SUMMARY

On May 16, 2026, at approximately 5:15 p.m., an LVK tenant operating an experimental RV-10 aircraft struck the Airport's Genie aerial lift while taxiing near the intersection of the northwest ramp and Taxiway Juliet. The aerial lift was parked at the edge of the asphalt on the southwest corner of the tie-down area.

Airport staff notified the Livermore-Pleasanton Fire Department (LPFD), LVK Air Traffic Control Tower (ATCT), and the National Transportation Safety Board (NTSB). The NTSB determined the event to be a ground incident and advised that no further action was required on their part.

Five Rivers managed the cleanup operations and towed the aircraft back to its hangar. The pilot, who was the sole occupant of the aircraft, reported no injuries. Damage to the aerial lift is being addressed through the City's Risk Management Division and Public Works Fleet Division.
