CITY OF ONTARIO

Regular City Council/Housing Authority Meeting
JUNE 4, 2024

City Hall
303 East B Street, Ontario, CA 91764

MAYOR PAUL S. LEON • MAYOR PRO TEM DEBRA DORST-PORADA
COUNCIL MEMBERS ALAN D. WAPNER, JIM W. BOWMAN AND RUBEN VALENCIA

CITY CLERK SHEILA MAUTZ • TREASURER JAMES R. MILHISER
CITY MANAGER SCOTT OCHOA • CITY ATTORNEY RUBEN DURAN

WELCOME TO A MEETING OF THE ONTARIO CITY COUNCIL

All documents for public review are on file with the Records Management/City Clerk's Department located at 303 East B Street, Ontario, CA 91764.

Anyone wishing to speak in person during public comment or on a particular item will be required to fill out a blue slip. Blue slips must be turned in prior to public comment beginning or before an agenda item is taken up. The Clerk will not accept blue slips after that time. To comment by email, submit your comments no later than 4:00 p.m. on the day of the meeting by emailing your name, agenda item you are commenting on and your comments to publiccomments@ontarioca.gov. All comments received by the deadline will be forwarded to the City Council for consideration before action is taken on the matter and will be entered into the record.

Comments will be limited to 3 minutes. Speakers will be alerted when they have 1 minute remaining and when their time is up. Speakers are then to return to their seats and no further comments will be permitted.

In accordance with State Law, remarks during public comment are to be limited to subjects within Council's jurisdiction. Remarks on other agenda items will be limited to those items.

Remarks from those seated or standing in the back of the chamber will not permitted. All those wishing to speak including Council and Staff need to be recognized by the Chair before speaking.

ACCOMODATIONS

If you need special assistance or accommodations to participate in this meeting, please contact the City Clerk's office at 909-395-2009. Notification of 48 hours prior to the meeting will help the City make reasonable arrangements. Equipment for the hearing impaired is available in the Records Management Office.

ORDER OF BUSINESS

The regular City Council and Housing Authority meeting begins with Closed Session and Closed Session Comment at 6:00 p.m., Public Comment at 6:30 p.m. immediately followed by the Regular Meeting and Public Hearings. No agenda item will be introduced for consideration after 10:00 p.m. except by majority vote of the City Council.

CALL TO ORDER *(OPEN SESSION)*

ROLL CALL

Porada, Wapner, Bowman, Valencia, Mayor/Chairman Leon

CLOSED SESSION PUBLIC COMMENT

The Closed Session Public Comment portion of the Council/Housing Authority meeting is limited to a maximum of 3 minutes for each speaker and comments will be limited to matters appearing on the Closed Session. Additional opportunities for further Public Comment will be given during and at the end of the meeting.

Pastor Victor Enoch Zesati, Victory Outreach Ontario Bilingual

REPORT ON CLOSED SESSION

City Attorney

SPECIAL CEREMONIES

TWENTY-FOURTH ANNUAL MODEL COLONY AWARDS

That the City Council present the 2024 "Model Colony" Awards for Historic Preservation.

PUBLIC COMMENTS 6:30 P.M.

The Public Comment portion of the Council/Housing Authority meeting is limited to 30 minutes with each speaker given a maximum of 3 minutes. An opportunity for further Public Comment may be given at the end of the meeting. Under provisions of the Brown Act, Council is prohibited from taking action on oral requests.

To comment by email, submit your comments by email no later than 4:00 p.m. on the day of the meeting by emailing your name, agenda item you are commenting on and your comment to publiccomments@ontarioca.gov. All Comments received by the deadline will be forwarded to the City Council for consideration before action is taken on the matter and entered into the record. As previously noted -- if you wish to address the Council, fill out one of the blue slips at the rear of the chambers and give it to the City Clerk.

AGENDA REVIEW/ANNOUNCEMENTS

The City Manager will go over all updated materials and correspondence received after the Agenda was distributed to ensure Council Members have received them. He will also make any necessary recommendations regarding Agenda modifications or announcements regarding Agenda items to be considered.

INFORMATION RELATIVE TO POSSIBLE CONFLICT OF INTEREST

Agenda item contractors, subcontractors and agents may require member abstentions due to conflict of interests and financial interests. Council Member abstentions shall be stated under this item for recordation on the appropriate item.

CONSENT CALENDAR

All matters listed under CONSENT CALENDAR will be enacted by one motion in the form listed below – there will be no separate discussion on these items prior to the time Council votes on them, unless a member of the Council requests a specific item be removed from the Consent Calendar for a separate vote.

Each member of the public wishing to address the City Council on items listed on the Consent Calendar will be given a total of 2 minutes.

---

SUBJECT: TWENTY-FOURTH ANNUAL MODEL COLONY AWARDS

RECOMMENDATION: That the City Council present the 2024 "Model Colony" Awards for Historic Preservation.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Encourage, Provide or Support Enhanced Recreational, Educational, Cultural and Healthy City Programs, Policies and Activities

FISCAL IMPACT: There is not a direct fiscal impact associated with this action.

BACKGROUND & ANALYSIS: The Planning Commission, acting as the Historic Preservation Commission, developed the "Model Colony" Awards program to recognize outstanding achievement in the preservation of Ontario's historic resources.

The "Model Colony" Awards are presented by the City Council each spring to coincide with National Historic Preservation Month. On May 7, 2024, the City Council proclaimed the month of May 2024 as "Historic Preservation Month" in the City of Ontario. Four awards will be presented in the categories of preservation. On April 23, 2024, the Planning/Historic Preservation Commission considered each category and chose the following recipients:

Award of Merit: For achievement in the ongoing preservation of a historic resource.

Recipient: **Philip Weeks House, John and Maria Dye**

Award of Merit: For achievement in the ongoing preservation of a historic resource.

Recipient: **Albert S. Leo House, Andrew Moore**

Award of Merit: For achievement in the ongoing preservation of a historic resource.

Recipient: **Masonic Hall, Phoebe Xu**

Award of Merit: For achievement in the ongoing preservation of a historic resource.

Recipient: **United States Post Office, Postmaster Maricela Pocasangre**

SUBJECT: A PROFESSIONAL SERVICES AGREEMENT WITH RAY KLEIN, INC. DBA PROFESSIONAL CREDIT SERVICE FOR COLLECTION AGENCY SERVICES

RECOMMENDATION: That the City Council authorize the City Manager or designee to execute a Professional Services Agreement with Ray Klein Inc., dba Professional Credit Service of Vancouver, Washington, to perform collection agency services for delinquent accounts for a period of three years, with two optional one-year extensions to continue providing collection agency services for various City Agencies.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner

FISCAL IMPACT: There is no direct fiscal impact for this Agreement. Pursuant to Ontario's Municipal Code Section 1-2.06, "Fees, charges, and taxes made a civil debt," any fees or interest charged by the collection agency will be added to the debt and become part of the total due. The collection rates negotiated with Professional Credit Service are regular/first placement 18%, second placement 18%, and legal services 30%. Pursuant to the Agreement with Professional Credit Service, the collection rate will be added to the original amount that was referred from the City. Professional Credit Service will pay the City on a monthly basis.

BACKGROUND & ANALYSIS: The Financial Services Agency wishes to procure a citywide collection agency for all departments to utilize. The goal of this procurement is to centralize the majority of citywide collection functions under one contract with the intent of maximizing recovered revenues from delinquent debtors, bringing efficiencies of scale to the collections process, and enhancing the reporting and oversight capabilities of City Staff administering the citywide collections program.

Staff prepared and issued a Request for Proposal (RFP) on February 26, 2024. The RFP was posted on PlanetBids and the following three firms responded back with their proposals:

Vendor
- Ray Klein Inc., dba Professional Credit Service
- RSI Enterprises
- Sierra Outsource Solutions (SOS)

The selection committee for the procurement consisted of City Staff from the Police, Fire, Municipal Utilities, Community Development, and Financial Services Agencies. The selection committee reviewed and analyzed all three proposals based on experience, background, qualifications, references, and proposed collection fee rates.

After the review process, the selection committee reviewed and discussed each firm's capabilities based upon relevant factors, such as experience, technical competence, conflict of interest, background, qualifications, references, and proposed collection fee rates. Following a detailed review and discussion of the relative strengths and weaknesses of all firms, all ratings were tabulated, and Professional Credit Service best meets the overall needs of the City.

Professional Credit Service has 90 years of experience in debt collections for government entities and currently provides collection services for several state, county, municipal, healthcare, and business clients. Some of their municipal clients include the City of Anaheim, the City of Burbank, the City of Glendale, the City of Corona, and the City of Chino Hills.

Professional Credit Service offers technological advantages by providing convenient access and full transparency to collection activities and account management through its secure client-facing online portal. Clients can access recordings or transcripts of any consumer calls, create reports, and manage accounts. Professional Credit Service provides real-time translation between collectors and consumers through Certified Languages International which allows them to communicate with consumers in 200+ languages, including Spanish, Chinese Mandarin, Japanese, and Vietnamese. The firm adheres to the Fair Debt Collection Practices Act and is TCPA (Telephone Consumer Protection Act) compliant.

CITY OF ONTARIO
PROFESSIONAL SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of 4th of June, 2024, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and Ray Klein Inc., dba Professional Credit Service, a Corporation incorporated in Washington State, with its principal place of business at 12204 SE Mill Plain Blvd., Vancouver, WA 98684 ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing Collection Agency services to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the **Collection Agency Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional Collection Agency consulting services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027**, unless earlier terminated as provided herein. The City shall have the unilateral option, at its sole discretion of the Executive Director of Finance and requires Director's written approval, to

renew this Agreement for no more than two (2) additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. **The total compensation shall not exceed the following contingency fees; Regular 18%, Second Placements 18% and Legal Services 30%** without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to social security taxes, income tax withholding,

unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: Carl Christensen – Chief Operating Officer, Lisa Kirk – VP Sales, and Rob Nestell – Client Relationship Executive.

3.3.5 City's Representative. The City hereby designates Francisco Olivares, Business License Supervisor, or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates Rob Nestell, Client Relationship Executive, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants

shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq*.); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and

regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $2,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. “Covered Professional Services” as designated in the policy must specifically include work performed under this Agreement. The policy must “pay on behalf of” the insured and include a provision establishing the insurer’s duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications

to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled

and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services

available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its

employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: **Ray Klein Inc., dba Professional Credit Service**
12204 SE Mill Plain Blvd.
Vancouver, WA 98684
ATTN: David White, Chief Executive Officer

City: **City of Ontario**
303 East "B" Street
Ontario, CA 91764
ATTN: Francisco Olivares, Business License Supervisor

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation

to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or

the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the

successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not workdays. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and

authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

EXHIBIT "A"
SCOPE OF SERVICES

Term of Service and Agreement

The term of service in this agreement is for a period of three (3) years, beginning on July 1, 2024 and ending on June 30, 2027. In addition, the City will have the option of renewing the agreement two (2) times— once in 2027 for the period of July 1, 2027 to June 30, 2028 and once in 2028 for the period of July 1, 2028 to June 30, 2029— with each renewal for a period of one (1) year. Exercise of the renewal option is at the sole discretion of the Executive Director of Finance and requires the Director's written approval. Upon renewal, the Contract is subject to City of Ontario's new or additional terms and conditions.

Collection Agency's Responsibilities

The City of Ontario intends to obtain the services of a full-service collection agency ("Agency") to provide revenue collection service for unpaid and delinquent accounts. The City processes and sends notices/invoices to customers. All invoices are due within 30 days. The City sends past due notices after 30 days have passed. If payments are not received by the City within 60 days, then the account is considered delinquent and may be forwarded to the Agency for follow up. The City reserves the right to determine which, if any, accounts that the City refers to the Agency. The City will provide copies of available documentation, as needed by the Agency, to respond to debtor's requests. The City will make every effort to provide all pertinent information to the Agency through the account referral data in a format approved by the City.

Therefore, the Agency's scope of services may include, but may not be necessarily limited to, the tasks listed below. If the Agency believes that additional tasks are warranted, the Agency must identify those tasks and services in its Proposal.

A. The Agency shall collect on all miscellaneous delinquent accounts submitted for collections where customers have not paid for services or charges owed to the City (e.g., re-inspection fees, DUI billing, Property Damage recovery, etc.).

B. The Agency shall designate a manager for the City's account who will be the City's primary contact with the Agency.

C. The Agency shall not have full rights to the accounts and shall only be able to pursue collections on the City's behalf.

D. The Agency shall allow for time payment agreements. The City shall set parameters in which Agency may accept a payment agreement without permission of the City.

E. The Agency shall not place delinquent accounts with any attorney for collection without the express written consent of the City.

F. The Agency shall not have authority to accept a compromise settlement on any account without written consent of the City.

G. The Agency shall conduct skip tracing on delinquent accounts and shall provide specific tools used to conduct skip tracing.

H. The Agency shall make contacts with delinquent accounts under the Agency's name.

I. The Agency shall submit at a minimum, the following required reports and any other report(s) as deemed necessary by the City. The reports shall be formatted, tracked, and totaled with the fiscal year dates of July 1st through June 30th:

- Monthly Cash Receipt Report due the 10th of the following month. This report must consist of a listing of all payments by debtor name, designated city account reference number, payment amount and type of payments.

- Monthly New Accounts Acknowledgment Report due the 10th of the month following the input of accounts into the Agency's system. Reports must list the debtor, the City account reference number, amount and total number and dollar value of accounts referred, per category identified by the City.

- Quarterly Performance Analysis Report due 10 days after quarter-end (i.e. the 10th of October, January, April, and July). This report must consist of the monthly liquidation rate of all accounts (by revenue categories as defined by the City), including monthly collection total, collections to date, account referral to date, fees earned by the Agency, and gross funds returned to the City. This report must include the quarterly recovery rate per referral and accumulative totals of recovery on a quarterly and ongoing basis.

- Monthly Credit Balance Report due the 10th of the following month. This report must include the debtor's name, the City account reference number and the balance as listed in the Agency's database. This report will be used by City staff to assist the Agency in resolving and identifying balance discrepancies. If the Agency has identified that no credit discrepancies exist, the Agency shall provide a statement acknowledging this status.

J. The Agency shall, upon written consent of the City, report all uncollected accounts to the major credit bureaus unless a type is excluded from reporting. The Agency's reporting must be in accordance with all applicable Federal and California laws including, but not limited to, the Fair Debt Collections Practices Act, Federal Equal Credit Opportunity Act, Regulations, and the Consumer Credit Protection Act, as now in effect or later amended. At the City's request, the Agency shall remove an account notification from all affected bureaus in the event that the City determines that an error has been made. The Agency must provide a copy of the removal notification to the City.

K. The Agency shall accept automated or manual transfers of delinquent payment information from the City. The Agency shall work at no additional cost, with the City and its software to ensure accurate and timely transmission of data.

L. The Agency shall remit to the City— by Direct Deposit / Electronic Funds Transfer to the City's designated account— the full amount of the payment or payments that the Agency collected from each debtor during the prior calendar month ("collected funds"). The Agency shall remit the collected funds to the City within ten (10) calendar days of the end of the month. Concurrent with the monthly collected funds deposit, the Agency shall submit to the City a written invoice that sets forth the Agency's (a) fee for the collected funds and (b) basis for the fee's calculation. Unless the City and the Agency agree in writing to a shorter time period for payment of the Agency's fee, the City shall pay the Agency the fee, as compensation for the Agency's collection services, within thirty (30) calendar days after the City receives the collected funds and approves the accompanying fee invoice.

M. If the Agency fails to submit one or more required reports when due, or fails to deposit the full amount of the collected funds when due and owing, or fails to do both, the Agency shall pay the City the following amount, as a late fee, in addition to the monthly collected funds that the Agency owes the City:

OCCURRENCE (Each instance in which the Agency is late within the Contract's one (1) year Term)	LATE FEE AMOUNT (Equal to a percent of the total amount of collected funds that The Agency owes on the 10th of the month)
First:	5%
Second:	10%
Third:	15%
Fourth and each occurrence after fourth:	25%

N. The Agency shall guarantee the confidentiality, security, and safety of all files, documents, computer files, etc. The Agency shall enter into a confidentiality agreement with the City.

O. The Agency shall comply with the Health Insurance Portability and Accountability Act (HIPAA) to ensure the confidentiality, security, and safety of all files, documents, computer files, etc. The Agency shall enter into the HIPAA Business Associate Agreement with the City upon award of a contract.

P. The Agency shall maintain accurate records of all correspondence, documents, accounting records, transactions, and other relative evidence, which the Agency shall make available to the City for review upon the City's request. The Agency shall retain these records on file for a period of at least seven (7) years after completing or terminating collection action on each account.

Q. The Agency shall allow the City to make periodic audits of the Agency's documents, files, and records to ensure that all amounts collected on the City's behalf are accurately reported and remitted.

R. The Agency shall allow the City's representatives' access to debtor accounting information through an on-line terminal or the internet, such that the City may view, send, or receive messages, generate recovery analysis reports, or audit debtor files at any time.

The selected vendor will conduct its collection activities in accordance with all local, state, and federal laws and regulations applicable to the operation of collection agencies, including but not limited to the Federal Fair Debt Collection Act and the State of California Fair Debt Collection Practices Act.

EXHIBIT "B"
SCHEDULE OF SERVICES

The Agency shall submit at a minimum, the following required reports and any other report(s) as deemed necessary by the City. The reports shall be formatted, tracked, and totaled with the fiscal year dates of July 1st through June 30th:

- Monthly Cash Receipt Report due the 10th of the following month. This report must consist of a listing of all payments by debtor name, designated city account reference number, payment amount and type of payments.

- Monthly New Accounts Acknowledgment Report due the 10th of the month following the input of accounts into the Agency's system. Reports must list the debtor, the City account reference number, amount and total number and dollar value of accounts referred, per category identified by the City.

- Quarterly Performance Analysis Report due 10 days after quarter-end (i.e. the 10th of October, January, April, and July). This report must consist of the monthly liquidation rate of all accounts (by revenue categories as defined by the City), including monthly collection total, collections to date, account referral to date, fees earned by the Agency, and gross funds returned to the City. This report must include the quarterly recovery rate per referral and accumulative totals of recovery on a quarterly and ongoing basis.

- Monthly Credit Balance Report due the 10th of the following month. This report must include the debtor's name, the City account reference number and the balance as listed in the Agency's database. This report will be used by City staff to assist the Agency in resolving and identifying balance discrepancies. If the Agency has identified that no credit discrepancies exist, the Agency shall provide a statement acknowledging this status.

EXHIBIT "C"
COMPENSATION

Professional Credit

8. Fee Proposal

Please provide a lump-sum, not-to-exceed fee proposal for the scope of Services. The fee proposal shall include hourly rates for all personnel for "Additional Work" (as such term is defined in the sample Agreement.

Service Area	Contingency Fee(%)
Primary	18%
Secondary	18%
Legal	30%

Transparent Commission Rates and Value Proposition

At Professional Credit, we prioritize transparency and sustainable value over superficially low commission rates. We acknowledge that the City may receive offers from various collection agencies quoting exceptionally low commission rates to secure initial business. However, we firmly believe that quality service and robust support are paramount for successful collections.

Upon placement of accounts, Professional Credit Service will add an 18% collection fee to the principal balance. For example, if a $100.00 balance is placed with Professional Credit Service, after the collection fee is added the total amount owed by the consumer will be $118.00.

If the account is a secondary placement an 18% fee will be added. In the same $100.00 example as described above, the collection fee would be $18.00 and Professional Credit Service would collect $118.00 from the consumer.

If the account needs to be collected with legal methods, the fee will be 30% (in the $100.00 example, the collection with legal fee would be $30.00, making the total that Professional Credit Service would pursue with legal methods, $130.00).

The payments that Professional Credit Service receive will be amortized equally based on the commission rate. Example of a $25.00 payment including the 18% collection fee (Ontario will receive $21.19 and Professional Credit Service $3.81), $50.00 payment including the 18% collection fee (Ontario will receive $42.37 and Professional Credit Service $7.63).

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Police Department Prepared By: Nicole Alvarez Staff Member Presenting: Mike Lorenz, Chief of Police Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 3

SUBJECT: **AN AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH AXON ENTERPRISE, INC. FOR THE ACQUISITION OF POLICE DEPARTMENT FRONTLINE PATROL EQUIPMENT**

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute an Amendment to the Professional Services and Equipment Purchase Agreement with Axon Enterprise, Inc., of Scottsdale, Arizona, for the purchase of additional Fleet 3 advanced cameras for additional patrol units for a new total not-to-exceed contract amount of $9,780,670.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety
Operate in a Businesslike Manner

FISCAL IMPACT: The Amendment to the Professional Services and Equipment Purchase Agreement increases the existing five-year term agreement of $9,254,760 by $525,910, for a new not-to-exceed contract amount of $9,780,670. If approved, additional General Fund appropriations will be included in a future budget report to City Council for approval as needed. Additionally, appropriations will be added to Information Technology's fund for future years' budgets consistent with the annual adoption process.

BACKGROUND & ANALYSIS: The Police Department currently has an agreement with Axon Enterprise, Inc. (formerly known as TASER International, Inc.) for body-worn cameras, maintenance and data management services for Police field and Airport personnel which expires June 30, 2029. On December 20, 2022 Axon combined three current contracts to streamline into one to support multiple products across the Axon ecosystem. Upon execution of an updated contract referred to as the Officer Safety Plan 7 Plus (OSP), Axon will grant a refund to prorate the final years of the existing contract. The OSP is structured to support Body Worn Camera, Fleet 3 Advanced (vehicle cameras), Air (drone) Program, Interview Room, and Fusus programs. With emerging technology and systems, it is necessary to upgrade and provide frontline personnel with up-to-date equipment. All equipment will utilize Axon's Evidence.com data storage and management feature which protects the integrity of video and data files captured using tasers, body-worn cameras, and interview rooms to provide security, tracking and redaction assistance of file viewing, and integrates with a proposed County-wide initiative under the San Bernardino County District Attorney's Office.

AMENDMENT NO. 5 TO THE PROFESSIONAL SERVICES AGREEMENT AND EQUIPMENT PURCHASE BETWEEN THE CITY OF ONTARIO AND AXON ENTERPRICE, INC

1. Parties and Date.

This Amendment No. 5 to the Agreement (as defined herein) is made and entered into as of this day of June 2024 by and between the City of Ontario ("City") and Axon Enterprise, a Delaware Corporation ("Consultant") City and Consultant are sometimes individually referred to as "Party" and collectively as "Parties."

2. Recitals.

2.1 Agreement. The City and Consultant have entered into an agreement entitled "Professional Services and Equipment Purchase Agreement" dated April 3,2019 ("Agreement").

2.2 Amendment Purpose. The City and Consultant desire amend the Agreement to additional a additional compensation for more licenses for body worn cameras.

2.3 Amendment Authority. This Amendment No.5 is authorized pursuant to Section 3.1 of the Agreement.

3. Terms.

3.1 Amendment. Section 3. 3. 1 of the Agreement is hereby amended in its entirety to read as follows:

Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit A. the total compensation shall not exceed nine million, Seven hundred and eighty thousand, six hundred and seventy dollars ($9,780,670) without written approval of City' s City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement, "

3.2 Continuing Effect of Agreement. Except as amended by this Amendment No. 5, all other provisions of the Agreement remain in full force and effect and shall govern the actions of the parties under this Amendment No. 5. From and after the date of this Amendment No. 5, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this Amendment No 5.

3.3 Adequate Consideration. The Parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment No. 5.

3.4 Severability. If any portion of this Amendment No. 5 is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.5 Integration. This Amendment represents the entirety of the Parties' understanding relating to the subject of this Amendment, including written or verbal communications between the Parties, which shall have no relevance unless expressly incorporated herein. This is an integrated amendment.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Daniel P Beers Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Andrea Ampig Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 4

SUBJECT: **AUTHORIZE CHANGE ORDER NO. 3 TO THE CONSTRUCTION CONTRACT WITH MCCARTHY BUILDING COMPANIES, INC. FOR DESIGN-BUILD CONSTRUCTION SERVICES FOR THE CITY HALL PARKING STRUCTURE PROJECT**

RECOMMENDATION: That the City Council take the following actions:

A. Authorize the City Manager or his designee to execute Change Order No. 3 to the Construction Contract with McCarthy Building Companies, Inc., of Newport Beach, California, for design-build construction services for the City Hall Parking Structure Project in the amount of $878,788 for a total not-to-exceed contract amount of $30,857,931; and
B. Authorize the City Manager or his designee to execute all documents required for the completion of the project including, but not limited to agreements, assessments, easements, lot line adjustments, reduction of retention accounts, contracts and contract amendments within the authorization limits, and filing a notice of completion at the conclusion of all construction related activities.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the Growth and Evolution of the City's Economy

FISCAL IMPACT: The original contract amount with McCarthy Building Companies, Inc. for design-build construction services for the City Hall Parking Structure was $27,279,143 plus a contingency of $2,700,000 for a total contract amount of $29,979,143. Previously, Change Order No. 1 and No. 2 were approved for a total of $2,344,925, leaving a remaining contingency amount of $355,075. The proposed Change Order No. 3 is in the amount of $1,233,863. Staff is requesting an additional $878,788 to cover the cost of Change Order No. 3 for a total not-to-exceed contract amount of $30,857,931. The Fiscal Year 2023-24 Adopted Budget includes appropriations in the Capital Projects fund for this project.

BACKGROUND & ANALYSIS: On April 4, 2023, the City Council authorized a Construction Contract with McCarthy Building Companies, Inc. to provide design-build construction services for the City Hall Parking Structure in the amount of $27,279,143 plus a contingency of $2,700,000 for a total

contract amount of $29,979,143. Change Orders No. 1 and 2 were approved for work related to the storm drain and water line relocation for the City Hall Parking Structure. Additional funding is now being requested to continue work for Change Order No. 3 for the relocation and removal of a storm drain, water line, and a Southern California Edison (SCE) line.

The relocation of the underground utilities was originally planned to be a separate project. However, Staff realized it is much more efficient and less impactful to the community to include this work as a change order to the Parking Structure Project as they must be completed prior to construction of the parking structure. The City Hall Parking Structure is scheduled to become operational by summer of 2025.

CHANGE ORDER

Project: D&C22-012

Change Order Number: 3

Contract Date: April 4, 2023

Change Order Date: _____

To: McCarthy Building Companies, Inc.
Attn: Greg Ciuba
20401 SW Birch Street
Newport Beach, CA 92660

THIS CHANGE ORDER FORM SHALL BE USED FOR ALL CHANGE ORDERS ASSOCIATED WITH THE WORK. NO ADDITIONS OR DELETIONS TO THIS FORM SHALL BE ALLOWED, EXCEPT WITH PERMISSION OF THE CITY OF ONTARIO.

The Contract is changed as follows:

- Per CPR #08 – Design and relocate the water line that currently goes down C Street to City Hall. It needs to be relocated to Cherry in order to construct the new City Hall Parking Structure - NTE increase $16,391.
- Per CPR #05R1 – Remove old storm drain that has been abandoned – NTE increase $106,015.
- Per CPR #04R3 – Relocation of University of La Verne's SCE line – NTE increase of $1,048,631.
- Per CPR #07 – D St Storm Drain changes due to existing conditions that were encountered during construction – NTE increase $62,826.

Contractor agrees to furnish all labor, materials, equipment and services to perform the Work, modified as described herein, in accordance with the Contract Documents as revised by this Change Order.

NOT VALID UNTIL SIGNED BY OWNER

In consideration of the change(s) described above, the Contract Price is adjusted as follows:

The original Contract Price was	$ 27,279,143.00
Net change by previously authorized Change Orders	$ 2,344,925.00
The Contract Price prior to this Change Order was	$ 29,624,068.00
The Contract Price will be changed by this Change Order in the amount of	$ 1,233,863.00
The new Contract Price including this Change Order will be	$ 30,857,931.00

(BB&K 2020)
46700.00100\33457526.1

In consideration of the change(s) describe above, the Contract Time is adjusted as follows:

The Contract Time will be: increased ☐ decreased ☐ unchanged ☒ by	0	Days
The Contract Time prior to this Change Order was	786	Days
The new Contract Time including this Change Order will be	786	Days

Attachments: McCarthy CPR #03R6, 04R3, 05R1, 07 and all back up documentation

Contractor accepts the terms and conditions stated herein as full and final settlement of any and all claims arising from this Change Order. The adjustments to the Contract Price and Contract Time in this Change Order constitutes the entire compensation and/or adjustment thereto due to Contractor, including direct, indirect, consequential, and overhead (field and home office) costs, due to Contractor arising out of or related to the change in the Work covered by this Change Order. By signing this Change Order, Contractor agrees to accept the amount of the adjustment to the Contract Price, and the adjustment of the Contract Time, as payment in full for all costs, including direct, indirect, consequential, and overhead (field and home office) costs, related to the change in the Work covered by this Change Order.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Planning Prepared By: Alexis Vaughn Staff Member Presenting: Scott Murphy, Executive Director Community Development Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 5

SUBJECT: **A RESOLUTION APPROVING AN AMENDMENT TO THE CITY OF ONTARIO LOCAL GUIDELINES FOR IMPLEMENTING THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)**

RECOMMENDATION: That the City Council consider and adopt a Resolution approving the 2024 Amendment to the "City of Ontario Local Guidelines for Implementing the California Environmental Quality Act (CEQA)".

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the Growth and Evolution of the City's Economy
Operate in a Businesslike Manner
Pursue City's Goals and Objectives by Working with Other Governmental Agencies

FISCAL IMPACT: There is not a direct fiscal impact associated with this action.

BACKGROUND & ANALYSIS: The California Environmental Quality Act (CEQA) requires that environmental concerns be considered as a part of all public and private projects. To implement the provisions of CEQA, all public agencies are required to adopt objectives, criteria, and specific procedures consistent with CEQA and the State CEQA Guidelines for evaluating the potential environmental issues that may arise in relation to discretionary projects. Local procedures should be revised periodically to conform to any statutory changes in CEQA, any revisions made to the State Guidelines, to address environmental concerns that exist at the local level, and in response to court cases resulting in procedural changes.

The City of Ontario last updated its local guidelines in July 2019. Since that time, the California Legislature has passed bills requiring changes in local procedures for implementing CEQA. Best Best & Krieger prepared changes to the City of Ontario's Local Guidelines for Implementing CEQA, which are necessary for the City to comply with new laws and procedural requirements. The revised Local Guidelines are summarized in a memorandum dated March 11, 2024 (see Attachment A) and are appended to the attached Resolution.

Memorandum

TO: Project 5 City Client

FROM: Best Best & Krieger LLP

DATE: March 11, 2024

RE: Summary of Changes to Local CEQA Guidelines

In 2023, the California Legislature revised the California Environmental Quality Act ("CEQA") to exempt certain affordable housing projects, expand the circumstances in which Notices of Determination and Notices of Exemption must be filed with the State Clearinghouse, and provide public agencies with increased control over the preparation of the administrative record in litigation. We have revised the City's Local Guidelines for Implementing CEQA ("Local Guidelines") to account for these CEQA developments. This memorandum summarizes the substantive amendments to the City's Local Guidelines.

The Local Guidelines and this memorandum are designed to help the City comply with CEQA when considering a project subject to CEQA. We still recommend, however, that you consult with an attorney when you have specific questions on major, controversial, or unusual projects or activities.

The Local Guidelines, the related CEQA forms, and other important legal alerts may be accessed via the Best Best & Krieger CEQA client portal. For technical support, please contact Tammy Ingram at tammy.ingram@bbklaw.com.

REVISIONS TO LOCAL GUIDELINES

1. SECTIONS 3.04, 6.20, & 7.39 – NOTICES OF DETERMINATION & NOTICES OF EXEMPTION

Public Resources Code section 21152 has been amended to require a local agency to file a Notice of Determination ("NOD") with both the County Clerk and the State Clearinghouse in the Office of Planning and Research ("OPR") within five working days of the agency approving a project subject to CEQA. The Legislature further amended Section 21152 to provide that when a local agency files a Notice of Exemption ("NOE"), the agency should file the NOE with both the County Clerk and the State Clearinghouse.

We have revised Sections 3.04, 6.20, and 7.39 of the Local Guidelines to account for the expanded circumstances in which an agency must file an NOD or NOE with the State Clearinghouse.

2. SECTION 9.09 – EXEMPTION FOR A RESPONSIBLE AGENCY'S PROVISION OF FINANCIAL ASSISTANCE FOR THE DEVELOPMENT OF AFFORDABLE HOUSING

Public Resources Code section 21080.10(b) has been amended to exempt action taken by a local agency not acting as the lead agency to provide financial assistance or insurance for the

development and construction of residential housing for persons and families of low- or moderate-income, if the project at issue will be reviewed pursuant to CEQA by another public agency.

We have added Section 9.09 to the Local Guidelines to account for this exemption.

3. SECTION 9.10 – EXEMPTION FOR SPECIFIED AFFORDABLE HOUSING PROJECTS

The Legislature has added Section 21080.40 to the Public Resources Code, which includes a new statutory exemption under CEQA for affordable housing projects that meet the section's specified requirements. The section exempts from CEQA certain actions taken by lead agencies relating to 100 percent affordable housing projects (as defined), including (i) the issuance of an entitlement by a public agency for an affordable housing project, (ii) an action to lease, convey, or encumber land owned by a public agency for an affordable housing project, (iii) an action to facilitate the lease, conveyance, or encumbrance of land owned or to be purchased by a public agency for an affordable housing project; (iv) rezoning, specific plan amendments, or general plan amendments required specifically and exclusively to allow the construction of an affordable housing project, or (iv) an action to provide financial assistance in furtherance of implementing an affordable housing project.

We have added Section 9.10 to the Local Guidelines to account for this exemption.

4. SECTION 9.11 – EXEMPTION FOR HOUSING DEVELOPMENTS ON LAND OWNED BY INSTITUTIONS OF HIGHER EDUCATION AND RELIGIOUS INSTITUTIONS

The Legislature has added Section 65913.16 to the Government Code, which provides for the ministerial approval of a "housing development project" (meeting specified requirements) located on land owned on or before January 1, 2024 by an independent institution of higher education or a religious institution.

We have added Section 9.11 to the Local Guidelines to account for this exemption.

5. SECTION 10.03 – ADMINISTRATIVE RECORDS

Public Resources Code section 21167.6 has been amended to provide public agencies with increased control over preparation of the administrative record during litigation. In particular, a public agency may now deny a petitioner's request to prepare the administrative record, provided that it issues the denial within five business days of receiving the petitioner's request to prepare the administrative record.

Public Resources Code section 21167.6 has further been amended to clarify that an administrative record need not include (1) communications and emails of a logistical nature, such as meeting invitations or scheduling communications; or (2) documents subject to a privilege or exemption set forth in the California Public Records Act.

We have revised Section 10.03 of the Local Guidelines to be consistent with Public Resources Code section 21167.6, as amended.

Other Changes

Effective January 1, 2024, the Department of Fish and Wildlife has increased its fees. For a Negative Declaration or a Mitigated Negative Declaration, the new filing fee is $2,916.75; for an EIR, the new filing fee is $4,051.25; and for an environmental document prepared pursuant to a Certified Regulatory Program, the filing fee has been increased to $1,377.25.

Conclusion

As always, CEQA remains complicated and, at times, challenging to apply. The only constant in this area of law is how quickly the rules change. Should you have questions about any of the provisions discussed above, please contact a BB&K attorney for assistance.

BEST BEST & KRIEGER LLP

RESOLUTION NO._____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, AMENDING AND ADOPTING LOCAL GUIDELINES FOR IMPLEMENTING THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (PUBLIC RESOURCES CODE §§ 21000 ET SEQ.)

WHEREAS, the California Legislature has amended the California Environmental Quality Act ("CEQA") (Pub. Resources Code §§ 21000 et seq.) and the State CEQA Guidelines (Cal. Code Regs, tit. 14, §§ 15000 et seq.), and the California courts have interpreted specific provisions of CEQA; and

WHEREAS, Section 21082 of CEQA requires all public agencies to adopt objectives, criteria and procedures for the evaluation of public and private projects undertaken or approved by such public agencies, and the preparation, if required, of environmental impact reports and negative declarations in connection with that evaluation; and

WHEREAS, the City of Ontario has revised its local guidelines for implementing CEQA to make them consistent with the current provisions and interpretations of CEQA and the State CEQA Guidelines.

NOW, THEREFORE, IT IS HEREBY FOUND, DETERMINED, AND RESOLVED by the City Council of the City of Ontario, as follows:

SECTION 1. ***City Council Action.*** Based upon the findings and conclusions set forth above, the City Council hereby adopts the "City of Ontario Local Guidelines for Implementing the California Environmental Quality Act (2024 Revision)," attached hereto as "Exhibit A" and incorporated herein by this reference.

SECTION 2. ***Certification to Adoption.*** The Secretary shall certify to the adoption of the Resolution.

SECTION 3: ***Indemnification.*** The Applicant shall agree to defend, indemnify and hold harmless, the City of Ontario or its agents, officers, and employees from any claim, action or proceeding against the City of Ontario or its agents, officers or employees to attack, set aside, void, or annul this approval. The City of Ontario shall promptly notify the applicant of any such claim, action, or proceeding, and the City of Ontario shall cooperate fully in the defense.

SECTION 4: ***Custodian of Records.*** The documents and materials that constitute the record of proceedings on which these findings have been based are located at the City of Ontario City Hall, 303 East "B" Street, Ontario, California 91764. The custodian for these records is the City Clerk of the City of Ontario.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

LOCAL GUIDELINES
FOR IMPLEMENTING THE
CALIFORNIA ENVIRONMENTAL QUALITY ACT

(2024)

1. GENERAL PROVISIONS, PURPOSE AND POLICY.

1.01 GENERAL PROVISIONS.

These Local Guidelines ("Local Guidelines") are to assist the City of Ontario ("City") in implementing the provisions of the California Environmental Quality Act ("CEQA"). These Local Guidelines are consistent with the Guidelines for the Implementation of CEQA ("State CEQA Guidelines"), which have been promulgated by the California Natural Resources Agency for the guidance of state and local agencies in California. These Local Guidelines have been adopted pursuant to California Public Resources Code section 21082.

1.02 PURPOSE.

The purpose of these Local Guidelines is to help the City accomplish the following basic objectives of CEQA:

(a) To enhance and provide long-term protection for the environment, while providing a decent home and satisfying living environment for every Californian;
(b) To provide information to governmental decision-makers and the public regarding the potential significant environmental effects of the proposed project;
(c) To provide an analysis of the environmental effects of future actions associated with the project to adequately apprise all interested parties of the true scope of the project for intelligent weighing of the environmental consequences of the project;
(d) To identify ways that environmental damage can be avoided or significantly reduced;
(e) To prevent significant avoidable environmental damage through utilization of feasible project alternatives or mitigation measures; and
(f) To disclose and demonstrate to the public the reasons why a governmental agency approved the project in the manner chosen. Public participation is an essential part of the CEQA process. Each public agency should encourage wide public involvement, formal and informal, in order to receive and evaluate public reactions to environmental issues related to a public agency's activities. Such involvement should include, whenever possible, making environmental information available in electronic format on the Internet, on a web site maintained or utilized by the public agency.

1.03 APPLICABILITY.

These Local Guidelines apply to any activity that constitutes a "project," as defined in Local Guidelines Section 11.57, for which the City is the Lead Agency or a Responsible Agency. These Local Guidelines are also intended to assist the City in determining whether a proposed

activity constitutes a project that is subject to CEQA review, or whether the activity is exempt from CEQA.

1.04 REDUCING DELAY AND PAPERWORK.

The State CEQA Guidelines encourage local governmental agencies to reduce delay and paperwork by, among other things:

(a) Integrating the CEQA process into early planning review; to this end, the project approval process and these procedures, to the maximum extent feasible, are to run concurrently, not consecutively;
(b) Identifying projects which fit within categorical or other exemptions and are therefore exempt from CEQA processing;
(c) Using initial studies to identify significant environmental issues and to narrow the scope of Environmental Impact Reports (EIRs);
(d) Using a Negative Declaration when a project, not otherwise exempt, will not have a significant effect on the environment;
(e) Consulting with state and local responsible agencies before and during the preparation of an EIR so that the document will meet the needs of all the agencies which will use it;
(f) Allowing applicants to revise projects to eliminate possible significant effects on the environment, thereby enabling the project to qualify for a Negative Declaration rather than an EIR;
(g) Integrating CEQA requirements with other environmental review and consultation requirements;
(h) Emphasizing consultation before an EIR is prepared, rather than submitting adverse comments on a completed document;
(i) Combining environmental documents with other documents, such as general plans;
(j) Eliminating repetitive discussions of the same issues by using EIRs on programs, policies or plans and tiering from statements of broad scope to those of narrower scope;
(k) Reducing the length of EIRs by means such as setting appropriate page limits;
(l) Preparing analytic, rather than encyclopedic EIRs;
(m) Mentioning insignificant issues only briefly;
(n) Writing EIRs in plain language;
(o) Following a clear format for EIRs;
(p) Emphasizing the portions of the EIR that are useful to decision-makers and the public and reducing emphasis on background material;
(q) Incorporating information by reference; and
(r) Making comments on EIRs as specific as possible.

1.05 COMPLIANCE WITH STATE LAW.

These Local Guidelines are intended to implement the provisions of CEQA and the State CEQA Guidelines, and the provisions of CEQA and the State CEQA Guidelines shall be fully complied with even though they may not be set forth or referred to herein.

1.06 TERMINOLOGY.

The terms "must" or "shall" identify mandatory requirements. The terms "may" and "should" are permissive, with the particular decision being left to the discretion of the City.

1.07 PARTIAL INVALIDITY.

In the event any part or provision of these Local Guidelines shall be determined to be invalid, the remaining portions that can be separated from the invalid unenforceable provisions shall continue in full force and effect.

1.08 ELECTRONIC DELIVERY OF COMMENTS AND NOTICES.

Individuals may file a written request to receive copies of public notices provided for under these Local Guidelines or the State CEQA Guidelines. The requestor may elect to receive these notices via email rather than regular mail. Notices sent by email are deemed delivered when the staff person sending the email sends it to the last email address provided by the requestor to the City. Any request to receive public notices shall be in writing and shall be renewed annually.

Individuals may also submit comments on the CEQA documentation for a project via email. Comments submitted via email shall be treated as written comments for all purposes. Comments sent to the City via email are deemed received when they actually arrive in an email account of a staff person who has been designated or identified as the point of contact for a particular project.

The City must also post certain environmental documents (such as Draft and Final Environmental Impact Reports, Draft Negative Declarations and Draft Mitigated Negative Declarations) and CEQA notices (such as Notices of Preparation, Notices of Availability, Notices of Intent to Adopt a Negative Declaration, Notices of Exemption, and Notices of Determination) on its website, if any.

(Reference: Pub. Resources Code, §§ 21082.1, 21091(d)(3), 21092.2.)

1.09 THE CITY MAY CHARGE REASONABLE FEES FOR REPRODUCING ENVIRONMENTAL DOCUMENTS.

A public agency may charge and collect a reasonable fee from members of the public that request a copy of an environmental document, so long as the fee does not exceed the cost of reproduction. The kinds of "environmental documents" that CEQA specifically allows public agencies to seek reimbursement for include: initial studies, negative declarations, mitigated negative declarations, draft and final EIRs, and documents prepared as a substitute for an EIR, negative declaration, or mitigated negative declaration.

The City shall make CEQA-related documents (e.g., Negative Declarations, Mitigated Negative Declarations, Draft EIRs, Final EIRs, and notices relating to these documents) available to the public-at-large on its website. Requests for documents made pursuant to the California Public Records Act must comply with the Government Code. (See, for example, Government Code section 7922.570 for information regarding providing documents in electronic format.)

1.10 TIME OF PREPARATION

Before granting any approval of a project subject to CEQA, the Lead Agency or Responsible Agency shall consider a Final EIR, Negative Declaration, Mitigated Negative Declaration, or another document authorized by the State CEQA Guidelines to be used in the place of an EIR or Negative Declaration.

Choosing the precise time for CEQA compliance involves a balancing of competing factors. EIRs, Negative Declarations, and Mitigated Negative Declarations should be prepared as early as feasible in the planning process to enable environmental considerations to influence project program and design and yet late enough to provide meaningful information for environmental assessment.

With public projects, at the earliest feasible time, project sponsors shall incorporate environmental considerations into project conceptualization, design, and planning. CEQA compliance should be completed prior to acquisition of a site for a public project.

To implement the above principles, the City shall not undertake actions concerning the proposed public project that would have a significant adverse effect or limit the choice of alternatives or mitigation measures, before completion of CEQA compliance. For example, the City shall not:

(A) Formally make a decision to proceed with the use of a site for facilities which would require CEQA review, regardless of whether the City has made any final purchase of the site for these facilities, except that the City may designate a preferred site for CEQA review and may enter into land acquisition agreements when the City has conditioned its future use of the site on CEQA compliance.

(B) Otherwise take any action that gives impetus to a planned or foreseeable project in a manner that forecloses alternatives or mitigation measures that would ordinarily be part of CEQA review of that public project.

With private projects, the City shall encourage the project proponent to incorporate environmental considerations into project conceptualization, design, and planning at the earliest feasible time.

While mere interest in, or inclination to support, a project does not constitute approval, a public agency entering into preliminary agreements regarding a project prior to approval shall not, as a practical matter, commit the agency to the project. For example, the City shall not grant any vested development entitlements prior to compliance with CEQA. Further, any such pre-approval agreement should, for example:

(A) Condition the agreement on compliance with CEQA;
(B) Not bind any party, or commit any party, to a definite course of action, prior to CEQA compliance;
(C) Not restrict the Lead Agency from considering any feasible mitigation measures and alternatives, including the “no project” alternative; and
(D) Not restrict the Lead Agency from denying the project.

The City's environmental document preparation and review should be coordinated in a timely fashion with the City's existing planning, review, and project approval processes. These procedures, to the maximum extent feasible, are to run concurrently, not consecutively.

(See State CEQA Guidelines, § 15004; *Save Tara v. City of West Hollywood* (2008) 45 Cal.4th 116.)

1.11 STATE AGENCY FURLOUGHS.

Due to budget concerns, the State may institute mandatory furlough days for state government agencies. Local agencies may also change their operating hours.

Because state and local agencies may enact furloughs that limit their operating hours, if the City has time-sensitive materials or needs to consult with a state agency, the City should check with the applicable state agency office or with the City's attorney to ensure compliance with all applicable deadlines.

1.12 ENVIRONMENTAL COMPLIANCE FOR CITY-INITIATED PROJECTS..

In an effort to provide consistent CEQA review and coordination of City-initiated projects, an Environmental Review Coordinator ("ERC") has been designated within the Planning Department to aid City departments on the ever-changing environmental statutes and to create a CEQA repository. This section 1.11 only applies to City-initiated projects.

To achieve the desired level of review, the project manager for each City-initiated project* will contact the ERC following project inception and provide the ERC with a written description of the project, including any preliminary plans, special studies completed, and other information that may be helpful evaluating the project. The ERC will review the information and determine if 1) existing CEQA documents are sufficient to address the potential impacts of the project; 2) if existing CEQA documents may be used to tier off to provide the necessary CEQA review; 3) if a new CEQA review is necessary for the project, or 4) an exemption from CEQA applies to the project. Additionally, the ERC will provide direction to the project manager on the level of CEQA review required for the project (e.g. Negative Declaration, Environmental Impact Report ("EIR"), etc.).

Once a memorandum on the scope/preliminary plans for a project has been submitted to the ERC, the ERC will work with the project manager to complete the CEQA review in-house to the extent possible. Should the need arise for studies or an EIR beyond staff's ability to complete, the ERC shall work with the project manager to 1) develop a Request for Proposal ("RFP") for the necessary services; 2) review the RFPs with the project manager and assist in the selection of a consultant; 3) prepare the consultant contract for the services; 4) provide coordination between the consultant and the project manager; 5) coordinate preparation of the CEQA document; 6) review and comment on the CEQA document; 7) review invoices/billing by the consultant; and 8) ensure compliance with established legal procedures, filings, etc.

Upon successful completion of the CEQA review, the ERC shall retain copies of pertinent CEQA information, including, but not limited to, CEQA documents and Notice of Determinations. The central CEQA repository will provide ease of access to previous CEQA documents that may be needed for future actions (e.g. grant applications, project modifications, new projects, etc.).

**As determined under CEQA*

(Section added October 2011)

2. LEAD AND RESPONSIBLE AGENCIES

2.01 LEAD AGENCY PRINCIPLE.

The City will be the Lead Agency if it will have principal responsibility for carrying out or approving a project. Where a project is to be carried out or approved by more than one public agency, only one agency shall be responsible for the preparation of environmental documents. This agency shall be called the Lead Agency.

(Reference: State CEQA Guidelines, §§ 15050, 15367.)

2.02 SELECTION OF LEAD AGENCY.

Where two or more public agencies will be involved with a project, the Lead Agency shall be designated according to the following criteria:

(a) If the project will be carried out by a public agency, that agency shall be the Lead Agency even if the project will be located within the jurisdiction of another public agency; or

(b) If the project will be carried out by a nongovernmental person or entity, the Lead Agency shall be the public agency with the greatest responsibility for supervising and approving the project as a whole.

The Lead Agency will normally be the agency with general governmental powers, rather than an agency with a single or limited purpose. (For example, a city that will provide a public service or utility to the project serves a limited purpose.) If two or more agencies meet this criteria equally, the agency that acts first on the project will normally be the Lead Agency.

If two or more public agencies have a substantial claim to be the Lead Agency under either (a) or (b), they may designate one agency as the Lead Agency by agreement. An agreement may also provide for cooperative efforts by contract, joint exercise of powers, or similar devices. If the agencies cannot agree which agency should be the Lead Agency for preparing the environmental document, any of the disputing public agencies or the project applicant may submit the dispute to the Office of Planning and Research. Within 21 days of receiving the request, the Office of Planning and Research will designate the Lead Agency. The Office of Planning and Research shall not designate a Lead Agency in the absence of a dispute. A "dispute" means a contested, active difference of opinion between two or more public agencies as to which of those agencies shall prepare any necessary environmental document. A dispute exists when each of those agencies claims that it either has or does not have the obligation to prepare that environmental document.

(Reference: State CEQA Guidelines, § 15051.)

2.03 DUTIES OF A LEAD AGENCY.

As a Lead Agency, the City shall decide whether a Negative Declaration, Mitigated Negative Declaration or an EIR will be required for a project and shall prepare, or cause to be prepared, and consider the document before making its decision on whether and how to approve

the project. The documents may be prepared by Staff or by private consultants pursuant to a contract with the City. However, the City shall independently review and analyze all draft and final EIRs or Negative Declarations prepared for a project and shall find that the EIR or Negative Declaration reflects the independent judgment of the City prior to approval of the document. If a Draft EIR or Final EIR is prepared under a contract with the City, the contract must be executed within forty-five (45) days from the date on which the City sends a Notice of Preparation. (See Local Guidelines Section 7.02.) The City, however, may take longer to execute the contract if the project applicant and the City mutually agree to an extension of the 45-day time period. (Pub. Resources Code, § 21151.5; see also Local Guidelines Section 7.02.)

During the process of preparing an EIR, the City, as Lead Agency, shall have the following duties:

(a) If a California Native American tribe has requested consultation, within 14 days after determining that an application for a project is complete or a decision to undertake a project, the City shall begin consultation with the California Native American tribes (see Local Guidelines Section 7.07);
(b) Immediately after deciding that an EIR is required for a project, the City shall send to the Office of Planning and Research and each Responsible Agency a Notice of Preparation (Form "G") stating that an EIR will be prepared (see Local Guidelines Section 7.03);
(c) Prior to release of an EIR, if the California Native American tribe that is culturally affiliated with the geographic area of a project requests in writing to be informed of any proposed project, the City shall begin consultation with the tribe consistent with California law and Local Guidelines Section 7.07;
(d) The City shall prepare or cause to be prepared the Draft EIR for the project (see Local Guidelines Sections 7.06 and 7.18);
(e) Once the Draft EIR is completed, the City shall file a Notice of Completion (Form "H") with the Office of Planning and Research (see Local Guidelines Section 7.25);
(f) The City shall consult with state, federal and local agencies that exercise authority over resources that may be affected by the project for their comments on the completed Draft EIR (see, e.g., Local Guidelines Sections 5.02, 5.16, Section 7.26);
(g) The City shall provide public notice of the availability of a Draft EIR (Form "K") at the same time that it sends a Notice of Completion to the Office of Planning and Research (see Local Guidelines Section 7.25);
(h) The City shall evaluate comments on environmental issues received from persons who reviewed the Draft EIR and shall prepare or cause to be prepared a written response to all comments that raise significant environmental issues and that were timely received during the public comment period. A written response must be provided to all public agencies who commented on the project during the public review period at least ten (10) days prior to certifying an EIR (see Local Guidelines Section 7.30);
(i) The City shall prepare or cause to be prepared a Final EIR before approving the project (see Local Guidelines Section 7.31);
(j) The City shall certify that the Final EIR has been completed in compliance with CEQA and has been reviewed by the City Council (see Local Guidelines Section 7.33); and
(k) The City shall include in the Final EIR any comments received from a Responsible Agency on the Notice of Preparation or the Draft EIR (see Local Guidelines Sections 2.08, 7.30 and 7.31).

2.04 CEQA DETERMINATIONS MADE BY NON-ELECTED BODY; PROCEDURE TO APPEAL SUCH DETERMINATIONS.

As Lead Agency, the City may charge a non-elected decisionmaking body with the responsibility of making a finding of exemption or adopting, certifying or authorizing environmental documents. Any such determination, however, shall be subject to the City's procedures allowing for the appeal of the CEQA determination of any non-elected body to the City. In the absence of a procedure governing such appeal, any CEQA determination made by a non-elected decisionmaker shall be appealable to the City Council within ten (10) days of the non-elected decisionmaker's determination. If the non-elected decisionmaker's CEQA determination is not timely appealed as set forth herein, the non-elected decisionmaker's determination shall be final.

In the event the City Council has delegated authority to a subsidiary board or official to approve a project, the City hereby delegates to that subsidiary board or official the authority to make all necessary CEQA determinations, including whether an EIR, Negative Declaration, Mitigated Negative Declaration or exemption shall be required for any project. A subsidiary board or official's CEQA determination shall be subject to appeal as set forth above.

(Reference: State CEQA Guidelines, §§ 15061(e), 15074(f), 15090(b).)

2.05 PROJECTS RELATING TO DEVELOPMENT OF HAZARDOUS WASTE AND OTHER SITES.

An applicant for a development project must submit a signed statement to the City, as Lead Agency, stating whether the project and any alternatives are located on a site that is included in any list compiled by the Secretary for Environmental Protection of the California Environmental Protection Agency ("California EPA") listing hazardous waste sites and other specified sites located in the City's boundaries. The applicant's statement must contain the following information:

(a) The applicant's name, address, and phone number;
(b) Address of site, and local agency (city/county);
(c) Assessor's book, page, and parcel number; and
(d) The list which includes the site, identification number, and date of list.

Before accepting as complete an application for any development project as defined in Local Guidelines Section 11.17, the City, as Lead Agency, shall consult lists compiled by the Secretary for Environmental Protection of the California EPA pursuant to Government Code section 65962.5 listing hazardous waste sites and other specified sites located in the City's boundaries. When acting as Lead Agency, the City shall notify an applicant for a development project if the project site is located on such a list and not already identified. In the Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration (see Local Guidelines Section 6.04) or the Notice of Preparation of Draft EIR (see Local Guidelines Section 7.03), the City shall specify the California EPA list, if any, that includes the project site, and shall provide the information contained in the applicant's statement.

(Reference: Gov. Code, § 65962.5.)

2.06 RESPONSIBLE AGENCY PRINCIPLE.

When a project is to be carried out or approved by more than one public agency, all public agencies other than the Lead Agency that have discretionary approval power over the project shall be identified as Responsible Agencies.

(Reference: State CEQA Guidelines, § 15381.)

2.07 DUTIES OF A RESPONSIBLE AGENCY.

When it is identified as a Responsible Agency, the City shall consider the environmental documents prepared or caused to be prepared by the Lead Agency and reach its own conclusions on whether and how to approve the project involved. The City shall also both respond to consultation and attend meetings as requested by the Lead Agency to assist the Lead Agency in preparing adequate environmental documents. The City should also review and comment on Draft EIRs, Negative Declarations, and Mitigated Negative Declarations. Comments shall be limited to those project activities that are within the City's area of expertise or are required to be carried out or approved by the City or are subject to the City's powers.

As a Responsible Agency, the City may identify significant environmental effects of a project for which mitigation is necessary. As a Responsible Agency, the City may submit to the Lead Agency proposed mitigation measures that would address those significant environmental effects. If mitigation measures are required, the City should submit to the Lead Agency complete and detailed performance objectives for such mitigation measures that would address the significant environmental effects identified, or refer the Lead Agency to appropriate, readily available guidelines or reference documents. Any mitigation measures submitted to the Lead Agency by the City, when acting as a Responsible Agency, shall be limited to measures that mitigate impacts to resources that are within the City's authority. For private projects, the City, as a Responsible Agency, may require the project proponent to provide such information as may be required and to reimburse the City for all costs incurred by it in reporting to the Lead Agency.

(Reference: State CEQA Guidelines, § 15096.)

2.08 RESPONSE TO NOTICE OF PREPARATION BY RESPONSIBLE AGENCIES.

Within thirty (30) days of receipt of a Notice of Preparation of an EIR, the City, as a Responsible Agency, shall specify to the Lead Agency the scope and content of the environmental information related to the City's area of statutory responsibility in connection with the proposed project. At a minimum, the response shall identify the significant environmental issues and possible alternatives and mitigation that the City, as a Responsible Agency, will need to have explored in the Draft EIR. Such information shall be specified in writing, shall be as specific as possible, and shall be communicated to the Lead Agency, by certified mail, email, or any other method of transmittal that provides it with a record that the response was received. The Lead Agency shall incorporate this information into the EIR.

(Reference: Pub. Resources Code, § 21080.4; State CEQA Guidelines, § 15103.)

2.09 USE OF FINAL EIR OR NEGATIVE DECLARATION BY RESPONSIBLE AGENCIES.

The City, as a Responsible Agency, shall consider the Lead Agency's Final EIR or Negative Declaration before acting upon or approving a proposed project. As a Responsible Agency, the City must independently review and consider the adequacy of the Lead Agency's environmental documents prior to approving any portion of the proposed project. In certain instances, the City, in its role as a Responsible Agency, may require that a Subsequent EIR or a Supplemental EIR be prepared to fully address those aspects of the project over which the City has approval authority. Mitigation measures and alternatives deemed feasible and relevant to the City's role in carrying out the project shall be adopted. Findings that are relevant to the City's role as a Responsible Agency shall be made. After the City decides to approve or carry out part of a project for which an EIR or negative declaration has previously been prepared by the Lead Agency, the City, as Responsible Agency, should file a Notice of Determination with the County Clerk within five (5) days of approval, but need not state that the Lead Agency's EIR or Negative Declaration complies with CEQA. The City, as Responsible Agency, should state that it considered the EIR or Negative Declaration as prepared by a Lead Agency.

(Reference: State CEQA Guidelines, § 15096.)

2.10 SHIFT IN LEAD AGENCY RESPONSIBILITIES.

The City, as a Responsible Agency, shall assume the role of the Lead Agency if any one of the following three conditions is met:

(a) The Lead Agency did not prepare any environmental documents for the project, and the statute of limitations has expired for a challenge to the action of the appropriate Lead Agency;

(b) The Lead Agency prepared environmental documents for the project, and all of the following conditions apply:

  (1) A Subsequent or Supplemental EIR is required;

  (2) The Lead Agency has granted a final approval for the project; and

  (3) The statute of limitations has expired for a challenge to the action of the appropriate Lead Agency; or

(c) The Lead Agency prepared inadequate environmental documents without providing public notice of a Negative Declaration or sending Notice of Preparation of an EIR to Responsible Agencies and the statute of limitations has expired for a challenge to the action of the appropriate Lead Agency.

(Reference: State CEQA Guidelines, § 15052.)

3. ACTIVITIES EXEMPT FROM CEQA

3.01 ACTIONS SUBJECT TO CEQA.

CEQA applies to discretionary projects proposed to be carried out or approved by public agencies such as the City. If the proposed activity does not come within the definition of "project" contained in Local Guidelines Section 11.57, it is not subject to environmental review under CEQA.

The term "project," as defined by CEQA, does not include:

(a) Proposals for legislation to be enacted by the State Legislature;
(b) Continuing administrative or maintenance activities, such as purchases for supplies, personnel-related actions, and general policy and procedure making (except as provided in Local Guidelines Section 11.57);
(c) The submittal of proposals to a vote of the people in response to a petition drive initiated by voters, or the enactment of a qualified voter-sponsored initiative under California Constitution Art. II, Section 11(a) and Election Code Section 9214;
(d) The creation of government funding mechanisms or other government fiscal activities that do not involve any commitment to any specific project that may have a potentially significant physical impact on the environment. Government funding mechanisms may include, but are not limited to, assessment districts and community facilities districts;
(e) Organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment; and
(f) Activities that do not result in a direct or reasonably foreseeable indirect physical change in the environment.

(Reference: State CEQA Guidelines, §§ 15060(c), 15378.)

3.02 MINISTERIAL ACTIONS.

Ministerial actions are not subject to CEQA review. A ministerial action is one that is approved or denied by a decision that a public official or a public agency makes that involves only the use of fixed standards or objective measurements without personal judgment or discretion.

When a project involves an approval that contains elements of both a ministerial and discretionary nature, the project will be deemed to be discretionary and subject to the requirements of CEQA. The decision whether the approval of a proposed project or activity is ministerial in nature may involve or require, to some extent, interpretation of the language of the legal mandate, and should be made on a case-by-case basis. The following is a non-exclusive list of examples of ministerial activities:

(a) Issuance of business licenses;
(b) Approval of final subdivision maps and final parcel maps;
(c) Approval of individual utility service connections and disconnections;
(d) Issuance of licenses;
(e) Issuance of a permit to do street work;

(f) Issuance of building permits where the Lead Agency does not retain significant discretionary power to modify or shape the project; and

(g) Until January 1, 2024, approval of an application to install an emergency standby generator to serve a macro cell tower where conditions set forth in Government Code section 65850.75 are met.

(Reference: State CEQA Guidelines, § 15268.)

3.03 EXEMPTIONS IN GENERAL.

CEQA and the State CEQA Guidelines exempt certain activities and provide that local agencies should further identify and describe certain exemptions. The requirements of CEQA and the obligation to prepare an EIR, Negative Declaration or Mitigated Negative Declaration generally do not apply to the exempt activities that are set forth in CEQA, the State CEQA Guidelines and Chapter 3 of these Local Guidelines.

(Reference: State CEQA Guidelines, §§ 15260 – 15332.)

3.04 NOTICE OF EXEMPTION.

After approval of an exempt project, a "Notice of Exemption" (Form "A") may be filed by the City or its representatives with the County Clerk of each county in which the activity will be located. The Notice of Exemption must be filed electronically with the County Clerk if that option is offered by the County Clerk. When the Lead Agency files a Notice of Exemption with the County Clerk, it must also file the Notice of Exemption with the State Clearinghouse in the Office of Planning and Research ("OPR"). After filing, the City must additionally post the Notice of Exemption on the City's website, if any. The City is generally not required to file a Notice of Exemption after approving a project that it finds exempt from CEQA, though there are circumstances where a Notice of Exemption must be filed. Please see Local Guidelines Section 3.12 for certain circumstances in which the Lead Agency is required to file a Notice of Exemption.

The filing of a Notice of Exemption, when appropriate, is recommended for City actions because it shortens the statute of limitations to challenge the City's exemption determination under CEQA from 180 days to 35 days. The County Clerk must post a Notice of Exemption within twenty-four (24) hours of receipt, and the Notice must remain posted for thirty (30) days. The 30 day posting requirement excludes the first day of posting and includes the last day of posting. On the 30th day, the Notice of Exemption must be posted for the entire day. Although no California Department of Fish and Wildlife ("DFW") filing fee is applicable to exempt projects, most counties customarily charge a documentary handling fee to pay for record keeping on behalf of the DFW. Refer to the Index in the County Clerk Memo to determine if such a fee will be required for the project.

The Notice of Exemption must, among other things, identify the person undertaking the project, including any person undertaking an activity that receives financial assistance from the City as part of the project or the person receiving a lease, permit, license, certificate, or other entitlement for use from the City as part of the project. Certain counties require the name and address of an applicant to be included in the "Project Applicant" box of the Notice of Exemption,

even when the only project proponent is the City; in these counties, if the City is the only project proponent, the City's name and address should be provided in the "Project Applicant" box of the Notice of Exemption. Check the county's requirements before submitting the Notice of Exemption for filing and posting.

The Notice of Exemption may be filed by the project applicant, rather than the Lead Agency, in certain circumstances. Specifically, the Lead Agency may direct the project applicant to file the Notice of Exemption where the activity that the Lead Agency has determined is exempt from CEQA either:

(a) is undertaken by a *person* (not a public agency) and is supported, in whole or in part, through contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies; or

(b) involves the issuance to a *person* (not a public agency) of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies.

(See Pub. Resources Code §§21065 (b), (c), 21152). Where the Notice of Exemption is filed by a project applicant rather than the Lead Agency, the applicant must attach a Certificate of Determination to the Notice of Exemption to be filed. The Certificate of Determination may be in the form of a certified copy of an existing document or record of the Lead Agency. Alternatively, the Lead Agency may prepare a Certificate of Determination (see Form "B") stating that the activity is exempt from CEQA, and the Lead Agency may provide the Certificate of Determination to the applicant. The applicant must attach the Certificate of Determination to the Notice of Exemption to be filed.

(Reference: Pub. Resources Code, § 21152; State CEQA Guidelines, § 15062.)

3.05 DISAPPROVED PROJECTS.

CEQA does not apply to projects that the Lead Agency rejects or disapproves. Even if a project for which an EIR, Negative Declaration, or Mitigated Negative Declaration has been prepared is ultimately disapproved, the project applicant shall not be relieved of its obligation to pay the costs incurred to prepare the EIR, Negative Declaration, or Mitigated Negative Declaration for the project.

(Reference: State CEQA Guidelines, §§ 15061(b)(4), 15270.)

3.06 PROJECTS WITH NO POSSIBILITY OF SIGNIFICANT EFFECT.

Where it can be seen with absolute certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is exempt from CEQA.

(Reference: State CEQA Guidelines, § 15061(b)(3).)

3.07 EMERGENCY PROJECTS.

The following types of emergency projects are exempt from CEQA (the term "emergency" is defined in Local Guidelines Section 11.20):

(a) Work in a disaster-stricken area in which a state of emergency has been proclaimed by the Governor pursuant to Section 8550 of the Government Code. This includes projects that will remove, destroy, or significantly alter a historical resource when that resource represents an imminent threat to the public of bodily harm or of damage to adjacent property or when the project has received a determination by the State Office of Historic Preservation pursuant to Section 5028(b) of the Public Resources Code.

(b) Emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to the public health, safety, or welfare. Emergency repairs include those that require a reasonable amount of planning to address an anticipated emergency.

(c) Projects necessary to prevent or mitigate an emergency. This does not include long-term projects undertaken for the purpose of preventing or mitigating a situation that has a low probability of occurrence in the short-term, but this exclusion does not apply (i) if the anticipated period of time to conduct an environmental review of such a long-term project would create a risk to public health, safety, or welfare, or (ii) if activities (such as fire or catastrophic risk mitigation or modifications to improve facility integrity) are proposed for existing facilities in response to an emergency at a similar existing facility.

(d) Projects undertaken, carried out, or approved by a public agency to maintain, repair, or restore an existing highway damaged by fire, flood, storm, earthquake, land subsidence, gradual earth movement, or landslide, provided that the project is within the existing right of way of that highway and is initiated within one year of the damage occurring. Highway shall have the same meaning as defined in Section 360 of the Vehicle Code. This exemption does not apply to highways designated as official state scenic highways, nor to any project undertaken, carried out, or approved by a public agency to expand or widen a highway damaged by fire, flood, storm, earthquake, land subsidence, gradual earth movement, or landslide.

(e) Seismic work on highways and bridges pursuant to Streets and Highways Code section 180.2.

(Reference: State CEQA Guidelines, § 15269.)

3.08 FEASIBILITY AND PLANNING STUDIES.

A project that involves only feasibility or planning studies for possible future actions which the City has not yet approved, adopted, or funded is exempt from CEQA.

(Reference: State CEQA Guidelines, § 15262.)

3.09 RATES, TOLLS, FARES, AND CHARGES.

The establishment, modification, structuring, restructuring or approval of rates, tolls, fares or other charges by the City that the City finds are for one or more of the purposes listed below are exempt from CEQA.

(a) Meeting operating expenses, including employee wage rates and fringe benefits;
(b) Purchasing or leasing supplies, equipment or materials;
(c) Meeting financial reserve needs and requirements; or
(d) Obtaining funds for capital projects necessary to maintain service within existing service areas.

When the City determines that one of the aforementioned activities pertaining to rates, tolls, fares, or charges is exempt from the requirements of CEQA, it shall incorporate written findings setting forth the specific basis for the claim of exemption in the record of any proceeding in which such an exemption is claimed.

(Reference: State CEQA Guidelines, § 15273.)

3.10 PIPELINES WITHIN A PUBLIC RIGHT-OF-WAY AND LESS THAN ONE MILE IN LENGTH.

Projects that are for the installation of a new pipeline or the maintenance, repair, restoration, reconditioning, relocation, replacement, removal, or demolition of an existing pipeline and that are:

(a) in a public street or highway or any other public right-of-way; and
(b) less than one mile in length

shall be exempt from CEQA requirements. See Public Resources Code section 21080.21.

"Pipeline" includes subsurface facilities but does not include any surface facility related to the operation of the underground facility.

(Reference: Public Resources Code, § 21080.21.)

3.11 PIPELINES OF LESS THAN EIGHT MILES IN LENGTH.

Projects that are for the inspection, maintenance, repair, restoration, reconditioning, relocation, replacement, or removal of an existing pipeline, or any valve, flange, meter, or other piece of equipment that is directly attached to the pipeline shall be exempt from CEQA requirements if all of the following conditions are met:

(a) The project is less than eight miles in length.
(b) Notwithstanding the project length, actual construction and excavation activities undertaken to achieve the maintenance, repair, restoration, reconditioning, relocation, replacement, or removal of an existing pipeline are not undertaken over a length of more than one-half mile at any one time.
(c) The project consists of a section of pipeline that is not less than eight miles from any section of pipeline that has been subject to an exemption pursuant to CEQA in the past 12 months.
(d) The project is not solely for the purpose of excavating soil that is contaminated by hazardous materials, and, to the extent not otherwise expressly required by law, the party undertaking the project immediately informs the lead agency of the discovery of contaminated soil.

(e) To the extent not otherwise expressly required by law, the person undertaking the project has, in advance of undertaking the project, prepared a plan that will result in notification of the appropriate agencies so that they may take action, if determined to be necessary, to provide for the emergency evacuation of members of the public who may be located in close proximity to the project.

(f) Project activities are undertaken within an existing right-of-way and the right-of-way is restored to its condition prior to the project.

(g) The project applicant agrees to comply with all conditions otherwise authorized by law, imposed by the city or county planning department as part of any local agency permit process, that are required to mitigate potential impacts of the proposed project, and to otherwise comply with the Keene-Nejedly California Wetlands Preservation Act (Chapter 7 (commencing with Section 5810) of Division 5), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), and other applicable state laws, and with all applicable federal laws.

If a project meets all of the requirements for this exemption, the person undertaking the project shall do all of the following:

(a) Notify, in writing, any affected public agency, including, but not limited to, any public agency having permit, land use, environmental, public health protection, or emergency response authority of this exemption.

(h) Provide notice to the public in the affected area in a manner consistent with paragraph (3) of Public Resources Code section 21092(b).

(i) In the case of private rights-of-way over private property, receive from the underlying property owner permission for access to the property.

(j) Comply with all conditions otherwise authorized by law, imposed by the city or county planning department as part of any local agency permit process, that are required to mitigate potential impacts of the proposed project, and otherwise comply with the Keene-Nejedly California Wetlands Preservation Act (Chapter 7 (commencing with Section 5810) of Division 5), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), and other applicable state laws, and with all applicable federal laws.

This exemption does not apply to a project in which the diameter of the pipeline is increased or to a project undertaken within the boundaries of an oil refinery.

For purposes of this exemption, the following definitions apply:

(a) “Pipeline” includes every intrastate pipeline used for the transportation of hazardous liquid substances or highly volatile liquid substances, including a common carrier pipeline, and all piping containing those substances located within a refined products bulk loading facility which is owned by a common carrier and is served by a pipeline of that common carrier, and the common carrier owns and serves by pipeline at least five such facilities in the state. “Pipeline” does not include the following:

(1) An interstate pipeline subject to Part 195 of Title 49 of the Code of Federal Regulations.

(2) A pipeline for the transportation of a hazardous liquid substance in a gaseous state.
(3) A pipeline for the transportation of crude oil that operates by gravity or at a stress level of 20 percent or less of the specified minimum yield strength of the pipe.
(4) Transportation of petroleum in onshore gathering lines located in rural areas.
(5) A pipeline for the transportation of a hazardous liquid substance offshore located upstream from the outlet flange of each facility on the Outer Continental Shelf where hydrocarbons are produced or where produced hydrocarbons are first separated, dehydrated, or otherwise processed, whichever facility is farther downstream.
(6) Transportation of a hazardous liquid by a flow line.
(7) A pipeline for the transportation of a hazardous liquid substance through an onshore production, refining, or manufacturing facility, including a storage or in plant piping system associated with that facility.
(8) Transportation of a hazardous liquid substance by vessel, aircraft, tank truck, tank car, or other vehicle or terminal facilities used exclusively to transfer hazardous liquids between those modes of transportation.

(Reference: State CEQA Guidelines, § 15284.)

3.12 CERTAIN RESIDENTIAL HOUSING PROJECTS.

CEQA does not apply to the construction, conversion, or use of residential housing if the project meets all of the general requirements described in Section A below and satisfies the specific requirements for any one of the following three categories: (1) agricultural housing (Section B below), (2) affordable housing projects in urbanized areas (Section C below), or (3) affordable housing projects near major transit stops (Section D below).

A. General Requirements. The construction, conversion, or use of residential housing units affordable to low-income households (as defined in Local Guidelines Section 11.36) located on an infill site in an urbanized area is exempt from CEQA if all of the following general requirements are satisfied:

(1) The project is consistent with:

(a) Any applicable general plan, specific plan, or local coastal program, including any mitigation measures required by such plan or program, as that plan or program existed on the date that the application was deemed complete; and
(b) Any applicable zoning ordinance, as that zoning ordinance existed on the date that the application was deemed complete. However, the project may be inconsistent with zoning if the zoning is inconsistent with the general plan and the project site has not been rezoned to conform to the general plan;

(2) Community level environmental review has been adopted or certified;

(3) The project and other projects approved prior to the approval of the project can be adequately served by existing utilities, and the project applicant has paid, or has committed to pay, all applicable in-lieu or development fees;

(4) The project site meets all of the following four criteria relating to biological resources:

(a) The project site does not contain wetlands;
(b) The project site does not have any value as a wildlife habitat;
(c) The project does not harm any species protected by the federal Endangered Species Act of 1973, the Native Plant Protection Act, or the California Endangered Species Act; and
(d) The project does not cause the destruction or removal of any species protected by a local ordinance in effect at the time the application for the project was deemed complete;

(5) The site is not included on any list of facilities and sites compiled pursuant to Government Code section 65962.5;

(6) The project site is subject to a preliminary endangerment assessment prepared by a registered environmental assessor to determine the existence of any release of a hazardous substance on the site and to determine the potential for exposure of future occupants to significant health hazards from any nearby property or activity. In addition, the following steps must have been taken in response to the results of this assessment:

(a) If a release of a hazardous substance is found to exist on the site, the release shall be removed or any significant effects of the release shall be mitigated to a level of insignificance in compliance with state and federal requirements; or
(b) If a potential for exposure to significant hazards from surrounding properties or activities is found to exist, the effects of the potential exposure shall be mitigated to a level of insignificance in compliance with state and federal requirements;

(7) The project does not have a significant effect on historical resources pursuant to Section 21084.1 of the Public Resources Code (see Local Guidelines Section 11.28);

(8) The project site is not subject to wildland fire hazard, as determined by the Department of Forestry and Fire Protection; unless the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a wildland fire hazard;

(9) The project site does not have an unusually high risk of fire or explosion from materials stored or used on nearby properties;

(10) The project site does not present a risk of a public health exposure at a level that would exceed the standards established by any state or federal agency;

(11) Either the project site is not within a delineated earthquake fault zone, or a seismic hazard zone, as determined pursuant to Section 2622 and 2696 of the Public Resources Code respectively, or the applicable general plan or zoning ordinance contains provisions to mitigate the risk of an earthquake or seismic hazard;

(12) Either the project site does not present a landslide hazard, flood plain, flood way, or restriction zone, or the applicable general plan or zoning ordinance contains provisions to mitigate the risk of a landslide or flood;

(13) The project site is not located on developed open space;

(14) The project site is not located within the boundaries of a state conservancy;

(15) The project site has not been divided into smaller projects to qualify for one or more of the exemptions for affordable housing, agricultural housing, or residential infill housing projects found in the subsequent sections; and

(16) The project meets the requirements set forth in either Public Resources Code sections 21159.22, 21159.23 or 21159.24.

(Reference: State CEQA Guidelines, § 15192.)

B. Specific Requirements for Agricultural Housing. (Public Resources Code sections 21084 and 21159.22, and State CEQA Guidelines section 15192.) CEQA does not apply to the construction, conversion, or use of residential housing for agricultural employees that meets all of the general requirements described above in Section A and meets the following additional criteria:

(1) The project either:

(a) Is affordable to lower income households, lacks public financial assistance, and the developer has provided sufficient legal commitments to ensure the continued availability and use of the housing units for lower income households for a period of at least fifteen (15) years; or

(b) If public financial assistance exists for the project, then the project must be housing for very low-, low-, or moderate-income households and the developer of the project has provided sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for low- and moderate-income households for a period of at least fifteen (15) years;

(2) The project site is adjacent on at least two sides to land that has been developed and the project consists of not more than forty-five (45) units or provides dormitories, barracks, or other group-living facilities for a total of forty-five (45) or fewer agricultural employees, and either:

(a) The project site is within incorporated city limits or within a census-defined place with a minimum population density of at least five thousand (5,000) persons per square mile; or

(b) The project site is within incorporated city limits or within a census-defined place and the minimum population density of the census-defined place is at least one thousand (1,000) persons per square mile, unless the Lead Agency determines that there is a reasonable possibility that the project, if completed, would have a significant effect on the environment due to unusual circumstances or that the cumulative effects of successive projects of the same type in the same area would, over time, be significant;

(3) If the project is located on a site zoned for general agricultural use, it must consist of twenty (20) or fewer units, or, if the housing consists of dormitories, barracks, or other group-living facilities, the project must not provide housing for more than twenty (20) agricultural employees; and

(4) The project is not more than two (2) acres in area if the project site is located in an area with a population density of at least one thousand (1,000) persons per square mile, and is not more than five (5) acres in area for all other project sites.

(Reference: Pub. Resources Code, §§ 21084, 21159.22; State CEQA Guidelines, §§ 15192, 15193.)

C. Specific Requirements for Affordable Housing Projects in Urbanized Areas. (Reference: Public Resources Code sections 21083 and 21159.23, and State CEQA Guidelines section 15194.) CEQA does not apply to any development project that consists of the construction, conversion, or use of residential housing consisting of one hundred (100) or fewer units that are affordable to low-income households if all of the general requirements described in Section A above are satisfied and the following additional criteria are also met:

(1) The developer of the project provides sufficient legal commitments to the local agency to ensure the continued availability and use of the housing units for lower income households for a period of at least thirty (30) years, at monthly housing costs deemed to be "affordable rent" for lower income, very low income, and extremely low income households, as determined pursuant to Section 50053 of the Health and Safety Code;

(2) The project site meets one of the following conditions:

(a) Has been previously developed for qualified urban uses;
(b) Is immediately adjacent to parcels that are developed with qualified urban uses; or
(c) At least 75% of the perimeter of the site adjoins parcels that are developed with qualified urban uses and the remaining 25% of the perimeter of the site adjoins parcels that have previously been developed for qualified urban uses, the site has not been developed for urban uses and no parcel within the site has been created within ten (10) years prior to the proposed development of the site;

(3) The project site is not more than five (5) acres in area; and

(4) The project site meets one of the following requirements regarding population density:

(a) The project site is within an urbanized area or within a census-defined place with a population density of at least five thousand (5,000) persons per square mile;
(b) If the project consists of fifty (50) or fewer units, the project site is within an incorporated city with a population density of at least twenty-five hundred (2,500) persons per square mile and a total population of at least twenty-five thousand (25,000) persons; or
(c) The project site is within either an incorporated city or a census-defined place with a population density of one thousand (1,000) persons per square mile, unless there is a reasonable possibility that the project would have a significant effect on the environment due to unusual circumstances or due to the related or cumulative impacts of reasonably foreseeable projects in the vicinity of the project.

(Reference: Pub. Resources Code, §§ 21083, 21159.23; State CEQA Guidelines, § 15194.)

D. Specific Requirements for Affordable Housing Projects Near Major Transit Stops.

(a) Except as provided in subdivision (b), CEQA does not apply to a project if all of the following criteria are met:

1. The project is a residential project on an infill site.

2. The project is located within an urbanized area.

3. The project satisfies the criteria of Section 21159.21, described above in Section A.

4. Within five years of the date that the application for the project is deemed complete pursuant to Section 65943 of the Government Code, community-level environmental review was certified or adopted.

5. The site of the project is not more than four acres in total area.

6. The project does not contain more than 100 residential units.

7. Either of the following criteria (subdivision a or subdivision b) are met:

   a. (1) At least 10 percent of the housing is sold to families of moderate income, or not less than 10 percent of the housing is rented to families of low income, or not less than 5 percent of the housing is rented to families of very low income.

      (2) The project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of the housing units for very low-, low-, and moderate-income households at monthly housing costs determined pursuant to paragraph (3) of the subdivision (h) of Section 65589.5 of the Government Code.

   b. The project developer has paid or will pay in-lieu fees pursuant to a local ordinance in an amount sufficient to result in the development of an equivalent number of units that would otherwise be required pursuant to subparagraph 7.a.

8. The project is within one-half mile of a major transit stop.

9. The project does not include any single level building that exceeds 100,000 square feet.

10. The project promotes higher density infill housing. A project with a density of at least 20 units per acre shall be conclusively presumed to promote higher density infill housing. A project with a density of at least 10 units per acre and a density greater than the average density of the residential properties within 1,500 feet shall be presumed to promote higher density housing unless the preponderance of the evidence demonstrates otherwise.

(b) Notwithstanding subdivision (a) above, the Exemption for Affordable Housing Projects near Major Transit Stops does not apply if any one of the following criteria is met:

1. There is a reasonable possibility that the project will have a project-specific, significant effect on the environment due to unusual circumstances;
2. Substantial changes have occurred since community-level environmental review was adopted or certified with respect to the circumstances under which the project is being undertaken, and those changes are related to the project; or
3. New information regarding the circumstances under which the project is being undertaken has become available, and that new information is related to the project and was not known and could not have been known at the time of the community-level environmental review.

(c) If a project satisfies the criteria described above in Section 3.12D(a), but is not exempt from CEQA as a result of satisfying the criteria described in Section 3.12D(b), the analysis of the environmental effects of the project in the EIR or the negative declaration for the project shall be limited to an analysis of the project-specific effects of the project and any effects identified pursuant to Paragraph 2 or 3 of Section 3.12D(b), above.

(Reference: Pub. Resources Code, §§ 21083, 21159.24; State CEQA Guidelines, § 15195.)

E. Whenever the Lead Agency determines that a project is exempt from environmental review based on Public Resources Code sections 21159.22 [Section 3.12B of these Local Guidelines], 21159.23 [Section 3.12C of these Local Guidelines], or 21159.24 [Section 3.12D of these Local Guidelines], Staff and/or the proponent of the project shall file a Notice of Exemption with the Office of Planning and Research within five (5) working days after the approval of the project.

(Reference: State CEQA Guidelines, § 15196.)

3.13 MINOR ALTERATIONS TO FLUORIDATE WATER UTILITIES.

Minor alterations to water utilities made for the purpose of complying with the fluoridation requirements of Health and Safety Code sections 116410 and 116415 or regulations adopted thereunder are exempt from CEQA.

(Reference: State CEQA Guidelines, § 15282(m).)

3.14 BALLOT MEASURES.

The definition of project in the State CEQA Guidelines specifically excludes the submittal of proposals to a vote of the people of the state or of a particular community. This exemption does not apply to the public agency that sponsors the initiative. When a governing body makes a

decision to put a measure on the ballot, that decision may be discretionary and therefore subject to CEQA. In contrast, the enactment of a qualified voter-sponsored initiative under California Constitution Art. II, Section 11(a) and Election Code Section 9214 is not a project and therefore is not subject to CEQA review.

(Reference: Local Guidelines Section 3.01; State CEQA Guidelines, § 15378(b)(3).)

3.15 TRANSIT PRIORITY PROJECT.

Exemption: Transit Priority Projects (see Local Guidelines Section 11.75) that are consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a Sustainable Community Strategy or an alternative planning strategy may be exempt from CEQA. To qualify for the exemption, the decision-making body must hold a hearing and make findings that the project meets all of Public Resources Code section 21155.1's environmental, housing, and public safety conditions and requirements.

Streamlined Review: A Transit Priority Project that has incorporated all feasible mitigation measures, performance standards or criteria set forth in a prior environmental impact report, may be eligible for streamlined environmental review. For a complete description of the requirements for this streamlined review see Public Resources Code section 21155.2. Similarly, the environmental review for a residential or mixed use residential project may limit, or entirely omit, its discussion of growth-inducing impacts or impacts from traffic on global warming under certain limited circumstances. Note, however, that impacts from other sources of greenhouse gas emissions would still need to be analyzed. For complete requirements see Public Resources Code section 21159.28.

Note that neither the exemption nor the streamlined review will apply until: (1) the applicable Metropolitan Planning Organization prepares and adopts a Sustainable Communities Strategy or alternative planning strategy for the region; and (2) the California Air Resources Board has accepted the Metropolitan Planning Organization's determination that the Sustainable Communities Strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets adopted for the region.

(Reference: Pub. Resources Code, §§ 21155.1, 21151.2, 21159.28.)

3.16 ROADWAY IMPROVEMENTS.

CEQA does not apply to a project or an activity to repair, maintain, or make minor alterations to an existing roadway, as defined in Local Guidelines Section 11.64, if all of the following conditions are met:

A. General Requirements:

(1) The project is carried out by a city or county with a population of less than 100,000 persons to improve public safety.

(2) The project does not cross a waterway as defined in Local Guidelines Section 11.84.

(3) The project involves negligible or no expansion of an existing use beyond that existing at the time of the lead agency's determination.
(4) The roadway is not a state roadway.
(5) The site of the project does not contain wetlands or riparian areas, and does not have "significant value as a wildlife habitat" (as defined in Local Guidelines Section 11.66) and the project does not harm any species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code), or the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), and the project does not cause the destruction or removal of any species protected by a local ordinance.
(6) The project does not impact cultural resources.
(7) The roadway does not affect scenic resources, as provided pursuant to subdivision (c) of Section 21084 of the Public Resources Code.

B. Prior to determining that a project is exempt pursuant to this section, the lead agency shall do both of the following:

(1) Include measures in the project to mitigate potential vehicular traffic and safety impacts and bicycle and pedestrian safety impacts.
(2) Hold a noticed public hearing on the project to hear and respond to public comments. The hearing on the project may be conducted with another noticed lead agency public hearing. Publication of the notice shall be no fewer times than required by Section 6061 of the Government Code, by the public agency in a newspaper of general circulation in the area.

C. Whenever the local agency determines that a project is not subject to this exemption, and it approves or determines to or carry out that project, the local agency shall file a notice with the Office of Planning and Research, and with the county clerk in the manner specified in subdivisions (b) and (c) of Public Resources Code section 21152.

3.17 CERTAIN INFILL PROJECTS

(a) (1) If an environmental impact report was certified for a planning level decision of the city or county, the application of CEQA to the approval of an infill project shall be limited to the effects on the environment that (A) are specific to the project or to the project site and were not addressed as significant effects in the prior environmental impact report or (B) substantial new information shows the effects will be more significant than described in the prior environmental impact report. The attached Form "S" shall be used for this determination. A lead agency's determination pursuant to this section shall be supported by substantial evidence.

(2) An effect of a project upon the environment shall not be considered a specific effect of the project or a significant effect that was not considered significant in a prior environmental impact report, or an effect that is more significant than was described in the prior environmental

impact report if uniformly applicable development policies or standards adopted by the city, county, or the lead agency, would apply to the project and the lead agency makes a finding, based upon substantial evidence, that the development policies or standards will substantially mitigate that effect.

(b) If an infill project would result in significant effects that are specific to the project or the project site, or if the significant effects of the infill project were not addressed in the prior environmental impact report, or are more significant than the effects addressed in the prior environmental impact report, and if a mitigated negative declaration or a sustainable communities environmental assessment could not be otherwise adopted, an environmental impact report prepared for the project analyzing those effects shall be limited as follows:

(1) Alternative locations, densities, and building intensities to the project need not be considered.

(2) Growth inducing impacts of the project need not be considered.

(c) This section applies to an infill project that satisfies both of the following:

(1) The project satisfies any of the following:

A) Is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy for which the State Air Resources Board, pursuant to subparagraph (H) of paragraph (2) of subdivision (b) of Section 65080 of the Government Code, has accepted a metropolitan planning organization's determination that the sustainable communities strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets.

(B) Consists of a small walkable community project located in an area designated by a city for that purpose.

(C) Is located within the boundaries of a metropolitan planning organization that has not yet adopted a sustainable communities strategy or alternative planning strategy, and the project has a residential density of at least 20 units per acre or a floor area ratio of at least 0.75.

(2) Satisfies all applicable statewide performance standards contained in the guidelines adopted pursuant to Public Resources Code section 21094.5.5 (Form “R”).

(d) This section applies after the Secretary of the Natural Resources Agency adopts and certifies the guidelines establishing statewide standards pursuant to Public Resources Code section 21094.5.5.

(e) For the purposes of this section, the following terms mean the following:

(1) “Infill project” means a project that meets the following conditions:

(A) Consists of any one, or combination, of the following uses:

(i) Residential.

(ii) Retail or commercial, where no more than one-half of the project area is used for parking.

(iii) A transit station.

(iv) A school.

(v) A public office building.

(B) Is located within an urban area on a site that has been previously developed, or on a vacant site where at least 75 percent of the perimeter of the site adjoins, or is separated only by an improved public right-of-way from, parcels that are developed with qualified urban uses.

(2) "Planning level decision" means the enactment or amendment of a general plan, community plan, specific plan, or zoning code.

(3) "Prior environmental impact report" means the environmental impact report certified for a planning level decision, as supplemented by any subsequent or supplemental environmental impact reports, negative declarations, or addenda to those documents.

(4) "Small walkable community project" means a project that is in an incorporated city, which is not within the boundary of a metropolitan planning organization and that satisfies the following requirements:

(A) Has a project area of approximately one-quarter mile diameter of contiguous land completely within the existing incorporated boundaries of the city.

(B) Has a project area that includes a residential area adjacent to a retail downtown area.

(C) The project has a density of at least eight dwelling units per acre or a floor area ratio for retail or commercial use of not less than 0.50.

(5) "Urban area" includes either an incorporated city or an unincorporated area that is completely surrounded by one or more incorporated cities that meets both of the following criteria:

(A) The population of the unincorporated area and the population of the surrounding incorporated cities equal a population of 100,000 or more.

(B) The population density of the unincorporated area is equal to, or greater than, the population density of the surrounding cities.

(Reference: Pub. Resources Code, § 21094.5.)

3.18 EXEMPTION FOR INFILL PROJECTS IN TRANSIT PRIORITY AREAS

A residential or mixed-use project, or a project with a floor area ratio of at least 0.75 on commercially-zoned property, including any required subdivision or zoning approvals, is exempt from CEQA if the project satisfies the following criteria:

- The project is located within a transit priority area as defined in Section 11.74 below;
- The project is consistent with an applicable specific plan for which an environmental impact report was certified; and
- The project is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy for which the State Air Resources Board has accepted the determination that the sustainable communities strategy or the alternative planning strategy would achieve the applicable greenhouse gas emissions reduction targets.

Further environmental review shall be required for a project meeting the above criteria only if one of the events specified in Section 8.04 below occurs.

(Reference: State CEQA Guidelines, § 15182(b).)

3.19 EXEMPTION FOR RESIDENTIAL PROJECTS UNDERTAKEN PURSUANT TO A SPECIFIC PLAN

Where a public agency has prepared an EIR for a specific plan after January 1, 1980, a residential project undertaken pursuant to and in conformity with that specific plan is generally exempt from CEQA. Residential projects covered by this section include, but are not limited to, land subdivisions, zoning changes, and residential planned unit developments.

Further environmental review shall be required for a project meeting the above criteria only if, after the adoption of the specific plan, one of the events specified in Section 8.04 below occurs. In that circumstance, this exemption shall not apply until the city or county which adopted the specific plan completes a subsequent EIR or a supplement to an EIR on the specific plan. The exemption provided by this section shall again be available to residential projects after the Lead Agency has filed a Notice of Determination on the specific plan as reconsidered by the subsequent EIR or supplement to the EIR.

(Reference: State CEQA Guidelines, § 15182(c).)

3.20 TRANSIT PRIORITIZATION PROJECTS.

CEQA exempts the following projects when (i) the project is carried out by a local agency that is the lead agency for the project; (ii) the project does not induce single-occupancy vehicle trips, add additional highway lanes, widen highways, or add physical infrastructure or striping to highways except for minor modifications needed for efficient and safe movement of transit vehicles, bicycles, or high-occupancy vehicles, such as extended merging lanes, shoulder

improvements, or improvements to the roadway within the existing right of way; (iii) the project does not include the addition of any auxiliary lanes; and (iv) the construction of the project shall not require the demolition of affordable housing units:

(1) Pedestrian and bicycle facilities—including bicycle parking, bicycle sharing facilities, and bikeways as defined in Section 890.4 of the Streets and Highways Code—that improve safety, access, or mobility, including new facilities, within the public right-of-way;

(2) Projects that improve customer information and wayfinding for transit riders, bicyclists, or pedestrians within the public right-of-way;

(3) Transit prioritization projects, which are defined to mean any of the following transit project types on highways or in the public right-of-way:

(a) Signal and sign changes, such as signal coordination, signal timing modifications, signal modifications, or the installation of traffic signs or new signals;

(b) The installation of wayside technology and onboard technology;

(c) The installation of ramp meters;

(d) The conversion to dedicated transit lanes, including transit queue jump or bypass lanes, shared turning lanes and turn restrictions, the narrowing of lanes to allow for dedicated transit lanes or transit reliability improvements, or the widening of existing transit travel lanes by removing or restricting street parking; and

(e) Transit stop access and safety improvements, including, but not limited to, the installation of transit bulbs and the installation of transit boarding islands.

(4) A project for the designation and conversion of general purpose lanes to high-occupancy vehicle lanes or bus-only lanes, or highway shoulders to part-time transit lanes, for use either during peak congestion hours or all day on highways with existing public transit service or where a public transit agency will be implementing public transit service as identified in a short range transit plan.

(5) A project for the institution or increase of bus rapid transit, bus, or light rail service, including the construction or rehabilitation of stations, terminals, or existing operations facilities, which will be exclusively used by zero-emission, near-zero emission, low oxide of nitrogen engine, compressed natural gas fuel, fuel cell, or hybrid powertrain buses or light rail vehicles, on existing public rights-of-way or existing highway rights-of-way, whether or not the right-of-way is in use for public mass transit. The project shall be located on a site that is wholly within the boundaries of an urbanized area or urban cluster, as designated by the United State Census Bureau.

 ©Best Best & Krieger LLP

(6) A project to construct or maintain infrastructure to charge or refuel zero-emission transit buses, provided the project is carried out by a public transit agency that is subject to, and in compliance with, the State Air Resources Board's Innovative Clean Transit regulations (Article 4.3 (commencing with Section 2023) of Chapter 1 of Division 3 of Title 13 of the California Code of Regulations) and the project is located on property owned by the transit agency or within an existing public right-of-way.

A lead agency applying an exemption pursuant to this paragraph for hydrogen refueling infrastructure or facilities necessary to refuel or maintain zero-emission public transit buses, trains, or ferries shall hold a noticed public hearing and give notice of the meeting consistent with Public Resources Code section 21080.25(b)(6)(B).

(7) The maintenance, repair, relocation, replacement, or removal of any utility infrastructure associated with a project identified in paragraphs (1) to (6), inclusive.

(8) A project that consists exclusively of a combination of any of the components of a project identified in paragraphs (1) to (7), inclusive.

(9) A planning decision carried out by a local agency to reduce or eliminate minimum parking requirements or institute parking maximums, remove or restrict parking, or implement transportation demand management requirements or programs.

Additional conditions apply to a project otherwise exempt under this section if the project exceeds fifty million dollars ($50,000,000), as set forth in Public Resources Code section 21080.25(d)-(e).

Moreover, a project exempt under this section may be subject to certain labor requirements, including that the project be completed by a skilled and trained workforce, as set forth in Public Resources Code section 21080.25(f).

If the District determines that a project is not subject to CEQA pursuant to this section and approves that project, the District must file a Notice of Exemption with both the Office of Planning and Research and the County Clerk of the county in which the project is located.

This exemption shall remain in effect only until January 1, 2030, and as of that date it will be repealed. (Reference: Pub. Resources Code, § 21080.25.)

3.21 TRANSPORTATION PLANS, PEDESTRIAN PLANS, AND BICYCLE TRANSPORTATION PLANS.

CEQA does not apply to an active transportation plan, a pedestrian plan, or a bicycle transportation plan for restriping of streets and highways, bicycle parking and storage, signal timing to improve street and highway intersection operations, and the related signage for bicycles,

pedestrians, and vehicles. An active transportation plan or pedestrian plan is encouraged to include the consideration of environmental factors, but that consideration does not inhibit or preclude the application of this section.

An individual project that is part of an active transportation plan or pedestrian plan remains subject to CEQA unless another exemption applies to that project.

Before determining that a project is exempt pursuant to this section, the Lead Agency must hold noticed public hearings in areas affected by the project to hear and respond to public comments. Publication of the notice must comply with Government Code section 6061 and be in a newspaper of general circulation in the area affected by the proposed project.

If the District determines that a project is not subject to CEQA pursuant to this section and approves that project, the District must file a Notice of Exemption with both the Office of Planning and Research and the County Clerk of the county in which the project is located.

For purposes of this section, the following definitions apply:

(1) "Active transportation plan" means a plan developed by a local jurisdiction that promotes and encourages people to choose walking, bicycling, or rolling through the creation of safe, comfortable, connected, and accessible walking, bicycling, or rolling networks, and encourages alternatives to single-occupancy vehicle trips.

(2) "Pedestrian plan" means a plan developed by a local jurisdiction that establishes a comprehensive, coordinated approach to improving pedestrian infrastructure and safety.

This exemption shall remain in effect only until January 1, 2030, and as of that date it will be repealed. (Reference: Pub. Resources Code, § 21080.20.)

3.22 WATER SYSTEM WELLS AND DOMESTIC WELL PROJECTS.

CEQA does not apply to the construction, maintenance, repair, or replacement of a well or a domestic well that meets all of the following conditions:

(1) The domestic well or water system to which the well is connected has been designated by the State Water Resources Control Board ("State Board") as high risk or medium risk in the State Board's drinking water needs assessment;

(2) The well project is designed to mitigate or prevent a failure of the well or the domestic well that would leave residents that rely on the well, the water system to which the well is connected, or the domestic well without an adequate supply of safe drinking water;

(3) The lead agency determines all of the following:

(a) The well project is not designed primarily to serve irrigation or future growth.

(b) The well project does not affect wetlands or sensitive habitats.

(c) Unusual circumstances do not exist that would cause the well project to have a significant effect on the environment.

(d) The well project is not located on a site that is included on any list compiled pursuant to Section 65962.5 of the Government Code.

(e) The well project does not have the potential to cause a substantial adverse change in the significance of a historical resource.

(f) The well project's construction impacts are fully mitigated consistent with applicable law.

(g) The cumulative impact of successive reasonably anticipated projects of the same type as the well project, in the same place, over time, is not significant.

Before determining that a well project is exempt pursuant to this section, a lead agency must contact the State Board to determine whether claiming the exemption under this section will affect the ability of the well project to receive federal financial assistance or federally capitalized financial assistance.

A lead agency that determines that a well project is exempt under this section must file a notice of exemption with both OPR and the County Clerk. The notice of exemption must explain whether the project is additionally exempt from CEQA under Public Resources Code section 21080 (e.g., whether it is a ministerial project, an emergency repair necessary to maintain service, or an action necessary to prevent or mitigate an emergency), Public Resources Code section 21080.47 (see Section 3.23 of these Local Guidelines, below), or under the Class 1 (Existing Facilities) or Class 2 (Replacement or Reconstruction) categorical exemptions (see Section 3.28 of these Local Guidelines, below). If none of the exemptions referenced in this paragraph apply to a project that is otherwise exempt under this section, the notice of exemption must explain why the exemptions referenced in this paragraph do not apply to the project.

For purposes of this section, the following definitions apply:

A "well" is defined as a wellhead that provides drinking water to a "water system."

A "domestic well" is defined as a groundwater well used to supply water for the domestic needs of an individual residence or a water system that is not a public water system and that has no more than four service connections.

A "water system" is defined to mean a "public water system" as that term is defined in Health and Safety Code section 116275(h) (i.e., a system for the provision of water for human consumption through pipes or other constructed conveyances that has 15 or more service connections or regularly serves at least 25 individuals daily at least 60 days out of the year), a

"state small water system" as that term is defined in Health and Safety Code section 116275(n) (i.e., a system for the provision of piped water to the public for human consumption that serves at least five, but not more than 14, service connections and does not regularly serve drinking water to more than an average of 25 individuals daily for more than 60 days out of the year), or a tribal water system.

(Pub. Resources Code, § 21080.31 [in effect until January 1, 2028].)

3.23 SMALL DISADVANTAGED COMMUNITY WATER SYSTEM AND STATE SMALL WATER SYSTEM.

CEQA does not apply to certain water infrastructure projects that primarily benefit a "small disadvantaged community water system" or a "state small water system," as these terms are defined in Public Resources Code section 21080.47. If certain labor requirements and other conditions are met as set forth in Public Resources Code section 21080.47, the installation, repair, or construction of the following for the benefit of a small disadvantaged community water system or state small water system is exempt from CEQA:

(1) Drinking water groundwater wells with a maximum flow rate of up to 250 gallons per minute;

(2) Drinking water treatment facilities with a footprint of less than 2,500 square feet that are not located in an environmentally sensitive area;

(3) Drinking water storage tanks with a capacity of up to 250,000 gallons;

(4) Booster pumps and hydropneumatic tanks;

(5) Pipelines of less than one mile in length in a road right-of-way or up to seven miles in length in a road right-of-way when the project is required to address threatened or current drinking water violations;

(6) Water services lines; and

(7) Minor drinking water system appurtenances, including, but not limited to, system and service meters, fire hydrants, water quality sampling stations, valves, air releases and vacuum break valves, emergency generators, backflow prevention devices, and appurtenance enclosures.

(Reference: Pub. Resources Code, § 21080.47.)

3.24 CONSERVATION AND RESTORATION OF CALIFORNIA NATIVE FISH AND WILDLIFE.

(a) CEQA does not apply to a project that is exclusively one of the following (though a project may exclusively be one of the following even if it has incidental public benefits, such as public access or recreation) and meets the criteria set forth in subdivision (b) of this section:

(1) A project to conserve, restore, protect, or enhance, and assist in the recovery of California native fish and wildlife, and the habitat upon which they depend.

(2) A project to restore or provide habitat for California native fish and wildlife.

(b) This section does not apply to a project unless the project does both of the following:

(1) Results in long-term net benefits to climate resiliency, biodiversity, and sensitive species recovery; and

(2) Includes procedures and ongoing management for the protection of the environment.

(c) This section does not apply to a project that includes construction activities, except for construction activities solely related to habitat restoration.

(d) The lead agency shall obtain the concurrence of the Director of Fish and Wildlife for the determinations required pursuant to subdivisions (a) through (c) above.

(e) Within 48 hours of making a determination that a project is exempt pursuant to this section, the lead agency shall file a Notice of Exemption with the Office of Planning and Research, and the Department of Fish and Wildlife must post the concurrence of the Director of Fish and Wildlife on the department's website.

This exemption is in effect until January 1, 2025. (Pub. Resources Code, § 21080.56.)

3.25 LINEAR BROADBAND DEPLOYMENT IN A RIGHT-OF-WAY.

(a) CEQA does not apply to a project that consists of linear broadband deployment in a right-of-way if the project meets all of the following conditions:

(1) The project is located in an area identified by the Public Utilities Commission as a component of the statewide open-access middle-mile broadband network pursuant to Section 11549.54 of the Government Code.

(2) The project is constructed along, or within 30 feet of, the right-of-way of any public road or highway.

(3) The project is either deployed underground where the surface area is restored to a condition existing before the project or placed aerially along an existing utility pole right-of-way.

(4) The project incorporates, as a condition of project approval, measures developed by the Public Utilities Commission or the Department of Transportation to address potential environmental impacts. At a minimum,

the project shall be required to include monitors during construction activities and measures to avoid or address impacts to cultural and biological resources.

(5) The project applicant agrees to comply with all conditions otherwise authorized by law, imposed by the planning department of a city or county as part of a local agency permit process, that are required to mitigate potential impacts of the proposed project, and to comply with the Keene-Nejedly California Wetlands Preservation Act (Chapter 7 (commencing with Section 5810) of Division 5), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), as applicable, other applicable state laws, and all applicable federal laws.

(b) If a project meets all of the requirements of subdivision (a), the project applicant shall do all of the following:

(1) Notify, in writing, any affected public agency, including, but not limited to, any public agency having permit, land use, environmental, public health protection, or emergency response authority, of the exemption of the project pursuant to this section.

(2) File a Notice of Exemption.

(3) In the case of private rights-of-way over private property, receive from the underlying property owner permission for access to the property.

(4) Comply with all conditions authorized by law imposed by the planning department of a city or county as part of any local agency permit process, that are required to mitigate potential impacts of the proposed project, and otherwise comply with the Keene-Nejedly California Wetlands Preservation Act (Chapter 7 (commencing with Section 5810) of Division 5), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), as applicable, other applicable state laws, and all applicable federal laws.

(Reference: Pub. Resources Code, § 21080.51.)

3.26 NEEDLE AND SYRINGE EXCHANGE SERVICES.

The Legislature has authorized cities and counties meeting certain requirements to apply to the State Department of Public Health for authorization to provide hypodermic needle and syringe exchange services consistent with state standards in any location where the State Department of Public Health determines that the conditions exist for the rapid spread of human immunodeficiency virus (HIV), viral hepatitis, or any other potentially deadly or disabling infections that are spread through the sharing of used hypodermic needles and syringes. (Health and Safety Code, § 121349.) Needle and syringe exchange services application submissions,

authorizations, and operations performed pursuant to Health and Safety Code section 121349 are exempt from review under CEQA. (Health and Safety Code, § 121349(h).)

3.27 OTHER SPECIFIC EXEMPTIONS.

CEQA and the State CEQA Guidelines exempt many other specific activities, including early activities related to thermal power plants, ongoing projects, transportation improvement programs, family day care homes, congestion management programs, railroad grade separation projects, restriping of streets or highways to relieve traffic congestion, hazardous or volatile liquid pipelines, and the installation of solar energy systems, including, but not limited to solar panels. Specific statutory exemptions are listed in the Public Resources Code, including Sections 21080 through 21080.35, and in the State CEQA Guidelines, including Sections 15260 through 15285. In addition, other titles of the California Codes provide statutory exemptions from CEQA, including, for example, Government Code section 12012.70.

3.28 CATEGORICAL EXEMPTIONS.

The State CEQA Guidelines establish certain classes of categorical exemptions. These apply to classes of projects which have been determined not to have a significant effect on the environment and which, therefore, are generally exempt from CEQA. For any project that falls within one of these classes of categorical exemptions, the preparation of environmental documents under CEQA is not required. The classes of projects are briefly summarized below. (Reference to the State CEQA Guidelines for the full description of each exemption is recommended.)

The exemptions for Classes 3, 4, 5, 6 and 11 below are qualified in that such projects must be considered in light of the location of the project. A project that is ordinarily insignificant in its impact on the environment may, in a particularly sensitive environment, be significant. Therefore, these classes are considered to apply in all instances except when the project may impact an environmental resource of hazardous or critical concern that has been designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

All classes of categorical exemptions are qualified. None of the categorical exemptions are applicable if any of the following circumstances exist:

(1) The cumulative impact of successive projects of the same type in the same place over time is significant;

(2) There is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances;

(3) The project may result in damage to a scenic resource or may result in a substantial adverse change to a historical resource; or

(4) The project is located on a site which is included on any hazardous waste site or list compiled pursuant to Government Code section 65962.5.

However, a project's greenhouse gas emissions do not, in and of themselves, cause an exemption to be inapplicable if the project otherwise complies with all applicable regulations or

requirements adopted to implement statewide, regional, or local plans consistent with State CEQA Guidelines section 15183.5.

With the foregoing limitations in mind, the following classes of activity are generally exempt from CEQA:

Class 1: Existing Facilities. Activities involving the operation, repair, maintenance, permitting, leasing, licensing, minor alteration of—or legislative activities to regulate— existing public or private structures, facilities, mechanical equipment or other property, or topographical features, provided the activity involves negligible or no expansion of existing or former use. The types of "existing facilities" itemized in State CEQA Guidelines section 15301 are not intended to be all-inclusive of the types of projects which might fall within the Class 1 categorical exemption. The key consideration is whether the project involves negligible or no expansion of use. (State CEQA Guidelines section 15301.)

Class 2: Replacement or Reconstruction. Replacement or reconstruction of existing facilities, structures, or other property where the new facility or structure will be located on the same site as the replaced or reconstructed facility or structure and will have substantially the same purpose and capacity as the replaced or reconstructed facility or structure. (State CEQA Guidelines section 15302.)

Class 3: New Construction or Conversion of Small Structures. Construction of limited numbers of small new facilities or structures; installation of small new equipment or facilities in small structures; and the conversion of existing small structures from one use to another, when only minor modifications are made in the exterior of the structure. This exemption includes structures built for both residential and commercial uses. (The maximum number of structures allowable under this exemption is set forth in State CEQA Guidelines section 15303.)

Class 4: Minor Alterations to Land. Minor alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees, except for forestry or agricultural purposes. (State CEQA Guidelines section 15304.)

Class 5: Minor Alterations in Land Use Limitations. Minor alterations in land use limitations in areas with an average slope of less than 20% which do not result in any changes in land use or density. (State CEQA Guidelines section 15305.)

Class 6: Information Collection. Basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. (State CEQA Guidelines section 15306.)

Class 7: Actions by Regulatory Agencies for Protection of Natural Resources. Actions taken by regulatory agencies as authorized by state law or local ordinance to assure the maintenance, restoration, or enhancement of a natural resource where the regulatory process involves procedures for protection of the environment. (State CEQA Guidelines section 15307.)

Class 8: Actions By Regulatory Agencies for Protection of the Environment. Actions taken by regulatory agencies, as authorized by state or local ordinance, to assure the maintenance,

restoration, enhancement or protection of the environment where the regulatory process involves procedures for protection of the environment. (State CEQA Guidelines section 15308.)

Class 9: Inspection. Inspection activities, including, but not limited to, inquiries into the performance of an operation and examinations of the quality, health or safety of a project. (State CEQA Guidelines section 15309.)

Class 10: Loans. Loans made by the Department of Veterans Affairs under the Veterans Farm and Home Purchase Act of 1943, mortgages for the purchase of existing structures where the loan will not be used for new construction and the purchase of such mortgages by financial institutions. (State CEQA Guidelines section 15310.)

Class 11: Accessory Structures. Construction or replacement of minor structures accessory or appurtenant to existing commercial, industrial, or institutional facilities, including, but not limited to, on-premise signs; small parking lots; and placement of seasonal or temporary use items, such as lifeguard towers, mobile food units, portable restrooms or similar items in generally the same locations from time to time in publicly owned parks, stadiums or other facilities designed for public use. (State CEQA Guidelines section 15311.)

Class 12: Surplus Government Property Sales. Sales of surplus government property, except for certain parcels of land located in an area of statewide, regional or area-wide concern identified in State CEQA Guidelines section 15206(b)(4). However, even if the surplus property to be sold is located in any of those areas, its sale is exempt if:

(a) The property does not have significant values for wildlife or other environmental purposes; and
(b) Any one of the following three conditions is met:
    1. The property is of such size, shape, or inaccessibility that it is incapable of independent development or use;
    2. The property to be sold would qualify for an exemption under any other class of categorical exemption in the State CEQA Guidelines; or
    3. The use of the property and adjacent property has not changed since the time of purchase by the public agency.

(State CEQA Guidelines section 15312.)

Class 13: Acquisition of Lands for Wildlife Conservation Purposes. Acquisition of lands for fish and wildlife conservation purposes, including preservation of fish and wildlife habitat, establishment of ecological preserves under Fish and Game Code section 1580, and preservation of access to public lands and waters where the purpose of the acquisition is to preserve the land in its natural condition. (State CEQA Guidelines section 15313.)

Class 14: Minor Additions to Schools. Minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25% or ten (10) classrooms, whichever is less. The addition of portable classrooms is included in this exemption. (State CEQA Guidelines section 15314.)

Class 15: Minor Land Divisions. Division(s) of property in urbanized areas zoned for residential, commercial or industrial use into four or fewer parcels when the division is in conformance with the General Plan and zoning, no variances or exceptions are required, all services and access to the proposed parcels to local standards are available, the parcel was not involved in a division of a larger parcel within the previous two (2) years, and the parcel does not have an average slope greater than 20%. (State CEQA Guidelines section 15315.)

Class 16: Transfer of Ownership of Land in Order to Create Parks. Acquisition, sale, or other transfer of land in order to establish a park where the land is in a natural condition or contains historical or archaeological resources and either:

(a) The management plan for the park has not been prepared, or
(b) The management plan proposes to keep the area in a natural condition or preserve the historic or archaeological resources.

CEQA will apply when a management plan is proposed that will change the area from its natural condition or cause substantial adverse change in the significance of the historic or archaeological resource. (State CEQA Guidelines section 15316.)

Class 17: Open Space Contracts or Easements. Establishment of agricultural preserves, making and renewing of open space contracts under the Williamson Act, or acceptance of easements or fee interests in order to maintain the open space character of the area. (The cancellation of such preserves, contracts, interests or easements is not included in this exemption.) (State CEQA Guidelines section 15317.)

Class 18: Designation of Wilderness Areas. Designation of wilderness areas under the California Wilderness System. (State CEQA Guidelines section 15318.)

Class 19: Annexations of Existing Facilities and Lots for Exempt Facilities. This exemption applies only to the following annexations:

(a) Annexations to a city or special district of areas containing existing public or private structures developed to the density allowed by the current zoning or prezoning of either the gaining or losing governmental agency, whichever is more restrictive; provided, however, that the extension of utility services to the existing facilities would have a capacity to serve only the existing facilities; and
(b) Annexations of individual small parcels of the minimum size for facilities exempted by Class 3, New Construction or Conversion of Small Structures.

(State CEQA Guidelines section 15319.)

Class 20: Changes in Organization of Local Agencies. Changes in the organization of local governmental agencies where the changes do not change the geographical area in which previously existing powers are exercised. Examples include but are not limited to:

(a) Establishment of a subsidiary district;
(b) Consolidation of two or more districts having identical powers; and
(c) Merger with a city of a district lying entirely within the boundaries of the city.

(State CEQA Guidelines section 15320.)

Class 21: Enforcement Actions by Regulatory Agencies. Actions by regulatory agencies to enforce or revoke a lease, permit, license, certificate or other entitlement for use issued, adopted or prescribed by the regulatory agency or enforcement of a law, general rule, standard or objective administered or adopted by the regulatory agency; or law enforcement activities by peace officers acting under any law that provides a criminal sanction. The direct referral of a violation of lease, permit, license, certificate, or entitlement to the City Attorney for judicial enforcement is exempt under this Class. (Construction activities undertaken by the public agency taking the enforcement or revocation action are not included in this exemption.) (State CEQA Guidelines section 15321.)

Class 22: Educational or Training Programs Involving No Physical Changes. The adoption, alteration or termination of educational or training programs which involve no physical alteration in the area affected or which involve physical changes only in the interior of existing school or training structures. Examples include but are not limited to:

(a) Development of or changes in curriculum or training methods; or
(b) Changes in the trade structure in a school which do not result in changes in student transportation.

(State CEQA Guidelines section 15322.)

Class 23: Normal Operations of Facilities for Public Gatherings. Continued or repeated normal operations of existing facilities for public gatherings for which the facilities were designed, where there is past history, of at least three years, of the facility being used for the same or similar purposes. Facilities included within this exemption include, but are not limited to, race tracks, stadiums, convention centers, auditoriums, amphitheaters, planetariums, swimming pools and amusement parks. (State CEQA Guidelines section 15323.)

Class 24: Regulation of Working Conditions. Actions taken by the City to regulate employee wages, hours of work or working conditions where there will be no demonstrable physical changes outside the place of work. (State CEQA Guidelines section 15324.)

Class 25: Transfers of Ownership of Interest in Land to Preserve Existing Natural Conditions and Historical Resources. Transfers of ownership of interest in land in order to preserve open space, habitat, or historical resources. Examples include, but are not limited to, acquisition, sale, or other transfer of areas to: preserve existing natural conditions, including plant or animal habitats; allow continued agricultural use of the areas; allow restoration of natural conditions; preserve open space or lands for natural park purposes; or prevent encroachment of development into floodplains. This exemption does not apply to the development of parks or park uses. (State CEQA Guidelines section 15325.)

Class 26: Acquisition of Housing for Housing Assistance Programs. Actions by a redevelopment agency, housing authority or other public agency to implement an adopted Housing Assistance Plan by acquiring an interest in housing units, provided the housing units are either in existence or possessing all required permits for construction when the agency makes its final decision to acquire the units. (State CEQA Guidelines section 15326.)

Class 27: Leasing New Facilities. Leasing of a newly constructed or previously unoccupied privately owned facility by a local or state agency when the City determines that the proposed use of the facility:

(a) Conforms with existing state plans and policies and with general, community, and specific plans for which an EIR or Negative Declaration has been prepared;
(b) Is substantially the same as that originally proposed at the time the building permit was issued;
(c) Does not result in a traffic increase of greater than 10% of front access road capacity; and
(d) Includes the provision of adequate employee and visitor parking facilities.

(State CEQA Guidelines section 15327.)

Class 28: Small Hydroelectric Projects as Existing Facilities. Installation of certain small hydroelectric-generating facilities in connection with existing dams, canals and pipelines, subject to the conditions in State CEQA Guidelines section 15328. (State CEQA Guidelines section 15328.)

Class 29: Cogeneration Projects at Existing Facilities. Installation of cogeneration equipment with a capacity of 50 megawatts or less at existing facilities meeting certain conditions listed in State CEQA Guidelines section 15329. (State CEQA Guidelines section 15329.)

Class 30: Minor Actions to Prevent, Minimize, Stabilize, Mitigate or Eliminate the Release or Threat of Release of Hazardous Waste or Hazardous Substances. Any minor cleanup actions taken to prevent, minimize, stabilize, mitigate, or eliminate the release or threat of release of a hazardous waste or substance which are small or medium removal actions costing $1 million or less. (State CEQA Guidelines section 15330.)

(a) No cleanup action shall be subject to this Class 30 exemption if the action requires the onsite use of a hazardous waste incinerator or thermal treatment unit or the relocation of residences or businesses, or the action involves the potential release into the air of volatile organic compounds as defined in Health and Safety Code section 25123.6, except for small scale in situ soil vapor extraction and treatment systems which have been permitted by the local Air Pollution Control District or Air Quality Management District. All actions must be consistent with applicable state and local environmental permitting requirements including, but not limited to, off-site disposal, air quality rules such as those governing volatile organic compounds and water quality standards, and approved by the regulatory body with jurisdiction over the site;
(b) Examples of such minor cleanup actions include but are not limited to:
    1. Removal of sealed, non-leaking drums of hazardous waste or substances that have been stabilized, containerized and are designated for a lawfully permitted destination;
    2. Maintenance or stabilization of berms, dikes, or surface impoundments;
    3. Construction or maintenance or interim of temporary surface caps;

 ©Best Best & Krieger LLP

4. Onsite treatment of contaminated soils or sludge provided treatment system meets Title 22 requirements and local air district requirements;
5. Excavation and/or offsite disposal of contaminated soils or sludge in regulated units;
6. Application of dust suppressants or dust binders to surface soils;
7. Controls for surface water run-on and run-off that meets seismic safety standards;
8. Pumping of leaking ponds into an enclosed container;
9. Construction of interim or emergency ground water treatment systems; or
10. Posting of warning signs and fencing for a hazardous waste or substance site that meets legal requirements for protection of wildlife.

Class 31: Historical Resource Restoration/Rehabilitation. Maintenance, repairs, stabilization, rehabilitation, restoration, preservation, conservation, or reconstruction of historical resources in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings (1995), Weeks and Grimmer. (State CEQA Guidelines section 15331.)

Class 32: Infill Development Projects. Infill development meeting the following conditions:

(a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations;
(b) The proposed development occurs within city limits on a project site of no more than five acres substantially surrounded by urban uses;
(c) The project site has no value as habitat for endangered, rare or threatened species;
(d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality; and
(e) The site can be adequately served by all required utilities and public services.

(State CEQA Guidelines section 15332.)

Class 33: Small Habitat Restoration Projects.

This exemption applies to projects to assure the maintenance, restoration, enhancement, or protection of habitat for fish, plants, or wildlife, provided that such projects meet the following criteria:

(a) The project does not exceed five acres in size;

(b) There would be no significant adverse impact on endangered, rare or threatened species or their habitat pursuant to Section 15065 of the State CEQA Guidelines;

(a) There are no hazardous materials at or around the project site that may be disturbed or removed; and

(b) The project will not result in impacts that are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

Examples of small habitat restoration projects include, but are not limited to: revegetation of disturbed areas with native plant species; wetland restoration, the primary purpose of which is to improve conditions for waterfowl or other species that rely on wetland habitat; stream or river bank revegetation, the primary purpose of which is to improve habitat for amphibians or native fish; projects to restore or enhance habitat that are carried out principally with hand labor and not mechanized equipment; stream or river bank stabilization with native vegetation or other bioengineering techniques, the primary purpose of which is to reduce or eliminate erosion and sedimentation; and culvert replacement conducted in accordance with published guidelines of DFW or NOAA Fisheries, the primary purpose of which is to improve habitat or reduce sedimentation.

(State CEQA Guidelines section 15333.)

 ©Best Best & Krieger LLP

4. TIME LIMITATIONS

4.01 REVIEW OF PRIVATE PROJECT APPLICATIONS.

Staff shall determine whether the application for a private project is complete within thirty (30) days of receipt of the application. No application may be deemed incomplete based on an applicant's refusal to waive the time limitations set forth in Local Guidelines Sections 4.03 and 4.04.

Accepting an application as complete does not limit the authority of the City, acting as Lead Agency or Responsible Agency, to require the applicant to submit additional information needed for environmental evaluation of the project. Requiring such additional information after the application is complete does not change the status of the application.

(Reference: State CEQA Guidelines, § 15101.)

4.02 DETERMINATION OF TYPE OF ENVIRONMENTAL DOCUMENT.

Except as provided in Local Guidelines Sections 4.05 and 4.06, Staff's initial determination as to whether a Negative Declaration, Mitigated Negative Declaration or an EIR should be prepared shall be made within thirty (30) days from the date on which an application for a project is accepted as complete by the City. This period may be extended fifteen (15) days with consent of the applicant and the City.

(Reference: State CEQA Guidelines, § 15102.)

4.03 COMPLETION AND ADOPTION OF NEGATIVE DECLARATION.

For private projects involving the issuance of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies, the Negative Declaration/Mitigated Negative Declaration shall be completed and approved within one hundred eighty (180) days from the date when the City accepted the application as complete. In the event that compelling circumstances justify additional time and the project applicant and Lead Agency consent thereto, Staff may provide that the 180-day time limit may be extended once for a period of not more than 90 days.

(Reference: State CEQA Guidelines, § 15107.)

4.04 COMPLETION AND CERTIFICATION OF FINAL EIR.

For private projects, the Final EIR shall be completed and certified by the City within one (1) year after the date the City accepted the application as complete. In the event that compelling circumstances justify additional time and the project applicant consents thereto, the City may provide a one-time extension up to ninety (90) days for completing and certifying the EIR.

(Reference: State CEQA Guidelines, § 15108.)

 ©Best Best & Krieger LLP

4.05 PROJECTS SUBJECT TO THE PERMIT STREAMLINING ACT.

The Permit Streamlining Act requires agencies to make decisions on certain development project approvals within specified time limits. If a project is subject to the Permit Streamlining Act, the City cannot require the project applicant to submit the informational equivalent of an EIR or prove compliance with CEQA as a prerequisite to determining whether the project application is complete. In addition, if requested by the project applicant, the City must begin processing the project application prior to final CEQA action, provided the information necessary to begin the process is available.

(Reference: Gov. Code §§ 65941, 65944.)

Under the Permit Streamlining Act, the Lead Agency must approve or disapprove the development project application within one hundred eighty (180) days from the date on which it certifies the EIR, or within ninety (90) days of certification if an extension for completing and certifying the EIR was granted. If the Lead Agency adopts a Negative Declaration/Mitigated Negative Declaration or determines the development project is exempt from CEQA, it shall approve or disapprove the project application within sixty (60) days from the date on which it adopts the Negative Declaration/Mitigated Negative Declaration or determines that the project is exempt from CEQA.

(Reference: Gov. Code §§ 65950, 65950.1; see also State CEQA Guidelines, § 15107.)

Except for waivers of the time periods for preparing a joint Environmental Impact Report/Environmental Impact Statement (as outlined in Government Code sections 65951 and 65957), the City cannot require a waiver of the time limits specified in the Permit Streamlining Act as a condition of accepting or processing a development project application. In addition, the City cannot disapprove a development project application in order to comply with the time limits specified in the Permit Streamlining Act.

(Reference: Gov. Code §§ 65940.5, 65952.2.)

4.06 PROJECTS, OTHER THAN THOSE SUBJECT TO THE PERMIT STREAMLINING ACT, WITH SHORT TIME PERIODS FOR APPROVAL.

A few statutes require agencies to make decisions on project applications within time limits that are so short that review of the project under CEQA would be difficult. To enable the City as Lead Agency to comply with both the enabling statute and CEQA, the City shall deem a project application as not received for filing under the enabling statute until such time as the environmental documentation required by CEQA is complete. This section applies where all of the following conditions are met:

(a) The enabling statute for a program, other than development projects under Chapter 4.5 (commencing with Section 65920) of Division 1 of Title 7 of the Government Code, requires the City to take action on an application within a specified period of time of six (6) months or less;
(b) The enabling statute provides that the project is approved by operation of law if the City fails to take any action within the specified time period; and

(c) The project application involves the City's issuance of a lease, permit, license, certificate or other entitlement for use.

In any case, the environmental document shall be completed or certified and the decision on the application shall be made within the period established by the Permit Streamlining Act (Government Code sections 65920, et seq.).

(Reference: State CEQA Guidelines, § 15111.)

4.07 WAIVER OR SUSPENSION OF TIME PERIODS.

These deadlines may be waived by the applicant if the project is subject to both CEQA and the National Environmental Policy Act ("NEPA"). (State CEQA Guidelines sections 15110 and 15224; see Section 5.04 of these Local Guidelines for information about projects that are subject to both CEQA and NEPA.)

An unreasonable delay by an applicant in meeting the City's requests necessary for the preparation of a Negative Declaration, Mitigated Negative Declaration, or an EIR shall suspend the running of the time periods described in Local Guidelines Sections 4.03 and 4.04 for the period of the unreasonable delay. Alternatively, the City may disapprove a project application where there is unreasonable delay in meeting requests. The City may also allow a renewed application to start at the same point in the process where the prior application was when it was disapproved.

(Reference: State CEQA Guidelines, §§ 15109, 15110, and 15224; see Section 5.04 of these Local Guidelines for information about projects that are subject to both CEQA and NEPA.)

 ©Best Best & Krieger LLP

5. INITIAL STUDY

5.01 PREPARATION OF INITIAL STUDY.

If the City determines that it is the Lead Agency for a project which is not exempt, the City will normally prepare an Initial Study to ascertain whether the project may have a substantial adverse effect on the environment, regardless of whether the overall effect of the project is adverse or beneficial. All phases of project planning, implementation and operation must be considered in the Initial Study. An Initial Study may rely on expert opinion supported by facts, technical studies or other substantial evidence. However, an Initial Study is neither intended nor required to include the level of detail included in an EIR.

The City, as Lead Agency, may use any of the following arrangements or combination of arrangements to prepare an Initial Study:

(1) Preparing the Initial Study directly with the City's own staff.

(2) Contracting with another entity, public or private, to prepare the Initial Study.

(3) Accepting a draft Initial Study prepared by the applicant, a consultant retained by the applicant, or any other third person.

(4) Executing a third party contract or memorandum of understanding with the applicant to govern the preparation of an Initial Study by an independent contractor.

(5) Using a previously prepared Initial Study.

The Initial Study sent out for public review, however, must reflect the independent judgment of the Lead Agency.

For private projects, the person or entity proposing to carry out the project shall submit all data and information as may be required by the City to determine whether the proposed project may have a significant effect on the environment. All costs incurred by the City in reviewing the data and information submitted, or in conducting its own investigation based upon such data and information, or in preparing an Initial Study for the project shall be borne by the person or entity proposing to carry out the project.

(Reference: State CEQA Guidelines, §§ 15063, 15084.)

5.02 INFORMAL CONSULTATION WITH OTHER AGENCIES.

When more than one public agency will be involved in undertaking or approving a project, the Lead Agency shall consult with all Responsible and any Trustee Agencies. Such consultation shall be undertaken in compliance with the notice procedures applicable to the type of CEQA document being prepared. See Section 6.04, Negative Declarations, and Sections 7.03 and 7.25, EIRs.

 ©Best Best & Krieger LLP

When the City is acting as Lead Agency, the City may choose to engage in early consultation with Responsible and Trustee Agencies before the City begins to prepare the Initial Study. This early consultation may be done quickly and informally and is intended to ensure that the EIR, Negative Declaration or Mitigated Negative Declaration reflects the concerns of all Responsible Agencies that will issue approvals for the project and all Trustee Agencies responsible for natural resources affected by the project. The City's early consultation process may include consultation with other individuals or organizations with an interest in the project, if the City so desires. The OPR, upon request of the City or a private project applicant, shall assist in identifying the various Responsible Agencies for a proposed project and ensure that the Responsible Agencies are notified regarding any early consultation. In the case of a project undertaken by a public agency, the OPR, upon request of the City, shall ensure that any Responsible Agency or public agency that has jurisdiction by law with respect to the project is notified regarding any early consultation.

If, during the early consultation process it is determined that the project will clearly have a significant effect on the environment, the City, as Lead Agency, may immediately dispense with the Initial Study and determine that an EIR is required.

(Reference: State CEQA Guidelines, § 15063.)

5.03 CONSULTATION WITH PRIVATE PROJECT APPLICANT.

During or immediately after preparation of an Initial Study for a private project, the City may consult with the applicant to determine if the applicant is willing to modify the project to reduce or avoid the significant effects identified in the Initial Study. If the project can be revised to avoid or mitigate effects to a level of insignificance and there is no substantial evidence before the City that the project, as revised, may have a significant effect on the environment, the City may prepare and adopt a Negative Declaration or Mitigated Negative Declaration. If any significant effect may still occur despite alterations of the project, an EIR must be prepared.

(Reference: State CEQA Guidelines, § 15063(g).)

5.04 PROJECTS SUBJECT TO NEPA.

Projects that are carried out, financed, or approved in whole or in part by a federal agency are subject to the provisions of NEPA in addition to CEQA. To the extent possible, the State CEQA Guidelines encourage the City, when it is a Lead Agency under CEQA, to use the federally-prepared Environmental Impact Statement ("EIS") or Finding of No Significant Impact ("FONSI") or to prepare a joint CEQA/NEPA document instead of preparing separate NEPA and CEQA documents for a project that is subject to both NEPA and CEQA. (State CEQA Guidelines section 15220.)

For example, the City should attempt to work in conjunction with the federal agency involved in the project to prepare a combined EIR-EIS or Negative Declaration-FONSI. (State CEQA Guidelines section 15222.) To avoid the need for the federal agency to prepare a separate document for the same project, the Lead Agency must involve the federal agency in the preparation of the joint document. The Lead Agency may also enter into a Memorandum of Understanding with the federal agency to ensure that both federal and state requirements are met.

The City is required to cooperate with the federal agency and to utilize joint planning processes, environmental research and studies, public hearings, and environmental documents to the fullest extent possible. (State CEQA Guidelines section 15226.) However, since NEPA does not require an examination of mitigation measures or growth-inducing impacts, analysis of mitigation measures and growth-inducing impacts will need to be added before NEPA documents may be used to satisfy CEQA. (State CEQA Guidelines section 15221.)

For projects that are subject to NEPA, a scoping meeting held pursuant to NEPA satisfies the CEQA scoping requirement as long as notice is provided to the agencies and individuals listed in Local Guidelines Section 7.10, and provided in accordance with these Local Guidelines.

If the federal agency refuses to cooperate with the City with regard to the preparation of joint documents, the City should attempt to involve a state agency in the preparation of the EIR, Negative Declaration, or Mitigated Negative Declaration. Since federal agencies are explicitly permitted to utilize environmental documents prepared by agencies of statewide jurisdiction, it is possible that the federal agency will reuse the state-prepared CEQA documents instead of requiring the applicant to fund a redundant set of federal environmental documents. (State CEQA Guidelines section 15228.)

Where the federal agency has circulated the EIS or FONSI and the circulation satisfied the requirements of CEQA and any other applicable laws, the City, when it is a Lead Agency under CEQA, may use the EIS or FONSI in place of an EIR or Negative Declaration without having to recirculate the federal documents. The City's intention to adopt the previously circulated EIS or FONSI must be publicly noticed in the same way as a Notice of Availability of a Draft EIR.

Special rules may apply when the environmental documents are prepared for projects involving the reuse of military bases. (See State CEQA Guidelines section 15225.)

5.05 AN INITIAL STUDY.

The Initial Study shall be used to determine whether a Negative Declaration, Mitigated Negative Declaration or an EIR shall be prepared for a project. It provides written documentation of whether the City found evidence of significant adverse impacts which might occur. The purposes of an Initial Study are to:

(a) Identify environmental impacts;
(b) Enable an applicant or Lead Agency to modify a project, mitigating adverse impacts before an EIR is written;
(c) Focus an EIR, if one is required, on potentially significant environmental effects;
(d) Facilitate environmental assessment early in the design of a project;
(e) Provide documentation of the factual basis for the finding in a Negative Declaration that a project will not have a significant effect on the environment;
(f) Eliminate unnecessary EIRs; and
(g) Determine whether a previously prepared EIR could be used for the project.

(Reference: State CEQA Guidelines, § 15063.)

5.06 CONTENTS OF INITIAL STUDY.

An Initial Study shall contain in brief form:

(a) A description of the project, including the location of the project. The project description must be consistent throughout the environmental review process;
(b) An identification of the environmental setting. The environmental setting is usually the existing physical environmental conditions in the vicinity of the project, as they exist at the time the Notice of Preparation is published, or if no Notice of Preparation is published, such as in the case of a Negative Declaration or Mitigated Negative Declaration, at the time environmental analysis begins. The environmental setting should describe both the project site and surrounding properties. The description should include, but not necessarily be limited to, a discussion of existing structures, land use, energy supplies, topography, water usage, soil stability, plants and animals, and any cultural, historical, or scenic aspects. This environmental setting will normally constitute the baseline physical conditions against which a Lead Agency may compare the project to determine whether an impact is significant;
(c) An identification of environmental effects by use of a checklist, matrix, or other method, provided that entries are briefly explained to show the evidence supporting the entries. The brief explanation may be through either a narrative or a reference to other information such as attached maps, photographs, or an earlier EIR or Negative Declaration or Mitigated Negative Declaration. A reference to another document should include a citation to the page or pages where the information is found;
(d) A discussion of ways to mitigate any significant effects identified;
(e) An examination of whether the project is consistent with existing zoning and local land use plans and other applicable land use controls;
(f) The name of the person or persons who prepared or participated in the Initial Study; and
(g) Identification of prior EIRs or environmental documents that could be used with the project.

(Reference: State CEQA Guidelines, § 15063(d).)

5.07 USE OF A CHECKLIST INITIAL STUDY.

When properly completed, the Environmental Checklist (Form "J") will meet the requirements of Local Guidelines Section 5.05 for an Initial Study provided that the entries on the checklist are explained. Either the Environmental Checklist (Form "J") should be expanded or a separate attachment should be prepared to describe the project, including its location, and to identify the environmental setting.

California courts have rejected the use of a bare, unsupported Environmental Checklist as an Initial Study. An Initial Study must contain more than mere conclusions. It must disclose supporting data or evidence upon which the Lead Agency relied in conducting the Initial Study. The Lead Agency must augment checklists with supporting factual data and reference information sources when completing the forms. Explanation of all "potential impact" answers should be provided on attached sheets. For controversial projects, it is advisable to state briefly why "no"

 ©Best Best & Krieger LLP

answers were checked. If practicable, attach a list of reference materials, such as prior EIRs, plans, traffic studies, air quality data, or other supporting studies.

5.08 EVALUATING SIGNIFICANT ENVIRONMENTAL EFFECTS.

In evaluating the environmental significance of effects disclosed by the Initial Study, the Lead Agency shall consider:

(a) Whether the Initial Study and/or any comments received informally during consultations indicate that a fair argument can be made that the project may have a significant adverse environmental impact that cannot be mitigated to a level of insignificance. Even if a fair argument can be made to the contrary, an EIR should be prepared;

(b) Whether both primary (direct) and reasonably foreseeable secondary (indirect) consequences of the project were evaluated. Primary consequences are immediately related to the project, while secondary consequences are related more to the primary consequences than to the project itself. For example, secondary impacts upon the resources base, including land, air, water and energy use of an area, may result from population growth, a primary impact;

(c) Whether adverse social and economic changes will result from a physical change caused by the project. Adverse economic and social changes resulting from a project are not, in themselves, significant environmental effects. However, if such adverse changes cause physical changes in the environment, those consequences may be used as the basis for finding that the physical change is significant;

(d) Whether there is serious public controversy or disagreement among experts over the environmental effects of the project. However, the existence of public controversy or disagreement among experts does not, without more, require preparation of an EIR in the absence of substantial evidence of significant effects;

(e) Whether the cumulative impact of the project is significant and whether the incremental effects of the project are "cumulatively considerable" (as defined in Local Guidelines Section 11.14) when viewed in connection with the effects of past projects, current projects, and probable future projects. The City may conclude that a project's incremental contribution to a cumulative effect is not cumulatively considerable if the project will comply with the requirements in a previously approved plan or mitigation program (including, but not limited to, water quality control plan, air quality attainment or maintenance plan, integrated waste management plan, habitat conservation plan, natural community conservation plan, plans or regulations for the reduction of greenhouse gas emissions) that provides specific requirements that will avoid or substantially lessen the cumulative problem. To be used for this purpose, such a plan or program must be specified in law or adopted by the public agency with jurisdiction over the affected resources through a public review process. In relying on such a plan or program, the City should explain which requirements apply to the project and ensure that the project's incremental contribution is not cumulatively considerable; and

(f) Whether the project may cause a substantial adverse change in the significance of an archaeological or historical resource.

The City may use a threshold of significance (as that term is defined in State CEQA Guidelines section 15064.7) to determine whether a project may cause a significant environmental

impact. When using a threshold of significance, the City should briefly explain how compliance with the threshold means that the project's impacts are less than significant. Compliance with the threshold, however, does not relieve the City of the obligation to consider substantial evidence indicating that a project's environmental effects may still be significant.

(Reference: State CEQA Guidelines, § 15064(b)(2).)

5.09 DETERMINING THE SIGNIFICANCE OF TRANSPORTATION IMPACTS

On or about December 28, 2018, the California Natural Resources Agency added a new section to the State CEQA Guidelines—Section 15064.3, entitled "Determining the Significance of Transportation Impacts."

Section 15064.3 provides:

> (a) Purpose.
>
> This section describes specific considerations for evaluating a project's transportation impacts. Generally, vehicle miles traveled is the most appropriate measure of transportation impacts. For the purposes of this section, "vehicle miles traveled" refers to the amount and distance of automobile travel attributable to a project. Other relevant considerations may include the effects of the project on transit and non-motorized travel. Except as provided in subdivision (b)(2) below (regarding roadway capacity), a project's effect on automobile delay shall not constitute a significant environmental impact.
>
> (b) Criteria for Analyzing Transportation Impacts.
>
> (1) Land Use Projects. Vehicle miles traveled exceeding an applicable threshold of significance may indicate a significant impact. Generally, projects within one-half mile of either an existing major transit stop or a stop along an existing high quality transit corridor should be presumed to cause a less than significant transportation impact. Projects that decrease vehicle miles traveled in the project area compared to existing conditions should be presumed to have a less than significant transportation impact.
>
> (2) Transportation Projects. Transportation projects that reduce, or have no impact on, vehicle miles traveled should be presumed to cause a less than significant transportation impact. For roadway capacity projects, agencies have discretion to determine the appropriate measure of transportation impact consistent with CEQA and other applicable requirements. To the extent that such impacts have already been adequately addressed at a programmatic level, such as in a regional transportation plan EIR, a lead agency may tier from that analysis as provided in Section 15152.
>
> (3) Qualitative Analysis. If existing models or methods are not available to estimate the vehicle miles traveled for the particular project being considered, a lead agency

may analyze the project's vehicle miles traveled qualitatively. Such a qualitative analysis would evaluate factors such as the availability of transit, proximity to other destinations, etc. For many projects, a qualitative analysis of construction traffic may be appropriate.

(4) Methodology. A lead agency has discretion to choose the most appropriate methodology to evaluate a project's vehicle miles traveled, including whether to express the change in absolute terms, per capita, per household or in any other measure. A lead agency may use models to estimate a project's vehicle miles traveled, and may revise those estimates to reflect professional judgment based on substantial evidence. Any assumptions used to estimate vehicle miles traveled and any revisions to model outputs should be documented and explained in the environmental document prepared for the project. The standard of adequacy in Section 15151 shall apply to the analysis described in this section.

(c) Applicability.

The provisions of this section shall apply prospectively as described in section 15007. A lead agency may elect to be governed by the provisions of this section immediately. Beginning on July 1, 2020, the provisions of this section shall apply statewide.

As noted above, the City does not elect to be governed by the provisions of Section 15064.3 before July 1, 2020. (State CEQA Guidelines, § 15064.3(c).)

5.10 MANDATORY FINDINGS OF SIGNIFICANT EFFECT.

Whenever there is substantial evidence, in light of the whole record, that any of the conditions set forth below may occur, the Lead Agency shall find that the project may have a significant effect on the environment and thereby shall require preparation of an EIR:

(a) The project has the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of major periods of California history or prehistory;

(b) The project has the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals;

(c) The project has possible environmental effects which are individually limited but cumulatively considerable, as defined in Local Guidelines Section 11.14. That is, the City, when acting as Lead Agency, is required to determine whether the incremental impacts of a project are cumulatively considerable by evaluating them against the back-drop of the environmental effects of the other projects; or

(d) The environmental effects of a project will cause substantial adverse effects on humans either directly or indirectly.

If, before the release of the CEQA document for public review, the potential for triggering one of the mandatory findings of significance is avoided or mitigation measures or project modifications reduce the potentially significant impacts to a point where clearly the mandatory finding of significance is not triggered, preparation of an EIR is not mandated. If the project's potential for triggering one of the mandatory findings of significance cannot be avoided or mitigated to a point where the criterion is clearly not triggered, an EIR shall be prepared, and the relevant mandatory findings of significance shall be used:

(1) as thresholds of significance for purposes of preparing the EIR's impact analysis;

(2) in making findings on the feasibility of alternatives or mitigation measures;

(3) when found to be feasible, in making changes in the project to lessen or avoid the adverse environmental impacts; and

(4) when necessary, in adopting a statement of overriding considerations.

Although an EIR prepared for a project that triggers one of the mandatory findings of significance must use the relevant mandatory findings as thresholds of significance, the EIR need not conclude that the impact itself is significant. Rather, the City, as Lead Agency, must exercise its discretion and determine, on a case-by-case basis after evaluating all of the relevant evidence, whether the project's environmental impacts are avoided or mitigated below a level of significance or whether a statement of overriding considerations is required.

With regard to a project that has the potential to substantially reduce the number or restrict the range of a protected species, the City, as Lead Agency, does not have to prepare an EIR solely due to that impact, provided the project meets the following three criteria:

(a) The project proponent must be bound to implement mitigation requirements relating to such species and habitat pursuant to an approved habitat conservation plan and/or natural communities conservation plan;
(b) The state or federal agency must have approved the habitat conservation plan and/or natural community conservation plan in reliance on an EIR and/or EIS; and
(c) The mitigation requirements must either avoid any net loss of habitat and net reduction in number of the affected species, or preserve, restore, or enhance sufficient habitat to mitigate the reduction in habitat and number of the affected species below a level of significance.

(Reference: State CEQA Guidelines, § 15065.)

5.11 MANDATORY PREPARATION OF AN EIR FOR WASTE-BURNING PROJECTS.

Lead Agencies shall prepare or cause to be prepared and certify the completion of an EIR, or, if appropriate, an Addendum, Supplemental EIR, or Subsequent EIR, for any project involving the burning of municipal wastes, hazardous waste or refuse-derived fuel, including, but not limited to, tires, if the project consists of any of the following:

(a) The construction of a new facility;

(b) The expansion of an existing hazardous waste burning facility which would increase its permitted capacity by more than 10%;
(c) The issuance of a hazardous waste facilities permit to a land disposal facility, as defined in Local Guidelines Section 11.32; or
(d) The issuance of a hazardous waste facilities permit to an offsite large treatment facility, as defined in Local Guidelines Sections 11.33 and 11.53.

This section does not apply to projects listed in subsections (c) and (d), immediately above, if the facility only manages hazardous waste that is identified or listed pursuant to Health and Safety Code section 25140 or 25141 or only conducts activities which are regulated pursuant to Health and Safety Code sections 25100, et seq.

The Lead Agency shall calculate the percentage of expansion for an existing facility by comparing the proposed facility's capacity with either of the following, as applicable:

(a) The facility capacity authorized in the facility's hazardous waste facilities permit pursuant to Health and Safety Code section 25200, or its grant of interim status pursuant to Health and Safety Code section 25200.5, or the facility capacity authorized in any state or local agency permit allowing the construction or operation of the facility for the burning of hazardous waste granted before January 1, 1990; or
(b) The facility capacity authorized in the facility's original hazardous facilities permit, grant of interim status, or any state or local agency permit allowing the construction or operation of a facility for the burning of hazardous waste, granted on or after January 1, 1990.

This section does not apply to any project over which the State Energy Resources Conservation and Development Commission has assumed jurisdiction per Health and Safety Code sections 25500 et seq.

The EIR requirement is also subject to a number of exceptions for specific types of waste-burning projects. (Public Resources Code section 21151.1 and State CEQA Guidelines section 15081.5.) Even if preparation of an EIR is not mandatory for a particular type of waste-burning project, those projects are not exempt from the other requirements of CEQA, the State CEQA Guidelines, or these Local Guidelines. In addition, waste-burning projects are subject to special notice requirements under Public Resources Code section 21092. Specifically, in addition to the standard public notices required by CEQA, notice must be provided to all owners and occupants of property located within one-fourth mile of any parcel or parcels on which the waste-burning project will be located. (Public Resources Code section 21092(c); see Local Guidelines Sections 6.12 and 7.27.)

5.12 DEVELOPMENT PURSUANT TO AN EXISTING COMMUNITY PLAN AND EIR.

Before preparing a CEQA document, Staff should determine whether the proposed project involves development consistent with an earlier zoning or community plan to accommodate a particular density for which an EIR has been certified. If an earlier EIR for the zoning or planning action has been certified, and if the proposed project concerns the approval of a subdivision map or development, CEQA applies only to the extent the project raises environmental effects peculiar to the parcel which were not addressed in the earlier EIR. Off-site and cumulative effects not

 ©Best Best & Krieger LLP

discussed in the general plan EIR must still be considered. Mitigation measures set out in the earlier EIR should be implemented at this stage.

Environmental effects shall not be considered peculiar to the parcel if uniformly applied development policies or standards have been previously adopted by a city or county with a finding based on substantial evidence that the policy or standard will substantially mitigate the environmental effect when applied to future projects. Examples of uniformly applied development policies or standards include, but are not limited to: parking ordinances; public access requirements; grading ordinances; hillside development ordinances; flood plain ordinances; habitat protection or conservation ordinances; view protection ordinances; and requirements for reducing greenhouse gas emissions as set forth in adopted land use plans, policies or regulations. Any rezoning action consistent with the Community Plan shall be subject to exemption from CEQA in accordance with this section. "Community Plan" means part of a city's general plan which: (1) applies to a defined geographic portion of the total area included in the general plan; (2) complies with Article 5 (commencing with Section 65300) of Chapter 3 of Division 1 of Title 7 of the Government Code by referencing each of the mandatory elements specified in Government Code section 65302; and (3) contains specific development policies adopted for the area in the Community Plan and identifies measures to implement those policies, so that the policies which will apply to each parcel can be determined.

(Reference: State CEQA Guidelines, § 15183.)

5.13 LAND USE POLICIES.

When a project will amend a general plan or another land use policy, the Initial Study must address how the change in policy and its expected direct and indirect effects will affect the environment. When the amendments constitute substantial changes in policies that result in a significant impact on the environment, an EIR may be required.

5.14 EVALUATING IMPACTS ON HISTORICAL RESOURCES.

Projects that may cause a substantial adverse change in the significance of a historical resource, as defined in Local Guidelines Section 11.28 are projects that may have a significant effect on the environment, thus requiring consideration under CEQA. Particular attention and care should be given when considering such projects, especially projects involving the demolition of a historical resource, since such demolitions have been determined to cause a significant effect on the environment.

Substantial adverse change in the significance of a historical resource means physical demolition, destruction, relocation or alteration of the resource or its immediate surroundings, such that the significance of a historical resource would be materially impaired.

The significance of a historical resource is materially impaired when a project:

(a) Demolishes or materially alters in an adverse manner those physical characteristics of a historical resource that convey its historical significance and that justify its inclusion in, or eligibility for inclusion in, the California Register of Historical Resources;

(b) Demolishes or materially alters in an adverse manner those physical characteristics that account for its inclusion in a local register of historical resources or its identification in a historical resources survey, unless the Lead Agency establishes by a preponderance of evidence that the resource is not historically or culturally significant; or

(c) Demolishes or materially alters in an adverse manner those physical characteristics of a historical resource that convey its historical significance and that justify its eligibility for inclusion in the California Register of Historical Resources as determined by the Lead Agency for purposes of CEQA.

Generally, a project that follows either one of the following sets of standards and guidelines will be considered mitigated to a level of less than significant: (a) the Secretary of the Interior's Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings; or (b) the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings (1995), Weeks and Grimmer.

In the event of an accidental discovery of a possible historical resource during construction of the project, the City may provide for the evaluation of the find by a qualified archaeologist or other professional. If the find is determined to be a historical resource, the City should take appropriate steps to implement appropriate avoidance or mitigation measures. Work on non-affected portions of the project, as determined by the City, may continue during the process. Curation may be an appropriate mitigation measure for an artifact that must be removed during project excavation or testing.

(Reference: State CEQA Guidelines, § 15064.5.)

5.15 EVALUATING IMPACTS ON ARCHAEOLOGICAL SITES.

When a project will impact an archaeological site, the City shall first determine whether the site is a historical resource, as defined in Local Guidelines Section 11.28 If the archaeological site is a historical resource, it shall be treated and evaluated as such, and not as an archaeological resource. If the archaeological site does not meet the definition of a historical resource, but does meet the definition of a unique archaeological resource set forth in Public Resources Code section 21083.2, the site shall be treated in accordance with said provisions of the Public Resources Code. The time and cost limitations described in Section 21083.2(c-f) do not apply to surveys and site evaluation activities intended to determine whether the project site contains unique archaeological resources.

If the archaeological resource is neither a unique archaeological resource nor a historical resource, the effects of the project on those resources shall not be considered a significant effect on the environment. It shall be sufficient that both the resource and the effect on it are noted in the Initial Study or EIR, if one is prepared to address impacts on other resources, but they need not be considered further in the CEQA process.

In the event of an accidental discovery of a possible unique archaeological resource during construction of the project, the City may provide for the evaluation of the find by a qualified archaeologist. If the find is determined to be a unique archaeological resource, the City should

take appropriate steps to implement appropriate avoidance or mitigation measures. Work on non-affected portions of the project, as determined by the City, may continue during the process. Curation may be an appropriate mitigation measure for an artifact that must be removed during project excavation or testing.

When an Initial Study identifies the existence of, or the probable likelihood of, Native American human remains within the Project, the City shall comply with the provisions of State CEQA Guidelines section 15064.5(d). In the event of an accidental discovery or recognition of any human remains in any location other than a dedicated cemetery, the City shall comply with the provisions of State CEQA Guidelines section 15064.5(e).

(Reference: State CEQA Guidelines, § 15064.5(c).)

5.16 CONSULTATION WITH WATER AGENCIES REGARDING LARGE DEVELOPMENT PROJECTS.

(a) Projects Subject to Consultation Requirements.

For certain development projects, cities and counties must consult with water agencies. If the City is a municipal water provider, the city or county may request that the City prepare a water supply assessment to be included in the relevant environmental documentation for the project. The City may refer to this section when preparing such an assessment or when reviewing projects in its role as a Responsible Agency. This section applies only to water demand projects as defined by Guideline 11.78. Program level environmental review may not need to be as extensive as project level environmental review. (See Local Guidelines Sections 8.03 and 8.08.)

(b) Water Supply Assessment.

When a city or county as Lead Agency determines the type of environmental document that will be prepared for a water demand project or any project that includes a water demand project, the city or county must identify any public water system (as defined in Local Guidelines Sections 11.59 and 11.83) that may supply water for the project. The city or county must also request that the public water system determine whether the projected demand associated with the project was included in the most recently adopted Urban Water Management Plan. The city or county must also request that the public water system prepare a specified water supply assessment for approval at a regular or special meeting of the public water system governing body.

If no public water system is identified that may supply water for the water demand project, the city or county shall prepare the water supply assessment. The city or county shall consult with any entity serving domestic water supplies whose service area includes the site of the water demand project, the local agency formation commission, and the governing body of any public water system adjacent to the site of the water demand project. The city council or county board of supervisors must approve the water assessment prepared pursuant to this paragraph at a regular or special meeting.

As per Water Code section 10910, the water assessment must include identification of existing water supply entitlements, water rights, or water service contracts relevant to the water supply for the proposed project and water received in prior years pursuant to those entitlements,

rights, and contracts, and further information is required if water supplies include groundwater. The water assessment must determine the ability of the public water system to meet existing and future demands along with the demands of the proposed water demand project in light of existing and future water supplies. This supply demand analysis is to be conducted via a twenty-year projection, and must assess water supply sufficiency during normal year, single dry year, and multiple dry year hydrology scenarios. If the public water agency concludes that the water supply is, or will be, insufficient, it must submit plans for acquiring additional water supplies.

The city or county may grant the public water agency a thirty (30) day extension of time to prepare the assessment if the public water agency requests an extension within ninety (90) days of being asked to prepare the assessment. If the governing body of the public water system fails to request and receive an extension of time, or fails to submit the water assessment notwithstanding the thirty (30) day extension, the city or county may seek a writ of mandamus to compel the governing body of the public water system to comply.

If a water-demand project has been the subject of a water assessment, no additional water assessment shall be required for subsequent water-demand projects that were included in the larger water-demand project if all of the following criteria are met:

(1) The entity completing the water assessment concluded that its water supplies are sufficient to meet the projected water demand associated with the larger water-demand project, in addition to the existing and planned future uses, including, but not limited to, agricultural and industrial uses; and

(2) None of the following changes has occurred since the completion of the water assessment for the larger water-demand project:

(A) Changes in the larger water-demand project that result in a substantial increase in water demand for the water-demand project;

(B) Changes in the circumstances or conditions substantially affecting the ability of the public water system identified in the water assessment to provide a sufficient supply of water for the water demand project; and

(C) Significant new information becomes available which was not known and could not have been known at the time when the entity had reached its assessment conclusions. The city or county shall include the water assessment, and any water acquisition plan in the EIR, negative declaration, or mitigated negative declaration, or any supplement thereto, prepared for the project, and may include an evaluation of the water assessment and water acquisition plan information within such environmental document. A discussion of water supply availability should be included in the main text of the environmental document. Normally, this discussion should be based on the data and information included in the water supply assessment. In making its required findings under CEQA, the city or county shall determine, based on the entire record, whether projected water supplies will be sufficient to satisfy the demands of the project, in addition to existing and planned future uses. If a city or county determines that water supplies will not be sufficient, the city or county shall include that determination in its findings for the project.

 ©Best Best & Krieger LLP

The degree of certainty regarding the availability of water supplies will vary depending on the stage of project approval. A Lead Agency should have greater confidence in the availability of water supplies for a specific project than might be required for a conceptual plan (i.e. general plan, specific plan). An analysis of water supply in an environmental document may incorporate by reference information in a water supply assessment, urban water management plan, or other publicly available sources. The analysis shall include the following:

(1) Sufficient information regarding the project's proposed water demand and proposed water supplies to permit the Lead Agency to evaluate the pros and cons of supplying the amount of water that the project will need.

(2) An analysis of the reasonably foreseeable environmental impacts of supplying water throughout all phases of the project.

(3) An analysis of circumstances affecting the likelihood of the water's availability, as well as the degree of uncertainty involved. Relevant factors may include but are not limited to, drought, salt-water intrusion, regulatory or contractual curtailments, and other reasonably foreseeable demands on the water supply.

(4) If the Lead Agency cannot determine that a particular water supply will be available, it shall conduct an analysis of alternative sources, including at least in general terms the environmental consequences of using those alternative sources, or alternatives to the project that could be served with available water.

For complete information on these requirements, consult Water Code sections 10910, et seq. For other CEQA provisions applicable to these types of projects, see Local Guidelines Sections 7.03 and 7.25.

5.17 SUBDIVISIONS WITH MORE THAN 500 DWELLING UNITS.

Cities and counties must obtain written verification (see Form "O" for a sample) from the applicable public water system(s) that a sufficient water supply is available before approving certain residential development projects. If the City is a municipal water provider for a project, the city or county may request such a verification from the City. The City should also be aware of these requirements when reviewing projects in its role as a Responsible Agency.

Cities and counties are prohibited from approving a tentative map, parcel map for which a tentative map was not required, or a development agreement for a subdivision of property of more than 500 dwellings units, unless:

(1) The City Council, Board of Supervisors, or the advisory agency receives written verification from the applicable public water system that a sufficient water supply is available; or

(2) Under certain circumstances, the City Council, Board of Supervisors or the advisory agency makes a specified finding that sufficient water supplies are, or will be, available prior to completion of the project.

 ©Best Best & Krieger LLP

For complete information on these requirements, consult Government Code section 66473.7.

5.18 IMPACTS TO OAK WOODLANDS.

When a county prepares an Initial Study to determine what type of environmental document will be prepared for a project within its jurisdiction, the county must determine whether the project may result in a conversion of oak woodlands that will have a significant effect on the environment. Normally, this rule will not apply to projects undertaken by the City. However, if the City is a Responsible Agency on such a project, the City should endeavor to ensure that the county, as Lead Agency, analyzes these impacts in accordance with CEQA.

(Reference: Pub. Resources Code, § 21083.4.)

5.19 CLIMATE CHANGE AND GREENHOUSE GAS EMISSIONS.

A. Estimating or Calculating the Magnitude of the Project's Greenhouse Gas Emissions.

The City shall analyze the greenhouse gas emissions of its projects as required by State CEQA Guidelines section 15064.4. For projects subject to CEQA, the City shall make a good-faith effort, based to the extent possible on scientific and factual data, to describe, calculate or estimate the amount of greenhouse gas emissions resulting from a project.

In performing analysis of greenhouse gas emissions, the City, as Lead Agency, shall have discretion to determine, in the context of a particular project, whether to:

(1) Quantify greenhouse gas emissions resulting from a project; and/ or

(2) Rely on a qualitative analysis or performance-based standards.

B. Factors in Determining Significance.

In determining the significance of a project's greenhouse gas emissions, the City, when acting as Lead Agency, should focus its analysis on the reasonably foreseeable incremental contribution of the project's emissions to the effects of climate change. A project's incremental contribution may be cumulatively considerable even if it appears relatively small compared to statewide, national, or global emissions. The City's analysis should consider a timeframe that is appropriate for the project. The City's analysis also must reasonably reflect evolving scientific knowledge and state regulatory schemes.

Once the amount of a project's greenhouse gas emissions have been described, estimated, or calculated, the City should consider the following factors, among others, to determine whether those emissions are significant:

(1) The extent to which the project may increase or reduce greenhouse gas emissions as compared to the existing environmental setting. Physical environmental conditions in the vicinity of the project, as they exist at the

time the Notice of Preparation is published or the time when the environmental analysis is commenced, will normally constitute the baseline. All project phases, including construction and operation, should be considered in determining whether a project will cause emissions to increase or decrease as compared to the baseline;

(2) Whether the project emissions exceed a threshold of significance that the Lead Agency determines applies to the project. The Lead Agency may rely on thresholds of significance developed by experts or other agencies, provided that application of the threshold and the significance conclusion is supported with substantial evidence. When relying on thresholds developed by other agencies, the Lead Agency should ensure that the threshold is appropriate for the project and the project's location; and

(3) The extent to which the project complies with regulations or requirements adopted to implement a statewide, regional, or local plan for the reduction or mitigation of greenhouse gas emissions (see, e.g., State CEQA Guidelines section 15183.5(b)). Such requirements must be adopted by the relevant public agency through a public review process and must reduce or mitigate the project's incremental contribution of greenhouse gas emissions. If there is substantial evidence that the possible effects of a particular project are still cumulatively considerable notwithstanding compliance with the adopted regulations or requirements, an EIR must be prepared for the project. In determining the significance of impacts, the Lead Agency may consider a project's consistency with the State's long-term climate goals or strategies, provided that substantial evidence supports the agency's analysis of how those goals or strategies address the project's incremental contribution to climate change and its conclusion that the project's incremental contribution is not cumulatively considerable.

The Lead Agency may use a model or methodology to estimate greenhouse gas emissions resulting from a project. The Lead Agency has discretion to select the model or methodology it considers most appropriate to enable decision makers to intelligently take into account the project's incremental contribution to climate change. The Lead Agency must support its selection of a model or methodology with substantial evidence. The Lead Agency should explain the limitations of the particular model or methodology selected for use.

C. Consistency with Applicable Plans.

When an EIR is prepared, it must discuss any inconsistencies between the proposed project and any applicable general plan, specific plans, and regional plans. This includes, but is not limited to, any applicable air quality attainment plans, regional blueprint plans, or plans for the reduction of greenhouse gas emissions.

D. Mitigation Measures Related to Greenhouse Gas Emissions.

Lead Agencies must consider feasible means of mitigating the significant effects of greenhouse gas emissions. Any such mitigation measure must be supported by substantial evidence and be subject to monitoring or reporting. Potential mitigation will depend on the particular circumstances of the project, but may include the following, among others:

(1) Measures in an existing plan or mitigation program for the reduction of emissions that are required as part of the Lead Agency's decision;

(2) Reductions in emissions resulting from a project through implementation of project features, project design, or other measures, such as those described in State CEQA Guidelines Appendix F;

(3) Off-site measures, including offsets that are not otherwise required, to mitigate a project's emissions;

(4) Measures that sequester greenhouse gases; and

(5) In the case of the adoption of a plan, such as a general plan, long range development plan, or plan for the reduction of greenhouse gas emissions, mitigation may include the identification of specific measures that may be implemented on a project-by-project basis. Mitigation may also include the incorporation of specific measures or policies found in an adopted ordinance or regulation that reduces the cumulative effect of emissions.

E. Streamlined Analysis of Greenhouse Gas Emissions.

Under certain limited circumstances, the legislature has specifically declared that the analysis of greenhouse gas emissions or climate change impacts may be limited. Public Resources Code sections 21155, 21155.2, and 21159.28 provide that if certain residential, mixed use and transit priority projects meet specified ratios and densities, then the lead agencies for those projects may conduct a limited review of greenhouse gas emissions or may be exempted from analyzing global warming impacts that result from cars and light duty trucks, if a detailed list of requirements is met. However, unless the project is exempt from CEQA, the Lead Agency must consider whether such projects will result in greenhouse gas emissions from other sources, including, but not limited to, energy use, water use, and solid waste disposal.

F. Tiering.

The City may analyze and mitigate the significant effects of greenhouse gas emissions at a programmatic level. Later project-specific environmental documents may then tier from and/or incorporate by reference that existing programmatic review.

G. Plans for the Reduction of Greenhouse Gas Emissions.

Public agencies may choose to analyze and mitigate greenhouse gas emissions in a plan for the reduction of greenhouse gas emissions or in a similar document. A plan for the reduction of greenhouse gas emissions should:

(1) Quantify greenhouse gas emissions, both existing and projected over a specified time period, resulting from activities within a defined geographic area;

(2) Establish a level, based on substantial evidence, below which the contribution to greenhouse gas emissions from activities covered by the plan would not be cumulatively considerable;

(3) Identify and analyze the greenhouse gas emissions resulting from specific actions or categories of actions anticipated within the geographic area;

(4) Specify measures or a group of measures, including performance standards, that substantial evidence demonstrates, if implemented on a project-by-project basis, would collectively achieve the specified emissions level;

(5) Establish a mechanism to monitor the plan's progress toward achieving the level and to require amendment if the plan is not achieving specified levels; and

(6) Be adopted in a public process following environmental review.

A plan for the reduction of greenhouse gas emissions, once adopted following certification of an EIR, or adoption of another environmental document, may be used in the cumulative impacts analysis of later projects. An environmental document that relies on a plan for the reduction of greenhouse gas emissions for a cumulative impacts analysis must identify those requirements specified in the plan that apply to the project, and, if those requirements are not otherwise binding and enforceable, incorporate those requirements as mitigation measures applicable to the project. If there is substantial evidence that the effects of a particular project may be cumulatively considerable notwithstanding the project's compliance with the specified requirements in the plan for reduction of greenhouse gas emissions, an EIR must be prepared for the project.

H. Analyzing the Effects of Climate Change on the Project.

Where an EIR is prepared for a project, the EIR shall analyze any significant environmental effects the project might cause by bringing development and people into the project area that may be affected by climate change. In particular, the EIR should evaluate any potentially significant impacts of locating development in areas susceptible to hazardous conditions (e.g., floodplains, coastlines, wildfire risk areas) as identified in authoritative hazard maps, risk assessments or in land use plans addressing such hazards areas. The analysis may be limited to the potentially significant effects of locating the project in a potentially hazardous location. Further, this analysis may be limited by the project's life in relation to the potential of such effects to occur and the availability of existing information related to potential future effects of climate change. Further, the EIR need not include speculation regarding such future effects.

5.20 ENERGY CONSERVATION.

Potentially significant energy implications of a project must be considered in an EIR to the extent relevant and applicable to the project. Therefore, the project description should identify the following as applicable or relevant to the particular project:

(1) Energy consuming equipment and processes which will be used during construction, operation and/or removal of the project. If appropriate, this discussion should consider the energy intensiveness of materials and equipment required for the project;

(2) Total energy requirements of the project by fuel type and end use;

(3) Energy conservation equipment and design features;

(4) Identification of energy supplies that would serve the project; and

(5) Total estimated daily vehicle trips to be generated by the project and the additional energy consumed per trip by mode.

As described in Local Guidelines Section 5.06, above, an initial study must include a description of the environmental setting. The discussion of the environmental setting may include existing energy supplies and energy use patterns in the region and locality. The City may also consider the extent to which energy supplies have been adequately considered in other environmental documents. Environmental impacts may include:

(1) The project's energy requirements and its energy use efficiencies by amount and fuel type for each stage of the project including construction, operation, maintenance and/or removal. If appropriate, the energy intensiveness of materials may be discussed;

(2) The effects of the project on local and regional energy supplies and on requirements for additional capacity;

(3) The effects of the project on peak and base period demands for electricity and other forms of energy;

(4) The degree to which the project complies with existing energy standards;

(5) The effects of the project on energy resources; and/or

(6) The project's projected transportation energy use requirements and its overall use of efficient transportation alternatives.

As discussed above in Section 5.06, the Initial Study must identify the potential environmental effects of the proposed activity. That discussion must include the unavoidable adverse effects. Unavoidable adverse effects may include wasteful, inefficient and unnecessary consumption of energy during the project construction, operation, maintenance and/or removal that cannot be feasibly mitigated.

When discussing energy conservation, alternatives should be compared in terms of overall energy consumption and in terms of reducing wasteful, inefficient and unnecessary consumption of energy.

5.21 ENVIRONMENTAL IMPACT ASSESSMENT.

The Initial Study identifies which environmental impacts may be significant. Based upon the Initial Study, Staff shall determine whether a proposed project may or will have a significant effect on the environment. Such determination shall be made in writing on the Environmental Impact Assessment Form (Form "C"). If Staff finds that a project will not have a significant effect on the environment, it shall recommend that a Negative Declaration be prepared and adopted by the decision-making body. If Staff finds that a project may have a significant effect on the environment, but the effects can be mitigated to a level of insignificance, it shall recommend that a Mitigated Negative Declaration be prepared and adopted by the decision-making body. If Staff finds that a project may have a significant effect on the environment, it shall recommend that an EIR be prepared and certified by the decision-making body.

5.22 FINAL DETERMINATION.

The City Council shall have the final responsibility for determining whether an EIR, Negative Declaration or Mitigated Negative Declaration shall be required for any project. The City Council's determination shall be final and conclusive on all persons, including Responsible Agencies and Trustee Agencies, except as provided in Section 15050(c) of the State CEQA Guidelines. Additionally, in the event the City Council has delegated authority to a subsidiary board or official to approve a project, the City Council also hereby delegates to that subsidiary board or official the authority to make all necessary CEQA determinations, including whether an EIR, Negative Declaration, Mitigated Negative Declaration or exemption shall be required for any project. A subsidiary board or official's CEQA determination shall be subject to appeal consistent with the City's established procedures for appeals.

 ©Best Best & Krieger LLP

6. NEGATIVE DECLARATION

6.01 DECISION TO PREPARE A NEGATIVE DECLARATION.

A Negative Declaration (Form "E") shall be prepared for a project subject to CEQA when the Initial Study shows that there is no substantial evidence in light of the whole record that the project may have a significant or potentially significant adverse effect on the environment. (See Local Guidelines Sections 11.65 and 11.71.)

(Reference: State CEQA Guidelines, § 15070(a).)

6.02 DECISION TO PREPARE A MITIGATED NEGATIVE DECLARATION.

A Mitigated Negative Declaration (Form "E") shall be prepared for a project subject to CEQA when the Initial Study identifies potentially significant effects on the environment, but:

(a) The project applicant has agreed to revise the project or the City can revise the project to avoid these significant effects or to mitigate the effects to a point where it is clear that no significant effects would occur; or
(b) There is no substantial evidence in light of the whole record before the City that the revised project may have a significant effect.

It is insufficient to require an applicant to adopt mitigation measures after final adoption of the Mitigated Negative Declaration or to state that mitigation measures will be recommended on the basis of a future study. The City must know the measures at the time the Mitigated Negative Declaration is adopted in order for them to be evaluated and accepted as adequate mitigation. Evidence of agreement by the applicant to such mitigation should be in the record prior to public review. Except where noted, the procedural requirements for the preparation and approval of a Negative Declaration and Mitigated Negative Declaration are the same.

(Reference: State CEQA Guidelines, § 15070(b).)

6.03 CONTRACTING FOR PREPARATION OF NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

The City, when acting as Lead Agency, is responsible for preparing all documents required pursuant to CEQA. The documents may be prepared by Staff or by private consultants pursuant to a contract with the City, but they must be the City's product and reflect the independent judgment of the City.

6.04 NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

When, based upon the Initial Study, it is recommended to the decision-making body that a Negative Declaration or Mitigated Negative Declaration be adopted, a Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration (Form "D") shall be prepared. In addition to being provided to the public through the means set forth in Local Guidelines Section 6.07, this Notice shall also be provided to:

 ©Best Best & Krieger LLP

(a) Each Responsible and Trustee Agency;
(b) Any other federal, state, or local agency that has jurisdiction by law or exercises authority over resources affected by the project, including:

(1) Any water supply agency consulted under Local Guidelines Section 5.16;

(2) Any city or county bordering on the project area;

(3) For a project of statewide, regional, or area-wide significance, to any transportation agencies or public agencies which have major local arterials or public transit facilities within five (5) miles of the project site or freeways, highways, or rail transit service within ten (10) miles of the project site which could be affected by the project; and

(4) For a subdivision project located within one mile of a facility of the State Water Resources Development System, to the California Department of Water Resources;

(c) The last known name and address of all organizations and individuals who have previously filed a written request with the City to receive these Notices;
(d) For certain projects that may impact a low-level flight path, military impact zone, or special use airspace and that meet the other criteria of Local Guidelines Section 6.05, to the specified military services contact;
(e) For certain projects that involve the construction or alteration of a facility anticipated to include hazardous air emissions or handle hazardous substances within one-quarter mile of a school and that meet the other requirements of Local Guidelines Section 6.06, to any potentially affected school district;
(f) For certain waste-burning projects that meet the requirements of Local Guidelines Section 5.11 (regarding mandatory preparation of EIR) (see also Local Guidelines Section 7.27), to the owners and occupants of property within one-fourth mile of any parcel on which the project will be located; and
(g) For a project that establishes or amends a redevelopment plan that contains land in agricultural use, notice shall be provided to the agricultural and farm agencies and organizations specified in Health and Safety Code section 33333.3.

The Notice of Intent must also be posted to the Lead Agency's website, if any. (Pub. Resources Code, § 21092.2(d).) Additionally, for a project of statewide, regional, or area-wide significance, the Lead Agency should also consult with public transit agencies with facilities within one-half mile of the proposed project.

A copy of the proposed Negative Declaration or Mitigated Negative Declaration and the Initial Study shall be attached to the Notice of Intent to Adopt that is sent to every Responsible Agency and Trustee Agency concerned with the project and every other public agency with jurisdiction by law over resources affected by the project.

The public review period for a Negative Declaration or Mitigated Negative Declaration shall not be less than twenty (20) days; the public review period shall be at least thirty (30) days where the Negative Declaration or Mitigated Negative Declaration is for a proposed project where

(1) a state agency is the lead agency, a responsible agency, or a trustee agency; (2) a state agency otherwise has jurisdiction by law with respect to the project; or (3) the proposed project is of sufficient statewide, regional, or area-wide significance as determined pursuant to State CEQA Guidelines section 15206. The Lead Agency shall give notice of the public review period by filing and posting a Notice of Intent to Adopt a Negative Declaration (Form "D") with the County Clerk before commencement of the public review period; where a public review period of at least 30 days is required, the Lead Agency shall also electronically submit the Notice of Intent to the State Clearinghouse. (Pub. Resources Code, § 21091.)

For purposes of calculating the length of the public review period, the last day of the public review period cannot fall on a weekend, a legal holiday, or other day on which the lead agency's offices are closed.[1] (Reference: *Rominger v. County of Colusa* (2014) 229 Cal.App.4th 690, 708.)

If the Negative Declaration or Mitigated Negative Declaration has been submitted to the State Clearinghouse for review by state agencies, the public review period shall be at least as long as the period of review and comment by state agencies. (See Local Guidelines Section 6.10.) Day one of the state agency review period shall be the date that the State Clearinghouse distributes the Negative Declaration or Mitigated Negative Declaration to state agencies.

The Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration shall contain the following information:

(a) The period during which comments shall be received;
(b) The date, time and place of any public meetings or hearings on the proposed project;
(c) A brief description of the proposed project and its location;
(d) The address where copies of the proposed Negative Declaration or Mitigated Negative Declaration and all documents incorporated by reference in the proposed Negative Declaration or Mitigated Negative Declaration are available for review;
(e) A description of how the proposed Negative Declaration or Mitigated Negative Declaration can be obtained in electronic format;
(f) The Environmental Protection Agency ("EPA") list on which the proposed project site is located, if applicable, and the corresponding information from the applicant's statement (see Local Guidelines Section 2.05); and
(g) The significant effects on the environment, if any, anticipated as a result of the proposed project.

(Reference: Pub. Resources Code, §§ 21082.1, 21091, 21161; State CEQA Guidelines, §§ 15072, 15105, 15205.)

[1] A public agency's "offices are closed" for purposes of this section on days in which the agency is formally closed for business (for example, due to a weekend, a legal holiday, or a formal furlough affecting the entire office). A public agency's office is not considered closed for purposes of this section where the agency's office may be physically closed, but the agency is nonetheless open for business and is operating remotely or virtually (for example, in response to the Covid-19 pandemic).

6.05 PROJECTS AFFECTING MILITARY SERVICES; DEPARTMENT OF DEFENSE NOTIFICATION.

CEQA imposes additional requirements to provide notice to potentially affected military agencies when:

(a) The project meets one of the following three criteria:

(1) The project includes a general plan amendment;

(2) The project is of statewide, regional, or area-wide significance; or

(3) The project relates to a public use airport or certain lands surrounding a public use airport; and

(b) A "military service" (defined in Section 11.42 of these Local Guidelines) has provided its contact office and address and notified the Lead Agency of the specific boundaries of a "low-level flight path" (defined in Section 11.37 of these Local Guidelines), "military impact zone" (defined in Section 11.41 of these Local Guidelines), or "special use airspace" (defined in Section 11.67 of these Local Guidelines).

When a project meets these requirements, the City must provide the military service's designated contact with a copy of the Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration that has been prepared for the project, unless the project involves the remediation of lands contaminated with hazardous wastes and meets certain other requirements. See Public Resources Code sections 21080.4 and 21092 and Health and Safety Code sections 25300, et seq.; 25396; and 25187.

The City must provide the military service with sufficient notice of its intent to adopt a Negative Declaration or Mitigated Negative Declaration to ensure that the military service has no fewer than twenty (20) days to review the documents before they are approved, provided that the military service shall have a minimum of thirty (30) days to review the environmental documents if the documents have been submitted to the State Clearinghouse. See State CEQA Guidelines sections 15105(b) and 15190.5(c).

6.06 SPECIAL FINDINGS REQUIRED FOR FACILITIES THAT MAY EMIT HAZARDOUS AIR EMISSIONS NEAR SCHOOLS.

Special procedural rules apply to projects involving the construction or alteration of a facility within one-quarter mile of a school/schools when: (1) the facility might reasonably be anticipated to emit hazardous air emissions or to handle an extremely hazardous substance or a mixture containing extremely hazardous substances in a quantity equal to or greater than the threshold specified in Health and Safety Code section 25532(j), and (2) the emissions or substances may pose a health or safety hazard to persons who would attend or would be employed at the school. If the project meets both of those criteria, a Lead Agency may not approve a Negative Declaration or a Mitigated Negative Declaration unless both of the following have occurred:

(a) The Lead Agency consulted with the affected school district or districts having jurisdiction over the school regarding the potential impact of the project on the school; and
(b) The school district(s) was given written notification of the project not less than thirty (30) days prior to the proposed approval of the Negative Declaration.

When the City is considering the adoption of a Negative Declaration or Mitigated Negative Declaration for a project that meets these criteria, it can satisfy this requirement by providing the Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration, the proposed Negative Declaration or Mitigated Negative Declaration, and the Initial Study to the potentially affected school district at least thirty (30) days before the decision-making body will consider the adoption of the Negative Declaration or Mitigated Negative Declaration. See also Local Guidelines Section 6.04.

Implementation of this Guideline shall be consistent with the definitions and terms utilized in State CEQA Guidelines section 15186.

6.07 CONSULTATION WITH CALIFORNIA NATIVE AMERICAN TRIBES.

Prior to the release of a Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration for a project, the Lead Agency shall begin consultation with a California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed project if:

(a) The California Native American tribe requested to the Lead Agency, in writing, to be informed by the Lead Agency through formal notification of proposed projects in the geographic area that is traditionally and culturally affiliated with the tribe; and

(b) The California Native American tribe responds, in writing, within 30 days of receipt of the formal notification, and requests the consultation. The California Native American tribe shall designate a lead contact person when responding to the Lead Agency. If a lead contact is not designated by the California Native American tribe, or it designates multiple lead contact people, the Lead Agency shall defer to the individuals listed on the contact list maintained by the Native American Heritage Commission. Consultation is defined in Local Guidelines Section 11.12.

To expedite the requirements of this section, the Native American Heritage Commission shall assist the Lead Agency in identifying the California American Native tribes that are traditionally and culturally affiliated with the project area.

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the Lead Agency shall provide formal notification to the designated contact of, or a trial representative of, traditionally and culturally affiliated California Native America tribes that have requested notice, which shall be accomplished by at least one written notification that includes a brief description of the proposed project and its location, the Lead Agency contact information, and a notification that the California Native American tribe has 30 days to request consultation. Where the application for a housing

development project is deemed to be complete on or after March 4, 2020 and before December 31, 2021, the California Native American tribe shall have 60 days to respond to the Lead Agency and request consultation. (Reference: Gov. Code, § 65583(i).)

The Lead Agency shall begin the consultation process within 30 days of receiving a California Native American tribe's request for consultation.

If consultation is requested, the parties may propose mitigation measures, including those set forth in Public Resources Code section 21084.3, capable of avoiding or substantially lessening potential significant impacts to a tribal cultural resource or alternatives that would avoid significant impacts to a tribal cultural resource. The consultation may include discussion concerning the type of environmental review necessary, the significance of tribal cultural resources, the significance of the project's impacts on the tribal cultural resources, and, if necessary, project alternatives or the appropriate measures for preservation or mitigation that the California Native American tribe may recommend to the Lead Agency.

The consultation shall be considered concluded when either of the following occurs:

(1) The parties agree to measures to mitigate or avoid a significant effect, if a significant effect exists, on a tribal cultural resource.

(2) A party, acting in good faith and after reasonable effort, concludes that mutual agreement cannot be reached.

The California Native American tribe is not limited in its ability to submit information to the lead agency regarding the significance of the tribal cultural resources, the significance of the project's impact on tribal cultural resources, or any appropriate measures to mitigate the impacts. Additionally, the lead agency or project proponent is not limited in its ability to incorporate changes and additions to the project as a result of the consultation, even if not legally required.

(Reference: Pub. Resources Code, §§ 21080.3.1, 21080.3.2.)

6.08 IDENTIFICATION OF TRIBAL CULTURAL RESOURCES AND PROCESSING OF INFORMATION AFTER CONSULTATION WITH THE CALIFORNIA NATIVE AMERICAN TRIBE

After consultation with the California Native American tribe listed above in Local Guidelines Section 6.07, any mitigation measures agreed upon in the consultation conducted pursuant to Public Resources Code section 21080.3.2 shall be recommended for inclusion in the Mitigated Negative Declaration and in an adopted mitigation monitoring and reporting program, if the mitigation measures are determined to avoid or lessen the proposed project’s impacts on tribal cultural resources, and if the mitigation measures are enforceable.

If a project may have a significant impact on a tribal cultural resource, the Lead Agency's Mitigated Negative Declaration shall discuss both of the following:

(a) Whether the proposed project has a significant impact on an identified tribal cultural resource;

(b) Whether feasible alternatives or mitigation measures, including those measures that may be agreed to during the consultation, avoid or substantially lessen the impact on the identified tribal cultural resource.

Any information provided regarding the location, description and use of the tribal cultural resource that is submitted by a California Native American tribe during the environmental review process shall not be included in the Negative Declaration or Mitigated Negative Declaration or otherwise disclosed by the Lead Agency or any other public agency to the public, consistent with Government Code section 7927.005 and State CEQA Guidelines section 15120(d), without the prior consent of the tribe that provided the information. If the Lead Agency publishes any information submitted by a California Native American tribe during the consultation or environmental review process, that information shall be published in a confidential appendix to the Negative Declaration or Mitigated Negative Declaration unless the tribe provides consent, in writing, to the disclosure of some or all of the information to the public. This does not prohibit the confidential exchange of the submitted information between public agencies that have lawful jurisdiction over the preparation of the Negative Declaration or the Mitigated Negative Declaration.

The exchange of confidential information regarding tribal cultural resources submitted by a California Native American tribe during the consultation or environmental review process among the Lead Agency, the California Native American tribe, the project applicant, or the project applicant's agent is not prohibited by Public Resources Code section 21082.3. The project applicant and the project applicant's legal advisers must use a reasonable degree of care and maintain the confidentiality of the information exchanged for the purposes of preventing looting, vandalism, or damage to tribal cultural resources and shall not disclose to a third party confidential information regarding the cultural resource unless the California Native American tribe providing the information consents in writing to the public disclosure of such information.

Public Resources Code section 21082.3 does not prevent a Lead Agency or other public agency from describing the information in general terms in the Negative Declaration or Mitigated Negative Declaration so as to inform the public of the basis of the Lead Agency's or other public agency's decision without breaching the confidentiality required. In addition, a Lead Agency may adopt a Mitigated Negative Declaration for a project with a significant impact on an identified tribal cultural resource only if one of the following occurs:

(a) The consultation process between the California Native American tribe and the Lead Agency has occurred as provided in Public Resources Code sections 21080.3.1 and 21080.3.2 and concluded pursuant to subdivision (b) of Section 21080.3.2.

(b) The California Native American tribe has requested consultation pursuant to Public Resources Code section 21080.3.1 and has failed to provide comments to the Lead agency, or otherwise failed to engage, in the consultation process.

(c) The Lead Agency has complied with subdivision (d) of Section 21080.3.1 of the Public Resources Code and the California Native American tribe has failed to request consultation within 30 days.

 ©Best Best & Krieger LLP

If substantial evidence demonstrates that a project will cause a significant effect to a tribal cultural resource but the decision-makers do not include the mitigation measures recommended by the staff in the Mitigated Negative Declaration, or if there are no agreed upon mitigation measures at the conclusion of the consultation; or if no consultation has occurred, the Lead Agency must still consider the adoption of feasible mitigation.

(Reference: Pub. Resources Code, § 21082.3.)

6.09 SIGNIFICANT ADVERSE IMPACTS TO TRIBAL CULTURAL RESOURCES

Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource. If the Lead Agency determines that a project may cause a substantial adverse change to a tribal cultural resource, and measures are not otherwise identified in the consultation process provided in Public Resources Code section 21080.3.2 and as set forth in Local Guidelines Section 6.07, the following examples of mitigation measures, if feasible, may be considered to avoid or minimize the significant adverse impacts:

(a) Avoidance and preservation of the resources in place, including, but not limited to, planning and construction to avoid the resources and protect the cultural and natural context, or planning greenspace, parks, or other open space, to incorporate the resources with culturally appropriate protection and management criteria.

(b) Treating the resource with culturally appropriate dignity taking into account the tribal cultural values and meaning of the resource, including, but not limited to, the following:

(1) Protecting the cultural character and integrity of the resource.

(2) Protecting the traditional use of the resource.

(3) Protecting the confidentiality of the resource.

(c) Permanent conservation easements or other interests in real property, with culturally appropriate management criteria for the purposes of preserving or utilizing the resources or places.

(d) Protecting the resource.

(Reference: Pub. Resources Code, § 21084.3.)

6.10 POSTING AND PUBLICATION OF NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

The City shall have a copy of the Notice of Intent to Adopt, the Negative Declaration or Mitigated Negative Declaration, and the Initial Study posted at the City's offices and on the City's website, if any, and shall make these documents available for public inspection. The Notice must be provided either twenty (20) or thirty (30) days prior to final adoption of the Negative Declaration or Mitigated Negative Declaration. The public review period for a Negative

Declaration or Mitigated Negative Declaration prepared for a project subject to state agency review, as set forth in Local Guidelines Section 6.11 must be circulated for at least as long as the review period established by the State Clearinghouse, usually no less than thirty (30) days. Under certain circumstances, a shortened review period of at least twenty (20) days may be approved by the State Clearinghouse as provided for in State CEQA Guidelines section 15105. See the Shortened Review Request Form "P." The state review period will commence on the date the State Clearinghouse distributes the document to state agencies. The State Clearinghouse will distribute the document within three (3) days of receipt if the Negative Declaration or Mitigated Negative Declaration is deemed complete.

The Notice must also be posted in the office of the Clerk in each county in which the project is located and must remain posted throughout the public review period. The County Clerk is required to post the Notice within twenty-four (24) hours of receiving it.

Notice shall be provided as stated in Local Guidelines Section 6.04. In addition, Notice of the Intent to Adopt shall be given to the last known name and address of all organizations and individuals who have previously requested notice; by posting the notice on the website of the lead agency; and by at least one of the following procedures:

(a) Publication at least once in a newspaper of general circulation in the area affected by the proposed project. If more than one area will be affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas;
(b) Posting of notice on and off site in the area where the project is to be located; or
(c) Direct mailing to owners and occupants of property contiguous to the project, as shown on the latest equalized assessment roll.

The City, when acting as Lead Agency, shall consider all comments received during the public review period for the Negative Declaration or Mitigated Negative Declaration. For a Negative Declaration or Mitigated Negative Declaration, the City is not required to respond in writing to comments it receives either during or after the public review period. However, the City may provide a written response to all comments if it will not delay action on the Negative Declaration or Mitigated Negative Declaration, since any comment received prior to final action on the Negative Declaration or Mitigated Negative Declaration can form the basis of a legal challenge. A written response that refutes the comment or adequately explains the City's action in light of the comment will assist the City in defending against a legal challenge. The City shall notify any public agency that comments on a Negative Declaration or Mitigated Negative Declaration of the public hearing or hearings, if any, on the project for which the Negative Declaration or Mitigated Negative Declaration was prepared.

(Reference: Pub. Resources Code, § 21092; State CEQA Guidelines, §§ 15072-15073.)

6.11 SUBMISSION OF NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION TO STATE CLEARINGHOUSE.

A Negative Declaration or Mitigated Negative Declaration must be submitted to the State Clearinghouse, in an electronic form as required by the Office of Planning and Research, regardless

of whether the document must be circulated for review and comment by state agencies under State CEQA Guidelines section 15205 and 15206. The Negative Declaration or Mitigated Negative Declaration must be submitted via the Office of Planning and Research's CEQA Submit website (https://ceqasubmit.opr.ca.gov/Security/LogOn?ReturnUrl=%2f). The CEQA Submit website differentiates between environmental documents that do require review and comment by state agencies and those that do not. In particular, the website provides a "Local Review Period" tab for submitting documents that do not require review and comment by state agencies, and a "State Review Period" tab for submitting documents that do require review and comment by state agencies.

A Negative Declaration or Mitigated Negative Declaration must be submitted to the State Clearinghouse for review and comment by state agencies (i.e., a Negative Declaration or Mitigated Negative Declaration must be submitted through the CEQA Submit website under the "State Review Period" tab) in the following situations:

(a) The Negative Declaration or Mitigated Negative Declaration is prepared by a Lead Agency that is a state agency;
(b) The Negative Declaration or Mitigated Negative Declaration is prepared by a public agency where a state agency is a Responsible Agency, Trustee Agency, or otherwise has jurisdiction by law with respect to the project; or
(c) The Negative Declaration or Mitigated Negative Declaration is for a project identified in State CEQA Guidelines section 15206 as being of statewide, regional, or area-wide significance.

State CEQA Guidelines section 15206 identifies the following types of projects as being examples of projects of statewide, regional, or area-wide significance that require submission to the State Clearinghouse for circulation:

(1) Projects that have the potential to cause significant environmental effects beyond the city or county where the project would be located, such as:

    (a) Residential development of more than 500 units;
    (b) Commercial projects employing more than 1,000 persons or covering more than 500,000 square feet of floor space;
    (c) Office building projects employing more than 1,000 persons or covering more than 250,000 square feet of floor space;
    (d) Hotel or motel development of more than 500 rooms; or
    (e) Industrial projects housing more than 1,000 persons, occupying more than 40 acres of land, or covering more than 650,000 square feet of floor area;

(2) Projects for the cancellation of a Williamson Act contract covering 100 or more acres;

(3) Projects in one of the following Environmentally Sensitive Areas:

    (a) Lake Tahoe Basin;
    (b) Santa Monica Mountains Zone;
    (c) Sacramento-San Joaquin River Delta;

 ©Best Best & Krieger LLP

(d) Suisun Marsh;
(e) Coastal Zone, as defined by the California Coastal Act;
(f) Areas within one-quarter mile of a river designated as wild and scenic; or
(g) Areas within the jurisdiction of the San Francisco Bay Conservation and Development Commission;

(4) Projects that would affect sensitive wildlife habitats or the habitats of any rare, threatened, or endangered species;

(5) Projects that would interfere with water quality standards; and

(6) Projects that would provide housing, jobs, or occupancy for 500 or more people within 10 miles of a nuclear power plant.

A Negative Declaration or Mitigated Negative Declaration may also be submitted to the State Clearinghouse for circulation if a state agency has special expertise with regard to the environmental impacts involved.

The public review period for a Negative Declaration or a Mitigated Negative Declaration shall not be less than twenty (20) days. The review period, however, shall be at least thirty (30) days if the Negative Declaration or Mitigated Negative Declaration is for a proposed project where a state agency is the lead agency, a responsible agency, or a trustee agency; a state agency otherwise has jurisdiction by law with respect to the project; or the proposed project is of sufficient statewide, regional, or areawide significance as determined pursuant to the guidelines certified and adopted pursuant to State CEQA Guidelines section 15206. When the Negative Declaration or Mitigated Negative Declaration is submitted to the State Clearinghouse for review, the review period begins (day one) on the date that the State Clearinghouse distributes the Negative Declaration or Mitigated Negative Declaration to state agencies. The State Clearinghouse is required to distribute the Negative Declaration or Mitigated Negative Declaration to state agencies within three (3) working days from the date the State Clearinghouse receives the document, as long as the Negative Declaration or Mitigated Negative Declaration is complete when submitted to the State Clearinghouse. If the document submitted to the State Clearinghouse is not complete, the State Clearinghouse must notify the Lead Agency. The review period for the public and all other agencies may run concurrently with the state agency review period established by the State Clearinghouse, but the public review period cannot conclude before the state agency review period does. The review period for the public shall be at least as long as the review period established by the State Clearinghouse.

A shorter review period by the State Clearinghouse for a Negative Declaration or Mitigated Negative Declaration can be requested by the decision-making body. The shortened review period shall not be less than twenty (20) days. Such a request must be made in writing by the Lead Agency to the Office of Planning and Research. The decision-making body may designate by resolution or ordinance an individual authorized to request a shorter review period. (See Form "P"). Any approval of a shortened review period must be given prior to, and reflected in, the public notice. However, a shortened review period shall not be approved by the Office of Planning and Research for any proposed project of statewide, regional or area-wide environmental significance, as defined by State CEQA Guidelines section 15206.

When the Lead Agency completes its Negative Declaration or Mitigated Negative Declaration for a proposed project, the Lead Agency must also cause a Notice of Completion (Form "H") to be filed with the Office of Planning and Research via the Office of Planning and Research's CEQA Submit website. The Notice of Completion should briefly identify the project, indicate that an environmental document has been prepared for the project, and identify the project location by latitude and longitude.

The Lead Agency must post the Notice of Intent, Notice of Completion, and Negative Declaration or Mitigated Negative Declaration on its website, if any.

(Reference: Pub. Resources Code, §§ 21082.1, 21161; State CEQA Guidelines, §§ 15205, 15206.)

6.12 SPECIAL NOTICE REQUIREMENTS FOR WASTE- AND FUEL-BURNING PROJECTS.

For any project that involves the burning of municipal waste, hazardous waste, or refuse-derived fuel (such as tires) and that does not require an EIR, as defined in Local Guidelines Section 5.11, a Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration shall be given to all organizations and individuals who have previously requested it and shall also be given by all three of the procedures listed in Local Guidelines Section 6.07. In addition, Notice shall be given by direct mailing to the owners and occupants of property within one-quarter mile of any parcel or parcels on which such a project is located. (Public Resources Code section 21092(c).)

These notice requirements apply only to those projects described in Local Guidelines Section 5.11. These notice requirements do not preclude the City from providing additional notice by other means if desired.

(Reference: Pub. Resources Code, § 21092(c).)

6.13 CONSULTATION WITH WATER AGENCIES REGARDING LARGE DEVELOPMENT PROJECTS.

Under specific circumstances a city or county acting as Lead Agency must consult with the public water system that will supply the project to determine whether the public water system can adequately supply the water needed for the project. As a Responsible Agency, the City should be aware of these requirements. See Local Guidelines Section 5.16 for more information on these requirements.

(Reference: State CEQA Guidelines, § 15155.)

6.14 CONTENT OF NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

A Negative Declaration must be prepared directly by or under contract to the City and should generally resemble Form "E." It shall contain the following information:

(a) A brief description of the project proposed, including any commonly used name for the project;
(b) The location of the project and the name of the project proponent;

(c) A finding that the project as proposed will not have a significant effect on the environment; and
(d) An attached copy of the Initial Study documenting reasons to support the finding.

For a Mitigated Negative Declaration, feasible mitigation measures included in the project to substantially lessen or avoid potentially significant effects must be fully enforceable through permit conditions, agreements, or other measures. Such permit conditions, agreements, and measures must be consistent with applicable constitutional requirements such as the "nexus" and "rough proportionality" standards established by case law.

The proposed Negative Declaration or Mitigated Negative Declaration must reflect the independent judgment of the City.

(Reference: State CEQA Guidelines, § 15071.)

6.15 TYPES OF MITIGATION.

The following is a non-exhaustive list of potential types of mitigation the City may consider:

(a) Avoidance;
(b) Preservation;
(c) Rehabilitation or replacement. Replacement may be on-site or off-site depending on the particular circumstances; and/or
(d) Participation in a fee program.

(Reference: State CEQA Guidelines, § 15370.)

6.16 ADOPTION OF NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

Following the publication, posting or mailing of the Notice of Intent to Adopt a Negative Declaration or Mitigated Negative Declaration, but not before the expiration of the applicable twenty (20) or thirty (30) day public review period, the Negative Declaration or Mitigated Negative Declaration may be presented to the decision-making body at a regular or special meeting. Prior to adoption, the City shall independently review and analyze the Negative Declaration or Mitigated Negative Declaration and find that the Negative Declaration or Mitigated Negative Declaration reflects the independent judgment of the City.

If new information is added to the Negative Declaration or Mitigated Negative Declaration after public review, the City should determine whether recirculation is warranted. (See Local Guidelines Section 6.19). If the decision-making body finds that the project will not have a significant effect on the environment, it shall adopt the Negative Declaration or Mitigated Negative Declaration. If the decision-making body finds that the proposed project may have a significant effect on the environment that cannot be mitigated or avoided, it shall order the preparation of a Draft EIR and the filing of a Notice of Preparation of a Draft EIR.

When adopting a Negative Declaration or Mitigated Negative Declaration, the City shall specify the location and custodian of the documents or other material that constitute the record of

proceedings upon which it based its decision. If adopting a Negative Declaration for a project that may emit hazardous air emissions within one-quarter mile of a school and that meets the other requirements of Local Guidelines Section 6.06, the decision-making body must also make the findings required by Local Guidelines Section 6.06.

As Lead Agency, the City may charge a non-elected official or body with the responsibility of independently reviewing the adequacy of and adopting a Negative Declaration or a Mitigated Negative Declaration. Any final CEQA determination made by a non-elected decisionmaker, however, is appealable to the City Council within either (a) the time period set forth in the City's established process to appeal the non-elected decisionmaker's CEQA determination; or, if no such process exists, (2) ten (10) days of the non-elected decisionmaker's determination. If the non-elected decisionmaker's CEQA determination is not timely appealed as set forth herein, the non-elected decisionmaker's determination shall be final.

(Reference: State CEQA Guidelines, § 15074.)

6.17 MITIGATION REPORTING OR MONITORING PROGRAM FOR MITIGATED NEGATIVE DECLARATION.

When adopting a Mitigated Negative Declaration pursuant to Local Guidelines Section 6.13, the City shall adopt a reporting or monitoring program to assure that mitigation measures, which are required to mitigate or avoid significant effects on the environment, will be fully enforceable through permit conditions, agreements, or other measures and implemented by the project proponent or other responsible party in a timely manner, in accordance with conditions of project approval. The City shall also specify the location and the custodian of the documents that constitute the record of proceedings upon which it based its decision. There is no requirement that the reporting or monitoring program be circulated for public review; however, the City may choose to circulate it for public comments along with the Mitigated Negative Declaration. The mitigation measures required to mitigate or avoid significant effects on the environment must be adopted as conditions of project approval.

This reporting or monitoring program shall be designed to assure compliance during the implementation or construction of a project and shall otherwise comply with the requirements described in Local Guidelines Section 7.38. If a Responsible Agency or Trustee Agency has required that certain conditions be incorporated into the project, the City may request that agency to prepare and submit a proposed reporting or monitoring program. The City shall also require that, prior to the close of the public review period for a Mitigated Negative Declaration (see Local Guidelines Section 6.04), the Responsible or Trustee Agency submit detailed performance objectives for mitigation measures, or refer the City to appropriate, readily available guidelines or reference documents. Any mitigation measures submitted to the City by a Responsible or Trustee Agency shall be limited to measures that mitigate impacts to resources that are within the Responsible or Trustee Agency's authority.

Local agencies have the authority to levy fees sufficient to pay for this program. Therefore, the City can charge the project proponent a fee to cover actual costs of program processing and implementation.

Transportation information resulting from the reporting or monitoring program required to be adopted by the City shall be submitted to the regional transportation planning agency where the project is located and to the Department of Transportation for a project of statewide, regional or area-wide significance according to State CEQA Guidelines section 15206. The transportation planning agency and the Department of Transportation are required by law to adopt guidelines for the submittal of these reporting or monitoring programs, so the City may wish to tailor its submittal to such guidelines.

(Reference: State CEQA Guidelines, §§ 15074, 15097.)

6.18 APPROVAL OR DISAPPROVAL OF PROJECT.

At the time of adoption of a Negative Declaration or Mitigated Negative Declaration, the decision-making body may consider the project for purposes of approval or disapproval. Prior to approving the project, the decision-making body shall consider the Negative Declaration or Mitigated Negative Declaration, together with any written comments received and considered during the public review period, and shall approve or disapprove the Negative Declaration or Mitigated Negative Declaration. In making a finding as to whether there is any substantial evidence that the project will have a significant effect on the environment, the factors listed in Local Guidelines Section 5.08 should be considered. (See Local Guidelines Section 6.06 for approval requirements for facilities that may emit hazardous pollutants or that may handle extremely hazardous substances within one-quarter mile of a school site.)

(Reference: State CEQA Guidelines, § 15092.)

6.19 RECIRCULATION OF A NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

A Negative Declaration or Mitigated Negative Declaration must be recirculated when the document must be substantially revised after the public review period but prior to its adoption. A "substantial revision" occurs when the City has identified a new and avoidable significant effect for which mitigation measures or project revisions must be added in order to reduce the effect to a level of insignificance, or when the City determines that the proposed mitigation measures or project revisions will not reduce the potential effects to less than significant and new measures or revisions must be required.

Recirculation is not required under the following circumstances:

(a) Mitigation measures are replaced with equal or more effective measures, and the City makes a finding to that effect;
(b) New project revisions are added after circulation of the Negative Declaration or Mitigated Negative Declaration or in response to written or oral comments on the project's effects, but the revisions do not create new significant environmental effects and are not necessary to mitigate an avoidable significant effect;
(c) Measures or conditions of project approval are added after circulation of the Negative Declaration or Mitigated Negative Declaration, but the measures or conditions are not required by CEQA, do not create new significant environmental effects, and are not necessary to mitigate an avoidable significant effect; or

 ©Best Best & Krieger LLP

(d) New information is added to the Negative Declaration or Mitigated Declaration which merely clarifies, amplifies, or makes insignificant modifications to the Negative Declaration or Mitigated Negative Declaration.

If, after preparation of a Negative Declaration or Mitigated Negative Declaration, the City determines that the project requires an EIR, it shall prepare and circulate the Draft EIR for consultation and review and advise reviewers in writing that a proposed Negative Declaration or Mitigated Declaration had previously been circulated for the project.

(Reference: State CEQA Guidelines, § 15073.5.)

6.20 NOTICE OF DETERMINATION ON A PROJECT FOR WHICH A PROPOSED NEGATIVE OR MITIGATED NEGATIVE DECLARATION HAS BEEN APPROVED.

After final approval of a project for which a Negative Declaration or Mitigated Negative Declaration has been prepared, Staff shall cause to be prepared, filed, and posted a Notice of Determination (Form "F"). The Notice of Determination shall contain the following information:

(a) An identification of the project, including the project title as identified on the proposed Negative Declaration or Mitigated Negative Declaration, location, and the State Clearinghouse identification number for the proposed Negative Declaration or Mitigated Negative Declaration if the Notice of Determination is filed with the State Clearinghouse;
(b) For private projects, identification of the person undertaking a project that is supported, in whole or in part, through contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies or the identity of the person receiving a lease, permit, license, certificate, or other entitlement for use from one or more public agencies;
(c) A brief description of the project;
(d) The name of the City and the date on which the City approved the project;
(e) The determination of the City that the project will not have a significant effect on the environment;
(f) A statement that a Negative Declaration or Mitigated Negative Declaration was adopted pursuant to the provisions of CEQA;
(g) A statement indicating whether mitigation measures were made a condition of the approval of the project, and whether a mitigation monitoring plan/program was adopted; and
(h) The address where a copy of the Negative Declaration or Mitigated Negative Declaration may be examined.

The Notice of Determination shall be filed within five (5) working days of project approval with both (1) the Clerk of each county in which the project will be located; and (2) the State Clearinghouse in the OPR.

The City must also post the Notice of Determination on its website. Such electronic notice is in addition to the posting requirements of the State CEQA Guidelines and the Public Resources Code. The Clerk must post the Notice of Determination within twenty-four (24) hours of receipt. The Notice must be posted in the office of the Clerk for a minimum of thirty (30) days. Thereafter, the Clerk shall return the notice to the City with a notation of the period it was posted. The City shall retain the notice for not less than twelve (12) months.

For projects with more than one phase, Staff shall file a Notice of Determination for each phase requiring a discretionary approval.

The filing and posting of the Notice of Determination with the County Clerk, usually starts a thirty (30) day statute of limitations on court challenges to the approval under CEQA. When separate notices are filed for successive phases of the same overall project, the thirty (30) day statute of limitations to challenge the subsequent phase begins to run when the subsequent notice is filed. Failure to file the Notice may result in a one hundred eighty (180) day statute of limitations.

(Reference: State CEQA Guidelines, § 15075.)

6.21 ADDENDUM TO NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

The City may prepare an addendum to an adopted Negative Declaration or Mitigated Negative Declaration if only minor technical changes or additions are necessary. The City may also prepare an addendum to an adopted Negative Declaration or Mitigated Negative Declaration when none of the conditions calling for a subsequent Negative Declaration or Mitigated Negative Declaration have occurred. (See Local Guidelines Section 6.22 below.) An addendum need not be circulated for public review but can be attached to the adopted Negative Declaration or Mitigated Negative Declaration. The City shall consider the addendum with the adopted Negative Declaration or Mitigated Negative Declaration prior to project approval.

(Reference: State CEQA Guidelines, § 15164.)

6.22 SUBSEQUENT NEGATIVE DECLARATION OR MITIGATED NEGATIVE DECLARATION.

When a Negative Declaration or Mitigated Negative Declaration has been adopted for a project, or when an EIR has been certified, no subsequent Negative Declaration, Mitigated Negative Declaration, or EIR shall be prepared for that project unless the Lead Agency determines, on the basis of substantial evidence in the light of the whole record, one or more of the following:

(a) Substantial changes are proposed in the project which will require major revisions of the previous EIR, Negative Declaration, or Mitigated Negative Declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

(b) Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR, Negative Declaration, or Mitigated Negative Declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

(c) New information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified or the Negative Declaration was adopted which shows any of the following:

    (1) The project will have one or more significant effects not discussed in the previous EIR or Negative Declaration;

(2) Significant effects previously examined will be substantially more severe than shown in the previous EIR;

(3) Mitigation measure(s) or alternative(s) previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents declined to adopt the mitigation measure(s) or alternative(s); or

(4) Mitigation measure(s) or alternative(s) which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure(s) or alternative(s).

The City, as Lead Agency, would then determine whether a Subsequent EIR, Supplemental EIR, Subsequent Negative Declaration, Subsequent Mitigated Negative Declaration, or Addendum would be applicable. Subsequent Negative Declarations and Mitigated Negative Declarations must be given the same notice and public review period as other Negative Declarations. The Subsequent Negative Declaration shall state where the previous document is available and can be reviewed.

(Reference: State CEQA Guidelines, § 15162.)

6.23 PRIVATE PROJECT COSTS.

For private projects, the person or entity proposing to carry out the project shall bear all costs incurred by the City in preparing the Initial Study and in preparing and filing the Negative Declaration or Mitigated Negative Declaration and Notice of Determination.

6.24 FILING FEES FOR PROJECTS THAT AFFECT WILDLIFE RESOURCES.

At the time a Notice of Determination for a Negative Declaration or Mitigated Negative Declaration is filed with the County or Counties in which the project is located, a fee of $2,916.75, or the then applicable fee, shall be paid to the Clerk for projects that will adversely affect fish or wildlife resources. These fees are collected by the Clerk on behalf of DFW pursuant to Fish and Game Code section 711.4.

Only one filing fee is required for each project unless the project is tiered or phased and separate environmental documents are prepared. (Fish & Game Code section 711.4(g).) For projects where Responsible Agencies file separate Notices of Determination, only the Lead Agency is required to pay the fee.

Note: County Clerks are authorized to charge a documentary handling fee for each project in addition to the Fish and Game Code fees specified above. Refer to the Index in the Staff Summary to help determine the correct total amount of fees applicable to the project.

For private projects, the City may pass these costs on to the project applicant.

Fish and Game Code fees may be waived for projects with "no effect" on fish or wildlife resources or for certain projects undertaken by the DFW and implemented through a contract with a non-profit entity or local government agency; however, the Lead Agency must obtain a form showing that the DFW has determined that the project will have "no effect" on fish and wildlife. (Fish and Game Code section 711.4(c)(2)(A)). Projects that are statutorily or categorically exempt from CEQA are also not subject to the filing fee, and do not require a no effect determination. (State CEQA Guidelines sections 15260 through 15333; Fish and Game Code section 711.4(d)(1)). The applicable DFW Regional Office's environmental review and permitting staff are responsible for determining whether a project within their region will qualify for a no effect determination and if the CEQA filing fee will be waived.

The request should be submitted when the CEQA document is released for public review, or as early as possible in the public comment period. Documents submitted in digital format are preferred (e.g. compact disk). If insufficient documentation is submitted to DFW for the proposed project, a no effect determination will not be issued.

If the City believes that a project for which it is Lead Agency will have "no effect" on fish or wildlife resources, it should contact the appropriate DFW Regional Office. The project's CEQA document may need to be provided to the appropriate DFW Regional Office along with a written request. Documentation submitted to the appropriate DFW Regional Office should set forth facts in support of the fee exemption. Previous examples of projects that have qualified for a fee exemption include: minor zoning changes that did not lead to or allow new construction, grading, or other physical alterations to the environment; and minor modifications to existing structures, including addition of a second story to single or multi-family residences.

The fee exemption requirement that the project have "no" impact on fish or wildlife resources is more stringent than the former requirement that a project have only "de minimis" effects on fish or wildlife resources. DFW may determine that a project would have no effect on fish and wildlife if all of the following conditions apply:

- The project would not result in or have the potential to result in harm, harassment, or take of any fish and/or wildlife species.

- The project would not result in or have the potential to result in direct or indirect destruction, ground disturbance, or other modification of any habitat that may support fish and/or wildlife species.

- The project would not result in or have the potential to result in the removal of vegetation with potential to support wildlife.

- The project would not result in or have the potential to result in noise, vibration, dust, light, pollution, or an alteration in water quality that may affect fish and/or wildlife directly or from a distance.

- The project would not result in or have the potential to result in any interference with the movement of any fish and/or wildlife species.

Any request for a fee exemption should include the following information:

 ©Best Best & Krieger LLP

(1) the name and address of the project proponent and applicant contact information;

(2) a brief description of the project and its location;

(3) site description and aerial and/or topographic map of the project site;

(4) State Clearinghouse number or county filing number;

(5) a statement that an Initial Study has been prepared by the City to evaluate the project's effects on fish and wildlife resources, if any; and

(6) a declaration that, based on the City's evaluation of potential adverse effects on fish and wildlife resources, the City believes the project will have no effect on fish or wildlife.

If insufficient documentation is submitted to DFW for the proposed project, a no effect determination will not be issued. (A sample Request for Fee Exemption is attached as Form "L".) DFW will review the City's finding, and if DFW agrees with the City's conclusions, DFW will provide the City with written confirmation. The City should retain DFW's determination as part of the administrative record; the City is required to file a copy of this determination with the County after project approval and at the time of filing of the Notice of Determination.

The City must have written confirmation of DFW's finding of "no impact" at the time the City files its Notice of Determination with the County. The County cannot accept the Notice of Determination unless it is accompanied by the appropriate fee or a written no effect determination from DFW.

 ©Best Best & Krieger LLP

7. ENVIRONMENTAL IMPACT REPORT

7.01 DECISION TO PREPARE AN EIR.

An EIR shall be prepared whenever there is substantial evidence in light of the whole record which supports a fair argument that the project may have a significant effect on the environment. (See Local Guidelines Sections 11.65 and 11.71.) The record may include the Initial Study or other documents or studies prepared to assess the project's environmental impacts.

(Reference: Pub. Resources Code, § 21151.)

7.02 CONTRACTING FOR PREPARATION OF EIRS.

If an EIR is prepared under a contract with the City, the contract must be executed within forty-five (45) days from the date on which the City sends a Notice of Preparation. The City may take longer to execute the contract if the project applicant and the City mutually agree to an extension of the 45-day time limit. (Reference: Pub. Resources Code, § 21151.5.)

The EIR prepared under contract must be the City's product. Staff, together with such consultant help as may be required, shall independently review and analyze the EIR to verify its accuracy, objectivity and completeness prior to presenting it to the decision-making body. The EIR made available for public review must reflect the independent judgment of the City. Staff may require such information and data from the person or entity proposing to carry out the project as Staff deems necessary for completion of the EIR. Reference: State CEQA Guidelines, §§ 15084, 15090.)

7.03 NOTICE OF PREPARATION OF DRAFT EIR.

After determining that an EIR will be required for a proposed project, the Lead Agency shall prepare and submit a Notice of Preparation (Form "G") to the Office of Planning and Research through its CEQA Submit website and to each of the following:

(a) Each Responsible Agency and Trustee Agency involved with the project;
(b) Any other federal, state, or local agency which has jurisdiction by law or exercises authority over resources affected by the project, including:

(1) Any water supply agency consulted under Local Guidelines Section 5.16;

(2) Any city or county bordering on the project area;

(3) For a project of statewide, regional, or area-wide significance, to any transportation agencies or public agencies which have major local arterials or public transit facilities within five (5) miles of the project site or freeways, highways, or rail transit service within ten (10) miles of the project site which could be affected by the project; and

(4) For a subdivision project located within one mile of a facility of the State Water Resources Development System, the California Department of Water Resources;

(c) The last known name and address of all organizations and individuals who have previously filed a written request with the City to receive these Notices;
(d) For certain projects that may impact a low-level flight path, military impact zone, or special use airspace and that meet the other criteria in Local Guidelines Section 7.04, the specified military services contact;
(e) For certain projects that involve the construction or alteration of a facility anticipated to emit hazardous air emissions or handle hazardous substances within one-quarter mile of a school and that meet the other requirements of Local Guidelines Section 7.36, any potentially affected school district;
(f) For certain waste-burning projects that meet the requirements of Local Guidelines Section 5.11 (See also Local Guidelines Section 7.27), the owners and occupants of property within one-fourth mile of any parcel on which the project will be located; and
(g) For a project that establishes or amends a redevelopment plan that contains land in agricultural use, the agricultural and farm agencies and organizations specified in Health and Safety Code section 33333.3.

Additionally, for a project of statewide, regional, or area-wide significance, the Lead Agency should also consult with public transit agencies with facilities within one-half mile of the proposed project.

The Notice of Preparation must also be filed and posted in the office of the Clerk in each county in which the project is located for thirty (30) days. The County Clerk must post the Notice within twenty-four (24) hours of receipt.

When submitting the Notice of Preparation to OPR, a Notice of Completion (Form "H") should be used as a cover sheet. Responsible and Trustee Agencies, the State Clearinghouse, and the state agencies contacted by the State Clearinghouse have thirty (30) days to respond to the Notice of Preparation in writing via certified mail, email, or an equivalent procedure. Agencies that do not respond within thirty (30) days shall be deemed not to have any comments on the Notice of Preparation.

At a minimum, the Notice of Preparation shall include:

(a) A description of the project;
(b) The location of the project indicated either on an attached map (preferably a copy of the USGS 15' or 7½' topographical map identified by quadrangle name) or by a street address and cross street in an urbanized area;
(c) The probable environmental effects of the project;
(d) The name and address of the consulting firm retained to prepare the Draft EIR, if applicable; and
(e) The Environmental Protection Agency ("EPA") list on which the proposed site is located, if applicable, and the corresponding information from the applicant's statement. (See Local Guidelines Section 2.05.)

(Reference: Pub. Resources Code, § 21080.4; State CEQA Guidelines, § 15082.)

7.04 SPECIAL NOTICE REQUIREMENTS FOR AFFECTED MILITARY AGENCIES

CEQA imposes additional requirements to provide notice to potentially affected military agencies when:

(a) A "military service" (defined in Section 11.42 of these Local Guidelines) has provided the City with its contact office and address and notified the City of the specific boundaries of a "low-level flight path" (defined in Section 11.37 of these Local Guidelines), "military impact zone" (defined in Section 11.41 of these Local Guidelines), or "special use airspace" (defined in Section 11.67 of these Local Guidelines); and

(b) The project meets one of the following criteria:

(1) The project is within the boundaries specified pursuant to subsection (a) of this guideline;

(2) The project includes a general plan amendment;

(3) The project is of statewide, regional, or area-wide significance; or

(4) The project relates to a public use airport or certain lands surrounding a public use airport.

When a project meets these requirements, the City must provide the military service's designated contact with any Notice of Preparation, and/or Notice of Availability of Draft EIRs that have been prepared for a project, unless the project involves the remediation of lands contaminated with hazardous wastes and meets certain other requirements. (See Public Resources Code sections 21080.4 and 21092 and Health and Safety Code sections 25300, et seq.; 25396; and 25187.)

The City must provide the military service with sufficient notice of its intent to certify an EIR to ensure that the military service has no fewer than thirty (30) days to review the document; or forty-five (45) days to review the environmental documents before they are approved if the documents have been submitted to the State Clearinghouse.

It should be noted that the effect, or potential effect, a project may have on military activities does not itself constitute an adverse effect on the environment pursuant to CEQA.

(Reference: Pub. Resources Code, §§ 21080.4, 21092; Health & Safety Code, §§ 25300, et seq., 25396, 25187; State CEQA Guidelines, § 15082(a).)

7.05 ENVIRONMENTAL LEADERSHIP DEVELOPMENT PROJECT.

Under certain circumstances, a project applicant may choose to apply to the Governor of the State of California to have the project certified as an Environmental Leadership Development Project. A project may qualify as an Environmental Leadership Development Project if it is one of the following:

(1) A residential, retail, commercial, sports, cultural, entertainment, or recreational use project that meets the following standards:

- The project is certified as Leadership in Energy and Environmental Design (LEED) gold or better by the United States Green Building Council; and

- The project, where applicable, achieves a 15 percent greater standard for transportation efficiency than comparable projects; and

- The project is located on an infill site; and

- For a project that is within a metropolitan planning organization for which a sustainable communities strategy or alternative planning strategy is in effect, the infill project shall be consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy, for which the State Air Resources Board has accepted a metropolitan planning organization's determination, under subparagraph (H) of paragraph (2) of subdivision (b) of Section 65080 of the Government Code, that the sustainable communities strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets.

(2) A clean renewable energy project that generates electricity exclusively through wind or solar, but not including waste incineration or conversion.

(3) A clean energy manufacturing project that manufactures products, equipment, or components used for renewable energy generation, energy efficiency, or for the production of clean alternative fuel vehicles.

(4) A housing development project—i.e., a project that entails either residential units only; mixed-use developments consisting of residential and nonresidential uses with at least two-thirds of the square footage designated for residential use; or transitional housing or supportive housing—that meets all of the following conditions:

- The housing development project is located on an infill site.

- For a housing development project that is located within a metropolitan planning organization for which a sustainable communities strategy or alternative planning strategy is in effect, the project is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy, for which the State Air Resources Board has accepted a metropolitan planning organization's determination, under subparagraph (H) of paragraph (2) of subdivision (b) of Section 65080 of the Government Code, that the sustainable communities strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets.

- Notwithstanding paragraph (1) of subdivision (a) of Section 21183, the housing development project will result in a minimum investment of fifteen million

dollars ($15,000,000), but less than one hundred million dollars ($100,000,000), in California upon completion of construction.

- At least 15 percent of the housing development project is dedicated as housing that is affordable to lower income households, as defined in Section 50079.5 of the Health and Safety Code. Upon completion of a housing development project that is qualified under this paragraph and is certified by the Governor, the lead agency or applicant of the project shall notify the Office of Planning and Research of the number of housing units and affordable housing units established by the project. Notwithstanding the foregoing, if a local agency has adopted an inclusionary zoning ordinance that establishes a minimum percentage for affordable housing within the jurisdiction in which the housing development project is located that is higher than 15 percent, the percentage specified in the inclusionary zoning ordinance shall be the threshold for affordable housing.

- Except for use as a residential hotel, as defined in Section 50519 of the Health and Safety Code, no part of the housing development project shall be used for a rental unit for a term shorter than 30 days, or designated for hotel, motel, bed and breakfast inn, or other transient lodging use. Moreover, no part of the housing development project shall be used for manufacturing or industrial uses.

The Governor may certify a leadership project for streamlining before the lead agency certifies an EIR for the project if various conditions set forth in Public Resources Code section 21182 are met. The conditions include but are not limited to the following: (1) except as set forth above, the project will result in a minimum investment of one hundred million dollars ($100,000,000) in California upon completion of construction; (2) the project creates high-wage, highly skilled jobs that pay prevailing wages and living wages, provide construction jobs and permanent jobs for Californians, helps reduce unemployment, and promotes apprenticeship training; and (3) the project will not result in any net additional emission of greenhouse gases, including greenhouse gas emissions from employee transportation.

If the Governor certifies a project as an Environmental Leadership Development Project, any lawsuit challenging the project—including any potential appeals to the court of appeal or the California Supreme Court—must be resolved, to the extent feasible, within 270 days of the filing of the certified record of proceedings with the trial court.

This section shall remain in effect until January 1, 2026. This section does not comprehensively set forth the rules governing Environmental Leadership Development projects. For more information, please see Chapter 6.5 of the Public Resources Code, starting with Public Resources Code section 21178.

7.06 PREPARATION OF DRAFT EIR.

The Lead Agency is responsible for preparing a Draft EIR. The Lead Agency may begin preparation of the Draft EIR without awaiting responses to the Notice of Preparation. However,

information communicated to the Lead Agency not later than thirty (30) days after receipt of the Notice of Preparation shall be included in the Draft EIR.

(Reference: State CEQA Guidelines, § 15084.)

7.07 CONSULTATION WITH CALIFORNIA NATIVE AMERICAN TRIBES.

Prior to the release of a Draft EIR for a project, the Lead Agency shall begin consultation with a California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed project if:

(a) The California Native American tribe requested to the Lead Agency, in writing, to be informed by the Lead Agency through formal notification of proposed projects in the geographic area that is traditionally and culturally affiliated with the tribe; and

(b) The California Native American tribe responds, in writing, within 30 days of receipt of the formal notification, and requests the consultation. The California Native American tribe shall designate a lead contact person when responding to the Lead Agency. If a lead contact is not designated by the California Native American tribe, or if it designates multiple lead contact people, the Lead Agency shall defer to the individuals listed on the contact list maintained by the Native American Heritage Commission. Consultation is defined in Local Guidelines Section 11.12.

To expedite the requirements of this section, the Native American Heritage Commission shall assist the Lead Agency in identifying the California American Native tribes that are traditionally and culturally affiliated with the project area.

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the Lead Agency shall provide formal notification to the designated contact of, or a trial representative of, traditionally and culturally affiliated California Native America tribes that have requested notice, which shall be accomplished by at least one written notification that includes a brief description of the proposed project and its location, the Lead Agency contact information, and a notification that the California Native American tribe has 30 days to request consultation.

The Lead Agency shall begin the consultation process within 30 days of receiving a California Native American tribe's request for consultation.

If consultation is requested, the parties may propose mitigation measures, including those set forth in Public Resources Code section 21084.3, capable of avoiding or substantially lessening potential significant impacts to a tribal cultural resource or alternatives that would avoid significant impacts to a tribal cultural resource. The consultation may include discussion concerning the type of environmental review necessary, the significance of tribal cultural resources, the significance of the project's impacts on the tribal cultural resources, and, if necessary, project alternatives or the appropriate measures for preservation or mitigation that the California Native American tribe may recommend to the lead agency.

The consultation shall be considered concluded when either of the following occurs:

(1) The parties agree to measures to mitigate or avoid a significant effect, if a significant effect exists, on a tribal cultural resource.

(2) A party, acting in good faith and after reasonable effort, concludes that mutual agreement cannot be reached.

The California Native American tribe is not limited in its ability to submit information to the Lead Agency regarding the significance of the tribal cultural resources, the significance of the project's impact on tribal cultural resources, or any appropriate measures to mitigate the impacts. Additionally, the Lead Agency or project proponent is not limited in its ability to incorporate changes and additions to the project as a result of the consultation, even if not legally required.

(Reference: Pub. Resources Code, §§ 21080.3.1, 21080.3.2.)

7.08 IDENTIFICATION OF TRIBAL CULTURAL RESOURCES AND PROCESSING OF INFORMATION AFTER CONSULTATION WITH THE CALIFORNIA NATIVE AMERICAN TRIBE

After consultation with the California Native American tribe listed above in Local Guidelines Section 7.07, any mitigation measures agreed upon in the consultation conducted pursuant to Public Resources Code section 21080.3.2 shall be recommended for inclusion in the EIR and in an adopted mitigation monitoring and reporting program, if the mitigation measures are determined to avoid or lessen the proposed project’s impacts on tribal cultural resources, and if the mitigation measures are enforceable.

If a project may have a significant impact on a tribal cultural resource, the Lead Agency's EIR shall discuss both of the following:

(a) Whether the proposed project has a significant impact on an identified tribal cultural resource;

(b) Whether feasible alternatives or mitigation measures, including those measures that may be agreed to during the consultation, avoid or substantially lessen the impact on the identified tribal cultural resource.

Any information provided regarding the location, description and use of the tribal cultural resource that is submitted by a California Native American tribe during the environmental review process shall not be included in the EIR or otherwise disclosed by the lead agency or any other public agency to the public, consistent with Government Code section 7927.005 and State CEQA Guidelines section 15120(d), without the prior consent of the tribe that provided the information. If the Lead Agency publishes any information submitted by a California Native American tribe during the consultation or environmental review process, that information shall be published in a confidential appendix to the EIR unless the tribe provides consent, in writing, to the disclosure of some or all of the information to the public. This does not prohibit the confidential exchange of the submitted information between public agencies that have lawful jurisdiction over the preparation of the EIR.

The exchange of confidential information regarding tribal cultural resources submitted by a California Native American tribe during the consultation or environmental review process among the Lead Agency, the California Native American tribe, the project applicant, or the project applicant's agent is not prohibited by Public Resources Code section 21082.3. The project applicant and the project applicant's legal advisers must use a reasonable degree of care and maintain the confidentiality of the information exchanged for the purposes of preventing looting, vandalism, or damage to tribal cultural resources and shall not disclose to a third party confidential information regarding the cultural resource unless the California Native American tribe providing the information consents in writing to the public disclosure of such information.

Public Resources Code section 21082.3 does not prevent a Lead Agency or other public agency from describing the information in general terms in the EIR so as to inform the public of the basis of the Lead Agency's or other public agency's decision without breaching the confidentiality required. In addition, a Lead Agency may certify an EIR for a project with a significant impact on an identified tribal cultural resource only if one of the following occurs:

(a) The consultation process between the California Native American tribe and the Lead Agency has occurred as provided in Public Resources Code sections 21080.3.1 and 21080.3.2 and concluded pursuant to subdivision (b) of Section 21080.3.2.

(b) The California Native American tribe has requested consultation pursuant to Public Resources Code section 21080.3.1 and has failed to provide comments to the Lead Agency, or otherwise failed to engage, in the consultation process.

(c) The Lead Agency has complied with subdivision (d) of Section 21080.3.1 of the Public Resources Code and the California Native American tribe has failed to request consultation within 30 days.

If substantial evidence demonstrates that a project will cause a significant effect to a tribal cultural resource but the decision-makers do not include the mitigation measures recommended by the staff in the Draft EIR, or if there are no agreed upon mitigation measures at the conclusion of the consultation, or if no consultation has occurred, the Lead Agency must still consider the adoption of feasible mitigation.

(Reference: Pub. Resources Code, § 21082.3.)

7.09 SIGNIFICANT ADVERSE IMPACTS TO TRIBAL CULTURAL RESOURCES

Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource. If the Lead Agency determines that a project may cause a substantial adverse change to a tribal cultural resource, and measures are not otherwise identified in the consultation process provided in Public Resources Code section 21080.3.2 as set forth in Local Guidelines Section 7.07, the following examples of mitigation measures, if feasible, may be considered to avoid or minimize the significant adverse impacts:

(a) Avoidance and preservation of the resources in place, including, but not limited to, planning and construction to avoid the resources and protect the cultural and natural

context, or planning greenspace, parks, or other open space, to incorporate the resources with culturally appropriate protection and management criteria.

(b) Treating the resource with culturally appropriate dignity taking into account the tribal cultural values and meaning of the resource, including, but not limited to the following:

(1) Protecting the cultural character and integrity of the resource.

(2) Protecting the traditional use of the resource.

(3) Protecting the confidentiality of the resource.

(c) Permanent conservation easements or other interests in real property, with culturally appropriate management criteria for the purposes of preserving or utilizing the resources or places.

(d) Protecting the resource.

(Reference: Pub. Resources Code, § 21084.3.)

7.10 CONSULTATION WITH OTHER AGENCIES AND PERSONS.

To expedite consultation in response to the Notice of Preparation, the Lead Agency, a Responsible Agency, or a project applicant may request a meeting among the agencies involved to assist in determining the scope and content of the environmental information that the involved agencies may require. For any project that may affect highways or other facilities under the jurisdiction of the State Department of Transportation, the Department of Transportation can request a scoping meeting. When acting as Lead Agency, the City must convene the meeting as soon as possible but no later than thirty (30) days after a request is made. When acting as a Responsible Agency, the City should make any requests for consultation as soon as possible after receiving a Notice of Preparation.

Prior to completion of the Draft EIR, the Lead Agency shall consult with each Responsible Agency and any public agency that has jurisdiction by law over the project.

When acting as a Lead Agency, the City may fulfill this obligation by distributing the Notice of Preparation in compliance with Local Guidelines Section 7.03 and soliciting the comments of Responsible Agencies, Trustee Agencies, and other affected agencies. The City may also consult with any individual who has special expertise with respect to any environmental impacts involved with a project. The City may also consult directly with any person or organization it believes will be concerned with the environmental effects of the project, including any interested individuals and organizations of which the City is reasonably aware. The purpose of this consultation is to "scope" the EIR's range of analysis. When a Negative Declaration or Mitigated Negative Declaration will be prepared for a project, no scoping meeting need be held, although the City may hold one if it so chooses. For private projects, the City as Lead Agency may charge and collect from the applicant a fee not to exceed the actual cost of the consultations.

In addition to soliciting comments on the Notice of Preparation, the Lead Agency may be required to conduct a scoping meeting to gather additional input regarding the impacts to be analyzed in the EIR. The Lead Agency is required to conduct a scoping meeting when:

(a) The meeting is requested by a Responsible Agency, a Trustee Agency, OPR, or a project applicant;
(b) The project is one of "statewide, regional or area wide significance" as defined in State CEQA Guidelines section 15206; or
(c) The project may affect highways or other facilities under the jurisdiction of the State Department of Transportation, and the Department of Transportation has requested a scoping meeting.

When acting as Lead Agency, the City shall provide notice of the scoping meeting to all of the following:

(a) Any county or city that borders on a county or city within which the project is located, unless the City has a specific agreement to the contrary with that county or city;
(b) Any Responsible Agency;
(c) Any public agency that has jurisdiction by law over the project;
(d) A transportation planning agency, or any public agency that has transportation facilities within its jurisdiction, that could be affected by the project; and
(e) Any organization or individual who has filed a written request for the notice.

The requirement for providing notice of a scoping meeting may be met by including the notice of the public scoping meeting in the public meeting notice.

Government Code section 65352 requires that before a legislative body may adopt or substantially amend a general plan, the planning agency must refer the proposed action to any city or county, within or abutting the area covered by the proposal, and any special district that may be significantly affected by the proposed action. CEQA allows that referral procedure to be conducted concurrently with the scoping meeting required pursuant to this section of the Local CEQA Guidelines.

For projects that are also subject to NEPA, a scoping meeting held pursuant to NEPA satisfies the CEQA scoping requirement as long as notice is provided to the agencies and individuals listed above, and in accordance with these Local Guidelines. (See Local Guideline 5.04 for a discussion of NEPA.)

The City shall call the scoping meeting as soon as possible but not later than 30 days after the meeting was requested. If the scoping meeting is being conducted concurrently with the procedure in Government Code section 65352 for the consideration of adoption or amendment of general plans, each entity receiving a proposed general plan or amendment of a general plan should have 45 days from the date the referring agency mails it or delivers it in which to comment unless a longer period is specified. The commenting entity may submit its comments at the scoping meeting.

A Responsible Agency or other public agency shall only make comments regarding those activities that are within its area of expertise or that are required to be carried out or approved by

the Responsible Agency. These comments must be supported by specific documentation. Any mitigation measures submitted to the City by a Responsible or Trustee Agency shall be limited to measures that mitigate impacts to resources that are within the Responsible or Trustee Agency's authority.

For projects of statewide, area-wide, or regional significance, consultation with transportation planning agencies or with public agencies that have transportation facilities within their jurisdictions shall be for the purpose of obtaining information concerning the project's effect on major local arterials, public transit, freeways, highways, overpasses, on-ramps, off-ramps, and rail transit services. Moreover, the Lead Agency should also consult with public transit agencies with facilities within one-half mile of the proposed project. Any transportation planning agency or public agency that provides information to the Lead Agency must be notified of, and provided with, copies of any environmental documents relating to the project.

(Reference: State CEQA Guidelines, §§ 15082, 15083.)

7.11 EARLY CONSULTATION ON PROJECTS INVOLVING PERMIT ISSUANCE.

When the project involves the issuance of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies, the City, upon request of the applicant, shall meet with the applicant regarding the range of actions, potential alternatives, mitigation measures and significant effects to be analyzed in depth in the EIR. The City may also consult with concerned persons identified by the applicant and persons who have made written requests to be consulted. Such requests for early consultation must be made not later than thirty (30) days after the City's decision to prepare an EIR.

7.12 CONSULTATION WITH WATER AGENCIES REGARDING LARGE DEVELOPMENT PROJECTS.

For certain development projects, cities and counties must consult with water agencies. If the City is a water provider for the project, the city or county may request consultation with the City. (See Local Guidelines Sections 5.16 and 5.17 for more information on these requirements.)

(Reference: State CEQA Guidelines, § 15155.)

7.13 AIRPORT LAND USE PLAN.

When the City prepares an EIR for a project within the boundaries of a comprehensive airport land use plan, or, if such a plan has not been adopted, for a project within two (2) nautical miles of a public airport or public use airport, the City shall utilize the Airport Land Use Planning Handbook published by Caltrans' Division of Aeronautics to assist in the preparation of the EIR relative to potential airport or related safety hazards and noise problems.

(Reference: State CEQA Guidelines, § 15154.)

7.14 GENERAL ASPECTS OF AN EIR.

Both a Draft and Final EIR must contain the information outlined in Local Guidelines Sections 7.17 and 7.18. Each element must be covered, and when elements are not separated into distinct sections, the document must state where in the document each element is covered.

The body of the EIR shall include summarized technical data, maps, diagrams and similar relevant information. Highly technical and specialized analyses and data should be included in appendices. Appendices may be prepared in separate volumes, but must be equally available to the public for examination. All documents used in preparation of the EIR must be referenced. An EIR shall not include "trade secrets," locations of archaeological sites and sacred lands, or any other information subject to the disclosure restrictions of the Public Records Act (Government Code section 7920.000, et seq.).

The EIR should discuss environmental effects in proportion to their severity and probability of occurrence. Effects dismissed in the Initial Study as clearly insignificant and unlikely to occur need not be discussed.

The Initial Study should be used to focus the EIR so that the EIR identifies and discusses only the specific environmental problems or aspects of the project that have been identified as potentially significant or important. A copy of the Initial Study should be attached to the EIR or included in the administrative record to provide a basis for limiting the impacts discussed.

The EIR shall contain a statement briefly indicating the reason for determining that various effects of a project that could possibly be considered significant were not found to be significant and consequently were not discussed in detail in the EIR. The City should also note any conclusion by it that a particular impact is too speculative for evaluation.

The EIR should omit unnecessary descriptions of projects and emphasize feasible mitigation measures and alternatives to projects.

7.15 USE OF REGISTERED CONSULTANTS IN PREPARING EIRS.

An EIR is not a technical document that can be prepared only by a registered consultant or professional. However, state statutes may provide that only registered professionals can prepare certain technical studies that will be used in an EIR, or that will control the detailed design, construction, or operation of the proposed project and that will be prepared in support of an EIR.

(Reference: State CEQA Guidelines, § 15149.)

7.16 INCORPORATION BY REFERENCE.

An EIR, Negative Declaration, or Mitigated Negative Declaration may incorporate by reference all or portions of another document that is a matter of public record or is generally available to the public. Any incorporated document shall be considered to be set forth in full as part of the text of the environmental document. When all or part of another document is incorporated by reference, that document shall be made available to the public for inspection at

the City's offices. The environmental document shall state where incorporated documents will be available for inspection.

When incorporation by reference is used, the incorporated part of the referenced document shall be briefly summarized, if possible, or briefly described if the data or information cannot be summarized. The relationship between the incorporated document and the EIR, Negative Declaration, or Mitigated Negative Declaration shall be described. When information from an environmental document that has previously been reviewed through the state review system ("State Clearinghouse") is incorporated by the City, the state identification number of the incorporated document should be included in the summary or text of the EIR.

(Reference: State CEQA Guidelines, § 15150.)

7.17 STANDARDS FOR ADEQUACY OF AN EIR.

An EIR should be prepared with a sufficient degree of analysis to provide decision-makers with information that enables them to make a decision that takes into account the environmental consequences of the project. The evaluation of environmental effects need not be exhaustive, but must be within the scope of what is reasonably feasible. The EIR should be written and presented in such a way that it can be understood by governmental decision-makers and members of the public. A good faith effort at completeness is necessary. The adequacy of an EIR is assessed in terms of what is reasonable in light of factors such as the magnitude of the project at issue, the severity of its likely environmental impacts, and the geographic scope of the project. CEQA does not require a Lead Agency to conduct every test or perform all research, study, and experimentation recommended or demanded by commenters, but CEQA does require the Lead Agency to make a good faith, reasoned response to timely comments raising significant environmental issues.

There is no need to unreasonably delay adoption of an EIR in order to include results of studies in progress, even if those studies will shed some additional light on subjects related to the project.

(Reference: State CEQA Guidelines, § 15151.)

7.18 FORM AND CONTENT OF EIR.

The text of the EIR should normally be less than 150 pages. For proposals of unusual scope or complexity, the EIR may be longer than 150 pages but should normally be less than 300 pages. The required contents of an EIR are set forth in Sections 15122 through 15132 of the State CEQA Guidelines. In brief, the EIR must contain:

(a) A table of contents or an index;
(b) A brief summary of the proposed project, including each significant effect with proposed mitigation measures and alternatives, areas of known controversy and issues to be resolved including the choice among alternatives, how to mitigate the significant effects and whether there are any significant and unavoidable impacts (generally, the summary should be less than fifteen (15) pages);

(c) A description of the proposed project, including its underlying purpose and a list of permit and other approvals required to implement the project (see Local Guidelines Section 7.24 regarding analysis of future project expansion);

(d) A description of the environmental setting, which includes the project's physical environmental conditions from both a local and regional perspective at the time the Notice of Preparation is published, or if no Notice of Preparation is published, at the time environmental analysis begins. (State CEQA Guidelines section 15125.) This environmental setting will normally constitute the baseline physical conditions by which the Lead Agency determines whether an impact is significant. However, the City, when acting as Lead Agency, may choose any baseline that is appropriate as long as the City's choice of baseline is supported by substantial evidence;

(e) A discussion of any inconsistencies between the proposed project and applicable general, specific and regional plans. Such plans include, but are not limited to, the applicable air quality attainment or maintenance plan or State Implementation Plan, area-wide waste treatment and water quality control plans, regional transportation plans, regional housing allocation, regional blueprint plans, plans for the reduction of greenhouse gas emissions, habitat conservation plans, natural community conservation plans and regional land use plans;

(f) A description of the direct and indirect significant environmental impacts of the proposed project explaining which, if any, can be avoided or mitigated to a level of insignificance, indicating reasons that various possible significant effects were determined not to be significant and denoting any significant effects that are unavoidable or could not be mitigated to a level of insignificance. Direct and indirect significant effects shall be clearly identified and described, giving due consideration to both short-term and long-term effects;

(g) Potentially significant energy implications of a project must be considered to the extent relevant and applicable to the project (see Local Guidelines Section 5.20);

(h) An analysis of a range of alternatives to the proposed project that could feasibly attain the project's objectives as discussed in Local Guidelines Section 7.23;

(i) A description of any significant irreversible environmental changes that would be involved in the proposed action should it be implemented if, and only if, the EIR is being prepared in connection with:

(1) The adoption, amendment, or enactment of a plan, policy, or ordinance of a public agency;

(2) The adoption by a Local Agency Formation Commission of a resolution making determinations; or

(3) A project that will be subject to the requirement for preparing an Environmental Impact Statement pursuant to NEPA;

(j) An analysis of the growth-inducing impacts of the proposed action. The discussion should include ways in which the project could foster economic or population growth, or the construction of additional housing, either directly or indirectly, in the surrounding environment. Growth-inducing impacts may include the estimated energy consumption of growth induced by the project;

(k) A discussion of any significant, reasonably anticipated future developments and the cumulative effects of all proposed and anticipated action as discussed in Local Guidelines Section 7.24;

(l) In certain situations, a regional analysis should be completed for certain impacts, such as air quality;

(m) A discussion of any economic or social effects, to the extent that they cause, or may be used to determine, significant environmental impacts;

(n) A statement briefly indicating the reasons that various possible significant effects of a project were determined not to be significant and, therefore, were not discussed in the EIR;

(o) The identity of all federal, state or local agencies or other organizations and private individuals consulted in preparing the EIR, and the identity of the persons, firm or agency preparing the EIR, by contract or other authorization. To the fullest extent possible, the City should integrate CEQA review with these related environmental review and consultation requirements;

(p) A discussion of those potential effects of the proposed project on the environment that the City has determined are or may be significant. The discussion on other effects may be limited to a brief explanation as to why those effects are not potentially significant; and

(q) A description of feasible measures, as set forth in Local Guidelines Section 7.22, which could minimize significant adverse impacts.

(Reference: State CEQA Guidelines, §§ 15120-15148.)

7.19 CONSIDERATION AND DISCUSSION OF SIGNIFICANT ENVIRONMENTAL IMPACTS.

An EIR must identify and focus on the significant effects of the proposed project on the environment. In assessing the proposed project's potential impacts on the environment, the City should normally limit its examination to comparing changes that would result from the project as compared to the existing physical conditions in the affected area as they exist when the Notice of Preparation is published. If a Notice of Preparation is not published for the project, the City should compare the proposed project's potential impacts to the physical conditions that exist at the time environmental review begins. Direct and indirect significant effects of the project on the environment must be clearly identified and described, considering both the short-term and long-term effects. The discussion should include relevant specifics of the area, the resources involved, physical changes, alterations to ecological systems, and changes induced in population distribution, population concentration, the human use of the land (including commercial and residential development), health and safety problems caused by the physical changes, and other aspects of the project that may impact resources in the project area, such as water, historical resources, scenic quality, and public services. The EIR must also analyze any significant environmental effects the project might cause or risk exacerbating by bringing development and people into the area. If applicable, an EIR should also evaluate any potentially significant direct, indirect, or cumulative environmental impacts of locating development in areas susceptible to hazardous conditions (e.g., floodplains, coastlines, wildfire risk areas), including both short-term and long-term conditions, as identified on authoritative hazard maps, risk assessments or in land use plans addressing such hazards areas.

If analysis of the project's energy use reveals that the project may result in significant environmental effects due to wasteful, inefficient, or unnecessary use of energy, or wasteful use

of energy resources, the EIR shall mitigate that energy use. This analysis should include the project's energy use for all project phases and components, including transportation-related energy, during construction and operation. In addition to building code compliance, other relevant considerations may include, among others, the project's size, location, orientation, equipment use and any renewable energy features that could be incorporated into the project. This analysis is subject to the rule of reason and shall focus on energy use that is caused by the project. This analysis may be included in related analyses of air quality, greenhouse gas emissions, transportation or utilities in the discretion of the Lead Agency.

The EIR must describe all significant impacts, including those that can be mitigated but not reduced to a level of insignificance. Where there are impacts that cannot be alleviated without imposing an alternative design, their implications and the reasons why the project is being proposed, notwithstanding their effect, should be described.

The EIR must also discuss any significant irreversible environmental changes that would be caused by the project. For example, use of nonrenewable resources during the initial and continued phases of a project may be irreversible if a large commitment of such resources makes removal or nonuse thereafter unlikely. Additionally, the discussion of irreversible commitment of resources may include a discussion of how the project preempts future energy development or future energy conservation. Irretrievable commitments of resources to the proposed project should be evaluated to assure that such current consumption is justified.

(Reference: Pub. Resources Code, § 21100.)

7.20 ENVIRONMENTAL SETTING

An EIR must include a description of the physical environmental conditions in the vicinity of the project. This environmental setting will normally constitute the baseline physical conditions by which the Lead Agency determines whether an impact is significant. The description of the environmental setting shall be no longer than is necessary to provide an understanding of the significant effects of the proposed project and its alternatives. The purpose of this requirement is to give the public and decision makers the most accurate and understandable picture practically possible of the project's likely near-term and long-term impacts.

(1) Generally, the Lead Agency should describe physical environmental conditions as they exist at the time the Notice of Preparation is published, or if no Notice of Preparation is published, at the time environmental analysis is commenced, from both a local and regional perspective. Where existing conditions change or fluctuate over time, and where necessary to provide the most accurate picture practically possible of the project's impacts, the Lead Agency may define existing conditions by referencing historic conditions, or conditions expected when the project becomes operational, or both, that are supported with substantial evidence. In addition, the Lead Agency may also use baselines consisting of both existing conditions and projected future conditions that are supported by reliable projections based on substantial evidence in the record.

(2) The Lead Agency may use projected future conditions (beyond the date of project operations) as the sole baseline for analysis only if it demonstrates with substantial evidence that use of existing conditions would be either misleading or without informative value to decision-

makers and the public. Use of projected future conditions as the only baseline must be supported by reliable projections based on substantial evidence in the record.

(3) An existing conditions baseline shall not include hypothetical conditions—such as those that might be allowed, but have never actually occurred, under existing permits or plans—as the baseline.

(State CEQA Guidelines, § 15125.)

7.21 ANALYSIS OF CUMULATIVE IMPACTS.

An EIR must discuss cumulative impacts when the project's incremental effect is "cumulatively considerable" as defined in Local Guidelines Section 11.14. When the City is examining a project with an incremental effect that is not "cumulatively considerable," it need not consider that effect significant, but must briefly describe the basis for this conclusion. A project's contribution may be less than cumulatively considerable if the project is required to implement or fund its fair share of a mitigation measure designed to alleviate the cumulative impact. When relying on a fee program or mitigation measure(s), the City must identify facts and analysis supporting its conclusion that the cumulative impact is less than significant.

The City may determine that a project's incremental contribution to a cumulative effect is not cumulatively considerable if the project will comply with the requirements in a previously approved plan or mitigation program that provides specific requirements that will avoid or substantially lessen the cumulative problem in the geographic area in which the project is located. Such plans and programs may include, but are not limited to:

(1) Water quality control plans;

(2) Air quality attainment or maintenance plans;

(3) Integrated waste management plans;

(4) Habitat conservation plans;

(5) Natural community conservation plans; and/or

(6) Plans or regulations for the reduction of greenhouse gas emissions.

When relying on such a regulation, plan, or program, the City should explain how implementing the particular requirements of the plan, regulation or program will ensure that the project's incremental contribution to the cumulative effect is not cumulatively considerable.

A cumulative impact consists of an impact that is created as a result of the combination of the project evaluated in the EIR together with other projects causing related impacts. An EIR should not discuss impacts that do not result in part from the project evaluated in the EIR.

The discussion of cumulative impacts in an EIR must focus on the cumulative impacts to which the identified other projects contribute, rather than on the attributes of other projects that do

not contribute to the cumulative impact. The discussion of significant cumulative impacts must include either of the following:

(1) A list of past, present, and probable future projects causing related or cumulative impacts including, if necessary, those projects outside the control of the City; or

(2) A summary of projections contained in an adopted local, regional or statewide plan, or related planning document, that describes or evaluates conditions contributing to the cumulative effect. Such plans may include: a general plan, regional transportation plan, or a plan for the reduction of greenhouse gas emissions. A summary of projections may also be contained in an adopted or certified prior environmental document for such a plan. Such projections may be supplemented with additional information such as a regional modeling program. Documents used in creating a summary of projections must be referenced and made available to the public.

When utilizing a list, as suggested above, factors to consider when determining whether to include a related project should include the nature of each environmental resource being examined and the location and type of project. Location may be important, for example, when water quality impacts are involved since projects outside the watershed would probably not contribute to a cumulative effect. Project type may be important, for example, when the impact is specialized, such as a particular air pollutant or mode of traffic.

Public Resources Code section 21094 also states that if a Lead Agency determines that a cumulative effect has been adequately addressed in an earlier EIR, it need not be examined in a later EIR if the later project's incremental contribution to the cumulative effect is not cumulatively considerable. A cumulative effect has been adequately addressed in the prior EIR if:

(1) it has been mitigated or avoided as a result of the prior EIR; or

(2) the cumulative effect has been examined in a sufficient level of detail to enable the effect to be mitigated or avoided by site-specific revisions, the imposition of conditions, or other means in connection with the approval of the later project.

Public Resources Code section 21094 only applies to earlier projects that (1) are consistent with the program, plan, policy, or ordinance for which an environmental impact report has been prepared and certified, (2) are consistent with applicable local land use plans and zoning of the city, county, or city and county in which the later project would be located and (3) are not subject to Public Resources Code section 21166.

If the Lead Agency determines that the cumulative effect has been adequately addressed in a prior EIR, the Lead Agency should clearly explain the basis for its determination in the current environmental documentation for the project.

The City should define the geographic scope of the area affected by the cumulative effect and provide a reasonable explanation for the geographic limitation used.

(Reference: State CEQA Guidelines, § 15130.)

7.22 ANALYSIS OF MITIGATION MEASURES.

The discussion of mitigation measures in an EIR must distinguish between measures proposed by project proponents and other measures proposed by Lead, Responsible or Trustee Agencies. This discussion shall identify mitigation measures for each significant environmental effect identified in the EIR.

Where several measures are available to mitigate an impact, each should be disclosed and the basis for selecting a particular measure should be identified. Formulation of mitigation measures shall not be deferred until some future time The specific details of a mitigation measure, however, may be developed after project approval when it is impractical or infeasible to include those details during the project's environmental review provided that the Lead Agency (1) commits itself to the mitigation, (2) adopts specific performance standards the mitigation will achieve, and (3) identifies the type(s) of potential action(s) that can feasibly achieve that performance standard and that will be considered, analyzed, and potentially incorporated in the mitigation measure. Compliance with a regulatory permit or other similar process may be identified as mitigation if compliance would result in implementation of measures that would be reasonably expected, based on substantial evidence in the record, to reduce the significant impact to the specified performance standards.

If a mitigation measure would cause one or more significant effects in addition to those that would be caused by the project as proposed, the effects of the mitigation measure shall be disclosed but in less detail than the significant effects of the project itself.

If a project includes a housing development, the City may not reduce the project's proposed number of housing units as a mitigation measure or project alternative if the City determines that there is another feasible specific mitigation measure or project alternative that would provide a comparable level of mitigation without reducing the number of housing units.

Mitigation measures must be fully enforceable through permit conditions, agreements, or other legally binding instruments. In the case of the adoption of a plan, policy, regulation, or other public project, mitigation measures can be incorporated into the plan, policy, regulation, or project design. Mitigation measures must also be consistent with all applicable constitutional requirements such as the "nexus" and "rough proportionality" standards—i.e., there must be an essential nexus between the mitigation measure and a legitimate governmental interest, and the mitigation measure must be "roughly proportional" to the impacts of the project.

Where maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation or reconstruction of a historical resource will be conducted in a manner consistent with the Secretary of the Interior's "Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings" (1995), Weeks and Grimmer, the project's impact on the historical resource shall generally be considered mitigated below a level of significance and thus not significant.

The City should, whenever feasible, seek to avoid damaging effects on any historical resource of an archaeological nature. The following must be considered and discussed in an EIR for a project involving an archaeological site:

(a) Preservation in place is the preferred manner of mitigating impacts to archaeological sites; and

(b) Preservation in place may be accomplished by, but is not limited to, the following:

(1) Planning construction to avoid archaeological sites;

(2) Incorporation of sites within parks, green space, or other open spaces;

(3) Covering the archaeological sites with a layer of chemically stable soil before building tennis courts, parking lots, or similar facilities on the site; and/or

(4) Deeding the site into a permanent conservation easement.

When data recovery through excavation is the only feasible mitigation, a data recovery plan, which makes provision for adequately recovering the scientifically consequential information from and about the historical resource, shall be prepared and adopted prior to excavation. Such studies must be deposited with the California Historical Resources Regional Information Center.

Data recovery shall not be required for a historical resource if the City determines that existing testing or studies have adequately recovered the scientifically consequential information from and about the archaeological or historical resource, provided that the determination is documented in the EIR and that the studies are deposited with the California Historical Resources Regional Information Center.

(Reference: State CEQA Guidelines, § 15126.4.)

7.23 ANALYSIS OF ALTERNATIVES IN AN EIR.

The alternatives analysis must describe and evaluate the comparative merits of a range of reasonable alternatives to the project or to the location of the project which would feasibly attain most of the basic objectives of the project, but which would avoid or substantially lessen any of the significant effects of the project. An EIR need not consider every conceivable alternative to a project, and it need not consider alternatives that are infeasible. Rather, an EIR must consider a reasonable range of potentially feasible alternatives that will foster informed decision-making and public participation.

Purpose of the Alternatives Analysis: An EIR must identify ways to mitigate or avoid the significant effects that a project may have on the environment. For this reason, a discussion of alternatives must focus on alternatives to the project or its location that are capable of avoiding or substantially lessening any significant effect of the project, even if these alternatives would impede to some degree the attainment of the project objectives or would be more costly.

Selection of a Range of Reasonable Alternatives: The range of potential alternatives to the proposed project shall include those that could feasibly accomplish most of the basic purposes of the project and could avoid or substantially lessen one or more of the significant effects, even if those alternatives would be more costly or would impede to some degree the attainment of the project's objectives. The EIR should briefly describe the rationale for selecting the alternatives to

be discussed. The EIR should also identify any alternatives that were considered by the Lead Agency and rejected as infeasible during the scoping process, and it should briefly explain the reasons for rejecting those alternatives. Additional information explaining the choice of alternatives should be included in the administrative record. Among the factors that may be used to eliminate alternatives from detailed consideration in an EIR are: (a) failure to meet most of the basic project objectives; (b) infeasibility; or (c) inability to avoid significant environmental impacts.

Evaluation of Alternatives: The EIR shall include sufficient information about each alternative to allow meaningful evaluation, analysis and comparison with the proposed project. A matrix displaying the major characteristics and significant environmental effects of each alternative may be used to summarize the comparison. The matrix may also identify and compare the extent to which each alternative meets project objectives. If an alternative would cause one or more significant effects in addition to those that would be caused by the project as proposed, the significant effects of the alternative shall be discussed but in less detail than the significant effects of the project as proposed.

The Rule of Reason: The range of alternatives required in an EIR is governed by a "rule of reason" which courts have held means that an alternatives discussion must be reasonable in scope and content. Therefore, the EIR must set forth only those alternatives necessary to permit public participation, informed decision-making, and a reasoned choice. The alternatives shall be limited to ones that would avoid or substantially lessen any of the significant effects of the project. Of those alternatives, the EIR need examine in detail only the ones the City determines could feasibly attain most of the basic objectives of the project. An EIR need not consider an alternative whose effect cannot be reasonably ascertained and whose implementation is remote and speculative.

Feasibility of Alternatives: The factors that may be taken into account when addressing the feasibility of alternatives include: site suitability; economic viability; availability of infrastructure; general plan consistency; other plans or regulatory limitations; jurisdictional boundaries (projects with a regionally significant impact should consider the regional context); and whether the proponent already owns the alternative site or can reasonably acquire, control or otherwise have access to the site. No one factor establishes a fixed limit on the scope of reasonable alternatives.

Alternative Locations: The first step in the alternative location analysis is to determine whether any of the significant effects of the project could be avoided or substantially lessened by putting the project in another location. This is the key question in this analysis. Only locations that would avoid or substantially lessen any of the significant effects of the project need be considered for inclusion in the EIR.

The second step in this analysis is to determine whether any of the alternative locations are feasible. If the City concludes that no feasible alternative locations exist, it must disclose its reasons, and it should include them in the EIR. When a previous document has sufficiently analyzed a range of reasonable alternative locations and environmental impacts for a project with the same basic purpose, the City should review the previous document and incorporate the previous document by reference. To the extent the circumstances have remained substantially the same

with respect to an alternative, the EIR may rely on the previous document to help it assess the feasibility of the potential project alternative.

The "No Project" Alternative: The specific alternative of "no project" must be evaluated along with its impacts. The purpose of describing and analyzing the no project alternative is to allow decision-makers to compare the impacts of approving the proposed project with the impacts of not approving the proposed project. The no project alternative may be different from the baseline environmental conditions. The no project alternative will be the same as the baseline only if it is identical to the existing environmental setting and the Lead Agency has chosen the existing environmental setting as the baseline.

A discussion of the "no project" alternative should proceed along one of two lines:

(a) When the project is the revision of an existing land use or regulatory plan, policy or ongoing operation, the "no project" alternative will be the continuation of the existing plan, policy or operation into the future. Typically, this is a situation where other projects initiated under the existing plan will continue while the new plan is developed. Thus, the projected impacts of the proposed plan or alternative plans would be compared to the impacts that would occur under the existing plan; or

(b) If the project is other than a land use or regulatory plan, for example a development project on identifiable property, the "no project" alternative is the circumstance under which the project does not proceed. This discussion would compare the environmental effects of the property remaining in its existing state against environmental effects that would occur if the project is approved. If disapproval of the project would result in predictable actions by others, such as the proposal of some other project, this "no project" consequence should be discussed.

After defining the "no project" alternative, the City should proceed to analyze the impacts of the "no project" alternative by projecting what would reasonably be expected to occur in the foreseeable future if the project were not approved, based on current plans and consistent with available infrastructure and community services. If the "no project" alternative is the environmentally superior alternative, the EIR must also identify another environmentally superior alternative among the remaining alternatives.

Remote or Speculative Alternatives: An EIR need not consider an alternative whose effect cannot be reasonably ascertained and whose implementation is remote and speculative.

(Reference: State CEQA Guidelines, § 15126.6.)

7.24 ANALYSIS OF FUTURE EXPANSION.

An EIR must include an analysis of the environmental effects of future expansion (or other similar future modifications) if there is credible and substantial evidence that:

(a) The future expansion or action is a reasonably foreseeable consequence of the initial project; and

(b) The future expansion or action is likely to change the scope or nature of the initial project or its environmental effects.

Absent these two circumstances, future expansion of a project need not be discussed. CEQA does not require speculative discussion of future development that is unspecific or uncertain. However, if future action is not considered now, it must be considered and environmentally evaluated before it is actually implemented.

(Reference: *Laurel Heights Improvement Ass'n v. Regents of University of California* (1988) 47 Cal.3d 376, 396.)

7.25 NOTICE OF COMPLETION OF DRAFT EIR; NOTICE OF AVAILABILITY OF DRAFT EIR.

Notice of Completion. When the Draft EIR is completed, a Notice of Completion (Form "H") must be filed with the Office of Planning and Research in an electronic form via the Office of Planning and Research's CEQA Submit website, which is located at the following web address: https://ceqasubmit.opr.ca.gov/Security/LogOn?ReturnUrl=%2f. The Notice of Completion shall contain:

(a) A brief description of the proposed project;
(b) The location of the proposed project including the proposed project's latitude and longitude;
(c) An address where copies of the Draft EIR are available and a description of how the Draft EIR can be provided in an electronic format; and
(d) The review period during which comments will be received on the Draft EIR.

The Office of Planning and Research has developed a model form Notice of Completion. Form H follows OPR's model. To ensure that the documents are accepted by OPR staff, this form should be used when documents are transmitted to OPR.

Notice of Availability. At the same time it sends a Notice of Completion to the Office of Planning and Research, the City shall provide public notice of the availability of the Draft EIR by distributing a Notice of Availability of Draft EIR (Form "K"). The Notice of Availability shall include at least the following information:

(a) A brief description of the proposed project and its location;
(b) The starting and ending dates for the review period during which the City will receive comments, the manner in which the City will receive those comments, and whether the review period has been shortened;
(c) The date, time, and place of any scheduled public meetings or hearings to be held by the City on the proposed project, if the City knows this information when it prepares the Notice;
(d) A list of the significant environmental effects anticipated as a result of the project;
(e) The address where copies of the EIR and all documents incorporated by reference in the EIR will be available for public review, and a description of how the Draft EIR can be obtained in electronic format. This location shall be readily accessible to the public during the City's normal working hours ; and
(f) A statement indicating whether the project site is included on any list of hazardous waste facilities, land designated as hazardous waste property, or hazardous waste disposal site,

and, if so, the information required in the Hazardous Waste and Substances Statement pursuant to Government Code section 65962.5.

The Notice of Availability shall be provided to:

(a) Each Responsible and Trustee Agency;
(b) Any other federal, state, or local agency that has jurisdiction by law or exercises authority over resources affected by the project, including:

(1) Any water supply agency consulted under Local Guidelines Section 5.16;

(2) Any city or county bordering on the project area;

(3) For a project of statewide, regional, or area-wide significance, any transportation agencies or public agencies that have major local arterials or public transit facilities within five (5) miles of the project site; or freeways, highways, or rail transit service within ten (10) miles of the project site that could be affected by the project;

(4) For a subdivision project located within one mile of a facility of the State Water Resources Development System, the California Department of Water Resources; and

(5) For a general plan amendment, a project of statewide, regional, or area-wide significance, or a project that relates to a public use airport, to any "military service" (defined in Section 11.42 of these Local Guidelines) that has provided the City with its contact office and address and notified the City of the specific boundaries of a "low-level flight path" (defined in Section 11.37 of these Local Guidelines), "military impact zone" (defined in Section 11.41 of these Local Guidelines), or "special use airspace" (defined in Section 11.67of these Local Guidelines;

(c) The last known name and address of all organizations and individuals who have previously filed a written request with the City to receive these Notices;
(d) For certain projects that may impact a low-level flight path, military impact zone, or special use airspace and that meet the other criteria of Local Guidelines Section 7.04, the specified military services contact;
(e) For certain projects that involve the construction or alteration of a facility anticipated to emit hazardous air emissions or handle hazardous substances within one-quarter mile of a school and that meet the other requirements of Local Guidelines Section 7.36, any potentially affected school district;
(f) For certain waste-burning projects that meet the requirements of Local Guidelines Section 5.11 (see also Local Guidelines Section 7.27), the owners and occupants of property within one-fourth mile of any parcel on which the project will be located; and
(g) For a project that establishes or amends a redevelopment plan that contains land in agricultural use, notice and a copy of the Draft EIR shall be provided to the agricultural and farm agencies and organizations specified in Health and Safety Code section 33333.3.

The City requires requests for copies of these Notices to be in writing and to be renewed annually; moreover, the City may charge a fee for the reasonable cost of providing these Notices.

A project will not be invalidated due to a failure to send a requested Notice provided there has been substantial compliance with these notice provisions.

Staff may also consult with and obtain comments from any person known to have special expertise or any other person or organization whose comments relative to the Draft EIR would be desirable.

Notice shall be given to the last known name and address of all organizations and individuals who have previously requested notice; by posting the notice on the website of the lead agency; and by at least one of the following procedures:

(a) Publication of the Notice of Completion and/or the Notice of Availability at least once in a newspaper of general circulation in the area affected by the proposed project. If more than one area will be affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas;
(b) Posting of the Notice of Completion and/or the Notice of Availability on and off site in the area where the project is to be located; or
(c) Direct mailing of the Notice of Completion and/or the Notice of Availability to owners and occupants of property contiguous to the project, as identified on the latest equalized assessment roll.

The Notice of Completion and Notice of Availability shall be posted in the office of the Clerk in each county in which the project is located for at least thirty (30) days. If the public review period for the Draft EIR is longer than thirty (30) days, the City may wish to leave the Notice posted until the public review period for the Draft EIR has expired.

Copies of the Draft EIR shall also be made available at the City office for review by members of the general public. The City may require any person obtaining a copy of the Draft EIR to reimburse the City for the actual cost of its reproduction. Copies of the Draft EIR should also be furnished to appropriate public library systems.

The City shall also post an electronic copy of the Notice of Completion, Notice of Availability, and Draft EIR on its website, if any.

(Reference: Pub. Resources Code, § 21082.1; State CEQA Guidelines, §§ 15085, 15087.)

7.26 SUBMISSION OF DRAFT EIR TO STATE CLEARINGHOUSE.

A Draft EIR must be submitted to the State Clearinghouse, at the same time as the Notice of Completion, in an electronic form as required by the Office of Planning and Research, regardless of whether the document must be circulated for review and comment by state agencies under State CEQA Guidelines section 15205 and 15206. The Draft EIR must be submitted via the Office of Planning and Research's CEQA Submit website (https://ceqasubmit.opr.ca.gov/Security/LogOn?ReturnUrl=%2f). The CEQA Submit website differentiates between environmental documents that do require review and comment by state agencies and those that do not. In particular, the website provides a "Local Review Period" tab for submitting documents that do not require review and comment by state agencies, and a "State

Review Period" tab for submitting documents that do require review and comment by state agencies.

A Draft EIR must be submitted to the State Clearinghouse for review and comment by state agencies (i.e., the Draft EIR must be submitted through the CEQA Submit website under the "State Review Period" tab) in the following situations:

(a) A state agency is the Lead Agency for the Draft EIR;
(b) A state agency is a Responsible Agency, Trustee Agency, or otherwise has jurisdiction by law over resources potentially affected by the project; or
(c) The Draft EIR is for a project identified in State CEQA Guidelines section 15206 as being a project of statewide, regional, or area-wide significance.

State CEQA Guidelines section 15206 identifies the following types of projects as being examples of projects of statewide, regional, or area-wide significance that require submission to the State Clearinghouse for circulation:

(1) General plans, elements, or amendments for which an EIR was prepared;

(2) Projects that have the potential for causing significant environmental effects beyond the city or county where the project would be located, such as:

  (a) Residential development of more than 500 units;
  (b) Commercial projects employing more than 1,000 persons or covering more than 500,000 square feet of floor space;
  (c) Office building projects employing more than 1,000 persons or covering more than 250,000 square feet of floor space;
  (d) Hotel or motel development of more than 500 rooms; and
  (e) Industrial projects housing more than 1,000 persons, occupying more than 40 acres of land, or covering more than 650,000 square feet of floor area;

(3) Projects for the cancellation of a Williamson Act contract covering more than 100 acres;

(4) Projects in one of the following Environmentally Sensitive Areas:

  (a) Lake Tahoe Basin;
  (b) Santa Monica Mountains Zone;
  (c) Sacramento-San Joaquin River Delta;
  (d) Suisun Marsh;
  (e) Coastal Zone, as defined by the California Coastal Act;
  (f) Areas within one-quarter mile of a river designated as wild and scenic; or
  (g) Areas within the jurisdiction of the San Francisco Bay Conservation and Development Commission;

(5) Projects that would affect sensitive wildlife habitats or the habitats of any rare, threatened, or endangered species;

(6) Projects that would interfere with water quality standards; and

(7) Projects that would provide housing, jobs, or occupancy for 500 or more people within 10 miles of a nuclear power plant.

A Draft EIR may also be submitted to the State Clearinghouse for review and comment by state agencies when a state agency has special expertise with regard to the environmental impacts involved.

Submission of the Draft EIR to the State Clearinghouse affects the timing of the public review period as set forth in Local Guidelines Section 7.28.

(Reference: Pub. Resources Code, § 21091; State CEQA Guidelines, §§ 15205, 15206.)

7.27 SPECIAL NOTICE REQUIREMENTS FOR WASTE- AND FUEL-BURNING PROJECTS.

For any waste-burning project, as defined in Local Guidelines Section 5.11, in addition to the notice requirements specified in Local Guidelines Sections 7.25 and 7.26, Notice of Availability of the Draft EIR shall be given by direct mailing or any other method calculated to provide delivery of the notice to the owners and occupants of property within one-fourth mile of any parcel or parcels on which the project is located.

(Reference: Pub. Resources Code, § 21092(c).)

7.28 TIME FOR REVIEW OF DRAFT EIR; FAILURE TO COMMENT.

A period of between thirty (30) and sixty (60) days from the filing of the Notice of Completion of the Draft EIR shall be allowed for review of and comment on the Draft EIR, except in unusual situations.

If the Draft EIR is for a proposed project where a state agency is the lead agency, a responsible agency, or a trustee agency; a state agency otherwise has jurisdiction by law with respect to the project; or the proposed project is of sufficient statewide, regional, or area-wide significance as determined pursuant to State CEQA Guidelines section 15206, the review period shall be at least forty-five (45) days (unless a shorter period is approved as set forth below), and the lead agency shall provide the document in an electronic form, as required by the Office of Planning and Research, to the State Clearinghouse for review and comment by state agencies.

For purposes of calculating the length of the public review period, the last day of the public review period cannot fall on a weekend, a legal holiday, or other day on which the lead agency's offices are closed.[2] (Reference: *Rominger v. County of Colusa* (2014) 229 Cal.App.4th 690, 708.)

[2] A public agency's "offices are closed" for purposes of this section on days in which the agency is formally closed for business (for example, due to a weekend, a legal holiday, or a formal furlough affecting the entire office). A public agency's office is not considered closed for purposes of this section where the agency's office may be physically closed, but the agency is nonetheless open for business and is operating remotely or virtually (for example, in response to the Covid-19 pandemic).

If a state agency is a Responsible Agency, or if the Draft EIR is submitted to the State Clearinghouse for review and comment by state agencies, the public review period shall be at least as long as the review period established by the State Clearinghouse. The public review period and the state agency review period may, but are not required to, begin and end at the same time. The state agency review period begins (day one) on the date that the State Clearinghouse distributes the Draft EIR to state agencies. The State Clearinghouse is required to distribute the Draft EIR to state agencies within three (3) working days from the date the State Clearinghouse receives the document, as long as the Draft EIR is complete when submitted to the State Clearinghouse. If the document submitted to the State Clearinghouse is not complete, the State Clearinghouse must notify the Lead Agency. The review period for the public and all other agencies may run concurrently with the state agency review period established by the State Clearinghouse.

Under certain circumstances, a shorter review period of the Draft EIR by the State Clearinghouse can be requested by the City; however, a shortened review period shall not be less than thirty (30) days for a Draft EIR. Any request for a shortened review period must be made in writing by the City to OPR. The City may designate a person to make these requests. The City must contact all Responsible and Trustee agencies and obtain their agreement prior to obtaining a shortened review period. (See the Shortened Review Request Form "P.")

A shortened review period is not available for any proposed project of statewide, regional or area-wide environmental significance as determined pursuant to State CEQA Guidelines section 15206. Any approval of a shortened review period shall be given prior to, and reflected in, the public notices.

In the event a public agency, group, or person whose comments on a Draft EIR are solicited fails to comment within the required time period, it shall be presumed that such agency, group, or person has no comment to make, unless the Lead Agency has received a written request for a specific extension of time for review and comment and a statement of reasons for the request.

Continued planning activities concerning the proposed project, short of formal approval, may continue during the period set aside for review and comment on the Draft EIR.

(Reference: Pub. Resources Code, § 21091; State CEQA Guidelines, §§ 15203, 15205(d).)

7.29 PUBLIC HEARING ON DRAFT EIR.

CEQA does not require formal public hearings for certification of an EIR; public comments may be restricted to written communications. (However, a hearing is required to utilize the limited exemption for Transit Priority Projects as explained in Local Guidelines Section 3.15; to adopt a bicycle transportation plan as explained in Local Guidelines Section 3.19; and for certain other actions involving the replacement or deletion of mitigation measures under State CEQA Guidelines section 15074.1.) However, if the City provides a public hearing on its consideration of a project, the City should include the project's environmental review documents as one of the subjects of the hearing. Notice of the time and place of the hearing shall be given in a timely manner in accordance with any legal requirements applicable to the proposed project. Generally, the requirements of the Ralph M. Brown Act will provide the minimum requirements for the inclusion of CEQA matters on agendas and at hearings. (Gov. Code, § 54950 et seq.) At a

minimum, agendas for meetings and hearings before commissions, boards, councils, and other agencies must be posted in a location that is freely accessible to members of the public at least seventy-two (72) hours prior to a regular meeting. The agenda must contain a brief general description of each item to be discussed and the time and location of the meeting. (Gov. Code, § 54954.2.) Additionally, any legislative body or its presiding officer must post an agenda for each regular or special meeting on the local agency's Internet Web site, if the local agency has one.

(Reference: State CEQA Guidelines, § 15202.)

7.30 RESPONSE TO COMMENTS ON DRAFT EIR.

The Lead Agency shall evaluate any comments on environmental issues received during the public review period for the Draft EIR and shall prepare a written response to those comments that raise significant environmental issues.

As stated below, the City, as Lead Agency, should also consider evaluating and responding to any comments received after the public review period. The written responses shall describe the disposition of any significant environmental issues that are raised in the comments. The responses may take the form of a revision of the Draft EIR, an attachment to the Draft EIR, or some other oral or written response that is adequate under the circumstances. If the City's position is at variance with specific recommendations or suggestions raised in the comment, the City's response must detail the reasons why such recommendations or suggestions were not accepted. The level of detail contained in the response, however, may correspond to the level of detail provided in the comment (i.e., responses to general comments may be general). A general response may be appropriate when a comment does not contain or specifically refer to readily available information, or does not explain the relevance of evidence submitted with the comment.

Moreover, the City shall respond to any specific suggestions for project alternatives or mitigation measures for significant impacts, unless such alternatives or mitigation measures are facially infeasible. The response shall contain recommendations, when appropriate, to alter the project as described in the Draft EIR as a result of an analysis of the comments received.

At least ten (10) days prior to certifying a Final EIR, the Lead Agency shall provide its proposed written response, either in printed copy or in an electronic format, to any public agency that has made comments on the Draft EIR during the public review period. The City, as Lead Agency, is not required to respond to comments received after the public review period. However, the City, as Lead Agency, should consider responding to all comments if it will not delay action on the Final EIR, since any comment received before final action on the EIR can form the basis of a legal challenge. A written response that addresses the comment or adequately explains the City's action in light of the comment may assist in defending against a legal challenge.

(Reference: State CEQA Guidelines, § 15088.)

7.31 PREPARATION AND CONTENTS OF FINAL EIR.

Following the receipt of any comments on the Draft EIR as required herein, such comments shall be evaluated by Staff and a Final EIR shall be prepared.

The Final EIR shall meet all requirements of Local Guidelines Section 7.18 and shall consist of the Draft EIR or a revision of the Draft, a section containing either verbatim or in summary the comments and recommendations received through the review and consultation process, a list of persons, organizations and public agencies commenting on the Draft, and a section containing the responses of the City to the significant environmental points raised in the review and consultation process.

(Reference: State CEQA Guidelines, §§ 15089, 15132.)

7.32 RECIRCULATION WHEN NEW INFORMATION IS ADDED TO EIR.

When significant new information is added to the EIR after notice and consultation but before certification, the Lead Agency must recirculate the Draft EIR for another public review period. The term "information" can include changes in the project or environmental setting as well as additional data or other information.

New information is significant only when the EIR is changed in a way that would deprive the public of a meaningful opportunity to comment upon a substantial adverse environmental effect of a project or a feasible way to mitigate or avoid such an effect, including a feasible project alternative, that the project proponents decline to implement. Recirculation is required, for example, when:

(1) New information added to an EIR discloses:

(a) A new significant environmental impact resulting from the project or from a new mitigation measure proposed to be implemented; or

(b) A significant increase in the severity of an environmental impact (unless mitigation measures are also adopted that reduce the impact to a level of insignificance); or

(c) A feasible project alternative or mitigation measure that clearly would lessen the significant environmental impacts of the project, but which the project proponents decline to adopt; or

(2) The Draft EIR is so fundamentally and basically inadequate and conclusory in nature that meaningful public review and comment were precluded.

Recirculation is not required when the new information added to the EIR merely clarifies or amplifies or makes insignificant modifications in an adequate EIR. If the revision is limited to a few chapters or portions of the EIR, the City as Lead Agency need only recirculate the chapters or portions that have been modified. A decision to not recirculate an EIR must be supported by substantial evidence in the record.

When the City determines to recirculate a Draft EIR, it shall give Notice of Recirculation (Form "M") to every agency, person, or organization that commented on the prior Draft EIR. The Notice of Recirculation must indicate whether new comments must be submitted and whether the City has exercised its discretion to require reviewers to limit their comments to the revised chapters or portions of the recirculated EIR. The City shall also consult again with those persons contacted pursuant to Local Guidelines Section 7.25 before certifying the EIR. When the EIR is substantially

revised and the entire EIR is recirculated, the City may require that reviewers submit new comments and need not respond to those comments received during the earlier circulation period. In those cases, the City should advise reviewers that, although their previous comments remain part of the administrative record, the final EIR will not provide a written response to those comments, and new comments on the revised EIR must be submitted. The City need only respond to those comments submitted in response to the revised EIR.

When the EIR is revised only in part and the City is recirculating only the revised chapters or portions of the EIR, the City may request that reviewers limit their comments to the revised chapters or portions. The City need only respond to: (1) comments received during the initial circulation period that relate to chapters or portions of the document that were not revised and recirculated, and (2) comments received during the recirculation period that relate to the chapters or portions of the earlier EIR that were revised and recirculated.

When recirculating a revised EIR, either in whole or in part, the City must, in the revised EIR or by an attachment to the revised EIR, summarize the revisions made to the previously circulated draft EIR.

(Reference: State CEQA Guidelines, § 15088.5.)

7.33 CERTIFICATION OF FINAL EIR.

Following the preparation of the Final EIR, Staff shall review the Final EIR and make a recommendation to the decision-making body regarding whether the Final EIR has been completed in compliance with CEQA, the State CEQA Guidelines and the City's Local Guidelines. The Final EIR and Staff recommendation shall then be presented to the decision-making body. The decision-making body shall independently review and consider the information contained in the Final EIR and determine whether the Final EIR reflects its independent judgment. Before it approves the project, the decision-making body must certify and find that: (1) the Final EIR has been completed in compliance with CEQA, the State CEQA Guidelines and the City's Local Guidelines; (2) the Final EIR was presented to the decision-making body and the decision-making body reviewed and considered the information contained in the Final EIR before approving the project; and (3) the Final EIR reflects the City's independent judgment and analysis.

Except in those cases in which the City Council is the final decision-making body for the project, any interested person may appeal the certification or denial of certification of a Final EIR to the City Council. Appeals must follow the procedures prescribed by the City.

(Reference: State CEQA Guidelines, § 15090.)

7.34 CONSIDERATION OF EIR BEFORE APPROVAL OR DISAPPROVAL OF PROJECT.

Once the decision-making body has certified the EIR, it may then proceed to consider the proposed project for purposes of approval or disapproval.

(Reference: State CEQA Guidelines, § 15092.)

7.35 FINDINGS.

The decision-making body shall not approve or carry out a project if a completed EIR identifies one or more significant environmental effects of the project unless it makes one or more of the following written findings for each such significant effect, accompanied by a brief explanation of the rationale supporting each finding. For impacts that have been identified as potentially significant, the possible findings are:

(a) Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment as identified in the Final EIR, such that the impact has been reduced to a less-than-significant level;
(b) Such changes or alterations are within the responsibility and jurisdiction of another public agency and not the City. Such changes have been, or can and should be, adopted by that other agency; or
(c) Specific economic, legal, social, technological or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the mitigation measures or alternatives identified in the Final EIR. The decision-making body must make specific written findings stating why it has rejected an alternative to the project as infeasible.

The findings required by this Section shall be supported by substantial evidence in the record. Measures identified and relied on to mitigate environmental impacts identified in the EIR to below a level of significance should be expressly adopted or rejected in the findings. The findings should include a description of the specific reasons for rejecting any mitigation measures or project alternatives identified in the EIR that would reduce the significant impacts of the project. Any mitigation measures that are adopted must be fully enforceable through permit conditions, agreements, or other measures.

If any of the proposed alternatives could avoid or lessen an adverse impact for which no mitigation measures are proposed, the City shall analyze the feasibility of such alternative(s). If the project is to be approved without including such alternative(s), the City shall find that specific economic, legal, social, technological or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the alternatives identified in the Final EIR and shall list such considerations before such approval.

The decision-making body shall not approve or carry out a project as proposed unless: (1) the project as approved will not have a significant effect on the environment; or (2) the project's significant environmental effects have been eliminated or substantially lessened (as determined through one or more of the findings indicated above), and any remaining unavoidable significant effects have been found acceptable because of facts and circumstances described in a Statement of Overriding Considerations (see Local Guidelines Section 7.37). Statements in the Draft EIR or comments on the Draft EIR are not determinative of whether the project will have significant effects.

When making the findings required by this Section, the City as Lead Agency shall specify the location and custodian of the documents or other material which constitute the record of proceedings upon which it based its decision.

(Reference: State CEQA Guidelines, § 15091.)

7.36 SPECIAL FINDINGS REQUIRED FOR FACILITIES THAT MAY EMIT HAZARDOUS AIR EMISSIONS NEAR SCHOOLS.

Special procedural rules apply to projects involving the construction or alteration of a facility within one-quarter mile of a school when: (1) the facility might reasonably be anticipated to emit hazardous air emissions or to handle an extremely hazardous substance or a mixture containing extremely hazardous substances in a quantity equal to or greater than the threshold specified in Health and Safety Code section 25532(j); and (2) the emissions or substances may pose a health or safety hazard to persons who would attend or would be employed at the school. If the project meets both of those criteria, the Lead Agency may not certify an EIR or approve a Negative Declaration or Mitigated Negative Declaration unless it makes a finding that:

(a) The Lead Agency consulted with the affected school district or districts having jurisdiction over the school regarding the potential impact of the project on the school; and
(b) The school district was given written notification of the project not less than thirty (30) days prior to the proposed certification of the EIR or approval of the Negative Declaration or Mitigated Negative Declaration.

Implementation of this Local Guideline shall be consistent with the definitions and terms utilized in State CEQA Guidelines section 15186.

Additionally, in its role as a Responsible Agency, the City should be aware that for projects involving the acquisition of a school site or the construction of a secondary or elementary school by a school district, the Negative Declaration, Mitigated Negative Declaration, or EIR prepared for the project may not be adopted or certified unless there is sufficient information in the entire record to determine whether any boundary of the school site is within 500 feet of the edge of the closest traffic lane of a freeway or other busy traffic corridor.

If it is determined that the project involves the acquisition of a school site that is within 500 feet of the edge of the closest traffic lane of a freeway, or other busy traffic corridor, the Negative Declaration, Mitigated Negative Declaration, or EIR may not be adopted or certified unless the school board determines, through a health risk assessment pursuant to Section 44360(b)(2) of the Health and Safety Code and after considering any potential mitigation measures, that the air quality at the proposed project site does not present a significant health risk to pupils.

(Reference: State CEQA Guidelines, § 15186.)

7.37 STATEMENT OF OVERRIDING CONSIDERATIONS.

Before a project that has unmitigated significant adverse environmental effects can be approved, the decision-making body must adopt a Statement of Overriding Considerations. If the decision-making body finds in the Statement of Overriding Considerations that specific benefits of a proposed project outweigh the unavoidable adverse environmental effects, the adverse environmental effects may be considered "acceptable."

Accordingly, the Statement of Overriding Considerations allows the decision-making body to approve a project despite one or more unmitigated significant environmental impacts identified in the Final EIR. A Statement of Overriding Considerations can be made only if feasible project alternatives or mitigation measures do not exist to reduce the environmental impact(s) to a level of insignificance and the benefits of the project outweigh the adverse environmental effect(s). The feasibility of project alternatives or mitigation measures is determined by whether the project alternative or mitigation measure can be accomplished within a reasonable period of time, taking into account economic, environmental, social, legal and technological factors.

Project benefits that are appropriate to consider in the Statement of Overriding Considerations include the economic, legal, environmental, technological and social value of the project. The City may also consider region-wide or statewide environmental benefits.

Substantial evidence in the entire record must justify the decision-making body's findings and its use of the Statement of Overriding Considerations. If the decision-making body makes a Statement of Overriding Considerations, the Statement must be included in the record of the project approval and it should be referenced in the Notice of Determination.

(Reference: State CEQA Guidelines, § 15093.)

7.38 MITIGATION MONITORING OR REPORTING PROGRAM FOR EIR.

When making findings regarding an EIR, the City must do all of the following:

(a) Adopt a reporting or monitoring program to assure that mitigation measures that are required to mitigate or avoid significant effects on the environment will be implemented by the project proponent or other responsible party in a timely manner, in accordance with conditions of project approval;
(b) Make sure all conditions and mitigation measures are feasible and fully enforceable through permit conditions, agreements, or other measures. Such permit conditions, agreements, and measures must be consistent with applicable constitutional requirements such as the "nexus" and "rough proportionality" standards established by case law; and
(c) Specify the location and the custodian of the documents which constitute the record of proceedings upon which the City based its decision in the resolution certifying the EIR.

There is no requirement that the reporting or monitoring program be circulated for public review; however, the City may choose to circulate it for public comments along with the Draft EIR. Any mitigation measures required to mitigate or avoid significant effects on the environment shall be adopted and made fully enforceable, such as by being imposed as conditions of project approval.

The adequacy of a mitigation monitoring program is determined by the "rule of reason." This means that a mitigation monitoring program does not need to provide every imaginable measure. It needs only to provide measures that are reasonably feasible and that are necessary to avoid significant impacts or to reduce the severity of impacts to a less-than-significant level.

The mitigation monitoring or reporting program shall be designed to assure compliance with the mitigation measures during the implementation and construction of the project. If a

Responsible Agency or Trustee Agency has required that certain conditions be incorporated into the project, the City may request that agency to prepare and submit a proposed reporting or monitoring program. The City shall also require that, prior to the close of the public review period for a Draft EIR, the Responsible or Trustee Agency submit detailed performance objectives for mitigation measures, or refer the City to appropriate, readily available guidelines or reference documents. Any mitigation measures submitted to the City by a Responsible or Trustee Agency shall be limited to measures that mitigate impacts to resources that are within the Responsible or Trustee Agency's authority.

When a project is of statewide, regional, or area-wide significance, any transportation information resulting from the reporting or monitoring program required to be adopted by the City shall be submitted to the regional transportation planning agency where the project is located and to the Department of Transportation. The transportation planning agency and the Department of Transportation are required by law to adopt guidelines for the submittal of these reporting or monitoring programs, so the City may wish to tailor its submittal to such guidelines.

Local agencies have the authority to levy fees sufficient to pay for this program. Therefore, the City may impose a program to charge project proponents fees to cover actual costs of program processing and implementation.

The City may delegate reporting or monitoring responsibilities to an agency or to a private entity that accepts the delegation; however, until mitigation measures have been completed, the City remains responsible for ensuring that implementation of the mitigation measures occurs in accordance with the program.

The City may choose whether its program will monitor mitigation, report on mitigation, or both. "Reporting" is defined as a written compliance review that is presented to the Board or an authorized staff person. A report may be required at various stages during project implementation or upon completion of the mitigation measure. Reporting is suited to projects that have readily measurable or quantitative mitigation measures or that already involve regular review. "Monitoring" is generally an ongoing or periodic process of project oversight. Monitoring is suited to projects with complex mitigation measures that may exceed the expertise of the City to oversee, are expected to be implemented over a period of time, or require careful implementation to assure compliance.

At its discretion, the City may adopt standardized policies and requirements to guide individually adopted programs.

Standardized policies or requirements for monitoring and reporting may describe, but are not limited to:

(a) The relative responsibilities of various departments within the City for various aspects of the program;
(b) The responsibilities of the project proponent;
(c) Guidelines adopted by the City to govern preparation of programs;
(d) General standards for determining project compliance with the mitigation measures and related conditions of approval;

(e) Enforcement procedures for noncompliance, including provisions for administrative appeal; and/or
(f) A process for informing the Board and staff of the relative success of mitigation measures and using those results to improve future mitigation measures.

When a project is of statewide, regional, or area-wide importance, any transportation information generated by a mitigation monitoring or reporting program must be submitted to the transportation planning agency in the region where the project is located, as well as to the Department of Transportation.

(Reference: State CEQA Guidelines, § 15097.)

7.39 NOTICE OF DETERMINATION.

After approval of a project for which the City is the Lead Agency, Staff shall cause a Notice of Determination (Form "F") to be prepared, filed, and posted. The Notice of Determination shall include the following information:

(a) An identification of the project, including its common name, where possible, and its location. If the Notice of Determination is filed with the State Clearinghouse, the State Clearinghouse identification number for the draft EIR shall be provided.
(b) A brief description of the project;
(c) The City's name and the applicant's name (if any). If different from the applicant, the Notice of Determination shall further provide, if applicable, the identity of the person undertaking the project that is supported, in whole or in part, through contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies, or the identity of the person receiving a lease, permit, license, certificate, or other entitlement for use from one or more public agencies.
(d) The date when the City approved the project;
(e) Whether the project in its approved form with mitigation will have a significant effect on the environment;
(f) A statement that an EIR was prepared and certified pursuant to the provisions of CEQA;
(g) Whether mitigation measures were made a condition of the approval of the project, and whether a mitigation monitoring plan/program was adopted;
(h) Whether findings were made and/or whether a Statement of Overriding Considerations was adopted for the project; and
(i) The address where a copy of the EIR (with comments and responses) and the record of project approval may be examined by the general public.

The Notice of Determination shall be filed within five (5) working days of project approval with both (1) the Clerk of each county in which the project will be located; and (2) the State Clearinghouse in the OPR. (To determine the fees that must be paid with the filing of the Notice of Determination, see Local Guidelines Section 7.42 and the Staff Summary of the CEQA Process.) The County Clerk is required to post the Notice of Determination within twenty-four (24) hours of receipt. The Notice must be posted in the office of the Clerk for a minimum of thirty (30) days. Thereafter, the Clerk shall return the notice to the City with a notation of the period it was posted. The City shall retain the notice for not less than twelve (12) months.

The City, when acting as lead agency, must post its Notice of Determination for a project on its website, if any.

For projects with more than one phase, Staff shall file a Notice of Determination for each phase requiring a discretionary approval. The filing and posting of a Notice of Determination with the Clerk, and, if necessary, with OPR, usually starts a thirty (30) day statute of limitations on court challenges to the approval under CEQA. When separate notices are filed for successive phases of the same overall project, the thirty (30) day statute of limitation to challenge the subsequent phase begins to run when the second notice is filed. Failure to file the Notice may result in a one hundred eighty (180) day statute of limitations.

(Reference: Pub. Resources Code, §§ 21092.2, 21108; State CEQA Guidelines, § 15094.)

7.40 DISPOSITION OF A FINAL EIR.

The City shall file a copy of the Final EIR with the appropriate planning agency of any city or county where significant effects on the environment may occur. The City shall also retain one or more copies of the Final EIR as a public record for a reasonable period of time. Finally, for private projects, the City may require that the project applicant provide a copy of the certified Final EIR to each Responsible Agency.

(Reference: State CEQA Guidelines, § 15095.)

7.41 PRIVATE PROJECT COSTS.

For private projects, the person or entity proposing to carry out the project shall be charged a reasonable fee to recover the estimated costs incurred by the City in preparing, circulating, and filing the Draft and Final EIRs, as well as all publication costs incident thereto.

7.42 FILING FEES FOR PROJECTS THAT AFFECT WILDLIFE RESOURCES.

At the time a Notice of Determination for an EIR is filed with the County or Counties in which the project is located, a fee of $4,051.25, or the then applicable fee, shall be paid to the Clerk for projects that will adversely affect fish or wildlife resources. These fees are collected by the Clerk on behalf of DFW.

Only one filing fee is required for each project unless the project is tiered or phased and separate environmental documents are prepared. For projects where Responsible Agencies file separate Notices of Determination, only the Lead Agency is required to pay the fee.

Note: County Clerks are authorized to charge a documentary handling fee for each project in addition to the Fish and Wildlife fees specified above. Refer to the Index in the Staff Summary to help determine the correct total amount of fees applicable to the project.

For private projects, the City should pass these costs on to the project applicant.

No fees are required for projects with “no effect” on fish or wildlife resources or for certain projects undertaken by the DFW and implemented through a contract with a non-profit entity or

local government agency. (See Local Guidelines Section 6.24 for more information regarding a "no effect" determination.)

8. TYPES OF EIRS

8.01 EIRs Generally.

This chapter describes a number of examples of various EIRs tailored to different situations. All of these types of EIRs must meet the applicable requirements of Chapter 7 of these Local Guidelines.

8.02 Tiering.

(a) Tiering Generally.

"Tiering" refers to using the analysis of general matters contained in a previously certified broader EIR in later EIRs, Negative Declarations, or Mitigated Negative Declarations prepared for narrower projects. The later EIR, Negative Declaration, or Mitigated Negative Declaration may incorporate by reference the general discussions from the broader EIR and may concentrate solely on the issues specific to the later project.

An Initial Study shall be prepared for the later project and used to determine whether a previously certified EIR may be used and whether new significant effects should be examined. Tiering does not excuse the City from adequately analyzing reasonably foreseeable significant environmental effects of a project, nor does it justify deferring analysis to a later tier EIR, Negative Declaration, or Mitigated Negative Declaration. However, the level of detail contained in a first-tier EIR need not be greater than that of the program, plan, policy, or ordinance being analyzed. When the City is using the tiering process in connection with an EIR for a large-scale planning approval, such as a general plan or component thereof (e.g., an area plan, specific plan or community plan), the development of detailed, site-specific information may not be feasible. Such site-specific information can be deferred, in many instances, until such time as the Lead Agency prepares a future environmental document in connection with a project of a more limited geographical scale, as long as deferral does not prevent adequate identification of significant effects of the planning approval at hand.

(b) Identifying New Significant Impacts.

When assessing whether there is a new significant cumulative effect for purposes of a subsequent tier environmental document, the Lead Agency shall consider whether the incremental effects of the project would be considerable when viewed in the context of past, present, and probable future projects.

A Lead Agency may use only a valid CEQA document as a first-tier document. Accordingly, the City, in its role as Lead Agency, should carefully review the first-tier environmental document to determine whether or not the statute of limitations for challenging the document has run. If the statute of limitations has not expired, the City should use the first-tier document with caution and pay careful attention to the legal status of the document. If the first-tier document is subsequently invalidated, any later environmental document may also be defective.

(c) Infill Projects and Tiering.

 ©Best Best & Krieger LLP

Certain "infill" projects may tier off of a previously certified EIR. An "infill" project is defined as a project with residential, retail, and/or commercial uses, a transit station, a school, or a public office building. It must be located in an urban area on a previously developed site or on an undeveloped site that is surrounded by developed uses. The project must be either consistent with land use planning strategies that achieve greenhouse gas ("GHG") emission reduction targets, feature a small walkable community project, or where a sustainable communities or alternative planning strategy has not yet been adopted for the area, include a residential density of at least 20 units per acre or a floor area ratio of at least 0.75. The project must also meet a number of standards related to energy efficiency that are not yet defined but which SB 226 directs the Office of Planning and Research to prepare.

If an EIR was certified for a planning level decision by a city or county (such as a General Plan or Specific Plan), the scope of the CEQA review for a later "infill" project can be limited to those effects on the environment that: 1) are specific to the project or to the project site and were not addressed as significant effects in the prior EIR; or 2) substantial new information shows will be more significant than described in the prior EIR.

When a project meets the definition of "infill" and either of the above conditions exist but a Mitigated Negative Declaration cannot be adopted, then the subsequent EIR for such a project need not consider alternative locations, densities, and building intensities or growth-inducing impacts.

(d) Statement of Overriding Considerations.

A Lead Agency may also tier off of a previously prepared Statement of Overriding Considerations if certain conditions are met. (See Local Guidelines Section 7.37.)

(Reference: State CEQA Guidelines, § 15152.)

8.03 PROJECT EIR.

The most common type of EIR examines the environmental impacts of a specific development project and focuses primarily on the changes in the environment that would result from the development project.

If the EIR for a redevelopment plan is a Project EIR, all public and private activities or undertakings pursuant to or in furtherance of the Redevelopment Plan shall constitute a single project, which shall be deemed approved at the time of the adoption of the Redevelopment Plan. Although the City will probably not act as a Lead Agency for a Redevelopment Plan, the City may act as a Responsible Agency. (State Guideline Section 15180.)

(Reference: State CEQA Guidelines, §§ 15161, 15180.)

8.04 SUBSEQUENT EIR.

A Subsequent EIR is required when a previous EIR has been prepared and certified, or a Negative Declaration or Mitigated Negative Declaration has been adopted, for a project and at least one of the three following situations occur:

(a) Substantial changes are proposed in the project which will require major revisions of a previous EIR due to the identification of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;

(b) Substantial changes occur with respect to the circumstances under which the project is to be undertaken which will require major revisions of a previous EIR due to the identification of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

(c) New information, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the Negative Declaration/Mitigated Negative Declaration was adopted, becomes available and shows any of the following:

(1) the project will have one or more significant effects not discussed in a previous EIR, Negative Declaration, or Mitigated Negative Declaration;

(2) significant effects previously examined will be substantially more severe than shown in a previous EIR;

(3) mitigation measures or alternatives previously found not to be feasible are in fact feasible and would substantially reduce one or more significant effects, but the project proponent declines to adopt the mitigation measures or alternatives; or

(4) mitigation measures or alternatives which were not considered in a previous EIR would substantially lessen one or more significant effects on the environment, but the project proponent declines to adopt the mitigation measures or alternatives.

A Subsequent EIR must receive the same circulation and review as the previous EIR received.

In instances where the City is evaluating a modification or revision to an existing use permit, the City may consider only those environmental impacts related to the changes between what was allowed under the old permit and what is requested under the new permit. Only if these differential impacts fall within the categories described above may the City require additional environmental review.

When the City is considering approval of a development project that is consistent with a general plan for which an EIR was completed, another EIR is required only if the project causes environmental effects peculiar to the parcel which were not addressed in the prior EIR or substantial new information shows the effects peculiar to the parcel will be more significant than described in the prior EIR. (Reference: State CEQA Guidelines, § 15162.)

8.05 SUPPLEMENTAL EIR.

The City may choose to prepare a Supplemental EIR, rather than a Subsequent EIR, if any of the conditions described in Local Guidelines Section 8.04 have occurred but only minor additions or changes would be necessary to make the previous EIR adequately apply to the project in the changed situation. To assist the City in making this determination, the decision-making body should request an Initial Study and/or a recommendation by Staff. The Supplemental EIR

 ©Best Best & Krieger LLP

need contain only the information necessary to make the previous EIR adequate for the project as revised.

A Supplemental EIR shall be given the same kind of notice and public review as is given to a Draft EIR but may be circulated by itself without recirculating the previous EIR.

When the decision-making body decides whether to approve the project, it shall consider the previous EIR as revised by the Supplemental EIR. Findings shall be made for each significant effect identified in the Supplemental EIR.

(Reference: State CEQA Guidelines, § 15163.)

8.06 ADDENDUM TO AN EIR.

The City shall prepare an Addendum to a previously certified EIR, rather than a Subsequent or Supplemental EIR, only if changes or additions to the EIR are necessary, but none of the conditions described in Local Guidelines Section 8.04 or 8.05 calling for preparation of a Subsequent or Supplemental EIR have occurred. Since significant effects on the environment were addressed by findings in the original EIR, no new findings are required in the Addendum.

An Addendum to an EIR need not be circulated for public review but should be included in or attached to the Final EIR. The decision-making body shall consider the Addendum with the Final EIR prior to making a decision on a project. A brief explanation of the decision not to prepare a Subsequent EIR or a Supplemental EIR should be included in the Addendum, the Lead Agency's findings on the project, or elsewhere in the record. This explanation must be supported by substantial evidence.

(Reference: State CEQA Guidelines, § 15164.)

8.07 STAGED EIR.

When a large capital project will require a number of discretionary approvals from governmental agencies and one of the approvals will occur more than two years before construction will begin, a Staged EIR may be prepared. The Staged EIR covers the entire project in a general form or manner. A Staged EIR should evaluate a proposal in light of current and contemplated plans and produce an informed estimate of the environmental consequences of an entire project. The particular aspect of the project before the City for approval shall be discussed with a greater degree of specificity.

When a Staged EIR has been prepared, a Supplemental EIR shall be prepared when a later approval is required for the project and the information available at the time of the later approval would permit consideration of additional environmental impacts, mitigation measures, or reasonable alternatives to the project.

(Reference: State CEQA Guidelines, § 15167.)

 ©Best Best & Krieger LLP

8.08 PROGRAM EIR.

A Program EIR is an EIR that may be prepared on an integrated series of actions that are related either:

(a) Geographically;
(b) As logical parts in a chain of contemplated actions;
(c) In connection with the issuance of rules, regulations, plans or other general criteria to govern the conduct of a continuing program; or
(d) As individual projects carried out under the same authorizing statutory or regulatory authority and having generally similar environmental effects that can be mitigated in similar ways.

(State CEQA Guidelines Section, 15168.)

An advantage of using a Program EIR is that it can "[a]llow the Lead Agency to consider broad policy alternatives and program wide mitigation measures at an early time when the agency has greater flexibility to deal with basic problems or cumulative impacts." (State CEQA Guidelines section 15168(b)(4).) A Program EIR is distinct from a Project EIR, as a Project EIR is prepared for a specific project and must examine in detail site-specific considerations. Program EIRs are commonly used in conjunction with the process of tiering.

Tiering is the coverage of general matters in broader EIRs (such as on general plans or policy statements) with subsequent narrower EIRs. (State CEQA Guidelines section 15385; see also Local Guidelines Sections 8.02 and 11.73.) Tiering is proper "when it helps a public agency to focus upon the issues ripe for decision at each level of environmental review and in order to exclude duplicative analysis of environmental effects examined in previous environmental impact reports." (Pub. Res. Code, § 21093(a).) For example, the California Supreme Court has ruled that "CEQA does not mandate that a first-tier program EIR identify with certainty particular sources of water for second-tier projects that will be further analyzed before implementation during later stages of the program. Rather, identification of specific sources is required only at the second-tier stage when specific projects are considered." (*In re Bay-Delta etc.* (2008) 43 Cal. 4th 1143.)

Subsequent activities in the program must be examined in light of the Program EIR to determine whether additional environmental documents must be prepared. Additional environmental review documents must be prepared if the proposed later project may arguably cause significant adverse effects on the environment.

(Reference: State CEQA Guidelines, § 15168.)

8.09 USE OF A PROGRAM EIR WITH SUBSEQUENT EIRS AND NEGATIVE DECLARATIONS.

A Program EIR can be used to simplify the task of preparing environmental documents on later activities in the program. The Program EIR can:

(a) Provide the basis for an Initial Study to determine whether the later activity may have any significant effects;

(b) Be incorporated by reference to deal with regional influences, secondary effects, cumulative impacts, broad alternatives and other factors that apply to the program as a whole; or
(c) Focus an EIR on a later activity to permit discussion solely of new effects which had not been considered before.

If a Program EIR is prepared for a redevelopment plan, subsequent activities in the redevelopment program will be subject to review if they would have effects that were not examined in the Program EIR. Where the later activities involve site-specific operations, the City should use a written checklist or similar device to document the evaluation of the site and the proposed activity to determine whether the environmental effects of the operation were within the scope of the Program EIR. If a later activity would have effects that were not examined in the Program EIR, a new Initial Study would need to be prepared leading to an EIR, Negative Declaration, or Mitigated Negative Declaration. That later analysis may tier from the Program EIR as provided in State CEQA Guidelines section 15152.

If the City finds that no Subsequent EIR would be required, the City can approve the activity as being within the scope of the project covered by the Program EIR, and no new environmental document is required. (See Local Guidelines Section 8.04.) Whether a later activity is within the scope of a Program EIR is a factual question that the Lead Agency determines based on substantial evidence in the record. Factors that the Lead Agency may consider in making that determination include, but are not limited to, consistency of the later activity with the type of allowable land use, overall planned density and building intensity, geographic area analyzed for environmental impacts, and covered infrastructure, as described in the Program EIR.

(Reference: State CEQA Guidelines, § 15168.)

8.10 USE OF AN EIR FROM AN EARLIER PROJECT.

A single EIR may be used to describe more than one project when the projects involve substantially identical environmental impacts. Any environmental impacts peculiar to one of the projects must be separately set forth and explained.

(Reference: State CEQA Guidelines, § 15165.)

8.11 MASTER EIR.

A Master EIR is an EIR which may be prepared for:

(a) A general plan (including elements and amendments);
(b) A specific plan;
(c) A project consisting of smaller individual projects to be phased;
(d) A regulation to be implemented by subsequent projects;
(e) A project to be carried out pursuant to a development agreement;
(f) A project pursuant to or furthering a redevelopment plan;
(g) A state highway or mass transit project subject to multiple reviews or approvals; or
(h) A regional transportation plan or congestion management plan.

A Master EIR must do both of the following:

(a) Describe and present sufficient information about anticipated subsequent projects within its scope, including their size, location, intensity, and scheduling; and
(b) Preliminarily describe potential impacts of anticipated subsequent projects for which insufficient information is available to support a full impact assessment.

The City and Responsible Agencies identified in the Master EIR may use the Master EIR to limit environmental review of subsequent projects. However, the Lead Agency for the subsequent project must prepare an Initial Study to determine whether the subsequent project and its significant environmental effects were included in the Master EIR. If the Lead Agency for the subsequent project finds that the subsequent project will have no additional significant environmental effect and that no new mitigation measures or alternatives may be required, it may prepare written findings to that effect without preparing a new environmental document. When the Lead Agency makes this finding, it must provide public notice of the availability of its proposed finding for public review and comment in the same manner as if it were providing public notice of the availability of a draft EIR. (See Sections 15177(d) and 15087 of the State CEQA Guidelines and Section 7.25 of these Local Guidelines.)

A previously certified Master EIR cannot be relied upon to limit review of a subsequent project if:

(a) A project not identified in the certified Master EIR has been approved and that project may affect the adequacy of the Master EIR for the subsequent project now under consideration; or
(b) The Master EIR was certified more than five (5) years before the filing of an application for the subsequent project, unless the City reviews the adequacy of the Master EIR and:

    (1) Finds that, since the Master EIR was certified, no substantial changes have occurred that would cause the subsequent project to have significant environmental impacts, and there is no new information that the subsequent project would have significant environmental impacts; or

    (2) Prepares an Initial Study and either certifies a Subsequent or Supplemental EIR or adopts a Mitigated Negative Declaration that addresses any substantial changes or new information that would cause the subsequent project to have potentially significant environmental impacts. The certified subsequent or supplemental EIR must either be incorporated into the previously certified Master EIR or the City must identify any deletions, additions or other modifications to the previously certified Master EIR in the new document. The City may include a section in the subsequent or supplemental EIR that identifies these changes to the previously certified Master EIR.

When the Lead Agency cannot find that the subsequent project will have no additional significant environmental effect and no new mitigation measures or alternatives will be required, it must prepare either a Mitigated Negative Declaration or an EIR for the subsequent project.

(Reference: State CEQA Guidelines, § 15175.)

8.12 FOCUSED EIR.

A Focused EIR is an EIR for a subsequent project identified in a Master EIR. It may be used only if the City finds that the Master EIR's analysis of cumulative, growth-inducing, and irreversible significant environmental effects is adequate for the subsequent project. The Focused EIR must incorporate by reference the Master EIR.

The Focused EIR must analyze additional significant environmental effects not addressed in the Master EIR and any new mitigation measures or alternatives not included in the Master EIR. "Additional significant effects on the environment" means those project-specific effects on the environment that were not addressed as significant effects on the environment in the Master EIR.

The Focused EIR must also examine the following:

(a) Significant effects discussed in the Master EIR for which substantial new information exists that shows those effects may be more significant than described in the Master EIR;
(b) Those mitigation measures found to be infeasible in the Master EIR for which substantial new information exists that shows the effects may be more significant than described in the Master EIR; and
(c) Those mitigation measures found to be infeasible in the Master EIR for which substantial new information exists that shows those measures may now be feasible.

The Focused EIR need not examine the following effects:

(a) Those that were mitigated through Master EIR mitigation measures; or
(b) Those that were examined in the Master EIR in sufficient detail to allow project-specific mitigation or for which mitigation was found to be the responsibility of another agency.

A Focused EIR may be prepared for a multifamily residential project not exceeding 100 units or a mixed use residential project not exceeding 100,000 square feet even though the project was not identified in a Master EIR, if the following conditions are met:

(a) The project is consistent with a general plan, specific plan, community plan, or zoning ordinance for which an EIR was prepared within five (5) years of the Focused EIR's certification;
(b) The project does not require the preparation of a Subsequent or Supplemental EIR; and
(c) The parcel is surrounded by immediately contiguous urban development, was previously developed with urban uses, or is within one-half mile of a rail transit station.

A Focused EIR for these projects should be limited to potentially significant effects that are project-specific and/or which substantial new information shows will be more significant than described in the Master EIR. No discussion shall be required of alternatives to the project, cumulative impacts of the project, or the growth-inducing impacts of the project. (See State CEQA Guidelines section 15179.5.)

8.13 SPECIAL REQUIREMENTS FOR REDEVELOPMENT PROJECTS.

An EIR for a redevelopment plan may be a Master EIR, Program EIR or Project EIR. An EIR for a redevelopment plan must specify whether it is a Master EIR, a Program EIR or a Project EIR. Normally, the City will not be a Lead Agency for a redevelopment plan. However, if the City is a Responsible Agency on such a project, the City should endeavor to ensure that the county and/or applicable city as the case may be, as Lead Agency, analyzes these impacts in accordance with CEQA.

If a Program EIR is prepared for a redevelopment plan, subsequent activities in the redevelopment program will be subject to review if they would have effects that were not examined in the Program EIR. The Lead Agency should use a written checklist or similar device to document the evaluation of the site and the proposed activity to determine whether the environmental effects of the operation were indeed covered in the Program EIR. If the Lead Agency finds that no new effects could occur, no new mitigation measures would be required or that State CEQA Guidelines sections 15162 and 15163 do not otherwise apply, the Lead Agency can approve the activity as being within the scope of the project covered by the Program EIR, and no new environmental document is required.

If the EIR for a redevelopment plan is a Project EIR, all public and private activities or undertakings pursuant to or in furtherance of the Redevelopment Plan shall constitute a single project, which shall be deemed approved at the time of the adoption of the Redevelopment Plan. Once certified, no subsequent EIRs will be needed unless required by State CEQA Guidelines sections 15162 or 15163. (State CEQA Guidelines section 15180.) If a Master EIR is prepared for a redevelopment plan, subsequent projects will be subject to review if they would have effects that were not examined in the Master EIR. If no new effects could occur or no new mitigation measures would be required, the Lead Agency can approve the activity as being within the scope of the project covered by the Master EIR, and no new environmental document is required.

(Reference: State CEQA Guidelines, § 15180.)

9. AFFORDABLE HOUSING

9.01 STREAMLINED, MINISTERIAL APPROVAL PROCESS FOR AFFORDABLE HOUSING PROJECTS

The legislature has provided reforms and incentives to facilitate and expedite the approval and construction of affordable housing.

(a) An applicant may submit an application for a development that is subject to the streamlined, ministerial approval process and is not subject to a conditional use permit or any other non-legislative discretionary approval if the development satisfies all of the following objective planning standards:

(i) The development is a multifamily housing development that contains two or more residential units.

(ii) The development is located on a site that satisfies the following:

(A) A site that is a legal parcel or parcels located in a city if, and only if, the city boundaries include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal parcel or parcels wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(B) A site in which at least 75 percent of the perimeter of the site adjoins parcels that are developed with urban uses. For the purposes of this section, parcels that are only separated by a street or highway shall be considered to be adjoined.

(C)(1) A site that meets the requirements of clause (2) and satisfies any of the following:

(I) The site is zoned for residential use or residential mixed-use development.

(II) The site has a general plan designation that allows residential use or a mix of residential and nonresidential uses.

(III) The site is zoned for office or retail commercial use and meets the requirements of Gov. Code section 65852.24.

(2) At least two-thirds of the square footage of the development designated for residential use. Additional density, floor area, and units, and any other concession, incentive, or waiver of development standards granted pursuant to the Density Bonus Law in Government Code section 65915 shall be included in the square footage calculation. The square footage of the development shall not include underground space, such as basements or underground parking garages.

(iii) If the development contains units that are subsidized, the development proponent already has recorded, or is required by law to record, a land use restriction for the following applicable minimum durations:

(A) Fifty-five years for units that are rented.

(B) Forty-five years for units that are owned.

(iv) The development satisfies both of the following:

(A) The development is located in a locality that the department has determined is subject to this subparagraph on the basis that the number of units that have been issued building permits is less than the locality's share of the regional housing needs, by income category, for that reporting period. A locality shall remain eligible under this subparagraph until the department's determination for the next reporting period. A locality shall be subject to this subparagraph if it has not submitted an annual housing element report to the department pursuant to paragraph (2) of subdivision (a) of Section 65400 for at least two consecutive years before the development submitted an application for approval under this section.

(B) The development is subject to a requirement mandating a minimum percentage of below market rate housing based on one of the following:

(1) The locality did not submit its latest production report to the department by the time period required by Government Code section 65400, or that production report reflects that there were fewer units of above moderate-income housing approved than were required for the regional housing needs assessment cycle for that reporting period. In addition, if the project contains more than 10 units of housing, the project seeking approval dedicates a minimum of 10 percent of the total number of units, before calculating any density bonus, to housing affordable to households making below 80 percent of the area median income. If the locality has adopted a local ordinance that requires that greater than 10 percent of the units be dedicated to housing affordable to households making below 80 percent of the area median income, that zoning ordinance applies.

(2) The locality did not submit its latest production report to the department by the time period required by Government Code section 65400, or that production report reflects that there were fewer units of housing affordable to households making below 80 percent of the area median income that were issued building permits than were required for the regional housing needs assessment cycle for that reporting period, and the project seeking approval dedicates 50 percent of the total number of units, before calculating any density bonus, to housing affordable to households making below 80 percent of the area median income, unless the locality has adopted

a local ordinance that requires that greater than 50 percent of the units be dedicated to housing affordable to households making below 80 percent of the area median income, in which case that ordinance applies.

(3) The locality did not submit its latest production report to the department by the time period required by Government Code section 65400, or if the production report reflects that there were fewer units of housing affordable to any income level described in clause (i) or (ii) that were issued building permits than were required for the regional housing needs assessment cycle for that reporting period, the project seeking approval may choose between utilizing clause (i) or (ii).

(v) The development, excluding any additional density or any other concessions, incentives, or waivers of development standards granted pursuant to the Density Bonus Law in Government Code section 65915, is consistent with objective zoning standards and objective design review standards in effect at the time that the development is submitted to the local government pursuant to this section. For purposes of this paragraph, "objective zoning standards" and "objective design review standards" mean standards that involve no personal or subjective judgment by a public official and are uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official prior to submittal. These standards may be embodied in alternative objective land use specifications adopted by a city or county, and may include, but are not limited to, housing overlay zones, specific plans, inclusionary zoning ordinances, and density bonus ordinances, subject to the following:

(A) A development shall be deemed consistent with the objective zoning standards related to housing density, as applicable, if the density proposed is compliant with the maximum density allowed within that land use designation, notwithstanding any specified maximum unit allocation that may result in fewer units of housing being permitted.

(B) In the event that objective zoning, general plan, or design review standards are mutually inconsistent, a development shall be deemed consistent with the objective zoning standards pursuant to this section if the development is consistent with the standards set forth in the general plan.

(C) A project that satisfies the requirements of Government Code section 65852.24 shall be deemed consistent with objective zoning standards, objective design standards, and objective subdivision standards if the project is consistent with the provisions of subdivision (b) of Government Code section 65852.24 and if none of the square footage in the project is designated for hotel, motel, bed and breakfast inn, or other transient lodging use, except for a residential hotel. For purposes of this subdivision, "residential hotel" shall have the same meaning as defined in Section 50519 of the Health and Safety Code.(vi) The development is not located on a site that is any of the following:

(A) A coastal zone, as defined in Division 20 (commencing with Section 30000) of the Public Resources Code.

(B) Either prime farmland or farmland of statewide importance, as defined pursuant to United States Department of Agriculture land inventory and monitoring criteria, as modified for California, and designated on the maps prepared by the Farmland Mapping and Monitoring Program of the Department of Conservation, or land zoned or designated for agricultural protection or preservation by a local ballot measure that was approved by the voters of that jurisdiction.

(C) Wetlands, as defined in the United States Fish and Wildlife Service Manual.

(D) Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code. This subparagraph does not apply to sites excluded from the specified hazard zones by a local agency, pursuant to subdivision (b) of Government Code section 51179, or sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.

(E) A hazardous waste site that is listed pursuant to Government Code section 65962.5 or a hazardous waste site designated by the Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code, unless either of the following apply:

(i) The site is an underground storage tank site that received a uniform closure letter issued pursuant to subdivision (g) of Section 25296.10 of the Health and Safety Code based on closure criteria established by the State Water Resources Control Board for residential use or residential mixed uses. This section does not alter or change the conditions to remove a site from the list of hazardous waste sites listed pursuant to Government Code section 65962.5; or

(ii) The State Department of Public Health, State Water Resources Control Board, Department of Toxic Substances Control, or a local agency making a determination pursuant to subdivision (c) of Section 25296.10 of the Health and Safety Code, has otherwise determined that the site is suitable for residential use or residential mixed uses.

(F) Within a delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California

Building Standards Law, Health and Safety Code section 18901, and by any local building department under Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2 of the Government Code.

(G) Within a flood plain as determined by maps promulgated by the Federal Emergency Management Agency, unless the development has been issued a flood plain development permit pursuant to Code of Federal Regulations section 59.1.

(H) Within a floodway as determined by maps promulgated by the Federal Emergency Management Agency, unless the development has received a no-rise certification in accordance with Code of Federal Regulations section 60.3(d)(3).

(I) Lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act, Fish and Game Code section 2800, habitat conservation plan pursuant to the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), or other adopted natural resource protection plan.

(J) Habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531 et seq.), the California Endangered Species Act, Fish and Game Code section 2050, or the Native Plant Protection Act, Fish and Game Code section 1900.

(K) Lands under conservation easement.

(vii) The development is not located on a site where any of the following apply:

(A) The development would require the demolition of the following types of housing:

(1) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

(2) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.

(3) Housing that has been occupied by tenants within the past 10 years.

(B) The site was previously used for housing that was occupied by tenants that was demolished within 10 years before the development proponent submits an application under this section.

(C) The development would require the demolition of a historic structure that was placed on a national, state, or local historic register.

(D) The property contains housing units that are occupied by tenants, and units at the property are, or were, subsequently offered for sale to the general public by the subdivider or subsequent owner of the property.

(viii) The applicant has done both of the following, as applicable:

(A) Certified to the locality that either of the following is true, as applicable:

(1) The entirety of the development is a public work for purposes of Labor Code section 1720.

(2) If the development is not in its entirety a public work, that all construction workers employed in the execution of the development will be paid at least the general prevailing rate of per diem wages for the type of work and geographic area, as determined by the Director of Industrial Relations pursuant to Labor Code sections 1773 and 1773.9, except that apprentices registered in programs approved by the Chief of the Division of Apprenticeship Standards may be paid at least the applicable apprentice prevailing rate. If the development is subject to this subparagraph, then for those portions of the development that are not a public work all of the following shall apply:

(I) The development proponent shall ensure that the prevailing wage requirement is included in all contracts for the performance of the work.

(II) All contractors and subcontractors shall pay to all construction workers employed in the execution of the work at least the general prevailing rate of per diem wages, except that apprentices registered in programs approved by the Chief of the Division of Apprenticeship Standards may be paid at least the applicable apprentice prevailing rate.

(III) Except as provided in subsection (V), all contractors and subcontractors shall maintain and verify payroll records pursuant to Labor Code section 1776 and make those records available for inspection and copying as provided in therein.

(IV) Except as provided in subsection (V), the obligation of the contractors and subcontractors to pay prevailing wages may be enforced by the Labor Commissioner through the issuance of a civil wage and penalty assessment pursuant to Labor Code section 1741, which may be reviewed pursuant to Labor Code section 1742, within 18 months after the completion of the development, by an underpaid worker through an administrative

complaint or civil action, or by a joint labor-management committee though a civil action under Labor Code section 1771.2. If a civil wage and penalty assessment is issued, the contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment shall be liable for liquidated damages pursuant to Labor Code section 1742.1.

(V) Subsections (III) and (IV) shall not apply if all contractors and subcontractors performing work on the development are subject to a project labor agreement that requires the payment of prevailing wages to all construction workers employed in the execution of the development and provides for enforcement of that obligation through an arbitration procedure. For purposes of this clause, "project labor agreement" has the same meaning as set forth in Public Contract Code section 2500(b)(1).

(VI) Notwithstanding Labor Code section 1773.1, subdivision (c), the requirement that employer payments not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing shall not apply if otherwise provided in a bona fide collective bargaining agreement covering the worker. The requirement to pay at least the general prevailing rate of per diem wages does not preclude use of an alternative workweek schedule adopted pursuant to Labor Code section 511 or 514.

(B)(1) For developments for which any of the following conditions apply, certified that a skilled and trained workforce shall be used to complete the development if the application is approved:

(I) On and after January 1, 2018, until December 31, 2021, the development consists of 75 or more units that are not 100 percent subsidized affordable housing and will be located within a jurisdiction located in a coastal or bay county with a population of 225,000 or more.

(II) On and after January 1, 2022, until December 31, 2025, the development consists of 50 or more units that are not 100 percent subsidized affordable housing and will be located within a jurisdiction located in a coastal or bay county with a population of 225,000 or more.

(III) On and after January 1, 2018, until December 31, 2019, the development consists of 75 or more units that are not 100 percent subsidized affordable housing and will be located within a jurisdiction with a population of fewer than 550,000 and that is not located in a coastal or bay county.

(IV) On and after January 1, 2020, until December 31, 2021, the development consists of more than 50 units and will be located within a

jurisdiction with a population of fewer than 550,000 and that is not located in a coastal or bay county.

(V) On and after January 1, 2022, until December 31, 2025, the development consists of more than 25 units and will be located within a jurisdiction with a population of fewer than 550,000 and that is not located in a coastal bay county.

(2) For purposes of this section, "skilled and trained workforce" has the same meaning as provided in the Public Contract Code section 2600.

(3) If the development proponent has certified that a skilled and trained workforce will be used to complete the development and the application is approved, the following shall apply:

(I) The applicant shall require in all contracts for the performance of work that every contractor and subcontractor at every tier will individually use a skilled and trained workforce to complete the development.

(II) Every contractor and subcontractor shall use a skilled and trained workforce to complete the development.

(III) Except as provided in subdivision (IV), the applicant shall provide to the locality, on a monthly basis while the development or contract is being performed, a report demonstrating compliance with Public Contract Code section 2600. A monthly report provided to the locality pursuant to this subclause shall be a public record under the California Public Records Act (Government Code section 7920.000 et seq.) and shall be open to public inspection. An applicant that fails to provide a monthly report demonstrating compliance with Public Contract Code section 2600 shall be subject to a civil penalty of ten thousand dollars ($10,000) per month for each month for which the report has not been provided. Any contractor or subcontractor that fails to use a skilled and trained workforce shall be subject to a civil penalty of two hundred dollars ($200) per day for each worker employed in contravention of the skilled and trained workforce requirement. Penalties may be assessed by the Labor Commissioner within 18 months of completion of the development using the same procedures for issuance of civil wage and penalty assessments pursuant to Labor Code section 1741, and may be reviewed pursuant to the same procedures in Labor Code section 1742. Penalties shall be paid to the State Public Works Enforcement Fund.

(IV) Subdivision (III) shall not apply if all contractors and subcontractors performing work on the development are subject to a project labor agreement that requires compliance with the skilled and trained

workforce requirement and provides for enforcement of that obligation through an arbitration procedure. For purposes of this subparagraph, "project labor agreement" has the same meaning as set forth in Public Contract Code section 2500(b)(1).

(C) Notwithstanding subparagraphs (A) and (B) above, a development that is subject to approval pursuant to this section is exempt from any requirement to pay prevailing wages or use a skilled and trained workforce if it meets both of the following:

(1) The project includes 10 or fewer units.

(2) The project is not a public work for purposes of Labor Code section 1720.

(ix) The development did not or does not involve a subdivision of a parcel that is, or, notwithstanding this section, would otherwise be, subject to the Subdivision Map Act (Government Code section 66410, et seq.) or any other applicable law authorizing the subdivision of land, unless either of the following apply:

(A) The development has received or will receive financing or funding by means of a low-income housing tax credit and is subject to the requirement that prevailing wages be paid pursuant to subparagraph (A) of paragraph (viii).

(B) The development is subject to the requirement that prevailing wages be paid, and a skilled and trained workforce used, pursuant to paragraph (h).

(x) The development shall not be upon an existing parcel of land or site that is governed under the Mobilehome Residency Law, Civil Code section 798, the Recreational Vehicle Park Occupancy Law, Civil Code section 799.20, the Mobilehome Parks Act, Health and Safety Code section 18200, or the Special Occupancy Parks Act, Health and Safety Code section 18860.

(b) (i)(A)(1) Before submitting an application for a development subject to the streamlined, ministerial approval process described in this section, the development proponent shall submit to the local government a notice of its intent to submit an application. The notice of intent shall be in the form of a preliminary application that includes all of the information described in Section 65941.1 of the Government Code, as that section read on January 1, 2020.

(2) Upon receipt of a notice of intent to submit an application, the local government shall engage in a scoping consultation regarding the proposed development with any California Native American tribe that is traditionally and culturally affiliated with the geographic area, as described in Section 21080.3.1 of the Public Resources Code, of the proposed development. In order to expedite compliance with this subdivision, the local government

shall contact the Native American Heritage Commission for assistance in identifying any California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed development.

(3) The timeline for noticing and commencing a scoping consultation in accordance with this subdivision shall be as follows:

A. The local government shall provide a formal notice of a development proponent's notice of intent to submit an application to each California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed development within 30 days of receiving that notice of intent. The formal notice provided pursuant to this subclause shall include all of the following:

1. A description of the proposed development.
2. The location of the proposed development.
3. An invitation to engage in a scoping consultation in accordance with this subdivision.

B. Each California Native American tribe that receives a formal notice pursuant to this clause shall have 30 days from the receipt of that notice to accept the invitation to engage in a scoping consultation.

C. If the local government receives a response accepting an invitation to engage in a scoping consultation pursuant to this subdivision, the local government shall commence the scoping consultation within 30 days of receiving that response.

(B) The scoping consultation shall recognize that California Native American tribes traditionally and culturally affiliated with a geographic area have knowledge and expertise concerning the resources at issue and shall take into account the cultural significance of the resource to the culturally affiliated California Native American tribe.

(C) The parties to a scoping consultation conducted pursuant to this subdivision shall be the local government and any California Native American tribe traditionally and culturally affiliated with the geographic area of the proposed development. More than one California Native American tribe traditionally and culturally affiliated with the geographic area of the proposed development may participate in the scoping consultation. However, the local government, upon the request of any California Native American tribe traditionally and culturally affiliated with the geographic area of the proposed development, shall engage in a separate scoping consultation with that California Native American tribe. The development proponent and its consultants may participate in a scoping

consultation process conducted pursuant to this subdivision if all of the following conditions are met:

(1) The development proponent and its consultants agree to respect the principles set forth in this subdivision.

(2) The development proponent and its consultants engage in the scoping consultation in good faith.

(3) The California Native American tribe participating in the scoping consultation approves the participation of the development proponent and its consultants. The California Native American tribe may rescind its approval at any time during the scoping consultation, either for the duration of the scoping consultation or with respect to any particular meeting or discussion held as part of the scoping consultation.

(D) The participants to a scoping consultation pursuant to this subdivision shall comply with all of the following confidentiality requirements: (1) Government Code section 7927.000 and 7927.005; Government Code section 6254.10; Public Resources Code section 21083.3, subdivision (c); (4) State CEQA Guidelines section 15120, subdivision (d); and any additional confidentiality standards adopted by the California Native American tribe participating in the scoping consultation.

(E) CEQA does not apply to the scoping consultation conducted pursuant to this subdivision.

(b) (ii)(A) If, after concluding the scoping consultation, the parties find that no potential tribal cultural resource would be affected by the proposed development, the development proponent may submit an application for the proposed development that is subject to the streamlined, ministerial approval process described in this section

(B) If, after concluding the scoping consultation, the parties find that a potential tribal cultural resource could be affected by the proposed development and an enforceable agreement is documented between the California Native American tribe and the local government on methods, measures, and conditions for tribal cultural resource treatment, the development proponent may submit the application for a development subject to the streamlined, ministerial approval process described in this section. The local government shall ensure that the enforceable agreement is included in the requirements and conditions for the proposed development.

(C) If, after concluding the scoping consultation, the parties find that a potential tribal cultural resource could be affected by the proposed development and an enforceable agreement is not documented between the California Native American

tribe and the local government regarding methods, measures, and conditions for tribal cultural resource treatment, the development shall not be eligible for the streamlined, ministerial approval process described in this section.

(D) For purposes of this paragraph, a scoping consultation shall be deemed to be concluded if either of the following occur:

(1) The parties to the scoping consultation document an enforceable agreement concerning methods, measures, and conditions to avoid or address potential impacts to tribal cultural resources that are or may be present.

(2) One or more parties to the scoping consultation, acting in good faith and after reasonable effort, conclude that a mutual agreement on methods, measures, and conditions to avoid or address impacts to tribal cultural resources that are or may be present cannot be reached.

(E) If the development or environmental setting substantially changes after the completion of the scoping consultation, the local government shall notify the California Native American tribe of the changes and engage in a subsequent scoping consultation if requested by the California Native American tribe.

(b) (iii) A local government may only accept an application for streamlined, ministerial approval pursuant to this section if one of the following applies:

(A) A California Native American tribe that received a formal notice of the development proponent's notice of intent to submit an application pursuant to this section did not accept the invitation to engage in a scoping consultation.

(B) The California Native American tribe accepted an invitation to engage in a scoping consultation pursuant to this section but substantially failed to engage in the scoping consultation after repeated documented attempts by the local government to engage the California Native American tribe.

(C) The parties to a scoping consultation pursuant to this subdivision find that no potential tribal cultural resource will be affected by the proposed development.

(D) A scoping consultation between a California Native American tribe and the local government has occurred and resulted in an agreement.

(b) (iv) A project shall not be eligible for the streamlined, ministerial process described in this section if any of the following apply:

(A) There is a tribal cultural resource that is on a national, state, tribal, or local historic register list located on the site of the project.

 ©Best Best & Krieger LLP

(B) There is a potential tribal cultural resource that could be affected by the proposed development and the parties to a scoping consultation conducted pursuant to this subdivision do not document an enforceable agreement on methods, measures, and conditions for tribal cultural resource treatment, as described in this section.

(C) The parties to a scoping consultation conducted pursuant to this subdivision do not agree as to whether a potential tribal cultural resource will be affected by the proposed development.

(b) (v)(A) If, after a scoping consultation conducted pursuant to this subdivision, a project is not eligible for the streamlined, ministerial process described in this section for any or all of the following reasons, the local government shall provide written documentation of that fact, and an explanation of the reason for which the project is not eligible, to the development proponent and to any California Native American tribe that is a party to that scoping consultation:

(1) There is a tribal cultural resource that is on a national, state, tribal, or local historic register list located on the site of the project.

(2) The parties to the scoping consultation have not documented an enforceable agreement on methods, measures, and conditions for tribal cultural resource treatment.

(3) The parties to the scoping consultation do not agree as to whether a potential tribal cultural resource will be affected by the proposed development.

(b) (v)(B) The written documentation provided to a development proponent pursuant to this paragraph shall include information on how the development proponent may seek a conditional use permit or other discretionary approval of the development from the local government.

(b) (vi) This section is not intended, and shall not be construed, to limit consultation and discussion between a local government and a California Native American tribe pursuant to other applicable law, confidentiality provisions under other applicable law, the protection of religious exercise to the fullest extent permitted under state and federal law, or the ability of a California Native American tribe to submit information to the local government or participate in any process of the local government.

(b) (vii) For purposes of this subdivision:

(A) "Consultation" means the meaningful and timely process of seeking, discussing, and considering carefully the views of others, in a manner that is cognizant of all parties' cultural values and, where

feasible, seeking agreement. Consultation between local governments and Native American tribes shall be conducted in a way that is mutually respectful of each party's sovereignty. Consultation shall also recognize the tribes' potential needs for confidentiality with respect to places that have traditional tribal cultural importance. A lead agency shall consult the tribal consultation best practices described in the "State of California Tribal Consultation Guidelines: Supplement to the General Plan Guidelines" prepared by the Office of Planning and Research.

(B) "Scoping" means the act of participating in early discussions or investigations between the local government and California Native American tribe, and the development proponent if authorized by the California Native American tribe, regarding the potential effects a proposed development could have on a potential tribal cultural resource, as defined in Section 21074 of the Public Resources Code, or California Native American tribe, as defined in Section 21073 of the Public Resources Code.

(b) (viii) This subdivision (b) shall not apply to any project that has been approved under the streamlined, ministerial approval process provided under this section before September 25, 2020.

(c)(i) If a local government determines that a development submitted pursuant to this section is consistent with the objective planning standards specified in subdivision (a) and pursuant to paragraph (iii) of this subdivision, it shall approve the development. If a local government determines that a development submitted pursuant to this section is in conflict with any of the objective planning standards specified in subdivision (a), it shall provide the development proponent written documentation of which standard or standards the development conflicts with, and an explanation for the reason or reasons the development conflicts with that standard or standards, as follows:

(A) Within 60 days of submittal of the development to the local government pursuant to this section if the development contains 150 or fewer housing units.

(B) Within 90 days of submittal of the development to the local government pursuant to this section if the development contains more than 150 housing units.

(ii) If the local government fails to provide the required documentation pursuant to paragraph (1), the development shall be deemed to satisfy the objective planning standards specified in subdivision (a).

(iii) For purposes of this section, a development is consistent with the objective planning standards specified in subdivision (a) if there is substantial evidence that would allow a

reasonable person to conclude that the development is consistent with the objective planning standards. The local government shall not determine that a development, including an application for a modification under subdivision (g), is in conflict with the objective planning standards on the basis that application materials are not included, if the application contains substantial evidence that would allow a reasonable person to conclude that the development is consistent with the objective planning standards.

(d) (i) Any design review or public oversight of the development may be conducted by the local government's planning commission or any equivalent board or commission responsible for review and approval of development projects, or the city council or board of supervisors, as appropriate. That design review or public oversight shall be objective and be strictly focused on assessing compliance with criteria required for streamlined projects, as well as any reasonable objective design standards published and adopted by ordinance or resolution by a local jurisdiction before submission of a development application, and shall be broadly applicable to development within the jurisdiction. That design review or public oversight shall be completed, and if the development is consistent with all objective standards, the local government shall approve the development as follows and shall not in any way inhibit, chill, or preclude the ministerial approval provided by this section or its effect, as applicable:

(A) Within 90 days of submittal of the development to the local government pursuant to this section if the development contains 150 or fewer housing units.

(B) Within 180 days of submittal of the development to the local government pursuant to this section if the development contains more than 150 housing units.

(ii) If the development is consistent with the requirements of subparagraph (A) or (B) of paragraph (ix) of subdivision (a) and is consistent with all objective subdivision standards in the local subdivision ordinance, an application for a subdivision pursuant to the Subdivision Map Act (Division 2 (commencing with Government Code section 66410)) shall be exempt from the requirements of CEQA and shall be subject to the public oversight timelines set forth in paragraph (i).

(iii) If a local government determines that a development submitted pursuant to this section is in conflict with any of the standards imposed pursuant to paragraph (i), it shall provide the development proponent written documentation of which objective standard or standards the development conflicts with, and an explanation for the reason or reasons the development conflicts with that objective standard or standards consistent with the timelines described in paragraph (i) of subdivision (c).

(e) (i) Notwithstanding any other law, a local government, whether or not it has adopted an ordinance governing parking requirements in multifamily developments, shall not impose parking standards for a streamlined development that was approved pursuant to this section in any of the following instances:

(A) The development is located within one-half mile of public transit.

(B) The development is located within an architecturally and historically significant historic district.

(C) When on-street parking permits are required but not offered to the occupants of the development.

(D) When there is a car share vehicle located within one block of the development.

(ii) If the development does not fall within any of the categories described in paragraph (1), the local government shall not impose parking requirements for streamlined developments approved pursuant to this section that exceed one parking space per unit.

(f) (i) If a local government approves a development pursuant to this section, then, notwithstanding any other law, that approval shall not expire if the project satisfies both of the following requirements:

(A) The project includes public investment in housing affordability, beyond tax credits.

(B) At least 50 percent of the units are affordable to households making at or below 80 percent of the area median income.

(ii) If a local government approves a development pursuant to this section, and the project does not satisfy the requirements of subparagraphs (A) and (B) of paragraph (f)(i), that approval shall remain valid for three years from the date of the final action establishing that approval, or if litigation is filed challenging that approval, from the date of the final judgment upholding that approval. Approval shall remain valid for a project provided construction activity, including demolition and grading activity, on the development site has begun pursuant to a permit issued by the local jurisdiction and is in progress. For purposes of this subdivision, "in progress" means one of the following:

(A) The construction has begun and has not ceased for more than 180 days.

(B) If the development requires multiple building permits, an initial phase has been completed, and the project proponent has applied for and is diligently pursuing a building permit for a subsequent phase, provided that once it has been issued, the building permit for the subsequent phase does not lapse.

(C) Notwithstanding subparagraph (ii), a local government may grant a project a one-time, one-year extension if the project proponent can provide documentation that there has been significant progress toward getting the development construction ready, such as filing a building permit application.

 ©Best Best & Krieger LLP

(iii) If the development proponent requests a modification pursuant to subdivision (g), then the time during which the approval shall remain valid shall be extended for the number of days between the submittal of a modification request and the date of its final approval, plus an additional 180 days to allow time to obtain a building permit. If litigation is filed relating to the modification request, the time shall be further extended during the pendency of the litigation. The extension required by this paragraph shall only apply to the first request for a modification submitted by the development proponent.

(g) (i)(A) A development proponent may request a modification to a development that has been approved under the streamlined, ministerial approval process provided in subdivision (b) if that request is submitted to the local government before the issuance of the final building permit required for construction of the development.

(i)(B) Except as provided in paragraph (g)(iiii), the local government shall approve a modification if it determines that the modification is consistent with the objective planning standards specified in subdivision (a) that were in effect when the original development application was first submitted.

(i)(C) The local government shall evaluate any modifications requested pursuant to this subdivision for consistency with the objective planning standards using the same assumptions and analytical methodology that the local government originally used to assess consistency for the development that was approved for streamlined, ministerial approval pursuant to subdivision (b).

(i)(D) A guideline that is adopted or amended by the Department of Housing and Community Development after a development is approved through the streamlined, ministerial approval process described in subdivision (b) shall not be used as a basis to deny proposed modifications.

(ii) Upon receipt of the development proponent's application requesting a modification, the local government shall determine if the requested modification is consistent with the objective planning standard and either approve or deny the modification request within 60 days after submission of the modification, or within 90 days if design review is required.

(iii) Notwithstanding paragraph (g)(i), the local government may apply objective planning standards adopted after the development application was first submitted to the requested modification in any of the following instances:

(A) The development is revised such that the total number of residential units or total square footage of construction changes by 15 percent or more. The calculation of the square footage of construction changes shall not include underground space.

(B) The development is revised such that the total number of residential units or total square footage of construction changes by 5 percent or more and it

 ©Best Best & Krieger LLP

is necessary to subject the development to an objective standard beyond those in effect when the development application was submitted in order to mitigate or avoid a specific, adverse impact as that term is defined in subparagraph (A) of paragraph (1) of subdivision (j) of Government Code section 65589.5, upon the public health or safety and there is no feasible alternative method to satisfactorily mitigate or avoid the adverse impact. The calculation of the square footage of construction changes shall not include underground space.

(C) Objective building standards contained in the California Building Standards Code (Title 24 of the California Code of Regulations), including, but not limited to, building plumbing, electrical fire, and grading codes, may be applied to all modification applications that are submitted prior to the first building permit application. Those standards may be applied to modification applications submitted after first building permit application if agreed to by the development proponent.

(iv) The local government's review of a modification request pursuant to this subdivision shall be strictly limited to determining whether the modification, including any modification to previously approved density bonus concessions or waivers, modify the development's consistency with the objective planning standards and shall not reconsider prior determinations that are not affected by the modification.

(h) (i) A local government shall not adopt or impose any requirement, including, but not limited to, increased fees or inclusionary housing requirements, that applies to a project solely or partially on the basis that the project is eligible to receive ministerial or streamlined approval pursuant to this section.

(ii) A local government shall issue a subsequent permit required for a development approved under this section if the application substantially complies with the development as it was approved pursuant to subdivision (b). Upon receipt of an application for a subsequent permit, the local government shall process the permit without unreasonable delay and shall not impose any procedure or requirement that is not imposed on projects that are not approved pursuant to this section. The local government shall consider the application for subsequent permits based upon the objective standards specified in any state or local laws that were in effect when the original development application was submitted, unless the development proponent agrees to a change in objective standards. Issuance of subsequent permits shall implement the approved development, and review of the permit application shall not inhibit, chill, or preclude the development. For purposes of this paragraph, a "subsequent permit" means a permit required subsequent to receiving approval under subdivision (b), and includes, but is not limited to, demolition, grading, and building permits and final maps, if necessary.

(i) (i) This section shall not affect a development proponent's ability to use any alternative streamlined by right permit processing adopted by a local government, including the provisions of Government Code section 65583.2(i).

(ii) This section shall not prevent a development from also qualifying as a housing development project entitled to the protections of Government Code section 65589.5. This paragraph does not constitute a change in, but is declaratory of, existing law.

(j) CEQA does not apply to actions taken by a state agency, local government, or the San Francisco Bay Area Rapid Transit District to:

(i) Lease, convey, or encumber land owned by the local government or the San Francisco Bay Area Rapid Transit District or to facilitate the lease, conveyance, or encumbrance of land owned by the local government, or for the lease of land owned by the San Francisco Bay Area Rapid Transit District in association with an eligible TOD project, as defined pursuant to Section 29010.1 of the Public Utilities Code, nor to any decisions associated with that lease, or to provide financial assistance to a development that receives streamlined approval pursuant to this section that is to be used for housing for persons and families of very low, low, or moderate income, as defined in Section 50093 of the Health and Safety Code.

(ii) Approve improvements located on land owned by the local government or the San Francisco Bay Area Rapid Transit District that are necessary to implement a development that receives streamlined approval pursuant to this section that is to be used for housing for persons and families of very low, low, or moderate income, as defined in Section 50093 of the Health and Safety Code.

(k) For purposes of this section the following definitions shall apply:

(1) "Affordable housing cost" has the same meaning as set forth in section 50052.5 of the Health and Safety Code.

(2) (A) Subject to the qualification provided by subparagraph (B), "affordable rent" has the same meaning as set forth in Section 50063 of the Health and Safety Code.

(B) For a development for which an application pursuant to this section was submitted prior to January 1, 2019, that includes 500 units or more of housing, and that dedicates 50 percent of the total number of units, before calculating any density bonus, to housing affordable to households making at, or below, 80 percent of the area median income, affordable rent for at least 30 percent of these units shall be set at an affordable rent as defined in subparagraph (k)(1), and "affordable rent" for the remainder of these units shall mean a rent that is consistent with the maximum rent levels for a housing development that receives an allocation of state or federal low-

income housing tax credits from the California Tax Credit Allocation Committee.

(3) "Department" means the Department of Housing and Community Development.

(4) "Development proponent" means the developer who submits an application for streamlined approval pursuant to this section.

(5) "Completed entitlements" means a housing development that has received all the required land use approvals or entitlements necessary for the issuance of a building permit.

(6) "Locality" or "local government" means a city, including a charter city, a county, including a charter county, or a city and county, including a charter city and county.

(7) "Moderate income housing units" means housing units with an affordable housing cost or affordable rent for persons and families of moderate income, as that term is defined in Section 50093 of the Health and Safety Code.

(8) "Production report" means the information reported pursuant to subparagraph (D) of paragraph (2) of subdivision (a) of Government Code section 65400.

(9) "State agency" includes every state office, officer, department, division, bureau, board, and commission, but does not include the California State University or the University of California.

(10) "Subsidized" means units that are price or rent restricted such that the units are affordable to households meeting the definitions of very low and lower income, as defined in Sections 50079.5 and 50105 of the Health and Safety Code.

(11) "Reporting period" means either of the following:

(A) The first half of the regional housing needs assessment cycle.

(B) The last half of the regional housing needs assessment cycle.

(12) "Urban uses" means any current or former residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses.

(l) The determination of whether an application for a development is subject to the streamlined ministerial approval process provided by subdivision (b) is not a "project" under CEQA.

(m) This section shall remain in effect until January 1, 2026.

(Reference: Gov. Code, § 65913.4.)

9.02 MINISTERIAL APPROVAL PROCESS FOR URBAN LOT SPLITS AND HOUSING DEVELOPMENTS WITH NO MORE THAN TWO RESIDENTIAL UNITS WITHIN A SINGLE-FAMILY RESIDENTIAL ZONE (SB 9)

(a) A proposed housing development containing no more than two residential units within a single-family residential zone shall be considered ministerially, without discretionary review or a hearing, and shall therefore not be subject to CEQA, if the proposed housing development meets all of the following requirements:

(1) The parcel subject to the proposed housing development is located within a city, the boundaries of which include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or for unincorporated areas, a legal parcel wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(2) The parcel is not located on a site that is any of the following:

(A) Either prime farmland or farmland of statewide importance, as defined pursuant to United States Department of Agriculture land inventory and monitoring criteria, as modified for California, and designated on the maps prepared by the Farmland Mapping and Monitoring Program of the Department of Conservation, or land zoned or designated for agricultural protection or preservation by a local ballot measure that was approved by the voters of that jurisdiction;

(B) Wetlands, as defined in the United States Fish and Wildlife Service Manual, Part 660 FW 2 (June 21, 1993);

(C) Within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Government Code section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code—unless the parcel is a site excluded from the specified hazard zone by a local agency, or is a site that has adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development;

(D) A hazardous waste site that is listed pursuant to Government Code section 65962.5 or a hazardous waste site designated by the

Department of Toxic Substances Control pursuant to Section 25356 of the Health and Safety Code, unless the State Department of Public Health, State Water Resources Control Board, or Department of Toxic Substances Control has cleared the site for residential use or residential mixed uses;

(E) Within a delineated earthquake fault zone as determined by the State Geologist in any official maps published by the State Geologist, unless the development complies with applicable seismic protection building code standards adopted by the California Building Standards Commission under the California Building Standards Law, and by any local building department;

(F) Within a special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency;

(G) Within a regulatory floodway as determined by the Federal Emergency Management Agency in any official maps published by the Federal Emergency Management Agency, unless the development has received a no-rise certification;

(H) Lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act, habitat conservation plan pursuant to the federal Endangered Species Act of 1973, or other adopted natural resources protection plan;

(I) Habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the federal Endangered Species Act of 1973, the California Endangered Species Act, or the Native Plant Protection Act; or lands under conservation easement; or

(J) Lands under conservation easement.

(3) Notwithstanding any provision of this section or any local law, the proposed housing development would not require demolition or alteration of any of the following types of housing:

(A) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income;

(B) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power;

(C) Housing that has been occupied by a tenant in the last three years.

(4) The parcel subject to the proposed housing development is not a parcel on which an owner of residential real property has exercised the owner's rights to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

(5) The proposed housing development does not allow the demolition of more than 25 percent of the existing exterior structural walls, unless the housing development meets at least one of the following conditions:

(A) If a local ordinance so allows; or

(B) The site has not been occupied by a tenant in the last three years

(6) The development is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.

Other regulations governing the approval of a housing development under this section are set forth in Government Code section 65852.21(a).

(b) Notwithstanding any other provision of local law, a local agency shall ministerially approve, as set forth in this section, a parcel map for an urban lot split—and such urban lot split shall therefore not be subject to CEQA—only if the local agency determines that the parcel map for the urban lot split meets all of the following requirements:

(1) The parcel map subdivides an existing parcel to create no more than two new parcels of approximately equal lot area provided that one parcel shall not be smaller than 40 percent of the lot area of the original parcel proposed for subdivision.

(2) Both newly created parcels are no smaller than 1,200 square feet, except that a local agency may by ordinance adopt a smaller minimum lot size subject to ministerial approval.

(3) The parcel being subdivided meets all of the following requirements:

(A) The parcel is located within a single-family residential zone.

(B) The parcel subject to the proposed urban lot split is located within a city, the boundaries of which include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau, or, for unincorporated areas, a legal parcel wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

(C) The parcel is not located on a site enumerated in Paragraph (a)(2) above.

(D) The proposed urban lot split would not require demolition or alteration of any of the following types of housing:

(i) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income.

(ii) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.

(iii) A parcel or parcels on which an owner of residential real property has exercised the owner's rights to withdraw accommodations from rent or lease within 15 years before the date that the development proponent submits an application.

(iv) Housing that has been occupied by a tenant in the last three years.

(E) The parcel is not located within a historic district or property included on the State Historic Resources Inventory, as defined in Section 5020.1 of the Public Resources Code, or within a site that is designated or listed as a city or county landmark or historic property or district pursuant to a city or county ordinance.

(F) The parcel has not been established through prior exercise of an urban lot split as provided for in this section.

(G) Neither the owner of the parcel being subdivided nor any person acting in concert with the owner has previously subdivided an adjacent parcel using an urban lot split as provided for in this section.

Other regulations governing the approval of an urban lot split under this section are set forth in Government Code section 65852.21(b).

9.03 APPROVAL OF ORDINANCE TO ZONE ANY PARCEL FOR UP TO 10 UNITS OF RESIDENTIAL DENSITY PER PARCEL IN CERTAIN CIRCUMSTANCES (SB 10)

(a) A local government may adopt an ordinance to zone a parcel for up to 10 units of residential density per parcel, at a height specified by the local government in the ordinance, if the parcel is located in a transit-rich area or an urban infill site. This subsection shall not apply to either of the following:

(1) Parcels located within a very high fire hazard severity zone, as determined by the Department of Forestry and Fire Protection pursuant to Government Code section 51178, or within a high or very high fire hazard severity zone as indicated on maps adopted by the Department of Forestry and Fire Protection pursuant to Section 4202 of the Public Resources Code. This paragraph does not apply to sites that have adopted fire hazard mitigation measures pursuant to existing building standards or state fire mitigation measures applicable to the development.

(2) Any local restriction enacted or approved by a local initiative that designates publicly owned land as open-space land, as defined in subdivision (h) of Section 65560, or for park or recreational purposes.

(b) An ordinance adopted in accordance with this section, and any resolution to amend the jurisdiction's General Plan, ordinance, or other local regulation adopted to be consistent with that zoning ordinance, shall not constitute a "project" under CEQA.

(c) Notwithstanding any other law that allows ministerial or by right approval of a development project or that grants an exemption from CEQA, a residential or mixed-use residential project consisting of more than 10 new residential units on one or more parcels that are zoned pursuant to an ordinance adopted under this section shall not be approved ministerially or by right and shall not be exempt from CEQA. This subdivision, however, shall not apply to a project located on a parcel or parcels that are zoned pursuant to an ordinance adopted under this section, but subsequently rezoned without regard to this section. A subsequent ordinance adopted to rezone the parcel or parcels shall not be exempt from CEQA. Any environmental review conducted to adopt the subsequent ordinance shall consider the change in the zoning applicable to the parcel or parcels before they were zoned or rezoned pursuant to the ordinance adopted under this section.

Other regulations governing the approval of an ordinance under this section are set forth in Government Code section 65913.5.

9.04 HOUSING SUSTAINABILITY DISTRICTS.

The Planning and Zoning Law requires a city or county to adopt a general plan for land use development within its boundaries. The general plan must contain seven mandatory elements, including a housing element. Existing law provides for various reforms and incentives intended to facilitate and expedite the construction of affordable housing. Senate Bill 73 authorizes a city, county, or city and county, including a charter agency, to establish by ordinance a housing sustainability district that meets specified requirements, including authorizing residential use within the district through the ministerial issuance of a permit. The agency is authorized to apply to the Department of Housing and Community Development for approval of a zoning incentive payment and requires the agency to provide specified information about the proposed housing sustainability district ordinance. The department is required to approve a zoning incentive payment if the ordinance meets the above-described requirements and the agency's housing element is in compliance with specified law.

A city, county, or city and county with a housing sustainability district would be entitled to a zoning incentive payment, subject to appropriation of funds for that purpose, and require that one-half of the amount be paid when the department approves the zone and one-half of the amount be paid when the department verifies that permits for the construction of the units have issued within the zone, provided that the city, county, or city and county has received a certificate of compliance for the applicable year. If the agency reduces the density of sites within the district from specified levels set forth in the Senate Bill 73, the agency would be required to return the full amount of zoning incentive payments it has received to the department. The bill also authorizes a developer to develop a project in a housing sustainability district in accordance with the already existing land use approval procedures that would otherwise apply to the parcel in the absence of the establishment of the housing sustainability district pursuant to its provisions, as provided.

As it relates specifically to CEQA, a Lead Agency designating a housing sustainability district is required to prepare an EIR pursuant to Government Code section 66201 to identify and mitigate, to the extent feasible, environmental impacts resulting from the designation. The EIR shall identify mitigation measures that may be undertaken by housing projects in the housing sustainability district to mitigate the environmental impacts identified in the EIR. Housing projects undertaken in the housing sustainability districts that meet specified requirements, including if the project satisfies certain design review standards applicable to development projects within the district provided the project is "complementary to adjacent buildings and structures and is consistent with the [agency's] general plan," are exempt under CEQA.

(Reference: Pub. Resources Code, § 21155.10, 21155.11.)

9.05 INTERIM MOTEL HOUSING PROJECTS.

"Interim motel housing projects" are statutorily exempt from CEQA. A project is exempt from CEQA as an "interim motel housing project" where the project consists of the conversion of a structure with a certificate of occupancy as a motel, hotel, residential hotel, or hostel to supportive or transitional housing and the conversion meets at least one of the following conditions: (1) the conversion does not result in the expansion of more than 10 percent of the floor area of any individual living unit in the structure; and (2) the conversion does not result in any significant effects relating to traffic, noise, air quality, or water quality.

If the City determines that a project is exempt from CEQA as an interim motel housing project, it must file a Notice of Exemption with the State Clearinghouse.

(Reference: Pub. Resources Code, § 21080.50 .)

9.06 SUPPORTIVE HOUSING AND "NO PLACE LIKE HOME" PROJECTS.

A decision by the City to seek funding from, or the Department of Housing and Community Development's awarding of funds pursuant to, the "No Place Like Home Program" (set forth in Part 3.9 of Division 5 of the Welfare and Institutions Code, commencing with Section 5849.1) does not constitute a "project" under CEQA.

"Supportive housing" in areas where multifamily and mixed uses are permitted may be a "use by right" and thus exempt from CEQA if the supportive housing project meets certain criteria

set forth in Government Code section 65651. A "supportive housing" project is a project that provides housing with no limit on length of stay, that is occupied by persons within the target population—i.e., persons with disabilities, families who are homeless, or homeless youth—and that is linked to onsite or offsite services that assist the supportive housing resident to retain housing, improve their health status, and maximize their ability to live and, when possible, work in the community. A policy by a city or county to approve as a use by right proposed housing developments with a limit higher than 50 units does not constitute a "project" under CEQA. To see the requirements of the exemptions relating to supportive housing, please see Government Code section 65651.

If a No Place Like Home project is not exempt from CEQA under Government Code section 65651, the development applicant may request, within 10 days after the City determines the type of environmental documentation required for the project under CEQA, that the City prepare and certify the record of proceeding for the environmental review of the No Place Like Home project in accordance with Public Resources Code section 21186.

If the City approves or determines to carry out a No Place Like Home project that is subject to CEQA, the City shall file a notice of that approval or determination in accordance with the requirements of Public Resources Code section 21151, subdivision (a), except that the Notice of Determination shall be filed within two working days after the approval or determination becomes final. Likewise, if the City approves or determines to carry out a No Place Like Home project that is not subject to CEQA, the City shall file a Notice of Exemption in accordance with the requirements of Public Resources Code section 21152, subdivision (b), except that the Notice of Exemption shall be filed within two working days after the approval or determination becomes final.

(Reference: Pub. Resources Code, § 21163, *et seq.*; Gov. Code, § 65651; Health & Safety Code, § 50675.14.)

9.07 AFFORDABLE HOUSING DEVELOPMENTS IN COMMERCIAL ZONES.

A proposed affordable multifamily housing development project is subject to streamlined, ministerial review and is not subject to CEQA if it meets the following requirements:

1. One hundred percent of the units within the development project, excluding managers' units, must be dedicated to lower income households at an affordable cost, as defined by Section 50052.5 of the Health and Safety Code, or an affordable rent set in an amount consistent with the rent limits established by the California Tax Credit Allocation Committee. The units must be subject to a recorded deed restriction for a period of 55 years for rental units and 45 years for owner-occupied units.

2. The proposed development must meet applicable objective zoning standards, objective subdivision standards, and objective design review standards as further defined in Government Code section 65912.113(f) & (g).

3. The proposed housing development must meet certain density requirements set forth in Government Code section 65583.2(c)(3).

4. The project must be located in a zone where office, retail, or parking are a principally permitted use.

5. At least 75 percent of the perimeter of the project site must adjoin parcels that are developed with urban uses. Parcels that are only separated by a street or highway shall be considered adjoined.

6. The project may not be located on a site or adjoined to any site where more than one-third of the square footage on the site is dedicated to industrial use.

7. The project site must be located on a legal parcel or parcels that are either (a) in a city where the city boundaries include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau; or (b) in an unincorporated area, and the legal parcel or parcels are wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

8. None of the proposed housing may be located within 500 feet of a freeway.

9. None of the proposed housing may be located within 3,200 feet of a facility that actively extracts or refines oil or natural gas.

10. The project may not be located on a site that qualifies as either prime farmland or farmland of statewide importance.

11. The project site may not be located in wetlands.

12. The project site may not be located in a very high fire hazard severity zone.

13. The project site may not be located on a hazardous waste site, with limited exceptions as set forth in Government Code section 65913.4(a)(6)(E).

14. The project site may not be located within a delineated earthquake fault zone, unless the development complies with applicable seismic protection building code standards as set forth in Government Code section 65913.4(a)(6)(F).

15. The project may not be located within a special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency ("FEMA").

16. The project site may not be located within a regulatory floodway as determined by FEMA, with limited exceptions as set forth in Government Code section 65913.4(a)(6)(H).

17. The project site may not be located on lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act, habitat conservation plan pursuant to the federal Endangered Species Act, or other adopted natural resource protection plan.

18. The project site may not be located on habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the federal Endangered Species Act, the California Endangered Species Act, or the Native Plant Protection Act.

19. The project site may not be located on lands under conservation easement.

20. The project site may not be located on an existing parcel of land or site that is governed under the Mobilehome Residency Law, the Recreational Vehicle Park Occupancy Law, the Mobilehome Parks Act, or the Special Occupancy Parks Act.

21. For a project proposed on a site within a neighborhood plan area, the applicable neighborhood plan must permit multifamily housing development on the site. Additional requirements apply to projects within a neighborhood plan area as of January 1, 2024, as set forth in Government Code section 65912.113(i).

22. For a project proposed on a vacant site, the project may not result in significant and unavoidable impacts to tribal cultural resources on the site.

23. The development proponent must complete a Phase I Environmental Site Assessment, and the proponent must undertake additional measures if a recognized environmental condition is found as set forth in Government Code section 65912.113(c).

A project approved under this section must meet certain labor standards, as set forth in Government Code section 65912.130, et seq. For example, a private housing development project under this section is subject to a requirement that all construction workers employed in the execution of the development be paid at least the general prevailing rate of per diem wages for the type of work and geographic area, as determined by the Director of Industrial Relations.

(Reference: Gov. Code, § 65912.110, et seq.)

9.08 MIXED-INCOME HOUSING DEVELOPMENTS ALONG COMMERCIAL CORRIDORS.

A proposed multifamily housing development project is subject to streamlined, ministerial review and is not subject to CEQA if it meets the following requirements:

1. The proposed development project must meet all of the following affordability criteria, as set forth in greater detail in Government Code section 65912.122:

   (a)(1) A rental housing development shall include either of the following:

      (A) Eight percent of the units for very low income households and 5 percent of the units for extremely low income households; or

      (B) Fifteen percent of the units for lower income households.

(2) The development proponent must agree to, and the local government must ensure, the continued affordability of all affordable rental units included pursuant to this section for 55 years.

(b)(1) An owner-occupied housing development shall include either of the following:

(A) Thirty percent of the units must be offered at an affordable housing cost, as defined in Section 50052.5 of the Health and Safety Code, to moderate-income households; or

(B) Fifteen percent of the units must be offered at an affordable housing cost, as defined in Section 50052.5 of the Health and Safety Code, to lower income households.

(2) The development proponent must agree to, and the local government must ensure, the continued affordability of all affordable rental units included pursuant to this section for 45 years.

(c) If the local government has a local affordable housing requirement, the housing development project shall comply with all of the following:

(1) The development project shall include the percentage of affordable units required by this section or the local requirement, whichever is higher.

(2) The development project shall meet the lowest income targeting in either policy.

(3) If the local affordable housing requirement requires greater than 15 percent of the units to be dedicated for lower income households and does not require the inclusion of units affordable to very low and extremely low income households, then the rental housing development shall do both of the following:

(A) Include 8 percent of the units for very low income households and 5 percent of the units for extremely low income households; and

(B) Fifteen percent of units affordable to lower income households shall be subtracted from the percentage of units required by the local policy at the highest required affordability level.

(d) Affordable units in the development project shall have the same bedroom and bathroom count ratio as the market rate units, be equitably distributed within the project, and have the same type or quality of appliances, fixtures, and finishes.

 ©Best Best & Krieger LLP

2. The project site must abut a commercial corridor and have frontage along the commercial corridor of at least 50 feet.

3. The project site may not be greater than 20 acres.

4. The project must be located in a zone where office, retail, or parking are a principally permitted use.

5. At least 75 percent of the perimeter of the project site must adjoin parcels that are developed with urban uses. Parcels that are only separated by a street or highway shall be considered adjoined.

6. The project may not be located on a site or adjoined to any site where more than one-third of the square footage on the site is dedicated to industrial use.

7. The project site must be located on a legal parcel or parcels that are either (a) in a city where the city boundaries include some portion of either an urbanized area or urban cluster, as designated by the United States Census Bureau; or (b) in an unincorporated area, and the legal parcel or parcels are wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.

8. The proposed development must meet applicable objective zoning standards, objective subdivision standards, and objective design review standards as further explained in Government Code section 65912.123(j).

9. The proposed housing development must meet certain density requirements set forth in Government Code section 65912.123(b).

10. The proposed housing development must meet certain height and setback requirements set forth in Government Code section 65912.123(c)-(d).

11. The project may not be located on a site where any of the following would apply:

    (a) The development would require the demolition of the following types of housing: (i) housing that is subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of moderate, low, or very low income; (ii) housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power; (iii) or housing that has been occupied by tenants within the past 10 years, excluding any manager's units.

    (b) The site was previously used for permanent housing that was occupied by tenants, excluding any manager's units, that was demolished within 10 years before the development proponent submitted its application for the development.

(c) The site would require the demolition of a historic structure that was placed on a national, state, or local historic register.

(d) The property contains one to four dwelling units.

(e) The property is vacant and zoned for housing but not for multifamily residential use.

(f) The existing parcel of land or site is governed under the Mobilehome Residency Law, the Recreational Vehicle Park Occupancy Law, the Mobilehome Parks Act, or the Special Occupancy Parks Act

12. None of the proposed housing may be located within 500 feet of a freeway.

13. None of the proposed housing may be located within 3,200 feet of a facility that actively extracts or refines oil or natural gas.

14. The project may not be located on a site that qualifies as either prime farmland or farmland of statewide importance.

15. The project site may not be located in wetlands.

16. The project site may not be located in a very high fire hazard severity zone.

17. The project site may not be located on a hazardous waste site, with limited exceptions as set forth in Government Code section 65913.4(a)(6)(E).

18. The project site may not be located within a delineated earthquake fault zone, unless the development complies with applicable seismic protection building code standards as set forth in Government Code section 65913.4(a)(6)(F).

19. The project may not be located within a special flood hazard area subject to inundation by the 1 percent annual chance flood (100-year flood) as determined by the Federal Emergency Management Agency ("FEMA").

20. The project site may not be located within a regulatory floodway as determined by FEMA, with limited exceptions as set forth in Government Code section 65913.4(a)(6)(H).

21. The project site may not be located on lands identified for conservation in an adopted natural community conservation plan pursuant to the Natural Community Conservation Planning Act, habitat conservation plan pursuant to the federal Endangered Species Act, or other adopted natural resource protection plan.

22. The project site may not be located on habitat for protected species identified as candidate, sensitive, or species of special status by state or federal agencies, fully protected species, or species protected by the federal Endangered Species Act, the California Endangered Species Act, or the Native Plant Protection Act.

23. The project site may not be located on lands under conservation easement.

24. For a project proposed on a site within a neighborhood plan area, the applicable neighborhood plan must permit multifamily housing development on the site. Additional requirements apply to projects within a neighborhood plan area as of January 1, 2024, as set forth in Government Code section 65912.121(i).

25. For a project proposed on a vacant site, the project may not result in significant and unavoidable impacts to tribal cultural resources on the site.

26. The development proponent must complete a Phase I Environmental Site Assessment, and the proponent must undertake additional measures if a recognized environmental condition is found as set forth in Government Code section 65912.123(f).

A project approved under this section must meet certain labor standards, as set forth in Government Code section 65912.130, et seq. For example, a private housing development project under this section is subject to a requirement that all construction workers employed in the execution of the development be paid at least the general prevailing rate of per diem wages for the type of work and geographic area, as determined by the Director of Industrial Relations.

(Reference: Gov. Code, § 65912.120, et seq.)

9.09 A RESPONSIBLE AGENCY'S PROVISION OF FINANCIAL ASSISTANCE OR INSURANCE FOR THE DEVELOPMENT AND CONSTRUCTION OF AFFORDABLE HOUSING.

Action taken by a local agency that is acting as a responsible agency – not as a lead agency – to provide financial assistance or insurance for the development and construction of residential housing for persons and families of low or moderate income, as defined in Section 50093 of the Health and Safety Code, is exempt from CEQA if the project that is the subject of the application for financial assistance or insurance will be subject to CEQA review by another public agency.

(Reference: Pub. Resources Code, § 21080.10.)

9.10 EXEMPTION FOR SPECIFIED AFFORDABLE HOUSING PROJECTS.

If the conditions and requirements set forth in Public Resources code section 21080.40 are met, the following public agency action relating to an "affordable housing project" shall be exempt from CEQA :

1. The issuance of an entitlement by a public agency for an affordable housing project.

2. An action to lease, convey, or encumber land owned by a public agency for an affordable housing project.

3. An action to facilitate the lease, conveyance, or encumbrance of land owned or to be purchased by a public agency for an affordable housing project.

4. Rezoning, specific plan amendments, or general plan amendments required specifically and exclusively to allow the construction of an affordable housing project.

5. An action to provide financial assistance in furtherance of implementing an affordable housing project.

Section 21080.40 of the Public Resources Code defines "affordable housing project" as a project that meets the following requirements:

- The project consists of multifamily residential uses only or a mix of multifamily residential and nonresidential uses;

- At least two-thirds of the square footage of the project is designated for residential use;

- All of the project's residential units, excluding managers' units, are dedicated to lower income households, as defined by Health & Safety Code section 50079.5;

- The project meets the labor requirements set forth in Government Code section 65912.130, or Government Code section 65912.131 if the project has 50 or more residential units;

- The project is located on a parcel in any of the following locations: (i) an urbanized area or urban cluster, as designated by the United States Census Bureau, (ii) within one-half mile walking distance to either a high-quality transit corridor or a major transit stop, (iii) a very low vehicle travel area (defined as an urbanized area where existing residential development generates vehicle miles traveled per capita that is below 85 percent of either regional vehicle miles traveled per capita or city vehicle miles traveled per capita), or (iv) proximal to six or more certain specified amenities, including within one-half mile of a bus station or ferry terminal, or within one mile (or two miles if in a rural area) of a supermarket or grocery store, public park, community center, pharmacy or drugstore, medical clinic or hospital, public library, or a school; and

- Parcels that are developed with urban uses must adjoin at least 75 percent of the perimeter of the project site or at least three sides of a four-sided project site.

To qualify for this exemption, the affordable housing project must meet a series of requirements set forth in Public Resources Code section 21080.40. The requirements include that the affordable housing project be subject to a recorded California Tax Credit Allocation Committee regulatory agreement for at least 55 years upon completion of construction, and that the project site must be adequately served by existing utilities or extensions. In addition, the public agency must confirm that the project is not built on environmentally sensitive or hazardous land; that the project will not have significant and unavoidable tribal cultural resource impacts; that a Phase I environmental assessment was prepared and any hazardous substances on the site have been

remediated; and if the project site is not permitted for multifamily housing, that none of the housing is located within 500 feet of a freeway or within 3,200 feet of a facility that actively extracts or refines soil or natural gas; and that the project site is not within a very high fire hazard severity zone.

If a lead agency determines that the affordable housing project is exempt from CEQA pursuant to this provision, it must file a notice of exemption with the Office of Planning and Research and the county clerk of each county in which the project is located.

(Reference: Pub. Resources Code, § 21080.40.)

9.11 MINISTERIAL APPROVAL OF HOUSING DEVELOPMENTS ON LAND OWNED BY INDEPENDENT INSTITUTIONS OF HIGHER EDUCATION AND RELIGIOUS INSTITUTIONS.

A "housing development project" is not subject to CEQA if it meets the criteria and requirements set forth in Government Code section 65913.16. To qualify for the exemption, a housing development project must, among other things, meet the following requirements:

1. The housing development project must be located on land owned on or before January 1, 2024 by an independent institution of higher education or a religious institution, including ownership through an affiliated or associated nonprofit public benefit corporation organized pursuant to the Nonprofit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code).

2. The housing development project must consist of residential units only; constitute a mixed-use development consisting of residential and non-residential uses with at least two-thirds of the square footage designated for residential use; or consist of transitional housing or supportive housing.

3. The housing development project must meet certain affordability requirements. One hundred percent of the development project's total units, exclusive of a manager's unit or units, must be for lower income households, as defined by Section 50079.5 of the Health and Safety Code, except that up to 20 percent of the total units in the development may be for moderate-income households, as defined in Section 50052 of the Health and Safety Code, and 5 percent of the units may be for staff of the independent institution of higher education or religious institution that owns the land.

4. The project must be subject to specified labor and prevailing wage requirements.

The exemption is subject to a lengthy series of locational and other requirements, set forth in Government Code section 65913.16.

(Reference: Gov. Code, § 65913.16.)

10. CEQA LITIGATION

10.01 TIMELINES.

When a CEQA lawsuit is filed, there are numerous and complex time requirements that must be met. Pressing deadlines begin to run in the days immediately after a CEQA lawsuit has been filed with the Court. For example, within ten (10) business days of the public agency being served with a petition or complaint alleging a violation of CEQA, the City, if it was the Lead Agency, must provide the petitioner with a list of Responsible Agencies and public agencies with jurisdiction by law over any natural resource affected by the project at issue. There are a variety of other deadlines that apply in CEQA litigation.

If a CEQA lawsuit is filed, CEQA counsel should be contacted immediately in order to ensure that all the applicable deadlines are met.

10.02 MEDIATION AND SETTLEMENT.

After Litigation Has Been Filed. The parties in a CEQA lawsuit are required to meet and discuss settlement. Within twenty (20) days of being served with a CEQA legal challenge, the public agency named in the lawsuit must file a notice with the court setting forth the time and place for a settlement meeting. The meeting must be scheduled and held not later than forty-five (45) days from the date of service of the petition or complaint upon the public agency. Usually the main parties to the litigation (such as the Lead Agency, the developer of the project if there is one, and those challenging the project and their respective attorneys) meet to discuss settlement; there is no requirement to hire a professional mediator. The settlement meeting is usually subject to a confidentiality agreement.

If the parties in a CEQA lawsuit are in settlement or mediation, that attempt is intended to occur concurrently with the litigation. This means that the respondent public agency will be required to comply with all existing litigation timelines and requirements (for example, preparing and lodging the administrative record discussed below) while simultaneously conducting settlement or mediation, unless the parties enter into an alternate agreement to stay the litigation and that agreement is approved by the court.

10.03 ADMINISTRATIVE RECORD.

A. Contents of Administrative Record.

When the Lead Agency's CEQA finding(s) and/or action is challenged in a lawsuit, the Lead Agency must certify the administrative record that formed the basis of the Lead Agency's decision. To the extent the documents listed below exist and are not subject to a privilege that exempts them from disclosure, the following items should be included in the administrative record:

(1) All project application materials;

(2) All staff reports and related documents prepared by the public agency with respect to its compliance with the substantive and procedural requirements of CEQA and with respect to the action on the project;

(3) All staff reports and related documents prepared by the public agency and written testimony or documents submitted by any person relevant to any findings or statement of overriding considerations adopted by the public agency pursuant to CEQA or these Local Guidelines;

(4) Any transcript or minutes of the proceedings at which the decision-making body of the public agency heard testimony on or considered any environmental document on the project, and any transcript or minutes of proceedings before any advisory body to the respondent public agency that were presented to the decision-making body prior to action on the environmental documents or on the project;

(5) All notices issued by the public agency to comply with CEQA or with any other law governing the processing and approval of the project;

(6) All written comments received in response to, or in connection with, environmental documents prepared for the project, including responses to the notice of preparation;

(7) All written evidence or correspondence submitted to, or transferred from, the public agency with respect to compliance with CEQA or with respect to the project;

(8) Any proposed decisions or findings submitted to the decision-making body of the public agency by its staff or the project proponent, project opponents, or other persons, to the extent such documents are subject to public disclosure;

(9) The documentation of the final public agency decision, including the final environmental impact report, mitigated negative declaration, or negative declaration, and all documents, in addition to those referenced in paragraph (3) above, cited or relied on in the findings or in a statement of overriding considerations adopted pursuant to CEQA;

(10) Any other written materials relevant to the respondent public agency's compliance with CEQA or to its decision on the merits of the project, including the initial study; any drafts of any environmental document, or portions thereof, that were released for public review; copies of studies or other documents relied upon in any environmental document prepared for the project and either made available to the public during the public review period or included in the public agency's files on the project; and internal agency communications, including staff notes and memoranda, related to the project or to compliance with CEQA, to the extent such documents are subject to public disclosure. The administrative record need not include communications that are of a logistical nature, such as meeting invitations or scheduling communications. The administrative record further may not include material that is subject to a privilege contained in the Evidence Code or material that is subject to an exemption set forth in the California Public Records Act; and

(11) The full written record before any inferior administrative decision-making body whose decision was appealed prior to the filing of the lawsuit.

B. Organization of Administrative Record.

The administrative record should be organized as follows:

(1) Index. A detailed index must be included at the beginning of the administrative record listing each document in the order presented. Each entry must include the document's title, date, brief description, and the volume and page where the document begins;

(2) The Notice of Determination;

(3) The resolutions or ordinances adopted by the Lead Agency approving the project;

(4) The findings required by Public Resources Code section 21081, including any statement of overriding considerations;

(5) The Final EIR, including the Draft EIR or a revision of the draft, all other matters included in the Final EIR (such as traffic studies and air quality studies), and other types of environmental documents prepared under CEQA, such as a negative declaration, mitigated negative declaration, or addenda;

(6) The initial study;

(7) Staff reports prepared for the administrative bodies providing subordinate approvals or recommendations to the Lead Agency, in chronological order;

(8) Transcripts and minutes of hearings, in chronological order; and

(9) All other documents appropriate for inclusion in the administrative record, in chronological order.

Each section listed above must be separated by tabs or marked with electronic bookmarks. Oversized documents (such as building plans and maps) must be presented in a manner that allows them to be easily unfolded and viewed.

The court may issue an order allowing the documents to be organized in a different manner.

C. Preparation of Administrative Record.

The administrative record can be prepared: (1) by the petitioner, if the petitioner provides the Lead Agency notice that it elects to prepare the record, or (2) by the Lead Agency. If the petitioner provides notice that it elects to prepare the administrative record, the Lead Agency may, within five (5) business days of receiving such notice, deny the petitioner's request to prepare the record. In this circumstance, the Lead Agency may prepare the administrative record itself despite the petitioner's election. The petitioner and the Lead Agency can also agree on any alternative method of preparing the record, such as having the project applicant prepare the administrative record. However, when a third party such as the project applicant prepares or assists with the

preparation of the administrative record, the Lead Agency may not be able to recover fees incurred by the third party unless petitioner has agreed to this method of preparation.

Notwithstanding the above, upon the written request of a project applicant received no later than 30 days after the date that the Lead Agency makes a determination pursuant to Public Resources Code section 21080.1, 21094.5, or Chapter 4.2 (commencing with Public Resources Code section 21155) and with the written consent of the Lead Agency sent within 10 business days from receipt of the written request, the Lead Agency may prepare the administrative record concurrently with the administrative process. Should the Lead Agency and the project applicant so desire to pursue concurrent record preparation, the parties must comply with the provisions of Public Resources Code section 21167.6.2.

(See Pub. Resources Code, § 21167.6.)

D. Special Circumstances For Environmental Leadership Projects.

Special timing considerations and requirements apply if the Project is certified by the Governor as an Environmental Leadership Project pursuant to the "Jobs and Economic Improvement Through Environmental Leadership Act of 2021." For example, the administrative record must be finished and certified within five (5) days of project approval. See Public Resources Code section 21186 for a complete discussion of the special requirements related to the preparation of an administrative record for an Environmental Leadership Project.

11. DEFINITIONS

Whenever the following terms are used in these Local Guidelines, they shall have the following meaning unless otherwise expressly defined:

11.01 "Agricultural Employee" means a person engaged in agriculture, which includes farming in all its branches, and, among other things, includes: (1) the cultivation and tillage of the soil, (2) dairying, (3) the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities, (4) the raising of livestock, bees, furbearing animals, or poultry, and (5) any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including preparation for market and delivery to storage or to market or to carriers for transportation to market.

This definition does not include any person covered by the National Labor Relations Act as agricultural employees pursuant to Section 2(3) of the Labor Management Relations Act (Section 152(3), Title 29, United States Code) and Section 3(f) of the Fair Labor Standards Act (Section 203(f), Title 29, United States Code). This definition does not apply to employees who perform work to be done at the site of the construction, alteration, painting, or repair of a building, structure, or other work (as these terms have been construed under Section 8(e) of the Labor Management Relations Act, 29 United States Code Section 158(e)) or logging or timber-clearing operations in initial preparation of land for farming, or who does land leveling or only land surveying for any of the above. As used in this definition, "land leveling" shall include only major land moving operations changing the contour of the land, but shall not include annual or seasonal tillage or preparation of land for cultivation. (State CEQA Guidelines section 15191(a).)

11.02 "Applicant"means a person who proposes to carry out a project that requires a lease, permit, license, certificate, or other entitlement for use, or requires financial aid from one or more public agencies when applying for governmental approval or assistance.

11.03 "Approval"means a decision by the decision-making body or other authorized body or officer of the City which commits the City to a definite course of action with regard to a particular project. With regard to any project to be undertaken directly by the City, approval shall be deemed to occur on the date when the decision-making body adopts a motion or resolution determining to proceed with the project, which in no event shall be later than the date of adoption of plans and specifications. As to private projects, approval shall be deemed to have occurred upon the earliest commitment to provide service or the issuance by the City of a discretionary contract, subsidy, or other form of financial assistance, lease, permit, license, certificate, or other entitlement for use of the project. The mere acquisition of land by the City shall not, in and of itself, be deemed to constitute approval of a project.

For purposes of these Local Guidelines, all environmental documents must be completed as of the time of project approval.

 ©Best Best & Krieger LLP

11.04 "Baseline" refers to the pre-project environmental conditions. By comparing the project's potential impacts to the baseline, the Lead Agency determines whether the project's impacts are substantial enough to be significant under the relevant thresholds of significance. Generally, the baseline is the environmental conditions existing on the date the environmental analysis begins, such as the date the Notice of Preparation is published for an EIR or the date the Notice of Intent to Adopt a Negative Declaration is published. However, in certain circumstances, an earlier or later date may provide a more accurate environmental analysis. The City may establish any baseline that is appropriate, including an earlier or later date, as long as the choice of baseline can be supported by substantial evidence.

11.05 "California Native American Tribe" means a Native American tribe located in California that is on the contact list maintained by the Native American Heritage Commission for the purposes of Chapter 905 of the Statutes of 2004.

11.06 "Categorical Exemption" means an exemption from CEQA for a class of projects based on a finding by the Secretary of the Resources Agency that the class of projects does not have a significant effect on the environment.

11.07 "Census-Defined Place" means a specific unincorporated land area within boundaries determined by the United States Census Bureau in the most recent decennial census.

11.08 "CEQA" means the California Environmental Quality Act, codified at California Public Resources Code sections 21000, et seq.

11.09 "City" means the City of Ontario.

11.10 "Clerk" means either the "Clerk of the Board" or the "County Clerk" depending upon the county. Please refer to the "Index to Environmental Filing by County" in the Staff Summary to determine which applies.

11.11 "Community-Level Environmental Review" means either (1) or (2) below:

(1) An EIR certified for any of the following:

(a) A general plan;
(b) A revision or update to the general plan that includes at least the land use and circulation elements;
(c) An applicable community plan;
(d) An applicable specific plan; or
(e) A housing element of the general plan, if the Environmental Impact Report analyzed the environmental effects of the density of the proposed project;

(2) A Negative Declaration or Mitigated Negative Declaration adopted as a subsequent environmental review document, following and based upon an EIR on a general plan, an applicable community plan or specific plan, provided that the subsequent environmental review document is allowed by CEQA following

 ©Best Best & Krieger LLP

a Master EIR or a Program EIR or is required pursuant to Public Resource Section 21166.

11.12 "Consultation" means the meaningful and timely process of seeking, discussing, and considering carefully the views of others, in a manner that is cognizant of all parties' cultural values and, where feasible, seeking agreement. Consultation between government agencies and Native American tribes shall be conducted in a way that is mutually respectful of each party's sovereignty. Consultation shall also recognize the tribes' potential needs for confidentiality with respect to places that have traditional tribal cultural significance.

11.13 "Cumulative Impacts" means two or more individual effects which, when considered together, are considerable or which compound or increase other environmental impacts. The individual effects may be changes resulting from a single project or a number of separate projects, whether past, present or future.

The cumulative impact from several projects is the change in the environment which results from the incremental impact of the project when added to other closely related past, present and reasonably foreseeable future projects. Cumulative impacts can result from individually minor but collectively significant projects taking place over a period of time.

11.14 "Cumulatively Considerable" means that the incremental effects of an individual project are significant when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

11.15 "Decision-Making Body" means the body within the City, e.g. the City Council, which has final approval authority over the particular project.

11.16 "Developed Open Space" means land that meets each of the following three criteria:

(1) Is publicly owned, or financed in whole or in part by public funds;

(2) Is generally open to, and available for use by, the public; and

(3) Is predominantly lacking in structural development other than structures associated with open spaces, including, but not limited to, playgrounds, swimming pools, ball fields, enclosed child play areas, and picnic facilities.

Developed Open Space may include land that has been designated for acquisition by a public agency for developed open space purposes, but does not include lands acquired by public funds dedicated to the acquisition of land for housing purposes.

11.17 "Development Project" means any project undertaken for the purpose of development, including any project involving the issuance of a permit for construction or reconstruction but not a permit to operate. It does not include any ministerial projects proposed to be carried out or approved by public agencies. (Government Code section 65928.)

 ©Best Best & Krieger LLP

11.18 "Discretionary Project" means a project for which approval requires the exercise of independent judgment, deliberation, or decision-making on the part of the City. To determine whether a project is discretionary, the key question is whether the public agency can use its subjective judgment to decide whether and how to carry out or approve a project.

11.19 "EIR" means Environmental Impact Report, a detailed written statement setting forth the environmental effects and considerations pertaining to a project. EIR may mean a Draft or a Final version of an EIR, a Project EIR, a Subsequent EIR, a Supplemental EIR, a Tiered EIR, a Staged EIR, a Program EIR, a Redevelopment EIR, a Master EIR, or a Focused EIR.

11.20 "Emergency" means a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services. Emergency includes such occurrences as fire, flood, earthquake, landslide or other natural disaster, as well as such occurrences as riot, war, terrorist incident, accident or sabotage.

11.21 "Endangered, Rare or Threatened Species" means certain species or subspecies of animals or plants. A species or subspecies of animal or plant is "Endangered" when its survival and reproduction in the wild are in immediate jeopardy from one or more causes, including loss of habitat, change in habitat, overexploitation, predation, competition, disease, or other factors. A species or subspecies of animal or plant is "Threatened" when it is listed as a threatened species pursuant to the California Endangered Species Act or the Federal Endangered Species Act. A species or subspecies of animal or plant is "Rare" when either:

(1) Although not presently threatened with extinction, the species is existing in such small numbers throughout all or a significant portion of its range that it may become endangered if its environment worsens; or

(2) The species is likely to become endangered within the foreseeable future throughout all or a significant portion of its range and many be considered "threatened" as that term is used in the Federal Endangered Species Act.

For purposes of analyzing impacts to biological resources, a species of animal or plant shall be presumed to be endangered, rare or threatened if it is listed under the California Endangered Species Act or the Federal Endangered Species Act.

This definition shall not include any species of the Class Insecta which is a pest whose protection under the provisions of CEQA would present an overwhelming and overriding risk to man as determined by the Director of Food and Agriculture (with regard to economic pests) or the Director of Health Services (with regard to health risks).

11.22 "Environment" means the physical conditions which exist in the area which will be affected by a proposed project, including land, air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance. The area involved shall

 ©Best Best & Krieger LLP

be the area in which significant effects would occur either directly or indirectly as a result of the project. The "environment" includes both natural and man-made conditions.

11.23 "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social and technological factors.

11.24 "Final EIR" means an EIR containing the information contained in the Draft EIR, comments either verbatim or in summary received in the review process, a list of persons commenting, and the response of the City to the comments received.

11.25 "Greenhouse Gases"include, but are not limited to, carbon dioxide, methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

11.26 "Guidelines" or "Local Guidelines" means the City's Local Guidelines for implementing the California Environmental Quality Act.

11.27 "Highway" shall have the same meaning as defined in Section 360 of the Vehicle Code.

11.28 "Historical Resources" include:

Resources listed in, or eligible for listing in, the California Register of Historical Resources shall be considered historical resources.

A resource may be listed in the California Register if it meets any of the following National Register of Historic Places criteria:

(a) Is associated with events that have made a significant contribution to the broad patterns of California's history and cultural heritage;
(b) Is associated with the lives of persons important in our past;
(c) Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values; or
(d) Has yielded, or may be likely to yield, information important in prehistory or history.

A resource may also be listed in the California Register if it is identified as significant in an historical resource survey that meets all of the following criteria:

(a) The survey has been or will be included in the State Historic Resources Inventory;
(b) The survey and the survey documentation were prepared in accordance with office procedures and requirements; and
(c) The resource is evaluated and determined by the office to have a significance rating of Category 1 to 5 on DPR Form 523.

Resources included on a list of properties officially designated or recognized as historically significant by a local government pursuant to a local ordinance or resolution, or identified as significant in a historical resource survey (as described above) are presumed to be historically or culturally significant, unless a preponderance of evidence demonstrates that they are not historically or culturally significant.

Any of the following may be considered historically significant: any object, building, structure, site, area, place, record or manuscript which a Lead Agency determines, based upon substantial evidence in light of the whole record, to be historically significant or significant in the architectural, engineering, scientific, economic, agricultural, educational, social, political, military or cultural annals of California.

The Lead Agency is not precluded from determining that a resource is a historical resource, as defined in Public Resources Code sections 5020.1(j) or 5024.1, even if it is: (a) not listed in, or is not determined to be eligible for listing in, the California Register of Historical Resources; (b) not included in a local register of historical resources; or (c) not identified in a historical resources survey.

11.29 "Infill Site" means a site in an urbanized area that meets either of the following criteria:

(1) The site has been previously developed for qualified urban uses; or

(2) The site has not been previously developed for qualified urban uses and both (a) and (b) are met:

(a) the site is immediately adjacent to parcels that are developed with qualified urban uses, or
1. at least 75 percent of the perimeter of the site adjoins, or is separated only by an improved public right-of-way from, parcels that are developed with existing qualified urban uses at the time the Lead Agency receives an application for an approval; and
2. the remaining 25 percent of the perimeter of the site adjoins parcels that had been previously developed for qualified urban uses;

(b) No parcel within the site has been created within the past 10 years unless the parcel was created as a result of the plan of a redevelopment agency.

(Public Resources Code section 21061.3.)

11.30 "Initial Study" means a preliminary analysis conducted by the City to determine whether an EIR, a Negative Declaration, or a Mitigated Negative Declaration must be prepared or to identify the significant environmental effects to be analyzed in an EIR.

11.31 "Jurisdiction by Law" means the authority of any public agency to grant a permit or other entitlement for use, to provide funding for the project in question or to exercise authority over resources which may be affected by the project.

The City will have jurisdiction by law over a project when the City has primary and exclusive jurisdiction over the site of the project, the area in which the major environmental effects will occur, or the area in which reside those citizens most directly concerned by any such environmental effects.

11.32 "Land Disposal Facility" means a hazardous waste facility where hazardous waste is disposed in, on, or under land. (Health and Safety Code section 25199.1(d).)

11.33 "Large Treatment Facility" means a treatment facility which treats or recycles one thousand (1,000) or more tons of hazardous waste during any one month of the current reporting period commencing on or after July 1, 1991. (Health and Safety Code section 25205.1(d).)

11.34 "Lead Agency" means the public agency which has the principal responsibility for preparing environmental documents and for carrying out or approving a project when more than one public agency is involved with the same underlying activity.

11.35 "Low- and Moderate-Income Households" means persons and families of low or moderate income as defined in Section 50093 of the Health and Safety Code—i.e., persons and families whose income does not exceed 120% of area median income, adjusted for family size by the Department of Housing and Community Development, in accordance with adjustment factors adopted and amended from time to time by the United States Department of Housing and Urban Development pursuant to Section 8 of the United States Housing Act of 1937. (Public Resources Code section 21159.20(d); State CEQA Guidelines section 15191(f).)

11.36 "Low-Income Households" means households of persons and families of very low and low income. Low-income persons or families are those eligible for financial assistance from governmental agencies for occupants of state-funded housing. Very low income persons are those whose incomes do not exceed the qualifying limits for very low income families as established and amended pursuant to Section 8 of the United States Housing Act of 1937. Such limits are published and updated in the California Code of Regulations. (Public Resources Code section 21159.20(c); Health and Safety Code sections 50105 and 50106; State CEQA Guidelines section 15191(g).)

11.37 "Low-Level Flight Path" means any flight path for any aircraft owned, maintained, or under the jurisdiction of the United States Department of Defense that flies lower than 1,500 feet above ground level, as indicated in the United States Department of Defense Flight Information Publication, "Area Planning Military Training Routes: North and South America (AP/1B)" published by the United States National Imagery and Mapping Agency or its successor.

11.38 "Lower Income Households" is defined in Health and Safety Code section 50079.5 to mean any of the following:

(1) "Lower income households" means persons and families whose income does not exceed the qualifying limits for lower income families as established and

amended from time to time pursuant to Section 8 of the United States Housing Act of 1937;

(2) "Very low income households" means persons and families whose incomes do not exceed the qualifying limits for very low income families as defined in Health and Safety Code 50105; or

(3) "Extremely low income households" means persons and families whose incomes do not exceed the qualifying limits for extremely low income families as defined in Health and Safety Code section 50106.

11.39 "Major Transit Stop" means a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of fifteen (15) minutes or less during the morning and afternoon peak commute periods. (State CEQA Guidelines section 15191(i).)

11.40 "Metropolitan Planning Organization" or "MPO" means a federally-designated agency that provides transportation planning and programming in metropolitan areas. A MPO is designated for each urban area that has been defined in the most recent federal census as having a population of more than 50,000 people. There are 18 federally-designated MPOs in California. Non-urbanized (rural) areas do not have a designated MPO.

11.41 "Military Impact Zone" means any area, including airspace, that meets both of the following criteria:

(1) Is located within two miles of a military installation, including, but not limited to, any base, military airport, camp, post, station, yard, center, homeport facility for a ship, or any other military activity center that is under the jurisdiction of the United States Department of Defense; and

(2) Covers greater than 500 acres of unincorporated land, or greater than 100 acres of city incorporated land.

11.42 "Military Service" means the United States Department of Defense or any branch of the United States Armed Forces.

11.43 "Ministerial" describes a governmental decision involving little or no personal judgment by the public official as to the wisdom or manner of carrying out the project. The public official merely applies the law to the facts as presented but uses no special discretion or standards or objective measurements, and the public official cannot use personal, subjective judgment in deciding whether or how the project should be carried out. Common examples of ministerial permits include automobile registrations, dog licenses, and marriage licenses. A building permit is ministerial if the ordinance requiring the permit limits the public official to determining whether the zoning allows the structure to be built in the requested location, the structure would meet the strength requirements in the Uniform Building Code, and the applicant has paid his fee. (Public Resources Code section 21080(b)(1).)

11.44 "Mitigated Negative Declaration" or "MND" means a Negative Declaration prepared for a Project when the Initial Study has identified potentially significant effects on the environment, but: (1) revisions in the project plans or proposals made, or agreed to, by the applicant before the proposed Negative Declaration and Initial Study are released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment would occur, and (2) there is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have a significant effect on the environment.

11.45 "Mitigation" includes avoiding the environmental impact altogether by not taking a certain action or parts of an action, minimizing impacts by limiting the degree or magnitude of the action and its implementation, rectifying the impact by repairing, rehabilitating or restoring the impacted environment, reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action, or compensating for the impact by replacing or providing substitute resources or environments, including through permanent protection of such resources in the form of conservation easements.

11.46 "Negative Declaration" or "ND" means a written statement by the City briefly describing the reasons that a proposed project, not exempt from CEQA, will not have a significant effect on the environment and, therefore, does not require the preparation of an EIR.

11.47 "Notice of Completion" means a brief report filed with the Office of Planning and Research by the City when it is the Lead Agency as soon as it has completed a Draft EIR and is prepared to send out copies for review.

11.48 "Notice of Determination" means a brief notice to be filed by the City when it approves or determines to carry out a project which is subject to the requirements of CEQA.

11.49 "Notice of Exemption" means a brief notice which may be filed by the City when it has approved or determined to carry out a project, and it has determined that the project is exempt from the requirements of CEQA. Such a notice may also be filed by an applicant where such a determination has been made by a public agency which must approve the project.

11.50 "Notice of Preparation" means a brief notice sent by a Lead Agency to notify the Responsible Agencies, Trustee Agencies, the Office of Planning and Research, and involved federal agencies that the Lead Agency plans to prepare an EIR for a project. The purpose of this notice is to solicit guidance from those agencies as to the scope and content of the environmental information to be included in the EIR. Public agencies are free to develop their own formats for this notice.

11.51 "Oak" means a native tree species in the genus Quercus, not designated as Group A or Group B commercial species pursuant to regulations adopted by the State Board of Forestry and Fire Protection pursuant to Public Resources Code section 4526, and that

is five (5) inches or more in diameter at breast height. (Public Resources Code section 21083.4(a).)

11.52 "Oak Woodlands" means an oak stand with a greater than 10 percent canopy cover or that may have historically supported greater than 10 percent canopy cover. (Fish & Game Code section 1361(h).)

11.53 "Offsite Facility" means a facility that serves more than one generator of hazardous waste. (Public Resources Code section 21151.1(h).)

11.54 "Person" includes any person, firm, association, organization, partnership, business, trust, corporation, company, city, county, city and county, town, the state, and any of the agencies which may be political subdivisions of such entities, and, to the extent permitted by federal law, the United States, or any of its agencies or political subdivisions**.**

11.55 "Pipeline" as defined in these Local Guidelines depends on the context. Please see Local Guidelines Sections 3.10 and 3.11 for specific definitions.

11.56 "Private Project" means a project which will be carried out by a person other than a governmental agency, but which will need a discretionary approval from the City. Private projects will normally be those listed in subsections (2) and (3) of Local Guidelines Section 11.57.

11.57 "Project" means the whole of an action or activity which may cause either a direct physical change in the environment, or a reasonably foreseeable indirect change in the environment, and is any of the following:

(1) A discretionary activity directly undertaken by the City including but not limited to public works construction and related activities, clearing or grading of land, or improvements to existing public structures;

(2) A discretionary activity which involves a public agency's issuance to a person of a lease, permit, license, certificate, or other entitlement for use, or which is supported, in whole or in part, through contracts, grants, subsidies, loans or other forms of assistance by the City; or

(3) A discretionary project proposed to be carried out or approved by public agencies, including but not limited to the enactment and amendment of local General Plans or elements thereof, the enactment of zoning ordinances, the issuance of zoning variances, the issuance of conditional use permits and the approval of tentative subdivision maps.

The presence of any real degree of control over the manner in which a project is completed makes it a discretionary project.

 ©Best Best & Krieger LLP

The term "project" refers to the activity which is being approved and which may be subject to several discretionary approvals by governmental agencies. The term "project" does not mean each separate governmental approval.

11.58 "Project-Specific Effects" means all the direct or indirect environmental effects of a project other than cumulative effects and growth-inducing effects. (Public Resources Code section 21065.3; State CEQA Guidelines section 15191(j).)

11.59 "Public Water System" means a system for the provision of piped water to the public for human consumption that has 3,000 or more service connections. A public water system includes all of the following: (A) Any collection, treatment, storage, and distribution facility under control of the operator of the system which is used primarily in connection with the system; (B) Any collection or pretreatment storage facility not under the control of the operator that is used primarily in connection with the system; (C) Any person who treats water on behalf of one or more public water systems for the purpose of rendering it safe for human consumption. (State CEQA Guidelines section 15155.)

11.60 "Qualified Urban Use" means any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses. (Public Resources Code section 21072; State CEQA Guidelines section 15191(k).)

11.61 "Residential" means a use consisting of either residential units only or residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 15% of the total floor area of the project. (State CEQA Guidelines section 15191(l).) Residential, pursuant to Public Resources Code section 21159.24, shall mean a use consisting of either of the following:

(1) Residential units only.

(2) Residential units and primarily neighborhood-serving goods, services, or retail uses that do not exceed 25 percent of the total building square footage of the project.

11.62 "Responsible Agency" means a public agency which proposes to carry out or approve a project for which a Lead Agency has prepared the environmental documents. For the purposes of CEQA, the term "Responsible Agency" includes all federal, state, regional and local public agencies other than the Lead Agency which have discretionary approval power over the project.

11.63 "Riparian areas" mean those areas transitional between terrestrial and aquatic ecosystems and that are distinguished by gradients in biophysical conditions, ecological processes, and biota. A riparian area is an area through which surface and subsurface hydrology connect waterbodies with their adjacent uplands. A riparian area includes those portions of terrestrial ecosystems that significantly influence exchanges of energy and matter with aquatic ecosystems. A riparian area is adjacent to perennial, intermittent, and ephemeral streams, lakes, and estuarine-marine shorelines.

 ©Best Best & Krieger LLP

11.64 "Roadway" means a roadway as defined pursuant to Section 530 of the Vehicle Code and the previously graded and maintained shoulder that is within a roadway right-of-way of no more than five feet from the edge of the roadway.

11.65 "Significant Effect" means a substantial, or potentially substantial, adverse change in any of the physical conditions within the area affected by the activity including land, air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance. A social or economic change related to a physical change may be considered in determining whether the physical change is significant.

11.66 "Significant Value as a Wildlife Habitat" includes wildlife habitat of national, statewide, regional, or local importance; habitat for species protected by the federal Endangered Species Act of 1973 (16 U.S.C. Sec. 1531, et seq.), the California Endangered Species Act (Chapter 1.5 (commencing with Section 2050) of Division 3 of the Fish and Game Code), or the Native Plant Protection Act (Chapter 10 (commencing with Section 1900) of Division 2 of the Fish and Game Code); habitat identified as candidate, fully protected, sensitive, or species of special status by local, state, or federal agencies; or habitat essential to the movement of resident or migratory wildlife.

11.67 "Special Use Airspace" means the land area underlying the airspace that is designated for training, research, development, or evaluation for a military service, as that land area is established by the United States Department of Defense Flight Information Publication, "Area Planning: Special Use Airspace: North and South America (AP/1A)" published by the United States National Imagery and Mapping Agency or its successor.

11.68 "Staff" means the General Manager or his or her designee**.**

11.69 "Standard" means a standard of general application that is all of the following:

(1) A quantitative, qualitative or performance requirement found in a statute, ordinance, resolution, rule, regulation, order, or other standard of general application;

(2) Adopted for the purpose of environmental protection;

(3) Adopted by a public agency through a public review process;

(4) Governs the same environmental effect which the change in the environment is impacting; and

(5) Governs the jurisdiction where the project is located.

The definition of "standard" includes any thresholds of significance adopted by the City which meet the requirements of this Section.

If there is a conflict between standards, the City shall determine which standard is appropriate based upon substantial evidence in light of the whole record.

11.70 "State CEQA Guidelines" means the Guidelines for Implementation of the California Environmental Quality Act as adopted by the Secretary of the California Natural Resources Agency as they now exist or hereafter may be amended. (California Administrative Code, Title 14, Sections 15000, et seq.)

11.71 "Substantial Evidence" means reliable information on which a fair argument can be based to support an inference or conclusion, even though another conclusion could be drawn from that information. "Substantial evidence" includes facts, reasonable assumptions predicated upon facts, and expert opinion supported by facts. "Substantial evidence" does not include argument, speculation, unsubstantiated opinion or narrative, evidence which is clearly inaccurate or erroneous, or evidence of social or economic impacts which do not contribute to, or are not caused by, physical impacts on the environment.

11.72 "Sustainable Communities Strategy" is an element of a Regional Transportation Plan, which must be adopted by the Metropolitan Planning Organization for the region. (See Local Guidelines Section 11.40.) The Sustainable Communities Strategy is an integrated land use and transportation plan intended to reduce greenhouse gases. The Sustainable Communities Strategy includes various components such as: consideration of existing densities and uses within the region, identification of areas within the region that can accommodate an eight-year projection of the region's housing needs, development of projections for growth in the region, identification of existing transportation networks, and preparation of a forecast for development pattern for the region that can be integrated with transportation networks.

11.73 "Tiering" means the coverage of general matters in broader EIRs (such as on general plans or policy statements) with subsequent narrower EIRs or ultimately site-specific EIRs incorporating by reference the general discussions and concentrating solely on the issues specific to the EIR subsequently prepared. Tiering is appropriate when the sequence of EIRs is:

(a) From a general plan, policy, or Program EIR to a program, plan, or policy EIR of lesser scope or to a site-specific EIR; or

(b) From an EIR on a specific action at an early stage to a subsequent EIR or a supplement to an EIR at a later stage. Tiering in such cases is appropriate when it helps the Lead Agency to focus on the issues which are ripe for decision and exclude from consideration issues already decided or not yet ripe.

(Public Resources Code sections 21003, 21061 and 21100.)

11.74 "Transit Priority Area" means an area within one-half mile of a major transit stop that is existing or planned, if the planned stop is scheduled to be completed within the

planning horizon included in a Transportation Improvement Program adopted pursuant to Section 450.216 or 450.322 of Title 23 of the Code of Federal Regulations.

11.75 "Transit Priority Project" means a mixed use project that is consistent with the general use designation, density, building intensity, and applicable policies specified for the project area in either a sustainable communities strategy or an alternative planning strategy for which the California Air Resources Board has accepted a Metropolitan Planning Organization's determination that the sustainable communities strategy or the alternative planning strategy would, if implemented, achieve the greenhouse gas emission reduction targets. Such a project may be exempt from CEQA if a detailed laundry list of requirements is met. To qualify for the exemption, the Transit Priority Project must:

(1) contain at least 50 percent residential use based on total building square footage;

(2) if the project contains between 26 percent and 50 percent non-residential uses, the floor-to-area ratio (FAR) must be at least 0.75;

(3) have a minimum net density of 20 dwelling units per acre;

(4) be located within a half mile of a major transit stop or high-quality transit corridor included in a regional transportation plan; and

(5) meet all the requirements of Public Resources Code section 21155.1.

11.76 "Transportation Facilities" includes major local arterials and public transit within five (5) miles of the project site, and freeways, highways, and rail transit service within ten (10) miles of the project site.

11.77 "Tribal Cultural Resources" are either of the following:

(1) Sites, features, places, cultural landscapes, sacred places, and objects with cultural value to a California Native American tribe that are either of the following:

(a) Included or determined to be eligible for inclusion in the California Register of Historical Resources.
(b) Included in a local register of historic resources as defined in subdivision (k) of Public Resources Code section 5020.1.

(2) A resource determined by the Lead Agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code section 5024.1. In applying the criteria set forth in subdivision (c) of Section 5024.1 for the purposes of this definition, the Lead Agency shall consider the significance of the resource to a California Native American tribe.

A cultural landscape that meets the criteria set forth above is a tribal cultural resource to the extent that the landscape is geographically defined in terms of the size and scope of the landscape.

A historic resource described in Public Resources Code section 21084.1, a unique archaeological resource as defined in subdivision (g) of Public Resources Code section 21083.2, or a "nonunique archaeological resource" as defined in subdivision (h) of Public Resources Code section 21083.2 may also be a tribal cultural resource if it conforms with the criteria of Tribal cultural resources.

11.78 "Trustee Agency" means a State agency having jurisdiction by law over natural resources affected by a project which are held in trust for the people of the State of California. Trustee Agencies may include, but are not limited to, the following:

(a) The California Department of Fish and Wildlife ("DFW") with regard to the fish and wildlife of the state, designated rare or endangered native plants, and game refuges, ecological reserves, and other areas administered by DFW;
(b) The State Lands Commission with regard to state owned "sovereign" lands such as the beds of navigable waters and state school lands;
(c) The State Department of Parks and Recreation with regard to units of the State Park System;
(d) The University of California with regard to sites within the Natural Land and Water Reserve System; and/or
(e) The State Water Resources Control Board with respect to surface waters.

11.79 "Urban Growth Boundary" means a provision of a locally adopted general plan that allows urban uses on one side of the boundary and prohibits urban uses on the other side of the boundary.

11.80 "Urbanized Area" means either of the following:

(1) An incorporated city that either by itself or in combination with two contiguous incorporated cities has a population of at least one hundred thousand (100,000) persons;

(2) An unincorporated area that meets both of the following requirements:

(a) The unincorporated area is either:
(i) completely surrounded by one or more incorporated cities, has a population of at least 100,000 persons either by itself or in combination with the surrounding incorporated city or cities, and has a population density that at least equals the population density of the surrounding city or cities; or
(ii) located within an urban growth boundary and has an existing residential population of at least five thousand (5,000) persons per square mile. An "urban growth boundary" means a

provision of a locally adopted general plan that allows urban uses on one side of the boundary and prohibits urban uses on the other side.

(b) The board of supervisors with jurisdiction over the unincorporated area has taken all three of the following steps:

1. Prepared a draft document by which the board would find that the general plan, zoning ordinance, and related policies and programs applicable to the unincorporated area are consistent with principles that encourage compact development in a manner that promotes efficient transportation systems, economic growth, affordable housing, energy efficiency, and an appropriate balance of jobs and housing, and protects the environment, open space and agricultural areas;
2. Submitted the draft document to the Office of Planning and Research and allowed OPR thirty (30) days to submit comments on the draft finding to the board; and
3. At least thirty (30) days after submitting the draft document to OPR, the board has adopted a final finding in substantial conformity with the draft finding described in the draft document.

(Public Resources Code sections 21083, 21159.20-21159.24; State CEQA Guidelines section 15191(m).)

11.81 "Water Acquisition Plans" means any plans for acquiring additional water supplies prepared by the public water system or a city or county Lead Agency pursuant to subdivision (a) of section 10911 of the Water Code.

11.82 "Water Assessment" or "Water Supply Assessment" means the water supply assessment that must be prepared by the governing body of a public water system, or a city or county, pursuant to and in compliance with sections 10910 to 10915 of the Water Code, and that includes, without limitation, the elements of the assessment required to comply with subdivisions (d), (e), (f), and (g) of section 10910 of the Water Code.

11.83 "Water Demand Project" means any one of the following:

(A) A residential development of more than 500 dwelling units;

(B) A shopping center or business establishment employing more than 1,000 persons or having more than 500,000 square feet of floor space;

(C) A commercial office building employing more than 1,000 persons or having more than 250,000 square feet of floor space;

(D) A hotel or motel, or both, having more than 500 rooms;

(E) An industrial, manufacturing, or processing plant, or industrial park planned to house more than 1,000 persons, occupying more than 40 acres of land, or having more than 650,000 square feet of floor area;

Except, a proposed photovoltaic or wind energy generation facility approved on or after October 8, 2011, is not a Water Demand Project if the facility would demand no more than 75 acre-feet of water annually.

(F) A mixed-use project that includes one or more of the projects specified in subdivisions (A); (B), (C), (D), (E), or (G) of this section;

(G) A project that would demand an amount of water equivalent to, or greater than, the amount of water required by a 500 dwelling unit project; or

(H) For public water systems with fewer than 5,000 service connections, a project that meets the following criteria:

(1) A proposed residential, business, commercial, hotel or motel, or industrial development that would account for an increase of 10 percent or more in the number of a public water system's existing service connections; or

(2) A mixed-use project that would demand an amount of water equivalent to, or greater than, the amount of water required by residential development that would represent an increase of 10 percent or more in the number of the public water system's existing service connections.

(State CEQA Guidelines section 15155.)

11.84 "Waterway" means a bay, estuary, lake, pond, river, slough, or a perennial, intermittent, or ephemeral stream, lake, or estuarine-marine shoreline.

11.85 "Wetlands" has the same meaning as that term is construed in the regulations issued by the United States Army Corps of Engineers pursuant to the Clean Water Act. Thus, "wetlands" means areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. (Public Resources Code section 21159.21(d), incorporating Title 33, Code of Federal Regulations, Section 328.3.)

11.86 "Wildlife Habitat" means the ecological communities upon which wild animals, birds, plants, fish, amphibians, and invertebrates depend for their conservation and protection. (Public Resources Code section 21159.21.)

11.87 "Zoning Approval" means any enactment, amendment, or appeal of a zoning ordinance; granting of a conditional use permit or variance; or any other form of land

use, subdivision, tract, or development approval required from the city or county having jurisdiction to permit the particular use of the property.

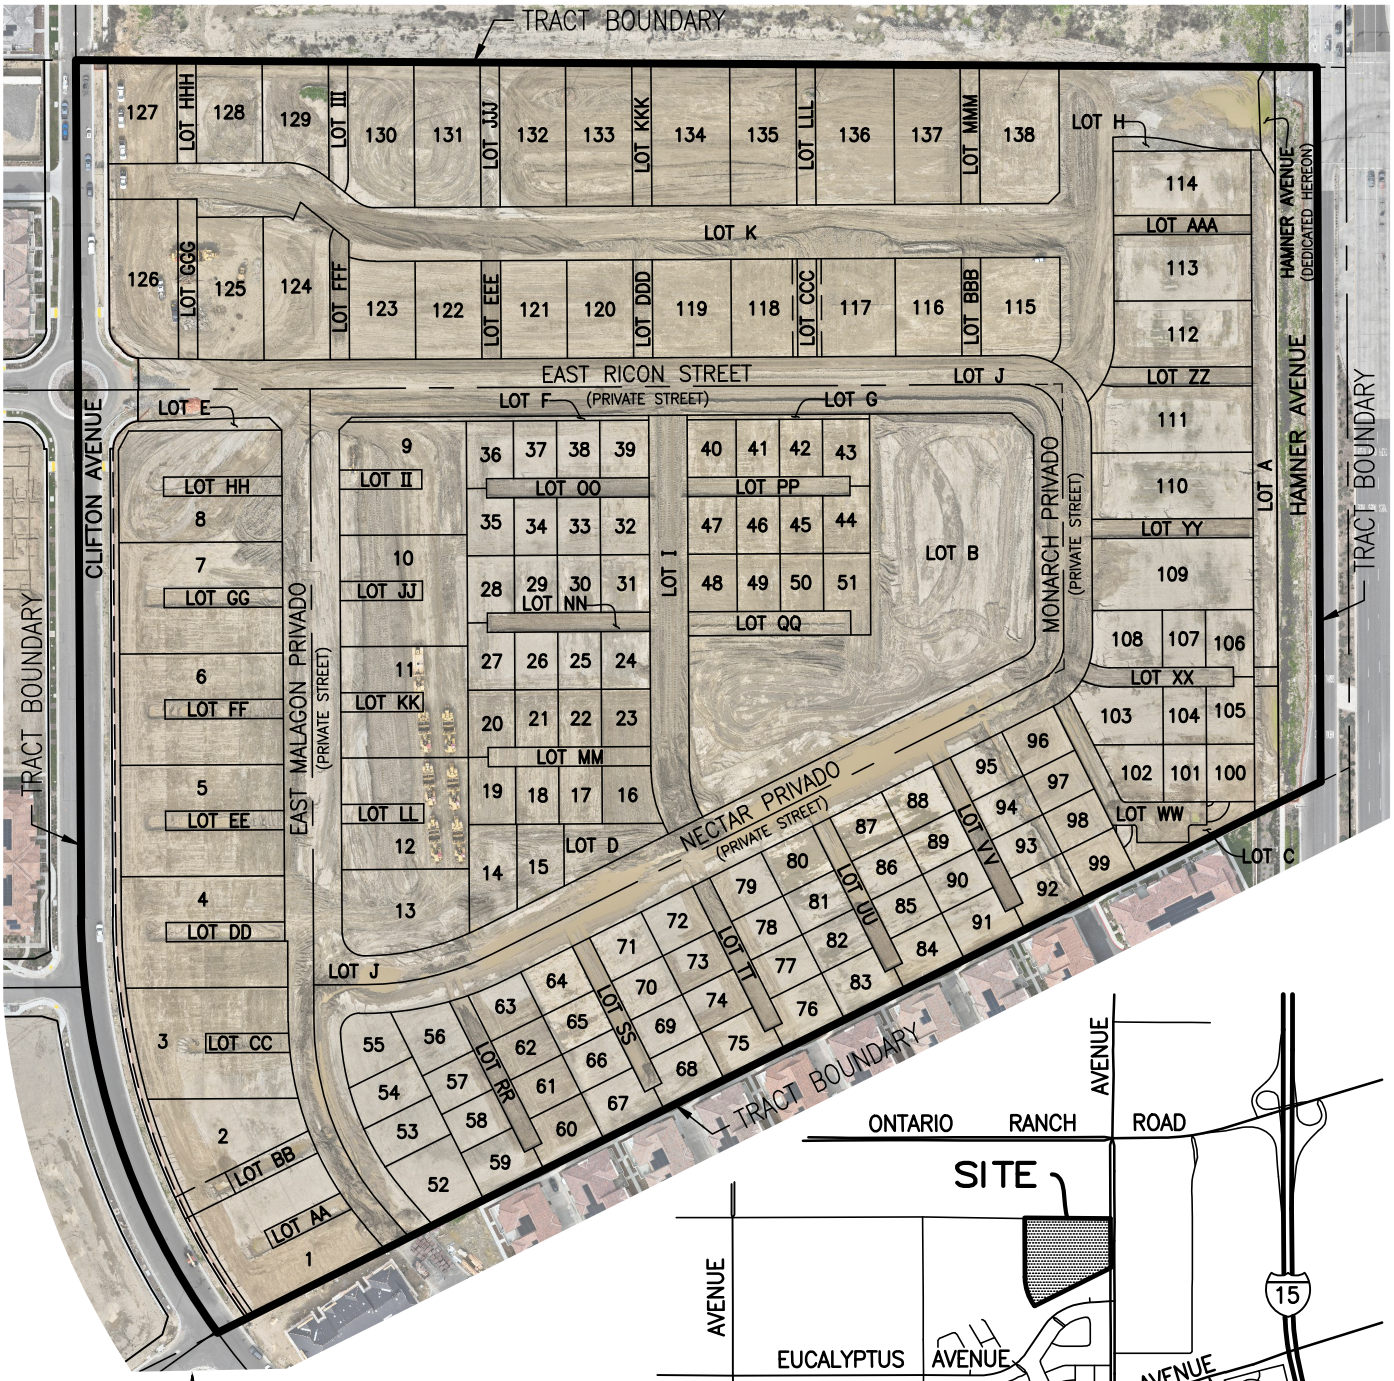
CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Engineering Prepared By: Miguel Sotomayor Staff Member Presenting: Scott Murphy, Executive Director Community Development Reviewed By: Raymond Lee, Khoi Do Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 6

SUBJECT: A RESOLUTION APPROVING AN IMPROVEMENT AGREEMENT, IMPROVEMENT SECURITY AND FINAL TRACT MAP NO. 20451

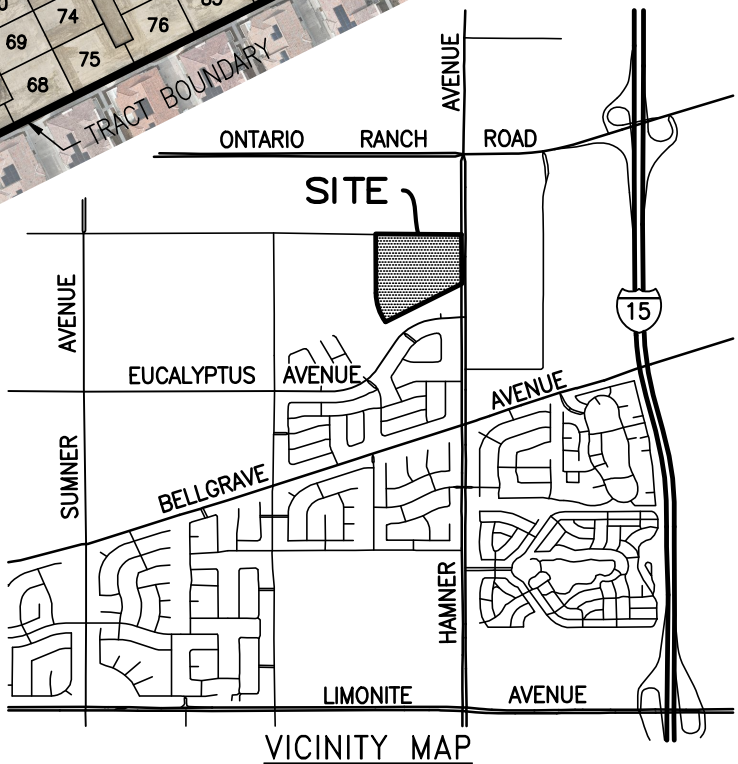
RECOMMENDATION: That the City Council adopt a Resolution approving an Improvement Agreement, Improvement Security and Final Tract Map No. 20451, located on the West side of Hamner Avenue, approximately 570 feet north of Eucalyptus Avenue, within the Esperanza Specific Plan.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the Growth and Evolution of the City's Economy
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)
Ensure the Development of a Well Planned, Balanced, and Self-Sustaining Community in Ontario Ranch

FISCAL IMPACT: There is not a direct fiscal impact associated with this action. All public infrastructure improvements required for this subdivision will be constructed by the Developer at its sole cost.



BACKGROUND & ANALYSIS: Final Tract Map No. 20451, consisting of 138 numbered lots and 50 lettered lots on approximately 31 acres of land (see Exhibit A), has been submitted by the developer, Pulte Home Company, LLC, a Michigan Limited Liability Company. The tentative tract map was approved by the Planning Commission on October 25, 2022.



Improvements for Final Tract Map No. 20451 include pavement, curb, gutter, sidewalk, landscape parkways, fiber optic conduits, fire hydrants, sewer, water, recycled water mains, storm drain and streetlights. The improvements in parkway landscaping will be consistent with current City approved drought measures.

This map meets all conditions of the Subdivision Map Act and the Ontario Municipal Code and have been reviewed and approved by the City Engineer.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, APPROVING AN IMPROVEMENT AGREEMENT, IMPROVEMENT SECURITY AND FINAL TRACT MAP NO. 20451 LOCATED ON THE WEST SIDE OF HAMNER AVENUE APPROXIMATELY 570 FEET NORTH OF EUCALYPTUS AVENUE.

WHEREAS, Tentative Tract Map No. 20451 submitted for approval by SLV LC Center, LLC was approved by the Planning Commission of the City of Ontario on October 25, 2022; and

WHEREAS, Tentative Tract Map No. 20451 consists of 138 numbered lots and 50 lettered lots being a subdivision of lot 6 and E of Tract Map No. 20157, filed in Book 363 Pages 100 through 107, inclusive, of Maps, in the Office of the County Recorder of San Bernardino; and

WHEREAS, Tentative Tract Map No. 20451 was subsequently sold to Pulte Home Company, LLC, a Michigan Limited Liability Company; and

WHEREAS, the requirement for the preparation of Covenants, Conditions and Restrictions (CC&R's), approved by the City Attorney's Office, to ensure the right to mutual ingress and egress and continued maintenance of common facilities by the commonly affected property owners has been deferred to a date that coincides with the recordation of the subject Tract Maps.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario, as follows:

ACTION 1. That said Improvement Agreement be, and the same is, approved and the City Manager is authorized to execute same on behalf of said City, and the City Clerk is authorized to attest thereto; and

ACTION 2. That said Improvement Security is accepted as good and sufficient, subject to approval as to form and content thereof by the City Attorney; and

FINAL ACTION. That Final Parcel Map No. 20451 be approved and that the City Clerk be authorized to execute the statement thereon on behalf of said City.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Engineering Prepared By: Leonard Lui Staff Member Presenting: Scott Murphy, Executive Director Community Development Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 7

SUBJECT: **A RESOLUTION ADOPTING THE LIST OF PROJECTS FOR FISCAL YEAR 2024-25 FUNDED BY SENATE BILL 1, THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017**

RECOMMENDATION: That the City Council adopt a Resolution approving the Fiscal Year 2024-25 Project List for Senate Bill 1 (SB1), the Road Repair and Accountability Act of 2017.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Pursue City's Goals and Objectives by Working with Other Governmental Agencies
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: This spending plan identifies the recommended uses for the City's Fiscal Year 2024-25 apportionment of Road Maintenance and Rehabilitation Account (RMRA) funds from SB1, which is projected to be at $4,624,974 for the upcoming fiscal year. The proposed projects for Fiscal Year 2024-25 are consistent with the projects included in the City's proposed Five-Year Capital Improvement Program to be adopted by City Council as part of the Fiscal Year 2024-25 budget.

BACKGROUND & ANALYSIS: On April 28, 2017, the Governor signed SB1 (Beall, Chapter 5, Statutes of 2017), which is known as the Road Repair and Accountability Act of 2017. To address basic road maintenance, rehabilitation and critical safety needs on both the State highway and local streets and road system, RMRA increases per gallon fuel excise taxes, increases diesel fuel sales taxes and vehicle registration fees, and provides for inflationary adjustments to tax rates in future years.

Prior to receiving an annual apportionment of RMRA funds from the California State Controller, the City must submit an adopted list of projects to the California Transportation Commission (CTC) by July 1, 2024. The proposed project list must be adopted by Resolution (with public record of the action taken) of the City Council at a regular public meeting each fiscal year.

The proposed projects for Fiscal Year 2024-25 (Exhibit "A" of the Resolution) are consistent with the projects included in the City's proposed Five-Year Capital Improvement Program submitted to the City Council for the upcoming fiscal year's budget.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, ADOPTING A LIST OF PROJECTS FOR FISCAL YEAR 2024-25 FUNDED BY SENATE BILL 1, THE ROAD REPAIR AND ACCOUNTABILITY ACT OF 2017.

WHEREAS, Senate Bill 1 (SB1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt by resolution a list of all projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City will receive an estimated $4,624,974 in RMRA funding in Fiscal Year 2024-25 from SB1; and

WHEREAS, this is the eighth year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB1; and

WHEREAS, the City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list; and

WHEREAS, the City used a Pavement Management System to develop the SB1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the community's priorities for transportation investment; and

WHEREAS, the funding from SB1 will help the City maintain and rehabilitate streets/roads, bridges, and add active transportation infrastructure throughout the City this year and many similar projects into the future; and

WHEREAS, the 2018 California Statewide Local Streets and Roads Needs Assessment found that the City's streets and roads are in a "good" condition and this revenue will help us increase the overall quality of our road system and over the next decade will bring our streets and roads to an "excellent" condition; and

WHEREAS, the SB1 project list and overall investment in our local streets and roads infrastructure, with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Ontario, State of California:

1. That the foregoing recitals are true and correct.

2. That the attached list (Exhibit A) of proposed projects will be funded in-part or solely with Fiscal Year 2024-25 Road Maintenance and Rehabilitation Account revenues.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

Grove and St. Andrews Pedestrian Hybrid Beacon	Pedestrian Access	Grove Avenue/St. Andrews Street	7/1/2024	4/1/2025	5-10 years
Construction of a new pedestrian hybrid beacon at intersection, will provide controlled access.					

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Police Department Prepared By: Zina Hullings Staff Member Presenting: Mike Lorenz, Chief of Police Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 8

SUBJECT: AUTHORIZATION OF THE SALE OF A POLICE HELICOPTER

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute the Aircraft Sales Agreement with a buyer of Canada, B.C., (on file with the Records Management Department) for the sale of the City's police helicopter identified by N10NT (Model H125B3) in the amount of $2,435,000 for disposition of this aircraft.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety
Operate in a Businesslike Manner

FISCAL IMPACT: The sale proceeds of the helicopter will be deposited to the General Fund. It is projected that the sale of the City's existing helicopter will generate approximately $2,435,000 which could be utilized for future replacement helicopters.

BACKGROUND & ANALYSIS: The Police Department Air Support Unit operates three helicopters in the fleet. The Air Support Unit Mission Statement is to enhance the safety of the community and police personnel through the strategic deployment of airborne technologies. Aside from assisting Patrol Officers during their normal duties, the Air Support Unit provides aerial photographs and assists the specialized units of the Police Department (i.e. SWAT, Narcotics, etc.) during surveillances and/or special operations. They also assist the Fire Department during fire incidents by providing real time information regarding hazards, as well as accommodate other City Departments (Economic Development, Engineering, Building/Planning, etc.) in various capacities.

On August 4, 2015, the City Council approved the purchase of a third helicopter. The City took delivery of the aircraft (N10NT) in 2015 and past protocol has been to replace Air Support aircraft on a milestone of ten years to avoid required and significant maintenance. Replacing at ten years will avoid a twelve year inspection and the replacement of aging/outdated avionics which is very costly and requires six to nine months to complete. Given the cost to repair in comparison to the cost of purchasing a new helicopter, Staff is recommending the sale of the aircraft to allow the City to recuperate some proceeds that will be deposited into the General Fund.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Tim Masot Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 9

SUBJECT: **GOODS AND EQUIPMENT PURCHASE AGREEMENTS WITH ALL AMERICAN ASPHALT AND MANHOLE ADJUSTING, INC. FOR THE PROCUREMENT OF ASPHALT MATERIALS**

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute Maintenance Services Agreements for the procurement of asphalt materials with All American Asphalt, of Corona, California, for a total not-to-exceed contract amount of $5,932,772 for up to five years and Manhole Adjusting, Inc., of Pico Rivera, California, for a total not-to-exceed contract amount of $174,380 for up to five years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The recommended contract award to All American Asphalt is for a total not-to-exceed contract amount of $3,559,663 over the three-year term. Two one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $2,373,109 for a total contract amount not-to-exceed $5,932,772. The recommended contract award to Manhole Adjusting, Inc., is $104,628 over the three-year term. Two one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $69,752 for a total contract amount not-to-exceed $174,380. If approved, appropriations will be included in future Annual Budgets to the City Council for approval as needed for the procurement of asphalt materials for street overlay and maintenance work.

BACKGROUND & ANALYSIS: The City routinely purchases asphalt and other materials from suppliers on an as-needed basis for on-going maintenance and repairs. The suppliers will be compensated for materials based on the fee structures and material billing rate set forth in the respective three-year purchase Agreements.

On March 22, 2024, the City solicited bids for Bid No. 1779 Asphalt Materials. On April 18, 2024, two bids were received ranging from $750.50 to $976.70 per ton. The unit cost includes the additional costs of sales tax and delivery. After reviewing the bids, and based on credentials, pricing, favorable

product availability and service, it was determined that All American Asphalt was the lowest responsible bidder.

Bid results are listed below:

Vendor	**Location**	**Amount**
All American Asphalt	Corona, CA	$750.50/ton
Manhole Adjusting, Inc.	Pico Rivera, CA	$976.70/ton

Purchasing from multiple suppliers is recommended to give the City the flexibility to ensure the quality and timeliness of materials. Therefore, Staff will order from All American Asphalt for the residential overlay program and from Manhole Adjusting, Inc. for potholes and other materials. The selected suppliers possess the knowledge, qualifications, and experience needed to meet all Federal and State requirements.

CITY OF ONTARIO
GOODS AND EQUIPMENT PURCHASE AGREEMENT

This Goods and Equipment Purchase Agreement ("Agreement") is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City"), and **All American Asphalt**, a **Corporation** with its principal place of business at 400 E. Sixth St. Corona, CA 92879-2229 ("Supplier"). City and Supplier are sometimes individually referred to as "Party" and collectively as "Parties" in this Agreement.

Section 1. DEFINITIONS.

A. "Goods" means all machinery, equipment, supplies, items, parts, materials, labor or other services, including design, engineering and installation services, provided by Supplier as specified in Exhibit "A," attached hereto and incorporated herein by reference.

B. "Delivery Date(s)" means that date or dates upon which the Goods is to be delivered to City, ready for approval, testing and/or use as specified in Exhibit "B."

Section 2. MATERIALS AND WORKMANSHIP.

When Exhibit "A" specifies machinery, equipment or material by manufacturer, model or trade name, no substitution will be made without City's written approval. Machinery, equipment or material installed in the Goods without the approval required by this Section 2 will be deemed to be defective material for purposes of Section 4. Where machinery, equipment or materials are referred to in Exhibit "A" as equal to any particular standard, City will decide the question of equality. When requested by City, Supplier will furnish City with the name of the manufacturer, the performance capabilities and other pertinent information necessary to properly determine the quality and suitability of any machines, equipment and material to be incorporated in the Goods. Material samples will be submitted at City's request.

Section 3. INSPECTIONS AND TESTS.

City shall have the right to inspect and/or test the Goods prior to acceptance. If upon inspection or testing the Goods or any portion thereof are found to be nonconforming, unsatisfactory, defective, of inferior quality or workmanship, or fail to meet any requirements or specifications contained in Exhibit "A," then without prejudice to any other rights or remedies, City may reject the Goods or exercise any of its rights under Section 4.C. The inspection, failure to make inspection, acceptance of goods, or payment for goods shall not impair City's right to reject

nonconforming goods, irrespective of City's failure to notify Supplier of a rejection of nonconforming goods or revocation of acceptance thereof or to specify with particularity any defect in nonconforming goods after rejection or acceptance thereof.

Section 4. WARRANTY.

A. Supplier warrants that the Goods will be of merchantable quality and free from defects in design, engineering, material, and workmanship for a period of two (2) years, or such longer period as provided by a manufacturer's warranty or as agreed to by Supplier and City, from the date of final written acceptance of the Goods by City as required for final payment under Section 7. Supplier further warrants that any services provided in connection with the Goods will be performed in a professional and workmanlike manner and in accordance with the highest industry standards.

B. Supplier further warrants that all machinery, equipment, or process included in the Goods will meet the performance requirements and specifications specified in Exhibit "A" and shall be fit for the purpose intended. City's inspection, testing, approval, or acceptance of any such machinery, equipment, or process will not relieve Supplier of its obligations under this Section 4.B.

C. For any breach of the warranties contained in Section 4.A and Section 4.B, Supplier will, immediately after receiving notice from City, at the option of City, and at Supplier's own expense and without cost to City:

1. Repair the defective Goods;

2. Replace the defective Goods with conforming Goods, F.O.B. City's plant, office, or other location of City where the Goods was originally performed or delivered; or

3. Repay to City the purchase price of the defective Goods.

If City selects repair or replacement, any defects will be remedied without cost to City, including but not limited to, the costs of removal, repair, and replacement of the defective Goods, and reinstallation of new Goods. All such defective Goods that is so remedied will be similarly warranted as stated above. In addition, Supplier will repair or replace other items of the Goods which may have been damaged by such defects or the repairing of the same, all at its own expense and without cost to City.

D. Supplier also warrants that the Goods is free and clear of all liens and encumbrances whatsoever, that Supplier has a good and marketable title to same, and that Supplier owns or has a valid license for all of the proprietary technology and intellectual property incorporated within the Goods. Supplier agrees to indemnify, defend, and hold City harmless against any and all third-party claims resulting from the breach or inaccuracy of any of the foregoing warranties.

E. In the event of a breach by Supplier of its obligations under this Section 4, City will not be limited to the remedies set forth in this Section 4, but will have all the rights and remedies

permitted by applicable law, including without limitation, all of the rights and remedies afforded to City under the California Commercial Code.

Section 5. PRICES.

Unless expressly provided otherwise, all prices and fees specified in Exhibit "C," attached hereto and incorporated herein by reference, are firm and shall not be subject to change without the written approval of City. No extra charges of any kind will be allowed unless specifically agreed to in writing by City's authorized representative. The total price shall include (i) all federal, state and local sales, use, excise, privilege, payroll, occupational and other taxes applicable to the Goods furnished to City hereunder; and (ii) all charges for packing, freight and transportation to destination.

Section 6. CHANGES.

City, at any time, by a written order, and without notice to any surety, may make changes in the Goods, including but not limited to, City's requirements and specifications. If such changes affect the cost of the Goods or time required for its performance, an equitable adjustment will be made in the price or time for performance or both. Any change in the price necessitated by such change will be agreed upon between City and Supplier and such change will be authorized by a change order document signed by City and accepted by Supplier.

Section 7. PAYMENTS.

A. Terms of payment, are net thirty (30) days, less any applicable retention, after receipt of invoice, or completion of applicable Progress Milestones. Final payment shall be made by City after Supplier has satisfied all contractual requirements. Payment of invoices shall not constitute acceptance of Goods.

B. If Progress Milestones have been specified in Exhibit "B," then payments for the Goods will be made as the requirements of such Progress Milestones are met. Progress payments for the Goods will be made by City upon proper application by Supplier during the progress of the Goods and according to the terms of payment as specified in Exhibit "B." Supplier's progress billing invoice will include progress payments due for the original scope of work and changes. Each "Item for Payment" shown in Exhibit "B" and each change order will be itemized on the invoice. Invoices for cost plus work, whether part of Exhibit "B" or a change order, must have subcontractor and/or supplier invoices attached to Supplier's invoice. Other format and support documents for invoices will be determined by City in advance of the first invoice cycle.

C. Payments otherwise due may be withheld by City on account of defective Goods not remedied, liens or other claims filed, reasonable evidence indicating probable filing of liens or other claims, failure of Supplier to make payments properly to its subcontractors or for material or labor, the failure of Supplier to perform any of its other obligations under the Agreement, or to protect City against any liability arising out of Supplier's failure to pay or discharge taxes or other obligations. If the causes for which payment is withheld are removed, the withheld payments will be made promptly. If the said causes are not removed within a reasonable period after written notice, City may remove them at Supplier's expense.

D. Payment of the final Progress Milestone payment or any retention will be made by City upon:

1. Submission of an invoice for satisfactory completion of the requirements of a Progress Milestone as defined in Exhibit "B" and in the amount associated with the Progress Milestone;

2. Written acceptance of the Goods by City;

3. Delivery of all drawings and specifications, if required by City;

4. Delivery of executed full releases of any and all liens arising out of this Agreement; and

5. Delivery of an affidavit listing all persons who might otherwise be entitled to file, claim, or maintain a lien of any kind or character, and containing an averment that all of the said persons have been paid in full.

If any person refuses to furnish an actual release or receipt in full, Supplier may furnish a bond satisfactory to City to indemnify City against any claim or lien at no cost to City.

E. Acceptance by Supplier of payment of the final Progress Milestone payment pursuant to Section 7.D will constitute a waiver, release and discharge of any and all claims and demands of any kind or character which Supplier then has, or can subsequently acquire against City, its successors and assigns, for or on account of any matter or thing arising out of, or in any manner connected with, the performance of this Agreement. However, payment for the final Progress Milestone by City will not constitute a waiver, release or discharge of any claims or demands which City then has, or can subsequently acquire, against Supplier, its successors and assigns, for or on account of any matter or thing arising out of, or in any manner connected with, the performance of this Agreement.

Section 8. SCHEDULE FOR DELIVERY.

A. The time of Supplier's performance is of the essence for this Agreement. The Goods will be delivered in accordance with the schedule set forth in Exhibit "B." Supplier must immediately notify City in writing any time delivery is behind schedule or may not be completed on schedule.

B. In the event that the Goods is part of a larger project or projects that require the coordination of multiple contractors or suppliers, then Supplier will fully cooperate in scheduling the delivery so that City can maximize the efficient completion of such project(s).

Section 9. TAXES.

A. Supplier agrees to timely pay all sales and use tax (including any value added or gross receipts tax imposed similar to a sales and use tax) imposed by any federal, state or local taxing authority on the ultimate purchase price of the Goods provided under this Agreement.

B. Supplier will withhold, and require its subcontractors, where applicable, to withhold all required taxes and contributions of any federal, state or local taxing authority which is measured by wages, salaries or other remuneration of its employees or the employees of its subcontractors. Supplier will deposit, or cause to be deposited, in a timely manner with the appropriate taxing authorities all amounts required to be withheld.

C. All other taxes, however denominated or measured, imposed upon the price of the Goods provided hereunder, will be the responsibility of Supplier. In addition, all taxes assessed by any taxing jurisdiction based on Supplier property used or consumed in the provision of the Goods such as and including ad valorem, use, personal property and inventory taxes will be the responsibility of Supplier.

D. Supplier will, upon written request, submit to City written evidence of any filings or payments of all taxes required to be paid by Supplier hereunder.

Section 10. INDEPENDENT CONTRACTOR.

Supplier enters into this Agreement as an independent contractor and not as an employee of City. Supplier shall have no power or authority by this Agreement to bind City in any respect. Nothing in this Agreement shall be construed to be inconsistent with this relationship or status. All employees, agents, contractors or subcontractors hired or retained by the Supplier are employees, agents, contractors or subcontractors of the Supplier and not of City. City shall not be obligated in any way to pay any wage claims or other claims made against Supplier by any such employees, agents, contractors or subcontractors or any other person resulting from performance of this Agreement.

Section 11. SUBCONTRACTS.

Unless otherwise specified, Supplier must obtain City's written permission before subcontracting any portion of the Goods. Except for the insurance requirements in Section 13.A, all subcontracts and orders for the purchase or rental of supplies, materials or equipment, or any other part of the Goods, will require that the subcontractor be bound by and subject to all of the terms and conditions of the Agreement. No subcontract or order will relieve Supplier from its obligations to City, including, but not limited to Supplier's insurance and indemnification obligations. No subcontract or order will bind City.

Section 12. TITLE AND RISK OF LOSS.

Unless otherwise agreed, City will have title to, and risk of loss of, all completed and partially completed portions of the Goods upon delivery, as well as materials delivered to and stored on City property which are intended to become a part of the Goods. However, Supplier will be liable for any loss or damage to the Goods and/or the materials caused by Supplier or its subcontractors, their agents or employees, and Supplier will replace, or repair said Goods or materials at its own cost to the complete satisfaction of City. Notwithstanding the foregoing, in the event that the City has paid Supplier for all or a portion of the Goods which remains in the possession of Supplier, then City shall have title to, and the right to take possession of, such Goods at any time following payment therefor. Risk of loss for any Goods which remains in the possession of Supplier shall remain with Supplier until such Goods has been delivered or City

has taken possession thereof. Supplier will have risk of loss or damage to Supplier's property used in the construction of the Goods, but which does not become a part of the Goods.

Section 13. INDEMNIFICATION.

A. Supplier shall defend, indemnify and hold the City, its officials, officers, employees, volunteers and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury, in law or equity, to property or persons, including wrongful death, in any manner arising out of or incident to any alleged acts, omissions, negligence or willful misconduct of Supplier, its officials, officers, employees, agents, subcontractors and subconsultants arising out of or in connection with the Goods or the performance of this Agreement, including without limitation the payment of all consequential damages and attorneys' fees and other related costs and expenses except such loss or damage which was caused by the sole negligence or willful misconduct of the City.

B. Supplier's defense obligation for any and all such aforesaid suits, actions or other legal proceedings of every kind that may be brought or instituted against the City, its officials, officers, employees, agents, or volunteers shall be at Supplier's own cost, expense, and risk. Supplier shall pay and satisfy any judgment, award, or decree that may be rendered against City or its officials, officers, employees, agents, or volunteers, in any such suit, action, or other legal proceeding. Supplier shall reimburse City and its officials, officers, employees, agents, and/or volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided.

C. Supplier's obligation to indemnify shall not be restricted to insurance proceeds, if any, received by the City, its officials, officers, employees, agents, or volunteers.

Section 14. INSURANCE.

A. General. Supplier shall take out and maintain:

1. Commercial General Liability Insurance, of at least $2,000,000 per occurrence/ $4,000,000 aggregate for bodily injury, personal injury and property damage, at least as broad as Insurance Services Office Commercial General Liability most recent Occurrence Form CG 00 01;

2. Automobile Liability Insurance for bodily injury and property damage including coverage for owned, non-owned and hired vehicles, of at least $2,000,000 per accident for bodily injury and property damage, at least as broad as most recent Insurance Services Office Form Number CA 00 01 covering automobile liability, Code 1 (any auto);

3. Workers' Compensation in compliance with applicable statutory requirements and Employer's Liability Coverage of at least $1,000,000 per occurrence; and

4. Pollution Liability Insurance of at least $2,000,000 per occurrence shall be provided by the Supplier if transporting hazardous materials.

5. If Supplier is also the manufacturer of any equipment included in the Goods, Supplier shall carry Product Liability and/or Errors and Omissions Insurance which covers said equipment with limits of not less than $1,000,000.

B. Additional Insured; Primary; Waiver of Subrogation; No Limitation on Coverage. The policies required under this Section shall give City, its officials, officers, employees, agents or volunteers additional insured status on commercial general liability and automobile liability insurance with the endorsements. Such policies shall contain a provision stating that Supplier's policy is primary insurance and that any insurance, deductible, or self-insurance maintained by the City or any additional insureds shall not be called upon to contribute to any loss and shall contain or be endorsed with a waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers. The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Requirements of specific coverage or limits contained in this section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. Any available coverage shall be provided to the parties required to be named as additional insured pursuant to this Agreement.

C. Cancellation. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

D. Insurance Carrier. All insurance required under this Section is to be placed with insurers with a current A.M. Best's rating no less than A-: VII, licensed to do business in California, and satisfactory to the City.

E. Evidence of Insurance. Supplier shall furnish City with original certificates of insurance and endorsements effecting coverage required by the Agreement. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms supplied or approved by the City. All certificates and endorsements must be received and approved by the City before delivery commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

F. Subcontractors. All subcontractors shall meet the requirements of this Section before commencing work. In addition, Supplier shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

G. Freight. Supplier shall ensure that third party shippers contracted by Supplier have adequate insurance coverage for the shipped Goods.

Section 15. LIENS.

A. Supplier, subcontractors and suppliers will not make, file or maintain a mechanic's or other lien or claim of any kind or character against the Goods, for or on account of any labor, materials, fixtures, tools, machinery, equipment, or any other things furnished, or any other work done or performance given under, arising out of, or in any manner connected with the Agreement (such liens or claims referred to as "Claims"); and Supplier, subcontractor and suppliers expressly waive and relinquish any and all rights which they now have, or may subsequently acquire, to file or maintain any Claim and Supplier, subcontractor and suppliers agree that this provision waiving the right of Claims will be an independent covenant.

B. Supplier will save and hold City harmless from and against any and all Claims that may be filed by a subcontractor, supplier or any other person or entity and Supplier will, at its own expense, defend any and all actions based upon such Claims and will pay all charges of attorneys and all costs and other expenses arising from such Claims.

Section 16. TERMINATION OF AGREEMENT BY CITY.

A. Should Supplier at any time refuse or fail to deliver the Goods with promptness and diligence, or to perform any of its other obligations under the Agreement, City may terminate Supplier's right to proceed with the delivery of the Goods by written notice to Supplier. In such event City may obtain the Goods by whatever method it may deem expedient, including the hiring of another contractor or other contractors and, for that purpose, may take possession of all materials, machinery, equipment, tools and appliances and exercise all rights, options and privileges of Supplier. In such case Supplier will not be entitled to receive any further payments until the Goods is delivered. If City's cost of obtaining the Goods, including compensation for additional managerial and administrative services, will exceed the unpaid balance of the Agreement, Supplier will be liable for and will pay the difference to City.

B. City may, for its own convenience, terminate Supplier's right to proceed with the delivery of any portion or all of the Goods by written notice to Supplier. Such termination will be effective in the manner specified in such notice, will be without prejudice to any claims which City may have against Supplier, and will not affect the obligations and duties of Supplier under the Agreement with respect to portions of the Goods not terminated.

C. On receipt of notice under Section 16.B, Supplier will, with respect to the portion of the Goods terminated, unless the notice states otherwise,

1. Immediately discontinue such portion of the Goods and the placing of orders for materials, facilities, and supplies in connection with the Goods,

2. Unless otherwise directed by City, make every reasonable effort to procure cancellation of all existing orders or contracts upon terms satisfactory to City; and

3. Deliver only such portions of the Goods which City deems necessary to preserve and protect those portions of the Goods already in progress and to protect material, plant and equipment at the Goods site or in transit to the Goods site.

D. Upon termination pursuant to Section 16.B, Supplier will be paid a pro rata portion of the compensation in the Agreement for any portion of the terminated Goods already delivered, including material and services for which it has made firm contracts which are not canceled, it being understood that City will be entitled to such material and services. Upon determination of the amount of said pro rata compensation, City will promptly pay such amount to Supplier upon delivery by Supplier of the releases of liens and affidavit, pursuant to Section 7.C.

Section 17. FORCE MAJEURE

A. Supplier shall not be held responsible for failure or delay in shipping nor City for failure or delay in accepting goods described herein if such failure or delay is due to a Force Majeure Event.

B. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters occurring at the project site; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the work); (4) pandemics, epidemics or quarantine restrictions; and (5) strikes and other organized labor action occurring at the project site and the effects thereof on the work, only to the extent such strikes and other organized labor action are beyond the control of Supplier and its subcontractors, of every tier, and to the extent the effects thereof cannot be avoided by use of replacement workers. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of the City in its capacity as a municipal authority.

C. In the event of any such excused interference with shipments, City shall have the option either to reduce the quantity provided for in the order accordingly or to exercise its right of cancellation as set forth in this Agreement.

Section 18. MISCELLANEOUS PROVISIONS.

A. Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address or at such other address as the respective parties may provide in writing for this purpose:

CITY:	SUPPLIER:
City of Ontario 303 East "B" Street Ontario, CA 91764 Attn: Tim Masot, Parks & Maintenance Manager	All American Asphalt 400 E Sixth St. Corona, CA 92879-2229 Attn: Ed Carlson, Vice President

Such notice shall be deemed made when personally delivered or when mailed, forty-eight

(48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

B. Assignment or Transfer. Supplier shall not assign or transfer any interest in this Agreement whether by assignment or novation, without the prior written consent of the City, which will not be unreasonably withheld. Provided, however, that claims for money due or to become due Supplier from the City under this Agreement may be assigned to a financial institution or to a trustee in bankruptcy, without such approval. Notice of any assignment or transfer, whether voluntary or involuntary, shall be furnished promptly to the City.

C. Successors and Assigns. This Agreement shall be binding on the successors and assigns of the Parties.

D. Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

E. Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

F. Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County.

G. Attorneys' Fees and Costs. If any action in law or equity, including an action for declaratory relief, is brought to enforce or interpret the provisions of this Agreement, each Party shall pay its own attorneys' fees.

H. Interpretation. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party.

I. No Third Party Beneficiaries. There are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

J. Authority to Enter Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right and authority to make this Agreement and bind each respective Party.

K. Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

L. Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

M. City's Right to Employ Other Suppliers. City reserves its right to employ other contractors in connection with the Goods.

N. Entire Agreement. This Agreement constitutes the entire agreement between the Parties relative to the Goods specified herein. There are no understandings, agreements, conditions, representations, warranties or promises with respect to this Agreement, except those contained in or referred to in the writing.

Goods Specifications

Exhibit B
Delivery Schedule

Deliveries

The contractor shall perform all deliveries to State Facilities in a safe and professional manner. Contractor equipment shall be in good working order and all personnel shall be trained in safety measures to preclude accidents endangering the public and/or City personnel or property.

The contractor shall have adequate equipment of goods on proposed contract. The contractor shall have adequate office and personnel resources for responding to the City's needs, including telephone coverage weekdays between the hours of 7:00 AM and 5:00 PM.

Delivery of materials shall be made by the Contractor by means of "transfer end-dump deliveries"_ Alternate means of transport may be utilized subject to 48-hour advance approval of City.

Schedule of Paving Days

Upon acceptance of the Contractor's proposal, and a minimum of 90 calendar days prior to the first day on which supply and delivery of asphalt to the City is required, the City shall provide the Contractor with a schedule of paving days which will show the specific date and location(s) where supply and delivery to the City of asphalt by the contractor is required. The Schedule of Paving Days will also include the quantity of asphalt (in "tons") required by the City at each location. For the purpose of establishing a real and sincere proposal with respect to total contract quantities for specified materials, the Contractor shall refer to the "schedule of Required Materials" contained within this document.

The City reserves the right to revise the Schedule of Paving Days with respect to locations and/or quantities. Notice to the Contractor stating such revisions shall be delivered a minimum of 72 hours prior to the calendar day on which a change is being made. Revisions of this nature will not be cause for any form of additional compensation to be due to the Contractor.

Delivery shall be made only to location listed in the Schedule of Paving Days or within revisions to such, made by written authorization from City.

Required Quantities and Time/ Rate of Delivery

Pursuant to the Schedule of Paving Days, the Contractor shall provide to the City, the required tonnage(s) of asphalt delivered to the specified locations(s).

The minimum and maximum quantities of asphalt which shall be specified for supply and delivery for any given day within the Schedule of Paving Days shall be, 100 tons and 1,100 tons respectively (total for all paving locations that day). This specified quantity shall be suppled and delivered under the following terms:

A. Delivery shall commence at 8:00 AM.

B. Delivery of the total quantity of a required subject paving day by the Schedule of Paving Days shall be completed by 4:00 PM that day.

C. At its discretion, City will determine and notify the Contractor of the number of trucks and rounds required per truck for any specific paving locations a minimum of 48 hours prior to delivery.

In the event that on a day specified for supply and delivery of asphalt by the Schedule of Paving Days and within the timeframes described in section "a" and "b" above, the Contractor is unable to supply the total quantity of material requested by the City, a deduction shall be made from compensation due the Contractor within the monthly invoice pursuant to the following:

Liquidated Damages

In the event the material on this contract is delayed or not delivered in accordance with these specifications, through no fault of the City, the Contractor will be liable for direct manpower and idle equipment costs incurred by the City.

Standing Time

The City will be entitled for standing time for the purposed of unloading of not more than one half hour at no charge to the City. A charge of ($1.00) one dollar per minute shall be assessed for standing time in which the carrier equipment is detained, through no fault of the carrier, in excess of the free time. Charged time shall be supported with the appropriate documents. For payment to be processed, the standing time billing must accompany, on a separate invoice the material billing.

Start time shall begin when the carrier is ready to hook-up the paver or ready to dump, but no earlier than the requested time of arrival.

End time shall occur when carrier disconnects or is finished dumping.

Exhibit C
Fee Schedule

Item Description	Unit of Measure	Unit Price
Bulk Asphalt PG 64-10, 3/8 Fine--Delivery (Include all fees)	Per Ton	$92.35
Bulk Asphalt PG 64-10, 3/8 Fine--Will Call	Per Ton	$81.35
Bulk Asphalt PG 64-10, 1/2 --Delivery (Include all fees)	Per Ton	$89.35
Bulk Asphalt PG 64-10, School Mix -- Will Call	Per Ton	$108.35
Bulk Asphalt SC 800, Cold Mix -- Will Call	Per Ton	$97.35
3/4IN CL 2 Base	Per Ton	$7.40
Bulk Asphalt SC 800, Cold Mix -- Delivery (Include all fees)	Per Ton	$108.35
Standby Fee	Per minute	$3.00
Short Load Fee	Per Load	$150.00
Shipping/Delivery Fee, if applicable	Per Ton	$12.00

Contract Period

The contract term shall be from July 1, 2024 – June 30, 2027, unless the City determines, in its sole discretion, that a later commencement date is necessary, in which case the City will notify the Bidder of such date upon award of the Contract. The total contract amount shall not exceed **Three Million Five Hundred Fifty-Nine Thousand Six Hundred Sixty-Three Dollars ($3,559,663)** over the three-year term.

Extension Option

This Contract is subject to extension for two additional one (1) year periods from the date of expiration of this Contract, at the option of the City in accordance with the option granted in your bid.

CITY OF ONTARIO
GOODS AND EQUIPMENT PURCHASE AGREEMENT

This Goods and Equipment Purchase Agreement ("Agreement") is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City"), and **Manhole Adjusting Inc.**, a **Corporation** with its principal place of business at **9500 Beverly Road, Pico Rivera, CA 90660** ("Supplier"). City and Supplier are sometimes individually referred to as "Party" and collectively as "Parties" in this Agreement.

Section 1. DEFINITIONS.

A. "Goods" means all machinery, equipment, supplies, items, parts, materials, labor or other services, including design, engineering and installation services, provided by Supplier as specified in Exhibit "A," attached hereto and incorporated herein by reference.

B. "Delivery Date(s)" means that date or dates upon which the Goods is to be delivered to City, ready for approval, testing and/or use as specified in Exhibit "B."

Section 2. MATERIALS AND WORKMANSHIP.

When Exhibit "A" specifies machinery, equipment or material by manufacturer, model or trade name, no substitution will be made without City's written approval. Machinery, equipment or material installed in the Goods without the approval required by this Section 2 will be deemed to be defective material for purposes of Section 4. Where machinery, equipment or materials are referred to in Exhibit "A" as equal to any particular standard, City will decide the question of equality. When requested by City, Supplier will furnish City with the name of the manufacturer, the performance capabilities and other pertinent information necessary to properly determine the quality and suitability of any machines, equipment, and material to be incorporated in the Goods. Material samples will be submitted at City's request.

Section 3. INSPECTIONS AND TESTS.

City shall have the right to inspect and/or test the Goods prior to acceptance. If upon inspection or testing the Goods or any portion thereof are found to be nonconforming, unsatisfactory, defective, of inferior quality or workmanship, or fail to meet any requirements or specifications contained in Exhibit "A," then without prejudice to any other rights or remedies, City may reject the Goods or exercise any of its rights under Section 4.C. The inspection, failure to make inspection, acceptance of goods, or payment for goods shall not impair City's right to reject nonconforming goods, irrespective of City's failure to notify Supplier of a rejection of

nonconforming goods or revocation of acceptance thereof or to specify with particularity any defect in nonconforming goods after rejection or acceptance thereof.

Section 4. WARRANTY.

A. Supplier warrants that the Goods will be of merchantable quality and free from defects in design, engineering, material, and workmanship for a period of two (2) years, or such longer period as provided by a manufacturer's warranty or as agreed to by Supplier and City, from the date of final written acceptance of the Goods by City as required for final payment under Section 7. Supplier further warrants that any services provided in connection with the Goods will be performed in a professional and workmanlike manner and in accordance with the highest industry standards.

B. Supplier further warrants that all machinery, equipment, or process included in the Goods will meet the performance requirements and specifications specified in Exhibit "A" and shall be fit for the purpose intended. City's inspection, testing, approval, or acceptance of any such machinery, equipment, or process will not relieve Supplier of its obligations under this Section 4.B.

C. For any breach of the warranties contained in Section 4.A and Section 4.B, Supplier will, immediately after receiving notice from City, at the option of City, and at Supplier's own expense and without cost to City:

1. Repair the defective Goods;

2. Replace the defective Goods with conforming Goods, F.O.B. City's plant, office, or other location of City where the Goods was originally performed or delivered; or

3. Repay to City the purchase price of the defective Goods.

If City selects repair or replacement, any defects will be remedied without cost to City, including but not limited to, the costs of removal, repair, and replacement of the defective Goods, and reinstallation of new Goods. All such defective Goods that is so remedied will be similarly warranted as stated above. In addition, Supplier will repair or replace other items of the Goods which may have been damaged by such defects or the repairing of the same, all at its own expense and without cost to City.

D. Supplier also warrants that the Goods is free and clear of all liens and encumbrances whatsoever, that Supplier has a good and marketable title to same, and that Supplier owns or has a valid license for all of the proprietary technology and intellectual property incorporated within the Goods. Supplier agrees to indemnify, defend, and hold City harmless against any and all third-party claims resulting from the breach or inaccuracy of any of the foregoing warranties.

E. In the event of a breach by Supplier of its obligations under this Section 4, City will not be limited to the remedies set forth in this Section 4, but will have all the rights and remedies permitted by applicable law, including without limitation, all of the rights and remedies afforded to City under the California Commercial Code.

Section 5. PRICES.

Unless expressly provided otherwise, all prices and fees specified in Exhibit "C," attached hereto and incorporated herein by reference, are firm and shall not be subject to change without the written approval of City. No extra charges of any kind will be allowed unless specifically agreed to in writing by City's authorized representative. The total price shall include (i) all federal, state and local sales, use, excise, privilege, payroll, occupational and other taxes applicable to the Goods furnished to City hereunder; and (ii) all charges for packing, freight and transportation to destination.

Section 6. CHANGES.

City, at any time, by a written order, and without notice to any surety, may make changes in the Goods, including but not limited to, City's requirements and specifications. If such changes affect the cost of the Goods or time required for its performance, an equitable adjustment will be made in the price or time for performance or both. Any change in the price necessitated by such change will be agreed upon between City and Supplier and such change will be authorized by a change order document signed by City and accepted by Supplier.

Section 7. PAYMENTS.

A. Terms of payment, are net thirty (30) days, less any applicable retention, after receipt of invoice, or completion of applicable Progress Milestones. Final payment shall be made by City after Supplier has satisfied all contractual requirements. Payment of invoices shall not constitute acceptance of Goods.

B. If Progress Milestones have been specified in Exhibit "B," then payments for the Goods will be made as the requirements of such Progress Milestones are met. Progress payments for the Goods will be made by City upon proper application by Supplier during the progress of the Goods and according to the terms of payment as specified in Exhibit "B." Supplier's progress billing invoice will include progress payments due for the original scope of work and changes. Each "Item for Payment" shown in Exhibit "B" and each change order will be itemized on the invoice. Invoices for cost plus work, whether part of Exhibit "B" or a change order, must have subcontractor and/or supplier invoices attached to Supplier's invoice. Other format and support documents for invoices will be determined by City in advance of the first invoice cycle.

C. Payments otherwise due may be withheld by City on account of defective Goods not remedied, liens or other claims filed, reasonable evidence indicating probable filing of liens or other claims, failure of Supplier to make payments properly to its subcontractors or for material or labor, the failure of Supplier to perform any of its other obligations under the Agreement, or to protect City against any liability arising out of Supplier's failure to pay or discharge taxes or other obligations. If the causes for which payment is withheld are removed, the withheld payments will be made promptly. If the said causes are not removed within a reasonable period after written notice, City may remove them at Supplier's expense.

D. Payment of the final Progress Milestone payment or any retention will be made by City upon:

1. Submission of an invoice for satisfactory completion of the requirements of a Progress Milestone as defined in Exhibit "B" and in the amount associated with the Progress Milestone;

2. Written acceptance of the Goods by City;

3. Delivery of all drawings and specifications, if required by City;

4. Delivery of executed full releases of any and all liens arising out of this Agreement; and

5. Delivery of an affidavit listing all persons who might otherwise be entitled to file, claim, or maintain a lien of any kind or character, and containing an averment that all of the said persons have been paid in full.

If any person refuses to furnish an actual release or receipt in full, Supplier may furnish a bond satisfactory to City to indemnify City against any claim or lien at no cost to City.

E. Acceptance by Supplier of payment of the final Progress Milestone payment pursuant to Section 7.D will constitute a waiver, release and discharge of any and all claims and demands of any kind or character which Supplier then has, or can subsequently acquire against City, its successors and assigns, for or on account of any matter or thing arising out of, or in any manner connected with, the performance of this Agreement. However, payment for the final Progress Milestone by City will not constitute a waiver, release or discharge of any claims or demands which City then has, or can subsequently acquire, against Supplier, its successors, and assigns, for or on account of any matter or thing arising out of, or in any manner connected with, the performance of this Agreement.

Section 8. SCHEDULE FOR DELIVERY.

A. The time of Supplier's performance is of the essence for this Agreement. The Goods will be delivered in accordance with the schedule set forth in Exhibit "B." Supplier must immediately notify City in writing any time delivery is behind schedule or may not be completed on schedule. In addition to any other rights City may have under this Agreement or at law, Supplier shall pay City the sum of $0 per item of Goods for each calendar day for which the item of Goods is unavailable beyond the scheduled delivery date(s) specified in Exhibit "B."

B. In the event that the Goods is part of a larger project or projects that require the coordination of multiple contractors or suppliers, then Supplier will fully cooperate in scheduling the delivery so that City can maximize the efficient completion of such project(s).

Section 9. TAXES.

A. Supplier agrees to timely pay all sales and use tax (including any value added or gross receipts tax imposed similar to a sales and use tax) imposed by any federal, state or local taxing authority on the ultimate purchase price of the Goods provided under this Agreement.

B. Supplier will withhold, and require its subcontractors, where applicable, to withhold all required taxes and contributions of any federal, state or local taxing authority which is measured by wages, salaries or other remuneration of its employees or the employees of its subcontractors. Supplier will deposit, or cause to be deposited, in a timely manner with the appropriate taxing authorities all amounts required to be withheld.

C. All other taxes, however denominated or measured, imposed upon the price of the Goods provided hereunder, will be the responsibility of Supplier. In addition, all taxes assessed by any taxing jurisdiction based on Supplier property used or consumed in the provision of the Goods such as and including ad valorem, use, personal property and inventory taxes will be the responsibility of Supplier.

D. Supplier will, upon written request, submit to City written evidence of any filings or payments of all taxes required to be paid by Supplier hereunder.

Section 10. INDEPENDENT CONTRACTOR.

Supplier enters into this Agreement as an independent contractor and not as an employee of City. Supplier shall have no power or authority by this Agreement to bind City in any respect. Nothing in this Agreement shall be construed to be inconsistent with this relationship or status. All employees, agents, contractors, or subcontractors hired or retained by the Supplier are employees, agents, contractors or subcontractors of the Supplier and not of City. City shall not be obligated in any way to pay any wage claims or other claims made against Supplier by any such employees, agents, contractors or subcontractors or any other person resulting from performance of this Agreement.

Section 11. SUBCONTRACTS.

Unless otherwise specified, Supplier must obtain City's written permission before subcontracting any portion of the Goods. Except for the insurance requirements in Section 13.A, all subcontracts and orders for the purchase or rental of supplies, materials or equipment, or any other part of the Goods, will require that the subcontractor be bound by and subject to all of the terms and conditions of the Agreement. No subcontract or order will relieve Supplier from its obligations to City, including, but not limited to Supplier's insurance and indemnification obligations. No subcontract or order will bind City.

Section 12. TITLE AND RISK OF LOSS.

Unless otherwise agreed, City will have title to, and risk of loss of, all completed and partially completed portions of the Goods upon delivery, as well as materials delivered to and stored on City property which are intended to become a part of the Goods. However, Supplier will be liable for any loss or damage to the Goods and/or the materials caused by Supplier or its subcontractors, their agents or employees, and Supplier will replace, or repair said Goods or materials at its own cost to the complete satisfaction of City. Notwithstanding the foregoing, in the event that the City has paid Supplier for all or a portion of the Goods which remains in the possession of Supplier, then City shall have title to, and the right to take possession of, such Goods at any time following payment therefor. Risk of loss for any Goods which remains in the possession of Supplier shall remain with Supplier until such Goods has been delivered or City

has taken possession thereof. Supplier will have risk of loss or damage to Supplier's property used in the construction of the Goods but which does not become a part of the Goods.

Section 13. INDEMNIFICATION.

A. Supplier shall defend, indemnify and hold the City, its officials, officers, employees, volunteers and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury, in law or equity, to property or persons, including wrongful death, in any manner arising out of or incident to any alleged acts, omissions, negligence or willful misconduct of Supplier, its officials, officers, employees, agents, subcontractors and subconsultants arising out of or in connection with the Goods or the performance of this Agreement, including without limitation the payment of all consequential damages and attorneys' fees and other related costs and expenses except such loss or damage which was caused by the sole negligence or willful misconduct of the City.

B. Supplier's defense obligation for any and all such aforesaid suits, actions or other legal proceedings of every kind that may be brought or instituted against the City, its officials, officers, employees, agents, or volunteers shall be at Supplier's own cost, expense, and risk. Supplier shall pay and satisfy any judgment, award, or decree that may be rendered against City or its officials, officers, employees, agents, or volunteers, in any such suit, action, or other legal proceeding. Supplier shall reimburse City and its officials, officers, employees, agents, and/or volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided.

C. Supplier's obligation to indemnify shall not be restricted to insurance proceeds, if any, received by the City, its officials, officers, employees, agents or volunteers.

Section 14. INSURANCE.

A. General. Supplier shall take out and maintain:

1. Commercial General Liability Insurance, of at least $2,000,000 per occurrence/ $4,000,000 aggregate for bodily injury, personal injury and property damage, at least as broad as Insurance Services Office Commercial General Liability most recent Occurrence Form CG 00 01;

2. Automobile Liability Insurance for bodily injury and property damage including coverage for owned, non-owned and hired vehicles, of at least $2,000,000 per accident for bodily injury and property damage, at least as broad as most recent Insurance Services Office Form Number CA 00 01 covering automobile liability, Code 1 (any auto);

3. Workers' Compensation in compliance with applicable statutory requirements and Employer's Liability Coverage of at least $1,000,000 per occurrence; and

4. Pollution Liability Insurance of at least $2,000,000 per occurrence shall be provided by the Supplier if transporting hazardous materials.

5. If Supplier is also the manufacturer of any equipment included in the Goods, Supplier shall carry Product Liability and/or Errors and Omissions Insurance which covers said equipment with limits of not less than $1,000,000.

B. Additional Insured; Primary; Waiver of Subrogation; No Limitation on Coverage. The policies required under this Section shall give City, its officials, officers, employees, agents or volunteers additional insured status on commercial general liability and automobile liability insurance with the endorsements. Such policies shall contain a provision stating that Supplier's policy is primary insurance and that any insurance, deductible, or self-insurance maintained by the City or any additional insureds shall not be called upon to contribute to any loss and shall contain or be endorsed with a waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers. The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Requirements of specific coverage or limits contained in this section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. Any available coverage shall be provided to the parties required to be named as additional insured pursuant to this Agreement.

C. Cancellation. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds

D. Insurance Carrier. All insurance required under this Section is to be placed with insurers with a current A.M. Best's rating no less than A-:VII, licensed to do business in California, and satisfactory to the City.

E. Evidence of Insurance. Supplier shall furnish City with original certificates of insurance and endorsements effecting coverage required by the Agreement. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf and shall be on forms supplied or approved by the City. All certificates and endorsements must be received and approved by the City before delivery commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

F. Subcontractors. All subcontractors shall meet the requirements of this Section before commencing work. In addition, Supplier shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated herein.

G. Freight. Supplier shall ensure that third party shippers contracted by Supplier have adequate insurance coverage for the shipped Goods.

Section 15. LIENS.

A. Supplier, subcontractors and suppliers will not make, file or maintain a mechanic's or other lien or claim of any kind or character against the Goods, for or on account of any labor, materials, fixtures, tools, machinery, equipment, or any other things furnished, or any other work done or performance given under, arising out of, or in any manner connected with the Agreement (such liens or claims referred to as "Claims"); and Supplier, subcontractor and suppliers expressly waive and relinquish any and all rights which they now have, or may subsequently acquire, to file or maintain any Claim and Supplier, subcontractor and suppliers agree that this provision waiving the right of Claims will be an independent covenant.

B. Supplier will save and hold City harmless from and against any and all Claims that may be filed by a subcontractor, supplier or any other person or entity and Supplier will, at its own expense, defend any and all actions based upon such Claims and will pay all charges of attorneys and all costs and other expenses arising from such Claims.

Section 16. TERMINATION OF AGREEMENT BY CITY.

A. Should Supplier at any time refuse or fail to deliver the Goods with promptness and diligence, or to perform any of its other obligations under the Agreement, City may terminate Supplier's right to proceed with the delivery of the Goods by written notice to Supplier. In such event City may obtain the Goods by whatever method it may deem expedient, including the hiring of another contractor or other contractors and, for that purpose, may take possession of all materials, machinery, equipment, tools, and appliances and exercise all rights, options and privileges of Supplier. In such case Supplier will not be entitled to receive any further payments until the Goods is delivered. If City's cost of obtaining the Goods, including compensation for additional managerial and administrative services, will exceed the unpaid balance of the Agreement, Supplier will be liable for and will pay the difference to City.

B. City may, for its own convenience, terminate Supplier's right to proceed with the delivery of any portion or all of the Goods by written notice to Supplier. Such termination will be effective in the manner specified in such notice, will be without prejudice to any claims which City may have against Supplier, and will not affect the obligations and duties of Supplier under the Agreement with respect to portions of the Goods not terminated.

C. On receipt of notice under Section 16.B, Supplier will, with respect to the portion of the Goods terminated, unless the notice states otherwise,

1. Immediately discontinue such portion of the Goods and the placing of orders for materials, facilities, and supplies in connection with the Goods,

2. Unless otherwise directed by City, make every reasonable effort to procure cancellation of all existing orders or contracts upon terms satisfactory to City; and

3. Deliver only such portions of the Goods which City deems necessary to preserve and protect those portions of the Goods already in progress and to protect material, plant and equipment at the Goods site or in transit to the Goods site.

D. Upon termination pursuant to Section 16.B, Supplier will be paid a pro rata portion of the compensation in the Agreement for any portion of the terminated Goods already delivered, including material and services for which it has made firm contracts which are not canceled, it being understood that City will be entitled to such material and services. Upon determination of the amount of said pro rata compensation, City will promptly pay such amount to Supplier upon delivery by Supplier of the releases of liens and affidavit, pursuant to Section 7.C.

Section 17. FORCE MAJEURE

A. Supplier shall not be held responsible for failure or delay in shipping nor City for failure or delay in accepting goods described herein if such failure or delay is due to a Force Majeure Event.

B. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters occurring at the project site; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the work); (4) pandemics, epidemics or quarantine restrictions; and (5) strikes and other organized labor action occurring at the project site and the effects thereof on the work, only to the extent such strikes and other organized labor action are beyond the control of Supplier and its subcontractors, of every tier, and to the extent the effects thereof cannot be avoided by use of replacement workers. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of the City in its capacity as a municipal authority.

C. In the event of any such excused interference with shipments, City shall have the option either to reduce the quantity provided for in the order accordingly or to exercise its right of cancellation as set forth in this Agreement.

Section 18. MISCELLANEOUS PROVISIONS.

A. Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address or at such other address as the respective parties may provide in writing for this purpose:

CITY:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Tim Masot, Parks & Maintenance Manager

SUPPLIER:

Manhole Adjusting Inc.
9500 Beverly Road
Pico Rivera, CA 90660
Attn: John Velez

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

B. Assignment or Transfer. Supplier shall not assign or transfer any interest in this Agreement whether by assignment or novation, without the prior written consent of the City, which will not be unreasonably withheld. Provided, however, that claims for money due or to become due Supplier from the City under this Agreement may be assigned to a financial institution or to a trustee in bankruptcy, without such approval. Notice of any assignment or transfer, whether voluntary or involuntary, shall be furnished promptly to the City.

C. Successors and Assigns. This Agreement shall be binding on the successors and assigns of the Parties.

D. Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

E. Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

F. Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County.

G. Attorneys' Fees and Costs. If any action in law or equity, including an action for declaratory relief, is brought to enforce or interpret the provisions of this Agreement, each Party shall pay its own attorneys' fees.

H. Interpretation. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party.

I. No Third-Party Beneficiaries. There are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

J. Authority to Enter Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right and authority to make this Agreement and bind each respective Party.

K. Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

L. Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

M. City's Right to Employ Other Suppliers. City reserves its right to employ other contractors in connection with the Goods.

N. Entire Agreement. This Agreement constitutes the entire agreement between the Parties relative to the Goods specified herein. There are no understandings, agreements, conditions, representations, warranties or promises with respect to this Agreement, except those contained in or referred to in the writing.

Exhibit A
Goods Specifications

Deliveries

The contractor shall perform all deliveries to State Facilities in a safe and professional manner. Contractor equipment shall be in good working order and all personnel shall be trained in safety measures to preclude accidents endangering the public and/or City personnel or property.

The contractor shall have adequate equipment of goods on proposed contract. The contractor shall have adequate office and personnel resources for responding to the City's needs, including telephone coverage weekdays between the hours of 7:00 AM and 5:00 PM.

Delivery of materials shall be made by the Contractor by means of "transfer end-dump deliveries"_ Alternate means of transport may be utilized subject to 48-hour advance approval of City.

Schedule of Paving Days

Upon acceptance of the Contractor's proposal, and a minimum of 90 calendar days prior to the first day on which supply and delivery of asphalt to the City is required, the City shall provide the Contractor with a schedule of paving days which will show the specific date and location(s) where supply and delivery to the City of asphalt by the contractor is required. The Schedule of Paving Days will also include the quantity of asphalt (in "tons") required by the City at each location. For the purpose of establishing a real and sincere proposal with respect to total contract quantities for specified materials, the Contractor shall refer to the "schedule of Required Materials" contained within this document.

The City reserves the right to revise the Schedule of Paving Days with respect to locations and/or quantities. Notice to the Contractor stating such revisions shall be delivered a minimum of 72 hours prior to the calendar day on which a change is being made. Revisions of this nature will not be cause for any form of additional compensation to be due to the Contractor.

Delivery shall be made only to location listed in the Schedule of Paving Days or within revisions to such, made by written authorization from City.

Required Quantities and Time/ Rate of Delivery

Pursuant to the Schedule of Paving Days, the Contractor shall provide to the City, the required tonnage(s) of asphalt delivered to the specified locations(s).

The minimum and maximum quantities of asphalt which shall be specified for supply and delivery for any given day within the Schedule of Paving Days shall be, 100 tons and 1,100 tons respectively (total for all paving locations that day). This specified quantity shall be suppled and delivered under the following terms:

A. Delivery shall commence at 8:00 AM.

B. Delivery of the total quantity of a required subject paving day by the Schedule of Paving Days shall be completed by 4:00 PM that day.

C. At its discretion, City will determine and notify the Contractor of the number of trucks and rounds required per truck for any specific paving locations a minimum of 48 hours prior to delivery.

In the event that on a day specified for supply and delivery of asphalt by the Schedule of Paving Days and within the timeframes described in section "a" and "b" above, the Contractor is unable to supply the total quantity of material requested by the City, a deduction shall be made from compensation due the Contractor within the monthly invoice pursuant to the following:

Liquidated Damages

In the event the material on this contract is delayed or not delivered in accordance with these specifications, through no fault of the City, the Contractor will be liable for direct manpower and idle equipment costs incurred by the City.

Standing Time

The City will be entitled for standing time for the purposed of unloading of not more than one half hour at no charge to the City. A charge of ($1.00) one dollar per minute shall be assessed for standing time in which the carrier equipment is detained, through no fault of the carrier, in excess of the free time. Charged time shall be supported with the appropriate documents. For payment to be processed, the standing time billing must accompany, on a separate invoice the material billing.

Start time shall begin when the carrier is ready to hook-up the paver or ready to dump, but no earlier than the requested time of arrival.

End time shall occur when carrier disconnects or is finished dumping

Exhibit B
Delivery Schedule

Item Description	Unit of Measure	Unit Price
Bulk Asphalt PG 64-10, 3/8 Fine--Delivery (Include all fees)	Per Ton	$112.00
Bulk Asphalt PG 64-10, 3/8 Fine--Will Call	Per Ton	$95.00
Bulk Asphalt PG 64-10, 1/2 --Delivery (Include all fees)	Per Ton	$112.00
Bulk Asphalt PG 64-10, School Mix -- Will Call	Per Ton	$95.00
Bulk Asphalt SC 800, Cold Mix -- Will Call	Per Ton	$110.00
3/4IN CL 2 Base	Per Ton	$0.00

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Niles Boyer Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 10

SUBJECT: A CONSTRUCTION CONTRACT WITH GRBCON, INC. FOR THE EASEMENT STORM DRAIN REPAIR PROJECT

RECOMMENDATION: That the City Council take the following actions:

A. Authorize the City Manager or his designee to execute a Construction Contract with GRBCON, Inc., of Baldwin Park, California, for the Easement Storm Drain Repair Project in the amount of $707,191;
B. Authorize a 10% contingency of $70,719 to address any unforeseen issues that may arise during the construction for a total not-to-exceed contract amount of $777,910; and
C. Authorize the City Manager or his designee to execute all documents required for the completion of the project including, but not limited to, contracts, agreements, assessments, easements, reduction of retention accounts and filing a notice of completion at the conclusion of all construction related activities.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The Fiscal Year 2023-24 Adopted Budget includes appropriations in the Capital Improvement Project Fund for easement storm drain repairs. The recommended Construction Contract with GRBCON, Inc., of Baldwin Park, California, for the Easement Storm Drain Repair Project is in the amount of $707,191 with a 10% contingency of $70,719 for a total contract amount not-to-exceed $777,910.

BACKGROUND & ANALYSIS: The proposed easement storm drain repair project involves repairing and replacing portions of existing storm drainpipes at various Citywide locations. Work includes sawcut, removal and excavation trench, removal of a portion of existing storm drain line, construction of new high-density polyethylene (HDPE) pipe, backfill using native soil, restore concrete, rock, dirt, and landscaping. Work also includes the installation of fiberglass patches, post closed-circuit television (CCTV) inspections, and related work as specified on the contract

documents.

On February 23, 2024, the City solicited bids for Bid No. 1756 Citywide Storm Drain Repairs. The bid results are listed below:

Vendor	**Location**	**Amount**
GRBCON, Inc.	Baldwin Park, CA	$707,191
Ramona, Inc.	Baldwin Park, CA	$978,000

GRBCON, Inc. located in Baldwin Park, California, was the lowest responsive bidder that met all the requirements with a cost of $707,191. Staff recommends awarding the Construction Contract to GRBCON, Inc., for the Easement Storm Drain Repair Project.

SECTION 00500 – CONTRACT FOR CONSTRUCTION

This Contract for Construction ("Contract"), No. _____is made and entered as of _____, by and between City of Ontario, with its principal place of business at 303 East "B" Street, Ontario, CA 91764, sometimes hereinafter called the "City" and GRBCON, Inc., sometimes hereinafter called "Contractor."

WITNESSETH: That the parties hereto have mutually covenanted and agreed, and by these presents do covenant and agree with each other as follows:

ARTICLE 1. SCOPE OF WORK.

The Contractor shall perform all Work within the time stipulated in the Contract, and shall provide all labor, materials, equipment, tools, utility services, and transportation to complete all of the Work required in strict compliance with the Contract Documents as specified in Article 5, below, for the following Project:

CITYWIDE STORM DRAIN REPAIRS 2024

Contractor is an independent contractor and not an agent of the City. The Contractor and its surety shall be liable to the City for any damages arising as a result of the Contractor's failure to comply with this obligation.

ARTICLE 2. TIME FOR COMPLETION.

Time is of the essence in the performance of the Work. The Work shall be commenced on the date stated in the City's Notice to Proceed. The Contractor shall complete all Work required by the Contract Documents within **160 calendar days** (inclusive of materials procurement and field construction) from the commencement date stated in the Notice to Proceed. By its signature hereunder, Contractor agrees the time for completion set forth above is adequate and reasonable to complete the Work.

ARTICLE 3. CONTRACT PRICE.

The City shall pay to the Contractor as full compensation for the performance of the Contract, subject to any additions or deductions as provided in the Contract Documents, and including all applicable taxes and costs, the sum of **Seven Hundred Thousand Seven and One Hundred Ninety-One Dollars ($707,191)**. Payment shall be made as set forth in the General Conditions. The City will pay to Contractor compensation based upon the prices set forth in the Bid Schedule.

ARTICLE 4. LIQUIDATED DAMAGES.

Contractor acknowledges that the City will sustain actual damages for each and every Day completion of the Project is delayed beyond the Contract Time. Because of the nature of the Project, it would be impracticable or extremely difficult to determine the City's actual damages. Accordingly, in accordance with Government Code section 53069.85, it is agreed that the Contractor will pay the City the sum of $1,000 for each and every calendar day of delay beyond the time prescribed in the Contract Documents for finishing the Work, as Liquidated Damages

and not as a penalty or forfeiture. In the event this is not paid, the Contractor agrees the City may deduct that amount from any money due or that may become due the Contractor under the Contract. This Section does not exclude recovery of other damages specified in the Contract Documents. Liquidated damages may be deducted from progress payments due Contractor, Project retention or may be collected directly from Contractor, or from Contractor's surety. These provisions for liquidated damages shall not prevent the City, in case of Contractor's default, from terminating the Contractor.

ARTICLE 5. COMPONENT PARTS OF THE CONTRACT.

The "Contract Documents" include the following Notice Inviting Bids:

Instructions to Bidders
Bid Forms
Bid Acknowledgement
Bid Schedule
Bid Guarantee
Designation of Subcontractors
Information Required of Bidders
Non-Collusion Declaration Form
Iran Contracting Act Certification
Public Works Contractor DIR Registration Certification
Performance Bond
Payment (Labor and Materials) Bond
Contract for Construction
General Conditions
Special Conditions
Specifications
Addenda
Construction Plans and Drawings
Standard Specifications for Public Works Construction "Greenbook", latest edition, Except Sections 1-9
Applicable Local Agency Standards and Specifications, as last revised
Reference Specifications
Approved and fully executed Change Orders
Permits

Any other documents contained in or incorporated into the Contract

The Contractor shall complete the Work in strict accordance with all of the Contract Documents.

All of the Contract Documents are intended to be complementary. Work required by one of the Contract Documents and not by others shall be done as if required by all. In the event of conflict, the various Contract Documents will be given effect in the order set forth in the General Conditions. This Contract shall supersede any prior agreement of the parties.

ARTICLE 6. PROVISIONS REQUIRED BY LAW AND CONTRACTOR COMPLIANCE.

Each and every provision of law required to be included in these Contract Documents shall be deemed to be included in these Contract Documents. The Contractor shall comply with all

requirements of applicable federal, state and local laws, rules and regulations, including, but not limited to, the provisions of the California Labor Code and California Public Contract Code which are applicable to this Work.

ARTICLE 7. INDEMNIFICATION.

Contractor shall provide indemnification and defense as set forth in the General Conditions.

ARTICLE 8. PREVAILING WAGES.

Contractor shall be required to pay the prevailing rate of wages in accordance with the Labor Code which such rates shall be made available at the City's Office or may be obtained online at http://www.dir.ca.gov and which must be posted at the job site.

ARTICLE 9. FALSE CLAIMS.

Contractor acknowledges that if a false claim is submitted to the City, it may be considered fraud and Contractor may be subject to criminal prosecution. Contractor acknowledges that the False Claims Act, California Government Code sections 12650, et seq., provides for civil penalties where a person knowingly submits a false claim to a public entity. These provisions include within their scope false claims made with deliberate ignorance of the false information or in reckless disregard of the truth or falsity of the information. In the event the City seeks to recover penalties pursuant to the False Claims Act, it is entitled to recover its litigation costs, including attorneys' fees. Contractor hereby acknowledges that the filing of a false claim may the Contractor to an administrative debarment proceeding wherein Contractor may be prevented from further bidding on public contracts for a period of up to five (5) years.

[REMAINDER OF PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, this Contract has been duly executed by the above-named parties, on the day and year above written.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Philip Marino Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 11

SUBJECT: A MAINTENANCE SERVICES AGREEMENT WITH WEST COAST ARBORIST, INC. FOR CITYWIDE TREE MAINTENANCE SERVICES

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute a Maintenance Services Agreement for Contract No. PM 2425-15 with West Coast Arborist, Inc., of Anaheim, California, to provide Citywide Tree Maintenance Services for a total contract amount not-to-exceed $11,609,505 for up to five (5) years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The recommended Maintenance Services Agreement with West Coast Arborist, Inc. is in the amount of $6,800,319 over a three-year term. Two optional one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $4,809,186 for a total contract amount not-to-exceed $11,609,505.

BACKGROUND & ANALYSIS: The City is responsible for the maintenance of approximately 60,000 trees throughout the City on parkways, parks, and medians. The Agreement includes tree trimming, tree and stump removal, tree planting, 24-hour on-call emergency services, and utilizing the West Coast Arborist Tree Inventory and Maintenance Management Tool (Arbor Access). The City utilizes a five-year planned grid-trimming cycle throughout the City along with specialized/heaver pruning on designated tree types and annual palm tree pruning in order to reduce emergency and service request responses and minimize risk to the City due to tree or limb failures.

Staff recommends awarding the Maintenance Services Agreement to West Coast Arborist, Inc. based on their 25 years of experience working in the City of Ontario and providing services that they solely provide. Access to the Arbor Access System allows IT Staff to update the system and address any questions that our Staff has at no additional charge. We receive daily reports of work completed for the day, and currently have the same Staff working in the City for over 15 years.

Exercising the option to sole source with West Coast Arborist, Inc. will allow the City to limit the

potential for higher yearly increases to the bid amounts, avoid the costs of re-bidding the contract, provide service continuity, and project future costs.

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **West Coast Arborists, Inc.**, a **Corporation** with its principal place of business at **2200 Via Burton, Anaheim, CA 92806** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Citywide Tree Maintenance Services** to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Citywide Tree Maintenance Services PM 2425-15** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024, to June 30, 2027,** unless earlier terminated as provided herein. The City shall have the unilateral option, at its sole discretion to renew this Agreement automatically for no more than **Two Additional One-Year Terms.** Contractor shall complete the Services within the term of this Agreement and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Million Eight Hundred Thousand Three Hundred Nineteen Dollars ($6,800,319**) without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Philip Marino, Urban Forestry Manager** or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **Nick Alago, Area Manager,** or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Three Thousand One Hundred Six Dollars ($3,106**) per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work

knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry,

sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees, or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary, and any premium paid by the City will be promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of

warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall

exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions, and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies, or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one-year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, "Claims") in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor's Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys' fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor's indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City's choosing and at Contractor's own cost, expense, and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents, and volunteers as part of any such claim, suit, action, or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents, and volunteers as part of any such claim, suit, action, or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents, and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be

restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

West Coast Arborists, Inc.
2200 Via Burton Street
Anaheim, CA 92806
Attn: Nick Alago, Area Manager

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Philip Marino, Urban Forestry Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims, and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative, or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate, or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings, or agreements. This Agreement may only be modified by a writing signed by both parties.

TREE TRIMMING SPECIFICATIONS

SECTION 13 - TREE TRIMMING/MAINTENANCE METHODS

13.01 Disposal of Material

Excavation material determined as unsuitable fill material by the Parks Director shall become the property of the Contractor and shall be legally disposed of outside the site of the work by and at the expense of the Contractor. The Contractor is required to recycle all green waste material generated from its operations.

13.02 Site Maintenance

(A)

Throughout the period of the contract, the Contractor shall maintain the work sites in a safe, neat and orderly condition free of all hazardous conditions, trash, debris, surplus materials and objectionable matter of any kind, all to the satisfaction of the Parks Director. All signs utilized by the Contractor shall be maintained in a graffiti free condition.

(B)

During the course of tree trimming/maintenance activities, the Contractor shall protect all existing improvements, including underground utilities, which are to remain in place within and adjacent to the right-of-way, from damage resulting from his operations. In the event that an improvement is damaged, the Contractor shall immediately notify its owner and the Parks Director of such damage, and the improvement shall immediately be restored to its original condition to the satisfaction of its owner, either by the owner or Contractor, at the option of the owner, at the Contractor's expense.

(C)

At the completion of the contract activities, the Contractor shall clean up the site of the work and leave it in a neat and orderly condition free from trash, debris and excess construction materials and other objectionable matter, all to the satisfaction of the City.

14.06 Cleaning Equipment

Shall be power brooms, power blowers, air compressors, water flushing equipment, and hand brooms suitable for cleaning the surface, gutters and sidewalks to remove loose wood chips, grass and other debris upon operation of tree trimming/maintenance operations.

14.07 Pruning Standards and Specifications

1. All trees shall be given a complete trim (see specifications for "Complete Trim").

2. All work shall conform to the attached 1988 Pruning Standards of the Western Chapter ISA and these specifications. In all cases, the City's representative shall have complete and sole discretion in determining conformance and acceptability of trees trimmed by the Contractor. Trimmed trees rejected by the City's representative shall be excluded from payment.

3. Contractor shall comply with Standards of CAL OSHA and the American National Standard Institute, Z133.1-1988 Safety Requirements.

4. Contractor shall provide and post "No Parking" signs 48 hours in advance of work.

5. The Contractor shall endeavor to maintain good public relations at all times. The work shall be conducted in a manner which will cause the least possible interference and annoyance to the public. Work shall be performed by competent employees and supervised by an experienced, English speaking supervisor in tree trimming operations. The Contractor shall be responsible for advance notification to the residents at each work location of the intended tree operations. The Contractor shall be responsible to see that private property and vehicles at work locations are not endangered or damaged during the course of work. Illuminated arrow boards, sign stands, delineators and/or cones shall be used to identify work site for vehicular and pedestrian safety.

3. Prune end branches to lighten end weight where such overburden appears likely to cause breakage of limbs. Remove cross limbs, water sprouts and suckers. Perform crown reduction to ISA Specifications to approximately a 25 percent reduction in total crown size.

4. All trees on which vines are growing shall have said vines removed. Vine tendrils shall be removed in a manner which will not injure trees or cause scaring of low branches and tree trunks.

14.09 Specifications for Palm Tree Trimming

1. Standard trim; remove all dead and live fronds so that the remaining healthy fronds are existing at an upward 80 degree angle in relation to a horizontal plane at the head of the palm tree. All frond sheaths shall be removed along the entire length of the tree.

14.10 Tree and Tree Stump Removal

1. Type of Work: Provide complete tree removal and stump removal.

2. Specifications for tree removal:

   A. Removal of entire tree, stump remaining shall be no higher than four (4) inches above soil grade and shall be removed within 30 days after tree removal.

   B. Work shall begin within 10 days after each request and be diligently pursued until completion. A job completion date will be given to contractor when requests are given.

   C. Contractor shall make all arrangements necessary to have power or utility lines temporarily disconnected if necessary for the safe removal of the tree.

   D. When the removal requires special or additional means, there shall be no additional units or overall cost to the City without the authorization of Parks Director.

14.14 Pictures

Contractor is to supply representative of "Before and After" trimming that are suitable for reproduction when requested by the City.

14.15 Public Convenience and Traffic Control

Traffic control is paramount to the successful completion of tree maintenance trimming operations.

The Contractor shall have the responsibility to provide adequate safety work zones for his employees and the public. Traffic control shall be approved by the Parks Director, his designated representative or the Engineering Department prior to commencing work each day.

(A)
The Work Area Traffic Control Handbook (W.A.T.C.H.), 1990 Edition, shall be the reference document for establishing traffic control and detours for this project.

(B)
Legal "No Parking Tow Away Zone" signs, bearing the wording by order of the Police Department with specific dates and time frames shall be supplied and posted along each route by the contractor 48 hours prior to the start of work. Signs shall be posted at all intersections, at the end of all cul-de-sacs and on each side of the street at a maximum of 200 feet between signs. Signs may be attached to existing street light standards and traffic control sign posts, but will not be allowed to be attached to mail boxes. When necessary, the contractor shall furnish temporary posts.

(C)
The Contractor shall supply and post signs at each entrance to a tree trimming/maintenance location to warn motorists of possible safety or property damage hazards. These signs shall be of sufficient size and shall be mounted in such a way to be readable for traffic conditions.

(D)
Traffic flow must be maintained at all times and businesses must have access to customers at all times. At the discretion of the Parks Director, tree trimming/maintenance operations may be required to be performed on Fridays and Saturdays.

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this _____ day of _____, 20__.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Tim Masot Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 12

SUBJECT: A MAINTENANCE SERVICES AGREEMENT WITH UNITED STORM WATER, INC. FOR CITYWIDE STORM DRAIN MAINTENANCE SERVICES

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute a Maintenance Services Agreement for Contract No. SM-2425 with United Storm Water, Inc., of Industry, California, to provide citywide Storm Drain Maintenance Services for a total contract amount not-to-exceed $640,290 for up to three years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)
Ensure the Development of a Well Planned, Balanced, and Self-Sustaining Community in Ontario Ranch

FISCAL IMPACT: The recommended contract award to United Storm Water, Inc., is for $580,290 plus urgency services in an amount of $60,000 for a total not-to-exceed contract amount of $640,290 over the three-year term. If approved, appropriations will be included in future Annual Budgets to City Council for approval as needed for Citywide Storm Drain Maintenance Services.

BACKGROUND & ANALYSIS: The City maintains 673,496 linear feet of storm drains citywide. In order to keep the storm drain system operational, the catch basins must be serviced regularly. In April 2024, the City solicited bids for Bid No. 1771 Storm Drain Maintenance Services. Two bids were received that met the bid criteria and standards necessary to perform this work. The bid results are listed below:

Vendor	Location	Amount
United Storm Water, Inc.	Industry, CA	$580,290
Downstream Services, Inc.	Escondido, CA	$1,490,582

United Storm Water, Inc., of Industry, California, submitted a bid that met all the required specifications with a total contract cost of $580,290 over a three-year term. Based on the proposal, credentials, pricing, and favorable reference checks, Staff recommends awarding the Maintenance Services Agreement to United Storm Water, Inc.

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **United Storm Water, Inc.,** a **Corporation**, with its principal place of business at **14000 Valley Blvd., Industry, CA 91746** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Storm Drain Maintenance Services** to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Storm Drain Maintenance Services SM-2425** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027**, unless earlier terminated as provided herein. Contractor shall complete the Services within the term of this Agreement and shall meet any other established schedules and deadlines. The

Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Five Hundred Eighty Thousand Two Hundred Eighty-Nine Dollars and Fifty Cents ($580,289.50)** without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and Supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income

tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Tim Masot, Parks and Maintenance Manager** or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **Lydia Perry, Secretary/Treasurer**, or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to

the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Two Hundred Sixty Five Dollars with Zero Cents ($265)** per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to

immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer, and it shall not discriminate against any subcontractor, employee, or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees, and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and

policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary, and any premium paid by the City will be

promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient, or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The

surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions, and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies, or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one-year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been

transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify, and hold the City, its elected officials, officers, employees, and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify, and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, “Claims”) in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor’s Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys’ fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor’s indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City’s choosing and at Contractor’s own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such

claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents, and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

United Storm Water, Inc.
14000 Valley Blvd
Industry, CA 91746
Attn: Lydia Perry, Secretary/Treasurer

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Tim Masot, Parks and Maintenance Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this

Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

PERFORMANCE/PAYMENT BONDS ON THE NEXT PAGE

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Cynthia Heredia-Torres Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Andrea Ampig Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 13

SUBJECT: AWARD A CONSTRUCTION CONTRACT TO AWI BUILDERS, INC. FOR THE FIRE ADMINISTRATION BUILDING

RECOMMENDATION: That the City Council take the following actions:

A. Reject S.J. Amoroso Construction Co., LLC's bid for the Fire Administration Building project as being non-responsive, and
B. Authorize the City Manager or his designee to execute a Construction Contract with AWI Builders, Inc., of Burbank, California, to provide construction services for the D&C21-001A New Fire Administration Building in the amount of $31,665,595, and
C. Authorize a 15% contingency of $4,749,840, for a total not-to-exceed contract amount of $36,415,435; and
D. Authorize the City Manager or his designee to execute all documents required for the completion of the project including, but not limited to, contracts, agreements, assessments, easements, reduction of retention accounts, and filing a notice of completion at the conclusion of all construction related activities.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The recommended Agreement with AWI Builders, Inc. is in the amount of $31,665,595 plus a 15% contingency of $4,749,840, for a total not-to-exceed contract amount of $36,415,435. The Fiscal Year 2023-24 Adopted Budget includes partial appropriations in the Capital Projects Fund for the Fire Administration Building project. If approved, additional appropriations in the Capital Projects Fund will be requested at a future quarterly budget update.

BACKGROUND & ANALYSIS: The new Fire Administration Building will be located at the southeast corner of Francis Street and Parco Avenue collocated with Fire Station 3 and the Fire Training Center. The construction will consist of a three-story, 32,062 sq. ft, type II-B building, with associated on-site and off-site improvements. The Fire Administration Building will serve as the new

headquarters for the Ontario Fire Department which will house approximately 50 Fire Department employees and include an Emergency Operations Center and Fire Emergency Dispatch Center.

On April 30, 2024, five bids were received for Bid No. 1778 - D&C21-001A New Fire Administration Building. The bids ranged from $31,587,000 to $35,346,000. The bids are summarized below:

Bidder	Location	Amount
S.J. Amoroso Construction Co., LLC	Redwood City, CA	$31,587,000
AWI Builders, Inc.	Burbank, CA	$31,665,595
AMG & Associates, Inc.	Santa Clarita, CA	$33,185,000
Royal Construction Corp	Arcadia, CA	$34,385,000
Morillo Construction, Inc.	Pasadena, CA	$35,346,000

During Staff's review of S.J. Amoroso Construction Co., LLC's (S.J. Amoroso) bid, it was revealed that S.J. Amoroso failed to submit a complete package in accordance with the project specifications, which rendered their bid non-responsive. Based on S.J. Amoroso's failure to adhere to the project specifications, Staff recommends the City Council reject the bid submitted by S.J. Amoroso as non-responsive and award the contract to AWI Builders, Inc., as the lowest responsible bidder submitting a responsive bid that met all the required specifications, credentials, pricing, favorable reference checks, ability to perform the work in a timely manner, and their successful completion of this type of work in the past.

CONTRACT FOR CONSTRUCTION

This Contract for Construction ("Contract"), No. _____ is made and entered as of _____, by and between City of Ontario, with its principal place of business at 303 East "B" Street, Ontario, CA 91764, sometimes hereinafter called the "City" and AWI Builders, Inc, sometimes hereinafter called "Contractor."

WITNESSETH: That the parties hereto have mutually covenanted and agreed, and by these presents do covenant and agree with each other as follows:

ARTICLE 1. SCOPE OF WORK.

The Contractor shall perform all Work within the time stipulated in the Contract, and shall provide all labor, materials, equipment, tools, utility services, and transportation to complete all of the Work required in strict compliance with the Contract Documents as specified in Article 5, below, for the following Project:

D&C21-001A Fire Administration Building

Contractor is an independent contractor and not an agent of the City. The Contractor and its surety shall be liable to the City for any damages arising as a result of the Contractor's failure to comply with this obligation.

ARTICLE 2. TIME FOR COMPLETION.

Time is of the essence in the performance of the Work. The Work shall be commenced on the date stated in the City's Notice to Proceed. The Contractor shall complete all Work required by the Contract Documents within **600** calendar days from the commencement date stated in the Notice to Proceed. By its signature hereunder, Contractor agrees the time for completion set forth above is adequate and reasonable to complete the Work.

ARTICLE 3. CONTRACT PRICE.

The City shall pay to the Contractor as full compensation for the performance of the Contract, subject to any additions or deductions as provided in the Contract Documents, and including all

applicable taxes and costs, the sum of THIRTY-ONE MILLION SIX HUNDRED SIXTY FIVE THOUSAND FIVE HUNDRED NINETY FIVE Dollars ($31,665,595). Payment shall be made as set forth in the General Conditions. The City will pay to Contractor compensation based upon the prices set forth in the Bid Schedule.

ARTICLE 4. LIQUIDATED DAMAGES.

Contractor acknowledges that the City will sustain actual damages for each and every Day completion of the Project is delayed beyond the Contract Time. Because of the nature of the Project, it would be impracticable or extremely difficult to determine the City's actual damages. Accordingly, in accordance with Government Code section 53069.85, it is agreed that the Contractor will pay the City the sum of **$2700** for each and every calendar day of delay beyond the time prescribed in the Contract Documents for finishing the Work, as Liquidated Damages and not as a penalty or forfeiture. In the event this is not paid, the Contractor agrees the City may deduct that amount from any money due or that may become due the Contractor under the Contract. This Section does not exclude recovery of other damages specified in the Contract Documents. Liquidated damages may be deducted from progress payments due Contractor, Project retention or may be collected directly from Contractor, or from Contractor's surety. These provisions for liquidated damages shall not prevent the City, in case of Contractor's default, from terminating the Contractor.

ARTICLE 5. COMPONENT PARTS OF THE CONTRACT.

The "Contract Documents" include the following:

Notice Inviting Bids
Instructions to Bidders
Bid Forms
Bid Acknowledgement
Bid Schedule
Bid Guarantee
Designation of Subcontractors
Information Required of Bidders
Non-Collusion Declaration Form
Iran Contracting Act Certification
Public Works Contractor DIR Registration Certification
Performance Bond
Payment (Labor and Materials) Bond
Contract for Construction
General Conditions
Special Conditions
Specifications
Addenda
Construction Plans and Drawings
Standard Specifications for Public Works Construction "Greenbook", latest edition, Except Sections 1-9
Applicable Local Agency Standards and Specifications, as last revised
Reference Specifications
Approved and fully executed Change Orders
Permits
Any other documents contained in or incorporated into the Contract

The Contractor shall complete the Work in strict accordance with all of the Contract Documents.

All of the Contract Documents are intended to be complementary. Work required by one of the Contract Documents and not by others shall be done as if required by all. In the event of conflict, the various Contract Documents will be given effect in the order set forth in the General Conditions. This Contract shall supersede any prior agreement of the parties.

ARTICLE 6. PROVISIONS REQUIRED BY LAW AND CONTRACTOR COMPLIANCE.

Each and every provision of law required to be included in these Contract Documents shall be deemed to be included in these Contract Documents. The Contractor shall comply with all requirements of applicable federal, state and local laws, rules and regulations, including, but not limited to, the provisions of the California Labor Code and California Public Contract Code which are applicable to this Work.

ARTICLE 7. INDEMNIFICATION.

Contractor shall provide indemnification and defense as set forth in the General Conditions.

ARTICLE 8. PREVAILING WAGES.

Contractor shall be required to pay the prevailing rate of wages in accordance with the Labor Code which such rates shall be made available at the City's Office or may be obtained online at http://www.dir.ca.gov and which must be posted at the job site.

ARTICLE 9. FALSE CLAIMS.

Contractor acknowledges that if a false claim is submitted to the City, it may be considered fraud and Contractor may be subject to criminal prosecution. Contractor acknowledges that the False Claims Act, California Government Code sections 12650, et seq., provides for civil penalties where a person knowingly submits a false claim to a public entity. These provisions include within their scope false claims made with deliberate ignorance of the false information or in reckless disregard of the truth or falsity of the information. In the event the City seeks to recover penalties pursuant to the False Claims Act, it is entitled to recover its litigation costs, including attorneys' fees. Contractor hereby acknowledges that the filing of a false claim may the Contractor to an administrative debarment proceeding wherein Contractor may be prevented from further bidding on public contracts for a period of up to five (5) years.

[REMAINDER OF PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, this Contract has been duly executed by the above-named parties, on the day and year above written.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Cynthia Heredia-Torres Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Andrea Ampig Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 14

SUBJECT: **AN AMENDMENT TO THE ARCHITECTURAL DESIGN SERVICES AGREEMENT WITH PBK ARCHITECTS, INC. FOR FIRE STATION NO. 1 AND THE FIRE ADMINISTRATION BUILDING**

RECOMMENDATION: That the City Council authorize the City Manager or designee to execute Amendment No. 2 to the Architectural Design Services Agreement with PBK Architects, Inc., of Rancho Cucamonga, California, to provide additional architectural design of Fire Station No. 1 and Fire Administration Building in the amount of $70,720 for a total not-to-exceed contract amount of $3,759,720 and extend the agreement to June 30, 2026.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The proposed amendment to the Architectural Design Services Agreement with PBK Architects, Inc. for additional architectural design of Fire Station No. 1 and Fire Administration Building is in an amount of $70,720 for a total not-to-exceed contract amount of $3,759,720. The Fiscal Year 2023-24 Adopted Budget includes appropriations in the Capital Projects Fund for these services.

BACKGROUND & ANALYSIS: As part of the City's ongoing efforts to maintain a high level of public safety and invest in the City's infrastructure, Fire Station No. 1 and Fire Administration Building were identified as facilities in need of renovation. On July 21, 2020, the City Council awarded the Architectural Design Services Agreement for the design of Fire Station No. 1 and the new Fire Administration Building to PBK Architects, Inc. While in the process of creating the plans for the project, additional services were required in order to incorporate necessary changes that included the design of the emergency radio responding equipment and emergency water supply system at the Fire Administration Building, and path of travel and storm drain revisions at Fire Station No. 1.

AMENDMENT NO. 2 TO THE ARCHITECTURAL DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ONTARIO AND PBK ARCHITECTS, INC.

1. Parties and Date.

This Amendment No. 2 to the Agreement (as defined herein) is made and entered as of _____, by and between the City of Ontario ("City") and PBK Architects, Inc., a CORPORATION (Consultant). City and Consultant are sometimes individually referred to as "Party" and collectively as "Parties."

2. Recitals.

2.1 Agreement. The City and Consultant have entered into an agreement entitled "Architectural Design Services Agreement" dated July 21, 2020 ("Agreement").

2.2 Amendment Purpose. The City and Consultant desire to amend the Agreement for new end date June 30, 2026, and revise the scope of services by adding design services to the D&C21-001 New Fire Station 01 and Fire Administration Building project increasing the agreement amount by $70,720 for a new total not to exceed amount of $3,759,720. The Parties have heretofore entered into Amendment No. 1 dated February 16, 2021.

2.3 Amendment Authority. This Amendment No. 2 is authorized pursuant to Section 3.37 of the Agreement.

3. Terms.

3.1 Amendment. Section 3.1.2, 3.8.2 and 3.10.1 of the Agreement is hereby amended in its entirety to read as follows:

> "3.1.2 Term. The term of this Agreement shall be from **June 30, 2023,** to **June 30, 2026**, unless earlier terminated as provided herein. Consultant shall complete the Services within the term of this Agreement and shall meet any other established schedules and deadlines."

"3. 8.2 Definition. As used herein, "Additional Services" mean: (1) any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary for the Consultant to perform at the execution of this Agreement; or (2) any work listed as Additional Services in Attachment "A" attached hereto. Consultant shall not perform, nor be compensated for, Additional Services without prior written authorization from City and without an agreement between the City and Consultant as to the compensation to be paid for such services. City shall pay Consultant for any approved Additional Services, pursuant to the compensation ,provisions herein, so long as such services are not made necessary through the fault of Consultant pursuant to the indemnification provision of this Agreement.

"3. 10. 1 Consultant's Compensation for Basic Services. City shall pay to Consultant, for the performance of all Services rendered under this Agreement, the total not to exceed amount of **Three Million Seven Hundred Fifty-Nine Thousand and Seven Hundred Twenty Dollars ($3,759,720)** (Total Compensation"). This Total Compensation amount shall be based upon, and may be adjusted according to, the fee schedule and related terms and conditions attached hereto as Exhibit " B" and incorporated herein by reference. The Total Compensation, as may be adjusted upon mutual agreement, shall constitute complete and adequate payment for Services under this Agreement."

Exhibit B is hereby deleted in its entirety and replaced with Attachment A attached hereto and incorporated herein by reference.

3.2 Continuing Effect of Agreement. Except as amended by this Amendment No. 2, all other provisions of the Agreement remain in full force and effect and shall govern the actions of the parties under this Amendment No. 2. From and after the date of this Amendment No. 2, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this Amendment No. 2.

3.3 Adequate Consideration. The Parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment No. 2.

3.4 Severability. If any portion of this Amendment No. 2 is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.5 Integration. This Amendment represents the entirety of the Parties' understanding relating to the subject of this Amendment, including written or verbal communications between the Parties, which shall have no relevance unless expressly incorporated herein. This is an integrated amendment.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Tim Masot Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Andrea Ampig Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 15

SUBJECT: A MAINTENANCE SERVICES AGREEMENT WITH CMAX COMMERCIAL MAINTENANCE, INC. FOR CITYWIDE STREET SWEEPING SERVICES

RECOMMENDATION: That the City Council authorize the City Manager, or his designee, to execute a Maintenance Services Agreement for Citywide Street Sweeping Services with CMAX Commercial Maintenance, Inc. (CMAX), of Ontario, California, for a total contract amount not-to-exceed $66,412,963 for up to 15 years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The recommended contract award to CMAX is in an annual amount of $3,486,444 plus $104,593 for urgency services for a total contract amount of $3,591,037. With the 3% Consumer Price Index (CPI) increase each year, the total contract amount is $18,510,002 plus urgency services of $522,965, for a total not-to-exceed contract amount of $19,032,969 over a five-year term. At the City's discretion, two (2) additional five-year extensions may be exercised. Should the City exercise the two (2) five-year extensions, the total contract amount over 15 years would be $64,844,063 plus urgency services of $1,568,900 for a total contract amount not-to-exceed $66,412,963. Contracting for the five-year period allows the City to limit the potential for yearly increases to the bid amounts, avoid the cost of re-bidding the contract annually, provide services continuity, and project future cost. If approved, appropriations will be included in future Annual Budgets to City Council for approval as needed for Citywide Street Sweeping Services.

BACKGROUND & ANALYSIS: The City of Ontario has a total of 64,852 curb miles swept annually and is projected to grow due to the development in the Ontario Ranch area. The goal of the street sweeping program is to provide economical services that sustain and restore City streets to maintain a clean and safe environment. Street sweeping is an essential service that removes debris from streets and gutters, keeping pollutants from entering the City's storm drains which can cause water contamination and flooding during heavy rains. Street sweeping is a requirement of the state and federal National Pollutant Discharge Elimination System (NPDES) and the City's Municipal Separate Storm Sewer System (MS4) permit.

Ontario Municipal Code Section 2-6.14 (a) states Maintenance Services Agreements may be awarded based on a best value selection. In March 2024, the City solicited quotes for Citywide Street Sweeping Services. Two (2) quotes were received that met the criteria and standards necessary to perform this work. CMAX, of Ontario, California, submitted the lowest responsible quote with $53.76 per curb mile. The agreement will require CMAX to adhere to all laws pertaining to the street sweeping services including labor laws as established by the California Division of Occupational Safety and Heath (Cal/OSHA), California Labor Code, California Code of Regulations, and more specifically, labor laws as established by the Department of Industrial Relations pertaining to Prevailing Wage.

After a thorough evaluation process, CMAX and City Staff have agreed to several key contract terms including the curb mile rate, number of street sweeper vehicles servicing the City, method of street sweeping debris disposal, and having a full-time Operations Supervisor. Services in the proposed agreement include weekly street sweeping services on residential and industrial areas, alleyways, and various city parking lots and facilities.

CITY MANAGER

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **CMAX Commercial Maintenance, Inc.**, a CORPORATION with its principal place of business at **316 N. Corona Ave., Ontario, CA 91764** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Citywide Street Sweeping Services** services to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Citywide Street Sweeping Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024, to June 30, 2029**, unless earlier terminated as provided herein. The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **Two Additional Five-Year Terms**. Contractor shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Eighteen Million Five Hundred Ten Thousand and Two Dollars ($18,510,002)** without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under

Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates Tim Masot, Parks and Maintenance Manager, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates Frank Gutierrez, President , or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the

Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance.

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of Five Hundred Seven Dollars ($507) per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including

in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive

adequate training, as determined by City, regarding the requirements of the laws, regulations and policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be

promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The

surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been

transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, “Claims”) in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor’s Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys’ fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor’s indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City’s choosing and at Contractor’s own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such

claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:
CMAX Commercial Maintenance, Inc.
316 N. Corona Ave.
Ontario, CA 91764
Frank Gutierrez, President

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Tim Masot, Parks and Maintenance Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease

of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this _____ day of _____, 20__.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Fire Department Prepared By: Nereida Medrano Staff Member Presenting: Mike Gerken, Fire Chief Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 16

SUBJECT: AUTHORIZE THE PURCHASE OF A LIVE FIRE SIMULATOR PROP WITH DRAEGER, INC. FOR THE ONTARIO FIRE DEPARTMENT

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute the purchase of a live fire simulation prop from Draeger, Inc., of Telford, PA, in an amount not-to-exceed $728,262.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety

FISCAL IMPACT: The agreement for the purchase of the live fire simulation prop is for $662,056, plus a 10% contingency of $66,206 for a total not-to-exceed $728,262. Appropriations for the live fire simulation prop will be included in the Fiscal Year 2024-25 Proposed Budget.

BACKGROUND & ANALYSIS: The Ontario Fire Department is dedicated to providing an exceptionally high level of customer service, a direct result of consistent high-quality training of its personnel. This commitment to training has been instrumental in making the Department one of the most competent and capable Departments in the state. In 2012, the Ontario Fire Department assembled a Fire Control Team to become subject matter experts and deliver such training in accordance with National Fire Protection Association (NFPA) 1403: Standard on Live Fire Training Evolutions. While the construction of the training tower at the Fire Training Center has addressed some of the facility needs, its masonry construction has temperature limitations which prohibits the Fire Control Team from training Staff under realistic conditions.

Due to the age and condition of the current live fire simulation prop from years of training and outdated capacity, it is no longer capable of delivering the required training without sustaining irreparable damage. Therefore, Staff recommends the purchase of new props to replace the current prop and position the Department for successful training under current industry standards.

Because this is a very specific form of training equipment not typically manufactured in mass production, Staff consulted with other fire departments in the region of similar size and capability to source potential vendors to construct the desired product. As a result, Draeger, Inc. of Telford, PA, was determined to be the vendor of choice, specifically delivering the Draeger Swede Survival

Phase 5 system. This structural training prop is capable of creating and repeating a live fire training environment which most accurately represents modern structure firefighting challenges. Additionally, the Phase 5 system provides realistic live fire training environments for Staff to meet the NFPA 1403 requirement including attic fire attacks, basement fire attacks, and simulating fire attacks which require varying venting strategies. Due to structural limitations of the existing prop, these tactics cannot be adequately trained for by staff. Ultimately, the realistic environments created in this prop will best prepare Ontario firefighters for what they may encounter on the job.

After reviewing the proposal received from Draeger, Inc. of Telford, PA, Staff recommends the sole source purchase of the Live Fire Simulation Prop (Swede Survival Phase V and Training System) from Draeger, Inc. in the amount of $662,056, plus a 10% contingency of $66,206 for a total not-to-exceed of $728,262, which is inclusive of construction, installation, and initial training at the Ontario Fire Department Training Center.

CITY OF ONTARIO
GOODS AND SERVICES AGREEMENT

CITY OF ONTARIO
GOODS & SERVICES AGREEMENT

This Agreement is made and entered into as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Draeger, Inc.**, a **Corporation** with its principal place of business at **3135 Quarry Road Telford, PA 18969** ("Vendor"). City and Vendor are sometimes individually referred to as "Party" and collectively as "Parties" in this Agreement.

RECITALS

A. Vendor desires to perform and assume responsibility for the provision of certain services and goods required by the City on the terms and conditions set forth in this Agreement. Vendor represents that it is experienced in providing similar services and goods to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the services in the State of California and that is familiar with and understands the needs of City.

B. City desires to engage Vendor to sell to City the materials and/or equipment and/or render such services as more particularly described in this Agreement.

TERMS

1. SCOPE OF SERVICES.

1.1 General Scope of Services. Vendor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the **Purchase and Delivery of Live Fire Simulator Prop** services ("Services") which are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

1.2 Goods. Vendor agrees to sell to City and City agrees to purchase the materials and/or equipment ("Goods") as specified and per the specifications attached hereto and

incorporated herein as Exhibit "A." Unless specifically stated otherwise, the Goods shall be new and unused and of the current production year.

2. TERM.

2.1 The term of this Agreement shall be from **April 5, 2024** to **July 31, 2025**, unless earlier terminated as provided herein. Vendor shall provide all Goods and complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the work.

3. FEES AND PAYMENTS.

3.1 Compensation. Vendor shall receive compensation, including authorized reimbursements, for all Goods provided and Services rendered under this Agreement at the rates set forth in Exhibit "A" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Sixty-Two Thousand Fifty-Six Dollars** (**$662,056**) without written approval of City's **City Manager.** Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2 Payment of Compensation. Vendor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Vendor and Goods provided. The statement shall describe the amount of Services and Goods provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all non-disputed and approved charges thereon.

3.3 Reimbursement for Expenses. Vendor shall not be reimbursed for any expenses unless authorized in writing by City.

3.4 Extra Work. At any time during the term of this Agreement, City may request that Vendor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Goods and Services, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Vendor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

4. RESPONSIBILITIES OF VENDOR.

4.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Vendor or under its supervision. Vendor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Vendor on an independent contractor basis and not as an employee. Vendor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Vendor shall also not be employees of City and shall at all times be under Vendor's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of Vendor or any of Vendor's officers, employees or agents, except as set forth in this Agreement. Vendor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of providing Goods and Services under this Agreement and as required by law. Vendor shall be responsible for all reports and obligations respecting such

additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

4.2 Schedule of Services.

4.2.1 Vendor shall perform the Services and provide Goods expeditiously, within the term of this Agreement, and in accordance with the Schedule of Goods and Services set forth in Exhibit "A" attached hereto and incorporated herein by reference ("Performance time"). Upon request of City, Vendor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Goods and Services. Vendor agrees that if the Goods are not provided and/or the Services are not completed within the Performance Time, it is understood, acknowledged and agreed that the City will suffer damage.

4.2.2 Neither City nor Vendor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Vendor and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this Section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Agreement.

4.2.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Vendor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

4.3 Conformance to Applicable Requirements. All work prepared by Vendor shall be subject to the approval of City.

4.4 Acceptance. The Goods shall be received subject to City's inspection and right of rejection. The Goods shall not be considered accepted until inspection, testing and/or use of the Goods is found to be in accordance with the City's specifications. Final inspection of the Goods shall be at the location specified herein, unless otherwise agreed in writing. If the Goods are found at any time to be defective in material or workmanship, or otherwise not in conformance with specifications, City shall have the right, in addition to any other rights which it may have under warranties or otherwise, to reject such Goods in whole or in part. Rejected Goods shall be held at Vendor's risk for a reasonable time thereafter and shall be returned or disposed of at Vendor's expense. No rejected Goods shall be replaced by Vendor without written instruction or authorization from City.

4.5 Coordination of Services. Vendor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

4.6 Standard of Care; Performance of Employees. Vendor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Vendor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Vendor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Vendor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City business license, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Vendor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Vendor's failure to comply with the standard of care provided for herein. Any employee of the Vendor or its sub-Vendors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Services, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed by the Vendor and shall not be re-employed to perform any of the Services provided under this Agreement.

4.7 Warranty. In addition to all warranties which may be provided by law, Vendor warrants that the Goods delivered hereunder shall, (a) be free from defect of material or workmanship and conform strictly to the specifications, drawings, or sample specified or furnished; (b) conform to drawings, plans, specifications, samples or other descriptions furnished, specified, accepted or approved by City; and (c) be merchantable and fit for the purposes intended. The warranty shall be for a period of one (1) year, or such longer period as provided by a manufacturer's warranty or as agreed to by Vendor and City, from the date of final written acceptance of the Goods by City. This warranty shall survive any inspection, delivery, acceptance, or payment by City of the Goods. Vendor, at its own expense, shall repair or replace, at the option of City, any defective Goods within two (2) business days after receipt of notice from City or within four (4) hours in case of emergency, as determined by City. Vendor also warrants that the Goods are free and clear of all liens and encumbrances whatsoever, that Vendor is conveying good and marketable title to same, and that Vendor owns or has a valid license for all of the proprietary technology and intellectual property incorporated within the Goods. Vendor agrees to indemnify, defend and hold City harmless against any and all third party claims resulting from the breach or inaccuracy of any of the foregoing warranties.

4.8 Reserved.

4.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Vendor may be required to do, or respecting the size of any payment to Vendor during the performance of this Contract, Vendor shall continue to perform the Work while said dispute is decided by the City. If Vendor disputes the City's decision, Vendor shall have such remedies as may be provided by law.

4.10 Laws and Regulations; Employee/Labor Certifications. Vendor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting its performance under this Agreement, including all Cal/OSHA

requirements, and shall give all notices required by law. Vendor shall be liable for all violations of such laws and regulations in connection with this Agreement. If the Vendor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Vendor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Vendor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

4.10.1 Employment Eligibility; Vendor. By executing this Agreement, Vendor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Vendor. Vendor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Vendor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Vendor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Vendor's compliance with the requirements provided for in Section 4.10 or any of its sub-sections.

4.10.2 Employment Eligibility; Subcontractors, and Consultants. To the same extent and under the same conditions as Vendor, Vendor shall require all of its subcontractors, and consultants performing any work relating to this Agreement to make the same verifications and comply with all requirements and restrictions provided for herein.

4.10.3 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Vendor verifies that they are a duly authorized officer of Vendor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Vendor or its subcontractors, or consultants to meet any of the requirements provided for in Sections 4.10.1 or 4.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Vendor under Section 4.10.2); or (3) failure to immediately remove from this contract any person found not to be in compliance with such requirements.

4.10.4 Labor Certification. By its signature hereunder, Vendor certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Workers' Compensation or to undertake self-insurance

in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

4.10.5 Equal Opportunity Employment. Vendor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Vendor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

4.10.6 Air Quality. Vendor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Vendor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Vendor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Vendor, its subcontractors, or others for whom Vendor is responsible under its indemnity obligations provided for in this Agreement.

4.10.7 Water Quality.

4.10.7.1 Management and Compliance. To the extent applicable, Vendor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Santa Ana Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

4.10.7.2 Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Vendor or City to penalties, fines, or additional regulatory requirements. Vendor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Vendor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole negligence or willful misconduct of the City, its officials, officers, agents, employees or authorized volunteers.

4.10.7.3 Training. In addition to any other standard of care requirements set forth in this Agreement, Vendor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Vendor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and policies described in this Section

as they may relate to the Services provided under this Agreement. Upon request, City will provide Vendor with a list of training programs that meet the requirements of this paragraph.

5. PROJECT MANAGEMENT

5.1 City's Representative. The City hereby designates **Brian McFarlane, Deputy Fire Chief**, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement. Vendor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

5.2 Vendor's Representative. Vendor hereby designates **Matt Luchetta**, **Engineered Solutions Product Specialist**, or his or her designee, to act as its representative for the performance of this Agreement ("Vendor's Representative"). Vendor's Representative shall have full authority to represent and act on behalf of the Vendor for all purposes under this Agreement. The Vendor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all work required under this Agreement.

6. INSURANCE.

6.1 Time for Compliance. Vendor shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Vendor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

6.2 Minimum Requirements. Vendor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Vendor, its agents, representatives, employees or subcontractors. Vendor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

6.2.1 Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

6.2.2 Minimum Limits of Insurance. Vendor shall maintain limits no less than: (1) *General Liability:* **$2,000,000 MINIMUM** per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* **$2,000,000 MINIMUM** per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers'

Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of **$1,000,000** per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

6.2.3 Manufacturer of Goods. If Vendor is also the manufacturer of any equipment included in the Goods, Vendor shall carry Product Liability and/or Errors and Omissions Insurance which covers said equipment with limits of not less than $1,000,000.

6.2.4 Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Vendor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be promptly reimbursed by Vendor or the City may withhold amounts sufficient to pay premium from Vendor payments. In the alternative, the City may suspend or terminate this Agreement.

6.2.5 Additional Insured. The City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Vendor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

6.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Vendor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

6.3.1 General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Vendor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Vendor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Vendor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 6.2.2, any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 6.3.1.

6.3.2 Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation,

maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Vendor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Vendor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 6.2.2, any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 6.3.2.

6.3.3 Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Vendor.

6.3.4 All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

6.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Vendor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Vendor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

6.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Vendor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Vendor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

6.6 Subcontractor Insurance Requirements. Vendor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance

required under this Section. If requested by Vendor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Vendor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

6.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

6.8 Verification of Coverage. Vendor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

6.9 Reporting of Claims. Vendor shall report to the City, in addition to Vendor's insurer, any and all insurance claims submitted by Vendor in connection with the Services under this Agreement.

7. INDEMNIFICATION.

7.1 Scope of Indemnity. To the fullest extent permitted by law, Vendor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, "Claims") in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Vendor, its officials, officers, employees, subcontractors, consultants or agents arising out of or in connection with the Services, the Goods or this Agreement, including without limitation the payment of all expert witness fees, attorneys' fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Vendor's indemnity obligation shall not apply to such loss or damage which is caused by the sole negligence or willful misconduct of the City.

7.2 Additional Indemnity Obligations. Vendor shall defend, with counsel of City's choosing and at Vendor's own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Vendor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Vendor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Vendor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Vendor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

8. CALIFORNIA LABOR CODE

8.1 Prevailing Wages. Vendor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. **If** the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and **if** the total compensation is $1,000 or more, Vendor agrees to fully comply with such Prevailing Wage Laws. City shall provide Vendor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Vendor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Vendor's principal place of business and at the project site. Vendor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Vendor shall therefore comply with such Labor Code sections to the fullest extent required by law.

8.2 Registration. **If** the Services are being performed as part of an applicable "public works" or "maintenance" project, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Vendor and all subcontractors must be registered with the Department of Industrial Relations. Vendor shall maintain registration for the duration of this Agreement and require the same of any subcontractor. Notwithstanding the foregoing, the contractor registration requirements mandated by Labor Code Sections 1725.5 and 1771.1 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Sections 1725.5 and 1771.1.

8.3 Compliance Monitoring. This Agreement may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Vendor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Vendor or any subcontractor that affect Vendor's performance of Services, including any delay, shall be Vendor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Vendor caused delay and shall not be compensable by the City. Vendor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Vendor or any subcontractor.

9. SAFETY.

Vendor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its services, the Vendor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and life saving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary

or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

10. ACCOUNTING RECORDS.

Vendor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Vendor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Vendor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

11. TERMINATION OF AGREEMENT.

11.1 Grounds for Termination. City may, by written notice to Vendor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Vendor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Vendor shall be compensated only for those Services and Goods which have been adequately rendered to City, and Vendor shall be entitled to no further compensation. If terminated for cause because the Vendor refused or failed to deliver the Goods, the City may obtain Goods by whatever method it may deem expedient. If City's cost of obtaining the Goods, including compensation for additional managerial and administrative services, will exceed the unpaid balance of the Goods, Vendor will be liable for and will pay the difference to City. Vendor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this Section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

11.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Vendor to provide all finished or unfinished documents and data and other information of any kind prepared by Vendor in connection with the performance of the Services under this Agreement. Vendor shall be required to provide such document and other information within fifteen (15) days of the request.

11.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, goods and services similar to those terminated.

12. GENERAL PROVISIONS.

12.1 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Vendor:
Draeger, Inc.
Attn: Matt Luchetta, Engineered Solutions Product Specialist
3135 Quarry Road
Telford, PA 18969
City:

City of Ontario
303 East "B" Street
Ontario, CA 91764-4196
Attn: **Deputy Chief McFarlane**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

12.2 Subcontracting. Vendor shall not subcontract any portion of the work required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

12.3 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Vendor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Vendor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Vendor shall be barred from bringing and maintaining a valid lawsuit against the City.

12.4 Time of Essence. Time is of the essence for each and every provision of this Agreement.

12.5 City's Right to Employ Other Vendors. City reserves right to employ other Vendors in connection with the Goods and Services provided under this Agreement.

12.6 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

12.7 Assignment or Transfer. Vendor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

12.8 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Vendor include all personnel, employees, agents, and subcontractors of Vendor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease

of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

12.9 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

12.10 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

12.11 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 12.7, there are no intended third party beneficiaries of any right or obligation assumed by the Parties.

12.12 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

12.13 Prohibited Interests. Vendor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Vendor, to solicit or secure this Agreement. Further, Vendor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Vendor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Vendor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

12.14 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

12.15 Authority to Enter Agreement. Vendor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

12.16 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

12.17 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

		6) Warranty is 12 months after handover. 7) Training Systems which have completed fabrication but cannot be delivered due to delays on the part of the customer, may be charged a Storage Fee in the amount of 2% of the project value, to be assessed every thirty days after an initial 30-day free storage period has passed, until delivery is possible. 8) Milestone Payment terms: A. 25% of total project price will be invoiced on notice to proceed. B. 75% of total project price will be invoiced after training (if applicable), installation and delivery are complete. 9) Country of Origin (CoO) for all Class A fire training systems: USA. 10) Meets Berry Amendment and BAA requirements. In the event Customer is not ready for product to be delivered on the confirmed delivery date, Customer must notify Draeger, Inc. 30 days prior to confirmed delivery date to reschedule. If Customer fails to provide notification, Draeger, Inc. may invoice Customer for products and any additional costs to hold product until Customer is ready for delivery.		

ES PAD REQUIREMENTS ACKNOWLEDGEMENT FORM

FIRE TRAINING SYSTEM

Regarding site-preparation for a Drager Fire Training System, the customer is responsible for all site-work requirements and/or costs for the system. The customer is responsible for compliance with local building requirements regarding permits, inspections, approvals, and any costs associated with the aforementioned. Site specific engineering drawings and/or certifications and local-stamped drawings are *not* included in the price. Concrete footing and/or pad design and installation costs and/or associated paving costs are *not* included in the proposal and are the responsibility of the customer.

Drager will provide a point-load drawing with every pre-sales package. The point-loads shown are based on container tare weights, with allowances made for ancillary structures. No wind-loads or soil analysis are taken in to consideration for these loads. The drawing displays the minimum load of the Drager Fire Training System. It will be necessary to source an engineer that will provide the site-preparation and foundation drawings to properly support the structure(s).

PLEASE NOTE : Pad must be true-level to ensure stairs land at the required height of the pad.

DRAEGER, INC. TERMS AND CONDITIONS OF SALE (SAFETY)

1. GENERAL. These terms and conditions are integral to the agreement governing the sale and purchase of goods ("Goods") and service ("Service") between the seller, Draeger, Inc. ("Draeger"), and the purchaser ("Customer"). Goods and Service are referred to herein collectively as "Product." The agreement governing this sale and purchase of Product ("Agreement") consists of the following, all of which are hereby incorporated herein by reference: (i) these terms and conditions, (ii) the written sale or service agreement, if any, signed by Draeger and Customer (referred to herein singularly as "Party" and collectively as the "Parties"), including schedules thereto, that is in effect on the date the applicable Purchase Order ("PO") is delivered to Draeger, and any amendments thereto ("Contract Document"), (iii) any price quote ("Quote"), and (iv) any PO submitted by Customer with respect to a Quote; provided, however, Draeger shall not be bound by any terms, conditions, or other provisions in a PO that are different from, in addition to, or inconsistent with, the other provisions of this Agreement.

2. PRICES.

(a) Prices are as stated in the Contract Document. If no Contract Document is in effect at the time the order is filled, the prices shall be as stated on the applicable Quote; provided, that such Quote is valid at that time. In all other cases, prices are those currently in effect on Draeger's standard price list at time of shipment. Unless otherwise stated in writing by Draeger, prices include the cost of standard domestic packing. Prices exclude charges for freight, unloading, storage, insurance, taxes, excises, fees, duties, or other charges related to Product. Customer shall bear the cost of all applicable sales, use, property, excise, and manufacturer's taxes and any duties, license, or similar fees, which may be imposed upon the sale, use, or performance of the Product.

(b) If this Agreement is for multiple years, then the prices set forth herein are fixed only for the first 12 months hereof. Thereafter, Draeger may adjust the prices ("Price Adjustment"), pursuant to a proposed Price Adjustment notice ("Price Adjustment Notice"). Draeger shall provide the Price Adjustment Notice to Customer, in writing, specifying the adjustment, no less than 90 days in advance of a proposed Price Adjustment ("Price Adjustment Notice Period"). If Customer objects to the proposed Price Adjustment during the Price Adjustment Notice Period, then, notwithstanding anything else in this Agreement to the contrary, Draeger may cancel this Agreement with 60 days' notice without penalty ("Price Termination Notice"). During the 60-day Price Termination Notice period, Customer may continue to purchase Products at the then-current price. If Customer does not object to the proposed Price Adjustment, then such proposed Price Adjustment shall go into effect on the date stated in the proposed Price Adjustment Notice and shall be incorporated herein by reference. Draeger shall fill all POs received prior to the effective date of the Price Adjustment or, if earlier, the termination of this Agreement, at the then-current prices. Unless otherwise agreed to by Draeger and Customer, all other terms, conditions, and provisions of this Agreement shall continue unchanged and remain in full force and effect after any such Price Adjustment. A Price Adjustment does not obligate any of the Parties to agree to any other modification of this Agreement.

3. PAYMENT TERMS.

(a) Unless otherwise agreed in writing, Customer shall make payment in full without any set-off (for any reason) no later than 30 days from the date of invoice in United States Dollars ("USD"). Partial shipments of Goods shall be invoiced as shipped. Draeger reserves the right to require (i) payment in advance, (ii) cash on delivery, or (iii) a modification of credit terms.

(b) Notwithstanding the foregoing, payment on advance orders paid by credit card shall be charged and paid for at that time of the order. All payments made with personal credit cards may include an administrative fee of up to 2.8% of the value on the invoice. Payments made through corporate purchasing credit cards may include an administrative fee of up to 2.5% of the value on the invoice.

(c) Draeger reserves the right in the event of late payment: (i) to suspend all deliveries or Service or to cancel any of its outstanding obligations under this Agreement; or (ii) to charge interest on the late payment calculated on a day-to-day basis until the actual date of payment at the lower of (A) an annual rate of 12% or (B) the maximum rate allowed by law. Such remedies are in addition to any other rights or remedies available to Draeger under the law.

(d) If Customer pays less than the full amount due, the payment will be applied toward the outstanding balance. Draeger's acceptance of part of the amount due shall not interfere with Draeger's right to recover the balance of the amount due or right to pursue any other right or remedy under the law.

(e) All POs are subject to credit approval by Draeger.

4. DELIVERY, INSTALLATION, RISK, AND TITLE.

(a) Title to, and risk of loss for, the Goods shall pass to Customer upon delivery as determined on the basis of FCA (INCOTERMS 2020) prepay and add all related transportation and insurance costs as a separate line item to the invoice to Customer unless Customer provides their own transportation provider and/or account number in which case the delivery is determined on the basis of EXW (INCOTERMS 2020). Upon passage of title of the Goods from Draeger to Customer or, if earlier, the date as of which Draeger makes a commercially reasonable attempt to deliver Goods, Customer shall be responsible and liable for, and agrees to defend and indemnify Draeger against, all claims, injuries, losses fines, penalties, damages, or costs resulting from Customer's storage, handling, disposal, release, use, or resale of the Goods or their containers.

(b) Delivery, installation, and completion dates are only approximate and Draeger will not be liable for failure to meet such dates. Notwithstanding the foregoing, Draeger shall use reasonable efforts to meet quoted delivery, installation, and completion dates. Partial shipments may be made at Draeger's sole discretion or, with Draeger's consent, at Customer's request.

(c) Unless stated otherwise in writing by Draeger, freight and transportation costs, including standard ground transportation, packing, custom duties, and other similar charges, shall be borne as follows: (i) for PO orders equal to or less than $15,000, Customer shall bear all such costs, (ii) for PO orders greater than $15,000, Draeger shall bear all such costs. Notwithstanding the foregoing, in the event Customer requests an expedited order, Customer shall bear the additional costs.

(d) Customer shall use commercially reasonable efforts to allow for timely delivery of Goods, including, without limitation, providing instructions, granting access during Customer's business hours (or such other time agreed by the Parties), and obtaining any required licenses or permits.

(e) Installation costs, if applicable, are included in the price of Goods, unless indicated as a separate Service on the Contract Document or Quote.

Customer is responsible for ensuring that the installation site is fully prepared prior to installation and for bearing all costs necessary to prepare site for installation in accordance with Draeger's instructions, including, without limitation, (i) engaging in any required labor, (ii) acquiring any required materials, (iii) to the extent applicable, ensuring that the Customer's network (A) meets any Draeger specific requirements, and (B) is fully functioning as mandated by all manuals and other instructions requested of Customer by Draeger, and (iv) ensuring compliance with all governmental requirements, including without limitation, all certifications and approvals for installation and operation. Customer shall provide to Draeger or its subcontractor, as applicable, access to the installation site and, if required, safe and secure space on site for storage of Goods and equipment prior to and during installation.

5. ACCEPTANCE. Customer shall inspect Goods received and notify Draeger of any Nonconforming Goods prior to acceptance. Goods shall be deemed to be accepted by Customer 15 days from date of delivery; provided, however, that (i) if earlier, acceptance shall occur immediately on the first day Customer uses Product, or (ii) with respect to Goods requiring installation (other than connection to Customer network), acceptance shall occur on the earlier of 5 days after installation or 30 days after delivery. Installation shall be deemed to be completed upon final verification under Draeger's standard procedures that Goods meet all applicable written performance obligations. For this purpose, "Nonconforming Goods" means (i) Goods that are different from those identified on the PO confirmation or (ii) Goods with label or packaging that incorrectly identifies contents. Draeger shall, at its sole discretion, replace Nonconforming Goods with conforming Goods or credit or refund the price of Nonconforming Goods. Such remedy is the exclusive remedy for Nonconforming Goods. Draeger shall bear the shipping costs related to return and replacement of Nonconforming Goods.

6. CHANGES AND RETURNS.

(a) POs may not be changed or canceled after PO is accepted by Draeger.

(b) Draeger reserves the right, subject to written notice, to substitute Goods or change specifications of Goods, which, in Draeger's judgment, does not materially affect the installation, performance, function, or price thereof. Goods may only be returned with prior authorization from Draeger. Eligible returns must follow the Customer Material Return Process in effect at the time of return as specified at https://www.draeger.com/Library/Content/RMA-Process-Safety-2023.pdf and which is hereby incorporated herein by reference ("RMA Process"). Unless warranty applies or in the case of a Nonconforming Good, restocking fees of up to 25% may apply.

7. DELAY OR FAILURE TO PERFORM OBLIGATIONS.

(a) Draeger shall not be deemed to be in breach or otherwise liable for any delay or failure in performance of any of its obligations under this Agreement caused, in whole or in part, by any act or omission of Customer or its agents, subcontractors, or employees.

(b) Neither Party shall be liable for failure to perform obligations (except for payment obligations) under this Agreement to the extent that such failure arises out of events beyond its reasonable control including, but not limited to, acts of government or compliance with any governmental laws, rules or regulations, acts of God, war, terrorist threats or acts, civil disturbance, fire, or other casualty, pandemic, strike, labor dispute, or unavailability of labor, carriers, raw materials, power, or supplies. Any delivery date may be extended, at Draeger's option, to the extent of any delay resulting from any such event.

8. WARRANTY.

(a) *Goods.* Draeger warrants that under normal use and with prescribed maintenance, storage, and care, Goods are free from defects in material and workmanship for the warranty period. Except as provided in a separate warranty statement in Goods manual or otherwise provided with Goods, the warranty period for new capital equipment is 12 months from date of delivery and disposable and consumable Goods (excluding sensors) are warranted at time of delivery only. All other Goods are warranted for 90 days from (i) date of delivery or (ii) in the case of software, date of implementation sign-off, or first productive use. Warranty is conditioned on (i) Customer providing immediate written notice of warranty-related claim to Draeger and following RMA Process, (ii) no repairs, modifications, or alterations being made to Goods other than by Draeger or its authorized representatives, (iii) Customer handling, using, storing, installing, operating, cleaning, and maintaining Goods in compliance with the instructions and specifications provided with Goods or incorporated into this Agreement, (iv) use of Goods only for the use intended by Draeger, (v) defect not related to the attachment of Goods to non-Draeger

U.S. Terms and Conditions of Sale (Safety)
Effective – July 2023
4877-6831-8559, v. 4

supplied equipment or to Customer's network issues, (vi) Customer having fulfilled its payment obligations for Goods, and (vii) an inspection by Draeger that reveals that Customer's claim is valid under the terms of the warranty. Customer's remedy for a breach of this warranty is limited to repair, replacement, credit, or refund, at the sole option of Draeger. Repair or replacement may be with parts or product that are new, used, or refurbished. Repairs or replacements shall not interrupt, extend, or prolong the warranty period.

(b) *Service.* Draeger warrants that the Service shall be performed in a professional manner in accordance with generally recognized industry standards for similar service. Claims for breach of this Service warranty must be submitted to Draeger in writing within 90 days of the completion of Service. Customer's remedy for breach of Service warranty is limited to reperformance, credit, or refund, at the sole option of Draeger.

(c) *Third-Party Product.* If this Agreement includes the sale of third-party product not manufactured by Draeger or any of its affiliates, such products are provided to Customer solely at the direction of Customer with no recommendation by Draeger. Draeger makes no warranty for any third-party product. Customer's sole warranty for any third-party product, if any, is the original manufacturer's warranty, which Draeger agrees to pass on to Customer, as applicable. The obligation of Customer to pay Draeger for the third-party product is absolute and unconditional, and Customer waives and releases Draeger from all claims, damages, and losses arising out of such third-party product regardless of any claims Customer may have regarding such third-party product.

(d) *No Other Warranties.* **THE WARRANTIES IN THIS SECTION 9 ARE THE SOLE AND EXCLUSIVE WARRANTIES MADE WITH RESPECT TO PRODUCT. DRAEGER MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, TITLE, THIRD-PARTY NONINFRINGEMENT, COURSE OF DEALING, AND USAGE OF TRADE. DRAEGER DOES NOT WARRANT OR GUARANTEE THAT ANY PRODUCT WILL BE SECURE FROM CYBER THREATS, HACKING, OR SIMILARLY MALICIOUS ACTIVITY. DRAEGER DOES NOT WARRANT ANY CUSTOMER OR THIRD-PARTY PROVIDED NETWORK OR THE PERFORMANCE OF PRODUCT AS IMPACTED BY SUCH NETWORK CONNECTION.**

9. SERVICE BRIDGE SOLUTION. If Customer's use of Goods purchased is likely to be interrupted or delayed for an extended period due to the need to service the Goods, delay in delivery, or recall, upon Customer's request, Draeger may, to the extent available, temporarily place reasonably comparable equipment with Customer for its use until such time as the affected Goods are returned, repaired, or delivered, as applicable. Such placement is part of Draeger's warranty, contracted Service, or recall obligations, as applicable, and provided at no additional charge to Customer. Customer's option for such temporary use of equipment shall mitigate any damages or losses, if any, that would otherwise be incurred by Customer for such period.

10. INDEMNITY. To the extent permitted under applicable law, Draeger and Customer (each as "Indemnitor") shall indemnify the other Party and its affiliates (collectively "Indemnitee") from and against all third-party claims alleging bodily injury, death, or damage to the third-party's tangible property, but only to the extent caused by the Indemnitor's negligence or willful misconduct. No part of Customer's sites is considered third-party property for purposes of this indemnity. Indemnitee shall provide Indemnitor with prompt written notice of any third-party claims covered by this Section 10. Indemnitor has the unrestricted right to select and hire counsel and the exclusive right to conduct the legal defense or settle the claim on the Indemnitee's behalf; subject to Indemnitee's consent, which shall not be unreasonably withheld or delayed. Indemnitor shall not make any admissions that might be prejudicial to the Indemnitee.

11. INSURANCE. If during the term of this Agreement Draeger may need access to Customer's premises to perform Service or for other reasons, Customer shall, at its own expense, maintain and carry insurance in full force and effect which includes, but is not limited to, commercial general liability in a sum no less than $1,000,000 per occurrence and $5,000,000 in the aggregate with financially sound and reputable insurers. Upon Draeger's request, Customer shall provide Draeger with a certificate of insurance from Customer's insurer evidencing the insurance coverage specified in this Agreement and which names Draeger as an additional insured. Customer shall provide Draeger with 30 days advance written notice in the event of a cancellation or material change in Customer's insurance policy. Except where prohibited by law, Customer shall require its insurer to waive all rights of subrogation against Draeger's insurers and Draeger.

12. LIMITATION OF LIABILITY. IN NO EVENT SHALL ANY PARTY BE LIABLE TO THE OTHER PARTY OR THEIR AFFILIATES, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, INDEMNITY, OR ANY OTHER LEGAL THEORY, FOR LOST PROFITS OR LOST STORED, TRANSMITTED, OR RECORDED DATA, OR FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, PUNITIVE, OR EXEMPLARY DAMAGES, EXCEPT AS EXPRESSLY STATED IN THIS AGREEMENT, WITH RESPECT TO ANY MATTERS RELATING TO THIS AGREEMENT, REGARDLESS OF WHETHER THE OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF THE SAME. DRAEGER'S MAXIMUM LIABILITY UNDER THIS AGREEMENT IS THE ACTUAL PURCHASE PRICE RECEIVED BY DRAEGER FOR THE PRODUCT THAT GIVES RISE TO THE CLAIM.

13. PATENT, TRADEMARK, AND OTHER INFRINGEMENT CLAIMS. In the event of any claim, suit, or proceeding brought against Customer alleging any Draeger manufactured Good violates any patent, trademark, or copyright about which Customer notifies Draeger in writing within 5 days after Customer becomes aware of the allegation, Draeger shall, at its option and expense, (i) defend such claim, suit, or proceeding, (ii) procure the Customer's right to use the Good, (iii) remove or modify the Good to avoid infringement, or (iv) allow Customer to return the Good and refund the purchase price paid to Customer less reasonable depreciation for Customer's use of the Good. In the event of defense of such claim, suit, or proceeding, Customer shall give Draeger information, assistance, and exclusive authority to fully control the defense and settlement of such claim, suit or proceeding. This indemnity shall not apply if Customer modifies or combines, operates, or uses the Good with any product, data, software, apparatus, or program not provided by Draeger and Customer shall indemnify and hold Draeger harmless against any liability or expense, including reasonable attorneys' fees, incurred by Draeger in connection therewith.

14. RIGHTS IN SOFTWARE, DOCUMENTATION, AND INTELLECTUAL PROPERTY. To the extent software, data, or other documentation or information (collectively, "Software") is embedded in or delivered with any Goods sold under this Agreement, the sale of such Goods shall not constitute the transfer of the ownership rights in such Software. The Software shall remain Draeger's property and Draeger grants to Customer a non-exclusive, non-transferable license solely to use the Software for the purpose, and in the manner, for which the Software was designed and produced. Customer shall not modify, reverse engineer, or create derivative works based on any of the Software, or permit any third party to do so. In addition, to the extent any third-party software is included in the Software, Customer will comply with any third-party software license terms provided by Draeger to Customer. Software that is provided separately to Customer as a Product is not included under this Section 14, but is governed under a separate license agreement, and may be subject to a licensing fee.

15. DATA PROTECTION. The Parties agree to comply with any privacy and data protection laws, including without limitation the General Data Protection Regulation (GDPR), to the extent relevant to the exchange of data between the Parties or storage or exchange of data in connection with Product provided hereunder.

16. TERMINATION. In addition to any remedies that may be provided under these terms and conditions, Draeger may terminate this Agreement or any part thereof with immediate effect upon written notice to Customer, if Customer: (i) fails to pay any amount when due under this Agreement and such failure continues for 30 days after Customer's receipt of written notice of nonpayment; (ii) has not otherwise performed or complied with any obligations of this Agreement, in whole or in part; (iii) becomes insolvent, files a petition for bankruptcy or commences or has commenced against it proceedings relating to bankruptcy, receivership, reorganization or assignment for the benefit of creditors; or (iv) undergoes a change of control or ownership.

17. CONFIDENTIAL INFORMATION. All non-public, confidential, or proprietary information of Draeger disclosed by Draeger to Customer, whether disclosed orally or disclosed or accessed in written, electronic, or other form or media, and whether or not marked, designated, or otherwise identified as "confidential" in connection with this Agreement is confidential, solely for the use of performing this Agreement and may not be disclosed or copied unless authorized in advance by Draeger in writing. This Section does not apply to information that is: (a) in the public domain; (b) known to Customer at the time of disclosure without any confidentiality or restriction on use; or (c) rightfully obtained by Customer on a non-confidential basis from a third-party.

18. OTHER TERMS.

(a) **Compliance with Laws.** The Parties shall comply with all applicable laws and regulations, including, but not limited to, any laws and regulations relating to the import, or export, of any Product or associated technical data.

(b) **Benefit and Assignment.** Neither Party may assign, subcontract, or delegate any rights or obligations under this Agreement, without the prior written consent of the other Party, unless otherwise stated in this Agreement. Notwithstanding the foregoing, Draeger may assign any of its rights and obligations under this Agreement to one of its affiliates without notice to, or consent of, Customer. This Agreement shall inure to and be binding on the Parties and their respective successors, permitted assigns, and legal representatives. This Agreement is for the sole benefit of the Parties hereto and their respective successors and permitted assigns and nothing herein, express or implied, is intended to or shall confer upon any other person or entity any legal or equitable right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement.

(c) **Modification.** This Agreement may not be changed, modified, or amended, except in writing signed by duly authorized representatives of the Parties.

(d) **Governing Law, Venue, and Waiver of Jury Trial.** This Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania, without giving effect to any conflict of law provisions. The Parties hereto hereby agree that the application of the United Nations Convention on Contracts for the International Sale of Goods does not apply to this Agreement and is expressly excluded. Any legal suit, action, or proceeding arising out of or relating to this Agreement shall be brought before a court of competent of jurisdiction located in the Commonwealth of Pennsylvania. The Parties irrevocably submit to the exclusive jurisdiction of such courts in any such suit, action, or proceeding. **EACH PARTY WAIVES ALL RIGHTS TO A TRIAL BY JURY IN CONNECTION WITH ANY DISPUTE ARISING UNDER THIS AGREEMENT.**

(e) **Integration and Survival.** This Agreement together with any attachments or other documents incorporated by reference herein, constitute the entire agreement. The terms of this Agreement that by their nature are intended to survive its expiration or termination will continue in full force and effect after its expiration or termination.

(f) **Severability; Headings.** No provision of this Agreement, which may be deemed unenforceable, will in any way invalidate any other portion or provision of this Agreement. Section headings are for reference only and will have no substantive effect.

(g) **Waiver.** No waiver of any of the provisions of this Agreement is effective unless explicitly set forth in writing and signed by the Parties. No failure and no delay in exercising, on the part of any Party, any right under this Agreement will operate as a waiver thereof, nor will any single or partial exercise of any right preclude the further exercise of any other right.

(h) **Relationship of the Parties.** The Parties are independent contractors. Nothing contained in this Agreement shall be construed as creating any agency, partnership, joint venture, or other form of joint enterprise, employment, or fiduciary relationship between the Parties, and neither Party shall have authority to contract for or bind the other Party in any manner whatsoever.

(i) **Injunction.** Customer agrees that the remedies at law may be inadequate to protect Draeger against any actual or threatened breach of Sections 14 or 17 of this Agreement, and, without prejudice to any other rights and remedies otherwise available, Draeger will be entitled to seek injunctive relief.

(j) **Limitation of Actions.** Any action against Draeger arising out of this Agreement shall be commenced within one year from the date such cause of action has accrued, otherwise the same shall be barred.

(k) **Notices.**

Notices shall be in writing and shall be deemed served upon receipt and shall be delivered in person or by nationally recognized courier or certified mail to Draeger, Inc. 3135 Quarry Road, Telford, PA 18969, Attention President with a copy to the same address to the attention of General Counsel (such copy shall not constitute service of process).

End of Terms and Conditions of Sale (Safety)

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Philip Marino Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 17

SUBJECT: **MAINTENANCE SERVICES AGREEMENTS WITH PRIORITY LANDSCAPE SERVICES, LLC., MERCHANTS LANDSCAPE SERVICES, INC., AND BRIGHTVIEW LANDSCAPE SERVICES, INC., FOR LANDSCAPE MAINTENANCE SERVICES FOR FORMER REDEVELOPMENT SITES, HOUSING AND GAS TAX FUNDED SITES, WATER WELL SITES, AND CERTAIN PARKWAYS, FIRE STATIONS, AND LANDSCAPE MEDIANS IN THE OLD MODEL COLONY**

D. Authorize the City Manager or his designee to execute a Maintenance Services Agreement for Contract No. PM 2425-12 Certain Parkways, Fire Stations, and Landscape Medians in the Old Model Colony for Landscape Maintenance Services with Merchants, Inc., of Rancho Cucamonga, California, for a total contract amount not-to-exceed $1,782,972 for up to five (5) years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT:

Former Redevelopment Sites

The recommended contract award to Priority Landscape Services, LLC., is for $197,400 per year, for a total of $592,200 plus urgency services in the amount of $29,610, for a total not-to-exceed contract amount of $621,810 over three years. Two (2) one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $212,452 per year, for a total of $424,904 plus urgency services in the amount of $19,740 for a total contract amount not-to-exceed $1,066,454.

Housing and Gas Tax Funded Sites

The recommended contract award to Priority Landscape Services, LLC., is for $65,833 per year, for a total of $175,500 plus urgency services in an amount of $33,750, for a total not-to-exceed contract amount of $209,250 over three years. Two (2) one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $62,961 per year, for a total of $125,921 plus urgency services in an amount of $22,500 for a total contract amount not-to-exceed $357,671.

Water Well Sites

The recommended contract award to BrightView Landscape Services, Inc., is for $231,624 per year, for a total of $694,872 plus urgency services in an amount of $52,137, for a total not-to-exceed contract amount of $747,009 over three years. Two (2) one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $249,286 per year, for a total of $498,571 plus urgency services in an amount of $34,758 for a total contract amount not-to-exceed $1,280,338.

Certain Parkways, Fire Stations, and Landscape Medians in the Old Model Colony

The recommended contract award to Merchants Landscape Services, Inc., is for $334,800 per year, for a total of $1,004,400 plus urgency services in an amount of $50,220, for a total not-to-exceed contract amount of $1,054,620 over three years. Two (2) one-year extensions may be exercised at the City's sole discretion for an additional contract amount of $347,436 per year, for a total of $694,872 plus urgency services in an amount of $33,480 for a total contract amount not-to-exceed $1,782,972.

If approved, appropriations will be included in future Annual Budgets to the City Council for approval as needed for landscape maintenance services within funds: General Fund, Ontario Housing Authority, Gas Tax, and Water Operating.

BACKGROUND & ANALYSIS: Former Redevelopment Sites

In April 2024, the City solicited proposals for Bid No. 1746, Landscape Maintenance Services for the Former Redevelopment Sites. The two (2) proposals received met the bid criteria and standards necessary to perform this work.

Vendor	Location

BrightView Landscape Services, Inc.	Upland, CA
Priority Landscape Services, LLC.	Anaheim, CA

Priority Landscape Services, LLC., of Anaheim, California, submitted a proposal that met all the required specifications with a total contract cost of $621,810 over a three-year term. Based on their proposal, credentials, pricing, and favorable reference checks, Staff recommends awarding the Maintenance Services Agreement to Priority Landscape Services, LLC.

Housing and Gas Tax Funded Sites

In April 2024, the City solicited proposals for Bid No. 1747, Landscape Maintenance Services for the Housing and Gas Tax Funded Sites. The four (4) proposals received met the bid criteria and standards necessary to perform this work.

Vendor	Location
BrightView Landscape Services, Inc.	Upland, CA
J. Orozco Enterprises, Inc.	Pomona, CA
Merchants Landscape Services, Inc.	Rancho Cucamonga, CA
Priority Landscape Services, LLC.	Anaheim, CA

Priority Landscape Services, LLC., of Anaheim, California, submitted a proposal that met all the required specifications with a total contract cost of $209,250 over a three-year term. Based on their proposal, credentials, pricing, and favorable reference checks, Staff recommends awarding the Maintenance Services Agreement to Priority Landscape Services, LLC.

Water Well Sites

In April 2024, the City solicited proposals for Bid No. 1753, Landscape Maintenance Services for the Water Well Sites. The three (3) proposals received met the bid criteria and standards necessary to perform this work.

Vendor	Location
BrightView Landscape Services, Inc.	Upland, CA
J. Orozco Enterprises Inc.	Pomona, CA
Priority Landscape Services, LLC.	Anaheim, CA

BrightView Landscape Services, Inc., of Upland, California, submitted a proposal that met all the required specifications with a total contract cost of $747,009 over a three-year term. Based on their proposal, credentials, pricing, and favorable reference checks, Staff recommends awarding the Maintenance Services Agreement to BrightView Landscape Services, Inc.

Certain Parkways, Fire Stations, and Landscape Medians in the Old Model Colony

In April 2024, the City solicited proposals for Bid No. 1752, Landscape Maintenance Services for the Certain Parkways, Fire Stations, and Landscape Medians in the Old Model Colony. The four (4) proposals received met the bid criteria and standards necessary to perform this work.

Vendor	Location
BrightView Landscape Services, Inc.	Upland, CA
J. Orozco Enterprises, Inc.	Pomona, CA
Merchants Landscape Services, Inc.	Rancho Cucamonga, CA
Priority Landscape Services, LLC.	Anaheim, CA

Merchants Landscape Services, Inc., of Rancho Cucamonga, California, submitted a proposal that met all the required specifications with a total contract cost of $1,054,620 over a three-year term. Based on their proposal, credentials, pricing, and favorable reference checks, Staff recommends awarding the Maintenance Services Agreement to Merchants Landscape Services, Inc.

MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **BrightView Landscape Services, Inc.**, a **Corporation,** with its principal place of business at **1659 W. 9th St., Upland, CA 91786** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Landscape Maintenance Services for Citywide Water Well Sites** services to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Landscape Maintenance Services for Citywide Water Well Sites PM 2425-16** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027**, unless earlier terminated as provided herein. Contractor shall complete the Services within

the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Ninety-Four Thousand Eight Hundred Seventy-Two Dollars ($694,872)** without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this

Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Philip Marino, Urban Forestry Manager** or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **David Moo, Business Development Executive,** or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or

property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Three Hundred Seventeen Dollars with Zero Cents ($317)** per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to

immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and

policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be

promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The

surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been

transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, “Claims”) in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor’s Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys’ fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor’s indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City’s choosing and at Contractor’s own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such

claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

BrightView Landscape Services, Inc.
1659 W. 9th St.
Upland, CA 91786
Attn: David Moo, Business Development Executive

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Philip Marino, Urban Forestry Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this

Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

SCOPE OF SERVICES

1. SCOPE OF WORK

A. The intent of this Agreement is to secure a contractor(s) who shall provide Landscape Maintenance Services for the Ontario Well Sites PM 2425-16.

B. The Contractor shall furnish all labor, tools, materials, and equipment to provide the landscape maintenance and repairs as set forth in this Agreement.

C. All Work shall be done in a professional, thorough, and workman like manner to the satisfaction of the Parks and Maintenance Director, or his/her authorized agent, and comply with all legal construction and landscape maintenance practices. The premises shall always be maintained at the level of service provided for in these specifications. The Contractor shall have the duty to provide complete landscape maintenance of all the project areas, including, but not limited to, the following: Fertilize, under-trim trees and shape shrubs, trim ground cover areas, mow, and edge turf grass areas. Consistently maintain the project areas with horticulturally acceptable growth and color. Consistently maintain the project areas to be devoid of weeds. Consistently maintain the project areas to be devoid of weeds five (5) feet out into the curb, gutter, and street. Consistently maintain the project areas to be devoid of diseases, rodents, gutter and pests. Consistently maintain the project areas to be devoid of litter. Consistently maintain the project areas to be devoid of safety hazards. Consistently maintain the project areas to be devoid of unsafe walkways. Consistently maintain the project areas to be devoid of blocked drainage systems. Consistently maintain the project areas to be devoid of malfunctioning irrigation systems. Consistently maintain the project areas to be devoid of graffiti and paper like signs. Program, monitor, adjust and maintain all irrigation system clocks, and perform extra work as directed and approved.

E. The Contractor shall be available twenty-four (24) hours a day, seven (7) days a week to respond to all emergencies within two (2) hours of notification. Emergencies that involve maintenance work included in these general conditions shall not be compensated.

F. The Contractor shall perform a weekly maintenance inspection, during daylight hours, of all areas. Such inspection shall be both visual and operational. It shall include, but not be limited

to, the operation of all irrigation and/or other mechanical systems to check for proper condition and reliability.

2. WORK SITE

Work sites may include parks, medians, trails, weed abatement areas, and parkways.

The City reserves the right to make additions or deletions under this contract with written notice to the Contractor. The monthly compensation shall be adjusted by the monthly unit cost per square foot if any changes result in an increase or reduction in square footage maintained. Compensation shall be based on a-per unit cost (bid schedule form submitted) of work completed.

3. LENGTH OF CONTRACT

This **PRIMARY** contract shall begin **July 1, 2024, and shall terminate on June 30, 2027.**

The **FIRST** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2027, through June 30, 2028,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

The **SECOND** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2028, through June 30, 2029,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

All optional extensions of the contract are subject to approval by the City Manager, or his authorized agent, and are contingent upon funding and performance by the Contractor.

4. DEFINITIONS

Where "as directed", "as required", "as permitted", "approved", "acceptance", or words of similar importance are used, it shall be understood that the direction, requirement, permission, approval or acceptance of the Parks and Maintenance Director, or his authorized agent, is intended unless otherwise stated.

The use of the word "Contractor" shall be held to mean the Contractor and/or any person employed by the City of Ontario, Parks and Maintenance Director, or his/her authorized agent and working under this contract.

The use of the words "shall" and "may" shall be held to mean "mandatory" and "permissive" respectively.

The use of the words "his" or "him" shall be construed to mean either gender, as appropriate. The use of the words " Parks and Maintenance Director " shall be construed to mean either the Parks and Maintenance Director or his authorized agent(s).

The words "City working day" refers to Monday-Friday, 6:30 a.m. to 4:00 p.m.

5. VANDALISM/THEFT/DAMAGE

Contractor shall be responsible for performing maintenance, repairs, and replacement of existing landscaped areas which are maintained under this contract and damaged or altered in any way as a result of theft, vandalism or mysterious damages that do not result from the performance of the Contractor.

In the case of vandalism to the maintained areas (Damage by Unknown Circumstances), Contractor shall notify the City within 24 hours using the free myOntario App. Graffiti will be entered under the “graffiti “Tab. All other Vandalism will be entered under the “Parks” Tab. In addition, EXCEPT in the case of graffiti, a text or email must be sent to the City’s Representative within 24 Hours detailing the Vandalism.

The use of red "Danger" tape shall be used when an area is unsafe for the public by the end of the workday.

The repairs shall be made within 24 hours of receiving a notice to proceed by text or email. At no time shall damage by unknown sources remain unrepaired for a period exceeding 72 hours.

Additional compensation will be provided only for costs that are directly related to the theft and/or vandalism.

The following conditions shall be met prior to the Contractor being reimbursed for "Damage by Unknown Circumstances".

6. VANDALISM/THEFT/DAMAGE BIDS

Contractor shall submit an itemized EWA (Extra Work Authorization) within 24 hours to the City's Representative. Contractor shall secure written authorization for the repairs by the Parks and Maintenance Director, or his authorized agent within twenty-four (24) hours by e-mail or text. For emergencies regarding public safety, a verbal or text approval by the Parks and Maintenance Director, or his authorized agents, may be obtained.

7. COMPLETION OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Work is to commence within twenty-four (24) hours after receiving City approval.

B. The work shall be inspected and released as complete by the City representative, and then invoiced as specified in section (8).

8. INVOICING OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Contractor shall submit on business letterhead, a photocopy of the original EWA describing individual material costs and an invoice with line items for material costs, labor costs and administrative costs. The cost estimate for additional work shall consist of the following elements: **Base cost of labor plus Fifteen percent (15%) for overhead and profit. Actual cost of materials plus fifteen percent (15%) for overhead and profit.** City reserves the right to ask for payroll records and vendor invoice if discrepancies on the bid exist. Materials may be provided by the City of Ontario.

B. Contractor shall submit a copy of a report filed with the City of Ontario Police Department, which relates to the specific incident if required by the Parks and Maintenance Director or his authorized agent.

9. ADDITIONAL (EXTRA) WORK (EXTRA WORK AUTHORIZATION or EWA)

A. The Parks and Maintenance Director, or his authorized agent, may, at his discretion, authorize the Contractors to perform additional work. Additional work (work not related to "Damages by Unknown Circumstances") shall be defined as work not included in this Agreement.

B. Prior to the Contractor performing any additional work, the Contractor shall prepare and submit a written description of why the additional work is required, what type of work is proposed, and a cost estimate for the additional work as stated. No work shall commence

without written authorization from the Parks and Maintenance Director, or his authorized agent. Notwithstanding the above authorization, when a condition exists where there is imminent danger of injury to the public or damage to property, the Parks and Maintenance Director, or his authorized agent may verbally authorize the work to be performed upon receiving a verbal estimate from the Contractor. However, within twenty-four (24) hours after receiving a verbal authorization, the Contractor shall submit a written estimate to the Parks and Maintenance Director, or his authorized agent, for approval.

C. The cost estimate for additional work shall consist of the following elements:

Base cost of labor plus fifteen percent (15%) for overhead and profit.

Actual cost of materials plus fifteen percent (15%) for overhead and profit (invoice from vendor shall be attached to each invoice turned in for payment).

City reserves the right to ask for payroll records. Materials may be provided by the City of Ontario.

D. Written authorization from the Parks and Maintenance Director, or his authorized agent, shall be by the issuance of a change order or signed bid. This change order or signed bid shall be considered an amendment to this Agreement and approved by the Parks and Maintenance Director, or his authorized agent, and Contractor.

E. All additional work shall commence on the agreed date and shall diligently proceed until completion. Contractor could use the labor force assigned to the contractual maintenance tasks to perform additional work if prior approval has been granted by the City representative.

F. Upon completion of the additional work, the Parks and Maintenance Director, or his authorized agent, shall be notified so that the work may be verified.

G. The Contractor shall submit an invoice for compensation with attached photocopies of original invoices for materials and a copy of signed bid. Compensation shall not exceed the written estimate. The Contractor's invoice shall be subject to audit and review by the City prior to payment.

H. The City of Ontario reserves the right to repair or contract with a third Party to perform such additional work (if bids are not received within 72 hours of official request and or if the proposed costs do not concur with contractor's labor rates and cost of materials)

10. CONTRACTOR LIABILITY

A. All damage to existing improvements located within areas and adjacent to areas under construction, which in the opinion of the Parks and Maintenance Director, or his authorized agent, are due to the Contractor's operation, shall be repaired or replaced at the Contractor's expense with exact (existing) materials and in an approved manner.

B. Such repairs or replacements shall be performed by the Contractor at no cost to the City and shall be accomplished as directed by the Parks and Maintenance Director or his/her authorized agent. Repairs shall be made immediately after damage or alteration occurs. Deductions shall be made from the Contractor's payments in the amount necessary to compensate the City for such repairs in the event such repair work is done by City forces, or another source.

C. Irrigation damage shall be repaired or replaced within the following time limits: Irrigation entities such as, but not limited to, (risers, heads, backflow device and cages, controllers, basket strainers, pressure regulators, irrigation wires and valves, valve boxes, irrigation pumps, ET gauges, rain buckets, antennas, flow sensors, and landscape lighting equipment) that are damaged during regular routine maintenance and become non-functional or non-efficient shall be replaced immediately. Mainline irrigation brakes shall be repaired within two (2) hours of being notified. All other irrigation repairs and/or replacement shall be completed within 24 hours of being notified. (In the event that the mainline repairs require specialized parts and or materials, the contractor shall be responsible to request from the City additional time to complete the repair/s)

D. All damage to turf grass, groundcover, shrubs, or trees, shall be repaired or replaced within three (3) working days of being notified. Damage to turf shall be repaired by replacement with the appropriate variety of bermudagrass sod or seeded with warm season seed and topper added. Damage to groundcover shall be repaired by replacement with the appropriate variety of plant material. Size and spacing shall be determined by the Parks and Maintenance Director, or his authorized agent. Damage to shrubs may be corrected by appropriate pruning; however, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the damage is severe, the shrub (in its entirety) shall be removed and replaced with a similar variety and size.

E. Damage to trees shall be repaired in the following manner:

Minor damage, such as bark lost from mechanical equipment shall be remedied by a certified Arborist. If the damage results in the loss of the tree, or, if in the opinion of the Parks and Maintenance Director or his authorized agent, the damage is severe, the damaged tree shall be removed and replaced with a similar variety and size. All damage resulting from chemical application and/or operation, either by spray-drift, improper application, lateral leaching, or other means shall be corrected in accordance with the previous provisions and the soil conditioned to ensure its ability to support plant life. All work shall be inspected, verified, and completed to the satisfaction of the Parks and Maintenance Director, or his authorized agent.

11. INSPECTION/DRIVE

The City and an appointed representative of the Contractor shall conduct a once-a-month walkthrough to inspect each individual work area. It is the responsibility of the Contractor to set up the inspection time(s) five (5) working days prior to the walkthrough/inspection. It is a requirement that a six to twelve (6-12) month master calendar be set up within 30 days of the award of the contract to insure coordinated dates of inspection. This inspection is to ensure adequacy of maintenance, methods of performing the work are in compliance with the contract and allow all deficiencies to be corrected prior to invoice submission and payment. However, this shall not be construed to relieve the Contractor of the duty to provide continuous inspection of individual work areas. Discrepancies and deficiencies in the Contractor's work shall be brought to the attention of the Contractor and corrected in a manner prior to invoicing and payment.

12. HAZARDOUS CONDITIONS

It shall be the Contractor's responsibility to inspect, and identify, any condition(s) that renders any areas within this Agreement unsafe, as well as any unsafe practices occurring thereon. The Parks and Maintenance Director, or his authorized agent, shall be notified immediately using the myOntario App, as well as text or phone call, of any unsafe condition that requires major correction.

The Contractor shall be responsible for making minor corrections including, but not limited to, filling holes in landscaped areas, diverting water sheet flow, using barricades, danger tape or traffic cones to alert persons of the existence of hazards and replacing valve box covers so as to protect all persons from injury.

The Contractor shall inspect all work sites for hazards, or potential hazards in the contractual areas daily.

During the required inspection of all work sites for hazards, or potential hazards, the Contractor shall immediately contact the City representative (either e-mail or text) indicating the condition, date, and the area that was inspected and a work order should be created using the myOntario App.

The Contractor shall cooperate fully with the City of Ontario in the investigation of any accidental injury or death occurring on the premises, including the submission of a complete written report thereof to the Parks and Maintenance Director within three (3) days following the occurrence.

13. REMOVING OBSTRUCTION AND MAINTENANCE OF EXISTING IMPROVEMENTS

Where the work is to be constructed in, or adjacent to, areas which have been improved by lawns, trees, shrubs, or gardens, the Contractor shall remove such trees or plants as may be necessary for the prosecution of the work and give them proper care and attention until the work has been satisfactorily completed, after which the Contractor shall replace them in as nearly the original condition and location as is reasonably possible. Where it is necessary to deposit the excavated materials on lawns during the process of construction, the Contractor shall first lay burlap or canvas on the lawn to prevent contact between the excavated material and turf grass. Unless otherwise indicated in the contract documents, all utility lines, conduits, wires, or structures shall be maintained by the Contractor and shall not be disturbed, disconnected or damaged by them during the progress of the work, provided, that should the Contractor in the performance of the work disturb, disconnect, or damage any of the above, all expense, arising from such disturbance, or in the replacement or repair thereof, shall be borne by the Contractor. However, in accordance with Section 4215 of the California Government Code, the Contractor shall be compensated 1) for the cost of locating and repairing damage to main or trunk line utility facilities located on the job site, not due to the failure of the Contractor or exercise reasonable care; 2) for costs of removing or relocating such utility facilities not indicated in the contract documents with reasonable accuracy; and 3) for the operation cost for equipment on the project necessarily idled such work.

At least two (2) working days prior to commencing any excavation pursuant to this Contract, the Contractor shall contact Underground Service Alert at (800) 422-4133 or other appropriate regional notification center if the excavation will be conducted in an area which is known, or reasonably should be known, to contain subsurface installations.

14. CONTRACTOR STAFF

The contractor shall provide the manpower as a minimum staffing requirement to comply with the performance of the landscape/irrigation maintenance specifications and requirements of the site.

The Contractor shall furnish one (1) supervisor with a minimum of 5 years of landscape and irrigation maintenance experience and sufficient supervisory and working personnel capable of promptly accomplishing all tasks on schedule, to the satisfaction of the Parks and Maintenance Director, or his authorized agent, all work required under this contract during the prescribed hours (6:30 AM to 4:00 pm). **Staffing shall be as needed plus any additional workforce to complete the maintenance/construction tasks required on the frequency page.** Payment will be based upon completed, acceptable work, Irrigation technician and spray technician to be provided as needed (personnel needs do not address the alternates per bid forms). Incomplete or unacceptable work will result in a delay or reduction of billing payment.

The Contractor shall have a competent supervisor, who is capable of communicate effectively both in written and oral English and discuss matters pertaining to this contract. The supervisor must be able to demonstrate to the satisfaction of the Parks and Maintenance Director, or his authorized agent, that they possess an adequate technical background. Adequate and competent supervision shall be provided for all work done by the Contractor's employees to ensure accomplishment of high-quality work, which will be acceptable to the Parks and Maintenance Director or his authorized agent.

Any order or communication given to the supervisor shall be deemed as delivered to the Contractor. The contractor shall use the free myOntario App. The use of a Smart phone will be required.

The contractor shall provide the minimum staffing requirements to comply with the performance of the landscape maintenance specifications and requirements of the site. Personnel shall be on site ready to work no later than 6:30am.

The Contractor, and their employees, shall always conduct themselves in a proper and efficient manner and shall cause the least possible annoyance to the public. The Parks and Maintenance Director or his authorized agent, may require a Contractor to remove from the work site any employee(s) deemed careless, incompetent, or otherwise objectionable, whose continued employment on the job is considered to be contrary to the best interest of the City of Ontario.

The Contractor shall require each of his employees to wear basic public works working attire. These are basically proper shoes, and other gear required by State Safety Regulation, and proper wearing of the clothing. Shirts shall be worn and always buttoned; safety vests "Type II" are required when indicated by the Work Area Traffic Control Handbook, the Parks and Maintenance Director or his authorized agent.

The Contractor shall establish an identification system for personnel assigned to the maintenance/construction site, which clearly indicates to the public the name of the Contractor and individual responsible for the construction/maintenance work. The identification system shall be furnished at the Contractor's expense and may include appropriate attire and name badges.

The contractor shall be responsible for traffic control (where needed) and shall be done per "WATCH" standards. Failure to comply with proper "WATCH" standards shall result in stoppage of all work until the proper traffic control is set up and could result in a fine. 1st violation $500.00, 2nd. Violation $ 1000.00, 3rd. violation and thereafter $ 3000.00 and/or possible cancellation of contract.

Inclement Weather

During inclement weather, (rainstorms, windstorms etc.) the contractor shall be required to contact the City representative prior to 7:00 am to receive clear directions of their assignments for the day. A minimum of two staff members shall be at the disposition of the City.

15. LOCAL OFFICE

A. The Contractor shall maintain an office with a telephone and provide at all times the following:

A responsible person(s), employed by the Contractor, shall have the ability to take necessary action regarding all inquiries and/or complaints received from the Parks and Maintenance Director, or his authorized agent. This person(s) shall be accessible twenty-four (24) hours per day and seven (7) days per week. An answering service shall be considered an acceptable substitute to full-time coverage, outside of prescribed working hours, provided the Contractor is notified of any communication within one (1) hour after receipt of said communication. The telephone number(s) of the Contractor or responsible person(s) of the Contractor shall be a toll-free number for the City of Ontario.

B. During normal working hours, the Contractor's supervisors, who are responsible for providing contractual services, shall be available for notification through a landline or cellular telephone communication. This will allow the city to access the contractor at any time during City working hours.

16. STORAGE FACILITIES

The City of Ontario will not be providing storage facilities throughout the duration of this contract.

A. SIGNS

The contractor shall not post signs or advertising matter upon the areas under maintenance or improvements thereon, unless prior written approval is obtained from the Parks and Maintenance Director, or his authorized agent.

The contractor shall, always, remove all unauthorized signs and advertising matter such as, but not limited to, garage sale signs, yard sale signs, campaign signs and personal business signs in the area under maintenance.

17. LOCK AND KEYS

A. Where City of Ontario locks and keys are required as part of this contract, the Contractor shall:

Not duplicate any coded City key furnished by the city.

Surrender all keys furnished by the Parks and Maintenance Director or his authorized agent promptly at the end of the contract period, or at any time-deemed necessary by the Parks and Maintenance Director, or his authorized agent, to prevent loss to the City of Ontario.

Protect the security of City property by keeping controller cabinets and enclosure doors always locked.

Contact the City immediately if a security lock is non-functional and needs repair. Refrain from using premises behind locked doors for storage of materials, supplies or tools except as approved by the Parks and Maintenance Director or his authorized agent. In the event that the contractor staff who has been assigned keys to the facilities resigns from his position, it is the

sole responsibility of the contractor to retrieve the keys assigned to such staff member and return to the City.

18. UTILITIES

The City of Ontario shall pay for the maintenance related to water and electrical utilities.

When needed, water usage shall not exceed the budgeted amount to comply with the City Water Conservation efforts. A water budget may be provided by the City and shall be reviewed and adhered to by the Contractor. The water budget shall be approved by the Parks and Maintenance Director, or his authorized agent.

The Contractor may be charged for all excessive utility usage (using the current utility rate) due to the contractor's failure to manage and or monitor irrigation system malfunctions or unauthorized increases in water usage. The excess cost will be determined by comparing the current utility usage with historical usage data for the same period.

The excess cost factor shall be deducted from payments to the Contractor. However, the Contractor will be allowed three (3) working days, upon receiving notice, to explain in written documentation the cause of the increase in utility usage in question. A final determination (after review of Contractor's explanation) of the deduction will be assessed by the Parks and Maintenance Director or his authorized agent.

19. NON-INTERFERENCE

The Contractor shall not interfere with the public use of the premises and shall conduct their operations to offer the least possible obstruction and inconvenience to the public, nor disrupt the peace and quiet of the area within which the services are performed.

20. PARKING

A. The Contractor shall park their vehicles and equipment within designated parking areas or in such a location to ensure normal vehicular traffic.

B. The Contractor's vehicles and equipment shall not be parked or set in such a manner that they block pedestrian access or vehicular right-of-way except as required to comply with all safety standards of OSHA or CAL-OSHA. Failure to perform proper traffic control will result in a formal warning (first time), a deduction of $500.00 per instance after formal warning has been given and contractor fails to comply.

21. EMERGENCY CALLS

A. The Contractor shall have the capability to receive and respond immediately to calls of an emergency nature during normal working hours and outside of normal working hours. Calls of an emergency nature received by the Parks and Maintenance Director or his authorized agent, shall be referred to the worksite Contractor for immediate disposition. If the work site Contractor cannot be reached within two (2) hours, the City will deduct from the monthly billing the cost of City forces, or other sources, used to repair the emergency. The Contractor shall not receive additional compensation for responding to emergencies for work included in these general conditions at contract work sites.

22. EXTRAORDINARY SERVICES

A. The Contractor shall be responsible for providing extraordinary maintenance and/or repairs to existing landscape and new landscape areas outside of their contract areas. Extraordinary services shall be defined as work not included in these general conditions or work required at a site for which there is no contract. Extraordinary maintenance shall include answering emergency calls as required. Contractors shall respond to an emergency call within two (2) hours. Contractors shall maintain a 24-hour per day, seven days per week, on-call service for emergency calls. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, by telephone within 24 hours of any emergency extraordinary work that is performed. Non-emergency extraordinary work requires written approval before the work is performed. Submission of an EWA and approval by the Parks and Maintenance Director, or his authorized agent will be necessary. The Contractor shall be compensated for extraordinary work as defined in Section 9.

B. In situations involving emergency repair work after normal work hours, Contractors shall dispatch qualified personnel and equipment to reach the site within two (2) hours. The Contractor's vehicle shall carry sufficient equipment to effect safe control of traffic. When the work site Contractor arrives at the site, the Contractor shall set up traffic warning and control devices, if deemed necessary and proceed to repair on a temporary/permanent basis.

C. If a City Representative is still at the site when the worksite contractor arrives, the Contractor shall quickly evaluate the situation and discuss it with the City Representative. If the repair takes only a few minutes, the City Representative may continue to direct traffic while the Contractor makes the repairs. If the repair takes longer than the City Representative can wait,

the Contractor shall immediately set up temporary traffic control devices and all other necessary warning devices and relieve the City Representative.

D. An emergency may be called by the following individuals or agencies at any time for extraordinary services involving repair work:

1. City Manager
2. Police Department
3. Fire Department
4. Parks and Maintenance Director

E. The following emergency phone numbers are listed for the convenience of the Contractors:

Fire Department (Dispatch) - (909) 983-5911
Fire Department (Emergency) - 911
Police Department (Dispatch) - (909) 986-6711
Police Department (Emergency) - 911
Southern California Edison - (800) 655-4555
Southern California Gas - (800) 427-2200
Dig Alert - (800) 422-4133

23. REPORTING DAMAGE OR MALFUNCTION

Any damage to, or malfunction of, any facility not specifically stated in this Agreement shall be promptly reported to the Parks and Maintenance Director, or his authorized agent.

24. COMPENSATION FOR ROUTINE MAINTENANCE

The City shall compensate Contractors based upon the total dollar amount of a bid or the total dollar amount of a combination of bids, if applicable, in monthly installments beginning 30 days after the commencement of work. Billing adjustments may be made where authorized by this Agreement.

25. ADDITION OR DELETION OF LANDSCAPE AREAS

The Contractors shall maintain, at a unit price comparable to other existing landscape areas and subject to the Parks and Maintenance Director approval or his authorized agent's approval, additional landscape areas that the city adds to this contract. If notification is made of a new installation other than at the beginning of a monthly period, the unit cost negotiated and agreed upon by the parties shall be prorated from the day the Contractor is notified to start maintenance. The City may elect to delete work sites, or portions thereof, within this Agreement at a unit price comparable to the bid price of said work sites.

26. DISCREPANCIES OR OMISSIONS

Should a bidder find discrepancies or omissions in the specifications or other documents, or be in doubt as to their true meaning, he may request a written interpretation from the Parks and Maintenance Director, or his authorized agent. Any interpretation, or change in the proposed documents, will be made only by addendum issued to each person to whom bid forms have been issued and shall become a part of the bid.

27. MINOR MODIFICATION

The Parks and Maintenance Director, or his authorized agent, may modify these specifications with the joint approval of the Contractor.

28. CONTRACTOR NON-COMPLIANCE

If the Parks and Maintenance Director, or his authorized agent, determines that there are deficiencies in the performance of this Agreement, the Parks and Maintenance Director, or his authorized agent, will provide a written inspection notice to the Contractor stating the deficiencies and specifying a time frame to correct the specified deficiencies. This time frame shall be reasonable, as determined by the Parks and Maintenance Director, or his authorized agent, to correct the specified deficiencies but not to exceed five 5 working days from the day of the inspection punch list. If the site(s) show obvious signs of non-performance, the Parks and Maintenance Director, or his authorized agent shall have the ability to immediately enforce partial or full deduction for the site in question. Should the Contractor fail to correct all deficiencies within the stated time frame, the Parks and Maintenance Director, or his authorized agent, may exercise the following measures:

A. Deduct from the Contractor's payment the amount necessary to correct the deficiency, including City overhead and impose a deficiency deduction.

B. Withhold the entire or partial payment.

C. Utilize City forces, or an alternate source, to correct the deficiency and deduct from the Contractor's payment the total cost, including City overhead. The Parks and Maintenance Director, or his authorized agent, shall decide all questions which arise as to the manner of performance and completion per schedule, acceptable fulfillment of the contract by the Contractor, interpretation of the specifications, and compensation to include completion of work by alternate sources. In addition to the provisions of Section 3.3, Contract Documents and Section 28 (B), in the event of a failure to correct a deficiency, or for any other breach of this Agreement by the Contractor, the City of Ontario may immediately terminate this Agreement. If the contractor requires extra time to complete the deficiency list due to materials/parts shortage, the contractor shall request in writing only the time needed to be added and the reasons why. The City representative will review the request and shall respond to the contractor in writing of the decision made. Contractor shall present the request for extension within the first five (5) working days of the deficiency list.

29. PAYMENTS WITHHELD

The city may withhold entire or partial payment for reasons as follows:

A. Work required in the specifications, which is defective, incomplete, or not performed. Claims filed or reasonable evidence indicating probable filing of claims.
B. Failure of the Contractor to make payments properly to subcontractors, or for materials and/or labor. A reasonable doubt that the contract cannot be completed for the remaining balance.
C. Reports, logs, or other contractual written documentation required of the Contractor to be delivered to the Parks and Maintenance Director, or his authorized agent, which is/are incomplete or not performed.

30. WITHHELD CONTRACT FUNDS

The Contractors may, at his sole cost and expense, substitute securities equivalent to any monies withheld by the City to insure performance under the contract. Such securities shall be deposited with the City or with a State or Federally Chartered Bank as escrow agent who shall pay such monies to the Contractors upon satisfactory completion of the contract. The Contractor

shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. Securities eligible for investment under this section shall include those listed in Public Contract Code Section 22300. One definition of just cause for immediate contract termination is, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the contract cannot or will not be completed by the Contractor in its entirety. In the event of such termination, the bonds required shall remain in effect for six (6) months after the date of termination to provide surety that any remedial work required at the time of termination will be completed.

If the Contractor fails to meet the specifications of this contract for any fifteen (15) consecutive or non-consecutive days, the Parks and Maintenance Director, or his authorized agent, may at his option terminate the balance of this contract by written notice of termination to the Contractor. Notice of such termination shall take effect three (3) days after such notice is mailed.

31. COMPLAINTS FROM CITY

The Contractor shall maintain an on-the-job a written log of all complaints which includes the date and time received and the action taken or the reason for non-action. The on-the-job log of complaints shall be available upon request from the City Representative. All complaints shall be abated as soon as possible after notification; but in all cases within 24 hours, to the satisfaction of the Parks and Maintenance Director, or his authorized agent. If any complaint is not abated within 24 hours, the Parks and Maintenance Director, or his authorized agent, shall be notified immediately of the reason for not abating the complaint, followed by a written report to the Parks and Maintenance Director or his authorized agent, within four (4) City working days.

If the complaints are not abated within the time specified, or to the satisfaction of the Parks and Maintenance Director or his authorized agent, the Parks and Maintenance Director, or his authorized agent, may correct the specific complaint and the total cost incurred by the City of Ontario shall be deducted and forfeited from the payments owing to the Contractor from the City of Ontario.

32. CONTRACTOR IS AN INDEPENDENT CONTRACTOR, INDEMNIFICATION

Contractor shall act under the contract as an Independent Contractor thorough the City of Ontario and will not be an agent, or employee of the City. The contractor shall not represent or otherwise hold out itself, or any of its subcontractors, directors, officers, partners, employees, or

agents, to be an agent or employee of the City. Contractors shall indemnify and otherwise hold harmless the City, its officials, officers, directors, employees, agents and other representatives, from all liability, loss, or damage, including reasonable attorney's fees and other costs of defense resulting from damage or injury to persons or property caused, or claimed to have been caused, by acts or omissions of the Contractor, or of any of its subcontractors, directors, officers, partners, employees, or agents in the course of, or in connection with the Contractor's performance under the contract. The Parties agree to cooperate fully in the resolution of any claims for such liability, loss, or damage.

33. SUBCONTRACTOR/ASSIGNMENT OF CONTRACT

Reference is hereby made to the provisions of The Subletting and Subcontracting Fair Practices Act (Government Code Sections 4100, et. seq.), which are incorporated herein and made a part hereof by this reference.

A copy of each subcontract, if in writing, or if not in writing, then a written statement signed by the Contractor, giving the name of the subcontractor, and the terms and conditions of such subcontract, shall be filed with the City before the subcontractor begins work. Each subcontract shall contain a reference to this agreement between the City and the Contractor, and the terms of that agreement between the City and the Contractor and all parts thereof shall be made a part of such subcontract insofar as applicable to the work covered thereby. Each subcontractor shall provide for its annulment by the Contractor at the order of the City, if, in the City's opinion, the subcontractor fails to comply with the requirements of the principal contract insofar as the same may be applicable to his work. Nothing herein contained shall create any contractual relation between any subcontractor and the City or relieve the Contractor of any liability or obligation hereunder.

The contractor shall not assign, transfer, convey or otherwise dispose of this contract, or of his rights of interests in or to the same or any part hereof, without the previous consent in writing of the Parks and Maintenance Director, or his authorized agent. If the Contractor, without such previous written consent assigns, transfers, conveys, or otherwise disposes of the contract, or of his rights or interests therein, the contract may, at the option of the City, be terminated and revoked, and the City shall there upon be relieved and discharged from all liability and obligations arising out of the same to the Contractor, and to his assignee or transferee. No right under the contract, nor any right to any money to become due hereunder, shall be asserted against the City in law or equity by reason of any so-called assignment of the contract, or any

part thereof unless authorized by the written consent of the Parks and Maintenance Director, or his authorized agent.

34. COMPLIANCE WITH THE LAW

Contractor agrees that their performance under this contract shall comply with all applicable laws of the United States of America, the State of California, the county of San Bernardino, the City of Ontario and any other political entity having jurisdiction over the activities of the Contractors. The Contractor State License Board for the State of California has administratively determined in writing that a C-27 Contractor License is required to provide the service as set forth in the contract and specifications. Therefore, each bidder will be required to hold a valid **C-27** Contractor License.

35. PAYROLL

Section 1776, Chapter 1 of Division 2, from the California Labor Code requires that each Contractor and Subcontractor keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and each week, and the actual per diem wages paid each journeyman, apprentice or worker employed by him.

The employee's own payroll records shall be available for inspection, and a copy shall be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standard.

Pursuant to Labor Code Section 1778.8, the Contractor agrees to pay travel and subsistence payments to each workman needed to execute the work in accordance with the applicable collective bargaining agreements filed with the Department of Industrial Relations.

36. LABOR STRIKE

It shall be the responsibility of each contractor to provide continuous contractual services, without any interruption.
In case of any labor strikes, the Contractor shall provide other means, as its own cost, to provide a comparable continuous contractual service as if there were no strike.
Failing to do so will cause the Parks and Maintenance Director, or his authorized agent, to take whatever action is deemed necessary to provide such a service and the cost will be borne by the Contractor.

37. TURF GRASS CARE

A. Turf grass Mowing:

The Contractor shall mow all turf grass with adequately sharpened rotary type mowers as to provide a smooth and even cut without tearing turf grass blades.
The blade adjustment shall provide a uniform, level cut without ridges, depressions, or scalping.
All cool season turf grasses shall be cut with a power-driven rotary mower at a two inch (2") height from November to February and at two and half inches (2 1/2'.') from March to October.

Turf grass mowing heights may be adjusted by the Parks and Maintenance Director, or his authorized agent, during periods of turf grass renovation.

Care shall be exercised to avoid depressions in the established grade from mowing when the soil is saturated.

The Contractor shall submit, in writing, a mowing schedule within ten (10) days after the start of the maintenance contract. This mowing schedule shall be approved by the Parks and Maintenance Director, or his authorized agent. Any alteration of the approved mowing schedule shall be submitted in writing to the Parks and Maintenance Director or his authorized agent, for approval prior to implementation.

B. Turf Grass Edging and Trimming:

Turf grass edging and trimming shall be performed per frequency schedule at the time of mowing.

Edging of turf grass shall be performed with a power edger containing a steel blade, the use of string trimmers (weed eater) to edge turf areas is not a practice acceptable to the City. The use of a stick edger is acceptable.

All turf grass adjacent to sidewalks, curbs, mowing strips, shrub beds, and where no improved surface exists, shall be edged in a neat uniform line.

Where facilities include a softball or baseball field, the infield radius shall be edged regularly to keep radius clearly defined. Grass and weeds shall not encroach into the infield and shall be treated/removed immediately.

Trimming of turf grass shall be performed along walls, and around valve boxes, water meter boxes, backflow devices, trees, shrubs, or any structures located within the turf grass area.

Tree trunk protectors shall be provided and installed, at no additional cost to the City, when string trimmers are utilized for trimming around the base of trees. The City may allow a sixteen-inch (16") diameter mulch ring around trees to eliminate continual string trimming.

A four-inch (4") barren strip shall be provided, and maintained, between turf grass areas and adjacent ground cover. Edging of turf grass and ground cover shall provide uniform delineation adjacent to this barren strip.

Trimming of plant material may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site the same day work is performed and prior to the contractor vacating the work site.

After mowing and edging is completed, all adjacent walkways and gutters shall be swept or blown clean.

Blowing and disposing of grass clippings into the City storm drain system and/or streets shall not be permitted. If found contractor will face liquidating damages as follows;

1st violation$ 1000.00, 2nd violation $ 2000.00, 3rd violation and thereafter $ 3000.00.

C. Turf grass Fertilization

The turf grass shall be continually fertilized a minimum of 3 x per year with additional application if needed, to provide a healthy and vigorously growing turf grass with horticultural acceptable growth and color, as determined by the Parks and Maintenance Director, or his authorized agent.

1. Fertilization shall be performed with a balanced fertilizer, consisting of a 3-1-2 ratio, at a rate of one (1) pound of actual Nitrogen per 1,000 square feet of area. Any change in the

fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the following:

- Location and exact date the fertilizer application will be performed.
- Type of fertilizer and method of application to be used.

3. The Contractor shall immediately irrigate (staff shall be present when irrigating during the day) after each fertilizer application and repair with sod (Dwarf Fescue) any damaged areas due to fertilizer/chemical burn.

4. All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

D. Turf grass Renovation

1. Renovation shall consist of aerating, Verti cutting, thatch removal, over-seeding and top dressing (a minimum of l/8").

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any renovation operation. This written document shall include the location and exact date the renovation will be performed and the type of equipment and materials to be used.

3. Contractors shall remove all renovation-generated debris from the work site the day of the renovation operation and prior to vacating the work site.

4. Light Verti cutting, and thatch removal of warm season turf grass (where present) shall be performed between September 30th and October 15th or as directed by the City Representative.

5. Over-seeding shall be performed within two (2) days after Verti cutting with properly calibrated seeders. Warm season turf grass shall be over-seeded at a rate of ten (10) pounds of seed per 1,000 square feet. A 3-way dwarf type Bermuda grass seed shall be used. Seed tags

shall be provided to the Parks and Maintenance Director, or his authorized agent. Additional over-seeding shall be performed if less than 80% germination occurs within the first month.

6. Top dressing shall be performed using a properly calibrated top-dressing machine and seed shall be topped with one-eight inch (1/8") of weed free topper. The topper must be approved by the Parks and Maintenance Director or his authorized agent and shall not contain steer manure (City reserves the right to provide the topper needed if available and in stock).

7. Reseeding of bare spots shall be performed continually throughout the year to reestablish turf to an acceptable quality. If quality does not meet the City acceptance contractor shall replace with sod (Bermuda grass, Dwarf Fescue or equal).

The Parks and Maintenance Director or his authorized agent, will require the use of sod as a replacement material when deemed necessary. The Contractors shall be entitled to the wholesale cost of the sod only, provided the loss of turf grass was not due to the negligence of the Contractor. Sod shall be Bermuda grass or Dwarf Fescue.

E. Aeration

All turf grass shall be aerated four (2) times per year, once every quarter, starting July 1st. Aeration shall be performed with a ride on or a walk behind an aerator machine which has one-half inch (1/2") to one inch (1") in diameter coring tines spaced no more than six inches (6") apart. The machine shall remove cores from the turf to a depth of 4-6”. Dragging or pulverizing of cores is acceptable.

F. Turf grass Irrigation

All turf grass shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized. Where possible, the turf grass irrigation shall be on a separate program from other plant material irrigation. Turf grass shall be irrigated in a method which promotes deep root growth.

At facilities with softball and baseball infields, Irrigation shall be adjusted so as not to overlap into the infield mix. Any reports of saturated infield mix from irrigation shall be addressed immediately.

38. SHRUB CARE

A. Pruning of Shrubs

Shrubs shall be pruned with sharp pruning tools.

Shrubs shall be continually pruned, as necessary, to prevent encroachment of passageways, walks, streets, and view of signs. Shrubs shall be tapered to provide irrigation coverage and an aesthetically pleasing landscape.

All pruning cuts shall be one-quarter inch (1/4") above a node (bud). No projections or stubs shall be allowed to remain.

After pruning is completed, all adjacent walkways and gutters shall be left clean. Blowing and disposing of any debris into the Storm Drain system and/or streets shall not be permitted. If found, Contractor will face liquidating damages as follows; 1st violation $ 500.00, 2nd. violation $1000.00, 3rd. violation and thereafter $3000.00 and/or possible cancellation of contracts.

During blooming season, vines shall be trimmed minimally so as not to remove floral display areas.

Pruning shall be done to maintain a well-groomed, natural growth habit, and encourage air movement through shrubs.

The Contractor shall remove all clippings the same day shrubbery is pruned and prior to vacating the work site.

Pruning of roses (except for trailing roses) shall be accomplished using the best horticultural practices. The use of hedge shears to prune roses will not be permitted. Roses shall be deadheaded as needed and shall be heavily pruned once per year.

New plantings, once approved by the City Representative, shall take place within a week from the date reported.

B. Shrub Fertilization

Shrubs (including roses) shall be fertilized a minimum of 3x per year or as directed by the Parks and Maintenance Director his authorized agent with a balanced fertilizer specific for the type of plants. Roses shall be fertilized once following heavy pruning and one additional time per year.

Foliar fertilization may be performed when appropriate and will require the approval of the City Representative.

C. Shrub Irrigation

All shrubs shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized. Shrubs shall be irrigated in a method which promotes deep root growth.

D. Shrub Replacement

All damaged, diseased (untreatable) or dead shrubs shall be replaced with the same species plant material that existed (unless a disease situation is discovered affecting the species). Shrubs shall be replaced within 7 days after being identified by the contractor or authorized agent. The size of the replacement plant material is to be determined by the authorized agent. The Contractor shall be responsible for the complete removal and replacement of shrubs lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Substitutions or any plant materials must have prior written approval by the Parks and Maintenance Director, or his authorized agent.

Original plans and specifications may be consulted to determine the correct identification of species.

All shrubs shall be guaranteed to live and remain in a healthy condition for the duration of the contract from the date of installation, inspection and verification by the Parks and Maintenance Director, or his authorized agent.

****Soil build-up around the crown of shrubs shall be continuously removed****

E. Vine Maintenance

Vines shall be trimmed as needed to promote upright growth and shall be kept attached and contained on the structure.

All vines shall be trimmed on a as needed basis by the contractor, the standard of the City is to trim vines one block below the top of the wall, the City understands that its vines in some sites are mature and have grown over the top of the wall, the contractor shall only be responsible to

trim the vines that are solicited by our residents and will have to adhere to the standards herby mentioned. No vines will be allowed to grow in newly installed wood fences or wood fence extensions (above the top of the fence or block wall). Vines shall be trimmed tight and follow horticultural standards.

39. GROUNDCOVER CARE

Groundcovers are low growing plants that grow in colonies to form a solid mat over the surface of the ground. The plants give a flat or two-dimensional effect to the landscape, such as, but not limited to, Honeysuckle, Myoporum, Senecio, Rosemary, Lantana, Ivy (spp.) Salvia (spp.)

A. Edging and Trimming of Groundcover

Edging of groundcover areas shall be performed monthly or as needed.

All groundcover adjacent to sidewalks, curbs, mowing strips, or where no improved surface exists, shall be edged in a neat, uniform line.

All groundcovers shall be continually trimmed at the drip line of all shrubs.

All groundcovers shall be continually trimmed along walls, valve boxes, water meter boxes, backflow devices, or other structures located within the groundcover area as determined by the Parks and Maintenance Director, or his authorized agent. Thinning of groundcovers may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site in a legal manner the same day work is performed and prior to the Contractor vacating the work site.

After edging or trimming, the Contractor shall clean all adjacent sidewalks or gutters.

B. Renovation of Groundcover Areas

Groundcover planting shall be thinned and pruned for the health of the planting and the appearance of the site, or as required by the Parks and Maintenance Director, or his authorized agent.

C. Replanting of Groundcover Areas

Replanting shall be required to maintain the continuity of the groundcover areas that die back after awarding the contract.

Labor and replacement material costs shall be incurred by the Contractor.

D. Groundcover Irrigation

All groundcover areas shall be adequately irrigated to maintain a healthy and attractive appearance.

Irrigation runoff and overspray shall be minimized.

E. Groundcover Fertilization

The groundcover shall be fertilized during growing season, minimum lx per year, to provide a healthy and vigorously growing ground cover with horticultural acceptable growth and appearance, as determined by the Parks and Maintenance Director, or his authorized agent.

Fertilizing shall be performed with a balanced fertilizer, consisting of a 1-1-1 ratio, at a rate of one pound (1 lb.) of actual Nitrogen per 1,000 square feet. Any change in the fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

The Contractor shall immediately irrigate after each fertilizer application.

All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the location and exact date the fertilizer application will be performed, type of fertilizer and method of application to be used.

40. METHOD OF IRRIGATION

If recycled water is being used, it will be the responsibility of the contractor to implement BMP's ("Best Management Practices") to control soil erosion, overspray, ponding and efficient irrigation practices. The use of recycled water shall be limited to the areas designated and approved. The

use of recycled water shall not be permitted during the hours of 6:00 AM through 10:00 PM unless prior approval is received from City Representative. Recycled facility shall be operated in accordance with the best BMP's to prevent direct human consumption and to minimize misting, ponding and runoff. BMP's shall be implemented that will minimize both public contact and discharge onto areas not under contractors control. Contractor shall ensure that the recycled water systems are maintained, operated, and repaired at all times in a manner that does not cause illness or injury to any person and in a manner that does not cause damage or injury to the real or personal property of any person or entity. All recycled water sites shall be in compliance with the City of Ontario Utilities Department. Contractor shall be responsible to maintain and replace all items after annual inspection pertaining to proper recycling water designation, items to include but not limited to (head color designation, tags etc...).

A. GENERAL IRRIGATION USES

- All windblown spray and surface runoff of recycled water applied for irrigation onto property not owned or controlled by the discharger or recycled user shall be prevented by implementation of BMP' s.

- Irrigation with recycled water shall be between the hours of 9:00 PM and 6:00 AM to be able to minimize public use of the service area.

- Facilities that might be used by the public, including but not limited to eating surfaces and located within the approved used areas, shall be protected to the maximum extent possible from contact by irrigation with recycled water spray, mist or runoff.

- It is the responsibility of the contractor to communicate to their workers the potential health hazards associated with contact or ingestion of recycled water and shall be educated about proper hygienic practices to protect themselves and their families.

- Workers and the public shall not be subjected to recycled water overspray.

- Contractor shall be responsible for the training and certification on recycled water use of any staff assigned to work in the facility.

Irrigation shall be performed by the use of a Central Irrigation System (Calsense), local automated systems or manual sprinkler systems where available and operable. Contractor shall be required to monitor the computer system daily by retrieving alert/reports from the lobby area of the Public Works Agency (1425 S. Bon View Avenue, Ontario, CA.) once per day no later

than 9:00 AM, contractor shall sign in every day when picking up paperwork. Completed alert/reports shall be returned to the City representative within 48 hours. Failure to do so will result in a non-compliance report and will be handled per contract specifications. Returned reports shall be accompanied with a written explanation of the problem and the repair. However, failure of the existing irrigation system to provide full and proper coverage shall not relieve the Contractor of the responsibility to provide adequate irrigation with full and proper coverage to all areas in the work site. All areas receiving marginal coverage shall be irrigated by portable irrigation method. The contractor shall furnish all tools/equipment necessary.

41. IRRIGATION INSPECTION

The Contractor shall initially inspect and familiarize themselves with the entire irrigation system at all work sites and identify all needed repairs.

Required repairs shall be submitted to the Parks and Maintenance Director, or his authorized agent, in a written statement within two (2) weeks after the start date of the Maintenance Contract. If a written statement, which documents required repairs, is not received by the authorized agent, within the stated timeframe, the entire system shall be interpreted as fully operational, and deemed acceptable by the Contractor and will become his sole responsibility to maintain. The City shall review and verify all submitted problems, repairs may be completed by the following methods:

1. Authorized the Contractor to make appropriate repairs at the expense of the City as described in Section 5.

2. Use City forces to make required repairs.

3. Use another source to make required repairs.

Upon completion of such repairs, the Contractor shall sign-off each individual area as being fully operational.

A. The Contractor shall file a monthly statement with his invoice certifying that all irrigation systems are functioning properly. If the Contractor fails to submit this statement, the invoice will be rejected until the date the statement is received.

B. The Contractor shall inspect the operation of the irrigation system on a weekly basis for any malfunctions. In addition to regular testing, all irrigation systems shall be tested and inspected as necessary when damage is suspected, observed, or reported.

C. All system malfunctions, damage and obstructions shall be recorded, reported to the Parks and Maintenance Director, or his authorized agent, and corrective action taken.

42. IRRIGATION MAINTENANCE AND REPAIRS

A. The Contractor shall maintain all irrigation systems, at no additional cost to the City, in such a way as to:

- Guarantee proper coverage and full working capability.

- Make whatever adjustments may be necessary to prevent overspray or excessive runoff into street rights-of-way or other areas not meant to be irrigated.

B. The Contractor shall repair or replace at no additional cost inoperable irrigation equipment to maintain a fully operational system, including but not limited to, pressure pipes from the water meter to the control valves, all irrigation non pressurized pipes, all manual and automatic valves, filters, basket strainers, pressure regulators, sprinkler heads, irrigation clamps and stakes, anti-drain valves, quick couplers, electrical wiring from the controller to the solenoid valves, emitters, drippers, valve boxes, controllers, valve markers, batteries, fittings and risers shall be the same as to removed manufacturer items unless prior approval has been granted by City representative in writing. The contractor shall test all backflows and submit to the City the appropriate test form once completed (contractors' cost). Any device that fails to pass, the contractor shall report to the City for needed repairs and re-inspection.

Maintenance includes, but is not limited, tightening loose fittings and packing nuts; flushing sprinkler heads, pipes, nozzles, valves, filters, strainers, and backflow devices; adjusting sprinkler heads for proper coverage and to avoid irrigating hardscape including softball and baseball infield radius; anti-drain valves and pressure regulators, adjusting and lubricating controllers; and cleaning drip emitters, replace batteries for battery operated valves and maintain solar operated valves, relocation of irrigation mainline or lateral lines due to tree placements and roots. The Contractor shall be responsible for replacing recycled (purple) valve box lids and controller boxes, as needed and or as directed by City Representative. Labor shall be provided at no additional cost to the City.

C. Irrigation repairs shall be made within the following time limits:
Mainline irrigation breaks shall be repaired within two (2) hours of identification or notification. All other irrigation repairs shall be made within one (1) day of identification or notification.

D. Replacement of irrigation components shall match city approved equipment list. Substitutions must be approved by the Parks and Maintenance Director, or his authorized agent, in writing prior to installation.

43. WATER CONSERVATION

The Contractor shall turn off all irrigation systems during periods of rainfall and/or times when suspension of irrigation is desirable to conserve water while remaining within the guidelines of good horticulturally acceptable maintenance practices.

The Contractor shall comply with all City of Ontario Ordinances and/or Resolutions, which relate to water conservation.

Failure to comply shall result in an equitable amount deducted from the Contractor's payment.

44. CONTROLLER PROGRAMMING

A. Adequate soil moisture will be determined by programming the automatic sprinkler controllers as follows:

Whenever possible, automatic irrigation shall be programmed to operate between the hours of 9:00 P.M. to 8:00 A.M. The Contractor shall be responsible for reprogramming the controller during inclement weather to conserve water.

Consideration must be given to the soil conditions, seasonal temperatures, wind conditions, humidity, runoff and erosion potential, and the relationship of conditions which affect day and night watering.

Extremely close attention shall be paid to the demands of the plants as influenced by their exposure to sun or shade. Also, the variation in the size of plants, as well as varietal differences must be considered.

The irrigation system will be controlled by the contractor in such a way as not to cause an excessively wet area which could interfere with the Contractor's ability to mow all turf grass.

C. The Contractor, at the request of the Parks and Maintenance Director or his authorized agent, shall submit a copy of the irrigation schedule for each individual controller. This information is to be readily available upon request or available at the controller.

D. All landscape and turf areas shall be irrigated as required maintaining adequate growth and appearance with a schedule most conducive to plant growth.

45. IRRIGATION CONTROLLER

A. The Contractor shall maintain controller as-builts (controller charts) inside each controller cabinet where available.

B. All controller enclosures shall receive a granular chemical application as needed to prevent pest infestation. Any damages resulting from any insect infestation due to failure to apply the chemical shall be repaired/replaced by the contractor (no expense to the City).

C. Controllers and dome antennas shall be inspected and cleaned by the contractor 4 x per year and report damages or maintenance needs.

46. TREE CARE

A. Tree Trimming

The Contractor shall be responsible for all tree under-trimmings, including the removal of palm fronds and flower stalks (if present). All trees are to be under-trimmed to ensure public and vehicle safety or as directed by the Parks and Maintenance Director, or his authorized agent. Contractor shall have a Certified Arborist on staff to meet the following criteria:

Contractor shall prune palm trees at no extra cost to the City (dead fronds and flower stalks) annually, removal of fruit (dates) if present shall be done twice per year as designated by the Parks and Maintenance Director or his authorized agent.

Trees shall be pruned at no extra cost to the City on a cycle of once every three years, contractor to create a myOntario App once the trees have been completed under the Tree section and have the City representative inspect them. The contractor shall not leave the site until the work has been completed, approved and released by the City representative.

The Contractor shall notify the Parks and Maintenance Director, or his/her authorized agent, except when pruning is required for public safety. Once all trees are trimmed, a formal

(Company letterhead) record of the work performed with time, date, location, type of tree, removal percentage and staff assigned to do the work. Any tree that is not trimmed by the end of 3-year cycle shall be deducted from the final billing of the maintenance contract.

All trees in the work site shall be maintained in their natural shapes. This work shall be accomplished in a manner which will ensure that each individual tree is under-trimmed carefully to promote the tree's health and appearance.

All work shall be of the highest quality and performed in accordance with City approved tree trimming standards.

All trees shall be pruned within forty-eight (48) hours upon notification to remove or prevent encroachment where it blocks vision, or encroaches in any manner deemed undesirable by the Parks and Maintenance Director or his authorized agent.

All trees shall be continually maintained free of all dead, diseased and damaged branches back to the point of breaking. In cases where the dead, diseased or damaged branches are beyond the reach of a tree pruning pole saw being operated from ground level, the Contractor is to notify the City within 24 hours. Cuts must be made flush with the collar to promote proper healing. Pruning tools shall be adequately sharpened to provide clean cuts and shall be properly sterilized to reduce spread of disease.

All sucker growth is to be removed from trees as it occurs.

The Contractor shall maintain all branches which encroach on or over sidewalks at a minimum height of ten feet (10') clearance. The Contractor shall notify the city within 24 hours of any branches encroaching beyond the curb line into the street that cannot be reached with a pole saw.

All branches which encroach over private property shall be removed as directed.

The Contractor shall not remove or disturb any tree central leader without prior written approval from the Parks and Maintenance Director, or his authorized agent.

The Contractor shall include the removal of 20 trees per year with a DBH not to exceed 20” as part of his bid package and a unit price to perform an individual complete tree trim, and individual tree removal price. Contactor shall create a final work order using myOntario App

once the trees have been trimmed, the City representative will inspect once the App has been closed as completed for release.

B. Tree Staking/Guying

The Contractor shall, at no additional cost to the City, stake and tie all trees which require support. City does not provide stakes and ties. Tree stakes shall be 3” x 10’ wooden lodge poles. Two (2) tree stakes are required per tree.

Guy wires, where required, will be of pliable zinc-coated ten-gauge wire (three ties per tree), and shall have a white PVC sleeve for visibility. Guy wires shall be kept tight enough to promote natural movement of the tree. The contractor shall periodically check the tension in the guy wires.

Trees shall be secured to stakes with cinch ties or equivalent. The Contractor shall not use wire and hose. Stakes shall not be placed closer than eight inches (8") from the tree trunk.

C. Stakes and ties shall be placed so no chafing of bark occurs and shall be checked frequently, and retied as necessary, to prevent girdling.

D. Tree Replacement

1. The Contractor shall be responsible for the complete removal and replacement of trees lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Where there is a difference in value between the tree damaged by the Contractor and the replacement tree, this difference may be deducted from the Contractor's payment.

In all cases, the value of the trees lost will be determined by the Parks and Maintenance Director, or his authorized agent, using the latest ISA Guide for Plant Appraisal.

2. Unsalvageable downed trees, due to any cause (windstorm etc...), shall be removed, the stump ground to a depth of eighteen inches (18"), the stump grinding debris removed and the hole refilled with compatible topsoil and compacted within 48 hours of identification or notification. If the tree is in the public right-of-way or creating a public hazard, the tree is to be cut back to a 12" stump immediately upon notification and removed. Then within 48 hours, the stump is to be removed and the hole filled with compatible topsoil and compacted. This work shall be considered and EWA and invoiced to the city.

3. Trees lost from causes other than the Contractor's negligence shall be replaced by the Contractor with a twenty-four (24") box tree and billed as "Additional Work". The Parks and Maintenance Director, or his authorized agent may specify a species of tree for replacement different from the one lost.

E. Tree Irrigation

All trees shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized.

Trees shall be irrigated in a method which promotes deep root growth. The contractor shall provide manual deep watering to those trees that show decline.

47. WEED CONTROL

Weeds are defined in the dictionary as:
“A wild plant growing where it is not wanted and in competition with cultivated plants."
When classified by their gross morphological features, weeds are broken down into three major categories: grasses, sedges, and broadleaf weeds.
Full control of these 3 categories of weeds will be achieved with a combination of selective and non-selective herbicides as well as mechanical removal. **Weeds should not be visible.**
All areas within the specified maintenance area, including but not limited to, turf grass, shrub and ground cover areas, planters, tree wells, landscape areas, and softball/baseball infields shall always be kept free of weeds.

Weed removal shall consist of complete removal of all weeds, including top growth and roots.
Weed control shall be performed as needed.
Weeds shall be controlled either by hand, mechanical or chemical methods; however, the Parks and Maintenance Director, or his authorized agent, may restrict the use of chemical weed control in certain areas.

48. DISEASE AND PEST CONTROL

The Contractor shall regularly inspect all landscaped areas for the presence of disease, snail, insect, or rodent infestation. The Contractor shall report any applied treatments within their next monthly billing. The Contractor shall identify the disease, snail, insect or rodent and specify control measures to be taken. The Contractor shall implement control measures, exercising extreme caution in the application of all spray materials, dust or other materials utilized.

Approved control measures shall be continued until the disease, snail, insect, or rodent is controlled to the satisfaction of the Parks and Maintenance Director, or his authorized agent. The Contractor shall utilize all safeguards necessary during disease, snail, insect, or rodent control operations to ensure the safety of the public and the employees of the Contractor.

The Contractor shall perform, at their sole expense, the following services:

All work involving the use of chemicals will be accomplished by a State of California licensed pest control operator. A written recommendation by a person possessing a valid California Pest Control Advisor License for each chemical used is required prior to chemical application where required by law.

All chemicals requiring a special permit for their use must be registered by the Contractor with the County Agricultural Commissioner's Office and a permit obtained with a copy from the Parks and Maintenance Director, or his authorized agent, prior to use.

A copy of all forms submitted to the County Agricultural Commissioner shall be given to the Parks and Maintenance Director, or authorized agent, monthly.

49. USE OF CHEMICALS

The Contractor shall submit a list of all chemical herbicides, pesticides, and rodenticides proposed for use under this contract for approval by the Parks and Maintenance Director or his authorized agent with the signed contract. Materials included on this list shall be limited to chemicals approved by the State of California Department of Food and Agriculture and shall include the exact brand name and generic formulation. The use of any chemical on the list shall be based on the recommendations of a California State Licensed Pest Control Advisor where required by law.

The use of chemicals shall conform to the current San Bernardino County Agriculture Commissioner regulations. No chemical herbicide, rodenticide or pesticide shall be applied until its use is approved, in writing, by the Parks and Maintenance Director, or his authorized agent as appropriate for the purpose and area proposed.

Required spray equipment will consist of at least one (1) medium spray rig of 100-gallon (minimum) capacity or more and backpack sprayers provided for each crew performing chemical landscape maintenance.

50. TURF BROADLEAF

Control of broadleaf weeds shall include proper notification with chemicals to be used, date, and time to the Parks and Maintenance Director, or his authorized agent. prior to starting date for approval. Frequencies will be twice per year.

51. LITTER

All areas in the work sites shall be kept free of, but not limited to, the following items: bottles, glass, broken glass, cans, paper, cardboard, metallic items, feces, leaves, tumbleweeds, and other debris on a daily basis.

The Contractor shall promptly remove from the work area all debris generated by their performance and dispose of the debris in a legal manner. The City does not allow any dumping of debris generated by your daily work in City facilities. Illegal dumping picked up by contractors shall be brought up to the City yard for proper disposal. Excessive dumping (above and beyond reasonable) after long holiday weekends and special events shall be reported immediately to the City Representative.

Hazardous waste as well as homeless belongings shall not be picked up. The contractor shall contact City Representative to arrange proper disposal by City forces. A myOntario App service request shall be created to report the hazardous conditions.

52. GRAFFITI

A. The Contractor shall remove any graffiti upon discovery within their contractual areas. Extreme caution shall be placed on areas that get tagged to make sure that they get cleaned up with materials that do not damage the finish product (PVC Vinyl fence) and are biodegradable. Issues of graffiti outside their contractual obligations shall be reported to the Graffiti Hot Line 909-395-2626 or create a service request within the myOntario App.

B. Issues of the above normal graffiti vandalism within the contractor's contractual area shall be reported to the City representative upon finding. Phone call, text, or creation of a myOntario App service request are acceptable methods of communication to the City Representative. The City reserves the right to request an outside contractor to help with the cleaning or will have the right to request that the contractor performs the work as an additional cost to the City.

C. If graffiti cannot be removed and needs to be painted over, cover up paint shall match existing paint. Graffiti on sidewalks shall be removed with a hot steam pressure washer. Painting of sidewalks over graffiti shall not be allowed.

53. GENERAL

A. Trash Removal

Remove all trash and accumulated debris from the work sites daily. In addition, any type of feces is also to be removed from the walkways, turf or ground cover areas and dumpster areas.

B. Policing of Areas

All maintained areas shall be policed based on frequencies.

C. Curb and Gutter Maintenance

The Contractor is responsible for the removal of all weeds and grass growing in and around the curb and gutter area monthly. The Contractor is responsible for ensuring the roadway is cleared of all dirt and debris within four (4) feet of the curb and gutter in all areas adjacent to maintenance responsibilities.

D. Walkway Maintenance

Walkways shall be cleaned immediately following mowing and edging and cleaned by use of power sweeping or blower equipment. All walkway cracks and expansion joints shall always be maintained weed and grass free.

E. Drain Maintenance

All drains and catch basins shall always be kept free of siltation and debris. All V-ditches and drainage areas shall be kept clean and edged weekly by the Contractor. Cleaning of drain basins shall be done monthly, Contractor shall inspect weekly to make sure that grates are secured, if missing, Contractor shall replace at City's expense. Damaged grates due to Contractor's operations shall be replaced at Contractors expense.

F. Removal of Leaves

Accumulation of leaves shall be removed from all designated landscape areas monthly and under trees once per month or more as needed.

G. Hardscape Power Wash

All concrete areas shall be cleaned using a power washer (hot steam cleaning washer) to remove soda spills, gum and other stains that might be present. The City Representative will make the final determination if the service is needed.

The use of a biodegradable cleaner (soap) is required and permitted. Containment of contaminated soapy water shall be the responsibility of the Contractor.

54. REPAIR AND SERVICE OF WALKWAYS AND MISCELLANEOUS IMPROVEMENTS

Walkways and Service Roads - All walkways and service roads, if any, shall be maintained by the Contractor to keep the integrity of the walking or driving surface in a safe, unimpaired condition.

The Contractor will not be responsible for total replacement of roadways or walkways as a result of normal deterioration but will be required to replace all improvements damaged by his negligence.

It will be the responsibility of the Contractor to repair or replace miscellaneous improvements such as signs and mowing strips, or any other structural improvements within the work sites, unless otherwise specified. The Contractor shall be entitled to additional compensation for these services as stated. The contractor shall communicate any improvements needed prior to repairs to the Parks and Maintenance Director or his authorized agent for proper approvals.

55. MULCH

Mulch beds shall be replenished 2 times per year at the Contractor's cost. The City may provide the mulch if additional mulching is needed. If City provided, the Contractor will be responsible for loading the mulch at the City yard at 1425 S Bon View.

56. DECOMPOSED GRANITE/GRASS PAVER AREA

Contractor shall be responsible to drag with cocoa mat or similar and rake all decomposed granite areas monthly and to replenish displaced or missing material at his own cost as needed. Moistening the material and use of a mechanical compactor is required when backfilling DG areas. Decomposed granite areas are to keep a grading that is acceptable and safe to walk on. In the event of inclement weather, the City will compensate the contractor for the replacement of material for the damage created by the storm.

57. RODENT CONTROL

All areas shall be maintained free of rodents causing damage to turf, shrubs, and groundcover areas (gophers, squirrels etc.) by using Gophernator or trapping. Any activity that affects holes, mounds, etc. will be raked and backfilled after control.

58. CITY OF ONTARIO myOntario App (FREE)

Contractor shall download the free myOntario App for the purpose of tracking completed specialty tasks (mulching, vandalism, vehicular damage, rose trimming, fertilizations, chemical applications, illegal dumping, hazardous waste, pruning shrubs, downed branches and rodent control, restroom issues). All specialty tasks shall be recorded as a service request using the app order system and shall be reported to the city representative when completed. City staff will close the service request.

59. TRASH CONTAINERS

Contractors shall remove all litter, replace liners as needed, and check the condition of the trash container and hardware. Containers shall be replaced as needed (City to provide). Contractor shall use liners that are a minimum of 1.5 mil and be clear or black in color. Trash containers shall be inspected daily, seven days per week.

Trash containers shall be painted at least once per year as directed by the Parks and Maintenance Director, or his authorized agent. Contractor to provide labor and material. Container holders should be set so that the bottom of the container is 12” from the surface of the ground. Bent or broken container holders must be repaired, reset, or replaced ASAP.

NOTICES

Any notice, demand, request, consent, approval, or communication that either Party desires, or is required to give to the other Party or any other person, shall be in writing and either served personally, sent by prepaid, first-class mail, or by email followed by mailing of said notice.

PERFORMANCE/PAYMENT BONDS ON THE NEXT PAGE

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Priority Landscape Services, LLC.** a **CORPORATION, LIMITED LIABILITY COMPANY,** with its principal place of business at **1524 West Mable Street, Anaheim, CA 92802** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Landscape Maintenance Services for Former Redevelopment Sites** to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Landscape Maintenance Services for Former Redevelopment Sites PM 2425-03** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027**, unless earlier terminated as provided herein Contractor shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The

Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Five Hundred Ninety-Two Thousand Two Hundred Dollars ($592,200)** without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income

tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Philip Marino, Urban Forestry Manager**, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **Michael Rocha, Regional Manager**, or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to

the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Two Hundred Seventy Dollars with Zero Cents ($270)** per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to

immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and

policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be

promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The

surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been

transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, “Claims”) in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor’s Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys’ fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor’s indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City’s choosing and at Contractor’s own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such

claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

Priority Landscape Services, LLC
1524 West Mable Street
Anaheim, CA 92802
Attn: Michael Rocha, Regional Manager

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Philip Marino, Urban Forestry Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this

Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third-party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

SCOPE OF SERVICES

1. SCOPE OF WORK

A. The intent of this Agreement is to secure a contractor(s) who shall provide Landscape Maintenance Services for the Economic Development Sites PM 2425-03.

B. The Contractor shall furnish all labor, tools, materials, and equipment to provide the landscape maintenance and repairs as set forth in this Agreement.

C. All Work shall be done in a professional, thorough, and workman like manner to the satisfaction of the Parks and Maintenance Director, or his/her authorized agent, and comply with all legal construction and landscape maintenance practices. The premises shall always be maintained at the level of service provided for in these specifications. The Contractor shall have the duty to provide complete landscape maintenance of all the project areas, including, but not limited to, the following: Fertilize, under-trim trees and shape shrubs, trim ground cover areas, mow, and edge turf grass areas. Consistently maintain the project areas with horticulturally acceptable growth and color. Consistently maintain the project areas to be devoid of weeds. Consistently maintain the project areas to be devoid of weeds five (5) feet out into the curb, gutter and street. Consistently maintain the project areas to be devoid of diseases, rodents and pests. Consistently maintain the project areas to be devoid of litter. Consistently maintain the project areas to be devoid of safety hazards. Consistently maintain the project areas to be devoid of unsafe walkways. Consistently maintain the project areas to be devoid of blocked drainage systems. Consistently maintain the project areas to be devoid of malfunctioning irrigation systems. Consistently maintain the project areas to be devoid of graffiti and paper like signs. Program, monitor, adjust and maintain all irrigation system clocks, and perform extra work as directed and approved.

E. The Contractor shall be available twenty-four (24) hours a day, seven (7) days a week to respond to all emergencies within two (2) hours of notification. Emergencies that involve maintenance work included in these general conditions shall not be compensated.

F. The Contractor shall perform a weekly maintenance inspection, during daylight hours, of all areas. Such an inspection shall be both visual and operational. It shall include, but not be limited to, the operation of all irrigation and/or other mechanical systems to check for proper condition and reliability.

2. WORK SITE

Work sites may include parks, medians, trails, weed abatement areas, and parkways.

The City reserves the right to make additions or deletions under this contract with written notice to the Contractor. The monthly compensation shall be adjusted by the monthly unit cost per square foot if any changes result in an increase or reduction in square footage maintained. Compensation shall be based on a-per unit cost (bid schedule form submitted) of work completed.

3. LENGTH OF CONTRACT

This **PRIMARY** contract shall begin **July 1, 2024, and shall terminate on June 30, 2027.**

The **FIRST** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2027, through June 30, 2028,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

The **SECOND** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2028, through June 30, 2029,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

All optional extensions of the contract are subject to approval by the City Manager, or his authorized agent, and are contingent upon funding and performance by the Contractor.

4. DEFINITIONS

Where "as directed", "as required", "as permitted", "approved", "acceptance", or words of similar importance are used, it shall be understood that the direction, requirement, permission, approval or acceptance of the Parks and Maintenance Director, or his authorized agent, is intended unless otherwise stated.

The use of the word "Contractor" shall be held to mean the Contractor and/or any person employed by the City of Ontario, Parks and Maintenance Director, or his/her authorized agent and working under this contract.

The use of the words "shall" and "may" shall be held to mean "mandatory" and "permissive" respectively.

The use of the words "his" or "him" shall be construed to mean either gender, as appropriate. The use of the words " Parks and Maintenance Director " shall be construed to mean either the Parks and Maintenance Director or his authorized agent(s).

The words "City working day" refers to Monday-Friday, 6:30 a.m. to 4:00 p.m.

5. VANDALISM/THEFT/DAMAGE

Contractor shall be responsible for performing maintenance, repairs, and replacement of existing landscaped areas which are maintained under this contract and damaged or altered in any way as a result of theft, vandalism or mysterious damages that do not result from the performance of the Contractor.

In the case of vandalism to the maintained areas (Damage by Unknown Circumstances), Contractor shall notify the City within 24 hours using the free myOntario App. Graffiti will be entered under the “graffiti “Tab. All other Vandalism will be entered under the “Parks” Tab. In addition, EXCEPT in the case of graffiti, a text or email must be sent to the City’s Representative within 24 Hours detailing the Vandalism.

The use of red "Danger" tape shall be used when an area is unsafe for the public by the end of the workday.

The repairs shall be made within 24 hours of receiving a notice to proceed by text or email. At no time shall damage by unknown sources remain unrepaired for a period exceeding 72 hours.

Additional compensation will be provided only for costs that are directly related to the theft and/or vandalism.

The following conditions shall be met prior to the Contractor being reimbursed for "Damage by Unknown Circumstances".

6. VANDALISM/THEFT/DAMAGE BIDS

Contractor shall submit an itemized EWA (Extra Work Authorization) within 24 hours to the City's Representative. Contractor shall secure written authorization for the repairs by the Parks and Maintenance Director, or his authorized agent within twenty-four (24) hours by e- mail or text. For emergencies regarding public safety, a verbal or text approval by the Parks and Maintenance Director, or his authorized agents, may be obtained.

7. COMPLETION OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Work is to commence within twenty-four (24) hours after receiving City approval.

B. The work shall be inspected and released as complete by the City representative, and then invoiced as specified in section (8).

8. INVOICING OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Contractor shall submit on business letterhead, a photocopy of the original EWA describing individual material costs and an invoice with line items for material costs, labor costs and administrative costs. The cost estimate for additional work shall consist of the following elements: **Base cost of labor plus Fifteen percent (15%) for overhead and profit. Actual cost of materials plus fifteen percent (15%) for overhead and profit.** City reserves the right to ask for payroll records and vendor invoice if discrepancies on the bid exist. Materials may be provided by the City of Ontario.

B. Contractor shall submit a copy of a report filed with the City of Ontario Police Department, which relates to the specific incident if required by the Parks and Maintenance Director or his authorized agent.

9. ADDITIONAL (EXTRA) WORK (EXTRA WORK AUTHORIZATION or EWA)

A. The Parks and Maintenance Director, or his authorized agent, may, at his discretion, authorize the Contractors to perform additional work. Additional work (work not related to "Damages by Unknown Circumstances") shall be defined as work not included in this Agreement.

B. Prior to the Contractor performing any additional work, the Contractor shall prepare and submit a written description of why the additional work is required, what type of work is proposed, and a cost estimate for the additional work as stated. No work shall commence

without written authorization from the Parks and Maintenance Director, or his authorized agent. Notwithstanding the above authorization, when a condition exists where there is imminent danger of injury to the public or damage to property, the Parks and Maintenance Director, or his authorized agent may verbally authorize the work to be performed upon receiving a verbal estimate from the Contractor. However, within twenty-four (24) hours after receiving a verbal authorization, the Contractor shall submit a written estimate to the Parks and Maintenance Director, or his authorized agent, for approval.

C. The cost estimate for additional work shall consist of the following elements:

Base cost of labor plus fifteen percent (15%) for overhead and profit.

Actual cost of materials plus fifteen percent (15%) for overhead and profit (invoice from vendor shall be attached to each invoice turned in for payment).

The city reserves the right to ask for payroll records. Materials may be provided by the City of Ontario.

D. Written authorization from the Parks and Maintenance Director, or his authorized agent, shall be by the issuance of a change order or signed bid. This change order or signed bid shall be considered an amendment to this Agreement and approved by the Parks and Maintenance Director, or his authorized agent, and Contractor.

E. All additional work shall commence on the agreed date and shall diligently proceed until completion. Contractor could use the labor force assigned to the contractual maintenance tasks to perform additional work if prior approval has been granted by the City representative.

F. Upon completion of the additional work, the Parks and Maintenance Director, or his authorized agent, shall be notified so that the work may be verified.

G. The Contractor shall submit an invoice for compensation with attached photocopies of original invoices for materials and a copy of signed bid. Compensation shall not exceed the written estimate. The Contractor's invoice shall be subject to audit and review by the City prior to payment.

H. The City of Ontario reserves the right to repair or contract with a third Party to perform such additional work (if bids are not received within 72 hours of official request and or if the proposed costs do not concur with contractor's labor rates and cost of materials)

10. CONTRACTOR LIABILITY

A. All damage to existing improvements located within areas and adjacent to areas under construction, which in the opinion of the Parks and Maintenance Director, or his authorized agent, are due to the Contractor's operation, shall be repaired or replaced at the Contractor's expense with exact (existing) materials and in an approved manner.

B. Such repairs or replacements shall be performed by the Contractor at no cost to the City and shall be accomplished as directed by the Parks and Maintenance Director or his/her authorized agent. Repairs shall be made immediately after damage or alteration occurs. Deductions shall be made from the Contractor's payments in the amount necessary to compensate the City for such repairs in the event such repair work is done by City forces, or another source.

C. Irrigation damage shall be repaired or replaced within the following time limits: Irrigation entities such as, but not limited to, (risers, heads, backflow device and cages, controllers, basket strainers, pressure regulators, irrigation wires and valves, valve boxes, irrigation pumps, ET gauges, rain buckets, antennas, flow sensors, and landscape lighting equipment) that are damaged during regular routine maintenance and become non-functional or non-efficient shall be replaced immediately. Mainline irrigation breaks shall be repaired within two (2) hours of being notified. All other irrigation repairs and/or replacement shall be completed within 24 hours of being notified. (In the event that the mainline repairs require specialized parts and or materials, the contractor shall be responsible to request from the City additional time to complete the repair/s)

D. All damage to turf grass, groundcover, shrubs, or trees, shall be repaired or replaced within three (3) working days of being notified. Damage to turf shall be repaired by replacement with the appropriate variety of bermudagrass sod or seeded with warm season seed and topper added. Damage to groundcover shall be repaired by replacement with the appropriate variety of plant material. Size and spacing shall be determined by the Parks and Maintenance Director, or his authorized agent. Damage to shrubs may be corrected by appropriate pruning; however, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the damage is severe, the shrub (in its entirety) shall be removed and replaced with a similar variety and size.

E. Damage to trees shall be repaired in the following manner:

Minor damage, such as bark lost from mechanical equipment shall be remedied by a certified Arborist. If the damage results in the loss of the tree, or, if in the opinion of the Parks and Maintenance Director or his authorized agent, the damage is severe, the damaged tree shall be removed and replaced with a similar variety and size. All damage resulting from chemical application and/or operation, either by spray-drift, improper application, lateral leaching, or other means shall be corrected in accordance with the previous provisions and the soil conditioned to ensure its ability to support plant life. All work shall be inspected, verified, and completed to the satisfaction of the Parks and Maintenance Director, or his authorized agent.

11. INSPECTION/DRIVE

The City and an appointed representative of the Contractor shall conduct a once-a-month walkthrough to inspect each individual work area. It is the responsibility of the Contractor to set up the inspection time(s) five (5) working days prior to the walkthrough/inspection. It is a requirement that a six to twelve (6-12) month master calendar be set up within 30 days of the award of the contract to insure coordinated dates of inspection. This inspection is to ensure adequacy of maintenance, methods of performing the work are in compliance with the contract and allow all deficiencies to be corrected prior to invoice submission and payment. However, this shall not be construed to relieve the Contractor of the duty to provide continuous inspection of individual work areas. Discrepancies and deficiencies in the Contractor's work shall be brought to the attention of the Contractor and corrected in the manner prior to invoicing and payment.

12. HAZARDOUS CONDITIONS

It shall be the Contractor's responsibility to inspect, and identify, any condition(s) that renders any areas within this Agreement unsafe, as well as any unsafe practices occurring thereon. The Parks and Maintenance Director, or his authorized agent, shall be notified immediately using the myOntario App, as well as text or phone call, of any unsafe condition that requires major correction.

The Contractor shall be responsible for making minor corrections including, but not limited to, filling holes in landscaped areas, diverting water sheet flow, using barricades, danger tape or traffic cones to alert persons of the existence of hazards and replacing valve box covers so as to protect all persons from injury.

The Contractor shall inspect all work sites for hazards, or potential hazards in the contractual areas daily.

During the required inspection of all work sites for hazards, or potential hazards, the Contractor shall immediately contact the City representative (either e-mail or text) indicating the condition, date, and the area that was inspected and a work order should be created using the myOntario App.

The Contractor shall cooperate fully with the City of Ontario in the investigation of any accidental injury or death occurring on the premises, including the submission of a complete written report thereof to the Parks and Maintenance Director within three (3) days following the occurrence.

13. REMOVING OBSTRUCTION AND MAINTENANCE OF EXISTING IMPROVEMENTS

Where the work is to be constructed in, or adjacent to, areas which have been improved by lawns, trees, shrubs, or gardens, the Contractor shall remove such trees or plants as may be necessary for the prosecution of the work and give them proper care and attention until the work has been satisfactorily completed, after which the Contractor shall replace them in as nearly the original condition and location as is reasonably possible. Where it is necessary to deposit the excavated materials on lawns during the process of construction, the Contractor shall first lay burlap or canvas on the lawn to prevent contact between the excavated material and turf grass. Unless otherwise indicated in the contract documents, all utility lines, conduits, wires, or structures shall be maintained by the Contractor and shall not be disturbed, disconnected or damaged by them during the progress of the work, provided, that should the Contractor in the performance of the work disturb, disconnect, or damage any of the above, all expense, arising from such disturbance, or in the replacement or repair thereof, shall be borne by the Contractor. However, in accordance with Section 4215 of the California Government Code, the Contractor shall be compensated 1) for the cost of locating and repairing damage to main or trunk line utility facilities located on the job site, not due to the failure of the Contractor or exercise reasonable care; 2) for costs of removing or relocating such utility facilities not indicated in the contract documents with reasonable accuracy; and 3) for the operation cost for equipment on the project necessarily idled such work.

At least two (2) working days prior to commencing any excavation pursuant to this Contract, the Contractor shall contact Underground Service Alert at (800) 422-4133 or other appropriate regional notification center if the excavation will be conducted in an area which is known, or reasonably should be known, to contain subsurface installations.

14. CONTRACTOR STAFF

The contractor shall provide the manpower as a minimum staffing requirement to comply with the performance of the landscape/irrigation maintenance specifications and requirements of the site.

The Contractor shall furnish one (1) supervisor with a minimum of 5 years of landscape and irrigation maintenance experience and sufficient supervisory and working personnel capable of promptly accomplishing all tasks on schedule, to the satisfaction of the Parks and Maintenance Director, or his authorized agent, all work required under this contract during the prescribed hours (6:30 AM to 4:00 pm). **Staffing shall be as needed plus any additional workforce to complete the maintenance/construction tasks required on the frequency page.** Payment will be based upon completed, acceptable work, Irrigation technician and spray technician to be provided as needed (personnel needs do not address the alternates per bid forms). Incomplete or unacceptable work will result in a delay or reduction of billing payment.

The Contractor shall have a competent supervisor, who is capable of communicate effectively both in written and oral English and discuss matters pertaining to this contract. The supervisor must be able to demonstrate to the satisfaction of the Parks and Maintenance Director, or his authorized agent, that they possess an adequate technical background. Adequate and competent supervision shall be provided for all work done by the Contractor's employees to ensure the accomplishment of high-quality work, which will be acceptable to the Parks and Maintenance Director or his authorized agent.

Any order or communication given to the supervisor shall be deemed as delivered to the Contractor. The contractor shall use the free myOntario App. The use of a Smart phone will be required.

The contractor shall provide the minimum staffing requirements to comply with the performance of the landscape maintenance specifications and requirements of the site. Personnel shall be on site ready to work no later than 6:30am.

The Contractor, and their employees, shall always conduct themselves in a proper and efficient manner and shall cause the least possible annoyance to the public. The Parks and Maintenance Director or his authorized agent, may require a Contractor to remove from the work site any employee(s) deemed careless, incompetent, or otherwise objectionable, whose continued employment on the job is considered to be contrary to the best interest of the City of Ontario.

The Contractor shall require each of his employees to wear basic public works working attire. These are basically proper shoes, and other gear required by State Safety Regulation, and proper wearing of the clothing. Shirts shall be worn and always buttoned; safety vests "Type II" are required when indicated by the Work Area Traffic Control Handbook, the Parks and Maintenance Director or his authorized agent.

The Contractor shall establish an identification system for personnel assigned to the maintenance/construction site, which clearly indicates to the public the name of the Contractor and individual responsible for the construction/maintenance work. The identification system shall be furnished at the Contractor's expense and may include appropriate attire and name badges.

The contractor shall be responsible for traffic control (where needed) and shall be done per "WATCH" standards. Failure to comply with proper "WATCH" standards shall result in stoppage of all work until the proper traffic control is set up and could result in a fine. 1st violation $500.00, 2nd. Violation $ 1000.00, 3rd. violation and thereafter $ 3000.00 and/or possible cancellation of contract.

Inclement Weather

During inclement weather, (rainstorms, windstorms etc.) the contractor shall be required to contact the City representative prior to 7:00 am to receive clear directions of their assignments for the day. A minimum of two staff members shall be at the disposition of the City.

15. LOCAL OFFICE

A. The Contractor shall maintain an office with a telephone and provide at all times the following:

A responsible person(s), employed by the Contractor, shall have the ability to take necessary action regarding all inquiries and/or complaints received from the Parks and Maintenance Director, or his authorized agent. This person(s) shall be accessible twenty-four (24) hours per day and seven (7) days per week. An answering service shall be considered an acceptable substitute to full-time coverage, outside of prescribed working hours, provided the Contractor is notified of any communication within one (1) hour after receipt of said communication. The telephone number(s) of the Contractor or responsible person(s) of the Contractor shall be a toll-free number for the City of Ontario.

B. During normal working hours, the Contractor's supervisors, who are responsible for providing contractual services, shall be available for notification through a landline or cellular telephone communication. This will allow the city to access the contractor at any time during City working hours.

16. STORAGE FACILITIES

The City of Ontario will not be providing storage facilities throughout the duration of this contract.

A. SIGNS

The contractor shall not post signs or advertising matter upon the areas under maintenance or improvements thereon, unless prior written approval is obtained from the Parks and Maintenance Director, or his authorized agent.

The contractor shall, always, remove all unauthorized signs and advertising matter such as, but not limited to, garage sale signs, yard sale signs, campaign signs and personal business signs in the area under maintenance.

17. LOCK AND KEYS

A. Where City of Ontario locks and keys are required as part of this contract, the Contractor shall:

Not duplicate any coded City key furnished by the city.

Surrender all keys furnished by the Parks and Maintenance Director or his authorized agent promptly at the end of the contract period, or at any time-deemed necessary by the Parks and Maintenance Director, or his authorized agent, to prevent loss to the City of Ontario.

Protect the security of City property by keeping controller cabinets and enclosure doors always locked.

Contact the City immediately if a security lock is non-functional and needs repair. Refrain from using premises behind locked doors for storage of materials, supplies or tools except as approved by the Parks and Maintenance Director or his authorized agent. In the event that the

contractor staff who has been assigned keys to the facilities resigns from his position, it is the sole responsibility of the contractor to retrieve the keys assigned to such staff member and return to the City.

18. UTILITIES

The City of Ontario shall pay for the maintenance related to water and electrical utilities.

When needed, water usage shall not exceed the budgeted amount to comply with the City Water Conservation efforts. A water budget may be provided by the City and shall be reviewed and adhered to by the Contractor. The water budget shall be approved by the Parks and Maintenance Director, or his authorized agent.

The Contractor may be charged for all excessive utility usage (using the current utility rate) due to the contractor's failure to manage and or monitor irrigation system malfunctions or unauthorized increases in water usage. The excess cost will be determined by comparing the current utility usage with historical usage data for the same period.

The excess cost factor shall be deducted from payments to the Contractor. However, the Contractor will be allowed three (3) working days, upon receiving notice, to explain in written documentation the cause of the increase in utility usage in question. A final determination (after review of Contractor's explanation) of the deduction will be assessed by the Parks and Maintenance Director or his authorized agent.

19. NON-INTERFERENCE

The Contractor shall not interfere with the public use of the premises and shall conduct their operations so as to offer the least possible obstruction and inconvenience to the public, nor disrupt the peace and quiet of the area within which the services are performed.

20. PARKING

A. The Contractor shall park their vehicles and equipment within designated parking areas or in such a location to ensure normal vehicular traffic.

B. The Contractor's vehicles and equipment shall not be parked or set in such a manner that they block pedestrian access or vehicular right-of-way except as required to comply with all safety standards of OSHA or CAL-OSHA. Failure to perform proper traffic control will result in a

formal warning (first time), a deduction of $500.00 per instance after formal warning has been given and contractor fails to comply.

21. EMERGENCY CALLS

A. The Contractor shall have the capability to receive and respond immediately to calls of an emergency nature during normal working hours and outside of normal working hours. Calls of an emergency nature received by the Parks and Maintenance Director or his authorized agent, shall be referred to the worksite Contractor for immediate disposition. If the work site Contractor cannot be reached within two (2) hours, the City will deduct from the monthly billing the cost of City forces, or other sources, used to repair the emergency. The Contractor shall not receive additional compensation for responding to emergencies for work included in these general conditions at contract work sites.

22. EXTRAORDINARY SERVICES

A. The Contractor shall be responsible for providing extraordinary maintenance and/or repairs to existing landscape and new landscape areas outside of their contract areas. Extraordinary services shall be defined as work not included in these general conditions or work required at a site for which there is no contract. Extraordinary maintenance shall include answering emergency calls as required. Contractors shall respond to an emergency call within two (2) hours. Contractors shall maintain a 24-hour per day, seven days per week, on-call service for emergency calls. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, by telephone within 24 hours of any emergency extraordinary work that is performed. Non-emergency extraordinary work requires written approval before the work is performed. Submission of an EWA and approval by the Parks and Maintenance Director, or his authorized agent will be necessary. The Contractor shall be compensated for extraordinary work as defined in Section 9.

B. In situations involving emergency repair work after normal work hours, Contractors shall dispatch qualified personnel and equipment to reach the site within two (2) hours. The Contractor's vehicle shall carry sufficient equipment to effect safe control of traffic. When the work site Contractor arrives at the site, the Contractor shall set up traffic warning and control devices, if deemed necessary and proceed to repair on a temporary/permanent basis.

C. If a City Representative is still at the site when the worksite contractor arrives, the Contractor shall quickly evaluate the situation and discuss it with the City Representative. If the

repair will take only a few minutes, the City Representative may stay to continue to direct traffic while the Contractor makes the repairs. If the repair will take longer than the City Representative can wait, the Contractor shall immediately set up temporary traffic control devices and all other necessary warning devices and relieve the City Representative.

D. An emergency may be called by the following individuals or agencies at anytime for extraordinary services involving repair work:

1. City Manager
2. Police Department
3. Fire Department
4. Parks and Maintenance Director

E. The following emergency phone numbers are listed for the convenience of the Contractors:

Fire Department (Dispatch)	(909) 983-5911
Fire Department (Emergency)	911
Police Department (Dispatch)	(909) 986-6711
Police Department (Emergency)	911
Southern California Edison	(800) 655-4555
Southern California Gas	(800) 427-2200
Dig Alert	(800) 422-4133

23. REPORTING DAMAGE OR MALFUNCTION

Any damage to, or malfunction of, any facility not specifically stated in this Agreement shall be promptly reported to the Parks and Maintenance Director, or his authorized agent.

24. COMPENSATION FOR ROUTINE MAINTENANCE

The City shall compensate Contractors based upon the total dollar amount of a bid or the total dollar amount of a combination of bids, if applicable, in monthly installments beginning 30 days after the commencement of work. Billing adjustments may be made where authorized by this Agreement.

25. ADDITION OR DELETION OF LANDSCAPE AREAS

The Contractors shall maintain, at a unit price comparable to other existing landscape areas and subject to the Parks and Maintenance Director approval or his authorized agent's approval, additional landscape areas that the city adds to this contract. If notification is made of a new installation other than at the beginning of a monthly period, the unit cost negotiated and agreed upon by the parties shall be prorated from the day the Contractor is notified to start maintenance. The City may elect to delete work sites, or portions thereof, within this Agreement at a unit price comparable to the bid price of said work sites.

26. DISCREPANCIES OR OMISSIONS

Should a bidder find discrepancies or omissions in the specifications or other documents, or be in doubt as to their true meaning, he may request a written interpretation from the Parks and Maintenance Director, or his authorized agent. Any interpretation, or change in the proposed documents, will be made only by addendum issued to each person to whom bid forms have been issued and shall become a part of the bid.

27. MINOR MODIFICATION

The Parks and Maintenance Director, or his authorized agent, may modify these specifications with the joint approval of the Contractor.

28. CONTRACTOR NON-COMPLIANCE

If the Parks and Maintenance Director, or his authorized agent, determines that there are deficiencies in the performance of this Agreement, the Parks and Maintenance Director, or his authorized agent, will provide a written inspection notice to the Contractor stating the deficiencies and specifying a time frame to correct the specified deficiencies. This time frame shall be reasonable, as determined by the Parks and Maintenance Director, or his authorized agent, to correct the specified deficiencies but not to exceed five 5 working days from the day of the inspection punch list. If the site(s) show obvious signs of non-performance, the Parks and Maintenance Director, or his authorized agent shall have the ability to immediately enforce partial or full deduction for the site in question. Should the Contractor fail to correct all deficiencies within the stated time frame, the Parks and Maintenance Director, or his authorized agent, may exercise the following measures:

A. Deduct from the Contractor's payment the amount necessary to correct the deficiency, including City overhead and impose a deficiency deduction.

B. Withhold the entire or partial payment.

C. Utilize City forces, or an alternate source, to correct the deficiency and deduct from the Contractor's payment the total cost, including City overhead. The Parks and Maintenance Director, or his authorized agent, shall decide all questions which arise as to the manner of performance and completion per schedule, acceptable fulfillment of the contract by the Contractor, interpretation of the specifications, and compensation to include completion of work by alternate sources. In addition to the provisions of Section 3.3, Contract Documents and Section 28 (B), in the event of a failure to correct a deficiency, or for any other breach of this Agreement by the Contractor, the City of Ontario may immediately terminate this Agreement. If the contractor requires extra time to complete the deficiency list due to materials/parts shortage, the contractor shall request in writing only the time needed to be added and the reasons why. The City representative will review the request and shall respond to the contractor in writing of the decision made. Contractor shall present the request for extension within the first five (5) working days of the deficiency list.

29. PAYMENTS WITHHELD

The city may withhold entire or partial payment for reasons as follows:

A. Work required in the specifications, which is defective, incomplete, or not performed. Claims filed or reasonable evidence indicating probable filing of claims.
B. Failure of the Contractor to make payments properly to subcontractors, or for materials and/or labor. A reasonable doubt that the contract cannot be completed for the remaining balance.
C. Reports, logs, or other contractual written documentation required of the Contractor to be delivered to the Parks and Maintenance Director, or his authorized agent, which is/are incomplete or not performed.

30. WITHHELD CONTRACT FUNDS

The Contractors may, at his sole cost and expense, substitute securities equivalent to any monies withheld by the City to insure performance under the contract. Such securities shall be deposited with the City or with a State or Federally Chartered Bank as escrow agent who shall pay such monies to the Contractors upon satisfactory completion of the contract. The Contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. Securities eligible for investment under this section shall include those listed in Public Contract Code Section 22300. One definition of just cause for immediate contract termination is, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the contract cannot or will not be completed by the Contractor in its entirety. In the event of such termination, the bonds required shall remain in effect for six (6) months after the date of termination to provide surety that any remedial work required at the time of termination will be completed.

If the Contractor fails to meet the specifications of this contract for any fifteen (15) consecutive or non-consecutive days, the Parks and Maintenance Director, or his authorized agent, may at his option terminate the balance of this contract by written notice of termination to the Contractor. Notice of such termination shall take effect three (3) days after such notice is mailed.

31. COMPLAINTS FROM CITY

The Contractor shall maintain an on-the-job a written log of all complaints which includes the date and time received and the action taken or the reason for non-action. The on-the-job log of complaints shall be available upon request from the City Representative. All complaints shall be abated as soon as possible after notification; but in all cases within 24 hours, to the satisfaction of the Parks and Maintenance Director, or his authorized agent. If any complaint is not abated within 24 hours, the Parks and Maintenance Director, or his authorized agent, shall be notified immediately of the reason for not abating the complaint, followed by a written report to the Parks and Maintenance Director or his authorized agent, within four (4) City working days.

If the complaints are not abated within the time specified, or to the satisfaction of the Parks and Maintenance Director or his authorized agent, the Parks and Maintenance Director, or his authorized agent, may correct the specific complaint and the total cost incurred by the City of Ontario shall be deducted and forfeited from the payments owing to the Contractor from the City of Ontario.

32. CONTRACTOR IS AN INDEPENDENT CONTRACTOR, INDEMNIFICATION

Contractor shall act under the contract as an Independent Contractor thorough the City of Ontario and will not be an agent, or employee of the City. The contractor shall not represent or otherwise hold out itself, or any of its subcontractors, directors, officers, partners, employees, or agents, to be an agent or employee of the City. Contractors shall indemnify and otherwise hold harmless the City, its officials, officers, directors, employees, agents and other representatives, from all liability, loss, or damage, including reasonable attorney's fees and other costs of defense resulting from damage or injury to persons or property caused, or claimed to have been caused, by acts or omissions of the Contractor, or of any of its subcontractors, directors, officers, partners, employees, or agents in the course of, or in connection with the Contractor's performance under the contract. The Parties agree to cooperate fully in the resolution of any claims for such liability, loss, or damage.

33. SUBCONTRACTOR/ASSIGNMENT OF CONTRACT

Reference is hereby made to the provisions of The Subletting and Subcontracting Fair Practices Act (Government Code Sections 4100, et. seq.), which are incorporated herein and made a part hereof by this reference.

A copy of each subcontract, if in writing, or if not in writing, then a written statement signed by the Contractor, giving the name of the subcontractor, and the terms and conditions of such subcontract, shall be filed with the City before the subcontractor begins work. Each subcontract shall contain a reference to this agreement between the City and the Contractor, and the terms of that agreement between the City and the Contractor and all parts thereof shall be made a part of such subcontract insofar as applicable to the work covered thereby. Each subcontractor shall provide for its annulment by the Contractor at the order of the City, if, in the City's opinion, the subcontractor fails to comply with the requirements of the principal contract insofar as the same may be applicable to his work. Nothing herein contained shall create any contractual relation between any subcontractor and the City or relieve the Contractor of any liability or obligation hereunder.

The contractor shall not assign, transfer, convey or otherwise dispose of this contract, or of his rights of interests in or to the same or any part hereof, without the previous consent in writing of the Parks and Maintenance Director, or his authorized agent. If the Contractor, without such previous written consent assigns, transfers, conveys, or otherwise disposes of the contract, or of his rights or interests therein, the contract may, at the option of the City, be terminated and revoked, and the City shall there upon be relieved and discharged from all liability and obligations arising out of the same to the Contractor, and to his assignee or transferee. No right

under the contract, nor any right to any money to become due hereunder, shall be asserted against the City in law or equity by reason of any so-called assignment of the contract, or any part thereof unless authorized by the written consent of the Parks and Maintenance Director, or his authorized agent.

34. COMPLIANCE WITH THE LAW

Contractor agrees that their performance under this contract shall comply with all applicable laws of the United States of America, the State of California, the county of San Bernardino, the City of Ontario and any other political entity having jurisdiction over the activities of the Contractors. The Contractor State License Board for the State of California has administratively determined in writing that a C-27 Contractor License is required to provide the service as set forth in the contract and specifications. Therefore, each bidder will be required to hold a valid C-27 Contractor License.

35. PAYROLL

Section 1776, Chapter 1 of Division 2, from the California Labor Code requires that each Contractor and Subcontractor keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and each week, and the actual per diem wages paid each journeyman, apprentice or worker employed by him.

The employee's own payroll records shall be available for inspection, and a copy shall be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standard.

Pursuant to Labor Code Section 1778.8, the Contractor agrees to pay travel and subsistence payments to each workman needed to execute the work in accordance with the applicable collective bargaining agreements filed with the Department of Industrial Relations.

36. LABOR STRIKE

It shall be the responsibility of each contractor to provide continuous contractual services, without any interruption.
In case of any labor strikes, the Contractor shall provide other means, as its own cost, to provide a comparable continuous contractual service as if there were no strike.

Failing to do so will cause the Parks and Maintenance Director, or his authorized agent, to take whatever action is deemed necessary to provide such service and the cost will be borne by the Contractor.

37. TURF GRASS CARE

A. Turf grass Mowing:

The Contractor shall mow all turf grass with adequately sharpened rotary type mowers as to provide a smooth and even cut without tearing of turf grass blades.
The blade adjustment shall provide a uniform, level cut without ridges, depressions or scalping.
All cool season turf grasses shall be cut with a power driven rotary mower at a two inch (2") height from November to February and at two and half inches(2 1/2'.') from March to October.

Turf grass mowing heights may be adjusted by the Parks and Maintenance Director, or his authorized agent, during periods of turf grass renovation.

Care shall be exercised to avoid depressions in the established grade from mowing when the soil is saturated.

The Contractor shall submit, in writing, a mowing schedule within ten (10) days after the start of the maintenance contract. This mowing schedule shall be approved by the Parks and Maintenance Director, or his authorized agent. Any alteration of the approved mowing schedule shall be submitted in writing to the Parks and Maintenance Director or his authorized agent, for approval prior to implementation.

B. Turf Grass Edging and Trimming:

Turf grass edging and trimming shall be performed per frequency schedule at the time of mowing.

Edging of turf grass shall be performed with a power edger containing a steel blade, the use of string trimmers (weed-eater) to edge turf areas is not a practice acceptable to the City. The use of a stick edger is acceptable.

All turf grass adjacent to sidewalks, curbs, mowing strips, shrub beds, and where no improved surface exists, shall be edged in a neat uniform line.

Where facilities include a softball or baseball field, the infield radius shall be edged regularly to keep radius clearly defined. Grass and weeds shall not encroach into the infield and shall be treated/removed immediately.

Trimming of turf grass shall be performed along walls, and around valve boxes, water meter boxes, backflow devices, trees, shrubs, or any structures located within the turf grass area.

Tree trunk protectors shall be provided and installed, at no additional cost to the City, when string trimmers are utilized for trimming around the base of trees. The City may allow a sixteen-inch (16") diameter mulch ring around trees to eliminate continual string trimming.

A four-inch (4") barren strip shall be provided, and maintained, between turf grass areas and adjacent ground cover. Edging of turf grass and ground cover shall provide uniform delineation adjacent to this barren strip.

Trimming of plant material may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site the same day work is performed and prior to the contractor vacating the work site.

After mowing and edging is completed, all adjacent walkways and gutters shall be swept or blown clean.

Blowing and disposing of grass clippings into the City storm drain system and/or streets shall not be permitted. If found contractor will face liquidating damages as follows;

1st violation$ 1000.00, 2nd violation $ 2000.00, 3rd violation and thereafter $ 3000.00.

C. Turf grass Fertilization

The turf grass shall be continually fertilized a minimum of 3 x per year with additional application if needed, to provide a healthy and vigorously growing turf grass with horticultural acceptable growth and color, as determined by the Parks and Maintenance Director, or his authorized agent.

1. Fertilization shall be performed with a balanced fertilizer, consisting of a 3-1-2 ratio, at a rate of one (1) pound of actual Nitrogen per 1,000 square feet of area. Any change in the fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the following:

- Location and exact date the fertilizer application will be performed.

- Type of fertilizer and method of application to be used.

3. The Contractor shall immediately irrigate (staff shall be present when irrigating during the day) after each fertilizer application and repair with sod (Dwarf Fescue) any damaged areas due to fertilizer/chemical burn.

4. All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

D. Turf grass Renovation

1. Renovation shall consist of aerating, verticutting, thatch removal, over-seeding and top dressing (a minimum of l/8").

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any renovation operation. This written document shall include location and exact date the renovation will be performed and type of equipment and materials to be used.

3. Contractors shall remove all renovation-generated debris from the work site the day of the renovation operation and prior to vacating the work site.

4. Light verticutting and thatch removal of warm season turf grass (where present) shall be performed between September 30th and October 15th or as directed by the City Representative.

5. Over-seeding shall be performed within two (2) days after verticutting with properly calibrated seeders. Warm season turf grass shall be over-seeded at a rate of ten (10) pounds of seed per 1,000 square feet. A 3 way dwarf type Bermuda grass seed shall be used. Seed tags

shall be provided to the Parks and Maintenance Director, or his authorized agent. Additional over-seeding shall be performed if less than 80% germination occurs within the first month.

6. Top dressing shall be performed using a properly calibrated top dressing machine and seed shall be topped with one-eight inch (1/8") of weed free topper. The topper must be approved by the Parks and Maintenance Director or his authorized agent, and shall not contain steer manure (City reserves the right to provide the topper needed if available and in stock).

7. Reseeding of bare spots shall be performed continually throughout the year to reestablish turf to an acceptable quality. If quality does not meet the City acceptance contractor shall replace with sod (Bermuda grass, Dwarf Fescue or equal).

The Parks and Maintenance Director or his authorized agent, will require the use of sod as a replacement material when deemed necessary. The Contractors shall be entitled to the wholesale cost of the sod only, provided the loss of turf grass was not due to the negligence of the Contractor. Sod shall be Bermuda grass or Dwarf Fescue.

E. Aeration

All turf grass shall be aerated four (2) times per year, once every quarter, starting July 1st. Aeration shall be performed with a ride on or a walk behind an aerator machine which has one-half inch (1/2") to one inch (1") in diameter coring tines spaced no more than six inches (6") apart. The machine shall remove cores from the turf to a depth of 4-6”. Dragging or pulverizing of cores is acceptable.

F. Turf grass Irrigation

All turf grass shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized. Where possible, the turf grass irrigation shall be on a separate program from other plant material irrigation. Turf grass shall be irrigated in a method which promotes deep root growth.

At facilities with softball and baseball infields, Irrigation shall be adjusted so as not to overlap into the infield mix. Any reports of saturated infield mix from irrigation shall be addressed immediately.

38. SHRUB CARE

A. Pruning of Shrubs

Shrubs shall be pruned with sharp pruning tools.

Shrubs shall be continually pruned, as necessary, to prevent encroachment of passageways, walks, streets, and view of signs. Shrubs shall be tapered to provide irrigation coverage and an aesthetically pleasing landscape.

All pruning cuts shall be one-quarter inch (1/4") above a node (bud). No projections or stubs shall be allowed to remain.

After pruning is completed, all adjacent walkways and gutters shall be left clean. Blowing and disposing of any debris into the Storm Drain system and/or streets shall not be permitted. If found, Contractor will face liquidating damages as follows; 1st violation $ 500.00, 2nd. violation $1000.00, 3rd. violation and thereafter $3000.00 and/or possible cancellation of contracts.

During blooming season, vines shall be trimmed minimally so as not to remove floral display areas.

Pruning shall be done to maintain a well-groomed, natural growth habit, and encourage air movement through shrubs.

The Contractor shall remove all clippings the same day shrubbery is pruned and prior to vacating the work site.

Pruning of roses (except for trailing roses) shall be accomplished using best horticultural practices. The use of hedge shears to prune roses will not be permitted. Roses shall be deadheaded as needed and shall be heavy pruned once per year.

New plantings, once approved by the City Representative, shall take place within a week from the date reported.

B. Shrub Fertilization

Shrubs (including roses) shall be fertilized a minimum of 3x per year or as directed by the Parks and Maintenance Director, his authorized agent with a balanced fertilizer specific for the type of plants. Roses shall be fertilized once following heavy pruning and one additional time per year.

Foliar fertilization may be performed when appropriate and will require the approval of the City Representative.

C. Shrub Irrigation

All shrubs shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized. Shrubs shall be irrigated in a method which promotes deep root growth.

D. Shrub Replacement

All damaged, diseased (untreatable) or dead shrubs shall be replaced with the same species plant material that existed (unless a disease situation is discovered affecting the species). Shrubs shall be replaced within 7 days after being identified by the contractor or authorized agent. The size of the replacement plant material is to be determined by the authorized agent. The Contractor shall be responsible for the complete removal and replacement of shrubs lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Substitutions or any plant materials must have prior written approval by the Parks and Maintenance Director, or his authorized agent.

Original plans and specifications may be consulted to determine the correct identification of species.

All shrubs shall be guaranteed to live and remain in a healthy condition for the duration of the contract from the date of installation, inspection and verification by the Parks and Maintenance Director, or his authorized agent.

Soil build-up around the crown of shrubs shall be continuously removed.

E. Vine Maintenance

Vines shall be trimmed as needed to promote upright growth and shall be kept attached and contained on the structure.

All vines shall be trimmed on a as needed basis by the contractor, the standard of the City is to trim vines one block below the top of the wall, the City understands that its vines in some sites are mature and have grown over the top of the wall, the contractor shall only be responsible to

trim the vines that are solicited by our residents and will have to adhere to the standards herby mentioned. No vines will be allowed to grow in newly installed wood fences or wood fence extensions (above the top of the fence or block wall). Vines shall be trimmed tight and follow horticultural standards.

39. GROUNDCOVER CARE

Groundcovers are low growing plants that grow in colonies to form a solid mat over the surface of the ground. The plants give a flat or two-dimensional effect to the landscape, such as, but not limited to, Honeysuckle, Myoporum, Senecio, Rosemary, Lantana, Ivy (spp.) Salvia (spp.)

A. Edging and Trimming of Groundcover

Edging of groundcover areas shall be performed monthly or as needed.

All groundcover adjacent to sidewalks, curbs, mowing strips, or where no improved surface exists, shall be edged in a neat, uniform line.

All groundcover shall be continually trimmed at the drip line of all shrubs.

All groundcover shall be continually trimmed along walls, valve boxes, water meter boxes, backflow devices, or other structures located within the groundcover area as determined by the Parks and Maintenance Director, or his authorized agent. Thinning of groundcover may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site in a legal manner the same day work is performed and prior to the Contractor vacating the work site.

After edging or trimming, the Contractor shall clean all adjacent sidewalks or gutters.

B. Renovation of Groundcover Areas

Groundcover planting shall be thinned and pruned for the health of the planting and the appearance of the site, or as required by the Parks and Maintenance Director, or his authorized agent.

C. Replanting of Groundcover Areas

Replanting shall be required to maintain the continuity of the groundcover areas that die back after awarding the contract.

Labor and replacement material costs shall be incurred by the Contractor.

D. Groundcover Irrigation

All groundcover areas shall be adequately irrigated to maintain a healthy and attractive appearance.

Irrigation runoff and overspray shall be minimized.

E. Groundcover Fertilization

The groundcover shall be fertilized during growing season, minimum lx per year, to provide a healthy and vigorously growing ground cover with horticultural acceptable growth and appearance, as determined by the Parks and Maintenance Director, or his authorized agent.

Fertilizing shall be performed with a balanced fertilizer, consisting of a 1-1-1 ratio, at a rate of one pound (1 lb.) of actual Nitrogen per 1,000 square feet. Any change in the fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

The Contractor shall immediately irrigate after each fertilizer application.

All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the location and exact date the fertilizer application will be performed, type of fertilizer and method of application to be used.

40. METHOD OF IRRIGATION

If recycled water is being used, it will be the responsibility of the contractor to implement BMP's ("Best Management Practices") to control soil erosion, overspray, ponding and efficient irrigation practices. The use of recycled water shall be limited to the areas designated and approved. The use of recycled water shall not be permitted during the hours of 6:00 AM through 10:00 PM

unless prior approval is received from City Representative. Recycled facility shall be operated in accordance with the best BMP's to prevent direct human consumption and to minimize misting, ponding and runoff. BMP's shall be implemented that will minimize both public contact and discharge onto areas not under contractors control. Contractor shall ensure that the recycled water systems are maintained, operated and repaired at all times in a manner that does not cause illness or injury to any person and in a manner that does not cause damage or injury to the real or personal property of any person or entity. All recycled water sites shall be in compliance with the City of Ontario Utilities Department. Contractor shall be responsible to maintain and replace all items after annual inspection pertaining to proper recycling water designation, items to include but not limited to (head color designation, tags etc...).

A. GENERAL IRRIGATION USES

- All windblown spray and surface runoff of recycled water applied for irrigation onto property not owned or controlled by the discharger or recycled user shall be prevented by implementation of BMP' s.

- Irrigation with recycled water shall be between the hours of 9:00 PM and 6:00 AM to be able to minimize public use of the service area.

- Facilities that might be used by the public, including but not limited to eating surfaces and located within the approved used areas, shall be protected to the maximum extent possible from contact by irrigation with recycled water spray, mist or runoff.

- It is the responsibility of the contractor to communicate to their workers the potential health hazards associated with contact or ingestion of recycled water and shall be educated about proper hygienic practices to protect themselves and their families.

- Workers and public shall not be subjected to recycled water overspray.

- Contractor shall be responsible for the training and certification on recycled water use of any staff assigned to work in the facility.

Irrigation shall be performed by the use of a Central Irrigation System (Calsense), local automated systems or manual sprinkler systems where available and operable. Contractor shall be required to monitor the computer system daily by retrieving alert/reports from the lobby area of the Public Works Agency (1425 S. Bon View Avenue, Ontario, CA.) once per day no later than 9:00 AM, contractor shall sign in every day when picking up paperwork. Completed

alert/reports shall be returned to the City representative within 48 hours. Failure to do so will result in a non-compliance report and will be handled per contract specifications. Returned reports shall be accompanied with a written explanation of the problem and the repair. However, failure of the existing irrigation system to provide full and proper coverage shall not relieve the Contractor of the responsibility to provide adequate irrigation with full and proper coverage to all areas in the work site. All areas receiving marginal coverage shall be irrigated by portable irrigation method. The contractor shall furnish all tools/equipment necessary.

41. IRRIGATION INSPECTION

The Contractor shall initially inspect and familiarize themselves with the entire irrigation system at all work sites and identify all needed repairs.

Required repairs shall be submitted to the Parks and Maintenance Director, or his authorized agent, in a written statement within two (2) weeks after the start date of the Maintenance Contract. If a written statement, which documents required repairs, is not received by the authorized agent, within the stated timeframe, the entire system shall be interpreted as fully operational, and deemed acceptable by the Contractor and will become his sole responsibility to maintain. The City shall review and verify all submitted problems, repairs may be completed by the following methods:

1. Authorized the Contractor to make appropriate repairs at the expense of the City as described in Section 5.

2. Use City forces to make required repairs.

3. Use another source to make required repairs.

Upon completion of such repairs, the Contractor shall sign-off each individual area as being fully operational.

A. The Contractor shall file a monthly statement with his invoice certifying that all irrigation systems are functioning properly. If the Contractor fails to submit this statement, the invoice will be rejected until such date the statement is received.

B. The Contractor shall inspect the operation of the irrigation system on a weekly basis for any malfunctions. In addition to regular testing, all irrigation systems shall be tested and inspected as necessary when damage is suspected, observed, or reported.

C. All system malfunctions, damage and obstructions shall be recorded, reported to the Parks and Maintenance Director, or his authorized agent, and corrective action taken.

42. IRRIGATION MAINTENANCE AND REPAIRS

A. The Contractor shall maintain all irrigation systems, at no additional cost to the City, in such a way as to:

- Guarantee proper coverage and full working capability.

- Make whatever adjustments may be necessary to prevent overspray or excessive runoff into street rights-of-way or other areas not meant to be irrigated.

B. The Contractor shall repair or replace at no additional cost inoperable irrigation equipment to maintain a fully operational system, including but not limited to, pressure pipes from the water meter to the control valves, all irrigation non pressurized pipes, all manual and automatic valves, filters, basket strainers, pressure regulators, sprinkler heads, irrigation clamps and stakes, anti-drain valves, quick couplers, electrical wiring from the controller to the solenoid valves, emitters, drippers, valve boxes, controllers, valve markers, batteries, fittings and risers shall be the same as to removed manufacturer items unless prior approval has been granted by City representative in writing. The contractor shall test all backflows and submit to the City the appropriate test form once completed (contractors' cost). Any device that fails to pass, the contractor shall report to the City for needed repairs and re-inspection.

Maintenance includes, but is not limited, tightening loose fittings and packing nuts; flushing sprinkler heads, pipes, nozzles, valves, filters, strainers, and backflow devices; adjusting sprinkler heads for proper coverage and to avoid irrigating hardscape including softball and baseball infield radius; anti-drain valves and pressure regulators, adjusting and lubricating controllers; and cleaning drip emitters, replace batteries for battery operated valves and maintain solar operated valves, relocation of irrigation mainline or lateral lines due to tree placements and roots. The Contractor shall be responsible to replace recycle (purple) valve box lids and controller boxes, as needed and or as directed by City Representative. Labor shall be provided at no additional cost to the City.

C. Irrigation repairs shall be made within the following time limits:
Mainline irrigation breaks shall be repaired within two (2) hours of identification or notification.
All other irrigation repairs shall be made within one (1) day of identification or notification.

D. Replacement of irrigation components shall match city approved equipment list. Substitutions must be approved by the Parks and Maintenance Director, or his authorized agent, in writing prior to installation.

43. WATER CONSERVATION

The Contractor shall turn off all irrigation systems during periods of rainfall and/or times when suspension of irrigation is desirable to conserve water while remaining within the guidelines of good horticulturally acceptable maintenance practices.

The Contractor shall comply with all City of Ontario Ordinances and/or Resolutions, which relate to water conservation.

Failure to comply shall result in an equitable amount deducted from the Contractor's payment.

44. CONTROLLER PROGRAMMING

A. Adequate soil moisture will be determined by programming the automatic sprinkler controllers as follows:

Whenever possible, automatic irrigation shall be programmed to operate between the hours of 9:00 P.M. to 8:00 A.M. The Contractor shall be responsible for reprogramming controller during inclement weather to conserve water.

Consideration must be given to the soil conditions, seasonal temperatures, wind conditions, humidity, runoff and erosion potential, and the relationship of conditions which affect day and night watering.

Extremely close attention shall be paid to the demands of the plants as influenced by their exposure to sun or shade. Also, the variation in the size of plants, as well as varietal differences must be considered.

The irrigation system will be controlled by the contractor in such a way as not to cause an excessively wet area which could interfere with the Contractor's ability to mow all turf grass.

C. The Contractor, at the request of the Parks and Maintenance Director or his authorized agent, shall submit a copy of the irrigation schedule for each individual controller. This information is to be readily available upon request or available at the controller.

D. All landscape and turf areas shall be irrigated as required maintaining adequate growth and appearance with a schedule most conducive to plant growth.

45. IRRIGATION CONTROLLER

A. The Contractor shall maintain controller as-builts (controller charts) inside each controller cabinet where available.

B. All controller enclosures shall receive a granular chemical application as needed to prevent pest infestation. Any damages resulting from any insect infestation due to failure to apply the chemical shall be repaired/replaced by the contractor (no expense to the City).

C. Controllers and dome antennas shall be inspected and cleaned by the contractor 4 x per year and report damages or maintenance needs.

46. TREE CARE

A. Tree Trimming

The Contractor shall be responsible for all tree under-trimmings, including the removal of palm fronds and flower stalks (if present). All trees are to be under-trimmed to ensure public and vehicle safety or as directed by the Parks and Maintenance Director, or his authorized agent. Contractor shall have a Certified Arborist on staff to meet the following criteria:

Contractor shall prune palm trees at no extra cost to the City (dead fronds and flower stalks) annually, removal of fruit (dates) if present shall be done twice per year as designated by the Parks and Maintenance Director or his authorized agent.

Trees shall be pruned at no extra cost to the City on a cycle of once every three years, contractor to create a myOntario App once the trees have been completed under the Tree section and have the City representative inspect them. The contractor shall not leave the site until the work has been completed, approved and released by the City representative.

The Contractor shall notify the Parks and Maintenance Director, or his/her authorized agent, except when pruning is required for public safety. Once all trees are trimmed, a formal (Company letterhead) record of the work performed with time, date, location, type of tree, removal percentage and staff assigned to do the work. Any tree that is not trimmed by the end of 3-year cycle shall be deducted from the final billing of the maintenance contract.

All trees in the work site shall be maintained in their natural shapes. This work shall be accomplished in a manner which will ensure that each individual tree is under-trimmed carefully to promote the tree's health and appearance.

All work shall be of the highest quality and performed in accordance with City approved tree trimming standards.

All trees shall be pruned within forty-eight (48) hours upon notification to remove or prevent encroachment where it blocks vision, or encroaches in any manner deemed undesirable by the Parks and Maintenance Director or his authorized agent.

All trees shall be continually maintained free of all dead, diseased and damaged branches back to the point of breaking. In cases where the dead, diseased or damaged branches are beyond the reach of a tree pruning pole saw being operated from ground level, the Contractor is to notify the City within 24 hours. Cuts must be made flush with the collar to promote proper healing. Pruning tools shall be adequately sharpened to provide clean cuts and shall be properly sterilized to reduce spread of disease.

All sucker growth is to be removed from trees as it occurs.

The Contractor shall maintain all branches which encroach on or over sidewalks at a minimum height of ten feet (10') clearance. The Contractor shall notify the city within 24 hours of any branches encroaching beyond the curb line into the street that cannot be reached with a pole saw.

All branches which encroach over private property, shall be removed as directed.

The Contractor shall not remove or disturb any tree central leader without prior written approval from the Parks and Maintenance Director, or his authorized agent.

The Contractor shall include the removal of 20 trees per year with a DBH not to exceed 20” as part of his bid package and a unit price to perform an individual complete tree trim, and individual tree removal price. Contactor shall create a final work order using myOntario App once the trees have been trimmed, the City representative will inspect once the App has been closed as completed for release.

B. Tree Staking/Guying

The Contractor shall, at no additional cost to the City, stake and tie all trees, which require support. City does not provide stakes and ties. Tree stakes shall be 3” x 10’ wooden lodge poles. Two (2) tree stakes are required per tree.

Guy wires, where required, will be of pliable zinc-coated ten-gauge wire (three ties per tree), and shall have a white PVC sleeve for visibility. Guy wires shall be kept tight enough to promote natural movement of the tree. Contractor shall periodically check the tension in the guy wires.

Trees shall be secured to stakes with cinch ties or equivalent. The Contractor shall not use wire and hose. Stakes shall not be placed closer than eight inches (8") from the tree trunk.

C. Stakes and ties shall be placed so no chafing of bark occurs and shall be checked frequently, and retied as necessary, to prevent girdling.

D. Tree Replacement

1. The Contractor shall be responsible for the complete removal and replacement of trees lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Where there is a difference in value between the tree damaged by the Contractor and the replacement tree, this difference may be deducted from the Contractor's payment.

In all cases, the value of the trees lost will be determined by the Parks and Maintenance Director, or his authorized agent, using the latest ISA Guide for Plant Appraisal.

2. Unsalvageable downed trees, due to any cause (windstorm etc...), shall be removed, the stump ground to a depth of eighteen inches (18"), the stump grinding debris removed and the hole refilled with compatible topsoil and compacted within 48 hours of identification or notification. If the tree is in the public right-of-way or creating a public hazard, the tree is to be cut back to a 12" stump immediately upon notification and removed. Then within 48 hours, the stump is to be removed and the hole filled with compatible topsoil and compacted. This work shall be considered and EWA and invoiced to the city.

3. Trees lost from causes other than the Contractor's negligence shall be replaced by the Contractor with a twenty-four (24") box tree and billed as "Additional Work". The Parks and Maintenance Director, or his authorized agent may specify a species of tree for replacement different from the one lost.

E. Tree Irrigation

All trees shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and overspray shall be minimized.

Trees shall be irrigated in a method which promotes deep root growth. The contractor shall provide manual deep watering to those trees that show decline.

47. WEED CONTROL

Weeds are defined in the dictionary as:
“A wild plant growing where it is not wanted and in competition with cultivated plants."
When classified by their gross morphological features, weeds are broken down into three major categories: grasses, sedges, and broadleaf weeds.
Full control of these 3 categories of weeds will be achieved with a combination of selective and non-selective herbicides as well as mechanical removal. **Weeds should not be visible.**
All areas within the specified maintenance area, including but not limited to, turf grass, shrub and ground cover areas, planters, tree wells, landscape areas, and softball/baseball infields shall be kept free of weeds at all times.

Weed removal shall consist of complete removal of all weeds, including top growth and roots.
Weed control shall be performed as needed.
Weeds shall be controlled either by hand, mechanical or chemical methods; however, the Parks and Maintenance Director, or his authorized agent, may restrict the use of chemical weed control in certain areas.

48. DISEASE AND PEST CONTROL

The Contractor shall regularly inspect all landscaped areas for the presence of disease, snail, insect or rodent infestation. The Contractor shall report any applied treatments within their next monthly billing. The Contractor shall identify the disease, snail, insect or rodent and specify control measures to be taken. The Contractor shall implement control measures, exercising extreme caution in the application of all spray materials, dust or other materials utilized.

Approved control measures shall be continued until the disease, snail, insect or rodent is controlled to the satisfaction of the Parks and Maintenance Director, or his authorized agent. The Contractor shall utilize all safeguards necessary during disease, snail, insect or rodent control operations to ensure the safety of the public and the employees of the Contractor.

The Contractor shall perform, at their sole expense, the following services:

All work involving the use of chemicals will be accomplished by a State of California licensed pest control operator. A written recommendation by a person possessing a valid California Pest Control Advisor License for each chemical used is required prior to chemical application where required by law.

All chemicals requiring a special permit for their use must be registered by the Contractor with the County Agricultural Commissioner's Office and a permit obtained with a copy to the Parks and Maintenance Director, or his authorized agent, prior to use.

A copy of all forms submitted to the County Agricultural Commissioner shall be given to the Parks and Maintenance Director, or authorized agent, monthly.

49. USE OF CHEMICALS

The Contractor shall submit a list of all chemical herbicides, pesticides, and rodenticides proposed for use under this contract for approval by the Parks and Maintenance Director or his authorized agent with the signed contract. Materials included on this list shall be limited to chemicals approved by the State of California Department of Food and Agriculture and shall include the exact brand name and generic formulation. The use of any chemical on the list shall be based on the recommendations of a California State Licensed Pest Control Advisor where required by law.

The use of chemicals shall conform to the current San Bernardino County Agriculture Commissioner regulations. No chemical herbicide, rodenticide or pesticide shall be applied until its use is approved, in writing, by the Parks and Maintenance Director, or his authorized agent as appropriate for the purpose and area proposed.

Required spray equipment will consist of at least one (1) medium spray rig of 100-gallon (minimum) capacity or more and backpack sprayers provided for each crew performing chemical landscape maintenance.

50. TURF BROADLEAF

Control of broadleaf weeds shall include proper notification with chemicals to be used, date, and time to the Parks and Maintenance Director, or his authorized agent. prior to starting date for approval. Frequencies will be twice per year.

51. LITTER

All areas in the work sites shall be kept free of, but not limited to, the following items: bottles, glass, broken glass, cans, paper, cardboard, metallic items, feces, leaves, tumbleweeds and other debris on a daily basis.

The Contractor shall promptly remove from the work area, all debris generated by their performance and dispose of the debris in a legal manner. The City does not allow any dumping of debris generated by your daily work in City facilities. Illegal dumping picked up by contractors shall be brought up to the City yard for proper disposal. Excessive dumping (above and beyond reasonable) after long holiday weekends and special events shall be reported immediately to the City Representative.

Hazardous waste as well as homeless belongings shall not be picked up. Contractor shall contact City Representative to arrange proper disposal by City forces. A myOntario App service request shall be created to report the hazardous conditions.

52. GRAFFITI

A. The Contractor shall remove any graffiti upon discovery within their contractual areas. Extreme caution shall be placed on areas that get tagged to make sure that they get cleaned up with materials that do not damage the finish product (PVC Vinyl fence) and are biodegradable. Issues of graffiti outside their contractual obligations shall be reported to the Graffiti Hot Line 909-395-2626 or create a service request within the myOntario App

B. Issues of above normal graffiti vandalism within the contractor's contractual area shall be reported to the City representative upon finding. Phone call, text, or creation of a myOntario App service request are acceptable methods of communication to the City Representative. The City reserves the right to request an outside contractor to help with the cleaning or will have the right to request that the contractor performs the work as an additional cost to the City.

C. If graffiti cannot be removed and needs to be painted over, cover up paint shall match existing paint. Graffiti on sidewalks shall be removed with a hot steam pressure washer. Painting of sidewalks over graffiti shall not be allowed.

53. GENERAL

A. Trash Removal

Remove all trash and accumulated debris from the work sites daily. In addition, any type of feces is also to be removed from the walkways, turf or ground cover areas and dumpster areas.

B. Policing of Areas

All maintained areas shall be policed based on frequencies.

C. Curb and Gutter Maintenance

The Contractor is responsible for removal of all weeds and grass growing in and around the curb and gutter area monthly. The Contractor is responsible for insuring the roadway is cleared of all dirt and debris within four (4) feet of the curb and gutter in all areas adjacent to maintenance responsibilities.

D. Walkway Maintenance

Walkways shall be cleaned immediately following mowing and edging and cleaned by use of power sweeping or blower equipment. All walkway cracks and expansion joints shall be maintained weed and grass free at all times.

E. Drain Maintenance

All drains and catch basins shall be kept free of siltation and debris at all times. All V-ditches and drainage areas shall be kept clean and edged weekly by the Contractor. Cleaning of drain basins shall be done monthly, Contractor shall inspect weekly to make sure that grates are secured, if missing, Contractor shall replace at City's expense. Damaged grates due to Contractor's operations shall be replaced at Contractors expense.

F. Removal of Leaves

Accumulation of leaves shall be removed from all designated landscape areas on a monthly basis and under trees once per month or more as needed.

G. Hardscape Power Wash

All concrete areas shall be cleaned using a power washer (hot steam cleaning washer) to remove soda spills, gum and other stains that might be present. The City Representative will make the final determination if the service is needed.

The use of a biodegradable cleaner (soap) is required and permitted. Containment of contaminated soapy water shall be the responsibility of the Contractor.

54. REPAIR AND SERVICE OF WALKWAYS AND MISCELLANEOUS IMPROVEMENTS

Walkways and Service Roads - All walkways and service roads, if any, shall be maintained by the Contractor so as to keep the integrity of the walking or driving surface in a safe, unimpaired condition.

The Contractor will not be responsible for total replacement of roadways or walkways as a result of normal deterioration but will be required to replace all improvements damaged by his negligence.

It will be the responsibility of the Contractor to repair or replace miscellaneous improvements such as signs and mowing strips, or any other structural improvements within the work sites, unless otherwise specified. The Contractor shall be entitled to additional compensation for these services as stated. The contractor shall communicate any improvements needed prior to repairs to the Parks and Maintenance Director or his authorized agent for proper approvals.

55. MULCH

Mulch beds shall be replenished 2 time per year at the Contractor’s cost . The City may provide the mulch if an additional mulching is needed. If City provided, the Contractor will be responsible for loading the mulch at the City yard at 1425 S Bon View.

56. DUMPSTER ENCLOSURES

Dumpster enclosures will be kept weed and debris free. Odors and excessive staining must be addressed by power washing the affected area. Vandalism is reported using the MyOntario app. If locks need to be replaced, please reach out to your Authorized Representative.

57. RODENT CONTROL

All areas shall be maintained free of rodents causing damage to turf, shrubs, and groundcover areas (gophers, squirrels etc.) by using Gophernator or trapping. Any activity that affects holes, mounds, etc. will be raked and backfilled after control.

58. CITY OF ONTARIO myOntario App (FREE)

Contractor shall download the free myOntario App for the purpose of tracking completed specialty tasks (mulching, vandalism, vehicular damage, rose trimming, fertilizations, chemical applications, illegal dumping, hazardous waste, pruning shrubs, downed branches and rodent control, restroom issues). All specialty tasks shall be recorded as a service request using the app order system and shall be reported to the city representative when completed. City staff will close the service request.

NOTICES

Any notice, demand, request, consent, approval, or communication that either Party desires, or is required to give to the other Party or any other person, shall be in writing and either served personally, sent by prepaid, first-class mail, or by email followed by mailing of said notice.

PERFORMANCE/PAYMENT BONDS ON THE NEXT PAGE

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Priority Landscape Services, LLC.** , a **CORPORATION, LIMITED LIABILITY COMPANY,** with its principal place of business at **1524 West Mable Street, Anaheim, CA 92802** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Landscape Maintenance for the Housing and Gas Tax Funded Sites** services to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Landscape Maintenance for the Housing and Gas Tax Funded Sites PM 2425-04** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027**, unless earlier terminated as provided herein. Contractor shall complete the Services within

the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **One Hundred Seventy-Five Thousand Five Hundred Dollars ($175,500**) without written approval of City's City Manager Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations

respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Philip Marino, Urban Forestry Manager**, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **Michael Rocha, Regional Manager**, or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to

the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage. Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Eighty Dollars with Zero Cents ($80**) per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to

immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and

policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be

promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The

surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been

transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, “Claims”) in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor’s Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys’ fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor’s indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City’s choosing and at Contractor’s own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such

claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

Priority Landscape Services, LLC.
1524 West Mable Street
Anaheim, CA 92802
Attn: Michael Rocha, Regional Manager

City:

City of Ontario
303 East "B" Street
Ontario, CA 91764
Attn: Philip Marino, Urban Forestry Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this

Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

SCOPE OF SERVICES

1. SCOPE OF WORK

A. The intent of this Agreement is to secure a contractor(s) who shall provide Landscape Maintenance Services for the Housing and Gas Tax Sites. PM 2425-04.

B. The Contractor shall furnish all labor, tools, materials, and equipment to provide the landscape maintenance and repairs as set forth in this Agreement.

C. All Work shall be done in a professional, thorough, and workman like manner to the satisfaction of the Parks and Maintenance Director, or his/her authorized agent, and comply with all legal construction and landscape maintenance practices. The premises shall always be maintained at the level of service provided for in these specifications. The Contractor shall have the duty to provide complete landscape maintenance of all the project areas, including, but not limited to, the following: Fertilize, under-trim trees and shape shrubs, trim ground cover areas, mow, and edge turf grass areas. Consistently maintain the project areas with horticulturally acceptable growth and color. Consistently maintain the project areas to be devoid of weeds. Consistently maintain the project areas to be devoid of weeds five (5) feet out into the curb, gutter and street. Consistently maintain the project areas to be devoid of diseases, rodents and pests. Consistently maintain the project areas to be devoid of litter. Consistently maintain the project areas to be devoid of safety hazards. Consistently maintain the project areas to be devoid of unsafe walkways. Consistently maintain the project areas to be devoid of blocked drainage systems. Consistently maintain the project areas to be devoid of malfunctioning irrigation systems. Consistently maintain the project areas to be devoid of graffiti and paper like signs. Program, monitor, adjust and maintain all irrigation system clocks, and perform extra work as directed and approved.

E. The Contractor shall be available twenty-four (24) hours a day, seven (7) days a week to respond to all emergencies within two (2) hours of notification. Emergencies that involve maintenance work included in these general conditions shall not be compensated.

F. The Contractor shall perform a weekly maintenance inspection, during daylight hours, of all areas. Such inspection shall be both visual and operational. It shall include, but not be limited

to, the operation of all irrigation and/or other mechanical systems to check for proper condition and reliability.

2. WORK SITE

Work sites may include parks, medians, trails, weed abatement areas, and parkways.

The City reserves the right to make additions or deletions under this contract with written notice to the Contractor. The monthly compensation shall be adjusted by the monthly unit cost per square foot if any changes result in an increase or reduction in square footage maintained. Compensation shall be based on a-per unit cost (bid schedule form submitted) of work completed.

3. LENGTH OF CONTRACT

This **PRIMARY** contract shall begin **July 1, 2024 and shall terminate on June 30, 2027.**

The **FIRST** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2027, through June 30, 2028,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

The **SECOND** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2028, through June 30, 2029,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

All optional extensions of the contract are subject to approval by the City Manager, or his authorized agent and are contingent upon funding and performance by the Contractor.

4. DEFINITIONS

Where "as directed", "as required", "as permitted", "approved", "acceptance", or words of similar importance are used, it shall be understood that the direction, requirement, permission, approval or acceptance of the Parks and Maintenance Director, or his authorized agent, is intended unless otherwise stated.

The use of the word "Contractor" shall be held to mean the Contractor and/or any person employed by the City of Ontario, Parks and Maintenance Director, or his/her authorized agent and working under this contract.

The use of the words "shall" and "may" shall be held to mean "mandatory" and "permissive" respectively.

The use of the words "his" or "him" shall be construed to mean either gender, as appropriate. The use of the words " Parks and Maintenance Director " shall be construed to mean either the Parks and Maintenance Director or his authorized agent(s).

The words "City working day" refers to Monday-Friday, 6:30 a.m. to 4:00 p.m.

5. VANDALISM/THEFT/DAMAGE

Contractor shall be responsible for performing maintenance, repairs, and replacement of existing landscaped areas which are maintained under this contract and damaged or altered in any way as a result of theft, vandalism or mysterious damages that do not result from the performance of the Contractor.

In the case of vandalism to the maintained areas (Damage by Unknown Circumstances), Contractor shall notify the City within 24 hours using the free myOntario App. Graffiti will be entered under the “graffiti “Tab. All other Vandalism will be entered under the “Parks” Tab. In addition, EXCEPT in the case of graffiti, a text or email must be sent to the City’s Representative within 24 Hours detailing the Vandalism.

The use of red "Danger" tape shall be used when an area is unsafe for the public by the end of workday.

The repairs shall be made within 24 hours of receiving a notice to proceed by text or email. At no time shall damage by unknown sources remain unrepaired for a period exceeding 72 hours.

Additional compensation will be provided only for costs that are directly related to the theft and/or vandalism.

The following conditions shall be met prior to the Contractor being reimbursed for "Damage by Unknown Circumstances".

6. VANDALISM/THEFT/DAMAGE BIDS

Contractor shall submit an itemized EWA (Extra Work Authorization) within 24 hours to the City's Representative. Contractor shall secure written authorization for the repairs by the Parks and Maintenance Director, or his authorized agent within twenty-four (24) hours by e- mail or text. For emergencies regarding public safety, a verbal or text approval by the Parks and Maintenance Director, or his authorized agents, may be obtained.

7. COMPLETION OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Work is to commence within twenty-four (24) hours after receiving City approval.

B. The work shall be inspected and released as complete by the City representative, and then invoiced as specified in section (8).

8. INVOICING OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Contractor shall submit on business letterhead, a photocopy of the original EWA describing individual material costs and an invoice with line items for material costs, labor costs and administrative costs. The cost estimate for additional work shall consist of the following elements: **Base cost of labor plus Fifteen percent (15%) for overhead and profit. Actual cost of materials plus fifteen percent (15%) for overhead and profit.** City reserves the right to ask for payroll records and vendor invoice if discrepancies on the bid exist. Materials may be provided by the City of Ontario.

B. Contractor shall submit a copy of a report filed with the City of Ontario Police Department, which relates to the specific incident if required by the Parks and Maintenance Director or his authorized agent.

9. ADDITIONAL (EXTRA) WORK (EXTRA WORK AUTHORIZATION or EWA)

A. The Parks and Maintenance Director, or his authorized agent, may, at his discretion, authorize the Contractors to perform additional work. Additional work (work not related to "Damages by Unknown Circumstances") shall be defined as work not included in this Agreement.

B. Prior to the Contractor performing any additional work, the Contractor shall prepare and submit a written description of why the additional work is required, what type of work is proposed, and a cost estimate for the additional work as stated. No work shall commence

without written authorization from the Parks and Maintenance Director, or his authorized agent. Notwithstanding the above authorization, when a condition exists where there is imminent danger of injury to the public or damage to property, the Parks and Maintenance Director, or his authorized agent may verbally authorize the work to be performed upon receiving a verbal estimate from the Contractor. However, within twenty-four (24) hours after receiving a verbal authorization, the Contractor shall submit a written estimate to the Parks and Maintenance Director, or his authorized agent, for approval.

C. The cost estimate for additional work shall consist of the following elements:

Base cost of labor plus fifteen percent (15%) for overhead and profit.

Actual cost of materials plus fifteen percent (15%) for overhead and profit (invoice from vendor shall be attached to each invoice turned in for payment).

City reserves the right to ask for payroll records. Materials may be provided by the City of Ontario.

D. Written authorization from the Parks and Maintenance Director, or his authorized agent, shall be by the issuance of a change order or signed bid. This change order or signed bid shall be considered an amendment to this Agreement and approved by the Parks and Maintenance Director, or his authorized agent, and Contractor.

E. All additional work shall commence on the agreed date and shall diligently proceed until completion. Contractor could use the labor force assigned to the contractual maintenance tasks to perform additional work if prior approval has been granted by the City representative.

F. Upon completion of the additional work, the Parks and Maintenance Director, or his authorized agent, shall be notified so that the work may be verified.

G. The Contractor shall submit an invoice for compensation with attached photocopies of original invoices for materials and a copy of signed bid. Compensation shall not exceed the written estimate. The Contractor's invoice shall be subject to audit and review by the City prior to payment.

H. The City of Ontario reserves the right to repair or contract with a third Party to perform such additional work (if bids are not received within 72 hours of official request and or if the proposed costs do not concur with contractor's labor rates and cost of materials)

10. CONTRACTOR LIABILITY

A. All damage to existing improvements located within areas and adjacent to areas under construction, which in the opinion of the Parks and Maintenance Director, or his authorized agent, are due to the Contractor's operation, shall be repaired or replaced at the Contractor's expense with exact (existing) materials and in an approved manner.

B. Such repairs or replacements shall be performed by the Contractor at no cost to the City and shall be accomplished as directed by the Parks and Maintenance Director or his/her authorized agent. Repairs shall be made immediately after damage or alteration occurs. Deductions shall be made from the Contractor's payments in the amount necessary to compensate the City for such repairs in the event such repair work is done by City forces, or another source.

C. Irrigation damage shall be repaired or replaced within the following time limits: Irrigation entities such as, but not limited to, (risers, heads, backflow device and cages, controllers, basket strainers, pressure regulators, irrigation wires and valves, valve boxes, irrigation pumps, ET gagues, rain buckets, antennas, flow sensors, and landscape lighting equipment) that are damaged during regular routine maintenance and become non- functional or non-efficient shall be replaced immediately. Mainline irrigation breaks shall be repaired within two (2) hours of being notified. All other irrigation repair and/or replacement shall be completed within 24 hours of being notified. (In the event that the mainline repairs require specialized parts and or materials, the contractor shall be responsible to request from the City additional time to complete the repair/s)

D. All damage to turf grass, groundcover, shrubs or trees, shall be repaired or replaced within three (3) working days of being notified. Damage to turf shall be repaired by replacement with the appropriate variety of bermudagrass sod or seeded with warm season seed and topper added. Damage to groundcover shall be repaired by replacement with the appropriate variety of plant material. Size and spacing shall be determined by the Parks and Maintenance Director, or his authorized agent. Damage to shrubs may be corrected by appropriate pruning; however, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the damage is severe, the shrub (in its entirety) shall be removed and replaced with a similar variety and size.

E. Damage to trees shall be repaired in the following manner:

Minor damage, such as bark lost from mechanical equipment shall be remedied by a certified Arborist. If the damage results in the loss of the tree, or, if in the opinion of the Parks and Maintenance Director or his authorized agent, the damage is severe, the damaged tree shall be removed and replaced with a similar variety and size. All damage resulting from chemical application and/or operation, either by spray-drift, improper application, lateral leaching, or other means shall be corrected in accordance with the previous provisions and the soil conditioned to ensure its ability to support plant life. All work shall be inspected, verified, and completed to the satisfaction of the Parks and Maintenance Director, or his authorized agent.

11. INSPECTION/DRIVE

The City and an appointed representative of the Contractor shall conduct a once a month walkthrough to inspect each individual work area. It is the responsibility of the Contractor to set up the inspection time(s) five (5) working days prior to the walkthrough/inspection. It is a requirement that a six to twelve (6-12) month master calendar be set up within 30 days of the award of the contract to insure coordinated dates of inspection. This inspection is to ensure adequacy of maintenance, methods of performing the work are in compliance with the contract and allow all deficiencies to be corrected prior to invoice submission and payment. However, this shall not be construed to relieve the Contractor of the duty to provide continuous inspection of individual work areas. Discrepancies and deficiencies in the Contractor's work shall be brought to the attention of the Contractor and corrected in the manner prior to invoicing and payment.

12. HAZARDOUS CONDITIONS

It shall be the Contractor's responsibility to inspect, and identify, any condition(s) that renders any areas within this Agreement unsafe, as well as any unsafe practices occurring thereon. The Parks and Maintenance Director, or his authorized agent, shall be notified immediately using the myOntario App, as well as text or phone call, of any unsafe condition that requires major correction.

The Contractor shall be responsible for making minor corrections including, but not limited to, filling holes in landscaped areas, diverting water sheet flow, using barricades, danger tape or traffic cones to alert persons of the existence of hazards and replacing valve box covers so as to protect all persons from injury.

The Contractor shall inspect all work sites for hazards, or potential hazards in the contractual areas daily.

During the required inspection of all work sites for hazards, or potential hazards, the Contractor shall immediately contact the City representative (either e-mail or text) indicating the condition, date, and the area that was inspected and a work order should be created using the myOntario App.

The Contractor shall cooperate fully with the City of Ontario in the investigation of any accidental injury or death occurring on the premises, including the submission of a complete written report thereof to the Parks and Maintenance Director within three (3) days following the occurrence.

13. REMOVING OBSTRUCTION AND MAINTENANCE OF EXISTING IMPROVEMENTS

Where the work is to be constructed in, or adjacent to, areas which have been improved by lawns, trees, shrubs, or gardens, the Contractor shall remove such trees or plants as may be necessary for the prosecution of the work and give them proper care and attention until the work has been satisfactorily completed, after which the Contractor shall replace them in as nearly the original condition and location as is reasonably possible. Where it is necessary to deposit the excavated materials on lawns during the process of construction, the Contractor shall first lay burlap or canvas on the lawn to prevent contact between the excavated material and turf grass. Unless otherwise indicated in the contract documents, all utility lines, conduits, wires, or structures shall be maintained by the Contractor and shall not be disturbed, disconnected or damaged by them during the progress of the work, provided, that should the Contractor in the performance of the work disturb, disconnect, or damage any of the above, all expense, arising from such disturbance, or in the replacement or repair thereof, shall be borne by the Contractor. However, in accordance with Section 4215 of the California Government Code, the Contractor shall be compensated 1) for the cost of locating and repairing damage to main or trunk line utility facilities located on the job site, not due to the failure of the Contractor or exercise reasonable care; 2) for costs of removing or relocating such utility facilities not indicated in the contract documents with reasonable accuracy; and 3) for the operation cost for equipment on the project necessarily idled such work.

At least two (2) working days prior to commencing any excavation pursuant to this Contract, the Contractor shall contact Underground Service Alert at (800) 422-4133 or other appropriate regional notification center if the excavation will be conducted in an area which is known, or reasonably should be known, to contain subsurface installations.

14. CONTRACTOR STAFF

The contractor shall provide the manpower as a minimum staffing requirement to comply with the performance of the landscape/irrigation maintenance specifications and requirements of the site.

The Contractor shall furnish one (1) supervisor with a minimum of 5 years of landscape and irrigation maintenance experience and sufficient supervisory and working personnel capable of promptly accomplishing all tasks on schedule, to the satisfaction of the Parks and Maintenance Director, or his authorized agent, all work required under this contract during the prescribed hours (6:30 AM to 4:00 pm). **Staffing shall be as needed plus any additional workforce to complete the maintenance/construction tasks required on the frequency page.** Payment will be based upon completed, acceptable work, Irrigation technician and spray technician to be provided as needed (personnel needs do not address the alternates per bid forms). Incomplete or unacceptable work will result in a delay or reduction of billing payment.

The Contractor shall have a competent supervisor, who is capable of communicate effectively both in written and oral English and discuss matters pertaining to this contract. Supervisor must be able to demonstrate to the satisfaction of the Parks and Maintenance Director, or his authorized agent, that they possess an adequate technical background. Adequate and competent supervision shall be provided for all work done by the Contractor's employees to ensure accomplishment of high-quality work, which will be acceptable to the Parks and Maintenance Director or his authorized agent.

Any order or communication given to the supervisor shall be deemed as delivered to the Contractor. The contractor shall use the free myOntario App. The use of a Smart phone will be required.

The contractor shall provide the minimum staffing requirements to comply with the performance of the landscape maintenance specifications and requirements of the site. Personnel shall be on site ready to work no later than 6:30am.

The Contractor, and their employees, shall always conduct themselves in a proper and efficient manner and shall cause the least possible annoyance to the public. The Parks and Maintenance Director or his authorized agent, may require a Contractor to remove from the work site any employee(s) deemed careless, incompetent, or otherwise objectionable, whose continued employment on the job is considered to be contrary to the best interest of the City of Ontario.

The Contractor shall require each of his employees to wear basic public works working attire. These are basically proper shoes, and other gear required by State Safety Regulation, and proper wearing of the clothing. Shirts shall be worn and always buttoned; safety vests "Type II" are required when indicated by the Work Area Traffic Control Handbook, the Parks and Maintenance Director or his authorized agent.

The Contractor shall establish an identification system for personnel assigned to the maintenance/construction site, which clearly indicates to the public the name of the Contractor and individual responsible for the construction/maintenance work. The identification system shall be furnished at the Contractor's expense and may include appropriate attire and name badges.

Contractor shall be responsible for traffic control (where needed) and shall be done per "WATCH" standards. Failure to comply with proper "WATCH" standards shall result in stoppage of all work until the proper traffic control is set up and could result in a fine. 1st violation $500.00, 2nd. Violation $ 1000.00, 3rd. violation and thereafter $ 3000.00 and/or possible cancellation of contract.

Inclement Weather

During inclement weather, (rainstorms, windstorms etc.) the contractor shall be required to contact the City representative prior to 7:00 am to receive clear direction of their assignments for the day. A minimum of two staff members shall be at the disposition of the City.

15. LOCAL OFFICE

A. The Contractor shall maintain an office with a telephone and provide at all times the following:

A responsible person(s), employed by the Contractor, which shall have the ability to take necessary action regarding all inquiries and/or complaints received from the Parks and Maintenance Director, or his authorized agent. This person(s) shall be accessible twenty-four (24) hours per day and seven (7) days per week. An answering service shall be considered an acceptable substitute to full-time coverage, outside of prescribed working hours, provided the Contractor is notified of any communication within one (1) hour after receipt of said communication. The telephone number(s) of the Contractor or responsible person(s) of the Contractor shall be a toll-free number for the City of Ontario.

B. During normal working hours, the Contractor's supervisors, who are responsible for providing contractual services, shall be available for notification through a landline or cellular telephone communication. This will allow the city to access the contractor at any time during City working hours.

16. STORAGE FACILITIES

The City of Ontario will not be providing storage facilities throughout the duration of this contract.

A. SIGNS

Contractor shall not post signs or advertising matter upon the areas under maintenance or improvements thereon, unless prior written approval is obtained from the Parks and Maintenance Director, or his authorized agent.

Contractor shall, always, remove all unauthorized signs and advertising matter such as, but not limited to, garage sale signs, yard sale signs, campaign signs and personal business signs in the area under maintenance.

17. LOCK AND KEYS

A. Where City of Ontario locks and keys are required as part of this contract, the Contractor shall:

Not duplicate any coded City key furnished by the city.

Surrender all keys furnished by the Parks and Maintenance Director or his authorized agent promptly at the end of the contract period, or at any time-deemed necessary by the Parks and Maintenance Director, or his authorized agent, to prevent loss to the City of Ontario.

Protect the security of City property by keeping controller cabinets and enclosure doors always locked.

Contact the City immediately if a security lock is non-functional and needs repair. Refrain from using premises behind locked doors for storage of materials, supplies or tools except as approved by the Parks and Maintenance Director or his authorized agent. In the event that the contractor staff who has been assigned keys to the facilities resigns from his position, it is the

sole responsibility of the contractor to retrieve the keys assigned to such staff member and return to the City.

18. UTILITIES

The City of Ontario shall pay for the maintenance related to water and electrical utilities.

When needed, water usage shall not exceed the budgeted amount to comply with the City Water Conservation efforts. A water budget may be provided by the City and shall be reviewed and adhered to by the Contractor. Water budget shall be approved by the Parks and Maintenance Director, or his authorized agent.

The Contractor may be charged for all excessive utility usage (using the current utility rate) due to the contractor's failure to manage and or monitor irrigation system malfunctions or unauthorized increases in water usage. The excess cost will be determined by comparing the current utility usage with historical usage data for the same period.

The excess cost factor shall be deducted from payments to the Contractor. However, the Contractor will be allowed three (3) working days, upon receiving notice, to explain in written documentation the cause of the increase in utility usage in question. A final determination (after review of Contractor's explanation) of the deduction will be assessed by the Parks and Maintenance Director or his authorized agent.

19. NON-INTERFERENCE

The Contractor shall not interfere with the public use of the premises and shall conduct their operations so as to offer the least possible obstruction and inconvenience to the public, nor disrupt the peace and quiet of the area within which the services are performed.

20. PARKING

A. The Contractor shall park their vehicles and equipment within designated parking areas or in such a location to ensure normal vehicular traffic.

B. The Contractor's vehicles and equipment shall not be parked or set in such a manner that they block pedestrian access or vehicular right-of-way except as required to comply with all safety standards of OSHA or CAL-OSHA. Failure to perform proper traffic control will result in a formal warning (first time), deduction of $500.00 per instance after formal warning has been given and contractor fails to comply.

21. EMERGENCY CALLS

A. The Contractor shall have the capability to receive and respond immediately to calls of an emergency nature during normal working hours and outside of normal working hours. Calls of an emergency nature received by the Parks and Maintenance Director or his authorized agent, shall be referred to the worksite Contractor for immediate disposition. If the work site Contractor cannot be reached within two (2) hours, the City will deduct from the monthly billing the cost of City forces, or other sources, used to repair the emergency. The Contractor shall not receive additional compensation for responding to emergencies for work included in these general conditions at contract work sites.

22. EXTRAORDINARY SERVICES

A. The Contractor shall be responsible for providing extraordinary maintenance and/or repairs to existing landscape and new landscape areas outside of their contract areas. Extraordinary services shall be defined as work not included in these general conditions or work required at a site for which there is no contract. Extraordinary maintenance shall include answering emergency calls as required. Contractors shall respond to an emergency call within two (2) hours. Contractors shall maintain a 24 hours per day, seven days per week, on-call service for emergency calls. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, by telephone within 24 hours of any emergency extraordinary work that is performed. Non-emergency extraordinary work requires written approval before the work is performed. Submission of an EWA and approval by the Parks and Maintenance Director, or his authorized agent will be necessary. The Contractor shall be compensated for extraordinary work as defined in Section 9.

B. In situations involving emergency repair work after normal work hours, Contractors shall dispatch qualified personnel and equipment to reach the site within two (2) hours. The Contractor's vehicle shall carry sufficient equipment to effect safe control of traffic. When the work site Contractor arrives at the site, the Contractor shall set up traffic warning and control devices, if deemed necessary and proceed to repair on a temporary/permanent basis.

C. If a City Representative is still at the site when the work site contractor arrives, the Contractor shall quickly evaluate the situation and discuss it with the City Representative. If the repair will take only a few minutes, the City Representative may stay to continue to direct traffic while the Contractor makes the repairs. If the repair will take longer than the City Representative

can wait, the Contractor shall immediately set up temporary traffic control devices and all other necessary warning devices and relieve the City Representative.

D. An emergency may be called by the following individuals or agencies at anytime for extraordinary services involving repair work:

1. City Manager
2. Police Department
3. Fire Department
4. Parks and Maintenance Director

E. The following emergency phone numbers are listed for the convenience of the Contractors:

Fire Department (Dispatch)	(909) 983-5911
Fire Department (Emergency)	911
Police Department (Dispatch)	(909) 986-6711
Police Department (Emergency)	911
Southern California Edison	(800) 655-4555
Southern California Gas	(800) 427-2200
Dig Alert	(800) 422-4133

23. REPORTING DAMAGE OR MALFUNCTION

Any damage to, or malfunction of, any facility not specifically stated in this Agreement shall be promptly reported to the Parks and Maintenance Director, or his authorized agent.

24. COMPENSATION FOR ROUTINE MAINTENANCE

The City shall compensate Contractors based upon the total dollar amount of a bid or the total dollar amount of a combination of bids, if applicable, in monthly installments beginning 30 days after the commencement of work. Billing adjustments may be made where authorized by this Agreement.

25. ADDITION OR DELETION OF LANDSCAPE AREAS

The Contractors shall maintain, at a unit price comparable to other existing landscape areas and subject to the Parks and Maintenance Director approval or his authorized agent's approval, additional landscape areas that the city adds to this contract. If notification is made of a new installation other than at the beginning of a monthly period, the unit cost negotiated and agreed upon by the parties, shall be prorated from the day the Contractor is notified to start maintenance. The City may elect to delete work sites, or portions thereof, within this Agreement at a unit price comparable to the bid price of said work sites.

26. DISCREPANCIES OR OMISSIONS

Should a bidder find discrepancies or omissions in the specifications or other documents, or be in doubt as to their true meaning, he may request a written interpretation from the Parks and Maintenance Director, or his authorized agent. Any interpretation, or change in the proposed documents, will be made only by addendum issued to each person to whom bid forms have been issued and shall become a part of the bid.

27. MINOR MODIFICATION

The Parks and Maintenance Director, or his authorized agent, may modify these specifications with the joint approval of the Contractor.

28. CONTRACTOR NON-COMPLIANCE

If the Parks and Maintenance Director, or his authorized agent, determines that there are deficiencies in the performance of this Agreement, the Parks and Maintenance Director, or his authorized agent, will provide a written inspection notice to the Contractor stating the deficiencies and specifying a time frame to correct the specified deficiencies. This time frame shall be reasonable, as determined by the Parks and Maintenance Director, or his authorized agent, to correct the specified deficiencies but not to exceed five 5 working days from the day of the inspection punch list. If the site(s) show obvious signs of non-performance, the Parks and Maintenance Director, or his authorized agent shall have the ability to immediately enforce partial or full deduction for the site in question. Should the Contractor fail to correct all deficiencies within the stated time frame, the Parks and Maintenance Director, or his authorized agent, may exercise the following measures:

A. Deduct from the Contractor's payment the amount necessary to correct the deficiency, including City overhead and impose a deficiency deduction.

B. Withhold the entire or partial payment.

C. Utilize City forces, or an alternate source, to correct the deficiency and deduct from the Contractor's payment the total cost, including City overhead. The Parks and Maintenance Director, or his authorized agent, shall decide all questions which arise as to the manner of performance and completion per schedule, acceptable fulfillment of the contract by the Contractor, interpretation of the specifications, and compensation to include completion of work by alternate sources. In addition to the provisions of Section 3.3, Contract Documents and Section 28 (B), in event of a failure to correct a deficiency, or for any other breach of this Agreement by the Contractor, the City of Ontario may immediately terminate this Agreement. If the contractor requires extra time to complete the deficiency list due to materials/parts shortage, the contractor shall request in writing only the time needed to be added and the reasons why. The City representative will review the request and shall respond to the contractor in writing of the decision made. Contractor shall present the request for extension within the first five (5) working days of the deficiency list.

29. PAYMENTS WITHHELD

The city may withhold entire or partial payment for reasons as follows:

A. Work required in the specifications, which is defective, incomplete, or not performed. Claims filed or reasonable evidence indicating probable filing of claims.
B. Failure of the Contractor to make payments properly to subcontractors, or for materials and/or labor. A reasonable doubt that the contract cannot be completed for the remaining balance.
C. Reports, logs, or other contractual written documentation required of the Contractor to be delivered to the Parks and Maintenance Director, or his authorized agent, which is/are incomplete or not performed.

30. WITHHELD CONTRACT FUNDS

The Contractors may, at his sole cost and expense, substitute securities equivalent to any monies withheld by the City to insure performance under the contract. Such securities shall be deposited with the City or with a State or Federally Chartered Bank as escrow agent who shall pay such monies to the Contractors upon satisfactory completion of the contract. The Contractor

shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. Securities eligible for investment under this section shall include those listed in Public Contract Code Section 22300. One definition of just cause for immediate contract termination is, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the contract cannot or will not be completed by the Contractor in its entirety. In the event of such termination, the bonds required shall remain in effect for six (6) months after the date of termination to provide surety that any remedial work required at the time of termination will be completed.

If the Contractor fails to meet the specifications of this contract for any fifteen (15) consecutive or non-consecutive days, the Parks and Maintenance Director, or his authorized agent, may at his option terminate the balance of this contract by written notice of termination to the Contractor. Notice of such termination shall take effect three (3) days after such notice is mailed.

31. COMPLAINTS FROM CITY

The Contractor shall maintain an on-the-job a written log of all complaints which includes the date and time received and the action taken or the reason for non-action. The on-the-job log of complaints shall be available upon request from the City Representative. All complaints shall be abated as soon as possible after notification; but in all cases within 24 hours, to the satisfaction of the Parks and Maintenance Director, or his authorized agent. If any complaint is not abated within 24 hours, the Parks and Maintenance Director, or his authorized agent, shall be notified immediately of the reason for not abating the complaint, followed by a written report to the Parks and Maintenance Director or his authorized agent, within four (4) City working days.

If the complaints are not abated within the time specified, or to the satisfaction of the Parks and Maintenance Director or his authorized agent, the Parks and Maintenance Director, or his authorized agent, may correct the specific complaint and the total cost incurred by the City of Ontario shall be deducted and forfeited from the payments owing to the Contractor from the City of Ontario.

32. CONTRACTOR IS AN INDEPENDENT CONTRACTOR, INDEMNIFICATION

Contractor shall act under the contract as an Independent Contractor thorough the City of Ontario and will not be an agent, or employee of the City. Contractor shall not represent or otherwise hold out itself, or any of its subcontractors, directors, officers, partners, employees, or

agents, to be an agent or employee of the City. Contractors shall indemnify and otherwise hold harmless the City, its officials, officers, directors, employees, agents and other representatives, from all liability, loss, or damage, including reasonable attorney's fees and other costs of defense resulting from damage or injury to persons or property caused, or claimed to have been caused, by acts or omissions of the Contractor, or of any of its subcontractors, directors, officers, partners, employees, or agents in the course of, or in connection with the Contractor's performance under the contract. The Parties agree to cooperate fully in the resolution of any claims for such liability, loss, or damage.

33. SUBCONTRACTOR/ASSIGNMENT OF CONTRACT

Reference is hereby made to the provisions of The Subletting and Subcontracting Fair Practices Act (Government Code Sections 4100, et. seq.), which are incorporated herein and made a part hereof by this reference.

A copy of each subcontract, if in writing, or if not in writing, then a written statement signed by the Contractor, giving the name of the subcontractor, and the terms and conditions of such subcontract, shall be filed with the City before the subcontractor begins work. Each subcontract shall contain a reference to this agreement between the City and the Contractor, and the terms of that agreement between the City and the Contractor and all parts thereof shall be made a part of such subcontract insofar as applicable to the work covered thereby. Each subcontractor shall provide for its annulment by the Contractor at the order of the City, if, in the City's opinion, the subcontractor fails to comply with the requirements of the principal contract insofar as the same may be applicable to his work. Nothing herein contained shall create any contractual relation between any subcontractor and the City or relieve the Contractor of any liability or obligation hereunder.

Contractor shall not assign, transfer, convey or otherwise dispose of this contract, or of his rights of interests in or to the same or any part hereof, without the previous consent in writing of the Parks and Maintenance Director, or his authorized agent. If the Contractor, without such previous written consent assigns, transfers, conveys, or otherwise disposes of the contract, or of his rights or interests therein, the contract may, at the option of the City, be terminated and revoked, and the City shall there upon be relieved and discharged from all liability and obligations arising out of the same to the Contractor, and to his assignee or transferee. No right under the contract, nor any right to any money to become due hereunder, shall be asserted against the City in law or equity by reason of any so-called assignment of the contract, or any

part thereof unless authorized by the written consent of the Parks and Maintenance Director, or his authorized agent.

34. COMPLIANCE WITH THE LAW

Contractor agrees that their performance under this contract shall comply with all applicable laws of the United States of America, the State of California, the county of San Bernardino, the City of Ontario and any other political entity having jurisdiction over the activities of the Contractors. The Contractor State License Board for the State of California has administratively determined in writing that a C-27 Contractor License is required to provide the service as set forth in the contract and specifications. Therefore, each bidder will be required to hold a valid C-27 Contractor License.

35. PAYROLL

Section 1776, Chapter 1 of Division 2, from the California Labor Code requires that each Contractor and Subcontractor keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and each week, and the actual per diem wages paid each journeyman, apprentice or worker employed by him.

The employee's own payroll records shall be available for inspection, and a copy shall be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standard.

Pursuant to Labor Code Section 1778.8, the Contractor agrees to pay travel and subsistence payments to each workman needed to execute the work in accordance with the applicable collective bargaining agreements filed with the Department of Industrial Relations.

36. LABOR STRIKE

It shall be the responsibility of each contractor to provide continuous contractual services, without any interruption.
In case of any labor strikes, the Contractor shall provide other means, as its own cost, to provide a comparable continuous contractual service as if there were no strike.
Failing to do so will cause the Parks and Maintenance Director, or his authorized agent, to take whatever action is deemed necessary to provide such service and the cost will be borne by the Contractor.

37. TURF GRASS CARE (Where Applicable)

A. Turf grass Mowing:

The Contractor shall mow all turf grass with adequately sharpened rotary type mowers as to provide a smooth and even cut without tearing of turf grass blades.
The blade adjustment shall provide a uniform, level cut without ridges, depressions or scalping.
All cool season turf grasses shall be cut with a power driven rotary mower at a two inch (2") height from November to February and at two and half inches(2 1/2'.') from March to October.

Turf grass mowing heights may be adjusted by the Parks and Maintenance Director, or his authorized agent, during periods of turf grass renovation.

Care shall be exercised to avoid depressions in the established grade from mowing when the soil is saturated.

The Contractor shall submit, in writing, a mowing schedule within ten (10) days after the start of the maintenance contract. This mowing schedule shall be approved by the Parks and Maintenance Director, or his authorized agent. Any alteration of the approved mowing schedule shall be submitted in writing to the Parks and Maintenance Director or his authorized agent, for approval prior to implementation.

B. Turf Grass Edging and Trimming:

Turf grass edging and trimming shall be performed per frequency schedule at the time of mowing.

Edging of turf grass shall be performed with a power edger containing a steel blade, the use of string trimmers (weed-eater) to edge turf areas is not a practice acceptable to the City. The use of a stick edger is acceptable.

All turf grass adjacent to sidewalks, curbs, mowing strips, shrub beds, and where no improved surface exists, shall be edged in a neat uniform line.

Where facilities include a softball or baseball field, the infield radius shall be edged regularly to keep radius clearly defined. Grass and weeds shall not encroach into the infield and shall be treated/removed immediately.

Trimming of turf grass shall be performed along walls, and around valve boxes, water meter boxes, backflow devices, trees, shrubs, or any structures located within the turf grass area.

Tree trunk protectors shall be provided and installed, at no additional cost to the City, when string trimmers are utilized for trimming around the base of trees. The City may allow a sixteen inch (16") diameter mulch ring around trees to eliminate continual string trimming.

A four-inch (4") barren strip shall be provided, and maintained, between turf grass areas and adjacent ground cover. Edging of turf grass and ground cover shall provide uniform delineation adjacent to this barren strip.

Trimming of plant material may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site the same day work is performed and prior to the contractor vacating the work site.

After mowing and edging is completed, all adjacent walkways and gutters shall be swept or blown clean.

Blowing and disposing of grass clippings into the City storm drain system and/or streets shall not be permitted. If found contractor will face liquidating damages as follows;

1st violation$ 1000.00, 2nd violation $ 2000.00, 3rd violation and thereafter $ 3000.00.

C. Turf grass Fertilization

The turf grass shall be continually fertilized a minimum of 3 x per year with additional application if needed, to provide a healthy and vigorously growing turf grass with horticultural acceptable growth and color, as determined by the Parks and Maintenance Director, or his authorized agent.

1. Fertilization shall be performed with a balanced fertilizer, consisting of a 3-1-2 ratio, at a rate of one (1) pound of actual Nitrogen per 1,000 square feet of area. Any change in the

fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the following:

- Location and exact date the fertilizer application will be performed.

- Type of fertilizer and method of application to be used.

3. The Contractor shall immediately irrigate (staff shall be present when irrigating during the day) after each fertilizer application and repair with sod (Dwarf Fescue) any damaged areas due to fertilizer/chemical burn.

4. All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

D. Turf grass Renovation

1. Renovation shall consist of aerating, verticutting, thatch removal, over-seeding and top dressing (a minimum of l/8").

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any renovation operation. This written document shall include location and exact date the renovation will be performed and type of equipment and materials to be used.

3. Contractors shall remove all renovation-generated debris from the work site the day of the renovation operation and prior to vacating the work site.

4. Light verticutting and thatch removal of warm season turf grass (where present) shall be performed between September 30th and October 15th or as directed by the City Representative.

5. Over-seeding shall be performed within two (2) days after verticutting with properly calibrated seeders. Warm season turf grass shall be over-seeded at a rate of ten (10) pounds of seed per 1,000 square feet. A 3 way dwarf type Bermuda grass seed shall be used. Seed tags shall be provided to the Parks and Maintenance Director, or his authorized agent. Additional over-seeding shall be performed if less than 80% germination occurs within the first month.

6. Top dressing shall be performed using a properly calibrated top dressing machine and seed shall be topped with one-eight inch (1/8") of weed free topper. The topper must be approved by the Parks and Maintenance Director or his authorized agent, and shall not contain steer manure (City reserves the right to provide the topper needed if available and in stock).

7. Reseeding of bare spots shall be performed continually throughout the year to reestablish turf to an acceptable quality. If quality does not meet the City acceptance contractor shall replace with sod (Bermuda grass, Dwarf Fescue or equal).

The Parks and Maintenance Director or his authorized agent, will require the use of sod as a replacement material when deemed necessary. The Contractors shall be entitled to the wholesale cost of the sod only, provided the loss of turf grass was not due to the negligence of the Contractor. Sod shall be Bermuda grass or Dwarf Fescue.

E. Aeration

All turf grass shall be aerated four (2) times per year, once every quarter, starting July 1st. Aeration shall be performed with a ride on or a walk behind aerator machine which has one-half inch (1/2") to one inch (1") in diameter coring tines spaced no more than six inches (6") apart. The machine shall remove cores from the turf to a depth of 4-6”. Dragging or pulverizing of cores is acceptable.

F. Turf grass Irrigation

All turf grass shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and over spray shall be minimized. Where possible, the turf grass irrigation shall be on a separate program from other plant material irrigation. Turf grass shall be irrigated in a method which promotes deep root growth.

At facilities with softball and baseball infields, Irrigation shall be adjusted so as not to overlap into the infield mix. Any reports of saturated infield mix from irrigation shall be addressed immediately.

38. SHRUB CARE

A. Pruning of Shrubs

Shrubs shall be pruned with sharp pruning tools.

Shrubs shall be continually pruned, as necessary, to prevent encroachment of passageways, walks, streets, and view of signs. Shrubs shall be tapered to provide irrigation coverage and an aesthetically pleasing landscape.

All pruning cuts shall be one-quarter inch (1/4") above a node (bud). No projections or stubs shall be allowed to remain.

After pruning is completed, all adjacent walkways and gutters shall be left clean. Blowing and disposing of any debris into the Storm Drain system and/or streets shall not be permitted. If found, Contractor will face liquidating damages as follows; 1st violation $ 500.00, 2nd. violation $1000.00, 3rd. violation and thereafter $3000.00 and/or possible cancellation of contracts.

During blooming season, vines shall be trimmed minimally so as not to remove floral display areas.

Pruning shall be done to maintain a well-groomed, natural growth habit, and encourage air movement through shrubs.

The Contractor shall remove all clippings the same day shrubbery is pruned and prior to vacating the work site.

Pruning of roses (except for trailing roses) shall be accomplished using best horticultural practices. The use of hedge shears to prune roses will not be permitted. Roses shall be deadheaded as needed and shall be heavy pruned once per year.

New plantings, once approved by the City Representative, shall take place within a week from the date reported.

B. Shrub Fertilization

Shrubs (including roses) shall be fertilized a minimum of 3x per year or as directed by the Parks and Maintenance Director his authorized agent with a balanced fertilizer specific for the type of plants. Roses shall be fertilized once following heavy pruning and one additional time per year.

Foliar fertilization may be performed when appropriate and will require the approval of the City Representative.

C. Shrub Irrigation

All shrubs shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and over spray shall be minimized. Shrubs shall be irrigated in a method, which promotes deep root growth.

D. Shrub Replacement

All damaged, diseased (untreatable) or dead shrubs shall be replaced with the same species plant material that existed (unless a disease situation is discovered affecting the specie). Shrubs shall be replaced within 7 days after being identified by the contractor or authorized agent. Size of the replacement plant material is to be determined by the authorized agent. The Contractor shall be responsible for the complete removal and replacement of shrubs lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Substitutions or any plant materials must have prior written approval by the Parks and Maintenance Director, or his authorized agent.

Original plans and specifications may be consulted to determine correct identification of species.

All shrubs shall be guaranteed to live and remain in a healthy condition for the duration of the contract from the date of installation, inspection and verification by the Parks and Maintenance Director, or his authorized agent.

Soil build-up around the crown of shrubs shall be continuously removed.

E. Vine Maintenance

Vines shall be trimmed as needed to promote upright growth and shall be kept attached and contained on the structure.

All vines shall be trimmed on a as needed basis by the contractor, the standard of the City is to trim vines one block below the top of the wall, the City understands that its vines in some sites are mature and have grown over the top of the wall, the contractor shall only be responsible to trim the vines that are solicited by our residents and will have to adhere to the standards herby mentioned. No vines will be allowed to grow in newly installed wood fences or wood fence

extensions (above the top of the fence or block wall). Vines shall be trimmed tight and follow horticultural standards.

39. GROUNDCOVER CARE

Groundcovers are low growing plants that grow in colonies to form a solid mat over the surface of the ground. The plants give a flat or two-dimensional effect to the landscape, such as, but not limited to, Honeysuckle, Myoporum, Senecio, Rosemary, Lantana, Ivy (spp.) Salvia (spp.)

A. Edging and Trimming of Groundcover

Edging of groundcover areas shall be performed monthly or as needed.

All groundcover adjacent to sidewalks, curbs, mowing strips, or where no improved surface exists, shall be edged in a neat, uniform line.

All groundcover shall be continually trimmed at the drip line of all shrubs.

All groundcover shall be continually trimmed along walls, valve boxes, water meter boxes, backflow devices, or other structures located within the groundcover area as determined by the Parks and Maintenance Director, or his authorized agent. Thinning of groundcover may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site in a legal manner the same day work is performed and prior to the Contractor vacating the work site.

After edging or trimming, the Contractor shall clean all adjacent sidewalks or gutters.

B. Renovation of Groundcover Areas

Groundcover planting shall be thinned and pruned for the health of the planting and the appearance of the site, or as required by the Parks and Maintenance Director, or his authorized agent.

C. Replanting of Groundcover Areas

Replanting shall be required to maintain the continuity of the groundcover areas that die back after awarding the contract.

Labor and replacement material costs shall be incurred by the Contractor.

D. Groundcover Irrigation

All groundcover areas shall be adequately irrigated to maintain a healthy and attractive appearance.

Irrigation runoff and overspray shall be minimized.

E. Groundcover Fertilization

The groundcover shall be fertilized during growing season, minimum lx per year, to provide a healthy and vigorously growing ground cover with horticultural acceptable growth and appearance, as determined by the Parks and Maintenance Director, or his authorized agent.

Fertilizing shall be performed with a balanced fertilizer, consisting of a 1-1-1 ratio, at a rate of one pound (1 lb.) of actual Nitrogen per 1,000 square feet. Any change in the fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

The Contractor shall immediately irrigate after each fertilizer application.

All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the location and exact date the fertilizer application will be performed, type of fertilizer and method of application to be used.

40. METHOD OF IRRIGATION

If recycled water is being used, it will be the responsibility of the contractor to implement BMP's ("Best Management Practices") to control soil erosion, over spray, ponding and efficient irrigation practices. The use of recycled water shall be limited to the areas designated and approved. The use of recycled water shall not be permitted during the hours of 6:00 AM through 10:00 PM unless prior approval is received from City Representative. Recycled facility shall be operated in accordance with the best BMP's to prevent direct human consumption and to minimize misting, ponding and runoff. BMP's shall be implemented that will minimize both public

contact and discharge onto areas not under contractors control. Contractor shall ensure that the recycled water systems are maintained, operated and repaired at all times in a manner that does not cause illness or injury to any person and in a manner that does not cause damage or injury to the real or personal property of any person or entity. All recycled water sites shall be in compliance with the City of Ontario Utilities Department. Contractor shall be responsible to maintain and replace all items after annual inspection pertaining to proper recycling water designation, items to include but not limited to (head color designation, tags etc...).

A. GENERAL IRRIGATION USES

- All windblown spray and surface runoff of recycled water applied for irrigation onto property not owned or controlled by the discharger or recycled user shall be prevented by implementation of BMP' s.

- Irrigation with recycled water shall be between the hours of 9:00 PM and 6:00 AM to be able to minimize public use of the service area.

- Facilities that might be used by the public, including but not limited to eating surfaces and located within the approved used areas, shall be protected to the maximum extent possible from contact by irrigation with recycled water spray, mist or runoff.

- It is the responsibility of the contractor to communicate to their workers the potential health hazards associated with contact or ingestion of recycled water and shall be educated about proper hygienic practices to protect themselves and their families.

- Workers and public shall not be subjected to recycled water overspray.

- Contractor shall be responsible for the training and certification on recycled water use of any staff assigned to work in the facility.

Irrigation shall be performed by the use of a Central Irrigation System (Calsense), local automated systems or manual sprinkler systems where available and operable. Contractor shall be required to monitor the computer system daily by retrieving alert/reports from the lobby area of the Public Works Agency (1425 S. Bon View Avenue, Ontario, CA.) once per day no later than 9:00 AM, contractor shall sign in every day when picking up paperwork. Completed alert/reports shall be returned to the City representative within 48 hours. Failure to do so will result in a non-compliance report and will be handled per contract specifications. Returned reports shall be accompanied with a written explanation of the problem and the repair. However,

failure of the existing irrigation system to provide full and proper coverage shall not relieve the Contractor of the responsibility to provide adequate irrigation with full and proper coverage to all areas in the work site. All areas receiving marginal coverage shall be irrigated by portable irrigation method. The contractor shall furnish all tools/equipment necessary.

41. IRRIGATION INSPECTION

The Contractor shall initially inspect and familiarize themselves with the entire irrigation system at all work sites and identify all needed repairs.

Required repairs shall be submitted to the Parks and Maintenance Director, or his authorized agent, in a written statement within two (2) weeks after the start date of the Maintenance Contract. If a written statement, which documents required repairs, is not received by the authorized agent, within the stated timeframe, the entire system shall be interpreted as fully operational, and deemed acceptable by the Contractor and will become his sole responsibility to maintain. The City shall review and verify all submitted problems, repairs may be completed by the following methods:

1. Authorized the Contractor to make appropriate repairs at the expense of the City as described in Section 5.

2. Use City forces to make required repairs.

3. Use another source to make required repairs.

Upon completion of such repairs, the Contractor shall sign-off each individual area as being fully operational.

A. The Contractor shall file a monthly statement with his invoice certifying that all irrigation systems are functioning properly. If the Contractor fails to submit this statement, the invoice will be rejected until such date the statement is received.

B. The Contractor shall inspect the operation of the irrigation system on a weekly basis for any malfunctions. In addition to regular testing, all irrigation systems shall be tested and inspected as necessary when damage is suspected, observed or reported.

C. All system malfunctions, damage and obstructions shall be recorded, reported to the Parks and Maintenance Director, or his authorized agent, and corrective action taken.

42. IRRIGATION MAINTENANCE AND REPAIRS

A. The Contractor shall maintain all irrigation systems, at no additional cost to the City, in such a way as to:

- Guarantee proper coverage and full working capability.

- Make whatever adjustments may be necessary to prevent over spray or excessive runoff into street rights-of-way or other areas not meant to be irrigated.

B. The Contractor shall repair or replace at no additional cost inoperable irrigation equipment to maintain a fully operational system, including but not limited to, pressure pipes from the water meter to the control valves, all irrigation non pressurized pipes, all manual and automatic valves, filters, basket strainers, pressure regulators, sprinkler heads, irrigation clamps and stakes, anti-drain valves, quick couplers, electrical wiring from the controller to the solenoid valves, emitters, drippers, valve boxes, controllers, valve markers, batteries, fittings and risers shall be the same as to removed manufacturer items unless prior approval has been granted by City representative in writing. Contractor shall test all backflows and submit to the City the appropriate test form once completed (contractors' cost). Any device that fails to pass, the contractor shall report to the City for needed repairs and re-inspection.

Maintenance includes, but is not limited, tightening loose fittings and packing nuts; flushing sprinkler heads, pipes, nozzles, valves, filters, strainers, and backflow devices; adjusting sprinkler heads for proper coverage and to avoid irrigating hardscape including softball and baseball infield radius; anti-drain valves and pressure regulators, adjusting and lubricating controllers; and cleaning drip emitters, replace batteries for battery operated valves and maintain solar operated valves, relocation of irrigation mainline or lateral lines due to tree placements and roots. The Contractor shall be responsible to replace recycle (purple) valve box lids and controller boxes, as needed and or as directed by City Representative. Labor shall be provided at no additional cost to the City.

C. Irrigation repairs shall be made within the following time limits:
Mainline irrigation breaks shall be repaired within two (2) hours of identification or notification.
All other irrigation repairs shall be made within one (1) day of identification or notification.

D. Replacement of irrigation components shall match city approved equipment list. Substitutions must be approved by the Parks and Maintenance Director, or his authorized agent, in writing prior to installation.

43. WATER CONSERVATION

The Contractor shall turn off all irrigation systems during periods of rainfall and/or times when suspension of irrigation is desirable to conserve water while remaining within the guidelines of good horticulturally acceptable maintenance practices.

The Contractor shall comply with all City of Ontario Ordinances and/or Resolutions, which relate to water conservation.

Failure to comply shall result in an equitable amount deducted from the Contractor's payment.

44. CONTROLLER PROGRAMMING

A. Adequate soil moisture will be determined by programming the automatic sprinkler controllers as follows:

Whenever possible, automatic irrigation shall be programmed to operate between the hours of 9:00 P.M. to 8:00 A.M. The Contractor shall be responsible for reprogramming controller during inclement weather to conserve water.

Consideration must be given to the soil conditions, seasonal temperatures, wind conditions, humidity, runoff and erosion potential, and the relationship of conditions which affect day and night watering.

Extremely close attention shall be paid to the demands of the plants as influenced by their exposure to sun or shade. Also, the variation in the size of plants, as well as varietal differences must be considered.

The irrigation system will be controlled by the contractor in such a way as not to cause an excessively wet area which could interfere with the Contractor's ability to mow all turf grass.

C. The Contractor, at the request of the Parks and Maintenance Director or his authorized agent, shall submit a copy of the irrigation schedule for each individual controller. This information is to be readily available upon request or available at the controller.

D. All landscape and turf areas shall be irrigated as required maintaining adequate growth and appearance with a schedule most conducive to plant growth.

45. IRRIGATION CONTROLLER

A. The Contractor shall maintain controller as-builts (controller charts) inside each controller cabinet where available.

B. All controller enclosures shall receive a granular chemical application as needed to prevent pest infestation. Any damages resulting from any insect infestation due to failure to apply the chemical shall be repaired/replaced by the contractor (no expense to the City).

C. Controllers and dome antennas shall be inspected and cleaned by the contractor 4 x per year and report damages or maintenance needs.

46. TREE CARE

A. Tree Trimming

The Contractor shall be responsible for all tree under-trimmings, including the removal of palm fronds and flower stalks (if present). All trees are to be under-trimmed to ensure public and vehicle safety or as directed by the Parks and Maintenance Director, or his authorized agent. Contractor shall have a Certified Arborist on staff to meet the following criteria:

Contractor shall prune palm trees at no extra cost to the City (dead fronds and flower stalks) annually, removal of fruit (dates) if present shall be done twice per year as designated by the Parks and Maintenance Director or his authorized agent.

Trees shall be pruned at no extra cost to the City on a cycle of once every three years, contractor to create a myOntario App once the trees have been completed under the Tree section and have the City representative inspect them. The contractor shall not leave the site until the work has been completed, approved and released by the City representative.

The Contractor shall notify the Parks and Maintenance Director, or his/her authorized agent, except when pruning is required for public safety. Once all trees are trimmed, a formal (Company letterhead) record of the work performed with time, date, location, type of tree, removal percentage and staff assigned to do the work. Any tree that is not trimmed by the end of 3-year cycle shall be deducted from the final billing of the maintenance contract.

All trees in the work site shall be maintained in their natural shapes. This work shall be accomplished in a manner which will ensure that each individual tree is under-trimmed carefully to promote the tree's health and appearance.

All work shall be of the highest quality and performed in accordance with City approved tree trimming standards.

All trees shall be pruned within forty-eight (48) hours upon notification to remove or prevent encroachment where it blocks vision, or encroaches in any manner deemed undesirable by the Parks and Maintenance Director or his authorized agent.

All trees shall be continually maintained free of all dead, diseased and damaged branches back to the point of breaking. In cases where the dead, diseased or damaged branches are beyond the reach of a tree pruning pole saw being operated from ground level, the Contractor is to notify the City within 24 hours. Cuts must be made flush with the collar to promote proper healing. Pruning tools shall be adequately sharpened to provide clean cuts and shall be properly sterilized to reduce spread of disease.

All sucker growth is to be removed from trees as it occurs.

The Contractor shall maintain all branches which encroach on or over sidewalks at a minimum height of ten feet (10') clearance. The Contractor shall notify the city within 24 hours of any branches encroaching beyond the curb line into the street that cannot be reached with a pole saw.

All branches which encroach over private property, shall be removed as directed.

The Contractor shall not remove or disturb any tree central leader without prior written approval from the Parks and Maintenance Director, or his authorized agent.

The Contractor shall include the removal of 20 trees per year with a DBH not to exceed 20” as part of his bid package and a unit price to perform an individual complete tree trim, and individual tree removal price. Contactor shall create a final work order using myOntario App once the trees have been trimmed, the City representative will inspect once the App has been closed as completed for release.

B. Tree Staking/Guying

The Contractor shall, at no additional cost to the City, stake and tie all trees, which require support. City does not provide stakes and ties. Tree stakes shall be 3” x 10’ wooden lodge poles. Two (2) tree stakes are required per tree.

Guy wires, where required, will be of pliable zinc-coated ten-gauge wire (three ties per tree), and shall have a white PVC sleeve for visibility. Guy wires shall be kept tight enough to promote natural movement of the tree. Contractor shall periodically check the tension in the guy wires.

Trees shall be secured to stakes with cinch ties or equivalent. The Contractor shall not use wire and hose. Stakes shall not be placed closer than eight inches (8") from the tree trunk.

C. Stakes and ties shall be placed so no chafing of bark occurs and shall be checked frequently, and retied as necessary, to prevent girdling.

D. Tree Replacement

1. The Contractor shall be responsible for the complete removal and replacement of trees lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Where there is a difference in value between the tree damaged by the Contractor and the replacement tree, this difference may be deducted from the Contractor's payment.

In all cases, the value of the trees lost will be determined by the Parks and Maintenance Director, or his authorized agent, using the latest ISA Guide for Plant Appraisal.

2. Unsalvageable downed trees, due to any cause (windstorm etc...), shall be removed, the stump ground to a depth of eighteen inches (18"), the stump grinding debris removed and the hole refilled with compatible topsoil and compacted within 48 hours of identification or notification. If the tree is in the public right-of-way or creating a public hazard, the tree is to be cut back to a 12" stump immediately upon notification and removed. Then within 48 hours, the stump is to be removed and the hole filled with compatible topsoil and compacted. This work shall be considered and EWA and invoiced to the city.

3. Trees lost from causes other than the Contractor's negligence shall be replaced by the Contractor with a twenty-four (24") box tree and billed as "Additional Work". The Parks and Maintenance Director, or his authorized agent may specify a species of tree for replacement different from the one lost.

E. Tree Irrigation

All trees shall be adequately irrigated to maintain a health and attractive appearance. Irrigation runoff and over spray shall be minimized.

Trees shall be irrigated in a method which promotes deep root growth. The contractor shall provide manual deep watering to those trees that show decline.

47. WEED CONTROL

Weeds are defined in the dictionary as:
“A wild plant growing where it is not wanted and in competition with cultivated plants."
When classified by their gross morphological features, weeds are broken down into three major categories: grasses, sedges, and broadleaf weeds.
Full control of these 3 categories of weeds will be achieved with a combination of selective and non-selective herbicides as well as mechanical removal. **Weeds should not be visible.**
All areas within the specified maintenance area, including but not limited to, turf grass, shrub and ground cover areas, planters, tree wells, landscape areas, and softball/baseball infields shall be kept free of weeds at all times.

Weed removal shall consist of complete removal of all weeds, including top growth and roots. Weed control shall be performed as needed.
Weeds shall be controlled either by hand, mechanical or chemical methods; however, the Parks and Maintenance Director, or his authorized agent, may restrict the use of chemical weed control in certain areas.

48. DISEASE AND PEST CONTROL

The Contractor shall regularly inspect all landscaped areas for the presence of disease, snail, insect or rodent infestation. The Contractor shall report any applied treatments within their next monthly billing. The Contractor shall identify the disease, snail, insect or rodent and specify control measures to be taken. The Contractor shall implement control measures, exercising extreme caution in the application of all spray materials, dust or other materials utilized.

Approved control measures shall be continued until the disease, snail, insect or rodent is controlled to the satisfaction of the Parks and Maintenance Director, or his authorized agent. The Contractor shall utilize all safeguards necessary during disease, snail, insect or rodent control operations to ensure safety of the public and the employees of the Contractor.

The Contractor shall perform, at their sole expense, the following services:

All work involving the use of chemicals will be accomplished by a State of California licensed pest control operator. A written recommendation by a person possessing a valid California Pest

Control Advisor License for each chemical used is required prior to chemical application where required by law.

All chemicals requiring a special permit for their use must be registered by the Contractor with the County Agricultural Commissioner's Office and a permit obtained with a copy to the Parks and Maintenance Director, or his authorized agent, prior to use.

A copy of all forms submitted to the County Agricultural Commissioner shall be given to the Parks and Maintenance Director, or authorized agent, on a monthly basis.

49. USE OF CHEMICALS

The Contractor shall submit a list of all chemical herbicides, pesticides, and rodenticides proposed for use under this contract for approval by the Parks and Maintenance Director or his authorized agent with the signed contract. Materials included on this list shall be limited to chemicals approved by the State of California Department of Food and Agriculture, and shall include the exact brand name and generic formulation. The use of any chemical on the list shall be based on the recommendations of a California State Licensed Pest Control Advisor where required by law.

The use of chemicals shall conform to the current San Bernardino County Agriculture Commissioner regulations. No chemical herbicide, rodenticide or pesticide shall be applied until its use is approved, in writing, by the Parks and Maintenance Director, or his authorized agent as appropriate for the purpose and area proposed.

Required spray equipment will consist of at least one (1) medium spray rig of 100-gallon (minimum) capacity or more and backpack sprayers provided for each crew performing chemical landscape maintenance.

50. TURF BROADLEAF

Control of broadleaf weeds shall include proper notification with chemicals to be used, date, and time to the Parks and Maintenance Director, or his authorized agent. prior to starting date for approval. Frequencies will be twice per year.

51. LITTER

All areas in the work sites shall be kept free of, but not limited to, the following items: bottles, glass, broken glass, cans, paper, cardboard, metallic items, feces, leaves, tumbleweeds and other debris on a daily basis.

The Contractor shall promptly remove from the work area, all debris generated by their performance and dispose of the debris in a legal manner. The City does not allow any dumping of debris generated by your daily work in City facilities. Illegal dumping picked up by contractors shall be brought up to the City yard for proper disposal. Excessive dumping (above and beyond reasonable) after long holiday weekends and special events shall be reported immediately to the City Representative.

Hazardous waste as well as homeless belongings shall not be picked up. Contractor shall contact City Representative to arrange proper disposal by City forces. A myOntario App service request shall be created to report the hazardous conditions.

52. GRAFFITI

A. The Contractor shall remove any graffiti upon discovery within their contractual areas. Extreme caution shall be placed on areas that get tagged to make sure that they get cleaned up with materials that do not damage the finish product (PVC Vinyl fence) and are biodegradable. Issues of graffiti outside their contractual obligations shall be reported to the Graffiti Hot Line 909-395-2626 or create a service request within the myOntario App

B. Issues of above normal graffiti vandalism within the contractor's contractual area shall be reported to the City representative upon finding. Phone call, text, or creation of a myOntario App service request are acceptable methods of communication to the City Representative. The City reserves the right to request an outside contractor to help with the cleaning or will have the right to request that the contractor performs the work as an additional cost to the City.

C. If graffiti cannot be removed and needs to be painted over, cover up paint shall match existing paint. Graffiti on sidewalks shall be removed with a hot steam pressure washer. Painting of sidewalks over graffiti shall not be allowed.

53. GENERAL

A. Trash Removal

Remove all trash and accumulated debris from the work sites daily. In addition, any type of feces is also to be removed from the walkways, turf or ground cover areas and dumpster areas.

B. Policing of Areas

All maintained areas shall be policed based on frequencies.

C. Curb and Gutter Maintenance

The Contractor is responsible for removal of all weeds and grass growing in and around the curb and gutter area monthly. The Contractor is responsible for insuring the roadway is cleared of all dirt and debris within four (4) feet of the curb and gutter in all areas adjacent to maintenance responsibilities.

D. Walkway Maintenance

Walkways shall be cleaned immediately following mowing and edging and cleaned by use of power sweeping or blower equipment. All walkway cracks and expansion joints shall be maintained weed and grass free at all times.

E. Drain Maintenance

All drains and catch basins shall be kept free of siltation and debris at all times. All V-ditches and drainage areas shall be kept clean and edged weekly by the Contractor. Cleaning of drain basins shall be done monthly, Contractor shall inspect weekly to make sure that grates are secured, if missing, Contractor shall replace at City's expense. Damaged grates due to Contractor's operations shall be replaced at Contractors expense.

F. Removal of Leaves

Accumulation of leaves shall be removed from all designated landscape areas on a monthly basis and under trees once per month or more as needed.

G. Hardscape Power Wash

All concrete areas shall be cleaned using a power washer (hot steam cleaning washer) to remove soda spills, gum and other stains that might be present. The City Representative will make the final determination if the service is needed.

The use of a biodegradable cleaner (soap) is required and permitted. Containment of contaminated soapy water shall be the responsibility of the Contractor.

54. REPAIR AND SERVICE OF WALKWAYS AND MISCELLANEOUS IMPROVEMENTS

Walkways and Service Roads - All walkways and service roads, if any, shall be maintained by the Contractor so as to keep the integrity of the walking or driving surface in a safe, unimpaired condition.

The Contractor will not be responsible for total replacement of roadways or walkways as a result of normal deterioration but will be required to replace all improvements damaged by his negligence.

It will be the responsibility of the Contractor to repair or replace miscellaneous improvements such as signs and mowing strips, or any other structural improvements within the work sites, unless otherwise specified. The Contractor shall be entitled to additional compensation for these services as stated. The contractor shall communicate any improvements needed prior to repairs to the Parks and Maintenance Director or his authorized agent for proper approvals.

55. MULCH

Mulch beds shall be replenished 2 time per year at the Contractor’s cost . The City may provide the mulch if an additional mulching is needed. If City provided, the Contractor will be responsible for loading the mulch at the City yard at 1425 S Bon View.

56. RODENT CONTROL

All areas shall be maintained free of rodents causing damage to turf, shrubs, and groundcover areas (gophers, squirrels etc.) by using Gophernator or trapping. Any activity that affects holes, mounds, etc. will be raked and backfilled after control.

57. CITY OF ONTARIO myOntario App (FREE)

Contractor shall download the free myOntario App for the purpose of tracking completed specialty tasks (mulching, vandalism, vehicular damage, rose trimming, fertilizations, chemical applications, illegal dumping, hazardous waste, pruning shrubs, downed branches and rodent control, restroom issues). All specialty tasks shall be recorded as a service request using the app order system and shall be reported to the city representative when completed. City staff will close the service request.

NOTICES

Any notice, demand, request, consent, approval, or communication that either Party desires, or is required to give to the other Party or any other person, shall be in writing and either served personally, sent by prepaid, first-class mail, or by email followed by mailing of said notice.

PERFORMANCE/PAYMENT BONDS ON THE NEXT PAGE

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

CITY OF ONTARIO
MAINTENANCE SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Merchants Landscape Services, Inc.**, a **Corporation** with its principal place of business at **8748 Industrial Ln, Rancho Cucamonga, CA 91730** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Contractor.

Contractor desires to perform and assume responsibility for the provision of certain maintenance services required by the City on the terms and conditions set forth in this Agreement. Contractor represents that it is experienced in providing **Landscape Maintenance Services for Certain Parkways, Fire Stations, and Landscape Medians** services to public clients, that it and its employees or subcontractors have all necessary licenses and permits to perform the Services in the State of California, and that is familiar with the plans of City.

2.2 Project.

City desires to engage Contractor to render such services for the **Landscape Maintenance Services for Certain Parkways, Fire Stations, and Landscape Medians PM 2425-12** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Contractor promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the maintenance services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1, 2024 to June 30, 2027,** unless earlier terminated as provided herein Contractor shall complete the Services within

the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Contractor shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **One Million Four Thousand Four Hundred Dollars ($1,004,400)** without written approval of City's City Manager. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Contractor shall submit to City a monthly itemized statement which indicates work completed and hours of Services rendered by Contractor. The statement shall describe the amount of Services and supplies provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within 45 days of receiving such statement, review the statement and pay all approved charges thereon.

3.2.3 Deductions. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.2.4 Reimbursement for Expenses. Contractor shall not be reimbursed for any expenses unless authorized in writing by City.

3.2.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Contractor shall not perform, nor be compensated for, Extra Work without written authorization from City's Representative.

3.3 Responsibilities of Contractor.

3.3.1 Control and Payment of Subordinates; Independent Contractor. The Services shall be performed by Contractor or under its supervision. Contractor will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Contractor on an independent contractor basis and not as an employee. Contractor retains the right to perform similar or different services for others during the term of this Agreement. Any additional personnel performing the Services under this Agreement on behalf of Contractor shall also not be employees of City and shall at all times be under Contractor's exclusive direction and control. Contractor shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Contractor shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Contractor shall perform the Services expeditiously, within the term of this Agreement, and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Contractor represents that it has the professional and technical personnel required to perform the Services in conformance with such conditions. In order to facilitate Contractor's conformance with the Schedule, City shall respond to Contractor's submittals in a timely manner. Upon request of City, Contractor shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Contractor shall be subject to the approval of City.

3.3.4 City's Representative. The City hereby designates **Philip Marino, Urban Forestry Manager**, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Agreement except for increasing compensation. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.3.5 Contractor's Representative. Contractor hereby designates **Mark Brower, President** or his or her designee, to act as its representative for the performance of this Agreement ("Contractor's Representative"). Contractor's Representative shall have full authority to represent and act on behalf of the Contractor for all purposes under this Agreement. The Contractor's Representative shall supervise and direct the Services, using his best skill and attention, and shall be responsible for all means, methods, techniques, sequences and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.6 Coordination of Services. Contractor agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.7 Standard of Care; Performance of Employees. Contractor shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Contractor represents and maintains that it is skilled in the professional calling necessary to perform the Services. Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them. Finally, Contractor represents that it, its employees and subcontractors have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, including a City Business License, and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Contractor shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Contractor's failure to comply with the standard of care provided for herein. Any employee of the Contractor or its sub-contractors who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Contractor and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.8 Period of Performance

3.3.8.1 Contractor shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Contractor shall perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be provided separately in writing to the Contractor. Contractor agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such completion schedule or Project milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage Pursuant to Government Code Section 53069.85, Contractor shall pay to the City as fixed and liquidated damages, and not as a penalty, the sum of **Four Hundred Fifty-Nine Dollars with Zero Cents ($459)** per day for each and every calendar day of delay beyond the Performance Time or beyond any completion schedule or Project milestones established pursuant to this Agreement.

3.3.8.2 Neither City nor Contractor shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the Services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the Services, only to the extent such strikes and other organized labor action are beyond the control of Contractor and its subconsultants, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement.

3.3.8.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Contractor to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.9 Disputes. Should any dispute arise respecting the true value of any work done, of any work omitted, or of any extra work which Contractor may be required to do, or respecting the size of any payment to Contractor during the performance of this Contract, Contractor shall continue to perform the Work while said dispute is decided by the City. If Contractor disputes the City's decision, Contractor shall have such remedies as may be provided by law.

3.3.10 Laws and Regulations; Employee/Labor Certifications.

3.3.10.1 Compliance with Laws. Contractor shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Contractor shall be liable for all violations of such laws and regulations in connection with Services. If the Contractor performs any work

knowing it to be contrary to such laws, rules and regulations and without giving written notice to the City, Contractor shall be solely responsible for all costs arising therefrom. City is a public entity of the State of California subject to certain provisions of the Health & Safety Code, Government Code, Public Contract Code, and Labor Code of the State. It is stipulated and agreed that all provisions of the law applicable to the public contracts of a municipality are a part of this Agreement to the same extent as though set forth herein and will be complied with. These include but are not limited to the payment of prevailing wages, the stipulation that eight (8) hours' labor shall constitute a legal day's work and that no worker shall be permitted to work in excess of eight (8) hours during any one calendar day except as permitted by law. Contractor shall defend, indemnify and hold City, its officials, directors, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.3.10.2 Employment Eligibility; Contractor. By executing this Agreement, Contractor verifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time. Such requirements and restrictions include, but are not limited to, examination and retention of documentation confirming the identity and immigration status of each employee of the Contractor. Contractor also verifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement. Contractor shall avoid any violation of any such law during the term of this Agreement by participating in an electronic verification of work authorization program operated by the United States Department of Homeland Security, by participating in an equivalent federal work authorization program operated by the United States Department of Homeland Security to verify information of newly hired employees, or by some other legally acceptable method. Contractor shall maintain records of each such verification, and shall make them available to the City or its representatives for inspection and copy at any time during normal business hours. The City shall not be responsible for any costs or expenses related to Contractor's compliance with the requirements provided for in Section 3.3.10 or any of its sub-sections.

3.3.10.3 Employment Eligibility; Subcontractors, Sub-subcontractors and Consultants. To the same extent and under the same conditions as Contractor, Contractor shall require all of its subcontractors, sub-subcontractors and consultants performing any work relating to the Project or this Agreement to make the same verifications and comply with all requirements and restrictions provided for in Section 3.3.10.1.

3.3.10.4 Employment Eligibility; Failure to Comply. Each person executing this Agreement on behalf of Contractor verifies that they are a duly authorized officer of Contractor, and understands that any of the following shall be grounds for the City to terminate the Agreement for cause: (1) failure of Contractor or its subcontractors, sub-subcontractors or consultants to meet any of the requirements provided for in Sections 3.3.10.1 or 3.3.10.2; (2) any misrepresentation or material omission concerning compliance with such requirements (including in those verifications provided to the Contractor under Section 3.3.10.2); or (3) failure to immediately remove from the Project any person found not to be in compliance with such requirements.

3.3.10.5 Equal Opportunity Employment. Contractor represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry,

sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Contractor shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.6 Air Quality. Contractor must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the California Air Resources Board (CARB). Contractor shall specifically be aware of the CARB limits and requirements' application to "portable equipment", which definition is considered by CARB to include any item of equipment with a fuel-powered engine. Contractor shall indemnify City against any fines or penalties imposed by CARB or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Contractor, its subcontractors, or others for whom Contractor is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.7 Water Quality.

(A) To the extent applicable, Contractor's Services must account for, and fully comply with, all local, state and federal laws, rules and regulations that may impact water quality compliance, including, without limitation, all applicable provisions of the Federal Water Pollution Control Act (33 U.S.C. §§ 1300); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); laws, rules and regulations of the Environmental Protection Agency, the State Water Resources Control Board and the Colorado River Regional Water Quality Control Board; the City's ordinances regulating discharges of storm water; and any and all regulations, policies, or permits issued pursuant to any such authority regulating the discharge of pollutants, as that term is used in the Porter-Cologne Water Quality Control Act, to any ground or surface water in the State.

(B) Liability for Non-Compliance. Failure to comply with the laws, regulations and policies described in this Section is a violation of law that may subject Contractor or City to penalties, fines, or additional regulatory requirements. Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. Contractor further warrants that it, its employees and subcontractors will receive adequate training, as determined by City, regarding the requirements of the laws, regulations and policies described in this Section as they may relate to the Services provided under this Agreement. Upon request, City will provide Contractor with a list of training programs that meet the requirements of this paragraph.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Contractor shall not commence Services under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Contractor shall not allow any subcontractor to commence work on any subcontract until it has provided evidence satisfactory to the City that the subcontractor has secured all insurance required under this Section.

3.3.11.2 Minimum Requirements. Contractor shall, at its expense, procure and maintain for the duration of the Agreement insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the Agreement by the Contractor, its agents, representatives, employees or subcontractors. Contractor shall also require all of its subcontractors to procure and maintain the same insurance for the duration of the Agreement. Such insurance shall meet at least the following minimum levels of coverage:

(A) Minimum Scope of Insurance. Coverage shall be at least as broad as the latest version of the following: (1) *General Liability*: Insurance Services Office Commercial General Liability coverage (occurrence form CG 0001); (2) *Automobile Liability*: Insurance Services Office Business Auto Coverage form number CA 0001, code 1 (any auto); and (3) *Workers' Compensation and Employer's Liability*: Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance. The policy shall not contain any exclusion contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for (1) contractual liability (including but not limited to ISO CG 24 26 or 21 29); or (2) cross liability for claims or suits by one insured against another.

(B) Minimum Limits of Insurance. Contractor shall maintain limits no less than: (1) *General Liability:* $2,000,000 per occurrence for bodily injury, personal injury and property damage. If Commercial General Liability Insurance or other form with general aggregate limit is used including, but not limited to, form CG 2503, either the general aggregate limit shall apply separately to this Agreement/location or the general aggregate limit shall be twice the required occurrence limit; (2) *Automobile Liability:* $2,000,000 per accident for bodily injury and property damage; and (3) *Workers' Compensation and Employer's Liability:* Workers' Compensation limits as required by the Labor Code of the State of California. Employer's Liability limits of $1,000,000 per accident for bodily injury or disease. Defense costs shall be paid in addition to the limits.

(C) Notices; Cancellation or Reduction of Coverage. At least fifteen (15) days prior to the expiration of any such policy, evidence showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or materially reduced, Contractor shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies. In the event any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, the City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by the City will be promptly reimbursed by Contractor or the City may withhold amounts sufficient to pay premium from Contractor payments. In the alternative, the City may suspend or terminate this Agreement.

(D) Additional Insured. The City, its directors, officials, officers, employees, agents, and volunteers shall be named as additional insureds on Contractor's and its subcontractors' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.3.11.3 Insurance Endorsements. The insurance policies shall contain the following provisions, or Contractor shall provide endorsements on forms supplied or approved by the City to add the following provisions to the insurance policies:

(A) General Liability. The general liability policy shall include or be endorsed (amended) to state that: (1) using ISO CG forms 20 10 and 20 37, or endorsements providing the exact same coverage, the City of Ontario, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insured with respect to the Services or ongoing and complete operations performed by or on behalf of the Contractor, including materials, parts or equipment furnished in connection with such work; and (2) using ISO form 20 01, or endorsements providing the exact same coverage, the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any excess insurance shall contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the City, before the City's own primary insurance, deductible, or self-insurance shall be called upon to protect it as a named insured. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(A).

(B) Automobile Liability. The automobile liability policy shall include or be endorsed (amended) to state that: (1) the City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Contractor or for which the Contractor is responsible; and (2) the insurance coverage shall be primary insurance as respects the City, its directors, officials, officers, employees, agents, and volunteers, or if excess, shall stand in an unbroken chain of coverage excess of the Contractor's scheduled underlying coverage. Any insurance, deductible, or self-insurance maintained by the City, its directors, officials, officers, employees, agents, and volunteers shall be excess of the Contractor's insurance and shall not be called upon to contribute with it in any way. Policy shall contain or be endorsed to contain such provisions. Notwithstanding the minimum limits set forth in Section 3.3.11.2(B), any available insurance proceeds in excess of the specified minimum limits of coverage shall be available to the parties required to be named as additional insureds pursuant to this Section 3.3.11.3(B).

(C) Workers' Compensation and Employer's Liability Coverage. The insurer shall agree to waive all rights of subrogation against the City, its directors, officials, officers, employees, agents, and volunteers for losses paid under the terms of the insurance policy which arise from work performed by the Contractor.

(D) All Coverages. Each insurance policy required by this Agreement shall be endorsed to state that: (A) coverage shall not be suspended, voided, reduced or canceled except after thirty (30) days (10 days for nonpayment of premium) prior written notice by certified mail, return receipt requested, has been given to the City; and (B) any failure to comply with reporting or other provisions of the policies, including breaches of warranties, shall not affect coverage provided to the City, its directors, officials, officers, employees, agents, and volunteers. Any failure to comply with reporting or other provisions of the policies including breaches of

warranties shall not affect coverage provided to the City, its officials, officers, employees, agents and volunteers, or any other additional insureds.

3.3.11.4 Separation of Insureds; No Special Limitations; Waiver of Subrogation. All insurance required by this Section shall contain standard separation of insureds provisions. In addition, such insurance shall not contain any special limitations on the scope of protection afforded to the City, its directors, officials, officers, employees, agents, and volunteers. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. All policies shall waive any right of subrogation of the insurer against the City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against City, its officials, officers, employees, agents, and volunteers, or any other additional insureds, and shall require similar written express waivers and insurance clauses from each of its subcontractors.

3.3.11.5 Deductibles and Self-Insurance Retentions. Any deductibles or self-insured retentions must be declared to and approved by the City. Contractor shall guarantee that, at the option of the City, either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects the City, its directors, officials, officers, employees, agents, and volunteers; or (2) the Contractor shall procure a bond guaranteeing payment of losses and related investigation costs, claims and administrative and defense expenses.

3.3.11.6 Subcontractor Insurance Requirements. Contractor shall not allow any subcontractors to commence work on any subcontract relating to the work under the Agreement until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. If requested by Contractor, the City may approve different scopes or minimum limits of insurance for particular subcontractors. The Contractor and the City shall be named as additional insureds on all subcontractors' policies of Commercial General Liability using ISO form 20 38, or coverage at least as broad.

3.3.11.7 Acceptability of Insurers. Insurance is to be placed with insurers with a current A.M. Best's rating no less than A:VIII, licensed to do business in California, and satisfactory to the City.

3.3.11.8 Verification of Coverage. Contractor shall furnish City with original certificates of insurance and endorsements effecting coverage required by this Agreement on forms satisfactory to the City. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf, and shall be on forms provided by the City if requested. All certificates and endorsements must be received and approved by the City before work commences. The City reserves the right to require complete, certified copies of all required insurance policies, at any time.

3.3.11.9 Reporting of Claims. Contractor shall report to the City, in addition to Contractor's insurer, any and all insurance claims submitted by Contractor in connection with the Services under this Agreement.

3.3.12 Safety. Contractor shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Contractor shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall

exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed. Safety precautions as applicable shall include, but shall not be limited to: (A) adequate life protection and lifesaving equipment and procedures; (B) instructions in accident prevention for all employees and subcontractors, such as safe walkways, scaffolds, fall protection ladders, bridges, gang planks, confined space procedures, trenching and shoring, equipment and other safety devices, equipment and wearing apparel as are necessary or lawfully required to prevent accidents or injuries; and (C) adequate facilities for the proper inspection and maintenance of all safety measures.

3.3.13 Bonds.

3.3.13.1 Performance Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Performance Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.2 Payment Bond. If required by law or otherwise specifically requested by City in Exhibit "C" attached hereto and incorporated herein by reference, Contractor shall execute and provide to City concurrently with this Agreement a Payment Bond in the amount of the total, not-to-exceed compensation indicated in this Agreement, and in a form provided or approved by the City. If such bond is required, no payment will be made to Contractor until it has been received and approved by the City.

3.3.13.3 Bond Provisions. Should, in City's sole opinion, any bond become insufficient or any surety be found to be unsatisfactory, Contractor shall renew or replace the affected bond within 10 days of receiving notice from City. In the event the surety or Contractor intends to reduce or cancel any required bond, at least thirty (30) days prior written notice shall be given to the City, and Contractor shall post acceptable replacement bonds at least ten (10) days prior to expiration of the original bonds. No further payments shall be deemed due or will be made under this Agreement until any replacement bonds required by this Section are accepted by the City. To the extent, if any, that the total compensation is increased in accordance with the Agreement, the Contractor shall, upon request of the City, cause the amount of the bonds to be increased accordingly and shall promptly deliver satisfactory evidence of such increase to the City. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. If the Contractor fails to furnish any required bond, the City may terminate this Agreement for cause.

3.3.13.4 Surety Qualifications. Only bonds executed by an admitted surety insurer, as defined in Code of Civil Procedure Section 995.120, shall be accepted. The surety must be a California-admitted surety with a current A.M. Best's rating no less than A:VIII and satisfactory to the City. If a California-admitted surety insurer issuing bonds does not meet these requirements, the insurer will be considered qualified if it is in conformance with Section 995.660 of the California Code of Civil Procedure, and proof of such is provided to the City.

3.3.14 Work Site.

3.3.14.1 Inspection Of Site. Contractor shall visit sites where Services are to be performed and shall become acquainted with all conditions affecting the Services prior to commencing the Services. Contractor shall make such examinations as it deems necessary to determine the condition of the work sites, its accessibility to materials, workmen and equipment, and to determine Contractor's ability to protect existing surface and subsurface improvements. No claim for allowances–time or money–will be allowed as to such matters after commencement of the Services.

3.3.14.2 Field Measurements. Contractor shall make field measurements, verify field conditions and shall carefully compare such field measurements and conditions and other information known to Contractor with the Contract Documents, including any plans, specifications, or scope of work before commencing Services. Errors, inconsistencies or omissions discovered shall be reported to the City immediately and prior to performing any Services or altering the condition.

3.3.15 Loss and Damage. Contractor shall be responsible for all loss and damage which may arise out of the nature of the Services agreed to herein, or from the action of the elements, or from any unforeseen difficulties which may arise or be encountered in the prosecution of the Services until the same is fully completed and accepted by City.

3.3.16 Warranty. Contractor warrants all Services under the Contract (which for purposes of this Section shall be deemed to include unauthorized work which has not been removed and any non-conforming materials incorporated into the work) to be of good quality and free from any defective or faulty material and workmanship. Contractor agrees that for a period of one year (or the period of time specified elsewhere in the Contract or in any guarantee or warranty provided by any manufacturer or supplier of equipment or materials incorporated into the work, whichever is later) after the date of final acceptance, Contractor shall within ten (10) days after being notified in writing by the City of any defect in the Services or non-conformance of the Services to the Contract, commence and prosecute with due diligence all Services necessary to fulfill the terms of the warranty at its sole cost and expense. Contractor shall act sooner as requested by the City in response to an emergency. In addition, Contractor shall, at its sole cost and expense, repair and replace any portions of the work (or work of other contractors) damaged by its defective Services or which becomes damaged in the course of repairing or replacing defective work. For any work so corrected, Contractor's obligation hereunder to correct defective work shall be reinstated for an additional one year period, commencing with the date of acceptance of such corrected work. Contractor shall perform such tests as the City may require to verify that any corrective actions, including, without limitation, redesign, repairs, and replacements comply with the requirements of the Contract. All costs associated with such corrective actions and testing, including the removal, replacement, and reinstitution of equipment and materials necessary to gain access, shall be the sole responsibility of the Contractor. All warranties and guarantees of subcontractors, suppliers and manufacturers with respect to any portion of the work, whether express or implied, are deemed to be obtained by Contractor for the benefit of the City, regardless of whether or not such warranties and guarantees have been transferred or assigned to the City by separate agreement and Contractor agrees to enforce such warranties and guarantees, if necessary, on behalf of the City. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. Contractor shall be obligated to fully reimburse the City for any expenses incurred hereunder upon demand.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. City shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Contractor shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Contractor's principal place of business and at the project site. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Contractor and all subcontractors to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4.

3.4.2 Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is $15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable.

3.4.3 Registration/DIR Compliance. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. It shall be Contractor's sole responsibility to comply with all applicable registration and labor compliance requirements. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Contractor caused delay and shall not be compensable by the City. Contractor shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1 Grounds for Termination. City may, by written notice to Contractor, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Contractor of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Contractor shall be compensated only for those services which have been adequately rendered to City, and Contractor shall be entitled to no further compensation. Contractor may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Contractor to provide all finished or unfinished Documents and Data and other information of any kind prepared by Contractor in connection with the performance of Services under this Agreement. Contractor shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 Scope of Indemnity. To the fullest extent permitted by law, Contractor shall defend, indemnify and hold the City, its officials, employees, agents and volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, regardless of whether the allegations are false, fraudulent, or groundless, to property or persons, including wrongful death, (collectively, "Claims") in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Contractor, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Contractor's Services, the Project or this Agreement, including without limitation the payment of all expert witness fees, attorneys' fees and other related costs and expenses. Notwithstanding the foregoing, to the extent required by Civil Code section 2782, Contractor's indemnity obligation shall not apply to such loss or damage which is caused by the sole or active negligence or willful misconduct of the City.

3.6.2 Additional Indemnity Obligations. Contractor shall defend, with counsel of City's choosing and at Contractor's own cost, expense and risk, any and all Claims covered by this section that may be brought or instituted against City or its officials, employees, agents and volunteers. In addition, Contractor shall pay and satisfy any judgment, award or decree that may be rendered against City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Contractor shall also reimburse City for the cost of any settlement paid by City or its officials, employees, agents and volunteers as part of any such claim, suit, action or other proceeding. Such reimbursement shall include payment for City's attorney's fees and costs, including expert witness fees. Contractor shall reimburse City and its officials, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided. Contractor's obligation to indemnify shall survive expiration or termination of this Agreement, and shall not be

restricted to insurance proceeds, if any, received by the City, its officials, employees, agents and volunteers.

3.7 General Provisions.

3.7.1 Accounting Records. Contractor shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Contractor shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Contractors. Contractor is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Contractor is in compliance with the California Labor Code, Contractor shall only utilize its employees to provide the Services. Contractor may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Contractor represents and warrants that all personnel who perform the Services on Contractor's behalf are Contractor's employees, and that Contractor complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Contractor shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Contractor to use a Subcontractor, Contractor shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Contractor:

Merchants Landscape Services, Inc.
8748 Industrial Ln
Rancho Cucamonga, CA 91730
Attn: Mark Brower, President

City:

City of Ontario
303 East "B" Street

Ontario, CA 91764
Attn: Philip Marino, Urban Forestry Manager

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Governing Law; Government Code Claim Compliance. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Contractor must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Contractor. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Contractor shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.5 Attorneys' Fees. If either Party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all other costs of such action.

3.7.6 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.7 City's Right to Employ Other Contractors. City reserves right to employ other contractors in connection with this Project.

3.7.8 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.9 Assignment or Transfer. Contractor shall not assign, hypothecate or transfer, either directly or by operation of law, this Agreement or any interest herein without the prior written consent of the City. Any attempt to do so shall be null and void, and any assignees, hypothecates or transferees shall acquire no right or interest by reason of such attempted assignment, hypothecation or transfer.

3.7.10 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Contractor include all personnel, employees, agents, and subcontractors of Contractor, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content or intent of this Agreement.

3.7.11 Amendment; Modification. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.12 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel or otherwise.

3.7.13 No Third Party Beneficiaries. Except to the extent expressly provided for in Section 3.5.7, there are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.14 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.15 Prohibited Interests. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractors to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.16 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.17 Authority to Enter Agreement. Contractor has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.18 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.19 Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements. This Agreement may only be modified by a writing signed by both parties.

SCOPE OF SERVICES

1. SCOPE OF WORK

A. The intent of this Agreement is to secure a contractor(s) who shall provide Landscape Maintenance Services for the Ontario Parkways, Medians and Fire Stations within the City of Ontario PM 2425-12

B. The Contractor shall furnish all labor, tools, materials, and equipment to provide the landscape maintenance and repairs as set forth in this Agreement.

C. All Work shall be done in a professional, thorough, and workman like manner to the satisfaction of the Parks and Maintenance Director, or his/her authorized agent, and comply with all legal construction and landscape maintenance practices. The premises shall always be maintained at the level of service provided for in these specifications. The Contractor shall have the duty to provide complete landscape maintenance of all the project areas, including, but not limited to, the following: Fertilize, under-trim trees and shape shrubs, trim ground cover areas, mow, and edge turf grass areas. Consistently maintain the project areas with horticulturally acceptable growth and color. Consistently maintain the project areas to be devoid of weeds. Consistently maintain the project areas to be devoid of weeds five (5) feet out into the curb, gutter and street. Consistently maintain the project areas to be devoid of diseases, rodents and pests. Consistently maintain the project areas to be devoid of litter. Consistently maintain the project areas to be devoid of safety hazards. Consistently maintain the project areas to be devoid of unsafe walkways. Consistently maintain the project areas to be devoid of blocked drainage systems. Consistently maintain the project areas to be devoid of malfunctioning irrigation systems. Consistently maintain the project areas to be devoid of graffiti and paper like signs. Program, monitor, adjust and maintain all irrigation system clocks, and perform extra work as directed and approved.

E. The Contractor shall be available twenty-four (24) hours a day, seven (7) days a week to respond to all emergencies within two (2) hours of notification. Emergencies that involve maintenance work included in these general conditions shall not be compensated.

F. The Contractor shall perform a weekly maintenance inspection, during daylight hours, of all areas. Such inspection shall be both visual and operational. It shall include, but not be limited to, the operation of all irrigation and/or other mechanical systems to check for proper condition and reliability.

2. WORK SITE

Work sites may include parks, medians, trails, weed abatement areas, and parkways.

The City reserves the right to make additions or deletions under this contract with written notice to the Contractor. The monthly compensation shall be adjusted by the monthly unit cost per square foot if any changes result in an increase or reduction in square footage maintained. Compensation shall be based on a-per unit cost (bid schedule form submitted) of work completed.

3. LENGTH OF CONTRACT

This **PRIMARY** contract shall begin **July 1, 2024 and shall terminate on June 30, 2027.**

The **FIRST** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2027, through June 30, 2028,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

The **SECOND** optional extension may be granted for a term of **TWELVE (12) MONTHS, from July 1, 2028, through June 30, 2029,** and any proposed increase shall be no greater than the CPI (Consumer Price Index) for the Ontario area, measured performance of the contractor and funding renewal.

All optional extensions of the contract are subject to approval by the City Manager or his authorized agent and are contingent upon funding and performance by the Contractor.

4. DEFINITIONS

Where "as directed", "as required", "as permitted", "approved", "acceptance", or words of similar importance are used, it shall be understood that the direction, requirement, permission, approval or acceptance of the Parks and Maintenance Director, or his authorized agent, is intended unless otherwise stated.

The use of the word "Contractor" shall be held to mean the Contractor and/or any person employed by the City of Ontario, Parks and Maintenance Director, or his/her authorized agent and working under this contract.

The use of the words "shall" and "may" shall be held to mean "mandatory" and "permissive" respectively.

The use of the words "his" or "him" shall be construed to mean either gender, as appropriate. The use of the words " Parks and Maintenance Director " shall be construed to mean either the Parks and Maintenance Director or his authorized agent(s).

The words "City working day" refers to Monday-Friday, 6:30 a.m. to 4:00 p.m.

5. VANDALISM/THEFT/DAMAGE

Contractor shall be responsible for performing maintenance, repairs, and replacement of existing landscaped areas which are maintained under this contract and damaged or altered in any way as a result of theft, vandalism or mysterious damages that do not result from the performance of the Contractor.

In the case of vandalism to the maintained areas (Damage by Unknown Circumstances), Contractor shall notify the City within 24 hours using the free myOntario App. Graffiti will be entered under the “graffiti “Tab. All other Vandalism will be entered under the “Parks” Tab. In addition, EXCEPT in the case of graffiti, a text or email must be sent to the City’s Representative within 24 Hours detailing the Vandalism.

The use of red "Danger" tape shall be used when an area is unsafe for the public by the end of workday.

The repairs shall be made within 24 hours of receiving a notice to proceed by text or email. At no time shall damage by unknown sources remain unrepaired for a period exceeding 72 hours.

Additional compensation will be provided only for costs that are directly related to the theft and/or vandalism.

The following conditions shall be met prior to the Contractor being reimbursed for "Damage by Unknown Circumstances".

6. VANDALISM/THEFT/DAMAGE BIDS

Contractor shall submit an itemized EWA (Extra Work Authorization) within 24 hours to the City's Representative. Contractor shall secure written authorization for the repairs by the Parks and Maintenance Director, or his authorized agent within twenty-four (24) hours by e- mail or text. For emergencies regarding public safety, a verbal or text approval by the Parks and Maintenance Director, or his authorized agents, may be obtained.

7. COMPLETION OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Work is to commence within twenty-four (24) hours after receiving City approval.

B. The work shall be inspected and released as complete by the City representative, and then invoiced as specified in section (8).

8. INVOICING OF PROPOSED VANDALISM/THEFT/DAMAGE WORK

A. Contractor shall submit on business letterhead, a photocopy of the original EWA describing individual material costs and an invoice with line items for material costs, labor costs and administrative costs. The cost estimate for additional work shall consist of the following elements: **Base cost of labor plus Fifteen percent (15%) for overhead and profit. Actual cost of materials plus fifteen percent (15%) for overhead and profit.** City reserves the right to ask for payroll records and vendor invoice if discrepancies on the bid exist. Materials may be provided by the City of Ontario.

B. Contractor shall submit a copy of a report filed with the City of Ontario Police Department, which relates to the specific incident if required by the Parks and Maintenance Director or his authorized agent.

9. ADDITIONAL (EXTRA) WORK (EXTRA WORK AUTHORIZATION or EWA)

A. The Parks and Maintenance Director, or his authorized agent, may, at his discretion, authorize the Contractors to perform additional work. Additional work (work not related to "Damages by Unknown Circumstances") shall be defined as work not included in this Agreement.

B. Prior to the Contractor performing any additional work, the Contractor shall prepare and submit a written description of why the additional work is required, what type of work is proposed, and a cost estimate for the additional work as stated. No work shall commence

without written authorization from the Parks and Maintenance Director, or his authorized agent. Notwithstanding the above authorization, when a condition exists where there is imminent danger of injury to the public or damage to property, the Parks and Maintenance Director, or his authorized agent may verbally authorize the work to be performed upon receiving a verbal estimate from the Contractor. However, within twenty-four (24) hours after receiving a verbal authorization, the Contractor shall submit a written estimate to the Parks and Maintenance Director, or his authorized agent, for approval.

C. The cost estimate for additional work shall consist of the following elements:

Base cost of labor plus fifteen percent (15%) for overhead and profit.

Actual cost of materials plus fifteen percent (15%) for overhead and profit (invoice from vendor shall be attached to each invoice turned in for payment).

City reserves the right to ask for payroll records. Materials may be provided by the City of Ontario.

D. Written authorization from the Parks and Maintenance Director, or his authorized agent, shall be by the issuance of a change order or signed bid. This change order or signed bid shall be considered an amendment to this Agreement and approved by the Parks and Maintenance Director, or his authorized agent, and Contractor.

E. All additional work shall commence on the agreed date and shall diligently proceed until completion. Contractor could use the labor force assigned to the contractual maintenance tasks to perform additional work if prior approval has been granted by the City representative.

F. Upon completion of the additional work, the Parks and Maintenance Director, or his authorized agent, shall be notified so that the work may be verified.

G. The Contractor shall submit an invoice for compensation with attached photocopies of original invoices for materials and a copy of signed bid. Compensation shall not exceed the written estimate. The Contractor's invoice shall be subject to audit and review by the City prior to payment.

H. The City of Ontario reserves the right to repair or contract with a third Party to perform such additional work (if bids are not received within 72 hours of official request and or if the proposed costs do not concur with contractor's labor rates and cost of materials)

10. CONTRACTOR LIABILITY

A. All damage to existing improvements located within areas and adjacent to areas under construction, which in the opinion of the Parks and Maintenance Director, or his authorized agent, are due to the Contractor's operation, shall be repaired or replaced at the Contractor's expense with exact (existing) materials and in an approved manner.

B. Such repairs or replacements shall be performed by the Contractor at no cost to the City and shall be accomplished as directed by the Parks and Maintenance Director or his/her authorized agent. Repairs shall be made immediately after damage or alteration occurs. Deductions shall be made from the Contractor's payments in the amount necessary to compensate the City for such repairs in the event such repair work is done by City forces, or another source.

C. Irrigation damage shall be repaired or replaced within the following time limits: Irrigation entities such as, but not limited to, (risers, heads, backflow device and cages, controllers, basket strainers, pressure regulators, irrigation wires and valves, valve boxes, irrigation pumps, ET gauges, rain buckets, antennas, flow sensors, and landscape lighting equipment) that are damaged during regular routine maintenance and become non-functional or non-efficient shall be replaced immediately. Mainline irrigation breaks shall be repaired within two (2) hours of being notified. All other irrigation repair and/or replacement shall be completed within 24 hours of being notified. (In the event that the mainline repairs require specialized parts and or materials, the contractor shall be responsible to request from the City additional time to complete the repair/s)

D. All damage to turf grass, groundcover, shrubs, or trees, shall be repaired or replaced within three (3) working days of being notified. Damage to turf shall be repaired by replacement with the appropriate variety of bermudagrass sod or seeded with warm season seed and topper added. Damage to groundcover shall be repaired by replacement with the appropriate variety of plant material. Size and spacing shall be determined by the Parks and Maintenance Director, or his authorized agent. Damage to shrubs may be corrected by appropriate pruning; however, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the damage is severe, the shrub (in its entirety) shall be removed and replaced with a similar variety and size.

E. Damage to trees shall be repaired in the following manner:

Minor damage, such as bark lost from mechanical equipment shall be remedied by a certified Arborist. If the damage results in the loss of the tree, or, if in the opinion of the Parks and Maintenance Director or his authorized agent, the damage is severe, the damaged tree shall be removed and replaced with a similar variety and size. All damage resulting from chemical application and/or operation, either by spray-drift, improper application, lateral leaching, or other means shall be corrected in accordance with the previous provisions and the soil conditioned to ensure its ability to support plant life. All work shall be inspected, verified, and completed to the satisfaction of the Parks and Maintenance Director, or his authorized agent.

11. INSPECTION/DRIVE

The City and an appointed representative of the Contractor shall conduct a once-a-month walkthrough to inspect each individual work area. It is the responsibility of the Contractor to set up the inspection time(s) five (5) working days prior to the walkthrough/inspection. It is a requirement that a six to twelve (6-12) month master calendar be set up within 30 days of the award of the contract to insure coordinated dates of inspection. This inspection is to ensure adequacy of maintenance, methods of performing the work are in compliance with the contract and allow all deficiencies to be corrected prior to invoice submission and payment. However, this shall not be construed to relieve the Contractor of the duty to provide continuous inspection of individual work areas. Discrepancies and deficiencies in the Contractor's work shall be brought to the attention of the Contractor and corrected in the manner prior to invoicing and payment.

12. HAZARDOUS CONDITIONS

It shall be the Contractor's responsibility to inspect, and identify, any condition(s) that renders any areas within this Agreement unsafe, as well as any unsafe practices occurring thereon. The Parks and Maintenance Director, or his authorized agent, shall be notified immediately using the myOntario App, as well as text or phone call, of any unsafe condition that requires major correction.

The Contractor shall be responsible for making minor corrections including, but not limited to, filling holes in landscaped areas, diverting water sheet flow, using barricades, danger tape or traffic cones to alert persons of the existence of hazards and replacing valve box covers so as to protect all persons from injury.

The Contractor shall inspect all work sites for hazards, or potential hazards in the contractual areas daily.

During the required inspection of all work sites for hazards, or potential hazards, the Contractor shall immediately contact the City representative (either e-mail or text) indicating the condition, date, and the area that was inspected and a work order should be created using the myOntario App.

The Contractor shall cooperate fully with the City of Ontario in the investigation of any accidental injury or death occurring on the premises, including the submission of a complete written report thereof to the Parks and Maintenance Director within three (3) days following the occurrence.

13. REMOVING OBSTRUCTION AND MAINTENANCE OF EXISTING IMPROVEMENTS

Where the work is to be constructed in, or adjacent to, areas which have been improved by lawns, trees, shrubs, or gardens, the Contractor shall remove such trees or plants as may be necessary for the prosecution of the work and give them proper care and attention until the work has been satisfactorily completed, after which the Contractor shall replace them in as nearly the original condition and location as is reasonably possible. Where it is necessary to deposit the excavated materials on lawns during the process of construction, the Contractor shall first lay burlap or canvas on the lawn to prevent contact between the excavated material and turf grass. Unless otherwise indicated in the contract documents, all utility lines, conduits, wires, or structures shall be maintained by the Contractor and shall not be disturbed, disconnected or damaged by them during the progress of the work, provided, that should the Contractor in the performance of the work disturb, disconnect, or damage any of the above, all expense, arising from such disturbance, or in the replacement or repair thereof, shall be borne by the Contractor. However, in accordance with Section 4215 of the California Government Code, the Contractor shall be compensated 1) for the cost of locating and repairing damage to main or trunk line utility facilities located on the job site, not due to the failure of the Contractor or exercise reasonable care; 2) for costs of removing or relocating such utility facilities not indicated in the contract documents with reasonable accuracy; and 3) for the operation cost for equipment on the project necessarily idled such work.

At least two (2) working days prior to commencing any excavation pursuant to this Contract, the Contractor shall contact Underground Service Alert at (800) 422-4133 or other appropriate regional notification center if the excavation will be conducted in an area which is known, or reasonably should be known, to contain subsurface installations.

14. CONTRACTOR STAFF

The contractor shall provide the manpower as a minimum staffing requirement to comply with the performance of the landscape/irrigation maintenance specifications and requirements of the site.

The Contractor shall furnish one (1) supervisor with a minimum of 5 years of landscape and irrigation maintenance experience and sufficient supervisory and working personnel capable of promptly accomplishing all tasks on schedule, to the satisfaction of the Parks and Maintenance Director, or his authorized agent, all work required under this contract during the prescribed hours (6:30 AM to 4:00 pm). **Staffing shall be as needed plus any additional workforce to complete the maintenance/construction tasks required on the frequency page.** Payment will be based upon completed, acceptable work, Irrigation technician and spray technician to be provided as needed (personnel needs do not address the alternates per bid forms). Incomplete or unacceptable work will result in a delay or reduction of billing payment.

The Contractor shall have a competent supervisor, who is capable of communicate effectively both in written and oral English and discuss matters pertaining to this contract. The supervisor must be able to demonstrate to the satisfaction of the Parks and Maintenance Director, or his authorized agent, that they possess an adequate technical background. Adequate and competent supervision shall be provided for all work done by the Contractor's employees to ensure the accomplishment of high-quality work, which will be acceptable to the Parks and Maintenance Director or his authorized agent.

Any order or communication given to the supervisor shall be deemed as delivered to the Contractor. The contractor shall use the free myOntario App. The use of a Smart phone will be required.

The contractor shall provide the minimum staffing requirements to comply with the performance of the landscape maintenance specifications and requirements of the site. Personnel shall be on site ready to work no later than 6:30am.

The Contractor, and their employees, shall always conduct themselves in a proper and efficient manner and shall cause the least possible annoyance to the public. The Parks and Maintenance Director or his authorized agent, may require a Contractor to remove from the work site any employee(s) deemed careless, incompetent, or otherwise objectionable, whose continued employment on the job is considered to be contrary to the best interest of the City of Ontario.

The Contractor shall require each of his employees to wear basic public works working attire. These are basically proper shoes, and other gear required by State Safety Regulation, and proper wearing of the clothing. Shirts shall be worn and always buttoned; safety vests "Type II" are required when indicated by the Work Area Traffic Control Handbook, the Parks and Maintenance Director or his authorized agent.

The Contractor shall establish an identification system for personnel assigned to the maintenance/construction site, which clearly indicates to the public the name of the Contractor and individual responsible for the construction/maintenance work. The identification system shall be furnished at the Contractor's expense and may include appropriate attire and name badges.

Contractor shall be responsible for traffic control (where needed) and shall be done per "WATCH" standards. Failure to comply with proper "WATCH" standards shall result in stoppage of all work until the proper traffic control is set up and could result in a fine. 1st violation $500.00, 2nd. Violation $ 1000.00, 3rd. violation and thereafter $ 3000.00 and/or possible cancellation of contract.

Inclement Weather

During inclement weather, (rainstorms, windstorms etc.) the contractor shall be required to contact the City representative prior to 7:00 am to receive clear directions of their assignments for the day. A minimum of two staff members shall be at the disposition of the City.

15. LOCAL OFFICE

A. The Contractor shall maintain an office with a telephone and provide at all times the following:

A responsible person(s), employed by the Contractor, which shall have the ability to take necessary action regarding all inquiries and/or complaints received from the Parks and Maintenance Director, or his authorized agent. This person(s) shall be accessible twenty-four (24) hours per day and seven (7) days per week. An answering service shall be considered an acceptable substitute to full-time coverage, outside of prescribed working hours, provided the Contractor is notified of any communication within one (1) hour after receipt of said communication. The telephone number(s) of the Contractor or responsible person(s) of the Contractor shall be a toll-free number for the City of Ontario.

B. During normal working hours, the Contractor's supervisors, who are responsible for providing contractual services, shall be available for notification through a landline or cellular telephone communication. This will allow the city to access the contractor at any time during City working hours.

16. STORAGE FACILITIES

The City of Ontario will not be providing storage facilities throughout the duration of this contract.

A. SIGNS

The contractor shall not post signs or advertising matter upon the areas under maintenance or improvements thereon, unless prior written approval is obtained from the Parks and Maintenance Director, or his authorized agent.

The contractor shall, always, remove all unauthorized signs and advertising matter such as, but not limited to, garage sale signs, yard sale signs, campaign signs and personal business signs in the area under maintenance.

17. LOCK AND KEYS

A. Where City of Ontario locks and keys are required as part of this contract, the Contractor shall:

Not duplicate any coded City key furnished by the city.

Surrender all keys furnished by the Parks and Maintenance Director or his authorized agent promptly at the end of the contract period, or at any time-deemed necessary by the Parks and Maintenance Director, or his authorized agent, to prevent loss to the City of Ontario.

Protect the security of City property by keeping controller cabinets and enclosure doors always locked.

Contact the City immediately if a security lock is non-functional and needs repair. Refrain from using premises behind locked doors for storage of materials, supplies or tools except as approved by the Parks and Maintenance Director or his authorized agent. In the event that the contractor staff who has been assigned keys to the facilities resigns from his position, it is the

sole responsibility of the contractor to retrieve the keys assigned to such staff member and return to the City.

18. UTILITIES

The City of Ontario shall pay for the maintenance related to water and electrical utilities.

When needed, water usage shall not exceed the budgeted amount to comply with the City Water Conservation efforts. A water budget may be provided by the City and shall be reviewed and adhered to by the Contractor. Water budget shall be approved by the Parks and Maintenance Director, or his authorized agent.

The Contractor may be charged for all excessive utility usage (using the current utility rate) due to the contractor's failure to manage and or monitor irrigation system malfunctions or unauthorized increases in water usage. The excess cost will be determined by comparing the current utility usage with historical usage data for the same period.

The excess cost factor shall be deducted from payments to the Contractor. However, the Contractor will be allowed three (3) working days, upon receiving notice, to explain in written documentation the cause of the increase in utility usage in question. A final determination (after review of Contractor's explanation) of the deduction will be assessed by the Parks and Maintenance Director or his authorized agent.

19. NON-INTERFERENCE

The Contractor shall not interfere with the public use of the premises and shall conduct their operations so as to offer the least possible obstruction and inconvenience to the public, nor disrupt the peace and quiet of the area within which the services are performed.

20. PARKING

A. The Contractor shall park their vehicles and equipment within designated parking areas or in such a location to ensure normal vehicular traffic.

B. The Contractor's vehicles and equipment shall not be parked or set in such a manner that they block pedestrian access or vehicular right-of-way except as required to comply with all safety standards of OSHA or CAL-OSHA. Failure to perform proper traffic control will result in a formal warning (first time), a deduction of $500.00 per instance after formal warning has been given and contractor fails to comply.

21. EMERGENCY CALLS

A. The Contractor shall have the capability to receive and respond immediately to calls of an emergency nature during normal working hours and outside of normal working hours. Calls of an emergency nature received by the Parks and Maintenance Director or his authorized agent, shall be referred to the worksite Contractor for immediate disposition. If the work site Contractor cannot be reached within two (2) hours, the City will deduct from the monthly billing the cost of City forces, or other sources, used to repair the emergency. The Contractor shall not receive additional compensation for responding to emergencies for work included in these general conditions at contract work sites.

22. EXTRAORDINARY SERVICES

A. The Contractor shall be responsible for providing extraordinary maintenance and/or repairs to existing landscape and new landscape areas outside of their contract areas. Extraordinary services shall be defined as work not included in these general conditions or work required at a site for which there is no contract. Extraordinary maintenance shall include answering emergency calls as required. Contractors shall respond to an emergency call within two (2) hours. Contractors shall maintain a 24 hours per day, seven days per week, on-call service for emergency calls. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, by telephone within 24 hours of any emergency extraordinary work that is performed. Non-emergency extraordinary work requires written approval before the work is performed. Submission of an EWA and approval by the Parks and Maintenance Director, or his authorized agent will be necessary. The Contractor shall be compensated for extraordinary work as defined in Section 9.

B. In situations involving emergency repair work after normal work hours, Contractors shall dispatch qualified personnel and equipment to reach the site within two (2) hours. The Contractor's vehicle shall carry sufficient equipment to effect safe control of traffic. When the work site Contractor arrives at the site, the Contractor shall set up traffic warning and control devices, if deemed necessary and proceed to repair on a temporary/permanent basis.

C. If a City Representative is still at the site when the work site contractor arrives, the Contractor shall quickly evaluate the situation and discuss it with the City Representative. If the repair will take only a few minutes, the City Representative may stay to continue to direct traffic while the Contractor makes the repairs. If the repair will take longer than the City Representative

can wait, the Contractor shall immediately set up temporary traffic control devices and all other necessary warning devices and relieve the City Representative.

D. An emergency may be called by the following individuals or agencies at anytime for extraordinary services involving repair work:

1. City Manager
2. Police Department
3. Fire Department
4. Parks and Maintenance Director

E. The following emergency phone numbers are listed for the convenience of the Contractors:

Fire Department (Dispatch)	(909)	983-5911
Fire Department (Emergency)	911	
Police Department (Dispatch)	(909)	986-6711
Police Department (Emergency)	911	
Southern California Edison	(800)	655-4555
Southern California Gas	(800)	427-2200
Dig Alert	(800)	422-4133

23. REPORTING DAMAGE OR MALFUNCTION

Any damage to, or malfunction of, any facility not specifically stated in this Agreement shall be promptly reported to the Parks and Maintenance Director, or his authorized agent.

24. COMPENSATION FOR ROUTINE MAINTENANCE

The City shall compensate Contractors based upon the total dollar amount of a bid or the total dollar amount of a combination of bids, if applicable, in monthly installments beginning 30 days after the commencement of work. Billing adjustments may be made where authorized by this Agreement.

25. ADDITION OR DELETION OF LANDSCAPE AREAS

The Contractors shall maintain, at a unit price comparable to other existing landscape areas and subject to the Parks and Maintenance Director approval or his authorized agent's approval, additional landscape areas that the city adds to this contract. If notification is made of a new installation other than at the beginning of a monthly period, the unit cost negotiated and agreed upon by the parties, shall be prorated from the day the Contractor is notified to start maintenance. The City may elect to delete work sites, or portions thereof, within this Agreement at a unit price comparable to the bid price of said work sites.

26. DISCREPANCIES OR OMISSIONS

Should a bidder find discrepancies or omissions in the specifications or other documents, or be in doubt as to their true meaning, he may request a written interpretation from the Parks and Maintenance Director, or his authorized agent. Any interpretation, or change in the proposed documents, will be made only by addendum issued to each person to whom bid forms have been issued and shall become a part of the bid.

27. MINOR MODIFICATION

The Parks and Maintenance Director, or his authorized agent, may modify these specifications with the joint approval of the Contractor.

28. CONTRACTOR NON-COMPLIANCE

If the Parks and Maintenance Director, or his authorized agent, determines that there are deficiencies in the performance of this Agreement, the Parks and Maintenance Director, or his authorized agent, will provide a written inspection notice to the Contractor stating the deficiencies and specifying a time frame to correct the specified deficiencies. This time frame shall be reasonable, as determined by the Parks and Maintenance Director, or his authorized agent, to correct the specified deficiencies but not to exceed five 5 working days from the day of the inspection punch list. If the site(s) show obvious signs of non-performance, the Parks and Maintenance Director, or his authorized agent shall have the ability to immediately enforce partial or full deduction for the site in question. Should the Contractor fail to correct all deficiencies within the stated time frame, the Parks and Maintenance Director, or his authorized agent, may exercise the following measures:

A. Deduct from the Contractor's payment the amount necessary to correct the deficiency, including City overhead and impose a deficiency deduction.

B. Withhold the entire or partial payment.

C. Utilize City forces, or an alternate source, to correct the deficiency and deduct from the Contractor's payment the total cost, including City overhead. The Parks and Maintenance Director, or his authorized agent, shall decide all questions which arise as to the manner of performance and completion per schedule, acceptable fulfillment of the contract by the Contractor, interpretation of the specifications, and compensation to include completion of work by alternate sources. In addition to the provisions of Section 3.3, Contract Documents and Section 28 (B), in event of a failure to correct a deficiency, or for any other breach of this Agreement by the Contractor, the City of Ontario may immediately terminate this Agreement. If the contractor requires extra time to complete the deficiency list due to materials/parts shortage, the contractor shall request in writing only the time needed to be added and the reasons why. The City representative will review the request and shall respond to the contractor in writing of the decision made. Contractor shall present the request for extension within the first five (5) working days of the deficiency list.

29. PAYMENTS WITHHELD

The city may withhold entire or partial payment for reasons as follows:

A. Work required in the specifications, which is defective, incomplete, or not performed. Claims filed or reasonable evidence indicating probable filing of claims.
B. Failure of the Contractor to make payments properly to subcontractors, or for materials and/or labor. A reasonable doubt that the contract cannot be completed for the remaining balance.
C. Reports, logs, or other contractual written documentation required of the Contractor to be delivered to the Parks and Maintenance Director, or his authorized agent, which is/are incomplete or not performed.

30. WITHHELD CONTRACT FUNDS

The Contractors may, at his sole cost and expense, substitute securities equivalent to any monies withheld by the City to insure performance under the contract. Such securities shall be deposited with the City or with a State or Federally Chartered Bank as escrow agent who shall pay such monies to the Contractors upon satisfactory completion of the contract. The Contractor

shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest thereon. Securities eligible for investment under this section shall include those listed in Public Contract Code Section 22300. One definition of just cause for immediate contract termination is, if in the opinion of the Parks and Maintenance Director, or his authorized agent, the contract cannot or will not be completed by the Contractor in its entirety. In the event of such termination, the bonds required shall remain in effect for six (6) months after the date of termination to provide surety that any remedial work required at the time of termination will be completed.

If the Contractor fails to meet the specifications of this contract for any fifteen (15) consecutive or non-consecutive days, the Parks and Maintenance Director, or his authorized agent, may at his option terminate the balance of this contract by written notice of termination to the Contractor. Notice of such termination shall take effect three (3) days after such notice is mailed.

31. COMPLAINTS FROM CITY

The Contractor shall maintain an on-the-job a written log of all complaints which includes the date and time received and the action taken or the reason for non-action. The on-the-job log of complaints shall be available upon request from the City Representative. All complaints shall be abated as soon as possible after notification; but in all cases within 24 hours, to the satisfaction of the Parks and Maintenance Director, or his authorized agent. If any complaint is not abated within 24 hours, the Parks and Maintenance Director, or his authorized agent, shall be notified immediately of the reason for not abating the complaint, followed by a written report to the Parks and Maintenance Director or his authorized agent, within four (4) City working days.

If the complaints are not abated within the time specified, or to the satisfaction of the Parks and Maintenance Director or his authorized agent, the Parks and Maintenance Director, or his authorized agent, may correct the specific complaint and the total cost incurred by the City of Ontario shall be deducted and forfeited from the payments owing to the Contractor from the City of Ontario.

32. CONTRACTOR IS AN INDEPENDENT CONTRACTOR, INDEMNIFICATION

Contractor shall act under the contract as an Independent Contractor thorough the City of Ontario and will not be an agent, or employee of the City. Contractor shall not represent or otherwise hold out itself, or any of its subcontractors, directors, officers, partners, employees, or

agents, to be an agent or employee of the City. Contractors shall indemnify and otherwise hold harmless the City, its officials, officers, directors, employees, agents and other representatives, from all liability, loss, or damage, including reasonable attorney's fees and other costs of defense resulting from damage or injury to persons or property caused, or claimed to have been caused, by acts or omissions of the Contractor, or of any of its subcontractors, directors, officers, partners, employees, or agents in the course of, or in connection with the Contractor's performance under the contract. The Parties agree to cooperate fully in the resolution of any claims for such liability, loss, or damage.

33. SUBCONTRACTOR/ASSIGNMENT OF CONTRACT

Reference is hereby made to the provisions of The Subletting and Subcontracting Fair Practices Act (Government Code Sections 4100, et. seq.), which are incorporated herein and made a part hereof by this reference.

A copy of each subcontract, if in writing, or if not in writing, then a written statement signed by the Contractor, giving the name of the subcontractor, and the terms and conditions of such subcontract, shall be filed with the City before the subcontractor begins work. Each subcontract shall contain a reference to this agreement between the City and the Contractor, and the terms of that agreement between the City and the Contractor and all parts thereof shall be made a part of such subcontract insofar as applicable to the work covered thereby. Each subcontractor shall provide for its annulment by the Contractor at the order of the City, if, in the City's opinion, the subcontractor fails to comply with the requirements of the principal contract insofar as the same may be applicable to his work. Nothing herein contained shall create any contractual relation between any subcontractor and the City or relieve the Contractor of any liability or obligation hereunder.

Contractor shall not assign, transfer, convey or otherwise dispose of this contract, or of his rights of interests in or to the same or any part hereof, without the previous consent in writing of the Parks and Maintenance Director, or his authorized agent. If the Contractor, without such previous written consent assigns, transfers, conveys, or otherwise disposes of the contract, or of his rights or interests therein, the contract may, at the option of the City, be terminated and revoked, and the City shall there upon be relieved and discharged from all liability and obligations arising out of the same to the Contractor, and to his assignee or transferee. No right under the contract, nor any right to any money to become due hereunder, shall be asserted against the City in law or equity by reason of any so-called assignment of the contract, or any

part thereof unless authorized by the written consent of the Parks and Maintenance Director, or his authorized agent.

34. COMPLIANCE WITH THE LAW

Contractor agrees that their performance under this contract shall comply with all applicable laws of the United States of America, the State of California, the county of San Bernardino, the City of Ontario and any other political entity having jurisdiction over the activities of the Contractors. The Contractor State License Board for the State of California has administratively determined in writing that a C-27 Contractor License is required to provide the service as set forth in the contract and specifications. Therefore, each bidder will be required to hold a valid C-27 Contractor License.

35. PAYROLL

Section 1776, Chapter 1 of Division 2, from the California Labor Code requires that each Contractor and Subcontractor keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and each week, and the actual per diem wages paid each journeyman, apprentice or worker employed by him.

The employee's own payroll records shall be available for inspection, and a copy shall be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standard.

Pursuant to Labor Code Section 1778.8, the Contractor agrees to pay travel and subsistence payments to each workman needed to execute the work in accordance with the applicable collective bargaining agreements filed with the Department of Industrial Relations.

36. LABOR STRIKE

It shall be the responsibility of each contractor to provide continuous contractual services, without any interruption.
In case of any labor strikes, the Contractor shall provide other means, as its own cost, to provide a comparable continuous contractual service as if there were no strike.
Failing to do so will cause the Parks and Maintenance Director, or his authorized agent, to take whatever action is deemed necessary to provide such service and the cost will be borne by the Contractor.

37. TURF GRASS CARE

A. Turf grass Mowing:

The Contractor shall mow all turf grass with adequately sharpened rotary type mowers as to provide a smooth and even cut without tearing of turf grass blades.
The blade adjustment shall provide a uniform, level cut without ridges, depressions or scalping.
All cool season turf grasses shall be cut with a power driven rotary mower at a two inch (2") height from November to February and at two and half inches(2 1/2'.') from March to October.

Turf grass mowing heights may be adjusted by the Parks and Maintenance Director, or his authorized agent, during periods of turf grass renovation.

Care shall be exercised to avoid depressions in the established grade from mowing when the soil is saturated.

The Contractor shall submit, in writing, a mowing schedule within ten (10) days after the start of the maintenance contract. This mowing schedule shall be approved by the Parks and Maintenance Director, or his authorized agent. Any alteration of the approved mowing schedule shall be submitted in writing to the Parks and Maintenance Director or his authorized agent, for approval prior to implementation.

B. Turf Grass Edging and Trimming:

Turf grass edging and trimming shall be performed per frequency schedule at the time of mowing.

Edging of turf grass shall be performed with a power edger containing a steel blade, the use of string trimmers (weed-eater) to edge turf areas is not a practice acceptable to the City. The use of a stick edger is acceptable.

All turf grass adjacent to sidewalks, curbs, mowing strips, shrub beds, and where no improved surface exists, shall be edged in a neat uniform line.

Where facilities include a softball or baseball field, the infield radius shall be edged regularly to keep radius clearly defined. Grass and weeds shall not encroach into the infield and shall be treated/removed immediately.

Trimming of turf grass shall be performed along walls, and around valve boxes, water meter boxes, backflow devices, trees, shrubs, or any structures located within the turf grass area.

Tree trunk protectors shall be provided and installed, at no additional cost to the City, when string trimmers are utilized for trimming around the base of trees. The City may allow a sixteen inch (16") diameter mulch ring around trees to eliminate continual string trimming.

A four-inch (4") barren strip shall be provided, and maintained, between turf grass areas and adjacent ground cover. Edging of turf grass and ground cover shall provide uniform delineation adjacent to this barren strip.

Trimming of plant material may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site the same day work is performed and prior to the contractor vacating the work site.

After mowing and edging is completed, all adjacent walkways and gutters shall be swept or blown clean.

Blowing and disposing of grass clippings into the City storm drain system and/or streets shall not be permitted. If found contractor will face liquidating damages as follows;

1st violation$ 1000.00, 2nd violation $ 2000.00, 3rd violation and thereafter $ 3000.00.

C. Turf grass Fertilization

The turf grass shall be continually fertilized a minimum of 3 x per year with additional application if needed, to provide a healthy and vigorously growing turf grass with horticultural acceptable growth and color, as determined by the Parks and Maintenance Director, or his authorized agent.

1. Fertilization shall be performed with a balanced fertilizer, consisting of a 3-1-2 ratio, at a rate of one (1) pound of actual Nitrogen per 1,000 square feet of area. Any change in the

fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the following:

- Location and exact date the fertilizer application will be performed.
- Type of fertilizer and method of application to be used.

3. The Contractor shall immediately irrigate (staff shall be present when irrigating during the day) after each fertilizer application and repair with sod (Dwarf Fescue) any damaged areas due to fertilizer/chemical burn.

4. All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

D. Turf grass Renovation

1. Renovation shall consist of aerating, verticutting, thatch removal, over-seeding and top dressing (a minimum of l/8").

2. The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any renovation operation. This written document shall include location and exact date the renovation will be performed and type of equipment and materials to be used.

3. Contractors shall remove all renovation-generated debris from the work site the day of the renovation operation and prior to vacating the work site.

4. Light verticutting and thatch removal of warm season turf grass (where present) shall be performed between September 30th and October 15th or as directed by the City Representative.

5. Over-seeding shall be performed within two (2) days after verticutting with properly calibrated seeders. Warm season turf grass shall be over-seeded at a rate of ten (10) pounds of seed per 1,000 square feet. A 3 way dwarf type Bermuda grass seed shall be used. Seed tags shall be provided to the Parks and Maintenance Director, or his authorized agent. Additional over-seeding shall be performed if less than 80% germination occurs within the first month.

6. Top dressing shall be performed using a properly calibrated top dressing machine and seed shall be topped with one-eight inch (1/8") of weed free topper. The topper must be approved by the Parks and Maintenance Director or his authorized agent, and shall not contain steer manure (City reserves the right to provide the topper needed if available and in stock).

7. Reseeding of bare spots shall be performed continually throughout the year to reestablish turf to an acceptable quality. If quality does not meet the City acceptance contractor shall replace with sod (Bermuda grass, Dwarf Fescue or equal).

The Parks and Maintenance Director or his authorized agent, will require the use of sod as a replacement material when deemed necessary. The Contractors shall be entitled to the wholesale cost of the sod only, provided the loss of turf grass was not due to the negligence of the Contractor. Sod shall be Bermuda grass or Dwarf Fescue.

E. Aeration

All turf grass shall be aerated four (2) times per year, once every quarter, starting July 1st. Aeration shall be performed with a ride on or a walk behind aerator machine which has one-half inch (1/2") to one inch (1") in diameter coring tines spaced no more than six inches (6") apart. The machine shall remove cores from the turf to a depth of 4-6”. Dragging or pulverizing of cores is acceptable.

F. Turf grass Irrigation

All turf grass shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and over spray shall be minimized. Where possible, the turf grass irrigation shall be on a separate program from other plant material irrigation. Turf grass shall be irrigated in a method which promotes deep root growth.

At facilities with softball and baseball infields, Irrigation shall be adjusted so as not to overlap into the infield mix. Any reports of saturated infield mix from irrigation shall be addressed immediately.

38. SHRUB CARE

A. Pruning of Shrubs

Shrubs shall be pruned with sharp pruning tools.

Shrubs shall be continually pruned, as necessary, to prevent encroachment of passageways, walks, streets, and view of signs. Shrubs shall be tapered to provide irrigation coverage and an aesthetically pleasing landscape.

All pruning cuts shall be one-quarter inch (1/4") above a node (bud). No projections or stubs shall be allowed to remain.

After pruning is completed, all adjacent walkways and gutters shall be left clean. Blowing and disposing of any debris into the Storm Drain system and/or streets shall not be permitted. If found, Contractor will face liquidating damages as follows; 1st violation $ 500.00, 2nd. violation $1000.00, 3rd. violation and thereafter $3000.00 and/or possible cancellation of contracts.

During blooming season, vines shall be trimmed minimally so as not to remove floral display areas.

Pruning shall be done to maintain a well-groomed, natural growth habit, and encourage air movement through shrubs.

The Contractor shall remove all clippings the same day shrubbery is pruned and prior to vacating the work site.

Pruning of roses (except for trailing roses) shall be accomplished using best horticultural practices. The use of hedge shears to prune roses will not be permitted. Roses shall be deadheaded as needed and shall be heavy pruned once per year.

New plantings, once approved by the City Representative, shall take place within a week from the date reported.

B. Shrub Fertilization

Shrubs (including roses) shall be fertilized a minimum of 3x per year or as directed by the Parks and Maintenance Director his authorized agent with a balanced fertilizer specific for the type of plants. Roses shall be fertilized once following heavy pruning and one additional time per year.

Foliar fertilization may be performed when appropriate and will require the approval of the City Representative.

C. Shrub Irrigation

All shrubs shall be adequately irrigated to maintain a healthy and attractive appearance. Irrigation runoff and over spray shall be minimized. Shrubs shall be irrigated in a method, which promotes deep root growth.

D. Shrub Replacement

All damaged, diseased (untreatable) or dead shrubs shall be replaced with the same species plant material that existed (unless a disease situation is discovered affecting the specie). Shrubs shall be replaced within 7 days after being identified by the contractor or authorized agent. Size of the replacement plant material is to be determined by the authorized agent. The Contractor shall be responsible for the complete removal and replacement of shrubs lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Substitutions or any plant materials must have prior written approval by the Parks and Maintenance Director, or his authorized agent.

Original plans and specifications may be consulted to determine correct identification of species.

All shrubs shall be guaranteed to live and remain in a healthy condition for the duration of the contract from the date of installation, inspection and verification by the Parks and Maintenance Director, or his authorized agent.

Soil build-up around the crown of shrubs shall be continuously removed.

E. Vine Maintenance

Vines shall be trimmed as needed to promote upright growth and shall be kept attached and contained on the structure.

All vines shall be trimmed on a as needed basis by the contractor, the standard of the City is to trim vines one block below the top of the wall, the City understands that its vines in some sites are mature and have grown over the top of the wall, the contractor shall only be responsible to trim the vines that are solicited by our residents and will have to adhere to the standards herby mentioned. No vines will be allowed to grow in newly installed wood fences or wood fence

extensions (above the top of the fence or block wall). Vines shall be trimmed tight and follow horticultural standards.

39. GROUNDCOVER CARE

Groundcovers are low growing plants that grow in colonies to form a solid mat over the surface of the ground. The plants give a flat or two-dimensional effect to the landscape, such as, but not limited to, Honeysuckle, Myoporum, Senecio, Rosemary, Lantana, Ivy (spp.) Salvia (spp.)

A. Edging and Trimming of Groundcover

Edging of groundcover areas shall be performed monthly or as needed.

All groundcover adjacent to sidewalks, curbs, mowing strips, or where no improved surface exists, shall be edged in a neat, uniform line.

All groundcover shall be continually trimmed at the drip line of all shrubs.

All groundcover shall be continually trimmed along walls, valve boxes, water meter boxes, backflow devices, or other structures located within the groundcover area as determined by the Parks and Maintenance Director, or his authorized agent. Thinning of groundcover may be required around sprinklers to provide maximum irrigation coverage.

All clippings and trimmings shall be removed from the work site in a legal manner the same day work is performed and prior to the Contractor vacating the work site.

After edging or trimming, the Contractor shall clean all adjacent sidewalks or gutters.

B. Renovation of Groundcover Areas

Groundcover planting shall be thinned and pruned for the health of the planting and the appearance of the site, or as required by the Parks and Maintenance Director, or his authorized agent.

C. Replanting of Groundcover Areas

Replanting shall be required to maintain the continuity of the groundcover areas that die back after awarding the contract.

Labor and replacement material costs shall be incurred by the Contractor.

D. Groundcover Irrigation

All groundcover areas shall be adequately irrigated to maintain a healthy and attractive appearance.

Irrigation runoff and overspray shall be minimized.

E. Groundcover Fertilization

The groundcover shall be fertilized during growing season, minimum lx per year, to provide a healthy and vigorously growing ground cover with horticultural acceptable growth and appearance, as determined by the Parks and Maintenance Director, or his authorized agent.

Fertilizing shall be performed with a balanced fertilizer, consisting of a 1-1-1 ratio, at a rate of one pound (1 lb.) of actual Nitrogen per 1,000 square feet. Any change in the fertilizer ratio and/or rate shall be submitted in writing and approved by the Parks and Maintenance Director, or his authorized agent, prior to usage.

The Contractor shall immediately irrigate after each fertilizer application.

All fertilizer applications shall be performed with properly calibrated equipment to provide a uniform application.

The Contractor shall notify the Parks and Maintenance Director, or his authorized agent, in writing, five (5) working days prior to any fertilizer application. This written document shall include the location and exact date the fertilizer application will be performed, type of fertilizer and method of application to be used.

40. METHOD OF IRRIGATION

If recycled water is being used, it will be the responsibility of the contractor to implement BMP's ("Best Management Practices") to control soil erosion, over spray, ponding and efficient irrigation practices. The use of recycled water shall be limited to the areas designated and approved. The use of recycled water shall not be permitted during the hours of 6:00 AM through 10:00 PM unless prior approval is received from City Representative. Recycled facility shall be operated in accordance with the best BMP's to prevent direct human consumption and to minimize misting, ponding and runoff. BMP's shall be implemented that will minimize both public

contact and discharge onto areas not under contractors control. Contractor shall ensure that the recycled water systems are maintained, operated and repaired at all times in a manner that does not cause illness or injury to any person and in a manner that does not cause damage or injury to the real or personal property of any person or entity. All recycled water sites shall be in compliance with the City of Ontario Utilities Department. Contractor shall be responsible to maintain and replace all items after annual inspection pertaining to proper recycling water designation, items to include but not limited to (head color designation, tags etc...).

A. GENERAL IRRIGATION USES

- All windblown spray and surface runoff of recycled water applied for irrigation onto property not owned or controlled by the discharger or recycled user shall be prevented by implementation of BMP' s.

- Irrigation with recycled water shall be between the hours of 9:00 PM and 6:00 AM to be able to minimize public use of the service area.

- Facilities that might be used by the public, including but not limited to eating surfaces and located within the approved used areas, shall be protected to the maximum extent possible from contact by irrigation with recycled water spray, mist or runoff.

- It is the responsibility of the contractor to communicate to their workers the potential health hazards associated with contact or ingestion of recycled water and shall be educated about proper hygienic practices to protect themselves and their families.

- Workers and public shall not be subjected to recycled water overspray.

- Contractor shall be responsible for the training and certification on recycled water use of any staff assigned to work in the facility.

Irrigation shall be performed by the use of a Central Irrigation System (Calsense), local automated systems or manual sprinkler systems where available and operable. Contractor shall be required to monitor the computer system daily by retrieving alert/reports from the lobby area of the Public Works Agency (1425 S. Bon View Avenue, Ontario, CA.) once per day no later than 9:00 AM, contractor shall sign in every day when picking up paperwork. Completed alert/reports shall be returned to the City representative within 48 hours. Failure to do so will result in a non-compliance report and will be handled per contract specifications. Returned reports shall be accompanied with a written explanation of the problem and the repair. However,

failure of the existing irrigation system to provide full and proper coverage shall not relieve the Contractor of the responsibility to provide adequate irrigation with full and proper coverage to all areas in the work site. All areas receiving marginal coverage shall be irrigated by portable irrigation method. The contractor shall furnish all tools/equipment necessary.

41. IRRIGATION INSPECTION

The Contractor shall initially inspect and familiarize themselves with the entire irrigation system at all work sites and identify all needed repairs.

Required repairs shall be submitted to the Parks and Maintenance Director, or his authorized agent, in a written statement within two (2) weeks after the start date of the Maintenance Contract. If a written statement, which documents required repairs, is not received by the authorized agent, within the stated timeframe, the entire system shall be interpreted as fully operational, and deemed acceptable by the Contractor and will become his sole responsibility to maintain. The City shall review and verify all submitted problems, repairs may be completed by the following methods:

1. Authorized the Contractor to make appropriate repairs at the expense of the City as described in Section 5.

2. Use City forces to make required repairs.

3. Use another source to make required repairs.

Upon completion of such repairs, the Contractor shall sign-off each individual area as being fully operational.

A. The Contractor shall file a monthly statement with his invoice certifying that all irrigation systems are functioning properly. If the Contractor fails to submit this statement, the invoice will be rejected until such date the statement is received.

B. The Contractor shall inspect the operation of the irrigation system on a weekly basis for any malfunctions. In addition to regular testing, all irrigation systems shall be tested and inspected as necessary when damage is suspected, observed or reported.

C. All system malfunctions, damage and obstructions shall be recorded, reported to the Parks and Maintenance Director, or his authorized agent, and corrective action taken.

42. IRRIGATION MAINTENANCE AND REPAIRS

A. The Contractor shall maintain all irrigation systems, at no additional cost to the City, in such a way as to:

- Guarantee proper coverage and full working capability.

- Make whatever adjustments may be necessary to prevent over spray or excessive runoff into street rights-of-way or other areas not meant to be irrigated.

B. The Contractor shall repair or replace at no additional cost inoperable irrigation equipment to maintain a fully operational system, including but not limited to, pressure pipes from the water meter to the control valves, all irrigation non pressurized pipes, all manual and automatic valves, filters, basket strainers, pressure regulators, sprinkler heads, irrigation clamps and stakes, anti-drain valves, quick couplers, electrical wiring from the controller to the solenoid valves, emitters, drippers, valve boxes, controllers, valve markers, batteries, fittings and risers shall be the same as to removed manufacturer items unless prior approval has been granted by City representative in writing. Contractor shall test all backflows and submit to the City the appropriate test form once completed (contractors' cost). Any device that fails to pass, the contractor shall report to the City for needed repairs and re-inspection.

Maintenance includes, but is not limited, tightening loose fittings and packing nuts; flushing sprinkler heads, pipes, nozzles, valves, filters, strainers, and backflow devices; adjusting sprinkler heads for proper coverage and to avoid irrigating hardscape including softball and baseball infield radius; anti-drain valves and pressure regulators, adjusting and lubricating controllers; and cleaning drip emitters, replace batteries for battery operated valves and maintain solar operated valves, relocation of irrigation mainline or lateral lines due to tree placements and roots. The Contractor shall be responsible to replace recycle (purple) valve box lids and controller boxes, as needed and or as directed by City Representative. Labor shall be provided at no additional cost to the City.

C. Irrigation repairs shall be made within the following time limits:
Mainline irrigation breaks shall be repaired within two (2) hours of identification or notification.
All other irrigation repairs shall be made within one (1) day of identification or notification.

D. Replacement of irrigation components shall match city approved equipment list. Substitutions must be approved by the Parks and Maintenance Director, or his authorized agent, in writing prior to installation.

43. WATER CONSERVATION

The Contractor shall turn off all irrigation systems during periods of rainfall and/or times when suspension of irrigation is desirable to conserve water while remaining within the guidelines of good horticulturally acceptable maintenance practices.

The Contractor shall comply with all City of Ontario Ordinances and/or Resolutions, which relate to water conservation.

Failure to comply shall result in an equitable amount deducted from the Contractor's payment.

44. CONTROLLER PROGRAMMING

A. Adequate soil moisture will be determined by programming the automatic sprinkler controllers as follows:

Whenever possible, automatic irrigation shall be programmed to operate between the hours of 9:00 P.M. to 8:00 A.M. The Contractor shall be responsible for reprogramming controller during inclement weather to conserve water.

Consideration must be given to the soil conditions, seasonal temperatures, wind conditions, humidity, runoff and erosion potential, and the relationship of conditions which affect day and night watering.

Extremely close attention shall be paid to the demands of the plants as influenced by their exposure to sun or shade. Also, the variation in the size of plants, as well as varietal differences must be considered.

The irrigation system will be controlled by the contractor in such a way as not to cause an excessively wet area which could interfere with the Contractor's ability to mow all turf grass.

C. The Contractor, at the request of the Parks and Maintenance Director or his authorized agent, shall submit a copy of the irrigation schedule for each individual controller. This information is to be readily available upon request or available at the controller.

D. All landscape and turf areas shall be irrigated as required maintaining adequate growth and appearance with a schedule most conducive to plant growth.

45. IRRIGATION CONTROLLER

A. The Contractor shall maintain controller as-builts (controller charts) inside each controller cabinet where available.

B. All controller enclosures shall receive a granular chemical application as needed to prevent pest infestation. Any damages resulting from any insect infestation due to failure to apply the chemical shall be repaired/replaced by the contractor (no expense to the City).

C. Controllers and dome antennas shall be inspected and cleaned by the contractor 4 x per year and report damages or maintenance needs.

46. TREE CARE

A. Tree Trimming

The Contractor shall be responsible for all tree under-trimmings, including the removal of palm fronds and flower stalks (if present). All trees are to be under-trimmed to ensure public and vehicle safety or as directed by the Parks and Maintenance Director, or his authorized agent. Contractor shall have a Certified Arborist on staff to meet the following criteria:

Contractor shall prune palm trees at no extra cost to the City (dead fronds and flower stalks) annually, removal of fruit (dates) if present shall be done twice per year as designated by the Parks and Maintenance Director or his authorized agent.

Trees shall be pruned at no extra cost to the City on a cycle of once every three years, contractor to create a myOntario App once the trees have been completed under the Tree section and have the City representative inspect them. The contractor shall not leave the site until the work has been completed, approved and released by the City representative.

The Contractor shall notify the Parks and Maintenance Director, or his/her authorized agent, except when pruning is required for public safety. Once all trees are trimmed, a formal (Company letterhead) record of the work performed with time, date, location, type of tree, removal percentage and staff assigned to do the work. Any tree that is not trimmed by the end of 3-year cycle shall be deducted from the final billing of the maintenance contract.

All trees in the work site shall be maintained in their natural shapes. This work shall be accomplished in a manner which will ensure that each individual tree is under-trimmed carefully to promote the tree's health and appearance.

All work shall be of the highest quality and performed in accordance with City approved tree trimming standards.

All trees shall be pruned within forty-eight (48) hours upon notification to remove or prevent encroachment where it blocks vision, or encroaches in any manner deemed undesirable by the Parks and Maintenance Director or his authorized agent.

All trees shall be continually maintained free of all dead, diseased and damaged branches back to the point of breaking. In cases where the dead, diseased or damaged branches are beyond the reach of a tree pruning pole saw being operated from ground level, the Contractor is to notify the City within 24 hours. Cuts must be made flush with the collar to promote proper healing. Pruning tools shall be adequately sharpened to provide clean cuts and shall be properly sterilized to reduce spread of disease.

All sucker growth is to be removed from trees as it occurs.

The Contractor shall maintain all branches which encroach on or over sidewalks at a minimum height of ten feet (10') clearance. The Contractor shall notify the city within 24 hours of any branches encroaching beyond the curb line into the street that cannot be reached with a pole saw.

All branches which encroach over private property, shall be removed as directed.

The Contractor shall not remove or disturb any tree central leader without prior written approval from the Parks and Maintenance Director, or his authorized agent.

The Contractor shall include the removal of 20 trees per year with a DBH not to exceed 20” as part of his bid package and a unit price to perform an individual complete tree trim, and individual tree removal price. Contactor shall create a final work order using myOntario App once the trees have been trimmed, the City representative will inspect once the App has been closed as completed for release.

B. Tree Staking/Guying

The Contractor shall, at no additional cost to the City, stake and tie all trees, which require support. City does not provide stakes and ties. Tree stakes shall be 3” x 10’ wooden lodge poles. Two (2) tree stakes are required per tree.

Guy wires, where required, will be of pliable zinc-coated ten-gauge wire (three ties per tree), and shall have a white PVC sleeve for visibility. Guy wires shall be kept tight enough to promote natural movement of the tree. Contractor shall periodically check the tension in the guy wires.

Trees shall be secured to stakes with cinch ties or equivalent. The Contractor shall not use wire and hose. Stakes shall not be placed closer than eight inches (8") from the tree trunk.

C. Stakes and ties shall be placed so no chafing of bark occurs and shall be checked frequently, and retied as necessary, to prevent girdling.

D. Tree Replacement

1. The Contractor shall be responsible for the complete removal and replacement of trees lost due to the Contractor's faulty maintenance or negligence, as determined by the Parks and Maintenance Director, or his authorized agent.

Where there is a difference in value between the tree damaged by the Contractor and the replacement tree, this difference may be deducted from the Contractor's payment.

In all cases, the value of the trees lost will be determined by the Parks and Maintenance Director, or his authorized agent, using the latest ISA Guide for Plant Appraisal.

2. Unsalvageable downed trees, due to any cause (windstorm etc...), shall be removed, the stump ground to a depth of eighteen inches (18"), the stump grinding debris removed and the hole refilled with compatible topsoil and compacted within 48 hours of identification or notification. If the tree is in the public right-of-way or creating a public hazard, the tree is to be cut back to a 12" stump immediately upon notification and removed. Then within 48 hours, the stump is to be removed and the hole filled with compatible topsoil and compacted. This work shall be considered and EWA and invoiced to the city.

3. Trees lost from causes other than the Contractor's negligence shall be replaced by the Contractor with a twenty-four (24") box tree and billed as "Additional Work". The Parks and Maintenance Director, or his authorized agent may specify a species of tree for replacement different from the one lost.

E. Tree Irrigation

All trees shall be adequately irrigated to maintain a health and attractive appearance. Irrigation runoff and over spray shall be minimized.

Trees shall be irrigated in a method which promotes deep root growth. The contractor shall provide manual deep watering to those trees that show decline.

47. WEED CONTROL

Weeds are defined in the dictionary as:
“A wild plant growing where it is not wanted and in competition with cultivated plants."
When classified by their gross morphological features, weeds are broken down into three major categories: grasses, sedges, and broadleaf weeds.
Full control of these 3 categories of weeds will be achieved with a combination of selective and non-selective herbicides as well as mechanical removal. **Weeds should not be visible.**
All areas within the specified maintenance area, including but not limited to, turf grass, shrub and ground cover areas, planters, tree wells, landscape areas, and softball/baseball infields shall be kept free of weeds at all times.

Weed removal shall consist of complete removal of all weeds, including top growth and roots. Weed control shall be performed as needed.
Weeds shall be controlled either by hand, mechanical or chemical methods; however, the Parks and Maintenance Director, or his authorized agent, may restrict the use of chemical weed control in certain areas.

48. DISEASE AND PEST CONTROL

The Contractor shall regularly inspect all landscaped areas for the presence of disease, snail, insect or rodent infestation. The Contractor shall report any applied treatments within their next monthly billing. The Contractor shall identify the disease, snail, insect or rodent and specify control measures to be taken. The Contractor shall implement control measures, exercising extreme caution in the application of all spray materials, dust or other materials utilized.

Approved control measures shall be continued until the disease, snail, insect or rodent is controlled to the satisfaction of the Parks and Maintenance Director, or his authorized agent. The Contractor shall utilize all safeguards necessary during disease, snail, insect or rodent control operations to ensure safety of the public and the employees of the Contractor.

The Contractor shall perform, at their sole expense, the following services:

All work involving the use of chemicals will be accomplished by a State of California licensed pest control operator. A written recommendation by a person possessing a valid California Pest

Control Advisor License for each chemical used is required prior to chemical application where required by law.

All chemicals requiring a special permit for their use must be registered by the Contractor with the County Agricultural Commissioner's Office and a permit obtained with a copy to the Parks and Maintenance Director, or his authorized agent, prior to use.

A copy of all forms submitted to the County Agricultural Commissioner shall be given to the Parks and Maintenance Director, or authorized agent, on a monthly basis.

49. USE OF CHEMICALS

The Contractor shall submit a list of all chemical herbicides, pesticides, and rodenticides proposed for use under this contract for approval by the Parks and Maintenance Director or his authorized agent with the signed contract. Materials included on this list shall be limited to chemicals approved by the State of California Department of Food and Agriculture, and shall include the exact brand name and generic formulation. The use of any chemical on the list shall be based on the recommendations of a California State Licensed Pest Control Advisor where required by law.

The use of chemicals shall conform to the current San Bernardino County Agriculture Commissioner regulations. No chemical herbicide, rodenticide or pesticide shall be applied until its use is approved, in writing, by the Parks and Maintenance Director, or his authorized agent as appropriate for the purpose and area proposed.

Required spray equipment will consist of at least one (1) medium spray rig of 100-gallon (minimum) capacity or more and backpack sprayers provided for each crew performing chemical landscape maintenance.

50. TURF BROADLEAF

Control of broadleaf weeds shall include proper notification with chemicals to be used, date, and time to the Parks and Maintenance Director, or his authorized agent. prior to starting date for approval. Frequencies will be twice per year.

51. LITTER

All areas in the work sites shall be kept free of, but not limited to, the following items: bottles, glass, broken glass, cans, paper, cardboard, metallic items, feces, leaves, tumbleweeds and other debris on a daily basis.

The Contractor shall promptly remove from the work area, all debris generated by their performance and dispose of the debris in a legal manner. The City does not allow any dumping of debris generated by your daily work in City facilities. Illegal dumping picked up by contractors shall be brought up to the City yard for proper disposal. Excessive dumping (above and beyond reasonable) after long holiday weekends and special events shall be reported immediately to the City Representative.

Hazardous waste as well as homeless belongings shall not be picked up. Contractor shall contact City Representative to arrange proper disposal by City forces. A myOntario App service request shall be created to report the hazardous conditions.

52. GRAFFITI

A. The Contractor shall remove any graffiti upon discovery within their contractual areas. Extreme caution shall be placed on areas that get tagged to make sure that they get cleaned up with materials that do not damage the finish product (PVC Vinyl fence) and are biodegradable. Issues of graffiti outside their contractual obligations shall be reported to the Graffiti Hot Line 909-395-2626 or create a service request within the myOntario App

B. Issues of above normal graffiti vandalism within the contractor's contractual area shall be reported to the City representative upon finding. Phone call, text, or creation of a myOntario App service request are acceptable methods of communication to the City Representative. The City reserves the right to request an outside contractor to help with the cleaning or will have the right to request that the contractor performs the work as an additional cost to the City.

C. If graffiti cannot be removed and needs to be painted over, cover up paint shall match existing paint. Graffiti on sidewalks shall be removed with a hot steam pressure washer. Painting of sidewalks over graffiti shall not be allowed.

53. GENERAL

A. Trash Removal

Remove all trash and accumulated debris from the work sites daily. In addition, any type of feces is also to be removed from the walkways, turf or ground cover areas and dumpster areas.

B. Policing of Areas

All maintained areas shall be policed based on frequencies.

C. Curb and Gutter Maintenance

The Contractor is responsible for removal of all weeds and grass growing in and around the curb and gutter area monthly. The Contractor is responsible for insuring the roadway is cleared of all dirt and debris within four (4) feet of the curb and gutter in all areas adjacent to maintenance responsibilities.

D. Walkway Maintenance

Walkways shall be cleaned immediately following mowing and edging and cleaned by use of power sweeping or blower equipment. All walkway cracks and expansion joints shall be maintained weed and grass free at all times.

E. Drain Maintenance

All drains and catch basins shall be kept free of siltation and debris at all times. All V-ditches and drainage areas shall be kept clean and edged weekly by the Contractor. Cleaning of drain basins shall be done monthly, Contractor shall inspect weekly to make sure that grates are secured, if missing, Contractor shall replace at City's expense. Damaged grates due to Contractor's operations shall be replaced at Contractors expense.

F. Removal of Leaves

Accumulation of leaves shall be removed from all designated landscape areas on a monthly basis and under trees once per month or more as needed.

G. Hardscape Power Wash

All concrete areas shall be cleaned using a power washer (hot steam cleaning washer) to remove soda spills, gum and other stains that might be present. The City Representative will make the final determination if the service is needed.

The use of a biodegradable cleaner (soap) is required and permitted. Containment of contaminated soapy water shall be the responsibility of the Contractor.

54. REPAIR AND SERVICE OF WALKWAYS AND MISCELLANEOUS IMPROVEMENTS

Walkways and Service Roads - All walkways and service roads, if any, shall be maintained by the Contractor so as to keep the integrity of the walking or driving surface in a safe, unimpaired condition.

The Contractor will not be responsible for total replacement of roadways or walkways as a result of normal deterioration but will be required to replace all improvements damaged by his negligence.

It will be the responsibility of the Contractor to repair or replace miscellaneous improvements such as signs and mowing strips, or any other structural improvements within the work sites, unless otherwise specified. The Contractor shall be entitled to additional compensation for these services as stated. The contractor shall communicate any improvements needed prior to repairs to the Parks and Maintenance Director or his authorized agent for proper approvals.

55. MULCH

Mulch beds shall be replenished 2 time per year at the Contractor’s cost . The City may provide the mulch if an additional mulching is needed. If City provided, the Contractor will be responsible for loading the mulch at the City yard at 1425 S Bon View.

56. DECOMPOSED GRANITE/GRASS PAVER AREA

Contractor shall be responsible to drag with cocoa mat or similar and rake all decomposed granite areas monthly and to replenish displaced or missing material at his own cost as needed. Moistening the material and use of a mechanical compactor is required when backfilling DG areas. Decomposed granite areas are to keep a grading that is acceptable and safe to walk on. In the event of inclement weather, the City will compensate the contractor for the replacement of material for damage created by the storm.

57. RODENT CONTROL

All areas shall be maintained free of rodents causing damage to turf, shrubs, and groundcover areas (gophers, squirrels etc.) by using Gophernator or trapping. Any activity that affects holes, mounds, etc. will be raked and backfilled after control.

58. DRINKING FOUNTAINS

Contractor shall be responsible for scrubbing and cleaning all drinking fountains within the facility at least once per week. Contractor shall be responsible to notify the City by text or phone if the drinking fountain is not working properly or if it is clogged. This will also be reported immediately once identified.

59. CITY OF ONTARIO myOntario App (FREE)

Contractor shall download the free myOntario App for the purpose of tracking completed specialty tasks (mulching, vandalism, vehicular damage, rose trimming, fertilizations, chemical applications, illegal dumping, hazardous waste, pruning shrubs, downed branches and rodent control, restroom issues). All specialty tasks shall be recorded as a service request using the app order system and shall be reported to the city representative when completed. City staff will close the service request.

60. MONUMENT SIGNS

Contractor shall be responsible to keep the monument signs free of litter, debris, silt and cobwebs. The Contractor shall be responsible to paint (if needed) areas that have a painted surface a minimum of once per year. The Contractor shall keep shrubs and vegetation edged and trimmed to a height that displays the complete wording on the monument.

NOTICES

Any notice, demand, request, consent, approval, or communication that either Party desires, or is required to give to the other Party or any other person, shall be in writing and either served personally, sent by prepaid, first-class mail, or by email followed by mailing of said notice.

PERFORMANCE/PAYMENT BONDS ON THE NEXT PAGE

PERFORMANCE BOND

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Ontario (hereinafter referred to as "City") has awarded to _____, (hereinafter referred to as the "Contractor") _____ an agreement for _____ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

(1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

(2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

(3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.

PAYMENT BOND

KNOW ALL MEN BY THESE PRESENTS That

WHEREAS, the City of Ontario (hereinafter designated as the "City"), has awarded to _____ hereinafter designated as the "Principal," a contract for the work described as follows:

_____ (the "Project"); and

WHEREAS, the work to be performed by the Principal is more particularly set forth in the Contract Documents for the Project dated _____ ("Contract Documents"), the terms and conditions of which are expressly incorporated by reference; and

WHEREAS, said Principal is required to furnish a bond in connection with said contract; providing that if said Principal or any of its Subcontractors shall fail to pay for any materials, provisions, provender, equipment, or other supplies used in, upon, for or about the performance of the work contracted to be done, or for any work or labor done thereon of any kind, or for amounts due under the Unemployment Insurance Code or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department from the wages of employees of said Principal and its Subcontractors with respect to such work or labor the Surety on this bond will pay for the same to the extent hereinafter set forth.

NOW THEREFORE, we, the Principal and _____ as Surety, are held and firmly bound unto the City in the penal sum of _____ _____ Dollars ($_____) lawful money of the United States of America, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH that if said Principal, his or its subcontractors, heirs, executors, administrators, successors or assigns, shall fail to pay any of the persons named in Section 9100 of the Civil Code, fail to pay for any materials, provisions or other supplies, used in, upon, for or about the performance of the work contracted to be done, or for any work or labor thereon of any kind, or amounts due under the Unemployment Insurance Code with respect to work or labor performed under the contract, or for any amounts required to be deducted, withheld, and paid over to the Employment Development Department or Franchise Tax Board from the wages of employees of the contractor and his subcontractors pursuant to Section 18663 of the Revenue and Taxation Code, with respect to such work and labor the Surety or Sureties will pay for the same, in an amount not exceeding the sum herein above specified.

This bond shall inure to the benefit of any of the persons named in Section 9100 of the Civil Code so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

It is further stipulated and agreed that the Surety on this bond shall not be exonerated or released from the obligation of this bond by any change, extension of time for performance, addition, alteration or modification in, to, or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement herein above described, or pertaining or relating to the furnishing of labor, materials, or equipment therefore, nor by any change or modification of any terms of payment or extension of the time for any payment pertaining or relating to any scheme or work of improvement herein above described, nor by any rescission or

attempted rescission of the contract, agreement or bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of claimants otherwise entitled to recover under any such contract or agreement or under the bond, nor by any fraud practiced by any person other than the claimant seeking to recover on the bond and that this bond be construed most strongly against the Surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall Surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner or City and original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 9100 of the Civil Code, and has not been paid the full amount of his claim and that Surety does hereby waive notice of any such change, extension of time, addition, alteration or modification herein mentioned and the provisions of sections 2819 and 2845 of the California Civil Code.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Police Department Prepared By: Melissa Sowizdrzal-Morgan Department: Police Department Prepared By: Lizceth Zazueta Staff Member Presenting: Mike Lorenz, Chief of Police Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 18

SUBJECT: A PROFESSIONAL SERVICES AGREEMENT FOR LEGAL CONSULTING SERVICES WITH RICHARD D. JONES DBA JONES MAYER

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute a Professional Services Agreement with Richard D. Jones, a Professional Law Corporation, dba Jones Mayer, of Fullerton, CA, for legal consulting services for a total not-to-exceed contract amount of $375,000.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety
Operate in a Businesslike Manner

FISCAL IMPACT: The Fiscal Year 2024-25 Proposed Budget includes appropriations of $75,000 in the General Fund. The contract has a not-to-exceed amount of $375,000 over five years including two optional one-year extensions. If approved, appropriations will be included in future Annual Budgets to the City Council for approval as needed for legal consulting services.

BACKGROUND & ANALYSIS: Richard D. Jones, a Professional Law Corporation, dba Jones Mayer (Jones Mayer), provides services to public entities and serves as the City Attorney to various cities throughout Southern California. Periodically, the Police Department finds it necessary to retain counsel for litigation and various other legal review to best protect the City's interest. In 2019, the City established a contract with Jones Mayer to provide consulting and legal services pertaining to representation in litigation proceedings.

Continuing legal consulting services with Jones Mayer mitigates the delay in maintaining the same level of services with current open claims and litigations that are at critical points. Jones Mayer has proven expertise and specialized knowledge in legal consulting services as it pertains to the City's needs. Retaining these services with Jones Mayer provides the best value to the City both in time and cost.

PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ONTARIO AND RICHARD D. JONES DBA JONES AND MAYER ATTORNEYS AT LAW

1. PARTIES AND DATE.

This Agreement is made and entered as of _____, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Richard D. Jones a Professional Law Corporation dba Jones Mayer**, a Corporation, with its principal place of business at 3777 N Harbor Blvd, Fullerton, CA, 92835 ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **Legal Consulting Services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **Legal Consulting Services** necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **July 1st, 2024** to **June 30th, 2027**, unless earlier terminated as provided herein. The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than two (2) additional one (1)-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written

consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "B" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Three Hundred Seventy-Five Thousand Dollars** (**$375,000.00**) without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt

and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows:

3.3.5 City's Representative. The City hereby designates **the City Manager, or his/her designee**, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates **James R. Touchstone, Executive Partner**, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services

necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations

of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq*.); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $1,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement.

Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

(D) Professional Liability (Errors & Omissions): 1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. “Covered Professional Services” as designated in the policy must specifically include work performed under this Agreement. The policy must “pay on behalf of” the insured and include a provision establishing the insurer’s duty to defend.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its

officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903 (2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: Jones Mayer
3777 N Harbor Blvd,
Fullerton, CA, 92835
ATTN: James R. Touchstone

City: City of Ontario
303 East "B" Street
Ontario, CA 91764
ATTN: Records Management

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the

Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction,

in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except

as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Utilities Prepared By: Dennis Mejia Staff Member Presenting: Scott Burton, Utilities General Manager Reviewed By: Dennice Raygoza, Albert G Gastelum, Michael Sigsbee Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 19

SUBJECT: DESIGN SERVICES AGREEMENTS FOR ON-CALL WATER AND SEWER ENGINEERING SERVICES

RECOMMENDATION: That the City Council approve three-year Design Services Agreements with six firms to provide On-Call Water and Sewer Engineering Services in the amount of $200,000 per year for a three-year total not-to-exceed amount of $600,000 for each firm, and authorize the City Manager, or his designee, to execute said Agreements and future amendments within the authorized limits.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Invest in the Growth and Evolution of the City's Economy
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The proposed firms have agreed to fixed billing rates set forth in their respective Agreements on an on-call, as-needed basis for the first year and will have an option to negotiate for hourly rate increases not to exceed 3% per year for the additional years. At the City's discretion, up to two additional one-year extensions may be executed. If approved, appropriations will be included in future annual budgets in the Water and Sewer Capital Funds to the City Council for approval as needed for on-call design services. There is no impact to the General Fund.

BACKGROUND & ANALYSIS: The City's Water and Sewer Master Plans recommend numerous capital improvement projects to maintain water and sewer service reliability to the community. The City's sewer system includes approximately 450 miles of pipeline, about 40% of which is more than 50 years old. Similarly, the City's water system includes approximately 630 miles of pipeline, about 20% of which is more than 50 years old. Replacement and maintenance of aging and undersized facilities is part of the City's ongoing capital improvement program to maintain the reliability of water and sewer services to the residents and businesses of Ontario.

Over the next three years, Ontario Municipal Utilities Company will be engaging these firms in planning and design efforts related to approximately 60 projects totaling about $230 Million. The types of projects range from, recycled and water main improvements, treatment, facility improvements, construction of new wells, sewer main improvements, lift station improvements, sewer main lining improvements, and alternative water supply assessments.

Due to the volume of projects, Staff is recommending Agreements to be awarded to a total of six qualified firms to ensure timely and cost-effective options for each project. Additionally, Staff is recommending that all Agreements be executed between the firms and the City so that any City Agency can use these firms (other Agencies are required to amend the Agreements for their specific projects and provide funding sources). This procedure reduces overhead costs and increases efficiency in completing critical projects, ultimately resulting in more satisfactory work product delivery.

Firms will be utilized for small and large-scale projects. As projects arise, Staff will request cost proposals from the firms and evaluate. It is anticipated that cost will exceed $200,000 per year based on the amount of Capital projects within the next three years. Once costs exceed the $200,000 limit per year, Staff will bring proposed Amendments to City Council with specific project cost increases.

On December 22, 2023, the City solicited requests for qualifications (RFQ) for On-Call Water and Sewer Engineering Services. Fourteen bids were received through the City's electronic bid management system in response to Bid No. 1740. Responses from the following companies were evaluated:

Company	**Location**
Adams Streeter Civil Engineers Inc.	Irvine, CA
AKM Consulting Engineers Inc.	Irvine, CA
Albert A Webb Associates	Riverside, CA
Ardurra Group Inc.	Tampa, FL
GHD Inc.	Irvine, CA
Hazen and Sawyer	Irvine, CA
IDS Group Inc.	Corona, CA
IMEG Corporation	Ontario, CA
J Smith & T Muli Inc.	San Juan Capistrano, CA
Jenkins/Gales & Martinez Inc.	Los Angeles, CA
Kleinfelder Inc.	San Diego, CA
Robert Borders & Associates	Costa Mesa, CA
Stantec Consulting Services Inc.	Edmonton in Alberta, Canada
TKE Engineering Inc.	Riverside, CA

Using a qualifications-based selection process, a panel of City Staff reviewed the statements of qualifications for all companies that submitted a response to the RFQ. Hazen and Sawyer, GHD Inc., Stantec Consulting Services Inc., Albert A Webb Associates, Ardurra Group Inc., and TKE Engineering

Inc., were determined to be the most qualified firms. The recommendation to award Design Services Agreements to these firms is based on their broad range of expertise as demonstrated by their services provided to municipal agencies and capability to perform the work in a timely manner.

DESIGN SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered into as of _____ __, **2024** by and between the City of Ontario, a municipal corporation organized and operating under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City"), and **Hazen and Sawyer,** a **CORPORATION** with its principal place of business at **7700 Irvine Center Drive, Suite 200, Irvine CA 92618** (hereinafter referred to as "Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 City. City is a municipal corporation organized under the laws of the State of California, with power to contract for services necessary to achieve its purpose.

2.2 Consultant. Consultant desires to perform and assume responsibility for the provision of certain professional **engineering** design services required by the City on the terms and conditions set forth in this Agreement. Consultant warrants that it is fully licensed, qualified, and willing to perform the services required by this Agreement; provided, however, that if Consultant is a corporation or other organization, the Project Consultant designated pursuant to Section 3.2, and not the Consultant itself, shall be fully licensed to practice as an **engineer** in the State of California.

2.3 Project. City desires to engage Consultant to render such services for the **On-Call Design Services** ("Project") as set forth in this Agreement.

3. TERMS

3.1 Employment of Consultant.

3.1.1 Scope of Services. Consultant promises and agrees to furnish to City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **engineering** and related services necessary for the full and adequate completion of the Project consistent with the provisions of this Agreement

(hereinafter referred to as "Services"). The Services are more particularly described throughout this Agreement, including Exhibit "A" attached hereto and incorporated herein by reference. All Services shall be subject to, and performed in accordance with, this Agreement, any exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations. All Services performed by Consultant shall be subject to the sole and discretionary approval of the City, which approval shall not be unreasonably withheld.

3.1.2 Term. The term of this Agreement shall be from **June 4, 2024** to **June 4, 2027**, unless earlier terminated as provided herein. The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **two** additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines.

3.2 Project Consultant; Key Personnel.

3.2.1 **Engineer of Record.** Consultant shall name a specific individual to act as Project Consultant, subject to the approval of City. Consultant hereby designates **Cindy Miller, PE** (License No. C 58116) to act as the **Engineer of Record** for the Project. The **Engineer of Record** shall: (1) maintain oversight of the Services; (2) have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement; (3) supervise and direct the Services using his or her best skill and attention; (4) be responsible for the means, methods, techniques, sequences and procedures used for the Services; (5) adequately coordinate all portions of the Services; and (6) act as principal contact with City and all contractors, consultants, engineers and inspectors on the Project. Any change in the **Engineer of Record** shall be subject to the City's prior written approval, which approval shall not be unreasonably withheld. The new **Engineer of Record** shall be of at least equal competence as the prior **Engineer of Record**. In the event that City and Consultant cannot agree as to the substitution of a new **Engineer of Record**, City shall be entitled to terminate this Agreement for cause.

3.2.2 Key Personnel. In addition to the **Engineer of Record**, Consultant has represented to the City that certain additional key personnel, engineers and consultants will perform the Services under this Agreement. Should one or more of such personnel, engineers or consultants become unavailable, Consultant may substitute others of at least equal competence upon written approval of the City. In the event that City and Consultant cannot agree as to the substitution of key personnel, engineers or consultants, City shall be entitled to terminate this Agreement for cause. The key additional personnel, engineers and consultants for performance of this Agreement are as follows: **Cindy Miller, PE, Hampik Dekermenjian, PE, BCEE, and Jack Adam, PE.**

3.3 Hiring of Consultants and Personnel.

3.3.1 Right to Hire or Employ. Consultant shall have the option, unless City objects in writing after notice, to employ at its expense architects, engineers, experts or other consultants qualified and licensed to render services in connection with the planning and/or administration of the Project, and to delegate to them such duties as Consultant may delegate without relieving Consultant from administrative or other responsibility under this Agreement. Consultant shall be responsible for the coordination and cooperation of Consultant's architects, engineers, experts or other consultants. All consultants, including changes in consultants, shall be subject to approval by City in its sole and reasonable discretion. Consultant shall notify City of the identity of all consultants at least fourteen (14) days prior to their commencement of work

to allow City to review their qualifications and approve to their participation on the Project in its sole and reasonable discretion.

3.3.2 Qualification and License. All architects, engineers, experts and other consultants retained by Consultant in performance of this Agreement shall be qualified to perform the Services assigned to them, and shall be licensed to practice in their respective professions, where required by law.

3.3.3 Standards and Insurance. All architects, engineers, experts and other consultants hired by Consultant shall be required to meet all of the same standards and insurance requirements set forth in this Agreement, unless other standards or requirements are approved by the City in writing. Unless changes are approved in writing by the City, Consultant's agreements with its consultants shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.3.4 Assignments or Staff Changes. Consultant shall promptly obtain written City approval of any assignment, reassignment or replacement of such architects, engineers, experts and consultants, or of other staff changes of key personnel working on the Project. As provided in the Agreement, any changes in Consultant's consultants and key personnel shall be subject to approval by City.

3.3.5 Draftsman and Clerical Support. Draftsmen and clerical personnel shall be retained by Consultant at Consultant's sole expense.

3.4 Standard of Care.

3.4.1 Standard of Care. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals qualified to perform the Services in the same discipline in the State of California, and shall be responsible to City for damages sustained by the City and delays to the Project as specified in the indemnification provision of this Agreement. Without limiting the foregoing, Consultant shall be fully responsible to the City for any increased costs incurred by the City as a result of any such delays in the design or construction of the Project. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants and represents that all of its employees, architects, engineers, experts and other consultants shall have sufficient skill and experience to perform the Services assigned to them. Finally, Consultant represents that it, its employees, architects, engineers, experts and other consultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services assigned to or rendered by them and that such licenses and approvals shall be maintained throughout the term of this Agreement. As provided for in the indemnification provisions of this Agreement, Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein.

3.4.2 Performance of Employees. Any employee or consultant who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee or consultant who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.5 Laws and Regulations.

3.5.1 Knowledge and Compliance. Consultant shall keep itself fully informed of and in compliance with all applicable local, state and federal laws, rules and regulations in any manner affecting the performance of the Services or the Project, and shall give all notices required of the Consultant by law. Consultant shall be liable, pursuant to the standard of care and indemnification provisions of this Agreement, for all violations of such laws and regulations in connection with its Services. Consultant shall defend, indemnify and hold City, its officials, officers, employees and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from any claim or liability arising out of any failure or alleged failure to comply with such laws, rules or regulations.

3.5.2 Drawings and Specifications. Consultant shall cause all drawings and specifications to conform to any applicable requirements of federal, state and local laws, rules and regulations, including the Uniform Building Code, in effect as of the time the drawings and specifications are prepared or revised during the latest phase of the Services described in Exhibit "A" attached hereto. Any significant revisions made necessary by changes in such laws, rules and regulations after this time may be compensated as Additional Services which were not known or reasonably should not have been known by Consultant. Consultant shall cause the necessary copies of such drawings and specifications to be filed with any governmental bodies with approval jurisdiction over the Project, in accordance with the Services described in Exhibit "A" attached hereto. For the preparation of all such drawings and specifications, the Consultant shall use Computer Aided Design Drafting ("CADD") (e.g., AutoCAD) or other technology acceptable to the Consultant and City.

3.5.3 Americans with Disabilities Act. Consultant will use its best professional efforts to interpret all applicable federal, state and local laws, rules and regulations with respect to access, including those of the Americans with Disabilities Act ("ADA"). Consultant shall inform City of the existence of inconsistencies of which it is aware or reasonably should be aware between federal and state accessibility laws, rules and regulations, as well as any other issues which are subject to conflicting interpretations of the law, and shall provide the City with its interpretation of such inconsistencies and conflicting interpretations. Unless Consultant brings such inconsistencies and conflicting interpretations to the attention of the City and requests City's direction on how to proceed, the Consultant's interpretation of such inconsistencies and conflicting interpretations shall be the sole responsibility and liability of Consultant, and the Consultant shall correct all plans, specifications and other documents prepared for the Project at no additional cost if its interpretations are shown to be incorrect. In the event that the Consultant request's City's direction on how to proceed with respect to any inconsistent and/or conflicting interpretation, the Consultant shall be responsible to the City only pursuant to the indemnification provisions of this Agreement.

3.5.4 Permits, Approvals and Authorizations. Consultant shall provide City with a list of all permits, approvals or other authorizations required for the Project from all federal, state or local governmental bodies with approval jurisdiction over the Project. Consultant shall then assist the City in obtaining all such permits, approvals and other authorizations. The costs of such permits, approvals and other authorizations shall be paid by the City.

3.5.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances

regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251 *et seq.*); the California Porter-Cologne Water Quality Control Act (Cal Water Code §§ 13000-14950); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant shall additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. Failure to comply with laws, regulations, and ordinances listed in this Section is a violation of federal and state law.

3.6 Independent Contractor.

3.6.1 Control and Payment of Subordinates. City retains Consultant on an independent contractor basis and Consultant is not an employee of City. Consultant is not an employee for state tax, federal tax or any other purpose, and is not entitled to the rights or benefits afforded to City's employees. Any additional personnel performing the Services under this Agreement on behalf of Consultant shall also not be employees of City, and shall at all times be under Consultant's exclusive direction and control. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.7 Schedule of Services.

3.7.1 Consultant Services. Consultant shall fully and adequately complete the Services described in this Agreement and in Exhibit "A" attached hereto and incorporated herein by reference.

3.7.2 Timely Performance Standard. Consultant shall perform all Services hereunder as expeditiously as is consistent with professional skill and care, as well as the orderly progress of the Project work so as not to be the cause, in whole or in part, of delays in the completion of the Project or in the achievement of any Project milestones, as provided herein. Specifically, Consultant shall perform its Services so as to allow for the full and adequate completion of the Project within the time required by the City and within any completion schedules adopted for the Project. Consultant agrees to coordinate with City's staff, contractors and consultants in the performance of the Services, and shall be available to City's staff, contractors and consultants at all reasonable times.

3.7.3 Performance Schedule. Consultant shall prepare an estimated time schedule for the performance of Consultant's Services, to be adjusted as the Project proceeds. Such schedule shall be subject to the City's review and approval, which approval shall not be unreasonably withheld, and shall include allowances for periods of time required for City's review and approval of submissions, and for approvals of authorities having jurisdiction over Project approval and funding. If City and Consultant cannot mutually agree on a performance schedule, City shall have the authority to immediately terminate this Agreement. The schedule shall not be exceeded by Consultant without the prior written approval of City. If the Consultant's Services are not completed within the time provided by the agreed upon performance schedule, or any milestones established therein, it is understood, acknowledged and agreed that the City will suffer damage for which the Consultant will be responsible.

3.7.4 Excusable Delays. Any delays in Consultant's work caused by the following may be added to the time for completion of any obligations of Consultant: (1) the actions of City or its employees; (2) the actions of those in direct contractual relationship with City; (3) the actions of any governmental agency having jurisdiction over the Project; (4) the actions of any parties not within the reasonable control of the Consultant; and (5) any Force Majeure Event (as defined herein) or other unforeseen occurrence not due to any fault or negligence on the part of Consultant. Neither the City nor the Consultant shall be liable for damages, liquidated or otherwise, to the other on account of such delays.

3.7.5 Force Majeure Events. Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the Services and Agreement. Should a Force Majeure Event occur, the non-performing Party shall, within fifteen (15) calendar days of the beginning of an Force Majeure Event, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events shall not entitle Consultant to any additional compensation. Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.7.6 Request for Excusable Delay Credit. The Consultant shall, within fifteen (15) calendar days of the beginning of any excusable delay, notify the City in writing of the causes of delay (unless City grants in writing a further period of time to file such notice prior to the date of final payment under the Agreement). City will then ascertain the facts and the extent of the delay, and grant an extension of time for completing the Services when, in its sole judgment, the findings of fact justify such an extension. The City's findings of fact thereon shall be final and conclusive on the Parties. Extensions of time shall apply only to that portion of the Services affected by the delay and shall not apply to other portions of the Services not so affected. The sole remedy of Consultant for extensions of time shall be an extension of the performance time at no cost to the City. If Additional Services are required as a result of an excusable delay, the Parties shall mutually agree thereto pursuant to the Additional Services provision of this Agreement. Should Consultant make an application for an extension of time, Consultant shall submit evidence that the insurance policies required by this Agreement remain in effect during the requested additional period of time.

3.8 Additional Services.

3.8.1 Request for Services. At City's request, Consultant may be asked to perform services not otherwise included in this Agreement, not included within the basic services

listed in Exhibit "A" attached hereto, and/or not customarily furnished in accordance with generally accepted architectural practice.

3.8.2 Definition. As used herein, "Additional Services" mean: (1) any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary for the Consultant to perform at the execution of this Agreement; or (2) any work listed as Additional Services in Exhibit "A" attached hereto. Consultant shall not perform, nor be compensated for, Additional Services without prior written authorization from City and without an agreement between the City and Consultant as to the compensation to be paid for such services. City shall pay Consultant for any approved Additional Services, pursuant to the compensation provisions herein, so long as such services are not made necessary through the fault of Consultant pursuant to the indemnification provision of this Agreement.

3.8.3 Examples of Additional Services. Such Additional Services shall not include any redesign or revisions to drawings, specifications or other documents when such revisions are necessary in order to bring such documents into compliance with applicable laws, rules, regulations or codes of which Consultant was aware or should have been aware pursuant to the laws and regulations provision of this Agreement above. Such Additional Services may include, but shall not be limited to:

(a) Separately Bid Portions of Project. Plan preparation and/or administration of work on portions of the Project separately bid.

(b) Furniture and Interior Design. Assistance to City, if requested, for the selection of moveable furniture, equipment or articles which are not included in the Construction Documents.

(c) Fault of Contractor. Services caused by delinquency, default or insolvency of contractor, or by major defects in the work of the contractor, provided that any such services made necessary by the failure of Consultant to detect and report such matters when it reasonably should have done so shall not be compensated.

(d) Inconsistent Approvals or Instructions. Revisions in drawings, specifications or other documents when such revisions are inconsistent with written approvals or instructions previously given and are due to causes beyond the control of Consultant.

(e) Legal Proceedings. Serving as an expert witness on City's behalf or attending legal proceedings to which the Consultant is not a party.

(f) Damage Repair. Supervision of repair of damages to any structure.

(g) Extra Environmental Services. Additional work required for environmental conditions (e.g. asbestos or site conditions) not already contemplated within the Consultant's services for the Project.

3.9 City Responsibilities. City's responsibilities shall include the following:

3.9.1 Data and Information. City shall make available to Consultant all necessary data and information concerning the purpose and requirements of the Project, including scheduling and budget limitations, objectives, constraints and criteria. As part of the budget

limitation information, the City shall provide the Consultant with a preliminary construction budget ("City's Preliminary Construction Budget").

3.9.2 Project Survey. If required pursuant to the scope of the Project and if requested by Consultant, City shall furnish Consultant with, or direct Consultant to procure at City's expense, a survey of the Project site prepared by a registered surveyor or civil engineer, any other record documents which shall indicate existing structures, land features, improvements, sewer, water, gas, electrical and utility lines, topographical information and boundary dimensions of the site, and any other such pertinent information.

3.9.3 Bid Phase. Distribute Construction Documents to bidders and conduct the opening and review of bids for the Project.

3.9.4 Testing. Retain consultant(s) to conduct chemical, mechanical, soils, geological or other tests required for proper design of the Project, and furnish such surveys, borings, test pits, and other tests as may be necessary to reveal conditions of the site which must be known to determine soil condition or to ensure the proper development of the required drawings and specifications.

3.9.5 Required Inspections and Tests. Retain consultant(s) to conduct materials testing and inspection or environmental/hazardous materials testing and inspection pursuant to any applicable laws, rules or regulations.

3.9.6 Fees of Reviewing or Licensing Agencies. Directly pay or reimburse the payment of all fees required by any reviewing or licensing agency, or other agency having approval jurisdiction over the Project.

3.9.7 City's Representative. The City hereby designates the City Manager, or his or her designee, to act as its representative for the performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for all purposes under this Contract. The City Manager hereby designates **Dennis Mejia, PE, Utilities Engineering Division Manager**, or his or her designee, as the City's contact for the implementation of the Services hereunder. Contractor shall not accept direction or orders from any person other than the City's Representative or his or her designee.

3.9.8 Review and Approved Documents. Review all documents submitted by Consultant, including change orders and other matters requiring approval by the City Council or other officials. City shall advise Consultant of decisions pertaining to such documents within a reasonable time after submission, so as not to cause unreasonable delay as provided in the excusable delay provisions of this Agreement above.

3.10 Compensation.

3.10.1 Consultant's Compensation for Basic Services. City shall pay to Consultant, for the performance of all Services rendered under this Agreement, the total not to exceed amount of **Six Hundred Thousand Dollars ($600,000)** ("Total Compensation"). This Total Compensation amount shall be based upon, and may be adjusted according to, the fee schedule and related terms and conditions attached hereto as Exhibit "B" and incorporated herein by reference. The Total Compensation, as may be adjusted upon mutual agreement, shall constitute complete and adequate payment for Services under this Agreement.

3.10.2 Payment for Additional Services. At any time during the term of this Agreement, City may request that Consultant perform Additional Services. As used herein, Additional Services means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Any additional work in excess of this amount must be approved by the City. If authorized, such Additional Services will be compensated at the rates and in the manner set forth in Exhibit "C" attached hereto and incorporated herein by reference, unless a flat rate or some other form of compensation is mutually agreed upon by the Parties. If City requires Consultant to hire consultants to perform any Additional Services, Consultant shall be compensated therefore at the rates and in the manner set forth in Exhibit "C" attached hereto and incorporated herein by reference, unless a flat rate or some other form of compensation is mutually agreed upon by the Parties. City shall have the authority to review and approve the rates of any such consultants. In addition, Consultant shall be reimbursed for any expenses incurred by such consultants pursuant to the terms and conditions of Section 3.10.3.

3.10.3 Reimbursable Expenses. Reimbursable expenses are in addition to compensation for the Services and Additional Services. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, which approval may be evidenced by inclusion in Exhibit "C" attached hereto. Such reimbursable expenses shall include only those expenses which are reasonably and necessarily incurred by Consultant in the interest of the Project. Consultant shall be required to acquire prior written consent in order to obtain reimbursement for the following: (1) extraordinary transportation expenses incurred in connection with the Project; (2) out-of-town travel expenses incurred in connection with the Project; (3) fees paid for securing approval of authorities having jurisdiction over the Project; (4) bid document duplication costs in excess of $1,000; and (5) other costs, fees and expenses in excess of $1,000.

3.10.4 Payment to Consultant. Consultant's compensation and reimbursable expenses shall be paid by City to Consultant no more often than monthly. Such periodic payments shall be made based upon the percentage of work completed, and in accordance with the phasing and funding schedule provided in Exhibit "B" and the compensation rates indicated in Exhibit "C" attached hereto and incorporated herein by reference. In order to receive payment, Consultant shall present to City an itemized statement which indicates Services performed, percentage of Services completed, method for computing the amount payable, and the amount to be paid. The statement shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement, as well as those expenses for which reimbursement is requested for that statement period. The amount paid to Consultant shall never exceed the percentage amounts authorized by the phasing and funding schedule located in Exhibit "B" attached hereto. City shall, within thirty (30) days of receiving such statement, review the statement and pay all approved charges thereon pursuant to the provisions of Civil Code Section 3320. Disputed amounts shall be resolved by the Parties in a mutually agreeable manner.

Payments made for Additional Services shall be made in installments, not more often than monthly, proportionate to the degree of completion of such services or in such other manner as the Parties shall specify when such services are agreed upon, and in accordance with any authorized fee or rate schedule. In order to receive payment, Consultant shall present to City an itemized statement which indicates the Additional Services performed, percentage of Additional Services completed, method for computing the amount payable, and the amount to be paid. The statement shall describe the amount of Additional Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the statement. City shall, within thirty (30) days of receiving such statement, review

the statement and pay all approved charges thereon pursuant to the provisions of Civil Code Section 3320. Disputed amounts shall be resolved by the Parties in a mutually agreeable manner.

Upon cancellation or termination of this Agreement, Consultant shall be compensated as set forth in the termination provision herein.

3.10.5 Withholding Payment to Consultant. The City may withhold payment, in whole or in part, to the extent reasonably necessary to protect the City from claims, demands, causes of action, costs, expenses, liabilities, losses, damages, or injuries of any kind to the extent arising out of or caused by the negligence, recklessness, or willful misconduct protected under the indemnification provisions of this Agreement. Failure by City to deduct any sums from a progress payment shall not constitute a waiver of the City's right to such sums. The City may keep any moneys which would otherwise be payable at any time hereunder and apply the same, or so much as may be necessary therefor, to the payment of any expenses, losses, or damages as determined by the City, incurred by the City for which Consultant is liable under the Agreement or state law. Payments to the Consultant for compensation and reimbursable expenses due shall not be contingent on the construction, completion or ultimate success of the Project. Payment to the Consultant shall not be withheld, postponed, or made contingent upon receipt by the City of offsetting reimbursement or credit from Parties not within the Consultant's reasonable control.

3.10.6 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Sections 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. Since the Services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and since the total compensation is $1,000 or more, Consultant agrees to fully comply with and to require its consultants to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the Project site. It shall be mandatory upon the Consultant and all subconsultants to comply with all California Labor Code provisions, which include but are not limited to prevailing wages (Labor Code Sections 1771, 1774 and 1775), employment of apprentices (Labor Code Section 1777.5), certified payroll records (Labor Code Sections 1771.4 and 1776), hours of labor (Labor Code Sections 1813 and 1815) and debarment of contractors and subcontractors (Labor Code Section 1777.1). The requirement to submit certified payroll records directly to the Labor Commissioner under Labor Code section 1771.4 shall not apply to work performed on a public works project that is exempt pursuant to the small project exemption specified in Labor Code Section 1771.4. Consultant shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or alleged failure of the Consultant or its consultants to comply with the Prevailing Wage Laws.

(a) Registration/DIR Compliance. If the Services are being performed as part of an applicable "public works project" of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants performing such Services must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain

registration for the duration of the Project and require the same of any subconsultants. This project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the Department of Industrial Relations against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the Department of Industrial Relations against Consultant or any subconsultant.

3.11 Notice to Proceed.

Consultant shall not proceed with performance of any Services under this Agreement unless and until the City provides a written notice to proceed.

3.12 Termination, Suspension and Abandonment.

3.12.1 Grounds for Termination; Consultant's Termination for Cause. City hereby reserves the right to suspend or abandon, at any time and for any reason, all or any portion of the Project and the construction work thereon, or to terminate this Agreement at any time with or without cause. Consultant shall be provided with at least seven (7) days advanced written notice of such suspension, abandonment or termination. In the event of such suspension, abandonment or termination, Consultant shall be paid for Services and reimbursable expenses rendered up to the date of such suspension, abandonment or termination, pursuant to the schedule of payments provided for in this Agreement, less any claims against or damages suffered by City as a result of the default, if any, by Consultant. Consultant hereby expressly waives any and all claims for damages or compensation arising under this Agreement, except as set forth herein, in the event of such suspension, abandonment or termination. Consultant may terminate this Agreement for substantial breach of performance by the City such as failure to make payment to Consultant as provided in this Agreement.

3.12.2 City's Suspension of Work. If Consultant's Services are suspended by City, City may require Consultant to resume such Services within ninety (90) days after written notice from City. When the Project is resumed, the Total Compensation and schedule of Services shall be equitably adjusted upon mutual agreement of the City and Consultant.

3.12.3 Documents and Other Data. Upon suspension, abandonment or termination, Consultant shall provide to City all preliminary studies, sketches, working drawings, specifications, computations, and all other Project Documents, as defined below, to which City would have been entitled at the completion of Consultant's Services under this Agreement. Upon payment of the amount required to be paid to Consultant pursuant to the termination provisions of this Agreement, City shall have the rights, as provided in this Agreement hereinafter, to use such Project Documents prepared by or on behalf of Consultant under this Agreement. Consultant shall make such documents available to City upon request and without additional compensation other than as may be approved as a reimbursable expense.

3.12.4 Employment of other Consultants. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.13 Ownership and Use of Documents; Confidentiality.

3.13.1 Ownership. All plans, specifications, original or reproducible transparencies of working drawings and master plans, preliminary sketches, architectural presentation drawings, structural computations, estimates and any other documents prepared pursuant to this Agreement, including, but not limited to, any other works of authorship fixed in any tangible medium of expression such as writings, physical drawings and data magnetically or otherwise recorded on computer diskettes (hereinafter referred to as the "Project Documents") shall be and remain the property of City. Although the official copyright in all Project Documents shall remain with the Consultant or other applicable subcontractors or consultants, the Project Documents shall be the property of City whether or not the work for which they were made is executed or completed. Within thirty (30) calendar days following completion of the Project, Consultant shall provide to City copies of all Project Documents required by City. In addition, Consultant shall retain copies of all Project Documents on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of reasonable duplication costs. Before destroying the Project Documents following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.13.2 Right to Use. Consultant grants to City the right to use and reuse all or part of the Project Documents, at City's sole discretion and with no additional compensation to Consultant, for the following purposes:

(a) The construction of all or part of this Project.

(b) The repair, renovation, modernization, replacement, reconstruction or expansion of this Project at any time;

(c) The construction of another project by or on behalf of the City for its ownership and use;

City is not bound by this Agreement to employ the services of Consultant in the event such documents are used or reused for these purposes. City shall be able to use or reuse the Project Documents for these purposes without risk of liability to the Consultant or third parties with respect to the condition of the Project Documents, and the use or reuse of the Project Documents for these purposes shall not be construed or interpreted to waive or limit City's right to recover for latent defects or for errors or omissions of the Consultant.

Any use or reuse by City of the Project Documents on any project other than this Project without employing the services of Consultant shall be at City's own risk with respect to third parties. If City uses or reuses the Project Documents on any project other than this Project, it shall remove the Consultant's seal from the Project Documents and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Project Documents on such other project.

3.13.3 License. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify or reuse any and all Project Documents and any intellectual property rights therein. Consultant shall require any and all subcontractors and consultants to agree in writing that City is granted a non-exclusive and perpetual license for the work of such subcontractors or consultants performed pursuant to this Agreement.

3.13.4 Right to License. Consultant represents and warrants that Consultant has the legal right to license any and all copyrights, designs and other intellectual property embodied in the Project Documents that Consultant prepares or causes to be prepared pursuant to this Agreement. Consultant shall indemnify and hold City harmless pursuant to the indemnification provisions of this Agreement for any breach of this Section. Consultant makes no such representation and warranty in regard to previously prepared designs, plans, specifications, studies, drawings, estimates or other documents that were prepared by design professionals other than Consultant and provided to Consultant by City.

3.13.5 Confidentiality. All Project Documents, either created by or provided to Consultant in connection with the performance of this Agreement, shall be held confidential by Consultant to the extent they are not subject to disclosure pursuant to the Public Records Act. All Project Documents shall not, without the written consent of City, be used or reproduced by Consultant for any purposes other than the performance of the Services. Consultant shall not disclose, cause or facilitate the disclosure of the Project Documents to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the written consent of City.

3.14 Indemnification.

3.14.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

. 3.14.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.15 Insurance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this Section. In addition, Consultant shall not allow any subconsultant to commence work on any

subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section.

3.15.1 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, Consultant shall, at its expense, procure and maintain in full force and effect for the duration of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

3.15.2 Additional Insured. The City of Ontario, its officials, officers, employees, agents, and volunteers shall be named as additional insureds on Consultant's and its subconsultants' policies of commercial general liability and automobile liability insurance using the endorsements and forms specified herein or exact equivalents.

3.15.3 Commercial General Liability

(a) The Consultant shall take out and maintain, during the performance of all work under this Agreement, in amounts not less than specified herein, Commercial General Liability Insurance, in a form and with insurance companies acceptable to the City.

(b) Coverage for Commercial General Liability insurance shall be at least as broad as the following: Insurance Services Office Commercial General Liability coverage (Occurrence Form CG 00 01) or exact equivalent. Commercial General Liability Insurance must include coverage for the following:

(i) Bodily Injury and Property Damage

(ii) Personal Injury/Advertising Injury

(iii) Premises/Operations Liability

(iv) Products/Completed Operations Liability

(v) Aggregate Limits that Apply per Project

(vi) Explosion, Collapse and Underground (UCX) exclusion deleted

(vii) Contractual Liability with respect to this Contract

(viii) Broad Form Property Damage

(ix) Independent Consultants Coverage

(c) The policy shall contain no endorsements or provisions limiting coverage for (1) contractual liability; (2) cross liability exclusion for claims or suits by one insured against another; (3) products/completed operations liability; or (4) contain any other exclusion contrary to the Agreement.

(d) The policy shall give City, the City Council and each member of the City Council, its officers, employees, agents and City designated volunteers additional insured status using ISO endorsement forms CG 20 10 10 01 and 20 37 10 01, or endorsements providing the exact same coverage.

(e) The general liability program may utilize either deductibles or provide coverage excess of a self-insured retention, subject to written approval by the City, and provided that such deductibles shall not apply to the City as an additional insured.

3.15.4 Automobile Liability

(a) At all times during the performance of the work under this Agreement, the Consultant shall maintain Automobile Liability Insurance for bodily injury and property damage including coverage for owned, non-owned and hired vehicles, in a form and with insurance companies acceptable to the City.

(b) Coverage for automobile liability insurance shall be at least as broad as Insurance Services Office Form Number CA 00 01 covering automobile liability (Coverage Symbol 1, any auto).

(c) The policy shall give City, the City Council and each member of the City Council, its officers, employees, agents and City designated volunteers additional insured status.

(d) Subject to written approval by the City, the automobile liability program may utilize deductibles, provided that such deductibles shall not apply to the City as an additional insured, but not a self-insured retention.

3.15.5 Workers' Compensation/Employer's Liability

(a) Consultant certifies that he/she is aware of the provisions of Section 3700 of the California Labor Code which requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and he/she will comply with such provisions before commencing work under this Agreement.

(b) To the extent Consultant has employees at any time during the term of this Agreement, at all times during the performance of the work under this Agreement, the Consultant shall maintain full compensation insurance for all persons employed directly by him/her to carry out the work contemplated under this Agreement, all in accordance with the "Workers' Compensation and Insurance Act," Division IV of the Labor Code of the State of California and any acts amendatory thereof, and Employer's Liability Coverage in amounts indicated herein. Consultant shall require all subconsultants to obtain and maintain, for the period required by this Agreement, workers' compensation coverage of the same type and limits as specified in this Section.

3.15.6 Professional Liability (Errors and Omissions)

(a) At all times during the performance of the work under this Agreement the Consultant shall maintain professional liability or Errors and Omissions insurance appropriate to its profession, in a form and with insurance companies acceptable to the City and

in an amount indicated herein. This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. "Covered Professional Services" as designated in the policy must specifically include work performed under this Agreement. The policy must "pay on behalf of" the insured and must include a provision establishing the insurer's duty to defend.

3.15.7 Minimum Policy Limits Required

(a) The following insurance limits are required for the Agreement:

Coverage	Combined Single Limit
Commercial General Liability	$2,000,000 per occurrence/ $4,000,000 aggregate for bodily injury, personal injury, and property damage
Automobile Liability	$2,000,000 per occurrence for bodily injury and property damage
Employer's Liability	$1,000,000 per occurrence
Professional Liability	$2,000,000 per claim and aggregate (errors and omissions)

(b) Defense costs shall be payable in addition to the limits.

(c) Requirements of specific coverage or limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance. Any available coverage shall be provided to the parties required to be named as Additional Insured pursuant to this Agreement.

3.15.8 Evidence Required

(a) Prior to execution of the Agreement, the Consultant shall file with the City evidence of insurance from an insurer or insurers certifying to the coverage of all insurance required herein. Such evidence shall include original copies of the ISO CG 00 01 (or insurer's equivalent) signed by the insurer's representative and Certificate of Insurance (Acord Form 25-S or equivalent), together with required endorsements. All evidence of insurance shall be signed by a properly authorized officer, agent, or qualified representative of the insurer and shall certify the names of the insured, any additional insureds, where appropriate, the type and amount of the insurance, the location and operations to which the insurance applies, and the expiration date of such insurance.

3.15.9 Policy Provisions Required

(a) Consultant shall provide the City at least thirty (30) days prior written notice of cancellation of any policy required by this Agreement, except that the Consultant shall provide at least ten (10) days prior written notice of cancellation of any such policy due to non-payment of premium. If any of the required coverage is cancelled or expires during the term of this Agreement, the Consultant shall deliver renewal certificate(s) including the General Liability Additional Insured Endorsement to the City at least ten (10) days prior to the effective date of cancellation or expiration.

(b) The Commercial General Liability Policy and Automobile Policy shall each contain a provision stating that Consultant's policy is primary insurance and that any insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

(c) The retroactive date (if any) of each policy is to be no later than the effective date of this Agreement. Consultant shall maintain such coverage continuously for a period of at least three years after the completion of the work under this Agreement. Consultant shall purchase a one (1) year extended reporting period A) if the retroactive date is advanced past the effective date of this Agreement; B) if the policy is cancelled or not renewed; or C) if the policy is replaced by another claims-made policy with a retroactive date subsequent to the effective date of this Agreement.

(d) All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

(e) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

3.15.10 Qualifying Insurers

(a) All policies required shall be issued by acceptable insurance companies, as determined by the City, which satisfy the following minimum requirements: Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and admitted to transact in the business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.15.11 Additional Insurance Provisions

(a) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(b) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold

amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(c) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(d) Neither the City nor the City Council, nor any member of the City Council, nor any of the officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

3.15.12 Subconsultant Insurance Requirements

(a) Consultant shall not allow any subcontractors or subconsultants to commence work on any subcontract until they have provided evidence satisfactory to the City that they have secured all insurance required under this Section. Policies of commercial general liability insurance provided by such subcontractors or subconsultants shall be endorsed to name the City as an additional insured using ISO form CG 20 38 04 13 or an endorsement providing the exact same coverage. If requested by Consultant, City may approve different scopes or minimum limits of insurance for particular subcontractors or subconsultants.

3.16 Records.

Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of five (5) years from the date of final payment under this Agreement.

3.17 Standardized Manufactured Items.

Consultant shall cooperate and consult with City in the use and selection of manufactured items on the Project, including but not limited to, paint, hardware, plumbing, mechanical and electrical equipment, fixtures, roofing materials and floor coverings. All such manufactured items shall be standardized to City's criteria to the extent such criteria do not interfere with building design.

3.18 Limitation of Agreement.

This Agreement is limited to and includes only the work included in the Project described herein. Any additional or subsequent construction at the site of the Project, or at any other City site, will be covered by, and be the subject of, a separate Agreement for **engineering** services between City and the Consultant chosen therefor by City.

3.19 Mediation.

Disputes arising from this Agreement may be submitted to mediation if mutually agreeable to the Parties hereto. The type and process of mediation to be utilized shall be subject to the mutual agreement of the Parties.

3.20 Successors and Assigns.

This Agreement shall be binding upon and shall inure to the benefit of the successors in interest, executors, administrators and assigns of each Party to this Agreement. However, Consultant shall not assign or transfer by operation of law or otherwise any or all of its rights, burdens, duties or obligations without the prior written consent of City. Any attempted assignment without such consent shall be invalid and void.

3.21 Asbestos Certification.

Consultant shall certify to City, in writing and under penalty of perjury, that to the best of its knowledge, information and belief no asbestos-containing material or other material deemed to be hazardous by the state or federal government was specified as a building material in any construction document that the Consultant prepares for the Project. Consultant shall require all consultants who prepare any other documents for the Project to submit the same written certification. Consultant shall also assist the City in ensuring that contractors provide City with certification, in writing and under penalty of perjury, that to the best of their knowledge, information and belief no material furnished, installed or incorporated into the Project contains asbestos or any other material deemed to be hazardous by the state or federal government. These certifications shall be part of the final Project submittal. Consultant shall include statements in its specifications that materials containing asbestos or any other material deemed to be hazardous by the state or federal government are not to be included.

3.22 No Third Party Rights.

This Agreement shall not create any rights in, or inure to the benefits of, any third party except as expressly provided herein.

3.23 Governing Law.

This Agreement shall be construed in accordance with, and governed by, the laws of the State of California. Venue shall be in San Bernardino County.

3.24 Exhibits and Recitals.

All exhibits and recitals contained herein and attached hereto are material parts of this Agreement and are incorporated as if fully set forth.

3.25 Severability.

Should any provision in the Agreement be held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions shall continue in full force and effect.

3.26 Non-Waiver.

None of the provisions of this Agreement shall be considered waived by either Party, unless such waiver is specifically specified in writing.

3.27 Safety.

Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of its employees, consultant and subcontractors appropriate to the nature of the work and the conditions under which the work is to be performed.

3.28 Harassment Policy.

Consultant shall provide a copy of the City's Harassment Policy to each of its employees assigned to perform the tasks under this Agreement. Consultant shall submit to the City's Personnel Manager a statement signed by each of its employees who are assigned to perform the Services under this Agreement certifying receipt of City's Harassment Policy and certifying that they have read the Harassment Policy. A finding by the City that any of Consultant's employees has harassed a City employee shall be grounds for appropriate discipline, up to and including such employee's removal from performance of this Agreement at City's request.

3.29 Delivery of Notices.

All notices permitted or required under this Agreement shall be given to the respective Parties at the following address, or at such other address as the respective Parties may provide in writing for this purpose:

CITY:	CONSULTANT:
City of Ontario	**Hazen and Sawyer.**
303 East "B" Street	**7700 Irvine Center Drive, Suite 200**
Ontario, CA 91764	**Irvine, CA 92618**
Attn: **Dennis Mejia, PE, Utilities Engineering Division Manager,**	Attn: **Cindy Miller**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the Party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.30 Time of Essence.

Time is of the essence for each and every provision of this Agreement.

3.31 City's Right to Employ Other Consultants.

City reserves right to employ other consultants, including designers, in connection with this Project or other projects.

3.32 Prohibited Interests.

3.32.1 Solicitation. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability.

3.32.2 Conflict of Interest. For the term of this Agreement, no director, official, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.33 Equal Opportunity Employment.

Consultant represents that it is an equal opportunity employer and that it shall not discriminate against any employee or applicant for employment because of race, religion, color, national origin, ancestry, sex, age or any other classification protected by federal or state law. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's minority business enterprise program, affirmative action plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.34 Labor Certification.

By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.35 Subcontracting.

As specified in this Agreement, Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to each and every provision of this Agreement.

3.36 Supplemental Conditions.

Any supplemental conditions shall be attached as an exhibit to this Agreement, and that exhibit shall be incorporated herein by reference.

3.37 Entire Agreement.

This Agreement, with its exhibits, contains the entire agreement of the Parties hereto, and supersedes any and all other prior or contemporaneous negotiations, understandings and oral or written agreements between the Parties hereto. Each Party acknowledges that no representations, inducements, promises or agreements have been made by any person which

are not incorporated herein, and that any other agreements shall be void. Furthermore, any modification of this Agreement shall only be effective if in writing signed by all Parties hereto.

EXHIBIT "A"
SCOPE OF SERVICES

EXHIBIT "A"

RFQ PROPOSED SCOPE OF SERVICES

The City of Ontario is seeking Statement of Qualifications from qualified consulting engineers to provide On-Call Services for three (3) years, with an option of renewing for two (2) consecutive one (1) year terms. The City desires to obtain the services of a maximum of six (6) qualified firms to assist with On-Call Design Services. At least ten (10) years of experience providing similar services is required to oversee the work, stamp, and sign all project related documents as required.

Request for Qualifications (RFQ) for various services in various disciplines (e.g. Engineering, Architecture, Construction, Hydraulic Modeling, Fire Flow Modeling, Feasibility Studies, etc.) with the intention of maintaining a list of multiple qualified prime engineering firms, with subconsultant support services as needed. Task orders will be issued to firms on a competitive basis based on the qualifications and expertise of the firm and their subconsultants. There is no designated minimum nor maximum value of services to be awarded to any one consultant.

Each Prospective Consultant needs to be able to provide all the services (or provide sub-consultants that must also be listed as part of their statement of qualifications) listed in this RFQ.

The following scope of services provides general categories of services that may be required for each task order requested. The categories are not an exhaustive list of services but rather a sampling of the services that are typically included, but not limited to, within that area of the scope in order to demonstrate the qualifications needed for that scope of services.

Specific services requested under these agreements shall be identified by the City at the time of the request for a specific task order. For each task order requested by the City, the Consultant shall provide a task order proposal that identifies the specific scope of services to be performed, the necessary project management activities, task budget, and task schedule. Upon City's approval of the proposed task's scope of services, the City will issue a notice to proceed with purchase order requisition for the work. The Consultant is encouraged to provide recommendations with respect to scope and order of completion.

No task order or scope of services shall be performed without first receiving authorization from the City and notice to proceed with the task order.

GENERAL REQUIREMENTS.

Consultant will be expected to work closely with staff for the duration of the assigned projects (i.e. task orders), and attend all meetings and workshops, as necessary. Any adjustments can be verified based on the need of City Project Managers. All field services must include appropriate traffic control.

Some or all of the following General Requirements and Services may be incorporated into specific tasks orders generated from the On-Call contract. The applicable General Requirements shall be based on needs of specific tasks and the City Project Managers:

Refer to Design Services Agreement in Exhibit "B" to review the General Requirements and other conditions.

ON-CALL DESIGN SERVICES

The City of Ontario is seeking Statement of Qualifications from firms for On-Call Design Services:

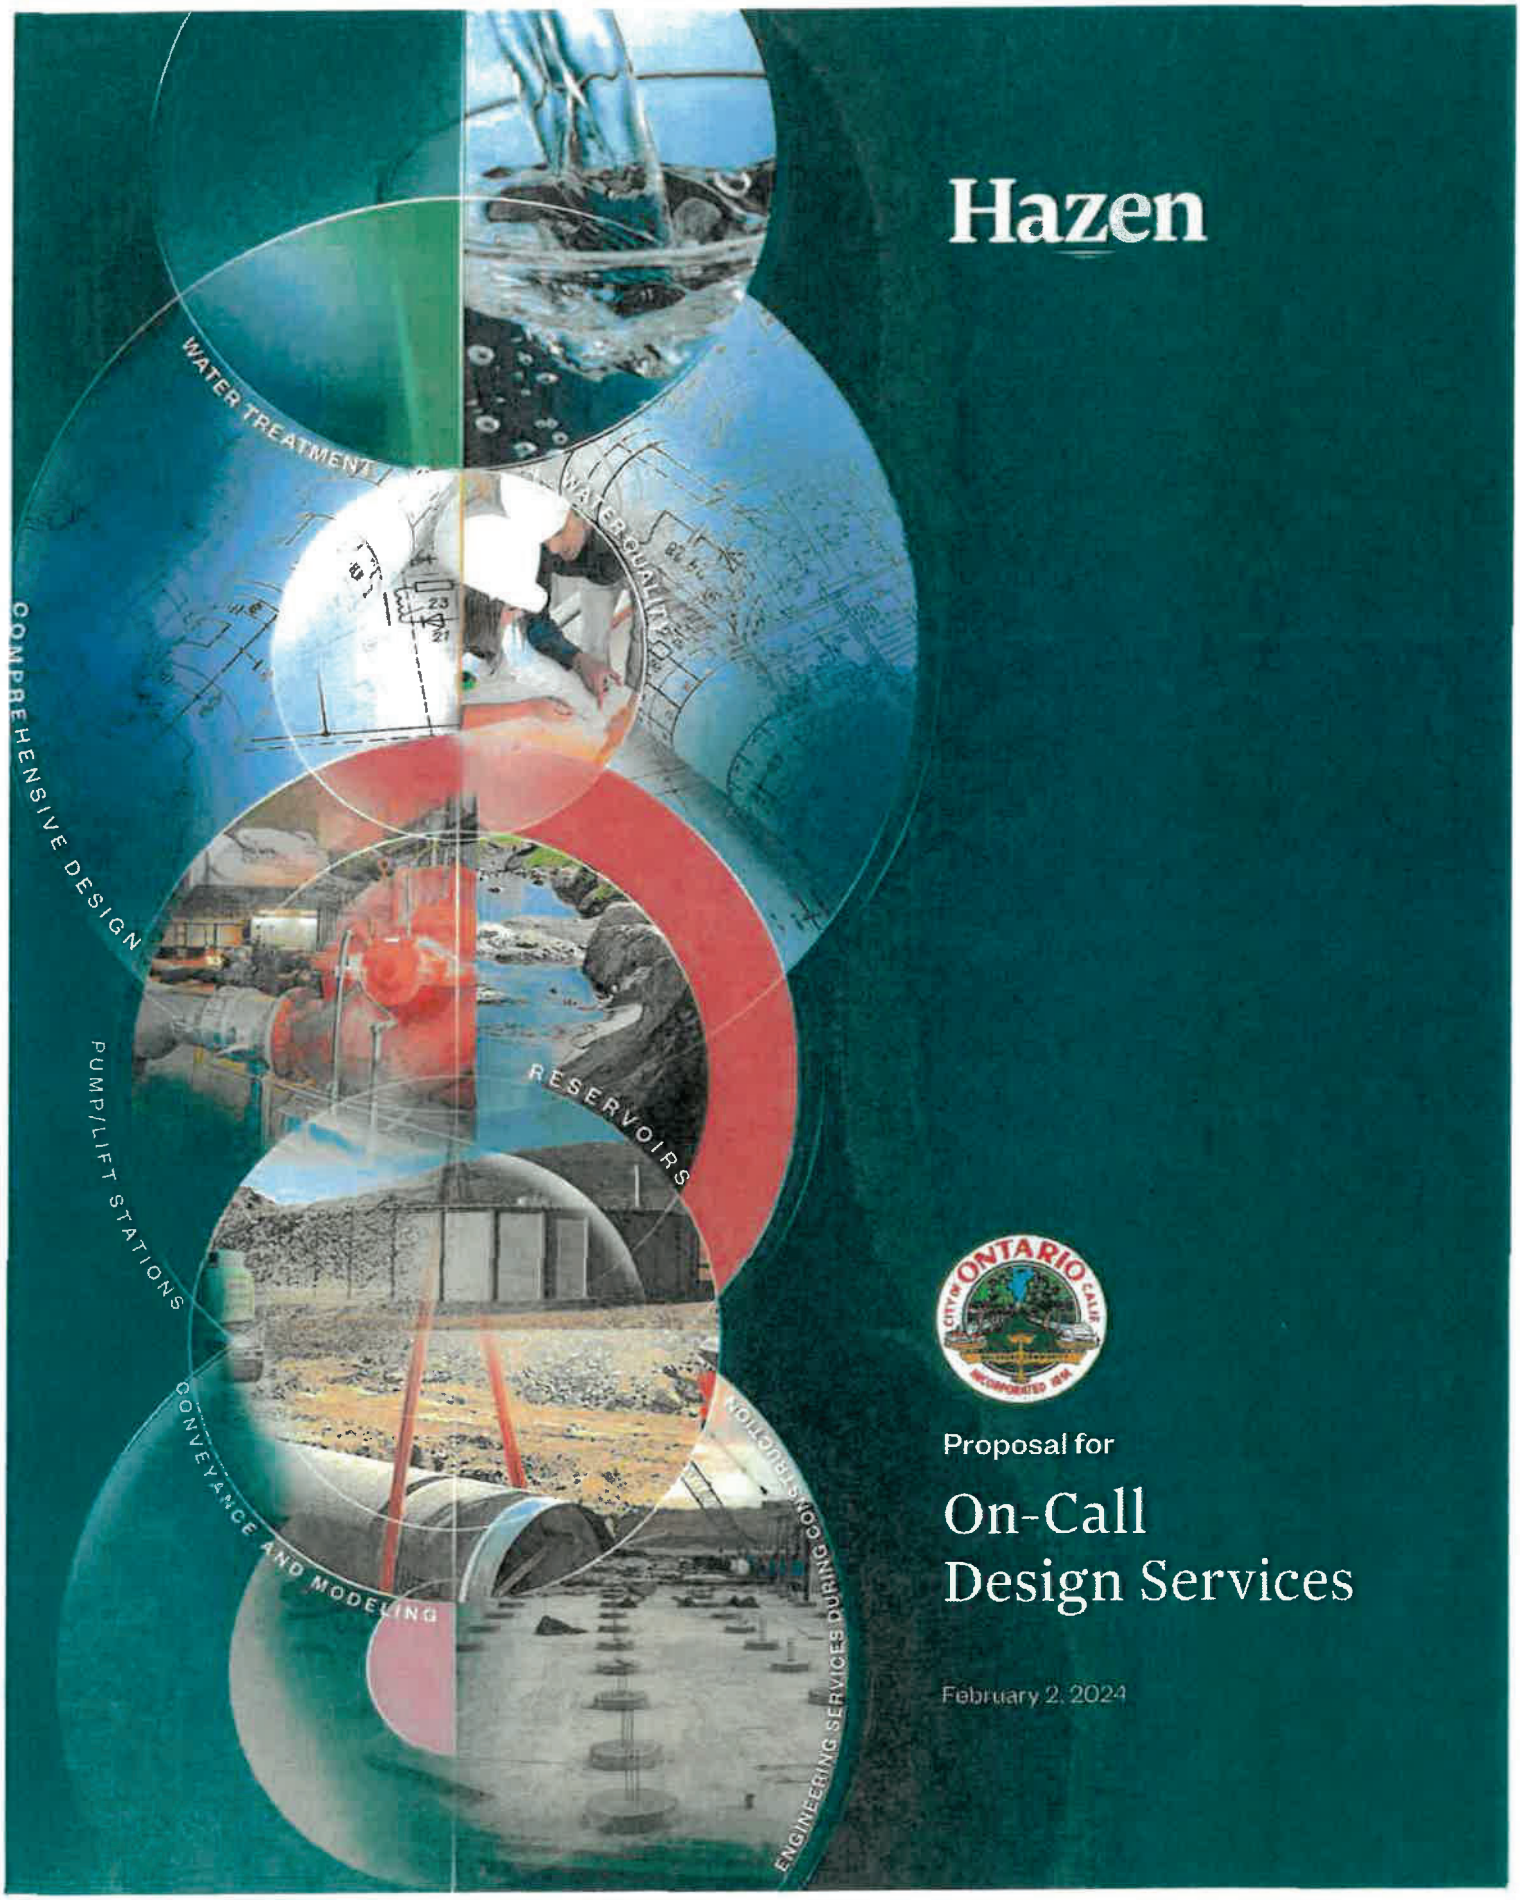
Consultant shall be aware that certain labor categories above may be subject to prevailing wage rates as identified in the California Labor Code commencing Section 1770 et Seq. Determination of whether or not Prevailing Wages shall apply will be determined when the City's Project Manager identifies the scope of specific task orders. Please refer to Paragraph XI.11 "Prevailing Wage and Contractor Registration" of this RFQ, and Paragraph 3.10.6 "Prevailing Wages" of the Design Services Agreement for further requirements.

Expected services to be provided under this on-call contract will be performed under a task order system, need to be designed following City Guidelines or associated governing agency guidelines, and may include:

Capital Improvement Project Division

- Feasibility Studies
    - Preparing and/or updating Guidance Documents for Utility Feasibility Studies and Technical Reports
- Environmental services for CEQA/NEPA
- Geotechnical Investigations
- Erosion Control and Storm Water Pollution Prevention Plans
- Permitting and Grant writing support
- Surveying and Mapping
    - ALTA Surveys
    - Easements, Right of Way Preparation, and Mapping
    - Topographic Mapping
    - Field Design Surveys
    - Boundary Surveying and Monumentation
    - Benchmarks and centerline tie information
    - Legal Descriptions and Exhibits
    - Construction Staking
    - Conduct Potholing Services
- Construction Documents Development
- Street Improvements and Highway Design Engineering
- Civil, mechanical, electrical, structural, instrumentation design using AutoCAD 2023 or later
    - Transmission, Collection & Distribution Pipelines (water, sewer, recycled water, storm drain, etc.) facilities including water pipelines (transmission and distribution)
    - Groundwater Wells
    - Pump Stations
    - Pressure Reducing Stations
    - Reservoirs
    - Sewer Lift Stations
- Construction Engineering Support Services
    - Provide RFI review and response services
    - Submittal review and response services

- Project coordination services with City hired Construction Manager
- Final inspection and punch list services
- Convert Contractor's redlines to record drawings



Planning and Land Development Division

- Master planning to include infrastructure master plans
  - Hydraulic Modeling
  - Flow Monitoring
  - Demand factor assessment
- Asset management program support
- Risk and Resilience Assessment
- Site Security Assessment
- Emergency Response Plan
- Facilities Condition Assessment
- Updating City Water and Sewer GIS
- Hydrology and Drainage Engineering
  - Hydraulic modeling and GIS support services conforming with San Bernardino County Hydrology Manual
  - Hydrology Studies and hydrologic calculations
  - Hydrogeologic engineering services related to groundwater well rehabilitation and installation
- Hydraulic Modeling and Model Maintenance
  - The potable and recycled water model is in Innovyze InfoWater, the sewer model is in Innovyze InfoSewer, and both are running in the ArcMap 10.7.1 environment.
  - Updating Model Geometries using City Water and Sewer Atlas GIS shapefiles and Water and Sewer Improvement Construction/Record Drawings.
  - Updating Model Demands, Patterns, and Peaking Factors based on development and meter data.
  - Creating and Running New Scenarios.
  - Model Verification and Calibration to assure that the model can run properly.
  - Preparing Utility Hydraulic Analysis Studies and Reviews.
  - Reviewing OMUC Staff or Developer/Engineer modeling work and providing summary validation reports.
  - Peer Review of Utility Hydraulic Analysis Studies and Reviews, and Utility Feasibility and Technical Studies.
  - Fire Flow Analysis

Water Resources and Water Quality Division

- Water Resources Planning and Management Support Services
  - Urban Water Management Plans - Preparation, Updates, and Amendments
  - Water Supply Assessments and Written Verifications
  - Hydrogeological Studies and Geotechnical Engineering
  - Water Use Surveys
  - Wastewater Flow and Strength Studies
  - Water Conservation and Audits
  - Recycled Water Use Studies and compliance with State Water Board and Regional Water Quality Control Board requirements

- Laboratory Testing
- Water and Wastewater Low/High Flow Monitoring (On-site Private & Public)
- Water and Wastewater Quality Sampling (On-site Private & Public)
- Sewer System Management Plan Update
- Sewer System Management Plan Audit

Hazen

Proposal for

On-Call Design Services

February 2, 2024

Hazen and Sawyer
7700 Irvine Center Drive, Suite 200
Irvine, CA 92618 • 949.557.8549

City of Ontario

Re: Proposal for On-Call Design Services

The Ontario Municipal Utilities Company (OMUC) has a large CIP that must be delivered on schedule in the coming years. Hazen understands the need to drive the schedule for your projects under this on-call engineering services contract. Expediting the schedule will help keep OMUC maintain its performance rate and keep projects on budget. However, Hazen will not rush any project at the expense of achieving quality. Delivering top quality work products to OMUC is our top priority.

Hazen offers proven design expertise, exceptional technical service, full range of local resources, and proven reliability to perform all the engineering services required, including services during construction for projects. Hazen brings the following value to OMUC:

Proven Project Management. The Hazen Team will be led by our Project Delivery Manager, Cindy Miller, PE who serves as a Vice President and brings over 30 years of experience in project management, planning, design, and construction of water and wastewater projects for municipal clients throughout California. Cindy will be your main point of contact and will respond quickly to assemble the most qualified team of experts to accomplish OMUC's selected projects on time and on budget. Cindy is committed to the successful delivery of your projects.

Depth and Breadth of our Team. We understand through the on-call engineering services contract there could be a wide range of projects requiring multi-discipline expertise. Therefore, our team has been assembled to include the depth of resources and breadth of skills to handle any potential project. Additionally, Hazen continues to build our depth of experienced local resources which is reflected in our organizational chart and personnel biographies for this on-call. Our responsive culture and flexible team organizational structure allow us to be efficient in developing and delivering both programs and projects varying in size and complexity. Our lead project team members are prepared to manage multiple assignments or to provide rapid response for an urgent project.

Delivering Value-added Service. Hazen will focus on providing value-added service to the OMUC. Each project has its unique challenges, and we will collaborate with our in-house experts to analyze projects in advance and develop smart solutions that benefit OMUC. For example, Hazen is a top firm with highly specialized staff providing services for water, wastewater, recycled water, and advanced water purification projects. Our depth of experience extends to conveyance systems, water resources planning, and related services. This experience in "All Things Water" means that Hazen can help OMUC navigate the myriad of issues that may arise on various projects and provide solutions to keep projects moving forward. We will also look for ways to reduce

1014-741

Hazen

construction costs through in-house value engineering and constructability reviews. Another important objective is planning for and minimizing permitting requirements which can derail projects if not managed. Hazen is committed to finding ways to save OMUC time and money through well thought-out project planning and execution.

On-Call Contract Experience. We have a long history of working on general engineering "on-call" contracts (about 40+ in California alone) with municipal clients that have similar facilities and operations. These contracts include agencies with infrastructure and challenges very similar to OMUC. Hazen understands the requirements of an on-call contract which can have multiple task orders at any one time versus a single CIP assignment and the need to dedicate our staff accordingly. Hazen's biggest value to these on-call contracts is our ability to respond quickly and deploy rapidly with a team of experts to address any challenge OMUC may face.

Integration of Operations & Maintenance. Hazen inherently considers the concerns of the Operation & Management (O&M) from the outset of a project. We can do this because many of our key team members have experience with operations and maintenance. Our experts are not solely engineers behind a desk; they are "roll-up your sleeves" engineers who recognize the need to work closely with the engineering staff while listening and responding to the needs of O&M staff.

Since our founding in 1951, Hazen is known for its superior technical work and remains one of the top engineering firms in the nation focused entirely on "ALL THINGS WATER." Based on a commitment to quality and excellent client service, Hazen has grown to over 1,700 engineering professionals in 68 offices across the United States and around the world. Since its inception, Hazen has been assisting clients facing challenges common among wastewater and water utilities across the country that include rising costs, aging infrastructure, increasing regulatory requirements, environmental complexities, and a changing workforce; all while continuing to deliver a committed level of service at the lowest overall lifecycle cost to its customers.

We appreciate the opportunity to submit this proposal to OMUC. Should you have any questions regarding our response to this RFP, please contact Cindy Miller at (714) 814-4909 or via e-mail cmiller@hazenandsawyer.com. This proposal is signed by Cindy Miller, Jack Adam, and Hampik Dekermenjian who are authorized as Vice Presidents to bind Hazen and act as Project Delivery Managers to meet the City's requests.

Regards,

Hazen and Sawyer

Section 1

Executive Summary

Section 1

Executive Summary

Hazen is a nationally-recognized civil engineering firm, specializing in the engineering and management of water supply, distribution, and treatment; wastewater collection, treatment and disposal; water resources, and stormwater management. Since 1951, Hazen has been providing our clients with unparalleled access to expertise for all facets of water projects. We focus on finding the most innovative and appropriate solutions for our clients. The Hazen Team offers OMUC a combination of local knowledge and experience, resources, and expertise ideally suited to OMUC.

Leveraging Extensive On-Call Experience

From New York City to Southern California, Hazen has helped agencies solve their most difficult issues through on-call and standard contracts. Because all we do is water, our technical expertise reaches across all OMUC assets and facilities. In California, Hazen has approximately forty on-call contracts with public utilities with services similar to those requested by OMUC for this on-call contract. Recent and relevant on-call contracts that best show our available wide range of practice areas (water treatment, conveyance, etc.) include On-Call Engineering for Metropolitan Water District of Southern California; San Diego County Water Authority, Eastern Municipal Water District, Rancho California Water District, and City of Chino.

Managing Project Success

Organized project management is critical to ensuring that the project is successfully executed. Project management is part of the culture at Hazen and starts with the development of a detailed project work plan, checks and balances for budget and schedule monitoring, and a project Quality Assurance Plan that outlines policies and procedures required for execution of the project. However, quality doesn't enter our projects simply as a result of any company procedures; it is an attitude within each of our staff about providing the highest quality work to our clients while remaining within our budgetary constraints. Quality assurance is not relegated to reviews before deliverables or milestones, but is an ongoing activity. This differentiator has earned Hazen the reputation for delivering exceptional technical work products coupled with outstanding quality service.

Identification of Proposer

Hazen is a nationally recognized engineering firm and industry leader that offers the experience and expertise required to deliver planning, design, and construction support services for all project types. We focus on finding the right solutions for our clients.

Since 1951, Hazen has focused on **all things water®** and have concentrated on two critical activities – helping our clients provide safe drinking water to their customers, and controlling water pollution and its effects on the environment. Hazen assembles customized teams to provide highly qualified resources for each task order, and by utilizing this approach, has successfully completed thousands of assignments in the United States for governments, utilities, and industry. These have ranged in scope from simple analyses for small communities to multi-municipal, multi-million dollar projects. We are a preeminent, full-service environmental engineering consulting firm, and can offer exceptionally qualified personnel available immediately to assist you with your projects.

Section 4

Staffing Resources

Section 4

Staffing Resources

The Hazen Team will be led by three accomplished, experienced Project Delivery Managers with strong technical skills in Water Treatment, Stormwater and Conveyance projects who will provide the vision and organization to guide our team to successfully deliver all of OMUC's projects and principally responsible for working with the City. They will work closely with OMUC leadership to ensure project goals are achieved.

30+ years of experience

Cindy Miller, PE - Vice President

Ms. Miller serves as Hazen's Operations Manager for the Irvine office. She will serve as Hazen's primary project delivery manager. She has 30 years of experience in the planning design and construction of water supply, treatment, drinking water, and conveyance projects. Ms. Miller has delivered projects in the Chino Basin for the past 25 years and is the Principal in Charge on multiple water treatment projects for the City of Chino, City of Chino Hills, and CDA within and adjacent to the City of Ontario jurisdiction. Ms. Miller's ability to mobilize a diverse group of staff, bringing in outside experts as needed, anticipates and supports OMUC's needs for all types of projects contemplated by OMUC.

32+ years of experience

Hampik Dekermenjian, PE, BCEE - Vice President

Mr. Dekermenjian serves as Hazen's West Region Client Service Leader and Operations Manager for the Los Angeles office. He has 32 years of experience in water resources, drinking water, recycled water, wastewater and conveyance projects. He has spent the last 15 years specializing in water resources, specifically stormwater management and integrated resource planning throughout the state of California. An accomplished strategist, stakeholder facilitator and project director, he provides technical and management capabilities to work in collaborative settings involving complex projects and stakeholder interests. He has a wide variety of experience in large project executions, stakeholder collaboration and stormwater management strategies.

33+ years of experience

Jack Adam, PE - Associate Vice President

Mr. Adam serves as Hazen's Operations Manager for the San Diego office. He has 33 years of experience in water, wastewater and recycled water distribution, and conveyance and storage projects and is Hazen's Southern California Conveyance Practice Leader. Jack has served as project/design manager on a multitude of major water resource projects throughout the U.S. Pipeline sizes ranging from 8 to 102 inches in diameter and pump station up to 10,000 Hp. He has managed a wide variety of projects from initial planning, through design, construction and operation.

Together Cindy, Hampik, and Jack form a strong Hazen southern California leadership team who will be available and committed to the City of Ontario and OMUC throughout the duration of the contract. Their continued involvement will ensure Hazen's commitment to responsiveness and delivering high quality, innovative work products.

TREATMENT FACILITIES

Nicole Blute, PhD, PE

WATER TREATMENT FACILITIES LEAD

Education

- ✓ Ph.D., Environmental Engineering, MIT
- ✓ B.S., Environmental Science, University of Rochester
- ✓ B.A., Chemistry, University of Rochester

Certification/License

- ✓ Professional Engineer

Qualifications

- Dr. Blute has over 27 years of experience in drinking water treatment and aquatic chemistry. She specializes in drinking water treatment and system planning particularly for impaired groundwater.
- She is a leader in chromium-6 treatment, having led over a decade of technology testing forming the basis for the Best Available Technologies set by California.
- Dr. Blute develops and is the project manager on a wide variety of water projects, notably facility planning, groundwater treatment projects, distribution system water quality projects, technology testing for emerging inorganic and organic constituents, and disinfection strategy evaluations. Dr. Blute has experience in regulatory agency compliance and funding applications for municipalities.

Joel Bowdan, PE

WATER TREATMENT FACILITIES
PUMPS/BOOSTER STATIONS

Education

- ✓ B.S., Civil Engineering, Lawrence Technological University, Southfield, MI

Certification/License

- ✓ Professional Engineer

Qualifications

- Mr. Bowdan is an experienced registered professional civil engineer with 30 years of experience in the planning and design of water and wastewater infrastructure including pipelines, lift stations, booster stations, production wells, storage tanks, treatment facilities, and combined sewage overflow elimination facilities.
- His expertise includes complex pumping, control valve, and piping system layout, hydraulic design, groundwater supply and treatment facility design, brackish water reverse osmosis membrane desalinization, electrodialysis reversal (EDR) treatment for recycled water, alternative treatment for cooling tower systems, and other process related design.
- Mr. Bowdan is currently providing his expertise to CVWD on the IXTP 7991 Replacement project.

Silvana Ghiu, PhD, PE

WATER TREATMENT FACILITIES

Education

- ✓ Ph.D., Environmental Engineering, University of South Florida
- ✓ M.S., Environmental Science and Policy, Central European University, Hungary

Certification/License

- ✓ Professional Engineer

Qualifications

- Dr. Ghiu has extensive experience in membrane treatment systems covering many aspects of project development, from feasibility study, pilot testing, detailed design and design review, manufacturing, cost estimation, comprehensive energy consumptions estimation and optimization, O&M integration with design etc.
- Silvana's expertise includes groundwater water quality assessment and treatment as well as evaluation of disinfection stability in distribution water systems.
- She has hands on experience in piloting both membranes and conventional water and advance treatment waste water systems.

Fred Gerringer, DEnv, PE, BCEE

WASTEWATER & RECYCLED WATER
TREATMENT FACILITIES LEAD

Education

- ✓ D.Env, UCLA, Los Angeles, CA,
- ✓ M.S., Civil/Environmental Engineering, UCLA, Los Angeles, CA
- ✓ B.S., Civil/Environmental Engineering, University of California at Berkeley, Berkeley, CA

Certification/License

- ✓ Professional Engineer
- ✓ Board Certified Environmental Engineer

Qualifications

- Dr. Gerringer serves as Hazen's West Region Water Reuse Practice Leader.
- He has over 20 years of experience working in the public and private sectors on water reuse, drinking water, and wastewater projects throughout California.
- He has managed projects at all stages of development, from initial planning and design through construction and startup.
- His proficiency in advanced treatment processes includes membrane filtration, reverse osmosis, advanced oxidation, and ozonation. In recent years, he has applied his expertise to the management of complex water reuse projects for a variety of municipal clients.
- Dr. Gerringer is the project manager for a small scale indirect potable reuse project for the Rancho California Water District and has experience in both DPR and IPR

1014-741

Steven Malloy, PE

WASTEWATER & RECYCLED WATER TREATMENT FACILITIES

Education

- ✓ Engineering Management Certificate, UC Irvine, CA
- ✓ M.S., Civil/Environmental Engineering, Stanford University, Palo Alto, CA
- ✓ B.S., Civil Engineering, Cal Poly, Pomona, CA

Certification/License

- ✓ Professional Engineer

Qualifications

- Mr. Malloy brings over 40 years of experience in drinking water, recycled water, wastewater, and biosolids projects.
- He has spent the last 20 years specializing in planning, design, and construction management of various treatment projects.
- Prior expertise included capital projects for drinking and recycled water distribution pipelines, pump stations, and reservoirs as well as sewage collection systems.
- He has experience with treatment plant control systems, community out-reach, regulatory agency compliance, and communication with water district management.

WATER RESOURCE PLANNING

Kirsten Plonka, PE

WATER RESOURCE PLANNING LEAD

Education

- ✓ BS, Civil Engineering, California Polytechnic State University, San Luis Obispo
- ✓ MS, Management, Colorado State University, Global Campus (in-process)

Certification/License

- ✓ Professional Engineer

Qualifications

- Ms. Plonka brings over 20 years of experience in the planning, design, and management of water, wastewater, and recycled water systems.
- She specializes in project management, hydraulic modeling, feasibility studies, infrastructure and water resource planning studies, and master planning, including Capital Improvement Plans and budgeting.
- She is well versed in funding alternatives, regulatory compliance, and public policy development. Kirsten's experience includes database development and integration of geographic information systems (GIS) with hydraulic models, recycled water customer databases, and asset databases.

Luke Wang, PE

WATER RESOURCE PLANNING

Education

- ✓ M.S., Earth & Environmental Engineering, Columbia University
- ✓ B.S., Earth & Environmental Engineering, Columbia University

Certification/License

- ✓ Professional Engineer

Qualifications

- Mr. Wang specializes in water resources planning and operations and has extensive experience in data management, analytics, and decision support.
- His experience includes reservoir operations, source water allocation planning, demand projection, and infrastructure capacity planning.
- He is a skilled data scientist and has designed models for system optimization and water supply / quality forecasting.
- He is a specialist in data visualization and communication as he has developed analytical dashboards for several applications in the water industry.

PIPELINES

Tori Yokoyama, PE

PIPELINE LEAD AND WATER RESOURCE PLANNING

Education

- ✓ B.S., Civil Engineering, California State Polytechnic University, San Luis Obispo

Certification/License

- ✓ Professional Engineer

Qualifications

- Mr. Yokoyama has extensive experience developing hydraulic models, performing hydraulic analyses, and preparing master plan reports for various public sector clients.
- He is proficient in all hydraulic modeling platforms commonly used by various agencies. He is a detailed and hands-on engineer that understands how to efficiently move a project forward from start to finish.
- His most recent master plan experience includes management of master plans for the Cities of Beverly Hills, Chino Hills, Chino, and Trabuco Canyon Water District.
- Mr. Yokoyama is also an experienced engineer and Project Manager in the design and preparation of construction plans, specifications and cost estimates for large water and wastewater projects throughout Southern California.

Jerimy Borchardt, PE

PIPELINES DESIGN ENGINEER

Education

✓ B.S., Civil Engineering, California State University, Fresno, CA

Certification/License

✓ Professional Engineer

Qualifications

- Mr. Borchardt's expertise includes the design and construction of multi-discipline conveyance projects involving complex hydraulics, pipeline design, detailed pump station mechanical design, Instrumentation and Control strategies, and SCADA integration.
- He is experienced in site civil design and layout, extensive utility relocation design and coordination, conducting route analysis, and evaluation of construction methods.
- He was Project Manager for design of the Manhattan Beach water system pipeline replacements projects.

PUMP/BOOSTER STATIONS

Steven Conner PE

PUMPS/BOOSTER STATIONS LEAD & WELLS LEAD

Education

✓ B.S., Civil Engineering/Water Resources, University of California, Irvine

Certification/License

✓ Professional Engineer

Qualifications

- Mr. Conner has been the lead pump station engineer for numerous potable water pump station projects.
- Mr. Conner has expertise in vertical turbine as well as horizontal centrifugal pump design, is well versed in Hydraulic Institute design standards, and has designed many pump stations that have been outfitted with electric motors, natural gas driven engines, VFDs (including watercooled VFDs), and backup generators.
- Mr. Conner has in-depth technical expertise in pump station hydraulic analyses, system curves development, pump selection evaluation, and surge analyses.

Steve Diamond, PE, BCEE

PUMPS/BOOSTER STATIONS & GROUNDWATER TREATMENT

Education

✓ B.S., Civil Engineering, Lehigh University, Bethlehem, PA

Certification/License

✓ Professional Engineer
✓ Board Certified Environmental Engineer

Qualifications

- Mr. Diamond has 29 years of experience with planning, pilot testing, detailed design, and operations assessments, including start-up and training, for various potable water treatment, potable reuse and wastewater treatment applications.
- Mr. Diamond has managed and coordinated multi-disciplinary design teams to deliver planning documents, and construct documents for hard bid construction projects as well as design build projects.
- He is a registered Civil Engineer (PE) in California and a Board Certified Environmental Engineer with AAEE. Mr. Diamond specializes in the planning, design and implementation of advanced treatment technologies for potable water treatment and water reuse.

WATER RESERVOIRS & TANKS

William Malone, PE, PMP

WATER RESERVOIRS AND TANKS LEAD & WELLS AND PIPELINES

Education

✓ B.S., Civil Engineering, California State Polytechnic University, Pomona

Certification/License

✓ Professional Engineer
✓ Project Management Professional

Qualifications

- Mr. Malone has over 34 years of experience in conveyance and drinking water projects. He has spent the last 30 years specializing in conveyance infrastructure facilities; collection and transmission pipelines, pumping stations, lift stations, water wells, reservoirs, and wellhead treatment facilities.
- An accomplished program, project, and construction manager, he provides technical and management capabilities to work in collaborative settings involving complex projects and community interests.
- He has an extensive experience in project management and has managed a wide variety of projects from initial planning, including master facility plans and engineering feasibility studies through design, including plans, specifications, and engineering cost estimates, to construction, including construction manager, contract administrator, project coordination with stakeholders and constructability reviews.

1014-741

Wyatt Dressler, PE

WATER RESERVOIRS & TANKS

Education

- ✓ B.S., Civil Engineering, California State University Northridge

Certification/License

- ✓ Professional Engineer

Qualifications

- Mr. Dressler specializes in structural and seismic design for water and wastewater treatment facilities, water storage facilities and support systems for conveyance pipelines and process mechanical equipment.
- Mr. Dressler has experience with design of supports for nonstructural components and design of foundations for non-building structures.
- Mr. Dressler has experience with structural modeling as well as seismic evaluation and structural condition assessment of existing structures, and preparation of technical reports and memoranda.

WELLS/GROUNDWATER REPLENISHMENT

Russell Kyle, PG, CHG

WELLS HYDROGEOLOGY LEAD

Education

- ✓ MS, Environmental Hydrogeology, California State University – Los Angeles
- ✓ BS, Geology, California Polytechnic University – Pomona

Certification/License

- ✓ Registered Professional Geologist

Qualifications

- Mr. Kyle has a wide variety of groundwater resource related projects for public and private clients within the western United States, Mexico, and Africa, with a focus on groundwater resources development in Southern California.
- The scope of his technical experience includes groundwater basin evaluations, water supply studies, well siting investigations, artificial recharge feasibility evaluations, well field condition assessments, well rehabilitation, desalination feedwater supply studies, and geophysical surveys.
- Over the course of his career he has been responsible for installation of more than 150 water supply wells and 70 monitoring wells and exploratory borings, including management of a team of field inspectors, coordination with drilling contractors and regulatory agencies, well design, and CM.

Richard Slade, PG, CEG

WELL DRILLING AND GROUNDWATER RECHARGE

Education

- ✓ University of California, Los Angeles, B.A.,Geology
- ✓ University of Southern California, M.S., Engineering Geology,

Certification/License

- ✓ Professional Geologist, California
- ✓ Certified Engineering Geologist, California

Qualifications

- Major fields of hydrogeologic emphasis for Mr. Slade include groundwater resource development (basin-wide studies, and water well design and construction), and aquifer analysis. Principal projects have involved, evaluations of entire groundwater basins, aquifer test analyses, assessment of water quality problems and groundwater degradation, design of water wells for municipal supply, well rehabilitation assessments, monitoring of all phases of water well construction, locating and designing groundwater monitoring networks, and providing expert witness testimony for groundwater litigation.
- His types of work have included feasibility studies for determining final locations for new wells, designing new wells, monitoring of the construction of new wells, working with drilling contractors, evaluating down-hole problems (such as sanding) in existing wells, and developing protocol for water well rehabilitation.

Stephanie Botha

WELLS HYDROGEOLOGY

Education

- ✓ M.Sc., Hydrogeology, University of Birmingham, U.K.,
- ✓ B.Sc., Geology, University College London, U.K.

Qualifications

- Ms. Botha has 16 years professional experience working in planning, approvals, permitting, regulatory compliance, and project management on behalf of private and public clients across a broad range of industry including infrastructure, environment, water, contaminated land, decommissioning and restoration, transportation, oil and gas, waste management, marine geoscience, and mining.
- Over the last five years, Ms. Botha has provided technical support and management of staff for a variety of projects including hydrogeological assessments, contaminant hydrogeology, groundwater remediation and restoration, water quality analysis, permitting of extremely impaired groundwater sources, design, installation, and testing of production and monitoring wells, groundwater monitoring and field sampling programs, and helped develop greenhouse gas emissions guidance for the marine geoscience survey activities industry.

Natasha Raykhman, PG

WELL DRILLING AND GROUNDWATER RECHARGE

Education

- ✓ MS, Hydrogeology, Moscow University
- ✓ BS, Geologic Science, Moscow University

Certification/License

- ✓ Professional Geologist, California

Qualifications

- Ms. Raykhman has over 30 years of experience with conjunctive use, water recycling, groundwater remediation, and groundwater storage and recovery projects.
- She is an expert in developing complex groundwater models and using these models for water budget/safe yield analyses; evaluating recycled water injection and spreading; assessing the effectiveness of the sea water intrusion barriers, siting spreading basins and wells; and designing and optimizing wellfields.
- Ms. Raykhman managed groundwater modeling, conjunctive use and water recycling projects in many basins in Southern California, including West Coast Basin, Central Basin, San Fernando Valley Basin, San Gabriel Basin, and Irvine Subbasin.

STORMWATER FACILITIES

Jenn Coryell, PE

STORMWATER FACILITIES LEAD

Education

- ✓ M.A., Public Policy and Public Administration, Eastern Illinois University, Charleston, IL
- ✓ B.S., Civil Engineering, Marquette University, Milwaukee, WI

Certification/License

- ✓ Professional Engineer

Qualifications

- Ms. Coryell is a senior associate with Hazen and a licensed professional engineer with 18 years of experience in water resources planning and design.
- Her areas of expertise include watershed planning, multi-benefit project conceptualization, green infrastructure planning and design, integrated water resources planning, Total Maximum Daily Load (TMDL) and MS4 Permit compliance planning, and policy planning.

Gabrielle Skipper, PE

STORMWATER FACILITIES

Education

- ✓ MS, Biological and Agricultural Engineering, North Carolina State University
- ✓ BS, Civil Engineering, University of Virginia

Certification/License

- ✓ Professional Engineer

Qualifications

- Ms. Skipper brings a combined 19 years of experience in the public sector and private sector.
- She served as a federal civilian Environmental Engineer with the US Navy/Marine Corps for more than 11 years, with a focus on water resources engineering, project management and program management.
- She has worked at all levels of government, local, state and federal, and brings an understanding of the client perspective to her work as a consultant.

Matthew Jones, PE

STORMWATER FACILITIES

Education

- ✓ PhD, North Carolina State University
- ✓ BS, North Carolina State University

Certification/License

- ✓ Professional Engineer

Qualifications

- Matthew is a recognized expert in the planning and implementation of climate resilience infrastructure. He has played a key role in several marquee climate initiatives.
- He is the corporate lead for coastal and inland stormwater programs, addressing the combination of sea level rise and high intensity rain event. Matthew consistently supports the California technical team.

1014-741

Subconsultants

Hazen has partnered with highly qualified subconsultants that bring knowledge experience allowing our Hazen Team to mobilize quickly to provide reliable and consistent coverage for any on-call project type and scope of services.

Converse Consultants | Geotechnical

Converse Consultants was established in 1946 by Professor Frederick J. Converse in Pasadena, California to provide the construction industry with geotechnical engineering and geological services. Converse's local experience includes geotechnical services for wells, pump station, reservoirs, pipelines, water treatment plants and other related water projects. Recently, Converse completed the geotechnical investigation for the Chromium-6 water treatment facilities project as part of Hazen's team and has investigated sites all over California.

Kyle Groundwater | Goundwater

KYLE Groundwater, Inc. (KGI) was founded in early 2018 by Mr. Russell Kyle in response to demand for experienced and innovative hydrogeological solutions from our Southern California clients. Since that time, KGI has established a large local client base of water agencies and purveyors, and are continuing to grow. They have a reputation of approaching each of our projects with fresh eyes and providing a superior and customized work product.

Traffic Control Engineering | Traffic
