIT B
EXHIBIT A

ACT II

There are three tests for Tamino. The first test is "Silence." When Tamino falls silent, Pamina who knows nothing of the test of silence, feels sorrowful. Pamina thinks Tamino no longer loves her. Nonetheless, Pamina is faithful in her heart to Tamino. The pass the first test of constancy of commitment to each other. The second test is "Fire," and the third test is "Water." They overcome these tests together through the power of the magic flute.

Meanwhile, Papageno finds his Papagena, and they are joined together in their commitment to each other.

The Magic Flute celebrates the power of music to bring happiness and joy to the world. People endure trials in life, but an enduring commitment to another can support us through life's trials of "fire" and "water". At the end we are together, and achieve truth, beauty and wisdom.

The animated, 3-minute story of *The Magic Flute* is adapted by Kyra Teis on YouTube:

https://www.google.com/search?q=Magic+Flute+on+youtube+for+kids&oq=Magic+Flute+on+youtube+for+kids&gs_lcrp=EgZjaHJvbWUyBggAEEUYOdIBCTE5MDY0ajBqN6gCALACAA&sourceid=chrome&ie=UTF-8#fpstate=ive&vld=cid:cc7e6130,vid:AJaau059C7w

With your support in providing the story your students are better prepared to experience *The Magic Flute* performance on a level that will endure years past the LVO school performance.

About the Composer

Wolfgang Amadeus Mozart (1756-1791) is the great composer of operas, symphonies, masses, concertos, sonatas, etc. After more than 230 years Mozart's music continues to be played and enjoyed.

Mozart was a child prodigy with his keyboard skills that brought Mozart early acclaim. Mozart was already compositing music such as *Twinkle, Twinkle Little Star* at the age of 4, and his first opera at 9 years.

Mozart's best- known operas include *The Marriage of Figaro, Don Giovanni, Così fan tutte,* and *The Magic Flute.*

DocuSign Envelope ID: 7659426D-D4DE-4A05-B7D3-1CF78D35B5B7

Classroom Discussion Questions:

Die Zauberflote - *The Magic Flute* - premiered in 1791 and continues in popularity more than 230 years later! The story contains elements that continue to have meaning in our lives today.

The story speaks to our own life experiences:

The serpent/dragon chases and harasses Tamino.

- Do you sometimes feel harassed?
- Do you enjoy action films in which the hero is chased?
- What about the chase is both scary and exhilarating?

Papageno takes credit for something that he has not done: he lies.

- Do you sometimes feel forced into a lie?
- Do you notice in films the hero is deceived by someone in some way?
- What do you think about lying? Do you call it "exaggerating" rather than lying?

Tamino is so happy to meet Papageno after his serpent/dragon escape.

- Do you experience similar happiness when you see a friend?
- Do you predict that at the end of a film that two (or more) people will happily be together at the end?
- Are there times when you find someone is really not a friend? What makes a friend?

A timeless story deals with experiences and feelings that all humans feel at some time or another: harassed/chased; lied to/deceived; happiness with friendships/pain with loss of friendship, and many more feelings in *The Magic Flute* story and other stories.

An opera's story allows us to see and to experience our feelings in another person's situation!

LIVERMORE VALLEY OPERA
EDUCATION AND COMMUNITY ENGAGEMENT
FOR ELEMENTARY SCHOOL ASSEMBLY PERFORMANCES

Dear Educator,

Thank you for scheduling Livermore Valley Opera's 45-minute reduction performance of *The Magic Flute* at your elementary school! Our performance schedule this 2023-2024 season is Monday through Friday, January 22 – February 2 with both morning and afternoon performances.

The Magic Flute is a magical way for students to experience opera. The lyrical, familiar tunes, the other-worldly setting make *The Magic Flute* an enchanting opera for elementary students.

This Teacher's Tool Box of *The Magic Flute* supports your students' preparation and enjoyment of the performance. Whatever class time you have to devote to the preparation of the performance will be well-worth it.

The Story: YouTube links or written.	5 minutes
Music Selections: YouTube links	5 minutes
Discussion: Topics provided	open

We look forward to visiting your school. Please contact me at (510) 258-2640 with any questions.

Best regards,

Dr. Pamela Rigg
LVO Education and Community Engagement Program

LIVERMORE VALLEY OPERA
THE MAGIC FLUTE

ELEMENTARY STUDENT PERFORMANCE

Livermore Valley Opera presents Amadeus Wolfgang Mozart's delightful performance of *The Magic Flute,* in reduction of 45 minutes, at your school assembly.

Advanced preparation of the students is highly recommended in order to optimize engagement of all students during the performance:

1. Acquaint the students with the general story of *The Magic Flute*, written or animated links to YouTube.
2. Acquaint the students with the major arias and duets in *The Magic Flute:*
3. Audition students for non-singing, non-verbal roles:

Dragon -	2 students
Three Ladies -	3 students
The Boys -	3 students
Fire -	2 students
Water -	2 students

Read through the script and assign each of the twelve student their parts two weeks before the performance. Roles are assigned to one student each. Do not double cast or share roles, even if you have two performances planned at your school.

Student Parts:

Dragon -	2 students
Three Ladies -	3 students
The Boys -	3 students
Fire -	2 students
Water -	2 students
Chorus -	Student Assembly

Role Assignments:
Hold auditions selecting the students with the strongest stage presence, sense of timing, and speed in moving from scene to scene. *The Magic* Flute has many short-scene change

Student Preparation:
Print a copy of the complete script for each student participant. Highlight the lines and stage directions in the script for each part.

EXHIBIT B
EXHIBIT A

The student participants memorize the actions in their scenes.

Student participants practice their actions and scene changes in the performance space.

The teacher reads the parts of Tamino, Papageno, Pamina, the Queen of the Night, and Papagena.

Singing Preparation:
Share the libretto (words) of the selected songs for all students to sing at the student assembly performance. Practice the words with the music each day in the two weeks prior to the performance:

Queen of the Night:

Papagena & Papageno

Day of Performance:
The performance space should be cleared and prepared:
Tuned piano off stage to stage right.
Podium and microphone next to piano. No electronic keyboard.
One adult (folding) chair on stage at center.
Three student chairs at stage right.
12 chairs off stage.
Custodian available, if needed.

Dress Rehearsal with Student Performers:

Livermore Valley Opera performers arrive 75 minutes before performance time to conduct a dress rehearsal with student actors (rehearse staging, coaching dialogue and scene changes).

Please ensure the performance starts on time, and the student audience arrives early enough for this to happen.

Costumes:
Livermore Valley Opera provide all costumes for the student performers.

Students should wear plain white shirts and dark pants.

Props/Set Pieces:

- Livermore Valley Opera provides all props and scenic elements for the production.

Docent Assistance:

Audience Etiquette: Attending the Opera

The performers on the stage are aware of the audience, and audience members are aware of each other! Very different than home-viewing performances on a screen! The singers wish to share their art-form with you. For singers to be most effective in their efforts every audience member must give the performance full attention, and avoid behavior that interferes with the performance.

To achieve an optimal operatic experience, please follow these guidelines:

1) Watch and listen to the performance with both your eyes and your ears!

2) Respond enthusiastically by applauding at the conclusion of a song!

   Brava is spoken when a female concludes a song;
   bravo is spoken when a male concludes a song.

3) Keep your reactions appropriate; do not disrupt the performance.

4) Like Papageno, learn to be silent… during *The Magic Flute* performance!

5) Remain seated during the performance.

DocuSign Envelope ID: 7659426D-D4DE-4A05-B7D3-1CF78D35B5B7

About the Magic Flute

The Magic Flute was written in the German language with singing parts and with spoken parts. The German word *Singspiel*'s means sing-speak! *The Magic Flute* is a sing-speak opera: a singspiel opera.

Wolfgang Amadeus Mozart was the composer of the music; Mozart wrote the music part of *The Magic Flute*.

Emanuel Schikaneder was the librettist; Schikaneder wrote the words of *The Magic Flute*. All operas have a composer and a librettist – sometimes it is the same person.

*The Magic Flute was c*omposed in 1791 – over 230 years ago, Mozart scored *The Magic Flute* for fifteen instruments and strings. Opera orchestras are far larger today.

Livermore Valley Opera's performance for elementary schools has been reduced from 2 hours and 15 minutes to 45 minutes. The number of singing roles has been reduced to five singing roles. Rather than a full orchestra there is a single piano accompanist.

The reduction has excluded a sub-plot of Monostratos, and allusions to Masonic rites. Chorus and marches are eliminated. The basic story-line and the major arias and duets remain. Students experience the most recognizable music in *The Magic Flute.* The full-length opera may be experienced later in the students' life with more understanding and appreciation.

EXHIBIT B 10 C
EXHIBIT A

Opera Dictionary

Opera

An **opera** is a musical drama or comedy where the actors sing rather than speak their lines. The word "opera" derives from the Latin word *opus*, which literally means "a work of art." Like a play, an opera is performed on a stage with singing-actors, scenery, make- up and lighting.

Opera is truly a **multi-disciplinary** art, which means it is a combination of many art forms (singing, orchestral music, theater, visual arts, dance, etc.) and subject areas (history, mythology, literature, etc.). Opera combines these disciplines in a very powerful way to tell a story. Opera can be funny, sad, scary, dramatic, mysterious, fantastical, or any combination of feelings and moods.

Libretto (meaning "little book" in Italian) contains all of the words of an opera. A libretto is usually shorter than the script for a play because it takes longer to sing lines than to say them, and because music is also a very important part of telling the story of an opera. The person who writes the words for an opera is often a poet or playwright and is called a **librettist.**

Composer writes the music for the opera. All of the music, both vocal (for singers) and orchestral (for instrumentalists) is written in the **score** which separates lines for each instrument and each singer's vocal part. The score, as a piece of music, reflects the mood, events and emotions of the characters in the story.

Characters are the people in the story. Singers perform the parts of the characters, also called **roles**.

Performers – Voice Types

Soprano- The highest female voice. She is often the heroine of the opera and often in love with the tenor. A star soprano is often referred to as the "Prima Donna."

Mezzo-Soprano- The lower female voice. The mezzo sound is typically darker and warmer than the soprano. The mezzo usually plays the older female character (like the mother), the bad guy (the witch), a seductress, or a boy. When the mezzo plays a male character, it is called a **pants** role.

Tenor- The highest male voice. He usually plays the hero of the opera and is often in love with the soprano.

EXHIBIT B
EXHIBIT A

Baritone- The lower (or middle) male voice. The baritone is often the villain, but can also be the hero who sacrifices himself for the tenor or soprano. In comedies, the baritone is often a prankster. He is usually in love with the soprano but loses her to the tenor.

Bass- The lowest male voice. He often plays the wise man or comic buffoon.

Orchestra - The group of instrumentalists who accompany the singers. They play under the stage in the orchestra pit where they are less likely to overpower the singers and distract from the action on the stage. However, though they are often not seen, the orchestra is an equal partner in the action of an opera.

Chorus - The group of singers who function as a unit onstage.
Choruses are usually featured in crowd scenes where they represent the townspeople, partiers, soldiers, etc.

Dancers - Dance is often included in opera. They are usually part of big crowd scenes, but can also be featured as soloists in some pieces. Many operas contain short ballet sequences.

Production Team

Conductor - The person in charge of the musical interpretation of the opera. He also guides the orchestra through the opera from the first rehearsal to final performance.

Director - Responsible for the overall look or concept of the production. The director determines how the opera will be interpreted and tells everyone on stage when, where and how to move. Finally, he or she guides the performers on how characters are best presented.

Choreographer - Designs and sets the movement of the dancers.

Costume Designer - Designs and creates the clothes singers wear to reflect aspects of the character played by the singer. Costumes should reveal a lot about a character. How old they are, what kind of person they are, what time period he or she lives in, etc.

Scenic Designer - Creates the visual background and set pieces for the opera. He or she creates small models and detailed blueprints which serve as the "instructions" for building the set.

Lighting Designer - Creates the lighting plan that emphasizes the drama of the moment and allows the audience to focus on the action. Lighting design is an important visual element that contributes to the ambience of the stage setting and affects the appearance of people, costumes and props onstage.

Stage Manager - Coordinates all of the elements of the show during rehearsal and performance. He or she is responsible for calling cues, scene changes, and organizing the backstage area so that the show runs smoothly and consistently.

Crew - This group of professionals is responsible for setting up and running all of the equipment for a performance, including changing the scenery, costumes, and props. They also open and close the curtain, operate trapdoors, run sound effects, and run quick costume changes.

Opera Parts

Opera is a **musical** form.

Orchestra provides the overriding musical texture, while the **singers** sing and act on the stage.

Overture is the piece of music played by the orchestra at the beginning of an opera. It usually, but not always, contains some of the musical themes from the opera and sets the mood for what the audience is about to experience.

Recitative (re-chi-ta-TEEV) is sung dialogue that propels the action forward. The singing is generally faster and is composed to sound more like speech.

Aria - An extended musical passage sung as a solo. It often explores emotions as a character absorbs, reflects, and makes decisions in the drama.

Duet - An extended musical passage for two singers. A **trio** is for three singers and a **quartet** is a piece for four singers.

Ensemble - An extended musical passage for more than four voices. Often each character is singing different words at the same time, and ensembles tend to occur at the most pivotal point in the drama or the end of an act.

Supertitles - Since operas are most often performed in the language in which they were composed, most opera productions have translations above the stage (or on the seat in front of you) where a translation is projected for the audience to understand and better follow the story.

DocuSign Envelope ID: 7659426D-D4DE-4A05-B7D3-1CF78D35B5B7

EXHIBIT B
EXHIBIT A

Bel canto - Literally meaning "beautiful singing," this term describes the specific style of vocal production that opera utilizes. It requires great breath control and ease.

Bravo - Literally, "brave" or "courageous," this Italian word is a form of high praise that is shouted at times when applause is appropriate. **Bravo** is shouted when a man has sung thrillingly, and **brava** when a woman has done the same.

Cadenza - A brilliant passage in an aria—often improvised by the singer—that showcases the specific skills and strengths of that singer. **Cadenzas** are most often sung by women, although men can perform them as well.

Diva - Literally, "goddess," refers to an important female opera star. The masculine form is **divo**.

Motif or Leitmotif (light-mo-teef) - While "leitmotif" is usually used to refer to the musical themes of Wagner, a *motif* is a recurring musical idea that reveals or recalls an earlier plot point, character, emotion, or idea in an opera. Keep an eye out for music that sounds familiar! It probably means something important!

Tempo - This refers to the speed at which music is performed. The conductor is in charge of setting the **tempo** or timing of an opera.

Cover/understudy - This is the person who learns a role, music and staging just in case the lead cannot perform due to sickness or injury… as we say in the theater, "The show must go on!"

EXHIBIT B 10D
EXHIBIT A

Part 1

Scene 1 – 45 seconds

Tamino runs onstage. He is chased by a serpent/dragon!

Tamino Aria: ***Zu Hilfi! Zu Hilfi!*** **Sonst bin ich verloren…**
Aria 1 ***Oh help me! Oh help me!***
1 minute

Tamino falls in a swoon.

The Three Ladies:

The Three Ladies enter and spear the serpent/dragon.

The Three Ladies gaze at Tamino with admiration at his beauty.
They place their hands to their hearts and breathe deeply with a sigh!
Then they motion to each other to leave, but then hesitantly all leave looking back at Tamino with longing!

Tamino: Tamino comes to, and looks around fearfully.

Tamino: ***Where am I? Is it a dream that I am still alive?***
Or did some mightier power rescue me?

Tamino rises and looks around.

Tamino: ***What! The cruel serpent lies dead at my feet?***

Panpipes are heard.

Tamino: ***What's that I heard? Where am I? What strange place is this?***
Ha! A man of some sort is approach*ing the valley.*

Tamino hides.

EXHIBIT B
EXHIBIT A

Scene 2 – 60 seconds

Papageno comes down the footpath.
Papageno holds panpipes with both hands, pipes, and sings.

Papageno Aria: ***Der Vogelfanger bin ich ja…***
Aria 2 ***(Oh, catching birds, that is my trade…)***
3 minutes (or 1 or 2 minutes with one or two verses)

Tamino: ***Hey there!...Tell me, merry friend, who are you?...***

Papageno: ***Who are you?***

Tamino: ***My father is a king who rules over many lands and people; so I am called Prince.***
…Who rules over this country?

Papageno: **I can't tell you that.**

Tamino: ***How do you live?...And how do you get your food & drink?***

Papageno: ***I catch all sorts of birds for the Star-blazing Queen and her Ladies; and in exchange I get my daily food and drink from them.***

Tamino: ***…have you ever been fortunate enough to see this Goddess of the Night?***

Papageno: ***What human eye could pierce that veil of hers, woven with inky*** **blackness?**

Tamino: (aside) ***...she is indeed that nocturnal Queen whom my father so often told me about....***

Perhaps he is one of the sprits who serves her.

Papageno: ***Why are you looking at me in that suspicious, villainous way?***
...Stand back, I tell you and beware of me;
for I have the strength of a giant when I get hold of anyone.

Tamino: ***The strength of a giant?*** **(Tamino looks at the serpent.)**
So, it was you who saved me.

Papageno: ***Strangled it.***

Scene 3 – 60 seconds

The Three Ladies enter.

Tamino: ***Who are these ladies?***

Papageno: ***...each day they come to collect my birds and bring me wine, sugar-bread, and sweet figs in exchange.***

The Three Ladies: The Ladies wag their fingers angerly at Papageno.

Papageno: ***They are not pleased with me.***

The Three Ladies: The Ladies wag their fingers angerly at Papageno.

Papageno: ***What have I done wrong today, to make you so angry with me?***

EXHIBIT B
EXHIBIT A

Here, my lovely ones, I deliver you my birds.

First Lady: Hands Papageno a bottle of water.

Papageno: ***Her majesty sends, for the first time, instead of wine, pure, clean water!***

Second Lady: Hands Papageno a stone.

Papageno: ***...instead of sugar-bread, this stone!***

Third Lady: Walks forward to attach a golden padlock to Papageno's lips.

Papageno: ***...in the future I will not tell lies to strangers, and boast of heroic deeds that others have accomplished.***

Third Lady: Attaches the golden padlock.

Tamino: ***So you Three Ladies saved me.***

Third Lady: Hands Tamino a portrait of Pamina, the daughter of the Queen of the Night.

Tamino: Accept the portrait and gazes with dramatic love at Pamina's portrait.

Pamina, daughter of the Queen of the Night.

Scene 4

Tamino Aria:	***Dies Bilnis ist bezaubernd schon***
Aria 3	***(Oh vision of enchanting grace!)***
4 minutes	(one verses: ends: *Ah yes, 'tis love, 'tis love alone.*)

Scene 5 – 15 seconds

The Three Ladies:	The ladies whisper in Tamino's ear.
Tamino:	***Oh, eternal darkness! What do I hear?***
	Then the maiden here pictured has been abducted
	by a powerful, evil fiend - Sarastro.
	Sound of thunder.

Scene 6

The Queen, seated on a throne decked with transparent stars.

The Three Ladies, Tamino and Papageno

Queen Aria:	**O zittre nicht, mein lieber Sohn**
Aria 4	***Oh, have no fear, my noble youth!***
5 minutes	

Scene 7

Tamino & Papageno	**Der Arme kann von Strafe sagen**
Quintet (Duet) 5	***I plainly see that you may suffer***
2 minutes	

EXHIBIT B
EXHIBIT A

Scene 8 - 45 seconds

The Three Ladies, Tamino and Papageno

First Lady: Removes the padlock and hands it to Papageno.

Papageno: ***I'll never tell another lie. His padlock warns me not to try.***
If lying lips could all be fettered,
If such a lock could close them tight,
Then slander, hate, and lies would vanish,
And men would live in love and light.

First Lady: (gives Tamino a golden flute)

Tamino: ***The Queen bestows this magic flute to defend me, and all human souls can be enchanted, and increase man's joy on earth.***

First Lady: (gives Papaggeno a glockenspiel)

Papageno: ***Ai, ai! Whatever can it be!***
It sets my fingertips a-tingling!

Who will be our guide to show the way?

Three Ladies: The ladies whisper to Tamino & Papageno.

Tamino &
Papageno: ***Three charming, wise young boys will guide us,***
Along our road they'll stay beside us.

Tamino and Papageno exit

Scene 9 – Remove – **Three slaves discuss situation.**

Scene 10 – Remove – **Monostros and slaves**

Scene 11 – Remove – **Monostros, slaves & Pamina**

Scene 12 – Remove – **Papageno & Monostros**

Scene 13 – 15 seconds

Pamina: Pamina enters and speaks as if in a dream

Mother – Mother – Mother! (she comes to and looks around)
This heart is sill beating? I'm still alive?

Scene 14 – 90 seconds

Papageno enters

Papageno: ***Ah, what's this! The pretty girl's here.***
Oh daughter of the Queen of the Night.

Pamina: ***Who are you?***

Papageno: ***An ambassador from the Star-blazing Queen.***

Pamina: ***From my mother!*** *(joyfully)* ***Oh joy!***
What's your name?

Papageno: ***Papageno***
(He scutinizes the portrait, the one the Prince was given earlier, which Papageno now carries on a ribbon around his neck.)

EXHIBIT B
EXHIBIT A

Pamina: *Allow me – Yes, that's me!*
How did my portrait get into your hands?

Papageno: *To tell you that would take far too long.*
… Early this morning, as usual I came to your mother's palace with my bird delivery. I saw in front of me someone who called himself Prince. This Prince took your mother's fancy to such an extent that she gave him your picture and ordered him to rescue you.
He made up his mind as quickly as he'd fallen in love with you.

Pamina: *Love?* (joyful) *So he loves me!*

Papageno: *…this great love for you… prompts Prince…to return you… back to your mother's palace.*

Pamina: *If Prince really loves me why is he delaying so long to free me?*

Papageno: *Prince sent me on ahead to announce our arrival.*

Pamino: *Friend, you have dared much! If Sarastro, who abducted me from my mother, sets eyes on you here …*
You would be put to death…

Papageno: *Well, to avoid that, let's leave right away.*

Pamina: *You have a tender heart; I can see that in everything about you.*

Papageno: *And what good does it do me?*
Papageno still does not have a Papagena.

Pamina: *You poor man! So, you have no wife?*

DocuSign Envelope ID: 7659426D-D4DE-4A05-B7D3-1CF78D35B5B7

Papageno:	***Haven't even got a girlfriend.***
Pamino:	***Patience friend.***
Pamina & Papageno Duet 7 2 minutes	***Bei Mannern, welche Liebe fuhlen*** ***(The man who feels love's sweet emotion)*** (reduce) Pamina and Papageno exit.

EXHIBIT A

Scene 15 – 90 seconds

Three Boys enter guiding Tamino.

Tamino: ***O lovely spirits, shall it be***
That I may set Pamina free?

(Tamino goes to back stage right)

O vile seducer, tremble now!
Pamina's rescue is my vow.

Male voice from backstage:
Voice: ***Go back!*** (Pagageno covers as "Voice")

Tamino (Tamino goes to back stage left)
Go Back! ***I'll try my fortune here!***

Male voice from backstage:
Voice: ***Go back!*** (Pagageno covers as "Voice")

Tamino: ***Again the cry? "Go back!"***

(Tamino goes to back stage center)
Perhaps I'll find an entrance here.

Male voice from backstage:
Priest Voice: ***What seek you in this sanctuary?***
(Pagageno covers as "Priest Voice")

Tamino: ***I seek a realm of love and truth.***

Male voice from backstage:

EXHIBIT B
EXHIBIT A

Priest Voice: ***Not love nor truth has led you here,***
But death and vengeance have impelled you.
(Pagageno covers as "Priest Voice")

Tamino: ***Revenge upon an evil fiend!***
Sarastro rules within these temples?

Male voice from backstage:
Priest Voice: ***Ah, yes! Sarastro rules us here!***
You hate Sorastro so?
(Pagageno covers as "Priest Voice")

Tamino: ***I'll hate Sorastro ever, yes!***
Did not that robber seize Pamina
And steal her from her grieving mother – Queen of the Night?

Male voice from backstage:
Priest Voice: ***But yet in time you'll learn the truth.***
When you are led by friendship's hand.
(Pagageno covers as "Priest Voice")

Tamino: ***Is Pamina still alive?***

Male voice from backstage:
Priest Voice: ***Pamina is still alive.***
(Pagageno covers as "Priest Voice")

Tamino: ***She lives! Thank you for those words.***
(He takes up his flute.)

But, but Pamina does not hear.
Pamina! Hear me, hear me!

(Pagageno answers on his panpipes)

Ah, I hear Papageno's pipe!

(Tamino plays. Papageno answers.)

Perhaps Pamina has been found,
Perhaps Pamina's at his side,
Perhaps the flute will be my guide.

(Tamino hurries off stage)

Scene 16 – 20 seconds

Pamina and Papageno tiptoe on stage saying:

Pamina & Papageno: ***Walk on tiptoes! Hold our breathe!***

Pamina calls out:

Pamina: ***Ah, Tamino!***

Papageno: ***Quiet, quiet! I've a better way to call him.***
(He pipes, Tamino answers on his flute.)

Pamina & Papageno: ***A delightful sound to greet us!***
So Tamino hears the cry;
With the flute he makes reply.
Here's an end to all our worry.
Let us hurry! Let us hurry!

Pamina and Papageno exit and immediately reenter the stage.

Scene 17 – Remove – **Monostatos, Pamina, Papageno**

Scene 19 – 20 seconds

Pamina and Papageno on stage,
Tamino enters.

Pamina	***'Tis he!***
Tamino	***'Tis she!***
Pamina	***Or do I dream?***
Tamino	***'Tis she!***
Pamina	***'Tis he!***
Tamino	***This is no dream.***
Pamina	***Within your arms you hold me fast,***
Tamino	***Within my arms I hold you fast,***
Both	***Though this embrace should prove my last.***

They embrace.

They exit. Papageno follows.

Part 2

Scene 1 – Remove – **March, Sarastro, Priests, Chorus**

Scene 2 – 15 seconds

Tamino and Papageno walk to stage center

Tamino: ***A fearful night! Papageno, are you still with me?***

Papageno: ***Sure, I'm with you.***

Tamino: ***Where do you think we are now?***

Papageno: ***Where?*** (thunderclap)
Oh dear! This sort of thing really does not agree with me.

Tamino: ***Shame, Papageno!***

Scene 3 – 30 seconds

Spokesman Voice: Male voice from back stage.
What do you seek or request?

Tamino: ***Friendship and love.***

Spokesman Voice: Male voice from back stage.
Are you prepared to strive for them with your life?

Tamino: ***Yes! May the attainment of wisdom be my***

Scene 6 – Remove – **Spokesman, Priest, Papageno**

Scene 7 – Remove - **Monostatos**

Scene 8 – 75 seconds

Pamina enters stage.

Queen enters.
(Thunder)

Queen: ***Stand back!***

Pamina: ***Oh gods! Mother! Mother! my mother!***
(Pamina falls into her mother's arms.)

Queen: *Where is the young man whom I sent to you?*

Pamina: *He has dedicated himself to the Initiates – seekers of love of wisdom.*

Queen: *Unhappy daughter, now you have been torn from me forever!*

Pamina: *Oh, dear mother, let us flee!*

Queen: *When your father died, my power died with him.*

Pamina: *My father –*

Queen: *He relinquished the seven-fold Circle of the Sun, the all-consuming Circle of the Sun.*

Pamina: *Dear mother, does this mean that the young man is lost to me forever?*

Queen: *Lost, unless before sunrise, you can persuade him to escape.*

Parmina: *Dear mother, could I not love the young man as an Initiate – seeker of love of wisdom – just as tenderly as I love him now?*

Queen: *What do I hear? You, my daughter, defend these shameful principles?*

Do you see this dagger?

EXHIBIT B
EXHIBIT A

It has been sharpened for Sarastro.

You will kill him, and deliver the mighty Circle of the Sun's power to me.

Pamina: ***But, dearest mother!***

Queen: ***No more!***

Aria 14 **Der Holle Rache kocht in meinem Herzen**
3 minutes **You'll avenge me, daughter**

Queen departs dramatically.

Scene 9 – 15 seconds

Pamina: ***I must commit a murder?***

O ye gods, I cannot! I cannot!

Scene 17- Remove – **Tamino and Papageno**

Scene 18 – 60 seconds

Pamina enters.

Tamino: (play flute)

Pamina: (joyful). ***You here?***

Gracious gods, I thank you that you have led me here.

I heard your flute and swift as an arrow I followed its tones.

But you are sad? You say no word to your Pamina?

DocuSign Envelope ID: 7659426D-D4DE-4A05-B7D3-1CF78D35B5B7

Tamino: (signs.) ***Ah!*** (He signs that she should leave.)

Pamina: ***What! I must leave you?***
Do you love me no longer?

Tamino: (signs.) ***Ah!*** (He repeats his gesture.)

Pamina: ***I must leave you without knowing why?***
Tamino! Dear Tamino!
Have I offended you? –
Oh, do not wound my heart still further!
I come to you for comfort, for help,
and you inflict new wounds on my loving heart?
Do you love me no longer?

Tamino: Sighs.

Pamina: ***Papageno, you tell me, tell me what troubles my friend?***

Papageno: Papageno claps his hands over his mouth, and Gestures she should leave.

Pamina: ***What? You too? At least explain to me the reason you are silent.***

Papageno: *Ssh!* Papageno indicates that she should leave.

Pamina: ***Oh, this is worse than wounds – worse than death!*** (Pause)
My dearest, my only Tamino!

Aria 17	***Ach, ich fuhl's, es ist verschwunden***
1.5 minutes	***Ah! I feel my life is over!***
	Pamina and Papageno exit in opposite directions..

Pamina:	***A final farewell! Oh, where is he?***
	Lead me to him!
	Tamino turns from center back and removes Pamina's sack.
	Tamino!
	Pamina moves toward Tamino.
Tamino:	***Stand back!***
Remove - Trio 19	***Soll ich dich, Teurer! nicht mehr sehn***
	Pamina and Tamino exit in opposite directions
Scene 22 – Remove -	**Papageno and A Voice**
Scene 23 – 15 seconds	Papageno enters
Papageno:	***I've a very strange feeling around my heart.***
	I want – I'd like – well, what?
Aria 20	***Ein Madchen oder Weibchen Wunscht Papageno sich!***
1.5 minutes	
	Oh, maiden come to join me, be Papageno's wife.
	One verse
	Papageno remains on stage.

Scene 24 – 30 seconds

Woman enters. (Queen of the Night covers)

Woman: ***Here I am, my angel.***

Papageno: ***So you took pity on me? I am lucky!***

Woman: ***And you swear to me that you will always be true?***
Give me your hand, to promise our marriage.

Papageno: ***Well, there you have my hand,***
and I promise that I will always be true to you.

Woman transforms to Papagena.

Pa – Pa – Papagena!

He embraces her. They stroll off stage together.

Scene 25 – Remove - **Spokesman and Papageno**

Scene 26 – Remove - **Three Boys**

Scene 27 – 30 seconds

Pamina enters distraught.

Pamina: ***I am your bride, beloved knife;***
In your embrace I'll end my life.

I shall perish, for the man,
Who I thought would never hurt me,
Chose to spurn me, and desert me.

No! So cold when I implored him!
Though he knew that I adored him,
Yet he turned away his eye!
Why no answer, no reply?

....I long to see him.

Exits in a searching manner.

Scene 28 – 90 seconds

Tamino enters resolutely.

Tamino: ***By threat of death I am unshaken;***
The path of virtue I have taken.
So throw the gates of terror wide,
I mean to brave what lies inside.
He is about to set forth.

Pamina: *From off stage:*
Tamino, wait! Oh wait for me!

Tamino: ***Pamina? Pamina calling?***

What joy, if she is at my side!

But say, am I released from silence?
Yes! Released from silence!

Pamina: Rushes onto the stage.
Tamino mine! Joy fills my heart!

Tamino: ***Pamina mine! Joy fills my heart!***

	Pamina and Tamino embrace.
	Behold the test of flames and flood.
Pamina:	**I'll gladly brave all danger**
	When I am by your side;
	And I shall lead you on,
	For love will be my guide;
	Yes, take that magic flute and play,
	And it will guard us on our way.
	Tamino plays the flute & they wander through the flames.
Pamina & Tamino:	***We wandered through the fire unshaken;***
	The peril bravely we withstood.
	O flute, that tamed the fiery furnace,
	Now guard our passage through the flood.
	Tamino plays the flute and they wander through the flood.
Duet:	***Ihr Gotter! Welch ein Augenblick!***
30 seconds	***Gewahret ist uns Isis Gluck.***
	Stand triumphantly together.
	Then exit
Scene 29 –	Papagena and Papageno enter.
	Pa – Pa- Pa – Pa – Pa – Pa – Papagena!

The Magic Flute Opera Is Coming to Tri-Valley Schools

By Pamela Rigg and Leslie Silberman Livermore Valley Opera
Jan 6, 2024

During the last two weeks of January 2024, Livermore Valley Opera will present a reduced 45-minute version of Mozart's The Magic Flute to Tri-Valley elementary schools, including Altamont, Croce, Mitchell, Smith, and Sunset in Livermore, and Amador, Frederiksen, Green, and Kolb in Dublin and Sunol Glen in Sunol.

Livermore Valley Opera (LVO) is committed to increasing student access to world-class opera experiences while deepening students' engagement with the art form. LVO's Education Engagement Program initiatives aim to foster new ope
ensure the longevity of opera and the perf

LVO reaches over 10,000 Tri-Valley elementary school students annually, by offering performances presented free of charge. The Education Engagement Program provides free resources to support performances for elementary school students and educators, which are made available on LVOpera's website.

Action-packed drama will captivate these young audiences in a truly unforgettable performance. For each school, five students will be selected to perform the opening parts, namely the Dragon who chases the exotic Prince Tamino into a magical world, as well as The Three Ladies who rescue the Prince. The final scenes of the story also include student roles when The Three Boys lead the Prince, who finds his true love with Princess Pamina, through the trials of water and flames played by even more students. All five principal roles in this performance are played by local professional artists.

Olivia Prendergast, who has just completed the San Francisco Opera's Merola Opera Program's Young Arts training, will be singing the role of Pamina, an honest and faithful Princess who rejects the emotion of revenge suggested by the Queen of the Night to choose love instead. The role of Prince Tamino, to be played by Chester Pidduck, who has performed lead roles in major American opera houses, represents a transformation from a faint-hearted boy to a mature man of resolve, determination, self-discipline and high moral integrity.

The role of Papageno, a half-man, half-bird creature who helps the Prince find his true love, will be played by Andrew Pardini who performs with the San Francisco Opera's Chorus, and who brings an element of comedy to this winsome role. The role of Papagena, the perfect match in simplicity for Papageno, will be played by Leisl McPherrin, who performs regularly with the San Francisco Opera's Chorus and many other musical theater venues. The Papageno-Papagena duet is echoed by students in the audience, who have been prepared in advance to participate. Leisl McPherrin will play a double bill, by taking on the opposite role of Queen of the Night and masterfully singing an aria that contains one of the most difficult two octave ranges in opera.

There are several available opportunities for elementary schools still interested in scheduling a performance. For more details, or to schedule a performance at your school, visit LVO's website at www.LVOpera.com.

A fairy tale for the ages: Livermore Valley Opera brings Mozart to Bankhead stage

Director and artistic leader reflect on production process

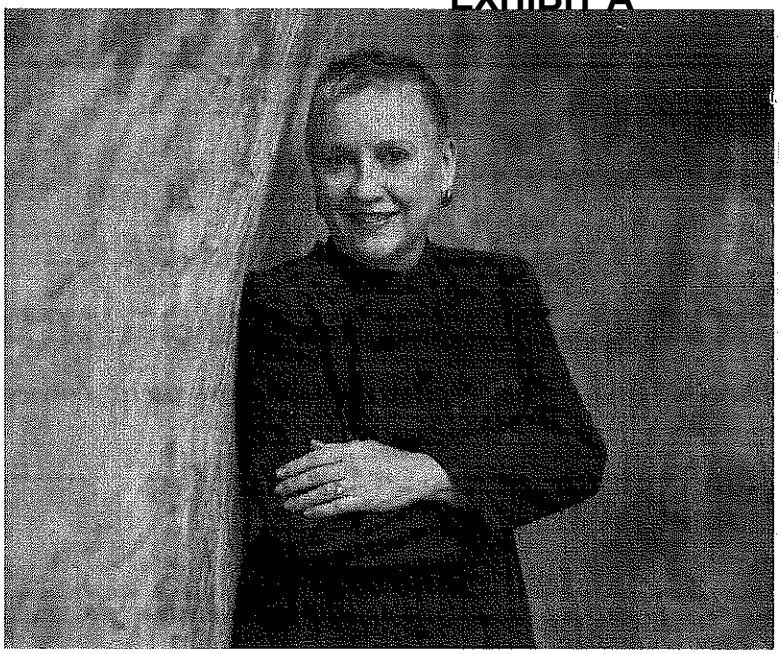
by **Nicole Gonzales**
February 20, 2024 Updated February 21, 2024

"The Magic Flute" by famed composer Wolfgang Amadeus Mozart is one of the most well-known and performed operatic pieces of all time. Local audiences will have the chance to catch a live rendition of the show produced by a familiar Tri-Valley performing arts group next month.

Taking place in a magical fairy tale land, the story follows the gallant Prince Tamino and his companion Papageno on their comical yet arduous rescue mission. The prince and his companion must embark on the quest to prove their worthiness and save Princess Pamina, daughter of the Queen of the Night.

Livermore Valley Opera will perform "The Magic Flute" from March 2-10 at the Bankhead Theater as part of its 32nd season.

LVO has performed "The Magic Flute" twice before at Livermore High School but never at the Bankhead Theater, according to artistic director Erie Mills.



"'The Magic Flute' is among the most frequently performed of all operas," Mills told the Weekly. "It is a 'singspiel', a popular form of its time having both singing and spoken dialogue, rather like American musical theater."

"LVO has chosen to perform the opera in English so the story is more immediate to our audience. We also hope to encourage families to attend. It's a fairy tale for all ages," Mills added.

Mills shared that she enjoys the show's ensemble pieces and teased who of the cast is likely to be the audience's most beloved character.

Privacy - Ter

In my own singing career, I've performed as both Pamina and the Queen of the Night. While I love their arias, I think I love the ensembles the most," she said. "Papageno is probably everyone's favorite character, because he is the most real. He's funny and charming, and he gets his Papagena by the end of the opera."

LVO artistic director Erie Mills. (Photo courtesy LVO)

Yefim Maizel returns to LVO to offer his directorial skills to the production. Maizel retains over 30 years of operatic experience.

"'The Magic Flute' is not only one of Mozart's greatest works, but perhaps one of the greatest operatic pieces of all time," Maizel said. "When LVO got in touch with me about directing this show, I was happy to work with them and take on this project.

The opera has been described as Mozart's crowning achievement, according to the director.

"We wanted to stay true to the major themes of "The Magic Flute", our characters show courage, wisdom and of course perseverance," Maizel said. "(Most of all) it's relatable. Despite them living in a fairyland, the characters come across as exceptionally real. They go through many twists and turns, they have faults, comedy, desires and needs like we all do."

"Both Alex Katsman and I knew Yefim from his directing career and from his Opera Academy of CA, which he established in 2005," Mills said. "He has directed all over the world and we are very fortunate that he was available to direct."

Founded in 1992, LVO often calls on regional and local talent for its various shows. Both Mills and Maizel expressed there is a great amount of talent from "The Magic Flute" cast.

Soprano Phoebe Chee stars as Pamina, tenor Victor Cardamone as Tamino, soprano Shawnetter Sulker as Queen of the Night, tenor Alex DeSocio as Papageno and bass Kirck Eichelberger as Sarastro.

Each of the stars have received notable recognition for their musical talents. Chee has been described as "one of Singapore's most promising young sopranos" by Spot Pocket Opera Theater. The New York Times called

Hitting the High Notes

Livermore Valley Opera is presenting Mozart's "The Magic Flute".

Right in the backyard of Ruby Hill is Livermore Valley Opera, a professional opera company that presents wonderful performances for the Bay area. Beginning in March, the show will be Mozart's *The Magic Flute* and it promises to be not only visually stunning but also a phenomenal auditory experience. "*The Magic Flute* is a family-oriented and delightful experience any of the Ruby Hill residents would have if they attended this show," stated Barbara Lymberis, Stroll/LVO liaison.

LVO was founded in 1992 when the opera-loving community used the Livermore High School to produce their shows. In 2007, the Bankhead Theater opened with *La Boheme*, and LVO transitioned to the world-class professional opera company that it is today. Magnificent, fully staged operas attract talented singers and stage directors. For its audiences, the Bankhead Theater is an excellent venue for sight and sound, creating the most memorable experiences. All audience members are "up close" and involved in the performances.

Combining the talents of professional musicians, stage directors, singers, and designers with the dedication of volunteers for the chorus, stage crew, set builders, and board members brings the whole show together. Two of the many important people at LVO are Eric Mills, and Alex Kaleman, the heart and soul of the organization.

Eric Mills

Eric has been working in the field of opera since 1977. She absolutely loves it and hopes to get others to love it, too. In the past, Eric was very much in demand as a coloratura soprano with a stellar career. Now she loves hearing others sing. She admitted that the opera experience in Livermore is new for her, and she has been working as the Artistic Director since 2016.

Alex conducted his first show for LVO, "The Merry Widow", in 1997. He became LVO's Resident Music Director and Conductor in 2007, starting with "La Boheme" and has conducted numerous productions for the company. Alex has also conducted an impressive number of operas, operettas, and musicals at various musical organizations. He is looking forward to LVO's next production of "The Magic Flute" which has some of his favorite music.

Together, Eric and Alex create a magical experience for the audience every show. "There are many moving parts that contribute to making stellar performances that are becoming recognized and respected throughout the Bay Area," Eric explained. Opera takes a bit of homework, and Eric believes it's the one art form that encompasses all the other performing arts elements: music, singing, drama, scenery, lighting, costumes, hair, and makeup. "All this for one ticket!"

For your entertainment, the Livermore Valley Opera performs two mainstage operas at the Bankhead Theater, one in the fall and one in the spring. "We also have an extensive Educational and Community Engagement program," Eric shared, and added that each summer LVO presents two "Opera in the Vineyard" events at Garré Vineyard & Winery.

Mark your calendar now for *The Magic Flute* performances! It's a wonderful opportunity to see one of the great art forms for a reasonable price and it's practically right in your backyard.

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance
Grantee shall maintain limits no less than:

Commercial General Liability, including operations, products and completed operations, as applicable: **$1,000,000/$2,000,000** aggregate per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.

Deductibles and Self-Insured Retention
All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers
Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions
The general liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Grantee. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.
2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy,

including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.

4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550.

Verification of Coverage

Grantee shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

AGREEMENT BETWEEN CITY OF LIVERMORE AND THOMASIN DEWHURST FINE ART FOR FISCAL YEAR 2024-25 PROJECT AND PROGRAM GRANT AGREEMENT

This AGREEMENT, entered into this ____ day of _____, 2024, between the City of Livermore, a municipal corporation ("City"), and Thomasin Dewhurst, and Thomasin Dewhurst Fine Art, a sole proprietorship ("Grantee").

RECITALS

A. City created Project and Program Grants for the purpose of encouraging programs for the cultural enrichment in the City of Livermore.

B. The primary goal of the Project and Program Grant Program is to serve one or more of the main strands found in the Cultural Arts Master Plan, artsALIVE!, adopted by City Council Resolution number 2007-109 on June 11, 2007.

C. The Commission for the Arts reviews all Project and Program Grant applications and provides City Council with recommendations for funding. Funding is not authorized until City Council approves the Commission for the Arts' funding recommendations evidenced by City's signature on this agreement.

D. Grantee has applied to City for funding for a project or program to support a visual arts collaboration between Arts and Science in the form of a mural project and event ("Project").

E. City wishes to engage Grantee to assist City in utilizing Public Art Fee fund money to provide art projects and programs to Livermore residents.

F. City and Grantee understand that the Project and Program Grant shall be administered consistent with the procedures, standards, regulations, and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

AGREEMENT

NOW THEREFORE, City and Grantee hereby agree that the aforementioned recitals are true and correct, and in recognition of the mutual consideration provided herein, further agree as follows:

I. SCOPE OF SERVICE

A. Activities

Grantee is responsible for administering the Project and Program Grant in a manner satisfactory to City, and consistent with the standards, terms and conditions imposed by the 2008 Art in Public Places Program Policy and Procedures Manual,

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Cultural Arts Master Plan, and herein. The Project will include the following activities eligible under the Project and Program Grant Program: A visual arts collaboration between Arts and Science in the form of a mural project and event that celebrates Livermore, clean air transportation innovations and brings work to Livermore artists.

1. *Project and Program Delivery*: Grantee agrees to the goals and performance standards as defined below and outlined in the Grantee's Project and Program Grant application attached as Exhibit "A".

2. *Service Objective:* provide funds for a collaboration of adult and youth artists in creating an educative mural celebrating clean fuel innovations which will be located on a Livermore Airport hangar wall facing the Gillig Campus, at the corner of West Jack London Blvd and Discovery Dr. and a Clean-air Innovation event expected to be no later than June 30, 2025 ("Activities").

3. *General Administration:* The Funds for the Activities are to be administered under the direction of the Grantee's Executive Director and shall comply with the procedures, standards, regulations and guidelines for Project and Program Grants, including the 2008 Art in Public Places Program Policy and Procedures Manual and the Cultural Arts Master Plan.

B. Budget

City will grant, and Grantee will use, funds in the amount of $10,000 ("Funds") to perform the Activities consistent with the terms and conditions of this Agreement, the 2008 Art in Public Places Program Policy and Procedures Manual, and the Cultural Arts Master Plan.

C. Performance Monitoring

City will monitor Grantee's performance against the project or program description outlined in the Grantee's Project and Program Grant application attached as Exhibit "A". Substandard performance as determined by City will constitute non-compliance with this Agreement.

II. TIME OF PERFORMANCE

Grantee shall complete its Activities within one year of the date of execution of this Agreement. If Grantee requires an extension of time for full performance, it may request an extension from the Commission for the Arts. The decision of the Commission for the Arts shall be final.

III. PAYMENT

It is expressly agreed and understood that the total amount of the Funds available from City to Grantee for the Activities under this Agreement shall not exceed $10,000.

The City shall disburse the Project & Program Grant in three installments: 30 percent in

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

advance, 40 percent once material progress can be shown and evidence of the matching grant cash requirement has been submitted, and the final 30 percent after a satisfactory Final Report has been filed. The Project & Program subcommittee of the Commission for the Arts has sole discretion to decide whether each of these milestones has been reached.

IV. NOTICES

Any notice required or permitted under the terms of this Agreement shall be effective upon receipt in writing either by personal service upon the authorized agent for the party, or by mailing the notice via U.S. Mail to the party as follows:

City: City of Livermore
Attn: Theresa De La Vega
Commission for the Arts Staff Liaison
1052 S. Livermore Avenue
Livermore, California 94550

Grantee: Thomasin Dewhurst Fine Art
[redacted]

V. GENERAL CONDITIONS

A. General Compliance

Grantee agrees to comply with the requirements of state and local laws and regulations governing the Funds available under this Agreement. Grantee also agrees to comply with all additional regulations and policies issued pursuant to these regulations. Grantee further agrees to utilize the Funds available under this Agreement to supplement, rather than supplant, funds otherwise available. Furthermore, with respect to the performance of Activities under this Agreement, Grantee agrees to comply with all federal, state, and local laws, statutes, rules, and regulations pertaining to the performance of those Activities.

B. Independent Contractor

Nothing contained in this Agreement is intended to, nor shall be construed in any manner to, create or establish the relationship of employer/employee between the parties. Grantee shall at all times remain an Independent Contractor with respect to the services to be performed under this Agreement. City shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance, and Workers' Compensation Insurance as Grantee is an Independent Contractor.

C. Hold Harmless

Grantee agrees to defend, indemnify, and hold City, its elected officials, officers, directors, employees, agents, and designated volunteers harmless from and against any and all loss, liability, damage, including reasonable attorney's and expert fees and/or court costs,

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

arising out of the performance of the Activities under this Agreement, except for the gross negligence and willful misconduct of City, its elected officials, officers, directors, employees, agents, and designated volunteers.

D. Insurance

Grantee shall procure and maintain insurance for the duration of the contract in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Project. Upon reasonable written notice, Grantee shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by the City of Livermore Risk Manager.

E. City Recognition

Grantee shall acknowledge City's financial support in all appropriate materials and media. The acknowledgment shall read, "Supported in part by a grant from the City of Livermore" or similar language, unless the City of Livermore is a part of a list of supporters. In the latter case, the acknowledgement may say only "City of Livermore." Grantee shall display the City of Livermore's logo whenever other sponsor logos are displayed, and in accordance with the City of Livermore's logo use guidelines.

F. Amendments

City or Grantee may amend this Agreement at any time provided such amendments make specific reference to this Agreement, and are executed in writing, signed by a duly authorized representative of both organizations. Such amendments shall not invalidate this Agreement, nor relieve or release City or Grantee from its obligations under this Agreement.

City may, in its discretion, amend this Agreement to conform with state or local laws, regulations, guidelines, or policies related to the use of the Funds for the Activities. However, if such amendments result in a change in the funding, the scope of services, or the Activities, such modifications shall be incorporated only by written amendment signed by both City and Grantee.

G. Suspension, Termination, Return of Funds

1. *Termination for Cause.* City may suspend or terminate this Agreement if Grantee materially fails to comply with any term or condition of this Agreement, including but not limited to, the following:

a. Failure to comply with any of the rules, regulations or provisions referred to herein, or such statues, regulations, policies, or directives as may become applicable at any time;
b. Failure, for any reason, of Grantee to fulfill in a timely and proper manner its obligation under this Agreement;
c. Ineffective or improper use of Funds provided under this Agreement; or
d. Submission by Grantee to City reports that are incorrect or incomplete in any material respect.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

City shall give Grantee written notice of any failure to comply with the Agreement. If Grantee does not remedy the deficiency or non-compliance within fifteen (15) calendar days after the date the notice is sent, City may exercise any of the remedies available under law and equity, including but not limited to the termination of this Agreement.

Pending correction of any compliance, City shall withhold fifteen percent (15%) of the remaining Agreement Funds until Grantee corrects the deficiency, Grantee is otherwise found to be in compliance by City, or Grantee is otherwise adjudicated to be in compliance with the Agreement.

2. *Termination for Convenience:* This Agreement may also be terminated for convenience by either City or Grantee, in whole or in part, by giving notice of such termination, the effective date of the termination, and in the case of partial termination, the portion to be terminated. However, if in the case of a partial termination, if City determines that the remaining portion of the Funds or Activities will not accomplish the purpose for which the award was made, City may terminate the Agreement in its entirety.

Written notice of termination must be provided at least thirty (30) calendar days before the effective date of such termination.

3. *Effect of Termination:* In the event of termination, all finished or unfinished documents, data, studies, photographs, reports, or other materials prepared by Grantee under this Agreement shall, at City r's option, become the property of City, and Grantee shall only be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to the termination. Any remaining Funds shall be returned to the City's Public Art Fund for reallocation.

Termination for failure to comply with any term or condition of this Agreement may result in Grantee becoming ineligible to participate in future Commission for the Arts grant programs.

Termination for any reason shall immediately suspend the Funds available under this Agreement, terminate any claim Grantee has to such Funds, and result in Funds being immediately refunded to City for use and reallocation by City.

VI. **ADMINISTRATIVE REQUIREMENTS**

A. Documentation and Recordkeeping

1. *Records to be Maintained*: Grantee shall maintain the following records including, but not limited to:

   a. Records providing a full description of each activity undertaken and the date(s) on which the activity occurred;

   b. Records demonstrating that each activity undertaken meets one of the objectives of the Program & Program Grant; and

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

c. Quarterly and annual revenue and expense reports for Activities funded by this Agreement.

2. *Retention*: Grantee shall retain all records pertinent to expenditures incurred in the performance of the Activities under this Agreement for a period of two (2) years after the termination of all activities funded under this Agreement.

3. *Objectives*: Grantee agrees to maintain documentation that demonstrates that the Activities meet one or more of the objectives of the strands identified in the Cultural Arts Master Plan.

4. *Audits and Inspections*: All Grantee records with respect to any matters covered by this Agreement shall be made available to City at any time during normal business hours, as often as City deems necessary, to audit, examine, and make excerpts or transcripts of all relevant data.

Any deficiencies noted in audit reports must be corrected by Grantee within thirty (30) calendar days after receipt of notice of deficiency by Grantee. Failure of Grantee to comply with the above audit requirements will constitute a violation of this Agreement and constitute cause for termination pursuant to Paragraph V.

B. Reporting and Payment Procedures

1. *Payment Procedures*: City will pay to Grantee Funds available under this Agreement based upon information submitted by Grantee, and consistent with the 2008 Art in Public Places Program Policy and Procedures Manual. City reserves the right to liquidate Funds available under this Agreement for costs incurred by City on behalf of Grantee.

2. *Progress Reports*: Grantee shall submit a Material Progress Report to the Commission for the Arts when it feels the Project has made material progress. Grantee shall also submit a Final Report when its Project Activities are complete. These reports are prerequisites to receiving the second and third grant installment payments, in accordance with Section III. The Grantee shall determine the form and content of the Progress Reports.

3. *Quarterly Revenue and Expense Reports*: Grantee shall submit Quarterly Revenue and Expense Reports for grant activities to the Community Development Director.

VII. PERSONNEL AND PARTICIPANT CONDITIONS

A. Assignability

Grantee shall not assign or transfer any interest in this Agreement without the prior written consent of City. However, claims for money due or to become due to Grantee from City under this Agreement may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to Grantee.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

B. Conflict of Interest

Grantee agrees to abide by the provisions of the California Political Reform Act (Gov. Code §§ 81000 *et seq.*) and related regulations (2 Cal. Code Regs. §§ 18109 *et seq.*) with respect to conflicts of interest, and covenants that it presently has no financial interest, and shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the Activities under this Agreement.

Grantee further covenants that in the performance of this Agreement, no persons who exercise or have exercised any functions or responsibilities with respect to the Activities, or who are in a position to participate in a decision-making process or gain inside information with regard to such Activities, have a financial interest in any contract, subcontract or agreement with respect to the Activities or with respect to the proceeds from the Activities, either for themselves or those with whom they have a business or immediate family ties, during their tenure or for a period of one (1) year thereafter.

These conflict of interest provisions apply to any person who is an employee, agent, Grantee, officer, or elected or appointed official of Grantee.

C. Subcontracts

1. *Approvals*: Grantee shall not enter into any subcontracts with an agency or individual in the performance of this Agreement without the prior written consent of City.

2. *Monitoring*: Grantee will monitor all subcontracted services to assure Agreement compliance. Results of monitoring efforts must be summarized in written reports, and supported with documented evidence, of follow-up actions taken to correct areas of noncompliance.

3. *Content*: Grantee shall cause all of the provisions of this Agreement in its entirety to be included in, and made a part of, any subcontract executed in the performance of this Agreement.

D. Copyright

If this Agreement results in any copyrightable material, City reserves the right to royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use and to authorize others to use, the work for government purposes.

E. Religious Organization

Grantee agrees that funds provided under this Agreement will not be utilized for religious activities, to promote religious interests, or for the benefit of a religious organization.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

VIII. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

IX. WAIVER

City's failure to act with respect to a breach by Grantee does not waive its right to act with respect to subsequent or similar breaches. The failure of City to exercise or enforce any right or provision shall not constitute a waiver of such right or provision.

X. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between City and Grantee for the use of Funds received under this Agreement and it supersedes all prior or contemporaneous communications and proposals, whether electronic, oral, or written between City and Grantee with respect to this Agreement.

XI. BINDING EFFECT

All the terms, covenants, and conditions of this Agreement shall inure to the benefits of and be binding upon successors and assigns of the parties to this Agreement.

XII. COUNTERPARTS

This Agreement may be executed in counterparts by delivering a facsimile or secure electronic copy of the signed agreement to the other party, followed by delivery of the original documents bearing the original signatures. However, failure to deliver the original documents does not affect the enforceability of this Agreement.

****

Describe the art form of the project or program for which support is requested (i.e., Dance, Theater, Visual Arts, Heritage, Infrastructure, Media/Film/New Media, etc.):

Visual Arts

Briefly describe the project or program for which support is requested:
A collaboration between Arts and Science (a STEAM project) in the form of a mural project and event that celebrates Livermore clean air transportation innovations and that brings work to Livermore artists.

Number of people intended to reach: Audience: GENERAL PUBLIC Participants: AROUND 80 to 100 artists, Transportation companies, workshop students and clean-air organizations

For the purpose of this application, "audience" means the people who will attend the project or program; "participant" means someone who attends a workshop or class, or else has hands-on involvement in the project or program. If the project or program will have both audiences and participants as defined here, please enter both goals.

Date project or program is scheduled to begin: JUNE 1, 2024
Note: Project events may begin no earlier than two (2) months after the application deadline.

Date project or program is scheduled to end: JUNE 31, 2025

Applicant Name: THOMASIN DEWHURST

APPLICATION CHECKLIST - This Checklist is required and must be submitted as part of the completed Application. All Project & Program Grant applicants are required to submit the following:

One original set of the Application, collated in the following order:

- ☑ 1. Application Checklist (this page).
- ☑ 2. Start date: Do(es) the event(s) related to this project begin at least two (2) months after the application deadline?
- ☑ 3. Organizational Summary, signed by the organization's executive director, managing director, president, board chair, or other authorized officer of the organization, or by the applying artist.
- N/A 4. If you are an organization, submit a list of current officers and Board members with their term of office.
- N/A 5. If you are a 501(c)(3), submit a copy of your 501(c)(3) determination letter from IRS.
- ☑ 6. Application Form, beginning on page 1, continuing through the Project Budget Summary.
- ☑ 7. Notes to the Project Budget, and a detailed list of In-Kind contributions.
- ☑ 8. List of key project individuals, including principal artists and project managers, with a very brief job description (e.g., a self-explanatory job title) for each.
- ☑ 9. Resumes/biographies of key project individuals, generally one page each.
- ☑ 10. Up to four items in any combination of brochures, catalogues, performance programs, or similar organizational publications/materials; if available.
- ☑ 11. Up to four recent press reviews or articles, or similar independently generated published materials, if available. (*Note*: Calendar listings are not suitable.)
- ☑ 12. NOTE: During the review process you may be requested to submit samples of other work you have produced (work samples). See Chapter 3 – Grants for more information about work samples.

Standards for Preparing Applications

Please read the following carefully. Applicants are responsible for completing and submitting a full application package with all required attachments by the deadline. Incomplete applications will not be accepted for Commission evaluation.

1. Applicants must not modify the format of the application form or exceed the maximum length of any section of the form, except where otherwise noted.
2. All required attachments (except pre-printed ones) must be typed or computer-prepared in a type size that is no smaller than 12 pt. Times/Times New Roman, or 10 pt. Arial/Helvetica.
3. Complete all pages of the application form and all required attachments. (Use "N.A." if a section does not apply to your organization.) Provide information that is current as of the application deadline. Budget pages and budget notes must be complete.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Application Form - Project & Program Grants

If needed, please use additional paper for this section.

1. State/describe your organization's mission or provide an artist's statement. Include the kind of arts work the organization or artist has done previously and does now. How does this work relate to the proposed project/program? If yours is not an arts organization, state briefly how the arts relate to its mission. (250 words or less)

2. Describe the project or program for which you are seeking the grant. Discuss the project's origins. Describe the venue/location, the implementation process, and the timeframe. Discuss the resources — people, money, etc. — you will need to implement the project, whether you already have those resources within your organization or, if not, how you plan to obtain them.

3. How will the requested grant be used in the planning and implementation of the project or program? (500 words or less.)

4. Describe how the program or project specifically addresses one or more of the main strands found in the Cultural Arts Master Plan, artsAlive! (Refer to the Cultural Arts Master Plan Executive Summary in the Public Art Policy Guideline manual.) (250 words or less.)

5. List the individual(s) or organization(s) you will be partnering with on this project. Be specific regarding the support, both financial and in-kind, they will be providing.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Clean Air Transportation Innovation Mural

Leading artist/Project Leader: Thomasin Dewhurst
Main Participating Artists:
Anne Giancola
Vera Lowdermilk
Lawrence Lagin
Matt Finders
Jen Huber
Thom See
(Other Participating Artists from mural workshops created for this project: Bothwell Arts Center adult and youth artists)

1.

Thomasin Dewhurst (artist and owner/educator at Thomasin Dewhurst Fine Art) provides art, art history and music instruction to Tri-Valley students. With the support of grants from the cities of Livermore, Pleasanton, Dublin, the Wente Foundation for Arts Education, Livermore Rotarian Foundation, the Pedrozzi Foundation, Community Health and Education Foundation (CHEF), and private donations, Ms. Dewhurst brings public art opportunities to youth of the Tri-Valley community.

A significant contribution to this has been the Livermore **Conversation Pieces** banner art project with over 100 young participants: members of The Pedrozzi Foundation, Quest Science Center, JazzLabb/Element 116, Tri-Valley Writers, Del Arroyo 4-H Club, and Thomasin Dewhurst Fine Art. A **city of Pleasanton Conversation Pieces project** funded by the Pleasanton Cultural Arts Council was completed in 2023.

Ms. Dewhurst was one of 4 selected artists commissioned to create temporary public artwork for Dublin's 40th Anniversary celebrations. The public art project was a sculpture that at night became a shadow puppet theater. Thomasin was part of the team that painted the Dream Big mural on L Street in Livermore. She recently completed the L Street/Railroad 1910 Western Pacific Rail Depot mural as the sole artist, and was the main artist on the S Livermore Ave. Vineyard Homeless Shelter mural.

(Fig. 1 - 6)

2.

- The proposed project is a collaborative endeavor between Livermore artists, both adult and youth, who work at the Bothwell Center, and Livermore transportation organizations with vehicles and agendas that are actively involved in clean fuel innovations.
- The project plans to create an educative mural which describes and celebrates these current clean fuel innovations as well as future clean fuel vehicle prototypes. In addition, mural-painting workshops will be

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

created for this project that teach adult and youth artists about creating public art. Their work will make up a small section of the completed mural.

- **The project incorporates two events / programs:**

1. The collaboration of Livermore Bothwell Arts Center adult and youth artists in creating the mural, and
2. a Clean-air Innovation event in collaboration with Livermore's Climate Action Plan (CAP) following the completion of the mural.

- The proposed Clean Air Innovation organization **participants** in this project are:

1. The Livermore Airport (confirmed participant)
2. Gillig Buses (confirmed participant)
3. Monarch Tractors (confirmed participant)
4. Tesla (pending participant)
5. ZeroAvia (pending participant)
6. Tri-Valley Air (pending participant)
7. Other participants and supporting organizations yet to be determined

- The confirmed **location** of the mural will be on a Livermore Airport hangar wall facing the Gillig campus, at the corner of West Jack London Blvd and Discovery Dr. ***(Fig. 7)***
- The mural will be painted on exterior-grade panels with high quality exterior-grade paint by the artists and attached to the hangar wall by the Livermore Airport staff.
- The official **start date** of the mural-painting part of the project is June 1st 2024. Preparation for the project (getting supplies, priming panels, sketching ideas) will, out of necessity, begin sooner.
- The anticipated end-date of the mural's creation and installation is June 1st 2025.
- The date of the Clean-air Innovation event is expected to be no later than June 30th 2025.
- The **subject matter of the mural** incorporates a group of airplanes flying towards the viewer with dramatic perspective. Below the planes is a birds-eye view of a landscape that covers three-quarters of the mural, with sky showing in the fourth quarter (top section) of the mural. Gillig buses, Monarch Tractors, Tesla vehicles and other selected clean-air vehicles will traverse various sections of the landscape. The mural design will include an historic timeline of each of the organizations' vehicles as part of the mural's educative aspect. The timeline will go from right to left across the mural, with historic ground and air vehicles on the right and current and future clean-fuel vehicles on the left ***(Fig. 8)***

- The resources that we will need to have financial support for for this project comprise:

1. *Livermore Bothwell Center Artists to create and paint the artwork (Main participating adult artists will be paid. Youth and adult workshop artists will not be paid).*
2. *Installation of completed mural on hangar wall (To be handled by Livermore Airport staff)*
3. *Supplies for constructing and painting the mural.*
4. *Transportation costs of mural panels to display site.*
5. *Possible rental of workspace for some art-making, construction needs, meetings or student workshops (rental fees).*
6. *Event-planning and hosting costs (for Clean-air Innovation event)*
7. *Insurance during mural painting, workshops, transportation of mural, event planning and hosting.*
8. *Resources are anticipated to be covered by financial support from the participating organizations, workshop fees and the City of Livermore Project and Program Grant. We have confirmation of part financial support from some of the organizations, while others are pending.*

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

3.

The requested grant from the City of Livermore will be used to cover up to 50% of the artists' fees, supply costs, transportation of mural to site costs, any workspace rental costs, Clean-air Innovation event planning and hosting costs, and insurance costs. The remainder of the resource costs will be covered by the financial support of the participating organizations.

4.

Strand 1: Promote the unique sense of place in Livermore, including the creation of a Cultural Arts District.

The Clean Air Transportation Innovation Mural addresses this strand because it will focus specifically on Livermore Transportation organizations that are actively involved in clean fuel innovations. This project will support and give an arts opportunity to a large group of Livermore artists, both adult and youth, and promote and showcase Livermore Fine Arts. The project aims to partner with Livermore's Climate Action Plan (talks have already begun) to celebrate and educate the public about current and future clean air efforts in Livemore.

Strand 2: Ensure the visibility and vitality of cultural arts organizations, artists and arts educators for all residents and visitors to the City through facilitation of partnerships and support for organizational strengthening within the arts, culture and heritage communities.

The Clean Air Transportation Innovation Mural promotes the visibility and vitality of Livermore's cultural arts by creating a new and original public artwork, involving the work of a large group of Livermore artists, adult and youth. The resulting mural, being a public artwork, will be visible to all members of Livermore's public and to visitors to the City. Partnering with Livermore clean fuel transportation organizations, this projects strengthens ties between the fields of arts and science, making it an important STEAM project, and highlights the importance of art as an educative (in the fields of Art, Science and Innovation, and the History of Livemore) and powerful vehicle for community-building.

Strand 3: Leverage the innate ability of arts engagement to create a sense of community and life-long learning by supporting a diverse range of publicly accessible opportunities for all residents, businesses and visitors to participate, with a special focus on youth.

(As above in Strand 2). In addition, this project involves youth artists in the creation of the mural, and has a tentative plan of creating youth field trips viewing and learning about the subject-matter and making of the mural, and following with possible visits to Gillig and the Airport in the same day. This could be for Livermore youth as well as youth from outside Livermore.

Strand 4: Provide long-term, sustainable resources that enable the City to support the arts and culture community as a resource for all residents, visitors and businesses.

The mural will be and educative art structure, and the information it will bring to the public will have a lasting effect on public awareness of environmental efforts. Mural art can demonstrate that art is a powerful means of

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

communication, that will hopefully encourage further public art to be created. As well as a means of communication, this mural will add to the beautification of the city of Livermore. In addition, this project hopes to encourage continuing financial support to the arts and to arts education from local businesses and the public of Livermore and the wider Tri-Valley area.

5.

Lead Artist and Project leader:

- Thomasin Dewhurst

Main Participating Artists:

- Anne Giancola
- Vera Lowdermilk
- Lawrence Lagin
- Matt Finders
- Jen Huber
- Thom See

Secondary Participating artists from mural workshops created for this project :

- Other selected adult and youth artists who work at the Bothwell Center, Livermore

---

Confirmed Participating Organizations:

- Livermore Airport
- Gillig Buses
- Monarch Tractors

Selected Potential Participating Organizations (yet to be confirmed/contacted):

- Tesla Motors
- ZeroAvia
- Tri-Valley Air
- Livermore's Climate Action Plan group

Anticipated financial contributions from participating organizations and workshop fees:

- $10000

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Application Form - Project & Program Grants

Project/Program Budget Worksheet *(enter N/A if item does not apply. Attach Budget Notes if necessary.)*

PROJECT SUPPORT *(Do not include in-kind support)*

Earned Revenue	Amount	Notes
Ticket Sales/Admissions	$	
Tuition/Workshop fees	$ 1000	Anticipated, not confirmed
Other:	$	
Subtotal: Earned Revenue	$1000	

Contributed Income	Amount	In-hand	Pending
Contributions *(Individuals/Businesses)*	$9000	$ 4000	$5000
Grants *(Foundations/Government other than City)*	$	$	$
City of Livermore *(other than this grant request)*	$	$	$
Other:	$	$	$
Subtotal: Contributed Income	$9000	$ 4000	$5000

Project & Program Grant Amount Requested	$10000
Total Project Support (Revenue + Income + Grant)	$20 000

PROJECT EXPENSE *(Do not include in-kind expense)*

Personnel	Amount	Notes
Artistic	$12,200	ARTIST FEES FOR 8 ARTISTS
Production	$ 2000	ARTWORK, EVENT, MUSICIANS, CATERERS. EVENT SET UP
Administrative	$ Ø	INCL. IN ARTIST FEES
Other: *(describe in Notes)*	$ Ø	
Subtotal: Personnel	$ 14200	

General	Amount	Notes
Venue Rental	$ 300	WORKSHOP SPACES
Materials and Supplies	$ 4000

Total Project Expenses (Personnel + General)	$20 000
Project Surplus (Loss) *(Total Support minus Total Expense)*	$ Ø

If Project Net is a negative value, explain in the Budget Notes how it will be covered.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Matching Funds

All Project and Program Grant applicants must provide at least a dollar-for-dollar (one-to-one) match for the grant award, no less than 50 percent of which must be a cash match. The cash match must be from sources other than the City of Livermore.

In-kind contributions are allowed as part of the match only on the following limited basis:

1. In-kind contributions cannot be used for more than half of the required match, in other words, they cannot represent more than 50 percent of the value of the grant award; and,
2. The value of in-kind contributions, i.e., goods and services, must offset line item expenditures in the project budget and their value must be documentable with invoices or billing statements.

In-kind contributions must be listed below or on a separate sheet attached to the Budget Notes.

Source	Description	Fair Market Value
STUDENT WORKSHOPS	WORKSHOPS TO TEACH ADULTS / YOUTH ABOUT THE MURAL AND THEIR ART TO BE INCLUDED	$ 1 000
ORGANIZATIONS & FINANCIAL CONTRIBUTIONS	VARYING CONTRIBUTIONS FROM ORGANIZATIONS TO BE INCLUDED IN MURAL	$ 9000
		$
		$
		$
		$

Requested Grant Amount: $ 10 000

Cash Match Amount: $ 10 000

In-kind Match Amount: $ Ø

Thomas See

[redacted] Instagram@seeartstudio

Education

- Indiana University of Pennsylvania, BS in Computer Science.
- University of California at Berkeley, Post-baccalaureate Certification in Visual Arts with emphasis in Painting.
- The Art Students League of New York, Completion of in-person and online Workshops in Figure Painting, Portraiture, Abstract Painting, and Art History.
- Oakdale Studio, San Francisco, Ongoing participant in term-based Acrylic/Oil Painting and Art Criticism Workshops.

Career Highlights

Before retiring from high tech in 2020, I spent several decades doing software development for both well known and not so well known firms in and around Silicon Valley. The variety of software development roles I had include Software Engineer, Project Manager, Product Manager and People Manager.

One of the better known firms at which I spent many years working was Silicon Graphics Incorporated (SGI). At SGI I was introduced to leading edge approaches to Digital Art. As my interest in Digital Art (and art in general) grew, I went on to 1) learn traditional art skills such as acrylic and oil painting, and 2) write my own Windows and iPad based art software (which I currently use for creating digital art).

Current Activities

I maintain an art studio at Bothwell Art Center in Livermore, CA, where I spend most weekdays either painting in acrylic or oil, creating digital art or writing art software.

I enjoy participating in the many local art shows. Shows that I most like are the ones that focus on the human form.

Some of my favorite artists come from the Bay Area Figurative tradition. Much of my art reflects that interest.

Art sales do come my way from time to time. Aside from the occasional commission, the main focus for me right now is to improve my technical and compositional skills.

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Matt Finders
[redacted]

Matt Finders is a professional musician and educator living in Livermore. After enrolling his grand daughter in art classes with Thomasin Dewhurst, he began studying art with Thomasin as well. Matt's work has been shown in two exhibitions in the UNCLE art gallery at the Bankhead. Matt has two pieces in the Double Take book published by LVPAC.

Professional artistic work

- 2024 Prepared and assisted with painting the "Western Pacific Depot" Livermore 1910 railroad mural.
- 2023 One of four artists to work on the "Dream Big" astronaut mural in downtown Livermore.
- 2023 Constructed and installed the "Wind Power Interactive Art Structure" for Livermore's Climate Action Plan and other environmentally-focused events.
- 2022 Constructed and installed the structure for the 2022 "Light Work / Shadow Play" project for the Dublin 40th anniversary celebrations.
- 2022 Project leader and artist for the LazzLabb banner in the 2021 "Conversation Pieces" project, Livermore, CA.
- 2021 Assisted with painting the 2021 PIANO IN THE PLAZA Art project Dublin, CA

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Larry Lagin, San Francisco bay area artist (and scientist)

[redacted]

Larry Lagin is a retired scientist and project manager who worked on two of the world's nuclear largest largest nuclear fusion research projects -Tokamak Fusion Test Reactor (TFTR) at Princeton Plasma Physics and the National Ignition Facility (NIF) at Lawrence Livermore National Laboratory). While at Princeton, Larry ran PPPL's "Science on Saturday" science outreach program for high school students for several years while working on TFTR. Shortly after moving to Livermore in 1995, Larry founded LLNL's "Science on Saturday" program while working on NIF. Since retiring in 2014, Larry has taken drawing and painting classes in a Specialized Drawing certificate program at UC Berkeley Extension, and completed the Post Baccalaureate certificate program in Visual Arts, specializing in painting in June 2018. As part of that program, Larry developed a series of paintings based on archived photographs from the US Holocaust Memorial Museum in Washington, D.C.

Larry lives in the East Bay of San Francisco in Livermore, CA. He is a resident artist at the Bothwell Arts Center in Livermore, and has a studio there. Larry is also on the Board of Directors of Livermore Shakespeare Festival (LSF) and recently helped create the LSF's Science@Play program. Larry will be helping to create the East Bay Holocaust Education Center, which will be launched in 2021.

"I devoted most of my scientific career trying to recreate the energy of the stars – essentially trying to tame nature by creating order out of chaos. And so, I also do it with my art – with the energy and untamed chaos I use in many strokes of the brush, seeking and eventually searching for order. There's nothing like the pursuit of creative exploration and discovery that I find from both."

Larry Lagin

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

Vera Lowdermilk

Vera Lowdermilk was four years old when she realized she loved art. She grew up surrounded and inspired by beautiful paintings created by her father, an award winning artist.'I grew up surrounded by my father's art; his work was always an inspiration.' A few years later, Vera received her first paid commission to create a mural, all in pencil, of John Lennon for a Connecticut boutique. Since those early years, Vera's reputation has spread throughout the Bay Area.

In fact, Vera's public murals grace buildings and walls from San Francisco to Livermore. Her private murals and portraits are in homes throughout the Bay Area. Vera is known for her beautiful and magnificent murals and portraits, sculptures in bronze, and botanical watercolors.

CHEZA NAMI Community collaborative art banner mural project

This community banner was painted and sewn by Thomasin Dewhurst (the portrait, portrait background, headdress design and painting, beading on necklace, and writing - calligraphy, design and painting, and the sewn fabric borders) as well as the community (youth and adults painting squares of their own design on the lower portion of the banner) during the Cheza Nami 10th Annual Taste of Africa event at the Bankhead Plaza in Livermore, CA. It is a collaborative project, bringing the community together in a creative art activity. The 10 foot x 3 foot banner will be displayed at future Cheza Nami events as part of their stage backdrop.

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance
Grantee shall maintain limits no less than:

Commercial General Liability, including operations, products and completed operations, as applicable: **$1,000,000/$2,000,000** aggregate per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.

Deductibles and Self-Insured Retention
All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers
Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions
The general liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Grantee. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.
2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy,

DocuSign Envelope ID: 230FAAD1-F038-417E-A535-63E7D71EC160

including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.

4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550.

Verification of Coverage

Grantee shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.16**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Jeramy Young, Police Chief

SUBJECT: Resolution authorizing the execution of an agreement with All City Management Services, Inc. to provide crossing guard services for a five-year term, in an amount not-to-exceed $1,516,644.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute an agreement with All City Management Services, Inc. to provide crossing guard services in an amount not-to-exceed $1,516,644 for a five-year term for the period July 1, 2024, through June 20, 2029.

SUMMARY

On August 8, 2005, the City Council adopted Resolution 2005-172 authorizing the City to contract with a vendor to provide crossing guard services for the Livermore Valley Joint Unified School District. This eliminated the function from being performed by the Police Department staff as well as making the vendor responsible for all aspects of the program, including hiring, training, deployment, supervision and management of the guards, purchasing and maintaining all associated equipment as well as monitoring the sites and providing alternate guards in case of absences. The current agreement with our vendor All City Management Services, Inc. expired on June 30, 2024.

DISCUSSION

Crossing Guards are supplied for both the regular school year and for the summer school program for a total estimated 8,100 hours of guard service per year. The City Council re-affirmed the City's commitment to the Crossing Guard Program in a June 2002 policy decision.

On June 3, 2024, public notice for Request for Proposal and Qualifications (RFP & Q) 24-353515 was issued for Crossing Guard Services and closed on June 17, 2024. Two vendors submitted proposals Cross Safe and All City Management Services, Inc.. Proposed hourly rates were as follows:

All City Management Services, Inc.	Everything Parking, Inc. (dba Park Inc.)

Fiscal Year	Hourly Rate	Annual Rate	Fiscal Year	Hourly Rate	Annual Rate
FY 2024-25	$34.59	$280,179	FY 2024-25	$50.15	$306,918
FY 2025-26	$35.86	$290,466	FY 2025-26	$50.15	$306,918
FY 2026-27	$37.56	$304,236	FY 2026-27	$50.15	$306,918
FY 2027-28	$38.84	$314,604	FY 2027-28	$50.15	$306,918
FY 2028-29	$40.39	$327,159	FY 2028-29	$50.15	$306,918
Total Agreement Value		$1,516,644	Total Agreement Value		$1,534,590

During the term of the agreement, All City Management Services, Inc. proposal reflects a savings of $17,946.

All City Management Services (ACMS), Inc. provided five municipality references where they currently perform crossing guard services in the area. Staff is familiar with ACMS customer service and responsiveness due to the prior five-year agreement with them.

ACMS is the vendor with the lowest cost for services and has the highest qualifications for crossing guard services.

The recommended agreement, which is for a five-year period from July 1, 2024, through June 30, 2029, includes the following provisions:

- ACMS to provide crossing guard services at 15 locations
- ACMS to assume complete responsibility for all agreement functions including recruitment, background checks, training, payroll, supervision, and insurance
- ACMS to maintain alternate guards, cellular and paging options, and a 24-hour toll-free phone number top ensure adequate and immediate back-up for any crossing guard absent from duty for any reason

FISCAL AND ADMINISTRATIVE IMPACTS

The total value of the proposal submitted by the vendor is $1,516,644 over five years. The current Police Department budget has sufficient funding available for the program through FY 2024-25. Costs in subsequent years will be budgeted in the Police Department General Fund budget.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF AN AGREEMENT WITH ALL CITY MANAGEMENT SERVICES, INC., FOR CROSSING GUARD SERVICES IN AN AMOUNT NOT-TO-EXCEED $1,516,644, FOR A FIVE-YEAR TERM

On August 8, 2005, the City Council adopted Resolution 2005-172 authorizing the City of Livermore ("City") to contract with a vendor to provide crossing guard services for the Livermore Valley Joint Unified School District, to free up Livermore Police Department staff and resources previously used to manage the crossing guard services. The current contract for crossing guard services expired on June 30, 2024. Crossing guards are supplied for both the regular school year and for the summer school program for a total estimated 8,100 hours of guard service per year.

On June 3, 2024, the City issued a Request for Proposals for crossing guard services. Two proposals were submitted, and after careful consideration and review of all submittals, All City Management Services, Inc. was selected as the best value for the award of a services agreement for crossing guard services due to their high qualifications and lower costs.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager, or her designee, to execute the Agreement for Services with All City Management Services, Inc., attached hereto as Exhibit A, in an amount not-to-exceed $1,516,644, for crossing guard services for the term of July 1, 2024, through June 30, 2029.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

Exhibit A – All City Management Services Agreement

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

AGREEMENT FOR SERVICES

THIS AGREEMENT is made and entered into this day of , 2024, by and between the City of Livermore ("City"), a municipal corporation, and All-City Management Services, Inc. ("Contractor"), a California corporation.

RECITALS

City requires services to provide crossing guard services at designated locations in the City of Livermore.

Contractor warrants it possesses the distinct skills, qualifications, experience, and resources necessary to timely perform the services described in this Agreement. Contractor acknowledges City has relied upon these warranties to retain Contractor.

AGREEMENT

NOW, THEREFORE, City and Contractor hereby agree that the aforementioned recitals are true and correct and further agree as follows:

1. Retention as Contractor. City hereby retains Contractor, and Contractor hereby accepts such engagement, to perform the services described in Section 3 below subject to the terms and conditions in this Agreement.

2. Relationship of Parties – Independent Contractors. The relationship of the parties shall be that of independent contractors. Contractor and its employees are not City officers or employees. Contractor is responsible for the supervision and management of its employees, including any workers compensation insurance, withholding taxes, unemployment insurance, and any other employer obligations associated with the delivery of the services contemplated by this Agreement.

3. Description of Services. Contractor shall provide services to provide professional crossing-guards at designated locations within the City of Livermore as more particularly set forth in Exhibit "A" (collectively "the Services").

4. Contractor's Responsibilities. Contractor shall:

(a) Diligently perform the Services in a manner commensurate with industry, professional, and community standards;

(b) Provide the resources necessary to complete the Services in a timely manner;

(c) Obtain a business license from the City of Livermore, and keep it in effect for the term of this Agreement;

(d) Obtain and keep in effect all necessary licenses, permits, qualifications, insurance, and approvals legally and professionally required for Contractor to practice its profession and to provide the Services;

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

(e) Comply with all laws in effect that are related to Contractor and the Services;

(f) Coordinate the Services with the Chief of Police ("Project Manager"), or such other person designated as the Project Manager by City;

(g) Be available to the Project Manager, and other parties referred to Contractor by the Project Manager, to answer questions or inquiries related to the Services;

(h) Only invoice City for the Services rendered. Contractor's invoice shall be in writing and describe the Services performed for the payment requested. Contractor shall not submit an invoice to City more frequently than once a calendar month;

(i) Keep and maintain invoices and records related to the Services in an organized manner. At a minimum, the records must be kept for at least 3 years from the date of final payment to Contractor and must include time sheets, work progress reports, and other documentation to adequately explain all the Services invoiced for payment. Contractor shall make the invoices and records immediately available to City upon delivery of a written request to examine, audit, or copy them at City's place of business during normal business hours. Contractor shall give City 30 calendar-days' written notice prior to destroying the invoices and records and allow City an opportunity to take possession. If City wants them, Contractor and City shall coordinate their delivery to City in the most efficient manner possible;

(j) Prepare and submit a written report to the Project Manager, within 3 business-days of the Project Manager's written request, that identifies the Services completed and in progress, the charges incurred to date, and the anticipated cost to complete the remaining Services;

(k) Contractor shall correct, at its own expense, all errors in the Services. Should Contractor fail to make such correction in a timely manner, City may make the correction and charge the cost thereof to Contractor;

(l) If applicable, Contractor shall ensure that all work for compensation is taken in compliance with the requirements of the California Labor Code including but not limited to hours of labor, nondiscrimination, payroll records, apprentices, worker's compensation and prevailing wages. If applicable, Contractor shall comply with all prevailing wage laws, such as sections 1773, 1773.8, 1775, 1776, 1777.5, 1777.6, and 1813 of the California Labor Code and any other applicable wage and hour law. If any violation of prevailing wage law associated with this Agreement is deemed to have occurred by any court or administrative authority, Contractor shall forfeit to the City, as a penalty, the sum of fifty dollars ($50.00) for each calendar day, or portion thereof, for each laborer, worker, or mechanic employed, paid less than the applicable prevailing rates for any work done to accomplish the purposes of this Agreement; and,

(m) Contractor's services provided pursuant to this Agreement shall comply with the Americans with Disabilities Act (ADA) of 1990, and all amendments thereto, as well as applicable regulations and guidelines issued pursuant to the ADA.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

5. Compensation and Payment.

(a) The total compensation payable by City to Contractor for the Services **SHALL NOT EXCEED** the sum of $1,516,644 ("not-to-exceed amount"). City shall compensate Contractor for the Services rendered at the hourly rates or task amounts set forth in Exhibit "A" up to the not-to-exceed amount. Except as provided in the body of this Agreement, the hourly rates or task amounts are intended to be Contractor's only compensation for the Services and is inclusive of all costs of labor, licensing, permitting, travel expenses, overhead and administrative costs, and any-and-all other costs, expenses, and charges incurred by Contractor, its agents, and employees to provide the Services.

(b) City shall pay Contractor no later than 30 days after City receives a written invoice from Contractor and verifies the Services were performed for the payment requested.

(c) Contractor may request a price increase during the term as a result of any legally-mandated increases in wages or benefits imposed in the state or municipality in which the Services are to be performed and to which Contractor's employees would be subject. The Contractor shall provide City with 60 days-notice of its request to increase pricing. City agrees to review and respond to said notice within 30 days of receipt.

6. Term. The term of this Agreement commences on July 1, 2024, and terminates upon the completion of the Services or June 30, 2029, whichever occurs first.

7. Termination by City. City may terminate any portion or all of the Services by giving Contractor at least 30 calendar days written notice. Upon receipt of a termination notice, Contractor shall immediately stop all work in progress on the Services except where necessary to preserve the benefit of the work, and assemble the work on the Services for delivery to City on the termination date. All compensation for Services performed prior to the termination date shall be payable to Contractor in accordance with Section 5.

8. Ownership of Documents. All drawings, designs, data, photographs, reports and other items prepared or obtained by Contractor in the performance of the Services are City's property and Contractor shall deliver them to City upon demand.

9. Copyright and Right of Use. All items created by Contractor for City under this Agreement are works made for hire, and Contractor shall give City the copyright and all intellectual property rights to all items developed, prepared, and delivered as part of the Services. Contractor agrees that all aspects of the Services and items created thereby will be original works of creation and will not use, in whole or in part, any work created by any other party, except when expressly disclosed by Contractor to City and Contractor obtains a license to such items for the benefit of City. All licenses must be perpetual, world-wide, non-exclusive, and royalty free sufficient in scope to permit City's full use and enjoyment of its ownership rights in the items created by the Services.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

10. Confidentiality. Contractor shall not disclose any confidential or proprietary information received from City to anyone except Contractor's employees who require access to the information to perform the Services. This obligation shall survive termination and remain in full force and effect until the information, and any copies thereof, are destroyed or returned to City.

11. Defense, Indemnity, and Hold Harmless. To the fullest extent permitted by law, Contractor shall hold harmless, indemnify, and defend with counsel selected by the City or otherwise acceptable to the City, the City and its elected and appointed officials, officers, directors, employees, agents and designated volunteers from and against any and all liability, loss, damage, claims, expenses, and costs (including reasonable, attorney's fees and costs and fees of litigation) (collectively, "Liability") of every nature arising out of or in connection with Contractor's performance of the services contemplated by this Agreement, or in connection with Contractor's failure to comply with any of its obligations contained in this Agreement, except for such Liability caused by the sole active negligence or willful misconduct of City. Contractor's obligations to hold harmless, indemnify, and defend shall not be excused because of Contractor's inability to evaluate Liability or because Contractor evaluates Liability and determines that Contractor is not liable to the claimant. These obligations are independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Agreement. These obligations shall survive the completion or termination of this Agreement. Contractor must respond within 30 days to the tender of any claim for defense and indemnity by the City.

(a) Modification for Construction Contracts. To the extent this Agreement is a "construction contract" covered by California Civil Code section 2782, then Contractor's duty to indemnify shall not apply in a manner prohibited by California Civil Code section 2782.

(b) Modification for Design Professional Services. To the extent this Agreement is for "design professional services" defined in California Civil Code section 2782.8, then Contractor's duties to defend and indemnify shall only apply to the extent provided for in California Civil Code section 2782.8(a), unless section 2782.8(a) is not applicable for one of the reasons set forth in 2782.8(e).

12. Insurance. Contractor shall procure and maintain insurance during the term of this Agreement in the amounts and under the terms set forth in Exhibit "B" against claims that may arise from or in connection with this Agreement and performance of the Services. Upon reasonable written notice, Contractor shall comply with any changes in the amounts and terms of insurance as may be required from time-to-time by City's Risk Manager.

13. Acceptance of Final Payment. Contractor's acceptance of final payment will release City from any and all claims and liabilities for compensation under this Agreement.

14. Acceptance of Work. City's acceptance of, or payment to Contractor for, the Services does not release Contractor from its responsibility for the accuracy, completeness, or competency of the Services, nor do the actions constitute an assumption of Contractor's responsibility or liability by City for any defect or error in the Services.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

15. Conflict of Interest. Contractor represents that no City employee or official has a financial interest in Contractor. Contractor shall not offer, encourage, or accept any financial interest in any part of Contractor's business by or from a City employee or official during the term of this Agreement or as a result of being awarded this Agreement. If any of the Services are paid by reimbursement from an agreement between City and a private party, Contractor represents that it has not performed any work for that private party during the 12-month period prior to the execution of this Agreement, and that it shall not negotiate, offer or accept any contract for services from that party during the term of this Agreement.

16. Economic Disclosure. Contractor shall comply with City's local conflict of interest code and the Political Reform Act, and prepare and file an economic disclosure statement if the Services involve making, or participation in making, decisions which may have a material effect on the Contractors' financial interest. While it is Contractor's sole responsibility to evaluate its conflicts of interest, the Contractor nevertheless agrees to prepare and file an economic disclosure statement if requested by City.

17. Non-Exclusive Agreement. This is a non-exclusive agreement. City reserves the right to provide, and to retain other Contractors to provide, services that are the same or similar to the Services described in this Agreement.

18. No Assignment. Contractor shall not assign or subcontract any of the Services without City's prior written consent. For the purposes of this section, a change of fifty percent or more in the ownership or control of Contractor constitutes an assignment.

19. Remedies. All remedies permitted or available under this Agreement, or at law or in equity, are cumulative and alternative, and the invocation of a right or remedy will not be construed to waive or elect a remedy with respect to any other available right or remedy. As a condition precedent to commencing legal action involving a claim or dispute against City arising from this Agreement, the Contractor must present a written claim to City in accordance with Chapter 3.42 of the Livermore Municipal Code.

20. Construction of Language. The terms and conditions in this Agreement have been arrived at through negotiation and each party had a full and fair opportunity to review and revise this Agreement with legal counsel. Any ambiguity in this Agreement will not be resolved against either party as the drafting party. In the event of an inconsistency or conflict between the language in the body of the Agreement and an attachment hereto, the language in the body of the Agreement controls.

21. Entire Agreement; Modification. This Agreement supersedes all other agreements, whether oral or written, between the parties with respect to the Services. Any modification to this Agreement must be in writing and signed by both parties. In the event the original of this Agreement is lost or destroyed, an archival copy maintained by City can be used in place of the original for all purposes with the same effect as if it was the original.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

22. Notice. Notices under this Agreement must be delivered to the addresses below by deposit in the United States mail or by overnight delivery service, with postage prepaid and delivery confirmation:

TO CITY: Attention: Deirdre Ramsey
Livermore Police Department
1052 S Livermore Avenue
Livermore, California 94550

TO CONTRACTOR: Attention: Demetra Farwell
All-City Management Services, Inc.
10440 Pioneer Blvd, Suite #5
Santa Fe Springs, CA 90670

23. Waiver. Failure to insist upon the strict performance of any term or conditions in this Agreement, no matter how long the failure continues, is not a waiver of the term or condition and does not bar the right to subsequently demand strict performance. To be effective, a waiver must be in writing and signed by the non-breaching party.

24. Severability. If a court of competent jurisdiction determines a provision in this Agreement is invalid, void, or unenforceable, the remaining provisions will nevertheless continue in full force and effect without being impaired in any way.

25. Survival. The terms, conditions, and obligations in Sections 8, 9, 10, and 11 shall survive the completion or termination of this Agreement.

26. Electronic Signatures. By signing this document, you are agreeing that you have reviewed this disclosure information and consent to transact business using electronic communications, to receive notices and disclosures electronically, and to utilize electronic signatures in lieu of using paper documents. You are not required to receive notices and disclosures or sign documents electronically. If you prefer not to do so, you may request to receive paper copies and withdraw your consent at any time.

27. Counterparts. This Agreement may be executed and delivered in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and all of which, when taken together, will be deemed to constitute one and the same agreement. The facsimile, email, or other electronically delivered signatures of the Parties shall be deemed to constitute original signatures, and facsimile or electronic copies hereof shall be deemed to constitute duplicate originals and shall be valid and effective for all purposes.

ALL CITY MANAGEMENT SERVICES

June 11, 2024

City of Livermore
Olivia Mahedy, Administrator
Request for Proposal #24-353515
1110 S. Livermore Avenue, Livermore, CA 94550

Dear Ms. Mahedy:

On behalf of All City Management Services, Inc. **(ACMS)**, I would like to express our sincere appreciation for the potential opportunity to continue to serve the community of Livermore. We are proud to have managed the School Crossing Guard program for the City of Livermore for nineteen (19) years.

We have received the Bid Proposal with services to begin on or around July 1, 2024. We have reviewed the Scope of Work, General Conditions and General Services Agreement. We acknowledge the City has requested the awarded vendor to sign the GSA without modification. Based upon a comprehensive review of the Bid Proposal with Exhibits, we agree with the terms and conditions set forth with the following exceptions to Exhibit A and Exhibit C.

Exhibit A: General Services Agreement; Section 5 – Compensation and Payment A, we would like to request a slight revision to this section. GSA; Section 7; Termination by City, we would like both parties to have the option for early termination, if needed. GSA; Section 11 – Defense, Indemnity, and Hold Harmless, we would like to have this section include shared liability.

Exhibit C: Insurance Requirements, we would like to discuss a revision to the General Liability per occurrence and Auto Liability per occurrence limits. Please see our exceptions pages included in our bid response for additional information.

Our goal is simple, to continue to relieve the City of Livermore of the day-to-day responsibilities of managing a Crossing Guard Program. As your full services contractor, we assume complete responsibility for the day to day operations of the Crossing Guard programs we manage. This includes recruitment, background clearance, hiring, training, equipment, payroll, supervision, and management of the program.

We maintain local supervision, alternate guards, a paging system, and a 24-hour 800 number to ensure adequate response and immediate back-up for any Crossing Guard absent from duty for any reason. We also will continue to establish communication with each school in the City of Livermore program to ensure proper scheduling.

10440 Pioneer Blvd Suite 5 • Santa Fe Springs, Ca 90670 • 310-202-8284 • 800-540-9290 • FAX 310-202-8325

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

We have become the nation's largest provider of private crossing guards as a result of our singular focus to this industry as well as the development of benchmark training. This includes our **"Employee Handbook for School Crossing Guards"** which details our Job Requirements, the initial and ongoing Training we provide, including our Site Evaluations, our Rules of Conduct, Crossing Guard of the Year recognition and the Certification Requirements for all ACMS Crossing Guards.

We are certainly excited about the possibility of continuing to provide Crossing Guard services for the City of Livermore. If you have any questions, please feel free to contact me at 800 540-9290.

Sincerely,

David Mecusker
Marketing & Contracts Manager
david@thecrossingguardcompany.com

ALL CITY MANAGEMENT SERVICES

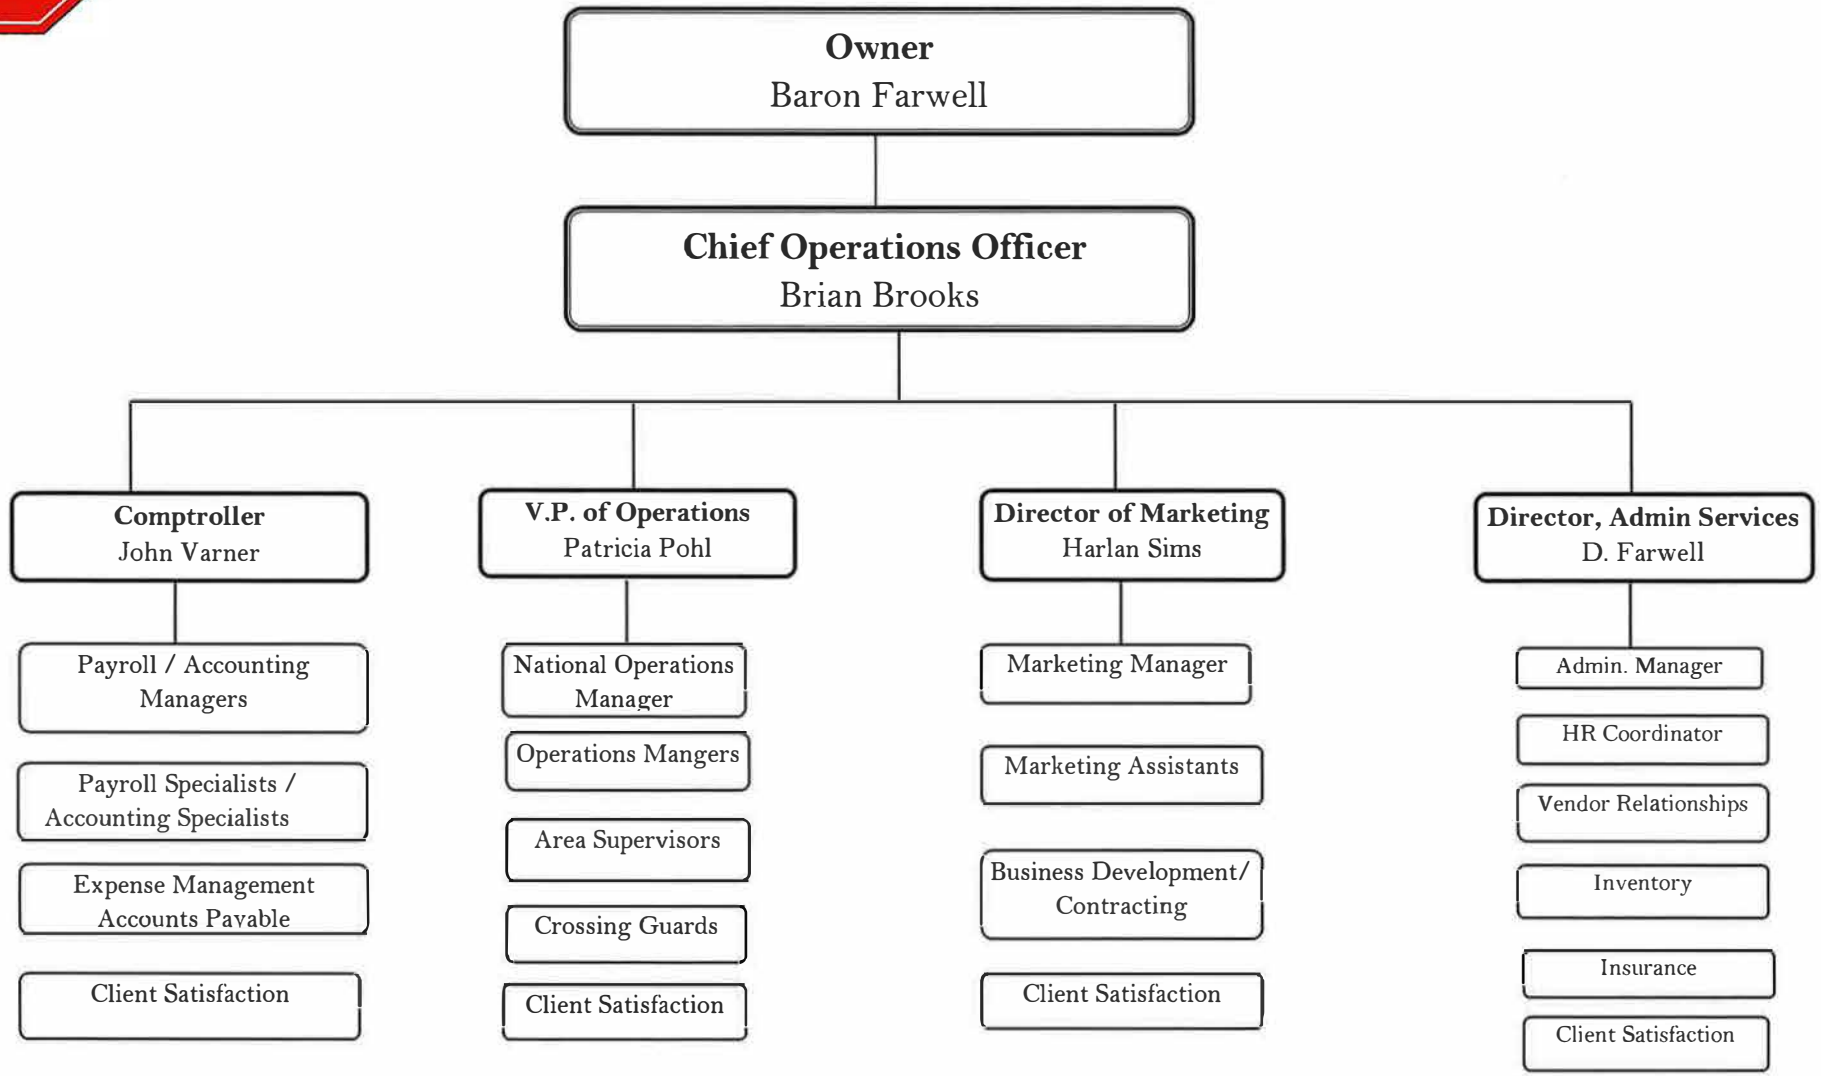
COMPANY PROFILE

All City Management Services, Inc. (ACMS), is a California based Corporation founded in 1985. We are the largest provider of School Crossing Guard services, managing both large and small Crossing Guard Programs. We currently have over 8,500 employees dedicated to safety, serving cities, towns, communities, schools, and school districts nationwide.

One defining issue that distinguishes **ACMS** is that we are the only company that *exclusively* provides School Crossing Guard Services. It is our commitment to limiting the scope and focus of the company to School Crossing Guards that has helped us emerge as ***"The Crossing Guard Company"***. We have successfully privatized the Crossing Guard programs for over 310+ agencies. Ultimately our clients become the beneficiaries of our single-minded approach toward this industry.

The heart of our business is in assuming responsibility for the task and challenges of conducting a successful Crossing Guard Program. Toward that end, in our typical contractual arrangement we assume responsibility for; recruitment, local hiring, background clearance compliant with Department of Justice standards, initial and ongoing training, payroll and administrative support functions, coordination of assigning qualified substitutes during absences, local supervision, complaint investigation and resolution, communicating with schools and site safety inspections.

One of the benefits we bring to any agency is our expertise in overseeing a seamless transition from public to private management of the program. The continuity of the Crossing Guards' employment is a key component of a seamless transition. We value the experience and understanding of the Crossing Guards currently working in each program we manage. Much of our success with individual programs is a result of the experience and knowledge these Crossing Guards bring to our management.



With over 36 years of experience, **ACMS** leads the Crossing Guard Industry in the development of Crossing Guard standards for training, supervision, and safety. Each program we have taken on has brought a unique set of issues and challenges. The heart of our success has been our ability to articulate these challenges and experiences into our training, policies, and procedures to benefit all Crossing Guards in all the cities, towns, and communities we service.

All City Management Services, Inc. has not lost a client agency due to failure or refusals to complete a contract and has not lost a client agency due to the level of service provided.

Field Management Personnel

The most significant resources ACMS brings to any Crossing Guard program is the depth and scope of **management** provided by the years of experience brought by our operational management team. The community serviced by the City of Livermore will continue to benefit from a team concept which consists of Area Supervisor, Program Manager, National Operations Manager and Vice President of Operations. Each Member of our management team is available 24 hours a day via cellular telephone. The following is a brief synopsis of the respective duties of each.

Area Supervisor (Yuan Zhou): Yuan will continue to serve as **Area Supervisor,** he will handle all aspects of the daily supervision of the program of fifteen (15) Crossing Guards and alternate pool. With support from the Regional Manager, he will typically recruit, hire, train and provide personnel management for all the sites he oversees and interfaces with school staff as needed. In addition to communicating with the School staff, he is responsible for ensuring each employee receives the proper number of Site Performance Evaluations and completes the Certification mandates. Yuan will be available by telephone on all occasions for discussion with staff and will be locally available for meetings in person upon 24-hour written or telephonic notice. Yuan Zhou reports directly to the Regional Manager.

Regional Manager (Alan Stone): Alan will continue to serve as **Regional Manager** and directly manage your Area Supervisor and provide training and support. He will also interface with the City representatives and School staff as needed. He will continue to assist in the hiring of the Area Supervisor and Crossing Guards as well as the development and implementation of training programs and certification standards. Alan has considerable experience as a Regional Manager including programs in City of Benicia, City of Los Altos, County of Alameda, Antioch Unified School District, and Marin County Transportation Authority. He will ensure compliance with Company standards and the City's expectations. Alan Stone reports directly to the National Operations Manager.

National Operations Manager (Kim Brooks): Kim has over 6 years in the industry providing field management and support for ACMS. She is responsible for the development and implementation of operational standards, training programs, safety instruction and compliance with all legal requirements and restrictions. Works directly with Vice President of Operations to ensure all program standards are being met. Kim has extensive experience implementing and managing comparable and larger programs. She is responsible for initial training and orientation for all new client programs. Kim Brooks reports directly to Vice President of Operations.

Vice President of Operations (Pat Pohl): Pat has over 27 years of industry experience. She is responsible for overall contract compliance. Works with the National Operations Manager on the development of training programs and implementation of safety standards. Coordinates the flow of information between operations and administrative staff.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

Approach and Management Plan

ACMS employs a Team Concept of management which results in efficient field operations as well as providing a multifaceted response to potential problems. The Vice President of Operations and National Operations Manager will continue to work together with input from the City of Livermore to establish specific program objectives and expectations. These Senior Managers then work directly with your Regional Manager and Area Supervisor to implement the management plan.

The Regional Manager along with your local Area Supervisor has responsibility for the direct management of the Crossing Guards and together they will ensure the City's operational expectations are met. Standards and expectations are communicated to Crossing Guards personally by their local supervisor so as to allow the employee a better understanding of the decision-making process. This helps reduce confrontational attitudes by establishing and enhancing the common goal of providing for the safety of school children.

Crossing Guard performance and compliance with safety standards will continue to be accomplished through regular site visits by the local Area Supervisor and Regional Manager. In addition to verbal training and counseling, these managers are supported by the use of **Field Training Check Lists, Field Training Cards, Site Performance Evaluations,** and independent Field Observations. Reports of satisfactory completion of all levels of training and ongoing safety reviews will be summarized and available to the City representative.

Background checks will be completed on all potential employees as allowed by California state law. Successful completion of the live-scan fingerprint based criminal background check, former employer reference check, and Security verification via E-Verify is required prior to the employee being hired. ACMS will comply within the Equal Employment Opportunity Commission guidelines when making hiring decisions based on criminal records.

After pre hire screening ACMS may conduct random field testing for drugs and or alcohol when use is suspected or at the discretion of management. ACMS has a strict policy on Drug and Alcohol abuse. This policy is included in our School Crossing Guard Employee Manual.

Internal minimum passing standards along with the City's established standards would prevent any person from working as a Crossing Guard for the program who has been convicted of any crime of moral turpitude or a crime against children, including, but not limited to:

- Conduct in violation of California Penal Code or which requires registration under California Penal Code
- Conduct which requires registration under the California Health and Safety Code.
- Any offense involving the use of force or violence upon another person.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

- Any offense involving theft, fraud, dishonesty, or deceit.
- Any offense involving the manufacture, sales, possession, or use of a controlled substance.
- Conspiracy or attempt to commit any of the aforementioned offenses.
- Any registered sex offender or narcotics offender.

ACMS will investigate all public complaints concerning crossing guard services. All incidents shall be reported to the City within two (2) hours to advise them of the nature of the complaint. ACMS shall furnish a written report within five (5) business days after the date of the incident, which includes the course of action/remedy/resolution of said complaint.

Communications with individual school sites is facilitated by the Field Supervisor. Personal visits are made regularly (minimum quarterly) to each school site in an effort to develop relationships with staff and establish a collaborative environment for information exchange. Calendars and bell schedules are obtained for each school both at the beginning of the school year and periodically throughout the year. Key school personnel are supplied with appropriate contact information (business cards) and reminded to inform ACMS of any changes. Additionally, schools are provided with large magnets which can be easily displayed, making contact information effectively available to all staff. The email address of the Office Manager is also obtained which enables ACMS administrative support staff to regularly contact each school and proactively solicit information regarding potential schedule changes.

The establishment of accurate and responsive shift times is critical to the effectiveness of Crossing Guard services. Sites further from the school would be expected to start earlier in the morning and finish later in the afternoon. These staggered shifts effectively address the time it takes for students to walk from a remote location to the school site (or vice versa in the afternoon) and optimize the protected periods. Additionally, locations are continually monitored for actual pedestrian traffic patterns enabling a better understanding of site needs and any potential deviation from established guidelines.

ACMS Area Supervisors are in the field daily when crossings are covered by the guards, and they ensure all guards arrive on time and are ready for duties as scheduled. ACMS has developed a Crossing Guard "App" that is geo-fenced, which only allows guards to clock in once they are actually on site. This "App" will indicate when a crossing guard is on site and more importantly, allows ACMS to quickly identify when a guard is not on site. This "App" will allow ACMS to not only quickly determine where staffing efforts are needed most but will also improve our billing and invoicing accuracy. Our billing/invoicing is tied to our payroll and by having a more efficient process for timekeeping, should eliminate potential billing inaccuracies.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

Recruitment and Staffing

ACMS Managers would assess additional **staffing** needs of the program after meeting with your agency and again following our initial orientation and training meeting. We would then focus further recruitment efforts in the geographical areas where additional Crossing Guards will be needed.

We have developed a comprehensive plan for **the recruitment** of new Crossing Guards. As a part of our Staffing strategy, we encourage a very aggressive recruitment program. We utilize soft advertising, local media advertising, targeted flyers, on-site solicitation, school flyers and employee referral bonuses as parts of our overall recruitment strategy. We often work closely with school districts in some of our recruitment drives.

Our ability to effectively staff a Crossing Guard Program remains a fundamental benefit that ACMS brings to most Crossing Guard Programs. Staffing sites is one of the primary responsibilities of the Area Supervisors. They are trained to continuously recruit and train prospective Crossing Guards. New recruits are first processed and submitted to the Department of Justice for background clearance.

Supervisors are also responsible for coordinating the staffing for all sites under their supervision. As part of our staffing strategy Area Supervisors aggressively enforce the following policies and procedures for Crossing Guards.

- Supervisors must maintain an adequate alternate or substitute guard roster. We encourage at least a 5 to 1 ratio of sites versus alternate guards.

- We require any guard not reporting for duty to notify the Area Supervisor as early as possible utilizing our 24/7 Guard Hotline or directly notifying their Area Supervisor. Notifications less than 1 hour prior to shift starts are considered unexcused absences.

- Our employee policy is "No call, No show, No Job" Throughout our training we emphasize the importance of ensuring the safety of children with our presence. As such, we cannot allow the children's safety to be compromised by failing to call or no show for duty.

Supervisor Teams – The Livermore crossing guard program would continue to benefit from our presence in nearby cities such as: City Pleasanton, City of Dublin, and City of Fremont, and City of Tracy. Area Supervisors are grouped together by their geographic location. These Teams meet every quarter and team members are encouraged to work together. This cooperative effort allows them to share alternate guards with each other. This has resulted in alternates guards getting more hours as they are “shared” with other Supervisors. Consequently, we are able to retain a more stable group of alternate guards.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

Employee Retention: To enhance employee satisfaction and support our retention efforts, ACMS reviews guards wage rates annually in an effort to continually remain competitive in the local labor market. If contractual and budget requirements allow; we plan to offer a small wage increase annually based upon performance and tenure.

We also provide publicized employee recognition through our Crossing Guard of the Year programs and Length of Service Awards. Additionally, we provide local Area Supervisors with a small budget for employee socials.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

Training

Effective initial and ongoing training is essential in a profession dedicated to the safety of children. With over 38 years of experience and a commitment to working cooperatively with other public safety professionals, ACMS is recognized as an industry leader in the development and implementation of School Crossing Guard training and standards of excellence.

The process begins during the first contact with a potential employee when our phone interview process outlines job expectations and our zero-tolerance policy for failure to report for a scheduled shift. Throughout the application process prospective employees are reminded about the critical nature of our assignments and the work ethic and integrity required of our employees.

Once hired, the training process starts in the classroom where employees review sections of the ***"Employee Handbook for School Crossing Guards"***. The process then moves to a field practicum where the trainer demonstrates proper procedures and allows the employee to practice correct techniques. The employee's progress is closely noted on the detailed steps outlined on the **Field Training Check List** to ensure the employees' field competence. This cross-modality approach not only exposes the employee to the necessary training components but also addresses the needs of the visual, auditory, and kinesthetic learner. While the classroom setting is expected to require approximately one hour and the field training approximately two hours, it's important to note that the low ratio of students to trainer allows for accurate assessments of the employees readiness to move forward.

The new employee is typically assigned to alternate work and closely supervised during their early assignments. They benefit from their trainer completing a written assessment of their work which better allows them to understand their strengths and weakness and make improvements where necessary (the **Site Performance Evaluation**). Additionally, all new employees are required to carry and regularly refer to the **Field Training Cards**. This pocket-sized card (listing all steps for a safe cross) allows the employee to self-evaluate their performance prior to the time they have all steps of the procedures memorized.

Throughout their employment, employees are subjected to the same Site Performance Evaluation as an ongoing training and assessment tool. These evaluations happen in both side-by-side sessions as well as unannounced observations without the knowledge of the employee.

The standard issue equipment and clothing includes:

- ANSI II compliant high-visibility retro-reflective vest marked with the required insignia of a Crossing Guard
- MUTCD compliant 18" STOP/STOP paddle
- Picture Identification Card with emergency contact information
- Company-issued cap or visor with corporate logo
- Whistle for emergency alert to vehicles and pedestrians
- High-visibility ANSI II compliant wind-breaker jacket

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

ALL CITY MANAGEMENT SERVICES

Proposed Hourly Rate

As a full service contractor, the hourly rate quoted is a fully loaded rate, meaning all of our costs are included in the proposed hourly billing rate. This would include but be not limited to; recruitment, background clearance, training, equipment, insurance, supervision and management of the City of Livermore, CA Crossing Guard Program.

Proposed Hourly Rate 2024/2025: Thirty-four Dollars and Fifty-nine Cents ($34.59) per hour, per guard. This pricing is based upon 15 crossing guards compensated an average of 3.0 hours per day, for 180 school days annually. Local field supervision and substitute guards are also included in the rate, as are all other costs except as noted below. Based upon 8,100 hours, we project a Not to Exceed Price of $280,179.

Proposed Hourly Rate 2025/2026: Thirty-five Dollars and Eighty-six Cents ($35.86) per hour, per guard. Based upon 8,100 hours, we project a Not to Exceed Price of $290,466.

Proposed Hourly Rate 2026/2027: Thirty-seven Dollars and Fifty-six Cents ($37.56) per hour, per guard. Based upon 8,100 hours, we project a Not to Exceed Price of $304,236.

Proposed Hourly Rate 2027/2028: Thirty-eight Dollars and eighty-four Cents ($38.84) per hour, per guard. Based upon 8,100 hours, we project a Not to Exceed Price of $314,604.

Proposed Hourly Rate 2028/2029: Forty Dollars and Thirty-nine Cents ($40.39) per hour, per guard. Based upon 8,100 hours, we project a Not to Exceed Price of $327,159.

Invoices for services are mailed every two weeks. Included with each invoice is a Work Summary, which details each site, each day and the hours worked at that site. City of Livermore would only be billed for Crossing Guard services rendered on designated "school days" unless otherwise requested by the City.

The hourly rate does not include additional safety equipment, crosswalk delineators, cones or safety devices. If the City should desire any such additional equipment the additional cost would be billed to the City.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

Crossing Guard Locations

Provide one Crossing-Guard at each location listed below to assist pedestrians in safely crossing City streets:

1. East Avenue at Estates Street
2. Livermore Avenue at Junction Avenue/Elm Street
3. Portola Avenue at Enos Way
4. El Caminito at Wagoner Drive
5. Garaventa Ranch Road at Hawk Street
6. Olivina Avenue at Albatross Avenue
7. Jack London Boulevard at Arlington Road
8. Concannon Boulevard at El Padro Drive
9. Frankfurt Way at Warsaw Avenue
10. Murdell Lane at mid-block crosswalk
11. El Caminito at El Padro Drive
12. Irene Way at Diane Lane
13. Junction Avenue at Chestnut Street
14. Scenic Avenue at Mount Diablo Way
15. North Vasco at Garaventa Ranch Road

Each site shall be staffed every school day for 1.5 hours each morning prior to school start times and 1 hour each afternoon at school release times, including selected summer school sites. The City will notify the contractor in advance of selected summer school locations.

The City reserves the right to add, delete, or revise the schedule or locations at any time with a 30-day notification.

EXHIBIT B

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Consultant/Contractor shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $5,000,000 per occurrence/**$10,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $2,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Consultant/Contractor is a sole proprietor, then they must sign "Contractor Release of Liability."

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Consultant/Contractor; or automobiles owned, leased, hired or borrowed by the Consultant/Contractor. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or volunteers.

Docusign Envelope ID: D875E1CD-776B-43B5-A6B2-D1FD843860A2

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Consultant's/Contractor's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or volunteers.
4. The Consultant's/Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Consultant/Contractor shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before work commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.17**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Jeramy Young, Police Chief

SUBJECT: Resolution authorizing acceptance of funds in the amount of $64,074, for a State of California Department of Alcoholic Beverage Control grant in Fiscal Year 2024-25 and authorizing the City Manager to execute the grant agreement.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution:

1. Authorizing acceptance of funds, in the amount of $64,074, for a State of California Department of Alcoholic Beverage Control grant in Fiscal Year 2024-25;
2. Authorizing the City Manager to execute the grant agreement; and
3. Approving a supplemental appropriation of $64,074 in the Police Department's budget to support the execution of the grant.

SUMMARY

The Police Department applied for, and was awarded, a grant from the State of California Department of Alcoholic Beverage Control in the amount of $64,074. Authorized expenditures are categorized in the following areas:

1. Identify and target problematic ABC licensed establishments. Conduct IMPACT Inspections and Operations, Minor Decoy Operations, and General Enforcement) - Measure efforts, impact, and outcome through data-based tracking.
2. Staff ABC specific overtime positions for Special Events. Officers to conduct General Enforcement Operations, Inspections, LEAD Training before major events. - Measure efforts, impact, and outcome through data-based tracking.
3. Press Releases, Public Service Announcements, Social Media Communications and Promotions, Community and Business Outreach Meetings, through the use of Livermore PD's Public Information Officials and Community Outreach Unit. - Monitor, document, and report upon engagement analytics through varying platforms.
4. LEAD Training hosted through our Training Unit and host site amenities.
5. Provide briefing trainings to general patrol staff for better knowledge and implementation on ABC

laws. This would be done at least twice through the grant period. Training will focus on applicable laws and investigative steps required for successful prosecution.

DISCUSSION

The Livermore Police Department is fully committed to education and enforcement efforts related to the responsible sale and consumption of alcoholic beverages. The requirements of the grant will be met through ABC licensee premise inspections, minor decoy operations, staff training/development, public awareness efforts, community communication, and general enforcement activities.

FISCAL AND ADMINISTRATIVE IMPACT

Funding for this grant was not included in the FY 2024-25 budget because the grant opportunity was not present during the budget planning period. A $64,074 appropriation to the Police Department's FY 2024-25 budget will be required; however, the grant will be received on a reimbursement basis from the State of California. There is no City required match and no financial obligation beyond the grant period. Administrative reporting to the Department of Alcoholic Beverage Control will be handled by the Downtown Area Officer, under the supervision of the Crime Prevention Unit Sergeant and Lieutenant.

COMMUNITY PILLAR

1: A Safe Community that Thrives

GOAL

2: Provide proactive and effective public safety and crime prevention through direct enforcement, education, and partnerships.

ATTACHMENTS

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING RECEIPT OF FUNDS IN THEAMOUNT OF $64,074 FOR THE STATE OF CALIFORNIA DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL GRANT AWARD AND AUTHORIZING EXECUTION OF THE GRANT AGREEMENT

The City of Livermore has been awarded $64,074 in grant funds from the State of California Department of Alcoholic Beverage Control (ABC) to further its commitment to education and enforcement efforts related to the responsible sale and consumption of alcoholic beverages.

The City of Livermore Police Department intends to utilize the grant funds to conduct minor decoy operations, raise public awareness regarding ABC laws, conduct ABC law-related general and holiday-specific enforcement efforts, and inspect ABC licensed establishments.

Funding for this grant must be appropriated in the FY 2024-25 budget and will be received on a reimbursement basis from the State of California.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby authorizes the receipt of State of California Department of Alcoholic Beverage Control grant funds, in the amount of $64,074 for Fiscal Year 2024-25, consistent with the terms and conditions of the grant and authorizes a supplemental appropriation in the amount of $64,074 for FY 2024-25.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager, on behalf of the City of Livermore, to execute the grant agreement, attached hereto as Exhibit A, for receipt of grant funds from the State of California Department of Alcoholic Beverage Control.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

AYES: COUNCIL MEMBERS:

STATE OF CALIFORNIA - DEPARTMENT OF GENERAL SERVICES

STANDARD AGREEMENT

STD 213 (Rev. 04/2020)

AGREEMENT NUMBER	PURCHASING AUTHORITY NUMBER (If Applicable)
24-APP19	ABC-2100

1. This Agreement is entered into between the Contracting Agency and the Contractor named below:

CONTRACTING AGENCY NAME
Department of Alcoholic Beverage Control

CONTRACTOR NAME
City of Livermore through the Livermore Police Department

2. The term of this Agreement is:

START DATE
July 1, 2024

THROUGH END DATE
June 30, 2025

3. The maximum amount of this Agreement is:
$64,074.00 Sixty four thousand seventy four dollars and no cents

4. The parties agree to comply with the terms and conditions of the following exhibits, which are by this reference made a part of the Agreement.

Exhibits	Title	Pages
Exhibit A	Scope of Work	2
Exhibit B	Budget Detail and Payment Provisions	3
Exhibit C *	General Terms and Conditions	4
Exhibit D	Special Terms and Conditions	1

Items shown with an asterisk (*), are hereby incorporated by reference and made part of this agreement as if attached hereto.
These documents can be viewed at https://www.dgs.ca.gov/OLS/Resources

IN WITNESS WHEREOF, THIS AGREEMENT HAS BEEN EXECUTED BY THE PARTIES HERETO.

EXHIBIT A
SCOPE OF WORK

I. SCOPE OF WORK

- Contractor agrees to implement the Department of Alcoholic Beverage Control (ABC), Alcohol Policing Partnership program. This program is intended to work with law enforcement agencies to develop an effective, comprehensive and strategic approach to eliminate the crime and public nuisance problems associated with problem alcoholic beverage outlets.

- Contractor agrees to implement ABC's Minor Decoy, Shoulder Tap Programs and conduct Informed Merchants Preventing Alcohol-Related Crime Tendencies (IMPACT) Inspections. These programs target both ABC licensed premises and individuals who furnish alcoholic beverages to the underage operators. The project is targeted to reduce underage drinking and the resultant DUI driving injuries and fatalities, and/or property damages, reduce youth access to alcoholic beverages through the education of licensee(s), enforcement intervention and the impressions of omnipresence of law enforcement. In addition, Contractor agrees to the following goals:

  1. The operation period of the grant is July 1, 2024 through June 30, 2025.

  2. Contractor agrees to raise public awareness that selling, serving and/or furnishing alcoholic beverages to individuals under twenty-one years old is a criminal violation that will be prosecuted by local city and district attorneys.

  3. Minor Decoy operations are designed to educate and deter licensed locations from selling/furnishing alcohol to minors. Contractor agrees to conduct Minor Decoy Operations at both "On-Sale" and "Off-Sale" licensed establishments within the operation period of the grant.

  4. Shoulder Tap operations are used to detect and deter adult furnishers outside of a licensed business. Contractor agrees to conduct Shoulder Tap Operations at "Off-Sale" licensed locations to apprehend adults that are unaffiliated with the licensed businesses and who are purchasing alcohol for minors outside of the stores within the operation period of the grant.

  5. Informed Merchants Preventing Alcohol-Related Crime Tendencies (IMPACT) primary goal is to educate licensee's on alcohol related laws to help reduce alcohol-related crime in and around licensed premises. Contractor agrees to conduct visits and inspections of licensed premises identifying areas of non-compliance at "On-Sale" and "Off-Sale" licensed locations within the operation period of the grant.

II. GOALS AND OBJECTIVES

1. Conduct at least four (4) Minor Decoy operations.

2. Conduct at least four (4) IMPACT operations.

3. Conduct at least four (4) General Enforcement operations.

4. Conduct at least four (4) Special Event operations (Rodeo/Half marathon, Beerfest, car show)

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

5. Conduct at least two (2) Community Outreach meetings.

6. Conduct at least eight (8) Briefing trainings.

7. Host at least one (1) LEAD training.

8. Provide at least two (2) press/social media releases on grant enforcement activities.

    A. To announce the start of the program;
    B. At the conclusion of each Minor Decoy Operation has been held (to announce the number of licensed premises who sold to the minor decoy)
    C. At the conclusion of each Shoulder Tap Operation has been held (to announce the number of adults arrested for purchasing alcoholic beverages for the decoy).

8. Contractor will fax (916) 419-2599 or email each press release to the Department's Public Information Officer (pio@abc.ca.gov) as soon as it is released.

9. Contractor agrees in all press releases, in addition to any credits the agency wishes to give, will include the following statement: "This project is part of the Department of Alcoholic Beverage Control's Alcohol Policing Partnership."

Contractor agrees to complete and submit monthly reports, on a format designed and provided by the Department of Alcoholic Beverage Control due no later than 15th of the following month.

III. PROJECT REPRESENTATIVES

The project representatives during the term of this agreement will be:

Livermore Police Department
Matt Williams, Sergeant
1110 S. Livermore Avenue
Livermore, CA 94550
(925) 371-4973
mwilliams@livermoreca.gov

Department of Alcoholic Beverage Control
Brandon Shotwell, Supervising Agent in Charge
3927 Lennane Drive, Suite 100
Sacramento, CA 95834
(916) 419-2329
Brandon.shotwell@abc.ca.gov

Direct all fiscal inquiries to:

Livermore Police Department
John Reynolds, Captain
1110 S. Livermore Avenue
Livermore, CA 94550
(925) 371-4715
jreynolds@livermoreca.gov

Department of Alcoholic Beverage Control
Kristine Okino, Grant Coordinator
3927 Lennane Drive, Suite 100
Sacramento, CA 95834
Kristine.okino@abc.ca.gov

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

EXHIBIT B
BUDGET DETAIL AND PAYMENT PROVISIONS

I. INVOICING AND PAYMENT

- For services satisfactorily rendered and upon receipt and approval of the invoice, the Department of Alcoholic Beverage Control agrees to pay a monthly payment of approved reimbursable costs per the Budget Detail of personnel overtime and benefits (actual cost) and/or allowable costs.

- Invoices shall clearly reference this contract number (24-APP19) and must not exceed the contract total authorized amount of $64,074.00. Invoices are to be submitted by the 15th of every month, on the prescribed form designed by the Department of Alcoholic Beverage Control.

Submit to: Department of Alcoholic Beverage Control
Attn: Kristine Okino, Grant Coordinator
3927 Lennane Drive
Sacramento, California 95834

- Payment shall be made in arrears within 30 days from the receipt of an undisputed invoice. Nothing contained herein shall prohibit advance payments as authorized by Item 2100-101-3036, Budget Act, Statues of 2024.

- Contractor understands in order to be eligible for reimbursement; cost must be incurred on or after the effective date of the project, July 1, 2024 and on or before the project termination date, June 30, 2025.

- Revisions to the “Scope of Work” and the “Budget Detail” may be requested by a change request letter submitted by the Contractor. If approved, the revised Grant Scope of Work and/or Budget Detail supersedes and replaces the previous grant and will initiate an amendment. No revisions can exceed allotted amount as shown on the Budget Detail. The total amount of the grant must remain unchanged.

- Contractor agrees to refund to the State any amounts claimed for reimbursement and paid to Contractor which are later disallowed by the State after audit or inspection of records maintained by the Contractor.

- Only the costs displayed in the Budget Detail are authorized for reimbursement by the State to Contractor under this agreement. Any other costs incurred by Contractor in the performance of this agreement are the sole responsibility of Contractor.

- Title shall be reserved to the State for any State-furnished or State-financed property authorized by the State which is not fully consumed in the performance of this agreement. Contractor is responsible for the care, maintenance, repair, and protection of any such property. Inventory records shall be maintained by Contractor and submitted to the State upon request. All such property shall be returned to the State upon the expiration of this grant unless the State otherwise directs.

- Prior approval by the State in writing is required for the location, costs, dates, agenda, instructors, instructional materials, and attendees at any reimbursable training seminar, workshop or conference, and over any reimbursable publicity or educational materials to be made available for distribution. Contractor is required to acknowledge the support of the State whenever publicizing the work under this grant in any media.

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

II. BUDGET DETAIL

COST CATEGORY	TOTAL COST
A. Personnel Services	
Overtime	
Officers ($101.11/hourly)	$40,038.00
Sergeant ($125.80/hourly)	$21,386.00
Benefits – n/a	$0.00

B. Operating Expenses (receipts required)	
n/a	$0.00
TOTAL Operating	**$0.00**
C. Equipment (receipts required, must be purchased by 12/31)	
n/a	$0.00
TOTAL Equipment	**$0.00**
D. Travel Costs	
Registration, lodging, per diem	$2,650.00
TOTAL Travel	**$2,650.00**
GRANT TOTAL	**$64,074.00**

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

III. BUDGET CONTINGENCY CLAUSE

- It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to Contractor or to furnish any other considerations under this Agreement and Contractor shall not be obligated to perform any provisions of this Agreement.

- If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State, or offer an agreement amendment to Contractor to reflect the reduced amount.

IV. PROMPT PAYMENT CLAUSE

- Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

EXHIBIT C
GENERAL TERMS AND CONDITIONS

1. APPROVAL: This Agreement is of no force or effect until signed by both parties and approved by the Department of General Services, if required. Contractor may not commence performance until such approval has been obtained.

2. AMENDMENT: No amendment or variation of the terms of this Agreement shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or Agreement not incorporated in the Agreement is binding on any of the parties.

3. ASSIGNMENT: This Agreement is not assignable by the Contractor, either in whole or in part, without the consent of the State in the form of a formal written amendment.

4. AUDIT: Contractor agrees that the awarding department, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Contractor agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of records retention is stipulated. Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).

5. INDEMNIFICATION: Contractor agrees to indemnify, defend and save harmless the State, its officers, agents and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, suppliers, laborers, and any other person, firm or corporation furnishing or supplying work services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by Contractor in the performance of this Agreement.

6. DISPUTES: Contractor shall continue with the responsibilities under this Agreement during any dispute.

7. TERMINATION FOR CAUSE: The State may terminate this Agreement and be relieved of any payments should the Contractor fail to perform the requirements of this Agreement at the time and in the manner herein provided. In the event of such termination the State may proceed with the work in any manner deemed proper by the State. All costs to the State shall be deducted from any sum due the Contractor under this Agreement and the balance, if any, shall be paid to the Contractor upon demand.

8. INDEPENDENT CONTRACTOR: Contractor, and the agents and employees of Contractor, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the State.

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

9. RECYCLING CERTIFICATION: The Contractor shall certify in writing under penalty of perjury, the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code Section 12200, in products, materials, goods, or supplies offered or sold to the State regardless of whether the product meets the requirements of Public Contract Code Section 12209. With respect to printer or duplication cartridges that comply with the requirements of Section 12156(e), the certification required by this subdivision shall specify that the cartridges so comply (Pub. Contract Code §12205).

10. NON-DISCRIMINATION CLAUSE: During the performance of this Agreement, Contractor and its subcontractor*s* shall not deny the contract's benefits to any person on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status, nor shall they discriminate unlawfully against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Contractor shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination. Contractor and subcontractors shall comply with the provision*s* of the Fair Employment and Housing Act (Gov. Code §12900 et seq.), the regulations promulgated thereunder (Cal. Code Regs., tit. 2, §11000 et seq.), the provisions of Article 9.5, Chapter 1, Part 1, Division 3, Title 2 of the Government Code (Gov. Code §§11135-11139.5), and the regulations or standards adopted by the awarding state agency to implement such article. Contractor shall permit access by representatives of the Department of Fair Employment and Housing and the awarding state agency upon reasonable notice at any time during the normal business hours, but in no case less than 24 hours' notice, to such of its books, records, accounts, and all other sources of information and its facilities as said Department or Agency shall require to ascertain compliance with this clause. Contractor and its subcontractor*s* shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement. (See Cal. Code Regs., tit. 2,§11105.)

    Contractor shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under the Agreement.

11. CERTIFICATION CLAUSES: The CONTRACTOR CERTIFICATION CLAUSES contained in the document CCC 04/2017 are hereby incorporated by reference and made a part of this Agreement by this reference as if attached hereto.

12. TIMELINESS: Time is of the essence in this Agreement.

13. COMPENSATION: The consideration to be paid Contractor, as provided herein, shall be in compensation for all of Contractor's expenses incurred in the performance hereof, including travel, per diem, and taxes, unless otherwise expressly so provided.

14. GOVERNING LAW: This contract is governed by and shall be interpreted in accordance with the laws of the State of California.

15. ANTITRUST CLAIMS: The Contractor by signing this agreement hereby certifies that if these services or goods are obtained by means of a competitive bid, the Contractor shall comply with the requirements of the Government Codes Sections set out below.

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

a. The Government Code Chapter on Antitrust claims contains the following definitions:

1) "Public purchase" means a purchase by means of competitive bids of goods, services, or materials by the State or any of its political subdivisions or public agencies on whose behalf the Attorney General may bring an action pursuant to subdivision (c) of Section 16750 of the Business and Professions Code.

2) "Public purchasing body" means the State or the subdivision or agency making a public purchase. Government Code Section 4550.

b. In submitting a bid to a public purchasing body, the bidder offers and agrees that if the bid is accepted, it will assign to the purchasing body all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Sec. 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, materials, or services by the bidder for sale to the purchasing body pursuant to the bid. Such assignment shall be made and become effective at the time the purchasing body tenders final payment to the bidder. Government Code Section 4552.

c. If an awarding body or public purchasing body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the public body any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the public body as part of the bid price, less the expenses incurred in obtaining that portion of the recovery. Government Code Section 4553.

d. Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (a) the assignee has not been injured thereby, or (b) the assignee declines to file a court action for the cause of action. See Government Code Section 4554.

16. CHILD SUPPORT COMPLIANCE ACT: For any Agreement in excess of $100,000, the contractor acknowledges in accordance with Public Contract Code 7110, that:

a. The contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable state and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and

b. The contractor, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

17. UNENFORCEABLE PROVISION: In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

18. PRIORITY HIRING CONSIDERATIONS: If this Contract includes services in excess of $200,000, the Contractor shall give priority consideration in filling vacancies in positions funded by the Contract to qualified recipients of aid under Welfare and Institutions Code Section 11200 in accordance with Pub. Contract Code §10353.

19. SMALL BUSINESS PARTICIPATION AND DVBE PARTICIPATION REPORTING REQUIREMENTS:

    a. If for this Contract Contractor made a commitment to achieve small business participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) report to the awarding department the actual percentage of small business participation that was achieved. (Govt. Code § 14841.)

    b. If for this Contract Contractor made a commitment to achieve disabled veteran business enterprise (DVBE) participation, then Contractor must within 60 days of receiving final payment under this Contract (or within such other time period as may be specified elsewhere in this Contract) certify in a report to the awarding department: (1) the total amount the prime Contractor received under the Contract; (2) the name and address of the DVBE(s) that participated in the performance of the Contract; (3) the amount each DVBE received from the prime Contractor; (4) that all payments under the Contract have been made to the DVBE; and (5) the actual percentage of DVBE participation that was achieved. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation. (Mil. & Vets. Code § 999.5(d); Govt. Code § 14841.)

20. LOSS LEADER: If this contract involves the furnishing of equipment, materials, or supplies then the following statement is incorporated: It is unlawful for any person engaged in business within this state to sell or use any article or product as a “loss leader” as defined in Section 17030 of the Business and Professions Code. (PCC 10344(e).)

Docusign Envelope ID: ABA6E3E5-0CCF-4A37-BC2B-DE966CBF215A

EXHIBIT D
SPECIAL TERMS AND CONDITIONS

1. Disputes: Any disputes concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Director, Department of Alcoholic Beverage Control, or designee, who shall reduce his decision in writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Department shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the State a written appeal addressed to the Director of the Department of Alcoholic Beverage Control. The decision of the Director of Alcoholic Beverage Control or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, capricious, arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, Contractor shall proceed diligently with the performance of the contract and in accordance with the decision of the State.

2. Cancellation/Termination: This agreement may be cancelled or terminated without cause by either party by giving thirty (30) calendar days advance written notice to the other party. Such notification shall state the effective date of termination or cancellation and include any final performance and/or payment/invoicing instructions/requirements. No penalty shall accrue to either party because of contract termination.

3. Contract Validity: This contract is valid and enforceable only if adequate funds are appropriated in Item 2100-101-3036, Budget Act of 2024, for the purposes of this program.

4. Contractor Certifications: By signing this agreement, Contractor certifies compliance with the provisions of CCC 04/2017, Standard Contractor Certification Clauses. This document may be viewed at: https://www.dgs.ca.gov/OLS/Resources/Page-Content/Office-of-Legal-Services-Resources-List-Folder/Standard-Contract-Language

5. If the State determines that the grant project is not achieving its goals and objectives on schedule, funding may be reduced by the State to reflect this lower level of project activity and/or cancel the agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.18**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Jeramy Young, Police Chief

SUBJECT: Resolution establishing fees for a concealed carry weapons (CCW) permit and appropriating $15,000 of the fee revenue to cover the costs to implement the CCW permit program.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution approving the listed rates for obtaining a concealed carry weapon (CCW) permit and appropriating $15,000 of the fee revenue to cover the costs to implement the CCW permit program.

SUMMARY

The responsibility of reviewing concealed carry weapons (CCW) applications resides with both the local Police Chief and the County Sheriff. In response to the 2022 United States Supreme Cout ruling in New York Rifle and Pistol Association v. Bruen, which changed the factors an agency can permissibly consider when reviewing an application, the Alameda County Sheriff's Office (ACSO) will only accept CCW applications from individuals who reside in unincorporated Alameda County. Therefore, the Livermore Police Department (LPD) is now required to review applications for and issue new, renewal, and modification/duplicate CCW permits to individuals whose primary residence is in the City of Livermore. Under state law, local agencies issuing CCWs may establish fee structures that reflect reasonable costs associated with receiving, processing, and issuing CCWs. The LPD developed a fee schedule for the review of applications for and the issuance of new CCW permits, permit renewals, permit modifications/duplicate permits.

DISCUSSION

On June 23, 2022, the United States Supreme Court (USSC) issued a ruling in New York Rifle and Pistol Association v. Bruen and held that the ability to carry a firearm in public was a constitutional right guaranteed by the Second Amendment. The Court held that states using "may-issue criteria" that relied on arbitrary evaluations of "need" made by local authorities are unconstitutional. The ruling invalidated California's requirement that an applicant show "good cause" to obtain a CCW permit as unconstitutional. In response to the USSC's ruling in the New York Rifle and Pistol Association v. Bruen, the State of

California enacted the 2023-24 CCW Senate bill (SB2) to implement changes to the CCW process, including establishing objective criteria that apply when reviewing a CCW application.

Until May 1, 2024, the ACSO processed and issued CCW's to individuals whose primary residence was within the Livermore city limits. As of May 1, 2024, ACSO only accepted CCW applications from individuals who reside in unincorporated Alameda County leaving the responsibility to local city governments within Alameda County for issuance within their jurisdictions. Therefore, after May 1, 2024, the LPD is tasked with reviewing applications for and issuing new, renewal, and modification/duplicate CCW permits to individuals whose primary residence is within the city limits. ACSO provided the LPD with CCW data for Livermore and there were approximately 120 CCW permits issued to individuals whose primary residence is in the City of Livermore and approximately another 200 applications waiting to be processed.

The process and issuance of the CCW's will comply with state law, which the criteria for approval are:
1. Not a disqualified person
2. At least 21 years of age
3. Resident of the City of Livermore
4. Completed a specified training course.
5. The firearm is registered with California Department of Justice (CADOJ).

Standard CCW permits are valid for two years, Judicial Officer CCW permits are valid for three years, and Reserve Police Officer CCW permits are valid for four years.

LPD created an application, background, and licensing process. The process will consist of an initial on-line application, a criminal history check (Live Scan), a background investigation that will be conducted by LPD staff, a psychological evaluation paid for by the applicant, applicant provided certificate of a Department of Justice (DOJ) approved16-hour CCW training course, and final review and issuance of the CCW permit. The on-line application process will be managed by a third-party vendor, Permitium, with oversight by Livermore Police Department staff.

Under state law, local agencies issuing CCWs may establish fee structures that reflect reasonable costs associated with receiving, processing, and issuing CCWs. The LPD developed a fee schedule to cover reviewing applications for and issuing of new CCW permits, permit renewals, and permit modifications/duplicate permits. The CCW permitting fees represent a cost recovery effort to cover the amount each type of permit assumes, absorbs an annual cost of $3553 for Permitium, City staff time of three hours for a new permit background, and one hour for permit renewals including DOJ background check, and one-half hour for modifications/duplicates. The applicant will pay an initial fee of $93.00, which will be paid to Permitium for the Live Scan criminal history check though DOJ. The fee schedule is as follows:

	Standard Permit (2 year)	**Judicial Permit** (3 year)	**Reserve Officer Permit** (4 year)
Initial Fee Paid upon submission of application	$93.00	$93.00	$93.00

Issuance Fee Paid upon approval of permit	$387.00	$387.00	$387.00
Renewal Fee Paid upon submission of application	$94.00	$94.00	$94.00
Modification/Duplicate Fee Paid upon submission of application	$47.00	$47.00	$47.00

The 2023-24 CCW Senate bill (SB2) requires issuing authorities to undertake a more detailed investigation and review of CCW applications than previous law; therefore, the LPD will likely incur significant workload costs. To offset the anticipated workload of CCW applications and the 90-day timeline requirement to determine whether the applicant is qualified or disqualified, the LPD requires hiring four Special Projects Coordinators (SPCs) to complete the CCW backgrounds. The SPC positions will be filled by retired law enforcement peace officers who meet the eligibility requirements for hire.

FISCAL AND ADMINISTRATIVE IMPACTS

The proposed CCW fees are intended to cover the reasonable staff and equipment costs associated with the CCW permit process and will not result in any significant revenue generation. There will be an anticipated monthly cost of approximately $1,250 or $15,000 annually for four special project coordinators (SPCs) to process and background each CCW applicant (each SPC will work approximately six hours/month on backgrounds related to CCW applicants). The proposed CCW fees will cover those costs to issue the CCW permit.

The estimated expenses and revenue have not been included in the Police Department's FY 2024-25 budget and will require an appropriation of $15,000 to hire the four SPCs.

Administrative Services Director

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION ADOPTING FEES FOR A CONCEALED CARRY WEAPONS PERMIT AND APPROPRIATING $15,000 OF THE FEE REVENUE TO IMPLEMENT THE PERMIT PROGRAM

Following the 2022 United States Supreme Court ruling in *New York Rifle and Pistol Association v. Bruen*, which changed the factors in which an agency can permissibly consider when reviewing a Concealed Carry Weapon (CCW) permit application, the Alameda County Sheriff's Office (ACSO) will only accept CCW permit applications from individuals who reside in unincorporated Alameda County. Therefore, the Livermore Police Department (LPD) is now required to review applications for and issue new, renewal, and modification/duplicate CCW permits to individuals whose primary residence is in the City of Livermore.

Based on the application processing and applicant background checks necessary for issuing a permit, the estimated cost of the permit process and issuance is $93.00 for the initial application, $387.00 for the issuance of the permit, $94.00 for a permit renewal, and $47.00 for a modification or duplicate permit. The fee amounts are calculated to recover costs for issuing the permits, including the annual cost for the third-party vendor that will manage the online application process, and the City staff time required, 3 hours for the issuance of new permits, 1 hour for permit renewal, and 0.5 hours for permit modification/duplicate issuance. The fee amount assumes LPD will process approximately 120 CCW permits and year, based on the data received from ACSO.

Additionally, there will be an anticipated monthly cost of approximately $1,250 or $15,000 annually for four special project coordinators (SPCs) to process and background each CCW applicant (each SPC will work approximately six hours/month on backgrounds related to CCW applicants). The proposed CCW fees will cover those costs to issue the CCW permit. The estimated expenses and revenue have not been included in the Police Department's FY 2024-25 budget and will therefore require an appropriation of $15,000 to hire the four SPCs.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby adopts fees for Concealed Carry Weapon permits in the amounts of $93.00 for an initial permit application, $387.00 for issuance of the permit, $94.00 for a permit renewal, and $47.00 for a modification or duplicate permit.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby appropriates $15,000 to the Police Department's FY 2024-25 budget to hire 4 SPCs to process CCW applications.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

CITY COUNCIL STAFF REPORT **ITEM NO. 5.19**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Jason Alcala, City Attorney

SUBJECT: Resolution authorizing the City Manager to execute all documents and forms for the City to participate in settlement agreements for the National Prescription Opiate Litigation.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to execute all documents and forms necessary for the City of Livermore to participate in settlement agreements for the National Prescription Opiate Litigation.

SUMMARY

Numerous lawsuits by states and local political subdivisions throughout the country have been brought against manufacturers, distributors, pharmaceutical companies, marketers, pharmacy chains, and others for their contributions to the current opioid epidemic. Those lawsuits have been consolidated in a master case entitled *In Re: National Prescription Opiate Litigation (United States District Court, Northern District of Ohio, Eastern Division, MDL 2804, Case No. 1:17-MD-2804).*

The City Council has previously authorized the City Manager to execute documents for Livermore to participate in the national settlements with distributors, manufacturers, and pharmacy chains, and to participate in the California agreements regarding the distribution and use of settlement funds allocated to Livermore. National settlements continue to be negotiated with additional parties, and most recently with the regional supermarket pharmacy Kroger Co.

The proposed resolution authorizes the City Manager to execute the required forms and documents necessary for Livermore to participate in the existing and all future settlement agreements for the National Prescription Opiate Litigation, subject to the City Attorney's approval of the agreements as to form and subject to the City Manager's determination whether Livermore should receive a direct payment of all or a portion of its allocation after considering the costs to receive, administer, and expend the funds locally for opioid remediation.

DISCUSSION

The federal government has acknowledged there is an opioid epidemic in the United States. The U.S. Department of Health and Human Services reports that in the late 1990's pharmaceutical companies reassured the medical community that patients would not become addicted to opioid pain relievers and healthcare providers began to prescribe them at greater rates. It is also reported that increased prescription of opioid medications led to widespread misuse of both prescription and non-prescription opioids before it became clear that the medications could indeed be highly addictive.

Numerous lawsuits have been filed throughout the country seeking to address the effects from the public health crisis caused by the opioid epidemic. Many of those lawsuits have been consolidated in a master case entitled *In Re: National Prescription Opiate Litigation (United States District Court, Northern District of Ohio, Eastern Division, MDL 2804, Case No. 1:17-MD-2804).*

The National Prescription Opiate Litigation lawsuits allege that manufacturers, distributors, pharmaceutical companies, marketers, pharmacy chains, regional supermarket pharmacies, and others contributed to the current opioid epidemic by grossly misrepresenting the risk of long-term use of those drugs and by failing to properly monitor suspicious orders for those drugs.

The City Council has previously authorized the City Manager to execute all documents and forms necessary for Livermore to join the National Prescription Opiate Litigation settlement agreements with the following:

Distributors

- AmerisourceBergen Corporation
- Cardinal Health, Inc.
- McKesson Corporation

Manufacturers

- Johnson & Johnson
- Janssen Pharmaceuticals, Inc.
- Ortho-McNeil-Janssen Pharmaceuticals, Inc.
- Janssen Pharmaceutica, Inc.

Pharmacy Chains

- Allergen
- CVS
- Walgreens
- Walmart

Livermore’s participation in the national settlement agreements is also covered by the agreements the City Council authorized the City Manager to execute with the State of California for the distribution and use of settlement funds.

As directed by the City Council on November 8, 2021, the City of Livermore registered its desire to participate in the settlements to help secure funds for the State of California, County of Alameda, and itself to combat the effects of the opioid crisis. That registration enabled the City to join two settlement

agreements with the distributors and manufacturers that were approved by the City Council by Resolution Nos. 2021-208 and 2021-209, respectively.

Subsequently, on April 10, 2023, the City Council further authorized the City Manager to register the City of Livermore to participate in the National Prescription Opiate Litigation settlement agreements with the pharmacy chains. Now, the City has the opportunity to participate in the National Prescription Opiate Litigation settlement agreement Kroger Co. for the regional supermarket pharmacy's contribution to the opioid epidemic and its remediation.

The settlement agreements and documents including summaries and FAQs for each can be found at the following two websites, one hosted by the National Prescription Opiate Litigation parties, and the other hosted California Attorney General:

https://nationalopioidsettlement.com/

https://oag.ca.gov/opioids

Livermore has received the following allocations totaling $95,394 from the settlement agreements in FY 2023-24:

Settlement	Payment 1	Payment 2	Payment 3	FY 23-24 Total
Distributor	$0*	$26,445	$14,856	$41,301
Janssen	$10,631	$24,802	$18,660	$54,093
Pharmacy Chains*	$0	$0	$0	$0

*Livermore joined the settlement after the first Distributor payment was issued.
*Livermore has not received any Pharmacy Chain payments as the settlements are in the process of being finalized.

In June, La Familia was awarded a $7.6 million State Behavioral Health Continuum Infrastructure Program (BHCIP) grant for the new construction and renovation of a Substance Use Disorder (SUD) facility on Tesla Road in Unincorporated Alameda County. The planned 16 bed facility is made up of four sobering beds, four detox beds, and eight SUD treatment beds for Tri-Valley residents. Staff is in the early stages of determining how the Opioid Settlement funds can support La Familia's SUD facility. Once determined, staff will return to Council for approval. To date the city has not allocated any Opioid Settlement funds.

RECOMMENDATION

Staff recommends the City Council adopt a resolution ratifying and confirming the City Manager's authority to execute all documents and forms necessary for Livermore to participate in the National Prescription Opiate Litigation settlement agreements with the distributors, manufacturers, and pharmacy chains, and also authorizing the City Manager to execute all required forms and documents necessary for the City of Livermore to participate in any and all future settlement agreements for the National Prescription Opiate Litigation, subject to:

- the City Attorney's approval of the agreements as to form, and
- the City Manager's determination whether Livermore should receive a direct payment of all or a portion of its allocation after considering the costs to receive, administer, and expend the funds

locally for opioid remediation.

Staff further recommends that the City Council's delegation of authority restrict the use and expenditure of settlement proceeds from the National Prescription Opiate Litigation to the purposes set forth in those agreements.

FISCAL AND ADMINISTRATIVE IMPACTS

There are no fiscal or administrative impacts other than staff time to execute and process the documents. The actual amount of settlement funds to be allocated to the City of Livermore is uncertain due to the incentives, adjustments, administrative costs, number of participating states and subdivisions (as well as their status as litigating subdivisions), and other factors that will affect the distribution. The City Manager, in her discretion, will determine whether Livermore should receive a direct payment of all or a portion of its allocation after considering the costs to receive, administer, and expend the funds locally for opioid remediation.

<u>Pharmacy Chains</u>
Allergen
CVS
Walgreens
Walmart

Livermore's participation in the national settlement agreements is also covered by the agreements the City Council authorized the City Manager to execute with the State of California for the distribution and use of settlement funds.

As directed by the City Council on November 8, 2021, the City of Livermore registered its desire to participate in the settlements to help secure funds for the State of California, County of Alameda, and itself to combat the effects of the opioid crisis. That registration enabled the city to join two settlement agreements with the distributors and manufacturers that were approved by the City Council by Resolution Nos. 2021-208 and 2021-209, respectively.

Subsequently, on April 10, 2023, the City Council further authorized the City Manager to register the City of Livermore to participate in the National Prescription Opiate Litigation settlement agreements with the pharmacy chains.

Council now desires to adopt a resolution ratifying and confirming the City Manager's authority to execute all documents and forms necessary for Livermore to participate in the National Prescription Opiate Litigation settlement agreements with the distributors, manufacturers, and pharmacy chains, and also authorizing the City Manager to execute all required forms and documents necessary for the City of Livermore to participate in any and all future settlement agreements for the National Prescription Opiate Litigation, subject to:

(i) the City Attorney's approval of the agreements as to form, and

(ii) the City Manager's determination whether Livermore should receive a direct payment of all or a portion of its allocation after considering the costs to receive, administer, and expend the funds locally for opioid remediation.

The City Council's delegation of authority restricts the use and expenditure of settlement proceeds from the National Prescription Opiate Litigation to the purposes set forth in those agreements.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that the City Manager is hereby authorized to execute all documents and forms necessary for the City of Livermore to participate in settlement agreements for the National Prescription Opiate Litigation, and hereby ratifies and affirms the actions taken by the City Manager on behalf of the City of Livermore to participate in the National Prescription Opiate Litigation settlement agreements with the distributors, manufacturers, and pharmacy chains.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that the City Manager is authorized to make the determination in their discretion whether Livermore should receive a direct payment of all or a portion of its allocation, after considering the costs to receive, administer, and expend the funds locally for opioid remediation.

CITY COUNCIL STAFF REPORT **ITEM NO. 5.20**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Marianna Marysheva, City Manager

SUBJECT: Rescind Resolution 170-82 designating Tri-Valley Community Television Corporation as the official body to receive cable television funds.

RECOMMENDED ACTION

Staff recommends that the City Council rescind Resolution 170-82 as it does not conform with current practices and is unnecessary to the management of Public, Education, and Government (PEG) funds.

SUMMARY

At the July 26, 1982, meeting of the Livermore City Council, Tri-Valley Community Television was designated as the appropriate body to receive Public, Education, and Government (PEG) funds. Since that time, the Tri-Valley cities of Pleasanton, Dublin, and Livermore have allocated a portion of each city's PEG funds to Tri-Valley Community Television to assist in the production of community television capital expenses. Federal law mandates that cable companies provide funding to communities with PEG channels. PEG funding is a designated funding source created to assist local agencies in capital expenses required to produce community television for residents. Rescinding the resolution will keep PEG funding with the City and allow staff to spend it on PEG-eligible facility and equipment expenses pursuant to City Council direction.

DISCUSSION

Upon review of current practices, staff determined that Resolution 170-82 is no longer accurate or necessary to expend PEG funds. Rescinding Resolution 170-82 will allow staff to efficiently use PEG funds at the direction of the City Council on the Civic Center Meeting Hall as necessary to produce PEG programming, ensure the City owns all equipment in the Civic Center Meeting Hall, maintain PEG eligible equipment on an appropriate schedule as determined by the City's Administrative Services Department, and continue to provide TV30 a portion of PEG funding for capital expenses that allow them to produce quality content for residents.

FISCAL AND ADMINISTRATIVE IMPACT

There is no fiscal or administrative impact with this item.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION REPEALING RESOLUTION NO. 170-82

Since 1972, the City of Livermore ("City"), along with Dublin and Pleasanton, has utilized the services of Tri-Valley Community Television ("TVCT") to administer government and community television services in the Tri-Valley area.

On July 26, 1982, the City Council adopted Resolution No. 170-82, designating TVCT as the official body to receive cable television grant funds, also known as Public, Educational, and Governmental ("PEG") funds, due to the City of Livermore.

The TVCT Board of Directors approves the organization's annual operating budget, which includes a proportional share of PEG funding to cover TVCT's capital expenses. That amount is only a portion of PEG funding received by the City.

Since adopting Resolution 170-82, the City has passed the board-approved amount of PEG funds to TVCT annually to cover the City's share of the organization's capital expenses.

On July 1, 2023, the City signed formal agreements with TVCT for the operating (23-0448) and capital budget (24-0068) expenditures.

Since the adoption of agreements 23-0448 and 24-0068, City staff has recognized the need to reflect that the City is the official body receiving cable television grant funds to create more efficient and fiscally responsible practices, including:

1. Using PEG funding to maintain the technological needs of the new Civic Center Meeting Hall.
2. Purchasing all PEG-qualified capital expenditures in city-owned facilities to maintain City ownership of equipment.
3. Continue to cover the proportional cost of annual capital funding to TV30 at the direction of the City Council.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby repeals Resolution No. 170-82 to reflect that the City of Livermore is the official body receiving the PEG fees due to the City.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE

STATE OF CALIFORNIA

RESOLUTION NO. 170-82

RESOLUTION DESIGNATING THE TRI-VALLEY COMMUNITY TELEVISION CORPORATION AS THE OFFICIAL BODY TO RECEIVE CABLE TELEVISION GRANT FUNDS

WHEREAS, the City of Pleasanton and Viacom entered into an agreement extending the cable television franchise to July 15, 1985; and

WHEREAS, pursuant to the terms of the above agreement, a nonprofit corporation was to be formed to receive funds and to assist in the programing of community service television, said nonprofit corporation requiring approval by the City of Pleasanton with the concurrence of the City of Livermore; and

WHEREAS, Tri-Valley Community Television has been duly incorporated as a nonprofit corporation with its purpose being to provide community service television and represents all the tri-valley interests; and

WHEREAS, at this time, it is appropriate for the City Council to designate Tri-Valley Community Television as the official body to receive funds and develop community service television pursuant to the Viacom cablevision extension agreement entered into with the City of Pleasanton;

NOW, THEREFORE, BE IT RESOLVED by the Livermore City Council that the City of Livermore designates Tri-Valley Community Television as the nonprofit corporation to receive funds and to develop community service television pursuant to the Viacom cablevision extension agreement with the City of Pleasanton.

BE IT FURTHER RESOLVED that the City Manager is directed to advise the City of Pleasanton of this action noting the City of Livermore's concurrence with the City of Pleasanton's Resolution No. 82-228.

BE IT FURTHER RESOLVED that this resolution shall become effective immediately upon concurrence of the City of Livermore of this designation.

APPROVED AS TO FORM:

Steven R. Anderson

CITY COUNCIL STAFF REPORT **ITEM NO. 5.21**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Paul Spence, Assistant City Manager

SUBJECT: Resolution of continued local emergency in response to impacts from a series of severe storm events last year.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution of continued local emergency in response to impacts from a series of severe storm events last year.

SUMMARY

On January 10, 2023, the City Council adopted a resolution ratifying the Proclamation of the Director of Emergency Services Concerning the Existence of a Local Emergency (Resolution No. 2023-001) in response to impacts from a series of severe storm events.

On February 27, April 24, June 12, July 24, September 11, October 23, and December 11, 2023, and January 22, 2024, and March 11, 2024, and April 15, 2024, and June 10, 2024 the City Council adopted resolutions of continued local emergency. California Government Code section 8630 directs the City Council to review the need for continuing the local emergency at least once every 60 days.

DISCUSSION

On January 4, 2023, the Executive Department of the State of California issued Executive Order N-2-23 proclaiming a State of Emergency for the Atmospheric River that started on December 27, 2022. On January 10, 2023, the City Council ratified a proclamation by the Emergency Services Director of the existence of a local emergency due to conditions of extreme peril to the safety of persons and property that arose within the City of Livermore caused by a series of severe rainstorms and high wind commencing in December 2022 and continuing through January 2023.

Proclamation 23-01 was ratified, as required, by the City Council within seven days (Resolution No. 2023-001). Once ratified, California Government Code section 8630 directs the City Council to review the need for continuing the local emergency at least once every 60 days. On February 27, 2023, the City Council adopted a resolution of continued local emergency (Resolution No. 2023-06).

On March 1, 2023, the Executive Department of the State of California issued a proclamation of State of Emergency due to a severe winter storm event beginning in February 2023 bringing damaging winds and historic precipitation that caused federal and state highways and road closures, and continued to threaten critical infrastructures, power outages, etc.

On March 24, 2023, the Alameda County Director of Emergency Services proclaimed a state of emergency due to conditions of continuing peril that have been presented by winter storms that resumed on February 23, 2023, continuing through March 2023, causing extensive damage and local expenses throughout the County.

On February 27, April 24, June 12, July 24, and September 11, October 23, and December 11, 2023, and on January 22, March 11, and April 15, 2024, and June 10, 2024 the City Council adopted resolutions of continued local emergency (Resolution Nos. 2023-026, and 2023-072, and 2023-111, and 2023-150, and 2023-159, and 2023-187, and 2023-223, and 2024-012, and 2024-031, and 2024-053, and 2024-091 respectively).

Staff recommends that the City Council continue the emergency proclamation to reflect the fact that emergency repairs have not been fully implemented and on-going work is required to recover from the damage. Continuing the emergency proclamation allows staff to seek reimbursement of the eligible costs of this work from federal and state agencies through the public assistance program.

Work includes removing sediment and debris from creeks and trails, repairing creek banks that have been washed away, repairing damaged trails, and pedestrian bridge abutments. Staff estimates about 30 damaged sites totaling approximately $9,000,000.

FISCAL AND ADMINISTRATIVE IMPACTS

The continuance of a Local Emergency allows the City to access federal, state and county resources, including potential financial reimbursements.

Marianna Marysheva
City Manager

Fiscal Review by:

Tina Olson
Administrative Services Director

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION OF CONTINUED LOCAL EMERGENCY

(Severe Storm Events – December 2022 through March 2023)

On January 10, 2023, the City Council adopted a resolution, *Ratifying the Proclamation of the Director of Emergency Services Concerning the Existence of a Local Emergency* (Resolution No. 2023-001). The emergency services proclamation concerns conditions of extreme peril to the safety of persons and property which have arisen within the City of Livermore caused by a series of severe rainstorms and high winds commencing in December 2022, and continuing through January 2023. On February 27, 2023, the City Council adopted a resolution of continued local emergency (Resolution No. 2023-026).

On March 1, 2023, California Governor, Gavin Newsom, proclaimed a state of emergency due to the severe winter storms that struck in late February as the result of an atmospheric river system forecast to continue through mid-March. The Governor issued his proclamation in response to a series of atmospheric river systems that impacted the State since late December 2022, that forced closures and damaged highways and roads, and caused other impacts that local agencies did not have time to mitigate, and that the continuing storms were expected to exacerbate those conditions. The Governor adopted a subsequent proclamation on March 28, 2023, to apply his March 1st proclamation to Alameda County. The Governor's proclamation directed the California Office of Emergency Services to provide assistance to local governments for the protection of public health and the environment, allowed for the mobilization of the California National Guard, allowed for state-owned properties to be made available for staging debris, and modified the hours-of-service limits in the California Vehicle Code and California Code of Regulations for fuel transportation and relief efforts.

Given the declaration of emergency by the State of California and Alameda County, as well as the existing damage and impacts from the prior storms, and in anticipation of additional storms and wind, the need for continued debris removal, emergency response protective measures, and permanent repairs, continue to present conditions that are likely to be beyond the control of the services, personnel, equipment, and facilities of the City of Livermore.

On March 24, 2023, the Alameda County Director of Emergency Services proclaimed a state of emergency due to conditions of continuing peril that have been presented by winter storms that resumed on February 23, 2023, continuing through March 2023, causing extensive damage and local expenses throughout the Alameda County Operational Area.

Although efforts have been made to remedy the emergency conditions, City staff report that the emergency conditions identified by the proclamation still exist. City staff recommends continuing the declaration of emergency since it is required to be active in

order to remain eligible to apply for and receive funding for costs to respond to and repair damages caused by the storm events.

Once a proclamation of local emergency is adopted, California Government Code section 8630 directs the City Council to review the need for continuing the local emergency at least once every 60 days.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it has reviewed the January 4, 2023 proclamation of local emergency that the City Council ratified on January 10, 2023 (Resolution No. 2023-001) and continued on February 27, 2023 (Resolution No. 2023-026) and on April 24, 2023 (Resolution No. 2023-072), and on June 12, 2023 (Resolution No. 2023-111), and on July 24, 2023 (Resolution No. 2023-150), and on September 11, 2023 (Resolution No. 2023-159), and on October 23, 2023 (Resolution 2023-187), and on December 11, 2023 (Resolution No. 2023-223), and on January 22, 2024 (Resolution 2024-012), and on March 11, 2024 (Resolution 2024-031) and on April 15, 2024 (Resolution 2024-053), and on June 10, 2024 (Resolution 2024-091) as well as the subsequent proclamations of emergency in March 2023 by both the State of California and the County of Alameda due to the continuing systems of storms affecting the State and local areas, and hereby finds that conditions warrant continued maintenance of that proclamation of local emergency.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

CITY COUNCIL STAFF REPORT **ITEM NO. 5.22**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: THIS ITEM WAS CONTINUED FROM THE JULY 8, 2024 CITY COUNCIL MEETING. Resolution accepting the recommendation of the Altamont Landfill Open Space Committee to authorize the City's grant request, finding the acquisition of the Hartford Hills Property is categorically exempt from CEQA, authorizing the City Manager to enter into a Purchase and Sale Agreements for open space land, and appropriating funds from the Dougherty Valley Settlement Agreement account. Location: Hartford Hills Property (82 acres – APNs: 902-9-3-1, 902-9-3-2).

RECOMMENDED ACTION

Staff recommends the City Council adopt separate resolutions to:

1. Accept the recommendation of the Altamont Landfill Open Space Committee to authorize the City of Livermore's grant requests for the Hartford Hills Property (in the amount of $980,000); and determine that the Altamont Landfill Open Space Committee's recommended expenditure of Open Space Account funds is not a project under California Environmental Quality Act (CEQA) Guidelines section 15378.
2. Determine the acquisition is categorically exempt from CEQA in accordance with CEQA Guidelines Section 15313, which exempts acquisitions of lands to preserve the land in its natural condition.
3. Authorize the City Manager to enter into a Purchase and Sale Agreement and execute all documents necessary to acquire the Hartford Hills Property (82 acres – APNs: 902-9-3-1, 902-9-3-2); and
4. Appropriate funds from the Dougherty Valley Settlement Agreement (Fund 925) for the amount of $980,000 to acquire the Hartford Hills Property (82 acres – APNs: 902-9-3-1, 902-9-3-2).

SUMMARY

The City is proposing to purchase in fee title the 82-acre Hartford Hills Property for purposes of open space preservation and conservation. The property has significant biological, scenic and recreational value. The property is outside of the City limits and outside the North Livermore Urban Growth Boundary

in unincorporated Alameda County. The total acquisition cost including transaction costs is $1,960,000.

The City actively engages in acquiring land for open space preservation and conservation using a variety of dedicated open space acquisition funding sources. Staff engages with willing property sellers on the open market to purchase land and secure it as open space in perpetuity. The City coordinates the acquisitions with partner agencies such as Tri-Valley Conservancy to establish conservation easements and long-term stewardship of the land.

In July and November of 2023, the City Council authorized staff to enter negotiations with three separate property owners to acquire the following three properties for open space and conservation purposes.

- 82-acre Hartford Hills property
- 32-acre Altamont Hills Property
- 125.5-acre Greenville Road Property

Staff has negotiated purchase and sale agreements with two out of the three properties. The City Council approved the Greenville Road Property acquisition at the July 8, 2024, City Council meeting. The Hartford Hills acquisition was continued to the July 22, 2024, City Council meeting. The City Council continued the item to allow Citizens for Balanced Growth (CBG) one more week with a deadline of July 12 to meet and confer with City staff, as required by the Dougherty Valley Settlement Agreement.

City staff has requested meetings with CBG numerous times since December 2023, but CBG has continually declined to meet but has requested information from the City. City staff provided all the information that it could that was available to the public. City staff sent a final request letter on April 9 (Attachment 5) offering CBG a final deadline to meet before moving the property acquisition forward to Planning Commission (for a Consistency Determination) and City Council. CBG declined to meet City staff by this deadline.

After the City Council meeting on July 8, staff did send out an e-mail to CBG on Tuesday, July 9 to request a meeting. CBG responded on July 9, that they could not meet this week and requested more information, but said they are as committed as ever to scheduling the required consult. Staff provided responses to CBG's information requests in a July 11 email and offered to meet with CGB on July 12. CGB did not take the opportunity to meet with staff on July 12.

On March 15, 2024, the Altamont Landfill Open Space Committee approved the City of Livermore's sponsored grant applications for the Hartford Hills Property and the Greenville Road Property including a third grant request for the Altamont Hills Property (32-acres - APN: 99B-5680-4).

On April 16, 2024, the Planning Commission adopted three separate resolutions (including the Altamont Hills Property) approving Consistency Determinations finding the City’s proposed acquisitions of the three properties to be consistent with Livermore’s 2003 General Plan. The property owner representatives and the City have agreed on terms for the acquisitions for the Hartford Hills Property. The City Council is responsible for authorizing the City Manager to execute the Purchase and Sale Agreement for each property and appropriating funds to purchase real property.

DISCUSSION

BACKGROUND

The City of Livermore ("City") has acquired or helped to acquire and permanently protect over 1,000 acres of open space land. Currently, the City owns nearly 340 acres of land in Doolan Canyon and approximately 300 acres of alkali wetlands, and sensitive habitat in Springtown. The City protects open space land to achieve strategic goals, including:

- Maintain and enhance biological diversity
- Secure land for agricultural conservation
- Support climate resilience and mitigation programs
- Provide non-motorized recreational opportunities
- Preserve scenic value; and
- Manage watershed and address flood control

Following acquisition of open space land, a crucial step is stewarding the land and ensuring it is properly managed for its conservation values. City staff accomplishes this step by encumbering the land with a conservation easement (held by Tri-Valley Conservancy for example) and establishing a non-wasting endowment to fund management of the land in perpetuity.

In July and November of 2023, the City Council authorized staff to enter into negotiations with three separate property owners to acquire in fee title of three properties for open space and conservation purposes. Staff has negotiated a purchase and sale agreement with two out of the three properties. The two properties proposed for purchase are located outside of the city limits and outside of the North Livermore Urban Growth Boundary. The City Council approved the Greenville Road Property acquisition at the July 8, 2024, meeting and continued the Hartford Hills Property acquisition to the July 22, 2024, meeting.

- Hartford Hills Property – 82 acres (APNs: 902-9-3-1 and 902-9-3-2)
- Greenville Road Property – 125.5 acres (APN: 99B-5685-12) - *Property Acquisition approved by the City Council on 7/8/2024.*

Funding for the Hartford Hills acquisition would come from the Altamont Landfill Settlement Agreement Open Space Fund, Vasco Road Landfill Open Space Fund, and the Dougherty Valley Settlement Agreement Fund.

Altamont Landfill Settlement Agreement Open Space Fund

In 1999, Alameda County, the Cities of Livermore and Pleasanton, Sierra Club, Northern California Recycling Association, Altamont Landowners Against Rural Mismanagement, and Waste Management of Alameda County entered into the Altamont Landfill Settlement Agreement to resolve litigation. The Settlement Agreement resolved a challenge to the proposed expansion of the Altamont Landfill and created the Altamont Landfill Settlement Agreement Open Space Fund. Specifically, the Settlement Agreement limits landfill expansion and waste imports and requires the operator to collect a $0.75 per ton fee for open space acquisition.

Vasco Road Landfill Open Space Fund

On May 4, 2006, the Alameda County Board of Supervisors upheld a County Planning Commission

approval of an amended Conditional Use Permit allowing continued landfill and recycling activities at the Vasco Road Landfill. Consistent with the language in the Altamont Settlement Agreement, the approval requires the Vasco Road Landfill operator (Republic Services, Inc.) to collect the same per-ton fees as the Altamont Landfill operator (Waste Management of Alameda County, Inc.). The Vasco Road Landfill Conditions of Approval require the collection and expenditures of fees to be identical to the Altamont Landfill Settlement Agreement.

Altamont Landfill Open Space Committee

The Altamont Landfill Open Space Committee ("Open Space Committee") reviews potential land acquisitions for consistency with both Settlement Agreements and recommends expenditures of funds (from the two landfill funds described above) used solely for purchase of properties in Alameda County to protect natural resources, biodiversity, scenic value, and recreational opportunities. The Committee reviews grant applications to permanently preserve open space through fee acquisition and easements.

The Committee is comprised of four members: one member appointed by the Board of Supervisors, one member appointed by the Livermore City Council, one member appointed by the Pleasanton City Council and one member appointed by the Sierra Club. A representative of the City of Dublin may participate as a non-voting member.

Rotating Livermore City Council members provide representation on the Committee. Vice Mayor Carling is the current Livermore representative. The Open Space Committee reviewed the recommended property acquisitions on March 15, 2024 (see discussion below). To date, the City Council has approved the Open Space Committee's recommendations to distribute funds for 10 acquisitions in the eastern acquisition priority area, as summarized in Attachment 1: Table 1.

Dougherty Valley Settlement Agreement (Dougherty Agreement)

In November 1999, Citizens for Balanced Growth, the City of Livermore, and Zone 7 Water Agency settled litigation over water supply to portions of Contra Costa County. The Agreement to Settle Water Litigation (Dougherty Agreement), required Windemere and/or its successors to pay the City of Livermore $1,000 per residential unit as an open space conservation fee. The fee was subject to an annual CPI adjustment and averaged approximately $1,056 per residential unit over the 10-year buildout. All 5,170 units are built, and the Dougherty Valley project areas have been annexed into the City of San Ramon.

The Dougherty Agreement funds are for acquisitions from willing sellers of permanent easements or fee title for conservation or agricultural preservation purposes. Priorities for funding are for acquisitions, including permanent trails, open space, or agricultural preservation easements from willing sellers in areas north of I-580 and east of Collier Canyon Road within Alameda County.

PROJECT DESCRIPTION

The City is proposing to purchase in fee title the 82-acre Hartford Hills Property for open space preservation and conservation. The property has significant biological, scenic and recreational value. The property is outside of the City limits and outside the North Livermore Urban Growth Boundary in unincorporated Alameda County (see attachments 2 and 3). The total cost to purchase including transaction costs is $1,960,000.

STAFF ANALYSIS

The Hartford Hills Property is located in unincorporated Alameda County and outside of the North Livermore Urban Growth Boundary. The property is strategically located to preserve the open space buffers around Livermore and satisfy the City's General Plan and Active Transportation Plan objectives. The property has a City General Plan Land Use designation of Large Parcel Agriculture (LPA) and Alameda County zoning designation of Agriculture (A).

The City's LPA designation is derived from the Alameda County East County Area Plan (ECAP) and applies to locations outside the City's Urban Growth Boundary (UGB) but within the City's designated "Planning Area". The intent of the LPA designation includes agriculture support uses. If acquired, the City would own and manage the property as permanently preserved open space. Staff proposes that the City acquire the property in fee title.

Preserving the subject property as open space in perpetuity would reinforce the Urban Growth Boundary, permanently preclude suburban expansion, and preserve natural lands in these areas. Acquiring the property for permanent open space would stabilize the property's land use and allow permanent preservation through long-term management agreements with the City's partner agencies.

Consistent with the City Council's prior direction, City staff has negotiated a purchase agreement with the property owner. On April 16, 2024, the Planning Commission adopted resolutions finding the property acquisition to be consistent with General Plan Policies for open space and conservation purposes (see General Plan Consistency discussion below). The City Council is responsible for authorizing the purchase and identifying the appropriating funding sources. Staff recommends the Council authorize the City Manager to execute the Purchase and Sale Agreements and all other documents necessary to acquire the property.

Altamont Landfill Open Space Committee Funding Approval

On March 15, 2024, the Altamont Landfill Open Space Committee (Committee) approved grant applications for three properties. Staff has negotiated purchase and sale agreements with two out of the three properties. The properties are listed below as well the approved grant amounts.

- Hartford Hills Property in the amount of $980,000
- Greenville Road Property in the amount of $1,284,000 *(Property Acquisition approved by the City Council on 7/8/2024)*

According to the Altamont Landfill Settlement Agreement, the Livermore City Council and the Alameda County Board of Supervisors shall take affirmative action on Committee expenditure recommendations. The actions must be in conformance with the Settlement Agreement provisions and must align with Livermore General Plan policy.

The Settlement Agreement's first priority is for the preservation of native biological diversity and/or wildlife habitat. The second priority is for the acquisition of property with significant value for visual character and/or non-motorized recreation. Additional criteria developed and utilized by the Open Space Committee includes Strategic Value in Land Protection, Additional Funding Sources, and Willing Sellers.

Both property acquisitions are consistent with each priority criteria as described below.

Staff recommends the City Council confirm that the Committee's expenditure recommendations are consistent with the Altamont Landfill Settlement Agreement and the Livermore General Plan.

Citizens for Balance Growth

Section 6(d)(i) of the Dougherty Settlement Agreement contains the following clause related to the expenditure of funds from the settlement:

"City staff will meet and confer with [Citizens for Balanced Growth] prior to formulating its recommendations for acquisitions."

Consistent with the Dougherty Settlement Agreement, City staff made numerous attempts to meet-and-confer with Citizens for Balanced Growth (CBG) concerning the recommended expenditure of settlement funds to acquire the Properties for conservation and habitat preservation. City staff made requests in December 2023 and January, February, and March of 2024. City staff made a final request to meet-and-confer by April 24, 2024 (see attachment 5). Despite these repeated requests to meet-and-confer, CBG has not met with City staff. At the July 8, 2024, City Council meeting, CBG was given an additional week to meet-and-confer with staff by July 12, 2024. CBG has declined to meet with staff as described above in the Summary section. Based on the response from CBG, and consistent with the Dougherty Agreement, staff may conclude that CBG does not support the expenditure of Dougherty Valley settlement funds for the Hartford Hills Property listed in this staff report.

Staff recommends the City Council appropriate funds from the Dougherty Valley Settlement Agreement account for the total amount of $980,000 to provide approximately 50 percent of the acquisition cost for the Hartford Hills Property (82 acres - $1,960,000).

Hartford Hills Property

The Hartford Hills property, consisting of two adjacent parcels, is located within unincorporated Alameda County, north of Interstate 580 and to the west of the City boundary adjacent to Springtown (see attachment 3). The approximately 82-acre property contains potential habitat for special status species and potential regulated wetlands and/or waters, and the property is geographically suited as a wildlife corridor. Further, the property is strategically located to preserve the open space buffer around Livermore and satisfies City General Plan and Active Transportation Plan objectives as explained below.

During the Open Space Committee meeting on March 15, 2024, City staff presented a grant request for $980,000 to acquire the Hartford Hills property. Additional funding will be provided through the City's Dougherty Valley Settlement Agreement Open Space Funds. The grant request included components and costs as shown in Attachment 1: Table 2.

The property generally consists of rolling hillsides, annual grassland, perennial and ephemeral drainage, a seasonal wetland/ vernal pool, and a stock pond. According to a Biological Assessment conducted by Olberding Environmental Inc, dated September 2023 (the Biological Assessment), the Arroyo Las Positas meanders through the property, with well incised and densely vegetated banks. The northeastern portion of the property also contains wetland depressions and upland mounds, with numerous ground squirrel burrows across the site.

The Biological Assessment notes that the natural features described above have the potential for jurisdictional waters and special status plant and wildlife species. Specifically, such perennial waters and seasonal wetlands with emergent vegetation provide highly suitable breeding and foraging habitat and supports California Red Legged Frog (CRLF), a Special Status Species.

The property provides a critical trail linkage identified in Livermore's Active Transportation Plan. The proposed Trail T-6 would extend across the property, connecting the existing Arroyo Las Positas trail to the north of Ponderosa Drive with the Las Colinas overpass. Trail T-6 would link Springtown with the rest of Livermore and provide a comfortable bike and pedestrian crossing of Interstate-580, and Trail T-6 cannot be completed without access across the subject property. For these reasons, the property offers significant visual and non-motorized recreational value. Finally, Trail T-6 will be added to the City's CIP list for construction within the next five years.

The property owner is a willing seller. Securing the subject property for permanent open space would stabilize the current land use and maintain the existing greenbelt in this area.

General Plan Consistency

Government Code Section 65402(a) requires that if a General Plan has been adopted, no real property shall be acquired by dedication or otherwise for public purposes until the location, purpose, and extent of such acquisition has been reported upon by the planning agency as to conformity with its adopted General Plan. On April 16, 2024, in accordance with Government Section 65402(a), the Livermore Planning Commission adopted separate resolutions, making the necessary findings, and determined the City's acquisition of the properties is in conformance with Livermore's 2003 General Plan and implements the General Plan goals, objectives, policies, and strategies outlined in the resolutions (Exhibit A to the Purchase Agreement Resolution and the Planning Commission meeting minutes (Attachment 4).

ENVIRONMENTAL DETERMINATION

The allocation of funds towards the acquisition of real property is not considered a "project" under California Environmental Quality Act and CEQA Guidelines Section 15378. A project is defined as: the whole of an action, which has the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment. Allocating funds would not approve a physical development project, would not physically change the environment, and would help to preserve natural habitat. Therefore, no environmental review is required for the funding allocations.

The Hartford Hills Property acquisition is categorically exempt from CEQA in accordance with CEQA Guidelines Section 15313, which exempts acquisitions of lands where the purpose of the acquisition is to preserve the land in its natural condition.

FISCAL AND ADMINISTRATIVE IMPACTS

The initial cost of the property acquisitions would have no impact on the City's General Fund. The purchase price plus the transaction costs will be paid by the dedicated open space funding sources described above and summarized below. The acquisitions will have the following effects on the funding

sources used in the acquisitions:

• The Altamont Landfill Settlement Open Space Fund for East Acquisition Priority Area expenditures would be reduced by $980,000 which would be used to acquire the Hartford Hills Property. These expenditures would reduce the fund from its current balance of approximately $20,332,000 to $19,352,000.

• The Dougherty Valley Settlement Agreement (Fund 925) would be reduced by $980,000 to acquire the Hartford Hills Property, reducing the fund from its current balance of approximately $5,028,960 to $4,048,960.

As the landowner, the City would be responsible for stewarding the land, ensuring it is properly managed for its conservation values, and incurring typical property management costs. The City's Open Space Conservation Program achieves this in a variety of ways.

Staff anticipates using best practices to minimize maintenance costs through grazing agreements with ranchers, similar to other open space properties the City owns. In addition, City staff will work with its open space consultants and land conservancy partners (e.g. Tri-Valley Conservancy) to establish permanent conservation easements and restore and enhance habitat on these properties through the sale of mitigation credits. The sale of mitigation credits results in a permanent conversation easement, long term management planning, and provides dedicated funding to cover the long-term maintenance costs through a non-wasting endowment. Any future conservation easement sale would return to Council for authorization.

The annual maintenance costs can vary depending on the particular property attributes. On average, the City can anticipate an approximate range of between $10,000 to $15,000 per year for maintenance. As noted above, these costs can be offset or eliminated if the City is able to identify mitigation value and sell mitigation credits on the properties. Council created the Open Space Mitigation Revenue Fund (Fund 642) to cover ongoing maintenance costs on open space land. Fund 642 is a special account generated from revenues received from the sale of mitigation values on City owned property. Funds are restricted to open space management (for properties not held under easement or with dedicated long term management fund) and for open space acquisitions.

PLANNING COMMISSION
APRIL 16, 2024

REGULAR MEETING

1. CALL TO ORDER – The meeting of the Planning Commission was called to order by Chairperson Jacob Anderson at 7:00 pm, held in person at 1016 S. Livermore Avenue.

ROLL CALL – Present: Chairperson Jacob Anderson, Vice-Chairperson Yolanda Fintschenko, Commissioner Steven Dunbar, Commissioner Daniel Leary, Commissioner Tracy Kronzak.

PLEDGE OF ALLEGIANCE

3. OPEN FORUM – NONE.

4. CONSENT CALENDAR

4.1 Approval of the March 5, 2024 Planning Commission Draft Meeting Minutes.

Recommendation:
Staff recommends the Planning Commission approve the draft minutes.

ON THE MOTION OF COMMISSIONER DUNBAR, SECONDED BY COMMISIONER FINTSCHENKO AND CARRIED ON A 5-0 VOTE, THE PLANNING COMMISSION APPROVED THE CONSENT CALENDAR.

5. PUBLIC HEARINGS – NONE.

6. MATTERS FOR CONSIDERATION – NONE

6.1 Consideration of General Plan Consistency Determinations for the acquisition of three properties for open space and conservation purposes.

Recommendation:
Staff recommends the Planning Commission adopt three separate resolutions approving Consistency Determination (CD) 24-001, Consistency Determination (CD) 24-002, and Consistency Determination

(CD) 24-003, finding the City's acquisition of the following three properties for open space and conservation is consistent with Livermore's 2003 General Plan.

1. Consistency Determination (CD) 24-001 - 82 acres (Hartford Hills Property - APNs: 902-9-3-1, 902-9-3-2)
2. Consistency Determination (CD) 24-002 - 32 acres (Altamont Hills Property - APN: 99B-5680-4)
3. Consistency Determination (CD) 24-003 - 125.5 acres (Greenville Road Property - APN: 99B-5685-12)

Associate Planner Kam Purewal presented the staff report.

Chairperson Anderson opened the public comment period.

David Furst, Sierra Club, indicated the Sierra Club provided grant funds to purchase the three properties and he suggested the cross be removed from the property.

Jean King indicated support for the purchase of the three properties to support the City's goals for biological diversity, open space, flood control and non-motorized uses and in keeping with the Livermore Urban Growth Boundary. She encouraged the City to work with the Tri Valley Conservancy to establish easements in perpetuity and concurred that the City should remove the cross from the property.

There were no more speakers, and the public comment period was closed.

Commissioner Kronzak indicated review of the Community Character and Open Space policies in the General Plan.

In response to Commissioner Dunbar, Associate Planner Purewal and Economic Development Manager Andy Ross discussed the goal for Trail 6 to be completed within five years based on resources; allowable uses in the agricultural zone; and purpose of nonwasting endowment. Staff indicated it would provide data on noise and lights from the freeway impacting the parcels and confirmed that the trail was within the Active Transportation Plan but not as imminent as the Hartford Hills Trail.

Commissioner Leary pointed out benefits of the parcels including providing a permanent buffer to urban sprawl, preserving scenic corridors, maintaining rural character and the recreation aspect.

In response to Commissioner Dunbar, Associate Planner Purewal and Economic Development Manager Ross indicated the properties were owned by private sellers and within the jurisdiction of the County; due diligence would be conducted; and the powerline towers were for PG&E. Staff explained that the parcels would allow stormwater and flood control issues in alignment with the City's Climate

Action Goals.

In response to Vice Chair Fintschenko, Associate Planner Purewal and Economic Development Manager Ross confirmed that the Hartford Hills property roadway, utilities and sidewalk would no longer be extended; purchasing both properties would increase the opportunity to establish wildlife crossings; ownership under the freeway and efforts to work to preserve then enhance the property; the Climate Action Plan supported acquisition of parcels; and the relationship between the General Plan and Climate Action Plan.

Commissioner Kronzak confirmed the ultimate destination of the T6 Trail.

Chair Anderson confirmed that the Planning Commission was tasked with determining the acquisition met the policies and goals of the 2003 General Plan but they would likely comply with the updated General Plan. He stated the acquisition would also fulfill the requirements of the Conservation and Open Space Elements and was consistent with current General Plan.

Commissioner Dunbar asked the status of the cross property. Economic Development Manager Ross stated a determination had not been made on what the City would do moving forward. Commissioner Dunbar indicated he could make the finding that acquisition furthered the General Plan policies.

ON THE MOTION OF COMMISSIONER KRONZAK, SECONDED BY COMMISSIONER DUNBAR AND CARRIED ON A 5-0 VOTE, THE PLANNING COMMISSION ADOPTED THE FOLLOWING RESOLUTIONS:

Resolution 06-24 approving Consistency Determination (CD) 24-001 for the acquisition of approximately 82 acres (Hartford Hills Property – APNs: 902-9-3-1, 902-9-3-2)

Resolution 07-24 approving Consistency Determination (CD) 24-002 for the acquisition of approximately 32 Acres (Altamont Hills Property – APN: 99b-5680-4)

Resolution 08-24 approving Consistency Determination (CD) 24-003 for the acquisition of approximately 125.5 acres (Greenville Road Property – APN: 99b-5685-12)

7. MATTERS INITIATED BY PLANNING COMMISSION AND STAFF

Commissioner Dunbar expressed concern with bicycle safety.

The Commissioners commended Senior Assistant City Attorney Kim Cilley and wished her well in future endeavors.

Senior Assistant City Attorney Kim Cilley stated no appeal was filed in the Forum Mobility decision.

8. ADJOURNMENT – at 7:46 pm to a Regular Planning Commission Meeting on Tuesday, May 7, 2024, at 7:00 pm, Civic Center Meeting Hall, City Council Chambers, 1016 S. Livermore Avenue.

Michael Ferruci
On behalf of Citizens for Balanced Growth
Sent via Email to: frettedfriend@gmail.com

RE: Dougherty Valley Settlement Fund Recommendation
Acquisition of Open Space Properties
Buyer: City of Livermore

Messrs. Mann and Ferruci on behalf of Citizens for Balances Growth,

This letter is a final request to meet-and-confer with Citizens for Balanced Growth regarding the recommendation being formulated by City staff to the Livermore City Council regarding the expenditure of Dougherty Valley settlements funds for acquisition of the following properties for conservation preservation purposes (collectively known as the "Properties"):

- Garaventa Hills property - 32 acres (APN 099B-53-0-1)
- Hartford Hills Property – 82 acres (APNs: 902-9-3-1 and 902-9-3-2)
- Altamont Hills Property (formerly called the Cross property) – 32 acres (APN: 99B-5680-4)
- Greenville Road Property – 125.5 acres (APN: 99B-5685-12)

As you are aware, the Agreement to Settle Water Litigation dated November 2, 1999, and commonly known as the Dougherty Valley Settlement Agreement, contains the following clause in section 6(d)(i) for the expenditure of funds realized from the settlement:

> "City staff will meet and confer with [Citizens for Balanced Growth] prior to formulating its recommendations for acquisitions."

City staff has made numerous attempts to meet-and-confer with Citizens for Balanced Growth concerning the recommendations being prepared by City staff to the City Council regarding the expenditure of settlement funds for acquisition of the Properties by the City of Livermore for conservation preservation purposes. Those requests were

made in December, January, February, and March, but Citizens for Balanced Growth has not met with City staff.

Even though Citizens for Balanced Growth deviated from past practices and rebuffed requests to meet-and-confer by requesting information not previously requested for prior meet-and-confers and inserting new demands that the City identify the buyer before meeting, City staff provided the requested information and advised that the recommendation is based upon the City being the buyer.

It appears that Citizens for Balanced Growth is reluctant to meet because it does not support the expenditure of Dougherty Valley Settlement funds for the City's acquisition of the Properties for conservation preservation purposes. It may also be that Citizens for Balanced Growth is attempting to delay staff's recommendation concerning the proposed acquisitions.

Mr. Mann has expressed his personal opinion, at both the Livermore City Council meeting on February 26, 2024, and the Altamont Open Space Committee meeting on February 16 and March 15, 2024, that he does not support the City's acquisition of the Properties. However, he has not met-and-conferred with City staff on behalf of Citizens for Balanced Growth.

City staff proposes the following dates and times to meet-and-confer with Citizens for Balanced Growth about the staff recommendation being formulated to the Livermore City Council regarding the expenditure of Dougherty Valley settlements funds for the City's acquisition of the Properties:

Date: Thursday, April 18, 2024
Time: 4-5 pm or later if necessary
Location: Teams call or City Hall

Date: Tuesday, April 23, 2024
Time: 5-6 pm or later if necessary
Location: Teams call or City Hall

Date: Wednesday, April 24,2024
Time: 5-6 pm or later if necessary
Location: Teams call or City Hall

City staff is prepared to meet after hours if needed and can also meet at a publicly accessible location other than City Hall if that works better for both of you.

In the event Citizens for Balanced Growth does not meet-and-confer with City staff by April 24, 2024, staff will then formulate its recommendation to the City Council consistent with the Dougherty Valley Settlement Agreement with the following as the preferred recommendation by Citizens for Balanced Growth:

> "Citizens for Balanced Growth does not support the expenditure of Dougherty Valley settlement funds for the City of Livermore to acquire the following Properties:

- Garaventa Hills property - 32 acres (APN 099B-53-0-1)
- Hartford Hills Property – 82 acres (APNs: 902-9-3-1 and 902-9-3-2)
- Altamont Hills Property (formerly called the Cross property) – 32 acres (APN: 99B-5680-4)
- Greenville Road Property – 125.5 acres (APN: 99B-5685-12)"

I am be reached at (925) 960-4461 or via e-mail at spriley@livermoreca.gov. **Please contact me to accept one of the proposed dates to meet-and-confer or to identify a date-and-time that will occur before April 24, 2024, that works for Citizens for Balanced Growth and City staff.**

Sincerely,

Stephen Riley
Acting Planning Manager
City of Livermore Planning Division

Cc Paul Spence, Assistant City Manager
Jason Alcala, City Attorney
Kam Purewal, Assistant Planner

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION ACCEPTING THE ALTAMONT LANDFILL OPEN SPACE COMMITTEE'S RECOMMENDATION TO EXPEND FUNDS IN THE AMOUNT OF $980,000 FOR THE PURCHASE OF HARTFORD HILLS PROPERTY (82-ACRES) IN EASTERN ALAMEDA COUNTY (APNS 902-9-3-1 AND 902-9-3-2)

The City of Livermore's General Plan includes goals for long-term preservation of open space, including low-intensity agriculture, habitat protection, watershed management, and recreational uses.

In 1996, Alameda County certified an Environmental Impact Report and approved a conditional use permit for expansion of the Altamont Landfill by Waste Management of Alameda County, Inc., resulting in litigation.

In 1999, the lawsuit parties (Alameda County, the cities of Livermore and Pleasanton, the Sierra Club, Northern California Recycling Association, Altamont Landowners Against Rural Mismanagement, and Waste Management of Alameda County, Inc.) entered into a settlement agreement relating to the proposed expansion of the Altamont Landfill ("Settlement Agreement").

The Settlement Agreement provides for collection of a fee allocated to an Open Space Account for expenditure on open space acquisitions in fee or permanent easement. The Settlement Agreement required Alameda County to convene an advisory committee comprised of four members as follows: one member appointed by Alameda County, one member appointed by the City of Livermore, one member appointed by the City of Pleasanton, and one member appointed by the Sierra Club ("Open Space Committee").

The Settlement Agreement establishes criteria that limit the use the funds in the Open Space Account to open space acquisition including properties having significant value for preservation of native biological diversity and/or wildlife, and properties having significant value for visual character, and/or non-motorized recreation. The Open Space Committee has developed and utilized additional criteria for the use of the funds, including strategic value in land protection, additional funding sources, and willing sellers.

The Settlement Agreement assigns the Open Space Committee the responsibility to make recommendations on priority lists and allocations for the expenditure of the Open Space Account funds, and then requires the County and the respective city (depending upon the acquisition area) to determine whether the Open Space Committee's recommendation is consistent with the Settlement Agreement and the Open Space Committee's priorities. The City of Livermore, Alameda County, and the Sierra Club represent the voting members of the Open Space Committee for acquisitions in the eastern acquisition priority area that receives 80% of the Open Space Account funds. The City of Pleasanton, Alameda County, and the Sierra Club represent the voting members of the Open Space Committee for acquisitions in the western acquisition priority area that receives 20% of the Open Space Account funds.

On March 15, 2024, the Open Space Committee considered the City of Livermore's request for a grant in the amount of $980,000 to acquire the Hartford Hills Property (82-acres - APNS 902-9-3-1 and 902-9-3-2).

The Hartford Hills property is located within the eastern acquisition priority area. The Open Space Committee recommended expending $980,000 (50% of the acquisition cost) from the Open Space fund for a grant to the City of Livermore for acquisition and recommended the Livermore City Council and the Alameda County Board of Supervisors determine that the expenditure is consistent with the Settlement Agreement and the Open Space Committee's priorities.

The Open Space Committee's recommended expenditure of Open Space Account funds, and their expenditure for the acquisition of the Hartford Hills Property, is not a project under the California Environmental Quality Act (CEQA) and CEQA Guidelines section 15378, because an approval of the expenditure of funds would not approve a physical development project, would not physically change the environment, and would help preserve natural habitat. Therefore, no environmental review is required.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that based upon its own independent review of the entire record it hereby finds the Open Space Committee's recommendation for the expenditure of $980,000 of Altamont Open Space Funds to fund the grant request by the City of Livermore to purchase and manage the Hartford Hills Property is consistent with the Livermore General Plan and the priorities set by the Settlement Agreement and the Open Space Committee.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION FINDING THAT THE ACQUISITON OF THE HARTFORD HILLS PROPERTY (82 ACRES – APNS 902-9-3-1 AND 902-9-3-2) IS EXEMPT FROM THE PROVISIONS OF THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

In July and November of 2023, the City Council authorized City of Livermore ("City") staff to enter negotiations with the property owner to acquire in fee title for open space and conservation purposes. The property is located outside of the City limits and outside of the North Livermore Urban Growth Boundary.

On March 15, 2024, the Altamont Landfill Open Space Committee approved the City of Livermore's grant applications for the acquisition of the Hartford Hills Property. On April 16, 2024, in accordance with Government Section 65402(a), the Livermore Planning Commission adopted a resolution and determined the City's acquisition of the Hartford Hills Property is in conformance with Livermore's 2003 General Plan and implements the General Plan goals, objectives, policies, and strategies outlined below.

On July 22, 2024, the City Council considered the Project, Planning Commission and staff recommendations, and all public comments and testimony, and findings.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that prior to taking action on the Project the City Council reviewed written and oral staff reports on the Project and took testimony, and received into the record all pertinent documents related to the Project (collectively, the "Record Evidence"). The City Council's determination is based on the Record Evidence, which is incorporated into this Resolution by reference.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that based upon the City Council's own independent review of the Record Evidence and considerations the City Council hereby finds that the Project is categorically exempt under the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines Section 15313, which exempts acquisitions of lands for the purpose of conservation, and none of the exceptions to the exemption listed in Section 15300.2 apply.

Exceptions - Section 15300.2

None of the exceptions to the categorical exemption listed in CEQA Guidelines Section 15300.2 apply, as described below.

1. Location. This exception does not apply. Categorical Exemption Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located. The proposed land acquisition qualifies for a Class 13 Categorical Exemption and, therefore, is not subject to this possible exception due to project location.

2. Cumulative Impact. The undeveloped and vacant property will remain as open space. The property will be managed for its conservation value and will be encumbered with a conservation easement. The acquisition of the property would not result in any significant impacts, and its contribution to regional growth is not cumulatively considerable. Therefore, the property acquisition will not result in any cumulative impacts.

3. Significant Effects Resulting from Unusual Circumstances. There is no reasonable possibility that the acquisition of the property will have a significant effect on the environment due to unusual circumstances. There is no evidence that any unusual circumstances exist. The undeveloped and vacant property will remain as open space. The property will be managed for its conservation value and will be encumbered with a conservation easement.

4. Scenic Highways. The property site is not designated as a Scenic Highway by the California Department of Transportation. No damage to scenic resources will occur because the Project is not located within the Scenic Corridor of the General Plan. The Project site is not designated as a Scenic Highway by the California Department of Transportation. No damage to scenic resources will occur because the Project is not located within the Scenic Corridor of the General Plan.

5. Hazardous Waste Sites. The project is not included on the list of hazardous waste facilities compiled pursuant to California Government code Section 65962.5, which comprises the following five parts: the list of Hazardous Waste and Substances sites from the Department of Toxic Substances Control (DTSC) EnviroStor database; the list of Leaking Underground Storage Tank (LUST) sites from the State Water Resource Control Board (SWRCB) Geotracker database; the list of solid waste disposal sites identified by the SWRCB with waste constituents above hazardous waste levels outside the waste management list; the list of active Cease and Desist Orders or Cleanup and Abatement Orders that concern the discharge of wastes that are hazardous materials; or the list of hazardous waste facilities subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code, identified by DTSC.

6. Historical Resources. The site is not a historical resource and therefore will not cause a substantial adverse change in the significance of a historical resource.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby directs the Planning Manager to file a Notice of Exemption with the Alameda County Clerk if the project is approved.

The documents that constitute the record of proceedings upon which this decision is based can be found in the City Clerk's Office, 1052 S. Livermore Avenue, in Livermore, California. This resolution shall be effective upon adoption by the City Council.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PURCHASE AND SALE AGREEMENT FOR THE ACQUISITON OF THE HARTFORD HILLS PROPERTY (82 ACRES – APNS 902-9-3-1 AND 902-9-3-2)

In July and November of 2023, the City Council authorized City of Livermore ("City") staff to enter negotiations with the property owner to acquire in fee title for open space and conservation purposes. The property is located outside of the City limits and outside of the North Livermore Urban Growth Boundary.

On March 15, 2024, the Altamont Landfill Open Space Committee approved the City's grant applications for the acquisition of the Hartford Hills Property. On April 16, 2024, in accordance with Government Section 65402(a), the Livermore Planning Commission adopted a resolution and determined the City's acquisition of the Hartford Hills Property is in conformance with Livermore's 2003 General Plan and implements the General Plan goals, objectives, policies, and strategies outlined below.

The Livermore 2003 General Plan includes a Community Character Element with the following goals, objectives, and policies regarding the preservation and enhancement of Livermore's natural environment as a valuable component of Livermore's character and identity (Exhibit A).

Goal CC-1 - Preserve and enhance Livermore's natural setting.

Objective CC-1.1 - Use open space to protect and enhance local community character and identity, to preserve rural characteristics, and to provide an edge to urban growth.

Policy CC-1.1 P6 - The City shall maintain an area of non-urbanized land surrounding Livermore to serve as a buffer between communities. Uses that are considered compatible with this area include agriculture, grazing, open space, recreation, and reclaimed sand and gravel extraction.

Policy CC-1.1 P7 - Open space shall be used to protect and enhance local community character and identity, and to guide the physical shape and direction of urban growth to preserve the rural characteristics of the area.

The City's acquisition will also implement the following General Plan goals, objectives, and policies regarding Open Space and Conservation:

Goal OSC-1 - Conserve the value and function of Livermore's open space as a biological resource.

Objective OSC-1.1 - Maintain biodiversity within the Planning Area with special emphasis on species that are sensitive, rare, declining, unique, or represent valuable biological resources.

Objective OSC-5.1 - Provide a comprehensive system of parks and recreation facilities in Livermore.

Policy OSC-5.1 P6 - The City shall coordinate and cooperate with LARPD and EBRPD in developing adequate regional park space around Livermore to serve foreseeable population increases in Livermore and its environs.

The proposed land acquisition will implement the following General Plan Land Use goals and objectives related to the North Livermore Urban Growth Boundary:

Goal LU-5 - It is the goal of the City to establish a coherent and logical pattern of urban uses that protects and enhances open space and agricultural uses by providing a clear and permanent boundary for urban uses within the City's Planning Area.

Objective LU-5.1 - Maintain an Urban Growth Boundary to protect open space and agricultural uses in North Livermore.

The proposed land acquisitions will implement the following General Plan Strategy related to the Climate Action Plan:

S-1.4 - Preserve open spaces. Continue the City's open space preservation efforts to preserve open space as conservation or working land to maintain carbon sequestration and other benefits.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that prior to taking action on the Project, and at a properly noticed public meeting, the City Council reviewed written and oral staff reports, took testimony, and received into the record all pertinent documents (collectively, the "Record Evidence"). The City Council's determination is based on the Record Evidence, which is incorporated into this Resolution by reference.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it has considered the Record Evidence and adopted a resolution finding the acquisition of the Hartford Hills Property (82 acres – APNs: 902-9-3-1 and 902-9-3-2) to be exempt from the California Environmental Quality Act (CEQA) in accordance with CEQA Guidelines Section 15313, which exempts acquisitions of lands for the purpose of conservation.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby directs the Planning Manager to file a Notice of Exemption with the Alameda County Clerk.

BE IT FURTHER RESOLVED by the City Council of the City of Livermore that it hereby authorizes the City Manager to execute a Purchase and Sale Agreement and all other documents necessary for the acquisition of the Hartford Hills Property (Exhibit B).

The documents that constitute the record of proceedings upon which this decision is based can be found in the City Clerk's Office, 1052 S. Livermore Avenue, in Livermore California.

Exhibit A – Planning Commission Resolution
Exhibit B – Hartford Hills Purchase and Sale Agreement

IN THE PLANNING COMMISSION OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION APPROVING CONSISTENCY DETERMINATION (CD) 24-001 FOR THE ACQUISITION OF APPROXIMATLEY 82 ACRES (HARTFORD HILLS PROPERTY – APNs: 902-9-3-1, 902-9-3-2)

The Planning Commission, as the City's planning agency, is required by Government Code Section 65402(a) to determine the consistency of the acquisition of real property and easements for public purposes with the City's General Plan; and

A Consistency Determination for the acquisition of real property and easements does not constitute a project for the purposes of the California Environmental Quality Act (CEQA) per section 21065 of the California Environmental Quality Act and CEQA Guidelines. Therefore, no environmental review under CEQA is required.

NOW, THEREFORE, BE IT RESOLVED, by the Planning Commission of the City of Livermore that prior to taking action on the Project, and at a properly noticed public meeting, the Planning Commission reviewed written and oral staff reports, took testimony, and received into the record all pertinent documents related to the Project (collectively, the "Record Evidence"). The Planning Commission's determination is based on the Record Evidence, which is incorporated into this Resolution by reference.

BE IT FURTHER RESOLVED, with respect to Consistency Determination (CD) 24-001, the Planning Commission finds:

1. Acquisition and disposition of real property is determined to be consistent with the City of Livermore General Plan

   Response: The acquisition of approximately 82 acres (Hartford Hills Property – APNs: 902-9-3-1, 902-9-3-2) is consistent with the General Plan goals, objectives, policies, and strategies outlined below. The Livermore 2003 General Plan includes a Community Character Element with the following goals, objectives, and policies regarding the preservation and enhancement of Livermore's natural environment as a valuable component of Livermore's character and identity.

   Goal CC-1 - Preserve and enhance Livermore's natural setting.

   Objective CC-1.1 - Use open space to protect and enhance local community character and identity, to preserve rural characteristics, and to provide an edge to urban growth.

   Policy CC-1.1 P6. The City shall maintain an area of non-urbanized land surrounding Livermore to serve as a buffer between communities. Uses that are considered compatible with this area include agriculture, grazing, open space, recreation, and reclaimed sand and gravel extraction.

Policy CC-1.1 P7. Open space shall be used to protect and enhance local community character and identity, and to guide the physical shape and direction of urban growth to preserve the rural characteristics of the area.

The City's acquisition will also implement the following General Plan goals, objectives, and policies regarding Open Space and Conservation:

Goal OSC-1 - Conserve the value and function of Livermore's open space as a biological resource.

Objective OSC-1.1 - Maintain biodiversity within the Planning Area with special emphasis on species that are sensitive, rare, declining, unique, or represent valuable biological resources.

Objective OSC-5.1 - Provide a comprehensive system of parks and recreation facilities in Livermore.

Policy OSC-5.1 P6 - The City shall coordinate and cooperate with LARPD and EBRPD in developing adequate regional park space around Livermore to serve foreseeable population increases in Livermore and its environs.

The proposed land acquisitions will implement the following General Plan Land Use goals and objectives related to the North Livermore Urban Growth Boundary:

Goal LU-5 - It is the goal of the City to establish a coherent and logical pattern of urban uses that protects and enhances open space and agricultural uses by providing a clear and permanent boundary for urban uses within the City's Planning Area.

Objective LU-5.1 - Maintain an Urban Growth Boundary to protect open space and agricultural uses in North Livermore.

The proposed land acquisitions will implement the following General Plan Strategy related to the Climate Action Plan:

S-1.4 Preserve open spaces. Continue the City's open space preservation efforts to preserve open space as conservation or working land to maintain carbon sequestration and other benefits.

BE IT FURTHER RESOLVED that the Planning Commission of the City of Livermore has considered the findings set forth above and adopts these findings as part of this resolution. Based upon the Planning Commission's independent review of the Record Evidence and considerations, the Planning Commission, finds the acquisition of the Hartford Hills Property including approximately 82 acres (APNs 902-9-3-1, 902-9-3-2) is consistent with Livermore's General Plan and hereby approves Consistency Determination

(CD) 24-001.

The documents that constitute the record of proceedings upon which this decision is based can be found in the Community Development Department, 1052 S. Livermore Avenue, in Livermore, California.

The Planning Commission's decision is subject to a 15-day appeal period in accordance with Livermore Development Code Chapter 9.15.

On the motion by Commissioner Kronzak, seconded by Commissioner Dunbar, the foregoing Resolution was passed and adopted at the Planning Commission meeting of April 16, 2024, by the following vote:

AYES: ANDERSON, DUNBAR, FINTSCHENKO, KRONZAK, LEARY.
NOES: NONE.
ABSENT: NONE.

Jacob Anderson, Chairperson

Stephen Riley

By Stephen Riley, Acting Planning Manager
Secretary to the Planning Commission

PURCHASE AGREEMENT AND ESCROW INSTRUCTIONS

This Purchase and Sale Agreement and Escrow Instructions ("Agreement") dated as of _____ _____, 20 24 (the "Effective Date"), is made by and between the City of Livermore, a municipal corporation ("Buyer") and Hartford Hills Estates, Ltd., a California limited partnership, ("Seller").

RECITALS

A. Seller is the owner of the Property (as defined in Section 1 below) pursuant to that certain (Grant Deed) for APN No. 902-9-3-1 dated May 11, 1988, and recorded on May 12,1988, in the Official Records of Alameda County, California as Instrument No. 88-113342 and (Grant Deed) for APN No. 902-9-3-2 dated March 7, 1988 an recorded on March 31, 1988, in the Official Records of Alameda County, California as Instrument No. 88-077874.

B. Buyer wishes to purchase the Property from Seller, and Seller wishes to sell the Property to Buyer, each upon the terms and conditions in this Agreement.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and conditions herein contained, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Buyer and Seller agree as follows:

1. Purchase of the Property. Subject to the terms and conditions of this Agreement, Seller shall sell to Buyer and Buyer shall purchase from Seller the following (collectively, the "Property"):

   1.1. Real Property. That certain real property located in Alameda County, California, consisting of approximately a total of (82) acres of land, relating to APNs: 902-9-3-1 and 902-9-3-2, as more particularly described in Exhibit A attached hereto, together with all privileges, rights, easements, and appurtenances belonging to such real property (collectively, the "Real Property").

   1.2. Improvements. Any and all improvements, buildings, facilities, fixtures, structures, fences, and parking areas located on the Real Property (collectively, the "Improvements").

   1.3. All Other Tangible and Intangible Rights and Assets. All other rights and assets, tangible or intangible and wherever located, which relate to the Real Property.

2. Purchase Price. The purchase price for the Property ("Purchase Price") shall be $1,920,000 One Million Dollars Nine Hundred and Twenty Thousand Dollar (purchase price), and shall be payable as follows:

   2.1. Deposit. Within five (5) business days of Effective Date, Buyer shall deposit into Escrow 50% of the Purchase Price, for a sum of Nine Hundred and Sixty Thousand Dollars ($960,000) in cash ("Deposit"). In the event that Buyer exercises the option, in its sole discretion, to terminate this Agreement, the Escrow Holder shall be, and is hereby irrevocably instructed by Seller and Buyer, to immediately pay to Buyer the full amount of the Deposit and any interest earned thereon without further instructions.

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

3. Escrow; Closing Conditions.

3.1. Escrow. Upon full execution and delivery of this Agreement, Buyer shall promptly open an escrow account ("Escrow") with First American Title Company, located at 4900 Hopyard Road, Suite 110, Pleasanton, CA 94588 (Attn: Kellie Sanders – (925) 460-0790) ("Escrow Holder"). This Agreement shall, to the extent possible, serve as escrow instructions. The parties agree to execute such additional escrow instructions as may be required by Escrow Holder, which instructions shall be consistent with this Agreement. The "Close of Escrow" shall occur as soon as practicable after the satisfaction of all conditions precedent specified in this Agreement, but in any event, on or before thirty (30) business days following the Effective Date.

3.2. Fees. Buyer shall pay all of Escrow Holder's fees, including escrow charges and fees. Buyer shall pay the costs of a CLTA Standard Owner's Policy of Title Insurance with respect to the Real Property insuring Buyer in the full amount of the Purchase Price, all documentary transfer taxes, and recording fees. Buyer shall pay for the costs of any endorsements to the Title Policy (as hereinafter defined) and the incremental cost of an ALTA Extended Owner's Policy of Title Insurance if Buyer desires to obtain such a policy. As used herein, "Title Policy" shall mean a CLTA Standard Owner's Policy of Title Insurance and, if applicable, an ALTA Extended Owner's Policy of Title Insurance, subject only to the Permitted Exceptions (as hereinafter defined) and containing such endorsements as Buyer may require in its sole discretion.

3.3. Deposit of Documents into Escrow.

3.3.1. Seller shall deposit with Escrow Holder the following items no later than five (5) business days after the Effective Date, duly executed and acknowledged where required:

a. The Grant Deed;

b. Completed Franchise Tax Board Form 597-W and an affidavit certifying that Seller is not a "foreign person" as defined in the Internal Revenue Code;

c. A completed California Form 593-C (which provides that no portion of the Purchase Price shall be required to be withheld by or on behalf of Buyer), duly executed by Seller; and

d. Any other documents, instruments or agreements reasonably required to be delivered hereunder to Escrow Holder or to Buyer in order to consummate the transactions contemplated by this Agreement.

3.3.2. Buyer shall execute and/or deliver the following to the Escrow Holder for delivery or disbursement to Seller on Close of Escrow:

a. The Purchase Price;

b. Escrow Holder's costs and expenses, as herein provided; and

c. Any other documents, instruments or agreements reasonably required to be delivered

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

hereunder to Escrow Holder or to Seller in order to consummate the transactions contemplated by this Agreement.

3.4. Close of Escrow. Escrow Holder shall do all of the following upon Close of Escrow:

3.4.1. Record the Grant Deed, with a Certificate of Acceptance, in the Official Records of Alameda County, California;

3.4.2. Cause the Title Policy to be issued to Buyer within a reasonable time after Close of Escrow; and

3.4.3. Disburse the Purchase Price to Seller less the amount of any other closing expense payable by Seller pursuant to the terms of this Agreement.

4. Title Matters; Insurance.

4.1. Title. Title to the Property shall be conveyed to Buyer free and clear of all liens, claims and encumbrances except as permitted in this Section (the "Permitted Exceptions").

4.2. Approval of Exceptions. Within five (5) business days after Escrow is opened, or as soon thereafter as reasonably possible, Seller shall cause Escrow Holder to deliver to Buyer a preliminary title report with respect to the Real Property (the "Preliminary Report") together with copies of all recorded documents shown as exceptions thereto. Buyer shall notify Seller ("Buyer's Title Objection Notice") within ten (10) business days after the Effective Date of any objections to the preliminary title report. If Buyer, in its sole and absolute discretion, disapproves of any of the exceptions shown on the Preliminary Report, Buyer must deliver Buyer's Title Objection Notice to Seller, which shall outline the Disapproved Exceptions, those items that appear on the Preliminary Report to which the Buyer objects. The term "Permitted Exceptions" shall mean (i) the title exceptions that are not disapproved of by Buyer in Buyer's Title Objection Notice or (ii) the title exceptions for which Escrow Holder is irrevocably committed to insure against by the issuance of endorsements to the Title Policy, which endorsements must be acceptable to Buyer in its sole discretion. Notwithstanding anything else contained in this Agreement, the following shall be Permitted Exceptions: real estate taxes, assessments, vault charges and water and sewer charges not currently due and payable, subject to adjustment as provided in Section 7 of this Agreement.

4.3. Seller shall have five (5) business days following receipt of Buyer's Title Objection Notice to provide Buyer with written notice ("Seller's Title Notice") that either: (i) Seller is unwilling or unable to deliver title to the Real Property subject only to the Permitted Exceptions; or (ii) Seller is willing to use commercially reasonable efforts to deliver title to the Real Property subject only to the Permitted Exceptions within a specified period of time not to exceed thirty (30) business days from the date of such Seller's Title Notice ("Extension Date"). Failure by Seller to deliver Seller's Title Notice to Buyer within the five (5) business day period specified above shall constitute Seller's agreement to use commercially reasonable efforts to deliver title at Close of Escrow subject only to the Permitted Exceptions. If in Seller's Title Notice, Seller has deemed that it is unwilling or unable to deliver title to the Real Property subject only to the Permitted Exceptions, Buyer shall have the option, by notice to Seller within five (5) business days after receipt of Seller's Title Notice, but in no event after the expiration of the Review Period (as defined in Section 5.1 below), to either (i) accept such

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

title to the Real Property as Seller can provide, or (ii) to terminate this Agreement and have the Deposit returned if permitted by Section 2.1 hereof. If for any reason whatsoever, Seller remains unable or unwilling to deliver title subject only to the Permitted Exceptions by the Extension Date, and if Buyer shall still be unwilling to accept such title to the Real Property as Seller can provide, then either party may terminate this Agreement without further liability. If, after the date hereof, any additional items come into existence which would show as exceptions to title insurance in the Title Policy, and Seller fails to remove same prior to the Close of Escrow, Buyer shall have the choice of: (i) terminating this Agreement and the Escrow and thereafter neither Seller nor Buyer shall have any further obligations under this Agreement; or (ii) completing the purchase of the Property in accordance with the terms of this Agreement.

5. Due Diligence Investigation.

5.1. Review Period. Buyer may conduct investigations and reviews of the Property including, but not limited to, the physical condition or state of the Property, environmental matters (including, without limitation, Phase I and Phase II environmental reports of the Property), title matters, zoning matters, governmental, regulatory or land use matters, and any other matters affecting Buyer or Buyer's anticipated use and ownership of the Property during the term of this Agreement. The Review Period shall continue for a period of 15 business days after the Effective Date. After 15 business days after the Effective Date, the Review Period shall be terminated.

5.2. Disapproval of Investigation. If Buyer, in its sole and absolute discretion, disapproves any of the results of its investigation and review, Buyer may, subject to Section 2.1 hereof, terminate this Agreement without any liability whatsoever by providing written notice thereof to Seller on or before the termination date of the Review Period. If this Agreement is so terminated, the Deposit shall be returned if permitted by Section 2.1 hereof and neither party shall have any further liability hereunder. If Buyer fails to deliver such notice to Seller on or before the termination of the Review Period, Buyer shall be deemed to have elected to consummate this transaction.

5.3. Access to Property. Seller agrees to grant Buyer and Buyer's employees, agents, consultants, and other authorized representatives the right to reasonable access to the Property at reasonable times during the Term of this Agreement subject to twenty-four hours' notice to the Seller of Buyer's intent to access the Property.

6. Possession. Possession of the Property shall be delivered to Buyer on Close of Escrow in its "as-is" condition, free of all tenancies and subject to the representations and warranties and covenants of Seller contained herein.

7. Prorations. All utility costs, real property taxes and assessments, water charges and assessments, bond payments and other expenses affecting the Property shall be prorated as of Close of Escrow. If, at the time of the Close of Escrow, the tax rate or the assessed valuation of the Property has not been fixed, the apportionment of taxes will be upon the basis of the most recently established tax rate applied to the latest assessed valuation (subject to adjustment as hereinafter provided). If any expenses (other than taxes) for the Property cannot be determined finally as of Close of Escrow, such expense will be prorated on the best available information. Adjustments to the prorations will be made from time to time after Close of Escrow to take account of final information as to expenses estimated as of the Close of Escrow or to adjust expenses that were not included in the prorations

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

done at the Close of Escrow, and Buyer or Seller, as applicable, will pay the other on demand such amounts as may be appropriate based on such adjustments, together with interest at twelve percent (12%) per annum from the date of demand if such amount remains unpaid more than ten (10) business days after demand. Any reproration of expenses must be completed within one hundred eighty (180) calendar days after Close of Escrow or, in the case of taxes, within ninety (90) calendar days after the tax (or adjustment of tax) is billed, and neither Buyer nor Seller will be entitled to request a payment on account of reprorations after such date. Notwithstanding the foregoing, Seller shall remain fully liable for the payment of any taxes assessed against the Property and attributable to any period prior to Close of Escrow, irrespective of when such taxes are billed by the relevant taxing authorities. In addition, Buyer specifically acknowledges that Seller shall be entitled to any refund of real and personal property taxes, installments of bonds and special taxes and assessments attributable to the Property and allocable to the period prior to Close of Escrow ("Refunds"). Any such Refunds shall be paid to Seller regardless of when they are received.

8. Real Estate Brokers. Each party hereby agrees to indemnify, protect and defend the other (by counsel acceptable to the party seeking indemnification) against and hold the other harmless from and against any and all damages, liabilities, loss, cost and expense, including, but not limited to, reasonable attorneys' fees and court costs, resulting from any claims for any such real estate commission, finder's fee or other real estate brokerage-type commission by any person or entity based upon such acts. The foregoing indemnities shall survive Close of Escrow or any earlier termination of this Agreement.

9. Representations, Warranties, and Covenants of Seller. Seller represents, warrants and covenants to Buyer that:

   9.1. Seller's Warranty of Authority. Seller has the full power and authority to execute and enter into this Agreement and the authority to consummate the transactions contemplated in this Agreement.

   9.2. Non-Foreign Person. Seller is not a "foreign person" within the meaning of Internal Revenue Code section 1445.

   9.3. Enforceability. This Agreement constitutes the valid and binding agreement of Seller, enforceable in accordance with its terms, subject to applicable bankruptcy, insolvency and creditors' rights laws generally.

   9.4. Due Diligence Deliverables. True, correct and complete copies of all Due Diligence Deliverables prepared by third parties will be delivered to Buyer within five (5) business days following receipt by Seller; provided, however, that Seller makes no warranty express or implied as to the correctness of the contents of such Due Diligence Deliverables. True and correct copies of all other Due Diligence Deliverables prepared by Seller will be delivered to Buyer not later than three (3) business days following the execution and delivery of this Agreement by Seller and Buyer.

   9.5. Notices. Except as disclosed to Buyer in the Due Diligence Deliverables, Seller has not received any notices from or sent any notices to any federal, state, or local governmental authority having jurisdiction over the Property or any other third party regarding, without limitation, environmental conditions, the presence or absence of hazardous materials, zoning, land use, suitability for a particular purpose, or compliance with law. To Seller's knowledge,

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

the Property is in compliance with all laws, rules and regulations, including, without limitation, any state or federal environmental laws, e.g., CERCLA, RCRA, FWPCA, TSCA, HMTA.

9.6. Leases; Agreements. Seller represents it is not a party to any lease, license or other agreement granting possessory rights with respect to the Property, and that there are no tenants on the Property. As of the Close of Escrow, Seller shall not be a party to any lease agreement, license, or other agreement granting possessory rights with respect to the Property and there shall be no tenants on the Property. To the extent Seller is a party to any lease agreement, license, or other agreement granting possessory rights with respect to the Property, Seller shall provide Buyer with Estoppel Certificates and copies of all leases, licenses or other such agreements no later than five (5) business days after the Effective Date. From and after the Effective Date, Seller shall not create any leases or other agreements affecting the Property without Buyer's prior written consent.

9.7. Contracts. Within five (5) business days after the Effective Date, Seller shall deliver to Buyer true and correct copies of any contracts and agreements affecting the Property. As of the Close of Escrow, no contracts or agreements that are binding on the owner of the Property shall remain in effect. From and after the Effective Date, Seller shall not enter into any new contracts or agreements relating to the Property without the prior written consent of Buyer, which consent shall not be unreasonably withheld or delayed and shall be deemed given if the term of such contract or agreement shall expire prior to the Close of Escrow.

9.8. Actions, Suits or Proceedings. There are no actions, suits, or proceedings, pending, or, to Seller's knowledge, threatened, before any commission, board, bureau, agency, arbitrator, court, or tribunal affecting, or that would affect, the Property or the right to occupy or utilize the Property.

9.9. No Bankruptcy Proceedings. Seller is not the subject of any bankruptcy, insolvency, or probate proceeding.

9.10. Taxes and Assessments. Seller represents it has paid all taxes, charges, and assessments (special or otherwise) billed, due and payable for all years up through and including the 2023-2024 tax year required to be paid to any taxing authority or other association, which, if unpaid, could in any way constitute a lien against the Property or any part thereof. Seller has not received any notice from any taxing authority, governmental agency or other association:
(i) asserting that Seller has failed to file or has improperly filed any tax return or report required to be filed or of any charges now owing by it which could in any way now or hereafter constitute a lien or claim against the Property or any part thereof; or (ii) regarding any pending or contemplated taxes, assessments, charges or fees which affect or will affect the Property other than customary property taxes/assessments, as reflected in the Title Report. No action or proceeding is now pending by a governmental agency or authority or other association for the assessment or collection of any such taxes, charges or assessments against Seller.

10. Representations and Warranties of Buyer. Buyer hereby represents to Seller that at the date of execution hereof and at and as of Close of Escrow, Buyer is a municipal corporation and has the legal capacity to understand and execute this Agreement and all related documents.

11. Survival. All of the representations and warranties of Buyer and Seller made in conjunction with

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

and pursuant to this Agreement shall survive Close of Escrow, but only for a period of ninety (90) calendar days. No claim shall be allowed on any such representation or warranty unless notice of the claim and a detailed statement of the basis for the claim is delivered by the claimant to the other party within such period.

12. Conditions of Closing.

12.1. Buyer's Conditions. Buyer's obligations to purchase the Property on Close of Escrow are expressly conditioned upon each of the following:

12.1.1. Title Insurance. Seller shall be prepared to convey to Buyer good and marketable title to the Real Property subject only to the Permitted Exceptions, and the Escrow Holder shall be irrevocably committed to issuing the Title Policy.

12.1.2. Buyer's Inspection. There shall have been no material adverse change in the condition of the Property between the end of the Review Period and the Close of Escrow.

12.1.3. Closing Warranties. The representations and warranties of Seller contained in this Agreement being true, correct and complete on and as of Close of Escrow as if the same were made on such date.

12.1.4. Delivery Into Escrow. Seller having delivered to Escrow all items required by this Agreement and having complied with all other covenants and conditions of this Agreement to be performed or complied with by Seller.

12.2. Seller's Conditions. Seller's obligation to sell the Property on Close of Escrow is expressly conditioned upon each of the following:

12.2.1. Closing Warranties. The representations and warranties of Buyer contained in this Agreement being true, correct and complete on and as of Close of Escrow as if the same were made on such date.

12.2.2. Delivery Into Escrow. Buyer having delivered to Escrow all items required by this Agreement, including without limitation the Purchase Price, and having complied with all other covenants and conditions of this Agreement to be performed or complied with by Buyer.

13. Failure of Conditions. If any of the conditions specified in this Agreement fail to occur prior to Close of Escrow, the party benefited by such condition shall have the power, exercisable by giving written notice to the Escrow Holder and to the other party, either to waive the condition or to cancel the Escrow and terminate this Agreement. In the event this Agreement is terminated due to the failure of a condition specified herein, the Deposit shall be disbursed in accordance with Section 2.1.

14. Indemnification.

14.1. Seller's Indemnification. From and after Close of Escrow, Seller shall indemnify, defend, protect, and hold harmless Buyer, Buyer's past, present, and future parents, subsidiaries, and affiliates, and their respective directors, officers, shareholders, partners,

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

members, managers, trustees, employees, agents, attorneys, representatives, affiliates, predecessors in interest, successors and assigns (collectively, the "Buyer Indemnified Parties"), from and against any and all claims, demands, liabilities, costs, expenses, damages and losses, cause or causes of action and suit or suits of any nature whatsoever (including reasonable attorneys' fees, expert fees, and costs) arising from any misrepresentation or breach of warranty or covenant by Seller in this Agreement, or for any activity or event involving Seller's activities on the Property occurring prior to Close of Escrow. This indemnity does not apply, however, to any item, matter, occurrence or condition which was disclosed in writing to or known to Buyer (including its agents, consultants and representatives) or any other of the Buyer Indemnified Parties with authorization to act on behalf of Buyer prior to the expiration of the Review Period.

14.2. Buyer's Indemnification. From and after Close of Escrow, Buyer shall indemnify, defend, protect and hold harmless Seller, Seller's past, present and future parents, subsidiaries and affiliates, and their respective directors, officers, shareholders, partners, members, managers, trustees, employees, agents, attorneys, representatives, affiliates, predecessors in interest, successors and assigns (collectively, the "Seller Indemnified Parties"), from and against any and all claims, demands, liabilities, costs, expenses, damages and losses, cause or causes of action and suit or suits of any nature whatsoever (including reasonable attorneys' fees and costs) ("Losses") arising out of Buyer's ownership and/or operation of the Property following Close of Escrow, or from any misrepresentation or breach of warranty or covenant by Buyer in this Agreement; provided, however, Buyer shall not indemnify any of the Seller Indemnified Parties for any Losses resulting from: (i) any of the Seller Indemnified Parties' negligence, negligence per se, or intentional misconduct; or (ii) any Environmental Clean Up Claims.

15. Notices. All notices and demands of any kind that either party may be required or desire to serve upon the other party shall be in writing and shall be served upon such other party by personal service (including overnight delivery by a recognized carrier such as UPS or FedEx), by facsimile transmission followed by mail delivery of the original of such notice, or by mailing a copy thereof, certified or registered mail, postage prepaid, addressed as follows:

If to Buyer: City of Livermore
1052 S. Livermore Ave.
Livermore, CA 94550 Attn:
Stephen Riley (Acting)
Planning Manager Telephone:
(925) 960-4461
Facsimile: (925) 960-4149

If to Seller: Hartford Hills Estates, Ltd.
Attn:Richard H. Kulka
2821 Darnby Drive
Oakland, CA 94611

Service by mail shall be deemed complete on the date of actual delivery as shown on the addressee's return receipt. Service by facsimile transmission shall be deemed served upon receipt of the facsimile transmission by the addressee, provided it is received prior to 5:00 PM local time by the recipient on a

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

business day (and if not so received by such time, then it shall be deemed given on the next business day) and the sender receives written confirmation of transmission; provided that the sender shall also send the original by mail delivery or overnight courier. The addresses to which notices and demands shall be delivered or sent may be changed from time to time by notice to the other party.

16. Binding Effect. This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective heirs, successors and permitted assigns.

17. Time is of the Essence. Time is of the essence in this Agreement.

18. Severability. If any term, provision, covenant or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the remainder of the provisions hereof shall remain in full force and effect. However, unless such stricken term, provision, covenant or condition goes to the essence of the consideration bargained for by a party, the remaining terms, provisions, covenants and conditions of this Agreement shall continue in full force and effect, and to the extent required, shall be modified to preserve their validity.

19. Entire Agreement. This Agreement constitutes the sole and only agreement between Buyer and Seller concerning the Property and their rights and duties in connection with the Property. Any prior or other agreements or representations between Buyer and Seller regarding such matters shall be null and void, unless otherwise expressly set forth in this Agreement.

20. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of California. Any suit brought here on shall be brought in the state or federal courts sitting in Alameda County, California, the parties hereby waiving any claim or defense that such forum is not convenient or proper.

21. Counterparts. This Agreement may be executed and delivered (including by facsimile transmission) in counterparts and all counterparts so executed shall constitute one agreement binding on all parties hereto. It shall not be necessary for each party to execute the same counterpart hereof.

22. Assignment. Seller may assign this Agreement and all rights and obligations hereunder without Buyer's consent to any parent, subsidiary or affiliate of Seller. Buyer shall have no right to assign its rights under this Agreement to any other person or entity.

23. Attorneys' Fees. If any action is filed by any of the parties hereto to enforce and/or interpret the terms of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees and costs from the non-prevailing party.

24. BUYER'S REMEDIES. **IF THE SALE OF THE PROPERTY IS NOT CONSUMMATED BECAUSE OF A DEFAULT UNDER THIS AGREEMENT ON THE PART OF SELLER (INCLUDING SELLER'S BREACH OF ANY REPRESENTATION OR WARRANTY SET FORTH IN SECTION 9 OF THIS AGREEMENT OR SELLER'S FAILURE TO DELIVER ANY OF THE DOCUMENTS DESCRIBED IN SECTIONS 3, 9, & 12 OF THIS AGREEMENT OR DUE TO THE FAILURE OF A CONDITION FOR BUYER'S BENEFIT SET FORTH IN SECTIONS 9, OR 12, AND BUYER IS READY, WILLING AND ABLE TO CLOSE, BUYER, AS ITS SOLE AND EXCLUSIVE REMEDY, MAY EITHER (A)**

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

TERMINATE THIS AGREEMENT IN ITS ENTIRETY BY DELIVERY OF NOTICE OF TERMINATION TO SELLER, WHEREUPON THE DEPOSIT SHALL BE IMMEDIATELY RETURNED TO BUYER, OR (B) CONTINUE THIS AGREEMENT PENDING BUYER'S ACTION FOR SPECIFIC PERFORMANCE HEREUNDER PROVIDED APPROPRIATE PROCEEDINGS ARE PROMPTLY COMMENCED BY BUYER (BUT IN ANY EVENT WITHIN (30) BUSINESS DAYS AFTER DISCOVERY OF SUCH DEFAULT) AND PROSECUTED WITH DILIGENCE AND CONTINUITY WHEREUPON SELLER SHALL PAY TO BUYER ALL REASONABLE FEES, COSTS AND EXPENSES INCURRED BY BUYER IN CONNECTION WITH BUYER'S ACTION FOR SPECIFIC PERFORMANCE IF SUCCESSFUL AND ANY OTHER AMOUNTS WHICH MAY BE PAYABLE PURSUANT TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, BUYER HEREBY WAIVES ANY AND ALL REMEDIES FOR SELLER'S FAILURE IN PERFORMANCE, INCLUDING, WITHOUT LIMITATION, ANY RIGHT TO OBTAIN DAMAGES FROM SELLER, INCLUDING, WITHOUT LIMITATION, CONSEQUENTIAL, SPECIAL, PUNITIVE OR EXEMPLARY DAMAGES, AND BUYER ACKNOWLEDGES THAT SELLER SHALL IN NO EVENT BE LIABLE THEREFOR.

Seller's Initials DS RHK Buyer's Initials _____

25. Condemnation. If prior to Close of Escrow any Non-Material Part (as defined below) of the Real Property is taken by eminent domain or a notice or threat of any eminent domain proceedings with respect to any Non-Material Part of the Real Property is received by the Seller, this Agreement shall remain in force, and Buyer shall be entitled to all awards or damages by reason of any exercise of the power of eminent domain or condemnation with respect to or for the taking of the Real Property or any part thereof. If, prior to Close of Escrow, all or any part of the Real Property, other than a Non-Material Part, is taken by eminent domain or a notice or threat of any eminent domain proceedings with respect to the Real Property or any part thereof, then Seller shall within five (5) business days thereafter give notice thereof to Buyer and Buyer shall have the option to (i) complete the purchase hereunder, or (ii) terminate this Agreement, in which event the Deposit shall be immediately refunded to Buyer, and thereafter neither party shall have any further liability hereunder. Buyer shall deliver written notice of its election to the Seller within fifteen (15) business days after the date upon which the Buyer receives written notice from Seller of such eminent domain proceedings or notice or threat thereof. If notice of condemnation is received by Buyer and Buyer fails to deliver said written notice of its election within said time period, such failure shall constitute a waiver by Buyer of its right to terminate this Agreement. If this Agreement is not so terminated, any negotiation for, or agreement to, and all contests of any offers and awards relating to eminent domain proceedings shall be conducted with the joint approval and consent of the Seller and the Buyer, and Buyer shall be entitled to all awards or damages by reason of any exercise of the power of eminent domain or condemnation with respect to or for the taking of the Real Property or any part thereof. For purposes hereof a taking of a Non-Material Part of the Real Property shall be deemed to have occurred if it results in a taking of less than ten percent (10%) of the gross acreage of the Real Property.

DocuSign Envelope ID: 3B8478E7-7174-4D45-8DE7-C53869ECBF54

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date and year first above written.

Ind. 1

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING FUNDS FROM THE DOUGHERTY VALLEY SETTLEMENT AGREEMENT (FUND 925) FOR THE AMOUNT OF $980,000 TO ACQUIRE THE HARTFORD HILLS PROPERTY (82 ACRES – APNS 902-9-3-1, 902-9-3-2)

As part of the Dougherty Valley Settlement Agreement, a fund was established to settle Water Litigation. The fund was created to support habitat preservation. The Agreement contains the following clause in section 6(d)(i) for the expenditure of funds from the settlement:

> "City staff will meet and confer with [Citizens for Balanced Growth] prior to formulating its recommendations for acquisitions."

City of Livermore ("City") staff has made numerous attempts to meet-and-confer with Citizens for Balanced Growth concerning the recommendations being prepared by City staff to the City Council regarding the expenditure of settlement funds for acquisition of the Properties by the City of Livermore for conservation and preservation purposes. Those requests were made in December 2023 and January, February, and March 2024, but Citizens for Balanced Growth has not met with City staff. A final request was made to meet-and-confer with City staff by April 24, 2024. Citizens for Balanced Growth did not meet with City staff. At the July 8, 2024, City Council meeting, CBG was given an additional week to meet-and-confer with staff by July 12, 2024. CBG has declined to meet with staff within this deadline. Based on the response from CBG and consistent with the Agreement, staff may conclude that Citizens for Balanced Growth does not support the expenditure of Dougherty Valley settlement funds for the acquisition of the Hartford Hills Property.

In July and November of 2023, the City Council authorized City staff to enter negotiations with the property owner to acquire in fee title for the Hartford Hills Property for open space and conservation purposes. The property owner representatives and the City have negotiated terms for the acquisition of the property. The City Council is responsible for appropriating funds from the Dougherty Valley Settlement Agreement (Fund 925).

The funding authorization is not a project under the California Environmental Quality Act (CEQA) and CEQA Guidelines section 15378, because an approval of the expenditure of funds would not approve a physical development project, would not physically change the environment, and would help preserve natural habitat. Therefore, no environmental review is required.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore, hereby:

1. Authorizes the allocation of $980,000 from the Dougherty Valley Settlement Agreement (Fund 925) for the acquisition of the Hartford Hills Property (82 acres - APNs: 902-9-3-1 and 902-9-3-2).

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 5.23**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Resolution authorizing an agreement with Attitude Aviation Inc. for the use of airport property for equipment, materials, and vehicle storage, for a term up to five years and a Base Rental Rate of $21,582 per year.

RECOMMENDED ACTION

Staff recommends the City Council adopt a resolution authorizing the City Manager to sign an agreement with Attitude Aviation Inc. for the use of airport property for equipment, materials, and vehicle storage, for a term up to five years and a Base Rental Rate of $21,582 per year.

SUMMARY

Attitude Aviation has requested the City enter into a License Agreement for the use of airport property on a month-to-month basis for the storage of construction equipment, materials, and associated vehicles.

Staff recommends the City Council adopt a Resolution approving a License Agreement with Attitude Aviation Inc, d.b.a Gradetech, Inc (Attitude Aviation) for the use of airport property for equipment, materials, and vehicle storage authorizing the City Manager to sign.

DISCUSSION

Attitude Aviation is a fixed base operator on the airport who also does business as Gradetech Inc, a general construction company. Attitude Aviation has requested the use of airport property under a License Agreement for the purpose of storing construction equipment, materials, and associated vehicles. The use of the property is non- aeronautical in an aeronautical zoned area; however, the Federal Aviation Administration (FAA) allows this type of use provided the property is leased at fair market value and is month-to-month. This License Agreement is month-to-month and assessed at fair market value based on other like uses at the Airport per FAA regulation.

As a part of this agreement, Attitude Aviation will be making improvements to the fence and gated areas.

Staff recommends the City Council adopt a resolution approving a License Agreement with Attitude

Aviation Inc, d.b.a Gradetech, Inc (Attitude Aviation) for the use of airport property for equipment, materials, and vehicle storage authorizing the City Manager to sign.

FISCAL IMPACTS

After the initial term of the agreement in exchange for onsite improvements, the City will realize an increase in Airport revenue by $21,582 per year.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION AUTHORIZING EXECUTION OF A LICENSE AGREEMENT WITH ATTITUDE AVIATION, INC. FOR THE USE OF PROPERTY AT THE LIVERMORE MUNICIPAL AIRPORT FOR A TERM UP TO FIVE YEARS AND A BASE RENTAL RATE OF $21,582 PER YEAR

The City of Livermore wishes to enter into a license agreement for the use of airport property known and referred to as "the Boneyard" to store construction equipment, materials, and vehicles at the Livermore Municipal Airport with Attitude Aviation, Inc./Grade Tech, Inc.

The license agreement is a month-to-month agreement, can be terminated in thirty (30) days, and is set at fair market value per Federal Aviation Administration (FAA) requirements under FAA Grant Assurance obligations of which the City of Livermore is encumbered by.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore that it hereby:

1. Approves the License Agreement for the use of a portion of property at the Livermore Municipal Airport known as the "Boneyard" for the purposes of storing construction equipment, materials, and vehicles with Attitude Aviation, Inc., dba Gradetech, Inc.

2. Authorizes the City Manager to execute the License Agreement, attached hereto as Exhibit A, on behalf of the City of Livermore.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

EXHIBIT A

LICENSE AGREEMENT
with
Attitude Aviation, Inc

THIS REVOCABLE LICENSE AGREEMENT, effective this _____ day of_____, 2024 is entered into by and between the City of Livermore, a municipal corporation ("City") and Attitude Aviation, Inc., a California corporation ("Licensee").

RECITALS

A. The City is the owner of property located on West Jack London Blvd identified as being a portion of Parcel B of Parcel Map 3750 recorded February 10, 1982, in book 131 of maps pages 86 & 87 under Record Series 82-020636, APN 904-0012-001-00, as further depicted in Exhibit A ("Property")

B. Licensee desires to store paving and grading equipment in addition to construction materials on the Property described above. Licensee acknowledges the described parcel above is identified for aeronautical use and proposed use will be for non-aeronautical purposes. This agreement is made on a month-to-month basis, not to exceed a period of five years. Further, this agreement is for the licensing of a portion of the area referred to as the "Bone Yard" ("License Area") as depicted in Exhibit A.

C. Licensee acknowledges that it represents both Attitude Aviation Inc and Gradetech, Inc both California Corporations and that principally the area qualified under this agreement will be solely utilized by Gradetech, Inc and its employees and that insurance coverages as required under this agreement will cover the operations of Gradetech, Inc.

AGREEMENT

NOW THEREFORE, in consideration of the mutual promises contained herein, the parties agree that the aforementioned recitals are true and correct and incorporated herein, and further agree as follows:

1) Description of Licensed Premises

The City agrees to make available to Licensee the License Area as indicated on the attached Exhibit B, located on West Jack London Blvd with the Property in Livermore, California ("Premises"), approximately 51,386 square feet used for vehicle and construction equipment parking and storage, including materials storage limited to general construction materials as noted in Section 2. Additionally, the licensee agrees to erect additional fencing and gate as outlined in Exhibit F, the License Agreement Fencing Plan.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

2) Use of the Licensed Premises

The Licensee agrees to use the Premises for the purpose of storing vehicle paving and grading equipment necessary for, and in support of Licensee's business operations. Additionally, the Licensee may use the premises for storage of construction materials limited to sand, gravel, base materials, wood, or any other construction material provided materials do not contain oils, adhesives, solvents, paint, or any other material deemed as hazardous that have the potential ability to leech into the soil or in amounts which can reasonably block access and or use to any portion of the site. The Airport, City, or their designated representative may cause, direct, or notify any materials on and or in the soil within the premises they deem as hazardous or in violation of a licensed use at their discretion to be removed and at the sole cost of the Licensee. Directives or notifications to remove materials by the Airport, City, or their designated representative shall be completed within 48 hours of notification by mail or email. If, after this period, materials have not been removed, the Licensee will incur fees in the amount of $250.00 per day in liquidated damages until the removal of said materials is completed. The Airport, at its discretion, may cause to have the materials removed by a third party, the cost of which will be fully borne by the licensee in addition to the daily liquidated damages until the materials are removed. Failure to comply with any such directive will result in a default of this lease as noted in Section 12. Licensee shall not use Premises for storage of personal vehicles. Licensee shall construct and maintain, fencing and a gate to the licensed Premise as shown in Exhibit B. Access to the site will solely be from Jack London Blvd, as shown on Exhibit A Licensee will immediately notify and obtain the written consent of City for any proposed changes to the scope of use of the Premises.

a. Licensee shall comply with all federal, state and local laws, requirements and policies now or hereafter in effect relating to hazardous materials and environmental conditions concerning the use of the property including, but not limited to, soil and groundwater conditions and shall not contaminate the Airport or the subsurface with any hazardous material.
b. Licensee shall prevent petroleum products and other deleterious waste from entering into the sewage and storm water drainage system serving the Airport. Licensee agrees to comply with the requirements of the National Pollutant Discharge Elimination System (NPDES) of the Federal Clean Water Control Act regarding permits for stormwater discharges. Licensee is responsible for ensuring full compliance with the California and federal stormwater laws and regulations.
c. Upon vacating the premises at the end of this agreement, or any extensions thereof, the Licensee is required to return the site to its original condition including, but not limited to cleanup or removal of any hazardous material or site improvements, both above and below ground. Acceptance of the premises back will be based on City inspections and concurrence.
d. City retains the right to inspect, at its sole discretion, the site to ensure all requirements for storing any hazardous materials, storm water requirements, and potential points of contaminants or hazardous conditions are being maintained to the city's satisfaction. Any and all determinations made by the

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

City as a result of these inspections will be required by the Licensee to remediate at the City's discretion and the Licensees cost.

3) Effective Date of License Agreement, Rental Amount, and Term

This License Agreement shall begin on the effective date written above or on the date of the last signature of this agreement, whichever is sooner. Licensee expressly waives all interest in and any claim for relocation assistance when and if City requires the Premises.

The premises, as depicted in Exhibits A and B, shall have a base rental consideration as follows:

Base Rental Rate: $21,582.00 per year ($0.42/sqft/year)

The licensee may offset rent in the first eighteen months of this agreement, and no subsequent months, an amount equal to the installation cost of fencing and gates divided equally over the initial eighteen month period. The costs must be part of an official quote or estimate provided by a contractor currently licensed in the State of California and listed in the Department of Industrial Relations database, with appropriate insurance requirements as stipulated by the City prior to erection of the fence; and,

In no event will the offset result in payment back to the Licensee from the airport should the cost outlined in the quote or estimate be greater than what is owed in rental consideration during the first eighteen months of this agreement. Additionally, any offset amount greater than the initial base rent in the first eighteen months of this agreement will not result in a credit towards subsequent months as an offset.

On July 1st, following the initial twelve months of the license agreement, and every July 1st thereafter, the rental rates will be subject to an annual adjustment based on the San Francisco Bay Area Consumer Price Index, February to February of the current year. Licensee shall be responsible for and pay the costs of all direct and incidental costs associated with the use of the space.

The term of this agreement is on a month-to-month basis.

Because rent is being offset in exchange for installation of fencing and gating for the subject property, the fencing/gating, as installed, will become the property of the airport in full following the initial eighteen months of this agreement. Any attempt to remove fencing from the outset, or at any time throughout the life of this agreement, is strictly prohibited without prior permission of the airport manager.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

4) Notices

Communication and details concerning this Agreement shall be directed to the following Agreement representatives:

City: Airport Manager
City of Livermore
1052 S. Livermore Avenue
Livermore, CA 94550

Licensee: Mr. Sam Rivinius, President
Attitude Aviation, Inc.
299 West Jack London Blvd.
Livermore, CA 94551

Mr. Sam Rivinius, President
Gradetech, Inc
299 W. Jack London Blvd.
Livermore, CA 94551

5) Insurance Requirements for Licensees

For the duration of this License, Licensee shall procure and maintain, at its own cost, insurance in the amounts and under the terms set forth in the attached Exhibit C against claims for injuries to persons or damages to property which may arise from or in connection with the Premises, any improvements and/or the use of the Premises by the Licensee, its agents, representatives, or employees. Gradetech will maintain and provide evidence of auto liability and workers compensation insurance, while Attitude Aviation will provide general liability insurance. Licensee agrees to comply with any changes in the amounts and terms of such insurance as may be required from time to time by the City's Risk Manager, upon reasonable written notice.

6) Indemnity

Licensee agrees to and shall defend, indemnify, protect and hold **City**, its elected officials, officers, directors, employees, agents, and designated volunteers harmless from and against any and all loss, damage, injury, accident, casualty, liability, claim, cost or expense (including, but not limited to, reasonable attorneys' fees) of any kind or character to any person or property arising from or related to any act or omission of Licensee, its employees, agents or contractors, the Licensee's use of the Premises, the Licensee's installation and maintenance of improvements on the Premises, or as a result of this License. City shall not be responsible for any loss or theft of any property on the Premises. To the greatest extent permitted by law, Licensee waives all claims or demands against City for any loss, damage or injury to Licensee or Licensee's property in connection with this License or the operation or use of the Licensee's property by Licensee or its agents, servants, contractors or employees and agrees to so indemnify and hold City harmless.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

7) Maintenance Responsibility and Modification of Premises

Licensee agrees that any special power or other equipment hookups are subject to City approval prior to installation. Specialized cleaning or disposal needs based upon the Licensee's use of the space shall be paid by the Licensee. Licensee shall maintain the Premises in a safe and clean manner for the duration of the License. The Licensee expressly waives the right to make repairs at the expense of the City.

Maintenance and repair of the site is the sole responsibility of the Licensee and the site is accepted by the licensee in as-is condition.

Additionally, the Licensee shall be responsible for any and all repairs or maintenance to the licensed and any adjacent premises, facility, or infrastructure caused by negligent, careless, or willful acts of the Licensee, its employees, equipment, or visitors.

The premises may be modified by the licensee provided any such modifications are requested by the licensee of the City in writing. Any and all documentation or permitting required to accommodate modifications are at the sole determination of the City, shall be provided to the City, and deemed satisfactory by the City in writing or issuance of any permit and attached to this agreement prior to any modification(s) taking place. Modifications to the premises may or may not require amendment to this agreement. Any determination of an amendment under this section shall be at the sole discretion of the City.

8) Terms Binding on Successors

All the terms, covenants, and conditions of this License shall inure to the benefits of and be binding upon successors and assigns of the parties hereto. The Licensee shall not assign, sublease, or transfer any of the rights, licenses, and privileges herein contained in this License without the written consent of the City.

9) Grant Agreement Covenants and Federal Provisions

Licensee, its heirs, personal representatives, successors-in-interest, and assigns, as a part of the consideration hereof, shall operate under the following conditions:

a. This license shall be subordinate and subject to the Grant Lease, dated June 14, 1965, and the Amendment thereto, dated July 26, 1965, by and between the United States of America, Federal Aviation Administration, and City, and subsequent grants and leases.

b. Licensee acknowledges that the City is subject to Federal Grant Agreement obligations as a condition precedent to both the granting of funds for improvement of the Livermore Municipal Airport and ensuring compliance with FAA rules, regulations and procedures; and accordingly agrees to, and agrees to be bound by, the Airport Sponsor Assurances provided by the Federal Aviation Administration. Licensee shall

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

comply with the most recent Airport Sponsor Assurances attached as Exhibit D to this License and which may be amended from time to time and incorporated by reference. To the extent any provision of this Agreement conflicts with any requirement of the Airport Sponsor Assurances, the Airport Sponsor Assurances shall control.

In the event a conflict between this section 9(b) and any other within this agreement arises, those sections will be considered invalid and no longer in force or effect. In the event the invalidation of any section also substantially invalidates this agreement (at the interpretation of the City, which may be validated by the FAA upon request), the agreement must be amended to cure the conflict. If the licensee cannot come to agreement with any such amendment, the agreement in its entirety will be terminated with the licensed premises immediately being surrendered back to the City and all mitigations required upon vacation of the premises will take effect to the satisfaction of the City.

c. Licensee shall comply with all required Federal Contract Provisions attached hereto as Exhibit E.

Licensee's non-compliance with any provisions under this section shall constitute a material breach and subject to points (1) and (2) below. Additionally, in the event of a breach of any of the nondiscrimination covenants, (49 CFR Part 21) the City or the United States shall have the right to:

(1) terminate this License; or

(2) seek judicial enforcement of said covenants.

11) Right to Amend due to FAA.

In the event that the Federal Aviation Administration ("FAA") or City finds that any provision of this License violates the Airport Sponsor Assurances, which would require modifications or changes in this License as a condition precedent to the granting of funds for the improvement of the Airport or lands and improvements, or any component related to Airport compliance with federal rules, regulations, or assurances, Licensee agrees to consent to such amendments, modifications, revisions, supplements, or deletions of any of the terms, conditions or requirements of this License as may be required to obtain such funds or ensure compliance.

12) Termination

A. *Termination at Will*: This License may be terminated by either party, for any reason, with one (1) month written notice.

B. *Termination for Cause*: The City may immediately terminate this License for cause by providing written notice to Licensee following:
   i. City's discovery that the Premises is being used in violation of Section 2, above; or,
   ii. City's discovery of any condition on the Premises which endangers the public's health, safety and welfare; and

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

iii. Licensee's fails to cure, remedy, or otherwise correct the condition within 48 hours' notice of default by City.

13) Right and Remedies

The City shall have all rights and remedies available under California law including, but not limited to, actions for damages and specific performance, for any breach of Licensee's obligations hereunder.

14) Lien Free Condition

Licensee shall not cause or permit any liens to be placed against the Premises or against Licensor's other property as a result of Licensee's exercise of rights under this License Agreement. In the event of the filing of any such liens, Licensee shall promptly cause such liens to be removed.

15) Alteration in Writing

This License Agreement supersedes any and all prior understandings and agreements, whether written or oral, between the parties with respect to the subject matter of this License. No alteration or variation of this License Agreement shall be valid unless made in writing and signed by both City and Licensee.

16) Entire Agreement

This License Agreement, including any attachments hereto, constitutes the entire agreement of the parties relating to the subject matter of this License Agreement and correctly sets forth the rights, duties and obligations of each party to the other.

17) Attachments and Exhibits

All attachments/exhibits referred to in and attached to this License Agreement are incorporated by reference as though set forth in full.

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Licensee/Lessee shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $1,000,000 per occurrence/**$2,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $1,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Licensee/Lessee is a sole proprietor, then Licensee/Lessee must sign "Contractor Release of Liability."
4. Property Insurance:
   Total value of all tenant improvements, betterments, and contents. The City of Livermore shall be named as loss payee as its interest may appear. The insurer shall waive all rights against City.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Licensee/Lessee;

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

or automobiles owned, leased, hired or borrowed by the Licensee/Lessee. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or designated volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Licensee's/Lessee's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or designated volunteers.
4. The Licensee's/Lessee's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Licensee/Lessee shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before License/Lease commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

FAA Airports

EXHIBIT - D

ASSURANCES

AIRPORT SPONSORS

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.
2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.
3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this Grant Agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.**

   The terms, conditions and assurances of this Grant Agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.**

   The preceding paragraph (1) also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.**

   Unless otherwise specified in this Grant Agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 23, 25, 30, 32, 33, 34, and 37 in Section C apply to planning projects. The terms, conditions, and

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

assurances of this Grant Agreement shall remain in full force and effect during the life of the project; there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport.

C. Sponsor Certification.

The sponsor hereby assures and certifies, with respect to this grant that:

1. General Federal Requirements

It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance, and use of Federal funds for this Grant including but not limited to the following:

FEDERAL LEGISLATION

a. 49 U.S.C. subtitle VII, as amended.
b. Davis-Bacon Act, as amended — 40 U.S.C. §§ 3141-3144, 3146, and 3147, et seq.[1]
c. Federal Fair Labor Standards Act – 29 U.S.C. § 201, et seq.
d. Hatch Act – 5 U.S.C. § 1501, et seq.[2]
e. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 U.S.C. § 4601, et seq.[1, 2]
f. National Historic Preservation Act of 1966 – Section 106 – 54 U.S.C. § 306108.[1]
g. Archeological and Historic Preservation Act of 1974 – 54 U.S.C. § 312501, et seq.[1]
h. Native Americans Grave Repatriation Act – 25 U.S.C. § 3001, et seq.
i. Clean Air Act, P.L. 90-148, as amended – 42 U.S.C. § 7401, et seq.
j. Coastal Zone Management Act, P.L. 92-583, as amended – 16 U.S.C. § 1451, et seq.
k. Flood Disaster Protection Act of 1973 – Section 102(a) - 42 U.S.C. § 4012a.[1]
l. 49 U.S.C. § 303, (formerly known as Section 4(f)).
m. Rehabilitation Act of 1973 – 29 U.S.C. § 794.
n. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin).
o. Americans with Disabilities Act of 1990, as amended, (42 U.S.C. § 12101 et seq.) (prohibits discrimination on the basis of disability).
p. Age Discrimination Act of 1975 – 42 U.S.C. § 6101, et seq.
q. American Indian Religious Freedom Act, P.L. 95-341, as amended.
r. Architectural Barriers Act of 1968, as amended – 42 U.S.C. § 4151, et seq.[1]
s. Powerplant and Industrial Fuel Use Act of 1978 – Section 403 – 42 U.S.C. § 8373.[1]
t. Contract Work Hours and Safety Standards Act – 40 U.S.C. § 3701, et seq.[1]
u. Copeland Anti-kickback Act – 18 U.S.C. § 874.[1]

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

v. National Environmental Policy Act of 1969 – 42 U.S.C. § 4321, et seq.[1]

w. Wild and Scenic Rivers Act, P.L. 90-542, as amended – 16 U.S.C. § 1271, et seq.

x. Single Audit Act of 1984 – 31 U.S.C. § 7501, et seq.[2]

y. Drug-Free Workplace Act of 1988 – 41 U.S.C. §§ 8101 through 8105.

z. The Federal Funding Accountability and Transparency Act of 2006, as amended (P.L. 109-282, as amended by section 6202 of P.L. 110-252).

aa. Civil Rights Restoration Act of 1987, P.L. 100-259.

bb. Build America, Buy America Act, P.L. 117-58, Title IX.

EXECUTIVE ORDERS

a. Executive Order 11246 – Equal Employment Opportunity[1]

b. Executive Order 11990 – Protection of Wetlands

c. Executive Order 11998 – Flood Plain Management

d. Executive Order 12372 – Intergovernmental Review of Federal Programs

e. Executive Order 12699 – Seismic Safety of Federal and Federally Assisted New Building Construction[1]

f. Executive Order 12898 – Environmental Justice

g. Executive Order 13166 – Improving Access to Services for Persons with Limited English Proficiency

h. Executive Order 13985 – Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government

i. Executive Order 13988 – Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation

j. Executive Order 14005 – Ensuring the Future is Made in all of America by All of America's Workers

k. Executive Order 14008 – Tackling the Climate Crisis at Home and Abroad

FEDERAL REGULATIONS

a. 2 CFR Part 180 – OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement).

b. 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. [4, 5]

c. 2 CFR Part 1200 – Nonprocurement Suspension and Debarment.

d. 14 CFR Part 13 – Investigative and Enforcement Procedures.

e. 14 CFR Part 16 – Rules of Practice for Federally-Assisted Airport Enforcement Proceedings.

f. 14 CFR Part 150 – Airport Noise Compatibility Planning.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

g. 28 CFR Part 35 – Nondiscrimination on the Basis of Disability in State and Local Government Services.

h. 28 CFR § 50.3 – U.S. Department of Justice Guidelines for the Enforcement of Title VI of the Civil Rights Act of 1964.

i. 29 CFR Part 1 – Procedures for Predetermination of Wage Rates.[1]

j. 29 CFR Part 3 – Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States.[1]

k. 29 CFR Part 5 – Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction (Also Labor Standards Provisions Applicable to Nonconstruction Contracts Subject to the Contract Work Hours and Safety Standards Act).[1]

l. 41 CFR Part 60 – Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor (Federal and Federally-assisted contracting requirements).[1]

m. 49 CFR Part 20 – New Restrictions on Lobbying.

n. 49 CFR Part 21 – Nondiscrimination in Federally-Assisted Programs of the Department of Transportation - Effectuation of Title VI of the Civil Rights Act of 1964.

o. 49 CFR Part 23 – Participation by Disadvantage Business Enterprise in Airport Concessions.

p. 49 CFR Part 24 – Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally-Assisted Programs.[1, 2]

q. 49 CFR Part 26 – Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs.

r. 49 CFR Part 27 – Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance.[1]

s. 49 CFR Part 28 – Enforcement of Nondiscrimination on the Basis of Handicap in Programs or Activities Conducted by the Department of Transportation.

t. 49 CFR Part 30 – Denial of Public Works Contracts to Suppliers of Goods and Services of Countries That Deny Procurement Market Access to U.S. Contractors.

u. 49 CFR Part 32 – Governmentwide Requirements for Drug-Free Workplace (Financial Assistance).

v. 49 CFR Part 37 – Transportation Services for Individuals with Disabilities (ADA).

w. 49 CFR Part 38 – Americans with Disabilities Act (ADA) Accessibility Specifications for Transportation Vehicles.

x. 49 CFR Part 41 – Seismic Safety.

FOOTNOTES TO ASSURANCE (C)(1)

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 2 CFR Part 200 contains requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation shall

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

apply where applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

[4] Cost principles established in 2 CFR part 200 subpart E must be used as guidelines for determining the eligibility of specific types of expenses.

[5] Audit requirements established in 2 CFR part 200 subpart F are the guidelines for audits.

SPECIFIC ASSURANCES

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this Grant Agreement.

2. Responsibility and Authority of the Sponsor.

a. Public Agency Sponsor:

It has legal authority to apply for this Grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

b. Private Sponsor:

It has legal authority to apply for this Grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this Grant Agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. Sponsor Fund Availability.

It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this Grant Agreement which it will own or control.

4. Good Title.

a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. Preserving Rights and Powers.

a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this Grant Agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. Subject to the FAA Act of 2018, Public Law 115-254, Section 163, it will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this Grant Agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this Grant Agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this Grant Agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to ensure that the airport will be operated and maintained in accordance with Title 49, United States Code, the regulations and the terms, conditions and assurances in this Grant Agreement and shall ensure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. Consistency with Local Plans.

The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

7. Consideration of Local Interest.

It has given fair consideration to the interest of communities in or near where the project may be located.

8. Consultation with Users.

In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. Public Hearings.

In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. Metropolitan Planning Organization.

In projects involving the location of an airport, an airport runway, or a major runway extension at a medium or large hub airport, the sponsor has made available to and has provided upon request to the metropolitan planning organization in the area in which the airport is located, if any, a copy of the proposed amendment to the airport layout plan to depict the project and a copy of any airport master plan in which the project is described or depicted.

11. Pavement Preventive Maintenance-Management.

With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. Terminal Development Prerequisites.

For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of submittal of the project grant application, all the safety equipment required for certification of such airport under 49 U.S.C. § 44706, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. Accounting System, Audit, and Record Keeping Requirements.

a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this Grant, the total cost of the project in connection with which this Grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this Grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this Grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. Minimum Wage Rates.

It shall include, in all contracts in excess of $2,000 for work on any projects funded under this Grant Agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor under 40 U.S.C. §§ 3141-3144, 3146, and 3147, Public Building, Property, and Works), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. Veteran's Preference.

It shall include in all contracts for work on any project funded under this Grant Agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in 49 U.S.C. § 47112. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. Conformity to Plans and Specifications.

It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this Grant Agreement, and, upon approval of the Secretary, shall be incorporated into this Grant Agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this Grant Agreement.

17. Construction Inspection and Approval.

It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

18. Planning Projects.

In carrying out planning projects:

a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.

b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.

c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.

d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.

e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.

f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.

g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.

h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. Operation and Maintenance.

a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state, and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for:

   1. Operating the airport's aeronautical facilities whenever required;

   2. Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and

   3. Promptly notifying pilots of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. Hazard Removal and Mitigation.

It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. Compatible Land Use.

It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. Economic Nondiscrimination.

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to:

   1. Furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and

   2. Charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non-tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

classifications such as tenants or non-tenants and signatory carriers and non-signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance, repair, and fueling) that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. Exclusive Rights.

It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public. For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. Fee and Rental Structure.

It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

which a Grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. Airport Revenues.

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

   1. If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

   2. If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor’s acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

   3. Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at 49 U.S.C. § 47102), if the FAA determines the airport sponsor meets the requirements set forth in Section 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of 49 U.S.C. § 47107.

26. Reports and Inspections.

It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of this Grant Agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:

   1. all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and

   2. all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. Use by Government Aircraft.

It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that:

a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. Land for Federal Facilities.

It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

29. Airport Layout Plan.

a. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, it will keep up to date at all times an airport layout plan of the airport showing:

1. boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto;
2. the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities;
3. the location of all existing and proposed non-aviation areas and of all existing improvements thereon; and
4. all proposed and existing access points used to taxi aircraft across the airport's property boundary.

Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, if a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary:

1. eliminate such adverse effect in a manner approved by the Secretary; or
2. bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights.

It will promptly take any measures necessary to ensure that no person in the United States shall, on the grounds of race, color, and national origin (including limited English proficiency) in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4); creed and sex (including sexual orientation and gender identity) per 49 U.S.C. § 47123 and related requirements; age per the Age Discrimination Act of 1975 and related requirements; or disability per the Americans with Disabilities Act of 1990 and related requirements, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program and activity conducted with, or benefiting from, funds received from this Grant.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

a. Using the definitions of activity, facility, and program as found and defined in 49 CFR §§ 21.23(b) and 21.23(e), the sponsor will facilitate all programs, operate all facilities, or conduct all programs in compliance with all non-discrimination requirements imposed by or pursuant to these assurances.

b. Applicability

   1. Programs and Activities. If the sponsor has received a grant (or other federal assistance) for any of the sponsor's program or activities, these requirements extend to all of the sponsor's programs and activities.

   2. Facilities. Where it receives a grant or other federal financial assistance to construct, expand, renovate, remodel, alter, or acquire a facility, or part of a facility, the assurance extends to the entire facility and facilities operated in connection therewith.

   3. Real Property. Where the sponsor receives a grant or other Federal financial assistance in the form of, or for the acquisition of real property or an interest in real property, the assurance will extend to rights to space on, over, or under such property.

c. Duration.

   The sponsor agrees that it is obligated to this assurance for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the assurance obligates the sponsor, or any transferee for the longer of the following periods:

   1. So long as the airport is used as an airport, or for another purpose involving the provision of similar services or benefits; or

   2. So long as the sponsor retains ownership or possession of the property.

d. Required Solicitation Language. It will include the following notification in all solicitations for bids, Requests For Proposals for work, or material under this Grant Agreement and in all proposals for agreements, including airport concessions, regardless of funding source:

   "The (**[Selection Criteria: Sponsor Name]**), in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders or offerors that it will affirmatively ensure that for any contract entered into pursuant to this advertisement, [select businesses, or disadvantaged business enterprises or airport concession disadvantaged business enterprises] will be afforded full and fair opportunity to submit bids in response to this invitation and no businesses will be discriminated against on the grounds of race, color, national origin (including limited English proficiency), creed, sex (including sexual orientation and gender identity), age, or disability in consideration for an award."

e. Required Contract Provisions.

   1. It will insert the non-discrimination contract clauses requiring compliance with the acts and regulations relative to non-discrimination in Federally-assisted programs of the Department of Transportation (DOT), and incorporating the acts and regulations into the contracts by reference in every contract or agreement subject to the non-discrimination in Federally-assisted programs of the DOT acts and regulations.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

2. It will include a list of the pertinent non-discrimination authorities in every contract that is subject to the non-discrimination acts and regulations.
3. It will insert non-discrimination contract clauses as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a sponsor.
4. It will insert non-discrimination contract clauses prohibiting discrimination on the basis of race, color, national origin (including limited English proficiency), creed, sex (including sexual orientation and gender identity), age, or disability as a covenant running with the land, in any future deeds, leases, license, permits, or similar instruments entered into by the sponsor with other parties:
    a. For the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
    b. For the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.

f. It will provide for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the acts, the regulations, and this assurance.

g. It agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the acts, the regulations, and this assurance.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order:
    1. Reinvestment in an approved noise compatibility project;
    2. Reinvestment in an approved project that is eligible for grant funding under 49 U.S.C. § 47117(e);
    3. Reinvestment in an approved airport development project that is eligible for grant funding under 49 U.S.C. §§ 47114, 47115, or 47117;
    4. Transfer to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport; or
    5. Payment to the Secretary for deposit in the Airport and Airway Trust Fund.

    If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order:

   1. Reinvestment in an approved noise compatibility project;
   2. Reinvestment in an approved project that is eligible for grant funding under 49 U.S.C. § 47117(e);
   3. Reinvestment in an approved airport development project that is eligible for grant funding under 49 U.S.C. §§ 47114, 47115, or 47117;
   4. Transfer to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport; or
   5. Payment to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a), (b), or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. Engineering and Design Services.

If any phase of such project has received Federal funds under Chapter 471 subchapter 1 of Title 49 U.S.C., it will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services in the same manner as a contract for architectural and engineering services is negotiated under Chapter 11 of Title 40 U S.C., or an equivalent qualifications-based requirement prescribed for or by the sponsor of the airport.

33. Foreign Market Restrictions.

It will not allow funds provided under this Grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. Policies, Standards, and Specifications.

It will carry out any project funded under an Airport Improvement Program Grant in accordance with policies, standards, and specifications approved by the Secretary including, but not limited to, current FAA Advisory Circulars (https://www.faa.gov/airports/aip/media/aip-pfc-checklist.pdf) for AIP projects as of [Selection Criteria: Project Application Date].

35. Relocation and Real Property Acquisition.

a. It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B.

b. It will provide a relocation assistance program offering the services described in Subpart C of 49 CFR Part 24 and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24.

c. It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. Access By Intercity Buses.

The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. Disadvantaged Business Enterprises.

The sponsor shall not discriminate on the basis of race, color, national origin, or sex, in the award and performance of any DOT-assisted contract covered by 49 CFR Part 26, or in the award and performance of any concession activity contract covered by 49 CFR Part 23. In addition, the sponsor shall not discriminate on the basis of race, color, national origin or sex in the administration of its Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs or the requirements of 49 CFR Parts 23 and 26. The sponsor shall take all necessary and reasonable steps under 49 CFR Parts 23 and 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, and/or concession contracts. The sponsor's DBE and ACDBE programs, as required by 49 CFR Parts 26 and 23, and as approved by DOT, are incorporated by reference in this agreement. Implementation of these programs is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the sponsor of its failure to carry out its approved program, the Department may impose sanctions as provided for under Parts 26 and 23 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. § 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. §§ 3801-3809, 3812).

38. Hangar Construction.

If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

39. Competitive Access.

a. If the airport owner or operator of a medium or large hub airport (as defined in 49 U.S.C. § 47102) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that:

   1. Describes the requests;
   2. Provides an explanation as to why the requests could not be accommodated; and
   3. Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

EXHIBIT E

REQUIRED FEDERAL PROVISIONS

A. Compliance with Nondiscrimination Provisions. During the performance of this Agreement, LICENSEE, for itself, its assignees, and successors in interest (hereinafter collectively referred to as "LICENSEE") agrees as follows:

1. **Compliance with Regulations:** LICENSEE will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this Agreement.

2. **Non-discrimination:** LICENSEE, with regard to the work performed by it during the term of this Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of contractors, including procurements of materials and leases of equipment. LICENSEE will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

3. **Solicitations for Agreements, Including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding, or negotiation made by LICENSEE for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential contractor or supplier will be notified by LICENSEE of LICENSEE's obligations under this Agreement and the Nondiscrimination Acts And Authorities on the grounds of race, color, or national origin.

4. **Information and Reports:** LICENSEE will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of LICENSEE is in the exclusive possession of another who fails or refuses to furnish the information, LICENSEE will so certify to LESSOR or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. **Sanctions for Noncompliance:** In the event of LICENSEE's noncompliance with the Non-discrimination provisions of this contract, LESSOR will impose such sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to cancelling, terminating, or suspending the Agreement, in whole or in part.

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

6. **Incorporation of Provisions:** LICENSEE will include the provisions of paragraphs one through six of this Exhibit B, Section (A) in every contract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. LICENSEE will take action with respect to any contract or procurement as LESSOR or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if LICENSEE becomes involved in, or is threatened with litigation by a contractor, or supplier because of such direction, LICENSEE may request LESSOR to enter into any litigation to protect the interests of LESSOR. In addition, LICENSEE may request the United States to enter into the litigation to protect the interests of the United States.

B. Real Property Acquired or Improved Under the Airport Improvement Program. LICENSEE for itself, its heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land that in the event facilities are constructed, maintained, or otherwise operated on the property described in this Agreement for a purpose for which a Federal Aviation Administration activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, LICENSEE will maintain and operate such facilities and services in compliance with all requirements imposed by the Nondiscrimination Acts and Regulations listed in the Pertinent List of Nondiscrimination Authorities (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.

C. Construction/Use/Access to Real Property Acquired Under the Activity, Facility or Program. LICENSEE for itself, its heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, and (3) that LICENSEE will furnish its services in compliance with all other requirements imposed by or pursuant to the List of Nondiscrimination Acts And Authorities.

D. Title VI List of Pertinent Nondiscrimination Acts and Authorities. During the performance of this Agreement, LICENSEE, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

i. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

ii. 49 CFR Part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);

iii. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

iv. Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;

v. The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);

vi. Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);

vii. The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

viii. Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR Parts 37 and 38;

ix. The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

x. Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;

xi. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); and

DocuSign Envelope ID: 1CF63831-F5E3-47E6-A13D-206394BA3DD9

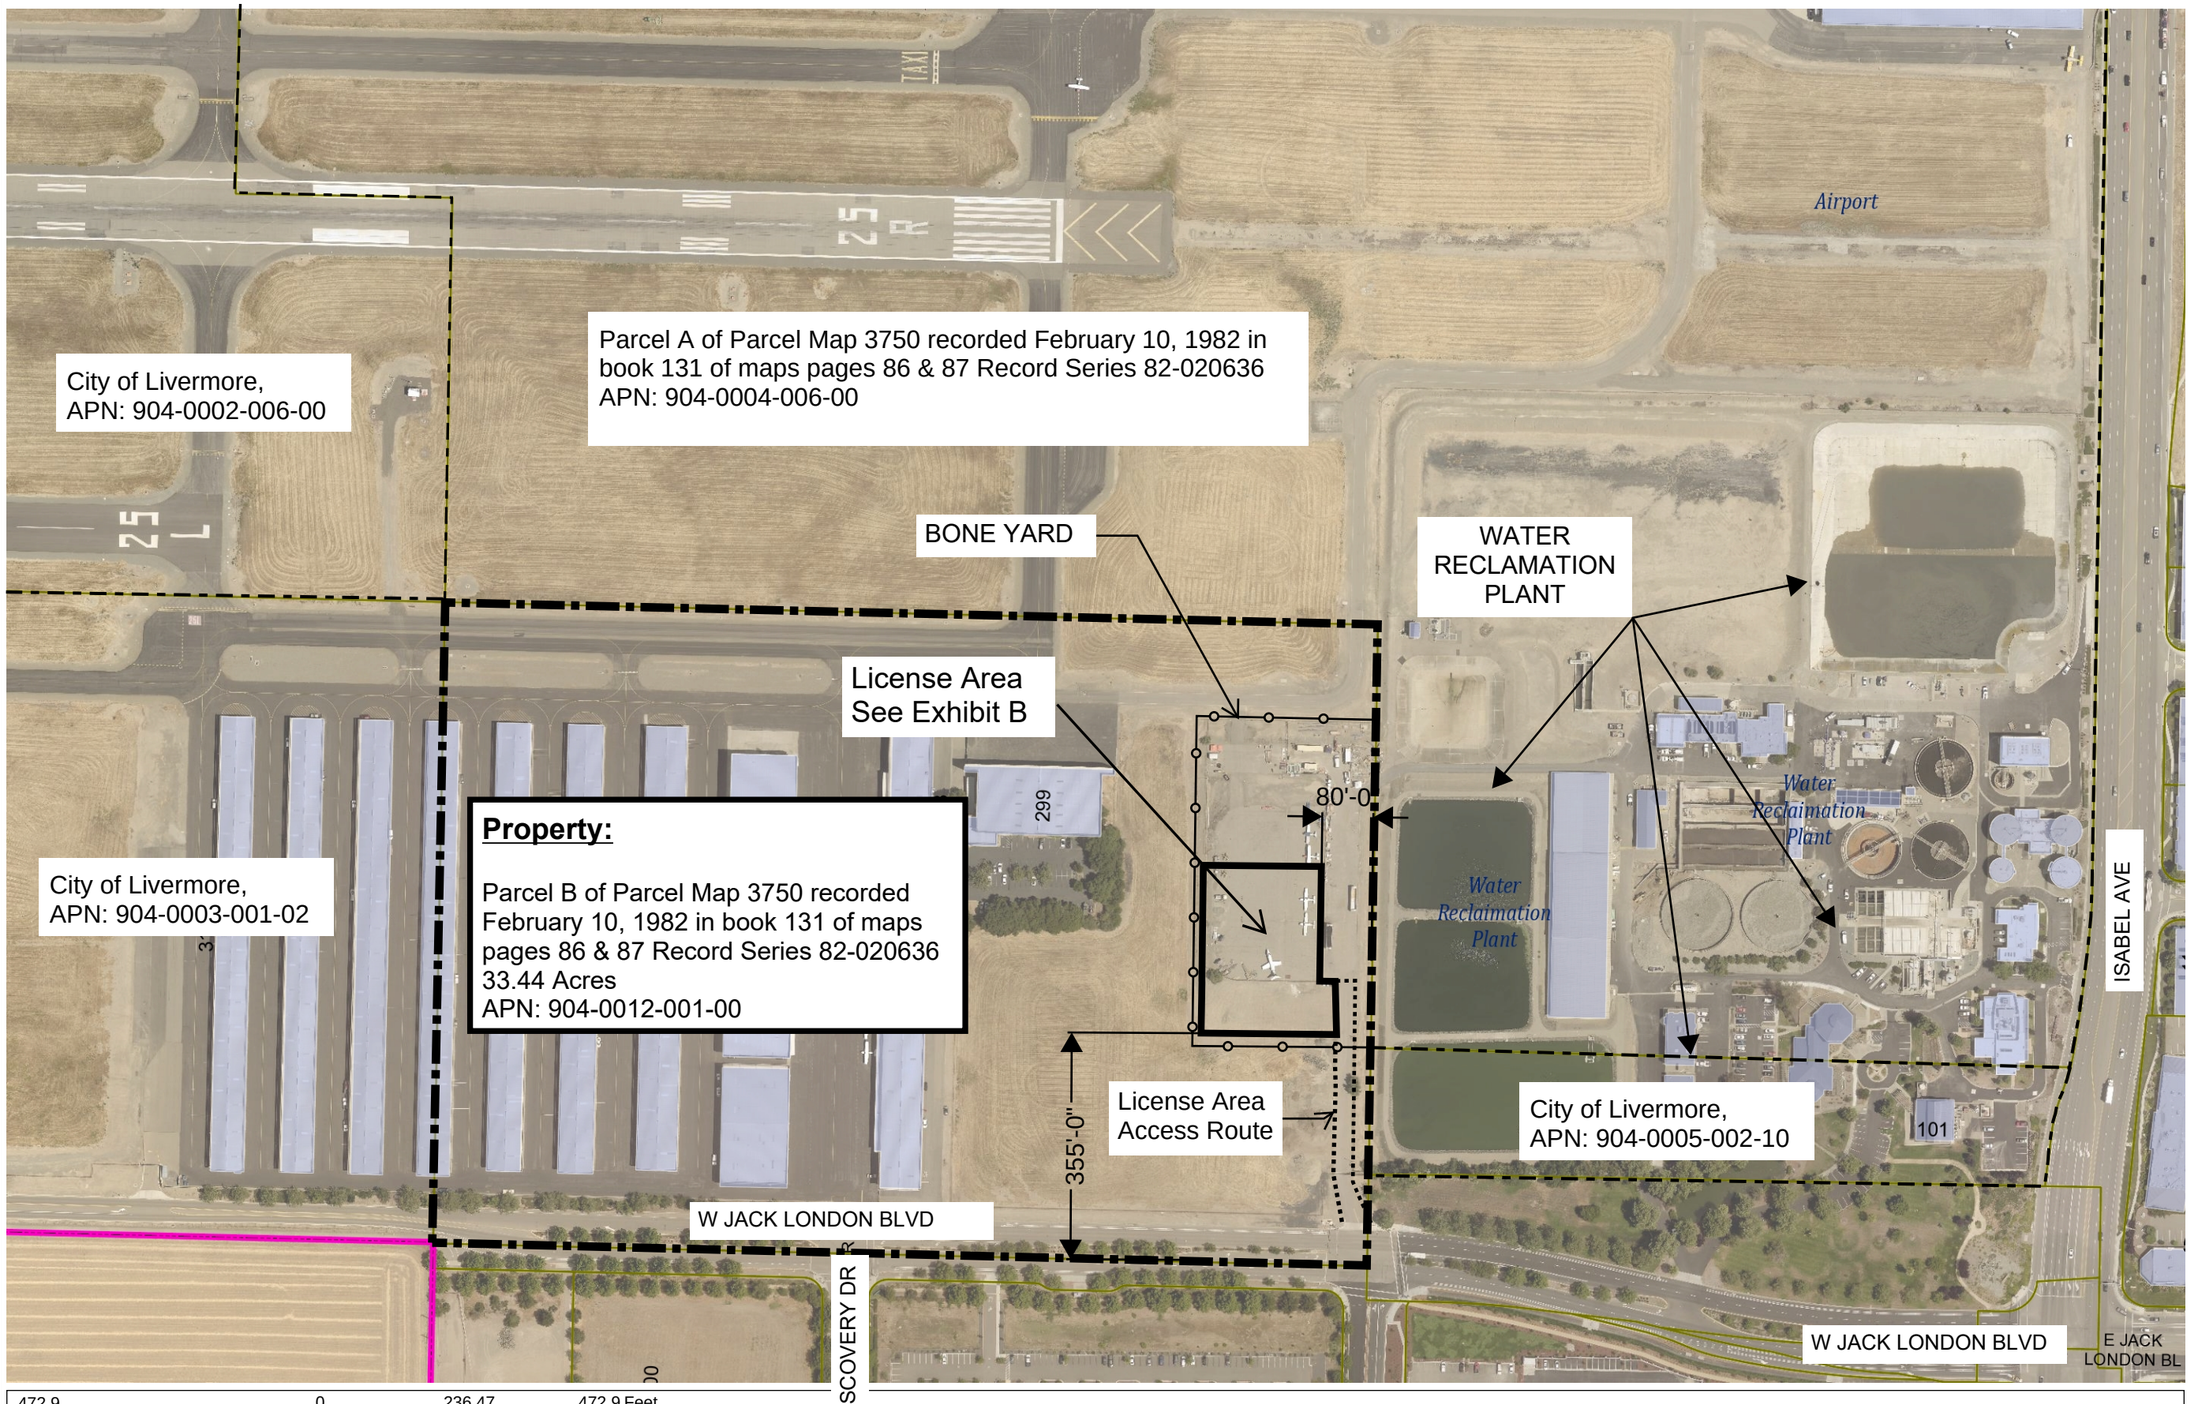
xii. Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

E. General Civil Rights Provision. LICENSEE agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance. If LICENSEE transfers its obligation to another, the transferee is obligated in the same manner as LICENSEE. This provision obligates LICENSEE for the period during which the property is owned, used or possessed by LICENSEE and the airport remains obligated to the Federal Aviation Administration. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

F. Right of Re-entry. In the event of breach of any of the above Nondiscrimination covenants, LESSOR will have the right to terminate the Agreement and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the Agreement had never been made or issued.



G. Subcontracts. LICENSEE agrees that it shall insert the above six provisions (Section (A) through Section (F)) in any agreement by which LICENSEE grants a right or privilege to any person, firm, or corporation to render accommodations and/or services to the public under this Agreement.

EXHIBIT C

INSURANCE REQUIREMENTS

Minimum Scope and Limits of Insurance

Licensee/Lessee shall maintain limits no less than:

1. Commercial General Liability, including operations, products, and completed operations, as applicable:
   $1,000,000 per occurrence/**$2,000,000** aggregate for bodily injury, personal injury, and property damage. If Commercial General Liability or other form of insurance with a general aggregate limit is used, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit.
2. Automobile Liability:
   $1,000,000 per accident for bodily injury and property damage.
3. Workers' Compensation and Employer's Liability:
   Statutory limits as required by the State of California including **$1,000,000** Employers' Liability per accident, per employee for bodily injury or disease. A waiver of subrogation is required for Workers' Compensation insurance. If Licensee/Lessee is a sole proprietor, then Licensee/Lessee must sign "Contractor Release of Liability."
4. Property Insurance:
   Total value of all tenant improvements, betterments, and contents. The City of Livermore shall be named as loss payee as its interest may appear. The insurer shall waive all rights against City.

Deductibles and Self-Insured Retention

All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide, or be endorsed to provide, that the SIR may be satisfied by either the named insured or the City of Livermore. The City of Livermore reserves the right to obtain a full certified copy of any insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of no less than A: VII and accepted to do business in the State of California, unless otherwise acceptable to the City of Livermore.

Other Insurance Provisions

The general liability and automobile liability policies are to contain, or be endorsed to contain, the following provisions:

1. The City of Livermore, its officers, officials, employees, and designated volunteers are to be covered as additional insureds as respects: liability arising out of activities performed by or on behalf of the Licensee/Lessee;

or automobiles owned, leased, hired or borrowed by the Licensee/Lessee. The coverage shall contain no special limitations on the scope of protection afforded to the City of Livermore, its officers, officials, employees, or designated volunteers.

2. The limits of insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess insurance. The additional insured coverage under the Licensee's/Lessee's policy shall be primary and non-contributory and will not seek contribution from the City's insurance or self-insurance and shall be at least as broad as ISO Form CG 20 10 04 13. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the City of Livermore before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.
3. Any failure to comply with reporting or other provisions of the policy, including breaches of warranties, shall not affect coverage provided to the City of Livermore, its officers, officials, employees, or designated volunteers.
4. The Licensee's/Lessee's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. Each insurance policy required by this clause shall be endorsed to state that coverage shall not be canceled by either party before expiration of the policy unless notice is delivered in accordance with policy provisions.
6. It shall be a requirement under this agreement that any available insurance proceeds broader than, or in excess of, the specified minimum insurance coverage requirements and/or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured; whichever is greater.
7. Certificate Holder section of the insurance certificate should read: City of Livermore, 1052 S. Livermore Avenue, Livermore, CA 94550

Verification of Coverage

Licensee/Lessee shall furnish certificates of insurance and endorsement(s) effecting coverage to the City of Livermore for approval. The endorsements shall be on forms acceptable to the City of Livermore. All certificates and endorsements are to be received and approved by the City of Livermore before License/Lease commences. The City of Livermore reserves the right to require complete and certified copies of all insurance policies required by this Agreement.

FAA Airports

EXHIBIT - D

ASSURANCES

AIRPORT SPONSORS

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.
2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.
3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this Grant Agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.**

   The terms, conditions and assurances of this Grant Agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.

2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.**

   The preceding paragraph (1) also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.**

   Unless otherwise specified in this Grant Agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 23, 25, 30, 32, 33, 34, and 37 in Section C apply to planning projects. The terms, conditions, and

assurances of this Grant Agreement shall remain in full force and effect during the life of the project; there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport.

C. Sponsor Certification.

The sponsor hereby assures and certifies, with respect to this grant that:

1. General Federal Requirements

It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance, and use of Federal funds for this Grant including but not limited to the following:

FEDERAL LEGISLATION

a. 49 U.S.C. subtitle VII, as amended.
b. Davis-Bacon Act, as amended — 40 U.S.C. §§ 3141-3144, 3146, and 3147, et seq.[1]
c. Federal Fair Labor Standards Act – 29 U.S.C. § 201, et seq.
d. Hatch Act – 5 U.S.C. § 1501, et seq.[2]
e. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, 42 U.S.C. § 4601, et seq.[1, 2]
f. National Historic Preservation Act of 1966 – Section 106 – 54 U.S.C. § 306108.[1]
g. Archeological and Historic Preservation Act of 1974 – 54 U.S.C. § 312501, et seq.[1]
h. Native Americans Grave Repatriation Act – 25 U.S.C. § 3001, et seq.
i. Clean Air Act, P.L. 90-148, as amended – 42 U.S.C. § 7401, et seq.
j. Coastal Zone Management Act, P.L. 92-583, as amended – 16 U.S.C. § 1451, et seq.
k. Flood Disaster Protection Act of 1973 – Section 102(a) - 42 U.S.C. § 4012a.[1]
l. 49 U.S.C. § 303, (formerly known as Section 4(f)).
m. Rehabilitation Act of 1973 – 29 U.S.C. § 794.
n. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin).
o. Americans with Disabilities Act of 1990, as amended, (42 U.S.C. § 12101 et seq.) (prohibits discrimination on the basis of disability).
p. Age Discrimination Act of 1975 – 42 U.S.C. § 6101, et seq.
q. American Indian Religious Freedom Act, P.L. 95-341, as amended.
r. Architectural Barriers Act of 1968, as amended – 42 U.S.C. § 4151, et seq.[1]
s. Powerplant and Industrial Fuel Use Act of 1978 – Section 403 – 42 U.S.C. § 8373.[1]
t. Contract Work Hours and Safety Standards Act – 40 U.S.C. § 3701, et seq.[1]
u. Copeland Anti-kickback Act – 18 U.S.C. § 874.[1]

v. National Environmental Policy Act of 1969 – 42 U.S.C. § 4321, et seq.[1]

w. Wild and Scenic Rivers Act, P.L. 90-542, as amended – 16 U.S.C. § 1271, et seq.

x. Single Audit Act of 1984 – 31 U.S.C. § 7501, et seq.[2]

y. Drug-Free Workplace Act of 1988 – 41 U.S.C. §§ 8101 through 8105.

z. The Federal Funding Accountability and Transparency Act of 2006, as amended (P.L. 109-282, as amended by section 6202 of P.L. 110-252).

aa. Civil Rights Restoration Act of 1987, P.L. 100-259.

bb. Build America, Buy America Act, P.L. 117-58, Title IX.

EXECUTIVE ORDERS

a. Executive Order 11246 – Equal Employment Opportunity[1]

b. Executive Order 11990 – Protection of Wetlands

c. Executive Order 11998 – Flood Plain Management

d. Executive Order 12372 – Intergovernmental Review of Federal Programs

e. Executive Order 12699 – Seismic Safety of Federal and Federally Assisted New Building Construction[1]

f. Executive Order 12898 – Environmental Justice

g. Executive Order 13166 – Improving Access to Services for Persons with Limited English Proficiency

h. Executive Order 13985 – Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government

i. Executive Order 13988 – Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation

j. Executive Order 14005 – Ensuring the Future is Made in all of America by All of America's Workers

k. Executive Order 14008 – Tackling the Climate Crisis at Home and Abroad

FEDERAL REGULATIONS

a. 2 CFR Part 180 – OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement).

b. 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. [4, 5]

c. 2 CFR Part 1200 – Nonprocurement Suspension and Debarment.

d. 14 CFR Part 13 – Investigative and Enforcement Procedures.

e. 14 CFR Part 16 – Rules of Practice for Federally-Assisted Airport Enforcement Proceedings.

f. 14 CFR Part 150 – Airport Noise Compatibility Planning.

g. 28 CFR Part 35 – Nondiscrimination on the Basis of Disability in State and Local Government Services.

h. 28 CFR § 50.3 – U.S. Department of Justice Guidelines for the Enforcement of Title VI of the Civil Rights Act of 1964.

i. 29 CFR Part 1 – Procedures for Predetermination of Wage Rates.[1]

j. 29 CFR Part 3 – Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States.[1]

k. 29 CFR Part 5 – Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction (Also Labor Standards Provisions Applicable to Nonconstruction Contracts Subject to the Contract Work Hours and Safety Standards Act).[1]

l. 41 CFR Part 60 – Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor (Federal and Federally-assisted contracting requirements).[1]

m. 49 CFR Part 20 – New Restrictions on Lobbying.

n. 49 CFR Part 21 – Nondiscrimination in Federally-Assisted Programs of the Department of Transportation - Effectuation of Title VI of the Civil Rights Act of 1964.

o. 49 CFR Part 23 – Participation by Disadvantage Business Enterprise in Airport Concessions.

p. 49 CFR Part 24 – Uniform Relocation Assistance and Real Property Acquisition for Federal and Federally-Assisted Programs.[1, 2]

q. 49 CFR Part 26 – Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs.

r. 49 CFR Part 27 – Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance.[1]

s. 49 CFR Part 28 – Enforcement of Nondiscrimination on the Basis of Handicap in Programs or Activities Conducted by the Department of Transportation.

t. 49 CFR Part 30 – Denial of Public Works Contracts to Suppliers of Goods and Services of Countries That Deny Procurement Market Access to U.S. Contractors.

u. 49 CFR Part 32 – Governmentwide Requirements for Drug-Free Workplace (Financial Assistance).

v. 49 CFR Part 37 – Transportation Services for Individuals with Disabilities (ADA).

w. 49 CFR Part 38 – Americans with Disabilities Act (ADA) Accessibility Specifications for Transportation Vehicles.

x. 49 CFR Part 41 – Seismic Safety.

FOOTNOTES TO ASSURANCE (C)(1)

[1] These laws do not apply to airport planning sponsors.

[2] These laws do not apply to private sponsors.

[3] 2 CFR Part 200 contains requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation shall

apply where applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

[4] Cost principles established in 2 CFR part 200 subpart E must be used as guidelines for determining the eligibility of specific types of expenses.

[5] Audit requirements established in 2 CFR part 200 subpart F are the guidelines for audits.

SPECIFIC ASSURANCES

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this Grant Agreement.

2. Responsibility and Authority of the Sponsor.

a. Public Agency Sponsor:

It has legal authority to apply for this Grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.

b. Private Sponsor:

It has legal authority to apply for this Grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this Grant Agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. Sponsor Fund Availability.

It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this Grant Agreement which it will own or control.

4. Good Title.

a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. Preserving Rights and Powers.

a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this Grant Agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere

with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.

b. Subject to the FAA Act of 2018, Public Law 115-254, Section 163, it will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this Grant Agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this Grant Agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this Grant Agreement.

c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.

d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.

e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.

f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to ensure that the airport will be operated and maintained in accordance with Title 49, United States Code, the regulations and the terms, conditions and assurances in this Grant Agreement and shall ensure that such arrangement also requires compliance therewith.

g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.

6. Consistency with Local Plans.

The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.

7. Consideration of Local Interest.

It has given fair consideration to the interest of communities in or near where the project may be located.

8. Consultation with Users.

In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.

9. Public Hearings.

In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

10. Metropolitan Planning Organization.

In projects involving the location of an airport, an airport runway, or a major runway extension at a medium or large hub airport, the sponsor has made available to and has provided upon request to the metropolitan planning organization in the area in which the airport is located, if any, a copy of the proposed amendment to the airport layout plan to depict the project and a copy of any airport master plan in which the project is described or depicted.

11. Pavement Preventive Maintenance-Management.

With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport, it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. Terminal Development Prerequisites.

For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of submittal of the project grant application, all the safety equipment required for certification of such airport under 49 U.S.C. § 44706, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.

13. Accounting System, Audit, and Record Keeping Requirements.

a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this Grant, the total cost of the project in connection with which this Grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The

accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.

b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this Grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this Grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.

14. Minimum Wage Rates.

It shall include, in all contracts in excess of $2,000 for work on any projects funded under this Grant Agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor under 40 U.S.C. §§ 3141-3144, 3146, and 3147, Public Building, Property, and Works), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

15. Veteran's Preference.

It shall include in all contracts for work on any project funded under this Grant Agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in 49 U.S.C. § 47112. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. Conformity to Plans and Specifications.

It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this Grant Agreement, and, upon approval of the Secretary, shall be incorporated into this Grant Agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this Grant Agreement.

17. Construction Inspection and Approval.

It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.

18. Planning Projects.

In carrying out planning projects:

a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.

b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.

c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.

d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.

e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.

f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.

g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.

h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. Operation and Maintenance.

a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state, and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for:

   1. Operating the airport's aeronautical facilities whenever required;

   2. Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and

   3. Promptly notifying pilots of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or

facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.

b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. Hazard Removal and Mitigation.

It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. Compatible Land Use.

It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. Economic Nondiscrimination.

a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.

b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to:

   1. Furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and

   2. Charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.

d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.

e. Each air carrier using such airport (whether as a tenant, non-tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable

classifications such as tenants or non-tenants and signatory carriers and non-signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.

f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance, repair, and fueling) that it may choose to perform.

g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.

i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

23. Exclusive Rights.

It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public. For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.

24. Fee and Rental Structure.

It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for

which a Grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.

25. Airport Revenues.

a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

   1. If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.

   2. If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor’s acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.

   3. Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at 49 U.S.C. § 47102), if the FAA determines the airport sponsor meets the requirements set forth in Section 813 of Public Law 112-95.

b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.

c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of 49 U.S.C. § 47107.

26. Reports and Inspections.

It will:

a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports available to the public; make available to the

public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;

c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of this Grant Agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and

d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:

   1. all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and

   2. all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. Use by Government Aircraft.

It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that:

a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. Land for Federal Facilities.

It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. Airport Layout Plan.

a. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, it will keep up to date at all times an airport layout plan of the airport showing:

1. boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto;

2. the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities;

3. the location of all existing and proposed non-aviation areas and of all existing improvements thereon; and

4. all proposed and existing access points used to taxi aircraft across the airport's property boundary.

Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.

b. Subject to the FAA Reauthorization Act of 2018, Public Law 115-254, Section 163, if a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary:

1. eliminate such adverse effect in a manner approved by the Secretary; or

2. bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

30. Civil Rights.

It will promptly take any measures necessary to ensure that no person in the United States shall, on the grounds of race, color, and national origin (including limited English proficiency) in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4); creed and sex (including sexual orientation and gender identity) per 49 U.S.C. § 47123 and related requirements; age per the Age Discrimination Act of 1975 and related requirements; or disability per the Americans with Disabilities Act of 1990 and related requirements, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program and activity conducted with, or benefiting from, funds received from this Grant.

a. Using the definitions of activity, facility, and program as found and defined in 49 CFR §§ 21.23(b) and 21.23(e), the sponsor will facilitate all programs, operate all facilities, or conduct all programs in compliance with all non-discrimination requirements imposed by or pursuant to these assurances.

b. Applicability

   1. Programs and Activities. If the sponsor has received a grant (or other federal assistance) for any of the sponsor's program or activities, these requirements extend to all of the sponsor's programs and activities.

   2. Facilities. Where it receives a grant or other federal financial assistance to construct, expand, renovate, remodel, alter, or acquire a facility, or part of a facility, the assurance extends to the entire facility and facilities operated in connection therewith.

   3. Real Property. Where the sponsor receives a grant or other Federal financial assistance in the form of, or for the acquisition of real property or an interest in real property, the assurance will extend to rights to space on, over, or under such property.

c. Duration.

   The sponsor agrees that it is obligated to this assurance for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the assurance obligates the sponsor, or any transferee for the longer of the following periods:

   1. So long as the airport is used as an airport, or for another purpose involving the provision of similar services or benefits; or

   2. So long as the sponsor retains ownership or possession of the property.

d. Required Solicitation Language. It will include the following notification in all solicitations for bids, Requests For Proposals for work, or material under this Grant Agreement and in all proposals for agreements, including airport concessions, regardless of funding source:

   "The (**[Selection Criteria: Sponsor Name]**), in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. §§ 2000d to 2000d-4) and the Regulations, hereby notifies all bidders or offerors that it will affirmatively ensure that for any contract entered into pursuant to this advertisement, [select businesses, or disadvantaged business enterprises or airport concession disadvantaged business enterprises] will be afforded full and fair opportunity to submit bids in response to this invitation and no businesses will be discriminated against on the grounds of race, color, national origin (including limited English proficiency), creed, sex (including sexual orientation and gender identity), age, or disability in consideration for an award."

e. Required Contract Provisions.

   1. It will insert the non-discrimination contract clauses requiring compliance with the acts and regulations relative to non-discrimination in Federally-assisted programs of the Department of Transportation (DOT), and incorporating the acts and regulations into the contracts by reference in every contract or agreement subject to the non-discrimination in Federally-assisted programs of the DOT acts and regulations.

2. It will include a list of the pertinent non-discrimination authorities in every contract that is subject to the non-discrimination acts and regulations.
3. It will insert non-discrimination contract clauses as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a sponsor.
4. It will insert non-discrimination contract clauses prohibiting discrimination on the basis of race, color, national origin (including limited English proficiency), creed, sex (including sexual orientation and gender identity), age, or disability as a covenant running with the land, in any future deeds, leases, license, permits, or similar instruments entered into by the sponsor with other parties:
    a. For the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
    b. For the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.

f. It will provide for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the acts, the regulations, and this assurance.

g. It agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the acts, the regulations, and this assurance.

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order:
    1. Reinvestment in an approved noise compatibility project;
    2. Reinvestment in an approved project that is eligible for grant funding under 49 U.S.C. § 47117(e);
    3. Reinvestment in an approved airport development project that is eligible for grant funding under 49 U.S.C. §§ 47114, 47115, or 47117;
    4. Transfer to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport; or
    5. Payment to the Secretary for deposit in the Airport and Airway Trust Fund.

    If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development

project that would otherwise be eligible for grant funding or any permitted use of airport revenue.

b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order:

   1. Reinvestment in an approved noise compatibility project;
   2. Reinvestment in an approved project that is eligible for grant funding under 49 U.S.C. § 47117(e);
   3. Reinvestment in an approved airport development project that is eligible for grant funding under 49 U.S.C. §§ 47114, 47115, or 47117;
   4. Transfer to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport; or
   5. Payment to the Secretary for deposit in the Airport and Airway Trust Fund.

c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

d. Disposition of such land under (a), (b), or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

32. Engineering and Design Services.

If any phase of such project has received Federal funds under Chapter 471 subchapter 1 of Title 49 U.S.C., it will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services in the same manner as a contract for architectural and engineering services is negotiated under Chapter 11 of Title 40 U S.C., or an equivalent qualifications-based requirement prescribed for or by the sponsor of the airport.

33. Foreign Market Restrictions.

It will not allow funds provided under this Grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by

the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.

34. Policies, Standards, and Specifications.

It will carry out any project funded under an Airport Improvement Program Grant in accordance with policies, standards, and specifications approved by the Secretary including, but not limited to, current FAA Advisory Circulars (https://www.faa.gov/airports/aip/media/aip-pfc-checklist.pdf) for AIP projects as of [Selection Criteria: Project Application Date].

35. Relocation and Real Property Acquisition.

a. It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B.

b. It will provide a relocation assistance program offering the services described in Subpart C of 49 CFR Part 24 and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24.

c. It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.

36. Access By Intercity Buses.

The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. Disadvantaged Business Enterprises.

The sponsor shall not discriminate on the basis of race, color, national origin, or sex, in the award and performance of any DOT-assisted contract covered by 49 CFR Part 26, or in the award and performance of any concession activity contract covered by 49 CFR Part 23. In addition, the sponsor shall not discriminate on the basis of race, color, national origin or sex in the administration of its Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs or the requirements of 49 CFR Parts 23 and 26. The sponsor shall take all necessary and reasonable steps under 49 CFR Parts 23 and 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts, and/or concession contracts. The sponsor's DBE and ACDBE programs, as required by 49 CFR Parts 26 and 23, and as approved by DOT, are incorporated by reference in this agreement. Implementation of these programs is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the sponsor of its failure to carry out its approved program, the Department may impose sanctions as provided for under Parts 26 and 23 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. § 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. §§ 3801-3809, 3812).

38. Hangar Construction.

If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.

39. Competitive Access.

a. If the airport owner or operator of a medium or large hub airport (as defined in 49 U.S.C. § 47102) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that:

   1. Describes the requests;
   2. Provides an explanation as to why the requests could not be accommodated; and
   3. Provides a time frame within which, if any, the airport will be able to accommodate the requests.

b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

EXHIBIT E

REQUIRED FEDERAL PROVISIONS

A. Compliance with Nondiscrimination Provisions. During the performance of this Agreement, LICENSEE, for itself, its assignees, and successors in interest (hereinafter collectively referred to as "LICENSEE") agrees as follows:

1. **Compliance with Regulations:** LICENSEE will comply with the Title VI List of Pertinent Nondiscrimination Acts And Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this Agreement.

2. **Non-discrimination:** LICENSEE, with regard to the work performed by it during the term of this Agreement, will not discriminate on the grounds of race, color, or national origin in the selection and retention of contractors, including procurements of materials and leases of equipment. LICENSEE will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR Part 21.

3. **Solicitations for Agreements, Including Procurements of Materials and Equipment:** In all solicitations, either by competitive bidding, or negotiation made by LICENSEE for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential contractor or supplier will be notified by LICENSEE of LICENSEE's obligations under this Agreement and the Nondiscrimination Acts And Authorities on the grounds of race, color, or national origin.

4. **Information and Reports:** LICENSEE will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts And Authorities and instructions. Where any information required of LICENSEE is in the exclusive possession of another who fails or refuses to furnish the information, LICENSEE will so certify to LESSOR or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.

5. **Sanctions for Noncompliance:** In the event of LICENSEE's noncompliance with the Non-discrimination provisions of this contract, LESSOR will impose such sanctions as it or the Federal Aviation Administration may determine to be appropriate, including, but not limited to cancelling, terminating, or suspending the Agreement, in whole or in part.

6. **Incorporation of Provisions:** LICENSEE will include the provisions of paragraphs one through six of this Exhibit B, Section (A) in every contract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations and directives issued pursuant thereto. LICENSEE will take action with respect to any contract or procurement as LESSOR or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if LICENSEE becomes involved in, or is threatened with litigation by a contractor, or supplier because of such direction, LICENSEE may request LESSOR to enter into any litigation to protect the interests of LESSOR. In addition, LICENSEE may request the United States to enter into the litigation to protect the interests of the United States.

B. Real Property Acquired or Improved Under the Airport Improvement Program. LICENSEE for itself, its heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land that in the event facilities are constructed, maintained, or otherwise operated on the property described in this Agreement for a purpose for which a Federal Aviation Administration activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, LICENSEE will maintain and operate such facilities and services in compliance with all requirements imposed by the Nondiscrimination Acts and Regulations listed in the Pertinent List of Nondiscrimination Authorities (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities.

C. Construction/Use/Access to Real Property Acquired Under the Activity, Facility or Program. LICENSEE for itself, its heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree as a covenant running with the land that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, and (3) that LICENSEE will furnish its services in compliance with all other requirements imposed by or pursuant to the List of Nondiscrimination Acts And Authorities.

D. Title VI List of Pertinent Nondiscrimination Acts and Authorities. During the performance of this Agreement, LICENSEE, for itself, its assignees, and successors in interest (hereinafter referred to as the "contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

i. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et seq*., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);

ii. 49 CFR Part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);

iii. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);

iv. Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et seq*.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27;

v. The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et seq*.), (prohibits discrimination on the basis of age);

vi. Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);

vii. The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not);

viii. Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR Parts 37 and 38;

ix. The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);

x. Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;

xi. Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); and

xii. Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

E. General Civil Rights Provision. LICENSEE agrees to comply with pertinent statutes, Executive Orders and such rules as are promulgated to ensure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal assistance. If LICENSEE transfers its obligation to another, the transferee is obligated in the same manner as LICENSEE. This provision obligates LICENSEE for the period during which the property is owned, used or possessed by LICENSEE and the airport remains obligated to the Federal Aviation Administration. This provision is in addition to that required by Title VI of the Civil Rights Act of 1964.

F. Right of Re-entry. In the event of breach of any of the above Nondiscrimination covenants, LESSOR will have the right to terminate the Agreement and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the Agreement had never been made or issued.

G. Subcontracts. LICENSEE agrees that it shall insert the above six provisions (Section (A) through Section (F)) in any agreement by which LICENSEE grants a right or privilege to any person, firm, or corporation to render accommodations and/or services to the public under this Agreement.

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 6.1**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Judy Erlandson, Acting Public Works Director

SUBJECT: Public Hearing to consider protests related to the non-payment of solid waste, recycling, and organics handling services provided by Livermore Sanitation for collection on the County Assessor tax roll.

RECOMMENDED ACTION

Staff recommends the City Council hold a Public Hearing to:

1. Consider protests related to the non-payment of solid waste, recycling, and organics services;
2. Adopt a resolution overruling protests and confirm the 2022 and 2023 assessments if applicable; and,
3. Direct staff to forward a finalized copy of the assessment report to the County Tax Assessor.

SUMMARY

Currently, Livermore Sanitation, Inc. (LSI) has approximately 29,000 accounts. Of those, 88 are more than 12 months behind on payment. These debts are from unpaid charges from Fiscal Years 2022 and 2023 (7/2022 - 6/2024). Despite repeated notifications from LSI, and four notices from the City of Livermore, the accounts continue to be significantly overdue. As provided for in Government Code section 25831 and Livermore Municipal Code section 8.08.160, LSI may assign to the City all of LSI's rights to collect these delinquent accounts for the City to pursue collections.

DISCUSSION

Per Livermore Municipal Code 8.08.030, all properties are required to subscribe to solid waste, recycling, and organics services provided by Livermore Sanitation, Inc. (LSI). Additionally, the Municipal Code states that property owners are responsible to pay for solid waste, recycling, and organics service at rates approved by the City Council.

Due to the possibility of waste accumulation and vermin infestation, LSI is not permitted to discontinue providing service for non-payment. Continual service also helps preserve property values and quality of life by reducing illegal dumping and blighted neighborhoods.

LSI has two billing cycles; residential accounts are billed quarterly, and commercial accounts are billed monthly. According to the Third Amended and Restated Agreement between the City of Livermore and LSI for Solid Waste, Recyclable Materials, and Compostable Materials Services (Franchise Agreement), if LSI does not receive payment after 30 days from the date of the invoice, a notice is sent to the account holder. If an account lapses to 60 days past due, a second notice, if applicable, is sent to the account holder and property owner. Concurrently, residential service is reduced to one 20-gallon garbage cart with no recycling or organics service. Commercial service is reduced to one 32-gallon garbage cart with no recycling or organics service. Collection calls to the account holder are documented and invoices including the outstanding amount are continued.

In addition to LSI's collection efforts, the City of Livermore sends four notices to affected property owners advising of intent to assess their property. This year, the first notice was mailed on April 3, 2024. The second notice was mailed on June 14, 2024. The third notice was mailed on June 28, 2024. The fourth notice was mailed on July 15, 2024. All letters advised the property owner of the scheduled Public Hearing on July 22, 2024.

Upon confirmation by the City Council, City staff will send the final assessment list to a consultant to verify addresses and then send the information to be placed on the County tax roll at a cost of approximately $500. All assessments are cleared in five years, or once a property is sold by the owner or Alameda County, and past due funds are paid to LSI.

As of the writing of this report, of the approximately 29,000 LSI accounts, 88 accounts are more than 12 months past due. This accounts for 0.3% of all LSI accounts. These debts are unpaid charges from Fiscal Year 2022 and 2023. Of the 88 accounts, there are 3 commercial accounts, 1 multi-family account, and 83 residential accounts that are more than 12 months past due. Of the 88 accounts, there are 16 accounts scheduled for assessments this year that have been assessed in previous years.

The amount and number of accounts eligible for assessment may decrease after publication of this report since account holders and property owners may settle their account until 7:00 pm on the evening of the July 22, 2024 Public Hearing. This payment cutoff date is necessary in order for this assessment to be included in the 2024-2025 County Tax Assessor's billing.

If confirmed by the City Council, all outstanding debt that is more than 12 months overdue will be assigned by LSI to the City, for the City to pursue collections as provided for in Government Code section 25831 and Livermore Municipal Code section 8.08.160.

Staff recommends that the City Council consider protests, and adopt a resolution confirming the 2024 assessments, directing staff to forward a finalized copy of the assessment report to the County Tax Assessor.

FISCAL AND ADMINISTRATIVE IMPACTS

The net value of the assessments is approximately $88,591 which represents debts that are at least 12 months old. This will be the amount remitted to the City and passed through to LSI when received.

IN THE CITY COUNCIL OF THE CITY OF LIVERMORE, CALIFORNIA

A RESOLUTION CONSIDERING AND OVERRULING OBJECTIONS AND PROTESTS TO NON-PAYMENT OF SOLID WASTE, RECYCLING, AND ORGANICS HANDLING SERVICES PROVIDED BY LIVERMORE SANITATION FOR COLLECTION ON THE COUNTY ASSESSOR TAX ROLL AND CONFIRMING ASSESSMENTS

The City of Livermore ("City") initiated collection procedures for delinquent payments and penalties for waste collection services as authorized by Livermore Municipal Code section 8.08.160 and Government Code sections 38790.1 and 25831, which included causing notice of the hearing to be mailed to landowners for the properties listed in Exhibit A not less than 10 days before the public hearing to confirm the assessments.

On July 22, 2024, the City Council conducted a public hearing to hear any and all objections or protests by landowners liable to be assessed for delinquent fees, identified in the attached Exhibit A, for unpaid invoice amounts.

The City Clerk of the City of Livermore has, within the time required by law, prepared the assessment list and caused it to be posted in the same locations as the agenda for the City Council's meeting on July 22, 2024, with the time shown when said list has been submitted to the City Council for confirmation.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Livermore as follows:

1. All objections and protests, if any, have been overruled by motion of the City Council.

2. The delinquencies and penalties listed in the attached Exhibit A are hereby confirmed by the City Council as submitted.

3. The outstanding amounts of overdue solid waste accounts with Livermore Sanitation Inc. shall become an assessment on the property for the unpaid invoiced amount and placed on the County tax roll.

4. The City Manager is authorized to take whatever actions are necessary and appropriate to carry out the purpose and intent of this Resolution.

On motion of Council Member _____, seconded by Council Member _____, the foregoing resolution was passed and adopted on July 22, 2024, by the following vote:

LIVERMORE
CALIFORNIA

CITY COUNCIL STAFF REPORT **ITEM NO. 6.2**

DATE: July 22, 2024

TO: Honorable Mayor and City Council

FROM: Brent Smith, Community Development Director

SUBJECT: Hearing to consider a request for a Vesting Tentative Tract Map, Site Plan Design Review, Development Agreement, Consistency Determination, Conditional Use Permit, Master Sign Program Amendment, and Development Code amendment to develop vacant land located southwest of the Portola Avenue and Isabel Avenue intersection with for-sale residential townhome and condominium units and for-rent apartments with mixed commercial and office uses and a public park and public plazas, known as Isabel Crossing.

RECOMMENDED ACTION

The Planning Commission and staff recommend the City Council take the following actions:

1. Adopt a resolution adopting an Addendum to the Isabel Neighborhood Specific Plan Supplemental Environmental Impact Report, in accordance with the California Environmental Quality Act.
2. **Introduce an ordinance** and waive the first reading approving Development Code Amendment (DCA) 24-001;
3. Adopt a resolution approving Specific Plan Amendment (SPPA) 24-001;
4. **Introduce an ordinance** and waive the first reading approving Development Agreement (DA) 22-001;
5. Adopt a resolution approving Subdivision (SUB) 22-008, Conditional Use Permit (CUP) 24-002, Site Plan Design Review (SPDR) 24-003, Master Sign Plan Amendment (MSP) 24-001; the proposed Master Plan; the Alternative Affordable Plan; the requested Density Bonus Waivers and Incentive/Concessions; and the No Net Loss findings;
6. Direct the Planning Manager to file a Notice of Determination, in accordance with the provisions of the California Environmental Quality Act, subject to Project approval; and
7. Direct the City Clerk to record the Development Agreement, in accordance with the provisions of the California Government Code, subject to Project approval.

SUMMARY

The Isabel Neighborhood Specific Plan (Specific Plan) guides development in the northwestern part of Livermore. It seeks to create a complete neighborhood with a mix of uses that is walkable, bikeable, and served by transit. The City Council adopted the amended Specific Plan and its Supplemental Environmental Impact Report in November 2020. The proposed site and project are one of several new developments within the Specific Plan area. The project proposes 1,299 for-sale condominium units, duplexes, triplexes, townhomes, and apartments with associated open space, landscaping, parking, and public street frontage improvements. The project also includes mixed-use buildings with approximately 75,000 square feet of retail on the ground floor along Main Street and Gateway Avenue, approximately two acres of a public park and plazas, and off-site public infrastructure, including separated bike lanes and bus stop improvements.

The Project is consistent with the General Plan, Climate Action Plan, Active Transportation Plan, Specific Plan, as amended, Airport Land Use Compatibility Plan, Livermore Development Code, as amended, and the citywide Design Standards and Guidelines, with the exception of the specific standards waived by state Density Bonus Law. The Project would make progress towards meeting the City's current Regional Housing Needs Allocation (RHNA), would result in a net surplus of Lower Income RHNA units, and exceeds the affordable housing requirements, with 363 affordable units. The Project provides high-quality architectural design, in a style that reflects Livermore's heritage. The proposed landscape design includes native species, low-water-using plants, and recycled water. The proposed Development Agreement is consistent with the General Plan, secures a range of community benefits for Livermore such as extra bike lanes, financial contributions, public art, and affordable housing, and ensures the Project will be constructed as proposed and within a reasonable period of time. The proposed Specific Plan and Development Code amendments are consistent with the General Plan, would help implement the Specific Plan, and would provide the City Council with additional development flexibility given current market conditions and state housing laws. The use and density are consistent and compatible with surrounding properties and the Livermore Municipal Airport, the site is of a size and shape that can accommodate the use, and the project will be adequately served by all necessary utilities and services.

The Project conforms with the provisions of the California Housing Crisis Act and State Density Bonus Law. An EIR Addendum was prepared, consistent with the California Environmental Quality Act, that demonstrates no significant impacts beyond those previously identified in the EIR would occur. Ultimately, the Project is consistent with all state and local requirements, implements the Council's vision for a walkable and bikeable transit-oriented development, secures physical, financial, and intangible community benefit, and provides a range of broader community benefits intrinsic to the Project, creating a high-quality place to live, shop, dine, and recreate. The Location Map is shown in Attachment 3 and Development Plans are shown in Exhibits C, D, and E of the Project resolution.

DISCUSSION

BACKGROUND

In 2018 the City Council adopted the Isabel Neighborhood Specific Plan. In November of 2020, the City Council adopted the amended Isabel Neighborhood Specific Plan (Specific Plan) to acknowledge that Valley Link would have a commuter train station at Isabel and I-580 instead of BART and to implement focused land use changes. The Specific Plan covers approximately 1,138 acres in the northwest part of Livermore surrounding the Isabel Avenue/580 Interchange.

The Specific Plan establishes the land uses, allowable densities, development locations, and necessary

public improvements to create a complete neighborhood, access to open space, arroyos, and scenic views, a well-connected pedestrian and bicycle network, high quality design, community gathering spaces, and compatibility with existing uses. The Isabel Neighborhood will address citywide goals by providing increased transportation options, housing choices, and supporting economic vitality. Residents and employees will have access to regional and local transit, a variety of amenities, and basic services for meeting daily needs, such as a nearby grocery store, restaurants, and office space.

The Specific Plan would create a complete transit-oriented neighborhood that includes approximately 4,095 new attached single-family and multi-family housing units, approximately 1,000 of which will be affordable units. In addition, the Specific Plan includes new commercial and office space, three new neighborhood parks, pedestrian and bicycle facilities, and infrastructure improvements. Digital copies of the Specific Plan and Environmental Impact Report are provided on the City's website.

The Specific Plan streamlines environmental and design review in the Isabel Neighborhood. However, development projects within the Plan are required to undergo the City's typical entitlement process, which requires Planning Commission and City Council approval of larger residential subdivisions and mixed-use projects. To date, the City Council has approved approximately 750 residential units in the Specific Plan, across four separate Development projects. Apart from the Isabel Crossing project, approximately 285 additional residential units are currently in the development pipeline to be considered by the City Council in the near future.

DESCRIPTION, CONTEXT, AND ANALYSIS

The complete project description, site context, and analysis of consistency with all applicable State and local standards is provided in the attached Staff Analysis memo, that was reviewed by the Planning Commission (Attachment 1).

PLANNING COMMISSION AND PUBLIC COMMENT

On July 2, 2024, the Planning Commission considered the Project. Primary topics of discussion included active transportation, affordable housing, No Net Loss, and the proposed Specific Plan/ Development Code amendments. Prior to the meeting, the Project received 10 letters of support, including from Las Positas College, the Chamber of Commerce, and Interfaith Housing (Attachment 12). Several speakers commented during the public hearing, all in support of the Project. One speaker was concerned with the concentration of affordable housing units, while three others advocated for local trades and unionized labor. Ultimately, the Planning Commission unanimously approved the Project with the following recommendations, which have been incorporated into the Project Conditions of Approval:

1. To the extent practicable, the pedestrian trail located on the east side of Planning Area S1 should be designed to accommodate bicyclists, and should connect directly to Isabel Avenue.
2. In all locations where feasible, pedestrian curb ramps shall be directional.
3. To the extent practicable, the pedestrian bulbouts along Isabel Avenue shall be extended to shorten crossing distance.
4. Project bike racks shall be evenly distributed across the site and shall be located within 50 feet of commercial entries.
5. Community Development Department staff shall coordinate with Livermore Amador Valley Transit Authority staff to explore bus stops within the Project site, where feasible.
6. To the extent practicable, A Street and Gateway Avenue should be modified to ensure dedicated

bicycle lanes are located along the curb face, and separated from the travel lane with automobile parking.

The Staff Analysis reviewed by Planning Commission describes how the proposed Isabel Neighborhood Specific Plan Master Planning Policy amendment would only apply to the Specific Plan core area (Subareas 3a, 3b, and 3c). However, the proposed Specific Plan text amendment erroneously omitted this requirement. Subsequent to the Planning Commission meeting, staff corrected the error, and presents the revised text amendment to the City Council for consideration in Exhibit C of the Specific Plan Amendment resolution. Staff supports focusing the Master Planning Policy amendment within the core area since these are the densest and mixed-use areas of the plan, and require flexibility given current market conditions and state legal climate.

During the Planning Commission meeting, the applicant provided testimony that the requested Density Bonus Waiver related to landscape area was no longer needed, since the Project meets the required standard. Planning Commission recommended that the applicant submit a new Density Bonus letter removing this request. The applicant has submitted a revised letter for the Council's consideration and is included as Attachment 10. Staff supports the change and has found that more than 10 percent of the project site is landscaped, exceeding the requirement. The full Planning Commission meeting minutes are provided in Attachment 13, and each Planning Commission Resolution is attached to the City Council Resolutions and Ordinances.

FISCAL AND ADMINISTRATIVE IMPACTS

There are generally positive fiscal impacts for the City associated with the project as summarized below. Staff time allocated to land use entitlement review is mostly offset by required entitlement application fees, and plan checking and building permit fees would cover all required post-entitlement work. The increase in demand for water, sewer, and stormwater services would be offset by required impact fees and utility connection fees.

All Project infrastructure will be constructed by the Developer, who would be reimbursed through the formation of a new Infrastructure Community Facilities District (Infrastructure CFD). Staff time associated with formation and management of the Infrastructure CFD would be reimbursed by the Infrastructure CFD itself. Private infrastructure would be maintained by the Project's private Master Homeowners' Association (HOA). The Isabel Neighborhood Specific Plan Maintenance CFD (Maintenance CFD) would cover the maintenance costs for all public infrastructure within the project site like public streets, landscape strips, medians, plazas, and stormwater retention areas.

All Class IV separated bike lanes would be maintained by the City using the General Fund because they are being used by the broader community. Maintenance of all private surface improvements like private landscaping, alleys, signage, etc. would be paid for by the Project’s HOA. Livermore Area Parks and Recreation District (LARPD) would maintain the Neighborhood Park.

According to the Fiscal/Economic Analysis report prepared by Kosmont (Attachment 9), the Project would provide an estimated $1 million net annual tax surplus at full buildout, accounting for both utility and service demand (e.g. police and fire) and property and sales taxes paid to the City. Further, the Project would provide over 3,700 construction jobs onsite during the construction period, and an estimated $615 million in total economic output during construction (representing new labor income and goods and services produced within Livermore).

During operations at full buildout, the Project would generate $43 million in new local retail spending, provide 200 new jobs, with an estimated $70 million total annual economic output (representing new jobs, new spending, and new wages). The Project represents an approximately $600 million initial investment into the City of Livermore. As required by the Development Agreement, Livermore would also be designated as the point of sale for all construction material/supplies purchased of $5 million or more, resulting in further sales tax increases during construction.

ENVIRONMENTAL DETERMINATION

In 2020, the City Council certified a Supplemental Environmental Impact Report for the Isabel Neighborhood Specific Plan (EIR). The EIR analyzed the impacts of the Specific Plan at full buildout. As described in the Environmental Resolution, an Addendum to the 2020 Isabel Neighborhood Specific Plan Supplemental Environmental Impact Report was prepared for the Project. Although the Project is different than what was analyzed in the EIR, with a different street layout, modified proportion and location of office and commercial uses, a different park location, and a land use change from office to residential, the Addendum finds that the overall Project impacts are less significant than those analyzed in the EIR. For these reasons, no new EIR is required, and the Project meets all requirements of the California Environmental Quality Act, per CEQA Guidelines section 15164.

PLANNING COMMISSION MEMORANDUM

TO: Chairperson Anderson and
Members of the Planning Commission

PREPARED BY: Jake Potter, Senior Planner
Jennifer Ackerman, Assistant Planner

REVIEWED BY: Stephen Riley, Planning Manager
Ben Murray, Principal Planner

DATE: July 2, 2024

SUBJECT: Vesting Tentative Tract Map 8659 (SUB) 22-008, Development Agreement (DA) 22-001, Consistency Determination (CD) 24-004, Conditional Use Permit (CUP) 24-002, Site Plan Design Review (SPDR) 24-003, Specific Plan Amendment (SPPA) 24-001, Master Sign Program Amendment (MSP) 24-001, and Development Code Amendment (DCA) 24-001 for 1,299 units and approximately 90,000 square feet of non-residential uses comprised of office, commercial, and residential amenity space, located at the southwest corner of Portola Avenue and Isabel Avenue, known as the Isabel Crossing Project ("Project").

PROJECT DESCRIPTION

The applicant for the proposed Project, known as Isabel Crossing, would develop the vacant site at the southwest corner of Isabel Avenue and Portola Avenue with a master-planned community offering a range of housing options with 1,299 dwelling units with approximately 15,000 square feet of ancillary amenity space such as lobbies, gyms, and community spaces, approximately 75,000 square feet of office and commercial uses, a main street with public plazas, a new neighborhood park, private recreation center and pool, public trails, bike paths, bike lanes, and a public art program.

This proposed mixed-use development on approximately 45 acres would include duplexes, triplexes, flat condominiums, apartments, and three-story townhomes. Unit sizes for condominiums range from 949 to 2,006 square feet, apartments range from 453 to 1,242 square feet, and townhomes range from 1,177 to 2,409 square feet.

The applicant proposes a total of 363 new affordable housing units, comprising 28 percent of the total number of units, which is 103 units more than the City's requirement.

This includes 10 affordable for-sale townhomes, 47 affordable for-sale condos and 306 affordable for-rent apartments. Affordable for-sale units will be deed restricted (18 for median-income buyers and 39 moderate-income buyers), and rental units will be available to qualified renters of very low (65 units), low (113 units), median (65 units), and moderate (63 units) income levels, as shown on page 43 of Exhibit C to the Project resolution.

The 75,000 square feet of commercial space would be on the street level of multi-story buildings with residential condominiums and apartments located above. Commercial spaces, including retail, office, and grocery uses would front landscaped streets internal to the Project site along Main Street and Gateway Boulevard.

Isabel Crossing provides significant new public open spaces and recreational facilities. These include a public neighborhood park, a private recreation center and multiple public plazas. The Project also includes substantial new infrastructure and transportation features, including a network of internal and area connector streets with new signalized intersections, wide sidewalks, new bus stops, pedestrian trails, and dedicated new bike lanes within walking distance of the future hydrogen-powered Valley Link commuter train station. Vehicular access would be provided by two intersections along Portola Avenue, two intersections along Isabel Avenue, one intersection along Shea Center Drive, and one intersection at the east end of Gateway Avenue.

The proposed Project will require the following approvals:

1. Subdivision (Vesting Tentative Tract Map), Pursuant to Livermore Development Code Section 10.02, that the Project site will be subdivided to create 27 new lots that include private streets, residential and mixed-use buildings, pocket plazas, and a neighborhood park. In addition, this map will create internal public streets including the extension of Gateway Avenue and creation of Main Street.

2. Site Plan Design Review Pursuant to Development Code Section 9.07, this review allows each planning area to be analyzed for consistency with the Isabel Neighborhood Specific Plan's development and design standards.

3. Conditional Use Permit Pursuant to Development Code Chapter 9.03, and Specific Plan Table 2-1, a Conditional Use Permit is required to allow multi-family residential uses in the Specific Plan's Neighborhood Commercial zone, which is being proposed in Planning area S1 with residential units over a grocery store and general retail.

4. Development Agreement Pursuant to Development Code Section 9.04, the Development Agreement addresses the obligations of the developer and the City to facilitate development of the proposed Project and vest development standards and fees for the developer. The Development Agreement includes timing and responsibilities for master Project infrastructure and site improvements, affordable housing, commercial uses, community facilities district, public art, public safety

infrastructure, etc. and application of fee credits to the developer. The Development Agreement includes benefits to the City including $1.2 million contribution to the Community Benefit Fund, $800,000 to the Social Opportunity Endowment Fund, $2 million early park fee payment, and designating Livermore as the point of sale for the construction materials sales tax.

5. Specific Plan Amendment Pursuant to Development Code Section 9.08, this amendment is necessary for modifications to the master planning and affordable housing policies. For example, the Project differs from the Specific Plan with regard to the density, land use and the provision of affordable housing.

6. Development Code Amendment Pursuant to Development Code Section 9.14, this amendment is necessary to allow for an alternative means of compliance with the affordable housing ordinance (Development Code Section 10.06.050) for only the core area of Specific Plan covered by this Project.

7. Density Bonus Waiver Requests Pursuant to Development Code Section 6.02.030 and state law, the applicant is requesting use of waivers or reductions of certain development standards (as set forth in the Density Bonus Request Letter, Dated June 28, 2024 as Attachment 10.

8. General Plan Consistency Determination Pursuant to Government Code Section 65402(a), the City must find the proposed abandonment of existing utility, landscape and emergency vehicle access easements consistent with the General Plan.

9. Master Sign Program Amendment Pursuant to Development Code Section 4.06, Master Sign Program #01-029, approved in 2001 for KLA-Tencor 1, will be removed from three of the parcels on the Project site (APNs 903-10-46 through 48). This Master Sign Program covers the adjacent development to the west and will continue to govern future sign applications for that development.

The Project will also include the approval of a Master Plan pursuant to the Specific Plan Master Planning policy, approval of the Alternative Affordable Housing Plan, consistent with the proposed Specific Plan and Development Code Amendments, and a No Net Loss analysis in conformance with California Government Code Section 65863.

PROJECT SITE CONTEXT

The Isabel Crossing site is approximately 45 acres in size and located southwest of Portola Avenue and Isabel Avenue, as seen on the location map in Attachment 3. The site is situated near the Montage residential development to the north, office uses to the west (Lam Research and Fremont Bank), Interstate 580 to the south, and the vacant Bay Area Rapid Transit (BART) owned parcel to the east across Isabel Avenue, as well as the future site of a Shea Homes Aura 164-unit townhome/condominium development.

The Project site is currently undeveloped and gradually slopes down towards Interstate 580 to the south. Isabel Avenue generally extends north-south along the eastern side of the site with a separated sidewalk, curb, and gutter and is not landscaped. Portola Avenue runs generally east west along the northern boundary of the site where it is lined with sidewalk, curb and gutter, and deciduous trees and shrubs.

The following table shows the General Plan and Zoning designations and current land use of the adjacent properties.

	General Plan	**Zoning**	**Current Use**
North	Isabel Neighborhood Specific Plan	Village, Open Space, and Transition (Subarea 2b)	Approved INSP residential (Shea 2b) existing Montage neighborhood and open space buffer
South	Isabel Neighborhood Specific Plan	No zoning. Caltrans Right of Way/ Interstate 580	Interstate 580
East	Isabel Neighborhood Specific Plan	Open Space, Transition, Core, Office Core, Ground Floor Retail/Overlay Flex Space (Subarea 3a)	Directly adjacent to Isabel Avenue and vacant beyond
West	Isabel Neighborhood Specific Plan	Office Core and Center (Subarea 3e and 3d)	Lam Research and Fremont Bank offices
Project Site	Isabel Neighborhood Specific Plan	Village, Center, Core, Office Core (Subarea 3b and 3c)	Vacant

STAFF ANALYSIS

General Plan

Land Use and Policy Consistency

The Project site has a General Plan land use designation of Isabel Neighborhood. The Isabel Neighborhood seeks to create a safe, vibrant, complete neighborhood that includes amenities for residents, workers, and students; ensure new development is compatible with existing development and community character; and support transit ridership and citywide goals for increased transportation options, housing choices, and economic vitality [Livermore General Plan Land Use Element, p. 3-23]. The proposal to develop the Project site with a mixed-use development is consistent with the land use designation and implements the General Plan goals for the Isabel Neighborhood.

For example, the Project would create a new complete and vibrant neighborhood, with a mixed-use main street commercial core served by a range of amenities, including a public park, public plazas, a private community pool, public art, and tree-lined streets. The Project is also compatible with surrounding development since the building heights step down towards the existing residential and office uses to the west and north and the buildings are designed with several traditional architectural features common in Livermore like brick, deep eave overhangs, and strong roof cornice elements.

The Project also supports transit ridership and mode shift by adding new bus stops and protected bike lanes, and by locating the Project near the future Valley Link commuter train station and existing LAVTA bus lines. Increased housing choices are provided for nearby students and faculty at Las Positas College and other individuals and families through a range of for-sale and for-rent units of differing sizes, including units reserved for individuals and families of very low to moderate incomes. Finally, the Project would increase the area's economic vitality by adding a mix of commercial and office uses, supporting jobs and a larger tax base.

The Project implements the following General Plan Objectives, based on its compact, mixed-use, walkable, and sustainable form with use of traditional architectural features and materials applied on modern architecture:

Land Use Element

- Objective LU-1.1 Locate new development so as to create a consolidated pattern of urbanization, maximizing the use of existing public services and facilities.
- Objective LU-1.2 Create neighborhoods that include a mix of uses and a range of housing types to meet the needs of all residents.
- Objective LU-3.1 Create neighborhoods near transit that include a mix of uses and a range of housing types to meet the needs of all residents.

Community Character Element

- Objective CC-2.1 Maintain and enhance Livermore's urban design quality and encourage high quality design in all new development and redevelopment.

Economic Development and Fiscal Element

- Objective ED-1.1 Implement policies and actions that will encourage existing businesses to remain and grow in Livermore and attract a range of new businesses to locate in Livermore.

Climate Change Element

- Objective CLI-1.2 Encourage and provide greater support for infill, mixed use, and higher density development in order to reduce Greenhouse Gas (GHG) emissions associated with vehicle travel.
- Objective CLI-1.3: Support measures that encourage alternative modes of transportation and alternative fuels in order to reduce emissions associated with vehicle travel.
- Objective CLI-1.4 Enhance existing water efficiency and conservation measures and adopt new programs that encourage recycled water use and water efficiency in order to reduce energy and GHGs associated with water use.
- Objective CLI-1.6 Expand the number of trees in Livermore in order to provide a larger carbon sink or area containing natural sources that retain more carbon than what those sources emit.

The specific land use mix and densities allowed onsite are governed by the Isabel Neighborhood Specific Plan, as described in the *Isabel Neighborhood Specific Plan* section of this Report.

Housing Element

Policy Consistency

In March 2023, the City Council adopted the new 2023 – 2031 Housing Element for Livermore, responding to new state housing law requirements. The Housing Element identifies a range of housing policies to further housing production in Livermore, shelter all segments of Livermore's population, and facilitate affordable housing. The Project implements the following policies:

- Policy 1.2: Facilitate the development of a range of housing types through area planning efforts.
- Policy 2.1: Facilitate the provision of affordable housing, infill development, and mixed-use projects in locations served by existing infrastructure, particularly transit services.
- Policy 3.1: Facilitate the production of affordable housing through regulation of and incentives to new development.

Regional Housing Needs Allocation

California Government Code Section 65584 establishes the Regional Housing Needs Allocation (RHNA) process, which projects each CA region's housing needs, and through each regional government, assigns each local jurisdiction a quantity of residential units that need to be planned for. The RHNA process includes both an overall quantity of residential units and a quantity of units for each affordability level. The RHNA process occurs in eight-year cycles. In the current 6th RHNA Cycle (2023-2031), Livermore was assigned 4,570 total units, of which 2,075 need to be Low Income units (which also includes the Very Low-income units in Livermore).

Housing Element Sites Inventory

California Government Code Section 65583 requires each local jurisdiction to include in their Housing Element a Sites Inventory (Inventory) that accommodates all of the jurisdiction's required RHNA units. If existing zoning is not sufficient to accommodate the need, then sites must be rezoned. All Inventory sites must include the overall anticipated quantity of residential units and their unit affordability levels. The California Department of Housing and Community Development (Department) is to review and approve each jurisdiction's sites inventory with the Housing Element. Housing Element review and approval is aligned with each RHNA cycle, so that each jurisdiction's current Housing Element also covers years 2023-2031. Together with the Government Code, the Department generally requires:

1. Lower Income units to be located within zoning districts that allow for 30 units an acre within the zone's density range. This means that, although all developments that are subject to Livermore's inclusionary housing ordinance provide lower-income units, only those units on sites that allow for 30 units an acre within the zone's density range can be counted on Livermore's Sites Inventory;
2. Inventory sites to be located on vacant parcels, unless active site redevelopment can be demonstrated; and
3. Only a portion of each Inventory site can be used for the purposes of calculating residential density, to account for realistic development capacity.

Livermore's Housing Element and Sites Inventory were approved and certified by the Department in 2023. A majority of the 6th cycle RHNA units were located in the Isabel Neighborhood Specific Plan (Specific Plan) area given that the Specific Plan allows for the highest densities in Livermore and contained a significant number of vacant parcels. Given the State's strict density requirements for Lower Income units, a majority of Livermore's Lower Income RHNA units were also located within the Specific Plan area and the Isabel Crossing Project site. In particular, approximately 1,500 RHNA units were located on the Project site, of which, approximately 1,000 were designated as Lower Income units. An excerpt of the Sites Inventory with the Project site highlighted is shown in Attachment 7.

Housing Element Sites Inventory Lower Income Units – No Net Loss Analysis

California Government Code Section 65863 establishes the state's No Net Loss standards (summary attached as Attachment 6). Generally, the standards require that:

1. Each local jurisdiction's Housing Element Sites Inventory accommodates all required RHNA units at all times.
2. If the City approves a Project that contains less units than anticipated in the Sites Inventory, or modifies the Zoning to allow for less units than anticipated in

the Sites Inventory, then the Sites Inventory must have enough remaining sites/units to accommodate the jurisdiction's RHNA requirement for all required affordability levels. Or, if there are not enough units in the remaining Sites Inventory to accommodate the RHNA requirements, then the City must increase the amount of residential units permitted (aka "upzoning") elsewhere in the City to satisfy the RHNA requirement.

Given the high concentration of RHNA Low Income units in the Specific Plan and given that the Specific Plan and Development Code Affordable Housing Inclusionary policies cannot keep pace with the required supply of Low Income RHNA units, staff anticipated No Net Loss reviews would be required in the Specific Plan. Staff further anticipated other sites within the Specific Plan or General Plan Update Focus Areas could accommodate the unmet supply. The table below summarizes the Isabel Crossing Project's unit counts compared to the Sites Inventory RHNA requirement.

Project Unit Count Compared to the Sites Inventory RHNA Requirement

	Lower Income	*Moderate Income*	*Above-Moderate Income*
Housing Element Sites Inventory RHNA Requirement	998	0	471
Proposed Isabel Crossing Project	178	185	963
Housing Element Buffer[1]	208	N/A	N/A
Net Difference	-612	+185	+462

As described in the *Affordable Housing* section of this report, the Project exceeds the Specific Plan's required quantity of affordable units and provides 178 Lower Income Units. Further, as shown in the table above, the Project exceeds the quantity of Moderate and Above-Moderate units assumed in the Housing Element, increasing Livermore's surplus in these RHNA categories. However, as anticipated, the Project does not provide the 998 Lower Income units assumed in the Housing Element Sites Inventory. The existing Sites Inventory includes a buffer at other sites to accommodate some loss in Lower Income units. However, as shown in the above table, together with the buffer, the Project results in a 612-unit deficit. There are no other sites in the Sites Inventory that can accommodate the deficit. Therefore, pursuant to State No Net Loss standards, another site must be upzoned to accommodate the unmet capacity.

Staff has identified a suitable site within the Specific Plan that can be upzoned and meets all No Net Loss Requirements. If the two vacant parcels to the east across

[1] The Housing Element Sites Inventory Buffer is the quantity of units within each income category above the RHNA requirement. The Buffer represents excess capacity on various sites around the City and is typically used to absorb No Net Loss projects.

Isabel Avenue (APN 903-10-37-4 and 903-10-36-3), currently owned by BART, were upzoned from the Office Core non-residential designation to the Core residential designation, they could accommodate the Isabel Crossing Project's entire deficit plus result in a 120-unit Sites Inventory surplus for Lower Income units. For this reason, staff recommends the Planning Commission recommend the City Council amend the Specific Plan to rezone the parcels to the east (identified in Exhibit B to the Specific Plan Amendment resolution) to result in No Net Loss of Sites Inventory Lower Income units.

Staff has prepared the required findings that satisfy all No Net Loss requirements in the Project resolution and the required Specific Plan Amendment findings in the Specific Plan Amendment resolution. Further, as described in the *Affordable Housing* section of this report, staff proposes a Specific Plan and Development Code Amendment to increase the Lower Income inclusionary requirement (but lower the moderate-income requirement) for for-sale units in the Specific Plan. This would generate more Lower Income units in the Specific Plan in the future and help the Inclusionary Ordinance keep better pace with current RHNA requirements. The required Development Code Amendment findings can be found in Exhibit A to the Development Agreement Ordinance. With the rezoning, Specific Plan Policy, and Development Code Affordable Housing Inclusionary Ordinance modifications, the City would be better positioned to respond to current RHNA cycle needs for providing Lower-Income units.

Isabel Neighborhood Specific Plan

Goals and Policies

The Specific Plan contains a range of land use strategies to advance the plan's vision and objectives, including the following:

- Allowing for a range of housing types, nonresidential uses, and public open spaces;
- Encouraging a livable and accessible neighborhood with an active street life;
- Concentrating development of the highest intensity closest to the Valley Link station to support transit ridership
- Promoting compatibility with existing residential uses;
- Advancing housing and economic development goals; and
- Establishing a more cohesive identity for the Isabel Neighborhood as the area sees redevelopment and new development

The Project implements the Specific Plan's walkable, enlivened, and transit-oriented community vision by providing a mix of uses and product types, including duplex, condominium, townhouse, and apartment residential types, ground floor commercial and office, and open space parks and plazas. The uses provide synergy with each other. For example, the residential supports the commercial by creating foot traffic at different times of day and provides more local patrons, while the commercial supports the residential by allowing for daily needs to be met without requiring auto trips and creating nearby

amenities, in some cases within the same building. In addition, Main Street will remain active with ground-floor commercial, open plaza areas, outdoor seating, wide sidewalks, and pedestrian crossings. The Project is located within a ½ mile of future Valley Link commuter rail, directly adjacent to existing and proposed bus service and stops, and proposes separated bicycle lanes on all frontages, allowing for a wide range of transit modes and catering to a broad cross section of resident transportation needs. The Project steps down at the peripheries near existing development north and west, promoting compatibility, and proposes a cohesive Art Master Plan to differentiate the area as a unique district.

Finally, the Project improvements will increase the city's property tax base, the commercial space expands the City's sales tax base, and the residential units help the City provide for a diverse mix of housing types to meet community needs. The Specific Plan also establishes a variety of Goals and Policies around key planning principles, such as: Land Use, Transportation, Parks, Public Facilities and Infrastructure, Urban Design, Environment, and Financing. The Project meets all the Specific Plan Goals and Policies related to these planning principles, as identified on page 37 of Exhibit C - Architectural Plans.

Use, Density, and Master Planning

Specific Plan Requirements

In order to appropriately manage growth, ensure compatibility of uses, and secure adequate housing supply, the Specific Plan contains individual zoning designations and distinct subareas. Each designation establishes the allowed uses, development standards, and densities, while each subarea establishes the required quantity of residential units.

In order to further promote cohesive and ordered development, the Specific Plan encourages Master Planning, which means subdividing and/or designing an entire subarea or subareas together with one application (see Master Planning Policy, Attachment 8). The intent of the Master Planning Policy is to allow for mixing of permitted densities and uses within a subarea or subareas, as long as all development standards are met and the required quantity of residential units is provided, essentially creating one large mixed-use zone. Master Planning is only available to developers if they meet the required target density of the subarea(s), or the minimum density if they demonstrate significant constraints within a subarea.

The Project site is located within Subareas 3b and 3c, which are the Specific Plan core and to be the densest, most walkable, and mixed-use areas of the Specific Plan. For that reason, the subareas contain a range of designations, including Village, Center, and Core residential designations, and Neighborhood Commercial, Office Core, Open Space, and Ground Floor Retail/ Overlay Flex Space non-residential designations (see Specific Plan Land Use Map, page 3 of Attachment 5). Further, Subareas 3b and 3c require a minimum of 1,236

residential units, a target of 1,477 units, and a maximum of 1,717 units, the highest quantity in the Specific Plan.

Project Conformance

The Project proposes 1,299 residential units, which exceeds the minimum required in Subareas 3b and 3c. As described in the City Obligations Section of the Development Agreement (Exhibit B to the Development Agreement Ordinance), in the course of applying for Building Permits, the Community Development Department Director may authorize up to an approximately five percent reduction in units (representing 63 total units) to allow for flexibility in construction, as is typical for larger development projects. In no case will the Project drop below 1,236 units, ensuring the minimum residential requirement is met. Further, if a reduction in units is to occur, it is required to come from the market-rate units, and not the affordable units, ensuring the Project continues to meet its inclusionary obligations.

The Project will also contain both residential and non-residential designations, as required by Subareas 3b and 3c, proposing a mix of residential densities and product types across the site, open space through parks and plazas, and commercial and office space centered along Main Street, as shown on sheet SP-4 on the Proposed Plans.

Proposed Master Plan

Although the Project contains the required quantity of residential units and the required mix of uses, the Project has elected to Master Plan, as encouraged by the Specific Plan's Master Planning Policy. This means the individual residential densities and land uses have been averaged and distributed across Subareas 3b and 3c, rather than located as shown on the Specific Plan conceptual land use map. The proposed Master Plan can be found as Exhibit F to the Project resolution. For this reason, the Project land use map is distinct from the Specific Plan's conceptual land use map (as shown on pages 36 and 37 of Exhibit C to the Project resolution). Key differences include:

1. *Residential Densities*. Residential densities have been reduced in the northern and western parts of the site and increased in the southern part of the site.

   Duplex and townhouse units have been placed in the north and west to promote compatibility with existing surrounding land uses, since these product types are the Project's shortest, at three stories in height. Further, according to the *Housing Density Economic Hardship* study prepared by Kosmont, in the Livermore market, the residual land value for lower density for-sale townhomes is substantially higher than higher density for-rent apartments (see Kosmont studies, Attachment 9). The Project is providing a range of community benefits like commercial space, additional open

space, and additional affordable housing, which have lower residual land values along with contributions to the Community Benefit Fund and Social Opportunity Endowment Fund. To offset costs of such uses, lower density product types are needed to raise capital, reduce financial risk, and ensure Project solvency.

In order to offset the density reductions of duplex and townhouse units, the Project density has been increased at the southern part of the site. This location is suitable for taller buildings with higher density, given their proximity to the future Valley Link station and distance from existing development. The increased density ensures the Project continues to meet its minimum Specific Plan residential density and Moderate and Above-Moderate RHNA obligations. Further, as described in the *Affordable Housing* section of this report, the higher densities provide an opportunity for a 100% Lower Income affordable Project to be constructed, which provides critical Lower Income units near the amenities of Main Street and the Project's commercial core.

Overall, the Specific Plan conceptual land use map called for mid-level densities across the entire site, while the Project generally concentrates densities in its core and reduces density at the northern and western periphery. Taken together, the lower- and higher-density product types provide a greater range of housing types and price points for Livermore individuals and families than originally envisioned.

2. *Office Uses*. The Project's office uses have been shifted from the southern part of the site to Main Street. In this way, office and commercial uses are more appropriately collocated, promoting synergy and concentrating economic activity in one location, thus creating a vibrant streetscape, similar to Livermore's Downtown. As described in the *Density Bonus* section of the report, the Project's total office square footage has been reduced, pursuant to state law.

3. *Main Street Commercial.* Compared to the conceptual Specific Plan land use map, the Project's Main Street commercial corridor has been shifted east by one block. This promotes better commercial and truck access to nearby Major Streets, like Isabel Avenue, aligns the commercial uses more appropriately with denser residential product types to increase foot traffic and eyes on the street and concentrates larger building footprints and commercial activity away from existing nearby uses. As described in the *Density Bonus* section of the report, the Project's total commercial square footage has been reduced, pursuant to state law.

4. *Open Space.* The Specific Plan calls for approximately two acres of open space within the Project site, provided in one large greenspace. The Project

provides approximately two acres, but splits the open space up into one 1.5 acre park located near the lower-density residential, and three smaller plazas, adjacent to the mixed-use commercial blocks. In this way, the Project still provides a large green space for individual and family recreation, but better disperses open space around the site, providing for additional outdoor gathering, recreation, and dining areas nearby commercial uses, enhancing their function.

5. *Circulation Network.* The conceptual internal roadway, sidewalk, and bike lane network has been modified to better align with existing intersections and property lines, and to facilitate the proposed site plan.

As described above, the Specific Plan Master Planning Policy only allows for a Project to be Master Planned if: 1) The Project meets the Subarea(s)' target density; or 2) The Project demonstrates significant constraints within the Subarea(s), as determined by the Community Development Department Director. In this case, the 1,299-unit Project exceeds the minimum density, but does not meet the target density of 1,477 units. However, the Developer has submitted the *Housing Density Economic Hardship* and *Commercial and Office Economic Feasibility* economic studies from Kosmont, as also referenced above.

The studies note that: 1) there is not currently sufficient demand for the quantity of Project commercial space envisioned by the Specific Plan; and 2) That new office development is financially infeasible given that construction costs are higher than anticipated net operating incomes. Ultimately, taken together, the studies demonstrate that the required non-residential land uses and target density of Subareas 3b and 3c present a significant financial constraint for the Project.

Staff has reviewed the studies and confirms their conclusions and finds there to be a significant financial constraint within Subarea 3b and 3c, allowing for master planning within the Subareas without requiring the target density be met. Further, staff supports the proposed Master Plan layout based on the analysis above. The proposed Master Plan would increase compatibility with surrounding properties, allow for increased affordable housing opportunities, provide a wider range of housing options, create a more vibrant and accessible Main Street, and better distribute open space areas around the site.

In order to satisfy the intent of the Master Planning Policy, the Specific Plan requires a cleanup amendment to allow for distributing land uses across a Subarea or Subareas, in addition to allowing for residential density averaging. The amendment would also clarify which development standards are applicable for density-averaged product types. In this way, the Master Planning Policy would function to provide more flexibility within Subareas, better encourage Subareas to be designed comprehensively, more effectively create mixed use zones within the Specific Plan core, as envisioned by the Specific Plan, and clarify the proper development standards applicable to each product type.

For all these reasons, staff recommends the Planning Commission recommend the City Council: 1) Allow for Master Planning at a residential density below the Specific Plan target density; 2) Approve the proposed Master Plan; and 3) Approve the proposed cleanup amendment to the Specific Plan Master Planning Policy. The Master Plan land use map can be found on page 37 of Exhibit C - Architectural Plans, the required Master Plan findings can be found in the Project Resolution, the proposed Specific Plan amendment language can be found in Exhibit C to the Specific Plan Amendment resolution, and the required Specific Plan Amendment findings in the Specific Plan Amendment resolution.

As described in the *Density Bonus* section of the report, the Project's total office and commercial square footage has been reduced, separately from the master planning process and pursuant to state law.

Affordable Housing

Specific Plan Requirements

As in the state and the greater Bay Area region, there is an urgent and significant need for affordable housing in Livermore. In support of the City Council's priority to increase and expand affordable housing opportunities, the Specific Plan contains affordability requirements for all new development. Each new residential project in the Isabel Neighborhood is required to designate 20 percent of the units as affordable, with different affordability level requirements depending on if the unit is for-sale or for-rent. The Project will provide condominium/ townhome units and rental apartments of one, two, and three bedrooms. According to the *Housing Density Economic Hardship* economic analysis by Kosmont, the average area condominium/ townhome sales price is approximately $900,000, while the average monthly apartment rent is $3,100. Such costs are out of reach of many Livermore residents and employees, particularly those in the service industry, students, or first-time home buyers.

For this reason, it's critical the Project provide necessary affordable housing. As described in the *Development Agreement* section of this report, given the critical need, staff negotiated with the Developer to provide more affordable units than required, and deeper levels of affordability than required, including a 100% lower-income affordable parcel within the Project, to be constructed by an affordable housing developer.

Project Conformance with Specific Plan Affordable Housing Policies

The proposed Affordable Plan is shown on the Project Plans on page 43 of Exhibit C to the Project resolution . A comparison of the Project's provided versus required affordable units, based on the requirements of the Specific Plan, is below:

Provided Versus Required Affordable Units

	Lower Income (% of total)	*Median Income (% of total)*	*Moderate Income (% of total)*	*Total (% of total units)*
Required	62 (4.7%)	60 (4.6%)	137 (10.5%)	259 (20%)
Proposed	178 (13.7%)	83 (6.3%)	102 (7.8%)	363 (28%)
Net Difference	+116 (+9%)	+23 (+1.7%)	-35 (-2.7%)	+104 (+8%)

As shown in the table above, the Project vastly exceeds the established affordable requirements, providing 104 total extra affordable units, which equates to an overall Project affordability of 28%. Further, the Project provides 116 more lower income units than required, with a small reduction in moderate income units. Lower Income units are the most highly subsidized and most difficult units to secure. Like many other Bay Area cities, Livermore struggles to meet the Lower Income RHNA requirements. Over the course of the 6th RHNA cycle (the next seven years), Livermore has to plan for approximately 2,100 Lower Income RHNA units, and this Project will help the City towards meeting this requirement.

For reference, the 2024 City Council adopted income limits for a family of four to qualify for for-sale housing at Low, Median, and Moderate incomes. The income limits are $112,150 for Low-Incomes, $147,900 for Median Incomes, and $177,500 for Moderate Incomes. According to the US Census Bureau, the most recent data (2018-2022, in 2022 dollars) shows that median household income in Alameda County is $122,488 and the median household income in Livermore is $152,590.

Proposed Alternative Means of Compliance to Meet Affordable Housing Requirements

In addition to the affordable quantity and depth requirements in the Specific Plan, Livermore's Inclusionary Ordinance in Development Code Section 10.06.050 generally requires all affordable units to be equivalent to market-rate units. That is, affordable units need to have similar sizes, bedroom counts, and amenities. Further, affordable units need to be dispersed around the site [Livermore Development Code 10.06.050 (D)(7)(8)(9)]. The Inclusionary Ordinance does allow the City Council to authorize an Alternative Means of Compliance to these requirements if the alternatives are economically equivalent [Livermore Development Code 10.06.050 (E). Alternatives include: Accessory Dwelling Units (ADUs), Offsite Construction, In-Lieu Fees, and Dedication of Land.

Although the Project exceeds the required affordable quantity and depth of affordability requirements in the Specific Plan, all the affordable units are concentrated in the mixed-use commercial blocks and the higher-density residential product types, with no affordable units located in most duplex/ townhome Planning Areas, as shown on the proposed affordable plan (page 43 of Exhibit C - Architectural Plans). Further, the Development Agreement allows for the affordable units in Planning Areas S1, C2-A, and S4 to match the smallest market-rate unit

sizes, but the affordable units must contain the same number of bedrooms as the market-rate units. For these reasons, the Project does not meet the Inclusionary Ordinance's comparability requirements and is seeking an Alternative Means of Compliance.

The Project proposes to designate 28% of the residential units as affordable, including 13.7% as Lower Income, in exchange for concentrating the units primarily into the mixed-use commercial and high-density residential blocks. As required by the Inclusionary Ordinance, if pursuing an Alternative Means of Compliance, the Project must demonstrate that the alternative is economically equivalent to the required affordable housing requirements in the Ordinance [Livermore Development Code 10.06.050 (E). The Developer has submitted the *Affordable Housing Economic Equivalency Analysis*, by Kosmont. The analysis finds that the proposed affordable plan, with 104 extra affordable units and close to triple the required number of Low-Income units, represents an increased Developer investment of approximately $15 million over their costs if they met the requirements of the Inclusionary Ordinance.

Therefore, the proposed Affordable Plan exceeds the economic value of the Specific Plan's affordable requirements, satisfying the equivalence requirements of the Inclusionary Ordinance. Staff has reviewed the study and confirmed its conclusions that the proposed Affordable Plan is economically equivalent to the requirements of the Specific Plan and Inclusionary Ordinance.

Further, staff supports the proposed Affordable Plan based on the analysis above. The proposed Affordable Plan will provide for a higher quantity of overall affordable units than required, even exceeding the Specific Plan's goal of 25% affordability for the entire INSP area. In addition, the Affordable Plan will provide nearly triple the required quantity of Lower Income units, help the City towards satisfying the 6th Cycle RHNA Lower Income requirements, and provide for more units affordable to individuals and families in the service sector, students, and other underserved communities.

However, the proposed Affordable Plan is not one of the alternatives listed in the Inclusionary Ordinance. In order to allow for concentrating affordable units in exchange for increasing the quantity and depth of affordability, the Specific Plan and Inclusionary Ordinance require an amendment. The proposed amendment would create a new Alternative Affordable Plan process unique to the Specific Plan core area (Subareas 3a, 3b, and 3c). The amendment would allow for the City Council to consider any affordable alternative in these areas as long as the alternative is economically equivalent to the requirements of the Inclusionary Ordinance. In this way, a Developer is still responsible for their required share of affordable housing, but the City Council is allowed more flexibility and creativity in implementing the Inclusionary Ordinance and providing needed affordable housing in an evolving economy and changing regulatory environment.

Further, as described in the *Housing Element* section of this report, Livermore's existing Inclusionary Ordinance cannot keep pace with the high quantity of Lower Income units required in the 6th RHNA cycle. Although this project is providing a high quantity of Lower Income units, previous for-sale Specific Plan projects have not provided any, as allowed by the existing Specific Plan and Inclusionary Ordinance (The current INSP requires for-sale projects to provide a minimum of 5% median and 15% moderate income units of their total units, and no Lower Income units).

Therefore, staff recommends amendments to both documents, requiring future for-sale products in the Isabel Neighborhood to provide a minimum of 7.5% Lower Income units and 7.5% Moderate Income Units, as is currently required in all other locations citywide, except Downtown. This will ensure all future Specific Plan projects will provide Lower Income units, helping the City better satisfy the 6th Cycle RHNA Lower Income requirements.

For all these reasons, staff recommends the Planning Commission recommend the City Council: 1) Find that the proposed Alternative Affordable Plan is economically equivalent to the Specific Plan affordable requirement; 2) Approve the proposed Alternative Affordable Plan; and 3) Amend the Specific Plan and Development Code Inclusionary Ordinance to allow for an Alternative Affordable Plan and to amend the for-sale affordable requirements. The Alternative Affordable Plan map can be found on page 43 of Exhibit C - Architectural Plans, the required Alternative Affordable Plan findings can be found in the Project Resolution, the proposed Specific Plan amendment language in Exhibit C to the Specific Plan Amendment resolution, the required Specific Plan Amendment findings in the Specific Plan Amendment Resolution, the proposed Development Code Amendment language in Exhibit B to the Development Code Ordinance, and the proposed Development Code amendment findings in the Development Code Ordinance.

Livermore Airport Land Use Compatibility Plan

The Livermore Municipal Airport is located approximately three quarters of a mile southwest of the Project site. In order to protect the airport's operations and to ensure safety and compatibility of surrounding uses, the County established the Livermore Airport Land Use Compatibility Plan (Compatibility Plan), which is also incorporated into the City's General Plan. The Compatibility Plan applies to all properties within the Airport Influence Area, which generally extends from Santa Rita Road to North Livermore Avenue, and from Stanley Boulevard to north of the City Boundary.

A majority of the Isabel Neighborhood is located within the Influence Area, including the Project site. During its adoption, the Specific Plan was found to be consistent with the Compatibility Plan with respect to building heights, uses, and noise levels. As stated in Chapter 6.1 of the Specific Plan, the areas planned for new residential development are outside of the airport's noise contours. These areas would experience airport-generated noise levels of less than 65 decibels (dB) Community Noise Equivalent Level (CNEL).

The dominant sources of ambient noise would include the freeway, local street traffic, the Valley Link operations, and other activities related to the new neighborhood. Sound attenuation measures that will likely be required to reduce interior noise levels within new residences will also help reduce single-event noise from aircraft overflights. The Specific Plan Policies address noise and other environmental impacts that the Developer must comply with Specific Plan Goals and Policies.

Given that the Project is within the allowed density and use of the Specific Plan, it is also consistent with the Compatibility Plan, with the exception of the INSP height requirements based the Scenic Corridor Policy, as stated in the Specific Plan and the General Plan. Although some of the proposed buildings will exceed the INSP Scenic Corridor height limits, the exceeded amount is still consistent with the Airport Land Use Compatibility Plan (ALUCP). Comments from the Alameda County Planning Department regarding the Project's impacts on airport operations, and conversely, the airport's impacts on the Project are summarized below:

- The Isabel Project is located outside the Noise Compatibility Zones, so noise is not a concern.
- The development is located in Safety Zone 6, the Traffic Pattern Zone. All uses described for the Project – townhomes, mid-density apartments, parks, small and medium outdoor assembly areas (the closest use for the described plazas), offices, restaurants, retail and other commercial uses – are permitted uses. In Zone 6, there are no maximum non-residential intensities or minimum open land requirements.
- The heights described are below the FAR 77 Surface height for the area (547 feet MSL)
- ALUCP Policy 3.3.4.6 requires the purchasers of renters newly subdivided lands and condominium conversions within the Airport Influence Area be informed that their property is near the airport. This would apply to the Isabel Project, though it appears that the Isabel Neighborhood Specific Plan calls for an even more regular notification cycle in policy P-ENV-1.

The Compatibility Plan and Specific Plan require the provision of avigation easements and buyer awareness measures for properties within the Influence area [Specific Plan P-ENV-1]. The Engineering Conditions of Approval (Exhibit G to the Project resolution) include the avigation easement requirements. To ensure airport operations remain protected and property owners remain informed about potential noise impacts, staff has included the following Condition:

> Prior to occupancy of the first building, applicant shall record the deed notification as provided in the Livermore Executive Airport - Airport Land Use Compatibility Plan, Chapter 3.3.4.6, on all properties in the Project site for which this discretionary development permit is issued, as follows:
>
> NOTICE OF AIRPORT IN VICINITY

> This property is presently located in the vicinity of an airport, within what is known as an airport influence area. For that reason, the property may be subject to some of the annoyances or inconveniences associated with proximity to airport operations (for example: noise, vibration, or odors). Individual sensitivities to those annoyances can vary from person to person. You may wish to consider what airport annoyances, if any, are associated with the property before you complete your purchase and determine whether they are acceptable to you.

Further, the Project is conditioned to require Federal Aviation Administration (FAA) review of each Planning Area, ensuring crane operations during construction and the buildings' overall heights at buildout will not impede aircraft maneuvers or airport operations.

Given that the Project will provide avigation easements, all future residents will be notified of nearby airport operations, the Project is required t undergo FAA review, and that all proposed uses are Permitted in Zone 6, the Project fully complies with the Livermore Airport Land Use Compatibility Plan, required Municipal Airport standards, and airport operations will remain unaffected.

Development Agreement

Background

Government Code Section 65864 (implemented by Livermore Development Code Chapter 9.04) allows local jurisdictions and private parties to enter into Development Agreements in order to vest certain development rights and to meet local public purposes. Generally, Nexus is not required for such public purposes, in that, if agreed to by both parties, cities and counties can negotiate for infrastructure, financial contributions, or other community benefits above and beyond those required in local development ordinances. Further, developers can negotiate for certain vested rights, financing tools, and other surety, as long as the Project is consistent with local development ordinances. Development Agreements are commonly used across the state to improve development certainty, encourage local investment, strengthen the public planning process, and provide for more local public facilities.

On May 9, 2022, the City Council directed staff to begin Development Agreement (Agreement) negotiations with the Project Developer. For approximately the last two years, staff has been engaged in such negotiations. The Agreement forms the core of the proposed Project, and informs the design review, land subdivision, environmental review, and Specific Plan amendment portions of the Project, as described in this report. The negotiations consisted of a range of mutual concessions and compromises, incorporating City Council priorities, General Plan goals and policies, Strategic Plan pillars, and Developer financial and timing considerations. Staff and the Developer support the Agreement and present the final proposal to the Planning Commission for review. The City Council is the final deciding body for Agreement approval, the details of which are described below.

Description

The proposed 20-year Development Agreement generally trades vested rights and developer financing tools for a range of community benefits. Each community benefit is over and above the City's typical development requirements and would not have been secured without the Agreement. The required Development Agreement findings can be found in Exhibit A to the Development Agreement Ordinance. Each community and developer benefit category is included in the table below, and further described in subsequent sections.

City/Community Benefits	**Developer Benefits**
Alternative Transportation Infrastructure	Vested Rights
Commercial Uses	Community Facilities District
Affordable Housing	Fee Reimbursements and Credits
Architecture and Design	
Public Art	
Financial Contributions	
Public Safety Infrastructure	
Construction Sales Tax	
Economic and Fiscal Benefits	

City/Community Benefits – Alternative Transportation Infrastructure

In addition to the Project's required frontage improvements, as described in the *Subdivision* section of this report, City staff was able to secure approximately one mile of additional bike lanes, a fully protected bike intersection, two additional bus stops, a 1,500-foot-long median with trees, and two protected pedestrian intersections, in support of Specific Plan goals to create a walkable, bikeable, transit-oriented development.

The bike lanes would fill critical bike system gaps along North Canyons Parkway, Portola Avenue, Gateway Avenue, and Shea Center Drive, and would consist of Class II (standard striped lane), III (sharrow), and IV (fully separated from auto traffic) bike lanes. Together with the Project and previously approved Specific Plan projects, the extra bike lanes will create a continuous separated, Class IV bike lane in both east and westbound directions along Portola Avenue/ North Canyons Parkway from Tranquility Circle to Collier Canyon Road. In addition, the westbound separated bike lane will nearly extend to Independence Drive. This would allow cyclists from the Project or the previously approved Specific Plan projects to travel from their homes to Cayetano Park, the new commercial main-street of the Project, or the surrounding business park separated and more protected from auto traffic.

Through the Agreement, the City would also secure its first four-way protected bike intersection at Portola Avenue and Isabel Avenue, ensuring cyclist safety in all directions and from the Project site to Las Positas College. Further, the two extra bus stops would be located on the northbound leg of Isabel Avenue south of

Portola, and on the westbound leg of Portola Avenue, near the Cayetano Park entrance. The two extra stops would ensure future bus service in all directions near the Project site. Further, the Portola bus stop would replace the existing, temporary, stop at the corner of Campus Hill Drive and Portola Avenue, ensuring a safer and more convenient ingress/ egress for passengers. All stops would be the new City design, where the adjacent bike lane dives behind a bus island, reducing conflicts between transit modes and maintaining an elevated pad for bus passengers.

Finally, the Agreement secures an approximately 1,500 foot long new landscaped and center median with trees and two new protected pedestrian intersections along Isabel Avenue. The new median and intersections will help reduce traffic speeds, increase pedestrian comfort, and better connect the Project to the future Valley Link commuter rail station.

Per the Agreement, all transportation improvements are required to be constructed within 48 months from Improvement Plan approval. The Livermore Amador Valley Transit Authority (LAVTA) has reviewed and approves of all bus stops and indicated the extra stops would facilitate future service at Specific Plan buildout. A map showing the general locations of the additional transportation infrastructure can be found in Attachment 4.

City/Community Benefits – Commercial Uses

During the Specific Plan's comprehensive public outreach program, the community expressed a strong need for a non-membership grocery store and commercial opportunities north of Interstate 580. For that reason, the Specific Plan included zoning designations that allowed for commercial and grocer uses. Such uses are also critical towards creating a complete neighborhood and reducing vehicle miles traveled, by providing commercial and residential uses in close proximity. However, the current commercial market is challenging, threatening the viability of the commercial uses.

According to the *Commercial and Office Economic Feasibility* study prepared by Kosmont, Livermore has recently seen negative absorption of commercial space, meaning more vacant commercial spaces over time. Further, the study notes that Livermore's taxable retail sales have grown less than one percent during the past five years, indicating stagnant overall commercial growth. The study also analyzed the potential retail demand within the Isabel Neighborhood and found that, at full buildout, and assuming today's level of demand, only about 75,000 square feet of commercial space could be supported by the local population in the area. This is less than the Specific Plan's target of 106,000 square feet. For all these reasons, the Specific Plan's required commercial uses may be difficult construct and tenant in today's market and in the near future even when new residents start moving in.

Ordinarily, once a zoning district or Specific Plan is approved, the City has few planning tools to ensure commercial uses are actually constructed. The market

primarily determines when, and how much, of a permitted use may be constructed at a given time. However, staff was able to secure incentives and requirements as part of the Development Agreement to encourage and facilitate commercial development within the Project, deliver a complete neighborhood, and ensure the City maintains commercial and grocer uses in the Specific Plan area.

The two incentives offered to the developer in the Development Agreement are as follows: 1) Fee reimbursements of approximately $9.5 million for delivery of the mixed-use buildings (discussed in the *Fee Credit and Reimbursement* section of this report); and 2) Dedicating $600,000 of the Developer's Community Benefit Fund contribution (discussed in the *Financial Contributions* section of this report) towards tenanting the commercial spaces. In this way, the City is providing a large financial incentive for the Developer to construct the commercial tenant spaces of the Project, and providing financial assistance in securing tenants for such commercial spaces.

The three requirements of the Developer in the Agreement are as follows: 1) Temporary Commercial Activation; 2) Delivery of commercial grocer tenant; and 3) Tying residential and commercial blocks together. As further described in the Agreement, the Developer is required to fund, manage and activate the neighborhood early in the development process. The temporary activation may include a range of activities, like food trucks, farmers markets, outdoor movies, etc., and the activation is required to remain until all three Commercial Blocks receive a Building Permit. In this way, the temporary activation primes the site for future commercial uses by driving activity and interest towards the Project early in the development process.

Further, given the community desire for a non-membership grocer, the Agreement requires the Developer to secure a permanent commercial grocer or food hall tenant in the S1 Planning Area within 24 months of Certificate of Occupancy of the Building. If infeasible, another food-based business may tenant the space, but a portion of the floor area must be dedicated to selling fresh foods. Finally, each Commercial Block must obtain a Building Permit prior to adjacent residential obtaining its first building permit. Given that residential uses are more lucrative in this market, this further incentivizes commercial development, in that the Developer cannot build the adjacent high-value residential uses until the lower-value commercial receives its Building Permit.

<u>City/Community Benefits– Affordable Housing</u>

As described in the *Affordable Housing* section of this report, through the Development Agreement, staff negotiated for a substantial increase in affordable units beyond that required by the Specific Plan. The Project provides 28 percent overall affordability, with 13.7 percent Lower Income units. The Specific Plan

requires 20 percent and 4.7 percent, respectively. Therefore, the Project provides more affordable units and deeper levels of affordability than normally required.

In addition, the Agreement ensures delivery of Lower Income units by requiring the Developer to work with an affordable developer to develop a 100 percent affordable product in Planning Area S3-A. The Developer is also required to post an $11.4 million Low Income Housing bond/ cash payment as surety. If the 100 percent affordable project does not close escrow on state Low Income Housing Tax Credit financing within six years of the effective date of the Agreement, then the City may call the bond, take ownership of the land at no cost to the City, and construct the affordable project itself. In this way, the Agreement ensures delivery of a majority of the Project's Lower Income units, either the affordable developer or the City with an affordable developer partner will develop the site, consistent with the Project approvals. The affordable units within each Commercial Block are required to be constructed concurrently with the market rate residential and commercial components of each block, and prior to adjacent market-rate residential Planning Areas.

City/Community Benefits – Architecture and Design

Pursuant to state Senate Bill 330, the Housing Crisis Act of 2019, local jurisdictions are required to use only objective design standards in design review applications. Livermore currently maintains a mix of objective and subjective standards, and staff is currently in the process of drafting new objective design standards. In the meantime, Livermore's subjective design standards cannot be used as a basis for Project denial, and thus, carry less legal authority. Therefore, the Housing Accountability Act has substantially changed the design review process, ensuring only quantified standards may be utilized.

However, Development Agreements afford more flexibility, in that they are contractual. If both parties agree to certain Project designs during the course of negotiations, objective or not, then the designs are required as part of the Project approvals. In this case, staff and the Developer toured the Downtown and other key projects throughout the City to demonstrate the architectural heritage and high quality of design in Livermore. In response to staff input, and as described in the *Site Plan Design* Review section of this report, the Developer has provided a contemporary and traditional hybrid design. The design incorporates many subjective elements of Livermore's heritage, like brick facades, deep eave overhangs, first floor gallery space, and numerous other details like brick courses, material changes, and more traditional window designs. Given new state laws and in the absence of comprehensive objective design standards, such features are more achievable through an Agreement or a willing developer.

City/Community Benefit – Public Art

The City's Art in Public Places program requires each Project to contribute an amount no less than 1/3 of one percent of total construction costs to the City's Art

Program. The contribution can be made through physical on-site art pieces, or through an in-lieu fee. In-lieu fees are then used for public art pieces around the City.

In this case, to satisfy Specific Plan goals of creating a unique new district, and to ensure the Project site maintains a cohesive art aesthetic, staff negotiated with the Developer to work with an art consultant to design a comprehensive Art Master Plan for the Project. The City will then deposit all art fees collected from the Project into a special fund, to be used to implement the Art Master Plan. The Commission for the Arts will approve the Art Master Plan subsequent to Project approval. As described in Exhibit P of the Agreement, the Art Master Plan may include physical art pieces, cultural programming, or dedicated art gallery space in one of the Commercial buildings. Staff anticipates an art fee contribution of approximately one-to-two million dollars in today's market, providing ample funds for distinct art pieces and programming.

This unique approach ensures all Project art fees will be spent inside the Project, including a requirement that some of the funds be utilized to create larger and more iconic art pieces at key Project entries. and ensures the art pieces will be part of a cohesive design aesthetic that signifies the boundaries of a new mixed-use neighborhood. Conceptual locations for the large art are shown on sheet L1-4 of the Landscape Plans (Exhibit D to the Project resolution).

City/Community Benefits – Financial Contributions

Livermore maintains a range of funds to support various uses and programs within the City. The Social Opportunity Endowment Fund was established to provide a long-term, stable funding source for delivering human services to low-income City residents. The Community Benefit Fund was established to fund infrastructure or other special capital projects required by the City. The Park Fund was established to hold Park Fees generated from each development project, to be used to construct park facilities in the City. Currently, payment into the Social Opportunity Endowment Fund and the Community Benefit Fund is not required. Furthermore, normal Development Impact Fees will still be collected at time of Building Permit Issuance for the Project.

As part of Agreement negotiations, the Developer has agreed to pay $800,000 into the Social Opportunity Endowment Fund, and $1.2 million into the Community Benefit Fund. These contributions are to be paid in three distinct development phases: Final Map, Certificate of Occupancy, and Tract Acceptance. Therefore, the Developer will pay $2 million worth of extra fees for the Project.

In addition, given the City's current Capital Improvement Plan and need for park funds, the Developer has also agreed to pay $2 million worth of required park fees earlier than normal, at formation of the Community Facilities District instead of Building Permit. In this way, the required park funds will be deposited to the City sooner in time. Staff expects the funds to become available in one-to-two years,

instead of three-to-four, helping to fund current park needs in the Capital Improvement Program.

City/Community Benefits – Public Safety Infrastructure

The City maintains a Security Ordinance that establishes a minimum set of standards to increase residential and commercial building resistance to unlawful entry. It requires certain design features for windows doors, alarms, and other security equipment. However, recently, the Livermore Police Department completed its Real Time Awareness Center and has begun to request a more comprehensive set of security technology be installed with new development.

Although not required as part of the Security Ordinance, as part of the Development Agreement, the Developer has agreed to install a series of closed-circuit television cameras and vehicle license plate reader cameras along the periphery and within the Project site. The cameras will be connected via fiber optic lines to the Real Time Awareness Center and will help increase the Police Department's situational awareness and keep residents safe. Further, the Project will provide alternative access points of entry on each commercial building for police and fire crews, helping public safety teams respond during a crisis. The Developer will also explore other features like motion-detecting light sources and each commercial block will be required to submit a comprehensive security plan. Taken together, these public safety features will help keep Livermore residents safe and provide new tools for the City's public safety teams. The Livermore Police Department has reviewed and approves of the additional law enforcement features. A map of the camera equipment can be found in Exhibit R of the Agreement.

City/Community Benefits – Construction Sales Tax

The Livermore Development Code contains no construction sales tax requirements. However, as allowed by state law, staff has negotiated with the Developer to designate Livermore as the point of sale for all construction materials of $5 million or more used for the Project. In this way, irrespective of where the materials were manufactured, Livermore will receive the whole sales tax benefit, instead of the sales tax being distributed through the County pool. Given the size of the Project, this provision could provide millions of dollars in extra sales tax revenue to Livermore during construction.

City/ Community Benefits – Economic and Fiscal Benefits

According to the *Fiscal / Economic Analysis* report prepared by Kosmont, in addition to the Construction Sales Tax described above, the Project will provide an estimated $1 million in net new annual tax revenue at full buildout, accounting for Project utility and service needs. Further, the Project would provide over 3,700 construction jobs onsite during the construction period, and an estimated $615 million in total

economic output during construction (representing new labor income and goods and services produced within Livermore). During operations at full buildout, the Project would generate $43 million in new local retail spending, provide 200 new jobs, with an estimated $70 million total annual economic output (representing new jobs, new spending, and new wages). The Project represents an approximately $600 million initial investment into the City of Livermore.

Developer Benefits – Vested Rights

As allowed by the state Government Code, the Development Agreement vests, or locks in place, all Project approvals for the 20-year duration of the Agreement. Therefore, the Developer maintains the right to develop and use the Project site in accordance with the approved plans. In addition, the applicable fees are vested, subject to annual increases. Therefore, the Project will not be subject to any new fee over the 20-year life of the Agreement. The vesting provides certainty for the Developer in financing, sale, and construction of the Project.

Developer Benefit – Community Facilities District

State Government Code Section 53311 - 53368.3 (the Mello-Roos Act) permits local jurisdictions to enact localized special tax districts that sell bonds and levy taxes in order to fund new public infrastructure, called Community Facilities Districts, or CFDs. Normally, this occurs by: 1) The City establishing the tax district; 2) A developer or the City funding and installing public infrastructure upfront; 3) Bonds being sold to and purchased by private investors; 4) The bond proceeds reimbursing a developer or the City for infrastructure costs; 5) The residents within the tax district paying an additional special tax on their property; and 6) Private investor being paid back principal and interest by special taxes.

Essentially, residents of a particular neighborhood indirectly finance public infrastructure through increased taxes. In this way, residents of the neighborhood are financing the infrastructure that they use and that supports their neighborhood. Typically, such infrastructure includes streets, sidewalks, and utility lines like water, sewer, and stormwater. This law is a powerful financing tool that is commonly used across California to help pay for new infrastructure and offset tax limitations established by Proposition 13. The City Council has previously authorized infrastructure CFDs in other areas of Livermore, like at The San Fransisco Premium Outlets.

The Developer proposes a new CFD be established for the Project site to cover the Project's horizontal public infrastructure (streets, sidewalks, utilities, etc). Exhibit S of the Agreement contains a map showing all eligible infrastructure. City staff is supportive of forming a CFD in order to secure necessary Project infrastructure and as part of the overall Agreement negotiations. Further, staff have negotiated with the Developer to ensure the Project's total tax obligation will not be a substantial burden on future residents.

Proposition 13 sets a maximum base tax rate of one percent of the total assessed home value at sale. Typically, a two percent all-in tax rate, inclusive of all additional assessments, is the maximum acceptable rate for residential development and the highest that the market generally will bear. For this reason, the Agreement includes a requirement that the total property tax for each residential unit within the Project cannot exceed 1.86 percent of the total assessed home value at sale. This includes the *Ad Valorem* (regular base rate) property tax, any additional assessments (e.g. Mosquito Abatement, Landscape Maintenance, etc.), and the proposed infrastructure CFD. In this way, the Developer will be reimbursed over time for Project infrastructure, but the overall tax rate will not unduly burden new residents.

The Agreement also includes a range of other requirements that dictate timing and processing requirements, identify all eligible facilities, and ensure the City may utilize all sound municipal finance practices when forming and assessing the new district. The CFD term is not to exceed 35 years.

For all these reasons, staff recommends the Planning Commission recommend the City Council approve the Agreement with the negotiated CFD provisions. If the City Council approves this Agreement, it establishes the parameters for CFD formation. However, the Council would need to hold a range of subsequent public hearings in order to form the CFD, as required by the Mello Roos Act. The Agreement requires the CFD to be formed prior to Final Map approval, which staff expects to be within the next 1-2 years, if the Project is approved. City staff and legal counsel have reviewed and approved of the proposed CFD language Exhibit J of the Agreement includes the proposed CFD requirements.

<u>Developer Benefit– Fee Credit and Reimbursement</u>

CA Government Code Sections 66000 and 66410, which incorporate a range of laws like The Mitigation Fee Act and The Subdivision Map Act, allow local jurisdictions to levy impact fees, exactions, and in lieu fees on development projects to offset impacts to the community and ensure consistency with the General Plan. In conformance with these laws, Livermore imposes a variety of fees on Development projects, including for sewer, water, stormdrain, parks, auto traffic, and other impacts. Other local agencies like Zone 7 and the Livermore Valley Joint Unified School District impose their own impact fees as well. The Project will generate approximately $105 million in total impact and in lieu fees.

Livermore Municipal Code Chapters 3.27, 12.30, and 12.60 authorize the City to collect Transferable Development Credit (TDC) Fees, Traffic Impact Fees (TIF), and Park Facilities Fees. These fees are for open space acquisition, transportation improvements, and park facility improvements. Each of the fees also contain a methodology for calculating the total fee amount or a process for credit or reimbursement. Generally, the City may allow for fee credits or reimbursements for any improvements that serve the broader public, are not required as part of the Project, and are consistent with the General Plan.

As required by the Specific Plan and as negotiated for in the Development Agreement, the Project proposes onsite public park facilities with amenities such as children's play area, turf play areas, seating opportunities, shade trees and a meandering path, public plazas, and numerous offsite transportation improvements, including bike lanes and bus stops, as described in the *Alternative Transportation Infrastructure* section of this report. Landscape Sheets L2.1 - L2-5 show the locations of each of these facilities. Given that the improvements serve the broader public and are consistent with the General Plan and Specific Plan, staff has determined these improvements are eligible for fee credits. In total, the improvements are valued at approximately $8.2 million, and reduce the Project's fee load by the same amount. In this way, the City is incentivizing the construction of critical community-serving infrastructure called for in the Specific Plan and General Plan that may not have otherwise been constructed, and crediting the Developer for on- and- off-site improvements as part of the broader Agreement negotiations.

City staff has also allowed for fee reimbursements as part of the Agreement negotiations, given the Project's urban form. Similar to the Downtown, the increased densities and mixed-use nature of the commercial blocks place goods and services near residences and reduce sprawl. Further, the Project site is centered around existing bus service and future commuter rail service (Valley Link), ensuring non-automotive forms of transportation and compact development. For these reasons, the Project reduces vehicle miles traveled, reducing its impact on the City street network and warranting a TIF reimbursement. Further, Main Street would serve the broader public, given its enhanced streetscape improvements and the citywide draw of the commercial tenant spaces. The Project also provides a denser living environment within the City's Urban Growth Boundary, preserving open space areas outside the City and limiting growth pressures, warranting a lower TDC fee.

The fee reimbursements would come from the TIF and the TDC funds, and would only be made available if the commercial mixed-use buildings are built, since the commercial blocks achieve the reduced impacts and citywide attraction described above. Therefore, as required by ordinance, the reimbursements would be tied to a performance measure. Overall, the total reimbursement value is $9.5 million. In this way, the City is incentivizing the commercial blocks, which, as described in the *Commercial Uses* section of this report, are more challenging to construct in the current market environment, are a critical component of the Specific Plan, and are highly desired by the nearby neighborhood and will directly benefit the future residents.

Taken together, the total of all proposed fee credits and reimbursements is approximately $17,700,000, or about 20 percent of the total required Project fees. The total net fees payable after accounting for all proposed credits and reimbursements is approximately $87,300,000. The proposed fee language can be

found the Agreement. The City Engineer and Office of Innovation and Economic Development have reviewed and approved of the proposed fee language. As is standard practice, the full fee calculations will be conducted at Building Permit issuance, if the Project is approved, and fees will be paid over time as each tranche of Building Permits is submitted.

State Density Bonus Law

Background

The State of California encourages the production of affordable housing through its Density Bonus statute [California Government Code Section 65915-65918]. The state Density Bonus provisions are also reflected in Development Code section 6.02.030. These provisions allow projects that contain a certain percentage of affordable units to qualify for:

1. Density Bonus;
2. Waivers of development standards; and
3. Developer incentives/ concessions

The Density Bonus allows projects to exceed the maximum residential density on a particular parcel. Per Density Bonus law, the Developer may use Waivers to disregard any development standard that precludes the allowed density. An unlimited number of Waivers may be granted. The Developer may also use Incentives/Concessions to disregard a certain number of development standards if removing the standard would result in quantifiable cost reduction. The more affordable the project, the more Incentives/ Concession shall be granted, up to a maximum of five.

Each Density Bonus request shall be granted ministerially, in that the City cannot exercise discretion or judgement. Further, the Developer need not provide evidence as to why the Density Bonus shall be granted, state law automatically grants the request, unless the City makes certain written findings to deny the request. The findings are generally centered around life/ safety or environmental impacts. It is unlawful for the City to unduly deny a Density Bonus request, and the City would be open to lawsuit or other state corrective action. The City can review the request to ensure that the Developer is applying the Density Bonus law correctly.

The Developer is not proposing an actual Density Bonus request above the residential density that is allowed, but is proposing a series of Waivers and one Incentive/Concession, which is still allowed.

Waivers

As shown in the *Site Plan Design Review* section of this report, the Developer is seeking waivers for the different Planning Areas. The full list of Waivers can be found in the Developer's Density Bonus letter request (Attachment 10). Generally, the Waivers fall into the following Specific Plan development standard categories: Porch Separation, Private

Open Space Dimension, Front Setback, Commercial Ceiling Height, Building Height, and Commercial Floor Area Ratio (FAR). The Developer has indicated such Waivers are necessary since these Specific Plan standards physically preclude the Project as designed and, if followed, would cause the Project to lose density.

Most of the requested Waivers would not have a substantial impact on the Project compatibility, form, or function. For example, two porches within the townhome/ duplex product types would be approximately five to seven feet closer than allowed; other townhome/ duplex units meet the required private open space quantities, but the open space dimensions would be approximately one foot less than required; and certain ground-floor tenant spaces would have an average ceiling height of 14 feet, instead of the 16-foot requirement.

The Developer is seeking two more substantial Waivers though, including a reduction in commercial/retail Floor Area Ratio (FAR) and an increase in overall building height. FAR essentially limits the size of the commercial/retail space. As described in the *Commercial Uses* section of this report, the *Commercial and Office Economic Feasibility* study prepared by Kosmont demonstrates that Livermore's commercial retail market is largely stagnant, and that today's market calls for less commercial retail tenant space than the Specific Plan requires. Given that commercial space construction is challenging in today's market, and given that it displaces residential land area on the site plan, the Developer is requesting a reduction in the required commercial FAR, from approximately 106,000 square feet to 75,000. Staff supports the request in order to maximize the site's density, and concurs with the results of the commercial economic analysis.

The Developer is also requesting relief from the required maximum height limits established in the Specific Plan and Scenic Corridor policy within the General Plan. With the adoption of the Specific Plan in in 2018 and as amended in 2020, the City Council authorized amendments to the Scenic Corridor policy to allow for increased heights within the Project area. In the southern part of the Project site near the freeway interchange, the Specific Plan generally increased allowed building heights to between 475 and 485 feet above mean sea level. Given existing and proposed grades, the height limit generally allows for five story buildings. However, the applicant is proposing to exceed the required height limit by approximately six to twenty-one feet. Functionally, this means the three southern buildings on the Project site will exceed the height limit by one to two stories. One of those buildings is the 100 percent affordable building. Given the Project's proposed unit mix, the heights are necessary to achieve the Specific Plan's density requirements and to help the City meet its RHNA obligations, especially for Lower Income units. The Developer has prepared renderings and massing models demonstrating the increased heights, as shown on Sheet H-1 through H-13 in the Proposed Plans. For reference, the Shea Sage units closest to Interstate 580 are approximately 480 feet above mean sea level. The Project's tallest Planning Area along interstate 580 is approximately 495 feet above mean sea level.

City staff cannot make the required findings to deny any of the requested Waivers, the findings are shown in the Project Resolution. Therefore, the Planning Commission and

City Council are ministerially obligated to accept the proposed Waivers, pursuant to state law.

Incentives and Concessions

Given that the Project is providing 28 percent affordability, including almost 14 percent Lower Income units, the Project qualifies for two Incentives/ Concessions under state Density Bonus Law. In addition to the Waivers, the Developer is seeking one Incentive/ Concession to eliminate the required office FAR.

Although not required by state law, the applicant has provided an economic analysis of the current office market, as shown in the *Commercial and Office Economic Feasibility* study by *Kosmont*. The study notes that Livermore's office market has experienced negative absorption, meaning more vacant commercial spaces over time, large vacancy rates, and asking rents that cannot support construction prices. Therefore, office spaces in Livermore currently have a net negative residual land value and new office construction is financially infeasible or would result in a loss.

The Office of Innovation and Economic Development has reviewed the study and confirms its conclusions. Further, a reduction in office FAR would not endanger public health/ safety or the environment. For these reasons, staff cannot make the required findings of denial for the requested Incentive/ Concession, as shown in the Project Resolution. Therefore, the Planning Commission and City Council are ministerially obligated to accept the proposed Incentive/ Concession, pursuant to state law. Staff supports the proposed incentive/ concession, since it would allow for more active uses, like residential, in place of office uses that would likely be left unbuilt or unoccupied. Further, the elimination of office allows the City to better meet its RHNA obligations, and the Project still proposes to allow office uses along Main Street, although in lower quantities than envisioned by the Specific Plan.

Site Plan Design Review

The purpose of a Site Plan Design Review (Design Review) is to provide a process for the appropriate review of construction and development projects to ensure that all approved site and structural development is consistent with the General Plan, Specific Plan, and standards specified in the Development Code.

A Site Plan Design Review (Design Review) is one of several entitlements required for the Isabel Crossing Project approval. The Project is unique in that the scope is larger than any development in the City, it encompasses approximately 45 acres of vacant land zoned for different uses, it is the first master-planned transit-oriented development in the City, and the Design Review considers the master landscaping for Main Street, the open space parcels, the architecture, and development standards for each proposed parcel. When each parcel develops and before a Building Permit is issued, a secondary Design Review will be required for the landscaping inside all parcels (and surrounding some parcels). Future landscape Design Reviews will likely be at Staff level. If major changes

are proposed to the Project, Planning Commission and City Council approval would be required.

Development Standards

Chapter 2 of the Specific Plan identifies development standards for residential and non-residential uses. Development standards regulate the density/intensity, building heights, parking, open space, front, interior, rear, and side setbacks, building separation, alley and garage separation, porch separation, and building projections. These requirements are intended to promote compatibility between adjacent uses, protect key scenic views, and help establish a sense of neighborhood character.
