The Board reached a consensus to wait until the completion of next year's Audit firm *Request for Proposal* (RFP) to complete the 5-year statutorily required update; rather, fiscal year 2024-2025 will include a standard annual audit completed by CRI.

Board Members thanked Mr. Daniel for his time.

3. Board Discussion Regarding Policy 2520

Minutes: Board Member Foreman spoke to her request to change policy 2520. There was a specific request for the Board to create a policy for books to come back into the library in certain circumstances.

Board Member Messenger requested clarification if there was a way to allow schools to return books that were removed prior to the objection process. Ms. Pamela D'Agostino, General Counsel, noted that School District Policy 7300 refers to the fact that Principals have authority to what property is located at the school.

Ms. D'Agostino also noted that there is no contemplation within the current statute regarding a process which a decision to reconsider books that have already gone through the restriction or discontinuation process.

Mr. Derek Jensen, Deputy Superintendent of Instruction, provided additional information. Mr. Jensen stated that media specialists, as part of their job, have always had to remove items from media centers based on relevance, information being obsolete, and other factors. The process for the removal of books and materials in the media center include a requirement to send the list of books removed as well as the reasons for removal to the State Department of Education (DOE) annually.

Superintendent Wysong noted if the Board would like to adjust this policy, his preference is to keep policy 2520 one single policy rather than splitting into two; and to consider changing the headings within the policy to delineate the difference more clearly between media versus books.

Board Member Messenger stated her support for a change to Policy 2520.

Board Member Tatem stated his lack of support for a major change to Policy 2520. Board Member Tatem stated the books in the school library should support curriculum and instruction and the edification of the minds of children.

Board Member Tatem noted that he supported an adjustment to the policy format so there is instructional materials section and a media material section of policy that include headings within the same policy as recommended by Superintendent Wysong.

Vice-Chair Spray noted support for instructional versus media material clarification in Policy 2520.

Chair Choate stated that changing the policy at this time is not in the best interest of the School District; however, he did support a clarification within policy 2520 to clarify 'books' versus 'media' as described by Superintendent Wysong and other Board Members.

Chair Choate called a recess at 12:01 PM and reconvened the Workshop at 12:10 PM.

4. Board Discussion Regarding Bylaw 0169.1 Related to Public Comment by Non-Mantee County Residents

Minutes: Vice-Chair Spray proposed the idea that Bylaw 0169.1 should include a statement that would only allow members of the School District of Manatee County, or people who are relatives of students, that reside in Manatee County to provide public comment during School Board Meetings and Workshops.

Mr. Stephen Dye, School Board Attorney, noted legally the Board cannot limit Public Comment based on area of residence. Mr. Dye noted that it would be legal for the Board to request the information of where a commentor is a resident, but the speaker is not legally obligated to provide the information.

Board Member Tatem noted his request to not limit any speaker who wishes to make a public comment.

The Board reached consensus to add an optional county of residence field to the sign up form on the public comment page.

5. Board Discussion Regarding Method of Election of School Board Members

Board Member Foreman provided an overview to the Board regarding her request to change the method of election for School Board Members. Her proposal would require a change from single district voting to

an all-county vote where each citizen would be able to vote on all School Board Members no matter where the voters were living.

Board Member Messenger noted that she does support county wide voting.

Vice-Chair Spray does not support a change in the method of electing School Board Members.

Board Member Tatem stated that he does not support a change in the method of electing School Board Members.

Chair Choate also stated that he does not support a change in the method of electing School Board Members, and summarized that at this time there is not a consensus to change the method of election for School Board Members.

AGENDA ITEM NO. 11.2

School Board of Manatee County
May 14, 2024 - Regular Board Meeting
Action Item

Title
Approval of the Report of Teachers Out-of-Field Content, Reading, ESOL (English for Speakers of Other Languages), and/or Long-Term Substitutes (No Financial Impact)

Executive Summary
The Out-of-Field Plan for Manatee County Schools provides that teachers are notified of their out-of-field status at the point that their current certification does not meet the required certification for the subject(s) they are teaching. State School Board Rule 6A-1.0503 provides that any out-of-field teacher must be appointed as out-of-field after verifying that an appropriately certified teacher is unavailable. The School Board appointed the attached list of teachers as out-of-field. These teachers can pass the subject area exam or complete a minimum of six semester hours annually toward certification until such time they can pass the test, if applicable.

The Multicultural and Educational Training Advocacy (META) Consent Decree requires that all teachers of English Language Learners (ELLs) receive training in English for Speakers of Other Languages (ESOL) strategies. The required training hours range from 18 to 300 hours and are categorized by the subject in which the teacher gives instruction. Categories are I, II, III, and IV. The category also drives the timeline for completing training hours. Specifics are given to each teacher at the time of hire or when there is a change of assignment. Category I Teachers who are not ESOL Certified or Endorsed must be reported to the Board as out-of-field. The attached list contains the teachers' names that must be reported to the Board.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready To Grow | Goal 1
Develop a competitive employee salary schedule to keep and attract the best talent and continue to provide quality customer service to our staff and parents

Ready To Grow | Goal 2
Strengthen our new employee orientation and development program to foster, promote, and retain extraordinary educators and staff

Recommendation
The Superintendent recommends approval of the report of teachers out-of-field content, reading, ESOL (English for Speakers of Other Languages), and/or long-term substitutes. (No Financial Impact)

Financial Impact

F) Narrative

The difference between the 23-24 TIPC Preliminary Allocation and its Final Allocation for Manatee County is $24,309. This **$24,309 difference is being added** to this budget by way of this amendment.

1. **Subtracting funds to AOF 3, Activity 1 – Migrant Recruiter – FTE 1.0.** – Our Migrant Recruiter was promoted to a different position within the district. Due to vacancy and due to the difference in salary between the previous recruiter and the new recruiter, this Activity will now have too much allocated to it. We will move the difference to other Activities.
2. **Subtract funds to AOF 4, Activity 3** – reduce line 6150-360 by $449.
3. **Adding NEW Activity (AOF 5, Activity 6) -** Increasing funds to budget lines relating to all Title I, Part C funded Staff office supplies. Approximately $2000.
4. **Increasing funds to Activity (AOF 1, Activity 4) – School Supplies** (i.e., graphing calculators, pencils, paper, pens, folders, drawstring bags, sketch art kits, markers, binders, and other similar items). Approximately $12,000.
5. **Increasing funds to Local Travel -** 6100-330 an additional $1000.
6. **Adding NEW Activity (AOF 1, Activity 9) – Test Prep Study Guides** – ACT, SAT, and CLT scores may be used to meet the high school graduation requirements in Florida. These study guides will aid students with achieving passing scores. Approximately $2500.
7. **Adding NEW Activity (AOF 3, Activity 3) – NCH for Recruiting Activities** –To effectively compensate for and meet the need for recruiting, the MEP will create a Migrant Recruiting Schedule for other MEP employees who are willing to work "recruiting shifts." MEP employees would be eligible for NCH to pick up recruiting shifts after regular working hours and on weekends to conduct recruiting activities. Approximately $5,000.
8. **Adding NEW Activity and budget line to (AOF 4, Activity 4)** – to purchase a blue-tooth portable loudspeaker with microphone so that parents can hear staff conducting outdoor meetings in rural locations. Approximately $850. Additionally, we will purchase a "wireless interpretation system" so that we can translate for families at large meetings such as back-to-school, assemblies, and other similar events. Approximately $3500.
9. **Adding funds to Migrant Resource Teacher (AOF 1, Activity 1) -** increasing the FTE to 0.75.
10. **Adding funds to Graduation Enhancement Tech (AOF 1, Activity 3) -** increasing the FTE to 0.34.

Introduction

The Vision of the Multifaceted Model:
*Build **Connection, Relationship, Hope***
for the School District of Manatee County At Risk Students

Align Consulting, under the direction of Christina Gerken, worked alongside Mr. Chapman and Mr. Schrier in June of 2022 to create, design and develop a strategic initiative specific to meeting the needs of the Tier 2 and Tier 3 At Risk Students in the School District of Manatee County. The Multifaceted Model is comprised of One-to-Five Mentorship, Group Mentorship and Supportive Mentorship for In School Suspensions.

The Multifaceted Model for At Risk Students began implementation August of 2022 and piloted the 2022/2023 School Year. The 3 At Risk Programs developed and designed operationally and logistically by Align Consulting will continue/begin to be implemented by Align Consulting for the School Year 2023/2024. The focus of the Implementation is to help facilitate, coordinate, assess, streamline the organizational and logistical structure of each program in continued alignment with the School District of Manatee County for long term sustainability.

The Target Goals of the Programs implemented for the 2022/2023 School Year were measured for results to reduce the exclusionary practices such as Out of School Suspensions for all students but especially those students who have disproportionate rates of suspension, behavior referrals and attendance. The Pilot schools were selected for the Program based on a variety of data from the 2021-2022 school year. The Pilot Mentorship Programs do and will continue to increase academics, increase attendance, decrease behavior referrals and decrease out of school suspensions while at the same time build character and teach skills that enable the students to interact and grow.

The Focus of the first year pilot program:

- Focus on reduction of exclusionary practices
- Focus age: 12-17 year olds
- Focus on Tier 3 students
- Pilot Schools were chosen from data, history and administrative reference
- Mr. Schrier was the facilitator between mentoring groups and school-based administration
- Students performance was reviewed prior to the program and after the program
- Relationship and Results Focused
- Structure focused on Long Term Sustainability

What makes this Multifaceted Model for At Risk Students different? The Programs are a part of the students' school day. The process, operations and logistics in the roll out is designed to align with the School District of Manatee County protocols, structures and operations. The curriculum is approved by the school. The outcomes show the successful results. The programs help the students while eliminating staff time for additional behavior referrals and increase intake dollars for the District based on attendance. Assessments are in place to continue to build long-term sustainability. The Resiliency Standards and Strategic Goals and Metrics continue to be measured. There is a clear path for moving forward as the programs proactively work on prevention, retention and growth with measured results that are successful.

The Workflow

The workflow diagram clearly identifies each key component of the working multifaceted model for at risk students. This multifaceted model provides:

- additional support to Tier 2 and Tier 3 students
- guidance, curriculum content and support for staff working with In-School Suspensions
- thorough training for staff and mentors
- easy to implement curriculum with flexibility to accommodate each school's needs in large group mentorship for Tier 2 and Tier 3 students
- high level training on trauma and adverse childhood experience for staff in each program provided in this model

Aligning each key component to work together is integral to the success in meeting students where they are at, providing additional connection for students and staff, integrating staff training on trauma and adverse childhood experiences, providing curriculum focused on life skills, behavior management tools and character building. These programs provide support in accelerating the positive changes in behavior, academics and attendance for Tier 2 and Tier 3 students.

Bayshore High School
Carlos E. Haile Middle School
W.D. Sugg Middle School
Braden River Middle School
Horizon Academy
South East High School
Parrish High School

03 Develop After School Tutoring Resource

Work with staff at each school to obtain the tutoring list after school options in the surrounding area prior to the End of Quarter 1 Mentor Meeting.

04 Assessments Continue

Assessments at the beginning of the year, mid-year and end of the yer continue for staff, students and mentors.

Next Steps

The Long Term sustainability of the Multifaceted Model continues with concrete data, assessments, consistency and growth. The following next steps are suggested.

01 Choose TWO Staff per Elementary School

Choose two staff at Title I Elementary Schools to train in the PAS Elementary Program. Encourage administrators to provide an incentive for these two staff employees.

02 Pilot the Elementary Mentorship Program

Introduce to the staff with suggestions of how to integrate into the school day. In addition, include suggestions for choosing the paraprofessional/staff person. Provide a training/hybrid for the staff person (2 is suggested) from each school.

03 Grow the Pilot - In School Suspension and/or Supplemental Curriculum Program

Provide a training for Student Specialists and staff chosen by administration for the In School Suspension Program and/or Supplemental Curriculum use.

04 Develop After School Tutoring Resource

Work with staff at each school to obtain the tutoring list after school options in the surrounding area for each school participating in the Plant A Seed Programs.

2. Overview of Fees:

Pilot Multifaceted Model for At Risk Students Implementation Includes: PROGRAM IMPLEMENTATION ROADMAP **Quarter Two through Four: November 2023 – June 2024** • Continue to facilitate the coordination and implementation of the Organizations for the 2 Mentorship Programs and the School's Pilot One-on-Five Mentorship Program. • Coordination and the Structure built for Implementation for the 4th portion of the Align Mentorship Model - Trauma Informed Care Training for all staff for 2023/2024 School Year. • Work with key executives to maintain the Steps for the Process, Success of the Structural Model and Systems for the Mentorship Programs with weekly touchpoints and bi-weekly meetings and Quarter End Mentor Gatherings. • Overview of Action Steps, SWOT Analysis at the end of each month for the structure of 3 Mentorship Programs. • Final Overview and Recommendations for Long Term Sustainability to maintain the successful Pilot Align Mentorship Programs and Expansion District Wide. The focus of the Implementation is to help facilitate, coordinate, assess, streamline the organizational and logistical structure of each program in continued alignment with the School District of Manatee County. The Target Goals that will be measured for results will be to continue reducing the exclusionary practices such as Out of School Suspensions for all students but especially those students who have disproportionate rates of suspension. Target ages for the mentorship program are 12-17 years of age. Pilot schools are selected for the Programs based on a variety of data from the 2021-2022 and 2022-2023 school years. Align Consulting will continue to work with Organizations for One-to-Five Mentorship. George Schrier will be the facilitator between mentoring groups and school-based administration. All financial payments to the Organizations involved will be directly worked with through Align Consulting. The Pilot Mentorship Programs do and will continue to increase academics, build character and teach skills that enable the students to interact with a diverse group of people. Student data review will consist of student performance prior to and after being involved with a mentor. The ultimate goal will be to grow this into a district wide initiative with long-term sustainability.	$14,500.00 per month will be invoiced

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." The Vision of the Multifaceted Model:
*Build **Connection, Relationship, Hope***
for the School District of Manatee County At Risk Students

Align Consulting, under the direction of Christina Gerken, worked alongside Mr. Chapman and Mr. Schrier in June of 2022 to create, design and develop a strategic initiative specific to meeting the needs of the Tier 2 and Tier 3 At Risk Students in the School District of Manatee County. The Multifaceted Model is comprised of One-to-Five Mentorship, Group Mentorship and Supportive Mentorship for In School Suspensions.

The Multifaceted Model for At Risk Students began implementation August of 2022 and piloted the 2022/2023 School Year. The 3 At Risk Programs developed and designed operationally and logistically by Align Consulting will continue/begin to be implemented by Align Consulting for the School Year 2023/2024. The focus of the Implementation is to help facilitate, coordinate, assess, streamline the organizational and logistical structure of each program in continued alignment with the School District of Manatee County for long term sustainability.

The Target Goals of the Programs implemented for the 2022/2023 School Year were measured for results to reduce the exclusionary practices such as Out of School Suspensions for all students but especially those students who have disproportionate rates of suspension, behavior referrals and attendance. The Pilot schools were selected for the Program based on a variety of data from the 2021-2022 school year. The Pilot Mentorship Programs do and will continue to increase academics, increase attendance, decrease behavior referrals and decrease out of school suspensions while at the same time build character and teach skills that enable the students to interact and grow.

The Focus of the first year pilot program:

- Focus on reduction of exclusionary practices
- Focus age: 12-17 year olds
- Focus on Tier 3 students
- Pilot Schools were chosen from data, history and administrative reference
- Mr. Schrier was the facilitator between mentoring groups and school-based administration
- Students performance was reviewed prior to the program and after the program
- Relationship and Results Focused
- Structure focused on Long Term Sustainability

What makes this Multifaceted Model for At Risk Students different? The Programs are a part of the students' school day. The process, operations and logistics in the roll out is designed to align with the School District of Manatee County protocols, structures and operations. The curriculum is approved by the school. The outcomes show the successful results. The programs help the students while eliminating staff time for additional behavior referrals and increase intake dollars for the District based on attendance. Assessments are in place to continue to build long-term sustainability. The Resiliency Standards and Strategic Goals and Metrics continue to be measured. There is a clear path for moving forward as the programs proactively work on prevention, retention and growth with measured results that are successful.

APPENDIX A

DETAILED CURRICULUM PLAN

General information

All students enrolled in the FLVS FT VIP program in grades K-8 will participate in their grade-level specific schedule, included in this document. Students in grades 9-12 will participate in a Regular, Honors, or Rigorous Academic Track with classes assigned according to credits needed for graduation in their district. The following represents the detailed curriculum plan for districts in the Virtual Instruction Program (VIP) for 2024-2025. Students performing above or below grade level may receive additional adjustments, subject to District approval as follows:

Students performing below grade level K-8

Students who are not performing at grade level will be placed in their appropriate grade-level courses but may receive additional content and instruction designed to address their deficiencies. Students who are not performing at grade level in math grades 3-8 may receive enhanced course content in math. The course codes will be the same as the standard course codes for these courses, but the student's records will identify the course as "Essential." Students who scored a level 1 or 2 on the FCAT Reading test will be placed in an Intensive Reading course in place of Educational Technology and Online Learning and Art. Health and Physical Education may also be waived for these students as necessary.

Students performing above grade level K-8

Students who are above grade level may receive enhanced course content in language arts, math, or science in grades 3 through 8. The course codes will be the same as the standard course codes for these subjects in grades 3-5 but the student's records will identify the course as "Advanced, Enriched or Accelerated." In grades 6-8, course codes for Advanced content will be used. Students receiving this content will not qualify for any "gifted" designation within their resident district. Students who are well above grade level in math may receive a math course at one or more grade levels above their age-based grades with District approval.

In addition, students may be offered one (and in rare situations, more than one) additional Elective course, with District approval. Course and unit descriptions for grades K-12 are available at https://www.flvs.net/full-time/courses

All courses include detailed assessments to ensure student mastery of Florida requirements.

The Virtual Instructional Provider represents that to the best of its knowledge, all curriculum provided under this plan complies in all material respects to the Florida Standards for each grade level and subject.

Furthermore, nothing herein shall be construed as an obligation of either Party to defend, sue, or consent to be sued by a third party. Rather, FLVS and the District agree to be responsible only for such claims and damages caused by the tortious or otherwise negligent action or inaction of their own officers and employees while functioning within the scope of their official duties, and their respective liability for such damages shall be limited to the amounts set forth in Section 768.28, Florida Statutes.

Nor shall any single or partial exercise of any right, power, or privilege arising from this Agreement preclude any other or further exercise thereof or the exercise of any other right, power, or privilege. No waiver shall be valid and enforceable against either Party unless it is agreed upon in writing that is authorized and signed by the Party against whom enforcement of such waiver is sought.

FLVS Mission:
Equip students for success by developing and delivering highly effective digital learning through an intuitive online platform.

FLVS Vision:
Lead online education worldwide with innovative digital solutions that individualize learning for each student.

FLVS Values:
- Excellence – Deliver the best. Always.
- Innovation – Lead transformative learning.
- Community – Build meaningful connections.
- Balance – Embrace flexibility.
- Communication – Listen, share, and collaborate openly.

FLVS Commitment:
The Student is at the center of every decision we make.

FLVS Franchise Policy Guide:
Communication and interaction are at the heart of our success. Research continues to show that Student-Teacher interaction is the key to a successful educational experience. Frequent Student-Teacher communication in the virtual learning environment requires commitment above and beyond the traditional workday by staff, as communication is the critical element to the success of the program. Florida Virtual School's evaluation consistently shows an overwhelming need and appreciation for the frequent communication that is occurring between staff and Students. Voice-to-voice communication and email are considered essential and are expected on a regular basis. Teachers are expected to perform Discussion Based Assessments as scheduled and additional as needed.

Academic Integrity:
Academic Integrity, along with hiring the best and brightest instructional staff, is one of the core values at FLVS. It is one of the most important things we do as a learning organization. Done well, Students will make decisions based on values that will prepare them as productive, meaningful, and ethical citizens. All Franchise teachers will comply with the FLVS Academic Integrity policies and procedures, which can be found at:
https://www.flvs.net/docs/default-source/myflvs/academicintegrity.pdf?sfvrsn=6

Welcome Phone Call:

Prior to being granted access to their online course, students must have a Welcome Phone Call conversation with their instructors. During the initial Welcome Call, instructors will ask for a preferred method of contact. Instructors will make note of the preferred method and communicate student progress accordingly.

Grading Student Work:

1. A major component of proper communication is returning student work in a timely manner. It is the Florida Virtual School's policy that all communication be returned within twenty-four (24) hours. Responding within twenty-four (24) hours does not have to include the grading of all work that was submitted the previous day. It is the responsibility of the instructor to inform students about the expected turnaround time on grading work that has been submitted. All work should be graded within forty-eight (48) hours of submission.

2. Florida Virtual School uses the state-adopted grading scale. Per Section 1003.437, Florida Statutes, Middle and High School (grades 6-12) Grading System:
   a) Grade A equals ninety percent (90%) through one hundred percent (100%).
   b) Grade B equals eighty percent (80%) through eighty-nine percent (89%).
   c) Grade C equals seventy percent (70%) through seventy-nine percent (79%).
   d) Grade D equals sixty percent (60%) through sixty-nine percent (69%).
   e) Grade F equals zero percent (0%) through fifty-nine percent (59%).
   f) W – Student withdrawn during the grace period. No credit awarded.
   g) WF – Student withdraws past grace period with a failing grade at the time of withdrawal. No credit awarded.
   h) WP – Student withdraws past grace period with a passing grade at the time of withdrawal. No credit awarded.
   i) P – Indicates that credit was awarded based on the student passing a state-administered End of Course (EOC) assessment instead of completing one hundred percent (100%) of the course materials. Florida refers to this as a Credit Acceleration Program (CAP) credit. However, Florida has instituted EOC exams for select courses. A final grade issued by FLVS in one (1) of the EOC exam courses may be interpreted differently based on district policies in effect at the time of enrollment and/or completion, and specific requirements per Florida Statute.

Each Florida School District reserves the right to input FLVS statuses into their county transcript system based on their specific student progression plan and/or reporting capabilities.

Final Exam Policy:

The purpose of the final exam is to assist in validating that Students have demonstrated mastery of key course concepts and standards. The final exam, unto itself, is not the sole determiner of Student achievement; however, students are required to take a final exam in all FLVS courses.

For Courses with state-required EOC exams, the District may act in accordance with District policy.

To maintain the integrity of all FLVS grades, instructors may choose to facilitate random oral assessments and/or face-to-face exams.

Minimum Length of Courses:

To ensure that Students are mastering content within their courses, it is important to remember that the fourteen (14) day minimum learning experience for all half-credit courses and a twenty-eight (28) day minimum for all full-credit courses remains in effect. For Students to successfully complete a skill-based course with specific course requirements, such as a time component (i.e., workout logs in Personal Fitness), a longer minimum learning experience may be required.

As noted in the statement above, skill-based courses with a time component require a longer minimum stay. PE courses fall into that category.

Personal Fitness (PF):	Twenty-one (21) Days
Fitness Lifestyle Design (FLD):	Twenty-four (24) Days
Health Opportunities in Physical Education	Twenty-one (21) Days

Documentation of Student Work:

All Student assessment records should be kept in the FLVS course management system. Primarily, Student work will be completed within the course management system. Keep digital documentation of any Student assessments given by phone or in the chat room. Create a system for storing work that would be logical to anyone. Record the assessment grade and comments in the LMS. All email communication with Students must be maintained within the LMS.

As a Florida District Learning and Service Agreement Teacher, I have read and agree to abide by all FLVS Instructional Polices as found at:

Steps for Enforcement

To ensure that its products and services are properly presented, FLVS reserves the right to review both the individual and overall performance of the District. Based on defined expectations for performance and policy/procedure alignment, FLVS will notify the District representative of any discrepancies so that the representative may take immediate action to correct the issue(s). FLVS may assist in providing additional tools and/or training at the expense of the District. Should the discrepancies continue, either with or without remediation, FLVS reserves the right to have a non-performing individual removed from the District program and/or terminate the Agreement with the District.

3. Verbal communication with the District Franchise Leader to identify deficiencies with a plan for correction of identified deficiencies to bring the Franchise back into compliance within seven (7) Business Days.
4. If a deficiency is not corrected within seven (7) Business Days with the District back in compliance with the District Agreement, parties involved will attend mandatory training with costs being incurred by the District.

Step Two: Probation

1. Should the discrepancies continue, FLVS will place the District on probation for no longer than one (1) year. This probationary action shall not prevent students currently enrolled in FLVS courses to complete those courses.

When a district school board believes that commodities or contractual services are available only from a single source, the district school board shall electronically or otherwise publicly post a description of the commodities or contractual services sought for a period of at least 7 business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services described. If it is determined in writing by the district school board, after reviewing any information received from prospective vendors, that the commodities or contractual services are available only from a single source, the district school board shall provide notice of its intended decision to enter a single source contract in the manner specified in Section 120.57(3), F.S., and may negotiate on the best terms and conditions with the single source vendor."

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement

DocuSign Envelope ID: 91C067CC-AFF0-4A67-9CF8-F00743679301

SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

All students and staff in the District are required to have an ID card to display for safety and security purposes and other school/department requirements. The District supplied the initial machines, supplies, and services for this project. The District will also provide schools with 650 or more students enrolled a second printer. The District will also begin replacing the original equipment that was purchased in the 2019-2020 fiscal year. The District is responsible for the annual BadgePass software/subscription fees each year. The annual software/subscription fees will increase due to the additional machines purchased to support the District. The District will continue to provide supplies to schools and departments to support this requirement. The sole source provider for BadgePass is:

The requested contract is for the period of July 1, 2024 through June 30, 2025.

Historical Expenditures are as follows:

- 2022-2023 $71,114.29

State Board Rule 6A-1.012(12)(d) states: "Commodities or contractual services available only from a single source may be exempted from the competitive solicitation requirements. When a district school board believes that commodities or contractual services are available only from a single source, the district school board shall electronically or otherwise publicly post a description of the commodities or contractual services sought for a period of at least 7 business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services described. If it is determined in writing by the district school board, after reviewing any information received from prospective vendors, that the commodities or contractual services are available only from a single source, the district school board shall provide notice of its intended decision to enter a single source contract in the manner specified in Section 120.57(3), F.S., and may negotiate on the best terms and conditions with the single source vendor."

Florida Administrative Code Rule 6A-1.012(14) states, “A district school board, when acquiring, whether by purchase, lease, lease with option to purchase, rental or otherwise, information technology, as defined in Section 282.004(11), F.S., may make any acquisition through the competitive solicitation process as described herein or by direct negotiation and contract with a vendor or supplier, as best fits the needs of the school district as determined by the district school board.” The foregoing rule contains a scrivener's error as the relevant statute defining "information technology" is Section 282.0041, Florida Statutes.

The District has reviewed sole source information and has fully complied with all sole source requirements. Documentation is on file the purchasing department.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Admin. Code R. 6A-10.083) will not be tolerated. If it is determined that any person with such criminal history is performing work relative to the Agreement, Contractor agrees to take all steps necessary to remove such person from performing work relative to the Agreement and District property. District shall have the right to terminate this Agreement if Contractor does not comply with this provision.

29. **POSSESSION/USE/UNDER THE INFLUENCES OF MIND-ALTERING SUBSTANCES:** Possession/use and/or being under the influence of any illegal mind-altering substances, such as, but not limited to alcohol and/or substances delineated in Chapter 893, Florida Statutes, by Contractor's employees or independent contractors or its subcontractors' employees or independent contractors will not be tolerated on District property. If any employee or independent contractor is found to have brought and/or used or is under the influence of any illegal mind-altering substances as described above on District property, said employee or independent contractor shall be removed and barred from performing work relative to the Agreement by Contractor. If a subcontractor fails to terminate said employee or independent contractor, Contractor shall terminate its agreement with the subcontractor. If Contractor fails to terminate said employee or independent contractor or fails to terminate the agreement with the subcontractor who fails to terminate said employee or independent

contractor, this Agreement may be terminated by District.

30. **CONTACT WITH STUDENTS:** Unless otherwise specified, Contractor will not permit any employee, independent contractor, material men, supplier or anyone involved in any manner with work pursuant to this Agreement to have direct or indirect contact with students while performing pursuant to this Agreement on District property. A violation of this provision shall result in immediate termination of the offender and the issuance of a trespass notice from District. Contractor shall be responsible for insuring compliance by all employees, independent contractors, subcontractors or other persons involved in any manner with work pursuant to this Agreement.

31. **FEDERAL DEBARMENT & SUSPENSION CERTIFICATION:** Executive Orders 12549 and 12689): A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." 32. **INVOICE REQUIREMENTS:** The invoice shall contain the following basic information: the Contractor's name and address, invoice number, date of invoice, description of the service performed, the contract number, purchase order number, and any discounts. 33. **PAYMENT:** The District complies with the Local Government Prompt Payment Act (sections 218.70-218.80, Florida Statutes). Unless otherwise required by the Local Government Prompt Payment Act, invoice payment is Net 45 days from the date of delivery or the receipt of satisfactory invoice, whichever occurs last, unless invoices specify early payment discounts.

34. **EMPLOYMENT ELIGIBILITY VERIFICATION ("E-VERIFY"):** By entering into this Agreement with the School District of Manatee County (a public employer in Florida) to provide goods or services in exchange for salary, wages or other renumeration, this section applies to verify employment eligibility. Therefore, pursuant to Section 448.095, Florida Statutes and beginning July 1, 2023, a private employer with 25 or more employees shall use the E-Verify system to verify a new employee's employment eligibility, located at https://e-verify.uscis.gov/emp. The Parties may not enter into a contract unless each party registers with and uses the federal E-Verify system.

    The Contractor verifies its compliance with the E-Verify System by listing its E-Verify System Number; or by signature and submission of this contract, asserts it does not employ 25 or more employees, and it is not an unauthorized alien, as defined by this statute.

Additional costs may include but are not limited to higher costs for the same services and rebidding costs (if necessary). Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

J. 200.323 Procurement of recovered materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

- Apple, Inc., Cupertino, CA, Florida Document No. 853146

The contract is requested through April 30, 2025 with automatic one (1) year renewals thereafter.

Historical Expenditures are as follows:

- YTD 2023-2024 $56,706.38
- 2022-2023 $433,093.00
- 2021-2022 $51,347.00

Approval of this proposal and agenda item does not indicate immediate or complete expenditure of approved funds. Funds will only be expended as budget(s) allow on an as-needed basis throughout the contract period.

State Board Rule 6A-1.012(12)(d) states: "Commodities or contractual services available only from a single source may be exempted from the competitive solicitation requirements. When a district school board believes that commodities or contractual services are available only from a single source, the district school board shall electronically or otherwise publicly post a description of the commodities or contractual services sought for a period of at least 7 business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services described. If it is determined in writing by the district school board, after reviewing any information received from prospective vendors, that the commodities or contractual services are available only from a single source, the district school board shall provide notice of its intended decision to enter a single source contract in the manner specified in Section 120.57(3), F.S., and may negotiate on the best terms and conditions with the single source vendor."

Florida Administrative Code Rule 6A-1.012(14) states, “A district school board, when acquiring, whether by purchase, lease, lease with option to purchase, rental or otherwise, information technology, as defined in Section 282.004(11), F.S., may make any acquisition through the competitive solicitation process as described herein or by direct negotiation and contract with a vendor or supplier, as best fits the needs of the school district as determined by the district school board.” The foregoing rule contains a scrivener's error as the relevant statute defining "information technology" is Section 282.0041, Florida Statutes.

The District has reviewed sole source information and has fully complied with all sole source requirements. Documentation is on file the purchasing department.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

RE: Apple Sole Source Letter

School District of Manatee County
Kimberlie Dufon
215 Manatee Ave. W
Bradenton, FL 34205

Dear Kimberlie:

The purpose of this Apple Sole Source Letter is to inform you and your organization that Apple Inc. ("Apple") is the sole source provider of Apple Products for private and public K-12 education institutions in the United States with a few limited exceptions.

"Apple Products" refers to Services, CTO Products, hardware and software products manufactured, distributed, or licensed under an Apple-owned or licensed brand name that an Apple customer has paid to acquire or has properly licensed from Apple for its own use, but excluding any third-party software and all other third party products. "Services" means collectively, the standard, price-listed services, support, and/or training products sold under the Apple brand name. "Configure-To-Order Products" or "CTO Products" means Products that Apple modifies from its standard configurations and that are available to an Apple customer only by special order.

The only source of Apple Products for private or public K-12 education institutions is Apple with a few limited exceptions. Only a handful of strategic resellers, such as AT&T, Sprint, T-Mobile, and Verizon, are authorized to sell Apple Products to private and public K-12 education institutions in the United States.

Apple will continue to have a direct sales and purchasing relationship with K-12 education institutions and, aside from a very small number of exceptions, will continue to be the sole source for all of the Apple Products sold to K-12 education institutions.

Apple may change or update this letter in its sole discretion.

Sincerely,

Johnny Mendoza

"**Services**" mean, collectively, the standard, price-listed-services, support and/or training products sold under the Apple brand name.

2. Interpretation

In the event of any conflict or inconsistency between the terms of this Agreement and any license terms or terms of use accompanying any Apple Product or otherwise made available by Apple, such license terms and/or terms of use shall control solely as to the use of the Apple Product covered by those terms.

3. Terms and Conditions of Purchase

3.1 Ordering
Customer may order Products from Apple by either: (i) ordering at an Apple Retail Store; (ii) ordering electronically through the online portal managed by Apple; (iii) submitting a purchase order to Apple, as permitted by Apple; or (iv) by any other means communicated by Apple. Customer is solely responsible for all purchase decisions, including but not limited to, ensuring the compatibility and appropriateness of all Products. All purchases of Products under this Agreement shall be made solely for Customer's end use and not for resale. In the event Customer submits orders via an online portal managed by Apple, Customer agrees to Apple's Terms of Use and Privacy Policy located on such online portal. Furthermore, purchases through an online portal may also be subject to an online sales policy. In the event of any inconsistency between this Agreement and the online sales policy, this Agreement will govern.

3.2 Customer's subsidiaries and/or affiliates may not purchase Products from Apple under this Agreement unless Apple has agreed in signed writing with Customer that such subsidiaries and/or affiliates are authorized to purchase Products from Apple pursuant to this Agreement. Such authorization shall be subject to the parent company having provided a guarantee of the debts to Apple of such subsidiaries and/or affiliates and compliance with the obligations of this Agreement by such subsidiaries and/or affiliates. Notwithstanding the foregoing, Apple may require at its sole discretion that the debts to Apple of such subsidiaries and/or affiliates must be included in a parent company guarantee.

3.3 Limited Billing Service Account
Apple will provide Customer a limited billing service account to use when placing service orders such as Customer Installable Parts (CIPs) and mail-in or on-site repairs via the contact center or Apple Retail Stores. Customer may be asked to submit a purchase order when placing a service order. Customer acknowledges that Apple does not provide service CIP or repair pricing on an Apple price list. Apple will quote current service CIP or repair pricing to Customer prior to processing any purchase order, and Customer will have the option to either accept or decline the quoted prices. Apple will not process the purchase order if Customer declines the quoted price, but will process the purchase order under the terms of this Agreement if Customer accepts the quoted pricing.

3.4 Prices and Orders
Customer agrees that Apple may change Product offerings, discounts and pricing at any time and without notice to Customer. Prices include standard freight and insurance using an Apple-selected carrier. Apple does not guarantee that Products will be available at all times during the Term. Apple reserves the right to accept or decline any order, in whole or in part. Apple may cancel any accepted order prior to shipment, if in its sole discretion, Apple determines that it has insufficient inventory to fulfill such order. Apple may make partial shipments of Customer's orders and will not be liable for any failure to ship complete orders. Customer will be invoiced separately for each partial shipment and will pay each invoice when due, without regard to subsequent deliveries. Apple will allocate its available inventory and make deliveries (including partial shipments) in its sole discretion and without liability to Customer.

3.5 Delivery
3.5.1 Except for U.S. federal government agencies, title and risk of loss to all Products will pass to Customer upon shipment from Apple's shipping location. For Products shipped pursuant to Apple's standard practices, Apple will issue credits or replace Products returned due to damage in transit or that are lost in transit. When Products are not shipped pursuant to Apple's standard practices but instead via a carrier selected by Customer: (i) Apple will not issue credits or replace Products returned due to damage in transit or that are lost in transit and Customer's sole recourse for loss or damage shall be against its own insurer, its selected carrier, and its carrier's insurer; and (ii) Customer shall insure Products for their full replacement value for delivery to Customer until Customer has paid Apple in full for such Products, and shall name Apple as a loss payee on the Customer's policy. For both government and non-government sales, shipping charges for orders shipped under Customer's instructions will be added to Apple's invoice or shipped freight collect, at Apple's option.

3.5.2 For orders picked up by Customer at the Apple Retail Store, risk of loss or damage to Products will pass to Customer upon pick up of the Products from the Apple Retail Store. Title to the Products will pass to Customer when Apple provides notice that the Products are available for pick up from the Apple Retail Store. Customer shall contact the Apple Retail Store for any issues regarding pick up of the Products.

3.5.3 For U.S. federal government agencies only, title and risk of loss to all Products will pass to Customer upon delivery to Customer.

3.6 Payment
3.6.1 Unless Customer qualifies for credit with Apple or except as otherwise approved by Apple, Customer shall pre-pay for all orders placed.

3.6.2 Provided that Customer qualifies for credit with Apple, Customer shall be invoiced upon shipment of Products or performance of Services (as applicable), and payment of such invoice is due no later than thirty (30) days from the invoice date.

3.6.3 Apple may in its sole discretion establish a Line of Credit for Customer. If Apple establishes a Line of Credit it will do so to the extent permitted by law and under the following minimum terms and conditions:

3.6.4 Payment terms for all amounts due from Customer to Apple (including payments for Services) will be net thirty (30) days from the date of Apple's invoice, except as may otherwise be required by Apple in writing. If payment terms are modified to be made on a basis less than net thirty (30) days, then such shortened terms shall become the ordinary course of business and dealing between Apple and Customer. Invoices must be paid in full by direct debit or other electronic payment method agreed between the parties in the currency invoiced without deduction, counterclaim or set off (statutory or otherwise) and in clear funds. If a direct debit is returned unpaid, Apple shall be entitled to place the Customer's account on credit hold until payment is received in full. Overdue amounts shall be subject to an additional interest charge computed daily for each day that the payment is late. The interest charge shall be calculated from a base interest rate ("Base Rate") plus the lesser of four percent (4%) or the maximum amount allowed by applicable law. The Base Rate will be based on any evolving or then-prevailing market convention for determining a benchmark rate in the country of payment at such time. If such rate is not publicly quoted or otherwise reasonably determinable by Apple, then the Base Rate shall be based on the Central Bank policy rate or single consolidated equivalent in the country of payment at such time. If the Base Rate is negative, it shall be deemed zero percent (0%). Notwithstanding the payment terms set out above, interest due from Customer to Apple shall be subject to payment terms of net seven (7) days from the date of Apple's written invoice reflecting the interest due on late payment.

3.6.5 The Line of Credit will limit the aggregate amount of credit that may be extended at any time to Customer for amounts owing to Apple under this Agreement, any other agreement or for any other sales or extensions of credit of any kind by Apple to Customer. The amount of the Line of Credit may be immediately adjusted upwards or downwards at any time, at the discretion of Apple. In exercising its discretion, Apple reserves the right to consider and act upon the following, among other criteria: (i) the profitability and financial well being of Customer; (ii) whether current and accurate financial and business performance information are provided in a timely fashion by Customer; (iii) the amount and likely present value of whatever collateral or credit enhancement has been provided; and (iv) whether Apple will likely be, or has been required to realize upon and liquidate such collateral or credit enhancement.

3.6.6 Apple may, without notice, place sales to Customer on immediate credit hold (i.e., suspend all sales to Customer) whenever the outstanding balance owed by Customer and its subsidiaries and/or affiliates to Apple would exceed the Line of Credit or whenever Customer fails to make payment to Apple in accordance with established terms.

3.6.7 Without prejudice to its right to terminate this Agreement for breach under Section 11, Apple reserves the right to withhold shipment and/or to declare all sums immediately due and payable in the event of a breach by Customer of any of its obligations to Apple (which may include obligations under separate agreements entered into between the Parties), including the failure to comply with any credit terms.

3.6.8 Apple shall have the right to set off any sums owing from Apple to Customer and apply them to any sums (whether or not due) owed by Customer or its affiliates or subsidiaries to Apple or its affiliates or subsidiaries, or alternatively set off any sums (whether or not due) owed by Customer and apply them to any sums owing from Apple to Customer.

3.6.9 Customer will provide to Apple (or an Apple affiliate): (i) audited annual financial statements, including a balance sheet, cash flow and profit and loss statements, as well as auditors' report and notes to financials; (ii) financial statements and similar financial information or reports routinely provided to any other vendor, lender or creditor to support extensions of credit; and (iii) such other financial information as may be reasonably requested by Apple in a format agreed upon by Apple and Customer. If such information is not provided in a timely manner, Apple may suspend all sales to Customer or exercise any other remedies hereunder until such information is provided to Apple.

3.6.10 All applicable local sales or use taxes, duties and other imposts, if any, due on account of purchases hereunder shall be paid by Customer. Proof of tax-exempt status must be on file at Apple's Support Center for any order to be treated as a tax-exempt transaction. Apple will also charge for any fees due from Customer by regulation or statute, including, if applicable, fees due under the California Electronic Waste Recycling Act or similar laws in other states. Apple reserves the right to change its price lists and Customer's credit terms at any time. In addition to Apple's other rights herein, Apple reserves the right, without liability or obligation to Customer, to suspend deliveries due to a payment default.

3.7 Product Returns
Products purchased hereunder shall be subject to Apple's then-current policies for defective and dead-on-arrival (DOA) Products.

3.8 Support
Apple will provide post-sales support for Apple Products as described in the documentation accompanying such Apple Products. Apple will not provide support for any Products other than unmodified Apple Products.

4. <u>Confidentiality</u>

4.1 During the Term and for five (5) years thereafter, Customer will not use Apple Confidential Information except as required to achieve the objectives of this Agreement, or disclose such Apple Confidential Information except to employees or contractors who have a need to know. Customer will not make any disclosure or statement of Apple Confidential Information in connection with the Agreement or its subject matter without Apple's prior, specific written consent. Customer shall not make any public statement regarding any item of Apple Confidential Information, including but not limited to any matter of business between Customer and Apple, or the nature of any contractual relations between Apple and Customer or any third party. Customer may disclose Apple Confidential Information to the extent required by law, provided that it first makes reasonable efforts to give Apple notice of such requirement prior to any such disclosure and takes reasonable steps to obtain protective treatment of the Apple Confidential Information.

4.2 Apple will not use Customer Confidential Information except as required to achieve the objectives of this Agreement, or disclose such Customer Confidential Information except to employees, agents or contractors who have a need to know or as required by law. Except as otherwise stated herein, Apple will not make any disclosure or statement of such information without the Customer's prior written consent or as required by law.

5. Representations and Warranties

5.1 Customer represents and warrants that: (i) it has the right to enter into this Agreement and perform its obligations hereunder; (ii) the terms of this Agreement do not violate and will not cause a breach of the terms of any other agreement to which Customer is a party or by which it is bound; and (iii) all Products purchased will be for Customer's own use in its facilities in the United States and will not be purchased for resale to any other entity or individual.

5.2 Apple Limited Warranty
The sole warranty for an Apple Product purchased hereunder shall be the Limited Warranty. Except for the Limited Warranty, all Apple Products are sold "as is" and without additional warranty or support from Apple. All Products, other than Apple Products, are sold "as is" and without warranty or support from Apple, but may be accompanied by a manufacturer's warranty, as more particularly provided in the warranty documentation that accompanies such Products. Upon Customer's request, Apple will provide a copy of the manufacturer's warranty accompanying Products offered by Apple under this Agreement. Nothing in this Agreement shall be construed as obligating Apple to provide any warranty-related fulfillment or support for any Products, other than Apple Products.

5.3 Disclaimer
5.3.1 EXCEPT FOR THE LIMITED WARRANTY, APPLE MAKES NO WARRANTIES, EITHER EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCTS OR SERVICES, AND TO THE MAXIMUM EXTENT PROVIDED BY LAW, APPLE HEREBY DISCLAIMS SUCH WARRANTIES, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

5.3.2 Apple Products are not intended or suitable for use in situations or environments where the failure of such Apple Products, or the failure, time delays of, or errors or inaccuracies in, the content, data or information provided by Apple Products could lead to death, personal injury, or severe physical or environmental damage, including without limitation the operation of nuclear facilities, aircraft navigation or communications systems, air traffic control, life support or weapons systems.

5.3.3. Customer must communicate any license terms, terms of use or safety information accompanying any Apple Product or otherwise made available by Apple, to any of Customer's employees, agents or contractors using the Apple Product, and as required by law.

6. Indemnity

6.1 Provided that Customer promptly notifies Apple in writing, gives Apple sole control over the defense and all related settlement negotiations, and does not compromise or settle any claims then, subject to the terms of this paragraph and the exceptions and limitations set forth below, including but not limited to Section 7.1 and 7.2, Apple will defend any proceeding or action brought by a third party against Customer to the extent based on a claim that: (i) an Apple Product that Customer has paid to acquire from Apple infringes a U.S. patent, copyright, trademark or misappropriates a U.S. trade secret; or (ii) personal injury or tangible property damage suffered by such third party was caused by Apple's gross negligence or willful misconduct during the performance of Services.

6.2 Notwithstanding the foregoing, Apple shall not be liable or responsible for, or obligated to defend any claims or damages arising out of or related to: (i) modification of any Apple Product; (ii) combination, operation or use of the Apple Product with any other equipment, data, documentation, items or products; (iii) use of Apple Product in a manner or for a purpose, or in a location, for which it was not intended; (iv) import or export of any Apple Product in violation of applicable export control requirements, regulations or laws; (v) use or exportation of any Product(s) into any countries identified on any U.S. Government embargoed countries list; (vi) use of any Apple Product in a manner or for a purpose not authorized under the applicable license terms; (vii) any other products; or (viii) Customer, its employees, agents, affiliates, subsidiaries or subcontractor's negligent acts or omissions.

6.3 Customer shall promptly notify Apple, in writing, of any claim, demand, proceeding or suit of which Customer becomes aware which may give rise to a right of defense under Section 6.1 ("Claim"). Notice of any Claim that is a legal proceeding, by suit or otherwise, must be provided to Apple within thirty (30) days of Customer's first learning of such proceeding. Notice must be in writing and include an offer to tender the defense of the Claim to Apple. Apple, if it accepts such tender, may take over sole control of the defense of the Claim. That control includes the right to take any and all actions deemed appropriate by Apple in its sole discretion to resolve the Claim by settlement or compromise. Upon Apple's acceptance of tender, Customer will cooperate with Apple with respect to such defense and settlement. If a Claim is settled and to the extent permitted by law, neither Party will publicize the settlement and will make every effort to ensure the settlement agreement contains a non-disclosure provision.

6.4 In the event of a Claim, Apple may at its sole option (but shall not be obligated to): (i) procure for Customer the right to continue use of the applicable Apple Product(s); (ii) replace the applicable Apple Product(s); (iii) modify the applicable Apple Product(s); or (iv) refund the amount paid by Customer to Apple for the applicable Apple Product, less depreciation. THE FOREGOING CONSTITUTES CUSTOMER'S SOLE AND EXCLUSIVE REMEDY AND APPLE'S ENTIRE LIABILITY FOR ANY CLAIMS ARISING OUT OF THIS SECTION 6.

7. Limitation of Liability

7.1 Apple's maximum aggregate liability (including any liability for the acts or omissions of Apple's employees, agents and sub-contractors) for any and all claims of any kind arising out of or in connection with the Agreement, whether in contract, warranty, tort (including negligence), misrepresentation, strict liability, statute, or otherwise, shall not exceed three hundred thousand dollars ($300,000).

7.2 IN NO EVENT, WHETHER AS A RESULT OF BREACH OF CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), MISREPRESENTATION, STRICT LIABILITY, STATUTE OR OTHERWISE, SHALL APPLE BE LIABLE FOR ANY LOSS OF PROFIT OR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, INDIRECT LOSSES (INCLUDING LOSS OF DATA, INTERRUPTION IN USE, UNAVAILABILITY OF DATA, UNAVAILABILITY OR INTERRUPTION IN AVAILABILITY OF APPLE PRODUCTS, OR OTHER ECONOMIC ADVANTAGE) OR FOR PUNITIVE OR EXEMPLARY DAMAGES.

7.3 THE PARTIES AGREE THAT THE TERMS OF THE AGREEMENT, INCLUDING THOSE CONCERNING WARRANTIES, INDEMNITY AND LIMITATIONS OF LIABILITY, REPRESENT A FAIR ALLOCATION OF RISK BETWEEN THE PARTIES WITHOUT WHICH THEY WOULD NOT HAVE ENTERED INTO THIS AGREEMENT. LIABILITY FOR DAMAGES WILL BE LIMITED AND EXCLUDED, EVEN IF ANY EXCLUSIVE REMEDY PROVIDED FOR IN THE AGREEMENT FAILS OF ITS ESSENTIAL PURPOSE. THE REMEDIES SET FORTH IN THIS AGREEMENT WILL BE CUSTOMER'S SOLE AND EXCLUSIVE REMEDIES FOR ANY CLAIM MADE AGAINST APPLE.

8. Ownership

8.1 Use of Name
Neither Party shall use the other's name, logo, trademarks or service marks in any advertising, communications or publications without the other Party's prior written consent.

8.2 Software
Customer acknowledges that Products often contain not only hardware but also software, including but not limited to, operating systems and applications. Such software may be included in ROMs or other semiconductor chips embedded in hardware, or it may be contained separately on disks or on other media. Such software is proprietary, is copyrighted, and may also contain valuable trade secrets and is protected by patents. Customer, as an end user, is licensed to use any software contained in such Products, subject to: (i) the terms of the license accompanying the Products, if any; (ii) the associated patent, trademark, copyright, and other intellectual property; and (iii) compliance with federal and state laws of the United States.

8.3 Restrictions
Unless Customer has obtained Apple's prior written consent, Customer, in addition to any obligations or restrictions set forth in any license, which may accompany a Product, shall not copy the software. Customer shall not disassemble, decompile, reverse engineer, copy, modify, create derivative works thereof or otherwise change any of the software in any form.

9. HIPAA

Customer shall not use the Apple Products, iCloud Storage APIs and iCloud service, or any component or function thereof: (i) in any way that would involve Apple creating, receiving, maintaining or transmitting protected health information (as defined at 45 C.F.R § 160.103); or (ii) in any manner that would make Apple or any other third-party distributor, supplier or provider of those technologies a business associate, as defined under the Health Insurance Portability and Accountability Act of 1996 and its implementing regulations ("HIPAA") at 45 C.F.R. § 160.103, of the Customer or any third party. For the avoidance of doubt, the Parties agree that nothing in this Section shall prohibit Customer from using Apple hardware products; provided, however, that Customer ensures that any such use of Apple hardware products does not involve Apple creating, receiving, maintaining or transmitting protected health information. Customer agrees to be solely responsible for complying with any reporting requirements under law or contract arising from Customer's breach of this Section and to reimburse Apple for any losses incurred by Apple relating to those reporting obligations.

10. Export Compliance

This Agreement is subject to all laws, regulations, orders or other limitations on the export and re-export of commodities, technical data and software. Customer agrees that it will not export, re-export, resell or transfer any export-controlled commodity, technical data or software: (i) in violation of such limitations imposed by the United States or any other appropriate national government authority; (ii) to any country for which an export license or other governmental approval is required at the time of export, without first obtaining all necessary licenses and approvals, at Customer's sole cost and expense; (iii) to any country or national or resident of a country to which trade is embargoed by the United States, or any other relevant national authority; (iv) to any person or firm on any relevant government agency restricted party lists, (examples: United Nations Sanctions list, United States Denial Lists, Office of Foreign Assets Control Specially Designated Nationals List, etc.); or (v) for use in, or to an entity that might engage in, any sensitive nuclear, chemical or biological weapons, or missile technology end-uses unless authorized by the United States Government, and any other relevant government agency by regulation or specific license.

This Agreement shall automatically renew for successive twelve (12) month periods (each a "**Renewal Term**"), unless either Party provides written notice of its election not to renew at least ninety (90) days prior to the end of the Initial Term or then-current Renewal Term. The Initial Term and all Renewal Terms are referred to as the "**Term**".

11.4 Effect of Notice of Termination
If either Party gives notice of termination of the Agreement according to Section 11: (i) all unpaid invoices issued by Apple will be accelerated and become immediately due and payable on the effective date of termination; and (ii) Customer will cease placing new orders for Products from Apple on the effective date of termination.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the

basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

J. 200.323 Procurement of recovered materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

EXECUTIVE SUMMARY

MEET A STUDENT

Kevin is 17.5 years old and not on track to graduate with his cohort group because he has only earned enough credits to be classified as a 10th grader. Kevin's mother is a single parent and is working two jobs to support her family; yet she still finds her income below the poverty line. Kevin has three younger siblings and he is expected to help with childcare and hold a part-time job to contribute to the household income. These family responsibilities distracted him from focusing on his schoolwork and prevented him from regular attendance at his neighborhood school. He found himself falling farther and farther behind his peers.

Enrollment in a non-traditional high school is helping Kevin get back on track. The scheduling flexibility has allowed him to stay in school while also balancing family commitments. Not only is he optimistic about finishing high school and graduating, but the small school model with post-secondary planning supports also exposed him to opportunities for his future so he now knows that he CAN graduate and move on to a successful career.

Kevin is the type of student our proposed school intends to serve: students in need of a high school graduation option that takes their unique needs into consideration and provides a supportive environment where they can focus on their learning.

Proposed Plan for the School

Our plan is to replicate the successful model currently being implemented in nineteen other Florida schools managed by ALS Education, LLC: five in Orange County; five in Miami-Dade County; three in Lee County; two in Palm Beach and Hillsborough Counties; and one in Brevard and Seminole Counties. Information about the success of these schools may be found in Addendum A (Replication).

School's Mission

The mission of the School is to help at-risk students earn a standard high school diploma and prepare for postsecondary success.

Anticipated Student Population

Our dropout prevention and recovery program (DPRP) model provides an innovative option for students who have fallen behind and are at-risk of not graduating or not graduating on time as well as students who have already dropped out. The instructional and support model of the School have been designed to respond to the unique needs of the target population.

District Need

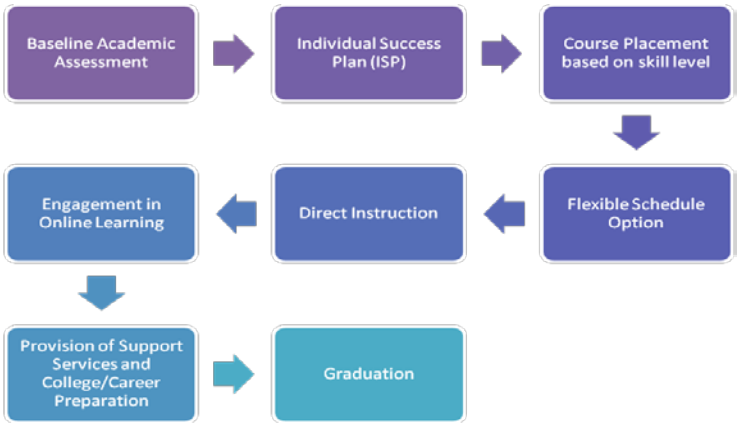

The Board believes that the Bradenton area has a student population that will benefit from a DPRP. The Board identified six district high schools in that area which had a combined total of 1,128 non-graduates from the graduating classes of 2020, 2021 and 2022[1]. These are the students, as well as those that are currently behind and on a path to dropping out, that we believe will benefit from an innovative, non-traditional educational alternative. It is our expectation that, once the School opens, surrounding public schools will familiarize students who are not making appropriate academic

[1] "Florida's Federal High School Graduation Rates, 2020-22," FLDOE website, accessed December 2023.

progress or are at risk of dropping out with this new option to support success. We will strive to fully inform district principals and counselors about the many features that make our school a valuable option for students who may need a non-traditional environment in order to reach graduation. We believe that we can be a great partner in helping the School District ensure a quality option to meet the needs of this fragile student population. In accordance with our mission, year-round open enrollment will be available, enabling students to enroll and complete graduation requirements at any time during the school year.

Education Plan and School Design

Below is a graphic which outlines the key features of the School's model. Each of these features is described in detail in Section 3 of the application.

School Culture

The school culture will be based on caring, respect and results. The tone of the school will reflect respect and care from all administrators and staff members for all students, regardless of their circumstances. Students will be recognized regularly for meeting expectations and demonstrating success. Both schoolwide and classroom celebratory events will highlight students and their work. Teachers will make regular contact with parents to communicate and praise student progress. A student incentive program will also be implemented to reward students when they pass courses, pass state exams, demonstrate good attendance, demonstrate growth in their reading and math skills, and when they exhibit leadership or citizenship skills that represent the values of the School.

Community Partnerships

Community support is anticipated from a number of community organizations, many of which are already working in other ALS-managed schools in Florida (See Community Service Providers at an ALS School). Examples of the support to be provided include wrap-around social services and mental health support, college and career fairs, community resource fairs, internships, etc.

Summary

Our Board looks forward to helping improve student outcomes in Manatee County by providing this proven program to students who have dropped out of high school, who are at high risk of dropping out or who simply need a non-traditional learning environment.

For a look at the impact of the proposed school model on students, parents and staff, we encourage you to view this 4-minute video of a 2023 graduation ceremony from two of the replication sites in Hillsborough County: https://youtu.be/l8deH5hsiz4?si=cN-zCHTt4bYEIotR.

2. TARGET POPULATION AND STUDENT BODY

2.A. DESCRIBE THE ANTICIPATED STUDENT POPULATION TO BE SERVED. DESCRIBE THE ANTICIPATED STUDENT POPULATION TO BE SERVED AND HOW THAT ALIGNS WITH THE SCHOOL'S MISSION. APPLICANTS SHOULD STATE IF THEY WILL GIVE ENROLLMENT PREFERENCE OR LIMIT THE ENROLLMENT PROCESS, AS ALLOWED BY LAW, TO CERTAIN STUDENT POPULATIONS DEFINED IN SECTION 1002.33(10)(D) & (E), F.S. IF THE APPLICANT INTENDS TO HAVE ENROLLMENT PREFERENCES THEY SHOULD BE DESCRIBED IN SECTION 14 OF THE APPLICATION

In accordance with its mission to help at-risk students earn a standard high school diploma and prepare for postsecondary success, the Board of Directors proposes to serve students in grades 7-12 [including students with special needs, students with disabilities, and English Language Learner (ELL) students]. As permitted in s. 1022.33(10)(e)2., F.S. the target population includes students who are low-performing, under-credited, or have dropped out (or are dangerously close to dropping out) from their traditional public schools.

Our target high school student population includes students who are over-age for their current grade level and not on-track to graduate with their 9th grade cohort. High school students enrolling in this School's first class are expected to have the following characteristics[1]:

- Approaching 18 years old and 2 or more years behind their expected grade level.
- Academically unsuccessful—97% reading below grade level (average 4th grade level) and 87% performing math below grade level (average 4th grade level).
- Average number of credits earned before enrolling at 9.9. This is 14.1 credits (or more than 2 years in a traditional high school) away from meeting graduation requirements.
- Average GPA of 1.5 (compared to the 2.0 required graduation).
- Significant personal/social obstacles that often impede academic success - 44% parenting, pregnant or caring for other family members and 49% holding a job to help support themselves or family.

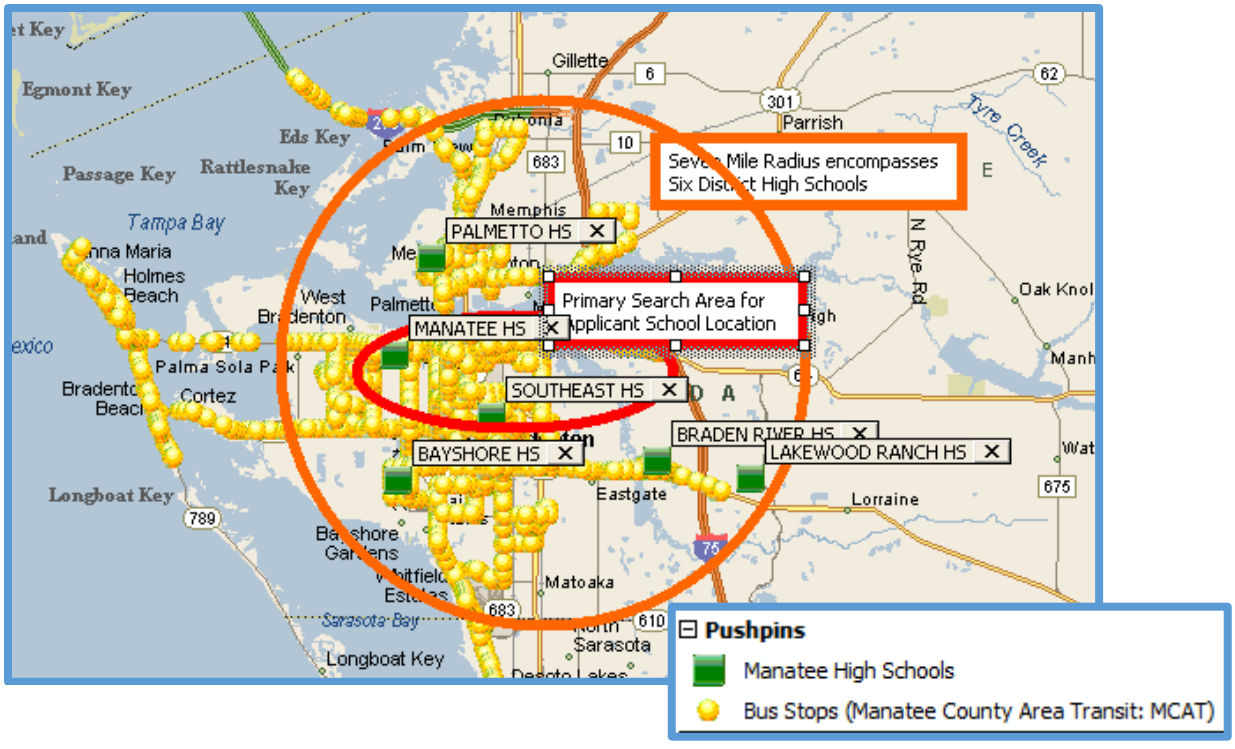

Our target middle school population also includes 7th and 8th grade students who are over age for middle school with a primary focus on those repeating 8th grade who have not yet met the requirements of s. 1003.4156, F.S. for promotion from middle school to high school. This intervention for over-age middle school students will ensure that these students are better prepared for success in high school and will help reduce their risk of dropping out.

[1] Based on the typical student served in the 23 DPRP schools currently operated by the ESP in 2022-23.

Enrollment is expected to align closely with the demographics of Manatee County's Class of 2022 (most recent data available) dropouts and non-graduates: 18% African-American, 47% Hispanic/Latino, 3% multi-racial/other and approximately 61% male.[2] The school has outlined its enrollment preferences in Section 14. The School will comply with the class size requirements of s. 1003.03, F.S. by providing two sessions of classes with no more than 25 high school students or 22 middle-grade students.

2.B. If a facility has not been identified in Section 16 of this application, state the geographic area which the applicant intends to serve.

A facility has not yet been identified, but the applicant intends to serve students in the Bradenton area of Manatee County (once a facility has been selected, the school name will be finalized to reflect the area of the selected location). The primary search area for the school site is an oval bounded in the north by the Manatee River and in the south by Cortez Road/44th Street. Its western bound is 51st Street West and it extends east to I-75. The following map provides a visual representation of the primary target area (red oval) and shows that six district high schools (green blocks) are within a 7-mile radius (dark orange circle) of the center of the target area. Additionally, the map demonstrates that Manatee County Area Transit (MCAT) stops (yellow dots) are located adjacent to or less than a mile from each district high school and that transit stops are available within each of the district high school attendance zones to ensure transportation accessibility to the target site.

2.C. PROVIDE ENROLLMENT PROJECTIONS IN THE TABLE BELOW FOR EACH YEAR OF PROPOSED OPERATION. THESE PROJECTIONS ARE NOT ENROLLMENT CAPS. ANNUAL CAPACITY DETERMINATIONS WILL BE MADE BY THE GOVERNING BOARD IN CONJUNCTION WITH THE SPONSOR PER SECTION 1002.33(10), F.S.

The grade-level enrollment projections below represent projected enrollment by the February (Survey 3) FTE Count for each school year.

Grade Level	Number of Students				
	Year 1	Year 2	Year 3	Year 4	Year 5
7	14	21	25	25	25
8	20	32	35	40	40
9	50	78	90	90	90
10	50	80	100	110	110
11	60	95	110	115	115
12	65	95	115	120	120
TOTAL	260	400	475	500	500

Because the School accepts student applications year-round, the enrollment is projected to steadily increase during the course of each year. Accordingly, projections for the October and February FTE counts are as follows:

Year	October FTE	February FTE	Average FTE
1	140	260	200
2	300	400	350
3	375	475	425
4	400	500	450
5	450	500	475

The School's projected budget calculations (see the Florida Charter School Revenue Worksheet in Attachment W) utilize the *average* FTE.

2.D. PROVIDE A BRIEF EXPLANATION OF HOW THE ENROLLMENT PROJECTIONS WERE DEVELOPED.

The Board believes the Bradenton area has a student population that will benefit from a dropout prevention and recovery program.

As shown in the following table, the Board identified six district high schools in that area that had 1,128 combined non-graduates from the graduating classes of 2020, 2021 and 2022. These schools also had a substantial number of students with below-standard scores on the 2019 Algebra I EOC and 10th grade FSA ELA. These low-achieving students are at-risk of becoming non-graduates. The Board projects from this group an average enrollment of 450 students by year 4.

Non-Graduates and At-Risk Students from the District High Schools in the Target Search Area

Target Search Area	District High Schools in Area	Non-Graduates from these six schools' Classes of 2020-2022	Students Scoring Below Standard on 2023 Algebra I EOC	Students Scoring Below Standard on 2023 Grade 9 and 10 ELA FSA
Bradenton	Bayshore HS Braden River HS Lakewood Ranch HS Manatee HS Palmetto HS Southeast HS	1,128	1,073	3,301

As demonstrated in the following table, the proposed area also provides an excellent location to serve nearby middle school students who have been deemed "not proficient" on 8th grade math and ELA tests. At the eight middle schools closest to the proposed school, for example, there is a sizable population of 8th grade students who have been absent 21+ days as well as significant numbers who scored not proficient in ELA and/or math in 2023. From these students, the Board projects that by year 4 of the charter an additional 65 middle school students who are struggling and have fallen significantly behind would benefit from enrollment in the School.

2.E. Briefly explain the rationale for the number of students and grade levels served in year one and the basis for the growth plan in subsequent years as illustrated in the table above.

To determine the student population likely to enroll in the proposed school, the number of non-graduates for all the district high schools was tabulated. As a cross-check, the number of 9th and 10th grade students who scored below satisfactory on standardized reading tests in those district high schools was also tabulated. For both tabulations, **the number of likely to enroll students was**

approximately double the proposed school size. According to data found on the Florida Department of Education website, in SDMC Schools:

- 56% (4,273) of SDMC students in the 9th and 10th grades scored at Level I or II on FSA ELA Assessment in 2022-23.
- 41% (1,609) of SDMC students did not meet state standard on Algebra I EOC Assessment in 2022-23.
- 1,753 students district-wide from the SDMC Classes of 2020-2022 dropped out or did not graduate on time.[3]

To further illustrate this issue, non-graduate and dropout statistics for SDMC's last three graduation cohorts indicate the students who will be well-suited to the School, as listed in the following chart.

Student population projections were modeled using enrollment data from one of the replication high school dropout prevention programs which uses the same operating model and is located in nearby Hillsborough County. This school ramped up during the first year (2012-13) as follows:

FTE Count	West University High School
October	174
February	295

The Board believes that sufficient need and demand exist among the target population of students in this school district and identified locale to meet the School's projected enrollment.

3. EDUCATIONAL PROGRAM DESIGN

3.A. DESCRIBE THE PROPOSED CHARTER SCHOOL'S EDUCATIONAL PROGRAM.

(1) Philosophy

[3] Source for cohort, graduates and non-graduates: "Florida's Federal High School Graduation Rates [2021-22]" FLDOE website, accessed October 2023. 2022-23 information not available at time of writing.

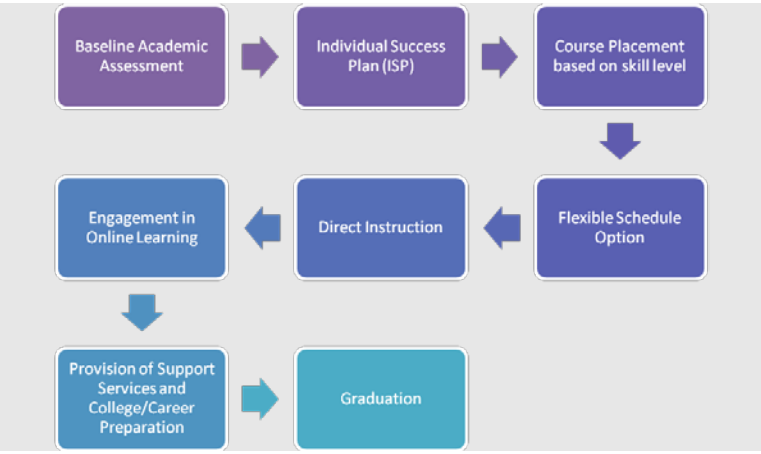

Our philosophy is that all students can learn if provided an environment that is responsive to their unique needs. We believe that effectively serving our target student population requires an educational program design that responds to the specific needs of each student's academic and personal/social circumstance. Since our target population typically struggles in several key areas (academic stability, basic skills gaps, social-emotional wellbeing, exposure to post-secondary options) our educational design is focused on addressing each of these issues through an innovative and evidence-based service model.

(2) Accelerated Learning Model

Our accelerated learning model provides an innovative option for students in one of three target groups: students at-risk of dropping out of their traditional high school; students about to drop out in the very near future; or students who have already dropped out and are interested in returning to school to earn a high school diploma. The educational program and instructional model of the School have been designed to align with the School's mission (to help at-risk students earn a standard high school diploma and prepare for postsecondary success) and respond to the needs of the target population.

Our students will come to us with the desire to earn a high school diploma but with gaps in their foundational and academic content area skills. It is for this reason that the School will administer a baseline assessment that will allow us to provide students with an individualized plan to bridge gaps while they work toward earning credits.[4] This Individual Success Plan (ISP) will be specifically designed to take students where they are and outline all of the coursework and necessary intervention and supplemental instruction needed to ensure that course and graduation standards and requirements are met. Students will be provided with a rigorous and engaging curriculum that is aligned with the Benchmarks for Excellent Student Thinking (B.E.S.T.) Standards and the Florida Next Generation Sunshine State Standards (NGSSS) as defined by s. 1003.41, Florida Statutes (F.S.).

Key features of the Educational Model include:

(a) A **baseline academic assessment** administered to all students using the General Assessment of Instructional Needs (GAIN), a criterion-referenced measure of English and math skills, or

[4] *Strategies and Resources to Create a Trauma-Sensitive School*, Wisconsin Department of Public Instruction , https://dpi.wi.gov/sites/default/files/imce/sspw/pdf/traumastrategies.pdf.

other similar diagnostic assessment. The baseline academic assessment is conducted to identify or predict students who may be at risk for poor learning outcomes. This universal screening is conducted with all students and is followed by additional testing or short-term progress monitoring to corroborate students' risk statuses.

(b) An **Individual Success Plan** created for each student based upon the results of the baseline entry assessment(s), past academic performance, and previous school records, a career interest inventory and career plan, social/personal needs inventory, disciplinary records, and parent and student input.

(c) **Course Placement** that matches students' skill levels as determined by prior school records and the baseline assessment results.

(d) **Flexible Schedule Option** provided where students can choose a morning or afternoon instructional session (or both as space permits).

(e) **Differentiated direct instruction, coaching, and guidance** provided by highly qualified teachers. Targeted, face-to-face instruction will be conducted in large groups, small groups, or individually to assist struggling students. This targeted, face-to-face instruction will address identified gaps in student learning and provide appropriate interventions and remediation. Instruction will be differentiated according to students' individual needs. We believe in providing students with personalized and collaborative learning experiences by organizing our students into small learning communities. In these learning communities, students will work closely with a team of certified core content teachers and a career coach, who together, as a team, ensure that students set short and long-term goals to fulfill their Individual Success Plan.

(f) **Engagement in online learning experiences** using Edmentum for core curriculum supplemented with lessons from additional remediation, such as *Reading Plus*®, *Wilson Reading*, *March 2 Success*®, *MindSage*, *FDIC Money Smart*, and *Kuder*. With the support of a team of on-site certified teachers, students use on-line curriculum specific to their unique Individual Success Plans with the ability to move at a pace that is appropriate to their learning style and current academic levels.

(g) **Provision of support services and focused college and career preparation**. Students will be provided with comprehensive social services, crisis intervention, and behavioral health services designed to help them overcome non-academic obstacles that are impacting their success. They will also receive instruction and support in employability skills, career and college readiness, and postsecondary options. All students work with an on-site Career Coach to complete a graduation checklist prior to commencement that ensures a post-secondary plan is in place and steps necessary for a successful transition have been supported.

(3) Additional Support for Middle Grades

As described in Section 2, the school proposes to include students who are over age for middle school and have not yet met the requirements of s. 1003.4156, F.S. for promotion from middle school to high school. Although the middle school students will be served in separate classrooms from high school students (and the middle school classrooms will include no more than 22 students to comply with the class size requirements of s. 1003.03, F.S.), these students will also be served by the School's blended learning model, which combines technology-based education with direct, face-to-face, small and large group, and individual instruction. Middle grade students will also benefit from the following:

(a) **<u>Intensive Instruction for Middle Grades</u>**

Students who are experiencing difficulty with reading will be enrolled in an intensive reading course that provides intensive, small group, and teacher-guided reading instruction. Reading certified or reading endorsed teachers will base instructional decisions

on data to meet the needs of diverse learners and teach essential components of reading using evidence-based instructional methods.

Middle grades students who are experiencing difficulty with mathematics may be enrolled in a *Foundational Skill in Mathematics* course. Students who are enrolled in a *Foundational Skill in Mathematics* course will be provided intensive, small group, and teacher-guided mathematics instruction. Mathematics certified teachers will base instructional decisions on data to meet the needs of diverse learners and teach essential components of mathematics using evidence-based instructional methods.

(b) **Standard Grading System**

The system and interpretation for grading will be as follows:

Grade	Percent	Definition
A	90-100	Outstanding Progress
B	80-89	Above Average Progress
C	70-79	Average Progress
D	60-69	Lowest Acceptable Progress
F	0-59	Failure

(c) Middle School Core Courses

Middle school students can fulfill their math, language arts, science, and social studies course requirements through Edmentum's mastery assessments, which align with NGSSS and B.E.S.T. standards. Passing these unit and semester exams with a score of 80% or higher exempts portions of the course in which the student demonstrates mastery. Students who don't demonstrate mastery on the exams will need to complete the corresponding coursework in full.

(d) High School Credit for Middle School Students

The School recognizes the need to provide high school educational experiences for those students enrolled in the middle school who have demonstrated mastery of middle school Next Generation Sunshine State Standards and B.E.S.T. standards. Students must meet criteria determined by the school in order to enroll in high school courses and may earn high school credit for course work taken during middle school. These courses will be included in all high school transcripts and high school grade point averages (GPA).

(e) Grade Forgiveness for High School Courses Taken By Middle School Students

Middle school students may repeat a high school course with grades of "C", "D" or "F" for forgiveness. Any course grade not replaced according to District forgiveness policy shall be included in the calculation of the students' high school cumulative grade point average (GPA) required for graduation.

3.B. Describe the basic learning environment (e.g., classroom-based, independent study, blended learning), including rationale for class size and structure and how the learning environment supports and is consistent with the mission.

The School will offer an innovative and individualized program for each student to progress at an appropriate pace based on his/her individual learning needs. Accordingly, the major focus of the

School's instructional methods directly aligns with its mission to help at-risk students earn a standard high school diploma and prepare for postsecondary success.

The School's instructional program has four essential components that encompass the model's key elements: a) flexible daily schedule; b) individual success plans; c) instructional delivery through blended learning; and d) support services. These are described below:

(a) Flexible Daily Schedule

Many students who drop out of school have been unsuccessful in a traditional school environment. Students report that family obligations, pregnancy, childcare, mental health issues, addiction, homelessness, lack of financial support, or the need to work can distract them from their educational success. High-need students require a variety of instructional approaches, targeted resources, support services, and intervention strategies to motivate them, support their learning, and ensure both short-term and long-term success. According to the National Dropout Prevention Center, schools that have been effective in improving the success of students who are returning to school provide a small learning community, caring faculty, individualized learning, and flexible scheduling options.[5]

We believe that respecting and acknowledging students' other life obligations by offering a **non-traditional school schedule** and a choice among school sessions will permit students to attend on a more regular basis than a traditional school schedule. This, in turn, will support attainment of a high school diploma. The School will offer at least two (2) sessions for curriculum instruction. Students will choose to attend one of these sessions or more as space permits (i.e., a student can choose to attend for extended hours so long as there is classroom space with fewer than twenty-five (25) high school students or twenty-two (22) middle school students in attendance). Consistent with s. 1011.61(1)(a)(2), F.S., the School will operate as a double session school with an instructional calendar providing no less than the 900 annual instructional hours required by statute. In addition, the School will mirror the district's school calendar relating to holidays. A sample calendar, as well as an explanation of typical student schedule, is included in Attachment B.

(b) Individual Success Plans

The National Dropout Prevention Center reports that individualized plans, similar to those used in Special Education, can make a difference in the lives of at-risk students.[6] These plans communicate to students that they and their unique needs are understood and that the School is committed to their individual success. Many schools provide a "one size fits all" program; however, our School's academic program is highly personalized so that all students' needs are met, and all are provided the opportunity to realize their full potential. This individual approach begins at New Student Orientation, where a baseline **academic assessment** will be administered to all students using the General Assessment of Instructional Needs (GAIN), a criterion-referenced measure of English and math skills, or other approved diagnostic assessment. GAIN is a ninety (90) minute diagnostic assessment of English and math skills – from basic literacy and numeracy to advanced skills taught in secondary schools as defined by the NRS' Educational Functioning Levels.[7] GAIN helps **place students in courses appropriate to their skill levels** and provides information used to create individual intervention plans to remediate deficiencies.

An **Individual Success Plan (ISP)** will be created for each student. This plan will include: a middle school promotion plan or high school graduation plan, a postsecondary transition plan, personal goals, and diagnostic and summative assessment data. The ISP will outline all academic and social needs and career and postsecondary transition plans for each student, including promotion or graduation requirements. Administrators and highly-qualified certified teachers, along with support staff, will collaborate to develop the ISP together with student input and involvement.

A unique ISP will be specifically designed to take each student where he/she is and outline all of the coursework and necessary interventions and supplemental instruction needed to ensure that promotion or course and graduation requirements are met. The academic plan will be developed based upon the results of a baseline entry assessment(s) and identified skill gaps, past academic performance, and previous school records, and is designed to accelerate each student's progress toward the accumulation of course completions or credits, which will result in improved student performance, grade promotion, and a high school diploma.

The Career Coach will work with each student to develop their career interests and complete a postsecondary transition plan based on the student's personal goals, a career interest inventory, and an interview with the Career Coach to match student interests, aptitudes, and needs to employment, internships, and postsecondary education opportunities.

The ISP will serve as the template to ensure each student will be provided with individual attention, foundational skills development, and social, emotional, and behavioral support needed to address specific individual challenges and deficiencies. The student-focused plan is aimed at providing the tools necessary to arm each student with the ability to advance to or excel beyond the student's age-appropriate grade level.

(c) Instructional Delivery through Blended Learning

The School's blended learning model will be fully implemented on-site at the School, and will combine technology-based education with direct, face-to-face, small and large group, and individual instruction.[8] This will allow students to work at their own pace while having access to personal attention, assistance, and instruction from a certified teacher along with supplementary resources, as needed.[9] The goal of this blended approach is to join the best aspects of both face-to-face and online instruction.

In the past, digital materials have served in a supplementary role in many classrooms, helping to support face-to-face instruction. The School's blended learning program uses technology to individualize educational plans, address foundational gaps and provide acceleration opportunities for students. This is particularly appropriate for students who have dropped out of school or are at risk of dropping out. An educational model that allows students to focus on the courses needed for graduation, at a pace commensurate with their ability, creates an ideal opportunity for success. In fact, one of the key findings from a study of the effectiveness of blended learning was: Online and blended learning programs are tailored to meet individual student needs, allow students to self-pace, and are often considered more engaging than traditional courses, all of which make them well-suited to

promoting the success of minority and high-need students. Blended learning programs are better suited for this purpose than purely online programs, as they are accessible to all students (not just those whose parents are able to supervise them at home) and can be customized to address the needs of students with limited English capabilities.[10] The School's instructional delivery methods also meets the expectation of s. 1006.29(3), F.S., which states, "Beginning in the 2015-2016 academic year, all adopted instructional materials for students in kindergarten through grade 12 must be provided in an electronic or digital format."

[1] Face-to-Face Differentiated Direct Instruction

Carefully-selected, highly-qualified teachers who are certified in at least one core subject area (many will hold multiple subject-area certifications) will provide direct instruction, coaching, and guidance in order to ensure students are engaged, reengaged, and making progress on their individual Success Plan (ISP) developed during the orientation program. Instruction will be differentiated by teachers in face-to-face groups and will include a variety of instructional strategies.

Differentiated direct instruction refers to explicit, guided instruction that is designed by the teacher, led by the teacher, and responds to the specific learning needs of each student within the classroom.[11] It emphasizes having clear objectives, demonstrating skills to students, and allowing students time to practice new skills. This will be done in small-group, face-to-face instruction by teachers and aides using carefully articulated lessons in which cognitive skills are broken down into small units, sequenced deliberately, and taught explicitly.[12]

While working through assigned courses, instructor-initiated interaction will occur daily as teachers implement the blended learning instructional model. Targeted, face-to-face differentiated direct instruction will be conducted in small and large groups or individually to assist struggling students. This individualized instruction will address identified gaps in student learning and provide appropriate interventions and remediation. Instruction will be differentiated according to students' individual needs including but not limited to foundational skills improvement and standardized test-taking skills in preparation for graduation requirements.

The Marzano Teacher Evaluation Model is based on the Art and Science of Teaching, which is a research-based framework for effective instruction. The model identifies 41 key strategies that are aligned with each of the four domains of effective teaching: classroom strategies and behaviors, planning and preparation, reflecting on teaching, and collegiality and professionalism. The model provides for formative feedback and allows for risk-taking by teachers while attempting to implement new strategies. The School will adopt Marzano's strategies to help our teachers continually improve their instructional strategies. Effective strategies identified by Marzano include but are not limited to identifying similarities and differences, summarizing and note taking, reinforcing effort and providing recognition, nonlinguistic representations, setting objectives and providing feedback, generating and testing hypotheses, and using cues, questions, and advance organizers.

Remedial instruction will also be provided and will involve academic assistance in the subject area and/or state standards for which the student is struggling: English, reading, math, science, or social studies. Instruction will be conducted by 1) classroom teachers, ESE teacher, reading interventionist, and other certified staff with expertise in areas in which a student needs instruction. Remedial instruction may occur during the student's regularly scheduled session, or the student may elect to attend another session for extra tutoring.

[2] Technology-Based Instruction

Technology is the tool that maximizes the teacher's ability to personalize and individualize learning in the classroom.[13] According to Cakir, Delialioglu, Dennis, & Duffy,[14] technology-enhanced learning environments that support teaching and learning processes with advanced technology may close the achievement gap. The National Dropout Prevention Center[15] states that:

> Technology can remove barriers to learning and be especially helpful to at-risk students. The use of educational technology can:
> - improve student mastery of content;
> - provide individualized instruction;
> - improve students' attitudes toward learning;
> - prepare students for the workforce; and
> - increase the cost effectiveness of instruction.

The use of technology supports differentiated instruction based on student needs. The technology provides students and teachers with the tools, resources, and curriculum to be successful learners and increase student achievement. The technology enhanced curriculum is based on a three-component model of personalization, performance data, and intervention support. Research has consistently shown this three-pronged strategy will significantly increase student achievement levels when implemented in a Web-based learning environment (Chou & Wang, 2000; Federico, 2000; Rasmussen & Davidson-Shivers, 1998; Wang, et. al. 2006).[16] The curriculum software tracks student achievement and can add or remove practice and application assignments based on student success. Students can move through the lessons at their own pace - moving as fast or as slow as needed to fully understand the content and demonstrate that understanding. Technology provides students with the opportunities to easily access pronunciation and definitions for unfamiliar words; access a video, graphic, or photo to illustrate a concept; listen to text using headphones; or utilize supplementary resources for additional practice. The use of technology can prohibit progress to the next lesson until the student demonstrates mastery in each lesson within each course.

The current belief is that seat time represents student learning as expressed by grade levels that are one school year in length or semester units that are defined by time units of the daily school calendar and the annual school calendar. However, educational research and trends suggest more appropriate measures of learning should include demonstrations of what students know and are able to do. This can be referred to as competency-based, proficiency-based, mastery-based, or performance-based education.[17] The instructional software programs used by the School will allow students to demonstrate mastery based on performance through pre-tests, post-tests, and completion of learning activities. Credit is awarded upon successful course completion at mastery level (not on seat time). The Board understands that all classes and courses must be of reasonable length and include both content and contact sufficient to meet state requirements, while maintaining high academic quality and standards commensurate with credits awarded for a "traditional" class or course. Mastery-based learning with instructional software together with differentiated direct instruction will ensure that all objectives, rigor, and cognitive level requirements are addressed and met.

Student data are analyzed on a frequent, continuous basis by leaders, school teams, and individual teachers and staff members. Data analysis is used to evaluate instructional impact on learning; adaptation of instruction, curriculum, and assessment; and modification of interventions and Individual Success Plans. In the interest of ensuring an effective match between student learning needs and styles, and available curriculum and software, the School will continuously review the curricula used by the School and the research and development of new software options that may become available. The Board and school administrators will remain open to selecting and replacing these planned curricula with more appropriate options in the future.

[3] Monitoring and Communicating Performance

The entire instructional team will track student progress on a continuous basis using a specially designed internal electronic data management information system (MIS) that includes a learner profile for each student. The learner profile will collect, store, and analyze student test data as well as document tiered academic interventions and other services provided to the student. The test data will populate into the student's graduation plan to show which state assessments the student is required to pass to graduate as per state regulations for the student's cohort year. The learner profile will identify the student's postsecondary pathway and profession, along with links to the Student Services page showing interventions provided to students by faculty and outside service providers. The learner profile will also enable faculty and administrators to use the data to ensure that all students have customized learning plans and interventions resulting in students graduating prepared for postsecondary success.

Administrators and faculty will be able to view multiple sources of data by individual student as well as by classroom and school. These data will be analyzed to inform interventions, school improvement decisions, test preparation and professional development. The Principal will use the School Dashboard (See Attachment FF) and the Student Information System (SIS) to review performance data every day: including school-level data, class-level data, and individual student data. Teachers will meet regularly in Professional Learning Communities (PLCs) organized by content-area to review student data. PLCs will use data to solve real problems and expand the knowledge base of all employees through an inquisitive problem-solving approach. Weekly faculty meetings will include a review of School

performance indicators, including, but not limited to, attendance, credit earning rates, academic progress, graduation, course access, student skill growth, etc.

The Assistant Principal will meet with every student each time a course is finished to review graduation requirements, identify the next course to be taken, and set goals for completion.

The MY SUCCESS® Student and Parent Dashboard (See Attachment FF) will serve as the foundation for communicating (internally and externally) and monitoring student progress and results. This portal will link with the School's student information system to provide up-to-date information on student attendance, grades, state assessment results, skills development, and academic performance. For students and parents/guardians without access to the Internet, hard copies of progress reports will be sent home with students and reviewed with parents during progress meetings. Teachers will connect with parents not less than monthly to discuss progress, highlight achievements, and set face to face meetings if there are concerns with a student's performance. The School will collaborate with the School District of Manatee County on the possible use of additional platforms preferred or suggested by the District for communication with parents (e.g., FOCUS Parent Portal).

(d) Support Services and College and Career Planning

Many students who drop out or are at risk of dropping out of school face barriers to educational success unrelated to their school experience. Students report that family obligations, pregnancy, childcare, mental health issues, addiction, homelessness, or the need to work can distract them from their educational success. Likewise, at-risk students often lack the models and supports critical to establishing the education-career relevancy needed to foster engagement and plan for the future. For these reasons, the School will dedicate resources and expertise to post-secondary planning and comprehensive student support services for every student.

[1] College and Career Planning

Space will be allocated in the School for a College and Career Center where resources for postsecondary preparation, test preparation, scholarship application, employment search, etc. will be readily available to all students, their families, and school staff. This state-of-the art center will be multi-dimensional and multi-functional and will help prepare students for success after high school graduation. The Center will provide dedicated space and supporting resources for the following uses, including, but not limited to: post-secondary exploration; employment assistance and employability skills training; and SAT/ACT/college entrance exam preparation.

A Career Coach will provide time to students in the areas of employability skills, career and college readiness, and postsecondary options based on each student's Individual Success Plan (ISP). The Career Coach will work closely with students to teach resume writing and job skills, assist with finding employment, completing postsecondary institution and financial aid applications, and preparing students for a successful postsecondary transition. Students will explore career options and develop requisite skills for postsecondary success while they develop career and exit portfolios using career planning and preparation print resources and software.

Students will use *Kuder*, a college and career planning tool, to explore career options and develop requisite skills for postsecondary success. Students will have the opportunity to earn elective credit for courses such as Personal Social Career Development and Executive Internship, which will be taught by certified staff members. These courses will focus on postsecondary readiness skills, including researching postsecondary requirements for careers. Parents and students may access the career

software and student's electronic portfolio from any Internet connected device for three years after the student graduates from School.

Middle school students will begin to explore potential post-secondary interests using a personalized aptitude discovery assessment and platform. The YouScience aptitude and career discovery platform will provide our middle school students with personalized aptitude-based college and career guidance. Using this platform students will work alongside their career coach to understand their aptitudes as they begin to find relevance and a meaningful direction in school and beyond. The Board and school administrators will employ a strategic approach to future curriculum technology adoption to ensure that the career exploration platforms used are always the most appropriate to student needs.

Students and their families will be invited to participate in career and postsecondary planning and readiness workshops and events on topics such as, but not limited to, understanding students' career assessments and inventories, resume writing, postsecondary institution application process, high school course selection, and financial aid opportunities and application assistance.

[2] Comprehensive Wrap-Around Support Services

At-risk students often report that family obligations, pregnancy, childcare, mental health issues, addiction, homelessness, or the need to work can distract them from their educational success.[18] A key differentiator of this School will be the provision of on-site social services, crisis intervention, and behavioral health services to students as described in this section.

In accordance with Section 1011.62(16)(a)2., Florida Statutes, the School shall implement a defined Mental Health Assistance Plan to ensure efficiency and efficacy of mental health services in the School; established collaboration with community-based social service agency partners; and early detection and interventions to support student emotional health and a safe school climate.

The School's mental health plan will include an on-campus mental health/social work clinician, a comprehensive psycho-social assessment at the time of enrollment, and both on-campus and off-campus referrals to a wide array of social services targeting the individual needs of each student. The Schools' licensed clinician (Family Support Specialist- FSS) will secure Memoranda of Understandings (MOUs) with local social welfare agencies to ensure a seamless process in which students and their families will connect with and have easy access to needed supports. These partnerships will include both on-campus and referral-based services for behavioral, social and mental health needs to include but not limited to individual student counseling; crisis intervention; basic needs case management; grief counseling; family counseling and addictions and substance abuse counseling. The FSS will also be a qualified supervisor for undergraduate and graduate level social work and mental health interns from accredited universities who will provide clinical services to students on-site.

In addition to supports to students and parents, the Family Support Specialist will coordinate and deliver on-going professional development for school administration and staff on mental health topics to include but not limited to crisis intervention, ACEs (Adverse Childhood Experiences), suicide

3.C. Describe the research base used to design the educational program.

(1) Rationale

Our academic program is meticulously designed based on extensive research and evidence-based practices to provide comprehensive support for at-risk youth. We employ a research-driven approach that integrates the latest findings in psychology, education, and social sciences to create a nurturing environment tailored to meet the diverse needs of at-risk students. Our curriculum is informed by empirical studies and practical interventions proven to enhance academic performance, socio-emotional well-being, and overall resilience in this population.

By staying current on research and best practices, our program continuously evolves to incorporate innovative strategies and effective interventions. We emphasize a holistic approach that not only addresses academic challenges but also fosters personal growth, self-esteem, and positive relationships. Our faculty and staff are dedicated to implementing evidence-based methodologies, such as mentorship programs, counseling services, and community engagement, all based on research-backed principles.

Furthermore, our commitment extends beyond the classroom, as we actively engage with local communities and partner organizations to create a supportive network for at-risk youth. Our goal is to empower these individuals to overcome obstacles, realize their potential, and thrive academically and personally, based on the latest research findings and best practices in the field. Research suggests that this mix of academic instruction and experiential learning is beneficial.[19]

(2) Rationale for Instructional Methods

The School's instructional program and support services were developed based on the needs identified in evidence-based research on success with students who are at high risk of not graduating. The National Dropout Prevention Center[20] has identified that:

- Dropping out of school is related to a variety of factors that can be classified in four areas or domains: individual, family, school, and community factors.
- Dropouts are not a homogeneous group. Many subgroups of students can be identified based on when risk factors emerge, the combinations of risk factors experienced, and how the factors influence them.
- Students who drop out often cite factors across multiple domains.
- Dropping out of school is often the result of a long process of disengagement that may begin before a child enters school.
- Dropping out is often described as a process, not an event, with factors building and compounding over time.

- The School's educational approach is based on a comprehensive and systematic model of teaching and learning. A plethora of research[21] identifies elements of programs that have been effective in keeping students in school, leading them to graduation, and assisting them in planning for postsecondary success. This research points to success through targeted and coordinated efforts in three broad categories: School Environment, Academics, and Supports.

(a) School Environment

The primary support structure for a successful school campus is facilitated by all teachers, school administrators, staff, family members, and community members who recognize and respond to the behavioral, emotional, relational, and academic impact of traumatic stress on young people.[22] The tone of the building is generated through respect and care from all administrators and staff members for all students regardless of their circumstances. The following components underpin the development of quality culture and climate our School:

- ***Significant Adult Connection*** - It is important that every student have at least one adult that knows them very well. Creating this important connection will begin the first day the student comes on campus and will continue throughout the student's stay. It is expected that this important connection will assist in the retention of each student through the long term.
- ***Positive Adult Interactions*** - Throughout the School, adults and students alike will be coached to engage in language and behavior that is conducive to positive interactions and student engagement. Teachers will receive training that allows them to focus on the fundamental personal traps that lead adults into non-productive conversations with students who have extended experience with dysfunctional behavior. Teachers will model appropriate behavior while coaching students as they interact with other adults on campus. In addition, students will be expected to exhibit appropriate behavior with each other.
- ***Daily Personal Greetings*** - At the beginning of every instructional session, administrators and staff will be at the door greeting students by name. This simple, yet critical, part of the expected

daily service model supports a school environment in which all students feel known, recognized and appreciated. This action also allows staff to identify students who may arrive at school in need of additional personal/social support or intervention.

- *Celebrations and Recognition* - A prominent aspect of a supportive, encouraging culture is the existence of routine celebrations that are designed to support and uplift student progress . Administrators and teachers will be expected to regularly recognize student achievement through actions to include but not limited to:: 1) notifications of notable progress or achievement placed in classrooms, 2) hallway posters displaying student progress, 3) attendance acknowledgements, 4) pictures of seniors and graduation ceremonies, 5) events celebrating achievement on standardized tests, 6) recognition of students who have achieved honors in the community, 7) regular positive phone calls to parents/guardians, and 8) student achievement highlights on the school website and social media The Principal will lead and invite School staff, community, family members, and Board members to celebratory events.

(b) Academics

Not surprisingly, the majority of studies reviewed in the design of the proposed educational program recommend a clear focus on academic innovations and interventions. Successful dropout prevention programs are characterized by challenging coursework and rigorous academics, coursework that is clearly relevant to postsecondary goals, an expectation that all students will be successful, and early interventions to provide support to struggling students and close achievement gaps.[23] Each of these elements has been thoughtfully and deliberately integrated into our School model.

(c) Supports

The research on dropout prevention and recovery is clear about the need for comprehensive and coordinated support services to students. Small, safe, and flexible school environments with an emphasis on academics alone will not be as successful as the same environment and academic emphasis in a school with supports that are designed to also address the social, emotional, and psychological well-being of the students. Several support structures appear to be key in leading students to school success and graduation, including effective use of data, personal attention and a close relationship with an adult at school, a graduation and postsecondary plan, family and community involvement, skilled teachers and leaders who participate in regular and meaningful professional development, and access to specialists including a Family Support Specialist and Career Coach. Our educational program model closely and thoughtfully aligns with these recommendations for dropout prevention and recovery.

(3) Research on Instructional Delivery

Our blended learning approach integrates face-to-face classroom instruction together with computer-generated activities, forming a cohesive and highly effective instructional model supported by research.. Perhaps the strongest case for blended learning programs comes from the U.S. Department of Education's meta-analysis of forty-five (45) studies that indicated that instruction combining online,[24] Classroom time can be used to engage students in interventions to eliminate barriers as well as to provide advanced interactive experiences. The online portion of the course can provide students with multimedia-rich content throughout the course of the day. This allows for an increase in flexibility

for scheduling intervention, social support, and post-secondary planning and career guidance for students.

Students in blended learning environments have a significantly higher motivation to learn than those in other educational models (Klein, Noe & Chongwei, 2006).[25] The School's blended learning model takes into account the instructional and social emotional needs of at-risk students. "At least two-thirds of current and recent high school students agree that attending a school focused on social and emotional learning would help improve their relationships with teachers and peers, their learning of academic material, and their preparation for college, careers, and citizenship" (Darling-Hammond, et al.,2018, p.13).[26] As a result, the School's model takes into account the whole learner. Each student will work on an individualized plan, will be provided academic and social/emotional interventions and support, and will benefit from a climate of encouragement and celebration.

In addition to meeting social and emotional needs of at-risk students, holding students' interest throughout their instructional session is also critical. Amen (2013) reports that thirty-three percent (33%) of untreated people with Attention Deficit Disorder (ADD) never finish high school.[27] These individuals need constant novelty in order to sustain interest and follow through. Digital learning can provide that novelty through interactive, original subject material; multimedia tutorials; manipulative tools that encourage hands-on interaction; and engaging exercises and self-checks.

In the blended learning environment, according to *Keeping Pace with K-12 Online Learning: An Annual Review of Policy and Practice* (2010)[28], "the teacher is critical, as blended learning requires a transformation of instruction as the teacher becomes a learning facilitator; instruction involves increased interaction between student-and-instructor, student-to-content, and student-to-student." *Keeping Pace* also notes that blended learning offers more possibilities for engagement, personalization and increased learning, stating: "Blended learning can personalize instruction to each student in a classroom, freeing the teacher to focus on working one-on-one with students in particular areas that they need additional help;" and "Quality blended learning prepares students to think critically, to build collaborative relationships, to problem solve, and to communicate in a diverse global community."

In a study of blended learning (face-to-face and online/digital), Pape[29] observed:
…with blended learning, teachers can use online tools and resources as part of their daily classroom instruction. Using many of the online tools and resources students already are using for social networking, blended teaching helps teachers find an approach that is more engaging for this generation of students. The benefits of blended learning include giving students a variety of ways to demonstrate their knowledge while appealing to diverse learning styles and fostering independent learning and self-directed learning skills in students, a critical capacity for lifelong learners. Blended learning helps students better develop their higher education and workforce skills. It extends teaching and learning beyond the classroom walls, developing critical thinking, problem solving, communication, collaboration and global awareness.

According to Cakir, Delialioglu, Dennis, & Duffy,[30] the student achievement gap between urban and suburban districts is a major issue in U.S. schools. Technology-enhanced learning environments that support teaching and learning processes with advanced technology may close this achievement gap. Their research studied the impact of student and school factors with an emphasis on schools' geographic location on student achievement in a technology enhanced learning environment. The instructional model investigated by Cakir et al. combined face-to-face learning with online/digital curriculum and instructional materials that were distributed over the Internet so that all teachers and students received the same instructional materials and content tests. 4,670 students from 386 high schools participated in this study. Considering together with gender, ability and motivation factors, results showed that students located in different districts achieved equally well. Their results concluded that the combination of technology-enhanced classroom learning and face-to-face instruction helped students be successful, which gives promising results to remedy student achievement gaps between urban and suburban districts and their respective student populations.

As noted by Larson, Kuhn, Collins, Balthazor, Ribble, & Miller,[31] high school students spend much of their educational journeys immersed in 'old' literacies with paper, pencil, and print books. But outside of the classroom, they are exposed to information and communication technologies--such as blogs, wikis, Internet browsers, multimedia, social networking sites, and a wide range of software-each of which demands new literacies. This disconnect is a serious problem for schools because it reflects a decline in school's relevancy to students' futures, and the gap between how schools teach and how students learn will only grow over time.

A study conducted by Korkmaz & Karakus[32] investigated the impact of a blended learning model on students' attitudes towards a Geography course and their critical thinking dispositions and skills. An experimental pattern with pretest-posttest control group was used in the study. The study group consisted of fifty-seven (57) high school students (28 in the experiment group and 29 in the control group). The experimental group was subject to hybrid learning through the Geography web page, while the traditional learning model was used for the control group. The results indicated that the blended learning model contributed more to student attitudes toward the geography course when compared to the traditional learning model.

As noted by the National Council of Teachers of Math (NCTM)[33]: Technology is an essential tool for learning mathematics in the 21st century, and all schools must ensure that all their students have access to technology. Effective teachers maximize the potential of technology to develop students' understanding, stimulate their interest, and increase their proficiency in mathematics. When technology is used strategically, it can provide access to quality mathematics instruction for all students.

Barrow & Rouse[34] examined whether a computer-based curriculum in mathematics was more effective than traditional classroom instruction at teaching pre-algebra and algebra concepts to middle- and high-school students. The study included about 1,600 students in fifteen (15) high schools and two middle schools in three large urban school districts. Math classrooms in each school were randomly assigned to use either the computer-based curriculum or a traditional math curriculum. The study assessed the program's effectiveness by comparing the test scores of the two instruction groups at the end of the school year. At the end of the school year, students in classrooms using the computer-based curriculum scored higher on the assessment of pre-algebra and algebra skills than students in traditional math classrooms. The estimated effect size was 0.17, equivalent to moving a student from the 50th to 57th percentile.

In summary, research has indicated that blended learning offers a compelling alternative to traditional instructional methods. Seamlessly integrating face-to-face instruction with online curriculum and activities provides numerous benefits for both students and teachers. The increased engagement, personalization, and flexibility of blended learning empowers students to become self-directed learners, while also preparing them to thrive in the 21st-century workforce. Moreover, blended learning offers a promising solution to narrowing the achievement gap for at-risk learners, ensuring that all students have access to high-quality educational opportunities.

3.D. Provide a sample daily schedule and school annual calendar, including the annual number of days and hours of instructional time as Attachment B.

A sample daily schedule and annual school calendar, as well as a description of a typical day are included as Attachment B.

3.E. Explain how the services the school will provide to the target population support attainment of the state-adopted standards, as required by section 1002.33, F.S.

The School's educational programs and curricula are built upon rigorous and relevant standards that will help improve student achievement and attainment of the NGSSS and B.E.S.T. standards. The School's instructional staff will utilize assessment data and results to drive instructional decisions, integrate strategic interventions to address gaps in student performance, and improve student outcomes.

The School will offer multiple levels of core curriculum including foundational courses, core courses integrated with reading development, core content courses, honors courses, CTE courses, and advanced placement courses. Course offerings (a complete list is included here) will depend upon student needs. Our goal is to graduate students who are prepared to enter the workforce or military, or to enroll in freshman-level college courses and succeed without requiring remediation.

Research demonstrates that high-need, high-risk students often need a variety of instructional approaches to meet their needs, motivate them, support their learning, and ensure both short and

The School will implement a blended instructional model that includes a standards-aligned curriculum for both computer based and direct instruction. The instructional software used by the School delivers a broad curriculum (from foundational skills to Advanced Placement courses) to meet diverse learning needs and support teachers in creating rich, in-depth differentiated learning experiences for their students. The technology provides students and teachers with the tools, resources, and curriculum to be successful learners and increase student achievement. The curriculum is based on a three-component model of personalization, performance data, and intervention support. Research has consistently shown this three-pronged strategy will significantly increase student achievement levels when implemented in a web-based learning environment (Chou & Wang, 2000; Federico, 2000; Rasmussen & Davidson-Shivers, 1998).[36] Each course provides a complete scope and sequence with original instructional content that not only guides students in mastering critical skills and developing an understanding of key concepts but also encourages them to extend their learning beyond required content.

The School's curriculum resources are described in detail below.

(1) Edmentum Learning (Edmentum includes a portfolio of products which includes Apex Learning**)** (accredited by the Commission on Schools of the Northwest Association of Accredited Schools, an accreditation division of AdvancED) provides comprehensive online instructional content and assessments that help teachers individualize instruction, ensuring each student has the opportunity to achieve to his or her potential. Edmentum digital curriculum has been developed from the established body of learning research and best practices in teaching. Evidence-based work from leading learning theorists is used to develop curriculum that incorporates basic and higher levels of learning, builds critical thinking skills, deepens understanding, and engages and motivates students to succeed. The research base that serves as the foundation for course development is documented in *Research Put into Practice: Apex Learning Curriculum and Pedagogy* and *Learning Design and Research Base for Edmentum Courseware*.

Edmentum courses in math and English Language Arts are aligned to the Florida Standards (and will be aligned to B.E.S.T. standards prior to the school opening in 2023) and incorporate rigorous instruction, active learning experiences, and meaningful assessment. Sample correlation reports are available online. [To access the Edmentum Correlations Engine, please visit: https://edmentum.clickhelp.co/articles/#!courseware-instructor-resources/florida-ccrs. Login with Account: ALSE; Username: DemoUser; Password: 1234.]

Each Edmentum online course provides a complete scope and sequence based on state and national standards. Courses are organized into semesters, units, lessons, and activities. A typical semester

includes 5-6 units, each with 5-6 lessons. A typical lesson comprises a number of activities including studies, practices, readings, journals, labs, discussions, projects, web explorations, reviews, and both computer- and teacher-scored assessments, including unit diagnostics. Each semester has an average of 750 pages, 1,000 images, 250 multimedia tutorials, 250 interactive exercises, 50 computer-graded assessments, and 85 vetted web links.

Edmentum helps teachers create active learning experiences that keep students engaged. Study plans help teachers guide students to relevant instructional content that engages them in active learning experiences to master skills and develop conceptual understanding. Students progress through course content by interacting with each concept as they are prompted to observe, inquire, create, connect, and confirm. Interactive, original subject material is presented in a step-by-step fashion designed specifically to appeal to students. Multimedia tutorials provide opportunities to explore and discover new material. Multiple representations help teachers reach each student. Manipulative tools encourage hands-on interaction to master concepts. Interactive exercises and self-checks give frequent opportunities to confirm understanding and apply new concepts. Instructive feedback is immediately provided as students apply their understanding, creating a continuous interplay with the subject matter that keeps students attentive and motivated. Through ongoing interaction with course content, students are able to take responsibility for, and ownership of, their individual learning experience. As students experience success, their confidence builds, and achievement increases.

One of the features of Edmentum software is that it is designed to allow teachers to differentiate instruction for students based on individual needs. Edmentum gives teachers the flexibility to determine how to most effectively use these online curriculum resources to enhance classroom instruction.

The following additional supports for struggling students are built into all Edmentum courses:

Embedded Scaffolding	**Enhanced Support**	**Interactive Tools**
Small instructional segments	In Course highlighter	Close reading activities
Formative assessments and corrections	Text translation in 20 languages	Writing Generator
Multimedia presentations	Transcripts	Graphing tool/Data plotting tool
Graphic organizers	Closed captioning	Simulations
Reading Summaries	Support cards	Polls
Contextual rollovers	Study Guides	Manipulatives
In course glossaries	Slide narration	4 Function and scientific calculators
Online dictionary	Click to speak	Virtual labs

Assessment opportunities – including formative, summative, and diagnostic assessments – are integrated throughout Edmentum's digital curriculum and address each learning objective. Formative and diagnostic assessments provide opportunities to pinpoint student strengths and weaknesses and gauge student progress on an ongoing basis. Summative assessments require students to demonstrate content mastery at the end of each semester. Detailed reports provide teachers with performance information for an entire class and individual students (See Gradebook samples in Attachment FF).

(a) Course Options

The School will offer the curriculum required for: promotion to high school; earning a high school diploma; and meeting the Florida Next Generation Sunshine State Standards (NGSSS) as defined by s. 1003.41, F.S., including B.E.S.T. standards. A complete list of course offerings is included at https://s3.amazonaws.com/finishschool.com/CourseOfferings.pdf. Through utilization of the Edmentum curriculum, the School will be able to offer courses aligned to individual student needs and delivered through a secure network. These include Foundations Courses, Core Courses, Honors Courses, and Advanced Placement Courses. While the typical student from the School's target population is unlikely to elect participation in Honors or Advanced Placement Courses, the School will be prepared to serve the academic needs of any student who wishes to enroll and/or whose Individual Success Plan includes these higher rigor courses and shall encourage these course enrollments for students with interest and demonstrated aptitude.

[1] Foundations Courses. Designed to provide a bridge to high school, Edmentum Foundations Courses target middle and high school students unprepared to successfully complete grade-level work. Foundations Courses feature structured remediation designed to facilitate student progress through grades 3-8 skills. Courses develop math and English-language arts skills and strategies while raising academic performance up to high school levels. Each semester course offers approximately 70-90 hours of interactive instruction, guided practice, and integrated formative, summative, and diagnostic assessment. Students working on foundations courses will also receive supplementary instruction to ensure alignment to the Florida Standards.

[2] Core Courses. Focused on building essential skills and content knowledge, Edmentum Core Courses are designed to support success for both struggling and mainstream middle and high school students. Rich graphics, engaging multimedia, hands-on interactivity, video, and audio tracks provide support for those reading below grade level and address different learning styles for all students. Robust scaffolding in the form of annotated readings, study sheets, and graphic organizers assists all learners in making consistent progress through coursework. Each semester course offers 70-90 hours of interactive direct instruction, guided practice, and integrated formative, summative, and diagnostic assessment.

[3] Honors (College Prep) Courses. Edmentum Honors Courses are designed to meet the needs of highly motivated students who want to build advanced skills and content knowledge in preparation for undergraduate study. Placement in Honors (and Advanced Placement) classes will be determined by Assistant Principal's review of students' academic history upon enrollment, the student's goals, recommendations of teachers or other staff who identify students with potential for more advanced coursework, and teachers' and Assistant Principal's progress monitoring meetings with the student.

[4] Advanced Placement (AP) Courses. Authorized by the College Board AP Course Audit, Edmentum online Advanced Placement Courses are designed to meet the higher education expectations of a college-level course and prepare students to demonstrate college-level achievement through success on the AP exams. Courses target highly-motivated students who are reading at grade level or above and who have a track record of success in high school coursework. Each semester course offers approximately 120 hours of direct instruction and integrated formative, summative, and diagnostic assessment.

[5] Exam Preparation Courses. Even the most accomplished students can benefit from targeted preparation before high stakes exams. To ensure students are adequately prepared, the school will offer SAT, ACT, and Advanced Placement (AP) Exam Review. Additionally, the school will provide interventions to help prepare students for meeting state assessment standards. Interventions will be aligned to the state's test blueprint, including the state required assessments.

(2) Reading and Math Curricula

Given the School's target population, it is likely that many of the School's students will struggle with English language literacy in some way. Some may be English Language Learners, some may have reading difficulties, and others may have a limited vocabulary. In order to effectively address the challenging needs of these students, the School has a detailed plan for reading instruction as described below in Section 4.B. – The School's Reading Curriculum.

Reading Plus®, the School's selected primary reading curriculum, is an online reading intervention program aligned to the Florida Standards that uses adaptive technology to provide individualized, scaffolded silent reading practice for adolescent students. *Reading Plus*® was chosen because of its ability to differentiate instruction and pinpoint student needs. It is described in detail in Section 4.B.

It is also expected that a majority of the School's students will struggle in math. In order to help students meet state assessment and graduation requirements, supplementary online mathematics such as IXL Math programs will be used to serve as an intervention to improve student mathematics performance. The school will offer mathematics support using a variety of standards-based materials through direct instruction. These materials may include but are not limited to classroom hands-on math manipulatives, Khan Academy and Algebra Nation.

In addition to direct instruction in mathematics, students struggling to pass the Algebra 1 EOC exam will have the opportunity to engage in math intervention software at school or at home (example- Imagine Math). This level of mathematics assistance provides students with unprecedented support which in turn drives strong student growth and achievement results.

Using the parent portal, the school will communicate with parents about their child's progress in mathematics and the supports that are available. Students will need to meet all academic state requirements for reading and math including End-of-Course (EOC) assessments. Students enrolled in Algebra I will be required to pass the EOC assessment, which will constitute thirty percent (30%) of the student's final course grade.

In the interest of ensuring an effective match between student learning needs and styles, and available curriculum and software, the School will continuously review the curricula used and the research and development of new software options that may become available. The Board and school administrators will remain open to replacing these planned curricula or selecting new ones if more effective options become available in the future.

(3) Middle School Curriculum

For over-age middle school students, the School will be using a Middle School Course Catalog which includes offerings in the following areas:

- English Language Arts
- Mathematics
- Science

- Social Studies
- Reading[37]
- Art
- Music
- Physical Education[38]
- Comprehensive Health[39]
- Personal/Social[40]

The School will hold parent meetings to inform parents about course offerings and middle school promotion requirements. Each student will also have an Individual Success Plan that will outline courses taken, courses needed and progress toward completing middle school requirements for promotion into high school.

(4) Personal, Social, and Career Development Curriculum

In addition to the core academic content, the School will deliver an expansive personal, social, and career development curriculum designed to help students refine social skills, develop financial literacy, evaluate aptitudes and interests, and plan for postsecondary success. A blended instructional approach will include engagement in on-line curriculum as well as direct instruction lessons by teachers to include interactive discussions and activities involving collaborative problem solving, respectful listening, effective communication, cooperative learning, and responsible decision making.

The personal, social and career development curriculum resources may include, but are not limited to:

Mind Sage: The focus of *MindSage* is to prepare students for the workplace and life. The subjects covered include the top 20 most important or vital skills/qualities that employers and hiring managers look for in employees.

Kuder: *Kuder* is a comprehensive education and career planning system that helps students succeed in the increasingly competitive global economy. Students will learn about themselves, discover the many options and opportunities for their future, and gain access to the information and tools to achieve their goals. It will assist students in clarifying their interests, values and skills, leading to an exploration of possible post-secondary options or career pathways.

March 2 Success®: *March 2 Success®* is a free online test preparation tool developed by the United States Army that helps students prepare for state assessments and college/career and military placement exams like SAT, ACT and ASVAB.

---

[37] Reading instruction is required for all middle school students in grades 6-8.

[38] Students are eligible to waive the physical education requirement if they meet any of the following criteria:

1. The student is enrolled in an intensive instruction course.
2. The student's parent indicates in writing to the school that:
    a. The parent requests that the student enroll in another course from among those courses offered as options by the school district; or
    b. The student is participating in physical activities outside the school day which are equal to or in excess of the mandated requirement.

[39] The School recognizes the importance of comprehensive health education and requires its implementation in the regular curriculum.

[40] All students will participate in daily Personal/Social lessons which are designed to improve the social, emotional, and academic skills of students and strengthen relationships between students and teachers as well as among students. The curriculum also includes lessons on personal financial management and career readiness.

Federal Deposit Insurance Corporation (FDIC) Money Smart: FDIC Money Smart is a comprehensive financial education curriculum designed to help low- and moderate-income individuals enhance their financial skills. Research shows that the curriculum can positively influence how students manage their finances in the short and long-term.

(5) Career and Technical Education (CTE) and Dual Enrollment

In accordance with s. 1003.4282, F.S. Career and Technical Education Graduation Pathway Option the school plans to provide opportunities for postsecondary readiness and industry certifications for its students by providing engaging career and technical education courses aligned with the FLDOE CTE framework. A study by Hanover Research (2019) links high school career academies with a variety of highly desirable outcomes, including truancy and dropout prevention, increases in credits earned, enhanced student achievement, and improvements in local labor markets. CTE courses have also been shown to motivate students who are otherwise unengaged in the education process, helping them to garner and hone skills in reading, writing, and mathematics, as well as develop their ability to apply critical thinking in real-world situations. Offering a CTE program as part of the school's curriculum is the first step in reducing dropout rates and spurring academic progress.

To promote student success, the instructional model will focus on each student's individual needs using a blended learning approach that combines direct, face-to-face, small and large group, individual, and technology-enhanced instruction. The school's CTE program is designed to be engaging and inspirational, and to provide students with ample opportunity for hands-on learning. It will also equip students with career-specific skills and opens pathways to employment as well as post-secondary education and training. The school's unique CTE courseware utilizes cutting-edge virtual reality (VR) and real-world simulations which, by their very nature, connect with and help motivate students on a personal level. These courses and the interactive technologies they feature also make it possible for students to earn industry credentials prior to graduation. Industry credentials provide significant value to job placement and professional advancement beyond high school for many post-secondary pathways. The CTE program educates students in trade-specific theory, equips them with valuable certifications, and through partnerships with leading organizations like HBI and YouthBuild, provides job placement and relevant work experience.

CTE Curriculum and Instruction

The school's CTE program will emphasize a blended format featuring online learning, certification preparation, and relevant work experience. The CTE courseware offerings make it possible for students to fulfill state requirements for a high school diploma while also earning certifications, licensing, and apprenticeship opportunities. Students engaging in these courses will graduate prepared to enter the workforce or continue on with post-secondary education or training.

Using the school's CTE courseware, students also have access to certified industry experts who provide blended instruction and comprehensive support virtually while on-site Advisory Teachers serve as physical proctors and supports within the classroom All of the competency-based course lessons are delivered using engaging videos and interactive simulations created with VR technology. Realistic images, sounds, and even physical sensations are generated in a virtual environment, allowing learners to participate in performance-based tasks as if they are on the work-site. The simulations offer practice runs at techniques, skills, and concepts aligned to industry performance certification exams. Students access and engage in these courses using a standard laptop, computer, or VR headset. In addition, industry-certified partners come to the school periodically to deliver specialized workshops and face-to-face instruction.

Finally, the school will build partnerships with certification agencies, trades organizations, career placement centers, and employers to provide our students with industry-specific training and job placement. This approach is consistent with and furthers the mission of helping at-risk students graduate from high school duly prepared for post-secondary success.

Key Performance Indicators

The school will establish several key performance indicators as a means for evaluating both student progress and the success of the CTE program. These include:

- **Pacing**: Assuring students are staying on task in their courses
- **Progress**: Reviewing student completion of work as compared to the total number of assignments and requirements in a course
- **Performance**: Evaluating student mastery of content through course grading
- **Certifications**: Qualifying students with industry-based certifications
- **Placement**: Positioning students and graduates in apprenticeships, internships, career mentoring, and full-time employment

Expected Program Outcomes

The CTE program is an effective dropout prevention strategy that can lead to a variety of positive student and school outcomes, such as increases in attendance, credits earned, and graduation rates. Most of all, this program will help motivate our students to graduate with a career or college pathway and better prepare them for post-secondary success.

Students who take advantage of these CTE opportunities can graduate with high school diplomas, industry credentials, and college credits. Students may choose to participate in career dual enrollment for courses that will lead to an industry certification. The school will collaborate with local colleges and universities to establish MOUs for dual enrollment opportunities for eligible and interested students for both industry certification opportunities and/or degree seeking opportunities.

One of the national credentialing agencies the school plans to use is National Occupational Competency Testing Institute (NOCTI). NOCTI's Job Ready assessments have been designed and developed for assessing entry-level knowledge and performance. The NOCTI assessments are based on industry standards, are valid and reliable, and are intended to assist in making informed decisions to support high-quality educational programs. Students who meet the benchmark on the NOCTI assessments will be eligible for industry certification and college credit.

As part of providing students with a pathway to industry certification, the school will prepare students for the associated certification exams using Certify-ED competency-based courses.[41] The Certify-ED courses provide students with a curriculum that includes practice assessments and performance-based tasks aligned to the FLDOE CTE framework. Engaging lessons, assessments, and performance-based tasks prepare students for a variety of certifications including: the FAA Remote Pilot's Certificate, ServSafe certifications, Home Builders Institute (HBI) PACT Core certification, as well as a variety of certifications which may be earned through passing NOCTI exams (i.e. Medical Assistant, Nursing Assistant, Welding, Culinary Arts, Criminal Justice, and Carpentry, etc.). The high-quality online curriculum is designed by industry experts using cutting

edge technology to assess knowledge and skills using FLDOE CTE Frameworks and work-based industry standards. The Board and school administrators will continually assess CTE curriculum choices for students to ensure these planned options are the best options for our students.

4.B. IF THE CURRICULUM IS FULLY DEVELOPED, SUMMARIZE CURRICULAR CHOICES (E.G. TEXTBOOKS) BY CORE SUBJECT AND THE RATIONALE FOR EACH. INCLUDE AS ATTACHMENT C, A SAMPLE COURSE SCOPE AND SEQUENCE FOR EACH CORE SUBJECT FOR EACH DIVISION (ELEMENTARY, MIDDLE, AND HIGH SCHOOL) THE SCHOOL WOULD SERVE.

Edmentum offers fully developed curriculum offerings, including a wide variety of courses that will be delivered through a secure network using the blended learning flex model of instruction. A sample course listing and sample scope and sequences are included in Attachment C.

- **PROVIDE EVIDENCE THAT READING IS A PRIMARY FOCUS OF THE SCHOOL AND THAT THERE IS A RESEARCH-BASED CURRICULUM AND SET OF STRATEGIES FOR STUDENTS WHO ARE READING AT GRADE LEVEL OR HIGHER AND, INDEPENDENTLY, A CURRICULUM AND STRATEGY FOR STUDENTS READING BELOW GRADE LEVEL. READING INSTRUCTIONAL STRATEGIES FOR FOUNDATIONAL SKILLS SHALL INCLUDE PHONICS INSTRUCTION FOR DECODING AND ENCODING AS THE PRIMARY INSTRUCTIONAL STRATEGY FOR WORD READING. INSTRUCTIONAL STRATEGIES MAY NOT EMPLOY THE THREE-CUEING SYSTEM MODEL OF READING OR VISUAL MEMORY AS A BASIS FOR TEACHING WORD READING. INCLUDE THE SCHOOL'S READING CURRICULUM AS ATTACHMENT D.**

In accordance with Rule 6A-6.053, F.A.C., the School's Comprehensive Evidence-Based Reading Plan ensures that:

- School leadership is guiding and supporting reading;
- The analysis of data drives all decision-making;
- Intensive reading interventions will be delivered by a teacher who is certified or endorsed in reading;
- Measurable student achievement goals are established and clearly described; and
- Evidence-based instructional materials comply with section 1011.67(2), F.S.; and Supplemental instructional materials comply with section 1001.215(8), F.S.

The school's reading instruction will align with Florida's Revised Formula for Success, 6 + 4 + T1 +T2 + T3, which includes the following:

- **Six components of reading:** oral language, phonological awareness, phonics, fluency, vocabulary, and comprehension;
- **Four types of classroom assessments:** screening, progress monitoring/formative assessment, diagnosis, and summative assessment;
- **Core instruction (Tier 1):** is standards-aligned; includes accommodations for students with a disability, students with an Individual Educational Plan (IEP), and students who are English language learners; provides print-rich explicit and systematic, scaffolded, and differentiated instruction; builds background and content knowledge; incorporates writing in response to reading; and incorporates the principles of Universal Design for Learning as defined in 34 C.F.R. 200.2(b)(2)(ii);

- **Immediate intervention (Tier 2):** is standards-aligned; includes accommodations for students with a disability, students with an IEP, and students who are English language learners; provides explicit, systematic, small group teacher-led instruction matched to student need, targeting gaps in learning to reduce barriers to students' ability to meet Tier 1 expectations; provides multiple opportunities to practice the targeted skill(s) and receive feedback; and occurs in addition to core instruction; and
- **Immediate intensive intervention (Tier 3):** is provided to students identified as having a substantial deficiency in reading; is standards-aligned; includes accommodations for students with a disability, students with an IEP, and students who are English language learners; provides explicit, systematic, individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback, and frequent progress monitoring; and occurs in addition to core instruction and Tier 2 interventions. In accordance with Section 1008.25(4)(c), F.S., students identified with a substantial reading deficiency must be covered by a federally required student plan, such as an IEP or an individualized progress monitoring plan and receive intensive interventions from teachers who are certified or endorsed in reading.

The School's educational program will utilize reading curriculum that is appropriate for students at all levels from enrichment to remediation. All students will be enrolled in a reading course and participate in a daily reading block where they receive direct instruction from a certified reading teacher along with practice and application through a digital curriculum. The School will focus on mastery of the B.E.S.T. Standards and adhere to the specifications set forth by, and take full advantage of, the myriad of resources available through the Just Read, Florida! initiative.

Upon entering the School, students will take an adaptive reading assessment to determine their current reading comprehension levels. The *Reading Plus*® curriculum then delivers programming based on the skills and individual performance of each student providing scaffolds and increased instruction when students struggle and increasing levels of instruction and rigor as students progress. The program advances through to college and career level reading. After successful completion of the *Reading Plus*® diagnostic assessment, students will be enrolled in an Intensive Reading course.

During New Student Orientation, students will receive explicit instruction on a set of content area reading strategies that are best suited for a technology-enhanced learning environment. These specific strategies will include, but are not limited to, the following: SQ4R (survey, question, read, record, recite, review), Two Column Notes, and 1-2-3 Power Notes or Cornell Note Taking. Students will be required to use these strategies and keep an organized notebook for all coursework. Teachers will receive professional development on content area reading strategies and provide guidance and monitoring of the use of these strategies.

The School will employ no less than one full-time reading teacher who is certified in reading or is a certified teacher with a reading endorsement. The reading teacher(s) will play a lead role in ensuring effective delivery of the *Reading Plus*® program, implementation of direct instruction push-in and pull-out interventions, and oversite of reading instruction across content areas.

The School's curriculum options will address a comprehensive array of reading skills at different levels. By combining various research-based curriculum options, the School will provide the building blocks for systematic and explicit teaching of reading skill and strategies, while offering courses that target a

wide array of skill levels necessary to accommodate all students. School administrators and staff will ensure that students are receiving the appropriate reading intervention, and that the reading curriculum is implemented with fidelity.

(1) Students Reading Below Grade Level

Reading instruction for students reading below grade level, including the special needs and English Language Learner (ELL) populations, will begin with a careful review of each student's data and a plan to meet each student's individual needs.

In alignment with the School's mission, students who score at Level 1 or Level 2 on the Florida Assessment of Student Thinking (FAST) ELA, or FSA and who have intervention needs in the areas of decoding and/or text reading efficiency will have designated time for reading intervention and are assigned an Intensive Reading course. Reading interventions will include explicit instruction, differentiated instruction, independent reading practice, a focus on informational text, and opportunities for accelerated achievement. Students scoring at Level 1 and 2 on the FAST ELA, or FSA will be progress monitored a minimum of three (3) times per year, which will include a baseline, midyear, and an end of the year assessment.

In addition to independent work in *Reading Plus*®, reading instruction for students performing below expected grade level will include teacher-directed interventions using evidenced-based resources including but not limited to programs like *Phonics for Reading*, *Wilson Reading,* and off-line materials within *Reading Plus*®. Additionally, reading teachers will participate in regular professional development and professional learning community (PLC) experiences to enhance their ability to teach reading most effectively for low performing students and to provide feedback for review and selection of current and future literacy curriculum.

Reading Plus® will be implemented as an intervention for all Tier I and II students to accelerate reading growth and prepare students for college boards and college level text. *Reading Plus*® is an online reading intervention system that uses adaptive technology to provide individualized, scaffolded silent reading practice for adolescent students. The program provides rapid, sustainable, and deep vocabulary, comprehension, and silent reading fluency gains. *Reading Plus*® will help to develop attention, word recognition automaticity, grade-appropriate reading rates, enhanced vocabulary, and improved reading comprehension.

Reading Plus® was chosen because of its ability to differentiate instruction and pinpoint student needs. It uses an online placement test to place students within the program in one of fourteen (14) levels. The reading levels range from elementary through college. *Reading Plus*® can remediate students who are moderately behind in reading as well as accelerate reading growth for students who are on grade level. Its usage spans from middle school through community college and because it increases silent reading fluency, vocabulary and comprehension, students also use it as an SAT/ACT and EOC preparatory program.

Phonics for Reading has been selected to strengthen the reading intervention program for the disfluent level 1 students who are independently reading below a 5th grade level. The program enhances the blended model for the most intensive/at-risk reading population in our school with an emphasis on direct instruction. It is a supplementary phonics program designed to teach phonemic decoding to students who have not yet mastered those skills and is taught in small groups or one-on-one by the

reading teacher; or following training, by an aide, tutor, advisory teacher, or volunteer. Daily lessons require 40-50 minutes to complete, or the teacher may choose to complete a lesson in two sessions.

Phonics for Reading focuses on phonics, a key component of reading instruction identified by the National Reading Panel (2000). The program's structured and direct approach aims to help students master the "print-to-speech" system of our alphabetic language. This is achieved by developing automaticity in letter-sound relationships and word reading skills.

Reading instruction will include whole group direct instruction of the standards, effective literacy strategies, academic vocabulary, evidence-based writing, and grammar along with small group instruction that is a combination of independent student work using instructional technology and small group instruction with the reading teacher that is tailored to meet the specific needs of the group.

The School will use a Multi-tiered System of Support (MTSS)[42] to match quality interventions to student needs. MTSS is a problem-solving model that integrates multi-tiered service delivery including primary, secondary, and tertiary levels of support. The primary, or first tier, is focused specifically at effective instructional delivery of the core curriculum for the majority of students. Special needs and ELL students achieving at grade level should meet grade level norms within the School's curriculum with teacher and reading strategy support.

Of particular priority is detecting reading difficulty at the very start of the student's enrollment at our school. In an attempt to intervene early, if students are not performing proficient on the most recent state test and/or perform at or below an established level on the GAIN assessment during New Student Orientation, an immediate screening of a word list and fluency measure will be administered to determine grade level equivalencies prior to students receiving coursework and intensive intervention in a content area.

Another incredibly important research-based strategy for the struggling reader is learning and implementing organization and study skills. There is a direct relationship between a student's ability to organize content information, take ample notes, and be successful in school. Students will receive thorough instruction in notebook organization and note taking requirements and skills. Students will be taught to set up notebooks with Key Terms, Organized Notes, and Study Sheets. In order to be an efficient and effective student at our School, student materials that will be provided must include notebooks, pen or pencil, highlighter and headphones. The note taking structures that are best utilized in a technology-enhanced environment include: SQ4R; 1-2-3 Power Notes or Cornell Note taking; and Two Column notes.

Interventions will also include teaching students how to research and become independent learners. Both offline and online materials/tools will be made available to support students as they develop self-reliant learning behaviors. The School will supply each classroom with resources for students to access additional information or reinforce learned concepts. These may include but are not limited to the following:

- Adopted core curriculum textbooks
- Dictionaries
- English: No Fear Shakespeare book series
- Online research sites are available as icons on selected research workstations

[42] MTSS Implementation Components, http://www.florida-rti.org/educatorResources/MTSS_Book_ImplComp_012612.pdf

Teachers and the Family Support Specialist will be notified of the intensive intervention a student might require. Student profile data will be housed in an internal electronic data management information system (MIS) designed to monitor progress.

Reading interventions for students with disabilities will be determined by the student's Individual Educational Plan (IEP) team and documented on the student's IEP.

Wilson Reading is an intensive Tier 3 research-based program, with unique characteristics, that fully supports students who have not internalized the sound-symbol system for reading and spelling and have word-level deficits who are not making sufficient progress through their current intervention; have been unable to learn with other teaching strategies and require multisensory language instruction; or who require more intensive structured literacy instruction due to a language-based learning disability or ELL students with limited vocabulary.

The *Wilson Reading* program was selected to support those students who need a highly structured literacy program based on phonological-coding research and Orton-Gillingham principles. *Wilson Reading* directly and systematically teaches the structure of the English language. Students learn fluent decoding and encoding skills to the level of mastery and receive instruction in:

- Word structure (in depth) for automatic decoding and spelling
- Word recognition and spelling of high frequency words, including irregular words
- Vocabulary, word understanding, and word-learning skills
- Sentence-level text reading with ease, expression, and understanding
- Listening comprehension with age-appropriate narrative and informational text
- Reading comprehension with narrative and expository text of increasing levels of difficulty
- Organization of information for oral or written expression
- Proofreading skills
- Self-monitoring for word recognition accuracy and comprehension

Lessons are delivered in a small group setting for approximately 40-50 minutes daily. Teachers follow a ten-part lesson plan that addresses the following in a sensible and logical fashion: decoding, morphology and the study of word elements, encoding and orthography (internalizing the rules that govern English), high frequency word instruction, oral reading fluency, vocabulary, and comprehension. There are 12 Steps, not corresponding to school grade levels, that are further divided into 52 incremental sub-steps, each building upon the previous one. Requiring the mastery of each sub-step before progressing to the next one makes the demands of the subsequent sub-step manageable and achievable. This provides a systematic and cumulative approach to teaching total word structure for reading and spelling and includes an extensive collection of controlled and readable text (wordlists, sentences, stories).

Reading is the convergence of five critical components: phonemic awareness and phonics, fluency, vocabulary, and comprehension. Recent scientific evidence reveals that teaching students to read requires instruction in all of these areas (Stuebing, Barth, Cirino, Francis, & Fletcher, 2008). In fact, they are specified as critical foundational reading skills in states' college- and career-readiness standards, the National Reading Panel report (National Institute of Child Health and Human

Development, 2000), and a review of research on adult and adolescent literacy instruction by the National Institute for Literacy (Kruidenier, MacArthur, & Wrigley, 2010).

The ultimate goal is for students to be successful in reading comprehension. Research has found that the ability to decode words is a prerequisite for reading comprehension. Therefore, for students who need practice with decoding, including ELL students targeted, systematic phonics instruction is essential (Torgesen et al, 2007). Furthermore, as with all students, ELL students need instruction in word learning, comprehension strategies, and academic language in order to comprehend text (Torgesen, et al., 2007).

(2) Students Reading At or Above Grade Level

Students scoring satisfactory and above on the state assessments will also receive reading instruction. As mentioned above, all students will be enrolled in a reading course and participate in a daily reading block. The instructional focus for students reading at or above grade level will be vocabulary and comprehension strategies that prepare the students for rigorous college coursework. While they read, students will connect the new knowledge with prior knowledge and verify their predictions. Teachers will model active reading comprehension strategies for the students. After students have finished reading, they will learn to summarize and organize what they have learned. The School's teachers will receive professional development in scientifically-based reading research through participation in the District's reading endorsement classes, if available, as well as other reading trainings and professional learning communities organized by the ESP and through the Just Read. Florida! Office.

(3) Reading Program Summary

The School will ensure that there is an ongoing and primary commitment to improving reading and writing skills so that students meet the B.E.S.T. Standards. Through high quality and well vetting curriculum and evidence-based teaching strategies, the School will strive to achieve the goals outlined by Florida's Just Read, Florida! reading initiative. Furthermore, the School will base its reading instruction framework at all times on the current and relevant research findings by the National Reading Panel (NRP), International Reading Association, the National Council of Teachers of English (NCTE), and the National Assessment of Educational Progress (NAEP).

4.C. If the school will adopt or develop additional academic standards beyond those mandated by the state, explain the types of standards (e.g., content areas, grade levels). Describe the adoption or development process. Select one grade level and subject area as an example and explain how these additional standards exceed required standards and contribute to meeting the mission of the school.

The School does not plan to adopt or develop additional academic standards beyond those mandated by the state.

4.D. Describe the research base and foundation materials that were used or will be used to develop the curriculum.

The School's primary curricula have been selected based the quality of the programs and evidence of effectiveness with our target population. All of these curricula have documented evidence demonstrating student success as elucidated below.

(1) Edmentum

Edmentum was selected as the core curriculum product because it has been recognized by the National Dropout Prevention Center as a comprehensive dropout prevention, intervention, and recovery/re-entry program with promising results.

Edmentum has used sound research to guide the development of its curriculum. Using the most recent research on acquiring knowledge and thinking skills, characteristics of learners, and assessment and feedback, the Edmentum curriculum effectively provides students with access to both the content and tools needed to be successful learners.[43] For example,

> …the learning sciences offer a time-tested base of research and practice on how people learn and how to design instruction so that students build knowledge modeled on the characteristics of expert knowledge. Second, students learn more when information in multiple media is presented to them in ways that reduce unnecessary cognitive effort, facilitate processing of essential information, and maximize processing potential. These knowledge-centered elements contribute to learning with understanding and the goal of adaptive expertise (Moore & Baer, p. 6).

In response, Edmentum has designed lessons that engage students in challenging activities that increase in depth and are supported by many examples that allow students to use and apply factual knowledge. As students work, a variety of instructional strategies such as predictions, advance organizers, and questions elicit prior knowledge upon which to build new knowledge. Further, multimedia presentations of information pique students' interest and lead to deeper understandings.

The effectiveness of Edmentum (Edmentum with a portfolio of products that includes Apex Learning)'s research-based curriculum is evident. Recently, Empirical Education, Inc. completed two studies of the effects of Edmentum curriculum on students at a charter high school in Ohio. One study sought to answer the following questions, "(1) What are the determinants of achievement and dynamics of growth for students using Edmentum courses in [drop out and prevention programs]? (2) How is student growth or achievement on math, science, or ELA assessments related to the students' quality of work metrics that the Edmentum system tracks?" (p. 1).[44] Researchers found that "…increased time spent in Edmentum courses is associated with higher assessment scores…" (p. 1) and there is a "…positive relationship between Edmentum digital curriculum usage and performance on math, science, or ELA assessments" (p. 3).

Evidence from around the country also points to success with the Edmentum (Edmentum with a portfolio of products that includes Apex Learning) curriculum. St. Mary's County Public Schools are located in Leonardtown, Maryland, and serve 17,450 students in 27 schools, including the county's first public charter school. In 2012, Great Mills High School in St. Mary's County Public Schools increased its four-year adjusted cohort graduation rate by six (6) percentage points in one year, from 76% in 2011 to 82% in 2012. Superintendent Dr. Michael Martirano attributed much of the increase to the school using Edmentum® digital curriculum in a new blended learning program.[45]

A 2018 Third-Party Study of the Effects of Apex Learning (Edmentum is a portfolio of products that includes Apex Learning) on School and Student Outcomes completed by Hanover Research indicated that the use of Apex Learning Courses had a positive impact on alternative school

accountability ratings and student achievement. The results found that: Eighty-six percent (85.7%) of ALS managed schools received a "Commendable" school improvement rating compared to 7.86% of non-ALS managed alternative charter schools that did not use APEX. Students in ALS schools achieved higher academic growth than students in non-ALS alternative charter schools that do not use Apex Learning Courses in English language arts and mathematics. Students in ALS schools achieved higher academic growth than students in non-ALS alternative charter schools in Florida that did not use Apex Learning curriculum, particularly in math. ALS schools also had better school improvement ratings (SIRs) than those non-ALS schools.[46]

(2) *Reading Plus®*

Reading Plus® has one of the most extensive documentations of the effectiveness of its technology-delivered reading improvement techniques, especially in the area of silent reading fluency development. Beyond the pedagogical considerations observed in *Reading Plus®*, there is an array of studies dating back to the 1930s, when Earl A. Taylor initiated the first reading instrument training technique to develop fluency in silent reading. The studies continued through the 1960s and into the 1980s with the introduction of the Controlled Reader, Guided Reader, Tach-X, and Tach-Mate tachistoscopes by Stanford E. Taylor.

Taylor Associates studied the records of over 300 schools and the reports on 65,000 students during the school years of 2005-2007, facilitating the creation of *Reading Plus®* 3.6, which contains an automated system of instruction, provisions for scaffolding of instruction to best accommodate individual student needs, ongoing formative and summative assignments, as well as many motivational measures that will maximize student progress toward developing reading proficiency.

Numerous studies conducted with *Reading Plus®* demonstrate the system's effectiveness in developing reading proficiency in elementary, middle school, and high school students. A study involving more than 28,000 students supported the following outcomes:

- *Reading Plus®* significantly improved reading scores in middle school and high school students regardless of student ethnicity or sub-population.
- A direct correlation was observed between the number of *Reading Plus®* lessons completed and gains achieved.
- Participating Exceptional Student Education (ESE) students (both non-gifted and gifted) made significantly greater gains compared to non-participating students.
- Participating English Language Learner (ELL) students made significantly greater gains compared to non-participating students.

Prescott High School in Prescott, AZ, is one of nine schools involved in the longitudinal component of the national research project being conducted by Dr. John Shelley-Tremblay of the University of South Alabama (2007). This portion of the study includes students ranging from Grade 9 through Grade 11. Over 70% of the students reported on thus far exceeded the expected Lexile growth for the period covered in this lay analysis, with the vast majority doubling and tripling the expected increase. The expected increase for the period is approximately 44 Lexile points; the average increase among the students reviewed was 105 Lexile points. Lexile points are equal-unit measures and, therefore, can be used for comparison. Within the *Reading Plus®* programs, the students increased their Guided Reading™ rate by an average of 115 words per minute while maintaining reasonable comprehension. The students also increased how efficiently they read overall.

[46] https://cdn.apexlearning.com/al/als-efficacy-study.pdf

A collaborative study[47] was conducted between August 2003 and December 2003 and involved 82 students in the ninth and tenth grades who were defined as struggling readers. Forty-four treatment-group students were assigned to *Reading Plus*® and Lexia S.O.S. programs (average time 541.6 minutes), and thirty-eight control-group students were assigned to intervention reading classes (average time 747.4 minutes). Pre- and post-tests used to determine student gains were from the Gates MacGinitie Reading Test, Lexia Comprehension Reading Test, Visagraph Reading Rate Grade Level Equivalent (GLE), and Visagraph Reading Rate with Comprehension.

While the control group showed no significant gains on the Gates Test, the treatment group made statistically significant gains ($p<.05$) from pre-test scores of 22.5 to post-test scores of 25.8. Although both groups showed improvement at the significant level on the Lexia Test, the treatment group having access to *Reading Plus*® made significant gains on the Visagraph GLE (5.1 to 6.5) and Reading Rate (168.4 to 182), while the control group made no measurable gain.

A study conducted at a high school in California also showed positive results. A total of 182 high school students from Golden West High School in Visalia, CA, participated as part of a national study evaluating the effectiveness of *Reading Plus*®[48]. Those in the treatment group considered in the final analysis received at least 40 sessions of *Reading Plus*®, which included PAVE™, Word Memory™, Cloze Plus™, Reading Around Words™, and Comprehension Power™, and at least 30 lessons in Guided Reading™. The control group used a literature book by McDougal Littell and both groups spent equal time in reading instruction.

The results show that the treatment-group students, who were shown to be low achievers, made a significant improvement in reading ($p=.012$) over the control group after pre- and post-testing on the Gates-MacGinitie Reading Tests. The treatment group also showed substantial improvement in visual/functional and perceptual skills after pre- and post-testing with the Visagraph®, with an average two-year grade-level gain and fewer fixations and regressions. Reading rate was also shown to have substantially increased in both Visagraph® recordings and in Part B of Guided Reading™. The control group's gain was slight, with an average half-year grade-level gain and little improvement in reading rate, fixations, and regressions.

(3) *Phonics for Reading*

Phonics for Reading is a research-based program that reflects the findings of the major national documents on reading, including Becoming a Nation of Readers (Anderson et al., 1985), Preventing Reading Difficulties in Young Children (Snow et al., 1998), and the National Reading Panel Report (2000), which summarized research on numerous topics, including phonemic awareness, phonics, fluency, and comprehension. In addition to these reports, the design of Phonics for Reading was informed by the research on beginning reading (Honig, Diamond, and Gutlohn, 2008), the research on reading interventions for older, struggling readers (Archer, Gleason, and Vachon, 2003), the research on explicit instruction (Archer and Hughes, 2011), and the research on literacy and cultural diversity (Morrow, Rueda, and Lapp, 2009).

(4) *March 2 Success* (M2S)

March 2 Success® is an online test preparation tool that will help students prepare for standardized tests through the use of online study materials and practice tests, and at the same time improve math, language arts and science skills. A study of the effectiveness of *March 2 Success* was completed in Broward County, Florida (2009) and included 163 students. This study focused on the High School Prep module, coursework, specifically Math General Principles (GP), which leads to success in 9th and 10th grade courses. The data clearly showed that:

- Users of the M2S High School Prep course had a statistically significant increase in GP Math scores. (The difference in mean scores could not be attributed to random or chance effects)
- Users with lower initial Math GP scores had the most significant increase.
- 9th grade students had the greatest percent increase in Math GP scores.

(5) *MindSage*

The focus of the *MindSage* curriculum is to prepare students for the workplace and life. The topics covered in the curriculum include some of the top 20 most important or vital skills that employers and hiring managers look for in employees. Topics include but are not limited to: growth mindset, adaptability, determination, habits of the mind, self-directed learning, lifelong learning, emotional intelligence, planning, communication, success, and self-esteem . The *MindSage* curriculum captures the attention of students through effective small, bite sized pieces of learning content in a highly focused and engaging way called Microlearning. When students are able to maintain prolonged focus during repetitive activities, they are displaying sustained attention. Studies have shown that heavy users of technology and social media have the hardest time displaying prolonged focus. However, they do exhibit high bursts of focus for short periods of time. *MindSage* provides sustained training, and it allows students to remain focused for short periods of time. Most video lessons are 2-4 minutes in length. This brief digital learning tool is combined with 5-10 minutes of class discussion followed by a short journal assignment that students complete on their own time. In addition, the *MindSage* course spans many grade levels (from 4th to 12th grade). By asking students to continuously analyze themselves and make changes based on what they find and learn, over a sustained period of time, *MindSage* effects strong positive changes in each student.

(6) FDIC Money Smart

The Federal Deposit Insurance Corporation (FDIC) developed *Money Smart* to help young adults outside the financial mainstream build financial knowledge and develop positive relationships with financial institutions. *Money Smart*, piloted in early 2001 in the Washington, D.C., area, was distributed throughout the United States later that year.

A longitudinal study conducted by FDIC in cooperation with NeighborWorks America[49], showed that financial education changes attitudes and behaviors and can result in enhanced financial literacy (i.e., confidence about basic money management skills, confidence about personal finances and improved creditworthiness). Results also indicated that financial education results in some consumers

establishing or strengthening relationships with financial institutions. For example, after completing the *Money Smart* program, results for those in this study who completed this curriculum showed that:

- 43 percent without a checking account opened a checking account;
- 37 percent without a savings account opened a savings account;
- 69% reported an increase in their savings; and
- 55% indicated they "always paid bills on time," up from 43% before taking the course.

(7) *Kuder* Education and Career Planning System

Kuder is powered by a suite of age-appropriate free online planning tools that are internationally recognized and specialize in research-based assessments. The online tools help students create a personalized plan that puts them on track for professional success. Research-based assessments are aligned to career clusters and occupational pathways to help students match their interests, skills and work values with potential jobs/careers. An extensive catalog of careers provides essential information about occupations, including educational requirements, salary, and job outlook.

4.E. Describe proposed curriculum areas to be included other than the core academic areas.

The School will offer all required instruction for middle school promotion and high school graduation as defined by Section 1003.428 and 1003.4282, F.S. This will include a minimum number of hours of instruction in health education and substance abuse prevention appropriate for each grade level (9-12) for students selecting the 24-credit graduation option. In addition, the school will provide required instruction on teen dating violence and abuse as required by Section 1006.148, F.S., The health education curriculum for students in grades 9 through 12 shall include a teen dating violence and abuse component that includes, but is not limited to, the definition of dating violence and abuse, the warning signs of dating violence and abusive behavior, the characteristics of healthy relationships, measures to prevent and stop dating violence and abuse, and community resources available to victims of dating violence and abuse.

Electives will include both on-line and classroom opportunities. As illustrated in the Course Offerings list, the School will provide a number of elective courses that include, but are not limited to CTE, Fine Arts/Performing Arts electives with Music Appreciation, Art Appreciation. Additional electives such as Creative Writing, Geography, Multicultural Studies, Psychology, Sociology and College/Career Preparation will be provided as well.

The School's curriculum and instructional strategies are designed to meet the needs of all our students and provide a rigorous and relevant curriculum that is technology-enhanced, mastery-based, and individualized for success.

4.F. Discuss the system and structures the school will implement for students at risk of not meeting academic requirements or of dropping out.

As a dropout prevention and recovery school, all students in the target population are expected to enroll at high risk of not meeting academic requirements and/or of dropping out of school. Every element of our instructional and support model is designed to respond to the unique needs of this student population. Through an individualized program and a clearly defined multi-tiered system of supports, this model has proven highly successful in helping students reach academic success and stay engaged in school.

(1) Individualized Program

The School's academic program is highly personalized so that students' needs are met and all are provided with the opportunity to realize their full potential. This individual approach begins at the very beginning of each student's enrollment when a baseline academic assessment will be administered using the General Assessment of Instructional Needs (GAIN). This will allow staff at the School to immediately identify each student's strengths and needs. An Individual Success Plan (ISP) will be developed for each student laying out the courses and exams needed for middle school promotion/high school graduation. New students' transcripts will be obtained from the student's last school attended and reviewed by teachers and/or administrators for input into each ISP. This information is also projected to each student in their individual MY SUCCESS® Dashboard which serves as a daily road map allowing students to see their ISP progress in real time.

In this individualized program, each student may progress at an appropriate pace based on his/her individual learning needs. Using a combination of direct instruction, instructional software aligned to the Florida Standards, and supplemental materials, the curriculum will have the breadth and depth to meet the needs of the student population and provide students with the required courses to succeed on the EOCs and/or other state assessments and comply with state middle school promotion requirements or graduation requirements to earn a high school diploma.

In addition to direct instruction, the instructional software courses incorporate three types of flexible instruction: multiple methods of content presentation, multiple modes of student expression, and multiple ways to engage students, all of which are addressed in the software.

Additionally, multiple course pathways will make it possible to provide the right level of instruction to meet the unique needs of each student. Foundations courses will provide structured remediation focused on developing reading, writing, and math skills and strategies. Other levels of courseware include Core, Honors, and Advanced Placement. Core courses are standards-based general studies courses that meet the needs of a range of students as they endeavor to master rigorous content and complete courses for middle school promotion or earn credits toward high school graduation. While Core courses assume readiness for grade-level academic challenges, they also include targeted scaffolding and other literacy enhancement strategies built into each course for students who benefit from additional learning support. Each semester course offers 70–90 hours of interactive direct instruction, guided practice, and integrated formative, summative, and diagnostic assessment.

Targeted face-to-face direct instruction sessions will be conducted, as needed, to assist struggling students. These sessions will be targeted towards students' individual needs to include test taking skills preparation, foundational skill improvement, and additional reading, math, social studies, and science instruction.

(2) Multi-tiered System of Support (MTSS)

The School will use a Multi-Tiered System of Support (MTSS) model to match quality interventions to student needs. MTSS may be described as the use of a problem-solving process to address the academic and behavioral needs of all students through a multi-tiered continuum of services that provide: (1) high-quality instruction and scientific, researched-based, three-tiered intervention strategies aligned with individual student need; (2) frequent monitoring of student progress to make results-based academic or behavioral decisions; (3) data-based school improvement; and (4) the application of student response data to important educational decisions (such as those regarding

course placement, intervention, curriculum and instructional goals, and instructional methodologies)[50]. MTSS includes elements common to many data-based problem-solving models including Response to Intervention (RtI), Positive Behavior Support (PBS), etc.

Academic and behavioral approaches will focus on evidence-based practices. The selection of practices (e.g., planning and implementing interventions) for each student will be based on the following:

- A short list of critical priorities identified by the School
- A limit of only one or two major adoptions at a time
- Strategies that have been proven effective in addressing the desired outcomes
- The ability to monitor progress of implementation[51]

Three tiers define the interventions for the MTSS process. These tiers include increasing levels of intervention intensity.

- Tier 1 Intervention: Instruction for all students, prevention, and differentiation
- Tier 2 Interventions: Targeted interventions for students at-risk
- Tier 3 Interventions: Planned/Intense interventions for students with intensive needs

The School's MTSS team members will include but are not limited to the following: 1) classroom teacher, 2) administrator, 3) reading teacher, 4) special education teacher, 5) career coach, and 6) family support specialist. The team will be responsible for ensuring that interventions and instructional resources are matched to students' needs. The team will use the following process:

1. Define the problem.
2. Analyze the problem using available data.
3. Develop and implement a plan that includes one or more performance goals for the student.
4. Measure the student's response to the intervention by using data from progress monitoring.
5. Continue or adjust the intervention based on the student's response and progress.

The main goal of MTSS academic intervention will be to identify students who are struggling academically and to help them learn the skills needed to succeed. Academic MTSS systems identify goals, a core academic curriculum, and organizational structures or strategies to enhance academic instruction.

[1] Tier I Interventions

The implementation of additional instructional programs will be driven by the Response to Intervention (RtI) process. It is likely that the majority of students served at the School will require at least Tier I interventions. General Tier I strategies will include:

o Delivering a Florida B.E.S.T Standards aligned curriculum
o Differentiated instruction
o Front-load learning to increase student success
o Explicit instruction and support in study and learning strategies

Accessed from http://www.rtinetwork.org/learn/behavior/integrating-behavior-and-academic-supports-general-overview

The School recognizes that students will enroll with varying background knowledge, readiness, language, and preferences in learning and interests, and it is the School's responsibility to respond appropriately to their differences. Differentiated instruction is a process to approach teaching and learning for students of differing abilities in the same class. The intent of differentiating instruction is to maximize each student's growth and individual success by meeting each student where he or she is and assisting with his/her individual learning process and needs. The school will use the technology and digital curriculum described in this application to facilitate differentiated instruction and 1:1 support through the assignment of computers to each student. Research by Bebell and O'Dwyer (2010)[52] found that

> …participation in the 1:1 programs described was associated with increased student and teacher technology use, increased student engagement and interest level, and modest increases in student achievement. With regard to student achievement, positive increases were observed more frequently within the ELA domain than in mathematics…. (p. 11-12).

Several key elements will guide the differentiation of the School's curriculum:

Goals	Strategies
Meet the individual needs of each student	o Establish existing knowledge and skills o Establish learning style o Provide multiple entry points into courses based on the School's flexible schedule
Support each student to reach his/her learning potential	o Provide the appropriate mix of learning scaffolds and challenging activities and projects o Provide a variety of innovative instructional methods in a blended learning model o Provide a variety of rigorous and relevant curricula o Provide appropriate, research-based interventions and strategies for struggling learners o Engage and motivate students
Differentiate the Instructional design of the program	o Direct instruction blended with technology-enhanced instruction o Scaffolding o Guided inquiry and direct instruction o Practice and application exercises o Interactive exercises and self-checks o Multi-media tools o Offline support materials o Formative, summative, and diagnostic assessments to monitor progress
Differentiated Instruction within instructional software	o Purposeful use of media including visual and audio support o Built-in supports and extension activities (e.g., online help with vocabulary and text-to-speech support) o Offline activities o Mastery based
Ongoing progress monitoring to	o Student progress reports o Grade book reports o Course activity reports

Goals	Strategies
inform instruction	o Assessment item analysis reports o MySuccess Dashboard with reflecting real-time progress

Special interventions will include instruction on developing study skills. An incredibly important research-based strategy for the struggling student is learning and implementing organization and study skills. Students will receive thorough instruction in notebook organization and note-taking requirements and skills. Students will be taught to set up notebooks with Key Terms, Organized Notes, and Study Sheets. Student will be provided and required to use organized notebooks, pen or pencil, highlighter, and headphones. Note-taking structures will include use of the SQ4R study system; taking 1-2-3 Power Notes or Cornell Notes; and Two Column Notes.

Tier I interventions also will also include teaching students how to research and become independent learners. Both offline and online materials/tools will be made available to support students as they develop self-reliant learning behaviors. Each classroom will be provided with resources for students to access additional information or reinforce learned concepts. These resources may include but are not limited to the following:

- Adopted core curriculum textbooks
- Dictionaries
- English: No Fear Shakespeare book series
- Math: Graphing Calculators; Order of Operations Chart; Classroom math manipulative resources
- Science: Elements Charts; Cell Charts
- Social Sciences: Globes, World Maps, State/Local Maps
- Online research sites are available as icons on selected research workstations. These may include:
  - English: Brainpop; Brainpop Jr.
  - Math: Online Graphing Calculators KhanAcademy.com
  - Science: Gizmos
  - Social sciences: Hippocampus.org

[2] Tier II Interventions

When monitoring student progress through the data reporting system, any alerts on a student that may not be functioning successfully in Tier I will prompt the MTSS Team to convene to consider needed Tier II interventions. Students who are non-proficient on the state assessment and whose current level of performance is moderately below grade level on the GAIN and/or other assessments (e.g., *Reading Plus*®, Edmentum assessments, EOC, and/or other state assessment results, etc.) will be given Tier II or secondary instructional services. *Reading Plus*® will be implemented as an intervention for all Tier I and II students to accelerate reading growth and prepare students for college boards and college level text.

Additional Tier II Interventions may include but are not limited to:

- Review formative data to determine student progress and possible obstacles
- Introduce student tutors to remove possible learning blocks
- Increase scaffolds to provide an improved level of support
- Monitor Edmentum usage to ensure content and skill improvement
- Assist with notebook set-up and usage
- Provide bilingual dictionaries
- Begin small group instruction

- Increase teacher attention to the self-paced learning process
- Modify or adjust assignments or methods of instructional delivery within the curriculum
- Read assignments to students
- Provide a quiet learning environment
- Use supplemental curriculum
- Provide extra time to complete assignments
- Assign/encourage student to attend extra sessions
- Teach additional learning strategies – Organizational / Metacognitive / Work habits / Self-Management Techniques
- Monitor progress and attendance
- Check the need for social services intervention

Significant to Tier II interventions are the use of data and related data services. The following assessments will be used to further assist in the diagnosis of students that continue to exhibit difficulty with performance. Only those diagnostic assessments that are necessary will be used and the data included in the overall student profile. These screening and predictive assessments may include but are not limited to:

- State Assessments
- Benchmark assessments
- Word and passage reading fluency
- Reading comprehension
- Number sense screening
- GAIN
- *Reading Plus*®

The data from the following assessments may also be used to assist in determining difficulty that various students may be experiencing. This data will also be combined with the student's profile in an effort to gain an overall understanding of the difficulty and provide effective interventions.

- Benchmark Data
- Assessments from course software (Edmentum, math software, and *Reading Plus*®)
- Grades and Course Completion
- Comprehension Measure
- Word and Passage Reading Fluency

[3] Tier III Interventions

When difficulties persist, a more intensive approach is required. Students who are severely below grade level require intensive Tier III intervention. Students who qualify for this tier require more time, smaller groups, and greater intensity in instruction. Students who are non-proficient on state assessments and read at a 5th grade level or below on GAIN and/or other reading assessments will be further diagnosed by an oral reading fluency and word list measure to determine if they qualify for preliminary English language and reading skills.

The approach at this tier may be a combination of modified instruction, modified assessments, and/or a testing battery designed to diagnosis significant problems. The following may be used singularly or in combination to increase success:

- Assign the student to a specific support teacher most responsive to their individual needs (reading, special education/ESE, math, English, etc.)
- Increase frequency of one-on-one instruction

- Offer diagnostic assessments for learning disabilities
- Modify methods for interacting with coursework
- Use community resources
- Continue targeted pullouts
- Increase targeted assistance based on progress monitoring administered by classroom teacher or external interventionist
- *Phonics for Reading*
- *Wilson Reading*
- Match curricular materials and instructional level
- Teach additional learning strategies – Organizational / Metacognitive / Work habits
- Add intensive individual or small group instruction

Additionally, students in Tier III will be continually monitored to determine progress and impact of interventions. If there is no progress, then decisions will be made as to the appropriate services or interventions that should be provided. A teacher will be assigned to students that are classified as needing Tier III interventions. The teachers will provide intensive remediation. They will also provide direct instruction to individual or small groups of students, and will use interactive technology, instructional software, and other resources. Differentiated instruction will be designed specifically for each student and provided in pull-out sessions.

The entire instructional team will track student progress on a continuous basis using a specially designed internal electronic data management information system (MIS) that includes a learner profile for each student. The learner profile will enable instructors to make decisions regarding next steps for each student. Careful remediation and monitoring are crucial to the success of a struggling learner.

5. STUDENT PERFORMANCE

5.A. DESCRIBE THE EXPECTED INCOMING BASELINE OF STUDENT ACADEMIC ACHIEVEMENT OF STUDENTS WHO WILL ENROLL IN THE SCHOOL. BASED UPON THE EXPECTED INCOMING BASELINE PERFORMANCE, DESCRIBE THE SCHOOL'S GOALS FOR ACADEMIC GROWTH AND IMPROVEMENT THAT STUDENTS ARE EXPECTED TO SHOW EACH YEAR AND THE RATIONALE FOR THOSE GOALS. DESCRIBE HOW THE SCHOOL'S ACADEMIC GOALS AND OBJECTIVES FOR IMPROVING STUDENT LEARNING WILL BE REVISED IF THE ACTUAL INCOMING BASELINE IS SUBSTANTIALLY DIFFERENT THAN THE EXPECTED BASELINE. DESCRIBE HOW SUCCESS WILL BE EVALUATED, AND THE DESIRED OVERALL RESULTS TO BE ATTAINED THROUGH INSTRUCTION.

As a dropout prevention and recovery school, the expected baseline achievement of students who will enroll in the school is as follows:

- Academically unsuccessful—95% reading below grade level (average 5th grade level) and 90% performing math below grade level (average 5th grade level)
- Students will have previously-earned an average of 10.6 cumulative credits, which is 13.4 credits (or more than 2 years in a traditional high school) away from meeting graduation requirements
- Middle school students are expected to have a history of one or more grade retentions at the middle school level
- Average high school GPA will be well below the 2.0 required for graduation

The goals outlined below reflect the school's intent to accelerate credits earned toward a standard high school diploma, improve the middle school promotion and high school graduation rate, improve the percent of students meeting the state graduation assessment performance standard, improve continuing enrollment rates, and improve enrollment in post-secondary options.

The School's proposed performance goals[53] are designed to align with the mission of the school and in full recognition of the expectation that the target student population will arrive significantly over age and behind grade-level; performing at the lowest levels on state exams; reading and performing math well below grade level; and likely facing a myriad of social and/or emotional factors that have impacted personal and academic success.

Proposed Goal 1: Improved Academic Skills

- Proposed: Percent of students achieving improved reading skills.
- Calculation:
  - Reading/English Language Arts: Percent of students attending for 1+ semesters who demonstrate at least one year of reading growth compared to the baseline reading level at entry, as measured by the school's reading intervention program or by a school-administered entry and follow-up assessments.
- Goal: As shown in the table below.

Reading/ English Language Arts	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
All Grades Combined	**55%**	**60%**	**65%**	**70%**	**75%**

Proposed Goal 2: Improve Grade Point Averages toward standard high school diploma

- Proposed: Improve student grades by increasing the percentage of students who, after attending the school for at least one semester, either achieve a cumulative GPA of 2.0+ or improve their GPA by at least 0.3 points.
- Calculation: The percent of included students who have achieved a cumulative GPA of at least 2.0 or have improved their cumulative GPA by at least 0.3 points.
- Goals: As shown in the following table:

Students included	Baseline	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
Attended for at least a cumulative semester or more, and attended during the specified year	Yearly Baseline: Percent of included students entering the school with a 2.0 GPA or higher. (The yearly baseline adjusts for variation among enrolling students.)	Baseline + 5 percentage points	Baseline + 10 percentage points	Baseline + 15 percentage points	Baseline + 20 percentage points	Baseline + 0.75 credits per semester attended

[53] The School is willing to work with the district's accountability department to further define the goals.

Proposed Goal 3: Acceleration of credits earned toward standard high school diploma

- Proposed: Improve per semester credit earning rate for student population compared to the credit earning rate at prior schools. For example, if students entering or enrolled at the School in year 1 have earned an average of 2.0 credits per semester at their prior high schools, then the proposed School's goal in the first year is the 2.0 credit baseline (plus) 0.5 credits (that equals) an average credit earning rate of 2.5 credits per semester per student.
- Calculation: Credits Earned = Cumulative number of credits earned at school, as of end of school year (divided by) number of student semesters attended, as of end of school year, for all students attending one or more semesters.
- Goal: As shown in table below.

Students included	Baseline	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
Attending one or more semesters during the school year	Baseline: Cumulative credit earning rate per semester at prior schools for students enrolled at our school for one or more semesters. (The baseline will be recalculated each year to adjust for credit-earning variation among enrolling students.)	Baseline + 0.25 credits per semester attended	Baseline + 0.5 credits per semester attended	Baseline + 0.5 credits per semester attended	Baseline + 0.75 credits per semester attended	Baseline + 0.75 credits per semester attended

Proposed Goal 4: Increased Attendance Rate

- Proposed: Demonstrate a decrease in at-risk behaviors by increasing attendance.
- Calculation: For students attending 45+ days during an academic year, the number of attended days (divided by) number of enrolled days.
- Goal: Overall percent of attendance rate, as shown in table below.

Attendance Rate	Baseline:	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
For students attending 45+ days during the academic year	Not applicable.	60%	62%	64%	65%	65%

Proposed Goal 5: Graduation/Completion

- Proposed: At least 50% of the seniors who have accumulated 17+ credits by Survey 2 will graduate, earn a certificate of completion, continue enrollment at the school, or transfer to

another education option that is allowed under the Federal Uniform Rate (FUR) Calculations by the end of the school year.

- Calculation: Number of seniors who have accumulated 17+ credits by Survey 2 will graduate, earn a certificate of completion, continue enrollment at the school, or transfer to another education option that is allowed under the FUR Calculations by the end of the school year (divided by) Number of graduates.
- Goal: Overall, at least 50% of seniors who have accumulated 17+ credits by Survey 2 will graduate, earn a certificate of completion, continue enrollment at the school, or transfer to another education option that is allowed under the FUR Calculations by the end of the school year. The target will increase by one percentage point to 51% in year 2 of the contract and by one percentage point in each subsequent year of the charter contract until a goal of 60% is met.

Graduation/ Completion	Baseline:	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
Overall	Not applicable.	50%	51%	52%	53%	54%

Proposed Goal 6: Test Participation.

Proposed: The percentage of students tested in math or ELA assessments will meet or exceed the minimum FLDOE requirement to receive an accountability rating for the year. If the minimum requirement is not met, the school will submit a plan to the district for meeting the subsequent academic year's requirement.

Proposed Goal 7: Accountability Results.

An alternative school may choose to receive a school grade or a School Improvement Rating under s. 1008.341, F.S. For charter schools that meet the definition of an alternative school pursuant to State Board of Education rule, the decision to receive a school grade is the decision of the charter school governing board. As such, the Charter School's Board of Directors will determine how the proposed school will be evaluated.

Proposed: The school shall not earn an FLDOE Alternative Education (School Improvement Rating ["SIR"]) below "Maintaining" for any two years in a four-year period. If the school does not receive at least a maintaining rating as outlined above, the school agrees to remove its principal or to develop a district-approved action plan for meeting the accountability target in the subsequent academic year.

5.B. Describe any mission-specific educational goals and targets for the school not captured by state accountability requirements. State goals clearly in terms of the measures or assessments the school plans to use.

The following goal is in accordance with the school's mission to help at-risk students earn a standard high school diploma and prepare for post-secondary success.

Proposed Goal 8: Post-secondary plans

- Proposed: Percent of graduating students planning to attend two- and four-year postsecondary institutions, technical and trade schools or to join the military after graduation. Status based on documented student-level graduation plans and school-based senior exit surveys

- Alignment with the School's Mission: Directly aligned with … "be prepared for postsecondary success."
- Calculation: Number of graduates planning to attend two- and four-year postsecondary institutions and trade schools or to join the military after high school graduation (divided by) Number of graduates
- Goal: Overall percent of graduates with post-secondary plans to attend a 2- or 4-year college, trade school, or to join the military, as shown in table below:

Post-Secondary Plans	Baseline:	School Year 1	School Year 2	School Year 3	School Year 4	School Year 5
Overall	Not applicable.	50%	55%	60%	65%	70%

It should be noted that Goals 1 through 5 listed in response to 5.A. also align with the school's mission as described below:

Goal	Alignment with School's Mission
Proposed Goal 1: Improved Academic Skills	Improved reading skills increase ability to earn credits and to pass required assessments for graduation.
Proposed Goal 2: Improve Grade Point Averages toward standard high school diploma	A minimum 2.0 GPA is required for Florida high school graduation.
Proposed Goal 3: Acceleration of credits earned toward standard high school diploma	Earning credits is required for high school graduation.
Proposed Goal 4: Increased Attendance Rate	Aligned with the mission to "…earn a high school diploma…"
Proposed Goal 5: Graduation/Completion	Alignment with the School's Mission: Directly aligned with … "help at-risk students earn a standard high school diploma and prepare for postsecondary success."

5.C. Describe the school's student grade level and course placement procedures.

The School will comply with the requirements for student placement and promotion as noted in the school district student progression plan.

(1) Grade Level Placement

Initial grade placement and subsequent grade level promotions will be made in accordance with the requirements defined by the District's Student Progression Plan.

(2) Course Placement

Section 3.B(b) outlines the School's procedures for course placement through the development and ongoing monitoring of each students' Individual Success Plan (ISP). As described in the section, courses shall be assigned based on the individual entry level skills needs and middle school promotion or high school graduation requirements needed. As students successfully complete coursework

defined by their ISP, they will meet with their Advisory Teacher and Assistant Principal to review their ISP progress and select the next course in their progression plan.

(3) Earning Credit Hours

To receive course credit, students must earn a passing average (70% or above) in the course. The Assistant Principal will verify all credits by reviewing a credit verification form, supporting documentation, and final exam performance. Course completion information will be entered in the student information system (SIS) and management information system (MIS).

(4) Calculating Grade Point Averages

Grade Point averages (GPA) will be calculated on a weighted 4.0 point scale with a .5 additional point awarded for an honors course and 1.0 additional point added for an Advanced Placement course. Class rank will be based on the weighted GPA.

(5) Promotion

Students will progress in grade levels when they meet the requirements defined by the District's Student Progression Plan. Grade level promotions shall occur at the end of each school year or mid-year if promotion requirements are met and the District Student Progression Plan allows for it.

Middle School Designation and Promotion Requirements

The School will follow the District's Progression Plan for middle school designation and promotion.

5.D. State whether the applicant intends to use the local school district's pupil progression plan. If not, explain the policies and standards for promoting students from one grade level to the next or provide the pupil progression plan as Attachment E.

The School will comply with the requirements for student placement and promotion as noted in the school district's student progression plan.

5.E. If the school will serve high school students, describe the methods used to determine if a student has satisfied the requirements specified in section 1003.428, F.S., and any proposed additional requirements.

(1) Graduation Requirements

The School's students will comply with graduation requirements in s. 1003.428 and 1003.4282, F.S. The following options for high school graduation will be offered:

- 24 credit standard diploma
- 18 credit Academically Challenging Curriculum to Enhance Learning (ACCEL) option
- Career and Technical Education (CTE) Pathway
- Certificate of Completion

In addition to course and credit requirements, students must maintain an un-weighted grade point average of 2.0 and earn passing scores on state assessments as mandated by state statutes.

The School will comply with all FDOE graduation requirements, including:

- Four credits in English Language Arts (ELA) and passing 10th grade Reading ELA assessment.

- Four math credits including one credit in Algebra I and one credit in Geometry, and passing the Algebra I EOC assessment or state mathematics assessment. Industry certification courses that lead to college credit may substitute for up to two (2) math credits.
- Students enrolled in Algebra I, Geometry, Biology, and/or United States History must take the respective End of Course (EOC) exam, which will constitute thirty percent (30%) of the student's final grade.
- Three science credits that include one credit in Biology I and two (2) credits in equally rigorous courses. Two (2) of the credits must include a laboratory component.
- Three credits in Social Studies, a student must earn one credit in United States History; one credit in World History; one-half credit in economics; and one-half credit in United States Government.

For those students who choose the 18-credit ACCEL option:
- Physical education is not required
- Three (3) elective credits are required
- Online course is not required
- All other graduation requirements for a 24-credit standard diploma must be met (per section 1003.4282(3)(a)-(e), F.S.)

A student may earn Scholar Designation on their diploma if they meet the requirements for a Standard Diploma, and earn credit in Algebra II and statistics, Chemistry or physics, foreign language credits, and at least one credit in an AP, IB, AICE, or dual enrollment course and pass the Biology 1 and US History EOCs.

Students who choose the Career and Technical Education Pathway option will need to successfully complete at least 18 credits, meet the GPA requirement, complete the standard high school diploma course requirements in ELA, mathematics, science, and social studies and complete two credits in career and technical education, and complete two credits in work-based learning. The CTE courses must result in a passing industry certification exam and therefore an industry certification. A student may substitute up to two credits of electives, including one-half credit in financial literacy, for work-based learning program courses to fulfill this requirement.

A student who completes the minimum number of credits and other requirements for graduation, but who is unable to meet the state assessment requirements, shall be awarded a certificate of completion in a form prescribed by the State Board of Education. However, any student who is otherwise entitled to a certificate of completion may elect to remain in the School for up to one (1) additional year and receive special instruction designed to remedy his or her identified deficiencies.

(2) The Graduation Process

The Graduation Committee comprised of but not limited to the Principal, Assistant Principal, Career Coach, and Data Specialist on behalf of the Board of Directors, will review each student's Individual Success Plan and confirm that all requirements have been met by completing the Graduation Checklist (in Attachment FF).

(3) Performance-Based Exit Option Model

Pursuant to Rule 6A-6.0212, Florida Administrative Code, the School may offer the State of Florida High School Performance-Based Diploma option for eligible students if the District has applied and received state approval to use this exit option model. The School will follow all District guidelines in

the implementation of this option to include use of the performance levels identified by the District in their approved application.

(4) Concordant Scores for State Assessments

The FDOE is authorized to adopt concordant scores for meeting the graduation assessment requirement in lieu of passing required state assessments. Students may satisfy the score requirements using various combinations of tests as specified in Rule 6A-1.09422, F.A.C. The School will prepare students for any and all concordant exams defined by the FDOE.

(5) Students with Disabilities

One of the most important decisions for students with disabilities is the type of high school diploma the student will work toward. This decision is usually made by the student and family prior to entering high school with the Individual Education Plan (IEP) team. Diploma options should be considered by using postsecondary education and career goals of the student to guide the decision in the following order:

- Standard diploma
- Standard diploma with state assessment waiver
- Certificate of Completion

Students with disabilities who are working toward a standard high school diploma are expected to participate in the [FAST or FSA] and Florida EOC Assessments; however, legislation provides for a waiver of the [FAST or FSA] or Algebra 1 EOC Assessment as a requirement for graduating with a standard high school diploma for students with disabilities whose abilities cannot be accurately measured by the statewide assessments. Pursuant to s. 1008.22(3)(c)2., F.S., "A student with a disability, as defined in s. 1007.02(2), for whom the individual education plan (IEP) team determines that the statewide, standardized assessments under this section cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have assessment results waived for the purpose of receiving a course grade and a standard high school diploma. Such waiver shall be designated on the student's transcript…" [54] Students who do not meet requirements for a standard diploma may be awarded a certificate of completion, depending on coursework.

5.F. Discuss how and when promotion and graduation criteria will be communicated to parents and students.

Promotion and graduation criteria are included in the Parent/Student handbook that is given to parents and students at the time of admission and is reviewed regularly as part of the Students' Individual Success Plan (ISP). Graduation requirements and progress toward meeting are also reflected on each students' MY SUCCESS® Dashboard which is accessible with view rights to parents/guardians.

5.G. In addition to all mandatory assessments, identify the primary interim assessments the school will use to assess student learning needs and progress throughout the year (including baseline assessments) including a proposed assessment schedule as Attachment F. Provide the rationale for selecting these assessments, including an

[54] Florida Department of Education/Office of Assessment (2014). Graduation Requirements for Florida's Statewide Assessments, Tallahassee, FL: Florida Department of Education

EXPLANATION OF HOW THESE ASSESSMENTS ALIGN WITH THE SCHOOL'S CURRICULUM, PERFORMANCE GOALS, AND STATE STANDARDS.

Diagnostic assessments, including GAIN and those available through the digital curriculum, are used to establish the entrance-level performance of students and track growth at intermittent times of the year. By continuing to use these assessments throughout the year, teachers and administrators can track students' progress and their strengths and weaknesses in skills required to succeed in state assessment and/or coursework. These diagnostic assessments are used to inform intervention groups based on identified skill gaps and/or opportunities for enrichment.

Classroom formative assessment will occur regularly employing such strategies as, but not limited to, observation, reviews, projects, quizzes, and tests.

Benchmark assessments will be set up for the FAST and End-of-Course tests required for graduation. The benchmarking system will begin at the point of entry for each student and progress from a series of benchmark assessments to a released FAST or EOC test as official testing dates approach. Upon entry, if a student has not yet passed a portion of any state required assessment, then the student will be placed into appropriate tutorials. Regardless of point of entry, the student will take the next administered benchmark assessment. Based on the results, the student will receive tutorials to assist in remediating areas of deficiency.

Student performance will be measured in each of the following ways:

- Assessment of foundational reading and math skills levels upon students' initial enrollment
  - Foundational reading and math skills levels are essential in the development of each student's ISP and placing students in appropriate content levels or courses. This information will be derived from standardized test scores, curriculum-based assessments, and/or teacher-developed and authentic assessments
- Formative evaluations will be completed to monitor progress in foundation skills and identify students in need of support
  - Ongoing assessment and evaluation will be conducted through classroom observations, quizzes, tests, and checklists
  - Benchmarking will be used to modify instruction and tutorials for state assessment success.
  - Content mastery will be measured through the achievement of benchmarks and successful completion of each course
- Summative evaluations of content mastery
  - Florida Assessment of Student Thinking (FAST) English/Language Arts
  - End of Course assessments
  - Measurement of annual growth

The types and frequency of assessments are included as Attachment F.

5.H. DESCRIBE HOW STUDENT ASSESSMENT AND PERFORMANCE DATA WILL BE USED TO EVALUATE AND INFORM INSTRUCTION. WHO WILL BE RESPONSIBLE FOR MANAGING THE DATA, INTERPRETING IT FOR CLASSROOM TEACHERS, AND LEADING PROFESSIONAL DEVELOPMENT TO IMPROVE STUDENT ACHIEVEMENT?

Data from formative, diagnostic, and summative assessments will inform decisions about adjustments to the educational programs and student placement, or intervention needed. School leadership will

analyze and interpret assessment data and will use the data to identify the professional development needs at the school.

Classroom formative assessment will occur regularly employing such strategies as, but not limited to, observation, reviews, projects, quizzes, tests, and review of electronic Student Progress Reports (SPR). The SPR will track mastery to prevent a student from proceeding to the next lesson until he/she reaches mastery level on the current lesson. The continual assessment provided by the SPR will assist the student and teacher not only in identifying areas of success, but also in identifying areas where the student may be experiencing difficulty and need additional instruction.

Additional Assessment opportunities – including baseline, formative, and summative assessments – will be integrated throughout the digital curriculum. Teachers will have access to an electronic Gradebook and Activity Score Report for each student enrolled in the School and will use these tools during progress monitoring meetings with individual students. In addition, online diagnostic assessments will pinpoint student strengths and weaknesses. A benchmarking system and a course monitoring system will be set up for each of the mandatory End-of-Course assessments required for graduation. The benchmarking system will begin at the point of entry for each student and progress to a series of benchmark assessments and then to a released EOC test in preparation for the testing dates.

All of the above-mentioned assessment, evaluation, monitoring, and feedback tools and strategies will be used in a student-centric way to inform targeted instruction. School Leadership will interpret and analyze the aforementioned assessment data to coordinate professional learning opportunities designed to improve student achievement. A team of Curriculum & Instruction specialists through the ESP will also support the School Leadership team in analyzing student assessment data on a monthly basis. They will provide support, resources, and professional development to leadership and instructional staff in response to identified needs and in support of school improvement goals.

5.I. Explain the training and support that school leadership and teachers will receive in analyzing, interpreting, and using performance data to improve student learning.

School leadership and teachers will receive ongoing training, support and job embedded professional development to ensure adequate knowledge on analyzing, interpreting and using performance data to improve student learning. Upon employment, both leaders and teachers will participate in either New Teacher or New Leader training where they will learn the instructional model, school goals, and the types of data they will use to inform instruction and improve student learning. New leaders and teachers are assigned a mentor to support them in their understanding of data usage and interpretation.

Leaders and teachers will also receive training and support in:

- Proper interpretation and analysis of student and schoolwide assessment data,
- Formulating questions that can be addressed by data,
- Synthesizing multiple data sources to inform instructional practices and monitor school progress against goals for improvement,
- Training on the assessments and supplementary academic tools, including non-academic data; i.e. attendance, being used to measure success,
- Using student data to plan differentiated instruction based on student needs

Research suggests that the best support for acquiring and honing data interpretation skills is sustained participation in teacher learning communities informed by student performance data (Hamilton et al. 2009). As such, school staff will participate in professional learning communities consisting of job-alike colleagues from across the ALS network of schools. Within these learning communities, leaders and teachers will not simply acquire and practice using data interpretation and other relevant skills but also collaborate and support one another as they work with and use the data to improve student learning. The PDSA cycle will support leaders in their frequent use of performance data. Sustaining progress is critical to the School's success therefore ongoing professional development, periodic training reviews and additional support will be provided as needed. School teams will collaborate when evaluating assessments, analyzing the results and planning next steps in improving the data analysis process to achieve desired improvements in student learning.

5.J. Describe the corrective actions the school would take if it falls short of student academic achievement expectations or goals at the school-wide, classroom, sub-group, or individual student level. Explain what would trigger such corrective actions and who would be responsible for implementing it.

School Level: The school will develop an annual School Improvement Plan (SIP). As part of the school improvement process, the Governing Board, ESP and School Advisory Council (SAC) will provide suggestions, strategies and feedback as they evaluate the SIP. In the event the School falls short in any area, a corrective action plan will be developed as part of the school improvement process. A committee will monitor the SIP and the School's progress toward goal attainment throughout the year and will make recommendations for adjustment as needed.

Classroom Level: School leaders will use classroom data and teacher observation/evaluation reports to determine which teachers need additional support and provide professional development, coaching and modeling. Teachers will have action plans and will also add any new goals to their Deliberate Practice Growth Plans [see section 12(b)]. Teachers will receive support from administrators, mentor teachers and Operational and Curriculum Support Staff through the ESP.

Student Level: The students' teachers and the leadership team will review assessment data as well as their ISPs and any other IEPs, 504 or ELL plans that identify needed interventions to determine what is working and what is not. Determined modifications will be documented in student ISPs, IEPs, or ELL plans and communicated to parents.

The leadership team will be responsible for increasing infrastructure and supports to ensure that plans at the school, classroom, and individual student level are implemented with fidelity. Their oversite will ensure teachers are incorporating scientifically based instructional strategies and challenging academic content in developing and facilitating high-quality lessons and effectively analyzing assessment data to ensure effective implementation of the RtI/MTSS framework.

5.K. Describe how student assessment and performance information will be shared with students and with parents.

The ***MY SUCCESS*®** **Student and Parent Dashboard** (see Attachment FF), an online, secured private portal available 24 hours a day, seven (7) days a week, will serve as the primary tool for communicating and monitoring student learning results. This web-based portal will provide up-to-

date information on student attendance, course progress, grades, skills development, graduation progress, and postsecondary transition.

As part of the School's defined service model, teachers are required to make regular contact with parents/guardians to report on student progress, recognize and celebrate successes and discuss any potential obstacles to ISP achievement. This outreach begins within the first month of enrollment and is documented to allow for compliance tracking and transparency to facilitate a full-school approach to student support.

School achievement data will be reported in the school report card and annual reports to parents and the school district sponsor, and will include the School's progress, as well as any other national or state reporting requirements. In the event that written and verbal communications are needed in a language other than English or Spanish, efforts will be made to retain translation services in the language(s) needed. Also, the School will have staff who will make home visits to communicate student's progress and successes, and will provide travel options for parents/guardians without transportation to attend School events or needed student/teacher meetings.

5.L. Describe the plan for protecting the privacy of individual student academic performance data and other student-related information.

The Board understands that the School is subject to all provisions of the Federal Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g. As such, the School will maintain the confidentiality of all student records and will only release them to a parent or with a parent's consent, unless the student is 18 in which case the records will be released only to the student or a party to which he grants consent.

6. EXCEPTIONAL STUDENTS

6.A. Provide the school's projected population of students with disabilities and describe how the projection was made.

In order to determine the projected population of students with disabilities, we reviewed the percentage of Students with Disabilities in the schools identified in 2.D. from the target school location search area.

High Schools	ESE %
Bayshore	17%
Braden River	12%
Lakewood Ranch	11%
Manatee	14%
Palmetto	14%
Southeast	14%
Average High School Percentage	**14%**

Middle Schools	ESE %
Braden River	16%
Buffalo Creek	15%
Carlos Haile	12%
Dr. Mona Jain	11%
Electa Lee	21%
Lincoln	33%
Martha King	20%
W.D. Sugg	18%
Average Middle School Percentage	**18%**

A projection of 16% for high school and 20% for middle school assumes that the school will serve a slightly higher total population of ESE students given this population's historically increased risk of struggling in a traditional school setting.

The budget documents (in Attachment X) assume a gradual build up during the first year, with 140 students during the October FTE count and 260 during the February FTE. An average of 200 students per month was utilized, of which sixteen percent (16%) of high school students and twenty percent (20%) of middle school students are expected to be ESE students. In subsequent years, the budget documents continue to assume sixteen percent (16%) of high school and twenty percent (20%) of middle school population, up to the point where the School is fully enrolled with 500 students, of which eighty-three (83) are estimated to be ESE students. The School will ensure that staffing is in place to serve all ESE students. If the ESE population is higher than expected or if the needs as defined by student IEPs dictates a lower student to staff ratio, staffing will be evaluated and increased as necessary to accommodate the need.

6.B. Describe how the school will ensure that students with disabilities will have an equal opportunity of being selected for enrollment in the charter school.

The School will not discriminate in its student admissions policies on the basis of intellectual, academic, artistic, or athletic ability; measures of achievement, aptitude or exceptionality, or any other basis that would be illegal if used by any public school. The School will not reject the application of or withdraw a student identified as having a disability based on a finding the student needs a service delivery model not presently in existence at the School.

All students who apply will have an equal chance of being enrolled at the school throughout the year. In the event that the number of all eligible applicants for enrollment exceeds the School capacity, the School shall perform a random selection process according to Florida's charter school legislation to determine which students are enrolled and which students are placed on a waiting list, subject to another random selection when an opening occurs. The School will include in the lottery all eligible applicants for admission, excluding any students that are exempt from the lottery process. These include: (1) siblings of existing students; (2) children of a board member; and (3) children of an employee of the School.

6.C. Describe how the school will work with the sponsor and through the Individual Education Plan (IEP) process when necessary to ensure students with disabilities receive a free appropriate education (FAPE) in the least restrictive environment (LRE).

Each student with a disability is entitled to receive a Free Appropriate Public Education (FAPE) in the least restrictive environment that will enable the student to progress in the general curriculum to the maximum extent possible. Special education, which refers to specially designed instruction and related services, will be provided to meet the unique needs of the student that result from the student's disability and to prepare the student for further education, employment, and independent living. Specially designed instruction means adapting, as appropriate, the content, methodology, and/or delivery of instruction. Specially designed instruction may employ universal design for learning, assistive technology, accommodations, and/or modifications. Multiple methods of content presentation, such as audio, video, illustrations, graphic organizers are available within the Edmentum digital curriculum to meet SWD needs. In addition, students have access to support tools within the

Edmentum platform to promote student engagement, classroom discussions, online activities, and brainstorming. Students can work at their own pace, providing them enough time to master a concept.

The School will follow federal, state, and district guidelines pertaining to students with disabilities (SWDs). The School will work in collaboration with parent/guardian(s) and district staff to determine the most appropriate placement, services and supports to teach SWDs in the least restrictive environment (LRE), as stipulated by IDEA. Additionally, the School will adopt and fully implement the Sponsor's policies regarding SWDs to ensure that each student is provided with an appropriate education as defined by FAPE.

The School will work collaboratively with the Local Educational Agency (LEA/ School District) Representative in locating, evaluating and identifying eligible students with disabilities at the school site. The Principal, Assistant Principal or any other teacher who is certified in Exceptional Student Education and/or who is familiar with transition IEP will serve as the School LEA. The designated School Level LEA will be responsible for the development, implementation, and monitoring of IEPs. The School Level LEA will be a vital member of the IEP Team and will ensure that all IEP's indicate the duration, frequency and location of the supports and supplemental services to be provided. Additionally, the School Level LEA will ensure that the student's general education teachers, ESE teachers and other service providers have access to and are informed of the following as it pertains to the students' IEP's:

- specific responsibilities related to implementing the student's IEP (i.e., duration, frequency and location of services)
- specific accommodations
- program modifications
- related services
- supplementary aids and services
- IEP Status of implementation that indicates that supports and services are being provided and implemented as indicated on the IEP.

The School Level LEA will possess knowledge and understanding of the following:

- Exceptional Student Education Policies and Procedures;
- Procedural safeguards;
- Parental revocation of consent for special education and related services;
- Transfer of rights at age of majority;
- Medicaid;
- Individual Education Plan (IEP);
- Discipline and Manifestation Determination;
- Participation in State and District assessments; and
- John M. McKay Scholarships Program

The Initial IEP meeting is coordinated by the District ESE Staffing Specialist assigned to the School site. The District Staffing Specialist, who is the LEA for the initial IEP meeting, schedules, notifies all IEP Team members including the parents, and gathers all information (e.g., evaluations) to conduct the Initial IEP meeting. The School Level LEA will support the District Staffing Specialist and assist in the Initial IEP Meeting process by ensuring that there is a room to hold the meeting and that technology is available to complete the IEP.

The School's LEA identifies the IEP team members who will participate in an Annual IEP meeting. The school Level LEA will gather data related to the student's pre-academic or academic achievement, functional performance, and progress toward annual IEP goals. The School Level LEA may draft IEPs on the District IEP platform to allow the team to synthesize information and analyze the areas of concern that the student may be demonstrating a need for specially designed instruction. The draft of the IEP can be sent home to the parent for review. However, under no circumstances will the final IEP be completed before the IEP team meeting is held.

An Individual Education Plan (IEP) is a legal written document that is designed to meet the individual needs of the student and is compliant with all requirements of state and federal laws and regulations. It reflects decisions based on the active involvement and collaboration of the IEP Team. The School's IEP Team is composed of the following members:

- All parents/legal guardians, if possible
- The student (if appropriate)
- At least one exceptional student education (ESE) teacher who provides, or may provide, services to the student
- The student's general education teacher(s)
- Someone who understands the evaluations that have been done for the student and can explain them (This may be one of the people already on the attendee list)
- An LEA representative who knows about special education and the school district's resources (This may be the ESE teacher)
- Other people invited by the parent or the School

The IEP provides a clear statement of expected outcomes and the special education services and supports to be provided to the student. The IEP team will review previous and recent evaluations, assessment scores, classroom data, discipline records, and input from teachers, parents, and the student to determine the student's strengths, educational, developmental, and functional performance needs. Students' interests and preferences will be considered to determine postsecondary goals. During the IEP process, the student's specific needs and educational goals such as, the need for a device or service, interventions, accommodations, and modifications will be addressed to help the student make adequate process. The IEP will include a statement of the individualized needs of the student. Additionally, the IEP team will meet periodically to determine if the student's annual goals are being achieved. When a SWD is not making adequate progress, the IEP team will reconvene to review the IEP goals and objectives.

School personnel will be trained in the development, implementation, and quality Individualized Education Plan (IEP) indicators to meet the specific needs of SWDs. As required by IDEA, the IEP team will address the student's present levels of academic achievement and functional performance, annual IEP goals, special education, related services, supplementary aids and/or supports that SWDs are entitled to receive. If the School's program is unable to meet the individual needs of the student, as stipulated in the IEP, the School will work with the Local LEA and convene an IEP meeting to address the needs of the student and appropriate placement.

6.D. Describe the methods the school will use to identify students with disabilities that have not yet been identified.

Students previously identified as eligible for exceptional student education services or protected under Section 504 will be identified through self-report or upon receipt of the student's prior school records.

A student will be entitled to Section 504 accommodations if he or she has a physical or mental impairment that substantially limits one or more major life activities. Any student who is having difficulty in the classroom and for whom there is the suspicion of a disability will be referred to the School Support Team (SST). The School will follow the District established procedures for the SST. Students with obvious physical or health needs that require accommodation do not need to go through the SST process to be referred for Section 504 eligibility determination. The Section 504 Eligibility Determination team consist of the following individuals:

- Parents/legal guardians
- The student
- The School Administrator
- A person who knows the student
- A person who knows of accommodations; and
- General education teacher

Parents will be invited to attend the Section 504 meeting and students will be encouraged to attend and provide input to help the team in making decisions. Parents will also receive the Section 504 Procedural Safeguards. During the evaluation process, the Section 504 Team will review a variety of information from different sources, such as teacher observations, standardized test scores, report cards, and information from parents and medical providers. The Section 504 reevaluation will be reviewed periodically every three years, before any significant change in placement, or, at the request of the parents or school personnel. If additional information is presented to school personnel by the parent or other person(s) responsible for implementing the plan indicating that the student has not demonstrated improvement or progress, the Section 504 team will reconvene to consider modifying the current plan or to determine other options. Section 504 plans and eligibility will be reviewed annually, or sooner, if requested by either District personnel or parent.

The Multi-tiered System of Supports (MTSS) process (described in detail in Section 4.F.) will be implemented with students who are not successful in the general education curriculum or who enroll in the School severely below their grade level peers. Any student who has received Tier 3 interventions for a reasonable amount of time and who continues to be unsuccessful in making progress in the curriculum may be referred for evaluation for Exceptional Student Education (ESE) services. Evaluations will be conducted by qualified evaluators.

After the evaluation is complete, a team will conduct a review that includes the examination of existing data on the student, including evaluations and information provided by the parents/legal guardians and the student, as appropriate; current classroom-based assessments and observations; and teacher and related services providers' observations. Determination of eligibility for ESE services will be consistent with Florida State Board of Education Rules.

6.E. Describe the programs, strategies, and supports the school will provide, including supplemental supports and services and modifications and accommodations to ensure the academic success of students with disabilities whose education needs can be met in a

REGULAR CLASSROOM ENVIRONMENT WITH AT LEAST 80% OF INSTRUCTION OCCURRING IN A CLASS WITH NON-DISABLED PEERS.

The School will follow all federal and state regulations concerning students with disabilities, specifically, the Individuals with Disabilities in Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, sections 1000.05 of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code.

The School will serve students with disabilities whose needs can be met in a regular classroom environment (at least 80% of instruction occurring in a class with non-disabled peers) with the provision of reasonable supplementary supports and services and/or modifications and accommodations. Students with disabilities will be provided with accommodations to basic education and programs of study to ensure students with disabilities the opportunity to meet graduation requirements for a standard diploma. Allowable accommodations to basic courses may include increased or decreased instructional time; varied instructional methodology/strategies; special communications systems used by the teacher or the student; and classroom and district test administration procedures and other evaluation procedures adapted to address the student's disability.

The School will educate SWD with their non-disabled peers to the maximum extent appropriate in the least restrictive environment according to FAPE guidelines. Special classes, resource placement, or instruction of the student outside the general education environment will only occur if the nature and severity of his or her disability is such that an appropriate education in regular classes cannot be achieved satisfactorily as stated in the student's IEP. The least restrictive environment will always be considered during the development of the student's IEP.

The School will provide reasonable accommodations to a student with a physical or mental impairment which substantially limits a major life activity (Section 504 students) to the extent required to enable such students to have an opportunity to be successful in their educational program equal to that of their non-disabled peers.

(1) Student Plans

If a student is identified as eligible for 504 plan accommodations, a plan will be developed. The Section 504 Team will make decisions regarding the necessary accommodations/services to allow for the student's disability. Parents will be consulted and given the opportunity for input regarding the accommodations. The accommodations and/or services will be documented on a Section 504 Plan form and implemented. A 504 plan will include:

- Evaluation results
- Section 504 identification determination
- The student's unmet needs
- Services and/or accommodations based on needs
- Least restrictive environment for services
- Discussion of and plan for possible staff training

The ESE teacher and/or Assistant Principal will serve as a Section 504 Case Manager to coordinate the student's plan.

If a student is identified as eligible for ESE services, an IEP will be developed within thirty (30) days of the determination of eligibility. In the case of a student who is deaf or hard-of-hearing or dual-

sensory impaired, the Model Communication Plan Form will be used to address, the student's language and communication needs, opportunities for direct communications with peers and professional personnel in the student's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the student's language and communication mode. Any materials needed for Section 504 accommodations will be provided to the student at the cost of the school.

The IEP will include:
- What the student knows and is able to do
- What the student needs help with
- How the student's disability affects his or her success in school
- What the student should learn by the end of the school year
- What special education services, supports, accommodations or modifications, and assistive technology the student will receive during the year
- An explanation of any time that will be spent receiving instruction outside the regular class
- How the student's progress will be measured
- The type of diploma the student is working toward
- If the student is age 16 or older, the student's goals for life after high school

The following people are required to attend an IEP meeting:
- Parents/legal guardians
- The student (if appropriate)
- At least one exceptional student education (ESE) teacher who provides, or may provide, services to the student
- The student's general education teacher(s)
- Someone who understands the evaluations that have been done for the student and can explain them (This may be one of the people already on the attendee list)
- A local education agency (LEA) representative who knows about special education and the school district's resources (This may be the ESE teacher)
- Other people invited by the parent or the school

(2) Services
Students will receive instructional support through specially designed instruction and related services as determined through the individual educational plan (IEP) process. The level of service will be aligned to the severity of the student's disability. Teachers will be trained in designing and implementing individualized instruction to address the learning needs of each student. Teachers will instruct students in the unique skills necessary to access and benefit from the core curriculum as documented on the student's IEP. A range of service delivery options will be available to meet the students' needs, e.g., consultation, itinerant instruction, and resource room for one-on-one or small group instruction or other services.

Supplementary aids will be provided by the School. Supplementary aids may include peer tutoring, interpreters, or referral to ESE teacher or other staff member as well as resources such as calculators, audio record, noise reducing headphones, printed pacing guides, testing accommodations as needed (e.g., extend time, read test to student), shared note-taking, and other technology devices and services.

Determining what supplementary aids and services are appropriate for a particular student will be done on an individual basis by the IEP team. The School will contract with appropriate service

providers for services not provided by the School's full-time staff. Examples of these services include speech and language therapy, occupational therapy, and psychological testing services.

The entire instructional team will track student progress on a continuous basis using an internal electronic data management information system (MIS) that includes an online learner profile database for each student. The learner profile will enable instructors to make decisions regarding next steps for each student.

IEP meetings will be held at least annually for each eligible student to determine whether the annual goals for the student have been achieved and to review and revise the IEP as appropriate.

6.F. Describe how the school will work with the sponsor and through the IEP process to determine whether a student with a disability whose education needs require a regular classroom and resource room combination (between 40-80% of instruction occurring with non-disabled peers) can be provided FAPE by the school.

Per IDEA requirements, the School will work with the Sponsor and through the IEP process to ensure SWDs are provided a free appropriate public education in the least restrictive environment (LRE) to the maximum extent possible time with their non-disabled peers. Through the IEP process, the IEP team will determine if a SWD requires a regular classroom and resource room. The IEP team will determine what services a student requires to attain his or her annual goals to make progress in the general curriculum in the least restrictive environment. The School will provide services such as specially designed instruction, related services and supplementary aids. Additionally, the school will provide other models of support such as co-teaching and support facilitation services. Co-teaching is a direct service provided to students with disabilities in the general education classroom. For example, the special education teacher will collaborate with the advisory teacher in the areas of differentiating instruction, monitoring progress, understanding learning processes, and teaching for mastery. Both of the co-teachers will participate in District offered trainings to increase access to the general curriculum, while providing the students access to effective academic and behavior instructional practices through the multi-tiered system of supports by having two teachers in the classroom. Consultation is an external support, which consists of face-to-face conversation between the general education and special education teacher. These services are designed to meet the unique needs of the student. The IEP team will determine the frequency, location, and duration of services and modifications.

6.G. Describe how the school will work with the sponsor and through the IEP process to determine whether a student with a disability whose education needs require a separate classroom (less than 40% of instruction occurring with non-disabled peers) can be provided FAPE by the school.

Through the IEP process, the IEP team may determine that after receiving specially designed instruction, related services and supplementary aids, a SWD requires a separate classroom for less than 40% of instruction occurring with their non-disabled peers.

In determining the appropriate placement, the following factors will be considered:

- the educational benefit to the student from regular education in comparison to the benefits of special education;
- the benefit to the disabled student from interacting with nondisabled students; and

- the degree of disruption of the education of other students resulting in the inability to meet the unique needs of the student with a disability.

The IEP team will determine the frequency, location, and duration of services and modifications. The School shall have designated space for the purposes of individual and small group instruction with a certified ESE teacher; reading instruction; math instruction; career and post-secondary planning; and social/emotional supports. These spaces and the associated instructional and support staff may play a role in the plan to provide FAPE for students who require separate classroom instruction.

6.H. Describe the plans for monitoring and evaluating the progress and success of students with disabilities to ensure the attainment of each student's goals as set forth in the IEP or 504 plan, including plans for promoting graduation for students with disabilities (high schools only).

The entire instructional team will track student progress on a continuous basis using a specially designed internal electronic data management information system (MIS) that includes a learner profile for each student. The learner profile will collect, store, and analyze student test data as well as document tiered academic interventions and other services provided to the student.

The School will monitor and evaluate the progress and success of SWDs on a yearly basis to ensure the attainment of each student's goals as set forth in the IEP or 504 plan. The IEP team will also measure the progress that SWDs are making toward their annual goals on a quarterly basis. The School will ensure that parents are notified of the progress their child has made toward their annual goals quarterly and concurrent with the issuance of report cards. The goal status reports will reference the data collected along with a description of the student's progress. A copy of the goal status reports will be placed in the students' cumulative record. The IEP team will compare the progress reports with the Present Levels of Educational Performance (PLEP) described at the beginning of the school year to identify if the student is making progress. If the student is not making adequate progress, the IEP team will reconvene to address the IEP goals and to ensure the student is receiving the amount of services and accommodations according to the IEP. Based on the progress made towards their annual goals, the IEP team will determine whether additional services, supports or modifications to instructional practices are necessary to meet the specific needs of the students.

6.I. Identify the staffing plan, based on the above projection, for the school's special education program, including the number and qualifications of staff.

The School will operate as a double session school and offer at least two (2) daily instructional sessions. Students will choose to attend one of the sessions (or more as space permits).

The initial ESE staffing for the school will be one (1) ESE teacher. As enrollment increases and need arises, one or more part-time or additional full-time ESE teachers will be added to ensure that students' needs are met. In addition, the staff will be supplemented by contracted ESE providers as needed based on the specific support needs defined by student IEPs. All subject area teachers supporting ESE students will hold Florida Professional Teaching credentials and the additional specific qualifications required of the ESE teacher(s) can be found in the ESE Teacher Job Description (Attachment Q). In addition to the ESE teacher(s) and subject area teachers, ESE students will be

supported by a plethora of school support staff to include but not limited to a Family Support Specialist (i.e., social worker), Career Coach, and Reading Interventionist.

The ESE teacher(s) will ensure the implementation of all IEPs, EPs, and Section 504 Plans. The needs of the students with disabilities population will determine the responsibility of the ESE teacher. The ESE teacher will provide services within the General Education setting through consultation, collaboration, and/or support facilitation, as well as maintain all ESE and Section 504 Plan records in compliance. The ESE teacher(s) may co-teach a class in Reading/English Language Arts and/or Math and meet the needs of those students as well as to consult with the General Education teachers on a weekly or monthly basis. The purpose is to ensure that SWD students on consultation are making progress and accessing the curriculum.

The ESE teacher(s) may also provide instruction to ESE students in a separate or resource class, if the IEP determines there is a need for this service. The ESE office is equipped to function as a separate room to deliver instruction. If the need occurs, the school will hire one or more additional ESE teacher(s) to meet the needs of the students with disabilities population.

The School will also ensure compliance with s. 1012.585, F.S.: Beginning July 1, 2014, an applicant for renewal of a professional certificate must earn at least one (1) college credit or equivalent in-service points in teaching students with disabilities.

6.J. Describe how the school's overall effectiveness in serving exceptional education students will be evaluated.

The Director of Compliance from the Educational Services Provider (ESP) will play a lead role in monitoring the School's compliance with all district, state, and federal regulations to ensure that all ESE students are receiving appropriate services and all IEPs are current. The ESP will work with the School to conduct internal audits of student records at least twice per year. Members of the Compliance and Professional Development Departments for the ESP will provide ongoing training and professional development to all teachers and school leaders to ensure that quality IEPs are written and effective services are provided to ESE students.

The School's effectiveness in serving ESE students will be evaluated based on each student's success in meeting the goals on his/her IEP, and on the same criteria used to evaluate the School's success in serving all students: grade promotion, credit accumulation, state assessment results, graduation, and successful postsecondary transition. The results on these criteria for students with disabilities will be disaggregated from the general population and reviewed to determine the School's efficacy in serving this population.

6.K. Describe how the school will serve gifted and talented students.

(1) Gifted Services

For any student attending the School who has qualified for gifted services, the School will provide the appropriate services required by that student as delineated on the student's Education Plan (EP) and in the district's policies. *Florida's Frameworks for K-12 Gifted Learners*[55] guides curricular modifications

[55] Florida Department of Education, Working on Gifted Issues Challenge Grant, and Florida Association for the Gifted (FLAG). (2007). *Florida's Frameworks for K-12 Gifted Learners.*
Available online at http://etc.usf.edu/flstandards/sss/frameworks.pdf

of Florida's Next Generation Sunshine State Standards to create an appropriate level of challenge for gifted students.

Gifted students will be provided with programs that provide the maximum development of each student's academic talents. Gifted students will have access to differentiated services and educational opportunities that are challenging, accelerated, enriched, and innovative. Additionally, the School will provide gifted and talented students with differentiated pedagogy that promote experiences that replace, supplement, or extend learning opportunities. The School will facilitate student access to appropriate learning opportunities in advanced programs through differentiated instruction. Gifted students will increase achievement through the acquisition of enhanced thinking and problem-solving skills. The School will promote the acceleration and enrichment of gifted and talented students through the use of investigative and shared inquiry skills, special interests, and development of academic talents.

Curriculum components will include: remediation, enrichment, acceleration, and pacing guides. Additionally, honors courses will be provided to promote critical thinking skills. Advanced Placement (AP) programs will be offered to provide challenging, college-level course work for high school students. Qualified students will be allowed to enroll in Dual Enrollment in college courses through local and state colleges and universities while still in high school. Credit earned through Dual Enrollment will be used towards fulfillment of a high school graduation requirement and can also be used as college credit.

Curricular modifications for gifted learners will be designed to address the need for more complex tasks, exposure to a broadened scope of information, an emphasis on multiple perspectives, more rapid pace of instruction, a greater focus on higher order thinking skills, and more sophisticated products/performances. In the event that one or more gifted students enroll at the School, a certified teacher with a gifted endorsement will be employed to meet the specialized and individualized needs of gifted students.

(2) Effectiveness in Serving Students who are Gifted

The School's effectiveness serving students who are gifted will be evaluated based on each student's success in meeting the goals on his/her Education Plan (EP), grade promotion, credit accumulation, graduation, and successful postsecondary transition. If a student does not exhibit mastery of defined EP goals, the Gifted Teacher will work with the classroom teacher to provide additional accommodations to the curriculum and/or pace of delivery within the general learning environment. All classroom teachers will be provided with the appropriate information included in the student's EP, as well as the resources needed to address the identified goals.

7. ENGLISH LANGUAGE LEARNERS

7.A. DESCRIBE HOW THE SCHOOL WILL MEET THE NEEDS OF ENGLISH LANGUAGE LEARNERS AS REQUIRED BY STATE AND FEDERAL LAW, INCLUDING THE PROCEDURES THAT WILL BE UTILIZED FOR IDENTIFYING SUCH STUDENTS, ENSURING THAT THEY HAVE EQUITABLE ACCESS TO THE SCHOOL'S PROGRAMMING AND COMMUNICATING WITH THEIR FAMILIES.

The purpose of the School's English for Speakers of Other Languages (ESOL) program will be to ensure that English Language Learners (ELLs) (including immigrant youth) attain English proficiency and meet the same student academic achievement standards that all students are expected to meet.

The School will abide by the requirements of the *LULAC et al. vs. State Board of Education Consent Decree* aka the FL Meta Consent Decree (1990). The School shall also subscribe to the guidelines set forth in the U.S. Department of Education's Office for Civil Rights publication, *"The Provision of an Equal Education Opportunity to Limited English Proficient Students" (1992).* Additionally, the School will comply with the *District Plan for English for Speakers of Other Languages (ESOL)* and all subsequent state mandates as indicated in (Rules 6A-6.0900 to 6A-6.0909) pertaining to the following: Identification and Assessment; Equal Access to Appropriate Programming; Equal Access to Other Programs; Personnel; Monitoring; and Outcome Measures

The School will provide ELLs access to programs and services which are equal and comparable in amount, scope, sequence and quality to those provided to English proficient students and which are understandable to the student given his or her level of English language proficiency.

(1) Procedures for Identifying ELL Students

(a) ESOL Program Entry Criteria/Assessments

During the school enrollment process, all ELL or immigrant students will be required to have a Date Entered United States Schools (DEUSS date). The DEUSS date will be captured on the new student enrollment form.

The term immigrant children and youths refer to individuals who:

- are ages 3 through 21; and
- were not born in any State, the District of Columbia or Puerto Rico; and
- have not been attending one or more schools in any one or more States for more than 3 full academic years

The School will work closely with the School District to determine if enrolling students have already completed the HLS while enrolled in another school in the District. All students entering Manatee Public Schools for the first time will be surveyed with the Home Language Survey (HLS) upon enrolling at the School. The HLS is the first step in the identification of a potential ELL student. According to Rule 6A-6.0902, the survey shall include the following three questions:

1. Is a language other than English used in the home?
2. Does the student have a first language other than English?
3. Does the student most frequently speak a language other than English?

The School will assign as an ESOL Contact a teacher with an ESOL Endorsement or ESOL Certification who will be fully trained in all State and Local ESOL procedures and will play the lead role in ensuring compliance and effective ESOL programming for all eligible students. The ESOL contact will administer the Ballard & Tighe's IDEA Language Proficiency Test (IPT) Aural/Oral within the first 20 school days of enrollment to students with a "yes" response to any of the (3) Home Language Survey (HLS) questions. If question two or three on the HLS are answered "Yes", the student will be automatically placed in the ESOL Program with an ESOL endorsed or ESOL certified teacher. If the student's parent/guardian answers "no" to all three (3) questions from the HLS, the student is not considered a potential ELL student and will not be assessed for English language proficiency.

If the IPT Aural/Oral identifies tested student as LES or NES, no further assessment is required and the ESOL Contact will create the ELL monitoring folder to include the ESOL plan, diagnostic test report, initial eligibility letter and programmatic assessment. The ESOL Contact will send home the eligibility letter and notify the classroom teachers of any new students enrolled at the school.

If the IPT Aural/Oral identifies the student as a Fluent English Speaker (FES), the ESOL Contact will administer the reading and writing portion of the Ballard & Tighe's IDEA IPT Reading and Writing (IRW) within 20 days of the student's initial enrollment. If proficient in Reading and Writing, the student is reclassified as a non-ELL and no further action is required. If non-proficient, student's classification remains active ESOL (LY) and the School will conduct a Programmatic Assessment to make an appropriate placement. The entire assessment process will not exceed thirty (30) school days from initial enrollment.

For in-county transfer students, the School's ESOL Contact will verify if the student was previously identified as an ELL in a Manatee County public school. If the student was previously placed in the ESOL program, he/she will continue to receive ELL services at the School. The ESOL Contact will make sure that all ELL records have been requested, received, updated and are in compliance. If there is no ELL test data in the district system, the ESOL Contact will contact the previous school to confirm that the student was not tested at that school and will immediately set up assessments if it is determined that they are in fact needed. For students enrolling from another Florida county who indicate a "yes" to any of the three HLS questions, the ESOL Contact will take the necessary steps to get ESOL records from the previous county.

ELL students who score English proficient on the IPT Aural/Oral Test will be administered the Reading and Writing portion of the test. A student who scores at 32nd percentile or below in either Reading or Writing in the IPT/IRW test will be eligible to receive services from the ESOL Program. A student who scores at the 33rd percentile or above in both Reading and Writing in the IPT/IRW test is determined not to be eligible to receive services from the ESOL Program.

(b) Programmatic Assessment

Students who initially meet eligibility for the ESOL Program will participate in a Programmatic Assessment lead by the ESOL Contact in collaboration with parents and then reviewed by the ELL Committee [see section (c) below for a description of the ELL Committee and its members]. The Programmatic Assessment collects previous academic experiences and academic records. The School will place students who have educational records from their previous school system in a grade level and courses based on their academic records and in accordance with the District Student Progression Plan. The student will be enrolled in courses that are commensurate to his/her skills and achievement level for that subject area regardless of their level of English proficiency. Students who do not have documentation of previous school experiences will be placed in a grade level based on their chronological age. The School will work in collaboration with the District's ESOL office when making placement decision to ensure students are placed according to District guidelines.

In making placement decisions, the ELL Committee will consider the following factors: 1) extent and nature of prior educational and social experiences and student interview; 2) written recommendation and observation by current and previous instructional and supportive services staff; 3) level of mastery of basic competencies or skills in English and home language according to appropriate local, state, and national criterion-referenced standards; 4) grades from the current or previous years; 5) the student's age; and/or 6) other test results.

Placement and eligibility decisions can only be made by the ELL Committee. All decisions will be documented in writing.

Parent participation and written consent on the most appropriate placement for the student will be documented as part of the process for ELL Committee meetings. Documentation of all Committee decisions made will be kept in the Student ELL Plan and placed in the student's cumulative folder. Parents will be provided with a copy of all forms signed by those members present at the meeting and completed in a language parents understand, as feasible.

Students with limited or no prior school experience will be assessed and placement will be made based on the student's age appropriateness (regardless of English proficiency), educational background, and parent interviews. The School will follow the State Uniform Transfer of Credit guidelines when determining credit to be awarded to students transferring from other countries as indicated in the Student Progression Plan.

(c) ELL Committee

The School will have an ELL Committee composed of the following: administrator or designee, teacher(s) with ESOL certification or endorsement, home language teacher (if any), classroom/subject area teacher, ESOL Contact, and Family Support Specialist. In addition, other educational personnel such as a school psychologist may participate if/when the Committee determines appropriate. The parent(s)/guardian(s) will be invited to attend the ELL Committee meetings for their student. The School will keep a record of parent/guardian meeting notifications.

The ELL Committee will be convened for the purpose of analyzing all available academic information and determining the most appropriate educational placement. The ELL Committee shall use the assessment instruments described above as well as any other academic information to ensure that the student is placed in the instructional program or combination of instructional programs that best meet his/her academic needs. The documentation of the assessments used and the justification for such action will be maintained in the student's individual ELL plan. If the ELL Committee's decision is to place the student in the ESOL program, then the basis of entry will be documented in the Individual Student ELL Plan.

The IEP Committee serves as the ELL Committee for ELL students with disabilities. IEP committee members will include those required for an ELL Committee.

(d) ELL Student Plan

When the new student enrollment process is completed, the School Data Specialist will enter all demographic and assessment information as required in the District information system. Once this process is complete, the ESOL Contact, in collaboration with the ELL Committee, will develop and/or update the student ELL plan and any other pertinent information.

The Student ELL Plan will be incorporated in the Individual Educational Plan (IEP) of an ELL Students with Disabilities (SWD). The IEP will indicate all programs, services, and supports that are provided to an ELL SWD. Once completed or updated, the student's ELL Plan will be printed and placed in the ESOL Monitoring folder that is part of the permanent student cumulative record folder. The ESOL Contact will be responsible for developing and updating all Student ELL Plans at the beginning of each school year.

The ELL Plan includes the following elements:
- Student's name
- Date ELL Plan is completed
- Schedule with instruction by program
- Amount of instruction time
- Date student is identified
- Assessment data used to classify or reclassify the student
- Date of exit and assessment data used to exit the student from ESOL.

Student plans are developed with input from previous and current teachers through interviews to gain information on socialization and participation in the general education classroom. The student's schedule will be attached to each ELL plan. A copy of the ELL plan will be given to the data entry person for entry in the student information system. Any change in a student's schedule will require a new plan.

Additionally, as part of the ELL Plan, the following will be included in the ESOL Monitoring Folder:
- Home Language Survey
- ESOL tests
- Parent Notification letter
- ELL Committee Notification letter(s)
- Secondary Student Schedules

ELL Plans will be updated whenever an ELL committee meeting is held to include annually at the beginning of every school year to reflect current services; on the anniversary date of the student's entry into the ESOL program; and any time there is a change in the student's educational plan.

(e) ACCESS for ELLs 2.0 Assessment
The School will use the Access for ELLs 2.0 assessment to assess aural/oral proficiency. Per Rule 6A-1.09432, ACCESS for ELLs 2.0 is a secure large-scale English language proficiency assessment administered to Kindergarten through 12th grade students who have been identified as ELLs. It is administered annually to monitor students' progress in acquiring academic English. The assessment measures proficiency in all 4 language domains (Listening, Speaking, Reading, and Writing). ELLs can be at any one of six levels of proficiency.

(2) Equitable Access to School Programming
The ELL Committee will use the ELL Plan to document the instruction, supports and specific ESOL instructional strategies determined most appropriate for each student. ELL students enrolled in the School will be entitled to programming that is appropriate to their level of English proficiency, their level of academic achievement, and any special needs they may have.

ELL students will have equal access to appropriate English language instruction in the core subject areas that is: (1) understandable to their given level of English proficiency; and (2) equal and comparable in amount, scope, sequence, and quality to that which is provided to English proficient (non-ELL) students. General curricula and materials will be the same as those used with non-ELL students. The schedules of ELL students will be comparable to those of non-ELL students containing the same subject area classes and are equal in scope, sequence and content.

The School's instructional programming, practices and strategies are described in Section 7.B.

(3) Parent Notification

Parents will be notified of the placement of their child in the ESOL program via a translated Parent Notification Letter. All communication with parents will be in the parents' native language to the extent feasible.

The letter will be dated to correspond with the entry date in the ESOL program. The letter will be sent home to the parents/guardian and a copy of the letter will be kept in the student's ESOL Monitoring folder. As long as the student is eligible to receive ESOL services, a new Parent Notification Letter will be completed at the beginning of each school year and whenever there is a programmatic change. The School will keep copies of each of the letters that have been sent home during the time the student receives ESOL services.

Parents will also be notified of assessments and available accommodations, results of assessments, program delivery model options, retention/remediation, exit from the ESOL program, reclassification (if needed), and invitations to participate in ELL Committee meetings. Invitations for meetings shall be provided with sufficient time for the parent to plan for participation or propose an alternative date/time to ensure their ability to participate.

School based information that is provided to all parents will also be provided to parents of ELL students in the parents' native language to the extent feasible. This includes, but is not limited to, free/reduced price lunch information, state assessments and results, invitations to participate in special programs, parental choice options, registration forms and requirements, disciplinary forms, information about opportunities for parent involvement, etc.

7.B. Describe specific instructional programs, practices, and strategies the school will employ to ensure academic success and equitable access to the core academic program for these students, including those below, at, or above grade level.

(1) Instructional Programs

Students of all abilities, as well as those who are members of special populations, will be welcomed at the School and will be provided with a rigorous and relevant education that incorporates the accommodations specified on their individual plans to ensure academic success and access to our core academic program. The School will use one of the following instructional model(s) based on the individual needs of each ELL student enrolled and requiring participation in an ESOL program:

- Sheltered - English: Sheltered instruction refers to a model where only students who are learning English are grouped and receive specialized English language instruction from either the ESOL teacher or a Language Arts Teacher who is also ESOL certified or endorsed. The teacher provides uninterrupted ESOL/Reading and/or Writing instruction only for students identified as ELL at a location designated specifically and exclusively for ELL instruction.

- Mainstream/Inclusion model – English Language Arts (ELA): In this model ELL students are grouped together with students who are fluent in English in their ELA course(s). The classroom teacher adapts lessons for the student using specific strategies by providing specialized English

language instruction. The language of instruction is English and native language assistance is provided as needed. A teacher with ESOL certification or endorsement comes into the classroom ("push-in") to provide specialized English language instruction.

- Mainstream/Inclusion model – Core/Basic: In this model ELL students are grouped together with students who are fluent in English in core subject area classrooms (not ELA). The language of instruction is English and native language assistance is provided as needed. A teacher with ESOL certification or endorsement comes into the classroom ("push-in") to provide specialized English language instruction and/or an ESOL certified/endorsed classroom teacher adapts instruction to address the language proficiency needs of ELL students. The academic content is mathematics, science, social studies, and computer literacy.

(2) Instructional Practices- ESOL Accommodations and Supports

The School's ESOL program is designed to address English language acquisition and development needs while ensuring that students make adequate progress toward meeting or exceeding the achievement of Florida standards and the achievement of a standard high school diploma. Based on a student's English language proficiency, classroom teachers must ensure and document that ESOL accommodation, strategies, and supports are in use in their classroom.

Accommodations include changes that can be made in the way instruction is provided to the ELL student and how the student demonstrates acceptable performance. Accommodations do not alter in any significant way assignments or assessment measures utilized by classroom teachers rather they allow an ELL to effectively access course content. The School's core instructional software includes extensive scaffolding for ELL students. Controlled vocabulary and syntax, chunked text, and short page lengths with limited scrolling facilitate reading comprehension. Additionally, students will be able to listen to instruction through a text-to-audio feature in English as well as 20 additional language translations. This accommodation is available in all courses offered through the Edmentum curriculum. The curriculum also uses mixed media to allow students the ability to observe and study multiple representations of concepts and build background knowledge.

In addition to the accommodations built into the online curriculum, Teachers will include evidence of ESOL practices in their lesson plans for direct instruction. Teachers of ELL students will supplement their instruction with a wide variety of materials designed to help students acquire language proficiency and academic content. ESOL instructional practices will include using frequent visuals and graphic organizers, providing cooperative learning activities, simplifying the language of instruction without changing the content, and providing alternate assessment as necessary. Instructional practices are individualized to suit the English language developmental level of the student and ensure that the student understands the instruction.

School leadership will be responsible for monitoring the delivery of comprehensive ESOL instructional practices in the school. The use and monitoring of ESOL instructional practices will occur daily. The School's ESOL Contact will progress monitor each student as well as make sure that proper accommodations are being provided in the regular classroom setting.

ESOL supports refer to sensory, graphic, and interactive resources embedded in instruction and assessment provided to assist students in constructing meaning from the language and content of classroom experiences. Sensory supports help students to process information other than via written or oral language. Graphic supports provide pictorial representations used to organize or summarize

information, while interactive supports promote comprehension and expose students to a variety of communication styles.

(3) Instructional Strategies
The School will implement instructional strategies that establish an action plan for achieving ESOL program and individual student goals.

(a) Individualized Program
The School's academic program is highly personalized. This individual approach begins with enrollment when a baseline academic assessment will be administered to all students using the General Assessment of Instructional Needs (GAIN) or other approved assessment. This will allow staff at the School to immediately begin to identify each individual student's strengths and needs in addition to their unique language needs. An Individual Success Plan (ISP) will be developed for each student laying out the courses and exams needed for middle school promotion/high school graduation. New students' transcripts will be obtained from the student's last school attended and reviewed by teachers and/or administrators for input into each ISP. This information is also projected to each student in their individual MY SUCCESS® Dashboard which serves as a daily road map allowing students to see their ISP progress in real time.

In the interest of ensuring an effective match between student learning needs and styles, and available curriculum, assessment, and software, the School will continuously review the assessments used by the School and the research and development of new options that may become available. The Board and school administrators will remain open to selecting and replacing this planned assessment should more appropriate options become apparent in the future.

The School's educational model will offer an individualized program for each student to progress at an appropriate pace based on his/her individual learning needs. Using a combination of direct instruction, instructional software aligned to the Florida Standards, and supplemental materials, the curriculum will have the breadth and depth to meet the needs of the student population and provide students with the required courses to succeed on the , state assessments and comply with state graduation requirements to earn a high school diploma.

In order to meet the unique needs of the ELLs, the School will enroll students in the following ESOL courses:

- Developmental Language Arts course - This course is recommended for ELL students who are non-English speaking and/or at the beginning or intermediate level of English language proficiency. The delivery of instruction of this course focuses on language development by incorporating instruction on grade level reading benchmarks. This course will be delivered by instructional personnel who possess a literacy micro-credential or are certified or endorsed in reading.
- Intensive Reading course - This course is recommended for ELL students who are at the advanced level of English language proficiency but not yet proficient as determined by their performance on state assessments. The delivery of instruction in this course focuses on building reading and literacy skills using ESOL instructional strategies. This course will be delivered by instructional personnel who possess a literacy micro-credential or are certified or endorsed in reading.

Additionally, multiple course pathways will make it possible to provide the right level of instruction to meet the unique needs of each student. Foundations courses will provide structured remediation

focused on developing reading, writing, and math skills and strategies. Literacy scaffolding supports are embedded throughout all Edmentum courses. Other levels of courseware include Core, Honors, and Advanced Placement. Core courses are standards-based general studies courses that meet the needs of a range of students as they endeavor to master rigorous content and earn credits toward high school graduation. While Core courses assume readiness for grade-level academic challenges, they also include targeted scaffolding for students who benefit from additional learning support. Each semester course offers 70–90 hours of interactive direct instruction, guided practice, and integrated formative, summative, and diagnostic assessment.

(b) Multi-tiered System of Support (MTSS)

English Language Learners (ELLs), in the ESOL program for more than two years who have "been diagnosed" with deficiencies in reading, writing and/or math will be referred to the MTSS program. The School will use its individualized program and (MTSS) to match quality interventions to address the ELL student needs. The MTSS addresses the academic and behavioral needs of all students through a multi-tiered continuum of services that provide: (1) high-quality instruction and scientific, researched-based, three-tiered intervention strategies aligned with individual student need; (2) frequent monitoring of student progress to make results-based academic or behavioral decisions; (3) data-based school improvement; and (4) the application of student response data to important educational decisions (such as those regarding course placement, intervention, curriculum and instructional goals, and instructional methodologies).

Three tiers define the interventions for the MTSS process. These tiers include increasing levels of intervention intensity.

- Tier 1 Intervention: Instruction for all students, prevention, and differentiation
- Tier 2 Interventions: Targeted interventions for students at-risk
- Tier 3 Interventions: Planned/Intense interventions for students with intensive needs

The School's MTSS team members will include but are not limited to the following: 1) classroom/ESOL teacher, 2) administrator, 3) reading teacher, 4) special education teacher, 5) career coach, and 6) family support specialist. The team will be responsible for ensuring that interventions and instructional resources are matched to students' needs. When addressing an ELL student, the ESOL Contact will convene an ELL Committee Meeting for a performance review, prior to starting the MTSS process: The team will use the following process:

- Define the problem
- Analyze the problem using available data
- Develop and implement a plan that includes one or more performance goals for the student
- Measure the student's response to the intervention by using data from progress monitoring
- Continue or adjust the intervention based on the student's response and progress

The three tiers of MTSS are described in detail in Section 4. F. This description applies to mainstream as well as special population student (i.e., ELL students) interventions and instructional strategy for ensuring equitable access to the School's core academic programming for students performing below grade level.

7.C. Provide plans for monitoring and evaluating the progress and success of ELL students, including exiting students from ELL services.

(1) Monitoring and Evaluating Progress and Success
The entire instructional team will track student progress on a continuous basis using a specially designed internal electronic data management information system (MIS) that includes a learner profile for each student. The learner profile will collect, store, and analyze student test data as well as document tiered academic interventions and other services provided to the student. The test data will populate into the student's ISP to show which state assessments the student is required to pass to graduate per state regulations. The learner profile will identify the student's desired post-secondary pathway and profession, along with links to the Student Services page showing interventions provided to each student by faculty and outside service providers. The learner profile will also enable faculty and administrators to use student performance and progress data to inform customized learning plans and interventions resulting in students graduating prepared for post-secondary success.

An ELL student will not fail a course and/or be retained based only on their limited English language proficiency. The ELL Committee will be convened if an ELL student is at risk of course failure and/or grade retention. In consideration of the student's English proficiency level, the MTSS shall be implemented and monitored to ensure accommodations, supports and ESOL strategies that ensure instructional success. When at risk of course failure or grade retention, the advisory teacher will provide evidence of all accommodations and supports provided through the curriculum, supplemental materials, assessments, and differentiated direct instruction throughout the school year. In addition, parents and/or guardians and the ELL Committee will be notified of lack of adequate performance to ensure effective intervention prior to course failure and/or retention considerations.

Students who are exited from ESOL services and remain in the School will be monitored for two (2) years from their exit date in order to ensure success in the mainstream classroom/programming. The School's principal will establish a school procedure to ensure that all former ELL students will be monitored by the Reading/Language Arts teacher. The ESOL Contact will complete the Follow-Up Progress Review form in Project ELL and send a copy to the parents. Multiple sources of data and evidence will be considered to determine progress. These data sources will include, but are not limited to, progress reports, report cards, test scores, classroom performance, and observations.

The 2-year monitoring will take place at the end of each semester after exiting the ESOL program until all four post program reviews are completed. Documentation of ESOL-exited students will occur at the end of each student's first semester after exit, second semester, third semester, and last progress report of the school year in April.

If it is determined that a student is not making satisfactory progress, an ELL Committee meeting with parental participation will take place. The ELL Committee will review all pertinent information and recommend an appropriate educational plan. The committee may recommend initiating an Academic Improvement Plan (AIP), adjusting the student's schedule, referral for counseling or other student services, or reclassification of the student as ELL.

(2) Extension of Programming
In accordance with State Rule: 6 A-6.09022, ELLs must have an annual re-evaluation for extension of program services after a 3-year period of ESOL Services. The ELL Committee will be convened no earlier than thirty (30) school days prior to the third anniversary of the student's initial enrollment date in a school in the United States, and no later than the anniversary date, except if the student's anniversary date falls within the first two (2) weeks of any school year, the ELL committee may

convene no later than October 1st. This process shall be completed annually thereafter. The re-evaluation consists of the following:

- The yearly Spring Assessment: ACCESS for ELLs 2.0 will be used for re-evaluation if the student's DEUSS date falls from August through October 1st unless the student is missing the ACCESS 2.0 composite score.
- If the student's DEUSS date falls between October 2nd and the end of the school year, the School will use the Ballard & Tighe's IDEA IPT battery prior to holding the ELL Committee meeting for reevaluation. It must be given within 30 school days of the DEUSS date but not past the DEUSS date.
- The ELL Committee meeting will be scheduled with a minimum of 3 school–based staff present at the meeting.
- ESOL Contact will complete the parent Notification of ELL Committee Meeting form in Project ELL, print and send home. The Parent must be invited to the meeting; however, they do not need to be present to hold the ELL Committee meeting.
- Conduct ELL Committee meeting, print committee report, gather signatures of individuals present at the meeting, and upload signatures page in Project ELL.

The ELL Committee will review the student's academic record holistically by considering the assessment results and the following factors to determine whether the student is English language proficient:

a) Extent and nature of prior educational or academic experience, social experience, and a student interview
b) Written recommendation and observation by current and previous instructional and support services staff
c) Level of mastery of basic competencies or skills in English and/or heritage language according to state or national criterion-referenced standards
d) Grades from the current or previous years
e) Test results other than IPT, FSA ELA Reading or ACCESS 2.0

ESOL services will be extended if the majority of the ELL Committee determines that the student is not English language proficient. If a majority of the ELL Committee determines that the student is English language proficient, the student will be exited from the ESOL program. The ELL Committee's decision on whether to extend or not to extend ESOL services will be documented and maintained in the student's file.

(3) <u>Exit Criteria and Procedures</u>

The School's ELL Committee will follow state/district procedures when exiting students from the ESOL program. An ELL student may be recommended for exit testing by parents/guardians, or instructional personnel directly involved with the student's education at any time following initial classification. ELL students will be eligible for exit from the ESOL program only when they are determined to be English proficient in listening, speaking, reading, and writing. Students in grades 9-12 eligible for exit from the ESOL program must score proficient on both listening/speaking and reading/writing criteria. The ELL Committee will review FAST ELA and FSA ELA and ACCESS for ELLs and/or IPT test results to determine continued program eligibility.

If a student's performance meets proficiency on the Spring ACCESS for ELLs and FAST ELA and FSA ELA, the student will exit the program and be monitored for two (2) years. If the student is proficient in ACCESS for ELLs FAST ELA, or FSA ELA, the ELL Committee will review instructional grades and other available data to demonstrate grade level reading proficiency and determine if the student should exit or remain in the ESOL program. Additionally, if a student's ACCESS composite and ACCESS reading score are at the proficient level, and the student scores proficient on the FAST ELA or FSA, the student will exit the program and be monitored for two (2) years. If a student's ACCESS composite and ACCESS reading score are at the proficient level, or the student scores at proficient on the FAST ELA or FSA, the ELL committee will convene to determine if the student should exit or remain in the ESOL program.

Parents/guardians will be invited to participate in the ELL Committee meeting to determine whether the student continues to be classified as ELL or is exited. The parents'/guardians' wishes will always be taken into consideration. The findings of the committee and their recommendations will be kept on file.

The following process shall be followed by the ESOL Contact and the School's ELL Committee when exiting an eligible student from ESOL programming:

- Identify exit eligibility based on District ELL Plan criteria and the full evaluation and determination by the ELL Committee.
- Update the exit information on the individual student ELL folder.
- Complete the appropriate section of the ELL folder with the assessment data used to determine English proficiency, date and signature. Provides the school data specialist with required exit data. The required information is entered in the State Database and District MIS as required.
- Notify the parents during the ELL Committee meeting and in writing following the meeting in their native language.
- Monitor the student for two (2) years from the exit date to ensure success in the general education classroom.

Re-entry into ESOL Program

The ELL Committee will convene for exited ELL students who have shown a decline of 1.0 in their overall grade point average following their exit from ESOL programming. The ELL Committee may also convene for students who have shown a decline in three or more elements (other than GPA) as indicated on the LEP Post-Program Review. Other information such as standardized test scores, teacher observations, counselor referrals, and parent requests may also assist the School in determining the student's progress and the need for convening the ELL Committee. The committee will review all pertinent data and recommend an appropriate educational plan. The ELL Committee may recommend initiating a Progress Monitoring Plan (PMP) through the RtI process, referring for counseling or other student services, or reclassifying the student as ELL.

The basis and nature of the recommendations will be made in writing and maintained in the student's permanent cumulative record folder. If the ELL Committee determines that the student continues to have language needs, the student will be reclassified as an ELL and reassigned into the ESOL program. The ELL Committee must document at least two (2) of the five (5) criteria established by the state:

a. Consideration of extent and nature of prior educational and social experiences and a student interview.

b. Written recommendation and observation by current and/or previous instructional and support staff and administrators,
c. Evidence of non-mastery of basic competencies in English skills referenced standards,
d. Grades from current or previous years,
e. Other assessments and test results (not to include IPT, ACCESS 2.0 or FSA ELA Reading)

The data in Project ELL will be updated to reflect the reclassification information. An interim IEP Committee may be convened at any time during the two-year monitoring period to discuss the progress of an ESOL student with a disability. The monitoring period will be documented on the IEP.

7.D. Describe the staffing plan for the school's English Language Learner program, including the number of and proposed qualifications of staff.

The School will operate as a double session school and offer at least two (2) daily instructional sessions for curriculum instruction, college and career preparation, and personal/social needs counseling. Students will choose to attend one of the sessions (or more as space permits). Thus, staffing levels are based on serving approximately 250 students in each of the sessions at full enrollment. The School anticipates serving a population of approximately 12% ELL students. This projection is based on applying a 1-2% increase over the percentage of ELL students currently being served in Manatee County schools within the target search area outlined in 2.D.:

High Schools	ELL %
Bayshore	16%
Braden River	5%
Lakewood Ranch	2%
Manatee	8%
Palmetto	7%
Southeast	20%
Average High School Percentage	**10%**

Middle Schools	ELL %
Braden River	9%
Buffalo Creek	3%
Carlos Haile	7%
Dr. Mona Jain	4%
Electa Lee	15%
Lincoln	15%
Martha King	7%
W.D. Sugg	29%
Average Middle School Percentage	**11%**

The School teaching staff will include at least one teacher in each of the sessions who has ESOL certification or endorsement and is also certified in a core subject area. The purposes of this position will be to provide staff support, with emphasis on programmatic assessment; scheduling; leading ELL committee meetings; monitoring former ELL students; and providing bilingual communication support to teachers, staff, and students. The employee in this position will interpret and translate classroom assignments, parent and student communications, and other school activities to support comprehension and transition for ELL students. This identified ESOL Contact will have a bachelor's degree in education, curriculum and instruction, or related field from an accredited college or university; teacher's certification with knowledge of the principles of secondary education, curriculum and instructional theory, use of data to drive program improvement; and the ability to communicate effectively both orally and in writing.

As stipulated in the Florida Consent Decree (META agreement), the School will also hire a bilingual Instructional Assistant when a minimum of 15 active students of the same home language are enrolled at the school.

Teachers who are required to obtain ESOL endorsements, or certification (Language Arts and Reading Teachers) will be notified by the school administrator of the requirements. In addition, teachers will be provided with training and professional development opportunities through the School District. It is the teacher's responsibility to complete each component within the timelines established by the Florida Consent Decree. Participants may enroll in courses offered during the first, second, and summer semesters.

All the School's staff members specifically the Principal, Assistant Principal, Reading, Language Arts and core content area teachers will be legally required to participate in training when they have an English Language Learner (ELL) student assigned to their class. Professional development will be available through local colleges and universities or through the School District's in-service training activities.

8. SCHOOL CULTURE AND DISCIPLINE

8.A. DESCRIBE THE CULTURE OR ETHOS OF THE PROPOSED SCHOOL. EXPLAIN HOW IT WILL PROMOTE A POSITIVE ACADEMIC ENVIRONMENT AND REINFORCE STUDENT INTELLECTUAL AND SOCIAL DEVELOPMENT.

It is the philosophy of the School to create a culture of caring, respect and results. A well-defined, universally communicated, and consistently enforced discipline code will ensure that students understand what is expected of them, the consequences for noncompliance, and the supports in place to help them succeed.

To promote a culture of caring, respect and results, students will be recognized regularly for meeting expectations and demonstrating success. Both schoolwide and classroom celebratory events will highlight students and their work. Teachers will make regular contact with parents to communicate and praise student progress. A student incentive program will also be implemented to reward students when they pass courses, pass state exams, demonstrate good attendance, demonstrate growth in their reading and math skills, and when they exhibit leadership or citizenship skills that represent the values of the School.

Through communication and enforcement of the Code of Conduct and Student-Parent Handbook (an example of this document is available here: Sample Student-Parent Handbook), the Board and School Administration will ensure that the staff is guided by the following philosophy:

- All negative behavior results in a consequence
- A positive and conducive learning environment cannot occur without maintaining order and discipline
- Discipline must be fair, firm, consistent, appropriate, and impartial
- Punishment must be appropriate for the misbehavior displayed
- Corporal punishment is not permitted
- All staff, parents, and students must be cognizant of the rules and what is expected of them
- All discipline must be consistent with all applicable laws and regulations related to student rights and due process

- A safe, clean, and orderly environment is an absolute prerequisite for effective teaching and learning. We will go the extra mile to help any student who wants to learn and better himself/herself; however, the School will not tolerate disruptive behaviors

The School will have a strict, consistently applied discipline policy for students who engage in fighting or other aggressive behavior. In addition, students who are disruptive or a danger to themselves or others will be dealt with immediately and in accordance with the School's Mental Health Assistance Plan. Required annual teacher professional development in *Handle with Care* will focus on helping teachers prevent and minimize disruptive and aggressive student behavior.

The School's service model includes a plethora of evidence-based activities that support the building and maintenance of a culture of caring, results and respect. Some of these key activities include but are not limited to:

- All staff members involved in daily student entry procedures where all students are greeted by name and recognized for attendance
- Teachers will make no less than one positive phone call home each month for each student
- Student achievement on reading growth, state assessments, attendance, course completions and graduation will be posted publicly on classroom and common area walls, school social media, and campus TVs to recognize and encourage students
- Monthly celebrations lead by school administration will highlight and celebrate notable individual student and schoolwide achievements
- The Career Coach will plan regular college and career fairs, college tours, and industry/career speakers to expose students to their post-secondary possibilities
- All staff will be trained on Youth Mental Health First Aide, Handle with Care, and a series of other annual development topics focused on effectively responding to the needs of an at-risk student population

8.B. State whether the applicant intends to use the local school district's code of conduct policy.

The School will follow the District's Code of Student Conduct.

9. SUPPLEMENTAL PROGRAMMING

9.A. Describe any extra- and co-curricular activities or programming the school will offer, if applicable; how often they will occur; and how they will be funded.

The School will sponsor student interest and need groups designed to enhance school culture, build student leadership skills, and provide added support to students. Some examples of these groups include Student Government; Book Club; Chess Club; School Philanthropy Club; Poetry Club; Job Club; and Teen Parent Group. These groups will occur weekly and students can choose to participate. These groups will not require additional funding.

If permitted by the School District, the school will allow student athletes to participate with their zoned district high school teams so long as they obtain and maintain the minimum academic and behavioral requirements as established by the District.

II. ORGANIZATIONAL PLAN

10. GOVERNANCE

10.A. DESCRIBE THE SCHOOL'S EXISTING OR PLANNED LEGAL STATUS, INCLUDING NON-PROFIT STATUS AND FEDERAL TAX-EXEMPT STATUS.

The applicant and governing entity for the School will be Florida High School for Accelerated Learning – Manatee, Inc., an existing, independent, Florida non-profit (Articles of Incorporation in Attachment H), which has applied to be an IRS 501(c)(3), tax-exempt organization (Attachment I).

10.B. PROVIDE THE FOLLOWING DOCUMENTS, IF AVAILABLE, AS ATTACHMENTS:

- **THE ARTICLES OF INCORPORATION FOR THE APPLICANT ORGANIZATION (OR COPIES OF THE FILING FORM) – ATTACHMENT H**

Each of the required documents has been included as the specified attachment.

10.C. DESCRIBE THE GOVERNANCE STRUCTURE OF THE PROPOSED SCHOOL, INCLUDING THE PRIMARY ROLES, POWERS, AND DUTIES OF THE GOVERNING BOARD; COMMITTEE STRUCTURE (IF APPLICABLE); AND HOW THE BOARD WILL INTERACT WITH THE PRINCIPAL/HEAD OF SCHOOL AND ANY ADVISORY BODIES.

The Board of Directors is the organization's governing body. As such, it will be responsible for ensuring compliance with the terms of its charter with the District, selecting the Principal, setting school policies, approving school budgets, and monitoring financial and student achievement objectives.

Specifically, the responsibilities of the Board shall include:

- Approval of operating policies and procedures
- Selection and engagement of the Education Service Provider (ESP), ALS Education, and oversight to ensure the ESP complies with all Florida laws and the terms of the Charter. Details about the selected ESP are included in Addendum B.
- Decision on whether the school will opt to receive a school grade or a School Improvement Rating as permitted by s. 1008.341, F.S.
- Approval of the annual budget
- Selection of Principal
- Review of Principal's job performance and professional development goals

- Hiring an independent counsel to advise on all legal matters
- Hiring an accountant to perform bookkeeping services for the School
- Engaging an independent auditor to audit financial records in compliance with government auditing standards, pursuant to s. 1002.345(2), who shall submit the report to the governing body.
- Review and approve the audit report, including audit findings and recommendations for the financial recovery plan.

- Compliance with Florida's Public Records and Open Meeting Laws
- Documenting minutes, Board of Directors' actions, and approval of policies

The Principal, who is responsible for the day-to-day operations of the School, will have the most influence on the success of the School. The Principal will be a collaborative leader who will provide frequent and routine communications to the Board and stakeholders. The Principal will attend all board meetings to report on matters related to the daily operations of the school.

Ultimately, the success of the School requires cooperation between the Board of Directors and school leadership. The primary goal of both the Board and the school leaders will be to provide the best possible educational opportunities for students. To achieve this end, the Board, Principal and ESP will work together to ensure that the school is effective in achieving its mission at all times. The Board recognizes its ultimate responsibility as the governing authority over the charter and will take seriously its role in holding the school leader and ESP accountable for the roles they play in ensuring successful daily school operations.

10.D. State the frequency of board meetings and describe how the board will comply with open meetings and records laws.

As outlined in the bylaws in Attachment J, the Board will hold no less than four (4) public meetings per school year, more than the two (2) meetings per year required by Section 1002.33(7)(d)2., Florida Statutes. The Board is also committed to holding all meetings in Manatee County, more than the number of annual and special meetings specified in its Bylaws.

The Board will comply with open meetings and records laws by: posting all scheduled meetings for the school year on the School website at the beginning of each school year; ensuring that all meetings are open to the public and provide an opportunity for public comment; providing reasonable notice (as required by Sunshine Law) of all its meetings, whether regularly-scheduled or special meetings, on the school's website and with postings on the school doors in advance of the meeting; and promptly recording the minutes of all meetings and posting them on the school's website.

10.E. Describe the current and desired size and composition of the governing board. Identify key skills, areas of expertise and constituencies that are / will be represented on the governing board.

There are currently three Directors on the Board for Florida High School for Accelerated Learning – Manatee, Inc. It is expected that these founding Directors will remain in place once the School is open and operational. Per the Bylaws in Attachment J, the board will always have at least three members but not more than seven. The board will strive to always reflect the ethnic and cultural diversity of the students and communities it serves, and to include people with a range of professional skills capable of the organizational, pedagogical, legal, and other tasks required to open, operate and provide substantial governance oversight of the school:

- **Dwight Barber, Board Chair**, has worked with Job Corps programs that served at-risk and second chance students. These experiences highlighted for him the significant need to educate and prepare youth to be successful and productive citizens. As a mentor and JROTC instructor at Lincoln Memorial, he guided at-risk students to get back on track academically and to work on

the areas they needed to succeed and graduate. He is also the founder and CEO of Veterans Community Housing in Palmetto that provides education, mentoring and counseling to veterans.

- **Lawrence Rose, Board Vice Chair**, is the founder and CEO of Replay Outreach in Bradenton, a community service organization that helps at-risk teens by guiding them in discovering their potential, passion, and purpose through training, mentoring and empowerment. Mr. Rose is also the Financial Planner for Prudential Advisors, providing fiduciary investment and insurance solutions for his clients.
- **Walter Loos, Board Secretary and Treasurer**, is a business owner and entrepreneur in Manatee County, operating several successful businesses in the Bradenton area. In addition, Mr. Loos has served at-risk youth in many capacities such as running a shelter for children, incarceration programs and providing social services for children.

10.F. Describe how board members have been and will be selected including term limits and selection of officers.

The founding governing board members came together because they had an interest in helping solve the growing problem of high school dropouts in Manatee County. All three of the current board members have experience working with at-risk youth and are deeply compelled to play an active role in helping students overcome the obstacles to academic and personal success through the proposed school model. The board is committed to recruiting additional members who can complement the background and skills currently represented on the board with the goal of fulfilling the school's mission.

Board members are elected to a three (3) year term. Each Director holds office for the term to which he/she is elected and until his/her successor is elected and qualified or until his/her earlier resignation, removal from office or death (Directors are not term limited). It is expected that the founding Directors will remain on the Board once the school opens and is operational; it is expected, however, that additional Board members with a common interest will be recruited. As outlined in the Bylaws in Attachment J, officers (Chairman, Vice-Chairman, Secretary and Treasurer) will be elected at the Annual Board of Directors meeting. The office of Chairman may only be held for two consecutive terms, with the Director serving as Chairman not to be re-elected to that position until he/she has not served in the position for one year.

10.G. Explain how this structure and composition will ensure that the school will be an academic, operational, and financial success.

As demonstrated by their bios, the members of this Board have demonstrated their ability to be successful in the academic, operational and financial areas of charter school operation. The group intends to expand the board once its application has been approved to include professionals that will further enhance its expertise.

The Board of Directors will set policy and have ultimate authority and control over the School and hiring the Education Service Provider [ALS Education (ALS)]. The Board will meet at least quarterly, and at each meeting will expect school leadership and representatives from ALS to report on student achievement results. The Principal, with support from ALS, will be the policy-executor and undertake the day-to-day responsibility of carrying out the Board's directives.

10.H. Complete the table below (add lines as necessary) and for each individual identified here provide 1) a completed and signed Board Member Information Sheet (template provided), and 2) resume.

Name	Current or Prospective Governing Board Member?	Role on Board (e.g. Member, President, etc.)	Submission Requirements
Dwight Barber	Current	Chairman	__x_ Information Sheet __x__Resume
Lawrence Rose	Current	Vice Chair	__x__ Information Sheet __x__ Resume
Walter Loos	Current	Secretary/Treasurer	__x__ Information Sheet __x__ Resume

Attachment L includes, for each member, a signed board member information form and resume.

10.I. Describe the plans for board member recruitment and development, including the orientation process for new members and ongoing professional development to increase the capacity of the board.

The non-profit, tax-exempt applicant corporation is governed by leaders of the community who are engaged in community or public service and committed to the success of public education. A diverse Board of Directors able to recognize, articulate, and address the needs of its students through educational policies and social outreach efforts is in place. New board members may be elected to the board by a vote of the majority of the board. The process for electing new members to the board is described in the board's By Laws in Attachment J.

The Board of Directors includes individuals with a range of professional skills capable of the organizational, pedagogical, legal, and other tasks required to govern the opening and operation of a public school in accordance with this proposed charter application. Board member backgrounds are included in Section 10.E.

In order to assure that all board members have the knowledge required to successfully open and oversee a charter school, all new members of the Board of Directors will complete the four-hour orientation and training required by Florida statute, which addresses: government in the sunshine; conflicts of interest; ethics; and financial responsibility.

In addition, training will include: the roles and responsibilities of Board members; the Florida statute and local regulations governing the operation of charter schools; and key measures of student achievement, including the school's operating and instructional objectives.

Within three years of initial training and every three years thereafter, board members will complete the required two-hour refresher course.

10.J. Describe the board's ethical standards and procedures for identifying and addressing conflicts of interest.

The School's governing board is guided by a set of by-laws that define how the board will govern, including conflicts of interest. The By-Laws are included in Attachment J. Ethics and conflicts of interests are specifically addressed during the Board's orientation and governance training. The Board has developed a Code of Ethics (Attachment K) and will comply with the ethical standards of conduct set out in Sections 112.313(2), (3), (7), (12), and 112.3143(3), Florida Statutes.

Where any Board documents or policies are in conflict with Section 112.313(7) which provides in part, "No public officer or employee of an agency shall have or hold any employment or contractual relationship with any business entity or any agency which is subject to the regulation of, or is doing business with, an agency of which he or she is an officer or employee… nor shall an officer or employee of an agency have or hold any employment or contractual relationship that will create a continuing or frequently recurring conflict between his or her private interests and the performance of his or her public duties or that would impede the full and faithful discharge of his or her public duties," such documents or policies will be amended at the next Board meeting following the discovery of the conflict.

Consistent with Florida law, each Board member will sign a Conflict of Interest statement prior to becoming a Board member and will sign annually thereafter. The Conflict of Interest Policy is also included in Attachment K.

10.K. Describe, if applicable, any school advisory bodies or councils that are in place or will be formed, including the roles and duties of each and the reporting structure of such entity relative to the school's governing board and leadership.

The school will form a School Advisory Council (SAC) in compliance with section 1001.452, Florida Statutes. The SAC will assist in the preparation and evaluation of the School Improvement Plan (SIP) and act as a resource to the school principal. The SAC will provide suggestions, strategies, and feedback as they evaluate the SIP. The SAC will review student achievement data and make recommendations. The committee will monitor the SIP and progress toward goals throughout the year. The SAC will review activities from the budget and determine which activities or events will enhance student achievement. At least one governing board member shall be a member of the SAC and the final School Improvement Plan developed for each school year shall be presented to the governing board for additional review, feedback, and approval.

10.L. Briefly explain the process that the school will follow should a parent or student have an objection to a governing board policy or decision, administrative procedure, or practice at the school. This includes the process for developing procedures for complaint resolution of parental concerns involving student welfare, including the student welfare provisions described in section 1001.42(8)(c)1.-6., F.S. The entire process or policy does not have to be developed; however, applicants should be able to articulate the primary steps.

The School has a comprehensive plan for resolving disputes between parents or students and the School. Parents and students are informed of the dispute resolution process as it is outlined in the Student-Parent Handbook, which they receive and sign upon the student's enrollment. Disputes with parents/guardians or students will be handled initially by the Principal or Assistant Principal in a professional manner, with dignity and respect.

- Depending on the nature of the dispute, the administrator (who may be either the Principal or Assistant Principal) will escort the parent/guardian or student to a private area to determine the nature of the complaint and begin collecting all of the relevant information and data (who, what, when, why, and where), to include parental concerns involving communication of student welfare.
- The administrator may include other School staff in the meeting to assist in determining other details related to the complaint/issue.
- The administrator will inform the parent/guardian or student that a full investigation of the complaint will be undertaken, and a resolution provided in a reasonable, agreed-upon timeframe.
- Depending on the nature and severity of the dispute, the administrator will inform the Board Chair of the complaint and the plan to address the complaint.
- The follow-up communication with the parent/guardian or student will be accomplished in an appropriate manner and may include a meeting at the School or telephone call with the appropriate administrator to discuss the results of the investigation and next steps.
- If the parent/guardian or student is not satisfied with the results, then the administrator will offer to refer the dispute to the Board.
- The Board shall have final authority to hear and decide on actions required in response to any/all legitimate student or parent concerns.

In turn, if there is a concern or dispute by a parent/ guardian or student against the principal, the parent/ guardian or student has the right to raise the concern directly and immediately with the Board for action and/or resolution.

The School will also comply with s. 1002.33(7)(d)1. F.S., which requires that each charter school's governing board appoint a representative to facilitate parental involvement, provide access to information, assist parents and others with questions and concerns and resolve disputes. Contact information for the parent liaison will be made public and available as required. The representative will reside within the boundaries of the School District.

11. MANAGEMENT AND STAFFING

11.A. SUBMIT AS ATTACHMENT M ORGANIZATION CHARTS THAT SHOW THE SCHOOL GOVERNANCE, MANAGEMENT, AND STAFFING STRUCTURE IN

- THE PRE-OPERATIONAL YEAR;
- THE FIRST YEAR OF SCHOOL OPERATIONS;
- AT THE END OF THE CHARTER TERM; AND
- WHEN THE SCHOOL REACHES FULL CAPACITY, IF IN A YEAR BEYOND THE FIRST CHARTER TERM.

Organization charts are included in Attachment M for (1) the pre-operational year; and (2) all subsequent years of operation. As noted in the chart for the first and subsequent years of operation, the number of teachers will be adjusted so that there will always be one teacher for every classroom of 25 high school students and 22 middle school students. In order to ensure that all courses offered are covered by a credentialed teacher, the School will aim to hire teachers with multiple subject-area certifications. Because the number of students in special populations may vary from year to year, staffing for ESE, Reading, and ESOL support will be continuously reviewed and monitored to ensure adequate support and compliance with state regulations. When necessary, additional staff or contracted support will be hired.

11.B. Identify the Principal and provide as attachment N the proposed job description. If no candidate has been identified, discuss the process and timeline for recruiting, selecting, and hiring the school leader. Describe the criteria to be used in selecting this leader, and provide as Attachment O the position's qualification requirements. What are the key skills and competencies for the school leader? What qualities must the school leader have for this school to be successful?

A Principal candidate has not yet been identified. A Principal Job Description is included as Attachment N. The ideal candidate for the Principal position will be an experienced education leader who has demonstrated an ability to successfully lead and inspire students and staff. He/she will also be skilled at building and managing internal teams as well as collaborating with other stakeholders in the community to build partnerships that are beneficial to students' success.

Once the charter application is approved, the recruitment and hiring process will proceed as follows:

1. A nationwide search will be conducted, including referrals from board members, job postings in *Education Week*, Indeed, LinkedIn, CareerBuilder.com, and other pertinent publications.
2. Initial screening interviews will be conducted by phone to ensure that candidates meet expected qualifications.
3. Face-to-face interviews will be conducted on-site at another ALS managed campus.
4. Background and extensive reference checks will be conducted for final candidates.
5. Final candidates will be presented to the governing board for vetting and board interviews. The governing board will make the hiring decision and alert the ESP.
6. Upon the return of a successful background checks, an offer of employment will be extended to the candidate, offering a compensation and benefits package competitive with the local job market.

The qualifications for the School leader are outlined in See Attachment O.

11.C. Describe the management structure of the school. As Attachment P provide job descriptions for each administrative or leadership position that identifies key roles, responsibilities, and accountability.

As outlined above, the School will be led by a Principal who will be a qualified education leader. The other administrator will be the Assistant Principal, whose job description is in Attachment P.

The organizational and management structure of the School will facilitate the delivery of instructional and support services to students in an effective and efficient manner. As shown in the organizational chart in Attachment M, the Principal will be the direct supervisor of all of the educators at the School including content area teachers, ESE teachers, and all other instructional personnel.

All staff members will receive their job descriptions and will be held accountable for the primary responsibilities in the job descriptions.

The School will comply with and meet all requirements of the School District's charter school policy and any amendments thereto. Additionally, the School will meet all applicable state and local health, safety and civil rights requirements as required by Section 1002.33(9)(e), Florida Statutes.

11.D. PROVIDE A STAFFING PLAN FOR EACH YEAR OF THE CHARTER TERM THAT INCLUDES ALL ANTICIPATED PERSONNEL AND IS ALIGNED WITH THE SCHOOL'S PROJECTED ENROLLMENT AND WITH ALL OTHER SECTIONS OF THE APPLICATION. ***This "Security" specialist role is in addition to the School Resource Officer role defined by The Marjory Stoneman Douglas Act*

11.E. Explain the school's plan for recruitment, selection, and development of a highly qualified and appropriately certified instructional staff that is aligned with applicable federal laws and state requirements as well as the school's design.

The standards, job requirements, and duties of instructional staff are included in Attachment Q. All teachers will be certified consistent with the provisions of section 1012, F.S.

The steps in the recruitment and hiring process will generally follow the steps below, but may be modified slightly for particular positions:

(a) A nationwide search will be conducted, including referrals from board members, job postings in *Education Week*, Indeed, LinkedIn, CareerBuilder.com and other pertinent publications.
(b) The Principal or designee will review all resumes for teachers and staff.
(c) First round interviews will be conducted with the Principal or Assistant Principal.
(d) Background and extensive reference checks will be conducted.

(e) Upon the return of a successful background check, an offer of employment will be extended to the candidate, offering a compensation and benefits package competitive with the local job market for teachers and support staff.
(f) The governing board shall approve all new hires at regularly scheduled board meetings.

All faculty and staff will have the certification, endorsement, or other credentials required for their positions. All staff will participate in intensive new-hire training described below in the section entitled Professional Development. The ESP will provide intensive recruitment services to assist the Board and the school leadership in ensuring high quality talent for all school roles. The ESP will also provide vetting support to ensure that all potential staff members have the required credentials and necessary experience to perform the expected roles.

12. HUMAN RESOURCES AND EMPLOYMENT

12.A. Explain the relationship that will exist between the school and its employees, including whether the employees will be at-will. Discuss the school's tentative plan regarding use of employment contracts

The employees of the School will be employed by the ESP selected by the Board. As such, they will be privately employed. The Board may, at some point, contract with an employee leasing company, hire specific service providers for personnel and benefits, or negotiate other arrangements to ensure that the School will attract and retain the best possible faculty and staff. School employees shall have the option to bargain collectively, as required by Section 1002.33(12)(b), Florida Statutes.

The nature of the employment relationship between the ESP and its employees will be "at-will."

12.B. Provide the performance evaluation or a general outline of the performance evaluation plan, consistent with the substantive requirements included in s. 1012.34, F.S. (the Student Success Act), for administrators and instructional personnel including who will conduct the evaluations, what instrument will be used, and how the results will be used to guide performance and professional development. A final, detailed outline will be required after application approval.

The School intends to use a Teacher Evaluation System and School Leader Evaluation System based on the research of Marzano and aligned to *The Art and Science of Teaching*, and s. 1012.34, F.S. Consistent with the requirements of s. 1012.34, F.S. (the Student Success Act), using the Marzano based teacher and leader evaluation system, the School is committed to a rigorous and comprehensive performance evaluation system for both administrators and instructional personnel. The Marzano based teacher evaluation system focuses on the domains of effective teaching including classroom strategies and behaviors, planning and preparing, reflecting on teaching, and collegiality and professionalism. Each domain includes specific performance indicators assessed through observations, student data, and professional artifacts. The school leader evaluation system evaluates leadership effectiveness in domains such as data-driven focus on school improvement, instruction of a viable and guaranteed curriculum, recruitment and continuous development of teachers and staff, community of care and collaboration, core values, and resource management. These systems meet the requirements of s.1012.34, Florida Statutes. The school will use Marzano's Deliberate Practice to provide a focused approach to professional development where teachers actively engage in specific activities designed to

improve their teaching skills in targeted areas. The Deliberate Practice may be used as an option in place of the Individual Professional Development Plan (IPDP) for all instructional staff if the district/school follows the FDOE approved model and at least one of the Deliberate Practice growth targets is developed with consideration of appropriate student growth data. A Deliberate Practice Guide aligned to the state model will serve as a way for teachers to grow through a series of planned activities and professional development, reflection, and collaboration. The School's Deliberate Practice Plan will follow the Inclusive Method and be part of the individual's Instructional Practice Score, which is fifty-five percent (55%) of the overall evaluation. The regional director will conduct the evaluation of the principal, and the principal will conduct all teacher evaluations aligned with s. 1012.34, F.S. The regional director and principal will document the evaluations in iObservation. iObservation is an electronic management tool developed by Learning Science International and configured to the School's Teacher and Leader Evaluation System. In addition, iObservation will be used to document, and track the Deliberate Practice Plan. The administration will use the evaluation tool to guide professional learning for the staff members at the school.

12.C. Provide the compensation structure or a general outline of the compensation structure for all employees, including salary ranges and employment benefits as well as any incentives or reward structures, if applicable. How will compensation and other components factor into the staff retention plan?

The Board will assure, through its oversight of the School's budget, that a competitive, comprehensive salary and benefit package is used for attracting and retaining top-notch teachers, administrators, and other staff members. In addition to the established salary structure, the Board will require that the ESP implement a pay for performance plan consistent with Florida Statute and FDOE requirements. The Budget (Attachment X) takes into consideration the School's plan for pay for performance. Salary increases will be determined as follows:

- The criteria for earning the salary adjustment will be based on the School's approved evaluation system as described in section 12.B. and 13.A.3.
- Fifty percent (50%) of the funds will be used for salary adjustments and related benefits for FICA. Those who scored at *Effective* will receive at least Fifty percent (50%) and no more than 75% of the annual adjustment provided for those who scored at Highly Effective.
- Fifty percent (50%) of the funds will be used for a one-time salary supplement for those instructional personnel with certification(s) in critical teacher shortage areas (as identified by State Board of Education). Those with three or more certifications in critical teacher shortage areas will receive seventy-five percent (75%) more than those with one teacher shortage area on a professional or temporary teaching certificate. Those with two certifications in critical teacher shortage areas will receive fifty percent (50%) more than those with one certification in a critical teacher shortage area.

The salary ranges shall be consistent with current School District ranges and be evaluated regularly to ensure that they are competitive and support talent retention. Anticipated ranges based on current scales are as follows:

- Principal $95,000-$100,000
- Assistant Principal $60,000-$65,000
- Career Coach $42,000-$48,000

12.D. Outline the school's procedures for hiring and dismissing school personnel, including conducting criminal background checks.

The hiring process will generally include the following steps but may be modified slightly for particular positions: The Principal will review resumes for all staff. All faculty and staff will be screened to ensure that they have the licensure, certification, endorsement, and/or other credentials required for their positions. First round of interviews will be conducted with the Principal or Assistant Principal. Background and extensive reference checks will be conducted. ALS will conduct a background check which includes a Social Security Trace, County Criminal, Statewide Criminal, Federal Criminal, Sex Offenders, and Education / Certification verification. Candidates will then be sent to the District per defined protocol for FBI fingerprinting and any other district clearance protocol. Upon the return of successful background checks by both the District and the ESP, an offer of employment will be extended to the candidate.

In the event an employee is not meeting the expectations of his/her job description, the School will implement progressive discipline procedures. The steps involve counseling employees, providing professional development and support, and evaluating the employee's performance. If, despite all attempts to assist the employee, he/she is not meeting the expectations of his/her job description, then the School will follow due process, as outlined in Section 12.F. below, to dismiss the employee.

12.E. If personnel policies have been developed, include as Attachment R. If personnel policies and procedures have not been developed provide a clear plan, including timeline, for the development and approval by governing board.

Personnel Policies are included as Attachment R

12.F. Explain how the governing board and school leadership would handle unsatisfactory leadership, teacher, or staff performance, as well as leadership or teacher turnover.

Although the Board oversees the overall operation of the school, its draft contract with the ESP (see Attachment EE), assigns the ESP the responsibility and authority to select, evaluate, assign, discipline, transfer and terminate personnel.

In the event an employee is not meeting the expectations of his/her job description, the School will implement progressive discipline procedures. The steps involve counseling employees, providing professional development and support, and evaluating the employee's performance. If, despite all attempts to assist the employee, he/she is not meeting the expectations of his/her job description, then the School will follow due process, as outlined below, to dismiss the employee.

- A Termination Checklist will be completed by the Principal (or the Principals supervisor) that includes, in writing, the reasons for the termination, and supporting documentation.
- Information submitted along with the personnel file will be reviewed by a trained human resource professional.
- If a decision is made to proceed with termination, a full Human Resources Review, Legal Review, and Stakeholder Review will be completed.
- Once all portions of the termination checklist are complete, the completed termination checklist will be forwarded to all appropriate parties for signature.
- If all items are not in place, documentation is not clear and concise, or if all employees in similar situations are not receiving the same action (if appropriate), the Principal/Regional Director will be advised regarding appropriate actions needed to continue the improvement process with the employee.
- Leadership and staff turnover data is analyzed on an ongoing basis to identify any potential trends and to inform employee relations strategies that lead to higher staff retention rates. Once staff vacancies are identified, the hiring manager works with the Human Resource department to advertise the vacancy and screen for the most qualified candidates.

13. PROFESSIONAL DEVELOPMENT

13.A. Describe the school's professional development expectations and opportunities for administrators and instructional personnel, including the following:

13.A.1. Identify the person or position responsible for overseeing professional development activities.

School leaders will support teacher professional development and structured professional learning that results in changes to teacher knowledge, practices, and improvements in student learning outcomes. Both formal and informal opportunities for teachers to learn and enhance their teaching is crucial to school improvement and student success. Both the Principal and Assistant Principal will collaborate to determine the needs of teachers and staff to ensure delivery of appropriate and effective professional development activities. School Leadership will be responsible for overseeing all professional development activities, with support from the ESP's Curriculum and Instruction Team. School leadership will organize and schedule the activities throughout the year and ensure professional development is aligned to the School Improvement Plan and rooted in best practice research supporting the growth of teachers.

Likewise, school leaders will participate in a regular cadence of leadership development opportunities through participation in internal and external leadership conferences and professional learning community (PLC) meetings. PLCs will focus on high impact leadership strategies that result in the attainment of key performance indicators.

13.A.2. Discuss the core components of professional development and how these components will support effective implementation of the educational program. Discuss the extent to which professional development will be conducted internally or externally and will be individualized or uniform. Describe how the effectiveness of professional development will be evaluated.

The core purpose of the School's professional development is improving student achievement. Teacher training and professional development will be aligned to the standards required by s. 1012.98 –School Community Professional Development Act, F.S. The School's systems and structures are set up to provide high quality job embedded learning experiences for all staff. Professional Learning is aligned to school goals; differentiated; linked to real issues; and provides both individual and collaborative opportunities for learning. The sharing of best practices and the use of formative feedback drives a culture of continuous improvement aimed at providing the best opportunities for teaching and learning. Professional development is rooted in best practice research supporting the growth of teachers.

The key drivers for professional learning within the School will be the following: grassroots communication systems and protocols driven through a teacher leadership pipeline/leadership pathway; the establishment and growth of teaming structures through professional learning communities; peer observation and formative feedback; peer coaching and mentoring and relevant professional learning content. Teachers may also participate in district-sponsored trainings, as well as local, state, and/or national conferences.

The effectiveness of school professional development initiatives shall be evaluated based on post training and PD feedback/surveys provided by participants. Effectiveness will also be evaluated based on the overall success in accomplishing the established objective for each initiative as determined by the accomplishment of key performance indicators at the participant or school level. Trainings or PD initiatives that fail to achieve desired results will be reviewed by school leadership and the ESP to refine and improve.

13.A.3. Describe any professional development that will take place prior to school opening. What will be covered during this induction period? How will instructional personnel be prepared to deliver any unique or particularly challenging aspects of the curriculum and instructional methods?

All leadership, instructional, and support staff will participate in two weeks of summer professional development prior to the beginning of school during the first year of operation and during the full week before school opening each year thereafter. Topics will be aligned to job-specific expectations, skills, and competencies. All employees will be trained on their roles and responsibilities and their role in implementing the School's defined service model.

Ongoing professional development, dedicated to personal and professional growth, will occur on a weekly basis as well as during scheduled professional development days as part of the school calendar. At a minimum, once each month, staff meetings will also be dedicated to professional development. Teachers and staff will participate in required state and local school district professional development and additional training identified in their Deliberate Practice Professional Growth Plan.

The School will use a blended model of professional development to deliver and support relevant learning opportunities for teachers and staff. The professional development modules are:

- Evidence-based and targeted for success with high need students;
- Job-embedded for direct application and improved performance;
- Aligned to the innovative instructional programs of the School; and
- Synchronous and asynchronous for efficient use of time.

Professional learning modules and activities will focus on the use of flexible class periods, integration of technology into instruction, familiarity with a variety of learning activities to engage students in higher-order competencies, differentiation of instruction, research-based instructional strategies, coaching and mentoring, team teaching, and development and use of assessments to establish uniform coverage and external evaluations in common courses.

Online professional development will consist of participating in blended trainings or online courses in the School's Intranet and Learning Management System (LMS). Both the LMS and iObservation will be available 24/7 from any workstation with Internet access. The LMS, a tool for tracking, monitoring, and delivering online training, will also be available at all times via any Internet-based workstation. The LMS contains self-directed, online courses that may be used for both personal and professional growth. iObservation, which is a tool for managing teacher and leadership evaluation, also contains a resource library of videos and print resources. The discussion feature of iObservation allows for collaboration and sharing of ideas/resources among all schools resulting in Professional Learning Communities within or among schools. The School's Intranet also will contain professional development resources and training modules which can delivered synchronously or asynchronously. All training will be tracked on the LMS and professional development will be aligned to the Florida Professional Development Protocol, Third Cycle.

Professional development will be delivered by internal and external subject matter experts. Staff and administrators may also participate in district-sponsored trainings as permitted, as well as local, state, and/or national conferences.

The School will use the Teacher Evaluation System and School Leader Evaluation System (based on the research of Marzano and aligned to *The Art and Science of Teaching*, and s. 1012.34, F.S.). The systems meet the requirements of s. 1012.34, Florida Statutes. Deliberate Practice may be used as an option in place of the Individual Professional Development Plan (IPDP) for all instructional staff if the district/school follows the FDOE approved model and at least one of the Deliberate Practice growth targets is developed with consideration of appropriate student growth data. A Deliberate Practice Guide aligned to the state model will serve as a way for teachers to grow through a series of planned activities and professional development, reflection, and collaboration. The School's Deliberate Practice Plan will follow the Inclusive Method and be part of the individual's Instructional Practice Score, which is fifty-five percent (55%) of the overall evaluation. iObservation, an electronic management tool developed by Learning Science International and configured to the School's Teacher Evaluation System, will be used to document and track the Deliberate Practice Plan.

Training and training plans will align with Florida's Protocol Standards – Third Cycle and will emphasize initiatives currently influencing education in the state, including the Florida Standards and high-quality assessments, using data systems to inform instruction, improving educator and principal effectiveness through personnel evaluation systems, and focusing on interventions that support struggling students. Training evaluation will be conducted on a regular basis to inform the School about the effectiveness of current professional development practices and guide the content, form, and structure of future endeavors.

13.A.4. Describe the expected number of days or hours for professional development throughout the school year, and explain how the school's calendar, daily schedule, and staffing structure accommodate this plan. Include time scheduled for common planning or collaboration and how such time will typically be used.

All leadership, instructional, and support staff will participate in two weeks of summer professional development prior to the beginning of school during the first year of operation and during the week before school opening in each year thereafter. Topics will be aligned to job-specific knowledge, skills, and competencies to ensure that all administrators and staff are successful. Ongoing professional development, dedicated to personal and professional growth, will occur on a weekly basis as well as during scheduled professional development days as part of the school calendar. Teachers and staff will also participate in required state and local school district professional development and additional training identified in their Deliberate Practice Professional Growth Plan. Instructional staff will also have access to a comprehensive online resource library with on-demand professional development resources through iObservation©.

The timeline for professional development for the first year of School's operation is as follows:

May - July:	Job specific training for Principal and Assistant Principal
June – July:	Job specific training for the executive assistant and data/enrollment specialist
June:	Leadership Conference for Principal and Assistant Principal (three days)
August:	All Staff Training (two weeks prior to student start date)
October 1:	School Professional Development Plan written (completed earlier if required by the School District)
October 31:	Deliberate Practice Plans written
Sept. – May	Weekly training and Professional Learning Community meetings

Professional development timelines will be adjusted based on requirements outlined in the School's Teacher and Leadership Evaluation Systems. Additionally, the school will follow the district instructional calendar to include the inclusion of dedicated professional development days staggered throughout the school year. Principals will align professional development day plans with their annual school improvement plan and will take advantage of content specialists and training professionals from the ESP to support PD initiatives.

14. STUDENT RECRUITMENT AND ENROLLMENT

14.A. DESCRIBE THE PLAN FOR RECRUITING STUDENTS THAT WILL RESULT IN THE SCHOOL MEETING ITS PROJECTED ENROLLMENT. INCLUDE STRATEGIES FOR REACHING THE SCHOOL'S TARGETED POPULATIONS AND THOSE THAT MIGHT OTHERWISE NOT HAVE EASY ACCESS TO INFORMATION ON AVAILABLE EDUCATIONAL OPTIONS INCLUDING, BUT NOT LIMITED TO, FAMILIES IN POVERTY; ACADEMICALLY LOW-ACHIEVING STUDENTS; STUDENTS WITH DISABILITIES; AND ENGLISH LANGUAGE LEARNERS.

Prior to the School opening, a variety of methods will be used to attract students. Some of these methods may include, but are not limited to:

- Informational meetings with local community, civic and religious organizations, community leaders, and other people who may be able to inform families and students about the School and make appropriate referrals.
- Outreach to local district school principals and guidance counselors to make them aware of the school and it's benefits to students who have recently dropped out of high school or are at high risk of dropping out or not advancing to high school.
- In-depth briefings with organizations such as Junior Achievement, Boys and Girls Club, Urban League and 100 Black Men of America to explain the program and establish a referral network.
- Developing a digital web presence and advertisements to our target population across Google, social media, maps, and more to make the School discoverable and accessible.
- Distribution of printed materials in various languages, including tri-fold brochures, flyers, and post cards, in the local communities and schools with information about the School.
- Toll-free enrollment information number posted on website and included on enrollment and recruitment literature.

Other strategies that may be used include advertising in local community newspapers (particularly those published for minority groups) or contacting community social service organizations that target the at-risk and/or dropout population (youth organizations, courts, churches, etc.). In addition, a multitude of social media advertising, including an online application process, will be included to promote the program. "Outreach" may also include an emphasis on the services the School can provide for English for Speakers of Other Languages (ESOL) students. The School will use multi-lingual advertisements and materials.

Once the School opens, it is expected that as a result of outreach efforts, students will be recommended to the school from surrounding public schools by counselors who have identified them as not making appropriate academic progress to graduate on time or is at risk of dropping out or not advancing to high school. Students will be referred to learn more about the School if, in the opinion of the counselor, our program could be a good fit in helping them stay in school and get back on track toward graduation.

After enrollment, the School will communicate student performance, graduations, and other news to their referring schools to showcase the progress of former students and highlight success stories. If a student enrolls and it is determined that the blended instruction and self-paced environment is not a good fit for the student's individual needs, the School will work with the referring school for a more appropriate placement. In accordance with our mission, year-round open enrollment will be available, enabling students to enroll and complete graduation requirements at any time during the school year.

In accordance with 1002.31(2)(a), F.S., the School will accept a student from any school district in the state who is not subject to a current expulsion or suspension.

In compliance with s. 1002.33(17)(a)(4) F.S., enrollment will not be denied to any eligible applicants on the basis of sex, race, religion, national origin, ancestry, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability. The School will also not discriminate in its student admissions policies on the basis of intellectual or athletic ability, measures of achievement or aptitude, or any other basis that would be illegal if used by any public school.

14.B. Explain how the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other local public schools in accordance with section 1002.33(7)(a)8., F.S.

In order to promote a neighborhood school environment that reflects the racial and ethnic balance of the community in which it exists, the marketing strategy will target students in the immediate vicinity of the school location. Marketing to residents in the nearby surrounding communities and neighborhoods will be the primary focus. Marketing visuals will include demographics that are representative of the community – including real students – and targeted across all appropriate populations. (e.g., geographic, ethnic, age, etc.).

We anticipate that the majority of students will live within a 5-mile radius of the school and, thus, reflect the local community being served. Targeted marketing, including tri-fold brochures, flyers, posters, post cards, and digital marketing will be used to focus on this geographic area. See Marketing Examples in Attachment FF.

14.C. Describe the school's proposed enrollment policies and procedures, including an explanation of the enrollment timeline, any preferences for enrollment and lottery process. Provide proposed enrollment application as Attachment S.

(1) Enrollment

Pursuant to Section 1022.33(10)(b), F.S., the School will enroll any eligible student who submits a timely application unless the number of applications exceed the capacity of a program, class, or building. In such cases, all applicants shall have an equal chance of being admitted through the lottery process. Enrollment will also follow s. 1002.33(15)(c), F.S., which includes enrolling students according to racial/ethnic balance provisions in s. 1002.33(7)(a)(8) F.S. In accordance with s. 1022.33(10)(d), F.S., the School will give enrollment preference to the following populations: (1) siblings of a student enrolled in the School; (2) children of a founding board member of the School; and (3) children of a School staff member.

The School will open an Enrollment Office in or near the school facility within two months of school opening to begin attracting and enrolling students for the start of the school year. After the start of school, the enrollment office in the School will offer daily open enrollment for students who wish to enroll, space permitting, until the School reaches capacity.

Our admission and enrollment processes will be student-centered and friendly. As part of our mission, we will have year-round open enrollment. Students from our target population tend to drop out of

school at various times during the year; therefore, we need to be able to enroll and engage students as they come.

When contacted by interested students and/or their parents online, over the phone, or in person, the School will guide the interested student through the following process:

- The Enrollment Administrative Specialist will arrange an initial visit and tour for the student and/or parent.
- The student/parent will meet with the Enrollment Administrative Specialist to discuss the student's needs and expectations as well as the School's mission, procedures and probable timeline to graduation.[56]
- All students desiring enrollment in the School will participate in a school tour and complete an application (see Attachment S). Each application will be time and date stamped.
- If the School has open space, the enrolling student will be admitted immediately. If space is not available, the student will be entered into the lottery as described below.
- Upon enrollment, the School will request transcripts and records related to academic history and other relevant information from all the schools that the student previously attended.
- Student will provide information regarding family commitments, employment commitments, and transportation plan.
- Student will complete assessments to determine academic skill levels and vocational interests.
- Student will meet with teachers, administrators, and/or other appropriate school staff to review assessment information and establish the student's Individual Success Plan (ISP). The ISP can be viewed through the School's MySuccess Dashboard to monitor progress.
- Parents will have viewing access to their students' MySuccess Dashboard through the parent portal. The parent portal will serve as the communication tool for parents to access information about their student's progress.

The enrollment packet also outlines the responsibilities of the parents and enrolling students. All school district required documents, forms and policies will also be included in the new student enrollment process as applicable.

Following the enrollment process, each student who is admitted and accepts enrollment will participate in a two-day new student orientation that provides information concerning the program, assessments, procedures, and expectations.

(2) Lottery

In the event that the number of all eligible applicants for enrollment exceeds the School's capacity, the School will perform a random selection process to determine which students are enrolled and which students are placed on a waiting list in the order determined by the lottery.

In accordance with s. 1022.33(10)(d), F.S , the following categories of students will be exempted from the lottery process: (a) Siblings of existing students; (b) Children of a board member; or (c) Children of an employee of the School.

[56] Prior to the opening of the School, the Board would appreciate the opportunity to work with Manatee Public Schools to understand / develop policies for re-enrollment in the student's home school for graduation or transfer of credits so that these policies may be fully explained to the student / parent prior to enrollment.

The Principal or his/ her designee will manage the lottery process and maintain appropriate documentation thereof.

1. Upon application approval, the School will begin accepting applications.
2. If the number of applicants is fewer than or equal to the number of available slots, each qualified applicant will be accepted and enrolled.
3. If the number of applicants meeting the established criteria of this application exceeds the stated capacity of the school, each additional student will be placed in a random lottery.
4. Board members will be notified of the lottery and invited to conduct the drawing for the available slots in the presence of two staff members and participants from the community.
5. Each application will be given a number, and all numbers will be placed in a container. Numbers will be drawn on a random basis and all slots will be filled based on the order of the drawing. All numbers will be picked and the remainder will be used to create the waiting list (the list will be developed based on the number order).
6. There will be at least two (2) staff members present during the lottery drawing, and the lottery will be advertised and open to the public.
7. After the lottery is completed, students will be contacted in the order in which names were randomly drawn and established on the waiting list.
8. As openings are available, and new applicants are added, names will be re-drawn from all names to date (less those accepted/withdrawn/removed by request) by subsequent random lottery drawings.
9. The parent, or eligible student, will have forty-eight (48) hours to accept/refuse the opening and must submit all required documentation for enrollment into the program within seven (7) days after the opening is offered. Should the applicant decide to accept the offered seat, a confirmation email will be sent within forty-eight (48) hours of the student's response. The email will contain instructions for completing the enrollment and registration process. If the parent, or eligible student, is not able to complete the enrollment process, the space will go to the next student on the waiting list. Applicant names for parents/eligible students who do not respond within forty-eight (48) hours or who do not accept the available space, will be removed from the list and will be required to reapply in the future if they would like to be considered in the lottery process at a later date.

15. PARENT AND COMMUNITY INVOLVEMENT

15.A. BRIEFLY EXPLAIN THE GENERAL PLAN TO ENGAGE PARENTS IN THE LIFE OF THE SCHOOL (IN ADDITION TO ANY PROPOSED GOVERNANCE ROLES DESCRIBED IN PREVIOUS SECTIONS OF THIS APPLICATION, IF APPLICABLE) AS WELL AS PLANS FOR REGULAR COMMUNICATION WITH PARENTS ABOUT SCHOOL MATTERS. THIS *COULD* INCLUDE BUILDING FAMILY-SCHOOL PARTNERSHIPS TO STRENGTHEN SUPPORT FOR LEARNING, VOLUNTEER OPPORTUNITIES, OR ACTIVITIES THE SCHOOL WILL SEEK FROM, OR OFFER TO PARENTS. THIS *MUST* INCLUDE THE GOVERNING BOARD'S APPOINTMENT OF A REPRESENTATIVE TO FACILITATE PARENTAL INVOLVEMENT, PROVIDE ACCESS TO INFORMATION, ASSIST PARENTS AND OTHERS WITH QUESTIONS AND CONCERNS, AND RESOLVE DISPUTES, S. 1002.33(7)(D)1., F.S.

Parents will have a multitude of opportunities for involvement in their student's education. At the time of initial enrollment, parents will be invited to attend an enrollment/orientation session with the student during which time opportunities, expectations, and requirements of the program will be clearly explained. This orientation session will include resources and support that parents/guardians will have access to for daily student progress monitoring and communications. Throughout the year, parents will be encouraged to visit the school and to participate in regularly organized school functions

and events, including school sponsored workshops, open houses, parent nights, teacher conferences, and student award ceremonies.

Parents will also have access to view their student's MySuccess Dashboard. Through the Dashboard, parents can track student course performance and progress in real time. They can also see their students' attendance record, reading growth, progress toward promotion or graduation, and their full ISP. They can see the short-term and long-term goals set by their student and can view any written feedback provided to their student by school staff. The MySuccess Dashboard is mobile accessible and provides a powerful tool to ensure that Parents have visibility to their student's success.

Additionally, an annual Parent Satisfaction Survey will be administered to assess school performance as judged by parents/guardians. The results of this survey will be considered by school leadership as well as the Board as important input regarding the success of the School and opportunities for continuous improvement.

The School will comply with s. 1002.33(7)(d)1., F.S., which requires that each charter school's governing board appoint a representative to facilitate parental involvement, provide access to information, assist parents and others with questions and concerns, and resolve disputes. The representative will reside within the boundaries of the School District.

In compliance with section 1116 of the federal Every Student Succeeds Act (ESSA), if the school receives funding under Title I, Part A, it will jointly develop with, and distribute to, parents and family members of participating students a written parent and family engagement policy. This includes convening an annual meeting at a convenient time to which all parents of participating students shall be invited and encouraged to attend to inform them of their right to be involved; offering a flexible number of meetings on different days and at different times to accommodate parent involvement; and involving parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs offered under Title I, Part A.

15.B. Discuss any established community resources that will be available to students and parents, if applicable. Describe any partnerships the school will have with community organizations, businesses, or other educational institutions. Specify the nature, purposes, terms, and scope of services of any such partnerships including any fee-based or in-kind commitments from community organizations or individuals that will enrich student learning.

A key differentiator of the School will be the provision of social, behavioral, and crisis intervention services to students and their families. The Board intends to partner with community groups to include by not limited to: social service agencies, faith-based organizations, university/college schools of social work and counseling, mental health providers, substance abuse counselors, and anti-gang intervention groups. These supportive partnerships will result in the direct provision of social and behavioral health services as well as mentoring, advocacy, and community-wide influence to create employment and postsecondary opportunities. The Board understands that unless social, behavioral, and emotional needs are effectively addressed, learning will be difficult and academic growth will be an unrealistic objective.

The partnerships to be developed through formal MOUs will allow for the following services: direct social services provided to students and their families; referrals for social services; participation in on-campus presentations, college and career fairs, and community resource fairs; and provision of student internships and/or service opportunities. For examples partnership types, see Community Service Providers at an ALS School. Outreach for partnership establishment will be lead primarily by the School's Family Support Specialist with assistance from school and ESP leadership. The primary goal will be to secure as many on-site services as possible and the School's physical plant will include dedicated offices exclusively for partner agency use.

School leaders and the Board will ensure that parental involvement, community partnerships, and collaborations will be enduring and include commitments to ongoing evaluation and improvement, access to available human and financial resources, adequate representation of stakeholders, adequacy of staffing and resources to perform key functions, and adequate performance/accountability mechanisms.

15.C. Provide, as Attachment T, any existing evidence of demand for the school or support from intended community partners, if available (e.g. letters of intent/commitment, memoranda of understanding, or contracts).

Evidence of need and demand for this school is based in part on a review of 2022 assessment data and Class of 2021 graduation outcomes regarding students who have already dropped out or are at risk of dropping out from District Schools (See Attachment T). Our review indicates that there are still a high number of students who are failing or disengaging from traditional middle and high schools and who could benefit from this school's unique model. We firmly believe that education cannot be "one-size-fits-all" and this school can serve as a valuable partner to Mantatee County Public Schools and its quest to ensure that the county has a quality environment available for every learner.

15.D. Describe the process of appointing a representative to facilitate parental involvement, provide parents access to information, and resolve parental disputes. Include a description of how the dispute resolution procedures are designed to resolve and protect the rights of parents as enumerated in ss. 1001.42(8)(c)1.-6., 1002.20 and 1014.04, F.S.

Prior to the school opening and annually thereafter, the charter board will appoint a parent representative who resides within the district and will post their name and contact information on the school website for easy access. The role of the school's parent representative will be to assist school leadership in fostering effective communication and collaboration between the school and parents and will serve as a bridge, facilitating dialogue, understanding, and cooperation between educators and families. They will help address any concerns or challenges that may arise with the goal of strengthening the partnership between the school and parents to enhance student success and well-being.

The dispute resolution procedures, which are outlined in Section 10.L. of this application, are designed to give parents a voice if they believe they are not receiving their right to timely information about their child's progress or welfare. The procedures also enable the parent to go directly to a school administrator to seek resolution.

III. BUSINESS PLAN

16. FACILITIES

If the site is not yet acquired:

16.F. EXPLAIN THE SCHOOL'S FACILITY NEEDS, INCLUDING DESIRED LOCATION, SIZE, AND LAYOUT OF SPACE.

The School will operate as a double session school and offer at least two (2) daily instructional sessions for curriculum instruction, college and career preparation, and personal/social needs counseling. Students will choose to attend one of the sessions (or more as space permits). Because of the dual session option, the facility needs and design will be based on serving a capacity of approximately 250 students in each of the sessions at full enrollment.

The ESP and the Board of Directors will plan for a facility sized at 60-70 square feet per student station (~12,000-15,000 square feet) located in a neighborhood with ahigh concentration of students we intend to serve. A sample facility layout is included in Attachment FF.

The proposed facility size and layout will allow the School to accommodate up to 250 students in each session (total maximum enrollment of 500 students). The School design will be flexible enough to permit the School to open in a stand-alone building, plaza, office building, or other configuration as long as all zoning and safety codes are met. The School considers several parameters in its search for an acceptable site, including:

Desirable	Less Desirable
1. Single story and stand alone. Two story building may be acceptable.	1. A multi-tenant situation, in which we would share common areas with other tenants.
2. Adjacent to public transit lines.	2. Undesirable neighboring uses such as adult entertainment, heavy manufacturing, etc.
3. 60-70 square feet per student for building with off-street parking sufficient to meet State and local codes.	3. Active freight rail lines. Minor spur lines may be acceptable.
4. Building is located in an area that is desirable for retail use or may be regentrifying.	4. Environmental hazards such as polychlorinated biphenyls (PCBs), asbestos-containing materials, heavy metal contamination, etc. that cannot be readily removed from the building or properly encapsulated.
5. Good signage opportunity.	5. Site is within the airport flight path restriction area.
6. Noncombustible building structure or protected to meet construction codes for educational facilities.	6. In most cases, the prospective building will be gutted to the perimeter walls. Any building whose shell cost plus renovation cost approaches or exceeds the cost of new construction.
7. Building has heating, ventilating, and air conditioning (HVAC) and sufficient electrical service to serve the number of student stations noted above.	7. Building cannot house the proposed use without construction of a sizeable addition- more than 33% of the final desired configuration.

Desirable	Less Desirable
8. Building has a fire sprinkler system (desired but not required if school is less than 12,000 square feet in area).	8. Building has wood floor/roof structure.
9. Flex space, drugstores, or office warehouse former use.	9. Building has interior bearing walls in lieu of columns.
10. Zoned for educational usage.	10. Excessive height- where the bottom of the roof deck exceeds 24' above the floor slab.
11. Current usage codes allow for educational usage.	11. Inadequate height- where the bottom of the roof deck is less than 11' from the floor slab.
12. Ability to change zoning or usage codes within 4 months.	12. Restrictions to sewer or water hookups.

Every effort will be made to ensure that the facilities are conducive to learning and student access. Creating a positive learning environment includes attention to detail on both the interior and exterior of the facility. High standards are established to ensure students are learning in a safe and healthy environment. Upon receiving approval of the Charter application, the site will be confirmed and a lease will be secured. At that point, necessary improvements and renovations will commence to meet our facility standards and applicable State and School District requirements.

Through research by ALS, and input from the Board of Directors, the School has researched neighborhoods in Manatee County for a possible school location. As described in Section 2.D., the Board identified the Bradenton area as a high-need neighborhood which is underserved by dropout prevention and dropout recovery programs.

The School may choose another location based on the available facilities, zoning, or other factors, but will prioritize a location in this high-need area. The Board is open to working with the school district to find a more suitable location if it identifies an area with a greater need.

The ESP will lease the facility and negotiate with the landlord for the necessary capital improvements. Prior to detailed lease negotiations, ALS will submit a Letter of Intent that covers the basic lease requirements to each prospective landlord. A detailed site proposal packet will then be prepared for management review and consideration. Once the preferred site is chosen, lease discussions move forward promptly. While the lease is being negotiated, extensive building inspections and design considerations will take place by local engineers, contractors, architects, and other staff. The School's Board of Directors will maintain oversight responsibility throughout the entire facility selection and build-out process.

Once the facility has been secured, the permitting and renovation process will begin. ALS has typically used local architects and contractors to complete all of the design and renovation work and intends to follow the same process for this School. All approvals and the Certificate of Occupancy will be secured at least fifteen (15) days before the first day of school.

16.G. Provide an estimate of the costs of the anticipated facility needs and describe how such estimates have been derived. Identify, if applicable, any funding sources (other than state and local funding)

THAT WILL BE APPLIED TO FACILITIES-RELATED COSTS AND INCLUDE EVIDENCE OF SUCH (E.G. LETTER, MOU) AS ATTACHMENT U.

ALS has over fifteen (15) years of experience at charter school facility design and budgeting, managing construction projects, ensuring compliance with local codes and ordinances, facilities repair and maintenance, and general operations of school buildings. Per the proposed management agreement, ALS is responsible for providing all furniture, equipment, and any necessary tenant improvements ("fixed assets"). These initial costs are estimated to be in excess of $2 million. ALS has provided its confirmation of financial support for these costs in Attachment Z. Other operational start-up costs are included in the start-up budget in Attachment Y.

The estimated renovation costs are based upon ALS's many years of experience in managing the renovations of new schools that operate the same service model, as well as the input of the architectural firm which has worked with the company on the design of many of those schools. Additional cost factors include: total square footage desired, local rental rates in the targeted neighborhoods, type of building, and overall design elements that are included.

Through provisions of the proposed Management Agreement (Attachment EE), ALS is responsible for all costs related to facility acquisition, renovation, and equipment. ALS will manage this process at the direction of the Board. Annual lease payments are incorporated into the operating budget for the school (Attachment X).

16.H. EXPLAIN THE STRATEGY AND SCHEDULE THAT WILL BE EMPLOYED TO SECURE AN ADEQUATE FACILITY.

ALS has extensive experience in locating, building, and renovating dropout prevention and recovery schools in Florida, North Carolina and Georgia. As the proposed ESP, the Board has confidence that ALS will be able to identify a property, assist in executing the lease, complete the necessary renovation, and obtain the required certificate of occupancy for an on-time school opening. ALS has significant experience in facility design and budgeting, managing construction projects, compliance with local codes and ordinances, facilities repair and maintenance, and general operations of school buildings.

All facilities being considered for the final school location will be analyzed through multiple criteria, including but not limited to:

- Total square footage
- Cost of retrofit/remodel
- Proximity to public transportation, schedule, number of stops, and estimated transportation time for students
- Accessibility
- Zoning
- Safety
- Exterior lighting
- Parking
- Signage possibilities
- Neighborhood demographic

These criteria will be analyzed to ensure that the school will be able to open on-time and on-budget. Once the facility has been leased, ALS will begin the permitting and renovation process. ALS has typically used local architects and contractors to complete all of the renovation work and intends to follow the same process for this School. Historically, ALS has been successful in negotiating landlord assistance with some of the needed tenant improvements.

The Board of Directors and ALS will ensure that all local building code approvals, compliance with the Florida Fire Prevention Code and the Certificate of Occupancy are secured at least fifteen (15) days before the first day of school. At no time will students or staff work or attend school in a building that is unsafe or does not have a certificate of occupancy. In addition, all school facilities will comply with applicable health codes, inspection/safety requirements, and will be properly maintained according to the Florida Building Code pursuant to chapter 553. The timetable below describes the anticipated timing of the major steps in the facility acquisition, permitting, and renovation process.

16.I. Describe the back-up facilities plan.

Selection of the School's location and facility are two of the most important decisions for meeting enrollment and other contractual goals. Because ALS has extensive experience in facility acquisition and renovation, the Board has every expectation that we will be able to open our school on time. However, we also understand that zoning, permitting, and usage code changes can delay renovation schedules. If the school opening is delayed to the point where we will not be able to open on-schedule, we will do the following:

1. Define the specifics of the delay and determine a realistic opening schedule.
2. Coordinate and communicate this information with school district personnel.
3. Determine and communicate whether the school can open on a delayed schedule.

Depending on the outcome of the above items, the School will proceed as follows:

Option 1: If the building is not ready to be occupied by the first day of school, plans will be in place to rent modular classrooms. Modular classrooms will be situated in the parking lot of the School and hooked up to existing electrical and plumbing services. Modular classrooms will be furnished with the furniture and equipment purchased for the School building. The School will operate on the established schedule in the modular classrooms until such time as the School receives the Certificate of Occupancy for the permanent location.

Option 2: If modular classrooms are not feasible and the School can open on a delayed schedule, school staff will relay all relevant information to the school district, parents, and students.

Option 3: If the School cannot open on a delayed schedule, it will attempt to temporarily lease and utilize appropriate space from a school or other educational institution such as a Community College, Private Technical College, Charter School, etc. provided available space is code compliant.

Option 4: If the renovation schedule is such that the School opening is delayed, and suitable temporary facilities are not available in the marketplace, the School will (as a last resort) request from the School District a one-year deferral for opening.

17. TRANSPORTATION SERVICE

DESCRIBE THE SCHOOL'S PLAN FOR TRANSPORTATION TO ENSURE THAT TRANSPORTATION IS NOT A BARRIER TO EQUAL ACCESS FOR ALL STUDENTS RESIDING WITHIN A REASONABLE DISTANCE OF THE SCHOOL, S. 1002.33(20)(C) F.S.

The School will ensure that transportation is not a barrier to student enrollment and attendance. The School will provide public transportation passes to all eligible students and will provide guidance to students and parents on public transportation routes, timing, and usage. The School will be located along major lines of the local public transportation system (a recent evaluation reflects that the current public transportation is adequate based on the routes and areas it serves). Students who live two or more miles from the school may receive a public transit pass if they choose to accept it. The School will meet with representatives of the local transit authority to negotiate any potential opportunities for bulk purchasing or education use discounts. The School will also work closely with the local transit authority to ensure seamless processes for purchasing to ensure that on-campus inventory is always sufficient to support student needs. Documentation of purchased transportation passes will be kept on file for a total of three (3) years noting the passes purchased and issued to students. Students will be required to sign for each pass provided to them and these records will be collected and submitted in accordance with State FTE reporting requirements for transportation reimbursement opportunities.

An eligible student must reside and continue to reside two (2) or more miles, or reside in a hazardous zone, between their home and the School. A reasonable walking distance for any student who is not physically disabled is any distance not more than two (2) miles between the home and the School or one-and-one-half (1½) miles between the home and the assigned transit stop. Such distance shall be measured from the closest pedestrian entry point of the School building or to the transit stop. A reasonable walking distance will be identified during the enrollment session for students who are eligible for a transit pass. Students who live under the two-mile threshold who are identified as being in need will meet with an Administrator to determine a transportation solution and will be provided a transit pass if it is determined there is a viable need. The Enrollment Administrative Specialist will assist students and parents with determining the shortest pedestrian route to their closest transit stop and from the drop off location to school.

The School will keep an ample supply of transit passes throughout the school year to meet the current and anticipated needs of all students who indicate at the time of enrollment that they live more than two miles from the school and require public transportation. An additional 5% of the anticipated need is purchased to have on hand in case of emergencies, an increase in enrollment, or individual student needs are identified.

Eligible students will be issued transit passes upon and throughout their entire enrollment period. The passes will include multiple days when appropriate to avoid restrictions on the number of rides and transfers a student is allowed. This approach also provides students who have full- and part-time employment a resource to travel to and from work.

The following procedures are in place for the issuance of student transit passes:

- The student will receive assistance, if needed, during the Student/Parent enrollment session to identify the closest transit stop and the routes the student will follow to get to School.
- The student will receive a transit pass upon enrollment and thereafter upon determination of ridership.
- The student's name must appear on the School's Attendance Roster noting the student is fully enrolled prior to receiving passes.
- The student will be responsible for the security of his/her transit passes at all times.
- If the student is a minor, the parent/ guardian must provide written approval for the student to utilize public transportation to/ from School.

Transportation service will be provided by the School to any student whose IEP stipulates need. Should an Exceptional Education Student (ESE) require special transportation accommodations, the School may contract with the school district or an approved private provider. Furthermore, the School will provide transportation for an ESE student who meets one of the following criteria for specialized transportation as documented in the IEP:

- Medical equipment required – crutches, wheelchair, walker, cane, tracheotomy or unique seating device
- Medical condition requiring special transportation environment according to a physician's prescription
- Aide or monitor required due to a disability and specific need of the student

18. FOOD SERVICE

DESCRIBE THE SCHOOL'S PLAN FOR FOOD SERVICES, INCLUDING ANY PLANS FOR CONTRACTING SERVICES OR PLANS TO PARTICIPATE IN THE NATIONAL SCHOOL LUNCH PROGRAM. EXPLAIN HOW THE SCHOOL'S FOOD SERVICE PLAN WILL ENSURE HEALTHY, WELL-ROUNDED MEALS FOR STUDENTS.

Due to the shorter school day and the flexible schedule option, the School will not provide full meal service. A majority of students will be most focused on maximizing the flexible schedule by completing the required instructional time and then leaving campus promptly for work and/or childcare commitments. The school will have a designated break area where students will be allowed to bring food or they may leave campus for lunch between sessions if they elect to attend for two instructional sessions. For students in need of a meal, the school will ensure their need is met by having pre-packaged healthy snacks and other dry food items on hand at all times. The school will have a food pantry that contains healthy food options free for any student regardless of their

free/reduced lunch status.. Additionally, the school will have vending machines with healthy food options in the student break area for use by all students.

While the school facility will not have a dedicated kitchen for food service, the School is open to exploring opportunities to partner with local agencies and businesses to provide delivered meal options to students. The School will work collaboratively with the School District to determine the School's eligibility for participation in the National School Breakfast program and the National School Lunch Program through the Community Eligibility Provision.

In locations where food service has been identified as a significant need, ALS has been successful in establishing agreements with authorizing school districts to support meal delivery. In these examples, the schools worked in collaboration with the Districts' Nutrition Services Departments to establish an MOU. These agreements involve meals prepared at a District defined location and delivered to the charter schools daily. The schools in turn comply with all food safety and sanitation requirements and provide required student accounting as defined by the department.

19. SCHOOL SAFETY AND SECURITY

OUTLINE THE PLAN FOR SCHOOL SAFETY AND SECURITY FOR STUDENTS, STAFF, THE FACILITY, AND PROPERTY, ESPECIALLY AS IT RELATES TO THE APPLICABLE PROVISIONS IN THE MARJORY STONEMAN DOUGLAS HIGH SCHOOL PUBLIC SAFETY ACT. SPECIFICALLY:

A. DESCRIBE WHAT STEPS THE SCHOOL WOULD TAKE TO ASSURE THERE IS A SAFE-SCHOOL OFFICER PRESENT WHILE SCHOOL IS IN SESSION, PURSUANT TO SECTION 1006.12, F.S.

The School will partner with local law enforcement, a certified security agency, or the School District to provide full time Law Enforcement/Safe School Officer (SSO) coverage for all times in which students are on property (including student entry and dismissal times) in full compliance with the Marjory Stoneman Douglas high School Public Safety Act. A Law Enforcement Officer will perform an annual school walkthrough and safety review and assist in the completion of the Florida Safe School Assessment Tool (FSSAT).

Student and staff safety and security will be a top priority for the School. Our School will have several security measures that are not typical in traditional school settings. These added measures include:

- At least one Safety & Security Specialist, in addition to a contracted Law Enforcement Officer. This Safety & Security Specialist will be trained annually on school safety procedures and crisis prevention and intervention protocol and best practices.
- Secured entry doors (with keycard entry for all staff)
- Alarmed exterior doors throughout the school
- Under-counter duress alarm at front desk connected to local law enforcement
- Secured access from the front lobby to the student/classroom areas
- All guests must be signed in and badged in order to enter the student/classroom areas
- Metal detectors (walk through and hand wand) required of all students as they enter the school daily
- Property safety search of all student belongings upon entry

- All staff trained and certified annually in *Handle With Care- Crisis Prevention / Intervention*
- ERT (Emergency Response Team) identified each year and trained to implement emergency response plans and certified in First Aid and CPR
- Monthly safety and security drills
- Annual Safety Plan developed, reviewed and approved by Director of Safety and Security and submitted to School District

The School will be in full compliance with SB 7026 (Marjory Stoneman Douglas high School Public Safety Act.) to include but not be limited to:

- One full time law enforcement officer on campus.
- Completion of annual school risk assessment tool.
- Collaboration with local law enforcement for a full school walk through and safety review.
- Fortify Florida App posted and accessible to all students and staff.
- Monthly Threat Assessment meetings to include school law enforcement
- Compliance with Alyssa's Law and installation of a mobile panic alert system. The system will be selected from the state's FDOE-selected vendor list and will aim to integrate the same vendor adopted by Manatee County Public Schools
- As part of its annual Mental Health Assistance Allocation Plan, the school will comply with Rule 6A-1.094120, Florida Administrative Code (F.A.C.), and shall ensure annually that no less than 80% of staff have been trained in Youth Mental Health First Aid. In addition, the school's FSS (Family Support Specialist) will participate in the training required to serve as a certified trainer for YMHFA

B. Explain how the school will adopt an active assailant response plan and provide annual training on the plan, as required by section 1006.07(6), F.S.

The School will adopt an Active Assailant Response Plan and all school personnel will receive annual training on the procedures defined in the plan. The School will follow the District's expected schedule for active assailant drills and shall report them as defined by the District. The School will adopt a Family Reunification Plan that will be coordinated with county emergency services.

C. Explain how the school will establish a threat assessment team as required by section 1006.07(7), F.S.

The School will establish a Threat Assessment Team consisting of the school Principal, Assistant Principal, Family Support Specialist (social worker), and an assigned law enforcement officer. The school will use the statewide behavioral threat assessment instrument when needed. The School administrative staff will be trained in the CSTAG model for TAT. The schools TAT will meet monthly per SB 7026.

D. Explain how the school will accurately and timely report incidents related to school safety and discipline as required by section 1006.07(9), F.S.

The School will use the School Environmental Safety Incident Reporting tool (SESIR), to ensure the accurate and timely reporting of incidents related to school safety and discipline. School Administration will be trained annually on the SESIR system and required reporting.

20. BUDGET

20.A. PROVIDE AS ATTACHMENT X, AN OPERATING BUDGET COVERING EACH YEAR OF THE REQUESTED CHARTER TERM THAT CONTAINS REVENUE PROJECTIONS (USING THE FLORIDA CHARTER SCHOOL REVENUE ESTIMATE WORKSHEET AS ATTACHMENT W FOR AT LEAST THE FIRST YEAR OF OPERATION), EXPENSES, AND ANTICIPATED FUND BALANCES. THE BUDGET SHOULD BE BASED ON THE PROJECTED STUDENT ENROLLMENT INDICATED IN SECTION 2 OF THE APPLICATION. A TEMPLATE FOR THE OPERATING BUDGET MAY BE AVAILABLE FROM THE SPONSOR UPON REQUEST.

The annual budget covering each year of the requested charter term is shown in School's operating budget which is included in Attachment X. Summary highlights of this budget also include the School's start–up period along with enrollment assumptions noted at the top of the budget that coincide with the projections in Section 2 of this application.

20.B. PROVIDE A START-UP BUDGET AS ATTACHMENT Y THAT CONTAINS A BALANCE SHEET, REVENUE PROJECTIONS, INCLUDING SOURCE OF REVENUES, EXPENSES, AND ANTICIPATED FUND BALANCE. THE START-UP BUDGET MUST COVER ANY PERIOD PRIOR TO THE BEGINNING OF FTE PAYMENTS IN WHICH THE SCHOOL WILL EXPEND FUNDS ON ACTIVITIES NECESSARY FOR THE SUCCESSFUL START-UP OF THE SCHOOL.

(1) Start Up Budget

The initial financial plan is supported and outlined in the Startup Budget, which is included in Attachment Y. The details and assumptions for this budget are listed below:

(a) Revenue Sources

The School has based its revenue stream on an FTE per student model provided by the FDOE. The School intends to apply for applicable grant funding but will be able to operate the school on FEFP funding alone. As noted in the ESP Support Letter in Attachment Z, the selected ESP, ALS, will provide the Board with funding for all start-up expenses. Additionally, as outlined in the proposed Management Agreement (Attachment EE), ALS "shall advance as a loan to the School, any properly incurred School Expense..." This agreement type allows the school to open with all facilities, amenities and supports outlined in the application without any risk of an operational shortfall. As noted in the draft management agreement, ALS Education, LLC has committed to assuming the financial risk and responsibility for all fixed asset purchases and operational expenses in excess of its management fee throughout the term of the agreement.

(b) Cash Flow Predictions

The cash flow projections are based on the modified accrual method of accounting. We consider cash received when it is measurable and available, and expenses to be earmarked for payment once the goods or services have been received.

The cash flow from a revenue perspective is based on FTEs of students that are used in determining the FEFP revenues and other ancillary revenue that will provide the cash infusion to handle all short-term (less than 60 days) expenses and also assist with preparing for payment of long-term liabilities. Please see Attachment X for the Monthly Cash Flow Projections.

20.C. If the budget is contingent upon sources of funding beyond those typically provided by local, state, and federal governments (such as funding from foundations, donors, grants), provide evidence of such funding (e.g. MOU, letters) as Attachment Z.

Included as Attachment Z is a letter from ALS committing to provide funding for all start-up expenses.

20.D. Provide a detailed narrative description of the line-item revenue and expenditure assumptions on which the operating and start-up budget are based. The budget narrative should provide sufficient information to fully understand how budgetary figures were determined.

The cost assumptions detailed in the budgets reflect typical costs that other ALS managed schools have incurred while opening and operating the same model proposed in this application. The School's major budgetary assumptions include:

1. Pre-start assumes that an enrollment office will be established 3 months before school opening.
2. Hiring is per the detailed schedule in the financial calculations.
3. Computer equipment will be installed the month before school begins.
4. Recruiting and marketing costs are anticipated to be heavy during this period and the first two (2) months of the school year.
5. Pre-start costs will be funded by the ESP
6. Computer equipment is typically refreshed every five (5) years.
7. The other assets (furniture and leasehold improvements) and initial operating expenses will be funded from cash on hand from the ESP, vendor financing or the federal start-up grant, if funds are awarded.
8. Year one costs assume four (4) classrooms will be fully staffed on the first day of school with additional classrooms staffed to coincide with the increased enrollment in the second half of the school year. Staff for additional classrooms will be added as dictated by enrollment.
9. Staff salaries are projected to increase 2% per year for years two (2) through five (5).
10. Professional fees include audit and tax preparation fees as well as legal.
11. Management fees are charged based upon the negotiated management agreement.
12. Accounts Receivable and Accounts Payable are net 30.
13. Start-up expenses are paid prior to year one.

Additional assumptions for each budget are included on the page included in the budget attachments and titled "Assumptions."

20.E. Discuss the school's contingency approach and plan to meet financial needs if anticipated revenues are not received or are lower than estimated. This may include budgets for 75% and 50% of revenue projections or a budget for whatever percentage the applicant considers the minimum percentage at which they could operate the educational plan presented.

As outlined in the Letter of Support in Attachment Z, ALS has committed to providing the Board the funds necessary to start-up the school. Additionally, as outlined in the proposed Management

Agreement (Attachment EE), ALS "shall advance as a loan to the School, any properly incurred School Expense..." However, to demonstrate the school's approach to meet financial needs if anticipated, a budget at 50% of projected enrollment is included in Attachment X1 (last page of Attachment X).

20.F. Explain in detail the year one cash flow contingency plan, in the event that revenue projections are not met (or not met on time).

The School has based its revenue stream on an FTE per student model offered by the FDOE. In addition, the School intends to apply for the Charter School Program (CSP) Planning and Implementation Grants administered by the FDOE for the purchase of furniture and equipment.

In an effort to maintain adequate fund balances, ALS has agreed (See proposed Management Agreement in Attachment EE) that in the event of a cash shortage it will pay any properly-incurred board-related expense, which payment shall be treated as an advance against future revenues by the Company to the School and which shall be evidenced by a loan.

20.G. Provide monthly cash flow projections for the school's start-up period (i.e. from the date on which the application is approved to the beginning of the first fiscal year of operation) through the first year of operation.

The revenues and expenditures used in the budgets and the related assumptions are presented in a format based on governmental funds financial statements. The accounting basis for these budgets and related assumptions are based on the modified basis of accounting required under the Governmental Accounting Standards Board (GASB) under which revenues are recognized in the accounting period in which it becomes both measurable and available and expenses are recognized when incurred.

(1) Monthly Cash Flow Projections during Start-up Period

The monthly cash flow projections for the date on which the application is approved to the beginning of the first year of operations are included in Attachment Y. Assumptions related to these projections for this period are explained in Section 20.D. and Attachment Y. For purposes of the start-up budget, all expenditures for leasehold improvements and purchases of furnishing and equipment are budgeted to be incurred and expended by June 30, 2024.

(2) Monthly Cash Flow Projections during First Fiscal Year of Operations

The monthly cash flow projections for the first fiscal year of operations (for the fiscal year ending June 30, 2025) are shown in Attachment X. Assumptions related to these projections for this period are explained in Section 20.D. and Attachment X.

21. FINANCIAL MANAGEMENT AND OVERSIGHT

21.A. Describe who will manage the school's finances and how the school will ensure strong internal controls over financial management and compliance with all financial reporting requirements.

(1) Experienced Financial Team

The Board plans to hire a certified public accountant licensed to practice in the state of Florida. The Board Accountant is required to maintain continuing professional education in governmental accounting and auditing.

The Board Accountant will have the responsibility for reconciling the School's bank accounts and other accounts on a monthly basis and will assist in the compilation of monthly financial reports. The Board Accountant along with the ESP will be responsible for the maintenance of fixed asset ledgers for all assets owned by the School in accordance with District and/or Florida Department of Education policies.

The accounting functions at the ESP are overseen by the Chief Financial Officer and Controller of ALS. These individuals have years of financial management experience in multi-unit operations. The ESP is staffed by experienced accounting professionals. This team will oversee the school's payroll and procurement/accounts payable functions and assist the Board Accountant and Treasurer in the budget process.

(2) Financial Controls

A budget is prepared and passed annually by the Board of Directors based on enrollment projections. The Board will review budget vs. actual financial results at board meetings. If corrective action is needed with regard to the budget, the Board will agree on corrective action, which may include but is not limited to budget adjustments, expense reductions, consideration of other revenue sources, and, most importantly, a renewed effort to stimulate enrollment.

The Board Accountant will have the responsibility for reconciling the bank accounts and other accounts on a monthly basis. Due to the fact that the accounts payable and payroll functions are performed by the ESP, the ESP will provide documentation as necessary covering its internal controls and process within its charter school disbursements processing system.

The basic accounting processes, including applicable internal financial controls, include but are not limited to:

- The Board of Directors will hire an audit firm licensed in the state of Florida with applicable continuing education requirements for governmental accounting and auditing (governmental CPE).
- The Board of Directors will directly hire a local accountant (Board Accountant) responsible for compiling monthly financial reports to be submitted to the District. This Board Accountant is required to be a certified public accountant licensed in the state of Florida and maintain governmental CPE requirements.
- Budgets for the year will be prepared by ALS and reviewed by the Principal, Treasurer, and Board Accountant. The annual budget will then be presented to the Board of Directors for approval.
- The School will maintain a bank account for which signature authority is held by designated Board members.
- Salary, operating, and capital expenditures will be paid by ALS in the ordinary course of business.
- Salary amounts will be paid bi-weekly. Salaries will be approved each pay period by the Principal, reviewed by ALS, and distributed primarily via direct-deposit.
- Purchases for operating not related to informational technology (IT) will be initiated by the Principal and approved by ESP senior staff.
- Purchases for capital expenditures relating to facilities will be negotiated by ALS on behalf of the School, and will be reviewed and approved by the Board and ALS senior staff.

- Purchases of IT equipment and software will be initiated by the School Principal, faculty, and/or curriculum experts within ALS, and reviewed for operating specifications by the ALS IT department. IT purchases will then be approved by the ALS senior staff, in accordance with the Board-approved budget.
- All disbursements with the exception of grant expenditures (including wires and checks) will be initiated by one of three ESP senior executives from an ALS operating account. All disbursements will include all signed supporting documentation.
- Grant disbursements will be approved by the ESP grant specialist who will compare the expenditure to grant requirements and budgets. Disbursements for grant expenditures will be processed by a designated member of the Board of Directors from the School's bank account.
- All supporting documentation for expenditures for the School (including reimbursement for salary, operational costs, capital expenditures, and the management and education fees) will be submitted monthly to the designated Board member for payment to ALS.
- The designated Board member will review and approve the supporting documentation and disburse funds.
- The supporting documentation will be concurrently submitted to the Board Accountant. The Board Accountant will be responsible for compiling monthly financial statements in accordance with prescribed formats dictated by the School District.
- Financial statements will be reviewed by the Treasurer and approved by the Board. This will include actual vs. budget comparisons. After approval, the financial statements will be submitted to the School District by the Board Accountant in accordance with School District procedures.
- All financial results will be audited by the auditor at fiscal year-end in accordance with *Governmental Auditing Standards* and submitted to the board for approval.

21.B. Explain the mechanisms the governing board will use to monitor the school's financial health and compliance.

The Board understands its fiduciary responsibilities for the public funds we receive and assures the Sponsor that the Board will retain ultimate control over the School's finances.

Prior to each fiscal year, a budget for the upcoming fiscal year will be prepared in cooperation between the ESP, the Board Accountant, the Principal, and the Treasurer designated by the Board. This budget will take factors into consideration such as projected enrollment, staffing and all other fixed and variable costs. Once complete, the budget will be submitted to the full Board for final review and approval.

A bank account will be established for the School. The Board will have sole control and access over this account. Cash receipts for Florida Education Finance Program (FEFP) payments related to FTE will be received into this bank account. Grant monies and other funds received by the School will be deposited in this account as well. Disbursements from this account primarily relate to payments to the ESP for school operating expenses and Board related costs (i.e. legal, board governance, audit, accounting and debt service). The Chairperson and the Treasurer of the Board will be the only approvers of all cash disbursements from their bank account.

ALS will be responsible for the majority of procurement, accounts payable, payroll and administration functions. The School will be billed monthly in accordance with the management agreement.. As mentioned above, the Treasurer and Board Chairperson will be responsible the approval of the monthly disbursements to ALS from the bank account.

The Board will receive monthly financial statements and enrollment figures from the Board Accountant. These reports will include the balance sheet, income statement, bank reconciliation, and cost reports on a monthly basis or as dictated by the Board of Directors, School District, and the FDOE. The financial reporting will follow guidelines applicable to GASB #34 and include, where applicable, OMB Circular A-133 Cost Accounting and Reporting. The Board Accountant will also produce financial information on a monthly basis in the format as required by the Financial and Program Cost Accounting and Reporting for Florida Schools (Red Book 2021) and budget vs. actual financial statements.

Promote Enhanced Academic Success and Financial Efficiency

The School will align financial accountability with its responsibility for students' academic success in the following ways:

- Hiring highly-qualified certified teachers and administrators who are experienced in working with the target student population. Research continues to demonstrate that experienced and highly-qualified teachers are the primary contributors to student achievement and success.
- Acquiring the most effective technology and instructional materials to meet the needs of the target student population.
- Using a cost-benefit analysis process to ensure that school funding is effective in achieving the mission and goals of the School.

21.C. Describe the school's plans and procedures for conducting an annual audit of the financial operations of the school.

The non-profit Board will retain an audit firm on an annual basis through a request for proposal process. This firm will audit the financial information which has been provided to the Board by the Board Accountant and the ESP. The financial statements will be prepared in accordance with generally accepted accounting principles (GAAP) as required by the Governmental Accounting Standards Board (GASB). The audit will be performed in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States and also in accordance with Chapter 10.850, Rules of the Auditor General, which governs the conduct of charter schools and similar entity audits performed in the State of Florida.

21.D. Describe the method by which accounting records will be maintained.

Based on the guidance provided in the *American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guide – Not-for-Profit Organizations*, and provisions of the Florida Statutes, the School will be presented as a governmental organization for financial statement reporting purposes. This School is required by its agreement with the District to use the governmental reporting model and follow the fund and account structure provided in the "Financial and Program Cost Accounting and Reporting for Florida Schools (Red Book) issued by the Florida Department of Education. The Governmental Accounting Standards Board (GASB) defines generally accepted accounting principles for not-for-profit entities. The GASB promulgates standards at various intervals. The Board is responsible for ensuring that all applicable GASB Statements are considered in the preparation of the financial statements.

The Board will hire a local accountant (the Board Accountant) who will assist in the compilation of monthly financial reports. The Board Accountant will be required to be a certified public accountant licensed to practice in the state of Florida. In addition, the Board Accountant will be required to maintain continuing professional education in governmental accounting and auditing.

21.E. Describe how the school will ensure financial transparency to the authorizer and the public, including its plans for public adoption of its budget and public dissemination of its annual audit and financial report.

The Board will ensure financial transparency by:

- Including the school's annual budget and annual independent fiscal audit on its website as required by s. 1002.3(9)(p)1., F.S.;
- Providing the annual budget to the District after adoption by the Board;
- Providing any amended budgets to the District within 10 days after board approval;
- Posting notice in advance of all meetings on the school website, ensuring that all meetings are open to the public;
- Posting notice in advance of all meetings on the school doors which includes an agenda of items to be discussed during the meeting.
- Including the minutes (which include financial matters) of all meetings on the school's website.

21.F. Describe any key back-office services to be outsourced via contract, such as business services, payroll, and auditing services. Include the anticipated costs of such services and criteria for selecting such services.

As described in the previous sections, the Board will be using its Board Accountant to assist in the preparation of an annual budget and the compilation of monthly financial reports. The anticipated annual cost of these services is $12,000. The Board will retain an independent audit firm on an annual basis after the first year of operation through a request for approval process. The anticipated annual cost of these services is $12,000. All other financial functions (procurement, accounts payable, payroll, administration, etc.) will be handled by ALS, the Board's Education Service Provider (ESP). The School will be billed monthly for the expenditures incurred for the previous month for these functions as outlined in the proposed Management Agreement in Attachment EE.

21.G. Describe how the school will store financial records.

Financial records will be stored electronically via software maintained on a network and backed up per ALS's Information Technology policy. Records will be maintained for the appropriate retention period required by federal and/or state regulations. Additionally, accounts payable supporting documentation will be stored via hardcopy for two years onsite and the remaining year at offsite storage. Paper versions of student and financial records will be stored in locked fireproof cabinets or fire-rated filing rooms as required in Chapter 119 of the Florida Statutes or be reduced to electronic documents for storage. Required student records will be prepared in a manner consistent with Florida statutes. Retention periods and disposition of records will be managed in a manner consistent with what is specified in the local School Board Records Management Manual.

21H. Describe the insurance coverage the school will obtain, including applicable health, workers compensation, general liability, property insurance, and directors' and officers' liability coverage.

(1) Health Insurance

The School will use a competitive, comprehensive salary and benefit package as a tool for attracting and retaining top-notch teachers, administrators, and other staff members. Benefits' levels may be adjusted periodically based on the school's financial condition. The health components of the compensation plan will include:

- Medical insurance
- Dental insurance
- Vision insurance
- Prescription drug plan
- Short-term disability insurance
- Long-Term disability insurance
- Health Care Reimbursement Account
- Dependent Care Reimbursement Account

(2) Other Insurance

Insurance coverage will comply with requirements specified by the School District or applicable state statutes. Coverage includes the following:

- Errors and Omissions Insurance
- Officers and Directors Liability Insurance
- Fidelity Bonds
- Commercial (General) Liability Insurance (includes casualty)
- Automotive Liability Insurance
- Employee Liability Insurance
- Property Insurance

The School will pay any deductible and premium amounts attributable to such insurance contracts. In addition to the insurance contracts and coverage discussed, all additional leases, debts, and other financial obligations of the School shall be obligations of the School and shall not constitute a debt, liability, or financial obligation of the School Board. Where applicable, the School District will be named as an additional insured. The School will carry the necessary worker's compensation and unemployment compensation coverage. The insurance companies we are seeking to provide coverage will have a rating of "A" or higher and a financial size category of "VII" or higher. We have conducted research for insurance company ratings utilizing the A.M. Best Company website.

22. START-UP PLAN

22.a. Present a projected timetable for the school's start-up.

Addendum A: REPLICATIONS

A. IDENTIFY THE EXISTING SCHOOL(S), INCLUDING MSID NUMBER(S), TO BE REPLICATED AND PROVIDE EVIDENCE THAT THE EXISTING DESIGN HAS BEEN EFFECTIVE IN RAISING STUDENT ACHIEVEMENT. THE EFFECTIVENESS OF AN EXISTING SCHOOL DESIGN SHOULD INCLUDE EVIDENCE OF THE SUCCESS OF THE ACADEMIC PROGRAM AS WELL AS ORGANIZATIONAL AND FINANCIAL VIABILITY. IT SHOULD SHOW A DIRECT RELATIONSHIP BETWEEN PROGRAM ELEMENTS AND STUDENT ACHIEVEMENT.

The proposed school will replicate the program design currently in place in the Florida schools listed below:

District	School Name	MSID
Brevard	Riverside Charter High School	6521
Miami-Dade	Green Springs High School	7067

Academic Effectiveness

Students enrolling in the School are expected to have characteristics similar to students enrolled in the Schools listed above, all of which are managed by the proposed Education Service Provider, ALS Education. The typical student referred to these dropout prevention and recovery programs are:

- Approaching 18 years old and 2 or more years behind their expected grade level.
- Academically unsuccessful—97% reading below grade level (average 4th grade level) and 87% performing math below grade level (average 4th grade level).
- Average of 9.9 credits earned prior to enrolling. This is 14.1 credits (or more than 2 years in a traditional high school) away from meeting graduation requirements.
- Average GPA of 1.5 (compared to the 2.0 required for high school graduation).

- Significant personal/social obstacles that often impede academic success - 44% parenting, pregnant or caring for other family members and 49% holding a job to help support themselves or family.

Various factors precede and may cause these students to fall "off track" in their school progress. Students report that they have become disengaged from the traditional high school classroom because the pace of instruction is too fast or too slow; they are not interested in joining or have felt excluded from traditional high school "communities" and are not participating in social and extra-curricular activities; they are unable to attend a traditional high school because family or employment commitments do not allow them to attend a school with a traditional schedule; and, for many, family and personal crises create uncertainty and instability in their lives (e.g., family dysfunction, family care responsibilities, frequent change of residence, food insecurity, substance abuse, etc.).

Despite these challenges, students enrolled in 2022-23 at the schools to be replicated are showing academic progress and success as follows:

- Ninety one percent (91%) of 2022-23 students participating for a semester or more in the Reading Plus program have demonstrated at least one (1) grade level of skill growth in Reading.
- Seventy six percent (76%) of participating students demonstrated at least two (2) grade levels of skill growth in Reading.
- On average, students attending for a semester or more earned an average of over seven credits per year. Prior to enrollment, these students were earning an average of 3.3 credits per year. These students increased credit earning by 139 percent.
- Forty (40) percentage point increase in students with a cumulative GPA of at least 2.0 after a semester of attendance. Twenty-seven (27)% of students entered the schools with a 2.0+ GPA and, after attending our schools for a semester or more, sixty seven percent (67%) achieved a GPA of 2.0 or higher.
- Seventeen (17) percentage point better student performance on standardized tests than other alternative schools, as measured by the FLDOE School Improvement Rating ("SIR") system – Fifty-seven percent (57%) of 2021-2022 (last reported data) students in the average ALS-managed school demonstrated more than a year of growth or were proficient on standardized Math and ELA assessments. This performance compared to forty percent (40%) of students in other Florida alternative education schools who, on average, demonstrated more than a year of growth or were proficient on standardized Math and ELA assessments.

Perhaps the strongest evidence of the success of this school design is that **2,015 previously off-track students graduated from ALS-managed schools in 2022-23. In fact, 1,059 (52%) of these graduates were able to accelerate their learning and credit accumulation to graduate <u>on-time</u> with their 2019-20 9th grade entry cohort.**

The student stories below, while unique to each graduate, illustrate how our highly effective and replicable program can meet the myriad needs of off-track high school students:

Eloreen had spent most of her childhood bouncing between her mother's home and foster/group homes. She developed an anger issue which often caused her to get into fights at school. Eventually, she was expelled from public schools and enrolled in a special program

for troubled girls. Upon turning 18, she had to leave that program but was referred to *Worthington High School (Palm Beach County, Florida)* to earn the final three credits she needed. The school's staff saw her potential and continued to encourage her until she completed her final required course. Her tenacity was rewarded with an invitation to be Worthington's student speaker at the graduation ceremony. Eloreen went on to attend Palm Beach State College to pursue a career in social work, saying that she wants to help troubled young girls the way she has been helped.

Ricardo transferred to *North Nicholas High School (Lee County, Florida)* at the age of 17, needing 7.5 credits to graduate. He had been missing school for weeks at a time due to a medical condition, so was seeking a flexible program that would accommodate his attendance needs. During Ricardo's time at North Nicholas, he made up the credits he needed and significantly raised his GPA. He was named a Student Ambassador for the school, a position in which he met with new and potential students to explain the program. A native of Haiti, Ricardo was especially proud to be able to help and motivate other Creole-speaking students. Ricardo completed his graduation requirements and was the recipient of a scholarship from Cape Coral For the Children, Inc. He entered Florida Southwestern College after graduation.

Leann had become distracted in her traditional high school and was starting to skip classes. A counselor at her school suggested she try the flexible schedule at *Aloma High School (Orange County, Florida)*, in which she enrolled as a 16-year-old in 10th grade. Her progress was slow at first, but she was determined to finish school and wanted to raise her GPA to help earn scholarships. She earned the credits she needed and improved her grades. She believes she would not have completed high school if not for the staff at Aloma. "They never gave up on me because they wanted to see me graduate. I'm very grateful for all the help I got from teachers and administrators at the school." Leann enrolled at Valencia College, where she is majoring in business management and entrepreneurship.

Pedro was referred to *North Park High School (Miami-Dade County, Florida)* because he had been struggling in his large traditional school as a result of his limited proficiency in English. At North Park, he was able to learn at his own pace in a small school setting and receive the support he needed as an ESOL (English for Speakers of Other Languages) student. Pedro was able to earn his diploma and enroll at George T. Baker Aviation Technical College where is working toward a career in the aviation industry.

Organizational and Financial Effectiveness

Each of the replication school align financial accountability with responsibility for student success. Each School operates under guidelines set by its charter board and has policies and standardized procedures in place to support effective replication of the school design.

All of these ALS-managed charter schools are tax-exempt, non-profit and have been audited in accordance with:

- generally accepted auditing standards;
- *Government Auditing Standards* issued by the Comptroller General of the United States; and
- Chapter 10.850, Rules of the Auditor General, which governs the conduct of charter school and similar entity audits performed in the state of Florida.

B. DISCUSS THE KEY COMPONENTS OR NON-NEGOTIABLE ELEMENTS OF THE EDUCATIONAL PROGRAM THAT MAKE THE SCHOOL DESIGN WHAT IT IS AND THAT THE OPERATOR WILL EXPECT TO REMAIN CONSISTENT AND ESSENTIAL TO THE SUCCESSFUL REPLICATION OF THE MODEL.

The School's instructional program has five essential elements that are considered non-negotiable and critical to successful replication and high-quality outcomes: a) flexible daily schedule; b) individual success plans; c) blended learning instructional model; d) on-site and referral-based wrap-around student support services and e) intentional and ongoing college and career planning. These are described in detail in Section 3.B. of the Education Plan.

C. DESCRIBE HOW THE TARGET POPULATION FOR THE PROPOSED SCHOOL COMPARES WITH THE POPULATION(S) CURRENTLY BEING SERVED. EXPLAIN WHY THE MODEL WILL BE EFFECTIVE AND SUCCESSFUL IN RAISING STUDENT ACHIEVEMENT WITH THE APPLICANT'S TARGET POPULATION.

ALS and the Board of Directors have identified high-need neighborhoods in the District which lack adequate access to dropout prevention and dropout recovery programs. The target student population in these identified locations is anticipated to be similar to the population currently served at the replication schools in 2022-23 (described above in section A).

The model will be successful in raising student achievement with the target population as evidenced by the results achieved in the replication schools (See Section A) who are implementing the same instructional and support model which is founded upon evidence-based practices to include:

- **Open Entry Enrollment:** This allows students to begin at any time during the school year, space permitting. Students who have dropped out or have missed considerable time in school due to truancy or other interfering life circumstances do not need to wait for a new semester or new school year to re-enter school and progress toward graduation.

- **Flexible Scheduling and Shorter School Day -** The School will have two session options and the ability to adjust scheduling as needed to help students accommodate work and/or childcare responsibilities. Students can also choose to attend multiple sessions to further accelerate progress toward graduation.

- **A Blended Instructional Model-** Direct instruction combined with online content allows students to work at a pace that is appropriate to their skill level while providing an opportunity to build basic skills and accelerate credit earning. This model gives students, staff and parents real time feedback on course progress and identified areas of concern to ensure immediate and targeted support when academic obstacles arise.

- **Extensive Academic & Social Supports On-site-** The School is small allowing for more individualized attention both academically and socially. The school Family Support Specialists in collaborative partnerships with community agencies will provide comprehensive on-site and referral-based supports to students and their families from a broad array of services to include individual/mental health counseling, family counseling and case management.

D. TO THE EXTENT THAT THE TARGET POPULATION FOR THE PROPOSED SCHOOL DIFFERS FROM THE POPULATIONS BEING SERVED IN EXISTING SCHOOLS, EXPLAIN ANY ANTICIPATED MODIFICATIONS AND ADJUSTMENTS TO THE EDUCATIONAL PROGRAM.

The target population for the proposed school does not significantly differ from the schools being replicated, so no modifications or adjustments are anticipated.

E. DESCRIBE ANY OTHER WAYS IN WHICH FEATURES OF THE PROPOSED SCHOOL'S EDUCATIONAL PROGRAM WILL DIFFER FROM THAT OF THE SCHOOL(S) TO BE REPLICATED. EXPLAIN THE RATIONALE FOR THE CHANGE(S) AND ANY NEW RESOURCES THAT THE VARIATION(S) WILL REQUIRE.

Our intent is to replicate the educational program at the replication schools with no variations.

F. DISCUSS THE PLAN FOR REPLICATION, INCLUDING IF THE OPERATOR WILL NEED TO ACQUIRE AND ALLOCATE ADDITIONAL FINANCIAL AND HUMAN RESOURCES NECESSARY TO REPLICATE THE DESIGN SUCCESSFULLY. IF ADDITIONAL RESOURCES ARE NECESSARY, DESCRIBE THE PLAN FOR SECURING.

Because our ESP, ALS, is accustomed to operating and opening multiple locations, it is anticipated there will be no need for additional resources. As fully described in Addendum B, ALS is already managing nineteen schools, and is fully staffed to provide services to another school. These services include, but are not limited to:

1. Employee Management and Administration
2. Instructional Programs Consulting / Curriculum Management / Professional Development
3. Social Work and Family Service Development and Consulting
4. Human Resource Recruitment and Consulting
5. Financial Management and Funding Consulting Services
6. Information Technologies Design, Consulting, Procurement, and Support
7. Student Recruitment
8. Student Testing and Assessment, Research, and Data Reporting
9. Facility Services

G. DISCUSS THE RESULTS OF ANY PAST REPLICATION EFFORTS, IF APPLICABLE, AND LESSONS LEARNED – INCLUDING PARTICULAR CHALLENGES OR TROUBLES ENCOUNTERED; HOW YOU HAVE ADDRESSED THEM; AND HOW YOU WILL AVOID OR MINIMIZE SUCH CHALLENGES FOR THE PROPOSED SCHOOL.

In 2008, the first five ALS-managed schools being replicated opened in Orange and Lee Counties. Since that time, the model has been successfully replicated in fourteen additional Florida schools, as evidenced by: consistently high performance across the network of schools on the State's School Improvement Rating (SIR) for alternative schools; successful charter renewal terms of up to 15 years; and accreditation renewal by Cognia with an achieved quality index score above the average for accredited school systems. Challenges encountered during the first school replications have been addressed through a commitment to continuous school improvement and identified areas of opportunity have been incorporated into the instructional and operational model.

Addendum B: EDUCATION SERVICE PROVIDERS

ESP SELECTION

A. Explain why the applicant is seeking to contract with an ESP rather than operate the school(s) directly.

The Board of Directors is seeking to contract with an ESP to operate this school because:

- Although we are experienced professionals in many of the areas necessary to oversee a charter school, we do not have the resources, experience or expertise required to provide the day-to-day supervision required to operate a school;
- We believe there is a need in our county to provide Dropout Prevention and Recovery Program (DPRP) schools in areas that are currently underserved and the ESP we have selected has a track record of success in serving our target student population; and
- Through conversations with other charter boards which have worked with our selected ESP, ALS Education (ALS), we are confident in its ability to provide a program that is educationally and financially sound.

B. Explain how and why the ESP was selected. If this is the first time the applicant has contracted with this ESP, explain when and how the applicant learned of the ESP, what other ESPs were considered, and why the ESP was selected over other ESPs.

The Board of Directors is choosing to contract with ALS for three (3) primary reasons. First, ALS has over fifteen years of experience opening and operating successful DPRP schools. Second, ALS has an educational and support approach that aligns with the philosophy and mission of the Board. Third, ALS has a track record of effectiveness in meeting the needs of at-risk students as evidenced by: consistently high performance across the network of schools on the State's School Improvement Rating (SIR) accountability system for alternative schools; successful charter renewal terms of up to 15 years; and accreditation renewals by Cognia with an achieved quality index score about the average for accredited school systems..

ALS has a track record of achievement and academic success that the company has achieved in each of its school district partnerships (Please see the "ESP Track Record" section of this document). The ALS leadership team has decades of experience in Education, Finance, Business Management, Public Relations, Social Work/Mental Health and related fields, and has a proven record of commitment to helping low-performing students remediate their skill deficits, accelerate their learning and earn a high school diploma (See "ESP Background" section). ALS believes that all students can improve their academic performance if given the time, opportunity, resources, structure, and encouragement from caring, competent adults. School district administrators, board members, and business and community leaders in school districts in which ALS manages charters attest to ALS' ability to implement programs in a cost-effective, efficient, and timely manner that has consistently met their needs and requirements.

C. For applicants working with an ESP for the first time, provide summary information from reference checks conducted by the applicant (regarding the ESP), identifying each reference.

Our Board's primary reference check was conducted with a Charter Board in Hillsborough County that hired the company to open and manage their DPRP charter schools starting in 2009. Over the past 15 years, ALS has successfully supported that Board in expanding from one to two schools; achieving all annual outcome goals; earning "commendable" and "maintaining" SIR accountability ratings; securing and renewing Cognia (formerly SACS-CASI) accreditation; and successfully earning 10-year contract renewals.

In addition to the Board's reference from the Hillsborough County Governing Board Representative, we conducted site visits to currently-managed ALS schools that included meeting with organizational leadership, school leadership, teachers and staff as well as talking to students individually in their classrooms. The site reviews provided an opportunity for firsthand evaluations of the program delivery and direct reference from the individuals involved in implementing the model as well as the recipients of it. The enthusiasm of the Hillsborough County charter board – which has watched 922 previously unsuccessful students graduate from its schools since 2009, together with our interaction with ALS employees and students, provided a valuable reference and contributed to our confidence that ALS is the right ESP to help us replicate this program for struggling students in our district.

An additional reference was provided by the chairman of the board that holds the charter for Elevation High School in Seminole County. Elevation is one of the newest schools that the company operates under board governance– having been in operation since 2021-22. In its first year, Elevation was awarded a Commendable School Improvement Rating. From this board chair, we received valuable information about how the board worked with ALS through the application and start-up processes to have a successful school from the start.

D. Describe whether and how the school's board has assessed the capacity of the ESP to successfully carry out the functions necessary to operate a high-quality charter school.

The Board is confident of ALS's capacity to operate a high-quality school based on the information we have reviewed about its success in other Florida districts and with other non-profit governing boards. Key operational outcomes were considered when making the decision to use ALS as the ESP for the School. These include academic/student outcomes; operational outcomes, fiscal management/ outcomes and stakeholder outreach along with an assessment of the Board's experience with members of the ESP's management. See "ESP Track Record" below for a detailed review of the outcomes that supported the Board's selection.

As with all businesses and schools, ALS was forced to make changes when the COVID-19 pandemic hit in Spring 2020. At the very start of the pandemic, the organization quickly and successfully pivoted its instructional and support model to meet the needs of students and teachers in a remote delivery environment. ALS's Remote Learning Plan and later its Spring Innovative Learning Plan were both approved by district authorizers and the State Board of Education. The Board views this as further evidence of the organization's ability to adapt swiftly to changing needs and effectively respond to new regulatory requirements. ALS's success in implementing its program with fidelity while navigating unprecedented education challenges is a strong indicator of the organization's capacity to respond to challenges and to innovate in response to the current and future needs of the target student population.

ESP BACKGROUND

A. Provide the mission of the ESP and an overview of the organization's strategic vision, including, if applicable, a five-year growth plan, and rationale for managing new schools.

ALS's mission is to help at-risk students earn a standard high school diploma and prepare for postsecondary success. The vision of the company is to provide students who are severely off-track and academically challenged with an innovative, flexible and alternative approach to learning. This philosophy is based on the belief that all students deserve a quality education and another chance to succeed in school. The following are core beliefs that provide the basis for the philosophical foundation of the Company's services:

- All students can learn.
- All students have the intellectual ability to complete high school coursework and successfully transition to a postsecondary opportunity if the barriers to their high school attendance and learning are removed.
- All students can be taught to be accountable for their learning, to identify their own learning needs, and to find the resources and support they need.
- All students deserve a first-class education that sets them on a path toward a successful future and life.
- All students need access to responsive, supportive relationships and guidance from adults.
- Some students need a non-traditional educational environment to overcome obstacles and graduate from high school.
- All students deserve every opportunity to live up to their potential through access and exposure to the many postsecondary options available to them.

No single educational organization, philosophy, or program is right for everyone. All students learn at different rates and in different ways. Students should have educational choices that meet their individual needs and learning styles. The students ALS serves are more likely to overcome their daunting life obstacles when they are connected to important adult relationships, services, and interventions that address their unique academic and social challenges. In addition, students' high school experiences need to prepare them adequately for postsecondary education and the demands of work by exposing them to their options and helping them overcome the barriers to successful postsecondary transition.

B. Identify the ESP's leadership team and their specific roles and responsibilities. Include as Attachment BB an organization chart for the ESP.

Attachment BB includes an organization chart for ALS. The leadership includes:

- Angela Whitford-Narine, Chief Executive Officer - Responsibilities include making major corporate decisions and managing the overall operations and resources of the Company. Ensures that academic outcomes are achieved in all managed schools while collaborating with governing boards, school leadership and key authorizer staff to develop and execute strategic plans for accomplishing the mission of the organization and Board.
- Jeff Dilley, Chief Financial Officer – Responsible for the financial management and leadership of the company.

- Mark Ornstein, Vice President of Operations – Responsible for supervising all schools managed by ALS as well as overseeing personnel responsible for facilities, human services, and safety/security.
- David Zeiler, Executive Vice President of Educational Platforms – Responsible for leading and overseeing the development and delivery of current and new curriculum and instructional programs.
- Drew Hill, Vice President of Marketing and Enrollment – Responsible for developing and executing marketing and enrollment plans that align with ALS's mission for student success.
- Greg Engeman, Executive Vice President, Organizational Relationships - Responsible for developing relationships with new school district partners, and acts as liaison between the charter school board and ALS.

ESP TRACK RECORD

A. Provide evidence of organizational capacity to open and operate high-quality schools in Florida and, if applicable, elsewhere in accordance with the overall growth plan. Outline specific timelines for building or deploying organizational capacity to support the proposed school.

With a fifteen-plus year track record of serving students in urban communities, ALS has demonstrated a broad range of school management capabilities resulting in the attainment of new charters and the renewal of eligible existing charters within seven school districts in Florida, two school districts in North Carolina and one school district in Georgia.

ALS currently possesses the organizational capacity to open and support the proposed School and will begin deploying such supports immediately upon approval to begin the new school activation process. The organization continually assesses its ability to successfully support the management of its Schools and deliver on the commitments defined by the school contracts and management agreements. As such, when gaps or opportunities are identified the organization will act accordingly.

ALS regularly solicits feedback from its partnering governing boards to evaluate the efficacy and satisfaction with staffing levels, both current and proposed, for growth and initiatives to enhance the accomplishment of the mission.

B. Provide a comprehensive listing of ESP-operated charter schools (current and past) by completing form IEPC-M1A and attach as Attachment DD.

The comprehensive list is included as Attachment DD.

C. Explain the ESP's success in serving student populations similar to the target population of the school. Describe the ESP's academic track record (provide specific academic results on all schools using Form IEPC-M1A, attached as Attachment DD).

Academic results for all schools operated by ALS are shown in Attachment DD. Academic outcomes among 2022-23 students at ALS-managed schools include:

- Ninety one percent (91%) of 2022-23 students participating for a semester or more in the Reading Plus program have demonstrated at least one (1) grade level of skill growth in Reading; while seventy six percent (76%) of participating students demonstrated at least two (2) grade levels of skill growth in Reading.
- On average, students attending for a semester or more earned an average of over seven credits per year. Prior to enrollment, these students were earning an average of 3.3 credits per year. These students increased credit earning by 139 percent.
- Forty (40) percentage point increase in students with a cumulative GPA of at least 2.0 after a semester of attendance. Twenty-seven (27)% of students entered the schools with a 2.0+ GPA and, after attending our schools for a semester or more, sixty seven percent (67%) achieved a GPA of 2.0 or higher
- Seventy-five percent (75%) of graduates planned to attend a 2- or 4- year college or a Career and Technical program following graduation with an additional 3% planning to enlist in the military.

Organization-level accomplishments include:

- Accreditation- In February 2012, ALS was originally awarded AdvancED Corporation Systems Accreditation with a status of Accredited. ALS was the first DPRP charter school management organization in the state to earn this distinction. In 2017, ALS was re-accredited for another 5 year term, receiving an Educational Quality Index Score above the average of accredited schools, and in 2022, ALS was again reaccredited by Cognia (formerly AdvancED) for another 5-year term.
- Strong Performance on State Accountability Ratings- ALS schools have consistently high performance across the network of schools on the State's School Improvement Rating (SIR) for alternative schools.
- Positive Operational Outcomes: ALS schools have a demonstrated track record of positive reviews of annual compliance with Federal, State and contractual accountabilities.
- Extended Term Renewals- The charter agreement for every ALS-managed school that has reached the end of its term and sought to renew has been **renewed** by its authorizing district school board. This includes three schools in Miami-Dade County (renewed for 10 years), three schools in Lee County (renewed for 15 years), five schools in Orange County (renewed for 15 years), two schools in Palm Beach County (renewed for 10 years) and two schools in Hillsborough County (renewed for 10 years).

D. List and explain any management contract terminations as well as any charter revocations, non-renewals, withdrawals or non-openings that the ESP has experienced in the past five (5) years.

There have been no management contract terminations, non-renewals, withdrawals or charter revocations in the past five years..

LEGAL RELATIONSHIPS

A. Describe how the school's governing board is independent from the ESP and self-governing, including evidence of arm's-length negotiating.

The Board of Directors will engage independent legal counsel, board accounting services, and financial auditors. The legal counsel will assist the Board in developing, negotiating, and monitoring a formal management agreement with ALS. The Board of Directors will approve the annual operating budget of the School, and expenditures will only be incurred after the Board has approved the budget.

The Management Agreement (in Attachment EE) will specify performance expectations of ALS with regard to business and academic expectations. The duties and responsibilities of both parties will be outlined in the charter contract and reinforced in the Management Agreement. If these are not fulfilled, the Board will be able to terminate the relationship with ALS. Not only will this Agreement assure a proper and legally appropriate relationship with the Board of Directors, it will also simplify and streamline the operation of the School with little need for complex, multiple agreements between the Board of Directors and vendor/suppliers.

The Board of Directors of the School will be the policy-makers and have ultimate authority and control over the School and hiring the ESP. The Board will expect ALS to report on student achievement results at each Board meeting. The Principal, with support from ALS, will be the policy-executor and undertake the day-to-day responsibility of carrying out the Board's directives. If the ESP breaches its agreement with the Board of Directors, does not live up to scholastic performance measures in the Charter School Contract, and cannot cure those breaches within the required timelines, then the Board of Directors reserves the right to discharge ALS from its duties and take over all day-to-day operations to ensure that the School can continue to educate students.

The IRS has awarded tax-exempt status to the charter boards of all charter schools managed by ALS that are using, or will use, this instructional and program model. The IRS uses a strong test of governing independence when awarding tax-exemption and has judged these agreements to be fully consistent with "arms-length" relationships that reflect the Board's independence and oversight.

B. Explain whether the school has or will have any legal or contractual relationships with any subsidiaries or other entities or individuals that are affiliated[1] with or owned in whole or in part by the ESP.

The School does not have and will not have any legal or contractual relationships with any subsidiaries or other entities or individuals that are affiliated with or owned in whole or in part by ALS.

C. Explain the supervisory responsibilities of the ESP (if any), including which school employees the ESP will supervise, how the ESP will supervise these employees, and how the school's governing board will oversee the ESP's supervisory responsibilities.

As indicated in the organizational chart included as Attachment M, the Board of Directors will provide the governance and policy direction for the School and have ultimate authority and control over the School.

As the governing body, the Board will be responsible for hiring approval of the Principal and all instructional personnel, setting school policies, approving school budgets, and monitoring financial and student achievement objectives and progress in attaining them. The Board understands that

1 The term "affiliated" means and includes one or more corporations or entities under the same or substantially the same control of a group of business entities which are connected or associated so that one entity controls or has the power to control each of the other business entities. The term "affiliated" includes, but is not limited to, the officers, directors, executives, shareholders active in management, employees, and agents of the affiliated corporation. The ownership by one business entity of a controlling interest in another business entity or a pooling of equipment or income among business entities shall be prima facie evidence that one business is affiliated with the other.

effective governance is characterized by a Board that sets policy and direction in support of the organization's mission. The Board of Directors will not be involved in the day-to-day leadership or administration of the School and will empower the Principal and his/her staff with these duties. The ALS Regional Director of Schools or Executive Principal will provide training and support to the Principal; will hold the Principal accountable for meeting the School's goals and objectives, including student performance; and will ensure fidelity to the School's mission, purpose, and educational program design.

The Principal, who is responsible for the day-to-day operations of the School, will have the most influence on the success of the School. The Principal will be a collaborative leader who will provide frequent and routine communications to the Board and stakeholders. The Principal will attend all board meetings to report on matters related to the daily operations of the school.

The organizational structure of the School will facilitate the delivery of instructional and support services to students in an effective and efficient manner. The Principal will work directly with faculty and staff to ensure that they receive proper direction and support. The Principal will oversee the planning, designing and delivery of coherent instruction; will supervise all staff; will communicate effectively with parents, the Board, and the broader community about the School's progress; and will provide leadership that will support the School's teaching and learning environment. He/she will be responsible for hiring, supervising, and evaluating all school staff and will lead the daily operations of the school. On a day-to-day basis, the Principal will be responsible and accountable for the educational and operational outcomes at the School as well as for ensuring that the School is meeting its stated goals and objectives. To the extent possible, all day-to-day operating decisions will be made on site by the Principal.

The Assistant Principal will be the direct supervisor of all of the educators at the School including teachers, ESOL endorsed teacher(s), ESE teachers, Reading teachers, and all other educational personnel. Meeting or exceeding job requirements as outlined in the job description will be a measure of evaluating employee performance. The School's evaluation systems will align to s. 1012.34, F.S. requirements. The Board will not have a direct relationship with teachers.

Ultimately, the success of the School requires cooperation between the Board of Directors and school leadership. The primary goal of both the Board and the school leaders will be to provide the best possible educational opportunities for students. To achieve this end, the Board, Principal and ALS will work together in a positive climate of mutual trust and respect toward achieving their mutual goals.

D. If the school's governing board intends to enter into a financing agreement with the ESP:

The School's Governing Board does not intend to enter into a financing agreement.

ORGANIZATIONAL STRUCTURE

A. Provide a description of the roles and responsibilities of the ESP. This may include whether and how the specific roles and responsibilities set forth below may or may not be provided by the ESP, in order to summarize school- and ESP-level responsibilities. If some portions of a function are the responsibility of both the ESP

AND THE GOVERNING BOARD, PLEASE EXPLAIN. THE DESCRIPTION SHOULD ALIGN WITH THE MANAGEMENT AGREEMENT WITH THE ESP AND PROVIDE A CLEAR PICTURE OF WHAT THE ESP IS RESPONSIBLE FOR.

The Education Services Provider, ALS, will operate the school through a Management Agreement (see Attachment EE) which outlines the responsibilities of the ESP (and Board where indicated) as:

(1) Employee Management and Administration

ALS will employ and manage all positions for the School, including but not limited to: hiring and terminations, payroll administration, benefits administration, and performance evaluation management. The Board shall take the lead role in hiring and terminating the school Principal and shall approve all other instructional hires. First and foremost, the role of ALS will be to support a highly-effective instructional curriculum. The Company was founded on the principle that a quality education will allow each individual to reach his/her full potential academically, professionally, vocationally, and personally. The Board is convinced that ALS will support the School and ensure successful School operation leading to higher student achievement as demonstrated by its track record. ALS's education professionals are dedicated to creating and implementing curricula founded on evidence-based research and years of testing, ensuring that all curricula are fully aligned with state and national standards. They are continually re-evaluating teaching methods, especially those that incorporate specially designed, technology-enhanced curricula that integrate all levels of academic coursework. They also work to provide high-quality professional development opportunities for administrators and teachers.

(3) Social Work and Family Service Development and Consulting

The Principal, Family Support Specialist, Career Coach, and other school personnel will meet with community agencies that provide services to students and families. They will encourage community-based service providers and postsecondary institutions to partner with the School and facilitate regular onsite and offsite services for students and families as described in Section 15.B.

(4) Human Resource Recruitment and Consulting

ALS's human resource professionals will assist in recruitment, vetting, background checks, and setting compensation and fringe benefits levels for employees.

(5) Financial Management and Funding Consulting Services

ALS' role in financial management will include:

- Assisting the Board and its Board Accountant with budget oversight and financial reporting
- Accounts Payable functions
- Purchasing and procurement services
- Payroll processing
- Assisting the Board Accountant in maintenance of fixed asset ledgers
- Federal and state grant research, submission, and management

ALS maintains a central support service center which provides financial management and consulting services. This support center will manage certain financial aspects of the School including cash flow, purchasing, accounts payable, payroll, human resources, benefits administration, information

technology, and insurance and risk management. ALS will assist the School in establishing appropriate internal controls as well as financial policies and procedures. In addition, ALS will support the School's start-up efforts including contract negotiation, staffing, training, facility development, equipment procurement, and related activities.

(6) Information Technologies Design, Consulting, Procurement, and Support

The school recognizes the importance of seamless technology integration within its state-of-the-art computer delivery system. To ensure optimal performance, a dedicated Information Technology (IT) support staff will be provided by ALS. This team, composed of highly qualified professionals boasting diverse certifications like Microsoft, Cisco, A+, and Canon, brings expertise across a wide spectrum of technologies. Led by individuals with degrees in Applied Business, Computer Science, and Business Administration, the team tackles the intricate task of managing and maintaining the School's extensive network infrastructure, from switches and routers to firewalls. They ensure smooth connectivity and optimal network performance. Their responsibilities encompass overseeing all software applications, including deployment, configuration, maintenance, licensing, updates, and user access control. They meticulously manage procurement, prioritizing cost-effectiveness and adhering to budget constraints while fostering strong vendor relationships to secure the best deals. Furthermore, the team provides comprehensive technical assistance to staff and students, offering troubleshooting, answering questions, and guiding them through various technology tools. Their skillset extends to designing, developing, and maintaining internal applications like STARS, MySuccess, and StudentNav, ensuring efficient operations and user-friendliness. Additionally, they handle integrations with third-party applications, maximizing the functionality of the School's technology ecosystem. This dedicated IT team, through their combined expertise and commitment to user support, plays a pivotal role in supporting the School's state-of-the-art technology, ultimately enhancing the educational experience for all.

- Staff IT Onboarding/Offboarding: Ensures smooth onboarding and offboarding processes for staff regarding IT access and equipment.

(7) Student Recruitment

ALS will be responsible for recruiting and enrolling students as described in Section 14 and in compliance with all applicable federal, state and local laws.

(8) Student Testing and Assessment, Research, and Data Reporting

One of the key measures of effective schools is the ability to track, monitor, and report student performance progress. ALS will provide a support team with the expertise and experience to create and maintain accurate and efficient data management and reporting systems to inform instruction and report student performance to students, parents, teachers, and necessary stakeholders. This assessment group will train and assist school staff with data entry and management, use of data to make informed decisions, and reporting requirements to ensure the continuous collection and analysis of student data, school performance data, data trends, and individual student/grade level progress. The continuous collection, monitoring, and analysis of performance data will ensure that the School will be held accountable and will provide the documentation for reporting purposes. This information can then be used to make data-driven decisions to improve the educational program, instructional methods, and program implementation of the most effective classroom practices.

(9) Facility Services

ALS understands the important role that an appropriate physical environment has in the learning process of students. All decisions and guidance in Facilities Services are made with the goal of student success at the forefront. The Company has proven success in developing and managing learning facilities conducive to maximizing students' potential for achievement.

ALS has a highly experienced staff with extensive expertise to support the School in all areas of facility services, including, but not limited to:

- Site selection: The Company will identify potential sites for the school's facility. The site identification process will include determining the extent of necessary construction improvements. The Company may engage the services of a local real estate professional as part of this process.

(10) Additional Services

In addition to those listed above, further services provided by ALS will include:

- Tracking and reporting on academic and financial performance goals and other key school performance indicators
- Special populations consulting, including ESE and ESOL compliance and programming support
- Management of teacher and administrative staff training and development
- Board of Directors' communications and meeting support
- Marketing and communications
- Grant writing and management

B. Describe the oversight and evaluation methods that the board will use to oversee the ESP. What are the school-wide and student achievement results that the ESP is responsible for achieving? How often, and in what ways, will the board review and evaluate the ESP's progress toward achieving agreed-upon goals? What are the conditions, standards, and procedures for board intervention, if the ESP's performance is deemed unsatisfactory?

The Board will hold the proposed ESP, ALS, accountable for the following performance goals:

- comply with the policies and procedures adopted by the Board for the School;
- undertake efforts to achieve the performance measures in the Contract between the School and the Sponsor;
- implement the annual budget as approved by the Board;
- provide all information and written reports reasonably requested by the Board and consistent with the Statement of Mission and Purpose, including periodic reports on student performance, copies of all reports and other materials provided to any oversight entity and evidence of compliance with the terms of the Contract; and
- meet with the Board with such frequency as the Board shall reasonably request.

As outlined in the proposed Management Agreement, ALS will be responsible and accountable to the Board of Directors for the administration, operation and performance of the School in accordance with the School's Contract and approve application, the Statement of Mission and Purpose, and the laws of the State of Florida. The Board will work with counsel to negotiate the final language of the agreement and will ensure that appropriate language related to termination or other sanctions is included as a way to protect the school and students. The Board will hold the management company accountable to the language in the charter application, charter contract, and annual financial plan (budget).

While the Board retains the ultimate decision-making authority, the management company will be held responsible for the daily execution of the school's mission, operations, and outcomes according to the terms of the management and educational services agreements. If ALS breaches its agreement with the Board of Directors, does not live up to scholastic performance measures in the charter agreement, and cannot cure those breaches within the required timelines, then the Board of Directors has the right to discharge ALS from its duties and take over all day-to-day operations to ensure that the School can continue to educate students.

C. Describe the payment schedule, including all fees, bonuses, early termination penalties, and any other compensation to be paid to the ESP.

It is anticipated that the School will pay a monthly continuing fee to ALS equal to the percentages of the School's Qualified Gross Revenues outlined in the Management Agreement in Attachment EE.

D. Describe the types of spending decisions the management organization can make without obtaining board approval? What reports must the ESP submit to the board on financial performance, and on what schedule? How will the school governing board provide financial oversight?

The School's Board of Directors will retain approval and oversight responsibility for the finances of the School and will receive regular reports from its Board Accountant on actual results as compared to the budget and other reports as necessary throughout the year. ALS will assist the Board in establishing appropriate internal controls as well as financial policies and procedures. In addition, ALS will support the School's start-up efforts including contract negotiation, securing funding sources, staffing, training, facility development, and related activities.

Budgets for the year will be prepared by ALS and reviewed by the Principal, the Treasurer, and the Board Accountant. The annual budget will then be presented to the Board of Directors for approval. Once the budget has been approved, ALS will pay for all operating and capital expenditures.

All disbursements with the exception of grant expenditures (including wires and checks) will be initiated by one of three management company senior executives from an ALS operating account. All disbursements will include all signed supporting documentation. Grant disbursements will be approved by the management company grant specialist who will compare the expenditure to grant requirements and budgets. Disbursements for grant expenditures will be processed by a designated member of the Board of Directors from the School's bank account.

E. What is the term (duration) of the management agreement? Explain the conditions and procedures (including time frames, notice, and decision-making procedures) for renewal and termination of the contract? Describe the conditions that both the ESP and the school must satisfy for the management agreement to be renewed. On what grounds may the ESP or the governing board terminate the management agreement for cause? List any indemnification provisions in the event of default or breach by either party. If these provisions are addressed in the management agreement, the applicant may cite the specific sections.

The proposed Management Agreement (included in Attachment EE) includes a term that is concurrent with the term of the charter agreement. The term may be extended, allowed to continue, or renew unless terminated according to the agreement terms.

The Governing Board may terminate the agreement in the event:: the School's charter is not awarded or is terminated; or ALS materially breaches the agreements and fails to cure the material breach before the later of: (a) Ninety days of its receipt of written notice from the School; or (b) The end of the then-current academic semester, unless the breach cannot be reasonably cured within the cure period, in which case ALS will promptly undertake and continue efforts to cure the breach within a reasonable time. If ALS's material breach is such that it creates an imminent danger to the safety of students, parents or others, the breach must be cured immediately upon notice from the School. There are no indemnification provisions.

F. Provide as Attachment EE, a draft of the proposed management agreement with the ESP.

Included as Attachment EE is a draft of the proposed Management Agreement.

Support for Conversion

The Model Florida Charter School Application requires the applicant to include Attachment A (*evidence of compliance with the voting requirements set forth in section 1002.33(3)(b), F.S.*) if it seeks approval to convert an already existing public school to charter status.

Florida High School for Accelerated Learning – Manatee, Inc. is not seeking to convert an already existing public school to charter status, so this attachment is not applicable.

Consistent with s. 1011.61(1)(a)(1), F.S., the School will operate as a double session school with an instructional calendar providing no less than the annual instructional hours required by statute (currently 900 annual instructional hours). In addition, the School will mirror the district's school calendar relating to holidays.

The School will offer up to two (2) five-hour sessions for curriculum instruction. Students will choose to attend one of the sessions (or both as space permits). As illustrated below, the School will implement a schedule that aligns with its mission and program. Below is a typical daily schedule at the School.

- Student accesses instructional software and works independently to make progress in assigned coursework.
- Teachers facilitate learning, provide direct instruction, monitor student progress, and help students address any non-mastery of key concepts. This may occur individually or in a large or small group as determined by the teacher to best meet students' needs.
- Students identified as requiring instructional support are assigned to intervention sessions.
- Student may spend time with the Family Support Specialist or onsite service provider to address any social/personal barriers to learning.

HOW IT WORKS

Mr. Gonzalez is an English Teacher at this school. He has the task of helping to guide at-risk, young minds in their pursuit of a high school diploma. His daily routine consists of creating classroom routines and procedures, greeting students at arrival, maintaining accurate attendance records, calling students and parents to help improve school attendance, establishing and maintaining classroom discipline, monitoring student progress, reviewing quizzes, grading assignments, and helping to inspire students to reach their academic goals. There are a number of elements that he uses to effectively do his job and a number of databases that he uses to monitor student progress.

Consistency and developing an educational plan for the overall classroom is needed. Mr. Gonzalez believes in routine because it helps build consistent and healthy habits both inside and outside of the classroom. Most of the at-risk student population lacks discipline in their academics, behavior,

and level of focus. He has set an educational plan in place for all of his students so that they can see progress in their courses.

Observing the students and collecting data is another task that for which Mr. Gonzalez is responsible. He tracks student progress daily using the Teacher Dashboard and provides students with a printout of their weekly achievements. He meets with each of his advisory students no less than once per week to discuss how they are doing with their courses, where they should be in their progress, how their behavior is enhancing or hindering their progress, and discusses any strategies that they feel Mr. Gonzalez could use to help them achieve their goal of graduation. Students choose to meet with Mr. Gonzalez to get individual assistance when they are struggling with difficult concepts or when they do poorly on quizzes. Mr. Gonzalez provide direct instruction and support as needed by each individual student.

Building a relationship of trust with each student is one of the most critical tasks of the teachers and staff. . Establishing a trusted relationship with students helps Mr. Gonzalez discover any attendance issues the student may have, what type of learner the student is, what kind of learning strategy works best for the student, and how well they can do in this environment. Sometimes, Mr. Gonzalez students are just having a bad day and it helps to understand those circumstances so he can help diffuse situations that could escalate into larger problems.

Getting his student's parents involved is also a difficult task because some of the students do not live at home anymore or certain situations have arisen where parents cannot make it to conferences to check on their child's academic progress. But, Mr. Gonzalez has seen over the years that the more information parents have about their child and the more involved they are in their son or daughter's education, the more successful the student. .Mr. Gonzalez can also remind parents that they can check their student's overall progress through the School's parent portal. If a student is absent, Mr. Gonzalez will make a daily attendance call to the parent to notify him/her that the student was absent and determine the reason for the absence. He also calls to have positive contact with every parent at least monthly to build parent-teacher relationship and encourage students to continue attendance and academic progression. Mr. Gonzalez is committed to regular communication with parents to keep them involved in their child's education.

UNIT 1: FORCE FIELDS (DAYS 1 – 30)

In this unit, you will explore gravitational, electric, and magnetic force fields. You will use evidence to explain the force of gravity around you and understand how the strength (force) of gravity depends on an object's mass. You will also identify factors that determine the strength of forces created by electric charge and by magnets. You will model series and parallel circuits and explain how a current flows through them. You will apply your understanding of electricity and magnetism to classify devices as electromagnets, generators, and motors. You will describe the cause of Earth's magnetic field and explain how it protects our atmosphere from charged particles. Finally, in a real-world application, you will calculate how much electricity you use in your home and propose ways to conserve electricity.

English 8 delivers instruction, practice, and review designed to build students' communication and reading comprehension skills. Reading comprehension lessons strengthen students' critical analysis skills as they study how nonfiction and literature can be used to share ideas. Writing lessons combine free-response exercises with drafting strategies and exemplars to help students communicate clearly and credibly in narrative, argumentative, and explanatory styles. To develop skills specific to public discourse, speaking and listening lessons guide students as they evaluate clips and readings from speeches and discussions. In language lessons, students build foundational grammar skills they need to articulate their ideas and understand challenging words.

The two-semester course is arranged in themed units, each with three to six lessons. Each lesson includes a variety of activities such as direct instruction, application of skills, performance tasks, and formative and summative assessments. Students engage with the subject matter in an interactive, feedback-rich environment as they progress through standards-aligned content and demonstrate their learning through computer- and teacher-scored assignments.

Algebra 1-A (#1200370)

Algebraic Reasoning

MA.912.AR.1 Interpret and rewrite algebraic expressions and equations in equivalent forms.

MA.912.AR.1.1

Identify and interpret parts of an equation or expression that represent a quantity in terms of a mathematical or real-world context, including viewing one or more of its parts as a single entity.

***Algebra 1 Example*: Derrick is using the formula $P = 1000(1 + .1)^t$ to make a prediction about the camel population in Australia. He identifies the growth factor as (1 + .1), or 1.1, and states that the camel population will grow at an annual rate of 10% per year.**

***Example*: The expression 1.15^t can be rewritten as $\left(1.15^{\frac{1}{12}}\right)^{12t}$ which is approximately equivalent to 1.012^{12t}. This latter expression reveals the approximate equivalent monthly interest rate of 1.2% if the annual rate is 15%.**

***Clarification 1*: Parts of an expression include factors, terms, constants, coefficients and variables.**
***Clarification 2*: Within the Mathematics for Data and Financial Literacy course, problem types focus on money and business.**

Rearrange equations or formulas to isolate a quantity of interest.

***Algebra 1 Example*: The Ideal Gas Law $PV = nRT$ can be rearranged as $T = \frac{PV}{nR}$ to isolate temperature as the quantity of interest.**

***Example*: Given the Compound Interest formula $A = P\left(1+\frac{r}{n}\right)^{nt}$, solve for P.**

Reading

ELA.9.R.1 Reading Prose and Poetry

ELA.9.R.1.1:
Literary Elements
Explain how key elements enhance or add layers of meaning and/or style in a literary text.

Benchmark Clarifications:
Clarification 1: **Key elements of a literary text are setting, plot, characterization, conflict, point of view, theme, and tone.**
Clarification 2: **For layers of meaning, any methodology or model may be used as long as students understand that text may have multiple layers and that authors use techniques to achieve those layers. A very workable model for looking at layers of meaning is that of I.A. Richards:**
Layer 1) the literal level, what the words actually mean
Layer 2) mood, those feelings that are evoked in the reader
Layer 3) tone, the author's attitude
Layer 4) author's purpose (interpretation of author's purpose as it is often inferred)
Clarification 3: **Style is the way in which the writer uses techniques for effect. It is distinct from meaning but can be used to make the author's message more effective. The components of style are diction, syntax, grammar, and use of figurative language. Style helps to create the author's voice.**

Reading Curriculum

Our School will adhere to the specifications set forth by, and take full advantage of, a myriad of resources available from the Just Read, Florida! office of the Florida Department of Education.

The school's reading instruction will align with Florida's Revised Formula for Success, 6 + 4 + T1 +T2 + T3, which includes the following:

Six components of reading: oral language, phonological awareness, phonics, fluency, vocabulary, and comprehension;

- **Four types of classroom assessments:** screening, progress monitoring/formative assessment, diagnosis, and summative assessment;
- **Core instruction (Tier 1):** is standards-aligned; includes accommodations for students with a disability, students with an Individual Educational Plan (IEP), and students who are English language learners; provides print-rich explicit and systematic, scaffolded, and differentiated instruction; builds background and content knowledge; incorporates writing in response to reading; and incorporates the principles of Universal Design for Learning as defined in 34 C.F.R. 200.2(b)(2)(ii);
- **Immediate intervention (Tier 2):** is standards-aligned; includes accommodations for students with a disability, students with an IEP, and students who are English language learners; provides explicit, systematic, small group teacher-led instruction matched to student need, targeting gaps in learning to reduce barriers to students' ability to meet Tier 1 expectations; provides multiple opportunities to practice the targeted skill(s) and receive feedback; and occurs in addition to core instruction; and
- **Immediate intensive intervention (Tier 3):** is provided to students identified as having a substantial deficiency in reading; is standards-aligned; includes accommodations for students with a disability, students with an IEP, and students who are English language learners; provides explicit, systematic, individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback, and frequent progress monitoring; and occurs in addition to core instruction and Tier 2 interventions. In accordance with Section 1008.25(4)(c), F.S., students identified with a substantial reading deficiency must be covered by a federally required student plan, such as an IEP or an individualized progress monitoring plan and receive intensive interventions from teachers who are certified or endorsed in reading.

The School will use the Reading Plus curriculum. Reading plus is an online reading intervention system that uses adaptive technology to provide individualized, scaffolded silent reading practice for adolescent students. Reading Plus has been shown to significantly improve reading achievement for diverse populations of students in grades 3-12. It has been validated across a wide range of districts and schools, approaches to intervention, and major student subpopulations. Reading Plus is committed to continuing the development of innovative intervention that is grounded in evidence and efficacy. The program provides rapid, sustainable, and deep vocabulary, comprehension, and silent reading fluency gains. Reading Plus will help to

develop attention, word recognition automaticity, grade-appropriate reading rates, enhanced vocabulary, and improved reading comprehension.

Reading Plus was chosen because of its ability to differentiate instruction and pinpoint student needs. The Reading Plus adaptive assessment, InSight, is a valid and reliable assessment that was created under the guidance of lead reading and assessment researchers. This assessment places students within the program in one of fourteen (14) levels. The reading levels range from elementary through college. InSight goes beyond typical measures of comprehension and vocabulary by also measuring comprehension-based silent reading rate and motivation. The rich data not only provides teachers a deep understanding of their students' needs, but also empowers students to become more confident and motivated about their learning and follow their own personalized paths to reading proficiency.

Once assessed and placed in the appropriate level, students work on activities that have been developed using proven instructional strategies. The program is continuously collecting data on student's performance in order to customize instruction. Teachers support students as they advance from struggling readers to proficient readers by utilizing the program's comprehensive online instruction as well as printable materials for direct instruction and differentiation at the class, small group, and individual level.

Reading Plus can remediate students who are moderately behind in reading as well as accelerate reading growth for students who are on grade level. Its usage spans from middle school through community college and because it increases silent reading fluency, vocabulary and comprehension, students also use it as an SAT/ACT and EOC preparatory program.

PUPIL PROGRESSION PLAN (not applicable)

The instructions in the Florida Model Charter Application require an applicant to indicate whether it intends to use the local school district's pupil progression plan. If not, the policies and standards for promoting students from one grade level to the next are to be included as Attachment E.

As indicated on page 52 in response to question 5.C., Florida High School for Accelerated Learning – Manatee, Inc. intends to follow the district's pupil progression plan, so this attachment is not applicable.

The Organization was recently formed and plans to establish a charter high school under a charter awarded by the Manatee County, Florida Public School System to address the problem with the dropout rate in the Manatee County area. The charter high school will be focused on dropout prevention and recovery and provide nontraditional learning opportunities, social services support, career and post-secondary counseling for low-performing, over-age, grade repeating, credit deficient students to assist them with graduating from a Florida public high school.

The Organization will employ a teacher directed, computer assisted educational model that will engage students with rigorous and relevant high school curriculum directly linked to each student's post-secondary goals. Students will be awarded a standard high school diploma recognized by the State of Florida. This is not a GED program.

Components of the educational model at the charter high school will include the following

Teacher directed curriculum
Foundational skills improvement
Flexible scheduling, two to three sessions per day
Mastery based learning model
Computer assisted instruction
Individualized graduation plan for each student
Customized instruction based on each student's needs
Social and behavioral support services to remove barriers to attendance and learning
Employment / post-secondary counseling and planning for every student with multiple high school graduation options
Small school model
Special education support

The Organization has recently applied for and is waiting to be awarded a charter (see attached Charter School Application attached as Schedule IV.1) from the Manatee County School District to address the problem with the drop-out rate in the Manatee County area as students prepare for post-secondary educational options.

The Charter Application contains details concerning the Organization's present and planned activities and a narrative description (see Executive Summary Application Narrative (pages i-ii) in the supplemental response Schedule IV.1 attachment). The Organization has not yet opened for instruction but is scheduled to do so in August of 2024, consistent with the Manatee County School District calendar. The Organization plans to file and operate the charter school under a Florida Fictitious Name Registration after a location has been selected for the school facility in Manatee County, Florida. The Fictitious Name will reflect the name of the neighborhood of the school facility after it has been selected by the Organization's Board of Directors.

The Organization utilizes a Management Company, Accelerated Learning Solutions, LLC, a Delaware limited liability company (hereafter called ALS, or Management Company), to assist it in developing and operating the charter school. The Board of Directors will set all policies and supervise their implementation. Since the Management Company manages the day to day operation of the Organization, it has input with the Board of Directors in setting the school policies regarding budgets, curriculum, admission procedures, student conduct, calendars and dispute resolution procedures. However, we emphasize that the board supervises and works with the Management Company to develop such school rules, regulations and procedures.

The Organization is required to report to the Manatee County School Board regarding the Management Company. This is a general reporting requirement including issues relating to the duties of the Management Company (see highlighted Florida Statutes Section 1002.33(9)(k) supplemental response attachment at Part I, Line 8)). The Organization understands the Form 990 filing requirement.

(a) one or more of the officers or employees of the Corporation whom the Director reasonably believes to be reliable and competent in the matters presented;

(b) counsel, public accountants or other persons as to matters that the Director reasonably believes to be within such person's professional or expert competence; or

(c) a committee of the Board of Directors upon which the Director does not serve, duly designated in accordance with a provision of the Articles of Incorporation or these Bylaws, as to matters within its designated authority, which committee the Director reasonably believes to merit confidence.

A Director shall not be considered to be acting in good faith if he/she has knowledge concerning the matter in question that would cause the reliance described above to be unwarranted.

A person who performs his/her duties in compliance with this section shall have no liability by reason of being or having been a Director of the Corporation.

Board members shall be subject to Florida law requirements for charter school board members including Sections 112.313(2), (3), (7), and (12) and 112.3143(3), Florida Statutes, as they may be amended.

SECTION 5. NUMBER. The Corporation shall have at least three (3) Directors but shall not have more than seven (7) Directors, and the initial number of Directors shall be three (3). The number of Directors may be increased or decreased from time to time by the majority vote of the Board of Directors of the Corporation; provided, however, that the Board of Directors shall consist of not fewer than three (3) Directors and no decrease in the number of Directors shall have the effect of shortening the term of an incumbent Director.

SECTION 6. ELECTION AND TERM. The Board of Directors initially set forth in the Articles of Incorporation shall be called the Founding Directors. The Founding Directors shall be classified with respect to the time for which they hold office into three (3) classes, "Class I, II and III," which shall be as nearly equal in number as possible. The Founding Directors first appointed to Class I will hold office for a term expiring at the annual meeting to be held in 2024; the Founding Directors first appointed to Class II will hold office for a term expiring at the annual meeting to be held in 2025; and the Founding Directors first appointed to Class III will hold office for a term expiring at the annual meeting to be held in 2026.

At each succeeding annual meeting of the Corporation, the successors of the Directors whose terms expire at that meeting will be elected to a three (3) year term. The Directors shall be eligible to serve until they resign or are not re-elected. Additional Directors added shall serve for a three (3) year term unless otherwise determined by the Board of Directors.

At any time, Directors may elect new members to the Board of Directors provided the number of Directors will not exceed the maximum authorized. Such new Board members' terms will coincide with the terms of other Directors.

The initial term of the founding directors shall begin on the date of Incorporation; thereafter, each term shall begin when elected.

Each Director shall hold office for the term for which he/she is elected and until his/her successor shall have been elected and qualified or until his/her earlier resignation, removal from office or death.

SECTION 7. RESIGNATION. The resignation of a Director shall be effective as of the date of delivery of a written notice to the Board of Directors or at a later date, if specified in the written notice. A Director shall resign from the Board if such Director violates Florida law in a manner that would impact the Corporation and/or the charter school, knowingly causes the charter school to be in violation of Florida law or its charter agreement with the District, or is no longer eligible to serve as a Director of a charter school or on the Board. If a director resigns prior to the end of his/her term, a successor for the unexpired term may be selected by the Board of Directors so long as the failure to select a successor will not result in the Corporation having fewer than three (3) Directors.

SECTION 8. REMOVAL OF DIRECTORS, OFFICERS AND OTHER EMPLOYEES. Any Director, officer and/or employee may be removed by a majority vote of the Board of Directors whenever, in the judgment of the Board of Directors, the best interests of the Corporation will be served thereby. In the exercise of their judgment, the Board shall remove a Director who should have otherwise resigned pursuant to Section 7. Any Director may be removed at any time by a two-thirds (2/3rds) majority vote of the Board of Directors for any reason consistent with applicable law.

SECTION 9. VACANCIES. Any vacancy occurring on the Board of Directors, including that created by reason of an increase in the number of Directors may be filled by appointment of a majority vote of the members of the Board of Directors. A Director elected to fill any vacancy shall hold office only until the next annual meeting of Directors.

SECTION 10. QUORUM AND VOTING. The presence of a majority of all the Directors shall be necessary at any meeting to constitute a quorum to transact business. The act of a majority of Directors present at a meeting when a quorum is present shall be the act of the Board of Directors. If at any meeting there shall be less than a quorum, a majority of those present may adjourn the meeting to a place and time indicated and a copy of such adjournment action shall be delivered by hand or by U.S. Mail to all members of the Board of Directors.

SECTION 11. PLACE OF MEETINGS. The annual meeting, and any special meeting, of the Board of Directors must be held within Manatee County of the State of Florida.

SECTION 12. MEETINGS. The Board of Directors shall meet at least four times each fiscal year in January, March, June and September (Regular Meetings) at the time and place designated by the Board of Directors of the Corporation. The Annual Meeting shall be held during the month of January and shall be the January meeting of the Board of Directors. Notice of the Annual Meeting and all other Regular Meetings shall be given by the Secretary to each Director at least two (2) days before the meeting, unless each Director shall waive notice thereof before, at, or after the meeting.

SECTION 13. SPECIAL MEETINGS. Special Meetings of the Board of Directors shall be held at such other times as shall be determined by the Chairman or by a majority of the

Directors. Notice of any Special Meeting shall be given by the Secretary to each Director at least two (2) days before the meeting unless each Director shall waive notice thereof before, at or after the meeting.

SECTION 14. PRESUMPTION OF ASSENT. A Director of the Corporation who is present at a meeting of the Board of Directors at which action on any Corporation matter is taken shall be presumed to have assented to the action taken unless the Director votes against such action or abstains from voting in respect thereto because of an asserted conflict of interest.

SECTION 15. PUBLIC MEETINGS AND PUBLIC RECORDS OF THE BOARD OF DIRECTORS. Notwithstanding anything to the contrary in these bylaws, the Board of Directors of the Corporation shall conduct its activities and its meetings (regular and special) in accordance with the Florida Open Meetings Laws (also Florida Sunshine Law) as set forth in Article I, Section 24 of the Florida Constitution as it may exist from time to time and in Florida Statutes Chapter 286.011 as amended or restated from time to time. Notice of all meetings shall be provided as set forth in such laws. The Corporation shall maintain its records in such a way so as to comply with Florida Statutes Chapter 119 relating to Public Records.

SECTION 16. DIRECTOR CONFLICTS OF INTEREST. A Conflict of Interest is described as: "an actual or perceived interest by a member in an action which results or has the appearance of resulting in personal, organizational, or professional gain. This "actual or appearance of a bias" in the decision making process is based upon the dual role of a member, who in addition to serving on the Board of Directors may be affiliated with other organizations, either as an employee(er), a member, or in some other capacity. A conflict of interest shall include, but not be limited to, a violation of Florida Statute §112.313(7) as it applies to members of the Board of Directors. To avoid potential conflicts, members of the Board of Directors shall not serve on the Board of Directors of other charter schools unless the persons serving on the Board of Directors of such charter school(s) are identical to the members of the Board of the Corporation. In no event may a member of the Board of Directors have or hold any employment or contractual relationship with the Corporation or any business entity or other entity doing business with the Corporation. In no event may a member of the Board of Directors have or hold any employment or contractual relationship that will create a continuing or frequently recurring conflict between his or her private interests and the performance of his or her duties as a member of the Board of Directors.

SECTION 17. EXECUTIVE AND OTHER COMMITTEES. The Board of Directors, by resolution adopted by a majority of the full Board of Directors, shall designate from among its members an executive committee consisting of the Officers set forth in Article VI below, and one at-large Director. The Executive Committee will handle the affairs of the Corporation as necessary between meetings of the Board of Directors.

The Board of Directors, by resolution adopted by a majority of the full Board of Directors, may designate from among its members one or more other committees each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the Board of Directors, except that no committee shall have the authority to:

(a) fill vacancies on the Board or any committee thereof, or

(b) adopt, amend or repeal the Bylaws.

Each committee must have two (2) or more members who serve at the pleasure of the Board of Directors. The Board of Directors, by resolution adopted in accordance with this section, may designate one (1) or more Directors as alternate members of any such committee, who may act in the place and stead of any absent member or members at any meeting of such committee.

SECTION 18. POWER TO ELECT OFFICERS. The Board of Directors, at their annual meeting, shall elect a Chairman, Vice-Chairman, Secretary and Treasurer. The Board of Directors shall have the power to appoint such other officers and employees as the Board of Directors may deem necessary for the transaction of the business of the Corporation. The Board of Directors shall have the power to fill any vacancy in any office, occurring for any reason whatsoever.

SECTION 19. DELEGATION OF POWERS. For any reason deemed sufficient by the Board of Directors, the Board of Directors may delegate any power or duty of any officer or Director to any other officer or Director.

SECTION 20. ANNUAL REPORTS. The Chairman, Vice-Chairman, Secretary and Treasurer shall present their respective reports of the operation of the Corporation for the preceding year, at the annual meeting of the year of the Board of Directors.

ARTICLE V. MANAGEMENT OF CORPORATION'S ASSETS

The assets of the Corporation shall be held, managed and invested by the Executive Committee of the Board of Directors, however, at no time may said assets be used or administered other than in furtherance of charitable purposes, within the meaning of Section 501(c)(3) of the Code. All investments of funds of the Corporation shall be first approved by the Board of Directors.

The office of Chairman may only be held for two (2) consecutive terms. After serving two terms, the Director serving as Chairman may not be re-elected to that position until he/she has not served in that position for a one (1) year term. Such other officers and assistant officers and agents as may be deemed necessary may be elected or appointed by the Board of Directors from time to time.

ARTICLE VII. CONTRACTS, LOANS, CHECKS, DEPOSITS AND AUDITS

SECTION 1. CONTRACTS. The Board of Directors may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or confined to specific instances.

SECTION 2. LOANS. No loans shall be contracted on behalf of the Corporation and no evidences of indebtedness shall be issued in its name unless authorized by a resolution of the Board of Directors.

SECTION 3. CHECKS, DRAFTS, ETC. All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Corporation shall be signed by such officer or officers, agent or agents, of the Corporation and in such manner as shall from time to time be determined by resolution of the Board of Directors.

SECTION 4. DEPOSITS. All funds of the Corporation not otherwise employed shall be deposited from time to time to the credit of the Corporation in such banks, trust companies or other depositories as the Board of Directors may select.

SECTION 5. AUDITS. The Corporation's accounts and records shall be audited from time to time by a firm of certified public accountants at the expense of the Corporation.

ARTICLE VIII. LOANS TO DIRECTORS AND OFFICERS

Loans, other than through the purchase of bonds, debentures, or similar obligations of the type customarily sold in public offerings, or through ordinary deposit of funds in a bank, may not be made by the Corporation to its Directors, officers or employees, or to any other corporation,

firm, association or other entity in which one or more of its Directors, officers, or employees is a Director, officer or employee or holds a substantial financial interest, except a loan by one corporation which is exempt from federal income taxation under Section 501(c)(3) of the Code. A loan made in violation of this Article is a violation of the duty to the Corporation of the Directors or officers authorizing it or participating in it, but the obligation of the borrower with respect to the loan may not be affected thereby.

ARTICLE IX. PAYMENT OF DIVIDENDS AND DISTRIBUTION OF INCOME TO DIRECTORS AND OFFICERS PROHIBITED

A dividend may not be paid, and no part of the income or profit of the Corporation may be distributed, to its Directors or officers.

ARTICLE X. INDEMNIFICATION OF DIRECTORS, OFFICERS, EMPLOYEES, AND AGENTS

SECTION 1. ACTION AGAINST PARTY BECAUSE OF CORPORATE POSITION. The Corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed claim, action, suit, or proceeding, whether civil, criminal, administrative, or investigative (other than an action by or in the right of the Corporation) by reason of the fact that he is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees inclusive of any appeal), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him in connection with such claim, action, suit, or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct unlawful. The termination of any claim, action, suit, or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

SECTION 2. ACTION BY OR IN THE RIGHT OF CORPORATION. The Corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed claim, action, or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a Director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees inclusive of any appeal) actually and reasonably incurred by him in connection with the defense or settlement of such claim, action, or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation and except that no indemnification shall be made in respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the Corporation unless and only to the extent that a court of competent jurisdiction (the "Court") in which such claim, action, or suit was

brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court shall deem proper.

SECTION 3. REIMBURSEMENT IF SUCCESSFUL. To the extent that a Director, officer, employee, or agent of the Corporation has been successful on the merits or otherwise in defense of any claim, action, suit, or proceeding referred to in Sections 1 or 2 of this Article X, or in defense of any claims, issue, or matter therein, he may be indemnified against expenses (including attorneys' fees inclusive of any appeal) actually and reasonably incurred by him in connection therewith, notwithstanding that he has not been successful (on the merits or otherwise) on any other claim, issue, or matter in any such claim, action, suit, or proceeding.

SECTION 4. AUTHORIZATION. Any indemnification under Sections 1 and 2 of this Article X (unless ordered by the Court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the Director, officer, employee, or agent is proper in the circumstances because he has met the applicable standard of conduct set forth in Sections 1 and 2. Such determination shall be made (a) by the Board of Directors by a majority vote of a quorum consisting of Directors who were not parties to such action, suit, or proceeding, or (b) if such a quorum is not obtainable, or, even if obtainable, a quorum of disinterested Directors so directs, or by independent legal counsel in a written opinion.

SECTION 5. ADVANCED REIMBURSEMENT. Expenses incurred in defending a civil or criminal action, suit, or proceeding may be paid by the Corporation in advance of the final disposition of such action, suit, or proceeding as authorized by the Board of Directors in the specific case upon receipt of an undertaking by or on behalf of the Director, officer, employee, or agent to repay such amount unless it shall ultimately be determined that he is entitled to be indemnified by the Corporation as authorized in this Article.

SECTION 6. INDEMNIFICATION NOT EXCLUSIVE. The indemnification provided by this Article shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any statute, rule of law, provision of Articles of Incorporation, Bylaws, agreement, vote disinterested Directors, or otherwise, both as to action in his official capacity and as to action in another capacity, while holding such office, and shall continue as to a person who has ceased to be a Director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such a person. Where such other provision provides broader rights of indemnification than these Bylaws, said other provision shall control.

SECTION 7. INSURANCE. The Corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under the provisions of this Article.

ARTICLE XI. BOOKS AND RECORDS

SECTION 1. BOOKS AND RECORDS. The Corporation shall keep correct and complete books and records of accounts and shall keep minutes of the proceedings of the Board of Directors and committees. The Corporation shall comply with the provisions of Florida Statutes Chapter 119 in regard to Public Records.

The books, records and minutes of the Corporation may be in writing or in any other form capable of being converted into written form within a reasonable time.

ARTICLE XII. FISCAL YEAR

The fiscal year of the Corporation shall be determined by the Board of Directors.

ARTICLE XIII. SEAL

The Board of Directors shall provide a corporate seal that shall be circular in form and shall be affixed in conjunction with the execution of documents by the Corporation, as required by law.

ARTICLE XIV. AMENDMENTS TO THE BYLAWS

The Bylaws of the Corporation shall be initially approved by a majority vote of the Board of Directors, and thereafter may be altered, amended or repealed by a majority vote of the Board of Directors.

ARTICLE XV. DISSOLUTION AND/OR TERMINATION OF CHARTER

When a charter is not renewed or is terminated, any unencumbered public funds, except for capital outlay funds and federal charter school program grant funds, from the charter school shall revert to the Manatee County School Board. Capital outlay funds provided pursuant to Florida Statute §1013.62 (concerning Charter School Capital Outlay Funding) or its successor Statute) and federal charter school program grant funds that are unencumbered shall revert to the Department of Education to be redistributed among eligible charter schools. In the event a charter school is dissolved or is otherwise terminated, all Manatee County School Board property and improvements, furnishings, and equipment purchased with public funds shall automatically revert to full ownership by the Manatee County School Board, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the charter school, Manatee County School Board property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the charter school, in the possession of any person, entity, or holding company, other than the charter school, shall be held in trust upon the Manatee County School Board's request, until any appeal status is resolved. Further, upon the liquidation or dissolution of the Corporation, its assets, if any, remaining after payment (or provision for payment) of all liabilities of the corporation and the distributions provided for above, shall be distributed to, and only to, an organization qualified as tax exempt under Section 501(c)(3) of the Code engaged in educational activities in the State of Florida. No part of the assets or the net earnings, current or accumulated, of the Corporation shall inure to the benefit of a private individual.

THE UNDERSIGNED HEREBY adopts and approves the foregoing Bylaws of FLORIDA HIGH SCHOOL FOR ACCELERATED LEARNING – MANATEE, INC.

As a Charter School, the Corporation is a Public School pursuant to Florida Statutes.

Article II

Definitions

1. Interested Person

Any director, officer, or member of a committee with board delegated powers who has a direct or indirect financial interest, as defined below, is an interested person.

Financial interests shall not include an interest in a publicly traded company.

Article III

Procedures

1. Duty to Disclose

In connection with any actual or possible conflicts of interest, an interested person must disclose the existence of his or her financial interest and must be given the opportunity to disclose all material facts to the directors and/or the members of committees with board delegated powers considering the proposed transaction or arrangement.

2. Determining Whether a Conflict of Interest Exists

After disclosure of the financial interest and all material facts, and after any discussion with the interested person, he/she shall leave the board or committee meeting while the determination of a conflict of interest is discussed and voted upon. 4. Violation of the Conflict of Interest Policy

   a. If the board or committee has reasonable cause to believe that a member has failed to disclose actual or possible conflicts of interest, it shall inform

the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

b. If, after hearing the response of the member and making such further investigation as may be warranted in the circumstances, the board or committee determines that the member has in fact failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action, up to and including removal of the member from the Board of Directors.

School Mission and Program

1. What is your understanding of the school's mission and guiding beliefs?
The new charter school's mission is to help at-risk students graduate from high school with a standard high school diploma and move on to other ventures in life; including post-secondary education, vocational education, or apprenticeships. I've personally seen too many kids failing the traditional schools, as well as, the alternative schools, like Horizons. There is such a need for a school to get kids back on track.

2. What is your understanding of the school's proposed educational program?
The school will operate a blended instructional model with significant adacemic and social/emotional supports, including family supports, to help students overcome obstacles to academic and personal success. They have a strategically designed curriculum that allows the students to forge their path to getting back on track and the speed that they wish to achieve and accelerate their learning path. Strong, caring teachers who understand and want to help these students achieve, as well as, and online teaching staff to help connect a youth back on track and encouraging toward success (including help with language harriers that the traditional school is not providing).

3. What do you believe to be the characteristics of a successful school?
Strong governance, insight and oversight; a reputable management organization with a history of results; quality leadership; academin and support model designed to meet the students where they are and stay with them throughout their educational path; commitment to the students; community of caring teachers and staff; positive attitudes with a focus on success.

4. As a board member, how will you monitor progress toward annual academic and financial/operational goals and objectives?
Setting goals that can be achieved and then a focus on the results mentality. Annual success markers to be set and achieved, with quarterly progress reports to manage the milestones toward these goals.

A community leader to govern and direct the charter school and those hired to lead; a champion for

education of at-risk students throughout the community and school district; a steward of the resources to accomplish the goals set by the school; an accountability monitor for the achievement of results; and a ambassador for education to all students, even the ones who are failing.

Governance

1. How will you know if the school is successful at the end of the first year of operation?
The goals and outcomes are measured to achieve results, as set forth from the beginning of the year; otherwise a plan is put in place that the performance will increase to make sure we are affective at reacbing and teaching these students to success.

2. How will you know at the end of four years of the school is successful?
There are defined academic and financial expectations with outcomes that will need to reached annually; culminating with the long-term plan. These outcomes should include: increasing numbers of students, increasing numbers of youth graduating, increasing results in other academic scores, increasing credit recovery, GPA, and state assessments.

3. What specific steps do you think the charter school board will need to take to ensure that the school is successful?
Working closely with school leadership to encourage and support the staff and the students to achieve more. Building bridges to the business community will help the school achieve more, as well. Creating paths to college, trade-school, and employment will be another step in helping thes school to achieve it's goals and help the students to success.

4. How would you handle a situation in which you believe one or more members of the school's board were acting unethically or not in the best interests of the school?
This is primary importance to be reported promptly and dealt with ethically and judiciously. Board attorney and school leadership should be involved, as well as the Board in the oversight to properly resolve the issue and protect the school, the students, the community school board, and general public.

5. If your school intends to contract with a third-party ESP:
   a. Summarize your involvement in the selection process;
   We have selected an ESP that is currently managing successfully other dropout prevention and recovery schools within the stat of Florida. This ESP has great results and is a leader in providing DPRP services with a positive track record with all their schools receiving a "commendahle" grade, which has been successfully renewed for at least 10 yr terms. These schools have achieved positive State Accountability Ratings while sustaining enrollment and a positive financial position. The ESP has done a great job in implementing and even further developing and improving upon an instructional and support model that yields success without student population.
   b. Explain your understanding of the legal relationship between yourself as a board member and the ESP; and
   Our local autonomous board has oversight and governance of and in a contractual relationship with the ESP to manage the schools on our hehalf.

School Mission and Program

1. What is your understanding of the school's mission and guiding beliefs? **The new charter school's mission is to help at-risk students graduate from high school with a standard high school diploma and move on to post-secondary success. The guiding belief is that there is a student population that needs something different than what a traditional comprehensive high school can provide. There are many students who have fallen significantly behind and require a unique and innovative learning environment catered to their individual needs. It is also a belief that the school is a perfect complement to the traditional high school community, working in partnership to ensure that all students have options and opportunities that will lead to their greatest potential.**

2. What is your understanding of the school's proposed educational program? **The school will operate a blended instructional model with significant academic and social/emotional supports to help students overcome obstacles to academic and personal success. A mastery-based curriculum overseen by a highly qualified teaching staff will allow students to catch up on credits while also focus on building and remediating basic skills. There will also be a strong focus on transition planning to ensure that students have the information, skills and support to pursue meaningful post-secondary opportunities.**

3. What do you believe to be the characteristics of a successful school? **Strong governance and oversight; a strong management organization with a history of results; high quality leadership; an academic and support model designed to meet the needs of this unique student population; a teaching and support staff supported by quality coaching and training; a positive collaboration with the authorizing school district to ensure that at-risk students are provided access to options that best address their academic and personal needs.**

4. As a board member, how will you monitor progress toward annual academic and financial/operational goals and objectives? **Annual goals will be defined and reviewed together with school leadership and the**

management organization. Progress toward accomplishing these goals will be reviewed at every Board Meeting and strategies for continuous improvement will be discussed and monitored.

5. What do you see as your role regarding the school leaders? **As a governing board member, I will be involved in the selection of new leaders. I will also be responsible for working with the management company to evaluate the performance and fit of the school leadership. I will expect the management company to address the day-to-day supervision of school leadership while keeping me informed of any concerns, growth opportunities or suggested changes.**

Governance

1. Describe the role that the board will play in the school's operation. **The board will be responsible for setting policy, approving and monitoring an annual budget, reviewing and approving annual school improvement plans, reviewing school outcomes and overseeing that the management company takes all necessary steps to ensure that the schools are operating in accordance with law and the obligations and expectations defined by the charter contract.**

2. How will you know if the school is successful at the end of the first year of operation? **The application has defined financial and academic outcomes expected by the end of the first year of operations. If these outcomes are met, we will know that the school has been successful. We will meet and discuss remedies to any possible deficiencies in real time, and not wait for the end of the school year.**

3. How will you know at the end of four years of the school is successful? **The application has defined financial and academic outcomes expected by the end of the fourth year of operations. If these outcomes are met, we will know that the school has been successful.    a. Summarize your involvement in the selection process;
   b. Explain your understanding of the legal relationship between yourself as a board member and the ESP; and
   c. Indicate whether you have been involved in the review/negotiation of the management agreement.

   a. We have selected an ESP that is currently managing 15 dropout prevention and recovery schools throughout Florida. This ESP is a leading provider of DPRP services with a positive track record with all of their schools receiving a Commendable grade, and all have been successfully renewed for at least 10-year terms. These schools have achieved positive State Accountability Ratings while sustaining enrollment and a positive financial position. The ESP has done a quality job in implementing and even further developing and improving upon an instructional and support model that yields success with our student population.

Additionally and importantly, a school tour further validated our decision after speaking with students, staff and a board member of the schools.

b. I am a member of the independent school board which engages in a contractual relationship with an ESP to manage the schools. The responsibility for governance and for the school remains with us as a governing board.

c. We are in the process of negotiating that agreement and, along with our attorney, we will be finalizing the terms of that agreement.

Introduction

Accelerated Learning Solutions (ALS) and the schools we manage are on a mission to help students at-risk of not graduating earn a standard high school diploma and prepare for success beyond high school. Core to this mission are our shared beliefs that all students can learn, and that every student will succeed when provided with a supportive, flexible, and highly personalized school environment. We strive to create and support schools that offer an achievable alternate pathway to a high school diploma. We offer school districts and charter school boards a number of services, including a teacher-directed, self-paced and technology-enhanced dropout prevention and recovery program that helps students stay in school and re-enrolls students who have dropped out and want to return to school. Our programs integrate innovative instructional methods, social services and career readiness planning with the leadership and support from caring, competent adults. The result - each student has the opportunity to earn a high school diploma and realize postsecondary success.

At ALS, we also work to foster and sustain a culture of innovation and caring that not only leads to mission-critical success but supports the personal growth of every member of our team.

If you have any questions about the interpretation or application of any information presented, we invite you to contact Human Resources at is 844-277-1628 or hr@als-education.com.

Thank you again for being a part of the ALS team. We look forward to doing great work together!

EMPLOYMENT AT-WILL POLICY

Your employment at ALS is at the will of ALS and subject to termination at any time, with or without cause or notice. At the same time, you may terminate your employment with us at any time and for any reason.

No statements made in pre-hire interviews or discussions, information contained in recruiting materials, or discussions, policies, or practices during your employment may alter the at-will nature of employment or imply that discharge will occur only for cause.

ALS representatives are not authorized to modify this policy for any employee or enter into any agreement, oral or written, that changes the at-will relationship. No member of management should make any representation to individual employees or applicants to the contrary.

EQUAL EMPLOYMENT OPPORTUNITY

The Company is committed to a policy of equal employment opportunity for all individuals and provides equal employment opportunity without regard to race, color, sex or gender, gender identity, gender expression, sexual orientation, religion, national origin, marital status, age, disability, veteran or active military status, pregnancy, genetic information or any other classification protected by federal, state, or local law. Equal employment opportunity applies to all personnel practices, including (but not limited to) recruitment, hiring, training, placement, promotion, discharge, leaves of absence, compensation, discipline, evaluation, benefits, transfers, or any other terms, conditions or privileges of employment. Personnel actions will be administered in accordance with the principles of equal employment opportunity.

In addition to providing equal employment opportunity, the Company strives to maintain a work environment free from discrimination and harassment based on race, color, sex or gender, gender identity, gender expression, sexual orientation, religion, national origin, marital status, age, disability, veteran or active military status, pregnancy, genetic information or any other legally protected status.

Any discrimination in the workplace based upon membership in any protected classification is illegal and violates our policy. If you feel you have been the subject of discrimination, or if you are aware of any violation of this policy, you should report it to your manager, Human Resources, or higher-level management as you feel necessary. Any infraction of this policy is a serious violation and will result in disciplinary action, up to and including discharge. Please direct questions regarding this policy and requests for accommodation to Human Resources.

For further information about the Company's discrimination and harassment policies, please refer to the Policy Prohibiting Discrimination and Harassment in the Workplace.

AMERICANS WITH DISABILITIES ACT (ADA)

The Company is committed to compliance with the ADA. Therefore, in the case of an applicant or employee who has a disability (as defined by the ADA), which prevents him/her from performing one or more of the essential functions of his/her job, the Company will attempt, through a flexible, interactive process with the applicant or employee, to identify a "reasonable accommodation" that will enable the applicant or employee to perform such functions.

If any manager or employee has a question about his/her responsibilities under the ADA, reasonable accommodations, the application of this policy, or the ADA, they should contact Human Resources for guidance.

Please note that this policy on the Americans with Disabilities Act is coordinated with the Family and Medical Leave Act (FMLA), and where appropriate, the provisions of the Company's FMLA policy may also apply.

POLICY PROHIBITING DISCRIMINATION AND HARASSMENT IN THE WORKPLACE

It is the Company's policy to maintain a work environment free of unlawful discrimination and harassment. The Company does not and will not permit employees to engage in harassment of any kind, including sexual harassment or harassment based on any other category protected by federal, state or local law. These protected categories include, but are not limited to, race, color, sex, gender, gender identity, gender expression, sexual orientation, religion, national origin, marital status, age, disability, veteran or active military status, pregnancy, and genetic information. Harassment by any employee, supervisor, manager, independent contractor, or other person doing business with the Company or on Company premises is strictly prohibited

Harassment is verbal or physical conduct that denigrates or shows hostility toward an individual because of his/her race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, national origin, age, disability, or other status protected by federal, state or local law, and that creates an intimidating, hostile, or offensive working environment based on these factors. Harassment may include, but is not limited to, epithets, slurs, jokes, or other verbal or physical conduct relating to an individual's race, color, religion, sex, national origin, age, disability, or other protected status. Sexual harassment can consist of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual or gender-related nature that creates an offensive or hostile work atmosphere.

The Company prohibits conduct—whether it's physical, spoken or in writing—that is offensive and/or harassing in nature. Prohibited conduct includes:

- *Unwanted advances*, brushing up against, hugging, kissing, or any other similar physical contact considered unwelcome or intimidating by another individual.

- *Demands for favors*, sexual or otherwise. This includes unwelcome propositions, subtle expectations, pressures, or requests for any type of favor. This includes sexual favors or dates or financial/material requests, even if the request is not accompanied by an implied or stated promise of preferential treatment at work or of any negative impact on employment status.

- *Verbal abuse, jokes, kidding or conversation* containing slurs, unwelcome sexual comments, negative stereotypes or other offensive comments. This includes telling jokes, whistling, or making offensive comments about age, gender, ethnicity, religious beliefs, pregnancy, sexual orientation, national origin, disability, military service, or marital status that are unwanted and considered offensive. This also includes making unprofessional comments about a team member's body or appearance or making offensive comments about sex or any other prohibited form of harassment.

- *Offensive conduct or visual displays*, such as leering, gestures, pranks, displaying of objects, pictures, cartoons, letters, notes or posters that are obscene or sexually suggestive or that call out other protected characteristics.

In addition to the above, there are other types of enabling behavior that can be equally damaging. Such conduct includes ignoring harassment or treating it as a joke; failing to report harassment; lying or refusing to cooperate with a harassment investigation; and/or retaliating against a team member for reporting or complaining of harassment.

Employees who violate this policy will face disciplinary action that may include dismissal.

All Company employees are responsible for maintaining a workplace free of all prohibited harassment and/or discrimination. Any person may file a harassment and/or discrimination complaint regarding incidents experienced personally or observed in the workplace, without fear of retaliation. Never assume that the Company is aware of inappropriate conduct which you have witnessed or experienced.

Employees who experience any job-related discrimination or harassment, witness job-related discrimination or harassment, or believe their employment is being adversely affected by such conduct (whether directed to a co-worker or not) must immediately report the incident to the supervisor, Principal or Human Resources. In the event the complaint is against the supervisor or Principal, the employee must contact Human Resources immediately. In the event the complaint is against the Human Resources Department, the employee must report the incident to President immediately. Any employee who, either by report from an employee or by other means becomes aware of conduct that may constitute harassment must report such conduct to Human Resources.

A prompt and thorough investigation will occur and, if it is determined that unlawful harassment has occurred or that an individual has engaged in inappropriate conduct, the Company will take appropriate disciplinary action.

The Company prohibits retaliation against any employee for filing a complaint or for assisting in a complaint investigation. All incidents of retaliation must be reported to the supervisor, Principal, Human Resources or President as noted above.

Personnel Administration

EMPLOYEE ASSESSMENT

The Company is a performance-based Company. Employees' performance will be evaluated regularly and employees will be provided with a job description, Executive Information System Success Metrics, personnel administration policies, work standards and a code of conduct, and applicable training on these tools.

TRAINING

The Company conducts orientation and training for new employees within the first 2 weeks of employment. The training coordinator will provide a schedule of training. Attendance is mandatory.

BACKGROUND POLICY & DUTY OF EMPLOYEES TO REPORT CRIMINAL CHARGES, ARRESTS, INCARCERATIONS AND CONVICTIONS

The Company conducts background investigations annually on all employees. Conduct of an employee resulting in criminal charges, arrests, incarcerations and/or convictions may be a violation of the Employee Code of Conduct and may result in disciplinary action including, but not limited to, unpaid suspension and/or termination.

If you are charged, arrested, incarcerated, or convicted of any criminal offense (misdemeanor or felony) while you are an employee of the Company, this must be reported to the School Principal if you are a school employee, or your immediate supervisor if you are employed at a location other than a school. This report must be submitted in writing, on the next school day / business day, or within 48 hours if the criminal charges, arrest, incarceration or conviction occurs on a weekend or holiday. Failure to report a criminal charge, arrest, incarceration, or conviction per this policy is a violation of this policy, as well as the Employee Code of Conduct, and may result in disciplinary action including, but not limited to, unpaid suspension and/or termination. -

EMPLOYMENT OF RELATIVES

The Company permits the employment of qualified relatives of employees as long as such employment does not, in the opinion of the Company, create actual or perceived conflicts of interest. For purposes of this policy, "relative" is a spouse, common law spouse, child, parent, sibling, grandparent, grandchild, aunt, uncle, first cousin, or corresponding in-law or "step" relation. The following guidelines may be followed by the Company; however, the Company reserves the right to modify these guidelines depending on particular circumstances and its business needs:

- Individuals who are related by blood or marriage are permitted to work in the same Company facility, provided no direct reporting or supervisory/management relationship exists. That is, no employee is permitted to work within the "chain of command" of a relative such that one relative's work responsibilities, salary, or career progress could be influenced by the other relative.

- No relatives are permitted to work in the same department or in any other positions in which the Company believes an inherent conflict of interest may exist.

- Employees who marry while employed are treated in accordance with these guidelines. That is, if, in the opinion of the Company, a conflict or an apparent conflict arises as a result of the marriage, one of the employees will be transferred at the earliest practicable time.

The Company reserves the right to take all necessary steps to avoid conflicts of interest or the appearance of conflicts based on familial relationships. The Company may, in its sole discretion, take any necessary action in regard to assignments and jobs including, but not limited to, reassignment or transfer of one or both employees or any other reasonable and appropriate action deemed necessary to protect the legitimate business interests of the Company. When continued employment of both individuals is no longer practical or alternative employment cannot be arranged, one or both of the employees will be required to resign.

This policy applies to all categories of employment at the Company, including regular, temporary, and part-time classifications.

EMPLOYEE REFERENCES

With respect to requests for references from prospective employers of former employees, it is the Company's policy to confirm only position held, date of hire, and salary.

All requests for references should be referred to The Work Number at 800-367-5690 or www.theworknumber.com. Our Employer Code is 35486.

Employee Work Standards

ATTENDANCE

The Company expects prompt and regular in-person attendance at the employee's designated work site from all employees. The Company does not allow school-based employees to work remotely. Employees must be at their appointed work areas fully prepared to begin work at their scheduled start time. Unexcused or excessive absences and tardiness will not be tolerated.

The Company recognizes that, on occasion, employees may be unable to report to work. Employees must contact their immediate supervisor regarding any expected or unexpected absences from any scheduled working hours. If the immediate supervisor is unavailable, employees must contact the Assistant Principal.

Employees are expected to call or email their immediate supervisor or other designated contact prior to start of the workday to report an absence. Employees are expected to call or email their immediate supervisor no later than 1 hour before expected time of arrival if they are not intending to report to work or are going to be tardy. If an employee anticipates an absence of several days, he or she may notify his or her immediate supervisor with one phone call or email; however, an employee must provide an anticipated date of return. If the anticipated date of return changes, the employee will be required to notify his or her immediate supervisor with updated information and a revised date of return via phone or email.

Absences for illness of three or more days must be accompanied by a doctor's notice.

Vacation schedules must be approved by the immediate supervisor and vacation days cannot be used by school-based staff during the instructional school year without extenuating circumstances and approval by immediate supervisor, Regional Director, and Human Resources.

If an employee or someone on the employee's behalf does not call in to report an absence or fails to report to work within a 48-hour period, the Company will consider this to be job abandonment and for a basis of termination, unless good cause can be shown for the failure to report or to call in.

Although certain paid leave is earned by Company employees, it should not be abused. Employees exhibiting a pattern of absences that coincide with weekends, holidays and paydays will be required to provide medical verification of illness. Certain excused absences (FMLA, jury duty, etc. as provided by law) will not be considered against an employee in evaluating attendance.

CHILDREN IN THE WORKPLACE

Although the Company understands that employees from time to time experience last minute daycare issues, sick children and other unforeseen events involving your children or a child in your care, the Company does not allow children or a child in your care in the workplace. As a matter of safety to your child or child in your care, our students, employees and parents, employees needing to care for sick children or with daycare issues must utilize sick time or other forms of leave available.

EMPLOYEE CLASSIFICATION CATEGORIES

Employees are divided into several groups for the purposes of pay and benefits. ALS's policies apply to all employees.

Regular Full-Time: An employee (not in temporary status) whose regular work schedule is 30 hours per week or more is classified as a full-time employee and is eligible for all benefits once all prerequisites and qualifications for benefit eligibility are met by the employee. All benefits are governed by the terms of the specific benefit plans, which may be modified from time to time.

Part-Time: An employee (not in temporary status) whose regular work schedule is designated to be less than 30 hours per week is classified as a part-time employee. Part-time employees generally are not eligible for ALS benefits, unless otherwise required by law.

Temporary: An employee who is employed to work on special projects for short periods of time, or on a "fill-in" basis. These positions are not intended to be a part of ALS's continuing operations. The employment status of the temporary employees will not be changed due to an extension of employment in excess of that originally planned. Unless otherwise required by applicable law, temporary employees are not eligible for ALS benefits.

Non-Exempt/Hourly: Employees who receive pay on an hourly basis for all hours worked in each workweek. Non-exempt employees are eligible for overtime pay for all hours worked over 40 in any given workweek as described under the FLSA.

Exempt: All executives and managers and other exempt employees as defined under the FLSA. Salaried exempt employees are not eligible for overtime pay and are paid a predetermined weekly amount (payable weekly, bi-weekly, monthly or as otherwise allowed by law).

ALS employees work at a number of different locations and serve a variety of different needs. Annual calendars as well as holidays and paid time off (vacation/sick/bereavement/personal) are determined based on the following classifications:

10-Month Employees: 10-Month Employees consist of instructional (day-to-day instruction of students) and non-instructional employees who physically work at one or more school locations. 10-Month Employees work on a 10-month academic calendar but are paid on a 12-month schedule.

12-Month Employees: 12-Month Employees consist of administrative, instructional, and non-instructional employees who physically work at one or more school locations for a full 12-month year and not just the academic calendar.

PAYROLL / PAY PERIODS

Non-exempt	Hourly rate of pay for hours worked (40 and below), plus a time-and-one-half rate for hours worked over 40 in a workweek.
Exempt	Base salary for all hours worked, regardless of the number of hours you work in a workweek.

Non-exempt (hourly) employees are eligible for overtime. Overtime is defined as time worked in excess of 40 hours in a work week.

Non-exempt employees must obtain written authorization from their supervisors in advance of working overtime hours. Unauthorized additional work time in a day or overtime during a work week is not permitted.

- clock in and out at the beginning and end of the workday and at the beginning and end of your meal break or other breaks lasting more than 20 minutes.
- **not** perform work before clocking in, after clocking out or while you are clocked out for an unpaid meal break. If you perform any work before clocking in or after clocking out, notify your supervisor as soon as possible so the appropriate time can be recorded in your timesheet.
- **not** work "off the clock" (i.e., working but not reporting hours), which supervisors must not ask you to do.
- accurately record any overtime, paid time off, etc., on your timesheet.
- **not** clock in or out for another employee.
- review your timesheet for accuracy each pay period and then submit it for your supervisor's approval. When you submit your timesheet, you are verifying that the hours are correct. If your timesheet is inaccurate, you are responsible for notifying your

supervisor so corrections can be made.

Employees are responsible for accurately recording all hours worked. Working “off the clock” (i.e., working but not reporting hours) is strictly prohibited and is subject to discipline up to and including termination.

If you are an ***exempt*** employee, you are responsible for reporting paid time off or other non-work time to your supervisor. If your time is inaccurate, notify your supervisor so any corrections can be made.

If you notice an error after your timesheet has been submitted, you must notify your supervisor immediately. If you have any questions or believe you have not been paid for all hours worked, notify Human Resources.

Pay Periods
All employees are paid on a bi-weekly pay schedule. If a regularly scheduled payday falls on a bank holiday, employees will be paid the day before. 10-month employees and 12-month employees will be paid over a 12-month schedule (26 pay periods).

10-Month, non-instructional employees will be compensated through the last working day of the school year.

Additional Pay
You will receive your regular paychecks based on your annual salary in the pay periods mentioned above. Any additional pay above and beyond your annual salary will be processed at the next payroll cycle, once received by the payroll department. Paperwork received by the payroll department after a pay cycle processing date will be paid with the next payroll cycle. Manual drafts will not be processed for these types of pay.

Paycheck Discrepancies / Retro Pay
If you feel your paycheck is inaccurate you must inform Human Resources immediately. If an error is found in your pay, you will be eligible for pay retroactive to the date of the occurrence.

EMPLOYEE ASSIGNMENT

Employees agree to perform the duties and responsibilities required of their position, including all duties identified in their job description or otherwise reasonably directed by their supervisor. Employees are evaluated on their ability to perform their assigned duties. The Company reserves the right to initiate involuntary employee transfers based on staffing needs as determined by the Company.

OUTSIDE EMPLOYMENT

Employees are expected to devote their full time and attention to their responsibilities as outlined in the offer letter and contract executed between them and the Company.
An employee may, however, hold other paid employment outside of the school work day

providing such employee has submitted a written request to the Vice President of Operations advising them of the outside employment being contemplated and providing the CEO with the necessary information to enable the VP of Ops to evaluate the propriety of the other employment opportunity.

New employees must disclose in writing any other employment they currently have prior to being hired.

Employees granted permission will still be held accountable for meeting all requirements contained in their employment contracts, offer letters and job descriptions.

Notwithstanding the above, employees may not:

1. Accept other paid employment if the responsibilities of that second job are incompatible with their Company job requirements or conflict with the School Calendar and schedule.

2. Accept a second paid job with the school district in which they work.

3. Tutor for compensation pupils assigned to the School in which they work. Employees may tutor pupils enrolled in other schools unless such conflicts with or impairs the ability of the employees to discharge their duties properly.

Failure to disclose outside employment or any other conduct in violation of this policy will be grounds for discipline, up to and including termination of employment.

REPORTING ABSENCES

Employees are expected to call their immediate supervisor or other designated contact prior to the start of the workday to report an absence. Employees absent more than one day must report the absence each day except in cases where the employee has provided documentation and received approval covering a specific period of time. Employees who will be absent more than one day and anticipates the absence must notify his or her supervisor and must provide an anticipated date of return. If the anticipated date of return changes, the employee will be required to notify the immediate supervisor with updated information and a revised date of return.

Upon the request of management and whenever an employee is absent for three (3) consecutive shifts because of illness or injury, or when otherwise requested, the employee must provide the Company with documentation signed by the physician treating the employee that states (1) that the employee was unable to perform his/her regularly scheduled duties during the absence, (2) when the employee will be able to return to work, and (3) the nature and duration of any activity restrictions that are ordered. Such documentation must be provided to the Company upon the employee's return to work or as soon as an employee becomes aware that they will absent for more than three (3) shifts. If the employee is unable to provide the Company with such documentation, the employee may be subject to disciplinary action up to and including termination of employment.

Employees who are absent from work for two consecutive scheduled workdays without

giving proper notice, or making a good faith attempt to contact their direct supervisor, will be considered as having voluntarily resigned.

CONFIDENTIALITY OF INFORMATION

It is the policy of the Company to ensure that the operations, activities, and business affairs of the Company and its students are kept confidential to the greatest possible extent. If, during their employment, employees acquire confidential or proprietary information about the Company, its students and its clients, such information is to be handled in strict confidence and is not to be discussed with outsiders. Employees are also responsible for the internal security of such information.

For purposes of this policy, “Confidential and Proprietary Information” means any and all data and information relating to the Company’s business, whether written or otherwise, of which the employee becomes aware as a consequence of, during, or through the employee’s association with the Company, including, without limitation: research, strategic plans, operating plans and methodologies, specialized teaching methods, Executive Information System (EIS) database, operations manual, academic records, student records and transcripts, marketing strategies, financial information, results of tests or other trade secrets, as well as any or all information which is disclosed to the employee or in any way acquired by the employee relating to the Company or its employees, clients, customers, students, prospective customers or clients, or vendors.

Employees will be asked to sign a Confidentiality Agreement at the time of hire and periodically throughout their term of employment to acknowledge their awareness of, and reaffirm their commitment to, this policy.

Employees may not remove from the facility any Company property including, but not limited to computer, computer software, audio or visual equipment, databases, financial records, academic records, procedures manuals, etc., without prior approval from the Principal.

BENEFITS

The Company provides a variety of benefits including insurance plans, a 401(k) plan, and paid time off. Eligibility for these plans will depend on employment status, hours worked and specific plan requirements. The plan provisions, including eligibility requirements, are contained in the plan documents available from the Human Resources department. In the event that any differences exist between the language in this overview and the language in the plan documents, then the plan documents shall control.

Employees are provided details concerning insurance and the 401(k) plan during orientation and upon request throughout the year.

Employees enrolling in plans that require an employee contribution toward the premium cost will be subject to payroll deductions. The Company may add, change or terminate any benefit at any time without prior notice.

HOLIDAYS

All regular full-time salaried and full-time hourly school employees will observe the posted holiday schedule and should consult the annual school calendar for a list of the holidays. Part-time and temporary workers are not paid for holidays. If you wish to obtain a copy of the calendar, please contact your Principal. The Company reserves the right to amend, add, or eliminate the holiday schedule at any time based on its business needs.

SUMMER VACATION

10-month employees will receive paid summer vacation in addition to all public school holidays and non-workdays specific to the annual school calendar for their location. 10-month employees will be expected to return to school on the first day of all staff professional development days as designated by the Company.

12-month employees will receive five (5) days of summer vacation in addition to all public school holidays and non-workdays specific to the annual school calendar for their location. Vacations are to be scheduled during summer break between the closing of one school year and the opening of the next school year when students are not scheduled to be in school. This needs to be approved by their Principal, Regional Director, or designee. 12-month employees will have an additional four (4) days of summer vacation that will be taken the week of July 4. 12-month employees will be expected to return to school on the first day of all staff professional development days as designated by the Company. Vacation days do not carry over to subsequent school years. Employees will not be paid for any unused vacation time upon separation of employment.

Note: For 12-month employees, if you are hired after the start of the school year,

you will receive a prorated number of summer vacation days based on the month you are hired. However, you will receive all four summer vacation days the week of July 4th as paid vacation.

Although sick leave is provided, it should not be abused. Employees exhibiting a pattern of absences that coincides with weekends, holidays, and paydays may be required to provide medical verification of illness. Abuse of the Company's sick day policy may result in disciplinary action, up to and including termination of employment.

Unused sick leave days will be accumulated and carried over to subsequent school years until such time as the employee reaches forty (40) sick leave days.
Upon termination of employment, for any reason, employees will not be paid for unused sick/bereavement/personal time.

Bereavement leave, with pay, may be used in case of death in the employee's immediate family, and upon approval from the principal and submission by the employee of appropriate documentation, for up to five (5) working days annually. Bereavement leave, with pay, may be used in case of death in the employee's extended family, and upon approval from the principal and submission by the employee of appropriate documentation, for up to three (3) working days annually. Extended family includes grandparents, grandchildren, aunts, uncles, or other relatives living in the home of the employee. Only school-based, full-time employees are eligible for bereavement leave. Bereavement leave is included in the sick/bereavement/personal day policy and is not an additional leave.

Note: If you leave the Company and your separation is longer than 30 days you are considered a new hire for vacation and sick/bereavement/personal days.

FAMILY MEDICAL LEAVE OF ABSENCE POLICY

Under the Family and Medical Leave Act of 1993, as amended (FMLA), employees may be eligible for a period of job-protected unpaid leave for certain family and medical reasons as described below. This Family Medical Leave Act Policy ("Policy") provides an overview of employees' rights and responsibilities under the FMLA as well as the Company's own policies regarding FMLA Leave. The Company has posted notices of the FMLA at all Company facilities. The information in those posters is incorporated into this policy by reference.

General Eligibility

To be eligible for FMLA Leave under this Policy, an employee must have worked at the Company for at least 12 months and must have worked at least 1,250 hours during the 12-month period prior to the commencement date of any leave requested under this Policy. Eligibility will be determined as of the date the leave commences. Employees who work at a site at which fewer than 50 employees are employed within a 75-mile radius are not eligible

for leave under this policy. As of June 2021, sites where employees are eligible for FMLA include those in Seminole, Orange, Lee, and Miami-Dade counties; this is subject to change. When a request for FMLA is made, the Company will advise of the employee's eligibility and the employee's rights and responsibilities.

Types and Duration of FMLA Leave

Bonding Leave; Serious Health Condition Leave; Leave to Care for a Family Member With a Serious Health Condition; Active Duty Leave

An employee may be eligible for up to 12 weeks of unpaid leave during a rolling 12-month period (measured backward from the date an employee uses FMLA leave) for the following reasons:

1. the birth of the employee's child and to bond with the child; or for placement through adoption or foster care and to bond with the newly placed child. Such leave must be concluded no later than 12 months after the birth or placement of the child with the employee;

2. to care for an immediate family member (spouse, child under 18 years old or a child 18 and over who is incapable of self-care because of a disability, or parent) with a serious health condition;

3. because of a serious health condition which renders the employee unable to perform the functions of his/her job; or

4. because of any qualifying exigency arising out of the fact that an employee's spouse, son (of any age), daughter (of any age) or parent, who is serving in any branch of the military (including the National Guard or Reserves), has been deployed or called to active duty in a foreign country ("Active Duty Leave").

Military Caregiver Leave

An employee also may be eligible for Military Caregiver Leave to care for a spouse, son (of any age), daughter (of any age), parent or next of kin who is: 1) a current member of the Armed Forces, including the National Guard or Reserves, and who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness, which is incurred in the line of duty (or for a pre-existing injury or illness which is aggravated in the line of duty) and that renders the service member medically unfit to perform the duties of his or her office, grade, rank or rating, or 2) a veteran who was a member of any branch of the Armed Forces, including the National Guard or Reserves, and who is undergoing medical treatment, recuperation, or therapy, for a serious injury or illness that occurred in the line of duty (or for a pre-existing injury or illness which was aggravated in the line of duty) at any time within 5 years preceding the treatment, recuperation or therapy. A covered veteran incurs a serious illness or injury for purposes of this paragraph when one of the following occurs:

1. The injury or illness makes him or her medically unfit to perform the duties of his or her office, grade, rank or rating.

2. It causes the service member to have a VA Service Disability Rating is at 50% or greater.

3. It is a mental or physical condition substantially impairs their ability to obtain gainful employment

4. The VA enrolls the employee in the Department of Veteran Affairs Program of Comprehensive Assistance for Family Caregivers.

Eligible employees are entitled to a total of 26 weeks of unpaid Military Caregiver Leave during a single 12-month period. This single 12-month period begins on the first day an eligible employee takes Military Caregiver Leave (as long as it is within 5 years of the covered service member's active duty) and ends 12 months after that date. Military Caregiver Leave applies on a per-covered service member, per-injury basis, so that an employee may be eligible to take more than one 26 week period of Military Caregiver Leave, but no more than 26 weeks of leave may be taken during any one 12-month period.

An eligible employee is entitled to a combined total of 26 workweeks of leave for all FMLA qualifying reasons during the single 12-month period described above. For example, if an employee takes 10 weeks of FMLA leave due to his/her own serious health condition, the employee may take only 16 weeks of Military Caregiver Leave during that same 12- month period.

Definitions

- A "serious health condition" as referred to above means an illness, injury, impairment, or physical or mental condition that involves:

  1. in-patient care (*i.e.*, an overnight stay) in a hospital or other medical care facility (including any period of incapacity or any subsequent treatment in connection with such in-patient care);

  2. a period of incapacity of more than three (3) consecutive full calendar days, and any subsequent treatment or period of incapacity relating to the same condition that also involves (i) treatment two (2) or more times by a health care provider or under the supervision of a health care provider within 30 days of the start of the incapacity, or (ii) treatment by a health care provider on at least one (1) occasion within seven (7) days of the start of the incapacity which results in a regimen of continuing treatment under the supervision of a health care provider;

  3. any period of incapacity or treatment due to pregnancy, or for prenatal care;

  4. any period of incapacity or treatment due to a chronic serious health condition requiring periodic visits of at least twice a year for treatment by a health care provider;

  5. a period of incapacity or treatment which is permanent or long-term due to a condition for which treatment may not be effective, during which the employee (or family member) must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider; or

6. any period of absence to receive multiple treatments by a health care provider or under the supervision of a health care provider, either for restorative surgery after an accident or other injury, or for a condition that will likely result in a period of incapacity of more than three (3) consecutive calendar days in the absence of medical intervention or treatment.

- A "qualifying exigency" referenced above under "Active-Duty Leave" refers to the following circumstances:

1. Short-notice deployment: to address issues arising when the notification of a call or order to active duty is seven (7) days or less.

2. Military events and related activities: to attend official military events or family assistance programs or briefings.

3. Childcare and school activities: for qualifying childcare and school related reasons for a child, legal ward or stepchild of a covered military member.

4. Care of the covered military member's parent if the parent is incapable of self-care.

5. Financial and legal arrangements: to make or update financial or legal affairs to address the absence of a covered military member.

6. Counseling: to attend counseling provided by someone other than a health care provider for oneself, for the covered military member, or child, legal ward, or stepchild of the covered military member.

7. Rest and recuperation: to spend up to fifteen (15) calendar days for each period in which a covered military member is on a short-term rest leave during a period of deployment; or

8. Post-deployment activities: to attend official ceremonies or programs sponsored by the military for up to 90 days after a covered military member's active duty terminates or to address issues arising from the death of a covered military member while on active duty.

When Spouses Work Together

If both spouses are employed by the Company and are eligible for leave under this policy, they are eligible for a combined total of 12 weeks of leave within the applicable 12-month period when the leave is due to the birth or placement of a child or to care for a parent who has a serious health condition, or a combined total of 26 weeks within the applicable 12-month period when the leave is due to the birth or placement of a child or to care for a parent who has a serious health condition and for Military Caregiver Leave. (However, in no event shall the spouses take more than a combined total of 12 weeks of leave within the applicable 12-month period for the birth or placement of a child or to care for a parent who has a serious health condition).

Notice of Need for FMLA Leave

An employee who wants to take FMLA must follow normal call-in policies and notify the person an employee would normally notify for an absence. Failure to adhere to normal Company call-in procedures can result in discipline, as with any other type of leave.

If FMLA applies or believed to possibly apply, the employee will be required, thereafter, to contact the Human Resources department to complete a request for leave. The employee will be required to fill out prescribed forms requesting leave.

To avoid a delay in FMLA protection, the employee must give notice as soon as possible and practicable under the circumstances of enough facts to advise the person receiving the call that FMLA may apply. Employees are always required to give notice as soon as practicable and possible, but, except for instances of active duty leave, an employee is not required to provide more than thirty (30) days advance notice.

If an employee fails to give the required notice with no reasonable excuse, FMLA coverage may be delayed for a period of time. This can result in discipline for absences taken prior to FMLA coverage commencing.

Employees should make every reasonable effort to schedule foreseeable medical treatments so as not to disrupt the ongoing operations of the Company.

Substitution of Paid Leave for Unpaid FMLA Leave

Employees must concurrently exhaust any short-term disability benefits, workers compensation benefits, accrued vacation time, or any other form of applicable paid leave for FMLA leave. All substituted paid leave that is being concurrently exhausted will be counted against an eligible employee's FMLA leave entitlement.

Intermittent FMLA Leave

Intermittent or reduced schedule leave is leave at varying times for the same qualifying condition. Intermittent leave or reduced schedule leave may be available if the need for leave is due to an employee's serious health condition or an employee's immediate family member's serious health condition and when the need for intermittent or reduced schedule leave is certified by a health care provider. Intermittent or reduced schedule leave is not available for the birth or placement of a child for adoption or foster care, unless the Company agrees. Military Caregiver Leave may be taken intermittently or on a reduced leave schedule when medically necessary. Active Duty Leave may also be taken on an intermittent or reduced leave schedule.

Employees who take foreseeable intermittent or reduced schedule leave must attempt to schedule their intermittent or reduced schedule leaves so as not to disrupt the operations of the Company and in some instances, the Company may require employees taking foreseeable intermittent or reduced schedule leaves to transfer temporarily to an alternative position for which the employee is qualified and which better accommodates the employee's leave schedule. Pay and shifts would not be affected by a change to an alternate position. Time worked in the alternate position would not count towards the employee’s FMLA leave entitlement.

Employees taking unforeseeable intermittent leaves must follow the Company's standard call-in procedures absent unusual circumstances.

Documentation Supporting FMLA Leave

An employee requesting leave for a serious health condition must provide a completed FMLA Certification of Health Care Provider Form supporting the need for the leave. A request for reasonable documentation of family relationship verifying the legitimacy of a request for FMLA Leave may also be required.

The employee will have fifteen (15) days in which to return a completed Certification form following the Company's request for the certification. If the employee fails to provide timely certification after being required to do so, covered leave may be delayed moving forward until the certification form is finally submitted. Absences counted against the employee for a late certification will not be reversed absent exceptional circumstances. If an employee never returns the completed form, the FMLA will be denied and the absences will be unprotected. If the Certification form is incomplete or insufficient, an employee will be given written notification of the information needed and will be given a period of seven (7) days to provide the necessary information.

In some circumstances, a second opinion, at the expense of the Company, related to the health condition may be required. If the original certification and the second opinion differ, a third opinion, at the expense of the Company, may be required. The opinion of the third health care provider, which the Company and the employee jointly select, will be the final and binding decision.

A request for Active-Duty Leave must be supported by the Certification of Qualifying Exigency for Military Family Leave form as well as appropriate documentation, including the covered military member's active duty orders.

A request for Military Caregiver Leave must be supported by the Certification for Serious Injury or Illness of Covered Servicemember form or Certification for Serious Injury or Illness of a Veteran for Military Caregiver Leave form as well as any necessary supporting documentation.

Once the Company has received a complete and sufficient certification form from the employee, the Company will advise the employee whether he or she has been approved or denied FMLA and, if possible, will advise how much FMLA will be used.

Recertification

In the following circumstances, the Company may, in its sole discretion, require recertification of the qualifying reason for FMLA: (1) where the employee needs more leave than the original certification justified; (2) where circumstances and facts cast doubt on the employee's need for FMLA; or (3) when the need for FMLA extends beyond 6 calendar months. In these situations, the employee will have fifteen (15) days in which to provide a completed Recertification form.

Restoration To Position and Benefits

Healthcare benefits will be maintained while an employee is on FMLA, subject to the payment of premiums explained in this paragraph. For all other benefits, they will be maintained similarly to others on similar forms of leave (paid/unpaid). Employees on paid FMLA (because they are concurrently exhausting a paid leave benefit) will continue to have their premium payments deducted from their paycheck as if they were on non-FMLA paid leave. Employees on an unpaid FMLA leave (for which no paid leave is substituted or after all paid leave has been exhausted) will need to maintain the benefits they accrued prior to commencement of the leave by making premium payments. If the payment is not received on the due date or thereafter, the Company will provide the employee written notice of non-payment and provide 15 days to make the payment. If the payment is not made within the 15 day window, and at least 30 days have passed from the due date, then coverage under the benefit plan will lapse, retroactively to the original due date.

Employees are permitted to return to whatever position they would have held had they not taken FMLA leave. Generally, this means employees returning from FMLA leave within 12 weeks will be returned to the job position that they held when they went on leave, or a substantially similar one. If the employee would have lost their position even if they had not taken the leave, then there exists no reinstatement right. For example, if the employee's position is eliminated because of a reduction in force, then no reinstatement right exists.

If an eligible employee fails to pay his or her portion of the required premium payments for benefit coverage, and the Company elects to make the employee's portion of premium payments to keep benefit coverage in effect during a period of paid or unpaid FMLA leave for medical and dental benefits, and/or a period of unpaid FMLA leave for other benefits, the Company may recover the amount of the premium payment from the employee regardless of whether the employee returns to work. The Company may recover its own share of the premiums paid for maintaining an employee's medical and dental benefit coverage during any period of unpaid FMLA leave if the employee fails to return from leave after entitlement has expired, provided the employee failure to return to work for a reason other than the continuation, recurrence, or onset of a serious health condition was unrelated to the qualifying reason the employee took FMLA leave.

Return To Work

Employees on FMLA leave must periodically inform the Human Resources department of their status and intent to return to work while on FMLA leave. Employees returning from FMLA leave must be able to assume all of the essential functions of their jobs upon return. The Company will provide time for the employee to learn of any changes or new technology implementations. As a condition to restoring an employee whose leave was based on the employee's own serious health condition, the employee must provide certification from the employee's health care provider stating that the employee is able to resume work. This return-to-work statement is required for all serious health conditions unless the employee has previously provided one for that condition within the past year. If safety issues exist, the Company may require a return-to-work statement every thirty days.

Failure To Return From Leave

Unless required otherwise by law an employee granted a leave of absence under these provisions who fails to return to work upon expiration of the leave will no longer have protected absences. Further absences would count against the attendance policy.

Key Employees

An employee who qualifies as a "key employee" may be denied restoration of employment after a period of FMLA leave if holding the employee's position would cause the Company grievous economy injury. A "key employee" is an employee who is salaried and is among the highest paid ten percent of the work force within 75 miles of the place where the employee reports to work. Upon requesting FMLA leave, an employee will be notified by the Company of his/her status as a "key employee" if there is a possibility that the Company may deny reinstatement after leave.

Medical Leave – Not Covered by FMLA (Including Pregnancy And On and Off-The-Job Injuries Or Illnesses)

The Family and Medical Leave Act does not apply to employees in locations with fewer than 50 employees within a 75 mile radius of another Company location. In such locations, the Company will address and administer leave issues in accordance with other Company policies and in relation to the circumstances in that location at the time of the leave. The provisions of the Company's FMLA policy, as set forth above, may be applied in whole or in part, to the extent practicable and appropriate, as determined by Human Resources.

Family and Medical Leave (Applicable to Miami-Dade County Employees Only)

Employees located in Miami-Dade County, may take family and medical leave in accordance with Family and Medical Leave Act (FMLA) policy above. In addition to taking leave as provided above, Miami-Dade County employees are permitted to take family and medical leave for the care of a grandparent with a serious health condition. The length of leave permitted is twelve (12) workweeks in a 12-month period to run concurrently with any leave provided under the federal FMLA.

Time Off for Victims of Domestic Abuse or Other Crimes

Employees who are victims of domestic violence are entitled to up to three (3) days of unpaid leave in a rolling 12-month period, if they have been employed for three (3) months or longer.

This leave is intended to cover specific activities related to domestic violence incidents including: seeking an injunction for protection against domestic violence or repeat violence, dating violence, or sexual violence; obtaining medical care or mental health counseling or both for the employee of a family or household member to address injuries resulting from domestic violence; obtaining services from victims services organizations such as a domestic violence shelter or rape crisis center; making the employee's home secure from the perpetrator of domestic violence or finding a new home to escape the perpetrator; or seeking legal assistance to address issues arising from domestic violence or attending or

preparing for court related proceedings arising from the act of domestic violence.

For purposes of this policy, a family or household member includes spouses, former spouses, persons related by blood or marriage, persons who are presently residing together as if a family or who have resided together in the past as if a family, and persons who are parents of a child in common regardless of whether they have been married. With the exception of persons who have a child in common, the family or household members must be currently residing or have in the past resided together in the same single dwelling unit.

Except in cases of imminent danger to the health or safety of the employee or of the employee's family or household member, employees must provide as much advance notice as possible. Employees may be requested to provide sufficient documentation of the need for leave. Time off under this policy will be unpaid; however, employees may elect to use accrued paid time, if available. Any request for domestic violence leave will be kept confidential to the extent allowed by law and will be handled by Human Resources.

JURY DUTY AND SUBPOENAS

Employees who are called to perform jury duty will be granted time off from work in accordance with state law. Upon receiving notice of jury duty service, employees are required to notify their immediate supervisor. Employees are also required to notify their supervisor upon completion of their jury duty service. Employees whose jury duty time constitutes less than three hours on any given day will be required to return to work that day. Employees whose jury duty service constitutes more than three hours on any particular day will not be required to return to work that day.

Employees who serve jury duty will not suffer a loss in earnings. The Company will pay employees serving on jury duty the difference between what they receive for jury duty and their regular straight-time rate of pay for the period they serve if the amount received from the state exceeds $50.00 a day. Upon return from jury duty service, employees will be required to provide written verification to the Company of the actual time spent on jury duty and the amount of jury duty pay received before payment under this section will be made.

Jury Duty Leave (Applicable to Miami-Dade County Employees Only)

The Company will not tolerate discrimination or retaliation against an employee who is called to serve as a juror or as a witness in response to a subpoena in Miami-Dade County. The nature of the employee's testimony or service, as well as his or her absence from work, shall not be grounds for any adverse action against the employee.

Employees working in Miami-Dade County will be paid for jury service provided that:

- The employee is regularly scheduled for work at least thirty-five (35) hours a week;
- The employee serves as a juror in Miami-Dade County; and
- The employee gives his/her supervisor a copy of the summons and notice of jury service at least five (5) working days prior to absence from work.

If a juror receives payment for jury service from the State, the Company may deduct the amount received from payment to the employee for jury service.

MILITARY LEAVE

Employees may be entitled to certain rights and benefits and may have certain obligations related to service in the uniformed services pursuant to the Uniformed Services Employment and Reemployment Rights Act of 1994 ("USERRA") or related state laws. MEDIA POLICY

MEDIA AND PRESS RELATIONS

In this fast-paced, information-oriented country, the Company and its staff and students will be in various forms of news media from time to time. Reporters are eager to cover all that is happening in our schools and in our business. That can be a big advantage in building community support for our educational system.

The key to working with the media is to try to make sure that coverage of the Company is balanced, fair, and accurate. That calls for preparedness and rapid response. To help the Company personnel be prepared to cooperate with media representatives and gain favorable media coverage, the Company has adopted the Company wide media policy stated below. Among other issues it covers (1) designation of spokespersons for the Company; (2) procedures governing media access to the Company facilities; (3) procedures for working with media personnel in emergencies; and (4) procedures for conducting interviews and recording visual images at the Company facilities.

POLICY

Dissemination of information to the news media is the primary responsibility of the office of the CEO. All media responses must be discussed with the office of the CEO. There are no exceptions. The office of the CEO will designate a spokesperson for each media inquiry or release of information. Employees are prohibited from speaking on behalf of the Company.

PROCEDURES

Company personnel must adhere to the following guidelines when working with the media:

Procedures for Handling Media Inquiries

- Ask for the reporter's name.
- Ask for the name of the reporter's newspaper, radio station, or television station.
- Ask when the reporter's deadline is.
- Get the reporter's contact information: phone number, email address and fax
- Ask the reporter what the inquiry is about and what information is needed so it can be gathered to meet their needs. Get as many questions from the reporter as possible.

- Media requests for Company records shall be submitted in writing to office the CEO.

Send the above information to your Principal who shall immediately make contact with the CEO.

ACCESS TO SCHOOLS AND FACILITIES

News reports and other communications representatives must initiate their requests to interview, film, videotape, and/or photograph students and/or the Company personnel on the Company property through the office of the CEO. The Principal is responsible for maintaining discipline and the safety of all persons in the school.

All media requests made to the Principal or other employees must be directed to the office of the CEO. The office of the CEO will contact the regional office prior to a media visit. If media appear on campus without notifying the office of the CEO, the Principal should notify the office of the CEO and regional office. No media representatives will be allowed in the school without approval of the CEO.

News representatives must first check into the Principal's office before proceeding to other areas of the school building. Reporters are considered visitors at the campus and are required to sign in at the administrative office. Media representatives will be escorted by the Principal or his/her designee while they are in the building. The Company may refuse access to media representatives on school property if their presence or behavior would be disruptive to the school environment.

ACCESS DURING CRISIS/EMERGENCY SITUATIONS

In handling crisis situations on campus, Principals should first contact emergency medical services personnel (if the situation is life threatening). Following that, the general order of notification, depending upon the circumstances surrounding the situation, is first, the corporate office, who will then contact any other office as necessary.

During crisis/emergency situations, media access to schools and facilities may be limited to ensure student and staff safety or to maintain order. However, an area may be designated on school property to conduct news briefings on the crisis or emergency situation. In these situations, normal access procedures for media and other visitors may be suspended in the interest of student and staff safety and an orderly emergency response.

INTERVIEW AND PHOTOGRAPHY (FILM AND VIDEOTAPE)

Interviews, filming, or videotaping on the Company property may not occur without prior approval from the office of the CEO.

Filming, videotaping, and photographing children in classrooms, on campus, or in school sponsored events are allowed only if there is a signed parental consent form or release form for each child who participates in such activities. Signed parental consent forms must be in the school files and accessible upon request. The filming, videotaping, and photographing of children for classroom instructional purposes or for a purpose related to a co-curricular or extracurricular activity do not require parental permission forms. Questions regarding this policy should be directed to Human Resources.

Company personnel must adhere to the following general guidelines when working with the news media:

- The privacy of a student or employee is the foremost concern when working with the news media and must be considered prior to the release of any information. No information regarding specific students should be released to the media and press without the specific approval of the parent/guardian and the Principal.

- If there is no prior clearance from the office of the CEO, names of students should never be released under any circumstances without prior parental consent or the consent of the student if they are 18 years or age or older.

- All employees are required to comply with the Family Educational Privacy Act (FERPA) and with any state or school district mandates regarding student privacy

- Home addresses and telephone numbers of students, private citizens, and the Company employees are not to be released to the media.

- Media requests for the Company records shall be submitted in writing to the office of the CEO.

If a reporter insists on an interview and begins filming immediately, please politely tell him/her you will be glad to comply with the request but the corporate policy requires you to contact the office of the CEO prior to granting an interview.

Your Identity Online

You are responsible for all communications and information you publish online. The Company may be liable for online activity that uses Company assets, a Company e-mail address or any e-mail address that can be traced back to the Company's domain, which generally is any internet address affiliated with the Company. Using your Company e-mail address may imply that you are acting on the Company's behalf. Because social media and networking activities are public, your Company e-mail address and Company- provided internet access should be used only to perform job-related activities, which may include professional networking but do not include personal social networking.

Outside the workplace, you have a right to participate in social media and networks using your personal e-mail address. However, information and communications that you publish on personal online sites should never be attributed to the Company or appear to be endorsed by the Company or be an official Company communication.

ALS respects the rights of all employees to use social media as a tool for self-expression. However, ALS has an interest in protecting its image, goodwill, and reputation in the community. For this reason, ALS expects employees to conduct themselves in a professional manner when using social media, social networking sites, blogs, and any other mediums of Internet communication. Employees should remember that ALS's Harassment in the Workplace Policy and Equal Employment Opportunity Policy must be followed when using blogs, social media, and social networking.

In furtherance of the interests outlined above, employees are strictly prohibited from engaging in the following activities:

- Using social media, social networking, blogs or any other form of online discussion forum during working hours or while on ALS property, except for purposes of authorized ALS business upon the express written permission of the Director/Principal.

- Posting any material online that is obscene, vulgar, defamatory, threatening, discriminatory, harassing, abusive or hateful toward ALS employees, clients, students, parents of students, or other facility visitors.

- Posting any pictures online or using the likeness of any ALS employee, student, vendor, or customer without that individual's express advance authorization.

- Engaging in online activity which may reflect negatively on ALS and/or its affiliates, employees, clients, current students, former students, or the parents of any current or former students, or contains any content prohibited by ALS's policies and procedures.

- Including information or photographs related to ALS business, ALS employees or children and families served by ALS on any Internet website including, but not limited to, Facebook, Twitter, LinkedIn, and Instagram.

Nothing in this Social Media Policy or this handbook shall be construed as restraining, interfering with, or limiting employees' ability to engage in communications protected under Section 7 of the National Labor Relations Act, or other applicable law. Violations of this policy may be subject to disciplinary action, up to and including termination.

If you have any specific questions about the scope of this Social Media Policy, consult with Human Resources.

If you choose to disclose your affiliation with the Company in a personal online communication, you must make it clear that you are not speaking on behalf of the Company.

Obey the law and ethics rules. Do not post any information or engage in any online activity that violates applicable local, state or federal laws, or employee code of conduct.

Retaliation is prohibited

The Company prohibits taking negative action against any associate for reporting a possible deviation from this policy or for cooperating in an investigation. Any associate who retaliates against another associate for reporting a possible deviation from this policy or for cooperating in an investigation will be subject to disciplinary action, up to and including termination.

Engaging with current students on social media

Do not engage with current students on social media unless it is work-related (i.e. a social media outlet that has been established for the school or students such as a school Facebook page) and authorized by the school principal.

Using social media at work

Do not use any form of social media while on work time or on equipment we provide, unless it is work- related as authorized by your supervisor or consistent with the Company Equipment Policy. Do not use the Company email addresses to register on social networks, blogs or other online tools for personal use.

DISTRIBUTION AND REGULAR RETRIEVAL OF THE COMPANY COMMUNICATIONS

Voicemail

Voicemail is the Company's prime method of communicating urgent and vital information. Employees, therefore, should retrieve their voicemail messages at least three times a day: morning, some point mid-day, and prior to leaving work for the day. If you are unable to

retrieve your messages with the regularity required by this policy, please make arrangements for someone to check your voice mail box; in addition, please revise your outgoing message to let people know how long you will be unavailable and who to contact in your absence.

E-mail
E-mail is the Company's secondary method of communication. Employees are expected to retrieve their e-mail messages at least twice a day. Employees who, due to absence or other good cause, are unable to access their e-mail messages should: (1) make arrangements for someone to retrieve their e-mail messages; or (2) notify their supervisors of their inability to retrieve e-mails while on approved leave. While out on approved leave, employees should use the automated reply to let people know how long they will be unavailable and who to contact during their absence.

Cell Phone/Pagers
Employees who are provided Company-issued cell phones and pagers should have the cell phones and pagers with them and activated during work hours. If an employee cannot be contacted by either cell phone or pager during work hours, he or she must apprise his or her supervisor.

Personal Cell Phone Use
Employees may use their personal cell phones during their lunch period, only in the employee lounge and before or after school. Personal cell phones may not be used in the classrooms, corridors, offices or any other area of the building during the workday unless specifically outlined above.

Once a communication is sent by the Company to its employees by voicemail, e-mail, pager, or cell phone, the employee will be responsible for retrieving the communication and being apprised of its contents. An employee's failure to retrieve a message will not excuse any consequences which may result from the employee's lack of awareness or notice of the communication.

EMPLOYEE CODE OF CONDUCT

It is essential to the mission of the Company that employees conduct themselves professionally, both on and off the job. As an integral member of the Company, you are expected to accept certain responsibilities, adhere to acceptable professional principles in matters of personal conduct, and exhibit a high degree of personal integrity at all times. This not only involves sincere respect for the rights and feelings of others, but also demands that in your work you refrain from any behavior that might be harmful to you, your coworkers, your students and/or the Company, or that might be viewed unfavorably by the community in which you are employed.

Please keep in mind that your conduct reflects on the Company. You are, consequently, encouraged to observe the highest standards of professionalism at all times.

Employees are required to:

- comply with any applicable state and federal regulations, statutes and guidelines.

- treat each other, students, parents and all other visitors to the campus with dignity and respect.
- avoid conduct which could result in your arrest and/or subject you to criminal prosecution.
- report any criminal charges, arrests, incarcerations or convictions within the time frame specified in this Handbook.

Listed below are some of the standards of conduct of the Company. This list should not be viewed as being all-inclusive. Types of behavior and conduct that the Company expects includes, but is not limited to, the following:

1. Providing accurate and truthful information on Company employment forms or other Company records or documents;

2. Avoid engaging in unnecessary or unauthorized use of the Company's supplies for personal purposes;

3. Not engaging in fighting or using obscene, abusive, or threatening language or gestures;

9. In the spirit of teamwork, maintaining an effective working relationship, or maintaining good rapport, with parents, the community, or colleagues, where appropriate.

Any violation of this Code of Conduct is considered a violation of a workplace conduct rule and may subject you to disciplinary action, up to and including an unpaid suspension and/or termination of employment.

REPORTING CHILD ABUSE

As educational professionals, we have a responsibility to provide the children we teach with the opportunity to obtain the best education possible. However, our responsibility does not end there. We also have a legal responsibility to report any information that we receive that leads us to suspect that a child has been abused, neglected, or abandoned.

This policy is designed to provide guidelines for reporting suspected child abuse, neglect, and abandonment.

Florida Statutes require that all School personnel immediately (and within no more than 24 hours) report situations involving potential child abuse, neglect, or abandonment. The statute contains these definitions:

"Abuse": any willful act or threatened act that results in any physical, mental, or sexual abuse, injury or harm that causes or is likely to cause the child's physical, mental, or emotional health to be significantly impaired.

"Neglect": when a child is deprived of, or is allowed to be deprived of, necessary food, clothing, shelter, or medical treatment or a child is permitted to live in an environment when such deprivation or environment causes the child's physical, mental, or emotional health to be significantly impaired or to be in danger of being significantly impaired.

"Abandonment": a situation in which the parent or legal custodian of a child or, in the absence of a parent or legal custodian, the caregiver, while being able, has made no significant contribution to the child's care and maintenance or has failed to establish or maintain a substantial and positive relationship with the child, or both. For purposes of this subsection, "establish or maintain a substantial and positive relationship" includes, but is not limited to, frequent and regular contact with the child through frequent and regular visitation or frequent and regular communication to or with the child, and the exercise of parental rights and responsibilities..

If you know or suspect that a child:

(a) is abused, abandoned, or neglected by a parent, caregiver, or any other person responsible for the child's welfare,

(b) that a child is in need of supervision and care and has no parent, legal custodian or responsible adult relative immediately known and available to provide supervision and care,

(c) has been abused by an adult other than a parent, legal custodian caregiver or other person responsible for the child's welfare

(d) is the victim of sexual abuse or the victim of a known or suspected juvenile sexual offender,

You are responsible for reporting your knowledge or suspicion to the Florida Abuse Hotline. This Hotline accepts reports 24 hours a day, 7 days a week.

Reports to the Florida Abuse Hotline can be made in the following ways:

(a) report online at https://reportabuse.dcf.state.fl.us/

(b) call 1-800-962-2873

(c) Florida Relay 711 or TTY 800-453-5145

(d) fax your report to 800-914-0004

You must also bring the matter to the immediate attention of Human Resources.

Employees who report concerns of suspected abuse, abandonment, or neglect are expected to cooperate in any investigation by child protective services. In addition, under the provisions of Florida Stat. § 39.203, employees who, in good faith, report suspected child abuse, neglect, or abandonment are immune from civil or criminal liability for reporting such information and participating in any investigation. Other than the report itself and the communication of appropriate information to Human Resources, the information about the suspected child abuse, abandonment, or neglect should remain confidential for the protection of the child.

You should also understand that the failure to promptly report suspected abuse, abandonment, or neglect can result in criminal charges for a first-degree misdemeanor. In addition, an educator's teaching certificate may be suspended for knowingly failing to report child abuse, abandonment, or neglect. Finally, employees are reminded of their obligations to report employee misconduct that affects the health, safety, or welfare of children, in accordance with our **Employee Code of Conduct and Guidelines**. Failure to do so will result in disciplinary action and could result in the suspension of an educator's teaching certificate.

You will not be retaliated against or disciplined in any way for making a good faith report of abuse, neglect or abandonment. If you believe that any employee has retaliated against you for such good faith report, you must immediately report that concern to Human Resources. In addition, you should note that Florida's child abuse reporting law (Fla. Stat. 39.203) provides immunity to persons who report actual or suspected cases of child abuse in good faith.

You will not be retaliated against or disciplined in any way for making a good faith report of misconduct. If you believe that any employee has retaliated against you for such good faith report, you must immediately report that concern to one of the above individuals. In addition, you should note that Florida's child abuse reporting law (Fla. Stat. 39.203) provides immunity to persons who report actual or suspected cases of child abuse in good faith.

authorized management personnel of ALS are permitted to respond to requests for references from potential employers regarding a current or former employees. In order to ensure a smooth transition into School Name High School, it is important that you and your child review and understand the following information:

- ✓ All cell phones and any other personal electronic devices, including but not limited to music devices, hands-free devices, smart watches, portable games, touch screen devices, will be collected upon entry and held until dismissal. These items are not permitted in the classroom.

- ✓ When the School reaches capacity, students will be admitted based on the lottery policy regardless of race, gender religion or ethnic origin and our admission and dismissal procedures will be equitable for all students.
- ✓ The School operates in conjunction to the District's calendar. It is an expectation that all students attend school on a regular basis. Failure to attend school throughout the entire school year may result in the student being withdrawn or initiation of truancy procedures. Please refer to the attached School's calendar for further information.
- ✓ Students will wear appropriate attire, which is consistent to the District's dress code.
- ✓ Bus Passes will be offered to eligible students for public transportation.

NOTES:

(a) Additional FTE includes FTE earned through Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, Industry Certified Career Education (CAPE), Early High School Graduation, the small district ESE Supplement and Dual Enrollment pursuant to s. 1011.62(1)(i-p), F.S.

(b) District allocations multiplied by percentage from item 3A.

(c) District allocations multiplied by percentage from item 3B.

(d) School districts are required to pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in s. 1011.62(1)(i), F.S.

(e) This allocation will be frozen as of the 2022-23 FEFP Second Calculation and will not be recalculated throughout the year. Charter school allocations should be distributed on weighted FTE (or base funding as is done in the FEFP) and are recommended not to be recalculated with fluctuations in student enrollment later in the year.

(f) Numbers entered here will be multiplied by the district level transportation funding per rider. "All Adjusted Fundable Riders" should include both basic and ESE Riders. "All Adjusted ESE Riders" should include only ESE Riders.

(g) The Federally Connected Student Supplement provides additional funding for students on federal lands that receive Section 8003 impact aide pursuant to s. 1011.62(13), F.S.

(h) Teacher Classroom Supply Assistance Program allocation pursuant to s. 1012.71, F.S., for certified teachers employed by a public school district or public charter school before September 1 of each year whose full-time or job-share responsibility is the classroom instruction of students in prekindergarten through grade 12, including full-time media specialists and certified school counselors serving students in prekindergarten through grade 12, who are funded through the FEFP.

(i) Funding based on student eligibility and meals provided, if participating in the National School Lunch Program.

(j) Consistent with s. 1002.33(20)(a)3, F.S., a school's sponsor may not charge or withhold any administrative fee against a charter school for any funds specifically allocated by the Legislature for teacher compensation.

(k) Consistent with s. 1002.33(20)(a), F.S., for charter schools with a population of 75% or more ESE students, the administrative fee shall be calculated based on unweighted full-time equivalent students.

Administrative fees:

Administrative fees charged by the school district pursuant to s. 1002.33(20)(a), F.S., shall be calculated based upon 5% of available funds from the FEFP and categorical funding for which charter students may be eligible. To calculate the administrative fee to be withheld for schools with more than 250 students, divide the school population into 250. Multiply that fraction times the funds available, then times 5%. For charter schools within a charter school system that meets the requirements in s. 1002.33(20)(a)2.a.(II), F.S., do the same calculation based for up to and including 500 students.

NOTES:

(a) Additional FTE includes FTE earned through Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, Industry Certified Career Education (CAPE), Early High School Graduation, the small district ESE Supplement and Dual Enrollment pursuant to s. 1011.62(1)(i-p), F.S.

(b) District allocations multiplied by percentage from item 3A.

(c) District allocations multiplied by percentage from item 3B.

(d) School districts are required to pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in s. 1011.62(1)(i), F.S.

(e) This allocation will be frozen as of the 2022-23 FEFP Second Calculation and will not be recalculated throughout the year. Charter school allocations should be distributed on weighted FTE (or base funding as is done in the FEFP) and are recommended not to be recalculated with fluctuations in student enrollment later in the year.

(f) Numbers entered here will be multiplied by the district level transportation funding per rider. "All Adjusted Fundable Riders" should include both basic and ESE Riders. "All Adjusted ESE Riders" should include only ESE Riders.

(g) The Federally Connected Student Supplement provides additional funding for students on federal lands that receive Section 8003 impact aide pursuant to s. 1011.62(13), F.S.

(h) Teacher Classroom Supply Assistance Program allocation pursuant to s. 1012.71, F.S., for certified teachers employed by a public school district or public charter school before September 1 of each year whose full-time or job-share responsibility is the classroom instruction of students in prekindergarten through grade 12, including full-time media specialists and certified school counselors serving students in prekindergarten through grade 12, who are funded through the FEFP.

(i) Funding based on student eligibility and meals provided, if participating in the National School Lunch Program.

(j) Consistent with s. 1002.33(20)(a)3, F.S., a school's sponsor may not charge or withhold any administrative fee against a charter school for any funds specifically allocated by the Legislature for teacher compensation.

(k) Consistent with s. 1002.33(20)(a), F.S., for charter schools with a population of 75% or more ESE students, the administrative fee shall be calculated based on unweighted full-time equivalent students.

Administrative fees:

Administrative fees charged by the school district pursuant to s. 1002.33(20)(a), F.S., shall be calculated based upon 5% of available funds from the FEFP and categorical funding for which charter students may be eligible. To calculate the administrative fee to be withheld for schools with more than 250 students, divide the school population into 250. Multiply that fraction times the funds available, then times 5%. For charter schools within a charter school system that meets the requirements in s. 1002.33(20)(a)2.a.(II), F.S., do the same calculation based for up to and including 500 students.

21. Funding for the purpose of calculating the administrative fee for ESE charter schools.		(k)		
If you have more than a 75% ESE student population, please place a 1 in the following box:			$	-

NOTES:

(a) Additional FTE includes FTE earned through Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, Industry Certified Career Education (CAPE), Early High School Graduation, the small district ESE Supplement and Dual Enrollment pursuant to s. 1011.62(1)(i-p), F.S.

(b) District allocations multiplied by percentage from item 3A.

(c) District allocations multiplied by percentage from item 3B.

(d) School districts are required to pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in s. 1011.62(1)(i), F.S.

(e) This allocation will be frozen as of the 2022-23 FEFP Second Calculation and will not be recalculated throughout the year. Charter school allocations should be distributed on weighted FTE (or base funding as is done in the FEFP) and are recommended not to be recalculated with fluctuations in student enrollment later in the year.

(f) Numbers entered here will be multiplied by the district level transportation funding per rider. "All Adjusted Fundable Riders" should include both basic and ESE Riders. "All Adjusted ESE Riders" should include only ESE Riders.

(g) The Federally Connected Student Supplement provides additional funding for students on federal lands that receive Section 8003 impact aide pursuant to s. 1011.62(13), F.S.

(h) Teacher Classroom Supply Assistance Program allocation pursuant to s. 1012.71, F.S., for certified teachers employed by a public school district or public charter school before September 1 of each year whose full-time or job-share responsibility is the classroom instruction of students in prekindergarten through grade 12, including full-time media specialists and certified school counselors serving students in prekindergarten through grade 12, who are funded through the FEFP.

(i) Funding based on student eligibility and meals provided, if participating in the National School Lunch Program.

(j) Consistent with s. 1002.33(20)(a)3, F.S., a school's sponsor may not charge or withhold any administrative fee against a charter school for any funds specifically allocated by the Legislature for teacher compensation.

(k) Consistent with s. 1002.33(20)(a), F.S., for charter schools with a population of 75% or more ESE students, the administrative fee shall be calculated based on unweighted full-time equivalent students.

Administrative fees:

Administrative fees charged by the school district pursuant to s. 1002.33(20)(a), F.S., shall be calculated based upon 5% of available funds from the FEFP and categorical funding for which charter students may be eligible. To calculate the administrative fee to be withheld for schools with more than 250 students, divide the school population into 250. Multiply that fraction times the funds available, then times 5%. For charter schools within a charter school system that meets the requirements in s. 1002.33(20)(a)2.a.(II), F.S., do the same calculation based for up to and including 500 students.

d. Any material reduction in state or federal funding for the Charter School's students provided that any notice of termination delivered to the Charter Organization after school opens for education of students for any school year shall not be effective until the next succeeding academic year; or

e. Any Company facility that is instrumental to the implementation of the Educational Model or the day-to-day operations of the Charter School is damaged such that, in the Company's reasonable discretion, providing, maintenance or continuing of Charter School operations would be unfeasible, uneconomical or impractical, provided that notice of termination is delivered by the Company to the Charter Organization promptly within sixty (60) days after the occurrence of the event(s) giving rise to such right of termination.

In the event that the Charter Organization or the Company elects to terminate this Agreement for any of the aforementioned reasons, except failure to pay and the Charter Organization continues to pay the Company the fees due the Company pursuant to Section 11,

then the Company shall continue to perform its obligations hereunder, notwithstanding such notice of termination, until the end of the then current school calendar year. In the event that the Charter Organization fails to continue to pay the fees owed to the Company pursuant to Section 11, the Company may terminate the Agreement after the expiration of the fourteen (14) day period.

16. Duties Upon Termination.

a. Upon termination of this Agreement for any reason whatsoever, the Charter Organization shall immediately pay to the Company and/or any of the Company's affiliates any monies owing to such person or entity. Furthermore, subject to applicable law, the Charter Organization shall return to the Company any of the Company's proprietary materials relating to the Educational Model and the Company's methods of instruction or operation and, subject to paragraph (b) below, real and personal property and all such material purchased by the Company in furtherance of this Agreement shall be the property of the Company. The Company shall assist the Charter Organization in any transition of management and operations, including, but not limited to, (i) the orderly transition of all student records and other Charter Organization property, equipment and material (if any), (ii) sending notices to students as reasonably requested by the Charter Organization, and (iii) at the Charter Organization's option, delivering student records directly to the students. This Section shall survive any expiration or termination of this Agreement. If this Agreement is cancelled due to closure of the Charter School, all assets purchased with public funds will revert to the ownership of the District as provided pursuant to section 1002.33(8)(d) of the Florida Statutes. This Section 16(a) shall survive any expiration or termination of this Agreement.

b. Upon termination of this Agreement for any reason, the Charter Organization shall have the right at its sole option, exercisable by written notice to the Company delivered within thirty (30) days of the final termination date, to (i) have all personal property leases relating to the operation of the Charter School that are in the name of the Company assigned to and assumed by the Charter Organization, to the extent permitted by the terms thereof, applicable law, and to the extent that such a right can be negotiated into any leases, and (ii) purchase all personal property owned by the Company and used exclusively or primarily in connection with the operation of the Charter School. The purchase price for any such owned assets acquired under clause (ii) above shall be the "remaining costs basis" of such assets (as that term is defined below) at the time of purchase. This Section 16(b) shall survive any expiration or termination of this Agreement.

For purposes of this Agreement, the ''remaining cost basis" of such personal property shall be calculated based upon the straight-line method of depreciation over the life of such property, as established by the following property classifications: computers and software, three (3) years; furniture, fixtures and textbooks, five (5) years; buildings or leasehold improvements, twenty (20) years. Depreciation will begin on the date that each item of personal property was acquired by the Company. In the event that Charter Organization purchases the personal property, the Charter Organization must purchase all of said personal property (other than proprietary materials and must also exercise the Charter Organization's option to assume the lease of the Charter School facility and vice versa.

c. All financial, educational and student records of the Charter School will be property of the Charter Organization and such records will be subject to the Freedom of Information Act. In addition, all Charter School financial records shall be made available to the Charter Organization's independent auditor.

17. License. As contained herein, the Company developed and owns the proprietary rights to the Florida High School for Accelerated Learning Educational Model (the "***Model***"). The Company hereby grants the Charter Organization a limited license to use the Model and the name "Florida High School for Accelerated Learning" (the "***Name***") in connection with its operation of the Charter School. At such time as this Agreement is terminated or otherwise expires, the license granted herein shall automatically terminate and the Charter Organization shall (a) immediately cease use of the Name and Model; (b) immediately begin doing business by some name other than the Name(s), which shall not consist in any variation or manner of the words "Accelerated" or "Learning" used in combination with each other; and (c) notify the Sponsor, the Florida Department of Education and any other oversight entity of the name change, including but not limited to the Secretary of State. This Section 17 shall survive any expiration or termination of this Agreement. Each party agrees that if it shall commit or threaten to commit a breach of any of the covenants and agreements contained in this Section 17, then the other party shall have the right to injunctive relief and all other equitable remedies therefor, in addition to any other rights and remedies that may be available at law, it being acknowledged and agreed that any such breach would cause irreparable injury to the other party and that money damages would not provide an adequate remedy therefor.

18. Relationship of the Parties. The parties hereto acknowledge that their relationship is that of independent contractors. No employee of either party shall be deemed an employee of the other party. Nothing contained herein shall be construed to create a partnership or joint venture between the parties.

19. No Third-Party Beneficiaries. This Agreement and the provisions hereof are for the exclusive benefit of the parties hereto and their affiliates and not for the benefit of any third person, nor shall this Agreement be deemed to confer or have conferred any rights, express or implied, upon any other third person.

20. Notices. Any notices to be provided hereunder shall be in writing and given by personal service, mailing the same by United States certified mail, return receipt requested, and postage prepaid, facsimile (provided a copy is sent by one of the other permitted methods of notice), or a nationally recognized overnight carrier, addressed as follows:

21. Severability. The invalidity or unenforceability of any provision or clause hereof shall in no way effect the validity or enforceability of any other clause or provision hereof.

22. Waiver and Delay. No waiver or delay of any provision of this Agreement at any time will be deemed a waiver of any other provision of this Agreement at such time or will be deemed a waiver of such provision at any other time.

23. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida as they may be amended, without regard to any jurisdiction's conflicts of law provisions.

24. Assignment: Binding Agreement. Neither party shall assign this Agreement without the written consent of the other party, which consent shall not be unreasonably withheld, conditioned, or delayed. Consent to be provided within 30 days conditioned upon the ability of the Board to achieve a quorum. Failure to provide consent within 30 days of request shall constitute approval unless an extension is mutually agreed upon by both parties. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

25. Independent Activity. The parties to this Agreement understand that the Company's business is to operate and to manage charter schools throughout the State. As such, the parties acknowledge and agree that the Company and its affiliates may manage, operate or otherwise provide similar services to other charter schools in the State of Florida and elsewhere even though such charter schools may be considered competitive with the Charter School and the services provided to the Charter Organization are not on an exclusive basis. The members of the Board shall provide to the Company such information as may be reasonably requested by the Company to determine the qualifications and independence of the members of the Board, including any other board positions of other charter schools.

26. Representations and Warranties of the Company. The Company hereby represents and warrants to the Charter Organization as follows:

a. The Company is duly organized, validly existing, and in good standing under the laws of the State of Delaware and qualified to do business in the State of Florida and has the authority to carry on its business as now being conducted and the authority to execute, deliver, and perform this Agreement.

b. The Company has taken all actions necessary to authorize the execution, delivery, and performance of this Agreement, and this Agreement is a valid and binding obligation of the Company enforceable against it in accordance with its terms, except as may be limited by federal and state laws affecting the rights of creditors generally, and except as may be limited by legal or equitable remedies.

c. The Company has made, obtained, and performed all registrations, filings, approvals, authorizations, consents, licenses, or examinations required by any government or

governmental authority, domestic or foreign, in order to execute, deliver and perform its obligations under this Agreement.

d. The Company has the financial ability to perform all of its duties and obligations under this Agreement.

27. Arbitration.

a. In the event of any dispute between the parties hereto, the parties shall settle said dispute through binding arbitration administered by the American Arbitration Association under the Commercial Arbitration Rules to occur in the County in which the Charter School is located or where the parties may mutually agree (unless otherwise required by any applicable insurance policy or contract). The applicable statute of limitations is tolled until the conclusion of the arbitration process. Unless otherwise agreed to by the parties, each party shall appoint one arbitrator with experience in charter schools and then the two previously selected arbitrators shall agree upon a third. Either party may simultaneously seek equitable or injunctive relief from a court of competent jurisdiction if such party reasonably believes that any delay in seeking such relief is likely to cause irreparable harm.

b. The parties shall have the right of limited pre-hearing discovery, in accordance with the U.S. Federal Rules of Civil Procedure, as then in effect, for a period not to exceed sixty (60) days.

c. As soon as the discovery is concluded, but in any event within thirty (30) days thereafter, the arbitrators shall hold a hearing in accordance with the aforesaid AAA rules. Thereafter, the arbitrators shall promptly render a written decision, together with a written opinion setting forth in reasonable detail the grounds for such decision. Each party shall be responsible for its own costs of arbitration.

d. Judgment may be entered in any court of competent jurisdiction to enforce the award entered by the arbitrators.

28. Right to Jury Trial. Notwithstanding the parties' obligation to submit disputes arising under this Agreement to binding arbitration, in the event that a court of competent jurisdiction or an applicable insurer determines, or a relevant law shall provide, that a particular claim is not subject to the arbitration provisions of Section 27 hereof, then the parties agree to the following provision:

THE PARTIES HEREBY EXPRESSLY COVENANT AND AGREE TO WAIVE THE RIGHT TO TRIAL BY JURY IN CONNECTION WITH ANY LITIGATION OR JUDICIAL PROCEEDING RELATING TO, DIRECTLY OR INDIRECTLY, OR CONCERNING THIS AGREEMENT OR THE CONDUCT, OMISSION, ACTION, OBLIGATION, DUTY, RIGHT, BENEFIT, PRIVILEGE, OR LIABILITY OF A PARTY HEREUNDER TO THE FULLEST EXTENT PERMITTED BY LAW. THIS WAIVER OF RIGHT TO TRIAL BY JURY IS SEPARATELY GIVEN AND IS KNOWINGLY, INTENTIONALLY AND VOLUNTARILY MADE BY THE PARTIES. THE PARTIES HAVE HAD AN OPPORTUNITY TO SEEK LEGAL COUNSEL CONCERNING THIS WAIVER. THIS WAIVER IS INTENDED TO AND DOES ENCOMPASS EACH INSTANCE AND EACH ISSUE AS TO WHICH THE RIGHT TO A JURY TRIAL WOULD OTHERWISE ACCRUE. THIS PROVISION IS A MATERIAL INDUCEMENT OF THE PARTIES ENTERING INTO THE AGREEMENT. THIS WAIVER SHALL APPLY TO THIS AGREEMENT AND ANY FUTURE

AGREEMENTS, SUPPLEMENTS OR MODIFICATIONS OF THIS AGREEMENT. THIS PROVISION SHALL SURVIVE ANY TERMINATION OR CANCELLATION OF THIS AGREEMENT.

29. Force Majeure. Neither party shall be liable for failure to perform all or part of this Agreement by reason of Act of God, plague, pandemic, epidemic, outbreaks of infectious diseases or any other public health crisis, including quarantine or other employee restrictions, labor dispute, act of terrorism, non-delivery, negligence, or inadequate performance by contractors, including, but not limited to, the Sponsor, breakdown of facilities, fire, flood, legal enactment, federal, state or local governmental order, rule or regulation prohibiting or interfering with or making prohibitively costly, Company's ability to fulfill its obligations, or any other cause beyond their respective reasonable control.

30. Change in Law. In the event that there is a change in federal or state law (or in the application or interpretation thereof), the adoption of new legislation or regulations applicable to this Agreement, or the initiation of an enforcement action with respect to legislation, regulations or instructions applicable to this Agreement, any of which affects the continuing viability or legality of this Agreement or the tax-exempt status of Charter Organization, then either party may by written notice propose an amendment to conform this Agreement to existing laws and the parties shall negotiate in good faith to adopt such amendment. To the maximum extent possible, any such amendment shall preserve the underlying economic and financial arrangements between the parties hereunder. In the event it is not possible to amend this Agreement to preserve in all material respects the underlying economic and financial arrangements between the parties, this Agreement may be terminated by either party upon sixty (60) days prior written notice to the other, unless a sooner termination is required by law.

31. Amendment. This Agreement may not be modified or amended except by a writing signed by each party hereto.

32. Counterparts. This Agreement may be executed in any number of counterparts, each of which, when executed, shall be deemed to be an original and all of which together will be deemed to be one and the same instrument. The individual signing on behalf of the named Party personally warrants and represents that he or she is the duly authorized agent of that Party with the authority to execute this Agreement on behalf of the Party.

The purposes for which the Corporation is organized shall be limited to those which are strictly charitable and educational. In no event shall the Corporation engage in any activity which would be contrary to the purposes and activities: (i) permitted to be engaged in by any organization the activities of which are exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended; or (2) of a Corporation, contributions to which are deductible under Section 170(c)(2) of the Internal Revenue Code of 1986, as amended (the "Code"), and the applicable rules and regulations thereunder. Provided, however, that the Corporation shall not conduct its business or affairs in such a manner as to discriminate against any person on the basis of race, color, religion, sex, or age.

The Corporation shall not engage, nor shall any of its funds, property, or income be used, in carrying on propaganda or otherwise attempting to influence legislation, nor shall the Corporation participate in or intervene in (including the publishing or distributing of statements) any political campaign on behalf of any candidate for public office, nor shall the Corporation engage in subversive activities.

The Corporation shall not be operated for the primary purpose of carrying on an unrelated trade or business as defined in Section 513 of the Code, and the applicable rules and regulations thereunder.

No benefits shall be solicited or received by, nor shall any compensation be paid to, any officer, Director, trustee, creator or organizer of the Corporation or substantial contributor to it pursuant to Section 112.313 of the Florida Statutes.

The Corporation is organized to serve public interests. Accordingly, it shall not be operated for the benefit of private interests.

ARTICLE IV. BOARD OF DIRECTORS

SECTION 1. FUNCTION. All corporate powers shall be exercised by or under the authority of the Board of Directors of the Corporation, and the business and affairs of the Corporation shall be managed by the Board of Directors.

SECTION 2. QUALIFICATIONS. The members of the Board of Directors must be natural persons who are 18 years of age or older, and are to be residents of this state. By two-thirds (2/3rds) vote of the Board of Directors, the Directors may, from time to time, establish additional qualifications and requirements for Directors, by written policy and procedure; such written policies and procedures shall be maintained with the books and records of the Corporation.

SECTION 3. COMPENSATION. Directors, as such, shall not receive any compensation for their services as members of the Board of Directors.

SECTION 4. DUTIES OF THE BOARD. The Board of Directors shall transact all business of the Corporation, determine the policies of the Corporation and in general assume responsibility for the guidance and the affairs of the Corporation. The duties of the Board of Directors include, but are not limited to setting policy, establishing procedures, approving budgets, approving selection of the principal and overseeing and managing the financial and administrative management of the charter school, consistent with applicable law and the charter school agreement with the district. The Board of Directors shall be responsible for making or executing the charter school's performance standards, supervising ongoing accounts, overseeing financial reporting and meeting state and district requirements and providing annual programs and accountability reports. A Director shall perform his/her duties in said capacity, including his/her duties as a member of any committee of the Board of Directors upon which he/she may serve, in good faith, in a manner he/she reasonable believes to be in the best interests of the Corporation and with such care as an ordinarily prudent person in a like position would use under similar circumstances.

In performing his/her duties, a Director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by:

(a) one or more of the officers or employees of the Corporation whom the Director reasonably believes to be reliable and competent in the matters presented;

(b) counsel, public accountants or other persons as to matters that the Director reasonably believes to be within such person's professional or expert competence; or

(c) a committee of the Board of Directors upon which the Director does not serve, duly designated in accordance with a provision of the Articles of Incorporation or these Bylaws, as to matters within its designated authority, which committee the Director reasonably believes to merit confidence.

A Director shall not be considered to be acting in good faith if he/she has knowledge concerning the matter in question that would cause the reliance described above to be unwarranted.

A person who performs his/her duties in compliance with this section shall have no liability by reason of being or having been a Director of the Corporation.

Board members shall be subject to Florida law requirements for charter school board members including Sections 112.313(2), (3), (7), and (12) and 112.3143(3), Florida Statutes, as they may be amended.

SECTION 5. NUMBER. The Corporation shall have at least three (3) Directors but shall not have more than seven (7) Directors, and the initial number of Directors shall be three (3). The number of Directors may be increased or decreased from time to time by the majority vote of the Board of Directors of the Corporation; provided, however, that the Board of Directors shall consist of not fewer than three (3) Directors and no decrease in the number of Directors shall have the effect of shortening the term of an incumbent Director.

SECTION 6. ELECTION AND TERM. The Board of Directors initially set forth in the Articles of Incorporation shall be called the Founding Directors. The Founding Directors shall be classified with respect to the time for which they hold office into three (3) classes, "Class I, II and III," which shall be as nearly equal in number as possible. The Founding Directors first appointed to Class I will hold office for a term expiring at the annual meeting to be held in 2024; the Founding Directors first appointed to Class II will hold office for a term expiring at the annual meeting to be held in 2025; and the Founding Directors first appointed to Class III will hold office for a term expiring at the annual meeting to be held in 2026.

At each succeeding annual meeting of the Corporation, the successors of the Directors whose terms expire at that meeting will be elected to a three (3) year term. The Directors shall be eligible to serve until they resign or are not re-elected. Additional Directors added shall serve for a three (3) year term unless otherwise determined by the Board of Directors.

At any time, Directors may elect new members to the Board of Directors provided the number of Directors will not exceed the maximum authorized. Such new Board members' terms will coincide with the terms of other Directors.

The initial term of the founding directors shall begin on the date of Incorporation; thereafter, each term shall begin when elected.

Each Director shall hold office for the term for which he/she is elected and until his/her successor shall have been elected and qualified or until his/her earlier resignation, removal from office or death.

SECTION 7. RESIGNATION. The resignation of a Director shall be effective as of the date of delivery of a written notice to the Board of Directors or at a later date, if specified in the written notice. A Director shall resign from the Board if such Director violates Florida law in a manner that would impact the Corporation and/or the charter school, knowingly causes the charter school to be in violation of Florida law or its charter agreement with the District, or is no longer eligible to serve as a Director of a charter school or on the Board. If a director resigns prior to the end of his/her term, a successor for the unexpired term may be selected by the Board of Directors so long as the failure to select a successor will not result in the Corporation having fewer than three (3) Directors.

SECTION 8. REMOVAL OF DIRECTORS, OFFICERS AND OTHER EMPLOYEES. Any Director, officer and/or employee may be removed by a majority vote of the Board of Directors whenever, in the judgment of the Board of Directors, the best interests of the Corporation will be served thereby. In the exercise of their judgment, the Board shall remove a Director who should have otherwise resigned pursuant to Section 7. Any Director may be removed at any time by a two-thirds (2/3rds) majority vote of the Board of Directors for any reason consistent with applicable law.

SECTION 9. VACANCIES. Any vacancy occurring on the Board of Directors, including that created by reason of an increase in the number of Directors may be filled by appointment of a majority vote of the members of the Board of Directors. A Director elected to fill any vacancy shall hold office only until the next annual meeting of Directors.

SECTION 10. QUORUM AND VOTING. The presence of a majority of all the Directors shall be necessary at any meeting to constitute a quorum to transact business. The act of a majority of Directors present at a meeting when a quorum is present shall be the act of the Board of Directors. If at any meeting there shall be less than a quorum, a majority of those present may adjourn the meeting to a place and time indicated and a copy of such adjournment action shall be delivered by hand or by U.S. Mail to all members of the Board of Directors.

SECTION 11. PLACE OF MEETINGS. The annual meeting, and any special meeting, of the Board of Directors must be held within Manatee County of the State of Florida.

SECTION 12. MEETINGS. The Board of Directors shall meet at least four times each fiscal year in January, March, June and September (Regular Meetings) at the time and place designated by the Board of Directors of the Corporation. The Annual Meeting shall be held during the month of January and shall be the January meeting of the Board of Directors. Notice of the Annual Meeting and all other Regular Meetings shall be given by the Secretary to each Director at least two (2) days before the meeting, unless each Director shall waive notice thereof before, at, or after the meeting.

SECTION 13. SPECIAL MEETINGS. Special Meetings of the Board of Directors shall be held at such other times as shall be determined by the Chairman or by a majority of the

Directors. Notice of any Special Meeting shall be given by the Secretary to each Director at least two (2) days before the meeting unless each Director shall waive notice thereof before, at or after the meeting.

SECTION 14. PRESUMPTION OF ASSENT. A Director of the Corporation who is present at a meeting of the Board of Directors at which action on any Corporation matter is taken shall be presumed to have assented to the action taken unless the Director votes against such action or abstains from voting in respect thereto because of an asserted conflict of interest.

SECTION 15. PUBLIC MEETINGS AND PUBLIC RECORDS OF THE BOARD OF DIRECTORS. Notwithstanding anything to the contrary in these bylaws, the Board of Directors of the Corporation shall conduct its activities and its meetings (regular and special) in accordance with the Florida Open Meetings Laws (also Florida Sunshine Law) as set forth in Article I, Section 24 of the Florida Constitution as it may exist from time to time and in Florida Statutes Chapter 286.011 as amended or restated from time to time. Notice of all meetings shall be provided as set forth in such laws. The Corporation shall maintain its records in such a way so as to comply with Florida Statutes Chapter 119 relating to Public Records.

SECTION 16. DIRECTOR CONFLICTS OF INTEREST. A Conflict of Interest is described as: "an actual or perceived interest by a member in an action which results or has the appearance of resulting in personal, organizational, or professional gain. This "actual or appearance of a bias" in the decision making process is based upon the dual role of a member, who in addition to serving on the Board of Directors may be affiliated with other organizations, either as an employee(er), a member, or in some other capacity. A conflict of interest shall include, but not be limited to, a violation of Florida Statute §112.313(7) as it applies to members of the Board of Directors. To avoid potential conflicts, members of the Board of Directors shall not serve on the Board of Directors of other charter schools unless the persons serving on the Board of Directors of such charter school(s) are identical to the members of the Board of the Corporation. In no event may a member of the Board of Directors have or hold any employment or contractual relationship with the Corporation or any business entity or other entity doing business with the Corporation. In no event may a member of the Board of Directors have or hold any employment or contractual relationship that will create a continuing or frequently recurring conflict between his or her private interests and the performance of his or her duties as a member of the Board of Directors.

SECTION 17. EXECUTIVE AND OTHER COMMITTEES. The Board of Directors, by resolution adopted by a majority of the full Board of Directors, shall designate from among its members an executive committee consisting of the Officers set forth in Article VI below, and one at-large Director. The Executive Committee will handle the affairs of the Corporation as necessary between meetings of the Board of Directors.

The Board of Directors, by resolution adopted by a majority of the full Board of Directors, may designate from among its members one or more other committees each of which, to the extent provided in such resolution, shall have and may exercise all the authority of the Board of Directors, except that no committee shall have the authority to:

(a) fill vacancies on the Board or any committee thereof, or

(b) adopt, amend or repeal the Bylaws.

Each committee must have two (2) or more members who serve at the pleasure of the Board of Directors. The Board of Directors, by resolution adopted in accordance with this section, may designate one (1) or more Directors as alternate members of any such committee, who may act in the place and stead of any absent member or members at any meeting of such committee.

SECTION 18. POWER TO ELECT OFFICERS. The Board of Directors, at their annual meeting, shall elect a Chairman, Vice-Chairman, Secretary and Treasurer. The Board of Directors shall have the power to appoint such other officers and employees as the Board of Directors may deem necessary for the transaction of the business of the Corporation. The Board of Directors shall have the power to fill any vacancy in any office, occurring for any reason whatsoever.

SECTION 19. DELEGATION OF POWERS. For any reason deemed sufficient by the Board of Directors, the Board of Directors may delegate any power or duty of any officer or Director to any other officer or Director.

SECTION 20. ANNUAL REPORTS. The Chairman, Vice-Chairman, Secretary and Treasurer shall present their respective reports of the operation of the Corporation for the preceding year, at the annual meeting of the year of the Board of Directors.

ARTICLE V. MANAGEMENT OF CORPORATION'S ASSETS

The assets of the Corporation shall be held, managed and invested by the Executive Committee of the Board of Directors, however, at no time may said assets be used or administered other than in furtherance of charitable purposes, within the meaning of Section 501(c)(3) of the Code. All investments of funds of the Corporation shall be first approved by the Board of Directors.

The office of Chairman may only be held for two (2) consecutive terms. After serving two terms, the Director serving as Chairman may not be re-elected to that position until he/she has not served in that position for a one (1) year term. Such other officers and assistant officers and agents as may be deemed necessary may be elected or appointed by the Board of Directors from time to time.

ARTICLE VIII. LOANS TO DIRECTORS AND OFFICERS

firm, association or other entity in which one or more of its Directors, officers, or employees is a Director, officer or employee or holds a substantial financial interest, except a loan by one corporation which is exempt from federal income taxation under Section 501(c)(3) of the Code. A loan made in violation of this Article is a violation of the duty to the Corporation of the Directors or officers authorizing it or participating in it, but the obligation of the borrower with respect to the loan may not be affected thereby.

ARTICLE IX. PAYMENT OF DIVIDENDS AND DISTRIBUTION OF INCOME TO DIRECTORS AND OFFICERS PROHIBITED

A dividend may not be paid, and no part of the income or profit of the Corporation may be distributed, to its Directors or officers.

ARTICLE X. INDEMNIFICATION OF DIRECTORS, OFFICERS, EMPLOYEES, AND AGENTS

SECTION 1. ACTION AGAINST PARTY BECAUSE OF CORPORATE POSITION. The Corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed claim, action, suit, or proceeding, whether civil, criminal, administrative, or investigative (other than an action by or in the right of the Corporation) by reason of the fact that he is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees inclusive of any appeal), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him in connection with such claim, action, suit, or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct unlawful. The termination of any claim, action, suit, or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

SECTION 2. ACTION BY OR IN THE RIGHT OF CORPORATION. The Corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed claim, action, or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a Director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees inclusive of any appeal) actually and reasonably incurred by him in connection with the defense or settlement of such claim, action, or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Corporation and except that no indemnification shall be made in respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the Corporation unless and only to the extent that a court of competent jurisdiction (the "Court") in which such claim, action, or suit was

brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court shall deem proper.

SECTION 3. REIMBURSEMENT IF SUCCESSFUL. To the extent that a Director, officer, employee, or agent of the Corporation has been successful on the merits or otherwise in defense of any claim, action, suit, or proceeding referred to in Sections 1 or 2 of this Article X, or in defense of any claims, issue, or matter therein, he may be indemnified against expenses (including attorneys' fees inclusive of any appeal) actually and reasonably incurred by him in connection therewith, notwithstanding that he has not been successful (on the merits or otherwise) on any other claim, issue, or matter in any such claim, action, suit, or proceeding.

SECTION 4. AUTHORIZATION. Any indemnification under Sections 1 and 2 of this Article X (unless ordered by the Court) shall be made by the Corporation only as authorized in the specific case upon a determination that indemnification of the Director, officer, employee, or agent is proper in the circumstances because he has met the applicable standard of conduct set forth in Sections 1 and 2. Such determination shall be made (a) by the Board of Directors by a majority vote of a quorum consisting of Directors who were not parties to such action, suit, or proceeding, or (b) if such a quorum is not obtainable, or, even if obtainable, a quorum of disinterested Directors so directs, or by independent legal counsel in a written opinion.

SECTION 5. ADVANCED REIMBURSEMENT. Expenses incurred in defending a civil or criminal action, suit, or proceeding may be paid by the Corporation in advance of the final disposition of such action, suit, or proceeding as authorized by the Board of Directors in the specific case upon receipt of an undertaking by or on behalf of the Director, officer, employee, or agent to repay such amount unless it shall ultimately be determined that he is entitled to be indemnified by the Corporation as authorized in this Article.

SECTION 6. INDEMNIFICATION NOT EXCLUSIVE. The indemnification provided by this Article shall not be deemed exclusive of any other rights to which those indemnified may be entitled under any statute, rule of law, provision of Articles of Incorporation, Bylaws, agreement, vote disinterested Directors, or otherwise, both as to action in his official capacity and as to action in another capacity, while holding such office, and shall continue as to a person who has ceased to be a Director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such a person. Where such other provision provides broader rights of indemnification than these Bylaws, said other provision shall control.

SECTION 7. INSURANCE. The Corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a Director, officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director, partner, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the Corporation would have the power to indemnify him against such liability under the provisions of this Article.

ARTICLE XI. BOOKS AND RECORDS

SECTION 1. BOOKS AND RECORDS. The Corporation shall keep correct and complete books and records of accounts and shall keep minutes of the proceedings of the Board of Directors and committees. The Corporation shall comply with the provisions of Florida Statutes Chapter 119 in regard to Public Records.

The books, records and minutes of the Corporation may be in writing or in any other form capable of being converted into written form within a reasonable time.

ARTICLE XII. FISCAL YEAR

The fiscal year of the Corporation shall be determined by the Board of Directors.

ARTICLE XIII. SEAL

The Board of Directors shall provide a corporate seal that shall be circular in form and shall be affixed in conjunction with the execution of documents by the Corporation, as required by law.

ARTICLE XIV. AMENDMENTS TO THE BYLAWS

The Bylaws of the Corporation shall be initially approved by a majority vote of the Board of Directors, and thereafter may be altered, amended or repealed by a majority vote of the Board of Directors.

ARTICLE XV. DISSOLUTION AND/OR TERMINATION OF CHARTER

When a charter is not renewed or is terminated, any unencumbered public funds, except for capital outlay funds and federal charter school program grant funds, from the charter school shall revert to the Manatee County School Board. Capital outlay funds provided pursuant to Florida Statute §1013.62 (concerning Charter School Capital Outlay Funding) or its successor Statute) and federal charter school program grant funds that are unencumbered shall revert to the Department of Education to be redistributed among eligible charter schools. In the event a charter school is dissolved or is otherwise terminated, all Manatee County School Board property and improvements, furnishings, and equipment purchased with public funds shall automatically revert to full ownership by the Manatee County School Board, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the charter school, Manatee County School Board property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the charter school, in the possession of any person, entity, or holding company, other than the charter school, shall be held in trust upon the Manatee County School Board's request, until any appeal status is resolved. Further, upon the liquidation or dissolution of the Corporation, its assets, if any, remaining after payment (or provision for payment) of all liabilities of the corporation and the distributions provided for above, shall be distributed to, and only to, an organization qualified as tax exempt under Section 501(c)(3) of the Code engaged in educational activities in the State of Florida. No part of the assets or the net earnings, current or accumulated, of the Corporation shall inure to the benefit of a private individual.

THE UNDERSIGNED HEREBY adopts and approves the foregoing Bylaws of FLORIDA HIGH SCHOOL FOR ACCELERATED LEARNING – MANATEE, INC.

c. As soon as the discovery is concluded, but in any event within thirty (30) days thereafter, the arbitrators shall hold a hearing in accordance with the aforesaid AAA rules. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

3. Start-Up Date. For the first year of operating under this Charter the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. If the School's calendar will not be consistent with the beginning of the Sponsor's public school calendar, the School shall provide at least 15 day notice to the Sponsor prior to opening of the Sponsor's school year. The School cannot open absent submission of all required Pre-Opening documents as specified in Section 11 of this Charter. The School may defer the opening of its operations for up to three years to provide time for adequate facility planning. The School must provide written notice of such intent to the Sponsor and the parents of enrolled students at least 30 calendar days before the first day of school. The first two planning year(s) will extend the term of this Charter. Failure to open the School after all available deferral years is good cause for termination of this Charter.

4. Charter Modification. This Charter may be modified during its initial term or any renewal term only upon approval of both parties. No such modification shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff.

5. Charter Renewal. This Charter may be renewed as provided for in section 1002.33, or 1002.331, Florida Statutes. No later than September 15 in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under section 1002.33(7)(c)1., Florida Statutes. Upon completion of the programmatic review, but no later than 90 days prior to the end of the charter term, the Sponsor shall notify the governing board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the charter, pursuant to section 1002.33(8)(a), Florida Statutes. The Sponsor may not require the School to waive the provisions of s. 1002.331, Florida Statutes, or require a student enrollment cap

that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2), Florida Statutes, as a condition of approval or renewal of the Charter.

6. Periodic Review and Evaluation. The Sponsor shall annually evaluate the School on its performance and progress toward meeting the standards and targets included in this Charter, including academic achievement goals. If the term of this Charter exceeds five years, the Sponsor shall conduct a High-Stakes Review at least every five years and shall present the findings of the review to the Governing Board of the School.

7. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to any construction and/or renovations.

C. Education Program and Curriculum

1. Any material change to the education program or curriculum as described in the approved Application or Charter requires Sponsor approval.

2. The School agrees to implement its educational and related programs as specified in the Application unless otherwise modified by this Charter.

3. The School shall make reading a primary focus of the curriculum and provide sufficient resources to identify and provide specialized instruction for students who are reading below grade level. The reading curriculum and instructional strategies shall be consistent with Florida Standards and grounded in scientifically-based reading research.

4. The School shall adopt the District's plan for English Language Learners, or implement an alternate District approved plan. If applicable, the School's plan for English Language Learners is attached hereto as Appendix 3. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

5. The School will establish the current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Charter.

D. Renewal, Non-Renewal, or Termination

1. Non-Renewal/Termination of this Charter. The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in section 1002.33(8), Florida

Statutes.

i. Failure to participate in Florida's education accountability system created in s. 1008.31 or School Improvement Rating (SIR) pursuant to s. 1008.341, Florida Statutes, as required in this section, or failure to meet the requirements for student performance established pursuant to Section 2A of the Charter.

ii. Failure to meet generally accepted standards of fiscal management.

iii. Material violation of law.

iv. Other good cause shown, which may include, but is not limited to, any of the following:

a. Failure to cure a material breach of any term or condition of this Charter after written notice of noncompliance;

b. Failure to implement a reading curriculum that is consistent with effective reading strategies grounded in scientifically based reading research if not timely cured after written notice;

c. Filing for voluntary bankruptcy, adjudication of bankruptcy or of insolvency, or other state of financial impairment by the School such that the School can no longer operate or is no longer financially viable;

d. Failure by the School to provide the District with access to records as required by law or this Charter;

e. Failure of the School to maintain minimum insurance coverage as described in this Charter if not timely cured after written notice;

f. Violation by the School of any court order pertaining to the operation of the School;

g. A criminal conviction upon matters involving the School against either the Governing Board, its members (collectively or individually), or the management company where the Governing Board knew or should have known of the conduct underlying the conviction and failed to take corrective action;

h. Failure by the School to timely submit to the District a financial corrective action plan or financial recovery plan and required supporting documents following a notification from the District,

Auditor General, or FDOE, that such a plan is required;

i. Failure by the School to implement any financial corrective action plan or financial recovery plan approved by the Florida Commissioner of Education pursuant to section 218.503, Florida Statutes;

j. Failure to provide periodic progress reports as required by the financial recovery plan if not timely cured after written notice;

k. Perpetration of a material fraud upon the District or material intentional misrepresentation in the Application;

l. Failure to comply with background screening and other requirements set forth in section 1002.33, Florida Statutes;

m. Failure by the School to comply with all applicable laws, ordinances and codes of federal, state and local governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL).

n. Failure to make sufficient progress in attaining the student achievement objectives of the Charter established pursuant to Section 2.A. and the School's School Improvement Plan, if applicable, and a showing that it is not likely that such objectives can be achieved before the end of the Charter term;

o. Willfully or recklessly failing to manage public funds in accordance with the law;

p. Any action by the School that is detrimental to the health, safety, or welfare of its students that is not timely cured after written notice;

q. Failure to maintain the minimum number of three Governing Board members for more than 30 days;

r. Failure to obtain and maintain all necessary licenses, permits, zoning, use approval, facility certifications, and any other approval required by the local government or any other governmental authorities having jurisdiction at any time during the term of this Charter.

2. The Sponsor shall notify the Governing Board in writing at least ninety days prior to renewing, non-renewing, or terminating this Charter, following the procedures set forth

in section 1002.33(8), Florida Statutes.

i. If the Sponsor issues a notice of non-renewal or termination, the notice shall state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may, within 14 calendar days of receipt of the notice, request a hearing.

ii. A request for a hearing must be authorized by a vote of the Governing Board and be submitted pursuant to the Notice provisions of this Charter.

3. The Sponsor may immediately terminate this charter pursuant to section 1002.33(8)(c), Florida Statutes.

i. Upon receipt of notice of immediate termination from the Sponsor, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall immediately make accessible all educational and administrative records of the School. Moreover, within two (2) business days, the School shall turn over to the Sponsor copies of all records and information regarding the accounts of all of the public funds held by the School. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

ii. The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School, at the Sponsor's option, but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor reserves the right to take any appropriate personnel action regarding the School's employees.

4. If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to the Sponsor indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution signed by the School's Governing Board chair and secretary, indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal.

5. Upon notice of termination or non-renewal the School shall not remove any public property from the premises without written Sponsor approval.

E. Post Termination Provisions

1. If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The District shall not assume the debt from any contract for services including lease or rental agreements, made between the School and a third party, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor.

2. In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

3. In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. All assets of the School purchased with public funds, including supplies, furniture and equipment, will revert to full ownership of the Sponsor (subject to any lawful liens or encumbrances) or as otherwise provided by law. Any unencumbered public funds from the School, property and improvements of the Sponsor, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor.

4. Final Audit: Pursuant to section 1002.33, Florida Statutes, upon notice of non-renewal, closure, or termination, an independent audit shall be completed within 30 days to account for all public funds and assets. During the fiscal year in which the termination or non-renewal occurs, the Sponsor may withhold from the

School's FEFP funds, without penalty or interest, an amount necessary to cover the costs for a final financial audit of the School. The audit shall be conducted by an independent certified public accountant.

F. General Statutory Requirements

1. The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by Federal, State and local law, rule, regulation and court order.

2. Additionally, the School shall comply with those statutes that specifically apply to charter schools as set forth in section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

Section 2: Academic Accountability

By September 15 of each year the Sponsor shall provide the School with academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes. The Sponsor may fulfill this requirement by providing the School access to the data.

The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:
   i. Students scoring a level 1 on prior year assessment
   ii. Students scoring a level 2 on prior year assessment

The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, academic goals for all students, including evidence-based strategies and interventions for subgroups as identified by Federal Indexes, as well as measures of progress towards goals, and may include performance

on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.

i. The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals it shall provide the School a written explanation. If the School and Sponsor cannot agree on academic achievement goals either party may request mediation pursuant to section 1002.33(6), Florida Statutes. If the Sponsor does not provide written notification within 30 days of receipt, the goals shall be deemed accepted by the Sponsor.

4. By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in Section 2.A.3, above. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.

   i. The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the academic achievement goals it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals either party may request mediation pursuant to section 1002.33(6), Florida Statutes. The goals may be adjusted at any time upon mutual written consent of both parties.

5. Annually, the School shall report its performance against the academic goals. If the School falls short of the academic achievement goals set forth under the provisions of this Charter the Sponsor shall report such shortcomings to the School's Governing Board and FDOE.

If the School is not required to submit a School Improvement Plan pursuant to Section

1002.33(9), Florida Statutes, but is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of comprehensive support and improvement (CS&I) schools or targeted support and improvement (TS&I) schools, it must develop and implement a School Improvement Plan approved by the Governing Board.

B. Assessments

1. State required assessments: All students at the School will participate in all State assessment programs and assessments required by law. The School shall facilitate required alternate assessments and comply with state reporting procedures.

2. Additional Assessments: Students may participate in any or all District assessment programs in which the District students in comparable grades or schools participate and shall participate in any other assessments as described in the Application. The School shall be responsible for the costs of District assessments that are not required by law or this Charter, except those developed with federal funds or those developed using Florida's Item Bank and Test Platform

3. If an IEP, 504 Plan or an EP for a student indicates accommodations or an alternate assessment for participation in a State assessment, or District assessment, as applicable, the School will facilitate the accommodations or alternate assessment and comply with State reporting procedures.

All School personnel involved with any aspect of the testing process must abide by State policies, procedures, and standards regarding test administration, test security, test audits, and reporting of test results The Sponsor shall invite the School staff to District offered training related to State assessment administration and, as applicable, District Assessment administration, at no cost to the School. The Sponsor shall provide to the applicable School staff all services or support activities that are routinely provided to the Sponsor's staff regarding implementation of District and State-required assessment activities. The School shall designate a testing coordinator and shall be responsible for proper test administration. The School shall permit the Sponsor to monitor or proctor all aspects of the School's test administration, if the Sponsor deems it necessary.

5. The District shall provide the School with reports on District and State assessments in the same manner and at the same time as for all public schools in the District.

6. The School shall, at its expense, provide adequate technological infrastructure to support all required online test administration.

C. Student Promotion and Graduation: The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law. The School will adopt the Sponsor's student progression plan.

The School's policy for determining that a student has satisfied the requirements for graduation shall be consistent with the provisions of the Application, and Florida law.

Schools that serve students in grade 12 shall annually notify parents in writing the accreditation status of the school and the implications of non-accreditation, if applicable. The notification may be provided in the parent handbook.

D. Data Access and Use Pursuant to Statute

The School agrees to allow the District reasonable access to review its data sources in order to assist the District in making a valid determination about the degree to which student performance requirements, as stated in this Charter, have been met.

Section 3: Students

A. The School is authorized to serve students in grades 7 through 12.

The School may provide enrollment preferences as allowed for in section 1002.33(10), Florida Statutes. Further, the School may limit the enrollment process to target specific student populations as set forth in section 1002.33(10)(e), Florida Statutes, or as described in the approved Application.

The School will accept all eligible students in accordance with federal and state anti-discrimination laws and in accordance with the Florida Educational Equity Act, section 1000.05(2) (a), Florida Statutes. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School may not request prior to enrollment, through the application or otherwise, information regarding the student's prior academic performance. Pursuant to section 1002.33(7), Florida Statutes, admission or dismissal must not be based on a student's academic performance.

The School shall be non-sectarian in its programs, admissions policies, employment practices and operations. The School will meet all applicable state and local health, safety, and civil rights requirements. The School will comply with all applicable provisions of the Marjory Stoneman Douglas High School Public Safety Act, including the following:

The School shall comply with Alyssa's Law and all other monthly requirements that must be entered in Charters.Link, including, but not limited to, monthly threat management team meetings, active assailant and other emergency drills, and other safety measures as required by Florida law.

The School will not participate in its Sponsor's plan for the mental health assistance allocation. If the School develops its own plan, it must submit that plan to its Governing Board for approval. After the plan is approved by the Governing Board, it must be provided to the School's Sponsor.

B. The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial or ethnic range of other public schools in the District and shall not discriminate against students with disabilities who are served in Exceptional Student Education programs (ESE) and students who are served as English Language Learners (ELL).

If the District is operating under a federal order or other resolution or settlement agreement, the School shall comply with those requirements applicable to charter schools that are not considered a local education agency (LEA). The School is not required to comply with federal requirements applicable to charter schools also considered to be an LEA.

C. Recruitment

The School will recruit throughout all segments of the community. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate.

D. Eligible Students

1. The timeframe for accepting applications shall be continuous and ongoing. If the number of qualified applicants is less than or equal to the number of available slots, the qualified applicant will be accepted and enrolled. If, at the October FTE reporting period, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved application for the first year or as determined under the provisions of Section 3.F. of this Charter, the School shall, upon request by the Sponsor, submit a revised budget within 30 days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination.

2. If the number of applications exceeds the capacity of the program, class, grade

level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School may give preference in admission to students or limit the enrollment as provided for in section 1002.33(10), Florida Statutes. The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize.

3. Enrollment is subject to compliance with the provisions of section 1003.22, Florida Statutes, concerning school entry health examinations and immunizations.

4. If this Charter is not renewed or is terminated, a student who attended the School may be enrolled in another public school pursuant to Sponsor policies.

5. A student may withdraw from the School at any time and enroll in another public school, as determined by District policy. The School shall work in conjunction with the parent(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

6. Students at the School are eligible to participate in an interscholastic extracurricular activity at the public school to which the student would be otherwise assigned to attend pursuant to section 1006.15(3)(d) and 1002.20(18)(c), Florida Statutes.

E. Class Size

The School shall be in compliance with Florida Constitutional Class Size Requirements, as applicable to charter schools.

F. Annual Enrollment

1. Preliminary Projected Enrollment: No later than November 1 of each year, the School shall provide to the Sponsor the School's Preliminary Projected Enrollment for the following school year. The Preliminary Projected Enrollment shall not constitute a cap on the School's enrollment for the following school year.

2. Annual Enrollment Capacity: The Annual Enrollment Capacity shall be annually determined by the Governing Board in conjunction with the Sponsor based on the factors set forth in section 1002.33(10), Florida Statutes. The School shall provide to the Sponsor by March 1 of each year of this Charter, or a date otherwise agreed to by the Sponsor and School, the proposed Annual Enrollment Capacity for the subsequent school year. Disagreements between the Sponsor and the School relating to Annual Enrollment Capacity will be resolved using the dispute resolution provisions in this Charter and section 1002.33, Florida Statutes. The School shall not enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case, the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a School that is designated as High-Performing pursuant to section

1002.331, Florida Statutes, shall be determined by the Governing Board.

3. Final Enrollment Projection: No later than June 1 of each year, the School shall provide to the Sponsor the School's Final Enrollment Projection for the upcoming school year. For purposes of this Charter, Final Enrollment Projection is not Annual Enrollment Capacity, but is the School's projection for how many students will be enrolled when the school year begins and will serve as the basis for initial FEFP payments.

G. Maintenance of Student Records as Required by Statute

1. The School shall maintain confidentiality of student records as required by federal and state law.

2. The School will maintain active records for current students in accordance with applicable Florida Statutes and State Board of Education rules.

3. All permanent (Category A) records of students leaving the School, whether by graduation, transfer to another public school, or withdrawal to attend another school, will be immediately transferred to the District in accordance with Florida Statutes. Records will be transmitted to the District's records retention department.

4. Records of student progress (Category B) will be transferred to the appropriate school if a student withdraws to attend another public school or any other school. The School may retain copies of the departing student's academic records created during the student's attendance at the School.

5. Upon the withdrawal of a student from the School, the School will retain the student's original records, except that such records will be immediately transferred to another District school when requested by that school. Requests for student records from public or private schools outside of the County and private schools within the County must be made in writing. Only copies of requested records may be provided. Copies only of student records may be provided to parents upon their request unless the student is considered an eligible student under FERPA. The School will retain the student's record for three (3) years after student withdrawal or until requested by another District public school in this County, whichever comes first. At the end of the third year all inactive student records will be returned to the District's records retention department.

6. Upon termination or closure of the School, all student education records and administrative records shall be transferred immediately to the Sponsor's records retention office for processing and maintenance.

7. The School will comply with all other public record retention requirements for non-student related records in a manner consistent with applicable Florida law. The

School shall comply with Fla. Stat. Chapter 119 (the Public Records Act) and all other applicable statutes pertaining to public records.

8. The Sponsor will ensure that all student records will be provided immediately to the School upon request and upon enrollment of students in the School from a District school.

9. The School must maintain a record of all the students who apply to the School, whether or not they are eventually enrolled. The information shall be made available to the Sponsor upon written request. However, such requests may not be made until after the October survey period. The School shall maintain documentation of each enrollment lottery conducted. Such documentation shall provide sufficient detail to allow the Sponsor to verify that the random selection process utilized by the School was conducted in accordance with section 1002.33(10)(b), Florida Statutes. Records must be maintained in accordance with applicable record retention laws.

H. Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A- 6 of the Florida Administrative Code. This includes, but is not limited to:

1. A non-discriminatory policy regarding placement, assessment, identification, and selection.

2. Free appropriate public education (FAPE).

3. Individual Educational Plans (IEP's), to include an annual IEP meeting with the student's family.

Students with disabilities will be educated in the least restrictive environment, and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Those students, whose needs cannot be adequately addressed at the School, as determined by the IEP team, will be referred to an appropriate placement within the District. Parents of students with disabilities will be afforded procedural safeguards in their native language, consistent with the manner that those safeguards are provided in the District's traditional schools or using the District's materials. Unless the School is specifically for students with disabilities, the School shall not request through the School's application a student's IEP or other information regarding a student's special needs, nor shall the School access such information prior to the enrollment lottery.

Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within 10 days. If the School believes, upon review of the IEP, that the student's needs cannot be met at the School an IEP meeting shall be convened within 30 days. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

A representative of the Sponsor shall be invited to participate in all IEP meetings and will serve as the LEA representative. The Sponsor retains the right to determine whether or not to send a representative to such meetings. However, if no representative of the Sponsor will attend an IEP meeting, the Sponsor must designate which individual or employment position at the School will serve as LEA representative and must provide such individual with training required to serve as LEA representative.

4. Due Process Hearing:

i. A student, parent, or guardian who indicates at an IEP, EP, or 504 meeting that they wish to file for a due process hearing or State Complaint pursuant to State law and rules shall be given the appropriate forms by the School. These forms shall also be provided upon request at any other time.

ii. Due process hearing requests shall be forwarded to the Sponsor's ESE Director and the District's General Counsel within one (1) school day of receipt.

iii. The Sponsor will select and assign an attorney in consultation with the School. The School may also hire an attorney at its cost to consult and cooperate with the Sponsor. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School.

iv. In cooperation with the assigned attorney, the School is responsible for scheduling resolution and mediation meetings as required under State and Federal law.

v. The Sponsor shall ensure that:
   (a) The due process hearing is conducted pursuant to applicable State laws and rules;
   (b) A final decision is reached; and
   (c) A copy of the decision is mailed to the parties.

vi. The School shall bear all the costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter. In the event that the student, parents, or guardians prevail, either through a hearing or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any. Costs and fees incurred will be

automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request and the parties agree to a payment plan.

If the School receives a complaint filed or becomes aware of an investigation with the Office of Civil Rights or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall within one (1) school day notify the Sponsor and provide the Sponsor any documentation from the agency. The School shall fully cooperate with the Sponsor during the investigation and proceeding and provide the Sponsor any relevant information. The School shall bear all costs associated with the investigation. However, the Sponsor shall assume or reimburse the costs attributable to, caused by, or through the fault of the Sponsor, if any.

I. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

iv. The District agrees to fund the School for the students enrolled as if they are in a basic program or a special program in a District school in a manner fully consistent with Florida law. Such fee shall cover only those services provided by the Sponsor which are required to be covered under such statute. If the School requests services from the Sponsor beyond those provided for in statute, the Sponsor and the School will enter into a separate written agreement approved by both parties.

The District shall provide the distribution of funds reconciliation simultaneously with each revenue disbursement to the School including any administrative and other fees and charges withheld.

4. Distribution of Funds Schedule

The first payment will be made by July 15 of the School's first year of operation. Subsequent payments will be made no later than the 15th of each month beginning with August 15.

ii. For the first two years of this Charter, monthly payments will be calculated as follows:

Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in the Sponsor's Student Information System as of the first day of the current month, not to exceed the Annual Enrollment Capacity.

b. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year.

c. Payments will be adjusted retroactively for prior period adjustments.

iii. For the following years of the Charter, monthly payments will be calculated as follows:

iv. Payment shall not be made, without penalty of interest, for students in excess of the School facility's valid capacity as determined by the School's Certificate of Occupancy, Certificate of Use, or Fire Permit or in excess of the Annual Enrollment Capacity for the school year (whichever is less). In the event that the required county or municipality facility permits do not indicate a facility capacity, the School must submit a letter from the architect of record certifying the capacity of the facility.

vi. The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Charter, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant for payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued.

G. Failure to secure and continuously maintain all insurance listed in items A-E without cure after written notice above may constitute grounds for termination of this charter.

H. The School agrees to indemnify and hold harmless the Sponsor, its members, officers, employees and agents, harmless from any and all claims, actions, costs, expenses, damages, and liabilities, including reasonable attorney's fees, arising out of, connected with or resulting from: (a) the negligence, intentional wrongful act, misconduct or culpability of the School's members, officers, or employees or other agents in connection with and arising out of any services within the scope of this Charter; (b) the School's material breach of this Charter or law; (c) any failure by the School to pay its suppliers or any subcontractors. In addition, the School shall indemnify, protect and hold the District harmless against all claims and actions brought against the District by reason of any actual or alleged infringement of patent or other proprietary rights in any material, process, machine or appliance used by the School, except when Sponsor supplied, or required School to use that material, process, machine, or appliance, and any claims or actions related to violation of any state or Federal statutes or regulations including those referenced in this Charter. The School shall not indemnify Sponsor for intentional or negligent conduct of Sponsor or any other cause of action caused by or through the fault of the Sponsor.

I. Applicable to All Coverages the School Procures

1. Other Coverages: The insurance provided by the School shall apply on a primary basis and any other insurance or self-insurance maintained by the Sponsor or its members, officers, employees, or agents, shall be in excess of the insurance provided by or on behalf of/ the School.

2. Deductibles and Retention: Except as otherwise specified, the insurance maintained by the School shall apply on a first-dollar basis without application of deductible or self-insurance retention.

3. Liability and Remedies: Compliance with the insurance requirements of this Charter shall not limit the liability of the School, its subcontractors, its sub-subcontractors, its employees or its agents to the Sponsor or others. Any remedy provided to the Sponsor or its members, officers, employees, or agents by the insurance shall be in addition to and not in lieu of any other remedy available under the Charter or otherwise.

4. Subcontractors: The School shall require its subcontractors and its sub-subcontractors to maintain any and all insurance required by law.

5. Waiver of Subrogation: All policies will be endorsed for waiver of subrogation in favor of the Sponsor.

6. Defense outside the limits: Whenever possible, coverage for School Leader's Errors and Omission and Sexual Abuse Liability policies should be written with "Defense Costs outside the limits". This term ensures that limits are available to pay claims rather having attorney's fees erode the available claim dollars.

J. The District agrees to indemnify and hold harmless the School, its members, officers, employees and agents, harmless from any and all claims, actions, costs, expenses, damages, and liabilities, including reasonable attorney's fees, arising out of, connected with or resulting from: (a) the negligence, intentional wrongful act, misconduct or culpability of the District's members, officers, employees or other agents in connection with and arising out of any services within the scope of this Charter; or (b) the District's material breach of this Charter or law. In addition, the Sponsor shall indemnify, protect and hold the School harmless against all claims and actions brought against the School by reason of any actual or alleged infringement of patent or other proprietary rights in any material, process, machine or appliance used by the District or required by the District to be used by the School, and any claims or actions related to violation of any state or Federal statutes or regulations including those referenced in this Charter.

K. Notwithstanding anything to the contrary contained herein, through such indemnification set forth in Sections 8(H) and 8(J) above, the District and the School do not waive sovereign immunity to the extent sovereign immunity is available or beyond the limited waiver of sovereign immunity set forth in Section 768.28, Florida Statutes. In the event of any claims described in Sections 8(H) and 8(J) above, the School and Sponsor shall notify one another of any such claim promptly upon receipt of same. The School and Sponsor shall each have the option to defend such claims with their own counsel at the expense of the other party. If the Sponsor or School choose to not hire their own counsel to defend, the other party shall assume the defense of any such claim and have authority in the defense thereof. The parties' obligation to indemnify one another shall survive the termination of this Charter.

L. Notification of Third-Party Claim, Demand, or Other Action: The School and Sponsor shall notify each other of the existence of any third-party claim, demand or other action giving rise to a claim for indemnification under this provision (a "third-party claim") and

shall give each other a reasonable opportunity to defend the same at its own expense and with its own counsel, provided that the Sponsor shall at all times have the right to participate in such defense at its own expense. If, within a reasonable amount of time after receipt of notice of a third-party claim, the School or Sponsor fails to undertake to defend, the other party shall have the right, but not the obligation, to defend and to compromise or settle (exercising reasonable business judgment) the third-party claim for the account. The School or the Sponsor shall make available to each other, at their expense, such information and assistance as each shall request in connection with the defense of a third-party claim.

M. Notice of Claims

1. Time to Submit

The School shall provide the Sponsor with proof of insurance pursuant to Section 8(F) of this Charter.

2. Notice of Cancellation

The evidence of insurance shall provide that the District be given no less than sixty (60) days written notice prior to cancellation.

3. Renewal or Replacement
Until such time as the insurance is no longer required to be maintained by the School, the School shall provide the District with evidence of the renewal or replacement of the insurance no less than thirty (30) days before the expiration or termination of the required insurance for which evidence was provided.

Section 9: Governance

A. Governance of the School will be in accordance with the Bylaws or other organizational documents of the School and as described in the Application. The general direction and management of the affairs of the School shall be vested in the Governing Board with a minimum of 3 members. A majority of the voting members of the Governing Board shall constitute a quorum. A majority of those members of the Governing Board present shall be necessary to act. Members of the Governing Board may attend in person or by means of communications media technology used in accordance with rules adopted by the Administration Commission under section 120.54(5), Florida Statutes. The Governing Board's primary role will be to set policy, provide financial oversight, annually adopt and maintain an operating budget, exercise continuing oversight over the School's operations, and communicate the vision of the School to community members. It shall be the duty of the Governing Board to keep a complete record of all its actions and corporate affairs and supervise all officers and agents of the School and to see that their duties are properly performed.

The Governing Board must appoint a representative to facilitate parental involvement,

provide access to information, assist parents and others with questions and concerns, and resolve disputes. The representative must reside in the school district in which the School is located and may be a Governing Board member, employee of the School, or individual contracted to represent the Governing Board. If the Governing Board oversees multiple charter schools in the same school district, the Governing Board must appoint a separate individual representative for each charter school in the district. The representative's contact information must be provided annually, in writing, to parents and posted prominently on the School's website.

All meetings and communications involving members of the Governing Board shall be held in compliance with Florida's Sunshine Law.

The Board shall have at least two public meetings per school year within the District. The meetings must be noticed, open, and accessible to the public, and attendees must be provided an opportunity to receive information and provide input regarding the School's operations. The appointed representative and the School's principal or director, or his or her equivalent, must be physically present at each meeting.

All members of the Governing Board will be required to attend Governance training and refresher courses as required by section 1002.33, Florida Statute, and Rule 6A-6.0784, Florida Administrative Code, and shall submit certificates evidencing completion to Charters.Link also within ninety (90) days of appointment.

The Governing Board will serve as the sole responsible fiscal agent for setting the policies guiding finance and operation. School policies are decided by the Governing Board, and the Principal ensures that those policies are implemented.

The School will be a private employer and will not participate in the Florida Retirement System.

B. The School shall be organized as a Florida nonprofit organization.

C. The Bylaws or other organizational documents of the School shall establish the procedures by which members of the Governing Board are appointed and removed and the election of officers. The Governing Board will develop and implement policies regarding educational philosophy, program, and financial procedures. The Governing Board will oversee assessment and accountability procedures to assure that the School's student performance standards are met or exceeded.

1. The Governing Board shall exercise continuing oversight over the School's operations and will be held accountable to its students, parents or guardians, and the community at large, through a continuous cycle of planning, evaluation, and reporting as set forth in section 1002.33, Florida Statutes.

2. The Governing Board will be responsible for the over-all policy decision making of the School, including the annual approval of the budget.

3. Upon nomination and prior to appointment to the Governing Board, a member shall be fingerprinted pursuant to section 1002.33(12)(g), Florida Statutes. The cost of the fingerprinting is the responsibility of the School or Governing Board member. Prospective Governing Board members whose fingerprint check results warrant disqualification under the Statute shall not be appointed to the board.

4 The Governing Board shall ensure that the School has retained the services of a certified public accountant or auditor for the annual financial audit, pursuant to section 1002.345(2), Florida Statutes, who shall submit the report to the Governing Board.

5. The Governing Board shall review and approve the audit report, including any audit findings and recommendations for the financial recovery plan.

6. The Governing Board shall perform the duties set forth in section 1002.345, Florida Statutes, including monitoring any financial corrective action plan or financial recovery plan.

7. The Governing Board shall adopt procedures for a parent to notify the principal, or his or her designee, regarding concerns about a student's health, safety, or welfare, including concerns involving the student welfare provisions described in section 1001.42(8)(c)1.-6., Florida Statutes. The Governing Board shall also adopt procedures to resolve concerns under the student welfare provisions in section 1001.42(8)(c)1.-6., Florida Statutes, within seven calendar days after notification by the parent and within a reasonable timeframe for other concerns.

8. No member of the Governing Board or their immediate family will receive compensation, directly or indirectly from the School or the School's operations. No School or management company employee, or his or her spouse, shall be a member of the Governing Board. Violation of this provision or any violation of sections 112.313(2),(3),(7) and (12) and section 112.3143, Florida Statutes, by a member of the Board, shall constitute a material breach of this Charter.

9. Any change in Governing Board membership must be reported to Sponsor in writing within 5 business days of the change and entered into Charters.Link.

D. The School shall allow reasonable access to its facilities and records to duly authorized representatives of the District. Conversely, the District shall allow reasonable access to its records to duly authorized representatives of the School to the extent allowable by law.

To the extent the School is provided access to Sponsor's data systems, all School employees and students will be bound by Sponsor's computer policies and standards regarding data privacy and system security.

E. If an organization (management organization), including but not limited to: 1) a management company, 2) an educational service provider, or 3) a parent organization, will be managing or providing significant services to the School, the contract for services between the management organization and the Governing Board shall be provided to the Sponsor and attached as an appendix to this Charter. Any contract between the management organization and the School must ensure that:

1. Members of the Governing Board or their spouses will not be employees of the management organization, nor should they be compensated for their service on the Board or selected to serve on the Board by the management organization.

2. The Governing Board retains the right to hire an independent attorney, accountant, and audit firm representing and working for, or on behalf of, the School. Notwithstanding, the Governing Board and the management organization may contract for such services as determined by the management agreement and as otherwise allowed by law. The Governing Board shall use an audit firm that is independent from the management organization for the purposes of completing the annual financial audit required under section 218.39, Florida Statutes.

3. The contract will clearly define each party's rights and responsibilities including specific services provided by the management organization and the fees for those services and specifies reasonable and feasible terms under which either party may terminate the contract.

4. All equipment and furnishings that are purchased with public funds will be the property of the School, not the management organization and any fund balance remaining at the end of each fiscal year will belong to the School, not the management organization.

5. All loans from the management organization to the School, such as facility loans or loans for cash flow, will be appropriately documented and will be repaid at a rate no higher than market rates at the time of the loan.

6. A copy of any material changes to the contract between the management organization and the Governing Board shall be submitted to the District within five (5) days of execution. The Sponsor shall have 30 days to review the material changes. If the changes violate the terms of this Charter or applicable law the Sponsor shall provide written notice to the School which shall include a description of the violations. The School may address the concerns or initiate the dispute resolution process included in this Charter.

7. The management organization will perform its duties in compliance with this Charter.

F. Any default or breach of the terms of this Charter by the management company shall

constitute a default or breach under the terms of this Charter by the School unless the School cures such breach after written notice.

Section 10: Human Resources

B. The School's employment practices shall be nonsectarian.

C. The teachers employed by or under contract to the School shall be certified as required by Chapter 1012.

Any costs associated with professional development for which there is an additional fee, and for which no Federal funding has been provided for such purposes to the Sponsor, will be the responsibility of the School or individual School employee.

E. The School may not employ an individual to provide instructional services or to serve as a teacher's aide if the individual's certification or licensure as an educator is suspended or revoked by this or any other state.

F. This Charter makes the following full disclosure of the identity of all relatives employed by the School who are related to the School owner, president, chairperson of the Governing Board, superintendent, Governing Board member, principal, assistant principal, or any other person employed by the School who has equivalent decision-making authority per Fla. Stat. § 1002.33(7) (a) (18):

The School shall comply with the restriction on employment of relatives, pursuant to section 1002.33(24), Florida Statutes.

G. The School may not knowingly employ an individual who has resigned from a school or school district in lieu of disciplinary action with respect to child welfare or safety or who has been dismissed for just cause by any school or school district with respect to child welfare or safety or who is under current suspension from any school or school district.

H. The School shall disclose to the parents the qualifications of its teachers in the manner

required by law. The School shall provide to the District, prior to the opening of school, the qualifications and assignments of all staff members using the Sponsor's designated database. Teaching assignments must match the State's course code directory numbers. Changes will be provided to the District within 3 work days of hiring, granting leaves of absence, or terminating teachers.

I. The School shall implement policies and procedures for background screening of all prospective employees, volunteers and mentors.

J. The School shall require all employees and the members of the Governing Board to be fingerprinted by an authorized law enforcement agency or an employee of the School or Sponsor who is trained to take fingerprints, pursuant to section 1002.33(12), Florida Statutes, which shall enter same in Charters.Link. The cost of fingerprinting shall be borne by the School or the individual being fingerprinted. The results of all such background investigations and fingerprinting will be reported in writing to the Superintendent of Schools or his or her designee. No School employee or member of the Governing Board may be on campus with students until his or her fingerprints are processed and cleared. The School shall ensure that it complies with all fingerprinting and background check requirements, including those relating to vendors, pursuant to, sections 1012.32, 1012.465, 1012.467, and 1012.468, Florida Statutes, and shall follow Sponsor's policy with regard to the fingerprinting and background check requirements of volunteers. The School shall notify the District's Human Resource Department when a staff member is no longer employed at the School.

The School shall require all employees and Board members to self-report within 48 hours to appropriate authorities any arrest and final disposition of such arrest other than minor traffic violations. The School shall then take appropriate action relating to the employment of that individual.

If the Sponsor subsequently amends any agreed-upon Sponsor policy the version of the policy in effect at the time of the execution of the charter, or any subsequent modification thereof, shall remain in effect and the Sponsor may not hold the School responsible for any provision of a newly revised policy unless the revised policy is mutually agreed upon.

Upon the Sponsor's revision of a mutually agreed upon Sponsor policy, the Sponsor shall provide written notification to the School and Governing Board. The written notification shall include the revised policy and shall allow the Governing Board 45 days to reject the revised policy. If the Governing Board does not provide written notice of its rejection of the policy, the revised policy is deemed accepted by the Governing Board. The current contract for Parrish Charter Academy expires on June 30, 2023.

Effective Date: December 10, 2020

These **AMENDED AND RESTATED BYLAWS** of Parrish Charter Academy, Inc. are intended to amend, completely restate and supersede all prior Bylaws of the Corporation.

ARTICLE I. General

Section 1. Name.

The name of the corporation is **Parrish Charter Academy, Inc.** It is hereinafter referred to as "the Corporation" or "Charter School."

Section 2. Address.

The Corporation's mailing address and principal place of business shall be as set forth in the Articles of Incorporation or as otherwise established by the Board of Directors from time to time.

Section 3. Purposes.

The general purpose of this Corporation shall be to operate exclusively for charitable, educational, scientific, or literary purposes, and in furtherance of such goals is authorized to do any and all activities which it is empowered to do under these Articles provided, however, that nothing herein shall be construed as allowing any activities which would jeopardize the Corporation's tax-exempt status or otherwise be inconsistent with its classification as an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended or replaced from time to time (the "Code") and its regulations as they now exist or may hereafter be amended, or as a corporation, contributions to which are deductible under Section 170(c)(2) of the Code.

The specific purpose for which the Corporation is formed is to establish, develop, maintain, improve, manage, and otherwise operate one or more public charter schools.

Section 4. Dedication of Assets and Dissolution.

The Corporation's assets are irrevocably dedicated to its public benefit purposes. Upon dissolution of this Corporation, all properties and assets remaining after payment, or provision for payment, of all debts and liabilities of the Corporation, including disposition of assets pursuant to any applicable charter contract or law applying to charter schools, shall be distributed to a nonprofit fund, foundation, or corporation that is organized exclusively for charitable purposes, pursuant to Section 501(c)(3) of the Internal Revenue Code, or the corresponding provision in any future tax code or to a state or local government, for a public

purpose. Any such assets not so disposed of shall be disposed of by a court of competent jurisdiction of the county in which the principal office of the Corporation is then located, exclusively, as said court shall determine, for such purposes or to such organization or organizations which are organized and operated exclusively for charitable purposes, pursuant to Section 501(c)(3) of the Internal Revenue Code, or the corresponding provision in any future tax code.

Section 5. Non-discrimination.

The Corporation shall not discriminate on the basis of race, religion, national origin, gender or age in either the hiring or other employment practices of the charter school or in its admission policies for students. The Corporation shall conduct all of its activities in accordance with all applicable local, state, and federal anti-discrimination laws, as well as in accordance with all other laws and upon the effective date of its first charter contract, regulations applicable to the operation of public charter schools in the State of Florida.

ARTICLE II. Members

The Corporation does not have any members.

ARTICLE III. Board of Directors

Section 1. Powers.

Except as provided in the Articles of Incorporation, and as otherwise provided in these Bylaws, the direction and management of the affairs of the Corporation shall be vested in a Board of Directors.

Section 2. Number.

The Board of Directors shall consist of a minimum of three (3) persons, with a maximum number of five (5) persons.

Section 3. Qualifications.

Any person may serve as a Board member for this corporation who has reached the age of majority of the State of Florida and who has been nominated to be a Board member. Board members do not need to reside in the County in which the Corporation's principal office is located. So long as the Corporation's contract(s) for operation of a public charter school(s) is in effect, all Board members must meet the requirements in said contract, the approved Charter Application(s) and provisions of Florida Statutes and regulations pertaining to governing boards of charter schools.

Section 4. Term.

Board members shall be elected to five (5) year terms. Board member terms are to be staggered so that no more than approximately 1/3 of the Board shall be up for election in any year, unless a vacancy or vacancies need to be filled.

Section 5. Election.

The names of the initial Board members are set forth in the Certificate of Incorporation. The positions of any Board members whose terms have expired or if a board member no longer is interested in being on the board, shall be open, nominations made by the Board members, and to be filled by those Board members eligible to vote. In the event of a tie vote for a position, a second ballot will be cast for that position only, with only the tied candidates participating on the ballot. Should a second tie vote occur, a result shall be obtained by flipping a coin with the person whose name is earliest in the alphabet calling a coin side first. Newly elected Board members shall assume office at the first Board of Directors meeting following their election.

Section 6. Resignation and Removal.

A Board member may resign by submitting his or her resignation in writing to the President of the Board of Directors. A Board member may be removed for cause at a meeting of Board members by an affirmative vote of two-thirds of the full membership of the remaining Board of Directors. Board members being considered for removal shall receive at least two weeks' notice of such proposed action and shall have the opportunity to address the Board regarding such action prior to any vote on such removal.

Section 7. Board Meetings.

Regular meetings of the Board of Directors shall be held at least once a quarter. Timely notice of all such regular meetings shall be provided. So long as the Corporation holds a charter contract, at least two meetings of the Corporation shall be held each year in the county in which the charter school is located, and notices will be posted and provided as set forth in said charter contract and Florida law.

Section 8. Special Meetings.

Special meetings of the Board of Directors for any purpose or purposes may be called at any time by the President or by a petition signed by a majority of the full Board of Directors. Such meetings shall be held upon not less than two business days' notice given personally or by telephone, facsimile, or electronic. Such notice shall specify the time and place of the meeting.

Section 9. Quorum.

A majority of the full number of Board members shall constitute a quorum of the Board for the transaction of business. After the effective date of any charter contract of the Corporation, quorum may be established by in-person attendance or by communications media technology in accordance with the requirements of Section 1002.33(9), Florida Statutes. When a quorum is present, a majority of the Board members present may take any action on behalf of the Board, except to the extent that a larger number is required by law, by a charter contract, or by these Bylaws. Every act of a majority of the Board members present at a meeting duly held at which a quorum is present shall be regarded as the act of the Board of Directors.

Section 10. Vacancies.

If a vacancy should occur in the Board of Directors, a new member of the Board of Directors shall be elected by a majority of a quorum of the remaining members of the Board of Directors. The new member shall be elected to serve for the remainder of the vacating director's term as set forth in the Board Classes.

Section 11. Compensation.

Board members receive no payment for their services. With Board approval, Board members may be reimbursed for out-of-pocket expenses incurred on approved board business. Board members must present receipts for all such expenses, which shall be for the Board member only, and shall be itemized and documented. Such expenses must be approved by a motion of the Board prior to reimbursement of any such expenditure. The Board of Directors shall set a schedule of allowable charges for meals, lodging, and mileage expended on Board business. Reimbursements shall not exceed these limitations.

Section 12. Meeting Attendance.

Board members are expected to attend all Board meetings. It shall be the duty of the Secretary of the Board to communicate with any Board member after such Board member's four unexcused, consecutive absences to ascertain the Board member's interest in retaining Board membership. Failure to provide an adequate response may qualify as sufficient cause for removal from the Board of Directors.

Section 13. Open Meetings.

So long as the Corporation's charter contract(s) remains in effect, to the extent required by such laws, rules and regulations as govern the operation of such public charter school, all meetings of the Board of Directors will be open and accessible to the public, noticed and conducted in accordance with the Florida Sunshine Act (Section 286.011, Florida Statutes). Meetings of the Board shall not be closed to the public except as specifically permitted by the Florida Sunshine Act and with prior consultation with legal counsel. The Corporation will establish a policy governing public comment and input in accordance with Florida law.

Section 14. Parent Representative and Principal Attendance.

So long as the Corporation's charter contract(s) remains in effect, the Board must appoint a parent representative to facilitate parental involvement and resolve disputes. The parent representative must reside in the county in which the charter school is located and may be a member of the Board, charter school employee or individual contracted to represent the Board. If the Board oversees more than one (1) school in the school district then a separate parent representative must be appointed for each school. After the effective date of the Corporation's charter contract(s), the parent representative and principal, or his or her designee(s), must attend meetings of the Corporation in person.

ARTICLE IV. Committees

Section 1. Establishment; Membership; Terms.

The Board of Directors may establish and appoint members to such standing committees and/or ad hoc committees as it thinks necessary for the effective governing of the Corporation. The permitted

activities and scope of each such committee shall be established by the Board at the inception of each such committee and may be amended by the Board from time to time. Committee may be made up of Board members and non-Board members. Committee member terms shall be established upon appointment and shall be one year or less. Committee terms may be renewed. The Board shall appoint a chair for each committee unless otherwise provided in these Bylaws. So long as the Corporation's contract for operation of a public charter school remains in effect, any standing or ad hoc committees subject to the Florida Sunshine Act (Section 286.011, Florida Statutes) will be noticed and conducted in accordance with such Act.

ARTICLE V. Officers

Section 4. Resignation and Removal.

Any officer may be removed from office, with cause, by the affirmative vote of two-thirds of the full membership of the Board of Directors at any regular meeting or special meeting called for that purpose. A. Application is Approved. The Application is approved by the Sponsor. A copy of the Application is attached hereto as Appendix 1 and constitutes a part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control.

B. Term of Charter.

1. Effective Date. This Charter shall become effective on the date it is approved by the both parties.

2. Term. The term of this Charter shall be 5 years commencing on July 1, 2024 and ending on June 30, 2029 unless terminated sooner as provided herein, or extended pursuant to Section 1.B.2., herein. The term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor, subject to section 1002.33(8)(b), Florida Statutes. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the FDOE, pursuant to section 1002.33(7)(b), Florida Statutes. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

3. Charter Modification. This Charter may be modified during its initial term or any renewal term only upon approval of both parties. No such modification shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff.

4. Charter Renewal. This Charter may be renewed as provided for in section 1002.33, or 1002.331, Florida Statutes. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes. Upon completion of the programmatic review, but no later than 90 days prior to the end of the charter term, the Sponsor shall notify the governing board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the charter, pursuant to s. 1002.33(8)(a), Florida Statutes. The Sponsor may not require the School to waive the provisions of s. 1002.331, Florida Statutes, or require a student enrollment cap that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2), Florida Statutes, as a condition of approval or renewal of the Charter.

5. Periodic Review and Evaluation. The Sponsor shall annually evaluate the Charter School on its performance and progress toward meeting the standards and targets included in this Charter, including academic achievement goals. If the term of this Charter exceeds five years, the Sponsor shall conduct a High-Stakes Review at least every five years and shall present the findings of the review to the Governing Board of the School.

6. The School agrees that it will abide by all Federal and State laws, statutes, rules and regulations applicable to any construction and/or renovations.

C. Education Program and Curriculum

1. Any material change to the education program or curriculum as described in the approved Application or Charter requires Sponsor approval.

2. The School agrees to implement its educational and related programs as specified in the Application unless otherwise modified by this Charter.

3. The School shall make reading a primary focus of the curriculum and provide sufficient resources to identify and provide specialized instruction for students who are reading below grade level. The reading curriculum and instructional strategies shall be consistent with Florida Standards and grounded in scientifically-based reading research.

4. The School shall adopt the District's plan for English Language Learners, or implement an alternate District approved plan. If applicable, the School's plan for English Language Learners is attached hereto as Appendix 3. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

5. The School will establish the current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Charter.

D. Renewal, Non-Renewal, or Termination

1. Non-Renewal/Termination of this Charter. The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in section 1002.33(8), Florida Statutes.

   i. Failure to participate in Florida's education accountability system created in s. 1008.31, as required in this section, or failure to meet the requirements for student performance established pursuant to Section 2A of the Charter.

   ii. Failure to meet generally accepted standards of fiscal management.

   iii. Material violation of law.

2. The Sponsor shall notify the Governing Board in writing at least ninety days prior to renewing, non-renewing, or terminating this Charter, following the procedures set forth in section 1002.33(8), Florida Statutes.

   i. If the Sponsor issues a notice of non-renewal or termination, the notice shall state in reasonable detail the grounds for the proposed action and

stipulate that the Governing Board may, within 14 calendar days of receipt of the notice, request a hearing.

ii. A request for a hearing must be authorized by a vote of the Governing Board and be submitted pursuant to the Notice provisions of this Charter.

3. The Sponsor may immediately terminate this charter pursuant to section 1002.33(8)(c), Florida Statutes.

i. Upon receipt of notice of immediate termination from the Sponsor, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall immediately make accessible all educational and administrative records of the School. Moreover, within two (2) business days, the School shall turn over to the Sponsor copies of all records and information regarding the accounts of all of the public funds held by the School. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

ii. The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School, at the Sponsor's option, but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor reserves the right to take any appropriate personnel action regarding the School's employees.

4. If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to the Sponsor indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution signed by the School's Governing Board chair and secretary, indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be

considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal.

5. Upon notice of termination or non-renewal the School shall not remove any public property from the premises without written Sponsor approval.

E. Post Termination Provisions

1. If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The District shall not assume the debt from any contract for services including lease or rental agreements, made between the School and a third party, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor.

2. In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

3. In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. All assets of the School purchased with public funds, including supplies, furniture and equipment, will revert to full ownership of the Sponsor (subject to any lawful liens or encumbrances) or as otherwise provided by law. Any unencumbered public funds from the School, property and improvements of the Sponsor, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor.

4. Final Audit: Pursuant to section 1002.33, Florida Statutes, upon notice of non-renewal, closure, or termination, an independent audit shall be completed within 30 days to account for all public funds and assets. During the fiscal year in which the termination or non-renewal occurs, the Sponsor may withhold from the School's FEFP funds, without penalty or interest, an amount necessary to cover the costs for a final financial audit of the School. The audit shall be conducted by an independent certified public accountant.

F. General Statutory Requirements

1. The School shall not discriminate in educational programs/activities or

employment and shall provide equal opportunity for all as required by Federal, State and local law, rule, regulation and court order.

2. Additionally, the School shall comply with those statutes that specifically apply to charter schools as set forth in section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

Section 2: Academic Accountability

Student academic achievement for all students shall be the most important factor when considering whether to renew, non-renew, or terminate this charter.

A. Annual Objectives

1. By September 15 of each year the Sponsor shall provide the School with academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes. The Sponsor may fulfill this requirement by providing the School access to the data.

2. By September 15 of each year the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:
   i. Students scoring a level 1 on prior year assessment
   ii. Students scoring a level 2 on prior year assessment
   iii. Students scoring a level 3 or higher on prior year assessments
   iv. Students with disabilities
   v. English Language Learners

3. required alternate assessments and comply with state reporting procedures.

2. Additional Assessments: Students may participate in any or all District assessment programs in which the District students in comparable grades or schools participate and shall participate in any other assessments as described in the Application. The School shall be responsible for the costs of District assessments that are not required by law or this Charter, except those developed with federal funds or those developed using Florida's Item Bank and Test Platform

D. Data Access and Use Pursuant to Statute

The School agrees to allow the District reasonable access to review its data sources in order to assist the District in making a valid determination about the degree to which student performance requirements, as stated in this Charter, have been met.

Section 3: Students

A. The School is authorized to serve students in grades Kindergarten through 8.

The School may provide enrollment preferences as allowed for in section 1002.33(10), Florida Statutes. Further, the School may limit the enrollment process to target specific student populations as set forth in section 1002.33(10)(e), Florida Statutes, or as described in the approved Application.

The School shall be non-sectarian in its programs, admissions policies, employment practices and operations. The School will meet all applicable state and local health, safety, and civil rights requirements. The School will not participate in its Sponsor's plan for the mental health assistance allocation. If the School develops its own plan, it must submit that plan to its governing board for approval. After the plan is approved by the governing board, it must be provided to the School's Sponsor.

B. The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial or ethnic range of other public schools in the District and shall not discriminate against students with disabilities who are served in Exceptional Student Education programs (ESE) and students who are served as English Language Learners (ELL).

D. Eligible Students

1. Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10 day count, the registered enrollment as reflected in the Sponsor's data system is less than 75% of the School's total projected enrollment as provided for under the provisions of Section 3.F. of this Charter, the School shall, upon request by the Sponsor, submit a revised budget within 30 days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination.

2. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School may give preference in admission to students or limit the enrollment as provided for in section 1002.33(10), Florida Statutes. The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize.

3. Enrollment is subject to compliance with the provisions of section 1003.22, Florida Statutes, concerning school entry health examinations and immunizations.

4. If this Charter is not renewed or is terminated, a student who attended the School may be enrolled in another public school pursuant to Sponsor policies.

5. A student may withdraw from the School at any time and enroll in another public school, as determined by District policy. The School shall work in conjunction with the parent(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

6. Students at the School are eligible to participate in an interscholastic extracurricular activity at the public school to which the student would be otherwise assigned to attend pursuant to section 1006.15(3)(d) and 1002.20(18)(c), Florida Statutes.

The Preliminary Projected Enrollment shall not constitute a cap on the School's enrollment for the following school year.
2. Annual Enrollment Capacity: The Annual Enrollment Capacity shall be annually determined by the Governing Board in conjunction with the Sponsor based on the factors set forth in section 1002.33(10), Florida Statutes. The School shall provide to the Sponsor by March 1 of each year of this Charter, or a date otherwise agreed to by the Sponsor and School, the proposed Annual Enrollment Capacity for the subsequent school year. Disagreements between the Sponsor and the School relating to Annual Enrollment Capacity will be resolved using the dispute resolution provisions in this Charter and section 1002.33, Florida Statutes. The School shall not enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case, the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a School that is designated as High-Performing pursuant to section 1002.331, Florida Statutes, shall be determined by the Governing Board.
3. Final Enrollment Projection: No later than June 1 of each year, the School shall provide to the Sponsor the School's Final Enrollment Projection for the upcoming school year. For purposes of this Charter, Final Enrollment Projection is not Annual Enrollment Capacity, but is the School's projection for how many students will be enrolled when the school year begins and will serve as the basis for initial FEFP payments.

G. Maintenance of Student Records as Required by Statute

1. The School shall maintain confidentiality of student records as required by federal and state law.

2. The School will maintain active records for current students in accordance with applicable Florida Statutes and State Board of Education rules.

3. All permanent (Category A) records of students leaving the School, whether by graduation, transfer to another public school, or withdrawal to attend another school, will be immediately transferred to the District in accordance with Florida Statutes. Records will be transmitted to the District's records retention department.
4. Records of student progress (Category B) will be transferred to the appropriate school if a student withdraws to attend another public school or any other school.

The School may retain copies of the departing student's academic records created during the student's attendance at the School.

5. Upon the withdrawal of a student from the School, the School will retain the student's original records, except that such records will be immediately transferred to another District school when requested by that school. Requests for student records from public or private schools outside of the County and private schools within the County must be made in writing. Only copies of requested records may be provided. Copies only of student records may be provided to parents upon their request unless the student is considered an eligible student under FERPA. The School will retain the student's record for three (3) years after student withdrawal or until requested by another District public school in this County, whichever comes first. At the end of the third year all inactive student records will be returned to the District's records retention department.

6. Upon termination or closure of the School, all student education records and administrative records shall be transferred immediately to the Sponsor's records retention office for processing and maintenance.

7. The School will comply with all other public record retention requirements for non-student related records in a manner consistent with applicable Florida law. The School shall comply with Fla. Stat. Chapter 119 (the Public Records Act) and all other applicable statutes pertaining to public records.

8. The Sponsor will ensure that all student records will be provided immediately to the School upon request and upon enrollment of students in the School from a District school.

9. The School must maintain a record of all the students who apply to the School, whether or not they are eventually enrolled. The information shall be made available to the Sponsor upon written request. However, such requests may not be made until after the October survey period. The School shall maintain documentation of each enrollment lottery conducted. Such documentation shall provide sufficient detail to allow the Sponsor to verify that the random selection process utilized by the School was conducted in accordance with section 1002.33(10)(b), Florida Statutes. Records must be maintained in accordance with applicable record retention laws.

H. Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A- 6 of the Florida Administrative Code. This includes, but is not limited to:

2. Free appropriate public education (FAPE).

3. Individual Educational Plans (IEP's), to include an annual IEP meeting with the student's family.

Students with disabilities will be educated in the least restrictive environment, and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Those students, whose needs cannot be adequately addressed at the School, as determined by the IEP team, will be referred to an appropriate placement within the District. Parents of students with disabilities will be afforded procedural safeguards in their native language, consistent with the manner that those safeguards are provided in the District's traditional schools or using the District's materials. Unless the School is specifically for students with disabilities, the School shall not request through the School's application a student's IEP or other information regarding a student's special needs, nor shall the School access such information prior to the enrollment lottery.

Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within 10 days. If the School believes, upon review of the IEP, that the student's needs cannot be met at the School an IEP meeting shall be convened within 30 days. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

A representative of the Sponsor shall be invited to participate in all IEP meetings and will serve as the LEA representative. The Sponsor retains the right to determine whether or not to send a representative to such meetings. However, if no representative of the Sponsor will attend an IEP meeting, the Sponsor must designate which individual or employment position at the School will serve as LEA representative and must provide such individual with training required to serve as LEA representative.

4. Due Process Hearing:

i. A student, parent, or guardian who indicates at an IEP, EP, or 504 meeting that they wish to file for a due process hearing or State Complaint pursuant to State law and rules shall be given the appropriate forms by the School. These forms shall also be provided upon request at any other time.

ii. Due process hearing requests shall be forwarded to the Sponsor's ESE

Director and the District's General Counsel within one (1) school day of receipt.

iii. The Sponsor will select and assign an attorney in consultation with the School. The School may also hire an attorney at its cost to consult and cooperate with the Sponsor. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School.

iv. In cooperation with the assigned attorney, the School is responsible for scheduling resolution and mediation meetings as required under State and Federal law.

v. The Sponsor shall ensure that:
(a) The due process hearing is conducted pursuant to applicable State laws and rules;
(b) A final decision is reached; and
(c) A copy of the decision is mailed to the parties.

vi. The School shall bear all the costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter. In the event that the student, parents, or guardians prevail, either through a hearing or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any. Costs and fees incurred will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request and the parties agree to a payment plan.

If the School receives a complaint filed or becomes aware of an investigation with the Office of Civil Rights or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall within one (1) school day notify the Sponsor and provide the Sponsor any documentation from the agency. The School shall fully cooperate with the Sponsor during the investigation and proceeding and provide the Sponsor any relevant information. The School shall bear all costs associated with the investigation. However, the Sponsor shall assume or reimburse the costs attributable to, caused by, or through the fault of the Sponsor, if any.

I. ESE administrative services covered by the administrative fee, pursuant to section 1002.33(20), Florida Statutes, includes professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District.

J. English for Speakers of Other Languages: Students at the School who are English Language Learners will be served by English to Speakers of Other Languages (ESOL) certified personnel who will follow the District's Plan for English Language Learners (ELLs), or an alternate plan that has been approved by the Sponsor. The School shall be invited to attend the District's ESOL Procedures Training(s) and shall comply with

applicable rules and regulations.

K. Dismissal Policies and Procedures

The School shall implement the dismissal policies as described in the approved Application or subsequently submitted to and approved by the Sponsor. If the School materially revises the dismissal policies, it shall provide the Sponsor the revised policies within 30 days of adoption by the Governing Board. If the Sponsor determines that the revised dismissal policies violate applicable law it shall provide the School with written notice within 30 days. The School shall have the opportunity to resubmit.

Upon the School's decision to implement dismissal, the School shall refer the student to the District for appropriate placement with the District. Dismissal procedures shall be clearly defined in writing and included in any Parent Contract, shared with students and parents annually and provided to the District no later than two weeks prior to the opening of school each year. In each instance where dismissal is initiated, the parents will receive written notice of the dismissal including the reasons for dismissal and a summary of the actions taken to assist the student prior to dismissal. The District shall be provided a copy of the dismissal notice on the same day as the parent. The School shall work in conjunction with the parent(s) and the receiving school to assure that, to the greatest extent possible, such dismissals occur at logical transition points in the school year (e.g. grading periods or semester breaks) that minimize impact on the student grades and academic achievement.

The School may withdraw a student involuntarily for failure to maintain eligibility, such as District residency requirements, or for material violation of the School's Student Conduct Code, which must also be compliant with IDEA, Section 504 of the Rehabilitation Act, and the American with Disabilities Act (ADA) for student with disabilities.

The School may not withdraw a student involuntarily for poor academic performance or for a minor infraction of the School's Code of Conduct. The School will ensure that no pressure, coercion, negotiation or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School.

L. Student Code of Conduct, Suspension and Expulsion

The School will maintain a safe learning environment at all times. The School shall adopt a Code of Student Conduct as described in the approved Application. The School will report each month to the District the number of violations of the Code, by offense, to be included in the District's discipline reporting, as required by law. The School agrees that it will not engage in the corporal punishment of students. Students recommended for expulsion or placement in an alternative school will be referred to the Sponsor for appropriate disposition. If the student remains enrolled at the School while placed at an alternative school, costs for the alternative school charged to the School, if any, will not exceed the Sponsor's actual cost for such student unless mutually agreed to by the School and Sponsor in a contract negotiated separately from the Charter. Students with disabilities

shall be afforded a manifestation determination if required by the Individuals with Disabilities Education Act.

M. School or Parent Contract

The School agrees to submit any proposed Parent Contracts, including amendments, to the Sponsor for review by March 1 annually. The Sponsor shall approve the proposed Parent Contract or reject it if it does not comply with applicable law, within 30 days of receipt. If the Sponsor rejects the proposed Parent Contract it shall provide its reasons for rejection in writing, detailing the legal insufficiency, and shall allow the School to resubmit a revised draft. If the School or Sponsor elects to resolve any dispute through the dispute resolution procedures, then the deadline for approving the Parent Contract will be extended through the conclusion of that dispute resolution process. The School may not accept monetary donations in lieu of volunteer hours.

Section 4: Financial Accountability

A. Revenue: State and Local

1. Basis for Funding: Student Reporting

i. School will report the daily attendance of each student to the District to meet District attendance reporting requirements, as required by law.

ii. The School agrees to report its student enrollment to the District as provided in section 1011.62, Florida Statutes, and in accordance with the definitions in section 1011.61, Florida Statutes, at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. The District shall include the School's enrollment when recording and reporting cost data by program. The District shall include the School's enrollment in the District's report of student enrollment. The School shall use the Sponsor's electronic data processing software system and procedures for the processing of student enrollment, attendance, FTE collection, assessment information, IEP's, ELL plans, 504 plans, and any other required individual student plan. The Sponsor will offer training to the School, and invite the School to any subsequent training for District staff, in the use of such system and procedures at no cost to the School. A representative of the School shall attend such training. The Sponsor shall provide the School with equal access to the Sponsor's student information systems that are used by traditional public schools in the District.

iii. If the School submits data relevant to FTE, Federal, or grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice

to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to challenge or appeal such audit findings. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

iv. The District agrees to fund the School for the students enrolled as if they are in a basic program or a special program in a District school in a manner fully consistent with Florida law. The basis of the funding shall be the sum of the District's operating funds from the Florida Education Finance Program (FEFP) as provided in section 1011.62, Florida Statutes, and the General Appropriations Act, including gross state and local funds, discretionary lottery funds and funds from the District's current operating discretionary millage levy, divided by the total funded weighted full-time equivalent students (WFTE) in the District; multiplied by the weighted full-time equivalent students for the School.

v. If the School's students or programs meet the eligibility criteria in law, the School shall be entitled to its proportionate share of categorical program funds included in the total funds available in the FEFP by the Legislature, including transportation, the research-based reading allocation, and the Florida digital classrooms allocation and any other funds made part of the FEFP by the Florida Legislature.

vi. Total funding for the School shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the School during the full-time equivalent student survey periods designated by the Commissioner of Education.

2. Millage Levy, if applicable

The District shall provide additional funding to the School via any applicable capital outlay or operating millage levied by the Sponsor as required by law

3. Fees to be Charged to the School By the District.

The Sponsor may charge the School an administrative fee in an amount not to exceed the maximum rate allowed under section 1002.33(20), Florida Statutes. Such fee shall be withheld ratably from the distributions of funds, defined in section 1002.33(17)(b), Florida Statutes, to be made to the School under this Charter. Such fee shall cover only those services provided by the Sponsor which are required to be covered under such statute. If the School requests services from the Sponsor beyond those provided for in statute, the Sponsor and the

School will enter into a separate written agreement approved by both parties.

The District shall provide the distribution of funds reconciliation simultaneously with each revenue disbursement to the School including any administrative and other fees and charges withheld.

4. Distribution of Funds Schedule

i. The Sponsor shall calculate and submit twelve (12) monthly or twenty- four bi-monthly payments to the account specified by the School. Each payment will be one-twelfth (1/12) or one twenty-fourth (1/24) of the funds described in Section 4.A.1., above, less the administrative fee set forth in Section 4.A.3, above. The first payment will be made by July 15 of the School's first year of operation. Subsequent payments will be made no later than the 15th of each month beginning with August 15.

ii. For each year of the Charter, monthly payments will be calculated as follows:

a. July through October payment shall be based on the School's Final Projected Enrollment as determined under the provisions of Section 3.F. of this Charter, if a minimum of 75 percent of the Final Projected Enrollment is entered into the Sponsor's Student Information System by the first day of the current month. Otherwise, or if the School's enrollment exceeds its Projected Enrollment, the Sponsor shall fund the School based on the number of students actually registered as of the first day of the month.

b. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year.

c. Payments will be adjusted retroactively for prior period adjustments.

iii. Payment shall not be made, without penalty of interest, for students in excess of the School facility's valid capacity as determined by the School's Certificate of Occupancy, Certificate of Use, or Fire Permit or in excess of the Annual Enrollment Capacity for the school year (whichever is less). In the event that the required county or municipality facility permits do not indicate a facility capacity, the School must submit a letter from the architect of record certifying the capacity of the facility.

iv. The Sponsor may withhold monthly payments, without penalty of interest, if the School's Certificate of Occupancy, Certificate of

Use, or Fire Permit has expired or has otherwise become invalid. The School shall notify the Sponsor immediately if any of the aforementioned documents has expired or become invalid. The Sponsor shall release, in full, all funds withheld under this provision when the School has cured the deficiency. Payments will not be withheld pending receipt of the School's Certificate of Occupancy, Certificate of Use or Fire Permit for its initial location or any subsequent location, so long as the School has met applicable statutory deadlines for obtaining such approvals.

Additionally, funding for the School shall be adjusted during the year as follows:

a. In the event of a state holdback or a proration, which reduces District funding, the School's funding will be reduced proportionately to the extent required by law.

b. In the event that the District exceeds the state cap for WFTE for Group 2 programs established by the Legislature resulting in unfunded WFTE for the District, then the School's funding shall be reduced to reflect its proportional share of any unfunded WFTE.

v. The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Charter, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant for payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued.

Payment shall be made to the account in a state-approved depository specified and approved by the Governing Board at a public meeting.

Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue:

i. The School's monthly/quarterly financial statement as

required by State Board of Education Rule 6A-1.0081, F.A.C.

ii. The School's annual financial audit as required by section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within 10 days of receipt of the documents that resulted in the withholding of funds.

B. Federal Funding

Pursuant to section 1002.33(17)(d), Florida Statutes, the Sponsor shall include the School in all requests for federal funds for which the School, or its students, is eligible, including without limitations, Title I, Title II, and IDEA funds. The Sponsor will provide copies of federal fund grant requests to the School no later than the date they are submitted to FDOE or a federal agency, as applicable.

Pursuant to section 1002.33(17), Florida Statutes, unless otherwise mutually agreed to by the School and Sponsor, and consistent with state and federal rules and regulations governing the use and disbursement of federal funds, the Sponsor shall reimburse the School on a monthly basis for all invoices submitted by the School for federal funds available to the Sponsor for the benefit of the School, the School's students, and the School's students as public students in the District. If the School elects to receive funds in lieu of services, the following provisions apply:

1. The Sponsor shall provide to the School by July 15 of each year, or at other times of the school year if other federal funds become available, a projected annual allocation for all federal funds, as described above, that the School may draw as reimbursement for services provided. The projected annual allocation shall be based upon the School's Final Projected Enrollment as provided for in 3.F. of this Charter or other data as applicable to the federal funds to be allocated.

2. The School shall provide to the Sponsor a plan that describes how the funds will be used in accordance with applicable federal requirements as required by law. The plan must include sufficient detail to allow review of the plan for compliance with applicable federal regulations. The Sponsor shall have 30 days to review and approve the plan. If the Sponsor deems the plan unacceptable, the Sponsor shall provide the School with written notice detailing the deficiencies and provide an opportunity to cure.

3. The School shall submit invoices by the 15th of each month to receive reimbursement for allowable expenses incurred during the prior month. The School shall maintain documentation of all expenditures in accordance with applicable law and provide to the Sponsor upon request. Expenditures shall be included in required monthly or quarterly financial statements.

4. The Sponsor shall reimburse the School within 30 days of receipt of the invoice. If

K. Notwithstanding anything to the contrary contained herein, through such indemnification set forth in Sections 8(H) and 8(J) above, the District and the School do not waive sovereign immunity to the extent sovereign immunity is available or beyond the limited waiver of sovereign immunity set forth in Section 768.28, Florida Statutes. In the event of any claims described in Sections 8(H) and 8(J) above, the School and Sponsor shall notify one another of any such claim promptly upon receipt of same. The School and Sponsor shall each have the option to defend such claims with their own counsel at the expense of the other party. If the Sponsor or School choose to not hire their own counsel to defend, the other party shall assume the defense of any such claim and have authority in the defense thereof. The parties' obligation to indemnify one another shall survive the termination of this Charter.

If, within a reasonable amount of time after receipt of notice of a third-party claim, the School or Sponsor fails to undertake to defend, the other party shall have the right, but not the obligation, to defend and to compromise or settle (exercising reasonable business judgment) the third-party claim for the account.

Any amendment to this Charter shall require approval of the Sponsor and the Governing Board.

D. No Assignment without Consent

This Charter shall not be assigned by either party without mutual written consent.

E. No Waiver

No waiver of any provision of this Charter shall be deemed or shall constitute a waiver of any other provision unless expressly stated. The failure of either party to insist in any one or more instances upon the strict performance of any one or more of the provisions of this Charter shall not be construed as a waiver or relinquishment of said term or provision, and the same shall continue in full force and effect. No waiver or relinquishment to any provision of this Charter shall be deemed to have been made by either party unless in writing and signed by the parties.

L. Conflict Between Charter and Florida Law

In any case where this charter conflicts with Florida law, the terms of the applicable Florida Statute, State Board Rule, or case law will control over the Charter.

M. Conflict or Dispute Resolution

Subject to the applicable provisions of section 1002.33, Florida Statutes, as amended from time to time, all disagreements and disputes relating to or arising out of this Charter which the parties are unable to resolve informally, may be resolved according to the following dispute resolution process, unless otherwise directed or provided for in the aforementioned statute. Nothing herein shall be construed to limit the Sponsor's ability to immediately terminate this Charter in accordance with section 1002.33(8)(c), Florida Statutes. It is anticipated that a continuing policy of open communication between the Sponsor and the School will prevent the need for implementing a conflict or dispute resolution procedure.

The following dispute resolution process, not otherwise pre-empted by section 1002.33, Florida Statutes, shall be equally applicable to both parties to this Charter in the event of a dispute. All disagreements and disputes relating to or arising out of this Charter which the parties are unable to resolve informally, may be resolved according to the following dispute resolution process:

Step 1 -- The persons having responsibility for implementing this Charter for the grieving party will write to the other party to identify the problem, propose action to correct the problem and explain reasons for the proposed action.

Step 2 -- The person having responsibility for implementing this Charter for the other

party will respond in writing within fifteen (15) calendar days, accepting the proposed action or offering alternative solution(s) to the problem. A meeting of representatives of the parties may be held to reach agreement on the solution and subsequent action.

Step 3 -- Upon resolution of the problem, the responsible personnel from both parties will develop a joint written explanation indicating the resolution. This document will be retained with this Charter. If an amendment to the Charter is necessary, the amendment will be submitted for action by both parties.

Step 4 -- If efforts at agreement within a reasonable time are unsuccessful, the parties may have recourse to their available legal remedies, including, without limitation, mediation through the FDOE or those additional remedies set forth in section 1002.33(7)(b), Florida Statutes.

N. Citations

Whenever a Florida Statute or State Board of Education Rule is referenced in this Charter, it shall be construed to mean the statute or rule as it is amended from time to time.

The Sponsor's policies will not control this Charter or be incorporated herein absent written consent of the Governing Board, as provided by Florida law, unless the School agreed to such policies in the approved Application or otherwise agreed to by the Governing Board in writing.

If the Sponsor subsequently amends any agreed-upon Sponsor policy the version of the policy in effect at the time of the execution of the charter, or any subsequent modification thereof, shall remain in effect and the Sponsor may not hold the School responsible for any provision of a newly revised policy unless the revised policy is mutually agreed upon.

Upon the Sponsor's revision of a mutually agreed upon Sponsor policy, the Sponsor shall provide written notification to the School and Governing Board. The written notification shall include the revised policy and shall allow the Governing Board 45 days to reject the revised policy. If the Governing Board does not provide written notice of its rejection of the policy, the revised policy is deemed accepted by the Governing Board. If the Governing Board rejects the revised policy it shall remain bound by the policy as it existed at the time the Governing Board agreed to it.

O. Interpretation

The headings in the Charter are for convenience and reference only and in no way define, limit or describe the scope of the Charter and shall not be considered in the interpretation of the Charter or any provision hereof. This Charter is the product of negotiation between the parties and therefore the terms of this Charter shall not be construed against either party as the drafter.

IN WITNESS WHEREOF, the parties hereto have executed this Charter, effective as of the day and year first above written:

School Board of Manatee County
May 14, 2024 - Regular Board Meeting
Action Item

Title
Approval of Request to Declare Surplus and Dispose of District Vehicles (Possible Incoming Funds to General Fund)

Executive Summary
Schools and departments have reported various items as obsolete, traded in on new equipment, unaccounted for, used for parts or stolen, and have requested the items be disposed of.

School Board of Manatee County Policy No 7320 - Sale, Transfer or Disposal of Real or Tangible Personal Property, outlines the procedures to be followed in the acquisition, supervision, accountability, control, transfer and disposal of the District's property.

Items are declared surplus in order to remove them from inventory accountability at the present cost center and dispose of them as provided for in Florida Statute 274. Disposition may involve any of the following; sale by public auction, sale or transfer to another governmental entity, scrap for reusable parts, recycled, donation to a School Board designated receiver, or abandonment at a public landfill.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready To Grow | Goal 5
Continue our secure financial position, utilize referendum millage funds effectively, and modernize and enhance our current schools to meet our school community needs, including building vibrant, new schools

Recommendation
The Superintendent recommends the approval of request to declare surplus and dispose of District vehicles. (Possible Incoming Funds to General Fund)

Financial Impact
There is no cost to the General Fund. All assets have fully depreciated. Any revenue generated through auction and/or recycling will be placed in the District's General Fund.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

I. Sovereign Immunity: Affiliate acknowledges and agrees that District does not waive its immunity and nothing herein, including the naming of District as an additional insured, shall be interpreted or deemed as a waiver of District's rights, including the limitation of waiver of immunity, as set forth in Section 768.28, Florida Statutes, or any other statutes, and District expressly reserves these rights to the full extent allowed by law. All defenses relative to sovereign immunity are expressly reserved by District

FROM: Rachel Sellers, Deputy Superintendent of Business Services

SUBJECT: Certification of Monthly Bank Reconciliation (03/31/2024)

As a response to Audit Finding 2019-001, Finance staff developed the following internal control enhancement: District staff will complete monthly bank reconciliations, and a review with accounting staff will occur on the third Monday of every month, chaired by the Deputy Superintendent of Business Services. At completion of the monthly reconciliation review, the Deputy Superintendent of Business Services will certify the completion of the reconciliation to the Superintendent.

Also available (upon request) are the cash ledger and bank statement summaries that support the "book" and "bank" amounts in the reconciliation, and also screenshots, from the PeopleSoft Treasury module, proving that the March 31, 2024 book-to-bank reconciliation has been completed, with $0 variance.

Title
Quarterly ESSER Report for Period Ending March 31, 2024

Executive Summary
The Elementary and Secondary School Emergency Relief (ESSER) Fund was established as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act in March 2020. The CARES Act provided direct funding to State Education Agencies (SEA) and Local Education Agencies (LEA) to address the impact of COVID-19 on elementary and secondary schools.

The Elementary and Secondary School Emergency Relief (ESSER II) funds under the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act are provided to Local Educational Agencies (LEAs) to address the impact that the Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools in Florida. This includes helping school districts and other LEAs safely reopen schools, restore and maintain high-quality learning environments, measure and effectively address significant learning loss, and take other actions to mitigate the impact of COVID-19 on the students and families who depend on our K-12 schools. All expenditures must align to programmatic, fiscal and reporting assurances put forth by the CRRSA Act.

On March 11, 2021, the American Rescue Plan (ARP) Act was signed into law. In it, the U.S. Department of Education is providing an additional $121.9 billion for the Elementary and Secondary School Emergency Relief Fund (ARP ESSER Fund). This legislation awards grants to state educational agencies for providing school districts with emergency relief funds to address the impact of COVID-19. Ninety percent will be awarded to school districts. The remaining funds will be used for state-level activities to address issues caused by COVID-19.

Attached is the District's Quarterly ESSER Report for the period ending March 31, 2024.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready to Grow | Goal 5
Continue our secure financial position, utilize referendum millage funds effectively, and modernize and enhance our current schools to meet our school community needs, including building vibrant, new schools

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement
