WITNESSETH

WHEREAS, the Monroe County Board of County Commissioners ("Board") recognizes the benefit the Sixteenth Judicial Circuit GAL Program provides to the County's children involved in the dependency system and desires to provide, within its discretion, additional personnel support to the local GAL program as set forth herein; and

WHEREAS, the Board further desires the personnel services provided herein shall not result in it or the County bearing employment liability risk as a result of the fact that the County will not be able to manage, control, or oversee the personnel funded under this Agreement, nor the work environment in which such personnel will work; and

WHEREAS, on December 12, 2012, retroactive to July 1, 2012, the Board of County Commissioners approved an Interlocal Agreement with the Statewide Office of the Guardian Ad Litem, in order to pay for a Senior Administrative Assistant position (1.0 FTE). Provider shall maintain occurrence form commercial general liability and automobile liability insurance for the protection of Provider, the Port, its commissioners, employees, and agents. Coverage shall include personal injury, bodily injury, including death, and broad form property damage, including loss of use of property, occurring during or in any way related to Provider's operations, in an amount not less than $1,000,000 combined single limit per occurrence. Such insurance shall reference the Contract number and shall name the Port, its Commissioners, employees, and agents as additional insureds.

9.2 Workers' Compensation Coverage; Employers' Liability Coverage

Provider shall maintain workers compensation and employers' liability coverage for all Provider's employees who are subject to Oregon's Workers' Compensation statute (and/or Provider's domicile state, if different), either as a carrier-insured employer or as a self-insured employer as provided by ORS 656.407. If Provider's domicile state is a monopolistic state, employers stop gap liability insurance may be substituted for employers' liability coverage

9.3 Certificates

9.3.1 Certificates Required

Prior to full execution of this Contract, Provider shall furnish the Port with:

a) certificates referencing this Contract (by number, if known), coverage dates, amount, and type of insurance required by this Contract; and

b) a copy of the endorsement or policy provision providing additional insured status under the commercial general liability and automobile liability policies.

9.3.2 Certificate Management; Notice Requirement

When the period of Provider's performance under this Contract exceeds the coverage period stated on a certificate, prior to the certificate expiration date Provider or its insurer must furnish updated certificates demonstrating continuous coverage. Provider or its insurer must give the Port not less than thirty (30) days' written notice before cancellation, non-renewal, or material change of any policy (except ten (10) days for non-payment of premium).

10 BREACH OF CONTRACT

10.1 Generally

Provider acknowledges that its breach of its obligation to deliver promised quantities of Goods within the time periods set forth in this Contract may result in curtailment or cessation of critical Port operations, and that such curtailment or cessation may cause substantial harm to the Port including without limitation incidental and consequential damages

10.2 Cure; Remedies

Provider must cure any breach of this Contract within the shortest reasonable time after Provider first has actual notice of the breach or the Port notifies Provider of the breach, whichever is earlier. If Provider fails to cure a breach in accordance with this subsection, the Port may exercise one or more of the following remedies:

10.3 Substitute Goods

The Port may terminate that part of this Contract affected by the breach upon written notice to Provider, may obtain substitute goods in a reasonable manner, and may recover from Provider the amount by which the price for those substitute goods exceeds the price for the terminated Goods.

10.4 Suspension of Orders

Pending a decision to terminate all or part of this Contract under this Section, the Port may unilaterally order Provider to suspend all or part of the ordered Goods. If the Port terminates all or part of this Contract after such a suspension, Provider shall be entitled to compensation only for Goods accepted by the Port and delivered as required by this Contract prior to the date of termination but not for any Goods delivered after the Port-ordered suspension date. If the Port suspends certain orders and later requires Provider to resume the delivery of those Goods, Provider shall be entitled to reasonable damages incurred, if any, as a result of the suspension.

10.5 Default

If the breach is material, the Port may declare Provider in default, and the Port may pursue any remedy available for a default.

10.6 Recovery of Amounts Due for Breach

To recover any amounts Provider owes to the Port due to Provider's material or non-material breach of this Contract, the Port may withhold such amounts from any Port payments to Provider, including but not limited to payments made under this Contract or under any other agreement between the parties. Provider's default under this Contract will be, at the Port's option, a default under any other agreement between the parties.

10.7 Contractual Remedies Not Exclusive

The Port shall have all remedies available to the Port under this Contract, at law, and in equity, including reasonable attorneys' fees and costs incurred in any action to enforce the Port's rights under this Contract. All available remedies are cumulative and may be exercised singularly or concurrently.

11 TERMINATION FOR CONVENIENCE

The Port may terminate all or part of this Contract at any time for its own convenience by written notice to Provider. Upon termination under this Section, Provider shall be entitled to compensation for all Goods & Services delivered to and accepted by the Port prior to Provider's actual notice of the termination or the receipt of the written notice of termination, whichever is earlier, plus Provider's reasonable costs actually incurred in closing out the Contract. Provider shall not be entitled to compensation for any Goods & Services ordered but not yet delivered and accepted by Port prior to Provider's actual notice of the termination or receipt of written notice of termination.

12 STATUTORILY-REQUIRED PROVISIONS

Provider's failure to comply with the tax laws of the State of Oregon or a political subdivision of the State of Oregon before Provider executed this Contract or during the term of this Contract will be a default for which the Port may terminate the Contract and seek damages and other relief available under the terms of this Contract and under applicable law. 13.5 Provider Identification

Under ORS 84.014, Provider's consent is not required for this Contract to be executed using Electronic Signatures. Even if ORS 84.014 is determined to be inapplicable or invalid, Provider grants such consent.

13.11 Integration

This Contract contains the entire agreement between the parties regarding the subject matter of this Contract and supersedes all prior written or oral discussions or agreements regarding the subject matter of this Contract.

13.12 Attachments

Any exhibits, schedules, and other attachments referenced in this Contract are part of this Contract.

SECTION II – COVERED AUTOS LIABILITY COVERAGE

A. Coverage

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Covered Autos Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

1. Who Is An Insured

The following are "insureds":

a. You for any covered "auto".

b. Anyone else while using with your permission a covered "auto" you own, hire or borrow except:

(1) The owner or anyone else from whom you hire or borrow a covered "auto".

This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

(2) Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.

(3) Someone using a covered "auto" while he or she is working in a business of selling, servicing, repairing, parking or storing "autos" unless that business is yours.

(4) Anyone other than your "employees", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "employees", while moving property to or from a covered "auto".

(5) A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "auto" owned by him or her or a member of his or her household.

c. Anyone liable for the conduct of an "insured" described above but only to the extent of that liability.

2. Coverage Extensions

a. Supplementary Payments

We will pay for the "insured":

(1) All expenses we incur.

(2) Up to $2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

(3) The cost of bonds to release attachments in any "suit" against the "insured" we defend, but only for bond amounts within our Limit of Insurance.

(4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $250 a day because of time off from work.

(5) All court costs taxed against the "insured" in any "suit" against the "insured" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "insured".

(6) All interest on the full amount of any judgment that accrues after entry of the judgment in any "suit" against the "insured" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

b. Out-of-state Coverage Extensions

While a covered "auto" is away from the state where it is licensed, we will:

(1) Increase the Limit of Insurance for Covered Autos Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "auto" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "auto" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

All "bodily injury", "property damage" and "covered pollution cost or expense" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "accident".

No one will be entitled to receive duplicate payments for the same elements of "loss" under this Coverage Form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

A. Loss Conditions

1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

a. Pay its chosen appraiser; and

b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

a. In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:

(1) How, when and where the "accident" or "loss" occurred;

(2) The "insured's" name and address; and

(3) To the extent possible, the names and addresses of any injured persons and witnesses.

b. Additionally, you and any other involved "insured" must:

(1) Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.

(2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "suit".

(4) Authorize us to obtain medical records or other pertinent information.

(5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

c. If there is "loss" to a covered "auto" or its equipment, you must also do the following:

(1) Promptly notify the police if the covered "auto" or any of its equipment is stolen.

(2) Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.

(4) Agree to examinations under oath at our request and give us a signed statement of your answers.

3. Legal Action Against Us

No one may bring a legal action against us under this Coverage Form until:

a. There has been full compliance with all the terms of this Coverage Form; and

b. Under Covered Autos Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

© Insurance Services Office, Inc., 2011

4. **Loss Payment – Physical Damage Coverages**

   At our option, we may:

   a. Pay for, repair or replace damaged or stolen property;

   b. Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or

   c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

   If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

5. **Transfer Of Rights Of Recovery Against Others To Us**

   If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

B. General Conditions

1. **Bankruptcy**

   Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this Coverage Form.

2. **Concealment, Misrepresentation Or Fraud**

   This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other "insured", at any time, intentionally conceals or misrepresents a material fact concerning:

   a. This Coverage Form;

   b. The covered "auto";

   c. Your interest in the covered "auto"; or

   d. A claim under this Coverage Form.

3. **Liberalization**

   If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

4. **No Benefit To Bailee – Physical Damage Coverages**

   We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

5. **Other Insurance**

   a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Covered Autos Liability Coverage this Coverage Form provides for the "trailer" is:

   (1) Excess while it is connected to a motor vehicle you do not own; or

   (2) Primary while it is connected to a covered "auto" you own.

   b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

   c. Regardless of the provisions of Paragraph **a.** above, this Coverage Form's Covered Autos Liability Coverage is primary for any liability assumed under an "insured contract".

   d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. **Premium Audit**

   a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

   b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "accidents" and "losses" occurring:

a. During the policy period shown in the Declarations; and

b. Within the coverage territory.

The coverage territory is:

(1) The United States of America;

(2) The territories and possessions of the United States of America;

(3) Puerto Rico;

(4) Canada; and

(5) Anywhere in the world if a covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less,

provided that the "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada, or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

Paragraphs **b.** and **c.** above do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

(a) The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and

(b) The discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

E. "Diminution in value" means the actual or perceived loss in market value or resale value which results from a direct and accidental "loss".

F. "Employee" includes a "leased worker". "Employee" does not include a "temporary worker".

G. "Insured" means any person or organization qualifying as an insured in the Who Is An Insured provision of the applicable coverage. Except with respect to the Limit of Insurance, the coverage afforded applies separately to each insured who is seeking coverage or against whom a claim or "suit" is brought.

H. "Insured contract" means:

1. A lease of premises;

2. A sidetrack agreement;

3. Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

4. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

5. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another to pay for "bodily injury" or "property damage" to a third party or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement; or

6. That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "employees", of any "auto". However, such contract or agreement shall not be considered an "insured contract" to the extent that it obligates you or any of your "employees" to pay for "property damage" to any "auto" rented or leased by you or any of your "employees".

An "insured contract" does not include that part of any contract or agreement:

a. That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

b. That pertains to the loan, lease or rental of an "auto" to you or any of your "employees", if the "auto" is loaned, leased or rented with a driver; or

c. That holds a person or organization engaged in the business of transporting property by "auto" for hire harmless for your use of a covered "auto" over a route or territory that person or organization is authorized to serve by public authority.

I. "Leased worker" means a person leased to you by a labor leasing firm under an agreement between you and the labor leasing firm to perform duties related to the conduct of your business. "Leased worker" does not include a "temporary worker".

J. "Loss" means direct and accidental loss or damage.

K. "Mobile equipment" means any of the following types of land vehicles, including any attached machinery or equipment:

1. Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

2. Vehicles maintained for use solely on or next to premises you own or rent;

3. Vehicles that travel on crawler treads;

4. Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

a. Power cranes, shovels, loaders, diggers or drills; or

b. Road construction or resurfacing equipment such as graders, scrapers or rollers;

5. Vehicles not described in Paragraph **1., 2., 3.** or **4.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

a. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well-servicing equipment; or

b. Cherry pickers and similar devices used to raise or lower workers; or

6. Vehicles not described in Paragraph **1., 2., 3.** or **4.** above maintained primarily for purposes other than the transportation of persons or cargo. However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

a. Equipment designed primarily for:

(1) Snow removal;

(2) Road maintenance, but not construction or resurfacing; or

(3) Street cleaning;

b. Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

c. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting or well-servicing equipment.

However, "mobile equipment" does not include land vehicles that are subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged. Land vehicles subject to a compulsory or financial responsibility law or other motor vehicle insurance law are considered "autos".

L. "Pollutants" means any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

M. "Property damage" means damage to or loss of use of tangible property.

N. "Suit" means a civil proceeding in which:

1. Damages because of "bodily injury" or "property damage"; or

2. A "covered pollution cost or expense";

to which this insurance applies, are alleged.

"Suit" includes:

a. An arbitration proceeding in which such damages or "covered pollution costs or expenses" are claimed and to which the "insured" must submit or does submit with our consent; or

b. Any other alternative dispute resolution proceeding in which such damages or "covered pollution costs or expenses" are claimed and to which the insured submits with our consent.

O. "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

P. "Trailer" includes semitrailer.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($17.20) or 13658 ($12.90). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local),

a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

When required by Federal program legislation, which includes Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program and Transit Security Grant Program, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must comply with the Davis-Bacon Act (40 U.S.C. §§3141-3144, and §§3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. If applicable, the COUNTY must place a current prevailing wage determination issued by the Department of Labor in each solicitation, a copy of which is attached hereto as **Exhibit "C"** and made a part hereof. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The COUNTY must report all suspected or reported violations to the Federal awarding agency.

When required by Federal program legislation, which includes Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program and Transit Security Grant Program (it does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program), the contractors, in contracts for construction or repair work above $2,000 in situations where the Davis-Bacon also applies, must also comply with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 CFR Part

3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). As required by the Act, each contractor or subrecipient is prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The COUNTY must report all suspected or reported violations to the Federal awarding agency.

(1) Contractor. The contractor shall comply with U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis-Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

44.2 **Contract Work Hours and Safety Standards Act** (40 U.S.C. §§3701-3708)**.** Where applicable, which includes all FEMA grant and cooperative agreement programs, all contracts awarded by the COUNTY in excess of $100,000 that involve the employment of mechanics or laborers must comply with 40 U.S.C.§§ 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. §3702 of the Act, each contractor must compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of

laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated Damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of 29 C.F.R. §5.5.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in 29 C.F.R. §5.5, paragraphs (b)(1) through (4 and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in 29 C.F.R. §5.5, paragraphs (1) through (4).

44.3 **Rights to Inventions Made Under a Contract or Agreement.** If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

44.4 **Clean Air Act (42 U.S.C. §§7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. §§1251-1387).** Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended (42 U.S.C. §§7401-7671q) and the Federal Water Pollution Control Act, as amended (33 U.S.C. §§1251-1387) and will report violations to FEMA/Federal Agency and the appropriate Regional Office of the Environmental Protection Agency (EPA). The Clean Air Act (42 U.S.C. §§7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. §§1251-1387), as amended, applies to Contracts and subgrants of amounts in excess of $150,000. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA/Federal agency. The Contractor agrees to report each violation to the COUNTY and understands and agrees that the COUNTY will, in turn, report each violation as required to assure notification to FEMA/Federal Agency and the appropriate EPA Regional Office.

44.5 **Debarment and Suspension (Executive Orders 12549 and 12689).** A contract award under a "covered transaction" (see 2 C.F.R. §180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. Part 180 that implement Executive Orders 12549 (3 C.F.R. part 1986 Comp., p. 189) and 12689 (3 C.F.R. part 1989 Comp., p. 235), "Debarment and Suspension" and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Nonprocurement Debarment and suspension). ** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($15.00) or 13658 ($11.25). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their

own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all

rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is

based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

AGENDA ITEM WORDING: Approval to authorize Air Mechanical & Service Corp. to purchase and install a new Chiller at the Harvey Government Center per the terms of Air Mechanical's contract and the current Monroe County Purchasing Policy, utilizing American Rescue Plan Act Funding (ARPA), with such costs not to exceed $232,000.

ITEM BACKGROUND:

On March 21, 2019, the BOCC approved a Bid Award Agreement with Air Mechanical & Service Corp. (Air Mechanical) for Chiller Maintenance and Service in Monroe County. There was an initial three (3) year term beginning April 1, 2019, which terminated on March 31, 2022, with the option to renew for an additional two (2) one-year periods. On July 15, 2020, the BOCC approved a First Amendment to revise the contract provisions for Maintenance of Records, Non-Discrimination, and Termination, and to add certain required Federal provisions. On March 16, 2022, the BOCC approved a Second Amendment with a 7% CPI-U increase, revised the Scope of Work to clarify Ductwork and Piping Insulation repair and replacement work and rates, renewed for a one-year period, and updated some contract provisions. On February 15, 2023, the BOCC approved a Third Amendment increasing payments based on the annual CPI-U increase of 6.5%, exercised the option to renew the agreement term for the second renewal with the new term to commence on April 1, 2023, and terminates on March 31, 2024, and updated certain provisions to comply with State or County contract provisions. On March 22, 2023, the BOCC approved a Fourth Amendment to update certain County, State, or Federal required contract provisions which included the appropriate AARP language. On March 22, 2023, the BOCC also approved a request to waive the Monroe County Purchasing Policy to allow Air Mechanical to perform critical repairs under its current contract replacing a Mag Bearing compressor on the Daiken Chiller at Jackson Square without the necessity for seeking competitive bids using American Rescue Plan Act (ARPA) Funds. The BOCC approved a Fifth Amendment to the contract on September 20, 2023, which modified the contract language to give staff the option of seeking proposals/quotes solely from the Contractor when there is a major component failure or system breakdown without the need to seek other competitive bids while following the current Monroe County Purchasing Policy.

Air Mechanical has provided a proposal for replacing a Chiller at the Harvey Government Center with a

new Daiken, scroll compressor air cooled Chiller, as shown on the attached Proposal dated January 22, 2024. The replacement Chiller is for a net price not to exceed $232,000.00, with an extended warranty included with a 2nd to 5th year warranty on compressors and a complete 5-year parts warranty. The current Agreement does not have a provision allowing such an expenditure without BOCC approval. Staff seeks approval to allow Air Mechanical to purchase and install a Chiller at the Harvey Government Center per the terms of Air Mechanical's contract, the Proposal, and the current Monroe County Purchasing Policy, utilizing American Rescue Plan Act Funding. Air Mechanical has been maintaining the Chillers at Jackson Square since 2013 and maintenance for all County Chillers since 2019, which includes the Harvey Govt. Center Chiller. This replacement qualifies for ARPA funding. Staff seeks approval to proceed with this purchase.

PREVIOUS RELEVANT BOCC ACTION:

September 20, 2023 BOCC approved a Fifth Amendment to update contract language to give staff the option of seeking proposals/quotes solely from the Contractor when there is a major component failure or system breakdown without the need to seek other competitive bids while following the current Monroe County Purchasing Policy.

County Commission Meeting
March 22, 2023
Agenda Item Summary #11847

BULK ITEM: Yes

DEPARTMENT: Facilities Maintenance

TIME APPROXIMATE:
None

STAFF CONTACT: Alice Steryou (305) 292-4549

AGENDA ITEM WORDING: Approval to request a Waiver of the Monroe County Purchasing Policy to allow Air Mechanical & Service Corp. to perform critical repairs under its current contract, replacing a Mag Bearing compressor on the Daiken Chiller at Jackson Square without the necessity for seeking competitive bids. American Rescue Plan Funding (ARPA) will be utilized for these repairs which are anticipated to be up to $103,276.57.

ITEM BACKGROUND: On March 21, 2019, the BOCC approved a Bid Award Agreement with Air Mechanical & Service Corp. for Chiller Maintenance and Service in Monroe County. There was an initial three (3) year term beginning April 1, 2019, which terminated on March 31, 2022, with the option to renew for an additional two (2) one-year periods. On July 15, 2020, the BOCC approved a First Amendment to revise the contract provisions for Maintenance of Records, Non-Discrimination, and Termination, and to add certain required Federal provisions. On March 16, 2022, the BOCC approved a Second Amendment with a 7% CPI-U increase, revised the Scope of Work to clarify Ductwork and Piping Insulation repair and replacement work and rates, renewed for a one-year period, and updated some contract provisions. On February 15, 2023, the BOCC approved a Third Amendment increasing payments based on the annual CPI-U increase of 6.5%, exercised the option to renew the agreement term for the second renewal with the new term to commence on April 1, 2023, and terminate on March 31, 2024, and updated certain provisions to comply with State or County contract provisions.

Air Mechanical has provided a proposal for a required critical repair, replacing a Mag Bearing compressor on the Daiken Chiller at Jackson Square as shown on the attached Proposal in the agenda item. It is anticipated that the repair could be an expenditure of at least $103,276.57 if an extended warranty is included. The current Agreement does not have a provision allowing such an expenditure without BOCC approval. Staff seeks approval to allow a waiver of the Monroe County Purchasing Policy so Air Mechanical can perform the critical repairs under its current Contract without the necessity of seeking competitive bids. Air Mechanical has been maintaining the Chillers at Jackson Square since 2013 and maintenance for all County Chillers since 2019. These repairs qualify for American Rescue Plan funding. Staff is also be seeking approval at the March BOCC meeting of a Fourth Amendment in a separate agenda item to update the contract language to comply with Federal, State, or County contract provisions in order to meet certain ARPA requirements.

PREVIOUS RELEVANT BOCC ACTION:

March 22, 2023 PENDING approval- Fourth Amendment to update contract language to comply with Federal, State, or County contract provisions to meet ARPA requirements.

February 15, 2023 BOCC approved a Third Amendment to Agreement with a 6.5% CPI-U increase, renewed for a one-year period, and updated some contract provisions.

March 16, 2022 BOCC approved a Second Amendment to Agreement with a 7% CPI-U increase, revised the Scope of Work to clarify Ductwork and Piping Insulation repair and replacement work and rates, renewed for a one-year period, and updated some contract provisions.

July 15, 2020 BOCC approved a First Amendment to Agreement to revise the contract provisions for Maintenance of Records, Non-Discrimination, and Termination, and to add certain required Federal provisions. Due to COVID-19 loss of County revenue, there was not a CPI-U increase in 2020.

March 21, 2019 BOCC approved a Bid Award Agreement for Chiller Maintenance and Service in Monroe County with Air Mechanical & Service Corp.

See Exhibit "A"

3. **Personnel**

Communication between the County Representative and the Contractor's personnel is very important. Therefore, the Contractor must assure that at least one (1) of its personnel per building can communicate well in the English language with the County Representative. Any employee hired by the Contractor will be the Contractor's employee and in no way has any association with the County. The Contractor shall insure that its employees are

trained in all appropriate safety regulations, including but not limited to, OSHA regulations and all other applicable local, State and Federal regulations.

Uniforms are preferred for Contractor's personnel however; photo identification cards are required, which shall clearly identify personnel as employees of the Contractor. This requirement shall apply upon entering County property and at all times while on duty.

The County's Facilities Maintenance Director or his designee shall have the right to require any employee(s) of the Contractor to be permanently removed from any County facility serviced by the Contractor whenever it appears to be in the best interest of the County. Thereafter, MCSO and the Contractor will immediately discuss resolution of the problem. If the problem is not resolved to the satisfaction of the MCSO, the employee shall not be permitted to return to any facility operated by the MCSO. Contractor will promptly replace the employee at no additional cost to County.

Contractor further agrees to notify County immediately upon becoming aware that one of its employees or subcontractor's employees, who previously completed the background check is

subsequently arrested or convicted of any crime. Failure by Contractor to notify County of such arrest or conviction within forty-eight (48) hours of being put on notice by the employee/subcontractor and/or within five (5) days of its occurrence shall constitute grounds for immediate termination of this contract by County. The parties further agree that failure by Contractor to perform any of the duties described in this paragraph shall constitute a material breach of the contract entitling County to terminate this contract immediately with no further responsibility to make payment or perform any other duties described herein.

The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, records, papers, letters or other "public record" materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this contract and related to contract performance. The County shall have the right to unilaterally cancel this contract upon violation of this provision by the Contractor. Failure of the Contractor to abide by the terms of this provision shall be deemed a material breach of this contract and the County may enforce the terms of this provision in the form of a court proceeding and shall, as a prevailing party, be entitled to reimbursement of all attorney's fees and costs associated with that proceeding. This provision shall survive any termination or expiration of the contract.

The Contractor is encouraged to consult with its advisors about Florida Public Records Law in order to comply with this provision.

Pursuant to Fla. Stat., Sec. 119.0701, and the terms and conditions of this contract, the Contractor is required to:

(1) Keep and maintain public records that would be required by the County to perform the service.
(2) Upon receipt from the County's custodian of records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
(3) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the County.
(4) Upon completion of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records that would be required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of records, in a format that is compatible with the information technology systems of the County.
(5) A request to inspect or copy public records relating to a County contract must be made directly to the County, but if the County does not possess the requested records, the County shall immediately notify the Contractor of the request, and the Contractor must provide the records to the County or allow the records to be inspected or copied within a reasonable time.

If the Contractor does not comply with the County's request for records, the County shall enforce the public records contract provisions in accordance with the contract, notwithstanding the County's option and right to unilaterally cancel this contract upon violation of this provision by the Contractor. A Contractor who fails to provide the public records to the County or pursuant to a valid public records request within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.

ITEM BACKGROUND:

On January 18, 2023, the BOCC approved a Bid Award Agreement with Miami Dade Pump & Supply Company for Upper Keys Lift Station Maintenance and Cleaning. This is a two (2) year Agreement which will terminate on December 31, 2024. There is an option to renew for up to an additional three (3) one-year periods. The Original Agreement provides that the amount may be adjusted annually in accordance with the percentage change in the U.S. Department of Commerce Consumer Index (CPI-U) for all Urban Consumers as reported by the U.S. Bureau of Labor Statistics or 3%, whichever is less, and shall be based upon the CPI-U computation at December 31 of the previous year. The CPI-U for December 31, 2023, was 3.4%, so therefore we are requesting a 3% CPI-U increase with an effective date retroactive to January 1, 2024.

This Amendment also updates other County and Federal provisions to bring it current with County, State, or Federal laws. The total annual compensation to the Contractor under this Agreement shall not exceed $42,600.00, unless pre-approved work requiring additional funds is implemented. Staff seeks approval of this Second Amendment as noted herein. All other terms of the Original Agreement, as amended, remain the same.

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($17.20) or 13658 ($12.90). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at
https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular

rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

WHEREAS, COUNTY desires to contract for the performance of the work or services described in Exhibit "A"; and

WHEREAS, CONTRACTOR desires to and is able to perform the work or services described in attached Exhibit "A"; and

WHEREAS, it serves a legitimate public purpose for CONTRACTOR to perform the work or services described in attached Exhibit "A" for Monroe County;

NOW, THEREFORE, IN CONSIDERATION of the mutual promises and covenants contained herein, it is agreed as follows:

1. THE AGREEMENT

The Agreement consists of this document, the Request for Proposals ("RFP") documents, exhibits, and any addenda only.

2. SCOPE OF WORK

The Scope of Work shall include, but not be limited to, all work and / or services shown and listed in **Exhibit "A",** which is attached hereto and made a part hereof. The Contractor is required to provide a complete job as contemplated by this Scope of Work. The Contractor shall furnish all labor, supervision, materials, power, tools, equipment, supplies, permits, if any are necessary, and any other means of construction or work necessary or proper for performing and completing the Scope of Work, unless otherwise specifically stated, or as amended throughout the term of this Agreement. The Contractor shall be responsible for the scheduling of services required per the Scope of Work, so as each task is satisfactorily completed.

3. PERSONNEL

Communication between the County Representative and the Contractor's personnel is very important. Therefore, the Contractor must assure that at least one (1) of its personnel per site and/or location can communicate well in the English language with the County Representative. Any employee hired by the Contractor will be the Contractor's employee

and in no way has any association with the County. The Contractor shall insure that its employees are trained in all appropriate safety regulations, including but not limited to, OSHA regulations, DEP regulations, and all other applicable local, State, and Federal regulations.

The Contractor shall be available twenty-four (24) hours per day, three hundred sixty-five (365) days per year. The Contractor shall be at the site of an alarm malfunction within four (4) hours of verbal, email, or text notification by the County. The Contractor shall provide an after-hours contact person and phone number. The County, upon award of the contract, shall provide a contact person and phone number for building and equipment access.

Uniforms are preferred for Contractor's personnel; however, photo identification cards are required, which shall clearly identify personnel as employees of the Contractor. This requirement shall apply upon entering County property and at all times while on duty.

4. BACKGROUND CHECKS / FINGERPRINTING

Contractor employees must consent to Level One background checks and the results are to be provided to the County within thirty (30) days of award of the contract. The County reserves the right to refuse personnel based on results of the background check. The County reserves the right to demand of the Contractor replacement of an employee for the Contractor if a conflict or problem with that employee should arise. The County's Facilities Maintenance Director or his designee shall have the right to require any employee(s) of the Contractor to be permanently removed from any County facility serviced by the Contractor whenever it appears to be in the best interest of the County. It is the responsibility of the Contractor to inform the Facilities Maintenance Director or his designee of all new hires and the results of the background check. The Contractor will be responsible for the supervision, hiring and firing of their own employees, and shall be solely responsible for the pay, worker's compensation insurance, and benefits.

Some work will be conducted at secure facilities, including, but not limited to law enforcement and fire rescue. Background checks, including at a minimum:

A. Warrants check;
B. Fingerprints;
C. Local Records check;
D. Prior employment check; and
E. Criminal History check

are required of Contractor's personnel that will enter Monroe County Sheriff's Office ("MCSO") facilities. Background checks on such personnel will be conducted by the MCSO.

MCSO may prohibit entry to, or remove from, any secure facility any Contractor employee who, in the judgment of MCSO, poses a risk to the security or good order of the facility. Thereafter, MCSO and the Contractor will immediately discuss resolution of the problem.

If the problem is not resolved to the satisfaction of the MCSO, the employee shall not be permitted to return to any facility operated by the MCSO. Contractor will promptly replace the employee at no additional cost to County.

Contractor further agrees to notify County immediately upon becoming aware that one of its employees or subcontractor's employees, who previously completed the background check is subsequently arrested or convicted of any crime. Failure by Contractor to notify County of such arrest or conviction within forty-eight (48) hours of being put on notice by the employee/subcontractor and/or within five (5) days of its occurrence shall constitute grounds for immediate termination of this contract by County. The parties further agree that failure by Contractor to perform any of the duties described in this paragraph shall constitute a material breach of the contract entitling County to terminate this contract immediately with no further responsibility to make payment or perform any other duties described herein.

5. CONTRACT SUM AND PAYMENTS TO CONTRACTOR

A. Monroe County's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Board of County Commissioners ("BOCC"). County shall pay in accordance with the Florida Local Government Prompt Payment Act and Monroe County Code; payment will be made after delivery and inspection by County and upon submission of a proper invoice by Contractor.

B. Contractor shall submit to County invoices for its monthly services with supporting documentation acceptable to the Clerk. Such invoices shall be submitted monthly in arrears, with such services to be paid annually in twelve (12) equal monthly installments. Contractor shall submit to County invoices no later than twenty-five (25) days after inspections/repairs with supporting documentation acceptable to the Clerk. Monthly, Quarterly, Bi-Annual (Twice a Year), and Annual inspections shall be submitted in arrears with supporting reports. Contractor shall submit to the County repair invoices with supporting documentation acceptable to the Clerk, at completion by the Contractor of the repair and said work approved by an appropriate County representative, to be paid at the earliest date possible following completion of the repair. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules, and regulations as may govern the Clerk's disbursal of funds. Monroe County's Fiscal Year is October 1st through September 30th. All outstanding invoices must be submitted for payment within ten (10) days of the end of the Fiscal Year to avoid non-payment for those services.

The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, records, papers, letters or other "public record" materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this contract and related to contract performance. Failure of the Contractor to abide by the terms of this provision shall be deemed a material breach of this contract and the County may enforce the terms of this provision in the form of a court proceeding and shall, as a prevailing party, be entitled to reimbursement of all attorney's fees and costs associated with that proceeding. This provision shall survive any termination or expiration of the contract.

The Contractor is encouraged to consult with its advisors about Florida Public Records Law in order to comply with this provision.

Pursuant to Fla. Stat., Sec. 119.0701 and the terms and conditions of this contract, the Contractor is required to:

(1) Keep and maintain public records that would be required by the County to perform the service.

(2) Upon receipt from the County's custodian of records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

(3) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the County.

(4) Upon completion of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records that would be required by

the County to perform the service. If the Contractor transfers all public records to the County upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of records, in a format that is compatible with the information technology systems of the County.

(5) A request to inspect or copy public records relating to a County contract must be made directly to the County, but if the County does not possess the requested records, the County shall immediately notify the Contractor of the request, and the Contractor must provide the records to the County or allow the records to be inspected or copied within a reasonable time.

If the Contractor does not comply with the County's request for records, the County shall enforce the public records contract provisions in accordance with the contract, notwithstanding the County's option and right to unilaterally cancel this contract upon violation of this provision by the Contractor. A Contractor who fails to provide the public records to the County or pursuant to a valid public records request within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.

The Contractor shall not transfer custody, release, alter, destroy or otherwise dispose of any public records unless or otherwise provided in this provision or as otherwise provided by law.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS, BRIAN BRADLEY AT PHONE NO. 305-292-3470, BRADLEY-BRIAN@MONROECOUNTY-FL.GOV, MONROE COUNTY ATTORNEY'S OFFICE, 1111 12TH STREET, SUITE 408, KEY WEST, FL 33040.

omission of Contractor or any of its employees, agents, sub-contractors, or other invitees, or (C) Contractor's default in respect of any of the obligations that it undertakes under the terms of this Agreement, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the County or any of its employees, agents, contractors, or invitees (other than Contractor). The monetary limitation of liability under this Agreement shall be equal to the dollar value of the contract and not less than $1 million per occurrence pursuant to Section 725.06, Florida Statutes. The limits of liability shall be as set forth in the insurance requirements included in this paragraph. Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

In the event that the completion of the project (to include the work of others) is delayed or suspended as a result of the Contractor s failure to purchase or maintain the required insurance, the Contractor shall indemnify the County from any and all increased expenses resulting from such delay. Should any claims be asserted against the County by virtue of any deficiency or ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

The extent of liability is in no way limited to, reduced, or lessened by the insurance requirements contained elsewhere within this agreement. Failure of Contractor to comply with the requirements of this section shall be cause for immediate termination of this Agreement.

Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program and Transit Security Grant Program, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must comply with the Davis-Bacon Act (40 U.S.C. §§3141-3144, and §§3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. If applicable, the COUNTY must place a current prevailing wage determination issued by the Department of Labor in each solicitation, a copy of which is attached hereto as **Exhibit "C"** and made a part hereof. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The COUNTY must report all suspected or reported violations to the Federal awarding agency.

When required by Federal program legislation, which includes Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program and Transit Security Grant Program (it does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program), the contractors, in contracts for construction or repair work above $2,000 in situations where the Davis-Bacon also applies, must also comply with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The COUNTY must report all suspected or reported violations to the Federal awarding agency.

(1) Contractor. The contractor shall comply with U.S.C. § 3145, and the requirements of 29 C.F.R. Part 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.

Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis-Bacon Act

during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

44.2 **Contract Work Hours and Safety Standards Act** (40 U.S.C. §§3701-3708). Where applicable, which includes all FEMA grant and cooperative agreement programs, all contracts awarded by the COUNTY in excess of $100,000 that involve the employment of mechanics or laborers must comply with 40 U.S.C.§§ 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. §3702 of the Act, each contractor must compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated Damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of 29 C.F.R. §5.5.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject

to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of 29 C.F.R. §5.5.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in 29 C.F.R. §5.5, paragraphs (b)(1) through (4 and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. 44.3 **Rights to Inventions Made Under a Contract or Agreement.** If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 C.F.R. Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

The Clean Air Act (42 U.S.C. §§7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. §§1251-1387), as amended, applies to Contracts and subgrants of amounts in excess of $150,000. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA/Federal agency. The Contractor agrees to report each violation to the COUNTY and understands and agrees that the COUNTY will, in turn, report each violation as required to assure notification to FEMA/Federal Agency and the appropriate EPA Regional Office.

44.5 **Debarment and Suspension (Executive Orders 12549 and 12689).** A contract award under a "covered transaction" (see 2 C.F.R. §180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 C.F.R. ** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 ($15.00) or 13658 ($11.25). Please see the Note at the top of the wage determination for more information.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their

own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at https://www.dol.gov/agencies/whd/government-contracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all

rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

X is not a minority business enterprise, as defined in Section 288.703, Florida Statutes.

F.S. 288.703(3) "Minority business enterprise" means any small business concern as defined in subsection (6)(see below) which is organized to engage in commercial transactions, which is domiciled in Florida, and which is at least 51-percent-owned by minority persons who are members of an insular group that is of a particular racial, ethnic, or gender makeup or national origin, which has been subjected historically to disparate treatment due to identification in and with that group resulting in an underrepresentation of commercial enterprises under the group's control, and whose management and daily operations are controlled by such persons. A minority business enterprise may primarily involve the practice of a profession. Ownership by a minority person does not include ownership which is the result of a transfer from a nonminority person to a minority person within a related immediate family group if the combined total net asset value of all members of such family group exceeds $1 million. For purposes of this subsection, the term "related immediate family group" means one or more children under 16 years of age and a parent of such children or the spouse of such parent residing in the same house or living unit.

F.S 288.703(6) "Small business" means an independently owned and operated business concern that employs 200 or fewer permanent full-time employees and that, together with its affiliates, has a net worth of not more than $5 million or any firm based in this state which has a Small Business Administration 8(a) certification. As applicable to sole proprietorships, the $5 million net worth requirement shall include both personal and business investments. Contractor may refer to F.S. 288.703 for more information.

Response Algorithm

RESPONSE

Review the dispatch information and select appropriate response.

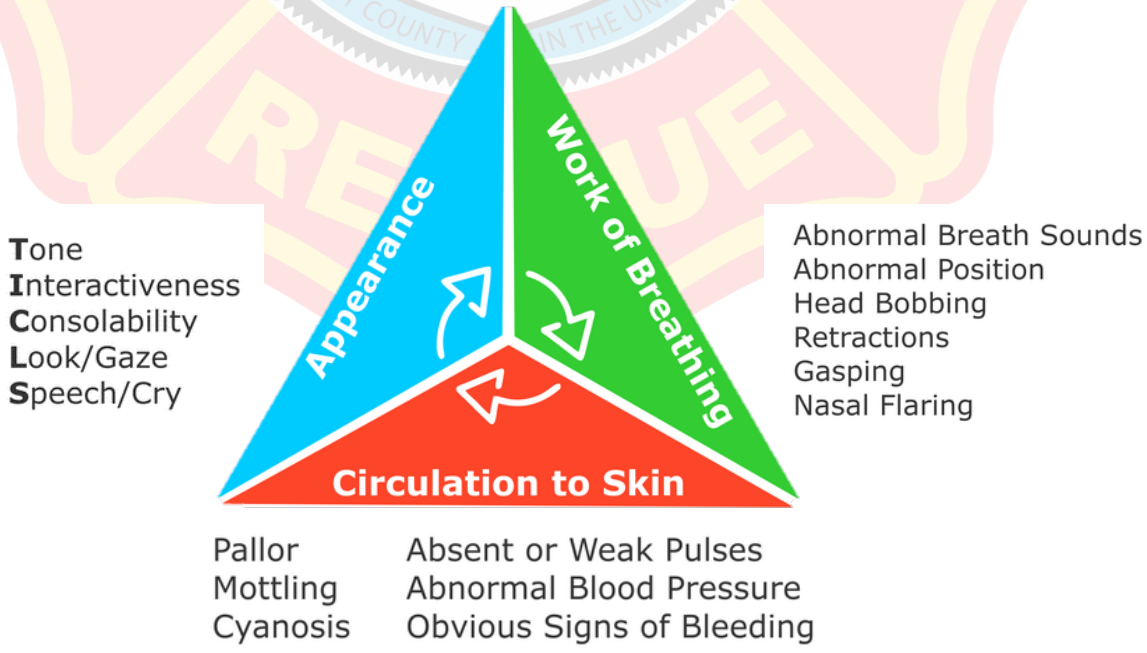
SCENE ARRIVAL AND SIZE-UP

- Consider Body Substance Isolation (BSI)
- Consider Personal Protective Equipment (PPE)
- Evaluate the scene safety
- Determine the number of patients
- Consider the need for additional resources

PATIENT APPROACH

- Determine the Mechanism of Injury (MOI) / Nature of illness (NOI)
- If appropriate, begin triage and initiate Mas Casualty Incident (MCI) procedures.

INITIAL ASSESSMENT



- Correct life-threatening problems as identified
- Stabilize cervical spine when appropriate

MENTAL STATUS (AVPU)

Alert: to person, place, time, and event (AAOX4)
Verbal: responds only to verbal stimuli
Pain: responds only to painful stimuli
Unresponsive

For pediatric patients, consider using the Pediatric Assessment Triangle & Assess patient using the Handtevy System

PEDIATRIC ASSESSMENT TRIANGLE

AIRWAY

- Open and establish airway using appropriate adjunct
- Place patient in appropriate position
- Suction airway as needed, including tracheostomy tubes

Positioning: Head-tilt/chin-lift or modified jaw thrust for suspected spinal cord injury.

Semi-conscious patients with an intact gag reflex: shall have a nasopharyngeal airway inserted, unless contraindicated.

Unresponsive patients without a gag reflex: shall have an oropharyngeal airway inserted, unless contraindicated.

Supraglottic Airway (SGA): If ventilation is required for more than two minutes, an I-Gel should be inserted ***Exception - primary cardiac arrest.***

Recovery position for spontaneously breathing patients: Altered mental status, postictal, suspected drug overdose, etc., if no suspected spinal cord injury.

Suction as needed.

ALS AIRWAY – Paramedic Only

Intubation: Patients who require ventilatory support (and are unlikely to regain consciousness) for more than two minutes should be intubated (or other advanced airway), ***Exception - patients in cardiac arrest.***

Unsuccessful Intubation: If an airway cannot be secured within three ETT intubation attempts, an I-Gel should be inserted.

Surgical Cricothyrotomy: if an airway cannot be secured by any other means, and the patient cannot be effectively oxygenated or ventilated, a surgical cricothyrotomy should be performed on adult patients (or needle cricothyrotomy for pediatrics).

OXYGEN ADMINISTRATION

Except as noted below, oxygen should **ONLY** be administered in order to maintain SpO2 of 94% or 90% for COPD & asthma patients. Do not withhold oxygen if the patient is dyspneic or hypoxic.

Stroke patients shall be treated with a minimum of 2 Lpm NC regardless of pulse oximetry reading. Increase oxygen therapy as needed.

Suspected Traumatic Brain Injury (TBI) patients shall receive 15 Lpm via NRB.

3rd trimester pregnancy trauma patients shall receive 15 Lpm via NRB.

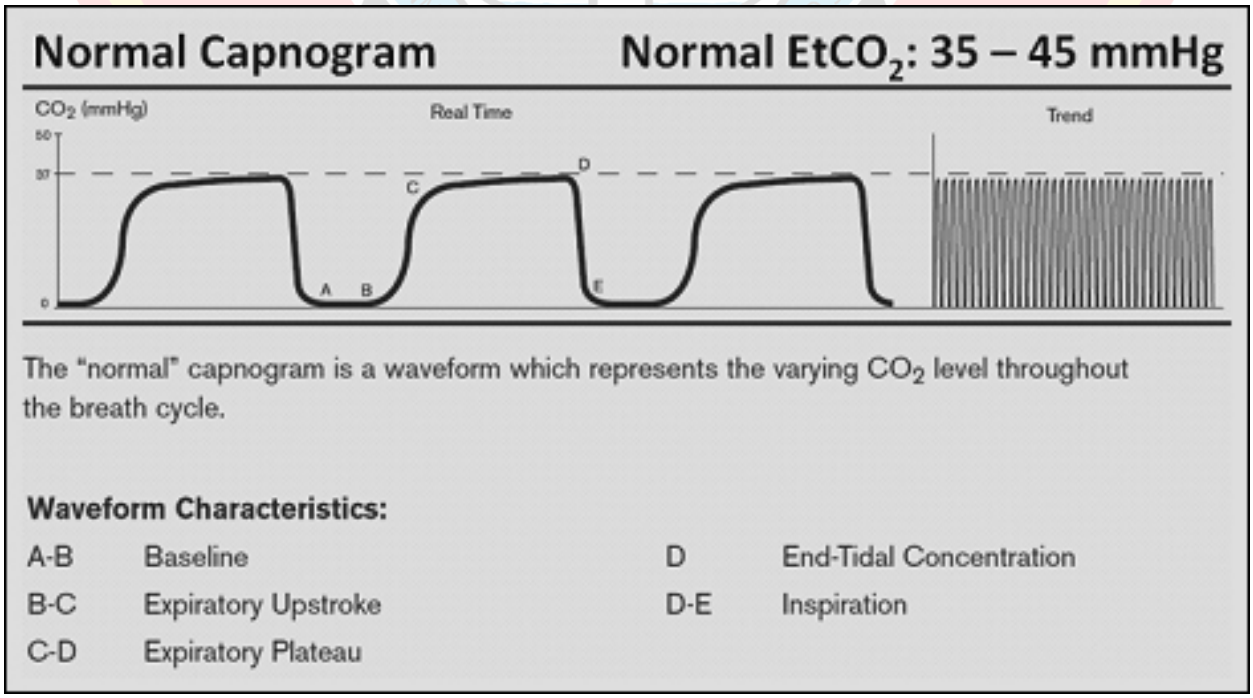
Pulse oximetry should be documented (pre and post oxygen administration) and applied for continuous monitoring on all ALS patients.

If oxygen saturation cannot be maintained, ventilatory support should be provided.

SAO_2 MONITORING

O_2 Saturation Ranges General Patient Care		
94 - 100%	Normal	Give oxygen as necessary
91 - 93%	Mild Hypoxia	Give oxygen as necessary
86 - 90%	Moderate Hypoxia	Give 100% oxygen assisting ventilation if necessary
≤ 85%	Severe Hypoxia	Give 100% oxygen, assist ventilations. If indicated, Intubate
INACURATE OR MISLEADING SpO2 READINGS MAY OCCUR IN THE FOLLOWING PATIENTS: Hypothermic, Hypoperfusion (Shock), Co Poisoning, hemoglobin Abnormality, Anemia, and Vasoconstriction.		

EtCO2 MONITORING



Should be applied to all patients meeting the following criteria:

MANDATORY

- Requiring ventilatory support (ETT, I-gel (SGA), CPAP, etc)

The following patients should be monitored if EtCO2 is available:

- Respiratory distress
- Altered mental status
- Sedated or receiving pain medication (including Ketamine)
- Seizure patients

VENTILATION

- Ventilatory support shall be accomplished via BVM with either an NPA/OPA, I-gel, or ETT intubation.
- The goal is to maintain an SpO2 of 95% and EtCO2 levels between 35-45 mmHg (with the exception of COPD and asthma patients).
- Any patient with a pulse who requires ventilation with a BVM for greater than two minutes, should be intubated **(excluding pediatrics).**
- Endotracheal intubation shall be confirmed by: visualization of the ETT passing through the vocal cords and **continuous EtCO2 monitoring.**

VENTILATORY RATES (BVM)

Adults: 10 breaths/minute **(1 breath every 6 seconds)**

Patients with an advanced airway should be ventilated at a rate of 8-10 breaths/minute **(1 breath every 6-8 seconds)**

Children: 20 breaths/minute **(1 breath every 3 seconds)**

Neonates: 40 breaths/minute

CIRCULATION

Carotid and radial pulse present, assess:

- capillary refill
- skin color, condition and temperature.

Unconscious patients - Apply AED, LifePak, or **Tempus** on all unconscious patients.

Cardiac Arrest patients - Perform continuous chest compressions (CCC) and apply Lucas device (if available) on all cardiac arrest patients and defibrillate as needed.

Infants/children/Neonates: After oxygenation and ventilation of 1 minute for infants/children and 30 seconds for neonates (birth to 1 month), begin chest compressions if the heart rate remains below 60 BPM with signs of poor perfusion (AMS).

ECG MONITORING

All ALS patients shall be continuously monitored in lead II.

Patients who present with any of the following; shall have a 12 lead ECG performed:

- Cardiac or possible cardiac symptoms
- Chest/arm/neck/jaw/upper back/shoulder/epigastric pain or discomfort
- Palpitations

- Syncope, lightheadedness, general weakness, or fatigue
- CHF, SOB, hypertension or hypotension
- Unexplained diaphoresis or nausea

12 lead ECGs shall be repeated every 10 minutes and upon a ROSC

VITAL SIGNS

A complete set of vital signs shall be documented as follows

- Respiratory (rate and quality)
- Pulse (rate and quality)
- Skin (color, condition, and temperature)
- Pulse Oximetry
- Capillary Refill
- Blood Pressure
    - **Priority 3 patients** at least two sets or every 15 minutes
    - **Priority 2 patients** every 5 minutes
    - A blood pressure shall be checked before and 5 minutes after the administration of a drug known to effect blood pressure.
    - For the purposes of these protocols, adult hypotension is defined as a systolic blood pressure less than 90 mmHg.
    - Initially, all blood pressures shall be taken manually. A manual blood pressure should be taken to confirm any abnormal or significant change of an automatic blood pressure cuff reading.

GLUCOSE

A BGL shall be documented for patients with any of the following:

- History of Diabetes
- Altered Mental Status
- General Weakness
- Seizure
- Syncope/Lightheadedness
- Dizziness
- Poisoning
- Stroke
- Cardiac Arrest

ALS

If obstruction is present:

- Flush with Normal Saline and suction PRN.
- If unable to clear obstruction by suctioning, remove tracheostomy tube and insert new tube (same size or one size smaller). **DO NOT FORCE TUBE.**
- If unable to insert new tracheostomy tube or if unavailable, insert endotracheal tube of similar size into stoma and ventilate with bag-valve-device as needed.
- If unable to insert endotracheal tube, ventilate with bag-valve-mask over stoma or over patient's mouth while covering stoma PRN.

Utilize the mnemonic “DOPE” (Disconnect – Obstruction – Pneumothorax - Equipment) to troubleshoot patient needs

Tracheostomies are utilized for:

- Long-term ventilatory support
- Bypass an upper airway obstruction
- Aid in the removal of secretions

Tracheostomies come in a variety of sizes and can be either single lumen or double lumen.

Special attachments include:

- Tracheostomy nose (filtration device)

COLD RELATED EMERGENCIES

Factors that predispose and/or cause a patient to develop hypothermia include: geriatric and pediatric patients, poor nutrition, diabetes, hypothyroidism, brain tumors or head trauma, sepsis, use of alcohol and certain drugs, and prolonged exposure to water or low atmospheric temperature.

Hypothermia patients can be divided into three categories:

- Mild (94-97°F)
- Moderate (86-94°F)
- Severe (<86°F).

Mild to Moderate hypothermia patients will generally present with shivering, lethargy, and stiff, uncoordinated muscles.

Severe hypothermia patients may be disoriented, confused, stuporous or comatose. Shivering will usually stop, and physical activity will be uncoordinated. In addition, severe hypothermia will frequently produce dysrhythmias (i.e. bradycardia, ventricular fibrillation).

ALS

If patient is actively seizing:

- **Versed 5-10 mg IM / IN or 2.5 mg Slow IV may repeat 1x prn**

Glucometer reading **<** 60 mg/dL treat per hypoglycemia protocol

For seizures in 2nd or 3rd Trimester of pregnancy:

- See protocol 7-6 Pre-Eclampsia / Eclampsia

Septic shock is a life-threatening emergency with a mortality rate of 20-70%, which is due to invasion of the bloodstream by gram-negative bacteria and their toxins that result in widespread proteolysis (breakdown of proteins into amino acids). This leads to pathologic activation of the coagulation system, increased capillary permeability and poor venous tone. Resulting in (as with all forms of shock) dangerously depressed peripheral tissue perfusion, circulatory collapse, and death.

Causes: peritonitis due to intra-peritoneal infection, surgical procedures, and trauma, urinary tract infections, skin infections, infected burns, abscesses, endocarditic, and immune system depression.

Symptoms: fever, difficulty breathing, hypotension, tachycardia and altered mental status.
Other associated symptoms may include skin mottling, chills, decreased (or no) urine output and multi-organ dysfunction.

Follow Universal Patient Assessment/Care Protocol as appropriate

BLS

MCFRF – 096 (06/2021)

Follow Universal Patient Assessment/Care Protocol as appropriate

BLS

- Position mother in left lateral recumbent position until delivery
- Prepare warmed infant area: Turn off AC, foil, thick blanket.
- Maternal history
- Due date or last menstrual cycle
- Gravida/Para
- Status of membranes
- Timing of contractions
- Any complications during this pregnancy
- Prenatal care

ALS

Meconium Staining

Meconium will appear as a yellow to dark green substance that may be noted as a greenish tint to the amniotic fluid or a thick dark green substance coming from the vagina or covering the neonate's head.

- If upon delivery of the head there is meconium staining present, use a bulb syringe to clear secretions from the mouth and then nose before delivery of the shoulders.
- Meconium aspirators are rarely needed, however consideration for usage may be given in patients whose airway is obstructed by meconium that cannot be cleared by simpler methods.

CHILD BIRTH PROCEDURES:

- Support infant's head to prevent explosive delivery
- Gently break amniotic sac, if not already ruptured
- If cord is wrapped around neck, attempt to slip over infant's head. If unable to slip over head, place clamps 2" apart and cut between clamps
- Suction mouth first, nose, then pharynx
- Dry infant vigorously, cover head, wrap in blankets and place on mothers' chest or stomach.
- Note time of delivery
- **Delay clamping / cutting cord** until 1-3 minutes after birth, unless the neonate is asphyxiated and needs to be moved immediately for resuscitation.
- Clamp umbilical cord at 6" and 8" from baby and cut between clamps.
- Assess APGAR score at 1 minute and 5 minutes
- Perform infant exam: ensure adequate airway, breathing, maintain warmth
- Assess Mother for vaginal bleeding
- Perform fundal massage: gently externally massage top of uterus at or near umbilicus
- If placenta delivers, retain for hospital
- Reassess mother and infant frequently

All OB patients south of the 7 Mile Bridge will be transported to Lower Keys Medical Center

CHILDBIRTH - LABOR AND DELIVERY

Follow Universal Patient Assessment/Care Protocol as appropriate

BLS

- Due date or last menstrual cycle
- Gravida/Para
- Status of membranes
- Timing of contractions
- Any complications during this pregnancy

ALS

ABNORMAL PRESENTATION or PREMATURE LABOR:
(Between 20-36 weeks gestation)

- To delay birth, fluid bolus 500cc NS
- Transport mother in left lateral recumbent position to appropriate facility

BREECH DELIVERY:

- High flow O_2; supine position with pelvis elevated above the level of her head
- If infant's body delivers and head will not deliver, insert a finger into the infant's mouth and pull the chin to the chest
- Have the mother push and deliver infant

PROLAPSED CORD:

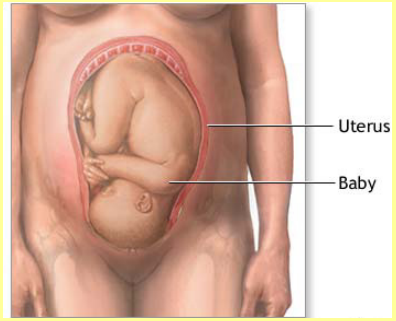
- Place the mother in face down/knee-chest position (dangerous position during transport) or keep her supine with pelvis elevated above the level of her head
- Place gloved hand against infant's head to allow cord perfusion
- Wrap cord in sterile moist bandages

LIMB PRESENTATION:

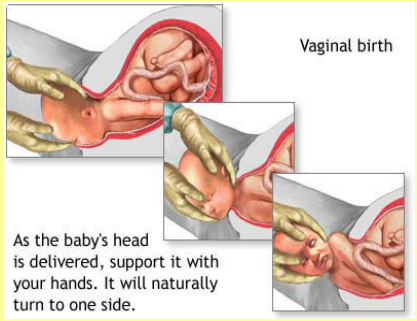
- High flow O_2; supine position with pelvis elevated above the level of her head
- Do not attempt to push limb back into vaginal opening

SHOULDER DYSTOCIA

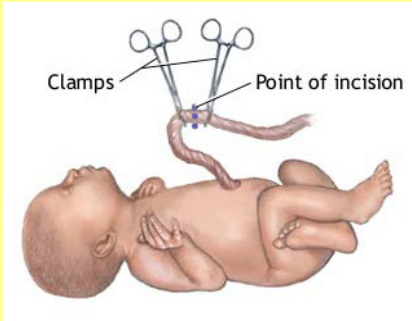
If the infant appears to be moving back into the vagina after several attempts by the mother to deliver the infant.



- Insert 2 gloved fingers into the mother's vagina and down the infant's back, swinging the infant's arm over the head and out the vagina. Repeat with the second arm if necessary

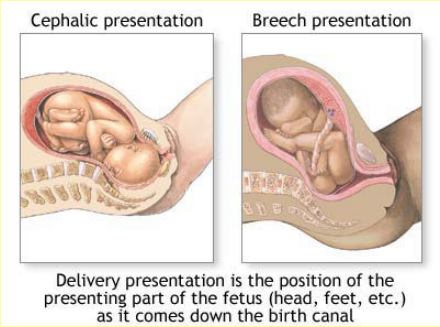


NUCHAL CORD

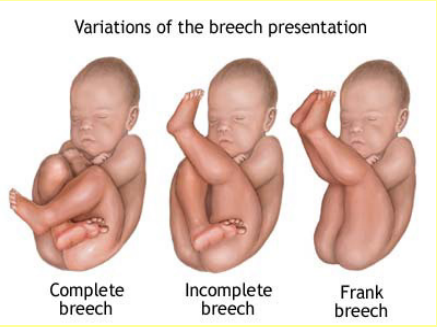


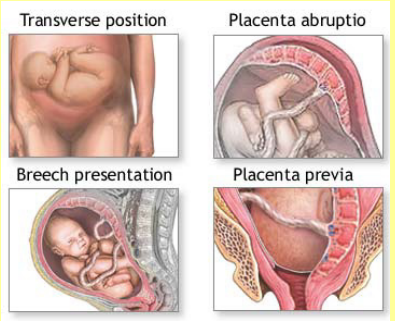
If the cord is around the neck,

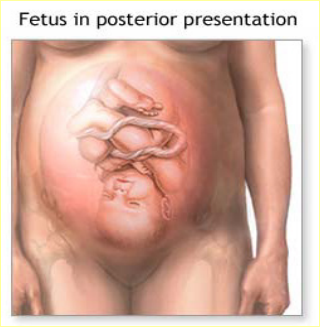
- Gently hook your finger under the loop and pull it over the newborns head. You may have to repeat this if there is more than one loop present.
- If you are unable to free the cord, clamp the cord in two places and cut the cord between the clamps.

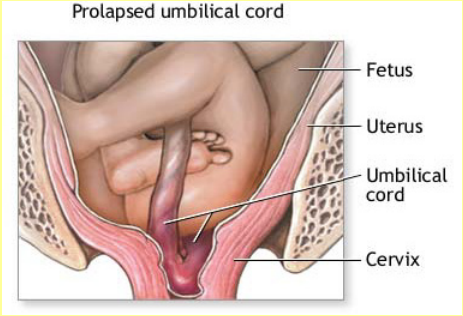


Normal vaginal delivery:

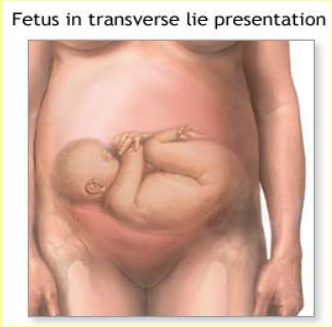








Other delivery presentations:



First Trimester: Conception to 12 weeks Second Trimester: 13th week - 28th week Third Trimester: 28th week until birth

Follow Universal Patient Assessment/Care Protocol as appropriate

- Trendelenburg if patient can tolerate
- Apply a multi Trauma dressing to vaginal area to absorb bleeding

ALS

- Large Bore IV x 2, if possible

Refer to the color-coded Trauma Scorecard Methodology:

PEDIATRIC TRAUMA CRITERIA: FOR ≤ 15 YRS OLD

- Meets color-coded triage system for **1 RED** or **2 BLUES**
- Patient does not meet any of the trauma criteria on the Trauma Score Card, but in the judgment of the EMT or Paramedic, should be transported as a Trauma Alert

WHEN CALLING A TRAUMA ALERT DISPATCH SHOULD BE NOTIFIED OF THE FOLLOWING:

- Launch Helicopter
- MOI (Mechanism of Injury)
- LZ location
- Patient Weight
- The medic shall document the trauma alert on a Monroe County Fire Rescue Pediatric Trauma Alert Form (MCFRF-097) and turn it over to the receiving facility or transporting unit per Florida Chapter 64J-1.014

When calling a Trauma Alert based on paramedic judgment, use assessment findings such as deep palpation of chest and abdomen: findings such as pain, tenderness guarding or rebound tenderness are suggestive of blunt trauma with occult bleeding.

Paramedic Only: To Be Performed on children < 12 years of age

Equipment Needed: BVM, ETCO² detector, oxygen, 1'' tape, Pediatric Cric Kit, suction unit, stethoscope

Performed as a last resort effort to establish a patent airway in patients who have an obstructed airway secondary to foreign body, infection, trauma, severe inflammation or allergy and when other airway procedures have failed or are futile.

If landmarks cannot be identified, DO NOT ATTEMPT PROCEDURE AND CLEARLY DOCUMENT SUCH

- Hyperextend the patient's neck (unless there is a cervical spine injury) and locate the cricothyroid membrane.
- Prep the area with an alcohol prep
- Direct the IV catheter at a 45-degree angle toward the feet and Insert the IV catheter through the skin and cricothyroid membrane into the trachea.
- When the needle penetrates the trachea, a "pop" will be felt.
- Aspirate wit the syringe. If air is returned easily, the needle is in the trachea.
- Withdrawal the needle while gently advancing the catheter downward into the position.
- Attach the 15-mm adaptor to the catheter hub.
- Ventilate the patient with a pediatric BVM device and provide high flow oxygen.
- Confirm placement
- Attach an $ETCO_2$ monitoring device
- Listen for positive bilateral breath sounds

Remember that your Inspiratory to Expiratory (I.E.) ratio will need to change to allow proper exchange.

- Select proper ET tube <u>without</u> stylet, test cuff and prepare suction;
- Lubricate the distal end cuff of the ETT and the distal ½ of the BOUGIE;
- Using laryngoscopic techniques, visualize the vocal cords if possible using Sellick's as needed;
- Introduce the Bougie with curved tip anteriorly and visualize the tip passing the vocal cords or above the arytenoids if the cords cannot be visualized;
- Once inserted, gently advance the BOUGIE until you meet resistance or "hold-up" (if you do not meet resistance you have a probable esophageal intubation and insertion should be reattempted)
- Withdraw the BOUGIE only to a depth sufficient to allow loading of the ETT while maintaining proximal control of the Bougie;
- Gently advance the Bougie and loaded ETT until you have "hold-up" again, thereby assuring tracheal placement and minimizing the risk of accidental displacement of the BOUGIE;
- While maintaining a firm grasp on the proximal BOUGIE, advance the ETT over the BOUGIE, passing the ETT to its appropriate depth

ALS

Equipment needed: 14 gauge 3¼ catheters, 20cc syringe, betadine, 3 way stop cock, 2'' tape. Stethoscope

- Determine affected side of chest
- Locate insertion site: 2nd ICS anterior mid-clavicular line
- Prep with alcohol
- Attach catheter to syringe and draw back on syringe to break seal and then restore plunger to original position
- Insert catheter using a 90-degree angle, "just above 3rd rib"
- Begin negative pressure on the syringe: a rush of air indicates a tension pneumothorax
- Disconnect the syringe and remove needle
- Place 3 way stop cock on catheter: if tension pneumothorax redevelops, briefly turn valve to relieve trapped air
- If syringe fills with blood on decompression, withdraw needle and stabilize catheter, monitor for hypotension
- Secure catheter with tape

Diagnostic bilateral pleural decompressions should be performed on trauma arrest patients

CPAP ASSEMBLY WITH NEBULIZER

EMT / Paramedic

Indications:

- Any patient in respiratory distress with S/S of COPD, Asthma, CHF, pulmonary edema, pneumonia
- Is awake and able to follow commands with the ability to maintain an open airway
- > 12 years old and have a proper mask fit

Contraindications:

- Respiratory Arrest
- Pneumothorax or chest trauma
- Actively vomiting or upper GI bleed
- Seizures
- Inability to cooperate or tolerate. Severe asthmatic patients may not be able to tolerate due to the difficulty of exhalation.

Procedure:

- Check all O_2 equipment before starting CPAP, make sure enough oxygen is available and all equipment is connected properly
- Continuously monitor pulse ox, if available
- Place patient in comfortable position (usually sitting upright), discuss the procedure and reassure them
- Connect CPAP unit to oxygen quick disconnect
- Apply mask to patient's face first, allowing the patient to adjust to the mask
- Adjust head strap to secure a tight fit on patient's face
- Adjust the air pressure on PEEP valve to appropriate level:
  - **Asthma/COPD: 5cm**
  - **CHF: 10cm**
- Continually monitor patient comfort and improvement and check for air leaks
- Contact receiving facility as early as possible to ensure that respiratory will have Bipap available for transfer of patient
- Albuterol can be given in-line with CPAP if needed. (see diagram on next page)

Special things to consider:

- If BP falls < 100 or mental status deteriorates, discontinue CPAP, assist ventilations and prepare for intubation
- CPAP therapy should be continuous and not removed unless patient is unable to tolerate

Procedure may be performed on patient with DNRO

CPAP CONCEPTS

Paramedic Only:

Equipment Needed: BVM, ETCO² detector, oxygen, 1'' tape or endo-lock, Surgical Cric Kit, suction unit, stethoscope

Performed as a last resort effort to establish a patent airway in patients who have an obstructed airway secondary to foreign body, infection, trauma, severe inflammation or allergy and when other airway procedures have failed or are futile.

If landmarks cannot be identified, DO NOT ATTEMPT PROCEDURE AND CLEARLY DOCUMENT SUCH

- Locate the cricothyroid membrane.
- Prep the area with an alcohol prep
- Using a scalpel, make a small light vertical incision (1-2cm) through the superficial tissue
- Using hemostats spread the tissue
- Make another light incision and using hemostats, spread the tissue
- Continue lightly incising and spreading the tissue until the cricothyroid membrane is exposed. Normally 2-3 sequences
- Make a small transverse incision through the membrane
- Insert a cuffed 5.5 or 6.0 ET tube through the incised membrane using hemostats to facilitate passage
- Advance the ET tube 1-3cm and secure
- Assure bilateral lung sounds.
- Confirm placement and patency with $ETCO^2$

Do not perform in children < 12 years old. The cricothyroid membrane is too small and underdeveloped

For Children < 12 years old: See procedure 8P-1 Cricothyroidotomy – Needle Pediatric

Paramedic Only

Equipment Needed: OPA or NPA, BVM, oxygen, appropriate size endotracheal tube, stylette, 20cc syringe, stethoscope, $ETCO^2$ detector, suction and laryngoscope blade and handle, endo-lock

Use the 3-3-2 rule (conscious patients) for the airway to estimate the likelihood of success; the first look is the best look. Pre-oxygenation gives you the time to gently look.

Place patient on a Nasal Cannula @ 4-6 lpm during intubation, for passive oxygenation to delay hypoxia.

- Attach pulse oximeter and have suction readily available
- Perform appropriate BLS airway maneuver to open the airway
- Head tilt chin lift or jaw-thrust maintaining inline stabilization
- Insert oropharyngeal airway and/or nasopharyngeal airway
- Pre-oxygenate with BVM 15-lpm O_2 at a rate of 10-12 per minute
- Using the laryngoscope, insert ET tube with direct visualization of the vocal cords
- **YOU MUST SEE ET TUBE PASS THROUGH THE VOCAL CORDS**
- Inflate the cuff: be sure to test the integrity prior to insertion
- Auscultate epigastric area to confirm no sounds present
- Auscultate lung sounds bilaterally:
- If breath sounds absent, withdraw ET tube and re-oxygenate
- If left breath sounds absent, withdraw the ET tube slightly and auscultate again
- If bilateral breath sounds present, secure ET tube and record cm depth at lips
- Attach $ETCO^2$ detector, square waveforms should appear on the monitor: **pulse ox should improve, and chest should rise with insuflation**
- Upon arrival to the ED, immediately print out $ETCO^2$ waveform and have the receiving ER physician confirm tube placement and document the name of the physician on your ePCR narrative.

Paramedic

Equipment Needed: IV catheter, IV solution and tubing, veniguard, and alcohol prep

- Place patient in supine or Trendelenberg position
- Turn patients head opposite side of access: the right jugular vein is preferable to the left
- Cleanse the site with alcohol and betadine
- Occlude venous return by placing finger on the external jugular just above the clavicle
- Point catheter at the medial third of the clavicle and insert it bevel up at a 10-30-degree angle
- After good flash is seen, advance catheter, remove needle and connect IV tubing
- If patency is questionable, attach a 10cc syringe to the catheter and aspirate a small amount of blood
- Carefully secure with veniguard
- Continuously monitor IV site to assure patency

Equipment Needed: EZ-IO driver and appropriate needle, alcohol prep, NS with drip set, 10cc syringe, EZ-IO connector tubing, pressure infuser and 2'' tape

Indications: For the administration of fluids or medications in patients in traumatic or cardiac arrest, or patients severely unconscious and hemodynamically unstable in which a peripheral IV cannot be established

Contraindications:

- Fractures to the site
- Excessive tissue at insertion site
- Inability to locate landmarks for proper placement

Select appropriate needle:

- Pediatric (Red 15mm): 3-39 kg (if child has excessive tissue, adult needle may be used)
- Adult (Blue 25mm): > 40 kg
- Large Adult (Yellow 45mm)

Location Humerus - This is the preferred site for patients who are responsive to pain.

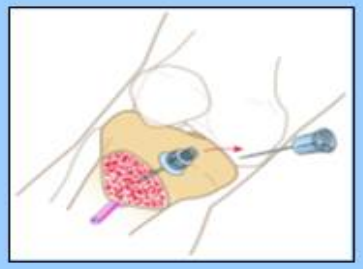
- Located directly on the most prominent aspect of the greater tubercle.
- Ensure that the patient's hand is resting on the abdomen and that the elbow is adducted (close to the body) and the humerus is internally rotated.
- Slide thumb up the anterior shaft of the humerus until you feel the greater tubercle, this is the surgical neck. Approximately 1-2 cm **above the surgical neck is the insertion site**. (depending on patient anatomy)
- Once the insertion is completed secure the arm in place to prevent movement and accidental dislodgement of the IO catheter.

Proximal Humerus – permitted in pediatrics when landmarks are clearly identified

Location Tibia

- Locate landmarks: identify patella, approximately 2 finger widths below patella is tibial tuberosity, then 1 finger width medial is the final landmark

Procedure:



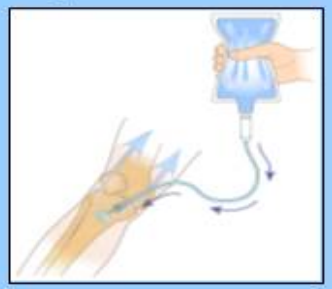
- Clean site with Alcohol prep
- Stabilize site and power the needle set through the skin at a 90 degree angle to the surface of the bone until you feel the needle set tip encounter the bone itself **The 5mm mark on the catheter (mark closest to the flange) should be visible, If 5mm mark not visible abandon the procedure, the needle is not long enough**
- Apply firm and steady pressure. Stop when the flange touches the skin or sudden decrease in resistance is felt
- Remove the driver from needle set and withdraw Stylet from catheter
- Attach primed EZ-IO extension tubing and confirm placement with fluid bolus:
  Failure to flush will result in no flow: Adults: 10cc fluid bolus **Pediatrics: 5cc fluid bolus**
- Secure tubing and catheter with EZ-IO stabilizer or tape and document time of insertion, as the EZ-IO is only good for 24 hours

Pressure infuser may be used to maintain adequate flow

Locate Landmarks

Clean insertion site

Power driver through the cortex



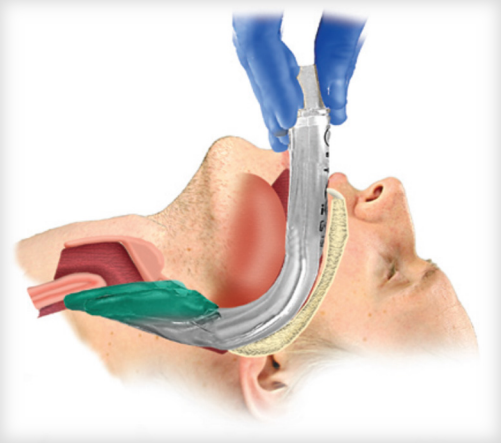
Remove needle

Attach extension tubing and FLUSH

Pressure infusion for adequate flow rates

No Flush = No Flow

In the unlikely event of a driver failure consider manual insertion



EZ IO LANDMARKS

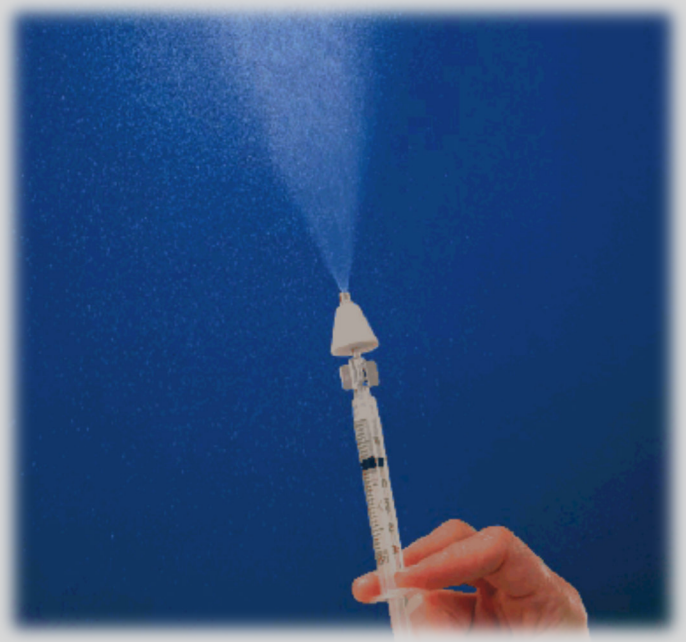
I-GEL DEVICE

COMING SOON – PLACE HOLDER



1. **Initiate first 2 minutes of Continuous Chest Compressions (CCC) Rate - at least 100 /min .**
   Simultaneously
   a. Place combo pads and 4 leads on patient and power on LifePaK monitor.
   b. Deploy Lucas Device, push ON/OFF button (1) for one second to power up and self-test
2. After 2 mins, Pause CCC, 5-10 seconds only, check monitor for rhythm. (Shock if indicated)
3. Rescuer on each side of patient lifts the upper body while supporting the head, slides the back plate just below the armpits. Resume CCC.
4. Hold the LUCAS device by the handles on the support legs making sure the support legs have reached their outer position and that the release rings on claw locks are open.
5. Pause manual chest compressions (less than 10 secs) and secure the upper part of the LUCAS device over the patient's chest. The claw locks at the end of each support leg should be aligned with the back plate to lock the components together. Listen for the CLICK when attached. (Check by pulling upward that both support legs are locked into the back plate).
6. Center the suction cup over the chest with the lower edge of the suction cup placed immediately above the end of the sternum.
7. Push ADJUST MODE button  , green LED will illuminate. Then using two fingers push the suction cup down, (The pressure pad should touch the patient's chest. If pad does not touch or Lucas device does not fit properly, remove and continue manual compressions)
8. Press PAUSE (2)  to lock the start position then remove your fingers from the suction cup.
9. Check for proper position and press ACTIVE (3)  continuous compressions (we will not be using 30/2 mode)

10. **Secure the airway with an I-Gel** and begin ventilations.
    The I-gel should be your first airway of choice on a Cardiac arrest and is not a priority over compressions and shocking but should be accomplished as soon as possible and prior to ventilations.
11. Press PAUSE to stop compressions every 2 mins. to analyze rhythm and shock if indicated.(Keep interruptions to a minimum)
12. You should continue to work your cardiac arrest patient per current protocol until you have ROSC or until you have worked it for a minimum of 20 minutes with no indication of positive results.
13. Follow guidelines set forth in "**Termination of ACLS in the Field Protocol"**
14. If patient is to be transported begin packaging your patient.
15. Attach stabilization strap by fully extending the buckles and placing cushion behind patient's neck then fasten cushion to Lucas device and tighten the straps.
16. Attach the wrist straps to each of the patient's wrists to assist with securing the arms during movement/transportation. Assure that the intravenous site is not compromised.
17. After successful resuscitation or termination of activities, Press and hold the ON/OFF button for one second.

Equipment Needed:

- Syringe
- Nasal Atomizer

Indications:

- Nasal Administration of medications

Contraindications:

- Epistaxis
- bilateral blocked nares

Procedure:

- Patient may be sitting or supine
- Administer medication via nasal atomizer device with 1cc or 3cc syringe
- Prime with 0.1cc to account for atomizer 'dead space'
- Apply to nare in one rapid push, aiming syringe toward lateral aspect nare
- Split dose between nares if total volume >1cc

Paramedic Only:

Nasotracheal intubation may be necessary if:

- I-Gel is not accepted or possible
- Difficult airway with bleeding and obscured hypopharynx
- Jaw fracture with unstable airway and unable to control patient secretions

Pre-oxygenation is particularly important for a few minutes to get the pulse ox up and buy some time if this airway is to be attempted safely. Recognize that the majority of NTI attempts will not succeed on the first time. About 25% of the cases are impossible to NTI. NTI requires smaller tube sizes than oral tracheal intubation

Contraindications:

- combative patients
- those with anatomically disturbed airways
- those with neck hematomas
- in cases of increased intracranial pressure
- in the context of severe facial & head trauma
- upper airway infection or abscess.
- in the presence of bleeding disorders

Equipment Needed: NPA, BVM, oxygen, appropriate size endotracheal tube, stethoscope, ETCO² detector, pulse ox, BAAM, K-Y jelly, suction, 1'' tape

- Pre-oxygenate patient and have suction readily available
- Select an appropriately sized nasopharyngeal airway and generously lube with K-Y jelly
- Insert lubricated nasopharyngeal airway
- Next, select appropriate size ET tube (usually 6.0-7.0) and prepare for insertion by checking cuff integrity, lubricating with K-Y jelly and attaching BAAM
- **DO NOT USE A STYLETTE**
- Place the pt's head in a neutral position
- Remove the nasopharyngeal airway and insert the ET tube perpendicular to the patient's face with the bevel facing the nasal septum following the curve of the Nasopharynx
- Gently advance the ET tube during inspiration until the distal cuff is just past the vocal cords.
- A rush of air should be heard and felt as the tube passes through the cords or the BAAM® should whistle loudly. If the trachea is entered, a series of long-wheezy coughs will usually emanate from the patient.
- Confirmation of tube placement should immediately be sought with ETCO².
- Inflate the cuff with 5-10cc air
- Ventilate the tube, checking for bilateral breath sounds and absent epigastric sounds
- Secure ET tube and reconfirm placement
- If breath sounds are diminished pull the ET tube back slightly and reposition head and insert ET tube again on inspiration
- Continuously monitor ETCO² and pulse oximeter to confirm the placement and patency

If the trachea is not entered

- The tube will either slide easily down the esophagus;
- Or will come to an abrupt halt as it tries to pass anterior to the vocal cords or abuts against the anterior wall of the larynx

NASOTRACHEAL INTUBATION

Paramedic Only:

Equipment Needed: Appropriate size NG Tube, 60cc syringe, K-Y jelly, 1" tape, stethoscope, suction

- An 18 fr. NG tube is preferred for all adult patients
- Measure the tube from the tip of the patient's nose around his ear and then to the bottom of his xyphoid process
- Mark the tube with tape at the nose to maintain appropriate length
- Lubricate the tip tube with K-Y jelly
- Insert the tube into the nostril and gently pass it into the posterior pharynx. If the patient is able, instruct them to swallow as you advance the tube. The patient may gag.
- Allow the patient to rest for a few moments and continue to insert until marked depth is reached

Confirm the correct placement of the tube:

- With 60cc syringe aspirate stomach contents. Be sure to replace stomach contents once confirmed.
- Insert 60cc of air and simultaneously auscultate over the stomach with a stethoscope
- Secure the tube to the nose with tape
- Connect the end of the tube to suction on low
- If you pass the tube into the trachea, pt will have difficulty talking. If this occurs, remove tube immediately.

This procedure should not be attempted if there are facial injuries or head trauma!

Equipment Needed: Long backboard, 4 immobilization straps, head stabilization device, and cervical collar

Adults

- Determine need for spinal precautions
- Assure and maintain manual c-spine immobilization
- Assess pulses, motor and sensation of the extremities
- Apply appropriately sized C-collar and long backboard
- Fill voids with paddings/towels
- Apply 4 straps using the cross-strap technique
- Apply head stabilizing device
- Reassess pulses, motor and sensation after immobilizing patient
- Do not strap the patient directly over the abdomen

Strap the patient to the backboard before securing the patients head

Pediatrics

- Apply appropriate size c-collar
- Pad under the shoulders using pillow cases or towels to prevent flexion of the spine
- Utilize the pediatric immobilization device if patient fits properly
- Secure to long backboard

Pregnant Patients

- Immobilize as above and tilt the backboard left lateral recumbent to a 30-degree angle
- Assure patient comfort

The KED may also be used in clinically stable adult patients

Paramedic Only:

Hemodynamically unstable, unconscious or decreased mental status, hypotension, dyspnea, chest pain

If possible, sedate with

Ketamine 1mg/kg

OR

Versed 2.5 - 5 mg IV (up to 10 mg max)

Adult Biphasic:

- Synchronized Cardioversion 50 joules, if unsuccessful
- Synchronized Cardioversion 100 joules, if unsuccessful
- Synchronized Cardioversion 150 joules, if unsuccessful
- Synchronized Cardioversion 200 joules, if unsuccessful repeat subsequent shocks at 200 joules

Pediatric

- Initial 0.5 joules per kg, subsequent shocks at 1 joule per kg

If patient's rhythm converts, then re-enters dysrhythmias, repeat Cardioversion at last joule setting administered

Equipment Needed: Combat Application Tourniquet C-A-T

Indications: Life threatening extremity hemorrhage that can not be controlled by other means. Serious or life-threatening extremity hemorrhage and tactical considerations prevent the use of standard hemorrhage control techniques

Contraindications:

- Non-extremity hemorrhage
- Proximal extremity location where tourniquet application is not practical

1. Establish a need for a tourniquet meeting the above criteria.
2. Remove the C-A-T from the trauma bag and carrying pouch.
3. Open the C-A-T completely and apply to injured extremity (Adult: **>** 40 kg)

Procedure:

- Route the self-adhering band around the injured extremity and pass the free-running end of the band through the inside slit of the friction adaptor buckle.
- Pass the band through the outside slit of the buckle utilizing the friction adaptor buckle which will lock in place.
- **Position the C-A-T above the wound; leave at least 2 inches of uninjured skin between the C-A-T and the wound.**
- **Pull the free running end of the Self-Adhering band tight and securely fasten it back on itself (if applying to an arm wound). Do not adhere the band past the Windlass Clip. If applying to a leg wound, the Self-Adhering Band must be routed through both sides of the friction adaptor buckle and fastened back on itself. This will prevent it from loosening when twisting the Windlass Clip.**
- **Twist the Rod until bright red bleeding has stopped. When the situation permits insure the distal pulse is no longer palpable.**
- Lock the Rod in place with the Windless Clip.
- Secure the Rod with the strap, grasp the Windless Strap, pull it tight, and adhere it to the opposite hook on the Windless Clip.
- Must note the time applied and communicate it with the Flight crew or the receiving facility upon arrival.
- Dress wounds as per standard wound care procedures.

Paramedic Only:

- Apply Combo pads to patient's chest: Apply first pad to anterior right chest, just below clavicle and second pad to lower left lateral, mid axillary, or anterior / posterior.
- Connect the multifunction cable to the extremity leads

Sedate the patient as needed with:

Ketamine 1 mg/kg slow IV

Or

Versed 2.5 - 5mg IV

- Print an ECG rhythm strip prior to pacing
- Turn on the external pacer and set the rate at 60 beats per minute
- Turn milliamps to lowest amount and slowly increase until electrical capture is noted

Electrical capture is noted when each pacer spike is followed by a wide R wave

- If electrical capture is achieved, check central pulses at the femoral and carotid
- **If palpable pulses are present, mechanical capture has been achieved and pacing is successful**
- If both electrical and mechanical capture have **not** been achieved, pacing should be discontinued and the need for chest compressions assessed
- If pacing has been successful the patient's mental status, perfusion and blood pressure should improve
- Maintain pacing until ED is fully prepared to assume pacing efforts for the patient

It is imperative to have correct placement of pads and good contact to the chest wall to successfully pace

Paramedic

DESCRIPTION:

- The Para PAC "medic" is timed-cycled and offers ventilatory rates from 8-40 Breaths per Minute (BPM).
- The patient valve will allow between 6 LPM (min. setting) to 60 LPM (max. setting) by spontaneous effort by the patient.
- The unit is also designed to deliver between 65 and 1570 ml of Tidal Volume (to within +/- 15%).
- The Para PAC is equipped with an automatic alarm that will alert the attendant should ventilatory pressures exceed 40 5 cm HO or if the ventilator is not cycling correctly and does not rise through the pre-set level of 10cmH2O.
- The system operates exclusively on the source gas (O^2) allowing specific concentrations of Oxygen to be maintained.

INDICATIONS:

1. Designed to provide ventilatory assistance in the pre-hospital setting to persons in respiratory distress or arrest.
2. Also for treatment of victims in rescues from toxic or non-respirable atmospheres as it offers the choice of 100% oxygen demand or ventilatory back up to the patient while normal breathing is being restored.

CONTRAINDICATIONS:

No contraindications but is NOT recommended for use on patients that weigh less than 5kg.
Prior to use, check patient's throat and mouth for obstructions (vomitus, foreign matter, broken teeth or dentures, etc.)

CAUTION: Close monitoring and caution should be used if patient has history of C.O.P.D. (e.g. Emphysema, Asthma), Chest or Barometric Trauma.

PATIENT USE

1. Connect supply hose probe to O^2 source. Turn O^2 supply on.
2. Check that the visual alarm for supply gas failure has changed from red to white
3.. Turn main pneumatic switch to "On". Check that the alarm indicators flash in sequence, to indicate correct function.
4. Set ventilation parameters to suit the patient.
5. Apply facemask to patient, ensuring that the airway is free – or connect patient valve to endotracheal tube or other airway adjunct.
6. Check chest movement and Inflation Pressure Manometer to ensure correct ventilation.
9. Check that the green cycle indicator light flashes during each inflation as pressure rises
7. If chest does not rise or is inadequate check airway and evaluate for thoracic injuries. Re-check Tidal Volume setting and re-set to appropriate setting if necessary.
8. Monitor patient End Tidal CO_2 during usage. Monitor Lung sounds every 5 minutes.

NOTE: If pressure alarm sounds and adequate chest rise does not occur, an increase in airway resistance, blocked airway or stiff lung is indicated. Increase the Tidal Volume and observe for adequate chest rise, if this does not occur remove the unit from the patient and reevaluate the airway.

Paramedic

RELIEF/ALARM PRESSURE CONTROL

1. This rotary knob gives continuous adjustment of the maximum patient inflation pressure by setting the relief valve spring loading.
2. It is calibrated to facilitate initial setting, but as the peak pressure will also have some dependence upon the other parameters the inflation pressure monitor should always be used as the final reference.
3. This alarm will sound whenever the pressure exceeds the pre-determined setting. (40cm H_2O is recommended as an initial setting) adult (CPR).

FREQUENCY CONTROL

1. This calibrated rotary control knob gives simultaneous continuous adjustment of the frequency of ventilation over the range 8 to 40 breaths per minute. It does this by varying both inspiration and expiration time in such a way that the inspiration time is limited to within the range 1.0 to 1.5 seconds when the frequency is between 12 and 20 breaths per minute; so as to give the correct ventilation patterns for CPR and rescue breathing in
2. There is a heart symbol at 12bpm to aid in the recommended setting for adult (CPR).

TIDAL VOLUME

1. This rotary control knob gives continuous adjustment of the flow to the patient over the range 6 – 65 liters per minute.
2. For ease of use in the emergency situation, it is calibrated in terms of tidal volume.

AIR MIX CONTROL

1. This knob operates a rotary two-position switch to select the “Air Mix” or “No Air Mix” mode. In the “No Air Mix” position the gas supplied to the ventilator is passed undiluted to the patient whether this is 100% oxygen or compressed air. Example: with a 2.7 L”D” size cylinder will last 52 minutes with a setting of 800mL of Tidal volume at 12 bpm delivering 100% O^2.
2. In the “Air Mix” mode the ventilator uses a high efficiency entrainment device to mix ambient air with the supply gas in the ratio of approximately 2:1. When supplying oxygen, this means that a mixture containing 45% oxygen is generated and supplied to the patient. Example: with a 2.7 L”D” size cylinder will last 150 minutes with a setting of 800mL of Tidal volume at 12 bpm delivering 100% O^2 in “Air Mix” mode.

PATIENT VALVE ASSEMBLY

1. The patient valve assembly (PVA) directs the flow from the ventilator into the lungs during the inspiratory phase and allows expiration to the atmosphere.
2. The connection to the patient is by means of standard ports of 15/22 mm I/O diameter adapters for use with ventilatory adjuncts.
3. The patient valve will allow for spontaneous ventilation by a patient with an inspiratory effort of –2 cm H_2O.
4. The yellow rubber disc covering the port serves as a non-return valve to ensure the patient always inspires from the ventilator and not directly from the atmosphere through this port.

Important: The King Vision Display must be "OFF" before attaching a blade; otherwise, the video image will become distorted. If this happens, simply turn the Display "OFF" then back "ON".

Install the Display into the Blade

Only goes together one way, listen for a "click" to signify that the Display is fully engaged with the Blade.
Note that the front and back of the parts are color-coded to facilitate proper orientation.

Channeled Blade

The size #3 (Adult) Channeled blade is designed to be used with standard ETT sizes 6.0 to 8.0. **No stylet is needed.**

- Lubricate the ETT, the guiding channel of the Channeled Blade and the distal tip of the Blade using a water soluble lubricant. Take care to avoid covering the imaging element of the blade with lubricant.
- The ETI may be preloaded into the guiding channel with its distal tip aligned with the end of the channel. Note that the ETT tip should not be evident on the screen when loaded properly.

Standard Blade - same procedure as a standard Macintosh blade

Power on the device - Power button is on the back of the King Vision Display.

- The King Vision Display should turn "ON" immediately AND the Display should show a moving image.
  If the LED Battery indicator light in the upper left hand corner of the King Vision Display is FLASHING RED, the battery life remaining is limited

Insertion of King Vision Blade into the Mouth

- Open the patient's mouth using standard technique.
- If excessive secretions/blood present, suction the patient's airway prior to introducing the Blade into the mouth.
- Insert the blade into the mouth following the midline. Take care to avoid pushing the tongue toward the larynx.
- Use an anterior approach toward the base of the tongue. Watch for the epiglottis and direct the Blade tip towards the vallecula to facilitate visualization of the glottis on the Display. The King Vision Blade tip can be placed in the vallecula like a Macintosh blade or can be used to lift the epiglottis like a Miller blade. For best results, center the vocal cords in the middle of the Display..
- If the lens becomes obstructed (blood/secretions), remove the blade from the patient's mouth and clear the lens.

ETT Insertion

- After you can see the vocal cords in the center of the King Vision Display, advance the ETT slowly and watch for the cuff to pass through the vocal cords. Note that minor manipulation of the blade may be needed to align the ETT tip with the vocal cords.

The most common issue associated with ETT placement with any video laryngoscope is that the blade tip has been advanced too far; there may be a good close-up image of the vocal cords, but the ETT cannot be advanced because the blade/camera is obstructing ETT passage.

For all calls where a basic or advanced life support unit is dispatched in response to activation of the 911 system, upon making patient contact obtain clear consent for treatment. A competent adult has the right to refuse any medical care but must read or have read to them the appropriate release form and then sign the refusal in the presence of a responder. Contact Law Enforcement if patient or crew safety is potentially at risk.

Determination of Medical Competency to Refuse

Indications:

- For all calls where a basic or advanced life support unit is dispatched in response to activation of the 911 system, where a patient is identified, all patients will be offered transport to the nearest appropriate hospital.
- The only patients authorized to not be transported to a hospital are patients who execute a complete Release form in accordance with the refusal protocol stated below.

Procedure:

Obtain history from the patient and/or other persons in the area.

Obtain and record:

- At least one set of vital signs for each patient (if unobtainable, provide complete explanation in report)
- Any improvement from initial complaint (e.g. improved blood glucose)
- Perform a physical exam
- Record the patient is awake and oriented to person, place, time, and events;
- Assess for any trauma or medical illness that may represent a threat to well-being of the patient or alter their ability to make decisions (hypoxia, hypoglycemia, prior stroke, or other neurologic disability);
- Assess for psychiatric illness (suicidal/homicidal behavior, hallucinations, delusions);
- Assess for the presence of a toxic ingestion or exposure to such substance as alcohol, drugs, medications such as narcotics, and benzodiazepines, or carbon monoxide.
- Assess the competency of the patient.

For EMS purposes, a competent patient shall be defined as one whom:

- Is 18 years of age or older or an emancipated minor

An emancipated minor is a person under the age of 18 whom meets one of the following criteria:

- Is female, unmarried, and has a minor child, or
- Is enlisted in military service, or
- Has been declared emancipated by court order

And meets ALL the following criteria:

- Is awake, alert, fully oriented to time, person, place, and situation; **AND**
- Has no signs of injury or illness which may impair the ability to make an informed decision; **AND**
- Has no recent history of drug/medication/alcohol ingestion or carbon monoxide exposure that might impair judgment; **AND**
- Exhibits no suicidal or homicidal behavior and does not want to harm themselves.

Determination of Medical Competency to Refuse—continued

Care may be refused for a minor ONLY if ALL of the following are met:

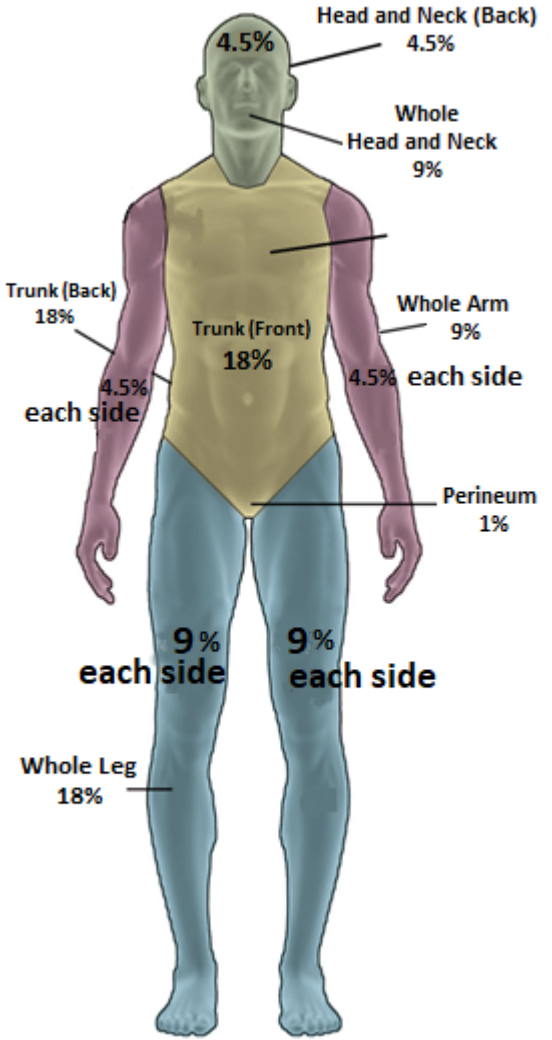
- The patient exhibits no historical or physical findings of potentially life, limb, or organ threatening injury or illness;
- The patient does not exhibit signs of intoxication and has no apparent alterations in mental status, level of consciousness, or abnormal vital signs;
- The responsible parent/legal guardian is competent and present, if applicable;

If one or more of the above is not met, patient must be transported to the appropriate hospital

If the patient, (or parent or guardian), is judged *COMPETENT* to refuse transport, emphasize:

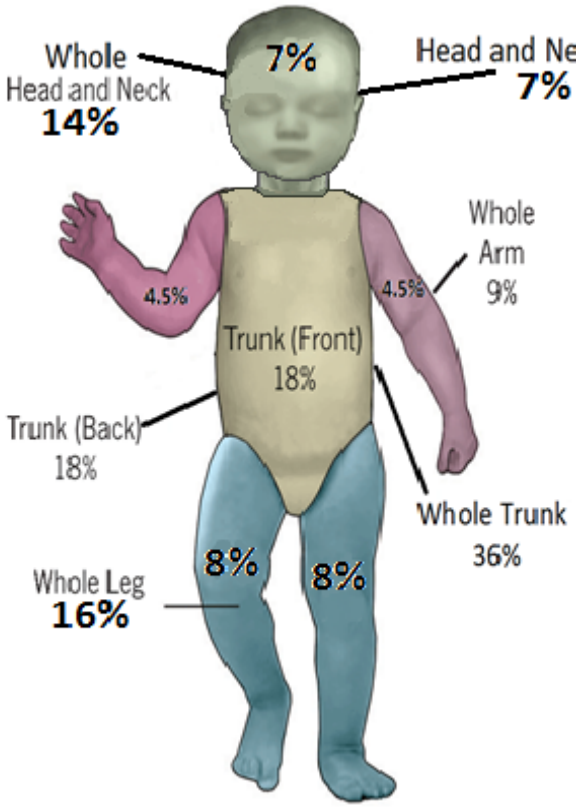
- The need for medical care; and
- The risks of refusal of care (including death and disability); and
- The willingness of EMS to transport the patient; and
- That patient should call their primary care physician immediately to seek medical advice/counsel ASAP; and
- That the PCR must be completed which includes patient name, address or phone number, completed and signed Refusal form,
- That the patient may call Monroe County Fire Rescue at any time if they need our service.

If the patient (or parent / guardian) is judged *NOT COMPETENT* to refuse transport:



- Explain to patient, (or parent / guardian) the need for transport; and
- Reassure patient that no harm will result from transport but complications, up to and including death may result from delay in treatment; and
- If the patient (or parent / guardian) continues to refuse care:
- Enlist the aid of law enforcement personnel for patient and crew safety; and
- Proceed with transport of the patient.
- If there is any doubt concerning the competency of the patient to refuse medical care and/or hospital transport, and no guardian is present, medical transport is mandatory.

Implied Consent:



- If a person is determined to be incompetent, they may be treated and transported under an “implied consent” (when a reasonable individual would consent to under the same circumstances).
- If the patient is transported and/or treated on the basis of implied consent, field personnel should use reasonable measures to ensure safe transport to the closest appropriate facility.

MCFR Battalion Chief should be contacted if there are any questions regarding a patient’s ability to refuse medical care or if assistance is needed to convince the patient to be transported.

This policy will only apply to ADULTS with persistent asystole when resuscitation has failed, and when the situation in the field supports the decision to terminate resuscitation OR when specific scene situations or patient presentations prevent complete resuscitation and/or transport to the hospital. Resuscitation may be discontinued on ADULTS when ALL of the following criteria have been met:

1. Persistent ECG rhythm of asystole

- Confirm and record asystole in all three leads and attach to PCR over 15 minutes. (This includes patients where initial rhythm of VF/VT or PEA converted to asystole).
- Note: Occasional single beats that look agonal (wide complex, no pulse) may be counted as persistent asystole.

2. Performance of all appropriate BLS and at least 20 minutes of ALS procedures for asystole including:

- Patent airway with effective ventilation is established. With ETT or I-gel, confirmed with positive $ETCO_2$ and other positive confirmation signs, but may be done with BVM ventilation (best done with an OPA and 2 NPAs in place) plus visible chest rise and/or positive $ETCO_2$.
- IV/IO of Normal Saline
- Appropriate medications for the presenting rhythm, including a total of 4 doses of Epinephrine have been administered without response

3. Arrest is NOT suspected to be from:

- Lightning strike or electrical shock
- Drug OD/poisoning or hypothermia.

4. Patient never had or never developed a pulse during EMS resuscitative effort (*EMS witnessed arrest or temporary ROSC*)

5. Non reactive pupils

6. $ETCO_2$ reading of: < 10 mmHg with manual CPR OR < 20 mmHg with Lucas Device activated during the arrest. Record and attach waveform to PCR.

7. All crew members and family members (if on scene) agree on the termination of the resuscitation. If any individual present on scene disagrees with termination of resuscitative efforts, resuscitation must continue and patient must be transported to the Hospital.

8. No situations where discontinuing resuscitation efforts may create a problem or confusion on scene, e.g.: hostile bystanders, crowd, public location, police not on scene or police response delayed, no ability to transport body.

Note: In the event of an extreme scene or unusual patient situation that prevents full resuscitation or transport after an attempt at resuscitation or incomplete resuscitation (e.g. bariatric pt, entrapment, etc.), resuscitative efforts may discontinue after crew determines there is no further opportunity to administer EMS care. This applies to all cardiac arrest rhythms/presentations including asystole, VF/VT, and PEA).Notification of the medical director and EMS office will occur as soon as possible after the termination of CPR.

A full Code Summary will be printed and sent intact to the EMS office before the end of the shift for all cardiac arrests worked, either terminated or transported with or without ROSC

I. DISPATCH PROCEDURES

Monroe County is unique in the state of Florida, in that it is comprised of a chain of islands stretching one hundred and thirteen miles in length, and connected by only one main highway. Monroe County Fire Rescue ALS transport vehicles are located at strategic points throughout the County, and are supplemented by numerous BLS Fire/Rescue vehicles, which may be activated as first responder support for Fire Rescue personnel.

1. Calls are received via an enhanced 911 system (Monroe County Sheriff's Office Central Dispatch Center) located in Marathon, which dispatches the appropriate Fire Rescue response units.

2. The Dispatcher obtains information from the caller regarding:
   - A.) Name of person calling
   - B.) Nature of incident
   - C.) Type of injury
   - D.) Call back number
   - E.) Number of patients
   - F.) Location of incident
   - G.) Extent and severity of reported injury

3. The Dispatcher selects the appropriate Fire Rescue response vehicle(s) closest to the location of the incident. The Dispatcher immediately transmits the appropriate alert tone, followed by the command "Rescue (assigned unit), be en route to..." after which the nature, location, and known details of the call are transmitted. This information is transmitted via 800 MHz radios carried by all Fire Rescue crew members, and all Fire Rescue Supervisory personnel. The Dispatcher may also elect to activate a BLS Fire Rescue vehicle for first response support.

4. With potential trauma patients or injuries that may warrant air transportation, the Dispatcher will tone the Monroe County “TRAUMA STAR” helicopter to standby and/or monitor the scene in case of TRAUMA ALERT patients. A request for “TRAUMA STAR” to respond may be made by a Monroe County Fire Rescue Battalion Chief or on scene EMT or Paramedic on duty.

5. The Dispatcher is in direct radio contact with the responding unit(s) and monitors the status of the crew (i.e., time enroute, arrival time on scene, time enroute to hospital, etc.).

6. On scene personnel may communicate requests for additional intra-agency resource support (e.g. manpower, equipment, additional vehicles, supervisory personnel), via the Dispatch Center. Requests for inter-agency support (e.g., law enforcement, utility company, fire suppression equipment and personnel, Marine Patrol, Coast Guard), may also be communicated via the Dispatch Center.

II. PRE-HOSPITAL PROCEDURES

1. Upon arrival at the incident, Fire Rescue personnel shall conduct a “scene size-up”, to include safe entry, severity and number of patients, the need for extrication, and the need for additional resources. Multiple patients shall be immediately triaged. The condition of each trauma patient shall be assessed using the Florida Trauma Scorecard methodology criteria, as outlined in Chapter 64J-2.004 and 64J-2.005 F.A.C., to determine whether the patient should be a TRAUMA ALERT. This information shall be used to determine the patient's transport destination. In assessing the condition of each patient, the paramedic shall evaluate the patient’s status for each of the following components: airway, circulation, disability (motor response/Glasgow Coma Scale), soft tissue injury; longbone fracture/skeletel, patient’s age, and mechanism of injury.

2. Upon determination that the patient meets Trauma Alert Criteria, the Paramedic in Charge will initiate communication with a SATC or SAPTRC or the local receiving facility, if circumstances do not allow for helicopter access to a SATC or SAPTRC. Communications from field FIRE RESCUE personnel to the receiving facility will include the phrase "TRAUMA ALERT", and will include the following information:

- Specific Trauma Alert Criteria
- Mechanism of injury
- Glasgow Coma Score (itemized)
- ETA to receiving facility

3. A Monroe County Fire Rescue Adult or Pediatric Trauma Street Form will be completed for every trauma alert patient and a copy shall accompany each patient to the receiving facility.

4. A Monroe County Fire Rescue Form MCFRF-011 “Street Form Worksheet” shall be completed for each patient and a copy shall accompany the patient to the receiving facility.

5. A Monroe County Fire Rescue electronic Patient Care Report will be completed as defined in section 64J – 1.001(18) F.A.C. by the Rescue personnel that were on-scene. A copy of the complete patient care report will be forwarded to the receiving facility when completed. The MCFR electronic Patient Care Report will also be completed ***for all trauma victims found deceased on scene.***

III. PRE-HOSPITAL FLIGHT PROCEDURES

Two (2) sets of flight criteria must be considered. The first is directed toward the safety of the helicopter pilot and crew, the ground personnel, the patient, and bystanders. The second set establishes operational guidelines for when the helicopter should be requested for TRAUMA ALERT patients.

1. **SAFETY CRITERIA**: (Conditions when the helicopter will not be used)

   A.) Severe weather (as determined by the pilot or S.O.)
   B.) Landing area obstructions: (as determined by the pilot or LZ Command)
   * Power lines too close to landing area
   * Trees, poles, signs, or other obstacles in immediate landing area
   * Large gathering of civilians in the area
   C.) An expectation that the area may not remain safe

2. **OPERATIONAL CRITERIA:** (Helicopter will be used)

   A.) If the patient is considered a TRAUMA ALERT patient as outlined in this protocol.

   B.) If the patient sustained a traumatic injury, but does not meet Trauma Alert criteria and any of the following conditions exist:
   i. Blockage of the main road, making ground access to the nearest receiving Hospital impossible.
   i. Failure of the drawbridges, making ground access to the nearest Hospital impossible.
   ii. Extrication time greater than fifteen (15) minutes.
   iv. If the helicopter is needed to gain access to the patient or needed to transport the patient out of an inaccessible area.
   v. If ground transportation is not available and is not expected to be available within a reasonable time (15-20 minutes, depending on injuries).
   vi. MCI (mass casualty incident), as determined by on scene MCFR Paramedic/or on duty MCFR Battalion Chief.

   C.) The Paramedic on scene will notify the Battalion Chief when TRAUMA STAR is requested under the circumstances listed in B above.

IV. ADULT and PEDIATRIC TRAUMA ALERT CRITERIA F.A.C. 64J-2.004
ADULT TRAUMA SCORECARD METHODOLOGY

1. Each EMS provider shall ensure that upon arrival at the location of an incident, an EMT or paramedic shall:
   A. Assess the condition of each adult trauma patient using the adult trauma scorecard methodology, as provided in this section to determine whether the patient should be a "Trauma Alert".
   B. In assessing the condition of each adult trauma patient, the EMT or paramedic shall evaluate the patient's status for each of the following components: airway, circulation, disability (includes Glasgow Coma Scale), soft tissue (cutaneous) injury, longbone fracture/skeletal, patient's age, and mechanism of injury. The patient's age and mechanism of injury shall be used as assessment factors when used in conjunction with assessment criteria included in (3) of this section.

2. The EMT or paramedic shall assess all adult trauma patients using the following criteria (RED criteria) in the order presented and if any one of the following conditions is identified, the patient shall be considered a Trauma Alert patient:
   A. Airway: The patient requires active airway assistance beyond the administration of oxygen or has a respiratory rate of less than 10 or greater than 29 breaths per minute.
      1. Drowning or near drowning patients.
   B. Circulation: The patient lacks a radial pulse or has a blood pressure of less than 90 mmHg or patients age 65 or older with a blood pressure of less than 110 mmHg.
   C. Disability: The patient exhibits a GCS score of 13 or less or exhibits the presence of paralysis or there is the suspicion of a spinal cord injury or the loss of sensation.

      6. dislocations of the hip, knee or ankle.

   Superficial wounds where the depth of the wound can be determined are excluded.
   E. Longbone Fracture/ Skeletal: The patient reveals signs or symptoms of two or more longbone fracture sites. Long bone fracture sites are defined as the (1) shaft of the humerus, (2) radius and ulna, (3) shaft of the femur, (4) tibia and fibula.
   F. Mechanism of Injury: Patients exhibiting any of the following are considered Trauma Alerts:

3. Should the patient not be identified as a Trauma Alert using the RED criteria listed in (2) of this section, the trauma patient shall be further assessed using the BLUE criteria listed in this section and shall be considered a Trauma Alert patient when a condition is identified from any two of the seven blue components included in this section:
   A. Circulation: The patient has renal failure and is on dialysis;
   B. Disability: The patient has head injury with loss of consciousness, amnesia or new onset of altered mental status;

      x. Patients with renal failure on dialysis.

4. In the event that none of the conditions are identified using the criteria in (2) or (3) of this section in the assessment of the adult trauma patient, the EMT or paramedic can call a Trauma Alert if, in his or her judgment, the patient's condition warrants such action. Where EMT or paramedic judgment is used as the basis for calling a Trauma Alert, it shall be documented as required in accordance with the requirements of Rule 64J-1.014, F.A.C. The results of the patient assessment shall be recorded and reported in accordance with the requirements of Rule 64-J-1.014, F.A.C.

Monroe County Fire Rescue
Adult Trauma Scorecard Methodology

The EMT or paramedic shall assess the condition of those injured persons with anatomical and physiological characteristics of a person sixteen (16) years of age or older for the presence of at least one of the following three (3) criteria to determine whether to transport as a Trauma Alert. These three criteria are to be applied in the order listed, and once any one criterion is met that identifies the patient as a Trauma Alert, no further assessment is required to determine the transport destination:

1. **Meets color-coded triage system (see below)**
2. **Meets local criteria (specify)**
3. **Patient does not meet the trauma criteria listed, but was transported to a trauma center due to EMT or paramedic judgment (reason for transport must be justified in run report).**

6. See attached list of Anticoagulants with High Risk of Bleeding

PEDIATRIC TRAUMA SCORECARD METHODOLOGY

1. Each EMS provider shall ensure that upon arrival at the location of an incident, the EMT or paramedic shall assess the pediatric trauma patient by evaluating the patient's status for each of the following components: Size, Airway, Circulation, Disability, Soft Tissue, Long Bone Fracture/Skeletal, and Mechanism of Injury. In assessing the pediatric patient, the criteria for each of the components in (2) and (3) of this section shall be used to determine the transport destination for pediatric trauma patients.

2. The EMT or paramedic shall assess all pediatric trauma patients using the following RED criteria and if any of the following conditions are identified, the patient shall be considered a pediatric Trauma Alert patient:
   A. Airway: If the patient requires active airway assistance including manual jaw thrust, continuous suctioning, or use of other adjuncts to assist ventilator efforts, has a respiratory rate of < 20 in an infant less than one year of age, or a respiratory rate of <10 in children age 1-15 years old.
      1. All drowning or near drowning patients.
   B. Circulation: The patient has a faint or non-palpable carotid or femoral pulse or the patient has a systolic blood pressure of less than 50 mmHg.

   D. Soft Tissue: The patient has a major soft tissue disruption, or major skin flap avulsion (greater than 5 cm) or 2nd or 3rd degree burns to 10 percent or more of the total body surface area, or amputation at or above the wrist or ankle, or a major de-gloving injury. The patient exhibits a dislocation of the hip, knee or ankle.
      If there is any penetrating injury or GSW to the head, neck, torso or extremity. (Superficial wounds where the depth of the wound can easily be determined are excluded from this criteria head and extremity only),
   E. Long Bone Fracture/Skeletal: There is evidence of an open long bone fracture or multiple fracture sites. Long bone sites are defined as the (1) shaft of the humerus, (2) radius and ulna, (3) shaft of the femur, (4) tibia and fibula.
   F. Mechanism of Injury: Patients exhibiting any of the following criteria will be Trauma Alerts:
      i. Electrocution or lightning injury with loss of consciousness or visible signs of injury;
      ii. Severe facial injury with airway compromise or potential airway compromise;
      iii. Ejection from automobile, motorcycle, ATV, golf cart or horse with anatomic injury;

      vi. Auto versus pedestrian or bicyclist thrown, run over, or impact resulting from speeds more than 20 mph.

3. Should the pediatric patient not be identified as a Trauma Alert using the RED criteria listed in (2) of this section, the trauma patient shall be further assessed using the BLUE criteria listed in this section and shall be considered a Trauma Alert patient when a condition is identified from any two of the five components included in this section:
   A. Size: The patient weighs < 20 kilograms (44 pounds).
   B. Circulation: The carotid or femoral pulse is palpable, but the radial or pedal pulses are not palpable or the systolic blood pressure is less than 90 mmHg.
   C. Disability: The patient exhibits symptoms of amnesia or there is loss of consciousness.
   D. Soft tissue: The patient sustains a dislocation of the upper extremity, excluding fingers.
   E. Long Bone Fracture/Skeletal: The patient reveals signs or symptoms of a single closed long bone fracture or dislocation. Long bone fractures do not include isolated wrist or ankle fractures.

4. In the event that none of the criteria in (2) or (3) of this section are identified in the assessment of the pediatric patient, the EMT or paramedic can call a "Trauma Alert" if, in his or her judgment, the trauma patient's condition warrants such action. Where EMT or paramedic judgment is used as the basis for calling a Trauma Alert, it shall be documented as required in accordance with Rule 64J-1.014, Florida Administrative Code.

V. TRANSPORT DESTINATION CRITERIA 64J-2.002 F.A.C.

1. There are no state approved trauma centers in Monroe County. Therefore, it is the decision of the Medical Director, Dr. Sandra Schwemmer, that it is in the best medical interest of trauma patients, who meet the criteria outlined in this protocol for designation as a TRAUMA ALERT, to be transported as expeditiously as possible to a SATC or SAPTC. If air transport is not possible, TRAUMA ALERT patients may be transported to a local hospital for stabilization until transport to the nearest SATC or SAPTC is available.
2. Monroe County Fire Rescue has an agreement with the Monroe County Sheriff for the use of a rotor wing aircraft "TRAUMA STAR" for use in critical medical and TRAUMA ALERT patients in Monroe County. TRAUMA STAR is a county supported air Ambulance based in Marathon or Key West and will respond, when called to the trauma scene or local hospital to transport TRAUMA ALERT patients to a State of Florida, Department of Health approved trauma center as noted in these "Trauma Transport Protocols (TTP).
3. No patient shall be transported from the scene via air transport without appropriate immobilization, a secure airway allowing for adequate ventilation, and established IV/IO access. Inability to secure an airway is a contraindication to air transport.
4. Trauma patients in full cardiac arrest (trauma code) on the scene do not quality as a Trauma Alert and should be taken by ground ALS to the nearest Hospital.
5. If circumstances prohibit direct scene transport to a Trauma Center (adverse weather conditions, disasters, mass casualties, prolonged TRAUMA STAR ETA) then patients will be taken to the nearest local hospital for stabilization and treatment prior to transport to the nearest Trauma Center.
6. All TRAUMA ALERT patient air transport run reports will be forwarded to the MCFR Battalion Chief of EMS and Medical Director within 72 hours for QA review.
7. A hand written "Patient Care Field Report" containing information pertinent to the patient's identification, patient assessment and care given will be provided by the EMS ground crew to accompany all Trauma patients transported by Trauma Star. A final ePCR report must then be sent to the receiving Trauma Center as soon as completed, or within 24 hours of the incident.

VI. EMERGENCY INTER-FACILITY TRANSFER OF TRAUMA PATIENTS

As previously noted, there are no state approved trauma centers in Monroe County. On rare occasion and when air transport is not available, a patient meeting Trauma Alert criteria may need to be transported from the scene to a local hospital for stabilization/treatment until appropriate transportation to the SATC or SAPTC is available.

The hospital will arrange for appropriate transportation of the patient to the trauma center. Should ground transport of the patient be necessary, supplemental personnel, such as medical or nursing staff, respiratory therapy staff, etc. may be necessary to assist the MCFR Rescue crew for optimal patient care. The transferring hospital will coordinate the necessary personnel to accompany the Fire Rescue ground transport personnel when needed.

VII. APPROVED TRAUMA CENTERS AND INITIAL RECEIVING HOSPITALS

Approved Trauma Centers and Pediatric Trauma Referral Centers

1. Level 1: Ryder Trauma Center at University of Miami/Jackson Memorial Hospital (Adult and Pediatric trauma care)
2. Level 1: Kendall Regional Medical Center (Adult and Pediatric trauma care)

Receiving Facilities

1. Lower Keys: Lower Keys Medical Center, Stock Island
2. Middle Keys: Fishermen's Hospital, Marathon

Adenosine Triphosphate (Adenocard®)

ACTIONS:

Adenosine exerts its effects by decreasing conduction through the AV mode. The half-life of Adenocard is less than 10 seconds. Thus, its effects, desired and undesired, are self-limited.

INDICATIONS:

Adenocard is indicated for paroxysmal supraventricular tachycardia (PSVT), including that associated with accessory bypass tracts (Wolf-Parkinson-White Syndrome).

CONTRAINDICATIONS:

Adenocard is contraindicated in second or third degree AV block and sick sinus syndrome (except in patients with a functioning artificial pacemaker), and known hypersensitivity to Adenosine.

WARNINGS:

Adenocard may produce a short lasting first, second, or third degree heart block. In extreme cases transient asystole may result. At the time of conversion to normal sinus rhythm, a variety of new rhythms may appear (PVC's, PAC's, sinus bradycardia, sinus tachycardia, skipped beats, and varying degrees of AV block) and generally last only a few seconds without intervention.

PRECAUTIONS:

The effects of Adenosine are antagonized by methylxanthines such as caffeine and theophylline. Thus, larger doses of Adenosine may be required for Adenosine to be effective. Adenosine effects are potentiated by dipyridamole (Persantine). Thus, smaller doses of Adenosine may be effective. Adenosine may produce bronchoconstriction in patients with asthma.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

Cardiovascular: Facial flushing, headache, and rarely: sweating, palpitations, chest pain, and hypotension.

Respiratory: Shortness of breath, chest pressure, and rarely: hyperventilating, metallic taste, tightness in throat and head pressure.

CNS: Light headedness and rarely: dizziness, blurred vision, tingling and numbness in extremities, apprehension.

DOSAGE:

Adult dosage: **6 mg rapid IVP**, immediately followed by 20 ml NS flush.
Repeat in 2 minutes at 12 mg IVP followed by 20 ml NS flush PRN.

Pediatric dosage: **0.1 mg/kg (maximum 6 mg) rapid IVP** immediately followed by 5 ml NS flush.
Repeat in 2 minutes, at 0.2 mg/kg (maximum 12 mg) rapid IVP followed by 5 ml NS flush PRN.

Time/Action Profile:	Onset	Peak	Duration
IV:	Immediate	Unknown	1-2 minutes

Albuterol (Proventil®, Ventolin®)

ACTIONS:

Albuterol is primarily a beta-2 sympathomimetic and as such produces bronchodilation. Because of its greater specificity for beta-2 adrenergic receptors it produces fewer cardiovascular side effects and more prolonged bronchodilation than isoproterenol.

INDICATIONS:

Albuterol inhaler is indicated for relief of bronchospasm in patients with reversible obstructive airway disease including asthma, and COPD.

CONTRAINDICATIONS:

Albuterol is contraindicated in patients with a history of hypersensitivity.

WARNINGS:

Use cautiously in patients with coronary artery disease, hypertension, hyperthyroidism, and diabetes. In adults, do not give Albuterol if heart rate is > 150. Exception: If patient remains in sinus tachycardia and systolic blood pressure remains > 100 Albuterol treatments may be continued. The rationale must be clearly documented. The benefits must outweigh the risks. Administer cautiously to patients on MAO inhibitors or tricyclic anti-depressants. Beta-Blockers and Albuterol will inhibit each other.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

Cardiovascular: Tachycardia, hypertension, and angina.

CNS: Nervousness, tremor, headache, dizziness, and insomnia.

GI: Drying of oropharynx, nausea, and vomiting, unusual taste.

DOSAGE:

Adult dosage: **2.5 mg of Albuterol in 3ml of NS** to nebulizer and flow oxygen 8 liters/min.

Child dosage:

If > 1 year or > 10 kg:

2.5 mg of Albuterol in 3 ml of NS (0.083%) to nebulizer and flow oxygen 6 lpm

If < 1 year or < 10 kg:

1.25 mg of Albuterol in 1.5ml of NS (0.083%) to nebulizer and flow oxygen 3 lpm (half of 2.5 mg).Treatment will be delivered over approx. 5-15 mins.

Time/Action Profile:	Onset	Peak	Duration
Inhaled	5-15 minutes	60-90 minutes	3-6 hours

Amiodarone (Nexterone™)

ACTIONS:

Amiodarone suppresses recurrent VF, prolongs intranodal conduction and refractoriness, negative inotropic effect.

INDICATIONS:

- Pulseless VT
- PVC's greater than (>) 12 min
- Ventricular Tachycardias (Wide and Narrow) with a pulse

CONTRAINDICATIONS:

Time/Action Profile:	Onset	Peak	Duration
IV/IO:	Unknown	Unknown	Unknown

Aspirin (Bayer, ® Bufferin®)

ACTIONS:

Aspirin is an analgesic, anti-inflammatory and anti-pyretic, which also appears to cause an inhibition of synthesis and release of prostaglandins. Aspirin also blocks formation of thromboxane A - 2. (Thromboxane A - 2 causes platelets to aggregate and arteries to constrict). Reduces overall mortality from acute myocardial infarction.

INDICATIONS:

Aspirin is indicated in the Acute Coronary Syndrome setting to prevent further clotting.

CONTRAINDICATIONS:

A known allergy to Aspirin (i.e. urticaria, dyspnia, etc.), active GI ulceration or bleeding, hemophilia or other bleeding disorders, during pregnancy, children under 2 years of age.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

GI: Nausea, vomiting, heartburn, and stomach pain.
OTIC: Tinnitus.
Hypersensitivity: Bronchospasm, tightness in chest, angioedema, urticaria, and anaphylaxis.

DOSAGE:

Adult dosage: **324 mg** (4) 81mg chewable tablets for Acute Coronary Syndromes

Time/Action Profile:	Onset	Peak	Duration
(Oral) PO:	5-30 minutes	1-3 hours	3-6 hours

Atropine Sulfate as Cardiac Agent

ACTIONS:

Atropine is a potent anticholinergic (parasympathetic blocker, parasympatholytic) that reduces vagal tone and thus increases automatically the SA node and increases A-V conduction.

INDICATIONS:

- Sinus Bradycardia accompanied by hemodynamic compromise, (i.e. hypotension, confusion, frequent PVC's, pale, cold, clammy skin).
- In children (< 1 year) bradycardia of less than 60 beats/minute should be treated if symptomatic even if BP is normal.

CONTRAINDICATIONS:

None in emergency situations

WARNINGS:

Too small of a dose (< 0.5 mg) or if pushed too slowly, may initially cause the heart rate to decrease. Antihistamines and antidepressants potentiate Atropine. A **maximum dose** of 0.04 mg/kg should not be exceeded. For 2nd degree AV block type II and 3rd degree AV block, omit Atropine and go to external pacer.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

CNS: Restlessness, agitation, confusion, psychotic reaction, pupil dilation, blurred vision, and headache.
Cardiovascular: Increase heart rate, may worsen ischemia or increase area of infarction, ventricular fibrillation, ventricular tachycardia, angina and flushing of skin.
GI: Dry mouth and difficulty swallowing.
Other: Urinary retention. Can worsen pre-existing glaucoma.

DOSAGE:

Adult dosage: Bradycardia:
0.5-1 mg IV/IO, may repeat every 3-5 minutes until improved or total of 2mg is reached.

Pediatric dosage: **0.02 mg/kg IV/IO** (minimum dose is 0.1 mg and **maximum** single dose is 0.5mg child, 1 mg adolescent). May repeat once.

Time/Action Profile:	Onset	Peak	Duration
IV/IO:	Unknown	Unknown	Unknown

Atropine Sulfate as Antidote for Poisoning

ACTIONS:

Atropine is a potent parasympatholytic that binds to acetylcholine receptors thus diminishing the actions of acetylcholine.

INDICATIONS:

Anticholinesterase syndrome poisoning such as; Organophosphate (e.g. Parathion, Malathion, Rid-a-Bug) and Carbamate (Baygon, Sevin and many common roach & ant sprays). Signs of organophosphate poisoning are:

Salivation
Lacrimation
Urination
Defecation
GI distress,
Emesis,
Pinpoint pupils, bradycardia, and excessive sweating.

CONTRAINDICATIONS:

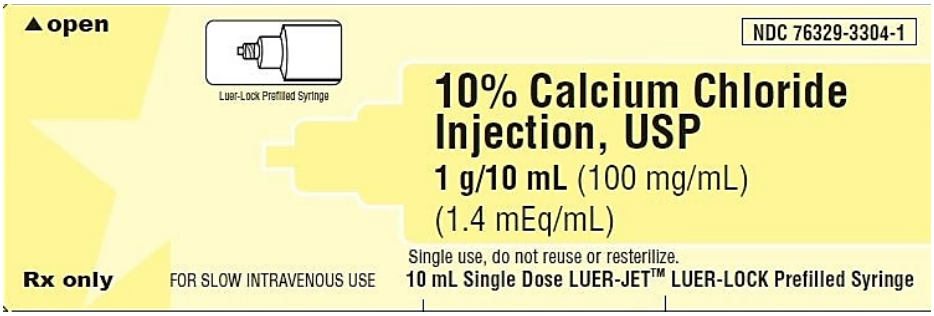
None when used in the management of severe organophosphate poisoning.

WARNINGS:

It is important that the patient be adequately oxygenated and ventilated prior to using Atropine as it may precipitate ventricular fibrillation in a poorly oxygenated patient. Even after Atropine is administered, the patient may require intubation and aggressive ventilatory support.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

Victims of organophosphate poisoning can tolerate large doses (1000 mg) of Atropine. Signs of atropinization are the end point of treatment: flushing, pupil dilation, dry mouth, and tachycardia.



DOSAGE:

Adult dosage: **1 mg IV/IO**, repeat every 5-10 minutes until atropinization occurs.(max total dose 20mg)

Pediatric dosage: **0.05 mg/kg** (maximum 3 mg) IV/IO, repeat every 5-10 minutes until atropinization occurs.

Time/Action Profile:	Onset	Peak	Duration
IV/IO			

Calcium Chloride 10%

ACTIONS:

Calcium chloride increases the force of myocardial contraction; calcium may either increase or decrease systemic vascular resistance. In normal hearts, calcium's positive inotropic and vasoconstricting effects produce a predictable rise in systemic arterial pressure.

INDICATIONS:

Calcium chloride is indicated during resuscitation for the treatment of hypocalcaemia and calcium channel blocker toxicity (i.e. Verapamil or Cardizem overdose) and Magnesium Sulfate overdose. It also protects the heart from hyperkalemia as may occur in patients with end-stage renal disease.

CONTRAINDICATIONS:

Cardiopulmonary arrest not associated with calcium channel blocker toxicity, hypocalcaemia, or hyperkalemia.

WARNINGS:

Calcium chloride should not be administered in the same infusion with Sodium Bicarbonate, since calcium will combine with sodium bicarbonate to form an insoluble precipitate (calcium carbonate). Calcium chloride should be given with extreme caution, and in reduced dosage, to persons taking digitalis because it increases ventricular irritability and may precipitate digitalis toxicity.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

If the heart is beating, rapid administration of calcium can produce slowing of cardiac rate.

DOSAGE:

Adult dosage: For hypotension following administration of calcium channel blockers (i.e. Cardizem, Verapamil): **4mg/kg IV slowly**

If patient is taking digitalis, **2 mg/kg IV slowly**. Repeat every 10 minutes PRN.

For calcium channel blocker overdose and hyperkalemia: **8-16 mg/kg IV slowly**

Asystole/PEA (if on calcium channel blockers) **1gm IVP**

Time/Action Profile:	Onset	Peak	Duration
IV/IO:	Immediate	Immediate	2-5 hours

Cyanokit®

ACTIONS:

Hydroxocobalamin (CYANOKIT®) is an antidote to cyanide. It removes cyanide directly from the blood without converting any of the hemoglobin and therefore does not interfere with oxygen transport. It combines with the cyanide to form cyanocobalamin which is a derivative of vitamin B-12. Both the Hydroxocobalamin and B-12 are harmlessly excreted in urine.

INDICATIONS:

- Exposed to products of combustion in an enclosed space
- Soot present in their nose, mouth, or sputum
- Altered mentation
- Does not meet trauma alert criteria
- At least 18 > years old

DO NOT RELY ON PULSE OXIMETRY FOR ACCURATE READINGS

CONTRAINDICATIONS:

None

WARNINGS:

Do not use any other medications in the same IV line:
There are several drugs and blood products that are incompatible with Cyanokit, thus Cyanokit requires a separate intravenous line for administration.

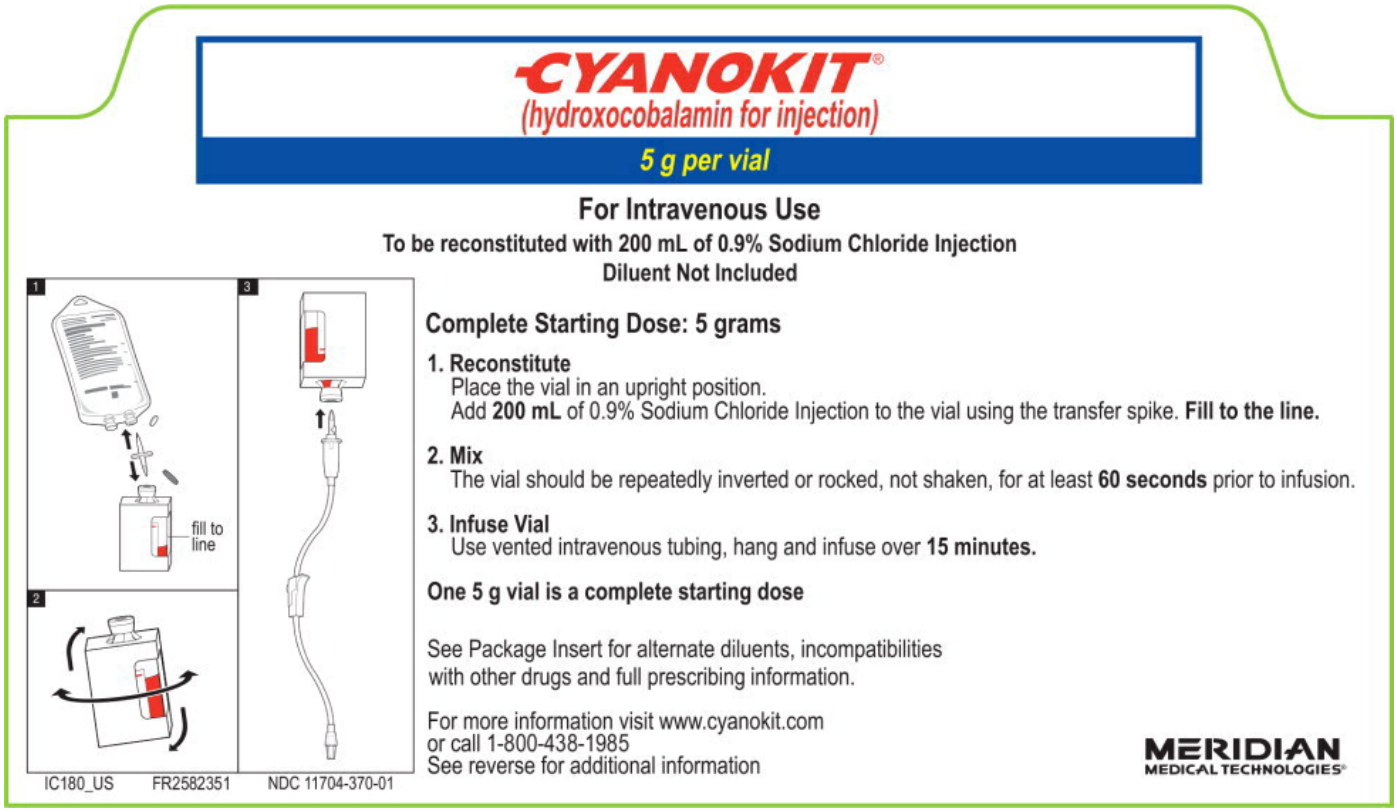
PROCEDURE for Cyanokit Administration: (See next page for additional information)

Each Cyanokit contains:

(1) Vial (5 gm of HYDROXOCABALAMIN)
(1) Intravenous administration set
(1) Transfer spikes

Reconstitute vial of **the Cyanokit® with 200 ml of NS** via the transfer spike that is provided. **Do not** remove the vial from the box it is contained in, because it will serve as a hanger for the medication.

Gently rock the vial back and forth for 30 seconds to allow for mixing. ***Shaking should be avoided,*** as it will cause the medication to foam. Insert a macro-drip infusion set (provided) and drain as normal.



DOSAGE:

Infuse the vial over15 minutes. If the patient is critical use a faster rate and titrate to effect.

Multi-dose kits are carried in the Battalion Chiefs vehicle

1. One 250 ml glass vial containing 5g of lyophilized hydroxocobalamin for injection
2. One sterile transfer spike
3. One sterile intravenous infusion set
4. One quick use reference guide
5. One package insert

Dextrose 10 % and 5%

ACTIONS:

A monosaccharide, which provides calories for metabolic needs, spare body proteins and loss of electrolytes. Readily excreted by kidneys producing diuresis. Hypertonic solution.

INDICATIONS:

- Hypoglycemia
- Coma of unknown origin.

RELATIVE CONTRAINDICATIONS:

- Intracranial or intra-spinal hemorrhage (in a patient with normal BGL)
- Blood glucose Level > 60 mg/dl.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

- **Cardiovascular:** Thrombosis Sclerosing if given in peripheral vein
- **Local:** Tissue irritation or necrosis if infiltrates.
- **Others**: Acidosis, alkalosis, hyperglycemia, and hypokalemia.

DIABETES OVERVIEW:

Diabetes Insipidus: Is the inadequate secretion or resistance of the kidney to the action of the antidiuretic hormone (ADH). Major S/S are polydipsia (thirst) and polyuria (frequent urination).

Diabetes Mellitus Type I: Insulin-dependent. Usually occurs before the age of 30. The patient may need Insulin injections and dietary modifications to control blood sugar levels. Cells in the pancreas that produce Insulin are damaged – so they may produce little or no insulin.

Diabetes Mellitus Type II: Non-insulin-dependent. Usually occurs in obese adults over the age of 40. The cells in the pancreas are able to produce insulin, just not enough.

DOSAGE:

Adult/Adolescent >8 y/o:

Diphenhydramine Hydrochloride (Benadryl®)

ACTIONS:

Diphenhydramine is an antihistamine with anticholinergic (drying) and sedative side effects. Antihistamines appear to compete with histamine for cell receptor sites on effector cells. Diphenhydramine prevents, but does not reverse histamine mediated responses, particularly histamine effects on the smooth muscle of the bronchial airways, gastrointestinal, uterus, and blood vessels.

INDICATIONS:

- Allergy symptoms, anaphylaxis
- Sedation of violent patient
- Dystonic reactions from phenothiazine overdose (i.e. Haldol, Compazine, Thorazine, and Stelazine)

CONTRAINDICATIONS:

Diphenhydramine is not to be used in newborn or premature infants. Diphenhydramine is not to be used in patients with acute asthma attack

WARNINGS:

In infants and children especially, antihistamines in overdose may cause hallucinations, convulsions, or death. As in adults, antihistamines may diminish mental alertness in children. In young children, they may produce excitation. Diphenhydramine has additive effects with alcohol and other CNS depressants (hypnotics, sedatives, tranquilizers, etc.). Antihistamines are more likely to cause dizziness, sedation, and hypotension in the elderly (60 years or older) patient

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

CNS: Drowsiness, confusion, insomnia, headache and vertigo (especially in the elderly).
Cardiovascular: Palpitations, tachycardia, PVC's and hypotension.
Respiratory: Thickening of bronchial secretions, tightness of the chest, wheezing and nasal stuffiness.

Pediatric: **1 mg/kg IV/IO or IM** (maximum 25 mg)

Time/Action Profile:	Onset	Peak	Duration
IV/IO:	Rapid	Unknown	4-8 hours
IM:	20-30 minutes	1-4 hours	4-8 hours

Dopamine Hydrochloride (Intropin®)

ACTIONS:

Dopamine stimulates dopaminergic beta-adrenergic and alpha-adrenergic receptors of the sympathetic nervous system. It exerts an inotropic effect on the myocardium resulting in an increased cardiac output. Dopamine produces less increase in myocardial oxygen consumption than does Isoproterenol and its use is usually not associated with a tachyarrhythmia. Dopamine dilates renal and mesenteric blood vessels at low doses that may not increase heart rate or blood pressure. Therapeutic doses have predominant beta-adrenergic receptor stimulating actions that result in increases in cardiac output without marked increases in pulmonary occlusive pressure. At high doses, Dopamine has alpha receptor stimulating actions that result in peripheral vasoconstriction and marked increases in pulmonary occlusive pressure.

INDICATIONS:

To treat shock and correct hemodynamic imbalances, improve perfusion to vital organs and to increase cardiac output.

CONTRAINDICATIONS:

Dopamine should not be used in patients with pheochromocytoma or hypovolemic shock.

WARNINGS:

Do not administer Dopamine in the presence of uncorrected tachydysrhythmias or ventricular fibrillation. Do not add Dopamine to any alkaline diluents solutions since the drug is inactivated in alkaline solution. Patients who have been treated with monoamine oxidase (MAO) inhibitors will require substantially reduced dosage.MAO inhibitors include: furazolidone (Furoxone®), isocarboxazid (Marplan®), pargyline hydrochloride (Eutonyl®),pargyline hydrochloride with methyclothiazide (Eutron®), phenelzine sulfate (Nardil®), procarbazine hydrochloride (Matulane®), tranylcypromine sulfate (Parnate®)

See next page for Dopamine dosing chart

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

Cardiovascular: Tachycardia, palpitations, angina pain, ectopic beats, and hypotension
GI: Nausea and vomiting
Local: Necrosis and tissue sloughing with extravasations, use a large vein to reduce this incidence
Other: Piloerection, dyspnea and headache.

DOSAGE:

Adult and Pediatric:

Pre-mixed bag Begin infusion at **5 mcg/kg/min**. and titrate to effect (Maximum dose 20 mcg/kg/min.)

Epinephrine 1:1,000

ACTIONS:

Epinephrine is a sympathomimetic, which stimulates both alpha and beta-adrenergic receptors causing immediate bronchodilation, increase in heart rate and an increase in the force of cardiac contraction. Subcutaneous dose lasts 5-15 minutes.

INDICATIONS:

- Asthma
- Anaphylaxis
- Angioneurotic edema

CONTRAINDICATIONS:

None in the cardiac arrest situation. Hyperthyroidism, hypertension, cerebral arteriosclerosis in asthma. Caution should be used with Epinephrine administration when the patient is older than 40 years old or has a history of heart disease. The benefit must outweigh the risk. Do not administer Epinephrine if heart rate is > 150.

WARNINGS:

Epinephrine is inactivated by alkaline solutions - never mix with Sodium Bicarbonate. Do not mix Isoproterenol and Epinephrine - results in exaggerated response. Actions of catecholamine is depressed by acidosis - attention to ventilation and circulation is essential. Antidepressants potentiate the effects of epinephrine.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

- **CNS:** Anxiety, headache and cerebral hemorrhage.

Epinephrine 1:10,000

ACTIONS:

Epinephrine is a sympathomimetic, which stimulates both Alpha and Beta-receptors. As a result of its effects, myocardial and cerebral blood flow are increased during ventilation and chest compression. Epinephrine increases systemic vascular resistance and thus may enhance defibrillation.

INDICATIONS:

- All Pulseless Arrest
- Asystole
- Ventricular Fibrillation unresponsive to defibrillation;
- PEA
- Other pediatric indications: hypotension in patients with circulatory instability, bradycardia (before Atropine).

CONTRAINDICATIONS:

None in the cardiac arrest situation.

WARNINGS:

Epinephrine is inactivated by alkaline solutions - never mix with Sodium Bicarbonate. Do not mix Isoproterenol and Epinephrine - results in exaggerated response. Actions of catecholamines are depressed by acidosis - attention to ventilation and circulation is essential. Antidepressants potentiate the effects of epinephrine.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

CNS: Anxiety, headache and cerebral hemorrhage.
Cardiovascular: Tachycardia, ventricular dysrhythmias, hypertension, angina and palpitations.

50mcg/ml

CONCENTRATION
250mcg/5ml
50mcg/ml

ACTIONS:

Fentanyl Binds with stereospecific receptors at many sites within the CNS, increases pain threshold, alters pain reception, inhibits ascending pain pathways. Fentanyl binds to brain receptors, relieving pain. It decreases the feeling of pain and a person's response to pain. Fentanyl is 50-100 times as potent as morphine; morphine 10 mg I.M. = fentanyl 0.1-0.2 mg I.M.; fentanyl has less hypotensive effects than morphine due to minimal or no histamine release.

- Pain associated with isolated extremity fracture, renal colic, burns, etc.

CONTRAINDICATIONS:

- Epistaxis or bilateral blocked nares

Disassociates the brain form the spinal cord thus inhibiting pain sensation. Ketamine increases cardiac output and may be considered advantageous in patients with hemodynamic compromise (trauma, sepsis, etc.). A patent airway is maintained partly by virtue of unimpaired pharyngeal and laryngeal reflexes.

Magnesium Sulfate

ACTIONS:

Magnesium prevents or controls convulsions by blocking neuromuscular transmission and decreasing the amount of acetylcholine liberated at the endplate by the motor nerve impulse. Magnesium is said to have a depressant effect on the central nervous system, but it does not affect the mother, fetus or neonate when used as directed in eclampsia and pre-eclampsia. Magnesium acts peripherally to produce vasodilatation therefore a drop in systolic BP is to be anticipated.

INDICATIONS:

- Prevention and control of seizures in eclampsia
- Torsades de Pointes
- Suspected hypomagnesemia state (i.e. chronic alcoholism and chronic use of diuretics)
- Refractory ventricular fibrillation
- Refractory Asthma

CONTRAINDIACTIONS:

Parenteral administration of the drug is contraindicated in patients with heart block or myocardial damage.

WARNINGS:

Intravenous use of Magnesium Sulfate should not be given to mothers with toxemia of pregnancy with imminent delivery. Magnesium Sulfate Injection USP, 50% must be diluted to a concentration of 20% or less prior to IV infusion.

PRECAUTIONS:

Because magnesium is removed from the body solely by the kidneys, the drug should be used with caution in patients with renal impairment. Monitoring the patient's clinical status is essential to avoid the consequences of overdose in eclampsia. Calcium Chloride should be immediately available to counteract the potential hazards of magnesium intoxication in eclampsia. Signs of hypermagnesemia include respiratory depression, absence of patellar reflex, etc.

POSSIBLE ADVERSE REACTIONS AND SIDE EFFECTS:

Adverse effects of Magnesium Sulfate IV are usually the result of magnesium intoxication. Signs of hypermagnesemia include: flushing, sweating, hypotension, depression of reflexes, flaccid paralysis, hypothermia, and circulatory collapse, depression of cardiac function and central nervous system depression. These symptoms can precede fatal paralysis.

DOSAGE:

Adult:

Naloxone should be administered cautiously to persons including newborns of mothers who are known or suspected to be physically dependent on opiates it may precipitate an acute abstinence syndrome. If patient is intubated and airway is controlled do not administer Narcan (excludes cardiac arrest). May need to repeat Naloxone since duration of action of some narcotics may exceed that of Naloxone. Naloxone is not effective against a respiratory depression due to non-opiate drugs. Nitroglycerin (Nitrostat® Nitrolingual® Spray)

ACTIONS:

Nitroglycerin is a direct vasodilator, which acts principally on the venous system although it also produces direct coronary artery vasodilatation as well. There is a decrease in venous return, which decreases the workload on the heart and thus, decreases myocardial oxygen demand. Sublingual nitroglycerin is rapidly absorbed. Pain relief occurs within one to two minutes and therapeutic effects can last up to 30 minutes.

FLIGHT PHYSIOLOGY OVERVIEW

Patients who require air medical transport can present with a variety of disease processes, as well as varying degrees of physiologic alteration. The flight crew need to be aware of, and able to anticipate, the potential problems that may arise from changes in altitude and barometric pressure. By understanding the basics of altitude physiology, and being able to anticipate, correlate, and react to such alterations in the patients' physiology, will ensure a safe and uneventful transport.

Flights will be completed at ambient air pressures of less than 7000 feet in most helicopter transport situations, due to the unpressurized cabin**. HOWEVER, the flight crew must understand that rapid, explosive-type barotraumas occur most frequently with the rapid ascents and descents associated with rotor-wing transports.**

The following general information is to aid the flight crew with planning, designing, and delivering appropriate therapeutic modalities.

Altitude affects the delivery and utilization of oxygen

Aircraft altitude adjustments may be necessary to provide the patient with optimal oxygen delivery.

Remain alert for the early signs of hypoxia

Trapped gases **EXPAND** as the aircraft **ASCENDS**, and **CONTRACT** as the aircraft **DESCENDS**; this phenomenon is known as "Boyle's Law"

Patient populations as risk include:

- Thoracic injuries/problems ("air-leak" potential).
- Gastrointestinal injuries/problems.
- Penetrating head injuries/severe CHI.
- Ocular and/or severe facial injuries.
- Orthopedic injuries
- "Crushing-type" soft tissue injuries and/or severe soft tissue swelling

Medical equipment effected include:

- ETT pilot balloons.
- Foley catheter balloons.
- BP cuffs.
- Air splints/orthopedic "casts"/MAST.

FLIGHT PHYSIOLOGY OVERVIEW

Humidity and temperature decrease as you increase altitude.

For every 1000 ft. increase in altitude, the outside temperature drops 2 degrees Celsius.

Physiologic changes

As the aircraft accelerates, multiple physiologic changes can occur *Effects on HR, BP, RR, SVR, and ICP can be seen.

Increased noise and vibration levels occur especially in helicopters; protect your patient accordingly. Unconscious patients respond physically to these stressors as well and should be provided hearing protection if able.

All the factors discussed previously can lead to the development of motion sickness, and/or spatial disorientation.

Treatment of motion sickness includes:

- Loosening of restrictive clothing.
- Visual fixation on a stationary object.
- Passive cooling measures.
- Oxygen administration.
- Supine positioning and restriction of head movement.
- Antiemetic therapy.

RAPID SEQUENCE INTUBATION

Securing the airway for air transport is one of the most critical and important events. Intubation should be considered appropriate for any patient that has an unsecured airway, ventilatory compromise, or at risk for aspiration

RSI Indications:

- Respiratory rate <10 or >30
- GCS ≤ 8
- Burn, inhalation injuries, blast injuries
- Suspected acute loss or impending airway failure
- Head/injury patient exhibiting combative behavior (unsafe for air transport)

Contraindications for RSI:

- Anticipated difficulty ventilating with a BVM after paralysis

Caution RSI use in:

- Major facial or laryngeal trauma
- Distorted facial or airway anatomy
- Soft tissue/penetrating injury to the neck (gunshot wound, stab wound with hematoma compromising airway)

Pre-oxygenate and prepare for intubation

- **See endotracheal intubation procedure 9-5**

Sedate patient as indicated with **ONE** of the following medications:

- **Midazolam (Versed) 2 – 5 mg** slow IV push over 1 -2 minutes Hold if BP less than 80 mmHg
- **Etomidate 0.3 mg/kg (12-20 mg)** IVP over 30 – 60 seconds (max single dose 20mg)
- **Ketamine 2mg/kg** slow IV push over 1-2 minutes
- In line cervical spine stabilization by second caregiver (in trauma setting)

Administer short acting paralytic:

- **Succinylcholine (Anectine) 1.5 mg/kg** (60 – 150 mg) rapid IVP

  May repeat **Succinylcholine (Anectine) at 0.5mg/kg** (20-50mg) if inadequate relaxation

After successful intubation administer **ONE** of the following long acting paralytics:

- **Vecuronium 0.05mg/kg** IVP duration 20-30 min
- **Rocuronium 0.06mg/kg** IVP duration 20-30 min
- **Pancuronium 0.05mg/kg** IVP duration 90 – 180 minutes

Attach patient to ventilator when indicated, maintain end tidal CO2 of 35 – 45 mmHg (See Ventilated Patients protocol 13-2)

Unsuccessful Intubation:

- Resume ventilations for 30 seconds
- Re- attempt intubation
- If unsuccessful, resume ventilations for 30 seconds and insert I-Gel airway
- Monitor ETCo2

If Unable to Ventilate:

If still unable to ventilate, remove I-Gel and perform cricothyroidotomy (see cricothyroidotomy-surgical procedure 9-4)

Pediatric:

- Utilize Handtevy System
- If patient is less than 8 yrs (or if age is unknown and using ET tube smaller than 60), pretreat with **Atropine 0.02 mg/kg IVP** (minimum dose of 0.1 mg, maximum dose of 0.5mg)

VENTILATED PATIENT / USE OF PEEP

All intubated patients will be transported on a ventilator if possible.

- Patients will have continuous cardiac monitoring. IV's will be maintained on infusion control devices or monitored closely.
- Multiple parameters will be documented at least every 10 minutes. These include PIP, SaO2, ETCO2 reading, chest rise and fall, etc.
- A BVM with appropriate face mask and manometer will be kept in close proximity to any ventilated patient ventilated patient. PEEP attachment for BVM will be used if patient's condition warrants.
- Suction will be set up and readily available.
- The medical crew must verify ETT placement. This may be done by noting the depth of the tube (appropriate depth for patient), ETCO2 detector, breath sounds, epigastric check and mist in the tube may be documented.

Prior to an interfacility transport

- Chest x-ray may be obtained if there is any question regarding the correct placement of the tube.
- The medical crew may request arterial blood gases. In the presence of any abnormal values, the medical team may consult with the Medical Director or referring physician in an attempt to stabilize the patient's respiratory/acid-base status prior to departure.

Upon arrival at the receiving facility

- The medical crew must document the confirmation of tube placement.

Sedation

- Appropriate sedation/analgesia with **Fentanyl, Ativan, Versed or sedation/paralysis with Etomidate, Succinylcholine** may be necessary for safe transport.
- Initially, the medical crew may medicate the patient with **Versed 2-4mg, Ativan 1-2mg, or Fentanyl 1mcq/kg.**
- Both analgesia and sedation must be considered in the chemically paralyzed patient.

VENTILATED PATIENT / USE OF PEEP

Ventilator Settings

- Settings should be managed to maintain ETCO2 35-45mmHg (in the absence of COPD) and oxygen saturation > 96%.
- Attempt to bring down PIP as much as possible by lowering TV to maintain parameters above. General guideline for TV is 6-10ml/kg/minute.

Recommended Ventilator Settings:

Tidal Volume	6-10ml/kg/minute
Rate	12-20 breaths per minute. Higher rates may be necessary in pediatrics and some adults
FiO2	50-100%
PEEP	5cm/H2O average adult settings. May increase to 10cm/H2O for pulmonary edema, ARDS and near-drowning patients
L-time	0.5-1.0 seconds with I/E ratio of 1:2
PIP	20-25cm/H2O. Increase settings to obtain adequate chest rise and oxygen exchange to maximum setting of 40cm/H2O.

Indications for use of PEEP:

- Patient with decreased SaO2 with use of 100% FiO2.
- Any patient with evidence of moderate to severe alveolar infiltrate specifically:
- Pulmonary edema, near-drowning, COPD and ARDS

Contraindications for PEEP:

- Hypotension

Equipment and Supplies:

- PEEP Valve
- Appropriate size BVM with Manometer
- Intubation Equipment
- Cardiac monitor
- Oxygen

VENTILATED PATIENT / USE OF PEEP

Procedure:

- Perform oral intubation of patient.
- Attach PEEP valve to adapter end of BVM.
- Set PEEP pressures as follows:

Adult:

- Begin at 5cm/H20
- May increase to a maximum of 10cm/H2O.

COPD-Asthma patients:

- Begin at 5cm/H20
- Increase to maximum of 8cm/H2O

Pediatric:

- Begin at 2cm/H2O
- Titrate to effect to a maximum of 5cm/H2O.
- Attach BVM to oxygen and ET tube in usual manner.
- Ventilate patient in normal manner.
- Observe ECG and vital signs. PEEP may cause dysrhythmia and/or changes in vital signs.
- Discontinue or decrease PEEP if any significant adverse responses occur.

ANXIETY

Midazolam (Versed) Route: IV/IO/IM/IN

Onset of action in 2-3 minutes; Peak occurs within 5 minutes; Most amnestic of benzodiazepines.

- Adult: **0.5-5 mg**
- Pediatric: **0.1- 0.2mg/kg** max. 5mg.

Lorazepam (Ativan) Route: IV/IO

Much longer half-life than Versed, peak effect occurs in 30 minutes; Half-life is 10-12 hours; Less likely to cause hypotension than Versed.

- Adult: **1-4 mg** - titrate to effect
- Pediatric: **0.05-0.1 mg/kg** IV.

NOTE:

Narcotic antagonist = **Narcan (Naloxone) 0.4 – 2mg slow IVP** (maximum of 10mg)

Benzodiazepine Antagonist = **Flumazenil (Romazicon) 0.2mg IVP over 30 sec**, after 30 sec., **0.3mg IVP over 30 sec**, After 1 min **0.5 over 30 sec**., May repeat q20min to a total of 3mg

AORTIC DISSECTION

Have a 'high-index' of suspicion when treating patients with history of an aortic dissection.

Indications:

Patients presenting with sharp tearing like chest and/or back pain. Patients usually have history of HTN and/or aortic dissection. There are three types. DeBakey I, II, & III. Patient's usually present with varied pulse pressures in upper extremities, possible decreased carotid pulses on one or both sides, rupture may include AMS or neurologic deficits from vascular disruption. Commonly originate in the thoracic aorta. May extend through entire aorta. Caused by arterial HTN.

RUPTURED AORTIC DISSECTION IS A TRUE SURGICAL EMERGENCY

- Maintain ABC's, oxygenation/ ventilation.
- Minimum 2 large bore IV's.
- KEEP PATIENT CALM!!!
- Consider **Pain Management Protocol 4-7**
- Full VS parameters will be initiated and continued until patient is delivered to receiving facility.

FOR HYPOTENSION

If a ruptured aortic dissection is suspected

- **Fluid challenge wide open until 2 liters administered** then **admin. 500cc boluses x2** to max of 3 liters and re-evaluate hemodynamic status.

If volume replacement is ineffective

- Consider **Dopamine @ 3-15 mcg/kg/min** to maintain SBP >90mmHg.

FOR HYPERTENSION

- Consider **Labetolol 10mg slow IVP q 5 min. intervals,** max dose = 300mg. Target HR 60-80 bpm and SBP 100-130 mmHg.
- Consider **Labetolol Infusion @ 2-8 mg/min** (Mix 200mg (40ml) in 160cc of D5W for a concentration of of 1 mg/ml. Start @ 2mg/min.

Or

- *Can be used by itself:* **Esmolol (Brevibloc) infusion @ 50-200 mcg/kg/min (see drug formulary 19-8)** do not drop HR to low. Do not administer if heart rate is already low.

CENTRAL VENOUS LINES

Central venous lines are indicated for administration of medications, delivery of chemotherapy, nutritional support, infusion of blood products, and blood draws. Types of central venous lines include: Broviac/Hickman, Port-acath/Med-a-port, and percutaneous intravenous catheters (PIC).

Signs of blood embolus, thrombus, air embolus, and internal bleeding:

- Chest pain.
- Cyanosis.
- Dyspnea.
- Shock

Central venous line emergencies include: catheter coming completely out, bleeding at the site, catheter broken in half, blood embolus, thrombus, air embolus, and internal bleeding.

Catheter is completely out

- Apply direct pressure to site.

Bleeding at the site

- Apply direct pressure.

Catheter is broken in half

- Clamp end of remaining tube

Suspected blood embolus, thrombus, or internal bleeding:

- Clamp line

Suspected air embolism

- Clamp line and place patient on left side.

HYPERTENSIVE EMERGENCIES

Normal blood pressure LIMITS are systolic 160mmHg and diastolic 85mmHg. When blood pressure is severely elevated over these limits, acute end-organ damage may result. In these cases, it is important to control elevated BP before and during flight.

In cases of mild blood pressure elevation without other underlying illness, treatment can be deferred until patient is delivered to destination facility.

Remember that fever, pain and anxiety are frequent causes of moderately elevated BP and should be treated appropriately.

Hypertensive end-organ damage is often marked by symptoms such as altered mental status and intracerebral hemorrhage.

Treatment:

The goal (in the treatment of malignant hypertension) should be decreasing mean arterial blood pressure (MAP) or the diastolic blood pressure (DBP) by 25% over one hour. Then decrease the MAP to 120 -130mmHg or the DBP to less than 110mmHg and maintain within parameter. May multiply DBP by 0.75 to quickly calculate 25%. (Example: DBP 120 x 0.75 = 90).

Malignant Hypertension – MUST ADDRESS EMERGENTLY

- **SBP >220mmHG or DBP >120mmHg**

May use any of the following medications as indicated for patient condition:

CALCIUM CHANNEL BLOCKADE:

- **Cardene (Nicardipine): 5 mg/hr. (MIX 50 MG/250 NS = 0.2 MG/ML)** If desired blood pressure reduction is not achieved at this dose, the infusion rate may be increased by 2.5mg every 5 minutes (for rapid titration) to 15 minutes (for gradual titration) up to a maximum 15 mg/hr, until desired blood pressure reduction is achieved. (Goal is to reduce BP by 25% over 1 hour)

BETA BLOCKADE:

- **Labetalol 10mg IVP over 1-2 minutes** May repeat as 20mg again in 10 minutes. If necessary, may repeat every 20 minutes thereafter as 40 mg up to a total max dose of 300mg. Target for 10-20% reduction in the systolic BP.
- **Metoprolol (Lopressor): 1.25-5 mg** IV every 6 hours. In HTN associated with STEMI/Non-STEMI MI: May administer 5mg every 5 (five) minutes as tolerated up to 3 (three) doses in early treatment. Titrate to heart rate and blood pressure.

HYPERTENSIVE EMERGENCIES

Esmolol 1000mcg/kg bolus dose over 30 seconds

Followed by a 150 mcg/kg/min infusion, if necessary. Adjust the infusion rate as required up to 300 mcg/kg/min to maintain desired heart rate and/or blood pressure. (max dose 300mcg/kg/min)

Can be used by itself:

Esmolol (Brevibloc) infusion @ 50-300 mcg/kg/min Do not drop HR to low. Do not administer if heart rate is already low (max dose 300mcg/kg/min) **(see drug formulary 19-8)**

ACE INHIBITION:

Enalaprilat 1.25 mg/dose. Give over 5 minutes every 6 hours. Doses as high as 5 mg/dose have been tolerated.

HIGH RISK OB TRANSPORTS

Sending Facility / Acceptance Procedure for JMH:

JMH Women's Hospital will accept all high-risk obstetrical patients in need of transfer from the Keys to a higher level of service. Since these transfers are typically time sensitive, the following procedure should be followed on every patient transferred:

1. The Transfer Center for JMH Women's Hospital must be called on **855-462-4658** immediately by the referring physician, and caller should state "we are requesting transfer of a High-Risk OB patient from the Keys". The sending physician's direct contact phone number should be given to the Transfer Center along with any other contact information.
2. Trauma Star Dispatch should be notified of the OB transfer and Trauma Star should proceed to the sending hospital.
3. Within 15 minutes, the sending physician should receive a call back from the Transfer Center to connect for peer-to-peer discussion, with the on-call JMH MFM accepting the patient and providing additional instruction if necessary, to stabilize the patient prior to transport. Physician-to-physician communication is required prior to transport in order to allow JMH adequate preparation for the patient. Internal Transfer Center escalation protocol is executed as needed to expedite transfer.
4. Complete patient medical records, along with any lab or any diagnostic testing should be prepared by the sending hospital and should include fetal monitor recording verifying fetal heart rate, contractions and/or any variability. Records should be ready for the Trauma Star flight crew upon arrival to avoid delay. Federal transfer regulations require patient medical records to accompany the patient at time of transfer.
5. Upon arrival at the sending hospital Trauma Star flight crew will receive information, any patient specific orders/medications, and proceed with patient stabilization and transport to JMH.
    - Flight crew must contact JMH Transfer Center at **855-462-4658** to provide ETA.
    - Flight nurse will provide follow-up call to sending physician/hospital after transport is completed.
    - 15 minutes prior to arrival, Flight crew must notify JMH Trauma Resus Dispatch **at 305-585-1148** to clear arrival at helipad.

HIGH RISK OB TRANSPORTS

The need for transfer by air should be discussed with the sending OB physician, via the labor nurse, or MCFR Medical Director prior to initiation of transport if the Flight Nurse has questions about patient's needs beyond available resources and/or medical necessity for air transport.

Prior to lift off, the sending and receiving physicians should have communicated and established that the receiving facility and physician have the specialized medically necessary resources to take care of the pregnant patient and newborn. Additional details and orders for transport, as well as the need for appropriate transport personnel may be needed prior to lift off and once the patient has been stabilized.

Contraindications to flight:

Trauma Star crews should **NOT** transport patients when delivery is imminent.

Suspected imminent delivery

- Patient response to contractions is changing (i.e., increase vaginal pressure, increased pain with contractions, difference in pain from prior contraction pattern experience)
- Vaginal bleeding beyond spotting
- Bloody show (may or may not indicate imminent delivery, however should be followed up with further exam)
- Uterine contractions greater than 6 per hour
- **Cervical dilatation of 4-5 cm** or greater (especially significant when patient is multiparous)
- **Station = 0,** fetal presenting part is engaged in the birth canal
- Any presenting fetal part observed
- Prolapsed umbilical cord observed

If any of the above criteria are observed, the medical crew may decline the patient until the patient has been stabilized/delivered and they are able to determine transport/transfer needs based upon an updated assessment of the patient and newborn.

Follow Universal Patient Assessment/Care Protocol as appropriate

&

UNIVERSAL HIGH-RISK OB ASSESSMENT / CARE PROTOCOL

MCFR Flight Crew should perform basic patient assessment and initiate standard medical care.

AIRWAY

- Maximize oxygenation/ ventilation and provide oxygen as indicated by patient's condition.

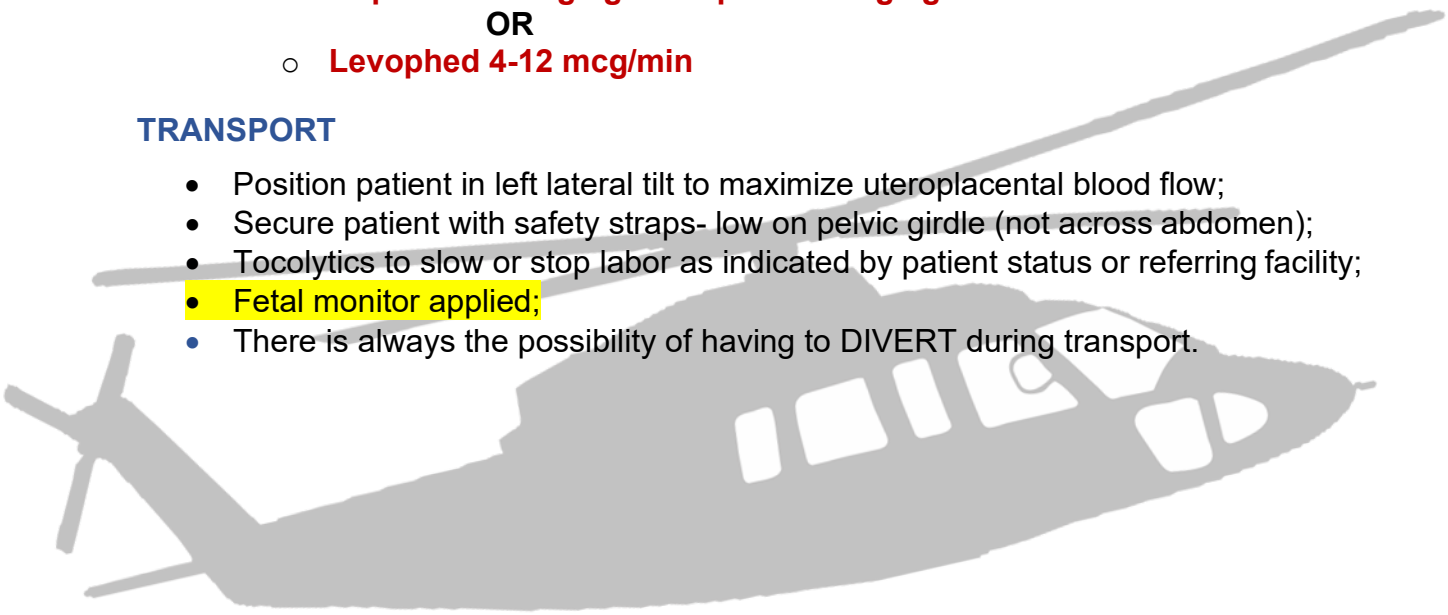
URINARY OUTPUT

- Void/ Foley. If there is no need for fluid resuscitation during transport, clamp Foley (a full bladder can delay fetal descent to slow delivery)

HEMODYNAMICS

- Maintain large bore IV or IO access and infuse **NS at 150ml/hr** (unless otherwise ordered)

Hemorrhage, Shock or profound Hypotension



- Maintain bilateral IV's or IO access
- Administer fluid boluses of **NS 500ml** as needed for hypotension, maintaining a systolic BP at least 90mmHg.

If BP is dropping quickly; Vasopressors maybe needed to maintain BP:

- **Dopamine 5mcg/kg/min up to 20 mcg/kg/min titrated**
  OR
- **Levophed 4-12 mcg/min**

TRANSPORT

- Position patient in left lateral tilt to maximize uteroplacental blood flow;
- Secure patient with safety straps- low on pelvic girdle (not across abdomen);
- Tocolytics to slow or stop labor as indicated by patient status or referring facility;
- Fetal monitor applied;
- There is always the possibility of having to DIVERT during transport.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

ABRUPTIO PLACENTA

The separation of the placenta from the uterine wall occurring as early as 20 weeks gestation, at various stages, and before delivery. There may be an internal or concealed hemorrhage, external hemorrhage, or complete separation of the placenta from the uterine wall. Signs and symptoms may be: vaginal bleeding, extremely tender or rigid abdomen or an increase size of the abdomen.

Treatment:

- Monitor for signs of shock
- Observe for signs/symptoms of impending DIC: bruising or petechia, oozing from venipuncture sites, hematuria, epistaxis, hemoptysis, and bleeding gums and document.

UTERINE RUPTURE

The complete disruption of all layers of the uterine wall. This allows abnormal communication between the uterine and peritoneal cavities, the majority of which occur in women with previous c-section.

Rupture can occur before or during labor and in the total absence of any risk factors. Sharp sudden abdominal pain, report of tearing sensation, loss of FHR, cessation of contractions, referred shoulder or chest pain, pallor, hypotension, tachypnea, and hemorrhagic shock. Should this occur during transport proceed with the following:

DIVERSION WILL BE NECESSARY. THIS IS A SURGICAL EMERGENCY.

Treatment:

- Monitor / Treat for Hypotension and Hemorrhagic Shock
- Monitor for vaginal blood loss.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

BREECH PRESENTATION

Breech presentation is used to describe the situation when the fetus's buttocks or legs present first.

Treatment:

- If delivery is in progress, allow the buttocks and trunk of the baby to deliver spontaneously;
- Direct the mother to push with contractions;
- Do not pull on the newborn;
- Once the legs and arms are delivered, support the body on the palm of your hand;
- Insert your finger into the baby's mouth and bring chin down to allow the head to deliver;
- Have an assistant provide supra-pubic pressure to facilitate delivery of the head;
- If the head is not delivered within 3 minutes, place gloved hand in the vagina with your palm towards the newborn's face;
- Form a 'V' with your index and middle fingers on either side of the newborn's nose and push the vaginal wall away from the face to create an airspace for the newborn until delivery of the head;
- Suction as needed;
- Transport and divert immediately while maintaining the airspace for the newborn.

SHOULDER DYSTOCIA

In cases of shoulder dystocia, delivery of the fetal head is followed by impaction of the fetal shoulders against the pubic symphysis and sacrum, within the pelvis. This complication becomes obvious when the head retracts slightly as it is pulled against the perineum (turtle sign).

Treatment:

- Place the pt.in a semi-fowlers position; flex the pts. legs with the knees pulled back up onto the thighs. Hips are abducted out as much as possible increasing the AP diameter of the pelvis.
- Suprapubic pressure can be used to attempt and push the anterior shoulder under the symphysis pubis;
- DO NOT USE FUNDAL PRESSURE;
- Consider reaching into the vagina to deliver the anterior shoulder by trying to rotate it in the pelvis, extraction of the posterior arm, or using the Woods' corkscrew maneuver to rotate the shoulders 180 degrees out of the pelvis;
- Delivery of the anterior shoulder must occur within several minutes.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

DIABETES MELLITUS IN PREGNANCY

A common medical complication in pregnancy. Diabetes in pregnancy increases the risk of several maternal and fetal complications and even mild maternal hyperglycemia is associated with adverse pregnancy outcomes. Continuous monitoring is important because the fetus can be affected if mom is not properly monitored and treated when the need arises.

Treatment:

- Current BG >250mg/dl determines need for insulin before leaving facility
- Obtain last dose of insulin Time/Type (short or long acting)
- Monitor for Hypertension
- Fetal Monitor - FHR, baseline and any variability;
- Monitor Contractions – duration / frequency / strength
- Monitor for DKA / Hypoglycemia
- Blood sugar <40mg/dl treat with
  - **D10 100ml**

    OR
  - **D5 250ml**

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

PAIN MANGAGEMENT

Pregnant patients who have pain from labor or from an illness or injury who are HEMODYNAMICALLY STABLE. These patients may be medicated to help reduce or alleviate pain.

Treatment:

Assess patient's hemodynamic status and level of pain

- **Fentanyl 0.5-1 mcg/kg (max dose 100mcg)**
  over 1-2 minutes IV q 30 minutes x 1

If Respiratory depression occurs – see Overdose protocol 5-4

Reassess and document level of relief of pain and/or nausea.

NAUSEA

Pregnant patients who have nausea and/or vomiting may be treated to relieve symptoms and increase comfort.

- **Ondansetron (Zofran) @ 4mg IV over 2-5 min**

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

PLACENTA PREVIA

The implantation of the placenta in the lower segment of the uterus. With this condition, the placenta is located on or near the uterine opening. The previa may be complete, partial, or marginal.

Signs and symptoms: Bright red, painless vaginal bleeding usually beginning in the third trimester.

Treatment:

- Monitor uterine activity every 5-10 min.
- Transport in a lateral position, preferably left, or with a left pelvic tilt. DO NOT PERFORM VAGINAL EXAM.
- Monitor / Treat for hypotension
- Continuously monitor fetal heart rate and record any variability.

PROLAPSED CORD

Prolapsed cord occurs when the umbilical cord is at or below the level of the presenting fetal part. Fetal brain damage or death may result if the blood and oxygen supply are obstructed or cut off.

Signs and symptoms: cord protruding from vagina, slowing of FHR, meconium stained amniotic fluid, pulsating cord felt on vaginal exam by sending OB physician.

Treatment:

- FHR continuously, and record every 5 minutes.
- To stop/slow uterine contractions **Terbutaline 0.25mg** SQ q 20 min PRN, **(max dose 1mg)**
- Position patient in a left recumbent position with pelvis elevated on two pillows.
- If FHR slows (less than 100 bpm), insert a sterile gloved hand into the vagina and exert continuous pressure on the presenting part in attempt to push the presenting part away from the cord to allow blood flow to the umbilical cord. Do not attempt to place the cord inside the vagina. Do not permit additional cord to escape from vagina. Hand must remain in vagina until baby is delivered, or continuous monitoring shows normal fetal heart tones with contractions.
- If the cord is protruding from the vagina, cover it with sterile saline dressing.
- Definitive therapy for a prolapsed cord is Caesarean Section.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

POST-PARTUM HEMORRHAGE (PPH)

Blood loss >500ml's after vaginal delivery or >1000ml's of blood after c- section is considered a post-partum hemorrhage.

Signs and symptoms include, flaccid and no uterine contractions, indications of shock post-delivery.

Treatment:

- Determine onset of bleeding
- Evaluate perineum, vagina, cervix for injuries and bleeding and apply direct pressure or ice packs for hematomas;
- May require bi-manual fundal massage q 5-15 min as indicated by bleeding and clots;
- Left lateral tilt to relieve pressure of the vena cava

AMNIOTIC FLUID EMBOLUS

Occurs when amniotic fluid gains access to the maternal circulation during labor or delivery resulting in obstruction of the pulmonary vasculature.

Signs and Symptoms: Acute shortness of breath, agitation, signs of hypoxia, chest pain, cyanosis, etc.

Treatment:

- Intubation may be indicated for rapidly deteriorating patient;
- Ventilator supported patients may require PEEP: start @ 5cmH20;
- Monitor mother and fetus (fetal monitor) frequently and treat mother's symptoms as indicated;
- Watch for evidence of D.I.C.

CERVICAL OR PERINEAL LACERATIONS

Treatment:

- Direct pressure until it can be repaired;
- Make note on how many cc's of blood and how many pads and/or dressings used to control bleeding;
- Fluid resuscitation as indicated

POST PARTUM HEMORAGE / AMNIOTIC FLUID EMBOLUS / CERVICAL OR PERINEAL LACERATIONS

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

PRE-ECLAMPSIA

A condition of pregnancy characterized by hypertension, edema, and proteinuria, which occurs usually after 20 weeks gestation.

Treatment:

- Assess uterine activity initially and get recording, if available.
- Change in FHR, re-position patient
- If labor is not present and seizures occur, observe for sudden onset of labor or evidence of abruption of placenta.

Treat systolic BP greater than160mmHg and/or diastolic BP greater than 100mmHg: Administer:

- **Labetalol 5-10mg IVP**

If patient's BP does not normalize. Administer

- loading dose of **Magnesium Sulfate:**
  - Mix 4g (8ml of 50% solution) in 100ml NS and infuse as tolerated over 20-30 minutes; followed by a maintenance 2-4g/hr infusion (4g in 1000 ml NS), if needed.

Discontinue infusion If signs/symptoms of Magnesium Sulfate Toxicity develop:

- if respiratory rate becomes less than 12/minute
  - **Calcium Chloride 10%, 1 gm slow IVP over 3 minutes**.
  - Assist ventilations with supplemental oxygen and ventilatory support as needed.
  - Have airway, suction, and oxygen ready for immediate use should seizures occur.
  - Assess for the development of or increasing severity of frontal headache, blurred vision, spots before the eyes, nausea, vomiting and/or epigastric pain. These indicate central nervous system involvement and worsening condition. Epigastric pain frequently precedes seizures.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

ECLAMPSIA

Signs and Symptoms: Grandmal seizure / Coma in patients with severe pre-eclampsia

If Seizure Occurs:

- Make sure the patient is in a lateral position and protect from injury.
- Secure airway as necessary. Administer high-flow oxygen via NRB. Suction as needed to maintain an open airway.
- Administer
  - **Versed 2-5mg every 2-3 minutes IVP**
    OR
  - **Ativan 1-2mg IVP**

If loading dose of Magnesium Sulfate was not previously given during pre-eclamptic phase

- Administer loading dose of **Magnesium Sulfate:**
  - **Mix 4g (8ml of 50% solution) in 100ml NS** and infuse as tolerated over 20-30 minutes;
- Followed by maintenance infusion of **Magnesium Sulfate (diluted) 2-4gm/hr.**
  - **4-6g of a 20% solution** is suggested. (Dilute the 50% solution by half to obtain the 20% dilution required).

    Example: 8ml (4g of the 50% solution diluted with 20ml of NS would give a 20% solution)

Discontinue infusion If signs/symptoms of Magnesium Sulfate Toxicity develop:

- if respiratory rate becomes less than 12/minute
  - **Calcium Chloride 10%, 1 gm slow IVP over 3 minutes**.
  - Assist ventilations with supplemental oxygen and ventilatory support as needed.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

PRETERM LABOR

Preterm labor is labor that occurs between 20 and 37 weeks gestation. To assess maternal/fetal status, provide physiological and psychological support and monitor tocolytic effects when attempts are made to slow/stop labor. Tocolytic drugs are used to delay labor for a short time (< 48hr) and include terbutaline, nifedipine, and NAISDs and are not usually used before 24 wks gestation.

Treatment:

- Contractions can be caused by dehydration in the mother so initiate **500cc bolus prior to tocolytic therapy** when there is a history of fluid depletion;
- Monitor contraction frequency and duration, observe for pooling of possible amniotic fluid and collect a sample if possible. Vaginal exams are not to be performed by Trauma Star crewmembers unless delivery is imminent
- Be prepared for delivery;
- Maintain antibiotics if sending hospital initiated;
- Antepartum steroids may have been administered to the patient prior to your arrival to accelerate fetal lung maturity this information should be provided to receiving facility.

Contractions occurring every 10 minutes or less and lasting at least 30 seconds administer

- **Terbutaline 0.25mg SQ** if maternal HR is <120 bpm and there is no history of cardiac disease. Second dose may be administered within 20min if needed and patient HR remains <120 bpm and show no signs of tremors, flushing or restlessness.
    - If Terbutaline has been administered >60 min prior to take off, may repeat dose as needed and tolerated by patient every 20 min. up to a maximum total dose of 1 mg.
- **Magnesium Sulfate**
    - Loading DOSE: **4gms in 100/cc NS over 20 – 30 minutes**.
    - Maintenance DOSE: **2-4gm/hr** (diluted to 20% solution) (Dilute the 50% solution by half to obtain the 20% dilution required).

      Example: 8ml (4g of the 50% solution diluted with 20ml of NS would give a 20% solution)

Discontinue infusion If signs/symptoms of Magnesium Sulfate Toxicity develop:

- if respiratory rate becomes less than 12/minute
    - **Calcium Chloride 10%, 1 gm slow IVP over 3 minutes**.

PRE-TERM PREMATURE RUPTURE OF MEMBRANES (PPROM)

Rupture of the amniotic membranes in a pregnancy of preterm gestation (prior to 37 weeks).

- Obtain History of PPROM- time, color, amount, and odor
- Avoid letting the patient sit or bend to avoid pressure on the cervix during transport.
- Monitor contraction frequency and duration without vaginal exams if the membranes are ruptured, unless delivery is imminent, fetal bradycardia or prolapsed cord;
- The major complication associated with pre-term labor is delivery of an immature fetus: Be prepared for delivery and resuscitation.

Follow Universal Patient & Universal High-Risk OB Assessment/Care Protocols as appropriate

VAGINAL DELIVERY

Every attempt should be made to determine if delivery is imminent prior to accepting patient for air transport. However, delivery should always be anticipated. If in flight delivery occurs consider DIVERSION if newborn is in distress.

Prior to departure from Hospital:

- Obtain additional blankets, multiple towels from hosp.
- Ensure a body bag is placed on stretcher to contain membranes / amniotic fluid
- Move OB kit and Handtevy Pediatric bag to main patient compartment

Treatment:

- Determine if delivery is imminent
  - Visible presenting part, bulging perineum, pt. stating 'I have to push'
- Assess perineum- bulging, bleeding, cord, meconium, presenting part
- Apply pressure/ support to perineum
- If membranes are intact and the fetus is crowning, then perforate them before the head is delivered, remove them from face
- Slowly deliver the head, firmly supporting it and the perineum
- Bulb suction the infant's mouth than nose before delivering the body
- Guide baby's head down to assist delivery of anterior shoulder then up to assist with posterior shoulder

Nuchal Cord – cord wrapped around infants' neck

- During delivery of head, check for nuchal cord, if present and loose, attempt to reduce it by slipping over the baby's head;
- If cord is tight, unable to reduce- clamp twice and carefully cut between clamps
- Once cord is removed or cut then prepare for delivery

Once delivery is complete

Late cord clamping (performed approximately 1–3 min after birth) is recommended for all births, while initiating simultaneous essential neonatal care. Early umbilical cord clamping (less than 1 min after birth) is not recommended

- Hold baby securely and stimulate by drying or flicking soles of feet
- Place baby on mother's chest or stomach and assess airway / need for resuscitation.

VAGINAL DELIVERY

- **Do not clamp / cut cord** unless the neonate is asphyxiated and needs to be moved immediately for resuscitation. For basic newborn resuscitation, if you can provide effective positive-pressure ventilation without cutting the umbilical cord, ventilation can be initiated before cutting the cord.
- If the placental circulation is not intact, such as in the case of abnormal placentation, placental abruption, umbilical cord avulsion, maternal hemodynamic instability or the need for immediate resuscitation of the newborn immediate cord clamping is appropriate.
- **Second flight crew member - assess / treat neonate according to appropriate neonatal protocol (Section 16)**

1-3 minutes after birth
Clamping “not earlier than one minute” should be understood as the lower limit period supported by published evidence.

- Clamp the cord at least 1” from the stump and again 1” from that clamp and cut between them
- If possible, retain sample of cord blood
- Assess perineum for tears/ lacerations and bleeding
- Allow placenta to separate on its own
- Apply fundal pressure/ massage as needed for bleeding/ placenta delivery
- Apply ice to perineum for control of swelling and/or bleeding from tears/ lacerations needing repair
- Watch for signs of postpartum hemorrhage; frequent fundal checks with massage as needed

COMPROMISED NEWBORN

Treatment:

- Dry, warm, and stimulate infant.
- Clear and maintain a patent airway
- If infant is not responding, rub vigorously and administer oxygen by mask.
- Suction mouth first and then nose with bulb syringe.

If the infant is not effectively breathing after 15-30 seconds of stimulation and oxygen

- Ventilate with BVM. Use neutral or sniffing position, ventilating enough to observe good rise and fall of the chest. Ventilations should be at a rate of 40- 60/minute. Monitor response: chest movement, breath sounds, color, tone, and heart rate.
- Insert NG/OG tube to prevent gastric distention if prolonged ventilation.

If heart rate does not improve and infant does not begin to breath

- Intubate and continue to ventilate.
- Begin chest compressions at a rate of at least 100/min if heart rate is less than 60 despite adequate ventilation for 30-60 seconds.
- Monitor cardiac rhythm as possible.
- Establish IV/IO access.
- Continue resuscitation

COMPRIMISED NEWBORN

NEONATAL ENDOTRACHEAL INTUBATION

While preparing for intubation, ventilate via BVM and supplemental oxygen to restore good skin color and adequate heart rate.

Select proper tube size:

- **Tiny premature** (<2.5lbs): 2.5mm
- **Other premature and average size** (3-7lbs): 3.0mm
- **Larger infants:** 3.5mm

Treatment:

- Place patient's head in proper head positioning which is the neutral or sniffing position.
- Insert laryngoscope with small straight blade along the right side of the mouth; push tongue to left.
- Prolonged pharyngeal stimulation will induce bradycardia and even heart block in some infants.
- Visualize cords and suction as required.
- Insert tip of endotracheal tube 1-2cm past glottis. Stabilize endotracheal tube with fingers.
- Confirm endotracheal tube placement via no auscultation of epigastric sounds and auscultation of clear, equal breath sounds.
- Secure endotracheal tube via tape. Until tube is secured, place middle finger of dominant hand on endotracheal tube and press tube into hard palate to secure tube. The rest of the hand will hold the jaw and provide a secure hold on endotracheal tube.
- Document endotracheal tube depth marking at gum line.
- Utilize ETCO2 detector and document waveform.
- Insert Ng/OG tube and decompress stomach to allow for more effective ventilations.

NEONATAL ENDOTRACHEAL INTUBATION

NEONATAL STABILIZATION

Provide warmth

- dry thoroughly
- remove wet towels
- cover head
- keep out of draft

Open airway, sniffing position:

- bulb suction, suction both mouth and nares, avoid prolonged suction
- Particulate meconium or depressed baby- intubate and perform direct tracheal suctioning
- Stimulate respirations- rub back, flick soles of feet

No active response- respirations or crying after two attempts

- Provide PPV via BVM-15-40 cm/H20 @ 40-60 bpm with FiO2=100% for 30 seconds and observe easy rise and fall of chest

Pause to evaluate: APGAR @ 1 minute and 5 minutes

- O2 blow-by of 80% for HR >80, RR adequate w/central cyanosis- DO NOT OVERSTIMULATE, slowly withdraw O2 if baby stays pink;
- O2 PPV/BVM @ 100% HR <80 not increasing, RR-gasping/apneic w/central cyanosis;
- Continue PPV/BVM until HR>100 w/adequate respirations;
- PPV >5 min consider OG tube, if available, for gastric decompression;
- Reassess HR after 30 seconds and @ 2 minutes
- BVM/PPV ineffective or prolonged need for ventilation, then ETI
- HR<60 or 60-80 and not increasing w/vent. and stimulation, begin chest compressions

Respiratory depressed infant known or suspected maternal drug use

- **Narcan 0.1mg/kg** IV,IM, SQ or ET q 2-3 min up to 1 mg.

Glucose <40 mg/dl:

- **D10W 2-4 cc/kg** IV / IO over 3-5 min
- Re-check BS q 15-30 minutes

NEONATAL STABILIZATION

NEONATAL PERSISTANT PULMONARY HYPERTENSION

Avoid stressors: Hypoxia, acidosis, pain, agitation, hypoglycemia, hypovolemia
Assess respiratory status closely and support with $Fi0_2$ & ventilation as necessary.
Monitor pre- and post-ductal oxygen saturations.

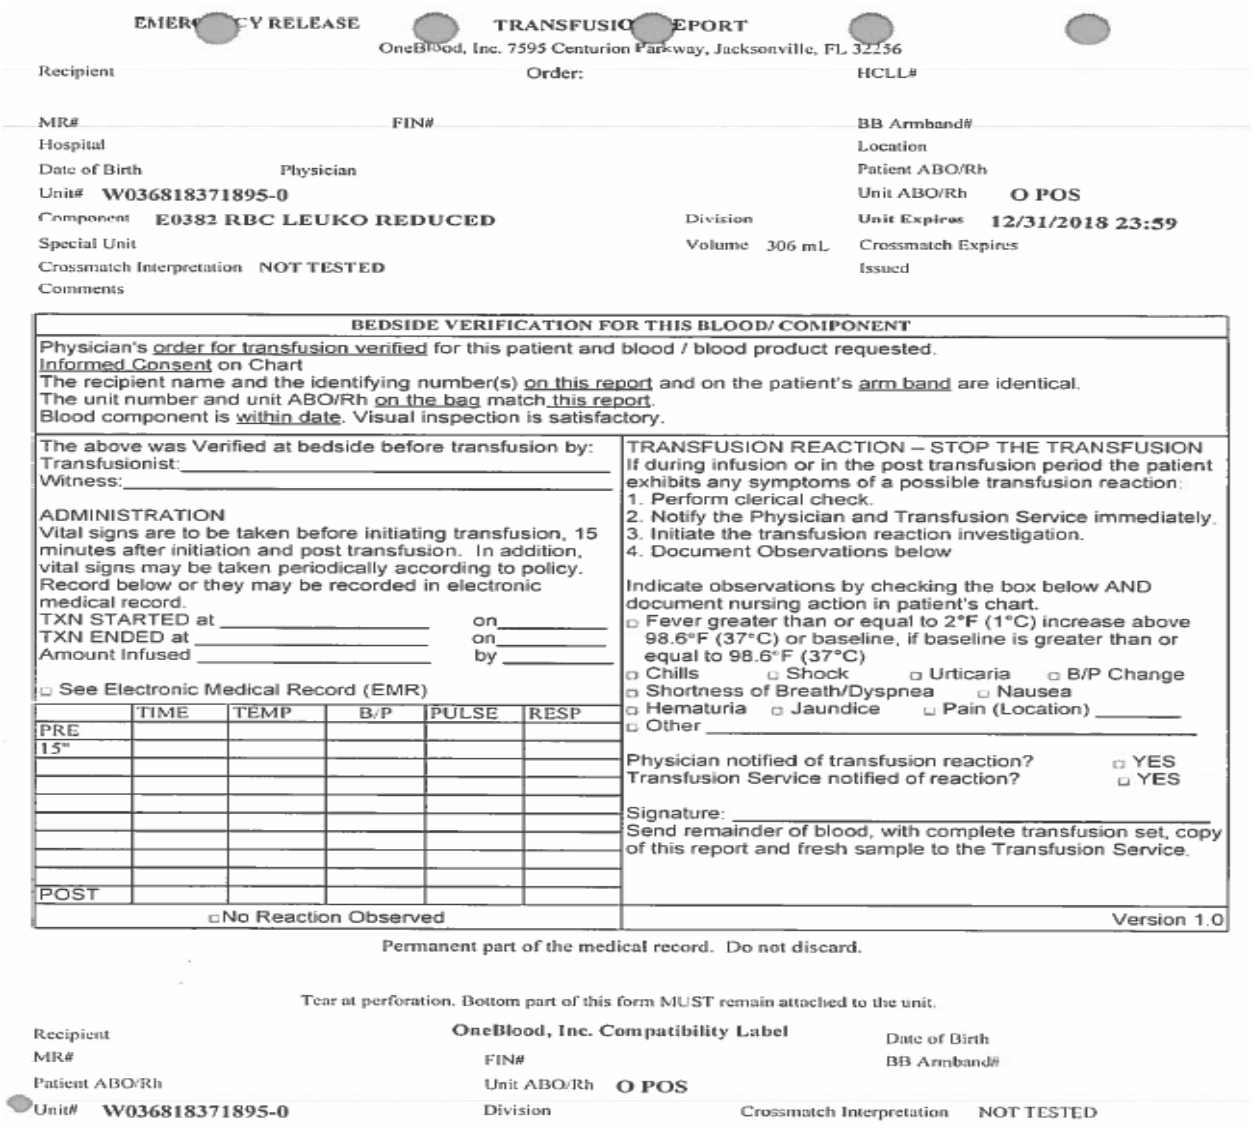
Treatment

- Correct metabolic acidosis.
- Sedate:
  - **Fentanyl 1-2 mcg/kg** and/or **Midazolam 0.1mg/kg** if blood pressure stable.
- Monitor glucose level closely.
- Monitor for hypotension & hypoperfusion.
  - **Dopamine 10-20 mcg/kg/min** may be initiated
  - Consider **Rocuronium 0.6 mg/kg** IV to facilitate ventilation. Consult receiving neonatologist prior to administration.

BLOOD TRANSFUSION

Step	Action
1	Obtain Consent from patient or family if possible
2	O- (O negative) PRBC will be used for transfusion
3	Ensure PRBCs have been maintained per policy (temperature WNL, ports WNL) Verify Unit number and blood type are the same on unit and transfusion form. If there are any problems with blood temperature, ports, or discrepancy in unit number or blood type, document problem and return to Oneblood.
4	Ensure IV access and patency. 18 gauge or larger preferred. IO is acceptable **No other medications can be given through blood administration IV line.** Ensure you have a 2nd IV line for all other medication.
5	Adults give **1-2 units** Pediatrics <13 give **1-2 10ml/kg bolus**
6	Ensure appropriate equipment and supplies 1L bag 0.9% NS Pressure bag Y Blood tubing Blood filter Blood warmer.
7	**Adult** Prime Blood tubing and filter with 0.9% NS and insert filter into blood warmer. Ensure all clamps on blood tubing and filter are clamped off. **Pediatric** Prime syringe pump tubing and filter and insert into blood warmer. Ensure all clamps on blood tubing and filter are clamped off. Prime 1000ml bag of 0.9% NS with 10gtt set and have ready to infuse.
8	**Adult** Place blood on pressure bag and Spike blood bag. Pressure bag should not exceed 300mmHg of pressure **Pediatric** Draw up blood amount into 60cc syringe and attach to syringe pump tubing.
9	Obtain baseline Temperature, B/P, HR, RR, and SaO2
10	Start Blood Transfusion. Monitor for cardiac rhythm, and signs and symptoms of reaction. If reaction occurs, document reaction and follow transfusion reaction guidelines. Document Temperature with VS every 15 minutes during transfusion. (Temperature should not exceed 39 C)
11	When the transfusion is complete Flush blood line with NS Document final Temperature with VS Remove blood tubing and discard. Flush IV site Continue to monitor for reactions. Complete Uncrossmatched Emergency Blood Release Form and Transfusion Record
12	Completed and partially used units and original completed transfusion report is to be given to receiving facility nurse. (make copy of transfusion report for TS records). Have receiving nurse sign Uncrossmatched Emergency blood release form.
13	Send email to Chief Flight Nurse for Usage Notification / Re-ordering

Blood Transfusion Reaction Guidelines



Reaction	Treatment

Allergic Reaction	For mild skin itching, **do not stop** transfusion administer Diphenhydramine.
	• **Adults**
	  ○ **25mg IVP.**
	• **Pediatric**
	  ○ **1mg/kg not to exceed 25mg**

Fever and Chills	• Immediately Discontinue transfusion. • Hang 0.9% NS to keep vein open. (If SBP less than 90 administer NS at a rate to maintain SBP >90.) • Notify Medical Director • Closely monitor VS and I&O • Give remaining blood to receiving facility
Anaphylactic Reaction	• Immediately Discontinue transfusion. • Hang 0.9% NS to keep vein open. (If SBP less than 90 administer NS at a rate to maintain SBP >90.) • Notify Medical Director • **Follow Anaphylactic protocol** • Closely monitor VS and I&O • Give remaining blood to receiving facility
Febrile Transfusion Reaction Defined as increase in temperature during transfusion. Symptoms include temperature increase of 1-degree C greater than baseline. Other symptoms include chills, headache, facial flushing, palpitations, cough, chest tightness, increase in pulse rate and flank pain.	• Immediately Discontinue transfusion. • Hang 0.9% NS to keep vein open. (If SBP less than 90 administer NS at a rate to maintain SBP >90.) • Notify Medical Director • Administer in 2nd IV line **Diphenhydramine 25mg IVP** • Closely monitor VS and I&O • Give remaining blood to receiving facility
Hemolytic Transfusion Reaction Defined as immediate lysis of transfused red blood cells can result in fever and or tachycardia. Symptoms include chills, back/flank pain, nausea/vomiting, dyspnea, flushing, bleeding, hypotension, increase in baseline temperature by 1-degree C, headache, facial flushing, palpitation, chest tightness, and cough.	• Aggressive NS infusion • Notify Medical Director • Closely monitor VS and I&O Immediately Discontinue transfusion • Give remaining blood to receiving facility

Reaction	Treatment
Dilutional Thrombocytopenia Defined as platelet loss due to absence of viable platelets in PRBC. Generally seen in large quantities of PRBC transfusions to treat trauma or massive hemorrhage. It is caused by platelet loss out of the body and platelet dilution with replaced red cells and crystalloids. This is generally not seen with infusion of 1-2 units, unless a patient has pre-existing thrombocytopenia or disseminated intravascular coagulation(DIC). Symptoms include oozing from mucosa, wounds or puncture sites, petechial spots, ecchymosis, and S/S of DIC	• Immediately Discontinue transfusion. • Hang 0.9% NS to keep vein open. (If SBP less than 90 administer NS at a rate to maintain SBP >90.) • Notify Medical Director • Closely monitor VS and I&O • Give remaining blood to receiving facility
Potassium Intoxication Defined as hyperkalemia, and is a common complication in mass transfusion of stored blood. Stored RBC usually contains more than 60MEQ/L of potassium. Symptoms include flaccidity, muscle twitching, bradycardia, EKG changes, (tall peaked T-waves, prolonged P-R interval, and QRS) and cardiac arrest.	• Hold Transfusion • Consult Medical director to see if infusion should be continued. • **Initiate Hyperkalemia protocol** • Closely Monitor VS, and I&O • If cardiac arrest occurs, follow cardiac arrest protocol
Hypocalcemia (from citrate intoxicity that binds Ca) Patients with acute or chronic hepatic insufficiency are at relatively higher risk of citrate toxicity. To avoid Citrate toxicity, **administer PRBC at a minimum rate of 1 unit over 6 minutes** and avoid rapid transfusion. Symptoms include arrhythmias, hypotension, muscle cramping, nausea, vomiting seizure activity, and tingling sensation in the fingers.	• Hold Transfusion • Consult Medical director to see if infusion should be continued. • **Administer Calcium Gluconate 1 gm slow IVP** in 2nd IV. • Closely Monitor VS, and I&O
Hypothermia Symptom include chills, shivering, hypotension, arrhythmias, bradycardia, cardiac arrest.	• Hold Transfusion • Consult Medical director to see if infusion should be continued. • Warm patient • Obtain 12 lead EKG • Warm blood if transfusion is resumed • If cardiac arrest occurs, follow cardiac arrest protocol

Alarm	Correction
Check Barrel Pump has detected that the barrel clamp is not fully closed on the syringe barrel, or the syringe barrel is not properly seated in the Flange slot.	Make sure the syringe is centered in the barrel clamp, and that the syringe flange is in the flange slot. To ensure that the syringe is properly seated. Press the barrel clamp firmly against the syringe.
Check Flange Pump as detected that the syringe flange is noted seated in the flange slot.	Make sure the syringe is centered in the barrel clamp, and that the syringe flange is in the flange slot. To ensure that the syringe is properly seated. Press the barrel clamp firmly against the syringe.
Check Plunger Pump has detected that the plunger capture mechanism has not captured the syringe plunger.	Grasp the finger frip on the plunger clamp and pull it all the way out. Slide the clamp down until it contacts the syringe plunger. Push in firmly.
Check Syringe At least two of the three syringe mounting points (flange, barrel, plunger) are not correctly positioned.	Check flange, barrel, and plunger, and ensure that they are mounted correctly.
Line Occluded There is an occlusion, line constriction, or other condition that causes excess plunger force.	Check for empty syringe, kinked tubing, clogged IV catheter, and foreign material preventing movement of the pump mechanism. Releieve residual syringe pressue by releasing the plunger clamp. If plunger clamp is not released an unintentional bolus may occur when blockage is cleared.

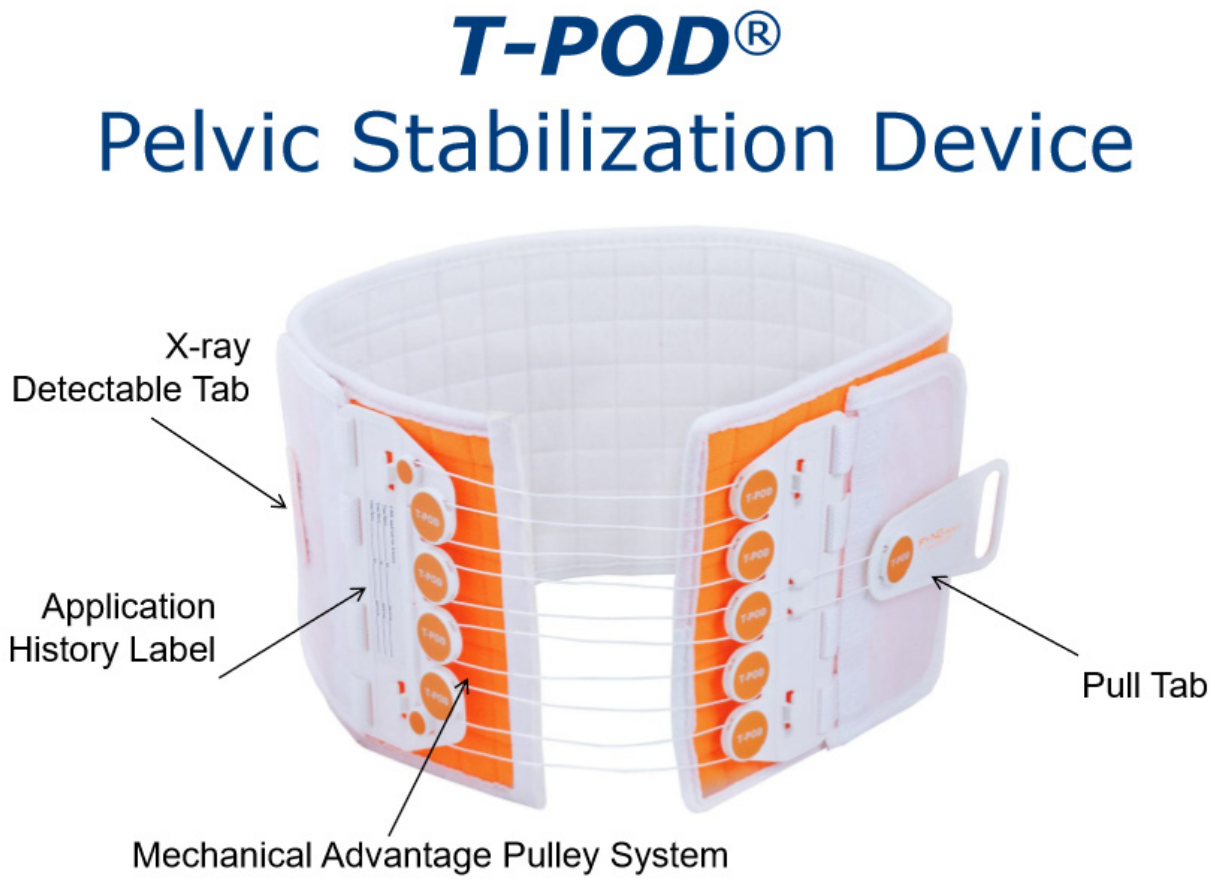
PELVIC BINDER



The pelvic binder will be used to provide stabilization, aid in pain management, and attempt to lower the mortality rate when caring for patients that have possible pelvic fractures. Use the pelvic binder as initial treatment of a suspected pelvic fracture to help prevent blood loss and aid in pain control.

Indications:

- Known or suspected pelvic fractures and/or 'Open-Book' type fractures with or w/o hemorrhage.

Contraindications:

- Not to be used if there is an impaled object in the area within confines of binder.

Application Procedure

1. Slide Belt under supine patient and into position under the pelvis.

2. Trim the Belt, leaving a 6-8” gap over the center of the pelvis.

3. Apply Velcro-backed Mechanical Advantage Pulley System to each side of the trimmed Belt.

4. Slowly draw tension on the Pull Tab, creating simultaneous, circumferential compression.

5. Secure the Velcro-backed Pull Tab to the Belt.

6. Record the date and time of application on the space provided.

PREAMBLE

ADMINISTRATION CODE OF ETHICS

An employee in the public service must always demonstrate the highest standards of personal integrity, truthfulness, honesty, and fortitude in all public activities in order to inspire public confidence and trust in public institutions.

Perceptions of others are critical to the reputation of an individual or a public agency. Nothing is more important to public administrators than the public's opinion about their honesty, truthfulness, and personal integrity.

It overshadows competence as the premier value sought by citizens in their public officials and employees.

Any individual or collective compromise with respect to these character traits can damage the ability of an agency to perform its tasks or accomplish its mission. The reputation of the administrator may be tarnished. Effectiveness may be impaired. A career or careers may be destroyed.

The best insurance against loss of public confidence is adherence to the highest standards of integrity, honesty, truthfulness, and fortitude.

Public administrators are obliged to develop civic virtues because of the public responsibilities they have sought and obtained. Respect for the truth, for fairly dealing with others, for sensitivity to rights and responsibilities of citizens and for the public good must be generated and carefully nurtured and matured.

If one is responsible for the performance of others, the reasons for the importance of integrity must be shared with them. They must be held to high ethical standards and taught the moral as well as the financial responsibility for the public funds under their care.

If one is responsible only for his or her performance, then he or she must not compromise honesty and integrity for advancement, honors, or personal gain.

We must strive to be discreet, respectful of proper authority and our appointed or elected superiors, and sensitive to the expectations and the values of the public we serve. We must practice the Golden Rule: doing to and for others what we would have done to and for us in similar circumstances.

One should be modest about his or her talents, letting the work speak for itself and be generous in their praises of the good work of our peers and associates. We must be ever mindful to guard the Public Purse as if it were our own.

No matter whether an official or an employee, by our own example, we should give testimony to our regard for the rights of others, acknowledging their legitimate responsibilities and not trespassing upon them. We must concede gracefully, quickly, and publicly when we have erred and be fair and sensitive to those who have not fared well in their dealings with our agencies and their applications of the law, regulations, or administrative procedures.

The only gains one should seek from public employment are salaries, fringe benefits, respect, and recognition for work. One's personal gains may also include the infinite pleasure of doing a good job, helping the public, and achieving career goals.

No elected or appointed public servant should borrow or accept gifts from the staff or any corporation which

buys services from, or sells to, or is regulated by his or her governmental agency. If one's work brings him or her in frequent contact with firms supplying the government, he or she must be sure to pay his or her own expenses.

Public property, funds and power should never be directed toward personal or political gain. We must make it clear by our own actions that we will not tolerate any use of public funds to benefit one's self, family or friends, and finally, we must serve the public with respect, concern, courtesy and responsiveness, recognizing that service to the public is beyond service to oneself.

END

INTRODUCTION

The County may require any employee to attend any and all training deemed necessary to perform his or her job duties adequately and safely. Prior to employment with Monroe County, it is the applicant's responsibility to provide proof of completion of said training requirements. Once employed, any certification or training deemed necessary for continued employment is to be paid by the individual with reimbursement made after successful completion. See 2.12, item A.

Departments may have ongoing training or education requirements for certain positions. In some cases, courses, books, tuition, testing and other related fees associated with the education or training, including travel may be paid for in advance by the department in which case the employee will not be required to be reimbursed. In other cases, the employee may pay for the courses, books, tuition, testing and other related fees, and travel expenses, and be reimbursed. In those cases, the expenditures require prior approval of the department head. Supporting documentation acceptable to the Clerk must be submitted for reimbursement. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules and regulations as may govern the Clerk's disbursal of funds.

Employees must complete the course within one year from date of receiving any advance payment. If course is not completed within one year, the employee must refund to the County the entire advance payment within one month.

2.12 EDUCATIONAL ASSISTANCE PROGRAM

A. EDUCATIONAL ASSISTANCE POLICY[3] ([3] **See Florida Statutes 112.063**)

The County may provide financial assistance to County employees for educational courses which are applicable to the employee's field of work, or of such nature and quality to directly contribute to the employee's value and potential growth in the County service. Employees required to maintain training and certification requirements as a condition of employment are also eligible for this program.

In the case of a degree-seeking student; although attainment of said degree may provide job enhancement for the employee, courses taken in the pursuit of the degree must have some relation to County employment.

B. ELIGIBILITY

An employee will be considered eligible for participation in the Educational Assistance Program if he has been a full-time employee of the County for one year or more and is so recommended by the Supervisor and Department Head.

An exception may be made for those employees referred to in Ordinance No. 008-1987, as approved by the Board of Commissioners.

C. APPLICATIONS

An Employee must submit the completed Request for Educational Assistance Form to the immediate Supervisor and Department Head for approval prior to the employee enrolling in the course.

The Department Head shall review the employee's eligibility to participate in the Educational Assistance Program and shall be responsible for the administration of the program.

Upon enrollment in the course, the employee shall submit to the Department Head the enrollment receipt and textbook receipt.

Upon completion of the course, the employee shall submit to the Department Head the proof of successful completion. The tuition and textbook receipts, the Audit Slip or Purchase Order and the proof of successful completion will be sent to the Finance Department for processing. A copy of all the documentation will be sent to the Human Resources office and placed in the employee's personnel file.

D. TIME OFF FROM WORK

Qualified employees may be permitted time off from work with pay to attend educational training classes or seminars which are related to their job duties, but which are not available during non- working hours, if approved by the applicable Department Head. Allowable time off will be restricted to a maximum of 160 hours in any calendar year unless specifically otherwise approved by the County Administrator.

Employees are attending this training on a volunteer basis and time allowed for attending such training does not constitute hours worked for the purpose of computing required overtime payments.

E. REIMBURSEMENT

1. Upon the successful completion of approved courses, the employee will be eligible for

reimbursement of tuition, textbooks, online access fees, distance learning fees, and lab fees. The employee must present a certification of successful course completion and a paid receipt for tuition, textbooks, online access fees, distance learning fees, and lab fees to the Department. Requests for reimbursement must be made within sixty days after completion of the course.

2. Textbook reimbursement allowance is limited to $125 per course. The employee is responsible for paying any difference.

3. Reimbursement for tuition will be made only to employees who are on the active payroll when payment is due.

4. Where tuition is covered under benefits from the Veterans Administration or a philanthropic source, qualified employees may participate only in the "time off from work" feature of the program.

5. Reimbursement under the Educational Assistance Program constitutes income to the employee. The County must withhold taxes from this income and report to government agencies in the same manner.

6. Employees must provide their own transportation to and from training.

7. Refunds shall be limited subject to the availability of funds and the number of participants in the program.

8. This program may be amended or terminated at any time; however, such amendment or termination will not affect any courses of study previously approved.

F. CONDITIONS OF REIMBURSEMENT

Employees who obtain reimbursement for any educational assistance shall remain with the County at least two (2) years after completion of courses, otherwise any reimbursement which was made by the County to the employee shall be refunded to the County, if the employee terminates within less than two (2) years from date of completion of educational assistance courses. Further funding to the County shall be accomplished by deducting all reimbursement due from the employee's final paycheck.

G. OBTAINING A DEGREE WHILE EMPLOYED

Effective May 1, 2016, employees who obtain a degree from an accredited institution, which is beyond what is minimally required for the position that he/she holds with the County and that degree adds value to the department as well as the County, will receive a $1,500 per year ($125 per month) salary increase for each degree obtained. The incentive pay shall be divided and shall be paid 1/26th per pay period. In the event the employee reaches the maximum of their current pay range, the amount is to continue to be added to the employee's salary.

In the event the employee has a personnel action which results in a reclassification, transfer, hire through promotional opportunity or if the employee receives any other type of salary increase in accordance with these personnel policies and procedures, the incentive pay shall be added to any base pay received as a result of the personnel action as long as that degree is not a requirement of the position and the degree continues to add to the value of the department as well as the County.

2.13 EMPLOYEE SAFETY

It is the responsibility of the County to promote and pursue a safe and healthy environment for all employees. Monroe County has a viable safety program administered and enforced by the Monroe County Safety Officer according to the Safety Policies and Procedures adopted by the Board of County Commissioners.

Employees will observe all safety rules and regulations established by the State of Florida and County Government. Department Heads and Supervisors are responsible for the observance of those rules within their jurisdiction. Failure to comply may result in disciplinary action.

2.14 PROMOTIONAL OPPORTUNITIES

A. It is the policy of the Board of County Commissioners to consider qualified County employees for promotional opportunities before applicants from the general public are considered. An employee must remain in his or her respective position for a period of at least six (6) months before transferring to another position through the Promotional Opportunity system. If it is thought to be in the best interest of the County to waive this rule, prior approval of the appropriate Department Head(s) and the County Administrator must be obtained. Please review Section 2.04 Probationary Period. Promotional Opportunities will be posted on bulletin boards throughout the County system for seven (7) calendar days.

a. Contractual Commissioner Aide positions (Executive Assistants) will not be required to be posted and/or advertised unless at the request of the Commissioner with the vacancy.

B. An eligible employee wishing to apply for a promotional position will complete the Promotional Opportunity Application Form within the seven (7) day period (date of posting is day one (1)) and submit it to the Human Resources office. The Human Resources office will review these completed forms and forward all in-house applications to the Department with the vacancy for consideration.

C. During the seven (7) days the position is posted, any qualified County applicant is to be given preference in the vacant position. All Promotional Opportunity applications must be reviewed by the department with the vacancy.

It is the responsibility of the hiring department to review in-house applications and conduct interviews for qualified County applicants. Any qualified employee filing a Promotional Opportunity within the required seven (7) day period is to be considered a priority. In the event the Promotional Opportunity is not received within the seven (7) day period, the in-house employee shall lose preferential treatment.

D. Preference will also be granted to veterans claiming the veteran's preference during the first promotion following reinstatement or reemployment in accordance with the rules set forth in Chapter 295, Florida Statutes, and regulations issued by the Florida Department of Veteran's Affairs.

E. An employee may apply for and accept a position at a lower pay grade and responsibility. This will be considered a voluntary transfer and any reduction of pay that is accepted by the employee shall not be eligible for grievance.

2.15 EQUAL OPPORTUNITY POLICY

A. The County is firmly committed to equal employment opportunity, and does not discriminate in any employment-related decisions on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity or expression, pregnancy, age, disability, or other similar factors that are not job-related.

The County's policy of equality of opportunity applies to all organizational levels of the County and to all job classifications. It is the responsibility of each elected or appointed public official, Assistant County Administrator, Department Head and Supervisor to give the County's non-discrimination policy full support through leadership, and by personal example. In addition, it is the duty of each public official and each employee to help maintain a work environment which is conducive to, and which reflects, the County's commitment to equal employment opportunity.

B. All personnel actions shall be based solely on ability and fitness of the individual.

C. The Human Resources office shall see that information about job opportunities is readily available to all employees and citizens of the County, and a continuing program shall be conducted to make the Equal Employment policies known to all citizens of the County.

D. In this capacity, the Human Resources office will be responsible for anticipating problems, formulating solutions, presenting complete analysis of alternatives, and recommended corrective actions and coordinating the recommended actions with public officials, Assistant County Administrator, Department Heads and employees.

In the implementation of this policy, the County will aggressively seek personnel for all job levels within the organization through upgrading and recruitment from minority group members and women.

This policy is specifically included and will be a continuing and essential component of the Personnel Policies and Procedures.

E. Harassment of any kind is prohibited and will not be tolerated. A violation of this policy will subject an employee to disciplinary action, up to and including termination of employment. Any violation which cannot be remedied through the disciplinary process set forth in these policies and procedures may be considered by the Board of County Commissioners for any other avenues legally available, such as, but not limited to, contractual remedies, no trespass orders, injunctive relief, removal of workplace accommodations which have been abused, or through federal or state laws protecting workers in the workplace.

Prohibited harassing conduct includes written or graphic material that is placed on walls, bulletin boards or elsewhere on the premises or that is circulated in the workplace.

The above policy includes, but is not limited to, sexual harassment. Sexual harassment is defined as:

If an individual experiences or observes any form of harassment of an employee by any person (regardless of the offender's identity or position), he/she is required to promptly report the incident to an Assistant County Administrator, Department Head, the Human Resources Administrator, or the County Administrator. Assistant County Administrators and Department Heads are responsible for promptly reporting the allegations or concerns to the Human Resources Administrator or the County Administrator. (It is encouraged that the individual put such a complaint in writing). If the complaint is about the County Administrator or any other person whose official or political position leads an employee to believe that the complaint may be ignored or handled improperly, the individual who experiences or sees any prohibited form of harassment which he/she is required to report may report the conduct to a county commissioner, who shall see that it is properly processed by staff in an objective manner. The complaint will be immediately investigated and kept confidential to the extent possible. Individuals who make complaints have an obligation to assist and cooperate with the County's investigation.

If the County determines that an employee (including public officials, Assistant County Administrator, Department Head, or supervisor) or third-party has harassed another individual, appropriate remedial action will be taken against the offender, up to and including termination. If the harassment involves a third party such as a contractor, vendor, supplier, or other visitors to County buildings or the workplace, that person may be barred from the premises.

The County prohibits any form of retaliation or coercion (including intimidation, interference, or discrimination for lodging a bona fide complaint under this policy or for assisting in the investigation of a claim of harassment. If an individual experiences or observes any form of retaliation by any person, employee or non-employee (regardless of the offender's identity or position) he/she is required to promptly report the incident to an Assistant County Administrator, Department Head, the Human Resources Administrator or the County Administrator. Assistant County Administrators and Department Heads are responsible for promptly reporting the allegations or concerns to the Human Resources Administrator or the County Administrator. It is encouraged that the individual put such a complaint in writing. The complaint will be immediately investigated and kept confidential to the extent possible. The county will protect individuals who make a complaint to the extent legally possible. Any bona fide complaint will in no way be used or held against an employee (or non-employee) nor will it leave an adverse impact on the complaining employee's employment.

Individuals shall not assume that the County is aware of a harassment problem and are required to adhere to this policy and make a report so that the problem can be resolved. Any questions concerning this policy should be addressed to Human Resources.

F. If one believes that the County has violated the Equal Opportunity Policy, as stated in this section, he/she should contact the designated EEO Coordinator at humanresources@monroecounty-fl.gov. The EEO Coordinator shall investigate and respond to the complaint.

Monroe County has established a program to recognize County employees who have been in the County Service for Five, Ten, Fifteen, Twenty, Twenty-five, and Thirty; and beyond as indicated. Grant and part-time employees will be eligible for the years-of-service program.

The month prior to the employee's anniversary date, the Human Resources office will send Department Heads a list of employees that are eligible for a years of service award that month along with a template letter for recognizing the employee. Each Department Head will be responsible for completing and providing a letter of recognition to the employee along with providing a copy to Human Resources to be placed in the employee's personnel file. Payment of the award will be distributed as outlined below and will be included in the employee's paycheck. The Human Resources office will coordinate the award payment with the Payroll office. It is the Department's responsibility to discuss the presentation opportunity with the employee and together come to a decision as to whether the employee would like to be recognized at the BOCC meeting. If the employee chooses to be recognized at the BOCC meeting, the Department must coordinate with the Human Resources office regarding the appropriate award as outlined below, and with the County Administrator's office to ensure that said recognition is placed on the meeting agenda. Whenever possible, this presentation will take place at the BOCC meeting in the employee's location. The following will be provided in a lump sum payment to the employee:

All employees are eligible to submit suggestions with the exception of the County Administrator, Assistant County Administrator(s), and the County Attorney.

SECTION 3

3.01 CLASSIFICATION PLAN

A. SCOPE

The Classification Plan provides for a systematic and equitable arrangement of job classes and provides for a complete inventory of all County positions. The purpose of the plan is to group various positions into related classes based upon the range of duties, responsibilities and level of work performed.

B. COMPOSITION OF THE CLASSIFICATION PLAN

The Classification Plan comprises written job descriptions for each class of work included in the County service. Job descriptions are intended to be a general outline of job duties performed by employees in a particular job. They are used as a guide in recruiting and examining candidates for employment, in determining the lines of promotion and developing training programs, as guidelines in determining salary relationships and in providing uniform job terminology to convey the same meaning to all concerned. Job descriptions may be changed from time to time by the County. This change may expand or reduce the job duties of any job classification. Employees will be given as much advance notice of a change in their jobs as is practicable. The job descriptions are maintained by the Human Resources office and should be reviewed and updated annually, or whenever a change occurs in the duties of any position. Each job description will be approved by the Department Head, the Assistant County Administrator (if applicable), and the County Administrator. Each employee will receive a copy of his or her respective job description at the time of his or her employment, and any time there is a change in his or her job description.

3.02 POSITION AUDIT PROCEDURE

The County Administrator is charged with the responsibility of initiating position audits of any or all County service positions at any time. Other position audits may be initiated by written request to the County Administrator from the Department Head or Assistant County Administrator in which the specific position is located, or the incumbent of the position to be audited. All requests must be approved by the Department Head and Assistant County Administrator.

Position information will be gained through completion of a Job Assessment Tool (JAT) by the incumbent or by the Supervisor of the position if the position is vacant, and through field studies of the position, which may include a personal visit with the position incumbent by a representative of the Human Resources office. The applicable Department Head and Assistant County Administrator should review and make recommendations to the County Administrator through the Human Resources office on all proposed new positions, changes, and position descriptions.

3.03 DETERMINATION OF CLASSES

A. The Human Resources office upon certification of funds and findings that the proposed class or classes are needed, shall propose new or revised classes of work as well as the abolition of existing or obsolete classes, to the County Administrator for appropriate action.

B. Whenever an employee's position is abolished under this section, said employee shall have first consideration for a position in a similar classification that may arise in the County service for a period of one year. However, if that employee refuses an offer for a similar position or, if that employee within the

one-year period elects to take any position in the County service, said employee shall be removed from preferential consideration.

3.04 ALLOCATION AND RECLASSIFICATION OF POSITIONS

A. The Human Resources office, after having determined the content of the positions and having received the certification of funds and findings that the proposed class or classes are needed, shall propose new or revised classes of work as well as the abolition of existing or obsolete classes, to the County Administrator for appropriate action. Recommendations for changes may be made by the Department Head, who must submit sufficient documentation for the change, including assurance(s) that the respective departmental budget contains sufficient funds.

B. An employee may be reclassified to a different title and/or pay grade at any time the County Administrator deems appropriate, after receiving good and sufficient documentation. A temporary reclassification does not constitute a promotion or demotion. A change in title and/or pay grade which results from an evolution into a reduction of duties and/or responsibilities does not constitute a demotion.

3.05 STATUS OF AN INCUMBENT IN A RECLASSIFIED POSITION

When the incumbent of a position, through diligent application of work, is officially assigned more difficult and significant additional responsibilities and duties which are at a higher level exceeding the regular duties of his/her current classification or indicate that the current qualifications (key job requirements) are insufficient to accomplish the successful execution of the work program of the operation the Human Resources office shall perform a study of the present duties and responsibilities of the position. If it is determined after recommendation by the Department Head, Assistant County Administrator and Human Resources that the position should be reclassified, the County Administrator may require that the incumbent undergo a prescribed test of fitness, depending on the conditions of the reclassification and the nature of the position to be reclassified before approval. A revised job description will be submitted by the Department Head for approval by the Assistant County Administrator (if applicable) and the County Administrator which includes the additional duties of the position. The incumbent's position reclassification is conditioned upon the determination that the incumbent meets the minimum qualifications of the higher classification. An employee reclassified in this manner will not serve an additional probationary period as a result of this reclassification.

3.06 POSITION CONTROL

All positions are established and maintained through a budget each fiscal year in accordance with established budget and accounting procedures. The establishment of a new or additional position can only be based on adequate justification of need and the availability of funds. Such additions must be approved by the County Administrator and the Board of County Commissioners. The provisions herein do not relate to the Pay Plan, but to position statuses created by need and necessity only.

The Department of Employee Services shall maintain a position control system in the office of Human Resources.

Important:

All additions, revisions, reclassifications, or other personnel actions having a financial impact on the County shall be reviewed by the Human Resources office and the OMB Department and approved by the County Administrator.

PAY PLAN

SECTION 4

4.01 PURPOSE

The Pay Plan is designed to provide a fair and equitable method for payment of employees in the County service. It also establishes a set of rules and a uniform system of administration.

4.02 ESTABLISHMENT OF THE PAY PLAN

The Pay Plan shall be directly related to the Classification Plan and is the basis for payment of employees in the County service. This plan shall be established with consideration being given to the following factors:

A. Relative difficulty and responsibilities existing between various classes of work.

B. Prevailing wage scales, for similar types of work, found in public and private industry in the local labor market.

C. Availability of qualified personnel.

D. Economic conditions found in the area.

E. Fiscal policies of the Board of County Commissioners.

4.03 AMENDMENTS

The County Administrator shall make amendments to the Pay Plan when, in his discretion, economic conditions, labor supplies, or other considerations indicate a need for such action.

Department Heads may recommend to the County Administrator possible amendments to the Pay Plan by providing sufficient justification to make an evaluation of the causes and conditions requiring the change within the confines of their respective departmental budget.

4.04 PAY PLAN REVISIONS

The Board of County Commissioners must approve the County Administrator's recommended Plan of Compensation and subsequent revisions for approval and adoption.

4.05 ADMINISTRATION

The Human Resources office, in conjunction with the OMB Department, shall have the responsibility for the day-to-day administration of the compensation plan. Approval of all hiring rates and other payroll changes shall require approval of the County Administrator in accordance with these personnel policies, except that matters with respect to compensation of staff and support personnel of the office of the County Attorney shall be set by the County Attorney, subject to budgetary approval of the Board of County Commissioners.

4.06 APPLICATION OF THE PAY PLAN

All employees shall be employed and paid in accordance with the rates and policies established by the Pay Plan for the specific job classification under consideration, unless otherwise stipulated in these policies.

In no case shall an employee's salary exceed the maximum pay range of the pay grade of a position. Contract positions may be an exception if the position does not have an assigned pay grade.

4.07 STARTING RATES

A. The minimum salary established for a position is considered the normal appointment rate for new employees.

B. Appointments below or above the minimum salary may be authorized in the following situations:

1. In the event an applicant does not meet the minimum qualifications but is expected to obtain said qualifications within 6 months, the hiring authority may request appointment as a "trainee". In such cases, the employee should be hired at an appropriate rate below the minimum starting salary.

2. Occasionally, certain jobs may have to be paid more at the time of hire to attract and retain competent employees. The prospective employee's starting salary should not exceed the current salary of any employee with the same position who has comparable or greater qualifications.

i. If the applicant's training, experience, education, or other qualifications are substantially above those required for the position, the County Administrator may approve employment at a rate above the minimum established for the class. The need to make appointments in excess of the minimum shall require written justification (Above Entry From "Enclosure 15 of Administrative Instruction 4705") that shows the prospective employee's education, experience, and unique competencies are directly related to the position. The pay range of all positions represents a 30-year employment period and recommendations for above entry level should take this into consideration when recommending salaries based on prior years of directly related experience.

ii. The request shall be approved by the Department Head and be processed through the Human Resources office and the OMB Department for review and determination of compliance with the County policies and procedures and budgetary control.

iii. The Human Resources office shall provide a monthly report to the Board of County Commissioners which shall reflect all newly hired employees who are employed above the entry salary.

4.08 SALARY RANGES, PROGRESSIONS, INCREASES

No salary adjustment shall be approved unless there is availability of funds and must be justified in writing by the Department Head and approved by the County Administrator. All requests for salary increases shall be processed through the Human Resources office and the OMB Department for review and determination of compliance with the County policies and procedures and budgetary control.

In most cases, completion of the Job Assessment Tool (JAT) should be used to justify the increase. Anything not covered on the JAT should be further detailed in memo format by the department.

An employee may receive a salary increase by means of a promotion, reclassification, pay range adjustment, or equity adjustment.

A. An employee reclassified, transferred, or hired through promotional opportunity of one pay grade level

or higher shall receive the greater of the minimum salary of the pay range or a 5% salary increase per higher level pay grade. An increase above 5% per higher level pay grade shall require justification (Above Entry Form "Enclosure 15 of Administrative Instruction 4705") in accordance with Section 4.07 B (2). In no case shall the employee's salary be above the maximum pay range.

B. Effective January 1, 2013, when an employee is permanently assigned significant additional duties/responsibilities not warranting a reclassification of his/her position, but the new duties/responsibilities have a substantive impact on an employee's daily work life, are outside the normal scope, and require a new skill set, a salary increase may be warranted. The salary increase should be commensurate with the magnitude of the additional duties/responsibilities with consideration given to change in key responsibilities, essential job functions, and number of employees supervised. A salary increase is typically not warranted if duties are 'exchanged' and the knowledge, skills and abilities required to perform the new duties/responsibilities are similar to performing the removed tasks.

C. There are no provisions in the County Pay Plan for automatic salary advancements, as all increases are to be based on availability of funds, work performance, and other pertinent factors as evaluated by the employee's Supervisor and/or Department Head and approved by the Assistant County Administrator and County Administrator.

D. The Human Resources office shall provide a monthly report to the Board of County Commissioners which shall reflect all personnel actions resulting in a salary increase for all current employees. This report will exclude any cost of living/merit increases, etc. which are approved by the BOCC on an annual or contractual basis.

E. Adjustments to salary may be granted to correct an equity problem. Adjustments must have the appropriate support documentation that proves the inequity among those in similar county positions doing the same level of work and responsibility along with having comparable qualifications including training, experience, and education.

F. MERIT INCREASES

1. A merit increase is a salary increase within the same pay grade, awarded for outstanding County Service.

2. Merit increases are not automatic.

3. The amount of merit increase an employee receives, if any shall be determined by the availability of funds, and the system/procedures proposed by the County Administrator and adopted by the Board of County Commissioners each fiscal year. All salary adjustments must be approved by the County Administrator.

4. An employee shall be eligible for consideration for a merit increase during the budget preparation period after completion of their initial probation period.

Unless otherwise approved by the Board of County Commissioners each fiscal year, an employee will receive a Merit Increase on their Anniversary Date (see Section 4.09 C).

5. New employees hired below the minimum rate would be eligible for consideration six months from the date they are adjusted into the minimum rate.

6. Once an employee has reached the maximum salary amount of the pay grade in which his or her

position is classified, the merit increase will be awarded as a one-time lump sum payment on the employee's anniversary date (unless otherwise approved by the Board of County Commissioners each fiscal year), unless said position is reclassified to a higher pay grade (See Section 3 regarding reclassifications). Nevertheless, the employee will still be evaluated in accordance with the County evaluation system. All employees are expected to maintain a satisfactory or above performance level. Failure to do so will result in appropriate disciplinary action.

7. The foregoing reflects the current procedure however the County reserves the right to change or eliminate the procedure whenever necessary.

NOTE: Time spent on a leave of absence without pay in excess of thirty days shall be deducted from the employee's length of service record when determining the time required for advancement eligibility.

G. COST OF LIVING INCREASES

The decision whether to or when to grant a cost-of-living allowance, as well as the decision of the amount of such increase (if any) will be made in the sole and exclusive discretion of the Board of County Commissioners.

H. RECRUITMENT AND RETENTION INCREASES

Retention Salary Increase

This provision is intended to provide consideration of critical and/or unusual administration problems. A retention salary increase may be approved, at the County Administrator's sole discretion, in accordance with the following provisions:

If the employee has received a documented bona fide job offer with an employer other than Monroe County BOCC and the retention increase is a counteroffer to retain the employee in their current position (job offers from other Monroe County BOCC offices, Property Appraiser, Clerk of the Circuit Court, Supervisor of Elections, Tax Collector, Sheriff, or other office that reports to the Board of County Commissioners will not be deemed a bona fide job offer with an employer other than the County under this provision). It is not the intent of this policy to compete with the Monroe County Constitutional Offices. Under the provisions of this policy, these offices shall not be considered as an employer other than Monroe County BOCC.)

A. Retention salary increase decisions are not grievable through the County's grievance procedure unless it is alleged that such a decision was made based upon unlawful discrimination.

B. To be eligible for retention increase consideration, the affected employee must:

1. Currently be employed by the County in a career service status position;

2. Have been continuously employed in their current position for at least one calendar year prior to the date the bona fide job offer was made;

3. Have received at least a "Meets Expectations" rating on their most recent performance evaluation, must currently be performing at an acceptable level, and shall not have been issued a written warning within the previous twelve (12) months; and

4. Shall not have received a total retention increase of the maximum (25%) within the past twenty-four (24) calendar months from the date the increase request is submitted to Human Resources.

C. The County Administrator has sole authority to determine amount offered as a retention increase within the range of 0% to 25% of the affected employee's salary. The County Administrator may approve retention increases as single or multiple salary adjustments; however, if multiple salary adjustments are made for one employee's retention increase, the total of those salary adjustments may not exceed 25% of the affected employee's salary prior to the first retention increase.

D. The retention salary increase must not place the employee above the maximum for their current pay range.

E. Retention increases recommended under this provision are subject to the availability of funds.

Procedure:

To request a retention increase, the respective Department Head shall submit a retention increase request package to his/her Assistant County Administrator (if applicable) and obtain his/her approval prior to submitting the request to the Human Resources Office. Increase request packages will include, at a minimum, the following documentation and shall be verified by the Human Resources office:

1. A cover memo addressed to the County Administrator with the written recommendation approved by the department head and Assistant County Administrator (if applicable).

2. If the employee has another job offer:

(a) Validity of the job offer, preferably a copy of the written job offer;

(b) The respective office's independent verification of the job offer;

3. A detail of the training costs that Monroe County incurred on the employee's behalf over the past twenty-four (24) months. The detail shall prove that losing the investment of training costs would be more of a loss than awarding the employee the recommended salary increase;

4. Summation of the employee's satisfactory job performance (that the employee has performed and continues to perform at least at a "Meets Expectations" level and that he/she has not been issued a written warning within the previous twelve months);

5. That the Department's recommended increase, if approved, would not place the employee above the maximum for their current pay range;

6. Salary comparison of other employees within the department with similar job duties, qualifications and years of service;

7. Recruitment and retention conditions in critical areas as may be demonstrated by:
(a) high turnover;
(b) declined job offers; or
(c) copies of resignation letters from previous employees.

8. Importance of the position in relation to the Action Plans of the department.

The Human Resources office will review the request and make a recommendation to the County Administrator.

Certification Incentive Salary Increase

This provision is intended to provide an incentive for employees to obtain certifications beyond their current minimum job requirements which will enhance the knowledge in their current position and add value to the department as well as the County.

A. Certification incentive salary increase decisions are not grievable through the County's grievance procedure unless it is alleged that such a decision was made based upon unlawful discrimination. In the case of a claim of a decision being based upon unlawful discrimination, the affected employee shall follow the procedures outlined in Section 2.15 of the Personnel Policy.

B. To be eligible for a certification incentive salary increase consideration, the affected employee must:

a. currently be employed by the County in a career service status position; either with career service status or within the employee's new hire probationary period;

.

b. have received at least a "Meets Expectations" rating on their most recent performance evaluation, must currently be performing at an acceptable level, and may not have been issued a written warning within the previous twelve (12) months; and

c. not exceed four certifications per calendar year (renewal of a certification will continue certification incentive pay, but not net any additional increase in pay).

C. An Employee must submit the completed Request for Certification Incentive Form to the immediate Department Head and Human Resources for approval prior to the employee enrolling in the course.

D. $1,500, or dollar amount as stated in Administrative Instruction 4006 and 6402, will be added to the affected employee's salary. The incentive pay shall be divided and shall be paid 1/26th per pay period.

E. The certification incentive salary increase must not place the employee above the maximum of their current pay range. In the event the employee reaches the maximum of their current pay range, $125 per month (1/26th per pay period) for $1,500 incentive, or incentive amount divided by 12 months, will be added to the employee's salary.

F. In the event the employee holding the certification has a personnel action which results in a reclassification, transfer, hire through promotional opportunity or if the employee receives any other type of salary increase in accordance with these personnel policies and procedures, the certification amount shall continue to be paid in addition to the base salary for the position as long as that certification is not a requirement of the position and the certification continues to add to the value of the department as well as the County.

G. Employees are solely responsible for keeping certifications active and obtaining re-certifications. In the event the certification lapses, the Department Head is responsible for completing the appropriate Personnel Action Form to remove incentive pay. Expired certifications will result in the salary increase for the incentive being removed from the employee's pay.

H. Certification incentive salary increases recommended under this provision are subject to the availability of funds.

The Human Resources office will review the request and make a recommendation to the County Administrator.

Procedure:

To request a certification incentive salary increase, the respective employee shall complete the Certification Incentive form and obtain approvals prior to registering in the certification course or program.

a. The employee shall complete the form and submit it to the Department Head for their approval of the recommendation.

b. The Employee Services Director will review the request and shall approve or deny the request.

c. Human Resources will officially notify the employee of the approval (or denial).

d. Upon satisfactory completion of the certification program, the employee shall provide sufficient proof to Human Resources. Human Resources will prepare and process the Compensation Change to be effective on the date of certification.

e. The department the employee works in will pay for the courses, books, tuition, testing and other related fees, including travel, associated with achieving the certification and recertification. Payment for all associated costs to obtain the certification may be made in advance by the department or the employee will be reimbursed once he/she achieves the certification. Employees must complete the course within one year from date of receiving any advance payment. If course is not completed within one year, the employee must refund to the County the entire advance payment within one month.

The employee shall remain in the county for at least one (1) year after achieving the certification or any costs associated with the employee achieving the certification shall be refunded to the County and deducted from the employee's final paycheck.

4.09 DATE OF HIRE, PAYROLL CHANGES, ANNIVERSARY DATES & EMPLOYMENT STATUS CHANGES

A. DATE OF HIRE

The date an employee first begins work for the County shall be his/her date of hire and shall be used in relation to the procedures governing fringe benefits and evaluations when applicable. Any break in employment of 48 hours or more will create the need for a new date of hire if that employee returns to County Service.

B. CHANGES IN EMPLOYMENT STATUS

A promotion can occur when an employee is moved from a position in one class to another position in a different class which has a higher maximum salary.

Any employee may be recommended for demotion by the Department Head with the approval of the Assistant County Administrator (if applicable) and the County Administrator for cause. A demoted employee may not be paid more than the maximum rate established for the new pay grade.

An employee moved into another position in the same job classification or to a different position with the same pay range may not be eligible for a salary increase at the time of transfer.

C. ANNIVERSARY DATES

An employee's anniversary date is effective one year from a promotion, reclassification, or transfer which also resulted in an increase in salary.

D. OTHER

When a temporary employee attains the status of regular employee in the same position, his anniversary date will be his date of hire for evaluation purposes. Leave accrual and benefits will be implemented in accordance with current rules and regulations governing same.

4.10 TEMPORARY - HIGHER CLASSIFICATION

Due to a vacancy of a budgeted position an employee may be assigned full-time to work in a higher classification up to one year, unless otherwise determined by the County Administrator. An employee required to work in a higher classification 14 consecutive calendar days or less shall be required to do so at no increase in pay. If the employee is required to work beyond this period, he or she should be given a temporary transfer to the higher classification and be paid the greater of the minimum salary of the pay range or a 5% salary increase per higher level pay grade (whichever is greater) beginning on day 15. At the conclusion of the assignment, pay shall revert to the authorized rate established for his regular position. Any such temporary increase granted shall not affect the employee's eligibility for normal salary advancement.

One or more employees may be temporarily assigned duties/responsibilities of another budgeted position (due to vacancy, leave of absence of the incumbent, or during training periods for newly hired staff), which have a substantive impact on an employee's daily work life, are outside the normal scope, and require a new skill set. An employee assigned such duties/responsibilities for 14 consecutive calendar days or less shall be required to do so at no increase in pay. If the employee(s) is required to work beyond this period, the employee(s) will be given a temporary adjustment in pay of 5% beginning on day 15. At the conclusion of the assignment, pay shall revert to the authorized rate established for his/her regular position. Any such temporary increase granted shall not affect the employee's eligibility for normal salary advancement.

4.11 WAGES DUE DECEASED EMPLOYEE

In the case of the death of an employee for whom an estate is not raised, any wages, travel expenses or similar amounts due the employee shall be paid by the County in accordance with the Florida Statute 222.15. An employee who does not have living parents, spouse, or children shall have the right to designate a beneficiary in writing.

4.12 BUDGET LIMITATIONS

Accordingly, all employees are hereby placed on notice that the payment of salaries and the granting of salary increases is always subject to the availability of funds.

4.13 COMPENSATION FOR EXECUTIVE ASSISTANT TO THE MAYOR

When an employee becomes the mayor's aide, said employee will be awarded a 4% salary increase for the length of time he/she holds the position of Executive Assistant to the mayor. Said employee will acknowledge by signature on form entitled "Monroe County Employment Agreement Executive Assistant to the Mayor" that he/she understands and agrees that this additional compensation will be withdrawn if and when the commissioner is no longer Mayor.

C. When an employee changes his or her position through the Promotional Opportunity system, he/she will be required to work forty (40) hours per week, unless otherwise posted.

E. Part-time employees are required to be present on their assigned jobs for the total number of hours for which compensations are being received, unless absence from duty is authorized by the appropriate authority in accordance with these personnel policies.

F. All absences shall be properly recorded and charged.

G. Nothing herein shall constitute a guaranteed minimum number of working hours per week.

H. Alternative work schedules (e.g., four 10-hour days) are implemented at the discretion of the Department Head for operations and sections that can utilize manpower and equipment in a more productive manner with the longer day.

I. Flextime Program – In departments where operations permit a flexible schedule, department heads may authorize a flexible schedule under the following provisions:

3. In situations where there are multiple requests for the same schedule that leaves the department understaffed, the schedules will be rotated on the basis of seniority with the most senior county employee getting their first choice for one month and the next most senior county employee getting their schedule of choice during month two and so forth.

4. Immediate supervisor or Department Head has the right to cancel an employee's participation in the Flex Time Program due to hardship issues or abuse of the policy.

5.02 OVERTIME WORK FOR NON-EXEMPT, NON-EMERGENCY RESPONSE EMPLOYEES

Overtime is generally an unbudgeted expense and should be approved prior to time worked.

A. STATEMENT OF POLICY

1. Overtime, whether compensated with cash or time off, must be approved by the Department Head or other appropriate authority as stated in Administrative Instruction 4716 Series. The employment and work program of each Department should be arranged so as to eliminate the necessity of overtime work except in emergency situations.

2. Overtime is defined as work assigned and actually worked by any employee beyond the normal scheduled work week.

3. Employees who work more than their normally scheduled hours will be paid at their straight-time rate of pay for all hours worked up to and including forty (40) hours in a work week. Hours worked in excess of forty (40) hours in a work week will be compensated as provided below.

4. Hours physically worked in excess of forty (40) hours in a work week will be paid at one and one-half times their regular rate of pay or the employee will be granted compensatory time as described below in section 5.02 (A) (5) (b). The following leave types shall count towards the first 40 hours of an employee's schedule as "time worked" for the purposes of calculating overtime or compensatory time: vacation time, sick time, compensatory time, holiday time, administrative leave as defined in Section 8.01 (K) of this manual if the leave is paid leave, and administrative leave as defined in the County's resolution regarding compensation for emergency response work.

5. Compensatory time, if offered by the County, will be governed by the following conditions:

a. Must be authorized by the appropriate Department Head or other appropriate authority as defined in A. 1. above and the employee must consent in writing to compensatory time in lieu of time and a half monetary compensation;

b. One and one-half hours of compensatory time will be granted for each hour of overtime worked;

c. Compensatory time may be "banked"; however, the maximum balance is 240 hours. When an employee has accrued the maximum of 240 hours compensatory time, any additional overtime hours worked {i.e., over forty (40)} will automatically be paid at the time and one-half rate;

d. An employee's reasonable request to utilize accrued compensatory time will be considered; however, the County reserves the right to exercise control of the use of time off based on workload and scheduling but only if such workload and scheduling constitutes an

undue burden on the County. Paying overtime to another employee to accommodate an employee's compensatory time request is not an undue burden.

e. Upon termination of employment, an employee will be paid for all unused authorized compensatory time at a rate of compensation not less than:

(I) the average regular rate received by the employee during the last three years, or

(ii) the final regular rate received by the employee, whichever is higher.

5.03 OVERTIME WORK FOR EMERGENCY RESPONSE EMPLOYEES

Overtime for Firefighters is outlined in the negotiated IAFF Union Contract.

5.04 OVERTIME WORK FOR EXEMPT EMPLOYEES

It is the general policy of Monroe County not to compensate for overtime those employees classified as 'exempt' from the Fair Labor Standards Act. However, an Assistant County Administrator or Department Head designated by the County Administrator may approve compensation for overtime, either in compensatory time or pay, for an exempt employee who has been required to work unusually large amounts of overtime, such as during a disaster, etc.

5.05 MEAL AND REST PERIODS

A. Employees classified as regular full time will receive a total of one hour for meal/rest period per work shift, the time and sequence of which will be determined by the Supervisor and approved by the Department Head. If it is necessary for the non-exempt employee to work without a meal/rest period he/she will be otherwise compensated for that time. All other employees will receive meal or rest periods in an amount and time deemed appropriate by their Supervisor.

Meal and rest periods shall be scheduled by the Department Head consistent with the effective operation of the department and may be rescheduled whenever necessary.

B. ACCRUAL

Annual leave for regular, employees shall be earned in accordance with the following table:

24	4.8	288

D. 1. All annual leave must be approved in advance by the applicable Department Head or the Assistant County Administrator/County Administrator depending on the position held by the requesting employee. The employee shall fill out his Leave Request Form and submit it to the Department Head, who has the right to deny an employee's request for annual leave, if granting such leave at that time would be detrimental to County operations. Upon such denial, the employee may request the leave at another time. The Department Head is responsible for verifying that the employee does have sufficient accrued leave to cover the period of absence, and should return the leave request to the employee indicating approval or denial, within seven (7) days of receipt of the request, unless a valid reason is given to the employee for the delay.

E. ANNUAL LEAVE PAY UPON SEPARATION

If the payment of annual leave is approved by the County, computing said leave pay will be based on the employee's regular rate of pay and terms of separation.

Upon enrollment into DROP, all vacation time will be paid to the employee upon completion of the appropriate payroll forms (Approved by BOCC June 10, 1998).

F. RESTRICTIONS

Annual leave may be used for any purpose; however, it is a privilege incident to County service and is not a right, and may only be used by the employee if taken prior to termination for cause or in accordance with these policies, with the following restrictions:

1. Annual leave may not be taken until accrued in accordance with these rules.

2. Employees will not accrue annual leave during a leave of absence without pay, a suspension or when the employee is otherwise in a non-paying status.

3. Section 11.01-Resignations.

4. Employees who leave the County service without proper notice or who are terminated for just cause may be denied payment of accrued annual leave.

7.02 SICK LEAVE

A. ELIGIBILITY

All salaried employees with regular status working 20 hours or more per week shall have the privilege of accruing sick leave in accordance with these policies. Hourly employees will not accrue sick leave.

Employees shall not be eligible to use sick leave until they have been in the County service for 90 days, unless recommended by the Department Head and approved by the Assistant County Administrator or County Administrator. Verification of illness by a physician may be required.

B. ACCRUAL OF SICK LEAVE

All regular, full-time employees will accrue 4 hours sick leave per pay period.

There will be no limit of the amount of sick leave that can be accrued.

Sick leave for employees working less than 40 hours per week, but at least twenty (20) hours per week will be prorated according to the hours worked.

When there has been a break in service of 48 hours or more, the employee upon reinstatement or re-employment will begin accruing sick leave as a new employee. Employees who are on leave without pay for more than 8 hours during a pay period will not accrue sick leave for that pay period.

C. USE OF SICK LEAVE

1. Sick leave shall be used only with the approval of the applicable Department Head or the Assistant County Administrator/County Administrator depending on the position held by the requesting employee and shall not be authorized prior to the time it is earned and credited to the employee except in cases of prearranged medical appointments, surgery, or other health-related matters.

2. Sick leave shall be authorized only in the event of:

a. The employee's personal illness, injury or exposure to a contagious disease which would endanger others.

b. Illness or injury of a husband, wife, domestic partner, father, mother, legal guardian, son or daughter (including adopted or foster child).

c. The employee's personal appointments with a practitioner when it is not possible to arrange such appointments for off-duty hours, but not to exceed the extent of time required to complete such appointments.

d. Prearranged surgery or other health-related matters.

D. Monroe County has established a Sick Leave Pool for eligible full-time employees designed to aid the employee suffering from an extended illness or injury (See Administrative Instruction 4702 for rules and enrollment procedures).

7.03 MEDICAL JUSTIFICATION

A. Sick leave is a privilege, and not a benefit. In fact, use of sick time actually causes a hardship on the County. The County must, therefore, ensure that employees utilizing sick leave are complying with Section 7.02 of these policies and procedures.

Employees must meet the following conditions in order to be granted sick leave with pay:

(1) Notify his/her immediate Supervisor as soon as the employee learns that he/she will be unable to report to work in accordance with individual department policy. The employee shall call in to his/her immediate Supervisor at least one (1) time on each consecutive shift thereafter, that the employee will miss work because of sick leave.

(2) File a written report (after returning to work) explaining the nature of the illness when required, by her Supervisor or Department Head.

(3) Permit medical examination, nursing visit or any County inquiry (telephone call, visit to the employee's house, etc.) deemed appropriate by the County to document the illness of the employee or family member.

The Department Head is responsible for following up on sick leave use and for ensuring that there is no sick leave abuse. The Department Head may require any employee to bring in a note from his or her personal physician for absences of three (3) consecutive working days or more. However, if a Department Head reasonably suspects that an employee is abusing sick leave, said Department Head may require that any use of sick leave by the employee for herself or family member be justified by a note from a physician. Further, in the event that a Department Head is unsatisfied with the initial doctor's note, he may require the employee or family member to be examined by a County - designated physician at the County's expense.

B. If it is determined that the employee is unfit to continue working, the Department Head may require the employee to use any part of his accrued sick leave, compensatory time or annual leave and may thereafter require the employee to take such leave without pay as is medically determined sufficient to restore him to normal health, however, this will in no way prevent the County from separating him from employment if the absence would be of such duration as to pose a hardship on the operations of the Department.

C. The Department Head may require, at any time, an employee to present medical evidence that he is physically or mentally fit to work and/or the Department Head may require an employee to be examined by a County-designated physician or psychiatrist, at the County's expense.

7.04 NOTIFICATION OF ABSENCE

(SEE 7.03 A)

If absent for three consecutive workdays without reporting to the Supervisor a reason sufficient to justify the absence, the employee may be removed from the payroll as having voluntarily resigned without notice. The Supervisor is to notify the Department Head. Any unauthorized absence may be cause for disciplinary action, up to and including termination.

7.05 FUNERAL/BEREAVEMENT LEAVE

A. All employees covered under this policy, including temporary employees, shall be granted up to four working days off with pay in the event of a death in an employee's immediate family. Additional time off (over and above the four working days herein provided) may be approved by the Department Head and charged to sick or annual leave. Additionally, the County may require proof of death of a family member before making payment for leave. The immediate family shall be construed to mean one of the following: Husband, Wife, father, mother, son, daughter, sister, brother, uncle, aunt, first cousin, nephew, niece, domestic partner, domestic partner's father and mother, legal guardian, grandparent or in-laws father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half- brother, half-sister.

7.06 HOLIDAYS DURING SICK LEAVE

Holidays occurring while an employee is on sick leave shall not be charged against the employee's sick leave balance.

7.07 PAYMENT OF UNUSED SICK LEAVE

A. An employee who terminates with less than five (5) years continuous service shall not be paid for any unused sick leave credits.

B. Employees with varying years of continuous service shall, upon separation, from the County in good standing, death, or retirement, receive incentive sick leave pay as follows:

5 to 10 years of service - 1/4 of all accrued sick leave, with a maximum of 30 days.

10 to 15 years of service - 1/2 of all accrued sick leave, with a maximum of 90 days.

15 years or more - 1/2 of all accrued sick leave, with a maximum of 120 days.

C. The payments made as terminal pay for unused sick leave, whether paid as salary or otherwise, shall not be used in the calculation of average final compensation for retirement.

D. Employees who leave the County service without proper notice or who are terminated for just cause may be denied payment of accrued sick leave.

7.08 TRANSFER OF LEAVE

An employee who resigns from any entity or organization to accept a position with the county will not be credited with hours of unused sick or annual leave which was accrued while employed by that entity or organization.

8.01 ADMINISTRATIVE LEAVE

Administrative leave is leave with pay that is not charged to the employee's sick or annual leave.

A. JURY DUTY AND COURT LEAVE

1. A full-time employee who is summoned to jury duty by a city, the County (Monroe), the State of Florida, or the Federal Government or subpoenaed to appear in court as a witness in a criminal or civil action arising from his or her county employment shall be granted time off with pay for the time actually spent on jury duty or in the court appearance. Fees paid by the court will be retained by the employee unless otherwise determined by the County Administrator. As conditions precedent to receiving time off with pay for jury duty or court appearance of the aforesaid nature, the employee must:

a. Notify his/her Department Head of the summons or subpoena immediately upon receipt, produce the summons or subpoena to his/her Department Head upon request, and provide the Department Head with an estimate of the duration of the absence;

b. Report to the Department Head immediately upon the conclusion or continuance of such jury duty or court appearance;

c. Report status of jury duty to supervisor or designee on a daily basis.

2. Any employee on jury duty as specified above, and who is released or excused from jury duty during normal working hours, will immediately contact his or her supervisor in order to determine whether the employee will be required to report back to work. Employees who work a 24-hour shift, will contact their Department Head (or designee) when released from jury duty. If the Department Head (or designee) determines that the employee could not effectively complete his or her work shift, the employee may be granted time off with pay for the remainder of the shift.

3. The County, in its discretion, may reschedule the working hours and days of work of an employee employed on other than a full-time basis who is summoned to jury duty or subpoenaed to appear in court as a witness by a city, the County (Monroe), the State of Florida, or the Federal Government in a criminal or civil action arising from his or her county employment. If, in the County's judgment, it is not feasible or practical to schedule the employee's hours of work around such, the County shall grant the employee time off with pay for the time actually spent on jury duty or in the court appearance. During the period of leave without pay, said employees must continue to make monthly premium payments for themselves in accordance with their bi-weekly payroll payment schedule in order to continue health insurance coverage. Failure to make payment(s) on a timely basis will result in termination of coverage.

Monroe County uses the bi-weekly payroll deduction system for payment of dependent coverage premiums for employees. However, if for any reason an employee is not due to receive a paycheck in an amount sufficient to deduct said premium, that employee is responsible for making the premium payments to the Employee Benefits Section in accordance with their payment schedule. 5)-For the spouse, child, or parent, is on active duty, or because of notification of an impending call or order to active duty in support of a contingency operation.

If the employee is requesting FMLA qualifying leave, all accrued sick and annual leave must be taken first. Paid leave so taken will be counted against the employee's total FMLA leave entitlement. The employee will be notified that paid leave will be counted as FMLA leave within five (5) business days of making that determination. The notice will be confirmed in writing to the employee on or before the following payday.

A. ELIGIBILITY

To be eligible, an individual must have been employed at Monroe County:

- For at least 12 months, and

- For at least 1,250 hours of service during the 12-month period immediately preceding the leave.

Subsequent eligibility will be determined by looking back to the beginning of that calendar year from the

first day of a new FMLA leave period which is requested by the employee. FMLA leave may not exceed twelve weeks during the calendar year or a combined total of 26 weeks. An eligible employee shall be entitled to a combined total of 26 work weeks of leave for family, medical and/or service member leave. Husbands and wives working for the same employer are only granted a combined 12 weeks of leave; however, both spouses may each take 12 weeks to care for a child with a serious health condition.

The determination of whether an employee meets the minimum service and hour requirements of the FMLA must be made by Monroe County as of the date the leave commences, and Monroe County will advise the employee whether he or she is eligible with five (5) business days after making a determination of eligibility.

B. PROCEDURES

A "Request for Family and Medical Leave of Absence" form should be completed by the employee as part of the notice and reporting requirements. The employee shall notify the Department Supervisor of the need for leave either verbally or by completing the FMLA form. (In any event, the employee shall fill out a Leave Request Form in accordance with the County's Policies and Procedures in order to request leave.) After completing the form in detail and signing it, the employee or Supervisor must submit it to Human Resources for approval. Notification shall be given at least thirty (30) days in advance of the effective date of the requested leave if the need for leave is foreseeable.

The "Certification of Health Care Provider" form must be completed and signed by the health care provider. Failure to have the form completed may result in a delay for the approval of leave.

C. BASIC REGULATIONS AND CONDITIONS OF LEAVE

1. Monroe County will require the employee to fill out a request for Family and Medical Leave of Absence form that included the "Certification of Health Care Provider" form supporting the need for leave due to a serious health condition affecting the employee or employee's spouse, child, or parent or next of kin in the case of service member family leave.

2. Monroe County may, at its own expense, require a second medical opinion and periodic re-certification. If the first and second medial opinions vary, Monroe County may, at its own expense, require the binding opinion of a third healthcare provider, approved jointly by Monroe County and the employee.

3. If medically necessary, such leave may be taken intermittently or on a reduced work schedule. If FMLA leave is for both birth and care or placement for adoption or foster care, use of intermittent leave is subject to approval.

The decision to grant leave or to temporarily transfer the employee on this basis rests solely with the County Administrator based on a medical certification provided with the Family Medical Leave of Absence Form.

4. When husband and wife are both employed by Monroe County, together they are entitled to a total aggregate of twelve weeks of Family Leave or a combined total of 26 weeks for service member leave.

5. Employees requesting FMLA qualifying leave will be required to substitute paid vacation and sick leave for all or party of any (otherwise) unpaid FMLA leave.

6. While on any unpaid part of an FMLA qualifying leave, no time will be accrued by the employee. Upon return to work, leave will accrue based upon established policy.

D. DESIGNATION OF LEAVE

Monroe County shall designate an employee's absence toward the employee's 12-week FMLA entitlement as soon as it is known that the employee's absence qualifies as FMLA leave. Monroe County will notify the employee that his/her leave will be designated as FMLA leave within five (5) business days. The notification to the employee can be oral but will be confirmed in writing no later than the next regular payday.

Injuries entitling employees to workers' compensation frequently qualifies as serious health conditions for purposes of FMLA leave eligibility. Monroe County shall count an employee's workers' compensation absence toward the employee's 12-week FMLA entitlement as stated above. If it is found that the absence does not qualify under the FMLA, Monroe County will withdraw the designation with written notice to the employee.

E. EMPLOYEE NOTICE AND REPORTING REQUIREMENTS

1. When FMLA qualifying leave is foreseeable, an employee must give Monroe County thirty (30) days advance notice.

2. When such leave is not foreseeable, an employee must give notice as soon as practicable. According to the FMLA regulations, "as soon as practicable" means within one or two working days of learning of the need for leave, except in extraordinary circumstances.

3. If an employee fails to satisfy the thirty (30) day notice without reasonable excuse, Monroe County may, at its discretion, postpone the leave until the notice requirement is satisfied.

4. The employee may be required to submit periodic reports during FMLA leave regarding the employee's leave status and intent to return to work. This requirement may be satisfied by the employee's personally telephoning his or her immediate supervisor.

F. HEALTH BENEFITS DURING LEAVE OF ABSENCE

1. Monroe County will continue group health coverage for an employee on leave at the same level and under the same conditions that existed while he or she was working. The employee must pay his/her individual premium and dependent coverage premium for any unpaid leave. Payment for the individual and dependent coverage must be received in the Group Insurance Office every payday in order to continue coverage. Failure to pay dependent coverage during this unpaid leave will result in termination of coverage.

2. In the event that the employee does not return to work at Monroe County following FMLA leave, the employee can be required to reimburse Monroe County for health insurance premiums paid to continue the employee's health coverage during FMLA leave, unless the employee is unable to return to work due to a continuation, recurrence, or onset of a serious health condition that would entitle the employee to FMLA leave or other circumstances beyond the employee's control.

Questions regarding the FMLA should be addressed to the Human Resources office.

9.04 DISCIPLINARY ACTIONS

Disciplinary actions are a means of calling employees to accountability for some act of commission or omission which is regarded as injurious to the employer/employee relationship. The act could be relatively minor, or quite serious. Serious acts may warrant immediate discharge, even for the first offense. All employees should be made aware that a system of discipline exists for the benefit of all, and will be administered without favor for the sake of orderliness and proper compliance with reasonable rules and regulations pertaining to conduct and the performance of work.

When it is necessary that disciplinary action be taken, the degree of action shall be based on the following considerations:

1. There can be no mechanical formula for the application of discipline. Each instance of misconduct or deficiency must be viewed and judged individually. For most lesser or first minor offenses, oral or written reprimand shall be appropriate discipline.

2. When applicable, discipline for employees who commit multiple non serious offenses of a like or different nature shall be more progressively stringent until the employee corrects the deficiency, or failing this, discharge is considered to be necessary.

3. Department Heads, their Deputies, Assistant County Administrators, the County Administrator, and others occupying positions of high trust and authority will be held to higher disciplinary and ethical standards than that of other employees. Therefore, the rules of progressive discipline for violations of Personnel Policies and Procedures, and/or State and Federal Statutes may not be applicable.

4. Disciplinary actions shall be severe enough to constitute a reasonable attempt to bring about correction.

5. Acceptable disciplinary actions shall be oral warning, written warning, written reprimand, suspension (with or without pay), discharge, and in some cases demotion, depending on the offense.

6. Discharge for continued commitment of non-serious, minor offenses shall be resorted to only when sufficient other efforts to bring about correction have failed, or when the offense is sufficiently serious in and of itself to warrant termination.

7. In determining the appropriate disciplinary action to be imposed against an employee, the County Administrator will consider, at a minimum, the following factors:

a. The seriousness and circumstances of the particular offense.

b. The past record of the employee and his length of service.

c. The lapse of time since the employee last received a disciplinary action.

d. The County's practice in similar cases.

9.05 AUTHORIZATION FOR DISCIPLINARY ACTION

A. All written reprimands, suspensions and recommendations for suspension or discharge actions must be approved by the Department Head and the letter concerning the action must be forwarded immediately to the Human Resources office for review, and then approved by the County Administrator or his designee.

B. In case of a recommendation for discharge, the employee may be suspended pending approval of discharge by the County Administrator.

C. Disciplinary actions applied to Department Heads or Assistant County Administrators may be initiated by the County Administrator.

9.06 ORAL WARNING

An oral warning is given to an employee to take recognition of a violation of County policy, rule, regulation, standard or of an unsatisfactory habit, practice, or act which, if repeated or continued, will subject the employee to a more severe disciplinary action. The oral warning should be noted in writing, a copy of the notation placed in the employee's official personnel file, specifying the nature of the warning and the date given.

9.07 WRITTEN REPRIMAND

A letter of reprimand constitutes formal action against an employee for more serious types of violation of County rules or standards of employment, or where less stringent actions have not been successful in correcting a deficiency. The letter of reprimand must identify the offense or deficiency and the correction required.

A letter of reprimand can be used to impose restrictions on an employee, such as attendance, conduct or special procedures to be followed. Restrictions so imposed shall be reviewed periodically and be removed, modified, or continued with a follow-up letter. A copy of all letters should be placed in the employee's official personnel file within 15 days of writing, whenever possible.

9.08 DEMOTION

Whenever it becomes apparent that an employee can no longer efficiently perform any or all of the duties and responsibilities of his or her position, or when it is otherwise deemed to be in the best interest of the County, an employee may be demoted. A demoted employee shall be notified by the County Administrator or his designee at the time of demotion of the specific reason for the action and correction expected, if any. Such notification shall be given the employee in writing. A copy of the notification will be placed in the employee's official personnel file along with a written report on all appropriate information concerning the action.

An employee may be reclassified to a different title and/or pay grade at any time the County Administrator deems appropriate. A temporary reclassification does not constitute a demotion, nor does a change in title and/or pay grade which results from an evolution into a reduction of duties and/or responsibilities.

9.09 SUSPENSION

1. An employee may be suspended with or without pay by the Department Head and/or Assistant County Administrator with the approval of the County Administrator. The employee must be notified in writing of the suspension period and citing the reason for the suspension.

2. An employee may be verbally suspended with or without pay by a Supervisor for the balance of a work shift, or a longer period of time if needed until the Department Head or appropriate authority can be contacted, if the employee's conduct impairs normal working operations. The Supervisor must then report the incident to the Department Head, who with the approval of the Assistant County Administrator (if applicable) must either concur with, or cancel the action, in writing, to the employee citing the reason for the suspension, and corrective action expected. Additional time of suspension may be recommended by the Department Head with the approval of the Assistant County Administrator (if applicable) and the

County Administrator at that time. A copy of the suspension notification will be placed in the employee's official personnel file along with a written report containing all appropriate information concerning the action.

9.10 DISCHARGE

Discharge is appropriate for first offenses of serious misconduct as well as repeated offenses of less serious misconduct.

Sufficient documentation must be present to merit recommendation by the Department Head and the Assistant County Administrator (if applicable) to the County Administrator for discharge of any employee.

9.11 PROCEDURE FOR IMPOSING DISCIPLINE

1. This procedure shall apply in cases where an employee may be subject to suspension, demotion, or termination. Furthermore, this procedure shall not necessarily apply to contract employees, probationary employees, temporary employees, or grant employees.

2. When the County receives information that an employee has engaged in certain conduct which could warrant disciplinary action (other than a verbal warning or written reprimand, which may be issued by the appropriate Supervisor) the employee will be advised, in writing, that disciplinary action could possibly be imposed against him/her.

3. The employee will be provided with a written statement of the charges including sufficient facts and reasons therefore as will enable the employee to provide an explanation and/or defense. An employee against whom disciplinary charges have been made will remain in pay status until such time as the County Administrator renders his decision pursuant to paragraph 6(e), below. However, nothing herein shall preclude the County Administrator, or other authorized personnel, from imposing immediate disciplinary action, without advance notice, where it is believed by the person taking that action that giving such notice would result in damage to the property of the County, would be detrimental to the interests of the County or would result in injury to the employee, a fellow employee, or the general public. In such circumstances, said employee will be given reasons for such action after it takes effect and thereafter will be entitled to utilize the hearing procedure set forth in the following paragraphs.

4. The hearing shall be informal and shall not be in the nature of an evidentiary hearing. The employee may bring an attorney or qualified representative to assist or advise him or her, but discovery, cross-examination, and similar legal procedures are generally not permissible. An employee who wants to engage in discovery, cross-examination, or other legal procedures must make an advance written application to the hearing officer. The hearing officer's decision is final.

5. The informal hearing will be conducted before a hearing officer who shall be:

a. An Assistant County Administrator or the County Administrator where the employee charged is a Department Head;

b. The County Administrator or his designee where the employee charged is an Assistant County Administrator; or

c. A Department Head or a designee where the employee charged is an employee holding Career Service Status and to whom section A and B above do not apply.

d. The County Administrator may serve as hearing officer whenever he/she sees a need to do so.

6. The hearing will be informal and will be conducted as follows:

a. At least two working days prior to the hearing date, the employee shall provide the individual conducting the hearing with a list of any witnesses or documents which the employee wishes to offer at the hearing.

b. The employee may be accompanied by legal counsel of his/her choice. If the employee intends to be represented by counsel at said hearing, notice of such must be provided to the hearing officer as far in advance of the hearing as possible. The hearing officer may reschedule the hearing if necessary.

c. During the hearing, the hearing officer will orally review the charges with the employee. The employee shall have the right to respond to the charge(s) made against him/her, either orally and/or in writing. The employee may present documentation to the hearing officer and may, if appropriate, be permitted to call witnesses in support of his/her case.

d. The hearing officer may consider any available documentation and may discuss the charges with any witness he/she deems appropriate. The hearing officer shall decide what evidence -- either in the form of witness testimony or documents -- may be introduced. Cumulative or irrelevant evidence will not be permitted.

e. The hearing officer shall render a final written decision within ten (10) calendar days after the hearing. In the event of extenuating circumstances, the final written decision may be extended beyond the ten (10) calendar days upon mutual agreement of the Hearing Officer and employee. Such an agreement shall be provided in writing from the hearing officer to the employee in order to officially document the agreement. The final decision shall advise the employee of whatever action, if any, the hearing officer is recommending to be taken against the employee. The hearing officer's recommendation will be forwarded to the County Administrator (through the appropriate Department Head, if applicable). Disciplinary action (except for verbal warning and written reprimand, which may be issued by the appropriate Supervisor) becomes final when approved by the County Administrator.

7. Employees who are suspended without pay, discharged, given a reduction in pay or a demotion (as defined herein) may appeal said disciplinary actions only to the Career Service Council as provided in Section 9.15. Other forms of discipline may be appealed pursuant to Section 10.

8. During the period between the first notice and the effective date of the action, the employee shall be expected to perform his usual duties without disrupting fellow employees, or other persons, or the agency's activities. If, however, it is deemed highly desirable or necessary that the employee not continue to perform the same duties in the same location during this period, the County may temporarily assign the employee to other duties.

9.12 POSSESSION OF WEAPON OR FIREARM[4]

It is the policy of Monroe County that no employee shall carry or otherwise possess a weapon while on duty or in uniform, including firearms.

If the performance of job duties requires the use or possession of a weapon or firearm, prior approval from the County Administrator must be obtained.

9.13 INDICTMENTS, PROSECUTIONS, ARRESTS

It is the responsibility of Monroe County to maintain a proper workforce. Employees who are arrested, indicted by a Grand Jury, or on whom information has been filed by a prosecuting official, shall be given a pre-determination hearing to determine the effect said action and/or circumstances surrounding said actions have on his or her employment with the County, which may result in disciplinary action. If the employee is tried and found guilty and the conviction is not reversed or pleads to the offense, he or she may be terminated from his or her position in the County Service.

9.14 FAILURE TO COOPERATE IN A JOB-RELATED INVESTIGATION

1. As a condition of employment, any County employee may be required, upon due notice, to cooperate with respect to any job-related hearing or investigation scheduled by the County, or any person, commission, board or body authorized to act on its behalf. This duty of cooperation also extends to any "outside" agency, body or court of law with respect to any job-related matters.

2. Any employee who refuses to appear at any such hearing or inquiry, or who having appeared fails to answer questions related to the performance of their official job duties will be considered to have resigned from their employment with the County.

9.15 APPEALS

A Career Service employee who has been suspended without pay, discharged, given a reduction in pay or a demotion (as defined herein) shall have only the right to appeal said action to the Career Service Council by filing a petition with said Council within thirty (30) days following such suspension, discharge, reduction in pay, or demotion. Failure to file a timely appeal shall result in the forfeiture of all right to challenge/grieve the discipline. There shall be no appeals to the Board of County Commissioners and/or the County Administrator.

EMPLOYEE COMPLAINT/GRIEVANCE PROCEDURE

SECTION 10

10.01 COMPLAINT/GRIEVANCES

In the event an employee believes that the rules contained in this manual have been misapplied/violated, he/she must utilize the following procedure, except in the cases of suspension, reduction in pay, demotion, or termination - See 10.01 F. Claims of harassment, retaliation, or discrimination as described in Section 2.14 will be handled in accordance with the procedure outlined in that Section and are not considered grievable under the Employee Complaint/Grievance Procedure. Failure of the grieving employee to follow the time limits will automatically result in a final and binding denial of the grievance. If the County does not follow the time limits, the appropriate County official will be deemed to have denied the grievance and it may proceed to the next step.

A. Step 1: The aggrieved employee shall present his/her grievance in writing to his or her Supervisor within fifteen (15) working days of the incident to be grieved. The immediate Supervisor will meet with the employee, reach a decision, and communicate that decision in writing to the aggrieved employee within ten (10) working days from the date the grievance was presented to him or her. Supervisors are not empowered to make policy decisions.

B. Step 2: If the grievance is not resolved in Step 1, the employee shall, sign it, and present it to the Department Head within ten (10) working days from receipt of the Immediate Supervisor's written decision. The Department Head shall attempt to resolve the issue(s) concerning the alleged grievance within ten (10) working days of the receipt of the written grievance. The Department Head shall confer with the immediate Supervisor and they shall attempt to obtain the facts concerning the alleged grievance, and within ten (10) working days of receipt of the written grievance, answer the employee in writing or schedule a meeting with the employee. If a meeting is held, the Department Head shall notify the aggrieved employee in writing of his or her decision, no later than ten (10) working days after the meeting. The meeting may be rescheduled by the Department Head for a valid reason.

C. Step 3: If the response from the Department Head is not satisfactory, within ten (10) working days from receipt of the Department Head's decision, the employee may present the grievance form to the Assistant County Administrator, who may confer with anyone he/she deems appropriate to obtain the facts concerning the alleged grievance, and may schedule a meeting with the employee, to be held within ten (10) working days of receipt of the grievance. If the employee does not report to an Assistant County Administrator and reports directly to the County Administrator, Step 3 is to be skipped and the employee may proceed to Step 4. If a meeting is held, the Assistant County Administrator shall notify the aggrieved employee in writing of his/her, decision no later than ten (10) working days after the meeting.

D. Step 4: If the response from the Assistant County Administrator is not satisfactory, within ten (10) working days from receipt of the Assistant County Administrator's decision, the employee may bring the grievance form to the Human Resources office, for review before the Employee Grievance Council. This Council will provide an additional avenue for the employee to pursue in the processing of appropriate complaints or grievances. By the establishment of the Employee Grievance Council, the employee whose problem is not resolved by the Assistant County Administrator, may have the opportunity to appear before this Council of peers and present his/her case. The Employee Grievance Council is empowered to call all necessary witnesses before them and to subsequently make their recommendations concerning disposition to the County Administrator. The decision of the Council is not binding; final determination will be made by the County Administrator. (Please refer to Monroe County Administrative Instruction 4714 for rules and procedures governing the Council.) The County Administrator shall furnish a copy of his decision to the

aggrieved employee within fifteen (15) working days of receipt of the Councils recommendation(s).

E. Any complaint/grievance involving matters that pertain to the Personnel Policies and Procedures may be addressed in writing to the Employee Grievance Council, (via the Human Resources office) who will forward to the Council to determine whether the matter is appropriate to be considered by the Council. If deemed appropriate by a majority of Council members, the Human Resources office will schedule the airing of the Grievance at the earliest convenience. The Council is empowered to call all necessary witnesses and make a recommendation concerning disposition to the County Administrator whose decision is final.

F. This Procedure does not apply to an individual who has been suspended, discharged, received a reduction in pay or demoted. Such individuals shall appeal in accordance to Section 9.15 hereof.

G. If an employee does not answer to a Department Head and/or an Assistant County Administrator, the Human Resources office will assist the employee in moving through the appropriate steps of this grievance procedure.

H. The by-laws governing the establishment and operation of the Employee Grievance Council may be reviewed in Administrative Instruction 4714.

The Employee Services Director or County Administrator may also request an interview with an employee who has made known his or her intention to leave the County Service. TRAVEL

SECTION 15

It shall be the policy of the Board of County Commissioners to reimburse all employees, Board members and other Department personnel for all authorized travel. Said reimbursement shall be made in the following manner:

A. In County overnight travel will require the approval of the Department Head. Out of County travel will require the prior approval of the applicable Assistant County Administrator or County Administrator. If travel is to any county contiguous to Monroe County or if the travel can be completed within one workday, not requiring overnight lodging, prior approval of the next-highest supervisory level can be obtained.

B. Private use of individual vehicles for county business shall be reimbursed for travel mileage in accordance with Monroe County Code, unless an automobile allowance is established pursuant to Section 112.061(7)(f), Florida Statutes. The subsection requires that the traveler file a signed statement before the allowance is approved by the agency head; the statement must provide an estimate for the annual amount based on places and distances for an average typical month's travel on official business; and filing of the statement and approval of allowance shall be repeated at least annually.

C. Employees who use their personal vehicles for approved County travel shall be reimbursed in accordance with the information reflected on the reverse side of Form #C676. These employees should be aware that they may be subject to periodic odometer audit(s), and that the employee's personal auto insurance is primary payer in case of an accident while or County business. Employees receiving an automobile allowance may still use the form to request reimbursement for meals, lodging, tolls, and parking fees. Further, those employees who are receiving an automobile allowance shall not be entitled to file a claim for in-county mileage reimbursement.

D. Individuals shall be entitled to per diem while on official travel in accordance with provisions contained in Monroe County Code, except the Board may authorize the reimbursement of actual expenditures where documented evidence is provided justifying actual expenses incurred.

E. The County Administrator shall authorize reimbursement for lease, rental cars and/or aircraft where it is deemed by the County Administrator to be the most advantageous to the County. Employees are to waive all insurance on rental car contracts, and no reimbursement for insurance costs shall be authorized under this section. Advance payment for travel must be requested by submitting voucher form for approval by the applicable Assistant County Administrator or County Administrator. Supporting documentation acceptable to the Clerk must be submitted for reimbursement. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules and regulations as may govern the Clerk's disbursal of funds.

G. Travel shall be the most economical and practicable method available.

APPEARANCE

SECTION 16

16.01 DEFINITIONS

A. BOCC: Monroe County Board of County Commissioners.

B. BOCC Distinctive Clothing: A ball cap, jacket, vest, shirt, or other apparel that displays the authorized BOCC seal, insignia, or markings in approved coloring and styles.

C. Uniform: Specific, distinctive clothing required to be worn for a certain position, including but not limited to apparel with County logos, as well as shoes or boots required to be worn for the position, e.g., safety boots.

16.02 SCOPE

This policy applies to all BOCC personnel and volunteers. It does not apply to contractors or their employees. Uniform policies included in collective bargaining agreements shall preempt this policy for employees covered by said agreements.

16.03 APPEARANCE, HYGIENE, AND PROPER ATTIRE

A. All County employees should strive to be as neat and clean in appearance as reasonably possible. Proper attire conducive to carrying out the functions of their respective positions shall be worn by all employees.

B. Employees must maintain good personal hygiene and sanitation by bathing regularly, maintaining good oral hygiene, washing hands properly, covering coughs and sneezes, and performing other related actions that contribute to a healthy work environment.

C. Proper clothing and equipment needed to ensure employee safety and security is required to be utilized at all times, and in accordance with the Monroe County Safety Policies, as applicable.

D. The Department Head will be responsible for ensuring that the appearance of his or her employees properly represents Monroe County in relation to their positions. Should an employee report to work in a state that indicates proper personal hygiene habits have not been practiced; and/or report to work in attire deemed inappropriate to the work environment, the Supervisor may require the employee to leave and not return until properly groomed and/or properly dressed.

16.04 UNIFORMS

A. It is the policy of the County that certain positions, as designated in each Department and as approved by the Department Head, may be required to wear a uniform while on the job.

B. Each Department Head shall maintain a list of positions within the Department for which the wearing of a uniform or specific clothing is required because it is necessary for the safety, security or health of the employee and is a condition of employment. Department Heads must ensure that the uniforms or specific clothing are necessary.

C. Uniforms or specified clothing may be required to be worn daily or on specified occasions. Examples of occasions on which uniforms could be required include, but are not limited to, meetings with Local, State, or Federal representatives, officials, agencies, and entities; conferences, such as the Florida Association of Counties or the Climate Change Summit; work related events such as job fairs, health fairs, or inter-department meetings; and at times when visual identification is particularly needed, such as when visiting a local business or residence in the employee's capacity to perform County work.

D. Supervisors or managers of work crews may also require uniforms for the purposes of safety and conformity so that staff may be easily identifiable by the public.

E. When an employee is assigned to a position that has been designated as requiring a uniform, the employee's Department Head will track the issuance of uniforms by documenting it on Human Resources' Property/Equipment Tracking Form.

F. Employees filling positions that require the wearing of uniforms as designated by the Department Head must wear the issued uniforms on the job once the employee receives said uniforms.

G. Department Heads may set additional uniform and appearance requirements specific to the nature of work performed in the Department.

16.05 BOCC DISTINCTIVE CLOTHING

A. The County Administrator, or designee, may issue BOCC distinctive clothing, as defined in § 16.1 Definitions, to be worn by BOCC employees when engaged in duties where, in order to effectively perform their official functions, enhance public safety, and/or officially represent this County, they must be easily identifiable as BOCC employees. Examples include, but are not limited to, Emergency Operation Center (EOC) staff, Emergency Management Personnel, Public Works staff, Building or Code Inspectors, and employees working in support of disaster operations, in a multi-agency environment, or in other public-facing capacities.

B. Employment in the Emergency Operations Center or another field setting does not necessarily or automatically require the issuance, donning, or wear of BOCC distinctive clothing.

C. The unavailability of BOCC distinctive clothing is not an acceptable reason for any employee to refuse to or fail to perform his or her assigned duties.

D. Wearing BOCC distinctive clothing is not a substitute for possessing or displaying a County-issued identification badge.

E. BOCC distinctive clothing may be ordered at any time with uniform budget funds, including before or during a disaster or emergency.

F. The County Administrator, Assistant County Administrators, and Department Heads are responsible for authorizing a requirement for BOCC distinctive clothing and authorizing, in writing, the issuance of BOCC distinctive clothing to appropriate employees. These BOCC Staff are also responsible for enforcing compliance with this policy and may not delegate authority to purchase BOCC distinctive clothing.

G. BOCC employees are responsible for the care and securing of issued BOCC distinctive clothing.

H. BOCC employees may independently purchase BOCC distinctive clothing to wear while on the job performing official duties, provided the clothing is in good taste and repair. Such purchases are not

eligible for any reimbursement by the County from appropriated funds. Employees receiving approval to purchase BOCC distinctive clothing will need to make these purchases directly with an approved vendor and pay applicable sales taxes.

I. BOCC distinctive clothing, whether issued to or purchased by the employee, should not be worn when off duty (i.e., off the clock, not performing official duties), with exceptions granted for travel to and from work and for approved breaks during the workday (e.g., employee's lunch break).

J. BOCC employees are expected to conduct themselves with the utmost professionalism, especially when wearing BOCC distinctive clothing, regardless of whether the clothing item was issued to or purchased by the employee.

K. The Director of Employee Services, in consultation with the County Administrator, shall establish and periodically review the BOCC distinctive clothing to ensure that designated design(s) are in accordance with BOCC branding practices and procedure.

16.06 FINANCIAL CONSIDERATIONS

A. Each Department in which employees are required to wear uniforms must include funds for new issues and replacement of uniforms in their respective Department annual budget. Each Department will be entitled to issue up to five reasonably priced uniforms per fiscal year to each employee working in a position that requires such a uniform. The County Administrator or designee shall be responsible for approving both the requirement for the uniforms and the price thereof. Clothing provided under this section is deemed a fringe benefit and subject to applicable payroll and sales taxes.

B. If, based on the anticipated wear-and-tear to uniforms and the frequency with which they are required to be worn, a Department Head believes that certain employees require more than five uniforms per year, the Department Head may request additional uniforms. Any such request must be approved by the Office of Management and Budget and by the BOCC.

C. Employees are personally responsible for the proper care, cleaning, alterations (if any), and repair of uniforms issued to them. If any uniform item becomes unserviceable (e.g., because of a tear), the employee must launder and return the item and request a replacement. If an employee loses a uniform item or causes it to become unusable, the employee may be charged the current cost for replacement.

D. All BOCC employees are prohibited from giving away, donating, trading, selling, or otherwise bartering any BOCC distinctive clothing provided to employees by the County.

E. Uniforms and clothing provided to an employee remain the property of the County and must be turned in upon separation of employment. If the employee fails to return any uniform item, the cost of the unreturned item will be deducted from the employee's final paycheck in accordance with the Fair Labor Standards Act (FLSA). For sanitation reasons, such uniforms and clothing turned in are not required to be reassigned to other employees.

17.02 Definitions:

2. Aggressive, harmful, dangerous, or violent physical actions, or

1. Take place on County premises and affect county property, employees, or representatives, or

2. Involve one or more County employees or representatives, acting in their official County capacity, or

A. The County will take prompt remedial action against any employee, visitor, client, or customer who engages in any behavior prohibited by this policy.

B. The County will establish security measures, to the extent practical, to ensure that County facilities are safe and secure against actions prohibited by this policy.

C. Employees, supervisors, etc. will take reasonable immediate action to protect victims of violent actions from further harm. Actions which will increase any danger should be avoided. When necessary, local law enforcement agencies must be notified as soon as possible.

D. After any imminent danger or threat has been dealt with, an employee, manager, supervisor, etc. has a duty to notify their immediate supervisor, Safety Officer, Risk Manager, or other appropriate person of any incident or activity which is in violation of this policy. Reports made pursuant to this policy will be held in

confidence to the extent possible. The County will not tolerate any form of retaliation against anyone who makes a report under this policy.

E. The Human Resources office shall be notified of any prohibited acts by the affected employee, their supervisor, or other appropriate person, as mentioned in the preceding paragraph. Personnel shall determine the extent of remedial and disciplinary action to be taken. In making this determination, Human Resources may consult with employees, supervisors, safety or risk management representatives, law enforcement officials, etc. Disciplinary action taken against employees who violate this policy will be carried out in accordance with Monroe County Personnel Policies and Procedures.

CHILDREN IN THE WORK ENVIRONMENT

SECTION 18

1. The Purpose of this section is to establish the policy of the Administration concerning Monroe County employees bringing children into the County work environment during normal working hours.

A. It is the policy of this Administration that County employees shall not routinely bring children into the County work environment during the applicable employee's normal working hours.

B. It is recognized that circumstances may arise wherein an employee's option with regard to caring for their dependent children may be restricted for any number of reasons. Generally, it would be expected that the employee would utilize vacation or sick leave, as appropriate, to resolve said matters. However, on the rare occasion where there are no other alternatives, and/or the work requirements are such that the employee's presence is mandatory, the Assistant County Administrator or Department Head may grant a special exception.

C. An Assistant County Administrator or Department Head may grant a special exception in response to unusual or emergency circumstances which would, for a very limited, specific period of time, permit an employee to bring children into the environment. The applicable Assistant County Administrator or Department head shall then formally authorize said special exception in writing by completing the "Children in the Work Place Form" and routing the original to the Human Resources Department via the appropriate Department Head and the County Administrator, prior to the day the child is expected to be present.

D. It is incumbent upon all Department Heads to insure that permitting children in the work environment is a rare exception and not the rule and that the special exception provisions provided above are not to be abused.

E. The parent(s) shall be responsible for the proper behavior of the child while in the workplace.

F. Children are not permitted in County vehicles at any time.

G. Children are totally barred from certain high-risk jobs and work locations (such as construction sites).

H. The County Administrator has the authority to waive the policy for special events (such as Daughter/Son At-Work Days).

CASH MANAGEMENT PROCEDURES

SECTION 19

To establish a standardized cash management procedure that will eliminate the risk of loss or misappropriation of funds.

1. All Departments will have in effect a policy for all cash funds received to be deposited as quickly as possible, but in any event, not later than three (3) business days from receipt.

2. Check vouchers should be date stamped. In cases where there is no voucher attached, paperwork corresponding to the transaction should indicate the date of the check's receipt.

3. Advise OMB of the appropriate employees in each Department who will be responsible for the cash deposits of the policy.

4. Department Heads are responsible for periodically reviewing the cash management procedure with their supervisors to ensure efficiency and compliance with this policy.

FIRE ALARM PROCEDURES

SECTION 20

The purpose of this instruction is to establish the procedure for building occupants to adhere to when fire alarm systems located within County facilities annunciate. The definition of annunciate is to announce the alarm system.

1. When a fire alarm system located in a County Facility annunciate, building occupants are to turn off all electrical equipment that will not delay their exit; and shall immediately evacuate the building, reporting to their designated assembly area in accordance with posted fire evacuation plans located throughout County Facilities.

2. Emphasis shall be placed on orderly evacuation under proper discipline, rather than on speed.

3. Once in the assembly area, each Office Representative will account for their personnel.

4. All personnel will remain in the designated assembly area, well clear of the building, until released by the Fire Department and/or a representative from the Monroe County Public Works, Facilities Maintenance Department.

5. Constitutional Officers and Department Heads are to ensure that all employees under their purview familiarize themselves with this policy and Reference A – Monroe County Safety Policies and Procedures Manual, along with the designated assembly area.

6. Constitutional Officers, Department Heads, and the Monroe County Safety Officer are to ensure evacuation routes are posted on bulletin boards throughout County Facilities, to include an assembly area for each office to report to, in the event of a fire evacuation.

7. Constitutional Officers and Department Heads shall assign one person from each office the responsibility of accounting for each employee that works in their office, in the event of a fire evacuation.

EMERGENCY MANAGEMENT EXPECTATION

SECTION 21

In the event of an emergency that affects the County, such as a hurricane, all employees will be of critical importance to preparing for the event and restoring normal County operations. The Monroe County Disaster Preparedness Employee Plan is an Emergency Management document that supplements the County's Comprehensive Emergency Management Plan. Per this plan, Employees will be designated as Tier 1, 2, or 3 and may be preassigned an emergency management role or be placed into a personnel pool on standby for assignment as needed. When an emergency is declared, employees are expected to maintain contact with their supervisor and report to work before, during, and after the event according to their designated employee Tier, emergency management role, or as assigned by their supervisor.

C. The waiver by either the County or the Employee of a breach or violation of any term or provision of this Agreement by the other party shall not operate or be construed as a waiver of any subsequent breach or violation by the other party.

D. The County and Employee acknowledge that each has shared equally in the review of this Agreement and, accordingly, no court or administrative hearing officer shall construe any provision of this Agreement more strictly against one party over the other party, and every term, condition, covenant, and provision of this Agreement shall be construed simply according to its fair meaning. F. The text herein constitutes the entire agreement between the Employee and the County, and this agreement cannot be amended except by a written document mutually agreed to and executed with the same formalities as this Agreement. Public Records Compliance. Contractor must comply with Florida public records laws, including but not limited to Chapter 119, Florida Statutes and Section 24 of article I of the Constitution of Florida. The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, records, papers, letters or other "public record" materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this contract and related to contract performance. The County shall have the right to unilaterally cancel this contract upon violation of this provision by the Contractor. iv. Upon completion of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records that would be required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of records, in a format that is compatible with the information technology systems of the County.

v. A request to inspect or copy public records relating to a County contract must be made directly to the County, but if the County does not possess the requested records, the County shall immediately notify the Contractor of the request, and the Contractor must provide the records to the County or allow the records to be inspected or copied within a reasonable time.

If the Contractor does not comply with the County's request for records, the County shall enforce the public records contract provisions in accordance with the contract, notwithstanding the County's option and right to unilaterally cancel this contract upon violation of this provision by the Contractor. A Contractor who fails to provide the public records to the County or pursuant to a valid public records request within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.

Contractor shall not transfer custody, release, alter, destroy or otherwise dispose of any public records unless or otherwise provided in this provision or as otherwise provided by law.

Notice of Final Award
FSA23-VEH21.0: Heavy Trucks & Buses

Date: October 1, 2023

To: Bidders and Purchasers

From: Hugh Oliver, Cooperative Purchasing Program Manger

Re: Notice of Final Award for FSA23-VEH21.0: Heavy Trucks & Buses

Florida Sheriffs Association (FSA) has completed its 21st year of the cooperative purchasing heavy trucks and buses contract. FSA is issuing the Notice of Final Award for contract FSA23-VEH21.0: Heavy Trucks & Buses that will be effective from October 1, 2023, through September 30, 2024. This year's bid included 80 items. The contract will offer class 3-5 cab & chassis trucks and buses.

The competitive process for this award began in May 2023, when stakeholders were surveyed regarding procurement needs. Items were added based on survey results and the Fleet Advisory Committee's review of products.

An advertisement for the Invitation to Bid was published in the Florida Administrative Weekly, as well as the State of Florida's Office of Supplier Diversity and the FSA websites. On May 5, 2023, a direct notification was sent to 716 prospective bidders to participate in a voluntary bidder workshop. The ITB advertisement resulted in 81 pre-bid attendees or waivers. Of these respondents, 30 submitted bids and 29 qualified. FSA has identified intended awardees in the attached Final Award Report. The Final Award Report shows up to three lowest bidders per item, per zone.

The Florida Sheriffs Association Cooperative Purchasing Program has followed the Contract Terms and Conditions for this procurement. Bidders that become awarded vendors are governed by their manufacturer agreements and the Contract Terms and Conditions.

Contract pricing will be extended and guaranteed to the Florida Sheriffs Association, any unit of local government, political subdivision or agency of the State of Florida, or to other entities approved by manufacturers to buy from this contract, which can include out-of-state sales. Vendors that wish to extend contract pricing to entities other than those defined here are governed by their manufacturer's agreement. All purchasers are bound by state law, local ordinances, rules, and regulations for purchases made under this contract.

The purpose of this bid is to establish contracts with manufacturers and manufacturer's authorized dealers for contract terms specified under Section 1.03 for the purchase of items on a "no trade-in basis."

1.03 TERM OF CONTRACT

The term for Contracts FSA23-VEL31.0 Pursuit, Administrative and Other Vehicles and FSA23-VEH21.0 Heavy Trucks and Buses shall remain in effect for one year from date of contract execution by the FSA, and may be extended by mutual agreement, at the sole option and discretion of the FSA. The term for Contract FSA23-EQU21.0 Equipment shall remain in effect for two years from date of contract execution by the FSA, and may be extended by mutual agreement, at the sole option and discretion of the FSA. The initial term of this contract begins October 1, 2023, and ends September 30, 2025.

Contract extensions will only be executed when the FSA determines, based on then-existing conditions, that it is in the best interest of the FSA and the purchasers to do so.

1.04 JURISDICTION

This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue shall lie in the appropriate court in and for Leon County, Florida.

1.05 SHERIFF AS COUNTY CONSTITUTIONAL OFFICER

The Offices of the Sheriff in the State of Florida are constitutional offices of the State of Florida. Each has the authority either individually or collectively to execute contracts for all goods and services for the proper conduct of that office. Section 30.53, Florida Statutes, exempts the sheriffs' offices from the provisions of the Florida Statute that would otherwise require sealed and competitive bidding procedures.

The Office of the Sheriff is not required by law to accept the lowest priced proposal and may reject any or all of the proposals without recourse. Bidders are solely responsible for their own bid preparation costs and nothing in this solicitation in any way obligates the participating sheriffs' offices for any payment for any activity or costs incurred by any Bidder in responding to this solicitation.

1.06 FUNDING

In the case of certain purchasers, including state agencies, funds expended for the purposes of the contract must be appropriated by the Florida Legislature, the individual participating agency or the agency's appropriating authority for each fiscal year included within the contract period. For such agencies, their performances and obligations to pay for products or services under any resulting contract, or purchase order, are contingent upon such an annual appropriation by the Legislature, individual agency or by the appropriating authority. Therefore, any contract or purchase order with such an agency shall automatically terminate without penalty or termination costs in the event of non-appropriation.

1.07 CURRENCY

All transaction amounts, bids, quotes, provisions, payments or any part of this contract relating to currency are to be made in United States Dollars.

U. Vendor: The Bidder(s) that receive award, who agree to provide the contract items that meet the requirements and Base Specifications of the contract. The Vendor must agree to the Terms & Conditions, which will serve as the governing contract. If the Vendor is not the manufacturer, the Vendor must be authorized by the manufacturer to market, sell, provide, and service all awarded items.

V. Vendor Installed: A product or service provided by the Vendor or other third party; not the factory.

1.10 LEGAL REQUIREMENTS

Federal, State, and local laws, ordinances, rules and regulations, including any applicable motor vehicle dealer laws, that in any manner affect the items covered herein apply. Lack of knowledge by the Bidder of applicable legal requirements will in no way be a cause for relief from responsibility.

Bidders have the option to certify that they are willing to accept purchase orders funded in whole or in part with federal funds. By opting in, Bidders certify that they are willing to comply with the requirements outlined in Appendix D upon receipt of a federally funded purchase order. This is not a requirement of the Invitation to Bid or contract. Bidders are not required to opt-in; however, they are required to indicate whether they will opt-in or opt-out of receiving federally funded purchase orders. FSA CPP has taken actions to provide and develop information, materials, and resources for Bidders, Vendors and purchasers that will assist in the use of federal funding with this

contract. It is the responsibility of the purchaser to determine compliance for each Vendor, if they wish to use federal funds for purchase or intend to request reimbursements using federal funds.

1.11 PATENTS & ROYALTIES

The Bidder/Vendor, without exception, shall indemnify and hold harmless the Florida Sheriffs Association (FSA) and its employees from liability of any nature or kind, including costs and expenses for, or on account of, any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the contract, including its use by the FSA or a purchaser.

If the Bidder/Vendor uses any design, device or materials covered by letters, patent, or copyright, it is mutually understood and agreed, without exception, that the bid prices shall include all royalties or costs in any way arising, directly or indirectly, from the use of such design, device, or materials in any way involved in the work.

As part of the solicitation process FSA CPP makes information publicly available to potentially qualified entities, and conducts additional outreach to qualified:

- Small businesses,
- Minority-owned small businesses,
- Women-owned small business enterprises, and
- Disadvantaged business enterprises.

FSA CPP takes necessary affirmative steps to ensure that minority businesses, women's business enterprises, and labor surplus area firms are used, when possible, as recommended by 2 C.F.R. § 200.321. FSA CPP will:

- Evaluate whether small, minority, and women's businesses are potential sources,
- Place those qualified small and minority businesses and women's business enterprises on solicitation lists, and
- Search the Small Business Administration, Minority Business Development Agency, and Labor Surplus Area reports for additional potential sources.

Bidders self-certify in the qualification packet whether they meet the state and federal definitions of a small business, minority-owned small business, women-owned small business enterprise, and disadvantaged business.

1.17 ANTI-DISCRIMINATION

The Bidder certifies that they are in compliance as applicable by federal or state law with the non-discrimination clause contained in Section 202, Executive Order 11246, as amended by Executive Order 11375, relative to equal employment opportunity for all persons without regard to race, color, religion, sex or national origin.

1.18 BEST COMMERCIAL PRACTICES

The apparent silence or omission of any description from the specifications shall be regarded as meaning that only the best commercial practices, size, and design are to be used. All workmanship is to be first quality. All interpretations of this specification shall be upon the basis of this statement.

1.19 PUBLIC ENTITY CRIMES (PEC)

In accordance with the Public Entity Crimes Act, Section 287.133, Florida Statutes, a person or affiliate who has been placed on the convicted vendor list maintained by the State of Florida Department of Management Services following a conviction for public entity crimes may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a vendor, supplier, sub-vendor, or consultant under a contract with a public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

1.20 TAX EXEMPTION

Purchasers making a purchase pursuant to the awarded bid are generally exempt from Federal Excise and State Sales Tax. It is the responsibility of the Vendor to verify that the purchaser is exempt by obtaining the purchaser's Federal Excise and State Taxes and Use Certificate Number.

The Florida Sheriffs Association is a 501(c)3 organization and is exempt from all Federal Excise and State Taxes. The FSA State Sales Tax and Use Certificate Number is 85-8012646919C-3.

1.21 ORDER OF PRECEDENCE IN THE EVENT OF CONFLICT

In the event of conflict, the conflict may be resolved in the following order of priority (highest to lowest):

- Addenda to Contract Terms & Conditions, if issued
- Contract Conditions
- General Conditions
- Addenda to Bid Specifications, if issued
- Bid Specifications
- Bidder Instructions

1.22 COMMUNICATIONS

Communications between a Bidder, lobbyist or consultant and FSA are limited to matters of process or procedure and shall be made in writing to the FSA CPP Staff.

Bidders should not rely on representations, statements, or explanations other than those made in this Invitation to Bid or in any written addendum to this Invitation to Bid, and no oral representations, statements, or explanations shall be deemed to bind the FSA or eligible users.

1.23 CLARIFICATION AND ADDENDA

Any questions or clarifications concerning the Invitation to Bid shall be submitted to FSA CPP by e-mail to CPP@flsheriffs.org with the bid title and number referenced on all correspondence. Final questions must be received by the date for Request for Clarification stated on the Bid Calendar. Questions and answers will be posted to the FSA CPP website on the date indicated on the Bid Calendar. Questions received during the cone of silence date listed on the bid calendar will not be addressed, except as provided herein.

Interpretation of the specifications or any solicitation documents will **not** be made to the Bidder verbally, and if any verbal clarifications are provided, they are without legal effect. FSA CPP will make every attempt to e-mail updates to registered Bidders. However, posting to the FSA CPP website or the Bid System constitutes proper notice of addenda.

The FSA CPP shall issue a Formal Addendum if substantial changes that impact the submission of bids are required. Any such addenda shall be binding on the Bidder and shall become a part of the solicitation document. In the event of conflict with the original specifications, addenda shall govern to the extent specified. Subsequent Formal Addenda shall govern over prior Formal Addenda only to the extent specified. The FSA will not be responsible for any explanation or interpretation made verbally or in writing except those made through the posting of a Formal Addendum.

The bid submission constitutes acknowledgment of addenda to the Bid Specifications. Bids that fail to account for the specification addenda shall be determined to be nonresponsive; however, the FSA CPP may waive this requirement when in its best interest.

After the start of the contract term, FSA CPP will notify all Vendors of any addenda and will require acknowledgement of the new terms and conditions. If the Vendor does not agree to the new terms and conditions, the Vendor's award can be removed or replaced by another Vendor or qualified responsive bidder.

1.24 SIGNED BID CONSIDERED AN OFFER

The signed bid shall be considered an offer on the part of the Bidder, which offer shall be deemed accepted upon approval by the FSA CPP. The bid submission must be signed by an authorized representative. Submission of a bid in the FSA CPP Bid System constitutes a signed bid for purposes of bid evaluation. An electronic signature may be used and shall have the same force and effect as a written signature.

1.25 ASSIGNMENT OF CONTRACT

No right or interest in this contract may be assigned, transferred, conveyed, sublet or otherwise disposed of, without prior written consent of the FSA CPP.

If the original Vendor sells or transfers all assets or the entire portion of the assets used to perform this contract, a successor-in-interest must perform all obligations under this contract. FSA CPP reserves the right to reject the acquiring entity as Vendor. A change of name agreement will not change the contractual obligations of the Vendor.

In the event a manufacturer reassigns the product line to an alternate company, the Vendor is required to notify the FSA CPP in writing of the change within 10 business days of the reassignment. If the Vendor is not already an approved FSA CPP Vendor, the alternate company is required to submit a Qualifications Packet to the FSA CPP to become an approved Vendor *prior to* conducting any qualified sales. FSA CPP may approve such assignments of existing or new vendors at its discretion. The Vendor is required to honor the contract pricing and all of the applicable Terms & Conditions throughout the remaining term of the contract.

1.26 TERMINATION OF PRODUCT LINE

If a Vendor terminates a product line (manufacturer or brand), the Vendor is required to notify the FSA CPP within 10 business days of the decision not to retain the product line. FSA CPP may remove the terminated products from the contract.

1.27 DEMONSTRATION OF COMPETENCY

Bidders must be able to demonstrate a good record of performance for a reasonable period of time, and have sufficient financial support, equipment and organization to ensure they can satisfactorily execute the services if awarded a contract under the terms and conditions herein stated.

The terms "equipment" and "organization" as used herein shall be construed to mean a fully equipped and well-established company in line with the best business practices in the industry and as determined by the FSA CPP.

The FSA CPP may consider any evidence available and may require submission of supporting documentation regarding the financial, technical and other qualifications and abilities of a Bidder, including past performance with the FSA CPP in making the award.

FSA CPP may inspect the Bidder's facility prior to the award of contract. Bids will only be considered from firms which are regularly engaged in the business of providing the goods or services described in this Invitation to Bid.

Information submitted in the bid may not be plagiarized and, except in the case of materials quoted from this solicitation or developed by the manufacturer, must be the original work of the individual or company that submits the bid for evaluation.

1.28 VENDOR ABILITY TO PERFORM

The FSA CPP may require Bidders to show proof that they have been designated as authorized representatives of a manufacturer or supplier, which is the actual source of supply. In these instances, the FSA CPP may also require information from the source of supply regarding the quality, packaging and characteristics of the products. Any conflicts between this material information provided by the source of supply and the information contained in the bid submission may render the bid nonresponsive.

During the contract period, FSA CPP may review the Vendor's record of performance and may require submission of supporting documentation to ensure that the Vendor is providing sufficient financial support, equipment and organization.

If the FSA CPP determines that the Vendor no longer possesses the financial support, equipment and organization in order to comply with this section, FSA has the authority to immediately terminate the contract.

By responding to this Invitation to Bid, the Vendor warrants that, to the best of his or her knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Vendor's ability to satisfy the obligations of a resulting contract. The Vendor warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to section 287.133 of the Florida Statues, or on any similar list maintained by any other state or the federal government. The Vendor shall immediately notify the FSA CPP and purchaser in writing if its ability to perform is compromised in any manner during the term of the contract.

1.29 FINANCIAL RESPONSIBILITY

Bidder affirms by the submission of the bid and by signature on the contract signature form that the Bidder:

- Has fully read and understands the scope, nature, and quality of work to be performed or the services to be rendered under this bid and has adequate facilities and personnel to fulfill such requirements.
- Accepts the financial responsibility associated with this bid and declares that they have the access to capital (in the form of liquidity or credit lines) in order to meet the financial demands of such award.
- Has assessed the financial responsibility required to serve the contract as bid, including such details as the obligations to perform all items bid, zones bid, and quantities that could be ordered, as well as timing of payment from purchasers, which can be 45 calendar days from receipt of invoice.

1.30 QUALITY AND SAFETY

All materials used for the manufacture or construction of any supplies, materials or equipment covered by this bid shall be new. The items bid must be new, the latest model, of the best quality, and highest-grade workmanship that meet or exceed federal safety standards.

Items requiring certification should require certification of options in cases where non-certified options could result in the decertification of the original product or warranty. In all cases where options are not certified, the Vendor must disclose to the end user that the non-certified options are not required to be certified. All options must meet or exceed federal safety standards.

1.31 NONCONFORMANCE

Items may be tested for conformance with specifications. Items delivered that do not conform to specifications may be rejected and returned at the Vendor's expense.

Any violation of these stipulations may also result in:

- Vendor's name being removed from the awarded vendor list.
- FSA and purchasers being advised not to do business with Vendor.

1.32 GRATUITIES

Bidders shall not offer any gratuities, favors, or anything of monetary value to any official, employee, or agent of the FSA, for the purpose of influencing consideration of this bid. Bidders shall disclose in writing any conflicts of interest to FSA prior to any award, or as soon as practicable after learning of any such conflict, including any contractual or employment relationships with FSA or potential purchasers of Bidders' products or services.

1.33 TIE BIDS

FSA CPP has the right to award multiple Bidders the primary or alternate award in the event of a tie. In the event the FSA CPP desires to break tie bids, and businesses have qualifying drug-free work programs, the award will be made using the following criteria:

- Bidder within the State of Florida
- Vendors' performance record with purchasers
- Coin Toss

1.34 RIGHT TO AUDIT

Vendor shall establish and maintain a reasonable accounting system that enables FSA CPP to readily identify Vendor's sales. FSA CPP and its authorized representatives shall have the right to audit and to make copies of all related records pertaining to this contract, including all government sales and eligible user information, whether kept by or under the control of the Vendor, including, but not limited to those kept by its employees, agents, assigns, successors, sub-vendors, or third-party suppliers in whatever form they may be kept – written or electronic. Such records shall include, but not be limited to:

- Accounting records, including but not limited to purchase orders, confirmation of orders or invoices, paid vouchers, cancelled checks, deposit slips, ledgers, and bank statements;
- Written policies and procedures;
- Subcontract files (including proposals of successful and unsuccessful Bidders, bid recaps, etc.);
- Original estimates, quotes, or work sheets;
- Contract amendments and change order files;
- Insurance documents; or
- Memoranda or correspondence.

Vendor shall maintain such records during the term of this contract and for a period of three (3) years after the completion of this contract. At the Vendor's expense and upon written notice from FSA CPP, the Vendor shall provide such records for inspection and audit by FSA CPP or its authorized representatives. Such records shall be made available to FSA CPP during normal business hours within three business days of receipt of the written notice. FSA CPP may select the Vendor's place of business or offsite location for the audit. The FSA CPP may also request the Vendor provide requested records via e-mail.

Vendor shall ensure FSA has these rights with Vendor's employees, agents, assigns, successors, and third-party suppliers, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Vendor and any sub-vendors to the extent that those subcontracts or agreements relate to fulfillment of the Vendor's obligations to FSA.

Professional fees, personnel costs and travel costs incurred by FSA under its authority to audit and not addressed elsewhere will be the responsibility of the FSA. However, if the audit identifies underreporting, overpricing or overcharges (of any nature) by the Vendor to FSA or a purchaser in excess of three percent (3%) of the total contract billings, the Vendor shall reimburse FSA for the total costs of the audit not to exceed $5,000. If the audit discovers substantive findings related to fraud, misrepresentation, or non-performance, FSA may recoup all the costs of the audit work from the Vendor.

Any adjustments or payments that must be made as a result of any such audit or inspection of the Vendor's invoices or records shall be made within a reasonable amount of time (not to exceed 60 calendar days) from presentation of FSA's findings to Vendor.

FSA has the right to assess damages or seek reimbursements or refunds based on audit results.

1.35 LICENSES AND PERMITS

The Bidder shall obtain and pay for all licenses, permits and inspection fees for this bid submission and any resulting contract. Where Vendors are required to enter or go onto FSA or purchaser property to deliver materials or perform work or services as a result of a bid award, the Vendor will assume the full duty, obligation and expense of obtaining all necessary licenses, permits and insurance.

The Bidder must, by the time of award, be registered to do business in the State of Florida on SunBiz.gov.

1.36 PERFORMANCE BONDS

Purchasers may request a performance bond from a Vendor. Performance bonds are recommended with pre-payment and will be at the expense of the requesting agency. Purchasers should determine the best practice in comparing performance bond expense against any prior discounts that may be available.

1.37 ELIMINATION FROM CONSIDERATION

This Invitation to Bid shall not be awarded to any person or Bidder who has outstanding debts to the FSA, whether in relation to current or previous bid awards or for other business purposes.

1.38 INDEPENDENT PREPARATION

A Bidder shall not, directly or indirectly, collude, consult, communicate or agree with any other Bidder as to any matter related to the bid each is submitting. Additionally, a Bidder shall not induce any other Bidder to modify, withdraw, submit, or not submit a bid.

Bidders or Vendors who are found to have engaged in these acts will be considered nonresponsive and will be suspended or barred from bid participation. Any contract award resulting from these acts may be terminated for

default. Further, any such acts detected by the FSA may be reported to relevant law enforcement and/or prosecutorial agencies.

Bidders may submit multiple bids without violating this provision if the bid submitted is not from the same manufacturer and product line. Dealers that share the same ownership may submit multiple bids without violating this provision if the Bidders are not in the same region featuring the same manufacturer and product line.

1.39 DEFAULT

In case of default on the part of Vendor, the FSA CPP may take necessary steps to otherwise procure the products sought, including but not limited to procuring the products or services from the next highest ranked Bidder or from other sources. A defaulting Vendor may be held liable for costs incurred by the FSA in procuring replacement products.

1.40 PROTESTS AND ARBITRATION

Any person who is adversely affected by the decision or intended decision to award shall file a "Notice of Protest" in writing to the FSA CPP within three (3) business days after the posting of the Intent to Award and shall file a formal written protest within five (5) business days after filing the Notice of Protest. Failure to file both a notice of protest and a formal written protest within the above referenced timelines shall constitute a waiver of proceedings.

The burden is on the party protesting the award of the bid to establish grounds for invalidating the award(s). The formal written protest must state with particularity the facts and law upon which the protest is based. Options are for informational purposes only and will not serve as a basis for protest. Failure to do so will result in a denial of protest. Formal written protest which states with particularity the facts and law upon which the protest is based will be reviewed by FSA legal counsel for legal soundness and validity, and corrective action will be taken as needed contingent upon the validity of such claims. However, any additional time required and cost incurred by the FSA to substantiate a protesting party's claim(s) beyond the normal scope of its legal review due to the vague or inconclusive nature of the protesting party's filing will be reimbursable to the FSA and deducted from the protesting party's bond or security which must accompany their filing.

Any Bidder who files an action protesting a decision or intended decision pertaining to this contract shall post a bond, cashier's check or money order payable to the Florida Sheriffs Association in the amount equal to ten percent of the item being protested. The bond, cashier's check or money order must be filed at the time of filing the formal written protest or within the five (5) business day period allowed for filing the formal written protest. FSA CPP will provide the amount required within two (2) business days of the notice of protest received. This bond or security will be conditioned upon the payment of all costs which may be adjudged against the protesting party in a court of law and/or to reimburse the FSA for additional legal expenses incurred and required to substantiate the protesting party's claim(s). Failure to post the bond or security requirement within the time allowed for filing will result in a denial of protest. The filing of the protest shall not stay the implementation of the bid award by the Florida Sheriffs Association.

Should the unsuccessful Bidder(s) decide to appeal the decision of the FSA, they shall file a notice to FSA CPP within three (3) business days of the FSA bid protest decision regarding their intent to request arbitration. A demand for arbitration with the American Arbitration Association's (AAA) commercial panel under its rules and regulations must be made within ten (10) business days of the FSA bid protest decision. Any person who files for an arbitration with the AAA shall post with the Florida Sheriffs Association at the time of filing the formal written arbitration request, a bond, cashier's check or money order payable to the Florida Sheriffs Association in the

amount equal to ten percent of the product line being protested. This amount will be the same amount as the FSA CPP provided at the time of filing the initial protest. Failure to provide written notice to FSA CPP, file a demand for arbitration with the AAA, or failure to post the required bond and security requirement within the specified timelines shall constitute a waiver of arbitration proceedings. By responding to this procurement, the Bidder expressly agrees to the use of mandatory binding arbitration to resolve any appeals of the decision of the FSA, and any claims arising from or in any way relating to the procurement process, and expressly waives any and all rights that it may otherwise have to pursue such claims in any other forum, judicial or otherwise.

If the party filing for arbitration does not prevail, it shall pay all costs, legal expenses and attorney fees of the prevailing party incurred in connection with the arbitration. However, if the filing party prevails, the parties shall share equally the fees and expenses of the arbitration and AAA and each shall bear the cost of their own attorney fees. The filing for arbitration shall not stay the implementation of the bid award by the Florida Sheriffs Association.

1.41 NONPERFORMANCE

By virtue of the bid submission, Bidder acknowledges its obligation to sell items in all zones for which it is awarded. Upon award, failure of the Vendor to comply with these requirements may result in the imposition of liquidated damages of up to $1,000 per item, which amount the Vendor agrees is reasonable, or probation, suspension, termination or a combination thereof from current and future bids at the FSA CPP's discretion.

The Vendor shall at all times during the contract term remain responsive and responsible. In determining Vendor's responsibility, the FSA CPP shall consider all information or evidence that demonstrates the Vendor's ability or willingness to fully satisfy the requirements of the Terms & Conditions.

Vendors that are not in compliance with any of the provisions of this contract can be assessed liquidated damages, suspended or terminated from the contract. The FSA CPP at its sole discretion may remove a noncompliant Vendor from future competitive bid solicitations; or take other actions including suspension from the contract until compliance issues are resolved, limit current or future vendor participation by items or zones, or other actions as determined by FSA CPP at its sole discretion.

At FSA CPP's discretion, Vendors may be required to develop corrective action plans to address contract compliance. Failure to abide by corrective action plans will result termination from the existing contract and future competitive bid solicitations at the discretion of the FSA CPP.

In situations where there is evidence that the Vendor has engaged in egregious breaches of the contract with respect to either the FSA CPP and/or the purchaser, the contract can be terminated and the Vendor will be removed from future solicitations for a period of up to three (3) years, or a permanent ban from the bid process at the sole discretion of FSA CPP.

Specific conditions for termination include, but are not limited to; failure to perform, refusal to accept orders during the contract period while manufacturer orders are still being accepted for current model year or the new year if the vehicle is price protected by the factory, charging amounts exceeding MSRP on factory or Vendor installed items and packages, requiring the purchase of additional options over and above the base vehicle as a condition of acceptance of order, providing aftermarket options where factory options are available without the consent of the purchaser, any misrepresentation of optional equipment or service as being factory that fails to meet the definition as described in this document, and any other practice deemed to be inconsistent with the intent of the contract.

Any Vendor presented with a valid Purchase Order consistent with Vendor bid quotes or other agreed upon terms and pricing is required by this contract to accept such purchase order and deliver the product. Purchase Orders must be fulfilled whether or not the Purchase Order includes options. The Vendor must deliver this product in accordance with the Terms & Conditions – regardless of whether doing so will provide the Vendor with a profit or loss.

Failure to deliver the item may result in the purchaser seeking damages for the difference of cost to issue a new Purchase Order with another Vendor plus any legal fees and damages that may be incurred in the process to facilitate a completed order. Additionally, FSA CPP may seek damages for nonpayment of administrative fees, to which FSA CPP is entitled, according to Section 3.28, and any attorney's fees incurred in the recovery of these damages.

1.42 SEVERABILITY

In the event any provision of this contract is held to be unenforceable for any reason, the unenforceability thereof shall not affect the remainder of the contract, which shall remain in full force and effect and enforceable in accordance with its terms.

1.43 TERMINATION FOR CAUSE

If through any cause within the reasonable control of the Vendor, it shall fail to fulfill in a timely manner, or otherwise violate any of the terms of this contract, the FSA CPP shall have the right to terminate the services remaining to be performed. Written notice of the deficiencies shall be given to the Vendor and unless the deficiencies are corrected within 10 business days, the contract may be terminated for cause immediately. The right to exercise the option to terminate for cause shall be in the sole discretion of the FSA CPP, and the failure to exercise such right shall not be deemed to constitute a waiver of this right.

In the event of a termination for cause, the purchaser shall compensate the successful Bidder in accordance with the contract for all services performed by the successful Bidder prior to termination, net of any costs incurred by the purchaser and FSA as a consequence of the default.

Notwithstanding the above, the Vendor shall not be relieved of liability to the FSA for damages sustained by the FSA by virtue of any breach of the contract by the Vendor, and the FSA CPP may reasonably withhold payments to the Vendor for the purposes of offset until such time as the exact amount of damages due the FSA from the Vendor is determined.

1.44 TERMINATION WITHOUT CAUSE

The FSA CPP can terminate the contract in whole or part without cause by giving written notice to the Vendor of such termination, which shall become effective 30 calendar days following receipt by Vendor of such notice.

In the event of a termination without cause, all finished or unfinished documents and other materials shall be properly delivered to the FSA CPP.

The Vendor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the contract, if any. The Vendor shall not be entitled to recover any lost profits that the Vendor expected to earn on the balance of the contract or cancellation charges.

Any payments to the Vendor shall be only to the total extent of the purchaser liability for goods or services delivered prior to the date of notice to terminate the contract.

1.45 CONTRACT ADVERTISEMENT AND USE OF FSA LOGO

The FSA logo is an official logo of the Florida Sheriffs Association designed to promote the program. The logo may be used by Vendors in accordance with this policy. Use of the logo is limited to the original version received from the FSA. Modifications are not permitted.

Methods of use include, but are not limited to:

- Electronic mediums such as websites, digital marketing campaigns, social media and e-mail; or
- Print media such as forms, marketing campaigns, business cards, posters, banners, brochures, flyers and postcards.

Vendors may request use of the logo by contacting cpp@flsheriffs.org, and should include a brief description of how the Vendor intends to use the logo. The official FSA sheriff's star and wreath logo may not be used without prior written permission.

The sufficiency of the Warranty Service Plan may be evaluated by the FSA CPP. The FSA CPP reserves the right to request additional information from a Bidder regarding the facility during the solicitation and the term of the contract, if awarded. The FSA CPP may also exercise discretion in examining such facility as deemed necessary.

2.03 INSURANCE AND INDEMNIFICATION

Bidder/Vendor shall be fully liable for the actions of its agents, employees, partners, or third party suppliers and shall fully indemnify, defend, and hold harmless the Florida Sheriffs Association, the participating agencies, and their officers, agents, and employees from suits, actions, damages, and costs of every name and description, including legal counsels' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Bidder/Vendor, its agents, employees, partners, or third party suppliers; provided, however, that the Bidder/Vendor shall not indemnify for that portion of any loss or damages resulting directly from the negligent acts or omissions of the Florida Sheriffs Association and participating agencies or proximately caused by intentional wrongful acts or omissions of the Florida Sheriffs Association and participating agencies.

The Florida Sheriffs Association and/or participating agencies shall give the Bidder/Vendor (2) the opportunity to take over and settle or defend any such action at Bidder's/Vendor's sole expense. When reasonable, the Florida Sheriffs Association will give the Bidder/Vendor written notice of an action or threatened action. Bidder/Vendor shall not be liable for any unreasonable cost, expense or compromise incurred by the Florida Sheriffs Association, or participating agencies, in any legal action without Bidder's prior written consent, which consent shall not be unreasonably withheld, conditioned, or delayed.

The Insurance Checklist summarizes the Bidder's/Vendor's insurance coverage obligations, if awarded. Certificates of Insurance, evidencing such coverages and endorsements as required herein, shall be provided no later than five (5) business days prior to the contract award date. The Vendor may not begin performance under the contract until such Certificates have been approved by the FSA CPP.

The certificate must state Bid Number and Title. FSA must be named as an additional insured for the duration of the contract.

The Vendor shall maintain comprehensive general liability insurance and general aggregate insurance in the amount and coverage levels specified on the Insurance Checklist.

The Vendor shall specifically and distinctly assume, and does so assume, all risks of damage or injury to property or persons used or employed on or in connection with the work and of all damage or injury to any person or property wherever located, resulting from any action or operation under the contract or in connection with the work. It is understood and agreed that at all times the Vendor is acting as an independent contractor. The Vendor shall be responsible for the work and every part thereof, and for all materials, tools, appliances and property of every description, used in connection with this particular contract. The Vendor at all times during the full duration of work under this contract, including extra work in connection with this contract, shall meet the requirements of this section.

The Vendor shall maintain automobile liability insurance including property damage covering all owned, non-owned, hired and scheduled automobiles, when used in connection with the delivery or service of this contract.

The Vendor shall maintain insurance to cover garage operations in the amount specified on the Insurance Checklist when the garage is used to complete work on this contract.

All insurance policies shall be issued by companies authorized to do business under the laws of the State of Florida and these companies must have a rating of B+ or better per the AM Best Rating.

FSA CPP required insurance coverages must be maintained through the duration of the contract. Upon expiration of the required insurance, the Vendor must email updated certificates of insurance for as long a period as any work is still in progress. No change or cancellation in insurance shall be made without 30 calendar days written notice to the FSA CPP.

It is understood and agreed that all policies of insurance provided by the Vendor are primary coverage to any insurance or self-insurance the FSA possesses that may apply to a loss resulting from the work performed in this contract. All policies issued to cover the insurance requirements herein shall provide full coverage from the first dollar of exposure.

The liability insurance coverage shall extend to and include the following contractual indemnity and hold harmless agreement:

> *The Vendor hereby agrees to indemnify and hold harmless the FSA, a 501(c)3, its officers, agents, and employees from all claims for bodily injuries to the public and for all damages to the property per the insurance requirement under the specifications including costs of investigation, all expenses of litigation, including reasonable legal counsel fees and the cost of appeals arising out of any such claims or suits because of any and all acts of omission or commission of any by the Vendor, his agents, servants, or employees, or through the mere existence of the project under contract.*

The foregoing indemnity agreement shall apply to any and all claims and suits other than claims and suits arising out of the sole and exclusive negligence of the FSA, its officers, agents, and employees, as determined by a court of competent jurisdiction.

The Vendor will notify the insurance agent without delay of the existence of the Hold Harmless Agreement contained within this contract and furnish a copy of the Hold Harmless Agreement to the insurance agent and carrier.

The Vendor will obtain and maintain contractual liability insurance in adequate limits for the sole purpose of protecting the FSA under the Hold Harmless Agreement from any and all claims arising out of this contractual operation.

The Vendor will secure and maintain policies of third-party suppliers. All policies shall be made available to the FSA upon demand. Compliance by the Vendor and all third-party suppliers with the foregoing requirements as to carrying insurance and furnishing copies of the insurance policies shall not relieve the Vendor and all third-party suppliers of their liabilities and obligations under any section or provisions of this contract. Vendor shall be as fully responsible to the FSA for the acts and omissions of the third-party suppliers and of persons employed by them as they are for acts and omissions of persons directly employed by the Vendor.

The FSA can request, and the Vendor shall furnish proof of insurance within seven (7) calendar days of receipt of the written request from FSA. Should the Vendor fail to provide acceptable evidence of current insurance during the contract term, the FSA CPP shall have the right to consider the contract breached and justifying the

termination thereof. If Bidder does not meet the insurance requirements; the FSA may consider alternate insurance coverage.

2.04 SPECIFICATIONS

All items covered by this Invitation to Bid and any resulting contract, and the specifications shall be the manufacturer's current basic production model, and shall, as a minimum, be equipped with all standard factory equipment in accordance with the manufacturer's latest literature unless otherwise noted in the Bid System or FSA CPP item group specification.

The Base Item Specifications are contained in the FSA CPP Bid System, may be requested from FSA CPP, and are retained within FSA CPP's archive. As part of the bid submission, Bidders will be required to provide confirmation that the item bid meets the FSA CPP Base Specification. FSA CPP may reject bids that fail to provide confirmation that the item(s) bid meet the FSA CPP Bid Specifications.

FSA CPP develops the specifications with subject matter experts and publicly available information. However, FSA CPP does not have access to full details from the manufacturer and relies on Bidders to assist in this process. Bidders should immediately notify the FSA CPP of any inaccuracies in the specifications. All notifications of inaccuracies must be in writing.

If awarded a contract, Vendor(s) must offer and supply an item that either meets or exceeds all the requirements included in the applicable Bid Specifications, unless a purchaser specifically issues a Purchase Order for a base item and Option that differs from the Base Specifications. Failure of a Bidder to comply with these provisions will result in Bidders being held responsible for all costs required to bring the item into compliance with the contract specifications.

2.05 SEALED BIDS

For purposes of this solicitation, a sealed bid is considered a bid submitted using the FSA CPP Bid System.

2.06 MISTAKES

Bidders are expected to examine the Base Item specifications, delivery schedules, bid prices and all information pertaining to servicing this contract before submitting a bid. Failure to do so will be at the Bidder's risk.

2.07 EXCEPTIONS

Any requested exceptions, deviations, or contingencies a Bidder may have to the Terms & Conditions must be documented in Bidder's submission. Exceptions to the Base Specifications at the time of the bid submission shall reference the item number, make and model. FSA CPP has the discretion to grant or deny, in whole or in part, the Bidder's requested exception, deviation or contingency to the specifications or Terms &Conditions. Bidder acknowledges that the bid may be disqualified if FSA CPP rejects the proposed exceptions.

2.08 EQUIVALENTS

Prior to the opening of the Bid System, Bidders may request item equivalents. The Bidder must submit the manufacturer name and model number (or product identifier) of each equivalent requested to FSA CPP. Complete,

descriptive, technical literature should demonstrate that the equivalent conforms with specification. If a bid uses equivalents without prior approval, the bid may be disqualified.

2.09 MANDATORY PRE-BID MEETING

Prospective Bidders are required to attend or participate in the **mandatory** Pre-Bid Meeting. The Pre-Bid Meeting is designed for vendors, the Fleet Advisory Committee and the FSA CPP to clarify questions on the Terms & Conditions and to confirm all Base Item specifications. Questions relating to the items, specifications, the bid process, or award can be asked at the Pre-Bid Meeting. Bidders have the opportunity to suggest technical modifications or corrections before the Base Item specifications are finalized.

FSA CPP reserves the right to grant attendance exceptions to the mandatory meeting if the Bidder has requested authorization, agrees in writing to meet all the Terms & Conditions without exception and further waives their right to protest the bid process in its entirety or any portion thereof.

2.10 PRICES QUOTED – HEAVY TRUCKS AND BUSES AND EQUIPMENT INVITATIONS TO BID

Items and options should reflect the most complete price and be below MSRP and at a minimum should cover the cost of the item or option bid.

Prices quoted in the bid submission should reflect the final amount the Bidder can expect to receive for payment for the items bid for the duration of the contract, unless otherwise provided in the contract. Prices submitted as indicated in the sealed bid are final. Bidders acknowledge that prices quoted will be valid for a period of sixty (60) calendar days from the date of bid opening.

Each item, make, and model must be priced and bid separately. Prices must be inclusive of all the components included in the Base Specification.

Prices bid must include the administrative fee FSA CPP charges to administer the contract, as outlined in these Terms & Conditions. The administrative fee is three quarters of one percent (.0075).

Prices bid must be at least cost, be Free On Board (FOB) destination, and must include delivery to the purchaser.

Upon award, the Vendor has the authority to offer additional discounts based on prompt payment, quantity, as well as additional manufacturer or vendor discounts.

2.11 PRICES QUOTED – PURSUIT, ADMINISTRATIVE AND OTHER VEHICLES INVITATION TO BID

Due to the changing market conditions, the FSA CPP has temporarily moved to a percent above cost, or "cost-plus", model for the Pursuit, Administrative and Other Vehicles Contract. The cost-plus model allows for Vendors to sell items immediately when order windows open up for next year's model, when the manufacturer changes price during the contract term, or when new items come to market.

Bidders shall provide a Bid Price and a Percent for each item bid. The Bid Price will be used to evaluate the lowest, responsive and responsible Bidder for each item and zone. The Percent will be used under an awarded contract to determine the cost-plus pricing for new year's models, when the manufacturer changes price during the contract

term, or when new items come to market. The FSA CPP will use the percent feature of the Bid System as the field to capture the percent above cost that the Vendor can expect to receive from the purchaser for the purchase of an awarded item.

The FSA CPP has the discretion to disqualify Bidders if the proposed Percent is excessive. In order to determine if Percent is excessive, FSA will compare the Percents proposed by Bidders for each item in each zone.

Prices and Percents bid for items and options should reflect the most complete item price, be below MSRP, and at a minimum should at least cover the cost of the item or option bid.

Prices and Percents bid must be at least "Item Cost", be Free On Board (FOB) destination, and must include delivery to the purchaser.

As used in this provision, “Item Cost” is defined as the factory invoice price for the item, the Original Equipment Manufacturer (OEM) destination and delivery to dealer, and the FSA Administrative fee, minus the OEM government pricing concessions specific to this bid, all manufacturer incentives, discounts, rebates, concessions and holdbacks.

As used in this provision, “Total Cost” is defined as the Item Cost, plus costs of dealer’s floorplan estimated operational expense, and costs of dealer for preparation, cleaning, and assembling, gas, and delivery to zone.

As used in this provision, “Bid Price” is defined as the Total Cost and profit.

As used in this provision, “Percent” is defined as the markup over Item Cost.

Bid Prices will be used as the initial publish pricing for awarded items. As windows open up for next year’s model, the manufacturer changes price during the contract term, or as new items come to market, FSA CPP will work with Vendors to update the published pricing for such items based on the awarded Percent, within a reasonable period of time. Vendors may accept Purchase Orders for such items in accordance with these Terms & Conditions before submitting updated published pricing to FSA CPP.

2.12 PURSUIT, ADMINISTRATIVE, AND OTHER VEHICLES CONTRACT COST-PLUS-PERCENT PRICING

Due to the changing market conditions, the FSA CPP has temporarily moved to a percent above cost, or “cost-plus”, model for the Pursuit, Administrative and Other Vehicles Contract. The cost-plus model allows for Vendors to sell items immediately when order windows open up for next year’s model, when the manufacturer changes price during the contract term, or when new items come to market.

The Bid System provides each Vendors’ percent above cost at which the Vendor will sell such items. The Percent provided in the Bid System does not provide a percent discount for items bid.

If Vendor fulfills a Purchase Order at other than published pricing, at purchasers’ request, Vendor must provide documentation substantiating the Item Cost, as defined in section 2.11.

2.13 OPTION PRICING – EQUIPMENT INVITATION TO BID

The Bidder shall offer discount below Manufacturer's Standard Retail Pricing (MSRP) or manufacturers published list price for any factory options included in the bid submission and quotes to purchasers, if awarded. FSA CPP requests Vendors include most frequently purchased scheduled, factory and aftermarket options in the bid.

Options are intended to add or delete equipment or features from the Base Specification. Options can provide an upgrade or downgrade to a manufacturer's model, such as a slightly different engine size or horsepower, and should not be made available for purchase separate from the base vehicle or equipment. Options may only provide a downgrade to a manufacturer's model when specifically requested in a Purchase Order issued in accordance with the Terms & Conditions by a purchaser. Bidders shall NOT use options to create equipment that is entirely different than the FSA CPP Base Specification or are available as another specification bid on this Invitation to Bid.

Bidder must use proper factory codes for all factory options. Options available through the factory may be bid and supplied to purchaser as "factory" options, unless otherwise requested in writing by the purchaser.

The FSA CPP has the discretion to disqualify Bidders if the option pricing is excessive or if options listed are not available for the item bid. In order to determine if pricing is excessive, Bidders agree to provide documentation to FSA CPP to verify cost at any time during the solicitation process or during the contract term. This information is for comparison purposes only when determining if pricing is excessive and will not be published.

Option pricing will include all costs of labor associated with the option and cost of labor should not be listed separately within the bid. For purposes of this bid, Emergency Lights and Sirens will require a separate pricing sheet upload in the Bid System. Section 2.15 contains specific instructions and exceptions for Emergency Lights and Sirens.

If a Bidder will offer registration and title services as a fee for service, the Bidder must include the administrative fee as a separate option (i.e., line item) for each item bid. *See* Section 3.21 for additional details. Government imposed fees should not be included in this option pricing.

No other additional charges or fees are admissible.

If options are not available as a stand-alone option, the Bidder must indicate in their bid submission any option requiring the purchase of other options, and also indicate options that are a part or dependent of another option. Factory package options are allowable under this contract. Factory package options must be included in the options within the bid document and detailed specifically as to what components the package includes.

When calculating the price for a manufacturer's option requested in this bid that is not listed as an option in the manufacturer's order guide (i.e., model or engine upgrade), the Bidder must calculate the option price as the net difference between vendor cost on the representative base vehicle and the total MSRP of the requested option modifying the vehicle. A Bidder may bid less than this price, but at no time charge more than the calculation provided here.

The use of options to facilitate the sale of an alternate manufacturer's product which is outside the scope of the written Base Specification will be determined nonresponsive and the bid will be rejected in whole or part by the FSA CPP.

Example: Bidder CANNOT include option upgrades that result in the selling of a vehicle or truck on one specification that is offered as a separate specification in

the Invitation to Bid. For example, a Vendor who is awarded the bid for 25,500 lb. GVWR Cab & Chassis cannot upgrade this item through an add option to a 30,000 lb. GVWR Cab & Chassis in order to circumvent the bid award winner for the 30,000 lb. GVWR Cab & Chassis.

Purchasers are encouraged to negotiate option pricing with Vendors. Discounts can be provided beyond option prices listed in the contract. The additional discounts for each add option shall be decided by the Vendor.

The options will correspond to the specification or item number. Multiple options may be listed for each specification or item number bid. Therefore, Bidders that do not indicate the correct item number with the option information bid will not have options displayed for the item bid. If option pricing is not uploaded correctly, FSA CPP may require Bidders to correct the formatting of the options, but pricing may not be modified. Failure of the Bidder to make corrections may cause the bid to be rejected.

If the Bidder wishes to offer credit to the purchaser for an option that is standard on the FSA CPP Base Specification, the Bidder should include the word "Credit" at the beginning of the description and continue to describe the option being credited. For example, "Credit: one key fob" that corresponds with the price the Bidder will credit the purchaser.

Loose Equipment can be bid as an option and made available to purchasers for items originally purchased from this contract. For purposes of this provision, "Loose Equipment" is any item of equipment that attaches to the heavy equipment item(s) included in the awarded bid, such as different sized blades. Loose Equipment does not include accessories, such as additional keys.

2.14 OPTION PRICING – HEAVY TRUCKS AND BUSES AND PURSUIT, ADMINISTRATIVE AND OTHER VEHICLES INVITATIONS TO BID

FSA CPP requests Bidders include most frequently purchased options in the Bid System. Option pricing must include the administrative fee. Bidders must provide a price for each option in addition to a percent below MSRP for factory-installed options or a percent above cost for other options.

The FSA CPP has the discretion to disqualify Bidders if the option pricing is excessive. In order to determine if pricing is excessive, Bidders agree to provide documentation to FSA CPP to verify cost at any time during the solicitation process or during the contract term. This information is for comparison purposes and will not be published.

Options are intended to add or delete equipment or features from the Base Specification. Options can provide an upgrade or downgrade to a manufacturer's model, such as a slightly different engine size or horsepower, and should not be made available for purchase separate from the base vehicle or equipment. Options may only provide a downgrade to a manufacturer's model when specifically requested in a Purchase Order issued in accordance with the Terms & Conditions by a purchaser. Bidders shall NOT use options to create an item that is available as another item bid on this Invitation to Bid. The use of options to facilitate the sale of an alternate manufacturer's product which is outside the scope of the Base Specification will be determined nonresponsive and the bid will be rejected in whole or part by the FSA CPP. Bidders must disclose which options require the purchase of other options or are dependent on another option in their bid submission. Option pricing will include all costs of labor associated with the option and cost of labor should not be listed separately.

Bidder must use proper manufacturer codes for factory options. Options available through the factory should be bid and supplied to purchaser as factory options, unless otherwise requested in writing by the purchaser. Factory

package options are permitted under this contract. Factory package options included in the bid submission must detail what components the package includes.

If a Bidder will offer registration and title services as a fee for service, government-imposed fees should be listed at the exact cost and shall not include the FSA administrative fee.

If the Bidder wishes to offer credit to the purchaser for an option that is standard on the FSA CPP Base Specification, the Bidder should include the word "Credit" at the beginning of the description field and continue to describe the option being credited. For example, "Credit: one key fob" and enter the price the Bidder will credit the purchaser.

For purposes of this bid, Emergency Lights and Sirens will require a separate pricing sheet and option upload in the Bid System. Section 2.15 contains specific instructions and exceptions for Emergency Lights and Sirens.

2.15 EMERGENCY LIGHTS AND SIRENS

Under Florida Statute 316.003(1), authorized emergency vehicles are defined as:

> Vehicles of the fire department (fire patrol), police vehicles, and such ambulances and emergency vehicles of municipal departments, public service corporations operated by private corporations, the Fish and Wildlife Conservation Commission, the Department of Environmental Protection, the Department of Health, the Department of Transportation, and the Department of Corrections as are designated or authorized by their respective departments or the chief of police of an incorporated city or any sheriff of any of the various counties.

Bidders that will provide or contract to provide emergency light and siren installation must only use installers that possess a current Emergency Vehicle Technician Certification, or an approved equivalent. FSA CPP may request certificates for a Vendor's installers at any time during the contract term. Labor may be charged for the installation of emergency lights and sirens. Labor rates must be disclosed as part of the bid submission. Bidders may not charge for labor for vehicles that are manufactured with emergency lights and sirens, including motorcycles. Prices submitted for emergency lights and sirens shall include all applicable government-imposed fees.

Bidders that install emergency lights and sirens are required to provide and install products that are Society of Automotive Engineers (SAE) certified. SAE Certifications must include Class 1, Class 2 and Class 3 in order to be eligible for participation in the contract. If a lighting or siren product installed on an emergency vehicle is not SAE Certified, the Vendor can be found in default of the contract.

<u>Bid Submission of Emergency Lights and Sirens</u>
If offering emergency lights and sirens, Bidders will be asked to provide pricing by submitting a pricing sheet. An emergency vehicle lights and siren option pricing template is offered in the Bid System. Bidders are encouraged, but not required to use the template. If item or specification group is helpful to display light and siren options, Bidders may categorize the pricing sheet by item group.

Items listed below are required for the submission of the pricing sheet:

- Order code
- Description
- Price (part only)

- Estimated labor hours
- Labor cost per hour

2.16 BID SUBMISSION

Bidders must submit a bid electronically using the Bid System. Bid submissions include a price for each item and option bid in accordance with Section 2.10, 2.11, 2.13, 2.14, and 2.15. Each Bidder must submit a qualifications package for each bid. The bid must be received by the date and time specified on the Bid Calendar in Appendix B. Failure to meet all submission requirements by the date indicated on the Bid Calendar will result in rejection of the bid.

Bid System: VendorLink
The Bid System is located at https://www.myvendorlink.com. Bidders are encouraged to participate in training provided. Usernames and passwords will be issued to Bidders after registering in the Bid System. Contact VendorLink at support@evendorlink.com if technical issues arise during bid submission.

Prices are to be rounded to the nearest whole dollar. If a Bidder submits bid pricing using cents, the following formula will be applied to round the bid pricing to the nearest whole dollar: $.01-.49 will be rounded down to the dollar bid (e.g., $50.49 = $50) and $.50-.99 will be rounded to the next dollar (e.g., $50.50 =$51).

Bid Submission
To ensure correct bid submittal and formatting, Bidders shall:

- For the Heavy Trucks and Buses Invitation to Bid, insert a:
  - Price for each item bid by zone
- For the Pursuit, Administrative and Other Vehicles Invitation to Bid, insert a:
  - Bid Price for each item bid by zone, as defined in Section 2.11

Option Upload
An option sheet should be submitted for each item bid. The Bid System will accept option information for each item through a .pdf file upload. Each option sheet should include a header to identify the FSA CPP contract title and number, the Bidder name, item number, make and model. Each option sheet should include:

- Option
- Description
- Manufacturer order code or identifying code
- Price

For the Heavy Trucks and Buses and Pursuit, Administrative, and Other Vehicles Invitations to Bid, the option sheet should also include:

- Cost plus percent for all items not installed at the factory
- Percent below MSRP for factory installed options

FSA CPP may ask awarded Bidders to supply one hard copy set with digital signatures and original compliance forms, prior to the contract execution. Hard copy bids should not be submitted unless specifically requested by FSA CPP. FSA is not responsible for Bidder's improper use of the Bid System. Exceptions will be granted to this section should any Bid System malfunctions occur.

2.17 ZONE BIDDING

Bidders may bid in one or more geographic zones. Bidders must submit pricing for each zone they wish to be evaluated. The zone map is included in Appendix A. The geographic zones are in place to assist Bidders in estimating costs of delivery, which must be included in the price bid and quoted to the purchaser. For the Pursuit, Administrative and Other Vehicles Contract, the cost of delivery must be included in the Percent.

2.18 EXECUTION OF BID

By submitting a response to this Invitation to Bid, the Bidder agrees to the Terms & Conditions and to be bound by such Terms & Conditions if selected for award. The Bidder must submit the Contract Signature Form with the signature of an authorized representative no later than the bid submittal due date. All Terms & Conditions are applicable throughout the term of the awarded contract and are not specific to any given year, make or model.

2.19 MODIFICATION OR WITHDRAWALS OF BIDS

A Bidder may submit a modified bid to replace all or any portion of a previously submitted bid until the due date and time of the bid submission listed in the Bid Calendar. Modifications received after the bid due date and time will not be considered.

Bids can be withdrawn in writing prior to the contract award. If a Bidder must withdraw the bid, the Bidder must contact FSA CPP immediately. Bid withdrawals are handled on a case-by-case basis and can result in a limitation of participation in future bids.

2.20 LATE BIDS

The responsibility for submitting a bid before the due date and time on the bid calendar is solely and strictly the responsibility of the Bidder. The FSA is not responsible for delays caused by technical problems, any internet outages or delays incurred by electronic delivery, or any other occurrence. Any reference to time will be based on Eastern Time.

2.21 BID OPENING

Bids shall be opened on the date and time specified on the Bid Calendar. The bid opening may occur at the Florida Sheriffs Association, 2617 Mahan Drive, Tallahassee, Florida, or may be offered online.

FSA CPP will provide a bid inspection period for Bidders following the bid opening. The date, time and duration will be announced prior to the bid opening.

2.22 DETERMINATION OF RESPONSIVENESS

Determination of responsiveness will take place at the time of bid opening and evaluation. In order to be deemed a responsive bidder, the bid must conform in all material respects to the requirements stated in the Invitation to Bid. As set forth in Section 2.26, FSA CPP reserves the right to waive or allow a Bidder to correct minor irregularities.

2.23 RESPONSIBLE BIDDER CRITERIA

Bids will be evaluated to determine if qualifications and contract requirements are met. Responses that do not meet all requirements of this Invitation to Bid or fail to provide all required information, documents or materials may be rejected as nonresponsive. The FSA CPP will not request documentation or consider a Bidder's social, political or ideological interests in determining if the Bidder is a responsible bidder. FSA CPP will not give preference to a Bidder based on the Bidder's social, political, or ideological interests.

Bidders whose responses, past performance, or current status do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of the contract may be rejected as non-responsible. In determining a responsible Bidder, the following factors may be considered:

- Adequacy of facilities, staffing, and financial resources;
- Previous experience with FSA contract or other similar government contracts;
- Ability to provide excellent customer service, including on previous FSA contracts; and
- Any other information relevant to the responsibility of a Bidder of which FSA CPP is aware.

In addition to the requirements set forth by these Terms & Conditions, FSA CPP reserves the right to request staffing, performance and financial information from any Bidder during the evaluation process.

FSA CPP reserves the right to determine which responses meet the requirements, specifications, Terms & Conditions of the solicitation, and which Bidders are responsive and responsible.

FSA CPP further reserves the right to limit participation of Bidders who, in FSA CPP's sole discretion, are determined to present responsibility concerns that call into question the Bidder's ability to perform but that do not rise to the level of requiring rejection of the Bidder as non-responsible.

2.24 BASIS FOR AWARD

For the Heavy Trucks and Buses, and Equipment Invitations to Bid, the FSA CPP shall make awards to the qualified, responsive and responsible Bidder(s) who submitted the lowest priced bid by item, manufacturer, and zone. Awards may also be made to subsequent lowest responsive and responsible Bidders by item, manufacturer, and zone, when determined to be in the best interest of the FSA and the purchaser(s). FSA CPP has the discretion to consider option pricing in making the award and to disqualify Bidders for proposing excessive option pricing.

For the Pursuit, Administrative and Other Vehicles Invitation to Bid, the FSA CPP shall make award to the qualified, responsive and responsible Bidder(s) who submitted the lowest Bid Price by item, manufacturer, and zone. Awards may also be made to subsequent lowest responsive and responsible Bidders by item, manufacturer, and zone, when determined to be in the best interest of the FSA and the purchaser(s). FSA CPP has the discretion to consider Percent and option pricing in making the award and to disqualify bidders for proposing excessive Percent(s) or option pricing.

Awards will not be given to any parties listed on the government wide exclusion in the System for Award Management.

FSA CPP reserves the right to accept or reject any and all bids, and to waive any minor irregularity, technicality or omission if it determines that doing so will serve the purchaser's best interest. FSA CPP reserves the right to make multiple awards for each item, if determined to be in the best interest of the FSA and the purchasers.

Awards will be posted on the FSA CPP website according to the date posted in the bid calendar.

2.25 BID TABULATIONS

The Bid Tabulation report will be posted on the FSA CPP website after the bid submission closes.

If there is a delay in posting the bid tabulation results, FSA CPP will post a notice of the delay and a revised date for posting of results.

2.26 MINOR IRREGULARITIES/RIGHT TO REJECT

The FSA CPP has the right to accept or reject any and all bids, or separate portions thereof, and to waive any minor irregularity, technicality or omission if the FSA CPP determines that doing so will serve its best interest or the best interest of the purchasers. A minor irregularity is a variation from the Terms & Conditions of this procurement that does not affect the price of the bid or give the Bidder a substantial advantage over other Bidders and thereby restrict or stifle competition and does not adversely impact the interests of the FSA or the purchasers. At its option, the FSA CPP may allow a Bidder to correct minor irregularities but is under no obligation to do so. In doing so, the FSA CPP may request a Bidder to provide clarifying information or additional materials to correct the irregularity. However, the FSA CPP will not request, and a Bidder may not provide the FSA CPP with additional materials that affect the price of the bid or give the Bidder an advantage or benefit not enjoyed by other Bidders.

The FSA CPP may also reject any bids not submitted in the manner specified in this document.

2.27 CONE OF SILENCE

This Invitation to Bid is subject to the Cone of Silence that begins the date the bid submission opens through the intent to award date as indicated in the Bid Calendar. During this period, all communications regarding this solicitation between FSA and Bidder will cease, except for procedural questions, questions regarding problems incurred in the use of the Bid System, or communications initiated by the FSA CPP. All permitted communications during this period shall be made in writing to the contacts identified in Section 1.01 of this Invitation to Bid.

3.0 CONTRACT CONDITIONS

3.01 GENERAL REQUIREMENTS

Once the bid has been awarded, the terms and conditions of this document become the contract between the FSA CPP and the awarded Vendor. The Terms & Conditions apply to all items purchased from this contract.

3.02 STATEMENT OF AUTHORITY

Each person signing the contract warrants that they are duly authorized to do so and binds the respective party to the contract.

3.03 VENDOR CONTACT INFORMATION

The Vendor shall maintain current contact information with FSA CPP at all times for sales and submission of purchase orders, quarterly reports and administrative fee payments. If a change occurs during the contract, the Vendor must notify FSA CPP immediately.

3.04 ADDITIONS OR DELETIONS

FSA CPP reserves the right to add or delete any items from this bid or resulting contract when deemed to be in the best interest of FSA and purchasers, at its discretion. This decision to take action may be based upon and not limited to few or no sales, product recalls and other safety issues, Vendor or manufacturer performance, or the product's lack of relevance.

For items that come to market during the contract term, FSA CPP may authorize qualified and awarded Vendors to offer the new item under the existing contract terms and conditions, if the manufacturer authorizes a Vendor to sell the item. FSA CPP will request awarded Vendors submit pricing and will evaluate the responses prior to authorizing awarded Vendors to offer the new item.

3.05 CONTRACT EXTENSION

Contract Extension
The contract may be extended by mutual agreement for up to two (2) additional years, on a year-to-year basis. FSA CPP reserves the right to execute a contract extension or to allow the contract to fully or partially terminate and readvertise for bids, whichever is in the best interest of FSA.

The Vendor may request price adjustments for contract extensions as provided for herein. If no request is received from the Vendor, the FSA CPP will assume that the Vendor has agreed that the optional term may be exercised without a price adjustment. Any adjustment request received after the execution of an extension may not be considered unless otherwise provided for in this contract.

Month-to-Month Continuation
In the event a new contract is not active at the time of this contract's expiration, this contract's terms and conditions shall extend on a month-to-month basis and shall not constitute an implied extension of the contract. Such a month-to-month continuation shall be upon the compensation and payment provided herein.

3.06 PRICE ADJUSTMENT

In addition to the cost-plus-percent pricing adjustments available for the Pursuit, Administrative, and Other Vehicles contract, the Terms & Conditions provide the following options for price adjustments:

- Annual Price Adjustments
- Changes to Manufacturer Production or Design
- Manufacturer Certified Adjustments
- Equitable Adjustments

Price adjustment requests must clearly substantiate a need to increase or decrease the price. Price adjustments will not be considered if Vendors are delinquent on administrative fee payments or have outstanding quarterly reports.

Annual Price Adjustment

The FSA CPP may consider annual price adjustments due to:

- Changes in the Producer Price Index (PPI) as published by the U.S. Department of Labor, Bureau of Labor Statistics (BLS); or
- As a result of changes to national or state standards that require substantial price adjustments.

FSA CPP may consider other documentation related to the change to national or state standards but is not obligated to grant price changes without literature from the manufacturer. The FSA CPP will consider the request and will make a final determination on the change in price.

Changes to Manufacturer Production or Design

Significant changes by the manufacturer to the production of and specification design may initiate a price adjustment request. FSA CPP will consider order dates, production factors, model year, or other conditions, as well as the replacement or complete redesign of items. Vendors must provide documentation from the manufacturer.

Manufacturer Certified Adjustments

Vendors must provide documentation from the manufacturer to FSA CPP that shows the additional costs or price adjustments imposed by the manufacturer and substantiate the need for a related price adjustment for this contract.

Equitable Adjustments

The FSA CPP may make an equitable adjustment to the contract terms or pricing at its discretion.

3.07 CONDITIONS

It is understood and agreed that any item offered or shipped as a result of this contract shall be the most current model offered.

3.08 PRODUCTION CUTOFF

Vendors shall notify the FSA CPP in writing no less than sixty (60) calendar days prior to the close of final order date by the manufacturer when the final order date is during the term of the contract. Purchase Orders received by the Vendor ten (10) business days prior to the final order date must be accepted and entered into the order system with the manufacturer. Purchase Orders issued and received after the production cutoff date will be subject to availability. In this case, the Vendor and manufacturer have the discretion whether to choose to provide next year's model at current year's prices until the end of the contract term. If the manufacturer cutoff date is during the term of the contract and will affect the purchaser's ability to obtain the items, FSA CPP may consider substitutions from the same manufacturer.

3.09 FACILITIES

The FSA CPP reserves the right to inspect the Vendor's facilities at any time with prior notice.

3.10 PURSUIT RATED VEHICLES & MOTORCYCLES

Vehicles in this category have been reviewed by one or more of the nationally recognized authorities on Police Vehicle Testing Program/Evaluation. These evaluations are not designed to recommend a particular product, but to serve as a resource for vehicles which are currently being offered for law enforcement service. To see the full detailed report, click or copy the links below. At the time of the bid there were two nationally recognized authorities:

These vehicles are labeled as Special Service Vehicle (SSV) and often used in public safety applications and other areas of government. Refer to manufacturers published information for detailed information regarding these vehicles.

3.12 CAB AND CHASSIS PURCHASES

Vendors performing upfitting of cab and chassis should be licensed and certified to perform such work. Vendors are responsible for tag and title work if the chassis is completed by the Vendor or the Vendor's contracted third-party supplier. The requirements of Florida Statute 319.21 related to the manufacturer statement of origin apply to cab and chassis purchases.

Cab and chassis may be purchased from the Vendor without any required additional upfitting by the Vendor. Vendors are not responsible for tag and title if an incomplete chassis is requested and sold to the purchaser.

3.13 FACTORY-INSTALLED OPTIONS

All options specified as factory-installed are to be installed on the item at the primary site of assembly and are to

be the manufacturer's standard assembly-line product. Aftermarket and vendor-installed equipment will not be accepted as factory-installed. Vendors found supplying aftermarket or vendor-installed equipment where factory-installed are specified shall be required to retrieve all delivered items and supply new items meeting the specifications.

All factory-ordered options are to be original equipment manufacturer (OEM) and installed at the primary site of assembly unless otherwise noted by the Vendor and acknowledged in writing by the purchaser. Verbal agreements will not be recognized.

3.14 VENDOR-INSTALLED OPTIONS

All vendor-installed accessories, equipment, or options shall be installed according to the manufacturer's specifications. All vendor-installed options must be manufactured by an established manufacturer of the product provided. Vendors are required to disclose make and model of product being offered, design, and model must be approved by the purchaser prior to installation. Prior to any purchase, the Vendor must also disclose the warranty of any accessory, equipment or option that is less than or exceeds the factory or equipment warranty coverage. Any Vendor that violates this provision will be considered in default of the contract. FSA CPP may terminate the contract in accordance with these terms & conditions.

3.15 NON-SCHEDULED OPTIONS

A non-scheduled option is an option not listed on the FSA CPP published award. Vendors may provide non-scheduled options at less than MSRP or the Published List Price. Non-scheduled options should be identified and listed as a separate line item with the price and discount on the purchase order. Non-scheduled options are covered under these terms and conditions.

3.16 FORCE MAJEURE

A Vendor shall not be penalized for a delay resulting from the Vendor's failure to comply with delivery requirements if neither the fault nor the negligence of the Vendor or its employees contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Vendor's control, or for any of the foregoing that third party suppliers if no alternate source of supply is available to the Vendor.

3.17 PURCHASE ORDERS

To initiate a purchase, a purchase order must be issued to the Vendor, which includes:

- FSA CPP contract title and number;
- FSA CPP item number, and the make and model or item description; and
- Purchaser name, phone number and email address.

The Vendor's acceptance of a purchaser's order will indicate that the Vendor agrees to deliver an awarded item that will be fully compatible with all of its options. Production schedules and delivery dates should be discussed at the time the quote is provided to the purchaser, or if no quote is provided, when the purchase order is delivered to the Vendor. Vendor shall place the order with the manufacturer within 10 business days of receipt of the purchase order. The Vendor shall assure that all orders are placed in full compliance with the specifications and the terms and conditions of the contract and the purchase order. Any changes that are required to bring an item into compliance with the various options due to an incorrect order will be accomplished at the Vendor's expense.

A Confirmation of Order form shall be completed by the Vendor and provided to the purchaser and FSA CPP fifteen (15) calendar days from receipt of purchase order without request by the purchaser. Any additional information needed to complete this form should be obtained by the Vendor from the purchaser.

While it is recommended that an agency purchase from the zone which is closest to their location, it is not mandatory to do so. If the purchaser determines that a Vendor in another zone can better serve the purchaser's needs, the purchaser may order from a Vendor in another zone. Vendors that provide awarded items outside of an awarded zone may upon mutual agreement between the Vendor and the purchaser charge a delivery fee.

If a Vendor receives a purchase order for an item for which they were not awarded, the Vendor must notify the purchaser and return the purchase order to the purchaser within three (3) business days.

The Vendor must submit electronic copies of Purchase Orders within fifteen (15) calendar days of the Purchase Order issue date. Emails shall be sent to coop@flsheriffs.org. Purchase orders received by the Vendor after this deadline must be submitted to FSA CPP as soon as possible with the date received by the Vendor and cause for the delay. Purchase Orders should contain the following required information:

- Purchaser name,
- Purchase order number,
- Purchase order issue date,
- FSA CPP contract title and number,
- Item number,
- Item make and model, or item description,
- Item price,
- Options by item, and
- Estimated delivery date.

Purchase orders vary in format and information provided. If a purchase order does not include the required information, the Vendor must submit supplemental documentation to FSA CPP at the same time the purchase order is due. Such information may be in bid quotes, equipment proposals, confirmation of orders, or other documents. If a purchaser does not use purchase orders, written communication from the purchaser to the Vendor will be provided to FSA CPP.

3.18 REGISTRATION, TAG, AND TITLE

Title items shall be the responsibility of the Vendor. If the purchaser is a government agency, the purchaser has the right to choose to register and title the item. Costs of registration, tag and title shall not exceed the statutory rates. FSA administrative fee does not apply to the cost of registration, tag and title.

3.19 DELIVERY

Vendors are to inspect the item to confirm the item meets or exceeds the FSA CPP Base Specification, manufacturer specification, and purchase order. Deliveries not complying with these requirements may be rejected and will have to be redelivered at Vendor's expense.

Delivery shall be within the normal working hours of the user, Monday through Friday, excluding holidays. Delivery schedules shall be agreed to by the purchaser and the Vendor. Vendor shall notify the purchaser no less than twenty-four (24) hours prior to delivery of the time and location, which shall reflect the mutually agreed upon

delivery details. The Vendor shall be responsible for delivering items that are properly serviced, clean and in first class operating condition. Items shall be delivered with each of the following documents completed or included:

1. Copy of the Purchase Order.
2. Copy of the FSA CPP Base Specification.
3. Copy of manufacturer's Invoice, price sheet, build sheet or other documentation that verifies what components are included on the item being delivered
4. Copy of the pre-delivery service report
5. Registration warranty certification
6. Owner's manual
7. Registration, tag and title or an application for the registration, as applicable

All items with fuel tanks of thirty-five (35) gallons or less must contain no less than one quarter (1/4) tank of fuel as indicated by the fuel gauge at the time of delivery. For items that have more than thirty-five (35) gallons, a minimum of one eighth (1/8) of a tank of fuel must be provided. All electric vehicles must be delivered with a minimum charge level of 10 percent. The purchaser has the option to reject a vehicle with more than 350 odometer miles or may deduct $0.51 cents per mile in excess of 350 miles from the invoice, unless distance above 350 miles was previously approved by the purchaser. Deliveries of less than 350 miles may be accomplished by driving the vehicle. Any delivery accomplished by driving the vehicle must be supervised and the driver must comply with manufacturer's break-in requirements and all applicable traffic laws. Any delivery accomplished by driving a pursuit-rated vehicle must use an "OUT OF SERVICE" cover on light bars. Deliveries in excess of 350 miles shall be made by transport, or otherwise approved by the purchaser, however, this requirement shall not apply to incomplete chassis.

Items with hour meters must be delivered with fewer than five (5) hours on the hour meter or may be rejected by the purchaser. The purchaser may choose to negotiate a lower purchase price when the item exceeds five (5) hours.

When items require service or adjustments upon delivery, the Vendor shall either remedy the defect, or be responsible for reimbursing the manufacturer's local authorized representative or other service provider to remedy the defect. Such service or adjustments shall be initiated by the Vendor within 48 hours after notification by a purchaser, not to include weekends and holidays. Delivery will not be considered complete until all services or adjustments are satisfactory, and the item is redelivered or repaired. The cost of any transportation required to address the defect shall be the responsibility of the Vendor until the items are satisfactory and accepted by the purchaser.

3.20 INSPECTION AND ACCEPTANCE

Final acceptance shall be given only after the purchaser inspects or confirms the item meets contract specifications. Delivery of an item to a purchaser does not constitute acceptance for the purpose of payment. Inspection and acceptance will be at the purchaser's destination unless otherwise previously agreed upon location was provided in the purchase order. Should the delivered items differ in any respect from the Base Item specifications, payment can be withheld until such time as the Vendor completes the necessary corrective action.

3.21 INVOICING AND PAYMENTS

Invoicing and payments shall be the responsibility of the Vendor and purchaser placing orders using this contract. Vendors must invoice each purchaser independently. The Vendor shall be paid upon submission of invoices to the purchaser after satisfactory delivery and acceptance of the items. While the Local Government Prompt Payment

Act applies to ensure timely payment of Vendor invoices, the FSA CPP encourages purchasers to make payment within 30 days of acceptance of the item. The Local Government Prompt Payment Act is defined in Sections 218.70–218.79 of Florida Statutes.

3.22 WARRANTY

All warranties shall begin at the time of delivery and final acceptance by the purchaser. The purchaser's warranty should not be active for incomplete items and items delivered to a third-party supplier before final delivery.

3.23 QUARTERLY REPORTS

Quarterly reports are the contractual responsibility of each Vendor. Quarterly reports must be completed and submitted electronically. All quarterly reports shall be sent to reports@flsheriffs.org. The quarterly report template shall be submitted using an Excel workbook provided by FSA CPP. Quarterly reports which do not adhere to the required format or are not complete of all purchase orders received and/or deliveries made during the quarter will be returned to the reporting Vendor for correction.

Quarterly reports are due no later than the 15th day of the month following the end of the quarter. Quarterly reports shall follow the schedule below for the duration of the contract. If a contract extension is executed, the quarterly reports will maintain the same schedule for future reporting periods.

Contract Year: October 1, 2022 – September 30, 2023

Year 1 Quarter 1:	October 1 – December 31	Q1 Report Due:	January 15
Year 1 Quarter 2:	January 1 – March 31	Q2 Report Due:	April 15
Year 1 Quarter 3:	April 1 – June 30	Q3 Report Due:	July 15
Year 1 Quarter 4:	July 1 – September 30	Q4 Report Due:	October 15

Quarterly reports must be submitted even if there are no sales or no deliveries in a quarter. If a Vendor has no sales within a quarter, the Vendor shall indicate "No sales this quarter" on the top row of the sales worksheet. If the Vendor has no deliveries in a given quarter, the Vendor shall indicate "No deliveries this quarter" on the top row of the delivery worksheet.

FSA CPP reserves the right to modify the procedure for submitting quarterly reports during the term of the contract. Such a change shall not materially modify the substance of the information to be reported but may change the method by which future quarterly reports are to be submitted. In the event of such a change, FSA CPP will provide written notice to all Vendors of the method by which future quarterly reports are to be submitted.

3.24 ADMINISTRATIVE FEE

The FSA CPP charges three quarters of one percent (.0075) to procure, process and administer the contract. The administrative fees are the contractual responsibility of each awarded Vendor.

After receipt of payment from contract purchases, the Vendor shall remit all administrative fees to the FSA CPP no later than 15 calendar days after the end of each quarter. All fees payable to the FSA CPP during any given quarter will be accompanied and supported by a quarterly report.

The administrative fee will remain payable to FSA CPP and no relief from payment of the administrative fee, nor any additional charge to recoup the administrative fee, will be permitted if a Vendor fails to incorporate the administrative fee in its bid pricing. The administrative fee should never be listed as a separate line item on any purchase order or invoice.

The administrative fee is based on the total purchase order amount of new items. This fee excludes any value given to purchasers for trade-ins. Trade-ins, extended warranties and other exchanges will not reduce or impact the fee calculation.

The ACH form for electronic payment or wiring of funds is included in Appendix C. It is the preference of FSA CPP that all payments be electronically paid and submitted. If ACH is not available, checks for the administrative fee can be sent to:

Florida Sheriffs Association
Cooperative Purchasing Program
2617 Mahan Drive
Tallahassee, FL 32308

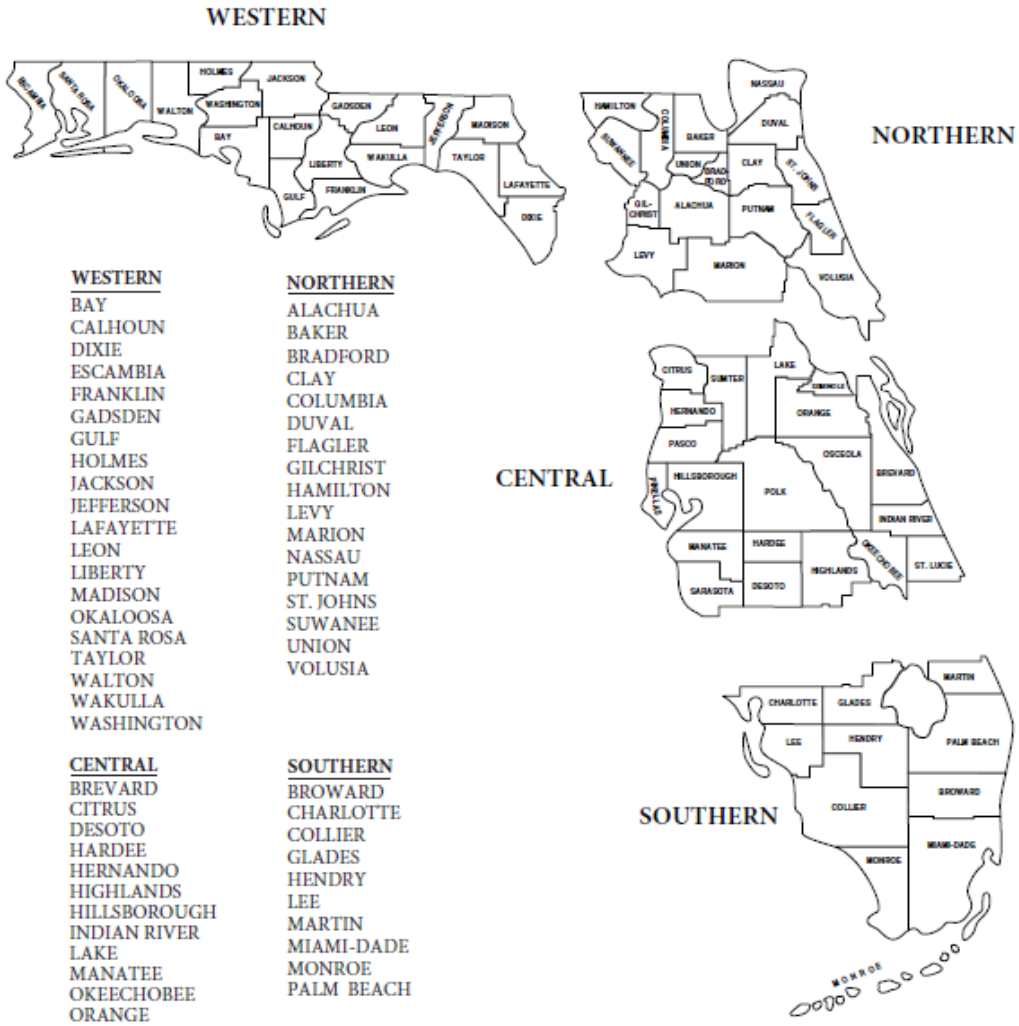
3.25 LIQUIDATED DAMAGES

The Vendor warrants that the item supplied to the purchaser shall conform in all respects to the standards set forth and the failure to comply with this condition will be considered as a breach of contract. Any liquidated damages levied because of inadequacies or failures to comply with these requirements shall be borne solely by the Vendor responsible for same.

Failure to submit the administrative fee with accompanying quarterly reports to FSA CPP within 15 calendar days following the end of each quarter may result in the imposition of liquidated damages. Vendors failing to submit administrative fees and/or quarterly reports will incur liquidated damages in the amount of $25 for each calendar day that fees and reports are past due, beginning on the 16th day following the end of the quarter.

If a civil action is initiated by the FSA to recover administrative fees or liquidated damages as set forth in this section, the prevailing party shall be entitled to its reasonable attorneys' fees and costs incurred in the litigation. The venue shall lie in the Circuit Court for the Second Judicial Circuit in and for Leon County, Florida.

When quarterly reports are late, liquidated damages are to be included in Vendor's Quarterly Report and administrative fee submission. Liquidated damages that remain unpaid beyond 45 calendar days can result in FSA CPP, at its sole discretion, implementing contract compliance actions, including but not limited to, suspension, limited participation by specifications or zones, disqualification from future solicitations, or termination for cause pursuant to the Terms & Conditions.



Schedule of Liquidated Damages

Failure to submit quarterly report on time	$25 per calendar day
Failure to submit administrative fee on time	$25 per calendar day
Failure to report a Purchase Order to FSA CPP within 15 calendar days of the purchase order issue date	$100 per Purchase Order
Failure to Report Sales	.0075 of the sales price plus 1.5% each month following the delivery date.

Vendor agrees and acknowledges that its failure to take any of the actions specified in the above schedule will result in liquidated damages to this contract. Vendor agrees and acknowledges that these liquidated damages are not intended to be and do not constitute a penalty and that these amounts are reasonably calculated to compensate the FSA for the damages that it will incur as a result of the Vendor's failure to take the specified actions.

EQUAL EMPLOYMENT OPPORTUNITY: Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The clause set forth in 41 CFR 60-1.4(b) is incorporated herein by reference. Vendor must comply with this clause and include this clause in all lower-tier federal assisted construction contracts.

DAVIS-BACON ACT, as amended (40 U.S.C. 3141-3148): When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. Vendors performing construction must comply with all applicable provisions of the Davis-Bacon Act and include this clause in all lower-tier subcontracts for construction.

CONTRACT WORK HOURS AND SAFETY STANDARDS ACT (40 U.S.C., chapter 37): Vendor shall comply with Sections 102 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C., chapter 37), as supplemented by Department of Labor regulations (29 CFR part 5).
(a) Overtime requirements. Neither Vendor nor any contractor or subcontractor contracting for any part of the purchase order work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
(b) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in Paragraph 15(a), Vendor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, Vendor or such subcontractor shall be liable to the United States (in the case of work done under the Contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in Paragraph 15(a), in the sum of $29 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in Paragraph 15(a) of this section.
(c) Withholding for unpaid wages and liquidated damages. Purchaser shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by Vendor or a subcontractor under the purchase order or any other Federal contract with Purchaser, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by Purchaser, such sums as may be determined to be necessary to satisfy any liabilities of Vendor or its subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in Paragraph (a).
(d) Subcontracts. Vendor shall insert in any subcontracts over $100,000 for construction and other purposes that involve the employment of mechanics or laborers, the clauses set forth in Paragraphs (a) through (d) and also a clause requiring the subcontractors to include these clauses in any lower-tier subcontracts.

RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT: If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with

a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency. Vendor shall comply with these requirements when performing a purchase order involving experimental, developmental or research work and flowdown this clause to lower-tier subcontractors performing such work.

CLEAN AIR ACT (42 U.S.C. 7401 *et seq.*) and the FEDERAL WATER POLLUTION CONTROL ACT (33 U.S.C. 1251 *et seq.*), as amended: Vendor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 *et seq.*) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 *et seq.*). Violations shall be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Vendor shall comply with the requirements of Clean Air Act and the Federal Water Pollution Control Act and include this clause in all lower-tier subcontracts with a value over $150,000.

DEBARMENT AND SUSPENSION (E.O.s 12549 and 12689): By accepting or performing this purchase order, Vendor certifies that it is not identified in the Exclusions area of the System for Award Management as being currently debarred, suspended, proposed for debarment, or otherwise excluded ("SAM Exclusion"). Vendor shall obtain similar certifications from its lower-tier subcontractors for each subcontract in excess of $25,000 and Vendor shall not award lower-tier subcontracts in excess of $25,000 to an entity subject to a SAM Exclusion.

LOBBYING RESTRICTIONS (31 U.S.C. 1352): By accepting or performing this purchase order, Vendor certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Vendor shall also disclose to Purchaser any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award or contract. Vendor shall flow down this clause and require this certification for lower-tier subcontractors with a subcontract of $100,000 or more. Vendor shall provide its disclosure and all disclosures received from lower-tier subcontractors to Purchaser.

PROCUREMENT OF RECOVERED MATERIALS: A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines. Vendor shall comply with this clause and include this clause in all lower-tier subcontracts.

PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT:
(a) Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:

(1) Procure or obtain;

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
(ii) Telecommunications or video surveillance services provided by such entities or using such equipment.
(iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

(b) In implementing the prohibition under Public Law 115-232, section 889, subsection (f), paragraph (1), heads of executive agencies administering loan, grant, or subsidy programs shall prioritize available funding and technical support to assist affected businesses, institutions and organizations as is reasonably necessary for those affected entities to transition from covered communications equipment and services, to procure replacement equipment and services, and to ensure that communications service to users and customers is sustained.
(c) See Public Law 115-232, section 889 for additional information.

DOMESTIC PREFERENCES FOR PROCUREMENTS:
(a) As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). Vendor agrees to comply with the requirements of this clause and include the requirements of this clause in all subawards including all contracts and purchase orders for work or products under this award.
(b) For purposes of this section:

(1) “Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
(2) “Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

PTO Maintenance:
Per OEM manufacturer guidelines the following recommendations should be followed. Failure to follow OEM guidelines can result in non warrantable failure.
Within the first week of use, recheck the installation of the PTO. Check for leaks and loose mounting hardware (studs, cap screws, nuts). Recheck the cable or lever connections for proper adjustment and tighten any loose connections. At regular maintenance intervals, check adjustments and lubricate moving parts, tighten and repair the connections, mounting hardware, cable or lever linkage. Refer to OEM owners manual for regular maintenance intervals.

Hi Daryl:

I have a couple of questions:

1. Funding?... cost center?...department?
2. You want me to get approval from the board to purchase 2 of them?
3. Is the total price $212,268.00 each?

Thank you! ☺

Subject: FSA23VEH21 Item 62 Kenworth T480 Dump Trucks

Tania,

Please find attached complete Florida Sheriff's Association Contract #FSA23VEH21.0 Item 62 T880/T480 Dump truck quotation and supporting documentation for February's agenda.

Can we double this quote for 2 units or does a quote for two trucks have to be created?

Please review and let me know how I can help or if you have any changes to make.

These are quoted with the 16' Ox Stampede Dump Bodies like Sarasota runs on their trucks.

Sourcewell Discount Matrix for Kenworth Trucks Contract 060920-KTC: August 2022 Update

STEP 1. Any U.S. or Canadian authorized Kenworth Dealer generates a cab and chassis specification using the Kenworth PremierSpec system that meets the agency need. A chassis summary report is generated and at the end of the specifications a Total List Price is shown.

STEP 2. Agency chassis price will be determined by the Total List Price multiplied by the discount factor based on the model, plus any surcharge based on total list price compared to the minimums listed. This price includes cab and chassis only delivered to the first location after assembly.

STEP 3. Agency price for all truck bodies, additional equipment or services, fuel, DOT or State inspections, extended warranties, etc. is no more than Kenworth dealer sales department cost plus 5%.

STEP 4. Agency total price is STEP 2 plus STEP 3 plus all required federal, state and local taxes, fees, tag, title, permits, etc.

Example:

1. Kenworth Dealer using PremierSpec generates specifications for a T880 model daycab with a Total List Price of $236,258. Agency discount factor for that model is .655 per matrix below. An additional upcharge depends on the list amount per the matrix. The sale price would be $156,748.99 ($236,258 x .655 + $2,000 min list upcharge), not including any body or other items. The cab and chassis is subject to a $2,000 upcharge since the list price is lower then the minimums listed for the model.

2. Dealer also quotes a locally installed dump body, storage/flooring, local transport & delivery, DOT Inspection, local cleaning and 10 gal of fuel for $25,117.00 (Dealer cost plus no more than 5% markup)

3. Total Agency price for chassis plus body and other goods and services is $179,865.99 ($154,748.99 plus $25,117.00) plus any applicable taxes, state fees, tag, title, etc. Final delivery and payment terms to be mutually agreed upon by the Kenworth dealer and purchasing agency.

Sourcewell

Solicitation Number: RFP #060920

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Kenworth Truck Company, Division of PACCAR Inc., 10630 N.E. 38th Place, Kirkland, WA 98033 (Vendor).

Sourcewell is a State of Minnesota local government agency and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires August 1, 2024, unless it is cancelled sooner pursuant to Article 24. This Contract may be extended up to one additional one-year period upon request of Sourcewell and with written agreement by Vendor.

C. SURVIVAL OF TERMS. Articles 11 through 16 survive the expiration or cancellation of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Vendor will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above. Vendor's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

All Equipment and Products provided under this Contract must be new/current model. Vendor may offer close-out or refurbished Equipment or Products if they are clearly indicated in

DocuSign Envelope ID: 3276E8E7-F8A8-46CD-9587-27575F3DC41B

Vendor's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship pursuant to the express vehicle warranty and extended warranties provided with all Vendor's vehicles. Vendor does not warrant or accept responsibility or liability for any parts separately warrantied, for example, body installations, or engines not manufactured by Vendor (which carry a separate manufacturer's warranty). In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities.

DocuSign Envelope ID: 3276E8E7-F8A8-46CD-9587-27575F3DC41B

Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Contract Administrator. This form is available from the assigned Sourcewell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;
- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and

DocuSign Envelope ID: 3276E8E7-F8A8-46CD-9587-27575F3DC41B

- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will be become an amendment to this Contract and be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Vendor understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Vendor is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential members to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Vendor's employees may be required to perform work at government-owned facilities, including schools. Vendor's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Vendor that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Vendor. Typically, a Participating Entity will issue an order directly to Vendor. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance,

DocuSign Envelope ID: 3276E8E7-F8A8-46CD-9587-27575F3DC41B

Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entitles may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. PERFORMANCE BOND. If requested by a Participating Entity, Vendor will provide a performance bond that meets the requirements set forth in the Participating Entity's order. If a performance bond is requested by a Participating Entity, Vendor's dealer will have sole responsibility to agree to and establish the bond.

D. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

E. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Vendor in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the goods to be purchased;
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements; or
3. Vendor commits any material breach of this Contract or the additional terms agreed to between the Vendor and a Participating Entity.

F. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

DocuSign Envelope ID: 3276E8E7-F8A8-46CD-9587-27575F3DC41B

B. BUSINESS REVIEWS. Vendor must perform a minimum of one business review with Sourcewell per contract year. The business review will cover sales to Participating Entities, pricing and contract terms, administrative fees, supply issues, customer issues, and any other necessary information.

8. REPORT ON CONTRACT SALES ACTIVITY AND ADMINISTRATIVE FEE PAYMENT

A. CONTRACT SALES ACTIVITY REPORT. Each calendar quarter, Vendor must provide a contract sales activity report (Report) to the Sourcewell Contract Administrator assigned to this Contract. A Report must be provided regardless of the number or amount of sales during that quarter (i.e., if there are no sales, Vendor must submit a report indicating no sales were made).

The Report must contain the following fields:
