- Priority Area 2: Employee Retention and Wellness and Goals

AVID Summer Bridge: "Shark Tank" Challenge

Your Mission: You are an inventor! Your job is to **create an original product**, explain why people need it, and **pitch your idea** like on *Shark Tank*.

What is the "Why" behind doing this project?

- Help you become a strong thinker, speaker, and creator.
- In high school and beyond, you will need to share ideas, solve problems, and be familiar with how to use technology.
- COLLABORATION
- Effective use of WICOR and AVID strategies.

Instructions

Step 1: Brainstorm Your Idea

Think about a problem people have in everyday life.

Ask yourself:

- What is something that annoys people?
- What is something that could be easier, faster, or more fun?
- What would make school, home, or life better?

Your product should solve a problem!

Step 2: Design Your Product

You will NOT build a physical model—instead, you'll create a **digital version**.

Choose ONE way to show your product visually:

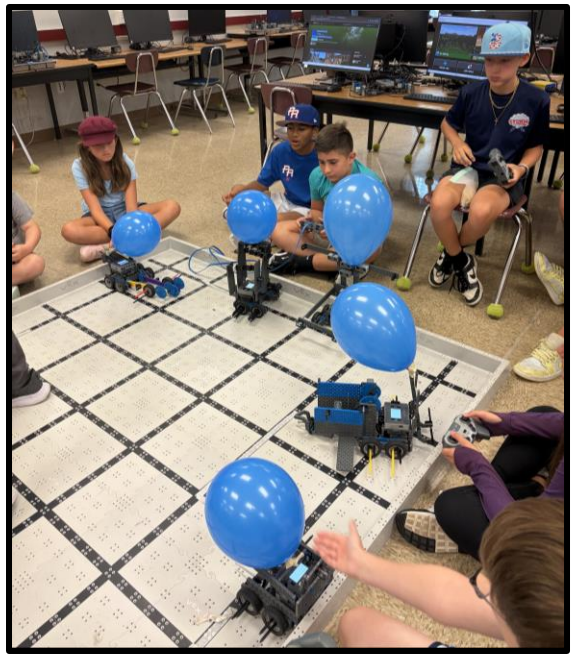

- Create a drawing using Google Slides, Canva, or PowerPoint
- Use a digital drawing tool (like Sketchpad or Jamboard)
- Find and combine images online (like a collage/mockup)
- Use AI/art tools (if allowed) to generate your idea

Your visual should show: What your product looks like & how it works!

AGENDA ITEM NO. 10.2

School Board of Manatee County
July 21, 2026 - Regular Board Meeting and Public Hearing
Action Item

Title
Approval to Apply, Accept, and Expend the 2026-2027 Adult Education Grant Applications for Adult General Education in the Amount of $628,242.00 and 2026-2027 Integrated English Literacy and Civics Education in the Amount of $118,369 (Incoming Grant Funds)

Executive Summary
The Florida Department of Education (FDOE), Division of Career and Adult Education, is awarding multi-year grants on a competitive basis to develop, implement, and improve adult education and literacy in Florida for a four-year grant cycle, with 2026-2027 as the first year. As such, the School Board is submitting a consolidated application for both grants:

- Adult General Education (AGE) (AEFLA Section 231) and
- Integrated English Literacy and Civics Education (IELCE) (AEFLA Section 243)

Funding for these discretionary grant dollars is authorized by the Adult Education and Family Literacy Act (AEFLA); Federal Grant Programs Title II, Workforce Innovation and Opportunity Act (WIOA).

If the School Board of Manatee County is awarded the full allocations for Manatee County, it will provide Manatee Adult Education with $628,242.00 for the AGE and $118,369.00 for the IELCE grant projects. Adult Education, literacy, and workforce development activities will take place at Manatee Technical College.

Copies of the 2026-2027 Adult General Education (AGE) and 2026-2027 Integrated English Literacy and Civics Education (IELCE) Grant Applications are attached for review.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready For Life | Goal 9
Advance career-centered programs across the District to provide quality post-high school education and employment opportunities

Recommendation
The Superintendent recommends approval to apply, accept, and expend the 2026-2027 Adult Education Grant Applications for Adult General Education in the amount of $628,242.00 and 2026-2027 Integrated English Literacy and Civics Education in the amount of $118,369.00 (Incoming Grant Funds).

Financial Impact
No cost to General Fund. All activities under this grant are funded by federal AEFLA dollars at no material expense to the District. This grant will bring the district up to $628,242.00 for AGE and $118,369.00 for IELCE grant projects for the period July 1, 2026, to June 30, 2027. There is no significant difference in this grant budget from last year; it includes salary and benefits for part-time teachers, partial salary and benefits for career counselors, teacher/counselor professional development activities, instructional software, hardware, and indirect costs to cover District-level grants accounting and finance related to this project.

Note: Funding is contingent upon the availability of funds from the United States Department of Education (USDOE).

- Allocations are subject to change, based on Florida's federal award notification or any adjustments made to the allocation by USDOE.
- The Commissioner may recommend an amount greater or less than the amount requested in the proposal.

Narrative Questions
Required for all AGE, Corrections and IELCE Proposals

Section 1: Needs Assessment and Responsiveness to Regional Needs
Maximum Points 39

A. Local Needs Assessment (9 points)

1. Describe the labor market needs identified in your Local Workforce Development Board (LWDB) plan and provide data sources. How will your program address these needs?

The CareerSource Suncoast (CSS) 2025–2028 Local Workforce Development Board (LWDB) Plan and Regional Needs Assessment identify healthcare and construction as priority industry sectors in Workforce Development Area 18. The 2025–26 Regional Demand Occupations List (RDOL) includes several high-demand occupations, such as Transportation, Storage, and Distribution Managers; Mechanical Engineering Technologists and Technicians; and Heavy and Tractor-Trailer Truck Drivers. Regional workforce data and employer feedback indicate ongoing challenges in recruiting workers with both technical and employability skills. Common skill gaps include communication, reliability, leadership, mathematics, information technology, and workplace readiness. Manatee Adult Education addresses these needs through Adult Basic Education (ABE), GED preparation, English for Speakers of Other Languages (ESOL), workforce preparation activities, and Integrated Education and Training (IET) programs. These services help participants build foundational academic skills, English language proficiency, digital literacy, and workforce competencies needed for employment and career advancement. To support regional workforce priorities, the program aligns career pathways and IET opportunities with high-demand industries identified by LWDB Region 18, including healthcare, manufacturing, transportation and logistics, construction, and education. Partnerships with CareerSource Suncoast, employers, community organizations, and postsecondary providers help

connect students to career exploration, workforce services, occupational training, and supportive resources that lead to credential attainment and employment opportunities.

2. Describe the community demographics of the geographic area, including the number of individuals who are English language learners and/or who lack a high school diploma or equivalent. At a minimum, applicants must use **American Community Survey (ACS)** data, specifically the **Educational Attainment** and **Ability to Speak English** data sets, and **High School Graduation Rates** to substantiate the size and scope of the population within their service area that can benefit from adult education instructional services. Applicants may include additional federal, state or local data sources to further support their response.

Demographics indicate a significant need for adult education, particularly among English language learners, individuals without a secondary credential, and those facing economic barriers. The ACS also reports that 16.7% of residents are foreign-born, underscoring the need for English-language and workforce integration services.

According to the ACS Ability to Speak English data (Table S1601), 23.1% of Manatee County residents aged 5 and older speak a language other than English at home, totaling about 92,254 people. Spanish is the most common language after English, at 15.1%. Additionally, 8.7%, or 38,149 individuals, speak English less than "very well."

According to ACS Educational Attainment data (Table S1501), approximately 8.5% of adults aged 25 and older have not earned a high school diploma or equivalent, including 3.8% with less than a ninth-grade education and 4.7% who attended grades 9 through 12 without earning a diploma.

The Florida Department of Education reports Manatee County's four-year graduation rate was 85.7% in 2023-24. Although outcomes are improving, some students don't complete K-12 and may later pursue adult education or credentials. Demographic and economic indicators highlight barriers to educational and workforce participation.

ACS data show 9.6% of county residents, over 38,000 people, live below the poverty level. Economic challenges such as limited resources, transportation, childcare, and access to technology may hinder participation in education and training. These issues highlight the need for support services that help adult learners enroll, persist, and complete programs. Manatee Adult Education Program addresses community needs by offering ABE, GED prep, ESOL, IELCE, IET, workforce activities, and transition services aligned with local workforce demands.

3. Describe how the program will recruit and serve individuals in the community most in need of literacy services, including individuals who have multiple barriers to employment.

Recruitment is through the school website. The school website has a feature that allows it to be translated into different languages. Social media, the district website, community events, career fairs, local media, and referrals from community organizations, schools, employers, libraries, Goodwill Manasota, and CareerSource Suncoast.

Through partnerships with CareerSource Suncoast and community agencies, prospective students are connected to adult education, workforce preparation, career pathways, and support services. Once enrolled, participants receive instruction through Adult Basic Education (ABE), GED® preparation, English for Speakers of Other Languages (ESOL), Integrated English Literacy and Civics Education (IELCE), and Integrated Education and Training (IET) programs. Students also have access to advising, career exploration, workforce preparation activities, transition services, and referrals to supportive services that help reduce barriers to participation and employment.

B. Alignment and Partnership with Local Workforce Development Board (LWDB) Plan (21 points)

1. Describe how your program coordinates with your local CareerSource delivery systems to provide access to adult education and literacy activities.

Manatee County Adult Education Program partners with CareerSource Suncoast as a local One-Stop delivery system, linking participants to employment, training, and career advancement resources. The program uses the CareerSource Suncoast Crosswalk referral system to coordinate services and connect students with workforce and community supports. Counselors make confidential referrals to CareerSource Suncoast and partner agencies for workforce assistance, housing, transportation, counseling, mental health services, substance abuse treatment, and other wraparound supports. Adult Education counselors work directly with students to identify barriers to education and employment, facilitate Crosswalk referrals when appropriate, and provide individualized guidance throughout the referral process to help students access services that address personal, educational, and workforce needs. CareerSource Suncoast representatives are available with an office on campus to provide information on workforce services, employment opportunities, career exploration, training resources, and supportive services offered through the One-Stop delivery system. The Adult Education Program and CareerSource Suncoast also collaborate on workforce development activities including job fairs, career fairs, hiring events, and community outreach that connect students and CTE participants with employers and workforce opportunities.

2. Describe how your adult education and literacy program coordinates and promotes concurrent enrollment in programs and activities under Title I through the local CareerSource center(s) in your region.

Manatee Adult Education Program partners with CareerSource Suncoast to promote and support concurrent enrollment in Title I programs and activities, expanding access to workforce development services and career opportunities for adult learners. Adult Education counselors inform students about available CareerSource services, identify co-enrollment opportunities based on educational and employment goals, and encourage eligible students to participate in both adult education and workforce programs.

Concurrently enrolled students may access career counseling, employment services, occupational training, labor market information, supportive services, and workforce preparation activities while participating in ABE, GED preparation, ESOL, IET, and workforce preparation programs. CareerSource Suncoast representatives regularly meet with students on campus to provide information regarding Title I services in career exploration, training opportunities, and employment resources. Through coordinated referrals, co-enrollment opportunities, and ongoing collaboration, we support educational attainment, workforce readiness, credential attainment, employment, and career advancement while advancing regional workforce development priorities.

3. Describe the status of your agency's Memorandum of Understanding (MOU) with the Local Workforce Development Board and how it outlines roles, responsibilities and cost-sharing for CareerSource operations.

The School District of Manatee County maintains a three-year Memorandum of Understanding (MOU) with CareerSource Suncoast and required workforce partners for July 1, 2023–June 30, 2026; the agreement remains in effect and is scheduled for renewal. The MOU, aligned with the CareerSource Suncoast Local Workforce Development Board (LWDB) Plan and the One-Stop delivery system, clarifies partner roles and promotes coordinated service delivery across

communication, referrals, recruitment, workforce development, and regional collaboration. CareerSource Suncoast provides workforce development services, career counseling, labor market information, employment assistance, training opportunities, supportive services, and job placement assistance. The MOU is supported by an Infrastructure Funding Agreement (IFA) that assigns shared responsibility for One-Stop Career Center infrastructure and operating costs; under the IFA, the School District provides office space at Manatee Technical College including furniture, computers, utilities, and telecommunications while CareerSource delivers workforce services and supports that bolster student success and workforce readiness.

4. Explain how your program utilizes AEFLA funds, as appropriate, to support the shared costs of operating the CareerSource system (e.g., infrastructure costs) in alignment with agreements established by the Local Workforce Development Board (LWDB).

Manatee Adult Education Program participates in the CareerSource Suncoast One-Stop delivery system through a Memorandum of Understanding (MOU) and Infrastructure Funding Agreement (IFA) with the Local Workforce Development Board and required workforce partners. These agreements establish shared responsibilities for infrastructure and operating costs based on partner use and benefit.

AEFLA-funded activities support the integrated delivery of adult education and workforce services by providing ABE, GED preparation, English Language Acquisition, IELCE, workforce preparation activities, and IET. The district contributes shared resources, including office space, furniture, computers, utilities, and telecommunications at Manatee Technical College, supporting access to workforce services and coordinated service delivery.

5. Explain how your agency participates in the ongoing operations of the CareerSource system in accordance with the terms of the MOU and WIOA requirements.

Manatee Adult Education Program participates in the CareerSource Suncoast One-Stop delivery system in accordance with the Memorandum of Understanding (MOU), Infrastructure Funding Agreement (IFA), and Workforce Innovation and Opportunity Act (WIOA) requirements. As a required workforce partner, the program coordinates education, workforce development, and support services to help individuals achieve educational and employment goals.

Adult Education counselors utilize the Crosswalk referral system to connect students with CareerSource Suncoast services, supportive resources, and Title I co-enrollment opportunities. The Adult Education Program also collaborates with them through workforce development activities, employer engagement, career fairs, and community outreach initiatives that connect students with education, training, and employment opportunities. Through ongoing coordination, referral processes, and resource sharing, the program supports the goals of the Local Workforce Development Board and strengthens access to workforce services throughout the region.

6. Describe how your agency ensures appropriate representation in collaboration with the State Board of Education and other state-level workforce partners, as required.

The program implements WIOA and FLDOE Division of Career and Adult Education policies, procedures, and program requirements to remain aligned with state and federal workforce priorities. Staff participation in FLDOE activities keeps the program current on policy, accountability, measurable skill gains, credential attainment, Integrated Education and Training (IET), Integrated English Literacy and Civics Education (IELCE), and other WIOA initiatives, and provides opportunities to share promising practices. Collaboration with CareerSource Suncoast and partners via the Memorandum of Understanding (MOU), Infrastructure Funding Agreement (IFA), referral processes, workforce development activities, and co-enrollment supports coordinated service delivery, career pathway development, and access to education,

training, employment, and supportive services for individuals with barriers to employment. The district complies with all state and federal reporting, accountability, and performance measures including enrollment, measurable skill gains, credential attainment, and other WIOA indicators using state reporting systems and data to monitor performance, drive continuous improvement, and ensure compliance.

C. Local Collaborative Partnerships (9 points)

1. Describe any cooperative arrangements your program has with agencies, institutions or organizations to support the delivery of adult education and literacy activities (e.g., sharing facilities, staff, referrals or services).

The program maintains an active Memorandum of Understanding (MOU) with CareerSource Suncoast, effective July 1, 2023, through June 30, 2026, and is currently working to renew the agreement for the next four-year grant cycle. Through this partnership, they maintain an office at Manatee Technical College and provide on-campus access to workforce services, career counseling, employment assistance, training resources, and supportive services. A representative is available regularly to assist students with workforce-related needs and connect them with community resources. The Adult Education Program and CareerSource Suncoast coordinate referrals, workforce activities, career exploration, and supportive services to help students reach educational and career goals. They also work with postsecondary institutions, community agencies, and workforce partners to support student transitions, referrals, and access to educational and support services, enhancing adult education and literacy outcomes.

2. Explain how your program coordinates with other available education, training and social service resources in the community to strengthen career pathways. Include examples of partnerships with K–12 schools, postsecondary institutions, CareerSource centers, job

> training programs, social service agencies, businesses, industry groups, labor organizations, community-based or nonprofit organizations and other intermediaries.

Through the partnership with CareerSource Suncoast and other Workforce Innovation and Opportunity Act (WIOA) partners, students have access to workforce services, career counseling, employment assistance, and training opportunities., supportive services, and coordinated referrals through the Crosswalk referral system.

Within the School District, the program works with K–12 schools and district departments to assist with recruitment, student transitions, family literacy activities, and crafting educational pathways that encourage lifelong learning and prepare students for the workforce. Adult Education programs and services are highlighted via district websites, outreach efforts, community events, career fairs, and job fairs to boost awareness and improve access to educational opportunities.

The program partners with State College of Florida to support career pathways, Integrated Education and Training (IET) opportunities, postsecondary transitions, and the attainment of industry-recognized credentials. Articulation agreements with State College of Florida facilitate seamless transitions into postsecondary degree and credential programs aligned with local workforce needs. To overcome barriers to persistence and completion, the program partners with community resources, including Vocational Rehabilitation, Division of Blind Services, Goodwill Manasota, Lutheran Services Florida, and other community groups, to provide disability support, childcare, housing resources, employment assistance, mental health services, and comprehensive wraparound services. Employers and industry partners enhance career pathway efforts by sharing

labor market data, serving on advisory boards, assisting with program development, participating in career and job fairs, and hiring program graduates.

Section 2: Demonstrated Effectiveness and State Performance Targets

E. Performance Accountability and Data Collection (36 points)

Describe how the eligible provider will meet or exceed the State-adjusted levels of performance for the primary indicators of performance identified in Florida's Combined State Plan under WIOA Section 116 by answering the questions below.

State-Adjusted Levels of Performance

2025 State Performance Targets Minimum Performance Levels for Florida Adult Education Programs	
Measurable Skill Gain	35.7%
Credential Attainment	21.8%
Employment (Second Quarter After Exit)	31.0%
Employment (Fourth Quarter After Exit)	28.2%
Median Earnings	$5,840
Post-Test Rate	70%

E1. Performance Accountability

1. Describe the program's past effectiveness, supported by the data provided in the Past Performance table, in improving the literacy of eligible individuals to meet the state's performance levels, especially with respect to eligible individuals who have low levels of literacy.

Manatee County Adult Education Program has effectively improved literacy, education, and workforce outcomes for eligible individuals, including those with low literacy, as shown in the Past Performance table. During 2023-24 and 2024-25, the program exceeded Florida's MSG target of 35.7%, with rates of 43.68% and 47.84%, respectively. These results show its success in helping adult learners enhance literacy, math, English skills, and workforce readiness.

The program supports diverse adult learners, including those with lower levels of education, no secondary credentials, English learners, and those with employment barriers. Using evidence-based teaching, standards-aligned curriculum, tailored instruction, and ongoing assessment,

students improve academically and progress toward their goals. The program notably succeeds with English learners, with skill gain rates of 51.92% in 2023-24 and 54.21% in 2024-25.

The program has also demonstrated positive workforce outcomes. During Program Year 2024-25, the employment rate in the second quarter after exit was 37.23 percent, exceeding Florida's target of 31.0 percent. The employment rate in the fourth quarter after exit was 33.50 percent, exceeding the state target of 28.2 percent. Participants achieved median earnings of $8,145, significantly exceeding the state target of $5,840. These outcomes demonstrate the program's effectiveness in preparing adult learners for employment, career advancement, and economic self-sufficiency.

These results are supported by high-quality instruction, ongoing progress monitoring, career-pathway opportunities, workforce preparation activities, academic advising, career counseling, and strong partnerships with CareerSource Suncoast and community organizations. Through continuous performance monitoring and targeted student support, Manatee Adult Education Program remains committed to improving literacy outcomes and helping adult learners achieve educational, employment, and economic success.

2. Describe how the program's instructional design, recruitment strategies, and student support services are aligned to achieve performance outcomes in measurable skill gains (MSG), credential attainment, employment, and median earnings.

Manatee County Adult Education Program aligns instructional design, recruitment, and student support to promote measurable skill gains (MSG), credential attainment, employment, and increased earnings. Using an integrated model of evidence-b

d instruction, targeted outreach, career pathways, and comprehensive supports, the program creates multiple pathways to student success. Instruction follows the Florida Adult Education Standards and is offered face-to-face, hybrid, and online to maximize access and persistence. Instruction is differentiated using CASAS and TABE pre- and post-tests, along with ongoing formative and summative assessments. Instructors analyze assessment data to guide instruction, provide timely feedback, implement targeted interventions, and support MSG and educational advancement.

The program uses research-based curricula including Aztec Software for ABE, GED® prep, and Burlington English for English learners, combining academics with workforce readiness to support credentialing, postsecondary transition, employment, and higher earnings. Supplemental resources reinforce literacy, math, communication, workforce prep, and employability skills. Recruitment targets those most in need: English learners, adults without secondary credentials, low-income individuals, unemployed and underemployed adults, and those with employment barriers. Outreach via the School District website, CareerSource referrals, community agencies, employers, events, and workforce activities, with website translation for accessibility.

Counselors provide academic advising, career counseling, transition planning, and referrals. Partnerships with organizations connect students to employment, training, and support services, reducing barriers. Students are encouraged to shift into Manatee Technical College CTE, postsecondary education, or workforce training for industry credentials and high-demand jobs.

3. Describe how the program will use data to monitor progress toward meeting State-adjusted levels of performance for the primary indicators under WIOA Section 116, including measurable skill gains, credential attainment, employment and median earnings.

Manatee Adult Education employs a data-driven, ongoing improvement process to track progress toward Florida's State-adjusted performance targets under WIOA Section 116, including measurable skill gains (MSG), credential attainment, employment, and earnings. Outcomes are monitored via Campus Solutions, FDOE surveys, NRS, CASAS data, and WEDS reports. CASAS scores are imported daily into Campus Solutions for timely student progress monitoring.

Career Counselors, instructors, and program staff use attendance, assessment, post-test, MSG, credential attainment, and workforce outcome data to monitor student achievement and identify students who may require additional support. When students earn a Learning Completion Point (LCP), the State Reporting Specialist notifies the Career Counselor, who meets with the student to review progress, discuss educational and career goals, and update educational plans as needed. Data-informed interventions may include tutoring, schedule modifications, instructional adjustments, referrals to support services, workforce training opportunities, and postsecondary transition planning.

Program performance data are reviewed throughout the year, with quarterly reviews conducted to analyze trends, identify performance gaps, evaluate outcomes, and guide instructional practices, professional development, recruitment strategies, and student support services. Employment and median earnings outcomes are reviewed using state and federal performance reports and collaboration with CareerSource Suncoast.

To ensure data quality and compliance, the program follows established verification and reporting procedures through Campus Solutions, WDIS verification processes, and FDOE reporting systems. The State Reporting Specialist reviews validation, error, and exception reports to ensure accurate reporting and compliance with state requirements. Adult Education data are

regularly reviewed by program leadership and records staff to identify opportunities for improvement and strengthen program effectiveness. Through ongoing performance monitoring, data analysis, and targeted interventions, the program uses data to drive decision-making and support continuous improvement.

4. Explain how your program will plan for addressing underperformance if any indicator falls below the state target.

Manatee Adult Education applies a continuous improvement process to address underperformance when any State-adjusted performance indicator falls below target. Program administrators, instructors, Career Counselors, and support staff review performance data to identify trends, determine contributing factors, and implement corrective actions. When underperformance is identified, the program analyzes attendance, assessment and post-test results, measurable skill gains (MSG), credential attainment, employment outcomes, and median earnings to determine areas requiring improvement. Improvement strategies are tailored to the specific indicator. For low MSG performance, the program reviews instructional practices, assessment schedules, post-testing procedures, and student persistence. For low credential attainment, the program strengthens GED® completion efforts, career counseling, transition planning, and pathways into career and technical education programs. For employment and median earnings outcomes, the program collaborates with CareerSource Suncoast and workforce partners to strengthen workforce preparation activities, career pathways, employment services, and job placement support. Targeted interventions may include tutoring, instructional modifications, enhanced advising and counseling, strengthened transition planning, improved post-testing procedures, and referrals to workforce and community support services. Professional development is also used to address identified needs through training on assessment practices,

differentiated instruction, data-informed decision making, Florida College and Career Readiness Standards, and Integrated Education and Training (IET).

Following implementation of corrective actions, program staff monitor performance data and evaluate outcomes to determine the effectiveness of interventions and make additional adjustments as needed. This process supports continuous improvement and helps ensure progress toward meeting or exceeding Florida's State-adjusted performance levels under WIOA Section 116.

E2. Data Collection

5. Describe the agency's data management information system and practices for each of the following:
    a. How student attendance records are tracked.

Student attendance is recorded in the Campus Solutions Data Management System (CS DMS), used across all Adult Education programs. Instructors must record attendance for traditional, hybrid, and online courses to meet district and state requirements; the system captures attendance data and contact hours for monitoring participation, persistence, eligibility, and reporting. Staff generate attendance reports to track trends and contact hours, helping instructors, Career Counselors, and administrators identify concerns and monitor persistence. Role-based security restricts access to authorized personnel. Administration reviews attendance data, with the Assistant Director monitoring reports for anomalies, concerns, and barriers to success.

    b. How student pre- and post-assessments are tracked and verified.

Student pre- and post-assessments are tracked and verified through the Campus Solutions Data Management System (CS DMS) and administered in accordance with the Manatee Technical College Adult Education Assessment Manual, Florida Department of Education (FDOE)

requirements, and test publisher guidelines. All Adult Education students complete state-approved assessments, including CASAS and TABE, to determine educational functioning levels, instructional placement, and progress toward measurable skill gains.

New students are pre-tested to determine educational functioning levels and instructional placement, while continuing students may be placed using valid assessment scores within allowable state testing windows. Campus Solutions reports and queries identify students who have met required instructional hours for post-testing. Testing personnel review and verify eligibility in accordance with FDOE and test publisher requirements and coordinate post-testing with instructors and students.

All assessments are administered by trained testing personnel and entered into Campus Solutions. Assessment records undergo established verification and quality-assurance procedures to ensure accuracy for state and federal reporting. Assessment results measure educational progress, support measurable skill gains, guide instructional planning, and support NRS reporting and WIOA performance requirements.

These procedures ensure pre- and post-assessments are accurately tracked, verified, and reported in compliance with FDOE and NRS requirements.

c. How student outcomes are tracked, including measurable skill gains, credential attainment, and employment outcomes.

Student outcomes are tracked through the Campus Solutions Student Information System (SIS), Florida Department of Education (FDOE) reporting systems, National Reporting System (NRS) reports, and workforce outcome reporting processes. Manatee Adult Education uses established business processes to monitor measurable skill gains (MSG), credential attainment, employment

outcomes, and other state and federal performance indicators. CASAS assessment scores are imported into Campus Solutions daily to support monitoring of student progress and MSGs. Learning Completion Points (LCPs), assessment results, and other student performance measures are recorded and reviewed to track educational progress. Credential attainment, including GED® completion, industry certifications, licensures, and other credentials of value, is documented in student records, tracked in Campus Solutions, and reported through FDOE reporting processes.

Employment outcomes are monitored through state and federal reporting systems and workforce outcome data. Staff review employment in the second and fourth quarters after exit, as well as median earnings, to evaluate workforce preparation and employment outcomes. Collaboration with CareerSource Suncoast and other workforce partners supports employment tracking and student workforce transitions. Campus Solutions, NRS, and FDOE performance reports are reviewed regularly by program leadership, the State Reporting Specialist, Career Counselors, and instructional staff to monitor outcomes, identify trends, and support continuous improvement. Through ongoing tracking and reporting of MSGs, credential attainment, and employment outcomes, the program maintains compliance with state and federal reporting requirements while supporting student success.

d. How student and program data are provided to teachers and staff to improve instruction and ensure program effectiveness.

Student and program performance data are routinely shared with instructors, Career Counselors, program administrators, and other authorized staff through reports in the Campus Solutions Student Information System (SIS). These reports include attendance, measurable skill gains (MSG), Learning Completion Points (LCPs), post-testing, credential attainment, enrollment trends, and other outcomes. Instructors and Counselors use this data to identify learning needs,

monitor progress, evaluate effectiveness, differentiate instruction, and provide targeted support. The Adult Education Program conducts quarterly reviews to analyze outcomes, identify gaps, evaluate progress toward performance measures, and develop strategies to improve achievement, retention, post-testing, credential attainment, and workforce outcomes. Data guides professional development, instructional planning, program modifications, and student support. Leadership reviews results to assess effectiveness, identify improvements, and ensure alignment with FDOE, NRS, and WIOA requirements. Regular review and sharing of data support data-driven decisions and ongoing improvement.

e. How the agency ensures data collection, privacy, and quality in compliance with federal and state reporting requirements.

Data Collection: Manatee Adult Education uses the Campus Solutions Data Management System (CS DMS) as its primary student information system to collect and maintain student data such as admissions, assessment results, enrollment, attendance, grades, skill gains, credential attainment, and other info for state and federal reports. It supports reporting requirements by FDOE, NRS, and WIOA.

Privacy: Campus Solutions uses role-based security to restrict student info access to authorized staff like instructors, counselors, and administrators, in line with FERPA, federal/state laws, and Manatee County policies.

Data Quality: The State Reporting Specialist (SRS) manages data accuracy, completeness, and integrity. Campus Solutions includes a Workforce Development Information System (WDIS) verification process, allowing staff to review attendance, enrollment, assessment, and outcome data before submission to Florida State Reporting (FSR). Before FDOE survey submissions, data

are checked via the Florida Data Quality (DQ2) system. The SRS reviews error, validation, and exception reports to ensure accuracy. After submission, Workforce Education Data System (WEDS) reports are analyzed to assess performance and verify data. Using verification procedures, role-based security, DQ2 validation, WEDS analysis, and SRS oversight, the program ensures accurate, secure, and compliant reporting.

f. How data is used for continuous program and system improvement.

Adult Education data from local, state, and federal reports help improve programs. Leadership, including the Adult Education Director, Program Supervisor, Campus Solutions Manager, Records Coordinator, and Student Records and Accreditation Coordinator, review data to assess effectiveness, monitor student outcomes, spot trends, and inform decisions. Key performance indicators like enrollment, attendance, measurable skill gains (MSG, Learning Completion Points (LCPs), credentials, post-testing, and employment are analyzed to identify strengths, gaps, and improvements. Recommendations on operations, data collection, reporting, and outcomes are reviewed and implemented. The Campus Solutions Leads Team meets biweekly to handle reporting, system upgrades, data trends, and issues, also participating in WEDDAC meetings to stay updated on state requirements and best practices. Insights from these activities are used to enhance compliance and program quality. Data guides planning, professional development, student support, recruitment, assessment, and transitions to postsecondary education and employment. Ongoing analysis and data-driven strategies support continuous improvement of instruction, operations, and student results.

g. How data is shared with LWDB partners (e.g., CareerSource, Vocational Rehabilitation) to support coordinated service delivery and strategic improvements.

Manatee Adult Education shares student data with Local Workforce Development Board (LWDB) partners and other workforce system partners through established data-sharing agreements, FERPA-compliant releases, referral processes, and collaborative service-delivery systems that comply with Family Educational Rights and Privacy Act (FERPA), Florida Department of Education requirements, and district confidentiality policies.

Through the CareerSource Suncoast Crosswalk referral system, Adult Education staff coordinate referrals and services with workforce and community agencies, connecting students to employment services, workforce training, supportive services, transportation assistance, housing resources, disability services, and other community-based supports. Career Counselors, instructors, and program staff use referral and outcome information to coordinate services, reduce duplication, and address barriers affecting persistence, credential attainment, employment, and career advancement.

The program collaborates regularly with CareerSource Suncoast, Vocational Rehabilitation, postsecondary institutions, community-based organizations, and other workforce partners to review student needs, workforce trends, referral outcomes, and service gaps. Information gathered through these partnerships supports strategic improvements, strengthens career pathways, improves transitions to training and employment, and enhances service delivery across the regional workforce system. Through secure data-sharing practices, coordinated referral systems, and ongoing collaboration with LWDB partners, Manatee Adult Education supports integrated service delivery and improved student outcomes.

6. Describe how agency personnel engage in collection, entry, attestation, correction of errors, and resolution of data issues within the local management information system.in

compliance with the National Reporting System (NRS) and state reporting systems (e.g., WDIS, CCTCMIS). Explain any current limitations and how these will be addressed.

Manatee Adult Education follows established procedures to ensure accurate collection, entry, verification, correction, and reporting of student data in compliance with National Reporting System (NRS), Workforce Development Information System (WDIS), Florida State Reporting (FSR), and other state and federal requirements. Student data, including admissions, assessments, enrollment, attendance, grades, measurable skill gains, Learning Completion Points (LCPs), and credential attainment, are maintained in the Campus Solutions Student Information System (SIS). Instructors, Career Counselors, testing personnel, records staff, and administrators are responsible for data entry and verification within their assigned roles, while the State Reporting Specialist (SRS) oversees data quality and reporting compliance.

The WDIS Data Verification process, Data Quality (DQ2) reviews, and Workforce Education Data System (WEDS) reports are used to identify errors, verify reporting accuracy, resolve discrepancies, and ensure compliance with reporting requirements. Staff collaborate to correct data issues, while program leadership and the Campus Solutions Leads Team review reporting concerns and implement corrective actions as needed. Staff remain current on reporting requirements through Workforce Education Data and Database Administrators Council (WEDDAC) meetings, Florida Department of Education trainings, and professional development activities.

A current limitation is the continued development of automated data integrations, including certain assessment imports into Campus Solutions. The program works with IT and data management staff to improve automation, reduce manual entry, strengthen accuracy, and

increase efficiency. Ongoing system enhancements, staff training, and verification procedures support accurate and compliant data reporting.

F. Accessibility and Supportive Services (12 points)

1. Describe the policies in this four-year plan adopted by the eligible provider to accommodate students and staff with disabilities, including learning disabilities, as described in the American Disabilities Act of 1990 (42 U.S.C. 12102).

Manatee Adult Education's four-year plan ensures compliance with the Americans with Disabilities Act (ADA) of 1990, Section 504 of the Rehabilitation Act, and applicable federal and state laws by providing equal access to educational programs, services, employment opportunities, and workplace responsibilities for students and staff with disabilities, including learning disabilities.

Student needs are identified through intake procedures, assessment reviews, student self-disclosure, referral information, and ongoing progress monitoring. Students who disclose a disability or request accommodations are referred to the Section 504 Coordinator for eligibility determination and implementation of reasonable accommodations in accordance with district procedures and federal requirements. The program may also utilize the CareerSource Suncoast Crosswalk referral system and community agencies to connect students with transportation, healthcare, mental health services, adaptive technology, housing assistance, childcare, and other support services.

Manatee Adult Education partners with Vocational Rehabilitation, the Florida Division of Blind Services, Lighthouse of Manasota, Manatee County Area Transit (Handy Bus), Goodwill Manasota, foster care agencies, and the Florida Department of Children and Families to provide accommodations, assistive technology, and support services. Accommodation may include accessible instructional materials, assistive technology, alternative testing environments,

extended testing time, adaptive equipment, and other reasonable modifications based on individual needs.

The School District of Manatee County provides reasonable accommodations to qualified employees through established ADA and Section 504 procedures supported by Human Resources and designated coordinators. Adult Education instructors participate in ongoing professional development related to ADA compliance, accessibility, and instructional strategies for serving students with disabilities. An Exceptional Student Education (ESE) teacher serves as a disability designee and primary contact for students requesting accommodation or Section 504 plans, while the Disability Resource Team collaborates with Career Counselors, instructors, and community partners to coordinate accommodations and instructional supports.

Additional support includes flexible scheduling through face-to-face, hybrid, and online instructional models, individualized career counseling, and referrals to workforce and community resources.

2. Describe the student support and transition services that support the four-year plan for quality instructional programming. The response must include the following:
    a. how the program identifies and assesses the educational, support, and service needs of all students, including how the provider or its partners deliver the services and resources necessary to address them

Manatee Adult Education identifies and assesses students' educational, support, and service needs through a comprehensive intake and advising process. Upon enrollment, students meet with registration personnel and Career Counselors to discuss educational goals, employment objectives, prior educational experiences, potential barriers to participation, and support service needs. Needs are further assessed through intake documentation, academic assessments, individual advising sessions, instructor referrals, and ongoing monitoring throughout enrollment.

Students who disclose a disability or request accommodations may be referred to the Section 504 Coordinator and the Disability Resource Center at Manatee Technical College for eligibility determination and implementation of appropriate accommodations and support services. Students are informed of their rights under state and federal law and encouraged to self-identify accommodation needs so appropriate support can be provided.

Career Counselors, instructors, administrators, and support staff use the CareerSource Suncoast Crosswalk referral system to connect students with community resources and wraparound services. Through partnerships with organizations like CareerSource Suncoast, Vocational Rehabilitation, Goodwill Manasota, the Florida Division of Blind Services, Lighthouse of Manasota, the Florida Department of Children and Families, and others, students can access transportation, childcare, housing, healthcare, mental health, disability services, workforce prep, and employment supports.

Student needs are monitored throughout enrollment through advising sessions, assessment results, attendance reviews, instructor feedback, and progress monitoring. Career Counselors work with students to develop educational and career plans, explore career pathways, identify workforce training opportunities, and establish short- and long-term goals. As needs change, additional referrals and support services are provided to help students remain engaged, improve educational outcomes, earn credentials, and successfully transition to postsecondary education, workforce training, and employment.

b. how the program provides student advisement services to facilitate transition to postsecondary education/training and employment.

Manatee Adult Education provides comprehensive advisement services to support transitions to postsecondary education, workforce training, and employment. During intake, Career Counselors

meet individually with students to assess educational goals, employment objectives, career interests, support-service needs, and potential barriers. Using career interest assessments and advising tools, counselors help students identify career pathways and develop individualized educational and career plans aligned with each student's interests, abilities, and goals.

Career Counselors collaborate with Adult Education instructors, Career and Technical Education (CTE) Career Counselors, the Exceptional Student Education (ESE) liaison, and community partners to provide ongoing support throughout the enrollment process. Students receive information regarding high-demand occupations, workforce training opportunities, industry-recognized credentials, financial aid resources, postsecondary enrollment requirements, and employment preparation activities.

Adult Education students have direct access to Manatee Technical College's CTE programs and services. Because many Adult Education classes are located on the Main Campus, students are exposed to post-secondary training opportunities and can transition more seamlessly into CTE programs. Students are encouraged to participate in open houses, career fairs, Workforce Wednesdays, and other events that support exploration of educational pathways, workforce training, and employment opportunities.

Through partnerships with CareerSource Suncoast and local employers, students have access to career counseling, workforce preparation services, employment assistance, training resources, supportive services, and job placement support. Transition planning continues throughout enrollment.

c. how the program offers flexible schedules and coordinates Federal, State and local support services *(such as childcare, transportation, mental health services and career planning)* to provide a quality learning system for all students,

including individuals with disabilities or other special needs, to attend and complete programs.

Manatee Adult Education offers flexible scheduling and coordinates Federal, State, and local support services to reduce barriers to participation and to support student persistence, completion, and successful transitions to post-secondary education, workforce training, and employment. To meet the needs of working adults, parents, and individuals with disabilities or other special needs, classes are offered in face-to-face, hybrid, and online formats, as well as during the day and in the evening. Instruction is currently provided on the Main Campus of Manatee Technical College, with an additional instructional site at Bayshore High School being established to expand evening programming and increase accessibility.

During intake and throughout enrollment, Career Counselors work with students to identify educational goals, support-service needs, and barriers that may affect participation or completion. Student needs are monitored through advising sessions, assessments, attendance reviews, and progress monitoring, with additional referrals made as needed.

Manatee Adult Education uses the CareerSource Suncoast Crosswalk system to link students with services like childcare, transportation, housing, healthcare, mental health, disability support, workforce prep, employment help, and financial aid. Special services are for veterans, homeless, foster youth, at-risk groups, and disabled individuals.

Students who disclose a disability or request accommodation may be referred to agencies such as the Disability Resource Center, Section 504 Coordinator, Vocational Rehabilitation, Florida Division of Blind Services, Lighthouse of Manasota, and others for support, accommodations, and assistive technology. Through CareerSource Suncoast's on-campus presence and partnerships with local employers, students gain access to career counseling, training, supportive services, and employment assistance. They are encouraged to participate in Workforce

Wednesdays, career fairs, open houses, and employer activities that connect them with workforce and postsecondary opportunities.

Section 3: Instructional Quality, Evidence-Based Practices & Distance Online Learning

Maximum Points 51

G. Instructional Quality (21 points)

1. Describe the agency's minimum qualifications for the instructors, counselors and administrators delivering the program activities during the four-year plan, ensuring these qualifications meet or exceed all applicable state requirements for adult education personnel.

Manatee Adult Education employs qualified instructors, counselors, and administrators whose education, certifications, experience, and professional expertise meet or exceed all applicable state requirements for adult education personnel. These qualifications support the delivery of high-quality instructional services that promote measurable skill gains, credential attainment, postsecondary transition, and employment outcomes.

Adult Education instructors must hold at least a bachelor's degree from an accredited institution. Preference is given to candidates with Florida teaching certification and relevant endorsements in their instructional area. Instructors are expected to demonstrate expertise in adult learning principles, assessment practices, instructional technology, differentiated instruction, and evidence-based instructional strategies.

Career Counselors must hold at least a bachelor's degree from an accredited institution. Preference is given to candidates with guidance certification or related credentials and experience in counseling, student services, workforce development, or related fields.

The Program Supervisor must hold a master's degree from an accredited institution and be certified in a career and technical education field. Candidates must have at least five years of successful teaching or related experience and at least three years of leadership or administrative experience. Preferred qualifications include certification in Educational Leadership, Principalship, or Vocational Administration.

The Adult Education Director/Assistant Director must hold a master's degree from an accredited institution and certification in a career and technical education area. Candidates must have at least five years of successful teaching, workforce education, or administrative experience. Preferred qualifications include Educational Leadership certification or Local Director of Vocational Education certification.

Instructional and administrative staff participate in ongoing professional development through organizations like the School District of Manatee County, IPDAE, ACE of Florida, COABE, Burlington English, and Essential Education. Training focuses on evidence-based practices, Florida College and Career Readiness Standards, assessment, IET, technology, and student support. Manatee Adult Education maintains high standards and continuous development to ensure qualified personnel deliver quality services over four years.

2. Identify the program's enrollment structure (*managed enrollment or open-entry/open-exit*) and the course modalities offered (*classroom, laboratory, synchronous online, asynchronous online, and blended*). For blended instruction, specify which modalities are combined. Describe how the chosen enrollment structure and instructional modalities support quality learning experiences and improved student outcomes.

The program offers multiple instructional modalities to meet the diverse needs of adult learners, including: Classroom (face-to-face) instruction, Computer laboratory instruction, Synchronous online instruction, Asynchronous online instruction, and Blended/Hybrid instruction.

Blended instruction combines face-to-face classroom instruction with online coursework delivered through Burlington English for ESOL students and Aztec Software for Adult Basic Education (ABE) and GED® preparation students. Instructors may also utilize synchronous online tools such as Zoom to provide supplemental instruction, tutoring, office hours, and targeted interventions. Instruction is offered at the Manatee Technical College Main Campus, the Bayshore High School evening ESOL site, and through approved online learning options. These modalities provide flexibility for working adults, parents, individuals with transportation barriers, and students requiring alternative scheduling options. Research-based instructional platforms, including Burlington English and Aztec Software, support differentiated instruction, progress monitoring, and extended learning opportunities. Through a managed enrollment structure and multiple instructional modalities, the program promotes student engagement, persistence, measurable skill gains, credential attainment, English language acquisition, and successful transitions to postsecondary education, training, and employment.

3. Describe the minimum participation and attendance requirements for students (such as minimum number of instructional hours a student may register for per week, and registration windows based on enrollment structure). Explain how these thresholds ensure sufficient instructional intensity and duration, consistent with research-based practices shown to support measurable learning gains.

Manatee Adult Education sets minimum participation and attendance requirements to ensure adequate instruction supporting skill gains, credentials, and transitions to further education, training, or work. Classroom students attend at least 10 hours weekly, while blended learners do 5 hours face-to-face plus 5 online. Online-only students engage in at least 10 hours of coursework weekly. Courses run over 32 weeks, focusing on academic, language, literacy, workforce, and transition skills. A minimum of 80% attendance is required, monitored through various platforms. These rules ensure students receive enough instruction aligned with state

standards, fostering skill development, credentialing, persistence, and positive outcomes. Support is available for attendance issues to promote completion and progress toward goals.

4. Describe how the program strategically integrates technology to expand access and improve the quality of instruction. Include how technology is used to deliver online curriculum, support learners with low literacy levels or learning disabilities, and strengthen digital literacy skills. Provide examples of evidence-based practices or data demonstrating that technology integration in your program contributes to measurable performance gains.

Manatee Adult Education uses technology to expand access, improve instruction, boost digital skills, and support achievement in classroom, blended, and online settings. It aligns with Florida Adult Education Frameworks and College and Career Readiness Standards.

The program uses evidence-based digital platforms like Burlington English for ESOL and Essential Education for ABE and GED prep. These curricula offer personalized learning, standards-aligned lessons, workforce skills, assessments, and progress monitoring to support skill gains and achievement.

Technology is integrated through classroom computers, laptops, tablets, interactive displays, and online learning platforms. Students in blended and online courses use Burlington English and Essential Education to access coursework, complete assignments, monitor progress, and build independent learning skills. Technology also supports learners with low literacy levels, disabilities, and other special needs. Students may receive accommodation through the Disability Resource Center, the Section 504 process, and Exceptional Student Education (ESE) supports. Assistive technology, accessible instructional materials, adaptive supports, laptop loan programs, and open computer lab access help ensure equitable participation and access to instruction.

Digital literacy and workforce readiness are integrated into instruction. Students learn skills in computer use, online communication, research, digital citizenship, workplace tech, Microsoft Office, job searches, and resumes. Data from Burlington English, Essential Education, Campus Solutions, assessments, and other tech monitor engagement, progress, skill mastery, and achievement. These data enable targeted interventions, differentiated instruction, and ongoing progress checks. Technology improves performance by offering personalized learning, instant feedback, access to resources, and data-driven support, leading to skill development, persistence, credentialing, and smooth transitions to college, training, or jobs.

H. Evidence-Based Practices (15 points)

1. Describe how the program ensures instruction is of sufficient intensity and quality to support substantial learning gains. Include how instructional design, duration and delivery are informed by rigorous research and evidence-based practices in adult education.

Manatee Adult Education ensures that instruction is sufficiently intensive and high-quality to support substantial learning gains through evidence-based instructional practices, standards-aligned curriculum, ongoing assessment, differentiated instruction, and technology integration. Instruction is grounded in the Florida Adult Education Frameworks and Florida College and Career Readiness Standards and is designed to meet the needs of diverse adult learners, including English language learners, individuals with disabilities, and students with low literacy levels.

Students participate in a minimum of 10 instructional hours per week through classroom, blended, or online learning environments, providing sustained opportunities for skill development and educational advancement. Instruction is delivered using research-based curricula, including Burlington English for ESOL students and Essential Education for Adult

Basic Education (ABE) and GED® preparation students. Supplemental resources such as support literacy, numeracy, workforce readiness, and academic achievement.

Instruction is differentiated based on student needs identified through pre-testing, post-testing, formative assessments, and ongoing progress monitoring. Assessment data are used to identify skill gaps, guide instructional planning, target interventions, and support measurable skill gains. Research-based instructional strategies include explicit instruction, differentiated instruction, scaffolding, formative assessment, collaborative learning activities, and timely feedback.

Technology-enhanced instruction expands access to learning opportunities and supports individualized learning through Burlington English and Essential Education, which provide standards-based instruction, progress-monitoring tools, and workforce readiness activities. Opportunities include the Summer Symposium, In-Service trainings, IPDAE, ACE of Florida, COABE, TESOL, Sunshine State TESOL, Burlington English, Essential Education, and the Manatee County School District. The program highlights evidence-based teaching methods like cooperative learning, inquiry-based instruction, higher-order questioning, differentiated instruction, the science of reading, andragogy, backward design, the gradual release model, reciprocal teaching, formative assessment, scaffolding, and effective feedback. Instructional improvements are guided by research from John Hattie, Robert Marzano, and others. Training equips instructors with strategies and resources to address learning gaps, boost engagement, support diverse needs, utilize assessments, and implement targeted interventions. Ongoing professional learning and resources help instructors refine practices and stay current with effective adult education strategies.

I. Distance Online Learning (15 points)

1. If your program offers distance online learning, identify the enrollment structure (managed or open entry/exit), instructional modality(ies) (synchronous, asynchronous or blended), attendance requirements, instructional hour tracking methods and learning platforms utilized.

Manatee Adult Education offers distance learning through a managed enrollment structure with designated enrollment periods and start dates. Distance learning is available through synchronous online, asynchronous online, and blended instructional modalities.

Asynchronous instruction is delivered through Burlington English for ESOL students and Aztec Software for Adult Basic Education (ABE) and GED® Preparation students. Blended instruction combines face-to-face instruction with Burlington English or Aztec online coursework, while some instructors also provide synchronous online instruction.

Students in face-to-face and blended courses must participate in at least 10 instructional hours weekly, while online students are expected to do the same. Those who fail to meet attendance may be withdrawn per policies. Attendance and engagement are tracked via Burlington English, Aztec Software, and Campus Solutions, which monitor logins, time-on-task, skill mastery, attendance, and follow-up. When participation drops, instructors, counselors, and staff intervene with calls, emails, texts, and referrals to support persistence.

2. Describe how technology, digital services and delivery systems are utilized for distance online learning to increase both the amount and quality of learning. Explain how these tools and systems are integrated into instruction and how their use leads to improved student performance and measurable program outcomes.

Burlington English serves as the primary online instructional platform for ESOL students, while Aztec Software is utilized for Adult Basic Education (ABE) and GED® Preparation students. Blended instruction combines face-to-face instruction with online coursework through Burlington English or Aztec Software. Some instructors also utilize synchronous online instruction to provide additional instructional support. These platforms provide standards-aligned content, individualized learning opportunities, workforce readiness activities, and continuous access to instruction outside scheduled class hours. Students engage in lessons, practice activities, and assessments tailored to their educational needs and skill levels.

Student participation and progress are monitored through Burlington English, Aztec Software, and Campus Solutions. These systems track student logins, time-on-task, skill mastery, and

readiness indicators, providing instructors with data to monitor engagement and academic progress. The information is used to identify students who may require additional support, interventions, or follow-up. Technology integration increases instructional time, expands access to learning opportunities, and supports data-informed instruction. The use of Burlington English and Aztec Software enables instructors to monitor progress, target instructional needs, and support measurable skill gains while providing students with flexible learning opportunities that promote persistence and successful program outcomes.

3. Describe how distance online learning activities, including instruction in reading, writing, speaking, mathematics and English language acquisition instruction, are grounded in the best practices derived from the most rigorous research available, including scientifically valid research and effective educational practice.

Distance online learning activities within the Manatee County Adult Education Program are based on research-backed practices and curricula that support adult learners in reading, writing, speaking, math, and English acquisition. Instruction is delivered through Burlington English for ESOL students and Aztec Software for ABE and GED® prep. Burlington offers integrated instruction in reading, writing, listening, speaking, vocabulary, pronunciation, and language learning, using differentiated methods aligned with students' needs and proficiency levels. Aztec provides standards-aligned instruction in reading, math, language arts, and GED® prep via personalized pathways and targeted skill development. The program follows Florida Adult Education standards, incorporating ongoing assessments, skill tracking, and readiness indicators. Both platforms give instructors data on participation, skill mastery, and student progress, enabling tailored instruction and interventions. Students access content through asynchronous, synchronous, and blended formats.

4. Describe how procedures are adapted to ensure distance learners meet the state's expectation for each program as it relates to MSG's credential attainment and ensuring 70% of enrolled participants are post-tested. *(Note: For post-testing alternative assessed students are excluded from the measure.)*

The Manatee County Adult Education Program utilizes attendance monitoring, assessment data, and student intervention strategies to support measurable skill gains (MSG), credential attainment, and post-testing requirements for distance learners. Student participation and engagement are monitored through Burlington English, Aztec Software, and Campus Solutions. These systems provide data on attendance, logins, time on task, skill mastery, readiness, and student progress. Instructors, counselors, and staff review this information to identify students who may require additional support.

When students demonstrate low participation or attendance, staff implement intervention strategies, including emails, phone calls, text messages, and other follow-up efforts. Career Counselors also utilize attendance information to identify students who may need additional assistance. The program monitors pre-test and post-test data to ensure compliance with state assessment requirements and support measurable skill gains. These procedures have helped the program exceed the state's expectation that at least 70% of enrolled participants be post-tested, achieving a post-test rate of 79.25% during the most recent reporting period.

5. Describe how data and information is gathered and analyzed by the program to monitor student engagement and resiliency in distance learning compared to traditional classroom-based instruction.

The Manatee County Adult Education Program uses Burlington English, Aztec Software, and Campus Solutions to track student engagement and persistence in online learning. Burlington English and Aztec Software supply data on student logins, time spent on tasks, skill mastery,

readiness, and progress, while Campus Solutions focuses on attendance and participation. Staff including instructors and counselors, regularly analyze this information to spot students who may face challenges with attendance, engagement, or persistence. When issues are found, intervention methods such as emails, phone calls, texts, and other follow-ups are employed to encourage ongoing participation and connect students with necessary support services. Additionally, the program reviews pre- and post-test results, attendance records, and student progress to assess outcomes for distance learners and compare their participation and achievement to classroom-based students. Continuous monitoring of this data allows for timely interventions, boosts student persistence, and aims to improve skill development and overall program effectiveness.

Section 4: Required Budget Narrative

Maximum Points 18

J. Budget Narrative (18 points)

1. Describe how the funds requested will be spent to meet the objectives consistent with the requirements of WIOA, as outlined in the eligible providers' written narrative responses. Funds will be used to support Adult Education and Literacy activities that align with the Workforce Innovation and Opportunity Act (WIOA), the objectives outlined in this application, and the workforce needs identified within LWDB Region 18.

The majority of the requested funds will support salaries and benefits for qualified instructional and support personnel who provide direct services to students, including instruction, assessment, advising, workforce preparation, career planning, progress monitoring, and transition services. These positions support the delivery of high-quality educational services designed to improve literacy, English language acquisition, workforce readiness, credential attainment, and successful transitions to postsecondary education, training, and employment. Funds may also support instructional materials, technology, and digital learning resources necessary to deliver classroom, blended, and distance learning instruction. These resources support standards-aligned instruction, student engagement, progress monitoring, communication, and access to educational services.

All expenditure will be reasonable, necessary, and directly aligned with the goals, activities, and performance outcomes described in this application. Funds will supplement, not supplant, existing resources and will be expended in accordance with WIOA requirements and applicable federal, state, and local regulations.

2. Describe any other funding sources (federal, state, local, or private) that support your adult education program. Explain how the AEFLA Title II funds requested in this application will *supplement*—and not *supplant*—those existing funds. Include a brief description of how the combined use of these resources enhances program services and outcomes for adult learners.

AEFLA Title II funds supplement adult education services supported through Florida Workforce Development Funds and other state and local resources. Together, these funding sources support literacy, English language acquisition, workforce readiness, and transition services for adult learners. AEFLA funds will supplement, not supplant, existing funding by supporting instructional and support personnel, curriculum resources, instructional technology, digital learning platforms, and other activities that enhance program services and expand educational opportunities. Existing funding sources continue to support core program operations, while AEFLA funds provide additional resources that strengthen instructional quality, student support services, and access to educational opportunities. The School District of Manatee County maintains separate fiscal records and accounting procedures to ensure compliance with federal and state supplement-not-supplant requirements. The combined use of these resources enhances instructional services, career planning, workforce preparation, technology integration, and student support services, thereby promoting educational attainment and successful transitions to postsecondary education, training, and employment.

3. Describe how funds identified as Career Services and Training Services in the project disbursement report DOE 499 will be identified as expenditures aligned with the

allowable activities outlined in Attachment VII, Table C of OCTAE Program Memorandum 17-2.

Funds reported as Career Services Expenditures and Training Services Expenditures on the DOE 499 Project Disbursement Report will be identified and documented in accordance with the allowable activities outlined in Attachment VII, Table C of OCTAE Program Memorandum 17-2 and WIOA Title II requirements. Career Services Expenditures include salaries, benefits, purchased services, and other costs associated with career counseling, educational advising, career assessments, workforce preparation activities, postsecondary transition services, referrals, and student support services. Training Services Expenditures include salaries, benefits, purchased services, instructional materials, curriculum resources, instructional technology, digital learning platforms, assessment activities, and other costs associated with the delivery of Adult Basic Education (ABE), GED® preparation, English language acquisition, workforce readiness, and digital literacy instruction. Indirect costs will be charged in accordance with the district's approved indirect cost rate and applicable federal and state requirements. Supporting documentation and fiscal records will be maintained to ensure expenditures are properly classified, documented, and reported on the DOE 499 Project Disbursement Report.

4. Describe the process used to develop and manage the program budget to ensure accuracy, alignment with planned activities and minimize the need for amendments. Explain how the budget development process reflects thoughtful planning, realistic projections, and adherence to allowable cost principles to prevent the need for post-award revisions.

Manatee Adult Education Program uses a collaborative budget development and monitoring process to ensure expenditures align with program objectives, planned activities, and allowable cost requirements. Budget development begins with a review of program goals, student needs, prior-year expenditures, staffing requirements, enrollment trends, and anticipated operational needs. The Adult Education Director, grant personnel, and fiscal staff collaborate to develop

realistic budget projections and ensure requested funds directly support the instructional, assessment, career services, technology, and student support activities described in the application. All proposed expenditures are reviewed to confirm they are reasonable, necessary, allocable, and allowable under WIOA Title II and applicable federal and state regulations. After award approval, program and fiscal staff regularly monitor expenditures to ensure spending remains aligned with approved budget categories and project objectives. Ongoing communication between program leadership and fiscal personnel supports timely review of expenditures, effective budget management, and early identification of potential issues.

The program actively promotes co-enrollment and coordinated service delivery with WIOA Title I Adult, Dislocated Worker, and Youth programs; Wagner-Peyser employment services; the Florida Division of Vocational Rehabilitation; the Florida Division of Blind Services; and other workforce and community partners. Career Counselors and staff utilize the CareerSource Suncoast Crosswalk referral system to facilitate referrals, coordinate services, and connect students with educational, workforce, and support resources that help remove barriers to participation and employment.

Through collaboration with CareerSource Suncoast, workforce partners, employers, and community agencies, Manatee Adult Education supports the goals of the LWDB Region 18 Plan by increasing access to education and training, promoting workforce readiness, supporting credential attainment, and helping participants transition to postsecondary education, workforce training, and unsubsidized employment.

4. Provide specific details about shared-cost activities and the resources utilized to support those costs (Example: AEFLA funds cover the cost of the full-time adult education teacher, and the local board covers the cost of the classroom facility).

   AEFLA funds support direct Adult Education services, including instructor and Career Counselor salaries and benefits, online instructional programs, digital curricula, assessments, instructional materials, workforce preparation activities, and technology resources such as computers and tablets used by Adult Education students. These resources support Adult Basic Education (ABE), Adult ESOL, GED® preparation, Integrated Education and Training (IET), and transition services.

The School District of Manatee County provides classroom and office space, utilities, furniture, technology infrastructure, telecommunications, custodial services, administrative support, and fiscal oversight necessary to operate the program. District resources also support student records management, information technology services, and compliance activities.

CareerSource Suncoast maintains a presence at Manatee Technical College and provides workforce development services, labor market information, referrals, career counseling, workforce preparation resources, supportive services, and employment assistance. Through the CareerSource Suncoast Crosswalk referral system, Adult Education students can access transportation assistance, supportive services, job placement assistance, training opportunities, and other resources that help reduce barriers to education and employment.

This shared-cost approach leverages federal, state, local, and partner resources to maximize services, improve student outcomes, and support transitions to postsecondary education, workforce training, and employment.

5. Provide a copy of the MOU agreement and Local One-stop Infrastructure Cost agreement with the LWDB. (If a MOU is not available at the time the application is submitted, an executed MOU must be submitted to FDOE prior to the issuance of the grant award notification.)

II. Purpose

The Workforce Innovation & Opportunity Act (WIOA) is an affirmation of the work that has been done in Florida to build the workforce development system. The cornerstone of the Act is its American Job Center (AJC) One-Stop customer delivery system. The AJC One-Stop system assures coordination between the activities authorized in and linked to the Act.

WIOA requires Local Workforce Development Boards (LWDB) to develop and finalize Infrastructure Funding Agreements (IFA) with all required partners that carry out their programs in the local area.

The purpose of this agreement is to establish a financial plan, including terms and conditions, to fund the services and operating costs of the AJC One-Stop customer delivery system. The Parties to this Infrastructure Agreement (IFA) agree that joint funding is a necessary foundation for an integrated service delivery system. The goal of the operating budget is to develop a funding mechanism that:

- Establishes and maintains the local workforce delivery system at a level that meets the needs of the job seekers and businesses in the Local area,
- Reduces duplication and maximizes program impact through the sharing of services, resources, and technologies among Partners (thereby improving each program's effectiveness),
- Reduces duplication by establishing data sharing as it relates to participant records for outcome information,
- Reduces overhead costs for any one partner by streamlining and sharing financial, procurement, and facility costs, and

v. Cost Allocation Methodology

All required Partners have agreed to provide access to their programs in the comprehensive One-Stop Career Center and contribute to the infrastructure costs. Partners will have staff co-located in the Center (on a full or part-time basis) or will provide access via direct linkage as outlined in Attachment A (Partner On-site Representation Schedule} and will fund operating costs based on a percentage of the partner's annual FTE. (All costs included in the IFA, allocated according to Partners' proportionate use and relative benefits received, and will be reconciled on a quarterly basis.)

Required partners who have elected not to have staff co-located in the AJC will utilize a "direct linkage" that will allow customers to connect with partner program staff to access

services. Cross-trained front desk and other physically co-located staff can assist in providing information and referrals to the direct-linkage partners. Partners utilizing direct linkage must contribute to the infrastructure cost equivalent to a minimum of 0.1 FTE or 4 hours per week (1 FTE is equivalent to 40 hours/week).

The LWDB selected the cost allocation bases to determine overall Partner contributions. This was done in an effort:

a) To remedy the imbalance of non-physically represented Partners, and

b) To comply with the requirement of Partners' contributions having to be in proportion to the Partners' use of the AJC and relative benefits received.

As outlined in the MOU, the costs of the infrastructure of AJC One-Stop Center will be funded in accordance with the requirements of the Workforce Innovation and Opportunity Act; federal cost principles; and all other applicable legal requirements.

VI. PARTNER CONTRIBUTION (Based on all costs associated with the operation of the American Job Center)

Below is the partner contribution cost determination:

Estimated Cost per FTE	Estimated Infrastructure Costs Total Partner FTE _____ / _____ = _____
Partner Physical Presence Contribution (*partners who elected to have their representatives in the One-Stop on a FT or PT basis to serve customers)*	1 FTE x Estimated Cost per FTE 1 FTE x $18,205 = $18,205 **(1 FTE represents 40 hours/week commitment)**
Partner Direct Linkage/Visual Presence Contribution *(Partner who elects not to have their representative in the one-stop but offer a technology option to serve customers.)*	Minimum of 0.1 FTE or 4 hours per week 0.1 FTE x $ 18,205= $1,821 **(0.1 FTE represents 4 hours/week commitment)**

FUNDING TYPES AND SOURCES

The permissible types of funds used for infrastructure costs and additional costs of operating a local One-Stop delivery system (i.e., partner's program or administrative funds) may differ depending upon the partners program's authorizing law and implementing regulations. The funds that may be used also differ based on whether the amount that must be contributed by a partner for infrastructure costs is determined under the Local Funding Model or the State Funding Model. (Copy of the TEGL 17- 16: Infrastructure Funding of the One-Stop Delivery System can be found at: TRAINING AND EMPLOYMENT GUIDANCE LETTER No. 17-16 | U.S. Department of Labor (dol.gov).

Types. Funding for infrastructure costs and additional costs may be in the form of:
(1) CASH, NON-CASH and THIRD-PARTY IN-KIND CONTRIBUTIONS*
(2) Funding from philanthropic organizations or other private entities; or
(3) Other alternative financing options (described in WIOA sec. 121(c)(2)(A)(ii) and 20 CFR 678.715, 34 CFR 361.715, and 34 CFR 463.715.

Some partner programs may have statutory or regulatory prohibitions against using certain types of these contributions or on how the program may treat these contributions for fiscal accountability purposes under the respective program's requirements.

*

Cash

Cash funds provided to the Local WDB or its designee by one-stop Partners, either directly or by an interagency transfer, or by a third party.

Non-Cash

- Expenditures incurred by one-stop Partners on behalf of the one-stop center; and
- Non-cash contributions or goods or services contributed by a Partner program and used by the One-Stop center.

The value of non-cash and third-party in-kind contributions must be fairly evaluated in accordance with the Uniform Guidance at 2 CFR 200.306.

Third-party In-kind

Contributions of space, equipment, technology, non-personnel services, or other like items to support the infrastructure costs associated with one-stop operations, by a non-- one-stop Partner to:

Sources: The source of funds that may be used to pay for infrastructure costs depends on the requirements regarding use of funds under the law authorizing the partner program that is contributing the funding. The infrastructure funding may be from funds classified as administrative, program, or both, depending on the partner programs' requirements.

VII. Cost Reconciliation

The source of funds that may be used to pay for infrastructure costs depends on the requirements regarding use of funds under the law authorizing the partner program that is contributing the funding.

The Partner agrees to submit Infrastructure Funding agreement reports on a quarterly basis for the LWDB (CSS) to complete a reconciliation of budgeted and actual costs and updates of the allocation basis.

All Parties agree that a bi-annual reconciliation of budgeted and actual costs and update of the allocation basis will be provided for the review.

The LWDB will submit invoices (if applicable) to the Partners and send a copy of the updated budget to all Parties. Partners will communicate any disputes with costs in the invoice or the budget to the LWDB in writing. The LWDB will review the disputed cost items and respond accordingly to the Partner. When necessary, the LWDB will revise the invoice and the adjusted budget upon resolution of the dispute.

One-Stop delivery system infrastructure costs are defined as non-personnel costs that are necessary for the general operation of the OSCC, including, but not limited to: Rental of the facilities; Utilities and maintenance; Equipment, including assessment-related products and assistive technology for individuals with disabilities; and, Technology to facilitate access to the One-Stop delivery system, including technology used for the center's planning and outreach activities. This may also include the costs associated with the development and use of the common identifier (i.e., American Job Center signage) and supplies, as defined in Uniform Guidance at 2 CFR 200.94, to support the general operation of the One-Stop center (WIOA sec.121 (h)(4) and 20 CFR 678.700(a), and 34 CFR 446.700(a)).

Non-personnel costs are costs that are not compensation for personnel costs. For example, technology-related services performed by vendors or contractors are non-personnel costs and may be identified as infrastructure costs if they are necessary for the general operation of the One-Stop center. Such costs would include service contracts with vendors or contractors, equipment, and supplies.

Personnel services include salaries, wages, and fringe benefits of the employees of partner programs or their subrecipients, as described in 2 CFR 200.430-200.431 of the Uniform Guidance. For example, allocable salary and fringe costs of partner program staff who work on information technology systems (e.g., common performance and reporting outcomes) for use by the One-Stop center as a whole would be personnel costs. The costs of a shared welcome desk or greeter directing employers and customers to the services or staff that are available in that One-Stop center is a personnel expense. These costs, therefore, could not be included in infrastructure costs but are included in "additional costs."

All Parties to this IFA recognize that infrastructure costs are applicable to all required Partners, whether they are physically located in the One-Stop Career Center (OSCC) or not. Each partner's contributions to these costs, however, may vary, as these contributions are based on the proportionate use and relative benefit received, consistent with the Partner programs' authorizing laws and regulations and the Uniform Guidance.

VII. Term

The Term of this IFA shall commence on July 01, 2023 or the date last executed by both parties, whichever is later, through June 30, 2024. The IFA will be reviewed and renewed annually for successive one-year terms as an amendment to this agreement. This IFA may be terminated for convenience at any time by either party upon thirty (30) days written notice. Neither this IFA nor any provision hereof may be changed, waived, discharged or terminated orally, but only by an instrument in writing signed by each of the parties to this Agreement.

IX. Amendments and Modifications

Neither this IFA nor any provision hereof may be changed, waived, discharged or terminated orally, but only by an instrument in writing signed by each of the parties to this Agreement sent via certified, return receipt requests, U. S. Mail.

X. Merger

This IFA constitutes and expresses the entire and integrated understanding and agreement between the parties hereto, superseding, incorporating, and merging all prior understandings, agreements, and discussions relating to the transactions contemplated hereby, and no agreements, understandings, prior negotiations, prior discussions, warranties, representations or covenants not herein expressed shall be binding upon the parties.

XI. Third Party Beneficiary

The Parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person or entity under this IFA. None of the Parties intend to directly or substantially benefit a third party by this IFA. The Parties agree that there are no third-party beneficiaries to this /FA and that no third party shall be entitled to assert a claim against any of the Parties based upon this IFA.

XII. Governance

The accountability and responsibility for the One-Stop career center system's organizational activity and accomplishments will rest with CSS. Pursuant to the Act CareerSource shall conduct oversight with respect to the One-Stop delivery system. Any dispute concerning this IFA will be resolved in accordance with CSS.

XIIII. Dispute Resolution

If an issue arises involving this IFA, both parties will make every effort to reach a resolution in a timely and efficient manner. Either partner may request a face-to-face meeting of the local partners to identify and discuss the issue. If resolved and no further action is deemed necessary by the partners, the issue and the resolution will be documented in writing.

If not resolved, the issue and the efforts to resolve will be documented and forwarded to the President/CEO of CareerSource Suncoast and the Director of the Partner organization. A joint decision shall be issued within sixty calendar days of receipt.

If dissatisfied with the decision, the dispute may be filed with the State of Florida Department of Economic Opportunity (DEO) and the Commissioner of the Education to review concerns and determine resolution. DEO and DOE may remand the issue back to the President/CEO of CareerSource Suncoast and to the Director of the Partner organization, Partner or impose other remedies to resolve the issue.

Section 1: Needs Assessment and Responsiveness to Regional Needs
Maximum Points 39

A. Local Needs Assessment (9 points)

1. Describe the labor market needs identified in your Local Workforce Development Board (LWDB) plan and provide data sources. How will your program address these needs?

The CareerSource Suncoast (CSS) 2025–2028 Local Workforce Development Board (LWDB) Plan and Regional Needs Assessment identify healthcare and construction as priority industry sectors in Workforce Development Area 18. The 2025–26 Regional Demand Occupations List (RDOL) includes several high-demand occupations, such as Transportation, Storage, and Distribution Managers; Mechanical Engineering Technologists and Technicians; and Heavy and Tractor-Trailer Truck Drivers. Regional workforce data and employer feedback indicate ongoing challenges in recruiting workers with both technical and employability skills. Common skill gaps include communication, reliability, leadership, mathematics, information technology, and workplace readiness. Manatee Adult Education addresses these needs through Adult Basic Education (ABE), GED preparation, English for Speakers of Other Languages (ESOL), workforce preparation activities, and Integrated Education and Training (IET) programs. These services help participants build foundational academic skills, English language proficiency, digital literacy, and workforce competencies needed for employment and career advancement.

To support regional workforce priorities, the program aligns career pathways and IET opportunities with high-demand industries identified by LWDB Region 18, including healthcare, manufacturing, transportation and logistics, construction, and education. Partnerships with CareerSource Suncoast, employers, community organizations, and postsecondary providers help

connect students to career exploration, workforce services, occupational training, and supportive resources that lead to credential attainment and employment opportunities.

2. Describe the community demographics of the geographic area, including the number of individuals who are English language learners and/or who lack a high school diploma or equivalent. At a minimum, applicants must use **American Community Survey (ACS)** data, specifically the **Educational Attainment** and **Ability to Speak English** data sets, and **High School Graduation Rates** to substantiate the size and scope of the population within their service area that can benefit from adult education instructional services. Applicants may include additional federal, state or local data sources to further support their response.

Demographics indicate a significant need for adult education, particularly among English language learners, individuals without a secondary credential, and those facing economic barriers. The ACS also reports that 16.7% of residents are foreign-born, underscoring the need for English-language and workforce integration services.

According to the ACS Ability to Speak English data (Table S1601), 23.1% of Manatee County residents aged 5 and older speak a language other than English at home, totaling about 92,254 people. Spanish is the most common language after English, at 15.1%. Additionally, 8.7%, or 38,149 individuals, speak English less than "very well."

According to ACS Educational Attainment data (Table S1501), approximately 8.5% of adults aged 25 and older have not earned a high school diploma or equivalent, including 3.8% with less than a ninth-grade education and 4.7% who attended grades 9 through 12 without earning a diploma.

The Florida Department of Education reports Manatee County's four-year graduation rate was 85.7% in 2023-24. Although outcomes are improving, some students don't complete K-12 and may later pursue adult education or credentials. Demographic and economic indicators highlight barriers to educational and workforce participation.

ACS data show 9.6% of county residents, over 38,000 people, live below the poverty level. Economic challenges such as limited resources, transportation, childcare, and access to technology may hinder participation in education and training. These issues highlight the need for support services that help adult learners enroll, persist, and complete programs.

Manatee Adult Education Program addresses community needs by offering ABE, GED prep, ESOL, IELCE, IET, workforce activities, and transition services aligned with local workforce demands.

3. Describe how the program will recruit and serve individuals in the community most in need of literacy services, including individuals who have multiple barriers to employment.

Recruitment is through the school website. The school website has a feature that allows it to be translated into different languages. Social media, the district website, community events, career fairs, local media, and referrals from community organizations, schools, employers, libraries, Goodwill Manasota, and CareerSource Suncoast.

Through partnerships with CareerSource Suncoast and community agencies, prospective students are connected to adult education, workforce preparation, career pathways, and support services. Once enrolled, participants receive instruction through Adult Basic Education (ABE), GED® preparation, English for Speakers of Other Languages (ESOL), Integrated English Literacy and Civics Education (IELCE), and Integrated Education and Training (IET) programs. Students also have access to advising, career exploration, workforce preparation activities, transition services, and referrals to supportive services that help reduce barriers to participation and employment.

B. Alignment and Partnership with Local Workforce Development Board (LWDB) Plan (21 points)

1. Describe how your program coordinates with your local CareerSource delivery systems to provide access to adult education and literacy activities.

Manatee County Adult Education Program partners with CareerSource Suncoast as a local One-Stop delivery system, linking participants to employment, training, and career advancement resources. The program uses the CareerSource Suncoast Crosswalk referral system to coordinate services and connect students with workforce and community supports. Counselors make confidential referrals to CareerSource Suncoast and partner agencies for workforce assistance, housing, transportation, counseling, mental health services, substance abuse treatment, and other wraparound supports. Adult Education counselors work directly with students to identify barriers to education and employment, facilitate Crosswalk referrals when appropriate, and provide individualized guidance throughout the referral process to help students access services that address personal, educational, and workforce needs. CareerSource Suncoast representatives are available with an office on campus to provide information on workforce services, employment opportunities, career exploration, training resources, and supportive services offered through the One-Stop delivery system. The Adult Education Program and CareerSource Suncoast also collaborate on workforce development activities including job fairs, career fairs, hiring events, and community outreach that connect students and CTE participants with employers and workforce opportunities.

2. Describe how your adult education and literacy program coordinates and promotes concurrent enrollment in programs and activities under Title I through the local CareerSource center(s) in your region.

Manatee Adult Education Program partners with CareerSource Suncoast to promote and support concurrent enrollment in Title I programs and activities, expanding access to workforce development services and career opportunities for adult learners. Adult Education counselors inform students about available CareerSource services, identify co-enrollment opportunities based on educational and employment goals, and encourage eligible students to participate in both adult education and workforce programs.

Concurrently enrolled students may access career counseling, employment services, occupational training, labor market information, supportive services, and workforce preparation activities while participating in ABE, GED preparation, ESOL, IET, and workforce preparation programs. CareerSource Suncoast representatives regularly meet with students on campus to provide information regarding Title I services in career exploration, training opportunities, and employment resources. Through coordinated referrals, co-enrollment opportunities, and ongoing collaboration, we support educational attainment, workforce readiness, credential attainment, employment, and career advancement while advancing regional workforce development priorities.

3. Describe the status of your agency's Memorandum of Understanding (MOU) with the Local Workforce Development Board and how it outlines roles, responsibilities and cost-sharing for CareerSource operations.

The School District of Manatee County maintains a three-year Memorandum of Understanding (MOU) with CareerSource Suncoast and required workforce partners for July 1, 2023–June 30, 2026; the agreement remains in effect and is scheduled for renewal. The MOU, aligned with the CareerSource Suncoast Local Workforce Development Board (LWDB) Plan and the One-Stop delivery system, clarifies partner roles and promotes coordinated service delivery across

communication, referrals, recruitment, workforce development, and regional collaboration. CareerSource Suncoast provides workforce development services, career counseling, labor market information, employment assistance, training opportunities, supportive services, and job placement assistance. The MOU is supported by an Infrastructure Funding Agreement (IFA) that assigns shared responsibility for One-Stop Career Center infrastructure and operating costs; under the IFA, the School District provides office space at Manatee Technical College including furniture, computers, utilities, and telecommunications while CareerSource delivers workforce services and supports that bolster student success and workforce readiness.

4. Explain how your program utilizes AEFLA funds, as appropriate, to support the shared costs of operating the CareerSource system (e.g., infrastructure costs) in alignment with agreements established by the Local Workforce Development Board (LWDB).

Manatee Adult Education Program participates in the CareerSource Suncoast One-Stop delivery system through a Memorandum of Understanding (MOU) and Infrastructure Funding Agreement (IFA) with the Local Workforce Development Board and required workforce partners. These agreements establish shared responsibilities for infrastructure and operating costs based on partner use and benefit.

AEFLA-funded activities support the integrated delivery of adult education and workforce services by providing ABE, GED preparation, English Language Acquisition, IELCE, workforce preparation activities, and IET. The district contributes shared resources, including office space, furniture, computers, utilities, and telecommunications at Manatee Technical College, supporting access to workforce services and coordinated service delivery.

5. Explain how your agency participates in the ongoing operations of the CareerSource system in accordance with the terms of the MOU and WIOA requirements.

Manatee Adult Education Program participates in the CareerSource Suncoast One-Stop delivery system in accordance with the Memorandum of Understanding (MOU), Infrastructure Funding Agreement (IFA), and Workforce Innovation and Opportunity Act (WIOA) requirements. As a required workforce partner, the program coordinates education, workforce development, and support services to help individuals achieve educational and employment goals.

Adult Education counselors utilize the Crosswalk referral system to connect students with CareerSource Suncoast services, supportive resources, and Title I co-enrollment opportunities. The Adult Education Program also collaborates with them through workforce development activities, employer engagement, career fairs, and community outreach initiatives that connect students with education, training, and employment opportunities. Through ongoing coordination, referral processes, and resource sharing, the program supports the goals of the Local Workforce Development Board and strengthens access to workforce services throughout the region.

6. Describe how your agency ensures appropriate representation in collaboration with the State Board of Education and other state-level workforce partners, as required.

The program implements WIOA and FLDOE Division of Career and Adult Education policies, procedures, and program requirements to remain aligned with state and federal workforce priorities. Staff participation in FLDOE activities keeps the program current on policy, accountability, measurable skill gains, credential attainment, Integrated Education and Training (IET), Integrated English Literacy and Civics Education (IELCE), and other WIOA initiatives, and provides opportunities to share promising practices. Collaboration with CareerSource Suncoast and partners via the Memorandum of Understanding (MOU), Infrastructure Funding Agreement (IFA), referral processes, workforce development activities, and co-enrollment supports coordinated service delivery, career pathway development, and access to education,

training, employment, and supportive services for individuals with barriers to employment. The district complies with all state and federal reporting, accountability, and performance measures including enrollment, measurable skill gains, credential attainment, and other WIOA indicators using state reporting systems and data to monitor performance, drive continuous improvement, and ensure compliance.

C. Local Collaborative Partnerships (9 points)

1. Describe any cooperative arrangements your program has with agencies, institutions or organizations to support the delivery of adult education and literacy activities (e.g., sharing facilities, staff, referrals or services).

The program maintains an active Memorandum of Understanding (MOU) with CareerSource Suncoast, effective July 1, 2023, through June 30, 2026, and is currently working to renew the agreement for the next four-year grant cycle. Through this partnership, they maintain an office at Manatee Technical College and provide on-campus access to workforce services, career counseling, employment assistance, training resources, and supportive services. A representative is available regularly to assist students with workforce-related needs and connect them with community resources. The Adult Education Program and CareerSource Suncoast coordinate referrals, workforce activities, career exploration, and supportive services to help students reach educational and career goals. They also work with postsecondary institutions, community agencies, and workforce partners to support student transitions, referrals, and access to educational and support services, enhancing adult education and literacy outcomes.

2. Explain how your program coordinates with other available education, training and social service resources in the community to strengthen career pathways. Include examples of partnerships with K–12 schools, postsecondary institutions, CareerSource centers, job

> training programs, social service agencies, businesses, industry groups, labor organizations, community-based or nonprofit organizations and other intermediaries.

Through the partnership with CareerSource Suncoast and other Workforce Innovation and Opportunity Act (WIOA) partners, students have access to workforce services, career counseling, employment assistance, and training opportunities., supportive services, and coordinated referrals through the Crosswalk referral system.

Within the School District, the program works with K–12 schools and district departments to assist with recruitment, student transitions, family literacy activities, and crafting educational pathways that encourage lifelong learning and prepare students for the workforce. Adult Education programs and services are highlighted via district websites, outreach efforts, community events, career fairs, and job fairs to boost awareness and improve access to educational opportunities.

The program partners with State College of Florida to support career pathways, Integrated Education and Training (IET) opportunities, postsecondary transitions, and the attainment of industry-recognized credentials. Articulation agreements with State College of Florida facilitate seamless transitions into postsecondary degree and credential programs aligned with local workforce needs. To overcome barriers to persistence and completion, the program partners with community resources, including Vocational Rehabilitation, Division of Blind Services, Goodwill Manasota, Lutheran Services Florida, and other community groups, to provide disability support, childcare, housing resources, employment assistance, mental health services, and comprehensive wraparound services. Employers and industry partners enhance career pathway efforts by sharing

labor market data, serving on advisory boards, assisting with program development, participating in career and job fairs, and hiring program graduates.

Section 2: Demonstrated Effectiveness and State Performance Targets

E. Performance Accountability and Data Collection (36 points)

Describe how the eligible provider will meet or exceed the State-adjusted levels of performance for the primary indicators of performance identified in Florida's Combined State Plan under WIOA Section 116 by answering the questions below.

State-Adjusted Levels of Performance

2025 State Performance Targets Minimum Performance Levels for Florida Adult Education Programs	
Measurable Skill Gain	35.7%
Credential Attainment	21.8%
Employment (Second Quarter After Exit)	31.0%
Employment (Fourth Quarter After Exit)	28.2%
Median Earnings	$5,840
Post-Test Rate	70%

E1. Performance Accountability

1. Describe the program's past effectiveness, supported by the data provided in the Past Performance table, in improving the literacy of eligible individuals to meet the state's performance levels, especially with respect to eligible individuals who have low levels of literacy.

Manatee County Adult Education Program has effectively improved literacy, education, and workforce outcomes for eligible individuals, including those with low literacy, as shown in the Past Performance table. During 2023-24 and 2024-25, the program exceeded Florida's MSG target of 35.7%, with rates of 43.68% and 47.84%, respectively. These results show its success in helping adult learners enhance literacy, math, English skills, and workforce readiness.

The program supports diverse adult learners, including those with lower levels of education, no secondary credentials, English learners, and those with employment barriers. Using evidence-based teaching, standards-aligned curriculum, tailored instruction, and ongoing assessment,

students improve academically and progress toward their goals. The program notably succeeds with English learners, with skill gain rates of 51.92% in 2023-24 and 54.21% in 2024-25.

The program has also demonstrated positive workforce outcomes. During Program Year 2024-25, the employment rate in the second quarter after exit was 37.23 percent, exceeding Florida's target of 31.0 percent. The employment rate in the fourth quarter after exit was 33.50 percent, exceeding the state target of 28.2 percent. Participants achieved median earnings of $8,145, significantly exceeding the state target of $5,840. These outcomes demonstrate the program's effectiveness in preparing adult learners for employment, career advancement, and economic self-sufficiency.

These results are supported by high-quality instruction, ongoing progress monitoring, career-pathway opportunities, workforce preparation activities, academic advising, career counseling, and strong partnerships with CareerSource Suncoast and community organizations. Through continuous performance monitoring and targeted student support, Manatee Adult Education Program remains committed to improving literacy outcomes and helping adult learners achieve educational, employment, and economic success.

2. Describe how the program's instructional design, recruitment strategies, and student support services are aligned to achieve performance outcomes in measurable skill gains (MSG), credential attainment, employment, and median earnings.

Manatee County Adult Education Program aligns instructional design, recruitment, and student support to promote measurable skill gains (MSG), credential attainment, employment, and increased earnings. Using an integrated model of evidence-b

d instruction, targeted outreach, career pathways, and comprehensive supports, the program creates multiple pathways to student success. Instruction follows the Florida Adult Education Standards and is offered face-to-face, hybrid, and online to maximize access and persistence. Instruction is differentiated using CASAS and TABE pre- and post-tests, along with ongoing formative and summative assessments. Instructors analyze assessment data to guide instruction, provide timely feedback, implement targeted interventions, and support MSG and educational advancement.

The program uses research-based curricula including Aztec Software for ABE, GED® prep, and Burlington English for English learners, combining academics with workforce readiness to support credentialing, postsecondary transition, employment, and higher earnings. Supplemental resources reinforce literacy, math, communication, workforce prep, and employability skills. Recruitment targets those most in need: English learners, adults without secondary credentials, low-income individuals, unemployed and underemployed adults, and those with employment barriers. Outreach via the School District website, CareerSource referrals, community agencies, employers, events, and workforce activities, with website translation for accessibility.

Counselors provide academic advising, career counseling, transition planning, and referrals. Partnerships with organizations connect students to employment, training, and support services, reducing barriers. Students are encouraged to shift into Manatee Technical College CTE, postsecondary education, or workforce training for industry credentials and high-demand jobs.

3. Describe how the program will use data to monitor progress toward meeting State-adjusted levels of performance for the primary indicators under WIOA Section 116, including measurable skill gains, credential attainment, employment and median earnings.

Manatee Adult Education employs a data-driven, ongoing improvement process to track progress toward Florida's State-adjusted performance targets under WIOA Section 116, including measurable skill gains (MSG), credential attainment, employment, and earnings. Outcomes are monitored via Campus Solutions, FDOE surveys, NRS, CASAS data, and WEDS reports. CASAS scores are imported daily into Campus Solutions for timely student progress monitoring.

Career Counselors, instructors, and program staff use attendance, assessment, post-test, MSG, credential attainment, and workforce outcome data to monitor student achievement and identify students who may require additional support. When students earn a Learning Completion Point (LCP), the State Reporting Specialist notifies the Career Counselor, who meets with the student to review progress, discuss educational and career goals, and update educational plans as needed. Data-informed interventions may include tutoring, schedule modifications, instructional adjustments, referrals to support services, workforce training opportunities, and postsecondary transition planning.

Program performance data are reviewed throughout the year, with quarterly reviews conducted to analyze trends, identify performance gaps, evaluate outcomes, and guide instructional practices, professional development, recruitment strategies, and student support services. Employment and median earnings outcomes are reviewed using state and federal performance reports and collaboration with CareerSource Suncoast.

To ensure data quality and compliance, the program follows established verification and reporting procedures through Campus Solutions, WDIS verification processes, and FDOE reporting systems. The State Reporting Specialist reviews validation, error, and exception reports to ensure accurate reporting and compliance with state requirements. Adult Education data are

regularly reviewed by program leadership and records staff to identify opportunities for improvement and strengthen program effectiveness. Through ongoing performance monitoring, data analysis, and targeted interventions, the program uses data to drive decision-making and support continuous improvement.

4. Explain how your program will plan for addressing underperformance if any indicator falls below the state target.

Manatee Adult Education applies a continuous improvement process to address underperformance when any State-adjusted performance indicator falls below target. Program administrators, instructors, Career Counselors, and support staff review performance data to identify trends, determine contributing factors, and implement corrective actions. When underperformance is identified, the program analyzes attendance, assessment and post-test results, measurable skill gains (MSG), credential attainment, employment outcomes, and median earnings to determine areas requiring improvement. Improvement strategies are tailored to the specific indicator. For low MSG performance, the program reviews instructional practices, assessment schedules, post-testing procedures, and student persistence. For low credential attainment, the program strengthens GED® completion efforts, career counseling, transition planning, and pathways into career and technical education programs. For employment and median earnings outcomes, the program collaborates with CareerSource Suncoast and workforce partners to strengthen workforce preparation activities, career pathways, employment services, and job placement support. Targeted interventions may include tutoring, instructional modifications, enhanced advising and counseling, strengthened transition planning, improved post-testing procedures, and referrals to workforce and community support services. Professional development is also used to address identified needs through training on assessment practices,

differentiated instruction, data-informed decision making, Florida College and Career Readiness Standards, and Integrated Education and Training (IET).

Following implementation of corrective actions, program staff monitor performance data and evaluate outcomes to determine the effectiveness of interventions and make additional adjustments as needed. This process supports continuous improvement and helps ensure progress toward meeting or exceeding Florida's State-adjusted performance levels under WIOA Section 116.

E2. Data Collection

5. Describe the agency's data management information system and practices for each of the following:
    a. How student attendance records are tracked.

Student attendance is recorded in the Campus Solutions Data Management System (CS DMS), used across all Adult Education programs. Instructors must record attendance for traditional, hybrid, and online courses to meet district and state requirements; the system captures attendance data and contact hours for monitoring participation, persistence, eligibility, and reporting. Staff generate attendance reports to track trends and contact hours, helping instructors, Career Counselors, and administrators identify concerns and monitor persistence. Role-based security restricts access to authorized personnel. Administration reviews attendance data, with the Assistant Director monitoring reports for anomalies, concerns, and barriers to success.

    b. How student pre- and post-assessments are tracked and verified.

Student pre- and post-assessments are tracked and verified through the Campus Solutions Data Management System (CS DMS) and administered in accordance with the Manatee Technical College Adult Education Assessment Manual, Florida Department of Education (FDOE)

requirements, and test publisher guidelines. All Adult Education students complete state-approved assessments, including CASAS and TABE, to determine educational functioning levels, instructional placement, and progress toward measurable skill gains.

New students are pre-tested to determine educational functioning levels and instructional placement, while continuing students may be placed using valid assessment scores within allowable state testing windows. Campus Solutions reports and queries identify students who have met required instructional hours for post-testing. Testing personnel review and verify eligibility in accordance with FDOE and test publisher requirements and coordinate post-testing with instructors and students.

All assessments are administered by trained testing personnel and entered into Campus Solutions. Assessment records undergo established verification and quality-assurance procedures to ensure accuracy for state and federal reporting. Assessment results measure educational progress, support measurable skill gains, guide instructional planning, and support NRS reporting and WIOA performance requirements.

These procedures ensure pre- and post-assessments are accurately tracked, verified, and reported in compliance with FDOE and NRS requirements.

c. How student outcomes are tracked, including measurable skill gains, credential attainment, and employment outcomes.

Student outcomes are tracked through the Campus Solutions Student Information System (SIS), Florida Department of Education (FDOE) reporting systems, National Reporting System (NRS) reports, and workforce outcome reporting processes. Manatee Adult Education uses established business processes to monitor measurable skill gains (MSG), credential attainment, employment

outcomes, and other state and federal performance indicators. CASAS assessment scores are imported into Campus Solutions daily to support monitoring of student progress and MSGs. Learning Completion Points (LCPs), assessment results, and other student performance measures are recorded and reviewed to track educational progress. Credential attainment, including GED® completion, industry certifications, licensures, and other credentials of value, is documented in student records, tracked in Campus Solutions, and reported through FDOE reporting processes.

Employment outcomes are monitored through state and federal reporting systems and workforce outcome data. Staff review employment in the second and fourth quarters after exit, as well as median earnings, to evaluate workforce preparation and employment outcomes. Collaboration with CareerSource Suncoast and other workforce partners supports employment tracking and student workforce transitions. Campus Solutions, NRS, and FDOE performance reports are reviewed regularly by program leadership, the State Reporting Specialist, Career Counselors, and instructional staff to monitor outcomes, identify trends, and support continuous improvement. Through ongoing tracking and reporting of MSGs, credential attainment, and employment outcomes, the program maintains compliance with state and federal reporting requirements while supporting student success.

d. How student and program data are provided to teachers and staff to improve instruction and ensure program effectiveness.

Student and program performance data are routinely shared with instructors, Career Counselors, program administrators, and other authorized staff through reports in the Campus Solutions Student Information System (SIS). These reports include attendance, measurable skill gains (MSG), Learning Completion Points (LCPs), post-testing, credential attainment, enrollment trends, and other outcomes. Instructors and Counselors use this data to identify learning needs,

monitor progress, evaluate effectiveness, differentiate instruction, and provide targeted support. The Adult Education Program conducts quarterly reviews to analyze outcomes, identify gaps, evaluate progress toward performance measures, and develop strategies to improve achievement, retention, post-testing, credential attainment, and workforce outcomes. Data guides professional development, instructional planning, program modifications, and student support. Leadership reviews results to assess effectiveness, identify improvements, and ensure alignment with FDOE, NRS, and WIOA requirements. Regular review and sharing of data support data-driven decisions and ongoing improvement.

e. How the agency ensures data collection, privacy, and quality in compliance with federal and state reporting requirements.

Data Collection: Manatee Adult Education uses the Campus Solutions Data Management System (CS DMS) as its primary student information system to collect and maintain student data such as admissions, assessment results, enrollment, attendance, grades, skill gains, credential attainment, and other info for state and federal reports. It supports reporting requirements by FDOE, NRS, and WIOA.

Privacy: Campus Solutions uses role-based security to restrict student info access to authorized staff like instructors, counselors, and administrators, in line with FERPA, federal/state laws, and Manatee County policies.

Data Quality: The State Reporting Specialist (SRS) manages data accuracy, completeness, and integrity. Campus Solutions includes a Workforce Development Information System (WDIS) verification process, allowing staff to review attendance, enrollment, assessment, and outcome data before submission to Florida State Reporting (FSR). Before FDOE survey submissions, data

are checked via the Florida Data Quality (DQ2) system. The SRS reviews error, validation, and exception reports to ensure accuracy. After submission, Workforce Education Data System (WEDS) reports are analyzed to assess performance and verify data. Using verification procedures, role-based security, DQ2 validation, WEDS analysis, and SRS oversight, the program ensures accurate, secure, and compliant reporting.

f. How data is used for continuous program and system improvement.

Adult Education data from local, state, and federal reports help improve programs. Leadership, including the Adult Education Director, Program Supervisor, Campus Solutions Manager, Records Coordinator, and Student Records and Accreditation Coordinator, review data to assess effectiveness, monitor student outcomes, spot trends, and inform decisions. Key performance indicators like enrollment, attendance, measurable skill gains (MSG, Learning Completion Points (LCPs), credentials, post-testing, and employment are analyzed to identify strengths, gaps, and improvements. Recommendations on operations, data collection, reporting, and outcomes are reviewed and implemented. The Campus Solutions Leads Team meets biweekly to handle reporting, system upgrades, data trends, and issues, also participating in WEDDAC meetings to stay updated on state requirements and best practices. Insights from these activities are used to enhance compliance and program quality. Data guides planning, professional development, student support, recruitment, assessment, and transitions to postsecondary education and employment. Ongoing analysis and data-driven strategies support continuous improvement of instruction, operations, and student results.

g. How data is shared with LWDB partners (e.g., CareerSource, Vocational Rehabilitation) to support coordinated service delivery and strategic improvements.

Manatee Adult Education shares student data with Local Workforce Development Board (LWDB) partners and other workforce system partners through established data-sharing agreements, FERPA-compliant releases, referral processes, and collaborative service-delivery systems that comply with Family Educational Rights and Privacy Act (FERPA), Florida Department of Education requirements, and district confidentiality policies.

Through the CareerSource Suncoast Crosswalk referral system, Adult Education staff coordinate referrals and services with workforce and community agencies, connecting students to employment services, workforce training, supportive services, transportation assistance, housing resources, disability services, and other community-based supports. Career Counselors, instructors, and program staff use referral and outcome information to coordinate services, reduce duplication, and address barriers affecting persistence, credential attainment, employment, and career advancement.

The program collaborates regularly with CareerSource Suncoast, Vocational Rehabilitation, postsecondary institutions, community-based organizations, and other workforce partners to review student needs, workforce trends, referral outcomes, and service gaps. Information gathered through these partnerships supports strategic improvements, strengthens career pathways, improves transitions to training and employment, and enhances service delivery across the regional workforce system. Through secure data-sharing practices, coordinated referral systems, and ongoing collaboration with LWDB partners, Manatee Adult Education supports integrated service delivery and improved student outcomes.

6. Describe how agency personnel engage in collection, entry, attestation, correction of errors, and resolution of data issues within the local management information system.in

compliance with the National Reporting System (NRS) and state reporting systems (e.g., WDIS, CCTCMIS). Explain any current limitations and how these will be addressed.

Manatee Adult Education follows established procedures to ensure accurate collection, entry, verification, correction, and reporting of student data in compliance with National Reporting System (NRS), Workforce Development Information System (WDIS), Florida State Reporting (FSR), and other state and federal requirements. Student data, including admissions, assessments, enrollment, attendance, grades, measurable skill gains, Learning Completion Points (LCPs), and credential attainment, are maintained in the Campus Solutions Student Information System (SIS). Instructors, Career Counselors, testing personnel, records staff, and administrators are responsible for data entry and verification within their assigned roles, while the State Reporting Specialist (SRS) oversees data quality and reporting compliance.

The WDIS Data Verification process, Data Quality (DQ2) reviews, and Workforce Education Data System (WEDS) reports are used to identify errors, verify reporting accuracy, resolve discrepancies, and ensure compliance with reporting requirements. Staff collaborate to correct data issues, while program leadership and the Campus Solutions Leads Team review reporting concerns and implement corrective actions as needed. Staff remain current on reporting requirements through Workforce Education Data and Database Administrators Council (WEDDAC) meetings, Florida Department of Education trainings, and professional development activities.

A current limitation is the continued development of automated data integrations, including certain assessment imports into Campus Solutions. The program works with IT and data management staff to improve automation, reduce manual entry, strengthen accuracy, and

increase efficiency. Ongoing system enhancements, staff training, and verification procedures support accurate and compliant data reporting.

F. Accessibility and Supportive Services (12 points)

1. Describe the policies in this four-year plan adopted by the eligible provider to accommodate students and staff with disabilities, including learning disabilities, as described in the American Disabilities Act of 1990 (42 U.S.C. 12102).

Manatee Adult Education's four-year plan ensures compliance with the Americans with Disabilities Act (ADA) of 1990, Section 504 of the Rehabilitation Act, and applicable federal and state laws by providing equal access to educational programs, services, employment opportunities, and workplace responsibilities for students and staff with disabilities, including learning disabilities.

Student needs are identified through intake procedures, assessment reviews, student self-disclosure, referral information, and ongoing progress monitoring. Students who disclose a disability or request accommodations are referred to the Section 504 Coordinator for eligibility determination and implementation of reasonable accommodations in accordance with district procedures and federal requirements. The program may also utilize the CareerSource Suncoast Crosswalk referral system and community agencies to connect students with transportation, healthcare, mental health services, adaptive technology, housing assistance, childcare, and other support services.

Manatee Adult Education partners with Vocational Rehabilitation, the Florida Division of Blind Services, Lighthouse of Manasota, Manatee County Area Transit (Handy Bus), Goodwill Manasota, foster care agencies, and the Florida Department of Children and Families to provide accommodations, assistive technology, and support services. Accommodation may include accessible instructional materials, assistive technology, alternative testing environments,

extended testing time, adaptive equipment, and other reasonable modifications based on individual needs.

The School District of Manatee County provides reasonable accommodations to qualified employees through established ADA and Section 504 procedures supported by Human Resources and designated coordinators. Adult Education instructors participate in ongoing professional development related to ADA compliance, accessibility, and instructional strategies for serving students with disabilities. An Exceptional Student Education (ESE) teacher serves as a disability designee and primary contact for students requesting accommodation or Section 504 plans, while the Disability Resource Team collaborates with Career Counselors, instructors, and community partners to coordinate accommodations and instructional supports.

Additional support includes flexible scheduling through face-to-face, hybrid, and online instructional models, individualized career counseling, and referrals to workforce and community resources.

2. Describe the student support and transition services that support the four-year plan for quality instructional programming. The response must include the following:
    a. how the program identifies and assesses the educational, support, and service needs of all students, including how the provider or its partners deliver the services and resources necessary to address them

Manatee Adult Education identifies and assesses students' educational, support, and service needs through a comprehensive intake and advising process. Upon enrollment, students meet with registration personnel and Career Counselors to discuss educational goals, employment objectives, prior educational experiences, potential barriers to participation, and support service needs. Needs are further assessed through intake documentation, academic assessments, individual advising sessions, instructor referrals, and ongoing monitoring throughout enrollment.

Students who disclose a disability or request accommodations may be referred to the Section 504 Coordinator and the Disability Resource Center at Manatee Technical College for eligibility determination and implementation of appropriate accommodations and support services. Students are informed of their rights under state and federal law and encouraged to self-identify accommodation needs so appropriate support can be provided.

Career Counselors, instructors, administrators, and support staff use the CareerSource Suncoast Crosswalk referral system to connect students with community resources and wraparound services. Through partnerships with organizations like CareerSource Suncoast, Vocational Rehabilitation, Goodwill Manasota, the Florida Division of Blind Services, Lighthouse of Manasota, the Florida Department of Children and Families, and others, students can access transportation, childcare, housing, healthcare, mental health, disability services, workforce prep, and employment supports.

Student needs are monitored throughout enrollment through advising sessions, assessment results, attendance reviews, instructor feedback, and progress monitoring. Career Counselors work with students to develop educational and career plans, explore career pathways, identify workforce training opportunities, and establish short- and long-term goals. As needs change, additional referrals and support services are provided to help students remain engaged, improve educational outcomes, earn credentials, and successfully transition to postsecondary education, workforce training, and employment.

b. how the program provides student advisement services to facilitate transition to postsecondary education/training and employment.

Manatee Adult Education provides comprehensive advisement services to support transitions to postsecondary education, workforce training, and employment. During intake, Career Counselors

meet individually with students to assess educational goals, employment objectives, career interests, support-service needs, and potential barriers. Using career interest assessments and advising tools, counselors help students identify career pathways and develop individualized educational and career plans aligned with each student's interests, abilities, and goals.

Career Counselors collaborate with Adult Education instructors, Career and Technical Education (CTE) Career Counselors, the Exceptional Student Education (ESE) liaison, and community partners to provide ongoing support throughout the enrollment process. Students receive information regarding high-demand occupations, workforce training opportunities, industry-recognized credentials, financial aid resources, postsecondary enrollment requirements, and employment preparation activities.

Adult Education students have direct access to Manatee Technical College's CTE programs and services. Because many Adult Education classes are located on the Main Campus, students are exposed to post-secondary training opportunities and can transition more seamlessly into CTE programs. Students are encouraged to participate in open houses, career fairs, Workforce Wednesdays, and other events that support exploration of educational pathways, workforce training, and employment opportunities.

Through partnerships with CareerSource Suncoast and local employers, students have access to career counseling, workforce preparation services, employment assistance, training resources, supportive services, and job placement support. Transition planning continues throughout enrollment.

c. how the program offers flexible schedules and coordinates Federal, State and local support services *(such as childcare, transportation, mental health services and career planning)* to provide a quality learning system for all students,

including individuals with disabilities or other special needs, to attend and complete programs.

Manatee Adult Education offers flexible scheduling and coordinates Federal, State, and local support services to reduce barriers to participation and to support student persistence, completion, and successful transitions to post-secondary education, workforce training, and employment. To meet the needs of working adults, parents, and individuals with disabilities or other special needs, classes are offered in face-to-face, hybrid, and online formats, as well as during the day and in the evening. Instruction is currently provided on the Main Campus of Manatee Technical College, with an additional instructional site at Bayshore High School being established to expand evening programming and increase accessibility.

During intake and throughout enrollment, Career Counselors work with students to identify educational goals, support-service needs, and barriers that may affect participation or completion. Student needs are monitored through advising sessions, assessments, attendance reviews, and progress monitoring, with additional referrals made as needed.

Manatee Adult Education uses the CareerSource Suncoast Crosswalk system to link students with services like childcare, transportation, housing, healthcare, mental health, disability support, workforce prep, employment help, and financial aid. Special services are for veterans, homeless, foster youth, at-risk groups, and disabled individuals.

Students who disclose a disability or request accommodation may be referred to agencies such as the Disability Resource Center, Section 504 Coordinator, Vocational Rehabilitation, Florida Division of Blind Services, Lighthouse of Manasota, and others for support, accommodations, and assistive technology. Through CareerSource Suncoast's on-campus presence and partnerships with local employers, students gain access to career counseling, training, supportive services, and employment assistance. They are encouraged to participate in Workforce

Wednesdays, career fairs, open houses, and employer activities that connect them with workforce and postsecondary opportunities.

Section 3: Instructional Quality, Evidence-Based Practices & Distance Online Learning

Maximum Points 51

The Program Supervisor must hold a master's degree from an accredited institution and be certified in a career and technical education field. Candidates must have at least five years of successful teaching or related experience and at least three years of leadership or administrative experience. Preferred qualifications include certification in Educational Leadership, Principalship, or Vocational Administration.

The Adult Education Director/Assistant Director must hold a master's degree from an accredited institution and certification in a career and technical education area. Candidates must have at least five years of successful teaching, workforce education, or administrative experience. Preferred qualifications include Educational Leadership certification or Local Director of Vocational Education certification.

Instructional and administrative staff participate in ongoing professional development through organizations like the School District of Manatee County, IPDAE, ACE of Florida, COABE, Burlington English, and Essential Education. Training focuses on evidence-based practices, Florida College and Career Readiness Standards, assessment, IET, technology, and student support. Manatee Adult Education maintains high standards and continuous development to ensure qualified personnel deliver quality services over four years.

2. Identify the program's enrollment structure (*managed enrollment or open-entry/open-exit*) and the course modalities offered (*classroom, laboratory, synchronous online, asynchronous online, and blended*). For blended instruction, specify which modalities are combined. Describe how the chosen enrollment structure and instructional modalities support quality learning experiences and improved student outcomes.

The program offers multiple instructional modalities to meet the diverse needs of adult learners, including: Classroom (face-to-face) instruction, Computer laboratory instruction, Synchronous online instruction, Asynchronous online instruction, and Blended/Hybrid instruction.

Blended instruction combines face-to-face classroom instruction with online coursework delivered through Burlington English for ESOL students and Aztec Software for Adult Basic Education (ABE) and GED® preparation students. Instructors may also utilize synchronous online tools such as Zoom to provide supplemental instruction, tutoring, office hours, and targeted interventions. Instruction is offered at the Manatee Technical College Main Campus, the Bayshore High School evening ESOL site, and through approved online learning options. These modalities provide flexibility for working adults, parents, individuals with transportation barriers, and students requiring alternative scheduling options. Research-based instructional platforms, including Burlington English and Aztec Software, support differentiated instruction, progress monitoring, and extended learning opportunities. Through a managed enrollment structure and multiple instructional modalities, the program promotes student engagement, persistence, measurable skill gains, credential attainment, English language acquisition, and successful transitions to postsecondary education, training, and employment.

3. Describe the minimum participation and attendance requirements for students (such as minimum number of instructional hours a student may register for per week, and registration windows based on enrollment structure). Explain how these thresholds ensure sufficient instructional intensity and duration, consistent with research-based practices shown to support measurable learning gains.

Manatee Adult Education sets minimum participation and attendance requirements to ensure adequate instruction supporting skill gains, credentials, and transitions to further education, training, or work. Classroom students attend at least 10 hours weekly, while blended learners do 5 hours face-to-face plus 5 online. Online-only students engage in at least 10 hours of coursework weekly. Courses run over 32 weeks, focusing on academic, language, literacy, workforce, and transition skills. A minimum of 80% attendance is required, monitored through various platforms. These rules ensure students receive enough instruction aligned with state

standards, fostering skill development, credentialing, persistence, and positive outcomes. Support is available for attendance issues to promote completion and progress toward goals.

4. Describe how the program strategically integrates technology to expand access and improve the quality of instruction. Include how technology is used to deliver online curriculum, support learners with low literacy levels or learning disabilities, and strengthen digital literacy skills. Provide examples of evidence-based practices or data demonstrating that technology integration in your program contributes to measurable performance gains.

Manatee Adult Education uses technology to expand access, improve instruction, boost digital skills, and support achievement in classroom, blended, and online settings. It aligns with Florida Adult Education Frameworks and College and Career Readiness Standards.

The program uses evidence-based digital platforms like Burlington English for ESOL and Essential Education for ABE and GED prep. These curricula offer personalized learning, standards-aligned lessons, workforce skills, assessments, and progress monitoring to support skill gains and achievement.

Technology is integrated through classroom computers, laptops, tablets, interactive displays, and online learning platforms. Students in blended and online courses use Burlington English and Essential Education to access coursework, complete assignments, monitor progress, and build independent learning skills. Technology also supports learners with low literacy levels, disabilities, and other special needs. Students may receive accommodation through the Disability Resource Center, the Section 504 process, and Exceptional Student Education (ESE) supports. Assistive technology, accessible instructional materials, adaptive supports, laptop loan programs, and open computer lab access help ensure equitable participation and access to instruction.

Digital literacy and workforce readiness are integrated into instruction. Students learn skills in computer use, online communication, research, digital citizenship, workplace tech, Microsoft Office, job searches, and resumes. Data from Burlington English, Essential Education, Campus Solutions, assessments, and other tech monitor engagement, progress, skill mastery, and achievement. These data enable targeted interventions, differentiated instruction, and ongoing progress checks. Technology improves performance by offering personalized learning, instant feedback, access to resources, and data-driven support, leading to skill development, persistence, credentialing, and smooth transitions to college, training, or jobs.

H. Evidence-Based Practices (15 points)

1. Describe how the program ensures instruction is of sufficient intensity and quality to support substantial learning gains. Include how instructional design, duration and delivery are informed by rigorous research and evidence-based practices in adult education.

Manatee Adult Education ensures that instruction is sufficiently intensive and high-quality to support substantial learning gains through evidence-based instructional practices, standards-aligned curriculum, ongoing assessment, differentiated instruction, and technology integration. Instruction is grounded in the Florida Adult Education Frameworks and Florida College and Career Readiness Standards and is designed to meet the needs of diverse adult learners, including English language learners, individuals with disabilities, and students with low literacy levels.

Students participate in a minimum of 10 instructional hours per week through classroom, blended, or online learning environments, providing sustained opportunities for skill development and educational advancement. Instruction is delivered using research-based curricula, including Burlington English for ESOL students and Essential Education for Adult

Basic Education (ABE) and GED® preparation students. Supplemental resources such as support literacy, numeracy, workforce readiness, and academic achievement.

Instruction is differentiated based on student needs identified through pre-testing, post-testing, formative assessments, and ongoing progress monitoring. Assessment data are used to identify skill gaps, guide instructional planning, target interventions, and support measurable skill gains. Research-based instructional strategies include explicit instruction, differentiated instruction, scaffolding, formative assessment, collaborative learning activities, and timely feedback.

Technology-enhanced instruction expands access to learning opportunities and supports individualized learning through Burlington English and Essential Education, which provide standards-based instruction, progress-monitoring tools, and workforce readiness activities. Through evidence-based curriculum, ongoing assessment, differentiated instruction, and technology integration, Manatee Adult Education provides high-quality instruction that supports measurable skill gains, credential attainment, postsecondary transition, and employment outcomes.

2. Describe how the program incorporates instructional practices that include the essential components of reading instruction. Explain how these practices are embedded across instructional levels and supported through staff training, curriculum design and classroom implementation.

Manatee Adult Education integrates the essential components of reading instruction—phonemic awareness, phonics, fluency, vocabulary, and comprehension—across ABE, GED®, and ESOL programs, aligned with Florida standards. Burlington English supports language acquisition through speech technology that strengthens phonemic awareness, pronunciation, vocabulary development, and reading comprehension. Essential Education provides individualized

instruction in reading, writing, language arts, and critical thinking. Reading instruction is embedded across instructional levels through standards-based curriculum, differentiated instruction, and classroom activities that incorporate vocabulary development, reading comprehension, writing, and discussion. Instruction is guided by assessment data and supported through evidence-based practices such as explicit instruction, scaffolding, formative assessment, and collaborative learning activities. Staff receive ongoing professional development through the School District, IPDAE, ACE of Florida, Burlington English, and Essential Education on evidence-based reading instruction, accommodations, assessment practices, and adult learning strategies.

3. Describe how the program provides contextualized learning experiences that integrate academic and workforce preparation skills. Explain how these experiences equip students to transition to and complete postsecondary education or training programs, and to obtain and advance in employment that supports long-term economic self-sufficiency.

Manatee Adult Education provides contextualized learning experiences that integrate academic instruction with workforce preparation skills to support transitions to postsecondary education, workforce training, and employment. Instruction develops literacy, numeracy, English language proficiency, digital literacy, and employability skills through research-based curricula, workforce-readiness activities, and real-world applications in ABE, GED® preparation, and ESOL programs.

Burlington English and Essential Education integrate academic content with workplace communication, problem-solving, critical thinking, and career readiness skills. Students apply academic concepts to real-world and workplace scenarios, increasing engagement and reinforcing the relevance of instruction. Career planning activities help students connect educational achievement with career goals through career exploration, pathway identification,

advising, and assessments. Students receive information about high-demand occupations, industry-recognized credentials, workforce training opportunities, and post-secondary education options. Partnerships with Manatee Technical College, CareerSource Suncoast, and local employers provide exposure to career pathways, workforce resources, and employment opportunities. Activities such as Workforce Wednesdays, career fairs, employer engagement events, and campus tours increase career awareness and support successful transitions. By integrating academic instruction, workforce preparation, career planning, digital literacy, and transition services, the program prepares students to complete education and training programs, obtain employment, and advance toward long-term economic self-sufficiency.

4. Describe the agency's plan for implementing continuous professional development to ensure staff are knowledgeable about adult education instruction, assessment, policies, procedures, career pathways strategies, and other state priorities.

Professional development is offered through summer and in-service training covering instructional strategies, standards, assessment, data reporting, career pathways, IET, skill gains, post-testing, and assessment data. All Adult Education instructors have active accounts with IPDAE, which offers webinars, modules, workshops, and resources on best practices and priorities. Staff also participate in professional opportunities through COABE, ACE of Florida, IPDAE, TESOL, Sunshine State TESOL, and National Career Pathways. To support the curriculum, Manatee Adult Education partners with Burlington English and Essential Education to provide training in technology, curriculum, engagement, assessment, and progress. Staff access to additional development through Manatee County School District's face-to-face, hybrid, online, and self-paced options. Needs are identified through program data, outcomes, observations, and priorities. This system keeps staff updated on practices, assessment, policies, career strategies, and workforce trends.

5. Describe how the agency’s professional development plan supports instructors in incorporating current research and evidence-based instructional strategies that lead to effective program outcomes.

Manatee Adult Education's professional development plan uses current research and evidence-based strategies to improve student achievement and program results. It focuses on student data, program needs, reporting, emerging priorities, and adult education research. Opportunities include the Summer Symposium, In-Service trainings, IPDAE, ACE of Florida, COABE, TESOL, Sunshine State TESOL, Burlington English, Essential Education, and the Manatee County School District. The program highlights evidence-based teaching methods like cooperative learning, inquiry-based instruction, higher-order questioning, differentiated instruction, the science of reading, andragogy, backward design, the gradual release model, reciprocal teaching, formative assessment, scaffolding, and effective feedback. Instructional improvements are guided by research from John Hattie, Robert Marzano, and others. Training equips instructors with strategies and resources to address learning gaps, boost engagement, support diverse needs, utilize assessments, and implement targeted interventions. Ongoing professional learning and resources help instructors refine practices and stay current with effective adult education strategies.

I. Distance Online Learning (15 points)

1. If your program offers distance online learning, identify the enrollment structure (managed or open entry/exit), instructional modality(ies) (synchronous, asynchronous or blended), attendance requirements, instructional hour tracking methods and learning platforms utilized.

Manatee Adult Education offers distance learning through a managed enrollment structure with designated enrollment periods and start dates. Distance learning is available through synchronous online, asynchronous online, and blended instructional modalities.

Asynchronous instruction is delivered through Burlington English for ESOL students and Aztec Software for Adult Basic Education (ABE) and GED® Preparation students. Blended instruction combines face-to-face instruction with Burlington English or Aztec online coursework, while some instructors also provide synchronous online instruction.

Students in face-to-face and blended courses must participate in at least 10 instructional hours weekly, while online students are expected to do the same. Those who fail to meet attendance may be withdrawn per policies. Attendance and engagement are tracked via Burlington English, Aztec Software, and Campus Solutions, which monitor logins, time-on-task, skill mastery, attendance, and follow-up. When participation drops, instructors, counselors, and staff intervene with calls, emails, texts, and referrals to support persistence.

2. Describe how technology, digital services and delivery systems are utilized for distance online learning to increase both the amount and quality of learning. Explain how these tools and systems are integrated into instruction and how their use leads to improved student performance and measurable program outcomes.

Burlington English serves as the primary online instructional platform for ESOL students, while Aztec Software is utilized for Adult Basic Education (ABE) and GED® Preparation students. Blended instruction combines face-to-face instruction with online coursework through Burlington English or Aztec Software. Some instructors also utilize synchronous online instruction to provide additional instructional support. These platforms provide standards-aligned content, individualized learning opportunities, workforce readiness activities, and continuous access to instruction outside scheduled class hours. Students engage in lessons, practice activities, and assessments tailored to their educational needs and skill levels.

Student participation and progress are monitored through Burlington English, Aztec Software, and Campus Solutions. These systems track student logins, time-on-task, skill mastery, and

readiness indicators, providing instructors with data to monitor engagement and academic progress. The information is used to identify students who may require additional support, interventions, or follow-up. Technology integration increases instructional time, expands access to learning opportunities, and supports data-informed instruction. The use of Burlington English and Aztec Software enables instructors to monitor progress, target instructional needs, and support measurable skill gains while providing students with flexible learning opportunities that promote persistence and successful program outcomes.

3. Describe how distance online learning activities, including instruction in reading, writing, speaking, mathematics and English language acquisition instruction, are grounded in the best practices derived from the most rigorous research available, including scientifically valid research and effective educational practice.

Distance online learning activities within the Manatee County Adult Education Program are based on research-backed practices and curricula that support adult learners in reading, writing, speaking, math, and English acquisition. Instruction is delivered through Burlington English for ESOL students and Aztec Software for ABE and GED® prep. Burlington offers integrated instruction in reading, writing, listening, speaking, vocabulary, pronunciation, and language learning, using differentiated methods aligned with students' needs and proficiency levels. Aztec provides standards-aligned instruction in reading, math, language arts, and GED® prep via personalized pathways and targeted skill development. The program follows Florida Adult Education standards, incorporating ongoing assessments, skill tracking, and readiness indicators. Both platforms give instructors data on participation, skill mastery, and student progress, enabling tailored instruction and interventions. Students access content through asynchronous, synchronous, and blended formats.

4. Describe how procedures are adapted to ensure distance learners meet the state's expectation for each program as it relates to MSG's credential attainment and ensuring 70% of enrolled participants are post-tested. *(Note: For post-testing alternative assessed students are excluded from the measure.)*

The Manatee County Adult Education Program utilizes attendance monitoring, assessment data, and student intervention strategies to support measurable skill gains (MSG), credential attainment, and post-testing requirements for distance learners. Student participation and engagement are monitored through Burlington English, Aztec Software, and Campus Solutions. These systems provide data on attendance, logins, time on task, skill mastery, readiness, and student progress. Instructors, counselors, and staff review this information to identify students who may require additional support.

When students demonstrate low participation or attendance, staff implement intervention strategies, including emails, phone calls, text messages, and other follow-up efforts. Career Counselors also utilize attendance information to identify students who may need additional assistance. The program monitors pre-test and post-test data to ensure compliance with state assessment requirements and support measurable skill gains. These procedures have helped the program exceed the state's expectation that at least 70% of enrolled participants be post-tested, achieving a post-test rate of 79.25% during the most recent reporting period.

5. Describe how data and information is gathered and analyzed by the program to monitor student engagement and resiliency in distance learning compared to traditional classroom-based instruction.

The Manatee County Adult Education Program uses Burlington English, Aztec Software, and Campus Solutions to track student engagement and persistence in online learning. Burlington English and Aztec Software supply data on student logins, time spent on tasks, skill mastery,

readiness, and progress, while Campus Solutions focuses on attendance and participation. Staff including instructors and counselors, regularly analyze this information to spot students who may face challenges with attendance, engagement, or persistence. When issues are found, intervention methods such as emails, phone calls, texts, and other follow-ups are employed to encourage ongoing participation and connect students with necessary support services. Additionally, the program reviews pre- and post-test results, attendance records, and student progress to assess outcomes for distance learners and compare their participation and achievement to classroom-based students. Continuous monitoring of this data allows for timely interventions, boosts student persistence, and aims to improve skill development and overall program effectiveness.

Section 4: Required Budget Narrative

Maximum Points 18

J. Budget Narrative (18 points)

1. Describe how the funds requested will be spent to meet the objectives consistent with the requirements of WIOA, as outlined in the eligible providers' written narrative responses. Funds will be used to support Adult Education and Literacy activities that align with the Workforce Innovation and Opportunity Act (WIOA), the objectives outlined in this application, and the workforce needs identified within LWDB Region 18.

The majority of the requested funds will support salaries and benefits for qualified instructional and support personnel who provide direct services to students, including instruction, assessment, advising, workforce preparation, career planning, progress monitoring, and transition services. These positions support the delivery of high-quality educational services designed to improve literacy, English language acquisition, workforce readiness, credential attainment, and successful transitions to postsecondary education, training, and employment. Funds may also support instructional materials, technology, and digital learning resources necessary to deliver classroom, blended, and distance learning instruction. These resources support standards-aligned instruction, student engagement, progress monitoring, communication, and access to educational services.

All expenditure will be reasonable, necessary, and directly aligned with the goals, activities, and performance outcomes described in this application. Funds will supplement, not supplant, existing resources and will be expended in accordance with WIOA requirements and applicable federal, state, and local regulations.

2. Describe any other funding sources (federal, state, local, or private) that support your adult education program. Explain how the AEFLA Title II funds requested in this application will *supplement*—and not *supplant*—those existing funds. Include a brief description of how the combined use of these resources enhances program services and outcomes for adult learners.

AEFLA Title II funds supplement adult education services supported through Florida Workforce Development Funds and other state and local resources. Together, these funding sources support literacy, English language acquisition, workforce readiness, and transition services for adult learners. AEFLA funds will supplement, not supplant, existing funding by supporting instructional and support personnel, curriculum resources, instructional technology, digital learning platforms, and other activities that enhance program services and expand educational opportunities. Existing funding sources continue to support core program operations, while AEFLA funds provide additional resources that strengthen instructional quality, student support services, and access to educational opportunities. The School District of Manatee County maintains separate fiscal records and accounting procedures to ensure compliance with federal and state supplement-not-supplant requirements. The combined use of these resources enhances instructional services, career planning, workforce preparation, technology integration, and student support services, thereby promoting educational attainment and successful transitions to postsecondary education, training, and employment.

3. Describe how funds identified as Career Services and Training Services in the project disbursement report DOE 499 will be identified as expenditures aligned with the

allowable activities outlined in Attachment VII, Table C of OCTAE Program Memorandum 17-2.

Funds reported as Career Services Expenditures and Training Services Expenditures on the DOE 499 Project Disbursement Report will be identified and documented in accordance with the allowable activities outlined in Attachment VII, Table C of OCTAE Program Memorandum 17-2 and WIOA Title II requirements. Career Services Expenditures include salaries, benefits, purchased services, and other costs associated with career counseling, educational advising, career assessments, workforce preparation activities, postsecondary transition services, referrals, and student support services. Training Services Expenditures include salaries, benefits, purchased services, instructional materials, curriculum resources, instructional technology, digital learning platforms, assessment activities, and other costs associated with the delivery of Adult Basic Education (ABE), GED® preparation, English language acquisition, workforce readiness, and digital literacy instruction. Indirect costs will be charged in accordance with the district's approved indirect cost rate and applicable federal and state requirements. Supporting documentation and fiscal records will be maintained to ensure expenditures are properly classified, documented, and reported on the DOE 499 Project Disbursement Report.

4. Describe the process used to develop and manage the program budget to ensure accuracy, alignment with planned activities and minimize the need for amendments. Explain how the budget development process reflects thoughtful planning, realistic projections, and adherence to allowable cost principles to prevent the need for post-award revisions.

Manatee Adult Education Program uses a collaborative budget development and monitoring process to ensure expenditures align with program objectives, planned activities, and allowable cost requirements. Budget development begins with a review of program goals, student needs, prior-year expenditures, staffing requirements, enrollment trends, and anticipated operational needs. The Adult Education Director, grant personnel, and fiscal staff collaborate to develop

realistic budget projections and ensure requested funds directly support the instructional, assessment, career services, technology, and student support activities described in the application. All proposed expenditures are reviewed to confirm they are reasonable, necessary, allocable, and allowable under WIOA Title II and applicable federal and state regulations. After award approval, program and fiscal staff regularly monitor expenditures to ensure spending remains aligned with approved budget categories and project objectives. Ongoing communication between program leadership and fiscal personnel supports timely review of expenditures, effective budget management, and early identification of potential issues.

Additional Required Narrative Responses

The following narrative responses (K, L and M) are required but are not scored.

K. Integrated Education & Training

1. Describe the industry sectors and occupations supported by your IET programs. Explain how labor market information, employer input and your LWDB plan informed the selection of these programs. Discuss how each IET aligns to **credentials of value** and supports employment and advancement opportunities for adult learners.

Manatee Adult Education's Integrated Education and Training (IET) programs support workforce sectors identified in the CareerSource Suncoast (CSS) 2025–2028 Local Workforce Development Board (LWDB) Plan, including healthcare, manufacturing, and education. Current IET offerings include Advanced Manufacturing, Phlebotomy, and Paraprofessional. These programs were selected based on regional labor market information, workforce priorities, and employer demand. Each IET integrates adult education, workforce preparation, and occupational training to help participants develop the academic, technical, digital literacy, and employability skills needed for employment and career advancement. Participants earn credentials of value that support entry into high-demand occupations. The Advanced Manufacturing IET prepares students for manufacturing careers, the Phlebotomy IET supports entry into healthcare

occupations, and the Paraprofessional IET prepares participants for the ParaPro Certification assessment and employment as Teacher Aides or Paraprofessionals. Through these career pathway programs, participants gain skills and credentials that support employment and advancement opportunities.

2. Describe how your agency identifies, informs and recruits potential IET participants, particularly individuals most in need of literacy and workforce training services. Include how your agency and partners coordinate referrals, promote awareness of available opportunities and connect students to training options aligned with regional workforce needs.

Potential IET participants are identified through the Adult Education intake process, career assessments, advising sessions, and ongoing interactions with Career Counselors, instructors, and support staff. During intake and career planning meetings, students discuss educational and employment goals, allowing staff to identify individuals who may benefit from Integrated Education and Training (IET) opportunities aligned with regional labor market needs. The program promotes IET opportunities through social media, program flyers, the Manatee Technical College website, open houses, campus tours, Workforce Wednesdays, career fairs, and community outreach activities. Career Counselors and instructional staff provide information regarding career pathways, occupational training opportunities, and industry-recognized credentials that support employment and career advancement. The program collaborates with CareerSource Suncoast, community organizations, local employers, and Manatee Technical College Career and Technical Education (CTE) programs to coordinate referrals and connect students with training opportunities aligned with workforce priorities identified in the LWDB Region 18 Plan. Referrals may originate from Adult Education staff, CareerSource Suncoast, community agencies, employers, and other partners serving individuals with barriers to employment, limited English proficiency, low literacy skills, or other educational needs.

3. Describe how your agency collaborates with partners—such as CareerSource centers, postsecondary institutions, employers, industry associations, and community organizations—to plan, implement, and sustain IET programs. Explain how these partnerships support co-enrollment, resource sharing, work-based learning, credential attainment, and employment outcomes.

Manatee Adult Education partners with CareerSource Suncoast, Manatee Technical College CTE programs, post-secondary institutions, employers, community organizations, and workforce partners to develop and sustain IET programs that meet regional workforce needs. These collaborations identify high-demand jobs, shape program design, support recruitment, and connect participants to education, training, and employment. CareerSource Suncoast provides co-enrollment, workforce services, career counseling, supportive services, and referrals via the Crosswalk system. Postsecondary and CTE partners offer access to occupational training, career pathways, and credentials aligned with local labor markets. Employers and workforce partners share labor market info, engage in career exploration, and support workforce development to connect participants with jobs. Community organizations offer supportive services to reduce participation barriers. These partnerships give participants access to workforce training, credentials, career services, and employment resources for successful job transitions and career growth.

4. Describe how your agency collects, tracks and uses data to assess IET program performance and guide decision-making. Explain how staff analyze and apply data to strengthen program quality, align services with workforce needs, and promote shared accountability among staff and partners.

SDMC Adult Education Program collaborates with workforce, education, employers, and community partners to plan, implement, and sustain Integrated Education and Training (IET) programs that support participants who align with regional workforce needs. These partnerships

ensure that IET offerings align with labor market needs, grant access to industry-recognized credentials, and facilitate pathways to employment and career growth.

The program collaborates closely with CareerSource Suncoast, Manatee Technical College CTE programs, local employers, community organizations, and workforce partners to identify high-demand occupations, support recruitment, coordinate referrals, and connect students with education and training opportunities. Labor market data, employer feedback, and workforce priorities outlined in the LWDB Region 18 Plan guide program planning and ensuring it meets regional employment needs.

Adult Education students are connected to CareerSource services through advising, referrals, Workforce Wednesdays, and other collaborative activities designed to support educational and employment goals.

Partnerships with Manatee Technical College CTE programs facilitate the integration of adult education, workforce preparation, and occupational training. Through coordinated advising, career exploration, campus tours, open houses, and transition services, students are informed of available career pathways and training opportunities that lead to credentials of value and employment in high-demand industries.

Employers and industry partners support program implementation by participating in career fairs, Workforce Wednesdays, recruitment activities, advisory committees, and other workforce engagement opportunities. These partnerships provide students with exposure to workplace

expectations, employment opportunities, and industry-specific career pathways while helping ensure training remains aligned with employer needs.

M. Family Literacy and Two Generation Approaches

1. Discuss the progress and evolution of two-generation approaches as outlined in year one of the four-year plan. Provide an update on the identification of suitable provider partners and the collaborative development of two-generation models. Offer insights into the partners' capacity to deliver comprehensive two-generation services.

The Manatee County Adult Education Program aims to enhance educational and economic outcomes for parents and children through two-generation approaches. Collaborating with educational institutions, workforce partners, community groups, and early learning providers, it connects families with resources for literacy, school readiness, workforce participation, and self-sufficiency. Initiatives like Soar in 4 and the Suncoast Campaign for Grade-Level Reading help identify organizations with expertise in early childhood education, family engagement, literacy, and workforce services. The program will keep evaluating ways to improve family literacy and two-generation strategies based on community needs and resources.

2. Additionally, include details on:

    a. Curriculum/material intended to be used to provide instruction to this population.

Family literacy and two-generation activities may utilize evidence-based curricula and instructional materials designed to support early literacy development, family engagement, and school readiness. Resources may include Sound Beginnings, PBS/Sesame Street educational materials, Soar in 4 curricula, and other age-appropriate literacy resources that promote language development, reading readiness, and family learning activities.

Integrated English Literacy and Civics Education (IELCE) - Section 243 (15 points)

Narrative Questions

1. Describe strategies to identify and recruit English language learners for participation in the proposed IELCE program(s), including those learners with advanced degrees from other countries.

Manatee Adult Education uses a comprehensive outreach and recruitment strategy to identify and recruit English language learners (ELLs), including those with foreign degrees, credentials, and experience, for IELCE services. Recruitment includes social media, the Manatee Technical College website, digital signage, community events, career fairs, open houses, promotional materials, PeachJar electronic flyers, and referrals from CareerSource Suncoast, local employers,

workforce partners, and community organizations. The program also collaborates with School District departments like ESOL, Migrant Education, Dual Language, Homeless Education, Guidance, Dropout Prevention, and Early Learning to identify potential participants.

2. Describe how English language learners participating in IELCE can engage in the three required components: a) instruction in English language acquisition and civics education; b) workforce preparation activities; and c) workforce training. Describe how these components occur simultaneously (rather than sequentially) and are based on a single set of learning objectives.

English language learners participating in the IELCE program engage concurrently in English language acquisition, civics education, workforce preparation, and workforce training through an integrated instructional model with shared learning objectives.

a. Manatee Adult Education utilizes Burlington English as the core IELCE curriculum. Through contextualized instruction, students develop reading, writing, listening, speaking, vocabulary, and comprehension skills while learning about civic participation, citizenship, community engagement, government structure, and the rights and responsibilities of citizenship.

b. Workforce preparation activities are embedded throughout instruction using Burlington English Career Pathways and supplemental workforce readiness materials. Students develop workplace communication, digital literacy, critical thinking, problem-solving, teamwork, professionalism, customer service, and career planning skills through activities connected to workplace settings.

c. Workforce training is delivered concurrently through career pathways and Integrated Education and Training (IET) opportunities. In the IELCE Paraprofessional IET program,

participants receive English-language instruction and workforce-preparation activities while simultaneously completing occupational training through the Bloom Board platform. The program prepares learners for the ParaPro Certification assessment and employment as Teacher Aides or Paraprofessionals.

3. Describe how the IELCE program(s) will prepare participants to transition into unsubsidized employment in Describe how braided funding and/or cost sharing agreements with partners will support the workforce training component of the proposed IELCE program(s).

The IELCE program prepares English language learners to transition into unsubsidized employment by integrating English language acquisition, civics education, workforce preparation activities, career planning, and workforce training opportunities. Through individualized education and employment planning, participants develop the language, academic, digital literacy, and employability skills needed for post-secondary education, training, and employment. Career Counselors provide career interest assessments and ongoing advising, and connect participants to career pathways, Integrated Education and Training (IET) programs, and workforce training opportunities aligned with regional labor market needs. Participants also receive workforce readiness instruction, career exploration opportunities, and referrals to supportive services that help reduce barriers to employment. This program collaborates with CareerSource Suncoast and other community partners to connect participants with employment services, workforce resources, supportive services, and training opportunities.

Narrative Questions

1. Describe the procedures that are in place to promote alignment among adult education service providers in the local area.

To promote alignment among adult education service providers in the local area, the School District of Manatee County and Sarasota County School Districts have established several collaborative procedures. They utilize the Crosswalk referral system, a web-based application that enhances communication and interagency referrals, ensuring that students have quick access to essential services. Additionally, satellite One-Stop centers at Manatee Technical College and Suncoast Technical College provide integrated services, with CareerSource Suncoast working alongside adult education programs to offer assessments, counseling, and advising in a single location. The districts also engage in joint program development for Integrated Education and Training (IET) initiatives, aligning training with regional workforce needs. Regular meetings between providers foster ongoing dialogue and coordination, while shared professional development opportunities ensure that staff are knowledgeable about best practices and program updates. Collectively, these efforts strengthen collaboration and enhance the educational experiences of adult learners in the region**.**

2. Describe how the adult education program will address the regional needs as identified in the LWDB plan by serving individuals in the community who were identified as most in need of adult education and literacy activities, including individuals who have low levels of literacy skills or who are English language learners.

   The Manatee County Adult Education Program addresses the regional needs identified in the CareerSource Suncoast Local Workforce Development Board (LWDB) Region 18 Plan by providing educational and workforce preparation services to individuals with low literacy skills, English language learners, high school dropouts, unemployed and underemployed adults, and individuals facing barriers to employment and educational attainment.

   The LWDB plan identifies a significant need for adult education and literacy services within Manatee County. A substantial percentage of residents with limited English proficiency, low educational attainment, and high school non-completion reside within the county. To address these needs, Manatee Adult Education provides Adult Basic Education (ABE), Adult ESOL, GED® Preparation, workforce preparation activities, Integrated Education and Training (IET), career pathway services, and transition support for postsecondary education and employment.

   Services are delivered through flexible instructional models, including classroom, hybrid, and distance learning options, to increase access for working adults, parents, and individuals with transportation or scheduling barriers. Career Counselors assist students with educational planning, career exploration, transition services, and referrals to community resources. Through the CareerSource Suncoast Crosswalk referral system and partnerships with workforce and community agencies, students can access supportive services that help address barriers to persistence and success.

   Instruction is aligned with Florida Adult Education standards and incorporates evidence-based curricula, digital literacy development, workforce preparation activities, and career readiness skills. Students are provided opportunities to transition into postsecondary education, workforce training, and employment pathways aligned with regional workforce priorities identified in the LWDB Region 18 Plan.

   Through these comprehensive services, Manatee Adult Education supports measurable skill gains, credential attainment, English language acquisition, workforce readiness, and economic self-sufficiency while addressing the educational and workforce needs of the local community.

3. Describe how the eligible provider will provide adult education activities and services in alignment with the strategy and goals of the LWDB plan, including how the agency will promote co-enrollment in programs and activities provided by WIOA, Title I core programs (Adult Program, Dislocated Worker Program, Youth Program, Adult Education and Family Literacy Act, Wagner-Peyser Act, Vocational Rehabilitation Program, including Blind Services Program).

The Manatee County Adult Education Program aligns its services with the goals and strategies identified in the CareerSource Suncoast Local Workforce Development Board (LWDB) Region 18 Plan by preparing individuals for postsecondary education, workforce training, employment, and economic self-sufficiency. The program supports the LWDB's vision of developing an educated and skilled workforce that meets the needs of regional employers and contributes to economic growth throughout the region.

The program provides Adult Basic Education (ABE), Adult ESOL, GED® preparation, workforce preparation activities, career pathways, Integrated Education and Training (IET), and transition services through traditional classroom, hybrid, and distance learning formats. These services are designed to help individuals with low literacy skills, English language learners, unemployed and underemployed adults, and others facing barriers to employment obtain the skills needed to enter and advance in the workforce.

Manatee Adult Education collaborates closely with CareerSource Suncoast and other workforce system partners through the local One-Stop delivery system. Through the One-Stop Center located at Manatee Technical College, students have access to workforce services, career assessments, labor market information, career counseling, training opportunities, supportive services, and employment assistance.

The program actively promotes co-enrollment and coordinated service delivery with WIOA Title I Adult, Dislocated Worker, and Youth programs; Wagner-Peyser employment services; the Florida Division of Vocational Rehabilitation; the Florida Division of Blind Services; and other workforce and community partners. Career Counselors and staff utilize the CareerSource Suncoast Crosswalk referral system to facilitate referrals, coordinate services, and connect students with educational, workforce, and support resources that help remove barriers to participation and employment.

Through collaboration with CareerSource Suncoast, workforce partners, employers, and community agencies, Manatee Adult Education supports the goals of the LWDB Region 18 Plan by increasing access to education and training, promoting workforce readiness, supporting credential attainment, and helping participants transition to postsecondary education, workforce training, and unsubsidized employment.

4. Provide specific details about shared-cost activities and the resources utilized to support those costs (Example: AEFLA funds cover the cost of the full-time adult education teacher, and the local board covers the cost of the classroom facility).

   AEFLA funds support direct Adult Education services, including instructor and Career Counselor salaries and benefits, online instructional programs, digital curricula, assessments, instructional materials, workforce preparation activities, and technology resources such as computers and tablets used by Adult Education students. These resources support Adult Basic Education (ABE), Adult ESOL, GED® preparation, Integrated Education and Training (IET), and transition services.

The School District of Manatee County provides classroom and office space, utilities, furniture, technology infrastructure, telecommunications, custodial services, administrative support, and fiscal oversight necessary to operate the program. District resources also support student records management, information technology services, and compliance activities.

CareerSource Suncoast maintains a presence at Manatee Technical College and provides workforce development services, labor market information, referrals, career counseling, workforce preparation resources, supportive services, and employment assistance. Through the CareerSource Suncoast Crosswalk referral system, Adult Education students can access transportation assistance, supportive services, job placement assistance, training opportunities, and other resources that help reduce barriers to education and employment.

This shared-cost approach leverages federal, state, local, and partner resources to maximize services, improve student outcomes, and support transitions to postsecondary education, workforce training, and employment.

5. Provide a copy of the MOU agreement and Local One-stop Infrastructure Cost agreement with the LWDB. (If a MOU is not available at the time the application is submitted, an executed MOU must be submitted to FDOE prior to the issuance of the grant award notification.)

II. Purpose

The Workforce Innovation & Opportunity Act (WIOA) is an affirmation of the work that has been done in Florida to build the workforce development system. The cornerstone of the Act is its American Job Center (AJC) One-Stop customer delivery system. The AJC One-Stop system assures coordination between the activities authorized in and linked to the Act.

WIOA requires Local Workforce Development Boards (LWDB) to develop and finalize Infrastructure Funding Agreements (IFA) with all required partners that carry out their programs in the local area.

The purpose of this agreement is to establish a financial plan, including terms and conditions, to fund the services and operating costs of the AJC One-Stop customer delivery system. The Parties to this Infrastructure Agreement (IFA) agree that joint funding is a necessary foundation for an integrated service delivery system. The goal of the operating budget is to develop a funding mechanism that:

- Establishes and maintains the local workforce delivery system at a level that meets the needs of the job seekers and businesses in the Local area,
- Reduces duplication and maximizes program impact through the sharing of services, resources, and technologies among Partners (thereby improving each program's effectiveness),
- Reduces duplication by establishing data sharing as it relates to participant records for outcome information,
- Reduces overhead costs for any one partner by streamlining and sharing financial, procurement, and facility costs, and

v. Cost Allocation Methodology

All required Partners have agreed to provide access to their programs in the comprehensive One-Stop Career Center and contribute to the infrastructure costs. Partners will have staff co-located in the Center (on a full or part-time basis) or will provide access via direct linkage as outlined in Attachment A (Partner On-site Representation Schedule} and will fund operating costs based on a percentage of the partner's annual FTE. (All costs included in the IFA, allocated according to Partners' proportionate use and relative benefits received, and will be reconciled on a quarterly basis.)

Required partners who have elected not to have staff co-located in the AJC will utilize a "direct linkage" that will allow customers to connect with partner program staff to access

services. Cross-trained front desk and other physically co-located staff can assist in providing information and referrals to the direct-linkage partners. Partners utilizing direct linkage must contribute to the infrastructure cost equivalent to a minimum of 0.1 FTE or 4 hours per week (1 FTE is equivalent to 40 hours/week).

The LWDB selected the cost allocation bases to determine overall Partner contributions. This was done in an effort:

a) To remedy the imbalance of non-physically represented Partners, and

b) To comply with the requirement of Partners' contributions having to be in proportion to the Partners' use of the AJC and relative benefits received.

As outlined in the MOU, the costs of the infrastructure of AJC One-Stop Center will be funded in accordance with the requirements of the Workforce Innovation and Opportunity Act; federal cost principles; and all other applicable legal requirements.

VI. PARTNER CONTRIBUTION (Based on all costs associated with the operation of the American Job Center)

Below is the partner contribution cost determination:

Estimated Cost per FTE	Estimated Infrastructure Costs Total Partner FTE _____ / _____ = _____
Partner Physical Presence Contribution (*partners who elected to have their representatives in the One-Stop on a FT or PT basis to serve customers)*	1 FTE x Estimated Cost per FTE 1 FTE x $18,205 = $18,205 **(1 FTE represents 40 hours/week commitment)**
Partner Direct Linkage/Visual Presence Contribution *(Partner who elects not to have their representative in the one-stop but offer a technology option to serve customers.)*	Minimum of 0.1 FTE or 4 hours per week 0.1 FTE x $ 18,205= $1,821 **(0.1 FTE represents 4 hours/week commitment)**

The infrastructure funding may be from funds classified as administrative, program, or both, depending on the partner programs' requirements.

VII. Cost Reconciliation

The source of funds that may be used to pay for infrastructure costs depends on the requirements regarding use of funds under the law authorizing the partner program that is contributing the funding.

The Partner agrees to submit Infrastructure Funding agreement reports on a quarterly basis for the LWDB (CSS) to complete a reconciliation of budgeted and actual costs and updates of the allocation basis.

All Parties agree that a bi-annual reconciliation of budgeted and actual costs and update of the allocation basis will be provided for the review.

The LWDB will submit invoices (if applicable) to the Partners and send a copy of the updated budget to all Parties. Partners will communicate any disputes with costs in the invoice or the budget to the LWDB in writing. The LWDB will review the disputed cost items and respond accordingly to the Partner. When necessary, the LWDB will revise the invoice and the adjusted budget upon resolution of the dispute.

One-Stop delivery system infrastructure costs are defined as non-personnel costs that are necessary for the general operation of the OSCC, including, but not limited to: Rental of the facilities; Utilities and maintenance; Equipment, including assessment-related products and assistive technology for individuals with disabilities; and, Technology to facilitate access to the One-Stop delivery system, including technology used for the center's planning and outreach activities. This may also include the costs associated with the development and use of the common identifier (i.e., American Job Center signage) and supplies, as defined in Uniform Guidance at 2 CFR 200.94, to support the general operation of the One-Stop center (WIOA sec.121 (h)(4) and 20 CFR 678.700(a), and 34 CFR 446.700(a)).

Non-personnel costs are costs that are not compensation for personnel costs. For example, technology-related services performed by vendors or contractors are non-personnel costs and may be identified as infrastructure costs if they are necessary for the general operation of the One-Stop center. Such costs would include service contracts with vendors or contractors, equipment, and supplies.

Personnel services include salaries, wages, and fringe benefits of the employees of partner programs or their subrecipients, as described in 2 CFR 200.430-200.431 of the Uniform Guidance. For example, allocable salary and fringe costs of partner program staff who work on information technology systems (e.g., common performance and reporting outcomes) for use by the One-Stop center as a whole would be personnel costs. The costs of a shared welcome desk or greeter directing employers and customers to the services or staff that are available in that One-Stop center is a personnel expense. These costs, therefore, could not be included in infrastructure costs but are included in "additional costs."

All Parties to this IFA recognize that infrastructure costs are applicable to all required Partners, whether they are physically located in the One-Stop Career Center (OSCC) or not. Each partner's contributions to these costs, however, may vary, as these contributions are based on the proportionate use and relative benefit received, consistent with the Partner programs' authorizing laws and regulations and the Uniform Guidance.

VII. Term

The Term of this IFA shall commence on July 01, 2023 or the date last executed by both parties, whichever is later, through June 30, 2024. The IFA will be reviewed and renewed annually for successive one-year terms as an amendment to this agreement. This IFA may be terminated for convenience at any time by either party upon thirty (30) days written notice. Neither this IFA nor any provision hereof may be changed, waived, discharged or terminated orally, but only by an instrument in writing signed by each of the parties to this Agreement.

IX. Amendments and Modifications

Neither this IFA nor any provision hereof may be changed, waived, discharged or terminated orally, but only by an instrument in writing signed by each of the parties to this Agreement sent via certified, return receipt requests, U. S. Mail.

X. Merger

This IFA constitutes and expresses the entire and integrated understanding and agreement between the parties hereto, superseding, incorporating, and merging all prior understandings, agreements, and discussions relating to the transactions contemplated hereby, and no agreements, understandings, prior negotiations, prior discussions, warranties, representations or covenants not herein expressed shall be binding upon the parties.

XI. Third Party Beneficiary

The Parties expressly acknowledge that it is not their intent to create or confer any rights or obligations in or upon any third person or entity under this IFA. None of the Parties intend to directly or substantially benefit a third party by this IFA. The Parties agree that there are no third-party beneficiaries to this /FA and that no third party shall be entitled to assert a claim against any of the Parties based upon this IFA.

XII. Governance

The accountability and responsibility for the One-Stop career center system's organizational activity and accomplishments will rest with CSS. Pursuant to the Act CareerSource shall conduct oversight with respect to the One-Stop delivery system. Any dispute concerning this IFA will be resolved in accordance with CSS.

XIIII. Dispute Resolution

If an issue arises involving this IFA, both parties will make every effort to reach a resolution in a timely and efficient manner. Either partner may request a face-to-face meeting of the local partners to identify and discuss the issue. If resolved and no further action is deemed necessary by the partners, the issue and the resolution will be documented in writing.

If not resolved, the issue and the efforts to resolve will be documented and forwarded to the President/CEO of CareerSource Suncoast and the Director of the Partner organization. A joint decision shall be issued within sixty calendar days of receipt.

If dissatisfied with the decision, the dispute may be filed with the State of Florida Department of Economic Opportunity (DEO) and the Commissioner of the Education to review concerns and determine resolution. DEO and DOE may remand the issue back to the President/CEO of CareerSource Suncoast and to the Director of the Partner organization, Partner or impose other remedies to resolve the issue.

Section 1. Comprehensive Local Needs Assessment and Stakeholder Engagement

A Comprehensive Local Needs Assessment (CLNA) is required of all eligible recipients every two years in order to guide activity and program development to meet Perkins V requirements. The fourth CLNA was conducted during the 2025–2026 program year for implementation of the 2026–2027 and 2027–2028 program years. The fifth CLNA is to be conducted in the 2027-2028 program year.

A. Please Respond to the Following Questions:

QUESTION		RESPONSE
i.	Describe the process your agency used to conduct the required biennial CLNA during the 2025-2026 program year. The results from this CLNA will guide your agency's Perkins V high priorities that will be implemented in the 2026–2027 and 2027-2028 program years.	The School District of Manatee (SDMC), including Manatee Technical College (MTC), collaborates regularly with key stakeholders such as the State College of Florida (SCF), Sarasota County Schools, and various business and education partners. These partnerships involve surveys, in-person meetings, and ongoing communication to assess the needs of the communities we serve. Certain stakeholder groups meet on a bi-monthly basis to identify opportunities and address emerging priorities. Each institution independently collects and analyzes data to support program development and identify gaps in services. This includes reviewing prior years' Perkins performance indicators to determine areas of focus. Additionally, data is extracted from our local student information system, including program completion rates,

		industry certification attainment, GPA, and demographic information, to help identify disparities and challenges. Labor market alignment is guided by multiple sources, including the Local Targeted Occupations List, the Regional Targeted Occupations List, and CareerSource Suncoast projections. These tools help ensure that programs meet criteria for high-wage, high-skill, and in-demand occupations. Surveys are also administered to instructors, students, parents, and business partners to evaluate program effectiveness and identify areas for improvement. Furthermore, all future advisory council meetings will include a Comprehensive Local Needs Assessment (CLNA) agenda item to support continuous feedback and alignment. **High-priority funding needs include:** • Teacher release time and substitute coverage • Support for Career & Technical Student Organizations (CTSOs) • Strengthening advisory councils and professional partnerships • Support for student and teacher participation in CTSO-related activities • Classroom supplies, equipment, and repair needs • Career Pathways Coordinator to support collaboration among and students attending MTC, SCF, and SDMC • Work-Based Learning Teacher on Assignment • Non-contracted hourly pay for teachers supporting CTSOs and participating in professional development • Teacher preparation and ongoing professional development • Opportunities for non-CTE personnel to attend CTE-related events **Additional priorities include:** • Support for economically disadvantaged students Engagement for the 2026–2027 cycle will mirror previous years, with the addition of new advisory councils. These

		expanded groups will provide valuable insight into workforce trends and community needs. At this time, no additional funding is required specifically for the implementation of the CLNA process.

B. Complete the Stakeholder Consultation Summary Table below:

CLNA: Stakeholder Consultation Summary Table:

[A] Stakeholder Category Required by Perkins V Law	[B] List the individuals, organizations, associations and other groups consulted locally for this category of stakeholder. C. Size, Scope and Quality (SSQ) for Middle Grades Courses and Grades 9–12 Career Preparatory and Technology Education Programs

Middle Grades Narrative Summary for SSQ

		RESPONSE
(a) SIZE: Intentionally Designed Pathways	Explain how your middle school CTE programs are selected and how they link to high school and postsecondary CTE programs.	Historically, there has been a tendency to continue programs based solely on existing teacher certification. However, we have shifted this practice by strongly encouraging schools to collaborate with the Adult, Career, and Technical (ACT) department when making decisions regarding program continuation, replacement, or staffing changes. To ensure strategic alignment and program quality, all new programs are required to receive approval through the ACT department prior to implementation. This process allows our team to provide subject-matter expertise and ensures that new offerings are aligned with existing high school pathways, workforce demands, and district priorities.
(b) SCOPE: Engaging Instruction	Describe how your district's middle grades exploratory courses provide instruction that integrates academic, technical, and employability skills.	Our middle grades courses align with the Florida Department of Education (FLDOE) curriculum frameworks, ensuring that students develop academic, technical, and employability skills. Additionally, we encourage educators to collaborate in planning whenever possible and to actively participate in Career and Technical Student Organizations (CTSOs) to further integrate and reinforce these skill areas.
(c) QUALITY: Appropriate Instructional Supports	Describe how your district's middle grades exploratory courses provide instruction that incorporates relevant equipment, technology, and materials to support learning.	We are fortunate to have access to multiple funding sources for Career and Technical Education (CTE) and strategically utilize Perkins funds, along with these additional resources, to ensure students have access to current, industry-relevant equipment, technology, and instructional materials. Over the past five years, the School District of Manatee County (SDMC) has invested more than $7 million to upgrade equipment across our CTE programs, supporting high-quality, workforce-aligned learning environments.
(d) QUALITY: Prepared and Effective Teachers	Describe how your district's middle grades exploratory courses provide CTE instructors support to maintain up-to-date skills and knowledge necessary to support learning.	Perkins funding is allocated to support high-quality professional development for teachers, including training in instructional pedagogy, attainment of industry certifications, conference participation, and Career and Technical Student Organization (CTSO) activities. Additionally, we provide non-contracted hourly (NCH) compensation for many professional

		learning opportunities, ensuring teachers are supported for their time and engagement beyond contracted hours. We also promote collaborative learning through our *Programs in Practice* initiative, which provides educators with opportunities to learn from one another, share effective strategies, and strengthen program implementation across sites.
(e) QUALITY: Access and Equity	Describe how your district's middle grades exploratory courses implement measures to eliminate barriers and create opportunities for all students to succeed in CTE.	We work to eliminate barriers for students in Career and Technical Education (CTE) by ensuring equitable access to all programs. Students are able to select any CTE course as an elective, and there is no application or screening process required for enrollment. Schools make every effort to schedule students into their first-choice electives, supporting student interest and engagement. In addition, we provide supports to help students succeed once enrolled. If a student experiences difficulty in a CTE course, they are encouraged to seek assistance from the instructor. Many schools also offer peer support systems, allowing students to receive additional help from classmates. These strategies help ensure that all students have both access to and support within CTE programs.

9-12 Career Preparatory/Technology Education Programs Narrative Summary for SSQ

		RESPONSE
(a) SCOPE: Business and Industry Engagement and Workforce Alignment	Describe how your district's CTE programs strategically engage business and industry to ensure the program meets workforce demand as substantiated by the CLNA Labor Market Alignment.	We strategically engage business and industry partners through a variety of structured and ongoing collaborations. Most of our programs are supported by active advisory councils that include parents, students, business and industry representatives, and instructors from both the secondary and postsecondary levels. These councils provide valuable input on program relevance, curriculum alignment, equipment needs, and workforce trends. In addition, CTE staff actively participate on numerous local and regional boards and committees, including the Sarasota-Manatee Manufacturing Association, Gulf Coast Builders Exchange, Manatee Chamber of Commerce, Future Workforce Committee, Reach Manatee, and Junior Leadership

		Manatee. This involvement ensures strong, continuous connections with industry partners and helps keep our programs aligned with current workforce needs and emerging opportunities.
(b) QUALITY: Engaging Instruction	Describe how your district's CTE programs provide instruction that integrates academic, technical and employability skills and how those programs support the integration of academic skills into your CTE programs.	Our district's CTE programs deliver instruction that intentionally integrates academic, technical, and employability skills through alignment with Florida Department of Education (FLDOE) curriculum frameworks. These frameworks ensure that students develop rigorous academic knowledge alongside industry-specific technical skills and essential workplace competencies such as communication, problem-solving, and teamwork. To further strengthen integration, we encourage cross-curricular collaboration by promoting joint planning among CTE and academic teachers whenever possible. This collaborative approach supports the intentional embedding of academic standards within CTE instruction, allowing students to see the relevance and application of their learning. Additionally, participation in Career and Technical Student Organizations (CTSOs) provides students with meaningful opportunities to apply academic and technical knowledge in real-world contexts while developing leadership and employability skills. Many of our high schools also offer career academies that enhance this integration by organizing instruction around career pathways. These academies are supported by the district through dedicated resources, including participation incentives and non-contracted hourly (NCH) support for teachers, ensuring high-quality, cohesive program implementation.
(c) QUALITY: Appropriate Instructional Supports	Describe how your CTE programs provide instruction that incorporates relevant equipment, technology, and materials to support learning.	Our CTE programs provide instruction that incorporates relevant, industry-aligned equipment, technology, and materials to support student learning. We are fortunate to have access to multiple funding sources for Career and Technical Education and strategically leverage Perkins funding alongside these resources to ensure that classrooms reflect current workforce standards. Through these investments, students are able to train on modern equipment and technology that mirrors

		what is used in industry, enhancing both skill development and career readiness. Over the past five years, the School District of Manatee County (SDMC) has invested more than $7 million to upgrade equipment across our CTE programs, demonstrating a strong commitment to maintaining high-quality, relevant learning environments.
(d) QUALITY: Prepared and Effective Faculty and Staff	Describe how your CTE programs provide CTE instructors support to maintain up to date skills and knowledge necessary to support learning.	Our CTE programs provide comprehensive support to instructors to ensure they maintain up-to-date skills and knowledge necessary to support high-quality instruction. A significant portion of Perkins funding is dedicated to professional development opportunities, including training in effective instructional practices, attainment and renewal of industry certifications, conference attendance, and support for Career and Technical Student Organizations (CTSOs). To further encourage participation and remove barriers, we provide non-contracted hourly (NCH) compensation for many professional learning activities, allowing teachers to engage in training beyond their contracted hours. This approach ensures that instructors remain current with industry standards, emerging technologies, and best practices in teaching and learning, ultimately enhancing student outcomes.

iii. **List High-Priority SSQ Needs:** As a result of your CLNA review, provide a **numbered list** of the high-priority need(s) that will be addressed in the 2026–2027 program year.

Note: List only needs (areas of potential growth and improvement), as opposed to solutions/initiatives/plans/expenses or other approaches to meeting the identified needs. Provide the list as a sequentially numbered list (1, 2, 3, etc.), not a ranked priority list. The list will be used to match budget expenditures to these needs in the 2026–2027 program year.

Reference Number	Need (Use for Planning and Budgeting)

i. Complete the following narrative summary.

		RESPONSE
a.	**Alignment**: Which of your district's locally offered programs would benefit from additional postsecondary program, course, and/or curriculum alignment?	Agriculture, Building Construction Trades (Apprenticeship). We have worked with Career Source Suncoast to develop a high school pre-apprenticeship program that will align to existing Apprenticeship offerings. This program was approved in the spring of 2026 and will begin implementation in the fall of 2026 at two high schools.
b.	**Acceleration**: Which programs of study, or potential programs of study, would benefit from additional accelerated credit opportunities, including dual or concurrent enrollment, local/statewide articulation agreements, or aligned academic accelerated credit courses?	We are continuing to explore the opportunity to offer career dual enrollment at selected high school sites. Staffing is difficult when the need may only be for a part-time teacher.
c.	**Coordination**: Which program areas are un- or underrepresented on your advisory council(s)?	Since most of our programs have advisory councils, they are adequately represented
d.	**Percent Enrollment**: Per Florida's Perkins V State Plan, all secondary eligible recipients were to have 75% enrollment in fully compliant Programs of Study in 2025–2026. Estimate your percent enrollment in programs of study (columns E and R of the CLNA Excel can help) and determine how many additional programs	Approximately 85% of our students are enrolled in fully compliant Programs of Study. 	of study will need to be launched in 2026–2027 to meet the 75% enrollment in programs of study goal.	

ii. **List High-Priority CTE Programs and Programs of Study Needs:** As a result of your CLNA review, provide a **numbered list** of the high-priority need(s) that will be addressed in the 2026–2027 program year.

Note: List only needs (areas of potential growth and improvement), as opposed to solutions/initiatives/plans/expenses or other approaches to meeting the identified needs. Provide the list as a sequentially numbered list (1, 2, 3, etc.), not a ranked priority list. The list will be used to match budget expenditures to these needs in the 2026–2027 program year.

F. Recruitment, Retention, and Training of Teachers, Faculty and All Other Professionals

The purpose of this section is to give local eligible recipients an opportunity to provide information and identify high priority needs related to the recruitment, retention and training of CTE personnel.

i. Complete the following narrative summary.

Faculty and Staff:

		RESPONSE
a.	Provide an overview of your district's process and method for evaluating existing efforts of recruitment, retention, and training of career and technical education teachers, faculty, specialized instructional support personnel, paraprofessionals, and career guidance and academic counselors, including individuals in groups underrepresented in such professions and what the evaluation revealed about those efforts.	Each year, the Adult, Career, and Technical (ACT) department conducts an evaluation of current needs related to the recruitment, retention, and training of CTE staff. This ongoing assessment has led to strategic staffing decisions, including the addition of a Work-Based Learning (WBL) staff member who supports both teachers and students in navigating and expanding work-based learning opportunities. This role is instrumental in strengthening program quality by assisting teachers in developing and sustaining meaningful industry partnerships and helping students access real-world learning experiences. In addition, this staff member provides support to new Career and Technical Student Organization (CTSO) advisors and chapters, guiding them through processes such as affiliation, travel, and competition participation. The position also plays a key role in mentoring new teachers and supporting their transition into CTE instruction, as well as coordinating student access to work-based learning opportunities. As a department, we remain

		committed to continuously identifying innovative strategies to recruit new CTE educators, retain high-quality instructors, and provide the training and support necessary for their ongoing success.
b.	Provide an overview of your district's process and method for evaluating whether the agency has underrepresented individuals in the professions.	Each year, the Adult, Career, and Technical (ACT) department evaluates its current status related to the recruitment, retention, and training of CTE staff. While we recognize the importance of addressing areas of underrepresentation, our primary focus remains on identifying and securing qualified instructors to meet program needs. To support this effort, we work closely with industry partners, parents, academic educators, and state colleagues to identify individuals with both the technical expertise and interest in transitioning into the CTE field. Through these partnerships, we actively recruit new talent to Manatee County and encourage qualified individuals already within the district to join the ACT department.This collaborative approach helps ensure that we continue to build a strong pipeline of skilled CTE educators while maintaining high-quality instruction across our programs.
c.	Provide a summary description of what the evaluations (existing efforts on recruitment, retention, and training; underrepresented individuals) revealed and any changes that will be made to address areas of concern that surfaced from conducting this needs assessment.	To support the recruitment and retention of high-quality CTE instructors, we have identified key areas of targeted professional development focused on the new CTE teacher experience. One of these initiatives is the development of a "New Teacher Boot Camp," designed to help instructors navigate aspects of CTE teaching that differ from traditional academic classrooms, such as industry credentialing, hands-on instruction, and program compliance requirements. Additionally, we provide foundational training in reading and instructional strategies to support teachers who transition from business and industry and may not have prior classroom experience. This ensures that all instructors are equipped with the pedagogical skills necessary to effectively deliver instruction and support diverse learners. We also strongly encourage participation in professional development opportunities offered by the Florida Association for Career and Technical Education (FACTE), allowing instructors to stay current with best practices, industry trends, and statewide initiatives.

ii. **List High-Priority CTE Faculty & Staff Needs:** As a result of your CLNA review of recruitment, retention, and training of teachers, faculty and all other CTE professionals and any additional findings resulting from implementation during the past program year, provide a list of the high-priority need(s) that will be addressed in the 2026–2027 program year.

Note: List only needs (areas of potential growth and improvement), as opposed to solutions/initiatives/plans/expenses or other approaches to meeting the identified needs. Provide the list as a sequentially numbered list (1, 2, 3, etc.), not a ranked priority list. The list will be used to track budget expenditures to these needs in the 2026–2027 program year.

G. Evaluation of Performance on Perkins Accountability Measures

The purpose of this section is to give local eligible recipients an opportunity to provide information and to identify high priority needs related to Perkins performance data.

i. Complete the following narrative summary.

Performance Review:

		RESPONSE
a.	**Underperformance**: Using the last three years of available data, list by year the agency's Perkins performance indicators that performed under 90% of the local agreed upon performance level.	In 2022-23, 2023-24, & 2024-25 in 2S1-Reading Language Arts we have seen a downward trend in scores in the district and state. In 2024-25 we missed the goal by .6% and believe that this is an issue in reporting
b.	**Gaps**: Using the most recent available data, identify subgroups and special populations that performed below the agency's total performance level.	Our data indicates that most special populations in both the local and the state don't meet state standards in 2S1. Additionally, the data indicates that Black, Hispanic and students of 2 or more races perform below the performance level.
c.	**Trends**: Using the last three years of available data, identify which Perkins performance indicators have trended upward or downward.	1S1-Up 2S1-Down/Up 2S2-Down 2S3-Up 3S1-Down 4S1-Up/Down 5S1-Up/Down
d.	**Root Causes**: Based on root cause analysis, list factors that likely contributed to the identified underperformance, gaps, and trends.	Based on the root cause analysis, the following factors likely contributed to the identified gaps and trends: • **Student Literacy Challenges** o Ongoing statewide concerns in Reading/Language Arts impacting performance.

		- Weak foundational reading comprehension and vocabulary skills affecting success across content areas. **Reduced Student Engagement with Traditional Reading** - Decreased sustained attention and focus during reading tasks. - Increased reliance on social media and digital content, limiting exposure to rigorous, academic reading. **Limited Reading Practice in Content Areas** - Insufficient integration of reading strategies within CTE and technical coursework. - Lack of consistent opportunities for students to engage with complex informational texts. **Instructional Gaps** - Variability in lesson planning aligned to literacy standards within CTE classrooms. - Need for deeper teacher understanding of Curriculum Frameworks and literacy expectations. **Professional Development Needs (Addressed but Still Emerging)** - Prior gaps in teacher training related to Reading in the Content Area. - Ongoing need for targeted PD to support instructional shifts and ensure consistent implementation. **Current Mitigation Efforts** - Extensive professional development has been implemented, including: - Lesson planning aligned to standards - Reading strategies in content areas - Support with Curriculum Frameworks - Training is delivered collaboratively by SDMC, CTE staff, and the Work-Based Learning (WBL) teacher on assignment. These efforts are intended to directly address the identified root causes and improve Reading/LA outcomes, which in turn should positively impact both 2S1 and 2S2 performance.

ii. **List High-Priority CTE Performance Needs:** As a result of reviewing the data on Perkins V performance measures and any additional findings resulting from implementation during the past program year, provide a **numbered list** of the high-priority need(s) that will be addressed in the 2026–2027 program year.

Note: List only needs (areas of potential growth and improvement), as opposed to solutions/initiatives/plans/expenses or other approaches to meeting the identified needs. Provide the list as a sequentially numbered list (1, 2, 3, etc.), not a ranked priority list. The list will be used to track budget expenditures to these needs in the 2026–2027 program year.

H. Progress Toward Implementation of Equal Access to High-Quality Career and Technical Education Courses and Programs of Study for All Students

The purpose of this section is to give local eligible recipients an opportunity to identify high priority needs related to equal access to CTE programs.

i. Complete the following narrative summary.

Equal Access:

		RESPONSE
a.	Evaluate the local implementation of strategies and policies to provide the resources, social services, and academic support that certain students need to succeed in school.	The Adult, Career, and Technical (ACT) department collaborates closely with Exceptional Student Education (ESE), ESOL services, school counselors, and Project HEART (serving students experiencing homelessness) to address the diverse needs of our students as they arise. These partnerships help ensure that barriers to participation are minimized and that students receive the support necessary to fully engage in CTE programs. A common example includes providing assistance for students who may not have the financial means to participate in Career and Technical Student Organization (CTSO) events or activities. When needs are identified, the ACT department works collaboratively with these support services to provide assistance whenever possible, ensuring equitable access to opportunities and promoting student success across all programs.
b.	Evaluate the local implementation of strategies to overcome barriers, both intentional and unintentional, that result in lower rates of access to, participation in or	One of the most significant barriers to access in our CTE programs continues to be the need for reading and math remediation. Students who require remediation are often

	performance gaps in, the courses and programs for special populations.	limited to only one elective opportunity within their schedule each year, which can restrict their ability to fully engage in CTE pathways. To address this challenge, we actively work with students and school staff to prioritize enrollment in CTE courses whenever possible, ensuring they still have access to career exploration and skill development opportunities. Additionally, there are occasional instances where school administrators or counselors may not have a full understanding of CTE programs, including the importance of program sequencing and completion. When these situations are identified, ACT staff provide targeted guidance and support to build awareness and understanding of CTE pathways, their benefits, and their role in student success. This ongoing collaboration helps ensure that students are appropriately advised and able to fully participate in and benefit from CTE programs.
c.	Evaluate the local implementation of programs that are designed to enable special populations to meet the local levels of performance.	The Adult, Career, and Technical (ACT) department collaborates closely with Exceptional Student Education (ESE), ESOL programs, school counselors, and Project HEART (serving students experiencing homelessness) to address student needs as they arise. These partnerships help ensure that barriers to participation are minimized and that all students have equitable access to CTE opportunities. A common need involves providing financial assistance for students who are unable to afford participation in Career and Technical Student Organization (CTSO) events, including travel and related expenses. When such needs are identified, the ACT department works collaboratively with these support services to provide assistance whenever possible, ensuring that students can fully engage in CTE experiences and benefit from the opportunities they provide.
d.	Evaluate the local implementation of activities to prepare special populations for high-skill, high-wage, or in-demand industry sectors or occupations in competitive, integrated settings that will lead to self-sufficiency.	All CTE programs are accessible to all students and are designed to reflect the expectations and standards of the industries they represent. We have made a strong commitment to ensuring that classrooms are equipped with the necessary supplies, materials, and up-to-date equipment to support high-quality, standards-aligned instruction. Through these efforts, we provide students with meaningful, hands-on learning experiences that mirror real-world environments. We will continue to expand and

		strengthen these opportunities, ensuring that all students are exposed to a wide range of career pathways and are able to develop a clear vision for their future success.

ii. **List High-Priority Equity and Access Needs:** As a result of your CLNA review of the implementation of equal access to high-quality career and technical education courses and programs of study for all students, provide a numbered list of the high-priority need(s) that will be addressed in the current program year.

Note: List only needs (areas of potential growth and improvement), as opposed to solutions/initiatives/plans/expenses or other approaches to meeting the identified needs. Section 2. Primary Program of Study and CTE Secondary Programs for 2026–2027

NOTE: In accordance with Florida's *Perkins V State Plan*, during the 2026–2027 program year, each eligible recipient will be required to use Perkins funds to support only those CTE programs that:

- meet size, scope and quality requirements;
- meet labor market alignment requirements; and
- meet a need identified in the agency's 2025–2026 Comprehensive Local Needs Assessment.

In addition, for the 2026–2027 program year, eligible secondary recipients must offer a sufficient number of fully compliant programs of study, so at least 75% of the agency's CTE students are enrolled in these programs of study. A list

of the program of study requirements can be found in **Attachment A** of this RFA and in the *Perkins V Implementation Guide*.

In submitting your primary program of study and listing your compliant programs of study needed to meet the enrollment percentage requirement, your agency is attesting to the fact that the submitted primary program of study and the other required programs of study will meet all state required elements throughout the 2026–2027 program year.

E. Dissemination of Information on CTE Secondary Programs and Programs of Study

Eligible recipients must respond to the narrative question in Part 2-E.

	RESPONSE
Describe how secondary students, including students who are members of special populations, will learn about your agency's CTE course offerings and whether each course is part of a CTE program of study in the 2026–2027 program year.	Secondary students, including those who are members of special populations, are informed about CTE course offerings and programs of study for the 2026–2027 program year through a comprehensive and multi-faceted communication approach. The Adult, Career, and Technical (ACT) department develops and disseminates information through a variety of platforms, including department-produced publications, Schoology, district and teacher websites, and school-based resources such as newsletters, websites, and curriculum guides. In addition, schools provide information through in-person engagement opportunities such as Back-to-School Nights, School Advisory Council (SAC) meetings, and other parent outreach events. The ACT department also collaborates closely with Title I, Title III, and Migrant Education programs to ensure that students and families from special

	populations have equitable access to information regarding CTE programs and pathways. School-based career advisors and guidance counselors play a critical role by visiting feeder schools alongside counseling staff to ensure consistent and balanced dissemination of information. On their campuses, they work to ensure that all students are aware of available CTE opportunities at both the secondary and postsecondary levels. Furthermore, ACT staff actively participate in districtwide guidance meetings each year to share updates, provide clarification on programs of study, and answer questions related to CTE pathways. CTE staff also serve as integral members of the Student Progression Committee, ensuring that all program offerings, pathways, and participation requirements are accurately reflected in the district's Student Progression Plan. This intentional coordination ensures that all students are informed and positioned to successfully enroll in and complete their selected CTE programs.

Section 3. Career Exploration and Guidance

A. Collaboration related to Career Exploration and Guidance with Local Workforce Development Boards

Eligible recipients must respond to the narrative questions in Part 3-A.

		RESPONSE
i.	Describe how your agency will collaborate with local workforce development agencies (e.g., CareerSource) to offer career exploration and career development coursework, activities, or services.	The district maintains a strong and ongoing partnership with CareerSource Suncoast and other regional workforce development entities to support career exploration and career development opportunities for students. The Director of Manatee Technical College serves on the CareerSource Suncoast Board, ensuring direct alignment between workforce initiatives and educational programming. Additionally, school district staff regularly attend CareerSource meetings, programs, and events, maintaining an active and consistent presence in workforce planning efforts. District staff collaborate closely with CareerSource to plan and implement employment-related events, particularly those focused on secondary students. The district further supports these initiatives by providing substitute coverage

		for participating teachers and transportation for students, ensuring equitable access to career exploration experiences. A comprehensive Career and Technical Education (CTE) pathway is established through strong articulation between secondary schools, Manatee Technical College, State College of Florida, and regional partners across six surrounding counties. Local and statewide articulation agreements facilitate seamless transitions for students. These agreements are reviewed and updated biennially through formal articulation meetings, during which stakeholders evaluate curriculum alignment, industry certifications, and program effectiveness. The Career Pathways Coordinator plays a key role in maintaining these partnerships by facilitating communication among secondary and postsecondary institutions and assisting with the development, revision, and implementation of articulation agreements. Copies of all agreements are maintained by participating institutions and made publicly accessible online. The Career Pathways Coordinator also meets with students in the spring to assist with their transition to Manatee Technical College and State College of Florida. Additional collaboration occurs with business and industry partners, advisory board members, Chamber of Commerce representatives, and workforce board affiliates, ensuring that programs remain responsive to local workforce needs. All curriculum sequencing is aligned with Florida Department of Education (FLDOE) curriculum frameworks, reinforcing consistency, quality, and career relevance across programs.
ii.	Describe how your agency will collaborate with local workforce development agencies (e.g., CareerSource) to offer career information on employment opportunities that incorporate the most up-to-date information on high-skill, high-wage, or in-demand industry sectors or occupations.	The district collaborates closely with CareerSource Suncoast and other workforce partners to ensure students receive timely and relevant career information related to high-skill, high-wage, and in-demand industries. While labor market publications and digital resources are utilized, the district prioritizes delivering this information directly through teachers, career advisors, and experiential learning opportunities. To support this effort, the district invests in ongoing professional development for teachers and career advisors, equipping them with current labor market data, industry trends, and workforce expectations. This training enables staff to effectively guide students in understanding career

		pathways aligned with regional workforce needs. The district also provides release time for educators to participate in Career and Technical Student Organization (CTSO) activities and industry engagement opportunities, strengthening connections with business and industry partners. Students are given multiple opportunities to explore careers through structured experiences, including field trips to workforce development events, career fairs, and industry showcases coordinated in partnership with CareerSource. These experiences are intentionally designed to highlight high-demand occupations and emerging career sectors. Additionally, the district promotes direct engagement with employers through site visits, guest speakers, and workplace learning experiences. These interactions provide students with firsthand exposure to workplace environments, current industry practices, and employer expectations, ensuring that career information is both relevant and impactful. Through this comprehensive approach, the district ensures that career exploration and advising are informed by the most current workforce data and aligned with local and regional economic needs.
iii.	Describe how your agency will collaborate with local workforce development agencies (e.g., CareerSource) to offer an organized system of career guidance and academic counseling to students before enrolling and while participating in a career and technical education program.	The district has established a comprehensive and coordinated system of career guidance and academic counseling in collaboration with CareerSource Suncoast and other local workforce development partners. The Adult Career and Technical (ACT) Department currently oversees seven dedicated career advisors, with one assigned to each high school. These advisors play a critical role in delivering consistent, student-centered career guidance both prior to enrollment in and throughout participation in Career and Technical Education (CTE) programs. Career advisors work daily with students, staff, and families to provide accurate and up-to-date information on workforce trends, including high-skill, high-wage, and in-demand careers. They assist students in identifying career pathways aligned with their interests and regional labor market needs, while also supporting academic planning to ensure successful program completion and transition to postsecondary education or employment.

		To strengthen alignment with workforce priorities, career advisors actively participate in local workforce committees, advisory boards, and CareerSource initiatives. These connections foster strong relationships with workforce partners and ensure continuous communication regarding evolving industry needs and employment opportunities. Perkins funding supports this system by providing ongoing professional development for career advisors, school counselors, and instructional staff. This training ensures that all personnel involved in student advising are equipped with current labor market data, career pathway information, and best practices in career counseling. Funding also supports student engagement activities such as field trips to local businesses, technical institutions, and workforce-focused events, including those offered through Career and Technical Student Organizations (CTSOs). Additionally, CareerSource representatives collaborate closely with district staff to ensure that career advisors and counselors remain informed of the most current workforce data, hiring trends, and available services. This partnership enhances the district's ability to provide an organized, responsive, and data-informed system of career guidance that supports students at every stage of their CTE journey.

Section 4. Continuous Academic Improvement and Academic Integration

A. Promote and Support the Continuous Academic Improvement and Integration

Eligible recipients must respond to the narrative questions in Part 4-A.

		RESPONSE
i.	Describe how your agency will promote continuous improvement in the academic achievement of students in career and technical education programs through rigorous standards for the academic and technical skill components of the program.	The district promotes continuous improvement in student achievement within Career and Technical Education (CTE) programs by maintaining rigorous academic and technical standards aligned with industry expectations and state frameworks. Collaboration between core academic teachers and CTE instructors is a key strategy, ensuring that academic skills are integrated into technical instruction. This cross-disciplinary approach strengthens students' foundational knowledge while reinforcing its application in real-world career contexts. To further enhance program rigor, the district incorporates input from business and industry experts, providing students with experiential learning opportunities that reflect current workforce demands. These partnerships help ensure that curriculum content remains relevant, challenging, and

		aligned with high-skill, high-wage, and in-demand career pathways. District leadership, including the Executive Director and Assistant Director, actively monitor and support instructional quality by conducting regular classroom visits and reviews. These observations ensure that both academic rigor and technical skill development are consistently embedded in instruction. Administrators also provide targeted feedback and guidance to instructors to support the effective integration of standards into daily teaching practices. Continuous program improvement is driven by the systematic analysis of student performance data, including academic achievement and industry certification attainment. District staff regularly review this data to identify gaps, address areas of concern, and implement targeted strategies for improvement. Students are encouraged to pursue industry certifications throughout their high school experience, reinforcing mastery of technical competencies and increasing postsecondary and workforce readiness. Additionally, instructors are supported through ongoing, content-specific professional learning opportunities that deepen their subject matter expertise and instructional practices. This sustained professional development ensures that teachers remain current with industry standards and are equipped to deliver rigorous, relevant instruction. Through these combined efforts, the district ensures that CTE programs continuously evolve to meet high academic and technical standards, resulting in improved student outcomes and successful transitions to postsecondary education and careers.
ii.	Describe how your agency will support the integration of academic skills into your CTE secondary programs in the 2026–2027 program year.	The Adult Career and Technical (ACT) Department is committed to strengthening the integration of academic skills within CTE secondary programs through comprehensive professional development, collaborative planning, and student engagement initiatives during the 2026–2027 program year. To support instructional quality and continuous improvement, the district will provide targeted professional learning opportunities for CTE teachers, including:

- **Programs in Practice:** Teachers will be offered release time to observe high-quality local and state model programs within their content areas. These observations provide practical examples of effective academic integration and rigorous instructional strategies that can be implemented in their own classrooms.
- **No Teacher Left Behind:** This initiative includes summer and ongoing school-year professional development focused on strengthening technical skill instruction, integrating academic standards into CTE coursework, and improving literacy across content areas. Emphasis is placed on reading strategies and academic skill reinforcement within technical instruction.
- **Professional Development and Conference Attendance:** Teachers—particularly those new to the profession or their content area—will have access to conferences and training opportunities that focus on both content knowledge and strategies for embedding academic skills into CTE instruction. These experiences ensure teachers remain current with best practices and industry expectations.
- **Support for CTSOs:** The ACT Department provides robust support for Career and Technical Student Organizations (CTSOs), including funding for substitutes, transportation, travel expenses, and advisor professional development. CTSO participation reinforces academic and technical skills through leadership development, competition, and real-world application.

Collaboration between CTE and academic teachers is a core component of the district's integration strategy. Teachers work regularly across disciplines to establish common language, align standards, and identify opportunities to reinforce academic concepts within technical coursework. Joint planning is encouraged to create meaningful, standards-based instruction that authentically integrates academic content into CTE learning experiences.

Additionally, several high schools implement **Career Academies**, where academic integration is embedded within the National Career Academy Coalition (NCAC) certification model. These academies require structured

		collaboration between academic and CTE instructors, ensuring that students experience cohesive, relevant, and rigorous instruction that connects academic skills to career pathways. Through these combined efforts, the district ensures that academic skill development is intentionally embedded within CTE programs, supporting student success in both postsecondary education and the workforce.

Section 5. Equity and Access for Special Populations

A. Activities Related to Equity and Access for Special Populations as Defined in the Perkins V Act.

Eligible recipients must respond to the narrative questions in Part 5-A.

		RESPONSE
i.	Describe how your agency will provide activities to prepare special populations for high-skill, high-wage, or in-demand industry sectors or occupations that will lead to self-sufficiency.	The School District of Manatee is committed to ensuring that students in special populations are fully prepared to enter high-skill, high-wage, and in-demand industry sectors that lead to self-sufficiency. The district works collaboratively with school-based teams, including Exceptional Student Education (ESE) personnel, to provide appropriate accommodations, modifications, and targeted supports that enable all students to access and succeed in Career and Technical Education (CTE) programs. To promote access, enrollment, and retention of special populations in high-demand career pathways, the district provides a range of experiential learning opportunities. These include field trips, college and career fairs, leadership development events, and work-based learning experiences such as on-the-job training (OJT) and internships, when appropriate. These activities are intentionally designed to expose students to career options, build workplace readiness skills, and connect them with local employers aligned to regional workforce needs. The district also remains committed to expanding CTE opportunities for students in alternative education settings, including Horizons. During the 2026–2027 program year, the district will continue to support and enhance CTE offerings at Horizons, with a focus on high-demand career pathways that meet the unique needs of the student population served. All students identified as part of special populations are fully integrated into the district's CTE programs and are

		provided with equitable access to all program components. This includes opportunities to earn industry certifications, participate in Career and Technical Student Organizations (CTSOs), attend field trips, and engage in work-based learning experiences. Through these inclusive practices, the district ensures that special populations are not only supported but are also empowered to achieve meaningful postsecondary outcomes and long-term economic self-sufficiency
ii.	Describe how your agency will prepare CTE secondary participants for non-traditional fields.	The School District of Manatee is committed to increasing student awareness, participation, and success in non-traditional career fields through intentional recruitment, exposure, and support strategies. The district collaborates with local workforce partners and community organizations to provide students with meaningful opportunities that encourage exploration of careers in which their gender or demographic group has been historically underrepresented. To support this effort, the district offers a variety of career exploration and work-based learning experiences, including field trips, college and career fairs, leadership development events, on-the-job training (OJT), and internships. These activities are designed to expose students to a broad spectrum of career options, including non-traditional fields, while connecting them with industry professionals who can serve as mentors and role models. The district also ensures that communication and promotional materials intentionally reflect diversity and inclusion. Publications, marketing materials, and program outreach efforts highlight students who represent the district's diverse population and showcase positive examples of individuals succeeding in non-traditional career pathways. This helps normalize participation in these fields and encourages students to pursue opportunities beyond traditional gender roles. In addition, the district actively recruits and supports educators who represent special populations and those working in non-traditional fields. These educators serve as important role models and provide students with relatable examples of success. Their presence helps foster a more inclusive learning environment and encourages student confidence in pursuing non-traditional career pathways. Through these combined efforts, the district works to eliminate barriers, broaden student perspectives, and

		support equitable access to high-skill, high-wage, and in-demand non-traditional careers.
iii.	Describe how your agency will provide equal access for special populations to career and technical education courses, programs, and programs of study.	The School District of Manatee is committed to ensuring equitable access to Career and Technical Education (CTE) courses, programs, and programs of study for all students, including those identified as special populations. All secondary CTE programs are open to every student within the district, and students are able to select courses based on their interests and career goals. There are no application processes or minimum GPA requirements for entry into CTE programs, ensuring that access remains inclusive and barrier-free. Students have the opportunity to enroll in CTE courses offered at their assigned schools, and may also participate in school choice options, based on program availability, if their desired program is not offered at their zoned campus. This flexibility expands access and allows students to pursue pathways aligned with their individual interests and career aspirations. The district continuously evaluates access and equity through its Comprehensive Local Needs Assessment (CLNA) process. Feedback from local stakeholders indicates that while program access is broadly available, some students—particularly those requiring remediation due to state assessment scores—may face scheduling barriers that limit participation in CTE coursework. To address this, CTE leadership actively participates in the district's Student Progression Plan committee to advocate for balanced scheduling solutions that support both academic intervention and career pathway participation. Additionally, the district collaborates closely with Title I, Migrant Education, and Exceptional Student Education (ESE) programs to proactively identify and remove barriers to access. This includes providing appropriate accommodations, academic supports, and guidance services to ensure all students can successfully participate in and benefit from CTE programs. Through these efforts, the district ensures that all students, regardless of background or need, have equitable opportunities to engage in high-quality CTE programs that prepare them for postsecondary education and the workforce.

iv.	Describe how your agency will ensure that members of special populations will not be discriminated against based on their status as members of special populations in the 2026–2027 program year.	The School District of Manatee is committed to maintaining a learning environment that is inclusive, equitable, and free from discrimination for all students, including members of special populations. The district strictly adheres to all federal and state non-discrimination laws and ensures equal access to Career and Technical Education (CTE) programs, services, and activities. The School District of Manatee does not discriminate on the basis of race, color, national origin, sex, gender, age, disability, marital status, genetic information, or any other characteristic protected by law in its educational programs, services, or activities, nor in its hiring or employment practices. The district also complies with the Boy Scouts of America Equal Access Act by providing equal access to facilities for designated youth groups. To ensure these protections are upheld, the district has established formal grievance procedures for addressing any allegations of discrimination or harassment. Any employee, student, applicant, volunteer, vendor, or member of the public who believes they have been subjected to discrimination or harassment is encouraged to file a complaint in accordance with School Board Policy 2260 (Non-Discrimination and Access to Equal Educational Opportunity) and Policy 2260.01 (Section 504/ADA Prohibition Against Discrimination Based on Disability). Additionally, the district takes proactive measures to prevent discrimination by: • Providing training for staff on equity, non-discrimination laws, and inclusive practices • Monitoring program enrollment and participation data to identify and address disparities • Ensuring appropriate accommodations and supports are in place for students with disabilities and other special populations • Collaborating with district departments (e.g., ESE, Title I, Migrant Education) to remove barriers and promote equitable access Through these policies, procedures, and ongoing efforts, the district ensures that all students—regardless of their status as members of special populations—are treated fairly and are provided equal opportunities to succeed in CTE programs and beyond.

Section 6. Opportunities for Work-Based Learning

A. Activities Related to Work-Based Learning Opportunities.

Eligible recipients must respond to the narrative questions in Part 6-A.

		RESPONSE
i.	Describe how your agency will provide work-based learning opportunities to students participating in your CTE secondary programs and the types of opportunities that will be available.	The School District of Manatee is committed to expanding and strengthening work-based learning (WBL) opportunities for students enrolled in Career and Technical Education (CTE) programs. These experiences are designed to connect classroom instruction with real-world application while preparing students for successful entry into high-skill, high-wage, and in-demand careers. The district will continue to offer **On-the-Job Training (OJT)** programs that are aligned with existing CTE pathways and will expand these opportunities as additional CTE programs are developed. OJT placements provide students with structured, supervised work experiences directly related to their program of study, allowing them to gain valuable technical skills and workplace competencies. In addition, new career focused courses broaden access to work-based learning experiences. The district will also continue to provide OJT opportunities at its alternative school, Horizons Academy, when appropriate, ensuring that students with unique needs or credit deficiencies have access to meaningful career preparation experiences. The district is actively collaborating with **CareerSource Suncoast** to develop and implement a **Building Trades and Construction pre-apprenticeship program** to support high school CTE students. This initiative will create structured pathways from high school programs into registered apprenticeships and employment opportunities within the construction industry. In partnership with CareerSource and local business and industry leaders, the district will offer a variety of work-based learning experiences, including: • **On-the-Job Training (OJT)** • **Internships** • **Pre-apprenticeships and Apprenticeships** • **Job shadowing and career exploration activities**

		• **Teacher and student externships** These opportunities are intentionally designed to provide hands-on learning experiences that build technical proficiency, employability skills, and professional networks, ultimately leading to postsecondary education and employment. To further enhance and coordinate these efforts, the district employs a **Work-Based Learning Teacher on Assignment (TOA)**. This role is dedicated to supporting schools in the development, implementation, and continuous improvement of WBL programs. The TOA works closely with school staff and industry partners to expand opportunities, ensure program quality, and strengthen business engagement across the district. Through these comprehensive and collaborative efforts, the district will ensure that all CTE students have access to high-quality, meaningful work-based learning experiences that support career readiness and long-term success.
ii.	Describe how your agency will work with representatives from local businesses/industry to develop and/or expand work-based learning opportunities for CTE secondary students in the 2026–2027 program year.	The School District of Manatee will continue to strengthen and expand work-based learning (WBL) opportunities for CTE secondary students through intentional collaboration with local business and industry partners. Building on existing strategies, the district is committed to deepening relationships with employers to ensure that students have access to meaningful, career-aligned experiences that reflect current workforce needs. The district actively engages business and industry representatives through advisory boards, workforce committees, and regional partnerships to guide the development and expansion of WBL opportunities. A key example of this collaboration is the district's partnership with the **Sarasota Manatee Manufacturing Association (SMMA) Workforce Development Committee**, which is specifically focused on connecting the local manufacturing industry with its future workforce. Through this partnership, the district aligns program offerings with industry needs, identifies skill gaps, and creates targeted opportunities for students to engage in manufacturing-related career pathways. In collaboration with these partners, the district will: • Identify emerging workforce needs and align WBL opportunities accordingly

		• Expand access to internships, OJT placements, pre-apprenticeships, and apprenticeships • Develop structured programs that connect classroom instruction with real-world industry experiences • Facilitate employer participation in career fairs, classroom presentations, and mentorship opportunities Additionally, the district will work closely with CareerSource Suncoast, chambers of commerce, and local employers to increase student access to job shadowing, externships, and industry tours. These experiences allow students to build professional networks, develop workplace skills, and gain firsthand knowledge of career expectations. The district's Work-Based Learning Teacher on Assignment (TOA) will play a critical role in coordinating these efforts by maintaining ongoing communication with business partners, identifying new opportunities, and supporting schools in implementing high-quality WBL experiences. This role ensures consistency, scalability, and responsiveness to evolving industry demands. Through these collaborative efforts, the district will continue to expand and enhance work-based learning opportunities, ensuring that all CTE students are prepared with the skills, knowledge, and experiences necessary for success in the workforce.

Section 7. Opportunities for Postsecondary Credit for Secondary Students

A. Activities Related to Postsecondary Education

Eligible recipients must respond to the narrative question in Part 7-A.

	RESPONSE
Describe how your agency will provide students participating in CTE programs with opportunities to gain postsecondary credit while attending high school, such as through dual or concurrent enrollment or early college high school in the 2026–2027 program year.	The School District of Manatee is committed to expanding access to postsecondary credit opportunities for students participating in Career and Technical Education (CTE) programs. Through strong partnerships with Manatee Technical College (MTC) and State College of Florida (SCF), students are able to begin earning college credit while still enrolled in high school. Eligible high school students, beginning as early as age 16, may participate in **dual enrollment programs** with both

	MTC and SCF. Career dual enrollment opportunities at MTC are offered during the school day as well as in the evening, providing flexible scheduling options to meet diverse student needs. MTC offers 18 **career dual enrollment programs**, allowing students to gain hands-on technical training and industry-relevant skills while earning postsecondary credit. In addition, students may enroll in academic dual enrollment courses through the district's agreement with SCF. These opportunities allow students to complete general education coursework, accelerating their progress toward a postsecondary degree or credential. Beyond dual enrollment, students can also earn postsecondary credit through the attainment of **industry certifications** embedded within CTE programs. These certifications are aligned with state and industry standards and may articulate for college credit at participating postsecondary institutions. The district further strengthens these opportunities through **local and regional articulation agreements**, including the Tampa Bay Regional Articulation Agreements. These agreements ensure that students who successfully complete CTE programs can transition seamlessly into postsecondary education, receiving credit for their high school coursework and reducing both the time and cost required to earn a credential. Through these coordinated efforts, the district provides multiple pathways for students to earn postsecondary credit, supporting college and career readiness and promoting successful transitions to further education and employment.

Section 8. Support for CTE personnel

A. Activities Related to Support for CTE Personnel

Eligible recipients must respond to the narrative questions in Part 8-A.

		RESPONSE
i.	Describe how your agency will coordinate with institutions of higher education to support the recruitment, preparation, retention, and training — including professional development — of teachers, faculty, administrators, school counselors and	The School District of Manatee maintains strong partnerships with institutions of higher education to support the recruitment, preparation, retention, and ongoing professional development of Career and Technical

Education (CTE) educators, administrators, school counselors, career advisors, and other instructional personnel, including those entering the profession through alternative certification pathways. The district offers **robust alternative certification pathways** to address workforce needs and expand the pool of qualified educators. These include: • A **para-to-teacher pathway** that supports paraprofessionals in transitioning into certified teaching roles • An **alternative certification program in partnership with the State College of Florida (SCF)** for individuals seeking a Florida teaching certificate • A **local certification option** for instructors with significant business and industry experience, allowing them to teach in CTE programs while completing certification requirements In addition, the district maintains a strong partnership with the **University of Florida's College of Agricultural and Life Sciences**, which provides pre-service teachers with internship opportunities within district schools. These experiences often lead to full-time employment, strengthening the district's pipeline of highly qualified CTE educators. To support ongoing development and retention, the district collaborates with postsecondary partners to expand access to **high-quality professional development opportunities**, particularly those aligned with CTE instructional practices and industry standards. The district also works closely with the **Florida Association for Career and Technical Education (FACTE)** to provide cost-free professional learning opportunities for locally certified teachers, ensuring they receive the training necessary to be effective in the classroom. Additionally, the district coordinates with its higher education partners to align CTE program offerings and ensure that educator preparation programs reflect current workforce needs. This collaboration supports the continuous improvement of instructional quality and helps

		ensure that teachers are equipped to deliver rigorous, industry-relevant content. Through these coordinated efforts, the district strengthens educator recruitment pipelines, supports alternative certification pathways, and ensures ongoing professional growth for all personnel involved in delivering CTE programs.
ii.	Describe how you will identify and support those underrepresented in the teaching profession.	The School District of Manatee is committed to increasing diversity within the teaching profession by both identifying and supporting individuals from underrepresented groups. The district utilizes data and recruitment practices to identify gaps in representation across teaching positions, particularly within Career and Technical Education (CTE), and works intentionally to expand access to the profession. To support these efforts, the district has implemented a **comprehensive system of supports** designed to recruit, develop, and retain a diverse educator workforce, including individuals entering through alternative certification pathways. By reducing barriers and creating accessible entry points into teaching, the district ensures that all individuals—especially those from underrepresented populations—have the opportunity to succeed. Key supports include: • **Targeted recruitment and alternative pathways**, such as para-to-teacher programs and industry-to-teaching certification options, which create accessible entry points for diverse candidates • **Compensation and incentives**, including non-contracted hourly pay for participation in CTSO events and paid curriculum writing opportunities • **Professional learning opportunities**, such as summer training, targeted industry-specific training, and ongoing development aligned to instructional and technical skills • **Mentorship and induction support**, including peer mentoring programs for new and transitioning teachers to promote retention and professional growth • **Ongoing district-level support**, ensuring access to instructional coaching, resources, and guidance throughout an educator's career

		Additionally, the district fosters an inclusive and supportive work environment that values diverse perspectives and experiences. By providing structured support systems and professional growth opportunities, the district not only recruits individuals from underrepresented groups but also ensures they are prepared, supported, and retained within the teaching profession. Through these intentional strategies, the district works to build and sustain a diverse, highly qualified educator workforce that reflects the community it serves and enhances student success.

Section 9. Performance of Special Populations and Subgroups

A. Activities Related to Performance of Special Populations and Subgroups

Eligible recipients must respond to the narrative question in Part 9-A.

	RESPONSE
Describe how your agency will address disparities or gaps in performance in special subpopulations and subgroups in each year of the plan, and if no meaningful progress is achieved prior to the third program year, describe additional actions that will be taken to eliminate such disparities or gaps in the 2026–2027 program year.	The School District of Manatee is committed to identifying, addressing, and eliminating disparities in performance among special populations and student subgroups across each year of the plan. The district utilizes a continuous improvement model grounded in data analysis, targeted interventions, and collaboration with internal and external partners. The first step in addressing gaps is **accurate identification**. The district has enhanced its student information system to include additional data elements that allow for more precise tracking of student performance across subpopulations. This data is regularly monitored to identify trends, disparities, and areas requiring targeted support. Once gaps are identified, the district implements **targeted interventions and supports** tailored to the specific needs of each subgroup. These supports may include: • Additional academic and career counseling • Individualized accommodations and modifications • Expanded access to tutoring, mentoring, and career advising services • Increased access to work-based learning opportunities The district works closely with the **Exceptional Student Education (ESE)** department to ensure that students with

	disabilities are supported through the development and implementation of robust Individualized Education Plans (IEPs) and 504 Plans. Collaboration also extends to other specialized departments and community agencies to provide wraparound services and ensure equitable access to CTE programs and opportunities. To further support continuous improvement, the district: • Provides **professional development** for instructors focused on best practices for supporting diverse learners and special populations • Regularly evaluates and addresses potential **barriers to access and success**, including scheduling conflicts and program availability • Maintains ongoing collaboration with **community partners and stakeholders**, building on insights from the CLNA process to refine strategies and interventions **Targeted Supports by Special Population Group** • **Individuals in minority racial and ethnic groups:** Ensure equitable access to CTE programs and provide targeted guidance and support services to promote success and completion. • **Individuals with disabilities:** Provide full access to CTE programs with appropriate accommodations and support through ESE services. • **Individuals from economically disadvantaged families:** Ensure access to all programs and leverage community and industry partnerships to reduce barriers and provide additional supports. • **Individuals preparing for non-traditional fields:** Offer individualized advising, mentorship, and encouragement to support enrollment and retention in non-traditional programs. • **Out-of-workforce individuals:** Not applicable at the secondary level. • **English learners:** Provide access and targeted language support through the English for Speakers of Other Languages (ESOL) program. • **Homeless individuals:** Ensure access and connect students to services through the district's Homeless Education program.

	• **Migrants:** Provide support and services through the Migrant Education program to ensure access and success. • **Foster care youth:** Coordinate support through school counselors, social workers, and psychologists to address academic and social-emotional needs. • **Youth with a parent on active military duty:** Provide targeted support through school counselors and student services to address unique challenges associated with military family life. If meaningful progress is not achieved by the third program year, the district will implement **additional targeted actions**, including: • Intensifying data analysis to pinpoint root causes of persistent gaps • Expanding targeted interventions and wraparound services • Increasing collaboration with community agencies and workforce partners • Adjusting program structures (e.g., scheduling, delivery methods) to remove barriers • Providing additional professional development focused on equity and differentiated instruction • Establishing measurable improvement benchmarks and monitoring progress more frequently Through this structured, data-informed, and collaborative approach, the School District of Manatee ensures that disparities in performance are systematically addressed and that all students—particularly those in special populations—are supported in achieving success in CTE programs and beyond.

Section 10. Accountability and Program Improvement

All districts must maintain robust data collection and management systems. In addition, processes must be in place to review program performance on a regular basis. An overview of accountability requirements for Perkins V may be found in **Attachment C** and the *Perkins V Implementation Guide*.

Eligible recipients must respond to the narrative questions in Part 10-A.

	RESPONSE
Describe the agency's data management information system and practices related to tracking student outcomes, maintaining quality of the data, data privacy, continuous monitoring of program performance, and the ability to	The School District of Manatee utilizes the **FOCUS Student Information System** as its primary data management platform for collecting, managing, and

identify and quantify any disparities or gaps in performance especially with regard to special populations.	analyzing student data. This system serves as a centralized repository for all student information, including enrollment, demographic data, academic performance, CTE participation, and industry certification attainment. The system allows authorized users to access real-time data through a variety of customizable reports that support data-driven decision-making at the school and district levels. To maintain the integrity and quality of data, the district has established **clear protocols and procedures for data entry and verification**. Key personnel—including school registrars, college and career advisors, and CTE staff—are responsible for regularly entering and updating student information. Particular attention is given to the accurate recording and validation of **industry certification data**, which follows a rigorous tracking and verification process to ensure compliance with state reporting requirements. Ongoing training is provided to staff to ensure consistent data entry practices, and periodic reviews and audits are conducted to identify and correct discrepancies. These processes help ensure that data used for reporting and decision-making is accurate, reliable, and timely. The district adheres to all applicable **federal and state laws related to student data privacy**, including the Family Educational Rights and Privacy Act (FERPA). Access to student data within the FOCUS system is role-based and restricted to authorized personnel only. Staff are trained on data privacy expectations and security protocols to ensure that sensitive student information is protected at all times. Student data is **regularly analyzed** to evaluate program effectiveness and monitor student outcomes, including academic achievement, CTE concentrator status, and industry certification attainment. District and school-level staff use these data reports to: • Assess program performance and identify trends • Monitor progress toward state and federal accountability measures • Evaluate the effectiveness of specific CTE programs and certifications Based on these analyses, the district implements **data-informed program improvements**, including adjustments

	to curriculum, instructional strategies, and program offerings to better meet student and workforce needs. The FOCUS system enables the disaggregation of student data by **special population categories and other subgroups**, allowing the district to identify and quantify disparities or gaps in performance. These categories include, but are not limited to, students with disabilities, economically disadvantaged students, English learners, and students participating in non-traditional programs. District staff regularly review disaggregated data to: • Identify achievement gaps and inequities in access, participation, and outcomes • Monitor the success of targeted interventions and supports • Inform the development of strategies to address identified disparities This data is also used as part of the district's **Comprehensive Local Needs Assessment (CLNA)** process, ensuring that stakeholder feedback and performance data are aligned in guiding program improvement efforts. Through the effective use of the FOCUS system, strong data governance practices, and continuous monitoring, the School District of Manatee ensures high-quality data management, protects student privacy, and maintains the capacity to identify and address disparities—ultimately promoting equitable outcomes for all students in CTE programs.

Reminder: Each year, eligible recipients identify the agreed upon levels of performance for the core indicators for each of the program years covered by the local plan. Eligible recipients are held accountable for these performance. Program Improvement Plans (PIP) are required for those measures not meeting at least 90% of the agreed upon performance level. Procedures for identifying measure performance and submitting PIPs will be provided under separate cover.

Section 11. Support for Reading/Strategic Imperatives (FDOE Requirement)

A. Activities Related to Reading and Strategic Imperatives Included in the State Board of Education's K–20 Strategic Plan

	RESPONSE

URL: http://www.fldoe.org/policy/state-board-of-edu/strategic-plan.stml.	**Education's K–20 Strategic Plan**, specifically Goals 1, 2, and 3. Through rigorous instruction, expanded access, and workforce alignment, the district ensures that students are prepared for both postsecondary education and high-demand careers. Goal 1: Highest Student Achievement--CTE programs promote high levels of student achievement by aligning curriculum with Florida Department of Education standards. Student performance is measured using **NRS-approved assessment instruments**, ensuring consistent, valid, and reliable outcomes across programs. The district further supports student achievement by investing in **high-quality instruction**. Perkins-supported professional development enables teachers to enhance their instructional practices and obtain **industry certifications**, strengthening their content expertise and ability to deliver rigorous, relevant instruction. Goal 2: Seamless Articulation and Maximum Access--Academic integration is a key component of this goal. Reading and math strategies are embedded within all CTE courses, while science integration is supported through smaller learning communities that emphasize cross-curricular collaboration. Students needing additional support receive targeted interventions from federally funded **Academic Advisors** and **Student Mentor Advocates**, who monitor progress and provide individualized assistance. The district ensures broad access to CTE programs and promotes **seamless transitions** between secondary and postsecondary education. Students are strongly encouraged to earn **industry certifications** and participate in assessments such as the **Florida Ready to Work credential**, which validates employability skills and career readiness. Through dual enrollment opportunities, articulation agreements, and career pathways, students can earn **postsecondary credit while in high school**, reducing both the time and cost required to obtain a credential or degree. Additionally, students are provided access to **up-to-date digital tools and technology**, ensuring they are equipped to succeed in modern, technology-driven work environments.

	Support services within CTE programs also help students stay on track to **earn a high school diploma while preparing for career success**, removing barriers and expanding educational access for all learners. Goal 3: Skilled Workforce and Economic Development--CTE programs play a critical role in developing a **skilled workforce aligned with regional economic needs**. The district continuously evaluates and improves its programs to ensure alignment with **high-skill, high-wage, and in-demand industries**. This includes: • Expanding access to **industry certifications** that hold labor market value • Increasing **work-based learning opportunities**, such as internships, OJT, and apprenticeships • Maintaining ongoing collaboration with **local business and industry partners** to ensure program relevance As part of its continuous improvement process, the district regularly reviews program performance and certification offerings to ensure they meet current workforce demands and provide students with meaningful career pathways. Through intentional alignment with the State Board of Education's K–20 Strategic Plan, the School District of Manatee ensures that its CTE programs promote **academic excellence, equitable access, and workforce readiness**. These efforts collectively support student success and contribute to the development of a highly skilled, competitive workforce.

Section 12. Federal Programs: General Education Provisions Act (GEPA) (Federal Requirement)

A. Description of Process to Ensure Equitable Access

Eligible recipients must respond to the narrative question in Part 12-A.

	RESPONSE
For the fiscal year 2026–2027, provide a concise, one-page description of the process to ensure equitable access to, and participation of students, teachers, and other program beneficiaries with special needs. For details, refer to URL: https://www.ed.gov/media/document/gepa-section-427-form-113507.pdf	In accordance with the requirements of **Section 427 of the General Education Provisions Act (GEPA), Public Law 103-382**, the School District of Manatee has established the following plan to ensure equitable access to, and participation in, all Career and Technical Education (CTE)

	programs and activities for students, teachers, and other program beneficiaries with special needs. The School District of Manatee strictly prohibits discrimination in all educational programs, services, activities, and employment practices. No employee, student, applicant for admission or employment, volunteer, vendor, or member of the public shall, on the basis of race, color, national origin, gender, disability, marital status, age, genetic information, or any other characteristic protected by law, be excluded from participation in, denied benefits of, or subjected to discrimination or harassment. These supports include: • **Instructional accommodations**, such as adjustments to learning environments, teaching methods, materials, assignments, and assessments • **Testing accommodations**, including extended time, alternative formats, and assistive devices • **Support personnel**, such as interpreters, readers, and tutors • **Assistive technology**, including specialized equipment like adaptive keyboards, talking calculators, and accessible computer software Teachers and staff work collaboratively with **Exceptional Student Education (ESE) coordinators** to ensure that students with disabilities receive appropriate services aligned with their Individualized Education Plans (IEPs) or

	504 Plans. This collaboration ensures that all students can fully participate in and benefit from CTE programs. Students are provided the opportunity to request courses based on their interests and career goals. Course placement is determined by **grade level, student preference, and completion of prerequisite coursework**, ensuring a fair and structured progression through CTE programs. While scheduling availability may limit some course placements, the district actively works to **minimize barriers** and maximize access whenever possible. School choice options and ongoing program expansion further support equitable participation. The district remains committed to identifying and addressing any barriers that may impact equitable access for special populations. Through collaboration with ESE staff, counselors, and administrators, and through ongoing review of policies and practices, the district ensures that all students and stakeholders have meaningful opportunities to participate in and benefit from CTE programs.

Executive Summary
The School Board has, over the years, contracted with providers for clinical experience and/or on-the-job training for district students.

In order for the students to participate in this type of clinical or on-the-job experience, it is necessary for the participating office to sign an agreement with the School District. The opportunity to receive this type of clinical experience is a great advantage to our students. Not only do they obtain valuable hands-on learning experience, but also placements resulting in permanent jobs for the students after they finish their training.

A copy of the agreement is attached for review.

EMPLOYEE HEALTH REQUIREMENTS

Definitions:

"**Student**" means a student(s) who is (are) participating in a School Program and who participates in activities at a BayCare Site pursuant to this Agreement.

Responsibilities of the School: The School shall ensure that all Students, prior to working at a BayCare Site, or any of School employees, agents, and/or subcontractors who may be on-site at a BayCare Site for purposes of this Agreement, will comply with State and Federal rules and regulations and are in compliance with any criteria provided by BayCare.

All Students in a clinical environment will:

a) Receive, or provide declination regarding, the Hepatitis B vaccination series, and receive instruction in occupational exposure to bloodborne pathogens, protective practices to avoid contamination, and procedures for decontamination in case of exposure, or potential exposure, to infectious materials or potentially infectious materials.

b) Receive written direction from School in regards to follow-up procedures for post-exposure medical evaluation and treatment for a blood/bloody body fluid exposure. Each Student will report an exposure to School and then to BayCare Employee Health. A "Patient/Visitor Occurrence Report" should be completed. Follow-up care will be provided by the Student's or School's provider as defined by School. After a review of the exposure details, BayCare Employee Health or their designee may facilitate patient/source testing consistent with state and federal law at no cost to the patient/source. Source patient results and other information remain confidential between the organization, authorized treating provider, and the exposed healthcare worker.

c) The Centers for Disease Control and Prevention ("**CDC**") recommend airborne isolation for patients with known or suspected pulmonary tuberculosis. Non-immune healthcare workers should not provide care for patients with chicken pox, measles, or smallpox. Non-team members should not enter the room or be assigned to these specific patients unless fit tested for an N-95 NIOSH approved respirator.

d) Provide proof of vaccination or titer immunity to Rubella, Rubeola, Mumps and Varicella (Chicken Pox) consistent with CDC and Health and Human Services recommendations.

If the Student has been associated with School with no break of association and completed the TST within the past twelve (12) months the TST will be acceptable. A negative blood test for TB, performed within the past ten (10) weeks, can serve to replace the TB Skin Test. If the Student has presented documentation of a previously positive TB Skin Test, School shall ensure that the Student provides BayCare with the results of a chest x-ray that was performed within one (1) year,

and shall complete a TB questionnaire documenting the absence of unexplained TB symptoms. No routine repeat chest x-rays will be required until the Student has documented unexplained symptoms.

g) Possess a negative five (5) panel urine drug screen on file with no break in service of more than thirty (30) days. BayCare or School may require a new drug screen and/or alcohol testing at any time for reasonable suspicion. If required, School will ensure the reasonable suspicion test is performed within two (2) hours of the request and the Student will not work at BayCare's facility until a negative result is determined. Positive results will be handled by School according to Florida state law and any applicable professional regulatory guidelines.

h) Annually, Students are requested to provide proof of flu vaccination or attestation to their School representative. Proof of vaccination may also be requested to be shown to the work area supervisor. Students and Faculty who do not receive the flu vaccine are requested to complete declination form that will be maintained in their School file. Students and Faculty who do not have the appropriate proof of vaccination are encouraged to wear a surgical mask from October 1st to March 31st while in any BayCare facility.

i) Receive instruction regarding, and understand, the appropriate process to be followed in the event of injury, illness, or exposure to pathogens. BayCare assumes no responsibility for School's treatment or workers' compensation process for its Students or for any charges arising from any Student injury/illness.

j) Follow BayCare's guidelines, protocols, and procedures for Contagious Diseases and Influenza-Like Illness. 2. BayCare may participate in quality reporting, quality programs, and/or value-based incentive programs set forth by the Centers for Medicare & Medicaid Services ("**CMS**") in addition to any other agency, as applicable and/or required.

3. Accordingly, whether Students choose to complete the COVID-19 Vaccine Attestation or Declination form **shall not** impact their status as a Student, **shall not** impact employment opportunities, and **shall not** impact their ability to gain access to, enter upon, or obtain services from any BayCare facility.

2.2 **Termination**. The Agreement may be terminated as follows:

(a) **Termination for Cause**. Either party shall be entitled to terminate this Agreement for cause upon thirty (30) days advance written notice to the other party; provided, however, the breaching party has not cured the breach within such thirty (30) day period. 3.2 **Access to Sites**. BayCare agrees to allow Students to access the Sites in order to meet the goals and objectives of a School Program.

3.3 **Accessibility of Policies**. BayCare shall ensure that applicable Policies are at all times accessible to Students.

3.4 **Responsibility for Patient Care**. BayCare, at all times, shall have the sole and absolute authority to determine who will be accepted as a patient to a Site and shall have ultimate responsibility for the care and treatment of any patients of a Site.

3.5 **Responsibility for Student Health and Safety**. BayCare shall arrange for immediate emergency care in the event of a Student's accidental injury or illness, but shall not be responsible for any costs incurred as a result of such injury or illness, including, but not limited to, follow-up care or hospitalization.

3.6 **BayCare's Removal of Students**. BayCare, at any time, in its sole discretion, may suspend or remove from participating in Site Activities any Student whose conduct or work with patients or personnel is not in accordance with the Policies and/or standards of performance.

4. **School Responsibilities, Covenants, and Authority**.

4.1 **School Program Curriculum**. School shall be responsible for the content and quality of Student education at the Sites; provided, however, that BayCare shall be allowed to access the current curriculum, course objectives, and syllabus of the School Program.

4.2 **Scheduling**. The parties shall mutually agree on the number of Students who may participate in each Site Activity, on the time at which each Site Activity shall take place, and on a detailed schedule, which shall include the name and phone number of each participating Student, and the dates and times of the Site Activity(ies) in which he or she will be participating. In the event that a Student is no longer participating in any Site Activity for any reason, School must promptly notify BayCare of such change. School shall only allow those Students to participate who have received appropriate training and have an appropriate level of knowledge and skill. School shall create the schedule without regard to race, creed, color, sex, religion, national origin, or veteran status.

4.3 **Compliance with Policies**. School shall require each Student to comply with the Policies and to participate in any orientation or educational activity as requested or required by BayCare. School shall also require each Student to comply with the terms of BayCare's Employee Health Requirements for Clinical Contractors, which is attached hereto as Attachment B (Employee Health Requirements), and BayCare's Team Resources Contractor Requirements, which is attached hereto as Attachment C (Team Resources Contractor Requirements). Upon BayCare's request, School shall provide BayCare with verification of compliance with Attachment B (Employee Health Requirements) and Attachment C (Team Resources Contractor Requirements). Notwithstanding the foregoing, BayCare shall provide the necessary compliance verification of any Student who is employed by BayCare or a Site.

4.4 **Supervision and Evaluation**. At all times during the Term of this Agreement, School shall have sole responsibility for Students. School shall be responsible for providing appropriate and adequate instruction, supervision, guidance, and evaluation of its Students, and shall ensure that all procedures performed by the Students are performed under the direct supervision of School; provided, however, that if no Faculty Member is on-site at a Site, all procedures performed by the Students shall be performed under the direct supervision of an employee or independent contractor of BayCare. For purposes of this Section, the term "direct

supervision" shall mean supervision by a health care practitioner or other applicable professional who is immediately available.

4.5 **School's Removal of Students**. If School determines that a Student's progress, conduct, or work does not meet the standards of BayCare, any Site, any Site's medical staff, or School, School shall suspend or remove the Student from participating in Site Activities, and shall promptly notify BayCare of such suspension or removal.

4.6 **Excluded Provider**. School represents that neither it, nor any of its employees, agents, independent contractors, or Students have: (i) been excluded, debarred, suspended, or been otherwise determined to be, or identified as, ineligible to participate in any governmental program, including but not limited to, the Medicare and Medicaid Programs (collectively, the "**Governmental Program**") or is about to be excluded, debarred, suspended, or otherwise determined to be, or identified as, ineligible to participate in any Governmental Program; (ii) received any information or notice, or become aware, by any means or methods, that it is the subject of any investigation or review regarding its participation in any Governmental Program; or (iii) been convicted of any crime relating to any Governmental Program. School agrees to notify BayCare immediately if it becomes aware of any of the foregoing information, notice, actions, or events during the Term. In the event that School is excluded from any Governmental Program, the Agreement shall immediately terminate. In the event that any of School's subcontractors, employees, or Students is excluded from any Governmental Program, School must immediately remove that subcontractor, employee, or Student from participating in Site Activities.

4.7 **Ownership of Reports, Records, and Documents**. School acknowledges that all reports, records, and supporting documents prepared in connection with this Agreement (including, but not limited to, case histories, x-ray films, and files and records of any type concerning patients consulted, interviewed, or treated or cared for by a Site, or any Student) are the sole property of BayCare, and BayCare shall be deemed the records owner of all such reports, records, and supporting documents. School shall inform each Student that they must diligently and timely complete and sign all entries in the Sites' patient records, and not remove any such property from the Sites. In the event that a Student fails to timely complete and sign all entries in the Sites' patient records in accordance with the Policies, BayCare may immediately remove the Student from any Site.

4.8 **Access to Books, Documents, and Records**. If and to the extent required by Section 1395x(v)(1)(I) of Title 42 of the United States Code, until the expiration of four (4) years after participating in Site Activities pursuant to this Agreement, School agrees, and will cause School's employees, agents, independent contractors, and Students to agree, to make available, upon the written request of the Secretary of Health and Human Services or the Comptroller General of the United States, or any of their duly authorized representatives, copies of this Agreement and any books, documents, records, and other data of School, and School's employees, agents, independent contractors, or Students that are necessary to certify the nature and extent of costs incurred for such Site Activities. If this Agreement permits the use of subcontractors, and School carries out any of its duties under this Agreement through a subcontract with a value or cost of Ten Thousand and No/100 Dollars ($10,000.00) or more over a twelve (12) month period, School will cause such subcontract to contain a clause to the effect that, until the expiration of four (4) years after participating in Site Activities pursuant to said contract, subcontractor will make available, upon written request of the Secretary of Health and Human Services or the Comptroller

General of the United States, or any of their respective duly authorized representatives, copies of records of subcontractor that are necessary to certify the nature and extent of costs incurred for such Site Activities. If any such request for books, documents, and records is made, School, and School's employees, agents, independent contractors, or Students are required to immediately give notice of such request to BayCare and provide BayCare with a copy of such request. School agrees, thereafter, to cooperate, and cause School's employees, agents, independent contractors, or Students to cooperate, with BayCare concerning the proper response to such request. School is required to, and will cause its employees, agents, independent contractors, or Students to provide BayCare or its designees with a copy of each such book, document, and record made available to the aforementioned bodies and their duly authorized representatives or to identify each such book, document, and record and grant BayCare or its designees access thereto for review and copying. In the event that School, or School's employees, agents, independent contractors, or Students fail to make such books and records available to the Comptroller General or the Secretary of Health and Human Services upon request, and BayCare or a Site is denied reimbursement as a result of such failure, School agrees to indemnify BayCare or the Site (as applicable) for such loss of or reduction in reimbursement, subject to any sovereign immunity statutes, rules, or regulations applicable to School.

4.9 **Faculty Members**. School shall ensure that any Faculty Member who presents on-site at a Site shall meet the same requirements (including, without limitation, the requirements set forth in Section 4.3 (Compliance with Policies)) and shall be bound by the same terms and conditions as the Students. For the sake of clarification, if a Faculty Member presents on-site at a Site, all references herein to "Student" or "Students" shall be interpreted as "Student and Faculty Member" or "Students and Faculty Members," as applicable.

5. **Confidentiality**.

5.1 **Confidential Information**. The parties each acknowledge that, as a result of this Agreement, they may become informed of, and have access to, valuable and confidential information of the other party, including, without limitation, pricing information, fees, budgets, charges, protocols, policies, staffing, business planning, and strategies ("**Confidential Information**"). Accordingly, except as required by law, each party and its employees, agents, independent contractors, and Students will not, at any time, either during or subsequent to the Term, use, reveal, report, publish, copy, transcribe, transfer, or otherwise disclose to any person, corporation, or other entity, any of the Confidential Information of the other party without the prior written consent of the other party, with the exception of disclosure to responsible officers and employees of the party receiving the Confidential Information, state licensing agencies, the Joint Commission, and other responsible persons who are in a contractual or fiduciary relationship with the receiving party. Each party's obligations and agreements under this Section shall not apply to any Confidential Information that: (i) was known to either party prior to the disclosure by the other; (ii) is or becomes generally available to the public other than by breach of this Agreement; or (iii) otherwise becomes lawfully available on a non-confidential basis from a third party who is not under an obligation of confidence to either party.

5.2 **Confidential Terms of Agreement**. School will not, at any time, either during or subsequent to the Term, reveal, directly or indirectly, the terms of this Agreement to any person, corporation, or other entity without BayCare's prior written consent, except when required

by law or court order or as necessary to enforce this Agreement. If BayCare gives School written consent to disclose the terms of this Agreement to School's agent, employee, or Student, School shall obtain from that agent, employee, or Student a confidentiality agreement containing the same terms (and imposing upon such person the same obligations with respect to the terms) as are contained herein. School shall deliver such agreement to BayCare.

5.3 **HIPAA**. In connection with this Agreement, School, and School's employees, agents, independent contractors, and Students may receive from BayCare or a Site "protected health information" ("**PHI**"), as that term is defined in the Health Insurance Portability and Accountability Act of 1996 and regulations promulgated thereunder (as amended) (collectively, "**HIPAA**"). School agrees to use and disclose such PHI only for purposes of participating in Site Activities under this Agreement and for other purposes allowed by HIPAA. Neither School nor School's employees, agents, independent contractors, or Students may use or disclose the PHI in a manner that would violate the requirements of HIPAA. School, and School's employees, agents, independent contractors, and Students may only use De-Identified Information (as defined by HIPAA and in Section 1.1 (De-Identified Information)) for the purpose of meeting the obligations outlined in the course objectives, curriculum, and/or course syllabus. Students may not copy, print, or remove from the Site any portion of a medical record containing individually identifiable information unless identifiable PHI is the minimum necessary required to be used outside of the Site for such purposes, and a valid HIPAA authorization, as defined in 45 CFR §164.508, is obtained prior to such use and disclosure of the PHI outside of the Site.

5.4 **Request for Confidential Information or Terms**. If School receives a request to disclose either Confidential Information or the terms of this Agreement under the terms of a subpoena or other order by a court of competent jurisdiction or by a governing agency, School will: (i) consult with BayCare on the advisability of taking steps to resist or narrow that request; (ii) if disclosure is required, furnish only such portion of the Confidential Information or the terms of this Agreement as School's counsel determines, in writing, that School is legally required to disclose; and (iii) cooperate with BayCare in its efforts to obtain an order or other reliable assurance that confidential treatment will be accorded to that portion of the Confidential Information or the terms of this Agreement that is required to be disclosed.

5.5 **Return of Confidential Information**. All tangible Confidential Information and other documentation supplied either directly or indirectly pursuant to this Agreement, including all copies thereof, or reproductions or drawings made therefrom, shall remain the property of the disclosing party and shall be returned immediately upon written request by the disclosing party or upon expiration of this Agreement.

5.6 **Breach of Confidentiality**. In the event that either party breaches any of the provisions in Section 5 (Confidentiality), the extent of actual damages sustained will be difficult to ascertain, and compensation at law will be inadequate. Therefore, each party expressly agrees that it shall have the right to injunctive relief for breach of such provisions. The breaching party shall pay all attorneys' fees and court costs regarding any legal or equitable action that the non-breaching party takes to enforce the provisions of Section 5 (Confidentiality).

6. **Indemnification**. To the extent permitted by law and subject to any sovereign immunity statutes, rules, or regulations applicable to School, each party agrees to be fully responsible for, and agrees to indemnify, defend, and hold the other party harmless against, all

claims, losses, liabilities, damages, injuries, or expenses (including reasonable attorney and paralegal fees and expenses) resulting from or arising in connection with: (i) any breach by the indemnifying party or any of its employees, independent contractors, or, if applicable, Students of the indemnifying party's obligations under this Agreement; or (ii) any claim made by a third party based upon any negligent or willful act or omission by the indemnifying party or any of its employees, independent contractors, or, if applicable, Students in connection with the indemnifying party's obligations under this Agreement.

7. **Insurance**.

7.1 **School's Insurance Requirement**. School shall obtain and maintain professional liability and general liability insurance in the minimum amounts of one million dollars ($1,000,000.00) per occurrence and three million dollars ($3,000,000.00) in the aggregate per annum that provides coverage for the activities that any Student participates in pursuant to this Agreement. Such insurance shall be written through an insurance company satisfactory to BayCare, which approval should not be unreasonably withheld, and evidence of professional and general liability insurance coverage shall be provided to BayCare annually unless requested earlier. School shall give BayCare thirty (30) days prior written notice to the extent School has such notice of impending cancellation or termination of such insurance and, upon cancellation or termination thereof, shall immediately notify BayCare. In the event that School maintains claims-made coverage, and School's coverage is terminated within eight (8) years of the date on which School ceases to participate or have its Students participate in Site Activities pursuant to this Agreement, School shall obtain "tail coverage," or other prior acts coverage, if such coverage is available, in the amount stated above until the expiration of eight (8) years from the last date on which School, or a Student participated in a Site Activity, as contemplated by this Agreement. Failure to secure and maintain the insurance coverage required by this Section shall constitute a material default and the Agreement may be terminated by BayCare as provided in Section 2.2 (Termination). If School fails to purchase the required tail or prior acts coverage, or ensure that the alternate coverage as described herein is obtained, BayCare may, but will have no obligation to do so, purchase such tail coverage on behalf of School.

7.2 **BayCare's Insurance Requirement**. BayCare shall obtain and maintain professional liability and general liability insurance in the minimum amounts of one million dollars ($1,000,000.00) per claim and three million dollars ($3,000,000.00) in the aggregate per annum that provides coverage for activities that the Sites and their employees participate in pursuant to this Agreement. Such insurance shall be written through a self-insurance program. Evidence of professional and general liability insurance coverage shall be provided to School annually unless requested earlier. BayCare shall give School thirty (30) days prior written notice to the extent BayCare has such notice of impending cancellation or termination of such insurance and, upon cancellation or termination thereof, shall immediately notify School. In the event that BayCare maintains claims-made coverage, and BayCare's coverage is terminated within eight (8) years of the date on which School ceases to participate or have its Students participate in Site Activities pursuant to this Agreement, BayCare shall obtain "tail coverage," or other prior acts coverage, if such coverage is available, in the amount stated above until the expiration of eight (8) years from the last date on which on which School, or a Student participated in a Site Activity, as contemplated by this Agreement. Failure to secure and maintain the insurance coverage required by this Section shall constitute a material default and the Agreement may be terminated by School as provided in Section 2.2 (Termination). If BayCare fails to purchase the required tail or prior acts coverage, or

ensure that the alternate coverage as described herein is obtained, School may, but will have no obligation to do so, purchase such tail coverage on behalf of BayCare. Notwithstanding the requirements of this Section, BayCare may elect to satisfy any or all of the above insurance requirements and/or deductibles by use of self-insurance, and/or a captive insurance company owned by BayCare. The responsibility to fund any financial obligation for self-insurance and/or a captive insurance company owned by BayCare shall be assumed by, for the account of, and at the sole risk of BayCare.

8. **Financial Support**. BayCare is not responsible for financial support of the Students, or the School Programs.

9. **Miscellaneous**.

9.1 **Independent Contractor**. School acknowledges that it is at all times acting as an independent contractor under this Agreement. Nothing in this Agreement shall be deemed to create a joint venture, partnership, agency, employment, or similar relationship. School has no authority to enter into any contract or incur any other obligation on behalf or in the name of BayCare, except as otherwise provided for herein. School will be solely responsible for all the acts, inactions, and/or claims relating to itself and its employees, agents, subcontractors, and/or Students, including, but not limited to: compliance with laws governing workers' compensation, Social Security, and withholding; payment of any and all federal, state, and local personal income taxes; disability insurance; unemployment; and any other taxes for such persons. Except as expressly provided for in this Agreement, BayCare will not exercise control or discretion over the manner or method by which School provides training to Students pursuant to this Agreement, provided always that such training will be provided in a manner consistent with professional standards governing that training.

9.2 **Publicity/Advertising**. BayCare has a policy prohibiting the use of its name, brand, likeness, trademarks, or other intellectual property for publicity and/or advertising purposes. All requests to use BayCare's name, brand, likeness, trademarks/intellectual property, statements from employees, results from questionnaires, or any other related requests ("**Publicity/Advertising Requests**") must be submitted in writing to BayCare for review and approval. School agrees that BayCare will approve or disapprove all Publicity/Advertising Requests in its sole discretion. In the event that BayCare notifies School of any breach of this clause, School shall immediately cease and desist the breaching conduct, and BayCare shall be entitled to terminate this Agreement.

9.3 **Assignment**. No assignment of this Agreement or the rights and obligations hereunder will be valid without the specific written consent of both parties hereto, except that this Agreement may be assigned by BayCare to a parent, affiliate (whether by contract or ownership), subsidiary, or successor in interest of BayCare.

9.4 **Notices**. Any notice required or permitted to be delivered under this Agreement shall be sufficient if in writing, and if delivered personally or sent by certified mail, return receipt requested and postage prepaid, to the parties at the following addresses:

9.5 **Governing Law**. This Agreement has been executed and delivered (and will be construed and enforced) in accordance with the laws of the State of Florida, without regard to Florida's conflicts of laws principles.

9.6 **Venue and Jurisdiction**. All disputes directly or indirectly related to this Agreement shall be litigated solely in the state and federal courts with jurisdiction over Hillsborough County, Florida and no other place, and School and BayCare hereby agree to waive any jurisdictional, venue, or inconvenient forum objections to such courts. Each party waives all rights to any trial by jury in all litigation relating to or arising out of this Agreement.

9.7 **Attorneys' Fees and Costs**. To the extent permitted by law and subject to any sovereign immunity statutes, rules, or regulations applicable to School, in the event of a dispute arising under this Agreement, whether or not a lawsuit or other proceeding is filed, the prevailing party shall be entitled to recover its reasonable attorneys' fees and costs, including attorneys' fees and costs incurred in litigating entitlement to attorneys' fees and costs, as well as in determining or quantifying the amount of recoverable attorneys' fees and costs. The reasonable costs to which the prevailing party is entitled shall include costs that are taxable under any applicable statute, rule, or guideline, as well as non-taxable costs, including, but not limited to, costs of investigation, copying costs, electronic discovery costs, telephone charges, mailing and delivering charges, information technology support charges, consultant and expert witness fees, travel expenses, court reporter fees, and mediator fees, regardless of whether such costs are otherwise taxable.

9.8 **Force Majeure**. Neither party shall be liable for any delay or failure in performance under this Agreement deemed to be a result, directly or indirectly, of any act of God,

acts of civil or military authority, acts of public enemy, war, accidents, fires, explosions, earthquakes, floods, failure of public transportation, or any similar or dissimilar cause beyond the reasonable control of either party.

9.9 **No Waiver**. Failure by either party to insist upon the strict performance of any covenant, agreement, term, or condition of this Agreement or to exercise a right or remedy shall not operate as, or be construed to be, a waiver of any existing or subsequent breach of the same or other provision of this Agreement.

9.10 **Severability**. If any provision of this Agreement is deemed to be invalid or unenforceable, the remainder of the Agreement shall be valid and enforceable.

9.11 **Amendments**. This Agreement may not be modified, amended, or renewed except in writing, signed by both parties.

9.12 **Entire Agreement**. This Agreement, and all Attachments and documents referenced herein, supersedes all previous contracts concerning the subject matter herein, and constitutes the entire agreement between the parties regarding the subject matter hereof. As between the parties, no oral statements or prior written material not specifically referenced in this Agreement will be of any force and effect.

9.13 **Execution**. This Agreement may be executed in one or more counterparts, each of which when so executed and delivered (whether by facsimile, e-mail, or other electronic means) shall be deemed to be an original, and all of which taken together shall constitute one and the same instrument. A facsimile, PDF, or other electronic signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed), and shall be deemed an original signature for all purposes under this Agreement.

9.14 **Survival**. Any provisions which remain to be performed, or by their nature are intended to be applicable, following any expiration or termination of this Agreement shall remain in full force and effect after such expiration or termination.

9.15 **Compliance with Laws**. BayCare and School agree to comply with all federal, state, and local laws applicable to the services provided pursuant to this Agreement.

EMPLOYEE HEALTH REQUIREMENTS

Definitions:

"**Student**" means a student(s) who is (are) participating in a School Program and who participates in activities at a BayCare Site pursuant to this Agreement.

Responsibilities of the School: The School shall ensure that all Students, prior to working at a BayCare Site, will comply with State and Federal rules and regulations and are in compliance with any criteria provided by BayCare.

All Students in a clinical environment will:

a) Receive, or provide declination regarding, the Hepatitis B vaccination series, and receive instruction in occupational exposure to bloodborne pathogens, protective practices to avoid contamination, and procedures for decontamination in case of exposure, or potential exposure, to infectious materials or potentially infectious materials.

b) Receive written direction from School in regards to follow-up procedures for post-exposure medical evaluation and treatment for a blood/bloody body fluid exposure. Each Student will report an exposure to School and then to BayCare Employee Health. A "Patient/Visitor Occurrence Report" should be completed. Follow-up care will be provided by the Student's or School's provider as defined by School. After a review of the exposure details, BayCare Employee Health or their designee may facilitate patient/source testing consistent with state and federal law at no cost to the patient/source. Source patient results and other information remain confidential between the organization, authorized treating provider, and the exposed healthcare worker.

c) The Centers for Disease Control and Prevention ("**CDC**") recommend airborne isolation for patients with known or suspected pulmonary tuberculosis. Non-immune healthcare workers should not provide care for patients with chicken pox, measles, or smallpox. Non-team members should not enter the room or be assigned to these specific patients unless fit tested for an N-95 NIOSH approved respirator.

d) Provide proof of vaccination or titer immunity to Rubella, Rubeola, Mumps and Varicella (Chicken Pox) consistent with CDC and Health and Human Services recommendations.

e) Possess documentation of a physical examination indicating they are able to physically perform the essential duties of the position, with or without reasonable accommodations, and are free of communicable disease, which could be transmitted, to a patient, visitor, or BayCare team member during the performance of their normal job duties.

f) Proof of TB Skin Test ("**TST**") in previous ten (10) weeks of placement in a BayCare facility. If the Student has been associated with School with no break of association and completed the TST within the past twelve (12) months the TST will be acceptable. A negative

blood test for TB, performed within the past ten (10) weeks, can serve to replace the TB Skin Test. If the Student has presented documentation of a previously positive TB Skin Test, School shall ensure that the Student provides BayCare with the results of a chest x-ray that was performed within one (1) year, and shall complete a TB questionnaire documenting the absence of unexplained TB symptoms. No routine repeat chest x-rays will be required until the Student has documented unexplained symptoms.

g) Possess a negative five (5) panel urine drug screen on file with no break in service of more than thirty (30) days. BayCare or School may require a new drug screen and/or alcohol testing at any time for reasonable suspicion. If required, School will ensure the reasonable suspicion test is performed within two (2) hours of the request and the Student will not work at BayCare's facility until a negative result is determined. Positive results will be handled by School according to Florida state law and any applicable professional regulatory guidelines.

h) Annually, Students are requested to provide proof of flu vaccination or attestation to their School representative. Proof of vaccination may also be requested to be shown to the work area supervisor. Students and Faculty who do not receive the flu vaccine are requested to complete declination form that will be maintained in their School file. Students and Faculty who do not have the appropriate proof of vaccination are encouraged to wear a surgical mask from October 1st to March 31st while in any BayCare facility.

i) Receive instruction regarding, and understand, the appropriate process to be followed in the event of injury, illness, or exposure to pathogens. BayCare assumes no responsibility for School's treatment or workers' compensation process for its Students or for any charges arising from any Student injury/illness.

j) Follow BayCare's guidelines, protocols, and procedures for Contagious Diseases and Influenza-Like Illness. This includes personal protective equipment usage, proper hand washing, and exposure and symptom reporting and work status. Any School or Student who has any flu-like symptoms or influenza-like-illness ("**ILI**") defined as fever greater than one hundred degrees Fahrenheit (100° F), sore throat, cough, rhinorrhea or runny nose, congestion, vomiting, and diarrhea, is NOT permitted to report to any BayCare facility.

COVID-19 Vaccination Program and Reporting

1. The COVID-19 vaccination is voluntary.

2. BayCare may participate in quality reporting, quality programs, and/or value-based incentive programs set forth by the Centers for Medicare & Medicaid Services ("**CMS**") in addition to any other agency, as applicable and/or required.

3. Accordingly, whether Students choose to complete the COVID-19 Vaccine Attestation or Declination form **shall not** impact their status as a Student, **shall not** impact employment opportunities, and **shall not** impact their ability to gain access to, enter upon, or obtain services from any BayCare facility.

Title
Approval of the Renewal Agreement Between the School District of Manatee County and West Florida Division, Inc. for Clinical Experience for Manatee Technical College (MTC) Health Science Programs for the 2026-2029 School Years (No Financial Impact)

Executive Summary
The School Board has, over the years, contracted with providers for clinical experience and/or on-the-job training for district students.

In order for the students to participate in this type of clinical or on-the-job experience, it is necessary for the participating office to sign an agreement with the School District. The opportunity to receive this type of clinical experience is a great advantage to our students. Not only do they obtain valuable hands-on learning experience, but also placements resulting in permanent jobs for the students after they finish their training.

A copy of the agreement is attached for review.

School and Division may be referred to herein individually as a "Party" and collectively as the "Parties." This Agreement, when fully executed, shall supersede any school affiliation agreements currently in effect between School and any of the Hospitals, individually, listed on Attachment A

W I T N E S S E T H:

WHEREAS, School enrolls students in an accredited degree program in the field of

- **Central Sterile Processing**
- **Pharmacy Technician**
- **Phlebotomy**
- **Surgical Technology**
- **Medical Assisting**
- **Medical Coder Biller**
- **Practical Nursing**
- **Patient Care Technician**
- **EMT/Paramedic** (the "**Degree Program**");

WHEREAS, the Division is authorized to contract on behalf of the Hospitals set forth on Attachment A, each of which operates a comprehensive acute-care medical-surgical hospital located within the state of Florida;

WHEREAS, School desires to provide up to **40** of its students enrolled in the Degree Program a clinical learning experience through the application of knowledge and skills in actual patient-centered treatment situations in a health care setting; and

WHEREAS, Division will make the Facility available to School for such clinical learning experience, subject to the terms and conditions of this Agreement.

NOW, THEREFORE, in consideration of the mutual promises contained herein, the Parties hereby agree as follows:

1. **RESPONSIBILITIES OF SCHOOL.**

(a) **Clinical Program**. School will develop, implement and operate the clinical learning experience component of the Degree Program at the Facility in a form and format acceptable to Hospital ("Clinical Program"). School may modify the Clinical Program from time to time with Hospital's permission and will promptly incorporate reasonable changes to the Clinical Program requested by Hospital from time to time. With respect to the Clinical Program, School will:

(i) ensure the adequacy of Degree Program resources, including up-to-date reference materials, and the academic preparation of students enrolled in the Degree Program, including theoretical background, basic skills, professional ethics, and attitude and behavior, for participation in the Clinical Program and will assign to the Clinical Program only those students who have demonstrated the ability to successfully participate in the Clinical Program (each a "Participating Student");

(ii) advise each Participating Student, Degree Program faculty and other School

representatives onsite at the Facility for purposes related to the Clinical Program ("**Program Participant**") to attend training and orientation with respect to applicable Hospital policies and procedures prior to the commencement of each Clinical Program rotation during the Term (each a "Rotation");

(iii) provide training for Hospital's representatives who will support the Clinical Program regarding Clinical Program features and expectations, and Participating Student evaluations, as requested by Hospital from time to time;

(iv) identify to Hospital each Program Participant who will participate in a Rotation as soon as that information is reasonably available to School;

(v) require Program Participants to comply with applicable laws and Hospital policies and procedures when onsite at the Facility;

(vi) require Program Participants to treat Hospital patients, staff and Clinical Program supervisors with courtesy and respect and do not disrupt Facility operations or the provision of health care services for Hospital's patients;

(vii) timely prepare and update with input from Hospital Rotation schedules for each Participating Student throughout each Rotation and coordinate the same with Hospital;

(viii) advise Participating Students to arrive early for each scheduled Rotation, except when a Participating Student is ill or attending to a personal emergency;

(ix) provide continuing oral and written communication with Hospital regarding Participating Student Clinical Program performance and evaluation and other pertinent information;

(x) participate and ensure that Program Participants participate in Hospital's Quality Assurance and related programs;

(xi) participate and require Program Participants to participate in Hospital training as determined necessary by Hospital from time to time; and

(xii) promptly perform additional duties to facilitate operation of the Clinical Program as may be deemed reasonable or necessary by Hospital from time to time.

(b) **Responsibility**.

(i) School will retain ultimate responsibility for the appointment of faculty from the Degree Program to support the Clinical Program. When Participating Students are supervised in connection with the Clinical Program while on site at Hospital by licensed healthcare professionals who are not employed by Hospital or its affiliates, School represents and warrants that it (including its affiliate) will not compensate any such faculty for their services provided to School in connection with the Clinical Program except in a manner that is consistent State and Federal law.

(ii) School will retain sole responsibility for offering and administering the Degree Program, including, but not limited to, budgetary considerations, faculty appointments, admissions, financial aid, academic instruction, curriculum content, pedagogy, and the requirements of matriculation, grading, and graduation.

(iii) Without limiting the foregoing, all Program Participants shall be accountable to the Hospital's Administrator while onsite at the Facility.

(iv) School will address all Program Participant complaints, claims, requests and questions regarding the Clinical Program. If necessary, School's Program Representative will follow-up with Hospital's Program Representative to address unresolved issues.

(v) School will obtain prior signed and dated written consent that complies with 34 C.F.R. 99.30 from each Participating Student (or the parent of the student, if the student is not deemed an "eligible student" under 34 C.F.R. 99.30) before disclosing personally identifiable information from the student's education records to Hospital to the extent that access to such information is required by Hospital to carry out the Clinical Program. If Participating Student notifies School that they revoke said consent, School shall immediately notify Hospital and the revocation shall become effective immediately upon such notice as applicable to any decisions after that date.

(c) **Compliance with Program Requirements**. School acknowledges that compliance by School and each Program Participant with the terms and conditions of this Agreement and Hospital policies and procedures is a condition precedent to Program Participant access to the Facility. Non-compliance or partial compliance with any such requirement may result in an immediate denial of access or re-access to the Facility.

(d) **Dress Code**. School will cause Program Participants to conform to reasonable personal appearance standards imposed by Hospital and wear ID badges as requested by Hospital. School will cause Program Participants to pay for their own meals at the Facility. School acknowledges and will regularly inform Program Participants that Hospital is not responsible for personal items lost or stolen at the Facility.

(e) **Use of the Facility**. School will ensure that Program Participants use the Facility solely for the purpose of providing to Participating Students clinical learning experience pursuant to the Clinical Program.

(f) **Records**. School will cause each Program Participant to timely complete and save in Hospital's systems as directed by Hospital accurate records of all services provided by the Program Participant to a Hospital patient ("Records"). All Records are and will remain the property of Hospital, subject to the rights of patients with respect to such records and to the terms of applicable law. Hospital will provide to School a copy of Records for all lawful purposes, including defense of liability claims.

(g) **Program Participants**. School will provide to Hospital information regarding each Program Participant, including health examination and immunization records, documentation attesting to the competency of Degree Program faculty (e.g., state licensure, board certification in the relevant Specialty, etc.) and background checks and drug screens as determined reasonably necessary in Hospital's discretion from time to time.

(h) **Program Participant Statements**. School shall require each Participating Student and, at Hospital's request, each Program Participant to sign a Statement of Responsibility, in the form attached hereto as Exhibit A, and a Statement of Confidentiality and Security, in the form attached hereto as Exhibit B prior to each non-consecutive Rotation.

(i) **Liability Insurance**. School shall obtain and maintain occurrence-type general and professional liability insurance coverage in amounts not less than one million dollars ($1,000,000.00) per occurrence and three million dollars ($3,000,000.00) annual aggregate per Program Participant, with insurance carriers or self insurance programs approved by Hospital and covering the acts and omissions of Program Participants. If such coverage is provided on a claims-made basis, then such insurance shall continue throughout the Term and upon the termination or expiration of this Agreement, School shall purchase tail coverage for a period of three years after the termination or expiration of this Agreement (said tail coverage shall be in

amounts and type equivalent to the claims-made coverage). School shall further, at its expense, obtain and maintain for the Term workers' compensation insurance and unemployment insurance for School-employed Program Participants who participate on site at Hospital. School will notify Hospital at least thirty (30) calendar days in advance of any cancellation or modification of insurance coverage required hereunder and shall promptly provide to Hospital, upon request, certificates of insurance evidencing the above coverage.

Notwithstanding the foregoing, if the School is a public entity entitled to governmental immunity protections under applicable state law, then the School shall provide occurrence-based liability coverage in accordance with any limitations associated with the applicable law; but the School shall provide such insurance with limits of at least $1,000,000 per occurrence and $3,000,000 annual aggregate in the event governmental immunity protections are determined by a court of competent jurisdiction to not apply. Nothing in this agreement is intended to be construed or interpreted as (1) denying either School or Hospital any remedy or defense available to it under state laws; (2) the consent of the State where School is located or any of its agents and agencies to be sued; or (3) a waiver of sovereign immunity of the State or the School beyond any waiver explicitly stated in state statutes.

(j) **Health of Program Participants**. School will advise Program Participants that no Program Participant will be permitted to attend the Clinical Program until he or she submits to a medical examination acceptable to Hospital.

School will require each Program Participant to maintain health insurance and provide proof of health insurance to the School prior to participating in the Clinical Program. School will cause Program Participants to provide to Hospital proof of health insurance as requested by Hospital from time to time.

School will ensure that each Participating Student furnishes to Hospital prior to Rotation a complete copy of the following health records (Participating Students will not be allowed to access the Facility until all records are provided):

(i) Proof of negative PPD or IGRA within 12 months. Symptom and Risk screening must be completed prior to first day of each rotation utilizing the HCA TB Questionnaire Form.

(ii) Proof of Measles, Mumps, Rubella immunity by positive antibody titers or two (2) doses of MMR.

(iii) Proof of Varicella immunity, by positive history of chickenpox or Varicella

(iv) Proof of Influenza vaccination during the flu season, October 1 to March 31, (or dates defined by CDC). If the Program Participant declines the Influenza vaccination, he/she must comply at all times with Facility's Communicable Disease Protection policy; and

(v) Proof of Hepatitis B immunization or declination of vaccine, if patient contact is anticipated.

(vi) Vaccination for COVID-19 or exemption for religious or medical reasons, preferred not required

(vii) Documented proof of Tdap immunization within last 10 years

(viii) When state and local regulations differ from these recommendations, locations are to comply with geographic specific regulations.

(k) **Performance**. All faculty provided by School to support the Clinical Program shall be faculty members of the Degree Program, duly licensed, certified or otherwise qualified to support the Clinical Program in the capacity proposed by School. School and all Program Participants shall perform its and their duties and services hereunder in accordance with all relevant local, state, and federal laws and shall comply with the standards and guidelines of all applicable accrediting bodies and the bylaws, rules and regulations of Hospital and any non-conflicting rules and regulations of School as may be in effect from time to time. Neither School nor any Program Participant shall interfere with or adversely affect the operation of Hospital or the performance of services therein.

(l) **Background Checks**.

(i) School will ensure that each Program Participant obtains prior to Rotation a background check acceptable to Hospital, including, at a minimum, the following:

B. Criminal Search (7 years or up to 5 criminal searches);

C. Violent Sex Offender and Predator Registry Search;

D. HHS/OIG List of Excluded Individuals;

E. GSA List of Parties Excluded from Federal Programs;

F. U.S. Treasury, Office of Foreign Assets Control (OFAC), List of Specially Designated Nationals (SDN); and

G. Applicable State Exclusion List, if available.

(ii) Background Checks for Program Faculty, if School provides Faculty on site, who will be treating patients in the Facility shall include all of the above, and the following:

A. Education verification (highest level);

B. Professional license verification;

C. Certifications & Designations check;

D. Professional Disciplinary Action search;

E. Department of Motor Vehicle Driving History, based on responsibilities; and

F. Consumer Credit Report, based on responsibilities.

(iii) School shall provide to Division an *Attestation of Satisfactory Background Investigation* in the form attached hereto as Exhibit C prior to Rotation. If the background check discloses adverse information about a Participating Student, School shall immediately remove the student from the Clinical Program. School further agrees to an annual compliance audit of background checks, if requested by Hospital and approved by any Program Participant pursuant to the Fair Credit Reporting Act (FCRA).

(m) **Drug Testing**. School will ensure that each Program Participant obtains prior to Rotation a

drug test acceptable to Hospital, including, at a minimum, the following:

(i) Substances tested prior to placement at the Hospital must at a minimum include amphetamines, barbiturates, benzodiazepines, opiates, methadone, marijuana, and cocaine.

(ii) A Program Participant may be required to undergo additional drug and alcohol testing upon reasonable suspicion that the Program Participant has violated Hospital's policies, and after any incident that involves injury or property damage.

Hospital shall not bear the cost of any such tests. Should the testing disclose adverse information as to any Program Participant, Hospital shall have no obligation to accept that Program Participant at the Hospital. To the extent that any Program Participant violates the policy for drug or alcohol abuse after placement at the Facility, or refuses to cooperate with the requirement for a search or reasonable suspicion and reportable accident testing, then the Facility may immediately remove the Program Participant from participation in the Program at the Facility.

(n) **Student Documentation**. School will maintain all documentation required to evidence compliance by each Program Participant with the terms and conditions of Subsections 1(g)- (m) of this Agreement during the Term and for at least ten (10) years following expiration or termination of this Agreement.

(o) **Access to Resources**. The School shall ensure that its department heads have authority to ensure faculty and Participating Student access to appropriate resources for the Participating Students' education.

(p) **Approval and Authorization.** Hospital's willingness to enter into this Agreement and provide clinical opportunities to Participating Students is conditioned on School having obtained and maintaining all requisite institutional, regulatory, and accreditor approvals or authorizations necessary to offer the Degree Program. Moreover, it is conditioned on School's adherence to all applicable federal, state, and local laws and regulations. In the event that School's status changes with respect to any approval or authorization necessary to offer the Degree Program, School will notify Hospital within ten (10) business days.

2. **RESPONSIBILITIES OF HOSPITAL.**

(a) Hospital will make Facility access reasonably available to Program Participants and reasonably cooperate with School's orientation of all Program Participants to the Facility. Hospital shall provide Program Participants with access to appropriate clinical experience resources for the Clinical Program. Hospital shall provide reasonable opportunities for Participating Students to observe and assist in various aspects of patient care to the extent permitted by applicable law and without disruption of patient care or Hospital operations. Hospital shall at all times retain ultimate control of the Hospital and responsibility for patient care and quality standards.

(b) Upon the request of School, Hospital shall assist School in the evaluation of each Participating Student's performance in the Clinical Program. Any such evaluations shall be returned to School in a timely manner. However, School shall at all times remain solely responsible for the evaluation and education of Participating Students.

(c) Hospital will ensure that the Facility complies with applicable state and federal workplace safety laws and regulations. In the event a Participating Student is exposed to an infectious or environmental hazard or other occupational injury (i.e., needle stick) while at the Facility, it shall provide, upon notice of such incident from the Participating Student, such emergency care as is provided its employees, including, where applicable: examination and evaluation by Facility's

emergency department or other appropriate department as soon as possible after the injury; emergency medical care immediately following the injury as necessary; initiation of the HBV, Hepatitis C (HCV), and/or HIV protocol as necessary; and HIV counseling and appropriate testing as necessary. In the event that the Facility does not have the resources to provide such emergency care, Facility will refer such student to the nearest emergency facility. School acknowledges that Hospital is not and will not be financially responsible for a Program Participant's medical care or treatment regardless of the Program Participant's condition or injury or cause of injury whether occurring at the Facility or otherwise and regardless of fault or cause of injury.

(d) Upon reasonable request, Hospital will provide proof to School that Hospital maintains liability insurance in an amount that is commercially reasonable.

(e) Hospital will provide written notification to School if a claim arises involving a Program Participant. Both Hospital and School agree to share such information in a manner that protects such disclosures from discovery to the extent possible under applicable federal and state peer review and joint defense laws.

(f) Hospital will resolve any situation in favor of its patients' welfare and may restrict a Participating Student to the role of observer when necessary in Hospital's discretion. Hospital will notify School's Program Representative (defined below) when such action has occurred.

(g) Upon reasonable notice from School, Hospital will make the Facility reasonably available for inspection during normal business hours by organizations that provide or may provide academic accreditation for the Degree Program. Such inspections must be accompanied at all times by a Hospital representative and are contingent upon receipt by Hospital of executed agreements that Hospital believes are reasonably necessary or convenient to protect the confidentiality and security of Hospital's information. School will promptly reimburse Hospital for all direct costs incurred by Hospital in connection with such accreditation inspections.

(h) Hospital shall provide Program Participants with access to and Participating Students with required training in the proper use of electronic medical records or paper charts, as applicable.

(i) Hospital shall provide student security badges or other means of secure access to Facility patient care areas.

(j) Hospital shall provide Program Participants with computer access, and access to call rooms, if necessary.

(k) Hospital shall provide secure storage space for Participating Students' personal items when at the Facility.

(l) Hospital shall provide qualified and competent staff members in adequate number for the instruction and supervision of students using the Facility.

(m) Hospital shall maintain the confidentiality of information it receives from School about a Participating Student in a manner consistent with Hospital's policies regarding confidentiality of employee records.

3. **MUTUAL RESPONSIBILITIES.** The Parties shall cooperate to fulfill the following mutual responsibilities:

(a) Each Party will identify to the other Party a Clinical Program representative (each a "Program Representative") on or before the execution of this Agreement. School's Program Representative shall be a faculty member who will be responsible for Participating Student teaching and assessment provided pursuant to this Agreement. Each Party will maintain a

Program Representative for the Term and will promptly appoint a replacement Program Representative if necessary to comply with this Agreement. Each Party will ensure that its Program Representative is reasonably available to the other Party's Program Representative.

(b) School will provide qualified and competent Degree Program faculty in adequate number for the instruction, assessment and supervision of Participating Students at the Facility.

(c) Both School and Hospital will work together to maintain a Clinical Program emphasis on high quality patient care. At the request of either Party, a meeting or teleconference will promptly be held between the Parties' respective Program Representatives to resolve any problems in the operation of the Clinical Program.

(d) School acknowledges, and will inform Participating Students that Participating Students are trainees in the Clinical Program and have no expectation of receiving compensation or future employment from Hospital or School. Participating Students are not to replace Hospital staff and are not to render unsupervised patient care and/or services. Hospital and its staff will provide such supervision of the educational and clinical activities as is reasonable and appropriate to the circumstances and to the Participating Student's level of training.

(e) Any courtesy appointments to faculty or staff by either School or Hospital shall be without entitlement of the individual to compensation or benefits for the appointed party.

(f) Both School and Hospital will work together to create and maintain an appropriate learning environment for the Participating Students.

(g) The School, including its faculty, staff and residents, and the Hospital share responsibility for creating an appropriate learning environment that includes both formal learning activities and the attitudes, values, and informal "lessons" conveyed by individuals who interact with the Participating Student. The parties will cooperate to evaluate the learning environment (which may include on-site visits) to identify positive and negative influences on the maintenance of professional standards, and to conduct and develop appropriate strategies to enhance the positive and mitigate the negative influences.

4. **WITHDRAWAL OF PARTICIPATING STUDENTS.** Hospital may immediately remove a Participating Student from the Facility when in Hospital's discretion his or her clinical performance is unsatisfactory or his or her behavior is disruptive or detrimental to Hospital operations and/or Hospital's patients. In such event, School will immediately remove the Participating Student from the Clinical Program. It is understood that only School can dismiss the Participating Student from the Clinical Program. School may terminate a Participating Student's participating in the Clinical Program when it determines, in its sole discretion, that further participation by the student would no longer be appropriate.

5. **INDEPENDENT CONTRACTOR; NO OTHER BENEFICIARIES; EMPLOYMENT DISCLAIMER.**

(a) The Parties hereby acknowledge that they are independent contractors, and neither School nor any of its agents, representatives, Program Participants, or employees shall be considered agents, representatives, or employees of the Division or Hospital. In no event shall this Agreement be construed as establishing a partnership or joint venture or similar relationship between the Parties. School shall be liable for its own debts, obligations, acts and omissions, including the payment of all required withholding, social security and other taxes or benefits. No Program Participant shall look to the Division or Hospital for any salaries, insurance or other benefits. No Program Participant or other third person is entitled to, and shall not, receive any rights under this Agreement. Neither Party shall have the right or authority nor hold itself out to have the right or authority to bind the other Party and neither shall either Party be responsible for the acts or omissions of the other except as provided specifically to the contrary herein.

(b) Each Party acknowledges Participating Students will not be considered employees or agents of Division, Hospital or School for any purpose related to this Agreement. Participating Students will not be entitled to receive any compensation from Division, Hospital or School or any benefits of employment from Division, Hospital or School in exchange for their activities related to this Agreement, including health care or workers' compensation benefits, vacation, sick time, or other direct or indirect benefit of employment.

(c) School acknowledges that the Division, Hospital has not and is not obligated to implement or maintain insurance coverage for the benefit or protection of School or Program Participants.

6. **NON-DISCRIMINATION**. There shall be no discrimination on the basis of race, national origin, religion, creed, sex, sexual orientation, gender identity, age, veteran status, or disability in either the selection of Participating Students, or as to any aspect of the Clinical Program; provided, however, that with respect to a disability, the disability must not be such as would, even with reasonable accommodation, in and of itself preclude the Program Participant's effective participation in the Clinical Program.

7. **INDEMNIFICATION**. The Parties understand and acknowledge that, pursuant to Florida Statutes § 768.28(9) the exclusive remedy for injury or damage suffered as a result of an act, event, or omission of an officer, employee, or agent of the School shall be by action against the School. Accordingly, School agrees to be fully liable for its acts of negligence or its agents' acts of negligence when acting within the scope of employment or agency and agrees to be liable for any damage resulting from said negligence. Nothing herein is intended to serve as a waiver of sovereign immunity by the School and/or the Florida State Board of Education. Nothing herein shall be construed as consent by a state agency, public body corporate, or political subdivision of the State of Florida to be sued except as permitted by Section 768.28 Florida Statutes. The Parties acknowledge that this contractual relationship with School does not create or extend sovereign immunity to any other person or entity. Any damages allocated against the School, as prescribed by Section 766.112, Florida Statutes, are not subject to reallocation under the doctrine of joint-and-several liability to codefendants of School in professional liability actions.

8. **CONFIDENTIALITY.** School will and will advise Program Participants to keep strictly confidential and hold in trust all non-public information of Hospital, including all patient information, and refrain from disclosing such confidential information to any third party without the express prior written consent of Hospital, provided that the minimum necessary confidential information may be disclosed pursuant to valid legal process after Hospital is permitted an opportunity to minimize the potential harmful effects of such disclosure. School shall not disclose the terms of this Agreement to any person who is not a party to this Agreement, except as required by law or as authorized by Hospital. These confidentiality requirements survive the termination or expiration of the Agreement. In addition to the requirements set forth in this Section, Program Participants shall abide by the terms of Exhibit B.

9. **TERM; TERMINATION.**

(a) The term of this Agreement will commence on the Effective Date and will continue for two (2) years unless terminated as provided below (the "Term").

(b) Either Party may terminate this Agreement at any time without cause upon at least sixty (60) calendar days prior written notice to the other Party, provided that all Participating Students participating in the Program at the time of notice of termination or who are already scheduled to train at the Facility shall be given the opportunity to complete the then-current Program rotation or previously scheduled clinical assignment.

(c) The Parties may terminate this Agreement at any time by mutual written agreement.

(d) The Division may immediately terminate this Agreement at any time upon notice to School in the event of a breach of Section 10 of this Agreement.

10. **REPRESENTATIONS AND WARRANTIES.**

(a) School hereby represents to the Division as of the Effective Date and warrants to the Division for the Term that:

(i) School and its Program Participants: (A) are not excluded, debarred, or otherwise ineligible to participate in the Federal health care programs as defined in 42 U.S.C. Section 1320a-7b(f) (the "Federal health care programs"); (B) are not convicted of a criminal offense related to the provision of health care items or services but has not yet been excluded, debarred or otherwise declared ineligible to participate in the Federal health care programs, and (C) are not under investigation or otherwise aware of any circumstances which may result in the School, or a Program Participant being excluded from participation in the Federal health care programs; and

(ii) in the aggregate, School and all of School's affiliates compensate all physician employees and physician contractors (if any) (A) in an amount that is consistent with fair market value for actual services provided, and (B) in a manner that does not vary with or take into account the volume or value of patient referrals to, or other business generated for, Hospital or any of Hospital's affiliates. Furthermore, all of School's and its affiliates' compensation arrangements with physician employees and physician contractors are memorialized in a signed written agreement or other satisfy an exception to the Stark Law physician referral prohibitions provided in 42 U.S.C. § 1395nn(a)(1).

(b) The representation and warranty set forth above is an ongoing representation and warranty for the Term of this Agreement. School will immediately notify Hospital in writing of any change in status of the representation and warranty set forth in this section.

11. **TRAVEL EXPENSES.** No expense of School or of a Program Participant will be paid or reimbursed by the Division unless that expense is approved by Hospital in writing in advance and is incurred and documented in accordance with applicable Hospital travel and expense policies.

12. **USE OF NAME OR LOGO.** Neither Party will use the names, logos or marks associated with the other Party without the express written consent of the Party who is associated with the name, logo or marks. Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

J. 200.323 Procurement of recovered materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Background

"The ability to read fluently and for understanding...is perhaps the most important foundational skill for U.S. adult citizens' health, well-being, and social and economic advancement. It is a gateway to lifelong learning, education, and training" (Sabatini, 2015). However, studies indicate persistently low literacy rates for children and adults in the United States. The most recent National Assessment of Educational Progress (NAEP) revealed that only 31% of 4th graders and 30% of 8th graders read proficiently (USDOE, 2024).

Difficulties in language and literacy begin at a very early age and often reflect the quality of early linguistic interactions. Gilkerson and colleagues (2018) demonstrated that "conversational turns" (the back-and-forth interactions between children and caregivers) are among the most significant predictors of future language and cognitive outcomes. These findings are supported by neuroscientific evidence showing that frequent conversational turns are directly linked to increased activation in the brain's literacy-processing centers (Romeo et al., 2018). These studies emphasize that the brain's foundational literacy pathways are experience-dependent and require high-quality, interactive communication to thrive.

However, the availability of these robust linguistic experiences often depends on systemic access to high-quality early childhood environments. When children lack consistent exposure to childcare and preschool settings that meet specific thresholds for quality emergent language and literacy experiences, they are at serious, long-term risk of academic difficulties (García et al., 2020). In regions identified as "childcare deserts," the scarcity of licensed, high-quality slots means many children miss critical developmental opportunities during sensitive periods of brain development (Malik et al., 2018). Consequently, the effects of these early systemic gaps must be addressed in the K-12 space.

To remediate these gaps, K-12 instruction must be grounded in the Science of Reading. As defined by The Reading League (2022), the Science of Reading is "a vast, interdisciplinary body of scientifically based research about reading and issues related to reading and writing" that has been "derived from thousands of studies conducted worldwide in multiple languages." Evidence-based reading instruction derived from this research emphasizes an integrated approach to literacy that includes explicit and systematic instruction in phonological awareness, phonics, fluency, vocabulary, and oral language and text comprehension (National Reading Panel, 2000). By centering instruction on these core pillars, educators can help ensure that all students develop the decoding and language comprehension skills necessary for skilled reading.

Translating this research into practice requires that tiered systems of support are accessible at the classroom level and to both general and special education teachers. Rather than functioning solely as an administrative structure, district systems of support provide a classroom-level, problem-solving model for delivering high-quality core instruction (Tier 1) alongside targeted (Tier 2) and intensive (Tier 3) supports. By effectively utilizing existing district frameworks in the classroom, teachers can help ensure that every student receives evidence-based instruction, including purposeful small-group instruction, that is matched to specific skill needs (Burns et al., 2010). The success of this classroom-based approach is supported by accurate universal screening and a responsive, data-based decision-making process that allows for the timely intensification of support for all learners (Maki et al., 2020, 2022).

Even with high-quality curriculum resources and access to student data, the most important instructional decisions occur during daily planning and classroom delivery. Educators are often tasked with integrating whole-group instruction, targeted small-group support, and intensive intervention within a limited instructional block. Without clear alignment across these layers of support, valuable instructional time can be lost, and students may miss the targeted practice they need most.

The key to improving reading proficiency is to build educators' specialized skills in effective reading instruction through evidence-based professional learning. The School District of Manatee County is continuing a partnership with the University of Florida Lastinger Center (UFLC) to improve student literacy outcomes through Science of Reading training that brings theory to practice in the classroom.

Program 2: Job-Embedded Coaching Support for Small Group Literacy

Overview

To deepen and strengthen implementation of the Small Group Literacy Instruction model, the Lastinger Center will provide ongoing, job-embedded support for grade 2 educators, literacy coaches, and administrators across the nine elementary schools implementing the model.

Lastinger Center associates will support educators through demonstration lessons, side-by-side coaching, and cycles of observation and feedback to strengthen instructional practice and the use of student literacy data to inform small group instruction. In addition, associates will work directly with literacy coaches and administrators to build their knowledge and confidence in supporting implementation.

This approach is designed to build internal capacity across schools, ensure consistent, high-quality implementation of the model, and support the use of evidence-based instructional practices, with the ultimate goal of improving student literacy achievement.

Goals of Service

- Ensure accurate and consistent implementation of evidence-based small group instructional practices
- Strengthen the use of student literacy data to guide grouping and instructional decisions
- Build the capacity of educators, literacy coaches, and administrators to support high-quality instruction
- Align instructional routines, grouping practices, and data use across classrooms and schools

Program 3: Early Literacy Foundations for Paraprofessionals

Overview

This professional learning series is designed to build paraprofessionals' knowledge and instructional capacity to support early literacy development for Kindergarten students. Grounded in the science of reading, the series focuses on foundational skills, explicit instruction, and the use of student data to inform instructional decisions.

Participants will engage in interactive learning and guided practice to support phonological awareness, phonics, word reading, and early comprehension. Follow-up implementation support visits will provide job-embedded coaching, modeling, and feedback to strengthen alignment between professional learning and classroom practice.

The ultimate goal of this series is to support paraprofessionals in delivering accurate, data-informed, and evidence-based instruction to improve student literacy outcomes.

Series Goals

- Build foundational knowledge of early literacy development aligned to the science of reading
- Develop paraprofessionals' ability to deliver explicit, systematic instruction to emerging readers
- Strengthen the use of student data to inform instructional decisions and support targeted instruction
- Ensure accurate and consistent implementation of evidence-based instructional practices
- Build confidence and instructional skill in supporting early reading and writing development

English Language Arts Standards as provided in Rule 6A-1.09401, Student Performance Standards, Florida Administrative Code (F.A.C.). This information is reflected for all schools and grade levels and shared with all stakeholders, including school administrators, literacy leadership teams, literacy coaches, classroom instructors, support staff, and parents.

Manatee- District Comprehensive Evidence-Based Reading Plan 2026-2027

Annually, school districts must develop a Comprehensive Evidence-Based Reading Plan (CERP) that outlines the components of the district's comprehensive system of reading instruction. In order to assist districts, the Florida Department of Education (Department) has developed the format below for district reading plans. Districts may utilize the Department's format or an alternative developed by the district. The CERP must be approved by the governing board or authority prior to being submitted to the Department by August 1 for approval. A charter school that elects to develop its own CERP must submit its CERP, approved by the governing board or authority, to the sponsoring district by July 15 and meet the requirements of sections (ss.) 1002.33(7)(a)2.a. and 1003.4201, Florida Statutes (F.S.).

The District CERP depicts and details the role of administration (both district and school level), professional learning, assessment, curriculum and instruction in the improvement of student learning of the Benchmarks for Excellent Student Thinking (B.E.S.T.) English Language Arts (ELA) Standards as provided in Rule 6A-1.09401, Florida Administrative Code (F.A.C.), Student Performance Standards. This information is reflected for all schools and grade levels and must be shared with all stakeholders, including school administrators, literacy leadership teams, literacy coaches, classroom instructors, support staff and parents.

Comprehensive System of Reading Instruction Expenditures (Rule 6A-6.053(9)(b)3.b., F.A.C.)
The reading funding included in the Florida Education Finance Program (FEFP) base funding is intended to provide comprehensive reading instruction to students in prekindergarten (PreK) through grade 12. Districts will include salaries and benefits, professional learning, assessment, programs/materials, tutoring and incentives required to effectively implement the district's plan. The expenditures must prioritize Voluntary Prekindergarten (VPK) students who have a substantial deficiency in early literacy skills and K-3 students who have a substantial reading deficiency or characteristics of dyslexia.

3) Literacy Leadership – District and School

A. Measurable Student Achievement Goals (Rule 6A-6.053(9)(b)3.d., F.A.C.)

Goals for the plan year should increase from the previous year in order to meet statewide literacy achievement goals.

For VPK, establish clear and measurable student literacy achievement goals based on percentiles from the Florida Assessment of Student Thinking (FAST).

FAST

Grade	Previous School Year – % of Students Scoring	Goal for Plan Year – % of Students Scoring	Previous School Year – % of Students Scoring	Goal for Plan Year – % of Students Scoring

VPK	1%	0%	95%	97%

1. Describe how the district will improve literacy outcomes for VPK students based on an analysis of student performance data.

The district's action plan to improve literacy outcomes for VPK students is a comprehensive, data-driven strategy focused on five key areas. First, student performance data is regularly analyzed to identify literacy gaps and inform instruction. Based on these insights, targeted instructional strategies such as small-group teaching and evidence-based curricula are implemented. Educators receive ongoing professional development to enhance their literacy instruction and data interpretation skills. Family engagement is also prioritized through Soar in 4 family activation programming, take-home resources, and regular communication about student progress. All Pre-K students participate in a field trip to the SOAR Lab. The Lab is aligned with the curriculum and offers extended hours, including Saturdays and school breaks, to support family access. Finally, the district employs a continuous improvement cycle—assessing, analyzing, acting, monitoring, and adjusting to ensure sustained progress and improved literacy outcomes for all VPK students.

For K-10, establish clear and measurable student literacy achievement goals based on achievement levels from the FAST.

2. Describe what has been revised to improve literacy outcomes for students in the district's CERP based upon the District CERP Reflection Tool and a root-cause analysis of student performance data.

Standards, Curriculum, Instruction, Intervention and Professional Learning are the two priority areas that will be revised based on the CERP Reflection Tool. Revisions to these two areas include:
A comprehensive professional learning plan will be implemented across the district for teachers, literacy coaches, and administrators. In this professional learning, the curriculum team will respond to the needs presented in the CERP Reflection Tool. Topics will include problem-solving process through MTSS, consistent PLC structures, small group instruction at the elementary and secondary level, high-yield strategies that support all learners (specifically students with exceptionalities and English Language Learners). Continued support will be provided to Literacy Coaches across the school year in monthly Coaching Academies and quarterly on-site coaching academies. The district curriculum team will continue to offer the reading endorsement pathway to elementary and secondary teachers.

3. Describe the process used by principals to monitor implementation of the reading plan, including the frequency of reading walkthroughs conducted by administrators.

The process for monitoring implementation is:

1. Communication of Reading Plan

The district reading plan will be shared and reviewed with school administrators during principal and AP meetings. Administrators will share the plan with school staff. The plan will be posted in Schoology for teachers and on the district's intranet for all staff to access. In addition, schools will align School Improvement Plans to the CERP.

2. Monitoring of Reading Plan

School administrators will receive professional learning in the use of district and state walkthrough tools and best practices in literacy instruction for reading. School-based administrators will conduct monthly reading walk-throughs. Monthly school-based literacy leadership team meetings will monitor the implementation of the plan, including analyzing monthly reading walkthrough data and feedback from instructional rounds, for impact on grade-level reading proficiency and SIP goals.

3. Determine Next Steps

The reading walkthrough tools and feedback from instructional rounds along with state and district assessments will guide school administrators in determining professional learning for teachers at their school site. Curriculum and Instruction will share priority areas from the Reflection Tool needing improvements with school-based administrators. School-based Literacy Leadership Teams will reference the priority areas to devise and develop SIP goals for the next school year.

4. In addition, describe how principals monitor collection and utilization of assessment data, including progress monitoring data, to inform instruction and support needs of students.

To monitor collection of assessment data:

- A district level team analyzes quarterly district data and shares information with school-based administrators through a data analysis protocol that includes analysis of subgroup data.
- Principals monitor collection of school-based data through the FAST portal, Focus, SchoolCity, Progress Learning, and Branching Minds for progress monitoring of intervention data.

To monitor utilization of data and inform instruction:

- Executive Directors will hold monthly Data Exchange meetings using a structured protocol with the principals to review school level data and facilitate discussions on instructional next steps. The Data Exchange meetings will help guide data analysis with the school-based Instructional Leadership Teams.
- Instructional Leadership Teams will use a data analysis protocol through PLC's with grade level/department teams to determine differentiation of reading instruction and benchmarks/skills that are areas of strength and those that need to be reviewed. This data analysis will drive decisions made during planning by teachers for future instruction.
- Principals and AP's will monitor impact on instruction during reading walkthroughs utilizing state and/or district walkthrough tools and by continuously analyzing data through the FAST portal, Focus, SchoolCity, Progress Learning, and Branching Minds.

To support student needs:

- Schools implement problem solving steps following the MTSS framework and Reading Decision Trees grounded in data analysis with review of progress monitoring data in Branching Minds.
- The MTSS Coordinator will conduct training on the district MTSS framework and the Branching Minds platform with school-based Instructional Leadership Teams including the school-based MTSS facilitators to ensure a problem-solving process is used to determine instructional next steps and identify student needs for intervention.

C. Literacy Coaches (Rule 6A-6.053(4), F.A.C.)

The Just Read, Florida! literacy coach model delineates the roles and responsibilities of literacy coaches.

1. Is the district using the Just Read, Florida! literacy coach model as defined in Rule 6A-6.053(4), F.A.C.?

☒Yes ☐No

2. If no, please describe the evidence-based coach model the district is using.

N/A

3. How is the district's literacy coach model communicated to principals?

Information about the Just Read FL! coaching model will:

- be communicated at the Summer Leadership Conference to principals and assistant principals along with the district Literacy Coach expectations
- be reviewed during monthly principal meetings
- be followed up with email communication to administrators as needed through Executive Briefs and during school-based meetings with administrators and literacy coaches facilitated by the district Curriculum Department.

4. How does the district support literacy coaches throughout the school year?

The Literacy Coach Coordinator works closely with ELA Curriculum Coordinators and specialists to plan and facilitate monthly Coaching Academy meetings. These meetings provide instructional coaching support including the Literacy Coaching Endorsement coursework for secondary literacy coaches (all elementary coaches already have the endorsement), data-informed instruction, and evidence-based reading practices grounded in the science of reading. Literacy Coaches will receive all professional learning offered to teachers throughout the school year. The Literacy Coach Coordinator provides job-embedded professional learning for the coaches at school sites. In addition, Coaching Academy will include differentiated content based on Literacy Coaches experience levels and areas of growth. Furthermore, the Curriculum team will organize and host on-site Coaching Academies quarterly at cohort school sites for elementary literacy coaches.

5. How is the district supporting coaches with prioritizing high-impact activities, such as conducting data analysis with teachers to establish goals and create action plans, coaching and providing professional learning based on need?

Coaching logs (collected monthly) and district/school data (quarterly) will be reviewed by the Literacy Coach Coordinator and the Curriculum Department to determine ongoing coaching support and monthly professional learning provided during Coaching Academy meetings. Professional learning will be provided by the district's curriculum team and in collaboration with the State Regional Literacy Director on the Literacy Practice Profiles, coaching cycles, effective professional learning communities, and reflective conversations to help coaches with differentiating support based on teacher need. Each school will select a high-yield strategy during the 26-27 school year to focus on and coaches will support implementation of the targeted strategy. The Literacy Coach Coordinator will work alongside the coaches at their school sites to incorporate job-embedded professional learning on the selected high-yield strategies. This support will be differentiated based on the needs of the individual coaches and schools.

6. How does the district monitor implementation of the literacy coach model?

Coaches will submit a monthly coaching log that outlines their time spent with teachers and students in classrooms and PLC's. Monthly coaching logs are reviewed, and state/district assessment data is analyzed to monitor implementation. Coaches will create a principal-coach agreement with school administrators to clarify the parameters of the coaching role and expectations of job responsibilities. The Curriculum

Team will create and disseminate monthly surveys to reading coaches to gain feedback on Coaching Academy professional learning sessions and needs for future support.

7. How does the district measure the effectiveness of literacy coaches?

The Literacy Coach Coordinator and Curriculum Team will review the data provided in the monthly coaching logs. Additionally, the Literacy Coach Coordinator and Curriculum Team will continually analyze FAST data, district writing data, and progress monitoring data to determine the impact Literacy Coaches are making on student achievement. The Elementary and Secondary Curriculum Directors will share data from the coaching logs and assessments with upper leadership quarterly. Executive Directors will also review this data with principals during school visits and as part of monthly district principal meetings.

4) Assessment, Curriculum and Reading Instruction

A. Florida's Formula for Reading Success (Rule 6A-6.053(3)(a), F.A.C.)

K-12 reading instruction will align with Florida's Formula for Reading Success, 6 + 4 + T1 +T2 + T3, which includes:

- **Six components of reading**: oral language, phonological awareness, phonics, fluency, vocabulary and comprehension.
- **Four types of classroom assessments**: screening, progress monitoring, diagnostic and summative assessment.
- **Three tiers of instruction that are standards-aligned**; include accommodations for students with a disability, students with an Individual Educational Plan (IEP) and students who are English language learners; and incorporate the principles of Universal Design for Learning as defined in 34 Code of Federal Regulations 200.2(b)(2)(ii).
    - **Core Instruction (Tier 1)**: provides print-rich explicit and systematic, scaffolded, differentiated instruction and corrective feedback; builds background and content knowledge; incorporates writing in response to reading.
    - **Supplemental Instruction/Interventions (Tier 2)**: provides explicit, systematic, small group teacher-led instruction matched to student need, targeting gaps in learning to reduce barriers to students' ability to meet Tier 1 expectations; provides multiple opportunities to practice the targeted still(s) and receive corrective feedback; occurs in addition to core instruction.
    - **Intensive, Individualized Instruction/Interventions (Tier 3)**: provides explicit, systematic individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback and frequent progress monitoring; occurs in addition to core instruction and Tier 2 interventions. Tier 3 interventions must be provided to students identified as having a substantial deficiency in reading. All intensive reading interventions must be delivered by instructional personnel who are certified or endorsed in reading or possess a literacy micro-credential as provided in s. 1003.485, F.S.

1. How does the district's strategic plan align with Florida's Formula for Reading Success for all students, including students with disabilities and students who are English language learners?

The district's strategic plan focuses on foundational literacy skills and aligns to Florida's Formula for Success with the six components of reading. The district's strategic plan emphasizes the need for screening tools and evidence-based programs to support students with substantial reading needs such as dyslexia. This emphasis is a direct connection to the four assessments (screening, progress monitoring, diagnostic, and summative) in Florida's Formula for Success. Additionally, Florida's Formula for Success is reflected through the Decision Trees for K-12 reading instruction. Administrators will be trained in the Formula for Success during principal and AP meetings and will make connections to Florida's Formula for

Success during instructional rounds held across the year during district principal meetings. The Formula for Success will help Literacy Leadership Teams engage in the MTSS framework with fidelity to problem solve for all students, including students with disabilities and students who are English language learners.

2. **Describe your public school PreK (VPK, Exceptional Student Education (ESE) and other PreK) program's plan for assessment, standards, instruction and support to meet the needs of all learners.**

Standards: All PreK teachers utilize the Florida Early Learning and Development Standards. Within the framework of standardized learning outcomes, the curriculum includes a scope and sequence for teaching and learning over the school year for teachers to support individualized learning. The standards encompass development in 8 essential areas: physical development, approaches to learning, social and emotional, language and literacy, mathematical thinking, scientific inquiry, social studies and creative expression through arts.

Instruction and Support to meet the needs of all classroom learners:

Three tiers of instruction that are standards-aligned; include accommodations for students with a disability, students with an Individual Educational Plan (IEP), and students who are English language learners;

- **Core Instruction (Tier 1)**: provides print-rich explicit and systematic, scaffolded, differentiated instruction, and corrective feedback; builds background and content knowledge;
- **Supplemental Instruction/Interventions (Tier 2)**: provides explicit, systematic, small group teacher-led instruction matched to student need, targeting gaps in learning to reduce barriers to a student's ability to meet Tier 1 expectations; provides multiple opportunities to practice the targeted skill(s) and receive corrective feedback; occurs in addition to core instruction; and
- **Intensive, Individualized Instruction/Interventions (Tier 3)**: provides explicit, systematic individualized instruction based on student need, one-on-one or very small group instruction with more guided practice, immediate corrective feedback, and frequent progress monitoring; and occurs in addition to core instruction and Tier 2 interventions.

ESE Assessment: Both informal and formal assessments are used in the classroom. In addition to progress monitoring, students have individualized IEP goals that drive instructional practices. The Age Anchored, state approved, progress monitoring tool supports adaptive, cognitive and social emotional growth and development. The Child Outcome Summary
is completed at the end of the school year for students articulating to kindergarten.

VPK Assessment: Teachers use the STAR Early Literacy state assessment. Our classrooms use coordinated statewide screening, progress monitoring,
and summative assessment consisting of PM 1, PM 2, and PM 3. Assessment results are used to identify student learning gains, and index development outcomes upon program completion.

2a. **Describe the instructional materials your public school PreK (VPK, ESE and other PreK) program utilizes.**

Early learning classroom core instruction is the state-approved HighScope Curriculum for all PreK programs (VPK, ESE, and other PreK). The HighScope Curriculum provides an academic foundation while promoting independence, decision-making, cooperation, creativity, and problem-solving in young children through learning objectives, effective adult interaction strategies, and assessment measures that help programs ensure a high-quality experience for all learners. Supplemental literacy instruction is supported by the Heggerty Phonemic Awareness curriculum. Heggerty provides explicit and systematic instruction in

phonological and phonemic awareness. Classrooms also use Conscious Discipline for social and emotional development and KinderMusik for incorporating arts and literacy.

3. **Describe the interventions provided to public school VPK students identified as having a substantial deficiency in early literacy skills as defined in Rule 6A-6.053(5), F.A.C.**

VPK students identified as having a substantial deficiency in early literacy skills scoring below the twenty-fifth (25th) percentile or those who are unable to complete the practice items at the middle or end of the year test administration of the coordinated screening and progress monitoring system receive intensive, explicit, systematic, and multisensory support.
We provide a holistic approach with the students and family. Once a student is identified as having a substantial deficiency in early literacy the family is notified. The family receives multisensory materials and activities to complete at home. The family is provided and encouraged to register with New Worlds Reading Initiative. The family is encouraged to participate in a free monthly family literacy event held by curriculum specialists. Classroom interventions include the Heggerty curriculum, small group and 1-1 instruction. Teachers are encouraged to collaborate with their school's IST team to support students facing academic challenges. The school district also provides a summer bridge program to continue academic growth and prevent summer slide.

B. Assessment/Curriculum Decision Trees (Rule 6A-6.053(9)(b)4., F.A.C.)

Districts are required to develop Assessment/Curriculum Decision Trees to demonstrate how data will be used to determine specific reading instructional needs and interventions for all students in grades K-12. Use Assessment/Curriculum Decision Trees to address ALL students. The template can be used for grade bands or for individual grades.

The Decision Trees must contain the following information:

- Name of each assessment, targeted audience, component(s) of reading assessed, type of assessment, the frequency of data collection and the method and timeframes by which assessment data will be provided to teachers and parents. For students in VPK through grade 10, the FAST must be administered pursuant to s. 1008.25(9)(b), F.S., and included as a component of the Assessment/Curriculum Decision Trees.
- Performance criteria used for decision-making for each assessment at each grade level.
- Evidence-based instructional materials and strategies.
- Specific criteria for when a student is identified to receive intensive reading interventions (Tier 3), what intensive reading interventions will be used, how the intensive reading interventions are provided and assurance that intensive reading interventions are delivered by a teacher who is certified or endorsed in reading or instructional personnel who possess a literacy micro-credential.
- Identification of the multisensory interventions provided to students in grades K-3 who have a substantial deficiency in reading or characteristics of dyslexia, including a description of the intensive, explicit, systematic and multisensory reading interventions which will be provided to students in grades K-3.

Note: Evidence-based instructional materials and strategies have a significant effect on improving student outcomes and meet strong, moderate or promising levels of evidence as defined in 20 United States Code (U.S.C.) s. 7801(21)(A)(i):

(A) …an activity, strategy or intervention that –
(i) demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on –

(I) strong evidence from at least 1 well-designed and well-implemented experimental study;
(II) moderate evidence from at least 1 well-designed and well-implemented quasi-experimental study; or
(III) promising evidence from at least 1 well-designed and well-implemented correlational study with statistical controls for selection bias.

2. Students with a Substantial Deficiency in Reading (Rule 6A-6.053(6), F.A.C.)
Students identified with a substantial deficiency in reading must have an individualized progress monitoring plan that is designed to address the student's specific reading deficiency and that meets the minimum requirements set forth in s. 1008.25(4)(c), F.S. The individualized progress monitoring plan must be

developed within forty-five (45) days after the results of the coordinated screening and progress monitoring system become available, and parents must be consulted in the development of the plan.

Students with qualifying disabilities covered by an IEP or a 504 Plan are exempt from the requirement to have a progress monitoring plan, if the IEP or 504 Plan addresses the student's reading deficiency. Nothing in Rule 6A-6.053, F.A.C., should be construed to require or prohibit an IEP or 504 Plan or the contents of the CERP.

A K-3 student is identified as having a substantial deficiency in reading if the student demonstrates through progress monitoring, formative assessments or teacher observation data, minimum skill levels for reading competency in one or more of the six (6) components of reading; and

- The student is identified as in need of Tier 3 interventions; or
- The student was retained the previous school year; or
- For kindergarten through grade 2, the student scores:
    - Below the tenth (10th) percentile or is unable to complete the practice items on the designated grade-level assessment at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to s. 1008.25(9), F.S.; or
    - Level 1 at the end of the year test administration of the coordinated screening and progress monitoring system pursuant to s. 1008.25(9), F.S.; or
- For grade 3, the student scores:
    - Below the twentieth (20th) percentile at the beginning or middle of the year test administration of the coordinated screening and progress monitoring system pursuant to s. 1008.25(9), F.S.; or
    - Level 1 on the statewide, standardized ELA assessment pursuant to s. 1008.22(3)(a), F.S.

Tier 3 interventions must be provided to students identified as having a substantial reading deficiency.

2a. Describe the district's process (e.g., Multi-Tiered System of Supports (MTSS)) for identifying grades K-3 students in need of Tier 2/Tier 3 interventions.

School leaders use the MTSS process to determine the student's level of Tier support at the beginning of the year based on previous year's FAST PM3 data and/or current year's FAST PM1 data as stated in the Decision Trees. School leaders and classroom teachers will use the guidelines provided on the decision tree for progress monitoring, the addition of instruction, and the discontinuation of tiered instruction ongoing across the year. Teachers meet with the Instructional Leadership Team on a monthly basis to review student data and assess students receiving Tier 2 and/or Tier 3 interventions. This process includes evaluating progress toward specific instructional targets, determining the effectiveness of interventions, and utilizing the progress monitoring tool to systematically track student responses to the intervention. Branching Minds is a district-wide platform schools use to collect data and track MTSS. Branching Minds brings all student data into one place, helps school-based teams see who needs support and intervention, guides teams through the decision-making process, and provides graphs for tracking intervention progress. Branching Minds will support schools with decision making for tiered instruction and subsequent progress monitoring.

2b. Describe the district's process (e.g., MTSS) for identifying grades 4-5 students in need of Tier 2/Tier 3 interventions.

School leaders use the MTSS process to determine the student's level of Tier support at the beginning of the year based on previous year's FAST PM3 data and/or current year's FAST PM1 data as stated in the Decision Trees. School leaders and classroom teachers will use the guidelines provided on the decision tree for progress monitoring, the addition of instruction, and the discontinuation of tiered instruction ongoing

across the year. Teachers meet with the Instructional Leadership Team on a monthly basis to review student data and assess students receiving Tier 2 and/or Tier 3 interventions. This process includes evaluating progress toward specific instructional targets, determining the effectiveness of interventions, and utilizing the progress monitoring tool to systematically track student responses to the intervention. Branching Minds will support schools with decision making for tiered instruction and subsequent progress monitoring.

3. **Students with Characteristics of Dyslexia (Rule 6A-6.053(7), F.A.C.)**
   Students who have characteristics of dyslexia must be covered by one of the plans described in s. 1008.25(4)(b), F.S., and parents must be consulted in the development of the plan.

3a. Describe the district's process (i.e., actionable steps) for identifying grades K-3 students with characteristics of dyslexia. Tier 3 interventions must be provided to students identified as having characteristics of dyslexia. Every Kindergarten-3rd grade student will be given a specific set of assessments as a universal screener. Universal screeners serve as a starting point. These screeners will identify specific instructional needs for students at risk, including students displaying characteristics of dyslexia. All students will be given universal screeners listed below 3 times per year (beginning, middle, end). Historical data will be considered when problem solving. Based on the data from the universal screeners and district determined criteria, additional assessments will be administered. These additional assessments determine if Tier 3 interventions will begin. If a student is not making progress over time after consistent instruction and intervention with fidelity, then the student could be exhibiting characteristics of dyslexia and will begin Tier 3 interventions immediately or Tier 3 interventions will be adjusted as needed for students already receiving intensive intervention. These students would also be referred to the Intensive Support Team at the school for further problem-solving.

Kindergarten students will be administered:

- FAST Star Early Literacy
- Star CBM Letter Name Fluency and Letter Sound Fluency
- Core Phonics Survey Parts A-D (letter name and sound identification).

Any kindergarten student that scores below the 10th percentile on FAST and/or scores in the "Intervention" benchmark category for the time of year on Star CBM measures, will begin Tier 3 interventions immediately while following the MTSS process.

First grade students will be administered:

- FAST Star Reading
- Star CBM Expressive Nonsense Word Fluency and Phoneme Segmentation.

Any first-grade student that scores below the 10th percentile on FAST Star Reading will be given the Star Early Literacy assessment. Students scoring below the 25th percentile on Star Early Literacy assessment will be screened using Star CBM Expressive Nonsense Word Fluency, Phoneme Segmentation, and parts A-D of the CORE Phonics Survey. Any student that scores below the 10th percentile on the Star Early Literacy assessment and/or scores in the "Intervention" benchmark category for the time of year on Star CBM measures, will begin Tier 3 interventions immediately while following the MTSS process.

Second grade students will be administered:

- FAST Star Reading
- 2nd Grade Star CBM Oral Reading Fluency and Expressive Nonsense Word Fluency

Any second-grade student scoring below the 25th percentile on the Star Reading assessment and/or scores in the "On Watch" benchmark category for the time of year on the Star CBM measures, will be administered Parts A-K of the CORE Phonics Survey. Any student that scores below the 10th percentile on

the Star Reading assessment and/or scores in the "Intervention" benchmark category for the time of year on Star CBM measures, will begin Tier 3 interventions immediately while following the MTSS process.

Third grade students will be administered:

- FAST
- DIBELS 3rd grade Oral Reading Fluency

Any third-grade student that scores below the 20th percentile on FAST and/or scores in the "red intensive support" benchmark goal category for the time of year on DIBELS ORF, will be administered DIBELS Nonsense Word Fluency and the CORE Phonics Survey Parts A-K. Any student that scores in the 'red intensive support"' benchmark goal category for the time of year on DIBELS ORF and NWF will begin Tier 3 interventions immediately while following the MTSS process.

3b. Students with characteristics of dyslexia require additional screening pursuant to s. 1008.25(9), F.S. List the screener(s) utilized.

Once students are identified with having a substantial reading deficiency and/or characteristics of dyslexia, students will be given the CORE Phonics Survey and a spelling inventory. Kindergarten students will be given a phonological awareness screener to gain further information. Intentional Tier 3 reading instruction will begin based on the data provided by the assessments. Tier 3 reading instruction will be delivered by a teacher who is reading endorsed/certified or has earned a Literacy Micro-credential using an evidence-based intensive, explicit and systematic reading intervention program. Teachers will progress monitor students weekly using Star CBM measures for kindergarten-2nd grade and DIBELS for 3rd grade based on the results of the universal screeners specific to each grade level. The district will follow the MTSS framework for all students that continue to show a substantial reading deficiency and/or characteristics of dyslexia. This process will include parental notification and the involvement of parents in the MTSS process. Students not showing progress in Tier 3 instruction based on ongoing progress monitoring will be referred to the school counselor and/or psychologist for additional screening.

4. For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 1 instruction?

The school-based Literacy Leadership Teams meet monthly and review/analyze Tier 1 data from the following:

- Monthly administrative walkthroughs
- FAST data (three times per year)
- Universal Screeners (K-3rd grade)
- Lexia data
- Benchmark Advance Unit Assessments (3rd-5th)

Based on the data analyzed by the LLT, the team will identify benchmarks mastered and those needing to be retaught in Tier 1 instruction and/or in small group instruction. If students still need support after instruction is provided on needed benchmarks, these students will be closely monitored for possible Tier 2 interventions.

The literacy coaches will facilitate collaborative planning with teachers to create a plan for review and re-teach opportunities. During monthly literacy walk throughs, administrators will look for evidence of the targeted benchmarks on subsequent classroom observations. If student data and monthly literacy walk data indicate an instructional need, literacy coaches will plan and implement coaching cycles with specific teachers to ensure effective Tier 1 instruction. After this monthly cycle, the data outlined above will be analyzed again to re-focus facilitated collaborative planning based on the most recent classroom data.

Additionally, the district leadership team will review data quarterly to monitor Tier 1 instruction. The Executive Directors will review data monthly with principals (Data Exchange Meetings) and discuss a plan

for instruction for the next quarter. The Curriculum Department will include data analysis and planning for instruction professional learning during PreK-12 Principal meetings and AP meetings quarterly.

5. **For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?**

- Schools collect progress monitoring data from Star CBM and DIBELS every other week for students receiving Tier 2 interventions and data is entered into Branching Minds.
- Teacher Collaborative Teams (TCT), including a Leadership Team member and the school-based literacy coach, review progress-monitoring data in Branching Minds each month to evaluate the effectiveness of intervention instruction using the following:
    - Monthly administrative walkthroughs
    - FAST data (three times per year)
    - Universal Screeners (K-3rd grade)
    - Lexia data
    - Benchmark Advance Unit Assessments (3rd-5th)
    - Star CBM/DIBELS
- The Teacher Collaborative Team (TCT) at each school will review progress monitoring data and Tier 1 data in order to make decisions about continuing, discontinuing, or intensifying interventions. For students who have not responded to a specific reading intervention delivered with fidelity and with initial intensity (time and group size) provided, reading intervention group size, time, and/or materials will be changed based on student progress monitoring data that is reviewed monthly by the TCT. Finally, schools will iterate this process to continuously improve the effectiveness of Tier 2 Interventions.

6. **For grades K-5, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?**

- Schools collect progress monitoring data from Star CBM and DIBELS every week for students receiving Tier 3 interventions and data is entered into Branching Minds.
- Intensive Support Team (IST) reviews progress-monitoring data in Branching Minds each month to evaluate the effectiveness of intervention instruction using the following:
    - Monthly administrative walkthroughs
    - FAST data (three times per year)
    - Universal Screeners (K-3rd grade)
    - Lexia data
    - Benchmark Advance Unit Assessments (3rd-5th)
    - Star CBM/DIBELS
    - CORE Phonics Survey
- The Intensive Support Team (IST) at each school will review progress monitoring data and Tier 1 data in order to make decisions about continuing, discontinuing, or intensifying interventions. For students who have not responded to a specific reading intervention delivered with fidelity and with initial intensity (time and group size) provided, reading intervention group size, time, and/or materials will be changed based on student progress monitoring data that is reviewed monthly by the IST. Finally, schools will iterate this process to continuously improve the effectiveness of Tier 3 Interventions.

The program offers multi-modal, cumulative instruction grounded in the science of reading. The lessons include explicit and systematic instruction that helps students develop awareness of segments of sound and letter-sound correspondence, decoding words, analyzing word parts, and writing and recognizing words. The program includes connected text to improve word reading, reading accuracy and fluency, and comprehension. The district will support and monitor implementation of the evidence-based reading instruction through FAST progress monitoring assessments, Star CBM progress monitoring, quarterly data review meetings with district Literacy Leadership Team and instructional rounds with administrators. Regularly scheduled professional learning on the Science of Reading and Benchmark Advance program design will be available for administrators, coaches, and teachers.

7. Summer Reading Camps (Rule 6A-6.053(8), F.A.C.)
Requirements of Summer Reading Camps pursuant to s. 1008.25(8), F.S., include:

- Providing instruction to grade 3 students who score Level 1 on the statewide, standardized ELA assessment;
- Implementing evidence-based explicit, systematic and multisensory reading instruction in phonemic awareness, phonics, fluency, vocabulary and comprehension; and
- Providing instruction by a highly effective teacher endorsed or certified in reading.
    - *Note: Instructional personnel who possess a literacy micro-credential **may not** be assigned to these students.*

7a. Provide a description of the district's plan to meet each requirement for Summer Reading Camps required by s. 1008.25(8), F.S. As a reminder, instructional personnel providing services to retained third grade students, including those attending Summer Reading Camp, must be certified or endorsed in reading and rated highly effective as determined by the teacher's performance evaluation under s. 1012.34, F.S.

Summer Reading Camps for Retained Grade 3 Students
Schedule: Summer reading camp will be held for 24 days (M-TH) from 8:30am-2:00pm. 8:30-8:45 Jumpstart 8:45-9:15 Interactive Read Aloud 9:15-10:35 Small group differentiated reading instruction 10:35-11:20 Word Study Lesson 1 11:20-12:05 Shared close reading with daily writing in response to reading 12:05-12:35 Lunch 12:35-12:55 Recess 12:55-1:30 Word Study Lesson 2 1:30-2:00 Read aloud and dismissal
Evidence-Based Instructional Materials to be used, as defined in 20 U.S.C. s. 7801(21)(A)(i): The school district will provide summer instruction to grade 3 students who score a level 1 on the statewide standardized assessment for ELA. Teachers apply to teach Summer Reading Camp and Human Resources then checks for reading endorsement/certification for each applicant. The Curriculum Department verifies that teachers are highly effective through evaluations and principal recommendations. Teachers will use evidence-based explicit, systematic, and multisensory reading instruction through the following resources: • Curriculum Associates Phonics for Reading- Phonics for Reading does not meet strong, moderate or promising levels of evidence; however, the following What Works Clearinghouse (WWC) Practice Guide Recommendation(s) support the program: Foundational Skills to Support Reading for Understanding in Kindergarten through 3rd Grade Recommendation 2, Develop awareness of the segments of sounds in speech and how they link to letters, strong evidence; Recommendation 3, Teach students to decode words, analyze word parts, and write and recognize words, strong evidence; and Recommendation 4, Ensure that each student reads connected text every day to support reading accuracy, fluency, and comprehension, moderate evidence. The recommendations were built into the program through a systematic scope and sequence based on student results from a placement test. Phonics for Reading provides explicit, systematic instruction in daily phonological/phonemic awareness activities, phonics and word analysis activities, spelling practice with high frequency words, repeated reading to support accuracy and

fluency. Each new skill will be reinforced within a decodable text. The district will support and monitor implementation of this program through weekly check-ins with teachers and school administrators. The district will support and monitor implementation of the evidence-based reading instruction by reviewing Lexia data weekly. Professional learning on the Phonics for Reading program will be offered during mandatory training for all Summer Reading Camp teachers and district specialists will be assigned to support the teachers at the school sites.

- Comprehension Toolkit by Harvey and Goudvis - The Comprehension Toolkit does not meet strong, moderate, or promising levels of evidence; however, the following WWC Practice Guide Recommendations support the program: Foundational Skills to Support Reading for Understanding in Kindergarten through 3rd Grade. Recommendation 2, Develop awareness of the segments of sounds in speech and how they link to letters, strong evidence; Recommendation 3, Teach students to decode words, analyze word parts, and write and recognize words, strong evidence; and Recommendation 4, Ensure that each student reads connected text every day to support reading accuracy, fluency, and comprehension, moderate evidence. These recommendations were built into the program through the use of nonfiction articles and trade books (Heinemann). Lessons provide strategies that work to help students understand, respond to, and learn from nonfiction text, building background knowledge across the curriculum (Harvey, S., & Goudvis, A. (2005). To support Recommendation 1, each lesson implements the Define, Example, Ask vocabulary routine to teach the academic vocabulary needed to access the nonfiction articles and trade books provided. The lessons strategically build background knowledge across the curriculum. Recommendation 4 is supported through the daily reading of connected text with an intentional focus on a comprehension strategy. Lessons involve the use of a graphic organizer to assist students to focus reading on comprehension, intentional group discussion questions related to the texts, and associated text dependent questions. The district will support and monitor implementation of the evidence-based reading instruction by reviewing Lexia data weekly. Professional learning will be offered during mandatory training for all Summer Reading Camp teachers and district specialists will be assigned to support the teachers at the school sites.
- Poems for Building Reading Skills by Rasinski- Poems for Building Reading Skills does not meet strong, moderate, or promising levels of evidence; however, the following WWC Practice Guide Recommendation support the program: Foundational Skills to Support Reading for Understanding in Kindergarten through 3rd Grade. Recommendation 2, Develop awareness of the segments of sounds in speech and how they link to letters, strong evidence; Recommendation 3, Teach students to decode words, analyze word parts, and write and recognize words, strong evidence; and Recommendation 4, Ensure that each student reads connected text every day to support reading accuracy, fluency, and comprehension, moderate evidence. Recommendation 4 has moderate evidence. These recommendations were built into the program during the repeated reading routine daily to implement with a poem each week. This fluency practice is designed to promote accuracy and fluency during reading. The district will support and monitor implementation of the evidence-based reading instruction by reviewing Lexia data weekly. Professional learning will be offered during mandatory training for all Summer Reading Camp teachers and district specialists will be assigned to support the teachers at the school sites.
- Lexia Core5 Teacher Led Lessons: Lexia Core5 is grounded in the science of reading. The program shows evidence for ESSA with a strong rating with an average effect size of +0.23. Additionally, Lexia Core5 showed a strong correlation between the end level of Core5 and ELA FSA scores for 3rd-5th grades in 2021-2022 study conducted in a suburban Florida school district (Lexia Research, 2022).

9. **Describe the district's process (e.g., MTSS) for identifying grades 6-8 students in need of Tier 2/Tier 3 interventions.**

School leaders will use the MTSS process to assess students' tiered support levels at the start of the year using previous year's FAST PM3 and historical data as outlined in the decision trees. They follow the decision tree guidelines for progress monitoring and continuing, discontinuing, or intensifying tiered instruction throughout the year.

10. **For grades 6-8, what processes and procedures are in place to identify and solve problems to improve the effectiveness of Tier 1 instruction?**

The school-based Instructional Leadership Team (ILT) will meet monthly to review and analyze Tier 1 data from following:

- Weekly administrative walkthroughs
- FAST data three times per year
- Targeted Common Assessments
- Benchmark-aligned classroom assessments

Based on the data analyzed, the ILT team will identify benchmarks needing to be retaught and/or enriched. The reading coach will facilitate collaborative planning with teachers to review classroom data and determine which students may need Tier 2 interventions.

Additionally, the district leadership team will review data quarterly to monitor Tier 1 instruction. Quarterly, Executive Directors will review data with principals and discuss plans for student and teacher support. The District Curriculum team will provide school administrators and reading coaches targeted professional learning centered on data-driven instructional decision-making during monthly leadership meetings.

11. **For grades 6-8, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?**

The school-based Instructional Leadershp Team (ILT) will meet monthly to review and analyze Tier 2 data from the following:

- Weekly administrative walkthroughs
- Lexia data
- Progress Learning data

Based on the data analyzed, the ILT team will identify benchmarks needing to be retaught. Those benchmarks will be retaught in small groups and then measured via Progress Learning mini assessments. School reading coaches will facilitate collaborative planning sessions with teachers to develop the lessons and mini assessments. Additionally, they will provide individualized support for teachers requiring assistance with reteaching benchmarks or analyzing student data to inform instructional decisions. The ILT will also monitor Lexia's school usage and skills status to determine biweekly and monthly school growth in Tier 2. This helps determine which school supports are needed to assist teachers and students.

The District Curriculum team and Executive Directors will monitor Lexia usage and skills reports monthly to ensure the program's fidelity is met.

12. **For grades 6-8, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?**

The MTSS team will review the following data:

- Weekly administrative walkthroughs
- Lexia data
- Progress Learning data

Once the data is reviewed, the team will use the problem-solving process for reviewing Tier 2 progress monitoring data and Tier 1 data in order to make decisions about continuing, discontinuing, or intensifying Tier 3 interventions. For students who have not responded to a specific reading intervention, teachers will work with students one-on-one and/or in small groups using targeted materials (Lexia Lessons, Skill Builders, Word Connections, and FCRR) to address specific literacy skills based on student performance. Coaches will support teacher teams to develop instructional resources to address student needs identified by the ILT.

If a student does not respond to individualized support, the MTSS team will refer the student to the Intensive Support Team (IST) for additional data collection and targeted interventions.

Improving Adolescent Literacy: Effective Classroom and Intervention Practices (August 2008). Recommendation1-Provide explicit vocabulary instruction has strong evidence. Recommendation 4-Increase student motivation and engagement in literacy learning has strong evidence. Recommendation 5-Make available intensive and individualized interventions for struggling readers that can be provided by trained specialists has strong evidence. These recommendations were built into the program by providing a blended learning program that is designed to help ELL students close the achievement gap particularly in areas of reading, writing, speaking, and listening. The program emphasizes foundational language skills, including phonics, vocabulary, grammar, and sentence structure. Activities focus on structure to develop basic English grammar in order to facilitate comprehension and convey thinking. In addition, this program provides opportunities for students to develop the language skills necessary to meet the grade-level expectations, including direct instruction for new vocabulary. The district will support and monitor the implementation of this program by monitoring student progress and providing small group instruction where needed. Students will take a placement test at the beginning of the year, followed by a mid-year test to identify areas where skills need reinforcement, and an end-of-year test to assess growth. Furthermore, the district will organize monthly professional development sessions for ELD ESOL teachers, facilitated by Summit K12.

Recommendation 2-Provide purposeful fluency-building activities to help students read effortlessly. Recommendation 3-Part A: Build students' world and word knowledge so they can make sense of the text. These recommendations were built into the program as the Word Connections program is a supplemental reading program developed for students who continue to experience challenges with decoding and multisyllabic words. This program focuses on promoting automaticity with reading what they refer to as "big words." The scope and sequence help teachers guide struggling readers from decoding sounds to recognizing words. The lessons provide explicit, systematic instruction on multisyllabic word reading, morphology, affixes,

		decoding, encoding, and fluency. Students practice manipulating and reading words. Instruction progresses from introducing morphemes in isolation to reading them in words and connected text. The District will offer professional learning sessions for reading teachers using the Word Connections book. Small group sessions will also be available for high-need schools.

14. Describe the district's process (e.g., MTSS) for identifying grades 9-12 students in need of Tier 2/Tier 3 interventions.

School leaders use the MTSS process to assess students' tiered support levels at the start of the year using last year's FAST PM3 and historical data as outlined in the decision trees. They follow the decision tree guidelines for progress monitoring, adding instruction, and discontinuing tiered instruction throughout the year.

15. For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 1 instruction?

The school-based Instructional Leadership Team (ILT) will meet monthly to review and analyze Tier 1 data from following:

- Weekly administrative walkthroughs
- FAST data three times per year
- Targeted Common Assessments
- Benchmark-aligned classroom assessments

Based on the data analyzed, the ILT team will identify benchmarks needing to be retaught and/or enriched. The reading coach will facilitate collaborative planning with teachers to review classroom data and determine which students may need Tier 2 interventions.

Additionally, the district leadership team will review data quarterly to monitor Tier 1 instruction. Quarterly, Executive Directors will review data with principals and discuss plans for student and teacher support. The District Curriculum team will provide school administrators and reading coaches targeted professional learning centered on data-driven instructional decision-making during monthly leadership meetings.

16. For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 2 interventions?

The school-based Instructional Leadershp Team (ILT) will meet monthly to review and analyze Tier 2 data from following:

- Weekly administrative walkthroughs
- Lexia data
- Progress Learning data

Based on the data analyzed, the ILT team will identify benchmarks needing to be retaught. Those benchmarks will be retaught in small groups and then measured via Progress Learning mini assessments. School reading coaches and Assistant Principals of Curriculum (APCs) will facilitate collaborative planning sessions with teachers to develop the lessons and mini assessments. Additionally, they will provide individualized support for teachers requiring assistance with reteaching benchmarks or analyzing student data to inform instructional decisions. The ILT will also monitor Lexia's school usage and skills status to determine biweekly and monthly school growth in Tier 2. This helps determine which school supports are needed to assist teachers and students.

The District Curriculum team and Executive Directors will monitor Lexia usage and skills reports monthly to ensure the program's fidelity is met.

17. For grades 9-12, what processes and procedures are in place to identify and solve problems to improve effectiveness of Tier 3 interventions?

The MTSS team will review the following data:

- Weekly administrative walkthroughs
- Lexia data
- Progress Learning data

Once the data is reviewed the team will use the problem-solving process for reviewing Tier 2 progress monitoring data and Tier 1 data in order to make decisions about continuing, discontinuing, or intensifying Tier 3 interventions. For students who have not responded to a specific reading intervention, teachers will work with students 1:1 and/or in small groups using targeted materials (Lexia Lessons, Skill Builders, Word Connections, and FCRR) to address specific literacy skills based on student performance. Coaches will support teacher teams to develop instructional resources to address student needs identified by the ILT.

If a student does not respond to individualized support, the MTSS team will refer the student to the Intensive Support Team (IST) for additional data collection and targeted interventions.

Recommendation 4-Increase student motivation and engagement in literacy learning has strong evidence. Recommendation 5-Make available intensive and individualized interventions for struggling readers that can be provided by trained specialists has strong evidence. These recommendations were built into the program by providing a blended learning program that is designed to help ELL students close the achievement gap particularly in areas of reading, writing, speaking, and listening. The program emphasizes foundational language skills, including phonics, vocabulary, grammar, and sentence

		structure. Activities focus on structure to develop basic English grammar in order to facilitate comprehension and convey thinking. In addition, this program provides opportunities for students to develop the language skills necessary to meet the grade-level expectations, including direct instruction for new vocabulary. The district will support and monitor the implementation of this program by monitoring student progress and providing small group instruction where needed. Student will take a placement test at the beginning of the year, followed by a mid-year test to identify areas where skills need reinforcement, and an end-of - year test to assess growth. Furthermore, the district will organize monthly professional development sessions for ELD ESOL teachers, facilitated by Summit K12.

Recommendation 2-Provide purposeful fluency-building activities to help students read effortlessly. Recommendation 3- Part A: Build students' world and word knowledge so they can make sense of the text. These recommendations were built into the program as the Word Connections program is a supplemental reading program developed for students who continue to experience challenges with decoding and multisyllabic words. This program focuses on promoting automaticity with reading what they refer to as "big words." The scope and sequence help teachers guide struggling readers from decoding sounds to recognizing words. The lessons provide explicit, systematic instruction on multisyllabic word reading, morphology, affixes, decoding, encoding, and fluency. Students practice manipulating and reading words. Instruction progresses from introducing morphemes in isolation to reading them in words and connected text. The District will offer professional learning sessions for reading teachers using the Word Connections book. Small group sessions will also be available for high-need schools.

Spotlight Benchmarks	K-5th grade teachers	This professional learning course is designed for Kindergarten through fifth grade teachers to deepen their understanding of the Florida B.E.S.T. "spotlight benchmarks" related to theme, central idea, and character's perspective/narrator's point of view. Participants will examine the vertical progression of each benchmark across grade levels to develop a clear understanding of how expectations evolve from foundational comprehension to more complex analysis. The session will focus on practical, classroom-ready instructional strategies for teaching each benchmark, including how to explicitly model thinking, support student discussion, and guide evidence-based responses to text. Teachers will engage in structured opportunities to dive deeply into each benchmark.
Collaborative Pairs	K-5th grade teachers	Unlock the potential of peer-to-peer learning in the elementary classroom. This course provides K-5 educators with a practical toolkit for designing and implementing intentional collaborative pair structures that move the needle on student achievement. Participants will discover how to transition students from passive listeners to active collaborators, how to structure peer interactions that require students to defend their thinking, and analyze complex texts while staying focused on grade-level benchmarks.
UFLI Data Analysis	K-2 Teachers	This course is designed to support K-2 teachers from data collection to instructional action. Participants will learn to use UFLI Foundations weekly progress monitoring data to identify class-wide trends for whole-group

		"refining" and specific skill gaps for high-impact small-group instruction.
3rd Grade Model Classrooms	3rd Grade Teachers	This professional learning course is designed to support educators in establishing and sustaining high-quality, evidence-based literacy instruction within 3rd grade model classrooms. Participants will explore instructional routines, materials, and structures aligned to current literacy research and grade-level expectations, with a strong emphasis on explicit and systematic instruction in foundational skills, reading comprehension, vocabulary, and writing. Through classroom observations, collaborative learning walks, and guided reflection, participants will analyze instructional practices that effectively support diverse learners and promote consistent implementation across classrooms. The course highlights the intentional use of data to inform instruction, differentiation, and progress monitoring. Participants will also examine how classroom environments, lesson design, and instructional pacing contribute to student engagement and literacy growth.
Turning Data Into Action	Kindergarten-5th grade teachers	K-5th grade teachers will expand their knowledge of using data from the CORE Phonics Survey to support student growth in early literacy skills. This session will focus on how to integrate phonemic awareness, phonics, word study and spelling, fluency, vocabulary, and comprehension into daily instruction. The session will also focus on how to provide explicit and systematic instruction for students that exhibit characteristics of dyslexia.
Empowering Learners: Understanding Dyslexia for Effective Learning	K-5th grade teachers	This course offers educators an in-depth exploration of dyslexia, dispelling common myths and misconceptions surrounding dyslexia while providing key insights into its characteristics and impact on learning. Participants will strengthen their understanding on how to recognize characteristics of dyslexia in students and develop practical instructional approaches to support all learners in the classroom.

Writing Instruction	K-5 grade teachers	Participants will review district writing data to identify next steps for both whole-group and small-group instruction. This analysis will be guided by the ELA B.E.S.T. standards and district/state writing rubrics. Participants will then design instruction aligned to the key components of Sedita's Writing Rope. Participants will also explore opportunities to engage students in daily written responses to text.
Elementary Coaching Academy	K-5th grade literacy coaches	Monthly coaching academy meetings will include professional learning on the following topics: • MTSS process and data-based instructional decisions • Strengthening Tier 1 Instruction • Instructional coaching based on school data • Explicit and systematic instruction for students that exhibit characteristics of dyslexia and/or substantial reading deficiency

Instructional Personnel and Certified PreK Teachers

Describe how professional learning is provided to help instructional personnel and certified PreK teachers funded in the FEFP earn a certification, a credential or credentials, an endorsement or an advanced degree in scientifically researched and evidence-based reading instruction.

The district provides, encourages, and advertises professional learning to help instructional personnel and certified PreK teachers funded in the FEFP earn a certification, a credential, an endorsement or an advanced degree in scientifically researched and evidence-based reading instruction in the following ways:

- PreK-12th grade teachers have access to FCRR in-person reading endorsement competencies offered by state-trained district facilitators.
- The UF Literacy Matrix is an option for teachers to earn a reading endorsement and is communicated district-wide when registration is open.
- All teachers and paraprofessionals also have access to and are encouraged to participate in the Literacy Micro-Credentials.
- All teachers have access to self-paced professional learning modules through Educational Impact and BEESS.

Differentiated Professional Learning

Describe how professional learning is differentiated and intensified for teachers based on progress monitoring data.

To differentiate and intensify professional learning for teachers, coaches will model high impact practices and strategies from instructional literacy playbooks to enhance teachers' integration of phonological awareness, phonics, word study and spelling, fluency, vocabulary, and text comprehension strategies into an explicit, systematic, and sequential approach to reading instruction, including multisensory intervention strategies. Coaches will utilize the coaching cycle informed by a problem of practice to engage teachers in critical reflection of teaching/learning evidenced in student work. School-based administrators will be provided with a catalog of professional learning opportunities to recommend to teachers as needed based on classroom observations/walkthroughs and progress monitoring data. Additionally, school-based administrators collaborate with district departments to coordinate support that is differentiated and targeted based on needs assessments. The district will offer a summer professional learning conference open to all staff. During this conference, the teachers will select professional learning opportunities of their

choice. Each session will be coded as foundational, advanced, or practical to differentiate based on the teacher's experience level and desired outcomes.

Mentor Teachers

Describe how mentor teachers are identified and how model classrooms are established and utilized within the school.

Each school-based administrator identifies at least one mentor teacher per building based on criteria outlined by the District's Professional Learning Department. This criterion includes 5 years of teaching experience with evaluation ratings of effective or highly effective and they must have completed the new Florida State Model Clinical Educator Training. During principal and assistant principal meetings, school-based administrators will receive professional learning on building teacher capacity grounded in high impact practices supported by instructional look-fors. During principal meetings, principals will receive training on choosing mentor teachers and establishing model classrooms using a checklist of qualifications and instructional look-fors. Once established, district specialists and literacy coaches will provide ongoing, job-embedded training and support for the mentor teachers and model classrooms.

Professional Learning Time

Describe how time is provided for teachers to meet weekly for professional learning.

Principals include common planning time in the school's master schedule for grade level/department teams to meet weekly and engage in professional learning. Support is provided to school leadership teams for creating schedules through master scheduling collaborative meetings.

6) Tutoring Programs to Accelerate Literacy Learning (Rule 6A-6.053(9)(b)3.b., F.A.C.)

Describe any tutoring programs available within your district and include targeted grade levels (e.g., Reading Achievement Initiative for Scholastic Excellence (RAISE) High School Tutoring). Add additional rows as needed.

Name of Tutoring Program	Target Audience	Description
Chapter One Tutoring	K-2nd Grades	Provides evidence-based individualized reading practice for K-2 students at five Title I schools within the school day. The tutoring sessions will be facilitated by a trained tutor and delivered one-on-one to students. The focus of the tutoring sessions includes systematic and explicit practice in phonological awareness, phonics, and fluency.
Florida Tutoring Advantage	2nd-3rd Grades ELA 11th-12th Grades Reading	FTA selected tutoring for 2nd-3rd grades to be determined Khanmigo Academy for 11th and 12th grades
Rocket Phonics	PreK-2nd Grades	A systematic game-based phonics program that is delivered by trained volunteers during after school programs at some Title I schools.

7) Family Engagement (Rule 6A-6.053(9)(b)3.p., F.A.C.)

In accordance with the list outlined in s. 1008.25(5)(d), F.S., describe the district's plan for immediately notifying parents of students identified with a substantial deficiency in reading.

All schools have been provided with a letter to send home to parents immediately after identifying students as having a substantial deficiency in reading. This letter outlines the specific area of reading deficiency and current student data. It also provides information on mandatory third grade retention, access to the New Worlds Reading initiative, and parent resources from the state and district read-at-home plans. Additionally, schools have been provided with a monthly progress update letter to utilize for consistent parent communication.

Describe the literacy partnerships or programs the district utilizes to increase support for families to engage in literacy activities and reading at home (e.g., New Worlds Reading Initiative).

To support language and literacy at home, the district has developed a Read-at-Home Plan. The purpose is to provide parents with guidance and resources needed to help ensure their child is successful in school. This plan includes reading and multi-sensory strategies that can be implemented at home as part of a daily routine to support the school to home literacy connection and make a positive impact on a child's success in school. Soar in 4, the Suncoast Campaign for Grade Level Reading, Manatee County Public Libraries, and the United Way partner with the district to increase literacy support for students and families. Teachers partner with school media specialists to provide books for students and families to check out. Schools conduct family literacy nights to promote school-home connections. A link to Just Read Florida's Read-At-Home resources will be shared in the Tier 3 substantial reading deficiency letter that will be given to parents when indicating there is a need for Tier 3 interventions. The district created Read at Home Plan and link to state resources will also be posted on the district website, individual school websites and posted on the Schoology platform. Both the state and district plans will be provided by schools via a paper copy to families who are unable to access the plans digitally and also provided in Spanish as needed. The Read-At-Home plans will be communicated to principals at the summer leadership conference. The ESOL and Migrant Departments support families who may lack literacy in their home language through outreach programs, supporting schools with literacy nights, and providing translation services as needed. The district will also partner with the New World's Reading Initiative.

8) Highly Effective Teachers (Rule 6A-6.053(9)(b)3.f., F.A.C.)

Describe how the district prioritizes the assignment of highly effective teachers, as identified in s. 1012.34(2)(e), F.S., from kindergarten to grade 2.

Principals receive data on teacher performance through Perform (district teacher evaluation system) and via reports generated by our Assessment and Research Department. When revising teacher assignments annually, school leaders use this data to inform their decision-making. When hiring new teacher candidates, administrators utilize a rigorous interview process that includes questions about early literacy skills and the science of reading. The district provides a comprehensive teacher mentorship program to support newly hired teachers. The district continually invests in on-going professional learning and development for kindergarten through 2nd grade teachers. In addition, every elementary school will have an allocation for a literacy coach for the 26-27 school year. Coaching support for teachers in K-2 will be part of the focus of support for the coaches.

A. Project Description: The Tillman Elementary School project consists of a comprehensive, campus-wide renovation focused on modernization of building systems, infrastructure, and program spaces. The scope includes the replacement and upgrade of existing mechanical, electrical, and plumbing systems; installation of new building automation controls; and implementation of upgraded technology infrastructure and LED lighting throughout the campus.

The project is designed to enhance indoor air quality, improve overall building system performance, and increase energy efficiency. Associated electrical upgrades are included to support new mechanical, lighting, life safety, and technology systems.

Interior work includes selective renovation and replacement of building finishes impacted by system upgrades, including ceilings, flooring, and wall finishes, with preservation of existing materials where feasible. Building envelope improvements consist of replacement of exterior doors, windows, and associated hardware to improve building performance, safety, and durability. Roofing system replacements and the addition of a roof access ladder at the two-story building are also included.

Kitchen upgrades include replacement of the walk-in cooler/freezer and dishwashing equipment; replacement of ceiling systems, lighting, and flooring; and associated plumbing and electrical modifications required to support the upgraded equipment. Plumbing improvements across the campus include fixture replacements, piping modifications, installation of new cleanouts, and corrective work to address identified sewer gas issues.

Security enhancements include administrative area modifications, secure entry improvements, and installation of standardized locking hardware campus-wide.

The project also incorporates program-specific improvements, including the construction and integration of a SOAR in 4 lab within Building 6, complete with all required power, data, and supporting infrastructure.

Site work includes construction of new restroom facilities at the covered play area; infrastructure to support temporary portable classrooms; and upgrades to paving, site lighting, and stormwater drainage systems. Additional improvements include modifications to irrigation and landscaping, including enhancements within the bus loop area.

The scope further includes all necessary demolition, structural modifications, utility coordination, and related work required to deliver a complete and fully operational facility in accordance with the Contract Documents.

Due to the extent of renovation and building size, a fire protection system will be provided in compliance with applicable Florida Building Code (FBC), SREF, and NFPA requirements.

Title
Approval of the Department of Juvenile Justice (DJJ), Pace Center for Girls, Inc., and AMIKIds Manatee County, Inc. 2026-2027 School Calendars and Bell Schedules (No Financial Impact)

Executive Summary
Florida law authorizes educational services in Department of Juvenile Justice (DJJ) programs to ensure eligible students receive a high-quality education. District school boards can contract with juvenile justice education programs (including those operated by DJJ or other entities) to provide academic instruction.

School calendars for DJJ sites should be annually approved by the School Board.

The 2026-2027 calendars for DJJ, Pace Center for Girls, and AMIKids Manatee, Inc. require 1,250 instructional hours per school year. Per F.S. 1003.01(14)(a), DJJ sites must provide either 250 days of instruction or an hourly equivalent, distributed over 12 months. Districts may reduce the minimum by up to 2 days (or equivalent hours) for teacher planning. Florida Rule 6A-1.045111 mandates at least 1,250 instructional hours annually.

The attached calendars meet these requirements, and the instructional hours have been accounted for in the 2026-2027 school year budget.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready To Learn | Goal 2
Utilize screening tools and evidence-based programs to support students with substantial reading needs, such as dyslexia

Appendix II to Part 200-Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4{b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

This Agreement is entered into effective July 1, 2026 and ending June 30, 2028, by and between the SCHOOL DISTRICT OF MANATEE COUNTY, FLORIDA, a body corporate (hereinafter referred to as "The District"), and HEALTHY TEENS (hereinafter referred to as "HT" or "Agency"), for the purpose of providing psychoeducational services for School District of Manatee County students whose parents have consented to them receiving services provided by the Agency.

The District and Healthy Teens agree as follows:

Purpose.
The purpose of this agreement is to expand services provided to pregnant and parenting students in Manatee County through a collaboration between the District's Teenage Parenting Program (TAPP) and HT. By providing knowledge and skills needed to make informed choices about their physical, mental, and emotional health, HT continues to empower youth to make positive, healthy decisions for their success and wellbeing. The District and HT are committed to working together to provide a continuum of care for students residing in Manatee County. This agreement outlines roles and responsibilities for collaboration between the District and HT as well as responsibilities for ensuring student/client confidentiality.

HEALTHY TEENS AGREES:

(ii) The attestation and the updated background checks must include all employees, volunteers or agents needing a badge and shall be updated regularly for each additional person providing services under this Agreement for each subsequent year of this Agreement.

(iii) The Agency will immediately furnish to the School District of Manatee County Office of Safety and Security any notifications of arrest it receives with respect to volunteers, employees or agents who had a badge issued by the Board. The Agency will bear the cost of the fingerprinting/background checks. The Board has the right to refuse entry onto its school grounds to any individual whose background check does not meet the requirements established by the Board pursuant to Florida Law.

F. HT shall provide appropriate supervision and evaluation of staff.

G. HT shall ensure that its volunteers, employees and agents will follow applicable state and federal laws and regulations at all times in performing services under this Agreement.

Appendix II to Part 200-Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4{b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. Appendix II to Part 200-Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4{b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Appendix II to Part 200-Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4{b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Approval of Request to Declare Surplus and Donate Portables 177 and 201 (No Financial Impact)

Executive Summary
Portables 177 and 201 are currently located at Bayshore High, 5401 34th Street W, Bradenton 34210. Portables 177, and 201 have been deemed unsatisfactory for continued use as classrooms, office space or storage. The cost for the District to renovate and or repair would exceed the current value and it is recommended that the units be taken out of service. In lieu of the District incurring costs to demolish the portables, it is requested that portables 177 and 210 be donated to Kingdom Embassy Community Church to serve as a community hub and allow them to expand essential services to address the needs of the community. Kingdom Embassy Community Church will pay the relocation expenses to remove the portables from District property.

The portables are listed in the property records as follows:
Port-177 Portable, Storage 24'x42'

Port-244 Portable, Classroom 24'x42'

Senior Pastor: Jose Ramon Villalpando Sanchez – Jemina2001@msn.com

Associate Pastor: Jessie Garcia – jgarcia@KECChurch.org - (941) 399-1163

Dear School District of Manatee County,

On behalf of Kingdom Embassy Community Church (K.E.C.C.), we would like to sincerely thank you for your consideration in donating the two portable buildings to our organization.

We recently assumed ownership of the property located at 4850 SR 64 East in Bradenton. This property was entrusted to us by Faith United Church of Christ, whose years of dedication and service to the community we are honored to continue.

K.E.C.C. is currently in the early stages of developing into a fully operational community-centered church. Due to space limitations within our existing facility, we are seeking the addition of two portable units that would serve as a community hub. These spaces will allow us to expand essential services that directly address the needs of our local community.

We have already established partnerships with several nonprofit organizations and community leaders who are actively providing or planning to provide services, including:

- Parenting Matters – Parenting education classes
- Truly Valued – Nurturing Healthy Families program
- JFCS – Ignite and Building Stronger Families programs
- Local Daughtrey Elementary teacher – Volunteer ESOL instruction
- Dr. Luis Castro – Legal workshops and guidance
- Kenya Law – Legal workshops and support
- MCR Health – Upcoming community health event
- Moffitt Cancer Center – Planned health fair
- Hope for Families – School support services
- Avenue941 – Prospective partnership for additional services
- NA Support Group meets Thursday evenings and Saturday Morning
- NarANON Group meets on Wednesday

All programs are offered free of charge and without any requirement for church membership or religious commitment. Our mission is to serve the community inclusively, meeting people where they are regardless of their faith background.

In addition to these services, our church also provides space for smaller congregations that do not have a permanent place of worship. While this reflects our commitment to community collaboration, it further limits our available space.

The addition of the portable buildings would significantly enhance our capacity to continue and expand these vital programs while maintaining our support for other congregations.

We deeply appreciate your consideration and support as we work to build a stronger, more connected community.

Kingdom Embassy Community Church

Handle with Care MOU

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is made by and between the Manatee County School District ("District") and Bradenton Beach Police Department ("BBPD"), Bradenton Police Department ("BPD"), Holmes Beach Police Department ("HBPD"), Longboat Key Police Department ("LBKPD"), Palmetto Police Department ("PPD"), and the Manatee County Sheriff's Office ("MCSO"), collectively referred to as the "Parties" or individually as a "Party." This MOU shall be effective as of the date of the last-executed signature below ("Effective Date").

I. PURPOSE

The Larger Project. To further implement an initiative aimed at addressing children's exposure to violence and trauma. Childhood exposure to violence and trauma, without the right support, is often associated with increased risk of poor outcomes in emotional, behavioral, and physical health over the life span. Children exposed to violence and trauma are also at a higher risk of poor school-related outcomes and are more likely to enter the criminal justice system later in life, which can contribute to generational cycles of violence and system involvement. This project directly addresses the goal of mitigating these negative impacts of exposure to trauma when it does occur, by providing support and on-site, trauma focused interventions by school staff and/or mental health providers, if necessary, to children identified by local law enforcement and school personnel.

II. NOTIFICATION OF EXPOSURE TO TRAUMA

Acknowledging the collaborative work already underway in the community around trauma and specifically around social and emotional health within the school system, this MOU will focus on notification to the District by law enforcement when a child is exposed to trauma or violence in the home or in the community to enable the child's school to handle the child with care upon his or her arrival at school the next school day following the incident.

The phrase "trauma or violence" shall be construed broadly and by way of example and not by way of limitation, shall mean and include any event where a child is a victim or witness, experiences or is involved in, or is questioned relative to, any of the following: the abuse of a family member, loved one, or pet; abuse or neglect; child custody, visitation or support or other domestic relations controversy where there is law enforcement intervention; community violence; the commission of a crime; loss of a family member or friend; an overdose; the arrest of a family member; racism or any other form of discrimination; homelessness; mental illness and/or substance abuse by a parent or caregiver; hospitalization or family illness; incarceration of a parent or family member; sudden, unexpected or frequent changes in caregiver, school, program or home life; natural disasters; or similar acts or experiences. Should there be a question as to whether a

Docusign Envelope ID: CBD075E8-38F0-86D0-8134-666D8BED7A2B

child has been exposed to trauma or violence; judgement should be exercised in the best interests of the child and in favor of notification.

III. RESPONSIBILITIES OF MANATEE COUNTY SHERIFF'S OFFICE, BRADENTON BEACH POLICE DEPARTMENT, BRADENTON POLICE DEPARTMENT, HOLMES BEACH POLICE DEPARTMENT, LONGBOAT KEY POLICE DEPARTMENT, PALMETTO POLICE DEPARTMENT, THE DEPARTMENT OF CHILDREN AND FAMILIES, AND FLORIDA HIGHWAY PATROL (COLLECTIVELY "AGENCIES" OR INDIVIDUALLY "AGENCY"):

A. Send notification to the district identifying children believed to have been exposed to trauma or violence which Agency's personnel might benefit from increased care and/or attention from District personnel.
B. Notification shall be given by sending an email to designee of District stating the child's name, approximate age, school attended (if known), the approximate time of the event, and the acronym "HWC."
C. Notifications will contain no specific information about the incident to maintain privacy of the child and his or her family.
D. Otherwise, maintain the confidentiality of victims, children, and families as required by law.

IV. RESPONSIBILITIES OF THE DISTRICT:

A. Appoint a designee ("Designee") for receipt of notifications made pursuant to Section II, above, and receive notifications, from Agencies and disseminate them to the designated point persons within each school by forwarding to them the HWC e-mail notification from Agency.
B. Upon receipt of a notification identifying a child who has been exposed to trauma or violence, the designated point persons within each school will then disseminate the notification to appropriate teachers, social workers, guidance counselors, and any other relevant staff.
C. Provide identified children who are exhibiting behaviors that are not consistent with their normal manner a safe person and space where they can receive additional supports, such as postponing a test, accepting a missed assignment, or allowing the student to rest if he or she is having a hard time focusing or staying awake, but otherwise not addressing the child about the incident.
D. Provide education on trauma informed care to all school personnel, parents and guardians, as requested and/or as required by law.
E. Maintain the confidentiality of the child's information, including but not limited to academic records, health records, and mental health services. Notifications may be maintained for any purposes consistent with the purpose of this MOU but shall not be part of any child's permanent record.

Docusign Envelope ID: CBD075E8-38F0-86D0-8134-666D8BED7A2B

V. TERMINATION.

Any Party has the right to cancel this MOU with at least 30 days of written notice to the other Parties. Should any Party terminate this MOU, then the MOU shall remain in effect as to all other Parties, unless terminated at the request of the district.

Work Plan District Report

INTRODUCTION

The 5-Year District Facilities Work Program is a very important document. The Department of Education, Legislature, Governor's Office, Division of Community Planning (growth management), local governments, and others use the work program information for various needs including funding, planning, and as the authoritative source for school facilities related information.

The district's facilities work program must be a complete, balanced capital outlay plan that is financially feasible. The first year of the work program is the districts capital outlay budget. To determine if the work program is balanced and financially feasible, the "Net Available Revenue" minus the "Funded Projects Costs" should sum to zero for "Remaining Funds".

If the "Remaining Funds" balance is zero, then the plan is both balanced and financially feasible.
If the "Remaining Funds" balance is negative, then the plan is neither balanced nor feasible.
If the "Remaining Funds" balance is greater than zero, the plan may be feasible, but it is not balanced.

Summary of revenue/expenditures available for new construction and remodeling projects only.

Safe, Positive Learning Environment

The purpose of this document is to assist students, parents, and school personnel in establishing and maintaining a safe, nurturing, and well-disciplined learning environment for all. To be fully effective, the Code of Student Conduct addresses not only the role of the parents, the students, and the school, but also specifies areas relative to the responsibilities and rights of students and parents, grounds for disciplinary actions, and procedures to be followed for acts requiring disciplinary action.

Students in the School District of Manatee County are subject to the Code of Student Conduct during the school day and regular school activities, and while being transported on school buses or at public expense to and from school or other education facilities. Students are also subject at such time and places that include, but are not

necessarily limited to, school sponsored events, field trips, athlete functions, and other activities where appropriate school personnel have jurisdiction over students. In addition, jurisdictional control over students may be extended as per Florida Statutes (F.S.) 1006.07, 1006.09, 1006. 13, 1006.147, and 1003.31 1003 and 1006 whenever the conduct of a student is deemed to have a detrimental effect on the health, safety, and welfare of any member of the school community or the learning environment of the school.
It is the intent of the "Student Rights and Responsibilities" section of this Code that students understand that individual rights involve associated responsibilities and that individual rights must be viewed in relationship to the health, safety, and welfare of the majority of students in each school. In
each school, the principal is responsible for orderly school administration, operation and instructional leadership, under supervision of the Superintendent, in accordance with the rules and regulations of the School Board. The Superintendent is authorized to assign or reassign a student to any program or school as deemed to be in the best interest of the student or School District, pursuant to F.S. 1006.08.

Principal's Responsibility

The principal of each school is responsible for the administration of the school and the enforcement of the District Code of Student Conduct. The principal has the authority to direct students and staff and can impose any reasonable requirements that are consistent with the District Code of Student Conduct or School Board Policy. (F.S. 1006.09)

In Loco Parentis

State and federal law recognizes that teachers and school administrators have a need to stand in the place of parents over children entrusted to them at school. This is a concept called loco parentis.
This concept is reasonable for the fact that school personnel can search without a warrant based on reasonable suspicion and are not held to the higher standard of "probable cause" by which law
enforcement is bound. It is also responsible for the fact that school personnel can interrogate a student without providing him or her with Miranda warnings or allowing the student to call a parent or attorney. (F.S. 1003.31). Please refer to Administrative Investigations for more information (pg. X).

School District Civility Clause

It is the intent of the School Board to promote mutual respect, civility, and orderly conduct among district employees, parents, and the public. It is not the intent of the Board to deprive any person of his/her right to freedom of expression. The intent of this policy is to maintain, to the greatest extent reasonably possible, a safe, harassment-free workplace for teachers, students, administrators, other staff, and parents and other members of the community. In the interest of presenting teachers and other employees as positive role models, the Board encourages positive communication and discourages disruptive, volatile, hostile, or aggressive communications or actions. (link to school board policy)

Prohibition of Discrimination

The School Board does not discriminate on the basis of sex (including sexual orientation or gender identity), in its education programs or activities, and is required by Title IX of the Education Amendments Acts of 1972, and its implementing regulations, not to discriminate in such a manner. The requirement not to discriminate in its education program or activity extends to admission and employment. The Board is committed to maintaining an education and work environment that is free from discrimination based on sex, including sexual harassment.

Privacy and Property Rights

Students have the right to:
Bring personal items to school.
Privacy unless there is reasonable suspicion that a student has a prohibited item on campus.
To be notified promptly if your child is disciplined for inappropriate behavior and the consequences for those actions.
To appeal disciplinary actions.
To receive pertinent, accurate, and timely information about your child's academic progress.

Student Records

Students/Parents/Guardians have the right to:

- Inspect and review student records.
- Be protected from the unlawful disclosure of student information.

Parental Rights

- To be treated fairly and respectfully by school administration, teachers, and staff.

Students are responsible for:

- Any lost, stolen, damaged property they bring on campus.
- Obeying laws and school policy regarding prohibited items

Students are responsible for:

- Sharing accurate and pertinent information is helpful in making educational decisions with appropriate school personnel.

Parental Responsibilities

- To be actively involved in your child's education.
- To access information about the school board's policies and procedures.
- To provide your child's school with updated emergency contact information to include your address.
- To ensure that child student follows the student code of conduct.
- To ensure that your child is in attendance and on time every day.

First Amendment Freedom of Expression

Students have the right to:

- Express their ideas in a respectful and appropriate manner without disrupting the learning environment.
- Exercise their religious beliefs.
- Bullying and harassment in a free environment

Student Protests, Student Safety, and Instructional Time

First Amendment Freedom of Expression In 1969, The United States Supreme Court ruled that public school students do not leave their constitutional right to freedom of expression at the schoolhouse gate. Students have a right to freedom of expression; however, when students exercise this right, students must do so in a responsible manner that does not cause a disruption of the school or a school activity. A principal may impose reasonable time, place and manner restrictions on your exercise of First Amendment freedom of expression rights. Administrators must take proactive steps to make sure students remain under appropriate supervision during school hours, and instructional environments remain safe and focused on learning. If possible, before imposing reasonable time, place and manner restrictions, the principal will consult with the School District General Counsel and will notify the Superintendent (or designee) in such cases. If it is not possible to consult the School District General Counsel beforehand, the principal will do so as soon as possible. See Rule 6A-10.081 Florida Administrative Code for more information.

Pledge of Allegiance

F.S. 1003.44 requires the Pledge of Allegiance be recited at the beginning of each school day. When the national anthem is played or the pledge is recited, students and all civilians shall stand at attention, men removing the headdress, except when such headdress is worn for religious reasons. When the pledge is recited, students shall stand with the right hand over the heart. With a written request by a student's parent or guardian, a student will be excused from reciting the pledge, including standing and placing the right hand over his or her heart. When the pledge is given, unexcused students must show full respect to the flag by standing at attention. When the Junior Reserve Officer Training Corps (JROTC) Color Guard presents the colors for the national anthem or Pledge of Allegiance at a school or district function, the audience is asked to rise before the procession begins from the back of the room. The audience remains standing after the pledge or anthem and during the entire time the Color Guard walks to the back of the room. The audience remains standing until the Color Guard is dismissed.

Moments of Silence

Per F.S. 1003.45, the principal of each public school shall require teachers in first-period classrooms in all grades to set aside at least 1 minute, but not more than 2 minutes daily for a moment of silence, during which students may not interfere with other students' participation. A teacher may not make suggestions as to the nature of any reflection that a student may engage in during the moment of silence. Each first-period classroom teacher should encourage parents or guardians to discuss the moments of silence with their children and to make suggestions as to the best use of this time.

Students are responsible for:

- Respecting the rights of others' self- expression
- Respecting the religious beliefs of others
- Reporting bullying or harassment immediately to a staff member

F.S. 1003.44 requires the Pledge of Allegiance to be recited at the beginning of each school day. When the national anthem is played or the pledge is recited, students and all civilians shall stand at attention, men

The audience remains standing until the Color Guard is dismissed to the back of the room. The audience remains standing until the Color Guard is dismissed.

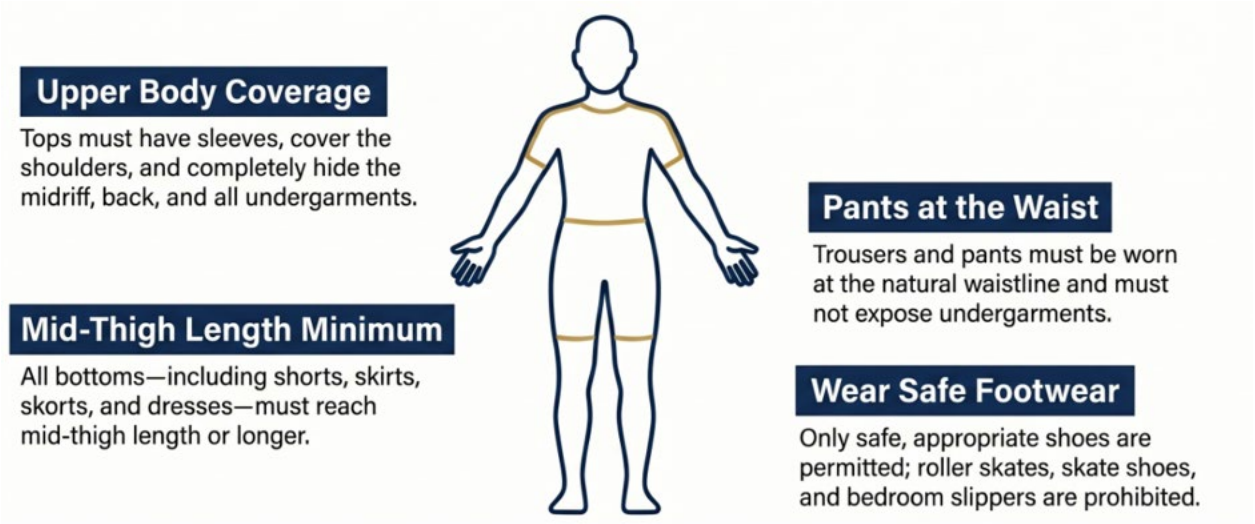

Student Identification

Students must always have their student ID on them when they are on a school campus or on any district bus. If the school requires students to wear or otherwise display their student ID, then students must follow all procedures pursuant to that rule. Students must also display their student ID, and have it scanned each time they board a district bus.

School Dress Code

Under F.S. 1006.07, each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.
The dress and appearance of district students shall be neat and clean, promoting a safe and positive educational environment. Apparel that disrupts educational activities and processes of the school may result in the removal of the student from the regular learning environment until acceptable apparel can be secured for the student. Failure to comply with the dress code may result in disciplinary consequences outlined in state statute and the district discipline matrix.

Place Holder:

Requirements for student dress in all schools are listed below:

a) All shirts and blouses must cover the midriff, back, sides, and all undergarments including bra straps at all times. All shirts, tops, and dresses shall have sleeves and cover the shoulders. Tops must extend below the waistband at all times. Clothing may not expose the midriff; no skin should be visible at the waist or abdomen.

b) Shorts, skirts, skorts, and dresses are allowed. They must be mid-thigh length or longer.

c) All trousers, pants, or shorts must completely cover undergarments and worn at the waist.

d) All clothing, or body art, tattoos, nail art, shall not have: profanity, violent images, weapons, wording or suggestion; sexually suggestive phrases or images; alcohol, tobacco, drugs, or advertisements for such products.

e) Students are not permitted to wear any items or display markings that are offensive, suggestive, indecent, or associated with gangs as identified under the Florida Gang Prevention Act of 1990 or as outlined in Florida Statute 874.

f) Any jewelry or accessories that pose a safety risk may be required to be removed at the discretion of the principal or designee if concerns arise.

g) Safe and appropriate footwear must be worn. Inappropriate footwear includes, but is not limited to, roller skates, skate shoes, and bedroom slippers.

h) Form-fitting leotard/spandex type clothing (to include shorts and leggings) are allowed with proper garments that cover to mid-thigh length or longer.

i) See-through or mesh fabric clothing may only be worn over clothing meeting requirements.

j) Sleepwear shall not be worn as outer garments.

k) Blanket/blanket type items are not permitted to be on school grounds.

l) Sunglasses may not be worn inside unless a parent provides a doctor's note to the school. Field trips are an exception.

m) Hats or other head coverings may be worn during outside P.E. activities and may not be worn during any portion of the regular school day without the expressed permission of the principal.

n) If the school has a mandatory school uniform policy, the student must adhere to those requirements. These programs will provide detailed requirements for both students and parents.

School Uniform Policy

a) Manatee County elementary or secondary schools may implement a mandatory uniform policy, governing students enrolled at the school only if all conditions set forth in the following procedures are met: A Favorable vote of at least 67% or more by the School Advisory Council (SAC) must occur to support mandatory use of uniforms for students.

b) The school or SAC conducts a survey of parents of all students in that school and at least 51% percent of the families completing the survey must indicate that they are in favor of establishing such a program. Ballots must be received from a majority of eligible families. Parents are to be surveyed every three years at any school implementing a uniform program.

c) The school must establish a uniform committee that adequately represents all segments of the school community. The uniform committee must follow guidelines promulgated by the Superintendent for selection of uniforms.

d) The school-selected uniforms must comply in all respects with the other provisions of the district rules concerning appropriate attire.

e) The uniform selected may not be characterized as gender-specific (both boys and girls may wear slacks).

f) The school must make provisions for those students who, by reason of financial hardship, cannot comply with the uniform and must notify the students' parents of these provisions.

Communication

Each school implementing a uniform policy must communicate to parents the following:

1. Types and colors of uniform;
2. Requirements for jackets or outer garments;
3. Optional articles of attire, if any;
4. Compliance measures to be employed;
5. The availability of financial support and the procedures for applying for assistance;
6. Methods to facilitate recycling of uniforms within the school community; and
7. Notice of uniform sales and lists of competitive processes from vendors of uniform articles.

The means by which this information is communicated shall include one or more of the following: school newsletters, parent forums, telephone hotline, PTA/PTO meetings and newsletters, school advisory council meetings, television, radio, newspaper announcements, posters displayed at school and in the community, and registration materials.

Compliance Measures

A. Each school shall develop incentives and positive reinforcement measures to encourage full compliance with the uniform policy. Each school should strive to achieve full compliance through use of incentives and positive reinforcement measures and should resort to disciplinary action only when positive measures fail to ensure compliance. In addition, school shall communicate with parents so that expectations, rationale, and benefits are fully understood by the student and the family.

B. If necessary, disciplinary action may be taken to encourage compliance with the policy. Since the intent of the policy is not to inhibit or prohibit any student who is not in uniform from receiving the education to which he or she is entitled, no student shall be suspended from class or from school, expelled from school, or receive a lowered academic grade as a result of not complying with the policy.

C. Prior to initiating any disciplinary action against a student not complying with the policy, a school administrator shall hold a conference with the parent or guardian to solicit cooperation and support.

D. Disciplinary action is initiated only after all other means to secure support and cooperation as mentioned above have not succeeded. A "progressive discipline" approach is to be employed by the school support staff so as to encourage full and consistent compliance with the least amount of disciplinary action.

E. In order to ensure a smooth transition to a uniform policy, and in order to ensure that incentives and positive reinforcement measures are employed before resorting to disciplinary action, no school implementing a uniform policy shall take disciplinary action for the first two months of implementation unless those not in compliance materially or substantially interfere with the requirements of appropriate discipline.

F. Exceptions to wearing the uniform are permitted when:
    a. Uniforms of a nationally recognized youth organization such as JROTC, Civil Air Patrol, or the Boy Scouts or Girl Scouts are worn on regular meeting days.
    b. A student wears a button, arm band, or other accoutrement to exercise the right to freedom of speech as guaranteed by the First Amendment, unless the button, arm band, or other accoutrement signifies or is related to gangs, gang members, or gang activity.
    c. The wearing of a school uniform violates a student's sincerely held religious belief.
    d. A student's parent or guardian has secured an exemption form from the uniform policy by following the procedures set forth below.

G. Parents or guardians are permitted to exempt their children from the uniform program by the following procedures:
    a. Parents should be notified of the exemption procedure.
    b. A request is made by mail or in person by the parent or guardian for an Application for Exemption from the Uniform Program ("Application"). The parent or guardian may obtain an application at the student's school site.
    c. The Application is completed in full and submitted to the school principal.
    d. The school principal or other designated administrator meets with the parents to discuss the uniform policy and the nature of the objections to the policy. The purpose of this meeting includes:
        i. Ensuring that the parents or guardians understand the reason for, and goals of the uniform policy.
        ii. Verifying the accuracy of the information on the Application.
        iii. Preventing fraud or misrepresentation.

Attendance

Regular school attendance is crucial for a student's educational success. Excessive absences can impact students' education, their ability to pass their classes, and may lead to court proceedings or the loss of driving privileges. A parent/guardian may excuse nine absences per year. The following are examples of excused absences, but not limited to:

Excused Absences

- Personal Illness

- Illness of an immediate family member
- Religious Holiday of student's religious beliefs
- Court appearance/Subpoena
- Doctors' appointment

Reporting Absences

In the event of a planned absence, the parent or guardian shall notify the school prior to the absence. Any student that is absent from school shall provide appropriate documentation within 48 hours of returning to school for the absence to be marked excused. All absences will automatically be marked unexcused until parent/guardian has contacted the school, or documentation has been submitted.
The principal/designee will determine if the documentation meets the criteria for the absence to be excused, and the decision will be final.
Make-up Work
After an excused absence, students must arrange with their teacher for any make-up work. Students have the same number of days they were absent to make up their work. This rule does not apply to some long-term assignments. (A long-term assignment is when a student has 10 or more days to complete the work.) These long-term assignments will be due on the specified date unless excused in writing by the teacher or principal. It is the student's responsibility to make these arrangements and to submit make-up work within the deadlines set by the teacher(s). Students do not have the right to make up work if the absence was unexcused. (referenced in Student Progression Plan students cannot take exams early)

Truancy

A "Truant" student is a student, subject to compulsory school attendance, who has had (F.S. 1003.01):

- 5 unexcused absences (or absences for which reasons are unknown) within a calendar month; or
- 10 unexcused absences (or absences for which reasons are unknown) within any 90 calendar days; or
- Has had more than 15 unexcused absences within 90 calendar days.

The SDMC will follow all requirements for reporting of truant students as outlined in F.S. 1003.27.

Florida State Statute (1003.24) reports parents are responsible for the attendance of children. Florida State Statute (1003.26) provides the school district with the ability to enforce school attendance.

15 unexcused absences in a 90-day calendar period will result in referral to the Truancy Court.

- Child Study Team - A meeting with the school's Child Study Team will be conducted when 5 unexcused absences occur in a calendar month, and/or 10 unexcused absences in a 90-day calendar period occur. The Child Study Team will examine root causes of persistent absenteeism so strategies and interventions to resume regular attendance can be developed.
- After appropriate strategies and interventions have been implemented, if chronic absenteeism continues, the principal or designee may initiate a referral to truancy court.

Driver's License

Florida law requires that all minors who fail to comply with the state's attendance requirements lose their driving privileges by the Department of Highway Safety and Motor Vehicles (DHSMV).

Students aged 14-18 with fifteen (15) accumulated unexcused absences, not including out-of-school suspensions, in a 90-calendar day period. Any student with their driving privileges removed will have to satisfy the state requirement of attending 30 consecutive school days, with no unexcused absences, to receive a reinstatement of driver's license privileges form.

Homeless Student Rights Under the McKinney-Vento Act

Under the McKinney-Vento Act, homeless students have the right to attend school, regardless of the location where they live or the length of time at that location. The student is to be enrolled immediately, regardless of whether the appropriate records required for enrollment are presented. The school will refer the parent/guardian to Project Heart, which will help in obtaining the required records. Students eligible under the McKinney-Vento Act have the right to continue attending the same school they attended before their housing situation changed, or the school last attended, as well as receive assistance with transportation to that school of origin. Furthermore, the students are allowed to attend the school of origin for the rest of the school year, even if they obtain permanent housing during the school year.

If a student who is eligible under the McKinney-Vento Act is sent to a school other than the school of origin, a reason must be provided in writing, along with the process for appealing such a decision.
The student may remain in the school of origin during the appeal.

The school District of Manatee County will follow the McKinney Vento Dispute Resolution process as outlined in the statue. Please see school board policy 5111.01 for more information

Title IX

Title IX of the Education Amendments Act of 1972 is a federal law, enacted in 1972, which state: "No person in the United States shall, on the basis of sex, be excluded from participate in, be denied the benefits of, or be subjected to the discrimination under any education program or activity receiving Federal financial assistance."

The United State Department of Education requires school districts to follow a specific Title IX Grievance Process while investigating allegations of sexual misconduct. The Office of Civil Rights of the United State Department of Education considers sexual misconduct (including sexual harassment, sexual violence, sexual assault, and intimate partners violence) to be a form of sexual discrimination and requires the school districts to take immediate and effective steps to respond to sexual misconduct.

For a Title IX investigation to apply, the incident must have occurred in an education program or activity in which the district has substantial control over both the respondent and the context in which the incident occurred.
"Sexual harassment" means conduct on the basis of sex that satisfies one or more of the following:

1. Any School District of Manatee County employee conditions the provision of an aid, benefit, or service of the recipient on an individual's participation in unwelcome sexual conduct.
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the recipient's education program or activity; or
3. "Sexual assault" as defined in 20 U.S.C. 1092(f)(6)(A)(v), "Dating violence" as defined in 34 U.S.C. 12291(a)(10). "Domestic violence" as defined in 34 U.S.C. 12291(a)(8), or "stalking" as defined in 34 U.S.C. 12291(a)(30).

Firearms Detection Systems Screening at SDMC Schools

The safety of our staff and students at the School District of Manatee County is our number one priority. To enhance our security efforts at our schools, we have a high-tech security scanner firearms detection system and a firearms detection canine to screen students and visitors for firearms.

Firearms are not permitted on any School District of Manatee County (SDMC) property. All students and visitors entering District property may be required to submit to a weapon detector screening to ensure no weapons are brought onto the premises. Bags, purses, backpacks, etc. may also be screened using metal/weapon detecting wands and/or by hand. Refusal to cooperate with the screening procedure will result in the denial of entry and/or disciplinary action for the student. If a student activates the detector, a staff member will escort a search of the student to a private secondary screening location where we will conduct a search of the student and their belongings in alignment with School Board Policy 5771.

Bullying and Harassment

Conduct that constitutes bullying or harassment, as defined below, is prohibited.

Bullying: (intimidating behaviors that are repeated, intentional, and involve a power imbalance) Systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. Bullying includes instances of cyberbullying, as defined in Section 1006.147(3) (b), F.S. Bullying may include, but is not limited to, repetitive instances of teasing, social exclusion, threats, intimidation, stalking, physical violence, theft, harassment, public or private humiliation, or destruction of property. If the physical harm or psychological distress is not the result of systematic or chronic behavior, evaluate for Harassment.

Harassment: Any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal, or physical conduct that places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property, has the effect of substantially interfering with a student's educational

performance, opportunities, or benefits, or has the effect of substantially disrupting the orderly operation of a school including any course of conduct directed at a specific person that causes substantial emotional distress in such a person and serves no legitimate purpose. Instances of Harassment that are chronic or repeated in nature should be evaluated for Bullying or Bullying-related.

Both bullying and harassment are prohibited at school, during school related activities (whether on or off campus), on the school bus, at school bus stops, and through the use of computers or other electronic devices, which is known as cyberbullying. Cyberbullying and harassment are also prohibited through off campus social media, phone calls, or text messaging if such behavior disrupts the orderly environment of any district school or activity or interferes with the educational opportunities of others.

If you engage in bullying or harassment, the consequences and appropriate disciplinary action may range from positive behavioral interventions up to and including suspension, reassignment to an alternative program, or expulsion. More severe or persistent infractions will result in more intensive interventions and administrative action. Additionally, the appropriate school administrator or designee will report to the victim's parents and the alleged offender's parents any alleged incident of bullying or harassment once an investigation of an incident has been initiated. Bullying should be reported to the appropriate school administrator or through the School District of Manatee County's anonymous reporting system. Bullying reports can be made utilizing this school district website: https://www.manateeschools.net/page/report-bullying.

Hazing

Hazing is defined as any action or situation that endangers the mental or physical health or safety of a student at a school with any of grades 6 through 12 for purposes of initiation or admission into or affiliation with any school-sanctioned organization. "Hazing" includes but is not limited to: (a) pressuring, coercing, or forcing a student to participate in illegal or dangerous behavior, or (b) any brutality of a physical nature, such as whipping, beating, branding, or exposure to the elements.

Dating Violence or Abuse

Teen dating violence is a pattern of emotional, verbal, sexual, or physical abuse used by one person in a current or past dating relationship to exert power and control over another when one or both partners are a teenager. Abuse may include insults, coercion, social sabotage, sexual harassment, stalking, threats and/or acts of physical or sexual abuse. Students, parents, or legal guardians are encouraged to report any act that may be dating violence and abuse anonymously or in-person to the principal or the principal's designee.

Threats Against Schools and Persons

Students who are involved in making a destructive device, fake destructive device, or planning the use of such a device, either at school, or at a school activity, or while at school or at a school activity, may be suspended for up to 10 days, recommended for reassignment or expulsion, and reported to law enforcement. The same actions will be taken if any threats are made against the school, school property, school personnel, or students, regardless of any disruption on campus or any school related function. This includes direct, veiled, or implied threats communicated verbally, in writing, or through social media platforms. Students who make any such threat will be referred to the school's threat management team. This team is charged with helping to ensure the safety of all persons at your school and will take steps that may include interviews with friends, teachers, staff, parents, or employees regarding any concerns. The threat management team is also responsible for making referrals for

mental health services and to law enforcement for continued investigation, if it is determined a student poses a concern or threat to the school or any member of the school community. Students are subject to school-based consequences for any threats communicated online or through the use of technology, regardless of the time, day, or location where the threat was made.

F.S. 1006.13
"Making a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity. District school boards may assign the student to a disciplinary program for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. If a student committing any of the offenses in this subsection is a student who has a disability, the district school board shall comply with applicable State Board of Education rules."

Reporting Threats or Suspicious Activity

Students, parents, staff, or any individual may report threats, or any concerning behaviors exhibited by a member of the school community. All persons are strongly encouraged to be vigilant of potential signals, warning signs, threats, and should report concerns immediately. This is particularly true of online or social media posts. FortifyFL is an app specifically designed by the State of Florida to assist students and parents in reporting suspicious or concerning behavior which may be downloaded to mobile devices for immediate reporting.

NOTE:

If you make a threat or false report - to include a bomb threat, bomb threat hoax, or a knowingly false report concerning the use of a destructive device or firearm in a violent manner, as defined by
F.S. 790.162 and 790.163, involving a school or school personnel's property, school transportation, or a school-sponsored activity, you may be expelled (with or without continuing education services) from your regular school for a period of not less than one full year, as well as referred for criminal prosecution and mental health services identified by the school district, pursuant to F.S. 1012.584
(4) for the evaluation or treatment, when appropriate (F.S. 1006.07(2)(l). The Superintendent may consider the expulsion requirement on a case-by-case basis and request the School Board to modify the requirement by assigning the student to a disciplinary program, if it is determined to be in the best interest of the student and the school system. Commission of either of these offenses is a second- degree felony, punishable by up to 15 years' imprisonment and a $10,000 fine. The School Board
must maintain a policy for all threats to commit violence or harm. Even threats made in jest or in exaggeration must be treated as serious and may subject the student to suspension, reassignment, or expulsion. This includes simulating realistic gunfire, explosions, or acts of violence using apps or other technology. If a student makes a threat of violence, the school administration will assess the situation and, where appropriate, take administrative action.

Reports to Law Enforcement Agencies

The School Board views disruptive and criminal acts, and those which may affect the health, safety and welfare

of, or pose a legitimate threat to those on a school campus, as extremely serious in nature. In addition to disciplinary action administered at the school level, certain acts are expected to be reported to law enforcement as required by the State Attorney's Office. The actions of law enforcement does not dictate the corrective measure enforced by the school.

Limited Role of Law Enforcement

To help avoid the unnecessary criminalization of our students, law enforcement action should be limited to situations when it is necessary to protect the physical safety of students and staff or appropriate to address criminal activity. Law enforcement involvement should not be requested in a situation that can be safely and appropriately handled by a school's internal disciplinary procedures.

The Coach Aaron Feis School Guardian Program

Like law enforcement, school guardians hired through the Coach Aaron Feis School Guardian program in Manatee County are in place to help ensure the physical safety of our students, staff and school community. School guardians are not to be involved in student discipline matters unless it is a matter of safety. School guardians additionally have no authority to act in any law enforcement capacity, except to the extent necessary to prevent or abate an active assailant incident.

Out of School Suspension

Students who are serving out of school suspensions are not allowed to participate in any athletic activities until they have returned to regular class attendance for one full school day. Students who are suspended for a total of 10 or more days (cumulative or single incident) in a school year will be subject to an administrative review to determine eligibility to participate in any extracurricular activities. The administrative review will encompass the incident or infraction, discipline, academic, and attendance history, and conference with the students and others involved. The principal may revoke the student's privilege of participating in non-academic school activities, including but not limited to, extracurricular activities and/or athletics. A student must attend a minimum of one-half day of school to participate in school sponsored activities. Participating in extracurricular activities is a privilege, and participation may be restricted, suspended or revoked at any time by a school administrator as a result of violating these said policies or rules.

Medication Policy

While parents should make every effort to administer medications at home during non-school hours, we realize there are instances in which students require medications to be administered during school hours. Any student who needs to take legally prescribed or FDA approved over-the-counter medication at school, on the school bus, during school activities, or on field trips must follow this medication policy without exception.

All medications—including FDA approved over-the-counter drugs, vitamins, and supplements—must be prescribed by a licensed physician and kept in the school clinic, except as allowed under Florida Statute 1002.20.

Before any medication can be administered at school, the parent or guardian must provide a completed medication authorization form for each medication, signed by both the parent/guardian and a licensed health care provider; this form is available from the school clinic or on the district website. An authorized adult must also deliver the prescribed medication, along with the completed authorization form, directly to the school clinic. **Students cannot transport medications to school or be in possession of any medication while on school property, except those described below**.

*Possessing medication prescribed to others is illegal and considered a Level 3 offense.

Student's Medical Condition:	**Student May Carry and Self-Administer:**
Life-threatening Allergies or Asthma	An epinephrine auto-injector
Asthma	A metered dose inhaler
Pancreatic Insufficiency	A prescribed pancreatic enzyme supplement

Diabetes	Diabetic supplies, equipment, and specific food items identified in the written authorization along with a description of the activities the student is capable of performing without assistance, such as blood-glucose level checks, urine ketone testing, administering insulin, and treating hypo- or hyperglycemia.

Florida Statute 1002.20 allows students to self- carry certain medications provided there is a completed medication authorization form on file in the clinic, a completed self-carry form, and the medication is clearly labeled and matches the provider's order. The self-carry form can be obtained from the school clinic or on the district website. No other medications, other than headache medications (see below), may be carried by students. These medications/supplies that qualify for self-carry are listed below

In addition to these above medications, Florida Statute 1002.20 allows students to possess and use a medication to relieve headaches while on school property or at a school sponsored event or activity without a health care providers note or prescription **IF** the medication is regulated by the Unites States Food and Drug Administration for over the counter use to treat headaches. For a student to carry and administer his/her own over the counter medication to relieve headaches, a self-carry headache medication form must be completed by student, signed by parent/guardian, and kept on file in the school clinic. The form is available in your school clinic or on the district website.

Suspected Overdose

District schools may maintain an on-site supply of the opioid antagonist Naloxone, following guidelines established in Board Policy 5780 and F. S. 499.003. Naloxone is a medication that is used to reverse an opioid overdose. If any student or staff are suspected of having an opioid related overdose, Naloxone will be administered by a trained nurse as a life-saving measure.

Controlling the Spread of Communicable Diseases

The School Board recognizes its responsibility relative to student, employee, and visitor health and safety. To protect the health and safety of the students, district personnel, and the community in large, the Board shall follow all State statues and Health Department regulations which pertain to immunization under Policy 5320, and other means for controlling communicable disease spread through normal interaction in the school setting as set forth in Policy 8450.

Healthcare Services

Per Florida's parental bill of rights, at the beginning of each school year, parents will be notified of all healthcare services offered at their child's school and provided with the opportunity to individually consent to or decline each service. Please visit the school website for further information.

Referrals to Mental Health Agencies

Students who present a concern for the safety of others due to their actions or words may be referred for mental health services, per F.S. 1012.584. These services may be provided on campus by district personnel or mental health providers that partner with the district. In the event of an immediate concern for the safety of a student or others, the Marchman or Baker Acts may be enacted to ensure an appropriate mental health examination and interventions occur. This may result in an involuntary examination and removal from campus, pursuant to F.S. 394.463. Such contact may be in person by a mental health professional or using telehealth as defined in F.S. 456.47.

Public Notices

The Family Educational Rights and Privacy Act (FERPA), affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:
The right to inspect and review the student's education records within 30 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record (s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where their records may be inspected.

The right to request amendment of the student's education records that the parent or eligible student believes it is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA. Parents or eligible students who wish to ask the school to amend a record should write the school principal, clearly identify the parent of the record they want to change and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

The right to privacy of personally identifiable information in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One expectation, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The School District of Manatee County is rooted in the development of positive relationships with our students and families. We believe students should have a chance to learn from their mistakes and the opportunity to restore any damaged relationships with peers and adults. Our discipline practices encompass preventative and early intervention measures that seek to strengthen relationships and build positive communities, so inappropriate behavior is less.
likely to occur.

Discipline for Students with Disabilities (Section 504 and IDEA)

The district is committed to complying with all federal and state laws governing the discipline of students with disabilities, including matters related to suspension, expulsion, and alternative placement. A student with a disability is defined as any Exceptional Student Education (ESE) student—excluding those identified as Gifted only—or any student with a Section 504 plan. Additionally, students who are suspected of having a disability are afforded protections under applicable laws.

While a student's disability must be considered and specific procedures followed in accordance with Section 504 and the Individuals with Disabilities Education Act (IDEA), these students are still expected to adhere to the Code of Student Conduct. Their disability does not exempt them from behavioral expectations or consequences outlined in district policy.

English Language Learners

English Language Learners (ELLs) are not to be subjected to disciplinary action exclusively because of their use of a language other than English.

Classroom and Bus Removals

Per F.S. 1003.04, the parent of each public K-12 student must cooperate with the authority of the student's district school board, Superintendent, principal, teachers, and school bus drivers, according to F.S. 1003.31 and F.S. 1003.32, to remove the student from the classroom and the school bus and when appropriate and available, to place the student in an alternative educational setting, if the student is disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive.

Administrative Investigations

School officials can question students who are suspected of violating the District Code of Student Conduct without first contacting the parent or guardian. Students do not have a right to have parents present or a right to an attorney when they are questioned. If a

student refuses to answer questions asked by a school official, they may be disciplined.

Searches and Seizures

Lockers, vehicles, purses, backpacks, and other personal possessions may be searched if there is a reasonable suspicion that any of them contains drugs, weapons, contraband, or other items not permitted on campus. Students are expected to cooperate fully with the school administration in all searches and investigations. Failure to fully cooperate may be grounds for the school administration to infer that the student is in possession of contraband or illegal items and the matter will be referred to law enforcement as deemed necessary. Dogs trained to sniff and search for restricted items are allowed in schools and District property. Routine checks by the dogs are not considered a search; however, an alert by the dog gives reasonable suspicion for a search. Dogs may not check students to determine probable cause for a search. The use of trained dogs is a safety precaution to provide students with a safe school in which to learn.

Drugs and Alcoholic Beverages

Use of a drug authorized by a medical prescription from a registered physician for a specific student shall not be considered a violation of this rule; however, all procedures found in the School District of Manatee County's medication policy must be followed.

Students shall not knowingly possess, use, transmit or be under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, any other controlled or synthetic substance defined in F.S. 893.03, or substitute for such, hemp, Cannabidiol (CBD), alcoholic beverage (including powdered alcohol), inhalant or intoxicant, or over the counter drugs outside of the medication policy.
This applies to school grounds before, during, or after school hours, or off the school grounds on a school bus, at a bus stop, at a school activity, function, or event. Also, students shall not possess, have under their control, sell or deliver any device, or contraband, instrument or paraphernalia containing the substance or substances described in this paragraph, or any residue of such substance, or devices intended for use or used in injecting, inhaling/huffing, smoking, administering, or using any of the foregoing prescribed drugs, narcotics or stimulants.

Possession, Use, Under the influence

For substances that are not considered over the counter, the first offense for possession, use, or under the influence may result in up to a ten (10) day suspension. The principal or designee may offer to reduce the suspension to five (5) days providing the student and parent/guardian attend and complete the district's SAFE (Substance Abuse and Family Education) Program. For a second offense of possession, use or under the influence, students may be suspended for up to ten (10) days and a recommendation for expulsion or reassignment to an alternative placement may be made to the Superintendent or

designee.

Selling, Purchasing, Providing, Distributing, & Receiving

Students who buy, sell, trade, provide, negotiate, receive or engage in any drug or alcohol-related transaction at school, at a school activity, at a school bus stop or on a school bus-even if the sale or purchase does not actually take place-students may be suspended for up to ten (10) days and a recommendation for expulsion or reassignment to an alternative placement may be made to the Superintendent or designee. Providing or receiving over the counter drugs to or from other students may be considered a level 3 infraction for endangerment, while providing others with medication prescribed to the student or others may be considered a level 4 offense that is subject to a suspension of up to 10 days.

Fake Drugs

Students who are caught possessing or distributing a substance that is represented to be an illegal drug may be suspended for up to ten (10) days and recommended for a disciplinary reassignment to alternative school.

Possession or Use of Tobacco/Vape

Possession or use of tobacco/vape on school grounds is illegal. If a student is caught smoking or in possession of tobacco, the School Resource Officer or other law enforcement officer may give the student a written citation. In addition to possible fines, students caught using or possessing any form of tobacco, including electronic cigarettes at school, at any school-sponsored activity, at a school bus stop or on the school bus, will receive a disciplinary consequence. Tobacco or nicotine products include cigars, cigarettes, dip, snuff, dissolvable tobacco products (e.g. gum, mints, or dissolvable strips) and electronic smoking devices. Additionally, any electronic smoking device is subject to field testing or illicit substances and will be confiscated.

Violent and Aggressive Acts

Students who violently attack a School Board employee or any other person or act as a decoy in a violent attack at school, a school function, on the bus, or at a bus stop, may be suspended from school for up to 10 days and may face a recommendation for expulsion or reassignment to an alternative program. If a student is charged with violently attacking another person somewhere else other than school, the student may be removed from the general education program and administratively assigned to another program.

Possession of Firearms and Weapons

According to Florida Statute 790.115(2)(a) students will not possess any firearm, destructive device, or other weapon as defined in F. S. 790.001 (13) and/or listed under

Category A (below). Federal and state laws require students be expelled from school, with or without continuing educational services, for a period of not less than one full year, referred to mental health services identified by the school district, pursuant to F.S. 1012.584 (4) and referred for criminal prosecution if a firearm is brought to school, to any school function, or onto any school sponsored transportation, or if] a firearm or weapon is possessed at school. Expulsion is required, even if the firearm or weapon is for self-defense. The School Board may assign students to a disciplinary program for the purpose of continuing educational services during the period of expulsion. The Superintendent may consider the expulsion requirement on a case-by-case basis and requires the School Board to modify the requirement by assigning the student to a disciplinary program or other appropriate consequences, if it is determined to be in the best interest of the student and the school system.
F.S. 1006.13" Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.(a)Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school."

Section 7 Transportation

Conduct on School Buses

The School Board believes all students as well as the bus driver should be able to ride safely on school buses. In addition to any bus-specific consequences, students may be disciplined for any action on the bus in the same manner as if the conduct had taken place on a school campus. Students are also subject to disciplinary action while at the bus stop, if behavior has a harmful effect on the health, safety or welfare of any member of the school community, and witnessed by the bus driver, bus attendant or other employee of the school district. Students should assume that they are being recorded any time they are riding the school bus.

Parent Responsibility (FL Admin Code R 6A-3.0121)

The district shall inform parents, guardians, and students at least annually, in writing, of their responsibilities and related district policies as follows:

1. To encourage the safe travel of their students during the portions of each trip to and from school and home when the students are not under the custody and control of the school district, including during each trip to and from home and the assigned bus stop when the school district provides bus transportation.
2. To ensure that students ride only on their assigned school buses and gets off only at assigned bus stops, except when the district has approved alternative buses or arrangements.
3. To ensure students are aware of and follow the district's adopted code of student conduct while the students are at school bus stops and to provide necessary supervision during times when the bus is not present.
4. To ensure that, when the physical disability of the student renders the student unable to get on and off the bus without assistance, the parent or guardian provides the necessary assistance to help the student get on and off at the bus stop, as required by district policy or the student's individual Educational Plan.

Parents are responsible for student behavior at the bus stop prior to the arrival of the bus in the morning and after the departure of the bus at the end of the day. The Superintendent or designee will then inform the parent or guardian in writing of any final decision to remove the student from the bus.

D. Students who transfer to a new school will be held responsible for any previous incident of bus misconduct from the previous school.

This document outlines the rules and consequences for student behavior on school buses, ensuring safety and compliance with district policies. School administrators, bus drivers and/or attendants have the authority to assign seats. Elementary school students will receive 2 courtesy notices for any level 1 offense. Secondary students will be given 1 courtesy notice for any level 1 offense.

School Bus Suspensions

Students can be denied the privilege of riding a school bus by the principal or designee for up to 10 school days. Suspension from the school bus may be imposed only by the principal or designee by following the procedures for suspension from school.

Section 8 Discipline

The discipline matrix is a tool that helps ensure a consistent and progressive response to discipline across all SDMC schools. The term SESIR is found throughout the discipline matrix and is an acronym for School Environmental Safety Incident Reporting. These discipline incidents are defined by the state and reported to the Florida Department of Education on a monthly basis.

Principal Authority to Assign Alternative Consequences

A school principal or designee may assign additional consequences for behaviors as long as these consequences do not violate school board policy or state statutes. It is

expected that parent contact is made any time an office referral is processed. School administrators or designees may assign a loss of privilege for any infraction.

Section 9

Classroom Removal

F.S. 1003.32 In accordance with this section and within the framework of the district school board's code of student conduct, teachers and other instructional personnel shall have the authority to undertake any of the following action in managing student behavior and ensuring the safety of
all students in their classes and school and their opportunity to learn in an orderly and disciplined classroom:

a) Establish classroom rules of conduct, including designating an area for wireless communications devices during instructional time.

b) Establish and implement consequences, designed to change behavior, for infractions of classroom rules.

c) Have disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students removed from the classroom for behavior management intervention.

d) Have violent, abusive, uncontrollable, or disruptive students directed for information or assistance from appropriate school or district school board personnel.

e) Assist in enforcing school rules on school property, during school-sponsored transportation, and during school-sponsored activities.

f) Request and receive information as to the disposition of any referrals to the administration for violation of classroom or school rules.

g) Request and receive immediate assistance in classroom management if a student becomes uncontrollable or in case of emergency.

h) Request and receive training and other assistance to improve skills in classroom management, violence prevention, conflict resolution, and related areas.

i) Press charges if there is a reason to believe that a crime has been committed on school property, during school-sponsored transportation, or during school-sponsored activities.

j) Use reasonable force, according to standards adopted by the State Board of Education, to protect himself or herself or others from injury.

Out-of-School Suspension

Students may be suspended from school by the principal or designee following an investigation. Suspended students are not permitted to be on any District school campus or to participate in any school-sponsored or school-related activities for the duration of their suspension. During this time, students are expected to remain current with all academic responsibilities. It is the student's duty to obtain and complete missed classwork by contacting teachers through phone or email, accessing teacher websites or learning platforms, and communicating with classmates as needed.

A suspension may be appealed by following the procedures outlined in the Review and Appeal of a Discipline Referral or Consequence section of this Code of Conduct.

Review and Appeal of Discipline Referral or Consequence

Per F.S.S. 1006.09, a student or parent/guardian may appeal a discipline referral or consequence by contacting their school administrator in writing, requesting a review of the disciplinary event. The school principal or their designee will meet with the parent/guardian, hear their concerns, and review the disciplinary event or consequence and respond to the parent/guardian. The decision of the school principal is final. The appeal will not delay the enforcement of the consequences.

Disciplinary Reassignment

The School District of Manatee County offers an alternative program for students who struggle with behavioral issues in their current setting or create a concern for the safety of others. Pursuant to School Board policy, the Superintendent or designee may reassign students, if it is determined to be in the students' best interest, or the best interest of the school. If a student's actions create a concern for the safety and welfare of any student or staff member or substantially interferes with the safe and orderly operation of a school, students are eligible for reassignment to an alternative program under the School reassignment process, regardless of any current or past patterns of behaviors. Being charged with an off-campus criminal act by law enforcement, which creates a concern for the safety and welfare of students or staff, or which substantiates a pattern of unsafe behavior may result in a recommendation to the district reassignment committee, per F.S. 1006.09, 1006.147, and 1006.13.

Students assigned to an alternative program for disciplinary reasons cannot be present on any other Manatee School District property at any time. Students reassigned to an alternative program for disciplinary reasons may choose to attend another school outside of the district.

Procedures for Appeal of Alternative School Placement

A parent/guardian may appeal for the alternative school placement by contacting the Director of Student Services or their designee in writing with their request. All

reassignment appeals shall be submitted to the Deputy Superintendent, who will conduct the appeal review or designate a senior administrator to conduct the appeal review. The review will include the students' disciplinary history, the incident resulting in the alternative placement, and the committee's decision. The outcome will be communicated to the requested family.

Felony Arrests

The principal will review information about the arrest with district administration to determine whether the student may be suspended from school and extracurricular activities or reassigned to an alternative placement.

Self-Reporting Upon Initial Registration (FS 1006.07)

It is required that each student at the time of initial registration for school in the school district must note previous school expulsions, arrests resulting in a charge, juvenile justice actions, and any corresponding referral to mental health services by the school district, and have the authority as the
district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board's code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived, and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. (State Statute 1006.07)

Expulsion

The principal or the principal's designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which

substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal's designated representative on the alternative measures taken prior to the recommendation of expulsion. The School Board may, instead of an expulsion, assign a student to a school or an alternative program other than the student's zoned school when the recommendation of expulsion is a mandatory consequence for the violation of the Student Conduct and Discipline Code. (Florida Statute 1006.09)

1. The principal or designee will complete the investigation, write the office referral (Event and Discipline Report), assign a 10 day out of school suspension and notify the parents of the incident and suspension.
2. The principal or designee will communicate with the parent/guardian during the 10-day suspension and notify them of the recommendation for expulsion and the rational for the requested expulsion.
3. The principal or designee will compile all relevant investigation documents, a detailed description of the incident leading to the recommendation for expulsion, prior intervention utilized, current year behavior, academic, and attendance records and relevant 504 or IEP documents along with the request for expulsion form to be submitted to the Superintendent or designee.
4. The district expulsion committee will review the documentation provided and will confirm the hearing date with the principal or designee and the parent/guardian.
5. The parent/guardian and student have the right to participate in the formal hearing and to be represented by legal counsel or any other qualified person during the hearing.
6. The hearing officer will recommend any penalty they deem appropriate to the facts of the case. The recommendation will be voted on by the School Board who may impose any outcome they deem appropriate. The School Board's decision is final.

   Students may be suspended for the remainder of the current academic year and the following academic year. During the explosion, students may not be on any school board campus, property or establishment or within 1,000 feet of a school or a school bus stop.

   Florida Statute 1006.08 permits the Superintendent to extend a suspension beyond ten school days if such suspension expiries before the next regular or special school board meeting following the ten days of a suspension if the student is being recommended for expulsion. Alternatively, the Superintendent or the superintendent's designee may assign a student to the district alternative school or other alternative program pending the completion of any expulsion hearing and entry of any final order of expulsion by the School Board.

Enrollment of Students Who Have Been Expelled, Dismissed, or Re-assigned from Other Schools Districts

Students enrolling in the School District of Manatee County who have been expelled, dismissed, or reassigned from another school must disclose that information when registering at their districted.
school (F.S. 1006.67). The School District of Manatee County will evaluate all information provided and will uphold the placement from the originating institution in alignment with the Code of Student Conduct.

Criminal Victimization

In accordance with F.S. 1006.13, students who are found to have committed certain felony offenses against another student are prohibited from attending the same school or riding the same school bus with the victim or the victim's siblings. According to F.S. 1006.13(5), "The offender, or the parents of the offender if the offender is a juvenile, shall arrange and pay for transportation associated with or required by the offender's attending another school or that would be required as a consequence of the prohibition against riding on a school bus on which the victim or a sibling of the victim is riding. However, the offender or the parents of the offender may not be charged for existing modes of transportation that can be used by the offender at no additional cost to the District School Board."

Corporal Punishment

The use of corporal punishment is prohibited. This prohibition extends to parents or guardians on school grounds.

Section 10

Crisis Protocol

Providing a safe and secure environment for our students to learn is the top priority of the School District of Manatee County. Measures have been taken to ensure our staff and students are prepared in the event of a crisis situation occurs in one of our schools. A comprehensive All- Hazards Emergency Management Plan for each school has been created to guide our staff through a wide variety of situations. Fire drills, tornado drills, lock-down drills and shelter-in-place drills are practiced at each site to ensure routines and safety procedures are well established and familiar to all.

In a shelter-in-place, all school doors will be locked, and regular classroom instruction continues behind the locked doors. In a lock-down, all school doors are locked, and all students and staff are out of view. Classroom instruction is discontinued.

What parents need to know during either crisis:
Please DO expect to be notified with a special parent advisory sent home from the school and/or with a telephone message from our telephone notification service when the school is able to provide accurate information and/or the incident is resolved.

a) Cooperate with school and/or district directives.
b) Consult local media for regular updates about the incident. Listen for information updates on local radio and television stations. You may be directed to an off-campus parent staging area for the latest information regarding a campus crisis.
c) DO NOT call the school because phone lines will be needed for emergency communication.
d) DO NOT call your child's cell phone because cell phones are not to be used during a crisis.
e) DO NOT go to school if a crisis situation should occur. Roads are closed, doors are locked, and campuses are off-limits to anyone other than authorized personnel.

Pursuant to F.S. 120.54, in the event of an emergency, the Superintendent or the School Board can enact additional rules governing student conduct which shall be enforced as included in this Code of Student Conduct.

Unannounced Lockdown Drills

Per state statute F.S.S 1006.07, schools will conduct unannounced lockdown drills.

Student and Family Reunification Plan

In case of a school emergency or natural disaster, students need to be aware of their school's plan for releasing them. First and foremost, remain calm. Remember, it is our primary concern that students remain safe at all times, and there is a plan for an orderly dismissal and release of our students. When parents and guardians learn their student's school is in a lockdown situation or any other emergency situation, do not call the school and do not come to the school. Staff will be very busy during an emergency and will not be able to attend to the safety of students if they have to answer phone calls. If parents come to the school during an emergency, in all likelihood, parents will not be allowed into the school or even into the inner perimeter set up by emergency responders. The presence of hundreds
of parents showing up on the scene will hinder the efforts of emergency responders, which in turn may jeopardize the safety of students. Instead, if the situation warrants the release of students, district notification to listed emergency contact numbers as well as the use of local new medica will provide instructions on when and where to release will take place. Students may be bused to an off-site
location for their release to parents or guardians.
Once the "all clear" is given at the school, and if there is a need to release students for the day, the Student and Family Reunification Plan will be put into place. For the safety of

every child, it must be documented to whom each child is released. Students will only be released to a parent, guardian, or childcare personnel as designated on student's school contact, medical and emergency form. When arriving at the facility where students will be released, proceed to the designated area and plan to do the following:

- Fill out a Student Release Form.
- Present photo identification.
- Move to the student release are and wait for your child.
- A runner will go to the assembly area, get the students, and bring them back to the release are. Be prepared to show ID again.
- Sign for the student and depart.

Reminder: Students will be released only to those listed on the Contact, Medical, and Emergency Form. It is therefore imperative that parents and guardians keep information on each child's Contact, Medical, and Emergency Form up to date, including cell phone numbers and other emergency contact information. Please note that if for any reason a student is not picked up, he or she will be placed in an alternative place of safety. These procedures should be shared with everyone listed on the Contact,
Medical and Emergency Form so that they are familiar with the plan and these concerns. If there are any questions about the Student and Family Reunification Plan, contact your student's school principal. http://www.manateeschools.net/spp

Notification of Student Social Security Number Collection and Usage

In compliance with Florida Statute 119.07(5), this statement provides notification of the purpose for the collection and usage of student social security numbers by the School District of Manatee County. According to F.S. 1008.386, when a student enrolls in a public school in this state, the district school board shall request that the student provide his or her social security number and shall indicate whether the student identification number assigned to the student is a social security number.
However, a student is not required to provide his or her social security number as a condition for enrollment or graduation. A student satisfies this requirement by presenting to school enrollment officials his or her social security card or a copy of the card. The Department of Education shall establish a process for assigning a Florida student identification number to each student in the state, at which time a school district may not use social security numbers as student identification numbers in its management information systems. The Commissioner of Education shall assist school districts with the assignment of student identification numbers to avoid duplication of any student identification number.

- The annual yearbook
- Honor roll or other recognition lists.
- Graduation programs
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent.
Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks and law enforcement agencies. If parents do not want the School District to disclose directory information from their child's education records without prior written consent, they must
notify the district in writing by September 15th of each year or within 30 days or receiving this annual notice. The School District has designated the following information as directory information:

- Student's name
- Electronic mail address
- Photograph or other likeness (with parental consent)
- Date and place of birth.
- Major field of study
- Date of attendance
- Grade level
- Participation in officially recognized activities and sports.
- Height and weight of athletic team members
- Degrees, honors, and awards received.
- The most recent school attended.

Note: Objecting to the release of directory information may results in a student's name, photograph, and other directory information being excluded from yearbooks, sports programs, and other school publications. Both parents have a right to see the school records of their child unless there is a certified copy of a court order on file at the school that specifically denies the right to access school records. Copies of school records are available for a minimal copying charge. If you have any questions about these rights, please contact the school office.

Military Opt-Out Procedures

Under federal law, military recruiters are entitled, upon request, to a list of names, addresses, and telephone numbers of high school students unless parents/guardians object to such release. Students or parents must notify the principal in writing if they do not want their name, address, and telephone number released to military recruiters without prior written parent consent. This written notification may be submitted at any time, and the School District will honor the objection from that point forward unless the student otherwise provides written notification to the principal. A military opt-out form is available on the district website: www.manateeschools.net. Students may also request a copy of the form at the school's main office.

Higher Education Opt-Out Procedures

Under federal law, institutions of higher learning are entitled, upon request, to a list of names, addresses, and telephone numbers of high school students, unless parents/guardians object to such release. Students or parents must notify the school principal in writing if they do not want their names, address, and telephone number released to institutions of higher learning without prior written parental consent. This written notification may be submitted at any time, and the School District will honor the objection from that point forward unless otherwise provided with written notification to the principal.

Safe, Positive Learning Environment

The purpose of this document is to assist students, parents, and school personnel in establishing and maintaining a safe, nurturing and well-disciplined learning environment for all. To be fully effective, the Code of Student Conduct addresses not only the role of the parents, the students, and the school, but also specifies areas relative to the responsibilities and rights of students and parents, grounds for disciplinary actions, and procedures to be followed for acts requiring disciplinary action.

Students in the School District of Manatee County are subject to the Code of Student Conduct during the school day and regular school activities, and while being transported on school buses or at public expense to and from school or other education facilities. Students are also subject at such time and places that include, but are not necessarily limited to, school sponsored events, field trips, athlete functions, and other activities where appropriate school personnel have jurisdiction over students. In addition, jurisdictional control over students may be extended as per Florida Statutes (F.S.) 1006.07, 1006.09, 1006. 13, 1006.147, and 1003.31 1003 and 1006 whenever the conduct of a student is deemed to have a detrimental effect on the health, safety, and welfare of any member of the school community or the learning environment of the school.

It is the intent of the "Student Rights and Responsibilities" section of this Code that students understand that individual rights involve associated responsibilities and that individual rights must be viewed in relationship to the health, safety, and welfare of the majority of students in each school. In each school, the principal is responsible for orderly school administration, operation and instructional leadership, under supervision of the Superintendent, in accordance with the rules and regulations of the School Board. The Superintendent is authorized to assign or reassign a student to any program or school as deemed to be in the best interest of the student or School District, pursuant to F.S. 1006.08.

~~Students attending a Charter school or a School Choice school may be suspended, expelled, or reassigned during the school year as provided in this Code. School Choice may additionally be revoked for non-attendance, habitual tardiness, or disciplinary issues, upon the recommendation of the principal. The principal's recommendation is subject to review and approval by the District Administrative Appeals Committee. Hope Scholarship students must remain in good standing with this Code to continue their placement within the Hope Scholarship program. For questions concerning the Hope Scholarship, contact the Office of Student Assignment.~~ Moved to Choice (section 10)

Principal's Responsibility

The principal of each school is responsible for the administration of the school and the enforcement of the District Code of Student Conduct. The principal has the authority to direct students and staff, and can impose any reasonable requirements that are consistent with the District Code of Student Conduct or School Board Policy. (F.S. 1006.09)

In Loco Parentis

State and federal law recognizes that teachers and school administrators have a need to stand in the place of parents over children entrusted to them at school. This is a concept called loco parentis. This concept is reasonable for the fact that school personnel can search without a warrant based on reasonable suspicion and are not held to the higher standard of "probable cause" by which law enforcement is bound. It is also responsible for the fact that school personnel can interrogate a student without providing him or her with Miranda warnings or allowing the student to call a parent or attorney. (F.S. 1003.31). Please refer to Administrative Investigations for more information (pg X).

School District Civility Clause

It is the intent of the School Board to promote mutual respect, civility, and orderly conduct among district employees, parents, and the public. It is not the intent of the Board to deprive any person of his/her right to freedom of expression. The intent of this policy is to maintain, to the greatest extent reasonably possible, a safe, harassment-free workplace for teachers, students, administrators, other staff, and parents and other members of the community. In the interest of presenting teachers and other employees as positive role models, the Board encourages positive communication and discourages disruptive, volatile, hostile, or aggressive communications or actions. (link to school board policy)

Prohibition of Discrimination

The School Board does not discriminate on the basis of sex (including sexual orientation or gender identity), in its education programs or activities, and is required by Title IX of the Education Amendments Acts of 1972, and its implementing regulations, not to discriminate in such a manner. The requirement not to discriminate in its education program or activity extends to admission and employment. The Board is committed to maintaining an education and work environment that is free from discrimination based on sex, including sexual harassment.

Privacy and Property Rights

Students have the right to:

- Bring personal items to school
- Privacy unless there is reasonable suspicion that a student has a prohibited item on campus

- Inspect and review student records
- Be protected from the unlawful disclosure of student information

Parental Rights

- To be treated fairly and respectfully by school administration, teachers, and staff.
- To be notified promptly if your child is disciplined for inappropriate behavior and the consequences for those actions.
- To appeal disciplinary actions.
- To receive pertinent, accurate, and timely information about your child's academic progress.

Students are responsible for:

- Any lost, stolen, damaged property they bring on campus

Students are responsible for:

- Sharing accurate and pertinent information helpful in making educational decisions with appropriate school personnel

Parental Responsibilities

- To be actively involved in your child's education.
- To access information about the school board's policies and procedures.
- To provide your child's school with updated emergency contact information to include your address.
- To ensure that child student follows the student code of conduct.
- To ensure that your child is in attendance and on time every day.

First Amendment Freedom of Expression

Students have the right to:

- Express their ideas in a respectful and appropriate manner without disrupting the learning environment
- Exercise their religious beliefs
- A bullying and harassment free environment

Student Protests, Student Safety, and Instructional Time

First Amendment Freedom of Expression In 1969, The United States Supreme Court ruled that public school students do not leave their constitutional right to freedom of expression at the schoolhouse gate. Students have a right to freedom of expression; however, when students exercise this right, students must do so in a responsible manner that does not cause a disruption of the school or a school activity. A principal may impose reasonable time, place and manner restrictions on your exercise of First Amendment freedom of expression rights. Administrators must take proactive steps to make sure students remain under appropriate supervision during school hours and instructional environment remain safe and focused on learning. If possible, before imposing reasonable time, place and manner restrictions, the principal will consult with the School District General Counsel and will notify the Superintendent (or designee) in such cases. If it is not possible to consult the School District General Counsel beforehand, the principal will do so as soon as possible. See Rule 6A-10.081 Florida Administrative Code for more information.

Pledge of Allegiance

F.S. 1003.44 requires the Pledge of Allegiance be recited at the beginning of each school day. When the national anthem is played or the pledge is recited, students and all civilians shall stand at attention, men removing the headdress, except when such headdress is worn for religious reasons. When the pledge is recited, students shall stand with the right hand over the heart. With a written request by a student's parent or guardian, a student will be excused from reciting the pledge, including standing and placing the right hand over his or her heart. When the pledge is given, unexcused students must show full respect to the flag by standing at attention. When the Junior Reserve Officer Training Corps (JROTC) Color Guard presents the colors for the national anthem or Pledge of Allegiance at a school or district function, the audience is asked to rise before the procession begins from the back of the room. The audience remains standing after the pledge or anthem and during the entire time the Color Guard walks to the back of the room. The audience remains standing until the Color Guard is dismissed

Moments of Silence (re-ordered in section 1)

Per F.S. 1003.45, the principal of each public school shall require teachers in first-period classrooms in all grades to set aside at least 1 minute, but not more than 2 minutes, daily for a moment of silence, during which students may not interfere with other students' participation. A teacher may not make suggestions as to the nature of any reflection that a student may engage in during the moment of silence. Each first-period classroom teacher should encourage parents or guardians to discuss the moments of silence with their children and to make suggestions as to the best use of this time.

Students are responsible for:

- Respecting the rights of others' self- expression
- Respecting the religious beliefs of others
- Reporting bullying or harassment immediately to a staff member

Students must also display their student ID, and have it scanned each time they board a district bus.

A teacher may not make suggestions as to the nature of any reflection that a student may engage in during the moment of silence. Each first-period classroom teacher should encourage parents or guardians to discuss the moments of silence with their children and to make suggestions as to the best use of this time.~~

School Dress Code

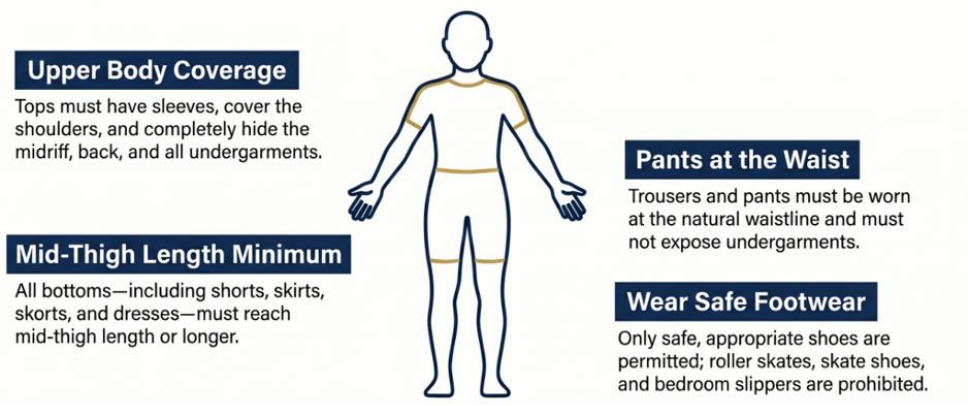

Under F.S. 1006.07, each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.

The dress and ~~grooming~~ appearance of district students shall be neat and clean, promoting a safe and positive educational environment. Apparel that disrupts educational activities and processes of the school may result in the removal of the student from the regular learning environment until

acceptable apparel can be secured for the student. Failure to comply with the dress code may result in disciplinary consequences outlined in state statute and the district discipline matrix.

~~Pursuant to F.S. 1006.07, wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the learning environment will have specific consequences.~~

Place Holder:

Requirements for student dress in all schools are listed below:

a. All shirts and blouses must cover the midriff, back, sides, and all undergarments including bra straps at all times. All shirts, tops, and dresses shall have sleeves and cover the shoulders. Tops must extend below the waistband at all times. Clothing may not expose the midriff; no skin should be visible at the waist or abdomen.

b. Shorts, skirts, skorts, and dresses are allowed. They must be mid-thigh length or longer.

c. All trousers, pants, or shorts must completely cover undergarments and worn at the waist.

d. All clothing~~, jewelry~~, or body art, tattoos, nail art, shall not have: profanity, violent images, weapons, wording or suggestion; sexually suggestive phrases or images;~~ gang related symbols;~~ alcohol, tobacco, drugs, or advertisements for such products.

e. Students are not permitted to wear any items or display markings that are offensive, suggestive, indecent, or associated with gangs as identified under the Florida Gang Prevention Act of 1990 or as outlined in Florida Statute 874.

~~d.~~ Any jewelry or accessories that pose a safety risk may be required to be removed at the discretion of the principal or designee if concerns arise.

~~e.~~f. Safe and appropriate footwear must be worn. Inappropriate footwear includes, but is not limited to, roller skates, skate shoes, and bedroom slippers.

~~f.~~g. Form-fitting leotard/spandex type clothing (to include shorts and leggings) are allowed with proper garments that cover to mid-thigh length or longer.

~~g.~~h. See-through or mesh fabric clothing may only be worn over clothing meeting requirements.

i. Sleepwear shall not be worn as outer garments.

~~h.~~j. Blanket/blanket type items are not permitted to be on school grounds.

~~i.~~k. Sunglasses may not be worn inside unless a parent provides a doctor's note to the school. Field trips are an exception.

~~j. Bandanas or sweatbands are not allowed to be visible on school grounds during regular school hours.~~

~~k.~~l. Hats or other head coverings may be worn during outside P.E. activities and may not be worn during any portion of the regular school day without the expressed permission of the principal.

~~l.~~m. If the school has a mandatory school uniform policy, the student must adhere to those requirements. These programs will provide detailed requirements to both students and parents.

School Uniform Policy

a. Manatee County elementary or secondary schools may implement a mandatory uniform policy, governing students enrolled at the school only if all conditions set forth in the following procedures are met: A Favorable vote of at least 67% or more by the School Advisory Council (SAC) must occur to support mandatory use of uniforms for students.

b. The school or SAC conducts a survey of parents of all students in that school and at least 51% percent of the families completing the survey must indicate that they are in favor of establishing such a program. Ballots must be received from a majority of eligible families. Parents are to be surveyed every three years at any school implementing a uniform program.

c. The school must establish a uniform committee that adequately represents all segments of the school community. The uniform committee must follow guidelines promulgated by the Superintendent for selection of uniforms.

d. The school-selected uniforms must comply in all respects with the other provisions of the district rules concerning appropriate attire.

e. The uniform selected may not be characterized as gender-specific (both boys and girls may wear

slacks).

f. The school must make provisions for those students who, by reason of financial hardship, cannot comply with the uniform and must notify the students' parents of these provisions.

Communication

Each school implementing a uniform policy must communicate to parents the following:

1. Types and colors of uniform;
2. Requirements for jackets or outer garments;
3. Optional articles of attire, if any;
4. Compliance measures to be employed;
5. The availability of financial support and the procedures for applying for assistance;
6. Methods to facilitate recycling of uniforms within the school community; and
7. Notice of uniform sales and lists of competitive process from vendors of uniform articles.

The means by which this information is communicated shall include one or more of the following: school newsletters, parent forums, telephone hotline, PTA/PTO meetings and newsletters, school advisory council meetings, television, radio, newspaper announcements, posters displayed at school and in the community, and registration materials.

Compliance Measures

A. Each school shall develop incentives and positive reinforcement measures to encourage full compliance with the uniform policy. Each school should strive to achieve full compliance through use of incentives and positive reinforcement measures and should resort to disciplinary action only when positive measures fail to ensure compliance. In addition, school shall communicate with parents so that expectations, rationale and benefits are fully understood by the student and the family.

B. If necessary, disciplinary action may be taken to encourage compliance with the policy. Since the intent of the policy is not to inhibit or prohibit any student who is not in uniform from receiving the education to which he or she is entitled, no student shall be suspended from class or from school, expelled from school, or receive a lowered academic grade as a result of not complying with the policy.

C. Prior to initiating any disciplinary action against a student not complying with the policy, a school administrator shall hold a conference with the parent or guardian to solicit cooperation and support.

D. Disciplinary action is initiated only after all other means to secure support and cooperation as mentioned above have not succeeded. A “progressive discipline” approach is to be employed by the school support staff so as to encourage full and consistent compliance with the least amount of disciplinary action.

E. In order to ensure a smooth transition to a uniform policy, and in order to ensure that incentives and positive reinforcement measures are employed before resorting to disciplinary action, no school implementing a uniform policy shall take disciplinary action for the first two months of implementation unless those not in compliance materially or substantially interfere with the requirements of appropriate discipline.

F. Exceptions to wearing the uniform are permitted when:

   a. Uniforms of a nationally recognized youth organization such as JROTC, Civil Air Patrol, or the Boy Scouts or Girl Scouts are worn on regular meeting days.
   b. A student wears a button, arm band, or other accoutrement to exercise the right to freedom or speech as guaranteed by the First Amendment, unless the button, arm band, or other accoutrement signifies or is related to gangs, gang members or gang activity.
   c. The wearing of a school uniform violates a student's sincerely held religious belief.
   d. A student's parent or guardian has secured an exemption form the uniform policy by following the procedures set forth below.

G. Parents or guardians are permitted to exempt their children from the uniform program by the following procedures:

   a. Parents should be notified of the exemption procedure.
   b. A request is made by mail or in person by the parent or guardian for an Application for Exemption from the Uniform Program ("Application"). The parent or guardian may obtain an Application at the student's school site.
   c. The Application is completed in full and submitted to the school principal.
   d. The school principal or other designated administrator meets with the parents to discuss the uniform policy and the nature of the objections to the policy. The purpose of this meeting includes:

      i. Ensuring that the parents or guardians understand the reason for, and goals of the uniform policy.
      ii. Verifying the accuracy of the information on the Application.
      iii. Preventing fraud or misrepresentation.

Attendance

Regular school attendance is crucial for a student's educational success. Excessive absences can impact students' education, their ability to pass their classes, and may lead to court proceedings or the loss of driving privileges. A parent/guardian may excuse nine absences per year. The following are examples of excused absences, but not limited to:

Excused Absences

- Personal Illness
- Illness of an immediate family member
- Religious Holiday of student's religious beliefs
- Court appearance/Subpoena
- Doctors' appointment

Reporting Absences

In the event of a planned absence, the parent or guardian shall notify the school prior to the absence. Any student that is absent from school shall provide appropriate documentation within 48 hours of returning to school for the absence to be marked excused. All absences will automatically be marked unexcused until parent/guardian has contacted the school, or documentation has been submitted. The principal/designee will determine if the documentation meets the criteria for the absence to be excused, and the decision will be final.

Make-up Work

After an excused absence, students must arrange with their teacher for any make-up work. Students have the same number of days they were absent to make up their work. This rule does not apply to some long-term assignments. (A long-term assignment is when a student has 10 or more days to complete the work.) These long-term assignments will be due on the specified date unless excused in writing by the teacher or principal. It is the student's responsibility to make these arrangements and to submit make-up work within the deadlines set by the teacher(s). Students do not have the right to make up work if the absence was unexcused.

~~Semester Exams~~

~~Semester exams may not be given early. Students may take their semester exams upon return to school.~~ (referenced in Student Progression Plan students cannot take exams early)

Truancy

A "Truant" student is a student, subject to compulsory school attendance, who has had (F.S. 1003.01):

- 5 unexcused absences (or absences for which reasons are unknown) within a calendar month; or
- 10 unexcused absences (or absences for which reasons are unknown) within any 90 calendar days; or
- Has had more than 15 unexcused absences within 90 calendar days.

The SDMC will follow all requirements for reporting truant students as outlined in F.S. 1003.27.

Florida State Statute (1003.24) reports parents are responsible for the attendance of children.
Florida State Statute (1003.26) provides the school district the ability to enforce school attendance.

15 unexcused absences in a 90-day calendar period will result in referral to Truancy Court.

- Child Study Team - A meeting with the school's Child Study Team will be conducted when 5 unexcused absences in a calendar month, and/ or 10 unexcused absences in a 90-day calendar period occur. The Child Study Team will examine root causes for the persistent absenteeism so strategies and interventions to resume regular attendance can be developed
- After appropriate strategies and interventions have been implemented, if chronic absenteeism continues, the principal or designee may initiate a referral to truancy court

Driver's License

Florida law requires that all minors who fail to comply with the state's attendance requirements lose their driving privileges by the Department of Highway Safety and Motor Vehicles (DHSMV). Students aged 14-18 with fifteen (15) accumulated unexcused absences, not including out-of-school suspensions, in a 90-calendar day period. Any student with their driving privileges removed will have to satisfy the state requirement of attending 30 consecutive school days, with no unexcused absences, to receive a reinstatement of driver's license privileges form.

Homeless Student Rights Under the McKinney-Vento Act

Under the McKinney-Vento Act, homeless students have the right to attend school, regardless of the location where they live or the length of time at that location. The student is to be enrolled immediately, regardless of whether the appropriate records required for enrollment are presented. The school will refer the parent/guardian to Project Heart, which will help in obtaining the required records. Students eligible under the McKinney-Vento Act have the right to continue attending the same school they attended before their housing situation changed, or the school last attended, as well as receive assistance with transportation to that school of origin. Furthermore, the students are allowed to attend the school of origin for the rest of the school year, even if they obtain permanent housing during the school year.

If a student who is eligible under the McKinney-Vento Act is sent to a school other than the school of origin, a reason must be provided in writing, along with the process for appealing such a decision. The student may remain in the school of origin during the appeal. ~~If it is proven the student was not eligible for McKinney-Vento Act rights and services, but the parent/guardian accepted goods, services, or special right, including free school lunch, school fraud rules will apply. The parent/guardian will be notified in writing and provided with the process for disputing the charges of fraud.~~
The school District of Manatee County will follow the McKinney Vento Dispute Resolution process as outlined in statue. ~~(refer back to policy)~~ Please see school board policy 5111.01 for more information.

The United State Department of Education requires school districts to follow a specific Title IX Grievance Process while investigating allegations of sexual misconduct. The Office of Civil Rights of the United State Department of Education considers sexual misconduct (including sexual harassment, sexual violence, sexual assault, and intimate partners violence) to be a form of sexual discrimination and requires the school districts to take immediate and effective steps to respond to sexual misconduct.

For a Title IX investigation to apply, the incident must have occurred in an education program or activity in which the district has substantial control over both the respondent and the context in which the incident occurred.

"Sexual harassment" means conduct on the basis of sex that satisfies one or more of the following:

1. Any School District of Manatee County employee conditions the provision of an aid, benefit, or service of the recipient on an individuals' participation in unwelcome sexual conduct.

Firearms Detection Systems Screening at SDMC Schools

The safety of our staff and students at the School District of Manatee County is our number one priority. To enhance our security efforts at our schools, we have a high-tech security scanner firearms detection system and a firearms detection canine to screen students and visitors for firearms.

Firearms are not permitted on any School District of Manatee County (SDMC) property. All students and visitors entering District property may be required to submit to a weapon detector screening to ensure no weapons are brought onto the premises. Bags, purses, backpacks, etc. may also be screened using metal/weapon detecting wands and/or by hand. Refusal to cooperate with the screening procedure will result in the denial of entry and/or disciplinary action for the student. If a student activates the detector, a staff member will escort a search of the student to a private secondary screening location where we will conduct a search of the student and their belongings in alignment with School Board Policy 5771.

NOTE:

Per F.S. 790.115, the School District of Manatee County strictly prohibits any firearms from being stored in student vehicles parked on any school grounds or at any school sponsored event. Your principal may give you written permission to possess a gun or weapon while on campus or at a school function when the gun or weapon is part of the curriculum of the school. An example of this is when a gun or rifle may be part of JROTC drill and firing ranges. If a student brings weapon-like contraband to school, to any school function, or onto any school sponsored transportation, or if students you use any non-weapon as a weapon to threaten or injure others, the student may be suspended for up to 10 days and possibly recommended for alternative placement, expulsion, and referred for criminal prosecution.

Use of Social Media (move to technology section)

The School District of Manatee County allows schools, students, teachers, and staff to use social media for enhancing classroom learning and communication among members of the SDMC community. Student use of District approved social media platforms must be consistent with all aspects of the Code of Student Conduct and must abide by Section 501.1736, Florida Statutes.

For School Board Policies regarding student use of social media, please visit the District website at www.manateeschools.net/policy to review the Student Social Media Guidelines and the School Board Policy Manual with Policy 7544 "Use of Social Media" and Policy 7540.03 "Student Technology Acceptable Use and Safety".

Bullying and Harassment

Conduct that constitutes bullying or harassment, as defined below, is prohibited.

Bullying: (intimidating behaviors that are repeated, intentional, and involve a power imbalance) Systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. Bullying includes instances of cyberbullying, as defined in Section 1006.147(3)(b), F.S. Bullying may include, but is not limited to, repetitive instances of teasing, social exclusion, threats, intimidation, stalking, physical violence, theft, harassment, public or private humiliation, or destruction of property. If the physical harm or psychological distress is not the result of systematic or chronic behavior, evaluate for Harassment

Harassment: Any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal, or physical conduct that places a student or school employee in reasonable fear of harm to his or her person or damage to his or her property, has the effect of substantially interfering with a student's educational performance, opportunities, or benefits, or has the effect of substantially disrupting the orderly operation of a school including any course of conduct directed at a specific person that causes substantial emotional distress in such a person and serves no legitimate purpose. Instances of Harassment that are chronic or repeated in nature should be evaluated for Bullying or Bullying-related.

Both bullying and harassment are prohibited at school, during school related activities (whether on or off campus), on the school bus, at school bus stops, and through the use of computer or other electronic devices, which is known as cyberbullying. Cyberbullying and harassment are also prohibited through off campus social media , phone calls, or text messaging if such behavior disrupts the orderly environment of any district school or activity or interferes with the educational

opportunities of others.

If you engage in bullying or harassment, the consequences and appropriate disciplinary action may range from positive behavioral interventions up to and including suspension, reassignment to an alternative program, or expulsion. More severe or persistent infractions will result in more intensive interventions and administrative action. Additionally, the appropriate school administrator or designee will report to the victim's parents and the alleged offender's parents any alleged incident of bullying or harassment once an investigation of an incident has been initiated. Bullying should be reported to the appropriate school administrator or through the School District of Manatee County's anonymous reporting system. ~~(add reporting system with link)~~ Bullying reports can be made utilizing this school district website: https://www.manateeschools.net/page/report-bullying

Hazing

Hazing is defined as any action or situation that endangers the mental or physical health or safety of a student at a school with any of grades 6 through 12 for purposes of initiation or admission into or affiliation with any school-sanctioned organization. "Hazing" includes but is not limited to: (a) pressuring, coercing, or forcing a student to participate in illegal or dangerous behavior, or (b) any brutality of a physical nature, such as whipping, beating, branding, or exposure to the elements.

Dating Violence or Abuse

Teen dating violence is a pattern of emotional, verbal, sexual, or physical abuse used by one person in a current or past dating relationship to exert power and control over another when one or both of the partners is a teenager. Abuse may include insults, coercion, social sabotage, sexual harassment, stalking, threats and/or acts of physical or sexual abuse. Students, parents, or legal guardians are encouraged to report any act that may be dating violence and abuse anonymously or in-person to the principal or the principal's designee.

Threats Against Schools and Persons

Students who are involved in making a destructive device, fake destructive device, or planning the use of such a device, either at school, or at a school activity, or while at school or at a school activity, may be suspended for up to 10 days, recommended for reassignment or expulsion, and reported to law enforcement. The same actions will be taken if any threats are made against the school, school property, school personnel, or students, regardless of any disruption on campus or any school related function. This includes direct, veiled, or implied threats communicated verbally, in writing, or through social media platforms. Students who make any such threat will be referred to the school's threat management team. This team is charged with helping to ensure the safety of all persons at your school and will take steps that may include interviews with friends, teachers, staff, parents, or employees regarding any concerns. The threat management team is also responsible for making referrals for
mental health services and to law enforcement for continued investigation, if it is determined a student poses a concern or threat to the school or any member of the school community. Students are subject to school-based consequences for any threats communicated online or through the use of technology, regardless of the time, day, or location where the threat was made.

F.S. 1006.13

"Making a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity. District school boards may assign the student to a disciplinary program for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year

expulsion requirement on a case-by-case basis and request the district school board to modify the

requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. If a student committing any of the offenses in this subsection is a student who has a disability, the district school board shall comply with applicable State Board of Education rules."

Reporting Threats or Suspicious Activity

Students, parents, staff, or any individual may report threats, or any concerning behaviors exhibited by a member of the school community. All persons are strongly encouraged to be vigilant of potential signals, warning signs, threats, and should report concerns immediately. This is particularly true of online or social media posts. FortifyFL is an app specifically designed by the State of Florida to assist students and parents in reporting suspicious or concerning behavior which may be downloaded to mobile devices for immediate reporting.

NOTE:

If you make a threat or false report - to include a bomb threat, bomb threat hoax, or a knowingly false report concerning the use of a destructive device or firearm in a violent manner, as defined by F.S. 790.162 and 790.163, involving a school or school personnel's property, school transportation, or a school-sponsored activity, you may be expelled (with or without continuing education services) from your regular school for a period of not less than one full year, as well as referred for criminal prosecution and mental health services identified by the school district, pursuant to F.S. 1012.584 (4) for the evaluation or treatment, when appropriate (F.S. 1006.07(2)(l). The Superintendent may consider the expulsion requirement on a case-by-case basis and request the School Board to modify the requirement by assigning the student to a disciplinary program, if it is determined to be in the best interest of the student and the school system. Commission of either of these offenses is a second-degree felony, punishable by up to 15 years imprisonment and a $10,000 fine. The School Board must maintain a policy for all threats to commit violence or harm. Even threats made in jest or in exaggeration must be treated as serious and may subject the student to suspension, reassignment, or expulsion. This includes simulating realistic gunfire, explosions, or acts of violence using apps or other technology. If a student makes a threat of violence, the school administration will assess the situation and, where appropriate, take administrative action.

Reports to Law Enforcement Agencies

The School Board views disruptive and criminal acts, and those which may affect the health, safety and welfare of, or pose a legitimate threat to those on a school campus, as extremely serious in nature. In addition to disciplinary action administered at the school level, certain acts are expected to be reported to law enforcement as required by the State Attorney's Office. The actions of law enforcement do not dictate the corrective measure enforced by the school.

Limited Role of Law Enforcement

To help avoid the unnecessary criminalization of our students, law enforcement action should be limited to situations when it is necessary to protect the physical safety of students and staff or appropriate to address criminal activity. Law enforcement involvement should not be requested in a situation that can be safely and appropriately handled by a school's internal disciplinary procedures.

The Coach Aaron Feis School Guardian Program

Like law enforcement, school guardians hired through the Coach Aaron Feis School Guardian program in Manatee County are in place to help ensure the physical safety of our students, staff and school community. School guardians are not to be involved in student discipline matters unless it is a matter of safety. School guardians additionally have no authority to act in any law enforcement capacity, except to the extent necessary to prevent or abate an active assailant incident.

~~Self-Reporting Upon Initial Registration (FS 1006.67) (place in expulsion Section 7)~~ (moved to Section 7)

~~It is required that each student at the time of initial registration for school in the school district must note previous school expulsions, arrests resulting in a charge, juvenile justice actions, and any corresponding referral to mental health services by the school district, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board's code of student conduct, in accordance with the following procedures:~~

1. ~~A final order of expulsion shall be recorded in the records of the receiving school district.~~
2. ~~The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.~~
3. ~~The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived, and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. (State Statute 1006.07)~~

SECTION 6 | Student Discipline

~~The School District of Manatee County recognizes that a safe, orderly, and supportive learning environment is the result of caring relationships and quality instruction. It is the responsibility of the district to help foster such environments by implementing clear, appropriate, fair, and consistent expectations and consequences for all schools and classroom teachers to construct and carry out their behavior support plans. For these plans to be optimally effective, schools and classrooms must in turn, have the latitude to work within established guidelines to create positive behavior intervention systems which support the unique needs of their students, families, and communities. Our philosophy of discipline |in the~~ The School District of Manatee County is rooted in the development of positive relationships with our students and families. Discipline for Students with Disabilities (Section 504 and IDEA)

~~If a student is IDEA or Section 504 eligible they are expected to comply with the District Code of Student Conduct and school rules just like any other student. If they violate the District Code of Student Conduct or school rules, they are subject to discipline just like any other student. There are, however, some special rules in dealing with suspension, assignments to alternative programs and expulsions.~~

(Reworded section below)

The district is committed to complying with all federal and state laws governing the discipline of students with disabilities, including matters related to suspension, expulsion, and alternative placement. A student with a disability is defined as any Exceptional Student Education (ESE) student—excluding those identified as Gifted only—or any student with a Section 504 plan. Additionally, students who are suspected of having a disability are afforded protections under applicable laws.

While a student's disability must be considered and specific procedures followed in accordance with Section 504 and the

Individuals with Disabilities Education Act (IDEA), these students are still expected to adhere to the Code of Student Conduct. Their disability does not exempt them from behavioral expectations or consequences outlined in district policy.

English Language Learners

English Language Learners (ELLs) are not to be subjected to disciplinary action exclusively because of their use of a language other than English. ~~Nevertheless, the use of profanity in any language is not acceptable. All School District of Manatee County students, regardless of their ability to speak English, are governed by the Student Code of Conduct.~~

Administrative Investigations

School officials can question students who are suspected of violating the District Code of Student Conduct without first contacting the parent or guardian. Searches and Seizures

Lockers, vehicles, purses, backpacks, and other personal possessions may be searched if there is a reasonable suspicion that any of them contain drugs, weapons, contraband, or other items not permitted on campus. Students are expected to cooperate fully with the school administration in all searches and investigations. Failure to fully cooperate may be grounds for the school administration to infer that the student is in possession of contraband or illegal items and the matter will be referred to law enforcement as deemed necessary. Trained sniff screening dogs are allowed in the schools ~~to prevent drugs and weapons at school~~. Routine checks by the dogs are not considered a search; however, an alert by the dog gives reasonable suspicion for a search. Dogs may not check students ~~themselves~~ to determine probable cause for a search. The use of trained dogs is a safety precaution to provide students with a safe school in which to learn.

Drugs and Alcoholic Beverages

Use of a drug authorized by a medical prescription from a registered physician for a specific student shall not be considered a violation of this rule; however, all procedures found in the School District of Manatee County's medication policy must be followed.

If a student is charged with violently attacking another person somewhere else other than school, the student may be removed from the general education program and administratively assigned to another program. ~~if your principal believes your presence or campus may be disruptive or pose concern for the safety of the student or staff.~~

~~If a student commits violent or aggressive acts (such as fighting, bullying, threats, or physical aggression) in the same school year and while under the jurisdictional control of the school, the student may be placed on a Second Chance Agreement in addition to a referral to the school based problem solving team. To ensure that, when the physical disability of the student renders the student unable to get on and off the bus without assistance, the parent or guardian provides the necessary assistance to help the student get on and off at the bus stop, as required by district policy or the student's individual Educational Plan.

Parents are responsible for student behavior at the bus stop prior to the arrival of the bus in the morning and after the departure of the bus at the end of the day. If students violate school rules while at the bus stop, the school can still discipline for behavior if it has a harmful effect of the health, safety, or welfare of any member of the school community. ~~Students are to be at the bus stop ten (10) minutes prior to the scheduled pick-up time and should stand off the roadway.~~

Waiting for the Bus

Students are to be at the bus stop ten (10) minutes prior to the scheduled pick-up time and should stand off the roadway.The bus should come to a complete stop before students approach. To cross in front of the bus, the student should wait for the driver to signal or for the bus attendance to escort students across the street.

Items Not Allowed on the Bus

1. Any item prohibited elsewhere in the District Code of Student Conduct
2. Glass containers of any kind
3. Balls

11. ~~The only liquid allowed on the bus is water. Violation of this policy will result in a Level 1 consequence.~~

~~10.~~

Violation of Rules while on the Bus

A. Discipline on school buses will be addressed in accordance with the school districts' Code of Student Conduct.

~~A.~~ B. Students who commit infractions will be addressed by the ~~school~~ bus driver. If the behavior is a repeated problem on the bus, the driver will give the school a written discipline referral detailing the incident. School administrators may take disciplinary action ~~contained in this Code against you~~ for inappropriate behavior ~~misbehaving~~ at the bus stop or ~~on the bus stop (if the incident is witnessed by the bus driver) or~~ on a bus.

~~B. Discipline on school buses will be dealt with according to the following protocols; however, severe infractions (for example, fighting, setting a fire on the bus) may result in suspension or recommendation for expulsion based on the recommendation of the principal or designee.~~

~~C. Suspension from the school bus may be imposed only by the principal or designee by following the procedures for suspension from school. Bus suspensions may not be extended beyond the number of days originally prescribed by the principal or designee.~~

~~D. Students can be removed from the school bus by the Superintendent or designee for up to one calendar year for misconduct or a violation of the bus rules on a school bus or at a bus stop, based upon the recommendations of the principal and after the principal has suspended the student from riding the bus for 10 days for an incident. Before the Superintendent or designee removes the student from the bus, the student, parents or guardian will be informed in writing of the principal's recommendation and the basis for that recommendation. The Superintendent or designee will inform the parent or guardian in writing of any removals from the bus.~~

~~Only the principal or their designee may issue a bus suspension, using the same dueprocess steps required for a school suspension, and the suspension cannot exceed the original number of days assigned~~

C. Students may be removed from the school bus for up to one calendar year by the Superintendent or a designee if they commit serious misconduct or violate bus rules on the bus or at a bus stop. ~~This action can only occur after the principal recommends the removal and has already issued a 10day bus suspension for the same incident.~~ Before any long-term removal is made, the student and their parent or guardian will receive written notice explaining the principal's recommendation and the reasons for removal. ~~for it~~. The Superintendent or designee will then inform the parent or guardian in writing of any final decision to remove the student from the bus.

~~E.~~D. Students who transfer to a new school will be held responsible for any previous incident of bus misconduct from the previous school.

School Bus Suspensions

Students can be denied the privilege of riding a school bus by the principal or designee for up to 10 school days. Suspension from the school bus may be imposed only by the principal or designee by following the procedures for suspension from school.

~~Damage to Bus~~

~~If a student causes any damage to the bus or another vehicle, the parent or guardian will be required to pay for the damage.~~

Section 8 Discipline

The discipline matrix is a tool that helps ensure a consistent and progressive response to discipline across all SDMC schools. The term SESIR is found throughout the discipline matrix and is an acronym for School Environmental Safety Incident Reporting. These discipline incidents are defined by the state and reported to the Florida Department of Education on a monthly basis.

Principal Authority to Assign Alternative Consequences

A school principal or designee may assign additional consequences for behaviors as long as these consequences do not violate school board policy or state statutes. It is expected that parent contact is made any time an office referral is processed. School administrator or designee may assign a loss of privilege for any infraction.

Out-of-School Suspension

~~Students have the right to attend school and have an opportunity to learn. Students may lose that right if they violate the District Code of Student Conduct or school rules. Students lose the right to attend school by being suspended or expelled. Students can be suspended from school for up to ten (10) days at a time. If students are suspended, they cannot be on any Manatee School District property, nor can they attend any school activities.~~

~~If a student is suspended,~~ ~~the principal or their designee will be the one to process the referral after an investigation is completed. They will also meet with the student and speak with the parents or guardian. Suspensions can be appealed by following the procedures outlined in the "Review and Appeal of Discipline Referral or Consequence" section. Students are encouraged to remain current with all class assignments by reaching out to teachers by phone or email, accessing teacher websites and talking with fellow students to obtain classwork missed.~~

Students may be suspended from school by the principal or their designee following an investigation. Suspended students are not permitted on any school campus, or to attend any school-related activities, during their suspension. It is the student's responsibility to remain current with all class assignments by

reaching out to teachers by phone or email, accessing teacher websites, and talking with fellow students to obtain classwork missed. Suspensions can be appealed by following the procedures outlined in the "Review and Appeal Discipline Referral or Consequence" section. (note page number)

(Reworded)

Suspended students are not permitted to be on any District school campus or to participate in any school-sponsored or school-related activities for the duration of their suspension. During this time, students are expected to remain current with all academic responsibilities. It is the student's duty to obtain and complete missed classwork by contacting teachers through phone or email, accessing teacher websites or learning platforms, and communicating with classmates as needed.

A suspension may be appealed by following the procedures outlined in the Review and Appeal of a Discipline Referral or Consequence section of this Code of Conduct.

Review and Appeal of Discipline Referral or Consequence

Per F.S.S. 1006.09, ~~A~~a student or parent/guardian may appeal a discipline referral or consequence by contacting their school administrator in writing, requesting a review of the disciplinary event. The school principal or their designee will meet with the parent/guardian, hear their concerns, review the disciplinary event
or consequence, and respond to the parent/guardian. The decision of the school principal is final. The appeal will not delay the enforcement of the consequences.

Disciplinary Reassignment

The School District of Manatee County offers an alternative program for students who struggle with behavioral issues in their current setting or create a concern for the safety of others. Pursuant to School Board policy, the Superintendent ~~of Schools~~ or designee may ~~decide to~~ reassign students, if it is determined to be in the students' best interest, or the best interest of the school. If a student's actions create a concern for the safety and welfare of any student or staff member or substantially interferes with the safe and orderly operation of a school, students are eligible for reassignment to an alternative program under the School reassignment process, regardless of any current or past patterns of behaviors. Being charged with an off-campus criminal act by law enforcement, which creates a concern for the safety and welfare of students or staff, or which substantiates a pattern of unsafe behavior may result in a recommendation to the district reassignment committee, per F.S. 1006.09, 1006.147, and 1006.13.

Students assigned to an alternative program for disciplinary reasons cannot be present on any other Manatee School District property at any time. Students reassigned to an alternative program for disciplinary reasons may choose to attend another school outside of the district.

Procedures for Appeal of Alternative School Placement

A parent/guardian may appeal the alternative school placement by contacting ~~in writing~~ the Director of Student Services or their designee ~~Executive Director~~ in writing with their request. All reassignment appeals shall be submitted to the Deputy Superintendent, who will conduct the appeal review or designate a senior administrator to conduct the appeal review.~~The Executive Director of Student Support and Engagement~~ The review will include the student's disciplinary history, the incident resulting in the alternative placement, and the committee's decision~~,~~. ~~and t~~The outcome will be communicated to the requesting family. ~~will review the disciplinary history, the event resulting in the alternative placement, the committee decision and will communicate the outcome with the requesting family.~~

Felony Arrests

The principal will review information about the arrest with district administration to determine~~,~~ whether the student may~~should~~ be suspended from school and ~~all~~ extracurricular activities or ~~and possibly suspended from~~
~~school or~~ reassigned to an alternative placement. ~~Students who are arrested for a violent event or an event involving a weapon may be alternatively placed.~~

~~Extension of Ten-Day Suspension~~

~~If the principal or designee suspends a student for 10 days, the Superintendent may extend the suspension until the outcome of the criminal charges have been filed. During the suspension, pending the outcome of~~

~~the criminal charges, the student may be assigned to an alternative educational program.~~

Self-Reporting Upon Initial Registration (FS 1006.07) (moved from Section 3)

It is required that each student at the time of initial registration for school in the school district must note previous school expulsions, arrests resulting in a charge, juvenile justice actions, and any corresponding referral to mental health services by the school district, and have the authority as the district school board of a receiving school district to honor the final order of expulsion or dismissal of a student by any in-state or out-of-state public district school board or private school, or lab school, for an act which would have been grounds for expulsion according to the receiving district school board's code of student conduct, in accordance with the following procedures:

1. A final order of expulsion shall be recorded in the records of the receiving school district.
2. The expelled student applying for admission to the receiving school district shall be advised of the final order of expulsion.
3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived, and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. (State Statute 1006.07)

Expulsion

The principal or the principal's designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal's designated representative on the alternative measures taken prior to the recommendation of expulsion. The School Board may, instead of an expulsion, assign a student to a school or an alternative program other than the student's zoned school when the recommendation of expulsion is a mandatory consequence for the violation of the Student Conduct and Discipline Code. (Florida Statute 1006.09)

1. The principal or designee will complete the investigation, write the office referral (Event and Discipline Report), assign a 10 day, out of school suspension and notify the parents of the incident and suspension.
2. The principal or designee will communicate with the parent/guardian during the 10-day suspension and notify them of the recommendation for expulsion and the rational for the requested expulsion.
3. The principal or designee will compile all relevant investigation documents, a detailed description of the incident leading to the recommendation for expulsion, prior intervention utilized, current year behavior, academic, and attendance records and relevant 504 or IEP documents along with the request for expulsion form to be submitted to the Superintendent or designee.
4. The district expulsion committee will review the documentation provided and will confirm the hearing date with the principal or designee and the parent/guardian.
5. The parent/guardian and student have the right to participate in the formal hearing and to be represented by legal counsel or any other qualified person during the hearing.
6. The hearing officer will recommend any penalty they deem appropriate to the facts of the case. The recommendation will be voted on by the School Board who may impose any outcome they deem appropriate. The School Board's decision is final.

Students may be suspended for the remainder of the current academic year and the following academic year. During the expulsion, students may not be on any school board campus, property or establishment or within 1,000 feet of a school or a school bus stop.

Florida Statute 1006.08 permits the Superintendent to extend a suspension beyond ten school days if such suspension expiries before the next regular or special school board meeting following the ten day of a suspension if the student is being recommended for expulsion. Alternatively, the Superintendent or the superintendent's designee may assign a student to the district alternative school or other alternative program pending the completion of any expulsion hearing and entry of any final order of expulsion by the School Board.

Enrollment of Students Who Have Been Expelled, Dismissed, or

Re-assigned from Other Schools Districts

Students enrolling in the School District of Manatee County who have been expelled, dismissed, or reassigned from another school must disclose that information when registering at their districted school (F.S. 1006.67). The School District of Manatee County will evaluate all information provided and will uphold the placement from the originating institution in alignment with the Code of Student Conduct.

Criminal Victimization

In accordance with F.S. 1006.13, students who are found to have committed certain felony offenses against another student are prohibited from attending the same school or riding the same school bus with the victim or the victim's siblings. According to F.S. 1006.13(5), "The offender, or the parents of the offender if the offender is a juvenile, shall arrange and pay for transportation associated with or required by the offender's attending another school or that would be required as a consequence of the prohibition against riding on a school bus on which the victim or a sibling of the victim is riding. However, the offender or the parents of the offender may not be charged for existing modes of transportation that can be used by the offender at no additional cost to the District School Board."

Corporal Punishment

The use of corporal punishment is prohibited. This prohibition extends to parents or guardians on school grounds.

Section 10

Crisis Protocol

Providing a safe and secure environment for our students to learn is the top priority of the School District of Manatee County. Measures have been taken to ensure our staff and students are prepared in the event a crisis situation occurs in one of our schools. A comprehensive ~~Crisis~~ All- Hazards Emergency -Management Plan for each school has been created to guide our staff through a wide variety of situations. Fire drills, tornado drills, lock-down drills and shelter-in-place drills are practiced at each site to ensure routines and safety procedures are well established and familiar to all.

In a shelter-in-place, all school doors will be locked, and regular classroom instruction continues behind the locked doors. In a lock-down, all school doors are locked, and all student and staff are out of view. Classroom instruction is discontinued.

What parents need to know during either crisis:
Please DO expect to be notified with a special parent advisory sent home from the school and/or with a telephone message from our telephone notification service when the school is able to provide accurate information and/or the incident is resolved.

a. ~~Please DO~~ Cc~~o~~operate with school and/or district directives.
b. ~~Please DO~~ Cc~~o~~nsult local media for regular updates about the incident. Listen for information updates on local radio and television stations. You may be directed to an off-campus parent staging area for the latest information regarding a campus crisis.
c. ~~Please~~ DO NOT call the school because phone lines will be needed for emergency communication.
d. ~~Please~~ DO NOT call your child's cell phone because cell phones are not to be used during a crisis.
e. ~~Please~~ DO NOT go to the school if a crisis situation should occur. Roads are closed, doors are locked, and campuses are off-limits to anyone other than authorized personnel.

Pursuant to F.S. 120.54, in the event of an emergency, the Superintendent or the School Board can enact additional rules governing student conduct which shall be enforced as included in this Code of Student Conduct.

Unannounced Lockdown~~Lock-down~~ Drills

~~This principal may conduct unannounced lockdown drills from time to time and will inform parents after the fact about the drill by way of automated telephone calls.~~Per state statute F.S.S 1006.07, schools will conduct unannounced lockdown drills.

Student and Family Reunification Plan

In case of a school emergency or natural disaster, students need to be aware of their school's plan for releasing them. First and foremost, remain calm. Remember, it is our primary concern that students remain safe at all times, and there is a plan for an orderly dismissal and release of our students. When parents and guardians learn their student's school is in a lockdown situation or any other emergency situation, do not call the school and do not come to the school. Staff will be very busy during an emergency and will not be able to attend to the safety of students if they have to answer phone calls. If parents come to the school during an emergency, in all likelihood, parents will not be allowed into the school or even into the inner perimeter set up by emergency responders. The presence of hundreds of parents showing up on the scene will hinder the efforts of emergency responders, which in turn may jeopardize the safety of students. Instead, if the situation warrants the release of students, district notification to listed emergency contact numbers as well as the use of local new medica will provide instructions on when and where to release will take place. Students may be bused to an off-site location for their release to parents or guardians.

Once the "all clear" is given at the school, and if there is a need to release students for the day, the Student and Family Reunification Plan will be put into place. For the safety of every child, it must be documented to whom each child is released. Students will only be released to a parent, guardian, or childcare personnel as designated on student's school contact, medical and emergency form. When arriving to the facility where students will be released, proceed to the designated area and plan to do the following:

- Fill out a Student Release Form.
- Present photo identification.
- Move to the student release are and wait for your child
- A runner will go to the assembly area, get the students, and bring them back to the release are. Be prepared to show ID again.
- Sign for the student and depart.

Reminder: Students will be released only to those listed on the Contact, Medical, and Emergency Form. It is therefore imperative that parents and guardian keep information on each child's Contact, Medical, and Emergency Form up to date, including cell phone numbers and other emergency contact information. Please note that if for any reason a student is not picked up, he or she will be placed in an alternative place of safety. These procedures should be shared with everyone listed on the Contact, Medical, and Emergency Form so that they are familiar with the plan and these concerns. If there are any questions about the Student and Family Reunification Plan, contact your student's school principal.

~~Parental Rights and Responsibilities~~(moved and summarized in Section 1)

~~Parental Rights~~

- ~~To be treated fairly and respectfully by school administration, teachers, and staff.~~
- ~~To be notified promptly if your child is disciplined for inappropriate behavior and the consequences for those actions.~~
- ~~To appeal disciplinary actions.~~
- ~~To receive pertinent, accurate, and timely information about your child's academic progress.~~

~~Parental Responsibilities~~

- ~~Communicate respectively with school personnel~~
- ~~To access information about the school board's policies and procedures.~~
- ~~To provide your child's school with updated emergency contact information to include your address.~~

Parents must formally submit the request in writing and the principal or designee shall approve or deny the transfer within 2 weeks after receiving such a request. This provision does not give parents the right to choose a specific classroom teacher.~~

~~Curricula and Instructional Materials~~

~~In accordance with 1006.28(2)(a) and 1002.20(19)(b), F.S. and School Board Policy 2520, parents have the right to learn about their minor child's course of study, to include the source of any supplemental instructional materials. Notification of Student Social Security Number Collection and Usage

In compliance with Florida Statute 119.07(5), this statement provides notification of the purpose for the collection and usage of student social security numbers by the School District of Manatee County. According to F.S. 1008.386, when a student enrolls in a public school in this state, the district school board shall requests that the student provide his or her social security number and shall indicate whether the student identification number assigned to the student is a social security number. However, a student is not required to provide his or her social security number as a condition for enrollment or graduation. A student satisfies this requirement by presenting to school enrollment officials his or her social security card or a copy of the card. The Department of Education shall establish a process for assigning a Florida student identification number to each student in the state, at which time a school district may not use social security numbers as student identification numbers in its management information systems. The Commissioner of Education shall assist school districts with the assignment of student identification numbers to avoid duplication of any student identification number.

The student is required to follow the District's published school rules and/or the Code of Student Conduct. Violation of District published rules and/or the Code of Student Conduct may result in the student being assigned to another School District of Manatee County school selected by the superintendent or the superintendent's designee.

If a student is attending a charter school or a school out of your assigned area under the School Choice Program, students may be suspended, expelled or reassigned during the school year as provided in this Code. Service Animals

Subject to specific guidelines, certification, and authorization by the School District of Manatee County, students with disabilities or other medical issues are permitted to have service animals accompany them during the school day. Service animals are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind, alerting people who are deaf, alerting people to the presence of potentially deadly food allergens, pulling a wheelchair, alerting and protecting a person who is having a seizure, reminding a person with a mental illness to take prescribed medication, calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack, or performing other duties. Please contact your school administration for initiating the process of using a service animal in any Manatee County school. (S. B. 8390)

Military Transfers

Priority is given to the dependent child of active-duty military personnel transferring to the School District of Manatee County. Military transfer priority is granted only at the time of the initial military transfer to the district and does not apply to future county-wide program application periods. By state law, dependent children of active-duty military personnel transferring into the district are given first priority for placement at the time of their initial transfer. Students who participated in a special program and/or extracurricular activities at their transferring schools will be given priority access to the same programs and/or extracurricular activities when available (F.S. 1003.05).

Notification of Availability of School Public Accountability Report

The annual school public accountability report is available online through the Florida Department of Education. Please visit the site and select Manatee County, then the appropriate school.

Video Surveillance on School District Property

In order to maintain a safe environment for students, staff, and the public, and to control vandalism and criminal activity on School District property, the district has installed and will utilize video surveillance systems on School District property, including school buses. Any activities recorded on the video cameras may be used for school discipline or for law enforcement purposes. Federal and state law governs disclosure and use of video material, and such material could become part of a student's record. Requests for school videos are exempt under Florida Statute as well as FERPA -34 CFR s 99.12, unless under a subpoena.

Public Notices with Parent Opt-Out Provisions

Directory Information/Photographs/Publications

FERPA also requires that the School District, with certain exceptions, obtain written parental consent prior to the disclosure of personally identifiable information from a child's education records. However, the School District may disclose appropriate designated "directory information" without written consent, unless the parent has advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the School District to include this type of information from a child's education records in certain school publications. Examples include:

- A playbill, showing a student's role in a drama production.
- The annual yearbook.
- Honor roll or other recognition lists.
- Graduation programs
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks and law enforcement agencies. If parents do not want the School District to disclose directory information from their child's education records without prior written consent, they must notify the district in writing by September 15th of each year or within 30 days or receiving this annual notice. The School District has designated the following information as directory information:

- Student's name
- Electronic mail address
- Photograph or other likeness (with parental consent)
- Date and place of birth
- Major field of study
- Date of attendance
- Grade level
- Participation in officially recognized activities and sports
- HWeight and wheight of athletic team members
- Degrees, honors, and awards received
- The most recent school attended

Note: Objecting to the release of directory information may results in ~~your~~a student's name~~s~~, photograph, and other directory information being excluded from yearbooks, sports programs, and other school publications. Both parents have a right to see the school records of their child unless there is a certified copy of a court ~~offer~~order on file at the school that specifically denies the right to access school records. Copies of school records are available for a minimal copying charge. If you have any questions about these rights, please contact the school office.

Military Opt-Out Procedures

Under federal law, military recruiters are entitled, upon request, to a list of names, addresses, and telephone numbers of high school students unless parents/guardians object to such release. Students or parents must notify the principal in writing if they do not want their name, address, and telephone number released to military recruiters without prior written parent consent. This written notification may be submitted at any time and the School District will honor the objection from that point forward unless the student otherwise provides written notification to the principal. A military opt-out form is available on the district website: www.manateeschools.net. Students may also request a copy of the form at the school's main office.

Higher Education Opt-Out Procedures

Under federal law, institutions of higher learning are entitled, upon request, to a list of names, addresses, and telephone numbers of high school students, unless parents/guardians ~~student~~ object to such release. Students or parents must notify the school principal in writing if they do not want their names, address, and telephone number released to institutions of higher learning without prior written parental consent. This written notification may be submitted at any time and the School District will honor the
objection from that point forward unless otherwise provided with written notification to the principal.

General Information (K-12)

I. Admission and Enrollment

To enroll a student in school in the School District of Manatee County (SDMC), the parent must have physical custody of the student at least 50% of the time and certify that fact on the enrollment form. The address of the enrolling parent will be used for purposes of pupil assignment to a school. If parents are separated or divorced, the student will not change schools when the student stays with the non-enrolling parent, unless there has been a documented change in custody.

For the purpose of this policy, the term "parent" is defined as either or both biological or adoptive parents of a student, or any legal guardian of a student. The term "legal guardian" includes any guardian established by court order or a guardian-in-fact established by the filing of a proper Guardianship Affidavit with the District.

Stepparents have no legal rights regarding enrollment and school activities, unless guardianship to act on behalf of the spouse is established. A "change in custody" occurs when a child who was living with the enrolling parent at least 50% of the time no longer lives with the enrolling parent at least 50% of the time. The enrolling parent will not be changed unless both parents agree, changes to the parenting plan or other legal documentation is presented expressly directing this change and/or there is a change of address outside of the zoned school boundary.

First Enrollment

Prior to the student's first day, the school must have received the documentation detailed below as required by Section 1003.21, Florida Statutes. Enrollment at Manatee schools may be completed at the zoned school via parent kiosk or from the SDMC website (https://www.manateeschools.net/registration).

Students may only be released from school to those who are listed in the Pick-Up/Emergency Contact list completed during registration. The enrolling parent is responsible for notifying the school of any updates or changes to the information given during registration.

For students who are experiencing homelessness and do not have access to the required documents, please see the general information section 4.9 Homeless Students on page 12.

Florida Statute 1003.21 requires a child be five (5) years old on or before September 1st. Parents who provide a passport for proof of age must also provide documentation of proof of parentage, proof of legal custody and/or guardianship, or any other evidence that one is a parent as that term is defined under F.S. 1000.21(6). In the event that such documentation is not available, the person registering the child must present, at the time of registration, an affidavit sworn to by the parent, that he/she is the parent, legal guardian, or otherwise as defined by the statute above.

1. Verification of Age - One of the following documents must be provided:
    - An original or certified copy of child's birth certificate

- A certificate of baptism, accompanied by parent's affidavit
- An insurance policy
- An original or certified copy of a religious ceremony certificate, accompanied by Parent's Affidavit

4. Academic History

The School District of Manatee County strongly encourages the enrolling parent to provide copies of any special education records (such as IEP) that might assist in placement of students in the appropriate classes:

a. Last report card
b. Withdrawal Form
c. Proof of attendance and successful completion of kindergarten for a 1st grader who attended a private kindergarten for a full year

f. Students that have reached the age of 7 or above who do not have proof of prior education via homeschool, private or traditional school transcripts will be placed at an age-appropriate grade level.

Entry from Home Education

Students who are participating in a home education program may be admitted to SDMC on a full-time or part-time basis. The student seeking entry must meet the same registration requirements as full-time students [F.S. 1002.41]. Students transferring to SDMC from home education as full-time students must have documentation to verify academic history in the form of a transcript, annual evaluation, or portfolio as outlined in section 1002.41 F.S. Home education students must register for all courses prior to the start of the semester they will attend. Home education students who are excluded from a class because the course is not offered or due to space limitations at their zoned school may be assigned to another school if there is available space.

The school principal will establish the time and place for arrival and departure of home education students. SDMC is not responsible for the transportation of students in a home education program to or from the school. Students who attend on a part-time basis are subject to all applicable rules and regulations pertaining to full-time students. Students who are participating in a home education program may participate in extracurricular activities. Participation is on a space available basis, and students must meet the same registration requirements as full-time students [F.S. 1002.20(18)(b)].

Personalized Education Program (PEP) and Private Pay Option

Students receiving a Personalized Education Program (PEP) scholarship and other students not attending public school who wish to take courses in an SDMC school may enroll if the student contracts for classes on a private pay basis. Procedures will be available on the SDMC website for the 2026-2027 school year. Participation is on a space available basis, and students must meet the same registration requirements as full-time students.

Over-Age Students Who Interrupt Their Education

The following procedures are to serve as a guide for appropriate placement. The final decision will be made by the school principal of the regular school and the Supervisor of Alternative Education.

1. Except as provided in (4), (5), (6), and (7) below, a student seventeen years of age or older who has interrupted his or her high school education for more than a 9-week grading period and who subsequently desires to enroll in Manatee County Public Schools may enroll in county adult programs or alternative programs. The student may not enroll in a regular high school except in extenuating circumstances approved by the principal of the regular school and the Supervisor of Alternative Education. The principal will determine if enrollment is appropriate. Parents of students who are not enrolled may appeal the principal's decision to the Executive Director of Secondary Education.

2. Except as provided in (4), (5), and (6) below, students may not enroll in or continue in a regular high school for more than eight semesters, unless the principal approves the enrollment beyond eight semesters. The principal will consider the reason the student wants to continue high school, the educational progress to date, and the student's commitment to education. If the principal does not approve enrollment in the regular high school beyond the eight semesters, the student may enroll in county adult programs or alternative programs. The semester count begins the first semester a student enrolled in ninth grade at any public or private school.

3. Except as provided in (4) below, students may not enroll in or continue in a regular high school if they cannot earn the number of required credits to graduate by their 20th birthday. The student may enroll in county adult programs or alternative programs.

4. For students with disabilities who have not graduated with a Standard Diploma, the district will provide services until the end of the school year in which the student turns 22 years old, providing that the student was 21 years old on the first day of school.

5. English Language Learners (ELL) who have completed the credits required for graduation and who have failed to meet the 10th grade standards as measured by the required state assessments shall be eligible for compensatory education for "a thirteenth year" as provided in Section 1003.433.F.S. Students who have an ELL Entry Date of two or fewer years may be eligible for the Alternate Pathway for ELLs to meet the ELA graduation requirement (1003.433(3), F.S.).

6. If a foreign-born ELL student without records enters school, the student must be placed age appropriately (14= 9th grade, 15= 9th or 10th grade, 16=10th grade, and 17=11th grade), and the Uniform Transfer Records Guideline Verification Process must be followed.

7. Per the State of Florida Consent Decree and the Office of Civil Rights, no student may be denied enrollment in the regular high school program on the basis of refugee status or limited English proficiency. Students who qualify for ELL services must be placed age appropriately if no official transcript is available.

8. Students who enter without records are eligible for the verification process as defined in the Uniform Transfer of Records Guidelines.

School Choice Options

The School Choice Program shall provide an opportunity for all students in Manatee County to apply for assignment to any district school. Approval of School Choice applications will be by school, program, and building capacities as well as the Board's goal of maintaining a student population at every district school which reflects the district's overall socio-economic distribution of population.

Applications to participate in the Voluntary School Choice Controlled Open Enrollment Program shall be available at all school sites via the parent kiosk and through the parent portal and the Office of Student Assignment during the School Choice Open Enrollment period. This application shall be completed by the student's enrolling parent and submitted to the designated office prior to the close of the School Choice Open Enrollment period. Choice applications may be denied for SDMC students that are not in good standing due to severe attendance issues or disciplinary referrals. Students who have been approved through the Controlled Open Enrollment process to attend a school out of their assigned area will be governed by the following rules:

1. High school athletic eligibility at the Choice school will be determined according to the provisions of the Florida High School Athletic Association (FHSAA). If there is a question regarding the eligibility of any student, FHSAA procedures shall be followed.

2. Students receiving School Choice are approved through the completion of the highest grade level at that school. The Choice school, therefore, becomes the student's assigned district attendance school.

However, the principal may recommend that the student be withdrawn and returned to his/her home zoned school for severe attendance or disciplinary issues. The principal's recommendation for revocation during the school year (end of 1st semester and end of school year) is subject to review by the District Administrative Appeals Committee The principal's recommendation for immediate revocation for extreme cases is subject to review by the district Child Study Team for recommendation.

3. Students who are approved for Choice are expected to continue in attendance at the Choice school throughout at least one school year and may then apply for a different school, including their original boundary assigned school, but only through application during the School Choice Open Enrollment period.

4. Other School Choice options include: An appeal process for Hardship Transfers, Home Education, Manatee County Virtual Programs, and Enrollment in Charter Schools.

5. Students can only be in attendance at one school as assigned by the Office of Student Assignment other than being enrolled in a virtual or home school program.

Homeless Students

Homeless students are children and youth who lack a fixed, regular, and adequate nighttime residence and include children who are:

1. Sharing the housing of others due to loss of housing, economic hardship, or a similar reason;
2. Living in motels, hotels, travel trailer parks, or camping grounds due to the lack of alternative accommodations;
3. Living in emergency or transitional shelters or abandoned in hospitals;
4. Sleeping in a place that is not ordinarily used as a sleeping place for human beings;
5. Living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
6. Migrant and living in one of the above.

Homeless children and youth shall be immediately enrolled even if the student is unable to provide documents that are typically required for enrollment, such as previous academic records, records of immunization and other health records, proof of residency, or other documentation. Enrollment means permitting the student to attend classes and participate fully in school activities. Although the McKinney Vento Act is silent on the definition of "immediate", the standard dictionary definition is "without delay"; therefore, the student must begin attending classes and participating fully in school activities without delay. Generally, that would mean the same or the following day. Families claiming to be homeless and needing enrollment assistance should be referred to Project HEART Homeless Education Program, and the family will be provided with a residency letter for proof of residency.

Homeless children and youth shall be immediately enrolled even if students are unable to produce immunization or other required health records, recognizing that families and youth who are homeless are

frequently unable to obtain and keep copies of records. The vast majority of homeless students have been enrolled in school before and have had required immunizations. These records should be a part of their school records. Since the enrolling school is required to contact the previous school for records, the information should be available quickly. The enrolling school and the District Homeless Liaison should work together to get immunization records as soon as possible. If a student has not had immunizations, initial doses should be administered as soon as possible. Families claiming to be homeless and needing to enroll without immunization records and/or a physical examination should be referred to Project HEART Homeless Education Program, and the family will be provided with a 30-school day waiver to help them acquire the necessary documentation for their records.

Unaccompanied children and youths not in the physical custody of a parent and living in homeless situations are defined as unaccompanied homeless students. Unaccompanied homeless students have the right to self-enroll and should be referred to Project HEART Homeless Education Program for enrollment assistance and other services.

When it is in the student's best interest and it is the wish of the parent, or it is the wish of an unaccompanied youth, homeless students can continue to attend the school of origin. The school of origin means the school that the student attended when permanently housed or the school in which the student was last enrolled. Formerly homeless students can also continue at the school of origin for the remainder of the school year in which they obtain permanent housing.

If the District Homeless Liaison assigns a homeless student to a school other than the school of origin, a written explanation must be provided to the parent, including the right to appeal the decision.

If there is a dispute regarding school selection or enrollment, the student shall be immediately admitted to the school of origin or assigned zone school as requested by the parent and transportation provided to and from the school of origin, pending resolution of the dispute.

The case must be referred to Project HEART Homeless Education Program to ensure the resolution process is carried out as quickly as possible. Project HEART Homeless Education Program will convene a review committee including a representative from the transportation department and the Superintendent's designee.

Parents may appeal an unfavorable decision to the Supervisor of Student Assignment. The decision of the Supervisor of Student Assignment may be appealed to the Superintendent who is vested with the authority to place students in the school which is in their best interest. The Superintendent will render the final local decision concerning school placement. Parents have the right to appeal to the Florida Department of Education.

Transportation will be provided for a homeless student to and from the school of origin for the remainder of the school year. Homeless students needing transportation assistance to school of origin should be referred to Project HEART Homeless Education Program.

Transfer Students from Out of Country

Students who transfer to a School District of Manatee County site without records should be placed age appropriately. The student's age on September 1 of the school year in which enrollment occurs should be used

to determine "age" at entry. Coordination with the school-based ELL Committee is recommended to assist in course placement for such students. Students cannot be denied access to free and appropriate education due to lack of academic records. If an out-of-country student without records enters school, the student must be placed age appropriately, and the Uniform Transfer of Records Guideline Verification Process must be followed.

Students who indicate "yes" on the Home Language Survey during enrollment must be assessed for language proficiency within the first 20 days of enrollment. Students eligible for English Language Learner (ELL) services are entitled to equal access to programs, such as early childhood, vocational, and adult education programs. ELL students should not be restricted for reasons related to limited English proficiency. Students must receive understandable instruction, not necessarily in their native language.

State Uniform Transfer of Credit Guidelines for Middle School

The procedures relating to the acceptance of transfer work and courses for students entering Florida's public schools composed of middle grades 6, 7, and 8 from out of state or out of country are as follows:

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value, subject to validation if required by the receiving school's accreditation. If validation of the official transcript is deemed necessary, or if the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period as outlined in subsection (2) of this rule.

2. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should be passing each required course at the end of the first grading period. Students who do not meet this requirement shall have courses validated using the Alternative Validation Procedure, as outlined below.

3. Alternative Validation Procedure:

   If validation based on performance as described above is not satisfactory, then any one of the following alternatives identified in the district's Student Progression Plan shall be used for validation purposes as determined by the teacher, principal, and parent.

   a. Portfolio evaluation by the principal or designee, including samples of course work, subject area assessments, and standardized tests to show mastery of the standards for the course;

   b. Demonstrated performance in courses taken at other public or private accredited schools;

   c. Demonstrated proficiency on nationally-normed standardized subject area assessments;

   d. Demonstrated proficiency on the required state assessment; or

   e. Written review of the criteria utilized for a given subject provided by the former school.

State Uniform Transfer of Credit Guidelines for High School Credit Courses

The guidelines for students transferring from out-of-state or out-of-country, including ELLs, into a Florida public school are as follows:

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value. Credits for courses requiring an EOC will be accepted based on state statute.

If validation of the official transcript is deemed necessary, or the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should earn a grade of "C" or better at the end of the first grading period in that course. Students must be provided at least 90 days from date of transfer to prepare for assessment, if required. Students who are not validated based on the performance requirement shall have courses validated using the Alternative Validation Procedure as described below:

a. Portfolio evaluation by the principal or designee, including samples of course work, subject area assessments, and standardized tests to show mastery of the standards for the course

b. Demonstrated performance in courses taken at other public or private accredited schools;

c. Demonstrated proficiency on nationally-normed standardized subject area assessments;

d. Demonstrated proficiency on the required state assessments or other required state assessment; or

e. Written review of the criteria utilized for a given subject provided by the former school.

Homeschool transfer student(s) must enter by the first semester of their 11th grade year to be included in class rank.

1. Students who enter a Florida public school at the 11th or 12th grade from out-of-state or from a foreign country shall not be required to spend additional time in a Florida public school in order to meet the high school course requirements if the student has met all requirements of the school district, state, or country from which they are transferring. However, to receive a Standard High School Diploma, a transfer student must earn a 2.0 grade point average and pass the required state assessment(s) or an approved alternative assessment. The approved alternative assessments are the PSAT, ACT, SAT, and CLT.

2. Transferring students who are not proficient in English should receive immediate and intensive instruction in English language acquisition.

3. A dependent child of a member of the United States Armed Forces who enters a public school at the 12th grade level from out of state or from a foreign country and provides satisfactory proof of attaining a score on an approved alternative assessment that is concordant to a passing score on the required state assessment(s) has satisfied the assessment requirement for a Standard High School Diploma. In lieu of testing requirements for graduation in a school of the receiving state, states shall accept exit or end-of-course exams required for graduation from a school in the sending state or national norm-referenced achievement tests or alternative testing.

II. Withdrawals

Withdrawal to a School Outside of the District

Parents withdrawing a student from a School District of Manatee County site to another school district must complete a withdrawal form at the school. This form is a record of the student's grades up to the last date of attendance. All books must be returned and any fines resolved prior to withdrawal.

The enrolling school will request official records. The registrar will scan the withdrawal form and any remaining hardcopy documents into Scribbles and direct the enrolling school to the Records Management website to request official records.

Withdrawal to a School within the District

Parents withdrawing a student from a School District of Manatee County site to another School District of Manatee County school must complete a withdrawal form at the school.

This form is a record of the student's grades up to the last date of attendance. All books must be returned and any fines resolved prior to withdrawal.

The enrolling school will request official records. The withdrawing registrar will scan the withdrawal form and any remaining hardcopy documents into Scribbles and advise the receiving registrar once complete. The enrolling registrar will submit a service desk ticket via the SSO to have the student transferred to their school in Scribbles.

III. Reporting and Notification

4. information on the total number of third grade students who were promoted or placed for good cause by each category of good cause
5. any revisions to the district's policy on student retention and promotion from the prior year.

The Instructional Services departments have the responsibility to ensure this information is printed prior to September 1st each year.

Allocation of Resources

Remedial and supplemental instructional resources must be allocated and spending prioritized as follows:

1. First, to VPK students who have a substantial deficiency in early literacy or early mathematics skills and students in grades K- 3 who have a substantial deficiency in reading or the characteristics of dyslexia and to students in grades K-4 who have a substantial deficiency in mathematics or the characteristics of dyscalculia.

2. Second, to students who score below grade level on required state assessments, including:

    a. Students in grades 3-10 who score Level 1 or 2 on required state assessments in English Language Arts (ELA) or mathematics or who fail the End of Course (EOC) Exam;

    b. Students in grades 11-12 who do not meet the required state assessments or EOC graduation requirement in English Language Arts (ELA) or mathematics.

3. Third, to students who failed to meet the performance levels required for promotion.

Participation in District and State Assessments

All students in grades Pre-K through 12 must participate in Florida's statewide assessments and progress monitoring system as required by Florida Statute. District progress monitoring assessments are also administered to K-12 students at intervals throughout the year. Schools will participate in assessments for learning as indicated in the District Assessment Schedule.

Reporting to Parents:

The district will provide student's results on state assessments and district-required local assessments to the student and his/her parent within 1 week of those results being received by the district. The student's progress toward achieving state and district requirements for proficiency in core academic subject areas shall be reported quarterly by the district school board to each student and his/her parents. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments and other relevant information.

All written and oral communication between school district personnel and parents of current or former English Language Learners shall be in the parents' primary language or other mode of communication commonly used by the parents, unless clearly not feasible (6A-6.0904).

Report Card

The report card must clearly depict the following:

1. The student's academic performance on grade level in each class or course, which in grades K through 12 must be based upon achievement of the State Standards as evidenced by class work, tests, and other academic performance indicators;

2. The student's citizenship and behavior. Citizenship marks are "E, S, N, U (E-Excellent, S-Satisfactory, N-Needs Improvement, U- Unsatisfactory) for kindergarten, first, and second grade and E, S, I, N, U (E-

The end-of-the-year report card must indicate promoted, retained, or placed for good cause.

Each English Language Learner receiving English for Speakers of Other Languages (ESOL) services is graded based on his/her academic progress at his/her level of English proficiency using ACCESS 2.0 for ELLs assessment results. The teacher must document that accommodations and strategies of instruction and assessment were employed, which allowed the student to demonstrate progress in the achievement of the benchmarks and grade-level expectations. A grade of "Unsatisfactory," "D," or "F" may only be assigned to an English Language Learner receiving ELL services if he/she received appropriate accommodations and strategies in instruction and assessment, and the student demonstrated no progress toward achieving the standards and grade-level expectations at his/her level of English proficiency. These adaptations and strategies must be documented in teacher lesson plans. School administrators in charge of teacher evaluation are responsible for ensuring that teachers are adapting instruction and assessment to provide comprehensive instruction to ELL students.

A student with a disability who is taking standardized state assessments, such as required state assessments, is graded on his/her achievement of the standards, benchmarks, and grade-level expectations appropriate for his/her grade using the standard report card. The student is to be given appropriate accommodations for all classroom instruction and testing as documented on the student's Individual Education Plan (IEP). The student is to be given appropriate accommodations for all classroom instruction and testing as documented on the student's IEP. The student will be graded on his/her achievement of the Access Point Standards using the standard report card.

Progress Reports

Schools will notify students and parents of the student's mid-term academic progress (3rd-12th grades). For English Language Learners, the progress report comments are translated into the home language of the English Language Learners when feasible. If appropriate, schools will make the Spanish and Haitian Creole translation of the progress reports available to parents and inform parents in the comments section of the progress reports that, "the English Language Proficiency Level is taken into consideration when planning instruction, assessments, and grading for English Language Learners."

Grades for courses taken through Manatee Virtual School and course recovery will not be included on the

mid-quarter progress report.

IV. General Curriculum Information

Curriculum Additions or Modifications

Any curriculum modification being considered by a school must be submitted on the Request for Program Additions or Modifications form and reviewed by members of the Instructional Division and submitted to the Deputy Superintendent for Instructional Services prior to any changes being implemented at the school level. Florida Statute requires all courses offered in the State of Florida be aligned to the State Standards. Curriculum for English Language Learners is not modified, but lessons and school-based assessments should be adapted to a student's level of English proficiency.

District Homework Guidelines

The School District of Manatee County acknowledges the educational validity of homework as an extension of the instructional program.

Clarification: Homework shall typically refer to those assignments that are meaningfully prepared by the classroom teacher for students to complete outside of the school setting to reinforce and extend the curriculum taught within the classroom.

Purpose:

1. Homework is designed as a reinforcement tool to deepen the understanding of concepts and provide practice for the mastery of skills formally instructed in the classroom.
2. Homework is designed to promote student responsibility and independent work habits.

Guidelines for Homework:

1. Homework assignments shall be based on the abilities of the students.
2. Homework shall not be used as a punitive measure.
3. Homework assigned for reinforcement shall be done outside of class time.

Teacher Expectations:

Teachers will monitor completion of homework and provide appropriate, graded feedback in a timely manner to students. Teachers should collaborate, whenever possible, to ensure that the amount of homework assigned to any one student is not excessive.

Multi-Tiered System of Supports (MTSS)

The District's Multi-Tiered System of Support (MTSS) provides high quality instruction and intervention matched to student needs using learning rate over time and level of performance to inform instructional decisions. The MTSS framework is a continuum of integrated academic, behavioral, mental health, and attendance supports reflecting the need for students to have fluid access to instruction and supports of varying

intensity levels. To ensure efficient use of resources, schools begin with the identification of trends and patterns using school-wide and grade-level data.

Within the MTSS framework, resources are allocated in direct proportion to student needs. Data collected at each tier is used to measure the efficacy of supports so that meaningful decisions can be made regarding what instruction and intervention should be intensified and/or maintained. Students who need instructional intervention, beyond what is provided universally for behavioral and academic content areas, are provided with targeted, supplemental interventions delivered and embedded within the content area courses, individually or in small groups, at increasing levels of intensity. Throughout the continuum of instruction and intervention, planning/problem-solving is used to match instructional resources to educational need. Teams continue to engage in instructional planning and problem-solving to ensure that student success is achieved and maintained. Regular communication between problem-solving teams (i.e., Instructional Leadership Team led by the principal, the Teacher Collaborative Teams, the Intensive Support Team (IST), Individual Education Plan Team, MTSS-Behavior Team), where data-based problem solving is occurring, will guide the appropriate intervention needs.

Intervention, Remediation and Progress Monitoring

Students must participate in Florida's statewide assessments and progress monitoring. Each student who scores below Level 3 in reading or mathematics must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for appropriate instruction and intervention using the problem-solving process within the MTSS framework.

In consultation with the student's parent, the school in which the student is enrolled must engage in the problem-solving process to develop and implement an intervention plan which includes a progress-monitoring plan. The Multi-Tiered System of Support framework (MTSS) will serve as a guide for identifying students in need of tiered interventions and progress monitoring. The problem-solving cycle, which is an integral part of the MTSS framework, should be used to match interventions with areas of need. A student who is not meeting the school district or state requirements for proficiency in reading and/or mathematics shall be covered by at least one of the following plans to target instruction within the MTSS framework and identify ways to improve his or her behavioral and/or academic achievement:

1. a federally required student plan, such as an individual education plan;
2. a school-wide system of progress monitoring for all students;
3. a targeted individualized intervention plan that includes a progress monitoring plan.

The plan chosen must be designed to assist the student or the school in meeting state and district expectations for proficiency. Each student who does not meet the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, and mathematics must continue to be provided with remedial or supplemental instruction until:

1. the expectations are met;
2. the student graduates from high school; or
3. the student is not subject to compulsory school attendance.

Problem solving teams should monitor students' responses to intervention and engage in problem solving as needed to ensure positive student response to intervention.

In addition to an intervention plan, which includes progress monitoring, 3rd- 10th grade students, performing at Level 1 or Level 2 on required state assessments, must receive intensified support the following year. An Early Warning System and Elementary Reading Decision Tree will be used by problem-solving teams to identify K-5 students in need of supplemental and intensive supports in the areas of behavior, attendance, and academics. Evidence-based, explicit, systematic, and multi-sensory reading intervention strategies grounded in the science of reading must occur beyond the 90-minute literacy block with frequent, ongoing progress monitoring for students identified as having a substantial reading deficiency. Students identified as having a substantial reading deficiency must receive intervention instruction from a teacher who is reading endorsed, certified, or has earned a literacy micro-credential. Mathematics intervention may be integrated within the student's current mathematics class or before or after school in grades K-4. Students identified as having a substantial mathematics deficiency must receive intervention instruction from an educator with a bachelor's degree or higher who holds an active valid Florida Educator Certificate as defined in s. 1012.56, F.S. or a trained tutor as defined in paragraph (2)(c) of Rule 6A-6.0533.

In addition to an intervention plan, which includes progress monitoring, middle and high school students performing at Level 1 or 2 on Florida's statewide assessment in reading and mathematics or who do not earn a Level 3 or higher within the last two academic years may be enrolled in and complete an intensive reading or mathematics course the following year. Students may exit intensive courses at the end of the quarter/semester by demonstrating proficiency at Level 3 or higher on Florida's statewide assessment, or by meeting a concordant/comparative score on a state-approved assessment (PSAT, SAT, ACT, CLT) in reading and/or mathematics or by showing proficiency on the district benchmark assessment. Problem-solving teams should monitor students' response to intervention and engage in problem solving as needed to ensure positive student response to intervention.

A school-wide progress monitoring plan provides structure for monitoring the progress of all students and will be an integral part of the school improvement plan. Within the school improvement plan, the school-wide progress monitoring plan has four major components. The intervention plan, which includes progress monitoring for students scoring below a Level 3 on the required state assessments, must include the following:

1. Diagnostic Assessment:

Diagnostic assessments, in addition to the initial screening, are to be administered to all students scoring below a Level 3. Parents may not opt their child out of the District-approved diagnostic tool. In absence of state assessment data, school diagnostic data, or report card showing completion of grade level, the student will be placed into the age-appropriate grade level.

   a. The specific diagnostic assessments to be administered must be identified, as well as the process for administering the assessments.

   b. For students scoring Level 1 or 2 on the required state reading assessments, reading proficiency must be assessed at the beginning of the school year. The student must continue to be provided with targeted and intensive reading instruction until the reading deficiency is remediated. Targeted intensive instruction is usually associated with the following:

(i) Variety of opportunities for practice

(ii) Problem solving which results in interventions targeted to specific skill development

(iii) Smaller chunks of text or content

(iv) Guided and independent practice

(v) Skill development and practice integrated into all activities

(vi) Frequent progress monitoring

(vii) Criterion-based evaluation of success

c. Diagnostic results are to be gathered and maintained for the students scoring Level 1 and 2 on required state assessments in reading or math.

d. Diagnostic results must be readily accessible to teachers, school administrators, certified School Counselors, parents, and School Psychologists.

2. Students who score a level 1 or 2 on a state assessment in reading and/or math should be provided additional diagnostic assessments to determine the need for intervention and to establish an intervention plan. Intervention plans should include:

a. Interventions, in the targeted areas of weakness, to assist students in meeting state and district expectations in behavior, reading, writing, and or math;

b. Targeted strategies to accelerate learning;

c. Measurable targets or goals for each deficit area;

d. A description of the supplemental or intensive instructional intervention and support, when they will be provided, how often, by whom, and for how long;

e. For reading deficiencies, identification of a student's specific areas of need in phonemic awareness, phonics, fluency, comprehension, vocabulary, and/or oral language.

f. Remedial instruction and intervention strategies may include, but are not limited to the following:

(i) Summer school

(ii) Dropout prevention services

(iii) Parent tutorial programs required

(iv) Contracted academic services

(v) Reading instruction

(vi) After-school instruction and other extended day services

(vii) Tutoring

(viii) Mentoring

(ix) Intensive skill development programs

(x) In-person academic advising for struggling high school students (F.S. 1003.491)

3. Parent Consultation and Communication

Parents of students in Voluntary Prekindergarten who have a substantial deficiency in early literacy skills and/or early mathematics skills and parents of students in kindergarten through grade 5 who exhibit a substantial reading and/or mathematics deficiency based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must receive notification in writing of the following:

- That their child has been identified as having a substantial reading and/or mathematics deficiency, including a description and explanation in terms understandable to the parent of the exact nature of the student's difficulty in learning and lack of achievement in reading and/or mathematics.
- A description of the current services that are provided to the child.
- A description of the proposed interventions and supports that will be provided to the child that are designed to remediate the identified area of the reading and/or mathematics deficiency.
- That, if the reading deficiency is not remediated by the end of grade 3, the child must be retained unless the child is exempt from mandatory retention for good cause.
- Strategies, including multisensory strategies and programming, the parent can use through a home-based plan to help their child succeed in reading and/or mathematics, including electronic resources compiled by the department of education.
- That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion for grade 3 and that additional evaluations, portfolio reviews, and assessments are available to assist parents and the district in knowing when a child is reading at or above grade level and ready for grade promotion.
- The district's specific criteria and policies for student portfolios and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first.
- The district's specific criteria and policies for mid-year promotion. Mid-year promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.
- Information about the student's eligibility for the New Worlds Reading Initiative under s.1003.485, F.S., and information on parent training modules and other reading engagement resources available through the initiative.

Schools may not wait for a kindergarten through grade 3 student to receive a failing grade at the end of a grading period to identify the student as having a substantial reading deficiency and initiate intensive interventions. Additionally, schools may not wait for a Voluntary Prekindergarten through grade 4

student to receive a failing grade at the end of a grading period to identify the student as having a substantial mathematics deficiency and initiate intensive mathematics interventions. Schools may not wait until an evaluation conducted pursuant to s.1003.57 is completed to provide appropriate, evidence-based interventions for a student whose parent submits documentation from a professional licensed under chapter 490 which demonstrates the student has been diagnosed with dyslexia and/or dyscalculia. Students in Voluntary Prekindergarten are deemed to have a substantial deficiency in early literacy and/or mathematics skills based upon the results of the administration for the midyear or final coordinated screening and progress monitoring measure.

For students in grades 6 through 12, the school shall notify the student and his/her parents of any remedial or supplemental academic instruction by the end of the first quarter. Parents may be notified through personal verbal contact, through a district-provided letter, during an Individual Education Plan team meeting, or a face-to-face meeting. All written and oral communication between the school district's personnel and parents of current or former English Language Learners shall be in the parents' primary language or the mode of communication commonly used by the parents unless clearly not feasible.

The letter is to include general information about the seriousness of the situation and the intervention plan in place for the students not meeting proficiency. The letter should also include an invitation for the parents to meet with instructional staff to consult about their child's plan.

Parents should be given an explanation of the information on which the decision was based, as well as a copy of the intervention plan for their child.

Parental approval for general education instructional interventions is not required.

4. Monitoring for Results:

The intervention plan must be developed by the end of first quarter, or within 6 weeks of a new student entering school, or as soon as a need is identified through the analysis of data by a problem-solving team. Students receiving supplemental interventions at the end of a school year should begin receiving interventions at the beginning of the next school year until there is evidence that the student has closed the gap and no longer needs supplemental or intensive support services.

The principal or designee will monitor the implementation of the school-wide progress monitoring plan and the school's plan for providing targeted intervention.

Each quarter, the principal or designee will review the progress of students identified as not meeting proficiency with the Instructional Leadership Team (ILT). The team will check for compliance with the school-wide progress monitoring plan (diagnostic assessment, intervention strategies, quarterly progress updates) and use data to inform instruction. Student progress shall be monitored at least twice a month and compared with the progress of peers to guide instructional decisions. If a student is not responding positively to interventions, an intensive individualized intervention plan should be developed with assistance from a problem-solving team at the school.

Each school will identify its problem-solving teams and their roles and responsibilities for monitoring the progress of all students (e.g., Instructional Leadership Team; Teacher collaborative Teams, IEP Teams, MTSS-B Team, and Intensive Support Team).

The intervention plan, including the plan for monitoring progress, can be documented on a student's Individual Education Plan (IEP), English Language Learner's Plan (ELL), or Section 504 Accommodation Plan.

5. For Elementary School Students who are retained:

a. The intervention plan, which includes a plan for progress monitoring, must specify, through the problem-solving process, how the second year's instructional program will be different from the previous year's program, utilizing interventions matched with the student's deficit areas.

b. Students must be provided evidence-based, explicit, systematic, and multi-sensory reading instruction grounded in the science of reading in an area of deficit (i.e., phonemic awareness, phonics, fluency, vocabulary, comprehension, and other strategies).

Career and Technical Education Course Offerings

Career and Technical Education elementary, middle, and high school students, including students with disabilities, may be given the options to earn Career and Professional Education (CAPE) Digital Tool certificates and CAPE industry certifications.

Required Instruction

Pursuant to Florida Statute 1003.42, required instruction will be embedded in K-12 course of study, where age appropriate and consistent with course standards. Students may be exempted from the comprehensive health components that include reproductive health or any disease, including HIV/AIDS, its symptoms, development, and treatment. A student so exempted may not be penalized by reason of that exemption. The process to request an exemption is posted on the School District website.

Parental Rights

All parental rights are reserved to the parent of a minor child in this state without obstruction or interference from the state, any of its political subdivisions, any other governmental entity, or any other institution, as set forth in s. 1014.04, including, but not limited to all the following rights of a parent of a minor child:

1. The right to direct the education and care of his or her minor child.
2. The right, pursuant to s. 1002.20(2)(b) and (6), to apply to enroll his or her minor child in a public school or, as an alternative to public education, a private school, including a religious school, a home education program, or other available options, as authorized by law.
3. The right, pursuant to s. 1002.20(13), to access and review all school records relating to his or her minor child.
4. The right to consent in writing before the state or any of its political subdivisions makes a video or voice recording of his or her minor child unless such recording is made during or as part of a court proceeding or is made as part of a forensic interview in a criminal or Department of Children and Families investigation or is to be used solely for the following purposes:
    a. A safety demonstration, including the maintenance of order and discipline in the common areas of a school or on student transportation vehicles;

b. A purpose related to a legitimate academic or extracurricular activity;

c. A purpose related to regular classroom instructions;

d. Security or surveillance of buildings or grounds; or

e. A photo identification card.

5. The right to be notified promptly if an employee of the state, any of its political subdivisions, any other governmental entity, or any other institution suspects that a criminal offense has been committed against his or her minor child, unless the incident has first been reported to law enforcement or the Department of Children and Families and notifying the parent would impede the investigation.

Curricula and Instructional Materials

In accordance with 1006.28(2)(a) and 1002.20(19)(b), F.S. and School Board Policy 2520, parents have the right to learn about their minor child's course of study, to include the source of any supplemental instructional materials. Parents may request a copy of instructional materials from their child's teacher or may purchase certain materials with a written request to the school's principal. For parents who are interested in learning more about the types and nature of extracurricular activities and club offerings, please visit school website.

Parent or Manatee County residents who object of the purchase of specific instructional materials on the basis of moral, sexual, religious, or other perceived harms may complete a form available on the district website. The form must be submitted to the Curriculum Department within 30 days of the district adoption of the specific material. Parents who object to specific content based on sexuality may also withdraw their minor child from those portions of the school district's required comprehensive health education instruction, with a written request to the school principal.

Elementary School Education (Grades K-5)

I. Program of Studies Grades K-5

All students will receive instruction in English Language Arts (ELA), mathematics, science, social studies, the arts, health, and physical education aligned with state standards. ELA, mathematics, science, social studies, the arts, and physical education will be graded courses. Students and families must be notified at the beginning of each year as to how their grades in each core academic area will be determined.

English Language Arts (ELA)

All students in K-5 shall be assigned an uninterrupted 90-minute reading block with additional time for instruction in the writing process and additional time for reading intervention, as needed, with a highly qualified, effective teacher, a core reading program, and ongoing progress monitoring.

Physical Education (PE) and Recess

Physical education (PE) instruction focuses on the outcomes of achieving and maintaining a health-enhancing level of fitness and understanding that physical activity provides the opportunity for enjoyment, challenge, self-expression, communication, and well-being. Elementary schools provide 150 minutes of PE per week. In addition, schools are required to provide 20 consecutive minutes of unstructured free-play recess per day. A minimum of 30 consecutive minutes of PE is required on any day that formal (PE) instruction is provided. The elementary school principal may designate any instructional personnel to provide PE. Elementary schools will integrate health education standards into science and PE as appropriate.

K-5 Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, and virtual instruction in higher grade-level subjects. Whole-grade and mid-year promotion requires an elementary student to meet the district criteria outlined below. Whole-grade and mid-year promotion requires students to meet student progression promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade level subjects is available when students have exhausted the course offerings at the school, and students meet the course prerequisites. In addition to these requirements, the following must be considered when establishing eligibility:

1. The student's performance on required state assessments
2. The student's grades or grade point average
3. The student's attendance and conduct

4. Teacher and school counselor recommendations

Each school must inform students and parents of these options. A student or a parent may request one of the options by written request to the principal. This will be followed by a parent conference to discuss eligibility and placement.

Whole-Grade Promotion:

An elementary student must meet all the following criteria to be eligible for whole-grade promotion:

1. The student must be consistently performing above grade level standards on a locally determined assessment, a statewide assessment or a standardized assessment in reading/language arts and mathematics for each of the past two years. For kindergarten students, schools will use state and district assessment data for ELA and mathematics.

   In addition to this, students must meet the following criteria:

   a. The student cannot skip third grade as a result of whole-grade promotion.

   b. The student must be recommended by the principal, parent, classroom teacher, or school counselor.

   c. All whole-grade promotions must be approved by a district promotion committee and entered appropriately in the student information system.

Mid-Year Promotion:

An elementary student must meet all the following criteria to be eligible for mid-year promotion:

1. The student must be consistently performing above grade standards on a locally determined assessment, a statewide assessment or a standardized assessment in reading/language arts and mathematics for each of the past two years. In the event a student does not have two years of data, schools will use state and district assessment data for ELA and mathematics.

2. The student must be recommended by the principal, classroom teacher, parent, or school counselor.

3. All mid-grade promotions must be approved by a district promotion committee and take place prior to the end of first semester and entered appropriately in the student information system.

4. Third graders must meet all the requirements in statute for mid-year promotion (s. 1008.25(8), F.S., Rule 6A-1.094221, F.A.C., and Rule 6A-1.094222, F.A.C.). Students cannot skip third grade. The criteria for students promoted on or before November 1st are as follows:

   a. Satisfactory performance as demonstrated by scoring Level 2 or above on beginning of the year administration of the statewide, standardized coordinated screening and progress monitoring system in Grade 3 English Language Arts pursuant to s. 1008.25(9)(b)3., F.S.;

   b. Satisfactory performance on locally selected standardized assessment(s) measuring state academic standards in English Language Arts pursuant to s. 1003.41, F.S.;

   c. Satisfactory performance on a state approved alternative assessment as delineated in paragraph

(1)(b) of Rule 6A-1.094221, F.A.C., or

d. Successful completion of portfolio elements that meet all of the following requirements:

   i. Be selected by the school district;

   ii. Be an accurate picture of the student's ability and only include student work that has been independently produced in the classroom;

   iii. Include evidence that the benchmarks assessed by the grade 3 statewide, standardized English Language Arts assessment under s. 1008.22, F.S., have been met. Evidence is to include grade level passages that are approximately fifty (50) percent literary text and fifty (50) percent informational text, and that are between 100-700 words with an average of 500 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum or teacher-prepared assessments that are aligned with the B.E.S.T. ELA standards;

   iv. Be an organized collection of evidence of the student's mastery of the B.E.S.T. ELA standards that are assessed by the grade 3 statewide, standardized English Language Arts assessment under s. 1008.22, F.S. For each benchmark, there must be at least eight (8) items assessed and the student must demonstrate seventy (70) percent mastery for all items assessed per benchmark and;

   v. Be signed by the teacher and the principal as an accurate assessment of the required reading skills.

The criteria for students promoted after November 1 must provide a reasonable expectation that the student has met the requirements outlined in Rule 6A-1.094222, F.A.C., and that the student's progress is sufficient to master appropriate grade 4 level reading skills equivalent to the level necessary for the month in which the transition to grade 4 occurs.

A retained third grade student is eligible for mid-year promotion if the student scores Level 2 or above on PM1 of the Grade 3 FAST ELA Reading and there is evidence the student is progressing sufficiently to master appropriate fourth grade reading skills.

The Progress Monitoring Plan for any retained third grade student who has been promoted mid-year to grade 4 must continue to be implemented for the entire academic year and, if necessary, for additional school years.

Subject-Matter Acceleration:

An elementary student is eligible for subject-matter acceleration when the student has mastered the subject standards in the prerequisite grade-level course. The student must be recommended by the principal, parent, classroom teacher, or the school counselor based on achievement of the learning targets and standards.

II. Promotion and Good Cause Placements

Promotion Requirements

All decisions pertaining to the promotion or retention of students will be communicated to parents and made under the authority of the School District of Manatee County in accordance with Florida statute. A student in K-2 or 4-5 is promoted if the student demonstrates mastery of the currently adopted state standards in core academic subject areas. In accordance with state statute, K-5th grade students are mandated to participate in required state-approved assessments. Grade 3 students must score a Level 2 or higher on the English Language Arts statewide, standardized assessment for promotion to grade 4. A student may not be retained more than once in grade 3.

K-2 and 4-5 students will be promoted or "Good Caused" each year with their cohort group. Those students who do not meet grade-level standards in English Language Arts and mathematics will be supported in the next grade level through intensive remediation as well as an alternative instructional setting if needed. In cases where a K-2 student may benefit from a retention, the following requirements must be met:

1. The recommendation must be based upon the student's performance in English Language Arts and mathematics.
2. Input from the parent in writing regarding a possible retention decision that is included as part of the school leadership team's recommendation.
3. Proof of communication to the parent as spelled out in Section III, Intensive Intervention (s. 1008.25).

Good Cause Criteria for K-2

A student who does not meet the promotion criteria will be considered for good cause placement in the next grade. Good cause placement is defined as follows:

Grades K-2 Good Cause
Good Cause "A-ESE" –A student with a disability in grades K-2 can be placed for good cause if the Individual Education Plan (IEP) indicates that the student is making adequate progress towards their individual goals and/or is receiving services appropriate to progressing their individual skills. Documentation indicates that the promotion of the student with disabilities is appropriate, based upon the student's academic record, and shall be submitted from the student's teacher/therapist to the school principal.
Good Cause "A-ESOL" – An English Language Learner (ELL) who has had less than two years of instruction in English for Speakers of Other Languages (ESOL) program (not including PreK) based on the initial date of entry into a school in the United States (DEUSS), can be placed for good cause.

Good Cause "A-504" – A student with a Section 504 plan can be placed for good cause if the Report of Conference Form indicates the student's disability along with the recommendation and reasons for the student's exemption from the promotion criteria in reading and mathematics. Documentation of remediation in reading and/or mathematics will be included within the school-wide progress monitoring plan.
Good Cause "A-Com" – A student in grades K-2 can be placed for good cause if a committee comprised of the student's teachers, school counselor, or other appropriate personnel as designated by the principal documents the recommendation and the reasons for the student's exemption from the promotion criteria. Documentation could be included in a student portfolio, case conference notes, or documentation in the school-wide progress monitoring plan. Student will receive intervention and support in the next grade level. No student can be assigned to a grade level based solely on age or other factors that constitute social promotion.

Good Cause Criteria for Grade 3

Good Cause Criteria:

Per state statute, a student may not be retained more than once in grade 3. A student is exempt from retention for good cause and placed in the next grade if the student meets one of the following. 3rd grade good cause is defined as follows:

Grade 3 Good Cause
Good Cause "1" –English Language Learners who have had less than two years of instruction in English for Speakers of Other Languages (ESOL) program (not including PreK) based on the initial date of entry into a school in the United States (DEUSS).
Good Cause "2" – Students with disabilities whose Individual Education Plans (IEP) indicate that participation in statewide assessment is not appropriate, consistent with the requirements of section 1008.212, F.S..
Good Cause "3" – Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment that has been approved by the Department of Education, administered after the required grade 3 statewide standardized English Language Arts assessment under Section 1008.22, F.S. The required percentile passing score for each approved alternative standardized reading assessment will be determined by the Department of Education.

Good Cause "4" – Students who demonstrate, through a student portfolio, that they are reading on grade level as evidenced by demonstration of mastery of the State Standards in reading equal to at least a Level 2 performance on required state assessment. To demonstrate mastery of the required reading skills, the student portfolio must: • be selected by the student's teacher; • be an accurate picture of the student's ability and include only student work that has been independently produced in the classroom; • include evidence that the benchmarks assessed by the grade 3 statewide, standardized English Language Arts assessment have been met. Evidence is to include grade-level passages that are approximately 50% literary text and 50% informational text, and that are between 100-700 words with an average of 500 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum or teacher-prepared assessments that are aligned with the B.E.S.T. English Language Arts Standards; • be an organized collection of evidence of the student's mastery of the B.E.S.T. English Language Arts Standards that are assessed by the grade 3 statewide, standardized English Language Arts assessment. For each benchmark, there must be at least 8 items assessed and the student must demonstrate seventy (70) percent mastery for all items assessed per benchmark; and • be signed by the teacher and principal as an accurate assessment of the required reading skills. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first.
Good Cause "5" – Students with disabilities who take the statewide, standardized English Language Arts assessment and who have an Individual Education Plan (IEP) or a Section 504 plan that reflects that the student has received intensive instruction in reading or English Language Arts for 2 years or more but still demonstrates a deficiency and was previously retained in prekindergarten, kindergarten, grade 1, grade 2, or grade 3.
Good Cause "7"– Any third-grade student receiving intensive remediation in reading for two or more years, but still has deficiency in reading and has been previously retained in K-3 for a total of two years. If placed under this exemption, intensive reading instruction must include an altered instructional day that includes specialized diagnostic information and specific reading strategies. A student may not be retained more than once in 3rd grade. Any currently retained 3rd grader would qualify for this Good Cause.

The school district Superintendent shall accept or reject the school principal's recommendation in writing.

Good Cause Criteria for Grades 4-5

No student may be assigned to a grade level based solely on age or other factors that constitute social promotion. Good cause for grades 4 and 5 is defined as follows:

Grades 4-5 Good Cause
Good Cause "A-ESE" - A student in grades 4-5 with a disability can be placed for good cause if the Individual Education Plan (IEP) indicates that the student is making adequate progress towards their individual goals and/or is receiving services appropriate to progressing their individual skills. Documentation indicates that the promotion of the student with disabilities is appropriate, based upon the student's academic record, and shall be submitted from the student's teacher/therapist to the school principal.
Good Cause "A-ESOL"- An English Language Learner (ELL) who has had less than two years of instruction in English for Speakers of Other Languages program based on the initial date of entry into a school in the United States (DEUSS), can be placed for good cause.
Good Cause "A-504" - A student with a Section 504 plan can be placed for good cause if the Report of Conference Form indicates the student's disability along with the recommendation and reasons for the student's exemption from the promotion criteria in reading and mathematics.
Good Cause "A-Com" - A student in grades 4-5 can be placed for good cause if a committee comprised of the student's teachers, school counselor, or other appropriate personnel as designated by the principal documents the recommendation and the reasons for the student's exemption from the promotion criteria. Documentation could be included in a student portfolio, case conference notes, or documentation in the school-wide progress monitoring plan. A student will receive intervention and support in the next grade level. No student can be assigned to a grade level based solely on age or other factors that constitute social promotion.

Summer School

In the summer before entering kindergarten, VPK students who score below the twenty-fifth (25th) percentile or have a nonparticipation status of "assessment inappropriate," "failed practice" or "non-English speaker" on PM3 of the coordinated screening and progress monitoring system are eligible to participate in the Summer Bridge Program. The Summer Bridge Program consists of 4 hours of instruction per day for a minimum of 100 total hours, with an emphasis on emergent literacy instruction grounded in the science of reading. (s. 1008.25(5), F.S., and Rule 6A-6.0530, F.A.C.)

Summer school reading programs are provided for third grade students who do not meet the promotion criteria or who are not approved for good cause placement. Third grade students who meet state defined criteria at the end of the Summer Reading Camp will qualify for good cause.

III. Intensive Intervention

Parent Notification of a Reading and/or Mathematics Deficiency for Students Grades VPK-Grade 5 (F.S. 1008.25)

Parents of students in Voluntary Prekindergarten who have a substantial deficiency in early literacy skills and parents of students in kindergarten through grade 5 who exhibit a substantial reading deficiency, or the characteristics of dyslexia based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must immediately receive notification in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in reading, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in reading;

2. A description of the current services that are provided to the child;

3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency;

4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause;

5. Strategies, including multisensory strategies and programming, through a read-at-home plan the parent can use to help his or her child succeed in reading, including electronic resources compiled by the Department of Education;

6. That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion for grade 3 and that additional evaluations, portfolio reviews, and assessments are available to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion;

7. The district's specific criteria and policies for a portfolio and the evidence required for a student to demonstrate master of Florida's academic standards for English Language Arts. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first;

8. The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level;

9. Information about the student's eligibility for the New Worlds Reading Initiative under s. 1003.485 and information on parent training modules and other reading engagement resources available through the initiative.

Parents of students in Voluntary Prekindergarten who exhibit a substantial deficiency in early mathematics skills and parents of students in kindergarten through grade 5 who exhibit a substantial deficiency in mathematics, or the characteristics of dyscalculia based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must receive notification in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in mathematics, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in mathematics.

2. A description of the current services that are provided to the child.

3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of mathematics deficiency.

4. Strategies, including multisensory strategies and programming, through a home-based plan the parent can use in helping his or her child success in mathematics, including electronic resources compiled by the Department of Education.

After initial notification of either a deficiency in reading or mathematics, the school shall apprise the parent at least monthly of the student's progress in response to the intensive interventions and supports. Such communications must be in writing and must explain any additional interventions or supports that will be implemented to accelerate the student's progress if the interventions and supports already being implemented have not resulted in improvement. Upon the request of the parent, teacher or school administrator shall meet to discuss the student's progress. The parent may request more frequent notification of the student's progress, more frequent interventions or support and earlier implementation of the additional interventions or supports described in the initial notification.

By September 30, the school district will notify the parent of each eligible student of the process to request and receive a scholarship, subject to available funds.

In addition, schools may not wait for a student to receive a failing grade at the end of a grading period or wait until a plan is developed to identify the student as having a substantial reading or mathematics deficiency and initiate intensive interventions. Voluntary Prekindergarten Program students who exhibit a substantial deficiency in early literacy and/or early mathematics skills shall be referred to the local school district and may be eligible to receive intensive interventions before participating in kindergarten.

Services for Students Retained in Grade 3

Students retained in grade 3 must be provided a highly effective teacher as determined by the teacher's performance evaluation under section 1012.34, F.S. and the teacher must also be certified or endorsed in reading. These students must be provided intensive interventions in reading to ameliorate the student's specific reading deficiency and prepare the student for promotion. These interventions must include:

1. Evidence-based, explicit, systematic, and multisensory reading instruction grounded in the science of reading in phonemic awareness, phonics, fluency, vocabulary, and comprehension and other strategies prescribed by the school district.

2. Participation in the school district's summer reading camp, which must incorporate the instructional and intervention strategies above that place rigor and grade-level learning at the forefront.

3. A minimum of 90 minutes of daily, uninterrupted reading instruction incorporating the instructional and intervention strategies above. This instruction may include:

    a. Coordinated integration of content-rich texts in science and civic literacy within the 90-minute block;

    b. Targeted small group instruction;

    c. Explicit and systematic instruction with more detailed explanations, more extensive opportunities for guided practice and more opportunities for error correction and feedback;

    d. Reduced teacher-student ratios;

e. More frequent progress monitoring of the reading skills of each student throughout the school year and the adjustment of instruction according to student need;

f. Tutoring or mentoring;

g. Transition classes containing 3rd and 4th grade students;

h. Extended school day, week, or year.

i. Before school or after school, or both, supplemental evidence-based reading interventions grounded in the science of reading delivered by a teacher who is certified or endorsed in reading and is rated highly effective as determined by the teacher's performance evaluation under s. 1012.34, F.S.

The primary instructional strategy for teaching word reading is phonics instruction for decoding and encoding. Instructional strategies may not employ the three-cueing system model of reading or visual memory as a basis for teaching word reading. Such instruction may include visual information and strategies which improve background knowledge and experiential knowledge, add context and increase oral language and vocabulary to support comprehension, but may not be used to teach word reading. (s. 1008.25(8), F.S.).

Services for Students Promoted to Grade 4 with a Good Cause Exemption

Each student who does not achieve a Level 3 or above on the statewide, standardized English Language Arts assessment or the statewide, standardized Mathematics assessment must be evaluated to determine the nature of the student's difficulty, the areas of academic need, and strategies for providing academic supports to improve the student's performance. A student who is not meeting the school district or state requirements for satisfactory performance in English Language Arts and mathematics must be covered by one of the following:

1. A federally required student plan, such as an individual education plan;

2. A schoolwide system of progress monitoring for all students, except a student who scores Level 4 or above on the English Language Arts and mathematics assessments may be exempted from participation by the principal; or

3. An individualized progress monitoring plan.

A student who is promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of explicit, systematic, and multisensory reading instruction and intervention strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students who have reading difficulties. It is best practice for the school to update the parent at least monthly of the student's progress in response to the intensive reding instruction and intervention. Upon the request of the parent, the teacher or school administrator shall meet to discuss the student's progress. The parent may request more frequent notification of the student's progress, more frequent interventions and earlier implementation of the additional interventions or support described in the initial notification. (Section 1008.25(4), F.S., and Section 1008.25(6)(b), F.S.)

Middle School Education (Grades 6-8)

I. Program of Studies Grades 6-8

Course Offerings

Middle school grades 6-8 basic education course offerings are selected from the Florida Department of Education's Course Code Directory and approved by the district.

The program of studies for middle school grades includes the following state and local offerings:

Language Arts	Art
Mathematics	Music
Science	Physical Education/Health
Social Studies	Career/Technical Education
Reading	Foreign Language

Advancement Via Individual Determination (AVID)

Other enrichment and exploratory courses may be offered by individual middle schools, such as dance, drama, agriculture, and gifted services. Each school will hold a parent meeting either in the evening or on a weekend to inform parents about the school's curriculum and activities.

Middle school students may have the opportunity to earn high school credits and/or industry certifications.

In addition to evidence-based reading courses, reading instruction is integrated throughout the entire curriculum. All middle schools must follow the district-approved curriculum.

Schools are prohibited from suspending a regular program of curricula to administer practice tests or engage in other test-preparation activities for a statewide assessment. However, activities including instruction on test-taking strategies are authorized.

Students are required to be enrolled on a full-time basis, including 7 courses or the equivalent. If there are extenuating circumstances, students may use a combination of virtual school courses and traditional courses to meet the full-time criteria. To use this option, seats must be available in the required virtual school courses, and principal approval is required. Students wishing to have a part-time enrollment status may do so by registering as a home education student. Home education students may take up to 3 courses at their districted school, providing there is room in the course(s).

An English Language Learner (ELL) with no prior school records shall be assigned to a grade level based on age-appropriate placement.

Required Courses for Grades 6-8

Promotion from middle school to high school requires that the student successfully complete three middle school or higher courses in each of the following:

a. English Language Arts

English Language Arts must emphasize literature, informational/technical text, writing, listening, speaking, and language.

b. Mathematics

Each middle school must offer at least one high school-level mathematics course for which students may earn high school credit.

c. Social Studies (including Civics, assessed by a state required end-of-course exam)

The required study of state and federal government and civics education will be incorporated into Civics. One of these courses must be at least a one-semester civics education course. Each student's performance on the statewide, standardized EOC assessment in civics education constitutes 30 percent of the student's final course grade. A middle grades student who transfers into the state's public school system from out-of-country, out-of-state, private school, or a home education program after the beginning of the second term of grade 8 is not required to meet the civics education requirement for promotion from the middle grades if the student's transcripts document passage of three courses in social studies or two year-long courses in social studies that includes coverage of civics education.

d. Science (8th grade students will be assessed by the state-required science assessment)

Physical Education

1. Middle schools must offer the equivalent of one class period per day of physical education for one semester of each year for students enrolled in grades 6-8.
2. Physical Education Waiver:

Parents may submit a waiver of the physical education requirement for their child. Students in grades 6-8 are eligible to waive the physical education requirement if they meet any of the following criteria:

a. The student is enrolled in a remedial course.

b. The student's parent indicates in writing to the school that:

   i. The parent requests that the student enroll in another course from among those courses already offered as options by the school district as space allows; or

   ii. The student is participating in physical activities outside the school day which are equal to or in excess of the mandated requirement. Students who use the waiver because they participate in physical activities outside the school day must be enrolled in school on a full- time basis.

Career Research Course

Middle school students must successfully complete one course in career and education planning which must result in a completed internet-based, customizable, personalized academic and career plan for the student. The personalized academic and career plan may be revised as the student progresses through middle school and high school. The course must include research-based assessments to assist students in determining educational and career goals, emphasize the importance of entrepreneurship and employability skills, and must include information from the Department of Economic Opportunity's economic security report under s. 445.07, F.S.

The personalized academic and career plan must inform students of the following:

1. high school graduation requirements, including a detailed explanation of the requirements for earning a high school diploma designation under s. 1003.4285, F.S.;
2. the requirements for each scholarship in the Florida Bright Futures Scholarship Program;
3. admission requirements for State University System and Florida College System institutions;
4. available opportunities to earn college credit in high school, including Advanced Placement (AP) courses; the International Baccalaureate (IB) Program; the Advanced International Certificate of Education (AICE) Program; dual enrollment, including career dual enrollment; and
5. career education courses, including career-themed courses, pre-apprenticeship and apprenticeship programs, and course sequences that lead to industry certification pursuant to ss. 1003.492 or 1008.44, F.S.

Required Remediation

Participation in the assessment program is mandatory for all students enrolled in a public school. Students must earn a Level 3 or higher in English Language Arts (ELA) and/or Mathematics on a standardized assessment. Students who do not meet these criteria may be required to receive enhanced instruction through a course that will assist in building the student's skills and in mastering standards.

School administrators may use state progress monitoring assessments to determine proficiency if no state standardized assessment scores are available at the time of enrollment.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school.

Advancement Via Individual Determination (AVID)

AVID is an elective course designed to prepare students for college and career readiness and success. Students who apply for and are accepted into the course must also take at least one advanced level or high school credit course. The AVID curriculum supports students as they undertake the most rigorous courses, with emphasis on writing as a learning tool, the inquiry method, collaborative grouping, organization, and academic reading.

Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, virtual instruction in higher grade-level subjects, and Credit Acceleration Program (CAP). Whole-grade and mid-year promotion requires secondary students to meet student progression course/credit promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade-level subjects is available when students have exhausted the course offerings at the school and students meet the course prerequisites. The Credit Accelerated Program may be used for any course that requires an end-of-course exam to earn credit in the course. In addition to these requirements, the following must be considered when establishing eligibility:

1. the student's performance on required state assessments;
2. the student's grades or grade point average;
3. the student's attendance and conduct;
4. teacher and school counselor recommendations.

Each school must inform students and parents of these options. A student or a parent may request one of the options by written request to the principal. This request will be followed by a parent conference to discuss eligibility and placement.

II. Promotion and Retention

Promotion Requirements

Students will be promoted to the next grade level based on the number of years in middle school.

To be promoted from 8th grade to high school, a student must successfully complete 12 core academic courses to include 3 courses in each of the following academic areas: language arts, math, science, and social studies (to include Civics). Students who do not meet promotion criteria to 9th grade will be recommended for enrollment in a summer remediation and credit recovery program. Students who do not successfully complete the summer program may be retained or assigned to an alternative instructional setting based on principal recommendation.

Promotion from 8th grade to 9th grade for a student who transfers into Florida from out-of-state during middle school will be based on the student successfully completing the number of core courses in language arts, mathematics, science, and social studies for each year the student has been in Florida. If a student transfers into a Florida public middle school from a Florida private school during their middle grade years, the student must meet all promotion requirements as defined by state statute.

If a student has successfully completed a high school course, failure of the end-of-course assessment will not result in the student being retained in middle school.

8th grade students who are enrolled in a virtual program for an academic course must complete the academic course by the last day of school or will be placed in an alternative instructional setting.

Middle School Grading

Grading Scale:

Student achievement in all courses will be evaluated using numeric and letter grades. As designated in Florida Statute, letter grading scale and definitions adopted for all courses in grades 6 through 8 are as follows:

Value	Numeric Range	Letter Grade	Definition
4	90-100	A	Outstanding Progress
3	80-89	B	Above Average Progress
2	70-79	C	Average Progress
1	60-69	D	Lowest Acceptable Progress
0	0-59	F	Failure

Note: W = Withdrawn I = Incomplete* NG—No Grade Assigned

*An incomplete grade ("I") will be changed to a letter grade upon completion of all course requirements

within 10 school days of the "I" being issued, under normal circumstances. If, after ten days, the course requirements are not completed, the incomplete grade will become an "F."

A progress report or report card grade cannot be more than 100%.

Students must be notified in writing at the beginning of each course as to how their grade will be determined. This could be included in the Course Syllabus or information shared with students and parents.

Exam Exemptions:

Schools shall not exempt students from academic performance requirements such as final exams, based on practices or policies designed to encourage student attendance. A student's attendance record may not be used in whole or part to provide an exemption from any academic performance requirement.

Progress Reports:

Progress reports are posted mid-way through each quarter (approximately 4.5 weeks) to notify students and their parents or guardians of mid-term academic progress. Progress reports are available via the Parent Portal. Schools may print progress reports at the principal's discretion. Parents may request a printed copy of the progress report. Additionally, parents may monitor student progress regularly through the FOCUS Parent Portal. To communicate with teachers, parents may contact each teacher at school by phone or through email.

Grades for courses taken through Manatee Virtual School and course recovery will not be included on the mid-quarter progress report.

Report Cards:

Report cards, which are available on a quarterly basis, specify the student's academic performance, conduct and behavior, and attendance, including absences and tardies. Academic performance is based on examinations as well as written papers, class participation, and/or other academic performance criteria. Report cards are available via the Parent Portal. Schools may print report cards at the principal's discretion. Parents may request a printed copy of the report card.

Makeup Work:

Following an excused absence, the students have the responsibility to contact their teachers on the next attendance day in order to obtain any missed assignments. Work assigned prior to the absence is due the day the student returns to school. Work assigned during the student's absence is due within a period of time equal to the number of days that the student was absent.

End of Year Grades:

The end of the year average in the district grade book system is based on the average of all four quarters; however, a passing grade must be earned either third or fourth quarter for the student to pass the course for the year. Letter grades will be awarded based on the district grading scale.

For middle school courses that do not have a state-required end-of-course exam, a point system has been established for the benefit of students who may have experienced an unsuccessful quarter.

Teachers are to award whichever grade is the highest for each student -- the grade determined by the average of the four quarters or the grade determined by the Point System. Students are still required to earn a minimum of at least one (1) point in second semester for either method of grading.

The point system for end-of-the-year grades is determined as follows:

Each quarter grade will be assigned a value selected from the following:	To determine the end-of-year grade for a middle school course, total the numerical values of the four quarters and select the grade from the table below:
A = 4 B = 3 C = 2 D = 1 F = 0	A = 14 – 16 B = 10 – 13 C = 6 – 9 D = 3 – 5 F = 0 – 2

If the grade book program average and the grade determined by the point system differ, the student is to be given the higher of the two grades as long as the student earns at least one (1) point in second semester.

Grades for high school courses are calculated according to the high school procedures. Middle school semester-long courses that do not have a state mandated EOC will be calculated by averaging the two quarters to determine a semester-long final grade.

The point system cannot be used to determine the end-of-year grades for Civics. It must be calculated using the EOC as 30% of the year-long course grade. Students are not required to earn at least 1 point in 3rd or 4th quarter as the final grade is strictly based on the average of the 4 quarters and the EOC.

The final grade for Civics will be calculated as follows:

Quarter 1—17%

Quarter 2—18%

Quarter 3—17%

Quarter 4—18%

EOC—30%

Semester grades in Civics for students using an ESE End-of-Course Assessment Waiver will be averaged as follows:

Quarter 1=25%

Quarter 2 =25%

Quarter 3 =25%

Quarter 4 =25%.

Parent Notification:

Each year, to prepare students for career and postsecondary education planning, all middle schools shall notify students in grades 6 - 8 and their parents of the three-year and four-year high school graduation options, so they may select the program that best meets the student's needs. This notification shall be conducted prior to the annual course selection, so a student's academic plan and a time frame for achieving the graduation option may be modified to meet the student's needs. The selection of a graduation option is an exclusive choice of the student and parent; however, if a diploma option is not selected, the choice will revert to the standard four-year diploma option, which requires 24 credits.

III. Transfer Students

Transfer Grade Policy

The procedures relating to the acceptance of transfer work and courses for students entering Florida's public schools composed of middle grades 6, 7, and 8 from out of state or out of country are as follows:

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value, subject to validation if required by the receiving school's accreditation. If validation of the official transcript is deemed necessary, or if the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period as outlined in subsection (b) of this rule.

2. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should be passing each required course at the end of the first grading period. Students who do not meet this requirement shall have courses validated using the Alternative Validation Procedure outlined below.

3. Alternative Validation Procedure: If validation based on performance as described above is not satisfactory, then any one of the following alternatives identified in the district Student Progression Plan shall be used for validation purposes as determined by the teacher, principal, and parent or guardian:

    a. Portfolio evaluation by the superintendent or designee;

    b. Demonstrated performance in courses taken at other public or private schools that are accredited;

    c. Demonstrated proficiencies on nationally-normed standardized subject area assessments;

    d. Demonstrated proficiencies on the required state assessment; or

    e. Written review of the criteria utilized for a given subject provided by the former school.

    Students must be provided at least ninety (90) days from date of transfer to prepare for assessments outlined above if required.

4. Transferring students who are not proficient in English should receive immediate and intensive instruction in English language acquisition.

Virtual School Transfers:

Students who are enrolled full time in a virtual school program are required to meet the same promotion requirements of all other public school students in the state of Florida.

For a student who transfers back into a non-virtual district school any time during the year, the student shall be required to bring evidence of grades in progress as documented by withdrawal forms, progress reports, or report cards.

If the student is able to produce the required documentation, the grades received while attending the virtual school program will become part of the student's record in the same manner as any other transfer student. However, if the student is unable to provide the required documentation, validation of courses shall be based on performance during the first grading period in the non-virtual district school classroom. This validation will follow the same procedures as outlined under Transfer Grade Policy.

IV. Course Acceleration and Enrichment

Principals may override district criteria and place students in high school dual enrollment courses based on data indicating that the student is capable of success in the courses. This data must be documented.

High School Credit Courses Offered in Middle School

High school dual credit courses provide middle school students who have advanced skills the opportunity to pursue a more rigorous education. The expectation is that these students will take challenging courses, such as Advanced Placement, AICE, International Baccalaureate, and college dual enrollment, including during the senior year of high school. High school credit courses are not offered in middle school for the purpose of graduating early or experiencing an "easier" senior year. Failure to take rigorous academic courses during the senior year could prevent a student from being accepted into many colleges and universities. Parents of student athletes who take high school courses in middle school should visit the National Collegiate Athletic Association (NCAA) website for more information.

Each middle school may offer dual enrollment high school courses based on the needs of their students, special program requirements, and demand for the course. Course offerings vary by school; please see the school's Curriculum Guide for specific course offerings.

Career and Technical Education (CTE) courses that have been approved by the Executive Director of Adult, Career, and Technical Education articulate to high school CTE programs in their feeder pattern and are the introductory course in a specific program of study.

A Curriculum Modification Request Form can be submitted by the principal to the Office of Student Assignment for the Deputy Superintendent for Instructional Services to request approval to offer high school credit courses.

1. Grades for high school courses taken during middle school will appear on the high school transcript and will be averaged in with the high school grade point average. Students must carry forward all grades and

any credits earned in high school courses.

2. State assessments, benchmark data and course grades must be monitored. If a middle school student is struggling in a high school course during first or second quarter, a schedule change may be implemented by the school administrator to move the student to the middle school course, as long as there is room in the course. Remaining in high school courses places the middle school student at risk of failing a required core subject. The schedule change must be made before the end of first semester.

   Once the semester is completed and the student has earned the high school credit, the grade and credit cannot be removed from the high school transcript, even if the grade is a" "D or "F".

3. Middle school students who earn a "C" or lower in a high school course are strongly encouraged to retake the course under the Grade Forgiveness Policy.

4. Schools will use district criteria for identifying eligible students for enrollment in honors or high school credit courses. Schools must have a plan for reviewing students' required state assessment scores and their grade point averages to ensure that all eligible students are considered for placement into these courses. Principals may override the district criteria and place students in dual enrollment courses based on data indicating that the student is capable of success in the courses. This data must be documented.

5. AVID students must be placed in at least one honors, advanced, or dual enrollment course. Principals are encouraged to make exceptions to the placement criteria in the AVID students' areas of strength. Special consideration should be given to placing students in Algebra 1 Honors in an AVID student's 8th grade year.

District Criteria for Enrollment in High School Credit Courses:

Students earning a "D" or "F" in a high school credit course at the end of the first semester may be withdrawn and scheduled into a middle school course in the same subject area by the school administrator.

1. English I Honors: The student must have earned a Level 3, 4, or 5 on the most current required state assessment in English Language Arts (ELA) or have teacher, counselor, and/or administrator recommendation.

2. 8th Grade Algebra I or Algebra I Honors: The student must have earned a Level 3, 4, or 5 on the most current required state assessment in Mathematics or have a teacher, counselor, parent, and/or administrator recommendation.

3. 7th Grade Algebra I Honors: The student must have earned a Level 4 or 5 on the Grade 8 FAST PM2 or PM3 in Mathematics or have a teacher, counselor, parent, and/or administrator recommendation

4. 8th Grade Geometry Honors: The student must have earned one (1) credit in Algebra 1 or Algebra 1 Honors. A student that has not earned one (1) credit in Algebra 1 or Algebra 1 Honors may not enroll in Geometry Honors in Grade 8.

5. World Languages I: The student must have earned a Level 4 or 5 on the most current required state

assessment in English Language Arts or have a teacher, counselor, parent, and/or administrator recommendation.

6. World Languages II: For a student to be placed into World Languages II without completion of the World Languages I course, a satisfactory score on a world languages placement test and teacher, counselor, parent, and/or administrator recommendation are required.

7. Career & Technical Courses: CTE teacher, counselor, parent, and/or administrator recommendation; and the student must have earned a 3.0 grade point average in the previous year's course within the same or similar curricular area.

Awarding Grades and Credits for High School Credit Courses in Middle School

Course Requirements:

High school courses must meet all the requirements of high school courses. High school requirements include:

1. assessment of students through a semester exam;
2. administration of any state-required end-of-course exams;
3. calculation of grades using the high school procedure;
4. minimum 135 hours as required in Florida Statute;
5. district-approved instructional materials aligned with the district-approved curriculum; and
6. reporting of grades to the high school the student will attend.

Grades:

Course grades will be calculated according to the high school procedure:

The student's semester grade is calculated by averaging according to the following scale:

Semester 1
Quarter 1 = 40%
Quarter 2 = 40%
Benchmark Assessment or teacher designed exam = 20%

Semester 2
Quarter 3 = 40%
Quarter 4 = 40%
Benchmark Assessment or teacher designed exam = 20%

Courses with End-of-Course Exams (Algebra 1 and Geometry)
All state generated EOCs (Algebra I and Geometry) will constitute 30% of the final course grade, as calculated after the completion of the school year. The year-long grade for EOC courses will be

calculated as follows: Semester 1 = 35% Semester 2 = 35% EOC Exam = 30%

Credit Recovery courses will follow the same grade calculation as all other similar courses.

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for whom the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC to potentially qualify for an EOC waiver. An individual IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

Any waiver of the statewide, standardized assessment requirements by the individual education plan team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

Florida Course Credit Statute:

Florida Statute requires that a student enrolled in a year-long course shall receive a full credit if the student passes one semester of the course but fails the other semester based on the defined recalculation process. This statute may also be applied if recalculation of a year-long grade would result in a higher final grade for the student, even if a semester grade of "F" was not earned. A student or parent must request this recalculation in writing. Schools must ensure students and parents are aware of this option.

The numeric semester grades will be averaged to calculate a year-long grade. If this average is to the student's benefit, it will be entered on the student's academic history as the final grade for the course. Each school will follow the district plan to ensure that the grade recalculation is completed and entered into the student system.

Courses carried forward as high school credit will be used to satisfy the high school graduation and Florida Academic Scholars Award requirements. A middle school student must be granted credit toward high school graduation requirements for courses taken through dual enrollment.

Once a high school grade is earned (credit carried forward to high school), that grade becomes a permanent on the student's transcript and may not be removed from the transcript.

High School Dual Enrollment Courses, End-of-Course Exams (EOC):

1. To earn high school credit for Algebra I, a middle school student must take the state-wide standardized Algebra I EOC assessment and pass the course. The student's performance on the Algebra I EOC assessment constitutes 30% of the student's final course grade. If a student passes the course but does not pass the EOC, the promotion requirement for middle school is met, but the student must pass an Algebra I EOC retake or have earned a comparative/concordant score on a state-approved assessment to earn a high school diploma.

To earn high school credit for a Geometry course, a middle school student must take the state-wide standardized Geometry EOC assessment, which constitutes 30% of the student's final course grade, and earn a passing grade in the course.

Semester grades for students who do not take the semester exam will be calculated with a 0% as the exam portion of the grade calculation. All make-ups for semester 1 exams must be completed within 5 school days following the semester 1 exam window unless approved by the school administrator. Once the exam is completed, the semester grade will be recalculated. If the semester 1 exam is not taken during the make-up window, the semester 2 exam grade may be used in its place.

2. Students enrolled in a high school course with a statewide, standardized end-of-course assessment shall not take the corresponding grade-level required state assessment.

3. A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for whom the IEP committee determines that an end-of-course (EOC) assessment with accommodations cannot accurately measure the student's abilities, shall have the EOC assessment results waived for the purpose of determining the student's course grade and credit. All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

   Any waiver of the statewide, standardized assessment requirements by the IEP team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

District Criteria for Enrollment in Advanced Middle School Courses:

Students/Parents may request enrollment in advanced middle school courses during the course selection process in the spring. Upon verification that required criteria has been met, enrollment will be granted. Principals may override the district criteria and place students in advanced courses based on data indicating that the student is capable of success in the courses. This data must be documented. AVID students must be placed in at least one honors, advanced, or dual enrollment course. Principals are encouraged to make exceptions to the placement criteria in the AVID students' areas of strength.

1. Accelerated Math: The student must have earned a proficient score or above on the most current required state assessment in Mathematics or have a teacher, counselor, parent/guardian, and/or counselor recommendation.

2. Advanced Language Arts: The student must have earned a Level 3 or above on the most current required

state assessment in English Language Arts (ELA) or have a teacher, counselor, parent/guardian, and/or counselor recommendation.

3. Advanced Science: The student must have earned a Level 3 or above on the most current required state assessment in Science, Mathematics, or English Language Arts (ELA) or have a teacher, counselor, parent/guardian, and/or counselor recommendation.

4. Advanced Social Studies: The student must have earned a Level 3 or above on the most current required state assessment in English Language Arts (ELA) or have or have a teacher, counselor, parent/guardian, and/or counselor recommendation.

Credit Acceleration Program (CAP)

The Credit Acceleration Program (CAP) is created for the purpose of allowing a student to earn high school credit in a course that requires a statewide, standardized end-of-course assessment if the student attains a specified score on the assessment. The school district shall award course credit to a student who is not enrolled in the course, or who has not completed the course, if the student attains a score indicating satisfactory performance on the corresponding statewide standardized end-of-course assessment. The school district shall permit a student who is not enrolled in the course, or who has not completed the course, to take the standardized end- of-course assessment during the regular administration of the assessment.

The credit awarded is for the regular course level and not the honors level. The credit for this course is not weighted for GPA calculation purposes.

If a student fails a course requiring an EOC to earn credit but attains a score indicating satisfactory performance on the corresponding EOC, credit will be awarded for the course as prescribed by state statute. Students must retake the course to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course and earns a "C" or above.

Grade Forgiveness Policy

Middle school students taking high school courses may repeat and replace a grade of "C", "D", or "F" earned during middle school in the high school course, with a grade of C or higher, earned subsequently in the same or comparable courses.

Credit Recovery courses are credit-bearing courses with specific content requirements defined by state adopted standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or end-of-course assessment) since the course requirements for the Credit Recovery course are the same as the previously attempted corresponding course. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1) (a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of- Course assessment retake.

Alternative Education Programs and the Department of Juvenile Justice

For students in alternative programs, including DJJ, the career education component must be completed by all students prior to leaving the 8th grade. For students in DJJ programs, the physical education requirement will be waived if the student is in a commitment program as an eighth grader. Physical education is not available in the DJJ program. For juvenile justice programs and alternative programs offering extended learning opportunities, promotions may occur as the requirements herein described are met.

High School Education (Grades 9-12)

I. Program of Studies Grades 9-12

High school basic education course offerings are selected from the Florida Department of Education's Course Code Directory and approved by the Deputy Superintendent for Instructional Services for the School District of Manatee County. All students will receive instruction in reading, English/language arts, mathematics, science, social studies, the Arts, health, and physical education. The School District of Manatee County will adhere to all statutes regarding required instruction.

Students are required to be enrolled on a full-time basis, to include seven courses or the equivalent. If there are extenuating circumstances, students may use a combination of virtual school courses and traditional courses to meet the full-time criteria. To use this option, seats must be available in the required virtual school courses, and principal approval must be obtained. Students pursuing the 18 credit, ACCEL Diploma Option may be enrolled part-time with principal approval.

Students wishing to have a part-time enrollment status may do so by registering as a home education student. Home education students may take up to three courses at their districted school, providing there is room in the courses selected. Home education students will not be awarded a diploma from the School District of Manatee County and may not participate in any senior graduation activities on the districted school campus.

II. Grades and Credits

Grading Scale

Student achievement in all courses will be evaluated using numeric and letter grades. As designated in Florida Statute, the letter grade scale and definitions adopted for all courses in grades 9 through 12 are as follows:

Value	Numeric Range	Letter Grade	Definition
4	90-100	A	Outstanding Progress
3	80-89	B	Above Average Progress
2	70-79	C	Average Progress
1	60-69	D	Lowest Acceptable Progress
0	0-59	F	Failure

Note: W = Withdrawn I = Incomplete* NG—No Grade Assigned

*An incomplete grade ("I") will be changed to a letter grade upon completion of all course requirements within 10 school days of grades being posted, under normal circumstances. If, after 10 days, the course requirements are not completed, the incomplete grade will become an "F."

Exam Exemption Policy:

Seniors who earn a "B" or higher for both third and fourth quarters may be exempt from the required semester 2 exam. State mandated end-of-course exams, AP, IB, AICE, and dual enrollment course exams may not be exempted. Grades for students who are eligible to exempt the semester 2 exam will be averaged using only the third and fourth quarter grades. Each quarter will be calculated at 50% of the total semester 2 grade.

Grading Policies:

Schools shall not exempt students from academic performance requirements, such as final exams, based on practices or policies designed to encourage student attendance. A student's attendance record may not be used in whole or part to provide an exemption from any academic performance requirement.

Students must be notified in writing at the beginning of each course as to how their grades will be determined. This could be included in the course syllabus or information shared with students and parents.

Pass/Fail grades will not be issued for courses offered in Manatee District Schools. Students who transfer in with a Pass ("P") grade will earn the credit for the indicated course(s) but will not have a grade calculated into their grade point average.

In alignment with postsecondary education, withdrawals from a course will not become part of the student record if the course is dropped within the first ten days of the start of the semester. A "W" (Withdraw) will be recorded after the first ten days but prior to the end of the first/third quarter. Either a "WP" (Withdraw Passing) or "WF" (Withdraw Failing) will be recorded if the course is dropped after the first or third quarters, indicating the student's progress at the time of withdrawal. There is no impact on GPA.

Progress Reports are issued mid-way through each quarter (approximately 4.5 weeks) to notify students and their parents or guardians of mid-term academic progress. Additionally, parents may monitor student progress regularly through the FOCUS Parent Portal. To communicate with teachers, parents may contact each teacher by phone at school or through email. Many teachers maintain a web page or post through our online platform Schoology to upload information such as homework, other assignments, major projects, unit assessments, and the course syllabus.

Semester Grades

A Semester Exam is required in all courses for high school credit. Semester Exams may not be given early. Semester grades for students who do not take the semester exam will be calculated with a 0% as the exam portion of the grade calculation. All make-ups for semester exams must be completed within 5 school days following the semester exam window unless approved by the school administrator. Once the exam is completed, the semester grade will be recalculated. If the semester 1 exam is not taken during the make-up window, the semester 2 exam grade may be used in its place.

Course grades will be averaged as follows:

The student's semester grade is calculated by averaging according to the following scale:

Quarter 1 = 40%	Quarter 3 = 40%
Quarter 2 = 40%	Quarter 4 = 40%
Semester Exam = 20%	Semester Exam = 20%

The Algebra I, Geometry, U.S. History, and Biology EOCs will constitute 30% of the final course grade, calculated after the completion of the school year. The year-long grade for EOC courses will be calculated as follows:

Semester 1 = 35%
Semester 2 = 35%
EOC Exam = 30%

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for who the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

Any waiver of the statewide standardized assessment requirements by the IEP team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

Florida Course Credit Statute:

Florida Statute requires that a student enrolled in a year-long course shall receive a full credit if the student passes one semester of the course but fails the other semester, and the average of the two semesters is a 60% or higher based on the defined recalculation process.

If recalculation of a year-long grade, even if a semester grade of "F" was not earned, would result in a higher final grade for the student, this statute may also be applied. Schools must ensure students and parents are aware of this option.

The numeric semester grades will be averaged to calculate a year-long grade. If this average is to the student's benefit, it will be entered in the student's academic history as the final grade for the course. Each school will

follow the district plan to ensure that the grade recalculation is completed and entered into the student system.

This rule applies when both semesters are taken within one school year, and the student fails one of the two semesters. Students continue to earn half-credit for passing a semester of a course. This does not affect other credit recovery options.

Make-up Work

Following an excused absence, the student has the responsibility to contact his/her teachers on the next attended day in order to obtain any missed assignments. Work assigned prior to the absence is due the day the student returns to school. Work assigned during the student's excused absence is due within a period of time equal to the number of days that the student was absent.

Grade Point Average

1. A student's cumulative grade point average (GPA) will be calculated based upon all courses a student has completed, including courses taken for high school credit in middle school, except those where the forgiveness policy applies. Transfer credit(s) with a grade of Pass (P) will not be calculated into the GPA. In order to graduate, students must earn a cumulative unweighted GPA of 2.0 on a 4.0 scale.

2. Parents of students who have a cumulative GPA of 1.5 or below at the end of each semester in grades 9, 10, 11, and 12 shall be notified that the student is at-risk of not meeting the graduation requirements. The notice shall contain an explanation of the policies the district has in place to assist the student in meeting the GPA requirement.

Class Rank:

1. For the purposes of class ranking, high schools will use a weighted grading system for appropriate courses as indicated in the Florida Department of Education Comprehensive Course Table for high school credit courses. Class rank for graduation will be determined in January of the current school year. Class rank is determined by a student's cohort, which is defined by the year that the student enters 9th grade.

2. Class rank will be determined based on courses for which credit and grades are awarded toward a Standard Diploma. Students earning an Access Points Pathway Standard Diploma, Hospital Homebound students, and Home Education students will not be included in the class ranking. A student's rank in class will be determined by using the cumulative weighted grade point average.

3. Class rank will be calculated and locked for graduation recognition purposes ten (10) school days after the end of the first semester. After it is locked, there will be no recalculation of class rank for graduation purposes.

4. Grade weighting is done at the discretion of the school district. The School District of Manatee County will weight all courses, including those who transferred from out of district, based on the scales described below.

5. The grade weighting scale is as follows:

Unweighted Grade Points	Weighted Honors Course Grade Points	Weighted Advanced Studies Course* Grade Points
A=4	A=4.5	A=5
B=3	B=3.5	B=4
C=2	C=2.5	C=3
D=1	D=1.5	D=2

* (Section 1003.437, F.S., specifies that "For the purposes of class ranking, district school boards may exercise a weighted grading system pursuant to s. 1007.271." For districts that use a weighted grading system, s. 1007.271(18), F.S., states that "school districts and Florida College System institutions must weigh dual enrollment courses the same as Advanced Placement, International Baccalaureate, and Advanced International Certificate of Education courses when grade point averages are calculated. Alternative grade calculation systems, alternative grade weighting systems, and information regarding student education options that discriminate against dual enrollment courses are prohibited." This provision relating to GPA weighting includes all dual enrollment courses, including career education courses.)

6. Grades earned in Career and Technical Education courses that are Level 3 courses and lead to an industry certification are weighted the same as grades earned in Honors courses for the purpose of calculating grade point average (GPA).

Honors Recognition

The upper 10% of the graduating class, based on the weighted rank in class, will be graduated with Honors in the recognition of excellence in academic achievement. High schools will determine the top 10% and top 4% of the graduating class using the weighted grade point average. All Honors and Highest Honors students will be recognized at commencement. A Valedictorian and a Salutatorian will not be chosen.

Grade Forgiveness

Achievement of a cumulative grade point average of 2.0 (unweighted) on a 4.0 scale is required for graduation. To assist students in meeting this requirement, districts may offer grade forgiveness policies, summer school, before-school or after-school attendance, special counseling, volunteers or peer tutors, school-sponsored help sessions, homework hotlines, and study skills classes.

1. To assist students in achieving a cumulative grade point average of 2.0 (unweighted) on a 4.0 scale, the forgiveness policy provides that students may replace a "D" or "F" with a grade of "C" or higher, earned subsequently in the same or comparable course. Only one grade and one credit may be earned for the same course. When a course is repeated, all grades appear on the student's transcript. The forgiveness policy applies only when a course is repeated after the course for which the "D" or "F" was earned. Students may repeat a course already passed only once.

2. The only exception to these forgiveness policies shall be made for a student in middle school who takes

any high school course for high school credit and earns a grade of "C", "D", or "F". In such cases, the district forgiveness policy must allow the replacement of the grade with a grade of "C" or higher, earned subsequently in the same or comparable course. When a course is repeated, all grades appear on the student's transcript. All grades, except those that meet the conditions of the grade forgiveness policy, will be calculated in the grade point average.

3. In all cases of grade forgiveness, only the new grade is used in the calculation of the student's grade point average. Any course not replaced according to the forgiveness policy is included in the calculation of the cumulative grade point average required for graduation. Postsecondary institutions may have different grade forgiveness policies; therefore, the GPA may be recalculated to include ALL courses attempted which could affect admissions decisions.

4. An elective course may be replaced with any other elective course, as long as graduation requirements are still met with the substituted elective course. A student may choose to retake a high school course where no credit was awarded.

Credit Recovery courses are elective credit-bearing courses with specific content requirements defined by Florida State Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment). It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona

fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery or grade forgiveness or to support on-time graduation.

Credits

The granting of course credit is based on an evaluation of the individual student's achievement of established district and state performance standards and other requirements as designated by the teacher. Performance standards will include specific course content as specified in statutes and in the district curriculum.

1. For the purpose of high school graduation requirements, one full credit is determined as follows:
    a. A minimum of 135 hours of bona fide instruction in a designated course of study which contains student performance standards; or
    b. For schools that have been authorized to implement block scheduling by the district school board, a minimum of 120 hours of bona fide instruction in a designated course of study that contains student performance standards for purposes of meeting high school graduation requirements.
2. One-half (.5) credit means a minimum of 67.5 hours of bona fide instruction or a minimum of 60 hours of bona fide instruction in a high school that implements block scheduling. One half (.5) credit shall be awarded at the end of each semester/term upon the satisfactory completion of course requirements. Courses with a required end-of-course (EOC) exam earn one (1) credit upon satisfactory completion of course requirements.
3. Student performance standards must be met for each academic and Career and Technical Education Program in grades 9 through 12 for which credit toward high school graduation is awarded.
4. Credit will be awarded if a student who is not enrolled in or who has not completed a course takes and passes a statewide standardized assessment through the Credit Acceleration Program. No student may be granted credit toward high school graduation for enrollment in the following programs or courses:
    a. More than a total of nine elective credits in remedial programs.
    b. More than one credit in exploratory vocational courses.
    c. Any Level 1 course, unless the student's assessment indicates a more rigorous course would be inappropriate, in which case a written assessment of the need must be included in the Individual Education Plan or the Individual Progress Monitoring Plan and signed by the principal, school counselor and the parent, if the student is not 18 years or older.
5. Enhanced Instruction for Non-Proficient Students:
    - Students must earn a Level 3 or higher in English Language Arts (ELA) and/or Math on a standardized assessment. Students who do not meet these criteria may be required to receive enhanced instruction through a course that will assist in building the students' skills and in

mastering standards.

- School administrators may use concordant/comparative scores on state-approved assessments.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school. The following criteria must be met to qualify for this waiver:

a. Parents must complete the Intensive Instruction Waiver Request Form (Appendix A).

b. Student must be in 6th-12th grade.

III. Promotion

Promotion Guidelines

Students will be promoted based on the number of years they have attended high school:

First year—9th grade

Second year—10th grade

Third year—11th grade

Fourth year—12th grade

Students entering high school for the first time may be placed into the 9th grade.

Students who do not meet graduation requirements after the 8th semester of high school and choose to continue their high school education, may be placed in an alternative site at the start of their 9th semester.

Students who plan to graduate in three years will be promoted to 12th grade after the first semester of their third year in high school.

IV. Acceleration and Enrichment

Articulated acceleration is available and serves to shorten the time necessary for a student to complete the requirements associated with a high school diploma and a postsecondary degree, broaden the scope of curricular options available to students, or increase the depth of study available for a particular subject. This includes, but is not limited, to postsecondary Dual Enrollment and Early Admission, Cambridge Advanced International Certificate of Education Program (AICE), Advanced Placement (AP), and the International Baccalaureate (IB) Program. Credits earned through the Florida Virtual School shall provide additional opportunities for early graduation and acceleration.

Each high school shall advise students of programs through which a high school student can earn college credit, including AP, IB, AICE, dual enrollment courses, career academy courses, and courses that lead to national industry certification, as well as offerings through virtual instruction.

To be eligible to participate in AICE, AP or IB programs, a student shall have a 3.0 grade point average and have earned Level 3 or higher on the state assessment passed a nationally-normed standardized test, earned the required comparative/concordant score within the last two years, or been granted admission at the discretion of the principal.

Eligibility requirements for dual enrollment programs are determined by each enrolling institution and can be accessed on the institution's website.

A student transferring in from out-of-state, homeschool, or private school with a state or national normed test score demonstrating that the course is academically appropriate, may enroll in AP, IB, or AICE. If requested by the student or parent, the principal may override the district criteria and place students in advanced studies courses based on data indicating that the student is capable of success in the courses. This data must be documented.

Home education students may participate in dual enrollment, career dual enrollment, early admission, and credit by examination. Credit earned by home education students through dual enrollment shall apply toward the completion of a home education program that meets the requirements of Section 1002.42, Florida Statute.

Advanced Placement (AP)

Advanced Placement (AP) is a program for eligible secondary school students to enroll in college-level courses administered by the College Board. Postsecondary credit for an AP course may be awarded to students who score a minimum of 3 on a 5-point scale on the corresponding AP exam in accordance with the policies of the receiving college or university. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for AP courses in which they are enrolled, including fees for administration of the corresponding AP examination, regardless of whether the student achieves a passing score. Students requesting to take AP exams for courses in which they are not currently enrolled must pay for the cost of the AP exam. Home education students may be assessed a fee for test administration.

Students earning a "D" or "F" in an Advanced Placement course at the end of first semester may be withdrawn and scheduled into another course in the same subject area.

AP Capstone™

AP Capstone™ is a diploma program based on two AP courses: AP Seminar and AP Research. These yearlong courses focus on developing the critical thinking, research, collaboration, time management, and presentation skills students need for college-level work. If a student earns scores of 3 or higher in AP Seminar and AP Research, he or she will receive the AP Seminar and Research Certificate™. If a student earns scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams, the student will receive the AP Capstone Diploma™.

AP Seminar - During this course, students investigate a variety of topics through various viewpoints. Students will also complete a team project and an individual paper and presentation, as well as take a written end-of-course exam.

AP Research - In AP Research, students explore various research methods and complete an independent research project. The project can build on a topic, problem, or issue covered in AP Seminar or on a brand-new topic of your own choosing. At the end of the project, students submit an academic paper and present and defend the research findings.

International Baccalaureate (IB)

International Baccalaureate (IB) is a program administered by the IB Organization whereby eligible secondary students are enrolled in a prescribed program of studies. The State Board of Education has established rules that specify the cutoff scores for IB examinations that will be used to grant postsecondary credit at colleges and universities. Students shall be awarded a maximum of 30 college semester credit hours. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for IB courses in which they are enrolled, including fees for administration of the examinations, regardless of whether or not the student achieves a passing score on the examination.

Students earning a "D" or "F" in an IB course at the end of the first semester may be withdrawn and scheduled into another course in the same subject area.

Cambridge Advanced International Certificate of Education (AICE)

Cambridge Advanced International Certificate of Education (AICE) provides a high-quality curriculum which prepares young people for honors degree programs. It requires the study of subjects drawn from three curriculum areas; mathematics and science, languages, and arts and humanities. AICE offers students the opportunity to tailor their studies to their individual interests, abilities, and future plans within an international curriculum framework. The State Board of Education has established rules that specify the cutoff scores that will be used to grant postsecondary credit at community colleges and universities. Students shall be awarded a maximum of 30 college semester credit hours. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for Cambridge AICE courses in which they are enrolled, including fees for administration of the examinations, regardless of whether or not the student achieves a passing score on the examination. Students requesting to take Cambridge AICE exams for courses in which they are not currently enrolled must pay for the cost of the Cambridge AICE exam.

Students earning a "D" or "F" in an AICE course at the end of the first semester may be withdrawn and scheduled into another course in the same subject area.

Early High School Graduation

Early high school graduation is an option if a student has completed a minimum of 24 credits and meets all graduation requirements in less than 8 semesters, or meets the 18 credit, ACCEL Diploma Option. A student who graduates early may continue to participate in school activities and social events and attend and participate in graduation events with the student's cohort as if the student were still enrolled in high school. A student who graduates early will be included in class ranking, honors, and award determinations for the student's cohort. Cohort is defined by the FLDOE as when the student enters 9th grade (1003.4281).

A student who graduates early must comply with district school board rules and policies regarding access to the school facilities and grounds during normal operating hours.

Advancement Via Individual Determination (AVID)

Advancement Via Individual Determination (AVID) is designed to prepare students for college and career readiness and success. Students who apply for and are accepted must also take at least one weighted course (Honors, Pre-AP, AP, Pre-IB, IB, pre-AICE, AICE, and dual enrollment) and the AVID Academic elective. AVID is designed for students who are capable of completing a college-preparatory curriculum. The AVID curriculum supports students as they undertake the most rigorous courses, with an emphasis on writing as a learning tool, the inquiry method, collaborative course grouping, organization, and academic reading. Principals are encouraged to make exceptions to the placement criteria for weighted courses in AVID students' areas of strength.

High School Dual Enrollment for Middle School Students

High school courses may be taken by eligible middle school students.

1. High school courses taken during middle school may be used to satisfy high school graduation requirements and Florida Bright Futures scholarship requirements.
2. A student must be granted credit toward high school graduation requirements for courses completed in middle school. Grades for high school credit courses taken during middle school will appear on the high school transcript, and the grades will average into the student's high school grade point average (GPA).
3. High schools shall not award high school credit for courses taken in middle school if the middle school did not award the high school credit.
4. Middle school students taking courses that require an EOC must follow statute.

Postsecondary Dual Enrollment and Early Admission

Postsecondary Dual Enrollment programs and Early Admission are available at all high schools. The requirements for dual enrollment programs are pursuant to F.S. 1007.271.

1. Dual Enrollment program is defined as the enrollment of an eligible secondary student or home education student in a postsecondary course creditable toward high school completion AND a career and technical certificate or an associate or baccalaureate degree. Career dual enrollment shall be available for secondary students seeking a degree or certificate from a complete career-preparatory program and shall not be used to enroll students in isolated career courses.
2. The School Board shall inform all secondary school students of dual enrollment as an educational option and mechanism for acceleration. Students shall be informed of eligibility criteria, the option for taking dual enrollment courses beyond the regular school year, and the minimum academic credits required for graduation. District school boards must annually assess the demand for dual enrollment, and the district

school board shall consider strategies and programs to meet that demand and include access to dual enrollment on the high school campus whenever possible. Information regarding student education options which discriminate against dual enrollment courses is prohibited.

3. Students enrolled in postsecondary instruction that is not creditable toward the high school diploma shall not be classified as dual enrollment.

4. Students who are eligible for dual enrollment shall be permitted to enroll in dual enrollment courses conducted during school hours and after school hours.

5. Instructional time for such enrollment may vary from 900 hours; however, the school district may only report the student for a maximum of 1.0 Full-Time Equivalency (FTE). Any student so enrolled is exempt from the payment of registration, tuition, and laboratory fees. Vocational-preparatory instruction, college-preparatory instruction, and other forms of pre-collegiate instruction, as well as physical education courses that focus on the physical execution of a skill rather than the intellectual attributes of the activity, are ineligible for inclusion in the dual enrollment program. Recreation and leisure studies courses shall be evaluated individually in the same manner as physical education courses for potential inclusion in the program.

6. Each semester of instruction that is eligible for high school and postsecondary credit shall be reported by school districts as 75 membership hours for purposes of FTE calculation.

7. Dual enrollment courses are weighted the same as AP, AICE, and IB courses. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited.

8. The Department of Education adopted guidelines to achieve comparability across school districts of both student qualifications and teacher qualifications for dual enrollment courses. A high school student must complete the following:

    a. Demonstration of readiness for college-level course work if the student is to be enrolled in college courses;

    b. Demonstration of readiness for career-level course work if the student is to be enrolled in career courses;

    c. Indication that, in addition to the required placement examination, student qualifications for enrollment in college credit dual enrollment courses must include at least a 3.0 unweighted GPA, and student qualifications for enrollment in career certificate dual enrollment course must include at least a 2.0 unweighted grade point average.

9. The Inter-institutional Articulation Agreement is jointly developed between the School District of Manatee County and State College of Florida, University of South Florida, and/or other postsecondary institutions to provide advanced instruction for those students who demonstrate a readiness to engage in postsecondary academic work. In this program, students may earn credit toward both a high school diploma and an associate or baccalaureate degree. The agreement includes the following:

a. A delineation of courses and programs available for students;

b. A plan for the institution to provide guidance services to participating students on the selection of courses in the dual enrollment program;

c. The process by which students are eligible to participate in dual enrollment and by which their parents are informed about opportunities to participate in acceleration programs;

d. An assurance that each dual enrollment student is encouraged to identify a postsecondary education objective with which to guide the course selection;

e. An assurance that each student has a plan that includes a list of courses that will result in an Applied Technology Diploma, an Associate in Science degree, or an Associate in Arts degree, and, if the student identifies a baccalaureate degree as the objective, the plan must include courses that will meet the general education requirements and any prerequisite requirements for entrance into a selected baccalaureate degree program;

f. The process by which students and their parents exercise their option to participate in an acceleration program;

g. An explanation of high school credits earned for completion of each dual enrollment course;

h. An explanation of postsecondary courses that meet the criteria for inclusion in the district articulated acceleration program to be counted toward meeting graduation requirements;

i. The eligibility criteria for student participation;

j. An explanation of institutional responsibility for screening prior to enrollment and monitoring student performance subsequent to enrollment;

k. An identification of the instructional quality criteria for dual enrollment courses and programs that are to be judged;

l. A delineation of institutional responsibilities for instructional quality;

m. A delineation of responsibilities for cost of dual enrollment courses and instructional materials;

n. A description of transportation;

o. The process for converting college credit hours through dual enrollment and early admissions to high school credit; and

p. An identification of the responsibility of the postsecondary educational institution for assigning letter grades for dual enrollment courses and the responsibility of school districts for posting dual enrollment grades to the high school transcript as assigned by the postsecondary institution awarding credit.

10. Only those academic elective courses approved in the Dual Enrollment Articulation Agreement can be taken for dual enrollment credit. An academic elective that counts as credit toward graduation can be taken

as dual enrollment with the approval of the principal.

11. The State Board of Education shall determine the number of postsecondary credit hours earned through dual enrollment that satisfy the requirements of the district's inter-institutional articulation agreement and that equal one full credit of the equivalent high school course.

12. When dual enrollment is provided on the high school site by college or university faculty, the school district shall reimburse the costs associated with the proportion of salary and benefits and other actual costs of the college or university to provide the instruction. Charter schools are an entity of the School District of Manatee County and are bound by the rules and policies of the approved IAA between the school district and State College of Florida, University of South Florida, or other postsecondary institutions. While the School District of Manatee County will be invoiced for the tuition, charter schools receive FTE for dual enrollment students and will be responsible to the School District for all dual enrollment tuition encumbered by their students.

Credit by Examination

Credit by examination is the program through which postsecondary credit is earned based on the receipt of a specified minimum score on nationally standardized general or subject area examinations. The State Board of Education states minimum scores required for an award of credit in the statewide articulation agreement.

College and University Programs

1. Students who wish to participate in an educational program offered by accredited schools, colleges, or universities must have prior written agreement with the school principal, detailing any credit or grade acceptance toward high school graduation or inclusion on the high school transcript. Students should meet with their school counselors to determine appropriate course selections prior to registration. Final inclusion on the high school transcript will be completed only upon the school's receipt of all necessary documentation from the appropriate institution.

2. All evidence of work/credits earned at another school will be based on an official transcript authenticated by the proper school authority. Credits from state or regionally accredited schools shall be accepted at face value, subject to validation where deemed necessary. Credits earned through alternative delivery systems that are accredited by a regional accrediting association, non-accredited schools, home schools, or non-accredited correspondence schools shall be validated by the administration of examinations or by establishing credits earned through successful performance in subsequent courses.

With the approval of the principal, students may earn credit through dual enrollment, Advanced Placement, Cambridge Advanced International Certificate of Education, International Baccalaureate programs, Florida Virtual School, and by using substitutions indicated in the course code directory. Home education students may participate in college dual enrollment, working directly with State College of Florida, University of South Florida, or other postsecondary institutions, career and technical dual enrollment and early admission and credit by exam by postsecondary institutions. Dual enrollment credit earned by home education students shall

apply toward the completion of a home education program that meets the requirements of state statute.

Students who wish to enroll in courses from multiple postsecondary institutions are limited to a total of eleven (11) credit hours per semester.

Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, virtual instruction in higher grade level subjects, and Credit Acceleration Program (CAP). Whole-grade and mid-year promotion requires secondary students to meet student progression course/credit promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade-level subjects is available when students have exhausted the course offerings at the school, and students meet the course prerequisites. The Credit Accelerated Program may be used for any course that requires an end-of-course exam to earn credit in the course. In addition to these requirements, the following must be considered when establishing eligibility:

1. The student's performance on required state assessments
2. The student's grades or grade point average
3. The student's attendance and conduct
4. Teacher and school counselor recommendations

Each school must inform students and parents of these options. A student or a parent may request one of these options by written request to the principal. This will be followed by a parent conference to discuss eligibility and placement.

Credit Acceleration Program (CAP)

1. The Credit Acceleration Program (CAP) is created for the purpose of allowing a student to earn high school credit in a course that requires a statewide, standardized end-of-course assessment if the student attains a specified score on the assessment. If the student attains a score indicating satisfactory performance on the corresponding statewide standardized end-of-course assessment then the school district shall award course credit to a student who is not enrolled in the course, or who has not completed the course. The school district shall permit a student who is not enrolled in the course, or who has not completed the course, to take the standardized end-of-course assessment during the regular administration of the assessment. If a student earns course credit without enrollment in a course via the CAP, a grade of "T" is recorded on the transcript in the Grade column.
2. The credit will be awarded for the course as prescribed by state statute when a student fails a course requiring an EOC to earn credit, but attains a score indicating satisfactory performance on the corresponding EOC. Students must retake the course in order to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course and earns a "C" or above.
3. A student will be awarded course credit for earning a grade of 3 or higher on an Advanced Placement

exam, even if not enrolled in the course, or for passing a CLEP test. If a student fails an AP course, but attains a score indicating satisfactory performance on the corresponding AP exam, credit will be awarded for the course as prescribed by state statute. Students must retake the course or an equivalent course in order to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course or an equivalent course and earns a "C" or above.

Credit for Career & Technical Student Organization Participation (CTSO)

A high school student may be awarded one (1) elective credit when at least 135 hours of participation in a CTSO is shown. This participation must be outside the school day and verified by school/district personnel using the approved forms that are provided by the CTSO advisor. The collection of all forms is the responsibility of the student, as the hours can be accumulated over several years including middle school. Students are encouraged to request documentation by the end of each school year as advisors may change or retire.

V. Graduation Requirements

General Information

A student in a Manatee County public school may earn a Standard Diploma or a Certificate of Completion. All requirements must be met before a diploma or certificate is awarded. The diploma or certificate will be awarded to reflect the year that the final requirements are met. To earn a diploma, a student must meet the graduation requirements for the school year in which that student entered ninth grade for the first time. In accordance with the Individuals with Disabilities Act (IDEA), students with disabilities may receive services through the public school system through age 21 (i.e., until their 22nd birthday) or until they graduate with a Standard Diploma, whichever comes first.

Before a student graduates from high school, the school shall assess the student's preparation to enter the work force and provide the student and student's parent/guardian with the results of the assessment. The Department of Education has determined that, because required state assessments assess certain Education Goal 3 standards, which were developed from a United States Secretary of Labor's report on necessary skills, the required state assessments can serve as this assessment.

Students who have met all requirements for the standard high school diploma except for passage of the required state assessment or an alternate assessment by the end of Grade 12 must be provided the following learning opportunities:

1. participation in an accelerated high school equivalency diploma preparation program during the summer;
2. upon completion of Certificate of Completion, be allowed to take the Postsecondary Education Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college, as

appropriate: and

3. participation in an adult general education program for such time as the student requires to master English, reading, mathematics, or any other subject required for high school graduation. Students attending adult basic, adult secondary, or vocational-preparatory instruction are exempt from any requirement for the payment of tuition and fees, including lab fees. A student attending an adult general education program shall have the opportunity to take the required state assessment an unlimited number of times in order to receive a standard high school diploma.

Change in Graduation Requirements

School Board approval is required prior to increasing a school's graduation requirements. An increase in academic credit or minimum grade point average requirements shall not apply to students in grades 9-12 at the time of the increase.

District school boards may not establish requirements for the ACCEL Accelerated Diploma Option in excess of the requirements as per statute.

Participation in the Graduation Ceremony

A student must complete all requirements for a standard or special diploma in order to participate in his/her high school graduation ceremony. A student must be registered at a Manatee district high school and complete at least one course on the campus of their brick-and-mortar school during their graduation year in order to participate in that high school's graduation ceremony. Full-time dual enrolled students, early admission students, and students enrolled in a School District of Manatee County sanctioned educational option may participate in their enrolled high school's graduation ceremony. A full-time virtual school student will not be allowed to participate in graduation at his or her zoned school.

A student who withdraws from a high school, enrolls in an adult program, and successfully completes the Graduate Educational Development (GED) tests, may participate in the adult high school graduation ceremony, and is awarded a State of Florida diploma. Students may not participate in the graduation ceremony with their previous high school.

Special Education students who earn a Certificate of Completion as addressed in the IEP may participate in the graduation ceremony. A student who receives a Certificate of Completion due to not meeting graduation requirements for a Standard Diploma may not participate in any graduation ceremony. A Special Education student whose diploma has been deferred based on the IEP team decision will be permitted to participate in the graduation ceremony for his or her cohort group only.

Summer Graduation

A student who completes the 12th grade without having met all graduation requirements may attend summer school. If the student satisfactorily completes all graduation requirements, the student may participate in the district summer graduation ceremony.

Students who graduate from an alternative educational path as sanctioned by the School District of Manatee County may participate in the summer graduation ceremony. Students enrolled in a School District of Manatee County alternative high school who are not permitted to walk with their zoned schools may participate in the district summer graduation ceremony.

Graduation Requirements: Standard Diploma

Standard Diploma Options:

To graduate from a Manatee County public school, all students seeking a standard diploma must select one of the graduation diploma options:

1. Four Year Standard Diploma 24 credits
2. ACCEL Accelerated Graduation Option 18 credits
3. CTE Graduation Pathway 18 credits

Students must select one of the graduation options. The choice is exclusively up to the student and his/her parent/guardian.

Each year, schools shall notify students in grades 6 – 12 and their parent of the high school graduation options and requirements, including the respective curriculum requirements for those options, so the student and parent/guardian may select the program which best fits their needs. This notification shall be made prior to the annual spring registration of students for the following year, so the student's academic plan can be selected or modified to meet the needs of the student. Students must be advised of eligibility requirements for state programs and postsecondary admissions.

If the student and parent/guardian fails to select a diploma option, the student shall be considered to have selected the Four Year Standard Diploma option, which requires 24 credits.

Changing between Standard and Accelerated Diploma Options:

Once a diploma option is selected, the option remains in effect throughout the student's high school experience, unless the parent and student submit a written request to change diploma options as part of the registration process for the upcoming school year. Any such change must be submitted in writing.

Diploma Endorsement:

School boards may attach a Florida Gold Seal Career and Technical Endorsement to a Standard Diploma or award differentiated diplomas to those exceeding the prescribed minimums.

Grade Point Average:

In order to graduate from high school, students must achieve a cumulative unweighted grade point average (GPA) of 2.0 on a 4.0 scale in the courses required for graduation.

State Assessment:

Students must meet all state assessment requirements in order to graduate from high school with a Standard Diploma. Students may use concordant scores or the required state assessments waiver (ENNOBLES Act) to satisfy this requirement.

Diploma Designations:

The **Florida Seal of Biliteracy** Program is established to recognize high school graduates who have attained a high level of competency in listening, speaking, reading, and writing in one or more foreign languages, in addition to English, by the award of a silver or gold seal on a Standard Diploma. The criteria for both seals can be found at http://www.fldoe.org/academics/eng-language-learners/world-languages-foreign-languages.stml.

Students may earn either a **Scholar Diploma** designation or a **Merit Diploma** designation by meeting specific criteria. Criteria is listed in the graduation requirement charts found at https://www.fldoe.org/schools/k-12-public-schools/sss/graduation-requirements/.

The **Florida Seal of Fine Arts** Program is created to recognize high school graduates who have met an exemplary level of proficiency in the performing or visual arts based on established criteria. The criteria for the Florida Seal of Fine Arts can be found at https://www.fldoe.org/academics/standards/subject-areas/fine-arts/ .

Credit Requirements: Standard Diploma

Students receiving a Standard High School Diploma must meet the requirements specified in Florida Statutes. More information on graduation requirements can be found at https://www.fldoe.org/schools/k-12-public-schools/sss/graduation-requirements/.

CTE Graduation Pathway:

Beginning with the 2019-2020 school year, a student is eligible to complete an alternative pathway to earn a standard high school diploma through this option by:

- Earning at least 18 credits.
- Earning a cumulative grade point average of a 2.0 on a 4.0 scale.
- Completing the same requirements as for a standard diploma in ELA, Math, Science and Social Studies.
- Completing two credits in career and technical education. The courses must result in a program completion and an industry certification.
- Completing two credits in work-based learning programs. A student may substitute up to two credits of electives, including one-half credit of financial literacy.

Course Information

Mathematics:

A certified school counselor or the principal's designee must advise students that state universities may require three additional mathematics courses at least as rigorous as Algebra I for admission. Level III Mathematics courses in the Florida Course Code Directory may substitute for the Algebra I requirement. Transfers from outside Manatee County may fulfill the Algebra I requirement with the state equivalents. Credit may not be earned for more than one of the options. Students must earn the necessary mathematics credits required for graduation.

A student who earns an industry certification for which there is a statewide college credit articulation agreement approved by the State Board of Education may substitute the certification for one mathematics credit. Substitution may occur for up to two mathematics credits, except for Algebra I and Geometry. This option will not impact a student's grade point average as no grade is awarded for the substituted math course.

A student may substitute a credit in computer science, if identified as equivalent in rigor by the Commissioner, for one mathematics requirement except for Algebra I and Geometry. A computer science credit may only be used to substitute one course (either mathematics or science).

A student that earns an industry certification in 3D rapid prototype printing may substitute up to two credits of the mathematics requirement, with the exception of Algebra I, if the Commissioner identifies the certification as being equivalent in rigor.

Science:

Students are required to earn three (3) credits in science. One of which must be Biology, and two of which must be equally rigorous science courses. Two of the three required course credits must have a laboratory component. Industry Certifications that lead to college credit may substitute for up to one science credit (except for Biology). Industry certifications for which there is a statewide college credit articulation agreement approved by the State Board of Education may substitute for mathematics and science credit. An identified computer science credit may substitute for up to one science credit (except for Biology). A computer science credit may not be used to substitute for both a mathematics and science credit.

Community Service:

If offered at the high school, students may enroll in Voluntary Public Service (0500370) or Voluntary School/Community Service (2104330). Students may earn community service hours and elective credit for the Voluntary Public Service course. To receive credit for the Voluntary School/Community Service course, students must complete at least 75 community service hours. Students will be awarded social studies elective credit as well as the community service hours earned during completion of the course standards.

Students documenting community service or work hours to complete the requirement for the Florida Bright Futures Scholarship must submit those hours on the School District of Manatee County official forms. Forms are available at your school. Hours earned in other states are accepted as well as long as they are appropriately documented. More information on the Bright Futures program can be found at: https://www.floridabrightfutures.gov/

Health Opportunities through Physical Education (HOPE):

HOPE is a year-long health and physical education (PE) course required of all high school students. A school may not require students to take the one credit in HOPE or a Health/PE variation of HOPE during the ninth grade.

Schools may offer one of the following options to meet the health/PE graduation requirement:

- student takes ½ credit in Physical education and ½ credit in Personal Fitness;
- student takes the one credit HOPE Core course; or
- student takes the one credit HOPE Physical Education Variation course.

Students can meet the HOPE requirement by passing .5 credit of Personal Fitness and .5 credit in a Physical Education course.

Certain activities as follows may satisfy a portion or all of the HOPE/Physical Education requirement.

1. Interscholastic Sports:

   Participation in two seasons of an interscholastic sport at the junior varsity and varsity levels satisfies the full 1 credit HOPE requirement.

2. Junior Reserve Officers Training Corps (JROTC):

   Completion of two years in a Junior Reserve Officers Training Corps (JROTC) course satisfies the full one credit of HOPE/physical education requirement and the full one credit of Performing Arts requirement. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an IEP or Section 504 plan.

3. Completion of one semester, with a grade of "C" or better in a marching band class, in a physical activity class that requires participation in marching band activities as an extracurricular activity, or in a dance class shall satisfy .5 credit in physical education or .5 credit in performing arts. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an IEP or Section 504 plan.

4. Completion of 2 years of marching band shall satisfy the one-credit requirement in physical education or the one-credit requirement in performing arts. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an individual education plan (IEP) or 504 plan.

Assessment Requirements:

To meet graduation requirements, a student must earn passing scores on the required statewide assessments or earn scores on a standardized test (PSAT, SAT, CLT, and/or ACT) that are concordant/comparative with passing scores on the required statewide assessments. Participation in the assessment program is mandatory for all school districts and all students attending public schools. Students who transfer from out-of-state, home education or private school must have a passing score on a statewide end-of-course assessment for Algebra from the previous state/district attended or a concordant score. For a complete list of current concordant/comparative scores for statewide assessments, see F.A.C. 6A-1.09422 or the State Assessments for High School Graduation section of the Florida Department of Education's Graduation Requirements page.

First-time grade ten students may only use a concordant score to satisfy the grade ten ELA assessment graduation requirement earned after the spring administration (PM3) of the grade ten statewide, standardized ELA assessment of their grade ten school year.

Beginning with the 2021-2022 school year, students taking a U.S. government course are required to take the Florida Civics Literacy Exam. Students earning a passing score on this assessment are exempt from the postsecondary civic literacy assessment required by s. 1007.25 (4). For a list of courses that meet this requirement, visit https://www.fldoe.org/core/fileparse.php/5663/urlt/2425K12FCLEFactSheet.pdf.

Once a student who has failed the required state assessment for graduation has met the assessment graduation

requirement for a standard high school diploma with a concordant score, the student is not required to continue retaking the required state assessment for graduation for the purpose of high school graduation and may be removed from an intensive intervention course at the change of the semester. Students scoring at Level 1 and 2 on required state assessments in reading and/or math must continue to receive intervention and remediation within the MTSS framework irrespective of meeting graduation requirements through concordant/comparative score if the problem-solving team finds the services necessary.

Students Currently Holding a Certificate of Completion:

Students currently holding a Certificate of Completion who are seeking a standard diploma must meet a concordant score based on the statute governing their 9th grade cohort requirements to meet the high school graduation testing requirements.

VI. Diploma Options

ACCEL Diploma

Selection of the ACCEL Diploma Option:

Prior to a student selecting the ACCEL accelerated diploma option, designated school personnel should meet with the student and his/her parent to explain the requirements, advantages, and disadvantages of this option.

No requirements for the ACCEL accelerated three-year high school graduation options shall be established in excess of the requirements listed in statute. A student who meets all of the requirements for a three-year diploma shall be awarded a standard diploma in a form prescribed by the State Board of Education.

Course Requirements for the ACCEL Accelerated Diploma:

A Standard Diploma will be awarded to a student who:

1. Completes Florida's high school Standard Diploma course requirements (based on the grade 9 cohort year) without the required physical education course and only three credits in electives (total of 18 credits)
2. Maintains a cumulative grade point average (GPA) of 2.0 on a 4.0 scale.

Diploma Equivalency Options

Other diploma options for Manatee district students include:

1. Adult High School Diploma
2. High School Equivalency Diploma (GED) Option
3. Performance-Based Exit Option (for DJJ Students only)

Adult Student High School Diploma:

In order to earn an Adult Education Standard Diploma, a student enrolled in an adult education program must meet all of the requirements for a Standard Diploma. However, the laboratory component for the science requirements may be waived if facilities are not available; the credit in physical education may be waived, and elective credit may be substituted.

Any course listed within the Florida Course Code Directory in the areas of art, drama, dance, or music may be taken by adult education students and will satisfy the credit in performing arts that is required for high school graduation.

High school credit may be awarded for educational experience in the Armed Forces, to include the following:

1. Two elective credits for any individual who has completed one full year of military service;
2. Correspondence courses completed under USAFI; or

3. Organized courses completed in a school operated by the Armed Forces.

Credits may be awarded for prior learning and nonacademic activities. Up to eight credits may be awarded for experience. High school credit may be granted on the basis of examinations, administered as prescribed in State Board Rule.

Course credit or other evidence of work earned in another school district at an accredited school shall be transferred into Manatee County Adult School based on face value as authorized by State Statute, State Board of Education Rules, Manatee County School Board Policy, and the appropriate school authority. If deemed necessary, additional validation may be required.

Students 16 years old or older, with the approval of the principal, may exercise the Adult Education course option to earn up to four additional credits during their high school career.

Special assistance to obtain a high school equivalency diploma pursuant to Florida Statute may be given only when the student has completed all requirements for graduation except the attainment of the required cumulative grade point average.

High School Equivalency Diploma (GED) Option:

The GED is a battery of four General Educational Development Tests. A student must be 16 years of age at the time of application.

The GED Testing Center is located at Manatee Technical College. The student must apply and pay online to schedule their test at www.ged.com . The test itself is taken at MTC Main Campus.

A student under the age of 16 must complete the Florida GED Testing Program's Testing Eligibility Exception Form (also known as the Underage Waiver) and submit it to the approved GED Testing Center.

After satisfactorily passing the High School Equivalency Test, the student will receive a State of Florida High School Diploma and will be considered an adult graduate.

Performance-Based Exit Option:

The Performance-Based Diploma Exit Option is an alternative route to graduation for eligible Department of Juvenile Justice (DJJ) students who may not graduate with their cohort group because of credit deficiency, low grade point average, or being over-age for the grade. The program is not an option for early exit; it is designed to help students who fall behind to graduate with their kindergarten cohorts by receiving a State of Florida High School Performance- Based Diploma.

The Manatee County model includes direct, explicit instruction, and an online instructional program.

The students must meet all of the following eligibility criteria:

1. The student must be enrolled in and attending a PK-12 program.
2. The student is at least 16 years old.
3. The student is enrolled in courses that meet high school graduation requirements and is earning and receiving credits.

4. The student is over-age for grade, behind in credits, or has a low grade point average, and is in jeopardy of not graduating with his or her cohort group.
5. The cohort group with which the student entered kindergarten is graduating or has graduated.
6. The student's reading level must be at seventh grade or higher at the time of selection (ninth grade or higher at the time of testing for the Florida High School Diploma authorized under Rule 6A-6.0201, F.A.C), as documented by a passing score on the Test of Adult Basic Education (TABE) reading component or other assessment to determine grade-level proficiency.
7. The student has acceptable scores on official GED Practice Tests administered under testing conditions.

Admission Procedures for Performance-Based Exit Option:

After initial eligibility is determined, a comprehensive review of student records by the child study team, including grades, credits, and educational plans, must be completed to determine if the Performance-Based Exit Option Model is the most appropriate educational strategy.

Parents must be informed and give consent to the student's participation in this option.

The student's record must include notification and eligibility, parents' right to administrative review of proposed placement, and parent consent for student participation prior to placement.

Parents must be provided clarification that the student transcript will indicate an alternative graduation route.

Certificate of Completion

A Certificate of Completion shall be awarded to a student who completes the 24 required credits for graduation, but who does not meet one or more of the following requirements:

1. earning passing scores on the required state assessment or scores on a standardized test that are concordant with passing scores on the required state assessment;
2. achieving the required cumulative grade point average of 2.0 on a 4.0 scale; or
3. completing all other requirements in Student Progression and remedial instruction.

The student shall be awarded a certificate of completion in a form prescribed by the State Board.

There is no Certificate of Completion awarded to students who are seeking a three-year diploma option. If the student does not meet all of the requirements for a three-year diploma option, the student automatically reverts to the 24 credit requirements for the four-year standard diploma.

The district superintendent shall be responsible for ensuring that schools notify all students of the consequences of failure to receive a Standard Diploma, including the potential ineligibility for financial assistance at postsecondary educational institutions.

The following section will be implemented to the extent that funding is provided in the General

Appropriations Act. Students who have met all requirements for a Standard Diploma, except for passage of the required state assessment or an alternative assessment by the end of grade 12, must be provided the following learning opportunities:

1. To participate in an accelerated high school equivalency diploma preparation program during the summer, and upon receipt of a Certificate of Completion, take the Postsecondary Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college, as appropriate.

2. To participate in an adult general education program for such time as the student requires in order to master English, reading, mathematics, or any other subject required for high school graduation. Students attending adult basic, adult secondary, or vocational preparatory instruction are exempt from any requirement for the payment of tuition and fees, including lab fees. A student attending an adult general education program shall have the opportunity to take the required state assessment an unlimited number of times in order to receive a standard high school diploma.

3. To participate in an immersion English language instruction program during the summer following the senior year. There must be documentation that students have been enrolled in an ESOL program for less than two school years and that they have met all requirements for the standard high school diploma except for passage of the required state assessment or alternate assessment. Students receiving such instruction are eligible to take the required state assessment or alternative assessment and receive a standard high school diploma upon passage of the required state assessment or the alternative assessment. Upon receipt of a certificate of completion, a student will be allowed the opportunity to take the Postsecondary Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college as appropriate.

VII. Exceptional Student Education

Standard Diploma Pathways

All students with disabilities entering grade nine (for the first time) will be provided the opportunity to receive a standard high school diploma by meeting the same requirements as all students OR through an alternate pathway as outlined below:

1. Standard Diploma available to all students to include students with disabilities:

    a. Refer to Graduation Option Chart

    b. Students with disabilities working for a scholar designation are not eligible for a waiver consideration, per scholar designation requirements.

    c. Students with disabilities working for a merit designation may be considered for a waiver, if necessary, per merit requirements.

2. Standard Diploma Academic & Employment Pathway:

    For any student with a disability, when the IEP team determines that mastery of academic (State Standards) and employment competencies is the most appropriate way for the student to demonstrate

his/her skills, the student must demonstrate:

a. Documented achievement of all annual IEP goals, academic and employment competencies, industry certification, or occupational completion points (OCPs) in the student's transition plan; and

b. Maintain successful paid employment for at least one semester

c. Refer to Graduation Option Chart

3. Standard Diploma Access Points Pathway:

For a student with a significant cognitive disability, when the IEP determines that mastery of State Standards Access Points is the most appropriate pathway, the student must be instructed in State Standards Access Points (modified curriculum) and participate in the statewide alternate assessment as assigned by their IEP. This option includes:

a. FAA Performance Task Assessment

b. FAA Datafolio Assessment

CTE Course Substitutions for Graduation Requirements

Requirements for a standard diploma for students with disabilities for whom the IEP team has determined that participation in the Florida Alternate Assessment is the most appropriate measure of the student's skills, in accordance with subsection 6A-1.0943(5), F.A.C., and instruction in the Access Points is the most appropriate means of providing the student access to the general curriculum. Students must meet the graduation requirements specified in Section 1003.4282(1)-(9) or 1002.3105(5), F.S., through the access course specified for each required core course or through core academic courses aligned with the general education curriculum standards.

Eligible CTE courses, as defined in paragraph (2)(d) of this rule, may substitute for Access English IV; one (1) mathematics credit, with the exception of Access Algebra 1A and Access Algebra 1B and Access Geometry; one (1) science credit, with the exception of Access Biology; and one (1) social studies credit with the exception of Access United States History. Eligible courses are described in the Course Code Directory and Instructional Personnel Assignments, in accordance with Rule 6A-1.09441, F.A.C.

Deferral of Standard Diploma

Once a student with a disability meets all the requirements for a standard diploma, they may defer the receipt of their diploma. The decision to accept or defer the standard high school diploma must be made prior to the beginning of the school year in which the student is expected to meet all requirements for a standard high school diploma. A signed statement by the parent, guardian or student, if the student has reached the age of majority and rights have transferred to the student in accordance with subsection 6A-6.03311(8), F.A.C., that he or she understands the process for deferment and identifies if the student will defer the receipt of his or her standard high school diploma, must be included in the IEP. The IEP Team must review the benefits of deferring the standard high school diploma and describe to the parent and the student all services and program options available.

Certain conditions must be met in order to defer the standard diploma:

1. The student's IEP prescribes special education, transition planning, transition services, or related services through the student's 22nd birthday.

The decision to defer a diploma must be made during the school year in which the student is expected to meet all graduation

requirements. Students who fail to defer receipt of a standard high school diploma will be notified by the district, in writing, that receipt of the diploma ends the district's obligation to provide free appropriate public education (FAPE).

Students who choose to defer the receipt of the diploma will participate in a graduation ceremony with their graduation class. If student chooses to NOT participate in the graduation ceremonies, he/she forfeits the opportunity of participation in any future ceremonies.

ESE Assessment Requirements

Standard Diploma with Required State Assessment Waiver:

A student with a disability, as defined in S.1007.02, F.S., for whom the Individual Education Plan (IEP) committee determines that the required state assessment cannot accurately measure the student's abilities taking into consideration all allowable accommodations, shall have the required state assessment results waived for the purpose of receiving a standard high school diploma, if the student:

1. Completes the minimum number of credits and other requirements for graduation and
2. Does not earn passing scores on the required state assessment or on a standardized test that is concordant with passing scores on the required state assessment after attempting each required assessment at least once.
3. Any senior who has not achieved a passing score on the required state assessment may receive intensive remediation.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school. The following criteria must be met to qualify for this waiver:

5. Parents must complete the Intensive Instruction Waiver Request form (Appendix A).

Student must be in 6th-11th grade.

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for who the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student, and then determine the potential for the results of the EOC to be waived.

Any waiver of the statewide standardized assessment requirements by an IEP team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

VIII. English for Speakers of Other Languages (ESOL)

Students who are enrolled in an ESOL program and have met all requirements for the standard high school diploma except for passage of the required state assessment or alternate assessment may receive immersion English language instruction during the summer following their senior year and/or return as a fifth-year senior to have the opportunity to meet the graduation requirements. Students receiving such instruction are eligible to take the required state assessment or alternate assessment and receive a standard high school diploma upon passage of the required state assessment or the alternate assessment. This section will be implemented to the extent funding is provided in the General Appropriations Act.

Pursuant to Section 1003.433(3), F.S., and SB 6A-1.09422, beginning with the 2022-23 school year, students who have been enrolled in an English Speakers of Other Languages (ESOL) program for *less than 2 school years and have met all requirements for the standard high school diploma except for passage of any assessment required for graduation* as specified by Section 1003.4282 or 1008.22, F.S., or alternate assessment is eligible for a standard high school diploma if the student:

Meets the requirement to pass the statewide, standardized grade 10 ELA assessment by satisfactorily demonstrating grade-level expectations on a formative assessment that generates a score or metric that can be interpreted as a measure of grade 10 level achievement in ELA.

Students who enter without records are eligible for the verification process as defined in the Uniform Transfer of Records guidelines.

IX. College Readiness

Schools shall use all available assessment results, including the results of statewide, standardized English language arts assessments and end-of-course assessments for Algebra I and Geometry, to advise students of any identified deficiencies and to provide appropriate postsecondary preparatory instruction before high school graduation.

X. Exit Interviews

Manatee County students are required to remain enrolled in school until the age of 16. The student's school counselor or other school personnel is required to conduct an exit interview with a student to discuss actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his/her education in a different environment, including but not limited to, adult-education and GED test preparation. The student must complete a survey in the format prescribed by the Department of Education to provide data on reasons for terminating enrollment and actions taken by schools to keep students enrolled to the student's school counselor.

K-12 Virtual Education

XI. Virtual Programs

Policy

The School Board has the authority to adopt rules for implementing the student progression requirements for students in grades kindergarten through twelve. The Student Progression Plan for Manatee County defines the criteria for graduation, participation in graduation, promotion, intensive remediation, course offerings, evaluating student performance, and reporting to students and parents. The Student Progression Plan for Manatee County has been developed based on Florida Statutes, current and local needs, and includes requirements for virtual education programs. For more information, see Florida Department of Education website – www.fldoe.org.

Virtual Education Programs

All students who choose to participate in a virtual education program must meet all of the local and state requirements for promotion, retention, and good cause exemptions. All instructional personnel, parents, and students are encouraged to become familiar with the requirements for progression from one grade to another, including the requisite testing programs.

Virtual instruction means a program of instruction provided in an interactive learning environment created through technology in which students are separated from their teachers by time, space, or both, and in which a Florida certified teacher is responsible for at least 70% of the online instruction to students in K-12.

As stipulated by the Florida K-20 Education Code (s.1002.20), parents have the right to choose educational options including virtual education. Manatee Virtual School (MVS) provides full-time and/or part-time opportunities for all Manatee County zoned and home school students to access elementary, middle and high school courses. A student's full-time school may not deny access to courses offered through any approved district virtual education program if the desired online course(s) is an appropriate course placement based on the student's academic history, grade level, and age.

Note: Per Florida Virtual memo of June 2011, public school students may only register for up to three FLVS courses at one time.

- Full-time virtual education is available for home education and FLVS students.

A student must be assigned to a FLVS course either before the school year or semester begins or within the established school deadline to register and be assigned to an FLVS course and withdraw from a SDMC face-to-face course.

The Manatee County School District shall provide students with access to enroll in courses available through the MVS option of the student and parent's choice and shall award credits or academic points for successful completion of such courses. While a district may not artificially limit a student's enrollment in online courses offered by the school district, another school district, or FLVS if the student would be academically eligible to enroll in the same courses in a brick-and-mortar setting within the district, a district still has authority and responsibility to provide academic guidance to their

students. This includes limiting enrollment in courses for which the student is not academically qualified in the same manner it would limit a student from enrolling in brick-and-mortar courses for which the student is not academically qualified.

Access to approved virtual courses shall be available to zoned school students during or after the normal school day. Students wishing to take courses through MVS options must work closely with their school counselor to ensure that appropriate virtual courses are reviewed and approved to match the needs of the students. MVS courses are available during the academic school year and summer session.

An important characteristic of the virtual instruction program is that students, along with a responsible adult, assume the responsibility for student success. All courses offered in the virtual instruction program are based on the Florida State Standards. All full-time Manatee virtual students are required to take and pass the state-required assessments at their zoned school. Students are able to participate in extracurricular activities at their zoned school. The virtual school option requires eligible students with the capacity and motivation to become independent learners.

SDMC offers only virtual instructional programs approved by the Florida Department of Education. All virtual instruction providers are required to sign the District Assurances to affirm they are meeting all the requirements in Florida Statute. Manatee Virtual Program rules and procedures, both full and part-time, are included in the Manatee Virtual Program Handbook. Students who qualify for free and reduced lunch and do not have a computer at home may qualify to receive all required equipment.

All students enrolled in a virtual full-time district school program are subject to compulsory attendance requirements of s1003.21 Florida Statutes as specified in the Manatee Virtual Program Handbook. Attendance must be verified by virtual teacher, registrar, and the school district. The parent or a responsible adult is required to be available to assist the student as a learning coach through each school day. Middle school students will be graded on the average of the first semester grade and the second semester grade. If the student does not finish 100% of the second semester, they cannot pass the course regardless of their first semester grade. Courses that require an end-of-course assessment (EOC) must follow all state grading and credit requirements.

Middle and high school students will typically spend 5-6 hours daily on coursework and homework. Failure to make adequate progress or to demonstrate appropriate attendance may result in dismissal from the program.

<u>MVS Programs:</u>

In order for students to be eligible for any MVS full-time virtual program for the school year, the student must meet the eligibility requirements listed below:

1. Grades K-5 Criteria:
    a. Children who are five years old on or before September 1 are eligible to start kindergarten in August.
    b. To enter first grade, a child must be six years old on or before September 1 and must have successfully completed kindergarten (Florida Statute 1003.21).
    c. A child must have demonstrated academic success in the previous 2 years of school as indicated by final report cards. If the student is moving to 1st grade, then submit kindergarten final report card.

d. A child must have demonstrated grade level proficiency on state assessments from the prior school year. If the student is entering Kindergarten, no test scores are required.

e. A student must apply for admissions in the enrollment window as posted on the Manatee County Schools website.

2. Grades 6-12 Criteria

a. A student must have demonstrated academic success in the previous semester courses.

b. A student must have attained grade level proficiency on at least one of the following standardized tests in the prior school year:

- FAST ELA/FAST Math
- All end-of-course (EOC) exams that student has already taken
- Stanford Achievement Test (50th percentile or higher on the Reading section)
- Iowa Test of Basic Skills (50th percentile or higher on the Reading section)
- Grade level proficiency on an official standardized test administered by another public school system

3. Reside in Manatee County

Full-time Virtual Education Options

MVS provides one full-time virtual school program:

- Manatee Virtual School (MVS)

The full-time MVS is a contracted program with FLVS which uses the FLVS online curriculum and either Manatee or FLVS teachers, depending upon the need.

Goals of MVS:

a. To provide a comprehensive virtual education program

b. To provide flexibility in student academic and non-academic scheduling

c. To provide opportunities for students to accelerate

To remain in MVS, a student must:

a. Maintain virtual attendance expectations as prescribed in the MVS and FLVS policies and procedures manual.

b. Meet benchmarks, including all state required-assessments.

c. Provide his/her own transportation to their zoned school on designated test days for all state required-assessments and provide photo ID.

d. Be considered zoned-school students for sports and extracurricular activities.

e. Follow and maintain course pace, according to course and instructor requirements.

f. Work with the zoned-school athletic director regarding NCAA eligibility.

g. Agree and adhere to all the student and parent guidelines as stipulated in the MVS Handbook.

h. Enroll in and complete six half-credit courses each semester within the specified enrollment and completion dates.

How to apply to a Full-Time Virtual Program:

Manatee County public, charter, or home school students should consult with their school counselor and review the MVIP and FLVS websites. Enrollment windows are posted on the MVS Website, Brochure, and other District Communications

Part-time Virtual Education Options

Students who wish to enroll in a virtual education option on a part-time basis may choose to do so through either MVS or FLVS (see criteria above). This program allows students enrolled in public school or home school to take a portion of their coursework online for the purposes of acceleration, grade forgiveness or credit recovery. Zoned school students may participate in this program by taking any portion of their course-work online and at school (up to a total of 3 courses). Charter school students must register for FLVS courses for part-time enrollment. Public school students are required to take all required state assessments at their zoned school.

The performance of zoned school students shall be included for school grade or school improvement rating purposes by the non-virtual school providing the student's primary instruction.

Policies for Part-time Programs:

1. A student may not be placed in the same course concurrently at a district middle or high school and at Florida Virtual School.

2. Schools may not deny placement in a course offered through Florida Virtual School even if the school offers the same course.

3. A student who withdraws or is withdrawn from a virtual course within 28 days of entry must enroll in enough courses at the zoned school to maintain full-time enrollment status.

4. 8th grade students who are enrolled in a virtual program for an academic course must complete the academic course by the last day of school or will be placed in an alternative instructional setting.

General Information

Equipment Requirements

Students wishing to take a virtual course should have access to their own computer. Some provision is available to students with an established need as verified by the free-and-reduced lunch application process. Students must also have access to a phone to contact their teacher(s) for assistance.

Most virtual school courses make use of a wide variety of features and technologies, such as Java, Flash, Acrobat Reader, Apple QuickTime, or Microsoft Media Player, and depending on the course, other specialized components that help students achieve a more immersive learning experience.

The PC, Mac, mobile and other hardware requirements vary according to the program provider and will be listed on each program's website.

Due to the wide array of technologies in over 100 courses, there are some limitations to browsers and devices that the district can support. Currently, students may use recent versions of the following browsers:

- Microsoft Edge
- Mozilla Firefox
- Google Chrome
- Apple Safari

MVS/Florida Virtual School expects a full commitment to academic integrity from each student.

Academic integrity means:

- Student's work on each assignment will be completely his/her own.
- Student's collaboration with another classmate on any assignment will be pre-approved by their instructor.
- Students will not practice plagiarism in any form.
- Students will not allow others to copy their work.
- Students will not misuse content from the Internet.

Plagiarism is defined as copying or using ideas or words (from another person, an online classmate, or an Internet or print source) and presenting them as your own.

Please be aware that all MVS/Florida Virtual School instructors utilize a **myriad of technologies to check student work for authenticity including, but not limited to, the upload of student work to TurnItIn.com**. In order to maintain the integrity of all grades, instructors may choose to facilitate random oral assessments and/or face-to-face exams. If an instructor confirms that a student has plagiarized work in any manner, the student will be subject to consequences determined by MVS /Florida Virtual School staff and may be **removed from the course and/or program with a failing grade.**

Extracurricular Activity Eligibility:

A full-time virtual school student who meets specified academic and conduct requirements is eligible to participate in extracurricular activities at the zoned school.

Changes may be made to the School District of Manatee County Student Progression Plan at any time pending new legislation or interpretation of legislation from the Florida Department of Education.

In the event of a situation which significantly alters the standard process for delivering education, such as natural disasters, pandemics, etc., the School District of Manatee County reserves the right to amend policies and procedures to allow for the continued education, articulation, and graduation of students.

General Information (K-12)

I. Admission and Enrollment

To enroll a student in school in the School District of Manatee County (SDMC), the parent must have physical custody of the student at least 50% of the time and certify that fact on the enrollment form. The address of the enrolling parent will be used for purposes of pupil assignment to a school. If parents are separated or divorced, the student will not change schools when the student stays with the non-enrolling parent, unless there has been a documented change in custody.

For the purpose of this policy, the term "parent" is defined as either or both biological or adoptive parents of a student, or any legal guardian of a student. The term "legal guardian" includes any guardian established by court order or a guardian-in-fact established by the filing of a proper Guardianship Affidavit with the District.

Stepparents have no legal rights regarding enrollment and school activities, unless guardianship to act on behalf of the spouse is established. A "change in custody" occurs when a child who was living with the enrolling parent at least 50% of the time no longer lives with the enrolling parent at least 50% of the time. The enrolling parent will not be changed unless both parents agree, changes to the parenting plan or other legal documentation is presented expressly directing this change and/or there is a change of address outside of the zoned school boundary.

First Enrollment

Prior to the student's first day, the school must have received the documentation detailed below as required by Section 1003.21, Florida Statutes. Enrollment at Manatee schools may be completed at the zoned school via parent kiosk or from the SDMC website (https://www.manateeschools.net/registration).

Students may only be released from school to those who are listed in the Pick-Up/Emergency Contact list completed during registration. The enrolling parent is responsible for notifying the school of any updates or changes to the information given during registration.

For students who are experiencing homelessness and do not have access to the required documents, please see the general information section 4.9 Homeless Students on page 12.

Florida Statute 1003.21 requires a child be five (5) years old on or before September 1st. Parents who provide a passport for proof of age must also provide documentation of proof of parentage, proof of legal custody and/or guardianship, or any other evidence that one is a parent as that term is defined under F.S. 1000.21(6). In the event that such documentation is not available, the person registering the child must present, at the time of registration, an affidavit sworn to by the parent, that he/she is the parent, legal guardian, or otherwise as defined by the statute above.

1. Verification of Age - One of the following documents must be provided:
    - An original or certified copy of child's birth certificate

Deleted: Any Florida student who resides outside of Manatee County who wishes to attend the School District of Manatee County must have permission from both the school district of his or her residence and the Manatee County School District. The Superintendent or designee is authorized to give permission. Students must apply annually; any student who receives permission prior to the start of the school year will be granted permission for the upcoming school year only. Any student receiving permission to attend after the first day of school will be granted permission to complete the current school year only. The student must maintain acceptable attendance, discipline, and academic requirements. The student does not have a property interest in attending the school, and the Superintendent may revoke the student's permission to attend at any time. ¶

- Health exam (DH-3040 or equivalent) COMPLETED and SIGNED by a health professional who is licensed in Florida or in the state where the student resided at the time of the health examination and who is authorized to perform a general health examination under such licensure. The exam must be completed within the 1 year prior to the child enrolling in a Florida School. Children are not admitted to school without a health exam. Contact a medical provider (doctor/clinic) for a school health exam (DH-3040).
- Immunization Documentation:
  - Certificate of Immunization (DH 680) with all immunization dates completed and/or updated by the medical provider. Students entering the designated grade levels are required to show proof of these vaccines or a valid medical exemption before entry into school; or
  - Religious Exemption from Immunization (DH 681)

3. Proof of Manatee County Residency -Schools will accept one of the following sets of documents:

Upon initial admission or entry from one attendance zone to another in SDMC, evidence of residence must be presented to the receiving school. All addresses are subject to verification by the School Board.

Parent must provide the following documents:

1. Manatee School Enrollment

   Manatee School Enrollment may be completed at the zoned school via parent kiosk or from the SDMC website (https://www.manateeschools.net/registration). The pick-up/emergency contacts list on the enrollment/biographical form are generally determined by the enrolling parent, and/or by court order. It is the intent that both parents are listed on the pick-up list, unless disqualified by Court Order or other legal reasons. If both parents are listed on the pick-up list, either parent may designate individuals for pick-up. The school administration will not intervene in disputes between parents on issues regarding those listed on the pick-up list. Those disputes must be resolved in a different forum.

2. Proof of Manatee County Residency – Schools will accept one of the following documents:

   - A copy of a current water/electric bill, lease agreement, proof of home ownership in parent's name, with address and name of parent

Entry from Home Education

Students who are participating in a home education program may be admitted to SDMC on a full-time or part-time basis. The student seeking entry must meet the same registration requirements as full-time students [F.S. 1002.41]. Students transferring to SDMC from home education as full-time students must have documentation to verify academic history in the form of a transcript, annual evaluation, or portfolio as outlined in section 1002.41 F.S. Home education students must register for all courses prior to the start of the semester they will attend. Home education students who are excluded from a class because the course is not offered or due to space limitations at their zoned school may be assigned to another school if there is available space.

The school principal will establish the time and place for arrival and departure of home education students. SDMC is not responsible for the transportation of students in a home education program to or from the school. Students who attend on a part-time basis are subject to all applicable rules and regulations pertaining to full-time students. Students who are participating in a home education program may participate in extracurricular activities. Participation is on a space available basis, and students must meet the same registration requirements as full-time students [F.S. 1002.20(18)(b)].

Personalized Education Program (PEP) and Private Pay Option

Students receiving a Personalized Education Program (PEP) scholarship and other students not attending public school who wish to take courses in an SDMC school may enroll if the student contracts for classes on a private pay basis. Procedures will be available on the SDMC website for the 2026-2027 school year. Participation is on a space available basis, and students must meet the same registration requirements as full-time students.

Over-Age Students Who Interrupt Their Education

The following procedures are to serve as a guide for appropriate placement. The final decision will be made by the school principal of the regular school and the Supervisor of Alternative Education.

1. Except as provided in (4), (5), (6), and (7) below, a student seventeen years of age or older who has interrupted his or her high school education for more than a 9-week grading period and who subsequently desires to enroll in Manatee County Public Schools may enroll in county adult programs or alternative programs. The student may not enroll in a regular high school except in extenuating circumstances approved by the principal of the regular school and the Supervisor of Alternative Education. The principal will determine if enrollment is appropriate. Parents of students who are not enrolled may appeal the principal's decision to the Executive Director of Secondary Education.

2. Except as provided in (4), (5), and (6) below, students may not enroll in or continue in a regular high school for more than eight semesters, unless the principal approves the enrollment beyond eight semesters. The principal will consider the reason the student wants to continue high school, the educational progress to date, and the student's commitment to education. If the principal does not approve enrollment in the regular high school beyond the eight semesters, the student may enroll in county adult programs or alternative programs. The semester count begins the first semester a student enrolled in ninth grade at any public or private school.

3. Except as provided in (4) below, students may not enroll in or continue in a regular high school if they cannot earn the number of required credits to graduate by their 20th birthday. The student may enroll in county adult programs or alternative programs.
4. For students with disabilities who have not graduated with a Standard Diploma, the district will provide services until the end of the school year in which the student turns 22 years old, providing that the student was 21 years old on the first day of school.
5. English Language Learners (ELL) who have completed the credits required for graduation and who have failed to meet the 10th grade standards as measured by the required state assessments shall be eligible for compensatory education for "a thirteenth year" as provided in Section 1003.433.F.S. Students who have an ELL Entry Date of two or fewer years may be eligible for the Alternate Pathway for ELLs to meet the ELA graduation requirement (1003.433(3), F.S.).
6. If a foreign-born ELL student without records enters school, the student must be placed age appropriately (14= 9th grade, 15= 9th or 10th grade, 16=10th grade, and 17=11th grade), and the Uniform Transfer Records Guideline Verification Process must be followed.
7. Per the State of Florida Consent Decree and the Office of Civil Rights, no student may be denied enrollment in the regular high school program on the basis of refugee status or limited English proficiency. Students who qualify for ELL services must be placed age appropriately if no official transcript is available.
8. Students who enter without records are eligible for the verification process as defined in the Uniform Transfer of Records Guidelines.

School Choice Options

The School Choice Program shall provide an opportunity for all students in Manatee County to apply for assignment to any district school. Approval of School Choice applications will be by school, program, and building capacities as well as the Board's goal of maintaining a student population at every district school which reflects the district's overall socio-economic distribution of population.

Applications to participate in the Voluntary School Choice Controlled Open Enrollment Program shall be available at all school sites via the parent kiosk and through the parent portal and the Office of Student Assignment during the School Choice Open Enrollment period. This application shall be completed by the student's enrolling parent and submitted to the designated office prior to the close of the School Choice Open Enrollment period. Choice applications may be denied for SDMC students that are not in good standing due to severe attendance issues or disciplinary referrals. Students who have been approved through the Controlled Open Enrollment process to attend a school out of their assigned area will be governed by the following rules:

1. High school athletic eligibility at the Choice school will be determined according to the provisions of the Florida High School Athletic Association (FHSAA). If there is a question regarding the eligibility of any student, FHSAA procedures shall be followed.
2. Students receiving School Choice are approved through the completion of the highest grade level at that school. The Choice school, therefore, becomes the student's assigned district attendance school.

Deleted: ¶

Formatted: Right

However, the principal may recommend that the student be withdrawn and returned to his/her home zoned school for severe attendance or disciplinary issues. The principal's recommendation for revocation during the school year (end of 1st semester and end of school year) is subject to review by the District Administrative Appeals Committee. The principal's recommendation for immediate revocation for extreme cases is subject to review by the district Child Study Team for recommendation.

3. Students who are approved for Choice are expected to continue in attendance at the Choice school throughout at least one school year and may then apply for a different school, including their original boundary assigned school, but only through application during the School Choice Open Enrollment period.
4. Other School Choice options include: An appeal process for Hardship Transfers, Home Education, Manatee County Virtual Programs, and Enrollment in Charter Schools.
5. Students can only be in attendance at one school as assigned by the Office of Student Assignment other than being enrolled in a virtual or home school program.

Homeless Students

Homeless students are children and youth who lack a fixed, regular, and adequate nighttime residence and include children who are:

1. Sharing the housing of others due to loss of housing, economic hardship, or a similar reason;
2. Living in motels, hotels, travel trailer parks, or camping grounds due to the lack of alternative accommodations;
3. Living in emergency or transitional shelters or abandoned in hospitals;
4. Sleeping in a place that is not ordinarily used as a sleeping place for human beings;
5. Living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
6. Migrant and living in one of the above.

Homeless children and youth shall be immediately enrolled even if the student is unable to provide documents that are typically required for enrollment, such as previous academic records, records of immunization and other health records, proof of residency, or other documentation. Enrollment means permitting the student to attend classes and participate fully in school activities. Although the McKinney Vento Act is silent on the definition of "immediate", the standard dictionary definition is "without delay"; therefore, the student must begin attending classes and participating fully in school activities without delay. Generally, that would mean the same or the following day. Families claiming to be homeless and needing enrollment assistance should be referred to Project HEART Homeless Education Program, and the family will be provided with a residency letter for proof of residency.

Homeless children and youth shall be immediately enrolled even if students are unable to produce immunization or other required health records, recognizing that families and youth who are homeless are

Formatted: Superscript

frequently unable to obtain and keep copies of records. The vast majority of homeless students have been enrolled in school before and have had required immunizations. These records should be a part of their school records. Since the enrolling school is required to contact the previous school for records, the information should be available quickly. The enrolling school and the District Homeless Liaison should work together to get immunization records as soon as possible. If a student has not had immunizations, initial doses should be administered as soon as possible. Families claiming to be homeless and needing to enroll without immunization records and/or a physical examination should be referred to Project HEART Homeless Education Program, and the family will be provided with a 30-school day waiver to help them acquire the necessary documentation for their records.

Unaccompanied children and youths not in the physical custody of a parent and living in homeless situations are defined as unaccompanied homeless students. Unaccompanied homeless students have the right to self-enroll and should be referred to Project HEART Homeless Education Program for enrollment assistance and other services.

When it is in the student's best interest and it is the wish of the parent, or it is the wish of an unaccompanied youth, homeless students can continue to attend the school of origin. The school of origin means the school that the student attended when permanently housed or the school in which the student was last enrolled. Formerly homeless students can also continue at the school of origin for the remainder of the school year in which they obtain permanent housing.

If the District Homeless Liaison assigns a homeless student to a school other than the school of origin, a written explanation must be provided to the parent, including the right to appeal the decision.

If there is a dispute regarding school selection or enrollment, the student shall be immediately admitted to the school of origin or assigned zone school as requested by the parent and transportation provided to and from the school of origin, pending resolution of the dispute.

The case must be referred to Project HEART Homeless Education Program to ensure the resolution process is carried out as quickly as possible. Project HEART Homeless Education Program will convene a review committee including a representative from the transportation department and the Superintendent's designee.

Parents may appeal an unfavorable decision to the Supervisor of Student Assignment. The decision of the Supervisor of Student Assignment may be appealed to the Superintendent who is vested with the authority to place students in the school which is in their best interest. The Superintendent will render the final local decision concerning school placement. Parents have the right to appeal to the Florida Department of Education.

Transportation will be provided for a homeless student to and from the school of origin for the remainder of the school year. Homeless students needing transportation assistance to school of origin should be referred to Project HEART Homeless Education Program.

Transfer Students from Out of Country

Students who transfer to a School District of Manatee County site without records should be placed age appropriately. The student's age on September 1 of the school year in which enrollment occurs should be used

to determine "age" at entry. Coordination with the school-based ELL Committee is recommended to assist in course placement for such students. Students cannot be denied access to free and appropriate education due to lack of academic records. If an out-of-country student without records enters school, the student must be placed age appropriately, and the Uniform Transfer of Records Guideline Verification Process must be followed.

Students who indicate "yes" on the Home Language Survey during enrollment must be assessed for language proficiency within the first 20 days of enrollment. Students eligible for English Language Learner (ELL) services are entitled to equal access to programs, such as early childhood, vocational, and adult education programs. ELL students should not be restricted for reasons related to limited English proficiency. Students must receive understandable instruction, not necessarily in their native language.

State Uniform Transfer of Credit Guidelines for Middle School

The procedures relating to the acceptance of transfer work and courses for students entering Florida's public schools composed of middle grades 6, 7, and 8 from out of state or out of country are as follows:

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value, subject to validation if required by the receiving school's accreditation. If validation of the official transcript is deemed necessary, or if the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period as outlined in subsection (2) of this rule.
2. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should be passing each required course at the end of the first grading period. Students who do not meet this requirement shall have courses validated using the Alternative Validation Procedure, as outlined below.
3. Alternative Validation Procedure:

   If validation based on performance as described above is not satisfactory, then any one of the following alternatives identified in the district's Student Progression Plan shall be used for validation purposes as determined by the teacher, principal, and parent.

   a. Portfolio evaluation by the principal or designee, including samples of course work, subject area assessments, and standardized tests to show mastery of the standards for the course;

   b. Demonstrated performance in courses taken at other public or private accredited schools;

   c. Demonstrated proficiency on nationally-normed standardized subject area assessments;

   d. Demonstrated proficiency on the required state assessment; or

   e. Written review of the criteria utilized for a given subject provided by the former school.

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value. Credits for courses requiring an EOC will be accepted based on state statute.

If validation of the official transcript is deemed necessary, or the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should earn a grade of "C" or better at the end of the first grading period in that course. Students must be provided at least 90 days from date of transfer to prepare for assessment, if required. Students who are not validated based on the performance requirement shall have courses validated using the Alternative Validation Procedure as described below:

a. Portfolio evaluation by the principal or designee, including samples of course work, subject area assessments, and standardized tests to show mastery of the standards for the course

b. Demonstrated performance in courses taken at other public or private accredited schools;

c. Demonstrated proficiency on nationally-normed standardized subject area assessments;

d. Demonstrated proficiency on the required state assessments or other required state assessment; or

e. Written review of the criteria utilized for a given subject provided by the former school.

Homeschool transfer student(s) must enter by the first semester of their 11th grade year to be included in class rank.

1. Students who enter a Florida public school at the 11th or 12th grade from out-of-state or from a foreign country shall not be required to spend additional time in a Florida public school in order to meet the high school course requirements if the student has met all requirements of the school district, state, or country from which they are transferring. However, to receive a Standard High School Diploma, a transfer student must earn a 2.0 grade point average and pass the required state assessment(s) or an approved alternative assessment. The approved alternative assessments are the PSAT, ACT, SAT, and CLT.

2. Transferring students who are not proficient in English should receive immediate and intensive instruction in English language acquisition.

3. A dependent child of a member of the United States Armed Forces who enters a public school at the 12th grade level from out of state or from a foreign country and provides satisfactory proof of attaining a score on an approved alternative assessment that is concordant to a passing score on the required state assessment(s) has satisfied the assessment requirement for a Standard High School Diploma. In lieu of testing requirements for graduation in a school of the receiving state, states shall accept exit or end-of-course exams required for graduation from a school in the sending state or national norm-referenced achievement tests or alternative testing.

II. Withdrawals

Withdrawal to a School Outside of the District

Parents withdrawing a student from a School District of Manatee County site to another school district must complete a withdrawal form at the school. This form is a record of the student's grades up to the last date of attendance. All books must be returned and any fines resolved prior to withdrawal.

The enrolling school will request official records. The registrar will scan the withdrawal form and any remaining hardcopy documents into Scribbles and direct the enrolling school to the Records Management website to request official records.

Withdrawal to a School within the District

Parents withdrawing a student from a School District of Manatee County site to another School District of Manatee County school must complete a withdrawal form at the school.

This form is a record of the student's grades up to the last date of attendance. All books must be returned and any fines resolved prior to withdrawal.

The enrolling school will request official records. The withdrawing registrar will scan the withdrawal form and any remaining hardcopy documents into Scribbles and advise the receiving registrar once complete. The enrolling registrar will submit a service desk ticket via the SSO to have the student transferred to their school in Scribbles.

III. Reporting and Notification

Annual Reporting

Each district must annually publish to the public and report in writing to the State Board of Education by September 1 of each year the following information on the prior school year:

1. the provisions of student progression and the district's policies and procedures on student retention and promotion
2. by grade, the number and percentages of all students in grades 3 through 10 performing at level 1 and 2 of the required English Language Arts (ELA) state assessment
3. by grade, the number and percentages of all students retained in grades 3 through 10
4. information on the total number of third grade students who were promoted or placed for good cause by each category of good cause
5. any revisions to the district's policy on student retention and promotion from the prior year.

The Instructional Services departments have the responsibility to ensure this information is printed prior to September 1st each year.

Allocation of Resources

Remedial and supplemental instructional resources must be allocated and spending prioritized as follows:

1. First, to VPK students who have a substantial deficiency in early literacy or early mathematics skills and students in grades K- 3 who have a substantial deficiency in reading or the characteristics of dyslexia and to students in grades K-4 who have a substantial deficiency in mathematics or the characteristics of dyscalculia.
2. Second, to students who score below grade level on required state assessments, including:
    a. Students in grades 3-10 who score Level 1 or 2 on required state assessments in English Language Arts (ELA) or mathematics or who fail the End of Course (EOC) Exam;
    b. Students in grades 11-12 who do not meet the required state assessments or EOC graduation requirement in English Language Arts (ELA) or mathematics.
3. Third, to students who failed to meet the performance levels required for promotion.

Participation in District and State Assessments

All students in grades Pre-K through 12 must participate in Florida's statewide assessments and progress monitoring system as required by Florida Statute. District progress monitoring assessments are also administered to K-12 students at intervals throughout the year. Schools will participate in assessments for learning as indicated in the District Assessment Schedule.

Reporting to Parents:

The district will provide student's results on state assessments and district-required local assessments to the student and his/her parent within 1 week of those results being received by the district. The student's progress toward achieving state and district requirements for proficiency in core academic subject areas shall be reported quarterly by the district school board to each student and his/her parents. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments and other relevant information.

All written and oral communication between school district personnel and parents of current or former English Language Learners shall be in the parents' primary language or other mode of communication commonly used by the parents, unless clearly not feasible (6A-6.0904).

Report Card

The report card must clearly depict the following:

1. The student's academic performance on grade level in each class or course, which in grades K through 12 must be based upon achievement of the State Standards as evidenced by class work, tests, and other academic performance indicators;
2. The student's citizenship and behavior. Citizenship marks are "E, S, N, U (E-Excellent, S-Satisfactory, N-Needs Improvement, U- Unsatisfactory) for kindergarten, first, and second grade and E, S, I, N, U (E-

Excellent, S- Satisfactory, I-Improving, N-Needs Improvement, U-Unsatisfactory) for third through fifth grades. Secondary marks are 1, 2, 3, or 4 (1-Excellent, 2-Satisfactory, 3-Needs Improvement, 4-Unsatisfactory); and

3. The student's attendance, including absences and tardies.

The student's final report card for a school year shall include a statement indicating end-of-the-year status regarding performance or nonperformance at grade level (has/has not performed satisfactorily at grade level); acceptable or unacceptable behavior (has/has not demonstrated acceptable behavior); attendance (has/has not met district attendance requirements); and promotion or non-promotion (has/has not met promotion requirements at this time). The end-of-the-year report card must indicate promoted, retained, or placed for good cause.

Each English Language Learner receiving English for Speakers of Other Languages (ESOL) services is graded based on his/her academic progress at his/her level of English proficiency using ACCESS 2.0 for ELLs assessment results. The teacher must document that accommodations and strategies of instruction and assessment were employed, which allowed the student to demonstrate progress in the achievement of the benchmarks and grade-level expectations. A grade of "Unsatisfactory," "D," or "F" may only be assigned to an English Language Learner receiving ELL services if he/she received appropriate accommodations and strategies in instruction and assessment, and the student demonstrated no progress toward achieving the standards and grade-level expectations at his/her level of English proficiency. These adaptations and strategies must be documented in teacher lesson plans. School administrators in charge of teacher evaluation are responsible for ensuring that teachers are adapting instruction and assessment to provide comprehensive instruction to ELL students.

A student with a disability who is taking standardized state assessments, such as required state assessments, is graded on his/her achievement of the standards, benchmarks, and grade-level expectations appropriate for his/her grade using the standard report card. The student is to be given appropriate accommodations for all classroom instruction and testing as documented on the student's Individual Education Plan (IEP). Per state rule 6A-1.0943, a student with a significant cognitive disability may participate in the Florida Standards Alternative Assessment if the eligibility requirements for Florida Standards Alternate Assessment are met and documented on the IEP. The student is to be given appropriate accommodations for all classroom instruction and testing as documented on the student's IEP. The student will be graded on his/her achievement of the Access Point Standards using the standard report card.

Progress Reports

Schools will notify students and parents of the student's mid-term academic progress (3rd-12th grades). For English Language Learners, the progress report comments are translated into the home language of the English Language Learners when feasible. If appropriate, schools will make the Spanish and Haitian Creole translation of the progress reports available to parents and inform parents in the comments section of the progress reports that, "the English Language Proficiency Level is taken into consideration when planning instruction, assessments, and grading for English Language Learners."

IV. General Curriculum Information

Curriculum Additions or Modifications

Any curriculum modification being considered by a school must be submitted on the Request for Program Additions or Modifications form and reviewed by members of the Instructional Division and submitted to the Deputy Superintendent for Instructional Services prior to any changes being implemented at the school level. Florida Statute requires all courses offered in the State of Florida be aligned to the State Standards. Curriculum for English Language Learners is not modified, but lessons and school-based assessments should be adapted to a student's level of English proficiency.

District Homework Guidelines

The School District of Manatee County acknowledges the educational validity of homework as an extension of the instructional program.

Clarification: Homework shall typically refer to those assignments that are meaningfully prepared by the classroom teacher for students to complete outside of the school setting to reinforce and extend the curriculum taught within the classroom.

Purpose:

1. Homework is designed as a reinforcement tool to deepen the understanding of concepts and provide practice for the mastery of skills formally instructed in the classroom.
2. Homework is designed to promote student responsibility and independent work habits.

Guidelines for Homework:

1. Homework assignments shall be based on the abilities of the students.
2. Homework shall not be used as a punitive measure.
3. Homework assigned for reinforcement shall be done outside of class time.

Teacher Expectations:

Teachers will monitor completion of homework and provide appropriate, graded feedback in a timely manner to students. Teachers should collaborate, whenever possible, to ensure that the amount of homework assigned to any one student is not excessive.

Multi-Tiered System of Supports (MTSS)

The District's Multi-Tiered System of Support (MTSS) provides high quality instruction and intervention matched to student needs using learning rate over time and level of performance to inform instructional decisions. The MTSS framework is a continuum of integrated academic, behavioral, mental health, and attendance supports reflecting the need for students to have fluid access to instruction and supports of varying

Deleted: ¶

intensity levels. To ensure efficient use of resources, schools begin with the identification of trends and patterns using school-wide and grade-level data.

Within the MTSS framework, resources are allocated in direct proportion to student needs. Data collected at each tier is used to measure the efficacy of supports so that meaningful decisions can be made regarding what instruction and intervention should be intensified and/or maintained. Students who need instructional intervention, beyond what is provided universally for behavioral and academic content areas, are provided with targeted, supplemental interventions delivered and embedded within the content area courses, individually or in small groups, at increasing levels of intensity. Throughout the continuum of instruction and intervention, planning/problem-solving is used to match instructional resources to educational need. Teams continue to engage in instructional planning and problem-solving to ensure that student success is achieved and maintained. Regular communication between problem-solving teams (i.e., Instructional Leadership Team led by the principal, the Teacher Collaborative Teams, the Intensive Support Team (IST), Individual Education Plan Team, MTSS-Behavior Team), where data-based problem solving is occurring, will guide the appropriate intervention needs.

Intervention, Remediation and Progress Monitoring

Students must participate in Florida's statewide assessments and progress monitoring. Each student who scores below Level 3 in reading or mathematics must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for appropriate instruction and intervention using the problem-solving process within the MTSS framework.

In consultation with the student's parent, the school in which the student is enrolled must engage in the problem-solving process to develop and implement an intervention plan which includes a progress-monitoring plan. The Multi-Tiered System of Support framework (MTSS) will serve as a guide for identifying students in need of tiered interventions and progress monitoring. The problem-solving cycle, which is an integral part of the MTSS framework, should be used to match interventions with areas of need. A student who is not meeting the school district or state requirements for proficiency in reading and/or mathematics shall be covered by at least one of the following plans to target instruction within the MTSS framework and identify ways to improve his or her behavioral and/or academic achievement:

1. a federally required student plan, such as an individual education plan;
2. a school-wide system of progress monitoring for all students;
3. a targeted individualized intervention plan that includes a progress monitoring plan.

The plan chosen must be designed to assist the student or the school in meeting state and district expectations for proficiency. Each student who does not meet the minimum performance expectations defined by the Commissioner of Education for the statewide assessment tests in reading, writing, and mathematics must continue to be provided with remedial or supplemental instruction until:

1. the expectations are met;
2. the student graduates from high school; or
3. the student is not subject to compulsory school attendance.

Problem solving teams should monitor students' responses to intervention and engage in problem solving as needed to ensure positive student response to intervention.

In addition to an intervention plan, which includes progress monitoring, 3rd- 10th grade students, performing at Level 1 or Level 2 on required state assessments, must receive intensified support the following year. An Early Warning System and Elementary Reading Decision Tree will be used by problem-solving teams to identify K-5 students in need of supplemental and intensive supports in the areas of behavior, attendance, and academics. Evidence-based, explicit, systematic, and multi-sensory reading intervention strategies grounded in the science of reading must occur beyond the 90-minute literacy block with frequent, ongoing progress monitoring for students identified as having a substantial reading deficiency. Students identified as having a substantial reading deficiency must receive intervention instruction from a teacher who is reading endorsed, certified, or has earned a literacy micro-credential. Mathematics intervention may be integrated within the student's current mathematics class or before or after school in grades K-4. Students identified as having a substantial mathematics deficiency must receive intervention instruction from an educator with a bachelor's degree or higher who holds an active valid Florida Educator Certificate as defined in s. 1012.56, F.S. or a trained tutor as defined in paragraph (2)(c) of Rule 6A-6.0533.

In addition to an intervention plan, which includes progress monitoring, middle and high school students performing at Level 1 or 2 on Florida's statewide assessment in reading and mathematics or who do not earn a Level 3 or higher within the last two academic years may be enrolled in and complete an intensive reading or mathematics course the following year. Students may exit intensive courses at the end of the quarter/semester by demonstrating proficiency at Level 3 or higher on Florida's statewide assessment, or by meeting a concordant/comparative score on a state-approved assessment (PSAT, SAT, ACT, CLT) in reading and/or mathematics or by showing proficiency on the district benchmark assessment. Problem-solving teams should monitor students' response to intervention and engage in problem solving as needed to ensure positive student response to intervention.

A school-wide progress monitoring plan provides structure for monitoring the progress of all students and will be an integral part of the school improvement plan. Within the school improvement plan, the school-wide progress monitoring plan has four major components. The intervention plan, which includes progress monitoring for students scoring below a Level 3 on the required state assessments, must include the following:

1. Diagnostic Assessment:

Diagnostic assessments, in addition to the initial screening, are to be administered to all students scoring below a Level 3. Parents may not opt their child out of the District-approved diagnostic tool. In absence of state assessment data, school diagnostic data, or report card showing completion of grade level, the student will be placed into the age-appropriate grade level.

a. The specific diagnostic assessments to be administered must be identified, as well as the process for administering the assessments.

b. For students scoring Level 1 or 2 on the required state reading assessments, reading proficiency must be assessed at the beginning of the school year. The student must continue to be provided with targeted and intensive reading instruction until the reading deficiency is remediated. Targeted intensive instruction is usually associated with the following:

(iii) Smaller chunks of text or content

(iv) Guided and independent practice

(v) Skill development and practice integrated into all activities

(vii)Criterion-based evaluation of success

c. Diagnostic results are to be gathered and maintained for the students scoring Level 1 and 2 on required state assessments in reading or math.

d. Diagnostic results must be readily accessible to teachers, school administrators, certified School Counselors, parents, and School Psychologists.

2. Students who score a level 1 or 2 on a state assessment in reading and/or math should be provided additional diagnostic assessments to determine the need for intervention and to establish an intervention plan. Intervention plans should include:

a. Interventions, in the targeted areas of weakness, to assist students in meeting state and district expectations in behavior, reading, writing, and or math;

b. Targeted strategies to accelerate learning;

c. Measurable targets or goals for each deficit area;

d. A description of the supplemental or intensive instructional intervention and support, when they will be provided, how often, by whom, and for how long;

e. For reading deficiencies, identification of a student's specific areas of need in phonemic awareness, phonics, fluency, comprehension, vocabulary, and/or oral language.

f. Remedial instruction and intervention strategies may include, but are not limited to the following:

(i) Summer school

(ii) Dropout prevention services

(iii) Parent tutorial programs required

(iv) Contracted academic services

(v) Reading instruction

(vi) After-school instruction and other extended day services

3. Parent Consultation and Communication

Parents of students in Voluntary Prekindergarten who have a substantial deficiency in early literacy skills and/or early mathematics skills and parents of students in kindergarten through grade 5 who exhibit a substantial reading and/or mathematics deficiency based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must receive notification in writing of the following:

- That their child has been identified as having a substantial reading and/or mathematics deficiency, including a description and explanation in terms understandable to the parent of the exact nature of the student's difficulty in learning and lack of achievement in reading and/or mathematics.
- A description of the current services that are provided to the child.
- A description of the proposed interventions and supports that will be provided to the child that are designed to remediate the identified area of the reading and/or mathematics deficiency.
- That, if the reading deficiency is not remediated by the end of grade 3, the child must be retained unless the child is exempt from mandatory retention for good cause.
- Strategies, including multisensory strategies and programming, the parent can use through a home-based plan to help their child succeed in reading and/or mathematics, including electronic resources compiled by the department of education.
- That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion for grade 3 and that additional evaluations, portfolio reviews, and assessments are available to assist parents and the district in knowing when a child is reading at or above grade level and ready for grade promotion.
- The district's specific criteria and policies for student portfolios and the evidence required for a student to demonstrate mastery of Florida's academic standards for English Language Arts. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first.
- The district's specific criteria and policies for mid-year promotion. Mid-year promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level.
- Information about the student's eligibility for the New Worlds Reading Initiative under s.1003.485, F.S., and information on parent training modules and other reading engagement resources available through the initiative.

Schools may not wait for a kindergarten through grade 3 student to receive a failing grade at the end of a grading period to identify the student as having a substantial reading deficiency and initiate intensive interventions. Additionally, schools may not wait for a Voluntary Prekindergarten through grade 4

student to receive a failing grade at the end of a grading period to identify the student as having a substantial mathematics deficiency and initiate intensive mathematics interventions. Schools may not wait until an evaluation conducted pursuant to s.1003.57 is completed to provide appropriate, evidence-based interventions for a student whose parent submits documentation from a professional licensed under chapter 490 which demonstrates the student has been diagnosed with dyslexia and/or dyscalculia. Students in Voluntary Prekindergarten are deemed to have a substantial deficiency in early literacy and/or mathematics skills based upon the results of the administration for the midyear or final coordinated screening and progress monitoring measure.

For students in grades 6 through 12, the school shall notify the student and his/her parents of any remedial or supplemental academic instruction by the end of the first quarter. Parents may be notified through personal verbal contact, through a district-provided letter, during an Individual Education Plan team meeting, or a face-to-face meeting. All written and oral communication between the school district's personnel and parents of current or former English Language Learners shall be in the parents' primary language or the mode of communication commonly used by the parents unless clearly not feasible.

The letter is to include general information about the seriousness of the situation and the intervention plan in place for the students not meeting proficiency. The letter should also include an invitation for the parents to meet with instructional staff to consult about their child's plan.

Parents should be given an explanation of the information on which the decision was based, as well as a copy of the intervention plan for their child.

Parental approval for general education instructional interventions is not required.

4. Monitoring for Results:

The intervention plan must be developed by the end of first quarter, or within 6 weeks of a new student entering school, or as soon as a need is identified through the analysis of data by a problem-solving team. Students receiving supplemental interventions at the end of a school year should begin receiving interventions at the beginning of the next school year until there is evidence that the student has closed the gap and no longer needs supplemental or intensive support services.

The principal or designee will monitor the implementation of the school-wide progress monitoring plan and the school's plan for providing targeted intervention.

Each quarter, the principal or designee will review the progress of students identified as not meeting proficiency with the Instructional Leadership Team (ILT). The team will check for compliance with the school-wide progress monitoring plan (diagnostic assessment, intervention strategies, quarterly progress updates) and use data to inform instruction. Student progress shall be monitored at least twice a month and compared with the progress of peers to guide instructional decisions. If a student is not responding positively to interventions, an intensive individualized intervention plan should be developed with assistance from a problem-solving team at the school.

Each school will identify its problem-solving teams and their roles and responsibilities for monitoring the progress of all students (e.g., Instructional Leadership Team; Teacher collaborative Teams, IEP Teams, MTSS-B Team, and Intensive Support Team).

The intervention plan, including the plan for monitoring progress, can be documented on a student's Individual Education Plan (IEP), English Language Learner's Plan (ELL), or Section 504 Accommodation Plan.

5. For Elementary School Students who are retained:

a. The intervention plan, which includes a plan for progress monitoring, must specify, through the problem-solving process, how the second year's instructional program will be different from the previous year's program, utilizing interventions matched with the student's deficit areas.

b. Students must be provided evidence-based, explicit, systematic, and multi-sensory reading instruction grounded in the science of reading in an area of deficit (i.e., phonemic awareness, phonics, fluency, vocabulary, comprehension, and other strategies).

Career and Technical Education Course Offerings

Career and Technical Education elementary, middle, and high school students, including students with disabilities, may be given the options to earn Career and Professional Education (CAPE) Digital Tool certificates and CAPE industry certifications.

Required Instruction

Pursuant to Florida Statute 1003.42, required instruction will be embedded in K-12 course of study, where age appropriate and consistent with course standards. Students may be exempted from the comprehensive health components that include reproductive health or any disease, including HIV/AIDS, its symptoms, development, and treatment. A student so exempted may not be penalized by reason of that exemption. The process to request an exemption is posted on the School District website.

Parental Rights

All parental rights are reserved to the parent of a minor child in this state without obstruction or interference from the state, any of its political subdivisions, any other governmental entity, or any other institution, as set forth in s. 1014.04, including, but not limited to all the following rights of a parent of a minor child:

1. The right to direct the education and care of his or her minor child.
2. The right, pursuant to s. 1002.20(2)(b) and (6), to apply to enroll his or her minor child in a public school or, as an alternative to public education, a private school, including a religious school, a home education program, or other available options, as authorized by law.

4. The right to consent in writing before the state or any of its political subdivisions makes a video or voice recording of his or her minor child unless such recording is made during or as part of a court proceeding or is made as part of a forensic interview in a criminal or Department of Children and Families investigation or is to be used solely for the following purposes:

a. A safety demonstration, including the maintenance of order and discipline in the common areas of a school or on student transportation vehicles;

b. A purpose related to a legitimate academic or extracurricular activity;

c. A purpose related to regular classroom instructions;

Curricula and Instructional Materials

In accordance with 1006.28(2)(a) and 1002.20(19)(b), F.S. and School Board Policy 2520, parents have the right to learn about their minor child's course of study, to include the source of any supplemental instructional materials. Parents may request a copy of instructional materials from their child's teacher or may purchase certain materials with a written request to the school's principal. For parents who are interested in learning more about the types and nature of extracurricular activities and club offerings, please visit school website.

Parent or Manatee County residents who object of the purchase of specific instructional materials on the basis of moral, sexual, religious, or other perceived harms may complete a form available on the district website. The form must be submitted to the Curriculum Department within 30 days of the district adoption of the specific material. Parents who object to specific content based on sexuality may also withdraw their minor child from those portions of the school district's required comprehensive health education instruction, with a written request to the school principal.

Elementary School Education (Grades K-5)

I. Program of Studies Grades K-5

All students will receive instruction in English Language Arts (ELA), mathematics, science, social studies, the arts, health, and physical education aligned with state standards. ELA, mathematics, science, social studies, the arts, and physical education will be graded courses. Students and families must be notified at the beginning of each year as to how their grades in each core academic area will be determined.

English Language Arts (ELA)

All students in K-5 shall be assigned an uninterrupted 90-minute reading block with additional time for instruction in the writing process and additional time for reading intervention, as needed, with a highly qualified, effective teacher, a core reading program, and ongoing progress monitoring.

Physical Education (PE) and Recess

Physical education (PE) instruction focuses on the outcomes of achieving and maintaining a health-enhancing level of fitness and understanding that physical activity provides the opportunity for enjoyment, challenge, self-expression, communication, and well-being. Elementary schools provide 150 minutes of PE per week. In addition, schools are required to provide 20 consecutive minutes of unstructured free-play recess per day. A minimum of 30 consecutive minutes of PE is required on any day that formal (PE) instruction is provided. The elementary school principal may designate any instructional personnel to provide PE. Elementary schools will integrate health education standards into science and PE as appropriate.

K-5 Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, and virtual instruction in higher grade-level subjects. Whole-grade and mid-year promotion requires an elementary student to meet the district criteria outlined below. Whole-grade and mid-year promotion requires students to meet student progression promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade level subjects is available when students have exhausted the course offerings at the school, and students meet the course prerequisites. In addition to these requirements, the following must be considered when establishing eligibility:

1. The student's performance on required state assessments
2. The student's grades or grade point average
3. The student's attendance and conduct

Deleted: ¶

Formatted: Right

4. Teacher and school counselor recommendations

Each school must inform students and parents of these options. A student or a parent may request one of the options by written request to the principal. This will be followed by a parent conference to discuss eligibility and placement.

Whole-Grade Promotion:

An elementary student must meet all the following criteria to be eligible for whole-grade promotion:

1. The student must be consistently performing above grade level standards on a locally determined assessment, a statewide assessment or a standardized assessment in reading/language arts and mathematics for each of the past two years. For kindergarten students, schools will use state and district assessment data for ELA and mathematics.

   In addition to this, students must meet the following criteria:

   a. The student cannot skip third grade as a result of whole-grade promotion.

   b. The student must be recommended by the principal, parent, classroom teacher, or school counselor.

   c. All whole-grade promotions must be approved by a district promotion committee and entered appropriately in the student information system.

Mid-Year Promotion:

An elementary student must meet all the following criteria to be eligible for mid-year promotion:

1. The student must be consistently performing above grade standards on a locally determined assessment, a statewide assessment or a standardized assessment in reading/language arts and mathematics for each of the past two years. In the event a student does not have two years of data, schools will use state and district assessment data for ELA and mathematics.
2. The student must be recommended by the principal, classroom teacher, parent, or school counselor.
3. All mid-grade promotions must be approved by a district promotion committee and take place prior to the end of first semester and entered appropriately in the student information system.
4. Third graders must meet all the requirements in statute for mid-year promotion (s. 1008.25(8), F.S., Rule 6A-1.094221, F.A.C., and Rule 6A-1.094222, F.A.C.). Students cannot skip third grade. The criteria for students promoted on or before November 1st are as follows:

   a. Satisfactory performance as demonstrated by scoring Level 2 or above on beginning of the year administration of the statewide, standardized coordinated screening and progress monitoring system in Grade 3 English Language Arts pursuant to s. 1008.25(9)(b)3., F.S.;

   b. Satisfactory performance on locally selected standardized assessment(s) measuring state academic standards in English Language Arts pursuant to s. 1003.41, F.S.;

   c. Satisfactory performance on a state approved alternative assessment as delineated in paragraph

d. Successful completion of portfolio elements that meet all of the following requirements:

   i. Be selected by the school district;

   ii. Be an accurate picture of the student's ability and only include student work that has been independently produced in the classroom;

   iii. Include evidence that the benchmarks assessed by the grade 3 statewide, standardized English Language Arts assessment under s. 1008.22, F.S., have been met. Evidence is to include grade level passages that are approximately fifty (50) percent literary text and fifty (50) percent informational text, and that are between 100-700 words with an average of 500 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum or teacher-prepared assessments that are aligned with the B.E.S.T. ELA standards;

   iv. Be an organized collection of evidence of the student's mastery of the B.E.S.T. ELA standards that are assessed by the grade 3 statewide, standardized English Language Arts assessment under s. 1008.22, F.S. For each benchmark, there must be at least eight (8) items assessed and the student must demonstrate seventy (70) percent mastery for all items assessed per benchmark and;

   v. Be signed by the teacher and the principal as an accurate assessment of the required reading skills.

The criteria for students promoted after November 1 must provide a reasonable expectation that the student has met the requirements outlined in Rule 6A-1.094222, F.A.C., and that the student's progress is sufficient to master appropriate grade 4 level reading skills equivalent to the level necessary for the month in which the transition to grade 4 occurs.

A retained third grade student is eligible for mid-year promotion if the student scores Level 2 or above on PM1 of the Grade 3 FAST ELA Reading and there is evidence the student is progressing sufficiently to master appropriate fourth grade reading skills.

The Progress Monitoring Plan for any retained third grade student who has been promoted mid-year to grade 4 must continue to be implemented for the entire academic year and, if necessary, for additional school years.

Subject-Matter Acceleration:

An elementary student is eligible for subject-matter acceleration when the student has mastered the subject standards in the prerequisite grade-level course. The student must be recommended by the principal, parent, classroom teacher, or the school counselor based on achievement of the learning targets and standards.

II. Promotion and Good Cause Placements

Promotion Requirements

All decisions pertaining to the promotion or retention of students will be communicated to parents and made under the authority of the School District of Manatee County in accordance with Florida statute. A student in K-2 or 4-5 is promoted if the student demonstrates mastery of the currently adopted state standards in core academic subject areas. In accordance with state statute, K-5th grade students are mandated to participate in required state-approved assessments. Grade 3 students must score a Level 2 or higher on the English Language Arts statewide, standardized assessment for promotion to grade 4. A student may not be retained more than once in grade 3.

K-2 and 4-5 students will be promoted or "Good Caused" each year with their cohort group. Those students who do not meet grade-level standards in English Language Arts and mathematics will be supported in the next grade level through intensive remediation as well as an alternative instructional setting if needed. In cases where a K-2 student may benefit from a retention, the following requirements must be met:

1. The recommendation must be based upon the student's performance in English Language Arts and mathematics.
2. Input from the parent in writing regarding a possible retention decision that is included as part of the school leadership team's recommendation.
3. Proof of communication to the parent as spelled out in Section III, Intensive Intervention (s. 1008.25).

Good Cause Criteria for K-2

A student who does not meet the promotion criteria will be considered for good cause placement in the next grade. Good cause placement is defined as follows:

Grades K-2 Good Cause
Good Cause "A-ESE" –A student with a disability in grades K-2 can be placed for good cause if the Individual Education Plan (IEP) indicates that the student is making adequate progress towards their individual goals and/or is receiving services appropriate to progressing their individual skills. Documentation indicates that the promotion of the student with disabilities is appropriate, based upon the student's academic record, and shall be submitted from the student's teacher/therapist to the school principal.
Good Cause "A-ESOL" – An English Language Learner (ELL) who has had less than two years of instruction in English for Speakers of Other Languages (ESOL) program (not including PreK) based on the initial date of entry into a school in the United States (DEUSS), can be placed for good cause.

Deleted: ¶

Formatted: Right

Good Cause "A-504" – A student with a Section 504 plan can be placed for good cause if the Report of Conference Form indicates the student's disability along with the recommendation and reasons for the student's exemption from the promotion criteria in reading and mathematics. Documentation of remediation in reading and/or mathematics will be included within the school-wide progress monitoring plan.
Good Cause "A-Com" – A student in grades K-2 can be placed for good cause if a committee comprised of the student's teachers, school counselor, or other appropriate personnel as designated by the principal documents the recommendation and the reasons for the student's exemption from the promotion criteria. Documentation could be included in a student portfolio, case conference notes, or documentation in the school-wide progress monitoring plan. Student will receive intervention and support in the next grade level. No student can be assigned to a grade level based solely on age or other factors that constitute social promotion.

Good Cause Criteria for Grade 3

Good Cause Criteria:

Per state statute, a student may not be retained more than once in grade 3. A student is exempt from retention for good cause and placed in the next grade if the student meets one of the following. 3rd grade good cause is defined as follows:

Grade 3 Good Cause
Good Cause "1" –English Language Learners who have had less than two years of instruction in English for Speakers of Other Languages (ESOL) program (not including PreK) based on the initial date of entry into a school in the United States (DEUSS).
Good Cause "2" – Students with disabilities whose Individual Education Plans (IEP) indicate that participation in statewide assessment is not appropriate, consistent with the requirements of section 1008.212, F.S..
Good Cause "3" – Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment that has been approved by the Department of Education, administered after the required grade 3 statewide standardized English Language Arts assessment under Section 1008.22, F.S. The required percentile passing score for each approved alternative standardized reading assessment will be determined by the Department of Education.

Deleted: ¶

Formatted: Right

Good Cause "4" – Students who demonstrate, through a student portfolio, that they are reading on grade level as evidenced by demonstration of mastery of the State Standards in reading equal to at least a Level 2 performance on required state assessment. To demonstrate mastery of the required reading skills, the student portfolio must:

- be selected by the student's teacher;
- be an accurate picture of the student's ability and include only student work that has been independently produced in the classroom;
- include evidence that the benchmarks assessed by the grade 3 statewide, standardized English Language Arts assessment have been met. Evidence is to include grade-level passages that are approximately 50% literary text and 50% informational text, and that are between 100-700 words with an average of 500 words. Such evidence could include chapter or unit tests from the district's/school's adopted core reading curriculum or teacher-prepared assessments that are aligned with the B.E.S.T. English Language Arts Standards;
- be an organized collection of evidence of the student's mastery of the B.E.S.T. English Language Arts Standards that are assessed by the grade 3 statewide, standardized English Language Arts assessment. For each benchmark, there must be at least 8 items assessed and the student must demonstrate seventy (70) percent mastery for all items assessed per benchmark; and
- be signed by the teacher and principal as an accurate assessment of the required reading skills.

A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first.

Good Cause "5" – Students with disabilities who take the statewide, standardized English Language Arts assessment and who have an Individual Education Plan (IEP) or a Section 504 plan that reflects that the student has received intensive instruction in reading or English Language Arts for 2 years or more but still demonstrates a deficiency and was previously retained in prekindergarten, kindergarten, grade 1, grade 2, or grade 3.

Good Cause "7"– Any third-grade student receiving intensive remediation in reading for two or more years, but still has deficiency in reading and has been previously retained in K-3 for a total of two years. If placed under this exemption, intensive reading instruction must include an altered instructional day that includes specialized diagnostic information and specific reading strategies. A student may not be retained more than once in 3rd grade. Any currently retained 3rd grader would qualify for this Good Cause.

The school district Superintendent shall accept or reject the school principal's recommendation in writing.

Documentation indicates that the promotion of the student with disabilities is appropriate, based upon the student's academic record, and shall be submitted from the student's teacher/therapist to the school principal.

Documentation could be included in a student portfolio, case conference notes, or documentation in the school-wide progress monitoring plan. A student will receive intervention and support in the next grade level. No student can be assigned to a grade level based solely on age or other factors that constitute social promotion.

Summer School

In the summer before entering kindergarten, VPK students who score below the twenty-fifth (25th) percentile or have a nonparticipation status of "assessment inappropriate," "failed practice" or "non-English speaker" on PM3 of the coordinated screening and progress monitoring system are eligible to participate in the Summer Bridge Program. The Summer Bridge Program consists of 4 hours of instruction per day for a minimum of 100 total hours, with an emphasis on emergent literacy instruction grounded in the science of reading. (s. 1008.25(5), F.S., and Rule 6A-6.0530, F.A.C.)

Summer school reading programs are provided for third grade students who do not meet the promotion criteria or who are not approved for good cause placement. Third grade students who meet state defined criteria at the end of the Summer Reading Camp will qualify for good cause.

III. Intensive Intervention

Parent Notification of a Reading and/or Mathematics Deficiency for Students Grades VPK-Grade 5 (F.S. 1008.25)

Parents of students in Voluntary Prekindergarten who have a substantial deficiency in early literacy skills and parents of students in kindergarten through grade 5 who exhibit a substantial reading deficiency, or the characteristics of dyslexia based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must immediately receive notification in writing of the following:

Deleted: ¶

Formatted: Right

1. That his or her child has been identified as having a substantial deficiency in reading, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in reading;

2. A description of the current services that are provided to the child;

3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency;

4. That if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause;

5. Strategies, including multisensory strategies and programming, through a read-at-home plan the parent can use to help his or her child succeed in reading, including electronic resources compiled by the Department of Education;

6. That the statewide, standardized English Language Arts assessment is not the sole determiner of promotion for grade 3 and that additional evaluations, portfolio reviews, and assessments are available to assist parents and the school district in knowing when a child is reading at or above grade level and ready for grade promotion;

7. The district's specific criteria and policies for a portfolio and the evidence required for a student to demonstrate master of Florida's academic standards for English Language Arts. A school must immediately begin collecting evidence for a portfolio when a student in grade 3 is identified as being at risk of retention or upon the request of the parent, whichever occurs first;

8. The district's specific criteria and policies for midyear promotion. Midyear promotion means promotion of a retained student at any time during the year of retention once the student has demonstrated ability to read at grade level;

9. Information about the student's eligibility for the New Worlds Reading Initiative under s. 1003.485 and information on parent training modules and other reading engagement resources available through the initiative.

Deleted: and the New Worlds Scholarship Accounts under s. 1002.411 …

Parents of students in Voluntary Prekindergarten who exhibit a substantial deficiency in early mathematics skills and parents of students in kindergarten through grade 5 who exhibit a substantial deficiency in mathematics, or the characteristics of dyscalculia based upon screening, diagnostic, progress monitoring, assessment data, statewide assessments, or teacher observations must receive notification in writing of the following:

1. That his or her child has been identified as having a substantial deficiency in mathematics, including a description and explanation, in terms understandable to the parent, of the exact nature of the student's difficulty in learning and lack of achievement in mathematics.

2. A description of the current services that are provided to the child.

3. A description of the proposed intensive interventions and supports that will be provided to the child that are designed to remediate the identified area of mathematics deficiency.

4. Strategies, including multisensory strategies and programming, through a home-based plan the parent can use in helping his or her child success in mathematics, including electronic resources compiled by the Department of Education.

After initial notification of either a deficiency in reading or mathematics, the school shall apprise the parent at least monthly of the student's progress in response to the intensive interventions and supports. Such communications must be in writing and must explain any additional interventions or supports that will be implemented to accelerate the student's progress if the interventions and supports already being implemented have not resulted in improvement. Upon the request of the parent, teacher or school administrator shall meet to discuss the student's progress. The parent may request more frequent notification of the student's progress, more frequent interventions or support and earlier implementation of the additional interventions or supports described in the initial notification.

By September 30, the school district will notify the parent of each eligible student of the process to request and receive a scholarship, subject to available funds.

In addition, schools may not wait for a student to receive a failing grade at the end of a grading period or wait until a plan is developed to identify the student as having a substantial reading or mathematics deficiency and initiate intensive interventions. Voluntary Prekindergarten Program students who exhibit a substantial deficiency in early literacy and/or early mathematics skills shall be referred to the local school district and may be eligible to receive intensive interventions before participating in kindergarten.

Services for Students Retained in Grade 3

Students retained in grade 3 must be provided a highly effective teacher as determined by the teacher's performance evaluation under section 1012.34, F.S. and the teacher must also be certified or endorsed in reading. These students must be provided intensive interventions in reading to ameliorate the student's specific reading deficiency and prepare the student for promotion. These interventions must include:

1. Evidence-based, explicit, systematic, and multisensory reading instruction grounded in the science of reading in phonemic awareness, phonics, fluency, vocabulary, and comprehension and other strategies prescribed by the school district.
2. Participation in the school district's summer reading camp, which must incorporate the instructional and intervention strategies above that place rigor and grade-level learning at the forefront.
3. A minimum of 90 minutes of daily, uninterrupted reading instruction incorporating the instructional and intervention strategies above. This instruction may include:
    a. Coordinated integration of content-rich texts in science and civic literacy within the 90-minute block;
    b. Targeted small group instruction;
    c. Explicit and systematic instruction with more detailed explanations, more extensive opportunities for guided practice and more opportunities for error correction and feedback;
    d. Reduced teacher-student ratios;

e. More frequent progress monitoring of the reading skills of each student throughout the school year and the adjustment of instruction according to student need;

f. Tutoring or mentoring;

g. Transition classes containing 3rd and 4th grade students;

h. Extended school day, week, or year.

i. Before school or after school, or both, supplemental evidence-based reading interventions grounded in the science of reading delivered by a teacher who is certified or endorsed in reading and is rated highly effective as determined by the teacher's performance evaluation under s. 1012.34, F.S.

The primary instructional strategy for teaching word reading is phonics instruction for decoding and encoding. Instructional strategies may not employ the three-cueing system model of reading or visual memory as a basis for teaching word reading. Such instruction may include visual information and strategies which improve background knowledge and experiential knowledge, add context and increase oral language and vocabulary to support comprehension, but may not be used to teach word reading. (s. 1008.25(8), F.S.).

Services for Students Promoted to Grade 4 with a Good Cause Exemption

Each student who does not achieve a Level 3 or above on the statewide, standardized English Language Arts assessment or the statewide, standardized Mathematics assessment must be evaluated to determine the nature of the student's difficulty, the areas of academic need, and strategies for providing academic supports to improve the student's performance. A student who is not meeting the school district or state requirements for satisfactory performance in English Language Arts and mathematics must be covered by one of the following:

1. A federally required student plan, such as an individual education plan;

2. A schoolwide system of progress monitoring for all students, except a student who scores Level 4 or above on the English Language Arts and mathematics assessments may be exempted from participation by the principal; or

3. An individualized progress monitoring plan.

A student who is promoted to grade 4 with a good cause exemption shall be provided intensive reading instruction and intervention that include specialized diagnostic information and specific reading strategies to meet the needs of each student so promoted. The school district shall assist schools and teachers with the implementation of explicit, systematic, and multisensory reading instruction and intervention strategies for students promoted with a good cause exemption which research has shown to be successful in improving reading among students who have reading difficulties. It is best practice for the school to update the parent at least monthly of the student's progress in response to the intensive reding instruction and intervention. Upon the request of the parent, the teacher or school administrator shall meet to discuss the student's progress. The parent may request more frequent notification of the student's progress, more frequent interventions and earlier implementation of the additional interventions or support described in the initial notification. Middle School Education (Grades 6-8)

I. Program of Studies Grades 6-8

Course Offerings

Middle school grades 6-8 basic education course offerings are selected from the Florida Department of Education's Course Code Directory and approved by the district.

The program of studies for middle school grades includes the following state and local offerings:

Language Arts	Art
Mathematics	Music
Science	Physical Education/Health
Social Studies	Career/Technical Education
Reading	Foreign Language

Advancement Via Individual Determination (AVID)

Other enrichment and exploratory courses may be offered by individual middle schools, such as dance, drama, agriculture, and gifted services. Each school will hold a parent meeting either in the evening or on a weekend to inform parents about the school's curriculum and activities.

Middle school students may have the opportunity to earn high school credits and/or industry certifications.

In addition to evidence-based reading courses, reading instruction is integrated throughout the entire curriculum. All middle schools must follow the district-approved curriculum.

Schools are prohibited from suspending a regular program of curricula to administer practice tests or engage in other test-preparation activities for a statewide assessment. However, activities including instruction on test-taking strategies are authorized.

Students are required to be enrolled on a full-time basis, including 7 courses or the equivalent. If there are extenuating circumstances, students may use a combination of virtual school courses and traditional courses to meet the full-time criteria. To use this option, seats must be available in the required virtual school courses, and principal approval is required. Students wishing to have a part-time enrollment status may do so by registering as a home education student. Home education students may take up to 3 courses at their districted school, providing there is room in the course(s).

An English Language Learner (ELL) with no prior school records shall be assigned to a grade level based on age-appropriate placement.

Required Courses for Grades 6-8

Promotion from middle school to high school requires that the student successfully complete three middle school or higher courses in each of the following:

a. English Language Arts

English Language Arts must emphasize literature, informational/technical text, writing, listening, speaking, and language.

b. Mathematics

Each middle school must offer at least one high school-level mathematics course for which students may earn high school credit.

c. Social Studies (including Civics, assessed by a state required end-of-course exam)

The required study of state and federal government and civics education will be incorporated into Civics. One of these courses must be at least a one-semester civics education course. Each student's performance on the statewide, standardized EOC assessment in civics education constitutes 30 percent of the student's final course grade. A middle grades student who transfers into the state's public school system from out-of-country, out-of-state, private school, or a home education program after the beginning of the second term of grade 8 is not required to meet the civics education requirement for promotion from the middle grades if the student's transcripts document passage of three courses in social studies or two year-long courses in social studies that includes coverage of civics education.

d. Science (8th grade students will be assessed by the state-required science assessment)

Physical Education

1. Middle schools must offer the equivalent of one class period per day of physical education for one semester of each year for students enrolled in grades 6-8.
2. Physical Education Waiver:

Parents may submit a waiver of the physical education requirement for their child. Students in grades 6-8 are eligible to waive the physical education requirement if they meet any of the following criteria:

Deleted: ¶

Formatted: Right

a. The student is enrolled in a remedial course.

b. The student's parent indicates in writing to the school that:

   i. The parent requests that the student enroll in another course from among those courses already offered as options by the school district as space allows; or

   ii. The student is participating in physical activities outside the school day which are equal to or in excess of the mandated requirement. Students who use the waiver because they participate in physical activities outside the school day must be enrolled in school on a full- time basis.

Career Research Course

Middle school students must successfully complete one course in career and education planning which must result in a completed internet-based, customizable, personalized academic and career plan for the student. The personalized academic and career plan may be revised as the student progresses through middle school and high school. The course must include research-based assessments to assist students in determining educational and career goals, emphasize the importance of entrepreneurship and employability skills, and must include information from the Department of Economic Opportunity's economic security report under s. 445.07, F.S.

The personalized academic and career plan must inform students of the following:

1. high school graduation requirements, including a detailed explanation of the requirements for earning a high school diploma designation under s. 1003.4285, F.S.;
2. the requirements for each scholarship in the Florida Bright Futures Scholarship Program;
3. admission requirements for State University System and Florida College System institutions;
4. available opportunities to earn college credit in high school, including Advanced Placement (AP) courses; the International Baccalaureate (IB) Program; the Advanced International Certificate of Education (AICE) Program; dual enrollment, including career dual enrollment; and
5. career education courses, including career-themed courses, pre-apprenticeship and apprenticeship programs, and course sequences that lead to industry certification pursuant to ss. 1003.492 or 1008.44, F.S.

Required Remediation

Participation in the assessment program is mandatory for all students enrolled in a public school. Students must earn a Level 3 or higher in English Language Arts (ELA) and/or Mathematics on a standardized assessment. Students who do not meet these criteria may be required to receive enhanced instruction through a course that will assist in building the student's skills and in mastering standards.

School administrators may use state progress monitoring assessments to determine proficiency if no state standardized assessment scores are available at the time of enrollment.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school.

Advancement Via Individual Determination (AVID)

AVID is an elective course designed to prepare students for college and career readiness and success. Students who apply for and are accepted into the course must also take at least one advanced level or high school credit course. The AVID curriculum supports students as they undertake the most rigorous courses, with emphasis on writing as a learning tool, the inquiry method, collaborative grouping, organization, and academic reading.

Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, virtual instruction in higher grade-level subjects, and Credit Acceleration Program (CAP). Whole-grade and mid-year promotion requires secondary students to meet student progression course/credit promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade-level subjects is available when students have exhausted the course offerings at the school and students meet the course prerequisites. The Credit Accelerated Program may be used for any course that requires an end-of-course exam to earn credit in the course. In addition to these requirements, the following must be considered when establishing eligibility:

1. the student's performance on required state assessments;
2. the student's grades or grade point average;
3. the student's attendance and conduct;
4. teacher and school counselor recommendations.

Each school must inform students and parents of these options. A student or a parent may request one of the options by written request to the principal. This request will be followed by a parent conference to discuss eligibility and placement.

II. Promotion and Retention

Promotion Requirements

Students will be promoted to the next grade level based on the number of years in middle school.

To be promoted from 8th grade to high school, a student must successfully complete 12 core academic courses to include 3 courses in each of the following academic areas: language arts, math, science, and social studies (to include Civics). Students who do not meet promotion criteria to 9th grade will be recommended for enrollment in a summer remediation and credit recovery program. Students who do not successfully complete the summer program may be retained or assigned to an alternative instructional setting based on principal recommendation.

Promotion from 8th grade to 9th grade for a student who transfers into Florida from out-of-state during middle school will be based on the student successfully completing the number of core courses in language arts, mathematics, science, and social studies for each year the student has been in Florida. If a student transfers into a Florida public middle school from a Florida private school during their middle grade years, the student must meet all promotion requirements as defined by state statute.

If a student has successfully completed a high school course, failure of the end-of-course assessment will not result in the student being retained in middle school.

8th grade students who are enrolled in a virtual program for an academic course must complete the academic course by the last day of school or will be placed in an alternative instructional setting.

Middle School Grading

Grading Scale:

Student achievement in all courses will be evaluated using numeric and letter grades. As designated in Florida Statute, letter grading scale and definitions adopted for all courses in grades 6 through 8 are as follows:

Value	Numeric Range	Letter Grade	Definition
4	90-100	A	Outstanding Progress
3	80-89	B	Above Average Progress
2	70-79	C	Average Progress
1	60-69	D	Lowest Acceptable Progress
0	0-59	F	Failure

Note: W = Withdrawn I = Incomplete* NG—No Grade Assigned

*An incomplete grade ("I") will be changed to a letter grade upon completion of all course requirements

Deleted: ¶

Formatted: Right

within 10 school days of the "I" being issued, under normal circumstances. If, after ten days, the course requirements are not completed, the incomplete grade will become an "F."

A progress report or report card grade cannot be more than 100%.

Students must be notified in writing at the beginning of each course as to how their grade will be determined. This could be included in the Course Syllabus or information shared with students and parents.

Exam Exemptions:

Schools shall not exempt students from academic performance requirements such as final exams, based on practices or policies designed to encourage student attendance. A student's attendance record may not be used in whole or part to provide an exemption from any academic performance requirement.

Progress Reports:

Progress reports are posted mid-way through each quarter (approximately 4.5 weeks) to notify students and their parents or guardians of mid-term academic progress. Progress reports are available via the Parent Portal. Schools may print progress reports at the principal's discretion. Parents may request a printed copy of the progress report. Additionally, parents may monitor student progress regularly through the FOCUS Parent Portal. To communicate with teachers, parents may contact each teacher at school by phone or through email.

Grades for courses taken through Manatee Virtual School and course recovery will not be included on the mid-quarter progress report.

Report Cards:

Report cards, which are available on a quarterly basis, specify the student's academic performance, conduct and behavior, and attendance, including absences and tardies. Academic performance is based on examinations as well as written papers, class participation, and/or other academic performance criteria. Report cards are available via the Parent Portal. Schools may print report cards at the principal's discretion. Parents may request a printed copy of the report card.

Makeup Work:

Following an excused absence, the students have the responsibility to contact their teachers on the next attendance day in order to obtain any missed assignments. Work assigned prior to the absence is due the day the student returns to school. Work assigned during the student's absence is due within a period of time equal to the number of days that the student was absent.

End of Year Grades:

The end of the year average in the district grade book system is based on the average of all four quarters; however, a passing grade must be earned either third or fourth quarter for the student to pass the course for the year. Letter grades will be awarded based on the district grading scale.

For middle school courses that do not have a state-required end-of-course exam, a point system has been established for the benefit of students who may have experienced an unsuccessful quarter.

Deleted: ¶

Formatted: Right

Teachers are to award whichever grade is the highest for each student -- the grade determined by the average of the four quarters or the grade determined by the Point System. Students are still required to earn a minimum of at least one (1) point in second semester for either method of grading.

The point system for end-of-the-year grades is determined as follows:

Each quarter grade will be assigned a value selected from the following:	To determine the end-of-year grade for a middle school course, total the numerical values of the four quarters and select the grade from the table below:
A = 4 B = 3 C = 2 D = 1 F = 0	A = 14 – 16 B = 10 – 13 C = 6 – 9 D = 3 – 5 F = 0 – 2

If the grade book program average and the grade determined by the point system differ, the student is to be given the higher of the two grades as long as the student earns at least one (1) point in second semester.

Grades for high school courses are calculated according to the high school procedures. Middle school semester-long courses that do not have a state mandated EOC will be calculated by averaging the two quarters to determine a semester-long final grade.

The point system cannot be used to determine the end-of-year grades for Civics. It must be calculated using the EOC as 30% of the year-long course grade. Students are not required to earn at least 1 point in 3rd or 4th quarter as the final grade is strictly based on the average of the 4 quarters and the EOC.

The final grade for Civics will be calculated as follows:

Quarter 1—17%

Quarter 2—18%

Quarter 3—17%

Quarter 4—18%

EOC—30%

Semester grades in Civics for students using an ESE End-of-Course Assessment Waiver will be averaged as follows:

Quarter 1=25%

Quarter 2 =25%

Quarter 3 =25%

Quarter 4 =25%.

Parent Notification:

Each year, to prepare students for career and postsecondary education planning, all middle schools shall notify students in grades 6 - 8 and their parents of the three-year and four-year high school graduation options, so they may select the program that best meets the student's needs. This notification shall be conducted prior to the annual course selection, so a student's academic plan and a time frame for achieving the graduation option may be modified to meet the student's needs. The selection of a graduation option is an exclusive choice of the student and parent; however, if a diploma option is not selected, the choice will revert to the standard four-year diploma option, which requires 24 credits.

III. Transfer Students

Transfer Grade Policy

The procedures relating to the acceptance of transfer work and courses for students entering Florida's public schools composed of middle grades 6, 7, and 8 from out of state or out of country are as follows:

1. Grades earned and offered for acceptance shall be based on official transcripts and shall be accepted at face value, subject to validation if required by the receiving school's accreditation. If validation of the official transcript is deemed necessary, or if the student does not possess an official transcript or is a home education student, successful completion of courses shall be validated through performance during the first grading period as outlined in subsection (b) of this rule.
2. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should be passing each required course at the end of the first grading period. Students who do not meet this requirement shall have courses validated using the Alternative Validation Procedure outlined below.
3. Alternative Validation Procedure: If validation based on performance as described above is not satisfactory, then any one of the following alternatives identified in the district Student Progression Plan shall be used for validation purposes as determined by the teacher, principal, and parent or guardian:
    a. Portfolio evaluation by the superintendent or designee;
    b. Demonstrated performance in courses taken at other public or private schools that are accredited;
    c. Demonstrated proficiencies on nationally-normed standardized subject area assessments;
    d. Demonstrated proficiencies on the required state assessment; or
    e. Written review of the criteria utilized for a given subject provided by the former school.

    Students must be provided at least ninety (90) days from date of transfer to prepare for assessments outlined above if required.
4. Transferring students who are not proficient in English should receive immediate and intensive instruction in English language acquisition.

Virtual School Transfers:

Students who are enrolled full time in a virtual school program are required to meet the same promotion requirements of all other public school students in the state of Florida.

For a student who transfers back into a non-virtual district school any time during the year, the student shall be required to bring evidence of grades in progress as documented by withdrawal forms, progress reports, or report cards.

If the student is able to produce the required documentation, the grades received while attending the virtual school program will become part of the student's record in the same manner as any other transfer student. However, if the student is unable to provide the required documentation, validation of courses shall be based on performance during the first grading period in the non-virtual district school classroom. This validation will follow the same procedures as outlined under Transfer Grade Policy.

IV. Course Acceleration and Enrichment

Principals may override district criteria and place students in high school dual enrollment courses based on data indicating that the student is capable of success in the courses. This data must be documented.

High School Credit Courses Offered in Middle School

High school dual credit courses provide middle school students who have advanced skills the opportunity to pursue a more rigorous education. The expectation is that these students will take challenging courses, such as Advanced Placement, AICE, International Baccalaureate, and college dual enrollment, including during the senior year of high school. High school credit courses are not offered in middle school for the purpose of graduating early or experiencing an "easier" senior year. Failure to take rigorous academic courses during the senior year could prevent a student from being accepted into many colleges and universities. Parents of student athletes who take high school courses in middle school should visit the National Collegiate Athletic Association (NCAA) website for more information.

Each middle school may offer dual enrollment high school courses based on the needs of their students, special program requirements, and demand for the course. Course offerings vary by school; please see the school's Curriculum Guide for specific course offerings.

Career and Technical Education (CTE) courses that have been approved by the Executive Director of Adult, Career, and Technical Education articulate to high school CTE programs in their feeder pattern and are the introductory course in a specific program of study.

A Curriculum Modification Request Form can be submitted by the principal to the Office of Student Assignment for the Deputy Superintendent for Instructional Services to request approval to offer high school credit courses.

1. Grades for high school courses taken during middle school will appear on the high school transcript and will be averaged in with the high school grade point average. Students must carry forward all grades and

Deleted: ¶

any credits earned in high school courses.

2. State assessments, benchmark data and course grades must be monitored. If a middle school student is struggling in a high school course during first or second quarter, a schedule change may be implemented by the school administrator to move the student to the middle school course, as long as there is room in the course. Remaining in high school courses places the middle school student at risk of failing a required core subject. The schedule change must be made before the end of first semester.

   Once the semester is completed and the student has earned the high school credit, the grade and credit cannot be removed from the high school transcript, even if the grade is a" "D or "F".

3. Middle school students who earn a "C" or lower in a high school course are strongly encouraged to retake the course under the Grade Forgiveness Policy.

4. Schools will use district criteria for identifying eligible students for enrollment in honors or high school credit courses. Schools must have a plan for reviewing students' required state assessment scores and their grade point averages to ensure that all eligible students are considered for placement into these courses. Principals may override the district criteria and place students in dual enrollment courses based on data indicating that the student is capable of success in the courses. This data must be documented.

5. AVID students must be placed in at least one honors, advanced, or dual enrollment course. Principals are encouraged to make exceptions to the placement criteria in the AVID students' areas of strength. Special consideration should be given to placing students in Algebra 1 Honors in an AVID student's 8th grade year.

District Criteria for Enrollment in High School Credit Courses:

Students earning a "D" or "F" in a high school credit course at the end of the first semester may be withdrawn and scheduled into a middle school course in the same subject area by the school administrator.

1. English I Honors: The student must have earned a Level 3, 4, or 5 on the most current required state assessment in English Language Arts (ELA) or have teacher, counselor, and/or administrator recommendation.

2. 8th Grade Algebra I or Algebra I Honors: The student must have earned a Level 3, 4, or 5 on the most current required state assessment in Mathematics or have a teacher, counselor, parent, and/or administrator recommendation.

3. 7th Grade Algebra I Honors: The student must have earned a Level 4 or 5 on the Grade 8 FAST PM2 or PM3 in Mathematics or have a teacher, counselor, parent, and/or administrator recommendation

4. 8th Grade Geometry Honors: The student must have earned one (1) credit in Algebra 1 or Algebra 1 Honors. A student that has not earned one (1) credit in Algebra 1 or Algebra 1 Honors may not enroll in Geometry Honors in Grade 8.

5. World Languages I: The student must have earned a Level 4 or 5 on the most current required state

assessment in English Language Arts or have a teacher, counselor, parent, and/or administrator recommendation.

6. World Languages II: For a student to be placed into World Languages II without completion of the World Languages I course, a satisfactory score on a world languages placement test and teacher, counselor, parent, and/or administrator recommendation are required.

7. Career & Technical Courses: CTE teacher, counselor, parent, and/or administrator recommendation; and the student must have earned a 3.0 grade point average in the previous year's course within the same or similar curricular area.

Deleted: The student earned a satisfactory score on a world languages placement test and have a teacher, counselor, parent, and/or administrator recommendation.

Awarding Grades and Credits for High School Credit Courses in Middle School

Course Requirements:

High school courses must meet all the requirements of high school courses. High school requirements include:

1. assessment of students through a semester exam;
2. administration of any state-required end-of-course exams;
3. calculation of grades using the high school procedure;
4. minimum 135 hours as required in Florida Statute;
5. district-approved instructional materials aligned with the district-approved curriculum; and
6. reporting of grades to the high school the student will attend.

Grades:

Course grades will be calculated according to the high school procedure:

The student's semester grade is calculated by averaging according to the following scale: Semester 1 Quarter 1 = 40% Quarter 2 = 40% Benchmark Assessment or teacher designed exam = 20% Semester 2 Quarter 3 = 40% Quarter 4 = 40% Benchmark Assessment or teacher designed exam = 20% Courses with End-of-Course Exams (Algebra 1 and Geometry) All state generated EOCs (Algebra I and Geometry) will constitute 30% of the final course grade, as calculated after the completion of the school year. The year-long grade for EOC courses will be

Deleted: ¶

Formatted: Right

calculated as follows: Semester 1 = 35% Semester 2 = 35% EOC Exam = 30%

Credit Recovery courses will follow the same grade calculation as all other similar courses.

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for whom the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC to potentially qualify for an EOC waiver. An individual IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

Any waiver of the statewide, standardized assessment requirements by the individual education plan team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

Florida Course Credit Statute:

Florida Statute requires that a student enrolled in a year-long course shall receive a full credit if the student passes one semester of the course but fails the other semester based on the defined recalculation process. This statute may also be applied if recalculation of a year-long grade would result in a higher final grade for the student, even if a semester grade of "F" was not earned. A student or parent must request this recalculation in writing. Schools must ensure students and parents are aware of this option.

The numeric semester grades will be averaged to calculate a year-long grade. If this average is to the student's benefit, it will be entered on the student's academic history as the final grade for the course. Each school will follow the district plan to ensure that the grade recalculation is completed and entered into the student system.

Courses carried forward as high school credit will be used to satisfy the high school graduation and Florida Academic Scholars Award requirements. A middle school student must be granted credit toward high school graduation requirements for courses taken through dual enrollment.

Once a high school grade is earned (credit carried forward to high school), that grade becomes a permanent on the student's transcript and may not be removed from the transcript.

High School Dual Enrollment Courses, End-of-Course Exams (EOC):

1. To earn high school credit for Algebra I, a middle school student must take the state-wide standardized Algebra I EOC assessment and pass the course. The student's performance on the Algebra I EOC assessment constitutes 30% of the student's final course grade. If a student passes the course but does not pass the EOC, the promotion requirement for middle school is met, but the student must pass an Algebra I EOC retake or have earned a comparative/concordant score on a state-approved assessment to earn a high school diploma.

To earn high school credit for a Geometry course, a middle school student must take the state-wide standardized Geometry EOC assessment, which constitutes 30% of the student's final course grade, and earn a passing grade in the course.

Semester grades for students who do not take the semester exam will be calculated with a 0% as the exam portion of the grade calculation. All make-ups for semester 1 exams must be completed within 5 school days following the semester 1 exam window unless approved by the school administrator. Once the exam is completed, the semester grade will be recalculated. If the semester 1 exam is not taken during the make-up window, the semester 2 exam grade may be used in its place.

All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

District Criteria for Enrollment in Advanced Middle School Courses:

Students/Parents may request enrollment in advanced middle school courses during the course selection process in the spring. Upon verification that required criteria has been met, enrollment will be granted. Principals may override the district criteria and place students in advanced courses based on data indicating that the student is capable of success in the courses. This data must be documented. AVID students must be placed in at least one honors, advanced, or dual enrollment course. Principals are encouraged to make exceptions to the placement criteria in the AVID students' areas of strength.

4. Advanced Social Studies: The student must have earned a Level 3 or above on the most current required state assessment in English Language Arts (ELA) or have or have a teacher, counselor, parent/guardian, and/or counselor recommendation.

Credit Acceleration Program (CAP)

The Credit Acceleration Program (CAP) is created for the purpose of allowing a student to earn high school credit in a course that requires a statewide, standardized end-of-course assessment if the student attains a specified score on the assessment. The school district shall award course credit to a student who is not enrolled in the course, or who has not completed the course, if the student attains a score indicating satisfactory performance on the corresponding statewide standardized end-of-course assessment. The school district shall permit a student who is not enrolled in the course, or who has not completed the course, to take the standardized end- of-course assessment during the regular administration of the assessment.

The credit awarded is for the regular course level and not the honors level. The credit for this course is not weighted for GPA calculation purposes.

If a student fails a course requiring an EOC to earn credit but attains a score indicating satisfactory performance on the corresponding EOC, credit will be awarded for the course as prescribed by state statute. Students must retake the course to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course and earns a "C" or above.

Grade Forgiveness Policy

Middle school students taking high school courses may repeat and replace a grade of "C", "D", or "F" earned during middle school in the high school course, with a grade of C or higher, earned subsequently in the same or comparable courses.

Credit Recovery courses are credit-bearing courses with specific content requirements defined by state adopted standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or end-of-course assessment) since the course requirements for the Credit Recovery course are the same as the previously attempted corresponding course. It is important to note that Credit Recovery courses are not bound by Section 1003.436(1) (a), Florida Statutes, requiring a minimum of 135 hours of bona fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery, grade forgiveness, or remediation for students needing to prepare for an End-of- Course assessment retake.

For juvenile justice programs and alternative programs offering extended learning opportunities, promotions may occur as the requirements herein described are met.

High School Education (Grades 9-12)

I. Program of Studies Grades 9-12

High school basic education course offerings are selected from the Florida Department of Education's Course Code Directory and approved by the Deputy Superintendent for Instructional Services for the School District of Manatee County. All students will receive instruction in reading, English/language arts, mathematics, science, social studies, the Arts, health, and physical education. The School District of Manatee County will adhere to all statutes regarding required instruction.

Students are required to be enrolled on a full-time basis, to include seven courses or the equivalent. If there are extenuating circumstances, students may use a combination of virtual school courses and traditional courses to meet the full-time criteria. To use this option, seats must be available in the required virtual school courses, and principal approval must be obtained. Students pursuing the 18 credit, ACCEL Diploma Option may be enrolled part-time with principal approval.

Deleted: Manatee Virtual School

Deleted: Manatee Virtual School

Students wishing to have a part-time enrollment status may do so by registering as a home education student. Home education students may take up to three courses at their districted school, providing there is room in the courses selected. Home education students will not be awarded a diploma from the School District of Manatee County and may not participate in any senior graduation activities on the districted school campus.

II. Grades and Credits

Grading Scale

Student achievement in all courses will be evaluated using numeric and letter grades. As designated in Florida Statute, the letter grade scale and definitions adopted for all courses in grades 9 through 12 are as follows:

Value	Numeric Range	Letter Grade	Definition
4	90-100	A	Outstanding Progress
3	80-89	B	Above Average Progress
2	70-79	C	Average Progress
1	60-69	D	Lowest Acceptable Progress
0	0-59	F	Failure

Note: W = Withdrawn I = Incomplete* NG—No Grade Assigned

Deleted: ¶

Formatted: Right

*An incomplete grade ("I") will be changed to a letter grade upon completion of all course requirements within 10 school days of grades being posted, under normal circumstances. If, after 10 days, the course requirements are not completed, the incomplete grade will become an "F."

Exam Exemption Policy:

Seniors who earn a "B" or higher for both third and fourth quarters may be exempt from the required semester 2 exam. State mandated end-of-course exams, AP, IB, AICE, and dual enrollment course exams may not be exempted. Grades for students who are eligible to exempt the semester 2 exam will be averaged using only the third and fourth quarter grades. Each quarter will be calculated at 50% of the total semester 2 grade.

Grading Policies:

Schools shall not exempt students from academic performance requirements, such as final exams, based on practices or policies designed to encourage student attendance. A student's attendance record may not be used in whole or part to provide an exemption from any academic performance requirement.

Students must be notified in writing at the beginning of each course as to how their grades will be determined. This could be included in the course syllabus or information shared with students and parents.

Pass/Fail grades will not be issued for courses offered in Manatee District Schools. Students who transfer in with a Pass ("P") grade will earn the credit for the indicated course(s) but will not have a grade calculated into their grade point average.

In alignment with postsecondary education, withdrawals from a course will not become part of the student record if the course is dropped within the first ten days of the start of the semester. A "W" (Withdraw) will be recorded after the first ten days but prior to the end of the first/third quarter. Either a "WP" (Withdraw Passing) or "WF" (Withdraw Failing) will be recorded if the course is dropped after the first or third quarters, indicating the student's progress at the time of withdrawal. There is no impact on GPA.

Progress Reports are issued mid-way through each quarter (approximately 4.5 weeks) to notify students and their parents or guardians of mid-term academic progress. Additionally, parents may monitor student progress regularly through the FOCUS Parent Portal. To communicate with teachers, parents may contact each teacher by phone at school or through email. Many teachers maintain a web page or post through our online platform Schoology to upload information such as homework, other assignments, major projects, unit assessments, and the course syllabus.

Semester Grades

A Semester Exam is required in all courses for high school credit. Semester Exams may not be given early. Semester grades for students who do not take the semester exam will be calculated with a 0% as the exam portion of the grade calculation. All make-ups for semester exams must be completed within 5 school days following the semester exam window unless approved by the school administrator. Once the exam is completed, the semester grade will be recalculated. If the semester 1 exam is not taken during the make-up window, the semester 2 exam grade may be used in its place.

Quarter 2 = 40%	Quarter 4 = 40%
Semester Exam = 20%	Semester Exam = 20%
The Algebra I, Geometry, U.S. History, and Biology EOCs will constitute 30% of the final course grade, calculated after the completion of the school year. The year-long grade for EOC courses will be calculated as follows:	
Semester 1 = 35%	
Semester 2 = 35%	
EOC Exam = 30%	

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for who the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student and make a determination regarding the potential for the results of the EOC to be waived.

Any waiver of the statewide standardized assessment requirements by the IEP team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

Florida Course Credit Statute:

Florida Statute requires that a student enrolled in a year-long course shall receive a full credit if the student passes one semester of the course but fails the other semester, and the average of the two semesters is a 60% or higher based on the defined recalculation process.

If recalculation of a year-long grade, even if a semester grade of "F" was not earned, would result in a higher final grade for the student, this statute may also be applied. Schools must ensure students and parents are aware of this option.

The numeric semester grades will be averaged to calculate a year-long grade. If this average is to the student's benefit, it will be entered in the student's academic history as the final grade for the course. Each school will

Deleted: ¶

follow the district plan to ensure that the grade recalculation is completed and entered into the student system.

This rule applies when both semesters are taken within one school year, and the student fails one of the two semesters. Students continue to earn half-credit for passing a semester of a course. This does not affect other credit recovery options.

Make-up Work

Following an excused absence, the student has the responsibility to contact his/her teachers on the next attended day in order to obtain any missed assignments. Work assigned prior to the absence is due the day the student returns to school. Work assigned during the student's excused absence is due within a period of time equal to the number of days that the student was absent.

Grade Point Average

1. A student's cumulative grade point average (GPA) will be calculated based upon all courses a student has completed, including courses taken for high school credit in middle school, except those where the forgiveness policy applies. Transfer credit(s) with a grade of Pass (P) will not be calculated into the GPA. In order to graduate, students must earn a cumulative unweighted GPA of 2.0 on a 4.0 scale.
2. Parents of students who have a cumulative GPA of 1.5 or below at the end of each semester in grades 9, 10, 11, and 12 shall be notified that the student is at-risk of not meeting the graduation requirements. The notice shall contain an explanation of the policies the district has in place to assist the student in meeting the GPA requirement.

Class Rank:

1. For the purposes of class ranking, high schools will use a weighted grading system for appropriate courses as indicated in the Florida Department of Education Comprehensive Course Table for high school credit courses. Class rank for graduation will be determined in January of the current school year. Class rank is determined by a student's cohort, which is defined by the year that the student enters 9th grade.
2. Class rank will be determined based on courses for which credit and grades are awarded toward a Standard Diploma. Students earning an Access Points Pathway Standard Diploma, Hospital Homebound students, and Home Education students will not be included in the class ranking. A student's rank in class will be determined by using the cumulative weighted grade point average.
3. Class rank will be calculated and locked for graduation recognition purposes ten (10) school days after the end of the first semester. After it is locked, there will be no recalculation of class rank for graduation purposes.
4. Grade weighting is done at the discretion of the school district. The School District of Manatee County will weight all courses, including those who transferred from out of district, based on the scales described below.
5. The grade weighting scale is as follows:

Deleted: ¶

Formatted: Right

Unweighted Grade Points	Weighted Honors Course Grade Points	Weighted Advanced Studies Course* Grade Points
A=4	A=4.5	A=5
B=3	B=3.5	B=4

D=1	D=1.5	D=2

* (Section 1003.437, F.S., specifies that "For the purposes of class ranking, district school boards may exercise a weighted grading system pursuant to s. 1007.271." For districts that use a weighted grading system, s. 1007.271(18), F.S., states that "school districts and Florida College System institutions must weigh dual enrollment courses the same as Advanced Placement, International Baccalaureate, and Advanced International Certificate of Education courses when grade point averages are calculated. Alternative grade calculation systems, alternative grade weighting systems, and information regarding student education options that discriminate against dual enrollment courses are prohibited." This provision relating to GPA weighting includes all dual enrollment courses, including career education courses.)

6. Grades earned in Career and Technical Education courses that are Level 3 courses and lead to an industry certification are weighted the same as grades earned in Honors courses for the purpose of calculating grade point average (GPA).

Honors Recognition

The upper 10% of the graduating class, based on the weighted rank in class, will be graduated with Honors in the recognition of excellence in academic achievement. High schools will determine the top 10% and top 4% of the graduating class using the weighted grade point average. All Honors and Highest Honors students will be recognized at commencement. A Valedictorian and a Salutatorian will not be chosen.

Grade Forgiveness

Achievement of a cumulative grade point average of 2.0 (unweighted) on a 4.0 scale is required for graduation. To assist students in meeting this requirement, districts may offer grade forgiveness policies, summer school, before-school or after-school attendance, special counseling, volunteers or peer tutors, school-sponsored help sessions, homework hotlines, and study skills classes.

1. To assist students in achieving a cumulative grade point average of 2.0 (unweighted) on a 4.0 scale, the forgiveness policy provides that students may replace a "D" or "F" with a grade of "C" or higher, earned subsequently in the same or comparable course. Only one grade and one credit may be earned for the same course. When a course is repeated, all grades appear on the student's transcript. The forgiveness policy applies only when a course is repeated after the course for which the "D" or "F" was earned. Students may repeat a course already passed only once.
2. The only exception to these forgiveness policies shall be made for a student in middle school who takes

any high school course for high school credit and earns a grade of "C", "D", or "F". In such cases, the district forgiveness policy must allow the replacement of the grade with a grade of "C" or higher, earned subsequently in the same or comparable course. When a course is repeated, all grades appear on the student's transcript. All grades, except those that meet the conditions of the grade forgiveness policy, will be calculated in the grade point average.

3. In all cases of grade forgiveness, only the new grade is used in the calculation of the student's grade point average. Any course not replaced according to the forgiveness policy is included in the calculation of the cumulative grade point average required for graduation. Postsecondary institutions may have different grade forgiveness policies; therefore, the GPA may be recalculated to include ALL courses attempted which could affect admissions decisions.

4. An elective course may be replaced with any other elective course, as long as graduation requirements are still met with the substituted elective course. A student may choose to retake a high school course where no credit was awarded.

Credit Recovery courses are elective credit-bearing courses with specific content requirements defined by Florida State Standards. Students enrolled in a Credit Recovery course must have previously attempted the corresponding course (and/or End-of-Course assessment). It is important to note that Credit Recovery courses are not bound by Section 1003.436(1)(a), Florida Statutes, requiring a minimum of 135 hours of bona

fide instruction (120 hours in a school/district implementing block scheduling) in a designed course of study that contains student performance standards since the students have previously attempted successful completion of the corresponding course. Additionally, Credit Recovery courses should ONLY be used for credit recovery or grade forgiveness or to support on-time graduation.

Credits

The granting of course credit is based on an evaluation of the individual student's achievement of established district and state performance standards and other requirements as designated by the teacher. Performance standards will include specific course content as specified in statutes and in the district curriculum.

1. For the purpose of high school graduation requirements, one full credit is determined as follows:
    a. A minimum of 135 hours of bona fide instruction in a designated course of study which contains student performance standards; or
    b. For schools that have been authorized to implement block scheduling by the district school board, a minimum of 120 hours of bona fide instruction in a designated course of study that contains student performance standards for purposes of meeting high school graduation requirements.
2. One-half (.5) credit means a minimum of 67.5 hours of bona fide instruction or a minimum of 60 hours of bona fide instruction in a high school that implements block scheduling. One half (.5) credit shall be awarded at the end of each semester/term upon the satisfactory completion of course requirements. Courses with a required end-of-course (EOC) exam earn one (1) credit upon satisfactory completion of course requirements.
3. Student performance standards must be met for each academic and Career and Technical Education Program in grades 9 through 12 for which credit toward high school graduation is awarded.
4. Credit will be awarded if a student who is not enrolled in or who has not completed a course takes and passes a statewide standardized assessment through the Credit Acceleration Program. No student may be granted credit toward high school graduation for enrollment in the following programs or courses:
    a. More than a total of nine elective credits in remedial programs.
    b. More than one credit in exploratory vocational courses.
    c. Any Level 1 course, unless the student's assessment indicates a more rigorous course would be inappropriate, in which case a written assessment of the need must be included in the Individual Education Plan or the Individual Progress Monitoring Plan and signed by the principal, school counselor and the parent, if the student is not 18 years or older.
5. Enhanced Instruction for Non-Proficient Students:
    - Students must earn a Level 3 or higher in English Language Arts (ELA) and/or Math on a standardized assessment. Students who do not meet these criteria may be required to receive enhanced instruction through a course that will assist in building the students' skills and in

mastering standards.

- School administrators may use concordant/comparative scores on state-approved assessments.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school. The following criteria must be met to qualify for this waiver:

a. Parents must complete the Intensive Instruction Waiver Request Form (Appendix A).

b. Student must be in 6th-12th grade.

III. Promotion

Promotion Guidelines

Students will be promoted based on the number of years they have attended high school:

First year—9th grade

Second year—10th grade

Third year—11th grade

Fourth year—12th grade

Students entering high school for the first time may be placed into the 9th grade.

Students who do not meet graduation requirements after the 8th semester of high school and choose to continue their high school education, may be placed in an alternative site at the start of their 9th semester.

Students who plan to graduate in three years will be promoted to 12th grade after the first semester of their third year in high school.

IV. Acceleration and Enrichment

Articulated acceleration is available and serves to shorten the time necessary for a student to complete the requirements associated with a high school diploma and a postsecondary degree, broaden the scope of curricular options available to students, or increase the depth of study available for a particular subject. This includes, but is not limited, to postsecondary Dual Enrollment and Early Admission, Cambridge Advanced International Certificate of Education Program (AICE), Advanced Placement (AP), and the International Baccalaureate (IB) Program. Credits earned through the Florida Virtual School shall provide additional opportunities for early graduation and acceleration.

Each high school shall advise students of programs through which a high school student can earn college credit, including AP, IB, AICE, dual enrollment courses, career academy courses, and courses that lead to national industry certification, as well as offerings through virtual instruction.

To be eligible to participate in AICE, AP or IB programs, a student shall have a 3.0 grade point average and have earned Level 3 or higher on the state assessment passed a nationally-normed standardized test, earned the required comparative/concordant score within the last two years, or been granted admission at the discretion of the principal.

Eligibility requirements for dual enrollment programs are determined by each enrolling institution and can be accessed on the institution's website.

A student transferring in from out-of-state, homeschool, or private school with a state or national normed test score demonstrating that the course is academically appropriate, may enroll in AP, IB, or AICE. If requested by the student or parent, the principal may override the district criteria and place students in advanced studies courses based on data indicating that the student is capable of success in the courses. This data must be documented.

Home education students may participate in dual enrollment, career dual enrollment, early admission, and credit by examination. Credit earned by home education students through dual enrollment shall apply toward the completion of a home education program that meets the requirements of Section 1002.42, Florida Statute.

Advanced Placement (AP)

Advanced Placement (AP) is a program for eligible secondary school students to enroll in college-level courses administered by the College Board. Postsecondary credit for an AP course may be awarded to students who score a minimum of 3 on a 5-point scale on the corresponding AP exam in accordance with the policies of the receiving college or university. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for AP courses in which they are enrolled, including fees for administration of the corresponding AP examination, regardless of whether the student achieves a passing score. Students requesting to take AP exams for courses in which they are not currently enrolled must pay for the cost of the AP exam. Home education students may be assessed a fee for test administration.

Students earning a "D" or "F" in an Advanced Placement course at the end of first semester may be withdrawn and scheduled into another course in the same subject area.

AP Capstone™

AP Capstone™ is a diploma program based on two AP courses: AP Seminar and AP Research. These yearlong courses focus on developing the critical thinking, research, collaboration, time management, and presentation skills students need for college-level work. If a student earns scores of 3 or higher in AP Seminar and AP Research, he or she will receive the AP Seminar and Research Certificate™. If a student earns scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams, the student will receive the AP Capstone Diploma™.

AP Seminar - During this course, students investigate a variety of topics through various viewpoints. Students will also complete a team project and an individual paper and presentation, as well as take a written end-of-course exam.

AP Research - In AP Research, students explore various research methods and complete an independent research project. The project can build on a topic, problem, or issue covered in AP Seminar or on a brand-new topic of your own choosing. At the end of the project, students submit an academic paper and present and defend the research findings.

International Baccalaureate (IB)

International Baccalaureate (IB) is a program administered by the IB Organization whereby eligible secondary students are enrolled in a prescribed program of studies. The State Board of Education has established rules that specify the cutoff scores for IB examinations that will be used to grant postsecondary credit at colleges and universities. Students shall be awarded a maximum of 30 college semester credit hours. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for IB courses in which they are enrolled, including fees for administration of the examinations, regardless of whether or not the student achieves a passing score on the examination.

Students earning a "D" or "F" in an IB course at the end of the first semester may be withdrawn and scheduled into another course in the same subject area.

Cambridge Advanced International Certificate of Education (AICE)

Cambridge Advanced International Certificate of Education (AICE) provides a high-quality curriculum which prepares young people for honors degree programs. It requires the study of subjects drawn from three curriculum areas; mathematics and science, languages, and arts and humanities. AICE offers students the opportunity to tailor their studies to their individual interests, abilities, and future plans within an international curriculum framework. The State Board of Education has established rules that specify the cutoff scores that will be used to grant postsecondary credit at community colleges and universities. Students shall be awarded a maximum of 30 college semester credit hours. Students shall be exempt from the payment of any fees, excluding restocking fees when applicable, for Cambridge AICE courses in which they are enrolled, including fees for administration of the examinations, regardless of whether or not the student achieves a passing score on the examination. Students requesting to take Cambridge AICE exams for courses in which they are not currently enrolled must pay for the cost of the Cambridge AICE exam.

Students earning a "D" or "F" in an AICE course at the end of the first semester may be withdrawn and scheduled into another course in the same subject area.

Early High School Graduation

Early high school graduation is an option if a student has completed a minimum of 24 credits and meets all graduation requirements in less than 8 semesters, or meets the 18 credit, ACCEL Diploma Option. A student who graduates early may continue to participate in school activities and social events and attend and participate in graduation events with the student's cohort as if the student were still enrolled in high school. A student who graduates early will be included in class ranking, honors, and award determinations for the student's cohort. Cohort is defined by the FLDOE as when the student enters 9th grade (1003.4281).

A student who graduates early must comply with district school board rules and policies regarding access to the school facilities and grounds during normal operating hours.

Advancement Via Individual Determination (AVID)

Advancement Via Individual Determination (AVID) is designed to prepare students for college and career readiness and success. Students who apply for and are accepted must also take at least one weighted course (Honors, Pre-AP, AP, Pre-IB, IB, pre-AICE, AICE, and dual enrollment) and the AVID Academic elective. AVID is designed for students who are capable of completing a college-preparatory curriculum. The AVID curriculum supports students as they undertake the most rigorous courses, with an emphasis on writing as a learning tool, the inquiry method, collaborative course grouping, organization, and academic reading. Principals are encouraged to make exceptions to the placement criteria for weighted courses in AVID students' areas of strength.

High School Dual Enrollment for Middle School Students

High school courses may be taken by eligible middle school students.

1. High school courses taken during middle school may be used to satisfy high school graduation requirements and Florida Bright Futures scholarship requirements.
2. A student must be granted credit toward high school graduation requirements for courses completed in middle school. Grades for high school credit courses taken during middle school will appear on the high school transcript, and the grades will average into the student's high school grade point average (GPA).
3. High schools shall not award high school credit for courses taken in middle school if the middle school did not award the high school credit.
4. Middle school students taking courses that require an EOC must follow statute.

Postsecondary Dual Enrollment and Early Admission

Postsecondary Dual Enrollment programs and Early Admission are available at all high schools. The requirements for dual enrollment programs are pursuant to F.S. 1007.271.

1. Dual Enrollment program is defined as the enrollment of an eligible secondary student or home education student in a postsecondary course creditable toward high school completion AND a career and technical certificate or an associate or baccalaureate degree. Career dual enrollment shall be available for secondary students seeking a degree or certificate from a complete career-preparatory program and shall not be used to enroll students in isolated career courses.
2. The School Board shall inform all secondary school students of dual enrollment as an educational option and mechanism for acceleration. Students shall be informed of eligibility criteria, the option for taking dual enrollment courses beyond the regular school year, and the minimum academic credits required for graduation. District school boards must annually assess the demand for dual enrollment, and the district

school board shall consider strategies and programs to meet that demand and include access to dual enrollment on the high school campus whenever possible. Information regarding student education options which discriminate against dual enrollment courses is prohibited.

3. Students enrolled in postsecondary instruction that is not creditable toward the high school diploma shall not be classified as dual enrollment.

4. Students who are eligible for dual enrollment shall be permitted to enroll in dual enrollment courses conducted during school hours and after school hours.

5. Instructional time for such enrollment may vary from 900 hours; however, the school district may only report the student for a maximum of 1.0 Full-Time Equivalency (FTE). Any student so enrolled is exempt from the payment of registration, tuition, and laboratory fees. Vocational-preparatory instruction, college-preparatory instruction, and other forms of pre-collegiate instruction, as well as physical education courses that focus on the physical execution of a skill rather than the intellectual attributes of the activity, are ineligible for inclusion in the dual enrollment program. Recreation and leisure studies courses shall be evaluated individually in the same manner as physical education courses for potential inclusion in the program.

6. Each semester of instruction that is eligible for high school and postsecondary credit shall be reported by school districts as 75 membership hours for purposes of FTE calculation.

7. Dual enrollment courses are weighted the same as AP, AICE, and IB courses. Alternative grade calculation or weighting systems that discriminate against dual enrollment courses are prohibited.

8. The Department of Education adopted guidelines to achieve comparability across school districts of both student qualifications and teacher qualifications for dual enrollment courses. A high school student must complete the following:

    a. Demonstration of readiness for college-level course work if the student is to be enrolled in college courses;

    b. Demonstration of readiness for career-level course work if the student is to be enrolled in career courses;

    c. Indication that, in addition to the required placement examination, student qualifications for enrollment in college credit dual enrollment courses must include at least a 3.0 unweighted GPA, and student qualifications for enrollment in career certificate dual enrollment course must include at least a 2.0 unweighted grade point average.

9. The Inter-institutional Articulation Agreement is jointly developed between the School District of Manatee County and State College of Florida, University of South Florida, and/or other postsecondary institutions to provide advanced instruction for those students who demonstrate a readiness to engage in postsecondary academic work. In this program, students may earn credit toward both a high school diploma and an associate or baccalaureate degree. The agreement includes the following:

b. A plan for the institution to provide guidance services to participating students on the selection of courses in the dual enrollment program;

c. The process by which students are eligible to participate in dual enrollment and by which their parents are informed about opportunities to participate in acceleration programs;

d. An assurance that each dual enrollment student is encouraged to identify a postsecondary education objective with which to guide the course selection;

e. An assurance that each student has a plan that includes a list of courses that will result in an Applied Technology Diploma, an Associate in Science degree, or an Associate in Arts degree, and, if the student identifies a baccalaureate degree as the objective, the plan must include courses that will meet the general education requirements and any prerequisite requirements for entrance into a selected baccalaureate degree program;

f. The process by which students and their parents exercise their option to participate in an acceleration program;

g. An explanation of high school credits earned for completion of each dual enrollment course;

h. An explanation of postsecondary courses that meet the criteria for inclusion in the district articulated acceleration program to be counted toward meeting graduation requirements;

i. The eligibility criteria for student participation;

j. An explanation of institutional responsibility for screening prior to enrollment and monitoring student performance subsequent to enrollment;

k. An identification of the instructional quality criteria for dual enrollment courses and programs that are to be judged;

l. A delineation of institutional responsibilities for instructional quality;

m. A delineation of responsibilities for cost of dual enrollment courses and instructional materials;

n. A description of transportation;

o. The process for converting college credit hours through dual enrollment and early admissions to high school credit; and

p. An identification of the responsibility of the postsecondary educational institution for assigning letter grades for dual enrollment courses and the responsibility of school districts for posting dual enrollment grades to the high school transcript as assigned by the postsecondary institution awarding credit.

10. Only those academic elective courses approved in the Dual Enrollment Articulation Agreement can be taken for dual enrollment credit. An academic elective that counts as credit toward graduation can be taken

as dual enrollment with the approval of the principal.

11. The State Board of Education shall determine the number of postsecondary credit hours earned through dual enrollment that satisfy the requirements of the district's inter-institutional articulation agreement and that equal one full credit of the equivalent high school course.

12. When dual enrollment is provided on the high school site by college or university faculty, the school district shall reimburse the costs associated with the proportion of salary and benefits and other actual costs of the college or university to provide the instruction. Charter schools are an entity of the School District of Manatee County and are bound by the rules and policies of the approved IAA between the school district and State College of Florida, University of South Florida, or other postsecondary institutions. While the School District of Manatee County will be invoiced for the tuition, charter schools receive FTE for dual enrollment students and will be responsible to the School District for all dual enrollment tuition encumbered by their students.

Credit by Examination

Credit by examination is the program through which postsecondary credit is earned based on the receipt of a specified minimum score on nationally standardized general or subject area examinations. The State Board of Education states minimum scores required for an award of credit in the statewide articulation agreement.

College and University Programs

1. Students who wish to participate in an educational program offered by accredited schools, colleges, or universities must have prior written agreement with the school principal, detailing any credit or grade acceptance toward high school graduation or inclusion on the high school transcript. Students should meet with their school counselors to determine appropriate course selections prior to registration. Final inclusion on the high school transcript will be completed only upon the school's receipt of all necessary documentation from the appropriate institution.

2. All evidence of work/credits earned at another school will be based on an official transcript authenticated by the proper school authority. Credits from state or regionally accredited schools shall be accepted at face value, subject to validation where deemed necessary. Credits earned through alternative delivery systems that are accredited by a regional accrediting association, non-accredited schools, home schools, or non-accredited correspondence schools shall be validated by the administration of examinations or by establishing credits earned through successful performance in subsequent courses.

With the approval of the principal, students may earn credit through dual enrollment, Advanced Placement, Cambridge Advanced International Certificate of Education, International Baccalaureate programs, Florida Virtual School, and by using substitutions indicated in the course code directory. Home education students may participate in college dual enrollment, working directly with State College of Florida, University of South Florida, or other postsecondary institutions, career and technical dual enrollment and early admission and credit by exam by postsecondary institutions. Dual enrollment credit earned by home education students shall

apply toward the completion of a home education program that meets the requirements of state statute.

Students who wish to enroll in courses from multiple postsecondary institutions are limited to a total of eleven (11) credit hours per semester.

Academically Challenging Curriculum to Enhance Learning (ACCEL)

Each school must offer the following ACCEL options: whole-grade and mid-year promotion, subject-matter acceleration, virtual instruction in higher grade level subjects, and Credit Acceleration Program (CAP). Whole-grade and mid-year promotion requires secondary students to meet student progression course/credit promotion criteria. Subject-matter acceleration is available when a student has met the prerequisite course requirements for that content area. Virtual instruction in higher grade-level subjects is available when students have exhausted the course offerings at the school, and students meet the course prerequisites. The Credit Accelerated Program may be used for any course that requires an end-of-course exam to earn credit in the course. In addition to these requirements, the following must be considered when establishing eligibility:

1. The student's performance on required state assessments
2. The student's grades or grade point average
3. The student's attendance and conduct
4. Teacher and school counselor recommendations

Each school must inform students and parents of these options. A student or a parent may request one of these options by written request to the principal. This will be followed by a parent conference to discuss eligibility and placement.

Credit Acceleration Program (CAP)

1. The Credit Acceleration Program (CAP) is created for the purpose of allowing a student to earn high school credit in a course that requires a statewide, standardized end-of-course assessment if the student attains a specified score on the assessment. If the student attains a score indicating satisfactory performance on the corresponding statewide standardized end-of-course assessment then the school district shall award course credit to a student who is not enrolled in the course, or who has not completed the course. The school district shall permit a student who is not enrolled in the course, or who has not completed the course, to take the standardized end-of-course assessment during the regular administration of the assessment. If a student earns course credit without enrollment in a course via the CAP, a grade of "T" is recorded on the transcript in the Grade column.
2. The credit will be awarded for the course as prescribed by state statute when a student fails a course requiring an EOC to earn credit, but attains a score indicating satisfactory performance on the corresponding EOC. Students must retake the course in order to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course and earns a "C" or above.
3. A student will be awarded course credit for earning a grade of 3 or higher on an Advanced Placement

exam, even if not enrolled in the course, or for passing a CLEP test. If a student fails an AP course, but attains a score indicating satisfactory performance on the corresponding AP exam, credit will be awarded for the course as prescribed by state statute. Students must retake the course or an equivalent course in order to use the grade forgiveness policy. The failing grade will be calculated in the GPA unless the student retakes the course or an equivalent course and earns a "C" or above.

Credit for Career & Technical Student Organization Participation (CTSO)

A high school student may be awarded one (1) elective credit when at least 135 hours of participation in a CTSO is shown. This participation must be outside the school day and verified by school/district personnel using the approved forms that are provided by the CTSO advisor. The collection of all forms is the responsibility of the student, as the hours can be accumulated over several years including middle school. Students are encouraged to request documentation by the end of each school year as advisors may change or retire.

V. Graduation Requirements

General Information

A student in a Manatee County public school may earn a Standard Diploma or a Certificate of Completion. All requirements must be met before a diploma or certificate is awarded. The diploma or certificate will be awarded to reflect the year that the final requirements are met. To earn a diploma, a student must meet the graduation requirements for the school year in which that student entered ninth grade for the first time. In accordance with the Individuals with Disabilities Act (IDEA), students with disabilities may receive services through the public school system through age 21 (i.e., until their 22nd birthday) or until they graduate with a Standard Diploma, whichever comes first.

Before a student graduates from high school, the school shall assess the student's preparation to enter the work force and provide the student and student's parent/guardian with the results of the assessment. The Department of Education has determined that, because required state assessments assess certain Education Goal 3 standards, which were developed from a United States Secretary of Labor's report on necessary skills, the required state assessments can serve as this assessment.

Students who have met all requirements for the standard high school diploma except for passage of the required state assessment or an alternate assessment by the end of Grade 12 must be provided the following learning opportunities:

1. participation in an accelerated high school equivalency diploma preparation program during the summer;
2. upon completion of Certificate of Completion, be allowed to take the Postsecondary Education Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college, as

appropriate: and

3. participation in an adult general education program for such time as the student requires to master English, reading, mathematics, or any other subject required for high school graduation. Students attending adult basic, adult secondary, or vocational-preparatory instruction are exempt from any requirement for the payment of tuition and fees, including lab fees. A student attending an adult general education program shall have the opportunity to take the required state assessment an unlimited number of times in order to receive a standard high school diploma.

Change in Graduation Requirements

School Board approval is required prior to increasing a school's graduation requirements. An increase in academic credit or minimum grade point average requirements shall not apply to students in grades 9-12 at the time of the increase.

District school boards may not establish requirements for the ACCEL Accelerated Diploma Option in excess of the requirements as per statute.

Participation in the Graduation Ceremony

A student must complete all requirements for a standard or special diploma in order to participate in his/her high school graduation ceremony. A student must be registered at a Manatee district high school and complete at least one course on the campus of their brick-and-mortar school during their graduation year in order to participate in that high school's graduation ceremony. Full-time dual enrolled students, early admission students, and students enrolled in a School District of Manatee County sanctioned educational option may participate in their enrolled high school's graduation ceremony. A full-time virtual school student will not be allowed to participate in graduation at his or her zoned school.

A student who withdraws from a high school, enrolls in an adult program, and successfully completes the Graduate Educational Development (GED) tests, may participate in the adult high school graduation ceremony, and is awarded a State of Florida diploma. Students may not participate in the graduation ceremony with their previous high school.

Special Education students who earn a Certificate of Completion as addressed in the IEP may participate in the graduation ceremony. A student who receives a Certificate of Completion due to not meeting graduation requirements for a Standard Diploma may not participate in any graduation ceremony. A Special Education student whose diploma has been deferred based on the IEP team decision will be permitted to participate in the graduation ceremony for his or her cohort group only.

Summer Graduation

A student who completes the 12th grade without having met all graduation requirements may attend summer school. If the student satisfactorily completes all graduation requirements, the student may participate in the district summer graduation ceremony.

Deleted: ¶

Formatted: Right

Students who graduate from an alternative educational path as sanctioned by the School District of Manatee County may participate in the summer graduation ceremony. Students enrolled in a School District of Manatee County alternative high school who are not permitted to walk with their zoned schools may participate in the district summer graduation ceremony.

Graduation Requirements: Standard Diploma

Standard Diploma Options:

To graduate from a Manatee County public school, all students seeking a standard diploma must select one of the graduation diploma options:

1. Four Year Standard Diploma 24 credits
2. ACCEL Accelerated Graduation Option 18 credits
3. CTE Graduation Pathway 18 credits

Students must select one of the graduation options. The choice is exclusively up to the student and his/her parent/guardian.

Each year, schools shall notify students in grades 6 – 12 and their parent of the high school graduation options and requirements, including the respective curriculum requirements for those options, so the student and parent/guardian may select the program which best fits their needs. This notification shall be made prior to the annual spring registration of students for the following year, so the student's academic plan can be selected or modified to meet the needs of the student. Students must be advised of eligibility requirements for state programs and postsecondary admissions.

If the student and parent/guardian fails to select a diploma option, the student shall be considered to have selected the Four Year Standard Diploma option, which requires 24 credits.

Changing between Standard and Accelerated Diploma Options:

Once a diploma option is selected, the option remains in effect throughout the student's high school experience, unless the parent and student submit a written request to change diploma options as part of the registration process for the upcoming school year. Any such change must be submitted in writing.

Diploma Endorsement:

School boards may attach a Florida Gold Seal Career and Technical Endorsement to a Standard Diploma or award differentiated diplomas to those exceeding the prescribed minimums.

Grade Point Average:

In order to graduate from high school, students must achieve a cumulative unweighted grade point average (GPA) of 2.0 on a 4.0 scale in the courses required for graduation.

State Assessment:

Formatted: Right

Students must meet all state assessment requirements in order to graduate from high school with a Standard Diploma. Students may use concordant scores or the required state assessments waiver (ENNOBLES Act) to satisfy this requirement.

Diploma Designations:

The **Florida Seal of Biliteracy** Program is established to recognize high school graduates who have attained a high level of competency in listening, speaking, reading, and writing in one or more foreign languages, in addition to English, by the award of a silver or gold seal on a Standard Diploma. The criteria for both seals can be found at http://www.fldoe.org/academics/eng-language-learners/world-languages-foreign-languages.stml.

Students may earn either a **Scholar Diploma** designation or a **Merit Diploma** designation by meeting specific criteria. Criteria is listed in the graduation requirement charts found at https://www.fldoe.org/schools/k-12-public-schools/sss/graduation-requirements/.

The **Florida Seal of Fine Arts** Program is created to recognize high school graduates who have met an exemplary level of proficiency in the performing or visual arts based on established criteria. CTE Graduation Pathway:

Beginning with the 2019-2020 school year, a student is eligible to complete an alternative pathway to earn a standard high school diploma through this option by:

- Earning at least 18 credits.
- Earning a cumulative grade point average of a 2.0 on a 4.0 scale.
- Completing the same requirements as for a standard diploma in ELA, Math, Science and Social Studies.
- Completing two credits in career and technical education. The courses must result in a program completion and an industry certification.
- Completing two credits in work-based learning programs. A student may substitute up to two credits of electives, including one-half credit of financial literacy.

Course Information

Mathematics:

A certified school counselor or the principal's designee must advise students that state universities may require three additional mathematics courses at least as rigorous as Algebra I for admission. Level III Mathematics courses in the Florida Course Code Directory may substitute for the Algebra I requirement. Transfers from outside Manatee County may fulfill the Algebra I requirement with the state equivalents. Credit may not be earned for more than one of the options. Students must earn the necessary mathematics credits required for graduation.

A student who earns an industry certification for which there is a statewide college credit articulation agreement approved by the State Board of Education may substitute the certification for one mathematics credit. Substitution may occur for up to two mathematics credits, except for Algebra I and Geometry. This option will not impact a student's grade point average as no grade is awarded for the substituted math course.

A student may substitute a credit in computer science, if identified as equivalent in rigor by the Commissioner, for one mathematics requirement except for Algebra I and Geometry. A computer science credit may only be used to substitute one course (either mathematics or science).

Formatted: Right

A student that earns an industry certification in 3D rapid prototype printing may substitute up to two credits of the mathematics requirement, with the exception of Algebra I, if the Commissioner identifies the certification as being equivalent in rigor.

Science:

Students are required to earn three (3) credits in science. One of which must be Biology, and two of which must be equally rigorous science courses. Two of the three required course credits must have a laboratory component. Industry Certifications that lead to college credit may substitute for up to one science credit (except for Biology). Industry certifications for which there is a statewide college credit articulation agreement approved by the State Board of Education may substitute for mathematics and science credit. An identified computer science credit may substitute for up to one science credit (except for Biology). A computer science credit may not be used to substitute for both a mathematics and science credit.

Community Service:

If offered at the high school, students may enroll in Voluntary Public Service (0500370) or Voluntary School/Community Service (2104330). Students may earn community service hours and elective credit for the Voluntary Public Service course. To receive credit for the Voluntary School/Community Service course, students must complete at least 75 community service hours. Students will be awarded social studies elective credit as well as the community service hours earned during completion of the course standards.

Students documenting community service or work hours to complete the requirement for the Florida Bright Futures Scholarship must submit those hours on the School District of Manatee County official forms. Forms are available at your school. Hours earned in other states are accepted as well as long as they are appropriately documented. More information on the Bright Futures program can be found at: https://www.floridabrightfutures.gov/

Health Opportunities through Physical Education (HOPE):

HOPE is a year-long health and physical education (PE) course required of all high school students. A school may not require students to take the one credit in HOPE or a Health/PE variation of HOPE during the ninth grade.

Schools may offer one of the following options to meet the health/PE graduation requirement:

- student takes ½ credit in Physical education and ½ credit in Personal Fitness;
- student takes the one credit HOPE Core course; or
- student takes the one credit HOPE Physical Education Variation course.

Students can meet the HOPE requirement by passing .5 credit of Personal Fitness and .5 credit in a Physical Education course.

Certain activities as follows may satisfy a portion or all of the HOPE/Physical Education requirement.

1. Interscholastic Sports:

   Participation in two seasons of an interscholastic sport at the junior varsity and varsity levels satisfies the full 1 credit HOPE requirement.

2. Junior Reserve Officers Training Corps (JROTC):

   Completion of two years in a Junior Reserve Officers Training Corps (JROTC) course satisfies the full one credit of HOPE/physical education requirement and the full one credit of Performing Arts requirement. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an IEP or Section 504 plan.

3. Completion of one semester, with a grade of "C" or better in a marching band class, in a physical activity class that requires participation in marching band activities as an extracurricular activity, or in a dance class shall satisfy .5 credit in physical education or .5 credit in performing arts. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an IEP or Section 504 plan.

4. Completion of 2 years of marching band shall satisfy the one-credit requirement in physical education or the one-credit requirement in performing arts. This credit may not be used to satisfy the personal fitness requirement or the requirement for adaptive physical education under an individual education plan (IEP) or 504 plan.

Assessment Requirements:

To meet graduation requirements, a student must earn passing scores on the required statewide assessments or earn scores on a standardized test (PSAT, SAT, CLT, and/or ACT) that are concordant/comparative with passing scores on the required statewide assessments. Participation in the assessment program is mandatory for all school districts and all students attending public schools. Students who transfer from out-of-state, home education or private school must have a passing score on a statewide end-of-course assessment for Algebra from the previous state/district attended or a concordant score. For a complete list of current concordant/comparative scores for statewide assessments, see F.A.C. 6A-1.09422 or the State Assessments for High School Graduation section of the Florida Department of Education's Graduation Requirements page.

First-time grade ten students may only use a concordant score to satisfy the grade ten ELA assessment graduation requirement earned after the spring administration (PM3) of the grade ten statewide, standardized ELA assessment of their grade ten school year.

Beginning with the 2021-2022 school year, students taking a U.S. government course are required to take the Florida Civics Literacy Exam. Students earning a passing score on this assessment are exempt from the postsecondary civic literacy assessment required by s. 1007.25 (4). For a list of courses that meet this requirement, visit https://www.fldoe.org/core/fileparse.php/5663/urlt/2425K12FCLEFactSheet.pdf.

requirement for a standard high school diploma with a concordant score, the student is not required to continue retaking the required state assessment for graduation for the purpose of high school graduation and may be removed from an intensive intervention course at the change of the semester. Students scoring at Level 1 and 2 on required state assessments in reading and/or math must continue to receive intervention and remediation within the MTSS framework irrespective of meeting graduation requirements through concordant/comparative score if the problem-solving team finds the services necessary.

Students Currently Holding a Certificate of Completion:

Students currently holding a Certificate of Completion who are seeking a standard diploma must meet a concordant score based on the statute governing their 9th grade cohort requirements to meet the high school graduation testing requirements.

VI. Diploma Options

ACCEL Diploma

Selection of the ACCEL Diploma Option:

Prior to a student selecting the ACCEL accelerated diploma option, designated school personnel should meet with the student and his/her parent to explain the requirements, advantages, and disadvantages of this option.

No requirements for the ACCEL accelerated three-year high school graduation options shall be established in excess of the requirements listed in statute. A student who meets all of the requirements for a three-year diploma shall be awarded a standard diploma in a form prescribed by the State Board of Education.

Course Requirements for the ACCEL Accelerated Diploma:

A Standard Diploma will be awarded to a student who:

1. Completes Florida's high school Standard Diploma course requirements (based on the grade 9 cohort year) without the required physical education course and only three credits in electives (total of 18 credits)
2. Maintains a cumulative grade point average (GPA) of 2.0 on a 4.0 scale.

Diploma Equivalency Options

Other diploma options for Manatee district students include:

1. Adult High School Diploma
2. High School Equivalency Diploma (GED) Option
3. Performance-Based Exit Option (for DJJ Students only)

Adult Student High School Diploma:

In order to earn an Adult Education Standard Diploma, a student enrolled in an adult education program must meet all of the requirements for a Standard Diploma. However, the laboratory component for the science requirements may be waived if facilities are not available; the credit in physical education may be waived, and elective credit may be substituted.

Any course listed within the Florida Course Code Directory in the areas of art, drama, dance, or music may be taken by adult education students and will satisfy the credit in performing arts that is required for high school graduation.

High school credit may be awarded for educational experience in the Armed Forces, to include the following:

1. Two elective credits for any individual who has completed one full year of military service;
2. Correspondence courses completed under USAFI; or

Deleted: ¶

3. Organized courses completed in a school operated by the Armed Forces.

Credits may be awarded for prior learning and nonacademic activities. Up to eight credits may be awarded for experience. High school credit may be granted on the basis of examinations, administered as prescribed in State Board Rule.

Course credit or other evidence of work earned in another school district at an accredited school shall be transferred into Manatee County Adult School based on face value as authorized by State Statute, State Board of Education Rules, Manatee County School Board Policy, and the appropriate school authority. If deemed necessary, additional validation may be required.

Students 16 years old or older, with the approval of the principal, may exercise the Adult Education course option to earn up to four additional credits during their high school career.

Special assistance to obtain a high school equivalency diploma pursuant to Florida Statute may be given only when the student has completed all requirements for graduation except the attainment of the required cumulative grade point average.

High School Equivalency Diploma (GED) Option:

The GED is a battery of four General Educational Development Tests. A student must be 16 years of age at the time of application.

The GED Testing Center is located at Manatee Technical College. The student must apply and pay online to schedule their test at www.ged.com . The test itself is taken at MTC Main Campus.

A student under the age of 16 must complete the Florida GED Testing Program's Testing Eligibility Exception Form (also known as the Underage Waiver) and submit it to the approved GED Testing Center.

After satisfactorily passing the High School Equivalency Test, the student will receive a State of Florida High School Diploma and will be considered an adult graduate.

Performance-Based Exit Option:

The Performance-Based Diploma Exit Option is an alternative route to graduation for eligible Department of Juvenile Justice (DJJ) students who may not graduate with their cohort group because of credit deficiency, low grade point average, or being over-age for the grade. The program is not an option for early exit; it is designed to help students who fall behind to graduate with their kindergarten cohorts by receiving a State of Florida High School Performance- Based Diploma.

The Manatee County model includes direct, explicit instruction, and an online instructional program.

The students must meet all of the following eligibility criteria:

1. The student must be enrolled in and attending a PK-12 program.
2. The student is at least 16 years old.
3. The student is enrolled in courses that meet high school graduation requirements and is earning and receiving credits.

Deleted: ¶

Formatted: Right

4. The student is over-age for grade, behind in credits, or has a low grade point average, and is in jeopardy of not graduating with his or her cohort group.
5. The cohort group with which the student entered kindergarten is graduating or has graduated.
6. The student's reading level must be at seventh grade or higher at the time of selection (ninth grade or higher at the time of testing for the Florida High School Diploma authorized under Rule 6A-6.0201, F.A.C), as documented by a passing score on the Test of Adult Basic Education (TABE) reading component or other assessment to determine grade-level proficiency.
7. The student has acceptable scores on official GED Practice Tests administered under testing conditions.

Admission Procedures for Performance-Based Exit Option:

After initial eligibility is determined, a comprehensive review of student records by the child study team, including grades, credits, and educational plans, must be completed to determine if the Performance-Based Exit Option Model is the most appropriate educational strategy.

Parents must be informed and give consent to the student's participation in this option.

The student's record must include notification and eligibility, parents' right to administrative review of proposed placement, and parent consent for student participation prior to placement.

Parents must be provided clarification that the student transcript will indicate an alternative graduation route.

Certificate of Completion

A Certificate of Completion shall be awarded to a student who completes the 24 required credits for graduation, but who does not meet one or more of the following requirements:

1. earning passing scores on the required state assessment or scores on a standardized test that are concordant with passing scores on the required state assessment;
2. achieving the required cumulative grade point average of 2.0 on a 4.0 scale; or
3. completing all other requirements in Student Progression and remedial instruction.

The student shall be awarded a certificate of completion in a form prescribed by the State Board.

There is no Certificate of Completion awarded to students who are seeking a three-year diploma option. If the student does not meet all of the requirements for a three-year diploma option, the student automatically reverts to the 24 credit requirements for the four-year standard diploma.

The district superintendent shall be responsible for ensuring that schools notify all students of the consequences of failure to receive a Standard Diploma, including the potential ineligibility for financial assistance at postsecondary educational institutions.

Appropriations Act. Students who have met all requirements for a Standard Diploma, except for passage of the required state assessment or an alternative assessment by the end of grade 12, must be provided the following learning opportunities:

1. To participate in an accelerated high school equivalency diploma preparation program during the summer, and upon receipt of a Certificate of Completion, take the Postsecondary Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college, as appropriate.
2. To participate in an adult general education program for such time as the student requires in order to master English, reading, mathematics, or any other subject required for high school graduation. Students attending adult basic, adult secondary, or vocational preparatory instruction are exempt from any requirement for the payment of tuition and fees, including lab fees. A student attending an adult general education program shall have the opportunity to take the required state assessment an unlimited number of times in order to receive a standard high school diploma.
3. To participate in an immersion English language instruction program during the summer following the senior year. There must be documentation that students have been enrolled in an ESOL program for less than two school years and that they have met all requirements for the standard high school diploma except for passage of the required state assessment or alternate assessment. Students receiving such instruction are eligible to take the required state assessment or alternative assessment and receive a standard high school diploma upon passage of the required state assessment or the alternative assessment. Upon receipt of a certificate of completion, a student will be allowed the opportunity to take the Postsecondary Readiness Test (PERT) and be admitted to remedial or credit courses at a state community college as appropriate.

Requirements for a standard diploma for students with disabilities for whom the IEP team has determined that participation in the Florida Alternate Assessment is the most appropriate measure of the student's skills, in accordance with subsection 6A-1.0943(5), F.A.C., and instruction in the Access Points is the most appropriate means of providing the student access to the general curriculum. Students must meet the graduation requirements specified in Section 1003.4282(1)-(9) or 1002.3105(5), F.S., through the access course specified for each required core course or through core academic courses aligned with the general education curriculum standards.

Eligible CTE courses, as defined in paragraph (2)(d) of this rule, may substitute for Access English IV; one (1) mathematics credit, with the exception of Access Algebra 1A and Access Algebra 1B and Access Geometry; one (1) science credit, with the exception of Access Biology; and one (1) social studies credit with the exception of Access United States History. Eligible courses are described in the Course Code Directory and Instructional Personnel Assignments, in accordance with Rule 6A-1.09441, F.A.C.

Deferral of Standard Diploma

Once a student with a disability meets all the requirements for a standard diploma, they may defer the receipt of their diploma. The decision to accept or defer the standard high school diploma must be made prior to the beginning of the school year in which the student is expected to meet all requirements for a standard high school diploma. A signed statement by the parent, guardian or student, if the student has reached the age of majority and rights have transferred to the student in accordance with subsection 6A-6.03311(8), F.A.C., that he or she understands the process for deferment and identifies if the student will defer the receipt of his or her standard high school diploma, must be included in the IEP. The IEP Team must review the benefits of deferring the standard high school diploma and describe to the parent and the student all services and program options available.

Certain conditions must be met in order to defer the standard diploma:

1. The student's IEP prescribes special education, transition planning, transition services, or related services through the student's 22nd birthday.

The decision to defer a diploma must be made during the school year in which the student is expected to meet all graduation

requirements. Students who fail to defer receipt of a standard high school diploma will be notified by the district, in writing, that receipt of the diploma ends the district's obligation to provide free appropriate public education (FAPE).

Students who choose to defer the receipt of the diploma will participate in a graduation ceremony with their graduation class. If student chooses to NOT participate in the graduation ceremonies, he/she forfeits the opportunity of participation in any future ceremonies.

ESE Assessment Requirements

Standard Diploma with Required State Assessment Waiver:

A student with a disability, as defined in S.1007.02, F.S., for whom the Individual Education Plan (IEP) committee determines that the required state assessment cannot accurately measure the student's abilities taking into consideration all allowable accommodations, shall have the required state assessment results waived for the purpose of receiving a standard high school diploma, if the student:

1. Completes the minimum number of credits and other requirements for graduation and
2. Does not earn passing scores on the required state assessment or on a standardized test that is concordant with passing scores on the required state assessment after attempting each required assessment at least once.
3. Any senior who has not achieved a passing score on the required state assessment may receive intensive remediation.

Intensive Instruction Waiver:

Parents may submit a waiver of the intensive instruction requirement for their child to the student's school counselor. Exercising this option can jeopardize a student's opportunity for an ESE assessment waiver and prohibit students from participation in alternative graduation options in high school. The following criteria must be met to qualify for this waiver:

5. Parents must complete the Intensive Instruction Waiver Request form (Appendix A).

Student must be in 6th-11th grade.

End-of-Course Assessment Waiver:

A student with a disability, as defined in s. 1007.02(2), Florida Statutes, for who the IEP committee determines that an end-of-course assessment cannot accurately measure the student's abilities, taking into consideration all allowable accommodations, shall have the end-of-course assessment results waived for the purpose of determining the student's course grade and credit as required. All ESE students must attempt to take the EOC in order to potentially qualify for an EOC waiver. An IEP team will examine all information for each ESE student, and then determine the potential for the results of the EOC to be waived.

Any waiver of the statewide standardized assessment requirements by an IEP team must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent.

Semester grades for students using an End-of-Course Waiver will be averaged as follows:

Semester 1: Quarter 1=50% and Quarter 2 =50%

Semester 2: Quarter 3 =50% and Quarter 4 =50%.

Formatted: Right

Students who are enrolled in an ESOL program and have met all requirements for the standard high school diploma except for passage of the required state assessment or alternate assessment may receive immersion English language instruction during the summer following their senior year and/or return as a fifth-year senior to have the opportunity to meet the graduation requirements. Students receiving such instruction are eligible to take the required state assessment or alternate assessment and receive a standard high school diploma upon passage of the required state assessment or the alternate assessment. This section will be implemented to the extent funding is provided in the General Appropriations Act.

Pursuant to Section 1003.433(3), F.S., and SB 6A-1.09422, beginning with the 2022-23 school year, students who have been enrolled in an English Speakers of Other Languages (ESOL) program for *less than 2 school years and have met all requirements for the standard high school diploma except for passage of any assessment required for graduation* as specified by Section 1003.4282 or 1008.22, F.S., or alternate assessment is eligible for a standard high school diploma if the student:

Meets the requirement to pass the statewide, standardized grade 10 ELA assessment by satisfactorily demonstrating grade-level expectations on a formative assessment that generates a score or metric that can be interpreted as a measure of grade 10 level achievement in ELA.

Students who enter without records are eligible for the verification process as defined in the Uniform Transfer of Records guidelines.

IX. College Readiness

Schools shall use all available assessment results, including the results of statewide, standardized English language arts assessments and end-of-course assessments for Algebra I and Geometry, to advise students of any identified deficiencies and to provide appropriate postsecondary preparatory instruction before high school graduation.

Manatee County students are required to remain enrolled in school until the age of 16. The student's school counselor or other school personnel is required to conduct an exit interview with a student to discuss actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his/her education in a different environment, including but not limited to, adult-education and GED test preparation. The student must complete a survey in the format prescribed by the Department of Education to provide data on reasons for terminating enrollment and actions taken by schools to keep students enrolled to the student's school counselor.

K-12 Virtual Education

XI. Virtual Programs

Policy

The School Board has the authority to adopt rules for implementing the student progression requirements for students in grades kindergarten through twelve. The Student Progression Plan for Manatee County defines the criteria for graduation, participation in graduation, promotion, intensive remediation, course offerings, evaluating student performance, and reporting to students and parents. The Student Progression Plan for Manatee County has been developed based on Florida Statutes, current and local needs, and includes requirements for virtual education programs. For more information, see Florida Department of Education website – www.fldoe.org.

Virtual Education Programs

All students who choose to participate in a virtual education program must meet all of the local and state requirements for promotion, retention, and good cause exemptions. All instructional personnel, parents, and students are encouraged to become familiar with the requirements for progression from one grade to another, including the requisite testing programs.

Virtual instruction means a program of instruction provided in an interactive learning environment created through technology in which students are separated from their teachers by time, space, or both, and in which a Florida certified teacher is responsible for at least 70% of the online instruction to students in K-12.

As stipulated by the Florida K-20 Education Code (s.1002.20), parents have the right to choose educational options including virtual education. Manatee Virtual School (MVS) provides full-time and/or part-time opportunities for all Manatee County zoned and home school students to access elementary, middle and high school courses. A student's full-time school may not deny access to courses offered through any approved district virtual education program if the desired online course(s) is an appropriate course placement based on the student's academic history, grade level, and age.

Note: Per Florida Virtual memo of June 2011, public school students may only register for up to three FLVS courses at one time.

- Full-time virtual education is available for home education and FLVS students.

A student must be assigned to a FLVS course either before the school year or semester begins or within the established school deadline to register and be assigned to an FLVS course and withdraw from a SDMC face-to-face course.

The Manatee County School District shall provide students with access to enroll in courses available through the MVS option of the student and parent's choice and shall award credits or academic points for successful completion of such courses. While a district may not artificially limit a student's enrollment in online courses offered by the school district, another school district, or FLVS if the student would be academically eligible to enroll in the same courses in a brick-and-mortar setting within the district, a district still has authority and responsibility to provide academic guidance to their

students. This includes limiting enrollment in courses for which the student is not academically qualified in the same manner it would limit a student from enrolling in brick-and-mortar courses for which the student is not academically qualified.

Access to approved virtual courses shall be available to zoned school students during or after the normal school day. Students wishing to take courses through MVS options must work closely with their school counselor to ensure that appropriate virtual courses are reviewed and approved to match the needs of the students. MVS courses are available during the academic school year and summer session.

An important characteristic of the virtual instruction program is that students, along with a responsible adult, assume the responsibility for student success. All courses offered in the virtual instruction program are based on the Florida State Standards. All full-time Manatee virtual students are required to take and pass the state-required assessments at their zoned school. Students are able to participate in extracurricular activities at their zoned school. The virtual school option requires eligible students with the capacity and motivation to become independent learners.

SDMC offers only virtual instructional programs approved by the Florida Department of Education. All virtual instruction providers are required to sign the District Assurances to affirm they are meeting all the requirements in Florida Statute. Manatee Virtual Program rules and procedures, both full and part-time, are included in the Manatee Virtual Program Handbook. Students who qualify for free and reduced lunch and do not have a computer at home may qualify to receive all required equipment.

All students enrolled in a virtual full-time district school program are subject to compulsory attendance requirements of s1003.21 Florida Statutes as specified in the Manatee Virtual Program Handbook. Attendance must be verified by virtual teacher, registrar, and the school district. The parent or a responsible adult is required to be available to assist the student as a learning coach through each school day. Middle school students will be graded on the average of the first semester grade and the second semester grade. If the student does not finish 100% of the second semester, they cannot pass the course regardless of their first semester grade. Courses that require an end-of-course assessment (EOC) must follow all state grading and credit requirements.

Middle and high school students will typically spend 5-6 hours daily on coursework and homework. Failure to make adequate progress or to demonstrate appropriate attendance may result in dismissal from the program.

Full-time Virtual Education Options

MVS provides one full-time virtual school program:

- Manatee Virtual School (MVS)

The full-time MVS is a contracted program with FLVS which uses the FLVS online curriculum and either Manatee or FLVS teachers, depending upon the need.

Goals of MVS:

a. To provide a comprehensive virtual education program

b. To provide flexibility in student academic and non-academic scheduling

c. To provide opportunities for students to accelerate

To remain in MVS, a student must:

Formatted: Right

a. Maintain virtual attendance expectations as prescribed in the MVS and FLVS policies and procedures manual.

b. Meet benchmarks, including all state required-assessments.

c. Provide his/her own transportation to their zoned school on designated test days for all state required-assessments and provide photo ID.

d. Be considered zoned-school students for sports and extracurricular activities.

e. Follow and maintain course pace, according to course and instructor requirements.

f. Work with the zoned-school athletic director regarding NCAA eligibility.

g. Agree and adhere to all the student and parent guidelines as stipulated in the MVS Handbook.

h. Enroll in and complete six half-credit courses each semester within the specified enrollment and completion dates.

How to apply to a Full-Time Virtual Program:

Manatee County public, charter, or home school students should consult with their school counselor and review the MVIP and FLVS websites. Enrollment windows are posted on the MVS Website, Brochure, and other District Communications

Part-time Virtual Education Options

Students who wish to enroll in a virtual education option on a part-time basis may choose to do so through either MVS or FLVS (see criteria above). This program allows students enrolled in public school or home school to take a portion of their coursework online for the purposes of acceleration, grade forgiveness or credit recovery. Zoned school students may participate in this program by taking any portion of their course-work online and at school (up to a total of 3 courses). Charter school students must register for FLVS courses for part-time enrollment. Public school students are required to take all required state assessments at their zoned school.

The performance of zoned school students shall be included for school grade or school improvement rating purposes by the non-virtual school providing the student's primary instruction.

Policies for Part-time Programs:

1. A student may not be placed in the same course concurrently at a district middle or high school and at Florida Virtual School.
2. Schools may not deny placement in a course offered through Florida Virtual School even if the school offers the same course.
3. A student who withdraws or is withdrawn from a virtual course within 28 days of entry must enroll in enough courses at the zoned school to maintain full-time enrollment status.
4. 8th grade students who are enrolled in a virtual program for an academic course must complete the academic course by the last day of school or will be placed in an alternative instructional setting.

General Information

Equipment Requirements

Deleted: ¶

Formatted: Right

Students wishing to take a virtual course should have access to their own computer. Some provision is available to students with an established need as verified by the free-and-reduced lunch application process. Students must also have access to a phone to contact their teacher(s) for assistance.

Most virtual school courses make use of a wide variety of features and technologies, such as Java, Flash, Acrobat Reader, Apple QuickTime, or Microsoft Media Player, and depending on the course, other specialized components that help students achieve a more immersive learning experience.

The PC, Mac, mobile and other hardware requirements vary according to the program provider and will be listed on each program's website.

Due to the wide array of technologies in over 100 courses, there are some limitations to browsers and devices that the district can support. Currently, students may use recent versions of the following browsers:

- Microsoft Edge
- Mozilla Firefox
- Google Chrome
- Apple Safari

MVS/Florida Virtual School expects a full commitment to academic integrity from each student.

Academic integrity means:

- Student's work on each assignment will be completely his/her own.
- Student's collaboration with another classmate on any assignment will be pre-approved by their instructor.
- Students will not practice plagiarism in any form.
- Students will not allow others to copy their work.
- Students will not misuse content from the Internet.

Plagiarism is defined as copying or using ideas or words (from another person, an online classmate, or an Internet or print source) and presenting them as your own.

Please be aware that all MVS/Florida Virtual School instructors utilize a **myriad of technologies to check student work for authenticity including, but not limited to, the upload of student work to TurnItIn.com**. In order to maintain the integrity of all grades, instructors may choose to facilitate random oral assessments and/or face-to-face exams. If an instructor confirms that a student has plagiarized work in any manner, the student will be subject to consequences determined by MVS /Florida Virtual School staff and may be **removed from the course and/or program with a failing grade.**

Extracurricular Activity Eligibility:

A full-time virtual school student who meets specified academic and conduct requirements is eligible to participate in extracurricular activities at the zoned school.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is made by and between the Manatee County School District ("District") and Bradenton Beach Police Department ("BBPD"), Bradenton Police Department ("BPD"), Holmes Beach Police Department ("HBPD"), Longboat Key Police Department ("LBKPD"), Palmetto Police Department ("PPD"), and the Manatee County Sheriff's Office ("MCSO"), collectively referred to as the "Parties" or individually as a "Party." This MOU shall be effective as of the date of the last-executed signature below ("Effective Date").

I. PURPOSE

The Larger Project. To further implement an initiative aimed at addressing children's exposure to violence and trauma. Childhood exposure to violence and trauma, without the right support, is often associated with increased risk of poor outcomes in emotional, behavioral, and physical health over the life span. Children exposed to violence and trauma are also at a higher risk of poor school-related outcomes and are more likely to enter the criminal justice system later in life, which can contribute to generational cycles of violence and system involvement. This project directly addresses the goal of mitigating these negative impacts of exposure to trauma when it does occur, by providing support and on-site, trauma focused interventions by school staff and/or mental health providers, if necessary, to children identified by local law enforcement and school personnel.

II. NOTIFICATION OF EXPOSURE TO TRAUMA

The phrase "trauma or violence" shall be construed broadly and by way of example and not by way of limitation, shall mean and include any event where a child is a victim or witness, experiences or is involved in, or is questioned relative to, any of the following: the abuse of a family member, loved one, or pet; abuse or neglect; child custody, visitation or support or other domestic relations controversy where there is law enforcement intervention; community violence; the commission of a crime; loss of a family member or friend; an overdose; the arrest of a family member; racism or any other form of discrimination; homelessness; mental illness and/or substance abuse by a parent or caregiver; hospitalization or family illness; incarceration of a parent or family member; sudden, unexpected or frequent changes in caregiver, school, program or home life; natural disasters; or similar acts or experiences. Should there be a question as to whether a
