Violations:
Site ID: 384213
Site Name: Admedes Inc.
Violation Date: 02-03-2015
Citation: 22 CCR 15 66265.177 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.177
Violation Description: Failure to ensure incompatible waste and/or materials are not placed or stored in the same container or nearby or into an unwashed container, which previously contained incompatible waste and/or materials, so that it does not potentially result in the following: 1) Generate extreme heat or pressure, fire or explosion, or violent reaction; 2) Produce uncontrolled toxic mists, fumes, dusts, or gases in sufficient quantities to threaten human health or the environment; 3) Produce uncontrolled flammable fumes or gases in sufficient quantities to pose a risk of fire or explosions; 4) Damage the structural integrity of the device or facility containing the waste; or 5) Through other like means threaten human health or the environment.
Violation Notes: Returned to compliance on 03/05/2015.
Violation Division: Livermore-Pleasanton FD
Violation Program: CA
Violation Source: CERS,

Site ID: 384213
Site Name: Admedes Inc.
Violation Date: 02-27-2013
Citation: 22 CCR 15 66265.52 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.52
Violation Description: Failure to include all of the following in the Contingency Plan: 1) A description of actions the facility personnel shall take response to fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water at the facility; 2) A description of arrangements agreed to by local police departments, fire departments, hospitals, contractors, and State and local emergency response teams to coordinate emergency services; 3) All names, addresses, and phone numbers (office and home) of all persons qualified to act as emergency coordinator and this list shall be kept up to date. Where more than one person is listed, one shall be named as primary emergency coordinator and others shall be listed in the order in which they will

ADMEDES INC. (Continued) **S121770719**

assume responsibility as alternates; 4) A list of all emergency equipment at the facility (such as fire extinguishing systems, spill control equipment, communications and alarm systems (internal and external), and decontamination equipment), where this equipment is required. This list shall be kept up to date. In addition, the plan shall include the location and a physical description of each item on the list, and a brief outline of its capabilities; 5) An evacuation plan for facility personnel where there is a possibility that evacuation could be necessary. This plan is to describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes (in cases where the primary routes could be blocked by releases of hazardous waste or fires); 6) The current telephone number of the California Emergency Management Agency; and 7) If the owner or operator has already prepared a Spill Prevention, Control, and Countermeasures (SPCC) or some other emergency or contingency plan, the owner or operator need only amend that plan to incorporate hazardous waste management provisions that are sufficient to comply with the requirements of this chapter.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	IGNITABLE WASTE
Waste Code:	D002
Waste Description:	CORROSIVE WASTE
Waste Code:	D009
Waste Description:	MERCURY

ADMEDES INC (Continued) **1014387367**

Waste Code: D011
Waste Description: SILVER

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F006
Waste Description: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

Waste Code: U159
Waste Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Comments:	Not reported
Description:	Caller states a 300 gallon tank was being refilled with De-Ionized water. The tank had a valve left open which resulted in the release. Caller states substance released to a storm drain. Caller states this occurred between 2330 Hrs 09/23/13 and 0630 Hrs 09/24/13. Caller states this was a continual release as water was going into the tank and exiting from the open valve on the tank. Caller stated that the release was a solution of approximately 99% De-Ionized water and 1% Industrial Salt. Caller states the valve has been closed and the release is secure. Clean-up has been completed.

Violation Date: 07-17-2015
Citation: 22 CCR 23 66273.35 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.35
Violation Description: Failure of the universal waste handler to properly process accumulated universal waste within a maximum accumulation time of one year and /or demonstrate the length of time that the universal waste has been accumulated from the date it became a waste or was received. The universal waste handler may make this demonstration by: 1) Placing the universal waste in a container and marking or labeling the container with the earliest date that any universal waste in the container became a waste or was received; 2) Marking or labeling the individual item of universal waste (e.g., each battery or thermostat) with the date it became a waste or was received; 3) Maintaining an inventory system onsite that identifies the date the universal waste being accumulated became a waste or was received; 4) Maintaining an inventory system onsite that identifies the earliest date that any universal waste in a group of items of universal waste or a group of containers of universal waste became a waste or was received; 5) Placing the universal waste in a specific accumulation area and marking or labeling the area to identify the earliest date that any universal waste in the area became a waste or was received; or 6) Any other method which clearly demonstrates the length of time that the universal waste has been accumulated from the date it became a waste or was received.
Violation Notes: Returned to compliance on 08/25/2015.

Environmental Interest/Information System:
AIR EMISSIONS CLASSIFICATION UNKNOWN
US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
STATE MASTER
HAZARDOUS WASTE BIENNIAL REPORTER
US EPA Risk Management Plan (RMP) database stores the risk management plans reported by companies that handle, manufacture, use, or store certain flammable or toxic substances, as required under section 112(r) of the Clean Air Act (CAA).

Reclamation: Not reported
POTW: Not reported
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Waste Description: ARSENIC

Waste Code: D005
Waste Description: BARIUM

Waste Code: D006
Waste Description: CADMIUM

Waste Code: D007
Waste Description: CHROMIUM

Waste Code: D008
Waste Description: LEAD

Waste Code: D009
Waste Description: MERCURY

Waste Code: D010
Waste Description: SELENIUM

COSTCO WHOLESALE (Continued) **1001023189**

Waste Code: D011
Waste Description: SILVER

Waste Code: D013
Waste Description: LINDANE (1,2,3,4,5,6-HEXA-CHLOROCYCLOHEXANE, GAMMA ISOMER)

Waste Code: D016
Waste Description: 2,4-D (2,4-DICHLOROPHENOXYACETIC ACID)

Waste Code: D018
Waste Description: BENZENE

Waste Code: D022
Waste Description: CHLOROFORM

Waste Code: D024
Waste Description: M-CRESOL

Waste Code: D026
Waste Description: CRESOL

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: D040
Waste Description: TRICHLORETHYLENE

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: P001
Waste Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Waste Code: P046
Waste Description: ALPHA,ALPHA-DIMETHYLPHENETHYLAMINE (OR) BENZENEETHANAMINE, ALPHA, ALPHA-DIMETHYL-

COSTCO WHOLESALE (Continued) **1001023189**

Waste Code: P075
Waste Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Waste Code: P188
Waste Description: BENZOIC ACID, 2-HYDROXY-, COMPD. WITH (3AS-CIS)-1,2,3,3A,8,8A-HEXAHYDRO-1,3A,8-TRIMETHYLPYRROLO[2,3-B]INDOL-5-YL METHYLCARBAMATE ESTER (1:1) (OR) PHYSOSTIGMINE SALICYLATE

Waste Code: P204
Waste Description: PHYSOSTIGMINE (OR) PYRROLO[2,3-B]INDOL-5-OL, 1,2,3,3A,8,8A-HEXAHYDRO-1,3A,8-TRIMETHYL-METHYLCARBAMATE (ESTER), (3AS-CIS)-

Waste Code: U010
Waste Description: AZIRINO [2',3':3,4]PYRROLO[1,2-A]INDOLE-4,7-DIONE, 6-AMINO-8-[[(AMINOCARBONYL)OXY]METHYL]-1,1A,2,8,8A,8B-HEXAHYDRO-8A-METHOXY-5-METHYL-, [1AS-(1AALPHA, 8BETA, 8AALPHA, 8BALPHA)]- (OR) MITOMYCIN C

Waste Code: U015
Waste Description: AZASERINE (OR) L-SERINE, DIAZOACETATE (ESTER)

Waste Code: U034
Waste Description: ACETALDEHYDE, TRICHLORO- (OR) CHLORAL

Waste Code: U035
Waste Description: BENZENEBUTANOIC ACID, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) CHLORAMBUCIL

Waste Code: U044
Waste Description: CHLOROFORM (OR) METHANE, TRICHLORO-

Waste Code: U057
Waste Description: CYCLOHEXANONE (I)

Waste Code: U058
Waste Description: 2H-1,3,2-OXAZAPHOSPHORIN-2-AMINE, N,N-BIS(2-CHLOROETHYL)TETRAHYDRO-, 2-OXIDE (OR) CYCLOPHOSPHAMIDE

Waste Code: U059
Waste Description: 5,12-NAPHTHACENEDIONE, 8-ACETYL-10-[(3-AMINO-2,3,6-TRIDEOXY)-ALPHA-L-LYXO-HEXOPYRANOSYL)OXY]-7,8,9,10-TETRAHYDRO-6,8,11-TRIHYDROXY-1-METHOXY-, (8S-CIS)- (OR) DAUNOMYCIN

Waste Code: U075
Waste Description: DICHLORODIFLUOROMETHANE (OR) METHANE, DICHLORODIFLUORO-

Waste Code: U089
Waste Description: DIETHYLSTILBESTEROL (OR) PHENOL, 4,4'-(1,2-DIETHYL-1,2-ETHENEDIYL)BIS, (E)-

Waste Code: U121
Waste Description: METHANE, TRICHLOROFLUORO- (OR) TRICHLOROMONOFLUOROMETHANE

Waste Code: U122
Waste Description: FORMALDEHYDE

COSTCO WHOLESALE (Continued) **1001023189**

Waste Code: U129
Waste Description: CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE

Waste Code: U132
Waste Description: HEXACHLOROPHENE (OR) PHENOL, 2,2'-METHYLENEBIS[3,4,6-TRICHLORO-

Waste Code: U150
Waste Description: L-PHENYLALANINE, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) MELPHALAN

Waste Code: U151
Waste Description: MERCURY

Waste Code: U159
Waste Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Waste Code: U182
Waste Description: 1,3,5-TRIOXANE, 2,4,6-TRIMETHYL- (OR) PARALDEHYDE

Waste Code: U187
Waste Description: ACETAMIDE, N-(4-ETHOXYPHENYL)- (OR) PHENACETIN

Waste Code: U188
Waste Description: PHENOL

Waste Code: U200
Waste Description: RESERPINE (OR) YOHIMBAN-16-CARBOXYLIC ACID, 11,17-DIMETHOXY-18-[(3,4,5-TRIMETHOXYBENZOYL)OXY]-, METHYL ESTER, (3BETA, 16BETA, 17ALPHA, 18BETA, 20ALPHA)-

Waste Code: U201
Waste Description: 1,3-BENZENEDIOL (OR) RESORCINOL

Waste Code: U205
Waste Description: SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)

Waste Code: U206
Waste Description: D-GLUCOSE, 2-DEOXY-2-[[(METHYLNITROSOAMINO)-CARBONYL]AMINO]- (OR) GLUCOPYRANOSE, 2-DEOXY-2-(3-METHYL-3-NITROSOUREIDO)-,D- (OR) STREPTOZOTOCIN

Waste Code: U220
Waste Description: BENZENE, METHYL- (OR) TOLUENE

Waste Code: U237
Waste Description: 2,4-(1H,3H)-PYRIMIDINEDIONE, 5-[BIS(2-CHLOROETHYL)AMINO]- (OR) URACIL MUSTARD

Waste Code: U239
Waste Description: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Waste Code: U240
Waste Description: 2,4-D, SALTS & ESTERS (OR) ACETIC ACID, (2,4-DICHLOROPHENOXY)-, SALTS & ESTERS (OR) DICHLOROPHENOXYACETIC ACID 2,4-D

Waste Code: U279
Waste Description: U279

Environmental Interest/Information System:
AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

TSD EPA ID: NVT330010000
CA Waste Code: 331 - Off-specification, aged or surplus organics
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 0.3125

Year: 2021
Gepaid: CAR000005470
TSD EPA ID: NVT330010000
CA Waste Code: 181 - Other inorganic solid waste
Disposal Method: H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons: 0.0015

Year: 2021
Gepaid: CAR000005470
TSD EPA ID: IDD073114654
CA Waste Code: 791 - Liquids with pH <= 2
Disposal Method: H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons: 0.0285

Year: 2021
Gepaid: CAR000005470
TSD EPA ID: IDD073114654
CA Waste Code: 122 - Alkaline solution without metals pH >= 12.5
Disposal Method: H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons: 0.0175

Year: 2021
Gepaid: CAR000005470
TSD EPA ID: CAT080013352
CA Waste Code: 134 - Aqueous solution with total organic residues less than 10 percent
Disposal Method: H039 - Other Recovery Of Reclamation For Reuse Including Acid Regeneration, Organics Recovery Ect
Tons: 0.39765

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	IGNITABLE WASTE
Waste Code:	D002
Waste Description:	CORROSIVE WASTE
Waste Code:	F003
Waste Description:	THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT

MILLS PENINSULA HEALTH SVCS (Continued) **1010783700**

MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RAB:	Not reported
NPL Status:	Not Listed
Description:	The Livermore Outer Landing Field was located in the city of Livermore, about 40 miles east of San Francisco. A 12th Naval District map titled, "O.L.F. Livermore, Livermore Intermediate" depicts a sod runway, house, "CAA building," rotating course beacon, wind sock, landing lights, operations shack, gasoline pump, and wind tee. The gasoline pump, operations shack, and wind tee were located just inside the northern border of the property. The map does not indicate whether

LIVERMORE NAVY AUXILIARY FIELD (Continued) **1007211939**

an underground storage tank was associated with the gasoline pump.This property is known or suspected to contain military munitions and explosives of concern (e.g., unexploded ordnance) and therefore may present an explosive hazard.

History: Beginning 1 June 1943, the Livermore Outer Landing Field was used for primary flight training by pilots stationed at Naval Air Station Livermore. We have been unable to obtain any detailed information regarding the use of this facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 07/29/2022

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006
Date Data Arrived at EDR: 03/01/2007

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.
Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.
Private Schools

GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

VACANT LAND
2620 & 2768 COLLIER CANYON RD
LIVERMORE, CA 94551

TARGET PROPERTY COORDINATES

Latitude (North):	37.702924 - 37ˆ 42’ 10.53’’
Longitude (West):	121.807036 - 121ˆ 48’ 25.33’’
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	605164.7
UTM Y (Meters):	4173319.2
Elevation:	420 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12008728 LIVERMORE, CA
Version Date:	2018

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

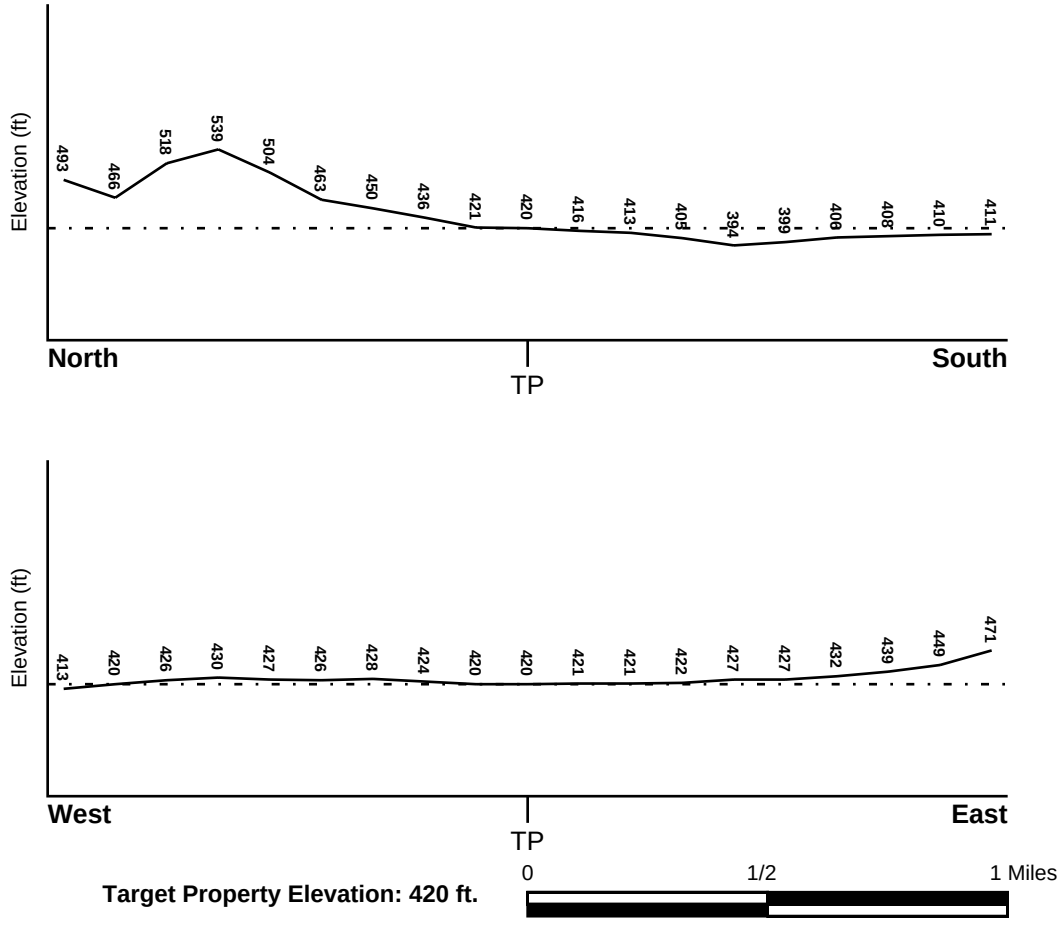
1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).



TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06001C0333G	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06001C0329G	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
LIVERMORE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
29	1/2 - 1 Mile WSW	SW
1G	1/2 - 1 Mile WSW	SW

For additional site information, refer to Physical Setting Source Map Findings.

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Diablo

Soil Surface Texture: clay

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9
2	14 inches	42 inches	silty clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9
3	42 inches	59 inches	silty clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: Rincon

Soil Surface Texture: clay loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	16 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9
2	16 inches	51 inches	sandy clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9
3	51 inches	59 inches	stratified sandy loam to clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Hello Hagop,

The San Francisco Bay Regional Water Board received your December 20, 2022 file review request, which seeks records related to the addresses as described below. Based on a thorough search, the San Francisco Bay Water Board does not possess any records responsive to your request.

I would recommend contacting the local agency, Alameda County Health Department, LOP for any further information they may have.

Thank you and happy holidays!

Public Records Request Number: PR2-122022-02

Location: 2620 & 2768 Collier Canyon Road
Livermore, CA 94551
APNs: 905-15-8, 905-15-26, 905-15-27, 905-15-28, & 905-15-29

Dear Mr. Tatian:

We have received your Public Records Act Request at the Department of Toxic Substances Control (DTSC). Upon thorough review of our files, we found no records pertaining to the site(s) referenced above.

For information regarding public reports on hazardous waste shipments of generators, transporters, and TSDFs, you can access our Hazardous Waste Tracking System (HWTS) online at: https://hwts.dtsc.ca.gov/. Select the “Reports” tab for search options. If you are interested in retrieving detailed reports, please contact the HWTS unit via e-mail: hwtsreports@dtsc.ca.gov or phone: 1-800-618-6942. Customized reports may require a fee. For copies of manifests, please send an e-mail to mcr@dtsc.ca.gov.

In addition, the DTSC provides access to public records online via EnviroStor; another data management system that tracks our efforts in cleanup, permitting, enforcement, and investigation of known/suspected hazardous waste sites and facilities. The available data is updated in real-time. You can access Envirostor online at www.envirostor.dtsc.ca.gov. Navigate the website easily by clicking the "How to Use EnviroStor" tab, then selecting the option “Take a Tour.”

If you have any questions or would like further information regarding your request, please contact me via phone: 510-540-3800 or e-mail: Berkeleyfileroom@dtsc.ca.gov.

Best regards,

REGULATORY RECORDS SEARCH

ALAMEDA COUNTY
DEPARTMENT OF ENVIRONMENTAL HEALTH

Hagop Tatian

From: Dooha-Chambers, Joel, Env. Health <Joel.Dooha-Chambers2@acgov.org>
Sent: Tuesday, December 20, 2022 3:26 PM
To: Hagop Tatian
Subject: Re: PRA Request

Thank you for contacting Alameda County Department of Environmental Health (ACDEH) Certified Unified Program Agency (CUPA) for your Public Records Act Request.

We have no ACDEH CUPA records for the address(es) you requested.

Please note that ACDEH CUPA only has files for sites within its jurisdiction and some cities within Alameda County are not part of the ACDEH CUPA jurisdiction. In those cases we advise that you contact the Fire or Planning Department of that city for any records. **Please view our Jurisdiction List in this link:**
https://deh.acgov.org/hazmat-assets/docs/CUPA-jurisdictions.pdf

In addition, ACDEH has other divisions which may have records for the requested address(es). I have listed the divisions below and who to contact to acquire records if relevant.

- Solid/Medical Waste

  Contact: LaTresca Porter at latresca.porter@acgov.org

- Operations Division (retail food, recreation, and tattoo parlors)

  Contact: dehwebmain@acgov.org

- Vector Control Division

  Contact: Daniel Wilson at daniel.wilson@acgov.org

- Land and Water Division (Local Oversite Program (LOP) and Onsite Wastewater Treatment Systems)

  The links listed below may be helpful to gather information on LOP sites. The search on the geotracker link may be conducted by address or site name. If you cannot find documents you are searching for then please contact LOP directly.
  Contact: deh.loptoxic@acgov.org
  https://deh.acgov.org/landwater/index.page
  http://geotracker.waterboards.ca.gov/

Due to the COVID-19 pandemic, all requested files are provided electronically.
However, once the precautionary measures related to COVID-19 are lifted, our office may make files available by appointment for review on Thursdays and Fridays from 9:00 AM until 12:00 noon. We will keep our requestors aware of this situation as it progresses.

Please send all future requests to dehcupafilereview@acgov.org.

Please reach out to us if you have any further questions or clarifications.

Thank you,
Joel Dooha-Chambers

Subject: Re: PRA Request

Thank you for contacting Alameda County Department of Environmental Health (ACDEH) Certified Unified Program Agency (CUPA) for your Public Records Act Request.

We have no ACDEH CUPA records for the address(es) you requested.

Please note that ACDEH CUPA only has files for sites within its jurisdiction and some cities within Alameda County are not part of the ACDEH CUPA jurisdiction. In those cases we advise that you contact the Fire or Planning Department of that city for any records. **Please view our Jurisdiction List in this link:**
https://deh.acgov.org/hazmat-assets/docs/CUPA-jurisdictions.pdf

In addition, ACDEH has other divisions which may have records for the requested address(es). I have listed the divisions below and who to contact to acquire records if relevant.

- Solid/Medical Waste

  Contact: LaTresca Porter at latresca.porter@acgov.org

- Operations Division (retail food, recreation, and tattoo parlors)

  Contact: dehwebmain@acgov.org

- Vector Control Division

  Contact: Daniel Wilson at daniel.wilson@acgov.org

- Land and Water Division (Local Oversite Program (LOP) and Onsite Wastewater Treatment Systems)

  The links listed below may be helpful to gather information on LOP sites. The search on the geotracker link may be conducted by address or site name. If you cannot find documents you are searching for then please contact LOP directly.
  Contact: deh.loptoxic@acgov.org
  https://deh.acgov.org/landwater/index.page
  http://geotracker.waterboards.ca.gov/

Due to the COVID-19 pandemic, all requested files are provided electronically.
However, once the precautionary measures related to COVID-19 are lifted, our office may make files available by appointment for review on Thursdays and Fridays from 9:00 AM until 12:00 noon. We will keep our requestors aware of this situation as it progresses.

Please send all future requests to dehcupafilereview@acgov.org.

Please reach out to us if you have any further questions or clarifications.

Thank you,
Joel Dooha-Chambers

LIVERMORE
CALIFORNIA

(THIS IS AN AUTO-GENERATED RESPONSE FROM THE CITY OF LIVERMORE)

Dear Hagop T.:

Thank you for your interest in public records of City of Livermore. Your request has been received and is being processed in accordance with the The California Public Records Act ("CPRA") . Your request was received in this office on December 20, 2022 and given the reference number R000493-122022 for tracking purposes.

You can monitor the progress of your request in "My Request Center".

--- Please respond above this line ---

RE: PUBLIC RECORDS REQUEST of December 20, 2022, Reference # R000493-122022.

Dear Hagop T.,

We are treating your request as a request for public records in accordance with California Government Code Section 6250 and following (the California Public Records Act, or the "CPRA"). The CPRA requires that public agencies make reasonably identified, non-exempt public records available for inspection or provide copies upon payment of the direct costs of duplication. Specifically, you requested the following for 2620 & 2768 Collier Canyon Rd, Livermore, CA 94551 // APNs: 905-15-8, 905-15-26, 905-15-27, 905-15-28 & 905-15-29:

Request #1 - Building Records: Related to site history, including historic and current permit applications, certificates of occupancy and violations,
Request #2 - Fire Department Records: Related to documentation regarding Hazardous Materials (HAZMAT), Underground Storage Tanks (USTs) and any other environmental site assessment documentation

The CPRA obligates a public agency, within 10 days of receipt of a request, to determine whether the request seeks copies of disclosable public records and to notify the person making the request of the determination and the reasons therefore (Cal. Gov. Code § 6253(c).) This letter satisfies the City's requirement to respond to you within ten (10) days to notify you whether the records will be disclosed (Gov. Code § 6253(c).)

Responsive records for Request #1 are available on the Records Request Portal. The Fire Department is still conducting a search for Request #2. More information will be provided to you as soon the Fire Department concludes if they have responsive records. Select the link below to view your request.

City Public Records Request - R000493-122022

If you have any questions, or wish to discuss this further, please contact me.

Sincerely,

Clay James
Assistant City Clerk
City Clerk's Office

RE: PUBLIC RECORDS REQUEST of December 20, 2022, Reference # R000493-122022.

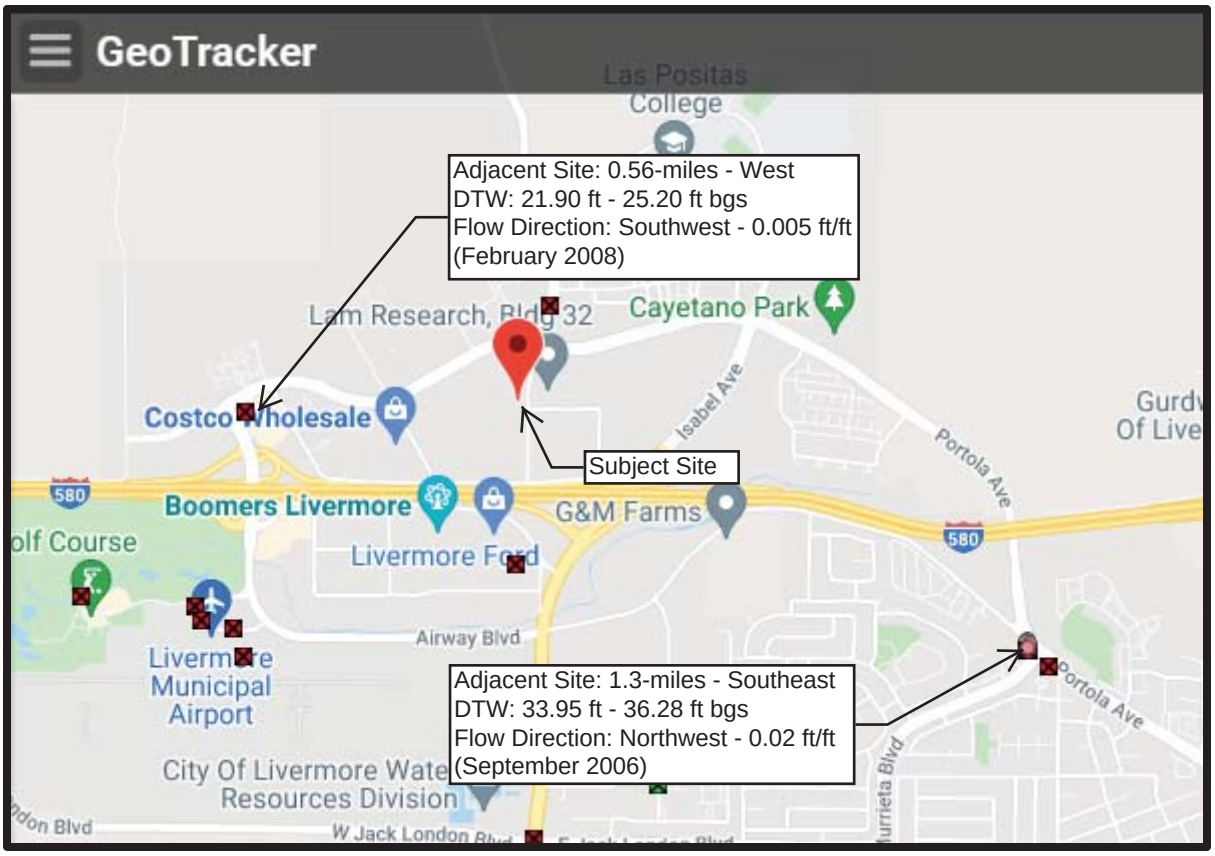
Dear Hagop T.,

The Fired Department has conducted a search on the requested addresses. No responsive records have been identified for hazardous materials (HAZMAT), underground storage tanks (USTs) and any other environmental site assessment documentation.

As mentioned previously, building records related to site history, including historic and current permit applications, certificates of occupancy and violations are available and can be found by clicking the link below:

City Public Records Request - R000493-122022

The City will now consider your request closed. If you have any questions, or wish to discuss this further, please contact me.



Sincerely,

Clay James
Assistant City Clerk
City Clerk's Office

RE: PUBLIC RECORDS REQUEST of December 20, 2022, Reference # R000493-122022.

Dear Hagop T.,

We are treating your request as a request for public records in accordance with California Government Code Section 6250 and following (the California Public Records Act, or the "CPRA"). The CPRA requires that public agencies make reasonably identified, non-exempt public records available for inspection or provide copies upon payment of the direct costs of duplication. Specifically, you requested the following for 2620 & 2768 Collier Canyon Rd, Livermore, CA 94551 // APNs: 905-15-8, 905-15-26, 905-15-27, 905-15-28 & 905-15-29:

Request #1 - Building Records: Related to site history, including historic and current permit applications, certificates of occupancy and violations,
Request #2 - Fire Department Records: Related to documentation regarding Hazardous Materials (HAZMAT), Underground Storage Tanks (USTs) and any other environmental site assessment documentation

The CPRA obligates a public agency, within 10 days of receipt of a request, to determine whether the request seeks copies of disclosable public records and to notify the person making the request of the determination and the reasons therefore (Cal. Gov. Code § 6253(c).) This letter satisfies the City's requirement to respond to you within ten (10) days to notify you whether the records will be disclosed (Gov. Code § 6253(c).)

Responsive records for Request #1 are available on the Records Request Portal. The Fire Department is still conducting a search for Request #2. More information will be provided to you as soon the Fire Department concludes if they have responsive records. Select the link below to view your request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

2620 & 2768 COLLIER CANYON RD	2017, 2014, 2009, 2006, 2004, 2000, 1996, 1994, 1993, 1992, 1991, 1982, 1980, 1976, 1973, 1967, 1962, 1959, 1956, 1955, 1954, 1951, 1950, 1946, 1945, 1943, 1940, 1938, 1933, 1932, 1928, 1926, 1925, 1920

APPENDIX E

USER QUESTIONNAIRE
AND TITLE REPORT

PHASE I ESA - USER QUESTIONNAIRE

KCE Matrix, Inc.

Site Address, APN, etc.: 2620 & 2768 Collier Canyon Road, Livermore, CA 94551

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

1. **Environmental cleanup liens that are filed or recorded against the site**
   Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law?
   ☒ **No** ☐ **Yes, please explain** _____

2. **Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry**
   Are you aware of any Activity and Use Limitations (AULs), such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?
   ☒ **No** ☐ **Yes, please explain** _____

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP**
   As the *user* of this *ESA,* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?
   ☒ **No** ☐ **Yes, please explain** _____

4. **Relationship of the purchase price to the fair market value of the *property* if it were not contaminated**
   Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?
   ☒ **Yes** ☐ **No, there is a difference between the purchase price and the fair market value**
   If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?
   please explain _____

5. **Commonly known or *reasonably ascertainable* information about the *property***
   Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user*,

   (a.) Do you know the past uses of the *property*?
   ☒ **No** ☐ **Yes, please explain** _____

   (b.) Do you know of specific chemicals that are present or once were present at the *property*?
   ☒ **No** ☐ **Yes, please explain** _____

   (c.) Do you know of spills or other chemical releases that have taken place at the *property*?
   ☒ **No** ☐ **Yes, please explain** _____

   (d.) Do you know of any environmental cleanups that have taken place at the *property*?
   ☒ **No** ☐ **Yes, please explain** _____

6. **The degree of obviousness of the presence of likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation**
   As the *user* of this *ESA*, based on your knowledge and experience related to the *property,* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?
   ☒ **No** ☐ **Yes, please explain** _____

Note: Landowner Liability Protections, or *LLPs*, is the term used to describe the three types of potential defenses to Superfund liability in EPA's *Interim Guidance Regarding Criteria Landowners Must Meet in Order to Qualify for Bona Fide Prospective Purchaser, Contiguous Property Owner, or Innocent Landowner Limitations on CERCLA Liability* ("*Common Elements*" Guide) issued on March 6, 2003.

PHASE I ESA - USER QUESTIONNAIRE

KCE Matrix, Inc.

In addition, certain information should be collected, if available, and provided to *KCE Matrix, Inc.* to conduct the Phase I Environmental Site Assessment. This information is intended to assist *KCE Matrix, Inc.* but is not necessarily required to qualify for one of the *LLPs*. The information includes:

(a) The reason why the Phase I Environmental Site Assessment is required,

City of Livermore application for vested tenative map

(b) The type of *property* and type of *property* transaction, for example, sale, purchase, exchange, etc.,

Entitlement to partial sale

(c) The complete and correct address for the *property* (a map or other documentation showing *property* location and boundaries is helpful)

2620 Collier Canyon Road, Livermore, California (2.66± acres) and the adjacent 4 parcels totalling 10.44± acres

(d) The scope of services desired for the Phase I (including whether any parties to the *property* transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 1527 are to be considered),

(e) Identification of all parties who will rely on the Phase I *report*,

(f) Identification of the site contact and how the contact can be reached,

Mark Pleis C: (925) 200-0615

(g) Any special terms and conditions which must be agreed upon by the *environmental professional*

(h) Any other knowledge or experience with the *property* that may be pertinent to the *environmental professional* for example, copies of any available prior *environmental site assessment reports*, documents, correspondence, etc., concerning the *property* and its environmental condition).

PHASE I ESA - USER QUESTIONNAIRE

KCE Matrix, Inc.

Vapor Encroachment Screening Section

1. **Property Type:**
☐ Commercial ☐ Industrial ☐ Multi Tenant ☒ Vacant Land

2. **Are there any building/structures on the property?**
☒ No ☐ Unknown ☐ Yes, type construction _____

3. **Will buildings/structures be constructed on the property in the future?**
☐ No ☐ Unknown ☒ Yes, type construction Residental

4. **If buildings exist or are proposed, do/will they have elevators?**
☒ Yes ☐ No

5. **Type of level below grade (existing or proposed)?**
☐ Full Basement ☐ Crawl Space ☒ Slab on Grade ☐ Parking Garage ☐ Multi-Level

6. **Ventilation in level below grade?**
☐ Yes ☐ No ☒ Unknown

7. **Sump pumps, floor drains, or trenches (existing or proposed)?**
☐ Yes ☐ No ☒ Unknown

8. **Radon or methane mitigation system installed?**
☐ Yes ☐ No ☒ Unknown

9. **Heating system type? (existing or proposed)? (CHECK ALL THAT APPLY)**

☐ Hot Air Circulation	☐ Electric Baseboard	☐ Hot Air Radiation	☐ Heat Pump
☐ Hot Water Radiation	☐ Wood Stove	☐ Kerosene Heater	☐ Steam Radiation
☐ Fireplace	☐ Coal Furnace	☐ Radiant Floor Heat	☐ Hot Water Circulation
☐ Fuel Oil Furnace	☐ Gas Furnace	☐ Other	

10. **Type of fuel energy? (existing or proposed)? (CHECK ALL THAT APPLY)**

☐ Natural Gas	☒ Electric	☐ Propane	☐ Fuel Oil
☐ Kerosene	☐ Wood	☐ Coal	☐ Solar
☐ Other			

11. **Have there ever been any environmental problems at the property?**
☒ No ☐ Unknown ☐ Yes, describe _____

12. **Does/will a gas station or dry cleaner operate anywhere on the property?**
☐ Yes ☒ No ☐ Unknown

13. **Do any tenants use hazardous chemicals in relatively large quantities on the property?**
☒ No ☐ Unknown ☐ Yes, describe _____

PHASE I ESA - USER QUESTIONNAIRE

KCE Matrix, Inc.

Vapor Encroachment Screening Section Continued:

14. **Have any tenants ever complained about odors in the building or experienced health related problems that may have been associated with the building?**
☐ Yes ■ No ☐ Unknown

15. **Are the operations (or proposed operations to be performed) on the property OSHA regulated?**
☐ Yes ☐ No ■ Unknown

16. **Are there any existing or proposed underground storage tanks (USTs) or above ground storage tanks (ASTs)?**
☐ Yes ■ No ☐ Unknown

17. **Are there any sensitive receptors (for example, children, elderly, people in poor health, and so forth) that occupy or will occupy the property?**
☐ Yes ☐ No ■ Unknown

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties*. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of December 22, 2022 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

ALTA Extended Loan Policy - 2006

ALTA Extended Owner Policy - 2006

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

CORNERSTONE FELLOWSHIP OF LIVERMORE CALIFORNIA, A CALIFORNIA NONPROFIT RELIGIOUS CORPORATION, AS TO PARCEL ONE AND YUET-MING CHU AND MIRIAM L. CHU, TRUSTEES UNDER THE CHU FAMILY TRUST AGREEMENT DATED NOVEMBER 13, 1986, AS TO PARCEL TWO

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A fee as to Parcel(s) One and Two, an easement as to Parcel(s) One-A.

The Land referred to herein is described as follows:

(See attached Legal Description)

At the date hereof exceptions to coverage in addition to the printed Exceptions and Exclusions in said policy form would be as follows:

1. General and special taxes and assessments for the fiscal year 2023-2024, a lien not yet due or payable.

2. General and special taxes and assessments for the fiscal year 2022-2023.

32. A Deed of Trust to secure an original indebtedness of $14,350,000.00 recorded September 1, 2015 as Instrument No. 2015242610 , Alameda County Official Records.

Dated:	August 27, 2015
Trustor:	Cornerstone Fellowship of Livermore California, a California non-profit religious corporation
Trustee:	First Santa Clara Corporation, a California corporation
Beneficiary:	Bank of the West, a California banking corporation
Affects:	The land and other property.

The above deed of trust states that it secures an equity line/revolving line of credit.

A document disclosing an additional advance in the amount of $7,500,000.00, recorded August 01, 2016 as Instrument No. 2016192346 of Official Records.

A document recorded August 01, 2016 as Instrument No. 2016192346 of Official Records provides that the deed of trust or the obligation secured thereby has been modified.

A document recorded September 15, 2017 as Instrument No. 2017202668 of Official Records provides that the deed of trust or the obligation secured thereby has been modified.

33. Any claim that any portion of the land is below the ordinary high water mark where it was located prior to any artificial or avulsive changes in the location of the shoreline or riverbank.

34. Any rights, interests, or easements in favor of the public, which exist or are claimed to exist over any portion of said land covered by water, including a public right of access to the water.

35. Any claim that any portion of the land is or was formerly tidelands or submerged lands.

The Following Matters Affect Parcel Two:

36. An easement for public highway and incidental purposes, recorded April 29, 1937 as Book 3489, Page 74 of Official Records.
In Favor of: County of Alameda
Affects: An Easterly portion of the land, (over Collier Canyon Road or County Road No. 7749)

37. An offer of dedication for Storm drain and incidental purposes, recorded September 10, 1999 as Instrument No. 99347156 of Official Records.
To: City of Livermore, a municipal corporation

The effect of a document entitled "Acceptance of Irrevocable Offer of Dedication", recorded February 3, 2003 as Instrument No. 2003062799 of Official Records.

The Following Matters Affect All Parcels:

38. Any easements and/or servitudes affecting easement parcel(s) One-A herein described.

38A. Water rights, claims or title to water, whether or not shown by the public records.

39. Rights of the public in and to that portion of the Land lying within any Road, Street, Alley or Highway.

40. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.

41. Rights of parties in possession.

Prior to the issuance of any policy of title insurance, the Company will require:

42. With respect to Cornerstone Fellowship of Livermore California, a California nonprofit religious corporation:
a. A certificate of good standing of recent date issued by the Secretary of State of the corporation's state of domicile.
b. A certified copy of a resolution of the Board of Directors authorizing the contemplated transaction and designating which corporate officers shall have the power to execute on behalf of the corporation.
c. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

(Affects Parcel One)

43. With respect to the trust referred to in the vesting:
a. A certification pursuant to Section 18100.5 of the California Probate Code in a form satisfactory to the Company.
b. Copies of those excerpts from the original trust documents and amendments thereto which designate the trustee and confer upon the trustee the power to act in the pending transaction.
c. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require.

(Affects Parcel Two)

44. An ALTA/NSPS survey of recent date which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys.

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

1. The property covered by this report is vacant land.

2. According to the public records, there has been no conveyance of the land within a period of twenty-four months prior to the date of this report, except as follows:

   None

3. We find no outstanding voluntary liens of record affecting subject property. Disclosure should be made concerning the existence of any unrecorded lien or other indebtedness which could give rise to any possible security interest in the subject property.

   Affects: Parcel Two

The map attached, if any, may or may not be a survey of the land depicted hereon. First American expressly disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public, records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;

d. improvements on the Land;
e. land division; and
f. environmental protection.
This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.

2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 19:	1% of Policy Amount Shown in Schedule A or $5,000 (whichever is less)	$25,000
Covered Risk 21:	1% of Policy Amount Shown in Schedule A or $2,500 (whichever is less)	$5,000

2006 ALTA LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

(c) resulting in no loss or damage to the Insured Claimant;
(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
(a) a fraudulent conveyance or fraudulent transfer, or
(b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

[Except as provided in Schedule B - Part II,[t[or T]his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

[PART I

[The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:]

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

(i) the occupancy, use, or enjoyment of the Land;
(ii) the character, dimensions, or location of any improvement erected on the Land;
(iii) the subdivision of land; or
(iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
(a) created, suffered, assumed, or agreed to by the Insured Claimant;
(b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

(c) resulting in no loss or damage to the Insured Claimant;
(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 or 10); or
(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.

4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
(a) a fraudulent conveyance or fraudulent transfer, or
(b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:
[The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. [Variable exceptions such as taxes, easements, CC&R's, etc. shown here.]

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

    (i) the occupancy, use, or enjoyment of the Land;
    (ii) the character, dimensions, or location of any improvement erected on the Land;
    (iii) the subdivision of land; or
    (iv) environmental protection;

    or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
    (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
(a) created, suffered, assumed, or agreed to by the Insured Claimant;
(b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
(c) resulting in no loss or damage to the Insured Claimant;
(d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
(e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the

Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Privacy Information
We Are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information - particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our subsidiaries we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information that you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record or from another person or entity. First American has also adopted broader guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values.

Types of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:
- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information
We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers
Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American's Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Information Obtained Through Our Web Site
First American Financial Corporation is sensitive to privacy issues on the Internet. We believe it is important you know how we treat the information about you we receive on the Internet.
In general, you can visit First American or its affiliates' Web sites on the World Wide Web without telling us who you are or revealing any information about yourself. Our Web servers collect the domain names, not the e-mail addresses, of visitors. This information is aggregated to measure the number of visits, average time spent on the site, pages viewed and similar information. First American uses this information to measure the use of our site and to develop ideas to improve the content of our site.
There are times, however, when we may need information from you, such as your name and email address. When information is needed, we will use our best efforts to let you know at the time of collection how we will use the personal information. Usually, the personal information we collect is used only by us to respond to your inquiry, process an order or allow you to access specific account/profile information. If you choose to share any personal information with us, we will only use it in accordance with the policies outlined above.

Business Relationships
First American Financial Corporation's site and its affiliates' sites may contain links to other Web sites. While we try to link only to sites that share our high standards and respect for privacy, we are not responsible for the content or the privacy practices employed by other sites.

Cookies
Some of First American's Web sites may make use of "cookie" technology to measure site activity and to customize information to your personal tastes. A cookie is an element of data that a Web site can send to your browser, which may then store the cookie on your hard drive.
FirstAm.com uses stored cookies. The goal of this technology is to better serve you when visiting our site, save you time when you are here and to provide you with a more meaningful and productive Web site experience.

Fair Information Values
Fairness We consider consumer expectations about their privacy in all our businesses. We only offer products and services that assure a favorable balance between consumer benefits and consumer privacy.
Public Record We believe that an open public record creates significant value for society, enhances consumer choice and creates consumer opportunity. We actively support an open public record and emphasize its importance and contribution to our economy.
Use We believe we should behave responsibly when we use information about a consumer in our business. We will obey the laws governing the collection, use and dissemination of data.
Accuracy We will take reasonable steps to help assure the accuracy of the data we collect, use and disseminate. Where possible, we will take reasonable steps to correct inaccurate information. When, as with the public record, we cannot correct inaccurate information, we will take all reasonable steps to assist consumers in identifying the source of the erroneous data so that the consumer can secure the required corrections.
Education We endeavor to educate the users of our products and services, our employees and others in our industry about the importance of consumer privacy. We will instruct our employees on our fair information values and on the responsible collection and use of data. We will encourage others in our industry to collect and use information in a responsible manner.
Security We will maintain appropriate facilities and systems to protect against unauthorized access to and corruption of the data we maintain.

AIR EMISSIONS CLASSIFICATION UNKNOWN

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

APPENDIX H

QUALIFICATIONS
OF
ENVIRONMENTAL PROFESSIONALS

ARAM B. KALOUSTIAN, P.E.
Principal

Mr. Aram Kaloustian has diversified experience in environmental, mechanical and civil engineering including indoor air quality surveys for mold and ventilation systems, asbestos and lead-based paint assessments, Phase I environmental surveys, subsurface environmental site assessments, remedial design, remediation system installation and operation, negotiations with regulatory agencies, computer modeling, research of new environmental investigative and remedial technologies, safety engineering and project management.

Mr. Kaloustian has conducted numerous assessments involving indoor air quality, asbestos and lead-based paint surveys and associated remediation projects by establishing investigative protocol, implementing efficient assessment strategies, and applying the site specific and appropriate remedial recommendations to all assessed projects. Mr. Kaloustian has also designed a variety of protocols for remedial and post-remedial monitoring services for a wide variety of project sites.

Mr. Kaloustian has conducted numerous historical and background Phase I investigations involving review of files located at various county health departments, water quality control boards, state departments of health, air quality management districts, city building departments, city departments of public works and city fire departments. These investigations also involved searches of state and federal databases for hazardous waste sites, generators, transporters and treatment/storage/disposal facilities, title searches, aerial photo reviews and visual site inspections.

Mr. Kaloustian has extensive subsurface site assessment experience involving underground storage tanks, exploratory borings and monitoring wells, implementation of monitoring and sampling programs, evaluation of monitoring and sampling data, review of historical site and site vicinity information, agency negotiations, and assessment and remediation recommendations.

Mr. Kaloustian's remedial design experience includes various vapor extraction and groundwater remediation systems for remediation of soil and groundwater impacted by hydrocarbon contamination. Mr. Kaloustian has designed and implemented vapor extraction treatment systems that have included internal combustion engines, catalytic thermal oxidizers and carbon adsorption. Groundwater treatment systems have included spray aeration tanks, carbon adsorption and air strippers.

Regulatory compliance experience includes obtaining permits for removal of underground storage tanks, drilling exploratory borings, installation of monitoring wells, and installation of vapor extraction treatment systems and groundwater treatment systems. This has required working with local county health departments, city departments of public works, city fire departments, air quality management districts, a number of publicly owned treatment works and the California Regional Water Quality Control Board.

Mr. Kaloustian has also constructed and evaluated various computer models for site assessment and remediation including models used to evaluate the vacuum influence of vapor extraction systems, the radius of influence of groundwater extraction, fate and transport analysis of contaminant's, and aquifer test data.

Mr. Kaloustian has also participated and has been the lead engineer in the research and development of new investigative and remedial techniques involving indoor air quality, horizontal drilling; and treatment of contaminated soil and sludge materials using remedial surfactants, bioremediation, soil washing, encapsulation and modified oxidation. Additional research experience includes participation in the South Coast Air Quality Survey in 1987 for research involving atmospheric chemistry.

Throughout the years, Mr. Kaloustian has also maintained certification and continuing education for Hazardous Waste Operations and Emergency Response (29CFR1910.120) and supervisory training; and has developed site specific health and safety plans for site assessment and remediation. Mr. Kaloustian has also been responsible for the development and implementation of a safety procedures manual for environmental assessment and remediation firms.

TRANSPORTATION ASSESSMENT

FEHR PEERS

Memorandum

Date: January 11, 2023

To: Mark D. Pleis, Lee & Associates – East Bay, Inc.

From: Bill Burton, Dana Ebe, Fehr & Peers

Subject: Cornerstone Church and Chu Property Residential Development – Transportation Assessment

WC22-3950

This memorandum has been prepared to summarize our evaluation of the potential transportation impacts resulting from the development of a multi-family residential project (the Project) on the Cornerstone Church and Chu property in Livermore, California. The Project proposes the development of 139 market rate multifamily units and 110 affordable units on a currently vacant property located at the intersection of Collier Canyon Road and Constitution Drive. The site is located within the Isabel Neighborhood Specific Plan Area and the land uses proposed are consistent with the assumptions of that study and its associated environmental documentation.

A transportation assessment is required by the City of Livermore (the City) prior to Project entitlement and the scope of this study was developed with the input of City staff. This memorandum describes the Project, its setting in Livermore, and the estimated total daily and peak hour trip generation resulting from the development. The memorandum also includes a review of the Project trip generation characteristics and a comparison to the assumptions and land uses included within the Isabel Neighborhood Specific Plan (INSP) Draft Environmental Impact Report (DEIR). In addition, the memorandum includes a review of the Project's site proposed plan relating to vehicles, bicycles, pedestrians, transit, emergency vehicle access and parking.

Project Transportation Characteristics

The Project site is located within the Isabel Neighborhood area of the City of Livermore, bound by Constitution Drive to the south, Collier Canyon Road to the east, and Collier Creek to the north and west. The proposed Project seeks to develop 139 multifamily residential townhouses and 110 affordable residential units. In addition, the Project would include a linear park/trail on the west side of the site, as well as two pocket parks for the use of future residents, totaling 2.7 acres of

park in combination. The Project would provide 388 off street parking spaces, including 18 guest parking spaces, one accessible parking space, and two electric vehicle (EV) parking spaces. Vehicular access to the site and parking would be provided via two new two driveways on Collier Canyon Road. The Project's proposed site plan is shown on **Figure 1**.

Trip Generation

Trip generation refers to the process of estimating the amount of vehicular traffic a project would add to the surrounding roadway system. Estimates are created for the peak one-hour periods during the weekday morning and evening commute hours when traffic volumes on adjacent streets are typically at their highest and the project is expected to generate the most traffic. Project trip generation was estimated using rates from the Institute of Transportation Engineers (ITE) *Trip Generation Manual* (11th Edition). The ITE Trip Generation Manual is a published guide providing trip generation rates for various land uses and is considered the industry standard for transportation professionals for evaluating the potential transportation outcomes of various land use decisions within the United States. The results are presented in **Table 1**. The proposed multifamily housing units are anticipated to generate 937 daily trips, 56 AM peak hour trips, and 71 PM peak hour trips on a typical weekday. The proposed affordable housing units are anticipated to generate 529 daily trips, 40 AM peak hour trips, and 51 PM peak hour trips on a typical weekday.

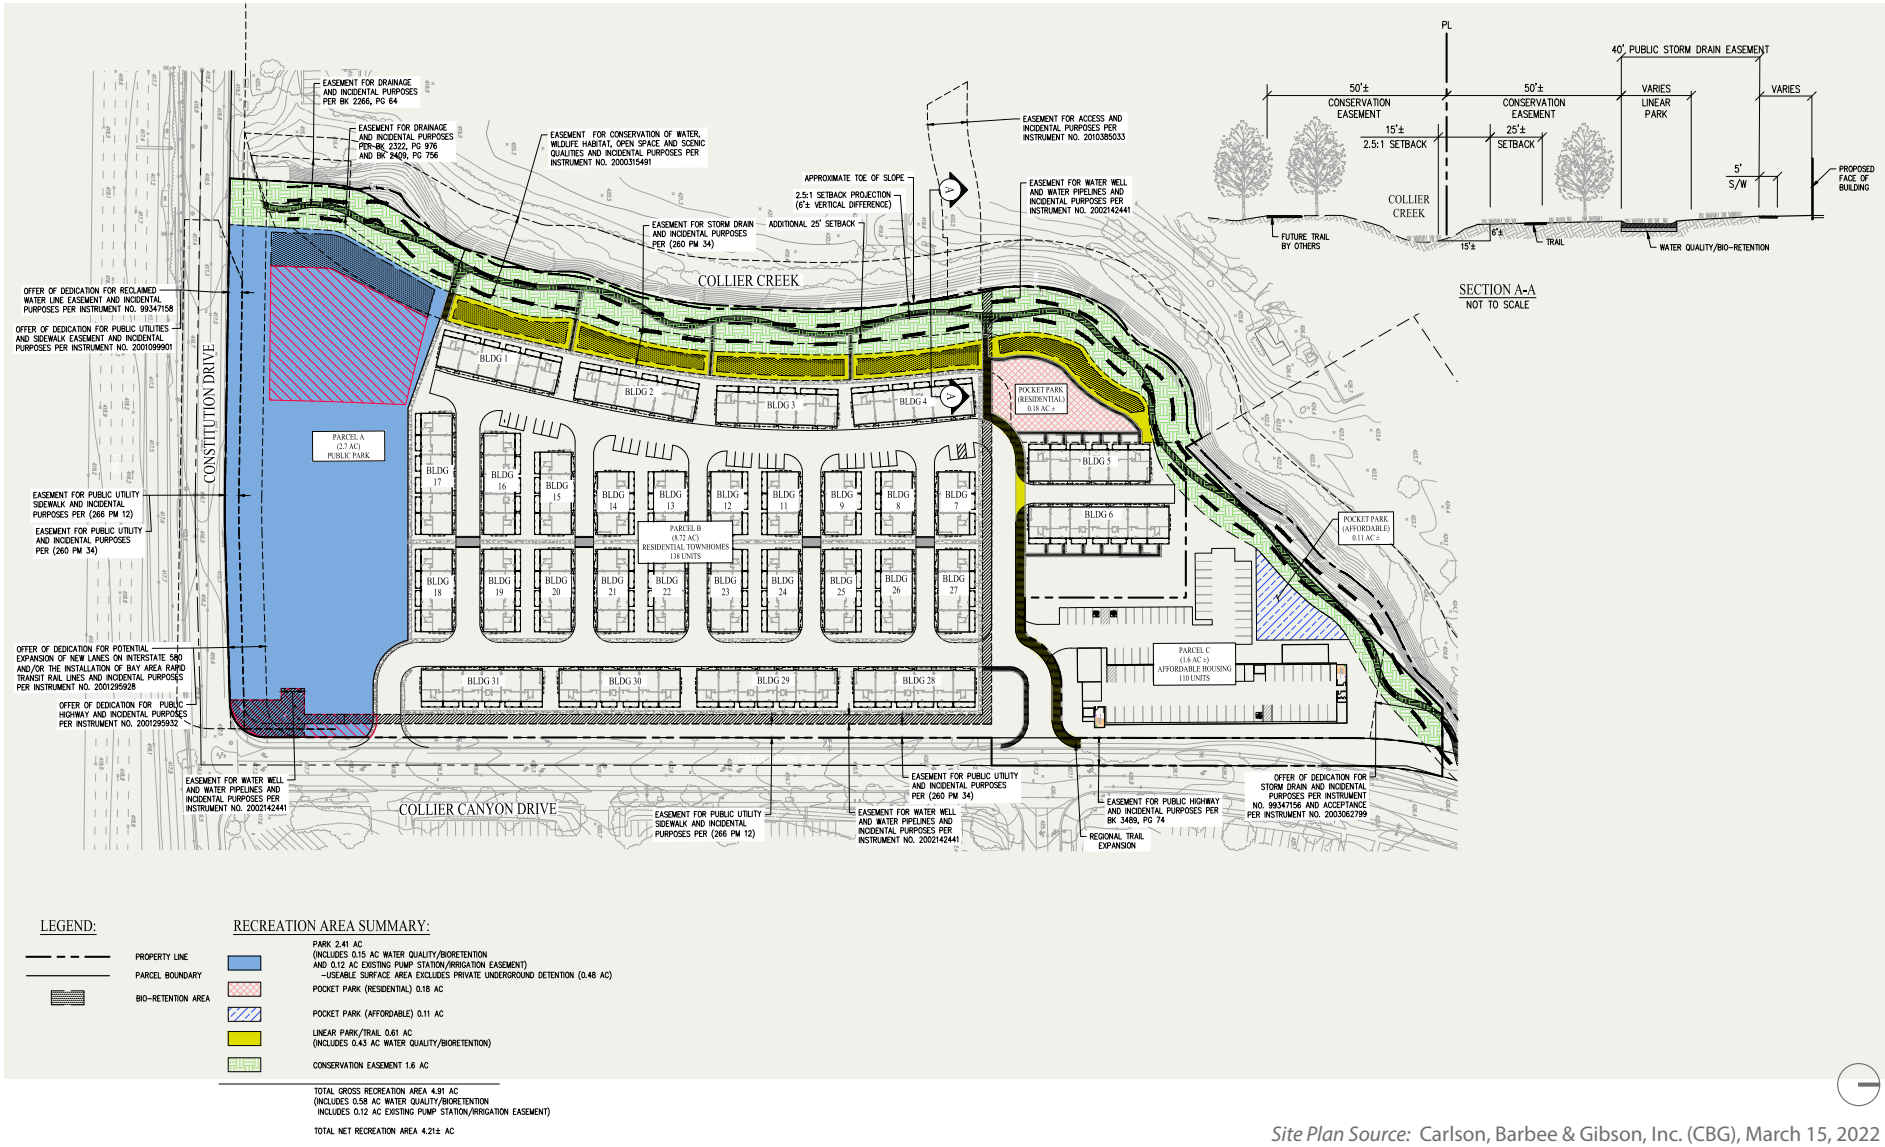

Table 1: Weekday Project Vehicle Trip Generation Summary

Land Use	ITE Code	Dwelling Units	Daily	AM Peak Hour			PM Peak Hour		
			Total	In	Out	Total	In	Out	Total
Multifamily Housing (Low-Rise)[1]	220	139	937	13	43	56	45	26	71
Affordable Housing[2]	223	110	529	11	29	40	30	21	51
TOTAL		**249**	**1,466**	**24**	**72**	**96**	**75**	**47**	**112**

Note:

1. Multifamily Housing (Low-Rise) (LU Code 220) Trip Generation Rates:
   Daily average rate: 6.74, 50% in, 50% out
   AM peak hour average rate: 0.40, 24% in, 76% out
   PM peak hour average rate: 0.51, 63% in, 37% out
2. Multifamily Housing (Low-Rise) (LU Code 220) Trip Generation Rates:
   Daily average rate: 4.81, 50% in, 50% out
   AM peak hour average rate: 0.36, 29% in, 71% out
   PM peak hour average rate: 0.46, 59% in, 41% out

Figure 1

Project Site Plan

INSP Consistency Check

The Project's land uses and their relevant transportation characteristics were reviewed for consistency with the assumptions and calculations of the transportation analysis prepared for the Isabel Neighborhood Specific Plan's (INSP) Draft Environmental Impact Report (DEIR).

Trip generation and development transportation impacts were forecasted for the INSP area within the DEIR using the Alameda CTC Countywide Travel Demand model. The model uses land use and roadway network assumptions to compute daily and peak period person trips. The INSP DEIR designated the Project site with Village and Center residential land uses and Open Space and New Neighborhood Park/Plaza non-residential land uses. The Village residential land use designation allows for mid-rise condominiums and apartments, with some opportunity for townhouses housing types and specifies a density of 25-40 dwelling unit/acre (du/ac). The Center residential land use designation allows for condominiums and apartments housing types and specifies a density of 40-60 dwelling unit/acre (du/ac). The Project seeks to develop 139 multifamily residential townhouses on 8.72 acres (16 du/ac), 110 affordable residential units on 1.6 acres (69 du/ac), and 2.7 acres of public park. The Project proposes land uses that are consistent with the INSP DEIR. In addition, the total density of residential units (24 du/ac) is less than the land use assumptions in the INSP DEIR. Therefore, the transportation related impacts of the proposed Project are expected to be less than those described in the INSP DEIR's transportation analysis.

It should be noted that the Alameda CTC model also applies relevant mode split adjustments to the daily person trips to generate daily vehicle trips in the development of future year scenario transportation forecasts. The future Valley Link Station at Isabel Avenue, anticipated to be completed between 2027 and 2028, is near the INSP area. Valley Link is conceived as a rail-based transit solution to improve connectivity between the BART Bay Area Rapid Transit system in the Tri-Valley and the Altamont Corridor Express (ACE), as well as improve connectivity between the greater San Francisco Bay Area and San Joaquin County. The implementation of rail-based transit is expected to improve the competitiveness of transit against driving, increasing the total number of transit trips and decreasing vehicle trips. In the INSP DEIR analysis, the Valley Link project was assumed within the 2028 Near Term and 2040 Cumulative forecasts. As the future Valley Link Station at Isabel Avenue is less than 0.5 mile from the Project site, the Project would be expected to generate similar future year modal split outcomes to those calculated within the INSP DEIR.

The Project, as proposed, is consistent with the assumptions and calculations of the INSP DEIR's transportation analysis.

Site Plan Review

This section analyzes site access and internal circulation for vehicles, pedestrians, bicycles, and emergency vehicles based on the site plan presented previously on **Figure 1**. The following site

access, circulation, and parking assessment was conducted to ensure safe and efficient circulation of vehicles, bicycles, and pedestrians within the Project site and on the roadways adjacent to the Project site. If warranted, potential recommendations regarding improvements to these site design features are provided.

Vehicular Site Access and Circulation

Vehicular access to the Project site would be provided via two proposed roadway connections to the external street network, both on Collier Canyon Road. **Figure 1** illustrates the proposed Project site plan, including both driveways, internal roadways, and parking spaces. Both access points are proposed to have stop sign control on the driveway approaches, with the main street (Collier Canyon Road) approaches being uncontrolled.

The posted speed limit on Collier Canyon Road is 35 miles per hour. Table 201.1 of the Caltrans Highway Design Manual (HDM) states that the stopping sight distance standard for a design speed of 40 miles per hour is 300 feet. Section 405.1 of the Caltrans HDM states that the corner sight distance standard for an unsignalized intersection with a design speed of 40 miles per hour (mph) is 385 feet for right-turns from stop and 440 feet for left-turns from stop. Both approaches to the north Project driveway access and the southbound approach to the south driveway meet stopping and corner sight distance requirements for a 40 miles per hour design speed.

The southern Project driveway on Collier Canyon Road is approximately 160 feet north of the Collier Canyon Road/Constitution Drive intersection (aligning with the existing driveway on the opposite side of the roadway). From Figure 202.2 of the Caltrans HDM, the design speed for vehicles turning to travel north at the Collier Canyon Road/Constitution Drive intersection is approximately 15 mph (curve radius of 50 feet). The southern driveway meets the 15-mph design speed stopping sight distance (100 feet) and corner sight distance (165 feet) looking to the south to observe vehicles traveling northbound on Collier Canyon Road. Thus, adequate sight distance is provided at both of the Project's proposed driveways. However, as the Project's design is finalized, these distances should be checked, and the Project should propose no features (signs, landscaping, etc.) that would compromise driveway sight distance.

> ***Improvement Recommendation 1:*** The final site plan for the Project should be analyzed by the Project's Civil Engineer to ensure that adequate sight distance is maintained at all driveways. No objects (landscaping, monument signs, etc.) greater than three feet in height should be allowed within the sight distance triangles at driveway intersections.

The portion of Collier Canyon Road fronting the Project site currently serves low traffic volumes, generated by demand from local residences and businesses. The proposed throat depths of the driveways are expected to provide adequate internal queuing capacity for vehicles exiting the Project.

Project driveways and internal roadways, except for townhouse driveways are generally 26 feet in width. Townhouse driveways are generally 20 feet in width. Trucks are expected to travel on site using the 26-foot-wide internal roadways, for moving, garbage, deliveries, and emergency access.

> ***Improvement Recommendation 2*:** The final site plan for the Project should illustrate truck turning templates at Project driveways and internal roadways showing that the applicable routes of travel provide sufficient space for emergency vehicles, garbage trucks, moving trucks/vans and automobiles.

Emergency Vehicle Access and Circulation

Several factors determine whether a project has sufficient access and circulation for emergency vehicles, including:

1. Location of closest fire stations
2. Number of access points (both public and emergency access only)
3. Width of access points
4. Width of internal roadways

Each of these factors is discussed in further detail below.

The fire station closest to the site is located on 330 Airway Boulevard (Livermore-Pleasanton Fire Station 10) approximately 0.6 miles northwest of the Project site. The fire station is approximately 1.7 miles from the Project site for vehicles via Airway Boulevard, North Canyons Parkway, and Constitution Drive. Adequate response time should be available from this nearby location.

Emergency vehicle access to the Project site would be provided by the two driveways along Collier Canyon Road and the internal roadways traversing through the site. The Project driveways and internal roadway connectors are each 26 feet in width, which should provide sufficient emergency vehicle access through the site.

Pedestrian Access and Circulation

Per City standards, the Project would create a significant impact related to the pedestrian system if any of the following criteria are met:

- Disrupt existing pedestrian facilities; or
- Interfere with planned pedestrian facilities; or
- Create inconsistencies with adopted pedestrian system plans, guidelines, policies, or standards.

A robust network of pedestrian facilities (sidewalks, crosswalks, paths, etc) are provided on the roadways surrounding the Project site. The pedestrian network within the Project site is detailed on the site plan (**Figure 1**). Pedestrian sidewalks and pathways are provided throughout the site,

linking to Collier Canyon Road and the linear trail along Collier Creek. The Project proposes no features that would be hazardous to pedestrian travel and does not conflict with any pedestrian plans, policies or programs.

Bicycle Access and Circulation

The Project would create a significant impact related to the bicycle system if any of the following criteria are met:

- Disrupt existing bicycle facilities; or
- Interfere with planned bicycle facilities; or
- Create inconsistencies with adopted bicycle system plans, guidelines, policies, or standards.

As illustrated on **Figure 1**, the Project proposes a designated bicycle facility along Collier Creek. In addition, bicycles would be permitted on all internal roadways. The Project proposes no features that would be hazardous to bicycle travel and does not conflict with any bicycle plans, policies or programs.

Designated areas for bicycle parking are not currently illustrated on the site plan. Chapter 3-20-060 of the City of Livermore's Municipal Code provides bicycle access standards by land use type. Based on the City's code, private parking lots for single-family dwellings and multiple-family dwellings are exempt from the bicycle access standards. Chapter 3-20-070 of the City of Livermore's Municipal Code provides development and maintenance standards for parking lots. Based on the City's code, bicycle parking stalls shall be provided with a device to be approved by the city and capable of supporting a bicycle in an upright position and having a means that will enable a user to lock his bicycle to such a device. In addition, areas containing bicycle parking stalls shall be protected by curbs, fences, planter areas, bumpers, or similar barriers for the mutual protection of bikes, automobiles and pedestrians. The bicycle parking stalls shall be surfaced with an asphaltic or portland cement binder pavement on a suitable base to provide a durable and dustless surface and shall be so graded and drained as to properly dispose of all surface water accumulated within the area.

> ***Improvement Recommendation 3:*** Provide short-term bicycle parking in front of each cluster of townhouse buildings and the affordable housing units. Short-term bicycle parking is typically provided in the form of bicycle racks. Provide long-term bicycle parking for the affordable housing units in a secured bicycle room or bicycle lockers.

Transit Access

Per City standards, the Project would create a significant impact related to transit service if the following criteria are met:

- The Project interferes with existing transit facilities or precludes the construction of planned transit facilities.

The Project proposes no features which conflict with existing transit services or planned transit services, including the Valley Link project. The Project is not expected to result in increases in ridership on local or regional transit facilities that would exceed their capacity. Significant adverse impacts related to transit were not identified.

Parking

The Project proposes two-car garages for each the multifamily units, resulting in a total of 278 parking spaces. For the affordable housing units, the Project proposes 89 parking spaces, including 40 covered spaces. The Project provides a total of 388 parking stalls, including 18 guest parking spaces, one accessible parking space, and two electric vehicle (EV) parking spaces.

The estimated peak parking demand for the Project was calculated using data and rates from the *Parking Generation Manual, 5th Edition* (2019) reference, published by the Institute of Transportation Engineers (ITE). Based on the ITE methodology, the Project is expected to generate a total peak demand of approximately 168 parking spaces for the multifamily units, 109 parking spaces for the affordable housing units, and two parking spaces for the public park. The Project provides sufficient parking to satisfy the anticipated parking demand for the multifamily units. However, the Project does not provide sufficient parking to satisfy the anticipated parking demand for the affordable housing units.

Chapter 3-20-050 of the City of Livermore's Municipal Code provides off-street parking requirements by specific land use type. Based on the City's code for townhouses, two parking spaces are required per unit, one must be covered for each townhouse. In addition to parking for residents, one additional guest parking space is required for every four townhouses. In total, the Project is required to provide 278 parking spaces (139 covered parking spaces) for the townhouse residents and 35 townhouse guest parking spaces. The Project provides sufficient total and covered parking for townhouse residents. However, the Project does not provide sufficient townhouse guest parking spaces. Based on the City's code, one and three-fourths stalls, eighty percent covered, is required for each affordable multi-family dwelling unit. In total, the Project is required to provide 193 parking spaces (154 covered parking spaces) for the affordable housing units. The Project does not provide sufficient parking to satisfy the City code parking requirements for affordable housing units. No off-street parking is required for public neighborhood parks per the City's code. It should be noted that parking, or the lack of parking, is not a concern within CEQA and is not considered within a project's environmental assessment.

Conclusions/Findings

Our review of the proposed Project identified no significant adverse impacts related to transportation. The Project's anticipated total daily and peak hour trip generation is within the assumptions of the transportation study performed for the Isabel Neighborhood Specific Plan Draft EIR. Additional transportation impacts over and above those described in that document are not anticipated.

The review of the Project's proposed site plan found no significant adverse impacts related to vehicles, pedestrians, bicycles, transit, or emergency vehicle access. Several recommendations were made to provide additional clarification as the Project enters final design, including:

- ***Improvement Recommendation 1:*** The final site plan for the Project should be analyzed by the Project's Civil Engineer to ensure that adequate sight distance is maintained at all driveways. No objects (landscaping, monument signs, etc.) greater than three feet in height should be allowed within the sight distance triangles at driveway intersections.

- ***Improvement Recommendation 2*****:** The final site plan for the Project should illustrate truck turning templates at Project driveways and internal roadways showing that the applicable routes of travel provide sufficient space for emergency vehicles, garbage trucks, moving trucks/vans and automobiles.

- ***Improvement Recommendation 3:*** Provide short-term bicycle parking in front of each cluster of townhouse buildings and the affordable housing units. Short-term bicycle parking is typically provided in the form of bicycle racks. Provide long-term bicycle parking for the affordable housing units in a secured bicycle room or bicycle lockers.

Please contact Bill Burton (b.burton@fehrandpeers.com, 925.357.3381) with questions or comments.

Subject: Collier Canyon Road Multi-Family Residential Development Modification – Transportation Assessment

Dear Amanda,

We understand the description of the Collier Canyon Road Multi-Family Residential Development Project (Cornerstone Church and Chu Property) has modestly changed. The change includes the addition of four market rate multi-family units. The original project description included 139 for-sale townhome units and 110 affordable housing units while the current project includes 143 for-sale townhome units and 110 affordable housing units. The site plan has not changed, and the overall access and transportation scheme remains the same.

The additional four units are anticipated to generate approximately two additional vehicle trips in the weekday morning peak hour and two in the evening peak hour. Two additional peak hour trips are not expected to materially affect the area's transportation network.

The proposed project modification is not expected to alter the findings of our previously submitted transportation assessment for the project (*Cornerstone Church and Chu Property Residential Development Transportation Assessment*, September 1, 2023). Our previously provided memorandum and findings remain applicable.

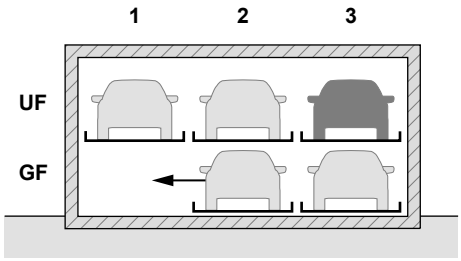
Explanation of symbols

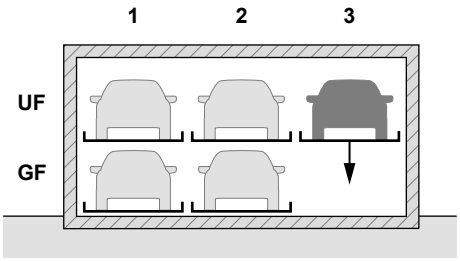
Platforms accessible horizontally.

max. load per parking space in kg.
Upweighting over 2000 kg possible with surcharge (*see "Vehicle data", page 3*).



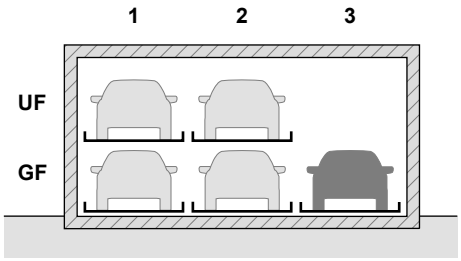
Parking space load can be subsequently upweighted (*see "Vehicle data", page 3*).

Traversable and can be combined with other TrendVario systems as a KombiSystem.



The systems provided are consistent with DIN EN 14010 and the EC Machinery Directive 2006/42/EC.
This system has also undergone a voluntary compliance test conducted by TÜV SÜD.

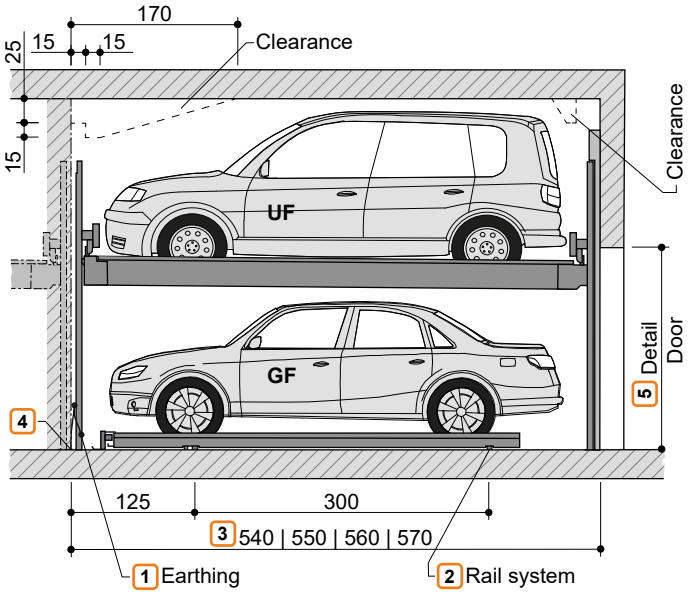
Function diagram with standard designation



Example for vehicle on upper floor (UF) of grid 3:
Selection via the control panel; all doors must be closed.
Representation of parking spaces in a row.

To remove the vehicle from the space in **grid 3/UF**, the GF platforms are moved to the left.

The empty space is now located under the vehicle being removed. The parking space in **grid 3/UF** is lowered.



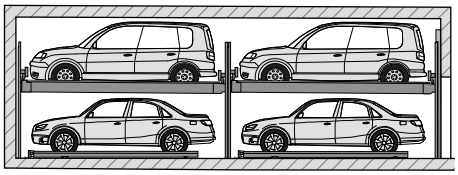
The vehicle in the space in **grid 3/UF** can now be removed.

Dimensions and tolerances

All dimensions and minimum final dimensions.
Tolerance for dimensions +3/-0. Dimensions in cm.
In order to adhere to the minimum final dimensions, the tolerances in accordance with the German Construction Tendering and Contract Regulations [VOB], Part C (DIN 18330 and 18331) and DIN 18202 must also be taken into account.

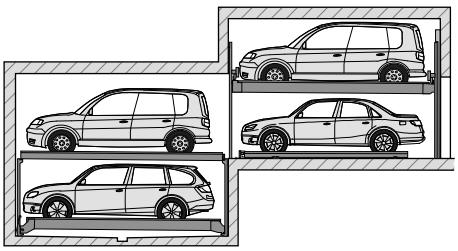
Overview of building configuration

Building configuration with vertical door 5



1. Equipotential bonding from foundation earth connection to system (to be provided by the customer).
2. The tolerances for evenness of the roadway (floor) must be adhered to in accordance with DIN 18202, Table 3, row 3.(*see "Detail of building configuration - rail system", page 7*).
3.
   - 540 cm for vehicle length max. 5.0 m
   - 550 cm for vehicle length max. 5.1 m
   - 560 cm for vehicle length max. 5.2 m
   - 570 cm for vehicle length max. 5.3 m

   Shorter versions are possible on request - observe local regulations on parking space lengths.
   We recommend a minimum length of 560 cm for comfortable use of your parking space and increasingly longer vehicles.
4. No fillets/haunches are permitted at the transition from the pit floor to the walls. If fillets/haunches are required, the systems must be narrower or the pits wider.
5. Door detail and other door variants (*see "Configuration with vertical door", page 5* and *see "Configuration with sliding door", page 6*).



If sprinklers are required, the customer must leave sufficient clearance during the construction phase.

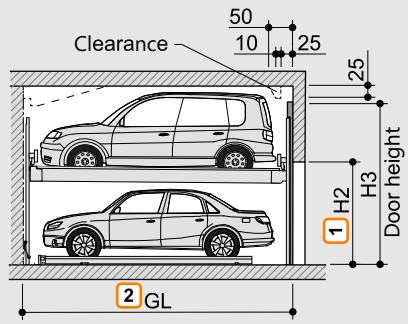
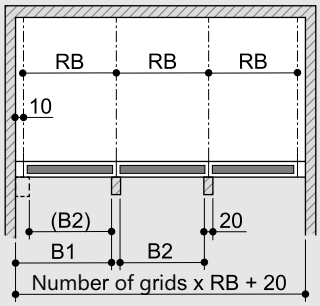
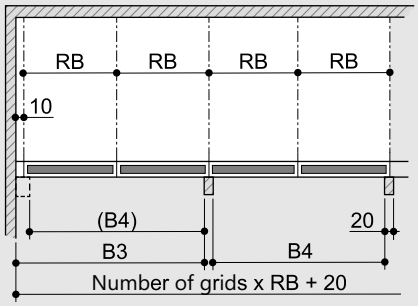
Width dimension and door height

We recommend platform widths of minimum 250 cm and driving lane widths of 650 cm in order that vehicles can comfortably access the Multiparking system and enter and leave without difficulty.

Narrower platforms may impede parking according to the following criteria.







- Driving lane width
- Entrance conditions
- Vehicle dimensions

[1] Observe minimum driving lane width in accordance with local regulations.

For commercial use of doors with electrical drive systems, an inspection log is required in accordance with ASR A1.7 'Technical rules for workplaces' in Germany. The door must be inspected by an expert before commissioning and annually thereafter and the result entered in the inspection log. The inspection must be carried out independently of maintenance. Observe local regulations on operation of electrical doors.

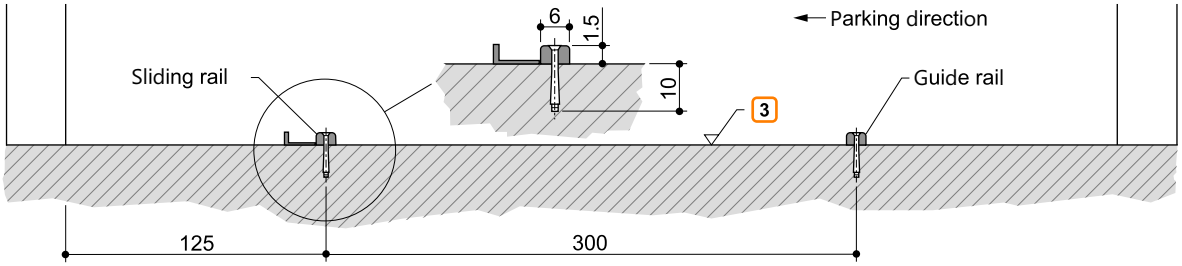
Detail of building configuration - rail system



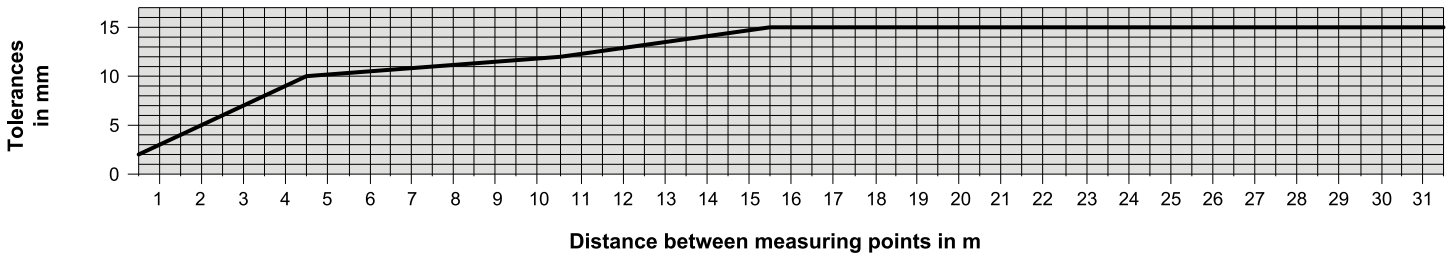
Various options are available for rail installation depending on the structural conditions.

Rail load due to a moving traffic load:
- With parking space load 2000 kg: 6.5 kN per wheel
- With parking space load 2600 kg: 8.0 kN per wheel
- With parking space load 3000 kg: 9.0 kN per wheel

Laying on strip foundation [1]

Laying on finished floor [1]

[1] The tolerances for evenness of the roadway (floor) must be adhered to in accordance with DIN 18202, Table 3, row 3. There must be no building joints or expansion joints in the area around the rail system.

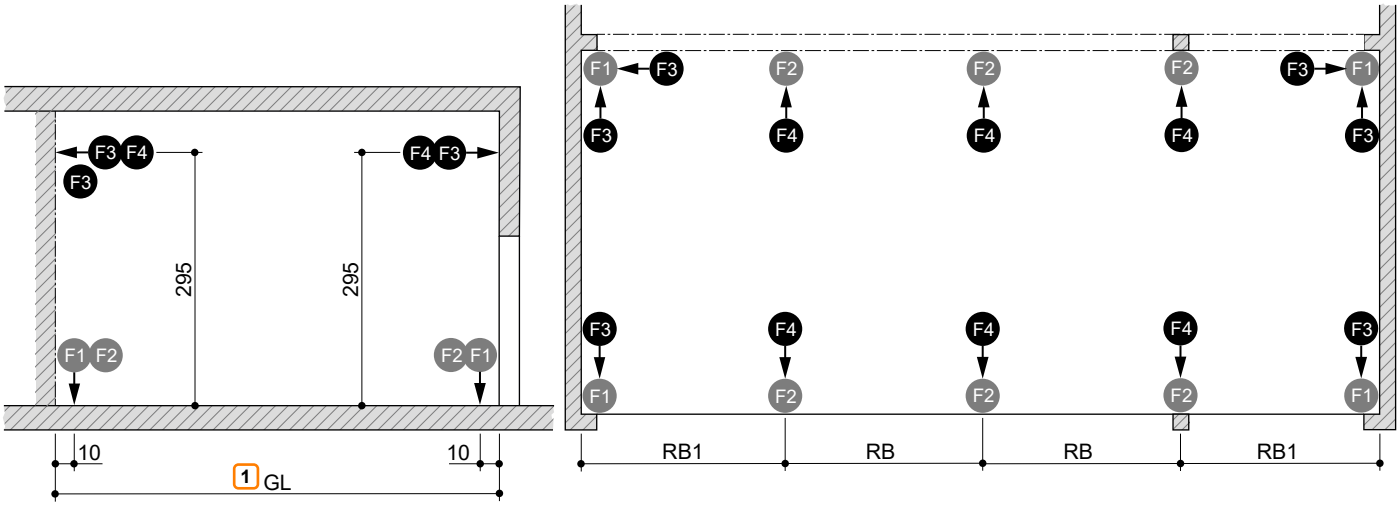


[2] We do not recommend using poured asphalt.

[3] Upper edge finished floor

Evenness tolerance – extract from DIN 18202, Table 3

The safety clearance between the outer lower edges of the ParkBoard and the floor must not exceed 2 cm. To comply with the requirement in DIN EN 14010 and to reach the requisite floor evenness, the evenness of the finished floor in accordance with DIN 18202, Table 3, row 3 must not be exceeded. The customer does not, therefore, need to level the floor.

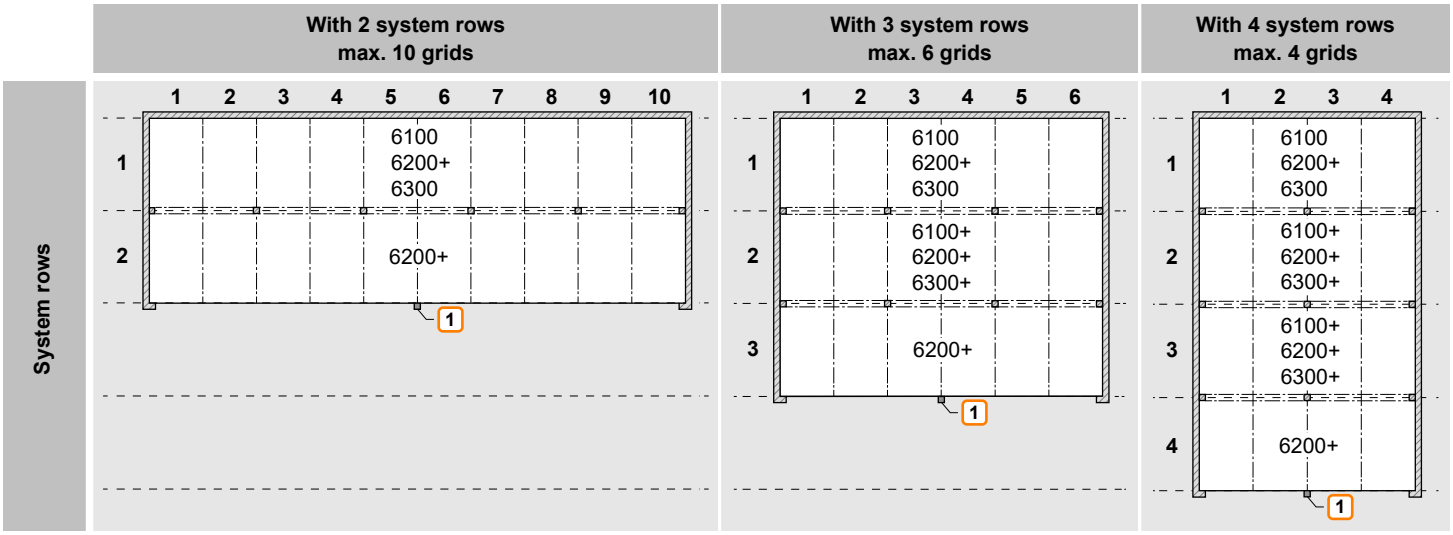


Row	Reference	Inside micrometer as limit values in mm with measuring point distances in m to [1]				
		0.1	1	4	10	15
3	Finished floors, e.g. screeds as floor screeds, screeds for floor coverings, floor coverings, tile coverings, levelled and glued coverings	2	4	10	12	15

[1] Intermediate values can be found in the diagram and should be rounded up.

Loading schedule

The systems are dowelled into the ground. The drill hole depth in the floor plate is approx. 15 cm, in the walls approx. 12 cm.
The floor plate and walls must be from concrete (quality min. C20/25).
The dimensions for the bearing points have been rounded. If the precise figures are required, please consult KLAUS Multiparking.



Parking space load	F1	F2	F3	F4

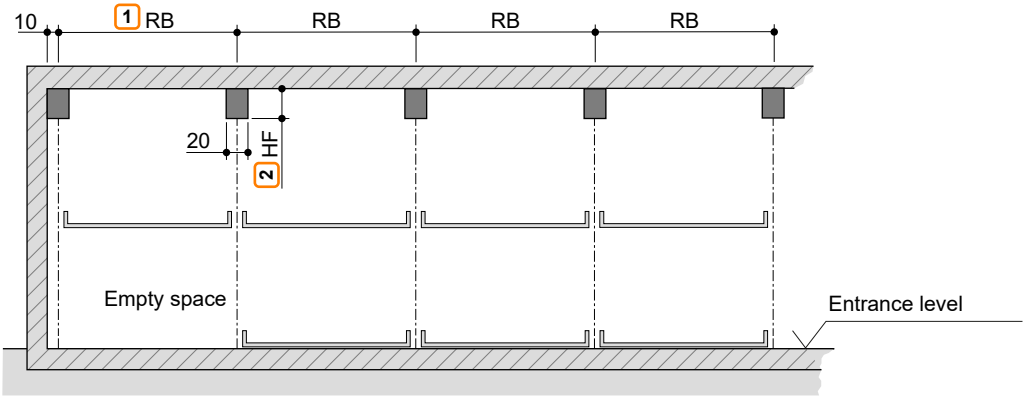
1 Control panel

Access incline

The maximum access inclines specified in the symbol sketch must not be exceeded.
Improper configuration can lead to extreme difficulty accessing the system, for which KLAUS Multiparking cannot be held liable.



max. 3% slope

max. 5% gradient

Clearance for installations

1 RB: grid width. These dimensions **must** be adhered to.

2 HF: clearance height = building height (H) - 305 cm | where CH max. = 45 cm (*see "Overview of system types and ceiling heights", page 4*).

Clearance for lengthways cable routing

Electrical installation

Switch cabinet and master switch

Access to the switch cabinet (approx. 60 x 60 x 25 cm) must be possible without danger. The lockable master switch must be positioned so that the entire entry area of the facility can be surveyed.
With wall opening from switch cabinet to system (consultation with KLAUS Multiparking required).

Supply cable to master switch

Supply cable min. 5 x 2.5 mm² (3 PH+N+PE) to switch cabinet with pre-fuse 3 x 16 A (slow blow) or circuit breaker 3 x 16 A (trip characteristic K or C) to be provided by the customer
DIN/VDE and local regulations of energy-supply companies must be observed (*see "Supply cable to master switch - foundation earth", page 13*).

Hydraulic unit

- 3 kW, three-phase current 230/400 V / 50 Hz

Control panel with emergency-stop

- Attachment at a clear point (e.g. pillar).
- Secured against external operation.

Technical information

Usage area

The system is suitable for a fixed group of users as standard.
Where users change (e.g. short-term parking in office buildings or hotels), structural modifications to the Multiparking system are required. Please request a consultation if required.

Units

Low-noise, bearing-mounted hydraulic units are installed on rubber-metal blocks. Consequently, we recommend separating the garage body from the residential building.

Parking space designation

Please consult the function diagram for the standard designation of the parking spaces (*see "Function diagram with standard designation", page 2*).
Alternative designations are possible with a surcharge.

Please note the following specifications:
- The empty space is situated on the left as standard.
- Any alternative designations must be notified 8 to 10 weeks before delivery.

Ambient conditions

Ambient conditions for the areas around Multiparking systems:
Temperature range –10 to +40° C. Relative humidity 50 % to a maximum external temperature of +40° C.
If ascent/descent times are specified, these relate to an ambient temperature of +10° C and with the system positioned immediately adjacent to the hydraulic unit. These times are increased at lower temperatures or with longer hydraulic lines.

Building application documents

Multiparking systems generally require approval. Please observe local regulations and stipulations.

Care

To prevent corrosion damage, please observe our special cleaning and care instructions and ensure that your garage is well ventilated.

Corrosion protection

In accordance with the ‘Corrosion protection’ supplement.

Electrically driven doors

For commercial use of doors with electrical drive systems, an annual inspection is required in accordance with ASR A1.7 ‘Technical rules for workplaces’ in Germany. We urgently recommend concluding a maintenance contact as these services are included for the complete system.

CE conformity

The systems provided are consistent with DIN EN 14010 and the EC Machinery Directive 2006/42/EC. This system has also undergone a voluntary compliance test conducted by TÜV SÜD.

Noise protection

Standard noise protection:

In accordance with DIN 4109-1 Noise protection in high-rise - Section 9:
Maximum sound pressure level in living and sleeping areas 30 dB (A).
User noise is not subject to the requirements.

The following dimensions are required for adherence to this value:
- Noise protection package in accordance with quote/order (KLAUS Multiparking)
- Sound insulation dimension of the building structure of min. R’w = 57 dB (service to be provided by the customer)

Increased sound protection (special agreement):

In accordance with DIN 4109-5 Increased noise protection in high-rise - Section 8:
Maximum sound pressure level in living and sleeping areas 25 dB (A).
User noise is not subject to the requirements.

The following dimensions are required for adherence to this value:
- Noise protection package in accordance with quote/order (KLAUS Multiparking)
- Sound insulation dimension of the building structure of min. R’w = 62 dB (service to be provided by the customer)

Note:
User noise is noise that can be influenced individually by the user of our Multiparking systems. This includes, e.g., accessing the platform, the slamming of vehicle doors, engine and brake noise.

Performance specification

Description

Multiparking system for independent parking of vehicles one on top of and next to one another.
The system is traversable and can be combined with the TrendVario 6100, 6100+, 6200+, 6300 and 6300+ (details on these systems can be found on the corresponding product sheets).
Dimensions in accordance with the underlying building, width and height dimensions.
Access to the parking spaces horizontally (installation tolerance ± 1%).
An access must be provided over the entire width of the system (minimum driving lane width in accordance with local regulations).
The parking spaces are arranged on 2 levels one on top of the other. Vehicles park on stable steel platforms.
The platforms on the upper floor (UF) move vertically, the platforms on the ground floor (GF) move horizontally. At entrance level (GF), there is always 1 parking space less. This empty space is used for sideways movement of the GF parking spaces to allow a parking space on the UF above to lower to entrance level. Consequently, 3 parking spaces (1 on GF, 2 on UF) is the smallest unit for this parking system.
Vehicle positioning in any parking space by positioning aid mounted on one side (to be adjusted in accordance with the operating instructions).
For safety reasons, the movement operation of the platforms always takes place behind locked doors.
All requisite safety equipment is integrated into the system. This essentially comprises a chain monitoring system, locking levers for the upper platforms and locked doors. The doors can only be opened when the selected parking space has reached its parking position.

Steel frame (secured to the floor) comprising:

- Supports (arranged in rows)
- Crossbeams and lengthways beams
- Sliding rails for the sideways moving GF platforms

Platform comprising:

- Platform profiles
- Adjustable positioning aid
- Chamfered ramp
- Side beams
- Crossbeams
- Screws, nuts, washers, spacers, etc.

Lifting equipment for platforms on the UF comprising:

- Hydraulic cylinders with solenoid valves
- Chain wheels
- Chains
- Limit switches
- The platforms are each suspended at 4 points and are guided at the supports by means of plastic plain bearings

Drive unit for sideways moving platforms on GF:

- Gear motor with chain wheel
- Chains
- Sliding and guide rollers (low-noise)
- Power supply via energy chain

Hydraulic unit comprising:

- Hydraulic unit (low-noise, fitted to bracket and bearing mounted on rubber-metal block)
- Hydraulic oil tank
- Oil filling
- Internal gear pump
- Pump holder
- Coupling
- Three-phase motor
- Noise protection, motor protection switch and control fuse
- Test pressure gauge
- Pressure relief valve
- Hydraulic hoses (to attenuate noise transmission to the hydraulic pipes)

Control:

- Central control point (control panel with emergency-stop) for selecting the desired parking space
- The electrical wiring from the system cabinet is provided by the supplier

Vertical doors:

Size

Dimensions adjusted to the underlying widths and height dimensions.
The door comprises two door leaves

Frame

- Frame structure with two vertical centre rungs from extruded aluminium profiles (anodised, coating thickness approx. 20 µm)
- There is a rubber lip on the closing edge for a clean seal with the building.

Door filling

Aluminium perforated plate

- Thickness 1.5 mm, RV 8-14 E6/EV1, anodised, coating thickness approx. 20 µm
- Ventilation cross-section of the filling approx. 30%

Guide rails

- The sliding rails of the doors are attached to the steel frame of the system.
- Galvanised steel guide rails (coating thickness approx. 20 µm).

Door actuation

- Electrical drive system by means of electric motor, above the door frame.

For safety reasons, the movement operation of the platforms always takes place behind locked doors. An electrical signal generator is used to query the positions ‘door open’ and ‘door closed’.

Please note:

Door apertures (at the side, covers over the sliding rails, etc.) and door suspensions are not included with the standard configuration but can be supplied as special equipment with a surcharge.

Sliding doors:

Size

- Sliding doors, size approx. 2500 mm x 2000 mm (width x height).

Frame

- Frame structure with one vertical centre rung from extruded aluminium profile (anodised, coating thickness approx. 20 µm)
- A handle shell is provided in a vertical aluminium profile for opening the doors.
- There is a rubber lip on the closing edge for a clean seal with the building.

Standard door filling

Aluminium perforated plate

- Thickness 2 mm, RV 5-8 E6/EV1, anodised, coating thickness approximately 20 µm
- Ventilation cross-section of the filling approx. 40%

Alternative door filling

Plain aluminium sheet

- Thickness 2 mm E6/EV1, anodised, coating thickness approximately 20 µm

Corrugated steel sheet

- Thickness 1 mm galvanised, coating thickness approximately 20 µm
- Additional powder coating, coating thickness approx. 25 µm on the outside and approx. 12 µm on the inside
- Colour options on the outside (building view):

RAL 1015 (light ivory)	RAL 3003 (ruby red)
RAL 5014 (pigeon blue)	RAL 6005 (moss green)
RAL 7016 (anthracite grey)	RAL 7035 (light grey)
RAL 7040 (window grey)	RAL 8014 (sepia brown)
RAL 9006 (white aluminium)	RAL 9016 (traffic white)

- Door inside in a light grey tone

Wood filling

- Nordic spruce in A sorting
- Vertical tongue and groove boards
- Colourless, pre-coated

Composite safety glass

- Composite safety glass from 8/4 mm

Wire mesh

- Mesh size 12 x 12 mm0.5" x 0.5"
- Wire diameter 2 mm, galvanised, coating thickness approx. 20 µm
- Ventilation cross-section of the filling approx. 70%

Sliding rails

- The running gear comprises 2 double-pair roll systems per door, height-adjustable
- The sliding rails of the doors are attached to brackets with cover bushings or directly to the concrete lintel or a building-specific door suspension
- The lower guide comprises 2 plastic rollers on a base plate which is dowelled to the floor
- Sliding rails, cover bushings, guide roller base plate are galvanised

Door actuation

- Electrical drive system by means of electric motor attached to the rail system in the turning point of the sliding doors. The drive pinion engages a chain attached to the door.

For safety reasons, the movement operation of the platforms always takes place behind locked doors. An electrical signal generator is used to query the positions ‘door open’ and ‘door closed’.

Separation (if required)

- On request

Please note:

Door apertures (at the side, cover over the sliding rails, etc.) and door suspensions are not included with the standard configuration but can be supplied as special equipment with a surcharge.

Services to be provided by the customer

Barriers

Barriers that may be required in accordance with DIN EN ISO 13857 where there are roadways immediately in front of, adjacent to or behind the systems. This also applies during the construction stage.

Parking space numbering

Parking space numbering, if required.

Building services systems

Any lighting, ventilation, fire-extinguishing and fire-alarm systems that may be required, plus clarification and compliance with corresponding official documentation.

Lighting

The customer must observe local regulations pertaining to the illumination of parking spaces and roadways. In accordance with DIN EN 12464-1 'Light and lighting - Lighting of work places', an illumination level of min. 200 lx is recommended for the parking spaces and operating area of the system. A floating contact can be provided for actuation of parking space lighting provided by the customer.

Floor structure – rails

Floor structure in accordance with the details on the product data sheet (*see "Detail of building configuration - rail system", page 7*).

Recesses, tolerances for evenness of the roadway must be adhered to in accordance with DIN 18202, Table 3, row 3.
Lining for the rail system by means of cement screed over the entire length. Laying the screed

Wall openings

Wall openings, if required.

Supply cable to master switch - foundation earth

The customer must lay the supply cable to the master switch during assembly. Functional capability can be checked by our engineers on site, in conjunction with the electronics engineer. If this is not possible during assembly for reasons attributable to the customer, the customer must commission an electronics engineer.
The customer must earth the steel structure with a foundation earth connection (earthing distance max. 10 m) and equipotential bonding in accordance with DIN EN 60204.

Door suspensions

Please note that if the specified clear heights (*see "Width dimension and door height", page 5*) are not adhered to, additional measures for door attachment (door suspensions) will be required for a surcharge.

Door apertures

Door apertures, if required. This may be requested from KLAUS Multiparking for a surcharge.

Subject to technical changes

In the course of technical progress, KLAUS Multiparking shall be entitled to use newer or different technologies, systems, processes or standards to provide the services than initially offered, provided that this does not disadvantage the customer in any way.

McGRATH

5700 Las Positas Road, Livermore, CA 94551 | mgrc.com

December 17, 2024

Planning Commission
1016 S. Livermore Ave
Livermore, CA 94550

Dear Planning Commissioners:
McGrath RentCorp ("McGrath") is a longtime property owner and employer in the City of Livermore ("City"), operating on approximately 140 acres of real property located at 5700 Las Positas Road ("Property") since 1997. McGrath's company headquarters and operational facilities are located on the Property, where McGrath currently employs over 200 individuals who contribute to the local economy in many ways, such as residing in the City and supporting local businesses.

Under the General Plan Update, the Property is situated within the Midtown Focus Area. The City is proposing to redesignate a significant portion of the Property from High Intensity Industrial to high-density residential with specific development standards to be set forth in a subsequently adopted Specific Plan for the Midtown Focus Area. As McGrath previously detailed in correspondences to the General Plan Advisory Committee (GPAC) and City Council (Attachments 1 and 2, respectively), the City's proposed redesignation of the Property to residential use will cause McGrath to become a legal nonconforming use. This will negatively impact McGrath's ability to use and occupy the Property, severely limit McGrath's ability to expand as a business, and adversely impact the market value of the Property.

As McGrath has indicated to the City on several occasions, it is committed to growing its business in the City. However, becoming a legal nonconforming use will restrict McGrath's ability to meet the company's growing business and operational needs. As detailed in McGrath's prior correspondences, McGrath strongly encourages the City to implement a flexible long-term planning strategy, such as an overlay mechanism, that would allow for the existing industrial uses to continue as legal land uses while allowing the City to accommodate housing in the Midtown Focus Area.

McGrath appreciates the Planning Commission's consideration of its concerns. McGrath will provide additional comments as it further reviews the City's General Plan Update proposals. In the meantime, please do not hesitate to reach out to me if you have any questions.

Sincerely,

Kristina Van Trease Whitney

General Plan Advisory Committee
1016 S. Livermore Ave.
Livermore, CA 94550

Re: Midtown Focus Area Land Use Alternatives

Dear General Plan Advisory Committee Members:

McGrath RentCorp ("McGrath") owns approximately 140 acres of real property located at 5700 Las Positas Road ("Property") in the City of Livermore ("City"). McGrath is a longtime employer in the City and operates as a business-to-business rental company. McGrath acquired the Property in 1992 and has been operating on the Property since 1997. The Property currently includes McGrath's company headquarters and McGrath's operational facilities. Since acquiring the Property, McGrath's business has steadily grown, which resulted in evolving and expanded use of the Property to meet the company's growing business and operational needs.

The Property, which is located within the boundaries of the Midtown Focus Area, is currently designated "High Intensity Industrial" under the General Plan.[1] McGrath has carefully evaluated the three land use alternatives being considered by the General Plan Advisory Committee ("GPAC") for the Midtown Focus Area. Of the City's three land use alternatives for the Midtown Focus Area, the Residential Neighborhood Alternative and Blended Alternative proposes changing a significant portion of the Property's General Plan land use designation from High Intensity Industrial to a residential and/or a commercial land use designation. This proposed change in land use designation would render McGrath's current use of the Property a legal non-conforming use under the City's Development Code, which would significantly limit McGrath's ability to continue to use and operate its business on the site.

McGrath expects that its current use of the Property will continue to evolve as McGrath's business continues to develop and grow. As a legal nonconforming use, McGrath's ability to use the Property in response to its changing business needs would be severely limited. As a non-conforming use, McGrath could not change its current use and intensity of use. It could not expand its headquarters or operational facilities or pursue additional development on the Property as may be required by McGrath's business and operational needs. McGrath could not pursue development of additional or new industrial uses on the Property in the event such development is deemed to be the most suitable use of the site based on market conditions and market demands. McGrath's current use of the Property would therefore be considerably limited, significantly impacting McGrath's ability to expand and change its use on the site as needed to adapt to its changing business and operational needs.

While McGrath understands that the General Plan Update is intended to guide the City's plans regarding land use, transportation, jobs, and housing until 2045, the conversion of a significant portion of the Property from High Intensity Industrial to residential,

[1] The northern portions of the Property fronting I-580 are designated Service Commercial.

McGRATH

5700 Las Positas Road, Livermore, CA 94551 | mgrc.com

commercial, and/or public land use designation would adversely impact McGrath's current and future use of the Property.

As the GPAC further evaluates the Midtown Focus Area, McGrath strongly encourages the GPAC to consider a land use alternative that retains the existing High Intensity Industrial designation over the Property. Alternatively, McGrath encourages the GPAC to consider flexible long-range planning mechanisms (such as establishing a General Plan mixed-use overlay designation over the Property's existing High Intensity Industrial designation) that would allow for phased land use changes to occur over time in response to market demands and local conditions, while continuing to authorize the existing industrial uses on the Property to continue as legal uses, rather than legal nonconforming uses.

McGrath appreciates the GPAC's consideration of its comments.

Sincerely,

Kristina Van Trease

SVP, Chief Strategy Officer

Andy Ross
Senior Planner
Planning Division
City of Livermore
1052 S. Livermore Avenue

Re: Comments on Proposed Southfront-Vasco Land Use Alternatives for City of Livermore's General Plan Update

Dear Mr. Ross:

McGrath RentCorp ("McGrath") owns approximately 140 acres of real property located at 5700 Las Positas Road ("Property")[1] in the City of Livermore ("City"). The Property is located south of Interstate 580 ("I-580") near the intersection of Vasco Road and Las Positas Road. The City has identified the Property as part of the Southfront-Vasco Focus Area in the City's ongoing evaluation of its preferred land use alternative for the City's General Plan Update. McGrath has closely reviewed and considered the three land use alternatives for the Southfront-Vasco Focus Area that were presented to the General Plan Advisory Committee ("GPAC") and the Planning Commission during meetings held in June 2022. As further detailed in this letter, changing the Property's existing High Intensity Industrial General Plan land use designation – as contemplated in Alternative B and Alternative C – will significantly limit and adversely impact McGrath's current and future ability to use the Property.

McGrath strongly encourages the City to consider alternative long-range planning mechanisms that will authorize existing industrial uses on the Property to continue pursuant to the High Intensity Industrial land use designation and allow for the development of new industrial land uses that will strengthen the City's economic and employment growth. As further discussed below, McGrath proposes that the City consider establishing a mixed-use overlay designation over the Property's existing High Intensity Industrial land use designation that would provide property owners the flexibility to develop pursuant to the underlying High Intensity Industrial designation standards or the mixed-use overlay designation standards (e.g., high density residential and/or commercial). McGrath believes that a flexible long-range planning mechanism, such as the establishment of an overlay designation, will better provide the City and property owners with the ability to better respond and adapt to evolving market demands and changing local conditions (e.g., development of the proposed future Southfront Valley Link Station).

The Ability to Continue Using the Property for Industrial Use is Critical to McGrath's Business and Operational Needs

McGrath is a longtime employer in the City and operates as a business-to-business rental company that rents and sells relocatable modular buildings, storage containers and offices, electronic test equipment, and liquid and solid containment tanks and boxes. McGrath acquired the Property in 1992 and has been using and operating on the Property since 1997. Since acquiring the Property, McGrath's business has steadily grown, which resulted in evolving and expanded use of the Property over the past 20-years to meet its growing

[1] The Property consists of Assessor Parcel Numbers 099-0040-080, 099-0040-072, 099-0040-074, 099-0040-073, 099-0040-075, 099-0040-076, 099-0040-077, 099-0040-078, and 099-0040-079.

business and operational needs.

The Property currently includes McGrath's office headquarters which consists of approximately 7.74 acres of the site and includes over 200 employees. McGrath's operational facilities are also located on the Property, including modular buildings, ground level offices (i.e., containers that have been converted to relocatable offices), container storage (including stacking), and storage of tractor trailers, containment tanks, and roll off boxes. As a longtime employer in the City, McGrath is committed to the community. McGrath employs many residents and regularly supports local businesses and organizations in the community, including providing temporary relocatable classrooms for schools and other temporary facilities for local events.

Much of the Property is currently designated High Intensity Industrial under the General Plan and located within the Heavy Industrial (I-3) zoning district. The northern portions of the Property fronting I-580 are designated Service Commercial (SC) and located within the SC zoning district. McGrath's inventory of relocatable modular buildings and storage containers and the refurbishment center are located within the area designated High Intensity Industrial and the I-3 zoning district. During recent meetings with the GPAC and the Planning Commission, the City presented the following three land use alternatives for the Southfront-Vasco Focus Area:

- **Alternative A.** Alternative A would retain most of the existing industrial land use designation for the Property. Under this Alternative, the City proposes changing the land use designation for certain portions of the Property located near the proposed future Southfront Valley Link Station from industrial to Residential High Density and Public.

- **Alternative B.** Alternative B would convert most of the existing industrial land use designation applicable to the Property to Residential High Density, Residential Medium Density, Commercial - Wine Country, Commercial - Neighborhood, and Public.

- **Alternative C.** Alternative C would also convert a significant amount of the existing industrial land use designation on the Property to Residential High Density, Residential Medium Density, Commercial - Wine Country, Commercial - Neighborhood, and Public.

While McGrath understands and appreciates that the General Plan Update is intended to guide the City's plans regarding land use, transportation, jobs, and housing until horizon year 2045, the conversion of a significant portion of the Property from High Intensity Industrial to residential, commercial, and/or public – as contemplated under Alternatives B and C – will adversely impact McGrath's current and future use of the Property.

Converting the Property's Industrial Land Use Designation Will Adversely Impact McGrath's Current and Future Use of the Property

Changing the Property's General Plan land use designation from High Intensity Industrial to residential and/or commercial land use designations will render McGrath's current use of the Property a legal non-conforming use, significantly limiting what McGrath can do on the Property, who McGrath can sell or lease the Property to, and what can be developed on the Property.

The General Plan defines a "non-conforming use" as "a use that was valid when brought into existence, but no longer permitted by later regulation. … Any use lawfully existing on any piece of property that is inconsistent with a new or amended General Plan and that in turn is a violation of a zoning ordinance amendment subsequently adopted in conformance with the General Plan, will be a non-conforming use. Typically, non-conforming uses are permitted to continue for a designated period of time, subject to certain restrictions."[2] The City's Development Code (Chapter 9.16), which states that the intent is to limit the number and extent of nonconforming uses in the City, sets forth restrictions applicable to nonconforming land uses, structures, and parcels.

[2] General Plan, p. I3-24.

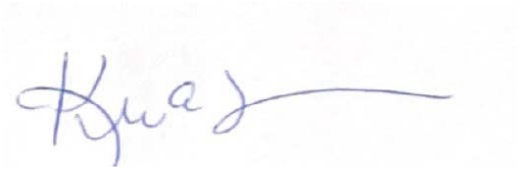
As a non-conforming use, McGrath could not change its current use and intensity of use. It could not expand its office headquarters or pursue additional development on the Property as may be required by McGrath's business and operational needs. McGrath (or another property owner) could not pursue development of additional or new industrial uses on the Property in the event such development is deemed to be the most suitable use of the site based on market conditions and market demands, unless such new use complies with the updated General Plan land use designation and applicable provisions of the Development Code. McGrath's current use of the Property would therefore be considerably limited, which may significantly impact McGrath's ability to expand and change its use on the site as needed to adapt to its changing business and operational needs.

The City's three land use alternatives for the Southfront-Vasco Focus Area would result in a significant reduction in the City's industrial land use supply, converting lands designated for industrial uses to non-employment uses. The proposed conversion of industrial lands adjacent to the McGrath site to residential and commercial uses may also further result in the imposition of additional operational restrictions on existing industrial users such as McGrath.

Converting the Property's General Plan land use designation from High Intensity Industrial to residential and/or commercial will also adversely impact McGrath's ability to sell or lease the Property in the future in response to market demands and conditions. The Property is located within a primarily industrial area and there may be industrial opportunities to sell or develop portions of the Property into other types of industrial uses (e.g., warehouse uses, research and development) to meet projected demands for such uses that may support various industries in the region, including but not limited to life sciences, technology, construction, manufacturing, and information services. Converting the Property's existing High Intensity Industrial land use designation may therefore impede McGrath's ability to pursue these industrial opportunities in the future if McGrath elects to sell or lease portions of the Property.

Establishing An Overlay Designation Will Provide Property Owners Flexibility to Respond to Market Demands and Local Conditions

McGrath strongly encourages the City to consider alternative flexible long-range planning mechanisms such as establishing a General Plan mixed-use overlay designation over the Property's existing High Intensity Industrial designation that would allow for phased land use changes to occur, as appropriate, in response to market demands and local conditions. The overlay designation would be used along with the existing underlying industrial land-use designation, allowing existing industrial uses on the Property to remain conforming land uses and authorizing the development of new industrial uses (e.g., warehouses and research and development). Property owners would have the option to develop consistent with the underlying industrial designation or the mixed-use overlay designation. This would allow the existing industrial uses to remain conforming land uses and preserve the existing industrial land uses on the Property while providing property owners with the ability to develop consistent with either the overlay designation or the underlying industrial designation based on evolving market demands and conditions.



The mixed-use overlay designation would provide property owners with the option to develop the Property with residential, commercial, mixed-use, and/or open-space designations as established in the General Plan Update. The General Plan would set forth the goals, objectives and policies for the overlay designation and the City's zoning code (Development Code) would implement the General Plan's vision for the overlay designation through development regulations and guidelines specific to the overlay.

Establishing an overlay designation will also allow the City and property owners to retain development options within the Southfront-Vasco Focus Area while the Valley Link Project progresses. Each of the three land use alternatives for the Southfront-Vasco Focus Area show the proposed future Southfront Valley Link Station. Alternatives B and C, which convert a significant amount of the existing industrial land use designation on the Property to residential and commercial land use designations, rely on the successful completion of the Southfront Valley Link Station, which, if implemented, will not be constructed for many years. Allowing the existing industrial uses to continue as conforming land uses while providing property owners with the ability to develop consistent with the overlay designation would allow for phased land use changes in the area to occur

in a manner responsive to changing local conditions such as the proposed future Southfront Valley Link Station, if and when it is completed.

McGrath appreciates the City's consideration of its comments. We look forward to further discussions with the City as the City progresses with its evaluation of the preferred land use alternative for the General Plan Update. In the meantime, please do not hesitate to contact me with any questions.

Sincerely,

Kristina VanTrease
