The benefits that members enjoy in using cooperative contracts mirror the benefits that Kenworth Truck Company and all Kenworth dealers enjoy as well. Every day a Kenworth dealer someplace in the United State and Canada is working with a member or potential member to quote equipment to meet a specific need. We have already integrated the process to quote complete vehicle solutions to member using the awarded contract. The process is similar to the normal sales process and is constantly being refined to provide members superior service and responsiveness.	*
35	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	Given that one of our strengths is the ability to custom design and build the ideal long lasting high quality commercial truck, an e-procurement system isn't feasible.	*

Table 8: Value-Added Attributes

Line Item	Question	Response *	
36	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	Kenworth dealer salespeople provide truck chassis operator instructions to customers as needed upon delivery of the vehicle. In situations where a unique body is involved, typically the salesperson will bring along that specific vendor representative to provide operator instructions and answer any related questions. - Additional operator training and/or maintenance and repair training, usually conducted as a training event, are typically provided to a group of individual upon request and any costs associated with this type of training would be mutually agreed upon between the Kenworth dealer and member.	*

37	Describe any technological advances that your proposed products or services offer.	Safety: Nearly all Kenworth models are available with Bendix roll stability control, Bendix collision mitigation systems (such as Wingman Fusion) and Meritor collision mitigation systems (such as On-Guard) that enhance driver safety. These systems offers active braking and collision avoidance through forward looking radar and windshield mounted camera with optional video recording. Side object detection is also optional. - Fuel Economy: Kenworth has improved powertrain fuel efficiency by utilizing automated transmissions that have shift points and neutral coast modes which are programmed to be optimized with our Paccar MX engine. Driver aids can also be optioned which help coach the driver to drive more efficiently. These features include driver performance assistant, driver shift aid, driver rewards, and progressive shifting. Multi Torque engines can also be optioned which reduces the amount of torque available to the driver until the vehicle is in the top 2 gears. - Other technological advances available on select models includes NavPlus HD, which features a true truck GPS navigation system, and TruckTech+. TruckTech+ is an innovative technology that helps diagnose and solve potential problems — before they impact the operation and assure maximum uptime. This includes potential over the air updates to MX engines. This technology is standard on Kenworth models with a PACCAR MX-13, MX-11, or Cummins X15 engine, the system delivers: • Instant notification of actionable engine and aftertreatment fault information. • Fault codes are accompanied by a plain language explanation of the problem and a proposed course of action — immediately empowering the driver and/or fleet manager to make the right decision. • Proactive diagnostic and repair planning assistance with detailed analysis of critical fault codes — before the truck arrives at the shop.	*
38	Describe any “green” initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	Kenworth now offers a medium duty electric vehicle in class 6 or class 7 weight range. We also offer a wide range of natural gas engines in vehicles class 6, 7 and 8. An all electric class 8 vehicle will be available added to this contract in 2021. A hydrogen fuel cell / electric vehicle class 8 vehicle will be available and added to this contract at a future date to be determined. Kenworth has been awarded three government grants that support low emissions projects involving Kenworth Day Cabs targeted for use as drayage tractors in Southern California ports. The first two projects are funded by the U.S. Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy (EERE), with Southern California’s South Coast Air Quality Management District (SCAQMD) as the prime applicant. Kenworth has built near zero and zero emissions tractors to transport freight from the Ports to warehouses and railyards.	*
39	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Kenworth was awarded Environmental Protection Agency’s Clean Air Excellence award in the past in recognition of its environmentally friendly products. We continually progress with advanced technologies that reduce green house gas emissions and offer truck models that include zero and near zero emissions. Although not required any longer, a number of Kenworth models are available as SmartWay Certified. The EPA SmartWay Transport Partnership is an innovative collaboration between the EPA and freight industry, designed to improve energy efficiency and reduce emissions.	*
40	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	There are two known WMBE Kenworth dealers: Kenworth of Louisiana (Jodie Teuton) and Rihm Kenworth (Kari Rihm). Additionally, Kenworth Truck Company was recognized in 2019 as a top workplace for women in transportation. Copy of press release uploaded to documents section.	*
41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Kenworth designs and build superior quality, highly customized commercial vehicles from class 5 through 8. Our focus is on high quality, long lasting, extremely durable, and customizable cab and chassis to be matched with truck related equipment. For example, we offer customer frame layouts that allow a member or truck equipment manufacturer to determine where they want frame mounted equipment to match a specific body exactly. We also offer commercial trucks to help meet sustainability goals. This includes trucks with: natural gas engines, fully electric medium duty and heavy duty drivetrains, and future units with hydrogen fuel cell technology.	*

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
42	Do your warranties cover all products, parts, and labor?	Regarding all Kenworth products, that depends on the specific model and components selected. Some components are covered by their respective manufacturer. For example, Cummins Engines are covered under a Cummins warranty. Cummins warranty service is available at Kenworth dealers and claims passed through to Cummins directly. Another example is with Allison transmissions. These transmission are warranted by Allison, and unless the Kenworth dealer is an authorized Allison warranty location, the Kenworth dealer would normally arrange for the transport and coordination of the repair with the local Allison authorized repair center. Add on bodies or other truck related equipment are covered by those respective suppliers. The selling dealer usually work cooperatively with the supplier to manage the warranty repair with the appropriate sub-contractor. Parts and labor is included in all the standard warranties with Kenworth. Cummins, Allison, TEM equipment, other components and add on devices typically cover parts and labor as well, but are specific to those items. The Kenworth base chassis and various engine warranties are uploaded in the documents section.	*
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	If a Kenworth truck is used in what is defined as a sever service application, a specific standard warranty is defined separately for units that fall into this category. Severe service definition and the specific warranty is included in the warranty documents uploaded.	*
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Each breakdown situation is unique. Kenworth dealers are trained to make judgment decisions necessary to determine the obtimum method to resolve a warrantable breakdown. If the breakdown is within the first 6 months or 100,000 miles, and if the dealer has the resources and capability and determines that a technician road call is the best alternative; the dealer is reimbursed for such calls under a Kenworth warrantable repair.	*
45	Are there any geographic regions of the United States (and Canada, if applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Kenworth authorized dealers are located in all U.S. states and throughout Canada. A list of the 400 plus locations is uploaded to the documents section. Locations can also be found via the dealer locator at www.kenworth.com. Kenworth warrantable repairs must be performed by an authorized Kenworth dealer location. Note that certain component warrantable repairs may by performed by any authorized location of that specific component make.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Components added during primary chassis assembly at the Kenworth factory will pass through Kenworth Truck Company if the warrantable repair is performed at an authorized Kenworth dealer. Claims pass through Kenworth to the original manufacturer. Bodies and other related add on equipment are warrantable by those specific equipment manufacturers or service providers. In many situations, if the Kenworth dealer is capable of providing the warrantable repair needed on a body or other truck related equipment, the truck equipment manufacturers will allow the Kenworth dealer to make the repair on their behalf.	*
47	What are your proposed exchange and return programs and policies?	No exchange or return program exists since each truck is custom made to the specifications needed by the member. However, any exceptions would be at the discretion of the selling Kenworth dealer.	*
48	Describe any service contract options for the items included in your proposal.	Service contract options are available separately through the local Kenworth dealer. Add on contract options would be priced the same as extended warranties (Dealer sales department cost plus no more then 5% markup). They can be offered and included in the truck offer when quoted or added on after delivery within 12 months. This includes offers from Paccar Leasing Company, a Division of PACCAR Inc., that offers full maintenance lease, rental units, contract maintenance and other fleet services that may be included during the complete vehicle solution to meet the members needs. Many Kenworth dealers are engaged in this type of business and can offer these services to members.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	

49	What are your payment terms (e.g., net 10, net 30)?	Payment is net 15 days after released from the Kenworth factory assembly plant with freight prepaid to the first destination in the continental U.S., or Canada. Or, as mutually agreed upon between the Kenworth dealer and member as appropriate since most units will then have a body installed and each offer is unique to meet the member's needs.	*
50	Do you provide leasing or financing options, especially those options that schools and governmental entities may need to use in order to make certain acquisitions?	Yes, Kenworth dealers will work with Paccar Financial or other financial institutions as needed to meet member's needs.	*
51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	All vehicle offers and orders will be through a Kenworth authorized dealer. No orders can or will be accepted by Kenworth Truck Company directly. The anticipated process would be as follows: 1. Member and the local Kenworth dealer seek each other out to resolve a specific member commercial vehicle need. 2. Dealer Salesperson determines specific commercial vehicle needs through questioning. This includes the intended purpose, vehicle capacity required, the geographic environment, the specific body characteristics and functions required, and any other relevant information needed to prepare a comprehensive vehicle solutions offer. 3. Dealer Salesperson determines truck model and generates compatible specifications that meet the members need, meet the specific body installation need, and meets local road regulations and any other requirements. The Kenworth PremierSpec report generated will show the proposed chassis specification and total list price (also shown as Total Adjusted Price) equal to the base model list plus all the selected chassis options. This is the list price that the member discount will apply and include freight to the first continental U.S., or Canada for Canadian members, destination after chassis assembly at the Kenworth factory assembly plant. 4. If applicable, dealer salesperson will seek competitive quotes for any required body, special services (i.e. body swap or other vehicle modification), truck related equipment, special transport requirements, special storage requirements, or any other item or service needed to meet the members need and offer and complete solution. 5. Dealer Salesperson calculates chassis pricing using the appropriate member discount factor by Kenworth model and any surcharge applicable based on minimum list thresholds, plus any body, equipment, extended warranty, etc. markup no more than dealer sales department cost plus 5%, plus any national, state or locally required taxes, fees, tag, title, etc. Salesperson presents a comprehensive commercial vehicle offer with proposed terms and conditions to member. 6. Member and dealer salesperson/dealer management mutually agree on all aspects of the proposed offer including final specification of the truck chassis, body specifications and other goods, total sales price, final terms and conditions and any tag, title, tax or other government mandated fees that are required. Dealership presents member with truck order documents. 7. Member issues and offers formal purchase and/or signing of dealer truck order to dealer salesperson and management. 8. Dealer accepts members order. 9. Dealer salesperson orders chassis with tracking code, orders all bodies and equipment and coordinates all activities through final delivery to fulfill the member order. 10. Upon delivery, member acceptance and member payment; dealer will register delivery of the vehicle in the Kenworth system. At the end of each calendar quarter, Kenworth sales administration will generate a list of all vehicles sold and delivered in the quarter and remit total fee. The report form will include: Member name, address, and member number. Model name, Kenworth unit number (last 6 of the VIN), and the total gross dollar sale amount. 11. Kenworth Truck Company will follow up with a standard customer survey to assure members total satisfaction. Any response deemed unacceptable will be forwarded to the Kenworth dealer for follow-up with the member for rectification. 12. Periodic and random audits will be conducted as deemed necessary to assure compliance with the member pricing, terms, and reporting requirements.	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	P-card payment process is typically not used for commercial truck procurement. However, this would be mutually determined between the member and the selling Kenworth dealer.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as desribed in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Pricing is based on the Kenworth truck model, custom list price generated, less the member discount, plus any surcharge for the specific model depending on final list amount compared to minimums listed in the pricing matrix. Truck Chassis Pricing: The member price for a custom spec'd Kenworth chassis is the total list price, also known as the Total Adjusted Price in the PremierSpec report, less the member discount (member discount matrix uploaded to documents) plus any surcharges based on minimum list prices for the specific applicable Kenworth Model. This calculated member price includes the standard freight from Kenworth factory assembly plant to the first delivery destination in the continental U.S., or Canada for Canadian members. See the uploaded member discount matrix schedule with the specific discounts by Kenworth truck model, minimum list requirements, instructions and a pricing example that includes a sourced body. Member price for all vehicle bodies and equipment needed to offer a complete vehicle solution will be at Kenworth dealer sales department cost plus no more than 5%. This includes all potential truck mounted bodies, add on equipment, special training requests, additional or special manuals, special software and/or hardware, special subscriptions (online technical information access for example), special transportation (other than the transport included from the chassis assembly plant to the first specified delivery location which is included in the member chassis pricing), any and all truck related type services (for body swap from old chassis to new chassis for example) and any mutually agreed upon storage costs for long lead time body installations or services. Member prices for all electric vehicle support services, infrastructure analysis, and charging systems pricing will be quoted at dealer sales department cost plus no more than 5%. Extended Warranties: All extended warranties offered by the Kenworth dealer for any manufacturer or item will be priced at dealer sales department cost plus no more than 5%. Additional pricing detail: Kenworth Truck Company builds custom truck cab and chassis and each unit, or order of multiple identical units, is unique. Kenworth dealers use the Kenworth PremierSpec sales tool to generate a buildable unit that meets an end user's specific need. The sales tool will generate a report with the base list price plus all the required options list price and calculate a total list price, shown in the report as Total Adjusted Price (w/o freight & warranty & surcharges). This is the total list price that the applicable model discount is applied. It is important to note that all Kenworth models base chassis list price is just a starting point and typically cannot be ordered and built without adding additional chassis options required to create a compatible and buildable unit.	*
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The discounts provided in this response range approximately from 12.6% to 49.3% depending on specific model. See the included member discount matrix schedule off list price. Note that each unit is custom designed and list price very depending on final specifications to meet member needs. .	*
55	Describe any quantity or volume discounts or rebate programs that you offer.	The discounts included in this offer includes discounts that take into account the total potential volume of all member purchases combined.	*

56	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	All sourced goods and services will be priced at the Kenworth dealer sales department cost plus no more than 5%. The Kenworth dealer will solicit offers from sub-contractors for sourced goods and services needed to offer a complete vehicle solution that meets the members need. These sourced goods and services include, but are not limited to, any truck body, trailers, truck equipment, tools, support devices, parts and/or maintenance parts kits to be included with the chassis, additional or custom manuals, software, subscriptions, special transportation (other than the standard transportation included in the chassis price to the first delivery destination after the Kenworth factory assembly plant), requested training, extended warranties, and any specialized body or specialized service. Chassis storage costs may also be quoted, if needed and agreed upon between member and dealer, to store a chassis waiting for a long lead time body or service installation. An example of some of the common sourced bodies are dumps, mixers, vans, flatbeds, cranes, booms, conveyors, extension, service bodies, sweepers, scissor, refuse, maintenance, reefers, auto carrier, wrecker, logger, pump, tank, drilling, fire service, oil service, beverage, pot hole patcher, utility, block, pumper, rescue, ambulance, transport, vacuum, repair, fork lift, derrick, bulk, hopper, asphalt, bucket, lift, marine, slinger, hook, roll-on/off, roll-back, and knucklboom. An example of common add on truck equipment is fairings, pintle hook, trailer brakes and electrical connections, sleepers, crewcab modifications, bulkhead, GPS devices, etc. An example of some specialized services are body swaps, body modifications, chassis wheelbase modifications, specialized training, maintenance program, etc. An example of special transportation that might be requested and required would be when needed truck related equipment, a body for example, is assembled and installed on incomplete truck chassis beyond the members community. Or when the members location requires specialized transport such as Hawaii or Alaska Extended warranties for base chassis, engines, transmissions, bodies or any other truck related option or combination will be offered through Kenworth dealers at dealer sales department cost plus no more than 5%.	*
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All federal, state, or local taxes, fees, tag, title, permit, or other miscellaneous requirements are not included. These costs will be determined by the Kenworth dealer as required with each unique state and member offering.	*
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Member chassis pricing (total list price less member discount by model) includes transportation from the Kenworth factory assembly plant to the first specified delivery location in the continental United States, or Canada for Canadian members. This does not include additional transport required to deliver to Alaska, Hawaii or other U.S. territories. Additional transportation services, such as transport from a body company to dealership and then to members location, will be priced at the Kenworth dealer sales department cost plus no more than 5%.	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Member chassis pricing includes transportation from the assembly plant to the first specified delivery location. This could include a port in the continental United States, or Canada for Canadian members. Additional ocean, rail, flatbed, or other transport service required to deliver to Alaska, Hawaii or off shore would be priced at the Kenworth dealer sales department cost plus no more than 5%.	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	If a member were to require expedited shipping from the Kenworth factory assembly plant in a manner that is not customary, an additional amount above and beyond the included transportation from assembly plant would be quoted and priced at the Kenworth dealer sales department cost plus no more than 5%. Example: single drive or trailer transported delivery in lieu of 3 or 4 way combination to expedite delivery time.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	A Kenworth dealer sales program is published supporting the Sourcewell contract. This is posted on an internal website that outlines the procedures, process, and compliance requirements. This will include the mandatory Sourcewell tracking code the dealer must add to allow a new order to qualify. Kenworth administration will generate a list of all units delivered to members and warranty registered in the Kenworth system quarterly. The report is generated by matching the tracking code against all Kenworth registered units in the quarter. A resulting report will display the chassis vehicle number (last 6 of the VIN), selling dealer name, and purchasing member name, etc. This will then allow Kenworth administration to determine the total fee to remit. Periodic and random audits will be conducted with dealers and documents reviewed to assure compliance with the Sourcewell contract. This includes pricing calculations and generals terms per the contract and supporting Kenworth program.	*
63	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	The proposed administrative fee to Sourcewell is $750 per unit.	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *
64	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	All products and services offered in this proposal are in cooperation and through our authorized and contracted Kenworth dealer network. No products or services are offered for purchase directly from Kenworth Truck Company. The products include the entire Kenworth brand truck product line of class 5, 6, 7, and 8 vehicles with gross vehicle weight ratings from 16,000 lbs. to 80,000 lbs. or more. The base models are: T170, T270, T370, K270, K370, T440, T470, T680, T800, T880, W900, W990 and C500. New / future models will be added as them become available. This includes all possible factory assembled sales code options included in published data books and non-published factory options (NPO items). All truck body types, equipment, tools, support devices, and services to be installed or provided after chassis assembly are to be included in the contract. These will be offered through Kenworth dealers at the time of truck chassis quotes in order to provide a complete vehicle solution. Kenworth dealers will solicit offers from TEM's or other entities for the necessary equipment or services required to meet the needs of the specific member. This includes, but is not limited to, truck bodies and related equipment such as trailers, dumps, mixers, vans, flatbeds, cranes, booms, conveyor, bulkhead, crewcab, sleeper, extension, service bodies, sweepers, scissor, refuse, maintenance, reefers, auto carrier, wrecker, logger, pump, tank, drilling, fire service, oil service, beverage, pot hole patcher, utility, block, pumper, rescue, ambulance, transport, vacuum, repair, fork lift, derrick, bulk, hopper, asphalt, bucket, lift, marine, slinger, hook, roll-on/off, roll-back, fairings, tractor, pintle hook, parts and parts kits, manuals, software, and any specialized body or specialized service. An example of some specialized services are body swaps, body modifications, chassis wheelbase modifications, specialized training, etc. Special transportation service will be offered by Kenworth dealers in addition to the standard transport provided as needed depending on the unique need with each members solution. This is typically required when a truck body and/or other related equipment is assembled and installed on incomplete truck chassis beyond the members community. Or when the members location requires specialized transport such as Hawaii. Extended warranties for base chassis, engines, transmissions, bodies or any other truck related optional extended warranties are offered through Kenworth dealers. Kenworth Truck dealers will work directly with members to develop a complete vehicle offering that meets the members specific needs (vehicle solution). Kenworth dealers will develop the final chassis specifications with a mix of the available published and unpublished sales codes that meet the members custom vehicle needs. Kenworth dealers and member will mutually agree upon the final delivery and payment terms depending on the scope of the complete vehicle solution. All quotes, offers, final agreed upon terms and conditions, sale, delivery and after sales services will be agreed upon between Kenworth dealers and members. All U.S. and Canadian Kenworth dealers are engaged and encouraged to grow relationships and sales with members to meet each members unique and specific commercial vehicle transportation need.
65	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Repair parts and/or repair services - Repair and maintenance parts and/or repair and maintenance service are needed by members for both Kenworth and other branded commercial trucks already in service with the members. A solution within the Sourcewell contract has been requested by members. It is out intent is to engage Kenworth dealers to enter into participating addendum contracts with member that would include discounted and predetermined parts pricing and/or maintenance and repair service pricing. These participating addendum contracts would be specific for the local market and in support and within the scope of this Sourcewell contract. Traditional finance or lease products including municipal lease options. Kenworth dealers will solicit offers from sub-contractors, such as, but not limited to, Paccar Financial to meet the specific member's needs. Full Maintenance Lease options through PACCAR Leasing and dealer leasing divisions is also available. This includes vehicle rentals, lease with all maintenance included or maintenance only options.

Table 15: Industry Specific Questions

Line Item	Question	Response *	
71	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Most of the metrics to determine success are already in place with the current contract Kenworth enjoys. This includes quote activity by quarter, units ordered quarterly, total units ordered year to date, total units ordered inception to date, units delivered each quarter, quarter vs quarter deliveries and overall growth, and Kenworth delivery performance percentage compared to other contracted OEMs by state and overall.	*
72	Describe your company's offering in relation to alternative fuel sources, including electric or others.	Kenworth currently offer a class 6 and class 7 fully electric commercial truck. A class 8 fully electric commercial truck is planned for introduction in 2021. Supporting these electric truck offering, Kenworth plans to offer infrastructure analysis in cooperation with contracted partners and offer special pricing on electric charging systems. These systems and analysis can be quoted by the Kenworth dealer per the contract pricing matrix in cooperation and a Kenworth truck quote. Additionally, a full range of class 7 and 8 natural gas vehicles are offered. A class 6 natural gas offering is planned for 2021 and will be added to this contract.	*
73	Describe any manufacturing processes or materials utilized that contribute to chassis strength, cab strength, overall durability, driver safety that differentiate your offerings.	Kenworth chassis are assembled with 120,000 PSI, North American steel. We also offer several different frame rail sizes up to 11-5/8" in order to accommodate each application. Kenworth also offers heavy duty bolted crossmembers which provide superior strength, durability, and serviceability over standard welded or stamped steel crossmembers. Each order is analyzed by a team of engineers to make sure that the chassis is spec'd properly and will be capable of the intended service. Kenworth uses high strength aluminum cabs and overall high quality materials and components. The Kenworth conventional product line utilizes aluminum cab construction which has been proven in the field to have industry leading durability. Not only are aluminum cabs lighter than stamped steel, they are also corrosion resistant. Because Kenworth was founded by building rugged vocational trucks, our cabs need to be able to withstand logging roads and other severe duty off road applications. Kenworth offers a wide array of safety related options including automatic traction control, roll stability, collision avoidance systems such as Bendix Wingman Advanced and Bendix Fusion that includes collision avoidance and lane departure, side object detection systems, smart steering wheels for hands on controls, and other driver safety systems that continually enhance driver comfort and safety.	*
74	Describe any differentiating serviceability attributes (remote diagnostics, etc.) your proposal offers.	Truck Tech Plus is now available on nearly all Kenworth models with Paccar or Cummins engines. This technology allows fleet operators as well as the internal Kenworth team to monitor the truck's status and overall health while on the road. Not only is Truck Tech Plus a remote diagnostics system, it also provides insights as to what is actually triggering the fault rather than just displaying error codes. Once a fault is detected, the severity is determined and the driver can be advised to immediately find the next dealership or whether the fault can be addressed at the next scheduled service in order to maximize the amount of uptime. Over the air remote engine updates are also available on select engines and configurations.	*

Exceptions to Terms, Conditions, or Specifications Form

Only those Proposer Exceptions to Terms, Conditions, or Specifications that have been accepted by Sourcewell have been incorporated into the contract text.

Proposer's Affidavit

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.

2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.

3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.

5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.

7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.

9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.

10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.

11. Proposer its employees, agents, and subcontractors are not:

    a. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: https://www.treasury.gov/ofac/downloads/sdnlist.pdf;

    b. Included on the government-wide exclusions lists in the United States System for Award Management found at: https://www.sam.gov/portal/3; or

    c. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☑ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Mike Kleespies, Director, Medium Duty Sales, Kenworth Truck Company, division of PACCAR Inc.

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

Board of County Commissioners Meeting

Agenda Item Number: C14
2023-2045

BULK ITEM: Yes

DEPARTMENT: Parks and Beaches

TIME APPROXIMATE:
N/A

STAFF CONTACT: Suzi Rubio

AGENDA ITEM WORDING:

Approval to advertise a Public Hearing to consider adoption of an Ordinance adding park hours for Harry Harris Park, Blue Heron Park and Pine Channel Nature Park and amending the hours at Bay Point Park, Big Coppitt Volunteer Fire Department, Friendship Park, Key Largo Community Park, Big Pine Key Park, and Murray E. Nelson Government Center Park. The proposed ordinance would also formally codify the creation of Pine Channel Nature Park and Blue Heron Park in the Monroe County Code of Ordinances.

ITEM BACKGROUND:

The Monroe County Parks and Beaches Department wishes to include and/or revise certain park hours, specifically Harry Harris Park, Blue Heron Park, Pine Channel Nature Park, Bay Point Park, Big Coppitt Volunteer Fire Department, Friendship Park, Key Largo Community Park, Big Pine Key Park, and Murray E. Nelson Government Center Park in order to ensure that the operational hours of these parks align with the established standards for other county parks.

Additionally, in reviewing Chapter 18, staff became aware that two parks are not formally codified within the Monroe County Code of Ordinances (MCC). During its regular meeting on August 17, 2022, the Board of County Commissioners adopted Emergency Ordinance 020-2022 with respect to Pine Channel Nature Park. Therefore, a new section, 18-31, will be introduced, specifically dedicated to Pine Channel Nature Park. This new section provides comprehensive guidelines covering specific conduct, prohibited activities, regulations, and park hours for Pine Channel Nature Park. Blue Heron Park has been utilized as a County Park since the County purchased the property in the early 1990s. However, this park was inadvertently not included in the MCC.

PREVIOUS RELEVANT BOCC ACTION:
On April 20, 2022, The BOCC, at its regularly scheduled meeting approved "Pine Channel Nature Park" as the name for this Property. **On August 17, 2022,** The BOCC, at its regularly scheduled meeting adopted Emergency Ordinance 020-2022, codifying rules and regulations applicable to Pine

Channel Nature Park. The BOCC adopts and incorporates the recitals in Emergency Ordinance 020-2022 as additional legislative intent of the BOCC pertaining to this Ordinance.

Solicitation Number: RFP #110421

CONTRACT

This Contract is between Sourcewell, 202 12th Street Northeast, P.O. Box 219, Staples, MN 56479 (Sourcewell) and Altec Industries, Inc., 210 Inverness Center Drive, Birmingham, AL 35242 (Supplier).

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that offers cooperative procurement solutions to government entities. Participation is open to eligible federal, state/province, and municipal governmental entities, higher education, K-12 education, nonprofit, tribal government, and other public entities located in the United States and Canada. Sourcewell issued a public solicitation for Public Utility Equipment with Related Accessories and Supplies from which Supplier was awarded a contract.

Supplier desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

A. EFFECTIVE DATE. This Contract is effective upon the date of the final signature below.

B. EXPIRATION DATE AND EXTENSION. This Contract expires December 27, 2025, unless it is cancelled sooner pursuant to Article 22. This Contract may be extended one additional year upon the request of Sourcewell and written agreement by Supplier.

C. SURVIVAL OF TERMS. Notwithstanding any expiration or termination of this Contract, all payment obligations incurred prior to expiration or termination will survive, as will the following: Articles 11 through 14 survive the expiration or cancellation of this Contract. All other rights will cease upon expiration or termination of this Contract.

2. EQUIPMENT, PRODUCTS, OR SERVICES

A. EQUIPMENT, PRODUCTS, OR SERVICES. Supplier will provide the Equipment, Products, or Services as stated in its Proposal submitted under the Solicitation Number listed above.

DocuSign Envelope ID: 8D47303F-D51E-455F-8B26-BAAF6448C9A3

Supplier's Equipment, Products, or Services Proposal (Proposal) is attached and incorporated into this Contract.

Except as expressly agreed in the participating addendum or transaction document with the participating entity, all Equipment and Products provided under this Contract must be new and the current model. Supplier may offer close-out or refurbished Equipment or Products if they are clearly indicated in Supplier's product and pricing list. Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. WARRANTY. Supplier warrants that all new Equipment, Products, and Services furnished (which does not include equipment or products that are solely financed) are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that extends beyond the expiration of the Supplier's warranty will be passed on to the Participating Entity.

C. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

DocuSign Envelope ID: 8D47303F-D51E-455F-8B26-BAAF6448C9A3

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcewell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcewell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcewell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcewell Price and Product Change Request Form to the assigned Sourcewell Supplier Development Administrator. This approved form is available from the assigned Sourcewell Supplier Development Administrator. At a minimum, the request must:

- Identify the applicable Sourcewell contract number;

DocuSign Envelope ID: 8D47303F-D51E-455F-8B26-BAAF6448C9A3

- Clearly specify the requested change;
- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

5. PARTICIPATION, CONTRACT ACCESS, AND PARTICIPATING ENTITY REQUIREMENTS

A. PARTICIPATION. Sourcewell's cooperative contracts are available and open to public and nonprofit entities across the United States and Canada; such as federal, state/province, municipal, K-12 and higher education, tribal government, and other public entities.

The benefits of this Contract should be available to all Participating Entities that can legally access the Equipment, Products, or Services under this Contract. A Participating Entity's authority to access this Contract is determined through its cooperative purchasing, interlocal, or joint powers laws. Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Supplier is responsible for familiarizing its sales and service forces with Sourcewell contract use eligibility requirements and documentation and will encourage potential participating entities to join Sourcewell. Sourcewell reserves the right to add and remove Participating Entities to its roster during the term of this Contract.

B. PUBLIC FACILITIES. Supplier's employees may be required to perform work at government-owned facilities, including schools. Supplier's employees and agents must conduct themselves in a professional manner while on the premises, and in accordance with Participating Entity policies and procedures, and all applicable laws.

6. PARTICIPATING ENTITY USE AND PURCHASING

A. ORDERS AND PAYMENT. To access the contracted Equipment, Products, or Services under this Contract, a Participating Entity must clearly indicate to Supplier that it intends to access this Contract; however, order flow and procedure will be developed jointly between Sourcewell and Supplier. Typically, a Participating Entity will issue an order directly to Supplier or its authorized

DocuSign Envelope ID: 8D47303F-D51E-455F-8B26-BAAF6448C9A3

subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be negotiated directly between the Participating Entity and the Supplier. Any negotiated additional terms and conditions for the direct purchase of new equipment or products must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

1. The Participating Entity fails to receive funding or appropriation from its governing body at levels sufficient to pay for the equipment, products, or services to be purchased; or
2. Federal, state, or provincial laws or regulations prohibit the purchase or change the Participating Entity's requirements.

E. GOVERNING LAW AND VENUE. The governing law and venue for any action related to a Participating Entity's order will be determined by the Participating Entity making the purchase.

DocuSign Envelope ID: 8D47303F-D51E-455F-8B26-BAAF6448C9A3

Each calendar quarter, Supplier must provide a contract sales activity report (Report) to the Sourcewell Supplier Development Administrator assigned to this Contract. Reports are due no later than 45 days after the end of each calendar quarter. Services provided to Participating Entities. The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Supplier agrees to cooperate with Sourcewell in auditing transactions under this Contract to ensure that the administrative fee is paid on all items purchased under this Contract.

In the event the Supplier is delinquent in any undisputed administrative fees, Sourcewell reserves the right to cancel this Contract and reject any proposal submitted by the Supplier in any subsequent solicitation. In the event this Contract is cancelled by either party prior to the Contract's expiration date, the administrative fee payment will be due no more than 30 days from the cancellation date.

Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response. Please see attached "Price List - and Notes JJ Kane" Altec Capital rate sheet is attached "Price List - Altec Capital Rate Matrix 11-1-2021" as well as "Altec Capital Sourcewell Proposal". 57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range. 59	Propose a method of facilitating “sourced” products or related services, which may be referred to as “open market” items or “nonstandard options”. For example, you may supply such items “at cost” or “at cost plus a percentage,” or you may supply a quote for each such request.	Altec is offering nearly 500 of our most commonly ordered line items with specific pricing for Sourcwell members. When specific customer work practice requirements, customer preferences, ect, drive a need to utilize the Open Market section of our quote template, we will present a unique quote for each such request for customer review that will supplement the base model and contract items being quoted. This will all be accomplished with our standard quote template document, and allow our customers to be able to customize their equipment as desired.	*
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Delivery is the only cost not included in pricing. It applies to all customers and the price is $2.20 / mile for CONUS. Quotes would need to done for anything outside of the CONUS and will be priced at or below fair market value.	*
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Altec has a team of drivers that work for the company. We will also contract with approved and vetted third party drive away companies to deliver our equipment from our manufacturing facilities to the customer site. Delivery is an additional $2.20 / mile and will be calculated at time of quote for CONUS. Anything outside of the CONUS would be contracted through a third party company and would need to be priced at time of initial quote to customer. Pricing will be at or below fair market value. All parties participating in delivery of equipment will meet certain insurance and liability requirements.	*
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Canada deliveries will be driven to customer site by approved and vetted third party drive away companies. Alaska, Hawaii, and worldwide deliveries will be contracted through a third party company and would need to be priced at time of initial quote to customer. Price will be at or below fair market rate. All parties participating in delivery of equipment will meet certain insurance and liability requirements.	*

63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Altec Industries has manufacturing facilities located throughout the country. If customer has a requirement for a “regional build” they can indicate this at time of quote and we will be happy to accommodate, please see attached "Company Information - Altec Production Facilities" for locations. If customer has any unique delivery requirements (such as loading equipment on a trailer for delivery, etc), they can also indicate at time of quote. Additionally customers are welcome to pickup their equipment at the manufacturing location, take a guided tour of the plant, and meet the Altec team that built their truck if desired.	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	Our Technical Sales Representatives that prepare Sourcewell quotes for our customers go through training on the Sourcewell quote process, requirements, and our quote template is up to date and posted on our internal company site. The quote template governs our pricing and ensures we are providing contract compliant quotes. Our Account Managers must verify customer eligibility and flag the opportunity as a Sourcewell quote in our system in order to receive Sourcewell pricing and discounts. We currently, and will continue to run quarterly reports for orders invoiced and flagged as Sourcewell, and compare the customers on this list with members listed on Sourcewell's website to check again that customers are members. The reporting and audit process is administered by Altec Corporate, with visibility of global operations. Internally, we run reports every month and identify any potential discrepancies before it is time to report our quarterly numbers and pay administrative fee to Sourcewell. Please see attached "Audit - Standard Docs - Quote Template Example". We will typically also include a detailed quote document, in order for customer to verify their equipment requirements are being met with our proposal. This document may include additional notes at the end. Please see attached "Standard Docs - Detailed Quote Document Example".	*
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Monthly update on new customers using our Sourcewell contract. Customers that use our Rental Equipment contract #062320-ALT that we are able to transition and fulfill other equipment needs with this new contract. Also number and ratio of formal bids that are being requested by our Sourcewell eligible customers. Training for 100% of Account Managers and Technical Sales Representatives on benefits and use of contract.	*
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor’s sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member’s cost of goods. (See the RFP and template Contract for additional details.)	We would like to propose a 1% administrative fee payment to Sourcewell on all orders through Altec Industries, including NUECO, Service, Supply and SENTRY. Altec Capital proposes a flat $250 fee for lease transactions under the Sourcewell Contract. We propose an administrative fee of 1% of JJ Kane revenue (buyers fee and sellers fee).	*

- **Emergency Operations and Public Safety Center (EOC)** – this is a 28,000 SF bulding, designed to FEMA 361 standards (e.g., 220MPH winds and 500 year flood elevation design criteria). The building will permanently house the County's Emergency Management Department, Fire Rescue Administration, and the Sherriff's 911 Dispatch Center. During activation, the building will serve a safe haven during the storm and/or a platform to stage emergency response and post-storm restoration for the citizens and businesses of Monroe County

Cary is helping to manage the development of construction documents as well as securing permits from local, federal and state agencies, including County building and environmental permits South Florida Water Management District (SFWMD), US Army Corps of Engineers (COE) and Florida Department of Environmental Protection (FDEP) reviews and/or permits. ALLIANCE FOR AGING, INC.
STATEMENT OF WORK
American Rescue Plan

SECTION I: SERVICES TO BE PROVIDED

1.1 Alliance for Aging, Inc. Mission Statement

The Alliance mission is to promote and advocate for the optimal quality of life for older adults and their families.

1.2 Program Specific Terms

Area Plan: A plan developed by the area agency on aging outlining a comprehensive and coordinated service delivery system in its planning and service area in accordance with the Section 306 (42 U.S.C. 3026) of the Older Americans Act and Department instructions.

Child: An individual who is not more than 18 years of age or an individual with disability.

Disaster Relief Services: Administration on Community Living (ACL) considers disaster relief services for older individuals to be any allowable
OAA services during the period covered by Florida's Major Disaster Declaration (MDD) that are provided to eligible older individuals or family caregivers as defined under the OAA.

Family Caregiver: An adult family member, or another individual, who is an informal provider of in-home and community care to an older individual.

Frail: When an older individual is unable to perform at least two Activities of Daily Living (ADLs) without substantial human assistance, including verbal reminding, physical cueing or supervision; or due to cognitive or other mental impairment, requires substantial supervision because the individual behaves in a manner that poses a serious health or safety hazard to the individual or to another individual.

Grandparent: A grandparent or step-grandparent of a child, or a relative of a child by blood, marriage or adoption and who lives with the child; is the primary caregiver of the child because the biological or adoptive parents are unable or unwilling to serve as the primary caregiver of the child; and has a legal relationship to the child, such as legal custody or guardianship, or is raising the child informally.

Major Disaster Declaration: States may request and receive an MDD by the President under the Stafford Act. Florida's request was approved in 2020, which permitted the Alliance and the Provider to use any portion of the funds made available under contract for disaster relief for older individuals. Although the MDD ended on June 26, 2021 when the State's emergency order ceased, these flexibilities were allowed to continue in contracts that were in place as the time the Emergency Order was lifted. As many of the services and plans for American Rescue Plan (ARP) funding was submitted to the Department prior to the Emergency Order being lifted, the flexibilities allowed during the MDD will be allowed in the ARP contract.

INSTRUCTIONS FOR THE CIVIL RIGHTS COMPLIANCE CHECKLIST

1. Describe the geographic service area such as a district, county, city or other locality. If the program/facility serves a specific target population such as adolescents, describe the target population. Also, define the type of service provided.

2. Enter the percent of the population served by race and sex. The population served includes persons in the geographical area for which services are provided such as a city, county or other regional area. Population statistics can be obtained from local chambers of commerce, libraries, or any publication from the 1980 Census containing Florida population statistics. Include the source of your population statistics. ("Other" races include Asian/Pacific Islanders and American Indian/Alaskan Natives.)

3. Enter the total number of full-time staff and their percent by race, sex and disability. Include the effective date of your summary.

4. Enter the total number of clients who are enrolled, registered or currently served by the program or facility, and list their percent by race, sex and disability. Include the date that enrollment was counted.

5. Enter the total number of advisory board members and their percent by race, sex, and disability. If there is no advisory or governing board, leave this section blank.

6. Each recipient of federal financial assistance must have on file an assurance that the program will be conducted in compliance with all nondiscriminatory provisions as required in 45 CFR 80. This is usually a standard part of the contract language for Department recipients and their sub-grantees, 45 CFR 80.4 (a).

7. Is the race, sex, and national origin of the staff reflective of the general population? For example, if 10% of the population is Hispanic, is there a comparable percentage of Hispanic staff?

8. Where there is a significant variation between the race, sex or ethnic composition of the clients and their availability in the population, the program/facility has the responsibility to determine the reasons for such variation and take whatever action may be necessary to correct any discrimination. Some legitimate disparities may exist when programs are sanctioned to serve target populations such as elderly or disabled persons, 45 CFR
80.3 (b) (6).

9. Do eligibility requirements unlawfully exclude persons in protected groups from the provision of services or employment? Evidence of such may be indicated in staff and client representation (Questions 3 and 4) and also through on-site record analysis of persons who applied but were denied services or employment, 45 CFR 80.3 (a) and 45 CFR 80.1 (b) (2).

10. Participants or clients must be provided services such as medical, nursing and dental care, laboratory services,

physical and recreational therapies, counseling and social services without regard to race, sex, color, national origin, religion, age or disability. Courtesy titles, appointment scheduling and accuracy of record keeping must be applied uniformly and without regard to race, sex, color, national origin, religion, age or disability. Entrances, waiting rooms, reception areas, restrooms and other facilities must also be equally available to all clients, 45 CFR 80.3 (b).

11. For in-patient services, residents must be assigned to rooms, wards, etc., without regard to race, color, national origin or disability. Also, residents must not be asked whether they are willing to share accommodations with persons of a different race, color, national origin, or disability, 45 CFR 80.3 (a).

12. The program/facility and all services must be accessible to participants and applicants, including those persons who may not speak English. In geographic areas where a significant population of non-English speaking people live, program accessibility may include the employment of bilingual staff. In other areas, it is sufficient to have a policy or plan for service, such as a current list of names and telephone numbers of bilingual individuals who will assist in the provision of services, 45 CFR 80.3 (a).

13. Programs/facilities must make information regarding the nondiscriminatory provisions of Title VI available to their participants, beneficiaries or any other interested parties. This should include information on their right to file a complaint of discrimination with either the Florida Department of Elder Affairs or the U.S. Department of HHS. The information may be supplied verbally or in writing to every individual or may be supplied through the use of an equal opportunity policy poster displayed in a public area of the facility, 45 CFR 80.6 (d).

14. Report number of discrimination complaints filed against the program/facility. Indicate the basis, e.g., race, color, creed, sex, age, national origin, disability, retaliation; the issues involved, e.g., services or employment, placement, termination, etc. Indicate the civil rights law or policy alleged to have been violated along with the name and address of the local, state or federal agency with whom the complaint has been filed. Indicate the current status, e.g., settled, no reasonable cause found, failure to conciliate, failure to cooperate, under review, etc.

15. The program/facility must be physically accessible to disabled individuals. Physical accessibility includes designated parking areas, curb cuts or level approaches, ramps and adequate widths to entrances. The lobby, public telephone, restroom facilities, water fountains, information and admissions offices should be accessible. Door widths and traffic areas of administrative offices, cafeterias, restrooms, recreation areas, counters and serving lines should be observed for accessibility. Elevators should be observed for door width, and Braille or raised numbers. Switches and controls for light, heat, ventilation, fire alarms, and other essentials should be installed at an appropriate height for mobility impaired individuals.

16. Section 504 of the Rehabilitation Act of 1973 requires that a recipient of federal financial assistance conduct a self-evaluation to identify any accessibility barriers. Self-evaluation is a four-step process:
    - With the assistance of a disabled individual/organization, evaluate current practices and policies which do not comply with Section 504.
    - Modify policies and practices that do not meet Section 504 requirements.
    - Take remedial steps to eliminate any discrimination that has been identified.
    - Maintain self-evaluation on file. (This checklist may be used to satisfy this requirement if these four steps have been followed.), 45 CFR 84.6.

17. Programs or facilities that employ 15 or more persons must adopt grievance procedures that incorporate appropriate due process standards and provide for the prompt and equitable resolution of complaints alleging any action prohibited by Section 504.45 CFR 84.7 (b).

18. Programs or facilities that employ 15 or more persons must designate at least one person to coordinate efforts to comply with Section 504.45 CFR 84.7 (a).

19. Continuing steps must be taken to notify employees and the public of the program/facility's policy of nondiscrimination on the basis of disability. This includes recruitment material, notices for hearings, newspaper

ads, and other appropriate written communication, 45 CFR 84.8 (a).

20. Programs/facilities that employ 15 or more persons must provide appropriate auxiliary aids to persons with impaired sensory, manual or speaking skills where necessary. Auxiliary aids may include, but are not limited to, interpreters for hearing impaired individuals, taped or Braille materials, or any alternative resources that can be used to provide equally effective services, (45 CFR 84.52 (d).

21. Programs/facilities with 50 or more employees and $50,000 in federal contracts must develop, implement and maintain a written affirmative action compliance program in accordance with Executive Order 11246. 41 CFR 60 and Title VI of the Civil Rights Act of 1964, as amended.

AGREEMENT

THIS AGREEMENT, made this 21st day of February, 2024, by and between the Board of County Commissioners of Monroe County, Florida (hereinafter referred to as "BOCC"), whose address is 1100 Simonton Street, Key West, Florida 33040, and the Monroe County Sheriff's Office, (hereinafter referred to as "MCSO"), whose address is 5525 College Road, Key West, Florida 33040.

WHEREAS, the BOCC leases premises to other governmental agencies servicing the County community; and

WHEREAS, MCSO has requested use of County office space; and

WHEREAS, the BOCC has determined that it is in the best interests of Monroe County to provide approximately three hundred twenty (320) square feet of office space at the Murray E. Nelson Government and Cultural Center, located at 102050 Overseas Highway in Key Largo, Florida;

NOW, THEREFORE, for and in consideration of the mutual covenants contained herein, the parties agree as follows:

1. Contract Term. This Agreement is for the period commencing on March 17, 2024, and terminating on March 16, 2025, and is for Zero dollars and 00/100 cents ($0.00) per year.

2. BOCC Responsibility. The BOCC shall direct its Administrator, Departments Heads, County Attorney, and staff to provide certain facilities and support to the MCSO as can be provided without requiring an increase in personnel or any purchase or lease of real property.

3. Relationship of Parties. The MCSO is, and shall be, in the performance of all works, services, and activities under this Agreement, an independent agency, and not an employee, agent, or servant of the BOCC. The MCSO shall exercise control, direction, and supervision over the means, manner, personnel, and volunteers through which it performs its duties. Although

this Agreement is a cooperative agreement, similar in many respects (but not all) to a partnership, the MCSO shall have no authority whatsoever to act on behalf and/or as agent for the BOCC in any promise, agreement, or representation other than specifically provided for in this agreement. The BOCC shall at no time be legally responsible for any negligence on the part of the MCSO, its employees, agents, or volunteers resulting in either bodily or personal injury or property damage to any individual, property, or corporation.

4. Modification. Additions to, modification to, or deletions from the provisions of this Agreement may be made only in writing and executed by the BOCC. No modification shall become effective without prior written approval of both parties.

5. Breach and Penalties. The parties agree to full performance of the covenants contained in this Agreement. Both parties reserve the right, at the discretion of each, to terminate the services in this Agreement for any misfeasance, malfeasance, or nonperformance of the Agreement terms or negligent performance of the Agreement terms by the other party. Any waiver of any breach of covenants herein contained shall not be deemed to be a continuing waiver and shall not operate to bar either party from declaring a forfeiture for any succeeding breach either of the same conditions or covenants or otherwise.

6. Indemnification and Hold Harmless.

a) To the extent permitted by law, and as limited by Section 768.28, Florida Statutes, the BOCC shall defend, indemnify, and hold harmless MCSO and its officers, employees, or agents from any and all liability, losses or damages, including attorneys' fees and costs of defense, which MCSO or its officers, employees, or agents may incur as a result of any claim, demand, suit, or cause of action or proceeding of any kind or nature arising out of, relating to, or

resulting from the negligent performance of this Agreement by the BOCC, its employees, officers, and agents. MCSO shall promptly notify the BOCC of each claim, cooperate with the BOCC in defense and resolution of each claim, and not settle or otherwise dispose of the claim without the BOCC's participation.

The BOCC shall promptly notify MCSO of each claim, cooperate with MCSO in the defense and resolution of each claim, and not settle or otherwise dispose of the claim without MCSO's participation.

and shall not discriminate on the grounds of race, color, religion, sex, age, or national origin in the performance of work under this Agreement.

c) Any violation of said statutes, ordinances, rules, regulations, and executive orders shall constitute a material breach of this Agreement and shall entitle the BOCC to terminate this Agreement immediately upon delivery of written notice to the MCSO.

8. Taxes. The BOCC is exempt from Federal, Excise, and State of Florida Sales Tax.

9. Finance Charges. The BOCC will not be responsible for any finance charges.

10. Severability. If any provision of this Agreement shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this Agreement, or the application of such provision other than those as to which it is invalid or unenforceable, shall not be affected thereby; and each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

11. Assignment. The MCSO shall not assign, transfer, sublease, pledge, hypothecate, surrender, or otherwise encumber or dispose of this Agreement or any estate created by this Agreement or any interest in any portion of the same, or permit any other person or persons, company, or corporation to perform services under this Agreement without first obtaining the written consent of the BOCC. In the event of such consent, this Agreement shall be binding upon MCSO's successors and assigns.

12. Disclosure. The MCSO shall be required to list any or all potential conflicts of interest, as defined by Florida Statues Chapter 112, Part III, and the Monroe County Ethics Ordinance. The MCSO shall disclose to the BOCC all actual or proposed conflicts of interest, financial or

otherwise, direct or indirect, involving any client's interest, which may constitute a conflict under said laws.

13. Care of Property. The MCSO shall be responsible to the BOCC for the safekeeping and proper use of the property entrusted to MCSO's care, and to process all documents necessary to continue, without interruptions, any maintenance or service contracts relating to such equipment for its service life.

For breach or violation of this provision, the County may, in its discretion, terminate this Agreement without liability and may also, in its discretion, deduct from the Agreement or purchase price, or otherwise recover, the full amount of any fee, commission, percentage, gift, or consideration paid to the former County officer or BOCC officer or employee.

15. Termination. Termination of this Agreement shall occur at the natural ending date, or earlier should either party determine that there has occurred any material breach of any covenants herein contained, or either party otherwise deems it in their best interest to terminate. Termination may be with or without cause, and shall require written notice to be given to the other party as follows:

I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note will be called the "Note Holder."

2. INTEREST

Interest on this Note shall be zero percent (0%) per annum; except that if I fail to pay this Note as required, the interest rate shall be twelve percent (12%) per annum from the date when payment of this Note is due until I pay it in full.

(B) Payment of Note Holder's Costs and Expenses

If the Note Holder takes such actions as described above, the Note Holder will have the right to be paid back for all of its cost and expenses, including but not limited to

reasonable attorney's fees.

6. THIS NOTE SECURED BY A MORTGAGE

In addition to the protections given to the Note Holder under this Note, a Second Mortgage, dated **February** _____, *2007* protects the Note Holder from possible losses that might result if I do not keep the promises that I make in this Note. That Second Mortgage describes how and under what conditions I may be required to make immediate payment in full of all amounts that I owe under this Note.

Any co-signer, guarantor, surety or endorser who agrees to keep the promises I have made in this Note by signing this Note or by executing a separate agreement to make payments to the Note Holder if I fail to keep my promises under this Note also waives these rights.

8. GIVING OF NOTICES

Any notice that must be given to me under this Note will be given by delivering it or by mailing it by certified or registered mail, postage prepaid, addressed to me at the Property address above. A notice will be mailed to the Note Holder at a different address if I am given a notice of that different address.

9. RESPONSIBILITY OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each of us is fully and personally obligated to pay the full amount owed and to keep all of the promises made in this Note. Any guarantor, surety or endorser of this Note (as described in Section 7 above) is also obligated to do these things.    In the event of loss, the Borrower shall give prompt notice to the insurance carrier and to the Lender. The Lender may make proof of loss if not made promptly by the Borrower.

   If the Property is abandoned by the Borrower, or if the Borrower fails to respond to the Lender within thirty (31) days from the date notice mailed by the Lender to the Borrower that the insurance carrier offers to settle a claim for insurance benefits, the Lender is authorized to collect and apply the insurance proceeds at the Lender's option either to restoration or repair of the Property or to the sums secured by this Mortgage.

SUBTOTAL	$209,455.64
TOTAL SUM	**$209,455.64**

That shall bear interest at a rate in accordance with section 55.03(3), Florida Statute

2. **Lien on Property.** Plaintiff holds a lien for the total sum superior to all claims or estates of defendant(s), on the following described property in Monroe County, Florida:

LOT 28, BLOCK 21, EDEN PINES COLONY THIRD ADDITION, ACCORDING TO THE PLAT THEREOF AS RECORDED IN PLAT BOOK 5, PAGE 59, OF THE PUBLIC RECORDS OF MONROE COUNTY, FLORIDA.

Property Address: 29257 OLEANDER DRIVE, BIG PINE KEY, FL 33043

3. **Sale of Property.** If the total sum with interest at the rate described in paragraph 1 and all costs accrued subsequent to this judgment are not paid, the Clerk of this Court shall sell the property at public sale on the 23rd day of April, 2019, **(NO SOONER THAT 150-DAYS)** to the highest bidder for cash, except as prescribed in paragraph 4, at the courthouse located at 302 FLEMING STREET, KEY WEST, FL 33040 in Monroe County, Florida, in accordance with section 45.031, Florida Statutes (2013), using the following method:

☒ 500 Whitehead Street, Key West FL 33040 beginning at 11:00 AM

4. **Costs.** Plaintiff shall advance all subsequent costs of this action and shall be reimbursed for them by the clerk if plaintiff is not the purchaser of the property for sale, provided, however, that the purchaser of the property for sale shall be responsible for the documentary stamps payable on the certificate of title. If plaintiff is the purchaser, the clerk shall credit plaintiff's bid with the total

sum with interest and costs accruing subsequent to this judgment, or such part of it as is necessary to pay the bid in full.

5. **Distribution of Proceeds.** On filing the certificate of title the clerk shall distribute the proceeds of the sale, so far as they are sufficient, by paying: first, all of plaintiff's costs; second, documentary stamps affixed to the certificate; third, plaintiff's attorneys' fees; fourth, the total sum due to plaintiff, less the items paid, plus interest at the rate prescribed in paragraph 1 from this date to the date of the sale; and by retaining any remaining amount pending the further order of this court.

6. **Right of Redemption/Right of Possession.** On filing the certificate of sale, defendant(s) and all persons claiming under or against defendant(s) since the filing of the Notice of Lis Pendens shall be foreclosed of all estate or claim in the property, and defendant(s) right of redemption as prescribed by section 45.0315, Florida Statues (2013) shall be terminated, except as to claims or rights under chapter 718 or chapter 720, Florida Statutes, if any. Upon the filing of the certificate of title, the person named on the certificate of title shall be let into possession of the property.

7. **Attorneys' Fees.** The Court finds, based upon the affidavits presented and upon inquiry of counsel for the Plaintiff, that the flat fee of $2800.00 is reasonable and appropriate for the Plaintiff's counsel's attorney's fees. Furthermore, the Court finds, based upon the affidavits presented and upon inquiry of counsel for the Plaintiff, that 32.20 hours were reasonably expended by Plaintiff's counsel and that and hourly rate of $215.00 is appropriate. PLAINTIFF'S COUNSEL CERTIFIES THAT THE ATTORNEY FEE AWARDED DOES NOT EXCEED ITS CONTRACT FEE WITH PLAINTIFF. The Court finds that there are no reasons for either reduction or enhancement pursuant to *Florida Patient's Compensation Funds v. Rowe*, 472 So. 2d 1145 (Fla. 1985), and the Court therefore has awarded reasonable attorney's fees in the amount indicated in paragraph 1 of this Judgment.

8. The United States of America shall have the right of redemption provided by 28 U.S.C. §2410(c) and, if it is the successful bidder at the foreclosure sale, it shall be allowed thirty (30) days to deliver a Treasury check to the Clerk of Court in payment of the amount of its bid. Further, the deposit required by Florida Statutes 45.021(2) shall be waived.

9. **Jurisdiction Retained. Jurisdiction is reserved over this action to enforce the Final Judgment and to enter further orders that are proper including, without limitation, an award of attorney's fees and costs, a deficiency decree (if sought and appropriate), writs of possession, orders granting leave to file supplemental and/or amended pleadings to add additional parties, and orders resolving any disputes with respect to assessments and/or other amounts allegedly due associations.**

IF THIS PROPERTY IS SOLD AT PUBLIC AUCTION, THERE MAY BE ADDITIONAL MONEY FROM THE SALE AFTER PAYMENT OF PERSONS WHO ARE ENTITLED TO BE PAID FROM THE SALE PROCEEDS PURSUANT TO THE FINAL JUDGMENT.

IF YOU ARE A SUBORDINATE LIENHOLDER CLAIMING A RIGHT TO FUNDS REMAINING AFTER THE SALE, YOU MUST FILE A CLAIM WITH THE CLERK NO LATER THAN 60 DAYS AFTER THE SALE. IF YOU FAIL TO FILE A CLAIM, YOU WILL NOT BE ENTITLED TO ANY REMAINING FUNDS.

IF YOU ARE THE PROPERTY OWNER, YOU MAY CLAIM THESE FUNDS YOURSELF. YOU ARE NOT REQUIRED TO HAVE A LAWYER OR ANY OTHER REPRESENTATION AND YOU DO NOT HAVE TO ASSIGN YOUR RIGHTS TO ANYONE ELSE IN ORDER FOR YOU TO CLAIM ANY MONEY TO WHICH YOU ARE ENTITLED. PROMISSORY NOTE
COUNTY OF MONROE
SHIP HOMEBUYER ASSISTANCE LOAN

Date: September 26, 2008 City: Big Pine Key State: Florida

Name: **PATRICK & YUPHA KUHN**
Property Address: **29527 Oleander, Big Pine Key, FL 33043**

1. BORROWER'S PROMISE TO PAY
I, **PATRICK & YUPHA KUHN, husband and wife,** promise to pay **FORTY FIVE THOUSAND DOLLARS AND NO CENTS *($45,000.00)*** (this amount will be called "principal") to the order of the COUNTY OF MONROE, a political sub-division of the Sate of Florida, whose address is 1100 Simonton Street, Key West, Florida 33040 (the "Lender,") or to any other holder of this Note. I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note will be called the "Note Holder."

2. INTEREST
Interest on this Note shall be zero percent (0%) per annum; except that if I fail to pay this Note as required, the interest rate shall be twelve percent (12%) per annum from the date when payment of this Note is due until I pay it in full.

3. PAYMENTS
Principal payments shall be deferred for the term of the first mortgage loan or until **September 26, 2037.** My total payment on the aforementioned date shall be **FORTY FIVE THOUSAND DOLLARS AND NO CENTS *($45,000.00).*** In the event that I make payment in full on this loan at any time before it is due, rent my home, refinance or satisfy the first mortgage loan, sell or transfer the property, I agree to pay immediately the entire sum due under this Note plus fifty percent (50%) of the appreciated value of the property. The appreciated value is defined as the difference between the contract sales price and the contract purchase price, less the value of the seller's real estate sales commission and less the value of any lawfully permitted improvements. I will make my payment at Lender's address as stated in Section I above or at a different place if required by the Note Holder.

4. BORROWER'S PAYMENT BEFORE THEY ARE DUE
I have the right to make payment in full on this Note at any time before it is due. Such payment is known as a "full payment." No partial prepayments can be made at any time on the principal of the loan. When I make full prepayment, I will tell the Note Holder in a letter that I am doing so. Full payments to this Note are subject to the conditions as described in Item 3 Payments, shared appreciation clause.

5. BORROWER'S FAILURE TO PAY AS REQUIRED
(A) Default
If I do not pay the full amount as required in Section 3 above, I will be in default. If I am in default, the Note Holder may bring about any actions not prohibited by applicable law and require me to pay Holder's cost and expenses as described in (B) below.

(B) Payment of Note Holder's Costs and Expenses
If the Note Holder takes such actions as described above, the Note Holder will have the right to be paid back for all of its cost and expenses, including but not limited to reasonable attorney's fees.

6. THIS NOTE SECURED BY A MORTGAGE

In addition to the protections given to the Note Holder under this Note, a Second Mortgage, dated **September** 29, ***2008*** protects the Note Holder from possible losses that might result if I do not keep the promises that I make in this Note. That Second Mortgage describes how and under what conditions I may be required to make immediate payment in full of all amounts that I owe under this Note.

7. BORROWER'S WAIVER

I waive my rights to require the Note Holder to do certain things. Those things are: (A) to demand payment of amount due (known as "presentment"); (B) to give notice that amounts have not been paid (known as "notice of dishonor"); (C) to obtain an official certification of nonpayment (known as a "protest.") Any co-signer, guarantor, surety or endorser who agrees to keep the promises I have made in this Note by signing this Note or by executing a separate agreement to make payments to the Note Holder if I fail to keep my promises under this Note also waives these rights.

8. GIVING OF NOTICES

Any notice that must be given to me under this Note will be given by delivering it or by mailing it by certified or registered mail, postage prepaid, addressed to me at the Property address above. A notice will be mailed to the Note Holder at a different address if I am given a notice of that different address.

9. RESPONSIBILITY OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each of us is fully and personally obligated to pay the full amount owed and to keep all of the promises made in this Note. Any guarantor, surety or endorser of this Note (as described in Section 7 above) is also obligated to do these things. The Note Holder may enforce its rights under this Note against each of us individually or against all of us together and may enforce its rights against any of us in any order. This means that any one of us may be required to pay all of the amounts owed under this Note.

10. PRINCIPAL PAYMENT

Lender shall give the Borrower the right to negotiate a repayment schedule for 90 days after the last payment is due on the First Mortgage for all sums secured by this mortgage that have been deferred. The terms and conditions of the repayment schedule negotiated after the last payment is due on the First Mortgage shall provide for a below market interest rate, a term for up to thirty (30) years, a principal and interest payment and such payment of principal and interest when combined with real estate taxes and property insurance shall not exceed twenty five percent (25%) of the household income.

NOTICE TO BORROWER
DO NOT SIGN THIS NOTE IF IT CONTAINS BLANK SPACES.
ALL SPACES SHOULD BE COMPLETED BEFORE YOU SIGN.

AGENDA ITEM WORDING: Approval of a Third Amendment to Lease Agreement between Monroe County and Rockland Investment Corporation, Inc. for the temporary Rockland Key Fleet Garage location to extend the term for two (2) years and update other provisions of the Lease.

ITEM BACKGROUND:
Monroe County and Rockland Investment Corporation, Inc. entered into a Lease Agreement on March 17, 2021, for several parcels of land at Rockland Key to provide a temporary Rockland Key Fleet Garage location. The initial term was for two (2) years to terminate on March 16, 2023, with the option to renew for an additional three (3) one-year extension periods. The initial base rent and C.A.M. costs was $8,529.75, plus utilities. On November 15, 2022, a First Amendment was approved that provided an additional parcel of land which was adjacent to the current rented parcel. The term of the new parcel was to also expire on March 16, 2023, and increased the rental amount by $2,100. On February 15, 2023, a Second Amendment was approved for an additional 740 square feet of space at a monthly rate of $1,134.42, plus utilities. The Second Amendment also exercised the first option and extended the Lease term until March 16, 2024.
It is not anticipated that the new Fleet Garage will be ready within the upcoming year, so staff has requested to exercise the remaining two (2) options to extend the term of the lease for two (2) years. The Lessor has agreed and this Third Amendment to the Lease Agreement will extend the term from March 17, 2024, and terminate on March 16, 2026. The Amendment also corrects the address for Fleet Maintenance to receive invoices and updates the Nondiscrimination provision. The current rental and C.A.M. costs is $11,764.17, plus utilities, for all the parcels. Staff seeks approval of this Third Amendment with Rockland Investment Corporation, Inc., for the temporary Rockland Key Fleet Garage Lease.

WHEREAS, as a condition of the Lease pursuant to Paragraph 1 of this Lease Agreement, the Lessor and Lessee agree that upon execution of the Lease, the Lessor and/or Lessor's other tenants may retain use of certain other areas of the Property, in addition to the use by the County of the remaining areas, from the execution of the Lease date pursuant to the terms and conditions as set forth in this Lease Agreement; and

WHEREAS, the Lessor desires to lease the herein described Property to the County and retain the current use of other areas of the 111 Overseas Highway, Rockland Key parcel to continue in any current operations while the County proceeds with its proposed use of its designated Property; and

WHEREAS, the Lessee is willing to lease the Property for the purposes of Lessee's operations and allow Lessor to retain control of certain other designated areas for its use during the Lease term;

NOW, THEREFORE, IN CONSIDERATION of the mutual promises and covenants set forth below, the parties agrees as follows:

1. **Premises.** The Lessor does hereby lease to Lessee and Lessee leases from the Lessor, the Property situated at and commonly known as **111 Overseas Highway, Rockland Key, Monroe County, Florida 33040,** and more particularly described as a total of 5,834 Sq. ft.. which consists of 928 Sq. ft. of Office Space and 3,654 Sq. ft. of Main Warehouse Space, both of which are on the ground floor of the building, and 324 Sq. ft. of Security Storage Space and 928 Sq. ft. of Mezzanine Storage Space, both of which are on the Second Floor of the building, plus an additional 59 feet of the surrounding outside property immediately North of the existing building, referred to herein as the "Main Parcel"; plus an additional ground area of 40 feet of the surrounding outside property West of the building, referred to herein as the "Secondary Parcel, and collectively known as the **"Premises" or "Sole Use Areas",** as more particularly described on Exhibit "A" setting forth Lessee's designated area of the parcel, attached to this Lease and made a part hereof. This Lease allows the continued exclusive use of certain other areas of the building and/or surrounding property by the Lessor and/or its other tenants.

2. **Term and Effective Date.** Subject to and upon the terms and conditions as set forth herein, the initial term of this Lease shall be for two (2) years, with the term to commence on March 17, 2021, and terminate on March 16, 2023, unless earlier terminated as provided in this agreement. Lessee shall take possession upon approval of this Lease Agreement by the Board of County Commissioners to initiate the build-out and improvements that are required for the Fleet Management operations on the Premises. The payment of rent shall commence at set forth in Paragraph 8 herein.

3. **Extension Period.** There shall be three (3) additional one (1) year extension periods anticipated as part of this Lease with annual renewals after the initial term of this Lease, upon approval of both parties. In the event that Lessee chooses to exercise its option to extend the lease term, Lessee will notify Lessor ninety (90) days prior to the expiration of the Lease. in writing, that it desires a renewal of the Lease, upon the same terms and conditions, as set forth herein, and said Lease renewal shall be set forth in a written amendment to this Lease.

4. **Security Deposit.** No security deposit will be required. If the Lessee vacates or abandons the Premises in violation of this Lease, any property belonging to the Lessee that the Lessee leaves on the Premises shall be deemed to have been abandoned and may be retained by the Lessor as property of the Lessor, or be disposed of at a public or private sale, provided that Lessor first provides twenty (20) days' written notice to the Lessee and provides a reasonable opportunity for Lessee to retrieve such property. Any proceeds of such sale, at the current fair market value, may thereafter be applied by Lessor against: (1) expenses of the Lessor for

SRH

removing, storage or sale of the personal property, (2) the arrears of rent, or future rent, payable under this Lease, and (3) any other damages to which the Lessor may be entitled hereunder. The balance of any such amounts, of any, shall be given to the Lessee.

5. **Rent.** The amount Lessee shall pay to the Lessor for the Premises shall be as follows: Six Thousand Six Hundred Ninety-five and 00/100 ($6,695.00) Dollars per month as the Base Rent for the Main Parcel and One Thousand Five Hundred and 00/100 ($1,500.00) Dollars per month as the Base Rent for the Secondary Parcel. Other monetary obligations of Lessee owes to Lessor under the terms of this Lease are herein referred to as "Additional Rent". Lessee shall also pay monthly, as Additional Rent, a portion of the Common Area Maintenance Costs ("C.A.M.), in the amount of five percent (5%) of the base rent for the Main Parcel in the amount of Three Hundred Thirty-four and 75/00 ($334.75) Dollars per month.

6. **Taxes.** The Lessor shall pay all taxes and assessments, if any, including any sales or use tax, levied by any governmental agency with respect to the Lessor's operations on the Premises and ownership of the Property. Lessee is a political subdivision of the State of Florida and is not obligated to pay any sales tax under this Lease Agreement. The leased Premises is a newly created parcel within the entire Property so the Lessee's baseline prorata share of the taxes, is unknown at this time. Lessee agrees to pay Lessor, as Additional Rent, Lessee's proportionate share of the tax expenses in monthly installments once the rate has been agreed upon by Lessor and Lessee. Lessor shall furnish Lessee with a written Statement of the actual amount of Lessee's proportionate share of the tax expenses and Lessee shall pay same as a part of its monthly payment to Lessor for the base rent, C.A.M. costs, utilities, or any other such rent expense that may be due to Lessor.

7. **Utilities.** Lessee shall be responsible for payment of all utilities on a monthly basis, including but not limited to the following as necessary, water, electric, sewer, solid waste, trash removal, telephone, internet service, cable, LP gas, insect and rodent extermination, or other such similar utilities, as used or consumed by Lessee in the Premises. If any such services are to be separately metered to Lessee, then Lessee shall be required to arrange and pay all charges customarily charged for connection of such services by the applicable provider thereof, including connection fees, the cost of the meters therefore, and any required deposits or prepayments. In the event separate bills are not obtainable for such utility expenses, Lessee shall pay to Lessor the Lessee's proportionate share of such charges and expenses for its use and consumption, as billed monthly by Lessor, and shall be referred to as Additional Rent.

8. **Payment of Rent.** The payment of rent shall commence on May 1, 2021, or upon Lessee actually commencing its daily Fleet Management operations at the Premises, whichever occurs first. Lessee shall pay to Lessor the Base Rent plus any other Additional Rent in lawful money of the United States, without offset or deduction on a monthly basis. As a condition precedent for any payment due under this Lease, the Lessor shall submit monthly, on or before the fifth (5^{th}) day of each month, unless otherwise agreed in writing by the Lessee, a proper invoice to the Lessee requesting payment for the then applicable monthly Base Rent and any Additional Rent, if applicable. The Lessor's invoice shall describe with reasonable particularity the aforementioned information in order to necessitate payment by the Clerk of the Court. The Lessor's invoice shall be accompanied by such documentation or data in support of the Base Rent and/or any Additional

SRH

Rent for which payment is sought as the Lessee may require. Lessor's invoice shall be submitted to the Fleet Management, 3583 S. Roosevelt Blvd., Key West, Florida 33040. Payment of any Base Rent or Additional Rent will be made pursuant to the Local Government Prompt Payment act Section 218.70, Florida Statutes. Payment of Base Rent and Additional Rent shall be made to Lessor at its address stated herein or to such other persons or at such other addresses as Lessor may from time to time designate in writing to Lessee. Base Rent and Additional Rent are collectively referred to as "Rent" or "rent". All monetary obligations of Lessee to Lessor under the terms of this Lease are deemed to be Rent.

9. **Insurance and Liability.** Lessor shall provide a commercial general liability insurance policy with a coverage limit of no less than One Million and 00/100 ($1,000,000.00) Dollars for the Property and its own operations. Lessor shall maintain its current property insurance coverage on the entire Property insured for the full Replacement Value of the total structure. Lessor and Lessee agree to waive coverage for wind or flood insurance by either party. Lessee shall maintain sufficient insurance to insure the Lessee's contents and any other personal property used by the Lessee in its Sole Use Areas and to protect the Lessor and Lessee from all claims of property damage and personal injury, including death, whether the claims are under the Worker's Compensation Act or otherwise, which may arise from its operations under this Lease.

Lessee shall not occupy or use the demised Premises or permit them to be occupied or used for any business or purpose that would increase the premium for fire insurance on the building under the normal rates applicable. Lessee agrees to be responsible and hold the Lessor harmless from and against any and all loss, claims, liability or costs (including court costs and attorney's fees) incurred by reason of Lessee's use of the property as an operations center for Lessee's Fleet Department to the extent permitted by Florida Statute Sec. 768.28. Notwithstanding anything contained in this Lease to the contrary, Lessee, as a political subdivision of the State of Florida does not waive and expressly reserves its sovereign immunity, except as provided in Florida Statute, Sec. 768.28.

10. **Mechanic's Liens.** Lessee further agrees that Lessee will pay all of Lessee's contractors, subcontractors, mechanics, laborers, materialmen and all others, and, subject to the limitations set forth in Fla. Stat. Sec. 768.28, will indemnify Lessor against all legal costs and charges, bond premiums for release of liens, and counsel fees reasonably incurred in the commencement or defense of any suit by the Lessor to discharge any liens, judgments, or encumbrances against the Premises caused or suffered by Lessee. It is understood and agreed between the parties hereto that the costs and charges above referred to shall be considered as additional rent due under this Lease, payable upon demand.

The Lessee herein shall not have any authority to create any liens for labor or material on the Lessor's interest in the above- described property, and all persons contracting with the Lessee for the doing of work or the furnishing of any materials on or to the Premises, and all materialmen, contractors, mechanics and laborers, are hereby charged with notice that they must look to the Lessee only to secure the payment of any bill for work done or materials furnished during the term of this Lease. Pursuant to Section 713.23, Fla. Stat., the liens authorized in Ch. 713, Fla. Stat. does not apply to the Lessee.

SRH

11. **Relationship of Parties.** The Lessee is, and shall be an independent contractor and not an agent or servant of the Lessor. The Lessee shall exercise control, direction, and supervision over the means and manner that its personnel, agents, employees, and volunteers perform the work for which purpose this Lease is entered. The Lessee shall have no authority whatsoever to act on behalf and /or as agent for the Lessor in any promise, lease, or representation other than specifically provided for in this Lease. The Lessor shall at no time be legally responsible for any negligence on the part of the Lessee, its personnel, agents, employees, or volunteers resulting in either bodily or personal injury or property damage to any individual, property, or corporation.

12. **Termination.** This Lease may be terminated at the discretion of the Lessor in the following circumstances:

A. Lessee fails to pay the rent when due;
B. Lessee otherwise breaches the terms of this Lease; and
C. Lessor may terminate this Lease for convenience upon giving one hundred eighty (180) days' prior written notice to the Lessee.

This Lease may be terminated by Lessee in the following circumstances:

A. The County of Monroe, or any other applicable governmental entity shall raise a zoning challenge, in which case Lessee shall be entitled to terminate this Lease upon giving one hundred eighty (180) days' written notice to Lessor;
B. The County's performance and obligation to pay under this Lease is contingent upon an annual appropriation by the Board of County Commissioners and the approval of the Board members at the time of the Lease initiation and its duration;
C. The Lessee acquires adequate space in a County-owned or State-owned building or other real property sufficient to allow Lessee's current use of the Premises herein to be transferred to such other County or State owned property; and
D. Lessee may terminate this Lease for convenience upon giving one hundred eighty (180) days' prior written notice to the Lessee.

13. **Uses.** The Premises shall be used solely for the purposes of conducting the Lessee's proposed Fleet services/activities related to its Fleet Department operations or other such County uses. Lessee shall neither commit, nor permit waste of the demised Premises, shall use with care and shall not destroy or remove without consent of the Lessor, any fixtures or improvements of the Premises. Lessee shall not maintain, commit, or permit, the maintenance or commission of any nuisance on the Premises. Any damages resulting from misuse shall be borne by the Lessee.

Lessee shall be permitted to erect signs on the Premises with prior permission of Lessor, including but not limited to a sign containing the name of Lessee's operations. The Lessor's decision on signage will be delivered no later than fifteen (15) days after the Lessee's request. Lessor and/or its other tenants retain the right to display signage for its own purposes provided it

SRA

meets all legal requirements. Lessee shall not remove any interior or existing signs without Lessor's consent/permission.

14. **Maintenance.** During the term of this Lease, Lessee agrees to be responsible for the maintenance and janitorial services of all areas, both interior and exterior, of the leased Premises, which Lessee utilizes. Lessee shall also maintain the exterior grounds of its leased Premises. All maintenance and janitorial service shall be completed within a reasonable timeframe. The foregoing provision notwithstanding, the Lessor and/or its other tenants agree to be responsible for maintenance and janitorial service of the other areas of the Property. Lessee must keep the Premises under the sole use and control of the Lessee in good order and condition. At the end of the term of this Lease, the Lessee must surrender the Premises to the Lessor in the same good order and condition as the Premises were on the commencement of the term, normal wear and tear excepted. The Lessee shall not commit waste on the Premises, nor maintain or permit a nuisance on the Premises. After termination or expiration of this Lease, the Lessee shall pay the Lessor the cost of any repairs and clean-up necessary to restore the Premises to its condition at the commencement of the Lease, normal wear and tear excepted.

15. **Improvements and Repairs.** Lessee reserves the right from time to time to make such improvements, alterations, renovations, changes and repairs in and about the Premises as Lessee shall deem desirable; and Lessee shall make no claims against Lessor for the interference with Lessee's leasehold interest, or loss of damages, to its operation during such improvements, alterations, renovations, changes and repairs.

Lessee shall have the right at Lessee's own expense to improve or alter the interior and exterior of the leased Premises. Any improvements or alterations proposed must first be submitted in writing for approval by the Lessor. No improvements or alterations shall be made without the prior written consent of the Lessor, which consent shall not be unreasonably withheld. The Lessor's decision on Lessee's request for consent will be delivered no later than seven (7) days after the delivery of the request. If no decision is issued, then the Lessor shall be deemed to have consented. If Lessee's improvements or alterations result in the need to retrofit or alter the existing structure, such additional work shall be at Lessee's expense.

Lessee covenants that any such improvements and alterations shall be made in a workmanlike manner and in compliance with all federal, state, and municipal laws and requirements, including all permits and approvals required in connection with any improvements, alterations, or repairs. Lessee's improvements or alterations erected or made on the demised Premises shall, upon expiration or sooner termination of this Lease, belong to the Lessor.

With respect to repairs and/or replacement of all mechanical infrastructures, Lessee and Lessor shall mutually agree that the repair and/or replacement is necessary. The Lessee shall bear the first One Thousand and 00/100 ($1,000.00) Dollars of the cost of repair and/or replacement of mechanical infrastructures. Thereafter, the Lessor shall bear one hundred percent (100%) of any

SRA

cost of repair and/or replacement in excess of One Thousand and 00/100 ($1,000.00) Dollars. For purposes of this paragraph, the term "mechanical infrastructure" means the roof and air conditioning/heating systems. Except as set forth herein, Lessee shall be responsible for maintaining, repairing or replacing all existing electrical/plumbing infrastructures and components on or in the Premises.

16. **Assignment.** Lessee may not assign this Lease or assign or subcontract any of its obligations under this Lease without the prior written approval of the Lessor. All the obligations of this Lease will extend to and bind the legal representatives, successors, and assigns of the Lessee and the Lessor.

17. **Subordination.** This Lease is subordinate to the laws and regulations of the United States, the State of Florida, and Monroe County, whether in effect on commencement of this Lease or adopted after that date.

18. **Licenses.** Lessee shall be responsible for and provide all licenses required by all local, state, and federal agencies.

19. **Premises to be Used for Lawful Purposes.** It is expressly covenanted between the parties hereto that the Lessee will not use, suffer nor permit any person to use in any manner whatsoever the leasehold property, nor any portion thereof, for purposes calculated to injure the reputation of the leasehold property or of the neighboring property, nor for any purpose or use in violation of the laws of the United States, or of the State of Florida, or of the Ordinances of Monroe County, Florida, or of the Ordinances of any applicable municipality. Lessee will keep and save the Lessor forever harmless from any penalty or damage or charges imposed for any violation of any of said laws, whether occasioned by neglect of Lessee and Lessee will indemnify and save and keep harmless the Lessor against and from any loss, cost, damage, and expense arising out of any accident or other occurrence, causing injury to any person or property whomsoever or whatsoever, and due directly or indirectly to the use of the leasehold Premises or any part thereof by Lessee.

20. **Limitation of Lessor's Liability.** It is further agreed that in no case shall the Lessor herein be liable, under any express or implied covenants in the Lease, for any damages whatsoever to the Lessee beyond the rent reserved by the Lease accruing, for the act, or breach of covenant, for which damages may be sought to be recovered against said Lessor, and that in the event said Lessee shall be ousted from the possession of said property by reason of any defect in the title of said Lessor or said Lessor's authority to make this Lease, said Lessee shall not be required to pay rent under this Lease while it is so deprived of said property, and that said Lessor shall not incur any liability as a result of such ouster.

21. **No Waiver of Breach.** It is further mutually covenanted and agreed between the parties hereto that no waiver of a breach of any of the covenants of this Lease shall be construed to be a waiver of any succeeding breach of the same covenant.

22. **Lessor's Right of Entry.** The Lessor reserves the right hereunder to enter upon the Premises at any reasonable time during normal operating hours for the purpose of inspecting said Premises to determine whether Lessee has complied and is complying with the terms and

SRH

conditions of this Lease. The Lessee hereby agrees to keep the Premises at all times in a clean and sanitary condition, and not to maintain or keep upon said Premises any properties or equipment not used in connection with the operation of said business, unless authorized by the Lessor to do so.

23. **Responsibility for Property on Leasehold.** All property of any kind that may be on the Premises during the term of this Lease shall be at the sole risk of the Lessee. The Lessor shall not be liable to the Lessee or any other person for any injury, loss, or damage to property or person on the Premises.

24. **Damage to Leasehold.** In the event that the demised Premises, or a major part thereof, are destroyed by fire, storm, or any other casualty, the Lessor at its option may forthwith repair the damage to the Premises and any structures located thereon at its own cost and expense. The rental thereon shall cease until the completion of such repairs. If Lessor exercises its option to repair the Premises, Lessee agrees to assign its right to the insurance proceeds to the Lessor.

25. **Condemnation.** If the whole of the leased Premises, or such portion thereof as will make the leased Premises unusable for the purposes leased hereunder, shall be taken by any public authority under the power of eminent domain or sold to any public authority under threat or in lieu of such take, the Term shall cease of the day possession or title shall be taken by such public authority, whichever is earlier ("Taking Date"), whereupon Rent shall be paid up the the Taking Date with a proportionate refund by Lessor of any Rent paid for a period subsequent to the Taking Date. If less than the whole of the leased Premises, or less than such portion thereof as will make the leased Premised unusable for the purposes leased hereunder, shall be taken, the Term shall cease only as to the part so taken as of the Taking Date, and Lessee shall pay Rent up to the Taking Date, with appropriate credit by Lessor (toward the next installment of Rent due from Lessee) of any Rent paid for a period subsequent to the Taking Date. Base Rent and other charges payable to Lessor shall be reduced in proportion to the amount of the leased Premises taken. All compensation awarded or paid upon a total or partial taking of the leased Premises including the value of the leasehold estate created hereby shall belong to and be the property of Lessor without any participation by Lessee; Lessee shall have no claim to any such award based on Lessee's leasehold interest. However, nothing contained herein shall be construed to preclude Lessee, at its cost, from independently prosecuting any claim directly against the condemning authority in such condemnation proceeding for damage to, or cost of removal of, stock, trade fixtures, furniture, and other personal property belonging to Lessee, improvements paid for by Lessee, and moving and other reasonable relocation expenses; provided, however, that no such claim shall diminish or otherwise adversely affect Lessor's award.

26. **Estoppel Certificate.** Lessee shall, at any time and from time to time, within ten (10) business days after written request by Lessor, execute, acknowledge and deliver to Lessor, or its mortgagee or trustee, a statement in writing duly executed by Lessee (i) certifying that this Lease is in full force and effect (if that be the case) without modification or amendment (or, if there have been any modifications or amendments, that this Lease is in full force and effect as modified and amended and setting forth the modifications and amendments), (ii) certifying the dates to which rental have been paid, and (iii) either certifying that to the knowledge of the Lessee no default exists under this Lease or specifying each such default; it being the intention and

SRH

agreement of Lessor and Lessee that any such statement by Lessee may be relied upon by a prospective purchaser or a prospective or current mortgagee of the leased Premises, or by others, in any matter affecting the leased Premises.

27. **Rights Reserved.** Rights not specifically granted to Lessee by this Lease are reserved to the Lessor.

28. **Indemnification / Hold Harmless.** Subject to and without waiving the protections of Section 768.28, Florida Statutes, Lessor and Lessee shall each indemnify, defend, and hold harmless the other party and the other party's employees, agents, guests, invitees, and contractors (the "Indemnified Parties") from and against any and all loss, damage, claim, demand, liability or expense (including reasonable attorneys' fees) resulting from claims by third parties and based on any acts or omissions (specifically including negligence and the failure to comply with this Lease) of the Indemnitor, its employees, agents, guests, invitees, and contractors and only to the extent caused in whole or in part by acts or omissions of the Indemnitor, its employees, agents, guests, invitees, and contractors regardless of whether the claim is caused in part by any of the Indemnified Parties. When any claim is caused by the joint acts or omissions of the Indemnitor and the Indemnified Parties, the Indemnitor's duties under this paragraph shall be in proportion to the Indemnitor's allocable share of the joint liability.

29. **Governing Law, Venue, and Interpretation**. This Lease shall be governed by and construed in accordance with the laws of the State of Florida applicable to contracts made and to be performed entirely in the State. In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this Lease, the Lessor and Lessee agree that venue will lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida.

The Lessor and Lessee agree that, in the event of conflicting interpretations of the terms or a term of this Lease by or between any of them the issue shall be submitted to mediation prior to the institution of any other administrative or legal proceeding.

30. **Force Majeure.** Any prevention, delay, or stoppage due to strikes, lockouts, labor disputes, acts of God, including inclement weather and/or periods of rain or other weather conditions, inability to obtain labor or materials, or reasonable substitutes therefore, governmental restrictions or requirements, governmental regulations, governmental controls, inability to timely obtain governmental approvals, failure of power, riots, insurrection, ware or other enemy or hostile government action, civil commotion, fire or other casualty, early closure of asphalt plants, and other causes beyond the reasonable control of the party obligated to perform, shall excuse the performance by such party for a period equal to any such prevention, delay, or stoppage, including the obligations of Lessor to deliver the leased Premises. The foregoing force majeure provisions are inapplicable to any payments of money due under this Lease

31. **Severability.** If any term, covenant, condition, or provision of this Lease (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions, and

SRA

provisions of this Lease, shall not be affected thereby; and each remaining term, covenant, condition, and provision of this Lease shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions, and provisions of this Lease would prevent the accomplishment of the original intent of this Lease. The Lessor and Lessee agree to reform the Lease to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

32. **Attorney's Fees and Costs**. The Lessor and Lessee agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Lease Agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, courts costs, investigative, and out-of-pocket expenses in appellate proceedings. Mediation proceedings initiated and conducted pursuant to this Lease shall be in accordance with the Florida Rules of Civil Procedure and usual and customary procedures required by the circuit court of Monroe County.

33. **Binding Effect**. The terms, covenants, conditions, and provisions of this Lease shall bind and inure to the benefit of the Lessor and Lessee and their respective legal representatives, successors, and assigns.

34. **Authority**. Each party represents and warrants to the other that the execution, delivery and performance of this Lease have been duly authorized by all necessary County and corporate action, as required by law.

35. **Claims for Federal or State Aid**. Lessor and Lessee agree that each shall be, and is, empowered to apply for, seek, and obtain federal and state funds to further the purpose of this Lease; provided that all applications, requests, grant proposals, and funding solicitations shall be approved by each party prior to submission.

Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay when due the principal of, and interest on, the debt evidenced by the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S. currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment

can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest

shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.

9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

(a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.

(b) Any such agreements will not affect the rights Borrower has - if any - with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.

11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of

13930

any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.

13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers

unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the

purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument, foreclosure by judicial proceeding and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to assert in the foreclosure proceeding the non-existence of a default or any other defense of Borrower to acceleration and foreclosure. ADJUSTABLE RATE NOTE

(1 Year Treasury Index - Rate Caps)

THIS NOTE CONTAINS PROVISIONS ALLOWING FOR CHANGES IN MY INTEREST RATE AND MY MONTHLY PAYMENT. THIS NOTE LIMITS THE AMOUNT MY INTEREST RATE CAN CHANGE AT ANY ONE TIME AND THE MAXIMUM RATE I MUST PAY.

June 28th, 2005 [Date] Naples [City] Florida [State]

55 Boca Chica Rd, Key West, FL 33040 [Property Address]

1. BORROWER'S PROMISE TO PAY

In return for a loan that I have received, I promise to pay U.S. $ 148,000.00 (this amount is called "Principal"), plus interest, to the order of the Lender. The Lender is ORION BANK

I will make all payments under this Note in the form of cash, check or money order.

I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note is called the "Note Holder."

2. INTEREST

Interest will be charged on unpaid principal until the full amount of Principal has been paid. I will pay interest at a yearly rate of 5.875 %. The interest rate I will pay will change in accordance with Section 4 of this Note.

The interest rate required by this Section 2 and Section 4 of this Note is the rate I will pay both before and after any default described in Section 7(B) of this Note.

3. PAYMENTS

(A) Time and Place of Payments

I will pay principal and interest by making a payment every month.

I will make my monthly payment on the first day of each month beginning on August, 2005. I will make these payments every month until I have paid all of the principal and interest and any other charges described below that I may owe under this Note. Each monthly payment will be applied as of its scheduled due date and will be applied to interest before Principal. If, on July 1st, 2035, I still owe amounts under this Note, I will pay those amounts in full on that date, which is called the "Maturity Date."

I will make my monthly payments at ORION BANK, 3838 Tamiami Tr. N., Naples, FL 34103 or at a different place if required by the Note Holder.

(B) Amount of My Initial Monthly Payments

Each of my initial monthly payments will be in the amount of U.S. $ 875.48. This amount may change.

(C) Monthly Payment Changes

Changes in my monthly payment will reflect changes in the unpaid principal of my loan and in the interest rate that I must pay. The Note Holder will determine my new interest rate and the changed amount of my monthly payment in accordance with Section 4 of this Note.

Doc# 1735486
Bk# 2405 Pg# 1104

4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The interest rate I will pay may change on the first day of July, 2010 , and on that day every 12th month thereafter. Each date on which my interest rate could change is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my interest rate will be based on an Index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of one year, as made available by the Federal Reserve Board. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index which is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding Three and 25/100 percentage points (3.250 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 7.875 % or less than 3.875 %. Thereafter, my interest rate will never be increased or decreased on any single Change Date by more than two percentage points (2.0%) from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 11.875 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

The Note Holder will deliver or mail to me a notice of any changes in my interest rate and the amount of my monthly payment before the effective date of any change. The notice will include information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

5. BORROWER'S RIGHT TO PREPAY

I have the right to make payments of Principal at any time before they are due. A payment of Principal only is known as a "Prepayment." When I make a Prepayment, I will tell the Note Holder in writing that I am doing so. I may not designate a payment as a Prepayment if I have not made all the monthly payments due under the Note.

I may make a full Prepayment or partial Prepayments without paying a Prepayment charge. The Note Holder will use my Prepayments to reduce the amount of Principal that I owe under this Note. However, the Note Holder may apply my Prepayment to the accrued and unpaid interest on the Prepayment amount, before applying my Prepayment to reduce the Principal amount of the Note. If I make a partial Prepayment, there will be no changes in the due dates of my monthly payment unless the Note Holder agrees in writing to those changes. My partial Prepayment may reduce the amount of my monthly payments after the first Change Date following my partial Prepayment. However, any reduction due to my partial Prepayment may be offset by an interest rate increase.

6. LOAN CHARGES

If a law, which applies to this loan and which sets maximum loan charges, is finally interpreted so that the interest or other loan charges collected or to be collected in connection with this loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from

me which exceeded permitted limits will be refunded to me. The Note Holder may choose to make this refund by reducing the Principal I owe under this Note or by making a direct payment to me. If a refund reduces Principal, the reduction will be treated as a partial Prepayment.

7. BORROWER'S FAILURE TO PAY AS REQUIRED

(A) Late Charges for Overdue Payments

If the Note Holder has not received the full amount of any monthly payment by the end of 10 calendar days after the date it is due, I will pay a late charge to the Note Holder. The amount of the charge will be 5.00 % of my overdue payment of principal and interest. I will pay this late charge promptly but only once on each late payment.

(B) Default

If I do not pay the full amount of each monthly payment on the date it is due, I will be in default.

(C) Notice of Default

If I am in default, the Note Holder may send me a written notice telling me that if I do not pay the overdue amount by a certain date, the Note Holder may require me to pay immediately the full amount of principal which has not been paid and all the interest that I owe on that amount. That date must be at least 30 days after the date on which the notice is mailed to me or delivered by other means.

(D) No Waiver By Note Holder

Even if, at a time when I am in default, the Note Holder does not require me to pay immediately in full as described above, the Note Holder will still have the right to do so if I am in default at a later time.

(E) Payment of Note Holder's Costs and Expenses

If the Note Holder has required me to pay immediately in full as described above, the Note Holder will have the right to be paid back by me for all of its costs and expenses in enforcing this Note to the extent not prohibited by applicable law. Those expenses include, for example, reasonable attorneys' fees.

8. GIVING OF NOTICES

Unless applicable law requires a different method, any notice that must be given to me under this Note will be given by delivering it or by mailing it by first class mail to me at the Property Address above or at a different address if I give the Note Holder a notice of my different address.

Any notice that must be given to the Note Holder under this Note will be given by delivering it or by mailing it by first class mail to the Note Holder at the address stated in Section 3(A) above or at a different address if I am given a notice of that different address.

9. OBLIGATIONS OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each person is fully and personally obligated to keep all of the promises made in this Note, including the promise to pay the full amount owed. Any person who is a guarantor, surety or endorser of this Note is also obligated to do these things. Any person who takes over these obligations, including the obligations of a guarantor, surety or endorser of this Note, is also obligated to keep all of the promises made in this Note. The Note Holder may enforce its rights under this Note against each person individually or against all of us together. This means that any one of us may be required to pay all of the amounts owed under this Note.

10. WAIVERS

I and any other person who has obligations under this Note waive the rights of Presentment and Notice of Dishonor. "Presentment" means the right to require the Note Holder to demand payment of amounts due. "Notice of Dishonor" means the right to require the Note Holder to give notice to other persons that amounts due have not been paid.

11. UNIFORM SECURED NOTE

This Note is a uniform instrument with limited variations in some jurisdictions. In addition to the protections given to the Note Holder under this Note, a Mortgage, Deed of Trust, or Security Deed (the "Security Instrument"), dated the same date as

Doc# 1735486
Bk# 2405 Pg# 1106

this Note, protects the Note Holder from possible losses which might result if I do not keep the promises which I make in this Note. That Security Instrument describes how and under what conditions I may be required to make immediate payment in full of all amounts I owe under this Note. Some of those conditions are described as follows:

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law. Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender may also require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless Lender releases Borrower in writing.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

12. DOCUMENTARY TAX

The state documentary tax due on this Note has been paid on the mortgage securing this indebtedness.

If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment

can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest

shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.

9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

(a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.

(b) Any such agreements will not affect the rights Borrower has - if any - with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.

11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of

13930

Initials:

any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.

13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers

unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the

purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument, foreclosure by judicial proceeding and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to assert in the foreclosure proceeding the non-existence of a default or any other defense of Borrower to acceleration and foreclosure. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may foreclose this Security Instrument by judicial proceeding. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 22, including, but not limited to, reasonable attorneys' fees and costs of title evidence.

23. Release. Upon payment of all sums secured by this Security Instrument, Lender shall release this Security Instrument. Borrower shall pay any recordation costs. Lender may charge Borrower a fee for releasing this Security Instrument, but only if the fee is paid to a third party for services rendered and the charging of the fee is permitted under Applicable Law.

24. Attorneys' Fees. As used in this Security Instrument and the Note, attorneys' fees shall include those awarded by an appellate court and any attorneys' fees incurred in a bankruptcy proceeding.

25. Jury Trial Waiver. The Borrower hereby waives any right to a trial by jury in any action, proceeding, claim, or counterclaim, whether in contract or tort, at law or in equity, arising out of or in any way related to this Security Instrument or the Note.

ADJUSTABLE RATE NOTE

(1 Year Treasury Index - Rate Caps)

THIS NOTE CONTAINS PROVISIONS ALLOWING FOR CHANGES IN MY INTEREST RATE AND MY MONTHLY PAYMENT. THIS NOTE LIMITS THE AMOUNT MY INTEREST RATE CAN CHANGE AT ANY ONE TIME AND THE MAXIMUM RATE I MUST PAY.

June 28th, 2005 [Date] Naples [City] Florida [State]

55 Boca Chica Rd, Key West, FL 33040 [Property Address]

1. BORROWER'S PROMISE TO PAY

In return for a loan that I have received, I promise to pay U.S. $ 148,000.00 (this amount is called "Principal"), plus interest, to the order of the Lender. The Lender is ORION BANK

I will make all payments under this Note in the form of cash, check or money order.

I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note is called the "Note Holder."

2. INTEREST

Interest will be charged on unpaid principal until the full amount of Principal has been paid. I will pay interest at a yearly rate of 5.875 %. The interest rate I will pay will change in accordance with Section 4 of this Note.

The interest rate required by this Section 2 and Section 4 of this Note is the rate I will pay both before and after any default described in Section 7(B) of this Note.

3. PAYMENTS

(A) Time and Place of Payments

I will pay principal and interest by making a payment every month.

I will make my monthly payment on the first day of each month beginning on August, 2005. I will make these payments every month until I have paid all of the principal and interest and any other charges described below that I may owe under this Note. Each monthly payment will be applied as of its scheduled due date and will be applied to interest before Principal. If, on July 1st, 2035, I still owe amounts under this Note, I will pay those amounts in full on that date, which is called the "Maturity Date."

I will make my monthly payments at ORION BANK, 3838 Tamiami Tr. N., Naples, FL 34103 or at a different place if required by the Note Holder.

(B) Amount of My Initial Monthly Payments

Each of my initial monthly payments will be in the amount of U.S. $ 875.48. This amount may change.

(C) Monthly Payment Changes

Changes in my monthly payment will reflect changes in the unpaid principal of my loan and in the interest rate that I must pay. The Note Holder will determine my new interest rate and the changed amount of my monthly payment in accordance with Section 4 of this Note.

Doc# 1735486
Bk# 2405 Pg# 1104

4. INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The interest rate I will pay may change on the first day of July, 2010 , and on that day every 12th month thereafter. Each date on which my interest rate could change is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my interest rate will be based on an Index. The "Index" is the weekly average yield on United States Treasury securities adjusted to a constant maturity of one year, as made available by the Federal Reserve Board. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index which is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding Three and 25/100 percentage points (3.250 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 7.875 % or less than 3.875 %. Thereafter, my interest rate will never be increased or decreased on any single Change Date by more than two percentage points (2.0%) from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 11.875 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

The Note Holder will deliver or mail to me a notice of any changes in my interest rate and the amount of my monthly payment before the effective date of any change. The notice will include information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

5. BORROWER'S RIGHT TO PREPAY

I have the right to make payments of Principal at any time before they are due. A payment of Principal only is known as a "Prepayment." When I make a Prepayment, I will tell the Note Holder in writing that I am doing so. I may not designate a payment as a Prepayment if I have not made all the monthly payments due under the Note.

I may make a full Prepayment or partial Prepayments without paying a Prepayment charge. The Note Holder will use my Prepayments to reduce the amount of Principal that I owe under this Note. However, the Note Holder may apply my Prepayment to the accrued and unpaid interest on the Prepayment amount, before applying my Prepayment to reduce the Principal amount of the Note. If I make a partial Prepayment, there will be no changes in the due dates of my monthly payment unless the Note Holder agrees in writing to those changes. My partial Prepayment may reduce the amount of my monthly payments after the first Change Date following my partial Prepayment. However, any reduction due to my partial Prepayment may be offset by an interest rate increase.

6. LOAN CHARGES

If a law, which applies to this loan and which sets maximum loan charges, is finally interpreted so that the interest or other loan charges collected or to be collected in connection with this loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from

me which exceeded permitted limits will be refunded to me. The Note Holder may choose to make this refund by reducing the Principal I owe under this Note or by making a direct payment to me. If a refund reduces Principal, the reduction will be treated as a partial Prepayment.

7. BORROWER'S FAILURE TO PAY AS REQUIRED

(A) Late Charges for Overdue Payments

If the Note Holder has not received the full amount of any monthly payment by the end of 10 calendar days after the date it is due, I will pay a late charge to the Note Holder. The amount of the charge will be 5.00 % of my overdue payment of principal and interest. I will pay this late charge promptly but only once on each late payment.

(B) Default

If I do not pay the full amount of each monthly payment on the date it is due, I will be in default.

(C) Notice of Default

If I am in default, the Note Holder may send me a written notice telling me that if I do not pay the overdue amount by a certain date, the Note Holder may require me to pay immediately the full amount of principal which has not been paid and all the interest that I owe on that amount. That date must be at least 30 days after the date on which the notice is mailed to me or delivered by other means.

(D) No Waiver By Note Holder

Even if, at a time when I am in default, the Note Holder does not require me to pay immediately in full as described above, the Note Holder will still have the right to do so if I am in default at a later time.

(E) Payment of Note Holder's Costs and Expenses

If the Note Holder has required me to pay immediately in full as described above, the Note Holder will have the right to be paid back by me for all of its costs and expenses in enforcing this Note to the extent not prohibited by applicable law. Those expenses include, for example, reasonable attorneys' fees.

8. GIVING OF NOTICES

Unless applicable law requires a different method, any notice that must be given to me under this Note will be given by delivering it or by mailing it by first class mail to me at the Property Address above or at a different address if I give the Note Holder a notice of my different address.

Any notice that must be given to the Note Holder under this Note will be given by delivering it or by mailing it by first class mail to the Note Holder at the address stated in Section 3(A) above or at a different address if I am given a notice of that different address.

9. OBLIGATIONS OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each person is fully and personally obligated to keep all of the promises made in this Note, including the promise to pay the full amount owed. Any person who is a guarantor, surety or endorser of this Note is also obligated to do these things. Any person who takes over these obligations, including the obligations of a guarantor, surety or endorser of this Note, is also obligated to keep all of the promises made in this Note. The Note Holder may enforce its rights under this Note against each person individually or against all of us together. This means that any one of us may be required to pay all of the amounts owed under this Note.

10. WAIVERS

I and any other person who has obligations under this Note waive the rights of Presentment and Notice of Dishonor. "Presentment" means the right to require the Note Holder to demand payment of amounts due. "Notice of Dishonor" means the right to require the Note Holder to give notice to other persons that amounts due have not been paid.

11. UNIFORM SECURED NOTE

This Note is a uniform instrument with limited variations in some jurisdictions. In addition to the protections given to the Note Holder under this Note, a Mortgage, Deed of Trust, or Security Deed (the "Security Instrument"), dated the same date as

Doc# 1735486
Bk# 2405 Pg# 1106

this Note, protects the Note Holder from possible losses which might result if I do not keep the promises which I make in this Note. That Security Instrument describes how and under what conditions I may be required to make immediate payment in full of all amounts I owe under this Note. Some of those conditions are described as follows:

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law. Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender may also require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless Lender releases Borrower in writing.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

12. DOCUMENTARY TAX

The state documentary tax due on this Note has been paid on the mortgage securing this indebtedness.

The Borrower shall keep the Property in good repair and shall not commit waste or permit impairment or deterioration of the Property and shall comply with the provisions of the Ground Lease and Parcel Sublease. If this Mortgage is on a unit in a condominium or a planned unit development, the Borrower shall perform all of the Borrower's obligations under the declaration or covenants creating or governing such condominium or planned unit development, the by-laws and regulations of the condominium or planned unit development, and constituent documents.

6. Protection of Lender's Security. If the Borrower fails to perform the covenants and agreements contained in this Mortgage, the First Mortgage, the Ground Lease or the Parcel Sublease, or if any action or proceeding is commenced that materially affects the Lender's interest in the Property, then the Lender, at the Lender's option upon notice to the Borrower,

may make such appearances, disburse such sums, including reasonable attorney's fees, and take such action as is necessary to protect the Lender's interest in the Property.

Any amounts disbursed by the Lender pursuant to this Paragraph 6, with interest thereon, at the rate of twelve percent (12%) per annum, shall become additional indebtedness of the Borrower secured by this Mortgage (subject to the terms of the Ground Lease). Unless the Borrower and the Lender agree to other terms of payment, such amounts shall be payable upon notice from the Lender to the Borrower requesting payment thereof. Nothing contained in this Paragraph 6 shall require the Lender to incur any expense or take any action hereunder.

Doc# 1657885
Bk# 2314 Pg# 2018

7. Inspection. The Lender may make or cause to be made reasonable entries upon the inspections of the Property, provided that the Lender shall give Borrower notice prior to any such inspection specifying reasonable cause therefor to the Lender's interest in the Property.

8. Condemnation. The proceeds of any award or claim for damages, direct or consequential, in connection with any condemnation or other taking of the Property, or part thereof, or for conveyance in lieu of condemnation, are hereby assigned and shall be paid to the Lender, subject to the terms of the Ground Lease and any mortgage, deed of trust or to the security agreement with a lien that has priority over this Mortgage.

9. Borrower Not Released; Forbearance by Lender Not a Waiver. Any forbearance by the Lender in exercising any right or remedy hereunder, or otherwise afforded by applicable law, shall not be a waiver of or preclude the exercise of any such right or remedy. Borrower shall remain liable for full payment of the principal and interest on the Note (or any advancement or obligation) secured by this Mortgage notwithstanding either of the following: (a) the surrender, termination, cancellation, material modification, alteration, amendment, or sublease of the Ground Lease or Parcel Sublease; (b) the sale of all or a part of the premises by Monroe County, or assignment of Ground Lease by Park Village, LLC.

10. Successors and Assigns Bound; Joint and Several Liability; Co-Signers. The covenants and agreements herein contained shall bind, and the rights hereunder shall inure to, the respective successors and assigns for the Lender and the Borrower, subject to the provisions of Paragraph 15 hereof. If more than one Borrower executes this Mortgage, all covenants, representations, warranties and agreements of Borrower shall be joint and several. Any Borrower who co-signs this Mortgage, but does not execute the Note: (a) is co-signing this Mortgage only to mortgage, grant and convey that Borrower's interest in the Property to the Lender under the terms of this Mortgage, (b) is not personally liable on the Note or under this Mortgage, and (c) agrees that Lender and any other Borrower hereunder may agree to extend, modify, forbear, or make any other accommodations with regard to the terms of this Mortgage or the Note without the Borrower's consent and without releasing that Borrower or modifying this Mortgage as to that Borrower's interest in the Property.

11. Notice. Except for any notice required under applicable law to be given in another manner: (a) any notice of the Borrower provided for in this Mortgage shall be given by delivering it or by mailing such notice by certified or registered mail, postage prepaid, addressed to the Borrower at the Property Address or at such other address as the Borrower may designate by notice to the Lender as provided herein, and (b) any notice to the Lender and/or the Federal National Mortgage Association ("Fannie Mae") shall be given by certified or registered mail, postage prepaid, and if to the Lender at the Lender's address stated on page 1 hereof with a copy to Servicer, if to Fannie Mae, addressed to 950 East Paces Ferry Road, Atlanta, Georgia 31326, Attention: Loan Administration, or to such other address as the Lender may designate by notice to the Borrower as provided herein. Any notice provided for in this Mortgage shall be deemed to have been given to the Borrower or the Lender when given in the manner designated herein.

12. Governing Law; Severability; Costs. This Mortgage shall be governed by the laws of the State of Florida, and, to the extent applicable hereto, the laws and regulations of the United States of America. In the event that any provision or clause of this Mortgage or the Note

Bk# 2314 Pg# 2019

13. Borrower's Copy. Borrower shall be furnished a conformed copy of the Note and of this Mortgage at the time of execution or after recordation hereof.

14. Rehabilitation Loan Agreement. Borrower shall fulfill all of Borrower's obligations under any home rehabilitation, improvement, repair, or other loan agreement that Borrower enters into with the Participant, the Lender, at the Lender's option, may require Borrower to execute and deliver to the Lender, in a form acceptable to the Lender, as assignment of any rights, claims or defenses that Borrower may have against parties who supply labor, materials or services in connection with improvements made to the Property.

15. Transfer of the Property/No Merger of Fee Simple and Leasehold. If all or any part of the Property or any interest in it is sold, transferred, gifted or otherwise conveyed, whether by voluntary act, involuntarily, by operation of law or otherwise, or if the Borrower is divested of title by judicial sale, levy or other proceeding, or if foreclosure action is instituted against the Property, or if the First Mortgage is satisfied or refinanced, or if the Property is leased or rented, all sums secured by this Mortgage shall immediately become due and payable as provided herein.

There will be no merger of the Ground Lease, the Parcel Sublease or the leasehold estate created by the Ground Lease and Parcel Sublease with the fee or other estate in the Property by reason of any of those interests, coming into common ownership, unless Lender consents in writing. Further, if Borrower acquires any interest in the fee or any other estate to the Property, then the lien of this Mortgage will simultaneously and without further action become extended to encumber Borrower's interest in the fee or other estate in addition to remaining a lien on Borrower's leasehold estate and Borrower agrees, upon request by Lender and of no cost to Lender, to execute, acknowledge and deliver to Lender all further instruments and documents that Lender reasonably believes to be appropriate to provide further evidence of the lien of this Mortgage on such fee or other interest.

16. Surrender, Termination or Modification of Lease. Borrower will not surrender the Parcel Sublease or its leasehold estate, nor terminate or cancel the Parcel Sublease, without obtaining the prior written consent of Lender nor will borrower make or consent to or suffer any material modification, change, supplement, amendment or alteration of any terms of the Ground Lease or Parcel Sublease without obtaining the prior written consent of Lender.

17. Acceleration; Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than thirty (30) days from the date the notice is given provided in Paragraph 11 hereof within which the Borrower must pay all sums secured by this Mortgage. If Borrower fails to pay these sums prior to the expiration of this period, the Lender may invoke any remedies permitted by this Mortgage without further notice or demand on the Borrower.

18. Remedies: Except as provided in Paragraph 15 hereof, upon the Borrower's breach of any covenant or agreement of the Borrower in this Mortgage, including the covenants to pay when due any sums secured by this Mortgage, or in the event that the Borrower shall have made material misrepresentations or material omissions in his/her/their application for a SHIP Loan, the Lender, at the Lender's option, may declare all of the sums secured by this Mortgage to be immediately due and payable without further demand and may foreclose this Mortgage by judicial proceeding. Prior to taking any defaults action including acceleration of this Mortgage, the Lender shall give notice to the Senior Lien Holder and to the Borrower as provided in Paragraph 11 hereof specifying (1) the breach (if the breach is curable; (2) the action required to cure such breach; (3) a date, not less than ten (10) days form the date the notice is mailed to Borrower, by which such breach must be cured; and (4) that failure to cure such breach on or before the date specified in the notice may result in acceleration of the sums secured by this Mortgage, foreclosure by judicial proceeding, and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to assert in the foreclosure proceeding the nonexistence of a default or any other defensive of Borrower to acceleration and foreclosure. Subject to the terms of the Ground Lease, the Lender shall be entitled to collect in such proceeding all expenses of foreclosure, including, but not limited to, reasonable attorneys' fees, court costs, and costs of documentary evidence,

documentary evidence, abstracts and title reports.

19. Borrower's Right to Reinstate. Notwithstanding the Lender's acceleration of the sums secured by this Mortgage due to the Borrower's breach, the Borrower shall have the right to have any proceedings begun by the Lender to enforce this Mortgage discontinued at any time prior to entry of a judgment enforcing this Mortgage if: (a) the Borrower pays the Lender all sums that would be then due under this Mortgage and the Note had no acceleration occurred; (b) the Borrower cures all breaches of any other covenants or agreements of the Borrower contained in this Mortgage; (c) the Borrower pays all reasonable expenses incurred by the Lender in enforcing the covenants and agreements of the Borrower contained in this Mortgage, and in enforcing the Lender's remedies as provided in Paragraph 18 hereof, including, but not limited to, reasonable attorneys' fees and court costs; and (d) the Borrower takes such action as the Lender may reasonably require to assure that the lien of this Mortgage, the Lender's interest in the Property and the Borrower's obligation to pay the sums secured by this Mortgage shall continue unimpaired. Upon such payment and cure by the Borrower, this Mortgage and the obligations secured hereby shall remain in full force and effect as if no acceleration had occurred.

Doc# 1657885
Bk# 2314 Pg# 2020

20. Assignment of Rents; Appointment of Receiver. As additional security hereunder, the Borrower hereby assigns to the Lender the rents of the Property, provided that the Borrower shall, prior to acceleration under Paragraph 17 hereof or abandonment of the Property, have the right to collect and retain such rents as they become due and payable.

Upon acceleration under Paragraph 17 hereof or abandonment of the Property, the Lender shall be entitled to have a receiver appointed by a court to enter upon, take possession of and manage the Property and to collect the rents of the Property including those past due, subject to the terms of the Ground Lease. All rents collected by the receiver shall be applied first to the payment of the costs of management of the Property and collection of rents, including, but not limited to, receiver's fees, premiums on receiver's bonds and reasonable attorneys' fees, and then to the sum secured by this Mortgage. The receiver shall be liable to account only for those rents actually received.

21. Release. Upon payment of all sums secured by this Mortgage, Lender shall release this Mortgage without charge to Borrower. Borrower shall pay all costs of recordation, if any.

22. Attorneys' Fees. As used in this Mortgage and in the Note, "attorneys' fees" shall include attorneys' fees, if any, incurred in connection with the collection or enforcement of this Mortgage or of the Note, whether or not suit is brought and whether incurred at trial, on appeal, in bankruptcy proceedings or otherwise.

23. Special SHIP Program Covenants, Representations. The Borrower covenants, represents, and warrants to the Lender that; (a) the Borrower along with his/her/their/ family, intends to reside as a household in the Property; (b) the Property is a single-family residence; (c) the Borrower's total annual family income at the time of its application for the Loan did not exceed the income limit by family size for eligibility to participate in the SHIP Program, (d) at least three percent (3%) of the required down payment must be paid by the Borrower from his or her own resources.

24. Principal Payment. Lender shall give the Borrower the right to negotiate a repayment schedule for 90 days after the last payment is due on the First Mortgage for all sums secured by this Mortgage that have been deferred. The terms and conditions of the repayment schedule negotiated after the last payment is due on the First Mortgage shall provide for a below market interest rate, a term for up to thirty (30) years, a principal and interest not to exceed the original First Mortgage principal and interest payment and such payment of principal and interest when combined with real-estate taxes and property insurance shall not exceed twenty five percent (25%) of the household income.

25. Ground Lease Limitations. Borrower and Lender acknowledge the following limitations set forth in the Ground Lease:

a. The First Leasehold Mortgage and the SHIP Leasehold Mortgage encumbering the Property together shall not exceed ONE HUNDRED PERCENT (100%) of the maximum allowable sales price of the Property as set forth in the Affordable Restrictions (as defined in the Ground Lease).

b. The terms of the note, which is secured by this Leasehold Mortgage, shall not result in negative amortization unless approved by Monroe County.

c. Lender and any purchaser at foreclosure shall comply with the provisions of the Ground Lease.

d. Borrower and Lender acknowledge the terms set forth in Section 15.02(e) of the Ground Lease, which provide for an irrevocable assignment to Monroe County (or its assigns) of any and all net proceeds from the sale of any interest in the Property remaining after payment of costs of foreclosure and satisfaction of this Leasehold Mortgage to the extent such net proceeds exceed the net proceeds that Borrower would have received had the interests been sold pursuant to the Affordable Restrictions (as defined in the Ground Lease).

1. **BORROWER'S PROMISE TO PAY**
I, ERIC DEFILIPPO, a married man, promise to pay **FORTY FIVE THOUSAND DOLLARS AND NO CENTS ($45,000.00)** (this amount will be called "principal") to the order of the COUNTY OF MONROE, as agency and instrumentality of the State of Florida, whose address is Monroe County Courthouse, 500 Whitehead Street, Key West, Florida 33040 (the "Lender,") or to any other holder of this Note. I understand that the Lender may transfer this Note. The Lender or anyone who takes this Note by transfer and who is entitled to receive payments under this Note will be called the "Note Holder."

2. **INTEREST**
Interest on this Note shall be zero percent (0%) per annum; except that if I fail to pay this Note as required, the interest rate shall be twelve percent (12%) per annum from the date when payment of this Note is due until I pay it in full.

3. **PAYMENTS**
Principal payments shall be deferred for the term of the first mortgage loan or until the 10th **day of August, *2037*.** My total payment on the aforementioned date shall be **FORTY FIVE THOUSAND DOLLARS AND NO CENTS *($45,000.00)*.** In the event that I rent my home or refinance or satisfy the first mortgage loan, I agree to pay immediately the entire sum due under this Note. In the event that I sell or transfer the property, I agree to pay the sum due under this Note. I will make my payment at Lender's address as stated in Section I above or at a different place if required by the Note Holder.

4. **BORROWER'S PAYMENT BEFORE THEY ARE DUE**
I have the right to make payment in full on this Note at any time before it is due. Such payment is known as a "full payment." No partial prepayments can be made at any time on the principal of the loan. When I make full prepayment, I will tell the Note Holder in a letter that I am doing so.

5. **BORROWER'S FAILURE TO PAY AS REQUIRED**
(A) Default
If I do not pay the full amount as required in Section 3 above, I will be in default. If I am in default, the Note Holder may bring about any actions not prohibited by applicable law and require me to pay Holder's cost and expenses as described in (B) below.

(B) Payment of Note Holder's Costs and Expenses
If the Note Holder takes such actions as described above, the Note Holder will have the right to be paid back for all of its cost and expenses, including but not limited to reasonable attorney's fees.

6. **THIS NOTE SECURED BY A MORTGAGE**
In addition to the protections given to the Note Holder under this Note, a Second Leasehold Mortgage, dated **August** 10th, ***2007*** protects the Note Holder from possible losses that might result if I do not keep the promises that I make in this Note. That Second Leasehold Mortgage describes how and under what conditions I may be required to make immediate payment in full of all amounts that I owe under this Note.

7. BORROWER'S WAIVER

I waive my rights to require the Note Holder to do certain things. Those things are: (A) to demand payment of amount due (known as "presentment"); (B) to give notice that amounts have not been paid (known as "notice of dishonor"); (C) to obtain an official certification of nonpayment (known as a "protest.") Any co-signer, guarantor, surety or endorser who agrees to keep the promises I have made in this Note by signing this Note or by executing a separate agreement to make payments to the Note Holder if I fail to keep my promises under this Note also waives these rights.

8. GIVING OF NOTICES

A notice will be mailed to the Note Holder at a different address if I am given a notice of that different address.

9. RESPONSIBILITY OF PERSONS UNDER THIS NOTE

If more than one person signs this Note, each of us is fully and personally, jointly and severally, obligated to pay the full amount owed and to keep all of the promises made in this Note. Any guarantor, surety or endorser of this Note (as described in Section 7 above) is also obligated to do these things. The Note Holder may enforce its rights under this Note against each of us individually or against all of us together and may enforce its rights against any of us in any order. It is not the intention of either party that this escrow provision, and/or Lender's endorsement or execution of an instrument(s) and/or document(s) on behalf of Borrower create a fiduciary or agency relationship between Lender and Borrower.

Borrower shall comply with the provisions of the Ground Lease and Parcel Sublease. Any amounts disbursed by Lender pursuant to this section 6, with interest thereon from the date of disbursal, at the Note rate, shall become additional indebtedness of Borrower secured by this Mortgage (subject to the terms of the Ground Lease) unless Borrower and Lender agree to other terms of payment, such amounts shall be payable upon notice from Lender to Borrower requesting payment thereof. Nothing contained in this section 6 shall

Bk# 2314 Pg# 2003

9. **Borrower Not Released; Forbearance By Lender Not a Waiver.** Borrower shall remain liable for full payment of the principal and interest on the Note (or any advancement or obligation) secured by this Leasehold Mortgage notwithstanding any of the following: (a) the surrender, termination, cancellation, material modification, alteration, amendment, or sublease of the Ground Lease or Parcel Sublease; (b) the sale of all or a part of the premises by Monroe County, or assignment of Ground Lease by Park Village, LLC (c) the assumption by another party of Borrower's obligations hereunder; (d) the forbearance or extension of time for payment or performance of any obligation hereunder, whether granted to Borrower or a subsequent lessee of the Property; and (e) the release of all or any part of the premises securing said obligations or the release of any party who assumes payment of the same. None of the foregoing shall in any way affect the full force and effect of the lien of this Mortgage or impair Lender's right to a deficiency judgment (in the event of foreclosure) against Borrower or any party assuming the obligations hereunder to the extent permitted by applicable law. Any forbearance by Lender in exercising any right or remedy hereunder or otherwise afforded by applicable law, shall not be a waiver of or preclude the exercise of any such right or remedy.

10. **Successors and Assigns Bound; Joint and Several Liability; Co-signers.** Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Mortgage but does not execute the Note (a "co-signer"); (a) is co-signing this Mortgage only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Mortgage, (b) is not personally obligated to pay the sums secured by this Mortgage; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Mortgage or the Note without the co-signer's consent.

Any Successor in interest of Borrower who assumes Borrower's obligations under this Mortgage in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Mortgage. Borrower shall not be released from Borrower's obligations and liability under this Mortgage unless Lender agrees to such release in writing. The covenants and agreements of this Mortgage shall bind and benefit the successors and assigns of Lender.

11. **Notice.** Except for any notice required under applicable law to be given in another manner, (a) any notice to Borrower provided for in the Mortgage shall be given by delivering it or by mailing such notice by first class mail addressed to borrower or the current owner at the Property Address or at such other address as Borrower may designate in writing by notice to Lender as provided herein, and any other persons personally liable on the Notes as their names and addresses appear in Lender's records at the time of giving notice and (b) any notice to Lender shall be given by first class mail to Lender's address at Orion Bank, P.O. Box 413040, Naples, FL 34101-3040 or to such other address as Lender may designate by notice to Borrower as provided herein. Any notice provided for in this Mortgage shall be deemed to have been given to Borrower or Lender when given in the manner designated herein.

BkH 2314 PgH 2004

15. **No Merger of Fee Simple and Leasehold.** There will be no merger of the Ground Lease, the Parcel Sublease or the leasehold estate created by the Ground Lease and Parcel Sublease with the fee or other estate in the Property by reason of any of those interests, coming into common ownership, unless Lender consents in writing. Further, if Borrower acquires any interest in the fee or any other estate to the Property, then the lien of this Mortgage will simultaneously and without further action become extended to encumber Borrower's interest in the fee or other estate in addition to remaining a lien on Borrower's leasehold estate and Borrower agrees, upon request by Lender and of no cost to Lender, to execute, acknowledge and deliver to Lender all further instruments and documents that Lender reasonably believes to be appropriate to provide further evidence of the lien of this Mortgage on such fee or other interest.

16. **Surrender, Termination or Modification of Lease.** Borrower will not surrender the Parcel Sublease or its leasehold estate, nor terminate or cancel the Parcel Sublease, without obtaining the prior written consent of Lender nor will borrower make or consent to or suffer any material modification, change, supplement, amendment or alteration of any terms of the Ground Lease or Parcel Sublease without obtaining the prior written consent of Lender.

17. **Default; Acceleration; Remedies.** Upon Borrower's breach of any covenant or agreement of borrower in this entire Mortgage, including the covenants to pay when due any sums under the Note secured by this Mortgage, Lender, at Lender's option, may declare all of the sums secured by this Mortgage to be immediately due and payable without demand of notice, notice of the exercise of such option being hereby expressly waived. Lender shall have the right to enter upon and take possession of the Property, collect therefrom rentals and after deducting all costs of collection and administrative expense, apply the net rental to any or all of the following in such order and amounts as Lender, in Lender's sole discretion, may elect; first, to the payments of any sums due under any prior lien; second, to the payment of any amounts that may have been expended or that may then be necessary to expend in paying insurance, taxes and other encumbrances, with interest thereon; third, to the payment in full of the principal indebtedness and interest thereon, whether the same shall or shall not have fully matured at the date of said default, but no interest shall be collected beyond the date of said default; and fourth, the balance, if any, shall be paid over to Borrowers or to whomever then appears of record to be the leaseholder of said Property subject to the terms of the Ground Lease. The taking of possession and collection of rents by Lender shall not be construed to be an affirmation of the Parcel Sublease of all or any portion of the Property.

18. **Borrower's Right to Reinstate.** Notwithstanding Lender's acceleration of the sums secured by this Mortgage, borrower shall have the right to have any proceedings begun by Lender to enforce this Mortgage discontinued if: (a) Borrower pays Lender all sums which then would be due under this Mortgage, the Note and Notes securing Future Advances, if any, had no acceleration occurred, (b) Borrower cures all breaches of any other covenants or agreements of Borrower contained in this Mort... (c) P...

19. **Assignment of Rent; Appointment of Receiver.** As additional security hereunder, Borrower hereby assigns to Lender the rents of the Property, provided that so long as Borrower is not in default hereunder, Borrower shall, prior to acceleration under section 17 hereof or abandonment of the Property, have the right to collect and retain such rents as they become due and payable.

Upon acceleration and/or an event of default under section 17 hereof, or abandonment of the Property, Lender , in person or by agent, shall have the right, but not the duty, subject to the terms of the Ground Lease, to enter upon, take possession of and manage the Property and to collect the rents of the Property including those past due.

20. **Late Charges.** If the loan secured by this Mortgage is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the loan exceed permitted limits, then; (a) any such loan charges shall be reduced by the amount necessary to reduce the charge to the permitted limit and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by mailing a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial repayment under the Note.

21. **Legislation.** If, after the date hereof, enactment or expiration of applicable laws have the effect either of rendering the provisions of the Note, this Mortgage or any Rider, unenforceable according to their terms, or all or any part of the sums secured hereby uncollectible, as otherwise provided in this Mortgage or the Note, or of diminishing the value of Lender's security, then Lender, at Lender's option, may declare all sums secured by this Mortgage to be immediately due and payable.

22. **Satisfaction.** Upon payment of all sums secured by this Mortgage, the conveyance of the Property pursuant to this Mortgage shall become null and void and Lender shall release this Mortgage. Borrower shall pay all costs of recordation, if any. Lender, at Lender's option, may allow a partial release of the Property on terms acceptable to Lender and Lender may charge a release fee.

23. **Hazardous Substances.** Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances on or in the Property. Borrower shall not do, not allow anyone else to do anything affecting the Property that is in violation of any Environmental Law. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property.

Borrower shall promptly give Lender written notice of any investigation, claim, demand, lawsuit, or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge. If Borrower learns, or is notified by any governmental or regulatory authority, that any removal, or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law.

As used in this section 23, "Hazardous Substances" are those substances defined as toxic or hazardous substances by Environmental Law and the following substances:

Borrower and Lender request the holder of any mortgage, deed of trust or other encumbrance with a lien which has priority over this Mortgage to give Notice to Lender at Orion Bank, P.O. Box 413040, Naples, FL 34101-3040 of any default under the superior encumbrance and of any sale or other foreclosure action.

Bk# 2314 Pg# 2006

24. **Receiver.** At any time after the occurrence of any event of default, Lender shall be entitled at its option to the appointment of a receiver of the Property. Such appointment may be made without notice, without regard to the solvency or insolvency of Borrower at the time of application for such receiver and without regard to the value of the Property. Lender may be appointed as such receiver.

25. **Indemnity With Respect to Property Covered By this Mortgage.** Borrower will indemnify and save and hold Lender, and its directors, officers and employees, and each person, if any, who controls Lender (each such director, officer, employee and control person is referred to herein as an "indemnitee"), and any other agent of Lender harmless from and against any and all claims, damages, losses, liabilities, judgments or expenses (including all reasonable fees and disbursements of counsel with whom any of them may consult in connection therewith and all reasonable expenses of litigation or preparation therefore) which may be incurred or sustained by or asserted against any of them, directly or indirectly, in connection with the existence or exercise of any of Lender's rights with respect to the Property covered by this Mortgage; provided, however, that the foregoing shall not extend to any such claim, damage, loss, liability, judgment or expense caused by or resulting from any gross negligence, willful misconduct or action not taken in good faith by Lender or any other indemnitee.

26. **Bankruptcy.**

a) Borrower acknowledges that pursuant to Section 365 of the Bankruptcy Code, Title II, United States Code (as the same may be amended or recodified from time to time, the "Bankruptcy Code"), it is possible that a trustee in bankruptcy of Monroe County or Park Village, LLC, or Monroe County or Park Village, LLC as a debtors-in-possession, could reject the Ground Lease or Parcel Sublease, in which case Borrower as tenant would have the election described in Section365 (h)(1) of the Bankruptcy Code as currently in effect (which election, as it may be amended, revised or recodified from time to time, and together with any comparable right under any other state or federal law relating to the bankruptcy, reorganization or other relief for debtors, whether now or hereafter in effect, is called the "Election") to treat the Ground Lease and Parcel Sublease as terminated by such rejection or, in the alternative, to remain in possession for the balance of the term of the Parcel Sublease and any renewal or extension thereof that is enforceable by the tenant under applicable non-bankruptcy law.

b) Borrower agrees to the extent permitted by law, not to permit termination of the Ground Lease or Parcel Sublease by exercise of the Election without the prior written consent of Lender. In order to secure this covenant and as security for the Note, Borrower assigns the Election to Lender. Borrower acknowledges and agrees that this assignment of the Election is one of the rights which Borrower may use at any time in order to protect and preserve the other rights and interests of Borrower under this Mortgage.

c) Borrower acknowledges and agrees that the Election is in the nature of a remedy and is not a Property interest which Borrower can separate from the Ground Lease or Parcel Sublease. Therefore, Borrower agrees that exercise of the Election in favor of

Each monthly payment will be applied as of its scheduled due date and will be applied to interest before Principal. If, on September 1st, 2037, I still owe amounts under this Note, I will pay those amounts in full on that date, which is called the "Maturity Date."

I will make my monthly payments at 2150 Goodlette Rd. , North Naples, FL 34101-3040 or at a different place if required by the Note Holder.

(B) Amount of My Initial Monthly Payments

Each of my initial monthly payments will be in the amount of U.S. $1,587.80. This amount may change.

(C) Monthly Payment Changes

Changes in my monthly payment will reflect changes in the unpaid principal of my loan and in the interest rate that I must pay. The Note Holder will determine my new interest rate and the changed amount of my monthly payment in accordance with Section 4 of this Note.

4. ADJUSTABLE INTEREST RATE AND MONTHLY PAYMENT CHANGES

(A) Change Dates

The initial fixed interest rate I will pay will change to an adjustable interest rate on the first day of September 2014, and the adjustable interest rate I will pay may change on that day every 12th month thereafter.

The date on which my initial fixed interest rate changes to an adjustable interest rate, and each date on which my adjustable interest rate could change, is called a "Change Date."

(B) The Index

Beginning with the first Change Date, my adjustable interest rate will be based on an Index. The "Index" is the average of interbank offered rates for one-year U.S. dollar-denominated deposits in the London market ("LIBOR"), as published in *The Wall Street Journal*. The most recent Index figure available as of the date 45 days before each Change Date is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information. The Note Holder will give me notice of this choice.

(C) Calculation of Changes

Before each Change Date, the Note Holder will calculate my new interest rate by adding TWO AND 250/1000 percentage points (2.250 %) to the Current Index. The Note Holder will then round the result of this addition to the nearest one-eighth of one percentage point (0.125%). Subject to the limits stated in Section 4(D) below, this rounded amount will be my new interest rate until the next Change Date.

The Note Holder will then determine the amount of the monthly payment that would be sufficient to repay the unpaid principal that I am expected to owe at the Change Date in full on the Maturity Date at my new interest rate in substantially equal payments. The result of this calculation will be the new amount of my monthly payment.

(D) Limits on Interest Rate Changes

The interest rate I am required to pay at the first Change Date will not be greater than 11.875 % or less than 2.250 %. Thereafter, my adjustable interest rate will never be increased or decreased on any single Change Date by more than two percentage points from the rate of interest I have been paying for the preceding 12 months. My interest rate will never be greater than 11.875 %.

(E) Effective Date of Changes

My new interest rate will become effective on each Change Date. I will pay the amount of my new monthly payment beginning on the first monthly payment date after the Change Date until the amount of my monthly payment changes again.

(F) Notice of Changes

The Note Holder will deliver or mail to me a notice of any changes in my initial fixed interest rate to an adjustable interest rate and of any changes in my adjustable interest rate before the effective date of any change. The notice will include the amount of my monthly payment, any information required by law to be given to me and also the title and telephone number of a person who will answer any question I may have regarding the notice.

5. BORROWER'S RIGHT TO PREPAY

I have the right to make payments of Principal at any time before they are due. A payment of Principal only is known as a "Prepayment." When I make a Prepayment, I will tell the Note Holder in writing that I am doing so. I may not designate a payment as a Prepayment if I have not made all the monthly payments due under this Note.

I may make a full Prepayment or partial Prepayments without paying any Prepayment charge. The Note Holder will use my Prepayments to reduce the amount of Principal that I owe under this Note. However, the Note Holder may apply my Prepayment to the accrued and unpaid interest on the Prepayment amount before applying my Prepayment to reduce the Principal amount of this Note. If I make a partial Prepayment, there will be no changes in the due dates of my monthly payments unless the Note Holder agrees in writing to those changes. My partial Prepayment may reduce the amount of my monthly payments after the first Change Date following my partial Prepayment. However, any reduction due to my partial Prepayment may be offset by an interest rate increase.

6. LOAN CHARGES

If a law, which applies to this loan and which sets maximum loan charges, is finally interpreted so that the interest or other loan charges collected or to be collected in connection with this loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from me that exceeded permitted limits will be refunded to me. The Note Holder may choose to make this refund by reducing the Principal I owe under this Note or by making a direct payment to me. If a refund reduces Principal, the reduction will be treated as a partial Prepayment.

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

(B) When my initial fixed interest rate changes to an adjustable interest rate under the terms stated in Section 4 above, Uniform Covenant 18 of the Security Instrument described in Section 11(A) above shall then cease to be in effect, and Uniform Covenant 18 of the Security Instrument shall instead read as follows:

Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law. Lender also shall not exercise this option if: (a) Borrower causes to be submitted to Lender information required by Lender to evaluate the intended transferee as if a new loan were being made to the transferee; and (b) Lender reasonably determines that Lender's security will not be impaired by the loan assumption and that the risk of a breach of any covenant or agreement in this Security Instrument is acceptable to Lender.

To the extent permitted by Applicable Law, Lender may charge a reasonable fee as a condition to Lender's consent to the loan assumption. Lender also may require the transferee to sign an assumption agreement that is acceptable to Lender and that obligates the transferee to keep all the promises and agreements made in the Note and in this Security Instrument. Borrower will continue to be obligated under the Note and this Security Instrument unless Lender releases Borrower in writing.

If Lender exercises the option to require immediate payment in full, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

RE: Mallory Square Sunshades (Public Facilities Category)
Contract ID# 2485; $167,890 in capital funding
Request to Rescind Grant Award Agreement

Dear District I Advisory Committee:

The City of Key West respectfully requests to rescind Contract ID# 2485 for the Mallory Square Sunshades (Public Facilities Category) Project to allow for additional time to complete the Mallory Square Master Plan, develop a scope of work that is incorporated into the master plan, complete the design phase, and transition into the construction phase. The City will reapply for capital funding at that time, which we anticipate to be approximately two years from now.

The City is fully committed to developing the Mallory Square Master Plan, which will include improving shaded areas at the square to improve the comfort of visitors and residents alike. The Tourism Impact Study was performed and the City reimbursed, but the master plan is not yet complete. The requested amount to be rescinded is $155,890 ($167,890 less $12,000.00 for the Tourism Impact Study).

Thank you for your consideration to rescind Contract ID# 2485 which will allow for more immediate use of the funding towards the many worthwhile projects that help make District I an even better place. We recognize that the funding allocated to this project is from FY 2021 and we are grateful for the support provided and patience shown by DAC I and TDC.

We look forward to the opportunity to partner with you in the future on this important project.

If you have any questions, please contact me at (305) 809-3741 or via email csheldon@cityofkeywest-fl.gov.

Sincerely,

Carolyn D. Sheldon

1. GRANT AGREEMENT PERIOD. This agreement is for the period of March 17, 2021 through to April 30, 2022. If the Grantee has already complied with this requirement through previous funding, said acknowledgement fulfills this condition. A photograph of said acknowledgment shall be provided with the final request for reimbursement outlined in Exhibit A of this agreement.

a.) There shall be a project manager to acknowledge receipt of goods or work performed. This Project Manager shall be Steve McAlearney (Telephone: (305) 809-3747; Email: smcalearney@cityofkeywest-fl.gov; csheldon@cityofkeywest-fl.gov). Should there be a change in the project manager specified in the Grantee's application, a new project manager shall be designated, and notice with new contact information shall be provided in writing to the TDC administrative office.

b.) If, and to the extent that, Grantee contracts for any of the work funded under this agreement to be performed or completed, Grantee shall give notice to County of the contractual relationship, provide County with a copy of any and all contracts and shall require the contractor(s) to comply with all the terms of this contract. Should Grantee contract the work and then decrease the scope of work to be performed by a contractor, Grantee shall provide County with an amended contract executed by Grantee and its contractor.

(i) A Grantee which is a governmental entity shall comply with the procurement regulations and policies to which it is subject, and shall provide Grantor documentation of the procurement requirements applicable to the project and compliance therewith.

(ii) A Grantee which is a not-for-profit entity shall use procurement processes for those parts of the project to be contracted (not performed by the entity's employees) as follows. For work expected to be under $50,000, the not-for-profit shall document in the file three written quotes or a notarized statement

as to why such written quotes were not feasible for the goods or services. For work expected to be $50,000 or more, a competitive bid process must be performed following Monroe County's procurement policies and procedures, unless the commodities or services will be provided by a "sole source" provider, in which case the not-for-profit must submit a notarized statement with its request for payment explaining why the vendor is the only source for the commodities or services. Refer to: https://www.monroecounty-fl.gov/DocumentCenter/View/23168/PURCHASING-POLICY--3-18-2020

c.) Grantee shall exercise good internal controls to assure that the project as described in the funding application shall be completed on a timely basis within the proposed budget and shall provide to County any certifications, including those by the architect, engineer, contractor or an independent consultant if necessary, required to establish that materials which are purported to be applied to the project are in fact so applied. Further verification shall be required to show that equipment and other fixtures and personal property covered by this agreement are delivered to and installed in the project site. When any permit is required by any governmental agency, copies of plans and other documents which are submitted to the applicable agency shall be submitted to the County Engineering Division to enable verification that the scope of services under this agreement has been provided.

3. AMOUNT OF AGREEMENT AND PAYMENT. The Grantor shall provide an amount not to exceed **$167,890** (One Hundred Sixty-Seven Thousand Eight Hundred and Ninety Dollars TDC District I funding) for materials and services used to improve the property. Reimbursement request must show that Grantee has paid in full for materials and services relating to the segment prior to seeking reimbursement from Grantor. Payment of segment 1 shall be 100% (one hundred percent) reimbursement of the total cost of the segment, subject to the cap on expenditures for that segment as set forth in Exhibit A. Payment of segment 2 shall be 70% (seventy percent) reimbursement of the total cost of the segment, subject to the cap on expenditures for that segment as set forth in Exhibit A. Reimbursement can be sought after each segment of the agreement is completed and signed by the Monroe County Engineering Department as outlined in 3.a. The Board of County Commissioners and the Tourist Development Council assume no liability to fund this agreement for an amount in excess of this award. Monroe County's performance and obligation to pay under this agreement is contingent upon an annual appropriation by the BOCC.

a.) Payment shall be made upon the completion of a specific segment as outlined in the Scope of Services and Exhibit A. Payment for expenditures permissible by law and County policies shall be made through reimbursement to Grantee upon presentation of Application for Payment Summary, invoices, canceled checks, before and after pictures, County Project Manager signature of inspection and other documentation necessary to support a claim for reimbursement. Included in said documentation shall be proof that the Grantee has received the property, real or personal, for each segment of agreement as outlined in Exhibit A and paid an amount equal to or greater than the amount invoiced to the Grantor. It shall be necessary for the Grantee to contact the County Engineering Division (Steven Sanders- phone:

305-295-4338 email: Sanders-Steven@MonroeCounty-Fl.gov or Cary Knight- phone: 305-292-4527 email: Knight-Cary@MonroeCounty-Fl.gov) and to arrange for inspection upon the completion of each segment. It shall be the responsibility of the project manager to initiate the communication with the Monroe County Engineering Division to facilitate the inspection of the segment of the project. The application for payment document must be certified through a statement signed by an officer of the organization and notarized, declaring that representations in the invoice are true and factual.

All payment requests must be submitted to the TDC administrative office no later than **April 30, 2022**. Invoices received by the TDC administrative office after **April 30, 2022** will not be considered for payment.

b.) If in-kind services were noted within your application, and you are applying them to this project, documentation shall be submitted to the TDC Administrative Office to show the receipt and application of in-kind donations of goods, professional services, and materials. Said documentation should include invoices, bills of lading, etc., and be verified as received and applied to the project through a notarized statement of the project manager and said documentation submitted to the TDC Administrative Office. All submissions shall identify the items included in Exhibit A and Grantee shall complete the Application for Payment form which is provided within the payment/reimbursement packet. This document should be signed by the project manager.

The Project Manager shall certify delivery to the project site and installation therein of any goods or services provided other than through an architect, engineer or contractor. All work performed and goods received on site and incorporated into the project shall be verified by one of the foregoing. Submission of any documentation which is untrue, falsified, or otherwise misrepresents the work which has been completed, paid, or donated shall constitute a breach of agreement, for which the contract may be immediately terminated at the discretion of the County, whose decision shall be final.

c.) At any time that the documentation requirement policies of Monroe County are revised, such as to require annual inventory reports for equipment purchased under a TDC capital project grant, Grantee shall comply thereafter with such increased requirements, or further funding under the agreement may be terminated by County.

d.) Upon successful completion of this Grant agreement, the Grantee may retain ownership of the real and personal property acquired and/or improved with funding under this Grant agreement. However, the Grantee shall maintain, preserve, and operate the property which was acquired or improved under this agreement for the uses and purposes which qualified the Grantee for tourist development tax funding. Grantee shall complete and sign a Property Reporting Form upon request for personal property and forward said completed form to the TDC Administrative Office. Real property acquired or improved through funding under this agreement shall remain dedicated for the purposes set forth herein or for other purposes which

promote tourism and ownership of said property shall be retained by the Grantee. The following terms shall apply:

At such time as any of the conditions in the preceding sentence shall cease to exist, the Grantee shall transfer ownership and possession of equipment and personal property to a local government or another not-for-profit organization which is a facility for which tourist development taxes may be used pursuant to Florida Statute 125.0104 with prior approval from TDC and BOCC.

(ii) At any time that the Grantee: (a) elects to stop the project or otherwise decide not to place into service for tourist-related purposes the facility acquired, constructed, or renovated with tourist development tax funding, (b) demolishes the project facility or divests itself of ownership or possession of the real property, or (c) ceases the use of the property with a primary purpose of promoting tourism, Grantee shall, pursuant to the formula set forth hereafter, refund to the County the Tourist Development funding. This provision shall survive the termination date of all other provisions of this contract for a period of ten years. Should the demolition, transfer of ownership, or change to a non-tourist related purpose occur, the amount of refund shall be pro-rated based on a useful life of ten (10) years.

(iii) The Grantee is responsible for the implementation of adequate maintenance procedures to keep the real and personal property in good operating condition.

(iv) The Grantee is responsible for any loss, damage, or theft of, and any loss, damage or injury caused by the use of, real or personal property or equipment purchased through funding under this agreement.

The Grantee shall also provide such access to the personal Property and equipment purchased under this agreement. It is the responsibility of the Grantee to maintain appropriate records in accordance with generally accepted accounting principles consistently applied to insure a proper accounting of all funds and expenditures. The Grantee understands that it shall be responsible for repayment of any and all audit exceptions which are identified by the Auditor General for the State of Florida, the Clerk of Court for Monroe County, the Board of County Commissioners for Monroe County, or their agents and representatives. If an audit determines that monies paid to the Grantee pursuant to this agreement were spent for purposes not authorized by this agreement, the Grantee shall repay the monies together with interest calculated pursuant to Sec. 55.03, F.S. running from the date the monies were paid to Grantee. In the

event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

a.) Public Access. The County and Grantee shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Grantee in conjunction with this agreement; and the County shall have the right to unilaterally cancel this agreement upon violation of this provision by Grantee.

Nothing herein shall be constructed as a consent by a state agency or subdivision of the State of Florida to be sued by third parties in any manner arising out of this agreement or any other contract. To the extent authorized by law and subject to 768.28, the Grantee hereby agrees to defend, indemnify and hold harmless the BOCC/TDC and the 3406 North Roosevelt Blvd. Corporation or any of its officers and employees from and against any and all losses, claims, liabilities, litigation, causes of action, damages, costs, expenses (including but not limited to fees and expenses arising from any factual investigation, discovery or preparation for litigation), and the payment of any and all of the foregoing or any demands, settlements or judgments in connection with any action, proceeding, or claims for injury, including death to any person or persons, or damage to, loss of the use of, or loss of tangible property of any person, firm or corporation, including the parties hereto, arising or resulting directly or indirectly out of the performance of this contract, but only to the extent caused or incurred by the negligence or other actionable fault of the Grantee or its agent. a.) Non-Waiver of Immunity. Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the County and the Grantee in this agreement and the acquisition of any commercial liability insurance coverage, self-insurance

b.) Privileges and Immunities. All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the County, when performing their respective functions under this agreement within the territorial limits of the County shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the County.

The Grantee warrants that no person has been employed or retained to solicit or secure this agreement upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, and that no employee or officer of the County or TDC has any interest, financially or otherwise, in the said funded project, except for general membership. For breach or violation of this warranty, the Grantor shall have the right to annul this agreement without liability or, in its discretion, to deduct from the

agreement price or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

12. TERMINATION. This agreement shall terminate on **April 30, 2022**. Termination prior thereto shall occur whenever funds cannot be obtained or cannot be continued at a level sufficient to allow for the continuation of this agreement pursuant to the terms herein. In the event that funds cannot be continued at a level sufficient to allow the continuation of this agreement pursuant to the terms specified herein, this agreement may then be terminated immediately by the TDC administrative office providing written notice of termination delivered in person or by mail to Grantee. The Grantor may terminate this agreement without cause upon giving written notice of termination to Grantee. The Grantor shall not be obligated to pay for any services or goods provided by Grantee after Grantee has received written notice of termination.

13. TERMINATION FOR BREACH. The Grantor may immediately terminate this agreement for any breach of the terms contained herein. Such termination shall take place immediately upon receipt of written notice of said termination. Any waiver of any breach of covenants herein contained to be kept and performed by Grantee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the Grantor from declaring a forfeiture for any succeeding breach either of the same conditions or of any other conditions. Failure to provide Grantor with certification of use of matching funds or matching in-kind services at or above the rate of request for reimbursement or payment is a breach of agreement, for which the Grantor may terminate this agreement upon giving written notification of termination.

14. ENTIRE AGREEMENT. This agreement constitutes the entire agreement of the parties hereto with respect to the subject matter hereof and supersedes any and all prior agreements with respect to such subject matter between the Grantee and the Grantor.

a.) Venue. In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this agreement, the County and Grantee agree that venue shall lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida.

b.) Severability. If any term, covenant, condition or provision of this agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the

enforcement of the remaining terms, covenants, conditions and provisions of this agreement would prevent the accomplishment of the original intent of this agreement. The County and Grantee agree to reform the agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

c.) Attorney's Fees and Costs. The County and Grantee agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, court costs, investigative, and out-of-pocket expenses in appellate proceedings.

d.) Adjudication of Disputes or Disagreements. County and Grantee agree that all disputes and disagreements shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this agreement or by Florida law. For breach or violation of the provision the Grantor may, at its discretion terminate this agreement without liability and may also, at its discretion, deduct from the agreement or purchase price, or otherwise recover, the full amount of any fee, commission, percentage, gift, or consideration paid to the former or present County officer or employee. The County and Grantee warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this agreement. RE: Mallory Square Public Restrooms (Public Facilities Category)
Contract ID# 2630; $713,387 in capital funding
Request to Rescind Grant Award Agreement

Dear District I Advisory Committee:

The City of Key West respectfully requests to rescind Contract ID# 2630 for the Mallory Square Public Restrooms (Public Facilities Category) Project to allow for additional time to complete the Mallory Square Master Plan, develop a scope of work that is incorporated into the master plan, complete the design phase, and transition into the construction phase. The City will reapply for capital funding at that time, which we anticipate to be approximately two years from now.

The City is fully committed to developing the Mallory Square Master Plan, which will include improving public restrooms at the square to better serve visitors and residents alike. The Tourism Impact Study was performed and the City reimbursed, but the master plan is not yet complete. The requested amount to be rescinded is $701,387.00 ($713,387 less $12,000.00 for the Tourism Impact Study).

Thank you for your consideration to rescind Contract ID# 2630 which will allow for more immediate use of the funding towards the many worthwhile projects that help make District I an even better place. We recognize that the funding allocated to this project is from FY 2022 and we are grateful for the support provided and patience shown by DAC I and TDC.

We look forward to the opportunity to partner with you in the future on this important project.

If you have any questions, please contact me at (305) 809-3741 or via email csheldon@cityofkeywest-fl.gov.

Sincerely,

Carolyn D. Sheldon
Senior Grants Administrator

Any delay or failure due to the causes stated shall not constitute a breach of the agreement; however, the Grantor shall have the right to determine if there will be any reduction to the amount of funds due to the Grantee after consideration of all relevant facts and circumstances surrounding the delay in performance or failure to complete the project within the contract period. RE: **Consideration and Action re: Permission to Advertise FY 2025 Destination/Turnkey Event Funding Application**

Each year the TDC Administrative office brings forward the Destination and Turnkey Event Funding Application for approval.

After discussions with the County Budget Office we have been asked to move our schedule dates forward in the year so that all allocations for the next fiscal year budget can be provided to their office by the end of June instead of our past August time frame.

Previous year's Destination/Turnkey event funding applications allowed for events to be funded on a calendar year (January through December). In order to provide both consistency with the fishing and cultural events as well as easing the burden on rolling event funding from one fiscal year to the next, this application before you has been revised for applicants to apply for their events taking place during the fiscal year they are seeking funding for. The opportunity for pre-promotion of events in the first two months of fiscal year (October/November) still can be applied for in the year before the event with funds to be spent within the fiscal year allocated.

EVENT FUNDING PROCESS

The Monroe County Tourist Development Council (TDC) administers the four (4) cent bed tax collected for the purpose of promoting the Florida Keys as a tourist destination. Each year the TDC invites applicants who are registered to do business in Florida, to apply for funding for events in the Florida Keys. All applications will be reviewed by the appropriate District Advisory Committee (DAC), who shall make recommendations on funding the events to the TDC. Upon approval of the recommended funding allocation by the TDC, the administrative office will work with the event coordinator to establish a contract for the event and will present the proposed contract to the Monroe County Board of County Commissioners for final approval.

DEFINITION OF AN EVENT

The special event funding program is intended for an organized special annual event that generates overnight visitors for multiple Monroe County lodging properties, as well as out-of-area marketing exposure, and is open to the general public. Historically these events have included: festivals, concerts, and sporting events. Qualified special events shall guarantee overnight visitors and brand the destination while secondarily entertaining the visitors who are already here.

TDC will only consider reimbursement of permissible marketing expenditures that highlight the specific event reflected within the contract with the TDC/BOCC versus the regular programming of a business, organization, or facility.

DESTINATION EVENTS

For the purpose of this solicitation, a Destination event is developed and produced to entertain the public and promote tourism in the Florida Keys and Key West by guaranteeing overnight visitors and branding the destination while secondarily entertaining the visitors who are already here. Funding is for event marketing purposes only (advertising; promotions; public relations, etc.)

The event sponsor, for purposes of this RFA and any resulting contract, shall be the production agent primarily responsible for the production of the event and the entity soliciting funding under this process. No more than 10% of the total allocated funds shall be expended on advertising media attributable to in-county placement. A list of TDC permissible marketing expenditures can be viewed in Exhibit A of the sample contract at: https://www.monroecounty-fl.gov/DocumentCenter/View/13418/Sample-Destination-Event-Agreement. No reimbursement will be considered for items that are not covered by Exhibit A.

CONTACT INFORMATION FOR AGENCIES OF RECORD

The TDC Agencies of Record listed below are available to answer questions and assist with the marketing of your event. Event coordinators are not obligated to utilize the services of the TDC Agencies of Record.

Advertising Agency of Record: (Tinsley Advertising and Marketing) contact Jaclyn Fortier (Jaclyn@Tinsley.com) or John Underwood (John@Tinsley.com) at 305-856-6060.

Public Relations Agency of Record: NewmanPR contact Carol Shaughnessy (Carol@Newmanpr.com) at 305-797-0579 or Andy Newman (Andy@Newmanpr.com) at 305-461-3300.

Internet Agency of Record: (Two Oceans Digital) contact Elaine Cooke (Elaine@Twooceansdigital.com) at 305-292-1880.

TURNKEY EVENT

District Advisory Committees (DAC) have assigned their top levels of funding to Turnkey Events, recognizing that those events provide the highest level of economic impact to their district and serve to brand the destination. The event shall be one that creates a compelling reason to visit that doesn't already exist without the event. Therefore, consideration for the amount of funding allocated to a Turnkey special event shall be predicated upon showing of the economic impact resulting in room night stays generated by the event attendees.

A Turnkey event shall be considered an all-inclusive event where the event contractor has financial responsibility for every aspect of the production, promotion, and management of the event. Payment under a contract for a Turnkey event will be made only after completion of the event and proof that the scope of services as described within the contract has been completed.

The DAC when considering funding of a Turnkey event may also specify within the scope of services of the contract, specific marketing components that the DAC feels important to the success of the event.

If a Turnkey event is delayed or cancelled for any reason, no payment shall be forthcoming, even if the event contractor has out-of-pocket expenses leading up to the actual event. The TDC, therefore, strongly recommends that the event contractor purchase insurance that covers the cancellation or delay of an event due to "force majeure" or unforeseen circumstances.

Please note that the DAC may deny funding of an event applying as Turnkey and consider funding the application as a Destination event.

APPLICANT RESPONSIBILITIES

Applications can only be accepted from a public entity governed by a county or municipality; or a profit or not-for-profit; or a private business in good standing with the Division of Florida Corporations. Prior to completing an event application, please go to www.sunbiz.org to ensure that your organization is registered to do business in the State of Florida. Only entities (applicants) that are duly registered will be accepted.

Contact the TDC Administrative Office 305-296-1552 to ascertain date, time and venue of the event funding workshop that will be held within the District in which you are applying. Each DAC has specific marketing goals and it is strongly recommended that all prospective applicants attend the workshop in the District where you plan to apply for funding to ascertain the marketing direction and expectations of that District as it pertains to event applications.
The cost of preparation and submission of the application is the responsibility of the applicant.

Applicants must ensure that their application is submitted to the Monroe County Purchasing Department by the date, time and method as noted on page 1 of the application. Applications that are received after the specified deadline as determined within the RFA will not be accepted. This policy mirrors that of the Board of County Commissioners.

Applicant shall complete, copy, sign (by an authorized officer) and submit the application to the Monroe County Purchasing Department. Should an attachment be required for your application, note the Exhibit number on the top right-hand corner of each sheet.

Applicant shall familiarize him/herself with referenced online materials noted on the application check list on page 45. The online materials include sample contracts and samples of the scoring system used in determining funding eligibility.

Applicant shall be responsible for securing all federal, state and local permits and approval necessary for the event. Award of funds under this application does not indicate any approval by the County and applicant shall be required to comply with all County laws, rules and requirements. Events that require or have an Agreement with a municipality must have a valid Agreement with the municipality at the time the event will take place. If the event requires a permit from a municipality, a letter of intent to approve the permit subject to any unforeseen circumstance must be provided to TDC administrative office prior to signing of final Agreement.

IMPORTANT INFORMATION

Please consult with the TDC Administrative Office prior to starting the application process if you are uncertain about whether your event would be considered.

The applicant shall not lobby, solicit or act to influence the Advisory Committee members and/or the TDC board members in any way that may have an effect on the outcome of the competition,

discussion or negotiations leading to the allocation of funding, or an award of contract as reviewed and approved by the County Attorney's office. Such action may lead to withdrawal of the application from consideration.

The application shall be considered complete upon receipt and should stand alone with no other information being provided after-the-fact other than any additional information that may be requested by the TDC Administrative Office, or questions from the DAC at the allocation meeting.

DAC recommendation on funding allocations shall be limited to recommending allocations which do not exceed the amount requested by the applicant. Funding requests may be denied, reduced to a lower level or accepted at the level requested. It is important for the applicant to be aware that scoring the minimum points required to be considered does not guarantee funding for the event.
All information furnished or disclosed as part of the application process is considered public record by the laws of the State of Florida.

DOWNLOAD AND SUBMISSION OF APPLICATION

All respondents must use the current application downloaded from the County's electronic bidding platform at https://monroecounty-fl.bonfirehub.com **OR** www.monroecounty-fl.gov/BonfireBids. **Use of any other application will result in your application being rejected. All directions within the application must be followed or it will not be accepted.**

In the event that additional rounds of FY 2025 of funding applications are offered, the updated application MUST be downloaded and use of this application for additional rounds of funding will result in your application being rejected.

Applications must be uploaded to the County's electronic bidding platform by the deadline date and in the manor listed on the first page of this application. It is applicant's sole responsibility to ensure that the application is successfully received prior to the application deadline.

DISTRICT ADVISORY COMMITTEE WORKSHOPS FOR APPLICANTS

Workshops will be held in each of the districts via zoom at the following times for those applicants that are interested in applying for funding. Attendance is strongly recommended. *(Please note that all times and venues are subject to change and can be confirmed by calling the TDC Administrative Office at 305-296-1552).*

District V	Tuesday March 12, 2024	10:00a.m	Zoom Meeting ID: 860 2395 3822

CRITERIA FOR SCORING OF APPLICATION

The District Advisory Committee will be reviewing your event application and scoring it during the allocation meeting.

Scoring will be using a scale with 1 being the lowest.

Upon evaluation, the total scores will be tabulated and applications not scoring 17 points or higher by the majority of the sitting members, will not be considered for funding. Those events that meet the minimum scoring requirements noted above will be ranked starting with the highest average score. In the case of a tie, the highest score in the Timing of Event will be the determining factor. Points are listed at the end of each Exhibit for ease of scoring by the reviewers. View Sample scoring sheet here: https://www.monroecounty-fl.gov/DocumentCenter/View/7072/Destination-and-Turnkey-Sample-Score-Sheet?bidId=

The minimum points threshold required to be considered, 17, has been set such that events that are considered very good to excellent in their "Purpose, Itinerary & Room Nights", "Soundness of Marketing Plan & Financial Commitment" and "Action Plan" should meet the minimum for consideration regardless of the "Timing of Event". Events that are considered somewhat good in those categories will need to thoughtfully utilize "Timing of Event" points in order to meet the minimum points threshold to be considered. In other words, timing events to be held in slower months and/or to produce room night stays during mid-week days will be important for achieving sufficient minimum scoring. Events that are poor in their "Purpose, Itinerary & Room Nights", "Soundness of Marketing Plan & Financial Commitment" and "Action Plan" will not meet the minimum to be considered.

It is important for the applicant to be aware that scoring the minimum points required to be considered does not guarantee funding of the event.

PRE-PROMOTION

Destination Events that take place between October 1, 2025 and November 30, 2025 may apply for pre-promotion of their event. All promotion and related expenditures MUST be spent prior to September 30, 2025.

DISTRICT I APPLICANTS ONLY
(Encompasses the City Limits of Key West)

When applying for funding, it is important to understand the number of lodging units available within the Districts as it is the maximum number of room nights which may be sold per day – review Table 1 below. The number of lodging units provided in Table 1 is subject to fluctuation.

Table 1:

District I: Key West	Units (Max. daily room nights)
Hotel/Motel/B&B/Guest House/Inn	6,279
Vacation Rentals	1,128
RV Park & Campground	0
Total:	7,407

Source: Florida Department of Business and Professional Regulation, TDC

When evaluating funding allocations (return on investment), it is important to understand how the revenue was derived. Table 2 demonstrates, given its average lodging rates for the past two years, how many room nights this District had to sell to raise enough two-penny bed tax revenue for each level of event funding. The chart is provided to give a clearer context to the value of the bed tax dollar that funds each level.

The District Advisory Committee may use their discretion when evaluating funding allocations. However, it is important to understand how the income is derived.

Table 2:

District I: Key West	
Funding Level	Room Nights
$10,000	1,290
$17,000	2,190
$25,000	3,230
$35,000	4,520
$50,000	6,450
$75,000	9,680
$100,000	12,900

NUMBER OF ROOM NIGHTS ANTICIPATED FOR EVENT

Events are scored based on ability to attract out-of-County visitors to the district in which funding is applied. For the event year in which this application refers, provide the room nights your event is anticipated to generate for this district only according to your selection in A-1. In other words, if you indicated your event's primary purpose is to "draw out-of-county visitors", how many room nights do you anticipate you will draw? If you indicated your event is "to enhance the experience for visitors already here", how many room nights will be influenced by visitors who attend your event? Next, indicate how you arrived at that figure.

Timing of event

Events are scored based on when in the calendar year they are held. Shoulder and off-season events receive higher scoring. Additional scoring points are also given for mid-week events. The average of the past two fiscal years' occupancy, as reported by Smith Travel Research (STR), is used to create the Timing of Event Scoring. Please note, vacation rental data is not included in STR. Points are assigned to each occupancy level range. Table 3 below depicts the points associated with each occupancy level range. Next, it shows the times which your District, during the past two fiscal years, reached each occupancy level.

Table 2 demonstrates, given its average lodging rates for the past two years, how many room nights this District had to sell to raise enough two-penny bed tax revenue for each level of event funding. The chart is provided to give a clearer context to the value of the bed tax dollar that funds each level.

The District Advisory Committee may use their discretion when evaluating funding allocations. However, it is important to understand how the income is derived.

Table 2:

District V: Key Largo	
Funding Level	Room Nights

$15,000	2,010
$20,000	2,680

NUMBER OF ROOM NIGHTS ANTICIPATED FOR EVENT

Events are scored based on ability to attract out-of-County visitors to the district in which funding is applied. For the event year in which this application refers, provide the room nights your event is anticipated to generate for this district only according to your selection in A-1. In other words, if you indicated your event's primary purpose is to "draw out-of-county visitors", how many room nights do you anticipate you will draw? If you indicated your event is "to enhance the experience for visitors already here", how many room nights will be influenced by visitors who attend your event? Next, indicate how you arrived at that figure.

Room Nights

Formula to calculate **Room Nights** for this district. *total room nights will calculate automatically upon pressing the tab key on your keyboard or answering the next question.

a. How many out of County Visitors to this district	a.
b. How many visitors to a room	b.
c. How many nights will visitors stay?	c.
d. Calculate: **Room nights = (a/b) x c** *Divide line a by line b. Then multiple by line c*	* Room Nights:

Method used to estimate out-of-County visitors entered above (a): and how many nights they will stay (c). Check all that apply. All to be submitted with supporting documentation which includes zip code data as exhibit A-3.

☐ Ticket Sales from last event

☐ Survey of attendees from last event*

☐ Registration from last event

☐ Bookings through TDC's website

☐ Based on lodging group block pick up from previous year. Attach pick up report.

☐ Raffle zip code results from previous year event

*Example of how to take a survey can be found here:
https://flmonroecounty.civicplus.com/DocumentCenter/View/34562/Survey-Example

Attach, as **Exhibit A-4**, a narrative/plan on how the actual number of out-of-County visitors and number of room nights will be determined for this event.

Applicant shall be scored on the combination of Exhibits A-1 (Primary Purpose of event); A-2 (Event Itinerary); A-3 (Number of Room Nights); and A-4 (Plan)

FUNDING REQUEST

Check the grant level you are applying for. If your event does not score the minimum required score by a majority of the sitting members, your application will not be considered for funding. The DAC may also decline funding your application, or fund at a lower funding level. It is important for the applicant to be aware that scoring the minimum points required to be considered does not guarantee funding of the event.

TIMING OF EVENT

Events are scored based on when in the calendar year they are held. Shoulder and off-season events receive higher scoring. Additional scoring points are also given for mid-week events. The average of the past two fiscal years' occupancy, as reported by Smith Travel Research (STR), is used to create the Timing of Event Scorning. Please note, vacation rental data is not included in STR. Points are assigned to each occupancy level range. Table 3 below depicts the points associated with each occupancy level range. Next, it shows the times which your District, during the past two years reach each occupancy level range.

Article 1 - General

1.1 These General Terms and Conditions of Supply apply to all negotiations, offers, assignments and agreements, including annexes, in which THE ETRAINING COMPANY supplies software and/or services to the other party (parties), even if this software and/or these services are not explicitly described in these terms and conditions. Any purchase conditions or other conditions of the other party shall not apply unless these have been expressly accepted by THE ETRAINING COMPANY at least in writing. In the event of any conflict between agreements, documents or annexes, the order of precedence shall be as indicated in Article 12.3 of these terms and conditions. The ETRAINING COMPANY is entitled to refuse orders without giving any reason;

1.2 Amendments and supplements to the General Terms and Conditions of The ETRAINING COMPANY shall become valid as soon as they are available on ETC's website and have been presented and filed with the Chamber of Commerce. The ETRAINING COMPANY shall at least ensure that any amended terms and conditions are accessible and retrievable by the Contracting Party on its website for a period of two months after they have been deposited. If a Contract was concluded before the amended date, The ETRAINING COMPANY shall ensure that the Contracting Party can take knowledge of the current General Terms and Conditions via its website and all subsequent e-mail correspondence for a period of two months (by indicating the amendment in the signature of The ETRAINING COMPANY's employees). If the Other Party does not wish to accept changes to the General Terms and Conditions, it will have the right to terminate the Contract immediately up to two months after the date of the change, unless other provisions are agreed in writing between THE ETRAINING COMPANY and the Other Party. Oral communications, undertakings or agreements have no legal force unless confirmed in writing by THE ETRAINING COMPANY. Amounts invoiced by THE ETRAINING COMPANY before the termination in connection with what it has already performed or supplied in accordance with its obligations before the termination will remain due undiminished and will become immediately payable at the time of termination, unless otherwise agreed in writing;

1.3 Cancellation by the Other Party of an order it has placed within the scope of the Contract may only take place with the written consent of The ETRAINING COMPANY. If The ETRAINING COMPANY agrees to the cancellation, the Other Party will owe The ETRAINING COMPANY any amounts that The ETRAINING COMPANY has already invoiced or will have to invoice prior to the cancellation in connection with what it has already performed or supplied in accordance with its

obligations prior to the cancellation. These amounts will become immediately due and payable at the time of cancellation, unless otherwise agreed in writing;

1.4 In the event of tacit renewal of an Agreement, the General Terms of Delivery as filed with the Chamber of Commerce on the effective date of the renewal shall apply; they shall be applicable for the new contract period.

1.5 If any provision of these General Terms and Conditions is invalid, the remaining provisions shall remain in force. In that case, the parties shall consult on the content of a new provision that approximates the content of the original provision as closely as possible.

Article 2 - Price and payment

2.1 All prices and rates are exclusive of VAT and any other levies imposed by the government;

2.2 The prices to be charged pursuant to the contract are the prices in force at the time of the Other Party's written acceptance of the Offer and/or other written document; The ETRAINING COMPANY reserves the right to introduce annual price changes, which may be related to the market and/or inflation, provided that these are made known to the Other Party before the end of the notice period;

2.3 All invoices shall be paid by the Other Party in accordance with the payment conditions stated on the invoice. Payment must be made within 14 days of the invoice date. Payment shall be made without any deduction or set-off on any grounds whatsoever, except when it has been established by arbitral or judicial decision that the other party has a deductible counterclaim or a ground for deduction. The ETRAINING COMPANY reserves the right to demand advance payment;

2.4 If a fixed price has been agreed for the provision of services, The ETRAINING COMPANY shall inform the other party in advance if an extension requested by the other party or an increase in the price of the software and/or services provided is applicable; The ETRAINING COMPANY reserves the right to charge additional fees for additions and/or extensions to the software and/or services. The other party reserves the right to waive supplements and/or additions to the software and/or services if the other party does not wish to pay for them;

2.5 If the creditworthiness of the Other Party gives cause to do so, THE ETRAINING COMPANY reserves the right to amend the payment conditions;

2.6 If, when making a payment, the Other Party does not expressly indicate to which debt it is owed, THE ETRAINING COMPANY will be irrevocably entitled to set off these payments against any outstanding invoice of THE ETRAINING COMPANY to the Other Party;

2.7 If the Other Party does not pay the amounts due within the agreed payment period, it will be in default. From that date onwards, without further notice of default being required, the Other Party shall owe an immediately payable default interest of 2.5% per month over the total amount then due, whereby a part of the month shall count as a whole month. If the other party fails to pay the claim, the claim will be passed on to a third party, in which case the other party, in addition to the total amount owed at that time, will also be obliged to fully reimburse judicial and extra-judicial costs, including THE ETRAINING COMPANY's legal assistance, the amount of which is set at a minimum of 15% of the principal amount of the claim with a minimum of EUR 250 (two hundred and fifty euro);

2.8 If the other party fails to pay the amounts due within the agreed term of payment, it shall be in default. The ETRAINING COMPANY reserves the right to temporarily suspend the software and/or services made available until payment has been received on The ETRAINING COMPANY's account, immediately after the payment deadline has expired and the obligation to pay has not been met;

Article 3 - Deliveries and delivery times

3.1 The delivery of software and/or services will take place at a time to be agreed, as stated in the Contract of THE ETRAINING COMPANY confirmed in writing by the Other Party, unless expressly agreed otherwise in writing;

3.2 All software and/or services to be supplied by THE ETRAINING COMPANY will be delivered with due care and skill during working days and within normal working hours (from 09.00 - 18.00 hours). THE ETRAINING COMPANY is allowed to have third parties carry out work under its responsibility as part of the performance of its obligations under this contract; If students/users or the other party's webmaster encounter a problem or have a question, the problem may be reported to THE ETRAINING COMPANY, after which THE ETRAINING COMPANY will provide a response by return, but within two working days at the latest.

3.3 All (delivery) periods mentioned by THE ETRAINING COMPANY have been established to the best of its knowledge based on the information known to it when it entered into the agreement and will be observed as closely as possible. THE ETRAINING COMPANY will in any case not be bound by (delivery) dates that can no longer be met due to unforeseen circumstances or because the other party fails to fulfil its obligations. If any term threatens to be exceeded, THE ETRAINING COMPANY and the other party will enter into consultation as soon as possible. Exceeding of any delivery period can never lead to an entitlement to any compensation for the other party. THE ETRAINING COMPANY is at all times entitled to deliver in parts;

3.4 If the Other Party has not accepted parts of the software and/or services of THE ETRAINING COMPANY, THE ETRAINING COMPANY will be entitled to postpone the performance of any subsequent work or a new phase until such time as the software and/or services or phase has been accepted and, if invoiced separately, paid for;

3.5 If at the request of the Other Party the software and/or services to be delivered are modified, the agreed time of delivery may be postponed. Parties will then agree a new date.

Article 4 - Secrecy / Confidential information / Consent to disclosure

4.1 Each party confirms to keep confidential all information of the other party. Each party shall take reasonable precautions to comply with this obligation to the best of its ability;

4.2 THE ETRAINING COMPANY will make every effort to take such measures as will ensure confidentiality with regard to other party's information, of which it is clear that the other party wishes to keep this information confidential;

4.3 The Other Party is aware and accepts that the Software, other materials and agreements that are made available contain confidential information and trade secrets of THE ETRAINING COMPANY or its licensors. The Other Party undertakes to keep this Software and these materials secret, not to disclose them to third parties or to allow them to be used and to only use them for the purpose for which they have been made available;

4.4 The content, layout, and learning method within the Connection and all Software and executed Services may not be duplicated and/or made public in any media form whatsoever without the written permission of THE ETRAINING COMPANY and/or the Other Party. Improper use is not permitted. THE ETRAINING COMPANY reserves the right to change content, user data, method of working and technical settings. It will inform the Other Party in time if applicable.

The Other Party will never make any adjustments to the software, database structure or technology;

4.5 THE ETRAINING COMPANY guarantees the integrity and ownership of the data placed on its server by course participants if the Other Party proceeds to purchase a connection. Data will never be used in any way other than for management purposes;

4.5 If the Other Party proceeds to purchase a service in the form of placing a learning module on a (sub-) domain of THE ETRAINING COMPANY, the ownership of data placed on THE ETRAINING COMPANY's server by users/students will lie with THE ETRAINING COMPANY. THE ETRAINING COMPANY will make an agreement with the Other Party as to whether and on what conditions this data will be made available for inspection. The Other Party may never use these data in any way other than for management purposes;

4.6 Parties shall not disclose to third parties any confidential information relating to the business activities of the other party obtained within the framework of the Agreement and of which the confidential nature has been reasonably established. Information that is covered by legal obligations is excluded from this, on the understanding that the party on which that obligation has been imposed by law informs the other party in good time of the impending obligation to provide information, clearly describing the subject matter, so that the party whose information is to be provided has enough time to submit a request through the courts to counteract this;

Article 5 - Retention of title

5.1 All Software supplied to the other party will at all times remain the property of THE ETRAINING COMPANY. Rights of use are granted to the other party under the suspensive condition that the other party pays the license fees agreed upon in this respect in full, including any claims for failure to perform by the other party pursuant to the agreement concerned.

5.2 If the software and/or service provided by THE ETRAINING COMPANY under an agreement with the other party is seized, the other party will be required to inform THE ETRAINING COMPANY of this immediately. In the event of any attachment, suspension of payments granted in respect of the other party or bankruptcy pronounced in respect of the other party, the other

party will be obliged to inform the bailiff levying the attachment, the administrator or the curator immediately of THE ETRAINING COMPANY's right of ownership.

Article 6 - Intellectual property rights

6.1 THE ETRAINING COMPANY is the owner with regard to the copyright and the intellectual and industrial property rights, entitled to the software and/or services (including standard adaptations and new versions) and the accompanying documentation and materials, databases, as well as with regard to reports, offers, etc. issued by it, whether or not at the request of the other party. To this end, the other party will ensure, among other things, that the name indications, copyright marks, symbols, trademarks, copies, etc. applied to the software and the source code, which indicate these rights, remain stated on it;

6.2 All intellectual property rights on the Software and (sub) Domains including materials such as analyses, designs, documentation, reports, offers as well as preparatory materials thereof, are the exclusive property of THE ETRAINING COMPANY, unless expressly agreed otherwise in writing.

6.3 The Other Party is not permitted to make copies of the Software or learning modules. The Other Party undertakes to keep the software and materials secret and not to make them known or give them in use to any third party. The Other Party will impose the aforementioned obligations on its staff members and third parties hired by it;

6.4 THE ETRAINING COMPANY is permitted to take and maintain technical measures to protect the software and/or services (including standard adaptations and new versions);

6.5 THE ETRAINING COMPANY will indemnify the other party against any action based on the allegation that the software and/or services supplied by THE ETRAINING COMPANY infringe a copyright valid in the Netherlands. THE ETRAINING COMPANY will pay the costs and damages irrevocably established by final judgement, provided the other party informs THE ETRAINING COMPANY immediately in writing and leaves the handling of the case exclusively to THE ETRAINING COMPANY and provides all cooperation. If an action has been brought or if the possibility of it exists, THE ETRAINING COMPANY may replace the software or modify it in such a way as THE ETRAINING COMPANY deems appropriate.

6.6 The Other Party is not permitted to change, remove or make unrecognizable any indication of copyright, intellectual or industrial property rights of THE ETRAINING COMPANY.

Article 7 - Cooperation by the Other Party

7.1 Given that THE ETRAINING COMPANY needs to keep abreast of the Other Party's relevant organization with regard to the execution of the agreement, and because of the need for the Other Party to cooperate in the (timely) execution of an agreement, the Other Party will always provide THE ETRAINING COMPANY with all useful and necessary data or information on time upon first request. The Contracting Party will guarantee the correctness and completeness of this data or information and will be responsible for it;

7.2 The Other Party is responsible for good internal management and good quality of its own employees, insofar as necessary for a successful installation and implementation of the software and/or services and the maintenance thereof by THE ETRAINING COMPANY;

7.3 Other party will be responsible for the use and proper application (also in connection with each other) in its organization of the software and of the services to be provided by THE ETRAINING COMPANY, for the introduction in its organization of the procedures necessary for this purpose;

7.4 If it is agreed that the Other Party will make materials or data available on information carriers, these will meet the specifications necessary for the performance of the work;

7.5 If the information required by the Other Party for the performance of the contract is not made available to THE ETRAINING COMPANY, or is not made available on time or in accordance with the arrangements, or the Other Party does not meet its obligations towards THE ETRAINING COMPANY in any other way, this may lead to a suspension of THE ETRAINING COMPANY's performance of its obligations and additional costs may be charged to the Other Party;

Article 8 - Liability

8.1 Except for damage caused by THE ETRAINING COMPANY's own intent or gross negligence, THE ETRAINING COMPANY only accepts legal obligations to pay compensation insofar as this is apparent from this Article; a condition for any right to compensation is always that the other party reports the damage in writing to THE ETRAINING COMPANY as soon as reasonably possible after it has arisen.

8.2 Any liability of THE ETRAINING COMPANY for any other form of damage is excluded, including additional compensation in any form whatsoever, compensation for indirect damage or consequential damage or damage due to loss of profit. Furthermore, THE ETRAINING COMPANY will in no event be liable for loss due to delay, loss due to loss of data, loss due to exceeding delivery deadlines as a result of changed circumstances, loss due to providing inadequate cooperation, loss due to contractual obligations that the Other Party has entered into with third parties through which the Other Party has supplied THE ETRAINING COMPANY with software and/or services (see also Article 8.6), damage resulting from the use of information or materials of THE ETRAINING COMPANY used by Other Party and damage resulting from information or advice given by THE ETRAINING COMPANY, the content of which does not explicitly form part of a written agreement;

8.3 THE ETRAINING COMPANY is not liable for financial loss of any kind. The compensation to be paid by THE ETRAINING COMPANY for breach of contract will in no case exceed a maximum of the amounts invoiced by THE ETRAINING COMPANY to the other party under the contract (excluding turnover tax) in the year in which the damage arose; but never more than €25,000 in total (twenty-five thousand euros). No compensation for damages shall apply to previously invoiced amounts prior to the year in which the damage arose and/or to amounts yet to be invoiced (excl. turnover tax) for future services. If the contract is a continuing performance contract, compensation for attributable failure will in no case amount to more than the price (excluding turnover tax) stipulated in the contract in question for THE ETRAINING COMPANY's performance during the three-month period preceding THE ETRAINING COMPANY's default. No compensation shall apply to amounts not yet invoiced (excluding turnover tax). The amounts and prices referred to in this Article will be reduced by credits stipulated by the other party and granted by THE ETRAINING COMPANY;

8.4 Liability of THE ETRAINING COMPANY for damage on account of wrongful acts on the part of THE ETRAINING COMPANY or its employees or subordinates is excluded. If, in so far as this cannot be invoked but there is a case of intent or gross negligence, compensation per incident - whereby a series of connected incidents counts as one incident - shall be limited to a maximum per incident of the user fees received by THE ETRAINING COMPANY in the previous year, possibly increased by the price (excluding the price of the products), if applicable turnover tax) of Services provided by THE ETRAINING COMPANY, stipulated in the agreement between the parties in the context of which the event occurred or, failing that, the agreement in force between the parties at the time the damage arose, but never more than €. 25,000 in total (twenty-five thousand euros);

8.5 The Other Party indemnifies THE ETRAINING COMPANY against any loss that the Other Party may suffer as a result of third-party claims in connection with the goods or services supplied by THE ETRAINING COMPANY to the Other Party; this includes - claims by third parties, including employees of the Other Party, who suffer damage which is the result of unlawful acts by THE ETRAINING COMPANY, - claims by third parties who suffer damage which is the result of the termination of the Contract between the Other Party and THE ETRAINING COMPANY, or which is the result of a defect in the software and/or services supplied by THE ETRAINING COMPANY which are used, altered or supplied by the Other Party with the addition of or in connection with the Other Party's own products, software or services;

8.6 Any right to compensation will in any case lapse insofar as the Other Party has not taken measures immediately after the damage arose to limit the damage or to prevent more or other damage, or has not informed THE ETRAINING COMPANY of all relevant information as soon as reasonably possible,

8.7 THE ETRAINING COMPANY will in any case never be liable for any breakdown in, or unavailability of, the Services as a result of circumstances that it could not reasonably have foreseen. These include, but are not limited to, government measures, strikes, defaults by suppliers to THE ETRAINING COMPANY, disruptions in the connections of KPN or any other telecommunications company, disappearance of computer files, disruptions with other connected networks, electricity failures and other failures beyond THE ETRAINING COMPANY's control;

8.8 THE ETRAINING COMPANY is in any case never obliged to pay compensation for loss of profits, damage as a result of failure and/or unavailability of the Internet as a result of the maintenance of Software by or on behalf of THE ETRAINING COMPANY, damage arising from the leaking of confidential data or damage arising from third-party claims against the Other Party;

8.9 THE ETRAINING COMPANY will make every effort to secure the Connection or access to the data it stores. THE ETRAINING COMPANY excludes any liability for damage that may occur in spite of the precautions it has taken with regard to the security of the Connection. Liability of Processor for indirect damage is excluded. Indirect damage includes consequential damage, loss of profit, missed savings, reduced goodwill, damage due to business interruption and damage due to claims from third parties.

Article 9 - Dissolution/(Interim) termination/Suspension

9.1 Other party may terminate the Agreement with immediate effect if THE ETRAINING COMPANY, even after proper written notice of default, seriously fails to meet the agreed performance and the terminating party cannot reasonably be expected to continue the Agreement;

9.2 Both THE ETRAINING COMPANY and the other party have the right to terminate an Agreement at all times without giving reasons by a simple written statement with due regard to the notice periods stated in this article (9.4.1/9.4.2);

9.2.1. Agreements may be terminated by the Other Party at any time by giving notice of one month, without there being any reciprocal right to compensation. The Other Party's notice period may be shorter if a different notice period is explicitly included in the Agreement;

9.2.2. Contracts may be terminated by THE ETRAINING COMPANY at any time by giving two (2) months notice without either party being entitled to compensation, unless a different notice period has been explicitly agreed in the contract;

9.3 The Other Party may terminate the Agreement with immediate effect if:

- THE ETRAINING COMPANY is placed under guardianship or decides to liquidate its business or is declared bankrupt, requests its own bankruptcy, proceeds with the liquidation of its assets, submits a request for a suspension of payments, or has all or part of its assets seized;
- the delivered goods or part thereof are seized and the right of use cannot or may not be continued;
- THE ETRAINING COMPANY proceeds or decides to cease or transfer its business or a significant part thereof, including the contribution of its business to a company to be founded or already existing, or proceeds or decides to change the objective of its business, or to dissolve its business;

9.4 THE ETRAINING COMPANY may terminate the Agreement with immediate effect if:

- the Other Party is placed under guardianship or decides to liquidate its business or is declared bankrupt or is granted a suspension of payments, requests its own bankruptcy, proceeds to liquidate its assets, submits a request for a suspension of payments, or has its entire or part of its assets attached;
- Other Party does not fulfil or does not fully fulfil any obligations towards THE ETRAINING COMPANY by virtue of the law or the Agreement after having received a written notice of default;
- The Other Party fails to pay an invoice amount or a part thereof within the term set for it;
- The Other Party proceeds or decides to cease or transfer its business or an important part thereof, including the contribution of its business to a company to be incorporated or already existing, or proceeds or decides to change the objective of its business, or to dissolve its company;

In the event of termination as referred to in 9.2 and 9.3, the parties shall never be liable to pay any compensation.

9.5 The amounts invoiced by THE ETRAINING COMPANY before the dissolution in connection with what it has already performed or delivered for the execution of the contract in accordance with its obligations will remain due undiminished and become immediately payable at the time of dissolution;

9.6 If the Agreement is terminated, THE ETRAINING COMPANY will provide full cooperation and assistance to the Other Party in order to filter out all relevant information from the software made available to them. This includes - user data and - all content components of the modules present. If the provision of the data has to take place after the termination of the agreement, i.e. when the customer no longer has access to the sub-domain, then the amounts specified by THE ETRAINING COMPANY at the time of termination will apply. Both parties are not allowed to use published content for other media expressions (and/or sub-domains) after the termination of the contract without the consent of the other party;

9.7. If THE ETRAINING COMPANY is prevented from (further) performing the Contract as a result of circumstances that could not reasonably have been foreseen by THE ETRAINING COMPANY, THE ETRAINING COMPANY will be entitled, without any obligation to pay compensation, to dissolve the Contract in whole or in part by means of a written notice to that effect sent to the Other Party without judicial intervention, or to suspend (further) performance of the Contract, without prejudice to THE ETRAINING COMPANY's right to receive payment from the Other Party for any performance already carried out by THE ETRAINING COMPANY. In the event of suspension, THE ETRAINING COMPANY will still be entitled to declare the Contract dissolved in whole or in part.

Article 10 - Force majeure

Neither party is obliged to comply with any obligation if it is prevented from doing so as a result of a circumstance that cannot be attributed to its fault, nor can it be blamed in accordance with the law, legal acts or social views. Delay at or failure to perform by THE ETRAINING COMPANY's suppliers, transport difficulties and strikes and, furthermore, all events and circumstances beyond THE ETRAINING COMPANY's reasonable control explicitly count as force majeure.

Article 11 - Transfer of rights

THE ETRAINING COMPANY is entitled to transfer to third parties all claims, powers, rights, privileges, actions and obligations arising from contracts with the other party. The Other Party hereby declares that in the event of such a transfer, third parties will be able to exercise all the rights granted to THE ETRAINING COMPANY in this contract towards the Other Party and that the Other Party will accept the performance of the transferred obligations by the third party or parties. Other Party is not entitled to transfer all or part of the rights and obligations under this contract to a third party without the prior written consent of THE ETRAINING COMPANY.

Article 12 - Jurisdiction, applicable law and dispute resolution

12.2 The disputes referred to in paragraph 1 shall be submitted exclusively to the competent court.

12.3 In the event of conflict between agreements, documents or appendices, the following order of precedence shall apply:

If telecommunication facilities are used in the maintenance of software, including support, or other services provided by THE ETRAINING COMPANY, each party shall be responsible for the correct choice and timely availability of such facilities on its part. THE ETRAINING COMPANY is not liable for mutilation, interception or loss of data or processing results during the transmission of data.

Article 15 - Processing and protection of Personal Data

If the Other Party purchases a Connection the agreements referred to in the General Data Protection Regulation, specifically with regard to the Processing of personal data, will be laid down in such a way that THE ETRAINING COMPANY B.V. will at all times act as Processor and the Counterparty as Data controller. Data controller (being the Other Party) commissions Processor (being THE ETRAINING COMPANY B.V.) to provide the Connection, including Software, which includes the Processing of Personal Data of Data Subjects (participants and users of the Connection). This article lays down the conditions under which THE ETRAINING COMPANY B.V. will process the personal data for the Other Party:

   Processing: any act or set of acts relating to Personal Data;

15.2. Duration, term and termination

The terms and conditions regarding the Processing of personal data shall come into effect on the date of signature of the Agreement and shall apply to all Agreements between the Parties from that time onwards.

1. The provisions and conditions in article 15. regarding the Processing of personal data will terminate by operation of law at the time that the Agreement between the Parties is terminated or one of the Parties is declared bankrupt.
2. In the event of termination of the Agreement, Parties will consult on the transfer of the Personal Data to Data Controller.

15.3. Purposes of processing

1. Under the terms of the Agreement, Data Controller undertakes to process personal data on behalf of Processor. Processing will take place exclusively within the framework of the Connection and for purposes to be determined by agreement. The Connection, including the Software supplied, is used for the purposes of online learning and communication about elearning modules (online courses) that are produced on the instructions of the Processing Responsible Party or by the Processor and offered to the Data Subjects via the Connection on the platform used. Data Subjects who are admitted to the Connection provided to them by the Processor can log in and make use of the training modules accessible and available via the Software. To this end, Processor will

2. use the personal data provided by the Data Subjects to grant the Data Subjects access and to allow them to inspect the progress and results.

The Seller(s) hereby waive their rights to any and all claims against the COUNTY or the State of Florida associated with, or arising from ownership of, said lands and this waiver shall survive closing.

AGENDA ITEM WORDING: Approval of a resolution of the Monroe County Board of County Commissioners requesting the Monroe County Comprehensive Plan Land Authority to convey real property described as Block 11, Lot 12, Tropical Bay Third Addition (PB 5-81) on Big Pine Key to Monroe County for density reduction subject to a Land Use Restriction Agreement (LURA) and authorizing the Mayor to sign said LURA.

ITEM BACKGROUND:

The Land Authority is in the process of purchasing Block 11, Lot 12, Tropical Bay Third Addition on Big Pine Key for ROGO Administrative Relief and density reduction using funding from the Land Authority's ROGO Reserve Fund.

Density reduction lots are maintained by the BOCC and Monroe County has already acquired a number of density reduction lots in the Tropical Bay neighborhood.

The proposed resolution authorizes Monroe County to accept the property from the Land Authority so it can be managed in a coordinated manner with the other County owned lots in the neighborhood. Consistent with the County's density reduction goals, the conveyance will be subject to a Land Use Restriction Agreement (LURA) extinguishing the property's density but allowing the County to sell the property.

ITEM BACKGROUND:

The Florida Division of Emergency Management (Division) announced the availability of Hazard Mitigation Grant Program (HMGP) funds as a result of the recent Presidential Disaster Declaration for Severe Storms, Tornadoes, and Flooding (FEMA 4709-DR-FL). HMGP funding is authorized by Section 404 of the Robert T. Stafford Disaster Relief Act. This funding helps communities implement measures to reduce or eliminate long-term risk to people and property from natural hazards and their effects. The Division encourages all potential applicants to submit applications for projects that address eligible mitigation activities. The amount of HMGP funding available to the state is based on the total federal disaster assistance for the Presidential Disaster Declaration.

According to the Code of Federal Regulations (CFR) 44 §206.434(a), eligible applicants include local government who have an approved Local Mitigation Strategy (LMS) in accordance with 44 CFR §201.6, prior to receipt of HMGP subgrant funding for projects. Furthermore, activities include mitigation projects that will result in protection of public or private property from natural hazards such as Residential Elevation and Mitigation Reconstruction.

Under the HMGP, FEMA will contribute up to 75-percent of the total amount approved under the grant

award to implement eligible, cost-effective mitigation measures. Homeowners in the grant applications will provide the remaining 25-percent non-federal share.

Staff received mitigation applications during the 2023 FMA grant cycle from property owners Countywide including incorporated cities and unincorporated Monroe County. . These two applications were updated and will be submitted for this grant opportunity.

Staff will submit one (1) residential elevation project with a total cost of $235,714.00 and one (1) mitigation reconstruction project with a total project cost of $459,098.85.

The application period will close on March 19, 2024. The FDEM encourages potential applicants to submit complete applications before the close of the application period. A complete digital submission of applications and all required supporting documents should be uploaded to FDEM no later than March 19, 2024, at 11:59 p.m.

If these applications are approved by FEMA/FDEM and selected for grant award, the State (FDEM) will enter into a grant agreement with the County for administration of the program. Monroe County will then execute a homeowner agreement to assist homeowners in implementing their projects. The County will request management costs to help implement these projects.

Minimum Program Eligibility

Eligible Applicants: According to the Code of Federal Regulations (CFR) 44 §206.434(a), the following parties are eligible to apply for Hazard Mitigation Grant Program funds:

- State agencies
- Local governments who have an approved Local Mitigation Strategy (LMS) in accordance with 44 CFR §201.6, prior to receipt of HMGP subgrant funding for projects;
- Private non-profit organizations or institutions that own or operate a private non-profit facility as defined in 44 CFR §206.221(e); and
- Indian tribes or authorized tribal organizations

However, be advised that pursuant to Rule 27P-22, Florida Administrative Code, all project applications must go through the Local Mitigation Strategy Working Group (LMSWG) of the county where the project will take place. Any application sent to the Division without a signed endorsement letter, from either the Chair or Vice-Chair of an LMSWG, will be denied.

Eligible Activities: Activities include mitigation projects that will result in protection of public or private property from natural hazards. Activities for which implementation has already been initiated or completed are not eligible for funding. Eligible projects include, but are not limited to, the following:

- Acquisition (demolition or relocation) of existing at-risk structures
- Aquifer (recharge, storage and recovery) serve primarily as a drought management tool and reduce flood risk

- Dry Floodproofing structures by sealing the structure to keep floodwaters out
- Elevation of flood prone structures
- Flood Risk Reduction (Localized or Non-localized) – lesson the frequency or severity of flooding
- Generator for critical facilities or are an integral part of a larger eligible project
- Infrastructure Retrofit modifications to the existing infrastructure to reduce or eliminate the risk of future damage and increase protection
- Mitigation Reconstruction of properties that cannot be elevated
- Safe Room to provide immediate life-safety protection from severe wind events
- Secondary Power Source to increase power system resilience
- Stabilization to reduce risk to structures/infrastructure from erosion
- Structural Retrofit modifications addressing the structural element of a building/facility that are essential to increase protection
- Wildfire Mitigation at-risk structures and associated loss of life from the threat of future wildfires
- Wind Retrofit modifications to the existing structure to reduce or eliminate the risk of future damage and increase protection

Ineligible Activities: The state will **not** consider funding requests for the following:

- Construction of new facilities (Nevertheless, the cost associated with Code Plus upgrades to new facilities may be considered);
- Equipment such as emergency pumps, vehicles, and communication devices;
- Stand-alone studies, design, and planning-related activities, not directly related to the design and implementation of a proposed mitigation project;
- Tree removal, debris removal, and other forms of maintenance; or
- ***Projects already in progress*** *(Construction may not begin until the contract between the State and subrecipient is executed and the project has met requirements of the National Environmental Policy Act).*

Eligibility Criteria: All projects submitted must meet *minimum criteria* to be considered for funding. An eligible project must:

- Conform to the requirements stated in this Notice of Funding Availability;
- Conform to the Florida State Hazard Mitigation Plan and the respective community's LMS;
- Conform to the funding priorities for the disaster, as established in the appropriate LMS;
- Demonstrate cost-effectiveness;
- Be technically feasible;
- Benefit the designated disaster area;
- Conform to all applicable environmental laws and regulations, as well as Executive Orders;
- Solve a problem independently or constitute a functional part of a solution;

- Benefit a National Flood Insurance Program (NFIP) participating community that is not on probation or suspended from the NFIP; and
- Meet all applicable State and local codes and standards.

Cost-Share Requirements

Under the HMGP, FEMA will contribute up to 75-percent of the total amount approved under the grant award to implement eligible, cost-effective mitigation measures. The applicant must provide the remaining 25-percent non-federal share. Contributions, cash, and in-kind services are acceptable as part of the non-federal share. Requirements for in-kind contributions can be found in 2 CFR §200.306. In-kind contributions must be directly related to the eligible project cost and are those personnel, materials, equipment and supplies owned, controlled, and operated by the applicant or a third-party contributor.

Applicants may use the Global Match concept as part of the 25-percent non-federal share. Global Match permits a potential applicant to meet the non-federal share match by receiving credit for state and/or local government funds that were committed to a similar type of project(s). These similar, **non-federally** funded projects must meet all of the HMGP eligibility requirements and submitted under the same disaster. This means that if Global Match is approved, the applicant may receive up to 100-percent federal share. Phased projects are not eligible for Global Match.

Pre-Award Costs

Prior to receiving a grant award, pre-award costs may be requested. Pre-award costs include items such as engineering, environmental study, permitting, and other "soft" costs associated with a construction project. *Construction activities are not considered pre-award costs*. Pre-award costs must be requested, in writing, by submitting a signed Pre-award request form at application submittal and included in the budget as separate line-item. Directions for getting this form are included in *Attachment A*.

Procurement

Any procurement of property or services under a federal award must conform to 2 CFR §200 Subpart D (§§ 200.317 - 200.327). This also includes any activities performed as a part of the pre-award request.

Sub-Recipient Management Costs

Per FEMA Hazard Mitigation Grant Program Interim Policy 104-11-1, HMGP projects awarded under disasters, on or after the effective date, are eligible for sub-recipient management costs (SRMC) up to a hard cap of 5 percent of their eligible and actual project costs. SRMC is a separate pool of funding and will not be calculated as part of the benefit-cost analysis (BCA). SRMC will be reimbursed at a 100 percent federal cost share following the submission of compliant source documentation in conformance with 2 CFR 200 Subpart E. Additional information on SRMC can be found in the attached application (*Attachment F*)

and the HMGP SRMC Request Form (*Attachment G*). Any applicant requesting SRMC will need to submit *Attachment G* along with their application.

County Funding Allocation

To ensure funds are distributed equitably, designated counties have been assigned a portion of the total HMGP grant. The amount is based on a calculation of the proportional share of the total federal assistance under the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) programs. Commitment of project funds by the Division is contingent upon receipt of appropriate Legislative Budget Authority.

These figures are shown in Attachment *B* and represent the estimated amount of HMGP funds currently available. HMGP funding is available only to those counties that have a current FEMA-approved LMS. Project applications will be considered only if:

(1) The application is accompanied by an endorsement by the LMS Chairperson or Vice-Chairperson stating that the project is included in the current LMS; and,

(2) If more than one project is submitted, the endorsement indicates the prioritization. A sample project submission letter is shown in Attachment *C*.

The Division will attempt to fund each submitted project in priority order until the county's allocation has been exhausted. In accordance with Florida Administrative Code (F.A.C.) 27P-22.006, the Division uses the following tiered allocation system up until the State application deadline with FEMA:

Tier 1
The available HMGP funds are allocated to counties included in the relevant Presidential Disaster Declaration in proportion to each county's share of federal disaster funding from the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) Disaster Loan Program as of 120 days after a Disaster Declaration as reported by FEMA. Eligible projects submitted by each county included in the relevant Presidential Disaster Declaration will be funded in order of priority as outlined in the LMS until the allocated funds are exhausted or all eligible projects are funded.

Tier 2
Any allocation remaining after all eligible projects in any declared county are funded shall be re-allocated to those counties included in the relevant Presidential Disaster Declaration whose allocation was not sufficient to fund all submitted eligible projects. The order of priority for re-allocating funds is detailed in Attachment D.

Tier 3
In the event that funds remain after the Tier 1 and Tier 2 processes, any remaining funds will be offered on a statewide basis as described in Attachment D.

Please see Attachment D for a detailed explanation of funding tiers.

Funding Availability and Notification

FEMA notifies the State of HMGP funding availability at the following milestones:

Initial 30-Day Estimate
This is an early estimate only and not an actual commitment of funding by FEMA. Funding may increase or decrease based on actual disaster claims during the declaration period. These estimates are provided for planning purposes and to jump-start the HMGP application process.

Obligation prior to 12 Months
Prior to the 12-month lock-in, FEMA will only obligate funds up to 75% of any current estimate. This is to eliminate the risk of over-obligating funds for any given disaster in the event the 12-month lock-in is lower than initially estimated.

12 Months from the Date of Declaration
This represents the State's Lock-in Amount. It is the maximum amount available the state can expect to receive from FEMA. In rare occurrences, FEMA may conduct a subsequent review 18 months after the declaration, but only at the request of the State. The estimate from that review may cause the final lock-in to fluctuate up or down depending on the findings.

It is important for potential applicants to recognize that HMGP funds are contingent upon FEMA's reexamination of the disaster figures at the given time intervals. A county's funding allocation can increase or decrease after application submission.

Technical Assistance

The Division is in the process of scheduling HMGP application development workshop webinars and will be in touch with these counties in the next few weeks to finalize dates and times. The webinars will focus on the declared counties so that their project-specific concerns can be addressed by state staff.

Section IV – Budget/Costs

In order to assist applicants with filling out the following Budget section, we have provided the following instructions for your convenience. For this section, we ask that you provide details of all the estimated costs of the project, as it is used for the benefit-costs analysis as well as for the feasibility and effectiveness review.

For the cost sections relating to Materials, Labor, and Fees, it is important to note,

- Lump sums without supporting documentation showing a breakdown of those costs are not acceptable. For those items that will not fit in the spaces provided, attach the appropriate documentation to your application.
- Identify your match sources in sections B and I.
- Sub-Total cells will auto sum the costs in their respective columns.
- Do not factor management costs into parts A-C. If management costs are being requested, see part G.
- Contingency Costs need to be justified and reported as a separate line item in part E of this section. From left to right in that part, enter the desired percentage (maximum 5% of Material/Labor), the amount the percentage is to be applied to, and the resulting amount. **PLEASE NOTE**- These cells will not auto-calculate across the row, but the final cell will be calculated into the Final Project Cost below it. Take care that everything is calculated correctly.
- Pre-Award Costs: costs must be identified as a separate line item, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost and requested start date.
- Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.
- All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (below) AND identified on the Funding Sources - Section IV I.

For project management costs, in compliance with Disaster Relief and Recovery Act of 2018 (DRRA) and the subsequent FEMA Interim Policy #104-11-1, the Florida Division of Emergency Management has included a section for applicants to request, or refuse, project management funds that are available to them. Under this new policy, HMGP projects awarded under disasters declared on or after August 1, 2017, are eligible for project management costs up to 5 percent of their total project costs.

Applicants choosing to apply for this funding must detail the specific administrative costs in Part G of this section. These costs must be eligible administrative costs, conforming to the requirements set in 2 CFR Part 200 Subpart E. Applicants must ensure that their administrative costs are reasonable, allowable, allocable, and necessary for the performance of the federal award.

The State will allot these management costs on a project-by-project basis per the amount requested by the sub-recipient, up to 5 percent of the total project cost. A sub-recipient may request less than this, but no higher. These management costs will be considered a separate pool of funding, and **WILL NOT** affect a project's benefit-cost analysis.

Management costs will be reimbursed per reimbursement request, and no more than 5 percent of any given reimbursement request amount. All management costs reimbursements will be contingent upon adequate documentation from the sub-recipient.

Management costs will be reimbursed at 100 percent of the amount of management costs requested, so far as they are adequately documented and are no more than 5 percent of the request. Any unused management costs at closeout following the final payment will be de-obligated. If the final total project cost results in an under-run, management costs will be reduced accordingly.

Applicants must make the determination to request or refuse management costs at the time of formal application submittal. The State will accept the initial determination from the applicant. There will be no recourse from the State for applicants wishing to change their initial determination after the application has been formally submitted.

Section V. Environmental Review and Historic Preservation Compliance

(NOTE: This application cannot be processed if this section is not completed.)

Because the HMGP is a federally funded program, all projects are required to undergo an environmental and historic preservation review as part of the grant application process. Moreover, all projects must comply with the National Environmental Policy Act (NEPA) and associated Federal, State, Tribal, and Local statutes to obtain funding. **NO WORK can be done prior to the NEPA review process. If work is done on your proposed project before the NEPA review is completed, it will NOT be eligible for Federal funding.**

A. The following information is required for the Environmental and Historic Preservation review:

All projects must have adequate documentation to determine if the proposed project complies with NEPA and associated statutes. The State Environmental Staff provide comprehensive NEPA technical assistance for Applicants, with their consent, to complete the NEPA review. The type and quantity of NEPA documents required to make this determination varies depending upon the project's size, location, and complexity. However, at a minimum, provide the applicable documentation from this section to facilitate the NEPA compliance process.

C. Tribal Consultation *(Information Required)*

Section 106 of the National Historic Preservation Act (NHPA) requires federal agencies to take into account the effect of their undertakings on historic properties. The NHPA requires that agencies must complete this process prior to the expenditure of any Federal funds on the undertaking. A Tribal Consultation is required for any project disturbing ground or moving soil, including but not limited to: drainage projects; demolition; construction; elevation; communication towers; tree removal; utility improvements.

1. Describe the current and future use of the project location. A land use map may be provided in lieu of a written description.

D. Alternative Actions *(Information Required)*

The NEPA process requires that at least two alternative actions be considered that address the same problem/issue as the proposed project. In this section, list **two feasible** alternative projects to mitigate the hazards faced in the project area. One alternative is the "No Action Alternative".

1. No Action Alternative
Discuss the impacts on the project area if no action is taken.

On-Going or Proposed Projects in the Area	Determine if other projects, zoning changes, etc. are planned (particularly in the same watershed if flooding is being addressed) that may negatively or positively impact the proposed project. If there is a drainage project or downstream issue elsewhere, it may eliminate the current flooding issue, erasing the need for the proposed project. Response applies to drainage and acquisition projects. N/A is appropriate in wind retrofit shutter projects only. If this project is also being considered under the Public Assistance Program (406), describe in detail the 406 mitigation activities and/or services. Do not include project costs associated with this HMGP application.	☐

	photographs of specific elements of the structure affected by the project (windows for shutters or window replacements) should also be provided. Label photographs appropriately. In addition, CDs may be submitted.	

Section IV - Budget/Costs

Make sure all calculations are correct. Provide a breakdown of materials, labor and fees for the proposed project. Support documentation must be attached, i.e. vendor's quote, professional estimate (from engineer, architect, local building official, etc.). The proposed budget line items should represent allowable costs associated with the scope of work. Contingency Cost should be included as a line item in the budget section, and justified – Maximum allowed is 5%, and is required to complete this section; it will be used for the Benefit-Cost Analysis (BCA). Costs should be accurate, complete and reasonable compared to industry standards. Make sure the total cost is correct on the entire application.

A. Materials	List materials and their associated costs. Provide breakdown.	☐
B. Labor	Provide a breakdown of description, hours, rate, and cost or lump sum labor cost. Can use in-kind contribution as part of the 25% match. (Attach support documentation for in-kind, in-house to detail wages and salaries charged for any contribution. No overtime wages can be used to satisfy match contributions).	☐
C. Fees Paid	Provide a breakdown of associated fees i.e., consultants, studies, engineering, permits, and project management. Maintenance is not an allowable cost under HMGP. *Pre-award costs may be requested* **(See Pre-award Costs guidance).**	☐
D. Total Estimated Project Cost	This number includes all project costs without contingency costs included. Make sure all calculations are correct.	☐
E. Contingency Cost	Per FEMA's HMA Guidance (Section VI Part D.3.4), a contingency cost is, "an allowance in the total cost estimate to cover situations that cannot be fully defined at the time the cost estimate is prepared but that will likely result in additional eligible costs. Allowances for major project scope changes, unforeseen risks, or extraordinary events may not be included as contingency costs." The applicant may request up to 5% of material/labor costs. As with other line items, the applicant must justify these contingency costs based on the nature of the project at application. If an applicant wants to include contingency costs, they will need to enter the percentage that they require as well as what amount they want that percentage to be applied to. Type the resulting calculation in the final cell on the right. These cells will **NOT** auto-calculate. Be sure that they are calculated correctly.	☐
F. Final Project Cost	This number includes any contingency costs that were requested. The final BCA will use this number in its final calculation.	☐
G. Project Management Costs	After reading the guidance provided on pg. 5, select either **YES** or **NO** to indicate your need for management costs for this project. If **YES**, provide a breakdown of description, hours, rate and costs for requested management costs. If **NO**, continue to Part I.	☐

2. Non-Federal Share	May include all 3 sources, i.e. cash, in-kind and global match, as long as the total is a minimum of 25%. Match cannot be derived from a federal agency except Federal funds that lose their federal identity (e.g., CDBG funding and certain tribal funding).	☐

New and Existing Users

All entities wishing to do business with the federal government must have a unique entity identifier (UEI). The UEI number is issued by the SAM system. Requesting a UEI using Sam.gov can be found at: https://sam.gov/content/entity-registration.

Existing SAM.gov account holders should check their account to make sure it is “ACTIVE.” SAM registration should be completed at the very beginning of the year and should be renewed annually to avoid being “INACTIVE.” Please allow plenty of time before the grant application submission deadline to obtain an UEI number and then to register in SAM. It may be four weeks or more after an applicant submits the SAM registration before the registration is active in SAM, and then it may be an additional 24 hours before FEMA’s system recognizes the information.

It is imperative that the information applicants provide is correct and current. Please ensure that your organization’s name, address, and EIN are up to date in SAM and that the UEI number used in SAM is the same one used to apply for all other FEMA awards. Payment under any FEMA award is contingent on the recipient’s having a current SAM registration.

For new and existing users in DEMES, the UEI is used to identify entity accounts for all federal grant programs and it is important that the UEI for your entity is up-to-date to avoid any issues during the application process.

Requesting access

If you have already registered for an account in DEMES then disregard the information on this page.

1. Go to www.fdemportal.com/grants

2. The "**Register**" link will allow you to complete the required contact information to log in to the Division of Emergency Management Enterprise Solution (DEMES). Typically, your email address is also your username. Be sure to remember the password that you set on the initial Sign-Up page (Figures A and B).

3. Use the Account search to enter in the name of the organization for which you are requesting access. If the Account search does not render the organization, contact

   DEM_hazardmitigationgrantprogram@em.myflorida.com

   for assistance before clicking "Can't Find Account," as the account you are looking for may exist in a different format (Figure C).

4. The next "**Register for Access**" screens require more information to update your Contact record and to indicate the Organization Account for access purposes. **Make sure to select "Mitigation" as the Bureau you intend to submit an application under** as that is where your registration will go for approval (Figure D).

5. Complete the requested information (red asterisk * means required field) and click the Next button until you see a confirmation message that your request is under review.

This will submit your Contact information for approval by FDEM. You will receive email communication from FDEM about access to your organization's account.

If the "Register for Access" page is presented when you login to the community, it means that your request for access is still in the queue for processing by FDEM.

Do note that if you are a contractor or use an email that is not able to be verified to your relevant account, that additional verification will be required by your entity's supervisor.

Approval to submit Hazard Mitigation Grant Program (HMGP) applications under the Presidential Disaster Declaration for Hurricane Idalia (FEMA 4734-DR-FL) for Residential Elevation and Mitigation Reconstruction projects of approximately 16 privately owned properties with an estimated budget amount of $7,561,190.00 with homeowners providing the local match amount.

ITEM BACKGROUND:

The Florida Division of Emergency Management (Division) announced the availability of Hazard Mitigation Grant Program (HMGP) funds as a result of the recent Presidential Disaster Declaration for Hurricane Idalia (FEMA 4734-DR-FL). HMGP funding is authorized by Section 404 of the Robert T. Stafford Disaster Relief Act. This funding helps communities implement measures to reduce or eliminate long-term risk to people and property from natural hazards and their effects. The Division encourages all potential applicants to submit applications for projects that address eligible mitigation activities. The amount of HMGP funding available to the state is based on the total federal disaster assistance for the Presidential Disaster Declaration.

According to the Code of Federal Regulations (CFR) 44 §206.434(a), eligible applicants include local government who have an approved Local Mitigation Strategy (LMS) in accordance with 44 CFR §201.6, prior to receipt of HMGP subgrant funding for projects. Furthermore, activities include mitigation projects that will result in protection of public or private property from natural hazards such as Residential Elevation and Mitigation Reconstruction.

Under the HMGP, FEMA will contribute up to 75-percent of the total amount approved under the grant award to implement eligible, cost-effective mitigation measures. Homeowners in the grant applications will provide the remaining 25-percent non-federal share.

Staff received mitigation applications during the 2023 Flood Mitigation Assistance (FMA) grant cycle from property owners Countywide including incorporated cities and unincorporated Monroe County. These applications were submitted to the FDEM and FEMA for FMA 2023 consideration. However, the 2023 FMA applications had limited flood losses, and under the FMA program, FEMA prioritizes applicants with the greater flood losses. Finally, the HMGP program does not prioritize repetitive loss properties and therefore could be a better opportunity for these property owners and the County in the HMGP Idalia grant opportunity.

Staff will submit one (1) residential mitigation reconstruction application with ten (10) properties for a total budget of $5,592, 815.00 and one (1) residential elevation application with six (6) properties for a total budget of $1,968,375.00.

The application period will close April 30, 2024. The FDEM encourages potential applicants to submit complete applications before the close of the application period. Complete digital applications with supporting documents will be uploaded to FDEM no later than April 30, 2024.

If these applications are approved by FEMA/FDEM and selected for grant award, the State (FDEM) will enter into a grant agreement with the County for administration of the program. Monroe County will then execute a homeowner agreement with each owner, to assist homeowners in implementing their projects. The County will request management costs to help implement these projects.

PREVIOUS RELEVANT BOCC ACTION:

On October 20, 2021, Monroe County BOCC granted approval to submit 2021 FMA grant applications for Elevation, Mitigation Reconstruction and Acquisition Projects for privately owned properties.

On October 19,2022, Monroe County BOCC granted approval to submit 2022 FMA grant applications for Elevation, Mitigation Reconstruction and Acquisition Projects for privately owned properties.

On July 19, 2023, Monroe County BOCC granted approval to submit applications for mitigation reconstruction and residential elevation for 34 privately owned properties under Hurricane Nicole (FEMA-4680-DR-FL).

Director

MEMORANDUM

To: Local Governments, State and Regional Agencies, Indian Tribal Governments, Local Mitigation Strategy Working Groups, and Private Non-Profit Organizations Submitting Hazard Mitigation Grant Program Applications for Hurricane Idalia (DR-4734)

From: Kevin Guthrie, State Coordinating Officer 'For'

Subject: DR-4734 Hazard Mitigation Grant Program Notice of Funding Availability

Date: January 29, 2024

Program Summary

The Florida Division of Emergency Management (Division) is pleased to announce the availability of Hazard Mitigation Grant Program (HMGP) funds as a result of the recent Presidential Disaster Declaration for Hurricane Idalia (FEMA 4734-DR-FL), which was declared on August 31, 2023.

HMGP funding is authorized by Section 404 of the Robert T. Stafford Disaster Relief Act. This funding helps communities implement measures to reduce or eliminate long-term risk to people and property from natural hazards and their effects. The Division encourages all potential applicants to submit applications for projects that address eligible mitigation activities. The amount of HMGP funding available to the state is based on the total federal disaster assistance for the Presidential Disaster Declaration. The HMGP funding for this notice is for regular funds only and does not include funding options for initiative, codes and standards, or planning set-asides. Applications submitted for the latter obligations will not be accepted under this funding notice.

Current Changes

The Division will be using the Division of Emergency Management Enterprise Solution (DEMES) for the HMGP process. Applications are currently being accepted through DEMES and doing so **does not** require an additional hardcopy submission. Hardcopy applications are permitted pursuant to the Rule 27P-22, Florida Administrative Code; however, **the Division highly encourages all applications to solely be uploaded through DEMES**. If an applicant chooses to submit a hard copy of their application, a digital submission through DEMES is strongly advised as processing and project management will be done through this system.

If you have been granted access to DEMES for a past event, please use your existing account and do not re-register. If you have problems accessing your account, please use the DEMES contact below.

Application Timeline

The application period will close April 30, 2024. The Division encourages potential applicants to submit complete applications before the close of the application period. Applications will only be accepted from eligible applicants as defined in the *Minimum Program Eligibility* section of this notice.

Minimum Program Eligibility

Eligible Applicants: According to the Code of Federal Regulations (CFR) 44 §206.434(a), the following parties are eligible to apply for Hazard Mitigation Grant Program funds:

- State agencies
- Local governments who have an approved Local Mitigation Strategy (LMS) in accordance with 44 CFR §201.6, prior to receipt of HMGP subgrant funding for projects;
- Private non-profit organizations or institutions that own or operate a private non-profit facility as defined in 44 CFR §206.221(e); and
- Indian tribes or authorized tribal organizations

However, be advised that pursuant to Rule 27P-22, Florida Administrative Code, all project applications must go through the Local Mitigation Strategy Working Group (LMSWG) of the county where the project will take place. Any application sent to the Division without a signed endorsement letter, from either the Chair or Vice-Chair of an LMSWG, will be denied.

Eligible Activities: Activities include mitigation projects that will result in protection of public or private property from natural hazards. Activities for which implementation has already been initiated or completed are not eligible for funding. Eligible projects include, but are not limited to, the following:

- Acquisition (demolition or relocation) of existing at-risk structures
- Aquifer (recharge, storage and recovery) serve primarily as a drought management tool and reduce flood risk

- Dry Floodproofing structures by sealing the structure to keep floodwaters out
- Elevation of flood prone structures
- Flood Risk Reduction (Localized or Non-localized) – lessen the frequency or severity of flooding
- Generator for critical facilities or are an integral part of a larger eligible project
- Infrastructure Retrofit modifications to the existing infrastructure to reduce or eliminate the risk of future damage and increase protection
- Mitigation Reconstruction of properties that cannot be elevated
- Safe Room to provide immediate life-safety protection from severe wind events
- Secondary Power Source to increase power system resilience
- Stabilization to reduce risk to structures/infrastructure from erosion
- Structural Retrofit modifications addressing the structural element of a building/facility that are essential to increase protection
- Wildfire Mitigation - at-risk structures and associated loss of life from the threat of future wildfires
- Wind Retrofit modifications to the existing structure to reduce or eliminate the risk of future damage and increase protection

Ineligible Activities: The state will **not** consider funding requests for the following:

- Construction of new facilities (Nevertheless, the cost associated with Code Plus upgrades to new facilities may be considered);
- Equipment such as emergency pumps, vehicles, and communication devices;
- Stand-alone studies, design, and planning-related activities, not directly related to the design and implementation of a proposed mitigation project;
- Tree removal, debris removal, and other forms of maintenance; or
- ***Projects already in progress*** *(Construction may not begin until the contract between the State and subrecipient is executed and the project has met requirements of the National Environmental Policy Act).*

Eligibility Criteria: All projects submitted must meet *minimum criteria* to be considered for funding. An eligible project must:

- Conform to the requirements stated in this Notice of Funding Availability;
- Conform to the Florida State Hazard Mitigation Plan and the respective community's LMS;
- Conform to the funding priorities for the disaster, as established in the appropriate LMS;
- Demonstrate cost-effectiveness;
- Be technically feasible;
- Benefit the designated disaster area;
- Conform to all applicable environmental laws and regulations, as well as Executive Orders;
- Solve a problem independently or constitute a functional part of a solution;

- Benefit a National Flood Insurance Program (NFIP) participating community that is not on probation or suspended from the NFIP; and
- Meet all applicable State and local codes and standards.

Cost-Share Requirements

Under the HMGP, FEMA will contribute up to 75-percent of the total amount approved under the grant award to implement eligible, cost-effective mitigation measures. The applicant must provide the remaining 25-percent non-federal share. Contributions, cash, and in-kind services are acceptable as part of the non-federal share. Requirements for in-kind contributions can be found in 2 CFR §200.306. In-kind contributions must be directly related to the eligible project cost and are those personnel, materials, equipment and supplies owned, controlled, and operated by the applicant or a third-party contributor.

Applicants may use the Global Match concept as part of the 25-percent non-federal share. Global Match permits a potential applicant to meet the non-federal share match by receiving credit for state and/or local government funds that were committed to a similar type of project(s). These similar, **non-federally** funded projects require a separate application submission, must meet all of the HMGP eligibility requirements, and be submitted under the same disaster. This means that if Global Match is approved, the applicant may receive up to 100-percent federal share. Phased projects are not eligible for Global Match.

Pre-Award Costs

Prior to receiving a grant award, pre-award costs may be requested. Pre-award costs include items such as engineering, environmental study, permitting, and other "soft" costs associated with a construction project. *Construction activities are not considered pre-award costs*. Pre-award costs must be requested, in writing, by submitting a signed Pre-award request form at application submittal and included in the budget as separate line-item. Directions for getting this form are included in *Attachment A*.

Procurement

Any procurement of property or services under a federal award must conform to 2 CFR §200 Subpart D (§§ 200.317 - 200.327). This also includes any activities performed as a part of the pre-award request.

Sub-Recipient Management Costs

Per FEMA Hazard Mitigation Grant Program Interim Policy 104-11-1, HMGP projects awarded under disasters, on or after the effective date, are eligible for sub-recipient management costs (SRMC) up to a hard cap of 5 percent of their eligible and actual project costs. SRMC is a separate pool of funding and will not be calculated as part of the benefit-cost analysis (BCA). SRMC will be reimbursed at a 100 percent federal cost share following the submission of compliant source documentation in conformance with 2 CFR 200 Subpart E. Additional information on SRMC can be found in the attached application (*Attachment F*)

and the HMGP SRMC Request Form (*Attachment G*). Any applicant requesting SRMC will need to submit *Attachment G* along with their application.

County Funding Allocation

To ensure funds are distributed equitably, designated counties have been assigned a portion of the total HMGP grant. The amount is based on a calculation of the proportional share of the total federal assistance under the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) programs. Commitment of project funds by the Division is contingent upon receipt of appropriate Legislative Budget Authority.

These figures are shown in Attachment *B* and represent the estimated amount of HMGP funds currently available. HMGP funding is available only to those counties that have a current FEMA-approved LMS. Project applications will be considered only if:

(1) The application is accompanied by an endorsement by the LMS Chairperson or Vice-Chairperson stating that the project is included in the current LMS; and,

(2) If more than one project is submitted, the endorsement indicates the prioritization. A sample project submission letter is shown in Attachment *C*.

The Division will attempt to fund each submitted project in priority order until the county's allocation has been exhausted. In accordance with Florida Administrative Code (F.A.C.) 27P-22.006, the Division uses the following tiered allocation system up until the State application deadline with FEMA:

Tier 1
The available HMGP funds are allocated to counties included in the relevant Presidential Disaster Declaration in proportion to each county's share of federal disaster funding from the Public Assistance (PA), Individual Assistance (IA), and Small Business Administration (SBA) Disaster Loan Program as of 120 days after a Disaster Declaration as reported by FEMA. Eligible projects submitted by each county included in the relevant Presidential Disaster Declaration will be funded in order of priority as outlined in the LMS until the allocated funds are exhausted or all eligible projects are funded.

Tier 2
Any allocation remaining after all eligible projects in any declared county are funded shall be re-allocated to those counties included in the relevant Presidential Disaster Declaration whose allocation was not sufficient to fund all submitted eligible projects. The order of priority for re-allocating funds is detailed in Attachment D.

Tier 3
In the event that funds remain after the Tier 1 and Tier 2 processes, any remaining funds will be offered on a statewide basis as described in Attachment D.

Please see Attachment D for a detailed explanation of funding tiers.

Funding Availability and Notification

FEMA notifies the State of HMGP funding availability at the following milestones:

Initial 30-Day Estimate
This is an early estimate only and not an actual commitment of funding by FEMA. Funding may increase or decrease based on actual disaster claims during the declaration period. These estimates are provided for planning purposes and to jump-start the HMGP application process.

Obligation prior to 12 Months
Prior to the 12-month lock-in, FEMA will only obligate funds up to 75% of any current estimate. This is to eliminate the risk of over-obligating funds for any given disaster in the event the 12-month lock-in is lower than initially estimated.

12 Months from the Date of Declaration
This represents the State's Lock-in Amount. It is the maximum amount available the state can expect to receive from FEMA. In rare occurrences, FEMA may conduct a subsequent review 18 months after the declaration, but only at the request of the State. The estimate from that review may cause the final lock-in to fluctuate up or down depending on the findings.

It is important for potential applicants to recognize that HMGP funds are contingent upon FEMA's reexamination of the disaster figures at the given time intervals. A county's funding allocation can increase or decrease after application submission.

Technical Assistance

The Division is in the process of scheduling HMGP application development workshop webinars and will be in touch with these counties in the next few weeks to finalize dates and times. The webinars will focus on the declared counties so that their project-specific concerns can be addressed by state staff.

Please check the Division's website FloridaDisaster.org/hmgp for technical guidance. The Division will provide additional technical assistance throughout the application process. This includes assistance with the application process, Benefit Cost Analysis, Engineering Feasibility and Environmental/Historical Preservation Compliance. (a) Eligible and submitted projects for each county included in the relevant presidential disaster declaration will be funded in order of priority as outlined in the LMS Working Group endorsement letter until the allocated funds are exhausted, or all eligible projects are funded, whichever occurs first.

(b) Any allocation remaining after all eligible projects in any declared county are funded shall be reallocated to those counties included in the relevant presidential disaster declaration whose allocation was not sufficient to fund all submitted eligible projects in proportion to each county's share of unfunded projects.

(2) If funds remain after all eligible projects under subsection (1) above have been funded, then they shall be applied to fund eligible projects submitted from counties not included in the relevant presidential disaster declaration on a first-come-first-served basis until all available funds are obligated.

(3) Once a project has been selected for funding, the agreement between the applicant and the Division regarding the terms and conditions of the grant shall be formalized by contract.

Section IV – Budget/Costs

In order to assist applicants with filling out the following Budget section, we have provided the following instructions for your convenience. For this section, we ask that you provide details of all the estimated costs of the project, as it is used for the benefit-costs analysis as well as for the feasibility and effectiveness review.

For the cost sections relating to Materials, Labor, and Fees, it is important to note,

- Lump sums without supporting documentation showing a breakdown of those costs are not acceptable. For those items that will not fit in the spaces provided, attach the appropriate documentation to your application.
- Identify your match sources in sections B and I.
- Sub-Total cells will auto sum the costs in their respective columns.
- Do not factor management costs into parts A-C. If management costs are being requested, see part G.
- Contingency Costs need to be justified and reported as a separate line item in part E of this section. From left to right in that part, enter the desired percentage (maximum 5% of Material/Labor), the amount the percentage is to be applied to, and the resulting amount. **PLEASE NOTE**- These cells will not auto-calculate across the row, but the final cell will be calculated into the Final Project Cost below it. Take care that everything is calculated correctly.
- Pre-Award Costs: costs must be identified as a separate line item, AND a completed HMGP Pre-Award Cost Request Form MUST be submitted with this application, detailing the items/cost and requested start date.
- Mark all In-kind (donated) services with (**); In-house (employee) services with (***), per each line item.
- All funding sources (In-kind, In-house, Global Match, and Other Agencies) must be identified (below) AND identified on the Funding Sources - Section IV I.

For project management costs, in compliance with Disaster Relief and Recovery Act of 2018 (DRRA) and the subsequent FEMA Interim Policy #104-11-1, the Florida Division of Emergency Management has included a section for applicants to request, or refuse, project management funds that are available to them. Under this new policy, HMGP projects awarded under disasters declared on or after August 1, 2017, are eligible for project management costs up to 5 percent of their total project costs.

Applicants choosing to apply for this funding must detail the specific administrative costs in Part G of this section. These costs must be eligible administrative costs, conforming to the requirements set in 2 CFR Part 200 Subpart E. Applicants must ensure that their administrative costs are reasonable, allowable, allocable, and necessary for the performance of the federal award.

The State will allot these management costs on a project-by-project basis per the amount requested by the sub-recipient, up to 5 percent of the total project cost. A sub-recipient may request less than this, but no higher. These management costs will be considered a separate pool of funding, and **WILL NOT** affect a project's benefit-cost analysis.

Management costs will be reimbursed per reimbursement request, and no more than 5 percent of any given reimbursement request amount. All management costs reimbursements will be contingent upon adequate documentation from the sub-recipient.

Management costs will be reimbursed at 100 percent of the amount of management costs requested, so far as they are adequately documented and are no more than 5 percent of the request. Any unused management costs at closeout following the final payment will be de-obligated. If the final total project cost results in an under-run, management costs will be reduced accordingly.

Applicants must make the determination to request or refuse management costs at the time of formal application submittal. The State will accept the initial determination from the applicant. There will be no recourse from the State for applicants wishing to change their initial determination after the application has been formally submitted.

Section V. Environmental Review and Historic Preservation Compliance

(NOTE: This application cannot be processed if this section is not completed.)

Because the HMGP is a federally funded program, all projects are required to undergo an environmental and historic preservation review as part of the grant application process. Moreover, all projects must comply with the National Environmental Policy Act (NEPA) and associated Federal, State, Tribal, and Local statutes to obtain funding. **NO WORK can be done prior to the NEPA review process. If work is done on your proposed project before the NEPA review is completed, it will NOT be eligible for Federal funding.**

A. The following information is required for the Environmental and Historic Preservation review:

All projects must have adequate documentation to determine if the proposed project complies with NEPA and associated statutes. The State Environmental Staff provide comprehensive NEPA technical assistance for Applicants, with their consent, to complete the NEPA review. The type and quantity of NEPA documents required to make this determination varies depending upon the project's size, location, and complexity. However, at a minimum, provide the applicable documentation from this section to facilitate the NEPA compliance process.

C. Tribal Consultation *(Information Required)*

Section 106 of the National Historic Preservation Act (NHPA) requires federal agencies to take into account the effect of their undertakings on historic properties. The NHPA requires that agencies must complete this process prior to the expenditure of any Federal funds on the undertaking. A Tribal Consultation is required for any project disturbing ground or moving soil, including but not limited to: drainage projects; demolition; construction; elevation; communication towers; tree removal; utility improvements.

1. Describe the current and future use of the project location. A land use map may be provided in lieu of a written description.

Does the proposed project address a problem that has been repetitive or that poses a significant risk to public health and safety if left unresolved (44 CFR 206.434[c][5][i])?* Projects that merely identify or analyze hazards or problems are not eligible.	
4. On-Going or Proposed Projects in the Area	Determine if other projects, zoning changes, etc. are planned (particularly in the same watershed if flooding is being addressed) that may negatively or positively impact the proposed project. If there is a drainage project or downstream issue elsewhere, it may eliminate the current flooding issue, erasing the need for the proposed project. Response applies to drainage and acquisition projects. N/A is appropriate in wind retrofit shutter projects only. If this project is also being considered under the Public Assistance Program (406), describe in detail the 406 mitigation activities and/or services. Section IV - Budget/Costs

Make sure all calculations are correct. Provide a breakdown of materials, labor and fees for the proposed project. Support documentation must be attached, i.e. vendor's quote, professional estimate (from engineer, architect, local building official, etc.). The proposed budget line items should represent allowable costs associated with the scope of work. Contingency Cost should be included as a line item in the budget section, and justified – Maximum allowed is 5%, and is required to complete this section; it will be used for the Benefit-Cost Analysis (BCA). Costs should be accurate, complete and reasonable compared to industry standards. Make sure the total cost is correct on the entire application.

A. Materials	List materials and their associated costs. Provide breakdown.	☐
B. Labor	Provide a breakdown of description, hours, rate, and cost or lump sum labor cost. Can use in-kind contribution as part of the 25% match. D. Total Estimated Project Cost	This number includes all project costs without contingency costs included. Make sure all calculations are correct.	☐
E. Contingency Cost	Per FEMA's HMA Guidance (Section VI Part D.3.4), a contingency cost is, "an allowance in the total cost estimate to cover situations that cannot be fully defined at the time the cost estimate is prepared but that will likely result in additional eligible costs. Allowances for major project scope changes, unforeseen risks, or extraordinary events may not be included as contingency costs." The applicant may request up to 5% of material/labor costs. As with other line items, the applicant must justify these contingency costs based on the nature of the project at application. If an applicant wants to include contingency costs, they will need to enter the percentage that they require as well as what amount they want that percentage to be applied to. Type the resulting calculation in the final cell on the right. These cells will **NOT** auto-calculate. Be sure that they are calculated correctly.	☐
F. Final Project Cost	This number includes any contingency costs that were requested. The final BCA will use this number in its final calculation.	☐
G. Project Management Costs	After reading the guidance provided on pg. 5, select either **YES** or **NO** to indicate your need for management costs for this project. If **YES**, provide a breakdown of description, hours, rate and costs for requested management costs. If **NO**, continue to Part I.	☐

2. Non-Federal Share	May include all 3 sources, i.e. cash, in-kind and global match, as long as the total is a minimum of 25%. Match cannot be derived from a federal agency except Federal funds that lose their federal identity (e.g., CDBG funding and certain tribal funding).	☐

4. Total In-Kind	May use materials, personnel, equipment, and supplies owned, controlled and operated from within governing jurisdiction as an in-kind match. *Third party in-kind contributions would be volunteer services, employee services from other*	☐

	*organizations furnished free of charge, donated supplies, and loaned equipment or space. The value placed on these resources must be at a fair market value and must be documented. If in-kind is claimed from outside the applicant jurisdiction, it must be cash only. ** Identify proposed eligible activities in Section IV B. and C. as a separate line with In-kind written as a part of the description.*	
5. Total In-house	Sub-Recipient employees, equipment, etc. – internal services (must utilize the Personnel Activity Report or the Equipment Activity Report for the Request for Reimbursement)	☐

Projects submitted as global match for another project must meet the same period of performance time constraints as the HMGP.*	☐
7. Other Agency Share	Identify Non-Federal Agency and availability date; provide the documentation from the agency. (e.g., CDBG funding, and certain tribal funding)	☐
8. Total Funding	Total must represent (100%) of the total estimated project cost. Ensure that percentages match corresponding cost-shares and the total matches the Budget (in Section IV. F. - Total Estimated Project Cost).	☐
9.	Your requested amount must be equal to or less than 5 percent of the total project cost	☐

J. Project Milestones/Schedule of Work

1. Milestones (Schedule)	Identify the major milestones in the proposed project and provide an estimated time-line *(e.g. Designing, Engineering – 3 months, Permitting – 6 months, Procurement – 30 days, Installation – 6 months, Contracting – 1 month, Delays, Project Implementation, Inspections, Closeout, etc.)* for the critical activities not to exceed a period of 3 years (36-months) for performance. New and Existing Users

All entities wishing to do business with the federal government must have a unique entity identifier (UEI). The UEI number is issued by the SAM system. Requesting a UEI using Sam.gov can be found at: https://sam.gov/content/entity-registration.

Existing SAM.gov account holders should check their account to make sure it is “ACTIVE.” SAM registration should be completed at the very beginning of the year and should be renewed annually to avoid being “INACTIVE.” Please allow plenty of time before the grant application submission deadline to obtain an UEI number and then to register in SAM. It may be four weeks or more after an applicant submits the SAM registration before the registration is active in SAM, and then it may be an additional 24 hours before FEMA’s system recognizes the information.

It is imperative that the information applicants provide is correct and current. Please ensure that your organization’s name, address, and EIN are up to date in SAM and that the UEI number used in SAM is the same one used to apply for all other FEMA awards. Payment under any FEMA award is contingent on the recipient’s having a current SAM registration.

For new and existing users in DEMES, the UEI is used to identify entity accounts for all federal grant programs and it is important that the UEI for your entity is up-to-date to avoid any issues during the application process.

Requesting access

If you have already registered for an account in DEMES then disregard the information on this page.

1. Go to www.fdemportal.com/grants

2. The "**Register**" link will allow you to complete the required contact information to log in to the Division of Emergency Management Enterprise Solution (DEMES). Typically, your email address is also your username. Be sure to remember the password that you set on the initial Sign-Up page (Figures A and B).

3. Use the Account search to enter in the name of the organization for which you are requesting access. If the Account search does not render the organization, contact

   DEM_hazardmitigationgrantprogram@em.myflorida.com

   for assistance before clicking "Can't Find Account," as the account you are looking for may exist in a different format (Figure C).

4. The next "**Register for Access**" screens require more information to update your Contact record and to indicate the Organization Account for access purposes. **Make sure to select "Mitigation" as the Bureau you intend to submit an application under** as that is where your registration will go for approval (Figure D).

5. Complete the requested information (red asterisk * means required field) and click the Next button until you see a confirmation message that your request is under review.

This will submit your Contact information for approval by FDEM. You will receive email communication from FDEM about access to your organization's account.

If the "Register for Access" page is presented when you login to the community, it means that your request for access is still in the queue for processing by FDEM.

Do note that if you are a contractor or use an email that is not able to be verified to your relevant account, that additional verification will be required by your entity's supervisor.

WHEREAS, the State of Florida and all local governments in the Florida Keys (each subject to Area of Critical State Concern mandates relating to housing affordability) recognize the need for affordable housing throughout the state and particularly in the Florida Keys where developable land for housing is extremely limited and expensive; and

WHEREAS, the challenge of providing affordable housing opportunities in the Florida Keys is one requiring sensible and responsive use of residential unit allocations, including implementation of long-term preservation mechanisms; and

WHEREAS, due consideration should be given to relevant factors such as the capacity for allocation recipients to promptly transform allocation awards/reservations into finished and occupied affordable/workforce housing units; and

WHEREAS, Section 138-24(b)(2) of the Monroe County Land Development Code allows the BOCC to authorize reservations for "the county housing authority, nonprofit community development organizations, pursuant to Section 139-1(e), and other public entities established to provide affordable housing by entering into a memorandum of understanding with one or more of these agencies"; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., is proposing to develop ten affordable-employee housing units; and

WHEREAS, the reservation of affordable housing allocation for the anticipated units does not exempt the units from applicable requirements for the Monroe County Comprehensive Plan and Code(s), the Florida Building Code, floodplain management regulations, and other like requirements; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., shall obtain all required approvals from the Monroe County Planning & Environmental Resources Department for the units; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., shall obtain permits for the affordable-employee housing dwelling units by June 21, 2027, but if the permit for a reserved ROGO allocation housing unit is not issued by that time, the allocation will revert to the County;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MONROE COUNTY, FLORIDA:

Section 1. The foregoing recitals are true and correct, and are hereby incorporated as if fully set forth herein.

Section 2. The Monroe County Planning Department shall reserve ten (10) low income category affordable ROGO allocations, for Habitat for Humanity of the Upper Keys, Inc. ("Developer"), for development of affordable-employee housing dwelling units on sites to be determined within unincorporated Monroe County, until June 21, 2027.

Section 3. The developer must obtain the building permits for the ten affordable housing units on or before June 21, 2027.

Section 4. The developer shall comply with all provisions of the Monroe County Code(s), Monroe County Comprehensive Plan, Florida Building Code, and shall comply with all applicable floodplain management regulations, and any other oversight agencies and their respective regulatory requirements.

Section 5. The Planning and Environmental Resources Department and Building Department staffs are hereby authorized to expeditiously process permit related applications for the above referenced project when received.

Section 6. Construction and Interpretation. The construction and interpretation of this resolution and all Monroe County Comprehensive Plan provision(s), Florida Building Code, Florida Statutes, and Monroe County Code(s) provision(s) whose interpretation arises out of, relates to, or is interpreted in connection with this resolution shall be liberally construed and enforced in favor of Monroe County to effectuate its public purpose(s) and policy(ies) of the County, and shall be deferred in favor of the BOCC and such construction and interpretation shall be entitled to great weight in adversarial administrative proceedings, at trial, bankruptcy, and on appeal.

Section 7. No Liability. Monroe County expressly reserves and in no way shall be deemed to have waived, for itself or for its officer(s), employee(s), or agent(s), any sovereign, governmental, and any other similar defense, immunity, exemption, or protection against any suit, cause-of-action, demand, or liability.

Section 8. Severability. If any provision of this resolution, or any part or portion thereof, is held to be invalid or unenforceable by any administrative hearing officer or court of competent jurisdiction, the invalidity or unenforceability of such provision, or any part or portion thereof, shall neither limit nor impair the operation, enforceability, or validity of any other provision of this resolution, or any remaining part(s) or portion(s) thereof. All other provisions of this resolution, and remaining part(s) or portion(s) thereof, shall continue unimpaired in full force and effect.

Building houses in partnership with God's people in need

Monroe County Land Authority,
Attn: Christine Hurley
1100 Simonton Street,
Key West, FL 33040

February 5, 2024

Dear Ms Hurley,
Habitat for Humanity of the Upper Keys (HfHUK) wanted to express its interest in leasing the following 3 sites for the purpose of building affordable housing:

- 15 Hibiscus Lane in Key Largo, RE:00507510-000000
- 17 Hibiscus Lane in Key Largo, RE: 00507520-000000
- 159 Florida Avenue in Key Largo, RE: 00479430-000000

At the first two requested sites (15 & 17 Hibiscus Lane), Habitat proposes our standard single-family home design on each. These are 3-bedroom, 2-bathroom approximately 1,100 square foot stilted homes.

For the 3rd listed location on Florida Avenue, HfHUK would like to explore the option of 6 attached multi-family dwelling units. However, we will need to work with the Monroe County Planner, as well as an architect, to finalize our proposal and approach to this parcel.

These 3 properties would offer another potential 8 units of critically needed affordable housing in Monroe County. In addition, it's important to note that Habitat Upper Keys constructs with accessibility, durability and sustainability standards, including EnergyStar, Indoor airPLUS and WaterSense requirements, plus we attempt to utilize local contractors when feasible.

We look forward to partnering with the County on these 3 projects. Feel free to let me know if you have any questions or need anything further from myself or my Board of Directors.

Regards,

Lindsay Fast

WHEREAS, the State of Florida and all local governments in the Florida Keys (each subject to Area of Critical State Concern mandates relating to housing affordability) recognize the need for affordable housing throughout the state and particularly in the Florida Keys where developable land for housing is extremely limited and expensive; and

WHEREAS, the challenge of providing affordable housing opportunities in the Florida Keys is one requiring sensible and responsive use of residential unit allocations, including implementation of long-term preservation mechanisms; and

WHEREAS, due consideration should be given to relevant factors such as the capacity for allocation recipients to promptly transform allocation awards/reservations into finished and occupied affordable/workforce housing units; and

WHEREAS, Section 138-24(b)(2) of the Monroe County Land Development Code allows the BOCC to authorize reservations for "the county housing authority, nonprofit community development organizations, pursuant to Section 139-1(e), and other public entities established to provide affordable housing by entering into a memorandum of understanding with one or more of these agencies"; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., is proposing to develop ten affordable-employee housing units; and

WHEREAS, the reservation of affordable housing allocation for the anticipated units does not exempt the units from applicable requirements for the Monroe County Comprehensive Plan and Code(s), the Florida Building Code, floodplain management regulations, and other like requirements; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., shall obtain all required approvals from the Monroe County Planning & Environmental Resources Department for the units; and

WHEREAS, Habitat for Humanity of the Upper Keys, Inc., shall obtain permits for the affordable-employee housing dwelling units by June 21, 2027, but if the permit for a reserved ROGO allocation housing unit is not issued by that time, the allocation will revert to the County;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MONROE COUNTY, FLORIDA:

Section 1. The foregoing recitals are true and correct, and are hereby incorporated as if fully set forth herein.

Section 2. The Monroe County Planning Department shall reserve ten (10) low income category affordable ROGO allocations, for Habitat for Humanity of the Upper Keys, Inc. ("Developer"), for development of affordable-employee housing dwelling units on sites to be determined within unincorporated Monroe County, until June 21, 2027.

Section 3. The developer must obtain the building permits for the ten affordable housing units on or before June 21, 2027.

Section 4. The developer shall comply with all provisions of the Monroe County Code(s), Monroe County Comprehensive Plan, Florida Building Code, and shall comply with all applicable floodplain management regulations, and any other oversight agencies and their respective regulatory requirements.

Section 5. The Planning and Environmental Resources Department and Building Department staffs are hereby authorized to expeditiously process permit related applications for the above referenced project when received.

Section 6. Construction and Interpretation. The construction and interpretation of this resolution and all Monroe County Comprehensive Plan provision(s), Florida Building Code, Florida Statutes, and Monroe County Code(s) provision(s) whose interpretation arises out of, relates to, or is interpreted in connection with this resolution shall be liberally construed and enforced in favor of Monroe County to effectuate its public purpose(s) and policy(ies) of the County, and shall be deferred in favor of the BOCC and such construction and interpretation shall be entitled to great weight in adversarial administrative proceedings, at trial, bankruptcy, and on appeal.

Section 7. No Liability. Monroe County expressly reserves and in no way shall be deemed to have waived, for itself or for its officer(s), employee(s), or agent(s), any sovereign, governmental, and any other similar defense, immunity, exemption, or protection against any suit, cause-of-action, demand, or liability.

Section 8. Severability. If any provision of this resolution, or any part or portion thereof, is held to be invalid or unenforceable by any administrative hearing officer or court of competent jurisdiction, the invalidity or unenforceability of such provision, or any part or portion thereof, shall neither limit nor impair the operation, enforceability, or validity of any other provision of this resolution, or any remaining part(s) or portion(s) thereof. All other provisions of this resolution, and remaining part(s) or portion(s) thereof, shall continue unimpaired in full force and effect.

Building houses in partnership with God's people in need

Monroe County Land Authority,
Attn: Christine Hurley
1100 Simonton Street,
Key West, FL 33040

February 5, 2024

Dear Ms Hurley,
Habitat for Humanity of the Upper Keys (HfHUK) wanted to express its interest in leasing the following 3 sites for the purpose of building affordable housing:

- 15 Hibiscus Lane in Key Largo, RE:00507510-000000
- 17 Hibiscus Lane in Key Largo, RE: 00507520-000000
- 159 Florida Avenue in Key Largo, RE: 00479430-000000

At the first two requested sites (15 & 17 Hibiscus Lane), Habitat proposes our standard single-family home design on each. These are 3-bedroom, 2-bathroom approximately 1,100 square foot stilted homes.

For the 3rd listed location on Florida Avenue, HfHUK would like to explore the option of 6 attached multi-family dwelling units. However, we will need to work with the Monroe County Planner, as well as an architect, to finalize our proposal and approach to this parcel.

These 3 properties would offer another potential 8 units of critically needed affordable housing in Monroe County. In addition, it's important to note that Habitat Upper Keys constructs with accessibility, durability and sustainability standards, including EnergyStar, Indoor airPLUS and WaterSense requirements, plus we attempt to utilize local contractors when feasible.

We look forward to partnering with the County on these 3 projects. Feel free to let me know if you have any questions or need anything further from myself or my Board of Directors.

Regards,

Lindsay Fast

ITEM BACKGROUND:
In 2005, at Monroe County's request, the State of Florida ("State") expanded the Florida Forever land acquisition project to include most Tier 1 lands. Since 2007, the County has approved Amendment Nos. 1 - 16 to the Lease to include additional parcels purchased by the State. The proposed amendment (Amendment No. 17) adds additional State-owned parcels to the existing management lease. Funding for any potential land management activities (invasive exotic plant removal, trash cleanup, etc.) will come from State exotic plant removal funding and County permitting fees paid into the Environmental Land Management and Restoration Fund.

13. INSURANCE REQUIREMENTS: During the term of this lease LESSEE shall procure and maintain policies of fire, extended risk, and liability insurance coverage. The extended risk and fire insurance coverage shall be in an amount equal to the full insurable replacement value of any improvements or fixtures located on the leased premises. The liability insurance coverage shall be in amounts not less than $100,000 per person and $200,000 per incident or occurrence for personal injury, death, and property damage on the leased premises. Such policies of insurance shall name LESSOR, the State of Florida

and LESSEE as additional insureds. LESSEE shall submit written evidence of having procured all insurance policies required herein prior to the effective date of this lease and shall submit annually thereafter, written evidence of maintaining such insurance to the Bureau of Public Land Administration, Division of State Lands, State of Florida Department of Environmental Protection, Mail Station 130, 3800 Commonwealth Boulevard, Tallahassee, Florida 32399-3000. LESSEE shall purchase all policies of insurance from a financially-responsible insurer duly authorized to do business in the State of Florida. Any certificate of self-insurance shall be issued or approved by the Chief Financial Officer, State of Florida. The certificate of self-insurance shall provide for casualty and liability coverage. LESSEE shall immediately notify LESSOR and the insurer of any erection or removal of any building or other improvement on the leased premises and any changes affecting the value of any improvements and shall request the insurer to make adequate changes in the coverage to reflect the changes in value. LESSEE shall be financially responsible for any loss due to failure to obtain adequate insurance coverage, and the failure to maintain such policies or certificate in the amounts set forth shall constitute a breach of this lease.

In no event shall the LESSEE be held liable for such liabilities which arose prior to the effective date of this lease.

16. NO WAIVER OF BREACH: The failure of LESSOR to insist in any one or more instances upon strict performance of any one or more of the covenants, terms and conditions of this lease shall not be construed as a waiver of such covenants, terms or conditions, but the same shall continue in full force and effect, and no waiver of LESSOR of any of the provisions hereof shall in any event be deemed to have been made unless the waiver is set forth in writing, signed by LESSOR.

17. TIME: Time is expressly declared to be of the essence of this lease.

18. NON-DISCRIMINATION: LESSEE shall not discriminate against any individual because of that individual's race, color, religion, sex, national origin, age, handicap, or marital status with respect to any activity occurring within the leased premises or upon lands adjacent to and used as an adjunct of the leased premises.

19. UTILITY FEES: LESSEE shall be responsible for the payment of all charges for the furnishing of gas, electricity, water and other public utilities to the leased premises and for having the utilities turned off when the leased premises are surrendered.

21. RIGHT OF AUDIT: LESSEE shall make available to LESSOR all financial and other records relating to this lease, and LESSOR shall have the right to audit such records at any reasonable time during the term of this lease. This right shall be continuous until this lease expires or is terminated. This lease may be terminated by LESSOR should LESSEE fail to allow public access to all documents, papers, letters or other materials made or received in conjunction with this lease, pursuant to the provisions of Chapter 119, Florida Statutes.

22. CONDITION OF PREMISES: LESSOR assumes no liability or obligation to LESSEE with reference to the conditions of the leased premises. The leased premises herein are leased by LESSOR to LESSEE in an "as is" condition, with LESSOR assuming no responsibility for the care, repair, maintenance or improvement of the leased premises for the benefit of LESSEE.

23. COMPLIANCE WITH LAWS: LESSEE agrees that this lease is contingent upon and subject to LESSEE obtaining all applicable permits and complying with all applicable permits, regulations, ordinances, rules, and laws of the State of Florida or the United States or of any political subdivision or agency of either.

24. NOTICE: All notices given under this lease shall be in writing and shall be served by certified mail including, but not limited to, notice of any violation served pursuant to Section 253.04, Florida Statutes, to the last address of the party to whom notice is to be given, as designated by such party in writing. 25. BREACH OF COVENANTS, TERMS, OR CONDITIONS: Should LESSEE breach any of the covenants, terms, or conditions of this lease, LESSOR shall give written notice to LESSEE to remedy such breach within sixty days of such notice. In the event LESSEE fails to remedy the breach to the satisfaction of LESSOR within sixty days of receipt of written notice, LESSOR may either terminate this lease and recover from LESSEE all damages LESSOR may incur by reason of the breach including, but not limited to, the cost of recovering the leased premises and attorneys' fees or maintain this lease in full force and effect and exercise all rights and remedies herein conferred upon LESSOR.

26. DAMAGE TO THE PREMISES: (a) LESSEE shall not do, or suffer to be done, in, on or upon the leased premises or as affecting said leased premises or adjacent properties, any act which may result in damage or depreciation of value to the leased premises or adjacent properties, or any part thereof. LESSEE'S obligations set forth in this paragraph shall survive the termination or expiration of this lease. This paragraph shall not be construed as a limitation upon LESSEE'S obligations as set forth in paragraph 14 of this lease, nor upon any other obligations or responsibilities of LESSEE as set forth herein. Nothing herein shall relieve LESSEE of any responsibility or liability prescribed by law for fines, penalties and damages levied by governmental agencies, and the cost of cleaning up any contamination caused directly or indirectly by LESSEE'S activities or facilities. Upon discovery of a release of a hazardous substance or pollutant, or any other

violation of local, state or federal law, ordinance, code, rule, regulation, order or decree relating to the generation, storage, production, placement, treatment, release or discharge of any contaminant, LESSEE shall report such violation to all applicable governmental agencies having jurisdiction, and to LESSOR, all within the reporting periods of the applicable governmental agencies. This paragraph shall not be deemed to apply to any conditions existing prior to the effective date of this lease.

28. SURRENDER OF PREMISES: Upon termination or expiration of this lease, LESSEE shall surrender the leased premises to LESSOR. In the event no further use of the leased premises or any part thereof is needed, LESSEE shall give written notification to the Bureau of Public Land Administration, Division of State Lands, State of Florida Department of Environmental Protection, Mail Station 130, 3800 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, at least six months prior to the release of any or all of the leased premises. Notification shall include a legal description, this lease number, and an explanation of the release. The release shall only be valid if approved by LESSOR through the execution of a release of lease instrument with the same formality as this lease. Upon release of all or any part of the leased premises or upon termination or expiration of this lease, all permanent/capital improvements, including both physical structures and modifications to the leased premises, shall become the property of LESSOR, unless LESSOR gives written notice to LESSEE to remove any or all such improvements at the expense of LESSEE. The decision to retain any improvements upon termination of this lease shall be at LESSOR'S sole discretion. Prior to surrender of all or any part of the leased premises a representative of the Division of State Lands, State of Florida Department of Environmental Protection, shall perform an on-site inspection and the keys to any building on the leased premises shall be turned over to the division.

29. 30. PUBLIC LANDS ARTHROPOD CONTROL PLAN: LESSEE shall identify and subsequently designate to the respective arthropod control district or districts within one year of the effective date of this lease all of the environmentally sensitive and biologically highly productive lands contained within the leased premises, in accordance with Section 388.4111, Florida Statutes and Chapter 5E-13, Florida Administrative Code, for the purpose of obtaining a public lands arthropod control plan for such lands.

31. PROHIBITIONS AGAINST LIENS OR OTHER ENCUMBRANCES: Fee title to the leased premises is held by LESSOR. LESSEE shall not do or permit anything to be done which purports to create a lien or encumbrance of any nature against the real property contained in the leased premises including, but not limited to, mortgages or construction liens against the leased premises or against any interest of LESSOR therein.

32. PARTIAL INVALIDITY: If any term, covenant, condition or provision of this lease shall be ruled by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the provisions shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

33. ARCHAEOLOGICAL AND HISTORIC SITES: Execution of this lease in no way affects any of the parties' obligations pursuant to Chapter 267, Florida Statutes. The collection of artifacts or the disturbance of archaeological and historic sites on state-owned lands is prohibited unless prior authorization has been obtained from the State of Florida Department of State, Division of Historical Resources. The Management Plan prepared pursuant to Chapter 18-2 Florida Administrative Code, shall be reviewed by the Division of Historical Resources to insure that adequate measures have been planned to locate, identify, protect and preserve the archaeological and historic sites and properties on the leased premises.

34. SOVEREIGNTY SUBMERGED LANDS: This lease does not authorize the use of

any lands located waterward of the mean or ordinary high water line of any lake, river, stream, creek, bay, estuary, or other water body or the waters or the air space thereabove.

35. ENTIRE UNDERSTANDING: This lease sets forth the entire understanding between the parties and shall only be amended with the prior written approval of LESSOR.

36. MAINTENANCE OF IMPROVEMENTS: LESSEE shall maintain the real property contained within the leased premises and the improvements located thereon, in a state of good condition, working order and repair including, but not limited to, keeping the leased premises free of trash or litter, meeting all building and safety codes for the location situated, maintaining the planned improvements as set forth in the approved Management Plan and maintaining any and all existing roads, canals, ditches, culverts, risers and the like in as good condition as the same may be on the effective date of this lease, reasonable wear and tear excepted; provided, however, that any removal, closure, etc, of the above improvements shall be acceptable when the proposed activity is consistent with the goals of conservation, protection, enhancement, or safety of the natural and historical resources within the leased premises and with the approved Management Plan.

37 GOVERNING LAW: This lease shall be governed by and interpreted according to the laws of the State of Florida.

38. SIGNS: LESSEE shall ensure that the area is identified as being publicly owned and operated as a public facility in all signs, literature and advertising. If federal grants or funds are used by LESSEE for any project on the leased premises LESSEE shall erect signs identifying the leased premises as a federally assisted project.

39. SECTION CAPTIONS: Articles, subsections and other captions contained in this lease are for reference purposes only and are in no way intended to describe, interpret, define or limit the scope, extent or intent of this lease or any provisions thereof.

40. ADMINISTRATIVE FEE: LESSEE shall pay TRUSTEES an annual administrative fee of $300 pursuant to subsection 18-2.021(8), Florida Administrative Code. The initial annual administrative fee shall be payable within thirty days from

the date of execution of this lease agreement and shall be prorated based on the number of months or fraction thereof remaining in the fiscal year of execution.
