Dear Anne Layton Rice:

The Board of County Commissioners wishes to recognize long term employees for their contributions to the citizens of the County and to their successful completion of many years of service. I am most pleased to inform you that you are to be recognized for 25 years of service with Monroe County.

As part of this recognition, you have been awarded a decorative pin, a $500.00 award, and recognition at the upcoming Board of County Commissioners meeting. The Board of County Commissioners and the Administration certainly appreciate your commitment and service to the citizens of the County. The following will be read at the November meeting.

Anne Layton Rice has served the Monroe County Public Library System for the past 25years. She is known for her combination of intelligence, technical skill, and being an absolute pleasure to work with. As the Library System's Assistant Director of Support Services, she leads her team with the approaches of transparency, making strong connections, and being adept at problem-solving. One example is Anne's role of system administrator for the Library System's enterprise software solutions, determining the top-level configurations and system settings

Her Library Director, her co-workers, and her staff all agree, she is one of the reasons this Library System has reached its high levels of success. She is known throughout Monroe County for her decades of noteworthy achievements. Recently, she co-wrote and presented the 2022 ARPA grant application that won the largest grant amount ever awarded to a Florida Library System.

In addition, during her stellar 25 years of service, she has managed the staff of the Florida Keys History Center and under her leadership, the Florida History archival collection continues to grow and expand with many exciting development plans in the works. The Library System and its patrons are forever grateful for Anne's exceptional service as a library and information systems professional.

If the Claimant should appeal to the Plan Administrator, he, or his duly authorized representative, may submit, in writing, whatever issues and comments he, or his duly authorized representative, feels are pertinent. The Claimant, or his duly authorized representative, may review pertinent Plan documents. The Plan Administrator will re-examine all facts related to the appeal and make a final determination as to whether the denial of benefits is justified under the circumstances. The Plan Administrator must advise the Claimant of its decision within a reasonable period of time of the Claimant's written request for review.

Section 4. Eligibility.

(a) The Plan Administrator shall, in its sole discretion, determine those Volunteer Firefighters and EMS Volunteers ("Volunteers") eligible to participate in the Plan. The amount of the annual contribution will be calculated by the Plan Administrator and presented to the Board for approval or modification during the annual budget adoption process.

(b) Upon attainment of Normal Retirement Age, a Participant shall be fully vested in his Plan benefit determined pursuant to the following schedule:

(i) The benefit schedule may be increased for cost of living adjustments in future years if the Board deems it desirable.

(ii) Notwithstanding anything to the contrary, in no event shall any Participant accrue a benefit in excess of $3,000 for any Year of Service.

(c) Upon completion of ten Years of Service, a Participant shall be vested in a benefit under this Plan in the amount set forth in (b) above, payable upon the Participant's Benefit Commencement Date.

(d) A Participant who does not have ten Years of Service as of his Normal Retirement Age shall not be entitled to any benefit under this Plan.

Section 6. Form and Payment of Benefits.

(a) Timing of Payment.

(i) The distribution of a Participant's benefit as determined in Section 5 shall be paid in the manner described in paragraph (b) of this Section 6 and shall commence on the Participant's Benefit Commencement Date, subject to the Participant's (or beneficiary's) proper completion of benefit application forms available from the Plan Administrator. Payment of benefits shall commence on the Participant's Benefit Commencement Date notwithstanding that the Participant remains on an active membership roll as a Volunteer Firefighter or EMS Volunteer. A Participant (or beneficiary) must apply for benefits and complete the necessary benefit application forms within sixty months of his Normal Retirement Age or all benefits otherwise payable to the Participant under the Plan will be forfeited.

(ii) Notwithstanding the foregoing, upon a Participant's death, his benefit will be paid to the beneficiary designated in accordance with paragraph (d) of this Section 6.

(b) Form of Payment. Except as otherwise provided herein, benefit payments are payable monthly for a period of ten years.

(c) Vesting.

(i) In order to be eligible to receive any benefit payments under this Plan, a Participant must:

(A) be credited with ten Years of Service prior to attainment of Normal Retirement Age;

(B) for Volunteer Firefighters, have met all requirements as defined by the County necessary to attain the rank of Structural Firefighter, Non-Structural Firefighter and/or Emergency Vehicle Driver-Operator prior to being credited with ten Years of Service, and

(C) for EMS Volunteers, have met all requirements as defined by the State of Florida necessary to drive an emergency medical care and transportation vehicle (ambulance) and/or attain certification as an Emergency Medical Technician or Paramedic prior to being credited with ten Years of Service.

(d) Payment to Beneficiary.

(i) If a vested Participant dies or becomes disabled prior to attaining his Normal Retirement Age, he or his beneficiary will be entitled to receive the present value of the benefits accrued as of the date of such death or disability. Benefits accrued will be determined by the number of the Participant's Years of Service as of the date of such death or disability. Benefits may be paid, at the Plan Administrator's discretion, either in monthly payments over the period of ten years or in a lump sum payment.

(ii) If the Participant dies after payments have commenced but before he has received all of his benefits under the Plan, all unpaid amounts shall continue to be paid to his beneficiary or beneficiaries for the portion of the installment period remaining after the Participant's death.

(iii) At anytime and from time to time, each Participant shall have the right to designate a beneficiary to receive his death benefit and to revoke such designation. Each designation or revocation shall be evidenced by written instrument filed with the Plan Administrator, signed by the Participant and bearing the signature of a witness to his signature. In the event that a Participant has not designated a beneficiary or beneficiaries, or if for any reason such designation shall be legally ineffective, or if such beneficiary or beneficiaries shall predecease the Participant, then the personal representative of the estate of such Participant shall be deemed to be the beneficiary designated to receive such death benefit, or if no personal representative is appointed for the estate of such Participant, then his next of kin under the statute of descent and distribution of the state of such Participant's domicile at the date of his death shall be deemed to be the beneficiary or beneficiaries to receive such death benefit.

(e) Calculation of Lump Sum Payment and Present Value of Benefits. Whenever the Plan provides for the payment of a benefit in the form of a lump sum or refers to the present value of an accrued benefit, the value of the lump sum benefit or present value of the benefit shall mean the present value of future benefit payments discounted at an annual interest rate to be determined as follows:

For each Plan Year, the interest rate for that year shall be equal to the yield shown in *The Wall Street Journal* for the last business day of the preceding calendar year in the "Yield Comparisons" table for Treasury 10+ years rounded up to the next whole percentage. The Plan Administrator shall have the discretion to set calculation procedures and approximations to be used in determining lump sum and present values.

Section 7. Trust Account and Administration.

(a) The Board shall establish a trust account with the County Clerk of the Circuit Court for the deposit of LOSAP contributions that are appropriated by the Board. Other than the establishment of the trust account, the Clerk shall have no further administrative duties or obligations with respect to the Plan.

(b) The assets in the Plan trust account shall be used to pay all expenses of the administration of the Plan, including compensation of a trustee appointed by the Board, if any, the compensation of any investment manager, the expense incurred by the Plan Administrator in discharging its duties, and any interest that may be payable on money borrowed by a trustee for the purpose of the Plan. In the alternative, the County may pay the expenses of the Plan. Any such payment shall not be deemed a contribution to the Plan.

(c) The Plan trust account shall be invested in accordance with the provisions of Section 125.31, Florida Statutes.

Section 8. Plan Amendment and Termination Provisions.

(a) Amendment and Termination. The Plan may be amended at any time, or from time to time, by the Board, and the Plan may be terminated completely or with respect to any individually contracted volunteer fire department or emergency medical services contractor, at any time by the Board.

(b) Effect of Termination.

(i) Upon termination, those Participants or beneficiaries who began receiving payments prior to the Plan's termination date will receive a single lump sum benefit equivalent to the present value of the benefits remaining to be paid to the Participant.

(ii) Those Participants who have been credited with ten Years of Service but have not attained their Normal Retirement Age prior to the termination will receive a pro-rata share of the remaining Plan assets (less any remaining administrative costs). The pro-rata share will be based upon the lump sum value of the Participant's benefit under the Plan as of the date of Plan termination.

(iii) In the case of the termination of an individual department's participation in the Plan, those vested Participants with ten Years of Service as of the date of termination of participation will receive a benefit equivalent to the present value of their accrued benefit determined under Section 5 of the Plan as of the termination date. The Board may, in its discretion, pay benefits in the form of a single lump sum or in installment payments annually over the ten year period beginning on the next fiscal year after the date of such termination. No other liabilities of any sort shall be recognized or payable by the Plan.

(iv) No other benefits shall be paid to Participants, whether vested or not on the date of the Plan termination, and no Participant has any right to any present or future benefit payment from the Plan after the Plan is terminated by the Board.

Section 9. Miscellaneous.

(a) Payments to Minors and Incompetents. If any person entitled to a payment under the Plan is deemed by the Plan Administrator to be incapable of personally receiving and giving a valid receipt for such payment, then, unless and until claim therefor shall have been made by a duly appointed guardian or other legal representative of such person, the Plan Administrator may provide for such payment or any part thereof to be made to any other person or institution that is contributing toward or providing for the care and maintenance of such person. Any such payment shall be a payment for the account of such person and a complete discharge of any liability of the Board and the Plan therefor.

(b) No Interest in Assets.

(i) Nothing contained in the Plan shall be deemed to give any Participant any equity or other interest in the assets, business or affairs of the Board or Monroe County.

(ii) Nothing contained in the Plan shall constitute a guaranty by the Board that the assets of Monroe County will be sufficient to pay any amount hereunder. No Participant or beneficiary shall have any right to receive a distribution under the Plan except in accordance with the terms of the Plan.

(c) Non-Alienation of Benefits. No interest of any person or entity in, or right to receive a distribution under, the Plan, shall be subject in any manner to sale, transfer, assignment, pledge, attachment, garnishment, or other alienation or encumbrance of any kind; nor may such interest or right to receive a distribution be taken, either voluntarily or involuntarily, for the satisfaction of the debts of, or other obligations or claims against, such person or entity, including claims for alimony, support, separate maintenance and claims in bankruptcy proceedings.

(d) General Provisions.

(i) If any section, subsection, sentence, clause or provision of this Ordinance is held invalid, the remainder of this Ordinance shall not be affected by such invalidity.

(ii) All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed to the extent of said conflict.

(iii) The provisions of this Ordinance shall be included and incorporated in the Code of Ordinances of the County of Monroe, Florida, as an addition to amendment thereto, and shall be appropriately renumbered to conform to the uniform numbering system of the Code.

(iv) This Ordinance must be filed in the Office of the Secretary of State, State of Florida, but will not take effect until 90 days from the date of adoption by this Board.

Board of County Commissioners Meeting
November 8, 2023
Agenda Item Number: F2
2023-1641

BULK ITEM: Yes

DEPARTMENT: Employee Services

TIME APPROXIMATE:
N/A

STAFF CONTACT: Natalie Maddox

AGENDA ITEM WORDING: Approval of a three year rate for administration of Employer Group Waiver Program (EGWP) by Benistar Admin Services Inc., the vendor used by the Countys pharmaceutical benefits manager (PBM), Capital Rx, Inc., to provide coordinated pharmacy services and benefits for retirees and dependents, for plan years 2024, 2025, and 2026. Also, approval for County Administrator or Director of Employee Services to execute any necessary documents.

ITEM BACKGROUND:
This item seeks approval for the rate offered by Benistar Admin Services Inc., Capital Rx, Inc.'s vendor, for administration of the County's coordinated Employer Group Waiver Program (EGWP) pharmaceutical benefits and services for retirees and dependents. This is a fully insured retiree drug program that renews annually. The rate for plan years 2024, 2025 and 2026 will be $ 222.74 per month per retiree or dependent.

The average number of participants (retirees/dependents) covered under the program per month is 80. The cost of the renewal is a set fee per person enrolled. The renewal offer is an increase of 5.80% from the previous year. Gallagher Benefits Services, Monroe County's benefits consultant and actuarial consultant, has reviewed the renewal offer and notes that the increase is less than the overall industry trend in pharmacy plan renewals.

On August 19, 2020, the BOCC approved the three-year Agreement with Capital Rx, Inc. to provide Pharmacy Benefits Management services and Employer Group Waiver Program (EGWP) for employees, retirees, and dependents beginning January 2, 2021; and the Business Associate Agreement.

In July 2020, the BOCC authorized staff to award a bid and negotiate an agreement with CapitalRx for Pharmacy Benefits Management services; including Employer Group Waiver Program + Wrap (EGWP) for Medicare Eligible Retirees to ensure that the County is receiving the best plan and options at favorable costs to the County and plan participants.

On June 24, 2020, the five-member Pharmacy Benefits Management Selection Committee met to

discuss the proposals and recommended CapitalRx to the BOCC, which was heard at the July 2020 regular meeting.

This agreement includes a pass-through pricing model with administrative fees, which is anticipated to save pharmaceutical plan costs over those of the current vendor and pricing structure. The CapitalRx formulary includes a low member disruption in terms of covered drugs. CapitalRx account service members are all registered pharmacists, so the County expects to improve pharmaceutical benefit customer service as well. CapitalRx references were all favorable. The County's benefit consultant, Gallagher Benefit Services, supported the staff recommendation to change vendors to CapitalRx.

The agenda item also seeks approval for the County Administrator or Director of Employee Services to execute any additional necessary documents.

6. VALUE-ADDED ADMINISTRATIVE SERVICES (OPTIONAL)

Upon Sponsor election, Capital Rx will provide the following Value-Added Administrative Services. The pricing terms applicable for Value-Added Administrative Services are set forth in Schedule B.

A. **Specialty Programs**.

i. **RxCap Program**.* Capital Rx will provide Sponsor the RxCap program to maximize the value of manufacturer-sponsored copay assistance program(s) for target Specialty Drugs filled through the Specialty Pharmacy.

ii. **RxContain Program**.* Capital Rx will provide Sponsor the RxContain program that coordinates Member enrollment into alternative funding programs for target Specialty Drugs (i.e., carve-out). Alternative funding programs include, but are not limited to, manufacturer-sponsored and/or charitable organization-sponsored patient assistance programs.

B. **Custom Network Management**. Capital Rx will work with Sponsor to establish a custom network of Participating Pharmacies. Sponsor and Capital Rx agree to work in good faith to support Capital Rx's contracting with such pharmacies. Capital Rx will

provide Sponsor ongoing custom network configuration and management services in accordance with the terms of this Agreement.

C. **Custom Formulary Management**. Capital Rx will work with Sponsor to establish a custom Formulary, provided that the drugs included on Sponsor's custom Formulary have been evaluated by a Pharmacy and Therapeutics Committee. Capital Rx will provide Sponsor ongoing custom Formulary configuration and management services in accordance with the terms of this Agreement and will work with Sponsor to affect the adoption, distribution, and implementation of such Formulary.

D. **Rx Unite**.* Capital Rx will deploy Rx Unite reporting in addition to Capital Rx's standard reporting suite for Sponsor's Plan. Sponsor, and any designated third parties, shall work with Capital Rx to load additional benefit information, including but not limited to medical claims. By combining this additional benefit information with the Paid Claims administrated by Capital Rx under this Agreement, Capital Rx will work with Sponsor to provide plan specific insights on chronic conditions to improve overall Plan performance.

E. **White Labelled Member Communications**. Capital Rx will white-label standard Member communications to Sponsor's branding and design requirements.

F. **Rx Concierge PA**.* High-touch program streamlines the prior authorization process through proactive outreach and improves the Member and provider experience. Prescribers receive proactive, outbound telephone call(s) based on reject reports that initiate the prior authorization process in near real time. When a coverage determination is made following review, the provider, pharmacy and Member each receive an outbound telephone call to review the determination outcome and next steps.

G. **Rx Smart Save**.* Currently includes two levels:

   i. Level 1: Low-cost alternative opportunities are identified at the point of adjudication and Members receive a push notification through Capital Rx's Member tools outlining cost-savings available by utilizing a lower cost alternative.

   ii. Level 2: Capital Rx pharmacist performs proactive outreach to Members and providers in order to facilitate a switch to a lower-cost alternative. Pharmacist outreach is based on claim reports that initiate outreach in near real time.

H. **Rx Control (Split Fill)**.* Rx Control eliminates unnecessary Drug spend for Sponsor by targeting oral Specialty Drugs that are often associated with early discontinuation due to tolerability and/or side effects. Medications targeted in this program are limited to as a fifteen (15) day supply, as opposed to the traditional thirty (30) day fill. A team member from the Specialty Pharmacy contacts a Member before each fill to monitor side effects, assess member response and address any barriers to care.

I. **Rx Ally**.* Rx Ally promotes safe use of opioids by implementing opioid restrictions at the point of sale.

J. **Rx Helix**.* Capital Rx proprietary algorithms identify Members eligible for a pharmacogenomics test ("PGx test") and Capital Rx clinical teams engage Members with the opportunity to register for a PGx test. Upon Member registration, a PGx test

is conveniently mailed to a Member's home and the results are received within 7-10 days. Following receipt of PGx test results, a pharmacist conducts a Personalized Medication Review (PMR) with the Member and addresses findings directly with their prescriber.

K. **Rx Enhance**.* Rx Enhance is designed to improve adherence and address gaps in care for Members with diabetes, hypertension, high cholesterol, COPD and asthma via multichannel member communication and real-time provider notification. There are two levels of care available:

1. Level 1: Monthly motivational Member text messaging to address barriers to adherence and JUDI-enabled prescriber notifications to close gaps in care.
2. Level 2: In addition to Level 1 interventions, clients who opt into Level 2 also receive high-touch pharmacist outreaches to Members and prescribers to address other key clinical issues.

L. **Other Value-Added Administrative Services**. Sponsor will pay for additional Value-Added Administrative Services provided by Capital Rx as utilized by Sponsor and as set forth in Schedule B.

*After election, Sponsor must provide at least one hundred and eighty (180) days prior written notice to discontinue this service.

COMPENSATION DISCLOSURE

Pursuant to the requirements in the Employee Retirement Income Security Act of 1974 (ERISA) Section 408(b)(2)(B) (29 U.S.C. 1108(b)(2)(B)),[1] Capital Rx has prepared the following disclosure of all compensation it reasonably expects to receive this calendar year in connection with various services Capital Rx will perform on behalf of Sponsor, as set forth in the Agreement. We have prepared this disclosure in good faith, based on reasonable diligence, and in order to support Sponsor, recognizing that Capital Rx may not qualify as a covered service provider under any given client contract or arrangement.

Description of Services: Capital Rx will be providing Pharmacy Benefit Management Services ("PBM Services") as enumerated in Section 2 and Schedule A of the Agreement.

Fiduciary Status: Capital Rx will not provide, nor does it reasonably expect to provide, services under this Agreement that will confer upon Capital Rx the status of a plan fiduciary, as defined in ERISA or under applicable state law. *See* Section 9 of the Agreement.

Direct Compensation: Capital Rx earns administrative fees in connection with the services it performs on behalf of Client. Those administrative fees are referenced in Section 4 of the Agreement and enumerated in Schedule B. Capital Rx may enter into collaborative arrangements with brokers, consultants, and other businesses and individuals called "Channel Partners," which receive direct compensation from Sponsor or Capital Rx; Capital Rx does not receive any direct or indirect compensation from Channel Partners. Any direct compensation Sponsor pays the Channel Partner via Capital Rx if applicable is expressly indicated in the Agreement at Schedule B under the heading "Authorized Third Parties". Capital Rx contracts with a rebate aggregator in connection with the services it performs on behalf of Sponsor. Capital Rx credits Sponsor 100% of the Rebates it receives from the rebate aggregator, as set forth in Schedule B of the Agreement. While the rebate aggregator does not view its services as subject to the disclosure requirements set forth in 29 U.S.C. § 1108(b)(2)(B), Capital Rx hereby discloses that the rebate aggregator earns direct compensation called "program management fees," comprised of a percentage of the rebates, which the rebate aggregator withholds.

Indirect Compensation: Capital Rx receives no indirect compensation from any source. Capital Rx has requested and made good faith efforts to obtain, but has not received, information regarding any indirect compensation that its rebate aggregator may receive in connection with services it has been subcontracted to perform, but the rebate aggregator does not view its services as subject to the disclosure requirements set forth in 29 U.S.C. § 1108(b)(2)(B). Capital Rx discloses its own rebate commitments and guarantees in Section 4 and 5 the Agreement, as well as in Schedule B.

Compensation Received on a Transactional Basis: Capital Rx sometimes enters into collaborative arrangements with Channel Partners, as described above, and does not receive compensation from Channel Partners for these arrangements. Any compensation received by a Channel Partner should be

[1] Under ERISA Section 408(b)(2), a covered service provider must provide a description of all direct and indirect compensation that the covered service provider, an affiliate, or a subcontractor reasonably expects to receive in connection with the specified brokerage or consulting services that the covered service provider performs under a contract or arrangement with a covered plan, or upon termination of the contract or arrangement; as well as a description of any compensation paid among the covered service provider, an affiliate, or a subcontractor in connection with such services if the compensation is set on a transaction basis. 29 U.S.C. § 1108(b)(2)(B).

disclosed in that Channel Partner's 29 U.S.C. § 1108(b)(2)(B) compensation disclosure to Sponsor. Any direct compensation Sponsor pays the Channel Partner via Capital Rx is expressly indicated in the Agreement at Schedule B under the heading "Authorized Third Parties." Sometimes Capital Rx pays a Channel Partner commissions on a per-claim basis under service agreements that result from the Channel Partner's efforts.

Compensation Related to Termination: The Agreement may contain a penalty provision connected to early termination of the contract without cause. *See* Section 7 of the Agreement for any such termination provision. Schedule B lists post-termination services and the direct compensation that Capital Rx expects to receive in connection with any such services. Capital Rx is not aware of any termination-related compensation due to any subcontractors in connection with the termination of this Agreement.

To the best of Capital Rx's knowledge, this disclosure is accurate as of the Effective Date of the Agreement. Capital Rx reserves the right to issue amendments and modifications to this disclosure in a reasonable format throughout the Term of the Agreement. This disclosure has been prepared in good faith, based on reasonable diligence, and was drafted to comply with applicable requirements under 29 U.S.C. §1108(b)(2)(B). Capital Rx is not responsible for the failure of any other service provider to make its required disclosure of direct and indirect compensation. In the event that Capital Rx made any error or omission in disclosing this information and later learns of such an error or omission, the correct information will be disclosed as soon as practicable, and within thirty (30) days from discovery of the error or omission. Capital Rx reserves the right to issue amendments and modifications to this disclosure and such modification may be done formally, through issuance of another disclosure form, or within the body of emails throughout the plan year. Individual modifications or updates to compensation disclosures do not invalidate or replace the entirety of this disclosure, but rather only modify the provisions that are indicated.

3. SPONSOR OBLIGATIONS

3.1 Enrollment Information. Sponsor shall be responsible for providing Capital Rx with accurate and complete enrollment information and for providing any modifications or updates to this information to Capital Rx. Capital Rx and Participating Pharmacies are entitled to rely on the enrollment information provided hereunder.

3.2 Benefit Builder. Capital Rx will complete a Benefit Builder form with Sponsor in order to obtain information related to Sponsor's Benefit Design(s), services selected, system and/or operational requirements, and any other information necessary for Capital Rx to perform services under this Agreement. Sponsor will reasonably cooperate in completing the Benefit Builder, and will review and confirm the accuracy of the information contained in the Benefit Builder in accordance with Capital Rx's standard procedures. Capital Rx shall have the right to rely on all information contained in the Sponsor-approved Benefit Builder. In addition, Sponsor will timely provide to Capital Rx any

and all documentation, including but not limited to Benefit Design information (e.g., Formulary, Cost Share information provided to Members, etc.) that is reasonably required for Capital Rx to perform services hereunder.

3.3 Changes to Benefits. Capital Rx shall administer only those benefits (a) listed on the Benefit Builder and (b) for which Sponsor provides written notice of a change to Capital Rx. In the event of any changes to a Benefit Design, Sponsor shall notify Capital Rx at least thirty (30) business days in advance of the effective date of such change. If the proposed change requires any system modifications and/or coding, Capital Rx will notify Sponsor in order to discuss the requirements and a revised implementation timeline, and any such changes, including the amount of any additional fees, shall be agreed upon in writing.

3.4 Member Communications. Sponsor is responsible for notifying Members of any Benefit Design changes. Sponsor is responsible for obtaining Member authorizations and documentation required by Law, if any, for Capital Rx to provide the PBM Services. Capital Rx may communicate with Members as reasonably required to perform the PBM Services.

Invoice amounts for Claims and administrative fees are due and payable in accordance with the Florida Local Government Prompt Payment Act, Florida Statutes section 218.70 *et seq.* Sponsor will pay by wire transfer (or by such other method approved by Capital Rx) to an account designated by Capital Rx in writing. Sponsor's failure to make timely payment shall constitute a payment default. Notwithstanding any other provision of this Agreement, if Sponsor fails to cure any payment default within five (5) days of the due date for such payment, then in addition to any other remedies available, Capital Rx may cease performing any or all of its services hereunder on written notice to Sponsor until Sponsor brings its account current. Capital Rx, in its sole discretion, may accept late payment of delinquent amounts and, upon acceptance, this Agreement may be reinstated retroactively to the due date for such payment. Any such actions by Capital Rx shall not be deemed a waiver of Capital Rx's termination or suspension rights in the event of any future failure of Sponsor to make required payments.

4.3 Overdue Payments. Any invoice amounts that remain unpaid after five (5) days of the due date for such invoice shall bear a finance charge from the due date of such amount until paid in full, equal to the lesser of (a) an annual interest rate consisting the prime rate plus five percent (5%), or (b) the maximum rate permitted by Law. If Capital Rx places any overdue amount with an attorney or other

third party for collection, Sponsor will reimburse Capital Rx for its collection costs, including but not limited to reasonable attorneys' fees and expenses.

In the event Sponsor fails to pay invoices timely on two (2) or more occasions, or Capital Rx has reasonable grounds to believe that Sponsor may be incapable of meeting its financial obligations under this Agreement, Capital Rx may request (and Sponsor agrees to provide) reasonable assurances, including a deposit, regarding its financial condition. If Sponsor does not provide such assurances within five (5) business days or the assurances are not satisfactory in Capital Rx's reasonable judgment, Capital Rx may terminate this Agreement on written notice to Sponsor.

4.5 Eligibility Changes. Capital Rx will not be financially or otherwise responsible for any mistaken coverage, claims payment or denial determination if such mistake is due to a change in a person's eligibility status and the mistake is made prior to the earlier of (a) the entry of such changed information into Capital Rx's claims processing system or (b) two (2) business days after such change information is received by Capital Rx.

4.6 Claims Adjustments. The Parties acknowledge that, from time to time, adjustments to Paid Claims may be necessary as the result of coordination of benefits, subrogation, workers' compensation, payment errors, pharmacy audit recovery, or other reasons, and that such adjustments may result in either credits to Sponsor or additional amounts owed by Sponsor.

4.7 Member Hold Harmless. In no event will Capital Rx or a Participating Pharmacy directly or indirectly collect, attempt to collect, or accept remuneration or reimbursement from a Member for Covered Pharmaceuticals, except for Cost Share amounts or as otherwise provided in this Agreement, even in the event of Sponsor's failure to pay Capital Rx, a payment dispute between the Parties, Sponsor's insolvency, or any other breach by Sponsor of the terms of this Agreement.

4.8 Taxes. Sponsor is not responsible for taxes on Capital Rx's income.

4.9 Financial Statements. Upon request, Sponsor will provide a copy of its most recent audited financial statements to Capital Rx.

5. RECORDS

5.1 Recordkeeping. Capital Rx agrees to maintain reasonable documentation related to the PBM Services provided to Members and Claims processed under to this Agreement. Sponsor agrees to maintain reasonable documentation related to the enrollment information and Benefit Design information provided hereunder. The Parties will maintain the records and information required by this subsection for six (6) years from the date of enrollment or service, as applicable, or such longer period that may be required by Law, in a format and electronic media deemed reasonably appropriate by the Party holding such records. Capital Rx shall also require that Participating Pharmacies maintain records of the Covered Pharmaceuticals dispensed to Members in accordance with Law. Subject to all applicable privacy and confidentiality requirements, certain records may be made available to other pharmacies and health professionals treating Members.

5.2 Transfer of Data Upon Termination. Upon termination of this Agreement for any reason, Sponsor and Capital Rx will develop a mutually agreeable plan for the orderly provision of Claims data to Sponsor or its designee. Within thirty (30) days after receipt of Sponsor's written authorization (and completion of a confidentiality agreement, if to a designee), Capital Rx will deliver to Sponsor or its designee a Claim history report for the two (2) years preceding the termination date. The report will

be provided in Capital Rx's standard format then available. Capital Rx will have no obligation to provide information under this Section unless Sponsor has met all of it payment obligations under this Agreement.

5.3 Ownership. All records and reports generated by Capital Rx hereunder are the property of Capital Rx.

Party"). Confidential Information includes, but is not limited to, matters of a technical nature such as trade secrets, methods, compositions, data and know-how, designs, systems, and processes, and any information derived therefrom; matters of a business nature, such as proprietary reimbursement formula(e), marketing, sales, strategies, proposals, lists of Participating Pharmacies and pharmaceutical manufacturers, and any other information that is designated by either Party as confidential including Schedules B and C of this Agreement, or which the Receiving Party should reasonably understand is confidential and/or proprietary based on nature of the information. For this provision to apply, the documents must be marked by the Disclosing Party as confidential prior to submission to the Receiving Party.

6.2 Treatment of Confidential Information. The Receiving Party agrees to hold the Disclosing Party's Confidential Information in strict confidence and to take reasonable precautions to protect such Confidential Information (including using all precautions the Receiving Party employs with respect to its own Confidential Information), and not to use Confidential Information for any purpose not previously authorized by the Disclosing Party, except as necessary for Capital Rx to perform PBM Services. If the Receiving Party receives a public records request, court order, subpoena or governmental request (whether formal or informal) for Confidential Information, the Receiving Party shall promptly notify the Disclosing Party to provide the Disclosing Party with the opportunity to seek confidential treatment or other appropriate relief relating to such Confidential Information. The Receiving Party shall not oppose such efforts. If the Disclosing Party is unable to obtain any relief with respect to the request, the Receiving Party may provide those portions of Confidential Information that it is advised by counsel are required by Law to be produced, and will further use commercially reasonable efforts to obtain confidential treatment of the Confidential Information from the recipient of such information.

reasonably necessary to provide PBM Services or as required by Law. The restrictions set forth in this Section 6 do not apply to Claims data or other information that does not identify Sponsor.

6.8 Remedies. The Parties acknowledge that any unauthorized use or disclosure of the other's Confidential Information would cause the Disclosing Party immediate and irreparable injury or loss. Accordingly, if Capital Rx or Sponsor fails to comply with the confidentiality provisions of this Agreement, or threaten to do so, the Disclosing party shall be entitled to equitable relief, including the immediate issuance of a temporary restraining order or preliminary injunction enforcing this Agreement, in addition to other remedies permitted by Law.

If the breach is not cured within thirty (30) days after the breaching Party's receipt of written notice of such breach, the non-breaching Party may terminate this Agreement upon written notice.

(b) Notwithstanding the provisions of Section 7.2(a), in the event of a payment default by Sponsor under Section 4, Capital Rx shall provide written notice of such default to Sponsor. If Sponsor does not cure the payment default within ten (10) days after receiving such notice, Capital Rx may terminate this Agreement on written notice to Sponsor.

(d) After the first Contract Year, Sponsor may terminate this Agreement without cause given ninety (90) days' written notice to Capital Rx.

8.2 Sponsor Indemnity. To the extent permitted by Section 768.28, Florida Statutes, Sponsor agrees to indemnify, defend and hold Capital Rx and its subsidiaries, affiliates, and their officers, directors, employees, and agents (each a "Capital Rx Indemnified Party"), harmless from and against any Actions asserted against a Capital Rx Indemnified Party in the event the Action arises from Sponsor's violation of Law, breach of this Agreement,by Sponsor, Sponsor's agent or designee, or other third parties at the Sponor's request, or negligence or willful misconduct.

The failure to provide prompt notice will not constitute a waiver of rights under this Section 8 unless it results in material prejudice to the rights or defenses of the Indemnifying Party; provided, however, that if the Indemnified Party does not give timely notice, the Indemnifying Party shall not be liable for any of the Indemnified Party's costs and expenses incurred prior to such notice. An Indemnifying Party shall not settle or compromise or consent to the entry of judgment in any Action unless such resolution provides an unconditional release of the Indemnified Party from all liability relating to the Action, and does not contain any term or order that in any manner restricts or interferes with the business of the Indemnified Party or its Affiliates. PERFORMANCE GUARANTEES

The Performance Guarantees will be adjusted equitably by the Parties to the extent that Capital Rx has suffered a force majeure event during the applicable measurement period.

The Parties further agree that any financial penalties determined under this Agreement payable by Capital Rx shall be payable solely on the account of a failure to satisfy its Performance Guarantee(s) and the payment of any financial penalties shall not serve to waive any material breach by Capital Rx of its duties under this Agreement.

and the Proposer's standard Terms of Service ("TOS"), any terms posted on Proposer's website or application, or any terms for which a user is required to click "accept" on-line in order to log in to Proposer's application, the terms of this Agreement shall control.

7. **Copyright, Trademark, Service Mark, or Patent Infringement**

   a) Proposer shall, at its own expense, be entitled to and shall have the duty to defend any suit which may be brought against MCBOCC to the extent that it is based on a claim that the products or services furnished infringe upon a copyright, Trademark, Service Mark, or patent. Proposer shall further indemnify and hold harmless MCBOCC against any award of damages and costs made against MCBOCC by a final judgment of a court of last resort in any such suit. MCBOCC shall provide Proposer immediate notice in writing of the existence of such claim and full right and opportunity to conduct the defense thereof, together with all available information and reasonable cooperation, assistance and authority to enable Proposer to do so. MCBOCC shall not face any liability or penalty as a result of such termination or reduction of this Agreement.

10. **Termination for Convenience.** MCBOCC may terminate this Agreement at any time upon thirty (30) days written notice to Proposer. Proposer shall be paid in full for all authorized expenditures and any goods or services satisfactorily provided through the date of termination, but in no case shall MCBOCC be liable to Proposer for compensation for any good or service which has not been rendered. A termination for convenience shall not be a breach of this Agreement by MCBOCC. The final decision as to the amount, for which MCBOCC shall be liable, shall be determined by MCBOCC. Proposer shall not have any right to any actual general, special, consequential, incidental, or any other damages whatsoever of any description or amount for MCBOCC's exercise of its right to terminate for convenience.

Proposal Summary

We appreciate the opportunity to propose a group retiree health program that will meet the needs of Monroe County and their Medicare-eligible retiree population. The proposed program is a fully-insured group Medicare Part D prescription drug plan for the post-65 retirees of Monroe County effective January 1, 2021.

Highlights of the Group Medicare Prescription Drug Plan

The proposed prescription drug plans are Employer Group Waiver Plans (EGWP), provided through Capital Rx. Capital Rx subcontracts EGWP services through Benistar Administrative Services, who uses Express Scripts Insurance Company (ESIC) as the risk bearing entity. ESIC contracts with the Centers for Medicaid and Medicare Services (CMS) to serve as a Medicare Part D Plan Sponsor. Capital Rx working together with Benistar and ESIC, manages compliance with CMS regulations regarding Part D plans. Features include:

- Fill the Donut Hole – Plan designs are available that fill the Medicare Part D Coverage Gap, commonly referred to as the "donut hole". Plans can cover brand drugs and generics in the coverage gap, or just generics, based on the group's desired plan design.
- Enhanced Catastrophic Coverage – Full-coverage plans standardly put a maximum on Catastrophic Coverage copays/coinsurance; once in this coverage phase, members will never have a copay/coinsurance which exceeds that of their Initial Coverage Stage.
- Covered Drugs – Broadest formulary that includes coverage for all drugs eligible under Medicare Part D, and standardly covers Non-Part D drugs with the exception of Part B drugs (typically covered by medical plan), BEERS drugs (which have been identified as high-risk for seniors), and Lifestyle drugs (which can be covered for an additional fee).
- Mail Order – Retirees can receive a 90-day supply of most medications through Home Delivery, typically with lower co-pays than they would pay at retail.
- Flexibility in Plan Design – Matching plan designs as closely as possible minimizes member disruption. Our strategy allows us to minimize disruption while still showing savings.
- Pharmacy Network – Includes all major pharmacies including Walgreens, CVS, and Rite Aid. There are over 66,000 pharmacies nationwide.
- Government Subsidy – The proposed plan premium rates include Medicare Part D subsidy. There is no additional subsidy filing needed. The average subsidy under their EGWP plans is higher than the average subsidy received by their clients who file for the RDS subsidy.

Administration provided by Benistar

Implementation and ongoing plan servicing will be provided by Benistar Admin Services Inc., a third-party administrator located in Avon, Connecticut. Benistar is specifically focused on the administration of retiree medical and prescription drug plans and has the expertise to administer these plans as a totally integrated and seamless solution for eligible retirees. As third-party administrator, Benistar currently manages benefits for over 1,600 post-65 retiree groups.

- **Government Subsidy –** The proposed plan premium rates include Medicare Part D subsidy. There is no additional subsidy filing needed. The average subsidy under their EGWP plans is higher than the average subsidy received by their clients who file for the RDS subsidy.

Administration provided by Benistar

Implementation and ongoing plan servicing will be provided by Benistar Admin Services Inc., a third-party administrator located in Avon, Connecticut. Benistar is specifically focused on the administration of retiree medical and prescription drug plans and has the expertise to administer these plans as a totally integrated and seamless solution for eligible retirees. As third-party administrator, Benistar currently manages benefits for over 1,600 post-65 retiree groups.

Administrative services provided under this retiree program include:

- **Full Implementation Support**
  - **Communications** – Benistar will work with Monroe County to draft retiree communications, including any CMS-required elements.
  - **Eligibility and Enrollment** – Benistar will coordinate all applicable eligibility and enrollment information with the carriers and provide eligibility management services in a manner that complies with HIPAA and all federal, state and local privacy and other applicable laws.
  - **Welcome Kit** – Retirees will receive a welcome kit including ID card, certificate of insurance, benefit summary, evidence of coverage, and formulary.
- **Toll Free Call Center Access –** Retirees can call the Retiree Customer Service Center with questions about their benefits, making the program integrated and seamless to the retiree. The retiree customer service team is trained in Medicare products and in working closely with seniors. Representatives will stay on the line with the member and consult with the carrier or CMS to resolve member issues. Retirees are not rushed off of the phone and there are no time limits for a service call.
- **Billing –** Invoices can be prepared to the needs of Monroe County. We can bill the company directly, bill the retirees, or split the bill and bill the retirees for their portion of costs. Retirees can also sign up to have their premium amounts automatically withdrawn from their bank account.
- **Boutique Service –** Employers and retirees will have access to Benistar's resources and support in the form of a highly-trained retiree service center which is capable of providing an exceptional level of service in the areas of billing, eligibility, and claims questions.

Assumptions of the Program

- **Program Sponsorship –** No other competing group retiree plans will be sponsored alongside this plan including Medicare Advantage or individual plans.
- **Contribution** – This quote assumes that Monroe County contributes 100% of the monthly member premium.
- **Participation -** If the enrollment were to change by more than +/- 10% of what was assumed in the quote, we reserve the right to adjust the premium.
- **Implementation timeline –** Due to CMS-required procedures, 60 days are required to implement the coverage. The effective date proposed may need to be adjusted accordingly.
- **Expiration –** Premiums may be adjusted if the effective date is changed from the date in this proposal.

Maximize Medicare and Pharma Subsidies with an EGWP Plan

Employers need plan options that can limit their risk and allow for a more stable budget picture. The federal government offers substantial subsidies for retiree prescription drug costs. The question facing employers is how best to maximize those subsidies. Many employers have historically filed for the Retiree Drug Subsidy (RDS). The RDS is no longer the best way to maximize subsidy and minimize the cost and effort required to obtain the subsidy.

Enter the Employer Group Waiver Plan (EGWP). Our EGWP sponsor contracts with CMS to manage the plan and compliance, making it easy for the employer. The subsidy amounts are used to reduce the plan premium. There is no filing work to do and no delay to receive your money. The subsidized and fully-insured premium allows the employer to budget for prescription drug costs effectively and affordably.

	RDS	Fully Insured EGWP
Reimbursement	• Varying based on ~28% of total gross drug spend within spend thresholds • Monthly, quarterly, or annually	• Premium reduced upfront by projected reimbursements • Direct subsidy PMPM adjusted by risk score • 70% Pharma discount on applicable drugs in Gap • 80% federal reinsurance after $6,550 in TrOOP • Low income premium and cost-share assistance
Contribution Strategy	• Minimum plan sponsor premium contribution requirement. AE net test.	• Defined contribution or voluntary plans permitted
Liabilities	• Subsidy cannot be utilized to offset OPEB liabilities	• Subsidy utilized to offset OPEB liabilities
Risk	• Plan sponsor assumes risk	• Shift risk to EGWP

Standard Part D Management Programs

Step Therapy: CMS approved program that manages drug costs within specific therapy classes by ensuring that patients try a front-line or step one drug (usually generics) before a higher cost back-up or step two brand-name drug is covered. Within specific therapy classes, multiple drugs are available to treat the same condition. Step Therapy points a new patient to a front-line or step one, lower cost, clinically effective drug in each therapy group. Evidence-based clinical protocols are used to select front-line or step one drug.
Prior Authorization: CMS approved program that manages plan benefits by ensuring appropriate prescribing and member usage. For Capital Rx Medicare Standard list of drugs, client agrees to all updates/revisions as approved by CMS. B vs D require Prior Authorization, if determined to be a Part B drug, then the copay will process at the Part B co-pay (if covered); if determined to be a Part D drug then the co-pay will process at the applicable Part D co-pay. Members will be allowed one transition fill for a retail supply (up to 31 day supply) within the first 90 days of enrollment.
Quantity Level Limits: CMS approved program that manages prescription costs by ensuring that the quantity of units supplied for each copayment are consistent with clinical dosing guidelines. The program is designed to support safe, effective, and economic use of drugs while giving patients access to quality care. Capital Rx Medicare clinicians maintain a list of quantity limit drugs, which is based upon manufacturer-recommended guidelines and medical literature. Online edits help make sure optimal quantities of medication are dispensed per copayment and per days' supply.

Income Related Monthly Adjustment Amount (IRMAA)

Members whose modified gross income exceeds certain thresholds will be required to pay an extra amount, referred to as income related monthly adjust amount, for their Medicare Part D coverage. The Social Security Administration will determine which members are required to pay a Part D IRMAA. Please contact us with any questions regarding IRMAA.

If an Individual requests amendment of PHI contained in a Designated Record Set directly from Capital Rx or its agents or Subcontractors, Capital Rx shall notify Covered Entity in writing within seven (7) business days of the request. Covered Entity shall have sole authority and responsibility to approve or deny such a request, and shall notify Capital Rx, in writing, of its decision to approve or deny any such request.

(a) Capital Rx shall document such Disclosures of PHI and information related to such Disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of Disclosures of PHI under 45 CFR § 164.528. Such documentation shall be kept regarding all Disclosures of PHI except the Disclosures described in 45 CFR § 164.528(a)(1). For each such Disclosure, Capital Rx shall document the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI and, if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of the Disclosure that reasonably states the basis for the Disclosure.

(b) Capital Rx shall provide to Covered Entity or an Individual, in the time and manner designated by Covered Entity, information collected in accordance with subsection (a) of this Section of this Agreement, to permit Covered Entity to respond to a request by an Individual for an accounting of Disclosures of PHI under 45 CFR § 164.528. If a request for an accounting is delivered directly to Capital Rx or its agent or Subcontractor by an Individual or a person other than Covered Entity, Capital Rx shall within seven (7) business days of such request, forward it to Covered Entity in writing. ATTACHMENT A- SCOPE OF SERVICES

1. SCOPE OF SERVICES

A. New assessments:

The Agreement will cover the development and implementation of new non-ad valorem special assessment programs for canal restoration projects and road adaptation/ flood mitigation projects and potential other programs. The development of the non-ad valorem tax rolls is described in Tasks 1-7 below.

The County will issue task orders for individual projects as it is ready to proceed. These are expected to be on a per-canal or per-neighborhood road adaptation basis. The assessment may be for capital, operations and maintenance ("O&M"), or a combination thereof as directed by the County.

The County anticipates that the following tasks will be required:

Task 1: Conduct research on methodologies. Evaluate existing data sources and identify methodologies for developing the preliminary assessment roll.

The Consultant will obtain and review existing data sources such as project area maps, the Monroe county GIS database and Tier data, Monroe County Property Appraiser's data, ad valorem tax rolls, Monroe County Tax Collector data, and other sources of data. The Consultant will develop alternative methodologies for development of each preliminary assessment roll and recommend the preferred methodology.

Alternative methodologies for development of the preliminary assessment roll shall include but not be limited to:

- assessment on a per parcel or per lot methodology,
- assessment on a square foot or frontage methodology,
- assessment by level of benefit, and
- any other methodologies proposed for canal restoration and/or sea level rise/road adaptation projects.

The Consultant acknowledges that an assessment methodology particular to a County roads adaptation or flood mitigation project may or may not exist elsewhere and may require in-depth research to define the benefit area, level of service to be provided, potential varying levels of service, etc. The Consultant will specify how it is determined which property owners receive a benefit from a roads adaptation project and if multiple layers of benefits and assessments are recommended. There is potential for a capital assessment, O&M assessment, or a combination.

The Consultant will specify how the proposed methodology is legally defensible.

To whom it may concern,

This correspondence is being submitted in response to Monroe County's (County) Request for Proposal (RFP) for professional services for special assessments for canal restoration program, sea level rise and flood mitigation program, and other potential programs.

(GSG) was acquired by Anser and is now the Government Services Practice within the Advisory and Compliance section of Anser.

We understand that the County is seeking a highly qualified firm capable of providing professional services and specialized assistance necessary for the continued collection of non-ad valorem special assessments for one existing canal restoration project (Canal 266) and the development of numerous new additional non-ad valorem special assessment programs to use funding sources for approximately 1-20 new additional canal restoration projects and 1-20 roads or related areas in the County's sea level rise and flood mitigation program ("Projects"). Accordingly, this correspondence is being submitted as confirmation of Anser's interest in providing the requested services and assistance.

Anser GSP has earned a reputation as a leader in the development, implementation and administration of special assessment programs. We believe that our experience, in Monroe County and the entire State of Florida, in developing unique funding and service delivery solutions, coupled with our specialization in government finance and taxation issues, will enable our firm to provide fully developed and complete program(s) that will satisfy the County's specific project requirements. As demonstrated throughout our proposal, we have the expertise, experience and in-house resources to complete this project on schedule and within budget.

Over the past 27 years, Anser has been involved in the development and implementation of over 300 special assessment programs to create some of the most unique funding scenarios currently utilized. We have earned a reputation as a leader in the administration of special assessment programs. Anser is regularly asked to maintain and privatize many of the functions previously performed by cities and counties in revenue management and collection. Currently, Anser maintains over 75 assessment databases for clients on an annual basis. We also assist our clients with preparing and certifying annual assessment rolls for the tax collectors.

Anser also works with cities and counties in creating funding concepts that include the use of special assessment programs for the funding of infrastructure needs for communities. These projects include capital facilities, water, sewer, stormwater, transportation, neighborhood improvements, canal maintenance, and street lighting. We produce implementable solutions within project timeframes. In 2022, Anser successfully submitted 94 assessment rolls to County Tax Collectors, on behalf of our clients. Additionally, we assisted our clients in generating over $300 million dollars in non-ad valorem assessment revenue for critical infrastructure and services.

Our approach, which has been developed over a 27-year period, was garnered through numerous similar assessment projects involving over 150 Florida cities and counties. This not only reflects upon our vast experience on similar projects, but also lends great credibility to our recommendations to County staff, elected officials and the public. In fact, we have been designated by the Courts as an expert in the development of special assessments and as such we are capable of providing competent, substantial evidence to support the case law requirements for using special assessments to fund the provision of vital services and capital infrastructure provided by the County. Being acknowledged by the Courts as experts in developing and defending special assessments, we are able to work with our clients to create an apportionment methodology that meets their specific goals while also satisfying case law requirements. In other words, we use the flexibility provided by the courts to assist our clients in meeting their objectives with an eye on potential legal challenges in an attempt to maximize both the efficiency and the effectiveness of any defense.

Our team of project managers, consultants and database analysts/programmers are vastly experienced in evaluating the unique and dynamic characteristics associated with local government and providing options for funding of vital services and capital infrastructure. We believe that the combination of our historical experience and the qualifications of our personnel allow Anser to better develop solution-based strategies that are specifically tailored to successfully address the specific financial, operational, and governance problems faced by local government. As such, we believe that our firm brings together the best options, alternatives and solutions in revenue enhancement capabilities.

Anser GSP (formerly known as Government Services Group, Inc. or GSG) has also developed and maintained extensive relationships with the County Property Appraisers and Tax Collectors involved in our clients' special assessment programs. Anser GSP is recognized as a firm that understands the responsibilities and procedures of these Constitutional offices and as a result, can effectively utilize the ad valorem tax roll data required for the development of the special assessment programs. 2. EXPERIENCE AND ABILITY TO PROVIDE SERVICES

ANSER ADVISORY

SPECIAL ASSESSMENT EXPERIENCE

Anser GSP created some of the first assessment programs in the State and has assisted in writing the law for special assessments. Our approach to special assessment programs has been developed over a 27-year period through numerous projects involving many different Florida local governments, including Monroe County and its cities. Not only does our experience and client recommendations reflect upon our great credibility, but also on the wealth of similar projects we have in our repertoire. In fact, Anser GSP has been designated by the Courts as an expert in the development of special assessments and capable of providing competent, substantial evidence to support the case law requirements for using special assessments to fund the provision of fire rescue and other services.

Anser realizes that one size does not fit all when it comes to special assessment programs. Because of our experience and understanding of the legal requirements for special assessments, as acknowledged by the Courts, we have the ability to work with our clients to create unique and innovative apportionment methodologies that meet our clients' specific goals and satisfies case law requirements. In other words, we use the flexibility provided by the courts to assist our clients in meeting their objectives with an eye on potential legal challenges in an attempt to maximize both the efficiency and the effectiveness of any defense.

While nobody likes to think about being sued, hiring a firm that has proven to be successful in defending the special assessment programs they develop provides a level of comfort that is unsurpassed. This is one of the reasons Anser is the leader in development, implementation and administration of special assessment programs. We have a proven track record of creating and implementing legally defensible special assessment programs.

Many associations recognize Anser GSP as an expert in the field of special assessment development and implementation. The following associations have asked Anser GSP to participate in training events, regional and statewide workshops and conferences: the Florida Association of Counties (FAC), the Florida City and County Management Association (FCCMA), the Florida Government Finance Officers Association (FGFOA), the Florida League of Cities (FLC), the Florida Fire Chiefs Association (FFCA) and the Florida Association of Special Districts (FASD). Anser is also a supporter and sponsor with these associations in their conferences and educational endeavors.

COURT ACKNOWLEDGED EXPERT IN THE AREA OF SPECIAL ASSESSMENTS

Anser GSP has been designated by the Courts as an expert in the development and implementation of government special assessment programs and other alternative revenue sources. Sandi Neubarth, Anser's Program Director and Senior Project Manager, testified on behalf of the City of Palm Bay in M. David Moallem, et al. v. City of Palm Bay, et al., Case No. 05-2017-CA-37868, consolidated with City of Palm Bay, Florida v. State of Florida, et al., Case No. 05-2017-CA-041041, in the 18th Judicial Circuit, Brevard County, Florida. This case was specific to the updated stormwater utility program developed by Anser GSP for the City of Palm Bay that was implemented Fiscal Year 2017-18.

Based on evidence provided by Anser GSP, the 18th Judicial Circuit validated the bonds and found that the City of Palm Bay's stormwater assessment program provided a special benefit and that the apportionment methodology was fair and reasonable to all citizens of the City.

Anser GSP also assisted Sarasota County and its legal counsel in addressing legal issues that were raised in the case of State v. Sarasota County, 693 So.2d 546 (Fla 1997) and Sarasota County v. Sarasota Church of Christ, 667 So.2d 998 (Fla. 4th DCA 2000).

Anser GSP also testified in Desiderio Corporation, et al. vs. The City of Boynton Beach, Florida, et al., 39 So.3d 487 (Fla. 4th DCA 2010). In Desiderio the Appellants attacked the City's fire special assessment program on the following grounds:

1. The assessment was for services that did not specifically benefit the burdened properties;
2. The City's apportionment methodology was arbitrary; and
3. The City impermissibly spent the assessment funds on unauthorized services and capital projects.

Based on evidence and testimony provided by Anser GSP, the Fourth DCA affirmed the final judgment in favor of the City as to each argument. The Courts determined that because of the thorough analysis conducted by Anser GSP and our understanding of the call data, parcel level data, budget and operations of the City's fire department, it was satisfied that the fire rescue special assessment developed by Anser GSP and implemented by the City met all of the case law criteria. See Desiderio Corporation, et al. vs. The City of Boynton Beach, Florida, et al., 39 So.3d 487 (Fla. 4th DCA 2010).

RECOGNIZED AS AN EXPERT IN SPECIAL ASSESSMENT DATABASE DEVELOPMENT AND CERTIFICATION

Anser GSP has developed and maintained extensive relationships with the County Property Appraisers and Tax Collectors involved in our clients' special assessment programs. Anser GSP is recognized as a firm that understands the responsibilities and procedures of these Constitutional offices and as a result, can effectively utilize the ad valorem tax roll data required for the development of the special assessment programs. We can provide references from County Property Appraisers and Tax Collectors who will attest to our expertise. Due to the combination of our highly specialized and experienced database analysts and our familiarity with the data, no other firm can match the quality of our data analysis.

As a matter of fact, based on recommendations by Property Appraisers, Tax Collectors and their vendors, in 2009 Anser GSP was contacted by the Florida Department of Revenue (FDOR) to assist with the design of the record layout for non-ad valorem assessment record keeping by the FDOR. Anser GSP is the only special assessment consulting firm that the FDOR contacted for input.

Additionally, Anser GSP is specifically familiar with Monroe County and the data available from the Monroe County Property Appraiser and requirements of the Monroe County Tax Collector. Anser GSP has been working with various clients in Monroe County for over 20 years.

The policy decision was made to not implement the fire assessment program for Fiscal Year 2008-09.The contract amount for the fire assessment program was $78,660.

Since 1995, Anser GSP has assisted Walton County in the development, implementation and annual maintenance of several capital and service special assessment programs, including fire, road paving, canal dredging, and neighborhood improvements. Sandi Neubarth has been the project manager for the County's special assessment programs since 2008. Rashad Sapp has been the data analysts working on these projects for the past two years.

Fire Assessment Program

In 2003 Anser GSP was hired to develop a Fire Rescue Master Plan for the County. The intent of the Master Plan was two-fold: (1) to identify opportunities for immediate improvement in the delivery of services in Walton County, and (2) to develop recommendations for long-term enhancements in fire rescue service delivery through capital investment and operating decisions.

Based on the results of the Master Plan, the County retained Anser GSP to update and revise its annual recurring special assessment program so that it was capable of funding all of the assessable costs associated with providing fire protection services, commencing Fiscal Year 2004-05, and collected using the ad valorem collection process provided in section 197.3632, Florida Statutes (Uniform Method). Anser GSP updated the County's fire assessment program in 2013. Anser GSP has provided annual assessment maintenance services to the County for its fire rescue assessment program since inception. Anser's annual maintenance fees are $12,600.

Capital Assessment Programs

Daughette Canal Improvements and Maintenance Services Program

Anser GSP was retained by Walton County in 2007 to develop an assessment methodology to fund canal dredging activities and ongoing annual maintenance services. The apportionment methodology developed by Anser GSP was based on the number of buildable lots attributable to each parcel and Anser GSP determined rates for each component of the assessment program – capital and service – based on this methodology. The assessment program was implemented for Fiscal Year 2008-09. In 2013, the County learned that several properties in the benefit area had multiple boat slips associated with a lot; therefore, we assisted the County with updating the methodology to charge each parcel based on the actual or allowable boat slips. In 2017, the County hired Anser GSP to update the annual maintenance rates to account for enhanced services to be provided in the benefit area. The 10-year capital assessment program ended after certification of the final roll to the Tax Collector in September 2017; however, the annual maintenance assessment program continues to be imposed. Anser GSP continues to provide annual maintenance to the County for this program. Anser's annual maintenance fees are $3,675.

Imperial Lakes Project

The Imperial Lakes Project consisted of a private property subdivision with homes built on approximately 30% of the 91 subdivision lots identified. The Imperial Lakes of Walton County Homeowners Association requested assistance from the County Commission to approve and create a mechanism, such as a Municipal Service Benefit Unit, to collect the funds necessary to repair the four failing man-made lake dams in the Imperial Lakes Improvement Area. Anser GSP assisted the County with the development and implementation a special assessment program to fund the capital costs of improvements. The program was implemented in 2003 and ended in 2015. Anser GSP provided annual maintenance services to the County for the life of the assessment program. Anser's annual maintenance fees for the project were $2,500.

Driftwood Estates

The Driftwood Estates assessment program was developed to finance the cost of the acquisition and construction of various road, utility and ancillary improvements within the boundaries of the Driftwood Estates Municipal Service Benefit Unit. The program was implemented in 1997 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2009. Anser's annual maintenance fees were $12,000.

Four Mile Village Project

In 2010 Anser GSP was hired by the County to develop and implement a capital assessment program Four Mile Village. The capital assessment program was to fund the cost of burying the overhead utility lines within the Four Mile Village subdivision which consisted of approximately 55 parcels. The program was implemented in 2010 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2019. Anser's annual maintenance fees were $2,450.

Leisure Lake

In 2010 Anser GSP was hired by the County to develop and implement a capital assessment program for Leisure Lake. The capital assessment program was to fund the cost of dam improvements within the Leisure Lake subdivision. Leisure Lake subdivision consisted of approximately 29 parcels. The methodology developed was based in part on waterfront footage and in part on the number of buildable lots. The program was implemented in 2011 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2020. Anser's annual maintenance fees were $2,625.

Survey Ballot

Anser GSP periodically assists the County with the development and mailing of survey ballots for various neighborhood projects. The ballots assist the County to determine the support of property owners for the development and implementation of a special assessment program to fund various capital improvements (such as roadway improvements, critical infrastructure, canal dredging, neighborhood beautification, etc.) within the project area. If the results of the survey are favorable, the County then hires Anser GSP to assist in the development and implementation of a legally defensible assessment program. Anser's fee for ballot assistance was $500, plus processing and mailing costs.

CITY OF PENSACOLA

CONTACT	George Maiberger, Purchasing Manager 222 W. Main Street Pensacola, Florida 32502

Anser GSP was engaged by the City of Pensacola in 1999 to develop and implement a stormwater assessment program over a series of phases. These phases included: (1) the development of a financial plan, (2) a comprehensive review of the adequacy of current stormwater management regulations for the City, in context with Escambia County and the Water Management District, and determination of a strategic plan of action to address issues raised, (3) development of a rate model and rates, and (4) implementation of the stormwater assessment program which included four square foot tiers for single family residential parcels. The assessment program was implemented in 2001 and Anser GSP also developed a web-based application for the City's use in the daily maintenance tasks of the stormwater assessment database.

In 2010, Anser GSP assisted the City in updating the existing assessment program. The update included the calculation of a new ESU value (due to reconstruction and re-development that occurred after Hurricane Ivan). In addition, Anser GSP developed three alternative methodology scenarios specifically related to single family residential parcels as follows:

- No tiers (one rate for all single family residential)
- Three tiers
- Five tiers

Anser GSP also provided the impacts on individual property owners for each methodology scenario and a summary of the number of parcels paying less, the same or more than the current methodology for each methodology alternative. The five-tier methodology was implemented for Fiscal Year 2010-11.

Since its inception in 2001, Anser GSP has provided ongoing annual maintenance services for the stormwater assessment database and the web-based application for the City's use in daily database maintenance tasks. Anser's annual maintenance fee is $34,500.

While a report was written and presentations were made to the BOCC, in May 2017, the policy decision was made to not implement at that time. In 2018, the County hired Anser GSP to assist with implementation of the Canal 266 assessment program. Anser GSP has provided annual assessment maintenance services to the County since the program's inception.

FIRE ASSESSMENT PROGRAM

Solid Waste Assessment Program

Anser GSP was hired by the Village in 1998 to provide specialized services in the development and implementation of a non-ad valorem assessment program for solid waste collection and disposal services for residential properties within the Village. Anser GSP was also tasked with assisting the Village in transitioning from the separate bill collection method being used at the

WALTON COUNTY

Since 1995, Anser GSP has assisted Walton County in the development, implementation and annual maintenance of several capital and service special assessment programs, including fire, road paving, canal dredging, and neighborhood improvements. Sandi Neubarth has been the project manager for the County's special assessment programs since 2008. Rashad Sapp has been the data analysts working on these projects for the past two years.

Fire Assessment Program

In 2003 Anser GSP was hired to develop a Fire Rescue Master Plan for the County. The intent of the Master Plan was two-fold: (1) to identify opportunities for immediate improvement in the delivery of services in Walton County, and (2) to develop recommendations for long-term enhancements in fire rescue service delivery through capital investment and operating decisions.

Based on the results of the Master Plan, the County retained Anser GSP to update and revise its annual recurring special assessment program so that it was capable of funding all of the assessable costs associated with providing fire protection services, commencing Fiscal Year 2004-05, and collected using the ad valorem collection process provided in section 197.3632, Florida Statutes (Uniform Method). Anser GSP updated the County's fire assessment program in 2013. Anser GSP has provided annual assessment maintenance services to the County for its fire rescue assessment program since inception.

Capital Assessment Programs

Daughette Canal Improvements and Maintenance Services Program

Anser GSP was retained by Walton County in 2007 to develop an assessment methodology to fund canal dredging activities and ongoing annual maintenance services. The apportionment methodology developed by Anser GSP was based on the number of buildable lots attributable to each parcel and Anser GSP determined rates for each component of the assessment program – capital and service – based on this methodology. The assessment program was implemented for Fiscal Year 2008-09. In 2013, the County learned that several properties in the benefit area had multiple boat slips associated with a lot; therefore, we assisted the County with updating the methodology to charge each parcel based on the actual or allowable boat slips. In 2017, the County hired Anser GSP to update the annual maintenance rates to account for enhanced services to be provided in the benefit area. The 10-year capital assessment program ended after certification of the final roll to the Tax Collector in September 2017; however, the annual maintenance assessment program continues to be imposed. Anser GSP continues to provide annual maintenance to the County for this program.

Imperial Lakes Project

The Imperial Lakes Project consisted of a private property subdivision with homes built on approximately 30% of the 91 subdivision lots identified. The Imperial Lakes of Walton County Homeowners Association requested assistance from the County Commission to approve and create a mechanism, such as a Municipal Service Benefit Unit, to collect the funds necessary to repair the four failing man-made lake dams in the Imperial Lakes Improvement Area. Anser GSP assisted the County with the development and implementation a special assessment program to fund the capital costs of improvements. The program was implemented in 2003 and ended in 2015. Anser GSP provided annual maintenance services to the County for the life of the assessment program.

Driftwood Estates

The Driftwood Estates assessment program was developed to finance the cost of the acquisition and construction of various road, utility and ancillary improvements within the boundaries of the Driftwood Estates Municipal Service Benefit Unit. The program was implemented in 1997 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2009.

Four Mile Village Project

In 2010 Anser GSP was hired by the County to develop and implement a capital assessment program Four Mile Village. The capital assessment program was to fund the cost of burying the overhead utility lines within the Four Mile Village subdivision which consisted of approximately 55 parcels. The program was implemented in 2010 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2019.

Leisure Lake

In 2010 Anser GSP was hired by the County to develop and implement a capital assessment program Leisure Lake. The capital assessment program was to fund the cost of dam improvements within the Leisure Lake subdivision. Leisure Lake subdivision consisted of approximately 29 parcels. The methodology developed was based in part on waterfront footage and in part on the number of buildable lots. The program was implemented in 2011 and Anser GSP provided assistance to the County with annual maintenance of the assessment roll through the conclusion of the program in 2020.

Survey Ballot

Anser GSP periodically assists the County with the development and mailing of survey ballots for various neighborhood projects. The ballots assist the County to determine the support of property owners for the development and implementation of a special assessment program to fund various capital improvements (such as roadway improvements, critical infrastructure, canal dredging, neighborhood beautification, etc.) within the project area. If the results of the survey are favorable, the County then hires Anser GSP to assist in the development and implementation of a legally defensible assessment program.

Anser GSP was engaged by the City of Pensacola in 1999 to develop and implement a stormwater assessment program over a series of phases. These phases included: (1) the development of a financial plan, (2) a comprehensive review of the adequacy of current stormwater management regulations for the City, in context with Escambia County and the Water Management District, and determination of a strategic plan of action to address issues raised, (3) development of a rate model and rates, and (4) implementation of the stormwater assessment program which included four square foot tiers for single family residential parcels. The assessment program was implemented in 2001 and Anser GSP also developed a web-based application for the City's use in the daily maintenance tasks of the stormwater assessment database.

In 2010, Anser GSP assisted the City in updating the existing assessment program. The update included the calculation of a new ESU value (due to reconstruction and re-development that occurred after Hurricane Ivan). In addition, Anser GSP developed three alternative methodology scenarios specifically related to single family residential parcels as follows:

- No tiers (one rate for all single family residential)
- Three tiers
- Five tiers

Anser GSP also provided the impacts on individual property owners for each methodology scenario and a summary of the number of parcels paying less, the same or more than the current methodology for each methodology alternative. The five-tier methodology was implemented for Fiscal Year 2010-11.

Since its inception in 2001, Anser GSP has provided ongoing annual maintenance services for the stormwater assessment database and the web-based application for the City's use in daily database maintenance tasks.

5. PRICE PROPOSAL

ANSER ADVISORY

PROJECT APPROACH

The project approach outlined in this section has been designed and structured based on Anser's experience and the necessary work effort that we believe needs to be completed to guarantee the County that the programs are developed in such a way as to assure the greatest likelihood of political and community acceptance. To achieve this goal, Anser's technical approach includes the ability to develop several different methodologies, develop an unlimited number of rate scenarios, and provide the parcel specific impact of every methodology and rate scenario developed. These revisions can be effected quickly depending on the availability of data.

The objective of this project is to develop and implement non-ad valorem assessments for canal restoration projects and road adaptation/sea level rise projects and potential other programs. To accomplish this objective, we will focus on the following tasks:

- Provision of implementation services aimed at developing legally defensible methods of apportionment conducive to use with the County's ad valorem tax roll database;
- Development of the implementation documentation for the annual collection method which meets all case law and statutory requirements; and
- Development of an assessment roll conducive to collecting the annual assessments and capable of being efficiently updated and used in subsequent years.

The proposed scope of services is designed to develop the following deliverables during this project:

- An Assessment Report which provides (a) the assessment cost calculations, (b) the description of the apportionment methodology, and (c) an implementation schedule;
- Mailing of first class notices (mailing costs not included in lump sum fee);
- The final assessment rates; and
- An assessment roll in an electronic format capable of merging with the County's real property assessment roll in conformity with the requirements of the utilization of the tax bill collection method.

SCOPE OF SERVICES NEW ASSESSMENT PROGRAMS

The following section provides a general description of the work effort required to complete Tasks 1 – 5 of the Scope of Work in Part 2 of the RFP.

Task 1: Evaluate Existing Data Sources and Identify Methodologies for Developing the Preliminary Assessment Roll

A: Data Collection

Obtain and review existing data sources such as project area maps, the Monroe County GIS database and Tier data, Monroe County Property Appraiser's data, ad valorem tax rolls, and Monroe County Tax Collector data. An analysis of the proposed improvements/services will be performed and the benefited properties will be identified. We will develop alternative methodologies for development of each preliminary assessment roll and recommend the preferred methodology. Alternative methodologies for development of the preliminary assessment roll will include, but not be limited to: assessment on a per parcel or per

lot methodology; assessment on a square foot or frontage methodology; and any other methodologies approved for canal restoration and/or sea level rise/road adaptation projects.

B: Determine the Assessment Revenue Requirements
Review the funding requirements of the proposed improvements, including debt service requirements (if applicable). Based on these funding requirements, determine the total assessment revenue requirements for the proposed projects including program implementation costs and annual costs.

C: Develop Assessment Methodology
Using the data and criteria established by County staff, we will develop a preliminary assessment methodology based on the proposed project, its location and properties benefited by the project.

Task 2: Develop Preliminary Assessment Roll upon Approval of Methodology by County

A: Develop Database
Anser will obtain files including the tax roll and assessment program data to perform the following tasks:

- Develop a preliminary electronic database of properties categorized by their DOR property use assignments that includes the property owner's name, address, RE number, and AK number.
- Obtain necessary information from County staff and other sources related to the methodology and apportionment of costs to be used for the assessment program.
- Refine the database to comport with the requirements of the preliminary assessment methodology.
- Use a series of queries and selection criteria to validate the common characteristics among the categories or classes and identify properties requiring further evaluation and fieldwork analysis.

B: Create Preliminary Assessment Roll
Using the tax roll files and the assessment database created in the previous task, Anser will create a preliminary assessment roll.

- Determine geographic areas to be included within the assessment program and the parcels within each project's geographic area.
- Apply apportionment methodology to assessment database to test the data validity and legal sufficiency.
- Determine the total number of billing units based on the apportionment methodology and determine revenue requirements.
- Develop and apply the schedule of rates using the apportionment methodology and revenue requirements for the assessment program.

C: Calculate Proforma Assessment Rates
Using the preliminary assessment roll, Anser will develop and apply the schedule of rates for the assessment program using the apportionment methodology for the assessment program.

D: Prepare and Present Assessment Report
Anser will prepare and present an Assessment Report, which documents the proposed apportionment methodology and proforma assessment rates.

Task 3: Certification of Final Assessment Roll

A: Prepare Final Assessment Roll
Anser will prepare the adjusted final assessment roll that will implement the assessment program and will interface with the Monroe County Tax Collector files.

B: Certify Final Assessment Roll in Conformance with Uniform Method
Using the final assessment roll and updating any changes or modifications, Anser will prepare a file on compatible electronic medium capable of merger with the ad valorem tax roll files. Anser will develop test files and conduct test merger procedures to minimize the possibility of errors.

C: Export Assessment Roll
Export the final assessment roll to the Monroe County Tax Collector.

Task 4: Provide Direction to Monroe County for Compliance with Statutory Requirements Associated with Collection of Special Assessments by the Uniform Method

A: Review of Legal Documents
Review of the ordinances and implementing resolutions and documentation associated with the creation of the indicated assessment programs.

B: Preparation of Final Assessment Rates
Assist the County with the final rate adoption process for the assessment program including (a) the legal requirements for any public hearings, (b) the development of appropriate published notice, and (c) printing, stuffing and mailing of any first class notices or bills.

Task 5: Conduct Progress Meetings

A: Meeting 1 - Project Initiation/Kick-off
Anser will meet with County staff via Zoom/Teams to finalize the goals and objectives of the project and discuss requested data needed for the project.

B: Meeting 2 - Project Progress Meeting
Anser will meet with County staff via Zoom/Teams to present and discuss the assessment report detailing the result of the assessment study.

C: Meeting 3 – Board of County Commissioners Meeting
Anser will present the results of the assessment study to the County Commission via Zoom.

The following section provides a general description of the work effort required to complete Task 6 of the Scope of Work in Part 2 of the RFP.

Task 6: Provide Annual Maintenance and Certification of Non-ad Valorem Special Assessment Roll for Canal 266

A: Update the preliminary assessment roll

Using the tax roll files and the assessment database, Anser will update the preliminary assessment roll.

- Determine the total number of billing units based on the apportionment methodology and determine revenue requirements.
- Develop and apply the schedule of rates using the apportionment methodology and revenue requirements for the assessment program.

B: Review of legal documents

- Review of the implementing resolutions and documentation associated with the creation of the Canal 266 assessment program.

C: Assist with Rate Adoption

- Assist the County with the final rate adoption process for the assessment program including (a) the legal requirements for any public hearings and (b) the development of appropriate published notice and/or printing, stuffing and mailing of any notices.

D: Create Final Assessment Roll

- Anser will update the assessment roll with any corrections received from the County. Final rates will be verified and extended to the updated data in order to create the final assessment roll.

PRICE PROPOSAL

The lump sum fee for professional services does not include any on-site visits to the County by Anser staff. Any on-site meeting can be arranged at our standard hourly rates. Expenses related to any meetings will be billed in accordance with section 112.061, Florida Statutes. If necessary, in lieu of on-site visits, periodic telephone conference calls or Zoom meetings may be scheduled to discuss project status.

The standard hourly rates for Anser are as follows:

Anser Advisory

Senior Advisor.....$285
Vice President/Managing Director.....$285
Assistant Director/Senior Project Manager.....$235
Project Manager/Project Coordinator.....$185
Senior Data Analyst.....$185
Database Analyst/Technical Services.....$150
Project Analyst.....$90
Program and Administrative Support.....$75

The lump sum fee **does not include the costs of producing and mailing first class notices, if required**. Mailing and production costs depend on the number of assessable parcels of property within the assessment program area, but average approximately $1.50 per parcel. Payment of mailing and production costs is due at the time of adoption of the initial assessment resolution or like document. For non-domestic notices, mailing charges will include the actual amount of postage beyond the domestic rate. Should U.S. postage rates increase prior to mailing, the additional postage per notice will be charged.

The County is responsible for any costs incurred to obtain information from the property appraiser or other public officials that is necessary for the assessment program.

The County is responsible for working with the Property Appraiser to obtain the necessary information for properties with exempt "home addresses" pursuant to Section 119.071, Florida Statutes.

The County is responsible for any and all newspaper publications, including, but not limited to, making arrangements for publications and any costs associated therewith.

Please note that Anser works with the premise of developing and implementing assessment programs with an eye on potential legal challenges in an attempt to maximize both the efficiency and the effectiveness of any defense. Nonetheless, the fees outlined above for professional services do not include any provision for litigation defense. Accordingly, in the event there is a legal challenge, Anser would be available, on an hourly basis, to assist the County in its defense.

Nassau County, Prosperity Plan, Nassau County, FL
Nassau County brought our team on board in April 2021 to help develop the County's Prosperity Plan - the local application of the American Rescue Plan Act. As such, the Nassau Florida Prosperity Plan is an opportunity to leverage federal dollars to propel the greater community forward by expanding and diversifying our local economy, creating a more resilient economic ecosystem, facilitating equitable opportunity for wealth creation, and creating lasting public-value.

The Nassau County Prosperity Plan has been constructed around five overarching priorities which are interrelated and additive – each build one upon the other to create a whole that is greater than the sum of the parts.

- Strategic Investment in Infrastructure
- Strategic Investment in Local Business Incubation, Development and Acceleration
- Strategic Investment in Revenue Stabilization and Diversification
- Strategic Investment in Leveraging State/Federal Programs and Liaison Services/Technical
- Assistance for Non-profit Partners and Community Organizations
- Strategic Investment in Economic Uncertainty

Since guidance from the U.S. Treasury is forthcoming this summer, the Board of County Commissioners adopted the Nassau Florida Prosperity Plan to provide the guiding framework for developing specific strategic initiatives, projects, and programs aligned with the American Rescue Plan. No individual project, program or initiative will be executed until the County Manager returns with a further developed Nassau Florida Prosperity Plan that allocates ARP dollars to specific projects, programs, and initiatives for the Board's consideration.

Jefferson County, CARES Act Program Administration, Jefferson County, FL
Jefferson County retained the GSG team in September 2020 to administer the CARES Act program. GSG worked closely with representatives from the Florida Division of Emergency Management (FDEM) and Jefferson County in developing a CARES Act Program based on eligible and reimbursable expenditures that complied with Section 5001 of the CARES Act.

As part of the County's CARES Act program, the team administered the distribution of assistance to individuals, small businesses, and non-profit organizations affected by the COVID-19 Pandemic. FDEM allocated Jefferson County $2.7 million and assisted the County in securing the allocated funds. The County allotted over $1.3 million for the individual, small business, and non-profit assistance programs. The County issued payments to qualified individuals, businesses, and non-profit organizations within four months. As an extension of the team, staff quickly, effectively, and safely assembled a team to work on-site at the County. To accomplish these tasks, the team had to develop new processes and procedures, navigate complex solutions, and coordinate activities across multiple levels of County government and FDEM. We leveraged its understanding of working with the local government and the State of Florida to meet required deadlines.

Nassau County, CARES Act Program Administration, Nassau County, FL

Scope of Services

Daikin Applied Americas, Inc. is pleased to offer the following Quote for your consideration. Thank you for selecting Daikin Applied Service Group to care for your building's system. Our service personnel have the knowledge and experience to deliver the best support available. Daikin is pleased to offer this Quote for your consideration.

Equipment.

1. Provide two (2) AGZ chillers model AGZ076E, Capacity 80 nominal tons. Voltage 460 V /60 Hz / 3ph. Lead time 37-38 Weeks.
2. Freight it is included from Miami to the DJJ Building Facility
3. Microchannel Coil with Epoxy Coating.
4. Communication BACnet 4.
5. Entire unit, extended warranty 4 years parts and labor. Five (5) years in total.

Mechanical Installation.

1. Shutdown of the old chiller and recover refrigerant per EPA (Environmental Protection Agency) guidelines.
2. Disconnect electrical power wiring and lockout tags. Uninstall the two (2) Air Cooled Chillers Carrier models (30XAB0806R). Include the unit's movement outside the roof in an area previously agreed on the floor.
3. Final Disposal of the two (2) old Carrier units outside the DJJ Facility Center
4. Installation of two (2) Daikin Scroll chiller - 80 ton. 460V/3/60.
5. This project is being considered to replace one (1) chiller at time. This is to avoid the nuisance of leaving the area with no AC and having to relocate the personnel inside. We are considering that the shut off valves that isolate the chillers are in good condition. In case these valves do not work properly, we will have to drain the building and install these shutoff valves. This would leave the building without A/C for approximately two (2) days. *Price to install new shutoff valves in not included in this proposal and would be quoted separately if required.*
6. New piping and its insulation, up to a maximum of 7 feet, will be installed to connect the new Daikin chillers to the existing hydronic system.
7. Crane and rigging - chillers will be installed one at a time, so there will be two crane movements. We include the crane and personal. We are considering the crane to be positioned in the parking lot of the building next to the work area. As this Parking lot is inside the facility MOT with the city is not included.
8. Startup of the two (2) chillers by Daikin technicians.
9. Permit runner is included if permits need to be pulled. The Permit cost with the city it is not included in this proposal. Permit charges will be handled separately.

Electrical Installation.

1. Remove the existing disconnect switch (3 ph., 480V, 250 amp) and all the associated material currently feeding the A/C Chillers units on the roof.
2. Supply and install new disconnect switch.
3. We are considering installing new wire conduit and terminating electrical connections.
4. The panels that feed power to the 480v disconnects on the roof are inside the building and do not need to be replaced.
5. The time to install the new disconnect chiller per unit will take 2 or 3 days for each chiller team after the chillers have been installed.

Control Installation.

1. Control Reinstallation by Other. In the walkthrough held on 08/16/23 it was determined that the controls installation will be done by Siemens and will be contacted directly by the customer.
2. The four (4) start up chiller control disconnects are not included in this proposal.

Engineering

1. This project is considered as a maintenance project. We are not including engineering design, including Mechanical, Electrical, Plumbing. Existing drawings will be used. If a new set of drawings are required for the project, we will have to include the services of an engineering firm with an additional investment value of $ 25,000. This amount is not included in the current proposal.

price) Note:

1. Quantity Discounts may be provided at time of sale based on project scope.

2. % Off represents the discount off list price. (Example: List price = $100,000. % Off = 25%. Net Price = $100,000 x (1 - 25%) = $75,000.00)

3. Multiplier represents the fraction of list price. (Example: List price = $100,000. Multiplier = 0.7500. Net Price = $100,000 x 0.7500 = $75,000.00)

MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENT

This Master Intergovernmental Cooperative Purchasing Agreement (this "**Agreement**") is entered into by and between those certain government agencies that execute a Principal Procurement Agency Certificate ("**Principal Procurement Agencies**") with National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector and/or Communities Program Management, LLC, a California limited liability company d/b/a U.S. Communities (collectively, "**OMNIA Partners, Public Sector**") to be appended and made a part hereof and such other public agencies ("**Participating Public Agencies**") who register to participate in the cooperative purchasing programs administered by OMNIA Partners, Public Sector and its affiliates and subsidiaries (collectively, the "**OMNIA Partners Parties**") by either registering on the OMNIA Partners, Public Sector website (www.omniapartners.com/publicsector or any successor website), or by executing a copy of this Agreement.

RECITALS

WHEREAS, after a competitive solicitation and selection process by Principal Procurement Agencies, in compliance with their own policies, procedures, rules and regulations, a number of suppliers have entered into "**Master Agreements**" (herein so called) to provide a variety of goods, products and services ("**Products**") to the applicable Principal Procurement Agency and the Participating Public Agencies;

WHEREAS, Master Agreements are made available by Principal Procurement Agencies through the OMNIA Partners Parties and provide that Participating Public Agencies may purchase Products on the same terms, conditions and pricing as the Principal Procurement Agency, subject to any applicable federal and/or local purchasing ordinances and the laws of the State of purchase; and

WHEREAS, in addition to Master Agreements, the OMNIA Partners Parties may from time to time offer Participating Public Agencies the opportunity to acquire Products through other group purchasing agreements.

NOW, THEREFORE, in consideration of the mutual promises contained in this Agreement, and of the mutual benefits to result, the parties hereby agree as follows:

1. Each party will facilitate the cooperative procurement of Products.

2. The Participating Public Agencies shall procure Products in accordance with and subject to the relevant federal, state and local statutes, ordinances, rules and regulations that govern Participating Public Agency's procurement practices. The Participating Public Agencies hereby acknowledge and agree that it is the intent of the parties that all provisions of this Agreement and that Principal Procurement Agencies' participation in the program described herein comply with all applicable laws, including but not limited to the requirements of 42 C.F.R. § 1001.952(h), as may be amended from time to time. The Participating Public Agencies further acknowledge and agree that they are solely responsible for their compliance with all applicable "safe harbor" regulations, including

but not limited to any and all obligations to fully and accurately report discounts and incentives.

3. The Participating Public Agency represents and warrants that the Participating Public Agency is not a hospital or other healthcare provider and is not purchasing Products on behalf of a hospital or healthcare provider.

4. The cooperative use of Master Agreements shall be in accordance with the terms and conditions of the Master Agreements, except as modification of those terms and conditions is otherwise required by applicable federal, state or local law, policies or procedures.

5. The Principal Procurement Agencies will make available, upon reasonable request, Master Agreement information which may assist in improving the procurement of Products by the Participating Public Agencies.

6. The Participating Public Agency agrees the OMNIA Partners Parties may provide access to group purchasing organization ("**GPO**") agreements directly or indirectly by enrolling the Participating Public Agency in another GPO's purchasing program provided the purchase of Products through the OMNIA Partners Parties or any other GPO shall be at the Participating Public Agency's sole discretion.

7. The Participating Public Agencies (each a "**Procuring Party**") that procure Products through any Master Agreement or GPO Product supply agreement (each a "**GPO Contract**") will make timely payments to the distributor, manufacturer or other vendor (collectively, "**Supplier**") for Products received in accordance with the terms and conditions of the Master Agreement or GPO Contract, as applicable. Payment for Products and inspections and acceptance of Products ordered by the Procuring Party shall be the exclusive obligation of such Procuring Party. Disputes between Procuring Party and any Supplier shall be resolved in accordance with the law and venue rules of the State of purchase unless otherwise agreed to by the Procuring Party and Supplier.

8. The Procuring Party shall not use this Agreement as a method for obtaining additional concessions or reduced prices for purchase of similar products or services outside of the Master Agreement. Master Agreements may be structured with not-to-exceed pricing, in which cases the Supplier may offer the Procuring Party and the Procuring Party may accept lower pricing or additional concessions for purchase of Products through a Master Agreement.

9. The Procuring Party shall be responsible for the ordering of Products under this Agreement. A non-procuring party shall not be liable in any fashion for any violation by a Procuring Party, and, to the extent permitted by applicable law, the Procuring Party shall hold non-procuring party harmless from any liability that may arise from the acts or omissions of the Procuring Party.

10. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, THE OMNIA PARTNERS PARTIES EXPRESSLY DISCLAIM ALL EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES REGARDING ANY PRODUCT, MASTER AGREEMENT AND GPO CONTRACT. THE OMNIA PARTNERS PARTIES SHALL NOT BE LIABLE IN ANY WAY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, EXEMPLARY, PUNITIVE, OR RELIANCE DAMAGES, EVEN IF THE OMNIA PARTNERS PARTIES ARE ADVISED OF THE POSSIBILITY

OF SUCH DAMAGES. FURTHER, THE PROCURING PARTY ACKNOWLEDGES AND AGREES THAT THE OMNIA PARTNERS PARTIES SHALL HAVE NO LIABILITY FOR ANY ACT OR OMISSION BY A SUPPLIER OR OTHER PARTY UNDER A MASTER AGREEMENT OR GPO CONTRACT.

11. This Agreement shall remain in effect until termination by either party giving thirty (30) days' written notice to the other party. The provisions of Paragraphs 6 - 10 hereof shall survive any such termination.

12. This Agreement shall take effect upon (i) execution of the Principal Procurement Agency Certificate, or (ii) registration on the OMNIA Partners, Public Sector website or the execution of this Agreement by a Participating Public Agency, as applicable.

FEDERAL CERTIFICATIONS

ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and
(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

APPENDIX II TO 2 CFR PART 200

"Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended as described in Chapter III, ¶ 6.d must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:
a. Equal opportunity and nondiscrimination laws
b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:
1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Bid Guarantee

For proposals that are to include construction/reconstruction/renovation and related services, bids must be accompanied by Certified or Cashier's Check or an approved Bid Bond in the amount of not less than five percent (5%) of the total bid. Surety shall provide a copy of the Power of Attorney authorizing the Executing Agent the authority to execute the bid bond documents and bind the Surety to the bid bond conditions. The bid bond shall have a corporate Surety that is licensed to conduct business in the state of the lead agency and authorized to underwrite bonds in the amount of the bid bond.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

9. Termination for Convenience:

The right to terminate this Contract for the convenience of the Participating Public Agency is retained by the Participating Public Agency. In the event of a termination for convenience by the Participating Public Agency, the Participating Public Agency shall, at least ten (10) calendar days in advance, deliver written notice of the termination for convenience to Contractor. Upon Contractor's receipt of such written notice, Contractor immediately shall cease the performance of the Work and shall take reasonable and appropriate action to secure and protect the Work then in place. Contractor shall then be paid by the Participating Public Agency, in accordance with the terms and provisions of the Contract Documents, an amount not to exceed the actual labor costs incurred, the actual cost of all materials installed and the actual cost of all materials stored at the project site or away from the project site, as approved in writing by the Participating Public Agency but not yet paid for and which cannot be returned, and actual, reasonable and documented demobilization costs, if any, paid by Contractor and approved by the Participating Public Agency in connection with the Scope of Work in place which is completed as of the date of termination by the Participating Public Agency and that is in conformance with the Contract Documents, less all amounts previously paid for the Work. No amount ever shall be owed or paid to Contractor for lost or anticipated profits on any part of the Scope of Work not performed or for consequential damages of any kind.

10. Equal Employment Opportunity:

The Participating Public Agency highly encourages Contractors to implement Affirmative Action practices in their employment programs. This means Contractor should not discriminate against any employee or applicant for employment because of race, color, religion, sex, pregnancy, sexual orientation, political belief or affiliation, age, disability or genetic information.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided,* however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

11. "During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the

following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

12. Davis Bacon Act and Copeland Anti-Kickback Act.

a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program**.

b. All prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.

c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act.**" However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

(1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

13. Contract Work Hours and Safety Standards Act.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.

c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.

d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and

liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section."

14. Rights to Inventions Made Under a Contract or Agreement.

a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of "funding agreement."

b. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R.§ 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

c. The regulation at 37 C.F.R. § 401.2(a) currently defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

15. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of $150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C.§§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

a. The following provides a sample contract clause concerning compliance for contracts of amounts in excess of $150,000:

"Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C.§ 7401 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(4) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(5) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(6) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA."

16. Debarment and Suspension.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).

c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement,* Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

d. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipient.

e. Specifically, a covered transaction includes the following contracts for goods or services:

(1) The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

(2) The contract requires the approval of FEMA, regardless of amount.

(3) The contract is for federally required audit services.

(4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

"Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R.§ 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

17.Byrd Anti-Lobbying Amendment.

c. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

d. Contractors that apply or bid for an award of $100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.

e. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award.

Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.

f. The following provides a Byrd Anti-Lobbying contract clause:

"Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

3.The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

18. Procurement of Recovered Materials.

g. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

h. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶7.

i. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

j. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

"(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA- designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive- procurement-guideline-cpg-program."

19. Additional FEMA Requirements.

k. The Uniform Rules authorize FEMA to require additional provisions for non- Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:

l. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

m. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

n. The following provides a contract clause regarding access to records:

"Access to Records. The following access to records requirements apply to this contract:

(4) The contractor agrees to provide (insert name of state agency or local or Indian tribal government), (insert name of recipient), the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(5) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(6) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

20.DHS Seal, Logo, and Flags.

o. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).

p. The following provides a contract clause regarding DHS Seal, Logo, and Flags: "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval."

21.Compliance with Federal Law, Regulations, and Executive Orders.

q. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the

contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

r. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

22. No Obligation by Federal Government.

s. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

t. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

23. Program Fraud and False or Fraudulent Statements or Related Acts.

u. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

v. The following provides a contract clause regarding Fraud and False or Fraudulent or Related Acts: "The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract."

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided in the contract.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Staring on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

SPECIAL CONDITIONS

The below clauses are applicable to the Offer; by Submitting a Sealed Proposal the Offeror is accepting these Special Conditions:

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3.

i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement.

ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of Region 4 ESC nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minims, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended as described in Chapter III, ¶ 6.d must be rejected and cannot receive contract awards at any level.

c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce;

Federal Requirements

Services issued under this contract may be in response to an emergency or disaster recovery situation and eligible for federal funding; Services issued in response to an emergency or disaster recovery situation are subject to and must comply with all federal requirements applicable to the funding. The remaining items below, located in this Special Conditions section, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. Termination for Convenience:

The right to terminate this Contract for the convenience of Region 4 ESC is retained by Region 4 ESC. In the event of a termination for convenience by Region 4 ESC, Region 4 ESC shall, at least ten (10) calendar days in advance, deliver written notice of the termination for convenience to Contractor. Upon Contractor's receipt of such written notice, Contractor immediately shall cease the performance of the Work and shall take reasonable and appropriate action to secure and protect the Work then in place. Contractor shall then be paid by Region 4 ESC, in accordance with the terms and provisions of the Contract Documents, an amount not to exceed the actual labor costs incurred, the actual cost of all materials installed and the actual cost of all materials stored at the project site or away from the project site, as approved in writing by Region 4 ESC but not yet paid for and which cannot be returned, and actual, reasonable and documented demobilization costs, if any, paid by Contractor and approved by Region 4 ESC in connection with the Scope of Work in place which is completed as of the date of termination by Region 4 ESC and that is in conformance with the Contract Documents, less all amounts previously paid for the Work. No amount ever shall be owed or paid to Contractor for lost or anticipated profits on any part of the Scope of Work not performed or for consequential damages of any kind.

2. Equal Employment Opportunity:

Region 4 ESC highly encourages Contractors to implement Affirmative Action practices in their employment programs. This means Contractor should not discriminate against any employee or applicant for employment because of race, color, religion, sex, pregnancy, sexual orientation, political belief or affiliation, age, disability or genetic information.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order

11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided,* however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. "During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. Davis Bacon Act and Copeland Anti-Kickback Act.

a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program**.

b. All prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.

c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The

decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act.**" However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

(1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

5. Contract Work Hours and Safety Standards Act.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.

c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.

d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-

assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section."

6. Rights to Inventions Made Under a Contract or Agreement.

a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of "funding agreement."

b. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

c. The regulation at 37 C.F.R. § 401.2(a) currently defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of $150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C.
§§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

a. The following provides a sample contract clause concerning compliance

for contracts of amounts in excess of $150,000:

"Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C.
§ 7401 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA."

8. Debarment and Suspension.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).

c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement,* Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

d. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipient.

e. Specifically, a covered transaction includes the following contracts for goods or services:

(1) The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

(2) The contract requires the approval of FEMA, regardless of amount.

(3) The contract is for federally required audit services.

(4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

"Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2

C.F.R.
§ 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

9. Byrd Anti-Lobbying Amendment.

10. Procurement of Recovered Materials.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

12. DHS Seal, Logo, and Flags.

a. All non-Federal entities must place in their contracts a provision that a contractor

shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).

b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval."

13. Compliance with Federal Law, Regulations, and Executive Orders.

a. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

b. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

14. No Obligation by Federal Government.

a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

b. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. 3. Terms of Payment: Terms of payment are subject at all times to prior approval of the Company's credit department. Terms of payment are net 30 days from date of invoice, unless otherwise agreed to in writing by Company. If at any time the financial condition of Buyer or any other circumstance affecting the credit decision does not, in Company's opinion, justify continuance of production of products or shipment of products on the terms of payment specified, Company may require full or partial payment in advance, or may at its sole discretion stop or delay production or shipment of products. In the event of default in payment, Buyer agrees to pay all costs of collection incurred by Company, including but not limited to, collection agency fees, attorneys' fees, legal expenses and court costs. All past due amounts shall bear interest at the highest rate allowed by law.

4. Shipping Terms: All shipments will be made F.O.B. factory or warehouse with freight prepaid and allowed as quoted via a low cost common carrier, and charges for special carrier services requested by Buyer shall be paid by Buyer. Company may ship the goods in one or more lots; such lots may be separately invoiced and shall be paid for when due per invoice, without regard to subsequent deliveries. Delay in delivery of any lot shall not relieve Buyer of its obligation to accept remaining deliveries.

5. Claims: Responsibility of Company for all shipments ceases upon delivery of the goods to the carrier; and regardless of shipping terms or freight payment, Buyer shall bear all risk of loss or damage in transit. Any claims for damage or shortage in transit must be filed by Buyer against the carrier, and not Company. Claims for factory shortages will not be considered unless made in writing to Company within ten (10) days after receipt of the goods and accompanied by reference to Company's bill of lading and factory order numbers.

6. Taxes: The amount of any present or future taxes applicable to the product shall be added to the price contained herein and paid by Buyer in the same manner and with the same effects as if originally added thereto.

7. Cancellations: Accepted orders are not subject to cancellation without Company being (a) reimbursed for any and all expenses (including overhead), (b) paid a reasonable profit, and (c) indemnified by Buyer against any and all loss.

8. Shipment Dates: Shipment dates are only estimates. No contract has been made to ship in a specified time, unless set forth in a separate writing signed by an officer of Company. Company shall not be liable for any damage as a result of any delay or failure to deliver due to disapproval of Company Credit Department or due to any cause beyond Company's reasonable control, including without limitation, any act of God, act of Buyer, governmental act, accident, labor unrest, delay in transportation, or inability to obtain necessary labor, materials or manufacturing facilities.

9. Returns: Goods may not be returned unless Buyer obtains the advance written permission of an authorized Company official, and when so returned will be subject to handling and transportation charges. Authorized returned goods must be shipped prepaid to the location designated by the authorization.

10. Limited Warranty: Subject to sections 11 and 12 herein, Company warrants that it will, at its option, repair or replace defective parts in the event any product manufactured by Company, sold hereunder and used in the United States or Canada, proves defective in material or workmanship within twelve (12) months from initial start-up, or eighteen (18) months from date of shipment, whichever period expires sooner. Replaced parts are warranted for the duration of the original warranty period. THIS WARRANTY CONSTITUTES BUYER'S SOLE REMEDY. IT IS GIVEN IN LIEU OF ALL OTHER WARRANTIES. THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. No liability shall attach to Company until Company has been paid in full for all products purchased hereunder. No person (including any agent, sales representative, dealer or distributor) has the authority to expand Company's obligation beyond the terms of this express warranty, or to state that the performance of any product is other than is published by Company. Company must receive a startup Registration Form for products containing motor compressors and/or furnaces within ten (10) days of original product startup, or the startup date and ship date will be deemed the same for warranty period determination, and the warranty shall expire twelve (12) months from that date.

11. Warranty Exclusions: Company's warranty set forth in section 10 does not apply to any products or parts which (a) have been opened, disassembled, repaired, or altered by anyone other than Company or its authorized service representative; or (b) have been subjected to misuse, negligence, accidents, damage, or abnormal use or service; or (c) have been operated, installed, or startup has been provided in a manner contrary to Company's printed instructions, or (d) were manufactured or furnished by others and which are not an integral part of a product manufactured by Company. Refrigerants, fluids, oils and expendable items such as filters are not covered by Company's warranty. For additional consideration Company will provide an extended warranty(ies) on certain products or parts thereof. The terms of any extended warranty(ies) are shown on the product limited warranty certificate or on a separate extended warranty statement.

12. Limitation on Liability; Indemnity: Company's liability with respect to the products sold hereunder shall be limited to the warranty provided in section 10 hereof, and shall not exceed the lesser of (a) the cost of repairing or replacing defective products, or (b) the original purchase price of the products. IN NO EVENT AND UNDER NO CIRCUMSTANCES SHALL COMPANY BE LIABLE FOR INCIDENTAL, INDIRECT, SPECIAL, CONTINGENT OR CONSEQUENTIAL DAMAGES, WHETHER THE THEORY BE BREACH OF THIS OR ANY OTHER WARRANTY, NEGLIGENCE OR STRICT LIABILITY IN TORT.

13. Infringement: Company will, at its own expense, defend any suits that may be instituted by anyone against Buyer for alleged infringement of any valid United States patent, trademark or copyright in existence on the date of this contract relating to any products sold hereunder that are manufactured by Company, provided Buyer (i) shall have made all payments then due hereunder, (ii) shall give Company immediate notice in writing of any such suit and transmit to Company immediately upon receipt all processes and papers served upon Buyer, and (iii) shall permit Company, either in the name of Buyer or the name of Company, to defend the same and give Company all needed information, assistance and authority to enable it to do so. If such products are in such suit held in and of themselves to infringe any such patent, trademark or copyright, Company will pay any final award of damages in such suit to the extent attributable to such infringement. Notwithstanding the foregoing, Company shall not be responsible for any settlement made without its written consent, or for infringements of combination or process patents covering the use of the products in combination with other goods not furnished and manufactured by Company.

14. Disputes and Choice of Law: This contract and these Terms and Conditions of Sale shall constitute the entire agreement between Company and Buyer and shall be governed by and construed according to the laws of the State of Minnesota. All claims, disputes, and controversies arising out of or relating to this contract, or the breach thereof, shall, in lieu of court action, be submitted to arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association ("AAA"), and any judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. The site of the arbitration shall be Minneapolis, Minnesota, unless another site is mutually agreed between the parties. The parties agree that any party to the arbitration shall be entitled to discovery of the other party as provided by the Federal Rules of Civil Procedure; provided, however, that any such discovery shall be completed within four (4) months from the date the Demand for Arbitration is filed with the AAA.

15. Canada: The parties hereto confirm that it is their wish that this contract be drawn up in the English language only; les parties aux présentes confirment leur volonté que ce contrat soit rédigé en langue anglaise seulement.

6.5. In the event that Contractor is required to make any repairs and/or replacements or emergency calls occasioned by the improper operation of the equipment covered hereby, or any cause beyond Contractor's control, Owner shall pay Contractor for the charges incurred in making such repairs and/or replacements or emergency calls in accordance with the current established Contractor rates for performing such services.

6.6. Any Maintenance Agreement price is subject to adjustment once each calendar year, effective on the anniversary date, for changes in labor, subcontractor and material costs. Owner shall receive forty-five (45) days prior written notice of such adjustment unless specifically excluded otherwise in writing.

6.7. In the event that Contractor determines, during the first thirty (30) days of any Maintenance Agreement or upon seasonal start-up (discovery period) that any of Owner's equipment, not sold by Contractor under this Agreement, but covered under the Service/Maintenance Agreement, is in need of repair and/or replacement, Contractor shall inform Owner of the equipment condition and remedy. Contractor shall not be responsible for the present or future repair and/or replacement or operability of any specific equipment; until such time as the equipment is brought up to an acceptable condition or the Owner removes the unacceptable system(s), component(s), or part(s) from this Agreement.

7. Compliance with Laws. Contractor and Owner agree that:

7.1. Contractor accepts sole liability for compliance with all governmental regulations related to Contractor's employees and their employment, including without limitation to such items as workers' compensation insurance coverage, unemployment insurance, social security tax withholdings (FICA), withholding for any and all governmental taxes, OSHA requirements, ERISA requirements, Fair Labor Standard Act (FLSA) requirements, the Immigration and Control Act of 1986 (IRCA), work safety rules, as such laws and regulations may apply to Contractor's employees in relation to Work at the Property.

7.2. All employees of Contractor assigned to the Property will have their identity and eligibility for work within the United States of America properly verified. Within five (5) days of receipt of a written request from Owner, Contractor shall provide Owner with copies of the I-9 form or such other documentation as may be appropriate or required to satisfy Owner as to Contractor's compliance with IRCA.

7.3. Contractor shall comply with all applicable governmental regulations and laws in the hiring, supervision, and termination of employees.

7.4. Contractor shall provide equal employment opportunities to all qualified individuals without regard to race, color, national origin, religion, sex, age, or disability. Contractor will comply with the equal employment opportunity policies of Owner and with all equal employment opportunity requirements adopted by any governmental authority including the Civil Rights Act of 1964, Executive Orders 11246, 11375 and 11478, and any state fair employment practices act. Contractor will likewise require its subcontractors to comply with all equal employment opportunity requirements.

8. License and Permits. At Contractor's sole expense, Contractor will obtain and maintain, or require its subcontractors to obtain and maintain, any applicable licenses and/or permits as required by applicable laws and regulations in providing the Work.
9. Insurance. At all times while performing the Work, Contractor shall maintain, at its sole cost and expense, the insurance as set forth in Contractor's sample certificate of insurance, attached hereto as Exhibit B.
10. Indemnification. The parties' obligation to defend and indemnify is as follows under this Agreement:
    10.1. Upon prompt receipt of written notice from Owner, Contractor shall defend, indemnify, and hold harmless Owner, and Owner's officers, directors, employees, and agents, from and against those damages, liabilities, claims, and causes of action, for property damage, personal injury or death (including without limitation injury to or death of Owner's employees or any subcontractor thereof) (jointly referred to as "Claims"), directly caused by Contractor's negligence, gross negligence, or willful misconduct during the performance of the Work, but only to the extent that the Claims stated above were not caused in any way by the actions of any Subcontractor. Subcontractors, pursuant to the Subcontract Agreement with Contractor, hold their own indemnification obligations toward the Owner.

    Notwithstanding Contractor's indemnification obligations under this Agreement, these shall not extend to Claims caused by any act or omission by any architect, engineer, consultant, or project manager retained to perform work in connection with the Property. Architects, engineers, consultants, and project managers shall be required to defend, indemnify or hold harmless Owner pursuant to any agreement for the referenced services.

    10.2. Upon receipt of prompt written notice from Contractor, Owner shall defend, indemnify, and hold harmless Contractor and its respective officers, directors, employees, and agents, from those damages, liabilities, claims, demands, and causes of action, for property damage, personal injury or death (including without limitation injury to or death of Contractor's employees or any subcontractor thereof) directly caused by a violation of any laws pertaining to Owner's business or any negligence, gross negligence or willful misconduct by Owner during Contractor's performance of the Work.
11. Default.
    11.1. A default occurs under the terms of this Agreement if: (a) Contractor substantially fails to perform any of its material obligations under this Agreement; (b) if Owner becomes insolvent, and/or; (c) if Owner fails to tender payment to Contractor under this Agreement for thirty (30) days after the date such payment is due (together "Event of Default").
    11.2. Upon the occurrence of an Event of Default, the non-breaching party shall provide written notice to the breaching party ("Notice of Default"). Upon receipt of the Notice of Default, the breaching party shall immediately correct the default. If the breaching party fails to correct the default for thirty (30) days after receipt of the Notice of Default, or fails to provide evidence that appropriate corrective action is in reasonable process, the non-breaching party may terminate this Agreement upon written notice ("Notice of Termination"). The parties shall have any legal remedies at their disposition, as allowed by local law.
12. Termination. Absent an uncured Event of Default, this Agreement may only be terminated only by the consent of the parties.
    12.1. The termination shall be evidenced by: (a) execution of a single writing; (b) signed by Contractor and Owner; (c) that specifically identifies this Agreement, and (d) states that Owner and Contractor terminate this Agreement as of a specified date ("Termination Agreement").
    12.2. Prior to execution of the Termination Agreement, Contractor shall present Owner with an Application for Payment for actual Work rendered under this Agreement as of the date the parties intend to execute the Termination Agreement, and Owner shall pay Contractor the amount requested in the Application Payment contemporaneously with the parties execution of the Termination Agreement.
    12.3. If applicable, a Maintenance Agreement may be terminated: (i) by either party upon the anniversary date hereof; provided however, that written notice of such termination must be given to the non-terminating party at least thirty (30) days prior to the anniversary date; or (ii) by Contractor upon five (5) days prior written notice to Owner, in the event that any sums or monies due or payable pursuant to this Agreement are not paid when due or in the event that additions, alterations, repairs or adjustments are made to the system or equipment without Contractor's

prior approval. If a Maintenance Agreement is terminated for any reason, other than a material breach by Contractor, Owner shall pay, in addition to all sums currently due and owing, the entire remaining balance due for the term of the Maintenance Agreement, or an amount equal to time and materials expended for the year, whichever is less.

13. LIMITATION OF LIABILITY: NOTWITHSTANDING ANY OTHER PROVISION TO THE CONTRARY, UNDER NO CIRCUMSTANCES SHALL EITHER PARTY BE LIABLE TO THE OTHER FOR ANY CONSEQUENTIAL, INCIDENTAL, PUNITIVE, EXEMPLARY, LIQUIDATED, SPECIAL, OR INDIRECT DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF USE, REVENUE, PROFITS, GOODWILL, OR OTHER BUSINESS INTERRUPTION DAMAGES, THAT ARISE OUT OF OR RELATED IN ANY WAY TO THEIR PERFORMANCE OR LACK OF PERFORMANCE UNDER THIS AGREEMENT, WHETHER BASED ON STATUTE, TORT, CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR ANY OTHER CLAIM OR THEORY OF RECOVERY OR LIABILITY WHATSOEVER, REGARDLESS OF WHETHER THESE DAMAGES COULD HAVE BEEN FORESEEN OR NOT.

    The foregoing addresses may be changed from time to time by notice to the other party in the manner hereinbefore provided for.
20. No Waiver. Failure of Owner at any time to require performance by Contractor of any provision hereof shall in no way affect the full right to require such performance at any time thereafter, nor shall the waiver by Owner of a breach of any of the provisions hereof constitute a waiver of any succeeding breach of the same or any other provision.
21. Severability. If any provision hereof is deemed to be invalid or unenforceable under applicable law, this Agreement shall be considered divisible as to such provision and the same shall thereafter be inoperative, provided however, the remaining provisions of this Agreement shall be valid and binding.
22. Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Minnesota (other than its rules as to conflicts of law which might require application of laws of another jurisdiction).
23. Miscellaneous.
    23.1. No Liens. Owner agrees that this Agreement is made solely on the terms and conditions hereof, notwithstanding any additional or conflicting conditions that may be contained in any purchase order or other form of Owner, all of which additional or conflicting terms and conditions are hereby rejected by Contractor. Further, Owner acknowledges and agrees that any other terms such as those which may be included in future purchase order issued by Owner in accordance with this Agreement, will only establish payment authority for Owner’s internal accounting purposes. Any such purchase order will not be considered by Contractor to be a counteroffer,

amendment, modification, or other revision to the terms of this Agreement. No waiver, alteration or modification of the terms and conditions herein shall be valid unless made in writing and signed by an authorized representative of Contractor.

IN WITNESS WHEREOF, the parties have executed this Agreement on the Effective Date, the corporate parties by their officers duly authorized.

Subject: Recommendation of Contract Award

Region 4 ESC held a RFP opening on March 24, 2020 for RFP #20-04 for ***HVAC Equipment, Installation, Services & Related Products***. There were eight (8) proposals submitted:

- BLUE BOX AIR, LLC
- Daikin Applied Americas Inc.
- HACI Service LLC.
- Johnson Controls, Inc.
- Sun Mechanical Contracting, Inc.

CONSIDERATION

Award of annual contract in compliance with the bid laws of the State of Texas is recommended.

RECOMMENDATION

The Evaluation Team recommends the following companies for award based on their response:

Re: HVAC Equipment, Installation, Services & Related Products; RFP #20-04

The Evaluation Committee has reviewed the responses and recommend that the following companies be awarded:

- Daikin Applied Americas, Inc.
- Johnson Controls, Inc.
- TDIndustries, Inc.

The recommended vendors submitted offers that were determined to be most advantageous to OMNIA Partners, Public Sector members, based upon the bid tabulation. All the recommended respondents were determined to be competitively priced and strong for the specified services outlined in the RFP.

We believe all recommended vendors demonstrate the ability to provide and perform the services requested in the proposal. We will monitor their performance and determine at the end of each year if they are eligible for renewal with each new term.

This multiple award is recommended as most advantageous as it limits contract awards to the least number of suppliers necessary to meet the requirements of OMNIA Partners, Public Sector members. In order to serve the entire nation, a multiple award is recommended to provide any governmental agency with complete coverage of commodities, services and any other offering within the scope of proposal.

Please let me know if you have any questions.

Daikin has 130+ independently owned Rep partners who provide both Daikin and non-Daikin manufactured equipment. Daikin is requesting to add these Rep offices so they can sell approved Daikin products and labor solutions as per the Contract directly to Region 4 and Participating Public Agency member (i.e. PO issued directly to Rep). Internally Daikin will ensure contract compliance by reviewing ALL estimates and registering the project with OMNIA to obtain a CPN. As the Region 4 ESC contract holder, Daikin will be responsible for ensuring only approved products and services are offered, reporting all sales and upholding all contract obligations. The attached Rep Roster lists all Daikin's Rep office locations. This process will save time and lower projects costs for Region 4 and Participating Public Agency members.

Daikin Applied requests to increase labor and equipment pricing on the attached pricing documents. Due to the rising costs associated with the pandemic, supply chain, and logistic challenges, Daikin is requesting an increase that will be reassessed in December, 2022. Daikin has been able to maintain labor pricing since the beginning of the contract (2020) and is requesting a 3% increase. But for pricing related to equipment, that has been impacted more by the pandemic, Daikin will either submit a new update prior to Dec 31, 2020 for Region IV's approval to maintain or change pricing, otherwise pricing will be reverted to today's equipment pricing.

I. SCOPE OF WORK

Region 4 Education Service Center ("Region 4 ESC") requests proposals from qualified suppliers with the intent to enter into a Contract for HVAC Equipment, Installation, Services, & Related Services. Region 4 ESC is seeking a provider that has the depth, breadth and quality of resources necessary to complete all phases of the Contract. Awarded Offeror(s) shall deliver products and services under the terms of this agreement. While this solicitation specifically covers HVAC Equipment, Installation, Services, & Related Services, each awarded Offeror may offer their complete product and service offering, or balance of line. Region 4 ESC reserves the right to accept or reject any or all balance of line items offered.

Region 4 ESC is an education service center established by the Texas Legislature in 1967 to assist school districts and charter schools in improving efficiencies. Region 4 ESC directly serves a seven-county area comprised of 48 public school districts and 39 open-enrollment charter schools, representing more than 1.2 million students, 99,000 educators and 1,500 campuses. Through cooperative contracts Region 4 ESC extends the opportunity to operate more efficiently and economically to agencies nationwide through OMNIA Partners (see below).

The Contract is based on the need to provide the economic benefits of volume purchasing and reduction in administrative costs through cooperative purchasing to schools and other members. Although the awarded Offeror(s) may restrict sales to certain public units (for example, state agencies or local government units), any proposal that prohibits sales from being made to public school districts may not be considered. Sales without restriction are preferred. These types of contracts are commonly referred to as being "piggybackable."

NATIONAL CONTRACT

Region 4 ESC as the Principal Procurement Agency, defined in ATTACHMENT D has partnered with OMNIA Partners, Public Sector ("OMNIA Partners") to make the resultant contract (also known as the "Master Agreement" in materials distributed by OMNIA Partners) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners' cooperative purchasing program. Region 4 ESC is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners (a "Participating Public Agency") and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of a Master Intergovernmental Purchasing Cooperative Agreement, a form of which is attached hereto on ATTACHMENT D or as otherwise agreed to. ATTACHMENT D contains additional information about OMNIA Partners and the cooperative purchasing program.

OMNIA Partners is the largest and most experienced purchasing organization for public and private sector procurement. Through the economies of scale created by OMNIA Partners public sector subsidiaries and affiliates, National IPA and U.S. Communities, our participants now have access to more competitively solicited and publicly awarded cooperative agreements. The lead agency contracting process continues to be the foundation on which we are founded. OMNIA Partners is proud to offer more value and resources to state and local government, higher education, K-12 education and non-profits.

OMNIA Partners provides shared services and supply chain optimization to government, education and the private sector. With corporate, pricing and sales commitments from the Supplier, OMNIA Partners provides marketing and administrative support for the Supplier that directly promotes the Supplier's products and services to Participating Public Agencies though multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Participating Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and publicly competed. The Supplier benefits from a contract that generally allows Participating Public Agencies to directly purchase goods and services without the Supplier's need to respond to additional competitive solicitations. As such, the Supplier must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Supplier and respond to the OMNIA Partners documents (ATTACHMENT D).

While no minimum volume is guaranteed to the Contractor, the estimated annual volume of HVAC Equipment, Installation, Services & Related Services purchased under the Master Agreement through OMNIA Partners is approximately $15 million. This projection is based on the current annual volumes among Region 4 ESC, other Participating Public Agencies anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, and volume growth into other Public Agencies through a coordinated marketing approach between the Contractor and OMNIA Partners.

Customer Support

Contractor shall provide timely and accurate technical advice and sales support to Region 4 ESC staff and Participating Agencies. Contractor shall respond to such requests within one (1) working day after receipt of the request.

   b) To the best of Offeror's knowledge, the proposal has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other Offerors or potential Offerors in the award of a Contract resulting from this RFP.

d) The individual signing the submittal is an authorized agent for the Offeror and has the authority to bind the Offeror to the Contract.

    Region 4 ESC shall not be responsible or liable for any costs incurred by Offerors or the successful Offeror in connection with responding to the RFP, preparing for oral presentations, preparing and submitting a proposal, entering or negotiating the terms of a Contract, or any other expenses incurred by an Offeror. Region 4 ESC, in its sole discretion and for any reason or no reason, reserves the rights to reject any or all proposals, accept only a part of any proposal, accept the proposal deemed most advantageous to Region 4 ESC, and waive any technicalities. The issuance of this RFP does not obligate Region 4 ESC to make an award or negotiate or execute a Contract. Prior to submission due date and time, Region 4 ESC reserves the right to amend the terms and provisions of the RFP, extend the deadline for submission of proposals, or withdraw the RFP entirely for any reason solely at Region 4 ESC's discretion. A proposal may be rejected if it fails to meet any requirement of this RFP.

12. Mailing of Proposals: All proposals submitted in response to the solicitation must be clearly identified as listed below with the solicitation number, title, name and address of the company responding. All packages must be clearly identified as listed below, sealed and delivered to the Region 4 ESC office no later than the submittal deadline assigned for this solicitation.

    From_____

    Company_____

    Address_____

    City, State, Zip _____

    Solicitation Name and Number _____Due Date and Time_____

13. Amendment of Proposal: A proposal may be amended prior to the time of opening by submitting a sealed letter to the location indicated on the front page of this solicitation.

14. Withdrawal of Proposals: Withdrawal of proposals prior to the opening date will be permitted by a written letter or electronic mail from the Offeror. Telephonic or oral withdrawals shall not be considered. After the opening date consideration may be given in cases where Offeror advises that it made a clerical error that is substantially lower than it intended. In such case, Offeror must provide written notice of their desire to withdraw, along with supporting documents, within 3 business days of receiving the acceptance letter or of being requested by Region 4 ESC for clarification of the proposal, whichever is later. Any Contract entered into prior to Region 4 ESC receiving notice must be honored. No Offeror should assume their

withdrawal request has been accepted unless, and until, they receive written acknowledgment and acceptance of their proposal withdrawal.

15. Offer and Acceptance Period: In order to allow for an adequate evaluation, Region 4 ESC requires a proposal in response to this RFP to be valid and irrevocable for one-hundred twenty (120) days after the proposal due date and time.

16. Non-Responsive Proposals: All proposals will be reviewed for responsiveness to the material requirements of the solicitation. A proposal that is not materially responsive shall not be eligible for further consideration for award of the Contract, and the Offeror shall receive notice of the non-award of its proposal.

17. Discussions: Region 4 ESC reserves the right to conduct discussion with Offerors for the purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal in order to clarify a proposal and assure full understanding of, and responsiveness to, the RFP requirements.

18. Negotiations: In the event Region 4 ESC decides to conduct negotiations, exclusive or concurrent negotiations may be conducted with Offerors reasonably susceptible for award. During the course of negotiations, no Offeror's proposal, including pricing, shall be revealed to any other Offeror or to any other person who is not involved with the evaluation process. Exclusive or concurrent negotiations shall not constitute a Contract award, nor shall it confer any property rights to the successful Offeror. In the event Region 4 ESC deems negotiations are not progressing, Region 4 ESC may formally terminate these negotiations and may enter into subsequent exclusive or concurrent negotiations with the next most qualified Offeror(s).

19. Best and Final Offer: Region 4 ESC, in its sole discretion, may request Offerors reasonably susceptible for award to submit a Best and Final Offer. Offerors must submit their Best and Final Offers in writing. If an Offeror does not respond to the request for a Best and Final Offer, that Offeror's most recent prior submission will be considered its Best and Final Offer.

20. Specifications: When a solicitation contains a specification that states no substitutions, no deviation from this requirement will be permitted. Offeror must comply with the true intent of the specifications and drawings and not take advantage of any unintentional error or omission. In cases where no type and kind of product is specified, specifications have been developed to indicate minimal standards as to the usage, materials, and contents based on the needs of the members. References to manufacturer's specifications ("Design Guides"), when used by Region 4 ESC, are to be considered informative to give the Offeror information as to the general style, type and kind requested. Responses proposing goods, materials or equipment regularly produced by a reputable manufacturer shall be evaluated by Region 4 ESC which will, in its sole discretion, determine whether such proposed goods, materials or equipment are substantially equivalent to the Design Guides, considering quality, workmanship, economy of operation, and suitability for the purpose intended. Offerors should include all documentation required to evaluate whether or not their proposed goods, materials or equipment are substantially equivalent to the Design Guides.

21. Quality of Materials or Services: Offeror shall state the brand name and number of the materials being provided. If none is indicated, it is understood that the Offeror is proposing the exact brand name and number specified or mentioned in the solicitation. However, unless specifically stated otherwise, comparable substitutions will be permitted in cases where the material is equal to that specified, considering quality, workmanship, economy of operation and suitability for the purpose intended.

22. Samples: Upon request, samples shall be furnished, free of cost, within seven (7) days after receiving notice of such request. By submitting the proposal Offeror certifies that all materials conform to all applicable requirements of this solicitation and of those required by law. Offeror agrees to bear the costs for laboratory testing, if results show the sample does not comply with solicitation requirements. Submissions may no longer be considered for failing to submit samples as requested.

23. Formation of Contract: A response to this solicitation is an offer to contract with Region 4 ESC based upon the terms, conditions, Scope of Work, and specifications contained in this request. A solicitation does not become a Contract until it is awarded by Region 4 ESC. A Contract is formed when Region 4 ESC's board signs the Offer and Contract Signature Form. The signed Offer and Contract Signature Form provided with the RFP response eliminates the need for a formal signing process.

Implementation of House Bill 1295

Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least $1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

Filing Process:

Staring on January 1, 2016, the commission made available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. This process is known as acknowledging the certificate. The commission will post the acknowledged Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. The posted acknowledged form does not contain the declaration of signature information provided by the business.

A certificate will stay in the pending state until it is acknowledged by the governmental agency. Only acknowledged certificates are posted to the commission's website.

SPECIAL CONDITIONS

The below clauses are applicable to the Offer; by Submitting a Sealed Proposal the Offeror is accepting these Special Conditions:

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3.

i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement.

ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of Region 4 ESC nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minims, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. Termination for Convenience:

The right to terminate this Contract for the convenience of Region 4 ESC is retained by Region 4 ESC. In the event of a termination for convenience by Region 4 ESC, Region 4 ESC shall, at least ten (10) calendar days in advance, deliver written notice of the termination for convenience to Contractor. Upon Contractor's receipt of such written notice, Contractor immediately shall cease the performance of the Work and shall take reasonable and appropriate action to secure and protect the Work then in place. Contractor shall then be paid by Region 4 ESC, in accordance with the terms and provisions of the Contract Documents, an amount not to exceed the actual labor costs incurred, the actual cost of all materials installed and the actual cost of all materials stored at the project site or away from the project site, as approved in writing by Region 4 ESC but not yet paid for and which cannot be returned, and actual, reasonable and documented demobilization costs, if any, paid by Contractor and approved by Region 4 ESC in connection with the Scope of Work in place which is completed as of the date of termination by Region 4 ESC and that is in conformance with the Contract Documents, less all amounts previously paid for the Work. No amount ever shall be owed or paid to Contractor for lost or anticipated profits on any part of the Scope of Work not performed or for consequential damages of any kind.

2. Equal Employment Opportunity:

Region 4 ESC highly encourages Contractors to implement Affirmative Action practices in their employment programs. This means Contractor should not discriminate against any employee or applicant for employment because of race, color, religion, sex, pregnancy, sexual orientation, political belief or affiliation, age, disability or genetic information.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order

11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided,* however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. "During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. Davis Bacon Act and Copeland Anti-Kickback Act.

a. Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program**.

b. All prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.

c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The

decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act.**" However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

(1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

5. Contract Work Hours and Safety Standards Act.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.

c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.

d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-

assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section."

6. Rights to Inventions Made Under a Contract or Agreement.

a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of "funding agreement."

b. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

c. The regulation at 37 C.F.R. § 401.2(a) currently defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of $150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C.
§§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

a. The following provides a sample contract clause concerning compliance

for contracts of amounts in excess of $150,000:

"Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C.
§ 7401 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA."

8. Debarment and Suspension.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).

c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement,* Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

d. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipient.

e. Specifically, a covered transaction includes the following contracts for goods or services:

(1) The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

(2) The contract requires the approval of FEMA, regardless of amount.

(3) The contract is for federally required audit services.

(4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

"Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2

C.F.R.
§ 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

9. Byrd Anti-Lobbying Amendment.

   a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

   b. Contractors that apply or bid for an award of $100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.

   c. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.

   d. The following provides a Byrd Anti-Lobbying contract clause:

"Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award

covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding $100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

10. Procurement of Recovered Materials.

    a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

    b. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.

    c. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

    d. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

11. Additional FEMA Requirements.

a. The Uniform Rules authorize FEMA to require additional provisions for non-Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:

b. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

12. DHS Seal, Logo, and Flags.

a. All non-Federal entities must place in their contracts a provision that a contractor

shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).

b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval."

13. Compliance with Federal Law, Regulations, and Executive Orders.

The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

14. No Obligation by Federal Government.

a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

1.0 Scope of National Cooperative Contract

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the Administration Agreement between Supplier and OMNIA Partners, Public Sector.

1.1 Requirement

Region 4 ESC (hereinafter defined and referred to as "Principal Procurement Agency"), on behalf of itself and the National Intergovernmental Purchasing Alliance Company, a Delaware corporation d/b/a OMNIA Partners, Public Sector ("OMNIA Partners, Public Sector"), is requesting proposals for HVAC Equipment, Installation, Service & Related Products. The intent of this Request for Proposal is any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal ("Master Agreement") be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through OMNIA Partners, Public Sector's cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with OMNIA Partners, Public Sector, an example of which is included as Exhibit D, and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners, Public Sector as a Participating Public Agency in OMNIA Partners, Public Sector's cooperative purchasing program. Registration with OMNIA Partners, Public Sector as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C, and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, Public Sector, whether pursuant to the terms of the Master Intergovernmental Purchasing Cooperative Agreement or as otherwise agreed to. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through OMNIA Partners, Public Sector.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither OMNIA Partners, Public Sector, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency. Supplier is responsible for knowing the tax laws in each state.

This Exhibit A defines the expectations for qualifying Suppliers based on OMNIA Partners, Public Sector's requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through OMNIA Partners, Public Sector.

These requirements are incorporated into and are considered an integral part of this RFP. OMNIA Partners, Public Sector reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies, in its sole and absolute discretion, and any party submitting a response to this RFP acknowledges that any award by the Principal Procurement Agency does not obligate OMNIA Partners, Public Sector to make the Master Agreement available to Participating Procurement Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement OMNIA Partners, Public Sector intends to provide marketing, sales, partnership development and administrative support for Supplier pursuant to this section that directly promotes the Supplier's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

OMNIA Partners will assign the Supplier a Director of Partner Development who will serve as the main point of contact for the Supplier and will be responsible for managing the overall relationship between the Supplier and OMNIA Partners. The Director of Partner Development will work with the Supplier to develop a comprehensive strategy to promote the Master Agreement and will connect the Supplier with appropriate stakeholders within OMNIA Partners including, Sales, Marketing, Contracting, Training, and Operations & Support.

The OMNIA Partners, Public Sector marketing team will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through channels that may include:

A. Marketing collateral (print, electronic, email, presentations)
B. Website
C. Trade shows/conferences/meetings
D. Advertising
E. Social Media

The OMNIA Partners, Public Sector sales teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through initiatives that may include:

A. Individual sales calls
B. Joint sales calls
C. Communications/customer service
D. Training sessions for Public Agency teams

E. Training sessions for Supplier teams

The OMNIA Partners, Public Sector contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
B. Training sessions for Public Agency teams
C. Training sessions for Supplier teams
D. Regular business reviews to monitor program success
E. General contract administration

Suppliers are required to pay an administrative fee of 4% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the OMNIA Partners, Public Sector Administration Agreement (Exhibit B).

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately $10 million annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through OMNIA Partners, Public Sector, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and OMNIA Partners, Public Sector.

1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will, at OMNIA Partners, Public Sector's option, be the basis of award on a national level through OMNIA Partners, Public Sector. If multiple Suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same Suppliers will be required to extend the Master Agreement to Participating Public Agencies through OMNIA Partners, Public Sector. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency (e.g. governing law) are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and OMNIA Partners, Public Sector shall agree without being in conflict with the Master Agreement. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement (i.e. invoice requirements, order requirements, specialized delivery, diversity requirements such as minority and woman owned businesses, historically underutilized business, governing law, etc.). It shall be the responsibility of the Supplier to comply, when applicable, with the prevailing wage legislation in effect in the jurisdiction of the Participating Agency. It shall further be the responsibility of the Supplier to monitor the prevailing wage rates as established by the appropriate department of labor for

any increase in rates during the term of the Master Agreement and adjust wage rates accordingly. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to OMNIA Partners, Public Sector).

All purchase orders issued and accepted by the Supplier may survive expiration or termination of the Master Agreement. Participating Agencies' purchase orders may exceed the term of the Master Agreement if the purchase order is issued prior to the expiration of the Master Agreement. Supplier is responsible for reporting all sales and paying the applicable administrative fee for sales that use the Master Agreement as the basis for the purchase order, even though Master Agreement may have expired.

1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through OMNIA Partners, Public Sector's cooperative program:

A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;

B. Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;

C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;

D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and OMNIA Partners, Public Sector designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

2.1 Corporate Commitment

Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is Supplier's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with OMNIA Partners, Public Sector and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the

RFP response that will be responsible for the overall management of the Master Agreement.

2.2 Pricing Commitment

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

2.3 Sales Commitment

Supplier commits to aggressively market the Master Agreement as its go to market strategy in this defined sector and that its sales force will be trained, engaged and committed to offering the Master Agreement to Public Agencies through OMNIA Partners, Public Sector nationwide. Supplier commits that all Master Agreement sales will be accurately and timely reported to OMNIA Partners, Public Sector in accordance with the OMNIA Partners, Public Sector Administration Agreement. Supplier also commits its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. "Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

c. In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

d. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

e. In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

f. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act.**" However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

(1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses

(3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

13. Contract Work Hours and Safety Standards Act.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.

c. Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.

d. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

e. The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act.

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and

liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section."

14. Rights to Inventions Made Under a Contract or Agreement.

a. Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of "funding agreement."

b. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R.§ 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.

c. The regulation at 37 C.F.R. § 401.2(a) currently defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

15. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of $150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C.§§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

a. The following provides a sample contract clause concerning compliance for contracts of amounts in excess of $150,000:

"Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C.§ 7401 et seq.

(2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(4) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(5) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(6) The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA."

16. Debarment and Suspension.

a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

b. Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).

c. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement,* Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

d. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipient.

e. Specifically, a covered transaction includes the following contracts for goods or services:

(1) The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

(2) The contract requires the approval of FEMA, regardless of amount.

(3) The contract is for federally required audit services.

(4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

"Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R.§ 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

17.Byrd Anti-Lobbying Amendment.

c. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

d. Contractors that apply or bid for an award of $100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.

e. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award.

Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.

f. The following provides a Byrd Anti-Lobbying contract clause:

"Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted

with each bid or offer exceeding $100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1.No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2.If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3.The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor,_____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq*., apply to this certification and disclosure, if any.

18.Procurement of Recovered Materials.

g. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

h. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.

i. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

j. The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

"(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

(i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement, along with the list of EPA- designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive- procurement-guideline-cpg-program."

19.Additional FEMA Requirements.

k. The Uniform Rules authorize FEMA to require additional provisions for non- Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:

l. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

m. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

n. The following provides a contract clause regarding access to records:

"Access to Records. The following access to records requirements apply to this contract:

(4) The contractor agrees to provide (insert name of state agency or local or Indian tribal government), (insert name of recipient), the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(5) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(6) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

20. DHS Seal, Logo, and Flags.

o. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).

p. The following provides a contract clause regarding DHS Seal, Logo, and Flags: "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval."

21. Compliance with Federal Law, Regulations, and Executive Orders.

q. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the

contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

r. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: "This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives."

22.No Obligation by Federal Government.

s. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

t. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

23.Program Fraud and False or Fraudulent Statements or Related Acts.

u. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

v. The following provides a contract clause regarding Fraud and False or Fraudulent or Related Acts: "The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract."

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided in the contract.

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

Q&A for RFP 20-04 HVAC

Do we need to include pages 1-21 in our response?

Answer: No.

Do we need to include all of exhibit H, the list of cities in our response?

Answer: It is not necessary to include all agency listings.

Do we need to supply our safety manual in our response?

Answer: See IV. Evaluation Process and Criteria, #2, a. xi. "Provide any additional information relevant to this section." However, if the documents are lengthy a recommendation would be to list current safety manuals or links. Awarded supplier(s) shall provide safety manual information upon Region 4 ESC or Participating Public Agency request.

Do we need to supply copies of all our licenses or a list of all of them for all our partners?

Answer: See IV. Evaluation Process and Criteria, #2, b. xi. "Provide any additional information relevant to this section." However, if the documents are lengthy a recommendation would be to list current licenses in the response. Awarded supplier(s) shall provide licenses upon Region 4 ESC or Participating Public Agency request. See Appendix A, #12 Licenses for further details.

Appendix C, Doc #7 (page 30) states a bid bond is required for applicable construction/reconstruction/renovation and related services. Our surety company is stating since there are no products or services being purchase for a specific owner and/or project for this RFP a bid bond cannot be provided. Since a bid bond cannot be provided what type of documentation would be considered acceptable to Region 4 to meet this requirement?

Answer: A letter of bonding capacity will suffice.

Perhaps a document stating our bonding capacity?

Answer: A letter of bonding capacity will suffice.

Does Region 4 have a specific form they would like completed to meet their intent of Doc #7?

Answer: No.

Section 3.3.L (page 61 and 61 of 122 states to provide the contract sales for the initial three years of the contract. Please define the timeframe of the start of the initial three years. The anticipated start date is Oct. 1, 2020. Is the first year considered Oct. 1, 2020 through Dec. 31, 2020 (3 months) or is the first year considered the first full calendar year (Jan 1, 2021 through Dec. 31, 2021)?

Answer: The Respondent shall determine the timeframe response.

We are not seeing Attached “D” in the RFP, should this read Appendix “D”?

NATIONAL CONTRACT
Region 4 ESC as the Principal Procurement Agency, defined in ATTACHMENT D has partnered with OMNIA Partners, Public Sector (“OMNIA Partners”) to make the resultant contract (also known as the “Master Agreement” in materials distributed by OMNIA Partners) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through OMNIA Partners’ cooperative purchasing program. Region 4 ESC is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with OMNIA Partners (a “Participating Public Agency”) and by using the Master Agreement, any such Participating Public Agency agrees that it is registered with OMNIA Partners, whether pursuant to the terms of a Master Intergovernmental Purchasing Cooperative Agreement, a form of which is attached hereto on ATTACHMENT D or as otherwise agreed to. ATTACHMENT D contains additional information about OMNIA Partners and the cooperative purchasing program.

Can you please clarify.

Answer: Yes, it should be Appendix D.

Johnson energized for final Cup spin

Michelle R. Martinelli
USA TODAY

Jimmie Johnson is optimistic as he approaches his final full-time season in the NASCAR Cup Series. JOHN DAVID MERCER/USA TODAY SPORTS

DAYTONA BEACH, Fla. – No matter what happens in the 2020 NASCAR Cup Series season, Jimmie Johnson will retire as one of racing's greatest drivers ever with a record-tying seven championships and 83 wins. But he's not about to let up now.

Johnson announced in November that he'll retire from full-time Cup racing at the end of the 2020 season – which opens with Sunday's Daytona 500 (2:30 p.m. ET, Fox) – although he's made it clear he's not done competing and is open to trying out other styles of racing.

But for the next nine months, his focus is on bouncing back from a recent two-year slump and winning (at least) one more Cup Series race, which would move him into a three-way tie for No. 5 all time with Darrell Waltrip and Bobby Allison.

His first checkered flag since 2017 would also automatically qualify him for the playoffs and give him a shot at a record-breaking eighth championship.

USA TODAY Sports spoke with the seven-time champ Wednesday at Daytona International Speedway about his final season and the new mindset he's embracing.

(Note: This interview has been condensed and edited for clarity.)

Does the start to this season feel any different knowing it's your last full-time run?

Johnson: Pulling in, the flight down, media day, talking about it a lot – I told myself in the offseason I wanted to be present and aware of these opportunities and let it in, so it's there. There's so much excitement in my heart about it all that it's really fun and is bringing energy to me and the team. I know as the year goes on, it will become more emotional, but right now it's just bringing a ton of energy.

Is that nervous or positive energy, and how does it compare to how past Daytona 500s have felt?

Johnson: I haven't been in the trenches yet racing and worried about performance, so I haven't had any nerves yet. It's all been euphoria, unicorn-level stuff of just being happy and great. So I know once we go racing, especially when we get to (Las) Vegas (Motor Speedway, for the second race of the season), the reality of the season, the reality of performance will be there. I'll get knocked down, but right now I'm certainly riding a high of euphoria.

With all that energy, what's the one thing you're most excited about going into this season?

Johnson: Experiencing this year with the people that mean so much to me: Family, (team owner) Rick (Hendrick), my crew guys. To have this bond – the years, the time, the depth of our experience and relationships – the people part of this is what I'm most excited for.

What are you most scared about?

Johnson: I think I'm fearful that I'm not going to be present and enjoy the moments because I'm going to be so worried about competition. So I think that's my biggest challenge. If we get off to a quick start and we win, it's going to be very easy. But if we don't get off to the start that we want, how do I enjoy these moments and not be caught in the competitive side too much?

You recently said you're moving away from the "Chasing 8" mentality in this final season. Have your goals for the season changed if your mindset has?

Johnson: What I didn't recognize is after we won seven, with the notion of being a stand-alone champion at eight, I started chasing something then, and, indirectly, we had come up with this hashtag #Chasing8.

And I had the clarity over the offseason of like, "Holy smokes! I've been out of character." That's not anything I've ever done. I've always just showed up to race and have fun. And that's where I've done my best work. That's where I've won seven championships. That's what I'm going back to.

What's Jimmie Johnson doing 10 years from now?

Johnson: That's a great question. I don't even know what I'm doing next year. Ten years, kids are 19 and 16. I'll be fearful of my girls dating, fearful of them driving, worrying about which college they're going to. Dad stuff.

Would you have any interest in returning to Hendrick in an executive leadership position?

Johnson: I've not played that role to date. I'm not against it either, but it's family, it's home. I still, in the coming years, want to compete, so I'm not sure how that really works. But I wouldn't rule it out. Hendrick's home, Hendrick's family, so I'd consider it.

Do you think you'd be OK if you didn't win one more race?

Johnson: I wouldn't have a choice.

NASCAR legend Johnson has itch for IndyCar

Scott Horner
The Indianapolis Star
USA TODAY Network

Jimmie Johnson to the Indianapolis 500? No way.

But as for other IndyCar races ...

The seven-time NASCAR Cup Series champion and four-time Brickyard 400 winner visited NTT IndyCar Series testing Tuesday in Austin, Texas. He expressed interest in tackling road course racing.

"I'm definitely learning," Johnson told the media Tuesday. "This is a totally different world than what I've been used to, but it's a world I dreamed of racing in when I was a kid growing up in San Diego. My heroes were the guys that raced in the Indy 500. I'd go to the Long Beach Grand Prix and watch, hang out and wanted to be in a car going by."

The 44-year-old announced in November that 2020 will be his last full-time season as a Cup Series driver. Sunday at Daytona International Speedway, Johnson posted the fourth-fastest speed in Daytona 500 qualifying.

Johnson is keen on venturing into other forms of racing.

"For me, this is a learning experience and (IndyCar) has always been a bucket list category for me to come see these cars, be around these cars," he said. "(Next year) is open for me and who knows what opportunity might come along in IndyCar, sports cars or back to my off-road roots. I'm just taking it all in and see what comes of it."

He said he has "closed the door" on oval racing after he's done with the Cup Series.

WHEREAS, Owner desires to retain Contractor to perform the Work under Daikin Contract No. R2004001 and any additional terms and conditions as set forth within this Contractor Agreement;

NOW, THEREFORE, in consideration of the promises and the mutual covenants and agreements of the parties, it is agreed as follows:

1. **Work.** Subject to credit approval, Contractor agrees to furnish all labor, materials, tools, equipment, and samples necessary to complete the Work. Contractor

acknowledges that in providing such Work, it shall at all times comply with all laws and regulations affecting, Contractor. Owner agrees that Contractor may retain one or more subcontractors ("**Subcontractors**") to perform the Work through a Subcontract Agreement.

2. **Term of Agreement**. The term of this Agreement shall be in compliance with the term of the underlying Master Agreement, as amended, unless terminated earlier. Contractor will commence Work on the commencement date ("**Commencement Date**"). Owner will notify Contractor of the Commencement Date in writing by issuing a Notice to Proceed. The Notice to Proceed shall be issued at least fourteen (14) days before the Commencement Date. Upon substantially completing the Work, Contractor shall present a Certificate of Substantial Completion to Owner. Once commenced, the Contractor shall diligently continue performance until final completion of the Work.

3. **Contract Price**. For full performance of the Work in conformance with this Agreement, Owner shall pay the Contractor the fixed sum specified in **the two Quotes** hereto attached in the combined total sum of **Nine Hundred Eight Thousand Two Hundred Forty-one and 44/100 (Dollars)** ("**Contract Price**"), subject to adjustment per mutual agreement of the parties should the Scope of Work change. 4. **Relationship of Parties**. Contractor is retained by Owner only for the purpose and to the extent set forth in this Contractor Agreement. 5. **Compliance with Laws**. Contractor and Owner agree that parties shall comply with all federal, state, and local laws and regulations applicable to its activities under this agreement, including without limitation to the hiring, safety, and taxation of its employees, as well as obtaining and maintenance of any applicable licenses and/or permits as required by all laws and regulations applicable to its activities under this Agreement.

6. **Insurance**. At all times while performing the Work, Contractor shall maintain, at its sole cost and expense, insurance as customary within the industry and as set forth in the underlying Master Agreement. If requested Contractor will present a copy of their certificate of insurance, pursuant to the insurance requirements of the underlying Master Agreement, naming Monroe County Board of County Commissioners, its employees and officials, 1100 Simonton Street, Key West, Florida 33040, as Certificate Holder and as Additional Insured on all policies, except for Workers' Compensation.

7. **Non-Waiver of Immunity.** Notwithstanding the provisions of Sec. 768.28, Florida

Statutes, the participation of the County and Company in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any Agreement entered into by the County be required to contain any provision of waiver.

8. **Indemnification, Hold Harmless, and Defense**. Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, the Contractor shall defend, indemnify and hold the County and the County's elected and appointed officers harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of the Contractor or any of its employees, agents, contractors or other invitees during the term of this Agreement, (B) the negligence or recklessness, intentional wrongful misconduct, errors or other wrongful act or omission of the Contractor or any of its employees, agents, sub-contractors or other invitees, or (C) the Contractor's default in respect of any of the obligations that it undertakes under the terms of this Agreement, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the County or any of its employees, agents, contractors or invitees (other than the Contractor). The monetary limitation of liability under this contract shall be equal to the dollar value of the contract and not less than $1 million per occurrence pursuant to Section 725.06, Florida Statutes. The limits of liability shall be as set forth in the insurance requirements included in Paragraph 6 herein and the Master Agreement. Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

   In the event that the completion of the project (to include the work of others) is delayed or suspended as a result of the Contractor's failure to purchase or maintain the required insurance, the Contractor shall indemnify the County from any and all increased expenses resulting from such delay. Should any claims be asserted against the County by virtue of any deficiency or ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

   The extent of liability is in no way limited to, reduced, or lessened by the insurance requirements contained elsewhere within this Agreement.

United States Department of the Treasury Indemnification

To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the United States Department of the Treasury and its officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed or utilized by the Contractor in the performance of this Contract.

This indemnification shall survive the termination of this Contract. Nothing contained in this paragraph is intended to nor shall it constitute a waiver of the sovereign immunity of the United States or the County.

Upon receipt of the Notice of Default, the breaching party shall immediately correct the default. If the breaching party fails to correct the default for thirty (30) days after receipt of the Notice of Default or fails to provide evidence that appropriate corrective action is in reasonable process, the non-breaching party may terminate this Agreement upon written notice ("Notice of Termination"). The parties shall have any legal remedies at their disposition, as allowed by local law.

10. **Termination**. Absent an uncured Event of Default, this Agreement may only be terminated by the consent of the parties. The termination shall be evidenced by: (a) execution of a single writing; (b) signed by Contractor and Owner; (c) that specifically identifies this Agreement, and (d) states that Owner and Contractor terminate this Agreement as of a specified date ("Termination Agreement"). Prior to execution of the Termination Agreement, Contractor shall present Owner with an Application for Payment for actual Work rendered under this Agreement as of the date the parties intend to execute the Termination Agreement, and Owner shall pay Contractor the amount requested in the Application Payment within ten (10) days of the parties' execution of the Termination Agreement.

13. **Asbestos and Hazardous Materials.** In the event Contractor encounters asbestos, lead and/or other hazardous materials, Contractor will stop work and notify Owner, and shall have the right to suspend its work at no penalty to Contractor until such products or materials and the resultant hazards are removed. Completion of the work shall be extended to the extent caused by the suspension and the contract price equitably adjusted. Owner shall remediate any asbestos, lead or other hazardous materials at Owner's expense, and shall be responsible for all costs, expenses, damages, fines, penalties, claims and liabilities associated with or incurred in connection with any hazardous materials or substances, upon, beneath, about or inside Owner's equipment or property, shall bear title to, ownership of, and legal responsibility and liability for any and all such hazardous materials or substances, and shall be responsible for the removal, handling and disposal of all hazardous materials and substances in accordance with all applicable Governmental Regulations. Records shall be retained as applicable for 1) a period of five (5) years after all funds have been expended or returned to the Department of the Treasury, whichever is later; or 2) for a period of seven (7) years from the termination of this Agreement or for a period of five (5) years from the submission of the final expenditure report as per 2 CFR §200.33, whichever is greater. Each party to this Agreement or its authorized representatives shall have reasonable and timely access to such records of each other party to this Agreement for public records purposes during the term of the Agreement and for seven (7) years following the termination of this Agreement.

Further, the Contractor is subject to the following:

1) The Contractor shall maintain records and financial documents sufficient to evidence compliance with Sections 602(c) and 603(c) of the Social Security Act, Treasury's regulations implementing that section, and guidance issued by the Department of the Treasury regarding the foregoing.

2) The Department of the Treasury Office of Inspector General and the Government Accountability Office, or their authorized representatives, shall have the right of access to records (electronic and otherwise) of the Contractor in order to conduct audits or other investigations.

22. Right to Audit.

Availability of Records. The records of the parties to this Agreement relating to the Project, which shall include but not be limited to accounting records (hard copy, as well as computer readable data if it can be made available; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, bidding instructions, bidders list, etc.); original estimates; estimating work sheets; correspondence; change order files (including documentation covering negotiated settlements); back charge logs and supporting documentation; general ledger entries detailing cash and trade discounts earned, insurance rebates and dividends; any other supporting evidence deemed necessary by Owner or the Monroe County Office of the Clerk of Court and Comptroller (hereinafter referred to as "County Clerk") to substantiate charges related to this agreement, and all other agreements, sources of information and matters that may in Owner's or the County Clerk's reasonable judgment have any bearing on or pertain to any matters, rights, duties, or obligations under or covered by any contract document (all foregoing hereinafter referred to as "Records") shall be open to inspection and subject to audit and/or reproduction by Owner's representative and/or agents of Owner or the County Clerk. Owner or County Clerk may also conduct verifications such as, but not limited to, counting employees at the job site, witnessing the distribution of payroll, verifying payroll computations, overhead computations, observing vendor and supplier payments, miscellaneous allocations, special charges, verifying information and amounts through interviews and written confirmations with employees, subcontractors, suppliers, and contractors'

representatives. All records shall be kept for ten (10) years after Final Completion. The County Clerk possesses the independent authority to conduct an audit of records, assets, and activities relating to this Project. If any auditor employed by the County or Clerk determines that monies paid to Contractor pursuant to this Agreement were spent for purposes not authorized by this Agreement, or were wrongfully retained by the Contractor, the Contractor shall repay the monies together with interest calculated pursuant to Sec. 55.03 of the Florida Statutes, running from the date the monies were paid to Contractor. The *right to audit* provisions survive the termination or expiration of this Agreement.

23. Public Records Compliance.

The Contractor must comply with Florida public records laws, including but not limited to Chapter 119, Florida Statutes and Section 24 of article I of the Constitution of Florida. The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, records, papers, letters or other "public record" materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this contract and related to contract performance. The County shall have the right to unilaterally cancel this contract upon violation of this provision by the Contractor. Failure of the Contractor to abide by the terms of this provision shall be deemed a material breach of this contract and the County may enforce the terms of this provision in the form of a court proceeding and shall, as a prevailing party, be entitled to reimbursement of all attorney's fees and costs associated with that proceeding. This provision shall survive any termination or expiration of the contract.

The Contractor is encouraged to consult with its advisors about Florida Public Records Law in order to comply with this provision.

Pursuant to Fla. Stat., Sec. 119.0701 and the terms and conditions of this contract, the Contractor is required to:

(1) Keep and maintain public records that would be required by the County to perform the service.

(2) Upon receipt from the County's custodian of records, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

(3) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the County.

(4) Upon completion of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records that would be required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and

exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of records, in a format that is compatible with the information technology systems of the County.

(5) A request to inspect or copy public records relating to a County contract must be made directly to the County, but if the County does not possess the requested records, the County shall immediately notify the Contractor of the request, and the Contractor must provide the records to the County or allow the records to be inspected or copied within a reasonable time.

If the Contractor does not comply with the County's request for records, the County shall enforce the public records contract provisions in accordance with the contract, notwithstanding the County's option and right to unilaterally cancel this contract upon violation of this provision by the Contractor. A Contractor who fails to provide the public records to the County or pursuant to a valid public records request within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.

The Contractor shall not transfer custody, release, alter, destroy or otherwise dispose of any public records unless or otherwise provided in this provision or as otherwise provided by law.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS, BRIAN BRADLEY AT PHONE NO. 305-292-3470, BRADLEY-BRIAN@MONROECOUNTY-FL.GOV, MONROE COUNTY ATTORNEY'S OFFICE, 1111 12TH Street, SUITE 408, KEY WEST, FL 33040.

Stat., Sec. 448.095, the Contractor and any subcontractor shall register with and shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the work authorization status of all new employees hired by the Contractor during the term of the Contract and shall expressly require any subcontractors performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the work authorization status of all new employees hired by the subcontractor during the Contract term. Any subcontractor shall provide an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The Contractor shall comply with and be subject to the provisions of Fla. Stat., Sec. 448.095.

25. **Adjudication of Disputes or Disagreements.** County and Contractor agree that all disputes and disagreements shall be attempted to be resolved by meet and

confer sessions between representatives of each of the parties. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Agreement or by Florida law. This Agreement is not subject to arbitration. This provision does not negate or waive the provisions of Section I, Nondiscrimination, or Paragraph 6.D., concerning termination or cancellation.

26. Method of Invoicing.

This project will be invoiced upon completion of the work. Invoices shall be sent to the **Facilities Maintenance Department, Attention, Chrissy Collins, via email at collins-chrissy@monroecounty-fl.gov**, who will review the documents and route them to the appropriate County Staff for approval. Upon receiving all required approvals, the invoice(s) will be forwarded to the County Clerk of Courts' office ("Clerk") for payment. The Contractor is to submit to the County invoices with supporting documentation that are acceptable to the Clerk. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules, and regulations as may govern the Clerk's disbursal of funds.

The County is exempt from sales and use taxes. A copy of the tax exemption certificate will be provided upon request.

Final payment shall be made by the County, as the Owner, to the Contractor when the Contract has been fully performed by the Contractor and the work has been accepted by the County.

The County and Contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). These requirements of this section must be included in all subawards including contracts and purchase orders for work or products under federal award. For purposes of this section:

Treasury will take any actions available to it to collect such a debt.

37. Disclaimer.

a. The United States expressly disclaims any and all responsibility or liability to the Contractor or third persons for the actions of Contractor or third persons resulting in death, bodily injury, property damages, or any other losses resulting in any way from the performance of this award or any other losses resulting in any way from the performance of services funded under the federal award as set forth in Attachment A or any other losses resulting in any way from the performance of services pursuant to any contract, or subcontract under this award.

Scope of Services

Daikin Applied Americas, Inc. is pleased to offer the following Quote for your consideration. Thank you for selecting Daikin Applied Service Group to care for your building's system. Our service personnel have the knowledge and experience to deliver the best support available. Daikin is pleased to offer this Quote for your consideration.

Equipment.

1. Provide two (2) AGZ chillers model AGZ076E, Capacity 80 nominal tons. Voltage 460 V /60 Hz / 3ph. Lead time 37-38 Weeks.
2. Freight it is included from Miami to the DJJ Building Facility
3. Microchannel Coil with Epoxy Coating.
4. Communication BACnet 4.
5. Entire unit, extended warranty 4 years parts and labor. Five (5) years in total.

Mechanical Installation.

1. Shutdown of the old chiller and recover refrigerant per EPA (Environmental Protection Agency) guidelines.
2. Disconnect electrical power wiring and lockout tags. Uninstall the two (2) Air Cooled Chillers Carrier models (30XAB0806R). Include the unit's movement outside the roof in an area previously agreed on the floor.
3. Final Disposal of the two (2) old Carrier units outside the DJJ Facility Center
4. Installation of two (2) Daikin Scroll chiller - 80 ton. 460V/3/60.
5. This project is being considered to replace one (1) chiller at time. This is to avoid the nuisance of leaving the area with no AC and having to relocate the personnel inside. We are considering that the shut off valves that isolate the chillers are in good condition. In case these valves do not work properly, we will have to drain the building and install these shutoff valves. This would leave the building without A/C for approximately two (2) days. *Price to install new shutoff valves in not included in this proposal and would be quoted separately if required.*
6. New piping and its insulation, up to a maximum of 7 feet, will be installed to connect the new Daikin chillers to the existing hydronic system.
7. Crane and rigging - chillers will be installed one at a time, so there will be two crane movements. We include the crane and personal. We are considering the crane to be positioned in the parking lot of the building next to the work area. As this Parking lot is inside the facility MOT with the city is not included.
8. Startup of the two (2) chillers by Daikin technicians.
9. Permit runner is included if permits need to be pulled. The Permit cost with the city it is not included in this proposal. Permit charges will be handled separately.

Electrical Installation.

1. Remove the existing disconnect switch (3 ph., 480V, 250 amp) and all the associated material currently feeding the A/C Chillers units on the roof.
2. Supply and install new disconnect switch.
3. We are considering installing new wire conduit and terminating electrical connections.
4. The panels that feed power to the 480v disconnects on the roof are inside the building and do not need to be replaced.
5. The time to install the new disconnect chiller per unit will take 2 or 3 days for each chiller team after the chillers have been installed.

Control Installation.

1. Control Reinstallation by Other. In the walkthrough held on 08/16/23 it was determined that the controls installation will be done by Siemens and will be contacted directly by the customer.
2. The four (4) start up chiller control disconnects are not included in this proposal.

Engineering

1. This project is considered as a maintenance project. We are not including engineering design, including Mechanical, Electrical, Plumbing. Existing drawings will be used. If a new set of drawings are required for the project, we will have to include the services of an engineering firm with an additional investment value of $ 25,000. This amount is not included in the current proposal.

ASSURANCE OF COMPLIANCE WITH CIVIL RIGHTS REQUIREMENTS

ASSURANCE OF COMPLIANCE WITH TITLE VI OF THE
CIVIL RIGHTS ACT OF 1964

As a condition of receipt of federal financial assistance from the Department of the Treasury, the Monroe County Board of Commissioners (hereinafter referred to as "the Recipient") provides the assurances stated herein. The federal financial assistance may include federal grants, loans and contracts to provide assistance to the recipient's beneficiaries, the use or rent of Federal land or property at below market value, Federal training, a loan of Federal personnel, subsidies, and other arrangements with the intention of providing assistance. Federal financial assistance does not encompass contracts of guarantee or insurance, regulated programs, licenses, procurement contracts by the Federal government at market value, or programs that provide direct benefits. This assurance applies to all federal financial assistance from or funds made available through the Department of the Treasury, including any assistance that the Recipient may request in the future.

The Civil Rights Restoration Act of 1987 provides that the provisions of this assurance apply to all of the recipient's programs, services and activities, so long as any portion of the recipient's program(s) is federally assisted in the manner proscribed above.

1. Recipient ensures its current and future compliance with Title VI of the Civil Rights Act of 1964, as amended, which prohibits exclusion from participation, denial of the benefits of, or subjection to discrimination under programs and activities receiving federal funds, of any person in the United States on the ground of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of the Treasury Title VI regulations at 31 CFR Part 22 and other pertinent executive orders such as Executive Order 13166; directives; circulars; policies; memoranda and/or guidance documents.

2. Recipient acknowledges that Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency," seeks to improve access to federally assisted programs and activities for individuals who, because of national origin, have Limited English proficiency (LEP). Recipient understands that denying a person access to its programs, services, and activities because of LEP is a form of national origin discrimination prohibited under Title VI of the Civil Rights Act of 1964 and the Department of the Treasury's implementing regulations. Accordingly, Recipient shall initiate reasonable steps, or comply with the Department of the Treasury's directives, to ensure that LEP persons have meaningful access to its programs, services, and activities. Recipient understands and agrees that meaningful access may entail providing language assistance services, including oral interpretation and written translation where necessary, to ensure effective communication in the Recipient's programs, services, and activities.

3. Recipient agrees to consider the need for language services for LEP persons during development of applicable budgets and when conducting programs, services and activities. As a resource, the Department of the Treasury has published its LEP guidance at 70 FR 6067. For more information on LEP, please visit http://www.lep.gov.

4. Recipient acknowledges and agrees that compliance with this assurance constitutes a condition of continued receipt of federal financial assistance and is binding upon Recipient and Recipient's successors, transferees and assignees for the period in which such assistance is provided.

5. Recipient acknowledges and agrees that it must require any sub-grantees, contractors, subcontractors, successors, transferees, and assignees to comply with assurances 1-4 above, and agrees to incorporate the following language in every contract or agreement subject to Title VI and its regulations between the Recipient and the Recipient's sub-grantees, contractors, subcontractors, successors, transferees, and assignees:

   The sub-grantee, contractor, subcontractor, successor, transferee, and assignee shall comply with Title VI of the Civil Rights Act of 1964, which prohibits recipients of federal financial assistance from excluding from a program or activity, denying benefits of, or otherwise discriminating against a person on the basis of race, color, or national origin (42 U.S.C. § 2000d et seq.), as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, which are herein incorporated by reference and made a part of this contract (or agreement). Title VI also includes protection to persons with "Limited English Proficiency" in any program or activity receiving federal financial assistance, 42 U.S.C. § 2000d et seq., as implemented by the Department of the Treasury's Title VI regulations, 31 CFR Part 22, and herein incorporated by reference and made a part of this contract or agreement.

6. Recipient understands and agrees that if any real property or structure is provided or improved with the aid of federal financial assistance by the Department of the Treasury, this assurance obligates the Recipient, or in the case of a subsequent transfer, the transferee, for the period during which the real property or structure is used for a purpose for which the federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. If any

personal property is provided, this assurance obligates the Recipient for the period during which it retains ownership or possession of the property;

7. Recipient shall cooperate in any enforcement or compliance review activities by the Department of the Treasury of the aforementioned obligations. Enforcement may include investigation, arbitration, mediation, litigation, and monitoring of any settlement agreements that may result from these actions. That is, the Recipient shall comply with information requests, on-site compliance reviews, and reporting requirements.

8. Recipient shall maintain a complaint log and inform the Department of the Treasury of any complaints of discrimination on the grounds of race, color, or national origin, and limited English proficiency covered by Title VI of the Civil Rights Act of 1964 and implementing regulations and provide, upon request, a list of all such reviews or proceedings based on the complaint, pending or completed, including outcome. Recipient also must inform the Department of the Treasury if Recipient has received no complaints under Title VI..

9. Recipient must provide documentation of an administrative agency's or court's findings of non-compliance of Title VI and efforts to address the non-compliance, including any voluntary compliance or other agreements between the Recipient and the administrative agency that made the finding. If the Recipient settles a case or matter alleging such discrimination, the Recipient must provide documentation of the settlement. If Recipient has not been the subject of any court or administrative agency finding of discrimination, please so state.

10. If the Recipient makes sub-awards to other agencies or other entities, the Recipient is responsible for ensuring that sub-recipients also comply with Title VI and other applicable authorities covered in this document State agencies that make sub-awards must have in place standard grant assurances and review procedures to demonstrate that that they are effectively monitoring the civil rights compliance of sub-recipients.

The United States of America has the right to seek judicial enforcement of the terms of this assurances document and nothing in this document alters or limits the federal enforcement measures that the United States may take in order to address violations of this document or applicable federal law.

Under penalty of perjury, the undersigned official(s) certifies that he/she has read and understood its obligations as herein described, that any information submitted in conjunction with this assurance document is accurate and complete, and that the Recipient is in compliance with the aforementioned nondiscrimination requirements.

1. Purpose

Each county, group of counties or region applying for E911 State Grant, to be further known as 911 State Grant, to assist counties with the replacement or upgrade of 911 Systems; for counties to develop and maintain statewide 911 routing using Emergency Services Internet Protocol (IP) networks (ESInet), Geographic Information Systems (GIS) and services, and Management Information Systems (MIS); and develop and maintain Next Generation 911 (NG911) systems and services.

The State 911 Grant Programs distributes funds collected pursuant to section 365.172-173, Florida Statutes.

2. Eligibility

Any county in the State of Florida is eligible to apply for these grant programs.

3. Definitions

3.1. **Alternate Contract Source (ACS)** – A competitively procured contract led by a federal, state, or local government. The ACS contract is cost-effective, contains language contemplating its use for cooperative purchasing, and the best interest of the county to use for purchases, provided the county's purchase is not over expansive in size and scope.

3.2. **E911 System:** The Public Safety Answering Point equipment, in accordance with the State E911 Plan, including 911 call routing, processing, mapping, and call answering communications equipment.

3.3. **Enhanced 911 (E911):** An enhanced 911 system or enhanced 911 service that is an emergency telephone system or service that provides a subscriber with 911 service and also directs 911 calls to appropriate public safety answering points by selective routing based on the geographical location from which the call originated, or as otherwise provided in the state plan under section 365.171, Florida Statutes, and that provides for automatic number identification and automatic location-identification features

3.4. **GIS Maintenance:** Ongoing GIS maintenance of a county's GIS data that consists of road centerline, site/structure address points, primary PSAP boundaries, MSAG and ALI maintenance services and address assignment services.

3.5. **Government Accounting Standards Board (GASB):** The independent organization that establishes and improves standards of accounting and financial reporting for U.S. state and local governments.

Includes the Emergency Service Routing Proxy (ESRP), Emergency Call Routing Function (ECRF), Location Validation Function (LVF), Border Control Function (BCF), Bridge, Policy Store, Logging services, and typical IP services such as Domain Name System (DNS) and Dynamic Host Configuration Protocol (DHCP). The term NG911 Core Services encompasses the services but does not include the network on which they operate.

Warranty costs shall be calculated to account for only the first-year warranty.

5.3. GIS grant funding will be limited once the county, group or region has achieved the minimum 98% accuracy rate as identified in the NENA GIS Data Model. Additional funding limitations for annual GIS database maintenance will be limited as stated in Addendum 1.

5.4. Although a Next Generation 911 Regional Project can be awarded for up to five years, the cost shall be accounted for on a yearly basis.

5.5. The Board recommends for any Next Generation 911 (NG911) grant projects, counties must certify in writing that the proposed systems are interoperable with existing or proposed bordering counties', regions', and/or adjacent state NG911 systems. 5.8. All grant applications shall be accompanied by at least one complete quote for equipment or services.

5.8.1. Grant applications totaling $35,000.00 or more must be accompanied by at least two written substantiated quotes from different vendors. Complete quote submittals shall include a detailed scope of work, all pages included in the vendor proposal, breakdown of all costs, including equipment, service tasks, and deliverables. Any county that has made a good faith effort to obtain at least two quotes in accordance with the competitive procurement process in 287.057(1), Florida Statutes, and has not been able to obtain the quotes can request E911 Board review based on substantiated proof of posting of the request with documentation of the limited responses subject to the following exceptions:

- **a)** When purchasing from a DMS State Term Contract or DMS authorized Alternate Contract Source, the county shall follow the DMS State Purchasing ordering instructions and their county procurement rules and policies. Counties shall provide vendor contract number with the grant application. Should the DMS State Purchasing ordering instructions and their county procurement rules and policies conflict, the county procurement rules and policies shall prevail.

Justification for single-source procurement shall be provided with the application, which shall include a costs analysis that reviews the allowability, necessity and reasonableness of all cost elements. The single-source procurement will be considered if provided in accordance with chapter 287, Florida Statutes. A letter from the applicable county's purchasing department(s) that the project is a single-source procurement based on section 287.057(3)(c), Florida Statutes, shall be provided with this grant application.

5.9. Applicants requesting items from different funding priorities should complete a separate Budget Report (Rule 60FF1-5.0035(1), F.A.C) for each priority. Items from the same funding priorities should be combined in the same Budget Report and shall comply with General Conditions, item 5.9.

5.10. An individual county application must include:

5.10.1. A detailed description of line item and cost. This would include the item, model, or version. Additional information requests shall be made for more clarification, as needed.
5.10.2. If possible, software service/maintenance dates.
5.10.3. Budget Report.
5.10.4. Most current Form 6A in Rule 60FF1-5.006(2), F.A.C The form can be submitted during the annual collection of county fiscal data for the annual report or with the grant application.

Should the county, group of counties or region grant application request or grant award be less than the projected cost of the equipment or service, the county, group of counties or region should provide verification of the ability to fund the difference. Pricing submitted cannot be contingent upon "yet to be" determined fees for products and services by the proposer or any other third party required for implementation.

5.15. The county shall provide information on the county's preceding year E911 fee revenue amount and the preceding year's carryforward amount. Use Form 6A in Rule 60FF1-5.006(2), F.A.C. for this purpose. The form can be submitted during the annual collection of county fiscal data for the annual report or with the grant application.

Include detailed justification and explanation for any 911 system with an expected remaining life of less than one year.

5.18. Funding application requests contingent upon "beta testing" or products and services not in general production and installation will not be funded.

6. Guidelines for 911 Grant Expenses

6.1. The following expenses will not be funded through grant award:

6.1.1. Salaries and associated expenses for 911 coordinators, call takers, or other 911 personnel

6.1.2. Wireline database costs

6.1.3. Vehicle expenses

6.2. Funding limitations are specified on the following items:

6.2.1. Hosted 911 answering point call-taking equipment and network services, recurring network and circuit costs, equipment maintenance and warranty costs will not be funded for more than the first-year implementation period.

6.2.1.1 Service contracts for Next Generation 911 Regional Projects ~~may~~ can be approved for up to 5 years on a case-by-case basis. Ongoing cybersecurity maintenance may be approved on an annual basis.

6.2.2. Grant funding shall be limited (per grant cycle) to eligible expenditures for one PSAP per county, either one primary or one secondary PSAP. Counties with only one PSAP with no other primary or secondary PSAPs, may be eligible for grant funding for one backup PSAP. Geo-diverse systems may be considered one PSAP for the purpose of grant funding.

6.2.3. Except for NGCS, selective router equipment costs are limited to a primary PSAP system.

6.2.4. Training cost funding is limited to the new system and equipment training.

6.2.5. The allowable grant funding for travel expenses is limited to the authorized amounts established in Section 112.061, Florida Statutes, and the Department of Financial Services Guidelines for State Expenditures.

7.1. The E911 Board will review each application for compliance with the requirements of terms and conditions.

7.2. DMS grant agreements shall be signed by an authorized signatory authority for the county after the grant is approved.

7.3. Grant awards will be withheld for any county, group of counties, or region that has a grant with a past-due quarterly report or past-due final documentation and closeout of previous E911 Board grant awards. Grant awards are eligible to be withheld if the county, group of counties, or region is not in compliance with Board reporting requirements.

7.4. Applications will be awarded based upon the priorities set by the E911 Board as listed in Addendum I - Funding Priorities for the 911 Grant Programs.

7.5. The E911 Board will adjust the amount awarded to a county, group of counties, or region based upon the availability of funds, the reasonableness of the cost of requested items, published quotes, increased effectiveness of grant funds, minimum system requirements for performing the needed E911 function as specified in section 365.173(2)(g)1.,2., and 3., Florida Statutes,

E911 State Plan, or documented factors provided in the grant application submission. NG911 network systems should include a comparative presentation of network alternatives, including applicable LEC, CLEC, County, group of counties or region, and State alternatives. All stepped pricing should be thoroughly explained, including the corresponding benefits for the county, group of counties or region, and the E911 Board.

8. Financial and Administrative Requirements

8.1. Grant funds are provided on a cost-reimbursement basis.

8.2. Each grantee shall submit reimbursement claims to the E911 Board as needed; however, each county is limited to only a single claim request per grant, per month. Receipt of reimbursement funds from the E911 Board is contingent on the timely and accurate submittal of funding requests. Requests for reimbursement of expenditures must be submitted on the approved Financial Reimbursement of Expenditures Form in Rule 60FF1-5.0035(4), F.A.C. Incomplete claim forms or claims not submitted on the correct form cannot be processed and will be returned for corrections. Submit only for the amounts in each budget category in which you have incurred expenditures. Incomplete reimbursement requests will be returned after 14 days if no updates are received from the county.

8.3. Upon written request and with documentation justifying the need, a progress disbursement shall be considered with a completed Financial Reimbursement of Expenditures Form in Rule 60FF1-5.0035(4), F.A.C., itemized purchase order, and vendor itemized invoice. All items must comply with the Florida Department of Financial Services (DFS) Reference Guide for State Expenditures. Within 45 days of receipt of funding, the grantee shall submit verification of vendor payment. Abuse of this policy will lead to denial of future payment.

8.4. Reimbursement claims shall include only expenditures related to the specific grant and include purchase orders, itemized invoices, and proof of successful payment to the vendor. The reimbursement request must match the scope of work and budget proposed in the grant applications to include the quote provided with the application. Grants that include costs defined by a set number of work hours dedicated to a project must include additional documents as requested by DMS staff. All items must comply with the DFS Reference Guide for State Expenditures.

8.5. **To assure prompt processing, complete reimbursement claims should be e-mailed to: E911BoardElectronicGrantReports@dms.fl.gov**

8.6. Grant funds can only be expended between the beginning and end dates of the grant term, unless the E911 Board authorizes an extension. Request for reimbursements may be submitted up to 120 days after the end of the grant term.

8.7. It is the county responsibility to maintain the property, equipment, or services in accordance with the scope of work. If a sale or transfer of such property or equipment occurs within five years after a grant ends, funds must be returned to the E911 Board on a pro-rata basis. If the equipment costs over $5,000, a county, group of counties, or region must maintain it on an inventory for five years unless the item becomes obsolete.

8.8. If a grantee terminates a contract for prepaid services, the unused portion must be returned to the E911 Board on a pro-rata basis.

8.9. The grantee agrees that any improvement, expansion, or other effect brought about in whole or part by grant funds will be maintained until the system or equipment becomes obsolete (on average five years).

8.10. If a grantee materially fails to comply with any term of an award, the Board shall take one or more of the following actions, as appropriate in the circumstances:

- Withhold grant payments pending grantee correction of the deficiency.
- Disapprove all or part of the cost of the activity or action not in compliance.
- Suspend or terminate the current award for the grantee's project.
- Suspend or deny future grant awards.

8.11. The Board will provide the grantee an opportunity for a hearing, appeal, or other administrative proceeding to which the grantee is entitled under Florida Statutes.

8.12. When a grantee wants to terminate a grant award or portion thereof, the grantee shall provide written notification to the E911 Board, detailing the reasons for such termination, the effective date, and the release of allocated funds. The Board will then consider the request.

8.13. Proof of payment and deliverables, met in accordance with the DFS Reference Guide for State Expenditures, shall be provided by the grantee. When the information is unclear, additional documentation to confirm the information provided will be requested by Board staff.

9. Grant Reporting Procedures

9.1. Grantees will be required to submit:

9.1.1. Quarterly Status Report in Rule 60FF1-5.0035(2), F.A.C.

Significant impacts include project status developments affecting time schedules and objectives, anticipated lower costs, or producing beneficial results in addition to those originally planned. Additionally, problems, delays, or adverse conditions that will materially impair the ability to meet the timely completion of the award must be reported. The disclosure must include a statement of the action taken or contemplated and any assistance needed to resolve the situation.

10.4. Time extensions shall be limited to a maximum of one additional year if approved by the E911 Board.

10.5. **Conversion from a two-year grant to a five-year grant will add three additional years from the grant's original expiration date.**
Change requests must be submitted 10 business days prior to a Board meeting to be reviewed. Late submissions will be reviewed at the next month's E911 Board meeting.

10.6. The Change Request Form and associated information should be e-mailed to **E911BoardElectronicGrantReports@dms.fl.gov**.

GEOCOMM was selected as the Region 6 Data Repository project vendor. The Monroe County project is in conjunction with the Region 6 Data Repository project. It's purpose is to analyze Monroe County's GIS Data, MSAG and ALI and bring it up to NENA i3's 98% accuracy standard.

Monroe County, thru this grant, will ensure that the County's GIS Dataset is Next Generation Core Services ready.

This project will also provide tools for continued GIS Data Validation to ensure NG9-1-1GIS data compliance.

9. **Describe why your county, group of counties or region will not be able to complete this project without this grant funding.**

GEOCOMM was selected as the Region 6 Data Repository project vendor. The Monroe County project is in conjunction with the Region 6 Data Repository project. It's purpose is to analyze Monroe County's GIS, MSAG and ALI Data and bring it up to NENA i3's 98% accuracy standard.

Monroe County is requesting state grant funds due to the county's limited available funding. The loss of substantial income from the decrease in the 911 Fee to (.40) cents has over time, significantly diminished our income and affected the County's ability to purchase the necessary 911 equipment to provide the Next Gen 911 service that our residents and visitors expect and deserve.

Because of the decrease, Monroe County does not have any available Carry Forward Funds to offset the overall system costs.

This grant program is our best hope to improve and upgrade our equipment in a timely manner.

10. Describe the required steps with an anticipated time schedule which includes procurement and payment milestones and a total project completion date.

Project Phases	Payment Milestone	Project Milestone
Phase1: Contract finalized and submitted to Vendor		Contract date – clock begins
Phase 2: Project Implementation Meeting		Within 30 days of contract signing
Phase 3: GIS Data Remediation and QA/QC		Months 2 - 6
Phase 4: GIS Data delivery & review by Customer		Month 7
Phase 5: Final data delivery, GIS data acceptance by customer and project closeout meeting		Month 8
Phase 6: Invoice to client	Full amount due NET 45	Month 9
Phase 7: Ongoing Maintenance	Invoiced Annually	Ongoing Starting Month 10 and annually thereafter

11. If applicable, sole source justification must meet the state procurement guidelines and chapter 287.057 (3)l, F.S.

The County will be using a GSA Contract. By using a GSA Contract the county will be receiving pre-approved pricing. The Federal Government has already determined the pricing as fair and reasonable by government standards and the pricing also has a ceiling rate for all products and services.

GEOCOMM has provided GSA pricing for this project and is the vendor selected for the Region 6 GIS Data Repository project. This project is a companion project with the Region 6 Data Repository project. Its purpose is to analyze Monroe County's GIS, MSAG and ALI data and bring it up to the NENA i3 98% accuracy standard. GSA pricing and vendor continuity meet the sole source requirement.

GSA Contract Number: GS-35F-0594S.

12. If applicable, please include your previous service dates for any maintenance or support services.

Not Applicable.

GIS Professional Services Description

Provisioning Boundary Layer Development or Updates

If existing provisioning boundaries are provided, they will be updated to correct topological errors and inconsistencies identified during the analysis. If no provisioning boundary layer exists, GeoComm will develop a layer based on existing municipal and/or county boundary layers or other resources you provide. Topological adjustments along borders will be made; ensuring boundaries are snapped to road centerlines, where applicable.

Development or updates to this layer will be based on resources provided and an understanding of the extent of your GIS provisioning responsibility within an NG9-1-1 deployment. After the layer is developed, GeoComm will provide a digital map for your review and approval.

The data schema will follow your PSAP mapping system requirements and NG9-1-1 GIS data standards. At minimum, GIS layer attributes categorized as "mandatory" (or the equivalent) will be populated when attributes can be obtained at the time the updates are being conducted. Other attribute categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer.

Service Boundary Layers: PSAP Boundary Layer Development or Updates

If existing PSAP boundaries are provided, they will be updated to correct topological errors and inconsistencies identified during the analysis. If no PSAP boundary layer exists, GeoComm will develop a layer based on existing municipal and/or county boundary layers or other resources provided. Topological adjustments along borders will be made; ensuring boundaries are snapped to road centerlines, where applicable.

The data schema will follow your PSAP mapping system requirements and NG9-1-1 GIS data standards. At minimum, GIS layer attributes categorized as "mandatory" (or the equivalent) will be populated when attributes can be obtained at the time the updates are being conducted. Other attribute categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer. Note that some mandatory attributes (such as URN and URI) cannot be obtained until there is an active NG9-1-1 deployment underway and the Next Generation Core Service (NGCS) provider determines the attributes to populate.

Other categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer.

Service Boundary Layers: Police, Fire, EMS Layers Development or Updates

If existing emergency service boundaries representing the areas covered by police, fire, and EMS responders are provided, they will be updated to correct topological errors and inconsistencies identified during the analysis. In some systems, these layers may also be used for connecting incoming calls to the correct emergency responders. These layers will also be used for populating attribute information in the road centerlines and site/structure address point layers.

If emergency service boundaries do not exist, three layers will be developed representing the areas covered by police, fire, and EMS responders. These new layers will be based on resources you provide depicting the boundaries. After each layer is developed, GeoComm will provide a map for your review and approval. The data schema will follow your PSAP mapping system requirements and NG9-1-1 GIS data standards. At minimum, GIS layer attributes categorized as "mandatory" (or the equivalent) will be populated when attributes can be obtained at the time the updates are being conducted. Other attribute categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer. Note that some mandatory attributes (such as URN and URI) cannot be obtained until there is an

active NG9-1-1 deployment underway and the Next Generation Core Service (NGCS) provider determines the attributes to populate. Other categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer.

If required by your data standards, a fourth layer will be developed representing the emergency service numbers throughout the area.

Road Centerlines Layer: GIS Data Attribute Standardization: Transform Schema to PSAP Mapping System Requirements

GeoComm will review the GIS data schema of the provided road centerlines to determine their conformance with the latest NENA NG9-1-1 GIS Data Model and PSAP mapping system requirements. A side by side comparison of the existing and recommended GIS data structures will be provided. GeoComm will then convert your GIS data into a schema following the NENA NG9-1-1 GIS Data Model (NENA-STA-006) and PSAP mapping system schema. GeoComm will populate Mandatory and Conditional attributes with provided resources.

GeoComm will also add edit tracking fields to the GIS layers to identify features that have been modified, the type of change made, who made the change, and the date the feature was last updated.

Road Centerlines Layer: Attribute Updates for MSAG Synchronization

GeoComm will update the existing road centerlines layer based on inconsistencies noted during the analysis. If there are discrepancies between approved resources, GeoComm will work with you for verification. Road centerlines layer updates include:

- Updating legacy attribute fields to correspond with road names, communities, and ESN values in the Master Street Address Guide (MSAG).
- Extending address range attributes to synchronize with the MSAG, or, if it is the MSAG range that needs to be modified, GeoComm will include that in the list of discrepancies for you to submit to your database provider for updates.
- Left and Right Field Attribution for Country, State, County, Incorporated Municipality, and MSAG Community based on resources provided. Optional attributes will be retained if attributes already exist in the current layer.

Road Centerlines Layer: Attribute Updates for ALI synchronization

GeoComm will update the road centerlines layer based on inconsistencies noted during the analysis. If there are discrepancies between approved resources, GeoComm will work with you for verification. Road layer updates include:

- Road Name Updates – road name attributes will be updated to correspond to road names in the ALI database.

- Road Range Updates - road range attributes will be updated to accommodate ALI records.
- Legacy Field Attribution - legacy fields in the GIS data will be attributed to match ALI record information.

However, if it is the ALI record address which requires modification, GeoComm will identify these and provide them for you to work with your ALI database provider for updates.

Road Centerlines Layer: Street Connectivity Updates

GeoComm will update the existing road centerlines layer based on inconsistencies noted during the analysis. If there are discrepancies between approved resources, GeoComm will work with you for verification. For street connectivity updates, road centerlines will be broken and snapped to create topological accuracy for proper address location. Road centerlines will be broken at emergency service boundary layers, available community boundaries (including county, municipal, postal, and zip code boundaries), PSAP and provisioning boundaries, and true intersections with other road centerlines. Corresponding boundary updates will be made to emergency service and incorporated municipality boundaries (if provided) which run alongside road centerlines to ensure coincident lines with corresponding road centerlines.

Road Centerlines Layer: Address Range Updates

GeoComm will update the existing road centerlines layer based on inconsistencies noted during the analysis. If there are discrepancies between approved resources, GeoComm will work with you for verification. Road centerlines layer update processes include validating or correcting the following address range issues:

- Overlapping address ranges
- Invalid high address range is less than the low address range
- invalid odd/even address ranges in both the from and to fields

Site/Structure Address Points Layer: GIS Data Attribute Standardization: Transform Schema to PSAP Mapping System Requirements

GeoComm will review the GIS data schema of the provided site/structure address points layer to determine its conformance with the latest NENA NG9-1-1 GIS Data Model and PSAP mapping system requirements. A side by side comparison of the existing and recommended GIS data structures will be provided. GeoComm will then convert your GIS data into a schema following the NENA NG9-1-1 GIS Data Model (NENA-STA-006) and PSAP mapping system schema. GeoComm will populate Mandatory and Conditional attributes with provided resources.

GeoComm will also add edit tracking fields to the GIS layers to identify features that have been modified, the type of change made, who made the change, and the date the feature was last updated.

Site/Structure Address Point Layer: Attribute Synchronization with Road Centerlines and Boundary Layers

GeoComm will update the existing Site/Structure Address Point layer based on inconsistencies noted during the analysis and provided resources. If there are discrepancies between approved project resources, GeoComm will work with you for verification.

GeoComm will update the existing Site/Structure Address Point layer to ensure attributes are synchronized with road centerlines and boundary layers, points fall in the correct PSAP boundary, and are spatially placed along the correct centerline segment where possible.

Site/Structure Address Point Layer: Attribute Updates for ALI Synchronization

Road name attributes will be updated to correspond to road names in the Automatic Location Information (ALI) database and to synchronize with road centerlines attributes. Legacy fields in the GIS data will be attributed to match ALI record information. However, if it is the ALI record address which requires modification, GeoComm will identify this in the list of discrepancies for you to submit to your database provider for updates.

In addition, duplicate addresses and potentially missing address points will be investigated with assistance from the customer.

Incorporated Municipality Boundary Layer Updates or Development

If existing incorporated or municipal boundaries are provided, they will be updated to ensure no gaps and overlaps exist between boundaries.

If incorporated or municipal boundaries do not exist, existing publicly available GIS data and/or provided resources will be used to develop a polygon layer representing incorporated municipality boundaries within your jurisdiction. After the layer is developed, GeoComm will provide a digital map for your review and approval.

The data schema will follow your PSAP mapping system requirements. At minimum, GIS layer attributes categorized as "mandatory" (or the equivalent) will be populated when attributes can be obtained at the time the updates are being conducted.

Other categories, such as "optional" and "conditional," will be retained if attributes already exist in the current layer.

This layer will be used to populate municipality attributes in the road centerlines layer and/or site/structure address point layer and will be available for visual display in your PSAP mapping system.

Road Centerlines Layer: Vehicle Routing Attribution

GeoComm will update the road centerlines layer with street routing attributes using provided resources, publicly available data, and aerial imagery. Topological updates will be made where needed. Attributes may include:

- One-way Roads - attributes will be added to one-way road segments along interstates, ramps, and dual carriageways, as well as local one-way streets
- Road Classifications - road classification attributes will be added to each road segment
- Speed Limits - speed limits will be added to each road segment
- Elevation and Bridge Topology – based on your needs, roads will remain unbroken at bridge and intersections where two roads cross but turning is not possible, or elevation field attributes will be added to distinguish between true intersections and bridges

Road Centerlines Layer: Highway/Freeway and Ramp Naming Standardization

To optimize the routing capabilities of the road centerlines layer, road name attributes for highways will be attributed consistently and, if applicable, match any GIS data model requirements you have. Highway ramps will be attributed with the name "Ramp".

Street Name Alias Table Creation

An alias name table will be developed based on provided resources indicating alternative street names in your jurisdiction, allowing the 9-1-1 system to utilize multiple street names for the same street segments.

A unique road ID will be used to relate the names for each road name in the alias table to the correct road segment in the road layer.

Road Centerlines Layer: Spatial Alignment

Roads not aligned with publicly available or provided aerial imagery will be spatially adjusted to fit within a minimum of twelve feet from the street centerline, from the visual road center as determined by imagery. Imagery will appear smooth at a scale of 1:4,632 in rural areas and 1:1,968 in urban areas. Line direction will follow the increase in address numbers.

As part of this process, missing named roads will also be identified and added, as needed.

Site/Structure Address Point Layer: Spatial Alignment

Based on provided resources including a tax parcel layer containing a situs address field and any available building footprint data, GeoComm will develop new address points with accompanying descriptive attributes for structures where a point does not already exist.

New points will be placed at a location (e.g. on structure rooftops or at driveway entrances) according to your PSAP mapping system requirements or the methodology used for existing points. On-site collection or verification of address points may be provided for an additional fee.

For multi-unit structures (e.g. apartment complexes, strip malls, mobile home parks) where a point does not already exist, GeoComm will create one new point for each building with a unique street address number (not including unit numbers) and will work with you to establish an agreed-upon point placement methodology. If multiple points already exist for individual units of a multi-unit structure, these points will be retained but will not be moved unless resources indicate the points are incorrectly placed. The development of points for individual units, such as individual apartments or office suites, may be provided for an additional fee.

The accuracy of newly developed points will be dependent upon the provided resources. Site/structure address point development requires a parcel map with situs address information or another GIS resource containing the location and physical address of each addressable structure.

GIS Maintenance

GIS Data Layers Maintenance Services

GeoComm will use provided resources, including digital copies of the MSAG and ALI database, to update GIS data layers for location validation in 9-1-1 systems. As needed, GeoComm will:

WHEREAS, COUNTY desires to contract for the performance of the work or services described in Exhibit "A"; and

WHEREAS, CONTRACTOR desires to and is able to perform the work or services described in attached Exhibit "A"; and

WHEREAS, it serves a legitimate public purpose for CONTRACTOR to perform the work or services, as described in attached Exhibit "A," for Monroe County;

NOW, THEREFORE, IN CONSIDERATION of the mutual promises and covenants contained herein, it is agreed as follows:

1. **THE AGREEMENT**

The Agreement consists of this document, the Request for Proposals ("RFP") documents, exhibits, any addenda, the response to the RFP, and all required insurance documentation, only.

2. **SCOPE OF WORK**

The Scope of Work shall include, but not be limited to, all work and / or services shown and listed in **Exhibit "A"**, which is attached hereto and made a part hereof. The Contractor is required to provide a complete job as contemplated by this Scope of Work. The Contractor shall furnish all labor, supervision, materials, power, tools, equipment, supplies, permits, if any are necessary, and any other means of construction or work necessary or proper for performing and completing the Scope of Work, unless otherwise specifically stated, or as amended throughout the term of this Agreement.

3. **PERSONNEL**

Communication between the County Representative and the Contractor's personnel is very important. Therefore, the Contractor must assure that at least one (1) of its personnel per building can communicate well in the English language with the County

Representative. Any employee hired by the Contractor will be the Contractor's employee and in no way has any association with the County. The Contractor shall insure that its employees are trained in all appropriate safety regulations, including but not limited to, OSHA regulations, and all other applicable local, State and Federal regulations.

Uniforms are preferred for Contractor's personnel, however; photo identification cards are required, which shall clearly identify personnel as employees of the Contractor. This requirement shall apply upon entering County property and at all times while on duty.

The business must be licensed by the State of Florida, Department of Agriculture and Consumer Services, Bureau of Entomology and Pest Control. A Florida Certified Pesticide Applicator's License must be submitted prior to any pesticide application. Service technicians must have the applicable licensing with them at all times. Operating licensing must be in the category of General Household Pest & Rodent Control. A copy of renewed licensing must be submitted to the Contract Monitor each year. The Contractor must insure that trained personnel with proper licensing apply pesticides. For more information, refer to the Structural Pest Control Act, Chapter 482, Florida Statues.

4. BACKGROUND CHECKS / FINGERPRINTING

Contractor employees must consent to Level One background checks and the results are to be provided to the County within thirty (30) days of award of the contract. The County reserves the right to refuse personnel based on results of the background check. The County reserves the right to demand of the Contractor replacement of an employee for the Contractor if a conflict or problem with that employee should arise. The County's Facilities Maintenance Director or his designee shall have the right to require any employee(s) of the Contractor to be permanently removed from any County facility serviced by the Contractor whenever it appears to be in the best interest of the County. It is the responsibility of the Contractor to inform the Facilities Maintenance Director or his designee of all new hires and the results of the background check. The Contractor will be responsible for the supervision, hiring and firing of their own employees, and shall be solely responsible for the pay, worker's compensation insurance, and benefits.

Some work will be conducted at secure facilities, including, but not limited to law enforcement and fire rescue. Background checks, including at a minimum:

A. Warrants check;
B. Fingerprints;
C. Local Records check;
D. Prior employment check; and
E. Criminal History check

are required of Contractor's personnel that will enter Monroe County Sheriff's Office ("MCSO") facilities. Background checks on such personnel will be conducted by the MCSO.

MCSO may prohibit entry to, or remove from, any secure facility any Contractor employee who, in the judgment of MCSO, poses a risk to the security or good order of the facility. Thereafter, MCSO and the Contractor will immediately discuss resolution of the problem. If the problem is not resolved to the satisfaction of the MCSO, the employee shall not be permitted to return to any facility operated by the MCSO. Contractor will promptly replace the employee at no additional cost to County.

Contractor further agrees to notify County immediately upon becoming aware that one of its employees or subcontractor's employees, who previously completed the background check, is subsequently arrested or convicted of any crime. Failure by Contractor to notify County of such arrest or conviction within forty-eight (48) hours of being put on notice by the employee/subcontractor and/or within five (5) days of its occurrence shall constitute grounds for immediate termination of this contract by County. The parties further agree that failure by Contractor to perform any of the duties described in this paragraph shall constitute a material breach of the contract entitling County to terminate this contract immediately with no further responsibility to make payment or perform any other duties described herein.

5. CONTRACT SUM AND PAYMENTS TO CONTRACTOR

A. Monroe County's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Board of County Commissioners ("BOCC"). County shall pay in accordance with the Florida Local Government Prompt Payment Act and Monroe County Code; payment will be made after delivery and inspection by County and upon submission of a proper invoice by Contractor.

B. Contractor shall submit to County invoices no later than fifteen (15) days after inspections/repairs with supporting documentation acceptable to the Clerk. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules, and regulations as may govern the Clerk's disbursal of funds. If any additional issues are found, the County must be notified in writing within twenty-four (24) hours, including a correction proposal. Monroe County's Fiscal Year is October 1st through September 30th. All outstanding invoices must be submitted for payment within ten (10) days of the end of the Fiscal Year to avoid non-payment for those services.

The Contractor is encouraged to consult with its advisors about Florida Public Records Law in order to comply with this provision.

Pursuant to Fla. Stat., Sec. 119.0701 and the terms and conditions of this contract, the Contractor is required to:

(1) Keep and maintain public records that would be required by the County to perform the service.

(4) Upon completion of the contract, transfer, at no cost, to the County all public records in possession of the Contractor or keep and maintain public records that would be required by the County to perform the service. If the Contractor transfers all public records to the County upon completion of the contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the County, upon request from the County's custodian of records, in a format that is compatible with the information technology systems of the County.

If the Contractor does not comply with the County's request for records, the County shall enforce the public records contract provisions in accordance with the contract, notwithstanding the County's option and right to unilaterally cancel this contract upon violation of this provision by the Contractor. A Contractor who fails to provide the public records to the County or pursuant to a valid public records request within a reasonable time may be subject to penalties under Section 119.10, Florida Statutes.

Should any claims be asserted against the County by virtue of any deficiency or ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

Good morning, Mr. Nilson.

Monroe County Florida would like to use the attached contract (Cooperative Purchasing Master Agreement) executed between the State of Washington Department of Enterprise Services and Watson Furniture Group, Inc. It appears that the State of Florida is not one of the four states that have issued participating addenda for this particular contract. The instructions on the NASPO website say that if the state has not executed a statewide PA, political subdivisions (such as Monroe County) may have access if the State's Chief Procurement Official approves or has no objection, and that we should contact you to get assistance in gaining access. I am writing to ask for your approval and/or non-objection.

We are ready to buy the consoles for our new Emergency Operations Center (currently under construction), so I look forward to moving this forward with your assistance.

I can be reached at any time if you have any questions. Copied on this email is Mr. Cary Vick from our Project Management department, the Project Manager for this project.

Thank you in advance.

COOPERATIVE PURCHASING MASTER AGREEMENT

NO. 00318

PUBLIC SAFETY COMMUNICATIONS PRODUCTS, SERVICES AND SOLUTIONS

FOR

CATEGORY 10 DISPATCH CONSOLE FURNITURE

This Cooperative Purchasing Master Agreement ("Cooperative Purchasing Master Agreement") is made and entered into by and between Enterprise Services acting by and through the State of Washington ("Enterprise Services") and Watson Furniture Group, Inc. a Washington corporation ("Contractor") and is dated and effective as of January 1, 2022.

R E C I T A L S

A. Pursuant to Legislative authorization, Enterprise Services, on behalf of the State of Washington, is authorized to develop, solicit, and establish Cooperative Purchasing Master Agreements for goods and services to support Washington state agencies. *See* RCW 39.26.050(1). The Washington State Legislature has authorized Enterprise Services to make these Cooperative Purchasing Master Agreements available, pursuant to agreement in which Enterprise Services ensures full cost recovery, to other local or federal government agency or entity, public benefit nonprofit organizations, or any tribes located in the State of Washington. *See* RCW 39.26.050(1) & (2).

B. The Washington State Legislature also has authorized Enterprise Services to participate in, sponsor, conduct, or administer certain cooperative purchasing agreements for the procurement of goods or services. *See* RCW 39.26.060(1). One of the approaches that Enterprise Services utilizes to participate in cooperative purchasing agreements with other states is NASPO ValuePoint.

C. NASPO Cooperative Purchasing Organization LLC, doing business as NASPO ValuePoint, is a nonprofit subsidiary of the National Association of State Procurement Officials (NASPO). The NASPO ValuePoint purchasing cooperative program is led by state procurement officers from member states. NASPO ValuePoint does not award contracts; rather, it assists states, for an administrative fee, in their collaboration pertaining to solicitations and the resulting master agreements.

D. Pursuant to the NASPO ValuePoint cooperative purchasing model, a state serves as the 'lead state' to conduct a competitive procurement in compliance with that state's procurement laws and award a cooperative purchasing master agreement with a contractor for the specified goods or services. States (including the District of Columbia and the organized territories of the United States), including the lead state, then may participate in that cooperative purchasing master agreement by executing a Participating Addendum. Until a Participating Addendum is executed by the applicable state (a 'participating entity'), no agency or other eligible organization (a 'purchasing entity') may purchase pursuant to the cooperative purchasing master agreement. Under Washington law, at the time of solicitation, states may provide supplemental substantive terms and conditions to inform the competitive procurement. In addition, pursuant to their Participating Addendum, states may require certain administrative terms and conditions

(e.g., a vendor management fee for sales within the state, state registration and reporting). Contractor, however, has no obligation to condition execution of a Participating Addendum on substantive terms and conditions that were not competitively procured.

E. Enterprise Services, as part of a cooperative purchasing competitive governmental procurement, with administrative support from NASPO ValuePoint, issued Competitive Solicitation No. 00318 dated November 16, 2020 regarding Public Safety Communications Products, Services and Solutions ("Public Safety Radio"). Sixteen (16) states indicated an intent to utilize the resulting Cooperative Purchasing Master Agreement.

F. Enterprise Services and a stakeholder team consisting of representatives from Washington, California, Alaska, Oregon, Montana, Tennessee, Colorado and Nevada evaluated all responsive bids to the Competitive Solicitation and identified Contractor as an Apparent Successful Bidder for the Category identified above.

G. Enterprise Services determined that entering into this Cooperative Purchasing Master Agreement will meet the cooperative purchasing needs and be in the best interest of the State of Washington.

H. The purpose of this Cooperative Purchasing Master Agreement is to enable Participating or Purchasing Entities to purchase Public Safety Radio products and services, in the awarded Category as set forth herein.

A G R E E M E N T

NOW THEREFORE, in consideration of the mutual promises, covenants, and conditions set forth herein, the parties hereto hereby agree as follows:

1. TERM. The term of this Master Agreement begins January 1, 2022 and ends on December 31, 2026; provided, however that, the contract term shall be extended for twenty-four (24) months if, in Enterprise Services' sole, reasonable judgement, which shall occur no later than June 30, 2025, Contractor meets the following performance metrics:

- Reports: Contractor provides timely and accurate reports as detailed in this Master Agreement and Participating Addendums; and
- Administrative Fee Payments: Contractor provides timely and accurate Administrative Fee payments as detailed in this Master Agreement and Participating Addendums.

Notwithstanding any provision to the contrary, to effectuate a smooth transition for Participating States and Purchasing Entities for Public Safety Communications Products, Services and Solutions to begin on January 1, 2022, Contractor shall provide implementation and transition support to Participating States who wish to utilize the Master Agreement, beginning upon the date such Participating State and Contractor executes a Participating Addendum. For the avoidance of doubt, no orders for products or services shall be made under this Agreement prior to January 1, 2022.

2. PARTICIPANTS AND SCOPE. This Cooperative Purchasing Master Agreement may be utilized under the following conditions:

2.1. PARTICIPATING ENTITIES. Contractor may not sell Public Safety Radio products and services under this Cooperative Purchasing Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. The terms and conditions set forth in the Cooperative Purchasing Master Agreement are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented, or amended by a Participating Addendum; *Provided*, however, that no Participating Addendum shall operate to alter or modify any substantive terms of this Cooperative Purchasing Master Agreement which were solicited and procured pursuant to a competitive procurement. By way of illustration and not limitation, Participating Entities may include unique administrative, delivery, and invoicing requirements, as well as entity-specific confidentiality requirements and similar entity-specific administrative requirements in purchase Orders utilizing this Cooperative Purchasing Master Agreement.

2.2. PURCHASING ENTITIES. Purchasing Entity means a state (as well as the District of Columbia and U.S territories), city, county, district, other political subdivision of a State, and a nonprofit organization under the laws of some states if authorized by a Participating Addendum, that issues a Purchase Order or other commitment document against the Cooperative Purchasing Master Agreement and becomes financially committed to the purchase.

2.3. PARTICIPATING ADDENDUM. Obligations under this Cooperative Purchasing Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. States or other entities permitted to participate may use an informal competitive or other process to determine which Cooperative Purchasing Master Agreements to participate in through execution of a Participating Addendum. Financial obligations of Participating Entities who are states are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating Entities who are states incur no financial obligations on behalf of other Purchasing Entities. Contractor shall email a fully executed PDF copy of each Participating Addendum as instructed by the Lead State to support documentation of participation and posting in appropriate databases.

2.4. PURCHASING ENTITY RIGHTS. Except to the extent modified by a Participating Addendum, each Purchasing Entity shall follow the terms and conditions of the Cooperative Purchasing Master Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead State has in the Cooperative Purchasing Master Agreement, including but not limited to, any indemnity or right to recover any costs as such right is defined in the Cooperative Purchasing Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. Contractor will apply the charges and invoice each Participating Entity individually.

2.5. PARTICIPATING ADDENDUM APPROVAL. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the approval of participation by the Chief Procurement Official of the state where the Participating Entity is located. Coordinate requests for such participation through NASPO ValuePoint. Any permission to participate through execution of a Participating Addendum is not a determination that procurement authority exists in the Participating Entity; they must ensure that they have the requisite procurement authority to execute a Participating Addendum.

3. SCOPE – INCLUDED GOODS/SERVICES AND PRICE.

3.1. CONTRACT SCOPE. Pursuant to this Cooperative Purchasing Master Agreement, Contractor is authorized to sell only those Public Safety Radio Products and Services in the category above posted on the NASPO ValuePoint website. Contractor shall not represent to any Participating or Purchasing Entity under this Cooperative Purchasing Master Agreement that Contractor has contractual authority to sell any Public Safety Radio Products beyond those approved and posted on the NASPO ValuePoint website.

3.2. MINIMUM WARRANTY FOR INCLUDED GOODS/SERVICES. Notwithstanding any provision to the contrary, Contractor agrees to and is providing a minimum warranty of no less than one (1) year for any goods/services included in this Cooperative Purchasing Master Agreement. Such minimum warranty begins when the goods/services are accepted by Purchasing Entity or as agreed by Purchasing Entity in its ordering documentation. Such minimum warranty includes all firmware and software updates within warranty period. Parts and related software will be free from defects in material and workmanship for one (1) year. If a product fails because of a defect in workmanship or materials within one (1) year from the date of acceptance by Purchasing Entity, manufacture shall repair or replace the product or part with a new product or part without charge to Purchasing Entity.

3.3. ADDITIONAL WARRANTY OPTIONS – See Watson Furniture Group Products/Services Pricing Document on the NASPO ValuePoint website for descriptions and pricing for all available warranty options.

3.4. AVAILABLE SERVICES – See Watson Furniture Group Products/Services Pricing Document on the NASPO ValuePoint website for descriptions and pricing for all available services.

3.5. ABILITY TO MODIFY SCOPE OF COOPERATIVE PURCHASING MASTER AGREEMENT. Subject to mutual agreement between the parties, Enterprise Services, acting as the lead state, reserves the right to modify the Public Safety Radio Products included in this Cooperative Purchasing Master Agreement; *Provided*, however, that any such modification shall be effective only upon thirty (30) days advance written notice; and *Provided further*, that any such modification must be within the scope of this competitively procured Cooperative Purchasing Master Agreement. In no event shall such modification, if authorized by Enterprise Services, limit the requirement for cooperative purchasing agreements to be subject to competitive procurement.

3.6. PRODUCT UPDATES. Upon approval, Contractor may update their products/pricelist on a semi-annual basis. Contractor must submit to the Lead Contract Administrator a revised product/pricelist highlighting changes and include an effective date of the change. At no time during the contract term shall products be deleted from the products/pricelist. Discontinued products/services must be struck-through and highlighted for ease of review process. Following the guarantee period, any request for price increases must be for an equal guarantee period (1 year), and must be submitted to the Lead State at least thirty (30) calendar days prior to the effective date. The Lead State will review a documented request for an MSRP price list increase only after the Price Guarantee Period.

Requests for price increases must include sufficient documentation supporting the request and demonstrating the reasonableness of the adjustment when comparing the current price list to the proposed price list. Documentation may include: the manufacturer's national price increase announcement letter, a complete and detailed description of what products are increasing and by what percentage, a complete and detailed description of what raw materials and/or other costs have increased and provide proof of increase, index data and other information to support and justify the increase. The price increase must not produce a higher profit margin than the original contract, and must be accompanied by sufficient documentation and nationwide notice of price adjustment to the published manufacturer's price list. Contractor must be able to receive, process, and invoice orders unless the Participating State has agreed to assign these functions to a partner. Contractor will be responsible for compliance with requirements under the Cooperative Purchasing Master Agreement, even if requirements are delegated to partners. Contractor and partners must not in any way represent themselves in the name of the Lead State, NASPO ValuePoint or Participating States.

4. CONTRACTOR REPRESENTATIONS AND WARRANTIES. For purposes of this provision, employees are similarly employed if the individuals work for the same employer, the performance of the job requires comparable skill, effort, and responsibility, and the jobs are performed under similar working conditions. (d) Notwithstanding the expiration, cancellation or termination of this Cooperative Purchasing Master Agreement, Contractor agrees to perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation, or termination of this Cooperative Purchasing Master Agreement, or otherwise inconsistent with its terms. Orders from any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against this Cooperative Purchasing Master Agreement may not be placed after the expiration or termination of this Cooperative Purchasing Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.

5.3. RECEIPT AND INSPECTION OF GOODS AND/OR SERVICES. Goods and/or services purchased under this Cooperative Purchasing Master Agreement are subject to Purchasing Entity's reasonable inspection, testing, and approval at Purchasing Entity's destination. Such inspection and approval shall be determined within thirty (30) days of delivery. Purchasing Entity reserves the right to reject and refuse acceptance of goods and/or services that are not in accordance with this Cooperative Purchasing Master Agreement and Purchasing Entity's Purchase Order. If there are any apparent defects in the goods and/or services at the time of delivery, Purchasing Entity will notify Contractor within five (5) business days. At Purchasing Entity's option, and without limiting any other rights, Purchasing Entity may require Contractor to, consistent with the warranty terms, repair or replace, at Contractor's expense, any or all of the damaged goods and/or services or, at Purchasing Entity's option, Purchasing Entity may note any damage to the goods and/or services on the receiving report, decline acceptance, and deduct the cost of rejected goods and/or services from final payment. (a) Contractor shall provide right of access to the Lead State, or to any other authorized agent or official of the Lead State or other Participating or Purchasing Entity, at reasonable times, in order to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Cooperative Purchasing Master Agreement. Products that do not meet specifications may be rejected as mutually agreed between Purchasing Entity and Contractor. Failure to reject upon receipt, however, does not relieve Contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when the Public Safety Radio Products are put to use. Acceptance of such Public Safety Radio Products may be revoked in accordance with the provisions of the applicable commercial code, and Contractor shall be liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of any Public Safety Radio Products rejected and returned, or for which Acceptance is revoked.

If any such Participating State and/or Purchasing Entity property is lost, destroyed, or damaged, Contractor immediately shall notify such Participating State and/or Purchasing Entity and shall take all reasonable steps to protect the property from further damage. Contractor shall surrender to such Participating State and/or Purchasing Entity all property of such Participating State and/or Purchasing Entity prior to settlement upon completion, termination, or cancellation of this Cooperative Purchasing Master Agreement. Title to all property furnished by Contractor, the cost for which the Contractor is entitled to be reimbursed as a direct item of cost under this Contract, shall pass to and vest in the Purchasing Entity upon delivery of such property by Contractor to the Purchasing Entity. Title to other property, the cost of which is reimbursable to Contractor under this Contract, shall pass to and vest in the Purchasing Entity upon (i) issuance for use of such property in the performance of this Contract, or (ii) commencement of use of such property in the performance of this Contract, or (iii) reimbursement of the cost thereof by the Purchasing Entity in whole or in part, whichever first occurs. All reference to Contractor under this clause shall also include Contractor's employees, agents or subcontractors. Title to software shall not pass to Purchasing Entity but shall be licensed. 6.6. TAXES/FEES. Contractor promptly shall pay all applicable taxes on its operations and activities pertaining to this Cooperative Purchasing Master Agreement. Failure to do so shall constitute breach of this Cooperative Purchasing Master Agreement. Reports are due on a quarterly basis and must be received by the Enterprise Services and NASPO ValuePoint Cooperative Development Team no later than thirty (30) days after the end of the reporting period. Reports shall be delivered to Enterprise Services and to the NASPO ValuePoint Cooperative Development Team electronically through a designated portal, email, CD-ROM, flash drive or other method as determined by Enterprise Services and NASPO ValuePoint. Detailed sales data reports shall include sales information for all sales under Participating Addenda executed under this Cooperative Purchasing Master Agreement.

8.3. NASPO VALUEPOINT EXECUTIVE SUMMARY. Contractor shall provide the NASPO ValuePoint Cooperative Development Coordinator with an executive summary each quarter that includes, at a minimum, a list of states with an active Participating Addendum, states that Contractor is in negotiations with and any Participating Addendum roll out or implementation activities and issues. NASPO ValuePoint Cooperative Development Coordinator and Contractor will determine the format and content of the executive summary. The executive summary is due thirty (30) days after the conclusion of each calendar quarter.

8.4. REPORT OWNERSHIP. Timely submission of these reports is a material requirement of the Cooperative Purchasing Master Agreement. Enterprise Services and NASPO ValuePoint shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided under this section.

8.5. CONFIDENTIALITY OF DETAILED SALES DATA AND PARTICIPATING ADDENDA. Participating Addenda, as well as Orders or transaction data relating to Orders under this Cooperative Purchasing Master Agreement that identify the entity/customer, Order dates, line item descriptions and volumes, and prices/rates, shall be Confidential Information. Contractor shall hold Confidential Information in confidence and shall not transfer or otherwise disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than what is necessary to the performance of Orders placed under this Cooperative Purchasing Master Agreement. Contractor shall advise each of its employees and agents of their obligations to keep Confidential Information confidential. This provision does not apply to disclosure to the Lead State, a Participating State, or any governmental entity exercising an audit, inspection, or examination pursuant to this Cooperative Purchasing Master Agreement. To the extent permitted by law, Contractor shall notify the Lead State of the identity of any entity seeking access to the Confidential Information described in this subsection.

9. NASPO VALUEPOINT COOPERATIVE PROGRAM MARKETING AND PERFORMANCE REVIEW

9.1. NASPO VALUEPOINT COOPERATIVE PROGRAM. Contractor agrees to work cooperatively with NASPO ValuePoint personnel. Contractor agrees to present plans to NASPO ValuePoint for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Cooperative Purchasing Master Agreement, including the competitive nature of NASPO ValuePoint procurements, the Cooperative Purchasing Master Agreement and Participating Addendum process, and the manner in which qualifying entities can participate in the Cooperative Purchasing Master Agreement.

9.2. LOGOS. NASPO VALUEPOINT logos may not be used by Contractor in sales and marketing until a logo use agreement is executed with NASPO ValuePoint.

9.3. ANNUAL SUPPLIER BUSINESS REVIEW. Contractor agrees to participate in an annual supplier performance review at a location (virtual or in-person) selected by Enterprise Services and NASPO ValuePoint, which may include a discussion of marketing action plans, target strategies, marketing materials, as well as Contractor reporting and timeliness of payment of administration fees. The 2022 Annual Supplier Business Review requires in-person attendance. Any subsequent Annual Supplier Business Review meetings may be attended virtually or in-person.

10. ADMINISTRATIVE FEES.

10.1. CONTRACTOR shall pay to NASPO ValuePoint, or its assignee, a NASPO ValuePoint ADMINISTRATIVE Fee of one-quarter of one percent (0.25%) of the quarterly sales by participating state. The NASPO ValuePoint administrative fee is not negotiable. This fee may not be adjusted in any Participating Addendum. This fee is to be included as part of the pricing submitted with the bid.

10.2. Some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. The fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Cooperative Purchasing Master Agreement. The Contractor may adjust the Cooperative Purchasing Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the NASPO ValuePoint Administrative Fee percentage or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee. The NASPO ValuePoint Administrative Fee set forth above shall be based on the gross amount of all sales (less any charges for taxes or shipping) at the adjusted prices (if any) in Participating Addenda.

11. RECORDS RETENTION & AUDITS.

11.1. RECORDS RETENTION. Contractor shall maintain books, records, documents, and other evidence pertaining to this Cooperative Purchasing Master Agreement and orders placed by Purchasing Entity under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall retain such records for a period of six (6) years following expiration or termination of this Cooperative Purchasing Master Agreement or final payment for any order placed by a Purchasing Entity against this Cooperative Purchasing Master Agreement, whichever is later; *Provided*, however, that if any

litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.

11.2. AUDIT. Upon reasonable advance written notice, Enterprise Services reserves the right to audit, or have a designated third party audit, applicable records associated with this Cooperative Purchasing Master Agreement to ensure that Contractor has properly invoiced Purchasing Entity and that Contractor has paid all applicable vendor management fees. Accordingly, Contractor shall permit Enterprise Services, any Purchasing Entity, and any other duly authorized agent of a governmental agency, to audit, inspect examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Cooperative Purchasing Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of six (6) years following expiration or termination of this Cooperative Purchasing Master Agreement or final payment for any order placed by a Purchasing Entity against this Cooperative Purchasing Master Agreement, whichever is later; *Provided*, however, that if any litigation, claim, or audit is commenced prior to the expiration of this period, such period shall extend until all such litigation, claims, or audits have been resolved.

11.3. OVERPAYMENT OF PURCHASES OR UNDERPAYMENT OF FEES. Without limiting any other remedy available to any Purchasing Entity, Contractor shall reimburse Purchasing Entity for any overpayments inconsistent with the terms of this Cooperative Purchasing Master Agreement or orders, at a rate of 100% of such overpayments, found as a result of the examination of the Contractor's records.

12. INSURANCE.

12.1. REQUIRED INSURANCE. During the Term of this Cooperative Purchasing Master Agreement, Contractor, at its expense, shall maintain in full force and effect the insurance coverages set forth in *Exhibit A – Insurance Requirements*. All costs for insurance, including any payments of deductible amounts, shall be considered incidental to and included in the prices for goods/services and no additional payment shall be made.

12.2. WORKERS COMPENSATION. Contractor shall comply with applicable workers compensation statutes and regulations (e.g., RCW Title 51, Industrial Insurance). If Contractor fails to provide industrial insurance coverage or fails to pay premiums or penalties on behalf of its employees as may be required by law, Enterprise Services may terminate this Cooperative Purchasing Master Agreement. This provision does not waive any of the Washington State Department of Labor and Industries (L&I) rights to collect from Contractor. In addition, Contractor waives its immunity under RCW Title 51 to the extent it is required to indemnify, defend, and hold harmless the State of Washington and its agencies, officials, agents, or employees.

12.3. INSURANCE CERTIFICATE. Prior to commencement of performance, Contractor shall provide to Enterprise Services a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to Enterprise Services that (1) names the State of Washington and Enterprise Services as additional insureds, (2) provides for written notice of cancellation delivered in accordance with the policy provisions, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating State as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, other state Participating Entities' rights and Contractor's obligations

are the same as those specified in the first sentence of this subsection except the endorsement is provided to the applicable state.

13. PUBLIC INFORMATION. This Cooperative Purchasing Master Agreement, all related documents, and all records created as a result of the Cooperative Purchasing Master Agreement are subject to public disclosure as required by Washington's Public Records Act, RCW chapter 42.56. In addition, Participating Addendums and related records shall be subject to public disclosure as required by applicable law pertaining to such Purchasing Entity. Consistent with the Public Records Act, to the extent that any such Contractor document or record – in whole or in part – includes information exempted or protected from disclosure by the Public Records Act, Contractor may mark such document or record – the exempted or protected portions only – with the specific basis for protection under the Public Records Act. In the event that Enterprise Services receives a public records disclosure request that pertains to such properly marked documents or records, Enterprise Services shall notify Contractor of such disclosure request and of the date that the records will be released to the requester unless Contractor, at Contractor's sole expense, timely obtains a court order enjoining such disclosure. In the event Contractor fails to file a motion for a court order enjoining such disclosure, Enterprise Services shall release the requested documents on the date specified. Contractor's failure properly to identify exempted or protected information or timely respond after notice of request for public disclosure has been given shall be deemed a waiver by Contractor of any claim that such materials are protected or exempt from disclosure.

14. DEFAULTS AND REMEDIES

14.1. SUSPENSION & TERMINATION FOR DEFAULT. Enterprise Services may suspend Contractor's operations under this Cooperative Purchasing Master Agreement immediately by written cure notice of any default. Contractor may be required to submit a written cure plan within five (5) business days of Suspension notification. Suspension shall continue until the default is remedied to Enterprise Services' reasonable satisfaction; *Provided*, however, that, if after thirty (30) days from such a suspension notice, Contractor remains in default, Enterprise Services may terminate Contractor's right under this Cooperative Purchasing Master Agreement All of Contractor's obligations to Enterprise Services and Purchasing Entity survive termination of Contractor's rights under this Cooperative Purchasing Master Agreement, until such obligations have been fulfilled.

14.2. DEFAULT. Each of the following events shall constitute default of this Cooperative Purchasing Master Agreement by Contractor:

(a) Contractor fails to perform or comply with any of the terms or conditions of this Cooperative Purchasing Master Agreement;

(b) Contractor breaches any representation or warranty provided herein; or

(c) Contractor enters into proceedings relating to bankruptcy, whether voluntary or involuntary.

14.3. REMEDIES for DEFAULT.

(a) Enterprise Services' rights to suspend and terminate Contractor's rights under this Cooperative Purchasing Master Agreement are in addition to all other available remedies.

(b) In the event of termination for default, Enterprise Services may exercise any remedy provided by law including, without limitation, the right to procure for all Purchasing

Entity replacement goods and/or services. In such event, Contractor shall be liable to Enterprise Services for damages as authorized by law including, but not limited to, any price difference between the Cooperative Purchasing Master Agreement price and the replacement or cover price for identical equipment or services, as well as any administrative and/or transaction costs directly related to such replacement procurement – e.g., the cost of the competitive procurement. Enterprise Services or Purchasing Entity will mitigate damages and provide Contractor with detailed invoices substantiating the charges.

(c) Unless otherwise specified in the Participating Addendum, in the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and have all of the rights and remedies under this paragraph regarding its participation in the Cooperative Purchasing Master Agreement, in addition to those set forth in its Participating Addendum. Unless otherwise specified in a Purchase Order, either Party shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order. Nothing in this Cooperative Purchasing Master Agreement shall be construed to limit the rights and remedies available to either Party under the applicable commercial code.

14.4. LIMITATION ON DAMAGES. Notwithstanding any provision to the contrary, the parties agree that in no event shall any party or Purchasing Entity be liable to the other for exemplary or punitive damages; Provided, however, that nothing contained in this Section will in any way exclude or limit: (a) a party's liability for all damages arising out of that party's intentional acts or omissions; (b) the operation of any Goods or Services warranty provided in this Cooperative Purchasing Master Agreement; or (c) damages subject to the Intellectual Property Indemnity section of this Cooperative Purchasing Master Agreement. Any limitation of either party's obligations under this Cooperative Purchasing Master Agreement, by delivery slips or other documentation is void. Contractor's limitation of liability shall not exceed $2,000,000 per occurrence.

14.5. GOVERNMENTAL TERMINATION.

(a) Termination for Withdrawal of Authority. Enterprise Services may suspend or terminate this Cooperative Purchasing Cooperative Purchasing Master Agreement if, during the term hereof, Enterprise Services' procurement authority is withdrawn, reduced, or limited such that Enterprise Services, in its judgment, would lack authority to enter into this Cooperative Purchasing Master Agreement; *Provided*, however, that such suspension or termination for withdrawal of authority shall only be effective upon twenty (20) days prior written notice; and *Provided further*, that such suspension or termination for withdrawal of authority shall not relieve any Participating Entity or Purchasing Entity from payment for goods and/or services already ordered as of the effective date of such notice. Except as stated in this provision, in the event of such suspension or termination for withdrawal of authority, neither Enterprise Services nor any Participating Entity or Purchasing Entity shall have any obligation or liability to Contractor. Contractor will be entitled to seek a change order to the extent Contractor provides documentary evidence that Contractor has incurred additional costs as a result of the suspension including costs to demobilize and remobilize the project.

(b) Termination for Convenience. Enterprise Services, for convenience, may terminate this Cooperative Purchasing Master Agreement; *Provided*, however, that such termination for convenience must, in Enterprise Services' judgment, be in the best interest of the State of Washington; and *Provided further*, that such termination for convenience shall only be effective upon sixty (60) days prior written notice; and *Provided further*, that such termination for convenience shall not relieve any Participating Entity or Purchasing Entity from payment for goods and/or services already ordered as of the effective date of such notice. Except as stated in this provision, in the event of such termination for convenience, neither Enterprise Services nor any Participating Entity or Purchasing Entity shall have any obligation or liability to Contractor.

15. CLAIMS.

15.1. ASSUMPTION OF RISKS; CLAIMS BETWEEN THE PARTIES. Contractor assumes sole responsibility and all risks of personal injury or property damage to itself and its employees and agents to the extent caused by its operations under this Cooperative Purchasing Master Agreement. Enterprise Services has made no representations regarding any factor affecting Contractor's risks. If responsibility can be substantiated as Contractor fault, Contractor shall pay for all damage to any Purchasing Entity's property resulting directly or indirectly from its acts or omissions under this Cooperative Purchasing Master Agreement, to the extent attributable to negligence by Contractor or its agents.

15.2. THIRD-PARTY CLAIMS; INDEMNITY. To the fullest extent permitted by law, Contractor shall defend, indemnify, and hold harmless Enterprise Services, any Purchasing Entity, and NASPO Cooperative Purchasing Organization LLC (doing business as NASPO ValuePoint) (NASPO) and their respective employees and agents from and against all claims, demands, judgments, assessments, damages, penalties, fines, costs, liabilities or losses including, without limitation, sums paid in settlement of claims, attorneys' fees, consultant fees, and expert fees (collectively "claims") arising from any act or omission of Contractor or its successors, agents, and subcontractors under this Cooperative Purchasing Master Agreement, except to the extent such claims are caused by Enterprise Services, any Purchasing Entity, or NASPO's' negligence. Contractor shall take all steps needed to keep Purchasing Entity's property free of liens arising from Contractor's activities, and promptly obtain or bond the release of any such liens that may be filed. Unless otherwise agreed in writing, this section is not subject to any limitations of liability in this Cooperative Purchasing Master Agreement or in any other document executed in conjunction with this Cooperative Purchasing Master Agreement.

16. DISPUTE RESOLUTION. The parties shall cooperate to resolve any dispute pertaining to this Cooperative Purchasing Master Agreement efficiently, as timely as practicable, and at the lowest possible level with authority to resolve such dispute. If, however, a dispute persists and cannot be resolved, it may be escalated within each organization. In such situation, upon notice by either party, each party, within five (5) business days shall reduce its description of the dispute to writing and deliver it to the other party. The receiving party then shall have three (3) business days to review and respond in writing. In the event that the parties cannot then agree on a resolution of the dispute, the parties shall schedule a conference between the respective senior managers of each organization to attempt to resolve the dispute. In the event the parties cannot agree, either party may resort to court to resolve the dispute.

17. GENERAL PROVISIONS.

17.1. TIME IS OF THE ESSENCE. Time is of the essence for each and every provision of this Cooperative Purchasing Master Agreement.

17.2. COMPLIANCE WITH LAW. Contractor shall comply with all applicable law.

17.3. INTEGRATED AGREEMENT. This Cooperative Purchasing Master Agreement constitutes the entire agreement and understanding of the parties with respect to the subject matter and supersedes all prior negotiations, representations, and understandings between them. There are no representations or understandings of any kind not set forth herein.

17.4. AMENDMENT OR MODIFICATION. Except as set forth herein, this Cooperative Purchasing Master Agreement may not be amended or modified except in writing and signed by a duly authorized representative of each party.

17.5. AUTHORITY. Each party to this Cooperative Purchasing Master Agreement, and each individual signing on behalf of each party, hereby represents and warrants to the other that it has full power and authority to enter into this Cooperative Purchasing Master Agreement and that its execution, delivery, and performance of this Cooperative Purchasing Master Agreement has been fully authorized and approved, and that no further approvals or consents are required to bind such party.

17.6. NO AGENCY. The parties agree that no agency, partnership, or joint venture of any kind shall be or is intended to be created by or under this Cooperative Purchasing Master Agreement. Neither party is an agent of the other party nor authorized to obligate it.

17.7. ASSIGNMENT. Contractor may not assign its rights under this Cooperative Purchasing Master Agreement without Enterprise Services' prior written consent and Enterprise Services may consider any attempted assignment without such consent to be void; *Provided*, however, that, if Contractor provides written notice to Enterprise Services within thirty (30) days, Contractor may assign its rights under this Cooperative Purchasing Master Agreement in full to any parent, subsidiary, or affiliate of Contractor that controls or is controlled by or under common control with Contractor, is merged or consolidated with Contractor, or purchases a majority or controlling interest in the ownership or assets of Contractor. Unless otherwise agreed, Contractor guarantees prompt performance of all obligations under this Cooperative Purchasing Master Agreement notwithstanding any prior assignment of its rights.

17.8. BINDING EFFECT; SUCCESSORS & ASSIGNS. This Cooperative Purchasing Master Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

17.9. ASSIGNMENT OF ANTITRUST RIGHTS REGARDING PURCHASED GOODS/SERVICES. Contractor irrevocably assigns to Enterprise Services, on behalf of the State of Washington, any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws in connection with any goods and/or services provided in Washington for the purpose of carrying out the Contractor's obligations under this Cooperative Purchasing Master Agreement, including, at Enterprise Services' option, the right to control any such litigation on such claim for relief or cause of action.

17.10. FEDERAL FUNDS. To the extent that any Purchasing Entity uses federal funds to purchase goods and/or services pursuant to this Cooperative Purchasing Master Agreement, such Purchasing

Entity shall specify, with its order, any applicable requirement or certification that must be satisfied by Contractor at the time the order is placed or upon delivery.

17.11. SEVERABILITY. If any provision of this Cooperative Purchasing Master Agreement is held to be invalid or unenforceable, such provision shall not affect or invalidate the remainder of this Cooperative Purchasing Master Agreement, and to this end the provisions of this Cooperative Purchasing Master Agreement are declared to be severable. If such invalidity becomes known or apparent to the parties, the parties agree to negotiate promptly in good faith in an attempt to amend such provision as nearly as possible to be consistent with the intent of this Cooperative Purchasing Master Agreement.

17.12. WAIVER. Failure of either party to insist upon the strict performance of any of the terms and conditions hereof, or failure to exercise any rights or remedies provided herein or by law, or to notify the other party in the event of breach, shall not release the other party of any of its obligations under this Cooperative Purchasing Master Agreement, nor shall any purported oral modification or rescission of this Cooperative Purchasing Master Agreement by either party operate as a waiver of any of the terms hereof. No waiver by either party of any breach, default, or violation of any term, warranty, representation, contract, covenant, right, condition, or provision hereof shall constitute waiver of any subsequent breach, default, or violation of the same or other term, warranty, representation, contract, covenant, right, condition, or provision.

17.13. SURVIVAL. All representations, warranties, covenants, agreements, and indemnities set forth in or otherwise made pursuant to this Cooperative Purchasing Master Agreement shall survive and remain in effect following the expiration or termination of this Cooperative Purchasing Master Agreement, *Provided*, however, that nothing herein is intended to extend the survival beyond any applicable statute of limitations periods.

17.14. GOVERNING LAW. The validity, construction, performance, and enforcement of this Cooperative Purchasing Master Agreement shall be governed by and construed in accordance with the laws of the State of Washington, without regard to its choice of law rules. The validity, construction, and effect of any Participating Addendum pertaining to the Cooperative Purchasing Master Agreement or Order placed pursuant to such Participating Addendum shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.

17.15. JURISDICTION & VENUE. In the event that any action is brought to enforce any provision of this Cooperative Purchasing Master Agreement, the parties agree to exclusive jurisdiction in Thurston County Superior Court for the State of Washington and agree that in any such action venue shall lie exclusively at Olympia, Washington; *Provided*, however, that venue for any claim, dispute, or action concerning any Order placed against the Cooperative Purchasing Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.

17.16. SOVEREIGN IMMUNITY. In no event shall this Cooperative Purchasing Master Agreement, any Participating Addendum or any Purchase Order issued thereunder, or any act of the Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court. This section applies to a claim brought against the

Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court.

17.17. ATTORNEYS' FEES. Should any legal action or proceeding be commenced by either party in order to enforce this Cooperative Purchasing Master Agreement or any provision hereof, or in connection with any alleged dispute, breach, default, or misrepresentation in connection with any provision herein contained, the prevailing party shall be entitled to recover reasonable attorneys' fees and costs incurred in connection with such action or proceeding, including costs of pursuing or defending any legal action, including, without limitation, any appeal, discovery, or negotiation and preparation of settlement arrangements, in addition to such other relief as may be granted.

17.18. FAIR CONSTRUCTION & INTERPRETATION. In addition to the actions specifically mentioned in this Cooperative Purchasing Master Agreement, the parties shall each do whatever may reasonably be necessary to accomplish the transactions contemplated in this Cooperative Purchasing Master Agreement including, without limitation, executing any additional documents reasonably necessary to effectuate the provisions and purposes of this Cooperative Purchasing Master Agreement.

17.20. EXHIBITS. All exhibits referred to herein are deemed to be incorporated in this Cooperative Purchasing Master Agreement in their entirety.

17.21. CAPTIONS & HEADINGS. 17.22. ELECTRONIC SIGNATURES. An electronic signature of this Cooperative Purchasing Master Agreement or any other ancillary agreement shall be deemed to have the same legal effect as delivery of an original executed copy of this Cooperative Purchasing Master Agreement or such other ancillary agreement for all purposes.

17.23. COUNTERPARTS. This Cooperative Purchasing Master Agreement may be executed in any number of counterparts, each of which shall be deemed an original and all of which counterparts together shall constitute the same instrument which may be sufficiently evidenced by one counterpart. 1. **Florida Public Records law (F.S. 119.0701).**

a. Keep and maintain public records required by Monroe County in order to perform the service.

b. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Florida Statutes, Chapter 119 or as otherwise provided by law.

c. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the records to the public agency.

d. By entering in this Agreement, the vendor acknowledges that it has read the above and states that neither the vendor nor any Affiliate has been placed on the convicted vendor list within the last 36 months.

5. **Ethics Clause (required for all contracts by Monroe County Ordinance No. 10-1990):** By entering in this Agreement, the vendor warrants that he/it has not employed, retained or otherwise had act on his/her behalf any former County officer or employee in violation of Section 2 of Ordinance No. 010-1990 or any County officer or employee in violation of Section 3 of Ordinance No. 010-1990. 6. **E-verify requirement (required by F.S. 448.095):** Beginning January 1, 2021, every public employer, contractor, and subcontractor shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. By entering into this Agreement, the vendor certifies that it registers with and uses the E-Verify system. If the contractor enters into a contract with a subcontractor, the subcontractor must provide the contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of the contract.

7. **Scrutinized companies (F.S. 287.135):**
   a. **(Applies to contracts > $1 million):** This contract is terminable at the option of the awarding body if the vendor is found to have submitted a false certification as defined below, has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List as those terms are defined in F.S. 287.135, or been engaged in business operations in Cuba or Syria.
      i. False certification: At the time a company submits a bid or proposal for a contract or before the company enters into or renews a contract with an agency or local governmental entity for goods or services of $1 million or more, the company must certify that the company is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List and that it does not have business operations in Cuba or Syria. At the time a company submits a bid or proposal for a contract or before the company enters into or renews a contract with an agency or local governmental entity for goods

or services of any amount, the company must certify that the company is not participating in a boycott of Israel. By entering into this agreement, the vendor certifies that the company complies with these requirements.

b. **(Applies to all contracts):** This contract is terminable at the option of the awarding body if the company is found to have been placed on the Scrutinized Companies that Boycott Israel List as that term is defined in F.S. 287.135 or is engaged in a boycott of Israel.

8. **Payment:** Invoices will be paid in accordance with the Florida Local Government Prompt Payment Act, F.S. 218.70 *et seq*. Invoices must be submitted to the Clerk with supporting documentation acceptable to the Clerk. TERMS AND CONDITIONS

Drawings and Floorplans

It is necessary that accurate room dimensions and features are provided to Watson for space planning and installation. Watson commits to providing product symbols that are correct in size. It is the responsibility of the customer to verify that the room dimensions and features provided to Watson are accurate prior to submitting a purchase order.

All purchase orders must be accompanied by the drawing and quote that has been approved for manufacture. Watson quotes are valid 90 days from the date of issue.

Purchase Orders and Order Acknowledgments

Purchase orders should be submitted via email to:
orders@watsonfg.com

All purchase orders must include the following information:

- Sold-to information including billing address and contact name with email and phone number
- Ship-to information including installation address and contact name with email and phone number
- Purchase order number
- Order total
- Final finish selections
- Approved final drawing and quote for manufacture (proposal and revision number must match across all pages)
- Requested delivery / installation date

Any omission may result in the delay of processing the order. All quotations, acknowledgments, and invoices are subject to corrections for errors or omissions.

All orders and subsequent change orders must be in writing. Watson will issue an acknowledgment of the order that includes estimated delivery date. The acknowledgment is the final agreement between Watson and the customer.

Order Cancellations and Changes

Acknowledged orders may not be changed or canceled, in whole or in part, without prior written consent of Watson.

Orders for which production has started may not be canceled. Orders that include non-standard products and non-standard finishes may not be canceled. In the event of cancellations prior to the start of production, for standard products, the customer will be liable for cancellation charges of 25% of the order total.

Any approved order change will require the customer to resubmit the approved final drawing and quote reflecting the requested change. An order change may affect the delivery date. Expenses incurred because of order changes will be charged to the customer.

Taxes

All sales, use, excise, and other applicable taxes are the purchaser's responsibility and will be invoiced to the purchaser. If purchaser claims an exemption from such taxes, it shall be the purchaser's responsibility to furnish an appropriate exemption certificate at the time the order is placed.

Payment Terms

Orders are invoiced at time of shipment. Standard payment terms are 50% due at time of order and 50% due before shipment.

When credit is extended for net thirty 30 days, payment is due within 30 days of shipment. Past due accounts will be charged the lesser of 1-1/2% per month or the highest rate permitted by law plus all collection costs, including reasonable attorney's fees and expenses.

Credit card payments are accepted up to $5,000. Payments above that amount can be made by check or ACH.

Freight

Freight will be quoted on a per project basis considering destination location, order size and weight as well as the current freight market. Watson Console freight terms are FOB destination to all 50 US States.

Charges incurred by Watson complying with non-standard shipment requests such as inside delivery, expediting, redelivery, weekend delivery, unpacking, straight trucks, specific driver requests or temporary holding will be invoiced to the purchaser. Risk of loss shall pass to purchaser at the time Watson places the product(s) in the possession of a common carrier or at the time of delivery to the purchaser in the case of delivery by Watson vehicles.

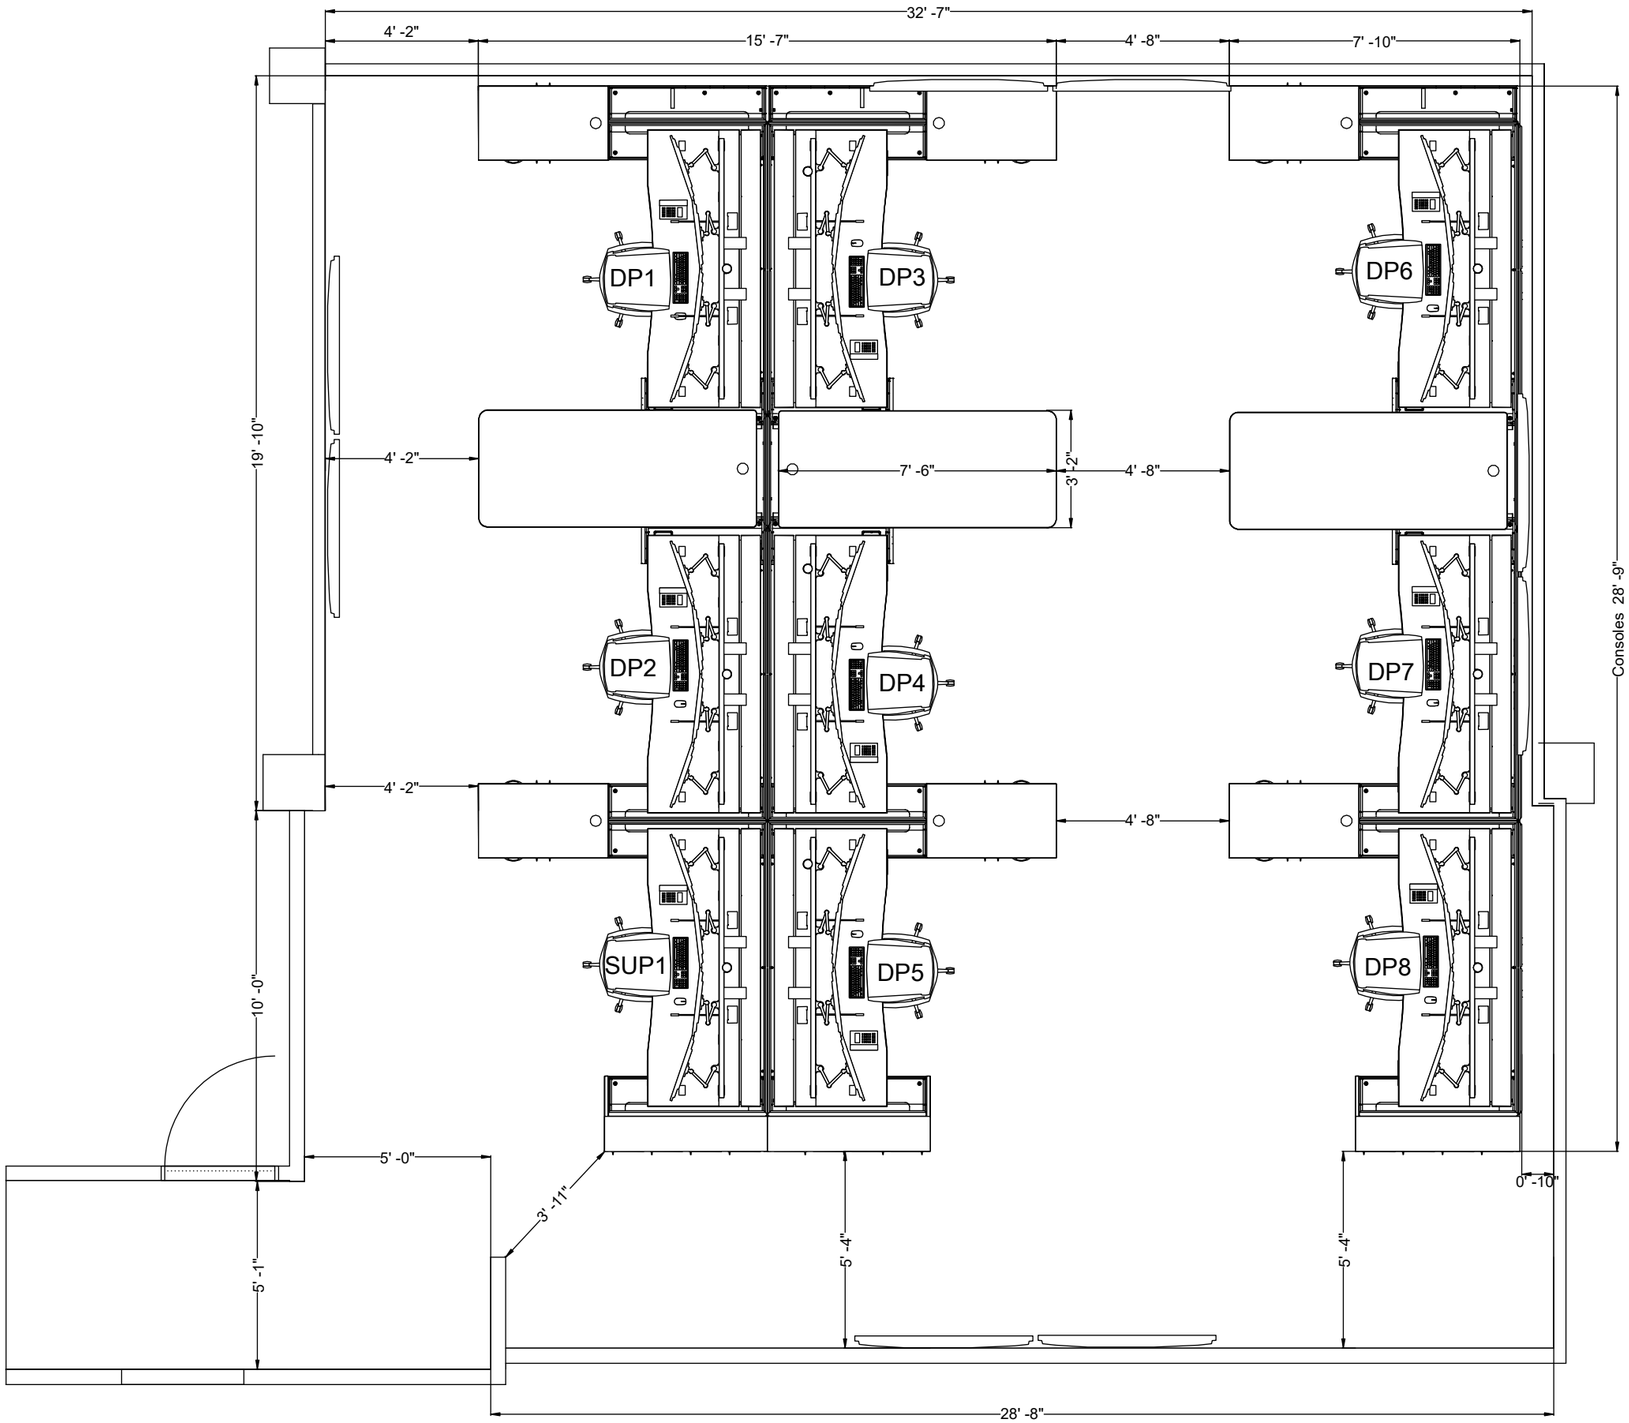
Freight Claim

We'll file the freight claim on your behalf. But to do that – we'll need your help.

FREIGHT DAMAGE: It is the customers responsibility to examine products upon receipt, note the damage or shortage on the bill of lading, and to notify Watson within 24 hours of delivery. Failure to provide notice within 24 hours constitutes acceptance of the product.

CONCEALED DAMAGE: Claims must be made by the customer in writing and with photographs within five (5) business days after delivery. Failure by the customer to make any concealed damage claim within five (5) business days constitutes acceptance of the product and a waiver of any apparent damages.

Storage



We understand that projects sometimes face unforeseen delays. If the request to move an order out is received more than 25 business days prior to the acknowledged ship date, we can likely accommodate that request without additional cost. If the request to move an order out is received less than 25 business days prior to the acknowledged ship date, customers may opt to contract storage with Watson for up to 30 days post-ship date. Watson charges a storage fee of $1 per day per $1,000 of the total order invoice. The minimum storage fee is $250. When storage occurs, we will consider that the product has been delivered to the customer for all purposes, and invoicing will occur. Costs for storage will be subsequently invoiced to the customer.

Force Majeure

Watson shall not be liable for any loss, damage, or delay resulting from forces beyond its reasonable control including fire, flood, strike or other labor difficulty, act of God, or due to any cause beyond its reasonable control. In the event of any such delay, delivery will be postponed by such length of time as may be reasonably necessary to accommodate for the delay.

Governing and Binding Terms

Watson's Terms and Conditions supersede provisions in a customer Agreement only to the extent that these terms are not covered by the customer Agreement.
